The principles of complex adaptive systems theory are studied and then applied towards the design of resilient and responsive built environments. Topics cover a broad spectrum, including urban informalities, tactical approaches, the capacity of digital infrastructures to coordinate distributed human practices, and emergent phenomena. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 525: Meaning and Form in Architecture**

(3-0) Cr. 3.

*Prereq: Graduate or Senior classification*

Seminar on critical analysis of meaning and form in architecture and human-made environment in various cultural contexts examined from historical and theoretical perspectives. Analytic term paper and weekly readings with discussion questions. Credit counts toward fulfillment of History, Theory, Culture requirements.

Meets International Perspectives Requirement.

**ARCH 527: History, Theory, and Criticism of Chinese Architecture**

(Dual-listed with ARCH 427). (3-0) Cr. 3. F.

*Prereq: ARCH 427: Senior classification, ARCH 527: Graduate classification*

The history and theoretical concept of Chinese built environment with emphasis on the morphology of built form and its relationship to art, landscape design, and urban structure. Credit counts toward fulfillment History, Theory, Culture.

Meets International Perspectives Requirement.

**ARCH 528: Topical Studies in Architecture**

(3-0) Cr. 2-3. Repeatable, maximum of 6 times.

**ARCH 528A: Studies in Architecture: Culture**

(3-0) Cr. 2-3. Repeatable, maximum of 6 times.

*Prereq: ARCH 220, ARCH 221, ARCH 322 or senior classification or graduate standing*

Topical offerings change by semester. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 528B: Studies in Architecture: Technology**

(3-0) Cr. 2-3. Repeatable, maximum of 6 times.

**ARCH 528C: Studies in Architecture: Communications**

(3-0) Cr. 2-3. Repeatable, maximum of 6 times.

**ARCH 528E: Studies in Architecture: Practice**

(3-0) Cr. 2-3. Repeatable, maximum of 6 times.

**ARCH 530: Formworks**

(3-0) Cr. 3. F.S.

Studies and activities showing fabrication as a means of speculation and discourse about materiality. Focus is given to the concepts and values embedded in materials and how we build at various scales.

**ARCH 531: Drawing Culture**

(3-0) Cr. 3.

*Prereq: ARCH 220, ARCH 221, ARCH 322 or senior classification or graduate standing*

Exploration of theories and practices that center on drawing as a fundamental means of knowing.

**ARCH 533: Digital Fabrication**

(Dual-listed with ARCH 433). (3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: ARCH 433: ARCH 230; ARCH 301; Junior, Senior or equivalent skills.**ARCH 533: Graduate Classification and ARCH 601 or equivalent skills.*

Exploration of the computer as a design and manufacturing tool.

Emphasis on developing digital fabrication technologies and workflows.

**ARCH 534: Topics in Computer-aided Architectural Design**

(1-4) Cr. 3. Repeatable, maximum of 6 credits. F.

Emphasis on advanced, exploratory approaches to design computing.

Projects highlight experimentation and integration of multiple media types.

**ARCH 535: Advanced Three-Dimensional Studio**

(1-4) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARCH 335 or Graduate classification*

Advanced investigation of sculptural expression with emphasis on individual projects.

**ARCH 536: Advanced Design Media**

(Dual-listed with ARCH 436). (2-2) Cr. 3. Repeatable, maximum of 6 credits. F.S.

Special topics in design media applications.

**ARCH 538: Architectural Robotics**

(Dual-listed with ARCH 438). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARCH 438: ARCH 231; ARCH 301; or equivalent skills. Junior or Senior or Graduate standing. ARCH 538: Graduate Standing and ARCH 601 or equivalent skills.*

Exploration of robots as design and manufacturing tools for architects. Emphasis on developing robotic technologies and workflows with relevance to architectural design.

**ARCH 539: Computational Design Theory**

(Dual-listed with ARCH 439). (3-0) Cr. 3.

*Prereq: ARCH 220, ARCH 221, and ARCH 322 or senior classification or graduate standing.*

Seminar discussion of critical readings and theories surrounding computational design; This course surveys the history and development of digital computing and its use in design from early thought experiments, to computer-aided design systems, to present day artificial intelligences and robotics. The potentials and consequences of emerging computational design systems are discussed.

**ARCH 540: Regimes of Perception**

(3-0) Cr. 3. F.S.

Exploration of theories, methodologies, and apparatuses of projection as a spatial and material practice. Readings and discussions accompany assignments for projection through drawing, fabrication, and performance.

**ARCH 543: Building Science and Technology I**

(4-4) Cr. 6.

*Prereq: Concurrent enrollment in ARCH 505.*

Introduction to analytical, experimental, and computational methods to understand the impacts of building physics and mechanics of the built environment on human health, safety, and welfare at building scales. Lectures and labs cover environmental forces and systems, materials & assemblies, fundamental structural principles, and digital modeling.

**ARCH 544: Building Science and Technology II**

(2-2) Cr. 3.

*Prereq: ARCH 543. Concurrent enrollment in ARCH 506.*

Extension to the understanding of fundamental building technologies and their impacts. Lectures and labs cover building assemblies, enclosure systems, structural framing components, water management, and measurable indoor environment, to further understand the impact of the built environment on human health, safety, and welfare.

**ARCH 551: Whole Building Energy Performance Modeling**

(Dual-listed with ARCH 451). (2-2) Cr. 3. S.

*Prereq: Undergraduate: ARCH 202, 346, 346L. Graduate: ARCH 544. Open to non-majors by permission of instructor.*

Architectural design, design evaluation and technical analysis using energy, daylighting, and natural ventilation performance modeling tools. Emphasis will be given to whole building energy efficiency including passive and active systems integration.

**ARCH 558: Sustainability and Green Architecture**

(3-0) Cr. 3.

*Prereq: Graduate or Senior classification*

Issues of sustainability as related to living patterns and city design, population, pollution and use and availability of natural resources for the built environment. Issues of green and sustainable architecture as related to critical thinking about methods of building material selection and systems, the environment of the United States and the world, and examples of green or sustainable building designs.

**ARCH 567: Preservation, Restoration, Rehabilitation, Cultural Heritage, and Technology**

(3-0) Cr. 3.

*Prereq: Senior classification*

Standards and procedures—including the use of current digital technologies—for preserving, restoring, reconstructing, and rehabilitating existing buildings following the guidelines of the National Park Service and the National Trust for Historic Preservation. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 568: Historic Preservation**

(3-0) Cr. 3. F.

*Prereq: Senior classification*

The history and theory of the Historic Preservation movement including an overview of the National Trust for Historic Preservation; the National Register of the Historic Places; the National Park Service; federal programs, funding sources, preservation law, national landmarks, and historic districts. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 571: Design for All People**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: Graduate or Senior classification*

Principles and procedures of inclusive design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 575: Contemporary Urban Design Theory**

(3-0) Cr. 3.

*Prereq: Graduate or Senior classification*

Current urban design theory and its application to urban problems. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 576: Study Abroad Options**

Cr. 1-12. Repeatable, maximum of 12 credits. SS.

Special topics in environmental design, architectural history and contemporary practice. Travel to relevant countries. General cultural and historical studies, topical projects and individual inquiry. Courses may be taught by departmental faculty or faculty from approved Iowa State Study Abroad programs. See current offerings for detailed syllabus.

Meets International Perspectives Requirement.

**ARCH 581: Making and Material Practice**

(1-12) Cr. 5. SS.

*Prereq: ARCH 506, ARCH 546, ARCH 546L, and ARCH 596*

Planning and execution of a project serving a community need. Learning occurs through both theory and active involvement in on-site work. Projects connect previous coursework to practical applications and community involvement.

**ARCH 582: Professional Practice**

(Dual-listed with ARCH 482). (3-0) Cr. 3. F.

*Prereq: Junior classification and ARCH 371*

Emphasis on the circumstances and opportunities of the professional practice of architecture: practice as profession, process, organization, business, and evolving models of practice.

**ARCH 590: Special Topics**

Cr. 1-5. Repeatable.

*Prereq: Written approval of instructor and department chair on approved form*  
Investigation of architectural issues having a specialized nature.

**ARCH 595: Seminar on the Built Environment I: History**

(3-0) Cr. 3. F.

*Prereq: Admission to the M. Arch. program and concurrent enrollment in ARCH 505, ARCH 545, and ARCH 545L*

Introduction to historical canons and traditions of architecture and urbanism. Discussion of the relationship between historical inquiry and contemporary practice. Students learn skills in critical thinking, visual analysis, and research methods. Course sessions develop thematically with interdisciplinary readings, group discussions, student presentations, and research projects.

**ARCH 596: Seminar on the Built Environment II: Landscape and Society**

(3-0) Cr. 3. S.

*Prereq: ARCH 505, ARCH 545, ARCH 545L, ARCH 595 and concurrent enrollment in ARCH 506, ARCH 546, and ARCH 546L*

Introduction to landscape as artifact and multi-disciplinary knowledge-base for design thinking. Literatures and methods of environmental psychology, cultural geography, landscape and architectural history and theory, site and circulation design as intersection of built infrastructural, natural, and social systems. Emphasis on sensory perception, and human movement; investigations of climate, environmental conditions, and values toward consumption and sustainability in everyday experience of the built environment.

**ARCH 597: Seminar on the Built Environment III: Theory**

(3-0) Cr. 3. F.

*Prereq: Graduate or Senior classification*

Multidisciplinary overview of contemporary theories concerned with the production of the built environment. Particular attention to urbanism as a discourse that relates social interactions and power structures to material space. Credit counts toward fulfillment of History, Theory, Culture requirements.

Meets International Perspectives Requirement.

**ARCH 598: Seminar on the Built Environment IV: Topical Study**

(3-0) Cr. 3. S.

*Prereq: Graduate or Senior classification*

A research seminar which considers a topic within contemporary discourses on the built environment outside of Europe and North America. The topic will be studied from multiple perspectives highlighting the historical and theoretical relationships between architecture, global cultures, geography, landscape, and urban planning. Credit counts toward fulfillment History, Theory, Culture requirements.

**Courses for graduate students:****ARCH 601: Sustainable Building Design**

(0-12) Cr. 6. F.

*Prereq: ARCH 507, ARCH 546, ARCH 546L, and ARCH 596 and concurrent enrollment in ARCH 547 and ARCH 547L*

Design projects that are developed through integrative design strategies that explore the relationship between buildings and environmental forces to maximize non-wasteful, efficient use of resources such as energy, water and building materials. Projects will include investigations of the impact of solar energy, airflow, building materials, passive and active systems and wall sections on spatial quality and form making while demonstrating synthesis of user requirements, regulatory requirements, site conditions, and accessible design. Design decisions will be quantitatively validated through energy modeling and performance simulation.

**ARCH 602: Communities, Architecture and the Environment**

(0-12) Cr. 6. S.

*Prereq: ARCH 601, ARCH 547 ARCH 547L, ARCH 597 and concurrent enrollment in ARCH 548 ARCH 548L*

Design projects that explore the relationships between architectural, cultural, and environmental landscapes. Emphasis on regional sites, socio-economic conditions, and sustainable design and planning practices at multiple scales. Projects stress engagement with local circumstances and stakeholders; systemic interconnections and strategies; and the application of interdisciplinary research.

**ARCH 603: Integrative Design**

(0-12) Cr. 6. F.

*Prereq: ARCH 602, ARCH 548 ARCH 548L*

Rigorous examination of architecture's relationship with culture and technology. Studio projects stress the interpretation of contextual and historical considerations while demonstrating broad integration and consideration of environmental stewardship, technical documentation, accessibility, site conditions, life safety, environmental systems, structural systems, and building envelope systems and assemblies. This course fulfills the Graduate College Creative Component Requirement.

**ARCH 604: Design Studio Options**

(0-12) Cr. 6. Repeatable, maximum of 12 credits. S.

*Prereq: ARCH 602*

Design studio selected by the students, which may include but is not limited to: independent design study, interdisciplinary design studio, study abroad, and design build. DSN S 546 for 6 cr. may be substituted for this course.

**ARCH 641: Building Science and Technology III**

(2-2) Cr. 3.

*Prereq: ARCH 544 or advanced standing in the M.Arch program. Concurrent enrollment in ARCH 602.*

Synthesis of building technologies and design process to understand the impacts of building technologies on occupants and the natural/urban environment. Lectures and labs cover active environmental control systems, fire safety, transportation, constructed building assemblies and details, multi-story structural design, and the utilization of computational simulations.

**ARCH 642: Building Science and Technology IV**

(2-2) Cr. 3.

*Prereq: ARCH 641. Concurrent enrollment in ARCH 601.*

Explorations of emerging building technologies and their impacts on the environment and society. A view into emerging technologies in architecture with an emphasis on adaptability through experimentation and inquiries. Topics include novel materials, assembly techniques, long-span structural systems, renewable energy production, and smart systems.

**ARCH 690: Independent Design Study**

(1-15) Cr. 6. Repeatable.

*Prereq: Admission to the M. S. in Arch. program*

Independent architectural design projects commensurate with student interests requiring approval of Architecture Graduate Committee.

**ARCH 698: Graduate Seminar**

Cr. R. Repeatable. F.S.

*Prereq: Admission to the M. Arch. or M. S. in Arch. programs*

Special topics and guest speakers.

**ARCH 699: Research**

(1-18) Cr. 3-9. Repeatable.

Research.

## Art Education (ARTED)

***Any experimental courses offered by ARTED can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****ARTED 209: Methods of Teaching in and Through Art**

(0-4) Cr. 2. F.S.

*Prereq: Sophomore classification*

Methods of teaching in and through visual art are experienced and applied in this course. Art-centered and interdisciplinary art education methods for K-8 teaching are designed to develop creativity, authentic expression, collaboration, aesthetic sensitivity and pluralistic, global perspectives.

**ARTED 211: Introduction to Art Education**

(0-6) Cr. 3. F.S.

*Prereq: Sophomore classification*

Teaching methods for K-12 art education. Hands-on discipline-specific and integrated art activities are experienced and designed; emphasis is on creativity, artistic and human diversity, community building, and development of thinking skills in holistic, pluralistic art education.

**ARTED 490: Independent Study**

Cr. arr. F.

*Prereq: Permission of Instructor*

## Art History (ART H)

***Any experimental courses offered by ART H can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**ART H 280: History of Art I**

(3-0) Cr. 3. F.

Development of the visual arts including painting, sculpture, architecture, and crafts, from the prehistoric through Gothic periods.

Meets International Perspectives Requirement.

**ART H 281: History of Art II**

(3-0) Cr. 3. S.

Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from the Renaissance to the twentieth century.

Meets International Perspectives Requirement.

**ART H 281H: History of Art II: Honors**

(3-0) Cr. 3. S.

Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from the Renaissance to the twentieth century.

Meets International Perspectives Requirement.

**ART H 292: Introduction to Visual Culture Studies**

(3-0) Cr. 3.

An introduction to various topics in visual culture studies, including significant trends in the visual arts, mass media, scientific imagery, visual communications, and other areas related to visual literacy and visual representation in local and global contexts. Cross cultural viewpoints and issues of diversity will be presented in relation to visual culture.

**ART H 293: Origins and Evolution of Modern Design**

(3-0) Cr. 3.

History of designed artifacts, their creators, and their cultural environments in Europe and America from the beginning of the Industrial Revolution to the present.

**ART H 382: Art and Architecture of Asia**

(3-0) Cr. 3.

Introduction to histories of art and architecture in Asia before the modern era. Cultures may include China, Korea, Japan, and India. Art traditions of Asia are explored in relation to their cultural, historical, and religious contexts.

Meets International Perspectives Requirement.

**ART H 383: Greek and Roman Art**

(Cross-listed with CL ST). (3-0) Cr. 3.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

**ART H 383H: Greek and Roman Art: Honors**

(Cross-listed with CL ST). (3-0) Cr. 3-4.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

**ART H 384: Art of Islam**

(3-0) Cr. 3.

Historical survey of the painting, sculpture, crafts, and architecture of the various civilizations of the Islamic world.

Meets International Perspectives Requirement.

**ART H 384H: Art of Islam, Honors**

(3-0) Cr. 3-4.

Historical survey of the painting, sculpture, crafts, and architecture of the various civilizations of the Islamic world.

Meets International Perspectives Requirement.

**ART H 385: Renaissance Art**

(3-0) Cr. 3.

European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

**ART H 385H: Renaissance Art, Honors**

(3-0) Cr. 3-4.

European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

**ART H 386: American Art to 1945**

(3-0) Cr. 3.

Survey of American art from the early colonial period to 1945, with emphasis on historical and cultural issues that underlie art production in the United States.

**ART H 388: Modern Art and Theory**

(3-0) Cr. 3.

Visual arts and critical theory of the late 19th and early 20th centuries, including Expressionism, Cubism, Futurism, Suprematism, Dada, and Surrealism.

**ART H 395: Art and Theory Since 1945**

(3-0) Cr. 3.

Visual arts and critical theory after 1945, including Abstract Expressionism, Pop Art, and Performance Art.

**ART H 396: History of Photography**

(3-0) Cr. 3.

Survey of the evolution of photography and photojournalism from the 1830s to the present, seen from an art historical perspective, emphasizing causative factors, cultural influences, and major masters and schools.

**ART H 460: The World on Display**

(3-0) Cr. 3.

Survey of world's fairs and other international exhibitions, focusing on their displays of art, manufacturing, luxury goods and industrial products, and relating to overarching discourses of nationalism, colonialism, and political supremacy as they were articulated within the exhibitions.

**ART H 486: Art History Field Study**

Cr. R. Repeatable.

*Prereq: Concurrent enrollment in an ART H course; Permission of Instructor*

Study and tours of museums, galleries, artist and/or designer studios and other areas of interest within art history. Offered on a satisfactory-fail basis only.

**ART H 487: Nineteenth-Century Art**

(3-0) Cr. 3.

European and American art and architecture from 1780 to 1900 focusing on the major movements of western Europe, including Neoclassicism, Romanticism, Realism, Impressionism, and Post-Impressionism.

**ART H 489: History of Comics**

(Dual-listed with ART H 589). (3-0) Cr. 3.

An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

**ART H 489H: History of Comics: Honors**

(3-0) Cr. 3-4.

An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

**ART H 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form before the semester of enrollment*

Student must have completed art history coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ART H 490H: Independent Study, Honors**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form before the semester of enrollment*

Student must have completed art history coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ART H 491: Art History in Europe Seminar**

(1-0) Cr. 1.

*Prereq: Permission of instructor and planned enrollment in ART H 492*

Cultural and historical aspects of art and design in Western Europe in preparation for study abroad. Area of study varies each time offered.

Offered on a satisfactory-fail basis only.

Meets International Perspectives Requirement.

**ART H 492: Art History in Europe**

(Dual-listed with ART H 592). (3-0) Cr. 3.

*Prereq: ART H 492: ART H 491; Permission of Instructor. ART H 592: Graduate classification; Permission of Instructor*

International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered.

Meets International Perspectives Requirement.

**ART H 494: Women/Gender in Art**

(Cross-listed with WGS). (3-0) Cr. 3.

Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

**ART H 497: Museum/Gallery Internship**

Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: Written approval of supervising instructor on required form in advance of semester of enrollment.*

Supervised experience with a cooperating museum or gallery or art center. Offered on a satisfactory-fail basis only.

**ART H 498: Selected Topics in Art History**

(Dual-listed with ART H 598). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

Specialized study in the history or criticism of art and/or design.

**ART H 499: Visual Culture Studies Writing and Methods Seminar**

(3-0) Cr. 3.

Sustained exploration of topics related to Visual Culture Studies. Course incorporates introduction to methods central to the field of visual culture studies, writing exercises, and guided instruction in the process of conducting research and reporting results of the research process. Course will result in an original paper.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ART H 501: Issues in Visual and Material Culture Seminar**

(3-0) Cr. 3.

*Prereq: Permission of instructor*

Issues and debates that pertain to the study of visual objects and material artifacts in their cultural context. Examination of the role of visual and material culture studies as both relate to allied disciplines including, but not limited to: anthropology, art history, design history, design studies, and new media studies.

**ART H 586: Museum/Gallery Internship**

Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification and permission of instructor. Written approval in advance of semester of enrollment.*

Supervised experience with a cooperating museum or gallery or art center. Offered on a satisfactory-fail basis only.

**ART H 587: Nineteenth Century Art**

(3-0) Cr. 3.

European and American art and architecture from 1780 to 1900, focusing on the major movements of western Europe, including Neoclassicism, Romanticism, Realism, Impressionism, and Post-Impressionism.

**ART H 588: Modern Art and Theory**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Visual arts and critical theory of the late 19th and early 20th centuries, including Expressionism, Cubism, Futurism, Suprematism, Dada and Surrealism.

**ART H 589: History of Comics**

(Dual-listed with ART H 489). (3-0) Cr. 3.

An art-historical survey of comic strips, comic books, and graphic novels from their origins in the 19th century to present.

**ART H 590: Special Topics**

Cr. arr.

*Prereq: Graduate classification; written approval of instructor and department chair on required form in advance of semester of enrollment.*

Independent Study in Art History.

**ART H 592: Art History in Europe**

(Dual-listed with ART H 492). (3-0) Cr. 3.

*Prereq: ART H 492; ART H 491; Permission of Instructor. ART H 592: Graduate classification; Permission of Instructor*

International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered. Meets International Perspectives Requirement.

**ART H 594: Women/Gender in Art**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

**ART H 595: Art and Theory Since 1945**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Visual arts and critical theory after 1945, including Abstract Expressionism, Pop Art, and Performance Art.

**ART H 596: History of Photography**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Survey of the evolution of photography and photojournalism from the 1830s to the present, seen from an art historical perspective, emphasizing causative factors, cultural influences, and major masters and schools.

**ART H 597: Green Art: Earthworks and Beyond**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Seminar covering aspects of art and design based on ecological principles, including earthworks, land-based art, recycled/reused objects, ecofeminism, ephemerality, and green design.

**ART H 598: Selected Topics in Art History**

(Dual-listed with ART H 498). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

Specialized study in the history or criticism of art and/or design.

## Astronomy and Astrophysics (ASTRO)

*Any experimental courses offered by ASTRO can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**ASTRO 102: North Star Astronomy**

Cr. 1. F.S.SS.

An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Canvas. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

**ASTRO 103: Evening Star**

Cr. 1. F.S.SS.

An entirely web-based course covering topics in celestial mechanics ("Rocket science!") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via Canvas. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

**ASTRO 120: The Sky and the Solar System**

(3-0) Cr. 3. F.S.SS.

For the nonscientist. A survey of our view of the universe, and the exploration of the solar system and beyond. The sky: constellations; motions of the Sun, Moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the Sun, planets, satellites, comets, meteorites, and asteroids. The detection and characterization of other solar systems, and the search for life in the universe. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

**ASTRO 150: Stars, Galaxies, and Cosmology**

(3-0) Cr. 3. F.S.

For the nonscientist. A survey of astronomy with a focus on the universe beyond our solar system. Basic observational astronomy and the history of astronomy. Stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The structure and evolution of the Milky Way Galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

**ASTRO 250: Astronomy Bizarre**

(3-0) Cr. 3. S.

*Prereq: ASTRO 120 or ASTRO 150*

For the nonscientist. A small enrollment course examining new and exciting topics in modern astronomy. Galaxy and star formation. Black holes and pulsars. Colliding galaxies. Quasars. Dark Matter. Dark energy. Quasars. Cosmology, the Big Bang and the future of the universe. Prospects and searches for extraterrestrial life.

**ASTRO 290: Independent Study**

Cr. 1-4. Repeatable.

*Prereq: Permission of Instructor***ASTRO 342: Introduction to Solar System Astronomy**

(3-0) Cr. 3. F.

*Prereq: PHYS 222 or (PHYS 232 and 232L) or PHYS 242*

An introduction to the physics of the Solar System and the planetary systems discovered around other stars. General characteristics of planetary systems: dynamics, thermodynamics, internal and surface structure of planets and minor bodies, physics of their atmosphere. Discovery techniques and characterization of extrasolar planets, and planetary systems formation models. "Grand tour" of the Solar System, using data and imagery from probes and telescopes that have visited these worlds. The origin and evolution of life on Earth, and the ongoing search for life in the Solar System and elsewhere in the universe.

**ASTRO 344L: Astronomy Laboratory**

(1-6) Cr. 3. F.

*Prereq: PHYS 222 or (PHYS 232 and 232L) or 242*

Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Data processing and analysis techniques. Astronomical software packages and online databases and resources. Available instruments include a variety of small telescopes and astronomical CCD cameras.

**ASTRO 346: Introduction to Astrophysics**

(3-0) Cr. 3. S.

*Prereq: PHYS 222 or (PHYS 232 and 232L) or PHYS 242*

An exploration of the universe beyond our Solar System, with emphasis on the astrophysics of stars and galaxies. Observable properties of stars, physics of stellar atmospheres and interiors. Birth, evolution and death of stars, to understand the past and future of our Sun, the Milky Way galaxy and the other galaxies in the universe. Basic concepts of cosmology, dark matter and dark energy. Use of computer models to calculate the structure and evolution of stars and protostars, and to analyze actual astronomical data obtained by professional astronomers.

**ASTRO 405: Astrophysical Cosmology**

(Dual-listed with ASTRO 505). (3-0) Cr. 3. S.

*Prereq:* 405: ASTRO 346 or Permission of Instructor

Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

**ASTRO 450: Undergraduate Research**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq:* Permission of Instructor

Research under supervision of astronomy faculty.

**ASTRO 450L: Undergraduate Research**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq:* ASTRO 344L; Permission of Instructor

Laboratory or observational project under supervision of astronomy faculty.

**ASTRO 490: Independent Study**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq:* 6 credits in ASTRO; Permission of Instructor

No more than 9 credits of Astro 490 may be counted toward graduation.

**ASTRO 490H: Independent Study: Honors**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq:* 6 credits in ASTRO; Permission of Instructor

No more than 9 credits of Astro 490 may be counted toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ASTRO 505: Astrophysical Cosmology**

(Dual-listed with ASTRO 405). (3-0) Cr. 3. S.

*Prereq:* 405: ASTRO 346 or Permission of Instructor

Introduction to modern cosmology and large-scale structure; mathematical and observational fundamentals associated with the origin, structure, and evolution of the Universe. Scale of the Universe, Hubble's Law, the cosmic microwave background, Big Bang nucleosynthesis, the origin of elements, dark energy and the accelerating universe, and dark matter. For senior undergraduates and graduate students in all areas of physics.

**ASTRO 510: Observational Astrophysics**

(2-3) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq:* ASTRO 405 or ASTRO 505 or permission of instructor

Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.

**ASTRO 580: Stellar Astrophysics**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq:* ASTRO 405 or ASTRO 505 or permission of the instructor

The interior structure and atmospheric properties of stars: Stellar structure equations and constitutive relations: energy generation, energy transport by radiation and convection; equation of state, nuclear energy generation and nucleosynthesis. Numerical and analytic solutions to the equations of structure and evolution. Observational connections through the theory of radiative transfer. Line and continuum processes and sources of opacity. Non-LTE and statistical equilibrium. Line profiles. Interpretation of stellar spectra: temperature, pressure, and abundance determinations. Stellar evolution from formation to final phases.

**ASTRO 582: High Energy Astrophysics**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq:* ASTRO 405 or ASTRO 505 or permission of the instructor

Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrinos, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

**ASTRO 584: Galactic Astronomy**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq:* ASTRO 405 or ASTRO 505 or permission of instructor

Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

**ASTRO 586: Extragalactic Astronomy**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq:* ASTRO 405 or ASTRO 505 or permission of the instructor

Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

**ASTRO 590: Special topics**

Cr. arr. Repeatable.

**ASTRO 599: Creative Component**

Cr. arr.

*Prereq: Permission of instructor*

Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

**Courses for graduate students:****ASTRO 650: Advanced Seminar**

(1-0) Cr. 1. Repeatable. F.S.

Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

**ASTRO 675: Advanced Stellar Astrophysics**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: ASTRO 580 or permission of instructor*

Advanced topics in stellar astrophysics. Dynamic and extended atmospheres, chromospheres, coronae, and stellar winds. MHD, stellar activity, and dynamo theory. Radiative transfer and the transition from extended atmospheres to the interstellar medium. Diffusive processes in stellar atmospheres and interiors. Techniques for quantitative analysis of planetary and stellar spectra including detailed modeling and spectrum synthesis. Evolution in interacting binaries. Nucleosynthesis II. Variable stars. Supernovae. Neutron stars and black holes.

**ASTRO 699: Research**

Cr. arr. Repeatable.

## Athletic Training (A TR)

*Any experimental courses offered by A TR can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****A TR 217: Clinical Practicum in Athletic Training I**

Cr. 1. S.

*Prereq: A TR 221; Permission of Athletic Training Program Director*

Athletic training clinical experiences for pre-athletic training students. Offered on a satisfactory-fail basis only.

**A TR 218: Orientation to Athletic Training Clinical Experience**

(0-2) Cr. 0.5. Repeatable, maximum of 1 credits. F.S.

Pre-athletic training clinical experience designed to orientate students to the athletic training profession prior to enrolling in athletic training course sequence. Students will observe athletic trainers in various athletic training clinical sites. Open to pre-athletic training students only. Offered on a satisfactory-fail basis only.

**A TR 219: Anatomy Clinical Practicum**

(0-2) Cr. 1. S.

Athletic training clinical experiences designed to review human anatomical structures including origin, insertion, action, innervations of muscles. Students will gain experience with palpation of these structures to help identify location of anatomical landmarks. Students will also gain experience identifying bones, ligaments, and tendons. Open to athletic training students only.

**A TR 220: Basic Athletic Training**

(1-2) Cr. 2.

*Prereq: (BIOL 155 or BIOL 255); BIOL 256*

Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries.

**A TR 221: Pre-Athletic Training Clinical Practicum**

(0-3) Cr. 1. F.

Athletic training clinical observation experiences to accompany A TR 220. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Offered on a satisfactory-fail basis only.

**A TR 223: Preseason Clinical Experience Practicum**

(0-3) Cr. 1. F.

*Prereq: Permission of Clinical Coordinator*

Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Emergency care, splinting and spinal immobilization, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, and anatomy review. Offered on a satisfactory-fail basis only.

**A TR 228: Basic Orthopedic Assessment and Evaluation Principles**

Cr. 2. F.

*Prereq: A TR 219*

Assessment procedures and evaluation techniques for upper and lower body orthopedic conditions and injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, spine or neurological dysfunction.

**A TR 229: Clinical Practicum in Athletic Training II**

Cr. 1. F.

*Prereq: Concurrent enrollment in A TR 228*

Pre-Athletic training clinical experiences designed to orientate students to the assessment and evaluation principles of upper and lower body orthopedic conditions and injuries. Pre-athletic training students will observe athletic trainers in various athletic training clinical sites. Concurrent enrollment in A TR 228. Offered on a satisfactory-fail basis only.

**A TR 328: Athletic Injuries Clinical Practicum**

Cr. 1.

*Prereq: A TR 229*

Athletic training clinical experiences for pre-athletic training students. Clinical experiences include: prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, and anatomy review. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**A TR 501: Bracing, Wrapping, and Taping Techniques**

(0-3) Cr. 1.

*Prereq: Acceptance into Athletic Training program*

Methods to select, fabricate, and/or customize prophylactic, assistive, and restrictive devices, material, and techniques into plan of care (durable medical equipment, orthotic devices, taping, bracing, splinting, protective padding, and casting). Methods of taping and wrapping for injury care, mitigation of injury, and return to play. Exposure to different brands of bracing, how to fit a brace, and their use as well as casting techniques. Discussions of when to refer for prosthetics and overview of gait training.

**A TR 502: Emergency Care Procedures in Athletic Training**

(3-0) Cr. 3. SS.

*Prereq: Acceptance into Athletic Training program*

Overview of medical emergencies and other critical incidents that may occur. Evaluate and manage patients with acute conditions including triaging conditions and internal/external hemorrhage. Cardiac, respiratory, and cervical spine compromise. Conditions related to environment, fractures, dislocations, and wound care and closure. Concussion/brain injury with consideration of established protocols including: comprehensive examination, recognition, and treatment, implementation of a plan of care, referral, and return to participation.

**A TR 505: Therapeutic Modalities and Clinical Interventions**

(2-2) Cr. 3. F.

*Prereq: A TR 502, A TR 520, acceptance into Athletic Training program*

Knowledge and skills to utilize a variety of therapeutic modalities. Detailed understanding of the psychological and physiological process of pain, healing and a problem-based approach to apply theories, principles, and techniques of thermal, electrical, mechanical, light, and alternative therapies (laser, cryotherapy). Incorporation interventions (for pre-, post-, and non-surgical conditions) designed to address a patients' identified impairments, activity limitations, injuries, and participation restrictions. Home care to include self-treatment, soft tissue techniques.

**A TR 509: Athletic Training Clinical Education I**

Cr. 1. SS.

*Prereq: Acceptance into Athletic Training program*

Clinical experiences under the direct supervision of a clinical preceptor. Techniques and clinical skills provided in both the clinical and classroom settings including: Special Olympics, emergency department rotation, environmental conditions, off season practice and conditioning sessions, biometrics/physiological monitoring systems and translation of data into effective preventative measures, clinical interventions, and performance enhancement.

**A TR 510: Evaluation Methods and Treatment Techniques - Lower Body**

(2-2) Cr. 3. F.

*Prereq: A TR 502, A TR 520, acceptance into Athletic Training program*

Proper methods of musculoskeletal evaluation of the lower extremity. Evaluate and manage patient(s) with acute conditions including triaging conditions that are life threatening or otherwise emergent. Obtain a medical history, proper methods of documentation, patient overview (including ICF model), identification of comorbidities, assessment of function, selection and use of special tests and measures assessing patient's clinical presentation, clinical practice decisions, evaluation of all results to determine a plan of care, including referral when warranted. Selection and incorporations of interventions designed to address a patient's identified impairments, activity limitations, and participation restriction.

**A TR 513: Evaluation Methods and Treatment Techniques - Upper Body**  
(3-0) Cr. 3. S.*Prereq: A TR 510, A TR 521, acceptance into Athletic Training program*

Proper methods of musculoskeletal evaluation of the upper extremity including spine. Evaluate and manage patient(s) with acute conditions. Obtaining a medical history, methods of documentation, assessment of function, selection and use of special tests and measures assessing patient's clinical presentation, determine a plan of care, including referral when warranted. Selection and incorporations of interventions designed to address a patient's identified impairments, activity limitations, and participation restrictions, using ICF model for clinical practice decisions. Review of concussion evaluation, protocols, and return to play following a head injury/concussion.

**A TR 515: Evidence-based Practice in Athletic Training**  
(2-0) Cr. 2. SS.*Prereq: A TR 522, A TR 545, acceptance into Athletic Training program*

Principles of evidence-based practice, search for evidence, grading and evaluating literature. Use of systems of quality assurance and improvement to enhance patient care, search, retrieve, and incorporating the use of contemporary principles and practices information from health informatics for clinical decisions and communication with patients/clients, family members, coaches, administrators, other healthcare providers, consumers, payors, and/or policy makers. Use of the International Classification of Functioning, Disability, and Health (ICF) as a framework for delivery and communication about patient care.

**A TR 519: Athletic Training Clinical Education II**  
Cr. 3. F.*Prereq: A TR 510, A TR 521, acceptance into Athletic Training program*

Clinical experiences under the supervision of a clinical preceptor with client/patient populations in competitive, recreational, individual and team activities, with foundational behaviors of professional practice. Real client/patient interactions as well as assessment of clinical component procedures and policies. Clinical hours occur in a variety of settings with patients and the student will complete the clinical hours that may extend prior to and/or beyond the academic semester end date. Clinical opportunities provide a basis for evaluating the athletic training student's clinical progression through the program.

**A TR 520: Athletic Training Seminar A - An Introduction to Athletic Training**  
(1-0) Cr. 1. SS.*Prereq: Acceptance into Athletic Training program*

Introduction to athletic training program and an overview of policies and procedures, and program handbook. History of athletic training, professional domains, electronic health records, ethics, cultural competence, social justice, HIPPA, and FERPA confidentiality, and professionalism.

**A TR 521: Athletic Training Seminar B - Diagnostic Imaging and Lab Principles**

(1-0) Cr. 1. F.

*Prereq: A TR 502, A TR 520, acceptance into Athletic Training program*

Procedures on obtaining via the appropriate physician and medical staff the necessary and appropriate diagnostic tests or labs to facilitate diagnosis, referral, and treatment planning. Using evidence to inform practice and utilize systems of quality assurance and improvement to enhance patient care. Communicate and collaborate with other medical interprofessionals including radiologists, x-ray technicians, medical laboratory scientists and clinical lab technicians for best patient care and outcomes.

**A TR 522: Athletic Training Seminar C - Interprofessional Collaboration and Leadership**

(1-0) Cr. 1. S.

*Prereq: A TR 510, 521, acceptance into Athletic Training program*

Explore other allied health care professions and interprofessional collaboration for optimal patient care and referral. Total patient care and how different professions can impact the care will be explored and discussed. Participation in roundtable discussions with other interprofessional health professions and students are exposed to foundational behaviors of professional practice including but not limited to: communication, work/family balance, ethics, mentorship, leadership, professional involvement, and promotion of the profession.

**A TR 523: Athletic Training Seminar D - Advanced Topics in Athletic Training**

(1-0) Cr. 1. SS.

*Prereq: A TR 522, A TR 545, acceptance into Athletic Training program*

Advanced clinical experiences and specialty training that includes exposure to soft tissue mobilization techniques, gait analysis and sport science technologies related to injury mitigation and sport performance.

**A TR 524: Athletic Training Seminar E - Professional Development in Athletic Training**

(2-0) Cr. 1. S.

*Prereq: A TR 515, A TR 550, and permission of the Athletic Training Program Director*

Assess the athletic training students' mastery of knowledge and clinical skills in athletic training, prepare students for employment, continuing education, and self-assessment. Utilizes a case study approach covering all of the domains of athletic training and demonstrates interprofessional and interdisciplinary connections. Review of all of the athletic training domains via specific exams (written, simulation and computer based) will be utilized to prepare the student to challenge the BOC examination.

**A TR 529: Athletic Training Clinical Education III**

Cr. 3. S.

*Prereq: A TR 510, A TR 521, A TR 519, acceptance into Athletic Training program*

Clinical experiences under the supervision of a clinical preceptor with client/patient populations in competitive, recreational, individual and team activities, high and low intensity activities with foundational behaviors of professional practice. Real client/patient interactions as well as assessment of clinical component procedures and policies. Clinical hours occur in a variety of settings with patients and the student will complete the clinical hours that may extend prior to and/or beyond the academic semester end date. Clinical opportunities provide a basis for evaluating the athletic training student's clinical progression through the program.

**A TR 539: Athletic Training Clinical Education IV**

Cr. 2. SS.

*Prereq: A TR 522, A TR 545, A TR 529, acceptance into Athletic Training program*

General medicine clinical experiences under the direct supervision of a clinical preceptor. Advanced issues in the athletic training profession with emphasis on practical application and professional development, and collaboration with other health care professionals. Utilization of evidenced based research and approaches to clinical practice with emphasis placed on lab reports, imaging results, life-span issues, and diverse patient populations including non-sport client/patient populations, different sexes and throughout the lifespan (pediatric, adult, elderly). Foundational behaviors of professional practice and emphasis will focus on evaluation, treatment, rehabilitation, and clinical skills.

**A TR 545: Therapeutic Exercise and Rehabilitation Interventions**

(2-2) Cr. 3. S.

*Prereq: A TR 510, A TR 521, acceptance into Athletic Training program*

Therapeutic and corrective exercise, joint mobilization, soft tissue techniques, movement training (including gait training), motor control/proprioceptive activities, task-specific functional training, home and self-care including self-treatment and exercise, cardiovascular training. Pre-, post-, and non-surgical conditions and addressing activity limitations, patient goals, participation restrictions, quality assurance and quality improvement, patient reported outcomes, and return to play guidelines.

**A TR 549A: Athletic Training Clinical Education Study Abroad: Preparing for the Experience**

Cr. 1. S.

*Prereq: In addition to the study abroad application requirements, students must be accepted into their intended program, must be a sophomore or junior classification, or graduate student majoring in Athletic Training, minimum GPA of 3.0, and completion of A TR 220, or A TR 229.*

Preparation for a study abroad experience that is focused on the discipline of athletic training in another country. Pre-travel for A TR 549B study abroad experience.

Meets International Perspectives Requirement.

**A TR 549B: Athletic Training Clinical Education Study Abroad**

Cr. 1-3. S.

*Prereq: Accepted to study abroad by the A TR Program Director and passing A TR 549A.*

First-person perspective into the athletic training profession in another country as well as provide enrichment experiences related to the history and culture of that country. Follow-up course and experience of one credit A TR 549A which was intended to prepare the student for the study abroad experience.

Meets International Perspectives Requirement.

**A TR 550: Pharmacological Issues in Athletic Training**

(2-0) Cr. 2. SS.

*Prereq: A TR 522, A TR 545, acceptance into Athletic Training program*

General medical and pharmacological issues generally found in the field of athletic training. Medications used to treat medical conditions and the ability to educate patients regarding appropriate pharmacological agents for the management of their condition, including indications, contraindications, dosing, interactions, and adverse reactions.

Administration of medications by the appropriate route upon the order of a physician or other provider with legal prescribing authority. Educate clients/patients about effects, participation consequences, risks of misuse and abuse of alcohol, performance-enhancing drugs/substances; and over the counter, prescription and recreational drugs including drug testing policies and procedures.

**A TR 559: Athletic Training Clinical Education V**

Cr. 4. F.

Course monitors student progression of athletic training proficiencies, acquiring clinical skills under the direct supervision of a clinical preceptor. Field experience provides additional athletic training experiences and clinical responsibilities for a minimum of two 8 week rotations under the direct supervision of a clinical preceptor. Required to complete a minimum of 25 hrs per week of field clinical experience. Clinical experience may extend beyond the academic semester end date and the clinical hours are a component of this course.

**A TR 560: General Medical and Behavioral Health Issues**

(3-0) Cr. 3. SS.

*Prereq: A TR 522, A TR 545, acceptance into Athletic Training program*

Medical issues generally observed in the athletic training profession. Development and implementation of wellness strategies to mitigate the risk for long-term health conditions across the lifespan and in an active population. Topics including dermatology, mental illness, neurological disorders, pulmonary disease, respiratory infections, viral infections, autoimmune disorders, oncology, gastrointestinal conditions and sexually transmitted infections. Identify, refer, give support to patients with behavioral health conditions and interact with other healthcare providers.

**A TR 569: Athletic Training Immersion Clinical Education VI**

Cr. 5. S.

*Prereq: Permission of Athletic Training Program Director*

Cumulative clinical experience to gain a more in-depth experience in the field of athletic training. Student selects a field or site experience that meets their professional goals. Field experience is designed to provide immersive and additional athletic training experiences for a minimum of 10 weeks under the direct supervision of a certified athletic trainer. Site approved by the preceptor and A TR program director prior to beginning the immersion clinical experience. Required to complete a minimum of 25 hours per week of field experience. Clinical experience may extend beyond the academic semester end date and the clinical hours are a component of this course.

**A TR 570: Injury Intervention, Rehabilitation and Patient Care**

(2-2) Cr. 3. F.

*Prereq: A TR 515, A TR 550, A TR 560 and acceptance into Athletic Training program*

Basic understanding of injury and sport psychology and its application to the overall health and well-being of athletic and general population clients. Psychological, social, socio-economical, and environmental factors that influence a client/patient and in their injury susceptibility, reaction, immediate care, and adherence to rehabilitation will be explored. Assessment and intervention techniques to promote and facilitate rehabilitation in a variety of professional settings and with patients from different backgrounds and social issues that may impact a patient. Overview of special populations (adolescent, female, special populations of athletes/physically active patients). Foundational behaviors of professional practice and working with other allied health care professionals in the overall health and well-being of a patient will be explored.

**A TR 575: Athletic Training Organization and Administration**

(3-0) Cr. 3. S.

*Prereq: Concurrently enrolled in A TR 569.*

Knowledge and skills necessary for the administration aspect of an athletic training program. Course content includes but is not limited to: PPEs, how to manage physical, human, and financial resources in the delivery of healthcare services. Discussion of patient and insurance management, working relationships with interprofessional members of the health care team, policies and procedures for guidance in the daily operation of athletic training services including EAP or other critical incidents (concussion or other brain injuries), patients in behavioral health crisis, record keeping, athletic training facility design, resume development, and administrative/leadership skills and mentoring.

## Athletics (ATH)

**Courses primarily for undergraduates:****ATH 101: Intercollegiate Athletics**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101B: Intercollegiate Athletics: Basketball (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101C: Intercollegiate Athletics: Basketball (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101D: Intercollegiate Athletics: Cross Country (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101E: Intercollegiate Athletics: Cross Country (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101F: Intercollegiate Athletics: Football (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101G: Intercollegiate Athletics: Golf (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101J: Intercollegiate Athletics: Gymnastics (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101K: Intercollegiate Athletics: Softball (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101M: Intercollegiate Athletics: Swimming/Diving (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101O: Intercollegiate Athletics: Tennis (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101P: Intercollegiate Athletics: Track and Field (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101Q: Intercollegiate Athletics: Track and Field (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101R: Intercollegiate Athletics: Volleyball (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101S: Intercollegiate Athletics: Wrestling (men)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101T: Intercollegiate Athletics: Golf (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Head Coach*

Limited to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

**ATH 101U: Intercollegiate Athletics: Soccer (women)**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq:* Permission of head coach

Limited to a maximum of 4. Offered on a satisfactory-fail basis only.

Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill technique course in the same sport.

## Biochemistry, Biophysics, and Molecular Biology (BBMB)

**Any experimental courses offered by BBMB can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**BBMB 101: Introduction to Biochemistry**

(1-0) Cr. 1. F.

Foundational principles of the molecules and chemistry of life, including structure and function of biological molecules: protein, lipids, nucleic acids, and carbohydrates. Survey of modern biotechnology frontiers. For students majoring in Biochemistry or Biophysics or considering one of these majors.

**BBMB 102: Introduction to Biochemistry Laboratory**

(0-2) Cr. 1. S.

*Prereq:* Credit or concurrent enrollment in (CHEM 177; CHEM 177L) or (CHEM 201; CHEM 201L)

Topics in the scientific background of biochemistry, such as macromolecules, metabolism, and catalysis. Laboratory experimentation covers biochemical concepts and the study of bio-molecules including proteins, lipids and nucleic acids. A significant component is practice in scientific communication. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

**BBMB 110: Biochemistry Learning Community Orientation**

Cr. 1. F.

Biochemistry & Biophysics Learning Community serving an overview of the program of study, academic planning, and university resources. Survey of careers and research in biotechnology and medicine. Introductions to ISU research and faculty. Concurrent enrollment with BBMB 101 highly recommended. Offered on a satisfactory-fail basis only.

**BBMB 111: Biochemistry Learning Community**

Cr. 1. S.

Biochemistry & Biophysics Learning Community serving an overview of career-development and research resources, including research opportunities, internships, lab skills, and leadership roles. Introductions to ISU research and faculty. Concurrent enrollment with BBMB 102 highly recommended. Offered on a satisfactory-fail basis only.

**BBMB 120: The Biochemistry of Beer**

(Cross-listed with FS HN). (2-0) Cr. 2. F.

An introduction to the major classes of biomolecules, basic biochemical concepts, enzymology, metabolism and genetic engineering as they apply to the production and flavor of beer. All aspects of the biochemistry of beer will be covered, including the malting of barley, starch conversion, yeast fermentation and the chemical changes that occur during the aging of beer. Intended for non-majors. Natural science majors are limited to elective credit only.

**BBMB 120L: Biochemistry of Beer Laboratory**

(Cross-listed with FS HN). Cr. 1.

*Prereq:* Credit or concurrent enrollment in BBMB 120

An introduction to biochemical methods related to the production of beer. Laboratory exercises related to water chemistry, mash enzymology, hop compound extraction and analysis, and yeast biology will be performed. Closely follows the material being taught in BBMB 120. Natural science majors are limited to elective credit only.

**BBMB 121: Medicines, Drugs and You**

Cr. 2. S.

An introduction to how medicines treat disease, what drug molecules look like, how they function, how they can be toxic, modern therapeutics ranging from over-the-counter pain relievers, antibiotics and anti-depressants, to anti-cancer chemotherapies. The differences between drugs and supplements. Intended for students of all majors.

**BBMB 201: Chemical Principles in Biological Systems**

(2-0) Cr. 2. S.

*Prereq:* Credit or concurrent enrollment in CHEM 332

Survey of chemical principles as they apply to biological systems including: water, organic chemistry of functional groups in biomolecules and biochemical cofactors, weak bonds and their contribution to biomolecular structure, oxidation-reduction reactions and redox potential, thermodynamic laws and bioenergetics, chemical equilibria and kinetics, inorganic chemistry in biological systems, data presentation. The subjects will be taught using molecules from biological systems as examples. Intended for majors in biochemistry, biophysics or agricultural biochemistry.

**BBMB 221: Structure and Reactions in Biochemical Processes**

(3-0) Cr. 3. F.S.

*Prereq: CHEM 163 or CHEM 167 or CHEM 177*

Fundamentals necessary for an understanding of biochemical processes. Primarily for students in agriculture. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry. Credit for both BBMB 221 and Chem 231 may not be applied toward graduation.

**BBMB 301: Survey of Biochemistry**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 231 or CHEM 331*

A survey of biochemistry: structure and function of amino acids, proteins, carbohydrates, lipids, and nucleic acids; enzymology; metabolism; biosynthesis; and selected topics. Course offered online. Only one of BBMB 301, 303, or 316 may count toward graduation; Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

**BBMB 303: General Biochemistry**

Cr. 3. F.

*Prereq: CHEM 331*

Survey of biochemistry: structure and function of amino acids, proteins, carbohydrates, lipids and nucleic acids; enzyme activity; metabolism; DNA replication; RNA transcription; protein translation; with case studies examining industrial uses. Not acceptable for a credit towards a major in biochemistry, biophysics or agricultural biochemistry. Only one of 301, 303(X), or 316 may count toward graduation.

**BBMB 311: Writing Scientific Reports in Biochemistry**

Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in BBMB 312*

Data analysis, presentation, and writing reports in biochemistry. This course accompanies BBMB 312.

**BBMB 312: Experimental Research Skills in Biochemistry**

Cr. 2. F.S.

*Prereq: BBMB 102; credit or concurrent enrollment in CHEM 178 or CHEM 201*

Inquiry-based introduction to biochemical techniques such as protein purification, enzymatic assays, solution preparation, hypothesis formation and testing, data analysis, high-throughput methodology, and research record keeping. Concurrent enrollment in BBMB 311 recommended.

**BBMB 316: Principles of Biochemistry**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 314; (CHEM 231 or CHEM 331)*

Biological systems at the molecular level; chemistry of biological macromolecules, enzyme function and regulation, basic metabolic pathways; integration of metabolism in diverse living systems. For students in biology and related majors who do not require the more rigorous treatment of biochemistry found in BBMB 404/405. Course offered online. Only one of BBMB 301, 303, or 316 may count toward graduation; Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

**BBMB 404: Biochemistry I**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 331*

A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical and nutritional sciences. First semester of a two-semester series with BBMB 405. Chemistry of amino acids, proteins, carbohydrates, and lipids, vitamins; protein structure and function; enzymology; carbohydrate metabolism. BIOL 314 strongly recommended. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

**BBMB 405: Biochemistry II**

(3-0) Cr. 3. F.S.SS.

*Prereq: BBMB 404*

A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical, and nutritional sciences. Metabolism of carbohydrates, amino acids, nucleotides and lipids; formation, turnover, and molecular relationships among DNA, RNA, and proteins; genetic code; regulation of gene expression; selected topics in the molecular physiology of plants and animals. Course available online. Credit for both BBMB 420 and the BBMB 404 - BBMB 405 sequence may not be applied toward graduation.

**BBMB 410: Analysis of Scientific Literature**

(2-0) Cr. 2. Repeatable, maximum of 2 times. F.S.

*Prereq: Credit or concurrent enrollment in BBMB 404 or BBMB 504*

Examination and discussion of current research reports in biochemistry, biophysics, genetics, molecular and cell biology. Critical evaluation and analysis of scientific data and experimental design in research literature.

**BBMB 411: Techniques in Biochemical Research**

(2-8) Cr. 4. F.

*Prereq: Credit or concurrent enrollment in CHEM 332*

Laboratory experimentation and techniques for studying biochemistry, including: chromatographic methods; electrophoresis; spectrophotometry; enzyme purification; enzyme kinetics; and characterization of carbohydrates, proteins, lipids, and nucleic acids. Scientific communication and technical writing are emphasized.

**BBMB 420: Mammalian Biochemistry**

(3-0) Cr. 3. F.

*Prereq: BIOL 314; CHEM 332*

Structure and function of proteins; enzymology; biological oxidation; chemistry and metabolism of carbohydrates, lipids, amino acids and nucleic acids; protein synthesis and the genetic code; relationship of biochemistry to selected animal diseases. Biochemistry of higher animals emphasized. Not acceptable for credit toward a major in agricultural biochemistry or biochemistry. Acceptable for credit toward a major in biophysics. Credit for both BBMB 420 and the BBMB 404 - 405 sequence may not be applied toward graduation.

**BBMB 430: Prokaryotic Diversity and Ecology**

(Dual-listed with BBMB 530). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MICRO 302; MICRO 302L*

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

**BBMB 445: Molecular Signaling**

(Dual-listed with BBMB 545). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: 445: BBMB 405 or BBMB 420, 545: BBMB 506; BBMB 507*

Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, nuclear receptors, growth factor and extracellular matrix activators, protein kinases, caspase and transcription factor downstream signals, and lipids, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and, for BBMB 545 students only, research proposal writing and review.

**BBMB 461: Molecular Biophysics**

(Dual-listed with BBMB 561). (2-0) Cr. 2. S.

*Prereq: CHEM 178; PHYS 232*

Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

**BBMB 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.

**BBMB 490H: Independent Study, Honors**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study with a faculty mentor. No more than 9 credits of BBMB 490 may count toward graduation.

**BBMB 499: Undergraduate Research**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent research under faculty guidance.

**Courses primarily for graduate students, open to qualified undergraduates:**

**BBMB 504: Amino Acids and Proteins**

(2-0) Cr. 2. F.S.

*Prereq: CHEM 332 or equivalent*

Protein structure and chemistry including protein folding, examples of enzyme functions and mechanisms, methods of protein expression, purification, and analysis, and elementary enzyme kinetics.

**BBMB 505: Bioenergetics and Metabolism**

(2-0) Cr. 2. F.

*Prereq: CHEM 211, CHEM 332; a previous course in biochemistry is strongly recommended*

Examination of catabolic pathways involved in the oxidation of organic and inorganic molecules, and energy metabolism involving inputs from light or other non-light sources. Central metabolism and glycolysis, fermentation, aerobic and anaerobic respiration, photosynthesis.

**BBMB 506: Membrane Biochemistry**

(2-0) Cr. 2.

*Prereq: CHEM 332 or equivalent*

Analysis of the structure, function, and synthesis of membranes. Bacterial and eukaryotic membrane characteristics. Membrane transport and signaling mechanisms. Analysis of the structure and function of lipids and membrane proteins.

**BBMB 507: Biochemistry of Nucleic Acids**

(2-0) Cr. 2. S.

*Prereq: CHEM 332 or equivalent*

Analysis of the chemical structure, function, synthesis, and metabolism of nucleic acids. Chemical characterization of nucleotides, polynucleotides, DNA, and RNA. Analysis of transcription, translation, and the genetic code.

**BBMB 510: Molecular Biology and Biochemistry of RNA**

(2-0) Cr. 2. F.

*Prereq: BIOL 313, BBMB 405, BBMB 502, BBMB 506 and 507 or Gen 409, or equivalent*

Biochemical processes that define structure and function of nucleic acids. Emphasis on the molecular processes that take place during synthesis, processing, and function of different RNA species; review of recent advances in RNA research.

**BBMB 512: Principles of Glycobiology**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: 3 credits in Organic Chemistry*

Structure, synthesis, and functions of glycans, glycoproteins, glycolipids, and glycosylated secondary metabolites in prokaryotic and eukaryotic organisms. Fundamental role of glycans in living organisms along with the most advanced techniques used for their characterization. Biotechnological applications of glycans and glycoconjugates for human needs.

**BBMB 530: Prokaryotic Diversity and Ecology**

(Dual-listed with BBMB 430). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MICRO 302; MICRO 302L*

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

**BBMB 531: Plant Biochemistry**

(2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: BBMB 301 or equivalent*

In-depth exploration of plant biochemistry with a focus on the unique aspects of plants versus heterotrophic organisms. Analysis of unique pathways, metabolic trafficking between unique organelles and tissues, and techniques for their characterization.

**BBMB 532: Enzyme Kinetics and Mechanisms**

Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: BBMB 504*

Advanced concepts of enzyme kinetics and catalysis. Experimental methods for determining kinetic and chemical reaction mechanisms. Enzyme structure/function relationships and the role of dynamics in catalysis.

**BBMB 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**BBMB 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**BBMB 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**BBMB 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**BBMB 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**BBMB 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**BBMB 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**BBMB 545: Molecular Signaling**

(Dual-listed with BBMB 445). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq:* 445: BBMB 405 or BBMB 420, 545: BBMB 506; BBMB 507

Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, nuclear receptors, growth factor and extracellular matrix activators, protein kinases, caspase and transcription factor downstream signals, and lipids, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and, for BBMB 545 students only, research proposal writing and review.

**BBMB 549: Nuclear Magnetic Resonance Spectroscopy**

(Cross-listed with CHEM). (3-0) Cr. 3. S.

*Prereq:* any one of the following: CHEM 324, CHEM 325, BBMB 461, BBMB 561

Theoretical principles of NMR, practical aspects of experimental NMR, solution and solid state NMR, methodologies for molecule characterization, protein structure determination, NMR relaxation, and recent advances.

**BBMB 553: Current Research in Chemical and Physical Biology**

(2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq:* BBMB 404 or equivalent

Principles and applications of chemical and physical methods to analyze biological structures and function ranging from cells to individual biomolecules.

**BBMB 561: Molecular Biophysics**

(Dual-listed with BBMB 461). (2-0) Cr. 2. S.

*Prereq:* CHEM 178; PHYS 232

Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

**BBMB 561L: Laboratory in Molecular Biophysics**

(1-3) Cr. 2. S.

*Prereq:* Credit or enrollment in BBMB 461/BBMB 561

Practice in methods of X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy as applied to macromolecules.

**BBMB 569: Structural Bioinformatics**

(Cross-listed with BCB, COM S, CPR E, GDCB). (3-0) Cr. 3. F.

*Prereq:* BCB 567, BBMB 316, GEN 409, STAT 430

Molecular structures including genes and gene products: protein, DNA and RNA structure. Structure determination methods, structural refinement, structure representation, comparison of structures, visualization, and modeling. Molecular and cellular structure from imaging. Analysis and prediction of protein secondary, tertiary, and higher order structure, disorder, protein-protein and protein-nucleic acid interactions, protein localization and function, bridging between molecular and cellular structures. Molecular evolution.

**BBMB 590: Special Topics**

Cr. arr.

By arrangement.

**BBMB 593: Workshop in Biochemistry and Biophysics**

Cr. 1. Repeatable. F.S.

*Prereq:* Permission and signature of course administrator required.

Workshops in selected topics in biochemistry and biophysics. Credit in this course does not meet the requirement for advanced graduate electives in Biochemistry. Spring only: BBMB Undergraduate Research Symposium participation. Scheduled class meetings are required in addition to attending the symposium.

**Courses for graduate students:****BBMB 615: Molecular Immunology**

(Cross-listed with MICRO, V MPM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* BBMB 405 or BBMB 506 and BBMB 507

Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

**BBMB 661: Advanced Topics in Neuroscience**

(Cross-listed with GDCB, KIN, NEURO). (3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years.

*Prereq:* NEURO 556 (or comparable course) or permission of instructor

Students will present three journal articles and two overview lectures on topics in neuroscience that are related but outside of their own research interest.

**BBMB 675: Nucleic Acid Structure and Function**

(2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: BBMB 405 or BBMB 506 and BBMB 507*

In-depth discussion of nucleic acid properties, structures and structure/function relationships. Interactions between nucleic acids and proteins will be emphasized.

**BBMB 681: Advanced Seminar**

Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor*

Student presentations.

**BBMB 682: Departmental Seminar**

Cr. R. F.S.

*Prereq: Permission of instructor*

Faculty, staff and invited guest research seminar.

**BBMB 696: Research Seminar**

(Cross-listed with AGRON, FOR, GDCB, HORT, PLBIO). Cr. 1. Repeatable.

Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**BBMB 698: Seminar in Molecular, Cellular, and Developmental Biology**

(Cross-listed with GDCB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. S.

Student and faculty presentations.

**BBMB 699: Research**

Cr. arr. Repeatable. F.S.

*Prereq: Permission of instructor*

## Bioinformatics and Computational Biology (BCB)

*Any experimental courses offered by BCB can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****BCB 490: Independent Study**

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Permission of instructor*

**Courses primarily for graduate students, open to qualified undergraduates:**

**BCB 523: Mathematical Modeling in Biology**

(Cross-listed with MATH). (3-0) Cr. 3. F.

*Prereq: MATH 266 or MATH 267*

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 265 or equivalent recommended.

**BCB 544: Fundamentals of Bioinformatics**

(Cross-listed with COM S, CPR E, GDCB). (4-0) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq: MATH 165 or STAT 401 or equivalent*

A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

**BCB 546: Computational Skills for Biological Data**

(Cross-listed with EEOB). Cr. 3. F.

*Prereq: Graduate student status or permission of the instructor*

Computational skills necessary for biologists working with big data sets. UNIX commands, scripting in R and Python, version control using Git and GitHub, and use of high performance computing clusters. Combination of lectures and computational exercises.

**BCB 567: Bioinformatics Algorithms**

(Cross-listed with COM S, CPR E). (3-0) Cr. 3.

*Prereq: COM S 228; COM S 230; credit or enrollment in BIOL 315, STAT 430*

Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

**BCB 568: Statistical Bioinformatics**

(Cross-listed with COM S, GDCB, STAT). (3-0) Cr. 3. S.

*Prereq: BCB 567 or (BIOL 315 and one of STAT 430 or STAT 483 or STAT 583), credit or enrollment in GEN 409*

Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

**BCB 569: Structural Bioinformatics**

(Cross-listed with BBMB, COM S, CPR E, GDCB). (3-0) Cr. 3. F.

*Prereq: BCB 567, BBMB 316, GEN 409, STAT 430*

Molecular structures including genes and gene products: protein, DNA and RNA structure. Structure determination methods, structural refinement, structure representation, comparison of structures, visualization, and modeling. Molecular and cellular structure from imaging. Analysis and prediction of protein secondary, tertiary, and higher order structure, disorder, protein-protein and protein-nucleic acid interactions, protein localization and function, bridging between molecular and cellular structures. Molecular evolution.

**BCB 570: Systems Biology**

(Cross-listed with COM S, CPR E, GDCB, STAT). (3-0) Cr. 3. S.

*Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430 or STAT 483 or STAT 583*

Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput biological data obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, and inference of transcriptional regulatory networks, protein-protein interaction networks, and metabolic networks. Dynamic systems and whole-cell models. Ontology-driven, network based, and probabilistic approaches to information integration.

**BCB 585: Fundamentals of Predictive Plant Phenomics**

(Cross-listed with GDCB, M E). Cr. 4. F.

Principles of engineering, data analysis, and plant sciences and their interplay applied to predictive plant phenomics. Transport phenomena, sensor design, image analysis, graph models, network data analysis, fundamentals of genomics and phenomics. Multidisciplinary laboratory exercises.

**BCB 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***BCB 593: Workshop in Bioinformatics and Computational Biology**

(1-0) Cr. 1. Repeatable. F.S.

Current topics in bioinformatics and computational biology research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

**BCB 598: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of the program chair*

Off-campus work periods for graduate students in the field of bioinformatics and computational biology.

**BCB 599: Creative Component**

Cr. arr.

**Courses for graduate students:****BCB 660: Selected Topics in Bioinformatics and Computational Biology**

(3-0) Cr. 1-4. Repeatable, maximum of 4 times. F.S.SS.

*Prereq: Permission of Instructor*

Topics of interest in the major research areas of computational molecular biology, including genomics, structural genomics, functional genomics, and computational systems biology.

**BCB 690: Student Seminar in Bioinformatics and Computational Biology**

Cr. 1. Repeatable. S.

Student research presentations.

**BCB 691: Faculty Seminar in Bioinformatics and Computational Biology**

(1-0) Cr. 1. Repeatable.

Faculty research series.

**BCB 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with AGRON, E E, ENGR, GENET, M E). (3-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.

*Prereq: Graduate student status and completion of at least one semester of graduate coursework.*

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**BCB 697: Graduate Research Rotation**

Cr. arr. Repeatable. F.S.SS.

Graduate research projects performed under the supervision of selected faculty members in the Bioinformatics and Computational Biology major.

**BCB 699: Research**

Cr. arr. Repeatable.

## Bioinformatics and Computational Biology (BCBIO)

*Any experimental courses offered by BCBIO can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**BCBIO 110: BCBIO Orientation**

(1-0) Cr. 0.5. F.

First 8 weeks. Orientation to the area of bioinformatics and computational biology. For students considering a major in BCBIO. Specializations and career opportunities. Offered on a satisfactory-fail basis only.

**BCBIO 322: Introduction to Bioinformatics and Computational Biology**

(Cross-listed with BIOL, GEN). (3-0) Cr. 3. F.

*Prereq: BIOL 212*

Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

**BCBIO 401: Bioinformatics of Sequences**

(Cross-listed with BIOL, COM S, GEN). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: (BCBIO 322; [COM S 127 or COM S 227]; [MATH 160 or MATH 165]; [MATH 166 or STAT 301]; [STAT 101 or STAT 104 or STAT 330]) or Permission of Instructor*

Application of computer science and statistics to molecular biology with a significant problem-solving component, including hands-on programming using Python to solve a variety of biological problems. String algorithms, sequence alignments, homology search, pattern discovery, genotyping, genome assembly, genome annotation, comparative genomics, protein structure.

**BCBIO 406: Bioinformatics of OMICS**

(Cross-listed with BIOL, COM S, GEN). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Introduction to cutting edge OMICS analyses including transcriptome, proteome, metabolome, DNA-protein interactome, protein-protein interactome and methylome. Genomic analysis including transcriptome analysis, cancer genomics, comparative genomics, and regulatory network analysis.

**BCBIO 423: Mathematical Modeling in Biology**

(Dual-listed with BCBIO 423). (Cross-listed with MATH). (3-0) Cr. 3. F.

*Prereq: MATH 266 or MATH 267*

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 265 or equivalent recommended.

**BCBIO 442: Bioinformatics and Computational Biology Techniques**

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. BIOL 314 recommended. Offered on a satisfactory-fail basis only.

**BCBIO 442A: Bioinformatics and Computational Biology Techniques: Sequence Database Searching**

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. BIOL 314 recommended. Offered on a satisfactory-fail basis only.

**BCBIO 442B: Bioinformatics and Computational Biology: Protein Structure Databases, Visualization, and Prediction**

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. BIOL 314 recommended. Offered on a satisfactory-fail basis only.

**BCBIO 442C: Bioinformatics and Computational Biology Techniques: Phylogenetic Analysis**

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. BIOL 314 recommended. Offered on a satisfactory-fail basis only.

**BCBIO 442D: Bioinformatics and Computational Biology Techniques: Microarray Analysis**

(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.SS.

Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. BIOL 314 recommended. Offered on a satisfactory-fail basis only.

**BCBIO 490: Independent Study**

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: BCBIO 322; Junior or Senior classification; Permission of Instructor*  
Independent research projects for undergraduate students in bioinformatics and computational biology. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

**BCBIO 491: Team Research Projects**

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: BCBIO 322; Junior or Senior classification; Permission of Instructor*  
Research projects in bioinformatics and computational biology done by teams of students. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.

## Biological/Pre-Medical Illustration (BPM I)

**Any experimental courses offered by BPM I can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**BPM I 323: Scientific Illustration Principles and Techniques**

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable.

*Prereq: DSN S 131, ARTIS 230, or equivalent, and 3 credits in biological sciences; or permission of the instructor*

Studio basics and professional techniques in black & white, continuous tone, and color. Introduction to professional practice and principles of communicating science through art. Emphasis on tools, materials, and rendering.

**BPM I 326: Illustration and Illustration Software**

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable.

*Prereq: ARTIS 323 or BPM I 323 or Permission of Instructor*

An introduction to digital illustration software. Application of painting, drawing and image making techniques using vector and raster based programs.

**BPM I 327: Illustration as Communication**

(Cross-listed with ARTIS). (0-6) Cr. 3.

*Prereq: ARTIS 326 or BPM I 326 or Permission of Instructor*

Investigation of illustration as a form of communication. Emphasis on problem solving, effective composition, and advancement of rendering skills.

**BPM I 337: Application of Scientific Illustration Techniques**

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq: ARTIS 327*

Rendering techniques applied to different types of biological and scientific subjects emphasizing communication. The use of traditional and digital media. Term project required.

**BPM I 395: Field Illustration**

Cr. 1-3. Repeatable, maximum of 6 credits. S.SS.

*Prereq: ARTIS 230 or Permission of Instructor*

A combination seminar and field trip course emphasizing nature interpretation, field sketching techniques and preparation of a final illustration based on field experience.

**BPM I 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Junior classification; Permission of Instructor*

Required of all cooperative education students. Students must register for these courses prior to commencing each work period.

**BPM I 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 3 credits.

*Prereq: Permission of Instructor*

**BPM I 491: Portfolio Design and Professional Development**

Cr. 2. S.

*Prereq: (BPM I 337; Junior or Senior classification) or Permission of Instructor*

Portfolio and professional preparation including identity package development, writing and speaking. Career-readiness, professional practice, leadership, networking, exploring research subfields within scientific visualization. Creating print and digital visual materials, learning approaches for entering the field, and developing business practice skills. Final portfolio materials presented at the end of the term.

**BPM I 494: Special Topics in Illustration**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive exploration of illustration techniques in a studio or field setting.

**BPM I 497: Illustration Internship**

Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: BPM I major; Junior or Senior classification; Permission of Instructor*

Offered on a satisfactory-fail basis only.

## Biology (BIOL)

**Any experimental courses offered by BIOL can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****BIOL 101: Introductory Biology**

(3-0) Cr. 3. F.S.SS.

Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Does not satisfy biology major requirements.

**BIOL 110: Biology Major Orientation**

Cr. 1. F.

Student orientation to the Biology program. Introduction to degree requirements, university policies and deadlines, campus resources, academic success strategies, degree planning, and registration procedures. Community building through the Biology Education Success Teams Learning Community. Required for first-year direct from high school Biology majors. Offered on a satisfactory-fail basis only.

**BIOL 111: Opportunities in Biology**

(1-0) Cr. 0.5. S.

*Prereq: Direct-from-high school students only*

Orientation to opportunities in Biology. Introduction to biological science disciplines, career awareness, and professional development opportunities. Required for first-year direct from high school Biology majors. Offered on a satisfactory-fail basis only.

**BIOL 112: Transfer Student Orientation**

Cr. 1. F.S.

*Prereq: Serves: Internal and external transfer students (emphasis on external transfers)*

Orientation to the Biology major for students transferring from other academic institutions. Reviews university resources, academic success strategies, degree requirements, opportunities for campus involvement, and professional development. Required for all new transfer students and recommended for major changes. Online with on-campus activities. Offered on a satisfactory-fail basis only.

**BIOL 155: Human Biology**

(3-0) Cr. 3. F.S.

A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science. Does not satisfy biology major requirements.

**BIOL 173: Environmental Biology**

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.

An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

**BIOL 201: Introduction to Environmental Issues**

(Cross-listed with ENSCI, ENV S). (2-0) Cr. 2. F.

Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

**BIOL 204: Biodiversity**

(Cross-listed with ENV S). (4-0) Cr. 2. S.

*Prereq: One course in life sciences*

Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Does not satisfy biology major requirements. Half semester course. See list of life science courses (<https://www.cals.iastate.edu/student-services/lifescience>) for additional information.

**BIOL 211: Principles of Biology I**

(3-0) Cr. 3. F.S.

*Prereq: High school biology*

Introduction to the nature of life, including the diversity of microbial, plant, and animal life; the nature of heredity; evolution; and principles of ecology. Intended for life science majors.

**BIOL 211L: Principles of Biology Laboratory I**

(0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in BIOL 211*

Laboratory to accompany 211.

**BIOL 212: Principles of Biology II**

(3-0) Cr. 3. F.S.

*Prereq: High School Biology; High School Chemistry or credit or enrollment in CHEM 163 or CHEM 177*

Introduction to the chemical, molecular, and cellular basis of life; form and function of microbial, plant, and animal life. Intended for life science majors. HS courses in biology and chemistry necessary. Credit or enrollment in CHEM 163 or CHEM 177 recommended.

**BIOL 212L: Principles of Biology Laboratory II**

(0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in BIOL 212*

Laboratory to accompany 212.

**BIOL 251: Biological Processes in the Environment**

(Cross-listed with ENSCI). (3-0) Cr. 3. S.

Principles of Biology from the level of macromolecules to the biosphere. Biological processes that affect environmental systems: including metabolism, energy pathways, biochemical reactions in cells, plant and microbial structure and function, element and water cycles.

**BIOL 255: Fundamentals of Human Anatomy**

(3-0) Cr. 3. F.

*Prereq: High School Biology and Chemistry or BIOL 101*

An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider BIOL 351 for their anatomy background. Does not satisfy biology major requirements. HS courses in biology and chemistry necessary. Credit or enrollment in BIOL 101 recommended.

**BIOL 255L: Fundamentals of Human Anatomy Laboratory**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in BIOL 255*

Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Does not satisfy biology major requirements.

**BIOL 256: Fundamentals of Human Physiology**

(3-0) Cr. 3. S.

*Prereq: High School Biology and Chemistry*

An introduction to human physiology, studying the function of all body systems. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic and immune, respiratory, digestive, urinary, and reproductive. Does not satisfy biology major requirements. HS courses in biology and chemistry necessary. Credit or enrollment in BIOL 101 or BIOL 255 recommended.

**BIOL 256L: Fundamentals of Human Physiology Laboratory**

(0-3) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in BIOL 256*

Student-conducted experiments investigating concepts of human physiology with computer data acquisition and analysis. Interpretation of experimental results and preparation of lab reports. Does not satisfy biology major requirements.

**BIOL 307: Women in Science and Engineering**

(Cross-listed with WGS, WISE). (3-0) Cr. 3. F.

*Prereq: 200 level course in science, engineering or women's studies; ENGL 250*

The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to under-representation; feminist critiques of science; examination of successful strategies. Does not satisfy biology major advanced credit requirements.

**BIOL 312: Ecology**

(Cross-listed with A ECL, ENSCI). (3-3) Cr. 4. F.SS.

*Prereq: BIOL 211; (BIOL 212 or BIOL 251)*

Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

**BIOL 313: Principles of Genetics**

(Cross-listed with GEN). (3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Introduction to the principles of transmission and molecular genetics of plants, animals, and bacteria. Recombination, structure and replication of DNA, gene expression, cloning, quantitative genetics, and population genetics. Students may receive graduation credit for no more than one of the following: Gen 260, Gen 313 and 313L, Gen 320, Biol 313 and 313L, and Agron 320.

**BIOL 313L: Genetics Laboratory**

(Cross-listed with GEN). (0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in BIOL 313*

Laboratory to accompany 313. Students may receive graduation credit for no more than one of the following: Biol 313 and 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

**BIOL 314: Principles of Molecular Cell Biology**

(3-0) Cr. 3. F.S.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Integration of elementary principles of metabolism, bioenergetics, cell structure, and cell function to develop a molecular view of how the cell works.

**BIOL 315: Biological Evolution**

(3-0) Cr. 3. F.S.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

The mechanisms of evolution. Topics in microevolution: population genetics, natural selection, genetic variation, and adaptation. Macroevolution: speciation, extinction, phylogeny, and major evolutionary patterns.

**BIOL 318: Introduction to Ecosystems**

(Cross-listed with AGRON, ENSCI, NREM). (3-0) Cr. 3. S.

*Prereq:* 12 credits in A ECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM

Biological and physical processes affecting material and energy flows in natural and managed ecosystems. Understanding and predicting climate and management impacts on ecosystem services and sustainability.

**BIOL 319: Analysis of Environmental Systems**

(Cross-listed with ENSCI, ENV S). Cr. 3. S.

*Prereq:* ENSCI 312; Junior classification

Systems approach to the analysis and modeling of material and energy flows in natural and managed environmental systems and the primary environmental factors controlling these systems. Applications in hydrology, biogeochemistry, and population dynamics.

**BIOL 322: Introduction to Bioinformatics and Computational Biology**

(Cross-listed with BCBIO, GEN). (3-0) Cr. 3. F.

*Prereq:* BIOL 212

Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

**BIOL 328: Molecular and Cellular Biology of Human Diseases**

Cr. 3. F.

*Prereq:* BIOL 212

Survey of molecular, genetic, and cellular aspects of human diseases. Fundamental concepts of cell biology and how they are linked to the pathologies of different classes of human diseases. Recent scientific advances with an emphasis on new methods of diagnosis and treatment.

**BIOL 335: Principles of Human and Other Animal Physiology**

(3-0) Cr. 3. S.

*Prereq:* BIOL 211, BIOL 212

Introduction to physiology of metabolic function in mammals and other animals. Metabolic processes and their interactions with various subsystems, approached from an organismal perspective. Integration of cellular, gastrointestinal, cardiovascular, respiratory, and renal processes, relevant to their control and integration at the nervous and endocrine system levels. Functional aspects of organismal physiology, energy and water balances, physiology of rest exercise, and environmental stress.

**BIOL 335L: Principles of Human and Other Animal Physiology Laboratory**

(0-3) Cr. 1. S.

Optional laboratory to accompany Biology 335. Student-conducted experiments investigating concepts of physiology.

**BIOL 336: Ecological and Evolutionary Animal Physiology**

Cr. 3.

*Prereq:* BIOL 211, BIOL 212

Study of mechanisms by which animals perform life-sustaining functions; the evolution and adaptive significance of physiology traits, the diversity of physiological mechanisms, and how physiology and ecology interact.

**BIOL 344: Human Reproduction**

(Cross-listed with WGS). (3-0) Cr. 3. S.

*Prereq:* BIOL 212

Biology of human reproduction, including reproductive systems, hormones, and endocrinology of pregnancy, presented from a clinically-oriented perspective. Reviews health-related conditions such as infertility, sexually-transmitted diseases, and complicated pregnancy.

**BIOL 349: The Genome Perspective in Biology**

(Cross-listed with GEN). (3-2) Cr. 4. S.

*Prereq:* GEN 313 or GEN 320

Analysis of genome, RNA, and protein data using computer technology to answer biological questions on topics ranging from microbial diversity to human health. An introduction for students in the life sciences to the fields of genomics, bioinformatics and systems.

**BIOL 350: Comprehensive Human Anatomy**

(3-3) Cr. 4. F.

*Prereq:* BIOL 212

Comprehensive survey of human anatomy, emphasizing structural and functional relationships of major organ systems. Compartmental study of normal anatomy; practical clinical application of anatomical regions. Laboratory using 3-dimensional software to study anatomy in augmented reality. Recommended for pre-medical and pre-health professional students.

**BIOL 351: Comparative Chordate Anatomy**

(3-4) Cr. 5. S.

*Prereq:* BIOL 212; Junior classification

The evolution of chordates as reflected in the anatomy of extinct and living forms. Lecture topics include the history and diversity of chordates, comparisons of anatomic structures among major groups, and the adaptive significance of anatomic structures. Laboratory involves dissection of representative species.

**BIOL 352: Vertebrate Histology**

(3-3) Cr. 4. Alt. S., offered even-numbered years.

*Prereq:* BIOL 212

Microanatomy of animal cells, tissues, and organs; histology from a functional perspective; ultra-structure of cells, the four primary tissues, and different anatomical organs, focusing on function and clinical significance.

**BIOL 353: Introductory Parasitology**

(Cross-listed with MICRO, V PTH). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

**BIOL 354: Animal Behavior**

(3-0) Cr. 3. F.

*Prereq: BIOL 212*

Ethological and sociobiological approaches to animal behavior. Genetic and developmental aspects of behavior, biological rhythms, orientation (including navigation, migration), communication, and social behavior (mating, aggression, parental care).

**BIOL 354L: Laboratory in Animal Behavior**

(0-3) Cr. 1. F.

*Prereq: Credit or enrollment in BIOL 354*

Laboratory techniques for observation, description and analysis of animal activities; independent projects.

**BIOL 355: Plants and People**

(3-0) Cr. 3. S.

*Prereq: Credit in BIOL 211 and BIOL 211L*

Uses of plants and fungi by humans and the importance of plants in the past, present, and future. Discussion of fruits, vegetables, grains, herbs, spices, beverages, oils, fibers, wood, medicines, and drugs, in the context of their agricultural, cultural, and economic roles in modern societies. Emphasis on origins and worldwide diversity of culturally important plants, their characteristics, and uses.

**BIOL 356: Dendrology**

(Cross-listed with FOR). (2-2) Cr. 3. F.

*Prereq: BIOL 211*

Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Historical conditions of North American forest regions will also be addressed.

**BIOL 357: Biology of Plants**

Cr. 3. F.

*Prereq: BIOL 211; BIOL 212*

Study of the general biology of plants, including plant cells and functions, basic anatomy of tissues, meristems, and organs; adaptive morphological features. Review of processes of photosynthesis, respiration, basic plant metabolic functions, and plant reproduction. Survey of evolutionary aspects of all major groups of land plants, and relationships of plants to their environment. Intended for Biology and other life science undergraduate majors. BIOL 211L and BIOL 212L recommended.

**BIOL 358: Bee Biology, Management, and Beekeeping**

(Cross-listed with ENT). (3-0) Cr. 3. F.

*Prereq: 1 course in 200-level BIOL or Permission of Instructor*

Bee diversity and evolution, ecology, role as pollinators, behavior, anatomy, and development. Management of bees as agricultural pollinators and honey producers, focusing on honey bees. Working with live bee hives and demonstration of practical beekeeping skills will occur during several field trips to local hives.

**BIOL 364: Invertebrate Biology**

Cr. 3-4. F.

*Prereq: BIOL 211; BIOL 212*

Emphasis on diversity, development, physiology, and behavior of invertebrate organisms- the "spineless wonders" of the world. Laboratory involves hands-on study and investigation of living invertebrates.

**BIOL 365: Vertebrate Biology**

(Cross-listed with A ECL). (3-2) Cr. 4. F.

*Prereq: BIOL 211; BIOL 211L*

Evolution, biology, and classification of fish, amphibians, reptiles, birds, and mammals. Emphasis on a comparative analysis of the structure and function of organ systems. Laboratory exercises concentrate on morphology and identification of orders of vertebrates.

**BIOL 366: Plant Systematics**

(2-4) Cr. 4. S.

*Prereq: BIOL 211*

Introduction to plant phylogenetic systematics, plant classification, survey of flowering plant families, and identification and field study of local plants.

**BIOL 370: GIS for Ecology and Environmental Science**

(Cross-listed with ENSCI). Cr. 1-6. Repeatable. F.S.

*Prereq: Six credits in biological and /or physical sciences, and permission of instructor.*

Introduction to geographic information systems (GIS) with emphasis on ecological and environmental applications. No prior GIS experience required. Guided, individualized study of topics based on student background and interest. For students with prior experience, topics and activities are selected to build upon any previous experience and minimize duplication to previous GIS coursework. Potential topics include: basic concepts of GIS, data structures, database management, spatial analysis, modeling and visualization of ecological and environmental data. Case studies in ecological and environmental applications using ArcGIS. Offered on a satisfactory-fail basis only.

**BIOL 371: Ecological Methods**

(Cross-listed with A ECL). (2-3) Cr. 3. F.

*Prereq: A ECL 312; (STAT 101 or STAT 104)*

Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations.

**BIOL 375: Marine Ecology and Ecosystems Dynamics**

(Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. S.

*Prereq: BIOL 211*

Overview of the ecological processes, ecosystems, and biodiversity in marine environments. Ever-changing dynamics caused by environmental disturbances, internal forces, or by human impacts on species and ecosystems.

**BIOL 393: North American Field Trips in Biology**

Cr. 1-4. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Extended field trips, usually during break periods, to North American locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.

**BIOL 393A: North American Field Trips in Biology: Pre-trip Seminar**

(1-0) Cr. 1. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Discussion of relevant biological and cultural topics during semester preceding extended field trips to North American locations of interest to biologists.

**BIOL 393B: North American Field Trips in Biology: North American Field trip**

Cr. 1-3. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Extended field trip under supervision of faculty member, usually during break periods, to North American locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule. Report required.

**BIOL 394: International Field Trips in Biology**

Cr. 1-4. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Extended field trips, usually during break periods, to international locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.

Meets International Perspectives Requirement.

**BIOL 394A: International Field Trips in Biology: Pre-trip Seminar**

(1-0) Cr. 1. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Discussion of relevant biological and cultural topics during semester preceding extended field trip to international locations of interest to biologists.

Meets International Perspectives Requirement.

**BIOL 394B: International Field Trips in Biology: Field Trip to International Location**

Cr. 1-3. Repeatable.

*Prereq: Two courses in the biological sciences and by approval of application*

Extended field trips, under supervision of faculty member, usually during break periods, to international locations of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.

Meets International Perspectives Requirement.

**BIOL 401: Bioinformatics of Sequences**

(Cross-listed with BCBIO, COM S, GEN). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: (BCBIO 322; [COM S 127 or COM S 227]; [MATH 160 or MATH 165]; [MATH 166 or STAT 301]; [STAT 101 or STAT 104 or STAT 330]) or Permission of Instructor*

Application of computer science and statistics to molecular biology with a significant problem-solving component, including hands-on programming using Python to solve a variety of biological problems. String algorithms, sequence alignments, homology search, pattern discovery, genotyping, genome assembly, genome annotation, comparative genomics, protein structure.

**BIOL 402: Introduction to Pathology**

(Cross-listed with V PTH). (3-0) Cr. 3. F.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

**BIOL 406: Bioinformatics of OMICS**

(Cross-listed with BCBIO, COM S, GEN). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Introduction to cutting edge OMICS analyses including transcriptome, proteome, metabolome, DNA-protein interactome, protein-protein interactome and methylome. Genomic analysis including transcriptome analysis, cancer genomics, comparative genomics, and regulatory network analysis.

**BIOL 414: Life History and Reproductive Strategies**

(Dual-listed with EEOB 514). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Evolution of ecological adaptations at the individual, population, and species level. Emphasis is on evolutionary mechanisms and adaptive strategies related to life histories and reproduction; age and size at maturity; lifespan and senescence; offspring size/number trade-offs; sex and mating systems; sex determination and sex ratios. BIOL 315 or equivalent recommended.

**BIOL 421: Biological Principles of Aging**

(Dual-listed with EEOB 521). (3-0) Cr. 3. SS.

*Prereq: BIOL 211 and BIOL 212*

Basic biological principles of aging. Course modules include an introduction to the aging process, body systems and normal aging, and environment and the biology of aging. In addition, disorders and diseases of aging, prevention and treatment and exercise and aging topics will be covered.

**BIOL 423: Developmental Biology**

(3-0) Cr. 3. S.

*Prereq: BIOL 313*

Principles of embryogenesis and animal development. Establishment of body axes, organ and limb development, and specification of cell fates. Emphasis on cell signaling and the control of gene expression within the context of a developing organism. Medically relevant subjects will be discussed, including stem cells, cancer biology, fertilization, and cloning.

**BIOL 423L: Developmental Biology Laboratory**

(0-3) Cr. 1. Repeatable, maximum of 4 times. S.

*Prereq: (Credit or concurrent enrollment in BIOL 423) or Permission of Instructor*

Experiments and explorations illustrating fundamental principles of multicellular development.

**BIOL 428: Cell Biology**

(3-0) Cr. 3. S.

*Prereq: BIOL 314*

Cell structure and function in health and disease. Emphasis on cellular dynamics, transport, organelle biogenesis and signaling, and how defects in these processes disrupt cell function.

**BIOL 430: Principles of Plant Physiology**

(3-0) Cr. 3. S.

*Prereq: BIOL 212; (CHEM 231 or CHEM 332)*

An overview of classical and current concepts, principles, and approaches regarding the basic mechanisms of plant function underlying growth, development, and survival of plants. Topics covered include environmental and developmental signals, plant hormone action, signal transduction, mineral nutrition, water relations, metabolism, and photosynthesis.

**BIOL 434: Endocrinology**

(Dual-listed with EEOB 534). (3-0) Cr. 3. S.

*Prereq: BIOL 211; BIOL 212*

Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

**BIOL 436: Neurobiology**

(3-0) Cr. 3. F.

*Prereq: BIOL 212*

Basic principles of brain function and development. Signaling of nerve cells, synaptic transmission, structure/function of ion channels and receptors, memory and synaptic plasticity, movement and central control, sensation and sensory processing, construction of neural circuits, early brain development, complex brain functions in health and disease.

**BIOL 451: Plant Evolution and Phylogeny**

(Dual-listed with EEOB 551). (3-3) Cr. 4. Alt. F., offered even-numbered years.

*Prereq: BIOL 315 or equivalent.*

Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

**BIOL 454: Plant Anatomy**

(3-3) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq: BIOL 212L*

Characteristics of cell and tissue types in vascular plants. Anatomy of developing and mature stems, roots, and leaves, including secondary (woody) growth. Introduction to the special anatomy of flowers and seeds. BIOL 366 recommended.

**BIOL 455: Bryophyte and Lichen Biodiversity**

(Dual-listed with EEOB 555). (2-3) Cr. 3. S.

*Prereq: BIOL 211; BIOL 211L*

Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

**BIOL 456: Principles of Mycology**

(Cross-listed with MICRO). (2-3) Cr. 3. F.

*Prereq: 10 credits in BIOL or MICRO*

Morphology, diversity, and ecology of fungi; their relation to agriculture, industry, and human health.

**BIOL 457: Herpetology**

(Cross-listed with A ECL). (2-0) Cr. 2. F.

*Prereq: BIOL 351 or BIOL 365*

Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

**BIOL 457L: Herpetology Laboratory**

(Cross-listed with A ECL). (0-3) Cr. 1. F.

*Prereq: BIOL 351 or BIOL 365 or A ECL 365; Concurrent enrollment in BIOL 457 or A ECL 457*

Laboratory to accompany Biology/Animal Ecology 457. Focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

**BIOL 458: Ornithology**

(Cross-listed with A ECL). (2-0) Cr. 2. S.

*Prereq: A ECL 365 or BIOL 351*

Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

**BIOL 458L: Ornithology Laboratory**

(Cross-listed with A ECL). (0-3) Cr. 1. S.

*Prereq: (A ECL 365 or BIOL 351); concurrent enrollment in A ECL 458 or BIOL 458*

Laboratory complements lecture topics with emphasis on external anatomy, identification and distribution of Midwest birds, and field trips.

**BIOL 459: Mammalogy**

(Cross-listed with A ECL). (2-0) Cr. 2. S.

*Prereq: A ECL 365 or BIOL 351*

Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

**BIOL 459L: Mammalogy Laboratory**

(Cross-listed with A ECL). (0-3) Cr. 1. S.

*Prereq: (A ECL 365 or BIOL 351); concurrent enrollment in (A ECL 459 or BIOL 459)*

Laboratory focus on identification, survey methods, distribution, habits, and habitats of mammals. Several field trips.

**BIOL 462: Evolutionary Genetics**

(Cross-listed with GEN). (3-0) Cr. 3. F.

*Prereq: BIOL 315*

The population and quantitative genetic basis of evolutionary processes. The role of genetic variation in natural selection and the influences of random processes on evolutionary change. The determinants of phenotype.

**BIOL 464: Wetland Ecology**

(Dual-listed with EEOB 564). (Cross-listed with ENSCI). (3-0) Cr. 3. S.

*Prereq: 15 credits in biological sciences.*

Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

**BIOL 465: Macroevolution**

(Dual-listed with EEOB 565). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: BIOL 315*

The history and diversity of life on earth; evolutionary patterns and processes above the species level. Diversity from a phylogenetic perspective. Empirical exercises include: phylogeny estimation, ancestral states, estimating diversification rates, evaluating the tempo and mode of evolution, biogeographic patterns, and trait associations across the tree of life.

**BIOL 471: Introductory Conservation Biology**

(Cross-listed with A ECL). Cr. 3. S.

*Prereq: BIOL 312*

Examination of conservation issues from a population and community perspective. The role of genetics, demography, and environment in determining population viability, habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

**BIOL 474: Plant Ecology**

(3-0) Cr. 3. S.

*Prereq: BIOL 312*

Principles of plant population and community ecology.

**BIOL 476: Functional Ecology**

(Dual-listed with EEOB 576). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

**BIOL 480: Studies in Marine Biology**

Cr. 1-8. Repeatable.

Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

**BIOL 481: Summer Field Studies**

Cr. 1-8. Repeatable.

Courses taken at summer biological field stations are transferred to Iowa State University under this number. See [www.biology.iastate.edu](http://www.biology.iastate.edu) for links to field stations located in different biomes: coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mountains.

**BIOL 482: Tropical Biology**

Cr. 1-4. Repeatable, maximum of 8 credits.

*Prereq: One year of college biology*

Students registering for courses taught by the Organization for Tropical Studies will receive credit for this ISU course when requesting a transfer of credits. Knowledge of Spanish desirable but not required.

**BIOL 483: Environmental Biogeochemistry**

(Cross-listed with ENSCI, GEOL). Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 12 credits in BIOL, CHEM, PHYS*

An exploration of biological, physical and geochemical impacts on the structure and function of ecosystems from local to global scales. Emphasis on the cycles of carbon, nitrogen, phosphorus, sulfur, and metals, and how these have been impacted by human activity. Topics may include biological feedbacks to climate change, microbial physiology and redox reactions, plant/soil feedbacks, terrestrial/aquatic linkages, early Earth processes and the origins of life.

**BIOL 484: Ecosystem Ecology**

(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Combined 12 credits in BIOL, CHEM, and PHYS*

Introduction of the study of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

**BIOL 485: Community Ecology**

(Dual-listed with EEOB 585). (3-0) Cr. 3. S.

*Prereq: BIOL 312*

The effect of interspecific interactions on the structure and dynamics of natural and managed communities; including concepts of guild structure and trophic web dynamics and their importance to the productivity, diversity, stability, and sustainability of communities. The implications of interspecific interactions in the management of wild species will be emphasized with illustrative case histories of interactions between plants, invertebrates, and vertebrates.

**BIOL 486: Aquatic Ecology**

(Dual-listed with EEOB 586). (Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. F.

*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**BIOL 486L: Aquatic Ecology Laboratory**

(Dual-listed with EEOB 586L). (Cross-listed with A ECL, ENSCI). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**BIOL 487: Microbial Ecology**

(Dual-listed with EEOB 587). (Cross-listed with ENSCI, GEOL, MICRO). (3-0) Cr. 3. F.

*Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**BIOL 488: Identification of Aquatic Organisms**

(0-3) Cr. 1. F.S.

On-line taxonomic and identification exercises to accompany 486. Instruction and practice in the identification of algae, aquatic macrophytes, zooplankton, and benthos.

**BIOL 489: Population Ecology**

(Dual-listed with EEOB 589). (Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing*

Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

**BIOL 490: Independent Study**

Cr. 1. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Permission of Instructor*

Independent study opportunities for undergraduate students in the biological sciences. No more than 9 credits in Biol 490 may be counted toward graduation and, of those, only 2 credits may be applied toward the Biology advanced course requirement.

**BIOL 491: Undergraduate Teaching Experience**

Cr. 1-2. Repeatable.

*Prereq: Permission of supervising staff*

For students registering to be undergraduate teaching assistants. Offered on a satisfactory-fail basis only. A maximum of 2 credits of BIOL 491 may be applied toward the Biology advanced course requirement.

**BIOL 492: Preparing for Graduate School in the Biological Sciences**

(1-0) Cr. 1. F.

*Prereq: For life science majors; Minimum requirement: sophomore standing.*

For students considering pursuing a graduate degree in the biological sciences. Professional development topics including the defining of academic and career areas of interest, finding and evaluating appropriate programs of graduate study, the graduate school application process, and developing a curriculum vita. Exploration of learning opportunities at field stations, research internships, and independent research activities.

**BIOL 494: Biology Internship**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 8 credits in BIOL; Permission of Instructor*

Professional experiences in biological sciences. Intended for Biology majors. No more than 9 credits in BIOL 494 may be counted toward graduation and, of those, only 6 credits may be applied toward the Biology advanced course requirement.

**BIOL 495: Undergraduate Seminar**

Cr. 1-3. Repeatable. F.S.

*Prereq: Permission of Instructor*

Content varies from year to year and may include detailed discussion of special topics in biology, current issues in biology, or careers in biology.

**BIOL 498: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of the Biology Program Cooperative Education Coordinator*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**BIOL 499: Undergraduate Research Experience**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Permission of Instructor*

Research opportunities for undergraduate students in the biological sciences. Intended for Biology majors. No more than 9 credits in Biol 499 may be counted toward graduation and, of those, only 6 credits may be applied toward the Biology advanced course requirement.

## Biomedical Engineering (B M E)

***Any experimental courses offered by B M E can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**B M E 220: Introduction to Biomedical Engineering**

(Cross-listed with CH E). (3-0) Cr. 3. S.

*Prereq: BIOL 212; (CHEM 167 or CHEM 177); (A B E 160 or AER E 160 or C E 160 or CH E 160 or CPR E 185 or E E 185 or ENGR 160 or I E 148 or M E 160 or S E 185); MATH 166; PHYS 232; PHYS 232L*

Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.

**B M E 341: BioMEMs and Nanotechnology**

(Cross-listed with E E). (3-0) Cr. 3.

*Prereq: B M E 220*

Overview of Micro-Electro-Mechanical-System (MEMS) technologies for bioengineering, fundamentals of microfluidic device design, fabrication, and characterization, survey of microfluidic functional building blocks for lab-on-a-chip applications including mixers, valves, channels, and chambers. Topics of nanotechnology in bioengineering, nanoscale building block technologies for bioengineering including self-assembling, surface chemical treatment, nano-imprinting, nano-particles, nano-tubes, nano-wires, and stimuli-responsive biomaterials.

**B M E 352: Molecular, Cellular and Tissue Biomechanics**

(3-0) Cr. 3.

*Prereq: B M E 220; E M 324; MAT E 273*

Introduction to the anatomy of the musculoskeletal system and connective tissue. Range of movement, joint dislocation, bone deformity and fracture. Application of continuum mechanics to both living and non-living systems. Laws of motion, free-body diagrams and simple force analysis of musculoskeletal system. Biomechanical response of soft and hard tissues with emphasis on microstructure and mechanical properties. Applications to bioengineering design.

**B M E 440: Biomedical Applications of Chemical Engineering**

(Cross-listed with CH E). (3-0) Cr. 3.

*Prereq: (CH E 210 or CH E 220); (MATH 266 or MATH 267); PHYS 232*

Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

**B M E 447: Biomedical Design and Manufacturing**

(Cross-listed with I E). (3-0) Cr. 3.

*Prereq: Undergraduate students with three semesters or less before graduation while graduate standing for graduate students*

Exploration of biology, materials, body mechanics, manufacturing, quality control, and ethics and the intersection of these subjects as they relate to biomedical manufacturing. Study of medical data (CT, MRI, etc.) processing, biomedical design, 3D bioprinting and additive manufacturing concepts.

**B M E 450: Biosensors**

(Cross-listed with E E). (3-0) Cr. 3.

*Prereq: B M E 220*

Overview of biosensors and bioanalytical challenges; designing for performance including various analytical problems, ion-selective membranes, characteristics of enzymes and basics of bioaffinity sensing; fundamentals of bioselective layers including depositing films and membranes, surfaces for immobilization and bioselective agents; survey of different biosensing technologies including electroanalytical, biomembrane, optical, and acoustic-wave based sensors.

**B M E 450L: Biosensors Laboratory**

(Cross-listed with E E). (0-3) Cr. 1.

*Prereq: B M E 220; concurrent enrollment in B M E 450 or E E 450*

Laboratory course accompanying B M E 450. Design, fabrication, and characterization of various electrical, chemical, polymer, optical and acoustic sensors.

**B M E 456: Biomaterials**

(Cross-listed with MAT E). (3-0) Cr. 3. F.

*Prereq: CHEM 178; (MAT E 216 or MAT E 273 or MAT E 392)*

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

**B M E 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Professor in Charge of Bioengineering Minor*

Investigation of biomedical engineering topics of special interest to student and supervising faculty member with a final written report.

## Biomedical Sciences (B M S)

***Any experimental courses offered by B M S can be found at:***

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for professional curriculum students:****B M S 329: Anatomy and Physiology of Domestic Animals**

(3-0) Cr. 3. S.

*Prereq: BIOL 212; BIOL 212L*

Survey of body systems of domestic animals. Provides a medical science orientation particularly useful to students in a preveterinary medicine curriculum.

**B M S 330: Principles of Morphology I**

(Dual-listed with B M S 530). (4-6) Cr. 6. F.

*Prereq: 10 credits in biological science and permission of the instructor*

Anatomy of the dog and cat: from basics to clinical application.

**B M S 331: Principles of Morphology II**

(Dual-listed with B M S 531). (2-6) Cr. 4. S.

*Prereq: First-year classification in veterinary medicine. B M S 330*

Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

**B M S 333: Biomedical Sciences I**

(Dual-listed with B M S 533). (5-3) Cr. 6. F.

*Prereq: First-year classification in veterinary medicine or graduate student status*

Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

**B M S 334: Biomedical Sciences II**

(Dual-listed with B M S 534). (5-3) Cr. 6. S.

*Prereq: First-year classification in veterinary medicine or graduate student status*

Microscopic anatomy of the immune system and integument.

Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

**B M S 335: Molecular and Cellular Basis of Disease**

(1-0) Cr. 1. F.

Descriptions of molecular and cellular biology especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

**B M S 336: Veterinary Nutrition**

(2-0) Cr. 2. F.

Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets, and horses under various physiological states. Understand fate of various nutrients in simple stomached animals, ruminants, and cecal fermenters. Discuss clinical nutrition problems specific to each species.

**B M S 337: Neuroanatomy**

(Dual-listed with B M S 537). (2-2) Cr. 3. S.

*Prereq: 10 credits in biological science and permission of the instructor*  
Neuroanatomy of domestic animals.

**B M S 339: Clinical Foundations I**

(Cross-listed with V C S). (0-2) Cr. 1. F.

*Prereq: First-year classification in veterinary medicine*

Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

**B M S 345: Case Study I**

(0-2) Cr. 1. F.

*Prereq: First-year classification in veterinary medicine*

Clinical applications of basic sciences taught concurrently in the fall semester of the first year curriculum in veterinary medicine.

**B M S 346: Case Study II**

(0-1) Cr. 1. S.

*Prereq: First-year classification in veterinary medicine*

Clinical applications of basic sciences taught concurrently in the spring semester of the first year curriculum in veterinary medicine.

**B M S 354: General Pharmacology**

(Dual-listed with B M S 554). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405*

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

**B M S 401: Intro to Aquatic Animal Medicine**

(Cross-listed with A ECL). (1-2) Cr. 1. S.

8-week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on water-evaluation, anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, biosecurity and current research. Field trip to aquaculture facility.

**B M S 403: Behavior of Domestic Animals**

(1-0) Cr. 1. Alt. S., offered odd-numbered years.

*Prereq: Vet Med Classification*

Normal and abnormal behavior of domestic animals.

**B M S 438: Principles of Physiology**

(Dual-listed with B M S 538). (4-0) Cr. 4. F.

*Prereq: 538: Graduate Student Standing or Permission of Instructor. 438: BIOL 212, BIOL 212L*

Principles of neurophysiology, endocrine and reproductive physiology, muscle physiology, cardiovascular, respiratory, renal, and digestive physiology, and regulation of body fluid.

**B M S 439: Principles of Pharmacology**

(Dual-listed with B M S 539). (4-0) Cr. 4. S.

*Prereq: A physiology course: B M S 329, BIOL 335 or equivalent; All non-graduate students must seek permission of the instructor in charge to register for B M S 539.*

General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

**B M S 443: Pharmacology and Therapeutics**

(Dual-listed with B M S 543). (3-0) Cr. 3. F.

*Prereq: B M S 354*

Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

**B M S 447: Introduction to Human Gross Anatomy**

(Dual-listed with B M S 547). (2.5-6) Cr. 4. F.

*Prereq: Graduate standing and previous biology coursework or instructor permission.*

Examination of gross anatomy and neuroanatomy of the human. Laboratories will center on regional anatomy study through human cadaver dissection in addition to models, virtual learning solutions, radiologic imaging and case studies.

**B M S 448: Principles of Human Gross Anatomy**

Cr. 4. Repeatable, maximum of 2 times. S.SS.

*Prereq: BIOL 255 or equivalent AND an introductory biology course.*

BMS 448 will be a laboratory-centered course that focuses on prosected human cadavers to develop an in-depth understanding of human anatomical function. The course will follow a regional approach and stress relationships between neighboring anatomical structures. During laboratory sessions, students teams will study anatomy from multiple individuals to gain an appreciation for anatomical variation and effects on the body from aging, disease, etc. Additional laboratory activities include study in osteology, radiograph interpretation and case studies. Only one offering of BMS 448 may count towards graduation.

**B M S 490: Independent Study**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 490H: Independent Study, Honors**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 496: International Experience**

Cr. 1-12. Repeatable. S.

*Prereq: Vet Med Classification or Permission of Instructor*

International Preceptorships and Study Abroad Group programs.

Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

**B M S 501: Selected Research Methods in Biomedical Sciences**

(0-8) Cr. 3. F.S.SS.

*Prereq: Graduate classification, permission of a BMS faculty member*

Experience in biomedical techniques in selected BMS laboratories that include but is not limited to cytochemical methods, molecular biological techniques, extracellular and intracellular unit recording, microiontophoresis, microinjection, spectrophotofluorometric analysis of chemicals, use of radioisotopes, radioimmunoassay, Ca<sup>2+</sup> imaging, confocal microscopy, fluorescence microscopy, and immunocytochemistry.

**B M S 502: Methods in Biomedical Sciences**

(0-6) Cr. 3. S.

*Prereq: Graduate Student Status or Permission of the Instructor*

Provides laboratory experience in the application of methods in biomedical sciences, including animal physiology and pharmacology laboratory techniques; human physiology recordings and urinalysis; pharmacokinetics; basic techniques in analytical laboratory; basic pathology, immunology, bacteriology, and virology laboratory techniques.

**B M S 503: Fundamentals of Biomedical Sciences**

Cr. 1. F.

*Prereq: Admission to B M S Graduate Program*

Institutional training essential for biomedical research, orientation to institutional career services and communication resources, professional development activities and practice with critical evaluation of data presentation and interpretation in biomedical literature.

**B M S 530: Principles of Morphology I**

(Dual-listed with B M S 330). (4-6) Cr. 6. F.

*Prereq: 10 credits in biological science and permission of the instructor*

Anatomy of the dog and cat: from basics to clinical application.

**B M S 531: Principles of Morphology II**

(Dual-listed with B M S 331). (2-6) Cr. 4. S.

*Prereq: First-year classification in veterinary medicine. B M S 330*

Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

**B M S 533: Biomedical Sciences I**

(Dual-listed with B M S 333). (5-3) Cr. 6. F.

*Prereq: First-year classification in veterinary medicine or graduate student status*

Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

**B M S 534: Biomedical Sciences II**

(Dual-listed with B M S 334). (5-3) Cr. 6. S.

*Prereq: First-year classification in veterinary medicine or graduate student status*

Microscopic anatomy of the immune system and integument.

Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

**B M S 535: Molecular and Cellular Basis of Disease**

Cr. 1. S.

*Prereq: First-year classification in veterinary medicine or graduate student status.*

Descriptions of molecular and cellular biology, especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

**B M S 537: Neuroanatomy**

(Dual-listed with B M S 337). (2-2) Cr. 3. S.

*Prereq: 10 credits in biological science and permission of the instructor*  
Neuroanatomy of domestic animals.

**B M S 538: Principles of Physiology**

(Dual-listed with B M S 438). (4-0) Cr. 4. F.

*Prereq: 538: Graduate Student Standing or Permission of Instructor. 438: BIOL 212, BIOL 212L*

Principles of neurophysiology, endocrine and reproductive physiology, muscle physiology, cardiovascular, respiratory, renal, and digestive physiology, and regulation of body fluid.

**B M S 539: Principles of Pharmacology**

(Dual-listed with B M S 439). (4-0) Cr. 4. S.

*Prereq: A physiology course: B M S 329, BIOL 335 or equivalent; All non-graduate students must seek permission of the instructor in charge to register for B M S 539.*

General principles of drug actions; drug disposition; drug acting on, cardiovascular, respiratory, renal, gastrointestinal, and endocrine systems; anti-inflammatory and antibiotic drug; anti-cancer drugs; anesthetics CNS stimulants; lifestyle drugs; drug addiction, abuse and dependence; drugs in sport; drugs for obesity; biopharmaceuticals and gene therapy; drug development.

**B M S 542: Introduction to Molecular Biology Techniques**

(Cross-listed with EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**B M S 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**B M S 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**B M S 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**B M S 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**B M S 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**B M S 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**B M S 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**B M S 543: Pharmacology and Therapeutics**

(Dual-listed with B M S 443). (3-0) Cr. 3. F.

*Prereq: B M S 354*

Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

**B M S 547: Introduction to Human Gross Anatomy**

(Dual-listed with B M S 447). (2.5-6) Cr. 4. F.

*Prereq: Graduate standing and previous biology coursework or instructor permission.*

Examination of gross anatomy and neuroanatomy of the human. Laboratories will center on regional anatomy study through human cadaver dissection in addition to models, virtual learning solutions, radiologic imaging and case studies.

**B M S 554: General Pharmacology**

(Dual-listed with B M S 354). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405*

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

**B M S 556: Cellular, Molecular and Developmental Neuroscience**

(Cross-listed with GDCB, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: BIOL 335 or BIOL 436; physics recommended*

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, and regulatory systems.

**B M S 575: Cell Biology**

(Cross-listed with TOX). (3-0) Cr. 3. F.

*Prereq: 10 credits in biological sciences and graduate student standing or permission of instructor*

A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

**B M S 590: Special Topics**

Cr. 1-7. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 590A: Anatomy**

Cr. 1-7. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 590B: Physiology**

Cr. 1-7. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 590C: Pharmacology**

Cr. 1-7. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 590D: Cell biology**

Cr. 1-7. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 599: Creative Component**

Cr. 1-3. F.S.SS.

*Prereq: Enrollment in BMS graduate program, and permission of instructor.*

Creative component for non-thesis Master of Science degree.

**Courses for graduate students:**

**B M S 688: Research Review**

Cr. 1. Repeatable. F.

*Prereq: Enrollment in BMS graduate program.*

A forum for B M S students to gain experience in the critical exchange of ideas through oral presentation and discussion of scientific information.

**B M S 690: Advanced Topics**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 690A: Anatomy**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 690B: Physiology**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 690C: Pharmacology**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 690D: Cell biology**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**B M S 698: Seminar**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

**B M S 698A: Seminar: Attendance**

Cr. R. Repeatable. F.S.

*Prereq: Enrollment in BMS graduate program.*

**B M S 698B: Seminar: Attendance and Presentation**

(1-0) Cr. 1. Repeatable. F.S.SS.

*Prereq: Enrollment in B M S graduate program.*

Attendance and presentation required. Offered on a satisfactory-fail basis only.

**B M S 698C: Seminar: Attendance and Report**

Cr. 1. Repeatable. F.S.

*Prereq: Enrollment in BMS graduate program.*

Attendance to all B M S seminars and written reports are required.

**B M S 699: Research**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

**B M S 699A: Research: Anatomy**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

**B M S 699B: Research: Physiology**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

**B M S 699C: Research: Pharmacology**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

**B M S 699D: Research: Cell biology**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in BMS graduate program.*

# Business Administration (BUSAD)

**Any experimental courses offered by BUSAD can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) ([http://](http://registrar.iastate.edu/faculty-staff/courses/explisting/)

[www.registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/))

**Courses primarily for undergraduates:**

## **BUSAD 102: Business Learning Team Orientation**

(1-0) Cr. 1. F.S.

A required orientation for all College of Business Students involved with a Business Learning Team. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines and registration procedures. Includes a consideration of various business majors and careers, tools for success in college including writing skills and presentations from employers, alumni and current students. Only one of BusAd 102 or BusAd 103 may be counted towards graduation.

## **BUSAD 103: Orientation**

(1-0) Cr. 1. F.S.

A required orientation for all College of Business students. Review of college and university requirements, transfer credits, academic planning, university policies and deadlines, and registration procedures. Includes group advising for course selection and registration. Only one of BUSAD 102 or BUSAD 103 may be counted toward graduation.

## **BUSAD 105: Exploration of Majors & Careers in Business**

Cr. 1. F.S.

Exploration course providing in-depth information and education regarding majors and related careers in business, with the goal for students of making a decision on which business major(s) to pursue. 8 week course. Offered on a satisfactory-fail basis only.

## **BUSAD 203: Professional Development in Business**

(1-0) Cr. 1.

*Prereq: BUSAD 102 or 103*

Designed to develop prepared, professional and engaged students directly aligned with current workplace competencies: individual and team strengths, professional branding, developing and implementing a professional job/internship search, resume and other professional job seeking communications, interviewing, evaluating offers, and networking. Team presentations will be a requirement of this course.

## **BUSAD 250: Applied Principles of Business**

(3-0) Cr. 3.

*Prereq: COM S 113*

Introduction to the functional areas of business and how the functional areas are integrated for the purpose of implementing business strategy. Introduces students to decision making tools (spreadsheets and databases) that are integral to business decision making. Includes application exercises to all functional areas of business.

## **BUSAD 292: Entrepreneurship & Innovation Learning Community (EILC) Seminar**

(1-0) Cr. 1.

Topics related to entrepreneurship and entrepreneurial thinking.

Presentations by entrepreneurs and faculty, field trips, business concept development.

## **BUSAD 301: Introduction to International Business**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore Classification*

Foundation for international business theory and practices with an emphasis on understanding the intersection of business, culture, politics, law, and economics. Views from both the United States and countries abroad will be presented.

## **BUSAD 391: Professional Experiential Learning**

Cr. 1. Repeatable, maximum of 6 credits.

*Prereq: 12 credits from College of Business; written approval of Career Services Internship Coordinator on required form prior to the learning experience.*

Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

## **BUSAD 391A: Professional Experiential Learning: Domestic Internship**

Cr. 1. Repeatable, maximum of 6 credits.

*Prereq: 12 credits from College of Business; written approval of Career Services Internship Coordinator on required form prior to the learning experience*

Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

## **BUSAD 391B: Professional Experiential Learning: International Internship**

Cr. 1. Repeatable, maximum of 6 credits.

*Prereq: 12 credits from College of Business; written approval of Career Services Internship Coordinator on required form prior to the learning experience*

Supervised work experience in a business related discipline. Offered on a satisfactory-fail basis only.

## **BUSAD 391C: Professional Experiential Learning: Domestic Travel and Study**

Cr. 1. Repeatable, maximum of 6 credits.

*Prereq: 12 credits from College of Business; written approval of Career Services Internship Coordinator on required form prior to the learning experience*

Supervised travel and study in a business related discipline. Offered on a satisfactory-fail basis only.

**BUSAD 391D: Professional Experiential Learning: International Travel and Study**

Cr. 1. Repeatable, maximum of 6 credits.

*Prereq: 12 credits from College of Business; written approval of Career Services Internship Coordinator on required form prior to the learning experience*

Supervised travel and study in a business related discipline. Offered on a satisfactory-fail basis only.

**BUSAD 398: Cooperative Education**

Cr. R. Repeatable, maximum of 3 times.

*Prereq: Permission of department*

Required of all cooperative education students engaged in full-time internship/co-op. Students must register for this course prior to commencing each work period. No more than three credits may be taken in addition to BusAd 398 during any given semester. Offered on a satisfactory-fail basis only.

**BUSAD 490: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: Professional program in Business; permission of instructor; for 490H: Admission to the Business Honors Program*

**BUSAD 490A: Independent Study: International Business**

Cr. 1-3. Repeatable.

*Prereq: Professional program in Business; permission of instructor*

**BUSAD 490C: Independent Study: Consulting, Investment Banking and Related Industries**

(1-4) Cr. 3. F.S.SS.

*Prereq: Permission of Instructor*

Application of course learning to solve real-life business problems. Through the combination of significant experiential-learning activities, online academic lectures and readings, and writing assignments, this course will provide students with unique experiences to enhance skills such as formulating problems, structuring and prioritizing problems, synthesizing results, and communicating intuition from complicated analyses.

**BUSAD 490E: Independent Study: Entrepreneurship**

Cr. 1-3. Repeatable.

*Prereq: senior classification, permission of instructor*

**BUSAD 490G: Independent Study: General**

Cr. 1-3. Repeatable.

*Prereq: Professional program in Business; permission of instructor*  
Independent Study.

**BUSAD 490H: Independent Study: Honors**

Cr. 1-3. Repeatable.

*Prereq: Admission to the Business Honors Program*

**BUSAD 491: Okoboji Entrepreneurship Institute**

Cr. 1.

*Prereq: Selection to Okoboji Entrepreneurship Institute*

Advanced study of entrepreneurship that includes a team-based entrepreneurial simulation, seminars with successful entrepreneurs and business community leaders, a formal pitch presentation, and networking and mentoring in an immersive experiential environment. Students must apply and be selected for participation. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**BUSAD 501: Strategic Management**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

**BUSAD 502: Quantitative Business Analysis and Decision Making**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or departmental permission*

Introduction to the sources and statistical analysis of data as well as optimization models for use in making business decisions. Data collection, descriptive and inferential statistics including hypothesis testing, analysis of variance, multiple regression, linear programming and simulation.

**BUSAD 503: Information Systems**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases, reading, and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical and data-driven competitive environment.

**BUSAD 504: Marketing and Logistics**

(Cross-listed with STB). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.

**BUSAD 507: Organizational Behavior**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

**BUSAD 508: Accounting and Finance**

(Cross-listed with STB). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Survey of fundamental topics in accounting and finance. Financial statement reporting and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

**BUSAD 509: International Seed Business Practices, Policies, & Regulation**

(Cross-listed with STB). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Cultural, financial, economic, political, legal/regulatory environments shaping an organization's international business strategy. Topics include entry (and repatriation) of people, firms, goods, services, and capital. Special attention to the institutions of seed regulation and policy. Ethical issues facing managers operating in an international context.

**BUSAD 590: Special Topics in Business**

(3-0) Cr. 3. Repeatable.

*Prereq: Enrollment in MBA program or departmental permission.*

A special topics course covering contemporary issues in business. Topics vary by semester.

**BUSAD 591: Professional Experiential Learning**

Cr. 1-5. Repeatable.

*Prereq: Graduate standing; written approval of supervising instructor and department chair on required form prior to the learning experience*

Academically supervised travel and/or work experiences in a business related discipline.

**BUSAD 592: MBA Professional Skills Development**

Cr. R.

*Prereq: Admission to Full-time MBA Program*

Provides first-year MBA students with tools necessary to develop and implement a successful internship and career search, and to develop professional skills critical for success in the competitive business environment. Topics include career search strategy, resume and cover letter development, interviewing, strategic networking, salary negotiation, impression management, team skills development, presentation skills development, and business etiquette. Required for all full-time MBA students. Offered on a satisfactory-fail basis only.

**BUSAD 594: MBA Professional Skills Development II**

Cr. R.

*Prereq: BUSAD 592*

A second course designed to improve the professional skills of first-year MBA students. Emphasis on building effective communications and networking skills. Students will participate in professional workshops, company visits, executive speaker seminars, service learning projects, business case competitions, and related activities. Offered on a satisfactory-fail basis only.

**BUSAD 597: Part-Time Cooperative Education**

Cr. R. Repeatable.

*Prereq: Permission of Instructor*

Career development growth through a process of analyzing and reporting experiential learning endeavors. Students may complete this course during or pursuant to completion of a summer- or semester-length internship or co-op experience. International students must have completed two graduate course semesters at Iowa State University before taking the course. Offered on a satisfactory-fail basis only.

**BUSAD 598: Cooperative Education**

Cr. R.

*Prereq: Permission of instructor*

Professional work experience. Students must register for this course prior to commencing work. Offered on a satisfactory-fail basis only.

**BUSAD 599: Creative Component**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599A: Creative Component: Accounting**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599C: Creative Component: Finance**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599E: Creative Component: Management**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599F: Creative Component: Marketing**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599I: Creative Component: Agribusiness**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599J: Creative Component: General Business**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599K: Creative Component: Management Information Systems**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**BUSAD 599L: Creative Component: Supply Chain Management**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**Courses for graduate students:****BUSAD 644: Business Research Methods**

(3-0) Cr. 3. F.

*Prereq: In PhD program in the College of Business or consent of instructor*  
A survey of the wide variety of research methods used in business. Methods will be presented and discussed with emphasis on applicability in different research situations.

**BUSAD 699: Research**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: Graduate classification, permission of major professor*  
Research.

## Chemical Engineering (CH E)

**Any experimental courses offered by CH E can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****CH E 104: Chemical Engineering Learning Community**

Cr. R. F.

*Prereq: Enrollment in Chemical Engineering Learning Team*  
(1-0) Curriculum in career planning and academic course support for Freshmen learning team.

**CH E 160: Chemical Engineering Problems with Computer Applications Laboratory**

(2-2) Cr. 3. F.S.

*Prereq: (MATH 143 or satisfactory scores on mathematics placement examinations); credit or concurrent enrollment in MATH 165*  
Formulation and solution of engineering problems. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to material balances, engineering economics, and design. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. Chemical Engineering examples. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, CH E 160, C E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**CH E 202: Chemical Engineering Seminar**

Cr. R. F.

Professionalism in the context of the engineering/technical workplace. Introduction to chemical engineering career opportunities. Process and workplace safety. Development and demonstration of key workplace competencies: teamwork, professionalism and ethical responsibility, ability to engage in life-long learning, and knowledge of contemporary issues. Resumes; professional portfolios; preparation for internship experiences. Restricted to CHE majors. Offered on a satisfactory-fail basis only.

**CH E 204: Chemical Engineering Continuing Learning Community**

Cr. R.

*Prereq: Enrollment in Chemical Engineering Learning Team*  
Curriculum and career planning, academic course support for learning community.

**CH E 205: Chemical Engineering Progress Assessment**

Cr. R. F.S.

*Prereq:* Credit or concurrent enrollment in CH E 160; CHEM 178; MATH 166

Assessment of proficiency in general chemistry, calculus (including infinite series and applications of derivatives and integrals), and material balances, and an ability to use the principles of science and mathematics to identify, formulate, and solve engineering problems. Offered on a satisfactory-fail basis only.

**CH E 210: Material and Energy Balances**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 160; CHEM 178; MATH 166

Introduction to chemical processes. Physical behavior of gases, liquids, and solids. Application of material and energy balances to chemical engineering equipment and processes.

**CH E 220: Introduction to Biomedical Engineering**

(Cross-listed with B M E). (3-0) Cr. 3. S.

*Prereq:* BIOL 212; (CHEM 167 or CHEM 177); (A B E 160 or AER E 160 or C E 160 or CH E 160 or CPR E 185 or E E 185 or ENGR 160 or I E 148 or M E 160 or S E 185); MATH 166; PHYS 232; PHYS 232L

Engineering analysis of basic biology and engineering problems associated with living systems and health care delivery. The course will illustrate biomedical engineering applications in such areas as: biotechnology, biomechanics, biomaterials and tissue engineering, and biosignal and image processing, and will introduce the basic life sciences and engineering concepts associated with these topics.

**CH E 290: Introduction to Undergraduate Research/Independent Study**

Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.

*Prereq:* Permission of Instructor

Introduction to independent study with emphasis on skills necessary to pursue further independent study of a topic of special interest to student and faculty. Topics may include introductions to laboratory safety, standard operating procedures, design of experiments, data analysis, computational methods, literature searches, and professional communications. Pre-enrollment contract between student and instructor required. Offered on a satisfactory-fail basis only. Not applicable to the B.S. in Chemical Engineering degree.

**CH E 310: Computational Methods in Chemical Engineering**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 160; CH E 205; CH E 210; MATH 265

Numerical methods for solving systems of linear and nonlinear equations, ordinary differential equations, numerical differentiation and integration, and nonlinear regression using chemical engineering examples.

**CH E 325: Chemical Engineering Laboratory I**

(0-4) Cr. 2. F.S.

*Prereq:* CH E 357; CH E 381; (credit or concurrent enrollment in ENGL 309 or ENGL 312 or ENGL 314 or JL MC 347)

Experiments covering fundamental material and energy balances, momentum and energy transport operations, and thermodynamics. Computer applications.

**CH E 356: Transport Phenomena I**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 205; CH E 210; PHYS 231; PHYS 231L; credit or concurrent enrollment in MATH 267

Momentum and mechanical energy balances. Incompressible and compressible fluid flow. Applications to fluid drag, piping system design, filtration, packed beds and settling.

**CH E 357: Transport Phenomena II**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 356

Conduction and diffusion, convective heat and mass transfer, boiling and condensation, radiation, and design of heat exchange equipment. Introduction to diffusion. Credit for only FS HN 351 or CH E 357 may be applied toward graduation for the Food Science major or Food Science minor

**CH E 358: Separations**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 310; CH E 357; CH E 381

Diffusion and mass transfer in fluids. Analysis and design of continuous contacting and multistage separation processes. Binary and multicomponent distillation, absorption, extraction, evaporation, membrane processes, and simultaneous heat and mass transfer.

**CH E 381: Chemical Engineering Thermodynamics**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 202; CHEM 325; MATH 267; PHYS 232; (credit or concurrent enrollment in CH E 310; PHYS 232L)

Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of fluids, phase equilibria, and chemical reaction equilibria.

**CH E 382: Chemical Reaction Engineering**

(3-0) Cr. 3. F.S.

*Prereq:* CH E 310; CH E 381; credit or concurrent enrollment in CH E 357

Kinetics of chemical reactions. Design of homogeneous and heterogeneous chemical reactors.

**CH E 391: Foreign Study Orientation**

(3-0) Cr. 3. S.

*Prereq: CH E 357; CH E 381; (credit or concurrent enrollment in ENGL 309 or ENGL 312 or ENGL 314 or JL MC 347)*

Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of Ch E 392.

Meets International Perspectives Requirement.

**CH E 392: Foreign Study Program**

Cr. 4. SS.

*Prereq: CH E 358; CH E 382; CH E 391*

Study of chemical engineering including laboratories and lectures at collaborating international universities. Comparative study of U.S. and international manufacturing facilities. Expenses required.

Meets International Perspectives Requirement.

**CH E 406: Environmental Chemodynamics**

(Dual-listed with CH E 506). (3-0) Cr. 3.

*Prereq: CHE 357; CH E 381*

Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment.

**CH E 408: Surface and Colloid Chemistry**

(Dual-listed with CH E 508). (3-0) Cr. 3.

*Prereq: CH E 381*

Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis.

**CH E 410: Electrochemical Engineering**

(Dual-listed with CH E 510). (3-0) Cr. 3. F.

*Prereq: CH E 357; CH E 381; CH E 382*

Electrochemical engineering principles in thermodynamics, electrode kinetics, charge and mass transport; modeling and simulation; electrocatalysis; electrochemical reactions; applications of electrochemical engineering in fuel cells, batteries and electrolyzers.

**CH E 412: Core Concepts in Chemical Engineering**

(3-0) Cr. 3. S.SS.

*Prereq: CHEM 325; MATH 267; PHYS 231; PHYS 231L*

Survey of the engineering science fundamentals in chemical engineering. Topics include material balances, energy balances, thermodynamics, transport phenomena, and reaction engineering. Credit for ChE 412 may not be applied to any undergraduate or graduate degree programs in chemical engineering.

**CH E 415: Biochemical Engineering**

(Dual-listed with CH E 515). (3-0) Cr. 3.

*Prereq: (BBMB 301 or BBMB 303 or BBMB 404); CH E 357; CHEM 331*

Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation.

**CH E 420: Chemical Process Safety**

(3-0) Cr. 3. F.S.

*Prereq: CH E 357; CH E 381*

Application of transport phenomena, thermodynamics, and chemical kinetics to the study of safety, health, and loss prevention. Government regulations, industrial hygiene, relief sizing, runaway reactions, toxic release, and dispersion models will be used. Fires, explosions, risk assessment, hazard identification, case studies, accident investigations, and design considerations will be studied.

**CH E 421: Process Control**

(3-0) Cr. 3. F.S.

*Prereq: CH E 358; CH E 382; MATH 267*

Control of industrial chemical processes. Device applications and limitations. Dynamics of chemical process components and process control systems.

**CH E 426: Chemical Engineering Laboratory II**

(0-4) Cr. 2. F.S.

*Prereq: CH E 325; CH E 358; CH E 382*

Experiments in heat and mass transfer, staged operations, chemical reactor performance, unit processes. Computer applications. Only one of Ch E 426 or 427 may count toward graduation.

**CH E 427: Biological Engineering Laboratory**

(0-4) Cr. 2. S.

*Prereq: (BBMB 301 or BBMB 303 or BBMB 404); CH E 325; CH E 358; CH E 382*

Experiments on biological applications in chemical engineering. Only one of CH E 426 or CH E 427 may count toward graduation.

**CH E 429: Chemical Engineering Product Design**

(3-0) Cr. 3. F.S.

*Prereq: CH E 358 and CH E 382*

Application of core chemical engineering concepts to product design. Market and economic analysis, and technical feasibility. Literature and intellectual property search. Environmental, regulatory, and safety considerations.

**CH E 430: Process and Plant Design**

(2-4) Cr. 4. F.S.

*Prereq: CH E 358; CH E 382*

Synthesis of chemical engineering processes, equipment and plants. Cost estimation and feasibility analysis.

**CH E 440: Biomedical Applications of Chemical Engineering**

(Dual-listed with CH E 540). (Cross-listed with B M E). (3-0) Cr. 3.

*Prereq: (CH E 210 or CH E 220); (MATH 266 or MATH 267); PHYS 232*

Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

**CH E 447: Polymers and Polymer Engineering**

(Dual-listed with CH E 547). (3-0) Cr. 3.

*Prereq: CHEM 331; (CH E 382 or MAT E 351)*

Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry.

**CH E 490: Undergraduate Research/Independent Study**

(0-18) Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: Permission of Department*

Investigation of topics of special interest to student and faculty with a final written report or presentation. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of ChE 490 may be counted towards technical electives.

**CH E 490H: Undergraduate Research/Independent Study, Honors**

(0-18) Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: Permission of Department*

Investigation of topics of special interest to student and faculty with a final written report or presentation. Election of course and topic must be approved in advance by Department with completion of Study Proposal. No more than 6 credits of ChE 490 may be counted towards technical electives.

**CH E 499: Applied Industrial Research**

Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: CH E 205; CH E 210; Permission Instructor*

Application of core chemical engineering concepts to solve industrially-sponsored process design problems in teams. Introduction to literature review and analysis, intellectual property, and project management.

**Courses primarily for graduate students, open to qualified undergraduates:**

**CH E 506: Environmental Chemodynamics**

(Dual-listed with CH E 406). (3-0) Cr. 3.

*Prereq: CHE 357; CH E 381*

Examines the mechanisms and rates of chemical transport across air, water, and soil interfaces. Applications of transport and thermodynamic fundamentals to movement of chemicals in the environment.

**CH E 508: Surface and Colloid Chemistry**

(Dual-listed with CH E 408). (3-0) Cr. 3.

*Prereq: CH E 381*

Examines the factors underlying interfacial phenomena, with an emphasis on the thermodynamics of surfaces, structural aspects, and electrical phenomena. Application areas include emulsification, foaming, detergency, sedimentation, fluidization, nucleation, wetting, adhesion, flotation, and electrophoresis.

**CH E 510: Electrochemical Engineering**

(Dual-listed with CH E 410). (3-0) Cr. 3. F.

*Prereq: CH E 357; CH E 381; CH E 382*

Electrochemical engineering principles in thermodynamics, electrode kinetics, charge and mass transport; modeling and simulation; electrocatalysis; electrochemical reactions; applications of electrochemical engineering in fuel cells, batteries and electrolyzers.

**CH E 515: Biochemical Engineering**

(Dual-listed with CH E 415). (3-0) Cr. 3.

*Prereq: (BBMB 301 or BBMB 303 or BBMB 404); CH E 357; CHEM 331*

Application of basic chemical engineering principles in biochemical and biological process industries such as enzyme technology and fermentation.

**CH E 540: Biomedical Applications of Chemical Engineering**

(Dual-listed with CH E 440). (3-0) Cr. 3.

*Prereq: (CH E 210 or CH E 220); (MATH 266 or MATH 267); PHYS 232*

Applications of material and energy balances, transport phenomena, chemical reaction engineering, and thermodynamics to problems in biomedical engineering and applied physiology; survey of biomedical engineering; biomaterials; biomedical imaging.

**CH E 542: Polymeric Biomaterials**

(3-0) Cr. 3.

*Prereq: CHEM 331 or a polymers class*

Polymeric biomaterials, overview of biomaterial requirements, different classes of polymers used as biomaterials, specific bioapplications of polymers.

**CH E 545: Analytical and Numerical Methods**

(3-0) Cr. 3. F.

*Prereq: CH E 358, MATH 267*

Analysis of equipment and processes by analytic and/or numerical solution of descriptive differential equations. Operational and series techniques, boundary value problems, numerical interpolation and approximation, integration techniques.

**CH E 547: Polymers and Polymer Engineering**

(Dual-listed with CH E 447). (3-0) Cr. 3.

*Prereq: CHEM 331; (CH E 382 or MAT E 351)*

Chemistry of polymers, addition and condensation polymerization. Physical and mechanical properties, polymer rheology, production methods. Applications of polymers in the chemical industry.

**CH E 554: Integrated Transport Phenomena**

(4-0) Cr. 4. F.

*Prereq: CH E 357, CH E 381, Math 267, credit or enrollment in CH E 545*

Conservation equations governing diffusive and convective transport of momentum, thermal energy and chemical species. Transport during laminar flow in conduits, boundary layer flow, creeping flow. Heat and mass transport coupled with chemical reactions and phase change. Scaling and approximation methods for mathematical solution of transport models. Diffusive fluxes; conservation equations for heat and mass transfer; scaling and approximation techniques; fundamentals of fluid mechanics; unidirectional flow; creeping flow; laminar flow at high Reynolds number; forced-convection heat and mass transfer in confined and unconfined laminar flows.

**CH E 562: Bioseparations**

(3-0) Cr. 3.

*Prereq: CH E 357 or advanced standing in a science major*

Principles and techniques for separation and recovery of biologically-produced molecules, especially proteins. Relationship between the chemistry of biological molecules and efficient separation and preservation of biological activity. Includes centrifugation and filtration, membrane processing, extraction, precipitation and crystallization, chromatography, and electrophoresis.

**CH E 572: Turbulence**

(Cross-listed with AER E). (3-0) Cr. 3.

*Prereq: AER E 541 or M E 538*

Qualitative features of turbulence. Statistical representation of turbulent velocity fields: averages, moments, correlations, length and time scales and the energy cascade. Averaged equations of motion, closure requirements, Reynolds averaged models. Homogeneous shear flows, free shear flows, boundary layers. Numerical simulation of turbulence: DNS, LES, DES.

**CH E 583: Advanced Thermodynamics**

(3-0) Cr. 3. F.

*Prereq: CH E 381*

Application of thermodynamic principles to chemical engineering problems. Thermodynamic properties of non-ideal fluids and solutions; phase and chemical-reaction equilibria/stability.

**CH E 587: Advanced Chemical Reactor Design**

(3-0) Cr. 3. S.

*Prereq: CH E 382*

Analysis of complex reactions and kinetics. Fixed bed, fluidized bed, and other industrial reactors. Analysis and design of non-ideal flow mixing, and residence times. Heterogeneous reactors.

**CH E 590: Independent Study**

Cr. 2-6. Repeatable.

Investigation of an approved topic on an individual basis.

**CH E 595: Special Topics**

Cr. 2-3. Repeatable.

**CH E 595A: Special Topics: Separations**

Cr. 2-3. Repeatable.

**CH E 595B: Special Topics: Advanced Control Theory**

Cr. 2-3. Repeatable.

**CH E 595C: Special Topics: Crystallization**

Cr. 2-3. Repeatable.

**CH E 595D: Special Topics: Thermodynamics**

Cr. 2-3. Repeatable.

**CH E 595E: Special Topics: Protein Engineering/Bioseparations**

Cr. 2-3. Repeatable.

**CH E 595F: Special Topics: Biological Engineering**

Cr. 2-3. Repeatable.

**CH E 595G: Special Topics: Materials and Biomaterials**

Cr. 2-3. Repeatable.

**CH E 595H: Special Topics: Surfaces**

Cr. 2-3. Repeatable.

**CH E 595I: Special Topics: Combinatorial Design**

Cr. 2-3. Repeatable.

**CH E 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:****CH E 601: Seminar**

Cr. R. Repeatable. F.S.

Offered on a satisfactory-fail basis only.

**CH E 625: Metabolic Engineering**

(3-0) Cr. 3.

*Prereq: CH E 382, CHEM 331*

Principles of metabolic engineering. Emphasis on emerging examples in biorenewables and plant metabolic engineering. Overview of biochemical pathways, determination of flux distributions by stoichiometric and labeling techniques; kinetics and thermodynamics of metabolic networks; metabolic control analysis; genetic engineering for overexpression, deregulation, or inhibition of enzymes; directed evolution; application of bioinformatics, genomics, and proteomics.

**CH E 632: Multiphase Flow**

(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: M E 538*

Single particle, multiparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

**CH E 642: Principles and Applications of Molecular Simulation**

(3-0) Cr. 3.

*Prereq: CH E 545*

Principles of statistical physics. General features of molecular simulations including Monte Carlo (MC) methods, molecular mechanics (MM), and molecular dynamics (MD). Overview of intermolecular and interatomic potentials. Evaluation of phase equilibria, free energies, and surface/interfacial properties. Coarse-grained methods.

**CH E 688: Catalysis and Catalytic Processes**

(3-0) Cr. 3.

*Prereq: CH E 382*

Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.

**CH E 692: Independent Study**

Cr. 2-6. Repeatable.

Investigation of an approved topic on an individual basis. Election of course and topic must be approved in advance by Program of Study Committee.

**CH E 695: Advanced Topics**

Cr. arr. Repeatable.

**CH E 695A: Advanced Topics: Separations**

Cr. arr. Repeatable.

**CH E 695B: Advanced Topics: Advanced Statistical Modeling and Control**

Cr. arr. Repeatable.

**CH E 695C: Advanced Topics: Crystallization**

Cr. arr. Repeatable.

**CH E 695D: Advanced Topics: Thermodynamics**

Cr. arr. Repeatable.

**CH E 695E: Advanced Topics: Protein Engineering/Bioseparations**

Cr. arr. Repeatable.

**CH E 695F: Advanced Topics: Biological Engineering**

Cr. arr. Repeatable.

**CH E 695G: Advanced Topics: Materials and Biomaterials**

Cr. arr. Repeatable.

**CH E 695H: Advanced Topics: Surfaces**

Cr. arr. Repeatable.

**CH E 695I: Advanced Topics: Combinatorial Design**

Cr. arr. Repeatable.

**CH E 695J: Advanced Topics: Polymeric and Nanostructured Materials**

Cr. arr. Repeatable.

**CH E 695K: Advanced Topics: Biomaterials and Tissue Engineering**

Cr. arr. Repeatable.

**CH E 695L: Advanced Topics: Catalysis, Reaction Engineering, and Renewable Energy**

Cr. arr. Repeatable.

**CH E 697: Engineering Internship**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of major professor, graduate classification*

One semester and one summer maximum per academic year professional work period.

**CH E 698: Chemical Engineering Teaching Practicum**

(1-0) Cr. 1. F.S.SS.

*Prereq: Graduate student classification and permission of instructor*

Offered on a satisfactory-fail basis only.

**CH E 698A: Chemical Engineering Teaching Practicum: Teaching Practicum**

(1-0) Cr. 1. F.

*Prereq: Graduate student classification and permission of instructor*

Discussions intended to foster the development of graduate students as teaching assistants and future chemical engineering instructors. Topics include classroom and laboratory instruction, grading, and developing a teaching philosophy. Offered on a satisfactory-fail basis only.

**CH E 698B: Chemical Engineering Teaching Practicum: Teaching Experience**

(1-0) Cr. 1. Repeatable. F.S.SS.

*Prereq: CH E 698A*

Participation in the instruction of a CH E course under the mentorship of a CBE faculty member. Typical activities may include lecture preparation and delivery, laboratory instruction, design of assessments, problem-solving sessions, office hours, and grading. Offered on a satisfactory-fail basis only.

**CH E 699: Research**

Cr. arr. Repeatable.

Advanced topic for thesis/dissertation.

## Chemistry (CHEM)

*Any experimental courses offered by CHEM can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****CHEM 050: Preparation for College Chemistry**

(3-0) Cr. 0. F.S.

An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course who need a review of chemical problem solving and chemical concepts. 1 year high school algebra recommended. Credit for Chem 50 does not count toward graduation.

**CHEM 101: Chemistry Learning Community Orientation**

(1-0) Cr. 1. F.S.

Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

**CHEM 101A: Chemistry Learning Community Orientation: On-Campus Orientation**

(1-0) Cr. 1. F.

Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

**CHEM 101B: Chemistry Learning Community Orientation: Professional Development Opportunities**

(1-0) Cr. 1. S.

Integration of first year and transfer students into the chemistry program. Introduction and overview of degree requirements and support services on campus, assistance with transition to college and community life, and team-building and leadership activities. Offered on a satisfactory-fail basis only.

**CHEM 102L: Physical Sciences for Elementary Education**

(Cross-listed with PHYS). (1-4) Cr. 3. F.S.

*Prereq: MATH 140 or MATH 195*

Physical science principles for future elementary teachers. Emphasis on experiments that address current elementary science education standards and that are appropriate for their future students to do, such as measurements of mass, length, time, light from atoms, charge and current, motion due to forces, energy and work, heat, waves, optics, building bridges and making musical instruments, studying states of matter and chemical reactions.

**CHEM 110: Cutting-Edge Chemistry: Research and Career Opportunities**

(1-0) Cr. 1. F.

Overview of careers in chemistry: industrial, governmental, and academic careers; literature and compound search instruction; professional ethics; and an introduction to joining a research lab. For students majoring or minoring in chemistry or chemistry-related fields. Offered on a satisfactory-fail basis only.

**CHEM 160: Chemistry in Modern Society**

(3-0) Cr. 3. F.S.

Aspects of chemistry visible to a non-scientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

**CHEM 163: College Chemistry**

(4-0) Cr. 4. F.S.SS.

*Prereq: Credit or concurrent enrollment in CHEM 163L*

A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermochemistry, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. 1 year of high school algebra and geometry and CHEM 50 or 1 year of high school chemistry necessary. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

**CHEM 163L: Laboratory in College Chemistry**

(0-3) Cr. 1. F.S.SS.

*Prereq: Credit or concurrent enrollment in CHEM 163*

Laboratory to accompany CHEM 163. Must be taken with CHEM 163.

Only one of Chem 163L, CHEM 167L, and CHEM 177L may count toward graduation.

**CHEM 167: General Chemistry for Engineering Students**

(4-0) Cr. 4. F.S.

Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. MATH 140 or 2 years of high school algebra and 1 year of high school geometry and CHEM 50 or 1 year of high school chemistry necessary. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

**CHEM 167L: Laboratory in General Chemistry for Engineering**

(0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in CHEM 167*

Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

**CHEM 177: General Chemistry I**

(4-0) Cr. 4. F.S.SS.

*Prereq: Credit or concurrent enrollment in CHEM 177L*

The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Chemistry and Biochemistry majors may consider taking CHEM 201. MATH 140 or 2 years of high school algebra and 1 year of high school geometry and CHEM 50 or 1 year of high school chemistry necessary. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

**CHEM 177L: Laboratory in General Chemistry I**

(0-3) Cr. 1. F.S.SS.

*Prereq: Credit or concurrent enrollment in CHEM 177*

Laboratory to accompany 177. 177L must be taken with 177. Only one of Chem 163L, 167L, and 177L may count toward graduation.

**CHEM 177N: Laboratory in General Chemistry I**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in CHEM 177*

Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. For Chemistry and Biochemistry majors. Laboratory to accompany CHEM 177. CHEM 177N must be taken with CHEM 177. Only one of CHEM 163L, CHEM 167L, and CHEM 177N may count toward graduation.

**CHEM 178: General Chemistry II**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 163 or CHEM 167 or (CHEM 177; CHEM 177L)*

Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses.

**CHEM 178L: Laboratory in College Chemistry II**

(0-3) Cr. 1. F.S.SS.

*Prereq: CHEM 177L; credit or concurrent enrollment in CHEM 178*

Laboratory to accompany 178. 178L is not a necessary co-requisite with 178.

**CHEM 201: Advanced General Chemistry**

(5-0) Cr. 5. F.

*Prereq: Credit or concurrent enrollment in MATH 165 or MATH 166 or MATH 265; concurrent enrollment in CHEM 201L*

A one-semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. One year HS chemistry and one year HS physics, or advanced chemistry necessary. Only one of CHEM 163, 167, 177, or 201 may count toward graduation.

**CHEM 201L: Laboratory in Advanced General Chemistry**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in CHEM 201*

Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare students for research activities. 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

**CHEM 211: Quantitative and Environmental Analysis**

(2-0) Cr. 2. F.S.

*Prereq: (CHEM 163; CHEM 163L; CHEM 178; CHEM 201; CHEM 201L); concurrent enrollment in CHEM 211L*

Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

**CHEM 211L: Quantitative and Environmental Analysis Laboratory**

(0-6) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in CHEM 211*

Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.

**CHEM 231: Elementary Organic Chemistry**

(3-0) Cr. 3. F.S.SS.

*Prereq: (CHEM 163; CHEM 163L) or (CHEM 177; CHEM 177L) or CHEM 167; credit or concurrent enrollment in CHEM 231L*

A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

**CHEM 231L: Laboratory in Elementary Organic Chemistry**

(0-3) Cr. 1. F.S.SS.

*Prereq: Credit or concurrent enrollment in CHEM 231; (CHEM 163L or CHEM 177L)*

Laboratory to accompany 231. 231L must be taken with 231. Only one of Chem 231L and 331L may count toward graduation.

**CHEM 298: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Sophomore classification; Department Cooperative Education Coordinator Permission*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**CHEM 299: Undergraduate Research (for Freshmen and Sophomores)**

Cr. arr. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

**CHEM 301: Inorganic Chemistry**

(2-0) Cr. 2. S.

*Prereq: CHEM 324*

Atomic and molecular structure and bonding principles; molecular shapes and symmetry; acids and bases; solid-state structures and properties; inorganic chemistry of H, B, C.

**CHEM 316: Instrumental Methods of Chemical Analysis**

(2-0) Cr. 2. F.

*Prereq: CHEM 211; CHEM 211L; MATH 166; concurrent enrollment in CHEM 316L*

Quantitative and qualitative instrumental analysis. Operational theory of instruments, atomic and molecular absorption and emission spectroscopy, electroanalysis, mass spectrometry, liquid and gas chromatography, electrophoresis, literature of chemical analysis. PHYS 232 recommended.

**CHEM 316L: Instrumental Analysis Laboratory**

(0-6) Cr. 2. F.

*Prereq: Credit or concurrent enrollment in CHEM 316*

Advanced laboratory experience in UV-visible spectrophotometry, atomic absorption and emission spectrometry, electrochemistry, gas and liquid chromatography, electrophoresis, mass spectrometry, and other instrumental methods.

**CHEM 321L: Laboratory in Physical Chemistry**

(1-3) Cr. 2. S.

*Prereq: Credit or concurrent enrollment in CHEM 324 or CHEM 325*

Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, infrared and optical spectroscopy, lasers. Not applicable towards the B.S. degree in Chemistry. Only one of Chem 321L and 322L may count toward graduation.

**CHEM 322L: Laboratory in Physical Chemistry**

(1-6) Cr. 3. S.

*Prereq: CHEM 324 or CHEM 325*

Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, surface science, infrared and optical spectroscopy, lasers. Only one of Chem 321L and 322L may count toward graduation.

**CHEM 324: Introductory Quantum Mechanics**

(3-0) Cr. 3. F.S.

*Prereq: CHEM 178; MATH 166; PHYS 232*

Quantum mechanics, atomic and molecular structure, spectroscopy, kinetic theory of gases, chemical kinetics.

**CHEM 325: Chemical Thermodynamics**

(3-0) Cr. 3. F.S.

*Prereq: CHEM 178; MATH 166; PHYS 232*

Classical thermodynamics 1st, 2nd, and 3rd laws with applications to gases and interfacial systems, multicomponent, multiphase equilibrium of reacting systems, surface chemistry, and electrochemical cells. Students taking a two-semester physical chemistry sequence are advised to take 324 first; in the spring semester, a molecular-based section of this course, stressing statistical thermodynamics, is offered for which knowledge of 324 is useful.

**CHEM 326: Chemical Kinetics**

Cr. 1. S.

*Prereq: CHEM 167 or CHEM 177 or CHEM 178 or CHEM 201; MATH 166*

Kinetic theory, rate laws, temperature dependence of rate constants, transition-state theory, reaction mechanisms, kinetic isotope effects, catalysts, Michaelis-Menten kinetics, and Marcus theory. CHEM 324 and CHEM 325 recommended.

**CHEM 331: Organic Chemistry I**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 178 or CHEM 201*

The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331. Enrollment in CHEM 331L highly recommended. Only one of Chem 231 and 331 may count toward graduation.

**CHEM 331L: Laboratory in Organic Chemistry I**

(0-3) Cr. 1. F.S.SS.

*Prereq: CHEM 177L; credit or concurrent enrollment in CHEM 331*

Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 333L. Only one of Chem 231L and 331L may count toward graduation.

**CHEM 332: Organic Chemistry II**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 331*

Continuation of 331. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms, natural products, carbohydrates and proteins. For students majoring in physical and biological sciences, premedical and pre-veterinary curricula, chemistry and biochemistry. Enrollment in CHEM 332L highly recommended.

**CHEM 332L: Laboratory in Organic Chemistry II**

(0-3) Cr. 1. F.S.SS.

*Prereq: CHEM 331L; credit or concurrent enrollment in CHEM 332*

Laboratory to accompany 332. Chemistry and biochemistry majors are encouraged to take 334L.

**CHEM 333L: Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)**

(0-6) Cr. 2. F.

*Prereq: Credit or concurrent enrollment in CHEM 331*

Laboratory to accompany 331 for chemistry and biochemistry majors.

**CHEM 334L: Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)**

(0-6) Cr. 2. S.

*Prereq: CHEM 333L; credit or concurrent enrollment in CHEM 332*

Laboratory to accompany 332 for chemistry and biochemistry majors.

**CHEM 398: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Junior classification; Department Cooperative Education Coordinator Permission*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**CHEM 399: Undergraduate Research**

Cr. arr.

*Prereq: Sophomore, Junior, or Senior classification; Permission of Instructor*

A comprehensive research report, describing the work performed, the justification or purpose of the research work, the results obtained, and including appropriate literature references/citations must be submitted to the undergraduate chemistry office and the research faculty member. Reports must contain a title, abstract, introduction, procedural details (experimental, computational, or theoretical), results, discussion, and references. No more than six total credits of Chem 399 and Chem 499 may count toward graduation. Credits earned in 399/499/490 may only be use to meet one of the advanced course requirements for the B.S. degree.

**CHEM 401L: Inorganic Chemistry Laboratory**

(0-3) Cr. 1. S.

*Prereq: CHEM 402*

Preparation and characterization of inorganic and organometallic compounds by modern techniques. For students majoring in chemistry or biochemistry.

**CHEM 402: Advanced Inorganic Chemistry**

(3-0) Cr. 3. F.

*Prereq: CHEM 301*

Chemistry of the d and f metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic solid state and bioinorganic chemistry. CHEM 331 recommended.

**CHEM 490: Independent Study**

Cr. arr.

*Prereq: 6 credits in CHEM at 300 level or higher; Permission of Instructor*

No more than 9 credits of Chem 490 may count toward graduation.

**CHEM 498: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Senior classification; Department Cooperative Education Coordinator Permission*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**CHEM 499: Senior Research**

Cr. 2-3. Repeatable, maximum of 6 credits.

*Prereq: 3.0 GPA in CHEM, PHYS, and MATH courses; Permission of Instructor*

Research in chosen area of chemistry. This course should be elected for two consecutive semesters. For students majoring in chemistry. A comprehensive and formal research report/senior thesis, describing the work performed, the justification or purpose of the research work, the results obtained, and including appropriate literature references/citations must be submitted to the undergraduate chemistry office and the research faculty member. Reports must contain a title, abstract, introduction, procedural details (experimental, computational, or theoretical), results, discussion, and references. No more than six total credits for Chem 399 and 499 may count toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**CHEM 501L: Inorganic Preparations**

(0-3) Cr. 1. F.

*Prereq: CHEM 402*

Preparation and characterization of inorganic and organometallic compounds by modern research techniques.

**CHEM 502: Advanced Inorganic Chemistry**

(3-0) Cr. 3. F.

*Prereq: CHEM 402; CHEM 331 recommended*

Chemistry of the main group (s, p) and transition (d, f) metals. Structure, bonding, electronic spectra, and reaction mechanisms. Aspects of organometallic, solid state, bioinorganic, and nano chemistry.

**CHEM 505: Physical Inorganic Chemistry**

(3-0) Cr. 3. F.

*Prereq: CHEM 402 or CHEM 502 and CHEM 324*

Elementary group theory and molecular orbital theory applied to inorganic chemistry. Spectroscopic methods of characterization of inorganic compounds and organometallic compounds.

**CHEM 511: Advanced Analytical Chemistry**

(3-0) Cr. 3. F.

*Prereq: CHEM 316 and CHEM 316L*

General methods of quantitative inorganic and organic analysis. Aqueous and nonaqueous titrimetry; selective reagents; sampling and sample dissolution; modern instrumentation; sensors; atomic and molecular microscopy; bioanalytical methods; data evaluation; chemometrics; and analytical literature.

**CHEM 512: Electrochemical Methods of Analysis**

(3-0) Cr. 3. F.

*Prereq: CHEM 316 and CHEM 316L; Recommended but not Required CHEM 324, and CHEM 322L*

Principles of convective-diffusional mass transport in electroanalysis. Applications of potentiometry, voltammetry, and coulometry. Introduction to heterogeneous and homogeneous kinetics in electroanalysis. Analog and digital circuitry. Interfacing.

**CHEM 513: Analytical Molecular and Atomic Spectroscopy**

(3-0) Cr. 3. S.

*Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L*

Introduction to physical optics and design of photometric instruments. Principles of absorption, emission, fluorescence, and Raman spectroscopy. Error and precision of optical methods. Ultraviolet, visible, and infrared methods of qualitative and quantitative organic and inorganic analysis.

**CHEM 516: Analytical Separations**

(3-0) Cr. 3. F.

*Prereq: CHEM 316 and CHEM 316L, CHEM 324, CHEM 322L*

Principles and examples of inorganic and organic separation methods applied to analytical chemistry. Solvent extraction, volatilization, ion exchange, liquid and gas chromatography, and electrophoresis.

**CHEM 531: Organic Synthesis I**

(3-0) Cr. 3. S.

*Prereq: CHEM 332*

Survey of organic functional group transformations.

**CHEM 532: Organic Synthesis II**

(2-0) Cr. 2. F.

*Prereq: CHEM 531*

Synthesis of complex organic compounds including natural products.

**CHEM 537: Physical Organic Chemistry I**

(3-0) Cr. 3. F.

*Prereq: CHEM 332*

Survey of reactive intermediates including cations, anions, carbenes, and radicals.

**CHEM 538: Physical Organic Chemistry II**

(3-0) Cr. 3. S.

*Prereq: CHEM 537*

Molecular structure, stereochemistry, introduction to reaction mechanisms, thermodynamic and kinetic data, linear free energy relationships, isotope effects, orbital symmetry.

**CHEM 549: Nuclear Magnetic Resonance Spectroscopy**

(Cross-listed with BBMB). (3-0) Cr. 3. S.

*Prereq: any one of the following: CHEM 324, CHEM 325, BBMB 461, BBMB 561*

Theoretical principles of NMR, practical aspects of experimental NMR, solution and solid state NMR, methodologies for molecule characterization, protein structure determination, NMR relaxation, and recent advances.

**CHEM 550: Safety in the Chemical Laboratory**

(1-0) Cr. 1. S.

*Prereq: CHEM 332L*

Introduction to laboratory safety and chemical hygiene. Use of engineering controls and personal protective equipment. Chemical storage and waste disposal practices. Handling hazardous chemicals. Radiation safety and laser safety. Offered on a satisfactory-fail basis only.

**CHEM 555: Teaching College Chemistry**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Graduate or senior classification.*

Methods of instruction, strategies and techniques for effective teaching and learning along with practice teaching in undergraduate chemistry recitation and laboratory courses. Cooperative learning, guided-inquiry, learning cycles, conceptual change, models and modeling, concept maps, visualization, computer simulations, web-based delivery systems, and learning theories.

**CHEM 561: Fundamentals of Quantum Mechanics**

(4-0) Cr. 4. F.

*Prereq: CHEM 324*

Schrodinger equation and exact solutions; square wells and barriers; harmonic oscillator; the hydrogen atom; atomic orbitals; operators including angular momenta; time-independent and time-dependent perturbation theory; Schrodinger and Heisenberg representations; unitary operators; interaction picture, density matrix.

**CHEM 562: Fundamentals of Atomic and Molecular Quantum Mechanics**

(3-0) Cr. 3. S.

*Prereq: CHEM 561, credit or enrollment in CHEM 583*

Variational method, many electron atoms; addition of angular momentum, self-consistent field method for open and closed shells, linear combinations of atomic orbitals, origin of chemical bonding, many-electron diatomic and polyatomic molecules, treatments of electron correlation, approximation methods.

**CHEM 563: Statistical Mechanics**

(3-0) Cr. 3. S.

*Prereq: CHEM 325*

Microscopic and macroscopic properties, laws of thermodynamics, ensembles and distribution functions, applications to gases, solids, and chemical equilibrium.

**CHEM 564: Molecular Spectroscopy and Structure**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: CHEM 505 or CHEM 562*

Maxwell's field equations, interaction of light with matter including time-dependent perturbation theory, microwave, vibrational (infra-red, Raman) and electronic spectroscopies, symmetry derived selection rules, special lineshapes and introduction to nonlinear and coherent laser spectroscopies.

**CHEM 571: Solid-State Chemistry**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: CHEM 301, CHEM 324*

Structural principles, synthetic strategies, analytical methods, and chemical bonding issues applied to solids. Atomic packings and networks, short-range vs. long-range order, defects; phase diagrams, reactive fluxes, chemical transport; diffraction, spectroscopy; energy bands and their bonding interpretations.

**CHEM 572: Spectrometric Identification of Organic Compounds**

(2-3) Cr. 3. F.

*Prereq: CHEM 332*

Principles of infrared, ultraviolet, nuclear magnetic resonance, and mass spectroscopy as applied to organic chemistry.

**CHEM 573: Nanochemistry**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: CHEM 301, CHEM 324*

Synthesis, characterization, properties and applications of nanoscale materials ( $\approx 0.5$ -500 nm), relationship with molecular, meso and bulk compounds. Chemistry of solid surfaces, zero-, one- and two-dimensional (0D, 1D, 2D) nanostructures, semiconductor quantum dots, plasmonic nanoparticles, carbon nanomaterials, porous nanomaterials, potential health and safety impacts.

**CHEM 574: Organometallic Chemistry of the Transition Metals**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: CHEM 301, CHEM 332*

Transition metal complexes with ligands such as cyclopentadienyl, olefins, acetylenes, benzenes, and carbon monoxide. Coverage of structure, bonding, reactivity, fundamental mechanisms, and homogeneous catalysis.

**CHEM 575: Diffraction and Crystal Structure**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: CHEM 324*

Fundamentals of structure determination for single crystals emphasizing symmetry, diffraction geometry and instrumentation, sample preparation and handling, data collection strategies, methods of structure solution and refinement, presentation of results, and crystallographic databases.

**CHEM 576: Surface Chemistry**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: CHEM 324*

Gas-surface interactions and techniques of characterization. Idealized surface lattices, surface tension, Wulff plots, work function, adsorbate-adsorbate interactions, 2D phase diagrams, diffusion, thin film growth, adsorption and desorption mechanisms/energetics/kinetics, adsorption isotherms, vacuum techniques, electron- and ion-based spectroscopies for surface analysis (including AES, FIM, XPS, UPS, EXAFS, EELS, SIMS, LEED and STM).

**CHEM 577: Mass Spectrometry**

(3-0) Cr. 3. S.

Basic physics, instrumentation, chemical and biological applications of mass spectrometry.

**CHEM 578: Chemical Kinetics and Mechanisms**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: CHEM 324*

Rates and mechanisms; reversible, consecutive, and competing reactions; chain mechanisms; kinetic isotope effects; very rapid reactions; acid-base catalysis, theories of unimolecular reactions; transition state and Marcus theories.

**CHEM 579: Introduction to Research in Chemistry**

Cr. R. F.

Introduction to the various areas of research in chemistry at Iowa State University.

**CHEM 580: Introduction to Computational Quantum Chemistry**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: CHEM 324*

Basic principles of quantum mechanics, schrodinger equation. Hartree-Fock/molecular orbital theory, introduction to group theory, introduction to modern methods of computational chemistry; applications include molecular structure, potential energy surfaces and their relation to chemical reactions; molecular spectroscopy, photochemistry, solvent effects and surface chemistry.

**CHEM 583: Chemical Group Theory**

(1-0) Cr. 1. F.

*Prereq: CHEM 324*

Basic concepts and theorems, representation theory; point groups, molecular orbitals, molecular states, molecular vibrations, rotation group and angular momenta; space groups and crystals; permutation group, antisymmetry, and spin states.

**CHEM 599: Nonthesis Research**

Cr. arr.

*Prereq: Permission of instructor concerned***Courses for graduate students:****CHEM 600: Seminar in Inorganic Chemistry**

(1-0) Cr. 1. Repeatable, maximum of 3 times. F.S.

*Prereq: Permission of instructor***CHEM 601: Selected Topics in Inorganic Chemistry**

(2-0) Cr. 1-2. F.S.

*Prereq: Permission of instructor*

Topics such as molecular structure and bonding; organometallic compounds; physical techniques of structure determination; nonaqueous solutions; Zintl phases; transition-metal oxides; free-radical reactions; electron transfer reactions; metal-metal bonding; and bioinorganic chemistry of nucleic acids.

**CHEM 611: Seminar in Analytical Chemistry**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor***CHEM 619: Special Topics in Analytical Chemistry**

(2-0) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of instructor*

Raman spectroscopy, sensors, spectroelectrochemistry, capillary electrophoresis, analytical plasmas, chemometrics and bioanalytical chemistry.

**CHEM 631: Seminar in Organic Chemistry**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor*

**CHEM 632: Selected Topics in Organic Chemistry**

(2-0) Cr. 1-2. Repeatable. F.S.

*Prereq: CHEM 537*

Topics of current interest in organic chemistry such as spectroscopy, physical organic chemistry, photochemistry, organometallic chemistry, mechanisms of oxidations and reductions, modern organic synthesis, reactive intermediates, bioorganic chemistry, and polymers.

**CHEM 660: Seminar in Physical Chemistry**

(1-0) Cr. 1. Repeatable. S.

*Prereq: Permission of instructor*

**CHEM 667: Special Topics in Physical Chemistry**

(2-0) Cr. 1-2. F.S.

*Prereq: Permission of instructor*

Advanced and recent developments in physical chemistry are selected for each offering.

**CHEM 699: Research**

Cr. arr. Repeatable.

*Prereq: Permission of instructor*

## Chinese (CHIN)

**Any experimental courses offered by CHIN can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**CHIN 101: Elementary Mandarin Chinese I**

(4-0) Cr. 4. F.

Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters. For students whose native language is not Chinese.

**CHIN 102: Elementary Mandarin Chinese II**

(4-0) Cr. 4. S.

*Prereq: CHIN 101*

Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters. For students whose native language is not Chinese.

Meets International Perspectives Requirement.

**CHIN 201: Intermediate Mandarin Chinese I**

(4-0) Cr. 4. F.

*Prereq: CHIN 102*

Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. For students whose native language is not Chinese. Meets International Perspectives Requirement.

**CHIN 202: Intermediate Mandarin Chinese II**

(4-0) Cr. 4. S.

*Prereq: CHIN 201*

Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition. For students whose native language is not Chinese. Meets International Perspectives Requirement.

**CHIN 301: Advanced Mandarin Chinese I**

(3-0) Cr. 3. F.

*Prereq: CHIN 202*

Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business. Native speakers of Chinese by instructor's permission only. Meets International Perspectives Requirement.

**CHIN 302: Advanced Mandarin Chinese II**

(3-0) Cr. 3. S.

*Prereq: CHIN 301*

Continuing development of speaking, writing, reading, and listening skills beyond intermediate level. Expansion of cultural literacy through a variety of texts from the humanities, social sciences, mass media and business. Native speakers of Chinese by instructor's permission only. Meets International Perspectives Requirement.

**CHIN 304: Chinese for Global Professionals**

(4-0) Cr. 4. S.

*Prereq: CHIN 202*

Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts. Development of global awareness and cross-cultural understanding. Preparation for internships. Meets International Perspectives Requirement.

**CHIN 370: Chinese Literature in English Translation**

(3-0) Cr. 3. Repeatable. F.

*Prereq: ENGL 150*

Topics may include traditional prose, poetry, novel and drama; twentieth-century fiction and film. All readings and class discussions in English. Meets International Perspectives Requirement.

**CHIN 372: Introduction to Chinese Culture**

(3-0) Cr. 3. S.

Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Topics include ancient literature, philosophy, religion, art, architecture, customs, transition to a modern society, social changes, urban life, popular culture, and contemporary values and ideas. Meets International Perspectives Requirement.

**CHIN 375: China Today**

(3-2) Cr. 3-4. Repeatable. S.

*Prereq: ENGL 250*

Focusing on contemporary society, culture, literature and the arts. All readings, discussions, and papers in English. Topics vary from year to year.

Meets International Perspectives Requirement.

**CHIN 378: Chinese Film and Society**

Cr. 3. S.

*Prereq: ENGL 150*

Survey of Chinese cinematic history from 1896 to the present against the background of China's constant sociocultural transformation; emphasis on narrative themes, film history, and film criticism. Topics vary according to faculty interest. Taught in English.

Meets International Perspectives Requirement.

**CHIN 403: Seminar in Chinese Language and Culture**

(3-0) Cr. 3.

*Prereq: CHIN 302*

Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.

Meets International Perspectives Requirement.

**CHIN 403A: Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts**

(3-0) Cr. 3.

*Prereq: CHIN 302*

Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.

Meets International Perspectives Requirement.

**CHIN 403B: Seminar in Chinese Language and Culture: Topics on Business and Professions**

(3-0) Cr. 3.

*Prereq: CHIN 302*

Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.

Meets International Perspectives Requirement.

**CHIN 403C: Seminar in Chinese Language and Culture: Reading Chinese Texts**

(3-0) Cr. 3.

*Prereq: CHIN 302*

Critical understanding of authentic texts at the advanced level through reading, translation, and/or application in professional contexts; consolidation of existing language skills, in-depth analysis of cultural issues, and development of professional language proficiency. Taught in Chinese.

Meets International Perspectives Requirement.

**CHIN 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: 6 credits in CHIN; Permission of Department Chair*

Designed to meet student needs in areas beyond current course offerings or to accommodate the desire to integrate a study of literature or language with special issues in major fields.

**CHIN 499: Internship in Chinese**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: 9 credits of CHIN at the 300-level; Permission of Department*

Work experience using Chinese in the public or private sector, combined with academic work under faculty supervision. Offered on a satisfactory-fail basis only. No more than 3 credits may apply toward the Chinese minor or LCP minor.

## Civil Engineering (C E)

***Any experimental courses offered by C E can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**C E 111: Geomatics**

(2-3) Cr. 3. F.S.

*Prereq: C E 160; C E 170; MATH 165*

Fundamentals of geospatial measurement theory, computations, analysis, and instrumentation relative to engineering surveys. Includes distance and angular measurement and analyses; elevation, area, and volume determinations; construction staking; errors in observations; traversing; horizontal and vertical curve layout; geographical information systems; and equipment used for measurements.

**C E 120: Civil Engineering Learning Community**

(1-0) Cr. 1. F.S.

Integration of first-year students into the Civil Engineering program. Assignments and activities involving teamwork, academic preparation, study skills, and preparation for entry into the Civil Engineering profession. Completed both individually and in learning teams under the direction of faculty and peer mentors.

**C E 160: Engineering Problems with Computational Laboratory**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in MATH 165*

Engineering approach to solving problems and presenting results with applications to examples in civil, construction, and environmental engineering, such as problems in statics. Dimensions and units. Data processing, graphing, and curve fitting. Formulating and solving fundamental and practical engineering problems with spreadsheets and a structured programming language. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**C E 170: Graphics for Civil Engineering**

(0-4) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in MATH 143 or MATH 145 (or satisfactory scores on mathematics placement assessments)*

Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process. Freehand and computer methods. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>.

**C E 190: Introduction to Undergraduate Research in Civil and Environmental Engineering**

(Cross-listed with ENV E). Cr. 2. Repeatable, maximum of 4 times.

*Prereq: Permission of Instructor*

Introduction to research, focusing on sub-disciplines of civil and environmental engineering. Research questions, hypotheses, literature reviews, experimental design, data collection, data analysis, and presentation. Topics chosen to introduce students to water resources, environmental engineering, transportation engineering, geotechnical/materials engineering, or structural engineering. Repeatable but only two credits may count toward graduation in C E

**C E 206: Engineering Economic Analysis and Professional Issues in Civil Engineering**

(3-0) Cr. 3. F.S.

*Prereq: (C E 120 or CON E 121 or CON E 122 or ENGR 131 or ENV E 120); ENGL 250; MATH 166*

Engineering/managerial analysis of the economic aspects of project proposals. Alternative sources of funds; time value of money; expenditure of capital funds and methods of evaluating alternative projects. Professionalism, licensure, liability, ethics, leadership, risk analysis, social responsibility, creative and critical thinking, and applications/impacts of regulations in civil engineering. ECON 101 recommended.

**C E 274: Engineering Statics**

(3-0) Cr. 3. F.S.SS.

*Prereq: Credit or concurrent enrollment in MATH 166; PHYS 231; PHYS 231L*

Vector analysis; analysis of force systems; resultant in two and three dimensions; free-body diagrams; equilibrium; analysis of trusses, frames, and machines; friction, belts and pulleys; shear and bending moment in beams, centroid and center of mass; second moments of areas.

**C E 306: Project Management for Civil Engineers**

(2-3) Cr. 3. F.S.

*Prereq: (C E 120 or ENV E 120); (C E 170 or ENV E 190)*

Project management, including work breakdown structures, cost estimating, scheduling, and project control. Civil engineering project life cycle, including planning, design, construction, and maintenance processes. Techniques in interpretation of contract documents, plan reading, and in estimating quantities.

**C E 326: Principles of Environmental Engineering**

(Cross-listed with ENV E). (2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in A B E 378; (CHEM 167 or CHEM 177); CHEM 178; MATH 166*

Introduction to environmental problems, water quality indicators and requirements, potable water quality and quantity objectives, water sources and treatment methods; water pollution control objectives and treatment methods; survey of solid and hazardous waste management and air pollution control.

**C E 332: Structural Analysis I**

(2-2) Cr. 3. F.S.

*Prereq: E M 324*

Loads, shear, moment, and deflected shape diagrams for beams and framed structures. Deformation calculations. Approximate methods. Application of consistent deformation methods to continuous beams and frames. Application of displacement or slope deflection methods to continuous beams and frames without sway. Influence lines for determinate and indeterminate structures. Computer applications to analyze beams and frames. Validation of computer results.

**C E 333: Structural Steel Design I**

(3-1) Cr. 3. F.S.

*Prereq: C E 332; E M 327*

AISC design methods for structural steel buildings. Design of steel tension members. Design of steel members for flexure. Design of members for compression. Beam-Column member design. Introduction to steel building systems. Steel moment frames and concentrically braced frames. Design of commonly used connections in steel buildings.

**C E 334: Reinforced Concrete Design I**

(2-2) Cr. 3. F.S.

*Prereq: C E 332; E M 327*

ACI design methods for structural concrete members. Emphasis on the analysis and design for flexure of singly reinforced and doubly reinforced sections, T-section, one-way slabs, short columns, and isolated footings. Analysis and design for shear, and serviceability. Bond, anchorage, and development of reinforcement.

**C E 355: Principles of Transportation Engineering**

(3-0) Cr. 3. F.S.

*Prereq: C E 111*

Introduction to planning, design, and operations of transportation facilities. Road user, vehicle and roadway characteristics. Technological, economic and environmental factors. Asset management, transportation planning, capacity analysis, traffic control, geometric design, traffic safety.

**C E 360: Geotechnical Engineering**

(3-3) Cr. 4. F.S.

*Prereq: E M 324; credit or concurrent enrollment in (CON E 241 or GEOL 201)*

Introduction to geotechnical engineering and testing. Identification and classification tests, soil water systems, principles of settlement, stresses in soils, and shear strength testing; slope stability, retaining walls, bearing capacity.

**C E 372: Engineering Hydrology and Hydraulics**

(3-0) Cr. 3. F.S.

*Prereq: A B E 378; (STAT 231 or STAT 305)*

The hydrologic cycle: precipitation, infiltration, runoff, evapotranspiration, groundwater, and streamflow. Hydrograph analysis, flood routing, frequency analysis and urban hydrology. Applied hydraulics including pipe and channel flow with design applications in culverts, pumping, water distribution, storm and sanitary sewer systems. Design project required.

**C E 382: Design of Concretes**

(2-3) Cr. 3. F.S.

*Prereq: C E 274*

Physical and chemical properties of bituminous, portland, and other cements; aggregate properties and blending; mix design and testing of concretes; admixtures, mixing, handling, placing and curing; principles of pavement thickness design.

**C E 383: Design of Portland Cement Concrete**

(0-2) Cr. 1. F.S.

*Prereq: C E 274*

For Con E students only. Physical and chemical properties of portland cement and p.c. concrete. Mix design and testing of p.c. concrete. Credit for both C E 382 and C E 383 may not be applied for graduation.

**C E 388: Sustainable Engineering and International Development**

(Cross-listed with A B E, E E). (2-2) Cr. 3. F.

*Prereq: Junior classification in an Engineering Major*

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

**C E 395: Global Perspectives in Transportation**

Cr. 3. Repeatable, maximum of 2 times. S.

Background on historical civil engineering design and construction. Impacts of historical, cultural, social, economic, ethical, environmental, and political conditions on the design and construction of various infrastructure projects outside the United States. Global road safety and intermodal operations. Addressing transportation problems in a large metropolitan area. Meets International Perspectives Requirement.

**C E 403: Program and Outcome Assessment**

Cr. R. F.S.

Assessment of C E Curriculum and educational objectives. Assessments to be reviewed by the CE Department to incorporate potential improvements. Verification of undergraduate application for graduation by the end of the first week of class. Permission of instructor for students who are scheduled for summer graduation. Offered on a satisfactory-fail basis only.

**C E 413: Applied and Environmental Geophysics**

(Dual-listed with C E 513). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**C E 417: Boundary Surveys**

(2-3) Cr. 3. S.

*Prereq: C E 111*

Basic principles of boundary surveying with a focus on the legal principles affecting the determination of land boundaries. Concepts include boundaries, ownership, boundary law principles, easements, sequential and simultaneous conveyances, case studies, riparian rights, state laws and rules for practicing surveying, American Land Title Association (ALTA) surveys and standards, U.S. public land survey system; unwritten land transfers; plats of survey; land descriptions and boundary evidence.

**C E 420: Environmental Engineering Chemistry**

(Dual-listed with C E 520). (Cross-listed with ENSCI). (2-3) Cr. 3. F.

*Prereq: C E 326; CHEM 178*

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

**C E 424: Air Pollution**

(Dual-listed with C E 524). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 424A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with C E 524A). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 424B: Air Pollution: Climate change and causes**

(Dual-listed with C E 524B). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 424C: Air Pollution: Transportation Air Quality**

(Dual-listed with C E 524C). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A***C E 424D: Air Pollution: Off-gas treatment technology**

(Dual-listed with C E 524D). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B***C E 424E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with C E 524E). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 428: Water and Wastewater Treatment Plant Design**

(Cross-listed with ENV E). (3-0) Cr. 3. S.

*Prereq: C E 326*

Physical, chemical and biological processes for the treatment of water and wastewater including coagulation and flocculation, sedimentation, filtration, adsorption, chemical oxidation/disinfection, fixed film and suspended growth biological processes and sludge management. Design project.

**C E 439: Seismic Methods in Geology, Engineering, and Petroleum Exploration**

(Dual-listed with C E 539). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S.,

offered even-numbered years.

Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Introductory geology, algebra, and trigonometry recommended.

**C E 446: Bridge Design**

(Dual-listed with C E 546). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: C E 333; C E 334*

Bridge design in structural steel and reinforced concrete. Application of AASHTO Bridge Design Specifications. Analysis techniques for complex structures. Preliminary designs include investigating alternative structural systems and materials. Final designs include preparation of design calculations and sketches. Design project.

**C E 448: Building Design**

(Dual-listed with C E 548). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: C E 333; C E 334*

Building design in structural steel and reinforced concrete. Investigation of structural behavior. Gravity and lateral load resisting systems. Application of current building codes and design specifications. In-depth analysis of gravity and wind loads on buildings. Review of building designs. Preliminary designs include investigating alternative structural systems. Approximate methods of structural analysis for gravity and lateral loads. Final designs include preparation of design calculations and sketches. Design project.

**C E 449: Structural Health Monitoring**

(Dual-listed with C E 549). (3-0) Cr. 3.

*Prereq: Senior classification in an Engineering major or Permission of Instructor*

Introductory and advanced topics in structural health monitoring (SHM) of aeronautical, civil, and mechanical systems. Topics include sensors, signal processing in time and frequency domains, data acquisition and transmission systems, design of integrated SHM solutions, nondestructive evaluation techniques, feature extraction methods, and cutting-edge research in the field of SHM. Graduate students will have a supervisory role to assist students in 449 and an additional design project or more in-depth analysis and design.

**C E 451: Urban Transportation Planning Models**

(Dual-listed with C E 551). (3-0) Cr. 3. F.

*Prereq: C E 355; (STAT 231 or STAT 305)*

Urban transportation planning context and process. Project planning and programming. Congestion, mitigation, and air quality issues. Transportation data sources. Travel demand and network modeling. Use of popular travel demand software and applications of geographic information systems.

**C E 453: Highway Design**

(2-2) Cr. 3. F.

*Prereq: C E 306; C E 355*

Introduction to highway planning and design. Design, construction, and maintenance of highway facilities. Level-of-service, stopping sight distance, highway alignment, earthwork and pavement design. Design project, oral reports and written reports. Computer applications.

**C E 460: Foundation Engineering**

(3-0) Cr. 3. F.S.

*Prereq: C E 360*

Fundamentals of foundation engineering. Exploration, sampling, and in-situ tests. Shallow and deep foundations. Settlement and bearing capacity analyses. Stability of excavations and earth retaining structures. Design project.

**C E 462: Site Evaluations for Civil Engineering Projects**

(Dual-listed with C E 562). (2-3) Cr. 3.

*Prereq: C E 360 or Permission of Instructor*

Identification and mapping of engineering soils from aerial photos, maps, and soil surveys. Planning subsurface investigations, geomaterials prospecting, geotechnical hazards, geomorphology, in situ testing and sampling, geophysical site characterization, instrumentation and monitoring, interpretation of engineering parameter values for design.

**C E 467: Geomaterials Stabilization**

(Dual-listed with C E 567). (2-2) Cr. 3.

*Prereq: (C E 360; [C E 382 or C E 383]) or Permission of Instructor*

Soil and aggregate physical, chemical and biological stabilization procedures. Stabilization analysis and design. Ground modification and compaction methods. Geosynthetics application and design.

**C E 473: Groundwater Hydrology**

(Dual-listed with C E 573). (3-0) Cr. 3. F.

*Prereq: C E 372*

Principles of groundwater flow, hydraulics of wells, superposition, slug and pumping tests, streamlines and flownets, and regional groundwater flow. Contaminant transport. Computer modeling. Design project. Extra assignments required for graduate students.

**C E 483: Pavement Analysis and Design**

(Dual-listed with C E 583). (3-0) Cr. 3. S.

*Prereq: C E 360; C E 382*

Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems. Design project.

**C E 484: Advanced Design of Concretes**

(Dual-listed with C E 584). (2-3) Cr. 3.

*Prereq: C E 382*

Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. High-strength, lightweight, fiber-reinforced, and self-consolidating portland cement concretes, mix design, properties, advanced performance testing. Design project.

**C E 485: Civil Engineering Design**

(2-2) Cr. 3. F.S.

*Prereq:* C E 206; C E 306; C E 326; (C E 333 or C E 334); C E 355; C E 360; C E 372; C E 382; SP CM 212

The civil engineering design process, interacting with the client, identification of the engineering problems, development of a technical proposal, identification of design criteria, cost estimating, planning and scheduling, codes and standards, development of feasible alternatives, selection of best alternative, and oral presentation. Course enrollment limited to final graduating semester.

**C E 488: Sustainable Civil Infrastructure Systems**

(Dual-listed with C E 588). (3-0) Cr. 3. F.

*Prereq:* Permission of Instructor

Sustainable planning, life cycle analysis, appropriate engineering design, investment levels and overall rating of civil engineering infrastructure systems, including highway, bridge, airport, rail, dam, power and port facilities. Complementary assessment of future civil infrastructure sustainability impacts and challenges in relation to autonomous and electric vehicle development. Overview regarding US and global availability and supply of critical infrastructure commodities (e.g., cement, stone, metals, phosphorus, uranium, etc.). Directed course readings and multiple project/design reports.

**C E 489: Pavement Preservation and Rehabilitation**

(Dual-listed with C E 589). Cr. 3. F.S.

*Prereq:* C E 382

Overview of pavement preservation and pavement rehabilitation techniques. Overview and selection of materials used in pavement preservation and rehabilitation strategies. Evaluating suitability of pavement preservation and pavement rehabilitation strategies based on existing structure, pavement distresses and non-condition factors. Use of recycled pavement materials in pavement reconstruction techniques.

**C E 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* Permission of Instructor

Independent study in any phase of civil engineering. Pre-enrollment contract required. No more than 6 credits of C E 490 may be counted towards engineering topics electives.

**C E 490H: Independent Study: Honors**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* Permission of Instructor

Independent study in any phase of civil engineering. Pre-enrollment contract required. No more than 6 credits of C E 490H may be counted towards engineering topics electives.

**Courses primarily for graduate students, open to qualified undergraduates:**

**C E 501: Preconstruction Project Engineering and Management**

(3-0) Cr. 3.

*Prereq:* Credit or enrollment in CON E 422 or C E 306 or graduate standing

Application of engineering and management control techniques to construction project development from conceptualization to notice to proceed. Emphasis is on managing complex projects using 5-dimensional project management theory.

**C E 502: Construction Project Engineering and Management**

(3-0) Cr. 3.

*Prereq:* Credit or enrollment in CON E 422 or C E 594A or permission of instructor

Application of engineering and management control techniques to complex construction projects. Construction project control techniques, project administration, construction process simulation, quality management, and productivity improvement programs.

**C E 503: Construction Finance and Business Management**

(3-0) Cr. 3.

*Prereq:* Credit or enrollment in CON E 422 or C E 594A or permission of instructor

Fundamental theories and applied methods for financial management of construction projects and companies. Construction accounting, cash flow analysis, financial planning and management, and risk analysis. Case studies.

**C E 505: Design of Construction Systems**

(3-0) Cr. 3.

*Prereq:* C E 333, C E 360, CON E 322, CON E 340; or graduate standing

Advanced design of concrete formwork and falsework systems. Design for excavation and marine construction including temporary retaining structures and cofferdams. Aggregate production operations, including blasting, crushing, and conveying systems. Rigging system design.

**C E 506: Case Histories in Construction Documents**

(3-0) Cr. 3.

*Prereq:* Graduate standing or permission of instructor

Study of cases involving disputes, claims, and responsibilities encountered by management in construction contract documents. Analysis of methods of resolving differences among the owner, architect, engineer, and construction contractor for a project.

**C E 510: Information Technologies for Construction**

(3-0) Cr. 3.

*Prereq:* Graduate standing or permission of instructor

Information technologies including microcomputer based systems, management information systems, automation technologies, computer-aided design, and expert systems and their application in the construction industry. Overview of systems acquisition, communications, and networking.

**C E 513: Applied and Environmental Geophysics**

(Dual-listed with C E 413). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**C E 520: Environmental Engineering Chemistry**

(Dual-listed with C E 420). (Cross-listed with ENSCI). (2-3) Cr. 3. F.

*Prereq: C E 326; CHEM 178*

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

**C E 521: Environmental Biotechnology**

(Cross-listed with ENSCI). (2-2) Cr. 3. F.

*Prereq: C E 326*

Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

**C E 522: Water Pollution Control Processes**

(Cross-listed with ENSCI). (2-2) Cr. 3.

*Prereq: C E 421 or C E 521*

Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

**C E 523: Physical-Chemical Treatment Process**

(Cross-listed with ENSCI). (2-2) Cr. 3.

*Prereq: C E 520*

Mass balances. Principles and design of physical-chemical unit processes including ideal and realistic reactors; heterogeneous process including gas transfer, sorption, precipitation, and dissolution; redox; flocculation/coagulation; gravity separations; filtration; and membrane processes, electrodialysis, fouling, and scaling. Emphasis on water and wastewater treatment for environmental, health, and aesthetic ends. Case studies in secondary industries.

**C E 524: Air Pollution**

(Dual-listed with C E 424). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 524A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with C E 424A). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 524B: Air Pollution: Climate change and causes**

(Dual-listed with C E 424B). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 524C: Air Pollution: Transportation Air Quality**

(Dual-listed with C E 424C). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A*

**C E 524D: Air Pollution: Off-gas treatment technology**

(Dual-listed with C E 424D). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B*

**C E 524E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with C E 424E). (Cross-listed with A B E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**C E 528: Solid and Hazardous Waste Management**

(Cross-listed with ENSCI). (3-0) Cr. 3.

*Prereq: C E 326 or background courses in both environmental chemistry and microbiology; junior or higher standing*

Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

**C E 532: Structural Analysis II**

(3-0) Cr. 3. F.

*Prereq: C E 332*

Analysis of indeterminate structural problems by the consistent deformation and generalized direct displacement methods. Direct stiffness method for 2-D frames, grids, 3-D frames. Special topics for the stiffness method.

**C E 533: Structural Steel Design II**

(3-0) Cr. 3.

*Prereq: C E 333*

Theoretical background and development of AISC Specification equations. In-depth analysis and design of tension members, columns, beams, beam-columns, and plate girders. Emphasis on Load and Resistance Factor Design. Elastic and inelastic buckling of members and member elements. Investigation of amplification factors for members subject to combined bending and axial load and to combined bending and torsion. Effective Length Method and Direct Analysis Method of design. Approximate Second-Order Analysis. Biaxial bending. Torsion and combined bending and torsion of W-shapes.

**C E 534: Reinforced Concrete Design II**

(2-2) Cr. 3.

*Prereq: C E 334*

Advanced topics in reinforced concrete analysis and design. Moment-curvature and load-deflection behavior. Design of reinforced concrete long columns, two-way floor slabs, and isolated and combined footings. Design and behavior considerations for torsion, biaxial bending, and structural joints. Strut-and-tie modeling.

**C E 535: Prestressed Concrete Structures**

(3-0) Cr. 3.

*Prereq: C E 334*

Design of prestressed concrete structures, review of hardware, stress calculations, prestress losses, section proportioning, flexural design, shear design, deflections, and statically indeterminate structures.

**C E 539: Seismic Methods in Geology, Engineering, and Petroleum Exploration**

(Dual-listed with C E 439). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years.

Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Introductory geology, algebra, and trigonometry recommended.

**C E 541: Dynamic Analysis of Structures**

(3-0) Cr. 3.

*Prereq: E M 345 and credit or enrollment in C E 532*

Single and multi-degree-of-freedom systems. Free and forced vibrations. Linear and nonlinear response. Modal analysis. Response spectra. Seismic analysis.

**C E 542: Structural Analysis by Finite Elements**

(3-0) Cr. 3.

*Prereq: C E 532 or permission of instructor*

Use of the finite element method for the analysis of complex structural configurations. Plane stress, solid, Axisymmetric and plate elements. Numerical integration. Use of general purpose finite element programs.

**C E 545: Seismic Design**

(3-0) Cr. 3.

*Prereq: C E 333, C E 334*

Seismic hazard in the United States. Engineering characteristics of ground motions. Structural damage in past earthquakes. Capacity design philosophy for seismic resistant design. Conceptual design of structures. Capacity design process including design of structural members.

**C E 546: Bridge Design**

(Dual-listed with C E 446). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: C E 333; C E 334*

Bridge design in structural steel and reinforced concrete. Application of AASHTO Bridge Design Specifications. Analysis techniques for complex structures. Preliminary designs include investigating alternative structural systems and materials. Final designs include preparation of design calculations and sketches. Design project.

**C E 548: Building Design**

(Dual-listed with C E 448). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: C E 333; C E 334*

Building design in structural steel and reinforced concrete. Investigation of structural behavior. Gravity and lateral load resisting systems. Application of current building codes and design specifications. In-depth analysis of gravity and wind loads on buildings. Review of building designs. Preliminary designs include investigating alternative structural systems. Approximate methods of structural analysis for gravity and lateral loads. Final designs include preparation of design calculations and sketches. Design project.

**C E 549: Structural Health Monitoring**

(Dual-listed with C E 449). (3-0) Cr. 3.

*Prereq: Senior classification in an Engineering major or Permission of Instructor*

Introductory and advanced topics in structural health monitoring (SHM) of aeronautical, civil, and mechanical systems. Topics include sensors, signal processing in time and frequency domains, data acquisition and transmission systems, design of integrated SHM solutions, nondestructive evaluation techniques, feature extraction methods, and cutting-edge research in the field of SHM. Graduate students will have a supervisory role to assist students in 449 and an additional design project or more in-depth analysis and design.

**C E 551: Urban Transportation Planning Models**

(Dual-listed with C E 451). (3-0) Cr. 3. F.

*Prereq: C E 355; (STAT 231 or STAT 305)*

Urban transportation planning context and process. Project planning and programming. Congestion, mitigation, and air quality issues. Transportation data sources. Travel demand and network modeling. Use of popular travel demand software and applications of geographic information systems.

**C E 552: Traffic Safety, Operations, and Maintenance**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: C E 355*

Engineering aspects and fundamental principles of transportation safety. Reduction of crash incidence and severity through highway design and traffic control, and maintenance activities. Safety management best practices, safe systems, and other state-of-the-art practices in transportation safety. Human behaviors and how to influence them using engineering countermeasures to improve safety outcome metrics.

**C E 553: Traffic Engineering**

(3-0) Cr. 3. F.

*Prereq: C E 355*

Driver, pedestrian, and vehicular characteristics. Traffic characteristics; highway capacity; traffic studies and analyses. Principles of traffic control for improved highway traffic service. Application of appropriate computing software and tools.

**C E 556: Transportation Data Analysis**

(3-0) Cr. 3.

*Prereq: C E 355, a Statistics course at the 300 level or higher*

Statistical, econometric, and data science principles applied to real-world transportation data. Includes identification of data sources and limitations. Fundamentals of reproducibility and replicability, validation (including spatial and temporal validation), differences and purposes of inferential, descriptive, predictive, causal models, etc. Linear regression, count regression, and discrete choice models. Basic utility theory and decision making with applications in transportation. Emphasis is placed on practical applications, proper model development, assumption checking, and usability of results.

**C E 557: Transportation Systems Analysis**

(3-0) Cr. 3.

*Prereq: C E 355, 3 credits in statistics or probability*

Travel studies and analysis of data. Transportation systems forecasts and analyses. Statewide, regional, and local transportation system planning. Network level systems planning and operations. Optimization of systems.

**C E 558: Transportation Systems Development and Management**

(3-0) Cr. 3.

*Prereq: C E 355*

Study of designated problems in traffic engineering, transportation planning, and development. Forecasting and evaluation of social, economic, and environmental impacts of proposed solutions; considerations of alternatives. Formulation of recommendations and publication of a report. Presentation of recommendations in the host community.

**C E 559: Transportation Infrastructure/Asset Management**

(3-0) Cr. 3.

*Prereq: C E 355*

Engineering management techniques for maintaining and managing infrastructure assets. Systematic approach to management through value engineering, engineering economics, and life cycle cost analysis. Selection and scheduling of maintenance activities. Analysis of network-wide resource needs. Project level analysis.

**C E 560: Fundamentals of Soil Mechanics**

(3-0) Cr. 3.

*Prereq: C E 360 or instructor approval*

Nature of soil deposits, seepage, settlement and secondary compression, consolidation theories and analysis, failure theories, stress paths, introduction to critical state soil mechanics, constitutive models, soil strength under various drainage conditions, liquefaction of soil, pore pressure parameters, selection of soil parameters.

**C E 561: Applied Foundation Engineering**

(3-0) Cr. 3.

*Prereq: C E 460 or instructor approval*

Analysis and design of shallow and deep foundations, lateral earth pressure theories and retaining structures, field investigations, in-situ testing, and foundations on problematic soils. Foundation engineering reports.

**C E 562: Site Evaluations for Civil Engineering Projects**

(Dual-listed with C E 462). (2-3) Cr. 3.

*Prereq: C E 360 or Permission of Instructor*

Identification and mapping of engineering soils from aerial photos, maps, and soil surveys. Planning subsurface investigations, geomaterials prospecting, geotechnical hazards, geomorphology, in situ testing and sampling, geophysical site characterization, instrumentation and monitoring, interpretation of engineering parameter values for design.

**C E 563: Experimental Methods in Geo-Engineering**

(2-2) Cr. 3.

*Prereq: C E 360 or instructor approval*

Principles of geo-engineering laboratory testing including the conduct, analysis, and interpretation of permeability, consolidation, triaxial, direct and ring shear, and direct simple shear tests. Issues regarding laboratory testing versus field testing and acquisition, transport, storage, and preparation of samples for geotechnical testing. Field and laboratory geotechnical monitoring techniques, including the measurements of deformation, strain, total stress and pore water pressure.

**C E 564: Application of Numerical Methods to Geotechnical Design**

(3-0) Cr. 3.

*Prereq: C E 560 or instructor approval*

Application of numerical methods to analysis and design of foundations, underground structures, and soil-structure interaction. Application of slope stability software. Layered soils, bearing capacity and settlement for complex geometries, wave equation for piles, and foundation vibrations.

**C E 565: Fundamentals of Geomaterials Behavior**

(2-3) Cr. 3.

*Prereq: C E 382 or instructor approval*

Atoms and molecules, crystal chemistry, clay minerals, structure of solids, phase transformations and phase equilibria. Surfaces and interfacial phenomena, colloid chemistry, mechanical properties. Applications to soils and civil engineering materials. Overview of state-of-the-art instrumental techniques for analysis of the physicochemical properties of soils and civil engineering materials.

**C E 567: Geomaterials Stabilization**

(Dual-listed with C E 467). (2-2) Cr. 3.

*Prereq: (C E 360; [C E 382 or C E 383]) or Permission of Instructor*

Soil and aggregate physical, chemical and biological stabilization procedures. Stabilization analysis and design. Ground modification and compaction methods. Geosynthetics application and design.

**C E 568: Dynamics of Soils and Foundations**

(3-0) Cr. 3.

*Prereq: C E 360, E M 345 or instructor approval*

Dynamic soil properties and their measurement. Foundation dynamics and soil-structure interaction. Sources and characteristics of dynamic loads. Vibration of single- and multi-degree-of-freedom systems. Vibration of continuous systems; 1D, 2D, and 3D analyses, wave propagation. Liquefaction concepts and analysis methods. Introduction to geotechnical earthquake engineering.

**C E 569: Ground Improvement**

(3-0) Cr. 3.

*Prereq: C E 360 or instructor approval*

Classification of ground improvement methods. Dynamic compaction, vibrocompaction, preloading using fill surcharge, vacuum or a combination of both and prefabricated vertical drains, vibro replacement or stone columns, dynamic replacement, sand compaction piles, geotextile confined columns, rigid inclusion, column supported embankment, microbial methods, particulate and chemical grouting, lime and cement columns, jet grouting, and deep cement mixing.

**C E 570: Applied Hydraulic Design**

(2-2) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: C E 372*

Flow characteristics in natural and constructed channels; principles of hydraulic design of culverts, bridge waterway openings, spillways, hydraulic gates and gated structures, pumping stations, and miscellaneous water control structures; pipe networks, mathematical modeling. Design project.

**C E 571: Surface Water Hydrology**

(Cross-listed with ENSCI). (3-0) Cr. 3. S.

*Prereq: C E 372*

Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination.

**C E 572: Analysis and Modeling Aquatic Environments**

(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C E 372*

Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

**C E 573: Groundwater Hydrology**

(Dual-listed with C E 473). (3-0) Cr. 3. F.

*Prereq: C E 372*

Principles of groundwater flow, hydraulics of wells, superposition, slug and pumping tests, streamlines and flownets, and regional groundwater flow. Contaminant transport. Computer modeling. Design project. Extra assignments required for graduate students.

**C E 576: Environmental Flows**

(3-0) Cr. 3.

*Prereq: A B E 378 or equivalent*

Analysis and applications of flows in civil engineering, environmental engineering, and water resources. Primary topics include conservation laws, laminar flow, turbulence, mixing, diffusion, dispersion, water waves, and boundary layers. Associated applications include particle settling, transfer at air-water and water-sediment boundaries, flow and friction in pipes and open channels, contaminant transport, waves in lakes, jets, plumes, and salt wedges.

**C E 581: Geotechnical and Materials Engineering Seminar**

Cr. R. Repeatable. F.S.

*Prereq: Graduate classification*

(1-0) Students and outside/invited speakers give weekly presentations about the ongoing research work and Geotechnical and Materials Engineering issues. Offered on a satisfactory-fail basis only.

**C E 583: Pavement Analysis and Design**

(Dual-listed with C E 483). (3-0) Cr. 3. S.

*Prereq: C E 360; C E 382*

Analysis, behavior, performance, and structural design of pavement systems. Topics include climate factors, rehabilitation, life cycle design economics, material and system response, pavement foundations and traffic loadings. Development of models for and analysis of pavement systems. Use of transfer functions relating pavement response to pavement performance. Evaluation and application of current and evolving pavement design practices and procedures. Mechanistic-based pavement design techniques and concepts. Analysis of the effects of maintenance activities on pavement performance and economic evaluation of pavement systems. Design project.

**C E 584: Advanced Design of Concretes**

(Dual-listed with C E 484). (2-3) Cr. 3.

*Prereq: C E 382*

Asphalt binder characterization, fundamentals of asphalt rheology, asphalt materials behavior under loading and temperature effects. High-strength, lightweight, fiber-reinforced, and self-consolidating portland cement concretes, mix design, properties, advanced performance testing. Design project.

**C E 586: Advanced Asphalt Materials**

(2-3) Cr. 3.

*Prereq: C E 382*

Advanced asphalt concrete (SUPERPAVE) mix designs. Aggregates. Admixtures. Production and construction, quality control and inspection. Nondestructive testing. Pavement thickness design. Materials engineering reports.

**C E 587: Advanced Portland Cement Concretes**

(2-3) Cr. 3.

*Prereq: C E 382 or C E 383*

Hydraulic cements, aggregates, admixtures, and concrete mix design; cement hydration and microstructure development; fresh, early-age, and mechanical properties of concrete; concrete distress examination, damage mechanism, and prevention.

**C E 588: Sustainable Civil Infrastructure Systems**

(Dual-listed with C E 488). (3-0) Cr. 3. F.

*Prereq: Permission of Instructor*

Sustainable planning, life cycle analysis, appropriate engineering design, investment levels and overall rating of civil engineering infrastructure systems, including highway, bridge, airport, rail, dam, power and port facilities. Complementary assessment of future civil infrastructure sustainability impacts and challenges in relation to autonomous and electric vehicle development. Overview regarding US and global availability and supply of critical infrastructure commodities (e.g., cement, stone, metals, phosphorus, uranium, etc.). Directed course readings and multiple project/design reports.

**C E 589: Pavement Preservation and Rehabilitation**

(Dual-listed with C E 489). Cr. 3. F.S.

*Prereq: C E 382*

Overview of pavement preservation and pavement rehabilitation techniques. Overview and selection of materials used in pavement preservation and rehabilitation strategies. Evaluating suitability of pavement preservation and pavement rehabilitation strategies based on existing structure, pavement distresses and non-condition factors. Use of recycled pavement materials in pavement reconstruction techniques.

**C E 590: Special Topics**

Cr. 1-5. Repeatable. F.S.SS.

Pre-enrollment contract required.

**C E 591: Seminar in Environmental Engineering**

Cr. R. Repeatable. F.S.

*Prereq: Graduate classification*

(1-0) Contemporary environmental engineering issues. Outside speakers. Review of ongoing research in environmental engineering. Offered on a satisfactory-fail basis only.

**C E 594: Special Topics in Construction Engineering and Management**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Some topics have a set number of credits and some topics have the number of credits vary. Emphasis for a particular offering will be selected from the following topics:.

**C E 594A: Special Topics Construction Engineering and Mgt.: Planning and Scheduling**

Cr. 3.

*Prereq: C E 306 or graduate standing*

Studies in planning and scheduling including scheduling and estimating. Credit may not be applied for graduation for Construction Engineering undergraduate students.

**C E 594B: Special Topics Construction Engineering and Mgt.: Computer Applications for Planning and Scheduling**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in computer applications for planning and scheduling.

**C E 594C: Special Topics Construction Engineering and Mgt.: Cost Estimating**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in cost estimating.

**C E 594D: Special Topics Construction Engineering and Mgt.: Computer Applications for Cost Estimating**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in computer applications for cost estimating.

**C E 594E: Special Topics Construction Engineering and Mgt.: Project Controls**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in project controls.

**C E 594F: Special Topics Construction Engineering and Mgt.: Computer Applications for Project Controls**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in computer applications for project controls.

**C E 594G: Special Topics Construction Engr and Mgt: Integration of Planning, Scheduling and Project Controls**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in integration of planning, scheduling and project controls.

**C E 594J: Special Topics Construction Engineering and Mgt.: Trenchless Technologies**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in trenchless technologies.

**C E 594K: Special Topics Construction Engineering and Mgt.: Electrical and Mechanical Construction**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in electrical and mechanical construction.

**C E 594L: Spl Topics Construction Engr and Mgt.: Adv Building Construction Topics - LEED for New Construction**

Cr. 3. SS.

*Prereq: CON E 352 or C E 306 or graduate standing or permission of instructor*

Studies in advanced building construction topics including LEED.

**C E 594M: Special Topics Construction Engineering and Mgt.: Design Build Construction**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in design build construction.

**C E 594N: Special Topics Construction Engineering and Mgt.: Industrial Construction**

Cr. 3.

*Prereq: Graduate standing or permission of instructor*

Studies in industrial construction.

**C E 594O: Special Topics Construction Engineering and Mgt.: Highway and Heavy Construction**

Cr. 3.

*Prereq: CON E 322 or C E 306 or graduate standing*

Studies in highway and heavy construction.

**C E 594P: Special Topics Construction Engineering and Mgt.: Advanced Building Energy Systems and Technologies**

Cr. 3.

*Prereq: CON E 352 or graduate standing or permission of instructor*

Studies in advanced building technologies including building energy modeling, building energy performance and efficiency assessments, and demand side management for smart grid applications.

**C E 594Q: Special Topics Construction Engineering and Mgt.: Construction Quality Control**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in construction quality control.

**C E 594R: Special Topics Construction Engineering and Mgt.: Risk Management**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in risk management.

**C E 594S: Special Topics Construction Engineering and Mgt.: Building Information Modeling**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Studies in building information modeling.

**C E 595: Research Methods in Construction Engineering and Management**

(1-0) Cr. 1.

*Prereq: Graduate standing or permission of instructor*

Assigned readings and reports on research methods to solve construction engineering and management problems such as alternative project delivery methods, asset management, data mining, construction procurement, robotics, project controls, automation, construction visualization, etc. Identification of research methods and priorities, selection and development of research design, and critique of research in construction engineering and management.

**C E 595A: Research Methods Seminar in Construction Engineering and Management: Qualitative Methods**

(1-0) Cr. 1.

*Prereq: Graduate standing or permission of instructor*

Assigned readings and reports on qualitative research methods to assess and solve construction engineering and management problems.

**C E 595B: Research Methods Seminar in Construction Engineering and Management: Quantitative Methods**

(1-0) Cr. 1.

*Prereq: Graduate standing or permission of instructor*

Assigned readings and reports on quantitative research methods to assess and solve construction engineering and management problems.

**C E 595C: Research Methods Seminar in Construction Engineering and Management: Technical Reporting**

(1-0) Cr. 1.

*Prereq: Graduate standing or permission of instructor*

Assigned readings and reports on research methods for planning and preparation of technical reports with construction engineering and management projects.

**C E 596: Special Topics in Transportation Engineering**

Cr. arr. Repeatable.

*Prereq: C E 355*

**C E 599: Creative Component**

Cr. 1-3. Repeatable.

Pre-enrollment contract required. Advanced topic for creative component report in lieu of thesis.

**Courses for graduate students:**

**C E 622: Advanced Topics in Environmental Engineering**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 622A: Advanced Topics in Environmental Engineering: Water Pollution Control**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 622B: Advanced Topics in Environmental Engineering: Water Treatment**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 622C: Advanced Topics in Environmental Engineering: Solid and Hazardous Waste**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 622D: Advanced Topics in Environmental Engineering: Water Resources**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 622E: Advanced Topics in Environmental Engineering: Instrumental Methods for Environmental Analyses**

(2-0) Cr. 2. Repeatable.

*Prereq: Permission of environmental engineering graduate faculty*

Advanced concepts in environmental engineering.

**C E 650: Advanced Topics in Transportation Engineering**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of Transportation Engineering graduate faculty*

**C E 650A: Advanced Topics in Transportation Engineering: Highway Design**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of Transportation Engineering graduate faculty*

**C E 650B: Advanced Topics in Transportation Engineering: Traffic Operations**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of Transportation Engineering graduate faculty*

**C E 650C: Advanced Topics in Transportation Engineering: Big Data Analysis**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of Transportation Engineering graduate faculty*

Topics in transportation engineering related to data analysis.

**C E 650D: Advanced Topics in Transportation Engineering: Traffic Simulation**

Cr. 3. Repeatable.

*Prereq: Permission of Transportation Engineering graduate faculty*

**C E 690: Advanced Topics**

Cr. 1-3. Repeatable. F.S.SS.

Pre-enrollment contract required.

**C E 691: Seminar in Transportation Planning**

Cr. 1. Repeatable. F.S.

Provides an overview of current transportation issues; speakers provide seminars on a variety of timely transportation topics.

**C E 697: Engineering Internship**

Cr. R. Repeatable.

*Prereq: Permission of coop advisor, graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**C E 699: Research**

Cr. 1-30. Repeatable.

*Prereq: Pre-enrollment contract required*

Advanced topic for thesis/dissertation.

## Classical Studies (CL ST)

***Any experimental courses offered by CL ST can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**CL ST 273: Greek and Roman Mythology**

(3-0) Cr. 3.

Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.

**CL ST 273H: Greek and Roman Mythology: Honors**

(4-0) Cr. 4.

Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.

**CL ST 275: The Ancient City**

(3-0) Cr. 3.

Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the "polis"). Contrast between the concepts of urban and rural.

Examples drawn from one or several selected ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history.

Meets International Perspectives Requirement.

**CL ST 310: Ancient Philosophy**

(Cross-listed with PHIL). (3-0) Cr. 3. F.

*Prereq: 3 credits in PHIL or Permission of Instructor*

Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth.

**CL ST 350: Rhetorical Traditions**

(Cross-listed with ENGL, SP CM). (3-0) Cr. 3. S.

*Prereq: ENGL 250*

Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

**CL ST 353: World Literature: Western Foundations through Renaissance**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S.

*Prereq: ENGL 250*

Representative works of drama, poetry, and prose from ancient times through the mid-seventeenth century. Consideration of Western traditions within global contexts. Attention to religious and ethnic diversity; oral, manuscript, and print cultures; political authority; and the impact of translation on form, meaning, and reception of texts.

Meets International Perspectives Requirement.

**CL ST 367: Christianity in the Roman Empire**

(Cross-listed with RELIG). (3-0) Cr. 3.

An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

**CL ST 368: Religions of Ancient Greece and Rome**

(Cross-listed with RELIG). Cr. 3.

Nature, origins and development of religious beliefs and practices in ancient Greece and Rome from earliest times up to the rise of Christianity. Roles of divinities and rituals in lives of individuals and families and the governing of city-states and empires. Emphasis on historical contexts of the Graeco-Roman world and influences of neighboring cultures in Africa and Asia. None.

Meets International Perspectives Requirement.

**CL ST 369: Ancient Egypt**

(Cross-listed with ANTHR). (3-0) Cr. 3.

Archaeology and culture of Ancient Egypt from prehistory to Late Antiquity. Exploration of literature, religion, social history, government, and architecture. Discussion of major archaeological sites and methods; examination of interaction with other ancient near eastern and Mediterranean civilizations. Meets International Perspectives Requirements.

Meets International Perspectives Requirement.

**CL ST 372: Greek and Roman Tragedy and Comedy**

(3-0) Cr. 3.

Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.

Meets International Perspectives Requirement.

**CL ST 372H: Greek and Roman Tragedy and Comedy: Honors**

(4-0) Cr. 4.

Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.

Meets International Perspectives Requirement.

**CL ST 373: Heroes of Greece, Rome, and Today**

(3-0) Cr. 3.

Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.

Meets International Perspectives Requirement.

**CL ST 373H: Heroes of Greece, Rome, and Today: Honors**

(4-0) Cr. 4.

Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.

Meets International Perspectives Requirement.

**CL ST 374: Sex, Gender, and Culture in the Ancient Mediterranean World**

(Cross-listed with HIST, WGS). (3-0) Cr. 3.

Survey of the roles of women and others on the margins and the issues that impacted them in the ancient Greek and Roman worlds. Evidence from literature, the visual arts, and archaeology. Contemporary approaches to studying women, gender, and sexuality in ancient history. Intersections of gender categories with ideas of slave and free status, citizenship, and ethnicity. Readings from ancient and modern sources.

Meets International Perspectives Requirement.

**CL ST 376: Classical Archaeology**

(Cross-listed with ANTHR). (3-0) Cr. 3.

Chronological survey of the material culture of the ancient Graeco-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

**CL ST 376A: Classical Archeology: Bronze Age and Early Iron Age Greece**

(Cross-listed with ANTHR). (3-0) Cr. 3.

An examination of the material culture of Bronze Age and Early Iron Age Greece (ca 3000-700 BCE) and the role of archaeological context in understanding the varied aspects of the cultures that flourished in the region. Primary focus on the urbanized palatial centers that emerged on the island of Crete (Minoan) and in mainland Greece (Mycenaean). Topics include the emergence of social complexity, cultural and technological changes, religious systems, and methods of interpretation.

Meets International Perspectives Requirement.

**CL ST 376B: Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)**

(Cross-listed with ANTHR). (3-0) Cr. 3.

An examination of the material culture of ancient Greece from ca. 700-30 BCE and the role of archaeological context in understanding the varied aspects of Greek culture found in cities, rural areas, and sanctuaries during the Archaic, Classical, and Hellenistic periods. Topics include urbanization and the rise of the polis, sanctuaries and their offerings, engagement with the wider Mediterranean, and developments in the ways that the Greeks conceptualized and represented their world.

Meets International Perspectives Requirement.

**CL ST 376C: Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)**

(Cross-listed with ANTHR). (3-0) Cr. 3.

An examination of major developments in architecture, sculpture, painting, and other arts of the ancient Roman world and the role of archaeological context in understanding various aspects of Roman culture. Topics include art in the service of social ideology and political propaganda; interactions between the Etruscans, Greeks, and Romans; and the relationship between Rome and its provinces.

Meets International Perspectives Requirement.

**CL ST 383: Greek and Roman Art**

(Cross-listed with ART H). (3-0) Cr. 3.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

**CL ST 383H: Greek and Roman Art: Honors**

(Cross-listed with ART H). (3-0) Cr. 3-4.

Greek art from Neolithic to Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West.

**CL ST 384: Roman Italy: An Introduction**

(Cross-listed with HIST). Cr. 2. Repeatable, maximum of 4 credits. S.

*Prereq: Permission of Instructor*

Introduction to the topography, history, archaeology, monuments, and art of Rome from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy, preparatory to study abroad in Rome. Enrollment limited to students participating in CL ST 385/HIST 385. Meets International Perspectives Requirement.

**CL ST 385: Study Abroad: Roman Italy: Building the Empire**

(Cross-listed with HIST). Cr. 3. Repeatable, maximum of 6 credits. SS.

*Prereq: CL ST 384 or HIST 384; Permission of Instructor*

Supervised on-site instruction in the history, archaeology, monuments, and art of Rome and environs from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy.

Meets International Perspectives Requirement.

**CL ST 394: The Archaeology of Greece: An Introduction**

(2-0) Cr. 2. Repeatable, maximum of 4 credits. S.

*Prereq: Permission of Instructor*

Introduction to the topography, history, archaeology, monuments and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece, preparatory to study abroad in Greece (CL ST 395). Enrollment limited to students participating in CL ST 395.

Meets International Perspectives Requirement.

**CL ST 395: Study Abroad: The Archaeology of Greece**

Cr. 2-6. Repeatable, maximum of 9 credits. SS.

*Prereq: CL ST 394; Permission of Instructor*

Supervised on-site instruction in the archaeology, monuments, and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece.

Meets International Perspectives Requirement.

**CL ST 402: Greek Civilization.**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions with a particular emphasis on the writings of Herodotus and Thucydides.

**CL ST 403: Roman Civilization.**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Ancient Rome from the Regal Period to the Fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources.

**CL ST 410: Soul, Mind, and World in Ancient Greek Philosophy**

(Cross-listed with PHIL). (3-0) Cr. 3. S.

*Prereq: 6 credits in PHIL or CL ST, or Permission of Instructor*

Prominent theories of soul and mind developed by Greek philosophers in the classical period, roughly 500 BCE-200 CE, and how the philosophers located these theories within their general metaphysical views. Relationship between mind and body and the roles of reason, desire, and emotion. Philosophers to be studied include Plato, Aristotle, and selected others.

**CL ST 430: Foundations of Western Political Thought**

(Dual-listed with CL ST 530). (Cross-listed with POL S). (3-0) Cr. 3.

*Prereq: 6 credits in POL S, HIST, or PHIL*

Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

**CL ST 480: Seminar in Classical Studies**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Program Director*

Advanced study of a selected topic in Classical Studies. Research paper or project selected by the student.

**CL ST 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 9 credits.

*Prereq: 7 credits in CL ST at the 200-level or higher; Permission of the Program Chair*

Designed to meet the needs of students who wish to study specific topics in classical civilization in areas where courses are not offered, or to pursue such study beyond the limits of existing courses at the advanced level.

**Courses primarily for graduate students, open to qualified undergraduates:**

**CL ST 512: Proseminar in European History**

(3-0) Cr. 3.

*Prereq: Permission of instructor.*

Readings in European history.

**CL ST 512A: Readings Seminar in European History: Ancient**

(Cross-listed with HIST). (3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European history.

**CL ST 530: Foundations of Western Political Thought**

(Dual-listed with CL ST 430). (Cross-listed with POL S). (3-0) Cr. 3.

*Prereq: 6 credits in POL S, HIST, or PHIL*

Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law.

**CL ST 594: Seminar in European History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**CL ST 594A: Research Seminar in European History: Ancient**

(Cross-listed with HIST). (3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

## Communication Studies (COMST)

**Any experimental courses offered by COMST can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**COMST 101: Introduction to Communication Studies**

(3-0) Cr. 3.

An introduction to communication theory, the development and functions of communication, and a survey of verbal, nonverbal, interpersonal, small group, organizational, and intercultural communication.

**COMST 104: Orientation to Communication Studies**

(1-0) Cr. 1.

*Prereq: Communication Studies major*

Orientation to Communication Studies discipline, program requirements and career opportunities. Required of communication studies majors. Offered on a satisfactory-fail basis only.

**COMST 210: Communication and U.S. Diversity**

(3-0) Cr. 3. F.S.SS.

Introduction to the role of diversity in communication. Developing competent communication with diverse social groups within interpersonal and organizational contexts in the United States. Topics may include structured reflection of one's role in diverse communication experiences, cultural variations in communication mores, impacts of racial/ethnic/gender identities on communication, workplace policies regarding cultural diversity, the intersection of communication and cultural privilege, communication practices that can reduce prejudice/discrimination, and communication characteristics of advocates for diversity.

Meets U.S. Diversity Requirement

**COMST 211: Interpersonal Communication**

(3-0) Cr. 3.

Application of major principles related to interpersonal communication theories, concepts, and research. Emphasis on using interpersonal communication skills effectively.

**COMST 214: Professional Communication**

(3-0) Cr. 3.

Communication theory and skill development in organizational settings. Emphasis on interpersonal skill development, team and meeting facilitation, informational interviewing, individual and team presentations, and self-assessment.

**COMST 218: Conflict Management**

(3-0) Cr. 3.

Exploration of communication theories, principles and methods associated with effective conflict management.

**COMST 301: Human Communication Theory**

(3-0) Cr. 3.

*Prereq: COMST 101*

Examination of the major theories related to human communication; with particular emphasis on theories underlying interpersonal, small group, organizational, and intercultural communication.

**COMST 303: Introduction to Communication Research Methods**

(3-0) Cr. 3.

*Prereq: COMST 101; 3 additional credits in COMST*

An introduction to evaluating, analyzing, and conducting communication research. Provides and overview of quantitative and qualitative approaches to communication research that are beneficial to learn communication concepts and solve communication issues.

**COMST 310: Intercultural Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Examines the theories, principles and research on intercultural communication to enhance cultural sensitivity and to recognize, accept, and adapt to cultural diversity. Interactive assignments.

Meets International Perspectives Requirement.

**COMST 311: Relational Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Contemporary relational communication theories, concepts, and research. Examines issues central to communication and its application in interpersonal relationships.

**COMST 313: Leadership Communication Theories**

(3-0) Cr. 3. F.S.

*Prereq: COMST 101*

Investigation of theories, research and principles of leadership communication. Exploration of the contexts in which leadership and communication occurs, with emphasis on the connection between communication and leadership and the dyadic linkage of leader and follower.

**COMST 314: Organizational Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Theory and research in organizational communication. Provides strategies for assessing and improving individual and organizational communication effectiveness. Addresses issues such as technology, diversity, work-life negotiation, emotional labor, conflict, socialization, and socially responsible organizations. Explores how organizational meaning is created and sustained through human communication.

**COMST 317: Small Group Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Theory and research in small group communication; application to group decision-making and leadership. Includes communication analyses of groups and teams.

**COMST 319: Communication Training and Development**

(3-0) Cr. 3.

*Prereq: COMST 101*

Theories and approaches to communication training and development; includes adult learning theory. Emphasis on the design, presentation and assessment of communication skills in organizational contexts.

**COMST 325: Nonverbal Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Approaches to studying nonverbal communication. Foci include topics such as emotion, gestures, gaze, use of space, and parsing intention in social interaction.

**COMST 327: Persuasion and Social Influence**

(Cross-listed with PSYCH). (3-0) Cr. 3. F.S.SS.

Examination of theories and research in persuasive communication, including attitudes and social influence. Emphasis on persuasive communication strategies in everyday social settings that influence changes in attitudes and actions.

**COMST 330: Computer Mediated Communication**

(3-0) Cr. 3.

*Prereq: COMST 101*

Theories and approaches related to mediated communication in interpersonal and organizational settings. Focus on how new technology impacts human interaction and relationships.

**COMST 404: Research Seminar**

(Dual-listed with COMST 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: COMST 301; 3 additional courses from the following: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, COMST 330, COMST 450A, COMST 450B, SP CM 323*

Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

**COMST 450: Special Topics in Communication Studies**

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: Junior standing or Permission of Instructor*

Research and theory related to special topics and issues in communication studies.

**COMST 450A: Special Topics in Communication Studies: General**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: Junior standing or Permission of Instructor*

Research and theory related to special topics and issues in communication studies.

**COMST 450B: Special Topics in Communication Studies: Health Communication**

(Dual-listed with COMST 550B). (3-0) Cr. 3. F.S.

*Prereq: Junior standing or Permission of Instructor*

Examines research, theories, and concepts relevant to health communication. Topics include studying the interpersonal, organizational, and mediated communication occurring in health care and public health settings, and understanding why effective communication contributes to positive health outcomes.

**COMST 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: 9 credits in COMST; Junior classification; Permission of Instructor*

Application must be submitted for approval the semester prior to the independent study.

**COMST 491: Research Practicum**

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: COMST 203; COMST 301; Permission of Instructor*

Providing research assistance on projects conducted by Communication Studies faculty.

**COMST 497: Professional Internship**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: COMST 203; COMST 301; 1 additional 300-level COMST course; Junior classification; Department Permission*

100 hours of on-site professional work per credit hour plus completion of the academic requirement set by the internship committee. Application should be submitted in the term prior to the term in which the internship will be served. Internship cannot be used to meet degree requirement in Communication Studies.

**Courses primarily for graduate students, open to qualified undergraduates:**

**COMST 504: Research Seminar**

(Dual-listed with COMST 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: COMST 301; 3 additional courses from the following: COMST 310, COMST 311, COMST 313, COMST 314, COMST 317, COMST 319, COMST 325, COMST 330, COMST 450A, COMST 450B, SP CM 323*

Capstone communication studies course. Students develop an original research study linked to the study of communication. Data are collected and analyzed. Results are presented in a final research paper and a presentation.

### **COMST 550B: Special Topics in Communication Studies: Health Communication**

(Dual-listed with COMST 450B). (3-0) Cr. 3. F.S.

*Prereq: Junior standing or Permission of Instructor*

Examines research, theories, and concepts relevant to health communication. Topics include studying the interpersonal, organizational, and mediated communication occurring in health care and public health settings, and understanding why effective communication contributes to positive health outcomes.

### **COMST 590: Special Topics**

Cr. 1-4. Repeatable.

Application must be submitted for approval the semester prior to the independent study.

## **Community and Regional Planning (C R P)**

*Any experimental courses offered by C R P can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

### **C R P 201: The North American Metropolis**

(3-0) Cr. 3. F.S.

Examination of the evolution of American urban centers from the colonial era to the present. Considers the demographic changes and social movements underway in urban America and explores how an understanding of the history of cities provides us with knowledge that we can use to improve our cities today.

### **C R P 211: Digital Design Methods for Landscape Architecture**

(Cross-listed with L A). (3-0) Cr. 3. S.

Foundational knowledge and basic skills in 2D, 3D, and 4D computer applications used for design development and communication, with emphasis on 3D modeling and workflow interoperability.

### **C R P 251: Fundamentals of Geographic Information Systems**

Cr. 3. F.

Fundamentals of the concepts, models, functions and operations of Geographic Information Systems (GIS). Principals of spatial problems, spatial questions and hypotheses and their solutions based on spatial data, GIS tools and techniques. Integration of concepts and applications through lectures and facilitated labs. Applications from a variety of areas including design; physical, social, and human science; engineering; agriculture; business and medicine, landscape architecture, architecture, urban planning, geology, forestry, biology, and ecology.

### **C R P 291: World Cities and Globalization**

(3-0) Cr. 3. F.S.

World cities and globalization in developed and developing countries. Topics include globalization, world cities and regions, uneven economic development, the international division of labor, multinational corporations, international environmentalism, tourism, popular culture and place-based identity. Meets International Perspectives Requirement.

### **C R P 293: Environmental Planning**

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.

Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

### **C R P 301: Urban Analytical Methods**

(3-2) Cr. 4. S.

*Prereq: STAT 101*

An introduction to the methods and analytical techniques used by planners to study community change. Course includes identification of key sources of planning information and data. Students learn to use quantitative methods for analysis of population, land use, economic and transportation data. Students learn to apply basic analytic methods to community problems and learn the art of effective written, graphic, and oral presentation of data.

### **C R P 320: Urban Geography**

(3-0) Cr. 3. F.S.

An introduction to urban geography. Study of urban centers, including people and infrastructure. Investigation of the origin and evolution of urban areas and the processes that shape urban change. Topics include urban form, and the social, economic, political, cultural, and institutional factors that shape cities.

### **C R P 325: Introduction to Housing**

(3-0) Cr. 3. S.

Introduction to issues related to the topic of housing in the United States. Particular focus on the social and spatial segmentation of housing in the U.S. and the role of policy in housing production and regulation.

### **C R P 330: Practicum**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Enrolled in C R P major*

Structured work experience under close supervision of a professional planner. Practical planning experience; relationships between theory and practice, professional responsibilities, and the scope of various planning roles.

**C R P 331: Professional Practice Seminar**

(2-0) Cr. 2. F.

*Prereq: C R P 301; Junior classification*

Preparation for working as a planning professional; development of resume and portfolio; discussion of professional ethics and expectations of employers and clients; presentations from planning professionals, and discussion of the range of career choices within the planning profession.

**C R P 351: Intermediate Geographic Information Systems**

Cr. 3. F.S.

*Prereq: CRP 251*

Intermediate GIS for design and non-design students to learn concepts of digital management and representation of spatial data, including spatial problems, data sources and structures, simple spatial operations and cartographic issues. Gain skill set to effectively display feature and tabular data, query features using logical expressions, edit spatial and attribute data, associate tables with joins and relates, produce maps, reports, and graphs.

**C R P 376: Rural, Urban and Regional Economics**

(Cross-listed with ECON). (3-0) Cr. 3.

*Prereq: ECON 101*

Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime.

**C R P 383: Theory of the Planning Process**

(3-0) Cr. 3. F.

*Prereq: Junior classification*

The nature of planning and its relation to social and economic planning; levels of planning, place of planning in decision making; steps in the planning process, uses and limitation of knowledge in planning, relation of facts and values.

**C R P 391: Field Travel**

Cr. 1-2. Repeatable. F.S.

*Prereq: Enrolled in C R P major; Permission of Instructor*

Observation of professional practice and community or regional problems and issues. Offered on a satisfactory-fail basis only.

**C R P 410: Professional Work Experience**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

Approved professional work experience.

**C R P 416: Urban Design and Practice**

(Dual-listed with C R P 516). (3-6) Cr. 6. S.

*Prereq: C R P 301*

Principles of urban design and their application to residential and commercial development in studio projects.

**C R P 417: Urban Revitalization**

(Dual-listed with C R P 517). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Junior classification*

Planning methods available to further revitalization and preservation efforts, with particular attention to housing and neighborhoods. Relationship between neighborhood change and urban development process; public policy implications.

**C R P 421: Financing Historic Preservation Projects**

(3-0) Cr. 3. F.

Investigation of the financial tools and incentives used to promote the rehabilitation and redevelopment of historic buildings and neighborhoods in cities and towns. Study of broader economic and social impacts on communities. Examinations of completed preservation projects around the United States.

**C R P 429: Planning in Developing Countries**

(Dual-listed with C R P 529). (3-0) Cr. 3. F.S.

Introduction to issues in planning and governance in an international setting. Problems and strategies may include population movement and change, economic globalization, urban growth, rural development, and housing.

**C R P 432: Community Planning Studio**

(1-6) Cr. 4-6. F.S.

*Prereq: (C R P 201 or C R P 301 or C R P 383) or Permission of Instructor*

Integration of planning methods and theory in dealing with a community planning problem. Analysis of problem and formulation of strategies for implementation. Preparation of a community planning report.

**C R P 435: Planning in Small Towns**

(Dual-listed with C R P 535). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Junior classification*

Contemporary planning problems in small towns and the design of viable strategies to enhance their social and economic position in today's society.

**C R P 436: Community Economic Development**

(Dual-listed with C R P 536). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

The nature and process of economic development in the context of community development. Recent changes and trends and their implications for local and regional development. Selected case studies and applications. Contemporary community economic development issues.

**C R P 437: Public Participation in Planning**

(3-0) Cr. 3. S.

Rationale and need for public participation in community planning and development. Techniques used to garner participation, and the ability to integrate techniques into a broader participatory process. Techniques covered will include public hearings, public meetings, social action construct, advisory committees, scenario building, social media and asset mapping. Students will also work with a community to demonstrate skills learned. None

**C R P 442: Site Development**

(Dual-listed with C R P 542). (3-0) Cr. 3. S.

Introduction to site development including site review. Studio project integrating concept, finance, selection, analysis, and design.

**C R P 445: Transportation Policy and Planning**

(Dual-listed with C R P 545). (3-0) Cr. 3. F.

*Prereq: C R P 445: Junior classification; C R P 545: Graduate classification*

Comprehensive overview of key policy issues related to transportation planning and investment in the United States and abroad. Policy issues explored include safety, environmental impact, sustainable communities, and economic development. Policy analysis and planning are studied in conjunction with each policy issue explored. Issues of concern to state, metropolitan, and local governments.

**C R P 449: Geodesign: Planning for Sustainable Futures**

(Dual-listed with C R P 549). (3-0) Cr. 3.

*Prereq: C R P 251*

Geodesign combines design creativity with scientific thinking based on spatial data. Special focus on sustainable development of future neighborhoods, communities, cities and/or countries. Students learn the geodesign process and implement a set of techniques and technologies that enable project conceptualization, data collection and visualization, spatial analysis, design creation, impact evaluation and stakeholder participation. Final project involves developing cases for analysis using GIS software.

**C R P 451: Introduction to Geographic Information Systems**

(2-2) Cr. 3. F.S.SS.

Introduction to geographic information systems, including discussions of GIS hardware, software, data structures, data acquisition, data conversion, data presentation, analytical techniques, and implementation procedures. Laboratory emphasizes practical applications and uses of GIS.

**C R P 452: Geographic Data Management and Planning Analysis**

(Dual-listed with C R P 552). (2-2) Cr. 3. F.S.

*Prereq: C R P 351*

Extensive coverage of geo-relational database concept and design, GIS database creation and maintenance, geographic data manipulation and analysis. GIS output generation and geographic data presentation. Laboratory emphasizes practical applications and uses of GIS.

**C R P 454: Fundamentals of Remote Sensing and Spatial Analysis**

(Dual-listed with C R P 554). (Cross-listed with L A). (3-0) Cr. 3. S.

*Prereq: C R P 351*

Introduction to image processing techniques needed for analysis of optical remote sensing imagery, including filtering, enhancement, and classification. Analysis of elevation surfaces, hydrology, distance, overlays and visual programming with Model Builder. Practical applications in a variety of topics to understand how to analyze imagery.

**C R P 455: Smart and Sustainable Cities**

(Dual-listed with C R P 555). Cr. 3.

Introduction to concepts of smart and sustainable cities. Study of novel technologies for smart and sustainable cities, including sustainable energy, innovative tools for citizens' engagement, improved safety, smart mobility, and happy living. Examples of national and international smart cities. Students may gain experience with ArcGIS Online, ArcUrban and/or other emerging software.

**C R P 456: GIS Programming and Automation**

(Dual-listed with C R P 556). (Cross-listed with A B E). (3-0) Cr. 3. F.

*Prereq: C R P 351*

Introduction to automated geoprocessing in Geographic Information Systems using Python. Focus on learning scripting language and object-oriented programming, automation of custom-designed geoprocessing scripts, and application toward student research and/or interests.

**C R P 457: Geogames for Civic Engagement**

(Dual-listed with C R P 557). (3-0) Cr. 3. S.

Explore, design, and implement participatory geospatial games; define GeoGames; learn about different types of GeoGames and their formal and dramatic elements; design GeoGames for civic engagement, community visioning, and community planning.

**C R P 460: Social Justice and Planning**

(Dual-listed with C R P 560). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Investigation of the topic of social justice as it relates to the challenge of planning more socially just urban societies, emphasizing the importance of social justice issues to planning in a globalized world. Includes a range of issues and case studies of local social justice initiatives, both US and global. Students will complete individual service learning projects as part of the course requirement.

**C R P 471: Real Estate Development**

(3-0) Cr. 3. S.

Summary of the process to develop real property. Using case studies, examine how the development process differs between residential, office, retail and mixed-use projects. Study the development process using a diverse set of analytical tools including market research, planning and legal analysis, and the discounted cash flow method.

**C R P 475: Grant Writing**

(Dual-listed with C R P 575). (1-0) Cr. 1. F.

A short introduction to effective grant writing for the public and non-profit sectors. Includes identifying appropriate funding sources for an organization, identifying goals and objectives, and budgeting.

**C R P 479: Public Finance and Planning**

(Dual-listed with C R P 579). (3-0) Cr. 3. S.

Overview of public finance theory, particularly in how it relates to local governments and the work of planning and community development. Concepts include theories of taxation, challenges unique to local public finance, collective action, and a survey of the different revenue sources used to fund local government.

**C R P 484: Sustainable Communities**

(Dual-listed with C R P 584). (Cross-listed with ENV S). (3-0) Cr. 3. S.

*Prereq: Junior classification*

The history and theory of sustainable community planning. Procedural and substantive dimensions. Case studies of communities engaged in sustainability planning. Use and development of indicators.

**C R P 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Investigation of an approved topic commensurate with student's interest and ability. Offered on a satisfactory-fail basis only.

**C R P 490H: Independent Study: Honors**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Investigation of an approved topic commensurate with student's interest and ability. Offered on a satisfactory-fail basis only.

**C R P 491: Environmental Law and Planning**

(Dual-listed with C R P 591). (Cross-listed with ENV S, L A). (3-0) Cr. 3. S.

*Prereq: 6 credits in natural sciences or Permission of Instructor*

Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

**C R P 492: Planning Law, Administration and Implementation**

(3-0) Cr. 3. F.

*Prereq: Junior classification*

The basis in constitutional, common, and statutory law for the powers of plan implementation. Problems of balancing public and private interests as revealed in the study of leading court cases. Administration of planning agencies and programs.

**C R P 494: Senior Seminar in Planning**

Cr. 1-3. Repeatable, maximum of 2 times. F.S.

*Prereq: Senior classification*

An advanced forum for seniors that focuses upon recent trends and important issues affecting planning today. Topics addressed will vary. A demonstration of understanding of current issues and their effects upon planning applications is expected.

**Courses primarily for graduate students, open to qualified undergraduates:**

**C R P 510: Professional Work Experience**

Cr. R. F.S.SS.

*Prereq: Permission of department chair*

Approved professional work experience.

**C R P 511: Documenting the Historic Built Environment**

Cr. 3-4. F.

*Prereq: Knowledge of GIS helpful but not required.*

Principals and methods for researching, identifying, recording, and analyzing buildings, districts, and sites that are historically or architecturally significant. Classroom and fieldwork components will use real-world historic places as case studies.

**C R P 516: Urban Design and Practice**

(Dual-listed with C R P 416). (3-6) Cr. 6. S.

*Prereq: C R P 301*

Principles of urban design and their application to residential and commercial development in studio projects.

**C R P 517: Urban Revitalization**

(Dual-listed with C R P 417). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Junior classification*

Planning methods available to further revitalization and preservation efforts, with particular attention to housing and neighborhoods.

Relationship between neighborhood change and urban development process; public policy implications.

**C R P 521: Historic Preservation Planning: Theory and Practice**

(3-0) Cr. 3. S.

*Prereq: None*

Introduction to the history, theory, and practice of historic preservation and cultural resource management. Cases exploring preservation in US and global contexts; politics of preservation; preservation technologies; and relationship of preservation to other community issues.

**C R P 526: Real Estate Development**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Overview of the real estate development process. Topics include the history of real estate development, roles of planning and market forces in real estate development, and financial management of real estate development. Projects involve analysis of market niches, market penetration rates, lease rates, synergism and tenant mix, and the go/no go decision applied to residential, commercial, and mixed-use development.

**C R P 527: Sustainable Community Development**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Introduces the central principles of sustainable community design and its implementation in the residential and commercial real estate development sectors. Topics include current practices and regulatory mandates, with a focus on the importance of private participation in the development of sustainable communities.

**C R P 528: Financing Historic Preservation Projects and Revitalizing Communities**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Investigation of the financial tools and incentives used to promote the rehabilitation and redevelopment of historic buildings and neighborhoods in cities and towns. Study of broader economic and social impacts on communities. Examinations of completed preservation projects around the United States.

**C R P 529: Planning in Developing Countries**

(Dual-listed with C R P 429). (3-0) Cr. 3. F.S.

Introduction to issues in planning and governance in an international setting. Problems and strategies may include population movement and change, economic globalization, urban growth, rural development, and housing.

**C R P 530: Practicum**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Graduate classification in Community and Regional Planning*

Practical planning experience. Structured work in range of tasks under close supervision of a professional planner. Relationships between theory and practice, exposure to variety of roles in functioning specialties. Offered on a satisfactory-fail basis only.

**C R P 532: Community Planning Studio**

(3-6) Cr. 4-6. F.

*Prereq: C R P 564 or equivalent*

Comprehension and analysis of various geographic contexts pertinent to community planning and the use of planning theory, tools and techniques in an applied setting. Process of making a community plan: historical patterns, current conditions and strategies for planning.

**C R P 535: Planning in Small Towns**

(Dual-listed with C R P 435). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Junior classification*

Contemporary planning problems in small towns and the design of viable strategies to enhance their social and economic position in today's society.

**C R P 536: Community Economic Development**

(Dual-listed with C R P 436). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

The nature and process of economic development in the context of community development. Recent changes and trends and their implications for local and regional development. Selected case studies and applications. Contemporary community economic development issues.

**C R P 542: Site Development**

(Dual-listed with C R P 442). (3-0) Cr. 3. S.

Introduction to site development including site review. Studio project integrating concept, finance, selection, analysis, and design.

**C R P 545: Transportation Policy and Planning**

(Dual-listed with C R P 445). (3-0) Cr. 3. F.

*Prereq: C R P 445: Junior classification; C R P 545: Graduate classification*

Comprehensive overview of key policy issues related to transportation planning and investment in the United States and abroad. Policy issues explored include safety, environmental impact, sustainable communities, and economic development. Policy analysis and planning are studied in conjunction with each policy issue explored. Issues of concern to state, metropolitan, and local governments.

**C R P 549: Geodesign: Planning for Sustainable Futures**

(Dual-listed with C R P 449). (3-0) Cr. 3.

*Prereq: C R P 251*

Geodesign combines design creativity with scientific thinking based on spatial data. Special focus on sustainable development of future neighborhoods, communities, cities and/or countries. Students learn the geodesign process and implement a set of techniques and technologies that enable project conceptualization, data collection and visualization, spatial analysis, design creation, impact evaluation and stakeholder participation. Final project involves developing cases for analysis using GIS software.

**C R P 550: Making Resilient Environments**

(Cross-listed with SUS E). (3-0) Cr. 3. S.

*Prereq: senior or graduate standing.*

Major theories and ideas revolving around the concept of resilience. Assessing the social and political processes associated with policy making for resilience. Application of the concept of resilience in order to understand and evaluate environments. Evaluate the different approaches toward resilience and develop an understanding of the relationship between sustainability and resilience. Case studies of communities that proactively prepare for, absorb, recover from, and adapt to actual or potential future adverse events.

**C R P 551: Introduction to Geographic Information Systems**

(2-2) Cr. 3. F.S.SS.

Introduction to geographic information systems, including discussions of GIS hardware, software, data structures, data acquisition, data conversion, data presentation, analytical techniques, and implementation procedures. Laboratory emphasizes practical applications and uses of GIS.

**C R P 552: Geographic Data Management and Planning Analysis**

(Dual-listed with C R P 452). (2-2) Cr. 3. F.S.

*Prereq: C R P 351*

Extensive coverage of geo-relational database concept and design, GIS database creation and maintenance, geographic data manipulation and analysis. GIS output generation and geographic data presentation. Laboratory emphasizes practical applications and uses of GIS.

**C R P 553: Analytical Planning/GIS**

(2-2) Cr. 3. F.

*Prereq: C R P 451/C R P 551*

Integration of exploratory, participatory and predictive spatial analyses and 3D visualization into the planning process. GIS tools and techniques are used to automate decision analysis and facilitate future planning in analyzing and visualizing planning actions. Laboratory emphasizes practical uses of GIS tools and techniques.

**C R P 554: Fundamentals of Remote Sensing and Spatial Analysis**

(Dual-listed with C R P 454). (Cross-listed with L A). (3-0) Cr. 3. S.

*Prereq: C R P 351*

Introduction to image processing techniques needed for analysis of optical remote sensing imagery, including filtering, enhancement, and classification. Analysis of elevation surfaces, hydrology, distance, overlays and visual programming with Model Builder. Practical applications in a variety of topics to understand how to analyze imagery.

**C R P 555: Smart and Sustainable Cities**

(Dual-listed with C R P 455). Cr. 3.

Introduction to concepts of smart and sustainable cities. Study of novel technologies for smart and sustainable cities, including sustainable energy, innovative tools for citizens' engagement, improved safety, smart mobility, and happy living. Examples of national and international smart cities. Students may gain experience with ArcGIS Online, ArcUrban and/or other emerging software.

**C R P 556: GIS Programming and Automation**

(Dual-listed with C R P 456). (3-0) Cr. 3. F.

*Prereq: C R P 351*

Introduction to automated geoprocessing in Geographic Information Systems using Python. Focus on learning scripting language and object-oriented programming, automation of custom-designed geoprocessing scripts, and application toward student research and/or interests.

**C R P 557: Geogames for Civic Engagement**

(Dual-listed with C R P 457). (3-0) Cr. 3. S.

Explore, design, and implement participatory geospatial games; define GeoGames; learn about different types of GeoGames and their formal and dramatic elements; design GeoGames for civic engagement, community visioning, and community planning.

**C R P 558: Web Mapping and Spatial Data Visualization**

(Cross-listed with L A). (2-2) Cr. 3.

*Prereq: CRP 451/551. GEOL 452/552 or instructor permission.*

Use and development of online mapping tools and coding to support participatory GIS, Volunteered Geographic Information, information sharing, geodesign, and decision-making actions. Geoprocessing, spatial data science, and user interface design. Laboratory emphasis on practical applications and uses of Web GIS.

**C R P 560: Social Justice and Planning**

(Dual-listed with C R P 460). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Investigation of the topic of social justice as it relates to the challenge of planning more socially just urban societies, emphasizing the importance of social justice issues to planning in a globalized world. Includes a range of issues and case studies of local social justice initiatives, both US and global. Students will complete individual service learning projects as part of the course requirement.

**C R P 561: Planning Theory**

(3-0) Cr. 3. S.

Use and development of theory/action relationship in planning practice. Competing normative theories of planning and their evolution, key components and fundamental critiques. Exploration of planning frameworks and approaches, including comprehensive planning; incrementalism; advocacy; communicative rationality; and others.

**C R P 563: Planning the American Metropolis**

(3-0) Cr. 3. F.

Focus on the historical role of planning in the shaping of American cities and regions, from the beginning of the Republic to the present. Examine the legacy of planning by exploring the intersection of design, politics and policy. Investigate the factors and the processes that produce the built environment.

**C R P 564: Introduction to Analytical Methods for Planning**

(3-0) Cr. 3. F.

Applications of analytical methods in planning with emphasis on the collection, description, analysis, presentation, and interpretation of planning data. Introduction to descriptive statistics. Sources of planning information and data including primary and secondary data types and sources. Demographic analysis, population projection techniques for planning at local and regional levels.

**C R P 566: Policy Analysis and Planning**

(3-0) Cr. 3. F.

Principles and methods for analyzing community problems and policies including forecasting, efficiency and equity measures, cost/benefit, political feasibility, and sensitivity analysis. Examination of social, political, economic, and environmental values and their manifestation in decision making methods used in planning. Application of tools used to analyze planning problems, project evaluation and public policies.

**C R P 568: Planning and Development**

(3-0) Cr. 3. S.

*Prereq: C R P 564 or equivalent*

Exploration and evaluation of the techniques, processes, and professional skills required to effectively manage land use change at various scales. Land classification systems; land supply and needs inventory for residential uses and commercial and employment centers; capacity and needs analysis for public infrastructure. Includes land use planning project(s) designed to apply the methods explored in this and other courses.

**C R P 573: Contemporary Issues in Global Housing**

(3-0) Cr. 3. F.

*Prereq: Senior or graduate standing*

Investigation of broader social and economic processes around the globe from the housing perspective. Case study approach to shelter struggles and the various policy and design responses related to them, as a means of understanding a range of issues important to urban systems including poverty, development, urbanization, migration, social movements and citizenship.

**C R P 575: Grant Writing**

(Dual-listed with C R P 475). (1-0) Cr. 1. F.

A short introduction to effective grant writing for the public and non-profit sectors. Includes identifying appropriate funding sources for an organization, identifying goals and objectives, and budgeting.

**C R P 578: MRED Capstone Project**

(Cross-listed with FIN). (3-0) Cr. 3.

*Prereq: Enrollment in MRED.*

Refinement of students' problem-solving, communication and negotiation skills. Students work on an actual case. Teams will apply knowledge acquired in the classroom to some aspect of a current development on-the-ground and in-process project.

**C R P 579: Public Finance and Planning**

(Dual-listed with C R P 479). (3-0) Cr. 3. S.

Overview of public finance theory, particularly in how it relates to local governments and the work of planning and community development. Concepts include theories of taxation, challenges unique to local public finance, collective action, and a survey of the different revenue sources used to fund local government.

**C R P 584: Sustainable Communities**

(Dual-listed with C R P 484). (3-0) Cr. 3. S.

*Prereq: Junior classification*

The history and theory of sustainable community planning. Procedural and substantive dimensions. Case studies of communities engaged in sustainability planning. Use and development of indicators.

**C R P 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590A: Special Topics: Planning Law, Administration and Implementation**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590B: Special Topics: Economic Development**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590C: Special Topics: Urban Design**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590D: Special Topics: Housing and Urban Revitalization**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590H: Special Topics: Environmental Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590I: Special Topics: Land Use and Transportation Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590N: Special Topics: International Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590O: Special Topics: Spatial Analytical Methods**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590P: Special Topics: Planning in Small Towns**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590Q: Special Topics: Diversity and Equity in Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 590R: Special Topics: Geographic Information Systems**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and written approval of instructor and department chair on required form*

**C R P 591: Environmental Law and Planning**

(Dual-listed with C R P 491). (Cross-listed with L A). (3-0) Cr. 3. S.

*Prereq: 6 credits in natural sciences or Permission of Instructor*

Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

**C R P 592: Land Use and Development Regulation Law**

(3-0) Cr. 3. F.

An in-depth analysis of the legal constructs that shape the practice of planning and plan implementation in the United States. An exploration of how land use regulations are applied to reconcile the competing needs and diverse uses of land. The positive and negative consequences of developing and implementing regulatory controls will be addressed.

**C R P 595: Seminar in GIS Applications/Research**

(1-0) Cr. 1. F.S.

*Prereq: 9 credits in GIS Certificate program*

Discussion and demonstration of current GIS applications and research in multiple disciplines. Offered on a satisfactory-fail basis only.

**C R P 599: Professional Planning Report**

Cr. arr. Repeatable.

Independent planning project with practical application, including research element.

**Courses for graduate students:**

**C R P 699: Research**

Cr. arr. Repeatable.

## Community Development (COMDV)

*Any experimental courses offered by COMDV can be found*

*at:* [registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**COMDV 502: Theories and Constructs of Community Change**

(3-0) Cr. 3.

Examines the principles and practices of community change. Use of case studies to relate development approaches to conceptual models. Constructs defining community include community capitals, community field and interactionism, human ecology, social identity, community conflict, communitarianism, and central place theory.

**COMDV 503: Community Development Methods**

(3-0) Cr. 3.

Introduction to research methods relevant to community development. Topics include research design and methods of data collection. Conceptual frameworks are used to develop research questions and analyze data. Strategies for reporting research results as a means of community action are examined.

**COMDV 504: Creating Community Change**

(3-0) Cr. 3.

Examines the role of civil society in community planning efforts and a comparative approach to planning theories and approaches. Focuses on change within communities and the roles of government, planners, and citizens in reacting to or shaping change. Explores the relationship of community planning to community development as community responses to change.

**COMDV 505: Analysis of the Community Economy**

(3-0) Cr. 3.

Introduction to theories of community economic growth. Examines drivers of economic growth, community economic base, sources of growth or decline, roles of local government and institutions, analytical tools, and strategies for local economic development. Explores use of data in community economic development and local and regional development action.

**COMDV 530: Community Development Practicum**

(3-0) Cr. 3.

*Prereq: COMDV 502, COMDV 503, COMDV 504, COMDV 505*

Practical community development experience. Structured work in range of tasks under close supervision of a professional community developer. Exploration of relationships between theory and practice, exposure to variety of professional roles in community development, and demonstration of the ability to design community development programming. Demonstrate applications of knowledge gained from previous coursework.

## Community Development GPIDEA (C DEV)

***Any experimental courses offered by C DEV can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**C DEV 502: Community and Natural Resource Management**

(3-0) Cr. 3.

Detailed introduction to community resource management. Theoretical frameworks, methodological investigation, applied practices. Enhancement of ability of community development professionals to work with communities to plan, develop and monitor conversation and development of natural resources with multiple functions.

**C DEV 503: Principles and Strategies of Community Change**

(3-0) Cr. 3.

Analysis of principles and practices of community change and development. Use of case studies to relate community development approaches to conceptual models from diverse disciplines. Exploration of professional practice principles, and student construction of their personal framework for practicing community development.

**C DEV 504: Community Analysis: Introduction to Methods**

(3-0) Cr. 3.

Introduction to research methods relevant to community development. Formulate and begin a research effort, methods of data collection and how conceptual frameworks are used to develop the questions and analyze data. Emphasis on strategies for reporting findings and applying findings in community action and methods of evaluating the entire research process. Significant attention paid to issues of research ethics and inclusiveness.

**C DEV 505: Organizing for Community Change**

(3-0) Cr. 3.

Examines role of civil society in community planning efforts. Comparative approach to planning theories and approaches. Focus on change within communities and the roles of government, planners, and citizens in reacting to or shaping change. Dimensions of social capital and the context of change covered.

**C DEV 506: Community and Regional Economic Analysis I**

(3-0) Cr. 3.

Introduction to concepts of communities and regions, theories of economic growth, drivers of economic growth, the economic base of a community, sources of growth or decline in the community, roles of local government and institutions, and analytical tools. Strategies for local economic development will also be explored.

**C DEV 507: Introduction to Native Communities**

(3-0) Cr. 3.

A base knowledge course. For students currently working within, in partnership with, or considering working with Native communities. Basic understanding within the context of community development of the diversity of the tribal structures and cultures and the unique history and jurisdictional considerations of these nations. Working with tribes, Federal and Indian relations, and governance and cultural issues.

**C DEV 508: Ecological Economics**

(3-0) Cr. 3.

Approaches economy and community by looking at the inherent interdependence, jointness, and potential complementarity between ecology and economy (utility) of a place.

**C DEV 509: Building Native Community and Economic Capacity**

(3-0) Cr. 3.

Focus on non-western approaches to helping Native communities build their capacity. Students will learn to take a participatory, culture-centered, and strength-based approach to development.

**C DEV 510: Indian Country Agriculture and Natural Resources**

(3-0) Cr. 3.

Introduction to the historical and contemporary issues related to natural resource management on Native American lands. Philosophical and economic arguments concerning natural resource conservation, preservation and extraction will be explored.

**C DEV 512: Sustainable Communities**

(3-0) Cr. 3.

Students will learn the conceptual relationships among Community and Sustainable Development and Sustainable Communities and examine the social, environmental, and economic aspects of sustainable communities. The course includes analysis of public policy impacts on community sustainability, practical actions for enhancing sustainability, and changing power dynamics and reward structures involved in incorporating sustainability into Community Development.

**C DEV 513: Economic Development Strategies and Programs**

(3-0) Cr. 3.

Course explores theories of local economic development and addresses the development issues faced by communities in the 21st century. Students will understand and apply concepts from economic development planning, economic analysis, business development, human resource development, community-based development, and high-technology development.

**C DEV 520: Community Development Orientation**

(2-0) Cr. 2.

Introduction to the Community Development program. Focus on on-line delivery methods, graduate level research and writing, technology skills.

**C DEV 521: Housing and Development**

Cr. 3. S.

*Prereq: None.*

Review and evaluation of historical and current housing issues, production, and financial systems, including consideration of racial, ethnic, income, and gender issues as they relate to the role of housing developments and programs in community development.

**C DEV 522: Community Leadership and Capacity Building**

(3-0) Cr. 3.

Defining leadership and applying it to the workplace. Understanding of potential link between leadership and community capacity. Identifying strategies for leadership development in communities.

**C DEV 523: Grantwriting for Community Development Professionals**

(3-0) Cr. 3.

Basic Grant Development and Management will introduce students to the grant-getting process and provide an overview of what happens after a project is funded. The following topics will be covered: researching funding sources, generating cutting edge ideas, assessing needs, planning a project, establishing credibility, formulating a sustainable budget, designing an evaluation plan, managing the funded project, and disseminating project results.

**C DEV 524: Non-Profit Management in Community Development**

(3-0) Cr. 3.

Understanding of how non-profit organizations are run in order that they may participate more fully in community development efforts. Learning skills necessary to assist organizations to manage community development projects and programs, such as, budgeting, planning, personnel, facilities, volunteer management, and fundraising.

**C DEV 525: Role of Tribal Colleges in Economic Development**

(3-0) Cr. 3.

Focus on role of tribally-chartered colleges and universities in economic development within Native communities. Social capital analytic framework to examine and evaluate tribal college model of economic development.

**C DEV 526: Immigration and Community Inclusion**

(3-0) Cr. 3.

Mechanisms for community inclusion and exclusion in relation to immigration will be examined. Aspects of ethnicity, religion, occupation and transnationalism are addressed in terms of community mechanism for incorporating immigrants as community assets.

**C DEV 527: Public and Non-Profit Budgeting**

Cr. 3. SS.

Introduction to the fundamental theories and practices of budgeting in the public and non-profit sectors. Topics covered include overview of budgeting and budget reform, taxation, expenditures, budget preparation and adoption, budget implementation, and performance budgeting.

**C DEV 528: Evaluation of Organizations and Programs**

(3-0) Cr. 3.

*Prereq: C DEV 504 with grade of C or better*

Introduction to the philosophy, techniques, and methodologies of organizational and program evaluation. Overview of program evaluation and theory, techniques to evaluate program processes and performance, evaluation designs, assessing program efficiency, models to diagnose organizations, and methods to assess organizational performance.

**C DEV 530: Toward Ethical Engagement**

(3-0) Cr. 3.

Understanding what ethics are and identify ethical dimensions of a problem. Ability to employ ethical analysis and engagement strategies in public problem-solving.

**C DEV 532: Community and Regional Economic Analysis II**

(3-0) Cr. 3.

*Prereq: C DEV 506*

Substantive grounding in the theories and practice of measuring community economic dynamics; build solid foundation skills for applied community economic analysis.

**C DEV 590: Special Topics in Community Development**

Cr. 1-3. Repeatable, maximum of 4 times. F.S.SS.

Special topics in Community Development. Independent Study, must get instructor approval.

**C DEV 599: Creative Component**

Cr. arr.

Students work with major professor to conduct research and carry out work on their creative component. Instructor permission required.

**Courses for graduate students:****C DEV 699: Thesis Research**

Cr. 1-6. F.S.SS.

Thesis Research.

## Computer Engineering (CPR E)

***Any experimental courses offered by CPR E can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****CPR E 131: Introduction to Computer Security Literacy**

(Cross-listed with CYBSC). (1-0) Cr. 1.

Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

**CPR E 166: Professional Programs Orientation**

(Cross-listed with E E). Cr. R. F.S.

(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations. Offered on a satisfactory-fail basis only.

**CPR E 184: Computer Engineering Learning Community**

Cr. 1. F.

*Prereq: Member of Cpr E Learning Community*

Integration of first-year students into the Computer Engineering program. Assignments and activities involving teamwork, academic preparation, study skills, and preparation for entry into the Computer Engineering profession. Completed both individually and in learning teams under the direction of faculty and peer mentors.

**CPR E 185: Introduction to Computer Engineering and Problem Solving I**  
(2-2) Cr. 3.

*Prereq:* (MATH 143 or satisfactory scores on mathematics placement examinations); credit or concurrent enrollment in MATH 165

Introduction to Computer Engineering. Project based examples from computer engineering. Individual interactive skills for small and large groups. Computer-based projects. Solving engineering problems and presenting solutions through technical reports. Solution of engineering problems using a programming language. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**CPR E 186: Introduction to Computer Engineering and Problem Solving II**  
(0-2) Cr. 1. S.

*Prereq:* CPR E 185

Project based examples from computer engineering. Group skills needed to work effectively in teams. Group problem solving. Computer based projects. Technical reports and presentations. Students will work on 2 or 3 self-directed team based projects that are representative of problems faced by computer engineers.

**CPR E 230: Cyber Security Fundamentals**

(Cross-listed with CYB E). (2-2) Cr. 3. F.

*Prereq:* COM S 227 or E E 285 or MIS 207.

Introduction to computer and network infrastructures used to support cyber security. Basic concepts of computer and network configuration used to secure environments. Computer virtualization, network routing and address translation, computer installation and configuration, network monitoring, in a virtual environment. Laboratory experiments and exercises including secure computer and network configuration and management.

**CPR E 231: Cyber Security Concepts and Tools**

(Cross-listed with CYB E). (2-2) Cr. 3. S.

*Prereq:* CPR E 230 or CYB E 230

Basic concepts of practical computer and Internet security and the tools used to protect and attack systems and networks. Computer and network security methods including: user authentication, access control, firewalls, intrusion detection, use of vulnerability assessment tools and methods, and penetration testing. Ethics and legal issues in cyber security will also be covered. Laboratory experiments and exercises including evaluating systems for vulnerabilities, understanding potential exploits of the systems, and defenses for the systems.

**CPR E 232: Professional and Ethical Issues in Electrical and Computer Engineering**

(Cross-listed with E E). (3-0) Cr. 3.

*Prereq:* COM S 227 or E E 285

Professional and ethical issues in electrical and computer engineering. Soft skills, including communication and leadership skills, and how they relate to the engineering profession. Case studies illustrating ethical decision making in an engineering context and differentiating between moral and professional ethics. Issues of diversity, equity, and inclusion in the engineering profession.

**CPR E 234: Legal, Professional, and Ethical Issues in Cyber Systems**

(Cross-listed with CYB E). (3-0) Cr. 3. S.

*Prereq:* COM S 227, or E E 285, or MIS 207

Emphasizes legal, ethical, and professional issues in cyber systems. Other topics include privacy, government regulation, and compliance as applied to professional practice. Guest lecturer from government and industry, as well as discussions including current legal and ethical issues found in the main stream.

**CPR E 261: Transfer Orientation**

(Cross-listed with E E). Cr. R.

Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

**CPR E 281: Digital Logic**

(3-3) Cr. 4. F.S.

*Prereq:* Sophomore classification

Number systems and representation. Boolean algebra and logic minimization. Combinational and sequential logic design. Arithmetic circuits and finite state machines. Use of programmable logic devices. Introduction to computer-aided schematic capture systems, simulation tools, and hardware description languages. Design of simple digital systems.

**CPR E 288: Embedded Systems I: Introduction**

(3-2) Cr. 4. F.S.

*Prereq:* CPR E 281; (COM S 207 or COM S 227 or E E 285)

Embedded C programming. Interrupt handling. Memory mapped I/O in the context of an application. Elementary embedded design flow/ methodology. Timers, scheduling, resource allocation, optimization, state machine based controllers, real time constraints within the context of an application. Applications laboratory exercises with embedded devices.

**CPR E 294: Program Discovery**

(Cross-listed with E E). Cr. R.

*Prereq: CPR E 166 or E E 166*

The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today's world. Offered on a satisfactory-fail basis only.

**CPR E 308: Operating Systems: Principles and Practice**

(3-3) Cr. 4. F.S.

*Prereq: COM S 321 or CPR E 381*

Operating system concepts, processes, threads, synchronization between threads, process and thread scheduling, deadlocks, memory management, file systems, I/O systems, security, Linux-based lab experiments.

**CPR E 310: Theoretical Foundations of Computer Engineering**

(3-1) Cr. 3. F.S.

*Prereq: COM S 228*

Propositional logic and methods of proof; basic discrete structures; mathematical induction and recurrence relations; functions and relations; and counting; trees and graphs; applications in computer engineering.

**CPR E 329: Software Project Management**

(Cross-listed with S E). (3-0) Cr. 3.

*Prereq: COM S 309*

Process-based software development. Capability Maturity Model (CMM). Project planning, cost estimation, and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risks. Version control and configuration management. Inspections and reviews. Managing the testing process. Software quality metrics. Modern software engineering techniques and practices.

**CPR E 330: Integrated Electronics**

(Cross-listed with E E). (3-3) Cr. 4.

*Prereq: CPR E 281; E E 201; credit or concurrent enrollment in E E 230*

Semiconductor technology for integrated circuits. Modeling of integrated devices including diodes, BJTs, and MOSFETs. Physical layout. Circuit simulation. Digital building blocks and digital circuit synthesis. Analysis and design of analog building blocks. Laboratory exercises and design projects with CAD tools and standard cells.

**CPR E 331: Application of Cryptographic Concepts to Cyber Security**

(Cross-listed with CYB E). Cr. 3. F.S.

*Prereq: CPR E 231 or CYB E 231*

Basic cryptographic underpinnings used in modern cyber security encryption suites. Encryption benefits to cyber security and its use in protocols. Topics include cryptographically secure hash functions and pseudorandom numbers, key distribution techniques, secure authentication including single sign on. Detection and prevention of security threats such as covert communication, malicious code, and other security threats in protocols are included. In addition to laboratory experiments and exercises, students complete a project focused on cyber security problem and solution. Only one of CPR E/CYB E 331 and CPR E 431 may count towards graduation.

**CPR E 332: Cyber Defense Competition**

(Cross-listed with CYBSC). (0-2) Cr. 1. Repeatable. S.

Participation in cyber defense competition driven by scenario-based network design. Includes computer system setup, risk assessment and implementation of security systems, as well as defense of computer and network systems against trained attackers. Team based. Offered on a satisfactory-fail basis only.

**CPR E 339: Software Architecture and Design**

(Cross-listed with S E). (3-0) Cr. 3.

*Prereq: S E 319*

Modeling and design of software at the architectural level. Architectural styles. Basics of model-driven architecture. Object-oriented design and analysis. Iterative development and unified process. Design patterns. Design by contract. Component based design. Product families. Measurement theory and appropriate use of metrics in design. Designing for qualities such as performance, safety, security, reliability, reusability, etc. Analysis and evaluation of software architectures. Introduction to architecture definition languages. Basics of software evolution, reengineering, and reverse engineering. Case studies. Introduction to distributed system software.

**CPR E 381: Computer Organization and Assembly Level Programming**

(3-2) Cr. 4. F.S.

*Prereq: CPR E 288*

Introduction to computer organization, evaluating performance of computer systems, instruction set design. Assembly level programming: arithmetic operations, control flow instructions, procedure calls, stack management. Processor design. Datapath and control, scalar pipelines, introduction to memory and I/O systems.

**CPR E 388: Embedded Systems II: Mobile Platforms**

(3-2) Cr. 4.

*Prereq: CPR E 288*

Contemporary programming techniques for event driven systems. Mobile platforms and operating systems. Location and motion sensors based user interfaces. Threading and scheduling. Resource management - measurement and control techniques - for memory and energy. Client-server application design. Distributed applications. Laboratory includes exercises based on a mobile platform.

**CPR E 394: Program Exploration**

(Cross-listed with E E). Cr. R.

*Prereq: CPR E 294 or E E 294*

Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

**CPR E 412: Formal Methods in Software Engineering**

(Cross-listed with COM S, S E). (3-0) Cr. 3.

*Prereq: COM S 311; STAT 305 or STAT 330 or STAT 341; for graduate credit: graduate standing or permission of instructor*

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

**CPR E 414: Introduction to Software Systems for Big Data Analytics**

Cr. 4. F.

*Prereq: COM S 363; or CPR E 315 or CPR E 308; or COM S 311 or COM S 352*

Introduction to different perspectives of the "data universe" and trade-offs when choosing an appropriate perspective. Impact of the concept(s) of analytics – from raw data, through its storage/representation, to interacting and querying (linguistic/interface issues). Focused studies on 3-4 different domains, followed by generalization of the concepts/abstractions and preparing the students for the next course in this realm, targeting different domains/problems. Understanding the dependencies between problem-domain needs and the data properties, and their impact on choosing appropriate analytics tools (and how/why those tools were developed and exist in the manners that they do). In addition, the students will be exposed to (limited selection of) internals of such tools.

**CPR E 416: Software Evolution and Maintenance**

(Cross-listed with S E). (3-0) Cr. 3.

*Prereq: COM S 309*

Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation.

**CPR E 418: High Speed System Engineering Measurement and Testing**

(Cross-listed with E E). (3-2) Cr. 4. F.

*Prereq: E E 230 and E E 311*

Measurement of high speed systems and mixed signal systems. Measurement accuracy and error. Network analysis and spectrum analysis used in high speed measurement and testing. Test specification process and parametric measurement. Sampling and digital signal processing concepts. Design for testability. Testing equipment. Applications.

**CPR E 419: Software Tools for Large Scale Data Analysis**

(Cross-listed with S E). (3-3) Cr. 4.

*Prereq: COM S 363 or COM S 352 or CPR E 308; COM S 228*

Software tools for managing and manipulating large volumes of data, external memory processing, large scale parallelism, and stream processing, data interchange formats. Weekly programming labs that involve the use of a parallel computing cluster.

**CPR E 421: Software Analysis and Verification for Safety and Security**

(Cross-listed with S E). Cr. 3. F.S.

*Prereq: (COM S 230 or CPR E 310); COM S 309*

Significance of software safety and security; various facets of security in cyber-physical and computer systems; threat modeling for software safety and security; and categorization of software vulnerabilities. Software analysis and verification: mathematical foundations, data structures and algorithms, program comprehension, analysis, and verification tools; automated vs. human-on-the-loop approach to analysis and verification; and practical considerations of efficiency, accuracy, robustness, and scalability of analysis and verification. Cases studies with application and systems software; evolving landscape of software security threats and mitigation techniques. Understanding large software, implementing software analysis and verification algorithms.

**CPR E 424: Introduction to High Performance Computing**

(Cross-listed with COM S, MATH). (2-2) Cr. 3. F.

*Prereq: (MATH 265; [MATH 207 or MATH 317]) or Permission of Instructor* Unix, serial programming of scientific applications, OpenMP for shared-memory parallelization. No Unix, Fortran or C experience required.

### **CPR E 425: High Performance Computing for Scientific and Engineering Applications**

(Cross-listed with COM S). (2-2) Cr. 3.

*Prereq:* COM S 311; ENGL 250; SP CM 212

Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports.

### **CPR E 426: Introduction to Parallel Algorithms and Programming**

(Dual-listed with CPR E 526). (Cross-listed with COM S). (3-2) Cr. 4. F.

*Prereq:* (CPR E 308 or COM S 321); (CPR E 315 or COM S 311)

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

### **CPR E 430: Network Protocols and Security**

(Dual-listed with CPR E 530). (Cross-listed with CYBSC). (3-0) Cr. 3.

*Prereq:* CPR E 308 OR COM S 252 OR COM S 352. *E E students:* CPR E 288.

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

### **CPR E 431: Basics of Information System Security**

(3-0) Cr. 3. S.

*Prereq:* Credit or concurrent enrollment in CPR E 308 or COM S 352

Introduction to and application of basic mechanisms for protecting information systems from accidental and intentional threats. Basic cryptography use and practice. Computer security issues including authentication, access control, and malicious code. Network security mechanisms such as intrusion detection, firewalls, SSL/TLS, and related protocols. Ethics and legal issues in information security. Wireless security. Programming and system configuration assignments. This course can not be used towards any requirements for the Cyber Security Degree or Minor. Only one of CPR E/CYB E 331 and CPR E 431 may count towards graduation.

### **CPR E 435: Analog VLSI Circuit Design**

(Cross-listed with E E). (3-3) Cr. 4. S.

*Prereq:* E E 330

Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters.

### **CPR E 440: Operating System Security**

(Cross-listed with CYB E). (3-0) Cr. 3. S.

*Prereq:* CPR E 308 OR COM S 352.

Focus on fundamentals and advanced topics in operating system (OS) security. Design issues, principles, mechanisms, and good practice for design and implementation of secure computer/OS systems. Threat models, vulnerabilities, attacks compromise security, and advanced OS-level techniques for achieving security. Topics include OS security concepts and principles, seminal security in Multics, vulnerabilities in ordinary systems, secure capability systems, information flow control, mandatory access control, security kernels, memory protection, file system, virtual machine systems, hardware/architecture support (e.g., Intel SGX) for OS security, secure microkernel OSes (e.g., seL4, QNX), modern mobile operating systems (e.g., Android and iOS), and security from end-user perspective. Assignments include labs exploring and implementing the technologies in the context of the Linux, Android, and seL4 systems (some involving kernel programming).

### **CPR E 450: Distributed Systems and Middleware**

(Dual-listed with CPR E 550). (3-0) Cr. 3.

*Prereq:* CPR E 308 or COM S 352

Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, Blockchain, middleware-based application design and development, case studies of middleware and internet applications.

### **CPR E 454: Distributed Systems**

(Dual-listed with CPR E 554). (Cross-listed with COM S). (3-1) Cr. 3.

*Prereq:* COM S 311; COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor

Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

### **CPR E 458: Real Time Systems**

(Dual-listed with CPR E 558). (3-0) Cr. 3.

*Prereq:* CPR E 308 or COM S 352

Fundamental concepts in real-time systems. Real time task scheduling paradigms. Resource management in uniprocessor, multiprocessor, and distributed real-time systems. Energy management in real-time systems and sensor networks. Fault-tolerance and overload handling in real-time systems. Real-time channel, QoS routing, traffic policing, packet scheduling, and real-time LAN protocols. Case study of real-time and IoT applications. Term project in real-time systems and networks.

**CPR E 465: Digital VLSI Design**

(Cross-listed with E E). (3-3) Cr. 4. F.

*Prereq: E E 330*

Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project.

**CPR E 480: Graphics Processing and Architecture**

(Dual-listed with CPR E 580). (3-3) Cr. 4. S.

*Prereq: CPR E 381 or COM S 321*

Introduction to hardware architectures for computer graphics and their programming models. System-level view, including framebuffers, video output devices, displays, 2D and 3D graphics acceleration, and device interfacing. Architectural design of GPUs, from 2D and 3D sprite engines to 3D rendering pipelines to unified shader architectures. Computing models for graphics processors. GPGPU and GPU computing.

**CPR E 487: Hardware Design for Machine Learning**

(3-3) Cr. 4.

*Prereq: CPR E 381 or COM S 321*

Introduction to hardware architectures for machine learning. Full system view – machinelearning frameworks to hardware interface to hardware architecture. General purpose CPU extensions for machine learning. GPU extensions for machine learning. Spatial architectures for machine learning. Performance, energy, and accuracy trade-offs. Hardware design optimizations for machine learning, including quantization, data re-use, SIMD, and SIMT. Lab section will culminate with the design and evaluation of an application-specific machinelearning accelerator.

**CPR E 488: Embedded Systems Design**

(3-3) Cr. 4.

*Prereq: CPR E 381 or COM S 321*

Embedded microprocessors, embedded memory and I/O devices, component interfaces, embedded software, program development, basic compiler techniques, platform-based FPGA technology, hardware synthesis, design methodology, real-time operating system concepts, performance analysis and optimizations.

**CPR E 489: Computer Networking and Data Communications**

(3-2) Cr. 4. F.S.

*Prereq: CPR E 288 OR COM S 327*

Modern computer networking and data communications concepts. OSI reference model, TCP/IP architecture. Sockets programming. Protocols at the physical layer, data link layer, network layer, transport layer, and application layer. Software-defined networking.

**CPR E 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Senior classification in computer engineering*

Investigation of an approved topic.

**CPR E 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: Senior classification in computer engineering*

Investigation of an approved topic.

**CPR E 491: Senior Design Project I and Professionalism**

(Cross-listed with E E, S E). (2-3) Cr. 3. F.S.

*Prereq: CPR E major: CPR E 232, cr or enrollment in CPR E 308, completion of 29 cr in the CPRE prof prog, ENGL 314. E E major: E E 232, cr or enrollment in E E 322, completion of 24 cr in the EE prof prog, ENGL 314. S E major: S E 317 and S E 339, ENGL 309 or ENGL 314. Co-req: CPR E 308 or COM S 352*

Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.

**CPR E 492: Senior Design Project II**

(Cross-listed with E E, S E). (1-3) Cr. 2. F.S.

*Prereq: CPR E 491 or E E 491 or S E 491*

Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491, Cpr E 491, or S E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements; project poster.

**CPR E 494: Portfolio Assessment**

(Cross-listed with E E). Cr. R.

*Prereq: CPR E 232 or E E 232 or CYB E 234; credit or concurrent enrollment in CPR E 491 or E E 491*

Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

**CPR E 511: Design and Analysis of Algorithms**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: COM S 311*

A study of algorithm design and analysis techniques. Network flows and linear programming. Randomized algorithms. NP-completeness. Approximation algorithms. Fixed-parameter algorithms.

**CPR E 513: Program Analysis**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq:* (COM S 327 or CPR E 288); COM S 342

Algorithms, AI techniques and tools for automatically reasoning about code and program executions. Theory and foundations related to control flow analysis, dataflow analysis, abstract interpretation, and symbolic execution. Applications of program analysis to bug detection, test input generation, debugging, program repair, specification inference and trustworthy AI engineering. Concepts, algorithms, tools, benchmarks, methodologies for solving problems using program analysis and for preparing research in program analysis.

**CPR E 522: Cognitive Radio Networks**

(Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq:* Permission of instructor

Topics on cognitive radio networks: Cognitive Radio Networks Architecture; Software Defined Radio Architecture; Spectrum Sensing; Spectrum Management; Spectrum Sharing; Spectrum Mobility; Applications of Cognitive Radio Networks.

**CPR E 525: Numerical Analysis of High Performance Computing**

(Cross-listed with COM S, MATH). (3-0) Cr. 3. S.

*Prereq:* CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C

Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required.

**CPR E 526: Introduction to Parallel Algorithms and Programming**

(Dual-listed with CPR E 426). (Cross-listed with COM S). (3-2) Cr. 4. F.

*Prereq:* (CPR E 308 or COM S 321); (CPR E 315 or COM S 311)

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

**CPR E 527: Concurrent Systems**

(Cross-listed with COM S). Cr. 3.

*Prereq:* COM S 352 or CPR E 308

Fundamentals and advances in concurrent systems in the context of GPUs, TPUs, multicore and HPC systems with specific focus on parallel programming models. Discussion of high-performance computing, GPGPU, scaling deep neural network training and machine learning algorithms, high-performance deep learning, engineering parallel software and and parallel design patterns.

**CPR E 528: Probabilistic Methods in Computer Engineering**

(3-0) Cr. 3.

*Prereq:* CPR E 315 or COM S 311

The application of randomization and probabilistic methods in the design of computer algorithms, and their efficient implementation. Discrete random variables in modeling algorithm behavior, with applications to sorting, selection, graph algorithms, hashing, pattern matching, cryptography, distributed systems, and massive data set algorithmics.

**CPR E 529: Data Analytics in Electrical and Computer Engineering**

(Cross-listed with E E). (3-0) Cr. 3. S.

*Prereq:* E E 322 or equivalent

Introduces a variety of data analytics techniques # particularly those relevant for electrical and computer engineers # from a foundational perspective. Topics to be covered include techniques for classification, visualization, and parameter estimation, with applications to signals, images, matrices, and graphs. Emphasis will be placed on rigorous analysis as well as principled design of such techniques.

**CPR E 530: Network Protocols and Security**

(Dual-listed with CPR E 430). (Cross-listed with CYBSC). (3-0) Cr. 3.

*Prereq:* CPR E 308 OR COM S 252 OR COM S 352. E E students: CPR E 288.

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

**CPR E 531: Information System Security**

(Cross-listed with CYBSC). (3-0) Cr. 3.

*Prereq:* CPR E 489 or CPR E 530 or COM S 586 or MIS 535

Computer, software, and data security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

**CPR E 532: Information Warfare**

(Cross-listed with CYBSC). (3-0) Cr. 3. S.

*Prereq:* CPR E 430 or 530

Computer system and network security: implementation, configuration, testing of security software and hardware, network monitoring. Authentication, firewalls, vulnerabilities, exploits, countermeasures. Study and use of attack tools. Ethics in cyber security. Emphasis on laboratory experiments.

**CPR E 533: Cryptography**

(Cross-listed with CYBSC, MATH). (3-0) Cr. 3. S.

*Prereq:* MATH 301 or CPR E 310 or COM S 230

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

**CPR E 534: Legal and Ethical Issues in Cyber Security**

(Cross-listed with CYBSC, POL S). (3-0) Cr. 3. S.

*Prereq: Graduate classification; CPR E 531 or CYBSC 531*

Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

**CPR E 535: Steganography and Digital Image Forensics**

(Cross-listed with CYBSC, MATH). (3-0) Cr. 3. S.

*Prereq: E E 524 or MATH 317 or MATH 407 or COM S 230*

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

**CPR E 536: Computer and Network Forensics**

(Cross-listed with CYBSC). (3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

**CPR E 537: Wireless Network Security**

(3-0) Cr. 3. S.

*Prereq: Credit or enrollment in CPR E 489 or CPR E 530*

Introduction to the physical layer and special issues associated with the security of wireless networks. The basics of wireless communication systems (antennas and propagation, modulation, multiple access, channel modeling, specific security issues of the wireless link), jamming and countermeasures (spread spectrum technologies, channel coding, interleaving), authentication and confidentiality (basics of classic cryptography, common authentication and encryption algorithms). Detailed case studies on authentication, encryption and privacy flaws, and good practices based on the most common wireless technologies, including WiFi, GSM/3G, Bluetooth, and RFID. Individual or team-based class projects.

**CPR E 538: Reverse Engineering and Security Testing**

(Cross-listed with CYBSC). (2-3) Cr. 3. S.

*Prereq: COM S 321 or CPR E 381, COM S 352 or CPR E 308*

Techniques and tools for understanding the behavior of software/hardware systems based on reverse engineering. Flaw hypothesis, black, grey, and white box testing as well as other methods for testing the security of software systems. Discussion of counter-reverse engineering techniques.

**CPR E 539: Cyber Physical System Security for the Smart Grid**

(3-0) Cr. 3. S.

Introduction to cyber security, cyber physical system (CPS), and smart grid automation technologies; supervisor control and data acquisition (SCADA) systems; cyber risk modeling, vulnerability analysis, impact analysis, defense and mitigation techniques; cyber security of wide-area monitoring, protection, and control; security and privacy in advanced metering infrastructure (AMI), cyber security compliance and best practices, CPS security test-beds and attack-defense hands-on laboratory experiments.

**CPR E 541: High-Performance Communication Networks**

(3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Computer architectures and protocols designed for high-performance networking environments; software defined networking (SDN) and supporting protocols; cloud and data center networks; network traffic management and congestion control strategies; quality of service; high-speed access network protocols.

**CPR E 542: Optical Communication Networks**

(3-0) Cr. 3. S.

*Prereq: CPR E 489*

Optical components and interfaces; optical transmission and reception techniques; wavelength division multiplexing; network architectures and protocol for first generation, single and multihop optical network; routing and wavelength assignment in second generation wavelength routing networks; traffic grooming, optical network control; survivability; access networks; metro networks.

**CPR E 543: Wireless Network Architecture**

(3-0) Cr. 3.

*Prereq: Credit or enrollment in CPR E 489 or CPR E 530*

Introduction to the protocol architecture of the data link layer, network layer and transport layer for wireless networking. Operation and management of Medium Access Control in Wireless Local Area Networks (WLAN) and Wireless Metropolitan Area Networks (WMAN); recent developments in IEEE 802.11 & 802.16 and Bluetooth; Mobile IP; Mobile TCP.

**CPR E 544: Fundamentals of Bioinformatics**

(Cross-listed with BCB, COM S, GDCB). (4-0) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq: MATH 165 or STAT 401 or equivalent*

A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

**CPR E 545: Fault-Tolerant Systems**

(3-0) Cr. 3.

*Prereq: CPR E 381*

Faults and their manifestations, errors, and failures; fault detection, location and reconfiguration techniques; time, space, and information (coding) redundancy management; design for testability; self-checking and fail-safe circuits; system-level fault diagnosis; Byzantine agreement; stable storage and RAID; clock synchronization; fault-tolerant networks; fault tolerance in real-time systems; reliable software design; checkpointing and rollback recovery; atomic actions; replica management protocols; and reliability evaluation techniques and tools.

**CPR E 546: Wireless and Sensor Networks**

(3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Fundamental and well-known protocols for wireless ad hoc and sensor networks at various layers, including physical layer issues, MAC (medium access control) layer protocols, routing protocols for wireless ad hoc and sensor networks, data management in sensor networks, coverage and connectivity, localization and tracking, security and privacy issues. Introduction to TinyOS and the nesC language. Hands-on experiments with Crossbow Mote sensor devices.

**CPR E 547: Resource Allocation in Communication Networks**

(3-0) Cr. 3.

Analytical approach to resource allocation on communication networks (e.g. the Internet, multihop wireless networks, etc.). Network utility maximization and the internet congestion control algorithm. Layering as optimization decomposition: a cross-layer design approach in multihop wireless networks. Capacity of ad hoc wireless networks.

**CPR E 548: Cyber-Physical Systems Networking**

Cr. 3.

*Prereq: CPR E 489; CPR E 530/430; COM S 486, or equivalent.*

Cyber-physical systems applications in smart agriculture, transportation, power grid, manufacturing, public safety, health systems, etc.; field area and control networks; industrial Ethernet; time-triggered communication; real-time wireless networks; wireless industrial networks; safety and security of industrial networks; systems platforms for cyber-physical systems networks; team-based learning/projects.

**CPR E 550: Distributed Systems and Middleware**

(Dual-listed with CPR E 450). (3-0) Cr. 3.

*Prereq: CPR E 308 or COM S 352*

Fundamentals of distributed computing, software agents, naming services, distributed transactions, security management, distributed object-based systems, web-based systems, Blockchain, middleware-based application design and development, case studies of middleware and internet applications.

**CPR E 554: Distributed Systems**

(Dual-listed with CPR E 454). (Cross-listed with COM S). (3-1) Cr. 3.

*Prereq: COM S 311; COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor*

Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

**CPR E 556: Scalable Software Engineering**

(3-0) Cr. 3.

*Prereq: COM S 309*

Design and analysis techniques scalable to large software, project-based learning of problem solving techniques, automation tools for high productivity and reliability of software, analysis-based measurement and estimation techniques for predictable software engineering.

**CPR E 557: Computer Graphics and Geometric Modeling**

(Cross-listed with COM S, M E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 421 or instructor permission*

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

**CPR E 558: Real Time Systems**

(Dual-listed with CPR E 458). (3-0) Cr. 3.

*Prereq: CPR E 308 or COM S 352*

Fundamental concepts in real-time systems. Real time task scheduling paradigms. Resource management in uniprocessor, multiprocessor, and distributed real-time systems. Energy management in real-time systems and sensor networks. Fault-tolerance and overload handling in real-time systems. Real-time channel, QoS routing, traffic policing, packet scheduling, and real-time LAN protocols. Case study of real-time and IoT applications. Term project in real-time systems and networks.

**CPR E 559: Security and Privacy in Cloud Computing**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: COM S 352 or CPR E 308*

Introduction to cloud computing concepts and systems. Security and privacy threats in cloud computing. Practical techniques for cloud computing security. Theoretical and practical solutions for secure outsourcing of data and computation. Oral presentations and research projects.

**CPR E 560: Data-Driven Security and Privacy**

(Cross-listed with COM S, CYBSC). Cr. 3. Alt. S., offered irregularly.

*Prereq:* CPR E 531; COM S 474 or COM S 573

Examination of applications of machine learning and big data techniques to various security and privacy problems, as well as secure and privacy-preserving machine learning algorithms.

**CPR E 562: Secure Software Engineering**

(3-0) Cr. 3. F.S.

*Prereq:* CPR E 308 or COM S 352

Fundamentals and techniques to design and implement software systems. Assessment of security vulnerabilities in software systems, exploitation of software vulnerabilities, and methods to secure vulnerable software. Secure coding practices, data analytics for security, microservices and cloud services security. Reverse engineering and security assessment of cyber-physical systems.

**CPR E 563: Advanced Data Storage Systems**

(3-0) Cr. 3.

*Prereq:* CPR E 308 OR COM S 352

Focus on how to keep valuable digital data (e.g., scientific computations, financial transactions, family photos) safely in modern computer systems. Fundamentals of data storage technologies including state of the art. Topics include storage hardware, Linux file systems, and warehouse-scale big data storage, with an emphasis on the design tradeoffs for robustness and security. Team projects based on high-impact open-source systems.

**CPR E 566: Physical Design of VLSI Systems**

(3-0) Cr. 3.

*Prereq:* CPR E 465

Physical design of VLSI systems. Partitioning algorithms. Placement and floorplanning algorithms. Routing-global and detailed. Layout compaction. Physical design of FPGA's and MCM's. Performance-driven layout synthesis.

**CPR E 567: Bioinformatics Algorithms**

(Cross-listed with BCB, COM S). (3-0) Cr. 3.

*Prereq:* COM S 228; COM S 230; credit or enrollment in BIOL 315, STAT 430

Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

**CPR E 569: Structural Bioinformatics**

(Cross-listed with BBMB, BCB, COM S, GDCB). (3-0) Cr. 3. F.

*Prereq:* BCB 567, BBMB 316, GEN 409, STAT 430

Molecular structures including genes and gene products: protein, DNA and RNA structure. Structure determination methods, structural refinement, structure representation, comparison of structures, visualization, and modeling. Molecular and cellular structure from imaging. Analysis and prediction of protein secondary, tertiary, and higher order structure, disorder, protein-protein and protein-nucleic acid interactions, protein localization and function, bridging between molecular and cellular structures. Molecular evolution.

**CPR E 570: Systems Biology**

(Cross-listed with BCB, COM S, GDCB, STAT). (3-0) Cr. 3. S.

*Prereq:* BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430 or STAT 483 or STAT 583

Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput biological data obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, and inference of transcriptional regulatory networks, protein-protein interaction networks, and metabolic networks. Dynamic systems and whole-cell models. Ontology-driven, network based, and probabilistic approaches to information integration.

**CPR E 575: Computational Perception**

(Cross-listed with COM S, HCI). (3-0) Cr. 3. S.

*Prereq:* Graduate standing or permission of instructor

Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. Focuses on machine perception techniques that facilitate and augment human-computer interaction. Introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

**CPR E 580: Graphics Processing and Architecture**

(Dual-listed with CPR E 480). (3-3) Cr. 4. S.

*Prereq:* CPR E 381 or COM S 321

Introduction to hardware architectures for computer graphics and their programming models. System-level view, including framebuffers, video output devices, displays, 2D and 3D graphics acceleration, and device interfacing. Architectural design of GPUs, from 2D and 3D sprite engines to 3D rendering pipelines to unified shader architectures. Computing models for graphics processors. GPGPU and GPU computing.

**CPR E 581: Computer Systems Architecture**

(Cross-listed with COM S). (3-0) Cr. 3. F.

*Prereq: CPR E 381*

Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.

**CPR E 582: Computer Systems Performance**

(3-0) Cr. 3.

*Prereq: CPR E 381, CPR E 310 and STAT 330*

Review of probability and stochastic processes concepts; Markovian processes; Markovian queues; renewal theory; semi-Markovian queues; queueing networks, applications to multiprocessor architectures, computer networks, and switching systems.

**CPR E 583: Reconfigurable Computing Systems**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: Background in computer architecture, design, and organization*

Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

**CPR E 584: Models and Techniques in Embedded Systems**

(3-0) Cr. 3.

Industry-standard tools and optimization strategies; practical embedded platforms and technology (reconfigurable platforms, multi-core platforms, low-power platforms); instruction augmentation, memory-mapped accelerator design, embedded software optimization. Students will be encouraged to compete as teams in an embedded system design competition.

**CPR E 585: Developmental Robotics**

(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: knowledge of C/C++ programming language.*

An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

**CPR E 586: Pervasive Computing**

(3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Fundamentals of pervasive computing, including location and context awareness, mobile and location services, ubiquitous data access, low power computing and energy management, middleware, security and privacy issues.

**CPR E 588: Embedded Computer Systems**

(3-0) Cr. 3.

*Prereq: CPR E 308*

Hardware/software systems and codesign. Models of computation for embedded systems. System-level design. Modeling, specification, synthesis, and verification. Hardware/software implementation. Design space exploration. Performance analysis and optimization. Multiprocessor system on chip. Platform-based design. Design methodologies and tools. Case studies and design projects.

**CPR E 590: Special Topics**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in computer engineering.

**CPR E 592: Seminar in Computer Engineering**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

Projects or seminar in Computer Engineering.

**CPR E 595: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

Investigation of an approved topic commensurate with the student's prerequisites.

**CPR E 598: Electrical and Computer Engineering Learning Community Seminar**

(Cross-listed with E E). Cr. R. F.S.

*Prereq: Electrical and Computer Engineering Graduate Student*

Introduction to graduate study in Electrical and Computer Engineering at Iowa State University. Building networks, introduction to core requirements, and tools and techniques for success. Offered on a satisfactory-fail basis only. ECpE

**CPR E 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**CPR E 626: Parallel Algorithms for Scientific Applications**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: CPR E 526*

Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

**CPR E 631: Cyber Security Operations Practicum**

(Cross-listed with CYBSC). Cr. 3. Repeatable.

*Prereq: CPR E 532; CPR E 534; and permission of instructor*

Practical experience in cyber operations. Cyber security threat analysis, malware analysis, and intrusion detection management. Cyber security data analysis methods. Pen testing tools and techniques. Weekly threat analysis briefings. Offered on a satisfactory-fail basis only.

**CPR E 632: Cyber Security Capstone Design**

(Cross-listed with CYBSC). (3-0) Cr. 3.

*Prereq: CYBSC 531, CYBSC 532, CYBSC 534*

Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attack each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report.

**CPR E 649: Advanced Topics in Computational Biology**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: COM S 511 and COM S 531*

Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

**CPR E 681: Advanced Topics in Computer Architecture**

(Cross-listed with COM S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: CPR E 581. Repeatable with Instructor permission*

Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

**CPR E 697: Engineering Internship**

(Cross-listed with E E). Cr. R. Repeatable.

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**CPR E 699: Research**

Cr. arr. Repeatable.

## Computer Science (COM S)

***Any experimental courses offered by COM S can be found at:***

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****COM S 101: Orientation**

Cr. R. F.S.

Required orientation class for all incoming students in the Computer Science major. Topics include academic planning and policies, campus resources, and supports. Opportunity to connect with other computer science peers, faculty, alumni, and employers. Offered on a satisfactory-fail basis only.

**COM S 103: Computer Literacy and Applications**

Cr. 4. F.S.SS.

Introduction to computer literacy and applications. Literacy: Impact of computer technology in today's societies, hardware, software, software programming, database and information systems, communication and networks, digital media technology, computer security and safety, ethics and privacy. Applications: In-depth hands-on experience with the operating systems, Microsoft word processing, spreadsheets, database management and presentation software. No prior computer experience necessary. Offered online only.

**COM S 104: Brief Introduction to Computer Programming for Non-Majors**

(1.5-1) Cr. 2. F.S.

Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and MacOS tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

**COM S 105: Short Course in Computer Programming**

Cr. 2.

*Prereq: Com S 104*

8-week course in programming, including instruction in syntax and semantics, of the following current programming languages.

**COM S 105A: Short Course in Computer Programming: Perl**

(1-2) Cr. 2.

*Prereq: Com S 104*

8-week course in programming using Perl.

**COM S 105B: Short Course in Computer Programming: MATLAB**

(2-0) Cr. 2.

*Prereq: Com S 104*

8-week course in programming using MATLAB.

**COM S 106: Introduction to Web Programming**

(3-0) Cr. 3. F.S.

Introduction to web programming basics. Fundamentals of developing web pages using a comprehensive web development life cycle. Learn to design and code practical real-world homepage programs and earn adequate experience with current web design techniques such as HTML5 and cascading style sheets. Students also learn additional programming languages including JavaScript, jQuery, PHP, SQL, and MySQL. Strategies for accessibility, usability and search engine optimization. No prior computer programming experience necessary.

**COM S 107: Windows Application Programming**

(3-0) Cr. 3. F.S.

Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

**COM S 113: Introduction to Spreadsheets and Databases**

(2-2) Cr. 3. F.S.SS.

Using Microsoft Excel spreadsheets and Microsoft Access databases to input, store, process, manipulate, query, and analyze data for business and industrial applications. Credit in Com S 113 may not be applied toward graduation in the S E and CPR E majors.

**COM S 127: Introduction to Computer Programming**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in MATH 140 or higher*

Introduction to computer programming with an emphasis on problem-solving. Topics include: program structures, expressions, variables, decision and logic, iteration, collections, input, and output. Program construction and testing. Programming assignments including games and applications. No prior programming experience necessary.

**COM S 192: Explorations in Computing Research I**

Cr. 1. Repeatable, maximum of 2 credits. F.S.

Explore research opportunities for undergraduate students in Computer Science; understanding the nature of research and development process; reviewing the literature; development of writing, presentation, and data reporting skills; rotation under different research labs; group work.

**COM S 203: Careers in Computer Science**

Cr. R. F.S.

Computer science as a profession. Introduction to career fields open to computer science majors. Relationship of coursework to careers. Presentations by computer science professionals. Offered on a satisfactory-fail basis only.

**COM S 207: Fundamentals of Computer Programming**

(3-1) Cr. 3. F.S.SS.

*Prereq: MATH 150 or placement into MATH 140 or higher*

An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of variable, if-statement, looping, method, and class. Interactive and file I/O. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both COM S 207 and COM S 227.

**COM S 227: Object-oriented Programming**

(3-2) Cr. 4. F.S.SS.

*Prereq: Credit or concurrent enrollment in MATH 143 or higher; (COM S 127 or CPR E 185 or S E 185 or E E 285)*

Computer programming using objects as the mechanism for modularity, abstraction, and code reuse. Instance variables, methods, and encapsulation. Review of control structures for conditionals and iteration. Developing algorithms on strings, arrays, and lists. Recursion, searching, and sorting. Text parsing and file I/O. Interfaces, inheritance, polymorphism, and abstract classes. Exception handling. Tools for unit testing and debugging. Emphasis on a disciplined approach to specification, code development, and testing. Course intended for majors in computer science and related fields. Credit may not be applied toward graduation for both Com S 207 and 227.

**COM S 228: Introduction to Data Structures**

(3-1) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in COM S 227; credit or concurrent enrollment in MATH 165*

An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism, and generics. Abstract data type specification and correctness. Collections including lists, stacks, queues, trees, heaps, maps, hash tables, and graphs. Big-O notation and algorithm analysis. Searching and sorting. Graph search and shortest path algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

**COM S 230: Discrete Computational Structures**

(Cross-listed with MATH). (3-1) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in (COM S 227; MATH 165); ENGL 150*

Concepts in discrete mathematics as applied to computer science. Logic, set theory, functions, relations, cardinality of sets, combinatorics, graph theory and number theory. Proof techniques, induction and recursion.

**COM S 252: Linux Operating System Essentials**

(3-0) Cr. 3. F.

*Prereq: CPR E 185 or S E 185 or COM S 127 or COM S 207 or COM S 227*

Introduction to installation, utilization, and administration of Linux systems. Topics include open-source software, package installation and management, shell programming and command-line utilities, process and service management, account management, network configuration, file sharing, interoperation with other computers and operating systems, automation, and system security.

**COM S 290: Independent Study**

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

No more than 6 credits of Com S 290 or Com S 290H may be counted toward graduation.

**COM S 290H: Independent Study: Honors**

Cr. arr. Repeatable, maximum of 6 credits. F.S.

*Prereq: Permission of Instructor*

No more than 6 credits of Com S 290 or Com S 290H may be counted toward graduation.

**COM S 295: Programming-based problem solving practices**

Cr. 1. Repeatable, maximum of 3 times. F.S.

*Prereq: COM S 207 or COM S 227*

Basics of problem solving using programming techniques. Development and implementation of simple to advanced data structures and algorithms, evaluation of problem difficulty, design and implementation of solutions, debugging, and working under time pressure. Offered on a satisfactory-fail basis only.

**COM S 309: Software Development Practices**

(Cross-listed with S E). (3-1) Cr. 3. F.S.

*Prereq: Minimum of C- in (COM S 228; MATH 165)*

Practical introduction to methods for managing software development. Software engineering concepts, practices and tools. Requirements analysis, structured and object-oriented design, coding, testing, and maintenance. Software process models, software tools and environments. Programming projects that provide exposure to information management techniques, client/server model, networking and communication.

**COM S 311: Introduction to the Design and Analysis of Algorithms**

(3-1) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in (COM S 228; MATH 166, ENGL 150); (COM S 230 or CPR E 310)*

Basic techniques for design and analysis of algorithms. Sorting, searching, graph algorithms, string matching, algorithms for secure computing such as RSA, and NP-completeness. Design techniques such as dynamic programming, divide and conquer, greedy method, and approximation. Asymptotic, worst-case, average-case and amortized analyses. Topics from advanced data structures such as balanced trees and hashing. Programming projects.

**COM S 319: Construction of User Interfaces**

(Cross-listed with S E). (3-0) Cr. 3. F.S.

*Prereq: COM S 228*

Overview of user interface design. Evaluation and testing of user interfaces. Review of principles of object orientation, object oriented design and analysis using UML in the context of user interface design. Design of windows, menus and commands. Developing Web and Windows-based user-interfaces. Event-driven programming. Introduction to Frameworks and APIs for the construction of user interfaces.

**COM S 321: Introduction to Computer Architecture and Machine-Level Programming**

(3-1) Cr. 3. F.S.

*Prereq: Minimum of C- in COM S 228 and MATH 165; COM S 230 or CPR E 281; ENGL 250*

Introduction to computer architecture and organization. Emphasis on evaluation of performance, instruction set architecture, datapath and control, memory-hierarchy design, and pipelining. Assembly language programming.

**COM S 326: C for Programmers**

Cr. 1. F.S.

*Prereq: Minimum of C- in COM S 228; COM S 230 or CPR E 310*

Half-semester course. Design and implementation of libraries and applications in C, for students with prior programming background. Emphasis on differences between C and other languages, including file I/O, string processing, memory management, and buffer overruns. Using build systems, debuggers, and other development tools. Programming projects.

**COM S 327: Advanced Programming Techniques**

(3-0) Cr. 3. F.S.

*Prereq: Minimum of C- in (COM S 228; MATH 165)*

Object-oriented programming experience using a language suitable for exploring advanced topics in programming. Topics include memory management, parameter passing, inheritance, compiling, debugging, and maintaining programs. Significant programming projects.

**COM S 331: Theory of Computing**

(Cross-listed with LING). (3-1) Cr. 3. F.S.

*Prereq:* Minimum of C- in (COM S 228; MATH 166; ENGL 250); (COM S 230 or CPR E 310)

Models of computation: finite state automata, pushdown automata and Turing machines. Study of grammars and their relation to automata. Limits of digital computation, unsolvability and Church-Turing thesis. Relations between classes of languages.

**COM S 336: Introduction to Computer Graphics**

(3-0) Cr. 3. F.

*Prereq:* COM S 327 or CPR E 288; concurrent enrollment in (MATH 207 or MATH 265 or MATH 317)

Programming interactive computer graphics systems using standard low-level libraries (such as OpenGL or DirectX) with an emphasis on 3D rendering. The graphics pipeline and programmable shaders. Coordinate systems and transformations in two and three dimensions. Homogeneous coordinates, viewing transformations and perspective. Euler angles and quaternions. Visible surface algorithms. Lighting models and shading. Texture mapping, bump mapping, reflection, elementary ray tracing. Offscreen buffers, render-to-texture and related techniques.

**COM S 342: Principles of Programming Languages**

(Cross-listed with S E). (3-1) Cr. 3. F.S.

*Prereq:* Minimum of C- in COM S 228 and MATH 165; COM S 230 or CPR E 310

Study of concepts in programming languages, especially functional programming concepts. Overview of major programming paradigms, their relationship, and tradeoffs among paradigms enabling sound choices of programming language for application-specific development. Programming projects.

**COM S 350: Number Theory**

(Cross-listed with MATH). (3-0) Cr. 3. S.

*Prereq:* COM S 230 or CPR E 310 or MATH 201

Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Additional topics, chosen at the discretion of the instructor.

**COM S 352: Introduction to Operating Systems**

(3-1) Cr. 3. F.S.

*Prereq:* (COM S 321 or CPR E 381); (COM S 327 or CPR E 288); ENGL 250

Survey of operating systems; process management including scheduling and multithreading; memory management including virtual memory and paging; concurrency including mutual exclusion, synchronization, and deadlocks; persistent storage and file systems; principles and practices of secure computing including threats and access control; networking and distributed systems; virtualization. Programming projects.

**COM S 362: Object-Oriented Analysis and Design**

(Cross-listed with S E). (3-0) Cr. 3. F.S.

*Prereq:* Minimum of C- in (COM S 228; MATH 165); ENGL 250

Object-oriented requirements analysis and systems design. Analysis and design methodologies including use case and Unified Modeling Language (UML). Design principles, heuristics, and patterns. Architectural patterns and alternative programming paradigms. Group design and programming project.

**COM S 363: Introduction to Database Management Systems**

(3-0) Cr. 3. F.S.

*Prereq:* Minimum of C- in (COM S 228; MATH 165); ENGL 250

Data models and database design using entity relationship model. Database implementation with relational and graph database management systems (DBMS) and query languages. DBMS internals including basic concepts of database storage, indexing, query optimization, and concurrent control. Database application development. Programming Projects.

**COM S 398: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq:* Permission of department chair

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**COM S 401: Bioinformatics of Sequences**

(Cross-listed with BCBIO, BIOL, GEN). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* (BCBIO 322; [COM S 127 or COM S 227]; [MATH 160 or MATH 165]; [MATH 166 or STAT 301]; [STAT 101 or STAT 104 or STAT 330]) or Permission of Instructor

Application of computer science and statistics to molecular biology with a significant problem-solving component, including hands-on programming using Python to solve a variety of biological problems. String algorithms, sequence alignments, homology search, pattern discovery, genotyping, genome assembly, genome annotation, comparative genomics, protein structure.

**COM S 402: Computer Science Senior Project**

Cr. 2-3. Repeatable, maximum of 6 credits. F.S.

*Prereq:* COM S 309, COM S 311, COM S 321, COM S 331, and Senior Classification

Students work as individuals and teams to complete the planning, design, and implementation of a significant project in the topic area. Oral and written reports. Recommended final semester Senior year. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

**COM S 402A: Computer Science Senior Project: Multimedia and Computer Gaming I**

Cr. 2-3. Repeatable, maximum of 6 credits. F.

*Prereq: COM S 309, COM S 311, COM S 321, COM S 331, and COM S 437, Senior Classification*

Students conceive, plan, architect and design a computer game. Student registered in this course will work with students in ARTIS 409. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

**COM S 402B: Computer Science Senior Project: Multimedia and Computer Gaming II**

Cr. 2-3. Repeatable, maximum of 6 credits. S.

*Prereq: COM S 402A, Senior Classification*

Students implement, test, and present a completed production computer game. Students in this class will work with students in ARTIS 409. Oral and written reports. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

**COM S 402C: Computer Science Senior Project: Project in Computer Science**

(0-3) Cr. 3. F.S.

*Prereq: COM S 309, COM S 311, COM S 321, COM S 331, and Senior Classification*

Students work as individuals and teams to complete the planning, design, and implementation of a significant project in the topic area. Oral and written reports. Recommended final semester Senior year. No more than 6 credits of 402A, 402B, and 402C may be used toward graduation.

**COM S 406: Bioinformatics of OMICS**

(Cross-listed with BCBIO, BIOL, GEN). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Introduction to cutting edge OMICS analyses including transcriptome, proteome, metabolome, DNA-protein interactome, protein-protein interactome and methylome. Genomic analysis including transcriptome analysis, cancer genomics, comparative genomics, and regulatory network analysis.

**COM S 407: Applied Formal Methods**

(Dual-listed with COM S 507). (Cross-listed with AER E). Cr. 3. S.

*Prereq: For AER E majors: AER E 361, For COM S majors: COM S 311, For other majors: AER E 361 or (COM S 311 or an equivalent course); Permission of Instructor*

Introduction to the fundamentals of formal methods, a set of mathematically rigorous techniques for the formal specification, validation, and verification of safety- and security-critical systems. Tools, techniques, and applications of formal methods with an emphasis on real-world use-cases such as enabling autonomous operation. Build experience in writing mathematically analyzable specifications from English operational concepts for real cyberphysical systems, such as aircraft and spacecraft. Review capabilities and limitations of formal methods in the design, verification, and system health management of today's complex systems.

**COM S 409: Software Requirements Engineering**

(Dual-listed with COM S 509). (3-0) Cr. 3.

*Prereq: COM S 309; for graduate credit: graduate standing or permission of instructor*

The requirements engineering process including elicitation, requirements analysis fundamentals, requirements specification and communication, and requirements evaluation. Modeling of functional and nonfunctional requirements, traceability, and requirements change management. Case studies and software projects.

**COM S 410: Distributed Development of Software**

(Dual-listed with COM S 510). (3-0) Cr. 3.

*Prereq: COM S 309; COM S 327 or CPR E 288; for graduate credit: graduate standing or permission of instructor*

Teams of students develop software applications in a modern software engineering environment. Importance, effective processes pertaining to team organization, management and communication, and cultural issues of distributed development. Graduate credit requires in-depth study of concepts and oral presentations.

**COM S 412: Formal Methods in Software Engineering**

(Dual-listed with COM S 512). (Cross-listed with CPR E, S E). (3-0) Cr. 3.

*Prereq: COM S 311; STAT 305 or STAT 330 or STAT 341; for graduate credit: graduate standing or permission of instructor*

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

**COM S 413: Program Analysis**

(Dual-listed with COM S 513). (Cross-listed with S E). (3-0) Cr. 3.

*Prereq: (COM S 327 or CPR E 288); COM S 342*

Algorithms, AI techniques and tools for automatically reasoning about code and program executions. Theory and foundations related to control flow analysis, dataflow analysis, abstract interpretation, and symbolic execution. Applications of program analysis to bug detection, test input generation, debugging, program repair, specification inference and trustworthy AI engineering. Concepts, algorithms, tools, benchmarks, methodologies for solving problems using program analysis and for preparing research in program analysis.

**COM S 414: Gerontechnology in Smart Home Environments**

(Dual-listed with COM S 514). (3-0) Cr. 3.

*Prereq: COM S 227 or COM S 207 or GERON 377 or ARTGR 271 or equivalent; for graduate credit: graduate standing or permission of instructor*

Interdisciplinary course designed for students interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. Research report and oral presentation required for graduate credit.

**COM S 415: Software System Safety**

(Dual-listed with COM S 515). (3-0) Cr. 3.

*Prereq: COM S 309 or COM S 311; for graduate credit: graduate standing or permission of instructor*

An introduction to the hazard analysis, safety requirements, design, and verification of software for safety-critical and high-dependability systems. Safety analysis techniques, fault identification and recovery, and certification issues. Emphasizes a case-based and systematic approach to software's role in safe systems.

**COM S 417: Software Testing**

(Cross-listed with S E). (3-0) Cr. 3.

*Prereq: COM S 309; (COM S 230 or CPR E 310); ENGL 250*

An introduction to software testing principles and techniques. Test models, test design, test adequacy criteria; regression, integration, and system testing; and software testing tools.

**COM S 418: Introduction to Computational Geometry**

(Dual-listed with COM S 518). (3-0) Cr. 3.

*Prereq: COM S 311; for graduate credit: graduate standing or permission of instructor*

Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Convex hulls, line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams, Delaunay triangulations, geometric data structures, robot motion planning, visibility graphs. Other selected topics. Programming assignments. Scholarly report required for graduate credit.

**COM S 421: Logic for Mathematics and Computer Science**

(Cross-listed with MATH). (3-0) Cr. 3.

*Prereq: COM S 230 or CPR E 310 or MATH 207 or MATH 301 or MATH 317*

Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic.

**COM S 424: Introduction to High Performance Computing**

(Cross-listed with CPR E, MATH). (2-2) Cr. 3. F.

*Prereq: (MATH 265; [MATH 207 or MATH 317]) or Permission of Instructor*

Unix, serial programming of scientific applications, OpenMP for shared-memory parallelization. No Unix, Fortran or C experience required.

**COM S 425: High Performance Computing for Scientific and Engineering Applications**

(Cross-listed with CPR E). (2-2) Cr. 3.

*Prereq: COM S 311; ENGL 250; SP CM 212*

Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports.

**COM S 426: Introduction to Parallel Algorithms and Programming**

(Dual-listed with COM S 526). (Cross-listed with CPR E). (3-2) Cr. 4. F.

*Prereq: (CPR E 308 or COM S 321); (CPR E 315 or COM S 311)*

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

**COM S 430: Concurrent Programming in Practice**

(3-1) Cr. 3.

*Prereq: COM S 311; (COM S 362 or COM S 363); ENGL 250; SP CM 212*

A practical course in concepts, techniques, languages, and frameworks for concurrent and asynchronous systems. Concurrency fundamentals: threads, synchronization locks, waiting and notification, memory visibility. Immutability and thread confinement. Concurrent data structures and utilities, thread pools. Asynchronous programming with callbacks, futures, and message passing. Issues of aliasing, ownership and borrowing. Transactional memory, immutable and versioned data structures. Alternatives to threads and locks: event-driven systems, the actor model, CSP, coroutines. Students will investigate several non-mainstream languages supporting different concurrency models. Oral and written reports.

**COM S 433: Molecular Programming of Nanoscale Devices and Processes**

(Dual-listed with COM S 533). (3-0) Cr. 3.

*Prereq: Minimum of C- in COM S 331 or permission of instructor; for graduate credit: graduate standing or permission of instructor*

Programming, modeling, and analysis of natural and engineered systems at the nanoscale. Topics include chemical reaction networks, strand displacement systems, models of self-assembly, biomolecular origami, and molecular robotics. Emphasis on mathematical methods of describing, simulating, programming, and assessing the computational power of such systems. Graduate credit requires a written or oral report on current research.

**COM S 434: Quantum Information and Complexity**

(Dual-listed with COM S 534). (3-0) Cr. 3. F.

*Prereq: (COM S 331 or PHYS 422 or PHYS 522); (MATH 207 or MATH 317)*

An exploration of quantum information and computation from a theoretical computer science perspective. Topics include quantum circuits, axioms of quantum mechanics, quantum entanglement, quantum teleportation, nonlocal games, quantum entropies, quantum information theory, quantum computational complexity, interactive proof systems, and quantum supremacy.

**COM S 435: Algorithms for Large Data Sets: Theory and Practice**

(Dual-listed with COM S 535). (3-0) Cr. 3.

*Prereq: COM S 311 or equivalent; for graduate credit: graduate standing or permission of instructor*

Algorithmic challenges involved in solving computational problems on massive data sets. Probabilistic data structures, Curse of Dimensionality and dimensionality reduction, locality sensitive hashing, similarity measures, matrix decompositions. Optimization problems in massive data analysis. Computational problems that arise in the context of web search, social network analysis, online advertising etc. Practical aspects include implementation and performance evaluation of the algorithms on real world data sets. Graduate credit requires a written report on current research.

**COM S 437: Computer Game and Media Programming**

(3-0) Cr. 3.

*Prereq: COM S 336*

Video game programming using current game engine interfaces with real hardware. Particular attention is paid to the development environment, tool chains, 2D graphics, 3D graphics, controllers, memory management, and audio systems.

**COM S 440: Principles and Practice of Compiling**

(Dual-listed with COM S 540). (Cross-listed with S E). (3-1) Cr. 3.

*Prereq: COM S 331 or COM S 342; COM S 309; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics include: lexical, syntactic and semantic analyses, syntax-directed translation, code generation, runtime environment and library support.

**COM S 441: Programming Languages**

(Dual-listed with COM S 541). (3-1) Cr. 3.

*Prereq: COM S 342 or COM S 440; for graduate credit: graduate standing or permission of instructor*

Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.

**COM S 453: Privacy Preserving Algorithms and Data Security**

Cr. 3. S.

*Prereq: COM S 311; (STAT 305 or STAT 330 or STAT 341 or STAT 347)*

Latest online threats on identity theft, fundamentals of privacy preserving algorithms, techniques, and mechanisms to minimize disclosure of sensitive information while maintaining availability. Theory and fundamentals underpinning measures to evaluate the privacy and availability of data; implementation and deployment of privacy-preserving data operations including pre- and post-randomization techniques, homomorphisms, and secure function evaluation protocols.

**COM S 454: Distributed Systems**

(Dual-listed with COM S 554). (Cross-listed with CPR E). (3-1) Cr. 3.

*Prereq: COM S 311; COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor*

Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

**COM S 455: Simulation: Algorithms and Implementation**

(Dual-listed with COM S 555). (3-0) Cr. 3.

*Prereq: COM S 311; STAT 305 or STAT 330 or STAT 341 or STAT 347; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts.

**COM S 461: Principles and Internals of Database Systems**

(3-1) Cr. 3.

*Prereq: COM S 311; ENGL 250; SP CM 212*

Database design including entity-relationship model, relational data model, and non-relational data models, data dependency, and normalization. Database management including physical storage, access methods, query processing, and transaction management. Database systems of special purposes such as spatial databases, mobile object databases, and multimedia databases. Introduction to current database research such as cloud data management and Internet information retrieval.

**COM S 472: Principles of Artificial Intelligence**

(Dual-listed with COM S 572). (3-1) Cr. 3.

*Prereq: COM S 311; STAT 330 or STAT 305 or STAT 341 or STAT 347; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Basic principles, techniques, and applications of artificial intelligence. Specification, design, implementation, and applications of intelligent agents. Computational models of intelligent behavior, including problem solving, knowledge representation and reasoning, planning, decision making, learning, perception, and communication. Artificial intelligence programming. Term project and written report for graduate credit.

**COM S 474: Introduction to Machine Learning**

(Dual-listed with COM S 574). (3-1) Cr. 3.

*Prereq: COM S 311; STAT 330 or STAT 305 or STAT 341 or STAT 347; MATH 165; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Introduction to concepts, tools and techniques of machine learning for applications. Selected machine learning algorithms in practical data mining tasks such as classification, regression, and clustering, e.g., association rules, decision trees, linear models, Bayesian learning, support vector machines, artificial neural networks, instance-based learning, probabilistic graphical models, ensemble learning, and clustering algorithms. Selected applications in data mining and pattern recognition.

**COM S 476: Motion Planning for Robotics and Autonomous Systems**

(Dual-listed with COM S 576). (3-0) Cr. 3.

*Prereq: COM S 311; ENGL 250*

Recent techniques for developing algorithms that automatically generate continuous motions while satisfying geometric constraints. Applications in areas such as robotics and autonomous systems. Discrete planning, kinematics, configuration space, collision detection, sampling-based motion planning, nonholonomic systems and differential constraints. Implementation of software that computes motion plans in Python. Written reports.

**COM S 477: Foundations of Robotics and Computer Vision**

(Dual-listed with COM S 577). (3-0) Cr. 3.

*Prereq: COM S 228; COM S 230 or CPR E 310; MATH 207 or MATH 317, or consent of the instructor; for graduate credit: graduate standing or permission of instructor*

Selected topics from applied mathematics, algorithms, geometry, and mechanics that are fundamental to robotics and computer vision, and are also applied in computer graphics, geometric modeling and visualization, to name a few. Homogeneous coordinates and transformations, perspective projection, camera calibration, rotations and quaternions, roots of polynomials and polynomial systems, solution of linear and nonlinear equations, parametric and algebraic curves, curvature, torsion, Frenet formulas, surfaces, fundamental forms, principal curvatures, Gaussian and mean curvatures, geodesics, approximation, Fourier series and fast Fourier transform, nonlinear optimization, Lagrange multipliers, least squares, surface fitting and calculus of variations. Programming components. Scholarly report required for graduate credit.

**COM S 481: Numerical Methods for Differential Equations**

(Cross-listed with MATH). (3-0) Cr. 3. S.

*Prereq: MATH 265; (MATH 266 or MATH 267)*

First order Euler method, high order Runge-Kutta methods, and multistep methods for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method. Computer programming required.

**COM S 487: Introduction to Network Programming and Cloud Computing**

(Dual-listed with COM S 587). (3-0) Cr. 3.

*Prereq: COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor*

Introduction to network programming: protocols, programming suites, and applications. Introduction to cloud computing: concepts and case study with AWS. Introduction to selected research issues in networking and cloud computing. Graduate credit requires written report and oral presentation.

**COM S 488: Computer Networks**

(Dual-listed with COM S 588). (3-0) Cr. 3. F.Alt. S., offered irregularly.

*Prereq: COM S 352 or CPR E 308*

Fundamental concepts in the design and implementation of computer communication in both wired and wireless networks, their protocols, and applications. Topics include the layered network architecture in the Internet, applications, transport, network, and data link layers and their protocols, Socket API, software-defined networking, and network security. Lectures organized in a top-down approach to cover the layers of network design.

**COM S 490: Independent Study**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 6 credits in COM S; Permission of Instructor*

No more than 9 credits of Com S 490 or Com S 490H may be counted toward graduation.

**COM S 490H: Independent Study: Honors**

Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 6 credits in COM S; Permission of Instructor*

No more than 9 credits of Com S 490 or Com S 490H may be counted toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:****COM S 507: Applied Formal Methods**

(Dual-listed with COM S 407). (Cross-listed with AER E). Cr. 3. S.

*Prereq: For AER E majors: AER E 361, For COM S majors: COM S 311, For other majors: AER E 361 or (COM S 311 or an equivalent course); Permission of Instructor*

Introduction to the fundamentals of formal methods, a set of mathematically rigorous techniques for the formal specification, validation, and verification of safety- and security-critical systems. Tools, techniques, and applications of formal methods with an emphasis on real-world use-cases such as enabling autonomous operation. Build experience in writing mathematically analyzable specifications from English operational concepts for real cyberphysical systems, such as aircraft and spacecraft. Review capabilities and limitations of formal methods in the design, verification, and system health management of today's complex systems.

**COM S 509: Software Requirements Engineering**

(Dual-listed with COM S 409). (3-0) Cr. 3.

*Prereq: COM S 309; for graduate credit: graduate standing or permission of instructor*

The requirements engineering process including elicitation, requirements analysis fundamentals, requirements specification and communication, and requirements evaluation. Modeling of functional and nonfunctional requirements, traceability, and requirements change management. Case studies and software projects.

**COM S 510: Distributed Development of Software**

(Dual-listed with COM S 410). (3-0) Cr. 3.

*Prereq: COM S 309; COM S 327 or CPR E 288; for graduate credit: graduate standing or permission of instructor*

Teams of students develop software applications in a modern software engineering environment. Importance, effective processes pertaining to team organization, management and communication, and cultural issues of distributed development. Graduate credit requires in-depth study of concepts and oral presentations.

**COM S 511: Design and Analysis of Algorithms**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: COM S 311*

A study of algorithm design and analysis techniques. Network flows and linear programming. Randomized algorithms. NP-completeness. Approximation algorithms. Fixed-parameter algorithms.

**COM S 512: Formal Methods in Software Engineering**

(Dual-listed with COM S 412). (3-0) Cr. 3.

*Prereq: COM S 311; STAT 305 or STAT 330 or STAT 341; for graduate credit: graduate standing or permission of instructor*

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

**COM S 513: Program Analysis**

(Dual-listed with COM S 413). (Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: (COM S 327 or CPR E 288); COM S 342*

Algorithms, AI techniques and tools for automatically reasoning about code and program executions. Theory and foundations related to control flow analysis, dataflow analysis, abstract interpretation, and symbolic execution. Applications of program analysis to bug detection, test input generation, debugging, program repair, specification inference and trustworthy AI engineering. Concepts, algorithms, tools, benchmarks, methodologies for solving problems using program analysis and for preparing research in program analysis.

**COM S 514: Gerontechnology in Smart Home Environments**

(Dual-listed with COM S 414). (3-0) Cr. 3.

*Prereq: COM S 227 or COM S 207 or GERON 377 or ARTGR 271 or equivalent; for graduate credit: graduate standing or permission of instructor*

Interdisciplinary course designed for students interested in assistive technology, pervasive computing, mobile computing and principles of universal and inclusive design for end users, in particular, the elderly population. Students work in semester-long projects as interdisciplinary teams to apply knowledge obtained from lectures and mutual presentations. Research report and oral presentation required for graduate credit.

**COM S 515: Software System Safety**

(Dual-listed with COM S 415). (3-0) Cr. 3.

*Prereq: COM S 309 or COM S 311; for graduate credit: graduate standing or permission of instructor*

An introduction to the hazard analysis, safety requirements, design, and verification of software for safety-critical and high-dependability systems. Safety analysis techniques, fault identification and recovery, and certification issues. Emphasizes a case-based and systematic approach to software's role in safe systems.

**COM S 516: Artificial Intelligence in Software Engineering**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: COM S 311, COM S 309*

Application of artificial intelligence (AI) techniques used to solve problems in software engineering and the use of software engineering techniques to improve AI. AI techniques such as optimization/search, classification, natural language processing, and deep learning to address software engineering problems will be included.

**COM S 518: Introduction to Computational Geometry**

(Dual-listed with COM S 418). (3-0) Cr. 3.

*Prereq: COM S 311; for graduate credit: graduate standing or permission of instructor*

Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Convex hulls, line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams, Delaunay triangulations, geometric data structures, robot motion planning, visibility graphs. Other selected topics. Programming assignments. Scholarly report required for graduate credit.

**COM S 525: Numerical Analysis of High Performance Computing**

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.

*Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C*

Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required.

**COM S 526: Introduction to Parallel Algorithms and Programming**

(Dual-listed with COM S 426). (Cross-listed with CPR E). (3-2) Cr. 4. F.

*Prereq: (CPR E 308 or COM S 321); (CPR E 315 or COM S 311)*

Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms.

**COM S 527: Concurrent Systems**

(Cross-listed with CPR E). Cr. 3.

*Prereq: COM S 352 or CPR E 308*

Fundamentals and advances in concurrent systems in the context of GPUs, TPUs, multicore and HPC systems with specific focus on parallel programming models. Discussion of high-performance computing, GPGPU, scaling deep neural network training and machine learning algorithms, high-performance deep learning, engineering parallel software and and parallel design patterns.

**COM S 531: Theory of Computation**

(3-0) Cr. 3.

*Prereq: COM S 331*

A systematic study of the fundamental models and analytical methods of theoretical computer science. Computability, the Church-Turing thesis, decidable and undecidable problems. Computational resources such as time, space, and nonuniformity. Complexity classes, computational intractability and completeness. Selected topics from randomness, algorithmic information theory, and logic.

**COM S 533: Molecular Programming of Nanoscale Devices and Processes**

(Dual-listed with COM S 433). (3-0) Cr. 3.

*Prereq: Minimum of C- in COM S 331 or permission of instructor; for graduate credit: graduate standing or permission of instructor*

Programming, modeling, and analysis of natural and engineered systems at the nanoscale. Topics include chemical reaction networks, strand displacement systems, models of self-assembly, biomolecular origami, and molecular robotics. Emphasis on mathematical methods of describing, simulating, programming, and assessing the computational power of such systems. Graduate credit requires a written or oral report on current research.

**COM S 534: Quantum Information and Complexity**

(Dual-listed with COM S 434). (3-0) Cr. 3. F.

*Prereq: (COM S 331 or PHYS 422 or PHYS 522); (MATH 207 or MATH 317)*

An exploration of quantum information and computation from a theoretical computer science perspective. Topics include quantum circuits, axioms of quantum mechanics, quantum entanglement, quantum teleportation, nonlocal games, quantum entropies, quantum information theory, quantum computational complexity, interactive proof systems, and quantum supremacy.

**COM S 535: Algorithms for Large Data Sets: Theory and Practice**

(Dual-listed with COM S 435). (3-0) Cr. 3.

*Prereq: COM S 311 or equivalent; for graduate credit: graduate standing or permission of instructor*

Algorithmic challenges involved in solving computational problems on massive data sets. Probabilistic data structures, Curse of Dimensionality and dimensionality reduction, locality sensitive hashing, similarity measures, matrix decompositions. Optimization problems in massive data analysis. Computational problems that arise in the context of web search, social network analysis, online advertising etc. Practical aspects include implementation and performance evaluation of the algorithms on real world data sets. Graduate credit requires a written report on current research.

**COM S 540: Principles and Practice of Compiling**

(Dual-listed with COM S 440). (3-1) Cr. 3.

*Prereq: COM S 331 or COM S 342; COM S 309; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics include: lexical, syntactic and semantic analyses, syntax-directed translation, code generation, runtime environment and library support.

**COM S 541: Programming Languages**

(Dual-listed with COM S 441). (3-1) Cr. 3.

*Prereq: COM S 342 or COM S 440; for graduate credit: graduate standing or permission of instructor*

Survey of the goals and problems of language design. Formal and informal studies of a wide variety of programming language features including type systems. Creative use of functional and declarative programming paradigms.

**COM S 544: Fundamentals of Bioinformatics**

(Cross-listed with BCB, CPR E, GDCB). (4-0) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq: MATH 165 or STAT 401 or equivalent*

A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

**COM S 551: Genomic Data Science**

(3-0) Cr. 3.

*Prereq: COM S 311*

Introduction to a big data research area in bioinformatics. Focus on applying computational techniques to huge genomic sequence data. These techniques include finding optimal sequence alignments, generating genome assemblies, finding genes in genomic sequences, mapping short sequences onto a genome assembly, finding single-nucleotide and structural variations, building phylogenetic trees from genome sequences, and performing genome-wide association studies.

**COM S 552: Principles of Operating Systems**

(3-0) Cr. 3.

*Prereq: For graduate credit: graduate standing or permission of instructor*

A comparative study of high-level language facilities for process synchronization and communication. Analysis of deadlock, concurrency control and recovery. Protection issues including capability-based systems, access and flow control, encryption, and authentication. Additional topics chosen from distributed operating systems, soft real-time operating systems, and advanced security issues. Programming and research projects.

**COM S 554: Distributed Systems**

(Dual-listed with COM S 454). (Cross-listed with CPR E). (3-1) Cr. 3.

*Prereq: COM S 311; COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor*

Theoretical and practical issues of design and implementation of distributed systems. The client server paradigm, inter-process communications, synchronization and concurrency control, naming, consistency and replication, fault tolerance, and distributed file systems. Graduate credit requires additional in-depth study of concepts. Programming projects and written reports.

**COM S 555: Simulation: Algorithms and Implementation**

(Dual-listed with COM S 455). (3-0) Cr. 3.

*Prereq: COM S 311; STAT 305 or STAT 330 or STAT 341 or STAT 347; ENGL 250; for graduate credit: graduate standing or permission of instructor*

Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts.

**COM S 557: Computer Graphics and Geometric Modeling**

(Cross-listed with CPR E, M E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 421 or instructor permission*

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

**COM S 559: Security and Privacy in Cloud Computing**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: COM S 352 or CPR E 308*

Introduction to cloud computing concepts and systems. Security and privacy threats in cloud computing. Practical techniques for cloud computing security. Theoretical and practical solutions for secure outsourcing of data and computation. Oral presentations and research projects.

**COM S 560: Data-Driven Security and Privacy**

(Cross-listed with CPR E, CYBSC). Cr. 3. Alt. S., offered irregularly.

*Prereq: CPR E 531; COM S 474 or COM S 573*

Examination of applications of machine learning and big data techniques to various security and privacy problems, as well as secure and privacy-preserving machine learning algorithms.

**COM S 561: Database Design, Management, and Research**

(3-0) Cr. 3.

*Prereq: COM S 311 or permission of instructor*

Database design including entity-relationship model, relational data model, and non-relational data models, data dependency, and normalization. Database management including physical storage, access methods, query processing, and transaction management. Database systems of special purposes such as spatial databases, mobile object databases, and multimedia databases. Introduction to current database research such as cloud data management and Internet information retrieval. Significant work on reading and presentation of research publications.

**COM S 567: Bioinformatics Algorithms**

(Cross-listed with BCB, CPR E). (3-0) Cr. 3.

*Prereq: COM S 228; COM S 230; credit or enrollment in BIOL 315, STAT 430*

Biology as an information science. A review of the algorithmic principles that are driving the advances in bioinformatics and computational biology.

**COM S 568: Statistical Bioinformatics**

(Cross-listed with BCB, GDCB, STAT). (3-0) Cr. 3. S.

*Prereq: BCB 567 or (BIOL 315 and one of STAT 430 or STAT 483 or STAT 583), credit or enrollment in GEN 409*

Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

**COM S 569: Structural Bioinformatics**

(Cross-listed with BBMB, BCB, CPR E, GDCB). (3-0) Cr. 3. F.

*Prereq:* BCB 567, BBMB 316, GEN 409, STAT 430

Molecular structures including genes and gene products: protein, DNA and RNA structure. Structure determination methods, structural refinement, structure representation, comparison of structures, visualization, and modeling. Molecular and cellular structure from imaging. Analysis and prediction of protein secondary, tertiary, and higher order structure, disorder, protein-protein and protein-nucleic acid interactions, protein localization and function, bridging between molecular and cellular structures. Molecular evolution.

**COM S 570: Systems Biology**

(Cross-listed with BCB, CPR E, GDCB, STAT). (3-0) Cr. 3. S.

*Prereq:* BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430 or STAT 483 or STAT 583

Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput biological data obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, and inference of transcriptional regulatory networks, protein-protein interaction networks, and metabolic networks. Dynamic systems and whole-cell models. Ontology-driven, network based, and probabilistic approaches to information integration.

**COM S 572: Principles of Artificial Intelligence**

(Dual-listed with COM S 472). (3-1) Cr. 3.

*Prereq:* COM S 311; STAT 330 or STAT 305 or STAT 341 or STAT 347; ENGL 250; for graduate credit: graduate standing or permission of instructor

Basic principles, techniques, and applications of artificial intelligence. Specification, design, implementation, and applications of intelligent agents. Computational models of intelligent behavior, including problem solving, knowledge representation and reasoning, planning, decision making, learning, perception, and communication. Artificial intelligence programming. Term project and written report for graduate credit.

**COM S 573: Machine Learning**

(3-1) Cr. 3.

*Prereq:* Graduate standing or permission of instructor

Basic principles, techniques, and applications of machine learning. Design, analysis, theoretical foundation, implementation, and applications of learning algorithms. Selected machine learning techniques in supervised learning, unsupervised learning, and reinforcement learning, including Bayesian decision theory, computational learning theory, decision trees, linear models, support vector machines, artificial neural networks, instance-based learning, probabilistic graphical models, ensemble learning, clustering algorithms, dimensionality reduction and feature selection. Selected applications in data mining and pattern recognition.

**COM S 574: Introduction to Machine Learning**

(Dual-listed with COM S 474). (3-1) Cr. 3.

*Prereq:* COM S 311; STAT 330 or STAT 305 or STAT 341 or STAT 347; MATH 165; ENGL 250; for graduate credit: graduate standing or permission of instructor

Introduction to concepts, tools and techniques of machine learning for applications. Selected machine learning algorithms in practical data mining tasks such as classification, regression, and clustering, e.g., association rules, decision trees, linear models, Bayesian learning, support vector machines, artificial neural networks, instance-based learning, probabilistic graphical models, ensemble learning, and clustering algorithms. Selected applications in data mining and pattern recognition.

**COM S 575: Computational Perception**

(Cross-listed with CPR E, HCI). (3-0) Cr. 3. S.

*Prereq:* Graduate standing or permission of instructor

Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. Focuses on machine perception techniques that facilitate and augment human-computer interaction. Introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

**COM S 576: Motion Planning for Robotics and Autonomous Systems**

(Dual-listed with COM S 476). (3-0) Cr. 3.

*Prereq:* COM S 311; ENGL 250

Recent techniques for developing algorithms that automatically generate continuous motions while satisfying geometric constraints. Applications in areas such as robotics and autonomous systems. Discrete planning, kinematics, configuration space, collision detection, sampling-based motion planning, nonholonomic systems and differential constraints. Implementation of software that computes motion plans in Python. Written reports.

**COM S 577: Foundations of Robotics and Computer Vision**

(Dual-listed with COM S 477). (3-0) Cr. 3.

*Prereq: COM S 228; COM S 230 or CPR E 310; MATH 207 or MATH 317, or consent of the instructor; for graduate credit: graduate standing or permission of instructor*

Selected topics from applied mathematics, algorithms, geometry, and mechanics that are fundamental to robotics and computer vision, and are also applied in computer graphics, geometric modeling and visualization, to name a few. Homogeneous coordinates and transformations, perspective projection, camera calibration, rotations and quaternions, roots of polynomials and polynomial systems, solution of linear and nonlinear equations, parametric and algebraic curves, curvature, torsion, Frenet formulas, surfaces, fundamental forms, principal curvatures, Gaussian and mean curvatures, geodesics, approximation, Fourier series and fast Fourier transform, nonlinear optimization, Lagrange multipliers, least squares, surface fitting and calculus of variations. Programming components. Scholarly report required for graduate credit.

**COM S 578: Optimization for Machine Learning**

Cr. 3.

*Prereq: Com S 472, Com S 474, or instructor permission.*

Advances in optimization theory and algorithms with evolving applications for machine learning. Theoretical foundations at the intersection of optimization and machine learning to conduct advanced research in machine learning and related fields. Emphasis on proof techniques for optimization algorithms in machine learning.

**COM S 579: Natural Language Processing**

(3-0) Cr. 3.

*Prereq: COM S 474 or COM S 574 or COM S 573*

Introduction to NLP and its connection with other branches of Artificial Intelligence, such as machine learning and knowledge representation. Text analysis including n-gram language models, stemming and lemmatization, part-of-speech (POS) tagging. Topic modeling, summarization, text classification, knowledge extraction, and text reasoning. Applications of deep learning in NLP including question answering, machine reading comprehension, word and sentence embedding. Research project required.

**COM S 581: Computer Systems Architecture**

(Cross-listed with CPR E). (3-0) Cr. 3. F.

*Prereq: CPR E 381*

Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.

**COM S 583: Reconfigurable Computing Systems**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: Background in computer architecture, design, and organization*

Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

**COM S 587: Introduction to Network Programming and Cloud Computing**

(Dual-listed with COM S 487). (3-0) Cr. 3.

*Prereq: COM S 352 or CPR E 308; for graduate credit: graduate standing or permission of instructor*

Introduction to network programming: protocols, programming suites, and applications. Introduction to cloud computing: concepts and case study with AWS. Introduction to selected research issues in networking and cloud computing. Graduate credit requires written report and oral presentation.

**COM S 588: Computer Networks**

(Dual-listed with COM S 488). (3-0) Cr. 3. F.Alt. S., offered irregularly.

*Prereq: COM S 352 or CPR E 308*

Fundamental concepts in the design and implementation of computer communication in both wired and wireless networks, their protocols, and applications. Topics include the layered network architecture in the Internet, applications, transport, network, and data link layers and their protocols, Socket API, software-defined networking, and network security. Lectures organized in a top-down approach to cover the layers of network design.

**COM S 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor*

Special Topics in Computer Science.

**COM S 592: Graduate Studies in Computer Science**

Cr. 1.

*Prereq: Graduate classification*

Introduction to Graduate program, Graduate Program Policies, Computing Resources, Faculty Research Areas, Reading Computer Science Research Articles, LaTeX, Research Writing and Presentation, Attend Research Colloquia. Offered on a satisfactory-fail basis only.

**COM S 598: Graduate Internship**

Cr. R. Repeatable.

*Prereq: Graduate Classification*

Supervised internship working in professional settings appropriate to the student's degree program. Academic work under faculty supervision.

**COM S 599: Creative Component**

Cr. 1-3.

Creative component for nonthesis option of Master of Science degree.

Offered on a satisfactory-fail basis only.

**Courses for graduate students:****COM S 610: Seminar**

Cr. arr.

Seminar in Computer Science. Offered on a satisfactory-fail basis only.

**COM S 611: Advanced Topics in Algorithms**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 511, COM S 531*

Advanced algorithm analysis and design techniques. Topics include, but are not limited to, graph algorithms, geometric algorithms, approximation algorithms, fixed-parameter algorithms, randomized algorithms and advanced data structures. Content varies by semester.

**COM S 612: Distributed Algorithms**

(3-0) Cr. 3.

*Prereq: COM S 511 or COM S 531*

The theory of distributed computation. Algorithms, lower bounds and impossibility results. Fundamental problems including consensus, leader election, mutual exclusion and clock synchronization. Synchronous, asynchronous and partially synchronous distributed systems models. Shared memory and message passing systems. Fault-tolerance and randomization. Wait-free object simulations. Distributed shared memory. Special topics vary from year to year.

**COM S 625: Advanced Topics in High Performance Computing**

(3-0) Cr. 3.

*Prereq: COM S 511*

Advanced topics in High Performance Computing (HPC), selected topics in HPC for machine learning and machine learning for HPC. Modern HPC solutions for data science, scientific applications, numerical and non-numerical problems, implementation of parallel programs and scalable machine learning algorithms on HPC clusters and accelerators, performance and other computational issues in HPC and parallel programming.

**COM S 626: Parallel Algorithms for Scientific Applications**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 526*

Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

**COM S 631: Advanced Topics in Computational Complexity**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 531*

Advanced study in the quantitative theory of computation. Time and space complexity of algorithmic problems. The structure of P, NP, PH, PSPACE, and other complexity classes, especially with respect to resource-bounded reducibilities and complete problems. Complexity relative to auxiliary information, including oracle computation and relativized classes, randomized algorithms, advice machines, Boolean circuits. Kolmogorov complexity and randomness. Novel models of computation emerging in a rapidly changing field.

**COM S 633: Advanced Topics in Computational Randomness**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 531*

Advanced study of the role of randomness in computation. Randomized algorithms, derandomization, and probabilistic complexity classes. Kolmogorov complexity, algorithmic information theory, and algorithmic randomness. Applications chosen from cryptography, interactive proof systems, computational learning, lower bound arguments, mathematical logic, and the organization of complex systems. Novel models of computation emerging in a rapidly changing field.

**COM S 634: Theory of Games, Knowledge and Uncertainty**

(3-0) Cr. 3.

*Prereq: COM S 230*

Fundamentals of Game Theory: individual decision making, strategic and extensive games, mixed strategies, backward induction, Nash and other equilibrium concepts. Discussion of Auctions and Bargaining. Repeated, Bayesian and evolutionary games. Interactive Epistemology: reasoning about knowledge in multiagent environment, properties of knowledge, agreements, and common knowledge. Reasoning about and representing uncertainty, probabilities, and beliefs. Uncertainty in multiagent environments. Aspects and applications of game theory, knowledge, and uncertainty in other areas, especially Artificial Intelligence and Economics, will be discussed.

**COM S 641: Advanced Topics in Programming Language Semantics**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 531, COM S 541*

Operational and other mathematical models of programming language semantics. Type systems and their soundness. Applications of semantics on areas such as program correctness, language design or translation.

**COM S 649: Advanced Topics in Computational Biology**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: COM S 511 and COM S 531*

Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

**COM S 652: Advanced Topics in Distributed Operating Systems**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 552*

Concepts and techniques for network and distributed operating systems: communications protocols, processes and threads, name and object management, synchronization, consistency and replications for consistent distributed data, fault tolerance, protection and security, and distributed file systems. Research project.

**COM S 656: Advanced Topics in Verification**

(3-0) Cr. 3.

*Prereq: Graduate standing or permission of instructor*

Advanced formal methods to specify and study correctness and timing properties of complex systems and software, with a particular focus on concurrent and distributed behavior. Topics include: Petri nets and related formalisms to describe discrete-state systems; decision diagram algorithms for state-space and reachability graph generation, symbolic model checking, and timing analysis; Markov models for exact and approximate probabilistic verification.

**COM S 657: Advanced Topics in Computer Graphics**

(3-0) Cr. 3. Repeatable, maximum of 2 times.

*Prereq: COM S 228, I E 557/M E 557/CPR E 557/COM S 557*

Modern lighting models: Rendering Equation, Spherical Harmonics, Lafortune, Cook-Torrance. Non-polygonal primitives: volumes, points, particles. Textures: filtering, reflections creation. Graphics hardware: pipeline, performance issues, programmability in vertex and fragment path. Per-pixel lighting. Nonphotorealistic rendering. Radiosity; Ray tracing.

**COM S 661: Advanced Topics in Database Systems**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 461 or COM S 561*

Advanced topics chosen from the following: database design, data models, query systems, query optimization, incomplete information, logic and databases, multimedia databases; temporal, spatial and belief databases, semistructured data, concurrency control, parallel and distributed databases, information retrieval, data warehouses, wrappers, mediators, and data mining.

**COM S 665: Advanced Topics in Software Engineering**

Cr. 3. Repeatable, maximum of 6 credits. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: COM S 511*

Advanced topics on software repository analysis, data mining and software engineering, software engineering for context-aware and situation-aware computing, distributed development, product lines, safety, security, and reliability, and traceability. Content varies by semester. Maximum 6 credits of COM S 665 may apply toward graduation.

**COM S 665A: Advanced Topics in Software Engineering: Foundations**

Cr. 3. Repeatable, maximum of 6 credits. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: COM S 511*

Advanced topics on theoretical and technical foundations in Software Engineering. Content varies by semester. Maximum 6 credits of COM S 665 may apply toward graduation.

**COM S 665B: Advanced Topics in Software Engineering: Empirical**

Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: COM S 511*

Advanced topics on empirical studies on human factors and other software engineering topics. Content varies by semester. Maximum 6 credits of COM S 665 may apply toward graduation.

**COM S 672: Advanced Topics in Artificial Intelligence**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 472 or COM S 572 or COM S 573 or COM S 474 or COM S 574*

Selected topics in probabilistic graphical models, causal inference, semantic web, information retrieval, natural language processing, knowledge representation and reasoning, deep learning, embedding, distributed learning, incremental learning, multi-task learning, multi-strategy learning, multi-relational learning, modeling the internet and the web, automated scientific discovery, neural and cognitive modeling. Advanced applications of artificial intelligence in bioinformatics, distributed systems, natural language, multimedia data, decision making, robotics, and more.

**COM S 673: Advanced Topics in Machine Learning**

(3-0) Cr. 3. Repeatable.

*Prereq: COM S 472 or COM S 572 or COM S 573 or COM S 474 or COM S 574*

Advanced topics in machine learning. Selected topics in computational learning theory, Bayesian and information theoretic models (ML, MAP, MDL, MML), probabilistic graphical models, statistical relational learning, reinforcement learning, and deep learning.

**COM S 681: Advanced Topics in Computer Architecture**

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* CPR E 581. Repeatable with Instructor permission

Current topics in computer architecture design and implementation.

Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

**COM S 699: Research**

Cr. arr. Repeatable.

*Prereq:* Approval of instructor

Research. Offered on a satisfactory-fail basis only.

## Construction Engineering (CON E)

*Any experimental courses offered by CON E can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

### **CON E 121: Cornerstone Learning Community: Orientation to Academic Life**

(0-2) Cr. 1. F.

Integration of first-year and transfer students into the engineering profession and the Construction Engineering program. Assignments and activities completed both individually and in learning teams involving teamwork, academic preparation, and study skills. Introduction to construction industry professionals. Teamwork topics include interdisciplinary teamwork, skills for academic success, diversity issues and leadership. Introduction to organization of program, department, college, and university. Overview of faculty, staff, policies, procedures and resources.

### **CON E 122: Cornerstone Learning Community: Orientation to Professional Life**

(0-2) Cr. 1. S.

Continuation of Con E 121. Integration of first-year and transfer students into the engineering profession. Career preparation, professional ethics, construction research, leadership. Introduction to construction industry professionals including how they interact with engineers in other disciplines. Continued introduction to program, department, college, and university organization. Overview of faculty, staff, policies, procedures and resources.

### **CON E 222: Contractor Organization and Management of Construction**

(2-2) Cr. 3. F.S.

*Prereq:* Credit or concurrent enrollment in (CHEM 167 or CHEM 177); C E 160; ENGL 150; ENGR 101; LIB 160; MATH 165; MATH 166; PHYS 231; PHYS 231L  
Entry level course for construction engineering: integration of significant engineering and management issues related to construction company operations. Company organization and operations; construction and project administration; construction contracts; project delivery systems; quality management; construction safety; contract and project documents.

### **CON E 241: Construction Materials and Methods**

(2-3) Cr. 3. F.S.

*Prereq:* (CHEM 167 or CHEM 177); C E 160; ENGL 150; ENGR 101; LIB 160; MATH 165; MATH 166; PHYS 231; PHYS 231L

Introduction to materials and methods of building construction and to construction drawings. Foundation, structural framing, floor, roof, and wall systems. Blueprint reading and quantity takeoff techniques.

### **CON E 251: Mechanical/Electrical Materials and Methods**

(0-3) Cr. 1. F.S.

*Prereq:* Credit or concurrent enrollment in CON E 241

Introduction to the materials and methods for mechanical and electrical construction systems and drawings. HVAC, water and waste water, power distribution, lighting, and fire protection. Blueprint reading and quantity takeoff.

### **CON E 322: Construction Equipment and Heavy Construction Methods**

(2-2) Cr. 3. F.

*Prereq:* C E 306 or (CON E 222; CON E 241)

Selection and acquisition of construction equipment. Application of engineering fundamentals and economics to performance characteristics and production of equipment. Heavy construction methods and economic applications.

### **CON E 340: Concrete and Steel Construction**

(2-2) Cr. 3. F.S.

*Prereq:* (C E 306 or CON E 222); E M 324

Planning and field engineering for concrete and steel construction. Design and applications of concrete formwork to construction. Erection of structural steel. Emerging industry themes.

### **CON E 352: Mechanical Systems in Buildings**

(2-2) Cr. 3. F.S.

*Prereq:* (CON E 222; CON E 251; PHYS 232; PHYS 232L) or Permission of Instructor

Comprehensive coverage of mechanical systems, plumbing, fire protection. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.

**CON E 353: Electrical Systems in Buildings**

(2-2) Cr. 3. F.S.

*Prereq:* ([Credit or concurrent enrollment in CON E 352]; PHYS 232; PHYS 232L) or *Permission of Instructor*

Comprehensive coverage of building electrical systems including power, lighting, fire alarm, security and communications. Analysis techniques and design principles for each system. Required comprehensive design project for a major building project.

**CON E 354: Building Energy Performance**

Cr. 3. F.

*Prereq:* CON E 352 or *Permission of Instructor*

Energy performance of buildings, building shells, HVAC, electrical and other building systems. Analysis and evaluation of building performance, energy efficiency, environmental quality, first costs, and operating costs. Strategies to exceed energy code requirements through the ASHRAE Standard 90.1.

**CON E 380: Engineering Law**

(3-0) Cr. 3. F.S.

*Prereq:* Junior classification

Introduction to law and judicial procedure as they relate to the practicing engineer. Contracts, professional liability, professional ethics, licensing, bidding procedures, intellectual property, products liability, risk analysis. Emphasis on development of critical thinking process, abstract problem analysis and evaluation.

**CON E 381: Bidding Construction Projects I**

(0-3) Cr. 1.

*Prereq:* *Permission of Instructor*

Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

**CON E 381A: Bidding Construction Projects I: Heavy and Highway**

(1-0) Cr. 1. F.

*Prereq:* *Permission of Instructor*

Team development of construction process designs and cost estimates for transportation construction projects under closely simulated conditions. Examine project sites, consult with construction industry mentors, obtain subcontractor and supplier quotations, and submit bids.

**CON E 422: Construction Cost Estimating and Cost Engineering**

(2-2) Cr. 3. F.S.

*Prereq:* CON E 241; CON E 251

Conceptual and detailed cost estimating. Theory and practice of estimating construction costs of materials, labor, equipment, contingency, overhead and markup. Estimating competencies and bid ethics. Electronic quantity take off and pricing methods. Assemblies costs, unit costs, production rates. Analysis of project profitability, cost analysis and cost control methods. Value engineering. Life cycle cost analysis.

**CON E 441: Construction Planning, Scheduling, and Control**

(2-2) Cr. 3. F.S.

*Prereq:* Credit or concurrent enrollment in CON E 422

Integration of previous construction coursework into the planning, scheduling, and management of time, costs, and other resources. Emphasis on preparation and analysis of network schedules. Comprehensive planning and scheduling project. Computer project management applications.

**CON E 481: Bidding Construction Projects II**

(0-3) Cr. 1.

*Prereq:* *Permission of Instructor*

Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

**CON E 481A: Bidding Construction Projects II: Heavy and Highway**

(1-0) Cr. 1. F.

*Prereq:* *Permission of Instructor*

Similar to Con E 381, except students with previous experience attempt projects with larger scope or lead students with less experience.

**CON E 487: Construction Engineering Design I**

(2-2) Cr. 3. F.S.

*Prereq:* CON E 340; CON E 352; CON E 353; CON E 422; CON E 441; Senior classification

The integrated delivery of project services as a team, including preliminary engineering design process, constructability review, interaction with the client, identification of engineering problems, developments of a proposal, identification of design criteria, cost estimating, planning and scheduling, application of codes and standards, development of feasible alternatives, selection of best alternative, and delivery of oral presentations.

**CON E 488: Construction Engineering Design II**

(1-5) Cr. 3. F.S.

*Prereq:* CON E 340; CON E 352; CON E 353; CON E 422; CON E 441; *final graduating semester*

Application of team design concepts to a construction engineering project. Project planning. Advanced construction and project management.

**CON E 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* *Permission of Instructor*

Individual study in any phase of construction engineering. Pre-enrollment contract required.

## Criminal Justice (C J)

*Any experimental courses offered by C J can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistings/](http://registrar.iastate.edu/faculty-staff/courses/explistings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistings/>)

**Courses primarily for undergraduates:**

**C J 120: The Criminal Justice League Learning Community Seminar**

(1-0) Cr. 1. F.

Orientation to academic program requirements, career awareness, strategies for successful transition to college. Topics include: University and LAS College requirements and procedures; occupational tracks and career options open to criminal justice; and introduction to career planning. Offered on a satisfactory-fail basis only.

**C J 121: The Criminal Justice League Learning Community Seminar II**

(1-0) Cr. 1. S.

Foundations for student success in the criminal justice major. Students will examine current issues in crime and criminal justice and build career awareness and planning skills through guest speakers and field trips. Offered on a satisfactory-fail basis only.

**C J 220: Introduction to Forensic Science**

(Cross-listed with ENT). (3-0) Cr. 3. S.

Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

**C J 240: Introduction to the U.S. Criminal Justice System**

(3-0) Cr. 3. F.

Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

**C J 241: Youth and Crime**

(Cross-listed with SOC). (3-0) Cr. 3. F.

An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

**C J 242: Criminology**

(3-0) Cr. 3. F.

*Prereq:* C J 240

The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

**C J 320: American Judicial Process**

(Cross-listed with POL S). (3-0) Cr. 3. S.

An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

**C J 325: Religion, Law, and Justice**

(Cross-listed with POL S, RELIG). (3-0) Cr. 3. F.

A study of the role of religion in law and justice with a focus on the United States. Examines the history of religious freedom, key contemporary legal cases, and how religious-oriented justice movements engage ethics and the law.

**C J 332: Philosophy of Law**

(Cross-listed with PHIL). (3-0) Cr. 3. F.S.

*Prereq:* 3 credits in PHIL or *Permission of Instructor*

Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility.

**C J 335: Race, Ethnicity, and the US Criminal Justice System**

(Cross-listed with AF AM). Cr. 3.

*Prereq: AF AM 201 or C J 240*

Empirical and theoretical readings on the intersection of race, ethnicity, crime, and the criminal justice system in contemporary society. Topics include, but are not limited to racial and ethnic relations in society, media, violence, policing, and disparity and discrimination in crime and punishment. Criminological theories of racial and ethnic antagonism.

**C J 339: Liberty and Law in America**

(Cross-listed with PHIL, POL S). (3-0) Cr. 3. F.S.

Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex.

**C J 340: Deviant and Criminal Behavior**

(Cross-listed with SOC). (3-0) Cr. 3. S.SS.

*Prereq: C J 240 or SOC 134*

Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

**C J 351: Police and Society**

(3-0) Cr. 3. F.S.

*Prereq: C J 240 or C J 241 or SOC 241*

Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

**C J 352: Punishment, Corrections, and Society**

(3-0) Cr. 3. F.S.

*Prereq: C J 240 or C J 241 or SOC 241*

Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

**C J 354: Prevention of Crime and Delinquency**

(3-0) Cr. 3. S.

*Prereq: C J 240*

Introduction to various efforts to prevent crime and juvenile delinquency, as well as the reduction of specific risk factors for both. Theories that provide the baseline for various approaches to prevention, as well as the development, operation and effectiveness of prevention efforts centered in various social institutions such as the family, schools, neighborhoods/communities, religion and the media. Examine programs originating from within the traditional criminal justice institutions of the police, courts, and correctional systems.

**C J 360: Latinas and Victimization**

(Cross-listed with US LS). (3-0) Cr. 3.

Intersections of race/ethnicity, class, gender, culture, acculturation, and immigration/migration in the victimization experiences of Latina women interacting with criminal justice systems and services. Topics include: domestic/intimate partner violence, sexual assault, human trafficking among Hispanic, Latina, and Chicana women, and the impact of language barriers, abuser threats of deportation, social and institutional discrimination and racism, cultural norms, and cultural insensitivity among first responders and service providers on help-seeking, well-being, and interactions with the criminal justice system.

**C J 402: White-Collar Crime**

(3-0) Cr. 3. S.

*Prereq: C J 240 or C J 241 or SOC 241*

Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

**C J 403: Criminal Offenders**

(3-0) Cr. 3. F.S.

*Prereq: C J 240 or C J 241*

Introduction and overview of criminal offenders. Theory and research on epidemiology, offender typologies, etiology of violence, recidivism, societal costs, correctional supervision, treatment, and prevention of serious antisocial behavior.

**C J 404: Criminal Justice Policies**

Cr. 3. S.

*Prereq: C J 240*

Development, implementation and evaluation of criminal justice policies affecting major areas of the criminal justice system. History, development and operation of the criminal justice system, including policing, courts/sentencing, corrections, crime prevention, and offender rehabilitation.

### **C J 405: Drugs and Crime**

Cr. 3. Alt. F., offered irregularly.S.

*Prereq: C J 240*

Analysis of the drug problem, including issues arising from the use and abuse of legal and illegal drugs and their relation to crime and the criminal justice system. Examination of issues related to effective prevention and treatment, crime, and the debates over the most effective policies for the control or prevention of drug abuse.

### **C J 406: Gender and Crime**

Cr. 3.

*Prereq: C J 240*

Overview of the relationship between gender and crime. Examination of gender and gender roles definitions; how gender impacts criminal behavior in terms of offending, victimization, criminal justice processing, and working in the criminal justice system; and theories used to understand the gender gap in offending.

### **C J 410: Capital Punishment**

(3-0) Cr. 3.

*Prereq: C J 240*

History, philosophy, demographics, administration, and punishment rationales of capital punishment in the United States from its founding to the present. Methods of execution and trends in public opinion about the death penalty. Examination of correlates of capital offending and criminological characteristics of persons who are sentenced to death.

### **C J 451: Contemporary Issues in Policing**

(3-0) Cr. 3. F.

*Prereq: C J 351; Criminal Justice major*

Introduction to contemporary issues in policing in the United States. Topics include: the media/law enforcement relationship, cultural competence for police, use of technology, and career foundations for hiring and advancement. Scenario-based learning in individual and group settings will help students to grasp the challenges next generation leaders will face in policing.

### **C J 460: Criminal and Juvenile Justice Internship**

(Cross-listed with SOC). Cr. 3-9. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Junior or Senior classification; major or minor in Criminal Justice or Sociology*

Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor's office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Assessed service learning component. Offered on a satisfactory-fail basis only. No more than a total of 9 credits of 460 can be counted toward graduation.

### **C J 470: Ethical Issues in Criminal Justice**

(3-0) Cr. 3. S.

Ethical issues and considerations in policing, the practice of law, sentencing, corrections, criminal justice research, and crime control policy. Decision-making by criminal justice professionals in an environment of competing interest. Policy and legal issues confronting the American criminal justice system from an ethical perspective. Emphasis on moral and ethical issues in the criminal justice process.

### **C J 484: Topical Studies in Criminal and Juvenile Justice**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in C J or Permission of Instructor*

Thematic or topical issues and studies dealing with the sociology of police, judiciary, institutional and community-based corrections, gender/ethnicity and crime/delinquency, criminal and delinquent gangs, and crime and delinquency prevention.

**Courses primarily for graduate students, open to qualified undergraduates:**

### **C J 584: Current Issues in Crime and Justice**

(Cross-listed with SOC). (3-0) Cr. 3. Repeatable, maximum of 3 credits. Alt. F., offered odd-numbered years.

*Prereq: 6 credits in sociology*

Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system.

## **Cyber Security (CYBSC)**

**Courses primarily for undergraduates:**

### **CYBSC 131: Introduction to Computer Security Literacy**

(Cross-listed with CPR E). (1-0) Cr. 1.

Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

### **CYBSC 332: Cyber Defense Competition**

(Cross-listed with CPR E). (0-2) Cr. 1. Repeatable. S.

Participation in cyber defense competition driven by scenario-based network design. Includes computer system setup, risk assessment and implementation of security systems, as well as defense of computer and network systems against trained attackers. Team based. Offered on a satisfactory-fail basis only.

**CYBSC 430: Network Protocols and Security**

(Dual-listed with CYBSC 530). (Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 308 OR COM S 252 OR COM S 352. E E students: CPR E 288.*

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

**Courses primarily for graduate students, open to qualified undergraduates:**

**CYBSC 530: Network Protocols and Security**

(Dual-listed with CYBSC 430). (Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 308 OR COM S 252 OR COM S 352. E E students: CPR E 288.*

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

**CYBSC 531: Information System Security**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530 or COM S 586 or MIS 535*

Computer, software, and data security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

**CYBSC 532: Information Warfare**

(Cross-listed with CPR E). (3-0) Cr. 3. S.

*Prereq: CPR E 430 or 530*

Computer system and network security: implementation, configuration, testing of security software and hardware, network monitoring. Authentication, firewalls, vulnerabilities, exploits, countermeasures. Study and use of attack tools. Ethics in cyber security. Emphasis on laboratory experiments.

**CYBSC 533: Cryptography**

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.

*Prereq: MATH 301 or CPR E 310 or COM S 230*

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

**CYBSC 534: Legal and Ethical Issues in Cyber Security**

(Cross-listed with CPR E, POL S). (3-0) Cr. 3. S.

*Prereq: Graduate classification; CPR E 531 or CYBSC 531*

Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

**CYBSC 535: Steganography and Digital Image Forensics**

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.

*Prereq: E E 524 or MATH 317 or MATH 407 or COM S 230*

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

**CYBSC 536: Computer and Network Forensics**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

**CYBSC 538: Reverse Engineering and Security Testing**

(Cross-listed with CPR E). (2-3) Cr. 3. S.

*Prereq: COM S 321 or CPR E 381, COM S 352 or CPR E 308*

Techniques and tools for understanding the behavior of software/hardware systems based on reverse engineering. Flaw hypothesis, black, grey, and white box testing as well as other methods for testing the security of software systems. Discussion of counter-reverse engineering techniques.

**CYBSC 560: Data-Driven Security and Privacy**

(Cross-listed with COM S, CPR E). Cr. 3. Alt. S., offered irregularly.

*Prereq: CPR E 531; COM S 474 or COM S 573*

Examination of applications of machine learning and big data techniques to various security and privacy problems, as well as secure and privacy-preserving machine learning algorithms.

**CYBSC 592: Seminar in Cyber Security**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Projects or seminar in Cyber Security.

**Courses for graduate students:**

**CYBSC 631: Cyber Security Operations Practicum**

(Cross-listed with CPR E). Cr. 3. Repeatable.

*Prereq: CPR E 532; CPR E 534; and permission of instructor*

Practical experience in cyber operations. Cyber security threat analysis, malware analysis, and intrusion detection management. Cyber security data analysis methods. Pen testing tools and techniques. Weekly threat analysis briefings. Offered on a satisfactory-fail basis only.

**CYBSC 632: Cyber Security Capstone Design**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CYBSC 531, CYBSC 532, CYBSC 534*

Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attack each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report.

**CYBSC 634: Current Research Problems in Cyber Security**

(3-0) Cr. 3. Repeatable. F.S.

*Prereq: CPR E 530, CPR E 531, permission of instructor.*

Discussion of complex cyber security problems. Students will learn how to apply research techniques, think clearly about these issues, formulate and analyze potential solutions, and communicate their results. Working in small groups under the mentorship of technical clients from government and industry, each student will formulate, carry out, and present original research on complex current cybersecurity problems of interest to the nation. This course will be run in a synchronized distance fashion, coordinating some activities with our partner schools and our technical clients.

**CYBSC 697: Cyber Security Summer Internship**

Cr. R.

*Prereq: Permission of department, graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

## Cyber Security Engineering (CYB E)

**Courses primarily for undergraduates:****CYB E 230: Cyber Security Fundamentals**

(Cross-listed with CPR E). (2-2) Cr. 3. F.

*Prereq: COM S 227 or E E 285 or MIS 207.*

Introduction to computer and network infrastructures used to support cyber security. Basic concepts of computer and network configuration used to secure environments. Computer virtualization, network routing and address translation, computer installation and configuration, network monitoring, in a virtual environment. Laboratory experiments and exercises including secure computer and network configuration and management.

**CYB E 231: Cyber Security Concepts and Tools**

(Cross-listed with CPR E). (2-2) Cr. 3. S.

*Prereq: CPR E 230 or CYB E 230*

Basic concepts of practical computer and Internet security and the tools used to protect and attack systems and networks. Computer and network security methods including: user authentication, access control, firewalls, intrusion detection, use of vulnerability assessment tools and methods, and penetration testing. Ethics and legal issues in cyber security will also be covered. Laboratory experiments and exercises including evaluating systems for vulnerabilities, understanding potential exploits of the systems, and defenses for the systems.

**CYB E 234: Legal, Professional, and Ethical Issues in Cyber Systems**

(Cross-listed with CPR E). (3-0) Cr. 3. S.

*Prereq: COM S 227, or E E 285, or MIS 207*

Emphasizes legal, ethical, and professional issues in cyber systems. Other topics include privacy, government regulation, and compliance as applied to professional practice. Guest lecturer from government and industry, as well as discussions including current legal and ethical issues found in the main stream.

**CYB E 331: Application of Cryptographic Concepts to Cyber Security**

(Cross-listed with CPR E). Cr. 3. F.S.

*Prereq: CPR E 231 or CYB E 231*

Basic cryptographic underpinnings used in modern cyber security encryption suites. Encryption benefits to cyber security and its use in protocols. Topics include cryptographically secure hash functions and pseudorandom numbers, key distribution techniques, secure authentication including single sign on. Detection and prevention of security threats such as covert communication, malicious code, and other security threats in protocols are included. In addition to laboratory experiments and exercises, students complete a project focused on cyber security problem and solution. Only one of CPR E/CYB E 331 and CPR E 431 may count towards graduation.

**CYB E 440: Operating System Security**

(Cross-listed with CPR E). (3-0) Cr. 3. S.

*Prereq: CPR E 308 OR COM S 352.*

Focus on fundamentals and advanced topics in operating system (OS) security. Design issues, principles, mechanisms, and good practice for design and implementation of secure computer/OS systems. Threat models, vulnerabilities, attacks compromise security, and advanced OS-level techniques for achieving security. Topics include OS security concepts and principles, seminal security in Multics, vulnerabilities in ordinary systems, secure capability systems, information flow control, mandatory access control, security kernels, memory protection, file system, virtual machine systems, hardware/architecture support (e.g., Intel SGX) for OS security, secure microkernel OSes (e.g., seL4, QNX), modern mobile operating systems (e.g., Android and iOS), and security from end-user perspective. Assignments include labs exploring and implementing the technologies in the context of the Linux, Android, and seL4 systems (some involving kernel programming).

## Dance (DANCE)

***Any experimental courses offered by DANCE can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistings/](http://registrar.iastate.edu/faculty-staff/courses/explistings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistings/>)

**Courses primarily for undergraduates:**

**DANCE 120: Modern Dance I**

(0-3) Cr. 1. F.S.

Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

**DANCE 130: Ballet I**

(0-3) Cr. 1. F.S.

Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

**DANCE 140: Jazz I**

(0-3) Cr. 1. F.S.

Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

**DANCE 150: Tap Dance I**

(0-3) Cr. 1. F.

Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

**DANCE 160: Ballroom Dance I**

(0-2) Cr. 1. F.S.

Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

**DANCE 199: Dance Continuum**

Cr. 0.5-2. Repeatable, maximum of 6 credits. S.

*Prereq: Permission of Instructor*

Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

**DANCE 211: Fundamentals and Methods of Social and World Dance**

(1-3) Cr. 1. S.

*Prereq: Physical Education Teacher Education Specialization*

Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

**DANCE 220: Modern Dance Composition**

(1-3) Cr. 2. F.

*Prereq: DANCE 120 or Permission of Instructor*

Theory and practice of the creative skills involved in solo and small group composition.

**DANCE 222: Modern Dance II**

(0-3) Cr. 1. F.

*Prereq: DANCE 120 or Permission of Instructor*

Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

**DANCE 223: Modern Dance III**

(0-3) Cr. 1. S.

*Prereq: DANCE 222*

Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

**DANCE 224: Concert and Theatre Dance**

(Cross-listed with THTRE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S.

*Prereq: Permission of Instructor*

Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

**DANCE 232: Ballet II**

(0-3) Cr. 1. S.

*Prereq: Permission of Instructor*

Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

**DANCE 233: Ballet III**

(0-3) Cr. 1. F.

*Prereq: DANCE 232*

Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

**DANCE 242: Jazz II**

(0-3) Cr. 1. S.

*Prereq: Permission of Instructor*

Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

**DANCE 250: Yoga Movement**

(0-2) Cr. 1. Repeatable. F.S.

Mixed-level Hatha Yoga class that emphasizes Iyengar style yoga. Yoga Movement is designed for developing awareness and personal practice with yoga poses and relaxation techniques. Attention will be paid to postural alignment to safely develop strength, endurance, flexibility, balance, and reduce stress. The practice develops awareness and consciousness in the physical body to help unite body and mind. Class will include introduction to other somatic practices, asanas (poses), breathing practices, meditation, yoga philosophy and deep relaxation.

**DANCE 270: Dance Appreciation**

(3-0) Cr. 3. F.S.

Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required. Meets International Perspectives Requirement.

**DANCE 320: Sound and Movement**

(2-2) Cr. 3. S.

*Prereq: DANCE 220*

Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

**DANCE 360: History and Philosophy of Dance**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: DANCE 270*

Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

**DANCE 370: Advanced Studies in Dance**

Cr. 1-3. Repeatable, maximum of 8 credits. F.S.

*Prereq: 2 credits in DANCE*

Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.

**DANCE 384: Teaching Children's Dance**

(1-3) Cr. 2. S.

Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

**DANCE 385: Methods of Teaching Dance**

(1-3) Cr. 2. F.

Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

**DANCE 386: Teaching Dance Technique and Composition**

(1-3) Cr. 2.

*Prereq: DANCE 320*

Teaching yoga, body therapies, mindfulness and dance composition to enhance the physical and mental performance of the individual.

**DANCE 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

Independent study of problems or areas of interest in dance.

**DANCE 490A: Independent Study: Dance**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

*Prereq: Permission of Instructor*

Independent study of problems or areas of interest in dance.

**DANCE 490H: Independent Study in Dance - Honors**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

*Prereq: Permission of Instructor*

Independent study of problems or areas of interest in dance for those admitted to the honors program.

## Data Science (DS)

***Any experimental courses offered by DS can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**DS 110: Orientation to Data Science**

Cr. R. F.

Introduction to the procedures and policies of Iowa State University and the Data Science program, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

**DS 201: Introduction to Data Science**

Cr. 3. F.S.Alt. SS., offered irregularly.

*Prereq: Placement into MATH 143*

Data Science concepts and their applications; domain case studies with applications in various fields; overview of data analysis; major components of data analysis pipelines; computing concepts for data science; descriptive data analysis; hands-on data analysis experience; communicating findings to stakeholders, and ethical issues in data science. Placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>.

**DS 202: Data Acquisition and Exploratory Data Analysis**

Cr. 3. F.S.

*Prereq: DS 201*

Data acquisition: file structures, web-scraping, database access; ethical aspects of data acquisition; types of data displays; numerical and visual summaries of data; pipelines for data analysis: filtering, transformation, aggregation, visualization and (simple) modeling; good practices of displaying data; data exploration cycle; graphics as tools of data exploration; strategies and techniques for data visualizations; basics of reproducibility and repeatability; web-based interactive applets for visual presentation of data and results. Programming exercises.

**DS 301: Applied Data Modeling and Predictive Analysis**

Cr. 3. F.S.

*Prereq: DS 202; 1 course from the following: STAT 101, STAT 104, STAT 105, STAT 201, STAT 226, STAT 231, STAT 305, STAT 322, STAT 330*

Elements of predictive analysis such as training and test sets; feature extraction; survey of algorithmic machine learning techniques, e.g. decision trees, Naïve Bayes, and random forests; survey of data modeling techniques, e.g. linear model and regression analysis; assessment and diagnostics: overfitting, error rates, residual analysis, model assumptions checking; communicating findings to stakeholders in written, oral, verbal and electronic form, and ethical issues in data science. Participation in a multi-disciplinary team project.

**DS 303: Concepts and Applications of Machine Learning**

Cr. 3. F.

*Prereq: DS 202; MATH 207; MATH 265; STAT 301*

Machine learning concepts such as training and test sets; feature extraction; principles of machine learning techniques; regression; pattern recognition methods; unsupervised learning techniques; assessment and diagnostics: overfitting, error rates, residual analysis, model assumptions checking, feature selection; ethical issues in data science; communicating findings to stakeholders in written, oral, visual and electronic form.

**DS 401: Data Science Capstone**

Cr. 3. Alt. F., offered irregularly.Alt. S., offered irregularly.

*Prereq: DS 301 or DS 303*

Students work as individuals and teams to complete the planning, design, and implementation of a significant multi-disciplinary project in data science. Oral and written reports.

## Design (DES)

***Any experimental courses offered by DES can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistings/](http://registrar.iastate.edu/faculty-staff/courses/explistings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistings/>)

**Courses primarily for undergraduates:****DES 150: Introduction to Innovation and Design**

(3-0) Cr. 3.

Introduction to the concept of human-centered design and its crucial role for innovation, including fundamental concepts that explain the creative process. Builds an understanding of the innovation journey, through design tools and techniques for ideation, data collection, and insights forecasting.

**DES 230: Design Thinking**

(3-0) Cr. 3.

Introduction to design thinking processes, toolkits, and mindsets, and its interaction with art, design, and technology. Emphasis on interdisciplinary practices.

**DES 240: Design Innovation Studio**

(0-6) Cr. 3.

First project-based studio focused on creative problem solving, idea generation, and design principles. Analogue and digital fabrication of mock-ups and sketch models. All majors are encouraged to enroll; no previous design studio training required.

**DES 250: Design Intersections**

(3-0) Cr. 3.

Cross disciplinary themes and issues relevant to interdisciplinary design, innovation, and entrepreneurship, such as design activism and agency, design for social change, civic innovation, and creative leadership.

**DES 330: Visual Literacy for Design Critique**

(3-0) Cr. 3. S.

Interpret, analyze, and evaluate visual materials, use images and text effectively to communicate ideas, and understand issues surrounding the creation and use of images and visual media for design critique. Precedent study and critique of sample student design work to understand principles of visual literacy and how to apply them to the presentation of design work. Emphasis on peer-to-peer discussion and in-class participation. Lecture and discussion format.

**DES 340: Design Entrepreneurship Studio**

(0-6) Cr. 3.

*Prereq: DES 240 or 3 credits of 200-level or above studio in a College of Design major, or*

Second project-based studio focused on addressing complex challenges and contemporary societal problems using key entrepreneurship concepts to evaluate design prototypes and minimum viable products. Application of user insights and customer data in design iteration. Expert guest speakers from business and industry to talk about design innovation. Students in all majors encouraged to enroll.

**DES 491: Portfolio and Professional Preparation**

(1-4) Cr. 3.

Discussion of interdisciplinary design practices and career planning. Guidance for interviewing, professional networking, business etiquette, and resume writing. Workshops and lectures.

**DES 495: Design Innovation Launchpad**

(0-12) Cr. 6.

*Prereq: DES 340 or 3 credits of 300-level or above studio in a College of Design major, or permission of instructor*

Third project-based studio as applied design lab for a career, enterprise, business, social movement, or campaign. Launching and creating project start-ups in four areas: design research, design management, design leadership, and design entrepreneurship. Advanced practice of design skills, project planning, and new product development.

## Design Studies (DSN S)

**Any experimental courses offered by DSN S can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**DSN S 102: Design Studio I**

(1-6) Cr. 4.

A foundation design studio exploring two and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Creative processes, visual order, materials, and critical thinking are investigated through studio projects. Lectures and discussions cover the topics introduced in studios.

**DSN S 110: Design Exchange Seminar I**

(0-2) Cr. 1. F.

*Prereq: Member of Design Exchange Learning Community*

Orientation to the College of Design. Introduction to the design disciplines and studio pedagogy.

**DSN S 111: Design Exchange Seminar II**

(0-2) Cr. 1. S.

*Prereq: Member of the Design Exchange Learning Community, DSN S 110*

Development and clarification of career and academic plans.

**DSN S 115: Design Collaborative Seminar**

(1-0) Cr. 1.

*Prereq: Member of Design Collaborative Learning Community*

Orientation to the College of Design. Introduction to the design disciplines and studio pedagogy.

**DSN S 131: Drawing I**

(1-6) Cr. 4.

An introduction to methods of visual thinking and drawing through studio experiences and lectures. All design fields utilize visual communication and drawing. Focus on the use of drawing as a method for creative problem solving, design development and visual communication. Explore, from observation and imagination, the use of fast sketching and in-depth drawing, using various scales, mediums and processes.

**DSN S 132: Digital Design Literacy**

Cr. 1. F.S.

*Prereq: Admittance to Core Design Program*

Introduction to cross-disciplinary concepts on digital literacy. Covers basic computer fundamentals, addresses file and image handling, illustrates the basic principles of documentation, demonstrates how to effectively present your work, and introduces the basic software necessary for design disciplines.

**DSN S 145: Diversity in Art**

Cr. 1. Repeatable, maximum of 3 credits. S.

Discussion on issues of diversity and inclusion utilizing the Art on Campus and University's Permanent Collection. Topics include ethnic heritage, family background, religious traditions, and interpersonal relationships, with a significant focus on instilling visual analysis skills.

**DSN S 183: Design in Context**

(3-0) Cr. 3.

Explores designed media, objects, places, spaces, structures, and systems as products of varied and often intersecting contexts. Using historical and contemporary case studies, investigates how cultural, economic, environmental, spatial, social, and temporal contexts, among others, affect design. Explores in particular how design addresses complex and multifaceted problems.

**DSN S 232: Digital Design Communications**

(3-0) Cr. 3.

Introductory investigations of various digital design media to develop multi-dimensional problem solving, digital communication skills and perceptual sensitivity. Open to all university majors.

**DSN S 301: Study Abroad Preparation Seminar**

(1-0) Cr. 1. Repeatable.

Cultural introduction to host country, introduction to faculty sponsor and program of study, the particulars of traveling and living abroad, and financial and logistical preparations. Guest lectures. Required of all students planning to participate in a College of Design study abroad program for 9 or more credits. Offered on a satisfactory-fail basis only.

**DSN S 302: Design Leadership Seminar**

(1-2) Cr. 2. Repeatable, maximum of 4 credits.

*Prereq: Permission of Instructor*

For students serving as peer mentors for the Core Design Program, under faculty supervision. Development of teaching and leadership skills within the context of design education experiences. Offered on a satisfactory-fail basis only.

**DSN S 303: Design Ambassadors**

(1-2) Cr. 1-2. Repeatable, maximum of 4 credits.

*Prereq: Permission of Instructor*

Opportunity to strengthen leadership, communication and presentation skills. Introduction to student development theory. Students participate in collaborative projects focused on prospective design students. Offered on a satisfactory-fail basis only.

**DSN S 304: Global Challenges: Intro to UN Sustainable Development Goals**

(3-0) Cr. 3.

The United Nations Sustainable Development Goals — also known as the SDGs or the Global Goals — cover a wide range of sustainability issues; highlighting local, national and international priority areas to end poverty and hunger, improve health and education, make cities more sustainable and combat climate change. Students are empowered & challenged to become self-directed as they explore each issue individually and collectively from a personal, academic, and professional perspective. Meets International Perspectives Requirement.

**DSN S 310: Practical Experience**

Cr. R.

*Prereq: Permission of Instructor*

Independent educational enrichment through practical experience. Students must register for this course prior to commencing each term. Available only to students taking course loads of eleven credits or less. Offered on a satisfactory-fail basis only.

**DSN S 332: Multi-Dimensional Digital Design Communication**

(3-0) Cr. 3.

*Prereq: ARCH 230, ARTGR 275, ARTIS 212, DSN S 232, or IND D 240.*

Investigations of interoperable digital-design tools, techniques and methods directed at human scale interactive hybrid design from ideation to visualization, synthesis to analysis, and realization to fabrication.

**DSN S 333: Time-Based Digital Media**

(3-0) Cr. 3. S.

*Prereq: ARCH 230, ARTGR 275, ARTIS 212, DSN S 232, or IND D 240.*

Introduction to various time-based digital media tools to develop basic skills including sequencing, storytelling, animation, sound editing, and video production.

**DSN S 340: Design Entrepreneurship**

(3-0) Cr. 3.

Focus on the interconnection between entrepreneurial thinking and applied design practices of innovation. Explores several business management tools, models and frameworks, relating it to the development of design projects. Critical areas for successful growth, open innovation, and entrepreneurial mindset. Designer entrepreneurs are more attuned to the social and meaningful values of their creations, than economic growth for an industrial venture. Social impact, inclusive responsibility, future foresight and change mindset are the key motors of their dive into innovation and creative problem-solving. By developing an attitude towards risk-taking, initiative, uncertainty and creative leaps, the course is substantiated by strategy planning and leadership skill sets that allow students to turn their innovative ideas and conceptual solutions into products (or services or experiences), and to distribute them in a viable market and/or a business venture.

**DSN S 445: Public Art/Public Space**

(3-0) Cr. 3.

*Prereq: Junior classification*

Exploration of the history, precedents, and practice of public art and public space with a focus on developments since 1970 in the United States and abroad. Course includes development of a proposal for a site specific work of art.

**DSN S 446: Interdisciplinary Design Studio**

(0-12) Cr. 4-6. Repeatable, maximum of 18 credits.

*Prereq: Permission of instructor*

Advanced interdisciplinary design projects.

**DSN S 446H: Interdisciplinary Design Studio: Honors**

(0-12) Cr. 5-7. Repeatable, maximum of 18 credits.

*Prereq: Permission of instructor.*

Advanced interdisciplinary design projects.

**DSN S 478D: Landscape Architecture: History/Theory/Criticism**

(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 478E: Landscape Architecture: Landscape Planning**

(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 478G: Landscape Architecture: Graphics**

(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 478I: Landscape Architecture: Interdisciplinary Studies**

(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 478J: Landscape Architecture: International Studies**

(Cross-listed with L A). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 478K: Computer Applications**

(Dual-listed with DSN S 578). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 371 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 490: Independent Study**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490A: Independent Study: History**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490B: Independent Study: Technology**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490C: Independent Study: Communications**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490D: Independent Study: Design**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490E: Independent Study: Entrepreneurship**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490F: Independent Study: Social/Behavioral**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490G: Independent Study: Outreach**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment.*

Independent investigation of a topic of special interest to the student.

**DSN S 490H: Independent Study: Honors**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

**DSN S 490I: Independent Study: Sustainability**

Cr. 1-4. Repeatable, maximum of 9 credits.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment.*

Independent investigation of a topic of special interest to the student.

Offered on a satisfactory-fail basis only.

**DSN S 492: Introduction to Italian Culture**

(1-0) Cr. 1. Repeatable, maximum of 3 credits.

*Prereq: Enrollment in the College of Design Rome Study Abroad Program*

Introduction to Italian contemporary culture for design students, including food, religion, fashion, politics, media, and social mores.

**Courses primarily for graduate students, open to qualified undergraduates:**

**DSN S 501: Introduction to Research Design**

(3-0) Cr. 3. F.

*Prereq: Admission into a graduate program or senior standing.*

Introduction to research design and methodology in social science research. Essential knowledge and skills required to frame and conduct research independently. Emphasizes various aspects of research design including: foundations of research; understanding research -related concepts; research ethics; developing research questions; reviewing literature and theory; critiquing and evaluating research studies; exploring data collection and analysis; writing research proposal and presenting findings to a diverse audience.

**DSN S 546: Interdisciplinary Design Studio**

(0-12) Cr. 4-6. Repeatable, maximum of 18 credits.

*Prereq: Graduate or senior standing in the College of Design and permission of instructor*

Advanced interdisciplinary design projects.

**DSN S 578: Topical Studies in Landscape Architecture**

(Dual-listed with DSN S 478). (3-0) Cr. 2-3. Repeatable. F.S.SS.

*Prereq: Senior Classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 578C: Construction**

(Dual-listed with DSN S 478). (3-0) Cr. 2-3. Repeatable. F.S.SS.

*Prereq: Senior Classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 578H: Landscape Architecture: Honors**

Cr. 2-3. Repeatable. F.S.SS.

*Prereq: Senior classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**DSN S 585: Renaissance Art**

(3-0) Cr. 3.

*Prereq: Graduate classification and permission of instructor*

European art including painting, sculpture, architecture, and crafts; thirteenth through sixteenth centuries.

**DSN S 590: Special Topics**

Cr. 1-4. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form prior to semester of enrollment*

Independent investigation of a topic of special interest to the student.

## Dietetics (DIET)

***Any experimental courses offered by DIET can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**DIET 511: Research Methods**

(3-0) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. Only one of DIET 511 or FCEDS 511 may count toward graduation.

**DIET 512: Nutritional Epidemiology**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Important issues related to designing, conducting, and interpreting research on the role of diet or physical activity in the development of disease (& health) in human populations.

**DIET 526: Obesity Across the Lifespan**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Exploration of the affects that obesity has on public health, the healthcare system, and society in general. Overview of strategies to prevent obesity across the lifespan.

**DIET 530: Nutrition and Wellness**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition.

**DIET 531: Nutrition Therapy for Eating Disorders**

(3-0) Cr. 3. Repeatable. F.

*Prereq: Enrollment in MFCS-Dietetics and a course in medical nutrition therapy or consent of instructor.*

An online study of eating disorders management and nutrition care. Topics include eating disorders medical complications, clinical care guidelines, basic pharmacology, clinical nutrition education, nutrition care planning, psychology of eating disorders, team collaboration, and therapeutic modalities for nutrition counseling.

**DIET 532: Maternal and Child Nutrition**

(3-0) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence.

**DIET 534: Nutrition Education in the Community**

Cr. 3. S.

*Prereq: Enrollment in GPIDEA MFCS in Dietetics*

Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education.

**DIET 538: Nutrition: A Focus on Life Stages**

(3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated.

**DIET 540: Nutrition and Physical Activity in Aging**

(Cross-listed with GERON). (3-0) Cr. 3. F.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

**DIET 541: Food Culture**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Survey of topics that affect how we perceive food in the modern world. Food is examined as a badge of cultural identity, focus of media scrutiny and promotion, symbol of religion, and driver of technology.

**DIET 546: Phytochemicals**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals.

**DIET 547: Functional Foods in Chronic Disease Prevention**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examination of nutritional science, food science, regulatory principles, and nutrient metabolism to understand and explain functional foods, nutraceuticals, and dietary supplements. Additionally students will evaluate the biochemical basis, technologies, legal requirements, and clinical assessment in the marketplace.

**DIET 548: Nutrition and Physical Activity Assessment**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Introduction to a variety of nutrition and physical activity assessment tools. Opportunity to discuss the strengths and weaknesses of different tools and gain experience collecting, analyzing, and interpreting nutrition and physical activity data.

**DIET 551: Advanced Nutrition: Nutrigenomics, Nutrigenetics & Advanced Lipid Metabolism in Human Nutrition**

Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Exploration and integration of topics and ideas that are at the forefront of the field of nutritional science. Examination of topics that are new and/or controversial and have implications that range from the cellular/molecular/biochemical level up to clinical/educational level. Emphasis on the integrative and complex nature of human nutrition research from basic science to clinical studies to population studies and dietary recommendations.

**DIET 554: Statistics**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

**DIET 555: Public Health Nutrition**

Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examines U.S. public health and nutrition concerns in diverse U.S. populations, examines nutritional status in communities, looks at health communication, and considers nutrition policies and community-based nutrition interventions. Students explore roles of dietitians, nutritionists, and others in developing and delivering nutrition policies and interventions in U.S. communities.

**DIET 556: Micronutrients in Human Nutrition**

(3-0) Cr. 3. S.SS.

*Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Interrelationships of micronutrients in terms of biochemistry, physiology, genetics, and nutrition. Emphasis on developing understanding of how the coordination of structure and function is related to metabolic needs of the cell and its response to the environment. This integrated approach forms the basis for evaluating the micronutrient needs of humans in both normal and altered metabolic states. Only one of DIET 556 or NUTRS 502 may count toward graduation.

**DIET 558: Advanced Human Nutrition: Macronutrients**

(3-0) Cr. 3. SS.

*Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. Only one of DIET 558 or NUTRS 501 may count toward graduation.

**DIET 560: Advanced Medical Nutrition Therapy**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

**DIET 565: International Nutrition and World Hunger**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability.

**DIET 566: Nutrition Counseling and Education Methods**

(2-2) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**DIET 568: Entrepreneurship Theory and Practice**

(3-0) Cr. 3. Alt. SS., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Definition and discussion of entrepreneurship and its importance to economic and business environment.

### **DIET 569: Dietary and Herbal Supplements**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

### **DIET 570: Nutrition and Human Performance**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance.

### **DIET 571: Foundation of Leadership in Dietetics**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Using leadership theories to develop the fundamental concepts and skills to bridge the gap between theory and practice. Students will be able to successfully evaluate classic and contemporary leadership theories, investigate current leadership trends and identify positive applications in the dietetics community.

### **DIET 572: Current Issues or Trends**

(3-0) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Overview of current topics, issues, and trends in dietetics practice.

### **DIET 574: Nutrition and Immunology**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Principles and issues related to nutrition and immunology. Impact of nutrients and nutritional status on immune responses. Impact of disease states on nutritional status.

### **DIET 576: Diabetes Medical Nutrition Therapy**

Cr. 3.

*Prereq: Course in medical nutrition therapy; enrollment in GP-IDEA MFCS in Dietetics*

An in-depth study of diabetes management with emphasis in nutrition care. Topics will include diabetes pathophysiology, clinical care guidelines, basic pharmacology, clinical nutrition education and counseling strategies, and nutrition care planning.

### **DIET 597: Nutritional Aspects of Oncology**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: B.S. in nutrition, dietetics, biology, or related discipline.*

Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

### **DIET 598: Clinical Aspects of Nutrition Support**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Specialized nutrition assessment and support. Review of energy expenditure and substrate utilization in specific disease states. Current Methods for the initiation and management of enteral and parenteral nutrition therapy including access, metabolic and mechanical complications. Evaluation of nutrition support methodology in selected disease states.

### **DIET 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

For non-thesis option only.

## **Early Childcare Education and Programming (E C P)**

*Any experimental courses offered by E C P can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

### **E C P 201: Child Development – Ages Birth to 3**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Development from birth to age three. Major theories and research on development will be covered including growth patterns, the influences of disabilities and risk factors, environmental factors and their effects on attachment styles, language acquisition, brain development, cognitive development, social-emotional development, and perceptual and sensory motor skills.

**E C P 202: Child Development – Ages 4 to 8**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Development from ages four through eight. Major theories and research on development will be covered including growth patterns, the influences of disabilities and risk factors, environmental factors and their effects on attachment styles, language acquisition, brain development, cognitive development, social-emotional development, and perceptual and sensory motor skills.

**E C P 305: Professional Development**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Exploring the role of a professional as a teacher, administrator or advocate in early childhood programming. Students will learn about professionalism and ethics, identifying child abuse, and applying universal precautions. Discussion of qualities of the early childhood educator role, program models, and working with children and professional colleagues.

**E C P 306: Health, Safety, and Nutrition**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Important elements for planning, promoting and maintaining healthy and safe learning/care environments, understanding childhood illnesses and establishing healthy lifestyles, first aid, and care providers maintaining their own health. Maintaining safe relationships with others, including identifying and reporting abuse, neglect, and exploitation of children. Exploration of nutrients for life and feeding, food preparation and safety policies and guidelines, food allergies and intolerances, appropriate feeding practices.

**E C P 307: Child Guidance and Classroom Environments**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Working knowledge of developmentally appropriate practice in child guidance. This goal will be accomplished through review of current guidance methods and programs in order to familiarize students with successful guidance techniques. By the end of this course, students will develop their own approach to guidance based upon practices best suited to their own unique skills and strengths.

**E C P 320: Practicum I – Child Observations in Classroom Environments**

(0-6) Cr. 3.

*Prereq: E C P 201; E C P 202; E C P 305; E C P 306; E C P 307; HD FS 103*

Practicum in Early Childhood Education is an opportunity for ECP teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. It is expected that learning experiences and projects at the practicum site will provide teacher candidates with the opportunity to utilize and implement theories and practices learned in other ECP classes.

**E C P 322: Diversity in the Lives of Young Children and Families**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Exploration of cultural diversity in daily life and beliefs in families with young children. The focus is on U.S. families, with attention to the multiple cultures from which they come.

**E C P 323: Working with Families**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Application of an ecological model to the understanding of variation in parental roles, perspectives, relationships, approaches, and challenges.

**E C P 324: Technology and Young Children**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Impact of electronic technology on the development of young children in educational, home, and community environments, and how technology can be used to enhance teaching and learning. Students will be critical thinkers and informed consumers of technology related to young children.

**E C P 412: Development of Curriculum for Children Ages Birth to 3**

(3-0) Cr. 3.

*Prereq: E C P 201; E C P 202; E C P 305; E C P 306; E C P 307; E C P 320*

Curriculum development related to children from birth to age 3: (1) learn and utilize assessment and documentation to inform curriculum, (2) plan and evaluate developmentally appropriate activities, and (3) learn about effective ways to share curriculum information with families. All areas of developmental domains and content areas; issues related to diversity in family composition, culture, and individual abilities will also be addressed.

**E C P 413: Development of Curriculum for Children Ages 4 to 8**

(3-0) Cr. 3.

*Prereq: E C P 201; E C P 202; E C P 305; E C P 306; E C P 307; E C P 320*

Development of curriculum for children ages 4 to 8 years: (1) learn and utilize assessment and documentation to inform curriculum, (2) plan and evaluate developmentally appropriate activities, and (3) learn about effective ways to share curriculum information with families. This course addresses all areas of developmental domains and content areas, and issues related to diversity in family composition, culture, and individual abilities will also be addressed.

**E C P 424: Assessing Young Children and Their Environments to Enhance Development**

(3-0) Cr. 3.

*Prereq: E C P 201; E C P 202; E C P 305; E C P 306; E C P 307; E C P 320*

Students will learn to select, evaluate, and use appropriate assessment tools for children birth to age 8. Students will use assessment data to inform decisions about teaching (environments and practice) and intervention. There will be an emphasis on the ethical use of assessments, validity of assessments, multicultural sensitivity, and assessments for children with special needs.

**E C P 425: Understanding and Adapting for Developmental Differences**

(3-0) Cr. 3.

*Prereq: E C P 201; E C P 202; E C P 305; E C P 306; E C P 307; E C P 320*

Knowledge of disability conditions, assessment and identification, interventions in inclusive environments, and collaborations among family members and service providers.

**E C P 440: Practicum II – Curriculum Development and Implementation**

(0-6) Cr. 3.

*Prereq: E C P 412; E C P 413; E C P 424; E C P 425*

Practicum in Early Childhood Education is an opportunity for ECE teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. It is expected that learning experiences and projects at the practicum site will provide teacher candidates with the opportunity to utilize and implement theories and practices learned in other required classes.

**E C P 442: Administration and Supervision in Early Childhood Settings**

(3-0) Cr. 3.

*Prereq: HD FS 102*

Exploration of issues surrounding the administration of early childhood programs including identification of community needs, analysis of business opportunities, the evaluation and appropriate use of space and quality programming, consideration of policy and legal responsibilities, and professionalism in the field. In addition, the course explores best practices in staff selection, training, coaching, and supervision.

**E C P 460: Practicum III – Capstone Experience**

Cr. 3-6. Repeatable, maximum of 6 credits.

*Prereq: E C P 322; E C P 323; E C P 324; E C P 440; E C P 442*

Professional practicum as a 15 week experience designed to allow the student to demonstrate practical application of developmentally appropriate early childhood teaching techniques and skills, actual teaching experience and developmental feedback. Practicum students will be involved in observation and evaluation of classroom experiences, environmental design, classroom management, and parent communication.

## Ecology and Evolutionary Biology (EEB)

*Any experimental courses offered by EEB can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**EEB 511: Conceptual Foundations in Ecology and Evolutionary Biology**

(3-2) Cr. 4. Alt. F., offered even-numbered years.

*Prereq: Graduate classification*

Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

**EEB 585: Extended Field Trip**

(1-6) Cr. 2. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Graduate classification, permission of instructor*

Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

**EEB 585A: Extended Field Trip: Pre-Trip Lecture**

(1-0) Cr. 1. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Graduate classification, permission of instructor*

Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

**EEB 585B: Extended Field Trip: Travel**

(0-6) Cr. 1. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq:* Graduate classification, EEB 585A and permission of instructor.

Extended field trip to study major terrestrial and aquatic ecosystems.

Location and duration vary. Report required.

**EEB 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* Graduate classification and permission of instructor

For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

**Courses for graduate students:****EEB 698: Seminar**

(1-0) Cr. 1. Repeatable. F.S.

Reports and discussion of recent research and literature.

**EEB 699: Research**

Cr. arr. Repeatable. F.S.SS.

Thesis and dissertation research.

## Ecology, Evolution, and Organismal Biology (EEOB)

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. Each EEOB faculty member is affiliated with one or more interdepartmental majors, and EEOB students major in one of these programs. These interdepartmental programs include:

- Bioinformatics and Computational Biology (<http://www.bcb.iastate.edu/>)
- Ecology and Evolutionary Biology (<http://www.eeb.iastate.edu/>)
- Environmental Science (<https://ensci.iastate.edu/>)
- Genetics and Genomics (<http://www.genetics.iastate.edu/>)
- Interdisciplinary Graduate Studies (<http://www.grad-college.iastate.edu/igs/admission.html>)
- Microbiology (<http://www.micrograd.iastate.edu/>)
- Plant Biology (<http://www.ipb.iastate.edu/>)
- Sustainable Agriculture (<https://susag.iastate.edu/>)

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees.

**Any experimental courses offered by EEOB can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:****EEOB 507: Advanced Animal Behavior**

(3-0) Cr. 3. S.

*Prereq:* Graduate standing, BIOL 354, or permission of instructor

Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

**EEOB 514: Life History and Reproductive Strategies**

(Dual-listed with BIOL 414). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Evolution of ecological adaptations at the individual, population, and species level. Emphasis is on evolutionary mechanisms and adaptive strategies related to life histories and reproduction; age and size at maturity; lifespan and senescence; offspring size/number trade-offs; sex and mating systems; sex determination and sex ratios. BIOL 315 or equivalent recommended.

**EEOB 521: Biological Principles of Aging**

(Dual-listed with BIOL 421). (Cross-listed with GERON). (3-0) Cr. 3. SS.

*Prereq:* BIOL 211 and BIOL 212

Basic biological principles of aging. Course modules include an introduction to the aging process, body systems and normal aging, and environment and the biology of aging. In addition, disorders and diseases of aging, prevention and treatment and exercise and aging topics will be covered.

**EEOB 531: Conservation Biology**

(Cross-listed with A ECL). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* BIOL 312; BIOL 313 or graduate standing

Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

**EEOB 534: Endocrinology**

(Dual-listed with BIOL 434). (3-0) Cr. 3. S.

*Prereq:* BIOL 211; BIOL 212

Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

**EEOB 535: Restoration Ecology**

(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* BIOL 366 or BIOL 474 or graduate standing

Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

**EEOB 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**EEOB 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**EEOB 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**EEOB 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**EEOB 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**EEOB 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**EEOB 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**EEOB 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**EEOB 546: Computational Skills for Biological Data**

(Cross-listed with BCB). Cr. 3. F.

*Prereq:* Graduate student status or permission of the instructor

Computational skills necessary for biologists working with big data sets. UNIX commands, scripting in R and Python, version control using Git and GitHub, and use of high performance computing clusters. Combination of lectures and computational exercises.

**EEOB 551: Plant Evolution and Phylogeny**

(Dual-listed with BIOL 451). (3-3) Cr. 4. Alt. F., offered even-numbered years.

*Prereq:* BIOL 315 or equivalent.

Survey of land plant evolution; phylogenetic comparison of anatomical, reproductive, and life history specializations. Relationships among bryophytes, lycophytes, pteridophytes, gymnosperms, and angiosperms emphasizing significant evolutionary changes documented by paleobotanical, morphological, and molecular studies.

**EEOB 553: Agrostology**

(2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* BIOL 366 or equivalent.

Structure, identification, classification, phylogeny, and economic aspects of grasses and related families.

**EEOB 555: Bryophyte and Lichen Biodiversity**

(Dual-listed with BIOL 455). (2-3) Cr. 3. S.

*Prereq: BIOL 211; BIOL 211L*

Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

**EEOB 561: Evolutionary and Ecological Genomics**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Permission of instructor; BCBIO 444 recommended.*

Use of genomic and other "omic" data in evolution and ecology. Review of data-generation platforms, computational methods, and examples of how phylogenomics, metagenomics, epigenomics, and population genomics are transforming the disciplines of evolution and ecology.

**EEOB 562: Evolutionary Genetics**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Permission of instructor*

Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.

**EEOB 563: Molecular Phylogenetics**

(2-3) Cr. 3. S.

*Prereq: BIOL 313 and BIOL 315*

An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

**EEOB 564: Wetland Ecology**

(Dual-listed with BIOL 464). (Cross-listed with ENSCI). (3-0) Cr. 3. S.

*Prereq: 15 credits in biological sciences.*

Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

**EEOB 565: Macroevolution**

(Dual-listed with BIOL 465). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: BIOL 315*

The history and diversity of life on earth; evolutionary patterns and processes above the species level. Diversity from a phylogenetic perspective. Empirical exercises include: phylogeny estimation, ancestral states, estimating diversification rates, evaluating the tempo and mode of evolution, biogeographic patterns, and trait associations across the tree of life.

**EEOB 566: Molecular Evolution**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Permission of instructor*

Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organellar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

**EEOB 567: Empirical Population Genetics**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: Permission of instructor*

An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchical population models, and phylogeography.

**EEOB 568: Advanced Systematics**

(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered irregularly.

*Prereq: Permission of instructor*

Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

**EEOB 569: Biogeography**

(3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: BIOL 315 or equivalent; permission of instructor*

Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

**EEOB 576: Functional Ecology**

(Dual-listed with BIOL 476). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

**EEOB 577: Concepts in Theoretical Ecology and Evolution**

(2-0) Cr. 1. Alt. F., offered even-numbered years.

Readings and discussion of influential ideas in ecological and evolutionary theory, with an emphasis on how models are used as conceptual tools for building synthetic paradigms. Topics are chosen according to student interests; may include spatial ecology, behavioral theory, chaos, community assembly and biodiversity, and others.

**EEOB 584: Ecosystem Science**

(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Combined 12 credits in biology, chemistry, and physics.*

Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

**EEOB 585: Community Ecology**

(Dual-listed with BIOL 485). (3-0) Cr. 3. S.

*Prereq: BIOL 312*

The effect of interspecific interactions on the structure and dynamics of natural and managed communities; including concepts of guild structure and trophic web dynamics and their importance to the productivity, diversity, stability, and sustainability of communities. The implications of interspecific interactions in the management of wild species will be emphasized with illustrative case histories of interactions between plants, invertebrates, and vertebrates.

**EEOB 586: Aquatic Ecology**

(Dual-listed with BIOL 486). (Cross-listed with A ECL, ENSCI). (3-0) Cr. 3. F.

*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**EEOB 586L: Aquatic Ecology Laboratory**

(Dual-listed with BIOL 486L). (Cross-listed with A ECL, ENSCI). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**EEOB 587: Microbial Ecology**

(Dual-listed with BIOL 487). (Cross-listed with ENSCI, GEOL, MICRO). (3-0) Cr. 3. F.

*Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**EEOB 589: Population Ecology**

(Dual-listed with BIOL 489). (Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing*

Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

**EEOB 590A: Special Topics: Current Topics in Ecology**

Cr. 1-3. Repeatable.

*Prereq: 10 credits in biology, permission of instructor*

**EEOB 590B: Special Topics: Current Topics in Evolutionary Biology**

Cr. 1-3. Repeatable.

*Prereq: 10 credits in biology, permission of instructor*

**EEOB 590C: Special Topics: Current Topics in Organismal Biology**

Cr. 1-3. Repeatable.

*Prereq: 10 credits in biology, permission of instructor*

**EEOB 596: Ecology and Society**

(Cross-listed with PHIL). (3-0) Cr. 3.

*Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology*

Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

**EEOB 599: Creative Component**

Cr. arr.

Research toward nonthesis master's degree.

**Courses for graduate students:**
**EEOB 698: Seminar**

Cr. 1. Repeatable.

Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

**EEOB 699: Research**

Cr. arr. Repeatable.

Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

## Early Childhood and Family Policy (ECFP)

*Any experimental courses offered by ECFP can be found*

*at:* [registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**ECFP 550: History of Child Development and Equity**

(3-0) Cr. 3. F.

Overview of research on children birth to age five, demographics of this population, critical domains of development, significance of early brain development, and issues of inequality and disproportionality that shape child outcomes.

**ECFP 560: Examining Practices, Policies, and Key Issues**

(3-0) Cr. 3. F.

Advances general early childhood education and care (ECEC) policy knowledge and addresses contextual and historical variables that have affected its evolution in the United States. Overview of the practices, policies, and issues framing the design and delivery of contemporary early childhood education and care (ECEC), including the role of parents and families. Addresses understanding ECEC practice and policy and identifying and addressing critical policy challenges.

**ECFP 570: Theory, Analysis & Research**

(3-0) Cr. 3. S.

*Prereq: ECFP 550*

Provides interdisciplinary perspective on early childhood education and care (ECEC) policy. Focus on research influence on policy, tools for policy analysis, and theoretical frames used to interpret and influence current ECEC policy discourse. Examine and analyze design, implementation, and outcomes of various policies.

**ECFP 580: Policy, Leadership & Advocacy**

(3-0) Cr. 3. S.

*Prereq: ECFP 550*

Provides foundational knowledge of fundamentals of policy creation, design, and development. Emphasis on policies that impact early childhood education and care (ECEC) and focus on policy construction.

## Economics (ECON)

*Any experimental courses offered by ECON can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**ECON 101: Principles of Microeconomics**

(3-0) Cr. 3. F.S.SS.

Resource allocation, opportunity cost, comparative and absolute advantage. Supply and demand. Marginal analysis. Theories of production and consumption, pricing, and the market system. Perfect and imperfect competition and strategic behavior. Factor markets. Present discounted value.

**ECON 101H: Principles of Microeconomics: Honors**

(3-0) Cr. 3.

*Prereq: Admission to the Honors program*

Resource allocation, opportunity cost, comparative and absolute advantage. Supply and demand. Marginal analysis. Theories of production and consumption, pricing, and the market system. Perfect and imperfect competition and strategic behavior. Factor markets. Present discounted value.

**ECON 101L: Laboratory in Principles of Microeconomics**

(0-2) Cr. 1. F.

*Prereq: Concurrent enrollment in the appropriate section of ECON 101*

Discussion of material typically covered in Econ 101. Application of economic principles to real world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

**ECON 102: Principles of Macroeconomics**

(3-0) Cr. 3. F.S.SS.

Measurement of macro variables and general macro identities. Classical models of full employment. Production and growth. Savings and investment. Employment and unemployment. Money, inflation, and price levels. Operation of the U.S. banking system. Fiscal and monetary policy. Elements of international finance. ECON 101 recommended.

**ECON 102H: Principles of Macroeconomics: Honors**

(3-0) Cr. 3.

*Prereq: Admission to the Honors program*

Measurement of macro variables and general macro identities. Classical models of full employment. Production and growth. Savings and investment. Employment and unemployment. Money, inflation, and price levels. Operation of the U.S. banking system. Fiscal and monetary policy. Elements of international finance. ECON 101 recommended.

**ECON 110: Orientation in Agricultural Business**

(1-0) Cr. 1. F.

Orientation course for freshman and new transfer students in agricultural business.

**ECON 207: Applied Economic Optimization**

(2-2) Cr. 3. F.S.

*Prereq: MATH 151 or MATH 160 or MATH 165*

Application of linear algebra, calculus and unconstrained and constrained optimization techniques to economic problems. Learning outcomes include the ability to (i) identify the objective, decision variables and constraints in economic decision problems, (ii) represent elements of an economic problem in simple mathematical models, (iii) identify and apply mathematical tools that can be used to solve the problems, (iv) identify the strengths and limitations of the solution method, and (v) interpret the economic meaning and implications of the solution.

**ECON 230: Farm Business Management**

(2-2) Cr. 3. F.S.

*Prereq: ACCT 284; ECON 101*

Business and economic principles applied to decision making and problem solving in the management of a farm business. Cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

**ECON 234: Small Business Management**

(3-0) Cr. 3.

*Prereq: ECON 101*

An introduction to small business management, entrepreneurship, and economics utilizing a series of case studies. Exploration of issues related to starting or acquiring a new business and development of knowledge and skills for successful management of a small business, with an emphasis on agricultural business.

**ECON 235: Introduction to Agricultural Markets**

(3-0) Cr. 3. F.S.

*Prereq: ECON 101*

Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

**ECON 236: Agricultural Selling**

(3-0) Cr. 3.

*Prereq: ECON 101*

Principles of selling with application to agricultural and food related businesses. Attitudes, value systems, and behavioral patterns that relate to agricultural sales. Marketing, selling strategies, preparing for sales calls, making sales presentations, handling objections, and closing sales. Analysis of the buying or purchasing process. Evaluation of agri-selling profession.

**ECON 292: Career Seminar**

(1-0) Cr. 1.

*Prereq: Major in economics or agricultural business*

Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

**ECON 292A: Career Seminar: Agricultural Business**

(1-0) Cr. 1.

*Prereq: Major in economics or agricultural business*

Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

**ECON 292B: Career Seminar: Economics and Business Economics**

(1-0) Cr. 1.

*Prereq: Major in economics or business economics*

Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing. Only one of ECON 292, 292A, and 292B can be used toward graduation.

**ECON 297: Internship**

Cr. 2. Repeatable, maximum of 4 credits.

*Prereq: Permission of Instructor; major in agricultural business or economics*

Students complete a research report, based on their internship or approved work experience, that examines chosen topics in management, marketing or finance. Offered on a satisfactory-fail basis only.

**ECON 298: Cooperative Education**

Cr. R. Repeatable.

*Prereq: Permission of the Department Cooperative Education Coordinator; Sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**ECON 301: Intermediate Microeconomics**

(3-0) Cr. 3-4. F.S.SS.

*Prereq: ECON 101; (ECON 207 or MATH 166)*

Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Fall and spring require recitation and are 4 credits; summer is 3.0 credits.

**ECON 301H: Intermediate Microeconomics: Honors**

(3-0) Cr. 3-4.

*Prereq: ECON 101; (ECON 207 or MATH 166)*

Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits.

**ECON 302: Intermediate Macroeconomics**

(3-0) Cr. 3. F.S.

*Prereq: ECON 101; ECON 102; (MATH 160 or MATH 165)*

Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

**ECON 302H: Intermediate Macroeconomics: Honors**

(3-0) Cr. 3.

*Prereq: ECON 101; ECON 102; (MATH 160 or MATH 165)*

Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation.

**ECON 313: Economics of Sports**

(3-0) Cr. 3.

*Prereq: ECON 101*

Application of economics to issues in sports, including franchising; rival leagues and barriers to entry; cooperative, competitive, and collusive behavior; player productivity and compensation; contracts, unions, and discrimination; antitrust, taxation, and subsidies. Economic concepts include supply and demand, costs, competition, time value of money, labor economics, pricing, public finance, production, game theory, risk analysis, and industrial organization.

**ECON 320: Labor Economics**

(3-0) Cr. 3.

*Prereq: ECON 101*

Economic analysis of contemporary domestic and international labor market issues including labor supply and demand, unemployment, and employment in the U.S. and elsewhere; investments in and returns to education, training, health, immigration and migration; income inequality; labor productivity; out-sourcing and global competitiveness; work incentives; compensation including benefits; and labor policies such as minimum wages, over-time pay, discrimination, unions, and immigration. Examples drawn from the U.S. and other developed countries with reference to developing countries where relevant.

Meets International Perspectives Requirement.

**ECON 321: Economics of Discrimination**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: ECON 101*

Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S.

**ECON 330: Advanced Farm Business Management**

(3-0) Cr. 3.

*Prereq: ECON 230*

Effective use of strategic planning, decision methods, and computer assistance for solving farm problems. Applications of economic and management theory to analyze farm business decisions using efficiency measures to assess current resource use and direct the farm business analysis, planning, and tax process.

**ECON 332: Cooperatives**

(3-0) Cr. 3.

*Prereq: ECON 101*

Survey of cooperative business structure, including historical developments in the United States, principles of cooperation, state and federal authorization for cooperative activity, economic motivations and foundations, governance, marketing and pricing strategies, and financing, capitalization and taxation considerations. Students will learn how the cooperative model is applied in a variety of markets.

**ECON 334: Entrepreneurship in Agriculture**

(3-0) Cr. 3. F.S.

*Prereq: ECON 101*

Introduction to the process of entrepreneurship within the agricultural and food sectors. Emphasis on opportunity recognition and creation of concept for new startup ventures. Students will develop a business plan for a startup business or non-profit organization.

**ECON 335: The Economics of Global Agricultural Food and Bio-energy**  
(Cross-listed with GLOBE). (3-0) Cr. 3.

*Prereq: ECON 101*

Applied economic analysis of the determinants of world agricultural production, marketing, and use in feed, food, fiber, biofuel, and other applications, and global food processing and consumption. Analysis of market case studies and various data on global agricultural production and transformation, land and resource use, demography, economic activity, nutrition and health trends.

Meets International Perspectives Requirement.

**ECON 337: Agricultural Marketing**

(3-0) Cr. 3.

*Prereq: ECON 101*

Understanding of agricultural commodity markets for grain, livestock and dairy with emphasis on marketing decisions and risk management for farmers and processors. Hands-on applications of marketing and management tools via market simulations. ECON 235 recommended.

**ECON 344: Public Finance**

(3-0) Cr. 3.

*Prereq: ECON 101*

The economic role of governments in market economies. Public goods, externalities, income distribution, and income maintenance programs. The effect of taxes on economic behavior, descriptions of the structure of the principal U.S. taxes, and current reform proposals.

**ECON 353: Money, Banking, and Financial Institutions**

(3-0) Cr. 3. F.S.

*Prereq: ECON 101; ECON 102*

Theoretical and applied analysis of money, banking, and financial markets; interest rates and portfolio choice; the banking industry in transition; the money supply process; the Federal Reserve System and the conduct of monetary policy; macro implications of monetary policy; international finance.

**ECON 355: International Trade and Finance**

(3-0) Cr. 3.

*Prereq: ECON 101; ECON 102*

Explanations of causes of international trade and the impact of trade on welfare and employment patterns. Analysis of government policies towards trade, such as tariffs, quotas, and free trade areas. Theory of balance of payments and exchange rate determination, and the role of government policies. Examination of alternative international monetary arrangements.

Meets International Perspectives Requirement.

**ECON 362: Applied Ethics in Agricultural Business**

(3-0) Cr. 3.

*Prereq: ECON 101; Junior or Senior classification; College of Agriculture and Life Sciences major*

Explore ethics of management and decision-making in agriculture and agricultural business. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

**ECON 364: Rural Property Appraisal**

(3-0) Cr. 3.

*Prereq: ECON 101*

Use of income capitalization, sales comparison and cost appraisal concepts in appraising agricultural resources. Application of underlying economic/business/management principles, especially present value, as they relate to farmland appraisal. Determination and estimation of economic impacts of special consideration and property use factors. Evaluate feasibility and profitability of investment in rural property.

**ECON 371: Introductory Econometrics**

(4-0) Cr. 4. F.S.

*Prereq: ECON 301; (ECON 302 or ECON 353); STAT 326*

Introduction to the models and methods used to estimate relationships and test hypotheses pertaining to economic variables. Among the topics covered in the course are: Single and multiple regression analysis; functional forms; omitted variable analysis; multicollinearity; heteroskedasticity; autocorrelation; simultaneous equations; and dynamic models.

**ECON 376: Rural, Urban and Regional Economics**

(Cross-listed with C R P). (3-0) Cr. 3.

*Prereq: ECON 101*

Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime.

**ECON 380: Energy, Environmental and Resource Economics**

(Cross-listed with ENV S). (3-0) Cr. 3.

*Prereq: ECON 101*

Natural resource availability, use, conservation, and government policy, with emphasis on energy issues. Environmental quality and pollution control policies.

**ECON 385: Economic Development**

(Cross-listed with GLOBE). (3-0) Cr. 3.

*Prereq: ECON 101; ECON 102*

Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid.

Meets International Perspectives Requirement.

**ECON 387: Economies of China and India**

(3-0) Cr. 3.

*Prereq: ECON 101*

The economic development of China and India within the larger historical, political, and socioeconomic contexts. The characteristics of the development paths of major industries. The drivers of and impediments for future economic development. The two economies' connections with the world economy.

Meets International Perspectives Requirement.

**ECON 398: Cooperative Education**

Cr. R.

*Prereq: Permission of Department Cooperative Education Coordinator; Junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**ECON 401: Topics in Microeconomics**

(3-0) Cr. 3.

*Prereq: ECON 301; STAT 226*

Advanced treatment of selected topics from one or more of the following areas: household production models, factor markets, game theory and imperfect competition, general equilibrium, intertemporal choice, asset markets, income distribution, externalities and public goods, etc.

**ECON 402: Topics in Macroeconomics**

(3-0) Cr. 3.

*Prereq: ECON 301; (ECON 302 or ECON 353); STAT 226*

Advanced treatment of selected topics from one or more of the following areas: business cycle theory, growth theory, fiscal and monetary policy, coordination issues, open economy macroeconomics, and financial economics.

**ECON 416: Industrial Organization**

(3-0) Cr. 3.

*Prereq: ECON 301*

Study of the structure of firms and markets and of their interaction, with emphasis on imperfectly competitive markets. Behavior of firms in strategic settings and insights of basic game-theoretic models. Welfare implications of alternative market organizations, consequences of market power, and scope for government regulation and antitrust/competition policies. Topics include monopoly and price discrimination, oligopoly models, product quality, product differentiation, vertical integration, information and advertising, patents, R&D and innovation, and regulation.

**ECON 418: Introduction to Game Theory**

(3-0) Cr. 3.

*Prereq: ECON 301*

Systematic introduction to game theory and its uses in economics. Develops the basic framework, models and tools necessary to analyze games of strategy, including: Strategic and extensive-form representations of games; best response functions and Nash equilibrium, mixed strategies backward induction and subgame-perfect equilibrium, imperfect and incomplete information, Bayesian and sequential equilibria. Examples and applications taken from economics, business, political science, law and biology.

**ECON 431: Managerial Economics**

(3-0) Cr. 3.

*Prereq: ECON 301*

Theory of the firm; organizational incentives and efficiency; moral hazard; role of information and decision making under uncertainty; ownership and control; business investment.

**ECON 435: Analysis of Food Markets**

(Cross-listed with FS HN). Cr. 3. S.

*Prereq: ECON 235; ECON 301; STAT 226*

Food market analysis from an economics perspective; food markets and consumption; methods of economic analysis; food industry structure and organization; food and agriculture regulations; labeling; consumer concerns; agricultural commodity promotion. Final project required.

**ECON 437: Commodity Marketing and Risk Management**

(3-0) Cr. 3.

*Prereq: ECON 235; ECON 301; STAT 326*

The purpose and performance of commodity markets. How commodity marketing institutions function. Merchandising arrangements. Distinguishing features of agricultural commodities. Hedging, arbitrage, and speculation in commodity spot, forward, futures, and options markets. Valuation theory.

**ECON 455: International Trade**

(3-0) Cr. 3.

*Prereq: ECON 301*

Rigorous treatment of theories of international trade and international factor movements. Examination of the impact of trade and labor migration on domestic and world welfare and on the distribution of income. Theoretical analysis of government policies towards trade and factor movements, including quotas, tariffs, free trade areas and immigration restrictions. Discussion of contemporary issues and controversies concerning globalization, including multinational firms and labor migration.

Meets International Perspectives Requirement.

**ECON 457: International Finance**

(Dual-listed with ECON 557). (3-0) Cr. 3.

*Prereq: ECON 302*

National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets. Does not count towards Ph.D. requirements.

Meets International Perspectives Requirement.

**ECON 460: Agricultural, Food, and Trade Policy**

(Dual-listed with ECON 560). (3-0) Cr. 3.

*Prereq: ECON 301 or ECON 501*

Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture.

**ECON 466: Agricultural Finance**

(3-0) Cr. 3.

*Prereq: ECON 301; FIN 301; STAT 226*

Financial analysis of agricultural businesses; liquidity, capital structure, and growth and risk of agricultural firms; capital budgeting methods; analysis of land investments, leasing, and costs of credit; financial intermediation and major financial institutions for agriculture; borrower-lender relationships, and asset-liability management techniques by financial intermediaries; public policies affecting agricultural credit markets. ECON 353 recommended.

**ECON 480: Intermediate Environmental and Resource Economics**

(Dual-listed with ECON 580). (3-0) Cr. 3.

*Prereq: ECON 301*

Theories of natural resource utilization and allocation. Externalities, public goods, and environmental quality. Renewable energy, biofuels, land use change and life cycle analysis of carbon, and sustainability and resource conservation. Methodologies for analyzing natural resource and environmental problems and evaluating resource policies.

**ECON 490: Independent Study**

Cr. 1-5. Repeatable, maximum of 6 credits.

*Prereq: Junior or Senior classification; 14 credits in ECON; Permission of Instructor*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

**ECON 490E: Independent Study: Entrepreneurship**

Cr. 1-5. Repeatable, maximum of 6 credits.

*Prereq: Junior or Senior classification; 14 credits in ECON; Permission of Instructor*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

**ECON 490H: Independent Study: Honors**

Cr. 1-5. Repeatable, maximum of 6 credits.

*Prereq: Junior or Senior classification; 14 credits in ECON; Permission of Instructor*

Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation

**ECON 492: Graduating Senior Survey**

Cr. R.

*Prereq: Graduating senior*

Final preparations for graduation. The final stages of job searching, interviewing, letter writing, and resume preparation. Outcomes assessment information from graduating seniors including opinion surveys, instructor/advisor/course evaluations, exit interviews, student accomplishment surveys, job placement surveys, and comprehensive skills examinations. Departmental recognition of graduating seniors. Life as an alumnus - expectations and obligations. Convocation and commencement information. Offered on a satisfactory-fail basis only.

**ECON 495: Economics Domestic Travel Course**

Cr. 1-3.

*Prereq: Sophomore classification; Permission of Instructor*

Tour and study of domestic businesses, markets, and economic institutions located outside Iowa to expose students to the diversity of activities within the U.S. economy. Pre-trip sessions arranged. Locations and duration of tours will vary.

**ECON 496: Economics International Travel Course**

Cr. 1-3. Repeatable.

*Prereq: Sophomore classification; Permission of Instructor*

Tour and study of international agricultural and/or nonagricultural economies, markets, and institutions. Locations and duration of tours will vary. Limited enrollment.

Meets International Perspectives Requirement.

**ECON 498: Cooperative Education**

Cr. R.

*Prereq: Permission of the Department Cooperative Education Coordinator; Senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ECON 500: Quantitative Methods in Economic Analysis I**

(4-0) Cr. 4. F.

*Prereq: ECON 301; MATH 160 or MATH 165; MATH 166 or ECON 207; one of STAT 326, STAT 341, or ECON 371; and permission of Director of Graduate Education*

Economic applications of selected mathematical and statistical concepts: linear models and matrix algebra; differential calculus and optimization; integral calculus and economic dynamics; probability distributions, estimation, and hypothesis testing in the analysis of economic data. The best math preparation is a full year of calculus.

**ECON 501: Microeconomics**

(4-0) Cr. 4. F.

*Prereq: ECON 301, credit or enrollment in ECON 500 or equivalent background in calculus and statistics*

The theory of the consumer, theory of the firm, perfect and imperfect competition, welfare economics, and selected topics in general equilibrium and uncertainty.

**ECON 502: Macroeconomics**

(4-0) Cr. 4. F.

*Prereq: ECON 302, credit or enrollment in ECON 500 or equivalent background in calculus and statistics*

Models of aggregate supply and demand, theories of consumption and investment, money supply and demand, inflation, rational expectations, stabilization policy, financial markets, and international finance.

**ECON 509: Applied Numerical Methods in Economics**

(3-0) Cr. 3.

*Prereq: ECON 500, ECON 501; or ECON 600, ECON 601*

Use of numerical techniques to solve economic problems. Numerical differentiation and integration numeric solutions of systems of equations, static and dynamic optimization problems including unconstrained optimization, maximum likelihood methods, general nonlinear programming methods, dynamic programming and optimal control, numerical methods for solving functional equations.

**ECON 510: Experimental Economics**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 601*

Introduction to experimental economics and major subject areas addressed by laboratory and field experiments. Exploration of experimental methods by concentrating on series of experiments. Applications include individual decision-making, behavioral game theory, markets, behavioral labor, public and development economics, social network, and neuroeconomics. Research project.

**ECON 520: Labor Supply and Human Capital Formation**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 601*

Labor supply decisions and empirical analysis for agricultural operators and other self-employed and wage-earning households; multiple job holding; resource allocation in productive households; human capital formation by households, firms, and public institutions, which includes schooling, on-the-job training, migration, health, research, raising of children, and implications for household income and welfare; applications to problems in rural areas of developing and developed countries.

**ECON 531: Trends Impacting Agri-Food Businesses**

Cr. 2. F.

*Prereq: Enrollment in The Ivy Executive MBA program within the Ivy College of Business at Iowa State University.*

Explore trends impacting agricultural and food businesses. Video interviews with a range of entrepreneurs, investors and industry experts will expose students to a variety of ideas and opinions on the most important trends and issues impacting the future structure of agri-food markets and explore the implications for agri-food businesses. In addition, students will be challenged to develop their own ideas about how these trends will impact their business and career.

**ECON 532: Managerial Economics for the Global Organization**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA or BAS program; not for economics majors*

Applications of microeconomic theory and decision analysis for firms operating in U.S. and internationally. Topics include demand & supply, consumer choice theory, production and cost theory, short run and long run business decisions, input cost and human capital differences across countries, empirical estimation of demand and supply, pricing, exchange rates, government and business, market structures and strategy.

**ECON 537: Commodity Markets: Analysis and Strategy**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 532 or ECON 601, ECON 571 or STAT 326*

Analysis of exchange-traded and over-the-counter commodity markets, their functions and performance. Evaluation of hedging, speculation, and arbitrage strategies. Commodity transformation over space and time. Valuation of derivatives and comparison with derivatives on financial assets. Efficiency and the role of information in commodity markets. Market regulation.

**ECON 545: Public Economics**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 601*

Economic justifications for government activities; illustrative theoretical and empirical analyses of expenditure programs; foundations of excess burden, incidence analysis, and optimal taxation; effects of taxation on labor supply; public goods and externalities; social insurance; introduction to economics of the health sector with an emphasis on the role of market failures.

**ECON 557: International Finance**

(Dual-listed with ECON 457). (3-0) Cr. 3.

*Prereq: ECON 302*

National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets. Does not count towards Ph.D. requirements.

Meets International Perspectives Requirement.

**ECON 560: Agricultural, Food, and Trade Policy**

(Dual-listed with ECON 460). (3-0) Cr. 3.

*Prereq: ECON 301 or ECON 501*

Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture.

**ECON 571: Intermediate Econometrics**

(3-2) Cr. 4. S.

*Prereq: ECON 500*

Single and multiple equation regression models; dummy explanatory variables; serial correlation; heteroskedasticity; distributed lags; qualitative dependent variables; simultaneity. Use of econometric models for tests of economic theories and forecasting.

**ECON 576: Spatial Economics**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 601*

Analysis of location choice by firms, employees, and households emphasizing the role of spatial variations in agglomeration economies, economies of scale, distance, transport, endowments, amenities, and local government. Models of land use, urban form, spatial competition, central place theory, and migration. Techniques of discrete choice analysis, statistical analysis of categorical data, urban system modeling, and interregional computable general equilibrium.

**ECON 580: Intermediate Environmental and Resource Economics**

(Dual-listed with ECON 480). (3-0) Cr. 3.

*Prereq: ECON 301*

Theories of natural resource utilization and allocation. Externalities, public goods, and environmental quality. Renewable energy, biofuels, land use change and life cycle analysis of carbon, and sustainability and resource conservation. Methodologies for analyzing natural resource and environmental problems and evaluating resource policies.

**ECON 581: Advanced Environmental Economics**

(3-0) Cr. 3.

*Prereq: ECON 501 or ECON 601*

Interrelationships of natural resource use and the environment. Applied welfare and benefit-cost analyses. Externalities and pollution abatement. Nonmarket valuation of resources. Property rights. Legal and social constraints. Policy approaches.

**ECON 590: Special Topics**

Cr. 1-5. Repeatable.

Offered on a satisfactory-fail basis only.

**ECON 594: Research Methods in Economics I**

(1-0) Cr. 1. F.

*Prereq: Graduate classification or permission of instructor*

Introduction to methods used in empirical economic research.

Formulation of well-posed economic questions, locating and evaluating relevant literature, and meaning of testable hypotheses.

**ECON 595: Research Methods in Economics II**

(1-0) Cr. 1. S.

*Prereq: Graduate classification or Permission of the Instructor*

Develop skills required to successfully acquire, manipulate and analyze data that can be used for conducting empirical economic research.

Topics include research design, developing workflows that support reproducible analysis, data visualization and related issues. Hands on work with one or more example data sets to gain experience and confidence in using statistical software and interpreting the results of this analysis.

**ECON 596: Research Methods in Economics III**

(1-0) Cr. 1. S.

*Prereq: Graduate classification or Permission of the Instructor*

Formulation of the research question, problem identification, literature review, data identification, formulation and testing of hypotheses, and presentation of research results. Lectures will build on assigned readings, and cover components of applied economic research, and writing skills. Student research presentations and lectures by invited speakers. Students develop their creative component in a "hands on" environment where the instructor and others can offer guidance.

**ECON 599: Creative Component**

Cr. 1-5.

Offered on a satisfactory-fail basis only.

**Courses for graduate students:****ECON 601: Microeconomic Analysis I**

(4-1) Cr. 4. F.

*Prereq: ECON 301 and permission of Director of Graduate Education*

Economic theory and methodology; theory of consumer behavior, theory of the competitive firm, supply and factor demand; duality relations in consumer and producer theory, welfare change measures; partial equilibrium analysis, perfect competition, monopoly; choice under uncertainty, the expected utility model, risk aversion; insurance, portfolio and production decisions under risk.

**ECON 602: Macroeconomic Analysis**

(4-1) Cr. 4. S.

*Prereq: ECON 301, ECON 302, and permission of Director of Graduate Education*

Neoclassical aggregate growth models; the overlapping generations model; endogenous growth models; equilibrium business cycle theories; equilibrium job search and matching; models of money; fiscal and monetary policy; income and wealth distribution.

**ECON 603: Microeconomic Analysis II**

(4-1) Cr. 4. S.

*Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education*

General equilibrium analysis, efficiency, and welfare; market failures, externalities, and the theory of the second best; introduction to game theory; adverse selection, signaling, screening and moral hazard.

**ECON 604: Advanced Macroeconomic Analysis**

(4-1) Cr. 4. F.

*Prereq: ECON 601, ECON 602 and permission of Director of Graduate Education*

Topics will be selected from: new Keynesian approaches to business cycle theory; endogenously generated business cycles; models of credit and financial intermediation; mechanism design and time inconsistency issues; political economy models; heterogeneous-agent models with strategic interaction; path dependence, network effects, and lock-in; economies as evolving self-organizing systems.

**ECON 606: Advanced Topics in Macroeconomics**

(3-0) Cr. 3.

*Prereq: ECON 603, and credit or current enrollment in ECON 604*

Selected topics in macroeconomic theory of current significance to the profession.

**ECON 615: Industrial Organization I**

(3-0) Cr. 3.

*Prereq: ECON 603*

Introduction to industrial organization theory and game-theoretic methods. Monopoly and price discrimination. Oligopoly theory and product differentiation. Quality and asymmetric information. Research &amp; development and innovation. Introduction to empirical methods in industrial organization. Discrete choice models of product differentiation. Cost and production functions. Entry, exit, and dynamic equilibrium models.

**ECON 618: Game Theory**

(3-0) Cr. 3.

*Prereq: ECON 603, or ECON 501 and permission of instructor*

Theoretical analysis and applications of strategic games, extensive form games, and cooperative games. Nash equilibrium, correlated equilibrium, Bayesian games, subgame perfect equilibrium, the core, evolutionary equilibrium, repeated games with finite automata, and common knowledge.

**ECON 621: Advanced Labor Demand and Labor Markets**

Cr. 3. S.

*Prereq: ECON 601 or ECON 520*

Analysis of labor demand, job search and matching, unemployment, market determination of wages, compensating differentials, employment contracts and incentives, wage inequality and discrimination, effects of minimum wage legislation, occupation choice, labor unions.

**ECON 641: Agricultural Economics I**

(3-0) Cr. 3.

*Prereq: ECON 603*

Advanced treatment of selected topics and models in agricultural economics, with policy analysis applications. Topics include: farm-level input and output choices; decision making under uncertainty; supply analysis, storage and commodity markets; risk management and hedging; crop insurance; credit markets; farmland prices; market integration.

**ECON 642: Agricultural Economics II**

(3-0) Cr. 3.

*Prereq: ECON 603*

Advanced treatment of selected topics and models in agricultural economics, with policy analysis applications. Topics include: demand systems for food and agricultural goods; imperfect competition and market power in agriculture; contracts; economics of R&D and innovation; quality and product differentiation; equilibrium models for agricultural policy analysis.

**ECON 653: Financial Economics**

(3-0) Cr. 3.

*Prereq: ECON 603, ECON 672. Recommended: ECON 674, STAT 551*

Review of decision-making under uncertainty. Portfolio Theory. Theoretical foundations of asset valuation models: capital asset pricing model (CAPM), arbitrage pricing theory (APT), representative agent models, pricing of derivative securities. Complete and incomplete asset markets, credit markets, financial intermediaries, the role of government in the financial sector. Market frictions, crashes, bubbles. Applications of asset valuation models, with emphasis on their testable implications.

**ECON 655: International Trade**

(3-0) Cr. 3.

*Prereq: ECON 603*

Theories of international trade; welfare and distributional aspects of trade and commercial policies. Optimal trade policies in the presence of domestic distortions; strategic trade policy; international trade and economic growth.

**ECON 657: International Finance**

(3-0) Cr. 3.

*Prereq: ECON 602*

The intertemporal approach to current account determination; non-traded goods and the real exchange rate; fiscal policy in the open economy; monetary approach to balance of payments and exchange rate determination; sticky price models of the open economy; exchange-rate based stabilizations; capital inflows; financial and balance of payments crises; international business cycles.

**ECON 671: Econometrics I**

(4-1) Cr. 4. F.

*Prereq: ECON 501 and STAT 447 or STAT 542*

Probability and distribution theory for univariate and multivariate normal random variables, introduction to the theory of estimators for linear models, hypothesis testing and inference, introduction to large sample properties of estimators; derivation of common estimators and their properties for the classical and general multiple regression models, hypothesis testing, forecasting, implications of specification errors - missing data, left-out regressors, measurement error, stochastic regressors.

**ECON 672: Econometrics II**

(4-1) Cr. 4. S.

*Prereq: ECON 671*

Identification, estimation, and evaluation of systems of simultaneous equations; qualitative choice and limited dependent variable models; introduction to time series methods and applications, including alternative variance specifications.

**ECON 673: Microeconometrics**

(3-0) Cr. 3.

*Prereq: ECON 672, ECON 601*

Econometric treatment of models arising in microeconomic applications. Methods are primarily concerned with the analysis of cross-section data. Topics may include: systems of demand equations in panel data settings, random utility models of discrete choices, production possibilities frontier estimation, and discrete/continuous models of participation and consumption.

**ECON 674: Macroeconometrics**

(3-0) Cr. 3.

*Prereq: ECON 672, ECON 602*

Time-series econometric techniques and their application to macroeconomics and financial markets. Techniques may include GARCH and ARCH-M models, unit-root tests, nonlinear adjustment models, structural VARs, and cointegration tests.

**ECON 680: Advanced Resource Economics**

(3-0) Cr. 3.

*Prereq: ECON 603*

Dynamic allocation of scarce, exhaustible, and renewable natural resources, including minerals and energy, soil, water, forests, and fish. Social versus private decisions. Market and nonmarket considerations. Technological change. Regulation. Dynamics and uncertainty.

**ECON 690: Advanced Topics**

Cr. 1-5. Repeatable.

Offered on a satisfactory-fail basis only.

**ECON 694A: Research Workshop**

Cr. 3. F.

*Prereq: Third year status in the Economics Ph.D. program or permission of instructor.*

Instruction in basic and applied research methods commonly used in economics. Survey methodologies, critique written work, summarize and evaluate data, prepare and present work orally, and develop an original research paper. Satisfactory-fail only. Offered on a satisfactory-fail basis only.

**ECON 694B: Research Workshop**

Cr. 3. S.

*Prereq: Econ 694A*

Writing and communicating economic research. Continuation of Econ 694A, resulting in completion of an original research paper. Satisfactory-fail only. Offered on a satisfactory-fail basis only.

**ECON 699: Research for Thesis or Dissertation**

Cr. arr. Repeatable.

Offered on a satisfactory-fail basis only.

## Education (EDUC)

***Any experimental courses offered by EDUC can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****EDUC 201: Educational Technologies in the PK-6 Classroom**

(2-2) Cr. 3. F.S.

Overview of ways to use educational technologies to support instruction in PK-6 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use web 2.0 tools, apps, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

**EDUC 202: Educational Technologies in the 7-12 Classroom**

Cr. 3. F.S.

Overview of ways to use educational technologies to support instruction in 7-12 settings. Focus on pedagogical approaches that integrate technologies to support learning in the content areas. Laboratory experiences include development of activities to use tool software, multimedia, web page development, digital video and other technologies to facilitate learning and teaching.

**EDUC 204: Social Foundations of Education in the United States: Secondary**

(3-0) Cr. 3. F.S.SS.

Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning at the secondary level in public schools. For prospective teachers in an ISU Secondary Educator Preparation program; open to students who are considering teaching and/or work in education as a career path.

**EDUC 205: Social Foundations of Education in the United States: Early Childhood and Elementary Education**

Cr. 3. F.S.

Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis on topics and tensions in the relationship between school and society (e.g., equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools. Students in K-12 education, secondary, education, or a non-education major should take EDUC 204.

**EDUC 216: Learning Community Orientation to Teacher Education**

(1-0) Cr. 1. F.

*Prereq: All first semester freshman Elementary Education majors are automatically enrolled.*

Learning Community for Elementary Education majors to help with their transition to university life. Offers an overview of K-8 teacher certification in Iowa as well as degree and career planning. With the help of guest speakers and peer mentors, students learn about elementary teaching as a profession and are introduced to a social justice orientation to teaching. Offered on a satisfactory-fail basis only.

**EDUC 219: Orientation to Teacher Education: FCS, History, Math, Science and World Language and Cultures Majors**

Cr. 1. F.S.

*Prereq: Students seeking teacher licensure in Family and Consumer Sciences, History, Mathematics, Science and World Language and Cultures in grades 5-12.*

Overview of mathematics, science, family and consumer sciences and history, and world language and cultures secondary education (grades 5-12), teacher licensure requirements in Iowa and other states. Program and career planning. Offered on a satisfactory-fail basis only.

**EDUC 245: Landscape of Teaching**

(3-0) Cr. 3. F.S.

*Prereq: EDUC 205; sophomore classification.*

Introduction to the landscape of teaching including the exploration of outside influences that impact schools, classroom structures (including classroom management systems) that help classrooms function efficiently and effectively, and instructional planning (basic lesson design and assessment) that addresses state standards and students' needs. Open to students majoring in Elementary Education or Early Childhood Education.

**EDUC 275: International Travel Study - Pre-departure Orientation**

Cr. 1. Repeatable, maximum of 2 times. S.

*Prereq: Instructor permission required: Participants required to be accepted to international travel study program.*

Orientation to the international travel study, offered during the semester preceding the trip.

**EDUC 280: Pre-Student Teaching Experience I**

(1-8) Cr. 0.5-2. Repeatable. F.S.

Pre-Student teaching experience in school settings. One, half day per week needed for school experience. Clinical Experience Level. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280A: Pre-Student Teaching Experience**

(1-8) Cr. 1-2. Repeatable. F.S.

*Prereq: Admitted to the Educator Preparation Program*

Pre-Student teaching experience in school settings. Two, half days per week needed for school experience. Clinical Experience Level 2 or 3. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280B: Pre-Student Teaching Experience I: Educational Technologies**

(1-8) Cr. 1. F.S.

*Prereq: EDUC 201 or EDUC 203*

Pre-Student teaching experience with technologies in various educational settings with K-12 technology leaders. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280I: Pre-Student Teaching Experience I: Mild/Moderate Disabilities**

(1-8) Cr. 1. Repeatable. S.

Pre-Student teaching experience in mild/moderate disabilities in school settings. One, half-day per week needed for school experience. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280J: Pre-Student Teaching Experience I: Mathematics Clinic**

Cr. 1. Repeatable. S.

Early field experience where students explore and develop an understanding of research-based instructional practices that could be implemented with middle level students to teach mathematical concepts. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280K: Pre-Student Teaching Experience I: Music**

(Cross-listed with MUSIC). Cr. 0.5. Repeatable. S.

Pre-student teaching experience in music in school settings. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280L: Pre-Student Teaching Experience I: Secondary Education**

Cr. 0.5. Repeatable. F.S.

Pre-student teaching experience for secondary education students in school settings. One, half-day per week needed for school experience. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280N: Pre-Student Teaching Experience I: Elementary Education**

(1-8) Cr. 0.5-1. Repeatable. S.

Pre-student teaching experience for students in school settings. One, half-day per week needed for school experience. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280O: Pre-Student Teaching Experience 1: Art Education**

(1-8) Cr. 1. Repeatable. F.S.

Pre-student teaching experience in art education in school settings. 2 1/2-hour blocks of time needed. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280S: Pre-Student Teaching Experience I: English as a Second Language (ESL)**

(0-4) Cr. 1. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to the Educator Preparation Program*

Pre-student teaching experience in English as a Second Language. One, half-day per week needed for school experience. Offered on a satisfactory-fail basis only. EDUC 280 may be taken more than once for credit toward graduation.

**EDUC 280T: Pre-Student Teaching Experience I: Tutoring**

Cr. 1. Repeatable. F.S.

Pre-student teaching experience tutoring in a school setting focused on mathematics, literacy, and/or other content areas. Clinical Experience Level 1. Offered on a satisfactory-fail basis only.

**EDUC 290: Independent Study**

Cr. 1-3.

*Prereq: 6 credits in Education, permission of department chair*

Independent study, under faculty supervision, of a topic in the field of education.

**EDUC 302: Principles and Practices of Learning with Technology**

Cr. 3. S.

*Prereq: EDUC 201 or EDUC 203*

Advanced integration of learning technologies into PK-12 educational contexts. Examine current trends in using learning technologies with PK-12 students; explore current applications used in formal and informal educational settings; and discuss issues focused on technology use in education. Required for Learning Technologies Minor.

**EDUC 315: Transfer Orientation**

Cr. 1. F.S.

Offers an overview of Elementary Education requirements, university procedures, K-8 certification in Iowa as well as degree and career planning. With the help of guest speakers and peer mentors, students learn about elementary teaching as a profession and are introduced to a social justice orientation to teaching. Learning community required of all transfer students and change of major students pursuing Elementary Education. Offered on a satisfactory-fail basis only.

**EDUC 332: Educational Psychology of Early Childhood and Elementary Education**

(3-0) Cr. 3. F.S.

*Prereq: PSYCH 230 or HD FS 102, open only to majors in Early Childhood Education or Elementary Education*

Psychological theories relevant to student development, learning, and motivation. Review of assessment principles and practices. Implications of theory for teaching children and for assessing learning in educational settings with primary and intermediate grade children.

**EDUC 333: Educational Psychology**

(Cross-listed with PSYCH). (3-0) Cr. 3. F.S.

*Prereq: PSYCH 230 or HD FS 102, pursuing educator preparation or major in psychology*

Psychological theories relevant to student development, learning, and motivation. Review of assessment principles and practices. Implications of theory for teaching children and for assessing learning in K-12 educational settings, with an emphasis on grades 5 – 12.

**EDUC 347: Nature of Science**

(Dual-listed with EDUC 547). (3-0) Cr. 3.

*Prereq: Admitted to the Educator Preparation Program (Secondary Science Education) or permission of instructor*

The history, philosophy, and sociology of science, how scientific knowledge differs from other forms of knowledge, and the relationship of the Nature of Science to science teaching and learning.

**EDUC 370: Toying with Technology**

Cr. 3. F.S.

*Prereq: EDUC 201 or EDUC 203*

Integration of learning technologies into PK-12 STEM contexts with a focus on engineering design and computational thinking. Examine current trends and explore how technology can be used to design creative and innovative hands-on experiences that promote computational thinking and problem-solving skills across STEM-related educational contexts.

**EDUC 377: Teaching Literacy in the Primary Grades**

(4-0) Cr. 4. F.S.SS.

*Prereq: Admitted to the Educator Preparation Program, EDUC 245, SP ED 250, HD FS 240 (ECE majors); concurrent enrollment in EDUC 405, EDUC 448, EDUC 468A, and EDUC 468C (EL ED majors) or EDUC 438, EDUC 468F, EDUC 468G, SP ED 458.*

Theories, teaching strategies, and instructional materials pertinent to teaching reading, writing, listening, and speaking to children in kindergarten through third grade.

**EDUC 378: Teaching Literacy in the Intermediate Grades**

(4-0) Cr. 4. F.S.SS.

*Prereq: EDUC 377; concurrent enrollment in EDUC 449, EDUC 468B, EDUC 468D, and EDUC 443; admitted to the Educator Preparation Program*

Theories and processes of literacy. Application through reading and writing across the curriculum, integration of language arts, literature-based instruction, and metacognitive strategies.

**EDUC 380: Pre-Student Teaching Experience II**

(1-8) Cr. 1-2. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program*

Participation in a school setting. (S/F grading may be used in some offerings of some sections.). Offered on a satisfactory-fail basis only.

**EDUC 380A: Pre-Student Teaching Experience II: Core Experience**

(1-8) Cr. 1-2. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program*

Pre-Student teaching experience in school setting. Two, half-days per week needed for school experience. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

**EDUC 380B: Pre-Student Teaching Experience II: Physical Science, Chemistry or Physics**

(1-8) Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program.*

Pre-student teaching experience in physical science, chemistry, or physics. Two, half-days per week needed for school experience. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. EDUC 380 may be taken more than once for credit toward graduation.

**EDUC 380D: Pre-Student Teaching Experience II: Biological Sciences**

(1-8) Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program.*

Pre-student teaching experience in physical science, chemistry, or physics. Two, half-days per week needed for school experience. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. EDUC 380 may be taken more than once for credit toward graduation.

**EDUC 380J: Pre-Student Teaching Experience II: Earth Sciences**

(1-8) Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program.*

Pre-student teaching experience in earth science. Two, half-days per week needed for school experience. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. EDUC 380 may be taken more than once for credit toward graduation.

**EDUC 380K: Pre-Student Teaching Experience II: Music**

(Cross-listed with MUSIC). (1-8) Cr. 1-2.

*Prereq: Admission to Educator Preparation Program*

Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

**EDUC 380S: Pre-Student Teaching Experience II: English as a Second Language (ESL)**

(0-4) Cr. 1. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program.*

Pre-student teaching experience in English as a Second Language. One, half-day per week needed for school experience. Clinical Experience Level 2. Offered on a satisfactory-fail basis only. EDUC 380 may be taken more than once for credit toward graduation.

**EDUC 380V: Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs**

(Cross-listed with FCEDS). (0-2) Cr. 1-2. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; Admission to Educator Preparation program*

Laboratory experience in foods, hospitality management, culinary, prostart, textiles, fashion design, housing, and human development related to family and consumer sciences courses taught at the secondary level. Planning, implementing, managing, and assessing laboratory lessons in family and consumer sciences. Includes 24 hours practicum: unsupervised. 1/2 day of time needed in schedule. Offered on a satisfactory-fail basis only.

**EDUC 395: Teaching Disciplinary Literacy**

(Dual-listed with EDUC 595). (3-0) Cr. 3. F.S.SS.

Analysis and application of strategies to enhance students' disciplinary literacy development in middle and secondary school setting. Research paper related to a course topic for EDUC 595.

### **EDUC 405: Social Justice Education and Teaching: Early Childhood and Elementary**

Cr. 3. F.S.

*Prereq: EDUC 201, EDUC 332, junior classification, Admitted to the Educator Preparation Program: concurrent enrollment in EDUC 377, 448, 468A 468C*

Awareness and nature of social justice in relation to the educational system; deep exploration of justice in education at the levels of self, teaching, and systems; multicultural concepts and theories; awareness of context of cultural groups -their history, perspective, needs, and contributions; problems and issues regarding prejudice, discrimination, and oppression based on race, ethnicity, socioeconomic class, gender, sexual identity and language in the school environment. Special attention is given to enacting culturally relevant teaching in grades PK through 6, along with curriculum transformation and social action in those grades. Restricted to those enrolled in Early Childhood and Elementary Education Programs.

Meets U.S. Diversity Requirement

### **EDUC 406: Social Justice Education and Teaching: Secondary (3-0) Cr. 3. F.S.SS.**

*Prereq: EDUC 201 or EDUC 203, (or KIN 312 or KIN 471 for PETE candidates), EDUC 332 or EDUC 333, junior classification, admitted to the Educator Preparation Program. Restricted to those enrolled in Secondary and K-12 Education Programs.*

Awareness and nature of social justice in relation to the educational system; need for cultural competence; multicultural concepts and theories; awareness of context of cultural groups - their history, perspective, needs, and contributions; problems and issues regarding prejudice, and discrimination based on race, ethnicity, socioeconomic class, gender, sexual identity and language in the school environment. Special attention to culturally relevant teaching in grades 7 through 12, along with curriculum transformation and social action in those grades. Meets U.S. Diversity Requirement

### **EDUC 407: Online Education in Pre-K-12 Classrooms: Hybrid, Virtual, and Blended Approaches**

(3-0) Cr. 3. F.SS.

*Prereq: EDUC 201 or EDUC 203.*

Preparing educators to develop and sustain learning environments where their students are physically separated from them. Developing flexible and distance learning experiences where Pre- K-12 students expand their knowledge and improve their skills in curricular areas outside of the traditional classroom. Required for the Learning Technologies Minor.

### **EDUC 416: Supervised Student Teaching - Elementary**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; admitted to Educator Preparation Program; senior classification; successful completion of all methods courses*  
Supervised teaching experience in the elementary grades.

### **EDUC 416A: Supervised Student Teaching - Elementary: Primary grades (K-3)**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; admitted to Educator Preparation Program; senior classification; successful completion of all methods courses*  
Supervised teaching experience in the elementary grades.

### **EDUC 416B: Supervised Student Teaching - Elementary: Intermediate grades (3-6)**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; admitted to Educator Preparation Program; senior classification; successful completion of all methods courses*  
Supervised teaching experience in the elementary grades.

### **EDUC 416D: Supervised Student Teaching - Elementary: International Student Teaching - Primary Grades**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; admitted to Educator Preparation Program; senior classification; successful completion of all methods courses*  
Supervised teaching experience in the elementary grades.

### **EDUC 416E: Supervised Student Teaching - Elementary: International Student Teaching - Intermediate Grades**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; admitted to Educator Preparation Program; senior classification; successful completion of all methods courses*  
Supervised teaching experience in the elementary grades.

### **EDUC 416Z: Supervised Student Teaching - Elementary: English as a Second Language**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program; senior classification; ENGL 219; ENGL 220; ENGL 425; EDUC 280S; EDUC 480S*  
Supervised teaching experience in the elementary grades.

### **EDUC 417: Student Teaching**

(Dual-listed with EDUC 517). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program or licensed teacher; approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching.

### **EDUC 417A: Student Teaching: Social Studies-Middle School**

(Dual-listed with EDUC 517A). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 417B: Student Teaching: Physical Sciences, Chemistry or Physics**

(Dual-listed with EDUC 517B). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in physical sciences grades 5-12.

**EDUC 417C: Student Teaching: Mathematics**

(Dual-listed with EDUC 517C). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in mathematics grades 5-12.

**EDUC 417D: Student Teaching: Biological Sciences**

(Dual-listed with EDUC 517D). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in biological sciences grades 5-12.

**EDUC 417F: Student Teaching: Speech**

Cr. arr. Repeatable.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching.*

Evaluation of instruction, lesson planning, and teaching in speech.

**EDUC 417G: Student Teaching: World Language**

(Dual-listed with EDUC 517G). (Cross-listed with WLC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

**EDUC 417J: Student Teaching: Earth Sciences**

(Dual-listed with EDUC 517J). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in earth sciences grades 5-12.

**EDUC 417M: Student Teaching: Science - Basic**

(Dual-listed with EDUC 517M). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in basic sciences grades 5-12.

**EDUC 417N: Student Teaching: International**

(Dual-listed with EDUC 517N). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 417P: Student Teaching: Social Studies-High School**

(Dual-listed with EDUC 517P). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 417R: Student Teaching: Music-Elementary**

(Dual-listed with EDUC 517R). (Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 417S: Student Teaching: Music-Secondary**

(Dual-listed with EDUC 517S). (Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program; approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 417Z: Supervised Student Teaching- Secondary: English as Second Language**

Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching.*

Evaluation of instruction, lesson planning, and teaching in English as a Second Language grades 7-12.

**EDUC 418: Secondary Science Methods I**

(Dual-listed with EDUC 518). (3-0) Cr. 3. F.

*Prereq: EDUC 280L or EDUC 514; undergraduate students must register concurrently for EDUC 280A; graduate students must register concurrently for EDUC 591D. Admitted to the Educator Preparation Program.*

Develop an understanding of research-based practices for effective and equitable science teaching that align with state and national standards. Emphasis is on the character and role of science inquiry, teaching behaviors and strategies, and actively engaging students in self-evaluation and evidence-based inquiry learning experiences.

**EDUC 419: Secondary Science Methods II**

(Dual-listed with EDUC 519). (3-0) Cr. 3. S.

*Prereq: EDUC 418 or EDUC 518, undergraduate students must register concurrently for EDUC 480B, 480D, or 480J; graduate students must register concurrently for EDUC 517B, 517D, 517J or 517P.*

Advancing a research-based framework for effective and equitable science teaching rooted in the idea that students need opportunities to make sense of phenomena, and grapple with scientific ideas using authentic science and engineering practices while observing science safety.

**EDUC 420: Bilingualism & The Education of Latinx Youth**

(Dual-listed with EDUC 520). (Cross-listed with US LS). (3-0) Cr. 3. F.

*Prereq: EDUC 405 or EDUC 406*

Introduction to research on bilingualism and examination of the social, historical, and political contexts of Spanish/English education in the U.S. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for Latinx youth.

Meets U.S. Diversity Requirement

**EDUC 422: Teaching and Learning Iowa History**

(Dual-listed with EDUC 522). Cr. 3. SS.

Multicultural and social justice focus on Iowa history; different theme each summer. Effective pedagogical and assessment strategies for integrating these themes into K-12 curriculum.

**EDUC 426: Principles of Secondary Education**

(Dual-listed with EDUC 526). (3-0) Cr. 3. F.S.SS.

*Prereq: Senior classification and admitted to Educator Preparation Program*

Introduction to secondary education teaching strategies, lesson planning that provides equitable learning opportunities for all students, classroom management, legal aspects of schools, professional and ethical issues, current educational issues, professional learning communities, and social-justice oriented teaching.

**EDUC 433: Teaching Social Studies in the Primary Grades**

(2-0) Cr. 2. F.S.

*Prereq: EDUC 377, HD FS 224; concurrent enrollment in EDUC 439, SP ED 405, SP ED 458, and EDUC 468I ; Admitted to Educator Preparation Program*

Emphasis is placed on providing equity and justice-oriented social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary grade children.

**EDUC 438: Teaching Mathematics in the Primary Grades**

(2-0) Cr. 2. F.S.

*Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-); concurrent enrollment in EDUC 377, EDUC 468F, EDUC 468G. Admitted to the Educator Preparation Program.*

Develop an understanding of effective mathematics teaching practices situated in equitable pedagogies that support primary students' mathematical understanding.

**EDUC 439: Teaching Science in the Primary Grades**

(2-0) Cr. 2. F.S.

*Prereq: EDUC 377, HD FS 224; concurrent enrollment in EDUC 433, EDUC 468I, SP ED 405. Admitted to the Educator Preparation Program.*

Development and application of effective methods of science teaching that align with standards and best practices. Emphasis is on research-based, equitable teaching practices that provide appropriate science learning experiences in the early elementary grades.

**EDUC 443: The Teaching of Social Studies**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDUC 377, concurrent enrollment in EDUC 378, EDUC 449, EDUC 468B and EDUC 468D; Admitted to the Educator Preparation Program.*

Emphasis is placed on providing equity and justice-oriented social studies learning experiences (e.g. curriculum content, instructional strategies, and assessment) for primary and intermediate grade children.

**EDUC 448: Teaching Children Mathematics**

(3-0) Cr. 3. F.S.SS.

*Prereq: MATH 195 (minimum grade of C-), MATH 196 (minimum grade of C-); concurrent enrollment in EDUC 377, EDUC 468A, EDUC 468C, and EDUC 405; admitted to Educator Preparation Program*

Develop an understanding of effective mathematics teaching practices situated in equitable pedagogies that support elementary students' mathematical understanding.

**EDUC 449: The Teaching of Science**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDUC 377, concurrent enrollment in EDUC 378, EDUC 468B, EDUC 468D and EDUC 443. Admitted to the Educator Preparation Program.*

Development and application of effective methods of science teaching that align with standards and best practices. Emphasis is on research-based, equitable teaching practices that provide appropriate science learning experiences in the elementary grades.

**EDUC 450: Ethnicity and Learning**

(Dual-listed with EDUC 550). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: EDUC 332 or EDUC 333; EDUC 406*

Examination of cultural relevance in education. Development and application of strategies and techniques for implementing multicultural goals and multiethnic perspectives in PreK-12 school classroom settings.

**EDUC 452: Assessment for Literacy and Learning**

(Dual-listed with EDUC 552). (3-0) Cr. 3. F.S.SS.

*Prereq: EDUC 378 or equivalent. Concurrent enrollment in EDUC 488.*

Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

**EDUC 454: Emerging Topics in Educational Technologies**

Cr. 1. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: EDUC 201 or EDUC 203*

Development and application of emerging technology topics related to digital learning. Series of 1 credit on-line learning modules on current technology being used in education and topics being addressed.

These modules extend learning opportunities from other courses and experiences. Required for Learning Technologies Minor.

**EDUC 456: Integrating Technology into Literacy**

(Dual-listed with EDUC 556). (3-0) Cr. 3. F.SS.

*Prereq: EDUC 201 or EDUC 203; EDUC 377*

Methods and strategies used to integrate technology into K-8 literacy. Examination of the use and evaluation of technology appropriate for elementary literacy classrooms.

**EDUC 459: Critical Approaches to Teaching Children's and Adolescent Literature**

(Dual-listed with EDUC 559). (3-0) Cr. 3. F.S.SS.

*Prereq: Admitted to Educator Preparation Program; EDUC 377 and EDUC 378.*

Research and discussion of issues surrounding the classroom use of literature for children and young adults including censorship, diversity, selection, critical literacy and the influences of technology.

Meets U.S. Diversity Requirement

**EDUC 468: Pre-Student Teaching Experience III**

Cr. 1-2. F.S.SS.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods, and instructional experiences with children in a supervised elementary, middle, or high school classroom while engaged in other methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468A: Pre-Student Teaching Experience III: Primary Grades, Reading and Language Arts**

Cr. 1. F.S.SS.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised K-3 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468B: Pre-Student Teaching Experience III: Intermediate Grades, Reading and Language Arts**

Cr. 1. F.S.SS.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468C: Pre-Student Teaching Experience III: Primary Grades, Mathematics**

Cr. 1. F.S.SS.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods, and instructional experiences with children in a supervised K-3 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468D: Pre-Student Teaching Experience III: Intermediate Grades, Science**

Cr. 1. F.S.SS.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468F: Pre-Student Teaching Experience III: Primary Grades Inclusive, Literacy**

Cr. 1. F.S.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468G: Pre-Student Teaching Experience III: Primary Grades Inclusive, Mathematics**

Cr. 1. F.S.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468I: Pre-Student Teaching Experience III: Primary Grades Inclusive, Science**

Cr. 1. F.S.

*Prereq: Admitted to Educator Preparation Program*

Application of current methods and instructional experiences with children in a supervised K-3 inclusive elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468R: Pre-Student Teaching Experience II: Intermediate Grades, Reading Endorsement**

Cr. 1. F.S.SS.

*Prereq: Admitted to Educator Preparation Program; concurrent enrollment in EDUC 378*

Application of current methods and instructional experiences with children in a supervised 3-6 elementary classroom while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 468T: Pre-Student Teaching Experience III: Elementary**

Cr. 2. Repeatable, maximum of 4 credits. F.S.

*Prereq: Admitted to Educator Preparation Program, successful completion of a Level 2 or Level 3 field experience required.*

Application of current methods and instructional experiences with children in a supervised elementary classroom outside of Iowa while engaged in other elementary methods courses. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 475: International Travel Study in Education**

(Dual-listed with EDUC 575). Cr. 1-6. Repeatable, maximum of 3 times. SS.

*Prereq: EDUC 275 Program leader should have accepted participating students to the international travel study. Students enrolled in EDUC 575 (graduate level) must have completed 6 graduate credits to be eligible for the course.*

Seminar-based course for undergraduate and graduate students to develop a better understanding around global issues related to teaching, learning, curriculum, and educational policy through international travel study. 1 to 6 week duration involving study in a country other than the US.

**EDUC 480: Pre-Student Teaching Experience III**

Cr. 0.5-2. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program*

Observation and participation in a variety of school settings after admission to the teacher education program. Permission of area coordinator required prior to enrollment. (S/F grading may be used in some offerings of some sections.).

**EDUC 480A: Pre-Student Teaching Experience III: History/Social Sciences**

(Cross-listed with HIST). Cr. 2. Repeatable, maximum of 2 times. F.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Supervision Level 3.

**EDUC 480B: Pre-Student Teaching Experience III: Physical Science, Chemistry, or Physics**

Cr. 2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of program coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Supervision Level 3.

**EDUC 480C: Pre-Student Teaching Experience III: Mathematics**

Cr. 0.5-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation mathematics in a 5-12 school setting. Permission of mathematics coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Experience Level 3.

**EDUC 480D: Pre-Student Teaching Experience III: Biological Sciences**

Cr. 2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of program coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Supervision Level 3.

**EDUC 480E: Pre-Student Teaching Experience III: English**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of English coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Experience Level 3.

**EDUC 480G: Pre-Student Teaching Experience III: World Languages and Cultures**

Cr. 1-2. Repeatable, maximum of 2 times. F.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of World Languages and Cultures coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Experience Level 3.

**EDUC 480J: Pre-Student Teaching Experience III: Earth Science**

Cr. 2. Repeatable, maximum of 2 times. F.S.

*Prereq: Admitted to the Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of program coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Supervision Level 3.

**EDUC 480K: Pre-Student Teaching Experience III: Music**

(Cross-listed with MUSIC). Cr. 1-2. Repeatable. F.S.

*Prereq: Admission to Educator Preparation Program*

Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 480S: Pre-Student Teaching Experience III: English as a Second Language (ESL)**

(0-4) Cr. 2. Repeatable, maximum of 2 times.

*Prereq: EDUC 280S, ENGL 219/LING 219; ENGL 220/LING 220; Admitted to Educator Preparation Program*

Supervised participation in a school setting. Permission of ESL area coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical experience level 3. Offered on a satisfactory-fail basis only.

**EDUC 480T: Pre-Student Teaching Experience III: Secondary Education**

Cr. 2. Repeatable, maximum of 4 credits. F.S.

*Prereq: Admitted to Educator Preparation Program, successful completion of a Level 2 or Level 3 field experience.*

Supervised participation in a 5-12 school setting outside of Iowa. Permission of content program coordinator required prior to enrollment. Clinical Experience Level 3. Offered on a satisfactory-fail basis only.

**EDUC 480V: Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings**

(Cross-listed with FCEDS). (0-4) Cr. 2. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; FCEDS 380V; admission to Educator Preparation program*

Laboratory experience in foods, textiles, and human development related to family and consumer sciences exploratory programs. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Includes 48 hours practicum and supervised individual teaching. 1/2 day of time needed in schedule. Offered on a satisfactory-fail basis only.

**EDUC 481: Philosophy of Education**

(Dual-listed with EDUC 581). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to philosophy of education. Emphasis is placed on historical and contemporary debates about the nature and purposes(s) of education in a just society. Possible topics include questions such as: When is one justified in claiming to know or to have learned? Who is morally responsible for a learner's education or schooling? What is a just distribution of educational opportunities? How might one teach philosophically?.

**EDUC 486: Methods in Elementary School World Language Instruction**

(Cross-listed with LING, WLC). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language*

Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning.

**EDUC 487: Methods in Secondary School World Language Instruction**

(Cross-listed with LING, WLC). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language; Department Permission*

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning. Admission to teacher education required.

**EDUC 488: Supervised Tutoring in Reading**

(Dual-listed with EDUC 588). (2-2) Cr. 3. F.S.SS.

*Prereq: EDUC 488: EDUC 378 or equivalent; concurrent enrollment in EDUC 452. EDUC 588: Graduate status; concurrent enrollment in EDUC 552.*

Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

**EDUC 490: Independent Study**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490A: Independent Study: Education**

(Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.SS.

*Prereq: 12 credits in MUSIC; Department Permission*

Independent Study in Music.

**EDUC 490C: Independent Study: Curriculum Construction**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490D: Independent Study: Principles of Education**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490E: Independent Study: Methods of Teaching**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490F: Independent Study: Educational Psychology**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490G: Independent Study: Digital Learning**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490H: Independent Study: Honors**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490J: Independent Study: Social and Cultural Studies**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490K: Independent Study: History/Social Sciences**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490L: Independent Study: Literacy Education**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490M: Independent Study: Mathematics Education**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490N: Independent Study: World Language**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490O: Independent Study: Foundations of Education**

Cr. 1-3. F.S.SS.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 490P: Independent Study: Science Education**

Cr. 1-3. F.S.

*Prereq: GPA of 2.5 or more for preceding semester*

**EDUC 495B: Independent Study: Teaching Speech**

(Cross-listed with SP CM). (3-0) Cr. 3. F.

*Prereq: 9 credits in SP CM; minimum GPA of 2.5 in SP CM courses*

Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

**EDUC 497: Teaching Secondary School Mathematics**

(Cross-listed with MATH). (3-0) Cr. 3. F.

*Prereq: 15 credits in college mathematics. Admitted to the Educator Preparation Program.*

Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding.

**EDUC 498: Methods of Teaching History/Social Sciences**

(Cross-listed with HIST). (3-0) Cr. 3. F.S.

*Prereq: Concurrent enrollment in HIST 480A; admission to Educator Preparation Program*

Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

**Courses primarily for graduate students, open to qualified undergraduates:**

**EDUC 501: Foundations of Educational Technology**

(3-0) Cr. 3. F.SS.

*Prereq: Graduate classification*

Educational philosophies and theories of teaching, learning, and technologies. Understanding of how people learn with, and through, educational technology, in many settings. Overview of significant topics in educational technology. Major learning theories, including recent debates in how educators conceive of learning; teaching and learning with technology; new literacies practices; and critical theory.

**EDUC 502: Teaching Mathematics to English Language Learners**

(Cr. 3. S.SS.)

*Prereq:* EDUC 448 or EDUC 497/EDUC 597 for degree students. Classroom teaching experience for non-degree students and in-service teachers

Understanding the needs of various English language learners, learn to use ELLs' language and culture as a resource in mathematics classrooms, and implement research-based instructional strategies that are effective to teach mathematics for ELLs. For pre-service/in-service teachers and others who will work or currently works with English language learners (ELLs).

**EDUC 503: Designing Effective Learning Environments**

(3-0) Cr. 3. F.

*Prereq:* EDUC 501

Application of theories and models of instructional design. Design decision-making based on the analysis of performance problems and instructional inputs. Practical experience with the design and development of instruction and evaluation principles.

**EDUC 504: Evaluating Technology-based Learning Environments**

(Cross-listed with HCI). (3-0) Cr. 3. S.

*Prereq:* EDUC 501

Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

**EDUC 505: Using Technology in Learning and Teaching**

(3-0) Cr. 3. F.S.

*Prereq:* Graduate classification

Teaching and learning using educational technology. Selection and evaluation of digital tools for teaching and learning. Research on instructional technology. Tool software. Trends in computer-based instruction.

**EDUC 506: Social Justice Education and Teaching: Advanced**

(3-0) Cr. 3. F.SS.

Engage with justice-oriented multicultural frameworks for transformative education and education research, understand equity in education in historical and contemporary contexts, develop principled approaches to critical self-reflection, interpret educational situations in justice-oriented ways, and counter inequities in education through curriculum, pedagogy, and research.

**EDUC 508: Algebra in the K-12 Classrooms**

(3-0) Cr. 3. F.

*Prereq:* 6 credits of mathematics; credit or concurrent enrollment in EDUC 448 or EDUC 497 or EDUC 597

Focus on Algebraic reasoning, concepts, and associated procedures in K-12 classrooms, especially middle level. Using algebra and algebraic reasoning to solve a real-life problem. Attention is given to algebraic habits of mind, generalization, representation, and transition from arithmetic algorithms to algebra.

**EDUC 509: Geometry in the K-12 Classrooms**

(3-0) Cr. 3. F.

*Prereq:* 6 credits of mathematics; credit or concurrent enrollment in EDUC 448 or EDUC 497 or EDUC 597

Explore geometry and measurement through research-based pedagogies in K-12 classrooms. An investigative approach involving problem solving, reasoning and proof, connections, and communication are emphasized.

**EDUC 510: Foundations of Game-based Learning**

(Cross-listed with HCI). Cr. 3. S.

*Prereq:* 12 Graduate Credits

Theories, principles and best practices of utilizing games in educational environments. Topics include the theoretical foundations of learning games and game play, identity development in online environments, and assessment of learning in and out of games.

**EDUC 511: Technology Diffusion, Leadership, and Change**

(3-0) Cr. 3. S.

*Prereq:* Admission to graduate study, EDUC 501 or equivalent and EDUC 505 or equivalent

Principles and practices of technology diffusion, leadership and school change. Coursework focuses on technology diffusion broadly and implications on educational contexts. Leadership frameworks and strategies for professional development and organizational change are examined, as well as new literacy practices, critical theory, and current debates in the field.

**EDUC 512: Research Trends in Educational Technology**

(3-0) Cr. 3. F.

*Prereq:* Graduate Classification

Critical review and synthesis of current research trends in educational technology. Designed for students to synthesize knowledge of issues in research, and methods of conducting research in practice.

**EDUC 513: Mathematical Problem Solving in K-12 Classrooms**

(3-0) Cr. 3. S.

*Prereq: 6 credits of mathematics*

Develop problem solving strategies across all strands of mathematics. Issues surrounding the appropriate role of problem solving in K-12 mathematics classrooms are discussed, including distinctions among teaching "about," "for," and "through" problem solving. Emphasis on task modification and mathematical modeling.

**EDUC 514: Introduction to Science Teaching and Learning**

(1-2) Cr. 1-4. SS.

*Prereq: Admission to M.A.T. program*

Introduction to critical issues facing science education, science education goals reflecting contemporary purposes of schooling, and how people learn science.

**EDUC 515: Action Research in Education**

(3-0) Cr. 3. S.

*Prereq: Admission to graduate study.*

Methods of conducting and communicating action research focused on improving educational practices. Develop first cycle of action plan with purpose of investigating an educational setting. Learn to identify problems to investigate, select appropriate research methods, collect and analyze data, and draw conclusions from research.

**EDUC 516: Antiracist Curriculum Development and Implementation**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in Education*

Introduction to historical, sociological, philosophical and pedagogical foundations of antiracist/multicultural education. Examination of causes of racism, and other forms of discrimination from different theoretical perspectives and experiential exercises.

**EDUC 517: Student Teaching**

(Dual-listed with EDUC 417). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program or licensed teacher; approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching.

**EDUC 517A: Student Teaching: Social Studies-Middle School**

(Dual-listed with EDUC 417A). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 517B: Student Teaching: Physical Sciences, Chemistry or Physics**

(Dual-listed with EDUC 417B). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in physical sciences grades 5-12.

**EDUC 517C: Student Teaching: Mathematics**

(Dual-listed with EDUC 417C). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in mathematics grades 5-12.

**EDUC 517D: Student Teaching: Biological Sciences**

(Dual-listed with EDUC 417D). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in biological sciences grades 5-12.

**EDUC 517G: Student Teaching: World Language**

(Dual-listed with EDUC 417G). (Cross-listed with WLC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

**EDUC 517J: Student Teaching: Earth Sciences**

(Dual-listed with EDUC 417J). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in earth sciences grades 5-12.

**EDUC 517M: Student Teaching: Science - Basic**

(Dual-listed with EDUC 417M). Cr. arr. Repeatable. F.S.

*Prereq: Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in basic sciences grades 5-12.

**EDUC 517N: Student Teaching: International**

(Dual-listed with EDUC 417N). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*  
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 517P: Student Teaching: Social Studies-High School**

(Dual-listed with EDUC 417P). Cr. arr. Repeatable. F.S.

*Prereq: GPA 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 517R: Student Teaching: Music-Elementary**

(Dual-listed with EDUC 417R). (Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 517S: Student Teaching: Music-Secondary**

(Dual-listed with EDUC 417S). (Cross-listed with MUSIC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program; approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

**EDUC 518: Secondary Science Methods I**

(Dual-listed with EDUC 418). (3-0) Cr. 3. F.

*Prereq: EDUC 280L or EDUC 514; undergraduate students must register concurrently for EDUC 280A; graduate students must register concurrently for EDUC 591D. Admitted to the Educator Preparation Program.*

Develop an understanding of research-based practices for effective and equitable science teaching that align with state and national standards. Emphasis is on the character and role of science inquiry, teaching behaviors and strategies, and actively engaging students in self-evaluation and evidence-based inquiry learning experiences.

**EDUC 519: Secondary Science Methods II**

(Dual-listed with EDUC 419). (3-0) Cr. 3. S.

*Prereq: EDUC 418 or EDUC 518, undergraduate students must register concurrently for EDUC 480B, 480D, or 480J; graduate students must register concurrently for EDUC 517B, 517D, 517J or 517P.*

Advancing a research-based framework for effective and equitable science teaching rooted in the idea that students need opportunities to make sense of phenomena, and grapple with scientific ideas using authentic science and engineering practices while observing science safety.

**EDUC 520: Bilingualism & The Education of Latinx Youth**

(Dual-listed with EDUC 420). (3-0) Cr. 3. F.

*Prereq: EDUC 405 or EDUC 406*

Introduction to research on bilingualism and examination of the social, historical, and political contexts of Spanish/English education in the U.S. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for Latinx youth.

Meets U.S. Diversity Requirement

**EDUC 521: Introduction to the Teaching and Learning of Mathematics and Science**

Cr. 3. SS.

*Prereq: Admission into graduate program secondary mathematics or science education*

Provides future secondary teachers with opportunities to explore learning theories and approaches for teaching mathematics and science, especially those related to constructivism and social constructivism. Opportunities to understand how students learn mathematics and science and how to assess secondary students' understanding in these content areas. Includes 12-hours (2 full days) of classroom observation in a nearby middle or high school and may include other practical experiences in teaching math and science.

**EDUC 522: Teaching and Learning Iowa History**

(Dual-listed with EDUC 422). Cr. 3. SS.

Multicultural and social justice focus on Iowa history; different theme each summer. Effective pedagogical and assessment strategies for integrating these themes into K-12 curriculum.

**EDUC 523: Teaching Students who Struggle in Mathematics**

(3-0) Cr. 3. S.

*Prereq: EDUC 438 or EDUC 448*

Explore and implement research-based instructional practices with K-8 students who are struggling with learning essential mathematical concepts.

**EDUC 526: Principles of Secondary Education**

(Dual-listed with EDUC 426). (3-0) Cr. 3. F.S.SS.

*Prereq: Senior classification and admitted to Educator Preparation Program*

Introduction to secondary education teaching strategies, lesson planning that provides equitable learning opportunities for all students, classroom management, legal aspects of schools, professional and ethical issues, current educational issues, professional learning communities, and social-justice oriented teaching.

**EDUC 529: Educational Psychology and the Secondary Classroom**

(3-0) Cr. 3. SS.

*Prereq: Bachelor's degree; admission into a graduate level teacher licensure program*

Analysis of psychological research theory related to learning, cognition, motivation, individual differences, and teaching techniques. Student and classroom assessment to facilitate positive learning outcomes. Adaption and differentiation of instruction to meet individual learners' needs. This course can only be used for teacher licensure programs. It is not acceptable for use in meeting the non-licensure M.Ed., M.S. or Ph.D. requirements.

**EDUC 533: Theories of Learning**

(Cross-listed with PSYCH). (3-0) Cr. 3. F.

Major theories of learning and cognition in educational settings. Emphasis on behavioral, cognitive, constructivist, and sociocultural theories and their implications for educational policy and practice.

**EDUC 536: Sociocultural Theories of Learning**

(3-0) Cr. 3. SS.

Study of sociocultural learning theories, including how knowledge is constructed through interactions and how learning is embedded in these interactions. Examination of how particular sociocultural approaches to learning can inform responsive teaching and responsive research, and impact opportunities for educational equity.

**EDUC 541: How People Learn: Implications for Teaching Science and Mathematics**

(3-0) Cr. 3.

Examination of theories of learning and motivation in science and mathematics and their application to teaching and current research in science and mathematics education.

**EDUC 546: Advanced Pedagogy in Science Education**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Advanced examination of effective and equitable science teaching, emphasizing teacher behaviors and strategies, methods of self-evaluation, and current issues and trends in science education.

**EDUC 547: Nature of Science**

(Dual-listed with EDUC 347). (3-0) Cr. 3.

*Prereq: Admitted to the Educator Preparation Program (Secondary Science Education) or permission of instructor*

The history, philosophy, and sociology of science, how scientific knowledge differs from other forms of knowledge, and the relationship of the Nature of Science to science teaching and learning.

**EDUC 548: Restructuring Science Activities**

(3-0) Cr. 3. SS.

*Prereq: Admitted to Educator Preparation Program or teaching license*

Modification of laboratory activities and other everyday science activities so they are more congruent with how students learn, the nature of science, and national standards.

**EDUC 550: Ethnicity and Learning**

(Dual-listed with EDUC 450). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: EDUC 332 or EDUC 333; EDUC 406*

Examination of cultural relevance in education. Development and application of strategies and techniques for implementing multicultural goals and multiethnic perspectives in PreK-12 school classroom settings.

**EDUC 551: Foundations of Reading and Language Arts**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: Teaching license*

Analyzing, discussing, and researching the theory and practice of current literacy issues.

**EDUC 552: Assessment for Literacy and Learning**

(Dual-listed with EDUC 452). (3-0) Cr. 3. F.S.SS.

*Prereq: EDUC 378 or equivalent. Concurrent enrollment in EDUC 488.*

Identification, analysis and correction of reading problems in five areas: print knowledge, integration of print knowledge, oral reading fluency, vocabulary, and comprehension.

**EDUC 553: Teaching Adolescents who Struggle with Reading**

(Cross-listed with SP ED). (3-0) Cr. 3. F.S.

*Prereq: Teaching license or senior status*

Instructional strategies for enhancing the fluency, vocabulary and comprehension of adolescents with reading difficulties. Attention to content-area reading materials and strategies.

**EDUC 555: Literacy, Leadership, and Advocacy**

(3-0) Cr. 3. S.

*Prereq: Graduate Standing*

Examination of the roles of literacy specialists in diverse pre-K-12 schools and communities. Particular focus placed on current theories, research, standards, and policies relative to literacy processes and instruction, including culturally responsive literacy; successful methods of supporting teachers and other school personnel in planning, implementing, and evaluating literacy instruction for all students.

**EDUC 556: Integrating Technology into Literacy**

(Dual-listed with EDUC 456). (3-0) Cr. 3. F.SS.

*Prereq: EDUC 201 or EDUC 203; EDUC 377*

Methods and strategies used to integrate technology into K-8 literacy. Examination of the use and evaluation of technology appropriate for elementary literacy classrooms.

**EDUC 558: Perspectives on Reading Comprehension**

(3-0) Cr. 3. F.

*Prereq: Graduate standing*

Critical examination of the topics central to the study of reading comprehension, including processes, development, contexts, motivation, teaching and learning, and assessment. Reading and discussion of research literature in reading comprehension and comprehension instruction.

**EDUC 559: Critical Approaches to Teaching Children's and Adolescent Literature**

(Dual-listed with EDUC 459). (3-0) Cr. 3. F.S.SS.

*Prereq: Admitted to Educator Preparation Program; EDUC 377 and EDUC 378.*

Research and discussion of issues surrounding the classroom use of literature for children and young adults including censorship, diversity, selection, critical literacy and the influences of technology. Meets U.S. Diversity Requirement

**EDUC 565: Literacy: Connecting Research, Policy and Practice**

(3-0) Cr. 3. F.S.

*Prereq: Graduate standing*

Critical examination of current policy initiatives and reform efforts that affect how literacy is viewed, assessed, and practiced, as well as how literacy professionals are prepared for their roles in public schools and colleges.

**EDUC 567: Teaching Secondary Learners with Mathematics Difficulties**

(Cross-listed with SP ED). (3-0) Cr. 3.

*Prereq: Secondary teaching experience*

Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

**EDUC 568: New Media Literacies: Understanding Research and Practice**

(3-0) Cr. 3. F.

*Prereq: Graduate Standing*

Designed to increase awareness and understanding of critical issues surrounding the evolving concept of literacy and examine the effect that technology has on the literacy we use every day, teach in our schools, and need in order to function as 21st century citizens.

**EDUC 569: Critical Disciplinary Literacy across the Content Areas**

Cr. 3. S.

*Prereq: Graduate classification*

Guided by frameworks of critical literacies and sociocultural theories of disciplinary literacy, students investigate the specialized and unique histories, discourses, practices, norms, and skills of select disciplines/programs/fields. Course is intended/differentiated for graduate students from various disciplines/programs/fields. Students will design their own inquiry-based critical disciplinary literacy research project.

**EDUC 575: International Travel Study in Education**

(Dual-listed with EDUC 475). Cr. 1-6. Repeatable, maximum of 3 times. SS.

*Prereq: EDUC 275 Program leader should have accepted participating students to the international travel study. Students enrolled in EDUC 575 (graduate level) must have completed 6 graduate credits to be eligible for the course.*

Seminar-based course for undergraduate and graduate students to develop a better understanding around global issues related to teaching, learning, curriculum, and educational policy through international travel study. 1 to 6 week duration involving study in a country other than the US.

**EDUC 577: Historical Perspectives on Technology Equity: Implications for Policy and Practice**

(3-0) Cr. 3. S.

*Prereq: Graduate Status*

Examination of the definition and origin of the "digital divide" and its relationship to the histories of racism, sexism, classism, and imperialism/globalization. Exploration of the historical, political, sociological, and economic factors that engender global inequities. Exploration and analysis of research-based alternative approaches to alleviating technology inequities in educational settings.

**EDUC 578: Pedagogy, Equality of Opportunity, and the Education of Blacks in the United States**

(3-0) Cr. 3.

*Prereq: Graduate or senior level status or permission of instructor*

Examination of the historical, social, economic, political, and legal contexts of the education of Blacks in the U.S. Educational theories and philosophies, Critical Race Theory and Black Feminist Thought form the framework for investigating broad-based, multiple issues of education for Blacks in the U.S. as they are situated in the prevailing dominant views.

**EDUC 580: Studies in the Foundations of Education in the United States**  
(3-0) Cr. 3. SS.

*Prereq: Admitted to graduate Educator Preparation Program*

Introduction to the historical and contemporary landscape of schooling in the United States. Emphasis is placed on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching and learning in public schools. Designed for students in a graduate licensure program.

**EDUC 581: Philosophy of Education**

(Dual-listed with EDUC 481). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to philosophy of education. Emphasis is placed on historical and contemporary debates about the nature and purposes(s) of education in a just society. Possible topics include questions such as: When is one justified in claiming to know or to have learned? Who is morally responsible for a learner's education or schooling? What is a just distribution of educational opportunities? How might one teach philosophically?.

**EDUC 582: History of Public Schooling in the United States**  
(3-0) Cr. 3.

*Prereq: Graduate classification*

Examination of the history of public schools in the United States. Historicizes the development of an educational system marked by both profound expectations and extreme inequalities. Readings include primary and secondary materials.

**EDUC 583: Inequality & Schooling in the U.S.**

(3-0) Cr. 3. S.

*Prereq: Graduate status*

General introduction to the disciplinary tools of social and cultural studies to examine historical and contemporary inequalities and attempts to disrupt them in U.S. schools. Required for all TLLP doctoral students.

**EDUC 588: Supervised Tutoring in Reading**

(Dual-listed with EDUC 488). (2-2) Cr. 3. F.S.SS.

*Prereq: EDUC 488; EDUC 378 or equivalent; concurrent enrollment in EDUC 452. EDUC 588: Graduate status; concurrent enrollment in EDUC 552.*

Using formal and informal diagnostic procedures to plan and implement individualized reading instruction. Field experience in tutoring and a related research project.

**EDUC 590: Special Topics**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590A: Special Topics: Curriculum**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590B: Special Topics: Educational Technology**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590C: Special Topics: Science Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590D: Special Topics: Secondary Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590F: Special Topics: Social and Cultural Studies**

Cr. 1-3. Repeatable. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590G: Special Topics: Mathematics Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590I: Special Topics: Elementary Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590J: Special Topics: World Language Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590K: Special Topics: Educational Psychology**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590L: Special Topics: Social Studies Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 590M: Special Topics: Literacy Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 591: Graduate Level Pre-Student Teaching Experience**

(0-2) Cr. 0.5-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 15 graduate credits in special area; admission to teacher education.*

Supervised pre-student teaching experience in secondary schools.

Supervision level 3.

**EDUC 591C: Supervised Field Experience: Elementary Education**

(0-2) Cr. 0.5-6. F.S.SS.

*Prereq: 15 graduate credits in special area*

Supervised on-the-job field experience in special area.

**EDUC 591D: Graduate Level Pre-Student Teaching Experience: Secondary Science**

(0-2) Cr. 0.5-6. Repeatable. F.S.

*Prereq: 15 graduate credits in specialty area; admission to teacher education*

Supervised pre-student teaching experience in secondary science education. Supervision level 3.

**EDUC 591G: Graduate Level Pre-Student Teaching Experience: Secondary Mathematics Education**

(0-2) Cr. 0.5-6. Repeatable. F.S.

*Prereq: 15 graduate credits in specialty area; admission to teacher education*

Supervised pre-student teaching experience in mathematics education. Supervision level 3.

**EDUC 591M: Supervised Field Experience: Literacy**

(0-2) Cr. 0.5-6. F.S.SS.

*Prereq: 15 graduate credits in special area*

Supervised on-the-job field experience in special area.

**EDUC 591N: Supervised Field Experience: College Teaching**

(0-2) Cr. 0.5-6. Repeatable, maximum of 3 times. F.S.

*Prereq: 15 graduate credits in special area.*

Supervised on-the-job field experience in special area.

**EDUC 593: Workshops**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593A: Workshops: Curriculum**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593B: Workshops: Educational Technology**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593C: Workshops: Science Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593D: Workshops: Secondary Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593F: Workshops: Social and Cultural Studies**

Cr. 1-3. Repeatable. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593G: Workshops: Mathematics Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593I: Workshops: Elementary Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593J: Workshops: World Language Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593K: Workshops: Educational Psychology**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593L: Workshops: Social Studies Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 593M: Workshops: Literacy Education**

Cr. 1-3. F.S.

*Prereq: 9 graduate credits in Education*

**EDUC 594: Contemporary Curriculum Theory and Principles**

(3-0) Cr. 3. F.

*Prereq: Graduate standing*

Theoretical and historical perspectives of contemporary curriculum; social, cultural, and epistemological aspects of curriculum theory; diverse philosophical positions and approaches to understanding curriculum as it relates to educational settings.

**EDUC 595: Teaching Disciplinary Literacy**

(Dual-listed with EDUC 395). (3-0) Cr. 3. F.S.SS.

Analysis and application of strategies to enhance students' disciplinary literacy development in middle and secondary school setting. Research paper related to a course topic for EDUC 595.

**EDUC 597: Teaching Secondary School Mathematics**

(3-0) Cr. 3. F.

*Prereq: 15 credits in college mathematics; Admitted to the Educator Preparation Program.*

Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding.

**EDUC 599: Creative Component**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education*

Creative Component.

**EDUC 599A: Creative Component: Curriculum**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599B: Creative Component: Educational Technology**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599C: Creative Component: Science Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599D: Creative Component: Secondary Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599F: Creative Component: Social and Cultural Studies**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599G: Creative Component: Mathematics Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599I: Creative Component: Elementary Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599J: Creative Component: World Language Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599K: Creative Component: Educational Psychology**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599L: Creative Component: Social Studies Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***EDUC 599M: Creative Component: Literacy Education**

Cr. 1-3. F.S.SS.

*Prereq: 9 graduate credits in Education***Courses for graduate students:****EDUC 602: Educational Inquiry in Action**

(3-0) Cr. 3. S.

*Prereq: EDUC 601*

Opportunities to learn about a variety of faculty research in the School of Education, engage faculty in conversation about their research, and continue reflecting on the theory and practice of educational inquiry. Offered on a satisfactory-fail basis only.

**EDUC 603: Advanced Learning Environments Design**

(Cross-listed with HCI). (3-0) Cr. 3. S.

*Prereq: EDUC 503*

Exploration of advanced aspects of the learning environments design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Theory and research in educational technology provides the foundation for design decisions. Focus on current trends in learning environment design and the production and use of educational technology.

**EDUC 608: Social Media and Education**

(Cross-listed with HCI). (3-0) Cr. 3. F.

*Prereq: 12 graduate credits*

Increase understanding of how social media is changing traditional concepts of identity, literacy, citizenship and more. Develop an online social presence through active social media participation.

**EDUC 610: Digital Learning in Teacher Education**

(3-0) Cr. 3. F.

Research on using technology in teacher education programs. Application examples studied. Field component involving relating material from class to a teacher education situation.

**EDUC 611: Philosophical Foundations of Educational Technology**

(3-0) Cr. 3.

*Prereq: 12 graduate credits in Education*

Exploration of philosophies of science that serve as foundations for research and practice in educational technology, including positivism, post-positivism, interpretivism/constructivism, and critical theory. The roles of language, nature of truth and reality, and acceptable ways of knowing are explored in terms of their implications for educational technology design, delivery, research, and scholarship.

**EDUC 612: Socio-psychological Foundations of Educational Technology**

(3-0) Cr. 3.

*Prereq: 12 graduate credits in Education*

Examining socio-psychological theories of educational technology, their historical development, and their implications for the research and design of learning and instructional environments. Emphasis on cognitive and social constructivist paradigms and the creation and use of learning environments supported by technology.

**EDUC 615: Seminar**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615A: Seminar: Curriculum**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615B: Seminar: Educational Technology**

(0-2) Cr. 1. F.S.

Selected topics in educational technology; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615C: Seminar: Science Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615D: Seminar: Secondary Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615F: Seminar: Social and Cultural Studies**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615G: Seminar: Mathematics Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615I: Seminar: Elementary Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615J: Seminar: World Language Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615K: Seminar: Educational Psychology**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615L: Seminar: Social Studies Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 615M: Seminar: Literacy Education**

(0-2) Cr. 1. F.S.

Selected topics in curriculum and instruction; an analysis of research potential; evaluation of impact upon the profession; implications for additional research.

**EDUC 680: Motivation in Educational Contexts**

(3-0) Cr. 3.

*Prereq: Graduate Status.*

Current conceptualizations and research regarding motivation in educational contexts from Pre-K through college. Understanding historical development of a body of research, including critical examination of inclusivity. Implications for education and practice.

**EDUC 690: Advanced Special Topics**

Cr. arr. Repeatable.

*Prereq: 9 graduate credits in Education*

**EDUC 690A: Advanced Special Topics: Curriculum**

Cr. arr. Repeatable.

*Prereq: 9 graduate credits in Education*

**EDUC 690B: Advanced Special Topics: Educational Technology**

Cr. arr. Repeatable.

*Prereq: 9 graduate credits in Education*

## Educational Administration (EDADM)

***Any experimental courses offered by EDADM can be found at:****registrar.iastate.edu/faculty-staff/courses/explisting/ (http://  
www.registrar.iastate.edu/faculty-staff/courses/explisting/)***Courses primarily for graduate students, open to qualified undergraduates:****EDADM 541: Principles of Inclusive Educational Leadership**

(3-0) Cr. 3. F.S.SS.

*Prereq: Teacher licensure and permission of instructor*

Basic principles of educational organizations, including an understanding of organizational behavior and theoretical approaches to administration. Exploration of substantive elements related to school reform, such as the change process, current issues in education, and developing a shared vision and mission around inclusive leadership.

**EDADM 551: Supervision for Learning Environments**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Study of effective classroom instructional practices that reflect current principles of learning. Understanding and practice of supervisory techniques that support teachers in improving the teaching and learning process, including skills in observational data collection, data analysis, collaboration, and conferencing skills.

**EDADM 552: Contemporary Issues in Principal Leadership**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Develops an equity-centered principal and building-level leadership understanding of school/work and community context. Emphasis placed on understanding essential tasks of building-level leadership and management; connecting management and operational decisions to mission and vision; building expertise in instructional leadership to improve teacher practice and student learning; leveraging school culture/atmosphere to provide opportunities and success for all students and their learning needs; advocacy for resources; and, examining the role of principals in a changing world.

**EDADM 554: Leading School Reform**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Study of principles of transformational leadership and collaborative decision-making skills. Leadership activities that facilitate the development of a school culture that embraces change and school reforms that result in high quality schools dedicated to improved student achievement.

**EDADM 556: Leading for Equitable Learning in School Systems**

(3-0) Cr. 3.

*Prereq: EDADM 541*

This course builds on Ed Admin 541, Principles of Educational Leadership, to explore more fully how a leader can establish a vision for equitable and excellent learning. It provides historical, practical and theoretical perspectives on the culture and systems of schools, particularly in an age of accountability.

**EDADM 557: Human Resource Development for Learning**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Leadership theory and practice that focuses on the professional development of school staff to promote improved student learning. Principles of school personnel evaluation; legal issues related to hiring, retention, and dismissal; evaluation models for professional and classified staff; and effective professional development models to support lifelong learning and reflective practice.

**EDADM 558: Diverse Learning Needs**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

This course is designed to address practical and ethical dimensions of school leadership, especially related to disability status, race, gender, language status, and other minoritized statuses. Specific focus will be on the various ecological contexts of the school, the community, and the family as means of making effective use of multiple resources to enrich education.

**EDADM 559: Curriculum Leadership**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Analysis of PK-12 school curricula (hidden, explicit, and null), including current and historical curriculum and instructional issues; design, development, and evaluation of instructional materials. Promoting a vision of learning and instructional program conducive to student learning and staff professional growth. Examining the role curricula play in maintaining and advancing bodies of thought, norms, and historic attitudes. Draws on critical curriculum leadership theories to promote socially just curriculum leadership.

**EDADM 575: Education Law and Ethics**

(3-0) Cr. 3. F.S.SS.

*Prereq: EDADM 541*

Examination of constitutional, statutory, and judicial provisions as a basis for the legal operation of educational institutions. Rights and ethical responsibilities of school leaders are examined in relation to their roles and responsibilities with boards, other school personnel, and students.

**EDADM 590: Special Topics**

Cr. 1-4. Repeatable.

*Prereq: 9 credits in education***EDADM 591: Supervised Field Experience**

Cr. 1-6. Repeatable.

*Prereq: EDADM 541 and admission to program and instructor's approval*

Supervised on-the-job field experience in special areas.

**EDADM 591A: Supervised Field Experience: Elementary Principal**

Cr. 1-6. Repeatable.

*Prereq: EDADM 541 and admission to program and instructor's approval*

Supervised on-the-job field experience in special areas.

**EDADM 591B: Supervised Field Experience: Secondary Principal**

Cr. 1-6. Repeatable.

*Prereq: EDADM 541 and admission to program and instructor's approval*

Supervised on-the-job field experience in special areas.

**EDADM 593: Workshops**

Cr. 1-4.

*Prereq: 9 credits in education***EDADM 599: Creative Component Development**

Cr. 1-3.

*Prereq: 9 credits in educational administration***Courses for graduate students:**

**EDADM 615: Seminar**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615A: Seminar. Client Focus**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615B: Seminar. Research**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615C: Seminar. Quality Improvement**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615D: Seminar. Special Services**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615E: Seminar. Assessment**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 615F: Seminar. Leadership**

Cr. 1-3. Repeatable.

In-depth study of administrative topics of contemporary interest and importance.

**EDADM 620: Program Induction Leadership Seminar**

(3-0) Cr. 3. SS.

*Prereq: EDADM 541*

Assessment of candidate skill areas, including communication, leadership, technology, and team facilitation for the development of an individualized learning plan for the program. Orientation to program expectations and leadership challenges in the context of schooling for a global society.

**EDADM 621: Aligning the System for Student Achievement**

(5-0) Cr. 5. F.

*Prereq: EDADM 541*

Alignment of system goals and leadership theory with student achievement, governance, systems thinking, and communication and collaboration with various publics.

**EDADM 622: Maximizing Human and Financial Resources for Student Achievement**

(3-0) Cr. 3. S.

*Prereq: EDADM 541*

Allocation of system resources to enhance student achievement; human resource development and negotiations; and coaching and evaluating the administrative team.

**EDADM 623: Mid-Program Leadership Seminar**

(1-0) Cr. 1. SS.

*Prereq: EDADM 541*

Mid-program assessment of candidate progress and exploration of leadership strategies for working with diverse populations.

**EDADM 624: School Finance**

(2-0) Cr. 2. SS.

*Prereq: EDADM 541*

General issues of school finance and managing a school district's financial responsibilities. Role of the federal, state and local governments in educational finance, tax issues, and structures; budgeting procedures; and financial analysis and accountability. Includes attendance at selected sessions of the Iowa School Business Management Academy in the spring and two additional class sessions during the summer.

**EDADM 625: Social Justice Leadership in Organizations**

(4-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: Graduate standing*

Study of the principles of transformative leadership and leadership for social justice. Exploration of scholarly and practitioner-based perspectives on equitable school organizations, with particular emphasis on how to develop culturally responsive and community oriented systems-level leadership.

**EDADM 626: Equitable School Finance**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: Graduate standing*

Examine the equitable management of a school district's financial responsibilities. Coursework addresses the role of the federal, state, and local governments in educational finance, tax issues, and structures; bonding; budgeting procedures; and financial analysis and accountability. Student attendance required at the annual Iowa School Business Management Academy.

**EDADM 627: Transformative Instructional Leadership**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Graduate status*

Accountability strategies for applying leadership theory to student achievement, evaluation, governance, systems thinking, change agency, and communication and collaboration with various publics. Engage with the PSEL and NELP standards for administrators and districts, coach and evaluate their administrative team. Conduct an analysis of PK-12 school curricula (hidden, explicit, and null), including current and historical curriculum and instructional issues; design, development, and evaluation of instructional materials. Develop a vision of learning and instructional program that promotes student learning and staff professional growth. Examine the role curricula play in maintaining and advancing bodies of thought, norms, and historic attitudes. Utilize critical curriculum leadership theories to promote socially just curriculum and instructional leadership. Clinical field work requirement embedded in course- 50hrs per course to meet the required 400 hrs. total.

**EDADM 631: Achieving Results Through Accountability Strategies**

(5-0) Cr. 5. F.

*Prereq: EDADM 541*

Accountability strategies for applying leadership theory to student achievement, governance, systems thinking, change agency, and communication and collaboration with various publics.

**EDADM 632: Using System Assets to Create a Culture of Learning**

(3-0) Cr. 3. S.

*Prereq: EDADM 541*

Leadership strategies to promote a culture of high student achievement; effective human capital management, including recruitment and induction of new personnel; and effective communication with parents and other patrons.

**EDADM 633: Career Induction Leadership Seminar**

(1-0) Cr. 1. SS.

*Prereq: EDADM 541*

Development of entry plan for creating a culture of collaboration; professional growth plan for first year in new position; and authentic performance assessment of values and beliefs platform.

**EDADM 634: School Business Management and Accountability**

(2-0) Cr. 2. SS.

*Prereq: EDADM 541*

Management of school operations; accountability and ethical business practices; risk management; school plant operations, food service and student transportation. Includes attendance at selected sessions of the Iowa School Business Management Academy in the spring and two additional class sessions during the summer.

**EDADM 635: Ethical Governance and Policy**

(3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: Graduate standing*

Explores ethics to support equitable systems-level administrative practice, with attention to the development of personal and professional codes of ethics and social justice. Examine constitutional, statutory, and judicial provisions as a basis for the legal operation of educational institutions which serve school boards, school personnel, students, and communities.

**EDADM 636: Culturally Responsive Leadership**

(3-0) Cr. 3.

*Prereq: Admission to the Education Doctorate program*

Culturally Responsive Leadership as a pillar of social justice in educational settings. Historical origins of and emerging frameworks of Culturally Responsive Leadership; contextualizing how educational leaders can embed culturally responsive practices.

**EDADM 637: Equity in HR and Fiscal Management**

(3-0) Cr. 3. Alt. SS., offered odd-numbered years.

*Prereq: Admission to the Ed.D. Program*

Hiring of personnel and management of school operations; accountability and ethical business practices; risk management; school plant operations, food service and student transportation. Includes attendance at selected sessions of the Iowa School Business Management Academy at the end of the spring term and three additional class sessions during the summer. SBO Academy - 18 contact hours on topics related to legal governance, human resources, risk management insurance, support services: transportation, nutrition services, facility planning and management and fiscal management will be a part of the Iowa School Business Management Academy (ISBMA).

**EDADM 651: Ethics, Spirituality, and Social Justice in Administrative Practice**

(3-0) Cr. 3. Alt. SS., offered even-numbered years.

Exploration of ethical models and practice of educational administrators. Participants develop personal and professional codes of ethics: define concepts of care, spirituality, democracy, equity, diversity, and social justice; and explain how those concepts relate to students' academic and social success. Case studies offer opportunities to consider moral and legal consequences of decision-making. Participants develop their own vision of leadership.

**EDADM 690: Advanced Special Topics**

Cr. 1-3. Repeatable.

*Prereq: 9 credits in educational administration*

**EDADM 691: Clinical Dilemmas of Practice**

Cr. 1-3. Repeatable, maximum of 3 credits.

*Prereq: EDADM 541, admission to program, and instructor's approval*

Supervised on-the-job field leadership experience in clinical dilemmas of practice. Offered on a satisfactory-fail basis only.

**EDADM 699: Dissertation Research**

Cr. arr. Repeatable.

*Prereq: 9 credits in education*

## Educational Leadership and Policy Studies (EL PS)

*Any experimental courses offered by EL PS can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**EL PS 591: Social Justice Field Experience**

Cr. 1-3. F.S.SS.

*Prereq: EL PS 620*

Supervised field experience in equity and social justice inside/outside higher education.

**Courses for graduate students:**

**EL PS 615: Thematic Seminars**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615A: Thematic Seminars: Communication and Team Building**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615B: Thematic Seminars: Governance, Politics and Policies**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615C: Thematic Seminars: Law, Equity, Equality**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615D: Thematic Seminars: Ethics, Justice, and Caring**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615E: Thematic Seminars: Problem Solving and Planning**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 615F: Thematic Seminars: Critical and Creative Thinking**

Cr. 1. F.S.SS.

*Prereq: Admission to educational leadership doctoral program*

**EL PS 616: Capstone Experience**

Cr. 3. F.S.

*Prereq: 4 credits of EL PS 615*

This experience is designed to explore a topic addressed in one of the thematic seminars. The product of the capstone experience is a written paper of sufficient quality to be submitted to a scholarly journal for review.

**EL PS 620: Education for Social Justice**

(3-0) Cr. 3. F.

Introduction to social justice theory, research, and practice from a variety of theoretical perspectives in the context of education and broader society.

**EL PS 621: Pedagogies of Dissent**

(Cross-listed with WGS). (3-0) Cr. 3. S.

*Prereq: EL PS 620*

Critical examination of the theoretical foundations of contemporary and historical pedagogical traditions that seek to challenge the status quo, expand justice, and deepen democracy.

**EL PS 622: Decolonizing Praxis**

(3-0) Cr. 3. S.

*Prereq: EL PS 620*

Critically probes the philosophical and historical foundations of indigenous epistemologies and knowledge systems. Examination of policy, social, theoretical, research, and P-20 educational issues from a decolonial perspective.

**EL PS 624: Critical Race Theory in Education**

(3-0) Cr. 3. SS.

Exploration of the central tenets of critical race theory. Examination of policy, social and educational issues from a critical race perspective.

**EL PS 625: Gender and Sexuality in Education**

(3-0) Cr. 3. SS.

Exploration of gender and sexuality in education.

**EL PS 626: Social Justice and Social Change in Education**

(3-0) Cr. 3. F.

*Prereq: EL PS 621*

An examination of how changes in the interest of social justice have occurred historically in education. Exploration of social movements and theories of social change.

**EL PS 630: Education Policy and Analysis**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Advanced graduate standing*

Introduction to current theoretical, practical, and research-based policy debates related to the P-20 educational system. Critical analysis and evaluation of government policies, initiatives, funding, and other regulatory levers related to education. Intensive reading and discussion of the nature of theory, evidence, practice of education policy.

**EL PS 651: Social Foundations of Education**

(3-0) Cr. 3.

*Prereq: Graduate standing and admission to Ed.D. program*

Introduction to the historical and contemporary landscape of P-20 schooling in the United States. Emphasis on topics and tensions in the relationship between school and society (e.g. equity of access to education and competing purposes of education) and the implications of these topics and tensions for teaching, learning, and leadership in schools across the P-20 continuum.

**EL PS 652: Organizational Theory in P-20 Systems**

(3-0) Cr. 3. S.

*Prereq: Graduate standing and admission to Ed.D. program*

Theory of inclusive leadership and organizations for the Education Doctorate program in the School of Education. Topics for practitioner-scholars related to educational leadership, current issues in the field, and program success.

**EL PS 653: Contemporary Issues of Equity and Diversity**

(3-0) Cr. 3.

*Prereq: Graduate standing and admission to Ed.D. program*

Contemporary issues of equity and diversity across P-20+ school settings. Relevant history, philosophy, theory, and research is highlighted to understand how equity and diversity is conceptualized, addressed, researched, and contextualized at micro and macro levels of educational settings.

**EL PS 654: Scholar-Practitioner Inquiry**

(3-0) Cr. 3.

*Prereq: Graduate standing and admission to Ed.D. program*

Introductory doctoral research course addresses the fundamental concepts and procedures that form the foundations of empirical research in the social sciences and education. Orient scholar-practitioners regarding how to design an empirical research study that identifies a problem of practice, and developing the necessary knowledge and skills to complete an action research dissertation.

**EL PS 655: Qualitative Inquiry in P-20 Education**

(3-0) Cr. 3. S.

*Prereq: Admission to the Ed.D. in Education program*

Qualitative research approaches and methods for applied research in P-20 education settings; research designs, data collection, and data analysis with a focus on action research.

**EL PS 657: Dissertation in Practice Seminar**

(3-0) Cr. 3.

*Prereq: Admission to Ed.D. degree program*

Development of dissertation in practice proposal. Formulating research questions, theoretical/conceptual frameworks, literature review, research design, and methodology.

## Electrical Engineering (E E)

***Any experimental courses offered by E E can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**E E 166: Professional Programs Orientation**

(Cross-listed with CPR E). Cr. R. F.S.

(1-0) Overview of the nature and scope of electrical engineering and computer engineering professions. Overview of portfolios. Departmental rules, advising center operations, degree requirements, program of study planning, career options, and student organizations. Offered on a satisfactory-fail basis only.

**E E 185: Introduction to Electrical Engineering and Problem-Solving I**

(2-2) Cr. 3. F.S.

*Prereq: (MATH 143 or satisfactory scores on mathematics placement examinations); credit or concurrent enrollment in MATH 165*

Project based examples from electrical engineering. Systematic thinking process for engineering problem solving. Group problem solving. Mathematical, conceptual and computer based projects. Solving engineering problems and presenting solutions through technical reports and oral presentations. Solutions of engineering problems using computation tools and basic programming. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**E E 186: Introduction to Electrical Engineering and Problem Solving II**  
(0-2) Cr. 1. S.

*Prereq: E E 185*

Project based and hands on continuation of 185. Group skills needed to work effectively in teams. Individual interactive skills for small and large groups. Learning to use tools and methods for solving electrical engineering problems.

**E E 201: Electric Circuits**

(3-3) Cr. 4. F.S.

*Prereq: PHYS 231; 231L; credit or concurrent enrollment in MATH 267*

Emphasis on mathematical tools. Circuit elements (resistors, inductors, capacitors) and analysis methods including power and energy relationships. Network theorems. DC, sinusoidal steady-state, and transient analysis. AC power. Frequency response. Two port models. Diodes, PSpice. Laboratory instrumentation and experimentation. Credit for only E E 201 or 442 may be used towards graduation.

**E E 224: Signals and Systems I**

(3-3) Cr. 4. F.S.

*Prereq: E E 201; MATH 267*

Mathematical preliminaries. Introduction to signals and systems. Signal manipulations. System properties. LTI systems, impulse response and convolution. Fourier Series representation and properties. Continuous and discrete-time Fourier Transforms and properties. Sampling and reconstruction. Modulation and demodulation. Applications and demonstrations using Matlab.

**E E 230: Electronic Circuits and Systems**

(3-3) Cr. 4. F.S.

*Prereq: E E 201; MATH 267*

Frequency domain characterization of electronic circuits and systems, transfer functions, sinusoidal steady state response. Time domain models of linear and nonlinear electronic circuits, linearization, small signal analysis. Stability and feedback circuits. Operational amplifiers, device models, linear and nonlinear applications, transfer function realizations. A/D and D/A converters, sources of distortions, converter linearity and spectral characterization, applications. Design and laboratory instrumentation and measurements.

**E E 232: Professional and Ethical Issues in Electrical and Computer Engineering**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: COM S 227 or E E 285*

Professional and ethical issues in electrical and computer engineering. Soft skills, including communication and leadership skills, and how they relate to the engineering profession. Case studies illustrating ethical decision making in an engineering context and differentiating between moral and professional ethics. Issues of diversity, equity, and inclusion in the engineering profession.

**E E 261: Transfer Orientation**

(Cross-listed with CPR E). Cr. R.

Introduction to the College of Engineering and the engineering profession specifically for transfer students. Information concerning university and college policies, procedures, and resources. Offered on a satisfactory-fail basis only.

**E E 285: Problem Solving Methods and Tools for Electrical Engineering**  
(3-3) Cr. 4.

Integration of field-specific computational tools for practically solving electrical engineering problems. Methods for systematically reducing problems into sequential steps compatible with computer based tools. Structuring computer programs for efficiency and maintainability. Integration of multi-platform operating systems and multi-vendor tools for solving engineering problems. Hands-on laboratory experiences using Matlab, C, and other computational tools.

**E E 294: Program Discovery**

(Cross-listed with CPR E). Cr. R.

*Prereq: CPR E 166 or E E 166*

The roles of professionals in computer and electrical engineering. Relationship of coursework to industry and academic careers. Issues relevant to today's world. Offered on a satisfactory-fail basis only.

**E E 303: Energy Systems and Power Electronics**

(3-0) Cr. 3. F.S.

*Prereq: MATH 267; PHYS 232; credit or concurrent enrollment in E E 230*

Structure of competitive electric energy systems. System operation and economic optimization. Mutual inductance, transformers. Synchronous generators. Balanced three-phase circuit analysis and power calculations. Network calculations and associated numerical algorithms. Two-port circuits. Voltage regulation. Resonance and power factor correction. DC and induction motors. Power electronic circuit applications to power supplies and motor drives.

**E E 311: Electromagnetic Fields and Waves**

(4-0) Cr. 4. F.S.

*Prereq: E E 201; MATH 265; PHYS 232; credit or concurrent enrollment in MATH 267*

Fundamentals and applications of electric and magnetic fields and materials. Electrostatics and magnetostatics, potentials, capacitance and inductance, energy, force, torque. Uniform plane electromagnetic waves, Poynting vector. Transmission lines: transient and sinusoidal steady-state conditions, reflection coefficient.

**E E 314: Electromagnetics for non Electrical Engineers**

(3-0) Cr. 3.

*Prereq: PHYS 232 or equivalent*

Conceptual study of electromagnetism and its application in engineering and related fields. EM fundamentals, EM spectrum, radiation, radiating systems, wireless, modern concepts of physics, quantum computing, transmission lines, high speed effects, waveguides, GPS and other related phenomena will be discussed and explained with the application in mind.

**E E 321: Communication Systems I**

(3-0) Cr. 3. F.

*Prereq: E E 224*

Frequency domain analysis, spectral filtering, bandwidth. Linear modulation systems. Angle modulation systems. Phase locked loop, super-heterodyne receiver. Sampling and pulse code modulation. Digital data transmission, line coding, pulse shaping, multiplexing.

**E E 322: Probabilistic Methods for Electrical Engineers**

(Cross-listed with STAT). (3-0) Cr. 3. F.S.

*Prereq: E E 224*

Introduction to probability with applications to electrical engineers. Sets and events, probability space, conditional probability, total probability and Bayes' rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating function, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

**E E 324: Signals and Systems II**

(3-3) Cr. 4. F.S.

*Prereq: E E 224*

Laplace and z-Transforms, properties and inverses. Applications to LTI systems, circuits, analog/digital filters, feedback systems, stability analysis and margins. MATLAB labwork covering these topics.

**E E 330: Integrated Electronics**

(Cross-listed with CPR E). (3-3) Cr. 4.

*Prereq: CPR E 281; E E 201; credit or concurrent enrollment in E E 230*

Semiconductor technology for integrated circuits. Modeling of integrated devices including diodes, BJTs, and MOSFETs. Physical layout. Circuit simulation. Digital building blocks and digital circuit synthesis. Analysis and design of analog building blocks. Laboratory exercises and design projects with CAD tools and standard cells.

**E E 332: Semiconductor Materials and Devices**

(Cross-listed with MAT E). (3-0) Cr. 3. S.

*Prereq: CPR E and E E majors: E E 230, MAT E majors: MAT E 317*

Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's.

**E E 333: Electronic Systems Design**

(3-3) Cr. 4. F.

*Prereq: CPR E 281; E E 230*

Further topics in electronic systems design: Use of sensors and actuators. High-power amplifying and switching components. Linear and switched-mode power supplies. Linear and switched-mode amplifiers.

Interfacing electronic components with programmable microcontrollers. Printed circuit board technology and design tools. Laboratory exercises and design projects incorporating printed circuit technology.

**E E 341: BioMEMs and Nanotechnology**

(Cross-listed with B M E). (3-0) Cr. 3.

*Prereq: B M E 220*

Overview of Micro-Electro-Mechanical-System (MEMS) technologies for bioengineering, fundamentals of microfluidic device design, fabrication, and characterization, survey of microfluidic functional building blocks for lab-on-a-chip applications including mixers, valves, channels, and chambers. Topics of nanotechnology in bioengineering, nanoscale building block technologies for bioengineering including self-assembling, surface chemical treatment, nano-imprinting, nano-particles, nano-tubes, nano-wires, and stimuli-responsive biomaterials.

**E E 341L: BioMEMS and Nanotechnology Laboratory**

(Cross-listed with B M E). (0-3) Cr. 1.

*Prereq: B M E 220; concurrent enrollment in B M E 341*

Introductory laboratory course accompanying B M E 341. Design, fabrication, and characterization of BioMEMS lab-on-a-chip devices and nanoscale techniques for bioengineering. Student group projects.

**E E 351: Analysis of Energy Systems**

(3-0) Cr. 3.

*Prereq: PHYS 232*

Energy-scientific, engineering and economic foundations. Energy utilization-global and national. Sectoral analysis of energy consumption. Relationship of energy consumption and production to economic growth and environment. Technology for energy production. Economic evaluation of energy utilization and production. Scientific basis for global warming. Environmental impact of energy production and utilization. Renewable energy.

Meets International Perspectives Requirement.

**E E 388: Sustainable Engineering and International Development**

(Cross-listed with A B E, C E). (2-2) Cr. 3. F.

*Prereq: Junior classification in an Engineering Major*

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering.

Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs).

Course readings, final project/design report.

Meets International Perspectives Requirement.

**E E 391: Open Laboratory and Design Studio**

(2-2) Cr. 2.

*Prereq: E E 224*

Studio-based activity (guided problem-based learning and design) focusing on elements of design, measurement, data capture, and data interpretation. Team building, engineering professionalism, engineering process of review and critique, and presentation. Open design activities that may include working with other studios.

**E E 394: Program Exploration**

(Cross-listed with CPR E). Cr. R.

*Prereq: CPR E 294 or E E 294*

Exploration of academic and career fields for electrical and computer engineers. Examination of professionalism in the context of engineering and technology with competencies based skills. Introduction to professional portfolio development and construction. Offered on a satisfactory-fail basis only.

**E E 411: Wave Propagation and Transmission Lines**

(3-0) Cr. 3. S.

*Prereq: E E 311*

Time varying Maxwell's equations; wave equation in an unbounded generally lossy (multi-layered) media; uniform plane waves, dielectric constant, propagation, attenuation and phase constants; wave impedance; phase and group velocities; wave polarization; reflection and transmission coefficients (at oblique incidence) at boundaries (conducting and dielectric); Doppler effect; transmission lines; propagation, attenuation, phase constants; phase velocity; characteristic impedance; load impedance and its influence; reflection and transmission coefficients; cascaded transmission lines; steady-state voltage and current; standing waves; SWR; Smith chart; matching techniques including, quarter-wave matching, single and double stub matching.

**E E 414: Microwave Engineering**

(Dual-listed with E E 514). (3-3) Cr. 4. F.

*Prereq: E E 230, E E 311*

Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

**E E 417: Electromagnetic Radiation, Antennas, and Propagation**

(Dual-listed with E E 517). (3-3) Cr. 4. S.

*Prereq: E E 311*

Fundamental antenna concepts. Radiation from wire-and aperture-type sources. Radio transmission formulas. Wave and antenna polarization. Antenna arrays. Modern antenna topics. Practical antenna design. Antenna noise. Radiowave propagation in the presence of the earth and its atmosphere. Antenna measurements and computer aided analysis.

**E E 418: High Speed System Engineering Measurement and Testing**

(Cross-listed with CPR E). (3-2) Cr. 4. F.

*Prereq: E E 230 and E E 311*

Measurement of high speed systems and mixed signal systems. Measurement accuracy and error. Network analysis and spectrum analysis used in high speed measurement and testing. Test specification process and parametric measurement. Sampling and digital signal processing concepts. Design for testability. Testing equipment. Applications.

**E E 419: Magnetism and Magnetic Materials**

(Dual-listed with E E 519). (Cross-listed with MAT E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: E E 311 or MAT E 317 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

**E E 422: Communication Systems II**

(3-0) Cr. 3.

*Prereq: E E 321; E E 322; enrollment in E E 423*

Introduction to probability and random processes; Performance of analog systems with noise; Performance of digital communication with noise; optimum receivers, transmission impairments, and error rates; Introduction to information theory and coding: source coding, channel coding, channel capacity.

**E E 423: Communication Systems Laboratory**

(0-3) Cr. 1.

*Prereq: E E 321; enrollment in E E 422*

Construction and evaluation of modulators, demodulators and other components for analog and digital communications. Design, simulate, and evaluate wireless communication systems and their key components. Noise measurement.

**E E 424: Introduction to Digital Signal Processing**

(3-3) Cr. 4.

*Prereq: E E 224*

Sampling and reconstruction. Concepts and mathematical tools in discrete-time signal and image processing with examples from communications, nondestructive evaluation (NDE), and medical imaging. Discrete-time correlation and matched-filter receivers. Discrete Fourier transform (DFT) and its fast implementation (FFT). 2-dimensional versions. Z transforms. Filter design. Realizations of discrete-time systems and quantization effects. Laboratory experiments illustrating DSP implementations and applications.

**E E 425: Machine learning: A Signal Processing Perspective**

Cr. 3. S.

*Prereq: (E E 322 or STAT 322 or STAT 330); (MATH 207 or MATH 407 or MATH 507)*

Background material review (probability, calculus, linear algebra), Key machine learning tools and techniques. Supervised Learning: Linear Regression, Logistic Regression, Generative algorithms for classification (Gaussian & discrete-valued case; Naive Bayes assumption), Support Vector Machines, Decision trees; Unsupervised Learning: principal components analysis (PCA), robust PCA, clustering; Introduction to Deep Learning and Neural Networks; Basic Learning Theory and Bias-Variance Tradeoff; introduction to key Bayesian estimation concepts (MMSE estimation, Kalman filter, hidden Markov models).

**E E 432: Microelectronics Fabrication Techniques**

(Dual-listed with E E 532). (Cross-listed with MAT E). (2-4) Cr. 4.

*Prereq: CPR E and E E majors: E E 230; MAT E majors: MAT E 317*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

**E E 435: Analog VLSI Circuit Design**

(Cross-listed with CPR E). (3-3) Cr. 4. S.

*Prereq: E E 330*

Basic analog integrated circuit and system design including design space exploration, performance enhancement strategies, operational amplifiers, references, integrated filters, and data converters.

**E E 436: Physics of Transistors**

Cr. 3. S.

*Prereq: E E 332*

Use of energy band diagrams to describe the behavior of junction devices, electron and hole currents in transistors, junction capacitance, parasitic and second-order effects, development of circuit models from the underlying physical behavior, heterojunction devices, high-speed and high-power applications, measurement techniques.

**E E 437: Electronic Properties of Materials**

(Dual-listed with E E 537). (Cross-listed with MAT E). Cr. 3. S.

*Prereq: E E 332 or MAT E 317 or PHYS 322*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, biomedical applications of magnetism, magnetic evaluation of materials.

**E E 438: Optoelectronic Devices and Applications**

(Dual-listed with E E 538). (3-0) Cr. 3.

*Prereq: E E 311, E E 332*

Transmission and reflection of electromagnetic plane waves. Propagation in dielectric and fiber optic waveguides. LED and laser operating principles and applications. Photodetectors and solar cells. Optical modulation and switching.

**E E 439: Nanoelectronics**

(3-0) Cr. 3. S.

*Prereq: E E 332 or MAT E 334*

Concepts of quantum mechanics relevant to nanoelectronic devices, including quantization, tunneling, and transport; overview of some of the leading technologies for nanoelectronics, including carbon nanotubes, quantum dots, and molecular transistors; fabrication methods for building nanoelectronic devices.

**E E 442: Introduction to Circuits and Instruments**

(3-2) Cr. 2. F.S.

*Prereq: MATH 267; PHYS 232; PHYS 232L*

Half-semester course. Basic circuit analysis using network theorems with time domain and Laplace transform techniques for resistive, resistive-inductive, resistive-capacitive, and resistive-inductive-capacitive circuits. Transient circuit behavior. Basic operational amplifiers and applications. Familiarization with common E E instrumentation and demonstration of basic principles. Credit for only 201 or 442 may be counted toward graduation; credit for 442 will not count toward graduation for E E or Cpr E majors.

**E E 448: Introduction to AC Circuits and Motors**

(3-2) Cr. 2. F.S.

*Prereq: E E 442*

Half-semester course. Basics of DC machines, stepper motors, AC induction motors, and synchronous generators. AC steady state analysis, transformers, and three-phase circuit analysis.

**E E 450: Biosensors**

(Cross-listed with B M E). (3-0) Cr. 3.

*Prereq: B M E 220*

Overview of biosensors and bioanalytical challenges; designing for performance including various analytical problems, ion-selective membranes, characteristics of enzymes and basics of bioaffinity sensing; fundamentals of bioselective layers including depositing films and membranes, surfaces for immobilization and bioselective agents; survey of different biosensing technologies including electroanalytical, biomembrane, optical, and acoustic-wave based sensors.

**E E 450L: Biosensors Laboratory**

(Cross-listed with B M E). (0-3) Cr. 1.

*Prereq: B M E 220; concurrent enrollment in B M E 450 or E E 450*

Laboratory course accompanying B M E 450. Design, fabrication, and characterization of various electrical, chemical, polymer, optical and acoustic sensors.

**E E 451: Engineering Acoustics**

(Cross-listed with E M, M E). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: (MATH 266 or MATH 267); PHYS 231; PHYS 231L*

The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields.

**E E 452: Electrical Machines and Power Electronic Drives**

(2-3) Cr. 3. S.

*Prereq: E E 303; E E 324*

Basic concepts of electromagnetic energy conversion. DC motors and three-phase induction motors. Basic introduction to power electronics. Adjustable speed drives used for control of DC, induction, and AC motors. Experiments with converter topologies, DC motors, AC motors and adjustable speed drives.

**E E 455: Introduction to Energy Distribution Systems**

(3-0) Cr. 3. F.

*Prereq: E E 303; credit or concurrent enrollment in E E 324*

Overhead and underground distribution system descriptions and characteristics, load descriptions and characteristics, overhead line and underground cable models, distribution transformers, power flow and fault analysis, overcurrent protection, power factor correction, system planning and automation, and economics in a deregulated environment.

**E E 456: Power System Analysis I**

(3-0) Cr. 3. F.

*Prereq: E E 303; credit or concurrent enrollment in E E 324*

Power transmission lines and transformers, synchronous machine modeling, network analysis, power system representation, load flow.

**E E 457: Power System Analysis II**

(3-0) Cr. 3. S.

*Prereq: E E 303; credit or concurrent enrollment in E E 324*

Power system protection, symmetrical components, faults, stability. Power system operations including the new utility environment.

**E E 458: Economic Systems for Electric Power Planning**

(3-0) Cr. 3.

*Prereq: E E 303 or ECON 301*

Evolution of electric power industry. Power system operation and planning and related information systems. Linear and integer optimization methods. Short-term electricity markets and locational marginal prices. Risk management and financial derivatives. Basics of public good economics. Cost recovery models including tax treatment for transmission investments.

**E E 459: Electromechanical Wind Energy Conversion and Grid Integration**

(Dual-listed with E E 559). (3-0) Cr. 3.

*Prereq: Credit or enrollment in E E 452, E E 456*

Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.

**E E 465: Digital VLSI Design**

(Cross-listed with CPR E). (3-3) Cr. 4. F.

*Prereq: E E 330*

Digital design of integrated circuits employing very large scale integration (VLSI) methodologies. Technology considerations in design. High level hardware design languages, CMOS logic design styles, area-energy-delay design space characterization, datapath blocks: arithmetic and memory, architectures and systems on a chip (SOC) considerations. VLSI chip hardware design project.

**E E 475: Automatic Control Systems**

(3-0) Cr. 3. F.

*Prereq: E E 324*

Stability and performance analysis of automatic control systems. The state space, root locus, and frequency response methods for control systems design. PID control and lead-lag compensation. Computer tools for control system analysis and design.

**E E 476: Control System Simulation**

(2-3) Cr. 3. S.

*Prereq: E E 475*

Theory and practice of linear, nonlinear, and logic control systems, with hands-on labs on Modeling and Control of: Motor (model identification and validation, speed and position control using PID), Double-hinged inverted pendulum (model identification and validation, balance control using linearization and state-feedback, and swing-up control using sliding-mode), Quadcopter (model identification and validation, navigation and obstacle avoidance control using PID), PLC Assembly-line (ladder logic control for start/stop, sorting, assembly, and discharge using constructs of XIC/XIO/Timer/Counter/OSF/FIFO).

**E E 488: Eddy Current Nondestructive Evaluation**

(Dual-listed with E E 588). (Cross-listed with MAT E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

**E E 489: Survey of Remote Sensing Technologies**

(Dual-listed with E E 589). (Cross-listed with ENSCI, GEOL, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**E E 489L: Satellite Remote Sensing Laboratory**

(Dual-listed with E E 589L). (Cross-listed with GEOL, MTEOR, NREM). (0-3) Cr. 1. F.

*Prereq: 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589*

Processing and analysis of satellite sensor data (optical and radar).

Provides practical applications in an environmental context.

**E E 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Senior classification in Electrical Engineering; Permission of Department*

Investigation of an approved topic commensurate with the student's prerequisites.

**E E 490H: Independent Study: Honors**

Cr. arr.

*Prereq: Senior classification in Electrical Engineering; Permission of Department*

Investigation of an approved topic commensurate with the student's prerequisites.

**E E 491: Senior Design Project I and Professionalism**

(Cross-listed with CPR E, S E). (2-3) Cr. 3. F.S.

*Prereq: CPR E major: CPR E 232, cr or enrollment in CPR E 308, completion of 29 cr in the CPRE prof prog, ENGL 314. E E major: E E 232, cr or enrollment in E E 322, completion of 24 cr in the EE prof prog, ENGL 314. S E major: S E 317 and S E 339, ENGL 309 or ENGL 314. Co-req: CPR E 308 or COM S 352*

Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience.

**E E 492: Senior Design Project II**

(Cross-listed with CPR E, S E). (1-3) Cr. 2. F.S.

*Prereq: CPR E 491 or E E 491 or S E 491*

Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in E E 491, Cpr E 491, or S E 491 and the evaluation of project results.

Technical writing of final project report; oral presentation of project achievements; project poster.

**E E 494: Portfolio Assessment**

(Cross-listed with CPR E). Cr. R.

*Prereq: CPR E 232 or E E 232 or CYB E 234; credit or concurrent enrollment in CPR E 491 or E E 491*

Portfolio update and evaluation. Portfolios as a tool to enhance career opportunities.

**E E 496: Modern Optics**

(Cross-listed with PHYS). (3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in (PHYS 322; PHYS 365; PHYS 480)*

Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics.

**Courses primarily for graduate students, open to qualified undergraduates:**

**E E 501: Analog and Mixed-Signal VLSI Circuit Design Techniques**

(3-3) Cr. 4. F.

*Prereq: E E 435*

Design techniques for analog and mixed-signal VLSI circuits. Amplifiers; operational amplifiers, transconductance amplifiers, finite gain amplifiers and current amplifiers. Linear building blocks; differential amplifiers, current mirrors, references, cascading and buffering. Performance characterization of linear integrated circuits; offset, noise, sensitivity and stability. Layout considerations, simulation, yield and modeling for high-performance linear integrated circuits.

**E E 503: Power Management Integrated Circuits**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E E 435, or Credit or Registration for E E 501*

Introducing in-depth chip-level power management integrated circuit (PMIC) designs, including switching power converters, linear regulators, charge pumps and other types of PMICs. Steady-state and dynamic response analysis and optimization of linear regulators and switching power converters with different control methodologies, such as voltage-/current-/band-band control. Chip-level circuit design considerations, optimizations and cadence simulations for PMICs, including system and block-level circuits, such as voltage reference, current source and current mirror, current sensor, ramp generator, non-overlapping power stage, and other circuits.

**E E 505: CMOS and BiCMOS Data Conversion Circuits**

(3-3) Cr. 4. Alt. S., offered even-numbered years.

*Prereq: E E 501*

Theory, design and applications of data conversion circuits (A/D and D/A converters) including: architectures, characterization, quantization effects, conversion algorithms, spectral performance, element matching, design for yield, and practical comparators, implementation issues.

**E E 506: Design of CMOS Phase-Locked Loops**

(3-3) Cr. 4.

*Prereq: E E 435 or E E 501 or instructor approval*

Analysis and design of phase-locked loops implemented in modern CMOS processes including: architectures, performance metrics, and characterization; noise and stability analysis; and design issues of phase-frequency detectors, charge pumps, loop filters (passive and active), voltage controlled oscillators, and frequency dividers.

**E E 507: VLSI Communication Circuits**

(3-3) Cr. 4. Alt. S., offered odd-numbered years.

*Prereq: E E 435 or E E 501*

Phase-locked loops, frequency synthesizers, clock and data recovery circuits, theory and implementation of adaptive filters, low-noise amplifiers, mixers, power amplifiers, transmitter and receiver architectures.

**E E 508: Filter Design and Applications**

(3-3) Cr. 4.

*Prereq: E E 501*

Filter design concepts. Approximation and synthesis. Transformations. Continuous-time and discrete time filters. Discrete, active and integrated synthesis techniques.

**E E 509: Mixed-Signal IC Testing and Built In Self Test**

(3-0) Cr. 3.

*Prereq: E E 424 or equivalent and E E 435 or E E 501*

Introduction to mixed-signal IC testing; measurement uncertainty and test validity; IEEE standard test algorithms; high performance test and built-in self test challenges; new mixed-signal test algorithms and techniques to reduce data acquisition to relax instrumentation requirements, to simplify test setup, to improve test validity, and/or to enable co-testing of heterogeneous functions.

**E E 510: Topics in Electromagnetics**

Cr. 1-3. Repeatable.

*Prereq: E E 311***E E 512: Advanced Electromagnetic Field Theory I**

(3-0) Cr. 3. F.

*Prereq: E E 311*

Review of static electric and magnetic fields. Maxwell's equations. Circuit concepts and impedance elements. Propagation and reflection of plane waves in isotropic media. Guided electromagnetic wave. Characteristics of common waveguides and transmission lines. Propagation in anisotropic media. Special theorems and concepts. Radiation and scattering.

**E E 513: Advanced Electromagnetic Field Theory II**

(3-0) Cr. 3. S.

*Prereq: E E 512*

Green's functions, perturbational and variational techniques. Analysis of microstrip lines and interconnects. Spectral domain approach, waves in layered media. Integral equations and method of moments. Inverse scattering. Electromagnetic applications.

**E E 514: Microwave Engineering**

(Dual-listed with E E 414). (3-3) Cr. 4. F.

*Prereq: E E 230, E E 311*

Principles, analyses, and instrumentation used in the microwave portion of the electromagnetic spectrum. Wave theory in relation to circuit parameters. S parameters, couplers, discontinuities, and microwave device equivalent circuits. RF amplifier design, microwave sources, optimum noise figure and maximum power designs. Microwave filters and oscillators.

**E E 516: Computational Methods in Electromagnetics**

(3-0) Cr. 3. S.

*Prereq: E E 311*

Maxwell's equations. Differential equation based methods. Finite difference and finite difference time domain methods, boundary conditions. Finite element method and applications to the analysis of practical devices. Integral equation based methods. Electric and magnetic field integral equations. Matrix solvers. Fast solution methods.

**E E 517: Electromagnetic Radiation, Antennas, and Propagation**

(Dual-listed with E E 417). (3-3) Cr. 4. S.

*Prereq: E E 311*

Fundamental antenna concepts. Radiation from wire-and aperture-type sources. Radio transmission formulas. Wave and antenna polarization. Antenna arrays. Modern antenna topics. Practical antenna design. Antenna noise. Radiowave propagation in the presence of the earth and its atmosphere. Antenna measurements and computer aided analysis.

**E E 518: Microwave Remote Sensing**

(Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Math 265*

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

**E E 519: Magnetism and Magnetic Materials**

(Dual-listed with E E 419). (Cross-listed with M S E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: E E 311 or MAT E 317 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

**E E 521: Advanced Communications**

(3-0) Cr. 3. F.

*Prereq: E E 422, credit or enrollment in E E 523*

Digital communication systems overview. Characterization of communication channels. Digital modulation and demodulation design and performance analysis. Channel capacity and error-control coding concepts. Waveform design for band-limited channels. Equalization. Wireless fading channels and performance.

**E E 522: Cognitive Radio Networks**

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: Permission of instructor*

Topics on cognitive radio networks: Cognitive Radio Networks Architecture; Software Defined Radio Architecture; Spectrum Sensing; Spectrum Management; Spectrum Sharing; Spectrum Mobility; Applications of Cognitive Radio Networks.

**E E 523: Random Processes for Communications and Signal Processing**  
(3-0) Cr. 3.

*Prereq: E E 322, MATH 317*

Axioms of probability; Repeated trials; Functions of a random variable and multiple random variables: covariance matrix, conditional distribution, joint distribution, moments, and joint moment generating function; Mean square estimation; stochastic convergence; Some important stochastic processes: Random walk, Poisson, Wiener, and shot noise; Markov chains; Power spectral analysis; Selected applications.

**E E 524: Digital Signal Processing**

(3-0) Cr. 3. F.

*Prereq: E E 322, E E 424, MATH 317*

Review: sampling and reconstruction of signals; discrete-time signals, systems, and transforms. Multi-rate digital signal processing and introduction to filter banks. Optimal linear filtering and prediction. Introductions to adaptive filtering and spectral estimation. Applications.

**E E 526: Deep Learning: Theory and Practice**

Cr. 3.

*Prereq: MATH 207, E E 322*

Review of basic theoretic tools such as linear algebra and probability. Machine learning basics will then be introduced to motivate deep learning networks. Different deep learning network architectures will be studied in detail, including their training and implementations. Applications and research problems will also be surveyed at the end of the class.

**E E 527: Detection and Estimation Theory**

(3-0) Cr. 3. S.

*Prereq: E E 422*

Statistical estimation theory and performance measures: maximum likelihood estimation, Cramer-Rao bound, Bayesian estimation, optimal demodulation, signal design. Introduction to graphical models. Hidden Markov models and Kalman filter. Classical statistical decision theory, decision criteria, binary and composite hypothesis tests. Error probability and Chernoff bound. Applications.

**E E 529: Data Analytics in Electrical and Computer Engineering**

(Cross-listed with CPR E). (3-0) Cr. 3. S.

*Prereq: E E 322 or equivalent*

Introduces a variety of data analytics techniques # particularly those relevant for electrical and computer engineers # from a foundational perspective. Topics to be covered include techniques for classification, visualization, and parameter estimation, with applications to signals, images, matrices, and graphs. Emphasis will be placed on rigorous analysis as well as principled design of such techniques.

**E E 531: Micro and Nano Systems and Devices**

Cr. 3.

*Prereq: E E 332; E E 432 or E E 532*

Fundamentals of modeling and design of micro-nanosystems and devices based on various operational mechanisms. Significant hands-on experience using commercial software COMSOL to design and model micro-nanosystems and devices for biomedical and biomedicine applications among others. Experimental hands-on experience to operate the fabricated micro-nanosystems and devices in the instructor's research lab.

**E E 532: Microelectronics Fabrication Techniques**

(Dual-listed with E E 432). (Cross-listed with M S E). (2-4) Cr. 4.

*Prereq: CPR E and E E majors: E E 230; MAT E majors: MAT E 317*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

**E E 535: Physics of Semiconductors**

(Cross-listed with PHYS). (3-3) Cr. 4.

*Prereq: E E 311 and E E 332*

Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

**E E 536: Physics of Semiconductor Devices**

(Cross-listed with PHYS). (3-0) Cr. 3.

*Prereq: E E 535*

P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

**E E 537: Electronic Properties of Materials**

(Dual-listed with E E 437). (Cross-listed with M S E). Cr. 3. S.

*Prereq: E E 332 or MAT E 317 or PHYS 322*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, biomedical applications of magnetism, magnetic evaluation of materials.

**E E 538: Optoelectronic Devices and Applications**

(Dual-listed with E E 438). (3-0) Cr. 3.

*Prereq: E E 311, E E 332*

Transmission and reflection of electromagnetic plane waves. Propagation in dielectric and fiber optic waveguides. LED and laser operating principles and applications. Photodetectors and solar cells. Optical modulation and switching.

**E E 552: Energy System Planning**

(3-0) Cr. 3.

*Prereq: E E 456, E E 457 or equivalent*

Characteristics of bulk energy conversion, storage, and transport technologies. Environmental legislation. Modeling of electricity markets. Evaluation of sustainability and resiliency. Types of planning analyses: economic, multi-sector, long-term, national. Planning tools and associated optimization methods.

**E E 553: Steady State Analysis**

(3-0) Cr. 3. F.

*Prereq: E E 456, E E 457*

Power flow, economic dispatch, unit commitment, electricity markets, automatic generation control, sparse matrix techniques, interconnected operation, voltage control.

**E E 554: Power System Dynamics**

(3-0) Cr. 3. S.

*Prereq: E E 456, E E 457, E E 475*

Dynamic performance of power systems with emphasis on stability. Modeling of system components and control equipment. Analysis of the dynamic behavior of the system in response to small and large disturbances.

**E E 555: Advanced Energy Distribution Systems**

(3-0) Cr. 3.

*Prereq: E E 455*

Transient models of distribution components, automated system planning and distribution automation, surge protection, reliability, power quality, power electronics and intelligent systems applications.

**E E 556: Power Electronic Systems**

(3-0) Cr. 3.

*Prereq: E E 452*

Converter topologies, AC/DC, DC/DC, DC/AC, AC/AC. Converter applications to do motor drives, power supplies, AC motor drives, power system utility applications (var compensators) and power quality.

**E E 559: Electromechanical Wind Energy Conversion and Grid Integration**

(Dual-listed with E E 459). (3-0) Cr. 3.

*Prereq: Credit or enrollment in E E 452, E E 456*

Summary of industry status and expected growth; power extraction from the air stream; operation and modeling of electric machines, and power electronics topologies for wind energy conversion; analysis of machine-grid power electronic circuits, controller interface, and collector (distribution) networks; treatment of harmonics, flicker, over/under-voltages, filters, low-voltage ride-through, and reactive compensation; relaying; effects on transmission expansion, planning and grid operation and coordination including variability, frequency control, reserves, and electricity markets; overview of storage technologies and hybrid configurations.

**E E 565: Systems Engineering and Analysis**

(Cross-listed with AER E, I E). (3-0) Cr. 3.

*Prereq: Coursework in basic statistics*

Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life-cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test, evaluation and systems engineering planning and organization. Not available for degrees in industrial engineering.

**E E 566: Avionics Systems Engineering**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: E E 565*

Avionics functions. Applications of systems engineering principles to avionics. Top down design of avionics systems. Automated design tools.

**E E 570: Systems Engineering Analysis and Design**

(3-0) Cr. 3.

*Prereq: E E 475, E E 577*

Selected topics in abstract algebra, linear algebra, real analysis, functional analysis, and optimization methods in electrical engineering.

**E E 571: Introduction to Convex Optimization**

(3-0) Cr. 3.

Introduction to convex optimization problems emerging in electrical engineering. Efficiently solving convex optimization problems with the use of interior point algorithms software. Review of linear algebra, convex functions, convex sets, convex optimization problems, duality, disciplined convex programming, applications to optimal filtering, estimation, control and resources allocations, sensor network, distributed systems.

**E E 573: Random Signal Analysis and Kalman Filtering**

(Cross-listed with AER E, M E). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341*

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

**E E 574: Optimal Control**

(Cross-listed with AER E, M E). (3-0) Cr. 3. S.

*Prereq: E E 577*

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

**E E 575: Introduction to Robust Control**

(Cross-listed with AER E, M E). (3-0) Cr. 3.

*Prereq: E E 577*

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H<sub>2</sub>, H<sub>∞</sub>, and L<sub>1</sub> control problems. Tools for robustness analysis and synthesis.

**E E 576: Digital Feedback Control Systems**

(Cross-listed with AER E, M E). (3-0) Cr. 3. F.

*Prereq: E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267*

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

**E E 577: Linear Systems**

(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207*

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

**E E 578: Nonlinear Systems**

(Cross-listed with AER E, M E, MATH). (3-0) Cr. 3. S.

*Prereq: E E 577*

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

**E E 588: Eddy Current Nondestructive Evaluation**

(Dual-listed with E E 488). (Cross-listed with M S E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

**E E 589: Survey of Remote Sensing Technologies**

(Dual-listed with E E 489). (Cross-listed with ENSCI, GEOL, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**E E 589L: Satellite Remote Sensing Laboratory**

(Dual-listed with E E 489L). (Cross-listed with GEOL, MTEOR, NREM). (0-3) Cr. 1. F.

*Prereq: 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589*

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

**E E 590: Special Topics**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590A: Special Topics: Electromagnetic Theory**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590B: Special Topics: Control Systems**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590C: Special Topics: Communication Systems**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590E: Special Topics: Computer Engineering**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590F: Special Topics: Electric Power**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590G: Special Topics: Electrical Materials**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590H: Special Topics: Electronic Devices and Circuits**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 590I: Special Topics: Signal Processing**

Cr. 1-6. Repeatable.

Formulation and solution of theoretical or practical problems in electrical engineering.

**E E 592: Seminar in Electrical Engineering**

(1-0) Cr. 1-4. Repeatable, maximum of 8 times. F.S.

Technical seminar presentations on topics in various areas in electrical engineering. It will have the following sections, corresponding to graduate study areas in the department: Bioengineering; Communications, signal processing, and machine learning; Electric power and energy systems; Electromagnetic, microwave, and nondestructive evaluation; Microelectronics and photonics; Systems and controls; and VLSI. Offered on a satisfactory-fail basis only.

**E E 595: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

Investigation of an approved topic commensurate with the student's prerequisites.

**E E 598: Electrical and Computer Engineering Learning Community Seminar**

(Cross-listed with CPR E). Cr. R. F.S.

*Prereq: Electrical and Computer Engineering Graduate Student*

Introduction to graduate study in Electrical and Computer Engineering at Iowa State University. Building networks, introduction to core requirements, and tools and techniques for success. Offered on a satisfactory-fail basis only. ECpE

**E E 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:****E E 617: Advanced Topics in Antenna Analysis and Design**

(3-0) Cr. 3. F.

*Prereq: E E 417 or E E 517*

Introduction to several advanced topics related to antenna design, analysis, and fabrication; beyond what is covered in E E 417 or E E 517 which primarily addresses fundamental foundations of antenna theory, analysis, and design. Topics include: Radiation integrals and methods; Polarization, in a comprehensive manner; antenna synthesis and continuous sources; Integral equations, self and mutual impedances, and vector effective length; Aperture antennas and field calculation fundamentals; Near-field to far-field transformation; Microstrip antennas; and Reconfigurable antenna fundamentals. Assignments will involve the use of numerical electromagnetic solvers such as HFSS and CST Microwave Studio. Expands skill sets in the area of numerical EM analysis, which is a critical issue for practical and advanced antenna design problems.

**E E 621: Coding Theory**

(3-0) Cr. 3.

*Prereq: E E 521*

Fundamentals of error-control coding techniques: coding gain, linear block codes. Galois fields. Cyclic codes: BCH, Reed-Solomon. Convolutional codes and the Viterbi algorithm. Trellis-coded modulation. Iterative decoding. Recent developments in coding theory.

**E E 622: Information Theory**

(3-0) Cr. 3.

*Prereq: E E 521, E E 523*

Information system overview. Entropy and mutual information. Data Compression and source encoding. Discrete memoryless channel capacity. Noisy channel coding theorem. Rate distortion theory. Waveform channels. Advanced topics in information theory.

**E E 653: Advanced Topics in Electric Power System Engineering**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Advanced topics of current interest in electric power system engineering.

**E E 674: Advanced Topics in Systems Engineering**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Advanced topics of current interest in the areas of control theory, stochastic processes, digital signal processing, and image processing.

**E E 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with AGRON, BCB, ENGR, GENET, M E). (3-0) Cr. 1.

Repeatable, maximum of 2 credits. F.S.

*Prereq: Graduate student status and completion of at least one semester of graduate coursework.*

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**E E 697: Engineering Internship**

(Cross-listed with CPR E). Cr. R. Repeatable.

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**E E 699: Research**

Cr. arr. Repeatable.

## Engineering (ENGR)

*Any experimental courses offered by ENGR can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****ENGR 101: Engineering Orientation**

Cr. R. F.S.

Introduction to the College of Engineering and the engineering profession. Information concerning university and college policies, procedures, and resources. Undeclared sections: Considerations in choosing an engineering curriculum. Opportunities to interact with departments. Declared sections: Introduction to major-specific topics. Offered on a satisfactory-fail basis only.

**ENGR 104: LEAD Program Orientation**

(1-0) Cr. 1. F.

Orientation for LEAD Learning/Living Community participants.

Introduction to college and university resources, tools and techniques to promote academic, professional and social/cultural development and success. Focus on building support networks with peers, faculty, and staff. Introduction to core engineering competencies including but not limited to initiative, communication, teamwork, and cultural adaptability. Offered on a satisfactory-fail basis only.

**ENGR 105: LEAD Program Seminar**

(1-0) Cr. 1. S.

Seminar for LEAD Learning/Living Community participants. Focus on professional development and exposure to various engineering disciplines through hands-on lab experiences, industry visits and networking opportunities with alumni, faculty, and staff. Development of core competencies: engineering/technical knowledge, communication and teamwork. Offered on a satisfactory-fail basis only.

**ENGR 131: Learning Community Seminar**

Cr. R. F.

Peer-mentored review of course topics in engineering undeclared learning communities. Offered on a satisfactory-fail basis only.

**ENGR 150: Foundations of Leadership Development and Learning**

(1-0) Cr. 1. F.S.

*Prereq: ELP students only*

Leadership development with focus on global context and awareness of events shaping the context. Exposure to theory of leadership with examples. Necessary characteristics of a leader, and strategies for leadership skills development. Exposure to non-traditional career paths for engineers. Outline of personalized leadership development. Offered on a satisfactory-fail basis only.

**ENGR 160: Engineering Problems with Computer Applications Laboratory**

(2-2) Cr. 3. F.S.SS.

*Prereq: MATH 143 or satisfactory scores on mathematics placement examinations*

Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics). Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**ENGR 203: Engineering Career and Employment Preparation**

(1-0) Cr. 1. F.S.SS.

Development of practical career knowledge and skills such as understanding employers of engineers, determining career goals, identifying employers of interest, developing effective application materials, applying for positions, networking, interviewing, and evaluating offers. Overview of professional resources and tools available to aid in the employment process. Offered on a satisfactory-fail basis only.

**ENGR 250: Leadership in Engineering Teams**

(1-0) Cr. 1. F.S.

Building and sustaining decision-making engineering teams. Students will explore the interrelated processes of discerning purpose, thinking systemically, developing reflective judgment, and exercising leadership by mobilizing and setting the direction for adaptive change within a team. Industry based examples and information from engineering and natural resource sciences will be infused into the course.

**ENGR 265: Survey of the Impacts of Engineering Activity**

(3-0) Cr. 3. F.S.

Survey of the economic, environmental, societal, and political benefits and problems resulting from engineering activity. Effects of engineering projects on human health, social structures, and the environment. Examination of improvements in economic opportunities and quality of life resulting from engineering activity. Case studies of the effects of engineering activity.

**ENGR 320: International Experience Report**

Cr. 3. F.S.

*Prereq: Satisfactory completion of international work experience of at least ten weeks or nine credits of approved course work taken abroad. Permission of student's department prior to departure*

Critique of work/study abroad experience as it relates to professional development. Taken the semester after completion of work abroad or study abroad. Written report and presentation. Offered on a satisfactory-fail basis only.

Meets International Perspectives Requirement.

**ENGR 327: Voices of Public Policy**

(3-0) Cr. 3. F.

*Prereq: Sophomore or higher classification; Major in Engineering*

Role and impact of legislative process, partisan politics, government, lobbyists, the media, expert testimony and grassroots activism on public policy. Critical analysis of context; of claims, assumptions, premises, and evidence of both sides; represented and disenfranchised populations; the ethical issues to develop personal position and courses of action to impact public policy process.

**ENGR 350: Dean's Leadership Seminar**

(1-0) Cr. 1. F.S.

*Prereq: Sophomore classification or higher; Major in Engineering*

Understanding the complexities of leadership in building an organization, decision-making styles, communication, managing change, building trust, shared responsibility leadership, creating legacy, prioritizing, effective use of authority, conflict, ethics, integrity, transparency, accountability. Selection based on demonstrated commitment to leadership development. Offered on a satisfactory-fail basis only. May not apply toward a degree in Engineering

**ENGR 396: Summer Internship**

Cr. R. Repeatable. SS.

*Prereq: Permission of Engineering Career Services*

Professional work period of at least 10 weeks during the summer.

Students must register for the course prior to commencing work. Offered on a satisfactory-fail basis only.

**ENGR 397: Engineering Condensed Internship**

Cr. R. Repeatable. SS.

*Prereq: Permission of Engineering Career Services*

Professional work period less than 10 weeks. Students must register for the course prior to commencing work. Offered on a satisfactory-fail basis only.

**ENGR 398: Cooperative Education**

Cr. R. Repeatable. F.S.

*Prereq: Permission of Engineering Career Services*

Professional work period during the fall or spring semester. One semester per academic or calendar year. Students must register for the course prior to commencing work. Offered on a satisfactory-fail basis only.

**ENGR 430: Entrepreneurial Product Engineering**

(Cross-listed with I E). Cr. 3. F.Alt. S., offered irregularly.

*Prereq: Junior classification*

Process of innovative product development in both entrepreneurial and intra-preneurial settings. Define, prototype and validate a product concept based on competitive bench-marking, market positioning and customer requirement evaluation in a target market into a product design that is consistent with defined business goals and strategies. Combination of lecture, discussion, problem solving and case study review.

**ENGR 490E: Entrepreneurship**

Cr. 1-3. Repeatable, maximum of 3 credits.

*Prereq: Junior or senior classification in engineering, college approval*

**ENGR 490L: Independent Study**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

Leadership.

# Engineering Mechanics (E M)

*Any experimental courses offered by E M can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

## **E M 324: Mechanics of Materials**

(3-0) Cr. 3. F.S.SS.

*Prereq: C E 274*

Plane stress, plane strain, stress-strain relationships, and elements of material behavior. Application of stress and deformation analysis to members subject to centric, torsional, flexural, and combined loadings. Elementary considerations of theories of failure, buckling.

## **E M 327: Mechanics of Materials Laboratory**

(0-2) Cr. 1. F.S.

*Prereq: E M 324*

Experimental determination of mechanical properties of selected engineering materials. Experimental verification of assumptions made in 324. Use of strain measuring devices. Preparation of reports.

## **E M 362: Principles of Nondestructive Testing**

(Cross-listed with MAT E). (3-0) Cr. 3. S.

*Prereq: PHYS 132 or PHYS 232*

Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests, materials to which applicable, types of defects detectable, calibration standards, and reliability safety precautions.

## **E M 362L: Nondestructive Testing Laboratory**

(Cross-listed with MAT E). (0-3) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in E M 362 or MAT E 362*

Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material's microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories.

## **E M 417: Experimental Mechanics**

(Dual-listed with E M 517). (Cross-listed with AER E). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E M 324; MAT E 273*

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

## **E M 424: Intermediate Mechanics of Materials**

(3-0) Cr. 3. F.S.

*Prereq: E M 324*

Analysis of stresses, strains, and deflections. Torsion and bending of unsymmetrical members. Analysis of thick wall pressure vessels and shrink fit problems. Dynamic load effects, fatigue and fracture mechanics introduction. Work-strain energy methods.

## **E M 425: Introduction to the Finite Element Method**

(3-0) Cr. 3. S.

*Prereq: E M 324; (MATH 266 or MATH 267)*

Introduction of finite element analysis through applications to one-dimensional, steady-state problems such as elastic deformation, heat and fluid flow, consolidation, beam bending, and mass transport. Transient heat conduction and wave propagation. Two-dimensional triangular and quadrilateral elements. Plane problems of torsion, thermal and potential flow, stress analysis. Simple computer programs for one- and two-dimensional problems.

## **E M 451: Engineering Acoustics**

(Cross-listed with E E, M E). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: (MATH 266 or MATH 267); PHYS 231; PHYS 231L*

The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields.

## **E M 480: Ultrasonic Nondestructive Evaluation**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: E M 324; (MATH 266 or MATH 267); PHYS 232*

Introduction to stress/strain, Hooke's law, and elastic wave propagation in two dimensions in isotropic media. Ultrasonic plane-wave reflection and transmission; and simple straight-crested guided waves. Transducer construction, behavior, and performance. Simple signal analysis and discrete signal processing. The last few weeks of the course are devoted to case studies.

## **E M 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

## **E M 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**Courses primarily for graduate students, open to qualified undergraduates:**

**E M 510: Continuum Mechanics**

(3-0) Cr. 3. F.

*Prereq: MATH 385*

Introduction to Cartesian tensors as linear vector transformations. Kinematics of continuous deformations, Lagrangian and Eulerian descriptions of motion. Fundamental equations or balance laws of continuous media, linear and angular momentum balance. Conservation laws of momentum and energy. Introduction to constitutive equations of classical elastic solids and simple fluids. Formulations and solutions of some canonical problems.

**E M 514: Advanced Mechanics of Materials**

(Cross-listed with AER E). (3-0) Cr. 3. F.

*Prereq: E M 324*

Theory of stress and strain, stress-strain relationships. Unsymmetrical bending, curved beams, shear center. Torsion of thin-walled noncircular sections. Equilibrium, compatibility equations. Airy stress functions. Membrane stresses in shells, thick-walled cylinders.

**E M 516: Applied Elasticity and Mechanics of Deformable Solids**

(3-0) Cr. 3. S.

*Prereq: E M 510*

Fundamental mechanics of linear elasticity, formulation and solution of simple elastostatic boundary value problems. Kinematics of small deformations, constitutive equations for isotropic and anisotropic media. Field equations for elastic solids, plane strain/plane stress and some classic analytical solutions such as Boussinesq, Hertz, Kirsch, Lamé, and Mitchell. Stress functions and potential methods and introduction to finite elements.

**E M 517: Experimental Mechanics**

(Dual-listed with E M 417). (Cross-listed with AER E). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E M 324; MAT E 273*

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

**E M 518: Waves in Elastic Solids with Applications to Ultrasonic Nondestructive Evaluation**

(3-0) Cr. 3. F.

*Prereq: MATH 385*

Propagation of bulk waves, surface waves, and guided waves in isotropic and anisotropic elastic media. Transmission and reflection of waves at plane and curved interfaces. Radiation of sources with application to ultrasonic transducer beam modeling. Elastic wave scattering from cracks and inclusions. Reciprocity principles and their use in the development of an ultrasonic measurement model. Characterization and measurement of material attenuation.

**E M 525: Finite Element Analysis**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: E M 425, MATH 385*

Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

**E M 526: Boundary Element Methods in Engineering**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E M 514 or E M 516*

Introductory boundary element methods through plane problems. Singular integrals, Cauchy principal values, integral representations and boundary integrals in one dimension. Direct and indirect formulations. Plane potential and elastostatic problems. Higher order elements, numerical integration. Regularizations. Body forces and infinite regions. Specialized fundamental solutions, half-plane and axisymmetric problems. Diffusion and wave problems. Coupling with finite elements.

**E M 543: Introduction to Random Vibrations and Nonlinear Dynamics**

(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

**E M 548: Advanced Engineering Dynamics**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: E M 345, MATH 266 or MATH 267*

3-D kinematics and dynamics of particles and rigid bodies. Coordinate systems, calculus of variations. Lagrange's equations with constraints, modified Euler's equations, torque-free motion of rigid bodies in 3-D, moment equations with constraints.

**E M 550: Nondestructive Evaluation**

(Cross-listed with M S E). (3-2) Cr. 4. S.

*Prereq: E M 324, MATH 385*

Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, and computed tomography are analyzed. Computer-based experiments on a selection of methods: ultrasonics, eddy currents, x-rays are assigned for student completion.

**E M 564: Fracture and Fatigue**

(Cross-listed with AER E, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.*

*Undergraduates: Permission of instructor*

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

**E M 566: Phase Transformation in Elastic Materials**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: EM 510 or EM 516 or EM 514*

Continuum thermodynamics and kinetics approaches to phase transformations. Phase field approach to stress- and temperature-induced martensitic transformations and twinning at the nanoscale. Nucleation and growth. Nanostructural evaluation. Analytical and numerical solutions. Surface stresses and energy. Surface-induced phase transformations. Large Strain formulation.

**E M 567: Nanomechanics of Materials**

(3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: E M 566 or E M 510 or E M 514 or consent of instructor*

Continuum theoretical and computational approaches to material deformation and nanostructure evolution. Thermodynamics and kinetics. Nucleation and growth. Surface and interface tension and phenomena. Chemical reactions, phase transformations, and dislocation evolution.

**E M 569: Mechanics of Composite and Combined Materials**

(Cross-listed with AER E, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: E M 324*

Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

**E M 570: Wind Engineering**

(Cross-listed with AER E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: A B E 378, M E 345*

Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

**E M 580: Phase Transformations and Plasticity**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: E M 566 or E M 510 or E M 514 or permission of instructor*

Continuum approaches to phase transformations and plasticity at nano-, micro-, and macroscales. Interaction between phase transformations and plasticity and different scales. Temperature-, stress-, and strain-induced phase transformations. Transformation-induced plasticity. Thermodynamics and kinetics. Nucleation and growth. Large strain formulation. High pressure phenomena and theories.

**E M 584: High Pressure Mechanics and Phase Transformations**

(3-0) Cr. 3.

*Prereq: EM 566 or EM 510 or EM 514 or consent of instructor*

Techniques for producing static high pressure and measurements. Traditional and rotational diamond anvil cell. Phase diagrams. Pressure, stress, and plastic strain induced phase transformations: continuum thermodynamics and kinetics. Elasticity and plastic flow under high pressure. Transformation pressure hysteresis. Material synthesis and search for new phases. Interaction between phase transformations and plasticity under high pressure. High pressure mechanochemistry. Multiscale modeling.

**E M 586: Micromechanics of Structural Changes in Materials**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: E M 566 or E M 510 or E M 514 or permission of instructor.*

Continuum and micromechanical approaches to material deformation, phase transformations, and microstructure evolution. Thermodynamics and kinetics. Eshelby inclusion. Interface propagation and reorientation. Microscale phase field approach. Large strain formulation. Phase transformations, chemical reactions, twinning, and fracture.

**E M 590: Engineering Mechanics Special Topics**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

**E M 590F: Engineering Mechanics Special Topics: Introduction to Dislocation and Plasticity**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

**E M 590H: Engineering Mechanics Special Topics: Mechanics of Thin Films and Adhesives**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

**E M 590I: Engineering Mechanics Special Topics: Mechanics of Cellular and Porous Media**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

**E M 590J: Engineering Mechanics Special Topics: Other**

Cr. 1-4. Repeatable.

*Prereq: Permission of instructor*

**E M 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**E M 690: Engineering Mechanics Special Topics**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690N: Engineering Mechanics Special Topics: Advanced Experimental Methods**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690O: Engineering Mechanics Special Topics: Advanced Wave Propagation**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690P: Engineering Mechanics Special Topics: Advanced Materials**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690Q: Engineering Mechanics Special Topics: Advanced Computational Methods**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690R: Engineering Mechanics Special Topics: Reliability and Failure**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 690S: Engineering Mechanics Special Topics: Other**

Cr. 1-6. Repeatable.

*Prereq: Permission of instructor*

**E M 697: Engineering Internship**

Cr. R. Repeatable.

*Prereq: Permission of DOGE (Director of Graduate Education), graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**E M 699: Research**

Cr. arr. Repeatable.

## English (ENGL)

*Any experimental courses offered by ENGL can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**ENGL 099: Strategies for Nonnative Speakers of English**

Cr. 0. F.S.

*Prereq: Completion of placement exam*

**ENGL 099S: Strategies for Nonnative Speakers of English: Academic Speaking and Pronunciation**

Cr. 0. F.S.

Open to all interested international students.

**ENGL 101: English for Native Speakers of Other Languages**

(3-0) Cr. 3. F.S.

*Prereq: Completion of placement exam*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. See English Requirement for International Students in Index for additional information about placement exam. Credit from ENGL 101 does not count toward graduation.

**ENGL 101B: English for Native Speakers of Other Languages: Academic English**

(3-0) Cr. 3. F.S.

*Prereq: Completion of placement exam*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. See English Requirement for International Students in Index for additional information about placement exam. Credit from ENGL 101 does not count toward graduation.

**ENGL 101C: English for Native Speakers of Other Languages: Academic English II--Undergraduates**

(3-0) Cr. 3. F.S.

*Prereq: Completion of placement exam.*

For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. See English Requirement for International Students in Index for additional information about placement exam. Credit from ENGL 101 does not count toward graduation.

**ENGL 101D: English for Native Speakers of Other Languages: Academic English II--Graduates**

(3-0) Cr. 3. F.S.

*Prereq: Completion of placement exam.*

Available P/NP to graduate students at their department's option. For undergraduates: Completion of ENGL 101 requirement prepares students for ENGL 150. For graduates: Completion of ENGL 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. See English Requirement for International Students in Index for additional information about placement exam. Credit from ENGL 101 does not count toward graduation.

**ENGL 120: Computers and Language**

(Cross-listed with LING). (3-0) Cr. 3.

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

**ENGL 150: Critical Thinking and Communication**

(3-0) Cr. 3. F.S.SS.

Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio. Concurrent enrollment in LIB 160 is recommended.

**ENGL 201: Introduction to Literature**

(3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Introduction to the diversity of literary texts. Students will explore work across different genres (drama, poetry, short fiction, the novel) and traditions (Indigenous, postcolonial, global, British, American). Recommended for nonmajors.

**ENGL 207: Introduction to Creative Writing**

(3-0) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

**ENGL 214: Introduction to Technical Communication**

Cr. 3. F.

*Prereq: ENGL 150*

A broad introduction to the culture of professional work as a technical communicator, with particular emphasis on principles and best practices for developing and managing technical information and digital media. Examination of user-centered design, the history of the discipline, cross-cultural communication, and the ethics of communicating complex information to lay audiences. Study and practice of team-based collaboration, project management, and technical editing.

**ENGL 219: Introduction to Linguistics**

(Cross-listed with LING). (3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

**ENGL 220: Descriptive English Grammar**

(Cross-listed with LING). (3-0) Cr. 3. F.S.

Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

**ENGL 225: Survey of British Literature to 1800**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Survey of British Literature from its beginnings to 1800. Representative works studied in their historical, cultural, and literary contexts that span nearly 900 years of shifts in religious, political, ethnic, and philosophical cultures.

**ENGL 226: Survey of British Literature since 1800**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Representative works studied in their historical, cultural, and literary contexts, including attention to the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

**ENGL 227: Survey of American Literature to 1865**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Survey of American literature from its beginnings (including Indigenous and conquest literatures) through the end of the Civil War. Representative works studied in their historical, cultural, and literary contexts, including attending to the diversity (ethnic, cultural, religious, philosophical, etc.) of American literature and culture.

**ENGL 228: Survey of American Literature since 1865**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Survey of American literature from the Civil War to the present. Representative works studied in their historical, cultural, and literary contexts, including attention to the diversity (ethnic, cultural, religious, philosophical, etc.) of American literature and culture.

**ENGL 237: Survey of Film History**

(2-3) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Survey of U.S. and international film history from its beginnings in the late nineteenth century to the present. Class meets for two hours per week for lecture and discussion. Lab meets for up to three hours per week for film screenings.

**ENGL 240: Introduction to American Indian Literature**

(Cross-listed with AM IN). (3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Survey of American Indian Literature of varying genres, including fiction, non-fiction, poetry, film, drama, and media. Focuses on interdisciplinary approaches to American Indian cultural, social, and environmental issues.

**ENGL 250: Written, Oral, Visual, and Electronic Composition**

(3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 150; credit or concurrently enrollment in LIB 160; Sophomore classification or above*

Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of communication portfolio. The University requires a minimum grade of C in ENGL 250 to meet the Communication Proficiency graduation requirement; some majors/degree programs may set higher standards.

**ENGL 250H: Written, Oral, Visual, and Electronic Composition: Honors**

(3-0) Cr. 3. F.

*Prereq: Admission to Honors Program; ENGL 150; credit or concurrent enrollment in LIB 160*

In-depth analysis, composition, and reflection on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on argumentation: developing claims, generating reasons, providing evidence. Individual sections organized by special topics. Development of communication portfolio. The University requires a minimum grade of C in ENGL 250 to meet the Communication Proficiency graduation requirement; some majors/degree programs may set higher standards.

**ENGL 260: Introduction to Literary Study**

(3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Introduction to the basic principles of literary study, including strategies for analyzing poetry, fiction, nonfiction, film, drama, and media. Emphasis on writing critical essays and conducting research. Designed for English majors.

**ENGL 275: Analysis of Popular Culture Texts**

(Cross-listed with SP CM). (3-0) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in ENGL 250*

Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

**ENGL 302: Business Communication**

(3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 250; Junior classification*

Rhetorical concepts and processes to successfully communicate individually and collaboratively via written, oral, visual, and electronic modes across a range of business disciplines. Covers strategies for analyzing audiences internal and external to an organization in order to communicate positive, neutral, and negative messages clearly, completely, correctly, and ethically; save an audience's time; and create goodwill.

**ENGL 302H: Business Communication: Honors**

(3-0) Cr. 3. F.S.SS.

*Prereq: Admission to Honors Program; ENGL 250; Junior classification*

Theory, principles and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations.

**ENGL 303: Free-Lance Writing for Popular Magazines**

(3-0) Cr. 3. S.

*Prereq: ENGL 250; Sophomore classification*

Practical workshop in writing nonfiction articles for popular magazines. Emphasis on writing, market research, preparation of manuscripts, methods of submission. Major goal of the course is production of marketable material.

**ENGL 304: Creative Writing: Fiction**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250; Sophomore classification*

Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

**ENGL 305: Creative Writing: Nonfiction**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250; Sophomore classification*

Workshop in writing imaginative essays, both critical and personal. Analytical reading, development of literary techniques. Individual and small group conferences.

**ENGL 306: Creative Writing: Poetry**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250; Sophomore classification*

Progresses from traditional to contemporary forms. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

**ENGL 308: Write Like a Woman**

(Cross-listed with WGS). (3-0) Cr. 3. F.

*Prereq: ENGL 250*

Writing and reading interpretive fiction written by women. Emphasis on stories that embody a female literary life, gender-specific ways of creating characters and conflicts, analytical reading and writing, workshop criticism and shared commentaries. Includes multi-modal projects.

**ENGL 309: Proposal and Report Writing**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250; Junior classification*

Rhetorical concepts and processes to individually and collaboratively develop proposals for business, governmental, nonprofit, or other organizations and to report on the work completed both orally and in writing. Emphasizes the structure and classification of proposal and report types, qualitative and quantitative research methods, audience analysis, document design, and data visualization.

**ENGL 310: Rhetorical Analysis**

(Cross-listed with SP CM). (3-0) Cr. 3. F.S.

*Prereq: ENGL 250*

Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing.

**ENGL 312: Communicating Science and Public Engagement**

(3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 250*

Rhetorical concepts, processes, and strategies to successfully communicate individually and collaboratively via written, oral, visual, and electronic modes in disciplines in and related to science. Emphasizes the strategies for analyzing and adapting to audiences about scientific topics and disciplines. Covers developing and designing documentation, presenting scientific data visually, and communicating results orally.

**ENGL 313: Rhetorical Website Design**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Rhetorical principles of multimodal composing in hypertextual environments. Focus on writing according to web style guidelines, employing cascading stylesheets for layout and design, and using principles of information architecture to determine optimal site structure. Final project involves constructing interactive client site using latest web standards.

**ENGL 314: Technical Communication**

(3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 250; Junior classification*

Rhetorical concepts and processes to successfully communicate technical information individually and collaboratively via written, oral, visual, and electronic modes. Emphasizes the major strategies for analyzing expert and lay audiences and adapting information to those audiences. Covers developing and designing usable technical documentation, visualizing data, and presenting technical information orally.

**ENGL 314H: Technical Communication: Honors**

(3-0) Cr. 3. F.S.SS.

*Prereq: Admission to Honors Program; ENGL 250; Junior classification*

Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations.

**ENGL 315: Creative Writing: Screenplays**

(3-0) Cr. 3. F.

*Prereq: ENGL 250; Sophomore classification*

Stresses master scene technique of writing fully developed screenplays. Emphasis on movie techniques, writing, workshop criticism, analytical reading and viewing, and individual conferences.

**ENGL 316: Creative Writing: Playwriting**

(Cross-listed with THTR). (3-0) Cr. 3. S.

*Prereq: ENGL 250; Sophomore classification*

Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences.

**ENGL 318: Introduction to ESL methods and materials**

(Cross-listed with LING). (3-0) Cr. 3. F.

*Prereq: ENGL 219 or LING 219*

Introduction to methods and materials for teaching English as a Second Language (ESL) for elementary and secondary students. Strategies and resources for teaching reading, writing, speaking and listening skills. Elementary Education students must take this course in the same semester as either EDUC 280S or EDUC 480S.

**ENGL 319: Studies in Language and Diversity**

(Cross-listed with LING). Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ENGL 250*

Special topics related to the role of language and linguistics in US diversity, such as Dialects and American literature, American English Accents, Legal and Social Aspects of English-only Laws in the US. Connections between language use and social diversity.

**ENGL 320: Topics in Linguistic Structure**

(Cross-listed with LING). Cr. 3. Repeatable, maximum of 9 credits. S.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220)*

Special topics related to the study of linguistic structure. Focus on language structure in areas not covered in detail by existing courses. Topics include field linguistics, morphology, forensic linguistics, neurolinguistics, semantics, non-English phonology, acoustic phonetics, linguistic universals, and historical linguistics.

**ENGL 322: Language and Society**

(Cross-listed with LING). Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

Introduction to variation in language use in society. Survey of factors affecting language use, including background characteristics of language users, location, and purpose of interaction in addition to institutional, state, and national language policies.

**ENGL 324: Introduction to Teaching ESL Literacy**

(Cross-listed with LING). Cr. 3. F.

*Prereq: ENGL 219 or LING 219*

Introduction to the issues and methods involved in teaching literacy skills to English as a second language (ESL) learners. The nature of literacy and materials and methods for developing ESL literacy at the middle school, high school, and adult ages across multiple levels of competency.

**ENGL 325: Teaching Methods for ESL Learners: Oral Communication Skills**

(Cross-listed with LING). Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

Issues and methods in teaching oral communication skills (listening, speaking, pronunciation) to English as a second language (ESL) learners. The nature of oral language ability. Materials and Methods for developing oral communication skills at middle school, high school, and adult contexts.

**ENGL 330: Science Fiction**

(3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of science fiction from its origins to the present. Highlights the genre's connections to issues related to gender, sexuality, race, empire, and environmentalism. May include study of cyberpunk, Afrofuturism, cli-fi, etc.

**ENGL 332: Visual Communication of Quantitative Information**

(Cross-listed with STAT). (3-0) Cr. 3.

*Prereq: ENGL 250; (STAT 101 or STAT 104 or STAT 105 or STAT 201 or STAT 231 or STAT 305 or STAT 322 or STAT 330)*

Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays.

**ENGL 335: Studies in Film**

(2-3) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250*

Focused study of film that explores a specific cinematic genre, style, period, or theme. Class meets for two hours per week for lecture and discussion. Lab meets for up to three hours per week for film screenings.

**ENGL 339: Literary Theory and Criticism**

(3-0) Cr. 3.

*Prereq: ENGL 260; 3 additional credits from (ENGL 225-227, ENGL 240, ENGL 310, ENGL 340, ENGL 344-347, ENGL 349, ENGL 440-441, ENGL 445, ENGL 352-355, ENGL 360, ENGL 362, ENGL 364, ENGL 373, ENGL 375, ENGL 376, ENGL 376A, ENGL 376B, ENGL 389, ENGL 490A, ENGL 395A)*

Focused examination of the history and recent trends in literary theory and criticism (e.g., postcolonialism, queer theory, disability studies, ecocriticism).

**ENGL 345: Women and Literature: Selected Topics**

(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250*

Focused study of literature by women and about women that focuses on a particular genre (fiction, non-fiction, poetry, film, drama, media), author, or theme.

**ENGL 346: American Indian Literature**

(Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of American Indian literature of varying genres, including fiction, non-fiction, poetry, film, drama, and media. Examines interdisciplinary approaches to American Indian cultural, social, and environmental issues.

**ENGL 347: Studies in African American Literature**

(Cross-listed with AF AM). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250*

Focused study of literature by African American writers. May include focus on a particular genre (fiction, non-fiction, poetry, film, drama, media), author, event, movement, or theme.

**ENGL 349: Topics in Multicultural Literatures of the United States**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250*

Focused study of literature by writers from U.S. multicultural groups. May include literature of several groups or focus upon one (such as Asian Americans, African Americans, Latinx Americans, American Indians). May also include focus on a particular genre (fiction, non-fiction, poetry, film, drama, media), event, movement, or theme.

**ENGL 350: Rhetorical Traditions**

(Cross-listed with CL ST, SP CM). (3-0) Cr. 3. S.

*Prereq: ENGL 250*

Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

**ENGL 352: Queer Literature**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of literary portrayals of queer lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and LGBTQ identities over time.

**ENGL 353: World Literature: Western Foundations through Renaissance**

(Cross-listed with CL ST). (3-0) Cr. 3. F.S.

*Prereq: ENGL 250*

Representative works of drama, poetry, and prose from ancient times through the mid-seventeenth century. Consideration of Western traditions within global contexts. Attention to religious and ethnic diversity; oral, manuscript, and print cultures; political authority; and the impact of translation on form, meaning, and reception of texts. Meets International Perspectives Requirement.

**ENGL 354: World Literature: Seventeenth Century to the Present**

(3-0) Cr. 3. S.

*Prereq: ENGL 250*

Global literatures in their various cultural and aesthetic contexts. Representative works, oral and written literature, including poetry, fiction, nonfiction, and drama. Meets International Perspectives Requirement.

**ENGL 355: Literature and the Environment**

(Cross-listed with ENV S). (3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of texts that address a wide range of environmental issues, including the relationship between humans and natural/urban environments, views of other-than-human beings, food, climate change, extinction, and social and racial justice. Assignments for the course may include research, exams, writing, and/or individual/group projects.

**ENGL 360: Studies in American Literature to 1800**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings in American literature from its beginnings through the colonial period; may reflect themes, genres, or social and cultural contexts.

**ENGL 362: Studies in 19th Century American Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings in American literature of the 19th century; may reflect themes, genres, or social and cultural contexts.

**ENGL 364: Studies in American Literature: 1900 to the Present**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings in American literature since 1900; may reflect themes, genres, or social and cultural contexts.

**ENGL 370: Shakespeare**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250*

Focused study of Shakespeare's plays and how they participate in cultural and political contexts – both in Shakespeare's time and our own. Includes staging activities, film presentations, and attention to pedagogy. Assignments for the course may include analytical essays (no research required), film presentations, marginalia, and individual/group projects. Meets International Perspectives Requirement.

**ENGL 373: Studies in British Literature: The Middle Ages**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings in medieval literature from its beginnings through the fifteenth century; may reflect themes, genres, or social and cultural contexts.

**ENGL 375: Studies in British Literature: The Restoration and 18th Century**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings in British literature from 1660 to 1800; may reflect themes, genres, or social and cultural contexts. Meets International Perspectives Requirement.

**ENGL 376: Studies in British Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250; Sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

**ENGL 376A: Studies in British Literature: Romantic**

(3-0) Cr. 3.

*Prereq: ENGL 250; Sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

**ENGL 376B: Studies in British Literature: Victorian**

(3-0) Cr. 3.

*Prereq: ENGL 250; Sophomore classification*

Selected readings from British literature from the late eighteenth century to about 1900; may reflect themes, genres, or social and cultural contexts.

Meets International Perspectives Requirement.

**ENGL 389: Postcolonial Literature**

(3-0) Cr. 3.

*Prereq: ENGL 250; Sophomore classification*

Focused study of literatures from previously (or continuously) colonized nations. May be broadly focused, or specific to the literature of one of the following areas: Africa, South Asia, the Caribbean, and the Middle East. Irish and immigrant British writers may also be included. Assignments for the course may include exams, written reflections and/or discussion boards, short essays, posters, and/or individual/group projects.

Meets International Perspectives Requirement.

**ENGL 393: The History of Children's Literature**

(3-0) Cr. 3. F.

*Prereq: ENGL 250*

Focused study of the development of English and American children's literature through the present day. Includes readings in animal stories, fantasy, and realism, including contemporary social issues.

**ENGL 395: Study and Travel**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 395A: Study and Travel: Literature**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 395B: Study and Travel: Creative Writing**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 395C: Study and Travel: Linguistics**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 395D: Study and Travel: Rhetoric and Professional Communication**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 395E: Study and Travel: Teacher Education**

Cr. arr. SS.

*Prereq: Permission of Instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

**ENGL 396: Teaching the Reading of Young Adult Literature**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250*

Critical study and evaluation of themes, genres, and cultures found in young adult literature. Strategies of effective reading; instructional strategies including discussion techniques and use of technology; matching texts to reader needs and proficiencies. Evaluation of fiction, nonfiction, and media-based materials for use in school programs. Lesson planning.

**ENGL 397: Practice and Theory of Teaching Writing in the Secondary Schools**

(3-0) Cr. 3. F.S.

*Prereq: Concurrent enrollment in EDUC 380*

Introduction to teaching secondary language arts. Current theories and practices in the teaching of writing to secondary school students. Theories of rhetoric, approaches to teaching, lesson design and planning. Evaluating writing. Students must have initiated the application process for the teacher education program and initiated a background check with the state of Iowa Department of Criminal Investigation.

**ENGL 404: Creative Writing Workshop: Fiction**

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: ENGL 304*

Individual projects in short fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

**ENGL 405: Creative Writing Workshop: Nonfiction**

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: ENGL 305*

Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

**ENGL 406: Creative Writing Workshop--Poetry**

(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: ENGL 306*

Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

**ENGL 410: Language as Data**

(Cross-listed with LING). Cr. 3. S.

*Prereq: Junior classification*

Methods of discovering language patterns in text documents solve practical text analysis problems in the disciplines. Fundamentals of linguistics and its role in text analysis. Practice writing R scripts to perform text analysis and visualize textual data.

**ENGL 411: Technology, Rhetoric, and Professional Communication**

(3-0) Cr. 3.

*Prereq: ENGL 310; (ENGL 302, ENGL 309, ENGL 313, or ENGL 314); Junior classification*

Seminar course on the implication of technologies, especially computer technology, for the writing and reading of business, technical, and academic texts. Extensive reading, discussion, and writing on selected technology-related topics.

**ENGL 415: Business and Technical Editing**

(3-0) Cr. 3. S.

*Prereq: (ENGL 302, ENGL 309, or ENGL 314); Junior classification*

Editing concepts and processes for choosing the appropriate level of editing for the particular rhetorical situation. Covers using editorial tools such as copy-marking symbols, developing style sheets and guides, and managing document production. Emphasizes developing an editorial eye for verbal and visual details in order to achieve accuracy, consistency, correctness, and completeness.

**ENGL 416: Visual Aspects of Business and Technical Communication**  
(3-0) Cr. 3. F.

*Prereq: (ENGL 302, ENGL 309, or ENGL 314); Junior classification*

Rhetorical strategies and perceptual principles for designing print and digital visual elements such as diagrams and graphs and integrating those visual elements into business and technical communications. Covers strategies for employing visual elements such as typeface, page and screen layout, and illustrations in order to make communications more usable.

**ENGL 417: Student Teaching**

Cr. arr. F.S.

*Prereq: admission to teacher education, approval of coordinator the semester prior to student teaching*

Full-time teaching in content licensure area: long term and unit planning, lesson planning, classroom teaching practice.

**ENGL 417E: Student Teaching: English and Literature**

(Cross-listed with EDUC). Cr. arr. Repeatable. F.S.

*Prereq: ENGL 494, admission to teacher education, approval of coordinator the semester prior to student teaching*

Full-time teaching in secondary English: long term and unit planning, lesson planning, classroom teaching practice in English language arts.

**ENGL 418: Seminar in Argumentation**

(Cross-listed with SP CM). (3-0) Cr. 3. F.S.

*Prereq: (ENGL 310 or SP CM 310); Junior classification*

Advanced seminar in theory and analysis with extensive practice in various modes of argument.

**ENGL 420: History of the English Language**

(Cross-listed with LING). (3-0) Cr. 3. F.S.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220)*

Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.

**ENGL 422: Women, Men, and the English Language**

(Cross-listed with LING, WGS). (3-0) Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions.

**ENGL 425: Second Language Learning and Teaching**

(Cross-listed with LING). (3-0) Cr. 3. S.

*Prereq: (ENGL 219 or LING 219); Junior classification*

The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment.

**ENGL 437: Grammatical Analysis**

(Cross-listed with LING). (3-0) Cr. 3. F.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220); Junior classification*

Theories and methods for analysis of syntax and morphology.

**ENGL 440: Seminar in British Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Selected authors, movements, eras, or genres in British literature.

Readings in criticism; required research paper.

**ENGL 441: Seminar in American Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Selected authors, movements, eras, or genres in American literature.

Readings in criticism; required research paper.

**ENGL 445: Seminar: Literature Crossing Boundaries**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Intensive study of selected literature that bridges traditional genre, period, national, or disciplinary boundaries. Readings in criticism; required research paper.

**ENGL 450: Seminar in Literary Genres**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Intensive study of drama, film, fiction, poetry, or prose. Selected movements, eras, or national traditions. Readings in criticism; required research paper.

**ENGL 460: Seminar in Gender and Ethnicity**

(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Selected readings of various authors, movements, eras, or genres.

Readings in criticism; required research paper.

**ENGL 477: Seminar in Technical Communication**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 302 or ENGL 309 or ENGL 314*

Intensive study of a selected topic that bridges theory and practice in technical communication. Required project that contributes to the understanding of an emerging issue in the profession.

**ENGL 487: Internship in Business, Technical, and Professional Communication**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: 9 credits in (ENGL 302, ENGL 309, ENGL 313, ENGL 314, ENGL 415, ENGL 416, or ENGL 477); Junior classification; Department permission*

An opportunity to write, edit, and design business and technical documents in a professional setting. Projects might include reports, proposals, manuals, brochures, newsletters.

**ENGL 490: Independent Study**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490A: Independent Study: Literature**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490B: Independent Study: Linguistics**

(Cross-listed with LING). Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490C: Independent Study: Rhetoric, Teaching of Composition**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490D: Independent Study: Criticism and Theory of Literature**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490E: Independent Study: Instructional Methods and Research**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490F: Independent Study: Creative Writing**

Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490G: Independent Study: Business/Technical Communication**

Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 490H: Independent Study: Honors**

Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of ENGL 490 may be used toward graduation.

**ENGL 492: Undergraduate Teaching Experience**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department permission*

Teaching assistant experience.

**ENGL 493: Advanced Creative Writing Workshop—Multi-Genre**

Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: (ENGL 304, ENGL 305, or ENGL 306); Junior standing*

Advanced workshop of individual creative writing projects in short fiction, nonfiction, and poetry. Readings and discussion of published examples of short fiction, nonfiction, and poetry by authors of national and international note. Extensive discussion and written analysis of elements of craft across genres.

**ENGL 494: Practice and Theory of Teaching Literature in the Secondary Schools**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 310; ENGL 397; 9 additional credits in ENGL beyond ENGL 250; PSYCH 333*

Current theories and practices in the teaching of literature to secondary school students. Integrating literary study and writing. Preparation and selection of materials. Classroom presentation. Unit planning. Students must have initiated the application process for the teacher education program and initiated a background check with the state of Iowa Department of Criminal Investigation. Concurrent enrollment in EDUC 480 and SP ED 401 required.

**ENGL 497: Capstone Assessment**

Cr. 1. F.S.

*Prereq: Junior classification; Department Permission*

Must be taken in conjunction with a 400-level English course.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ENGL 500: Teaching Multimodal Composition**

(3-0) Cr. 3. F.

*Prereq: Graduate classification; must be teaching Engl 150 or Engl 250 concurrently*

Introduction to the teaching of ISUComm Foundation Courses. Foundational and relevant newer composition theory and pedagogical methods related to ISUComm Foundation Courses objectives and their classroom enactment, including development of assignments and supporting activities, and evaluation of student projects. Required of all new teaching assistants teaching ISUComm Foundation Courses.

**ENGL 501: Introduction to Research in Rhetoric, Composition, and Professional Communication**

(3-0) Cr. 3.

*Prereq: 6 graduate credits in English*

Survey of the major rhetorical, qualitative, and quantitative methods used in research on communication and language in academic and nonacademic settings.

**ENGL 503: Composition Theory**

(3-0) Cr. 3.

*Prereq: 6 graduate credits in English*

In-depth consideration of the theory and practice of composition pedagogy. Opportunities for actual classroom application.

**ENGL 504: Theory and Practice of Teaching Advanced Composition**  
(3-0) Cr. 3. F.

*Prereq: Senior classification*

Theory of teaching technical, business, and science communication courses combined with practical matters related to such courses, including curriculum planning, assignment design, assessment of student work, and online teaching.

**ENGL 505: User Experience Architecture and Testing**

(3-0) Cr. 3.

*Prereq: Senior classification*

Seminar course examining user experience (UX) interface design and development in technical communication. Focus is on the UX project cycle: creating user interfaces, conducting user research, system testing, and implementing data-driven results.

**ENGL 506: Professional Communication Theory**

(3-0) Cr. 3.

*Prereq: Admission to English Department graduate degree program*

Introduction to professional communication as a discipline, with emphasis on theories of communication and discourse that inform professional communication research and on trends and developments in that research and the field.

**ENGL 508: Writing for Academic Publication**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: 6 graduate credits*

Hands-on practice in writing academic discourse for publication; rhetorical analyses of student-selected academic journals; discussion of current trends in academic writing; professional perspectives on the referee process and on journal editorial decision making. Focus on the writing of selected short pieces (opinion essays, standard reviews, conference-length papers) and of article-length manuscripts.

**ENGL 510: Introduction to Computers in Applied Linguistics**

(Cross-listed with LING). (3-0) Cr. 3. F.

*Prereq: Graduate classification*

Use of software and web applications for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

**ENGL 511: Introduction to Linguistic Analysis**

(Cross-listed with LING). (3-0) Cr. 3. F.

*Prereq: Graduate classification*

Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

**ENGL 512: Second Language Acquisition**

(Cross-listed with LING). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

**ENGL 513: Language Assessment Practicum**

(Cross-listed with LING). (3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 519 or LING 519*

Advanced practicum in language assessment.

**ENGL 514: Sociolinguistics**

(Cross-listed with LING). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theories and methods of examining language in its social setting.

Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

**ENGL 515: Statistical Natural Language Processing**

(Cross-listed with HCI, LING). (3-0) Cr. 3.

*Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511*

Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

**ENGL 516: Methods of Formal Linguistic Analysis**

(Cross-listed with LING). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 219/LING 219 or equivalent.*

Data and knowledge structures for formal representation of natural language and speech data. Designing and implementing algorithms for automating linguistic analysis tasks. Conceptual issues for natural language and speech processing programming.

**ENGL 517: Corpus Linguistics**

(Cross-listed with LING). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in Linguistics*

Corpus linguistics methods of language analysis, including corpus design, construction and annotation; data in corpus studies; tools and methods of analysis. Corpus methods applied in vocabulary, grammar, register and dialect variation, language change, pragmatics, semantics, stylistics, language learning and teaching, and language testing.

**ENGL 519: Second Language Assessment**

(Cross-listed with LING). (3-0) Cr. 3. S.

*Prereq: ENGL 511 or LING 511*

Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

**ENGL 520: Computational Analysis of English**

(Cross-listed with HCI, LING). (3-0) Cr. 3.

*Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511*

Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

**ENGL 521: Teaching of Literature and the Literature Curriculum**

(3-0) Cr. 3.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Examination of the roles of the literary work, reader, and teacher in literary study. Responses to literature. Place of literature in language arts. Study and development of curriculum materials for middle school, high school, and college levels of instruction.

**ENGL 522: Literary Theory and Criticism**

(3-0) Cr. 3.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Examination of the history of and/or recent trends in literary theory and criticism (e.g., postcolonialism, queer theory, disability studies).

**ENGL 523: Introduction to Old English Language and Literature**

(3-0) Cr. 3.

*Prereq: Course in medieval literature or history or history of the English language recommended*

Introductory study of Old English language and literature in prose and poetry, including extracts from Beowulf. Some attention to Anglo-Saxon culture.

**ENGL 524: Literacy: Issues and Methods for Nonnative Speakers of English**

(Cross-listed with LING). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

**ENGL 525: Research and Teaching of Second Language Pronunciation**

(Cross-listed with LING). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theoretical and practical issues and techniques in the teaching of second language pronunciation as it relates to other areas of language, especially listening and speaking skills. Topics will include segmental and suprasegmental features; intelligibility; pronunciation in language assessment; classroom, technology and individual instruction; and research issues. Topics will be relevant to those intending to teach or research in various contexts.

**ENGL 526: Technology for Language Learning**

(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or equivalent*

Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

**ENGL 527: Discourse Analysis**

(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

**ENGL 528: English for Specific Purposes**

(Cross-listed with LING). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and corpus-informed syllabus and materials development for teaching and assessment.

**ENGL 529: Content Management**

(3-0) Cr. 3.

*Prereq: Senior classification*

Strategies for developing and delivering multimodal content via online digital media. Focus on the principles of database design, interface development, usability testing, and collaborative content management within professional communication settings.

**ENGL 530: Technology and Oral Language**

(Cross-listed with LING). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENGL 219 or ENGL 511 or equivalent.*

Structure and description of oral language and discourse. How spoken language is linguistically described, analyzed, and taught for research and for education. Using technology to record, transcribe, and analyze spoken language at all levels of linguistic structure.

**ENGL 531: Topics in the Study of Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Intensive study of literary genres, periods, movements, or themes (e.g., The African American Novel, Allegory, Science Fiction).

**ENGL 532: American Literature to 1865**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected texts in American literature from Beginnings to the Civil War. Study may include Native American literature, the literature of European conquest, Colonial and Revolutionary periods, Early Republic, and Jacksonian Era, in critical and cultural contexts.

**ENGL 533: British Literature to 1830**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected texts from the Medieval, Renaissance, Restoration, Eighteenth-Century, and/or Romantic periods, in critical and cultural contexts.

**ENGL 534: American Literature 1865 to the Present**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected texts in American literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

**ENGL 535: British Literature 1830 to the Present**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected texts from the Victorian, Edwardian, Modernist, and/or Contemporary periods, in critical and cultural contexts.

**ENGL 536: Preparing Publishable Thesis Chapters**

(Cross-listed with GR ST). Cr. 3. F.S.

Reporting original research results within the norms for writing of a student's discipline. Emphasis on preparing thesis/dissertation chapters that will be both acceptable to the Graduate College and ready for submission to a refereed journal in the student's discipline. Focus on reporting results from student-generated original research, norms for discourse within disciplines, and how thesis chapters differ from journal manuscripts.

**ENGL 537: Corpus Approaches to Grammatical Analysis**

(Cross-listed with LING). (3-0) Cr. 3.

*Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification*

Corpus-informed analysis of syntax in authentic writing and speech, with emphasis on approaches used in applied linguistics.

**ENGL 538: Fiction**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected fiction writers in English; range of authors and genres. Emphasis on both male and female writers; attention to the relationships between fiction and cultural change.

**ENGL 539: Poetry**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Selected poets writing in English, considered in representative groups.

**ENGL 540: Drama**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

**ENGL 542: Technical Editing and Publication Management**

(3-0) Cr. 3.

*Prereq: Senior classification*

Overview of theory and research in technical editing and publication management with substantial practice in applying theory and research findings. Focus on document production process, levels of edit, development of accessible, translatable, and inclusive documents, and sustainable publication practices.

**ENGL 543: The Study of Environmental Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification*

Intensive study of environmental literary genres, periods, figures, movements, or themes: e.g., Ecofeminism, Imagining Natural Disaster, Material Ecocriticism, Environmental Justice, Posthumanism.

**ENGL 545: Women's Literature**

(Cross-listed with WGS). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women's Personal Narratives; Southern Women Writers of the U.S.

**ENGL 546: Issues in the Study of Literature**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or 6 credits in literature at 300 level or above*

Intensive study of current and emerging topics and problems concerning literature and its relationship to theory and to language study; e.g., Theory of Metaphor; Renegotiating the Canon; Feminist Theory.

**ENGL 547: The History of Rhetorical Theory from the Classical Era to the Present**

(Cross-listed with SP CM). (3-0) Cr. 3.

*Prereq: 6 credits in English*

Rhetorical theory from the classical period of ancient Greece through to the 20th century; attention to rhetoric's relation to the nature of knowledge, communication, practice, and pedagogy.

**ENGL 548: Cultural and Critical Theories of Communication and Rhetoric**

(Cross-listed with SP CM). (3-0) Cr. 3.

*Prereq: 6 credits in English*

Contemporary theories that address the production, reception, and critical evaluation of cultural artifacts and communicative events; these theories address power, ideology, and the norms of public discourse. Theories covered may include Postmodernism, Feminist Theory, Public Sphere Theory, as well as Critical Race Theory, Social Justice Theory, Disability Theory, Queer Theory, and/or Intercultural Theories of Communication and Rhetoric.

**ENGL 549: Multimedia and Interaction Design**

(Cross-listed with SP CM). (3-0) Cr. 3.

*Prereq: Senior classification*

Rhetorical principles of interactive multimedia design, such as those in streaming multimedia as part of workplace documents. Practical understanding of the computer applications used in interactive multimedia development. Focus on theoretical and practical elements of producing multimedia for training in both education and industry. Work with interactive hypertext, digital audio, and nonlinear video editing.

**ENGL 550: Creative Writing: Craft and Professional Practice**

(3-0) Cr. 3. F.

*Prereq: Admission into MFA Program in Creative Writing and Environment*

A multigenre craft course required of all incoming students in the MFA Program in Creative Writing and Environment. Students develop an understanding of craft and environmental writing across genres (poetry, fiction, nonfiction, drama), as well as learn about editing and publication practice through the lens of a working literary magazine, Flyway: A Journal of Writing and Environment. Other course activities may include an environmental field trip, presentations on the production practices of leading literary journals, individual editing projects, and pragmatic guidance for finding publication outlets for polished creative work.

**ENGL 551: Master Workshop**

(3-0) Cr. 3. F.

*Prereq: Fifth-semester or equivalent standing in MFA Program in Creative Writing and Environment.*

An advanced multigenre creative writing workshop. Students work intensively on book-length manuscripts of fiction, creative nonfiction, scriptwriting, or poetry.

**ENGL 552: Workshop: Scriptwriting**

(3-0) Cr. 3. Repeatable.

*Prereq: Graduate classification. Open to graduate students outside MFA Program in Creative Writing and Environment with permission of instructor.*  
Individual projects in dramatic writing. Focus on writing for stage, screen, and/or new media. Readings in dramatic literature. Discussion of elements such as plot, character, dialogue, structure, theme, and visual storytelling.

**ENGL 554: Workshop: Fiction**

(3-0) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Graduate classification. Open to graduate students outside MFA Program in Creative Writing and Environment with permission of instructor.*  
Individual projects in fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

**ENGL 555: Workshop: Nonfiction**

(3-0) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Graduate classification. Open to graduate students outside MFA Program in Creative Writing and Environment with permission of instructor.*  
Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

**ENGL 556: Workshop: Poetry**

(3-0) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Graduate classification. Open to graduate students outside MFA Program in Creative Writing and Environment with permission of instructor.*  
Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

**ENGL 557: Studies in Creative Writing**

(3-0) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Graduate classification. Open to graduate students outside MFA Program in Creative Writing and Environment with permission of instructor.*  
Special topics course on ideas, issues, and techniques in creative writing. Subject matter may include specific genres, aspects of the creative writing process, or themes of particular interest. Significant readings and written work required; previous workshop experience helpful.

**ENGL 558: Teaching Creative Writing**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Pedagogical approaches that are effective for grade-school through adult-education creative writing teaching. Writing exercises, workshops, text evaluation, and visits from creative writers.

**ENGL 559: Creative Writing Teaching Internship**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor.*

Students assist in an introductory creative writing course, primarily evaluating manuscripts and facilitating workshops. Some students may facilitate community-based creative writing workshops.

**ENGL 560: Environmental Field Experience**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 550 and graduate classification.*

Students spend a term on a project that requires fieldwork. Projects might include working for a federal, state, or private non-profit environmental organization or farm, or living and working in a specified natural area.

**ENGL 561: Methods for Scholarship in Literature and the Humanities**

Cr. 3.

*Prereq: Graduate classification or permission from the instructor*

Intensive study of research methods and perspectives concerning the study of literature and the humanities at the master's level. Introduction to resources and techniques of research, the structure of academic articles, and strategies for argument in academic communication.

**ENGL 562: Topics in the Study of Film**

Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq: Graduate classification or 6 credits in film at 300 level or above*

Intensive study of cinematic genres, periods, movements, or themes; e.g., The Musical, Classical Hollywood Cinema, Structural Film, Art and Cinema. General emphasis will be on American, British, and other Anglophone cinemas.

**ENGL 563: Research Methods in Rhetoric, Composition, and Professional Communication**

(3-0) Cr. 3. S.

*Prereq: Senior classification*

A workshop for graduate students in rhetoric and professional communication. Focus on rhetorical analysis, qualitative methods, or quantitative methods.

**ENGL 563A: Research Methods in Rhetoric, Composition, and Professional Communication: Qualitative Research**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Senior classification*

Theory and application of qualitative communication research, including research design, data collection, ethical issues, data analysis, and reporting results.

**ENGL 563B: Research Methods in Rhetoric, Composition, and Professional Communication: Quantitative Research**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Senior classification*

Application of quantitative research designs, such as surveys and experiments; data collection techniques; essential statistical analyses; and write-up of results. Develop ethical research practices for human subjects research. Analyze quantitative research design principles in professional communication studies.

**ENGL 563C: Research Methods in Rhetoric, Composition, and Professional Communication: Rhetorical Analysis**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Senior classification*

Extended practice in close textual analysis of various kinds of rhetorical artifacts. Attention to important theoretical concepts used in rhetorical analysis and to historical controversies over the scope and function of rhetorical analysis.

**ENGL 569: Grant Writing**

(Cross-listed with GR ST). (1-0) Cr. 1. S.

*Prereq: at least two prior years of graduate classification.*

Writing a winning proposal.

**ENGL 586: Visual Rhetoric in Professional Communication**

(3-0) Cr. 3.

*Prereq: A course in professional communication*

Rhetorical theory and research in graphics, document design, and related principles of visual communication. Methods of designing texts, data displays, illustrations, and other visual elements in business and technical communication.

**ENGL 587: Internship in Professional Communication**

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Three graduate credits in professional communication, permission of instructor. Limited to master's and doctoral degree candidates in the field of rhetoric and professional communication*

An opportunity to write, edit, and design documents in a professional setting.

**ENGL 588: Supervised Practice Teaching in Teaching English as a Second Language**

(Cross-listed with LING). (1-5) Cr. 3. F.S.

*Prereq: 9 credits toward the TESL/TEFL Certificate or 15 credits toward the TESL/AL master's degree.*

Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the student teacher's goals. ENGL 588 cannot be used for teacher licensure.

**ENGL 589: Supervised Practicum in Literary Editing**

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: ENGL 550 and permission of instructor*

An opportunity to edit literary texts and gain experience in a literary publishing setting.

**ENGL 590: Special Topics**

(Cross-listed with LING). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590A: Special Topics: Literature**

Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590B: Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics**

(Cross-listed with LING). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590C: Special Topics: Composition and Rhetoric**

Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590E: Special Topics: Rhetoric and Professional Communication**

Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590F: Special Topics: Creative Writing**

Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 590G: Special Topics: Applied Linguistics and Technology**

(Cross-listed with LING). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**ENGL 591: Directed Readings**

Cr. arr. Repeatable.

**ENGL 591A: Directed Readings: Literature**

Cr. arr. Repeatable.

**ENGL 591B: Directed Readings: Teaching English as a Second Language (TESL)/Applied Linguistics**

(Cross-listed with LING). Cr. arr. Repeatable.

**ENGL 591C: Directed Readings: Composition and Rhetoric**

Cr. arr. Repeatable.

**ENGL 591E: Directed Readings: Rhetoric and Professional Communication**

Cr. arr. Repeatable.

**ENGL 591F: Directed Readings: Creative Writing**

Cr. arr. Repeatable.

**ENGL 591G: Directed Readings: Applied Linguistics and Technology**  
(Cross-listed with LING). Cr. arr. Repeatable.

**ENGL 592: Core Studies in Rhetoric, Composition, and Professional Communication**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250*

Seminar on topics central to the fields of rhetoric and professional communication or composition.

**ENGL 592A: Core Studies: Rhetoric**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250*

Seminar on topics central to the fields of rhetoric and professional communication or composition.

**ENGL 592B: Core Studies: Composition**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: 12 credits in rhetoric, linguistics, or literature, excluding ENGL 150 and ENGL 250*

Seminar on topics central to the fields of rhetoric and professional communication or composition.

**ENGL 592C: Core Studies: Professional Communication**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

Seminar on topics central to the fields of rhetoric and professional communication or composition.

**ENGL 595: Graduate Study and Travel**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 595A: Graduate Study and Travel: Literature**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 595B: Graduate Study and Travel: Creative Writing**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 595C: Graduate Study and Travel: Linguistics**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 595D: Graduate Study and Travel: Rhetoric and Professional Communication**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 595E: Graduate Study and Travel: Teacher Education**

Cr. arr.

*Prereq: Permission of instructor*

Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

**ENGL 599: Creative Component**

Cr. 3. F.S.SS.

*Prereq: Graduate classification, permission of major professor*

**Courses for graduate students:**

**ENGL 603: Seminar in Composition Theory**

(3-0) Cr. 3.

*Prereq: ENGL 503*

Exploration of relationships between theory and practice in current pedagogy. Intensive examination of contemporary theories of poststructuralism, new media, feminism, postcolonialism, or cultural studies and their impact on current pedagogical practice. Participation in pedagogical research and theory building.

**ENGL 611: Seminar in Rhetorical Theory**

(Cross-listed with SP CM). (3-0) Cr. 3. Repeatable.

*Prereq: ENGL 547*

Rhetorical theory, criticism, and/or practice in relation to a historical period or a particular theoretical issue.

**ENGL 623: Research Methods in Applied Linguistics**

(Cross-listed with LING). (3-0) Cr. 3. Repeatable.

Survey of research methods used in applied linguistics. Focus on conceptualizing and conducting research studies, including the process of developing research questions, gathering data, choosing data collection measures, and coding and analyzing data. Examples from a range of research approaches in the journals in applied linguistics and related areas are evaluated. The course prepares students to be critical consumers of quantitative and qualitative applied linguistics research and able to design and carry out their own research studies.

**ENGL 623A: Research Methods in Applied Linguistics: Quantitative**

(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511*

Survey of quantitative research methods used in applied linguistics.

**ENGL 623B: Research Methods in Applied Linguistics: Qualitative**

(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 511 or LING 511*

Survey of qualitative research methods used in applied linguistics.

**ENGL 626: Computer-Assisted Language Testing**

(Cross-listed with LING). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519*

Principles and practice for the use and study of computers and the Internet in second language assessment.

**ENGL 630: Seminar in Applied Linguistics**

(Cross-listed with LING). (3-0) Cr. 3. Repeatable.

*Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511*

Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

**ENGL 631: Administration and Organization of Multimodal Writing Programs**

(3-0) Cr. 3.

*Prereq: ENGL 500, ENGL 503, ENGL 504, or ENGL 603*

Survey of the major components of writing instruction in academic and nonacademic settings. History, theory, organization, and evaluation of writing programs. Guided observation of writing program functions at various institutions and businesses.

**ENGL 699: Research**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Graduate classification, permission of major professor*  
Research.

## Entomology (ENT)

***Any experimental courses offered by ENT can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**ENT 201: Introduction to Insects**

(2.7-0) Cr. 1. F.S.SS.

Biological and ecological aspects of insects. Offered online only. 5 weeks.

**ENT 211: Insects and Society**

(2.7-0) Cr. 2. F.S.

*Prereq: ENT 201*

The importance of insects in human well-being. Insect-human interactions. Primarily for non-science and non-agriculture majors. Offered online only. 11 weeks.

**ENT 214: Insects in Forensic Science**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to the use of insects as evidence in court and how they can assist in solving crimes. Topics covered include basic insect biology, systematics, behavior, with emphasis on applications of forensic entomology.

**ENT 220: Introduction to Forensic Science**

(Cross-listed with C J). (3-0) Cr. 3. S.

Study of fundamental forensic science techniques and procedures covering types of physical, chemical, and biological evidence and how this information is used in the legal system. Assessment of crime scenes and various forensic specialties will be introduced.

**ENT 283: Pesticide Application Certification**

(Cross-listed with AGRON, FOR, HORT). (2-0) Cr. 2. S.

Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

**ENT 358: Bee Biology, Management, and Beekeeping**

(Cross-listed with BIOL). (3-0) Cr. 3. F.

*Prereq: 1 course in 200-level BIOL or Permission of Instructor*

Bee diversity and evolution, ecology, role as pollinators, behavior, anatomy, and development. Management of bees as agricultural pollinators and honey producers, focusing on honey bees. Working with live bee hives and demonstration of practical beekeeping skills will occur during several field trips to local hives.

**ENT 370: Insect Biology**

(2-3) Cr. 3. F.

*Prereq: BIOL 101 or BIOL 211*

Structure, physiology, evolution, behavior, life histories, and recognition of insects. Collection required.

**ENT 372: Livestock Entomology**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

Classroom and off-campus videotape sections. 12 weeks. Recognition, biology, behavior, economic importance, and management of insects and other arthropods affecting livestock and poultry production.

**ENT 374: Insects and Our Health**

(Cross-listed with MICRO). (3-0) Cr. 3. S.

*Prereq: 3 credits in BIOL*

Identification, biology, and significance of insects and arthropods that affect the health of humans and animals, particularly those that are vectors of disease.

Meets International Perspectives Requirement.

**ENT 374L: Insects and Our Health Laboratory**

(Cross-listed with MICRO). (0-3) Cr. 1. Alt. S., offered even-numbered years.

*Prereq: Credit or concurrent enrollment in ENT 374 or MICRO 374*

Laboratory and field techniques for studying medical or public health entomology, including: collection, identification and maintenance of medically significant arthropods and experimental design and execution related to the biology of arthropods or arthropod-pathogen interactions.

**ENT 375: Plant Protection Using Natural Enemies**

(Dual-listed with ENT 575). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENT 370 or ENT 376*

Overview of the biology, ecology, and classification of insect pathogens, predators, and parasitoids. Discussion of the use of these organisms in plant protection, including an emphasis on genetic alteration of natural enemies.

**ENT 376: Fundamentals of Entomology and Pest Management**

(2-3) Cr. 3. S.

*Prereq: BIOL 101 or BIOL 211*

Introduction to entomology and insect-pest management, including life processes, ecology, economics, tactics of population suppression, and ecological backlash.

**ENT 425: Aquatic Insects**

(Dual-listed with ENT 525). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

**ENT 435: Entomology Field Trip**

(Cross-listed with A ECL). Cr. 2. Repeatable, maximum of 2 times. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: BIO 312; Permission of Instructor*

Field trip to study insects of major terrestrial and aquatic ecosystems. Location and duration vary. ENT 370 or ENT 425 recommended.

**ENT 450: Pesticides in the Environment**

(Dual-listed with ENT 550). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: 6 credits of BIOL or Permission of Instructor*

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

**ENT 452: Integrated Management of Diseases and Insect Pests of Turfgrasses**

(Dual-listed with ENT 552). (Cross-listed with PL P). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HORT 351*

Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

**ENT 471: Insect Ecology**

(Dual-listed with ENT 571). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 211 or Permission of Instructor*

The contribution of insects to ecosystem function is staggering. This course will focus on insect population ecology, predator-prey interaction and chemical ecology. The role of insects in nutrient cycling, pollination and pest management will be discussed with case studies used to highlight the applied nature of insect ecology and its relationship to agriculture.

**ENT 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

A maximum of 9 credits of all (university-wide) 490 credits may be applied toward graduation.

**ENT 490E: Independent Study: Research or work experience.**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

A maximum of 9 of all (university-wide) 490 credits may be used toward graduation.

**ENT 490U: Independent Study: Laboratory teaching experience**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

For students registering to be undergraduate laboratory assistants. A maximum of 9 of all (university-wide) 490 credits may be used toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:****ENT 511: Integrated Management of Tropical Crops**

(Cross-listed with HORT, PL P). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: PL P 408 or PL P 416 or ENT 370 or ENT 376 or HORT 221*

Applications of Integrated Crop Management principles (including plant pathology, entomology, and horticulture) to tropical cropping systems.

Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects.

Meets International Perspectives Requirement.

**ENT 525: Aquatic Insects**

(Dual-listed with ENT 425). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

**ENT 530: Ecologically Based Pest Management Strategies**

(Cross-listed with AGRON, PL P, SUSAG). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.

**ENT 550: Pesticides in the Environment**

(Dual-listed with ENT 450). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: 6 credits of BIOL or Permission of Instructor*

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

**ENT 552: Integrated Management of Diseases and Insect Pests of Turfgrasses**

(Dual-listed with ENT 452). (Cross-listed with PL P). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HORT 351*

Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments.

**ENT 555: Insect Physiology**

(3-3) Cr. 4. Alt. S., offered even-numbered years.

*Prereq: ENT 370*

Life processes of the insects, including reviews of current problems in insect physiology.

**ENT 568: Advanced Systematics**

(Cross-listed with EEOB). (2-3) Cr. 3. Alt. S., offered irregularly.

*Prereq: Permission of instructor*

Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

**ENT 570: Plant-Insect Interaction**

(2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: 9 credits in biological sciences*

Physiological, behavioral, ecological, and evolutionary factors that govern interactions between insects and plants, applications of this knowledge to agriculture, and important results from the study of natural systems. Additional topics covered during the semester include: tritrophic interactions, biological control of plants by insects, and pollination biology. Student-led discussions and draws on both the primary and secondary literature.

**ENT 571: Insect Ecology**

(Dual-listed with ENT 471). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 211 or Permission of Instructor*

The contribution of insects to ecosystem function is staggering. This course will focus on insect population ecology, predator-prey interaction and chemical ecology. The role of insects in nutrient cycling, pollination and pest management will be discussed with case studies used to highlight the applied nature of insect ecology and its relationship to agriculture.

**ENT 574: Medical Entomology**

(3-3) Cr. 4. Alt. S., offered even-numbered years.

*Prereq: 9 credits in biological sciences*

Identification, biology, and significance of insects and other arthropods that attack people and animals, particularly those that are vectors of disease.

**ENT 575: Plant Protection Using Natural Enemies**

(Dual-listed with ENT 375). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENT 370 or ENT 376*

Overview of the biology, ecology, and classification of insect pathogens, predators, and parasitoids. Discussion of the use of these organisms in plant protection, including an emphasis on genetic alteration of natural enemies.

**ENT 576: Systematic Entomology**

(3-6) Cr. 5. Alt. F., offered even-numbered years.

*Prereq: ENT 370*

Classification, distribution, and natural history of insects, including fundamentals of phylogenetic systematics, biogeography, taxonomic procedures, and insect collection and curation.

**ENT 581: Experience in Plant Science Extension and Outreach**

(Cross-listed with AGRON, HORT, PL P). Cr. 1. Alt. SS., offered odd-numbered years.

A supervised learning experience in several extension delivery methods used in the plant sciences. Participation in Iowa State University-based extension programs that may include field crop, horticulture, or Master Gardener programming.

**ENT 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq: 15 credits in biological sciences.*

**ENT 590A: Special Topics: Biological Control and Pathology.**

Cr. 1-3. Repeatable.

**ENT 590B: Special Topics: Chemical Ecology and Behavior.**

Cr. 1-3. Repeatable.

**ENT 590C: Special Topics: Ecology and Pest Management.**

Cr. 1-3. Repeatable.

**ENT 590D: Special Topics: Evolution and Systematics.**

Cr. 1-3. Repeatable.

**ENT 590E: Special Topics: Special Research Topics.**

Cr. 1-3. Repeatable.

**ENT 590F: Special Topics: Medical and Veterinary Entomology.**

Cr. 1-3. Repeatable.

**ENT 590G: Special Topics: Molecular Entomology.**

Cr. 1-3. Repeatable.

**ENT 590I: Special Topics: Toxicology**

Cr. 1-3. Repeatable.

**ENT 590K: Special Topics: Teaching Experience.**

Cr. 1-3. Repeatable.

**ENT 590L: Special Topics: Extension Internship.**

Cr. 1-3. Repeatable.

**ENT 590M: Special Topics: Immature Insects.**

Cr. 1-3. Repeatable.

**ENT 590N: Special Topics: Population Genetics.**

Cr. 1-3. Repeatable.

**Courses for graduate students:****ENT 600: Seminar**

Cr. 1. F.S.SS.

Presentation of research results.

**ENT 675: Insecticide Toxicology**

(Cross-listed with TOX). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENT 555 or TOX 501*

Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.

**ENT 699: Research**

Cr. arr. Repeatable.

## Entrepreneurship (ENTSP)

***Any experimental courses offered by ENTSP can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****ENTSP 310: Entrepreneurship and Innovation**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Introduction to the entrepreneurial process, from the creation and discovery of entrepreneurial opportunities to starting viable business ventures. Develops core entrepreneurial and innovation skills instrumental for business startups as well as for established businesses, and fosters fundamental understanding of how to organize, structure, finance, market and launch new ventures. Opportunities to apply introduced skills, tools and frameworks through class projects and exercises.

**ENTSP 313: Feasibility Analysis for New Ventures**

(3-0) Cr. 3. F.S.

*Prereq: ENTSP 310*

Focuses on the knowledge and practical skills required for developing an idea for a new business venture, researching potential markets, analyzing competition, conducting formal feasibility analyses, and considering business plan implications. Includes discussion of basic business functions in terms of their application to conducting feasibility analyses and to exploiting related business opportunities.

**ENTSP 320: Corporate Entrepreneurship**

(Cross-listed with MGMT). (3-0) Cr. 3. F.S.

*Prereq: sophomore classification*

Introduces entrepreneurial approaches aimed at the identification, development and exploitation of technical and organizational innovations, the management of new product or process developments, and the effective management of new ventures. Focuses on mid-size to large corporations, especially in the manufacturing and service industries. Develops an awareness and understanding of the range, scope, and complexity of issues related to the creation of a corporate environment that is supportive of entrepreneurial endeavors as well as the effective implementation of technological and organizational innovations in corporate settings.

**ENTSP 367: International Entrepreneurship**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Introduces the essentials of two key components of international entrepreneurship: operating an entrepreneurial firm in an international environment, and starting and developing a new venture in an international market. Topics include choosing and entering an international market, organizing international ventures, and other issues related to managing the business and employees in an international context. Offers students the opportunity to create an international business plan for their own business idea or an existing company. Meets International Perspectives Requirement.

**ENTSP 381: Managing Family Businesses**

(Cross-listed with MGMT). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Introduction to the important role family businesses play in the domestic and global economies as well as the complex and unique challenges and opportunities encountered by such businesses and their family members and other employees. Explores best practices for successfully managing family businesses.

**ENTSP 410: Social Entrepreneurship**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Introduces the role of entrepreneurship in helping to solve social issues and societal problems, and the idea of social entrepreneurs as pursuers of the public good and as change agents in the social sector. Emphasis on how entrepreneurial topics such as innovation and opportunity recognition can be leveraged to address social problems, as well as on the planning and launch of new non-profit or not-for-profit ventures.

**ENTSP 431: Small Business Finance Decisions**

(Cross-listed with FIN). Cr. 3. S.

*Prereq: FIN 310 or ENTSP 313 AND FIN 301*

Integrative nature of small business financial decisions, from basic historical financial analysis to financial projections and valuation unique to small business. Utilize planning/valuation to reconcile the optimal exit date for the small business owner. Examination of this integrative approach through case study. Emphasis on practical application with a decision orientation. Group project working with a small business owner and related advisors/bankers to develop a plan that focuses on an optimal exit strategy.

**ENTSP 454: Entrepreneurial Marketing**

(Cross-listed with MKT). (3-0) Cr. 3. F.

*Prereq: MKT 340*

Basic understanding of marketing for those interested in creating or working for a start-up or an innovation-oriented company or consultancy. Relevant to marketing roles in entrepreneurial firms across both B2B and B2C markets. Integrates theory and practice, and provides insight into how entrepreneurs take both strategic and tactical marketing decisions in uncertain business environments. For hands-on perspective, incorporates projects involving real-world marketing problems confronting start-ups, and guest talks from entrepreneurs and frequent case analyses.

**ENTSP 461: Entrepreneurship and Accounting Information**

(Cross-listed with ACCT). (3-0) Cr. 3.

Accounting information recording, dissemination, and use by entrepreneurs. Introduces pro forma financials, venture capital, private equity, and state and federal regulations for business creation and formation. Other topics include intrapreneurship, intellectual property, information privacy, cybersecurity, and internal controls, including managing the risk of embezzlement.

**ENTSP 480: Applied Entrepreneurship: Executing New Ventures**

(3-0) Cr. 3.

*Prereq: ENTSP 310; ENTSP 313*

Focuses on application-oriented and experiential learning of best practices for starting and advising new business ventures. Students identify, propose and attempt to execute an experiential learning project, such as developing and presenting a business model for a new venture, launching a new venture, or similar entrepreneurial experience. Requires extensive work outside the classroom.

**ENTSP 485: Trends in Entrepreneurship**

(3-0) Cr. 3. F.S.SS.

*Prereq: ENTSP 310*

A broad examination of historical, literary, and business perspectives on entrepreneurship. The entrepreneurial process is studied by examining the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of economic opportunities. Emphasis is placed on tracing the evolution of entrepreneurship theories over time, as well as analyzing current trends related to the study of entrepreneurship.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ENTSP 566: Entrepreneurship and New Venture Startup**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor.*

The essentials of starting and operating a new business. Topics include current research on entrepreneurial perspective, starting and developing a new business, financing the venture, managing the growing firm, and special issues.

**ENTSP 567: Launching International Ventures**

(3-0) Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Essentials of operating international ventures. Topics include identifying and evaluating international business opportunities, choosing among international markets and modes of international entry, building an international organization, managing across cultures, financing international ventures, and recognizing the major issues related to starting a venture in a non-US context. International entry plan for an international new venture or an existing business.

**ENTSP 583: Formulating and Implementing Innovation Strategies**

(Cross-listed with MGMT). (3-0) Cr. 3.

*Prereq: MGMT 504 or permission of instructor*

Key strategies, models, and tools to foster and drive organizational innovation. Analysis of industry dynamics, sources and types of innovations, timing of entry; formulation of innovation strategies; developing innovation portfolios and collaboration strategies, protecting innovation; implementing technological innovation strategy, including new product development and deployment strategy. Essential traits of innovative strategic leaders. Critical analysis and discussion of cases focused on entrepreneurship and innovation and project requiring hands-on practical application of course concepts.

**Courses for graduate students:**

**ENTSP 605: Seminar in Strategic Management**

(Cross-listed with MGMT). Cr. 3. Alt. F., offered odd-numbered years.

Critical review of theory and research in the field of strategic management. Introduction to representative conceptual and empirical research. Review theories that provide the foundation for management research, and review current research in associate research streams. The review will cover fundamental questions in strategy.

**ENTSP 606: Historical Foundations of Entrepreneurship Research**

(Cross-listed with MGMT). Cr. 3.

*Prereq: Enrollment in the PhD Program*

Seminal readings, theoretical perspectives, and historical roots of Entrepreneurship research. A broad variety of core foundational theories, perspectives, and approaches are discussed.

**ENTSP 607: Current Topics in Entrepreneurship Research**

(Cross-listed with MGMT). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Enrollment in the doctoral program*

Current theoretical perspectives and methodological approaches in entrepreneurship research. Current entrepreneurship research is inherently interdisciplinary such that we will draw on insights from scholars across a range of disciplines.

**ENTSP 609: Organizational Research Methods**

(Cross-listed with MGMT). Cr. 3. F.

*Prereq: Enrollment in ENTSP or MGMT PH D program or permission of instructor.*

Solid methodological foundation that will prepare you to be a productive producer and educated consumer of scientific research in the field of Management, Entrepreneurship, and other related disciplines. Introduction to numerous concepts and techniques with relevance to your future scholarship in this domain. Conceptual underpinnings necessary to appreciate the strengths and limitations of various approaches used in these fields and the interplay between theoretical advancement and rigorous empirical investigation.

## Environmental Engineering (ENV E)

**Any experimental courses offered by ENV E can be found**

**at:** [registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**ENV E 120: Environmental Engineering Learning Community**

(1-0) Cr. 1. F.

Integration of first-year students into the Environmental Engineering program. Assignments and activities involve personal and leadership skill development, teamwork, academic planning and career readiness. Completed both individually and in learning teams under the direction of instructors and peer mentors.

### **ENV E 190: Introduction to Undergraduate Research in Civil and Environmental Engineering**

(Cross-listed with C E). Cr. 2. Repeatable, maximum of 4 times.

*Prereq: Permission of Instructor*

Introduction to research, focusing on sub-disciplines of civil and environmental engineering. Research questions, hypotheses, literature reviews, experimental design, data collection, data analysis, and presentation. Topics chosen to introduce students to water resources, environmental engineering, transportation engineering, geotechnical/materials engineering, or structural engineering. Repeatable but only two credits may count toward graduation in C E

### **ENV E 201: Environmental Engineering Measurements and Analysis**

(2-2) Cr. 3. F.

*Prereq: C E 190*

Introduction to environmental monitoring, environmental field and laboratory sampling, sample preservation and chain of custody, quality assurance and quality control, measurements of common chemical and biological components in different media, and analysis of environmental quality in natural and engineered systems. Concentrations and material balances concepts as applied to environmental engineering. Laboratory testing and experiments.

### **ENV E 326: Principles of Environmental Engineering**

(Cross-listed with C E). (2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in A B E 378; (CHEM 167 or CHEM 177); CHEM 178; MATH 166*

Introduction to environmental problems, water quality indicators and requirements, potable water quality and quantity objectives, water sources and treatment methods; water pollution control objectives and treatment methods; survey of solid and hazardous waste management and air pollution control.

### **ENV E 426: Environmental Engineering Science**

(2-2) Cr. 3. F.

*Prereq: C E 326; CHEM 231; MICRO 201*

Physical, chemical and biological principles related to environmental engineering and management. Topics include physical principles (mass transfer, mass balances, reactor systems), chemical principles (kinetics and equilibrium, acid-base, redox and precipitation), and biological principles (common environmental microbial processes, microbiology). Laboratory testing and experiments. ENV E 201 recommended.

### **ENV E 427: Environmental Engineering Systems**

(3-0) Cr. 3. S.

*Prereq: MATH 265; MATH 266; C E 326; C E 372*

Integrated systems and modeling-based evaluation of natural and engineered environments including water, soil, and air. Exploration of public health outcomes and risk assessment in environmental engineering. Analysis of socio-environmental systems.

### **ENV E 428: Water and Wastewater Treatment Plant Design**

(Cross-listed with C E). (3-0) Cr. 3. S.

*Prereq: C E 326*

Physical, chemical and biological processes for the treatment of water and wastewater including coagulation and flocculation, sedimentation, filtration, adsorption, chemical oxidation/disinfection, fixed film and suspended growth biological processes and sludge management. Design project.

### **ENV E 429: Air Pollution and Control**

(3-0) Cr. 3. S.

*Prereq: MATH 265; C E 326*

Coverage of air pollution topics such as stationary and mobile sources, National Ambient Air Quality Standards, regional and global air pollution concerns (acid rain, ozone depletion, greenhouse gases), indoor air pollution, air pollution meteorology, air pollutant dispersion, and air pollution control equipment.

### **ENV E 430: Solid and Hazardous Waste Management**

(3-0) Cr. 3. F.

*Prereq: C E 326; credit or concurrent enrollment in C E 426*

Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems for solid and hazardous wastes, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

### **ENV E 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in environmental or water resources engineering. Pre-enrollment contract required. Maximum of 3 credits may be counted towards Engineering Topics Electives.

## **Environmental Science (ENSCI)**

***Any experimental courses offered by ENSCI can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

### **ENSCI 110: Orientation to Environmental Science**

(1-0) Cr. 1. F.

*Prereq: Freshman classification; major in Environmental Science*

Overview of Environmental Science curriculum and discussion of professional opportunities. Offered on a satisfactory-fail basis only.

**ENSCI 201: Introduction to Environmental Issues**

(Cross-listed with BIOL, ENV S). (2-0) Cr. 2. F.

Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

**ENSCI 202: Exploration of Environmental and Sustainability Issues**

(1-0) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in ENSCI 201*

Exploration of specific environmental and sustainability issues; designed to complement ENSCI 201.

**ENSCI 203: Exploration of Environmental Science**

(1-0) Cr. 1. S.

*Prereq: ENSCI 202*

Continued exploration of specific environmental science issues developed in ENSCI 202. Topics may vary in different years.

**ENSCI 250: Environmental Geography**

(Cross-listed with AGRON, ENV S, NREM). (3-0) Cr. 3. F.

The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

**ENSCI 251: Biological Processes in the Environment**

(Cross-listed with BIOL). (3-0) Cr. 3. S.

Principles of Biology from the level of macromolecules to the biosphere. Biological processes that affect environmental systems: including metabolism, energy pathways, biochemical reactions in cells, plant and microbial structure and function, element and water cycles.

**ENSCI 270: Geospatial Technologies**

(Cross-listed with AGRON). Cr. 3. S.

Concepts and tools for acquiring, managing, analyzing, and displaying geographic information, including GIS, remote sensing, spatial analysis, and cartography. Focus on applications in biological, ecological, environmental, and agricultural sciences.

**ENSCI 301: Natural Resource Ecology and Soils**

(Cross-listed with NREM). (3-3) Cr. 4. F.

*Prereq: BIOL 211; BIOL 211L; (FOR 201 or a second course in biology)*

Effects of environmental factors on ecosystem structure and function using forest, prairie and agricultural ecosystems as models. Special emphasis is given to soil-forming factors and the role of soil in nutrient and water cycling and ecosystem dynamics. Additional emphasis is given to human influences on natural ecosystems and the role of perennial plant communities in agricultural landscapes.

**ENSCI 312: Ecology**

(Cross-listed with A ECL, BIOL). (3-3) Cr. 4. F.SS.

*Prereq: BIOL 211; (BIOL 212 or BIOL 251)*

Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

**ENSCI 318: Introduction to Ecosystems**

(Cross-listed with AGRON, BIOL, NREM). (3-0) Cr. 3. S.

*Prereq: 12 credits in A ECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM*

Biological and physical processes affecting material and energy flows in natural and managed ecosystems. Understanding and predicting climate and management impacts on ecosystem services and sustainability.

**ENSCI 319: Analysis of Environmental Systems**

(Cross-listed with BIOL, ENV S). Cr. 3. S.

*Prereq: ENSCI 312; Junior classification*

Systems approach to the analysis and modeling of material and energy flows in natural and managed environmental systems and the primary environmental factors controlling these systems. Applications in hydrology, biogeochemistry, and population dynamics.

**ENSCI 324: Energy and the Environment**

(Cross-listed with ENV S, GEOL, MTEOR). (3-0) Cr. 3. S.

*Prereq: CHEM 163 or CHEM 167 or CHEM 177*

Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

**ENSCI 345: Natural Resource Photogrammetry and Geographic Information Systems**

(Cross-listed with NREM). (2-3) Cr. 3. S.

*Prereq: Junior classification*

Measurement and interpretation of aerial photos in resource management. Introduction to Geographic Information Systems (GIS) using ArcGIS including digitizing, development and query of attribute tables, georeferencing, and use of multiple GIS layers in simple spatial analyses.

**ENSCI 360: Environmental Soil Science**

(Cross-listed with AGRON). (3-0) Cr. 3. S.

Application of soil science to contemporary environmental problems; comparison of the impacts that different management strategies have on short- and long-term environmental quality and land development. Emphasis on participatory learning activities. AGRON 182 or ENSCI 250 or GEOL 101 recommended.

**ENSCI 370: GIS for Ecology and Environmental Science**

(Cross-listed with BIOL). Cr. 1-6. Repeatable. F.S.

*Prereq:* Six credits in biological and /or physical sciences, and permission of instructor.

Introduction to geographic information systems (GIS) with emphasis on ecological and environmental applications. No prior GIS experience required. Guided, individualized study of topics based on student background and interest. For students with prior experience, topics and activities are selected to build upon any previous experience and minimize duplication to previous GIS coursework. Potential topics include: basic concepts of GIS, data structures, database management, spatial analysis, modeling and visualization of ecological and environmental data. Case studies in ecological and environmental applications using ArcGIS. Offered on a satisfactory-fail basis only.

**ENSCI 375: Marine Ecology and Ecosystems Dynamics**

(Cross-listed with A ECL, BIOL). (3-0) Cr. 3. S.

*Prereq:* BIOL 211

Overview of the ecological processes, ecosystems, and biodiversity in marine environments. Ever-changing dynamics caused by environmental disturbances, internal forces, or by human impacts on species and ecosystems.

**ENSCI 390: Internship in Environmental Science**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* Department Permission

Supervised off-campus work experience in the field of environmental science. Offered on a satisfactory-fail basis only.

**ENSCI 391: Apprenticeship**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* Department Permission

Practical experience in an approved setting such as a research laboratory, government office, or private office. Offered on a satisfactory-fail basis only.

**ENSCI 402: Watershed Hydrology**

(Dual-listed with ENSCI 502). (Cross-listed with GEOL, MTEOR, NREM).

(2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**ENSCI 404: Global Change**

(Dual-listed with ENSCI 504). (Cross-listed with AGRON, ENV S, MTEOR).

(3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**ENSCI 405: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with ENSCI 505). (Cross-listed with AGRON, MTEOR). (3-0) Cr.

3. Alt. S., offered odd-numbered years.

*Prereq:* MATH 160 or MATH 165

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**ENSCI 406: World Climates**

(Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. S.

*Prereq:* AGRON 206 or MTEOR 206

Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

**ENSCI 407: Watershed Management**

(Dual-listed with ENSCI 507). (Cross-listed with ENV S, NREM). (3-3) Cr. 4. S.

*Prereq:* 1 course in BIOL

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

**ENSCI 409: Field Methods in Hydrogeology**

(Dual-listed with ENSCI 509). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq:* GEOL 402 or ENSCI 402 or GEOL 411 or ENSCI 411 or C E 473

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

**ENSCI 411: Hydrogeology**

(Dual-listed with ENSCI 511). (Cross-listed with GEOL). (3-2) Cr. 4. F. Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

**ENSCI 412: Micropaleontology**

(Cross-listed with GEOL). Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* GEOL 102; GEOL 102L

Evolution, identification and utility of major microfossil groups from the Mesozoic to present. Focus on Cenozoic applications including biostratigraphy, paleoclimate, and paleothermometry using assemblages, stable isotopes, Mg/Ca, and molecular fossils. Laboratory includes processing and analysis of specific microfossils. Major groups covered include foraminifera, calcareous nannofossils, sponge spicules, diatoms, radiolarians, and silicoflagellates.

**ENSCI 413: Applied and Environmental Geophysics**

(Dual-listed with ENSCI 513). (Cross-listed with C E, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**ENSCI 414: Applied Groundwater Flow Modeling**

(Dual-listed with ENSCI 514). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* (C E 473 or GEOL 411); MATH 165

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

**ENSCI 415: Paleoclimatology**

(Dual-listed with ENSCI 515). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

**ENSCI 416: Hydrologic Modeling and Analysis**

(Dual-listed with ENSCI 516). (Cross-listed with GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

**ENSCI 418: Stream Ecology**

(Dual-listed with ENSCI 518). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* A ECL 486

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

**ENSCI 419: Aqueous and Environmental Geochemistry**

(Dual-listed with ENSCI 519). (Cross-listed with GEOL). (2-2) Cr. 3. S.

*Prereq:* CHEM 178; CHEM 178L; Junior classification

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

**ENSCI 420: Environmental Engineering Chemistry**

(Dual-listed with ENSCI 520). (Cross-listed with C E). (2-3) Cr. 3. F.

*Prereq:* C E 326; CHEM 178

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

**ENSCI 424: Air Pollution**

(Dual-listed with ENSCI 524). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 424A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with ENSCI 524A). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 424B: Air Pollution: Climate change and causes**

(Dual-listed with ENSCI 524B). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 424C: Air Pollution: Transportation Air Quality**

(Dual-listed with ENSCI 524C). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A

**ENSCI 424D: Air Pollution: Off-gas treatment technology**

(Dual-listed with ENSCI 524D). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B

**ENSCI 424E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with ENSCI 524E). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq:* (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 426: Stable Isotopes in the Environment**

(Dual-listed with ENSCI 526). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

**ENSCI 446: Integrating GPS and GIS for Natural Resource Management**

(Dual-listed with ENSCI 546). (Cross-listed with NREM). (2-3) Cr. 3. F.

*Prereq:* 12 credits in student's major at 300 level or above

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

**ENSCI 452: Intro GIS for Geoscientists**

(Dual-listed with ENSCI 552). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**ENSCI 459: Environmental Soil and Water Chemistry**

(Dual-listed with ENSCI 559). (Cross-listed with AGRON). (3-3) Cr. 4. F.

*Prereq:* 6 credit of CHEM; (AGRON 182 or AGRON 360); MATH 140

An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues. AGRON 354; GEOL 100 recommended.

**ENSCI 463: Soil Formation and Landscape Relationships**

(Dual-listed with ENSCI 563). (Cross-listed with AGRON). (3-0) Cr. 3. F.

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. AGRON 182 or ENSCI 250 recommended. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

#### **ENSCI 464: Wetland Ecology**

(Dual-listed with ENSCI 564). (Cross-listed with BIOL). (3-0) Cr. 3. S.

*Prereq: 15 credits in biological sciences.*

Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

#### **ENSCI 466: Ecosystem Services**

(Dual-listed with ENSCI 566). (Cross-listed with NREM). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 15 credits in A ECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM*

Ecosystem services are the societal benefits provided by natural and managed ecosystems. Benefits such as provision of food, purification of air and water, and regulation of climate are essential to human survival and prosperity, but rely upon maintenance of healthy ecosystems. This course will cover the science, policy, and practice of ecosystem services assessment and management, with a special focus on biodiversity, water quality, food production, and climate.

#### **ENSCI 468: Applied Geostatistics for Geoscientists**

(Dual-listed with ENSCI 568). (Cross-listed with GEOL, MTEOR). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)*

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

#### **ENSCI 477: Soil Physics**

(Dual-listed with ENSCI 577). (Cross-listed with AGRON). (3-0) Cr. 3. S.

The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat. AGRON 182 recommended.

#### **ENSCI 479: Surficial Processes**

(Dual-listed with ENSCI 579). (Cross-listed with GEOL). (2-3) Cr. 3. F.

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

#### **ENSCI 480: Engineering Analysis of Biological Systems**

(Cross-listed with A B E, GLOBE). (2-2) Cr. 3. F.

*Prereq: A B E 380 or Permission of Instructor*

Systems-level quantitative analysis of various biological systems, including applications in foods, feeds, biofuels, bioenergy, and other bio-based systems. Introduction to techno-economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance. Students enrolled in ABE 580 will be required to conduct additional learning activities.

#### **ENSCI 483: Environmental Biogeochemistry**

(Dual-listed with ENSCI 583). (Cross-listed with BIOL, GEOL). Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 12 credits in BIOL, CHEM, PHYS*

An exploration of biological, physical and geochemical impacts on the structure and function of ecosystems from local to global scales. Emphasis on the cycles of carbon, nitrogen, phosphorus, sulfur, and metals, and how these have been impacted by human activity. Topics may include biological feedbacks to climate change, microbial physiology and redox reactions, plant/soil feedbacks, terrestrial/aquatic linkages, early Earth processes and the origins of life.

#### **ENSCI 484: Ecosystem Ecology**

(Cross-listed with BIOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Combined 12 credits in BIOL, CHEM, and PHYS*

Introduction of the study of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

#### **ENSCI 485: Soil and Environmental Microbiology**

(Dual-listed with ENSCI 585). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F.

*Prereq: AGRON 182*

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 201; MICRO 201L recommended.

#### **ENSCI 486: Aquatic Ecology**

(Dual-listed with ENSCI 586). (Cross-listed with A ECL, BIOL). (3-0) Cr. 3. F.

*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**ENSCI 486L: Aquatic Ecology Laboratory**

(Dual-listed with ENSCI 586L). (Cross-listed with A ECL, BIOL). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**ENSCI 487: Microbial Ecology**

(Dual-listed with ENSCI 587). (Cross-listed with BIOL, GEOL, MICRO). (3-0) Cr. 3. F.

*Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**ENSCI 488: Raster GIS for Geoscientists**

(Dual-listed with ENSCI 588). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**ENSCI 489: Survey of Remote Sensing Technologies**

(Dual-listed with ENSCI 589). (Cross-listed with E E, GEOL, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**ENSCI 490: Independent Study**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Department Permission*

**ENSCI 490H: Independent Study: Honors**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Department Permission*

Permission of instructor and approval of Environmental Science coordinator.

**ENSCI 495: Current Topics and Case Studies in Environmental Science**

Cr. 1-3.

*Prereq: Junior classification; major in Environmental Science; Permission of Instructor*

Current topics and case studies related to the analysis and management of environmental systems. Individual and/or group projects.

**ENSCI 496: Travel Course**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings. A. International Tour B. Domestic Tour.

**ENSCI 496A: Travel Course: International Tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

**ENSCI 496B: Travel Course: Domestic Tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

**ENSCI 498: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Department Permission*

Required of all cooperative education students. Students must register prior to commencing each work period.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ENSCI 502: Watershed Hydrology**

(Dual-listed with ENSCI 402). (Cross-listed with GEOL, MTEOR, NREM). (2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**ENSCI 504: Global Change**

(Dual-listed with ENSCI 404). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**ENSCI 505: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with ENSCI 405). (Cross-listed with AGRON, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MATH 160 or MATH 165*

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**ENSCI 509: Field Methods in Hydrogeology**

(Dual-listed with ENSCI 409). (Cross-listed with GEOL). (0-4) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: GEOL 402 or ENSCI 402 or GEOL 411 or ENSCI 411 or C E 473*

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

**ENSCI 511: Hydrogeology**

(Dual-listed with ENSCI 411). (Cross-listed with GEOL). (3-2) Cr. 4. F. Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

**ENSCI 513: Applied and Environmental Geophysics**

(Dual-listed with ENSCI 413). (Cross-listed with C E, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**ENSCI 514: Applied Groundwater Flow Modeling**

(Dual-listed with ENSCI 414). (Cross-listed with GEOL). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: (C E 473 or GEOL 411); MATH 165*

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

**ENSCI 515: Paleoclimatology**

(Dual-listed with ENSCI 415). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

**ENSCI 516: Hydrologic Modeling and Analysis**

(Dual-listed with ENSCI 516). (Cross-listed with ENSCI, GEOL, MTEOR, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

**ENSCI 518: Stream Ecology**

(Dual-listed with ENSCI 418). (Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: A ECL 486*

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

**ENSCI 519: Aqueous and Environmental Geochemistry**

(Dual-listed with ENSCI 419). (Cross-listed with GEOL). (2-2) Cr. 3. S.

*Prereq: CHEM 178; CHEM 178L; Junior classification*

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

**ENSCI 520: Environmental Engineering Chemistry**

(Dual-listed with ENSCI 420). (Cross-listed with C E). (2-3) Cr. 3. F.

*Prereq: C E 326; CHEM 178*

Principles of chemical and physical phenomena applicable to the treatment of water and wastewater and natural waters; including chemical equilibria, reaction kinetics, acid-base equilibria, chemical precipitation, redox reactions, and mass transfer principles. Individual laboratory practicals and group projects required.

**ENSCI 521: Environmental Biotechnology**

(Cross-listed with C E). (2-2) Cr. 3. F.

*Prereq: C E 326*

Fundamentals of biochemical and microbial processes applied to environmental engineering processes, role of microorganisms in wastewater treatment and bioremediation, bioenergetics and kinetics, metabolism of xenobiotic compounds, waterborne pathogens and parasites, and disinfection. Term paper and oral presentation.

**ENSCI 522: Water Pollution Control Processes**

(Cross-listed with C E). (2-2) Cr. 3.

*Prereq: C E 421 or C E 521*

Fundamentals of biochemical processes, aerobic growth in a single CSTR, multiple events in complex systems, and techniques for evaluating kinetic parameters; unit processes of activated sludge system, attached growth systems, stabilization and aerated lagoon systems, biosolids digestion and disposal, nutrient removal, and anaerobic treatment systems.

**ENSCI 523: Physical-Chemical Treatment Process**

(Cross-listed with C E). (2-2) Cr. 3.

*Prereq: C E 520*

Mass balances. Principles and design of physical-chemical unit processes including ideal and realistic reactors; heterogeneous process including gas transfer, sorption, precipitation, and dissolution; redox; flocculation/coagulation; gravity separations; filtration; and membrane processes, electrodialysis, fouling, and scaling. Emphasis on water and wastewater treatment for environmental, health, and aesthetic ends. Case studies in secondary industries.

**ENSCI 524: Air Pollution**

(Dual-listed with ENSCI 424). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 524A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with ENSCI 424A). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 524B: Air Pollution: Climate change and causes**

(Dual-listed with ENSCI 424B). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 524C: Air Pollution: Transportation Air Quality**

(Dual-listed with ENSCI 424C). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A*

**ENSCI 524D: Air Pollution: Off-gas treatment technology**

(Dual-listed with ENSCI 424D). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B*

**ENSCI 524E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with ENSCI 424E). (Cross-listed with A B E, C E). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**ENSCI 526: Stable Isotopes in the Environment**

(Dual-listed with ENSCI 426). (Cross-listed with GEOL). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

**ENSCI 528: Solid and Hazardous Waste Management**

(Cross-listed with C E). (3-0) Cr. 3.

*Prereq: C E 326 or background courses in both environmental chemistry and microbiology; junior or higher standing*

Evaluation, characterization, assessment, planning and design of solid and hazardous waste management systems, regulatory requirements, material characterization and collection, minimization and recycling, energy and materials recovery, composting, off-gas treatment, incineration, stabilization, and landfill design. Design of treatment and disposal systems, including physical, chemical, and biological treatment, solidification, incineration, secure landfill design, and final disposal site closure plus restoration.

**ENSCI 531: Design and Evaluation of Soil and Water Conservation Systems**

(Cross-listed with A B E). (2-3) Cr. 3. F.

*Prereq: A B E 378 or C H E 356*

Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality.

**ENSCI 532: Nonpoint Source Pollution and Control**

(Cross-listed with A B E). (3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: A B E 431 or C E 372*

Characteristics and mechanisms of non-point source (NPS) pollution in agricultural and urban watersheds, modeling of NPS pollution for terrestrial and aquatic systems, statistical tools to assess environmental datasets, strategies to control and manage NPS pollution of water bodies, and integrated watershed management. Graduate students are required to develop/deliver lecture models on assigned topics and/or complete additional assignments.

**ENSCI 533: Erosion and Sediment Transport**

(Cross-listed with A B E, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C E 372 or GEOL/ENSCI/MTEOR 402, MATH 166 or equivalent*

Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

**ENSCI 535: Restoration Ecology**

(Cross-listed with EEOB, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 366 or BIOL 474 or graduate standing*

Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

**ENSCI 537: Watershed Modeling and Policy**

(Cross-listed with A B E). (2-2) Cr. 3. Alt. F., offered irregularly.

*Prereq: C E 372*

A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

**ENSCI 546: Integrating GPS and GIS for Natural Resource Management**

(Dual-listed with ENSCI 446). (Cross-listed with NREM). (2-3) Cr. 3. F.

*Prereq: 12 credits in student's major at 300 level or above*

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation.

**ENSCI 552: Intro GIS for Geoscientists**

(Dual-listed with ENSCI 452). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**ENSCI 553: Soil-Plant Relationships**

(Cross-listed with AGRON). (3-0) Cr. 3. S.

Composition and properties of soils in relation to the nutrition and growth of plants.

**ENSCI 559: Environmental Soil and Water Chemistry**

(Dual-listed with ENSCI 459). (Cross-listed with AGRON). (3-3) Cr. 4. F.

*Prereq:* 6 credit of CHEM; (AGRON 182 or AGRON 360); MATH 140

An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.

AGRON 354; GEOL 100 recommended.

**ENSCI 563: Soil Formation and Landscape Relationships**

(Dual-listed with ENSCI 463). (Cross-listed with AGRON). (3-0) Cr. 3. F.

Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. AGRON 182 or ENSCI 250 recommended. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

**ENSCI 564: Wetland Ecology**

(Dual-listed with ENSCI 464). (Cross-listed with EEOB). (3-0) Cr. 3. S.

*Prereq:* 15 credits in biological sciences.

Ecology, classification, creation and restoration, and management of wetlands. Emphasis on North American temperate wetlands.

**ENSCI 566: Ecosystem Services**

(Dual-listed with ENSCI 466). (Cross-listed with NREM). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* 15 credits in A ECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM

Ecosystem services are the societal benefits provided by natural and managed ecosystems. Benefits such as provision of food, purification of air and water, and regulation of climate are essential to human survival and prosperity, but rely upon maintenance of healthy ecosystems. This course will cover the science, policy, and practice of ecosystem services assessment and management, with a special focus on biodiversity, water quality, food production, and climate.

**ENSCI 568: Applied Geostatistics for Geoscientists**

(Dual-listed with ENSCI 468). (Cross-listed with GEOL, MTEOR). Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

**ENSCI 571: Surface Water Hydrology**

(Cross-listed with C E). (3-0) Cr. 3. S.

*Prereq:* C E 372

Analysis of hydrologic data including precipitation, infiltration, evapotranspiration, direct runoff and streamflow; theory and use of frequency analysis; theory of streamflow and reservoir routing; use of deterministic and statistical hydrologic models. Fundamentals of surface water quality modeling, point and non-point sources of contamination.

**ENSCI 572: Analysis and Modeling Aquatic Environments**

(Cross-listed with C E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* C E 372

Principles of surface water flows and mixing. Introduction to hydrologic transport and water quality simulation in natural water systems. Advection, diffusion and dispersion, chemical and biologic kinetics, and water quality dynamics. Applications to temperature, dissolved oxygen, primary productivity, and other water quality problems in rivers, lakes and reservoirs. Deterministic vs. stochastic models.

**ENSCI 573: Groundwater Hydrology**

(3-0) Cr. 3. F.

*Prereq:* C E 372

Principles of groundwater flow, hydraulics of wells, superposition, slug and pumping tests, streamlines and flownets, and regional groundwater flow. Contaminant transport. Computer modeling. Design project. Extra assignments required for graduate students.

**ENSCI 575: Soil Formation and Transformation**

(Cross-listed with AGRON). (1-0) Cr. 1. F.

*Prereq:* AGRON 463 or equivalent

A one-week intensive field class examining the pedology of Iowa under natural and transformed con.

**ENSCI 577: Soil Physics**

(Dual-listed with ENSCI 477). (Cross-listed with AGRON). (3-0) Cr. 3. S.

The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat. AGRON 182 recommended.

**ENSCI 578: Laboratory Methods in Soil Physics**

(Cross-listed with AGRON). (0-3) Cr. 1. S.

*Prereq:* concurrent enrollment in AGRON 477 or AGRON 577

Methods of measuring soil physical properties such as texture, density, and water content, and transport of heat, water, and gases.

**ENSCI 579: Surficial Processes**

(Dual-listed with ENSCI 479). (Cross-listed with GEOL). (2-3) Cr. 3. F.  
The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

**ENSCI 583: Environmental Biogeochemistry**

(Dual-listed with ENSCI 483). Cr. 3. Alt. S., offered odd-numbered years.  
*Prereq: 12 credits in BIOL, CHEM, PHYS*

An exploration of biological, physical and geochemical impacts on the structure and function of ecosystems from local to global scales. Emphasis on the cycles of carbon, nitrogen, phosphorus, sulfur, and metals, and how these have been impacted by human activity. Topics may include biological feedbacks to climate change, microbial physiology and redox reactions, plant/soil feedbacks, terrestrial/aquatic linkages, early Earth processes and the origins of life.

**ENSCI 584: Ecosystem Science**

(Cross-listed with EEOB). (3-0) Cr. 3. Alt. S., offered even-numbered years.  
*Prereq: Combined 12 credits in biology, chemistry, and physics.*

Advanced studies of ecosystems and the biological and physical factors that influence their properties and dynamics. Conceptual foundations and modern approaches to ecosystem studies. Interactions among organisms, biological diversity, and ecosystem attributes. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems. Global change issues.

**ENSCI 585: Soil and Environmental Microbiology**

(Dual-listed with ENSCI 485). (Cross-listed with AGRON, MICRO). (2-3) Cr. 3. F.  
*Prereq: AGRON 182*

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 201; MICRO 201L recommended.

**ENSCI 586: Aquatic Ecology**

(Dual-listed with ENSCI 486). (Cross-listed with A ECL, EEOB). (3-0) Cr. 3. F.  
*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**ENSCI 586L: Aquatic Ecology Laboratory**

(Dual-listed with ENSCI 486L). (Cross-listed with A ECL, EEOB). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**ENSCI 587: Microbial Ecology**

(Dual-listed with ENSCI 487). (Cross-listed with EEOB, GEOL, MICRO). (3-0) Cr. 3. F.

*Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**ENSCI 588: Raster GIS for Geoscientists**

(Dual-listed with ENSCI 488). (Cross-listed with AGRON, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**ENSCI 589: Survey of Remote Sensing Technologies**

(Dual-listed with ENSCI 489). (Cross-listed with E E, GEOL, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**ENSCI 590: Special Topics**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of major professor in Environmental Science faculty*

Literature reviews and conference in accordance with needs and interest of the student.

**ENSCI 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of major professor in Environmental Science faculty*

Creative component for nonthesis master of science degree.

**Courses for graduate students:****ENSCI 698: Seminar in Environmental Science**

Cr. 1-3. Repeatable. S.

Reports and discussion of recent research and literature.

**ENSCI 699: Research**

Cr. arr. Repeatable. F.S.SS.

## Environmental Studies (ENV S)

*Any experimental courses offered by ENV S can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**ENV S 101: Environmental Geology: Earth in Crisis**

(Cross-listed with GEOL). (3-0) Cr. 3. F.S.SS.

Exploration of the interactions between humans and the geologic environment, and the consequences of those interactions, on local to global scales. Discussion of water, soil, mineral, and energy resources, pollution, climate change, and natural hazards such as earthquakes, volcanism, mass wasting, and flooding.

**ENV S 108: Introduction to Oceanography**

(Cross-listed with GEOL). (3-0) Cr. 3. F.

Introduction to the study of oceans and the processes that helped shape them. A major focus is on how the oceans work, with special attention on geological, chemical, and biological processes. Ocean circulation and its influence on climate. Life of the oceans. Use and misuse of ocean resources. Anthropogenic impacts on the oceanic environment.

**ENV S 111: Geological Disasters**

(Cross-listed with GEOL). (1-0) Cr. 1. F.S.SS.

Introduction to the catastrophic geologic processes with the potential to devastate human populations that continue to expand into regions at greatest risk from geologic hazards. Selected case studies and discussion of plate tectonics, climate, and earth processes explain the driving forces behind natural hazards such as earthquakes, tsunamis, volcanic eruptions, landslides, and floods.

**ENV S 120: Introduction to Renewable Resources**

(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.

Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

**ENV S 130: Natural Resources and Agriculture**

(Cross-listed with NREM). (3-0) Cr. 3. S.

Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.

**ENV S 140: Climate and Society**

(Cross-listed with AGRON, GEOL, MTEOR). Cr. 3. F.S.

The climate system of our planet. How nature and our actions alter the existing energy balance leading to climate change. Past climates on our planet. The influence of climate on society and resource availability during the Holocene (~ 11,000 years ago to present) with focus on changes post industrial revolution. Significant climate events that have altered our way of life in the past. Projected changes in future climate and potential impacts on society, environment and resources. Adaption to and mitigation of climate change.

Meets International Perspectives Requirement.

**ENV S 160: Water Resources of the World**

(Cross-listed with AGRON, GEOL, MTEOR). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

**ENV S 173: Environmental Biology**

(Cross-listed with BIOL). (3-0) Cr. 3. F.S.

An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Does not satisfy biology major requirements.

**ENV S 201: Introduction to Environmental Issues**

(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.

Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

**ENV S 204: Biodiversity**

(Cross-listed with BIOL). (4-0) Cr. 2. S.

*Prereq: One course in life sciences*

Survey of the major groups of organisms and biological systems. Definition, measurements, and patterns of distribution of organisms. Sources of information about biodiversity. Does not satisfy biology major requirements. Half semester course. See list of life science courses (<https://www.cals.iastate.edu/student-services/lifescience>) for additional information.

**ENV S 220: Globalization and Sustainability**

(Cross-listed with ANTHR, GLOBE, M E, MAT E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**ENV S 250: Environmental Geography**

(Cross-listed with AGRON, ENSCI, NREM). (3-0) Cr. 3. F.

The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

**ENV S 270: Foundations in Natural Resource Policy and History**

(Cross-listed with L A, NREM). (3-0) Cr. 3. F.

The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

**ENV S 283: Introduction to Environmental Politics and Policies**

(Cross-listed with POL S). (3-0) Cr. 3. S.

Introduction to how major ideologies address conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

**ENV S 293: Environmental Planning**

(Cross-listed with C R P). (3-0) Cr. 3. F.S.

Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

**ENV S 319: Analysis of Environmental Systems**

(Cross-listed with BIOL, ENSCI). Cr. 3. S.

*Prereq: ENSCI 312; Junior classification*

Systems approach to the analysis and modeling of material and energy flows in natural and managed environmental systems and the primary environmental factors controlling these systems. Applications in hydrology, biogeochemistry, and population dynamics.

**ENV S 320: Ecofeminism**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: WGS 201 or 3 credits in WGS at the 300 level or above*

Women's relationships with the earth, non-human nature, and other humans. The course explores the connections between society's treatment of women and nature; origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included.

**ENV S 324: Energy and the Environment**

(Cross-listed with ENSCI, GEOL, MTEOR). (3-0) Cr. 3. S.

*Prereq: CHEM 163 or CHEM 167 or CHEM 177*

Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

**ENV S 334: Environmental Ethics**

(Cross-listed with PHIL). (3-0) Cr. 3. F.

*Prereq: 3 credits in PHIL or Permission of Instructor*

Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored.

**ENV S 342: World Food Issues: Past and Present**

(Cross-listed with AGRON, FS HN). (3-0) Cr. 3. F.S.SS.

*Prereq: Junior classification*

Issues associated with global agricultural and food systems including ethical, social, economic, environmental, and policy contexts. Investigation of various causes and consequences of overnutrition/undernutrition, global health, poverty, hunger, access, and distribution. Meets International Perspectives Requirement.

**ENV S 345: Population and Society**

(Cross-listed with SOC). (3-0) Cr. 3. F.

*Prereq: SOC 134*

Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world. Meets International Perspectives Requirement.

**ENV S 355: Literature and the Environment**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of texts that address a wide range of environmental issues, including the relationship between humans and natural/urban environments, views of other-than-human beings, food, climate change, extinction, and social and racial justice. Assignments for the course may include research, exams, writing, and/or individual/group projects.

**ENV S 362: Global Environmental History**

(Cross-listed with HIST). (3-0) Cr. 3. F.

*Prereq: Sophomore classification*

Survey of the interactions of human communities with their environments from the beginnings of human history to the present. Topics include the domestication of animals, the agricultural revolution, industrialization, urbanization, deforestation, hydraulic management, fossil fuel consumption, and climate change.

**ENV S 363: U. S. Environmental History**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

**ENV S 380: Energy, Environmental and Resource Economics**

(Cross-listed with ECON). (3-0) Cr. 3.

*Prereq: ECON 101*

Natural resource availability, use, conservation, and government policy, with emphasis on energy issues. Environmental quality and pollution control policies.

**ENV S 382: Environmental Sociology**

(Cross-listed with SOC). (3-0) Cr. 3. F.S.

*Prereq: 3 credits of ENV S or SOC 134*

Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples. Meets International Perspectives Requirement.

**ENV S 390: Internship in Environmental Studies**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of Environmental Studies Coordinator*

Practical experience with nature centers, government agencies, schools, private conservation groups, and other organizations. Offered on a satisfactory-fail basis only.

**ENV S 404: Global Change**

(Cross-listed with AGRON, ENSCI, MTEOR). (3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**ENV S 407: Watershed Management**

(Cross-listed with ENSCI, NREM). (3-3) Cr. 4. S.

*Prereq: 1 course in BIOL*

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

**ENV S 424: Sustainable and Environmental Horticulture Systems**

(Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

**ENV S 450: Issues in Sustainable Agriculture**

(Cross-listed with AGRON). (3-0) Cr. 3. S.

Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices.

**ENV S 460: Controversies in Natural Resource Management**

(Cross-listed with NREM). (3-0) Cr. 3. F.S.

*Prereq: (A ECL 312 or NREM 301); NREM 120; Junior classification*

Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed.

**ENV S 484: Sustainable Communities**

(Cross-listed with C R P). (3-0) Cr. 3. S.

*Prereq: Junior classification*

The history and theory of sustainable community planning. Procedural and substantive dimensions. Case studies of communities engaged in sustainability planning. Use and development of indicators.

**ENV S 490: Independent Study**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of Instructor; Permission of Environmental Studies Coordinator*

### ENV S 490H: Independent Study: Honors

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of Instructor; Permission of Environmental Studies Coordinator*

### ENV S 491: Environmental Law and Planning

(Cross-listed with C R P, L A). (3-0) Cr. 3. S.

*Prereq: 6 credits in natural sciences or Permission of Instructor*

Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

### ENV S 496: Travel Course

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

### ENV S 496A: International Tour

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

### ENV S 496B: Domestic Tour

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

## Event Management (EVENT)

*Any experimental courses offered by EVENT can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

### EVENT 171: Introduction to Event Management

(3-0) Cr. 3. F.S.

Overview of the event management industries. Techniques and procedures required for designing and implementing successful events.

### EVENT 203: Event Management Sophomore Mentorship

(1-2) Cr. 2.

*Prereq: Sophomore classification; AESHM 111; EVENT 171; by application only*

Event Management sophomore students will be paired with a professional mentor in the event industry. Students will meet in the class and individually with their professional mentor throughout the spring semester. Students will be assessed on their experience through reflection, presentation, and mentor evaluation.

### EVENT 212: Digital Production in Event Management

(2-2) Cr. 3. F.S.

Applications of skills in Adobe Suite and other software technologies. Introduction to design elements used within the event management industry with a focus on digital publishing of marketing and promotional materials, wayfinding, and other stationery items. Face-to-face lecture and laboratory work.

### EVENT 277: Introduction to Digital Promotion in Event Management

(3-0) Cr. 3. S.SS.

*Prereq: EVENT 171 or HSP M 101 or A M D 131*

Event management digital channels and platforms, including display advertising, search advertising, social media, and mobile. Students will be introduced to the most popular event management platforms as well as digital event management topics of visual marketing, digital media planning, and content marketing.

### EVENT 290: Independent Study

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Freshman or Sophomore Classification. Permission of instructor, advisor, and department chair.*

Independent study on topics of special interest to the student, facilitated by approved faculty member. No more than 9 credits of EVENT 290 and EVENT 490 may be applied towards graduation requirements.

### EVENT 328: Incentive Meeting Management

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; Event Management major or minor*

Overview of the incentive meeting industry. Focus on incentive meeting planning, destination selection, program development, risk management, cultural aspects of destination, incentive meeting execution, and incentive meeting evaluation.

### EVENT 333: Entertainment Venue Management

(3-0) Cr. 3. F.

*Prereq: EVENT 171; Event Management major or minor*

Organization and management of various types of entertainment venues including clubs, theaters, auditoriums, and arenas.

**EVENT 367: Event Sales**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; (AESHM 340 or MKT 340)*

Overview of sales marketing management in the event industry and highlights of the role of the professional event sales manager in the marketing process. As an event professional, students will identify best sales practices to develop their personal selling style, to build on their strengths, and to create a referral business that delivers results. Principles covered include evaluation of characteristics and skills necessary for success in sales; strategic planning; sales leadership; analyzing customers and markets; designing and developing the sales force; recognize the importance of relationship building; process management; and measurement, analysis, and knowledge management.

**EVENT 371: Conference and Meeting Planning**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; Sophomore classification*

Application of event management principles to conference and meeting planning. Providing a comprehensive introduction to the key planning elements of the global conference, convention and meetings.

**EVENT 373: Wedding Planning and Management**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; Event Management major or minor*

Overview of wedding event industry. Focus on wedding planning processes and implementation, design, and business planning and development.

**EVENT 378: Sustainable Event Management**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Event Management major/minor only*

Introduction to organizing sustainable events. Discussion of the business case for sustainability in the events industry, as well as practical solutions for reducing environmental and social impacts in accordance with the United Nations Sustainable Development Goals (SDG).

**EVENT 379: Nonprofit Fundraising Event Planning**

(3-0) Cr. 3. F.

*Prereq: EVENT 171; Event Management major or minor*

Foundation of the principles and practice of event fundraising. Opportunity to apply fundraising concepts and techniques by developing a plan for own, or a nonprofit organization.

**EVENT 383: Sports Event Management**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; Event Management major or minor*

A comprehensive overview of sports and recreation competitions, events, and facilities. Best practices in sports event management, sports organizations, and franchises across the industry. In depth look at athlete and guest services, game day operations, marketing, sponsorship, and post-competition.

**EVENT 393: Event Management Workshop**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: EVENT Junior or Senior classification; Permission of Instructor*

Topics vary each time offered. Maximum of 6 Event 393 credits can be applied to graduation.

**EVENT 423: International Meetings and Conferences Management**

(3-0) Cr. 3.

*Prereq: EVENT 171; EVENT 371*

A comprehensive understanding of the strategies, procedures and nuances of planning and executing multinational and multicultural meetings, expositions, conventions or events held outside of the United States. The international aspects that will be covered include planning, budgeting, logistics, venue selection, risk management, and cross-cultural understanding.

Meets International Perspectives Requirement.

**EVENT 471: Special Events Coordination**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 171; EVENT 371; Junior classification*

Advanced application of event management - hands-on special event planning experience, an understanding of how events are managed, and confidence in the researching, planning, coordinating, marketing, management, financial management, wayfinding and evaluation of special events.

**EVENT 485: Event Production**

(3-0) Cr. 3. F.S.

*Prereq: EVENT 371; Event Management major*

Event management production and design elements, including experience design, stakeholder relations, risk management, fundraising and sponsorship, promotion, developing objectives, and evaluation and assessment.

**EVENT 486: Advanced Event Production**

(0-6) Cr. 3. Repeatable, maximum of 6 credits. F.

*Prereq: EVENT 371; EVENT 485; Event Management major*

Advanced application event management. Provide leadership and direction for production of an event including vendor and stakeholder relations, budget management, publicity, advertising, choreography, staging, lighting, and food. Maximum of 6 credits may be applied toward graduation. Maximum of 6 credits can be applied toward graduation

**EVENT 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program*

Independent study.

**EVENT 490B: Independent Study: Conferences**

Cr. arr. Repeatable.

*Prereq: Program approval*

Independent study.

**EVENT 490C: Independent Study: Special Events**

Cr. arr. Repeatable.

*Prereq: Program approval.*

Independent study.

**EVENT 490D: Independent Study: Event Management**

Cr. arr. Repeatable.

*Prereq: Sections B-D: Program approval; Section H: Full membership in Honors Program*

Independent study.

**Courses primarily for graduate students, open to qualified undergraduates:**

**EVENT 531: Event Business Research Essentials**

(3-0) Cr. 3. F.

*Prereq: permission of instructor*

Event leaders must understand how to apply the most appropriate tools and methods to accomplish the event's business objectives. Exploration of the knowledge and skills necessary to address the rapidly growing demand for a systematic approach to event business research and its application to strategic decision making. Examination of case studies, primary and secondary sources of information, as well as research design, measurement, sampling, data collection, processing, analysis, and interpretation.

**EVENT 561: Advanced Topics in Event Management**

(3-0) Cr. 3. S.

*Prereq: permission of instructor*

Advanced meeting and event planning topics including event strategy, event risk and security management, event financial management, event design, event project management, and event tourism strategy.

**EVENT 577: Advanced Social Media Marketing in Event Management**

(3-0) Cr. 3. F.

*Prereq: permission of instructor*

Project-based course that includes analyzing relevant literature in social media and developing, implementing, and assessing an integrated social media marketing strategy in the event planning business marketing plan. Perspective on digital/social/mobile marketing to appreciate its true value to consumers, to managers, and to other corporate stakeholders.

**EVENT 578: Advanced Event Sustainability Management**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: permission of instructor*

Examination of the critical area of sustainability and the reasons why event businesses must prioritize it if they are to succeed. Many people mistakenly believe that sustainability is synonymous with 'green' and is solely concerned with the environment. This is incorrect, as true business sustainability considers both societal and economic factors, as it encompasses both the impact on societal stakeholders (consumers and employees) and the profit required to sustain a business. Examine how contemporary human societies can adapt to global change and build healthier systems.

**EVENT 590: Special Topics**

Cr. 3. F.S.

*Prereq: Graduate level standing; permission of instructor*

Topics in event management.

**EVENT 599: Creative Component**

(3-0) Cr. 3.

*Prereq: Graduate level standing*

Creative component as arranged with instructor.

**Courses for graduate students:**

**EVENT 634: Theory and Research Seminar in Event Management**

(3-0) Cr. 3. SS.

*Prereq: STAT 401 or a graduate level course in statistics or by permission of instructor*

Analysis and application of theories and research methodologies in event management and is designed to strengthen students' analytical and critical perspectives to evaluate event management research. Multidisciplinary approach to the areas of sports events, festivals and fairs, conventions and tradeshow, mega events, and event tourism.

# Family and Consumer Sciences Education and Studies (FCEDS)

**Any experimental courses offered by FCEDS can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

## **FCEDS 206: Professional Roles in Family and Consumer Sciences**

(1-1) Cr. 2. F.

Explore the “secret” history of Home Economics and how women pioneered an academic discipline that grew and evolved into a variety of modern disciplines including family & consumer sciences (FCS), human services, human sciences, human ecology, etc. Introduction to various roles in professional settings (community agencies, secondary schools, business and industry, and Cooperative Extension). Includes 12 hours of field experience, scheduled outside of class.

## **FCEDS 301: Current Family and Consumer Sciences Offerings**

Cr. 3. F.S.SS.

*Prereq: 6 credits in FCEDS*

Course in current family and consumer sciences offerings.

## **FCEDS 301F: Housing**

(3-0) Cr. 3. Alt. SS., offered odd-numbered years.

*Prereq: 6 credits in FCEDS*

Concepts in interior design and housing. Fulfills “Housing” content component for Iowa teaching endorsement 139: Family and Consumer Sciences.

## **FCEDS 301K: Textile Selection and Apparel Construction Methods**

(2-1) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: 6 credits in FCEDS*

Concepts in interior design and housing. Fulfills “Housing” content component for Iowa teaching endorsement 139: Family and Consumer Sciences.

## **FCEDS 306: Educational Principles for Family and Consumer Sciences**

(3-2) Cr. 4. F.

*Prereq: FCEDS 206 or Permission of Instructor*

Principles of teaching and learning applied to family and consumer sciences content incorporating literacy and STEM strategies for diverse audiences. Focus on providing a broad overview of effective instructional methods and substantial technological tools to meet varied learning needs. Includes 12 hours of arranged practicum and team teaching.

## **FCEDS 380V: Pre-Student Teaching Experience in FCS Education: Practicum in FCS Labs**

(Cross-listed with EDUC). (0-2) Cr. 1-2. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; Admission to Educator Preparation program*

Laboratory experience in foods, hospitality management, culinary, prostart, textiles, fashion design, housing, and human development related to family and consumer sciences courses taught at the secondary level. Planning, implementing, managing, and assessing laboratory lessons in family and consumer sciences. Includes 24 hours practicum: unsupervised. 1/2 day of time needed in schedule. Offered on a satisfactory-fail basis only.

## **FCEDS 413: Planning and Assessment for Family and Consumer Sciences**

(3-0) Cr. 3. S.

*Prereq: FCEDS 306; Admission to Educator Preparation program*

Development of curriculum and assessment tools for family and consumer sciences programs in school settings. Focus on accommodating exceptional learners and alignment of teaching standards for classroom assessment. Includes 12 hours of Career and Technical Student Organization Competitive Event Assessment at the state/national level.

## **FCEDS 417: Supervised Teaching in Family and Consumer Sciences**

Cr. 3-8. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; FCEDS 380V; FCEDS 380V; FCEDS 413;*

*minimum 24 credits in FCEDS; cumulative grade point of 2.50; admission to Educator Preparation program*

Supervised teaching experience in secondary schools.

## **FCEDS 417A: Supervised Teaching in Family and Consumer Sciences: Vocational family and consumer sciences.**

Cr. 3-8. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; FCEDS 380V; FCEDS 380V; FCEDS 413;*

*minimum 24 credits in FCEDS; cumulative grade point of 2.50; admission to Educator Preparation program*

Supervised teaching experience in secondary schools.

## **FCEDS 417B: Supervised Teaching in Family and Consumer Sciences: Family and consumer sciences.**

Cr. 3-8. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; FCEDS 380V; FCEDS 380V; FCEDS 413;*

*minimum 24 credits in FCEDS; cumulative grade point of 2.50; admission to Educator Preparation program*

Supervised teaching experience in secondary schools.

**FCEDS 418: Foundations of Career and Technical Education in Family and Consumer Sciences**

(3-0) Cr. 3. S.

*Prereq: (Credit or concurrent enrollment in FCEDS 413; admission to Educator Preparation program) or Permission of Instructor*

Investigation into the philosophy of Career and Technical Education (CTE). Historical development of family and consumer sciences. Planning and implementing programs in family and consumer sciences including FCCLA. Impact of selected legislation on family and consumer sciences programs. Techniques for cooperative education, school-to-work, and work-based education programs. Includes educational opportunities off campus for professional development and career advancement. May be used toward Multioccupations Endorsement.

**FCEDS 480V: Pre-Student Teaching Experience in FCS Education: Practicum in Diverse Settings**

(Cross-listed with EDUC). (0-4) Cr. 2. Repeatable. F.S.

*Prereq: FCEDS 206; FCEDS 306; FCEDS 380V; admission to Educator Preparation program*

Laboratory experience in foods, textiles, and human development related to family and consumer sciences exploratory programs. Planning, implementing, managing and assessing laboratory lessons in family and consumer sciences. Includes 48 hours practicum and supervised individual teaching. 1/2 day of time needed in schedule. Offered on a satisfactory-fail basis only.

**FCEDS 490: Independent Study**

Cr. arr. F.S.SS.

*Prereq: Permission of Instructor*

**FCEDS 490C: Independent Study: Curriculum**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**FCEDS 490G: Independent Study: General**

Cr. arr. F.S.SS.

*Prereq: Permission of Instructor*

**FCEDS 490H: Independent Study: Honors**

Cr. arr. F.S.SS.

*Prereq: Permission of Instructor*

**FCEDS 491: Supervised Experiences in a Professional Setting**

Cr. 3-8. Repeatable. F.S.SS.

*Prereq: FCEDS 206; FCEDS 306; HD FS 418B; minimum 24 credits in FCEDS*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

**FCEDS 491A: Supervised Experiences in a Professional Setting: Communications**

Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS.

*Prereq: FCEDS 206; FCEDS 306; HD FS 418B; minimum 24 credits in FCEDS*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

**FCEDS 491B: Supervised Experiences in a Professional Setting: Professional Studies**

Cr. 3-8. Repeatable, maximum of 8 credits. F.S.SS.

*Prereq: FCEDS 206; FCEDS 306; HD FS 418B; minimum 24 credits in FCEDS*

Supervised professional experience in an approved setting such as Cooperative Extension, business, community, human service, or government agency. Offered on a satisfactory-fail basis only.

## Family Financial Planning (FFP)

***Any experimental courses offered by FFP can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**FFP 520: Financial Theory and Research I**

(3-0) Cr. 3. F.S.SS.

Theories of family functioning, macroeconomic theory related to family resource allocation decisions, the family as an economic unit, and the interaction of the economy and families.

**FFP 525: Financial Theory and Research II**

(3-0) Cr. 3. F.S.SS.

Microeconomic theory as it relates to family resource allocation decisions, theories of household behavior, the lifecycle hypothesis, behavioral economics, behavioral finance, theories of behavioral change, and psychological theories of family well-being. Focus on empirical research investigating household financial decision-making.

**FFP 530: Fundamentals of Family Financial Planning**

(3-0) Cr. 3. F.S.SS.

Introduction to the financial planning process and establishing client-planner relationships. Applied work in cash flow, credit and debt, income tax, insurance, investment, retirement and estate planning. Review of services provided to families, documentation required, ethics in financial planning, and Certified Financial Planner™ licensee responsibilities.

**FFP 535: Financial Counseling**

(3-0) Cr. 3. F.S.SS.

Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues.

**FFP 540: Estate Planning for Families**

(3-0) Cr. 3. F.S.SS.

Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations used in providing estate planning services, and new and emerging issues in the field. Case studies provide experience in developing estate plans suitable for varied family forms.

**FFP 541: Housing and Real Estate in Family Financial Planning**

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered even-numbered years.

The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

**FFP 545: Retirement Planning, Employee Benefits, and the Family**

(3-0) Cr. 3. F.S.SS.

Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with government benefits.

**FFP 550: Military Personal Financial Readiness**

(3-0) Cr. 3. F.SS.

Overview of the topics relevant to the financial planning process that address the unique needs of military service members and their families.

**FFP 555: Insurance Planning for Families**

(3-0) Cr. 3. F.S.SS.

In-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and government-subsidized programs. Current and emerging issues and ethical considerations relative to risk management. Case studies provide experience in selecting insurance products suitable for individuals and family, study of investment options for clients including common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices. Current and emerging issues and ethics are included.

**FFP 565: Personal Income Taxation**

(3-0) Cr. 3. F.S.SS.

In-depth information on income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrative or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies.

**FFP 570: Professional Practices in Financial Planning**

(3-0) Cr. 3. F.S.SS.

Challenges of managing financial planning practices including, but not limited to: business valuation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings.

**FFP 583: Investing for the Family's Future**

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices.

**FFP 590: Family Financial Planning Seminar**

(3-0) Cr. 3. Repeatable, maximum of 3 times. S.SS.

Through a seminar format comprised of readings, guest lectures, collaborative case studies, peer interaction, and practical application, students will explore the rapidly growing and changing opportunities of sustainable, responsible, and impact investments.

**FFP 591: Practicum**

Cr. 3-6. F.S.SS.

Supervised experience in family financial planning.

**FFP 595: Financial Planning - Case Studies**

(3-0) Cr. 3. F.S.SS.

*Prereq: FFP 530, FFP 540, FFP 545, FFP 555, FFP 565, FFP 583*

Professional issues in financial planning, including ethical considerations, regulation and certification requirements, communication skills, and professional responsibility. Students are expected to utilize skills obtained in other courses and work experiences in the completion of personal finance case studies, the development of a targeted investment policy, and other related financial planning assignments.

## Finance (FIN)

**Any experimental courses offered by FIN can be found at:**

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**FIN 301: Principles of Finance**

(3-0) Cr. 3. F.S.SS.

*Prereq: ACCT 284, ECON 101, STAT 226*

Introduction to financial management with emphasis on corporate financing and investment decision making, time value of money, asset valuation, capital budgeting decision methods, cash budgeting, and financial markets.

**FIN 310: Corporate Finance**

(3-0) Cr. 3. F.S.SS.

*Prereq: FIN 301 and co-requisite of MATH 151 or MATH 160 or MATH 165*

Theory used in a firm's investment and financing decisions. Analysis of environment in which financial decisions are made; applications of analytical techniques to financial management problems.

**FIN 320: Investments**

(3-0) Cr. 3. F.S.SS.

*Prereq: FIN 301; and co-requisite of MATH 151 or MATH 160 or MATH 165*

Introduction to securities and markets from the viewpoint of the individual investor. Emphasis on mechanics of trading, measurement of return and risk, behavior of security prices, valuation of stocks and bonds, mutual funds, portfolio selection techniques, and performance evaluation.

**FIN 330: Financial Markets and Institutions**

(3-0) Cr. 3. F.S.

*Prereq: FIN 301*

Introduction to the structure and operations of the United States financial system and its markets and institutions. Emphasis on developing an integrated understanding of markets and financial service providers including global linkages.

**FIN 361: Personal Risk Management and Insurance**

(3-0) Cr. 3. F.S.

*Prereq: FIN 301*

Risk concepts and the use of insurance by individuals and families. Emphasis on the insurance mechanism and methods of dealing with income, property, and liability risks.

**FIN 371: Real Estate Principles**

(3-0) Cr. 3. SS.

*Prereq: ECON 101*

Legal, economic, social and financial aspects of real estate, including property rights, contracts, mortgage instruments, tax factors, brokerage, valuation, risk and return analysis, financing techniques, and investments.

**FIN 415: Business Financing Decisions**

(3-0) Cr. 3.

*Prereq: FIN 310*

In depth study of the firm's external financing decision. Emphasis on the development of cash flow statements, projected financing needs and the selection of the appropriate financing instrument. Focus on case studies and application of developed techniques on actual field project.

**FIN 424: Financial Futures and Options**

(3-0) Cr. 3.

*Prereq: FIN 320; (STAT 326 or STAT 341)*

Advanced study of pricing and using derivatives - instruments deriving value from fundamental items such as commodities, currency exchange rates, market indices, equities and bonds. Addresses basic building blocks of derivatives (i.e., forwards, futures, options and swaps) and relevant current topics and issues.

**FIN 425: Security Analysis and Portfolio Management**

(3-0) Cr. 3. F.S.

*Prereq: FIN 320; (STAT 326 or STAT 341)*

Advanced study of security analysis, security selection techniques and portfolio management. Emphasis on the applications of methods learned via the selection and evaluation of a portfolio of actual securities purchased in securities markets in the U.S. or abroad. Tracking and periodic reporting of the portfolio's performance relative to standard benchmarks is also required.

**FIN 427: Fixed Income Securities**

Cr. 3.

*Prereq: FIN 320*

Valuation of fixed income securities, including pricing conventions, term structure of interest rates, default, duration, and hedging of interest rate risk with derivatives. Analysis of bond market sectors, including treasury, agency, corporate, sovereign, municipal, and residential mortgage bonds.

**FIN 428: Advanced Fixed Income Analysis and Portfolio Management**

(Dual-listed with FIN 528). (3-0) Cr. 3.

*Prereq: FIN 427*

Advanced analysis of fixed income markets and securities, including valuation and trading of treasury securities, corporate bonds, mortgage backed securities. Analysis of structured financial securities, including CDO, CMBS, and ABS. Analysis of active and passive investment strategies for managing fixed income portfolios. Students are required to manage a fixed income portfolio for an institutional investor. A top-down approach to portfolio management is assumed, with active bets taken on market direction, duration, yield curve, and credit spreads.

**FIN 431: Small Business Finance Decisions**

(Cross-listed with ENTSP). Cr. 3. S.

*Prereq: FIN 310 or ENTSP 313 AND FIN 301*

Integrative nature of small business financial decisions, from basic historical financial analysis to financial projections and valuation unique to small business. Utilize planning/valuation to reconcile the optimal exit date for the small business owner. Examination of this integrative approach through case study. Emphasis on practical application with a decision orientation. Group project working with a small business owner and related advisors/bankers to develop a plan that focuses on an optimal exit strategy.

**FIN 435: Venture Capital, Private Equity, and Mergers and Acquisitions**

(3-0) Cr. 3. S.

*Prereq: FIN 310; FIN 320; (STAT 326 or STAT 341)*

An advanced investments class that focuses on alternative investments. Topics include techniques for valuing public and private firms, venture capital finance, investment banking, private equity finance, leveraged buyouts, hedge funds, the structure and financing of mergers and acquisitions, and divestitures.

**FIN 445: Bank Management Decisions**

(3-0) Cr. 3. F.S.

*Prereq: FIN 310 or FIN 320 or FIN 330 or ECON 353*

Analysis of operations of depository financial institutions from management viewpoint. Emphasis on evaluating performance, policy formation, asset and liability management, the role of capital, and the operating environment.

**FIN 450: Analytical Methods in Finance**

Cr. 3. F.S.

*Prereq: (ECON 301 or FIN 301); (STAT 326 or STAT 341)*

Applied empirical methods commonly employed in the analysis of firm and market data. Specific applications to financial and agricultural markets. Experiential learning experience using lectures with frequent in-class computer work sessions. Experience with financial and agricultural data sources. Application and interpretation of empirical techniques.

**FIN 455: Risk Modeling**

(3-0) Cr. 3. F.S.

*Prereq: FIN 301 or MATH 240, and STAT 326 or STAT 341*

Introduction to predictive modeling and business analytics in the finance and insurance industry. Basic statistical/computing skills, analytical thinking, and business acumen. Develop practical data analytic skills based on building real analytic applications on real data.

**FIN 456: Financial Modeling**

(3-0) Cr. 3.

*Prereq: ACCT 285; FIN 301; (STAT 326 or STAT 341)*

Applying computers to business applications especially using Excel in finance related work.

**FIN 462: Corporate Risk Management and Insurance**

(3-0) Cr. 3. F.

*Prereq: FIN 310*

Analysis of an organization's approaches to the management of price, credit, and pure risk. Emphasis on the consideration and selection of risk control and financing treatments and the decision making framework underlying the alternatives selected. Covers commercial insurance, self-insurance, and alternative financing arrangements.

**FIN 472: Real Estate Finance**

(3-0) Cr. 3.

*Prereq: FIN 301; (STAT 326 or STAT 341)*

Introduction to the techniques of assessing the value of real estate and real estate financing instruments.

**FIN 474: Real Estate Investment**

(3-0) Cr. 3. F.S.

*Prereq: (FIN 371 or FIN 427 or FIN 472); (STAT 326 or STAT 341)*

Introduction to theories and methods of investment analysis applied to real estate. Studies cash flow analysis, alternative measures of investment performance, the impact of the financing decision on real estate investment risks and return, and various real estate financing techniques. Covers cases involving more complex financing and capital markets tools used in real estate.

**FIN 480: International Finance**

(3-0) Cr. 3. F.S.

*Prereq: FIN 310, FIN 320 or FIN 330*

Advanced study of currency market equilibrium, use and analysis of currency derivatives, hedging currency risk, and additional topics, which could include multinational capital budgeting, taxation, raising capital internationally, international portfolio diversification, international capital market equilibrium, political and country risk, financing international trade, multinational corporate treasury management, and current issues.

**FIN 490: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: FIN 301, STAT 326 and permission of instructor***FIN 491: International Study Course in Global Capital Markets**

Cr. 3. S.

*Prereq: FIN 301*

European capital markets and multinational corporate finance with focus on banking, capital markets, and corporate finance in a particular European country. Exposure to European capital markets, the European Monetary Union and the banking system. Current and historical banking practices within the EU and how they changed since the EMU implementation. Understand financial decisions faced by firms located in the EU. Study banks, institutions, and companies in Europe to gain specific knowledge of their practices. Learn about the culture and general economy of Europe during the in country visit.

**Courses primarily for graduate students, open to qualified undergraduates:**

**FIN 501: Financial Valuation and Corporate Financial Decisions**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or departmental permission.*

Shareholder wealth maximization as the goal of the firm within a social responsibility context, financial Math, valuation of securities, the global financial market place as the test of value, estimation of cost of capital, global capital investment decisions, capital structure policy, working capital management.

**FIN 510: Advanced Corporate Finance**

(3-0) Cr. 3.

*Prereq: FIN 501 or instructor permission*

Examines corporate financial decisions, including theory and associated empirical evidence. Topics include agency conflicts, corporate governance, executive compensation, becoming publicly traded, raising capital through public and private offerings, capital structure, financial distress and bankruptcy, leasing, dividend policy, corporate control, restructuring, and risk management.

**FIN 515: Case Studies in Financial Decision Making**

(3-0) Cr. 3.

*Prereq: FIN 501 or instructor permission*

This course focuses on case studies to develop an integrated set of financial decisions. Topic areas include fixed asset, working capital, capital structure, dividend and merger/acquisition decisions. The objective of the course is to examine different firm settings and establish a framework within which to apply financial tools.

**FIN 520: Investments**

(3-0) Cr. 3.

*Prereq: FIN 501 or instructor permission*

Analysis of risk and return for individual securities and portfolios of securities. Topics include the market environment, mechanics of trading, measurement of return and risk, valuation of stocks and bonds, mutual funds, optimal asset allocation, market efficiency, portfolio performance evaluation, and risk management.

**FIN 528: Advanced Fixed Income Analysis and Portfolio Management**

(Dual-listed with FIN 428). (3-0) Cr. 3.

*Prereq: FIN 427*

Advanced analysis of fixed income markets and securities, including valuation and trading of treasury securities, corporate bonds, mortgage backed securities. Analysis of structured financial securities, including CDO, CMBS, and ABS. Analysis of active and passive investment strategies for managing fixed income portfolios. Students are required to manage a fixed income portfolio for an institutional investor. A top-down approach to portfolio management is assumed, with active bets taken on market direction, duration, yield curve, and credit spreads.

**FIN 530: Financial Analysis and Valuation**

(3-0) Cr. 3.

*Prereq: FIN 501 or instructor permission*

Valuation of public and private firms through analysis of financial statements and other information. Study of drivers of value creation, industry analysis, patterns of growth, models for forecasting and analyzing firm cash flows, estimating and adjusting cost of capital, alternative methods of cash flow valuation, the calculation and use of valuation multiples, and valuing mergers and acquisitions.

**FIN 534: Financial Derivatives**

(3-0) Cr. 3. F.

*Prereq: FIN 501 or Graduate classification*

An applied course in derivative markets. Topics covered include futures and options markets, option pricing, swaps, use and rating of insurance products, and alternative forms of reinsurance. Emphasis will be placed on agricultural commodity markets, but energy, interest, currency and stock index contracts will also be covered.

**FIN 535: Venture Capital, Private Equity, and Mergers and Acquisitions**

(3-0) Cr. 3.

*Prereq: FIN 501 or instructor permission*

Advanced investments class focusing on alternative investments. Topics include the nature and scope of investment banking, techniques for valuing public and private firms, venture capital finance, private equity finance, leveraged buyouts, hedge funds, the structure and financing of mergers and acquisitions, and divestitures.

**FIN 541: Analytics in Finance**

(Cross-listed with MIS). Cr. 3. S.

*Prereq: BUSAD 502 or an advanced undergraduate statistics course recommended*

Introduction to Business Analytics (BA) in finance and the insurance industry. The concepts and tools discussed in this course, to be followed and complemented by more advanced courses in the area. Basic analytical thinking and business acumen focusing on applications from finance and insurance. Practical data analytic skills based on building real analytic applications on real data.

**FIN 550: Financial Econometrics**

(3-0) Cr. 3.

*Prereq: FIN 501*

Analysis, modeling, and forecasting of time series data, volatility modeling and forecasting, maximum likelihood estimation, robust standard error computation, specification testing, estimation under alternative distributional assumptions, and Monte Carlo simulation. Applications include tests of asset pricing models, analysis of asset volatility, corporate event studies, and value at risk analysis.

**FIN 556: Advanced Financial Modeling**

(3-0) Cr. 3. S.

*Prereq: FIN 501*

Applying computers to business applications, especially using Excel to solve advanced finance related problems.

**FIN 564: Advanced Derivatives and Risk Management**

(3-0) Cr. 3.

*Prereq: FIN 501, FIN 534*

Risk management tools and how they are applied within financial institutions and the corporate enterprise. Focus on measuring exposure to stock market risk, interest rate risk, currency risk, and credit risk and how these exposures may be managed. Topics include bank risk management regulations, volatility modeling, value at risk analysis, extreme value theory, credit default swaps, and portfolio simulation.

**FIN 572: Real Estate Finance**

(3-0) Cr. 3.

*Prereq: Graduate Classification*

Survey of techniques for assessing the value of real estate assets. Introduction to real estate financing instruments, their use and appropriateness.

**FIN 574: Real Estate Investment**

(3-0) Cr. 3.

*Prereq: FIN 501 or FIN 572*

Introduction to theories and methods of investment analysis applied to real estate. Designed as second course in the sequence of real estate finance and investments. Basics of income-producing properties, the valuations of those properties using pro-forma, risk management and various other issues about the finance and investment of income-producing properties. Study of analysis of sustainable real estate development from capital budgeting perspective. Discussion of the financing practices in real estate and land development.

**FIN 575: Real Estate Securitization and Portfolio Management**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Mechanics, incentives and importance of securitization in firms' efforts to raise capital with application to residential and commercial real estate. Design and implementation of portfolio management strategies of private-market real estate investments. Additional topics include devising alpha strategies, approaches to diversification, creating investment plans to achieve different risk profiles and performance measurement and analysis.

**FIN 576: Real Estate Market Analysis**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Introduction to the structure of real estate markets. Topics include determinants of supply and demand in space and capital markets, house price dynamics and causes and consequences of market cycles. Discussion of likely behavior of U.S. real estate markets and comparisons with markets in other countries.

**FIN 578: MRED Capstone Project**

(Cross-listed with C R P). (3-0) Cr. 3.

*Prereq: Enrollment in MRED.*

Refinement of students' problem-solving, communication and negotiation skills. Students work on an actual case. Teams will apply knowledge acquired in the classroom to some aspect of a current development on-the-ground and in-process project.

**FIN 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

For students wishing to do individual research in a particular area of finance.

# Food Science and Human Nutrition (FS HN)

**Any experimental courses offered by FS HN can be found at:**

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

## **FS HN 101: Food and the Consumer**

(3-0) Cr. 3. F.S.SS.

The food system from point of harvest to the consumption of the food by the consumer. Properties of food constituents. Protection of food against deterioration and microbial contamination. Introduction of foods into the marketplace. Processes for making various foods. Government regulations. Use of food additives. Current and controversial topics. High school biology and chemistry or 3 credits of college level biology and chemistry recommended.

## **FS HN 102: Nutrition for Sport Performance**

(1-0) Cr. 1. F.S.

A scientific evaluation of dietary needs, dietary supplementation, and pop-culture claims relative to physical/sport performance. Discussion of safe and effective practices to enhance physical/sport performance.

## **FS HN 104: Introduction to Professional Skills in Culinary Science**

(0-6) Cr. 1. S.

*Prereq: Major or minor in CUFS A or CUFS H*

Introduction to culinary science. Students will develop fundamental culinary skills by arranged on-campus work experience (100 hours). Sessions with instructor arranged.

## **FS HN 110: Professional and Educational Preparation**

(1-0) Cr. 1. F.S.

Introduction to professional and educational development within the food science and human nutrition disciplines. Focus is on university and career acclimation as well as enhancement of communication skills. Offered on a satisfactory-fail basis only.

## **FS HN 111: Fundamentals of Food Preparation**

(2-0) Cr. 2. S.

*Prereq: (FS HN 101 or FS HN 167); concurrent enrollment in FS HN 115*

Principles involved in preparation of food products of standard quality. Influence of composition and techniques on properties of food products.

## **FS HN 115: Food Preparation Laboratory**

(0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in FS HN 111 or FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety.

## **FS HN 120: The Biochemistry of Beer**

(Cross-listed with BBMB). (2-0) Cr. 2. F.

An introduction to the major classes of biomolecules, basic biochemical concepts, enzymology, metabolism and genetic engineering as they apply to the production and flavor of beer. All aspects of the biochemistry of beer will be covered, including the malting of barley, starch conversion, yeast fermentation and the chemical changes that occur during the aging of beer. Intended for non-majors. Natural science majors are limited to elective credit only.

## **FS HN 120L: Biochemistry of Beer Laboratory**

(Cross-listed with BBMB). Cr. 1.

*Prereq: Credit or concurrent enrollment in BBMB 120*

An introduction to biochemical methods related to the production of beer. Laboratory exercises related to water chemistry, mash enzymology, hop compound extraction and analysis, and yeast biology will be performed. Closely follows the material being taught in BBMB 120. Natural science majors are limited to elective credit only.

## **FS HN 167: Introductory Human Nutrition and Health**

(3-0) Cr. 3. F.S.SS.

Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family. High school biology or 3 credits of biology recommended.

## **FS HN 203: Contemporary Issues in Food Science and Human Nutrition**

(1-0) Cr. 1. F.S.

Introduction to presentation of published research and discussion of current issues in food science and human nutrition. Emphasis on sources of credible information, ethics, and communication.

## **FS HN 207: Processing of Foods: Basic Principles and Applications**

(2-3) Cr. 3. S.

*Prereq: FS HN 101*

Lecture and lab-based instruction on principles of food processing and packaging. Food product-based discussion and activities will highlight raw food materials; unit operations; food quality and safety; processing plant sanitation; food forming and extrusion; fermentation; properties and selection of packaging materials.

## **FS HN 214: Scientific Study of Food**

(3-0) Cr. 3. F.S.

*Prereq: (FS HN 167 or FS HN 265); (CHEM 231 or CHEM 331); concurrent enrollment in FS HN 115 or FS HN 215*

Composition and structure of foods. Principles of preparation of standard quality food products. Behavior and interactions of food constituents.

**FS HN 215: Advanced Food Preparation Laboratory**

(0-6) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety. Development of culinary skills and advanced food preparation.

**FS HN 220: American Food and Culture**

(3-0) Cr. 3. F.S.

American cuisine reflects the history of the U.S. It is the unique blend of diverse groups of people from around the world, including indigenous Native American Indians, Africans, Asians, Europeans, Pacific Islanders, and South Americans. Explore factors that impact the American Cuisine of today including diverse ethnic and cultural group influences, historical events related to food diversity in the U.S., and agriculture and industrial impacts on food production. Practical knowledge and basic food preparation techniques related to the U.S. food system and trends. Class sessions will include lectures, class discussions and Tasting Immersion activities.

**FS HN 241: Introduction to Manufacturing Processes for Plastics**

(Cross-listed with TSM). (1-2) Cr. 2. F.S.

*Prereq: MATH 145*

A study of selected materials and related processes used in plastics manufacturing. Lecture and laboratory activities focus on materials, properties, and processes.

**FS HN 242: The US Food System**

(3-0) Cr. 3. S.

*Prereq: FS HN 101 or FS HN 167*

Exploration of the components of our food system including production, processing, and access. A systems approach is used to evaluate the social, environmental, and nutrition/health implications of the US food system. Controversial topics related to how food is produced, processed, marketed and consumed will be discussed.

**FS HN 264: Fundamentals of Nutritional Biochemistry**

(3-0) Cr. 3. F.

*Prereq: FS HN 167; CHEM 163, CHEM 163L; 3 credits in BIOL*

Digestion, absorption, metabolism, and biochemical functions of nutrients. Biochemical aspects of nutrient deficiencies.

**FS HN 265: Nutrition for Active and Healthy Lifestyles**

(3-0) Cr. 3. S.SS.

*Prereq: FS HN 167; (FS HN 264 or 3 credits in BBMB)*

Fundamentals of nutrient metabolism and nutrient requirements. Role of macronutrient metabolism in physical performance and disease prevention. Effect of manipulation of macronutrient metabolism on physical performance and disease prevention. Applications of nutrient metabolism principles to dietary recommendations and planning.

**FS HN 276: Understanding Grape and Wine Science**

(Cross-listed with HORT). (2-2) Cr. 3. S.

A scientific introduction to viticulture (grape-growing) and enology (wine-making) and grape and wine chemistry. Topics include grape biology and cultivars, vineyard management, geography of wine, wine production, wine classification, grape and wine chemistry, wine sensory. No wine tasting.

**FS HN 301: Nutrigenomics: From Basic Science to Translational Impact**

(2-0) Cr. 1. F.

Introduction to the concepts of nutrigenomics and nutrigenetics and how it affects consumers of food, as well as the implications for human diseases. The potential impact of personalized nutrition and full genome sequencing on health maintenance, chronic disease prevention, and the ethical implications of this knowledge will be explored.

**FS HN 305: Food Quality Management and Control**

(2-0) Cr. 2. S.

*Prereq: 3 credits in STAT*

Fundamentals of statistical decision-making processes and quality control procedures used in food quality assurance programs.

**FS HN 311: Food Chemistry**

(3-0) Cr. 3. F.SS.

*Prereq: BBMB 300 or higher; (CHEM 231 or CHEM 331); ENGL 250*

The structure, properties, and chemistry of food constituents and animal and plant commodities.

**FS HN 311L: Food Chemistry Laboratory**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in FSHN 311.*

The laboratory practices of structure, properties, and chemistry of food constituents.

**FS HN 314: Professional Development for Culinary Food Science and Food Science Majors**

(1-0) Cr. 1. F.

*Prereq: Major or minor in Culinary Food Science or Food Science; Junior or senior classification.*

Introduction to the roles culinary scientists and food scientists hold within industry. Discussions focused on professional and educational development and emerging issues and trends in the food industry.

**FS HN 315: Professional Skills for Culinary Food Science and Food Science Majors**

(1-0) Cr. 1. F.

*Prereq: Major or minor in FS HN*

Focus on the importance of professional skills and application of those skills to potential job situations. Professional skills include communication, team building, leadership vs. management styles, business ethics, and continual learning. Junior classification recommended.

**FS HN 340: Foundations of Dietetic Practice**

(2-0) Cr. 2. F.

*Prereq: Major in Dietetics (A or H) or Pre-Diet and Exercise; Junior classification*

Introduction to the profession of dietetics and responsibilities associated with dietetic professional practice. Emphasis on exploring career options in dietetics and preparation for supervised practice and graduate school. Leadership and professional career development for the dietitian is addressed through self reflection and creation of materials for post-baccalaureate programs. Professional issues related to dietetic practice include Code of Ethics, legal credentialing and standards of professional practice, leadership and future trends in the profession.

**FS HN 342: World Food Issues: Past and Present**

(Cross-listed with AGRON, ENV S). (3-0) Cr. 3. F.S.SS.

*Prereq: Junior classification*

Issues associated with global agricultural and food systems including ethical, social, economic, environmental, and policy contexts. Investigation of various causes and consequences of overnutrition/ undernutrition, global health, poverty, hunger, access, and distribution. Meets International Perspectives Requirement.

**FS HN 351: Introduction to Food Engineering Concepts**

(3-0) Cr. 3. S.

*Prereq: (FS HN 207; [MATH 160 or MATH 165]; [PHYS 131 or PHYS 231]) or Permission of Instructor*

Methodology for solving problems in food processing and introduction to food engineering concepts including food properties, material and energy balances, sources of energy, thermodynamics, fluid flow, heat transfer, and mass transfer. Credit for only FS HN 351 or CH E 357 may be applied toward graduation for the Food Science major or Food Science minor

**FS HN 360: Advanced Nutrition and the Regulation of Metabolism in Health and Disease**

(3-0) Cr. 3. F.

*Prereq: ENGL 250; FS HN 265*

Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and the regulation of metabolism; nutrient-gene interactions; mechanistic role of nutrients in health and disease. 3 credits or concurrent enrollment in 300-level or above Biochemistry recommended. 3 credits in physiology recommended.

**FS HN 361: Nutrition and Health Assessment**

(1-3) Cr. 2. S.

*Prereq: FS HN 265*

The assessment of nutritional status in healthy individuals. Laboratory experiences in food composition and assessment of dietary intake, body composition, and biochemical indices of nutritional status.

**FS HN 362: Nutrition and Health Throughout the Lifecycle**

(3-0) Cr. 3. S.

*Prereq: FS HN 360; credit or concurrent enrollment in BIOL 256 or BIOL 335*

Molecular, biochemical and physiological basis to understand the nutritional aspects of human development and aging. Nutrient needs and various disease states at each stage of human life cycle.

**FS HN 364: Nutrition and Prevention of Chronic Disease**

(3-0) Cr. 3. F.

*Prereq: (BIOL 256; BIOL 256L) or enrolled in NRS major*

Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

**FS HN 365: Obesity and Health**

(3-0) Cr. 3. S.

Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.

**FS HN 366: Communicating Nutrition Messages**

(3-0) Cr. 3. S.

*Prereq: FS HN 264 or FS HN 265*

Theory and application of adult learning and behavior change as it relates to the role of nutrition in health promotion and disease prevention. Discussion of nutrition education and interventions relative to various models. Focus on communication strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach.

**FS HN 367: Medical Terminology for Health Professionals**

(1-0) Cr. 1. F.S.SS.

An independent course focused on medical terminology, abbreviations, and simple clinical mathematical calculations.

**FS HN 392: Food and Nutrition Services Management**

Cr. 3. S.

*Prereq: HSP M 380; HSP M 380L*

Functions and responsibilities related to the management of foodservice systems and nutrition services, including planning, marketing, human resource management, and cost accounting. Only one of HSP M 392 or FS HN 392 may count toward graduation.

**FS HN 403: Food Laws and Regulations**

(2-0) Cr. 2. S.SS.

*Prereq: 3 credits in FS HN at 200-level or above*

History of food law in the US and the world. Relationship between policy, legislation and regulation. Introduction to primary US regulatory agencies and enforcement principles. Discussion of key laws related to food safety and nutrition. Overview of federal and independent research tools and sources of food law.

**FS HN 406: Sensory Evaluation of Food**

(Dual-listed with FS HN 506). (2-3) Cr. 3. F.

*Prereq: FS HN 305; FS HN 411; 3 credits in STAT*

Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.

**FS HN 407: Microbiological Safety of Foods of Animal Origins**

(Dual-listed with FS HN 507). (Cross-listed with MICRO). (3-0) Cr. 3. F.S.

*Prereq: MICRO 201 or MICRO 302*

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FS HN 420 or MICRO 420 and one semester of Microbiology Laboratory.

**FS HN 408: Dairy Products Evaluation**

(0-3) Cr. 1. S.

Gain experience in identifying quality defects in dairy products including milk, cottage cheese, cheddar cheese, strawberry yogurt, butter, and vanilla ice cream. Intensive training for the National Collegiate Dairy Products Evaluation competition and for dairy product evaluation in the food industry.

**FS HN 410: Food Analysis**

(2-3) Cr. 3. F.

*Prereq: FS HN 311 or CHEM 211*

An introduction to the theory and application of chemical and instrumental methods for determining the constituents of food. Use of standard procedures for food analysis and food composition data bases.

**FS HN 411: Food Ingredient Interactions and Formulations**

(1-3) Cr. 2. F.S.

*Prereq: (FS HN 214 or FS HN 311); 3 credits in STAT*

Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking.

**FS HN 412: Food Product Development**

(Dual-listed with FS HN 512). (1-6) Cr. 3. S.

*Prereq: FS HN 411; Senior classification*

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.

**FS HN 419: Foodborne Hazards**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MICRO 201 or MICRO 302; 3 credits in BBMB*

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards.

**FS HN 420: Food Microbiology**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. F.

*Prereq: MICRO 201 or MICRO 302*

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

**FS HN 421: Food Microbiology Laboratory**

(Cross-listed with MICRO). (1-5) Cr. 3. S.

*Prereq: MICRO 201 or MICRO 302; MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420*

Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction.

**FS HN 430: U.S. Health Systems and Policy**

(Dual-listed with FS HN 530). (2-0) Cr. 2. F.S.

*Prereq: Junior or Senior or Graduate classification*

Introduction to public policy for health care professionals. Emphasis on understanding the role of the practitioner for participating in the policy process, interpreting government policies and programs such as Medicare and Medicaid, determining reimbursement rates for eligible services, and understanding licensure and accreditation issues. Discussion and exploration of federal, state and professional policy-relevant resources.

**FS HN 435: Analysis of Food Markets**

(Cross-listed with ECON). Cr. 3. S.

*Prereq: ECON 235; ECON 301; STAT 226*

Food market analysis from an economics perspective; food markets and consumption; methods of economic analysis; food industry structure and organization; food and agriculture regulations; labeling; consumer concerns; agricultural commodity promotion. Final project required.

**FS HN 442: Issues in Food and Society**

(2-0) Cr. 2. F.

*Prereq: Sophomore classification*

In-depth discussion, synthesis, and analysis of domestic and global food issues from a systems approach. Mutually reinforcing interactions between culture, biology, and environmental influences on human dietary habits, nutrition and health will be emphasized. Historical and current foodways of cultural groups will be presented with specific attention to understanding cultural differences. Students will demonstrate how to locate, interpret, evaluate and use professional literature to inform about current food and society issues.

**FS HN 445: Strategies for Personal Food Waste Reduction**

(1-0) Cr. 1. S.

*Prereq: Junior classification*

In-depth analysis and discussion of economic, environmental, social, and ethical implications of food waste. Overview of personal food waste reduction strategies, food recycling/recovery, and responsible waste disposal methods. Discussion and application of advocacy tactics for the promotion of food waste reduction in local communities.

**FS HN 460: Global Nutrition and Health**

(Dual-listed with FS HN 560). (3-0) Cr. 3. S.

An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations. Meets International Perspectives Requirement.

**FS HN 461: Medical Nutrition and Disease I**

(Dual-listed with NUTRS 561). (4-0) Cr. 4. F.

*Prereq: (BIOL 256 or BIOL 335); FS HN 360; FS HN 361; FS HN 367*

Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and improve health.

**FS HN 463: Community Nutrition and Health**

(3-0) Cr. 3. F.

*Prereq: FS HN 361*

Dual-listed with NUTRS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level.

**FS HN 464: Medical Nutrition and Disease II**

(4-0) Cr. 4. S.

*Prereq: FS HN 461*

(Dual-listed with NUTRS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and promote health.

**FS HN 466: Nutrition Counseling and Education Methods**

(Dual-listed with FS HN 566). (2-2) Cr. 3. F.S.

*Prereq: FS HN 361 and FS HN 362*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**FS HN 467: Molecular Basis of Nutrition in Disease Etiology and Health Promotion**

(3-0) Cr. 3. S.

*Prereq:* 3 credits of BBMB 200 or above or *Permission of Instructor*

Understanding the molecular basis for the role of nutrients, nutrient-derivatives, and bioactive compounds in the development, prevention, and treatment of common diseases including diabetes, cancer, vascular disease, obesity, neurological disease, aberrant mineral metabolism, and autoimmune disease. Translating this understanding into practical approaches for improving the health of individuals and populations.

Credit for FS HN 360 suggested.

**FS HN 471: Food Processing**

(3-0) Cr. 3. F.

*Prereq:* A B E 451 or CH E 357 or FS HN 351

Principles and application of food processing using both thermal (ex., blanching, pasteurization, canning, drying, freezing, evaporation, aseptic processing, extrusion) and non-thermal (ex., high pressure, irradiation, pulsed electric field, fermentation) unit operations. Emphasis on microbial inactivation, process heat and mass balance, and numerical problem solving.

**FS HN 472: Food Processing Laboratory**

(1-3) Cr. 2. S.

*Prereq:* FS HN 471

Hands-on and demonstration laboratory activities related to food processing principles and applications using lab and pilot-scale equipment. Laboratory experiences include important food processing operations, e.g., blanching/pasteurization, canning, freezing, drying, corn wet milling, fermentation, baking etc. Emphasis on mass balance, interpreting data, writing reports, and presentations. Occasional field trips.

**FS HN 489: Issues in Food Safety**

(Cross-listed with AN S, HSP M, VDPAM). (1-0) Cr. 1. S.

*Prereq:* Credit or concurrent enrollment in (FS HN 101 or FS HN 272 or HSP M 233); FS HN 403; (FS HN 419 or FS HN 420)

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

**FS HN 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490A: Independent Study: Dietetics**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490B: Independent Study: Food Science**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490C: Independent Study: Nutrition**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490D: Independent Study: International Experience**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490E: Independent Study: Entrepreneurship**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490H: Independent Study: Honors**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* *Permission of Instructor*

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 491: Supervised Work Experience**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* *Permission of Instructor; Permission of Advisor*

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491A: Supervised Work Experience: Dietetics**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* *Permission of Instructor; Permission of Advisor*

Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491B: Supervised Work Experience: Food Science**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor; Permission of Advisor*

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491C: Supervised Work Experience: Nutrition**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor; Permission of Advisor*

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491D: Supervised Work Experience: Culinary Science**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor; Permission of Advisor*

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 492: Research Concepts in Human Nutrition**

(1-3) Cr. 2. F.

*Prereq: (FS HN 360; Senior classification) or Permission of Instructor*

Students will develop and implement research projects with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses and write a formal science paper to share the results of their research. Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

**FS HN 493: Food Preparation Workshop**

(1-3) Cr. 1-3.

Selected topics in food preparation including scientific principles, culture and culinary techniques. Variable format may include laboratory, recitation, and lecture. Offered on a satisfactory-fail basis only.

**FS HN 495: Practicum**

(1-3) Cr. 2. F.S.

*Prereq: FS HN 366; FS HN 463; Senior classification; major in Nutritional Science-Nutrition and wellness option*

Students will develop, implement and assess a community-based project that engages groups in learning and practicing concepts related to nutrition and wellness. Assessed service learning component. Offered on a satisfactory-fail basis only.

**FS HN 496: Food Science and Human Nutrition Travel Course**

(Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

(One credit per week traveled and 1 credit for pre-departure class, if offered.) Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

**FS HN 496A: Food Science and Human Nutrition Travel Course: International travel**

(Dual-listed with FS HN 596A). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

**FS HN 496B: Food Science and Human Nutrition Travel Course: Domestic travel**

(Dual-listed with FS HN 596B). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

**FS HN 498: Cooperative Education**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Permission of Department Chair*

Required for students completing professional work periods in a cooperative education program. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only.

**FS HN 499: Undergraduate Research**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:****FS HN 506: Sensory Evaluation of Food**

(Dual-listed with FS HN 406). (2-3) Cr. 3. F.

*Prereq: FS HN 305; FS HN 411; 3 credits in STAT*

Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.

**FS HN 507: Microbiological Safety of Foods of Animal Origins**

(Dual-listed with FS HN 407). (Cross-listed with MICRO). (3-0) Cr. 3. F.S.

*Prereq: MICRO 201 or MICRO 302*

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FS HN 420 or MICRO 420 and one semester of Microbiology Laboratory.

**FS HN 508: Consumer Perceptions and Nutrition Communication**

(2-0) Cr. 2. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Examination of current consumer food and nutrition trends. Critical analysis of consumer perceptions relative to current research base. Use of various media to create effective nutrition messages for consumers. Activities designed to meet accreditation standards.

**FS HN 509: Sensory Evaluation of Wines**

Cr. 2. S.

*Prereq: Must be at least 21 years of age; senior or graduate status.*

Principles of sensory evaluation and their application to wine evaluation. Sensory testing methods such as discrimination tests, ranking, descriptive analysis and scoring of wines will be covered. Students will have the opportunity to evaluate and learn about major types and styles of wines of the world. Lab fee.

**FS HN 511: Integrated Food Science**

(3-0) Cr. 3. F.

*Prereq: 3 credits in each of organic chemistry, physics, mathematics, and microbiology.*

Critical review of the key principles of food science and applications in the chemistry, microbiology, and processing of food. Understanding of the impact of processing on the quality of foods with respect to composition, quality and safety.

**FS HN 512: Food Product Development**

(Dual-listed with FS HN 412). (1-6) Cr. 3. S.

*Prereq: FS HN 411; Senior classification*

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.

**FS HN 516: Advanced Nutrition I**

(2-0) Cr. 2. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Examination of current literature relative to molecular, cellular, and physiologic aspects of macronutrient and micronutrient metabolism. Integration of current evidence-based information, including peer-reviewed literature, to inform nutrition practice. Activities designed to meet accreditation standards.

**FS HN 517: Gut Microbiome: Implications for Health and Diseases**

(Cross-listed with AN S, MICRO, V MPM). Cr. 3. F.

*Prereq: 2-3 credits in microbiology and/or immunology.*

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health.

**FS HN 518: Advanced Nutrition II**

(3-0) Cr. 3. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Principles of research design/methods and interpreting results/statistics in the current peer-reviewed scientific literature. Critical evaluation of the evidence-base to inform nutrition practice. Activities designed to meet accreditation standards.

**FS HN 521: Microbiology of Food**

(2-0) Cr. 2. S.SS.

*Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Identification, enumeration, and characterization of bacteria, yeasts, and mold associated with foods and food processing. Effects of physical and chemical agents on micro-organisms will be studied. Microbiological problems in food spoilage, food preservation, food fermentation, and food-borne disease will be discussed.

**FS HN 522: Advanced Food Microbiology and Biotechnology**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Food microbiology, a course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. Introduction to recombinant DNA techniques and how they are applied to genetically modify microorganisms, the use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and down-stream processing techniques, and regulatory aspects of food biotechnology.

**FS HN 523: A Multidisciplinary Overview of Food Safety and Security**

(2-0) Cr. 2. F.SS.

*Prereq: A course in biology or chemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Multidisciplinary food safety and security perspectives provided by numerous subject matter experts. Topics include food safety policy, ag bioterrorism, border security, animal ID, food defense and site security, risk analysis, crisis communication, epidemiology, HACCP, and more.

**FS HN 524: Food Microbiology**

(3-0) Cr. 3. F.

*Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Food Microbiology looks at the nature, physiology, and interactions of microorganisms in foods. The course is an introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Additionally, the course looks at food plant sanitation and criteria for establishing microbial standards for food products.

**FS HN 525: Principles of HACCP**

(2-0) Cr. 2. F.

*Prereq: Undergraduate biology and chemistry courses; enrollment in GP-IDEA Food Safety and Defense Certificate or permission of instructor.*

A comprehensive study of the Hazard Analysis and Critical Control Point System and its application in the food industry.

**FS HN 526: Ethnic Foods: Food Safety, Food Protection and Defense**

(2-0) Cr. 2. SS.

*Prereq: Graduate standing; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Understanding of the various factors that impact safety of ethnic and imported ethnic foods; knowledge about the handling, preparation, processing and storage of ethnic and imported foods and food products; science-based characterization of representative ethnic foods.

**FS HN 527: Microbiology of Fermented Foods**

(2-0) Cr. 2. SS.

*Prereq: Food microbiology; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Microbiology of fermented foods covers the physiology, biochemistry, and genetics of microorganisms important in food fermentations. The course looks at how microorganisms are used in fermentations and the effects of processing and manufacturing conditions on production of fermented foods.

**FS HN 528: Food Protection and Defense-Essential Concepts**

(2-0) Cr. 2. S.

*Prereq: Enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

This course will provide students with an understanding of the principles required in a food defense program for a food manufacturing, warehousing or distribution center. The topics covered include: defining threats and aggressors; the Bioterrorism Act; food defense teams; vulnerability assessments; security programs; recall and traceability basics; security inspections; crisis management; emergency preparedness; and workplace violence.

**FS HN 530: U.S. Health Systems and Policy**

(Dual-listed with FS HN 430). (2-0) Cr. 2. F.S.

*Prereq: Junior or Senior or Graduate classification*

Introduction to public policy for health care professionals. Emphasis on understanding the role of the practitioner for participating in the policy process, interpreting government policies and programs such as Medicare and Medicaid, determining reimbursement rates for eligible services, and understanding licensure and accreditation issues. Discussion and exploration of federal, state and professional policy-relevant resources.

**FS HN 533: Diet and Integrative Therapies for Prevention and Treatment of Diseases**

(2-0) Cr. 2. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Explore the role of specific nutrients, dietary bioactive compounds and integrative therapies on disease prevention and treatment. Activities designed to meet accreditation standards.

**FS HN 537: Leadership and Management in Dietetics**

(3-0) Cr. 3. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program*

Application of leadership and management theories and approaches relevant to dietetics practice. Use of self-reflection and self-assessment to assist in recognition and development of leadership behaviors. Activities designed to meet accreditation standards.

**FS HN 538: Advanced Medical Nutrition Therapy**

(3-0) Cr. 3. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Nutritional biochemistry and physiology related to selected pathophysiology of disease with emphasis on treatment of complex medical problems and current issues. The nutrition care process will be utilized. Evidenced-based practice will be integrated into each disease state covered to optimize nutritional status and promote health. Activities designed to meet accreditation standards.

**FS HN 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**FS HN 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**FS HN 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**FS HN 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**FS HN 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**FS HN 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**FS HN 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**FS HN 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**FS HN 544: Pediatric Clinical Nutrition**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems.

**FS HN 554: Supervised Experience in Food Systems Management**

(0-22) Cr. 3. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in food service and management. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 555: Supervised Experience in Community Nutrition**

(0-18) Cr. 3. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in community nutrition. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 556: Supervised Experience in Medical Nutrition Therapy**

(0-22) Cr. 5. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in medical nutrition therapy. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 560: Global Nutrition and Health**

(Dual-listed with FS HN 460). (3-0) Cr. 3. S.

An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations.

Meets International Perspectives Requirement.

**FS HN 562: Advanced Nutrition Assessment**

(4-0) Cr. 4. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Overview and practical applications of methods for assessing nutritional status, including: theoretical framework of nutritional health and disease, dietary intake, biochemical indices, nutrition focused physical exam and body composition across the lifecycle. Activities designed to meet accreditation standards.

**FS HN 566: Nutrition Counseling and Education Methods**

(Dual-listed with FS HN 466). (2-2) Cr. 3. F.S.

*Prereq: FS HN 361 and FS HN 362*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**FS HN 575: Processed Foods**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: FS HN 214 or FS HN 311; a course in nutrition*

This course will examine effect of industrial and domestic food processing on the nutrient content of food and risk of developing chronic disease.

**FS HN 580: Orientation to Food Science and Nutrition Research**

(1-0) Cr. 1. F.

Orientation to and discussion of research interests in food science and nutrition. Discussion of policy and ethical issues in the conduct of research. Intended for entering students in FS HN. Offered on a satisfactory-fail basis only.

**FS HN 581: Seminar**

(1-0) Cr. 1. S.

Discussion and practice of oral presentation of scientific data in a professional setting. Discussion of issues related to data presentation. Intended for graduate students in their first or second semester in FS HN.

**FS HN 589: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology**

(Cross-listed with GERON, NEURO, NUTRS, PSYCH). Cr. 2. S.

*Prereq: Graduate standing, or undergraduate with consent of instructor.*

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders.

**FS HN 590: Special Topics**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590A: Special Topics: Nutrition**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590B: Special Topics: Food Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590C: Special Topics: Teaching**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 596A: Food Science and Human Nutrition Travel Course: International travel**

(Dual-listed with FS HN 496A). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

**FS HN 596B: Food Science and Human Nutrition Travel Course: Domestic travel**

(Dual-listed with FS HN 496B). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

**FS HN 599: Creative Component**

Cr. arr.

Nonthesis option only.

**Courses for graduate students:****FS HN 606: Advanced Food Analysis and Instrumentation**

(2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: FS HN 311, or FS HN 410, or FS HN 511 or equivalent.*

Instrumental methods for measuring chemical and physical properties of foods, food quality and functionality. Techniques for methods development, sample preparation, optimization of operating conditions, and data analysis needed to obtain accurate, reproducible results by means of instrumentation.

**FS HN 611: Advanced Food Processing**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: FS HN 311, or FS HN 471/472 or equivalent, or FS HN 511.*

Recent advances in the science and technology of food processing and preservation; examples include both thermal and non-thermal processes, including cold plasma, nanotechnology, and extrusion. Advances in extraction and separation technologies, by-product utilization, and sustainability in food processing industry will also be discussed. Students to research on select topics and present.

**FS HN 612: Advanced Food Chemistry**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: FS HN 311, or FS HN 411, or FS HN 511, or BBMB 404, or equivalent.*

Structure, chemical and physical properties of lipids, proteins and carbohydrates, and their food and industrial applications. Changes in functionalities during processing and storage.

**FS HN 626: Advanced Food Microbiology**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

**FS HN 627: Rapid Methods in Food Microbiology**

(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

**FS HN 653: Food and Agricultural Traceability**

(3-0) Cr. 3. F.

*Prereq: Enrollment in The Ivy Executive MBA program within the Ivy College of Business at Iowa State University*

Current issues and concepts of food and agricultural product traceability in the U.S., from production to consumption. Food types, microbial agents of concern, adulterants, disease investigations, risk analysis, risk mitigation, prevention and regulatory policy and advocacy. Travel to Washington, D.C.

**FS HN 681: Seminar**

(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.

Presentation of thesis or dissertation research. Must be taken once for each graduate program; once for the M.S. program and once for the Ph.D. program.

**FS HN 682: Seminar Reflection**

Cr. R. Repeatable. F.S.

Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students. Electronic documentation.

**FS HN 690: Special Problems**

Cr. arr. Repeatable. F.S.SS.

*Prereq: FS HN 502 or FS HN 503 or FS HN 504 or FS HN 553 or FS HN 554***FS HN 695: Grant Proposal Writing**

(Cross-listed with NUTRS). (1-0) Cr. 1. F.

*Prereq: 3 credits of graduate course work in food science and/or nutritional sciences*

Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Understanding the grant funding process from federal, foundation, and commodity agencies. Includes preparing a grant for possible submission and participation in the review of proposals. Discussion of the role of successful grant writing in career development.

**FS HN 699: Research in Food Science and Technology**

Cr. arr. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

## Forestry (FOR)

***Any experimental courses offered by FOR can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**FOR 201: Forest Biology**

(2-0) Cr. 2. F.

*Prereq: Concurrent enrollment in FOR 202; FOR 203; FOR 204; FOR 205; FOR 206*

Discussion of ecological concepts, individual tree structure and growth, variation and diversity in tree populations. Physical environment of trees and forests, ecological processes in forest communities, and introduction to different regional forest communities.

**FOR 202: Sustainable Materials: Wood Utilization**

(2-0) Cr. 2. F.

*Prereq: Concurrent enrollment in FOR 201; FOR 203; FOR 204; FOR 205; FOR 206*

Basis for use of wood as an industrial raw material for lumber, composites, pulp and paper, energy and chemicals. Implications of use of alternative renewable and non-renewable materials for societal infrastructure and consumer goods.

**FOR 203: Resource Measurements/Evaluation**

(2-0) Cr. 2. F.

*Prereq: Concurrent enrollment in (FOR 201; FOR 202; FOR 204; FOR 205; FOR 206); MATH 140*

Survey techniques involved in quantification, valuation, and evaluation of tree and stand growth and other variables in the forest environment (e.g., recreational use, wildlife habitat value, biomass, and solid wood).

**FOR 204: Forest Ecosystem Decision-Making**

(2-0) Cr. 2. F.

*Prereq: Concurrent enrollment in FOR 201; FOR 202; FOR 203; FOR 205; FOR 206*

Methods of decision-making related to forest ecosystems including communications, teams and conflict resolution. Current issues relating to public, private, and urban forests; quantification of processes, services, and goods produced by the forest and expected by the public such as wildlife, water, range, recreation, wilderness, biodiversity, as well as wood and fiber products.

**FOR 205: Integrated Forestry Laboratory**

(0-8) Cr. 3. F.

*Prereq: Concurrent enrollment in FOR 201; FOR 202; FOR 203; FOR 204; FOR 206*

Field and laboratory exercises integrating the evaluation and management of forest goods, services, and the processing of wood products.

**FOR 206: Fall Forestry Camp**

Cr. 4. F.

*Prereq: Concurrent enrollment in FOR 201; FOR 202; FOR 203; FOR 204; FOR 205*

Three-week field camp to address topics and issues covered in 201, 202, 203, 204, and 205.

**FOR 280: Wood Properties and Identification**

(3-3) Cr. 4. S.

Properties of wood and how they relate to its successful use.

Comparative anatomical characteristics, scientific nomenclature, and hand lens identification of commercially important North American woods.

**FOR 283: Pesticide Application Certification**

(Cross-listed with AGRON, ENT, HORT). (2-0) Cr. 2. S.

Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

**FOR 290: Special Problems**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 290A: Special Problems: Leadership in Forestry Teams (LIFT) Learning Community**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 290B: Special Problems: Forest Ecosystem Management**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 290C: Special Problems: Natural Resource Conservation**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 290D: Special Problems: Urban and Community Forestry**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 290E: Special Problems: Wood Science and Technology**

Cr. 1-4. Repeatable.

*Prereq: Freshman or Sophomore classification; Permission of Instructor*

**FOR 302: Silviculture**

(3-3) Cr. 4. S.

*Prereq: A ECL 312 or FOR 201 or NREM 301*

Manipulation of forest vegetation based on ecological principles for the production of goods and services.

**FOR 356: Dendrology**

(Cross-listed with BIOL). (2-2) Cr. 3. F.

*Prereq: BIOL 211*

Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Historical conditions of North American forest regions will also be addressed.

**FOR 358: Forest Herbaceous Layer: Ecology and Identification.**

(0.5-1) Cr. 1. S.

*Prereq: BIOL 211*

Survey of the major plant families, general, and representative species of the forest herbaceous layer. Functional ecology and restoration.

**FOR 416: Forest Insects and Diseases**

(Cross-listed with PL P). (2-2) Cr. 3. F.

*Prereq: BIOL 211; 4 additional credits in life sciences*

Nature of insects and pathogens of forest and shade trees; their role in the dynamics of natural and managed forest ecosystems; and the management of indigenous and exotic pests. Laboratory experience working with insect and fungal pests of trees.

**FOR 442: Dynamics of Forest Stands**

(Dual-listed with FOR 542). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: FOR 302; NREM 301; (STAT 101 or STAT 104)*

Change in forest species composition and structure at the stand and landscape scales resulting from site quality, tree growth, competition, succession, and disturbance. Methods for assessing tree growth and reconstructing past stand development. Applications to forest and savanna management.

**FOR 451: Forest Resource Economics and Quantitative Methods**

(3-3) Cr. 4. S.

*Prereq: FOR 203*

Application of economic principles to forest resource management considering both market and non-market goods and services. Methods of identifying and specifying problems in the management and use of forest resources. Application of mathematical and statistical models to the solution of managerial problems.

**FOR 452: Ecosystem Management**

(Dual-listed with FOR 552). (Cross-listed with NREM). (2-3) Cr. 3. S.

*Prereq: Junior or Senior classification; (NREM 120 or BIOL 173)*

Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints.

**FOR 454: Forestry Practicum**

(1-4) Cr. 3. S.

*Prereq: Senior classification or Permission of Instructor*

Integrated decision-making related to the conservation, management, and preservation of private and public forests, wildlands, urban/community forests, and/or the production and utilization of wood products. Student teams work with a client and develop management plans that incorporate ecological, social, economic, ethical, and institutional/political factors. Effective teamwork, written/oral/visual communication, and problem-solving stressed. Multiple trips to project site and client.

**FOR 475: Urban Forestry**

(Cross-listed with HORT). (2-3) Cr. 3. F.

*Prereq: Junior or Senior classification; 3 credits in BIOL*

Discussion of establishment and management of woody perennials in community-owned urban greenspaces, consideration of urban site and soil characteristics, plant physiology, plant culture, urban forest valuation, inventory methods, species selection, and urban forest maintenance (health care and pest management).

**Courses primarily for graduate students, open to qualified undergraduates:**

**FOR 542: Dynamics of Forest Stands**

(Dual-listed with FOR 442). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: FOR 302; NREM 301; (STAT 101 or STAT 104)*

Change in forest species composition and structure at the stand and landscape scales resulting from site quality, tree growth, competition, succession, and disturbance. Methods for assessing tree growth and reconstructing past stand development. Applications to forest and savanna management.

**FOR 552: Ecosystem Management**

(Dual-listed with FOR 452). (Cross-listed with NREM). (2-3) Cr. 3. S.

*Prereq: Junior or Senior classification; (NREM 120 or BIOL 173)*

Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints.

**FOR 599: Creative Component**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 599A: Creative Component: Forest Biology**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 599B: Creative Component: Forest Biometry**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 599C: Creative Component: Forest and Recreation Economics**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 599D: Creative Component: Forest Management and Administration**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 599E: Creative Component: Wood Science**

Cr. 1-12. Repeatable, maximum of 12 credits.

**Courses for graduate students:****FOR 696: Research Seminar**

(Cross-listed with AGRON, BBMB, GDCB, HORT, PLBIO). Cr. 1. Repeatable.  
 Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**FOR 699: Research**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699A: Research: Forest Biology - Wood Science**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699B: Research: Forest Biometry**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699C: Research: Forest Economics**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699D: Research: Forest Management and Administration**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699E: Research: Wood Science**

Cr. 1-12. Repeatable, maximum of 12 credits.

**FOR 699F: Research: Plant Physiology**

Cr. 1-12. Repeatable, maximum of 12 credits.

## French (FRNCH)

***Any experimental courses offered by FRNCH can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****FRNCH 101: Elementary French I**

(4-0) Cr. 4. F.SS.

Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

**FRNCH 102: Elementary French II**

(4-0) Cr. 4. S.SS.

*Prereq: FRNCH 101*

Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture.

Meets International Perspectives Requirement.

**FRNCH 201: Intermediate French I**

(4-0) Cr. 4. F.

*Prereq: FRNCH 102*

Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.

Meets International Perspectives Requirement.

**FRNCH 202: Intermediate French II**

(4-0) Cr. 4. S.

*Prereq: FRNCH 201*

Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture.

Meets International Perspectives Requirement.

**FRNCH 203: Intermediate French Grammar and Conversation**

Cr. 4. F.

*Prereq: FRNCH 201*

Practice in oral communication within the context of French language and cultures for professions. Best-suited for students with a solid foundation in basic French grammar. Only one of FRNCH 202 or 203 may count toward graduation.

**FRNCH 301: Language, Culture, Contexts**

(3-0) Cr. 3. F.

*Prereq: FRNCH 202*

Emphasis on developing language proficiency and skills in reading and writing. Selective review of grammar within the context of cultural and literary prose.

Meets International Perspectives Requirement.

**FRNCH 302: Text and Media Analysis**

(3-0) Cr. 3. S.

*Prereq: FRNCH 301*

Readings in French prose, theater and poetry. Introduction to close reading and analysis. Development of reading and writing skills for upper-level courses.

Meets International Perspectives Requirement.

**FRNCH 304: French for Global Professionals**

(3-0) Cr. 3.

*Prereq: FRNCH 202*

Communication in business and professional contexts in French-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Emphasis on working across French-American cultures. Preparation for internships.

Meets International Perspectives Requirement.

**FRNCH 305: French Conversation**

(3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment in FRNCH 301*

Intensive conversational and listening practice emphasizing contemporary France and the Francophone world. Native or near-native speakers are not eligible to enroll.

Meets International Perspectives Requirement.

**FRNCH 310: French Pronunciation**

(1-0) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in FRNCH 202*

Practice and theory of correct pronunciation of sounds in French.

Correlation between sound and spelling in French. Relationship between pronunciation and grammar.

**FRNCH 320: France Today**

(3-0) Cr. 3.

*Prereq: FRNCH 202*

Selected topics dealing with contemporary French society and culture.

Meets International Perspectives Requirement.

**FRNCH 326: French and Francophone Film**

(3-0) Cr. 3. Repeatable.

*Prereq: FRNCH 301*

In-depth study of a selected filmmaker, genre, or movement. Emphasis on analytical interpretation and relationship between film and French or Francophone culture, history, and society. Counts toward World Film Studies Minor.

Meets International Perspectives Requirement.

**FRNCH 340: Cultural Expressions in the French-Speaking World**

(3-0) Cr. 3. Repeatable.

*Prereq: Credit or concurrent enrollment in FRNCH 302*

Cultural approaches to selected topics, genres, movements, or voices in French language, literatures, and media. Emphasis on close reading and discussion.

Meets International Perspectives Requirement.

**FRNCH 370: French Studies in English**

(3-0) Cr. 3-4. Repeatable.

Author, genre, or period study in French or Francophone history, literature, or culture. Three credits: readings, discussions and papers in English; open to all students. Four credits: required for French concentration credit, supplementary readings and written course work in French. For enrollment in fourth credit, 6 credits in FRNCH at 300-level.

Meets International Perspectives Requirement.

**FRNCH 370F: Studies in English Translation: French Topics on Women and Gender Studies**

(Cross-listed with WGS). (3-0) Cr. 3. Repeatable.

Topics vary according to faculty interest. Readings, discussions, and papers in English.

Meets International Perspectives Requirement.

**FRNCH 375: Francophone Studies in English**

Cr. 3-4. Repeatable.

Author, genre, period study, or contemporary topics in Francophone history, literature, politics, or culture. Readings, discussions, and papers in English. Required for French concentration credit (4th credit), supplementary readings and written course work in French. For enrollment in fourth credit, 6 credits in FRNCH at 300-level.

Meets International Perspectives Requirement.

**FRNCH 378: French Cinema**

(2-2) Cr. 3-4. Repeatable.

Analysis and interpretation of film in French society. Topics vary according to faculty interest. Film directors, genres, movements (e.g. The New Wave), historical survey, aesthetics, and cinematography. Three credits: readings, discussions and papers in English; open to all students. Four credits: required for French concentration credit, supplementary readings and written course work in French. Counts toward World Film Studies Minor. For enrollment in fourth credit, 6 credits in FRNCH at 300-level.

Meets International Perspectives Requirement.

**FRNCH 395: Study Abroad**

Cr. 1-10. Repeatable. SS.

*Prereq: 12 credits in FRNCH*

Formal class instruction at level appropriate to the student's training, augmented by practical living experience.

Meets International Perspectives Requirement.

**FRNCH 440: Seminar in French and/or Francophone Studies**

(3-0) Cr. 3. Repeatable.

*Prereq: FRNCH 340*

Seminar in French and/or Francophone literatures, civilizations, or cultural studies. Topics vary according to faculty interest.

Meets International Perspectives Requirement.

**FRNCH 476: French Culture and Society in English**

(3-0) Cr. 3-4. S.

Key moments and themes in French society and culture up to the modern era. Subjects vary according to faculty interest. Readings, discussions, and papers in English.

Meets International Perspectives Requirement.

**FRNCH 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 9 credits.

*Prereq: Permission of Department Chair*

Designed to meet the needs of students who wish to focus on areas other than those in which courses are offered. No more than 9 credits in Frnch 490 may be counted toward graduation.

**FRNCH 499: Internship in French**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: 9 credits in FRNCH at the 300-level; Permission of Advisor;*

*Permission of WLC Internship Coordinator*

Work experience using French language skills in the public or private sector, combined with academic work under faculty supervision. Offered on a satisfactory-fail basis only. No more than 3 credits of Frnch 499 may be applied to the major.

**Courses primarily for graduate students, open to qualified undergraduates:**

**FRNCH 590: Special Topics in French**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level French*

**FRNCH 590A: Special Topics in French: Literature or Literary Criticism**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level French*

**FRNCH 590B: Special Topics in French: Linguistics**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level French*

**FRNCH 590C: Special Topics in French: Language Pedagogy**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level French*

**FRNCH 590D: Special Topics in French: Civilization**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level French*

## Genetics (GEN)

*Any experimental courses offered by GEN can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**GEN 110: Genetics Orientation**

(1-0) Cr. 1. F.

This course is intended for first year students and others new to the genetics major. Discussion of university policies and resources, requirements of the major, career opportunities, and other topics related to the first year experience. Only one of GEN 110 or 112 may count toward graduation.

**GEN 112: Genetics Orientation for Transfer Students**

(0.5-0) Cr. 0.5. S.

Eight-week course for external transfer students and internal change of major students. Discussion of university policies and resources, requirements of the major, and career opportunities. Only one of GEN 110 or 112 may count toward graduation.

**GEN 298: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of department cooperative education coordinator; sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**GEN 313: Principles of Genetics**

(Cross-listed with BIOL). (3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Introduction to the principles of transmission and molecular genetics of plants, animals, and bacteria. Recombination, structure and replication of DNA, gene expression, cloning, quantitative genetics, and population genetics. Students may receive graduation credit for no more than one of the following: Gen 260, Gen 313 and 313L, Gen 320, Biol 313 and 313L, and Agron 320.

**GEN 313L: Genetics Laboratory**

(Cross-listed with BIOL). (0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in BIOL 313*

Laboratory to accompany 313. Students may receive graduation credit for no more than one of the following: Biol 313 and 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

**GEN 320: Genetics, Agriculture and Biotechnology**

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

*Prereq: BIOL 212*

Transmission and molecular genetics with an emphasis on applications in agriculture, the structure and expression of the gene, how genes behave in populations and how recombinant DNA technology can be used to improve agriculture. Credit for graduation will not be allowed for more than one of the following: Gen 260, 313, 320 and Biol 313 and 313L.

**GEN 322: Introduction to Bioinformatics and Computational Biology**

(Cross-listed with BCBIO, BIOL). (3-0) Cr. 3. F.

*Prereq: BIOL 212*

Genome sequencing, assembly, structural and functional annotation, and comparative genomics. Investigating these topics will develop skills in programming and scripting (Perl and/or Python), the use of biological databases, sequence alignment, similarity search, identification of sequence patterns, construction of phylogenetic trees, and comparative genomics.

**GEN 340: Human Genetics**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 313 or GEN 313*

Fundamental concepts and current issues of human genetics. Human chromosome analysis, pedigree analysis, gene mapping, the human genome project, sex determination, genetics of the immune system, genetics of cancer, gene therapy, the genetic basis of human diversity, eugenics.

**GEN 349: The Genome Perspective in Biology**

(Cross-listed with BIOL). (3-2) Cr. 4. S.

*Prereq: GEN 313 or GEN 320*

Analysis of genome, RNA, and protein data using computer technology to answer biological questions on topics ranging from microbial diversity to human health. An introduction for students in the life sciences to the fields of genomics, bioinformatics and systems.

**GEN 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of department cooperative education coordinator; junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**GEN 401: Bioinformatics of Sequences**

(Cross-listed with BCBIO, BIOL, COM S). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: (BCBIO 322; [COM S 127 or COM S 227]; [MATH 160 or MATH 165]; [MATH 166 or STAT 301]; [STAT 101 or STAT 104 or STAT 330]) or Permission of Instructor*

Application of computer science and statistics to molecular biology with a significant problem-solving component, including hands-on programming using Python to solve a variety of biological problems. String algorithms, sequence alignments, homology search, pattern discovery, genotyping, genome assembly, genome annotation, comparative genomics, protein structure.

**GEN 402: Microbial Genetics and Genomics**

(Cross-listed with MICRO). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 313; MICRO 302*

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics.

**GEN 406: Bioinformatics of OMICS**

(Cross-listed with BCBIO, BIOL, COM S). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Introduction to cutting edge OMICS analyses including transcriptome, proteome, metabolome, DNA-protein interactome, protein-protein interactome and methylome. Genomic analysis including transcriptome analysis, cancer genomics, comparative genomics, and regulatory network analysis.

**GEN 409: Molecular Genetics**

(3-0) Cr. 3. F.

*Prereq: BIOL 313 or GEN 313*

Principles of molecular genetics and analysis of gene expression, including elements of the Central Dogma (DNA replication, transcription, and translation) and gene regulation. Utilizing examples from the primary literature to illustrate experimental design, data analysis, and interpretation.

**GEN 410: Analytical Genetics**

(3-0) Cr. 3. S.

*Prereq: BIOL 313 or GEN 313*

The principles and practice of genetic analysis. Mendelian genetic analysis, mutational, transgenic, and genomic analysis of gene function, linkage and gene mapping, chromosomal aberrations, aneuploidy and polyploidy, extrachromosomal inheritance, analysis of genetic pathways.

**GEN 462: Evolutionary Genetics**

(Cross-listed with BIOL). (3-0) Cr. 3. F.

*Prereq: BIOL 315*

The population and quantitative genetic basis of evolutionary processes. The role of genetic variation in natural selection and the influences of random processes on evolutionary change. The determinants of phenotype.

**GEN 490: Independent Study**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: GEN 313; Junior or Senior classification; Permission of Instructor*  
Independent study in any area of genetics. Students may use no more than 9 credits of university-wide 490 credits (including Gen 490) toward the total of 120 credits required for graduation.

**GEN 491: Undergraduate Seminar, Professional Practice in Genetics Disciplines**

(1-0) Cr. 1. F.S.

*Prereq: Junior Classification*

Intended to develop career objectives and obtain positions appropriate to the goals of students, in particular juniors, in preparation for position searches in the senior year. Discussion of various career paths in genetics disciplines; identification of experiences to enhance entry to specific careers; exposure to professional practices not covered elsewhere including literature database management, scientific figure preparation for publication, the peer-review journal system, the federal competitive grants system, laboratory budgets and management, authorship and collaborations, etc.; preparation of effective curricula vitae and application letters; and verbal scientific discourse appropriate to interview interactions and other professional settings.

**GEN 492: Undergraduate Teaching Experience**

Cr. 1-2. Repeatable, maximum of 9 credits. F.S.

*Prereq: BIOL 212; Junior or Senior classification; Permission of Instructor*  
For students registering to be undergraduate laboratory or classroom assistants. Offered on a satisfactory-fail basis only. No more than 2 credits of GEN 492 may be applied toward the Genetics advanced course requirement.

**GEN 495: Special Topics in Genetics**

(1-0) Cr. 1-3. Repeatable, maximum of 3 credits. F.S.

*Prereq: GEN 313; Permission of Instructor*

Content varies from year to year. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

**GEN 496: Attendance and Critique of Genetics Seminars**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.

*Prereq: GEN 313; Junior or Senior classification; Permission of Instructor*  
Attendance and critique of departmental seminars in BBMB, GDCB, or EEOB. Offered on a satisfactory-fail basis only. Genetics students may use no more than 9 credits of university-wide 490 - 499 credits toward the total of 120 credits required for graduation.

**GEN 498: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of department cooperative education coordinator; senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**GEN 499: Genetics Research**

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: GEN 313; Junior or Senior classification; Permission of Instructor*  
Independent research in any area of genetics. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

**GEN 499H: Genetics Research for Honors**

Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: GEN 313; Junior or Senior classification; Permission of Instructor*  
Independent research in any area of genetics; for Honors students only. Genetics students may use no more than 9 credits of university-wide 490-499 credits toward the total of 120 credits required for graduation.

## Genetics (GENET)

*Any experimental courses offered by GENET can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**GENET 539: Ethics and Biological Sciences**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

Introduction to Bioethics through case studies, discussion of contemporary work on central bioethics topics, and discussion of important emerging ethical issues associated with recent research or technological development. Issues covered will vary somewhat from year to year, but will include at least some of the following: ethics and responsible research practice, animal ethics and the use of animals in teaching and research, cloning, human reproductive and stem cell research, regulation of genetically modified crops and foods, plant biotechnology, gene patents. Students will be divided into groups to develop their own case study, to be presented in class at the end of the term. Offered on a satisfactory-fail basis only.

**GENET 590: Special Topics**

Cr. arr. Repeatable. F.S.SS.

Contact individual faculty for special projects or topics. Graded.

**GENET 591: Workshop in Genetics**

(1-0) Cr. 1. Repeatable. F.

*Prereq: Permission of instructor*

Current topics in genetics research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

**Courses for graduate students:****GENET 690: Graduate Student Seminar in Genetics**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor*

Research presentations by students to improve their ability to: orally present scientific work in a clear and meaningful way, critically evaluate oral presentations, and give and receive constructive criticism. Students may enroll in one seminar per school year.

**GENET 691: Faculty Seminar in Genetics**

(1-0) Cr. 1. Repeatable. F.

*Prereq: Permission of instructor*

Faculty research seminars that introduce students to the variety of genetics research projects on campus and provide an opportunity for students to become engaged in the scientific presentation to the point where they can think critically and ask meaningful questions.

**GENET 692: Conceptual Foundations of Genetics**

(1-0) Cr. 1. F.

*Prereq: Permission of instructor*

Landmark papers in the development of genetics concepts. Papers are presented and discussions led by students, guided and mentored by the instructors. Instructors provide a broad overview and history of the development of fundamental concepts in genetics.

**GENET 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with AGRON, BCB, E E, ENGR, M E). (3-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.

*Prereq: Graduate student status and completion of at least one semester of graduate coursework.*

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**GENET 697: Graduate Research Rotation**

Cr. arr. Repeatable. F.S.SS.

Graduate research projects performed under the supervision of selected faculty members in the graduate Genetics major. Offered on a satisfactory-fail basis only.

**GENET 699: Research**

Cr. arr. Repeatable. F.S.SS.

Research.

## Genetics, Development and Cell Biology (GDCB)

***Any experimental courses offered by GDCB can be found at:***

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:****GDCB 510: Transmission Genetics**

(3-0) Cr. 3. F.

*Prereq: GEN 410 or graduate standing*

In-depth investigations of modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, genetic mapping, epigenetic inheritance, human genetic analysis.

**GDCB 511: Advanced Molecular Genetics**

(Cross-listed with MCDB). (3-0) Cr. 3. S.

*Prereq: BIOL 313 and BBMB 405*

Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data.

**GDCB 513: Plant Metabolism**

(Cross-listed with PLBIO). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: BIOL 330, PHYS 131, CHEM 331; one semester of biochemistry recommended*

Photosynthesis, respiration, and other aspects of plant metabolism.

**GDCB 528: Advances in Molecular Cell Biology**

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Courses in general cell biology and biochemistry*

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

**GDCB 533: Advances in Developmental Biology**

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* BIOL 314 or Biol 423

Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

**GDCB 536: Statistical Genetics**

(Cross-listed with STAT). (3-0) Cr. 3.

*Prereq:* STAT 401 or STAT 587; STAT 447 or STAT 588; GEN 320 or BIOL 313

Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

**GDCB 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**GDCB 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**GDCB 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**GDCB 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**GDCB 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**GDCB 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**GDCB 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**GDCB 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, FS HN, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**GDCB 544: Fundamentals of Bioinformatics**

(Cross-listed with BCB, COM S, CPR E). (4-0) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq:* MATH 165 or STAT 401 or equivalent

A practical, hands-on overview of how to apply bioinformatics to biological research. Recommended for biologists desiring to gain computational molecular biology skills. Topics include: sequence analysis, genomics, proteomics, phylogenetic analyses, ontology enrichment, systems biology, data visualization and emergent technologies.

**GDCB 545: Plant Molecular, Cell and Developmental Biology**

(Cross-listed with MCDB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* Biol 313, BIOL 314, BIOL 330 or BBMB 405

Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

**GDCB 556: Cellular, Molecular and Developmental Neuroscience**

(Cross-listed with B M S, NEURO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: BIOL 335 or BIOL 436; physics recommended*

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, and regulatory systems.

**GDCB 557: Rotations in Neuroscience**

(Cross-listed with NEURO). (2-0) Cr. 2. F.S.

Rotation experiences in various neuroscience research methods and techniques related to our current faculty specialties.

**GDCB 568: Statistical Bioinformatics**

(Cross-listed with BCB, COM S, STAT). (3-0) Cr. 3. S.

*Prereq: BCB 567 or (BIOL 315 and one of STAT 430 or STAT 483 or STAT 583), credit or enrollment in GEN 409*

Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models.

**GDCB 569: Structural Bioinformatics**

(Cross-listed with BBMB, BCB, COM S, CPR E). (3-0) Cr. 3. F.

*Prereq: BCB 567, BBMB 316, GEN 409, STAT 430*

Molecular structures including genes and gene products: protein, DNA and RNA structure. Structure determination methods, structural refinement, structure representation, comparison of structures, visualization, and modeling. Molecular and cellular structure from imaging. Analysis and prediction of protein secondary, tertiary, and higher order structure, disorder, protein-protein and protein-nucleic acid interactions, protein localization and function, bridging between molecular and cellular structures. Molecular evolution.

**GDCB 570: Systems Biology**

(Cross-listed with BCB, COM S, CPR E, STAT). (3-0) Cr. 3. S.

*Prereq: BCB 567 or COM S 311, COM S 228, GEN 409, STAT 430 or STAT 483 or STAT 583*

Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput biological data obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, and inference of transcriptional regulatory networks, protein-protein interaction networks, and metabolic networks. Dynamic systems and whole-cell models. Ontology-driven, network based, and probabilistic approaches to information integration.

**GDCB 585: Fundamentals of Predictive Plant Phenomics**

(Cross-listed with BCB, M E). Cr. 4. F.

Principles of engineering, data analysis, and plant sciences and their interplay applied to predictive plant phenomics. Transport phenomena, sensor design, image analysis, graph models, network data analysis, fundamentals of genomics and phenomics. Multidisciplinary laboratory exercises.

**GDCB 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor*

**Courses for graduate students:****GDCB 661: Advanced Topics in Neuroscience**

(Cross-listed with BBMB, KIN, NEURO). (3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years.

*Prereq: NEURO 556 (or comparable course) or permission of instructor*

Students will present three journal articles and two overview lectures on topics in neuroscience that are related but outside of their own research interest.

**GDCB 690: Seminar in GDCB**

Cr. 1. Repeatable.

Research seminars by faculty, invited speakers, and graduate students. Offered on a satisfactory-fail basis only.

**GDCB 696: Research Seminar**

(Cross-listed with AGRON, BBMB, FOR, HORT, PLBIO). Cr. 1. Repeatable.

Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**GDCB 698: Seminar in Molecular, Cellular, and Developmental Biology**

(Cross-listed with BBMB, MCDB, MICRO, V MPM). (2-0) Cr. 1-2.

Repeatable. S.

Student and faculty presentations.

**GDCB 699: Research**

Cr. arr. Repeatable.

Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

## Geology (GEOL)

***Any experimental courses offered by GEOL can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**GEOL 100: How the Earth Works**

(3-0) Cr. 3. F.S.SS.

How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.

**GEOL 100L: How the Earth Works: Laboratory**

(0-2) Cr. 1. F.S.

*Prereq: GEOL 100*

Students will gain understanding of how Earth processes affect their lives and how they affect the Earth, and of the complex nature of the Earth and its processes. They will gain a deep knowledge of the methods used to understand the time scales and rates of Earth processes also through an applied research experience on groundwater and surface water.

**GEOL 101: Environmental Geology: Earth in Crisis**

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.SS.

Exploration of the interactions between humans and the geologic environment, and the consequences of those interactions, on local to global scales. Discussion of water, soil, mineral, and energy resources, pollution, climate change, and natural hazards such as earthquakes, volcanism, mass wasting, and flooding.

**GEOL 102: History of the Earth**

(3-0) Cr. 3. S.

*Prereq: GEOL 100 or GEOL 201*

Tectonic, climate, and biological evolution of the Earth. Interactions between the three are emphasized. Methods used to decipher earth history. Students majoring in geology must also enroll in Geol 102L.

**GEOL 102L: History of the Earth: Laboratory**

(0-2) Cr. 1. S.

*Prereq: GEOL 102*

Introduction to the use of sedimentary rocks and fossils in reconstructing the Earth's history.

**GEOL 103: Age of Dinosaurs**

Cr. 1. F.

Introduction to the diversity of dinosaur species. Discussion of basic evolutionary theory and interpretation of fossil evidence. Overview of Mesozoic Earth history including paleogeographic and paleoclimate reconstructions. Course available via the World Wide Web.

**GEOL 105: Gems and Gemstones**

(2-0) Cr. 1. F.

Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

**GEOL 108: Introduction to Oceanography**

(Cross-listed with ENV S). (3-0) Cr. 3. F.

Introduction to the study of oceans and the processes that helped shape them. A major focus is on how the oceans work, with special attention on geological, chemical, and biological processes. Ocean circulation and its influence on climate. Life of the oceans. Use and misuse of ocean resources. Anthropogenic impacts on the oceanic environment.

**GEOL 111: Geological Disasters**

(Cross-listed with ENV S). (1-0) Cr. 1. F.S.SS.

Introduction to the catastrophic geologic processes with the potential to devastate human populations that continue to expand into regions at greatest risk from geologic hazards. Selected case studies and discussion of plate tectonics, climate, and earth processes explain the driving forces behind natural hazards such as earthquakes, tsunamis, volcanic eruptions, landslides, and floods.

**GEOL 112: Geoscience Orientation**

(Cross-listed with MTEOR). (1-0) Cr. 1. F.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

**GEOL 113: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community**

(Cross-listed with MTEOR). (1-0) Cr. 1. S.

Spring orientation course for students enrolled in the "Earth, Wind and Fire" Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips.

**GEOL 140: Climate and Society**

(Cross-listed with AGRON, ENV S, MTEOR). Cr. 3. F.S.

The climate system of our planet. How nature and our actions alter the existing energy balance leading to climate change. Past climates on our planet. The influence of climate on society and resource availability during the Holocene (~ 11,000 years ago to present) with focus on changes post industrial revolution. Significant climate events that have altered our way of life in the past. Projected changes in future climate and potential impacts on society, environment and resources. Adaption to and mitigation of climate change.

Meets International Perspectives Requirement.

**GEOL 160: Water Resources of the World**

(Cross-listed with AGRON, ENV S, MTEOR). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

**GEOL 201: Geology for Engineers and Environmental Scientists**

(2-2) Cr. 3. F.

Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

**GEOL 290: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Independent study for freshman and sophomore students.

**GEOL 298: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: GEOL 100; GEOL 100L; GEOL 102; GEOL 102L; GEOL 201; Sophomore classification*

Required of all cooperative education students. Students must register for this course prior to commencing the work period.

**GEOL 302: Summer Field Studies**

Cr. 6. SS.

*Prereq: GEOL 102; GEOL 356; GEOL 368*

Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors.

**GEOL 315: Mineralogy and Earth Materials**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in CHEM 163 or CHEM 167 or CHEM 177*

Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations. GEOL 100 or GEOL 101 or GEOL 201 or equivalent recommended.

**GEOL 315L: Laboratory in Mineralogy and Earth Materials**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in CHEM 163 or CHEM 167 or CHEM 177*

Mineral identification methods, especially hand-specimen identification. GEOL 100 or GEOL 101 or GEOL 201 or equivalent recommended.

**GEOL 316: Optical Mineralogy**

(1-2) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in CHEM 163 or CHEM 167 or CHEM 177*

Laboratory problems in mineral-identification methods utilizing optical microscopic techniques. GEOL 100 or GEOL 101 or GEOL 201 or equivalent recommended.

**GEOL 324: Energy and the Environment**

(Cross-listed with ENSCI, ENV S, MTEOR). (3-0) Cr. 3. S.

*Prereq: CHEM 163 or CHEM 167 or CHEM 177*

Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

**GEOL 356: Structural Geology and Tectonics**

(3-3) Cr. 4. S.

*Prereq: (GEOL 100 or GEOL 201); PHYS 131; PHYS 131L*

Principles of stress, strain, and rheology. Brittle and ductile behavior of rocks. Mechanics of formation, description, and classification of fractures, faults, folds, foliation, and lineation. From micro-structures to tectonic processes. Laboratory includes application of learned concepts to real-world scenarios, geometrical techniques to solve structural problems.

**GEOL 357: Geological Mapping and Field Methods**

Cr. 1. F.

*Prereq: (GEOL 100 or GEOL 201); PHYS 131; PHYS 131L*

Generation and interpretation of geological maps via a combination of laboratory and field exercises. Developing skills in 3D thinking, cross-section construction, stereonet analysis, field data collection, and communicating scientific results.

**GEOL 365: Igneous and Metamorphic Petrology**

(2-3) Cr. 3. S.

*Prereq: GEOL 315; GEOL 315L; GEOL 316*

Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features.

**GEOL 368: Sedimentary Geology**

(3-3) Cr. 4. F.

*Prereq: GEOL 102*

Exploration of the interplay between weathering, sedimentation, sea-level change, tectonics, and life through time that creates sedimentary rocks and stratigraphic packages. Understanding of the historical development of sedimentary geology through the development of petrography, paleontology, deep earth sampling, geophysical technologies, and geochemistry. Field and laboratory problem sets illuminate lecture material.

**GEOL 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: GEOL 100; GEOL 100L; GEOL 102; GEOL 102L; GEOL 201; Junior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**GEOL 402: Watershed Hydrology**

(Dual-listed with GEOL 502). (Cross-listed with ENSCI, MTEOR, NREM).

(2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**GEOL 406: Geology Field Course**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: GEOL 100 or GEOL 201*

Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Introduction to field-safety leadership.

**GEOL 409: Field Methods in Hydrogeology**

(Dual-listed with GEOL 509). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: GEOL 402 or ENSCI 402 or GEOL 411 or ENSCI 411 or C E 473*

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

**GEOL 411: Hydrogeology**

(Dual-listed with GEOL 511). (Cross-listed with ENSCI). (3-2) Cr. 4. F.

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

**GEOL 412: Micropaleontology**

(Dual-listed with GEOL 512). (Cross-listed with ENSCI). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: GEOL 102; GEOL 102L*

Evolution, identification and utility of major microfossil groups from the Mesozoic to present. Focus on Cenozoic applications including biostratigraphy, paleoclimate, and paleothermometry using assemblages, stable isotopes, Mg/Ca, and molecular fossils. Laboratory includes processing and analysis of specific microfossils. Major groups covered include foraminifera, calcareous nannofossils, sponge spicules, diatoms, radiolarians, and silicoflagellates.

**GEOL 413: Applied and Environmental Geophysics**

(Dual-listed with GEOL 513). (Cross-listed with C E, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**GEOL 414: Applied Groundwater Flow Modeling**

(Dual-listed with GEOL 514). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* (C E 473 or GEOL 411); MATH 165

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

**GEOL 415: Paleoclimatology**

(Dual-listed with GEOL 515). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

**GEOL 416: Hydrologic Modeling and Analysis**

(Dual-listed with GEOL 516). (Cross-listed with ENSCI, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

**GEOL 419: Aqueous and Environmental Geochemistry**

(Dual-listed with GEOL 519). (Cross-listed with ENSCI). (2-2) Cr. 3. S.

*Prereq:* CHEM 178; CHEM 178L; Junior classification

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

**GEOL 420: Mineral Resources**

(Dual-listed with GEOL 520). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* GEOL 365

Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

**GEOL 426: Stable Isotopes in the Environment**

(Dual-listed with GEOL 526). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

**GEOL 439: Seismic Methods in Geology, Engineering, and Petroleum Exploration**

(Dual-listed with GEOL 539). (Cross-listed with C E). (2-2) Cr. 3. Alt. S., offered even-numbered years.

Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Introductory geology, algebra, and trigonometry recommended.

**GEOL 444: Petroleum Geoscience and Engineering**

(Dual-listed with GEOL 544). (2-2) Cr. 3. Alt. S., offered even-numbered years.

The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.

**GEOL 452: Intro GIS for Geoscientists**

(Dual-listed with GEOL 552). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**GEOL 468: Applied Geostatistics for Geoscientists**

(Dual-listed with GEOL 568). (Cross-listed with ENSCI, MTEOR). Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

**GEOL 474: Glacial and Quaternary Geology**

(Dual-listed with GEOL 574). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* GEOL 100 or GEOL 201

The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

**GEOL 479: Surficial Processes**

(Dual-listed with GEOL 579). (Cross-listed with ENSCI). (2-3) Cr. 3. F.

The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

**GEOL 483: Environmental Biogeochemistry**

(Cross-listed with BIOL, ENSCI). Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* 12 credits in BIOL, CHEM, PHYS

An exploration of biological, physical and geochemical impacts on the structure and function of ecosystems from local to global scales. Emphasis on the cycles of carbon, nitrogen, phosphorus, sulfur, and metals, and how these have been impacted by human activity. Topics may include biological feedbacks to climate change, microbial physiology and redox reactions, plant/soil feedbacks, terrestrial/aquatic linkages, early Earth processes and the origins of life.

**GEOL 487: Microbial Ecology**

(Dual-listed with GEOL 587). (Cross-listed with BIOL, ENSCI, MICRO). (3-0) Cr. 3. F.

*Prereq:* Six credits in biology and 6 credits in chemistry

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**GEOL 488: Raster GIS for Geoscientists**

(Dual-listed with GEOL 588). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**GEOL 489: Survey of Remote Sensing Technologies**

(Dual-listed with GEOL 589). (Cross-listed with E E, ENSCI, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**GEOL 489L: Satellite Remote Sensing Laboratory**

(Dual-listed with GEOL 589L). (Cross-listed with E E, MTEOR, NREM). (0-3) Cr. 1. F.

*Prereq:* 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

**GEOL 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq:* 6 credits in GEOL; Permission of Instructor

Independent study for senior students. No more than 9 credits of Geol 490 may be counted toward graduation.

**GEOL 495: Undergraduate Seminar**

Cr. 1. F.S.

*Prereq:* Junior or Senior classification

Weekly seminar on topics of current research interest. Requires written summaries of three presentations of choice.

**GEOL 498: Cooperative Education**

Cr. R. F.S.SS.

*Prereq:* (GEOL 100 or GEOL 201); GEOL 100L; GEOL 102; GEOL 102L; Permission of Department Cooperative Education Coordinator; Senior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**Courses primarily for graduate students, open to qualified undergraduates:**

**GEOL 502: Watershed Hydrology**

(Dual-listed with GEOL 402). (Cross-listed with ENSCI, MTEOR, NREM).

(2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**GEOL 506: Geology Field Course**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Graduate classification*

Weekly seminar introduces students to a selected geological region or theme that is visited on a required ten-day field excursion. Graduate students are expected to assist in field teaching and safety leadership.

**GEOL 507: Midwestern Geology Field Trip**

Cr. 1. Repeatable, maximum of 4 times. F.

*Prereq: GEOL 365*

On-site inspection of various ore deposits, mining operations, and terrains dominated by igneous or metamorphic rocks. Offered on a satisfactory-fail basis only.

**GEOL 509: Field Methods in Hydrogeology**

(Dual-listed with GEOL 409). (Cross-listed with ENSCI). (0-4) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: GEOL 402 or ENSCI 402 or GEOL 411 or ENSCI 411 or C E 473*

Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, and electronic instrumentation for data collection. Field trips to investigate water resource, water quality, and remediation projects.

**GEOL 511: Hydrogeology**

(Dual-listed with GEOL 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F.

Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

**GEOL 512: Micropaleontology**

(Dual-listed with GEOL 412). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: GEOL 102; GEOL 102L*

Evolution, identification and utility of major microfossil groups from the Mesozoic to present. Focus on Cenozoic applications including biostratigraphy, paleoclimate, and paleothermometry using assemblages, stable isotopes, Mg/Ca, and molecular fossils. Laboratory includes processing and analysis of specific microfossils. Major groups covered include foraminifera, calcareous nannofossils, sponge spicules, diatoms, radiolarians, and silicoflagellates.

**GEOL 513: Applied and Environmental Geophysics**

(Dual-listed with GEOL 413). (Cross-listed with C E, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic - and resistivity-imaging systems and radar. Introductory geology, algebra, and trigonometry recommended.

**GEOL 514: Applied Groundwater Flow Modeling**

(Dual-listed with GEOL 414). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: (C E 473 or GEOL 411); MATH 165*

Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

**GEOL 515: Paleoclimatology**

(Dual-listed with GEOL 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth's orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~1 million years).

**GEOL 519: Aqueous and Environmental Geochemistry**

(Dual-listed with GEOL 419). (Cross-listed with ENSCI). (2-2) Cr. 3. S.

*Prereq: CHEM 178; CHEM 178L; Junior classification*

Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

**GEOL 520: Mineral Resources**

(Dual-listed with GEOL 420). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: GEOL 365*

Geology and geochemistry of non-metallic and metallic ore deposits. Major processes that concentrate metals in the Earth. Geochemical conditions of ore formation using stable-isotope and fluid-inclusion studies. Laboratory emphasizes the study of metallic ores.

**GEOL 526: Stable Isotopes in the Environment**

(Dual-listed with GEOL 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

**GEOL 539: Seismic Methods in Geology, Engineering, and Petroleum Exploration**

(Dual-listed with GEOL 439). (Cross-listed with C E). (2-2) Cr. 3. Alt. S., offered even-numbered years.

Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Introductory geology, algebra, and trigonometry recommended.

**GEOL 544: Petroleum Geoscience and Engineering**

(Dual-listed with GEOL 444). (2-2) Cr. 3. Alt. S., offered even-numbered years.

The geoscience and engineering aspects of exploration, development, and production of hydrocarbon resources around the world, as well as the historical and legal frameworks through which the industry has developed. Broader discussions of safety, risk, uncertainty, cost, and integrity as relevant to the petroleum industry.

**GEOL 552: Intro GIS for Geoscientists**

(Dual-listed with GEOL 452). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**GEOL 555: Environmental Soil Mineralogy**

(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311*

Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

**GEOL 559: Quantitative Methods in Geology**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Math 166, Phys 112, GEOL 356, or by permission of instructor*

Analysis of geologic data on applied and quantitative basis using MATLAB. Introduction to basic programming with special focus to applied geoscience problems such as stress and strain analysis, particle tracking for fracture propagation and strain field visualization, basic tectonic modeling, red noise filtering. Toolkit development for effective handling of large data sets and picture analysis.

**GEOL 568: Applied Geostatistics for Geoscientists**

(Dual-listed with GEOL 468). (Cross-listed with ENSCI, MTEOR). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)*

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

**GEOL 574: Glacial and Quaternary Geology**

(Dual-listed with GEOL 474). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: GEOL 100 or GEOL 201*

The study of glaciers and glacial processes. Discussion of glaciology, glacial sediment transport, glacial landforms, and Quaternary history. Laboratory emphasizes topographic map interpretation and the Quaternary landscapes of Iowa.

**GEOL 579: Surficial Processes**

(Dual-listed with GEOL 479). (Cross-listed with ENSCI). (2-3) Cr. 3. F.  
The study of physical processes that shape Earth's surface. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory includes topographic map interpretation and local field trips.

**GEOL 587: Microbial Ecology**

(Dual-listed with GEOL 487). (Cross-listed with EEOB, ENSCI, MICRO). (3-0) Cr. 3. F.

*Prereq: Six credits in biology and 6 credits in chemistry*

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized.

**GEOL 588: Raster GIS for Geoscientists**

(Dual-listed with GEOL 488). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**GEOL 589: Survey of Remote Sensing Technologies**

(Dual-listed with GEOL 489). (Cross-listed with E E, ENSCI, MTEOR, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**GEOL 589L: Satellite Remote Sensing Laboratory**

(Dual-listed with GEOL 489L). (Cross-listed with E E, MTEOR, NREM). (0-3) Cr. 1. F.

*Prereq: 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589*

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

**GEOL 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590A: Special Topics: Surficial Processes**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590B: Special Topics: Stratigraphy**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590C: Special Topics: Sedimentation**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590D: Special Topics: Paleontology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590E: Special Topics: Petrology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590F: Special Topics: Structural Geology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590G: Special Topics: Geochemistry**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590H: Special Topics: Hydrogeology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590I: Special Topics: Earth Science**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590J: Special Topics: Mineral Resources**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590K: Special Topics: Geophysics**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590L: Special Topics: Mineralogy**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590M: Special Topics: Tectonics**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590N: Special Topics: Paleoecology and Paleoclimatology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 5900: Special Topics: Isotope Geochemistry**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590P: Special Topics: Computational Methods and GIS**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590R: Special Topics: Surface Hydrology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 590S: Special Topics: Oceanography**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**GEOL 595: Graduate Seminar**

(Cross-listed with MTEOR). Cr. 1. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**GEOL 595A: Graduate Seminar: Presentation Required**

(Cross-listed with MTEOR). (1-0) Cr. 1. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**GEOL 595B: Graduate Seminar: Attendance Only**

(Cross-listed with MTEOR). Cr. R. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**GEOL 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**GEOL 610: Advanced Seminar**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610A: Advanced Seminar: Earth Materials**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610B: Advanced Seminar: Economic Geology**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610C: Advanced Seminar: Environmental Geochemistry**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610D: Advanced Seminar: Geophysics**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610E: Advanced Seminar: Geotectonics**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610F: Advanced Seminar: Hydrogeology**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610G: Advanced Seminar: Surficial Processes**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610H: Advanced Seminar: Sedimentation and Stratigraphy**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610I: Advanced Seminar: Paleoecology and Paleoclimatology**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610J: Advanced Seminar: Isotope Geochemistry**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 610K: Advanced Seminar: Computational Methods and GIS**

Cr. 1-3. Repeatable. F.S.

*Prereq: Graduate standing and permission of instructor*

**GEOL 699: Research**

Cr. arr. Repeatable.

**GEOL 699A: Research: Surficial Processes**

Cr. arr. Repeatable.

**GEOL 699B: Research: Stratigraphy**

Cr. arr. Repeatable.

**GEOL 699C: Research: Sedimentation**

Cr. arr. Repeatable.

**GEOL 699D: Research: Paleontology**

Cr. arr. Repeatable.

**GEOL 699E: Research: Petrology**

Cr. arr. Repeatable.

**GEOL 699F: Research: Structural Geology**

Cr. arr. Repeatable.

**GEOL 699G: Research: Geochemistry**

Cr. arr. Repeatable.

**GEOL 699H: Research: Hydrogeology**

Cr. arr. Repeatable.

**GEOL 699I: Research: Earth Science**

Cr. arr. Repeatable.

Cr. arr. Repeatable.

## German (GER)

*Any experimental courses offered by GER can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**GER 101: Elementary German I**

(4-0) Cr. 4. F.SS.

Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning-level learners who have little or no prior exposure to German.

**GER 102: Elementary German II**

(4-0) Cr. 4. S.SS.

*Prereq: GER 101*

Beginning level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. For beginning level learners with only one semester of German (or exposure equivalent to two years or less in high school.).

Meets International Perspectives Requirement.

**GER 201: Intermediate German I**

(4-0) Cr. 4. F.

*Prereq: GER 102*

Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Intensive review of basic grammar covered in the first-year German class (or equivalent high school courses) while exploring cultural topics and themes.

Meets International Perspectives Requirement.

**GER 202: Intermediate German II**

(4-0) Cr. 4. S.

*Prereq: GER 201*

Intermediate level development of reading, writing, listening comprehension, and speaking in German within the context of German culture. Emphasis on intermediate level grammar and communication about topics and themes beyond the personal realm.

Meets International Perspectives Requirement.

**GER 301: Reading**

(3-0) Cr. 3. F.

*Prereq: GER 202*

Emphasis on reading with further development of grammar using a variety of texts.

Meets International Perspectives Requirement.

**GER 302: Composition**

(3-0) Cr. 3. S.

*Prereq: GER 202*

Emphasis on writing skills, with further development of grammar and reading skills using a variety of current and historical materials.

Meets International Perspectives Requirement.

**GER 304: German for Global Professionals**

(3-0) Cr. 3. F.

*Prereq: GER 202*

Communication in business and professional contexts in German-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Preparation for internships.

Meets International Perspectives Requirement.

**GER 305: Conversation**

(3-0) Cr. 3. S.

*Prereq: GER 202*

Intensive conversational and listening practice in German. GER 301 recommended.

Meets International Perspectives Requirement.

**GER 320: Germany Today**

(3-0) Cr. 3. S.

*Prereq: GER 301 or GER 304*

Selected topics dealing with contemporary German society and culture.

Introduction to materials, resources, and forms of communication available on the Internet, and in other electronic and print media.

Meets International Perspectives Requirement.

**GER 330: German Literature and Culture**

(3-0) Cr. 3. Repeatable. F.

*Prereq: GER 301 or Permission of Instructor*

Selected readings in German literature from Classicism to present.

Emphasis on techniques of reading and analysis of literary texts. No more than six credits of Ger 330 may be counted toward the major.

Meets International Perspectives Requirement.

**GER 370: German Studies in English**

(3-0) Cr. 3-4. Repeatable, maximum of 6 credits.

*Prereq: Sophomore classification*

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, 6 credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 370G: Studies in English Translation: German Topics on Women or Feminism**

(Cross-listed with WGS). (3-0) Cr. 3-4. Repeatable, maximum of 6 credits.

*Prereq: Sophomore classification*

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, 6 credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 371: The Holocaust in Text, Image, and Memory**

(3-0) Cr. 3-4.

*Prereq: Sophomore classification*

Examination of such topics as the origins and expressions of Anti-Semitism in central Europe, the political events and structures of the Holocaust, the reality of ghettos and concentration camps, the impact of technological modernization on the Final Solution, and resistance to the Nazis. Materials will include non-fictional texts, literature, art, and music. Three credits: English, open to all students. Four credits: required for German major credit, supplementary readings and compositions in German. Four credits: required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, 6 credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 375: Grimms' Tales**

(3-0) Cr. 3-4.

*Prereq: Sophomore classification*

Emphasis on the Grimm tales: theoretical approaches to the tales from the late 19th and early 20th centuries; perversions of these traditional tales by the National Socialists (Nazis). Readings in contemporary Grimm scholarship. Taught in English. Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, 6 credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 378: German Film and Media Studies**

(3-0) Cr. 3-4. S.

*Prereq: Sophomore classification*

Analysis and interpretation of film or media in German society. Study of media production and reception within multicultural and global contexts. Thematic emphases based on faculty and student interest including: 1) film directors, genres, movements (e.g. New German Cinema), aesthetics, and cinematography or 2) media studies (e.g. television, mass press, popular culture). Three credits: English, open to all students. Four credits: required for German concentration credit, supplementary readings and compositions in German. Counts towards the World Film Studies Minor. For enrollment in fourth credit, 6 credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 395: Study Abroad**

Cr. 1-10.

*Prereq: 12 credits in GER; Department Permission*

Supervised instruction in language and culture of Germany; formal class instruction at level appropriate to student's training, augmented by practical living experience.

Meets International Perspectives Requirement.

**GER 476: Topics in German Cultural Studies**

(3-0) Cr. 3-4. S.

*Prereq: Sophomore classification*

Key topics and themes in German history and culture up to the modern era. Three credits: Taught in English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, six credits in GER at the 300-level.

Meets International Perspectives Requirement.

**GER 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in GER; Permission of Department Chair*

Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Ger 490 may be counted toward graduation.

**GER 499: Internship in German**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: 9 credits in GER at the 300-level; Permission of Advisor; Permission of World Languages and Cultures Internship Coordinator*

Work experience using German language skills in the public or private sector, combined with academic work under faculty supervision.

Available only to majors and minors. Offered on a satisfactory-fail basis only. Ger 499 may be repeated to a maximum of 6 credits. No more than 3 credits of Ger 499 may be applied to the major.

**Courses primarily for graduate students, open to qualified undergraduates:**

**GER 590: Special Topics in German**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level German***GER 590A: Special Topics in German: Literature or Literary Criticism**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level German***GER 590B: Special Topics in German: Linguistics**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level German***GER 590C: Special Topics in German: Language Pedagogy**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level German***GER 590D: Special Topics in German: Civilization**

Cr. 2-4. Repeatable.

*Prereq: Permission of instructor; 6 credits of 400 level German*

## Gerontology (GERON)

***Any experimental courses offered by GERON can be found at:***

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****GERON 234: Adult Development**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: HD FS 102 or PSYCH 230*

Introductory exploration of the health, individual and social factors associated with adult development including younger adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

**GERON 373: Death as a Part of Living**

(Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: HD FS 102*

Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

**GERON 377: Aging and the Family**

(Cross-listed with HD FS). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

Interchanges of older adults and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community support.

**GERON 378: Retirement Planning and Employee Benefits**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits.

**GERON 378H: Retirement Planning and Employee Benefits: Honors**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits. Additional work required to meet Honors requirements.

**GERON 466: Gerontology Prepracticum Seminar**

(1-0) Cr. 1. F.S.SS.

*Prereq: 9 credits in core courses for the gerontology minor and approval of the gerontology undergraduate coordinator*

Prepracticum training for students planning a gerontology practicum. Exploration of possible agencies for the practicum, in-depth study of a selected agency, and development of goals and objectives for the practicum.

**GERON 467: Gerontology Practicum**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: GERON 466, advance reservation*

Supervised field experience related to aging. Offered on a satisfactory-fail basis only.

**GERON 490: Independent Study**

Cr. arr.

*Prereq: Permission of Instructor*

Consult program coordinator for procedure.

**Courses primarily for graduate students, open to qualified undergraduates:**

**GERON 501: Seminar**

Cr. arr. Repeatable. F.S.SS.

**GERON 510: Survey of Gerontology**

Cr. 1-3. Repeatable. S.

Provides an overview of important gerontological issues.

**GERON 521: Biological Principles of Aging**

(Cross-listed with EEOB). (3-0) Cr. 3. SS.

*Prereq: BIOL 211 and BIOL 212*

Basic biological principles of aging. Course modules include an introduction to the aging process, body systems and normal aging, and environment and the biology of aging. In addition, disorders and diseases of aging, prevention and treatment and exercise and aging topics will be covered.

**GERON 522: Long-Term Care**

(3-0) Cr. 3. F.

Administration principles involved in the planning, organizing and directing of long-term care agencies. Includes an in-depth exposure to federal and state standards and regulations governing long-term care.

**GERON 523: Mental Health and Aging**

(3-0) Cr. 3. S.

Introduction to the range of issues involved in aging and mental health. From a systems framework the major emotional and psychiatric problems encountered in old age will be examined including mood, anxiety, adjustment and personality disorders, dementia, cognitive problems, substance abuse, and suicide. Barriers to treatment and cohort and cultural issues will be explored.

**GERON 524: Cognitive Health**

(3-0) Cr. 3. SS.

Cognitive skills form the foundation for functioning in everyday life and these skills take on added importance in older adulthood. This course focuses on selected theoretical approaches and current research related to cognitive aging. We will review normative and non-normative cognitive changes, assessment techniques, and prevention/intervention efforts. Throughout the course we will keep the role of environment and life-span implications in the forefront of our discussion.

**GERON 530: Perspectives in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

**GERON 531: Foundations in Integrative Aging Studies**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

Introduction to foundational concepts in the interdisciplinary field of aging studies, including: core theories of adult development and aging how to be critical consumers of aging research; developing writing and other professional skills; and exploring career options in aging.

**GERON 534: Adult Development**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

**GERON 540: Nutrition and Physical Activity in Aging**

(Cross-listed with DIET). (3-0) Cr. 3. F.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

**GERON 545: Economics, Public Policy, and Aging**

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

**GERON 563: Environments for the Aging**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies or permission of instructor*

Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Meets U.S. Diversity Requirement

**GERON 571: Design for All People**

(Cross-listed with ARCH). (3-0) Cr. 3. S.

*Prereq: Graduate or Senior classification*

Principles and procedures of inclusive design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course.

Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of History, Theory, Culture requirements.

**GERON 577: Aging in the Family Setting**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

**GERON 584: Program Evaluation and Research Methods in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

**GERON 589: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology**

(Cross-listed with FS HN, NEURO, NUTRS, PSYCH). Cr. 2. S.

*Prereq: Graduate standing, or undergraduate with consent of instructor.*

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders.

**GERON 590: Special Topics**

Cr. arr. Repeatable.

Consult program coordinator for procedure.

**GERON 591: Internship**

Cr. 1-9. Repeatable, maximum of 9 credits. F.S.SS.

Supervised experience in an area of gerontology.

**GERON 594: Professional Seminar in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

**GERON 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

**Courses for graduate students:****GERON 630: Theories of Aging**

(3-0) Cr. 3. Alt. SS., offered irregularly.

*Prereq: 6 credits in social sciences or permission of instructor*

Historical, contemporary, and interdisciplinary basis of aging theory. Biological, psychological, sociological, and human developmental conceptualizations of aging will be critically assessed. Emphasis will be placed on conceptual models, as well as theoretical development and application within gerontological research and the field of aging.

**GERON 635: Adult Development, Aging, and Health**

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Review of the impact of the growing older adult population as well as individual development and aging on individuals, families, and society. Exploration of theoretical perspectives applied to adult development and aging and distinction of normative and non-normative changes in adulthood. Discussion of methods to assess development across adulthood and consideration of the role of individual and environmental factors impacting efforts to optimize adult development.

**GERON 699: Research**

Cr. arr. Repeatable. F.S.SS.

## Global Resource Systems (GLOBE)

*Any experimental courses offered by GLOBE can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**GLOBE 110: Orientation**

(1-0) Cr. 1. F.

An introduction to Global Resource Systems (GRS) program. University and career acclimation, development of educational and professional skills, participation in GRS Learning Community. Assessed service-learning component.

**GLOBE 120: Geography of Global Resource Systems**

(3-0) Cr. 3. F.S.

A survey of geographic concepts with a specific focus on the distribution of natural and human-generated resources and the demand for those resources on a global scale.

Meets International Perspectives Requirement.

**GLOBE 201: Introduction to Global Resource Systems**

(3-0) Cr. 3. F.S.

A systematic analysis of natural, physical, and socio-economic resources. Examine ways communities prioritize, save, use, and invest in community resources to address their needs and wants in a sustainable way, and the global implications of resource systems decisions. Assessed service-learning component.

**GLOBE 211: Issues in Global Resource Systems**

(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.

Discussion of topics of current importance in global resource systems. Offered on a satisfactory-fail basis only. A maximum of 4 credits of 211 may be used towards degree requirements.

**GLOBE 220: Globalization and Sustainability**

(Cross-listed with ANTHR, ENV S, M E, MAT E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**GLOBE 221: Apprenticeship**

Cr. R. Repeatable. F.S.SS.

*Prereq: Approval by the Global Resource Systems Faculty Coordinator*

Practical work experience in approved domestic or international settings such as with a company, research laboratory, governmental agency or non-governmental organization. Offered on a satisfactory-fail basis only.

**GLOBE 290: Independent Study**

Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student.

Comprehensive report required. Intended primarily for first-year students and sophomores.

**GLOBE 290H: Independent Study, Honors**

Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student.

Comprehensive report required. Intended primarily for first-year students and sophomores.

**GLOBE 303: Agricultural, Food and Natural Global Resource Systems**

(3-0) Cr. 3. F.

*Prereq: GLOBE 201 and ECON 101 or ECON 102 or permission of instructor.*

In-depth analysis of the opportunities, constraints and consequences of agricultural, food and natural resource systems. Topics integrate global natural resources with agriculture and food systems, nutrition and health, sustainable development, and societal structures, including gender, migration and urbanization. Course content utilizes a systems approach.

**GLOBE 304: Socio-Economic Global Resource Systems**

(3-0) Cr. 3. S.

*Prereq: GLOBE 201 and ECON 101 or ECON 102 or permission of the instructor.*

In-depth analysis of the opportunities, constraints and consequences of social, economic and political global resource systems. Topics integrate agriculture and food production, globalization, population, economic planning, energy, security, trade, and policy and their role in defining different world regions. Course content utilizes a systems approach.

**GLOBE 320: Global Resource Systems Internship Preparation**

(1-0) Cr. 1. F.S.

*Prereq: Permission of Instructor*

Students enrolled in this course intend to enroll in Globe 321 or 322 in the following term. Topics provide a pre-departure orientation, including logistical, academic, cultural, and personal requirements for completion of an experiential supervised work experience.

**GLOBE 321: Internship - Global**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: GLOBE 320, Junior or Senior and enrollment in Global Resource Systems major; permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

A supervised learning experience including an analysis of an international location's resource system via immersion in a foreign culture lasting at least five weeks. The experience should focus on the region and technical area consistent with the student's degree track. Course expenses paid by student. A maximum of 12 credits of GLOBE 321 and 322 may be used for degree requirements.

Meets International Perspectives Requirement.

**GLOBE 322: Internship - United States**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: GLOBE 320, Junior or Senior and enrollment in Global Resource Systems major; permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

A supervised learning experience including an analysis of a domestic location's resource system via immersion in a different culture within the United States lasting at least five weeks. Designed for international students and for students who are not in a position to leave the United States. Course expenses paid by student. A maximum of 12 credits of Globe 321 and 322 may be used for degree requirements.

**GLOBE 330: Global Health Disparities**

(Cross-listed with V MPM). (3-0) Cr. 3. S.

*Prereq: Junior classification*

Historical and contemporary factors contributing to disparities in health outcomes for persons disadvantaged by income, location, ethnicity, sexual orientation, and abilities. Analysis and evaluation of health promotional materials, such as campaigns, and community-based interventions focused on reducing global health disparities.

Meets U.S. Diversity Requirement

**GLOBE 335: The Economics of Global Agricultural Food and Bio-energy**

(Cross-listed with ECON). (3-0) Cr. 3.

*Prereq: ECON 101*

Applied economic analysis of the determinants of world agricultural production, marketing, and use in feed, food, fiber, biofuel, and other applications, and global food processing and consumption. Analysis of market case studies and various data on global agricultural production and transformation, land and resource use, demography, economic activity, nutrition and health trends.

Meets International Perspectives Requirement.

**GLOBE 360: Global Health**

(Cross-listed with MICRO, V MPM). (3-0) Cr. 3. F.

*Prereq: BIOL 211*

Explores human health across the world with particular emphasis on low- and lower-middle-income countries. Attention is given to the interconnectedness of health determinants, problems, and solutions found in global health, including the role of animals and the environment. Broad in scope, highlighting different cultures and the historical foundations of global health. Topics include colonialism, poverty, emerging diseases, climate change, biodiversity, one health, maternal and child health, HIV, malaria, urbanization, noncommunicable diseases and more. Current events will be a feature of all class meetings.

Meets International Perspectives Requirement.

**GLOBE 385: Economic Development**

(Cross-listed with ECON). (3-0) Cr. 3.

*Prereq: ECON 101; ECON 102*

Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid.

Meets International Perspectives Requirement.

**GLOBE 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of faculty coordinator for the major.*

Students must complete GLOBE 398 Cooperative Education Approval Form and register for GLOBE 398 before commencing each work period. Work periods for students in cooperative education related to Global Resource Systems. Offered on a satisfactory-fail basis only.

**GLOBE 401: Senior Project**

Cr. 3. F.S.SS.

*Prereq: Senior classification in Global Resource Systems*

Research project in collaboration with faculty that complements and furthers a student's experiences from Globe 321 and 322 while simultaneously bringing into focus entire four-year experience. Student will write a research report and make either an oral or poster presentation.

**GLOBE 401H: Senior Project, Honors**

Cr. 3. F.S.SS.

*Prereq: Senior classification in Global Resource Systems*

Research project in collaboration with faculty that complements and furthers a student's experiences from Globe 321 and 322 while simultaneously bringing into focus entire four-year experience. Student will write a research report and make either an oral or poster presentation.

**GLOBE 402: Responses to Global Resource System Challenges**

(3-0) Cr. 3. S.

Capstone analysis of critical global resource challenges facing both developed and developing countries. Students will use research skills to investigate specific global resource issues and use communications skills to work as a team to integrate their research, develop an interdisciplinary perspective, and evaluate potential solutions to resource challenges.

**GLOBE 441: International Animal Agriculture**

(Cross-listed with AN S). (3-0) Cr. 3. S.

*Prereq: AN S 223 or AN S 225 or AN S 226 or AN S 229 or AN S 235*

An overview of animal agriculture with emphasis in developing countries. Historical, economic, environmental, and political considerations will be assessed and evaluated. Issues related to gender, resilience and sustainability for different production systems including alternative livestock species, will be investigated. The role of animal source foods in attainment of global food security will be discussed. Meets International Perspectives Requirement.

**GLOBE 480: Engineering Analysis of Biological Systems**

(Cross-listed with A B E, ENSCI). (2-2) Cr. 3. F.

*Prereq: A B E 380 or Permission of Instructor*

Systems-level quantitative analysis of various biological systems, including applications in foods, feeds, biofuels, bioenergy, and other bio-based systems. Introduction to techno-economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance. Students enrolled in ABE 580 will be required to conduct additional learning activities.

**GLOBE 490: Independent Study**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for juniors and seniors. A maximum of 9 credits of all (university-wide) 490 courses may be used for degree requirements.

**GLOBE 490A: Independent Study: General**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for juniors and seniors. A maximum of 9 credits of all (university-wide) 490 courses may be used for degree requirements.

**GLOBE 490E: Independent Study: Entrepreneurship**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for juniors and seniors. A maximum of 9 credits of all (university-wide) 490 courses may be used for degree requirements.

**GLOBE 490H: Independent Study: Honors**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student. Comprehensive report required. Intended primarily for juniors and seniors. A maximum of 9 credits of all (university-wide) 490 courses may be used for degree requirements.

**GLOBE 490Z: Independent Study: Service Learning**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Independent study on topics of special interest to the student.

Comprehensive report required. Intended primarily for juniors and seniors.

Assessed service-learning component. A maximum of 9 credits of all (university-wide) 490 courses may be used for degree requirements.

**GLOBE 493: Workshop in Global Resource Systems**

Cr. 1-3. Repeatable, maximum of 4 times. F.S.SS.

*Prereq: Permission of Instructor*

Workshop experience in selected topics in global resource systems.

Variable format may include lecture, recitation, laboratory, and field.

Offered on a satisfactory-fail basis only.

**GLOBE 494: Service Learning**

Cr. arr. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State

University entity while instilling a professional ethics and accomplishing

student learning goals. Course expenses paid by student. Assessed

service-learning component.

**GLOBE 494A: Service Learning: International**

Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State

University entity while instilling professional ethics and accomplishing

student learning goals. Course expenses paid by student. Assessed

service-learning component.

Meets International Perspectives Requirement.

**GLOBE 494B: Service Learning: Domestic**

Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State

University entity while instilling professional ethics and accomplishing

student learning goals. Course expenses paid by student. Assessed

service-learning component.

**GLOBE 494C: Service Learning: U.S. Diversity Project**

Cr. 3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State

University entity, while instilling professional ethics and accomplishing

student learning goals. Academic work under faculty supervision may

include written reports, presentations, and guided readings. Course

expenses paid by student. Assessed service-learning component.

**GLOBE 495: Global Resource Systems Study Abroad Course Preparation**

Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Global resource systems topics will include the agricultural industries,

climate, crops, culture, economics, food, geography, government,

history, livestock, marketing, natural resources, public policies, soils, and

preparation for travel to locations to be visited. Students enrolled in this

course intend to register for Globe 494A, 496 or 497 the following term.

**GLOBE 496: Global Resource Systems Study Abroad**

Cr. 2-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Extended field trips abroad to study global resource systems. Location

and duration of trips will vary. Pre-trip sessions arranged through Globe

495. Trip expenses paid by student.

Meets International Perspectives Requirement.

**GLOBE 496B: Global Resource Systems Domestic Travel Study**

Cr. 1-4. Repeatable, maximum of 4 times. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Extended domestic field trips to study global resource

systems topics. Location and duration of trips will vary. Pre-trip sessions

arranged. Trip expenses paid by student.

**GLOBE 497: Deans Global Ag and Food Leadership Program**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: 2 credits of GLOBE 495; Permission of Instructor*

An integrated agricultural and food production and policy program that

allows students to assess, analyze and evaluate complex, country-

specific situations and to develop their skills, knowledge and abilities via

team-oriented projects that involve complex issues such as development

of effective foreign food aid and agricultural and food production

systems, drivers of world hunger, sustainable resource management and

efficacy of policy, and the role of the USA and the United Nations and

other development agencies in these systems. International location and

duration of program will vary. Pre-trip sessions arranged through Globe

495. Trip expenses paid by students.

Meets International Perspectives Requirement.

**GLOBE 499: Undergraduate Research**

Cr. arr. F.S.SS.

*Prereq: Permission of the instructor and approval by the Global Resource Systems Faculty Coordinator*

Research projects in collaboration with faculty.

## Graduate Studies (GR ST)

Graduate students may enroll in Graduate Studies (GR ST) courses for professional development or to fulfill certain enrollment requirements.

No major is granted in Graduate Studies.

**Any experimental courses offered by GR ST can be found at:**

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for graduate students, open to qualified undergraduates:****GR ST 536: Preparing Publishable Thesis Chapters**

(Cross-listed with ENGL). Cr. 3. F.S.

Reporting original research results within the norms for writing of a student's discipline. Emphasis on preparing thesis/dissertation chapters that will be both acceptable to the Graduate College and ready for submission to a refereed journal in the student's discipline. Focus on reporting results from student-generated original research, norms for discourse within disciplines, and how thesis chapters differ from journal manuscripts.

**GR ST 540: English for Teaching Purposes**

Cr. 1-3. Repeatable, maximum of 2 times. F.S.

Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 540A: English for Teaching Purposes (Intermediate-Low)**

Cr. 3. Repeatable, maximum of 2 times. F.S.

Emphasis on pronunciation improvement and greater fluency in spoken English. Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 540B: English for Teaching Purposes (Intermediate-Mid)**

Cr. 3. Repeatable, maximum of 2 times. F.S.

Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 540C: English for Teaching Purposes (Intermediate-High)**

Cr. 3. Repeatable, maximum of 2 times. F.S.

For students who have completed GR ST 540A or GR ST 540B but have not reached the passing level on the OECT test. Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 540D: English for Teaching Purposes (Advanced)**

Cr. 3. Repeatable, maximum of 2 times. F.S.

Developing explanations, leading discussions and handling questions in a teaching environment. Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 540E: English for Teaching Purposes (Supervised Independent Study)**

Cr. 1. Repeatable, maximum of 2 times. F.S.

Seminar with individual observation and consultation. Placement based upon OECT test results. Persons whose native language is English cannot take GR ST 540 for credit. No more than one section of GR ST 540 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for GR ST 540 does not apply toward graduation.

**GR ST 565: Responsible Conduct of Research in Science and Engineering (1-0) Cr. 1. F.S.**

*Prereq: Graduate classification*

Ethical and legal issues facing researchers in the sciences and engineering.

**GR ST 566: Communications in Science**

(1-0) Cr. 1. Repeatable, maximum of 8 credits. F.

*Prereq: Graduate classification, instructor permission required*

Focus on enhancing professional communication skills to convey scientific knowledge and discoveries to broader audiences. Emphasis on developing best practices for communicating science to a wide range of specialist and non-specialist audiences including disciplinary researchers, interdisciplinary scholars, industry professionals, governmental bodies, media representatives, and the general public.

**GR ST 567: Time Management and Mentoring**

(0.5-0) Cr. 0.5. Alt. F., offered even-numbered years.

*Prereq: graduate classification*

Balancing life and career; mentoring; lab management.

**GR ST 568: The Interview Process**

(0.5-0) Cr. 0.5. Alt. S., offered odd-numbered years.

*Prereq: graduate classification.*

Applying and interviewing for academia, industry and government.

**GR ST 569: Grant Writing**

(Cross-listed with ENGL). (1-0) Cr. 1. S.

*Prereq: at least two prior years of graduate classification.*

Writing a winning proposal.

**GR ST 570: Teaching Practices**

(0.5-0) Cr. 0.5. Alt. S., offered even-numbered years.

*Prereq: graduate classification.*

Preparation of a teaching portfolio and course materials; lecturing, technology.

**GR ST 585: Preparing Future Faculty Introductory Seminar**

Cr. 2. F.

*Prereq: One year of graduate course work; admission into PFF program via Center for Excellence in Learning and Teaching (CELT)*

Development of job application materials for faculty positions.

Considerations of faculty life issues such as job searches, tenure expectations, position responsibilities, and work-life balance. Visiting speakers from a variety of institutions share their experiences. Written components include presentation reflections and preparation of an application-ready academic job packet.

**GR ST 586: Preparing Future Faculty Intermediate Seminar**

Cr. 3. S.

*Prereq: Admission into PFF program; completion of 585 or permission of instructor*

Development of additional job application materials for faculty positions and a working knowledge of a variety of other faculty skills to successfully navigate the first years on the job: inclusive classroom, ethics, public speaking, career management, and teaching skills from course design to delivery and assessment.

**GR ST 587: Preparing Future Faculty Teaching Practicum**

Cr. 1-3. Repeatable. F.S.

*Prereq: Permission of instructor, GR ST 585, credit for or concurrent enrollment in GR ST 586*

Participants complete a stand-alone teaching experience at Iowa State or another institution of higher education. Written components include journaling, peer observation, reading reflection, and a teaching portfolio suitable for the academic job search process.

**GR ST 588: Preparing Future Faculty Special Topics**

Cr. 1-3. Repeatable. F.S.

*Prereq: Permission of instructor.*

In-depth study of topic providing further academic professional development. Written components include journaling, project management, a project report, and a reading reflection.

**Courses for graduate students:**

**GR ST 680: Doctoral Post Prelim (Continuous) Registration**

Cr. R. Repeatable. F.S.

*Prereq: Permission required from Graduate College*

Reserved for doctoral students on pre-approved leave (medical, military, maternity, family/emergency) who have passed the preliminary exam and have not yet taken the final exam. Offered on a satisfactory-fail basis only.

**GR ST 681: Required Registration**

Cr. 1. Repeatable. F.S.SS.

Eligible for graduate students to meet registration requirement. Offered on a satisfactory-fail basis only.

**GR ST 681A: Required Registration: Doctoral Continuous Registration**

Cr. 1. Repeatable, maximum of 6 times. F.S.

*Prereq: Must have taken and passed preliminary oral exam.*

Course is available for students pursuing doctoral degrees who have passed their preliminary oral examination. Continuous enrollment is required for PhD students during fall and spring semesters between the preliminary oral exam and their final oral examination. Offered on a satisfactory-fail basis only. This course cannot be used toward graduation.

**GR ST 681B: Required Registration: Final Exam Only**

Cr. 1. Repeatable. F.S.SS.

*Prereq: Completed all necessary requirements to take final exam, including submitted Application for Graduation.*

Course is available for students who are ready to have their Final Oral Examination. Enrollment is required for students during the semester of their final oral examination. Late registration of this course requires that the Request for Final Oral Examination has been submitted. Offered on a satisfactory-fail basis only. This course cannot be used toward graduation.

**GR ST 681C: Required Registration: Graduate Assistant Enrollment**

Cr. 1. Repeatable.

*Prereq: Student needs to be appointed to a graduate assistantship.*

Offered on a satisfactory-fail basis only. This course cannot be used toward graduation.

**GR ST 697: Curricular Practical Training**

Cr. R. Repeatable. F.S.SS.

Professional work period.

## Graphic Design (ARTGR)

**Any experimental courses offered by ARTGR can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**ARTGR 270: Graphic Design Studio I**

(0-6) Cr. 3. F.

*Prereq: DSN S 102, DSN S 131; admission to the graphic design program through department review*

Introduction to the fundamental skills required in the graphic design profession.

**ARTGR 271: Graphic Design Studio II**

(0-6) Cr. 3. S.

*Prereq: ARTGR 270*

Reinforces and further explores the fundamental skills, principles, and tools required for effective visual communication.

**ARTGR 272: Digital Photography for Graphic Design**

(0-6) Cr. 3. F.S.

*Prereq: Concurrent enrollment in ARTGR 270 OR ARTGR 271*

This course will address the development of "seeing" as a medium design, expression, and visual communication including compositional dynamics, advanced digital image manipulation, software usage and support, digital camera operations along with scanning and other digital input devices, color management, digital format for presentation and printing with digital ready formats.

**ARTGR 273: Typography I**

(0-6) Cr. 3. F.

*Prereq: Concurrent enrollment in ARTGR 270*

Emphasizes foundational typographic principles from letterform construction to hierarchies of extended text, directed toward typographic vocabulary, and typographic organization. Students will also understand both classical and contemporary typographic forms, as well as having the ability to construct typographic compositions and systems.

**ARTGR 274: Typography II**

(0-6) Cr. 3. S.

*Prereq: Concurrent enrollment in ARTGR 271*

Advances the skills and principles learned in Graphic Design Typography I. Exploration of more complex problems that address typographic hierarchy, context, sequence and typography and image.

**ARTGR 275: Graphic Technology I**

(0-6) Cr. 3.

Basic 2-dimensional computer skills for graphic design.

**ARTGR 276: Graphic Technology II**

(0-6) Cr. 3. S.

Basic 3-dimensional computer skills for graphic design.

**ARTGR 281: Visual Communication and Branding**

(3-0) Cr. 3. F.

Introduction to basic principles of visual communication that contribute to the successful comprehension of intended visual messages; these include promotional messages, such as corporate branding and marketing campaigns, as well as informational messages, such as those used in computer interface design or in the clear presentation of diagrammatic data. Emphasis is placed on sensitivity to the diversity of the intended American or global audience, and to the cross-cultural differences that may affect the ways that visual messages are interpreted. Methods for creating brand experiences are explored as they apply to both small and large enterprises, ranging from personal brand to corporate brand identities.

**ARTGR 370: Graphic Design Studio III**

(0-6) Cr. 3. F.

*Prereq: ARTGR 271, ARTGR 276, and credit or concurrent enrollment in ARTGR 387*

Creation and design of images and symbols for communication. Application and integration of typography with images and symbols.

**ARTGR 371: Graphic Design Studio IV**

(0-6) Cr. 3. S.

*Prereq: ARTGR 370; ARTGR 387*

Development and preparation of design concepts for application to the printing and electronic publishing process. Creative problem-solving skills, introduction to systems design.

**ARTGR 372: Graphic Materials and Processes**

(3-0) Cr. 3.

*Prereq: Junior standing within the graphic design program.*

Introduction to the processes and materials involved in graphic design production. Course covers production ranging from pre-press to digital media.

**ARTGR 377: Graphic Design Internship Seminar**

(1-0) Cr. 1.

*Prereq: Junior standing within the graphic design program.*

Professional preparation for graphic design internship.

**ARTGR 378: Critical Issues in Graphic Design**

(2-0) Cr. 2.

*Prereq: Credit or concurrent enrollment in ARTGR 370*

Lecture, discussion and writing about the critical issues facing the communications field today and in the future.

**ARTGR 383: A Concise History of Graphics and Sports.**

(3-0) Cr. 3. S.

This introduction to basic concepts of branding in design explores the processes of sports, graphics of sports, design criteria of sport objects, consumer trends, and social importance of sports will be discussed. This course takes a historical perspective of sport graphics and objects starting at the first known understanding of what could be considered "Sport," from ancient times to the present. Interpretation of sport graphics and sport objects. Measuring the sports impact and associated graphics with emotions; sounds that date the sport or strengthen our memories of them, photographs of objects and people from different periods, images of industrial, sport, agrarian and city landscapes to remind us of the dominant role played by sport/graphics or that sport object in the country of its origin.

**ARTGR 387: Graphic Design History/Theory/ Criticism I**

(Dual-listed with ARTGR 587). (3-0) Cr. 3. F.

Late nineteenth century to the 1990s. This course will explore the cultural, social, political, industrial, and technological forces that have influenced the practice of graphic design in Britain, Europe, and the United States. Students will study the historical issues and problems facing designers, their clients, and their publics. Meets International Perspectives Requirement.

**ARTGR 388: Graphic Design History/Theory/ Criticism II**

(Dual-listed with ARTGR 588). (3-0) Cr. 3. S.

Critical issues that affect the contemporary practice of graphic design as it relates to the United States. Students will study a variety of issues that include, but are not exclusive to, new media, gender, class, design and the public sphere, design as social action, postmodern design theory, sustainability, and ethical practice.

**ARTGR 391: Graphic Design Field Study**

(0-1) Cr. 1. Repeatable, maximum of 2 credits.

*Prereq: Concurrent enrollment in 300 or 400 level graphic design studio course*

Travel, study, and tours of areas of interest within the graphic design profession such as print production companies, design studios, and museums. Offered on a satisfactory-fail basis only.

**ARTGR 463: 3D Motion Graphics**

(Dual-listed with ARTGR 563). (0-6) Cr. 3. S.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

3D visualization in a Motion Graphics context. Emphasis on design in 3D computer animation as it relates to various electronic media.

**ARTGR 464: Digital Imaging**

(Dual-listed with ARTGR 564). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

Studio in experimental techniques using the digital drawing tablet combined with manual drawing mediums, exploring the digital tablet, scanner, and camera as ways to collect and make images, conceptual and compositional development of digital techniques and software, and connecting digital techniques to visual processes and ideation. Understanding of different ways of working digitally while exploring image-making processes.

**ARTGR 470: Graphic Design Studio V**

(0-6) Cr. 3. F.

*Prereq: ARTGR 371*

Advanced design systems as applied to corporate identity and environmental graphic design. Symbolology as an integrated component of communication systems.

**ARTGR 471: Graphic Design Capstone**

(0-6) Cr. 3. S.

*Prereq: ARTGR 470 or permission of instructor*

Experience design and innovation in a multi-disciplinary design studio. Class will use unique research, design, evaluation, creativity, and innovation methodologies to solve human problems on special topics. Designed solutions will be in the form of products, artifacts, interfaces, information, and human environments.

**ARTGR 472: Photography and Narrative Messaging**

(Dual-listed with ARTGR 572). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

Photography as a tool for creating conceptually-driven images and metaphors. Emphasis is on photography as an evocative storytelling device for a range of audiences and design applications. Compositional and technical aspects are explored to ensure successful interpretation of the photograph's intended message.

**ARTGR 473: Multimedia Design**

(Dual-listed with ARTGR 573). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

The design of visual, aural and textual communication for electronic media.

**ARTGR 474: Exhibition Design**

(Dual-listed with ARTGR 574). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*  
Visual communication applied to exhibition design focusing on educational or interactive museum exhibitions, trade show booth design, and modular unit design for traveling exhibitions. Translation of graphic information to a three-dimensional space.

**ARTGR 475: Advanced Typography**

(Dual-listed with ARTGR 575). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program Graduate: Graduate classification in College of Design*  
Typographic theory exploring traditional and non-traditional forms, both historical and contemporary typographic achievements.

**ARTGR 476: Graphic Design Methodology**

(Dual-listed with ARTGR 576). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program Graduate: Graduate enrollment in College of Design*  
Analysis and application of scientific, systematic, and non-traditional problem-solving and problem-seeking techniques.

**ARTGR 477: Graphic Design Practicum**

(0-6) Cr. 3.

*Prereq: Concurrent enrollment in ARTGR 370, ARTGR 371, or ARTGR 470*  
Graphic design outreach and problem solving. Individual and group projects for non-profit clients selected by the instructor.

**ARTGR 478: Graphic Design Advanced Web Design**

(Dual-listed with ARTGR 578). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*  
The development of advanced and experimental web design.

**ARTGR 479: Wayfinding Design**

(Dual-listed with ARTGR 579). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*  
Study of the navigational challenges of built environments and outdoor spaces, including site analysis, development of navigational plans, and design of wayfinding sign systems. Issues of function, accessibility, legibility, and fabrication are considered.

**ARTGR 480: Graphic Design Internship**

(3-0) Cr. 3. SS.

*Prereq: ARTGR 377, 12 credits in graphic design; permission of instructor, registration in advance of enrollment*  
Graphic design experience in an off-campus professional environment.

**ARTGR 481: Graphic Design Professional Practices**

(3-0) Cr. 3. S.

*Prereq: Credit or concurrent enrollment in ARTGR 470*  
Professional design management: ethics, setting up a new business, client/designer relationships, contractual options, billing practices, and effective operating procedures.

**ARTGR 482: Professional Presentation**

(0-6) Cr. 3.

*Prereq: Junior or senior standing within the graphic design program*  
Exploration and development of job application materials and presentation skills.

**ARTGR 483: Science + Design: Interpretation of Natural Resources in Montana**

(Dual-listed with ARTGR 583). (Cross-listed with NREM). Cr. 3. F.

*Prereq: Enrollment in ARTGR major; ARTGR 271 or BIOL 211; Permission of Instructor.*  
Interdisciplinary service-learning. Design and production of natural resource related interpretive signs for Montana natural areas. Field-work experience followed by on-campus studio.

**ARTGR 484: Selected Studies in Graphic Design**

(Dual-listed with ARTGR 584). Cr. 1-3. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*  
Special issues related to graphic design. Topics vary each time offered. Topics not to be repeated.

**ARTGR 489: Design Ethics.**

(3-0) Cr. 3.

*Prereq: Junior/Senior classification.*  
Historical and contemporary issues in ethics and decision-making related to visual arts, related visual communication, and design disciplines, including education/training, professional practice and research, the social role of design, and the implications and consequences of designed artifacts and systems.

**ARTGR 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*  
Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 490A: Independent Study: Theory, Criticism, and Methodology**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 490B: Independent Study: Two-Dimensional Design**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 490C: Independent Study: Three-Dimensional Design**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 490H: Independent Study: Honors**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 490I: Internship/Cooperative (in-depth experience other than ArtGr 480)**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed related graphic design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTGR 491: Publication Design**

(Dual-listed with ARTGR 591). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

The philosophy, concepts, and structures of publication design.

**ARTGR 492: Graphic Design Systems Thinking**

(Dual-listed with ARTGR 592). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

The philosophy, concepts, and structures of systems thinking in graphic design.

**ARTGR 493: Workshop**

Cr. 1-3. Repeatable.

*Prereq: Evidence of satisfactory experience in area of specialization*

Intensive 2 to 4 week studio exploration. Topics vary each time offered.

**ARTGR 495: Graphic Design Abroad**

(Dual-listed with ARTGR 595). Cr. 3. SS.

*Prereq: Permission of instructor*

International study abroad program with visits to design studios, art museums, and educational facilities.

**ARTGR 496: Graphic Design Semester Abroad**

Cr. R. Repeatable.

*Prereq: Concurrent enrollment in Iowa State University Graphic Design Study Abroad Rome Program or an equivalent approved program; DSN S 301 is a prerequisite for students going to Rome.*

Study and tours of museums, galleries, artist and/or designer studios, and other areas of interest within art and design. Offered on a satisfactory-fail basis only.

**ARTGR 497: Graphic Design Field Study**

(0-1) Cr. 1. Repeatable. F.S.SS.

*Prereq: Acceptance to the undergraduate or graduate programs in graphic design.*

Introduction to places related to graphic design in urban environments such as museums and design studios. Culture and context of design in the urban environment. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ARTGR 510: Graphic Design Theory**

(3-0) Cr. 3. F.

*Prereq: Graduate classification in College of Design or permission of instructor.*

This course will investigate graphic design as a tool to represent and create imageability in the mind of the audience, through relevant readings in graphic design theory and principles of visual organization in various media.

**ARTGR 511: Graphic Design Graduate Studio I**

(0-6) Cr. 3. F.

*Prereq: Graduate classification in College of Design or permission of instructor.*

Introduction to a range of research topics, methods, and ideas that are predicated on learning through the process of creation.

**ARTGR 512: Audience and Perception**

(0-6) Cr. 3. F.

*Prereq: Graduate classification in College of Design or permission of instructor.*

Theory and investigation of systems, structures, principles of visual organization for communication through the experimental application of traditional and non-traditional media. Studio problems will be influenced by social, cultural, environmental, or technological factors.

**ARTGR 520: Design & Cultural Semiotics**

(3-0) Cr. 3. S.

*Prereq: Graduate classification in College of Design or permission of instructor.*

Introduction to semiotics as it relates to art, design and culture. Historical and contemporary vantage points and the importance of designers as makers of meaning. Key concepts of semiotics and the interrelationship between message, meaning, design and culture.

**ARTGR 521: Graphic Design Graduate Studio II**

(0-6) Cr. 3. S.

*Prereq: Enrollment in the Graphic Design Graduate Program or permission of instructor.*

In this advanced graduate graphic design studio led by a variety of faculty, students will be introduced to a range of research topics, methods and ideas that are predicated on learning through the process of creation.

**ARTGR 522: Critical Media**

(0-6) Cr. 3. S.

*Prereq: Enrollment in the Graphic Design Graduate Program or permission of instructor.*

Advanced theory and investigation of critical media and application of principles of visual organization for communication. Through hypothetical design work with critical media tools, studio problems will examine and be informed by social, cultural, environmental, or technological factors.

**ARTGR 530: User Engagement**

(0-6) Cr. 3.

*Prereq: Graduate enrollment in the Graphic Design Program or graduate enrollment in College of Design or permission of instructor*

The exploration and design of interface/interaction with products, systems, and technologies.

**ARTGR 531: Graphic Design Graduate Project Preparation**

(0-1) Cr. 1. F.

*Prereq: Acceptance to graphic design graduate program.*

Exploration, formulation, and structuring of graduate thesis/creative component topics, investigation of design research and creative scholarship. Offered on a satisfactory-fail basis only.

**ARTGR 540: Design for Behavioral Change.**

(0-6) Cr. 3.

*Prereq: Graduate enrollment in the Graphic Design Program or graduate enrollment in College of Design or permission of instructor*

The exploration and design of educational experiences and artifacts as they relate to the social, emotional, and behavioral aspects of society.

**ARTGR 563: 3D Motion Graphics**

(Dual-listed with ARTGR 463). (0-6) Cr. 3. S.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

3D visualization in a Motion Graphics context. Emphasis on design in 3D computer animation as it relates to various electronic media.

**ARTGR 564: Digital Imaging**

(Dual-listed with ARTGR 464). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

Studio in experimental techniques using the digital drawing tablet combined with manual drawing mediums, exploring the digital tablet, scanner, and camera as ways to collect and make images, conceptual and compositional development of digital techniques and software, and connecting digital techniques to visual processes and ideation. Understanding of different ways of working digitally while exploring image-making processes.

**ARTGR 572: Photography and Narrative Messaging**

(Dual-listed with ARTGR 472). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

Photography as a tool for creating conceptually-driven images and metaphors. Emphasis is on photography as an evocative storytelling device for a range of audiences and design applications. Compositional and technical aspects are explored to ensure successful interpretation of the photograph's intended message.

**ARTGR 573: Multimedia Design**

(Dual-listed with ARTGR 473). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

The design of visual, aural and textual communication for electronic media.

**ARTGR 574: Exhibition Design**

(Dual-listed with ARTGR 474). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

Visual communication applied to exhibition design focusing on educational or interactive museum exhibitions, trade show booth design, and modular unit design for traveling exhibitions. Translation of graphic information to a three-dimensional space.

**ARTGR 575: Advanced Typography**

(Dual-listed with ARTGR 475). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program Graduate: Graduate classification in College of Design*

Typographic theory exploring traditional and non-traditional forms, both historical and contemporary typographic achievements.

**ARTGR 576: Graphic Design Methodology**

(Dual-listed with ARTGR 476). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program Graduate: Graduate enrollment in College of Design*

Analysis and application of scientific, systematic, and non-traditional problem-solving and problem-seeking techniques.

**ARTGR 578: Graphic Design Advanced Web Design**

(Dual-listed with ARTGR 478). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

The development of advanced and experimental web design.

**ARTGR 579: Wayfinding Design**

(Dual-listed with ARTGR 479). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design*

Study of the navigational challenges of built environments and outdoor spaces, including site analysis, development of navigational plans, and design of wayfinding sign systems. Issues of function, accessibility, legibility, and fabrication are considered.

**ARTGR 583: Science + Design: Interpretation of Natural Resources in Montana**

(Dual-listed with ARTGR 483). (Cross-listed with NREM). Cr. 3. F.

*Prereq: Enrollment in ARTGR major; ARTGR 271 or BIOL 211; Permission of Instructor.*

Interdisciplinary service-learning. Design and production of natural resource related interpretive signs for Montana natural areas. Field-work experience followed by on-campus studio.

**ARTGR 584: Selected Studies in Graphic Design**

(Dual-listed with ARTGR 484). Cr. 1-3. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

Special issues related to graphic design. Topics vary each time offered. Topics not to be repeated.

**ARTGR 587: Graphic Design History/Theory/ Criticism I**

(Dual-listed with ARTGR 387). (3-0) Cr. 3. F.

Late nineteenth century to the 1990s. This course will explore the cultural, social, political, industrial, and technological forces that have influenced the practice of graphic design in Britain, Europe, and the United States. Students will study the historical issues and problems facing designers, their clients, and their publics.

Meets International Perspectives Requirement.

**ARTGR 588: Graphic Design History/Theory/ Criticism II**

(Dual-listed with ARTGR 388). (3-0) Cr. 3. S.

Critical issues that affect the contemporary practice of graphic design as it relates to the United States. Students will study a variety of issues that include, but are not exclusive to, new media, gender, class, design and the public sphere, design as social action, postmodern design theory, sustainability, and ethical practice.

**ARTGR 589: Design and Ethics**

(Cross-listed with HCI). (3-0) Cr. 3. F.S.

*Prereq: Graduate classification or permission of instructor.*

Issues in ethics and decision-making as they relate to technology, design, design research, HCI, and the design industry.

**ARTGR 590: Special Topics**

Cr. arr.

*Prereq: Bachelor's degree in graphic design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTGR 590A: Special Topics: Theory, Criticism, and Methodology**

Cr. arr.

*Prereq: Bachelor's degree in graphic design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTGR 590B: Special Topics: Two-Dimensional Design**

Cr. arr.

*Prereq: Bachelor's degree in graphic design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTGR 590C: Special Topics: Three-Dimensional Design**

Cr. arr.

*Prereq: Bachelor's degree in graphic design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTGR 591: Publication Design**

(Dual-listed with ARTGR 491). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

The philosophy, concepts, and structures of publication design.

**ARTGR 592: Graphic Design Systems Thinking**

(Dual-listed with ARTGR 492). (0-6) Cr. 3.

*Prereq: Undergraduate: Junior or senior standing in the graphic design program. Graduate: Graduate enrollment in College of Design.*

The philosophy, concepts, and structures of systems thinking in graphic design.

**ARTGR 593: Workshop**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification; evidence of satisfactory experience in area of specialization*

Intensive 2 to 4 week studio exploration. Topics vary each time offered.

**ARTGR 595: Graphic Design Abroad**

(Dual-listed with ARTGR 495). Cr. 3. SS.

*Prereq: Permission of instructor*

International study abroad program with visits to design studios, art museums, and educational facilities.

**ARTGR 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**ARTGR 610: Thesis Preparation Studio**

(0-6) Cr. 3. S.

*Prereq: ARTGR 531, Graduate enrollment in the College of Design.*

Initial development and exploration of graduate thesis topic, investigation of design research and creative scholarship. Determine Faculty Committee and Program of Study and file forms with Graduate College.

**ARTGR 620: Graduate Thesis Studio I**

(0-6) Cr. 3. F.

*Prereq: ArtGr 610.*

Advanced creative scholarship in specialized area of focus within graphic design. Culminates in a development plan, preliminary design work, and supporting documentation.

**ARTGR 630: Graduate Thesis Studio II**

(0-6) Cr. 3. S.

*Prereq: ArtGr 620*

Advanced research component in specialized area of focus within graphic design. Advances a development plan, preliminary design work, and supporting documentation.

**ARTGR 690: Advanced Topics**

Cr. arr. Repeatable.

**ARTGR 699: Research-Thesis**

Cr. arr. Repeatable.

## Health Studies (H S)

***Any experimental courses offered by H S can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**H S 105: First Aid and Emergency Care**

(1-2) Cr. 2. F.S.SS.

Discussion and application of the basic techniques of utilizing bloodborne pathogen safety measures, administering first aid and cardiopulmonary resuscitation. ARC layperson certification available.

**H S 110: Personal and Consumer Health**

(3-0) Cr. 3. F.S.

Physical, mental, emotional and social aspects of health as a basis for understanding and promoting health, and preventing poor health conditions. Study of personal responsibility on the long-term benefits of maintaining a high level of wellness and health. Identification and mitigation of negative lifestyle habits.

**H S 275: Health Education in the Elementary School**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 102 or HD FS 226*

The application of instructional strategies related to health education and physical education for teachers at the elementary level. Credit for both H S 275 and 375 may not be applied toward graduation.

**H S 285: Pre-Internship in Kinesiology and Health**

(Cross-listed with KIN). Cr. 1-2. F.S.

*Prereq: Kinesiology and Health major; credit or concurrent enrollment in KIN 258; Permission of Internship Coordinator*

Pre-internship experience with a health organization based on option.

Offered on a satisfactory-fail basis only.

**H S 290: Independent Study**

Cr. 1. Repeatable, maximum of 3 credits. F.S.

*Prereq: 2nd semester Freshmen or Sophomore classification; Permission of Instructor*

Study under supervision of faculty.

**H S 305: Instructor's First Aid and Cardiopulmonary Resuscitation**

(1-2) Cr. 2. F.S.

*Prereq: H S 105*

Discussion and practice of skills needed to teach CPR, AED, and first aid content related to the American Red Cross curriculum. Instructor candidates must possess valid certification for adult and pediatric CPR/AED/First Aid at beginning of course.

**H S 310: Community and Public Health**

(3-0) Cr. 3. F.S.

*Prereq: H S 110*

Introduction to community health problems, programs of prevention, environmental health agencies, and health services. Study of local, state, and national community health agencies, their purposes and functions.

**H S 350: Human Diseases**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 255; BIOL 256; H S 110*

Discussion of disease process and ill-health in the twentieth century. Emphasis on epidemiology, prevention, treatment, and the understanding of the etiology of communicable and noncommunicable diseases.

**H S 375: Teaching-Learning Process in Health Education**

(3-0) Cr. 3. F.

*Prereq: H S 105; H S 110*

Principles, methods, materials, and resources involved in the teaching of health. Includes organization and development of the health education curriculum (K-12). Credit for both H S 275 and 375 may not be applied toward graduation.

**H S 380: Worksite Health Promotion**

(3-0) Cr. 3. F.S.

*Prereq: KIN 258*

The design and implementation of worksite health promotion programs and the benefits these programs have for both employees and employers. Review of various health risk appraisals and planning theory-based incentive programs designed to promote positive lifestyles.

**H S 385: Preparation and Search Strategies for Kinesiology and Health Internships**

(Cross-listed with KIN). Cr. 0.5. F.S.

*Prereq: Junior classification*

Preparation of relevant material for a successful internship/career search. Specific internship timeline, process, procedures will be reviewed. Course needs to be taken a minimum of two semesters prior to required internship.

**H S 417: Supervised Teaching in Health Education in the Secondary School**

Cr. 16. F.S.

*Prereq: H S 375*

Advance registration required.

**H S 417A: Supervised Teaching in Health Education in the Secondary School: Initial Endorsement**

Cr. 16. F.S.

*Prereq: H S 375*

Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering.

**H S 417B: Supervised Teaching in Health Education in the Secondary School: Additional Endorsement**

Cr. arr. F.S.

*Prereq: H S 375*

Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering.

**H S 430: Community Health Program Development**

(3-0) Cr. 3. F.

Techniques of needs assessment, program design, administration, and evaluation of community health education programs in various settings.

**H S 464: Physical Activity Epidemiology**

(Dual-listed with H S 564). (3-0) Cr. 3. F.S.

*Prereq: (H S 350 or KIN 358); (STAT 101 or STAT 104 or STAT 226)*

Understanding health benefits of physical activity on chronic disease prevention and health promotion throughout the life span, from clinical and public health perspectives. Discussion and application of real-life physical activity assessment, research, guidelines, and promotion in population levels.

**H S 485: Internship in Health Studies**

Cr. 8-12.

*Prereq: Senior classification; Permission of Internship Coordinator*

Advance registration required. Supervised experience in health related agencies. Offered on a satisfactory-fail basis only.

**H S 485A: Internship in Health Studies: Community and Public Health**

Cr. 8-12. F.S.SS.

*Prereq: KIN major; C- or better in (KIN 358; KIN 359; KIN 366; H S 310; H S 350; H S 430); Cumulative GPA 2.0; Permission of Internship Coordinator*  
Observation and practice in selected community and public health agencies. Offered on a satisfactory-fail basis only.

**H S 485B: Internship in Health Studies: Physical Activity and Health Promotion**

Cr. 8-12. F.S.SS.

*Prereq: KIN major; C- or better in (KIN 358; KIN 359; KIN 366; KIN 458; KIN 467; H S 350); Cumulative GPA 2.0; Permission of Internship Coordinator*  
Observation and practice in selected physical activity and health promotion agencies. Offered on a satisfactory-fail basis only.

**H S 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

**Courses primarily for graduate students, open to qualified undergraduates:**

**H S 564: Physical Activity Epidemiology**

(Dual-listed with H S 464). (3-0) Cr. 3. F.S.

*Prereq: (H S 350 or KIN 358); (STAT 101 or STAT 104 or STAT 226)*

Understanding health benefits of physical activity on chronic disease prevention and health promotion throughout the life span, from clinical and public health perspectives. Discussion and application of real-life physical activity assessment, research, guidelines, and promotion in population levels.

## Healthcare Management (HCM)

*Any experimental courses offered by HCM can be found*

*at:* [registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**HCM 301: Introduction to the US Healthcare Industry**

Cr. 3. F.S.SS.

*Prereq: Sophomore classification; ENGL 150*

Introduces and provides an overview of the US healthcare delivery system for healthcare managers. Includes the theoretical basis for the system, its history and development, the resources that comprise it, as well as its overall planning, organization, management, evaluation, quality, professions, and its major health policy issues. Examines how healthcare policy is developed at the federal and state levels, considers the influence of all constituencies in policy formation, and compares existing policy and policy formation in other countries to the U.S. Explores how the healthcare policy environment affects the work of healthcare managers.

**HCM 302: Economics for Healthcare Managers**

Cr. 3. F.S.

*Prereq: ECON 101; ECON 102*

Explores the economic influences and underpinnings of the healthcare delivery system. Examines the importance of economics in healthcare decisions, both demand and supply-side factors, and how third-party payers and public policy influence consumption and production of healthcare. Introduces evaluation of clinical outcomes using cost-effectiveness and other decision-analysis tools, as well as topics such as asymmetry of information, comparative healthcare systems, and healthcare policy.

**HCM 303: Healthcare Quality Management**

(Cross-listed with SCM). Cr. 3. F.S.

*Prereq: SCM 301; credit or concurrent enrollment in HCM 301*

Addresses the manager's role in improving healthcare quality and outcomes, including clinical and organizational improvement, and quality improvement practices. Explores how healthcare delivery systems can better measure outcomes from both patient and organizational perspectives. Analyzes quality improvement programs and examines their adaptability to the healthcare environment.

**HCM 401: Financial Management for Healthcare Organizations**

(Cross-listed with ACCT). Cr. 3. F.S.

*Prereq: FIN 301; credit or concurrent enrollment in HCM 301*

Examination of the current accounting system for, and the financing of, health care and the factors affecting the industry. Exploration and analysis of budgetary concepts, financial management, cost accounting, and management under rate control and competition, as well as the differences between the goods and service industries. Additional areas of discussion include the practical application of health care finance theory as it applies to the current healthcare environment. The revenue and expense applications will be explored in-depth, particularly in relation to the delivery of health care services. Specific emphasis will be placed on understanding the components of the income statement and balance sheet, developing a budget, and using these financial statements for analyzing operational changes.

**HCM 402: Law and Regulatory Environment in Healthcare**

Cr. 3.

*Prereq: ACCT 215; PHIL 230; credit or concurrent enrollment in HCM 301*

An in-depth look at the legal and regulatory environment of healthcare management and practice. Explores aspects of employer-employee relations in the health care setting and legal ramifications of patient treatment and medical records. Discusses the importance of healthcare managers being familiar with the laws and regulations of healthcare. Included may be considerations of governmental, accreditation, and professional associations' oversight.

**HCM 403: Healthcare Information Systems**

(Cross-listed with MIS). Cr. 3.

*Prereq: MIS 301; credit or concurrent enrollment in HCM 301*

Explores the critical role information technologies and systems play in healthcare organizations. The focus is on evaluating and implementing software and IT systems that facilitate delivery of health care; understanding information technology governance, data privacy, and security; planning and project management; and tracking future developments of information technology in healthcare management. Introduction to Electronic Health Records (EHR) and other Management and Financial Information System applications used by healthcare organizations.

## Higher Education (HG ED)

*Any experimental courses offered by HG ED can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**HG ED 504: History of Higher Education in the United States**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Survey course in the history of higher education in the United States, from the colonial era to the present. Emphasis is placed on enduring debates about the purpose(s) of higher education and issues of equity and access along lines of race, class, and gender. Readings include primary and secondary materials.

**HG ED 538: Foundations of Engineering Education**

(Cross-listed with AER E, ENGR). Cr. 3. F.

*Prereq: Engineering graduate students or instructor permission required*

Introduction to the field of engineering education, with an emphasis on engineering education history, existing challenges, teaching and learning pedagogies and theories, research opportunities, and research methodologies. The course goal is to develop students as scholars and to have students think critically about engineering and education. Students will apply the knowledge gained from this course to propose a research project related to their own discipline. The proposal is intended to help students learn and apply the key elements of engineering education research. This course is intended for students with a variety of interests and career goals, including those interested in learning to conduct engineering education research, exploring research discoveries about teaching and learning, and engaging with the engineering education community.

**HG ED 544: Foundations of Leadership & Learning**

(3-0) Cr. 3.

*Prereq: graduate student classification*

Introduction to leading and learning in higher education. Course will include concepts, competencies, and skills necessary for leading higher education organizations, the various roles leaders may fill within the higher education sector, using assessment for improvement as a leader in higher education.

**HG ED 552: Introduction to Higher Education in the United States**

(3-0) Cr. 3.

*Prereq: Graduate student classification*

Overview of higher education in the United States, including a brief history, the functions, organization, external influences, funding, and the major issues impacting postsecondary institutions today.

**HG ED 561: College Teaching**

(3-0) Cr. 3.

*Prereq: 6 graduate credits*

Educational theories, methods and strategies for the improvement of college instruction. Assist potential college instructors in developing knowledge of protocol, assessment, and the scholarship and art of teaching. Emphasis on the unique challenge of college teaching in a changing student population environment.

**HG ED 562: Curriculum Development in Colleges**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Modes of curriculum design, development, and change in colleges. Development of curricular leadership and evaluation strategies.

**HG ED 568: Global Education Policy Analysis**

(3-0) Cr. 3.

*Prereq: HG ED 504*

Assessment of global education policy issues in education. Analysis of policies, implementation strategies, and policy outcomes.

**HG ED 570: Current Topics in Student Affairs**

Cr. 1-3.

*Prereq: Graduate classification*

Current issues and new directions in student affairs practice. Topics developed to the specific needs of student affairs professionals. Primarily for off-campus.

**HG ED 572: Resource Management in Higher Education**

(3-0) Cr. 3. F.

An examination of resource management in higher education. Planning, allocation, and administration of financial, human, and physical resources in colleges and universities.

**HG ED 573: Equity, Diversity, and Inclusion in Student Affairs**

(3-0) Cr. 3.

*Prereq: Graduate Standing*

Explores theories of equity, diversity, and inclusion to build knowledge and skills related to social justice in student affairs practice.

**HG ED 574: Student Affairs Practice in Higher Education**

(3-0) Cr. 3.

*Prereq: Graduate classification, admission to Higher Education Program*

Introduction to the profession of Student Affairs in higher education. As a survey course, readings, learning artifacts, and class discussions will be used to uncover a breadth of topics related to the student affairs profession. Course content is organized around, but will not be limited to, the history, philosophical underpinnings, values, ethics, and standards espoused, as well as the concepts of learning and community development.

**HG ED 575: Organization and Administration of Student Affairs**

(3-0) Cr. 3.

*Prereq: Admission to Higher Education Program, HG ED 574*

Topics related to organization and administration of student affairs in higher education. The course surveys organizational and administrative aspects of student affairs within the broader context of post-secondary education with particular attention paid to organizational development, budget and finance, and law and policy.

**HG ED 576: Student Development in Higher Education**

(3-0) Cr. 3.

*Prereq: Graduate Standing*

Theories of student and adult development and their applications in student affairs programs, services, and activities are reviewed. Emphasis is placed on theories exploring psychosocial, cognitive, moral, and social identity development as well as on integrated theories of development.

**HG ED 577: Campus Environments and Cultures**

(3-0) Cr. 3.

*Prereq: Admission to Higher Education Program*

Study of the impact of the college environment on students and use of environmental theory to create positive learning situations for students.

**HG ED 578: Students in U.S. Higher Education**

(3-0) Cr. 3.

*Prereq: Admission to Higher Education Program*

The relationship between college students and characteristics from 1950 to the present. Traditional assumptions about the impact of higher education on students will be reviewed and challenged. Campus issues and concerns relative to commuters and residential life. Participants will analyze institutional responses to students through college missions, organizational development, structure, core curriculum and retention.

**HG ED 579: Advising and Supporting**

(3-0) Cr. 3.

*Prereq: HG ED 574, HG ED 576*

Development of effective, basic counseling skills. Understanding of group dynamics. Ability to work effectively in groups.

**HG ED 580: Current Topics in Community Colleges**

(3-0) Cr. 3.

*Prereq: HG ED 582*

Current issues and new directions in community college practice, policy, and research.

**HG ED 581: Community College Partnerships**

(3-0) Cr. 3. S.

Overview of the community environment in which community colleges serve and the external groups with whom they partner, including environmental scanning, partner development, strategic planning, and maintaining relationships.

**HG ED 582: The Comprehensive Community College**

(3-0) Cr. 3.

*Prereq: Graduate classification*

The community college as a unique social and educational institution: its history, philosophy, functions, programs, faculty and student characteristics, organization and finance, trends, and issues. Reviews current research and exemplary community college practices internationally, nationally, and in Iowa.

**HG ED 590: Special Topics**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590A: Special Topics: Student Services**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590B: Special Topics: Community Colleges**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590C: Special Topics: Current Issues**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590D: Special Topics: International Higher Education**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590E: Special Topics: Federal and State Affairs**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590F: Special Topics: Law in Higher Education**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 590G: Special Topics: Institutional Research**

Cr. 1-4.

*Prereq: 9 credits in education*

Independent study on specific topics arranged with an instructor.

**HG ED 591: Supervised Field Experience**

Cr. 1-4. Repeatable.

*Prereq: 9 credits graduate work*

Supervised on-the-job field experience.

**HG ED 593: Workshops**

Cr. 1-5. Repeatable.

*Prereq: 15 credits in education*

**HG ED 598: Capstone Seminar**

(3-0) Cr. 3.

The primary goal of this course is for advanced students to demonstrate their preparedness to progress in the field of Student Affairs as educators who are able to apply concepts and formal (and informal) theories addressed in previous course and fieldwork to their professional student affairs thinking and practices.

**HG ED 599: Creative Component**

Cr. arr.

*Prereq: 9 credits in education*

**Courses for graduate students:****HG ED 615: Seminars in Higher Education**

Cr. 1-4.

**HG ED 615A: Seminars in Higher Education: Student Services**

Cr. 1-4.

**HG ED 615B: Seminars in Higher Education: Community Colleges**

Cr. 1-4.

**HG ED 615C: Seminars in Higher Education: Current Issues**

Cr. 1-4.

**HG ED 615D: Seminars in Higher Education: International Higher Education**

Cr. 1-4.

**HG ED 615E: Seminars in Higher Education: Federal and State Affairs**

Cr. 1-4.

**HG ED 615F: Seminars in Higher Education: Law in Higher Education**

Cr. 1-4.

**HG ED 615G: Seminars in Higher Education: Institutional Research**

Cr. 1-4.

**HG ED 615H: Seminars in Higher Education: Research Designs in Higher Education**

Cr. 1-4.

**HG ED 663: Community College Students**

(3-0) Cr. 3.

*Prereq: Graduate student classification*

Comprehensive understanding of students in American community colleges while enhancing research skills and a scholar-practitioner approach to working with students. Examine the curricula in place that serve a diverse student population with different educational objectives. Examine student types found in comprehensive community colleges including transfer, career & technical, adult basic education, and English language learners.

**HG ED 664: College Organization and Administration**

(3-0) Cr. 3.

Examination of administrative organization and behavior using theories and lenses to understand topics such as: communications, leadership, resource allocation, strategic planning, and institutional governance.

**HG ED 665: Financing Higher Education**

(3-0) Cr. 3.

Lectures, discussions, and individual investigation relating to financial administration in colleges and universities. Budgeting, auxiliary enterprises, administration of financial planning, fund raising, examination of theories on expenditures. Designed for persons aspiring to serve as college administrators.

**HG ED 666: Academic Issues and Cultures**

(3-0) Cr. 3.

Examination of institutional culture and issues in higher education focusing on the roles and responsibilities of faculty and academic administrators.

**HG ED 667: Leadership & Change in Community Colleges**

(3-0) Cr. 3. SS.

*Prereq: Admission to Ed.D. emphasis in Community College Leadership*

An examination of advanced community college leadership practice. Team-based leadership, leadership strategies, planning, and change.

**HG ED 668: Workforce, Economic & Community Development in Community Colleges**

(3-0) Cr. 3. S.

*Prereq: Admission to the Ed.D. in Education program*

This course provides an overview of how community colleges influence workforce, economic, and community development through their education missions.

**HG ED 673: Diversity and Inclusion in Higher Education**

(3-0) Cr. 3.

*Prereq: Graduate student classification*

Critical understanding of issues of diversity and inclusion in higher education. There are multiple dimensions to diversity and inclusion, far too complicated to cover in one course. Therefore, the goal of this seminar is to provide a general understanding of theory, research, and practices related to diversity and inclusion issues. Considers intersectional perspectives of diversity and inclusion within higher education.

**HG ED 676: Student Development Theory II**

(3-0) Cr. 3.

*Prereq: HG ED 576*

An examination of social identity theories including those exploring race, ethnicity, gender, class, ability, sexuality, and spirituality. An exploration of how social identity is influenced by the dynamics of power and oppression in education and society and how to enhance the college experiences of students from diverse backgrounds.

**HG ED 690: Advanced Special Topics**

Cr. 1-4. Repeatable.

*Prereq: 9 credits in education***HG ED 699: Research**

Cr. arr. Repeatable.

*Prereq: 9 credits in education*

## History (HIST)

***Any experimental courses offered by HIST can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****HIST 195: Introduction to History**

(1-0) Cr. 1.

Introduction to the discipline of history and how historians think and work. Focus on research methodologies, writing and analytical practices of historians, and specialization in the discipline.

**HIST 201: Introduction to Western Civilization I**

(3-0) Cr. 3. F.

Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity. Meets International Perspectives Requirement.

**HIST 202: Introduction to Western Civilization II**

(3-0) Cr. 3. S.

Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.

Meets International Perspectives Requirement.

**HIST 207: Chinese Civilization**

(3-0) Cr. 3.

Origins, development, decline and transformation of China from earliest times to 1911.

Meets International Perspectives Requirement.

**HIST 211: Ancient Empires: From Sargon to Caesar**

Cr. 3. F.S.

Development of empires in the Near East and Mediterranean from the Akkadians to the fall of Rome. Discussion of the Hittites, Assyrians, Persians, Athenians, Macedonians (including the conquests of Alexander the Great), Carthaginians, and Romans; examination of imperialism as well as the social, cultural, and economic consequences of empire.

Meets International Perspectives Requirement.

**HIST 212: Medieval Kingdoms**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

**HIST 221: Survey of United States History I**

(3-0) Cr. 3. F.

Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

**HIST 222: Survey of United States History II**

(3-0) Cr. 3. S.

Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial society.

**HIST 255: Introduction to World History, 1500-Present**

(3-0) Cr. 3.

*Prereq: None*

Social and cultural developments; economic and political ideas and institutions; colonization of the Americas; biological exchanges; industrialization; political revolutions; European colonialism; emergence of the Global South; Cold War; decolonization; fossil fuels and energy; global environmental change.

Meets International Perspectives Requirement.

**HIST 271: The History of Sports in the United States**

Cr. 3. S.

Professionalization of sports from their origins as invented recreational activities to their present status as fiscally privileged, legally protected cultural icons. Covering the period from the 17th to the end of the 20th century.

**HIST 280: Introduction to History of Science I**

(3-0) Cr. 3.

Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.

Meets International Perspectives Requirement.

**HIST 281: Introduction to History of Science II**

(3-0) Cr. 3.

Science from seventeenth-century scientific revolution to Darwin and Einstein.

Meets International Perspectives Requirement.

**HIST 284: Wonders of the World, Global History of Innovation**

(3-0) Cr. 3. F.

Innovation across cultures from the ancient "Seven Wonders of the World" to the modern world, with developments in Egypt, Greece, Rome, the Islamic World, India, China, Europe, and the Americas.

Topics include major inventions, agricultural technologies, architecture, manufacturing, warfare, engineering, printing, entertainment, transport, and communications.

Meets International Perspectives Requirement.

**HIST 301: The Historian's Toolbox**

(3-0) Cr. 3. F.S.

*Prereq: History major; Sophomore classification*

Foundations of the discipline with emphasis on the purpose, practice, and methodology of History. Required of majors.

**HIST 304: Cultural Heritage of the Ancient World**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

**HIST 307: American Popular Culture**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

**HIST 310: Africa to 1880**

(Cross-listed with AF AM). Cr. 3.

*Prereq: Sophomore classification*

Survey of the history of African societies, cultures and civilizations from earliest times to 1880. Evolution of states across the continent; social, economic, political, and cultural developments; nature and consequences of African interactions and relationship with Europeans.

Meets International Perspectives Requirement.

**HIST 311: Africa under Colonial Rule**

(Cross-listed with AF AM). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism.

Meets International Perspectives Requirement.

**HIST 318: History of Early Modern Europe, 1450-1789**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of major themes in the social, political, cultural, and religious history of early modern Europe, including the eras of renaissance and reformation, the age of exploration, development of the modern individual and household, and enlightenment.

**HIST 320: History of Modern Europe, 1789 to Present**

(3-0) Cr. 3. F.

*Prereq: Sophomore classification*

Survey of major themes in the social, political, and religious history of Europe from the French Revolution to the present. Topics to be covered include the French Revolution, nationalism, the Industrial Revolution, the Russian Revolution, World Wars I and II, the Cold War, the fall of the Soviet Union, and the history of globalization.

**HIST 325: Society and Politics in England, 1525-1700**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Social, cultural, demographic, and economic experiences. Religious Reformation. Growth of the State (and Empire) and political institutions.

**HIST 327: History of the British Empire**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Development of British Empire from origins in the seventeenth century to dissolution in the twentieth century. Attention given to empire in S. Pacific, N. America, India and S. Asia, Hong Kong, Africa and the Middle East, as well as theories of empire and the impact of immigration on British society. Irish history also covered. none

Meets International Perspectives Requirement.

**HIST 331: History of the Islamic World to 1800**

(3-0) Cr. 3. F.

*Prereq: Sophomore classification*

Survey of the Islamic world from pre-Islamic Arabia to the 19th century covering the life of the Prophet Muhammad, the spread of Islam through the Arab conquests and the Caliphal dynasties of the Umayyads and the Abbasids, the Mongol conquests, Turkic migrations from Central Asia, and the rise of the Ottoman Empire.

**HIST 336: History of Modern China I**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

China from 1644 to 1912; internal and external stimuli on traditional structure leading to reform and revolution.

Meets International Perspectives Requirement.

**HIST 337: History of Modern China II**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

China from 1912 to present; search for a new order and continuing Chinese revolution.

Meets International Perspectives Requirement.

**HIST 339: US-Asian Relations**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of US-East Asian (Japan, China, Korea) relations from the late 18th century to the end of the Cold War.

Meets International Perspectives Requirement.

**HIST 340: History of Latin America I**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Colonial Latin America from European discovery and colonization to wars for independence.

**HIST 341: History of Latin America II**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Modern Latin America national origins from 1800 to present.

Meets International Perspectives Requirement.

**HIST 353: History of African Americans I**

(Cross-listed with AF AM). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

Meets U.S. Diversity Requirement

**HIST 354: History of African Americans II**

(Cross-listed with AF AM). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.

Meets U.S. Diversity Requirement

**HIST 357: American Family History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

The impact on American families from colonial times onward of agricultural change, industrialization, urbanization, and wars and depressions.

**HIST 362: Global Environmental History**

(Cross-listed with ENV S). (3-0) Cr. 3. F.

*Prereq: Sophomore classification*

Survey of the interactions of human communities with their environments from the beginnings of human history to the present. Topics include the domestication of animals, the agricultural revolution, industrialization, urbanization, deforestation, hydraulic management, fossil fuel consumption, and climate change.

**HIST 363: U. S. Environmental History**

(Cross-listed with ENV S). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of the interactions of human communities with the North American environment. Focus on the period from presettlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies.

**HIST 364: The Mythic Wild West**

Cr. 3. Alt. SS., offered irregularly.

*Prereq: Sophomore classification*

Examination of the history of the mythic American West, including how people have thought about the region, the myths that emerged from the West, and the role the mythical West played in the formation of American identity.

**HIST 365: American Agriculture I: The Maya to McCormick's Reaper**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

North American agricultural development to 1865. American Indian agricultural systems, European background and agricultural revolution, agriculture in the colonial era, early republic and antebellum period. Topics include origins of modern crops, agriculture's role in the economy, politics, and settlement of the U.S., slavery, rural and frontier life, and mechanization.

**HIST 366: American Agriculture II: Homestead Act to GMOs**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

American agricultural development since 1865. Post-Civil War adjustments; westward expansion; economic boom and bust; mechanization; Dust Bowl and environmental challenges; Great Depression and New Deal; changing rural life; scientific and technological advances; farm crisis and late twentieth century challenges.

**HIST 367: America Eats**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Thematic approach to the development of the American agricultural system through the topics of food and eating. Changes in American food systems from Native American, pre-contact diets through modern innovations such as fast food, organics, and eating locally.

**HIST 370: History of Iowa**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Survey of major social, cultural and economic developments in Iowa from the late 1700s. Emphasis on minority groups, pioneer life, early economic development, industrial development, educational and religious development, and outstanding personalities.

**HIST 371: Mexican American History**

(Cross-listed with US LS). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Sophomore classification*

History of the Mexican American community in the U.S. from the 1820s to the present. Topics include community development, employment, social marginalization, racism/discrimination, depression and world wars, civil rights, ethnic power and politics.

Meets U.S. Diversity Requirement

**HIST 372: Latina/o History**

(Cross-listed with US LS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.

Meets U.S. Diversity Requirement

**HIST 374: Sex, Gender, and Culture in the Ancient Mediterranean World**

(Cross-listed with CL ST, WGS). (3-0) Cr. 3.

Survey of the roles of women and others on the margins and the issues that impacted them in the ancient Greek and Roman worlds. Evidence from literature, the visual arts, and archaeology. Contemporary approaches to studying women, gender, and sexuality in ancient history. Intersections of gender categories with ideas of slave and free status, citizenship, and ethnicity. Readings from ancient and modern sources. Meets International Perspectives Requirement.

**HIST 380: History of Women in Science, Technology, and Medicine**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.

Meets U.S. Diversity Requirement

**HIST 382: History and Philosophy of the Scientific Revolution**

(Cross-listed with PHIL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 3 credits in PHIL or Permission of Instructor*

The emergence of empirical science as the authoritative methodology for production of knowledge about the natural world in the period between Copernicus and Kant. Scientific progress achieved during the period, including the work of Galileo, Descartes, and Newton. The re-shaping of epistemology in the Western intellectual tradition. Implications for philosophy and historiography.

**HIST 383: Technology, Public Science, and European Culture, 1715-Present**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).

Meets International Perspectives Requirement.

**HIST 384: Roman Italy: An Introduction**

(Cross-listed with CL ST). Cr. 2. Repeatable, maximum of 4 credits. S.

*Prereq: Permission of Instructor*

Introduction to the topography, history, archaeology, monuments, and art of Rome from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy, preparatory to study abroad in Rome. Enrollment limited to students participating in CL ST 385/HIST 385. Meets International Perspectives Requirement.

**HIST 385: Study Abroad: Roman Italy: Building the Empire**

(Cross-listed with CL ST). Cr. 3. Repeatable, maximum of 6 credits. SS.

*Prereq: CL ST 384 or HIST 384; Permission of Instructor*

Supervised on-site instruction in the history, archaeology, monuments, and art of Rome and environs from the 8th century BCE to the 5th century CE; attention given to the culture of modern Italy. Meets International Perspectives Requirement.

**HIST 386: History of Women in America**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.

Meets U.S. Diversity Requirement

**HIST 387: First Ladies in U.S. History**

(Cross-listed with POL S, WGS). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Sophomore classification*

Evolution of the role and office of the First Lady in U.S. history, including her political activism, social impact, and international influence. Analysis of the authority, intersectionality, and agency of First Ladies in the aggregate and exploration of how individual First Ladies have interpreted and adapted this unique public position.

**HIST 389: American Military History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

American military experience from the Pequot War to Vietnam, including King Philip's War, the French & Indian Wars, the American Revolution, the War of 1812, the Mexican-American War, the Civil War, the Spanish-American War, World Wars I & II, and the Korean War.

Meets International Perspectives Requirement.

**HIST 390: World Military History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.

Meets International Perspectives Requirement.

**HIST 391: American Diplomatic History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.

**HIST 396: Topics in History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Specialized topics in history; topics vary each time offered.

**HIST 396A: Topics in History: Europe**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history; topics vary each time offered.

**HIST 396B: Topics in History: U.S. and North America**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history; topics vary each time offered.

**HIST 396C: Topics in History: Global**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history; topics vary each time offered.

**HIST 402: Greek Civilization**

(Cross-listed with CL ST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides.

**HIST 403: Roman Civilization**

(Cross-listed with CL ST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome's cultural contributions studied through original sources.

**HIST 405: Transformations of the Early Medieval World**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Examines major political, religious, and cultural transformations in Western Europe and the Mediterranean, 300-1000. Major topics include the fall of Rome, rise of Christianity, Germanic kingdoms, and Carolingian empire.

**HIST 406: The Birth of Europe in the High Middle Ages**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Examines political, economic, religious, and cultural forms emerging in Europe, 1000-1300, that still characterize Western society to this day. Major topics include the medieval agricultural revolution, English and French monarchies, crisis of church and state, and growth of the papacy and personal religion.

**HIST 407: Crises of the Late Middle Ages**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Examines major political, economic, religious, and intellectual crises that beset Europe, 1300-1500, paving the way for early modernity. Major topics include Black Death, 100 Years War, papal schism, and origins of Renaissance and Reformation.

**HIST 410: The Holocaust in History**

(3-0) Cr. 3. S.

*Prereq: Sophomore classification*

Historical and historiographical coverage of the Holocaust. Actions of perpetrators, experiences of the murdered, and inaction or action of bystanders within global, European, German, and Jewish history. Topics include history, historical methods, and contemporary and historical commemoration of the Holocaust. Seminar discussion format. Meets International Perspectives Requirement.

**HIST 414: European Cultural and Intellectual History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism.

**HIST 419: History of Modern France**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

From absolutism to revolution and the rise of modern democracy.

**HIST 420: France's Revolutionary Century, 1715-1815**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Regime and ending with the fall of Napoleon.

**HIST 421: History of Russia I**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization.

Meets International Perspectives Requirement.

**HIST 422: History of Russia II**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Russia since 1850. Reform and revolution; transformation of society; USSR as a world power; recent changes.

Meets International Perspectives Requirement.

**HIST 423: The Russian and Soviet Mind: Intellectual and Cultural Life, 1762-1991**

Cr. 3.

*Prereq: Sophomore Classification*

Russian intellectual history from the reign of Catherine the Great to the collapse of Communism. Discussion of Russian literary, philosophical and cultural trends in the nineteenth century and the relationship between intellectual & cultural figures and the Soviet state in the twentieth century.

**HIST 424: History of Modern Germany**

(3-0) Cr. 3.

*Prereq: Sophomore classification.*

Political, social, and cultural history of Germany from the 19th century to the present.

**HIST 427: Crime and Policing in England 1550-1850**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, "social crime," and the treatment of crime in creative literary texts.

**HIST 428: Punishment, Mentalities, and Society in England, 1550-1868**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform.

**HIST 429: "Monstrous London": London's Histories 1500-1800**

(3-1) Cr. 3-4.

*Prereq: Sophomore classification*

Study of London's social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit.

**HIST 431: Modern England**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state. Meets International Perspectives Requirement.

**HIST 435: History of the Modern Middle East**

Cr. 3. S.

*Prereq: Sophomore classification.*

Ottoman and Qajar reform movements; constitutional revolutions; European legal imperialism; colonialism; World War I and the mandate system; Israeli-Palestinian conflict; Arab nationalism; the Islamic Revolution in Iran; Islamist movements; oil resources; terrorism; sectarianism.

Meets International Perspectives Requirement.

**HIST 441: History of Modern Mexico and Central America**

(3-0) Cr. 3.

*Prereq: Sophomore classification.*

Political, economic, and social development of Mexico and Central America in nineteenth and twentieth centuries.

**HIST 442: Rebellions and Revolutions in Latin America**

(3-0) Cr. 3.

*Prereq: Sophomore classification.*

Survey of rebellions, revolutionary movements, and social revolutions in the twentieth century, including Guatemalan, Cuban, Mexican, Chilean, and Nicaraguan cases.

Meets International Perspectives Requirement.

**HIST 449: US Gilded Age, 1877-1900**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Sophomore classification*

U.S. History from the end of Reconstruction to the turn of the twentieth century. Discussion of prominent themes, including the opening of the West, the emergence of big business, rapid urbanization, immigration, race relations, American imperialism, and social reform.

**HIST 450: Colonial America**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American slavery, relations with American Indians.

**HIST 451: American Revolutionary Era**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations.

**HIST 453: Law and Society in U.S. History: Crime, Race, Family, Work and Property**

(3-0) Cr. 3.

*Prereq: Sophomore classification.*

The development of both law and the legal system from colonial times to the present, highlighting their crucial role in aspects of American life such as marriage, family, employment, racial identification, and economic exchange. Topics will include important past legal disputes, the different levels of courts, the various actors in the legal process (e.g., police, prosecutors, prisoners, judges and juries), the relationship between the individuals and institutions that comprise the legal system.

**HIST 454: Early American Republic**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Examination of the United States from the Constitutional Convention up to the Mexican War. Topics include the Washington, Jefferson, and Jackson administrations, the War of 1812, slavery and the South, economic and social development, Westward expansion and reform.

**HIST 455: U.S. Civil War and Reconstruction Era**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Examination of the social and economic contradictions that led to Civil War and the reconstruction of American freedom and democracy. Topics include the Mexican War, sectional conflict and the crisis of disunion, economic, political and social aspects of civil war, emancipation, and reconstruction.

**HIST 457: History of American Sexualities**

(Cross-listed with WGS). Cr. 3.

*Prereq: Sophomore classification*

The social construction of American sexualities from the colonial era to the present with particular emphasis on how ideas about sex and sexuality have shaped American public life, including education, public policy, party politics, and racial justice.

**HIST 458: U.S. 1900 to 1945**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

America in transition and crisis: Progressivism, World War I, the twenties, the Great Depression, and World War II.

**HIST 459: U.S. 1945 to the Present**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Modern American history with an emphasis on political, socio-cultural, ethno-racial, and military history. Topics include the Cold War, the wars in Korea and Vietnam, civil rights and Black/ethnic Power, modern feminism, and the conservative movement.

**HIST 460: The Great Plains**

(3-0) Cr. 3.

*Prereq: Sophomore Classification*

History of the Great Plains from prehistoric period. Emphasis on agricultural and rural development, Native Americans, cattle ranching, land policy, agrarian reform movements and federal policy.

**HIST 461: The American South**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region.

**HIST 465: The American West**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

History of trans-Mississippi West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities.

**HIST 468: History of Rural America**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development.

**HIST 473: Civil Rights and Ethnic Power**

(Cross-listed with AF AM, US LS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.

Meets U.S. Diversity Requirement

**HIST 479: China and the Cold War**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Important events in China's Cold War involvement, connections between domestic and foreign affairs, factors and rationales in China's foreign policy making the relationship between China's Cold War experience and recent developments.

**HIST 480: Field Experience for Secondary Teaching Preparation**

Cr. 0.5-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Permission of Area Coordinator*

Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.).

**HIST 480A: Pre-Student Teaching Experience III: History/Social Sciences**

(Cross-listed with EDUC). Cr. 2. Repeatable, maximum of 2 times. F.

*Prereq: Admitted to Educator Preparation Program*

Supervised participation in a 5-12 school setting. Permission of History/Social Sciences coordinator required prior to enrollment. Two, half-days per week needed for school experience. Clinical Supervision Level 3.

**HIST 481: Public History**

Cr. 3. Repeatable, maximum of 1 times. F.

*Prereq: Sophomore classification.*

Development of theories and methods in the field of public history. Emphasis on practical applications such as archival research, museum interpretation, historic preservation, and oral history within the context of United States history. None

**HIST 482: Birth, Death, Medicine, and Disease**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

History of medicine, sickness, and public health from ancient times to the twenty-first century in the US, Europe, and around the world. Topics include changing ideas of health and illness, development of doctors and hospitals, social and ethical issues in health care, and epidemics from cholera to AIDS.

**HIST 488: American Stuff, Colonial Times to the Present**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Inventions, innovations, artifacts, and material culture in the United States, from homespun cloth and the Colt revolver, through the transcontinental railroad and Model T, to fast food and the iPhone.

**HIST 489: The World at War**

(3-0) Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq: Sophomore standing*

In-depth exploration of a particular global conflict (topic varies; e.g., the French and Indian War, the Napoleonic Wars, World War I, World War II, the Vietnam War, and post-Cold War U.S. overseas conflicts) by focusing on multiple aspects of that conflict such as belligerents' justification, diplomacy, manpower policy, technology, strategies and tactics, morality, protest, civilian and military experiences, gender roles, the aftermath of conflict, and collective memory and memorialization.

**HIST 490: Independent Study**

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

Reading and reports on problems selected in conference with each student. No more than 6 credits of Hist 490 may be counted toward graduation with a major in History. No credits of Hist 490 may count toward a minor in History.

**HIST 495: Historiography and Research Writing**

(3-0) Cr. 3. F.S.

*Prereq: HIST major; HIST 301; 9 or more additional credits of 300- or 400-level HIST*

Variable topics seminar that focuses on historiographical and research skills and writing. Required of majors.

**HIST 496: Advanced Topics in History**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Specialized topics in history, topics vary each time offered.

**HIST 496A: Advanced Topics in History: Europe**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history, topics vary each time offered.

**HIST 496B: Advanced Topics in History: U.S. and North America**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history, topics vary each time offered.

**HIST 496C: Advanced Topics in History: Global**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Sophomore classification*

Specialized topics in history, topics vary each time offered.

**HIST 498: Methods of Teaching History/Social Sciences**

(Dual-listed with HIST 598). (Cross-listed with EDUC). (3-0) Cr. 3. F.S.

*Prereq: Concurrent enrollment in HIST 480A; admission to Educator Preparation Program*

Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

**Courses primarily for graduate students, open to qualified undergraduates:**

**HIST 510: Readings Seminar in East Asian History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in East Asian history. Topics vary each time offered.

**HIST 511: Readings Seminar in American History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511A: Readings Seminar in American History: Colonial Period**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511B: Readings Seminar in American History: Nineteenth Century**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511C: Readings Seminar in American History: Twentieth Century**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511E: Readings Seminar in American History: Social and Cultural**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511F: Readings Seminar in American History: West**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 511G: Readings Seminar in American History: The South**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American history. Topics vary each time offered.

**HIST 512: Readings Seminar in European History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European history.

**HIST 512A: Readings Seminar in European History: Ancient**

(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European history.

**HIST 512B: Readings Seminar in European History: Medieval and Early Modern**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European history.

**HIST 512C: Readings Seminar in European History: Modern**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European history.

**HIST 513: Readings Seminar in Latin American History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in Latin American history. Topics vary each time offered.

**HIST 530: Readings Seminar in Modern Russian/Soviet History**

(3-0) Cr. 3. Repeatable.

*Prereq: HIST 422*

Readings in modern Russian history. Topics vary each time offered.

**HIST 550: Readings Seminar in European Rural and Agricultural History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in European rural and agricultural history. Topics vary each time taught.

**HIST 552: Readings Seminar in American Rural and Agricultural History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American rural and agricultural history. Topics vary each time taught.

**HIST 552A: Readings Seminar in American Rural and Agricultural History: American Agriculture**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in American agricultural history. Topics vary each time taught.

**HIST 552B: Readings Seminar in American Rural and Agricultural History: Agrarian Reform Movements**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings on American agrarian reform movements. Topics vary each time taught.

**HIST 552C: Readings Seminar in American Rural and Agricultural History: Midwestern Rural Society**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings on American Midwestern rural society. Topics vary each time taught.

**HIST 552D: Readings Seminar in American Rural and Agricultural History: Women in Rural Life**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings on American women and rural life. Topics vary each time taught.

**HIST 554: Readings Seminar in Environmental History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor.*

Readings in environmental history. Topics vary each time offered.

**HIST 554A: Readings Seminar in Environmental History: American**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor.*

Readings in American environmental history. Topics vary each time offered.

**HIST 554B: Readings Seminar in Environmental History: European**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor.*

Readings in European environmental history. Topics vary each time taught.

**HIST 554C: Readings Seminar in Environmental History: Global**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of Instructor*

Readings in global environmental history. Topics vary each time taught.

**HIST 575: Readings Seminar in the History of Technology**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Readings in the history of technology. Topics vary each time taught.

**HIST 583: Historical Methods**

(3-0) Cr. 3.

Study of evidence, theory, and methods.

**HIST 583A: Historical Methods: Narrative**

(3-0) Cr. 3.

*Prereq: Permission of instructor.*

Study of the methodologies of historical narrative.

**HIST 583B: Historical Methods: Statistical Evidence and Analysis**

(3-0) Cr. 3.

*Prereq: Permission of instructor.*

Study of methodologies of using statistical evidence in writing history.

**HIST 583C: Historical Methods: Issues in Historiography**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Permission of instructor.*

Study of issues surrounding the development of historiography and historical theories.

**HIST 585: Teaching Methods for the Modern Europe Survey**

(2-2) Cr. 3. S.

*Prereq: Graduate status or instructor approval.*

Pedagogy and historiography of Europe, from the Protestant Reformation to the present. Pedagogical topics covered include general principles of survey-course construction, lecture technique, and textbook evaluation; historiographical topics will include the Reformation, the Enlightenment, the Industrial Revolution, the French Revolution, the rise of Nationalism, imperialism, the two World Wars, the Cold War and decolonization.

**HIST 586: Readings Seminar in Women's and Gender History**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: Permission of instructor*

Readings in women's and gender history.

**HIST 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

**HIST 591: Directed Readings in History**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Doctoral student in RATE program*

Individually directed readings in History for doctoral students preparing for preliminary examinations in Rural, Agricultural, Technological and Environmental History (RATE). Only 9 credits of HIST 591 may count toward graduation.

**HIST 593: Research Seminar in American History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 593A: Research Seminar in American History: Colonial Period**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 593B: Research Seminar in American History: Nineteenth Century**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 593C: Research Seminar in American History: Twentieth Century**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 593F: Research Seminar in American History: West**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 594: Research Seminar in European History**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 594A: Research Seminar in European History: Ancient**

(Cross-listed with CL ST). (3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 594B: Research Seminar in European History: Medieval and Early Modern**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 594C: Research Seminar in European History: Modern**

(3-0) Cr. 3. Repeatable.

*Prereq: Permission of instructor*

Topics vary each time offered.

**HIST 598: Methods of Teaching History/Social Sciences**

(Dual-listed with HIST 498). (3-0) Cr. 3. F.S.

*Prereq: Concurrent enrollment in HIST 480A; admission to Educator Preparation Program*

Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

**HIST 599: Creative Component**

Cr. 1-6. Repeatable, maximum of 6 credits.

**Courses for graduate students:****HIST 610: Research Seminar in American Rural and Agricultural History**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Permission of instructor*

Emphasis varies each time offered.

**HIST 612: Research Seminar in Environmental History**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Permission of instructor.*

Emphasis varies each time offered.

**HIST 614: Research Seminar in the History of Technology**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

*Prereq: Permission of instructor.*

Emphasis varies each time offered.

**HIST 699: Research**

Cr. 1-6. Repeatable.

Graduate student thesis research.

## Honors (HON)

**Courses primarily for undergraduates:****HON 121: First-Year Honors Program Seminar**

(0-2) Cr. 1. F.

*Prereq: Membership in the First-Year Honors Program*

Orientation to Iowa State University and to the University Honors Program. Students will meet and work with other high-ability students for the purpose of exchanging ideas and considering alternative futures as a basis for launching personalized academic programs and professional careers. Offered on a satisfactory-fail basis only.

**HON 290: Special Problems**

Cr. arr.

*Prereq: Membership in the First-Year Honors Program*

Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

**HON 290H: First-Year Honors Mentor Program**

Cr. 1-2. F.S.

*Prereq: Membership in the First-Year Honors Program*

Independent research study as a part of the First-Year Honors Mentor program (FHMP), which offers first-year honors students the opportunity to get research experiences with a faculty mentor. The main objectives of the FHMP are to develop students' interest in and understanding of academic research and to help them identify a research area for an honors capstone project. Offered on a satisfactory-fail basis only.

**HON 290U: Undergraduate Research**

Cr. arr. F.S.

*Prereq: Membership in the University Honors Program; Permission of the University Honors Program Director*

Independent study as a continuation of the First-Year Honors Mentor program (FHMP), which offers second-year honors students the opportunity to continue research experiences with the same FHMP faculty mentor as in the HON 290H course. The main objectives are to extend students' involvement in research and understanding of an academic field and to help them identify a research area for an honors capstone project. Offered on a satisfactory-fail basis only.

**HON 302: First-Year Honors Leadership Development**

(1-2) Cr. 2. F.

*Prereq: Permission of the Director for First-Year Honors Program*

For students serving as leaders of First-Year Honors Seminars, under faculty supervision. Development of teaching and leadership skills to augment the experiential education students are gaining by co-instructing Honors 121. Offered on a satisfactory-fail basis only.

**HON 321: University Honors Seminars**

Cr. 1-2. F.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 322: University Honors Seminars**

Cr. 1-2. S.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 323: University Honors Seminars**

Cr. 1-2. F.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 324: University Honors Seminars**

Cr. 1-2. S.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 490: Independent Study**

Cr. arr. Repeatable. F.S.

*Prereq: Membership in the University Honors Program; Permission of the University Honors Program Director*

Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

## Horticulture (HORT)

***Any experimental courses offered by HORT can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**HORT 110: Professional and Educational Development in Horticulture.**

(1-0) Cr. 1. F.

Intended for first-year students and others new to the horticulture curriculum. Introduction to professional and educational development within horticulture. Focus is on university and career acclimation. Assessed service-learning component.

**HORT 121: Home Horticulture**

(3-0) Cr. 3. F.S.

Growing plants in and around the home including requirements for growing indoor plants, plant propagation, landscape design, and maintaining trees, lawns, flower, fruit, and vegetable gardens. Recitation includes demonstrations and hands-on activities that illustrate principles of designing, growing and maintaining plants for both indoor and outdoor gardens.

**HORT 131: Floral Design**

(1-2) Cr. 2. F.S.

Introduces basic geometric design of fresh arrangements, corsages, and holiday arrangements. Includes use of tools and supplies.

**HORT 132: Wedding and Event Floral Design**

(1-2) Cr. 2. F.S.

*Prereq: HORT 131*

Principles of design and proper mechanics for ceremony flowers, reception flowers, personal flowers, bridal bouquets, and event florals. Flower and plant materials that are commonly used in the event industry. Plan, design, cost, order, and create florals for a wedding, then present as the final project for implementation.

**HORT 193: Topics in Horticulture**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193A: Topics in Horticulture: Greenhouse Crops**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193B: Topics in Horticulture: Nursery Crops**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193C: Topics in Horticulture: Turfgrass**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193D: Topics in Horticulture: Fruit Crops**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193E: Topics in Horticulture: Vegetable Crops**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193F: Topics in Horticulture: Cross-Commodity**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 193G: Topics in Horticulture: Landscape Horticulture**

Cr. arr. Repeatable. F.S.SS.

Practical courses in the field of horticulture. A maximum of 6 credits of Hort 193 may be used toward the total of 128 credits required for graduation.

**HORT 221: Principles of Horticulture Science**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in BIOL 211*

Biological principles of growing horticultural crops including anatomy, reproduction, light, temperature, water, nutrition, and growth and development. Laboratory exercises emphasize environmental factors and permit detailed observation of plant growth.

**HORT 233: House Plants and Interiorscaping**

(1-2) Cr. 2. F.S.

Basic introduction to indoor houseplants and interiorscapes. Understand plant selection, identification, maintenance, and problem solving. Learn current houseplant trends, commercial interior plant design, and installation. A beneficial course for students with an interest in house plants, retail plant sales, Interiorscaping, event design, or gardening.

**HORT 240: Trees, Shrubs, and Woody Vines for Landscaping**

(2-3) Cr. 3. F.

Identification of trees, shrubs, and woody vines. Factors influencing the horticultural use of woody plants. Field trips outside of regular class time may be required.

**HORT 276: Understanding Grape and Wine Science**

(Cross-listed with FS HN). (2-2) Cr. 3. S.

A scientific introduction to viticulture (grape-growing) and enology (wine-making) and grape and wine chemistry. Topics include grape biology and cultivars, vineyard management, geography of wine, wine production, wine classification, grape and wine chemistry, wine sensory. No wine tasting.

**HORT 281: Landscape Graphics**

(0-4) Cr. 2. F.

Introduction to computer and hand rendering techniques of landscape graphics. Students will gain proficiency in plan view and elevation graphics. Intensive studio and computer based instruction.

**HORT 283: Pesticide Application Certification**

(Cross-listed with AGRON, ENT, FOR). (2-0) Cr. 2. S.

Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

**HORT 291: Horticulture Professional Development**

Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Instructor*

Intensive training in preparation for intercollegiate competition in turfgrass, planting, design, plant identification, installation, cost estimating, and other skills at national contests in horticulture. Students must compete in related national competition to earn credit. Offered on a satisfactory-fail basis only. Only one credit of HORT 291A, 291B, or 291C may count toward Horticulture credits for graduation. A maximum of four credits of any combination of HORT 291A, 291B, and 291C may count toward credits for graduation.

**HORT 291A: Horticulture Professional Development: Turfgrass Competition**

(0-2) Cr. 1. Repeatable, maximum of 4 credits. F.

*Prereq: Permission of Instructor*

Intensive training in preparation for intercollegiate competition in turfgrass, planting, design, plant identification, installation, cost estimating, and other skills at national contests in horticulture. Students must compete in related national competition to earn credit. Offered on a satisfactory-fail basis only. Only one credit of HORT 291A, 291B, or 291C may count toward Horticulture credits for graduation. A maximum of four credits of any combination of HORT 291A, 291B, and 291C may count toward credits for graduation.

**HORT 291B: Horticulture Professional Development: Landscape Competition**

(1-0) Cr. 1. Repeatable, maximum of 4 credits. S.

*Prereq: Permission of Instructor*

Intensive training in preparation for intercollegiate competition in planting, design, plant identification, installation, cost estimating, and other skills at national contests in horticulture. Students must compete in related national competition to earn credit. Offered on a satisfactory-fail basis only. Only one credit of HORT 291A, 291B, or 291C may count toward Horticulture credits for graduation. A maximum of four credits of any combination of HORT 291A, 291B, and 291C may count toward credits for graduation.

**HORT 291C: Horticulture Professional Development: Cross-Commodity**

(0-2) Cr. 1. Repeatable, maximum of 4 credits. F.S.

*Prereq: Permission of Instructor*

Intensive training in preparation for intercollegiate competition in planting, plant identification and other skills at national contests in horticulture. Students must compete in related national competition to earn credit. Offered on a satisfactory-fail basis only. Only one credit of HORT 291A, 291B, or 291C may count toward Horticulture credits for graduation. A maximum of four credits of any combination of HORT 291A, 291B, and 291C may count toward credits for graduation.

**HORT 321: Horticulture Physiology**

(3-0) Cr. 3. F.

*Prereq: BIOL 211 or HORT 221*

Principles of plant physiology relating to growth and development of horticultural plants including plant water relations, membrane transport, photosynthesis, photomorphogenesis, respiration, and phytohormones. Emphasis on plant's responses to environmental factors (temperature, water, and light) including cellular and whole-plant physiology under stressful environments.

**HORT 322: Plant Propagation**

(2-2) Cr. 3. S.

*Prereq: BIOL 211 or HORT 221*

Fundamental principles underlying sexual and asexual propagation of plants; practice in reproducing plants by use of seeds, cuttings, layering, grafting and budding and tissue culture.

**HORT 330: Herbaceous Ornamental Plants**

(2-2) Cr. 3. F.

*Prereq: HORT 221 or Permission of Instructor*

Identification, botanical characteristics, origins, propagation, uses and general culture of herbaceous annual and perennial plants for Midwestern gardens and landscapes.

**HORT 331: Hydroponic Crop Production**

(2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: AGRON 181 or HORT 221 or 3 credits in Biological Sciences*

Principles and practices of hydroponic systems, crop production and culture, aquaponic systems, and new food and medicinal crops for hydroponic systems.

**HORT 332: Greenhouse and Nursery Operations and Management**

(3-3) Cr. 4. S.

*Prereq: HORT 221*

Operation and management of greenhouses, nurseries, and other controlled environment agriculture structures and facilities. Principle of site selection, facility design and methods of monitoring and manipulating environmental, cultural, and management factors such as light, temperature, fertility, substrate, etc., to maximize production efficiency. Emphasis placed on the principles of production of both ornamental and food crops. Greenhouse analysis project required.

**HORT 338: Seed Science and Technology**

(Cross-listed with AGRON). (2-3) Cr. 3. F.

*Prereq: (AGRON 181 or HORT 221); 3 credits of BIOL*

Seed production, maturation, dormancy, vigor, deterioration, and related aspects of enhancement, conditioning, storage, and quality evaluation. Aspects of the seed industry and regulation of seed marketing.

**HORT 341: Woody Plant Cultivars: Shade Trees, Ornamental Trees and Woody Shrubs**

(2-0) Cr. 2. S.

*Prereq: Hort 240 or L A 221 or L A 222*

Cultivars of the most prevalent and economically important woody landscape plants will be taught. The importance of cultivars to the nursery and landscaping professions and suggestions for their proper usage will be discussed.

**HORT 342: Landscape Plant Installation, Establishment, and Management**

(2-3) Cr. 3. S.

*Prereq: HORT 240 or L A 221 or L A 222*

Principles and practices involved with the establishment and management of landscapes. Laboratory work involves site evaluation, installation techniques, postplant care, and management of established landscape plants.

**HORT 351: Turfgrass Establishment and Management**

(Cross-listed with AGRON). (3-0) Cr. 3. F.

*Prereq: AGRON 181 or BIOL 211 or HORT 221*

Principles and practices of turfgrass propagation, establishment, and management. Specialized practices relative to professional lawn care, golf courses, athletic fields, highway roadsides, and seed and sod production. The biology and control of turfgrass pests.

**HORT 351L: Turfgrass Establishment and Management Laboratory**

(Cross-listed with AGRON). (0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in HORT 351*

Those enrolled in the horticulture curriculum are required to take 351L in conjunction with 351 except by permission of the instructor.

**HORT 354: Soils and Plant Growth**

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

*Prereq: AGRON 182; 3 credits of BIOL*

Effects of chemical, physical, and biological properties of soils on plant growth, with emphasis on nutritive elements, pH, organic matter maintenance, and rooting development.

**HORT 354L: Soils and Plant Growth Laboratory**

(Cross-listed with AGRON). (0-3) Cr. 1. F.S.

*Prereq: AGRON or HORT major; credit or concurrent enrollment in AGRON 354*

Laboratory exercises in soil testing that assess a soil's ability to support nutritive requirements for plant growth.

**HORT 376: Fundamentals of Field Production of Horticultural Food Crops**

(3-0) Cr. 3. F.

*Prereq: AGRON 181 or HORT 221*

An introduction to field production of fruit and vegetable crops and the theoretical and practical knowledge required for successfully producing them. Topics will include basic principles and practices of fruit and vegetable production, site selection, soil techniques, irrigation management, equipment and tools, integrated pest management, season extension strategies, postharvest handling and food safety, marketing, and basic business planning for fruit and vegetable enterprises. Additionally, this course will prepare students for HORT 461 and HORT 471, that are advanced level courses focusing on fruit and vegetable production.

**HORT 380: Principles of Garden Composition**

(2-0) Cr. 2. S.

Functional and aesthetic aspects of landscape planning as a basis for design decisions; emphasis on spatial design and plant selection. Includes site analysis, design process, and design principles.

**HORT 381: Beginning Garden Composition Studio**

(0-4) Cr. 2. S.

*Prereq: HORT 281; (HORT 240 or HORT 330); concurrent enrollment in HORT 380*

Introduction to landscape design process. Intensive studio-based projects implementing principles of landscape design, concept development, and graphic communication.

**HORT 391: Horticultural Management Experience**

Cr. 1. Repeatable. F.S.SS.

*Prereq: HORT 221; Department Permission*

A structured work experience for the student to gain insight into management operations associated with production and management of horticultural crops. A report of 10 or more pages describing the student's experience is required. One credit is given for each term the student is enrolled in the course. A maximum of two credits may be used toward the horticultural sciences course requirements, and two additional credits may be used toward the 128 credits required for graduation.

**HORT 398: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Department Permission*

Students must register for this course before commencing each work period.

**HORT 421: Introduction to Plant Breeding**

(Cross-listed with AGRON). (3-0) Cr. 3. F.

*Prereq: BIOL 313 or GEN 320*

Fundamental principles of plant breeding and cultivar development, breeding methods for self-pollinated, cross-pollinated and clonal crops.

**HORT 424: Sustainable and Environmental Horticulture Systems**

(Dual-listed with HORT 524). (Cross-listed with ENV S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

**HORT 434: Floriculture Crop Production**

(2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: HORT 332*

Principles and practices of flowering and ornamental greenhouse crop production. Emphasis is placed on production of flowering potted plants, cut flowers, and foliage crops produced in greenhouses and other controlled environments. An overnight class field trip outside scheduled class time is required.

**HORT 435: Landscape Plant Production**

(2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HORT 332*

Principles and practices of producing herbaceous and woody landscape plants for gardens, landscapes, restoration and other outdoor uses. Emphasis is placed on the production of: seedling plugs and rooted cuttings; container grown herbaceous annual and perennials; trees, shrubs, and vines; and native plants. An overnight class field trip outside scheduled class time is required.

**HORT 444: Landscape Construction Management**

(2-3) Cr. 3. F.

Principles and practices of residential landscape construction.

Encompasses project management, landscape estimating and overview of common landscape materials. Laboratory work involves field trips and project installation.

**HORT 451: Professional Turfgrass Management**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: HORT 351*

Turfgrass science including the study of (1) specific information on soil chemistry and soil modification as they relate to the development and maintenance of turfgrass areas, (2) specialized management practices used in athletic field care, professional lawn care, and golf course industries, and (3) construction methods for golf courses and sports fields.

**HORT 453: Sports Turf Management**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: HORT 351*

Management techniques for today's specialized athletic fields. The horticultural and budgetary aspects of football, soccer, baseball, and softball fields will be presented. Field trips and laboratory exercises will develop a practical understanding of actual principles in field development, construction, and management.

**HORT 454: Turf & Landscape Irrigation**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

Irrigation systems and principles for turf and landscape environments. Topics include design, installation, equipment, management, and trouble shooting of irrigation systems for golf, athletic fields, residential lawns and landscapes. Participation in practical exercises and local field trips to irrigation sites is required.

**HORT 461: Fruit Crop Production and Management**

(2-2) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HORT 221*

Principles and practices of small fruit, tree fruit, and nut culture and production. Morphology, physiology of growth and development, plant establishment, pest management, pruning, training, harvesting, storage, and marketing of commercial temperate fruit and nut crops. Emphasis on sustainable practices. Participation in practical exercises and local field trips is required.

**HORT 471: Vegetable Production and Management**

(Dual-listed with HORT 571). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq:* HORT 221

Principles of vegetable production with emphasis on sustainable production practices, market outlets, business aspects, and risk management. Topics will include crop classification and rotation; planting methods; crop climatic conditions, physiological growth & development; soil, water, and pest management; cover cropping; season extension strategies; harvest and postharvest management and marketing. Involves visits to growers fields to observe/experience their production enterprise.

**HORT 471L: Vegetable Production and Management Lab**

(Dual-listed with HORT 571L). (0-3) Cr. 1. Alt. S., offered even-numbered years.

*Prereq:* Junior or Senior classification; concurrent enrollment in HORT 471

Hands-on training in the area of vegetable crop production. Opportunity to grow a variety of vegetables in a heated greenhouse and also conduct greenhouse and lab experiments. The lab also involves visits to vegetable production sites in Iowa to observe/experience and learn from growers and other agricultural professionals.

**HORT 475: Urban Forestry**

(Cross-listed with FOR). (2-3) Cr. 3. F.

*Prereq:* Junior or Senior classification; 3 credits in BIOL

Discussion of establishment and management of woody perennials in community-owned urban greenspaces, consideration of urban site and soil characteristics, plant physiology, plant culture, urban forest valuation, inventory methods, species selection, and urban forest maintenance (health care and pest management).

**HORT 476: Horticultural Postharvest Technology**

(Dual-listed with HORT 576). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* HORT 221

Study of pre- and post-harvest factors, procedures, and challenges that affect market quality of horticultural commodities. Emphasis on storage and handling technologies to preserve quality and extend storage life of edible and ornamental horticultural crops. Field trips outside scheduled class time required.

**HORT 481: Advanced Garden Composition**

(0-4) Cr. 2. F.

*Prereq:* HORT 240; HORT 330; HORT 380; HORT 381

Priority given to Landscape Design Installation and Management option students. Development of residential landscapes using design principles and the design process. Projects encompass site analysis, concept development, preliminary design, final design, and graphic presentation techniques. Techniques will include hand and computer rendering.

**HORT 484: Organic Agricultural Theory and Practice**

(Dual-listed with HORT 584). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* 9 credits in biological or physical sciences

Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

**HORT 490: Independent Study**

Cr. arr. Repeatable.

*Prereq:* Junior or Senior classification in HORT; Permission of Instructor

Investigation of topic holding special interest to the student. Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490A: Independent Study: Greenhouse Crops**

Cr. arr. Repeatable.

*Prereq:* Junior or Senior classification in HORT; Permission of Instructor

Investigation of topic holding special interest to the student. Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490B: Independent Study: Nursery Crops**

Cr. arr. Repeatable.

*Prereq:* Junior or Senior classification in HORT; Permission of Instructor

Investigation of topic holding special interest to the student. Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490C: Independent Study: Turfgrass**

Cr. arr. Repeatable.

*Prereq:* Junior or Senior classification in HORT; Permission of Instructor

Investigation of topic holding special interest to the student. Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490D: Independent Study: Fruit Crops**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490E: Independent Study: Vegetable Crops**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490F: Independent Study: Cross-Commodity**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490G: Independent Study: Landscape Horticulture**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490I: Independent Study: International Study**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 490J: Independent Study: Entrepreneurship**

Cr. arr. Repeatable.

*Prereq: Junior or Senior classification in HORT; Permission of Instructor*

Investigation of topic holding special interest to the student.

Comprehensive report required. Election of course and topic must be approved by department head. A maximum of 4 credits of HORT 490 and an additional 2 credits of 490 from outside Horticulture may be used toward the total of 129 credits required for graduation.

**HORT 491: Seed Science Internship Experience**

(Cross-listed with AGRON). Cr. 1-2. Repeatable, maximum of 1 times. F.S.SS.

*Prereq: AGRON 338; Permission of Instructor*

A professional work experience and creative project for seed science secondary majors. The project requires the prior approval and participation of the employer and instructor. The student must submit a written report. Advanced approval and participation of employer and instructor required.

**HORT 493: Workshop in Horticulture**

Cr. arr. Repeatable.

Off campus. Offered as demand warrants. Workshops in horticulture.

**HORT 494: Service Learning**

Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State University entity while instilling professional ethics and accomplishing student learning goals. Course expenses paid by student. Assessed service-learning component. A maximum of 4 credits of HORT 494 may be used toward the Horticulture credits required for graduation.

**HORT 494A: Service Learning: International**

Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State University entity while instilling professional ethics and accomplishing student learning goals. Course expenses paid by student. Assessed service-learning component. A maximum of 4 credits of HORT 494 may be used toward the Horticulture credits required for graduation.

**HORT 494B: Service Learning: Domestic**

Cr. arr. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected projects that result in outcomes benefiting a non-Iowa State University entity while instilling professional ethics and accomplishing student learning goals. Course expenses paid by student. Assessed service-learning component. A maximum of 4 credits of HORT 494 may be used toward the Horticulture credits required for graduation.

**HORT 495: Horticulture Travel Course Preparation**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Students enrolled in this course also intend to register for Hort 496 the following term. Topics include preparation for safe international travel, the horticultural/agricultural industries, climate, crops, economics, geography, history, marketing, soils, culture, traditions, and horticultural/agricultural development of the country to be visited. Students enroll in this course the term immediately before travel to the foreign country.

**HORT 496: Horticulture Travel Course**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Study and tour of production methods in major horticultural regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, cultures, and history of horticultural crops. Location and duration of tours will vary. Tour expenses paid by students.

Meets International Perspectives Requirement.

**Courses primarily for graduate students, open to qualified undergraduates:**

**HORT 506: Crop Genetics**

(Cross-listed with AGRON). Cr. 3. F.

Introduction to plant reproductive systems, gene segregation and linkage analysis, molecular nature of genes and how genes confer phenotypes, mutation and biotechnology, quantitative inheritance and population genetics to prepare students for subsequent courses in crop improvement. Enrollment is restricted to off-campus MS in Plant Breeding students.

**HORT 511: Integrated Management of Tropical Crops**

(Cross-listed with ENT, PL P). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: PL P 408 or PL P 416 or ENT 370 or ENT 376 or HORT 221*

Applications of Integrated Crop Management principles (including plant pathology, entomology, and horticulture) to tropical cropping systems. Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects.

Meets International Perspectives Requirement.

**HORT 524: Sustainable and Environmental Horticulture Systems**

(Dual-listed with HORT 424). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

**HORT 530: Research Orientation**

(1-3) Cr. 2. F.

Instruction in scientific methods and communication skills.

**HORT 538: Seed Physiology and the Environment**

(Cross-listed with AGRON). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: AGRON 316; CHEM 231 or CHEM 331*

Physiological aspects of seed development, maturation, longevity, dormancy, and germination of agronomic and horticultural crops and their interactions with field and storage environments. Emphasis on current literature and advanced methodology.

**HORT 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**HORT 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**HORT 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**HORT 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**HORT 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**HORT 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**HORT 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**HORT 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**HORT 543: Seed Physiology**

(Cross-listed with STB). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

**HORT 546: Strategies for Diversified Farming Systems**

(Cross-listed with AGRON, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: SusAg 509*

Project-focused engagement in food and farming systems using tools and perspectives drawn from multiple disciplines. Includes a field component.

**HORT 551: Growth and Development of Perennial Grasses**

(Cross-listed with AGRON). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Junior or senior or graduate classification or permission of instructor*

Selected topics on anatomy, morphology, and physiology relative to growth and development of perennial grasses. Emphasis on growth and development characteristics peculiar to grasses and variations of such characteristics under natural and managed conditions.

**HORT 571: Vegetable Production and Management**

(Dual-listed with HORT 471). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: HORT 221*

Principles of vegetable production with emphasis on sustainable production practices, market outlets, business aspects, and risk management. Topics will include crop classification and rotation; planting methods; crop climatic conditions, physiological growth & development; soil, water, and pest management; cover cropping; season extension strategies; harvest and postharvest management and marketing. Involves visits to growers fields to observe/experience their production enterprise.

**HORT 571L: Vegetable Production and Management Lab**

(Dual-listed with HORT 471L). (0-3) Cr. 1. Alt. S., offered even-numbered years.

*Prereq: Junior or Senior classification; concurrent enrollment in HORT 471*

Hands-on training in the area of vegetable crop production. Opportunity to grow a variety of vegetables in a heated greenhouse and also conduct greenhouse and lab experiments. The lab also involves visits to vegetable production sites in Iowa to observe/experience and learn from growers and other agricultural professionals.

**HORT 576: Horticultural Postharvest Technology**

(Dual-listed with HORT 476). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: HORT 221*

Study of pre- and post-harvest factors, procedures, and challenges that affect market quality of horticultural commodities. Emphasis on storage and handling technologies to preserve quality and extend storage life of edible and ornamental horticultural crops. Field trips outside scheduled class time required.

**HORT 581: Experience in Plant Science Extension and Outreach**

(Cross-listed with AGRON, ENT, PL P). Cr. 1. Alt. SS., offered odd-numbered years.

A supervised learning experience in several extension delivery methods used in the plant sciences. Participation in Iowa State University-based extension programs that may include field crop, horticulture, or Master Gardener programming.

**HORT 584: Organic Agricultural Theory and Practice**

(Dual-listed with HORT 484). (Cross-listed with AGRON, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in biological or physical sciences*

Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

**HORT 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: a major or minor in horticulture*

**HORT 593: Workshop in Horticulture**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593A: Workshop in Horticulture: Greenhouse Crops**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593B: Workshop in Horticulture: Nursery Crops**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593C: Workshop in Horticulture: Turfgrass**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593D: Workshop in Horticulture: Fruit Crops**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593E: Workshop in Horticulture: Vegetable Crops**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593F: Workshop in Horticulture: Cross-Commodity**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 593G: Workshop in Horticulture: Landscape Horticulture**

Cr. arr. Repeatable.

Workshops in horticulture, with emphasis on off-campus instruction.

**HORT 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:****HORT 610: Graduate Seminar**

Cr. 1. Repeatable. F.S.

Offered on a satisfactory-fail basis only.

**HORT 690: Advanced Topics**

Cr. arr. Repeatable.

**HORT 696: Research Seminar**

(Cross-listed with AGRON, BBMB, FOR, GDCB, PLBIO). Cr. 1. Repeatable.

Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**HORT 698: Horticulture Teaching Practicum**

(1-0) Cr. 1. S.

*Prereq: Graduate student classification*

Discussions are intended to foster the development of graduate students as teaching assistants and future horticulture/plant science teachers. Topics include establishing a classroom presence, improving lectures, motivating students, dealing with difficult or disruptive students, and developing a teaching philosophy. Offered on a satisfactory-fail basis only.

**HORT 699: Thesis and Dissertation Research**

Cr. arr. Repeatable.

**HORT 699A: Thesis and Dissertation Research: Greenhouse Crops**

Cr. arr. Repeatable.

**HORT 699B: Thesis and Dissertation Research: Nursery Crops**

Cr. arr. Repeatable.

**HORT 699C: Thesis and Dissertation Research: Turfgrass**

Cr. arr. Repeatable.

**HORT 699D: Thesis and Dissertation Research: Fruit Crops**

Cr. arr. Repeatable.

**HORT 699E: Thesis and Dissertation Research: Vegetable Crops**

Cr. arr. Repeatable.

**HORT 699F: Thesis and Dissertation Research: Cross-Commodity**

Cr. arr. Repeatable.

**HORT 699G: Thesis and Dissertation Research: Landscape Horticulture**

Cr. arr. Repeatable.

**HORT 699I: Thesis and Dissertation Research: Biotechnology**

Cr. arr. Repeatable.

## Hospitality Management (HSP M)

*Any experimental courses offered by HSP M can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**HSP M 101: Introduction to the Hospitality Industry**

(3-0) Cr. 3. F.S.

Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

**HSP M 133: Food Safety Certification**

(1-0) Cr. 1. F.S.

Introduction to safety and sanitation principles in foodservice operations. Characteristics of food, supplies, and equipment as related to quality, sanitation, and safety are discussed. Application of sanitation principles in restaurants are covered as well. Students must pass a National Sanitation Certification Examination to receive credit. Offered on a satisfactory-fail basis only.

**HSP M 201: Casino Management I**

(3-0) Cr. 3. F.

An overview of the casino gaming industry. Emphasis will be placed on examination of the history and development of gaming, casino operations, casino games, marketing of the core gaming products, and social and economic impacts of the gaming industry.

**HSP M 225: Introduction to Food Service Operations**

(3-0) Cr. 3. S.

Introduction to food service operations within the hospitality and event industry. Management concepts, distinct features, sustainability, current issues, and trends.

**HSP M 230: Introduction to Hospitality Performance Analysis**

(3-0) Cr. 3. F.S.

Introduction to Uniform Systems of Accounts for hospitality industry, profitability, income statements, budgeting, managing cash, accounts receivable and payable, costs control, pricing, and evaluation related to restaurant, lodging, and club industry. Preparation for a hospitality accounting certification exam.

**HSP M 233: Hospitality Sanitation and Safety**

(3-0) Cr. 3. F.S.

Sanitation and safety principles in hospitality operations. Issues impacting consumers and operators.

**HSP M 248: Introduction to Senior Living Management**

(3-0) Cr. 3. F.

Survey course provides a comprehensive overview of the history, current issues, and future trends of the senior living industry. Basics about major aspects of senior living management.

**HSP M 260: Global Tourism Management**

(3-0) Cr. 3. F.S.

Overview of the global tourism industry: hospitality and related services, destination/ attractions, tourist behaviors, and destination marketing. Introduction to destination mix, socio-economic and cultural impacts of tourism, destination organizations, tourist motivations, destination image, marketing, promotions, tourism distribution system, and the future of tourism.

Meets International Perspectives Requirement.

**HSP M 280: Non-Alcoholic Beverages and Café Operations**

(3-0) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in HSP M 133*

Advanced knowledge, preparation, and service of non-alcoholic beverages applied for café operations.

**HSP M 289: Contemporary Club Management**

(3-0) Cr. 3. S.

*Prereq: HSP M 101*

Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip may be required.

**HSP M 290: Independent Study**

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Freshman or Sophomore classification. Permission of instructor, advisor, and department chair.*

Independent study on topics of special interest to the student, facilitated by approved faculty member. Maximum of 9 credits combined of HSP M 290 and HSP M 490 can be applied to graduation.

**HSP M 301: Hospitality Revenue Management**

(3-0) Cr. 3. F.

An overview of the revenue management in the lodging and food service industry will be provided. Emphasis will be placed on the application of analytical and forecasting techniques to formulate and implement pricing strategies in responses to daily operation complexities.

**HSP M 315: Hospitality Law**

(3-0) Cr. 3. S.

Laws relating to ownership and operation of hospitality organizations. The duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions.

**HSP M 320: Attractions and Amusement Park Administration**

(3-0) Cr. 3. S.

*Prereq: HSP M 101 or permission of instructor*

Examination of current issues in the attractions and amusement park industry. Emphasis will be placed on development and design along with the functional departments of modern amusement parks and themed attractions.

**HSP M 333: Hospitality Operations Cost Controls**

(3-0) Cr. 3. F.

*Prereq: (Credit or concurrent enrollment in HSP M 380 and HSP M 380L); 3 credits MATH; HSP M 230*

Introduction to revenue and cost systems in the hospitality industry. Application of principles related to procurement, production, and inventory controls.

**HSP M 352: Lodging Operations Management I**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in HSP M 101*

Introduction to functional department activities and current issues of lodging organizations with emphasis on front office operations and guest services including reservation activities, forecasting, and auditing exercises.

**HSP M 358: Economics for Senior Living Management**

(3-0) Cr. 3. F.

*Prereq: HSP M 248*

Overview of supply and demand, product/service development, consumption, and financials of the senior living industry from a management perspective.

**HSP M 380: Food Production Management**

(3-0) Cr. 3. F.S.

*Prereq: HSP M 133 or 2 cr MICRO; FS HN 111 or FS HN 214; FS HN 115 or FS HN 215; at least junior classification; enrollment in HSP M 380L*

Principles of and procedures used in food production management including menu planning, costing, work methods, food production systems, quality control, and service.

**HSP M 380L: Food Production Management Experience**

(1-6) Cr. 3. F.S.

*Prereq: HSP M 133 or 2 cr MICRO; FS HN 111 or FS HN 214; FS HN 115 or FS HN 215; at least junior classification; enrollment in HSP M 380*

Application of food production and service management principles and procedures in the program's foodservice operation. Filed trip.

**HSP M 383: Wine and Spirits in Hospitality Management**

(2-0) Cr. 2. F.S.

*Prereq: Must be at least 21 years old*

Introduction to history and methods of production for a variety of wines and spirits. Beverage tasting and sensory analysis; product knowledge; service techniques; sales; and alcohol service related to the hospitality industry. Field trip.

**HSP M 383L: Wine, Spirits, and Mixology Laboratory in Hospitality Management**

(1-2) Cr. 2. F.S.

*Prereq: Must be at least 21 years old.*

The application of the management principles and procedures related to the sale and service of alcohol, specialty beverages, and cocktails served in the beverage and hospitality industry. Beverage tasting and sensory analysis of products commonly served in the beverage industry. Field trip.

**HSP M 385: Beer and Brewed Beverages in Hospitality Management**

(2-0) Cr. 1. F.S.

*Prereq: Must be at least 21 years old*

Introduction to history and methods of production for a variety of beer, cider, perry, mead, sake and other brewed alcoholic beverages. Beverage tasting and sensory analysis; product knowledge; and service techniques related to the beverage and hospitality industry. Field trip. 8-week course.

**HSP M 391: Foodservice Systems Management I**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in HSP M 380 and HSP M 380L*

Principles and techniques related to basic management, leadership, and human resource management of foodservices in health care and other on-site foodservice settings. Food safety and sanitation for on-site foodservice operations. Credit for either HSP M 391 or AESHM 287 and AESHM 438 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

**HSP M 392: Foodservice Systems Management II**

(3-0) Cr. 3. S.

*Prereq: HSP M 391*

Introduction to cost control in foodservice operations: procedures for controlling food and labor variable costs. Application of principles related to food product selection, specification, purchase, and storage in health care and other onsite operations. Interpretation and application of financial records. Credit for either HSP M 392 or HSP M 233 and HSP M 333 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

**HSP M 393: Hospitality Management Industry Workshop**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: HSP M major; Junior or Senior Classification; Permission of Instructor*

Intensive 2 to 8 week workshop exploration. Topics vary each time offered. Maximum of 6 credits of HSPM 393 can be applied toward graduation.

**HSP M 420: Fairs and Festivals Management**

(3-0) Cr. 3.

*Prereq: HSP M 320*

Examine current issues within fairs and festivals. Emphasis placed on the evolution of exhibitions to modern day fairs and festivals, along with the processes necessary for operating fairs and festivals.

**HSP M 433: Hospitality Financial Management**

(3-0) Cr. 3. S.

*Prereq: ACCT 284; ECON 101; HSP M 333; credit or concurrent enrollment in STAT 101*

Fundamental concepts and issues in hospitality finance and investment. Application of financial statement analysis, accounting ratio analysis, and financial instruments in management decision-making.

**HSP M 437: Hospitality Technology Applications**

(3-0) Cr. 3. F.

*Prereq: HSP M 101*

Introduction to hospitality technology. Emphasis will be placed on basic computer software and hardware components, property managements, point-of-sales systems; customer relationship management, selecting and purchasing computer systems, electronic distribution systems, and communication networks.

**HSP M 439: Advanced Hospitality Human Resource Management**

(3-0) Cr. 3. F.

*Prereq: AESHM 238*

Emphasis on development of management personnel in hospitality organizations. Case studies.

**HSP M 452: Lodging Operations Management II**

(3-0) Cr. 3. S.

*Prereq: HSP M 352*

Development of business plan and evaluation of business performance in a simulated environment. Operational decision making practices by applying concepts of management, operations, marketing, and finance for a computer-mediated environment.

**HSP M 455: Strategic Management in Hospitality**

(3-0) Cr. 3. S.

*Prereq: AESHM 238 and AESHM 340; credit or concurrent enrollment in HSP M 433*

Introduction to strategic management principles and practices with an application of human resources, operations, marketing, and financial management concepts. Case studies.

**HSP M 470: Supervised Professional Internship**

Cr. 3. Repeatable. F.S.SS.

*Prereq: AESHM 270, AESHM 211, 9 credits in HSP M, and minimum 2.0*

*GPA; permission by application; junior or senior classification; employer/ experience should be different than employer/experience used for AESHM 170 and AESHM 270*

Supervised work experience with a cooperating firm or organization, documentation of experience, and completion of an internship project. Coursework includes weekly self-reflection and topics related to current issues and career advancement. Employer/experience should be different than employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits from AESHM 170, AESHM 270, and HSP M 470 may be applied toward graduation.

**HSP M 487: Fine Dining Management**

(Dual-listed with HSP M 587). (2-3) Cr. 3. F.

*Prereq: HSP M 380, HSP M 380L, and HSP M 133, or ServSafe(r) Certification*

Exploration of the historical and cultural development of the world food table. Creative experiences with U.S. regional and international foods. Application of management and financial principles in food preparation and service in fine dining settings. Meets International Perspectives Requirement.

**HSP M 489: Issues in Food Safety**

(Cross-listed with AN S, FS HN, VDPAM). (1-0) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in (FS HN 101 or FS HN 272 or HSP M 233); FS HN 403; (FS HN 419 or FS HN 420)*

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

**HSP M 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program*

**HSP M 490B: Independent Study: Hospitality Management**

Cr. arr. Repeatable.

*Prereq: Sections B-E: Program approval*

Independent Study in Hospitality Management.

**HSP M 490D: Independent Study: Lodging Operations**

Cr. arr. Repeatable.

*Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program*

**HSP M 490E: Independent Study: Foodservice Operations**

Cr. arr. Repeatable.

*Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program*

**HSP M 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: Sections B-E: Program approval; Section H: Full membership in Honors Program*

**Courses primarily for graduate students, open to qualified undergraduates:**

**HSP M 505: Hospitality Management Scholarship and Applications**

(0-1) Cr. 1-3. Repeatable. F.SS.

Focus on teaching and research scholarship involving the hospitality industry.

**HSP M 506: Research Seminar in Hospitality Management**

(0-1) Cr. 1. Repeatable. S.

Focus on current research in hospitality industry. Discuss research designs and methods commonly used in hospitality management research; Introduce research proposal development procedures.

**HSP M 533: Financial Decision Making in Hospitality Organizations**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Concepts of financial management applied to strategic decision making.

**HSP M 538: Human Resources Development in Hospitality Organizations**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: AESHM 238*

Theories of human resources management. Practices and principles related to development of management personnel.

**HSP M 540: Strategic Marketing**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: AESHM 340*

Application of marketing principles in developing effective marketing strategies for hospitality, apparel, and retail organizations. Evaluation of multi-dimensional marketing functions in hospitality organizations.

**HSP M 555: Strategic Management in Hospitality Organizations**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Courses in MKT, FIN, MGMT, and HSP M. Permission of instructor*

Strategic management process as a planning and decision-making framework; integration of human resources, operations, marketing, and financial management concepts.

**HSP M 560: Tourism Management and Tourist Behavior**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HSP M 260 or equivalent*

Tourism theories and research. Overview of tourism industry, tourism theories, methods, and current issues in destination marketing and management and travel behavior. Evaluation of tourism and destination research.

**HSP M 587: Fine Dining Management**

(Dual-listed with HSP M 487). (2-3) Cr. 3. F.

*Prereq: HSP M 380, HSP M 380L, and HSP M 133, or ServSafe(r) Certification*

Exploration of the historical and cultural development of the world food table. Creative experiences with U.S. regional and international foods.

Application of management and financial principles in food preparation and service in fine dining settings.

Meets International Perspectives Requirement.

**HSP M 590: Special Topics**

Cr. arr. Repeatable, maximum of 3 credits.

*Prereq: 9 credits in HSP M at 400 level or above; application process*

Topics in hospitality management.

**HSP M 590B: Special Topics: Hospitality Management**

Cr. arr. Repeatable, maximum of 3 credits.

*Prereq: 9 credits in HSP M at 400 level or above; application process.*

**HSP M 590C: Special Topics: Tourism**

Cr. arr. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: 9 credits in HSP M at 400 level or above; application process*

Special topics in tourism.

**HSP M 590D: Special Topics: Lodging Operations**

Cr. arr. Repeatable, maximum of 3 credits.

*Prereq: 9 credits in HSP M at 400 level or above; application process.*

**HSP M 590E: Special Topics: Commercial/Retail Foodservice Operations**

Cr. arr. Repeatable, maximum of 3 credits.

*Prereq: 9 credits in HSP M at 400 level or above; application process.*

**HSP M 590F: Special Topics: Onsite Foodservice Operations**

Cr. arr. Repeatable, maximum of 3 credits.

*Prereq: 9 credits in HSP M at 400 level or above; application process.*

**HSP M 590G: Special Topics: Event Management**

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: 9 credits in HSP M or EVENT at 500 level or above; application process*

Special Topics in Event Management. Only 6 credits of HSP M 590G can be applied toward graduation.

**HSP M 599: Creative Component**

Cr. arr.

Creative component as arranged with instructor.

**Courses for graduate students:**

**HSP M 604: Professional Writing**

(2-0) Cr. 2. S.SS.

*Prereq: Enrollment in PhD program*

Development of professional written communication with emphasis on abstracts, proposals, and manuscripts.

**HSP M 608: Administrative Problems**

Cr. arr. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of instructor; enrollment in PhD program*

Advanced administrative problems; case studies in foodservice and lodging organizations.

**HSP M 633: Advanced Hospitality Financial Management**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. SS., offered irregularly.

*Prereq: HSP M 433; Enrollment in PhD program*

Theories and research in financial management with emphasis on financial performance and financing decisions.

**HSP M 638: Advanced Human Resources Management in Hospitality Organizations**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. SS., offered irregularly.

*Prereq: HSP M 538; Enrollment in PhD program*

Research in human resources management with an emphasis on organization or unit administration.

**HSP M 640: Seminar on Marketing Thoughts**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. SS., offered irregularly.

*Prereq: HSP M 540; STAT 401. Enrollment in PhD program*

Conceptual and theoretical development of marketing strategies. Analytical and critical review of marketing research and industry practices.

**HSP M 652: Advanced Lodging Operations**

(3-0) Cr. 3. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Enrollment in PhD program*

Analysis and applications of concepts and theories of operations research for lodging operations.

**HSP M 660: Research Seminar in Tourism Management**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Enrollment in PhD program*

Advanced graduate course on tourism and destination theories and research. Analysis and application of theories, research findings, and research methods in tourism and destination management.

**HSP M 680: Analysis of Research in Foodservice Operations**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Enrollment in PhD program*

Analysis and application of theories, research, and research methods in foodservice operations.

**HSP M 690: Advanced Topics**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690B: Advanced Topics: Hospitality Management**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690C: Advanced Topics: Tourism**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690D: Advanced Topics: Lodging Operations**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690E: Advanced Topics: Commercial/Retail Foodservice Operations**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690F: Advanced Topics: Onsite Foodservice Operations**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in hospitality management.

**HSP M 690G: Advanced Topics: Event Management**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in PhD program, application process*

Advanced study of current topics in event management and hospitality management.

**HSP M 699: Research**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in PhD program*

Research.

## Human Computer Interaction (HCI)

*Any experimental courses offered by HCI can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**HCI 504: Evaluating Technology-based Learning Environments**

(Cross-listed with EDUC). (3-0) Cr. 3. S.

*Prereq: EDUC 501*

Principles and procedures to plan, design, and conduct effective evaluation studies (formative, summative, usability) in different settings are studied. Opportunities to engage in real or simulated evaluation projects of substantial scope are provided. Create evaluation instruments, develop methods with which to evaluate a product or program, conduct try-outs or usability sessions, analyze the data, report the findings, and recommendations are some of the course activities.

**HCI 509: Computer/Video Game Design and Development**

(Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Permission of instructor*

Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

**HCI 510: Foundations of Game-based Learning**

(Cross-listed with EDUC). Cr. 3. S.

*Prereq: 12 Graduate Credits*

Theories, principles and best practices of utilizing games in educational environments. Topics include the theoretical foundations of learning games and game play, identity development in online environments, and assessment of learning in and out of games.

**HCI 515: Statistical Natural Language Processing**

(Cross-listed with ENGL, LING). (3-0) Cr. 3.

*Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511*

Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

**HCI 520: Computational Analysis of English**

(Cross-listed with ENGL, LING). (3-0) Cr. 3.

*Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511*

Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

**HCI 521: Cognitive Psychology of Human Computer Interaction**

(Cross-listed with PSYCH). (3-0) Cr. 3.

*Prereq: Graduate classification or instructor approval*

Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

**HCI 522: Scientific Methods in Human Computer Interaction**

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: PSYCH 521 and STAT 101 or equivalent*

Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

**HCI 525: Optimization Methods for Complex Designs**

(3-0) Cr. 3. F.

*Prereq: MATH 265; M E 160*

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

**HCI 571: Augmented Reality**

(3-0) Cr. 3.

*Prereq: M E 557/CPR E 557/COM S 557, or equivalent computer graphics experience*

Fundamental technologies enabling augmented reality (AR) application development. Assessment and integration of the hardware and software systems necessary for AR including, tracking, image processing and rendering. Programming skills in C++ and GPU-based optimization are developed to enable evaluation of interaction devices and modalities afforded by AR.

**HCI 574: Computational Implementation and Prototyping in HCI**

Cr. 3. S.

Fundamental concepts of software programming and the practical use of the Python programming language. Assignments include user interaction and interface design, information visualization, as well as other computational HCI tools. Intended for graduate students without prior background in software development. Requires programming during class lectures.

**HCI 575: Computational Perception**

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. S.

*Prereq: Graduate standing or permission of instructor*

This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

**HCI 580: Virtual Environments, Virtual Worlds, and Application**

(Cross-listed with M E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Senior or Graduate status.*

A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering.

**HCI 585: Developmental Robotics**

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: knowledge of C/C++ programming language.*

An introduction to the emerging interdisciplinary field of Developmental Robotics, which crosses the boundaries between robotics, artificial intelligence, developmental psychology, and philosophy. The main goal of this field is to create autonomous robots that are more intelligent, more adaptable, and more useful than the robots of today, which can only function in very limited domains and situations.

**HCI 587: Models and Theories in Human Computer Interaction**

(3-0) Cr. 3.

Survey of the multidisciplinary models and theories that form the foundation of the science of Human Computer Interaction. Application of the scientific method to solve practical problems by using analyses or approaches from the behavioral and social sciences, and information and computer technology.

**HCI 589: Design and Ethics**

(Cross-listed with ARTGR). (3-0) Cr. 3. F.S.

*Prereq: Graduate classification or permission of instructor.*

Issues in ethics and decision-making as they relate to technology, design, design research, HCI, and the design industry.

**HCI 590: Special Topics**

Cr. arr. Repeatable.

Investigation of problems of special interest in human computer interaction.

**HCI 591: Seminar in Human Computer Interaction**

Cr. 1-3. Repeatable.

**HCI 595: Visual Design of HCI**

Cr. 3. SS.

Human interaction design as it applies to HCI. Aspects of audience analysis, design methodologies for creating concepts and solutions, techniques of concept prototyping, and the fundamentals of visual design such as color, type, symbolism, and grid structure. Class discussions, tutorials, and hands-on projects.

**HCI 596: Emerging Practices in Human-Computer Interaction**

Cr. 3. SS.

*Prereq: HCI 521*

Innovative or newly emerging ideas within the HCI research field or applied industry practice, e.g., based on changing cultures or attitudes, new technologies, and new economic forces.

**HCI 599: Creative Component**

(3-0) Cr. 3.

Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

**Courses for graduate students:**

**HCI 603: Advanced Learning Environments Design**

(Cross-listed with EDUC). (3-0) Cr. 3. S.

*Prereq: EDUC 503*

Exploration of advanced aspects of the learning environments design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Theory and research in educational technology provides the foundation for design decisions. Focus on current trends in learning environment design and the production and use of educational technology.

**HCI 608: Social Media and Education**

(Cross-listed with EDUC). (3-0) Cr. 3. F.

*Prereq: 12 graduate credits*

Increase understanding of how social media is changing traditional concepts of identity, literacy, citizenship and more. Develop an online social presence through active social media participation.

**HCI 655: Organizational and Social Implications of Human Computer Interaction**

(Cross-listed with MIS). (3-0) Cr. 3.

*Prereq: Graduate Classification*

Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

**HCI 681: Cognitive Engineering**

(Cross-listed with I E). (3-0) Cr. 3.

*Prereq: I E 572 or I E 577 or PSYCH 516 or HCI/PSYCH 521 or equivalent*

Provides an overview of human cognitive capabilities and limitations in the design of products, work places, and large systems. Contexts vary broadly and could range from simple use of mobile devices to an air-traffic control or nuclear plant command center. Course focuses on what we can infer about users' thoughts and feelings based on what we can measure about their performance and physiological state. Covers the challenge of designing automated systems.

**HCI 697: HCI Internship**

Cr. R. Repeatable.

*Prereq: Permission of Director of Graduate Education, graduate classification***HCI 699: Research**

Cr. arr. Repeatable.

## Human Development and Family Studies (HD FS)

***Any experimental courses offered by HD FS can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****HD FS 102: Human Development**

(3-0) Cr. 3. F.S.SS.

Overview of life-span developmental tasks (physical, cognitive, language, social, emotional) examined from various theoretical perspectives. Discussion of topics related to family diversity, individual/family health and well-being and reciprocal relationships as affected by external factors.

**HD FS 110: Freshman Learning Community Orientation**

(1-0) Cr. 1. F.

*Prereq: Membership in HD FS Learning Community*

Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

**HD FS 111: New Transfer Student Seminar**

(1-0) Cr. 1. F.S.

Introduction to HD FS curricula and faculty for students in CH FS, FCEDS or F C P. Department and University policies and procedures, degree audits, and registration. Exploration of campus resources and strategies for student success. Offered on a satisfactory-fail basis only.

**HD FS 183: Personal Finance in Early Adulthood**

(1-0) Cr. 1. F.S.SS.

Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

**HD FS 208: Early Childhood Education Teacher Orientation**

Cr. 1. F.S.

*Prereq: Early Childhood Education major*

Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

**HD FS 218: Professional Orientation and Service Learning**

(2-0) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in HD FS 102; major in Human Development and Family Studies*

Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required.

**HD FS 223: Child Development and Health**

(3-0) Cr. 3. S.

Typical and atypical development of children prenatal through middle childhood. Examination of healthy development and potential impact of health issues in children. Discussion of influence of the family and society on development. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 224: Development in Young Children: Birth through Age 8**

(3-1) Cr. 3. F.S.

*Prereq: HD FS 102*

Learning, growth, and development (typical and atypical) of children from birth through age eight. Explores importance of family, programs, and a diverse society. Strategies for observing, recording, and interpreting children's cognitive, communication, motor, social, and emotional development. Practicum. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 226: Development and Guidance in Middle Childhood**

(3-0) Cr. 3. F.

*Prereq: HD FS 102 or PSYCH 230*

Physical, cognitive, socioemotional, and identity development from 5 to 12 years of age. Development within the contexts of family, school, peers, and society. Guidance of children in family and group settings.

**HD FS 227: Adolescence and Emerging Adulthood**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 102 or PSYCH 230*

Physical, cognitive, and socioemotional development of adolescents and emerging adults in the context of family, relationships, and culture.

**HD FS 234: Adult Development**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: HD FS 102 or PSYCH 230*

Introductory exploration of the health, individual and social factors associated with adult development including younger adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

**HD FS 239: Consumer Issues**

(3-0) Cr. 3. F.S.

Introduction to factors affecting consumer decisions of individuals and families, including housing, healthcare, and personal finances. Emphasis on accessibility and affordability, community contexts for families; and consumer protection, legislation and regulation, and consumer fraud.

Meets U.S. Diversity Requirement

**HD FS 240: Literature for Children**

(3-0) Cr. 3. F.S.

Evaluation of literature for children, including an emphasis on diversity and inclusion; cultural competence. Roles of literature in the overall development of children. Literature selection and use in the home and educational settings.

**HD FS 249: Parenting and Family Diversity Issues**

(3-0) Cr. 3. F.S.

Evidence-based, best-practice approaches to child-rearing, guidance, adult-child relationships, and parenting education programs. Theoretical perspectives related to caregiving processes across the lifespan.

**HD FS 270: Family Communications and Relationships**

(3-0) Cr. 3. F.S.Alt. SS., offered odd-numbered years.

Family communication and its functions to develop, maintain, enrich and limit family relationships. Family theories related to communication and ethical considerations when working with families.

**HD FS 276: Human Sexuality**

(3-0) Cr. 3. F.S.SS.

Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.

Meets U.S. Diversity Requirement

**HD FS 283: Personal and Family Finance**

(3-0) Cr. 3. F.S.

Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.

Meets U.S. Diversity Requirement

**HD FS 283H: Personal and Family Finance: Honors**

(3-0) Cr. 3. F.S.

Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes. Additional work required to meet Honors requirements.

Meets U.S. Diversity Requirement

**HD FS 317: Field Experiences**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 317B: Field Experiences: Human Development and Family Studies**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: 9 credits in HD FS; Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 317G: Field Experiences: Family Finance Programs**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs.

**HD FS 317H: Field Experiences: Honors**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: 9 credits in HD FS; Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 340: Assessment and Curriculum: Ages Birth through 2 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224; admission to Educator Preparation program*

Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development. Practicum.

**HD FS 341: Income Tax Planning for Families**

(3-0) Cr. 3. F.

Practice and planning to minimize tax liability and maximize after-tax returns for individuals and families. Addresses components of the US personal income tax system including tax forms, filing status, income, exemptions, exclusions, deductions, adjustments, credits, penalties, and tax rates. The case-problem approach prepares students to plan for themselves and to advise others.

**HD FS 342: Social and Emotional Development and Child-centered Guidance in Early Childhood**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 224*

Guiding prosocial development, self-regulation, and task engagement of children birth to age 8. Focus is on promoting prosocial behaviors through supportive relationships and environments within diverse home, center, or school settings. Functional behavior assessment and ongoing progress monitoring for targeted and intensive interventions. Practicum. Must take HD FS 340, 343, or 344 the same semester.

**HD FS 343: Assessment and Curriculum: Ages 3 through 6 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224; HD FS 240; admission to Educator Preparation program*

Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activities, nutritional practices, and teaching strategies that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development. Practicum.

**HD FS 344: Programming for Children in Early Care and Education**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224*

Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Developing, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children's development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Learning to collaborate effectively with parents and staff. Practicum.

**HD FS 345: Inclusive Teaching and Interaction Strategies**

(3-0) Cr. 3. F.S.

*Prereq: (HD FS 224; SP ED 250) or Permission of Instructor*

Instructional strategies, adaptations and specialized materials and equipment to meet the developmental needs of all young learners ages birth through 8 years old, especially those with diverse learning needs and multiple disabilities. Addressing inclusivity, the history of early childhood special education, and the planning and writing of individualized education plans.

**HD FS 360: Housing and Services for Families and Children**

(3-0) Cr. 3. F.

*Prereq: 6 credits from the following courses: AESHM 421; AF AM 330; AMD 165, 362, 467; AM IN 310, 215, 322; ANTHR (except 202); CJ (except 220, 332); ECON; FS HN 342; INTST 235; LING 219, 275, 471; POL S; PSYCH (except 131); SOC; WGS 201, 203, 301, 320, 327, 328, 346, 350, 385*

Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, children at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transitional housing.

**HD FS 367: Abuse and Illness in Families**

(3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: 3 credits from the following courses: AESHM 421; AF AM 330; AMD 165, 362, 467; AM IN 310, 215, 322; ANTHR (except 202); CJ (except 220, 332); ECON; FS HN 342; INTST 235; LING 219, 275, 471; POL S; PSYCH (except 131); SOC; WGS 201, 203, 301, 320, 327, 328, 346, 350, 385*

Causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system.

**HD FS 369: Research Methods in Human Development and Family Studies**

(3-1) Cr. 3. F.S.

*Prereq: (HD FS 102 or PSYCH 230); Junior or Senior classification*

Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues. An introduction to statistical concepts and data analysis. Computer laboratory experience.

**HD FS 373: Death as a Part of Living**

(Cross-listed with GERON). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: HD FS 102*

Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

**HD FS 377: Aging and the Family**

(Cross-listed with GERON). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

Interchanges of older adults and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community support.

**HD FS 378: Retirement Planning and Employee Benefits**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits.

**HD FS 378H: Retirement Planning and Employee Benefits: Honors**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits. Additional work required to meet Honors requirements.

**HD FS 383: Fundamentals of Financial Planning**

(3-0) Cr. 3. S.

*Prereq: HD FS 283*

Fundamental principles of the financial planning process, client/planner interactions, time value of money applications as well as analyses of ethics review, financial statements, cash flow and debt management, education planning, retirement planning, tax planning, and estate planning needs of families.

**HD FS 384: Family Insurance Planning**

Cr. 3. S.

*Prereq: HD FS 283*

Strategies for managing family financial risk with insurance. Emphasis on communication and planning process and the use of risk mitigation and insurance within families. Risk analysis and management within the comprehensive family financial planning process.

**HD FS 387: Applying Evidence-Based Practices in Human Services**

(3-0) Cr. 3. F.S.

*Prereq: Junior or Senior classification*

Practicing skills required to work with individuals and families in assessment, engagement, and intervention. Applying strategies including motivational interviewing and trauma informed care.

Meets U.S. Diversity Requirement

**HD FS 395: Children, Families, and Public Policy**

(3-0) Cr. 3. F.S.Alt. SS., offered odd-numbered years.

*Prereq: HD FS 369 or Permission of Instructor*

Public policy and public service programs as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

**HD FS 416: Human Development and Family Studies Seminar**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 8 credits in HD FS*

Intensive study of a selected topic in human development and family studies.

**HD FS 417: Supervised Student Teaching**

Cr. 8. Repeatable.

*Prereq: Permission of Instructor***HD FS 417C: Supervised Student Teaching: Early Childhood Special Education Programs.**

Cr. 8. Repeatable. F.S.

*Prereq: HD FS 455; HD FS 456; minimum 2.5 cumulative GPA; admission to Educator Preparation program*

Teaching experience with preschool children with disabilities.

**HD FS 418: Professional Practice Reflection/Discussion**

Cr. 0.5-2. Repeatable. F.S.

Discussion of professional practice experience.

**HD FS 418A: Professional Practice Reflection/Discussion: Teaching**

(0.5-0) Cr. 0.5. F.S.

*Prereq: Concurrent enrollment in HD FS 417*

Discussion of HD FS 417 student teaching field experience. Offered on a satisfactory-fail basis only.

**HD FS 418B: Professional Practice Reflection/Discussion: Internships**

(2-0) Cr. 2. F.S.

*Prereq: HD FS 218; Junior or Senior classification*

Process and development of skills necessary for professional preparation and practice including career planning, resume writing, and interviewing. Strategies for successful career management. Offered on a satisfactory-fail basis only.

**HD FS 449: Program Evaluation and Proposal Writing**

(3-0) Cr. 3. F.S.

*Prereq: Junior or Senior classification*

Theory and practice of program evaluation and proposal writing in human services including needs assessment, outcome development and measurement, and proposal components. Assessment of programs' success in meeting goals.

**HD FS 455: Curriculum and Interventions: Ages 3 through 6 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 343; HD FS 345; SP ED 405; SP ED 458*

Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teaming with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings. Practicum.

**HD FS 456: Working with Families in Early Intervention**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 340 or HD FS 344 or Permission of Instructor*

Applying family systems theory and family centered principles in early intervention. Understanding the impact of disability on families and young children. Utilizing strategies for delivering family-centered interventions and service coordination in home-based and natural environments. Building trusting relationships, teaming with families and interdisciplinary colleagues to create, implement, and evaluate Individualized Family Service Plans (IFSPs) for children birth to age three. Understanding foundations of theory and policy and empowering families through effective supports and services. Experiences with families.

**HD FS 479: Family Dynamics Through a Social and Cultural Lens**

(3-0) Cr. 3. F.S.

*Prereq: (HD FS 102 or PSYCH 230); (HD FS 369 or Permission of Instructor); Junior or Senior classification*

Exploration of social and cultural factors that influence family dynamics. Outcomes for families examined through a social justice lens. Students will examine how their social and cultural contexts impact their work within their chosen careers.

**HD FS 482: Family Savings and Investments**

(3-0) Cr. 3. F.

*Prereq: ECON 101; HD FS 383; STAT 101*

Management of family financial resources; emphasis on savings and the investment planning process; issues facing financial planners who manage family assets. Identification of investment options including common stocks, fixed income securities, convertible securities, and related choices.

**HD FS 484: Estate Planning for Families**

(3-0) Cr. 3. S.

*Prereq: HD FS 283*

Study of estate planning focusing on efficient conservation and transfer of wealth, consistent with client's goals. Legal, tax, financial and non-financial aspects of estate planning process; trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.

**HD FS 485: Capstone: Family Financial Planning**

(3-0) Cr. 3. S.

*Prereq: (FIN 361 or HD FS 384); HD FS 341; HD FS 378; HD FS 383; HD FS 482*  
Development and refinement of competencies required by personal financial planners to work with individuals and families in meeting financial objectives. Utilization of skills obtained in financial planning emphasis to complete one or more financial planning narratives.

**HD FS 486: Administration of Human Services Programs**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 369; 3 additional credits in HD FS at 300 level or above; Junior or Senior classification*

Examination of purpose, policies, staffing, operations, and clientele of organizations serving children, adults and families with diverse needs. Management/leadership principles and techniques. Introduction to financial management. Administrators/supervisors roles in employee management as well as development of client-oriented programs, fundraising, goal setting, strategic planning, and advocacy.

**HD FS 489: Financial Counseling**

(Dual-listed with HD FS 589). (2-0) Cr. 2. F.

*Prereq: HD FS 489; HD FS 283, HD FS 589: Graduate classification*

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

**HD FS 489L: Financial Counseling Laboratory**

(Dual-listed with HD FS 589L). (0-2) Cr. 1. Repeatable, maximum of 2 credits. F.

*Prereq: HD FS 489L; HD FS 283, HD FS 589: Graduate classification*

Hands-on financial counseling experience using preventative, remedial, and productive strategies in one-on-one and/or group situations. Students work with clients to develop diverse and inclusive decision-making and problem-solving methods to achieve goals or to remove barriers.

**HD FS 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*  
Consult department office for procedure.

**HD FS 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*  
Consult department office for procedure.

**HD FS 490I: Independent Study: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*  
Consult department office for procedure.

**HD FS 491: Internship**

Cr. 4-9. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: HD FS 418B; Senior classification; minimum 2.0 cumulative GPA; Department Permission*

Supervised work experience related to the student's curriculum. Offered on a satisfactory-fail basis only.

**HD FS 493: Workshop**

(Dual-listed with HD FS 593). Cr. arr. Repeatable. F.S.SS.

*Prereq: Senior classification*

Workshop in HD FS.

**HD FS 499: Research**

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Supervised research experience.

**Courses primarily for graduate students, open to qualified undergraduates:**

**HD FS 501: Graduate Studies, Research, and Ethics in HD FS**

(2-0) Cr. 2. F.

*Prereq: Admission to HD FS Graduate program*

Overview of graduate study, research, ethics, and professional development in the field of human development and family studies. Curriculum, programs of study, portfolios, faculty research interests, dissemination of research, career planning, and teaching discussed.

**HD FS 502: Professional Development in Human Development and Family Studies**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: graduate classification; HD FS 501*

Overview of professional skills, portfolio building, preparation for academic and nonacademic jobs, leadership fundamentals and project management training, time management, work balance issues, and professional ethics. Opportunities for graduate students to work on their professional development tailored to individual needs of students. Develop an individual professional portfolio.

**HD FS 503: Introduction to Research Design**

(4-0) Cr. 4. F.

*Prereq: Permission of instructor*

Basic research skills including developing research questions, posing testable hypotheses, determining appropriate data collection and analyses, and identifying the benefits and limitations of various sampling strategies. Measurement theory, observational assessments, survey research, experimental and quasi-experimental designs, analysis of secondary data, and qualitative research methods.

**HD FS 504: Qualitative Research Methods**

(3-0) Cr. 3. S.

*Prereq: 9 credits of social sciences or permission of instructor*

Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.

**HD FS 505: Application of Quantitative Research Methods**

(3-0) Cr. 3. S.

*Prereq: HD FS 503 or permission of instructor*

Descriptive and inferential statistics, hypothesis testing, scales of measurement, comparisons of proportions, correlations between variables, the t distribution, analysis of variance, and multiple regression.

**HD FS 510: Theories of Human Development**

(3-0) Cr. 3. F.SS.

*Prereq: 9 credits of social sciences or permission of instructor*

Theoretical approaches and current research in child, adolescent, and adult development. Individual life span perspectives. Implications for research, policy and practice. (Summer course offering is on-line).

**HD FS 511: Family Theory**

(3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Implications for research, policy and practice.

**HD FS 530: Perspectives in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. F.

Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

**HD FS 534: Adult Development**

(Cross-listed with GERON). (3-0) Cr. 3. S.

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

**HD FS 538: Developmental Disabilities**

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: 9 credits in human development and family studies or psychology or permission of instructor*

Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

**HD FS 541: Housing and Real Estate in Family Financial Planning**

(Cross-listed with FFP). (3-0) Cr. 3. Alt. SS., offered even-numbered years.

The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

**HD FS 545: Economics, Public Policy, and Aging**

(Cross-listed with GERON). (3-0) Cr. 3. F.

Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

**HD FS 555: Current Issues and Research in Early Childhood Services**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Analysis of contemporary and historical early childhood/early intervention/early childhood special education model programs and services. Examination of relationships among service systems and implementation, program quality, teacher effectiveness, and outcomes for children with and without disabilities. (on-line course offering via Distance Education).

**HD FS 563: Environments for the Aging**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies or permission of instructor*

Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management.

Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Meets U.S. Diversity Requirement

**HD FS 566: Family Policy**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 6 credits in social sciences or permission of instructor*

An introduction to policy for family researchers and practitioners.

Examination of relevant policies through a family lens via discussion of theory and student interests in current and enduring family policies and programs. Descriptions of work roles in family policy and the interaction of family researchers and policymakers.

**HD FS 567: Family Stress, Abuse, and Illness**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Explores research related to family stress within romantic, parent-child, and sibling relationships. Examines contemporary theory and research on the nature, causes, and consequences of family stressors. These stressors include, but are not limited to economic distress; physical and emotional abuse; substance abuse; and mental and physical illness across the life span. (on-line course offering via Distance Education).

**HD FS 568: Individual and Family Assessment**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Use of interviews, observational assessments, direct tests with individuals and families for research and intervention. Opportunities to practice assessments.

**HD FS 575: Cross-cultural Perspectives about Families and Children**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: 6 credits in social sciences or permission of instructor*

Review of current research regarding family diversity including an examination of cultural and structural influences on the development and well-being of families and children. Discussion of the impact on human rights and social justice. (on-line course offering via Distance Education).

**HD FS 577: Aging in the Family Setting**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships.

Related issues including demographics also are examined through the use of current literature.

**HD FS 579: Family Well-being Across the Lifespan**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Review of current research to provide a theoretical and practical understanding of the economic, social, and psychological factors that influence interpersonal relationships and individual well-being within the institution of the family system. Economic and policy effects considered. (on-line course offering via Distance Education).

**HD FS 581: International Study in Human Development and Family Studies**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581A: International Study in HD FS: Practicum**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581B: International Study in HD FS: Exchange**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581C: International Study in HD FS: Group Study**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 583: Investing for the Family's Future**

(Cross-listed with FFP). (3-0) Cr. 3. F.

Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices.

**HD FS 584: Program Evaluation and Research Methods in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. S.

Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

**HD FS 585: Program Evaluation**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* 6 credits in graduate level social sciences or permission of instructor

Theoretical and practical issues related to design and implementation of program evaluation in social sciences. Includes theory, design, implementation, analysis and proposal writing to assist programs to be successful in meeting program goals.

**HD FS 588: Family, Income, and the Economy**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* 9 credits in social sciences or permission of instructor

Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

**HD FS 589: Financial Counseling**

(Dual-listed with HD FS 489). (2-0) Cr. 2. F.

*Prereq:* HD FS 489: HD FS 283, HD FS 589: Graduate classification

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

**HD FS 589L: Financial Counseling Laboratory**

(Dual-listed with HD FS 489L). (0-2) Cr. 1. Repeatable, maximum of 2 credits. F.

*Prereq:* HD FS 489L: HD FS 283, HD FS 589: Graduate classification

Hands-on financial counseling experience using preventative, remedial, and productive strategies in one-on-one and/or group situations. Students work with clients to develop diverse and inclusive decision-making and problem-solving methods to achieve goals or to remove barriers.

**HD FS 590: Special Topics**

Cr. arr. Repeatable.

*Prereq:* Permission of instructor

Consult department office on procedure for filing a written plan of study.

**HD FS 590I: Special Topics: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq:* Permission of instructor

Consult department office on procedure for filing a written plan of study.

**HD FS 590R: Special Topics**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* Permission of instructor

Consult department office on procedure for filing a written plan of study.

**HD FS 591: Internship**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* 10 graduate credits

Supervised experience in an area of human development and family studies.

**HD FS 591I: Internship: Human Development and Family Studies**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* 10 graduate credits

Supervised experience in an area of human development and family studies.

**HD FS 593: Workshop**

(Dual-listed with HD FS 493). Cr. arr. Repeatable. F.S.SS.

*Prereq:* Senior classification

Workshop in HD FS.

**HD FS 594: Professional Seminar in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

**HD FS 599: Creative Component**

Cr. arr. F.S.SS.

*Prereq:* 9 graduate credits in HD FS

Nonthesis creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor).

**Courses for graduate students:****HD FS 603: Advanced Quantitative Methods**

(3-0) Cr. 3. F.

*Prereq:* HD FS 503, HD FS 505; STAT 402 or STAT 404 or permission of instructor

Methodological and analytical issues in research in human development and family studies. Advanced research design and measurement, selection of statistical techniques, and issues in the interpretation of findings.

**HD FS 604: Advanced Qualitative Methods**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 504 or permission of instructor*

Research methodologies including phenomenology, grounded theory, ethnography, and case studies. Methods of data collection and analysis procedures. Issues of ethics and interpretation of findings. (on-line course offering via Distance Education).

**HD FS 605: Multi-level Modeling**

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 503 and HD FS 505 or STAT 404 or permission of instructor*

Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves.

**HD FS 606: Advanced Structural Equation and Longitudinal Modeling**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 603 or STAT 404 or permission of instructor*

Rationale for and interpretation of advanced structural equation modeling for the analysis of longitudinal data. Emphasis will be placed on developing a working familiarity with some of the common statistical procedures, coupled with their application through the use of statistical software.

**HD FS 607: Mixed Methods**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 503, HD FS 504, HD FS 505, or permission of instructor*

Foundations of mixed methods research, controversies, and philosophical concerns. Rationale for and interpretation of mixed methods designs. Research design, sampling, data collection, data analysis, results, and interpretation. (on-line course offering via Distance Education).

**HD FS 608: Grant Writing for Research**

(3-0) Cr. 3. F.

*Prereq: HD FS 503, HD FS 505, and HD FS 504 or permission of instructor*

Understand how to identify funding sources as well as the fundamental components of a federal research grant proposal such as the abstract or summary, background and significance, specific aims/goals and objectives, project design and methods, sustainability, assessment, broader impacts, dissemination, budget, budget justification, and cover letter.

**HD FS 616: Seminar**

Cr. arr.

May be repeated. F.S.SS.

**HD FS 631: Child Health and Development**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Young children's cognitive, physical, communication, and social-emotional health and development will be examined. Both typical and atypical trajectories will be explored. Research on current trends in the field will be emphasized. (on-line course offering via Distance Education).

**HD FS 632: Behavioral Interventions in Early Childhood**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Issues related to behavioral development and needs of children ages 3-8. Design and implementation of group and individual behavioral interventions. Discussion of coaching strategies to improve intervention implementation. (on-line course offering via Distance Education).

**HD FS 633: Infant Mental Health**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Examination of the individual, interpersonal, and familial factors that influence infant (birth through age 3) mental health. Analysis of the risk and protective factors that influence these systems and their potential effects on social-emotional development. Current issues relating to effective programs for improving parent-infant interactions and additional supports available to families. (on-line course offering via Distance Education).

**HD FS 634: Adolescent and Emerging Adult Health and Development**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Theory and research on biopsychosocial, cognitive, physical and sexual health and development from early adolescence to emerging adulthood. Contexts of development including families, peers, schools, neighborhoods, romantic relationships, economics and public policies are considered. (on-line course offering via Distance Education).

**HD FS 635: Adult Development, Aging, and Health**

(Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Review of the impact of the growing older adult population as well as individual development and aging on individuals, families, and society. Exploration of theoretical perspectives applied to adult development and aging and distinction of normative and non-normative changes in adulthood. Discussion of methods to assess development across adulthood and consideration of the role of individual and environmental factors impacting efforts to optimize adult development.

**HD FS 640: Biomarkers and Family Research**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor.*

Research on the biological underpinnings of human development and the biobehavioral health of the family. Exposure to interdisciplinary research and practice on biomarkers in the family, with particular emphasis on health-and well being-related measures. Application of biomarker collection, measurement, analysis and dissemination.

**HD FS 690: Advanced Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor and enrollment in Ph.D. program***HD FS 690I: Advanced Topics: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq: Permission of instructor and enrollment in Ph.D. program***HD FS 691: Internship**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in the following specified areas.  
Offered on a satisfactory-fail basis only.

**HD FS 691A: Internship: College Teaching**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in college-level teaching. Offered on a satisfactory-fail basis only.

**HD FS 691B: Internship: Research**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in conducting research. Offered on a satisfactory-fail basis only.

**HD FS 691D: Internship: Professional Experience**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in relevant professional experiences.  
Offered on a satisfactory-fail basis only.

**HD FS 699: Research**

Cr. arr. Repeatable.

Thesis and dissertation research. Offered on a satisfactory-fail basis only.

**HD FS 699I: Research: Human Development and Family Studies**

Cr. arr. Repeatable.

Thesis and dissertation research. Offered on a satisfactory-fail basis only.

## Human Sciences (H SCI)

Human Sciences courses provide integrative study and enriching experiences in areas that cut across the diverse curricula of the College of Human Sciences. These may include such areas as leadership, global understanding, social justice/responsibility, and ethics. Students in any college may take these courses.

***Any experimental courses offered by H SCI can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****H SCI 110: Orientation and Human Sciences Career Exploration**

(2-0) Cr. 2. F.S.

Orientation and adjustment to the university and college; review of policies and procedures; academic resources; and course selection and planning. Comprehensive approach to career development; intensive self-analysis; and in-depth examination of majors in Human Sciences. Required for all students declared as an Undecided major in the College of Human Sciences.

**H SCI 150: Dialogues on Diversity**

(1-0) Cr. 1. F.S.

An exploration of diversity within the context of the Iowa State University community through understanding human relations issues.

**H SCI 301: Introduction to Global Human Sciences**

(1-0) Cr. 1. F.

Introduction to global aspects of human sciences disciplines. Emphasis on the core conceptual dimensions of global citizenship and how they connect to becoming a human scientist. Development and application of critical skills for civic literacy in a global context. Examination of global issues; connections among global, national, and local issues; and collaborative actions to find solutions to global challenges.

Meets International Perspectives Requirement.

**H SCI 302: Global Human Sciences Capstone**

(2-0) Cr. 2. S.

*Prereq: AESHM 421; H SCI 301*

Capstone experience for the Global Human Sciences Minor. Continued focus on global aspects of human sciences disciplines, global citizenship, critical skills for civic literacy, and becoming a human scientist. Development and public presentation of a creative component that represents the culmination of international experiences gained through the minor.

Meets International Perspectives Requirement.

**H SCI 398: Cooperative Education**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Permission of CHS Career Services*

For use for cooperative education students seeking full-time status while on internship. Students must register for this course prior to commencing each work period. No more than three credits may be taken in addition to H SCI 398 during any given semester. Course cannot be used to fulfill degree requirements. Therefore, this cannot be used for a required, academic internship. Offered on a satisfactory-fail basis only. This course cannot be used to fulfill degree requirements.

**H SCI 490: Independent Study**

Cr. 1-4.

*Prereq: Permission of Instructor*

**H SCI 490E: Entrepreneurship**

Cr. 1-4.

*Prereq: Permission of Instructor*

## Immunobiology (IMBIO)

***Any experimental courses offered by IMBIO can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

### Courses for graduate students:

**IMBIO 602: Current Topics Workshop in Immunology**

(1-0) Cr. 1. Repeatable. F.

Lectures provided by off-campus experts. Students are required to participate in discussion sessions with lecturers.

**IMBIO 604: Seminar in Immunobiology**

(1-0) Cr. 1. Repeatable. S.

Student and faculty presentation.

**IMBIO 661: Comparative Immunology and Infectious Disease**

(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Graduate level Immunology or Permission of Instructor*

Discuss and define similarities and differences of varied host responses to infectious challenge. Learning will focus on comparative aspects of the host response and the unique aspects of immunity from different organisms, while highlighting molecular and mechanistic similarities of pathogen recognition, response and resolution.

**IMBIO 690: Special Topics**

Cr. arr. Repeatable.

Advanced study of specific topics in specialized field of immunobiology.

**IMBIO 697: Graduate Research Rotation**

Cr. arr. Repeatable.

Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Immunobiology major.

**IMBIO 699: Research**

Cr. arr. Repeatable.

## Industrial Design (IND D)

***Any experimental courses offered by IND D can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

### Courses primarily for undergraduates:

**IND D 201: Industrial Design Studio I**

(0-12) Cr. 6. F.

*Prereq: Enrollment in IND D major*

This is the first studio in the program introducing students to the industrial design process by focusing on the fundamentals of problem solving, critical thinking, basic market research and subsequent idea generation, emphasizing on sketching, experimentation, model making, visual and physical communication, and presentation.

**IND D 202: Industrial Design Studio II**

(0-12) Cr. 6. S.

*Prereq: Enrollment in IND D major; IND D 201*

Through a series of exercises, the second studio in the program advances students' skills in sketching, modeling and visual, physical and communication skills required for industrial design practice. Students will be implementing the use of new technologies in digital drawing, computer aided design (CAD) and analog and digital fabrication.

**IND D 210: Fundamentals of Industrial Design**

(3-0) Cr. 3.

Introduction to the discipline of Industrial Design: its definition, scope and basic principles of the profession as a whole. Overview of technical, artistic and social context of the profession.

**IND D 220: Concepts of Sketching and Making I**

(1-4) Cr. 3.

Introduction to basic tools and techniques used in different phases of the industrial design process. This course is the first in a series of two addressing key aspects of analog and digital communication tools and fundamentals of prototyping from different modes of sketching to physical sketch models.

**IND D 240: Digital Tools For Industrial Design**

(3-0) Cr. 3.

Introduction of digital applications and workflows through the lens specific to industrial design tasks and professional practices.

**IND D 250: Activity-Centered Industrial Design**

(3-0) Cr. 3.

Introduction to design for complex and dynamic situations that include people, products, activities and environments. Emphasizes the relationship between internal and external factors that impact pleasure and performance in these systems. Includes an overview of human diversity and examines the role of the industrial designer in developing the artifacts of daily activity.

**IND D 260: Design engineering: From Thought to Thing**

(3-0) Cr. 3.

What is making, building, constructing, engineering and technology and their roles for industrial design? Investigation of making techniques, engineering methods and technological advancements through case studies of everyday objects. Exploration of questions about the impact of materials choice and technologies of fabrication. Modeling, prototyping capabilities, and constructing a par with the engineering realm. Application of construction methods to industrial design in an inclusive "makers-lab" environment.

**IND D 280: History of Industrial Design**

(3-0) Cr. 3.

Introduction to contemporary and historic factors influencing industrial design craft and practice. Discussion of social, political, cultural and technological context for industrial design.

**IND D 301: Industrial Design Studio III**

(0-12) Cr. 6. F.

*Prereq: Enrollment in IND D major; IND D 202*

Exploration and application of systematic design methodology including sustainable practices and integration of creative thinking techniques through a sequence of progressive exercises.

**IND D 302: Industrial Design Studio IV**

(0-12) Cr. 6.

*Prereq: (Enrollment in IND D major; IND D 301) OR Permission of Instructor*

Exploration of commercial factors in industrial design. Meets Industrial Design Experiential Learning Requirements.

**IND D 320: Design Research Methods**

(3-0) Cr. 3.

Qualitative and quantitative methods with an emphasis on contextual user-centered research. Integration of user data collection, visualization, and synthesis as a source for design.

**IND D 330: Creative Thinking in Design**

(3-0) Cr. 3.

Exploration and practice of strategies, methods, facilitation, and processes associated with creative thinking skills and problem solving. Investigation of the nature of creativity and its implications in different contexts.

**IND D 340: Digital Design Technologies**

(0-6) Cr. 3.

Emphasis on computer-aided visualization techniques for 3D rendering and digital fabrication. Exploration and practice of several computer modeling applications as digitization tools for industrial design.

**IND D 350: Applied Human Factors Lab**

(0-1) Cr. 1.

Theory and application of human factors issues in the industrial design field, specifically their impact on the relationship of the user, the product, the product systems, and environment.

**IND D 360: Materials and Processes for Industrial Design**

(3-0) Cr. 3.

Introduction to materials and manufacturing methods for mass production and distribution of products including design for assembly and disassembly.

**IND D 370: STEM literacy: How Things Work**

(3-0) Cr. 3.

Dismantling mysteries surrounding science and technology. Identifying key concepts from applied science, engineering and technology to obtain better understanding on how things work. Review and explanation of the principles behind the technologies that define our modern way of life. Common everyday technology such as building electronic gadgets, interface hardware with computers, writing applications, systems applications and making functional electronics units, are some of the examples illustrating scientific knowledge and applications.

**IND D 380: History and Culture of Objects**

(3-0) Cr. 3.

Critical examination of meanings of objects from the perspectives of history, design, material culture, philosophy and cultural studies. Discussion of social, political, cultural and technological context for industrial design.

**IND D 397: Industrial Design Internship**

(0-12) Cr. 1-6. Repeatable, maximum of 12 credits.

*Prereq: Enrollment in IND D major; IND D 202; 18 credits in IND D; Permission of Instructor*

Professional industrial design, off-campus experience. Meets Industrial Design Experiential Learning Requirements.

**IND D 401: Industrial Design Studio V: Commercial Practices**

(0-12) Cr. 6. Repeatable, maximum of 18 credits.

*Prereq: Enrollment in IND D major; IND D 301*

Advanced topics focused on industrial design applications in commercial industries. Topics vary each time offered. Meets Industrial Design Experiential Learning Credits.

**IND D 402: Industrial Design Studio: Design for Social Impact**

(0-12) Cr. 6. F.S.SS.

*Prereq: Enrollment in IND D major; IND D 301*

Advanced topics focused on industrial design applications in service-learning and community engagement projects. Topics vary each time offered.

**IND D 435: Strategic Design: Project Management**

Cr. 3.

Review and development of executable strategies for entrepreneurial, commercial and business efforts. Focus on strategic thinking, economics of innovation, tactical approaches and effective measures in order to integrate a full cycle of product/service development. Advanced technical design processes, design management, decision-making and value proposition.

**IND D 440: Portfolio and Professional Practice**

(1-4) Cr. 3.

*Prereq: Enrollment in IND D major; IND D 301*

Discussion of industrial design practices, job market and career roadmap planning. Development and preparation of personal promotional materials for a range of media, including professional websites, personal brand, resumes, cover letters, business cards, print and/or digital portfolios.

**IND D 460: Product Realization**

(3-0) Cr. 3.

*Prereq: Enrollment in IND D major; IND D 202*

Advanced techniques of prototyping and model making for industrial design, using materials and manufacturing methods for product development. Exploration of the stages of design fabrication, systems-level implementation, testing, and constructing a par with the engineering realm. Use of typical prototyping materials, such as foam, wood, metal, plastic, plus new and emerging materials; CNC and 3D printing technologies will also be applied. Coupling the "makers-lab" movement with design entrepreneurship, development of advanced functional models and high-fidelity prototypes.

**IND D 490: Special Topics**

Cr. 1-6. Repeatable, maximum of 18 credits. F.S.SS.

*Prereq: Permission of Instructor*

Advanced topics focused on industrial design applications. Topics vary each time offered. A. Theory, Criticism, Methodology; B. Experimental Techniques; C. Three Dimensional Design; D. Distributed Collaboration.

**IND D 490A: Special Topics: Theory, Criticism, Methodology**

Cr. 1-6. Repeatable, maximum of 18 credits.

*Prereq: Permission of Instructor*

Advanced topics focused on theory, criticism, and methodologies in industrial design applications.

**IND D 490B: Special Topics: Experimental Techniques**

Cr. 1-6. Repeatable, maximum of 18 credits.

*Prereq: Permission of Instructor*

Advanced topics focused on industrial design applications. Topics vary each time offered.

**IND D 490C: Special Topics: Three-Dimensional Design**

Cr. 1-6. Repeatable, maximum of 18 credits.

*Prereq: Permission of Instructor*

Advanced topics focused on distributed collaboration in industrial design applications. Topics vary each time offered.

**IND D 490D: Special Topics: Distributed Collaboration**

Cr. 1-6. Repeatable, maximum of 18 credits.

*Prereq: Permission of Instructor*

Advanced topics focused on distributed collaboration in industrial design applications. Topics vary each time offered.

**IND D 495: Study Abroad Option**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Enrollment in IND D major; IND D 202; Permission of Instructor*

Special topics in Industrial Design, design history, environmental design, historic and contemporary practice. Travel to relevant countries. General cultural and historical studies, topical projects, and individual inquiry. Courses may be taught by departmental faculty or faculty from approved Iowa State Study Abroad programs. See current offerings for detailed syllabus. Meetings industrial design experiential credit requirements.

**IND D 499: Senior Project**

(0-12) Cr. 6.

*Prereq: Enrollment in IND D major; (IND D 401, IND D 397, or IND D 495);*

*Senior classification in IND D*

Advanced practice in specialized area of industrial design. Topics vary.

**Courses primarily for graduate students, open to qualified undergraduates:**

**IND D 501: Industrial Design Graduate Studio I**

(0-12) Cr. 6.

*Prereq: Senior or graduate standing*

Fundamental concepts, design processes, and techniques for industrial design. Emphasis on project-based application of design models and procedures for form development, structure, function and communication.

**IND D 502: Industrial Design Graduate Studio II**

(0-12) Cr. 6.

*Prereq: Graduate standing*

Advanced project-based application of industrial design theories and techniques. Emphasis on service and systems design, and its implications for community and social innovation. Application of entrepreneurial factors and systematic design methodology of complex design problems and innovative solutions.

**IND D 505: MInD Lab I**

(1-4) Cr. 3. Repeatable, maximum of 2 times.

Workshop training sessions based on project-based themes of industrial design: weekly series of 'how-tos' and other practical demos regarding fundamentals, concepts and techniques of Design. Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**IND D 507: Industrial Design Practicum**

(0-12) Cr. 6. Repeatable.

*Prereq: Evidence of satisfactory experience in area of specialization; admitted by application and written permission of instructor only.*

Studio project focused on topics generated with external partners. Topics vary. Meets Industrial Design Experiential Learning Requirements.

**IND D 510: MInD Lab II**

(1-4) Cr. 3. Repeatable, maximum of 2 times.

Advanced workshop training sessions on application of industrial design concepts and skills: emphasis on executive demos on design thinking, service and system design, and its implications for the community and industry outreach. Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**IND D 515: Graduate Colloquium**

(1-0) Cr. 1. Repeatable.

*Prereq: Graduate standing*

Presentation and discussion of creative practices carried out in various design disciplines and their relationship to industrial design. Seminar sessions focusing on exemplary pieces of: design research undertaken by faculty; design education and learning pedagogies in design; and/or cross-disciplinary graduate work in design-related fields.

**IND D 520: Design Theory Methodology**

(3-0) Cr. 3.

*Prereq: Senior or graduate standing.*

Synthesis of methodological work in products of design. Theoretical framework that integrates in-depth concepts related to design activity, design science, research philosophies, cognitive models and cognitive biases, design processes from different fields, advanced creativity studies and problem reframing. User-centered research methods to examine the impact of design on humans, environments, and social contexts. Examination and critique of current research methods employed in industrial design, service design, design for interaction and user experience (UX) design.

**IND D 530: Design Thinking**

(3-0) Cr. 3.

*Prereq: Senior or graduate standing in any ISU program*

Exploration of design thinking process, toolkits, and mindsets as creative problem solving approaches for systems, products, and processes, across diverse contexts. Strategies for problem-framing, creative solutions and co-evolution process, with a focus on collaborative and interdisciplinary design to investigate real-world problems and opportunities.

**IND D 540: Design Communication**

(0-6) Cr. 3.

Emphasis on design narratives and story-telling. Exploration of creative digital media and multiple visual communication techniques which help break down complex information. Added professional development techniques such as positioning, intrapreneurship, design manifesto, design statement, client rapport, persuasive communication methods and speculative design will be applied.

**IND D 550: Human Factors: User Experience Design**

(3-0) Cr. 3.

Human factors issues and the study of relationships between the user, the product, and the human body and its physical functions. Advanced investigations of bio-mechanics, anthropometry, instrumental displays and control, and their measurement as they relate to the design process. Emphasis on experience design, user narratives, interactions and context mapping, mapping out issues of usability, design inclusivity, diversity and integrity.

**IND D 560: Change by Design: Disruptive Innovation**

(3-0) Cr. 3. F.

Exploration and execution of applied projects on civic entrepreneurship, social innovation and design activism. Through the 3 lenses of strategic, systems and critical thinking, it addresses the importance of design for social impact when applied to cases of service-learning, community-engagement, design ethics and transitional design. Change theory and management are central to examine diffusions and disruptions of innovation.

**IND D 570: Systems Thinking in Design**

(3-0) Cr. 3. F.

Emphasis on 21st Century Design Issues through systems thinking as language, problem-framing as pivoting process and transitional design as frame innovation model. Exploration of interconnected and dynamic 21st century global issues, where complexity and future industries play a key role. Issues such as societal transitions, loss of biodiversity and climate change, circular economy, eco-centric design, aging, equity, mobility, robotics, cybernetics, etc. are discussed and mapped out for industrial design applications.

**IND D 580: Material Culture and Values**

Cr. 3. S.

Examination of the meanings of objects from the perspectives of design, material culture, philosophy and cultural studies. Critically examine the role of objects in everyday life. Concepts include: value of things, semiotics, object fetishism, product semantics, consumer value and production labor. Case studies of historic and contemporary objects will be discussed to understand key theoretical concepts and to make meaningful connection between theory and everyday objects.

**IND D 590: Special Topics**

(1-12) Cr. 1-6. Repeatable, maximum of 18 credits. F.S.SS.

*Prereq: Completion of industrial design studio or permission of instructor.*

Advanced topics focused on industrial design applications. Topics include theory, criticism, methodology, experimental techniques, three dimensional design, distributed collaboration. Meets Industrial Design Experiential Learning Requirements.

**IND D 592: Special Projects**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Completion of industrial design studio or permission of instructor.*

Planned projects in topics related to theory, criticism, methodology, experimental techniques, three dimensional design, distributed collaboration.

**IND D 593: Experiential Learning Special Projects**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Completion of industrial design studio or permission of instructor.*

Project based topics related to theory, criticism, methodology, experimental learning, three dimensional design, distributed collaboration that supports experiential learning.

**IND D 595: Study Abroad Option**

(0-12) Cr. 6. Repeatable. F.S.SS.

*Prereq: Completion of industrial design studio or permission of instructor.*

International study abroad program. Visits to design studios, showrooms, museums and manufacturing facilities. Meets Industrial Design Experiential Learning Requirements.

**IND D 597: Internship**

(0-12) Cr. 1-6. Repeatable, maximum of 18 credits. F.S.SS.

*Prereq: 12 studio credits in INDD; Permission of Instructor*

Professional industrial design, off-campus experience. Meets Industrial Design Experiential Learning Requirements.

**Courses for graduate students:****IND D 601: Industrial Design Graduate Studio III**

(0-12) Cr. 6.

*Prereq: DSN S 501 or IND D 501*

Advanced studio-based creative component in specialized area of focus within industrial design or cross-disciplinary field. Prepares for graduate design project, culminating in a development plan, project initiation document and supporting documented inquiry.

**IND D 602: MInD Graduate Project**

(0-12) Cr. 6.

*Prereq: IND D 601*

Graduate project's creative component in specialized area of focus within industrial design or cross-disciplinary field. Culminates in a physical or digital artifact and supporting documentation such as graduate defense presentation and design process book.

**IND D 630: Critical Reflections for Thesis Preparation**

(3-0) Cr. 3. S.

*Prereq: Graduate standing*

Through the lenses of STEM literacy and critical thinking, exploration of why philosophy of science, technological and engineering literacies are connected to social justice and are related areas. Reflections on the effects of design projects on human health, social structures, and the environment, and examination of improvements in economic growth and quality of life. Case studies on the effects of Design and STEM to prepare for the formulation of graduate thesis or project topics, with proposed plan of investigations.

**IND D 640: Advanced Digital Technologies**

(1-4) Cr. 3.

Exploration of interactive technologies and digital thinking industries. Advanced concepts in computer to machine interface for manufacture, digital materiality, conversational interfaces, gamification, congruence, mixed reality AR/VR, and critical media for future industries.

**IND D 699: MInD Graduate Thesis**

(0-12) Cr. 6. Repeatable.

*Prereq: IND D 632*

Advanced research component in specialized area of focus within industrial design. Culminates in a thesis document.

## Industrial Engineering (I E)

*Any experimental courses offered by I E can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****I E 101: Industrial Engineering Profession**

Cr. R. F.S.

(1-0) Introduce students to the industrial engineering profession, its scope, industrial engineering tools, and future trends. Offered on a satisfactory-fail basis only.

**I E 148: Information Engineering**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in MATH 143*

Development of information solutions for engineering problems. Fundamentals of the software development process. Engineering computations and the human/computer interface. Data models and database development. Program connectivity and network applications. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**I E 222: Design & Analysis Methods for System Improvements**

(3-0) Cr. 3. S.

*Prereq: Credit or concurrent enrollment in I E 271*

Study of system improvement methods and strategies. Specific areas of lean system improvements include continuous improvement, setup reduction, workplace organization, and inventory and waste reduction. Methods and strategies to analyze and quantify the impact of changes.

**I E 248: Engineering System Design, Manufacturing Processes and Specifications**

(2-2) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in (I E 101; MAT E 273); MATH 166; PHYS 231*

Introduction to metrology, engineering drawings and specifications. Engineering methods for designing and improving systems. Theory, applications, and quality issues related to machining processes.

**I E 271: Applied Ergonomics and Work Design**

(3-0) Cr. 3. S.

*Prereq: PHYS 231; PHYS 231L*

Basic concepts of ergonomics and work design. Their impact on worker and work place productivity, and cost. Investigations of work physiology, biomechanics, anthropometry, work sampling, work evaluation methods, and their measurement as they relate to the design of human-machine systems.

**I E 305: Engineering Economic Analysis**

(3-0) Cr. 3. F.S.SS.

*Prereq: MATH 166*

Economic analysis of engineering decisions under uncertainty. Financial engineering basics including time value of money, cash flow estimation, and asset evaluation. Make versus buy decisions. Comparison of project alternatives accounting for taxation, depreciation, inflation, and risk.

**I E 312: Optimization**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in MATH 267*

Concepts, optimization and analysis techniques, and applications of operations research. Formulation of mathematical models for systems, concepts, and methods of improving search, linear programming and sensitivity analysis, network models, and integer programming.

**I E 341: Production Systems**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in I E 312; STAT 231*

Introduction of key concepts in the design and analysis of production systems. Topics include inventory control, forecasting, material requirement planning, Kanban systems, project planning and scheduling including Critical Path Method (CPM) and Program Evaluation Review Technique (PERT), operations scheduling, and other production systems such as Just-In-Time (JIT), warehousing, and global supply chains.

**I E 348: Solidification Processes**

(Cross-listed with MAT E). (2-2) Cr. 3. S.

*Prereq: I E 248 and MAT E 273, or MAT E 215*

Theory and applications related to metal casting, welding, polymer processing, powder metallurgy, and composites manufacturing, and related rapid manufacturing processes.

**I E 361: Statistical Quality Assurance**

(Cross-listed with STAT). (2-2) Cr. 3. F.S.

*Prereq: STAT 231, STAT 301, STAT 326, STAT 401, or STAT 587*

Statistical methods for process improvement. Simple quality assurance principles and tools. Measurement system precision and accuracy assessment. Control charts. Process capability assessment. Experimental design and analysis for process improvement. Significant external project in process improvement.

**I E 403: Introduction to Sustainable Production Systems**

(Dual-listed with I E 503). (3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment I E 341*

Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems.

**I E 405: Advanced Engineering Economy for Complex Engineering Projects**

(Dual-listed with I E 505). (3-0) Cr. 3.

*Prereq: MATH 265, MATH 267, STAT 231 and I E 305, or permission by instructor*

Overview of engineering economic valuation and complex engineering projects. Stochastic dynamic programming for project valuation. Modeling and analysis of confounding factors of engineering projects. Integration and synthesis of valuation methodologies to complex projects. Applications to power plants, transmission networks, and satellites.

**I E 413: Stochastic Modeling, Analysis and Simulation**

(4-0) Cr. 4. F.

*Prereq: MATH 265, STAT 231*

Development of probabilistic and simulation models using a simulation language. Introduction to Markov processes and other queuing models. Application to various areas of manufacturing and service systems such as assembly, material handling, and customer queues. Fitting of statistical distributions to data. Utilization of model output towards improved decision-making.

**I E 420: Engineering Problem Solving with R**

(Dual-listed with I E 520). Cr. 3. S.

*Prereq: An introductory statistics course: Stat 231 or equivalent*

Introduction to data analytics using R programming language. Data manipulation. Exploratory data analysis via basic graphics. Basic statistical analysis including statistical tests and linear regression. R Markdown. Simulation by replicating a calculation. Conditional expressions, loops, and functions. High level data visualizations using ggplot graphics. Data extraction from text. Optimization via R build-in functions. Logistic regression. High performance computing tools. Project required for graduate credits.

**I E 430: Entrepreneurial Product Engineering**

(Cross-listed with ENGR). Cr. 3. F/Alt. S., offered irregularly.

*Prereq: Junior classification*

Process of innovative product development in both entrepreneurial and intra-preneurial settings. Define, prototype and validate a product concept based on competitive bench-marking, market positioning and customer requirement evaluation in a target market into a product design that is consistent with defined business goals and strategies. Combination of lecture, discussion, problem solving and case study review.

**I E 432: Industrial Automation**

(2-3) Cr. 3. S.

*Prereq: PHYS 232; PHYS 232L*

Overview of electrical circuit theory and its relationship to industrial control systems. Theory and application of transducers in the form of sensors and actuators, with applications in manufacturing, distribution and mechanical systems. Programmable Logic Controllers (PLC), their programming and use for automation solutions. Introduction of automated identification systems such as Radio Frequency Identification (RFID) and Bar Coding technologies.

**I E 437: Reliability and Safety Engineering**

(Dual-listed with I E 537). (3-0) Cr. 3.

*Prereq: STAT 231 or STAT 305 or STAT 587*

Mathematical basics for dealing with reliability data, theory, and analysis. Bayesian reliability analysis. Engineering ethics in safety evaluations. Case studies of accidents in large technological systems. Fault and event tree analysis.

**I E 441: Industrial Engineering Design**

(1-6) Cr. 3. F.S.

*Prereq: I E 248, I E 271, I E 361; credit or enrollment in I E 341, I E 413, and I E 448*

A large, open-ended design project related to an enterprise. Application of engineering design principles including problem definition, analysis, synthesis, and evaluation.

**I E 444: Micro/Nano Scale Additive Printing**

(Dual-listed with I E 544). (3-0) Cr. 3. F.

*Prereq: I E 348 or equivalent manufacturing engineering course*

Introduction of physical theory, design, analysis, fabrication, and characterization of micro/nano scale fabrication and manufacturing systems; introduction of micro/nano scale additive manufacturing; and deep understanding of additive printing for micro/nano scale applications. Focus on the fabrication/manufacturing of important types of microstructures used in micro/nano devices using additive printing, and the techniques and tools used to characterize them. Students are expected to finish a team project related applying additive printing experimentally or theoretically to the design of a sensor.

**I E 445: Additive Manufacturing and Rapid Production Methods**

(Dual-listed with I E 545). (3-0) Cr. 3.

*Prereq: I E 248 or similar manufacturing engineering course, MATH 265. For I E 545: Undergraduates at Senior Standing if given permission by instructor.*

Introduction to additive manufacturing and other rapid prototyping and manufacturing methodologies. Operating principles and characteristics of current and developing processes. Use of rapid prototypes in product design, development, and service. Selection of rapid prototyping and manufacturing systems, from design to mass production. Hybrid manufacturing and other integration of rapid production methods.

**I E 446: Geometric Variability in Manufacturing**

(Dual-listed with I E 546). (3-0) Cr. 3.

*Prereq: I E 348 or MAT E 216 or M E 324*

Assessment, accommodation, and control of geometric variability in manufacturing processes, specifically composites, metalcasting, welding, machining, powder metallurgy and additive processing. Techniques include the design of the component, tooling, process plan and inspection methodology.

**I E 447: Biomedical Design and Manufacturing**

(Dual-listed with I E 547). (Cross-listed with B M E). (3-0) Cr. 3.

*Prereq: Undergraduate students with three semesters or less before graduation while graduate standing for graduate students*

Exploration of biology, materials, body mechanics, manufacturing, quality control, and ethics and the intersection of these subjects as they relate to biomedical manufacturing. Study of medical data (CT, MRI, etc.) processing, biomedical design, 3D bioprinting and additive manufacturing concepts.

**I E 448: Manufacturing Systems Engineering**

(3-0) Cr. 3. S.

*Prereq: I E 248*

Fixturing and tooling requirements for manufacturing process planning, geometric dimensioning and tolerancing, computer aided inspection, cellular and flexible manufacturing, facility layout and controlled flow production.

**I E 449: Computer Aided Design and Manufacturing**

(Dual-listed with I E 549). (3-0) Cr. 3.

*Prereq: Prereq: I E 248 or similar manufacturing engineering course, MATH 265.*

Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

**I E 450: Technical Sales for Engineers**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in I E 305*

Sales process methodology, techniques for building professional relationships, sales automation software, prospecting and account development, market analysis and segmentation, responding to RFQ's and RFP's in written and verbal form. Developing technical value propositions and competitive positioning, evaluating organizational decision processes and people, technical marketing strategies, sales closing strategies.

**I E 452: Introduction To Systems Engineering And Analysis**

(Cross-listed with AER E). Cr. 3. SS.

*Prereq: Junior classification in an Engineering major*

Principles of systems engineering to include problem statement formulation, stakeholder analysis, requirements definition, system architecture and concept generation, system integration and interface management, verification and validation, and system commissioning and decommissioning operations. Introduction to discrete event simulation processes. Students will work in groups to propose, research, and present findings for a systems engineering topic of current relevance.

**I E 468: Large-Scale Complex Engineered Systems (LSCES)**

(Dual-listed with I E 568). (Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: Senior classification in College of Engineering or Permission of Instructor*

Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

**I E 470: Systems Engineering and Project Management**

(Dual-listed with I E 570). (3-0) Cr. 3.

*Prereq: Prerequisite I E 305 and course in basic statistics.*

Systems view of projects and the processes by which they are implemented. Focuses on qualitative and quantitative tools and techniques of project management. Topics will include organizational structure types; project selection methodologies; simulation and optimization; and earned value management. Case studies will be included, and a group project required.

**I E 472: Design and Evaluation of Human-Computer Interaction**

(Dual-listed with I E 572). (3-0) Cr. 3.

*Prereq: I E 271 or graduate classification*

Human factors methods applied to interface requirements, design, prototyping, and evaluation. Concepts related to understanding user characteristics, design principles, usability analysis, methods and techniques for design and evaluation of the interface. The evaluation and design of the information presentation characteristics of a wide variety of interfaces: web sites (e-commerce), mobile applications, and information presentation systems (cockpits, instrumentation, etc.).

**I E 481: e-Commerce Systems Engineering**

(Dual-listed with I E 581). (3-0) Cr. 3.

*Prereq: I E 148*

Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems, SQL, exchange protocols, client/server model, web-based views.

**I E 483: Data Mining**

(Dual-listed with I E 583). (3-0) Cr. 3.

*Prereq: I E 148, I E 312, and STAT 231*

Foundations of classification, data clustering and association rule mining. Techniques for data mining, with focus on tree-based methods for classification (simple trees, random forest and boosted trees), ensemble learning, optimization algorithms and deep learning with neural networks. Performance metrics and resampling methods for evaluating model quality. A computing project in R is required.

**I E 487: Big Data Analytics and Optimization**

(Dual-listed with I E 587). Cr. 3. S.

*Prereq: IE 312, Stat 231*

Optimization and statistical learning related to big data problems. Modern modeling for data-driven optimization problems and their applications in big data analytics. Algorithms for optimization and statistical learning and their implementation. Applications in manufacturing sector and service sciences.

**I E 490: Independent Study**

Cr. 1-5. Repeatable.

*Prereq: Senior classification; Permission of Instructor*

Independent study and work in the areas of industrial engineering design, practice, or research.

**I E 490H: Independent Study: Honors**

Cr. 1-5. Repeatable.

*Prereq: Senior classification; Permission of Instructor*

Independent study and work in the areas of industrial engineering design, practice, or research.

**Courses primarily for graduate students, open to qualified undergraduates:****I E 501: I E Graduate Seminar**

Cr. R. Repeatable.

*Prereq: Enrollment in graduate program in Industrial Engineering. Research presentations by internal and external scholars.*

Principles and practices for research tasks at the M.S. level including proposal writing, presentations, paper preparation, and project management. Offered on a satisfactory-fail basis only.

**I E 503: Introduction to Sustainable Production Systems**

(Dual-listed with I E 403). (3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment I E 341*

Quantitative introduction of sustainability concepts in production planning and inventory control. Review of material recovery (recycling) and product/component recovery (remanufacturing) from productivity perspectives. Sustainability rubrics ranging from design and process to systems. Application to multi-echelon networks subject to forward/backward flow of material and information. Closed-loop supply chains. Comparative study of sustainable vs. traditional models for local and global production systems.

**I E 505: Advanced Engineering Economy for Complex Engineering Projects**

(Dual-listed with I E 405). (3-0) Cr. 3.

*Prereq: MATH 265, MATH 267, STAT 231 and I E 305, or permission by instructor*

Overview of engineering economic valuation and complex engineering projects. Stochastic dynamic programming for project valuation. Modeling and analysis of confounding factors of engineering projects. Integration and synthesis of valuation methodologies to complex projects. Applications to power plants, transmission networks, and satellites.

**I E 508: Design and Analysis of Allocation Mechanisms**

(3-0) Cr. 3.

*Prereq: I E 312 or MATH 307*

Market-based allocation mechanisms from quantitative economic systems perspective. Pricing and costing models designed and analyzed with respect to decentralized decision processes, information requirements, and coordination. Financial Engineering Techniques. Case studies and examples from industries such as regulated utilities, semiconductor manufacturers, and financial engineering services.

**I E 510: Network Analysis**

(3-0) Cr. 3.

*Prereq: I E 312*

Formulation and solution of deterministic network flow problems including shortest path, minimum cost flow, and maximum flow. Network and graph formulations of combinatorial problems including assignment, matching, and spanning trees. Solution algorithm design and analysis based on optimality conditions and duality.

**I E 513: Analysis of Stochastic Systems**

(3-0) Cr. 3.

*Prereq: STAT 231*

Introduction to modeling and analysis of manufacturing and service systems subject to uncertainty. Topics include the Poisson process, renewal processes, Markov chains, and Brownian motion. Applications to inventory systems, production system design, production scheduling, reliability, and capacity planning.

**I E 514: Production Scheduling**

(3-0) Cr. 3.

*Prereq: I E 312, I E 341*

Introduction to the theory of machine shop systems. Complexity results for various systems such as job, flow and open shops. Applications of linear programming, integer programming, network analysis. Enumerative methods for machine sequencing. Introduction to stochastic scheduling.

**I E 519: Simulation Modeling and Analysis**

(3-0) Cr. 3.

*Prereq: COM S 311, STAT 231 or equivalent basic stat courses*

Event scheduling, process interaction, and continuous modeling techniques. Introduction of Bayesian simulation techniques and commonly used numerical methods. Probability and statistics related to simulation parameters including run length, metrics, inference, design of experiments, variance reduction, and stopping rules. Simulation of stochastic concepts and processes. Aspects of simulation languages. A computing project in a programming language is required.

**I E 520: Engineering Problem Solving with R**

(Dual-listed with I E 420). Cr. 3. S.

*Prereq: An introductory statistics course: Stat 231 or equivalent*

Introduction to data analytics using R programming language. Data manipulation. Exploratory data analysis via basic graphics. Basic statistical analysis including statistical tests and linear regression. R Markdown. Simulation by replicating a calculation. Conditional expressions, loops, and functions. High level data visualizations using ggplot graphics. Data extraction from text. Optimization via R build-in functions. Logistic regression. High performance computing tools. Project required for graduate credits.

**I E 531: Quality Control and Engineering Statistics**

(Cross-listed with STAT). (3-0) Cr. 3.

*Prereq: STAT 401 or STAT 587; STAT 342 or STAT 447 or STAT 588*

Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

**I E 533: Reliability**

(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: STAT 342 or STAT 432 or STAT 447 or STAT 478 or STAT 578 or STAT 588*

Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrent events and degradation data; planning studies to obtain reliability data.

**I E 534: Linear Programming**

(3-0) Cr. 3.

*Prereq: I E 312*

Formulation of optimization problems as mathematical models, such as linear programming, integer programming, and multi-objective optimization. Introduction to classic optimization algorithms, such as Simplex and cutting plane algorithms. Basic concepts of duality theory and sensitivity analysis. Using computer solvers to obtain optimal solutions to optimization models.

**I E 537: Reliability and Safety Engineering**

(Dual-listed with I E 437). (3-0) Cr. 3.

*Prereq: STAT 231 or STAT 305 or STAT 587*

Mathematical basics for dealing with reliability data, theory, and analysis. Bayesian reliability analysis. Engineering ethics in safety evaluations. Case studies of accidents in large technological systems. Fault and event tree analysis.

**I E 541: Inventory Control and Production Planning**

(3-0) Cr. 3.

*Prereq: I E 341*

Economic Order Quantity, dynamic lot sizing, newsboy, base stock, and (Q,r) models. Material Requirements Planning, Just-In-Time (JIT), variability in production systems, push and pull production systems, aggregate and workforce planning, and capacity management. Supply Chain Contracts.

**I E 544: Micro/Nano Scale Additive Printing**

(Dual-listed with I E 444). (3-0) Cr. 3. F.

*Prereq: I E 348 or equivalent manufacturing engineering course*

Introduction of physical theory, design, analysis, fabrication, and characterization of micro/nano scale fabrication and manufacturing systems; introduction of micro/nano scale additive manufacturing; and deep understanding of additive printing for micro/nano scale applications. Focus on the fabrication/manufacturing of important types of microstructures used in micro/nano devices using additive printing, and the techniques and tools used to characterize them. Students are expected to finish a team project related applying additive printing experimentally or theoretically to the design of a sensor.

**I E 545: Additive Manufacturing and Rapid Production Methods**

(Dual-listed with I E 445). (3-0) Cr. 3.

*Prereq: I E 248 or similar manufacturing engineering course, MATH 265. For I E 545: Undergraduates at Senior Standing if given permission by instructor.*

Introduction to additive manufacturing and other rapid prototyping and manufacturing methodologies. Operating principles and characteristics of current and developing processes. Use of rapid prototypes in product design, development, and service. Selection of rapid prototyping and manufacturing systems, from design to mass production. Hybrid manufacturing and other integration of rapid production methods.

**I E 546: Geometric Variability in Manufacturing**

(Dual-listed with I E 446). (3-0) Cr. 3.

*Prereq: I E 348 or MATE 216 or ME 324*

Assessment, accommodation, and control of geometric variability in manufacturing processes, specifically composites, metalcasting, welding, machining, powder metallurgy and additive processing. Techniques include the design of the component, tooling, process plan and inspection methodology.

**I E 547: Biomedical Design and Manufacturing**

(Dual-listed with I E 447). (3-0) Cr. 3.

*Prereq: Undergraduate students with three semesters or less before graduation while graduate standing for graduate students*

Exploration of biology, materials, body mechanics, manufacturing, quality control, and ethics and the intersection of these subjects as they relate to biomedical manufacturing. Study of medical data (CT, MRI, etc.) processing, biomedical design, 3D bioprinting and additive manufacturing concepts.

**I E 549: Computer Aided Design and Manufacturing**

(Dual-listed with I E 449). (3-0) Cr. 3.

*Prereq: Prereq: I E 248 or similar manufacturing engineering course, MATH 265.*

Representation and interpretation of curves, surfaces and solids. Parametric curves and surfaces and solid modeling. Use of CAD software and CAD/CAM integration. Computer numerical control, CNC programming languages, and process planning.

**I E 560: Engineering Risk Analysis**

(3-0) Cr. 3.

*Prereq: Coursework in basic probability and statistics*

Overview of probabilistic risk analysis, modeling risks, and risk management. Topics include probability, influence diagrams, subjective probability assessment, fault tree analysis, decision making with uncertainty, risk perception, risk communication, and intelligent adversary. Use of Monte Carlo simulation to combine different sources of uncertainty and risk to generate probability distributions over an outcome. Application of probabilistic risk analysis to business investments, engineering systems, critical infrastructure, defense and security, and health systems.

**I E 561: Total Quality Management**

(3-0) Cr. 3.

*Prereq: Course in quality control*

Perspectives for how to analyze and implement total quality management in different organizations, to include manufacturing firms, service industries, the non-profit sector, and government agencies. Topics include the different viewpoints of quality (from the customer, workforce, and process perspective); aligning quality in an organization's goals; performance measurement; quality in supply chain management; and reliability. Some advanced statistical elements of quality control will also be discussed.

**I E 563: Engineering and Systems Management**

(3-0) Cr. 3.

*Prereq: Prerequisite I E 305 and course in basic statistics*

Introduction to engineering management concepts and examples relevant to the engineering manager today. Topics include decision trees and associated probabilities; personnel issues and challenges; working with management, client and the project team; personality types; and documents/forms that are useful for the engineering manager. Case studies, and a group project required.

**I E 564: Decision Analysis**

(3-0) Cr. 3.

*Prereq: Course in probability and statistics.*

Application of normative decision theory to problems with uncertainty and/or multiple objectives. The first decision framework will be a single-objective decision problem with uncertainty that takes into account a decision maker's attitude towards risk. The second decision framework will be a multi-criteria decision problem in which a decision maker has multiple objectives. Topics include utility theory, value of information, sensitivity analysis, value-focused thinking, cost-effectiveness analysis, influence diagrams, and behavioral decision making. Examples will be drawn from business, systems engineering and design, and government.

**I E 565: Systems Engineering and Analysis**

(Cross-listed with AER E, E E). (3-0) Cr. 3.

*Prereq: Coursework in basic statistics*

Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test and evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering.

**I E 566: Applied Systems Engineering**

(3-0) Cr. 3.

*Prereq: I E 565*

Design for reliability, maintainability, usability, supportability, producibility, disposability, and life cycle costs in the context of the systems engineering process. Students will be required to apply the principles of systems engineering to a project including proposal, program plan, systems engineering management plan, and test and evaluation plan. Not available for degrees in industrial engineering.

**I E 568: Large-Scale Complex Engineered Systems (LSCES)**

(Dual-listed with I E 468). (Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: Senior classification in College of Engineering or Permission of Instructor*

Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

**I E 570: Systems Engineering and Project Management**

(Dual-listed with I E 470). (3-0) Cr. 3.

*Prereq: Prerequisite I E 305 and course in basic statistics.*

Systems view of projects and the processes by which they are implemented. Focuses on qualitative and quantitative tools and techniques of project management. Topics will include organizational structure types; project selection methodologies; simulation and optimization; and earned value management. Case studies will be included, and a group project required.

**I E 571: Occupational Biomechanics**

(3-0) Cr. 3.

*Prereq: Course in statics such as C E 274*

Anatomical, physiological, and biomechanical bases of physical ergonomics. Anthropometry, body mechanics, strength of biomaterials, human motor control. Use of bioinstrumentation, passive industrial surveillance techniques and active risk assessment techniques. Acute injury and cumulative trauma disorders. Static and dynamic biomechanical modeling. Emphasis on low back, shoulder and hand/wrist biomechanics.

**I E 572: Design and Evaluation of Human-Computer Interaction**

(Dual-listed with I E 472). (3-0) Cr. 3.

*Prereq: I E 271 or graduate classification*

Human factors methods applied to interface requirements, design, prototyping, and evaluation. Concepts related to understanding user characteristics, design principles, usability analysis, methods and techniques for design and evaluation of the interface. The evaluation and design of the information presentation characteristics of a wide variety of interfaces: web sites (e-commerce), mobile applications, and information presentation systems (cockpits, instrumentation, etc.).

**I E 576: Human Factors in Product Design**

(3-0) Cr. 3.

*Prereq: I E 572 or I E 577*

Investigation of the human interface to consumer and industrial systems and products, providing a basis for their design and evaluation. Discussions of human factors in the product design process: modeling the human during product use; usability; human factors methods in product design evaluation; user-device interface; safety, warnings, and instructions for products; considerations for human factors in the design of products for international use.

**I E 577: Human Factors**

(3-0) Cr. 3.

*Prereq: I E 271 or graduate classification*

Physical and psychological factors affecting human performance in systems. Signal detection theory, human reliability modeling, information theory, and performance shaping applied to safety, reliability, productivity, stress reduction, training, and human/equipment interface design. Laboratory assignments related to system design and operation.

**I E 581: e-Commerce Systems Engineering**

(Dual-listed with I E 481). (3-0) Cr. 3.

*Prereq: I E 148*

Design, analysis, and implementation of e-commerce systems. Information infrastructure, enterprise models, enterprise processes, enterprise views. Data structures and algorithms used in e-commerce systems, SQL, exchange protocols, client/server model, web-based views.

**I E 582: Enterprise Modeling and Integration**

(3-0) Cr. 3.

*Prereq: 3 credits in information technology or information systems*

The design and analysis of enterprise models to support information engineering of enterprise-wide systems. Representation of system behavior and structure including process modeling, information modeling, and conceptual modeling. Applications in enterprise application integration, enterprise resource planning systems, product data management systems, and manufacturing execution systems.

**I E 583: Data Mining**

(Dual-listed with I E 483). (3-0) Cr. 3.

*Prereq: I E 148, I E 312, and STAT 231*

Foundations of classification, data clustering and association rule mining. Techniques for data mining, with focus on tree-based methods for classification (simple trees, random forest and boosted trees), ensemble learning, optimization algorithms and deep learning with neural networks. Performance metrics and resampling methods for evaluating model quality. A computing project in R is required.

**I E 585: Requirements and Architecture Engineering**

(3-0) Cr. 3.

*Prereq: 3 credits in information technology or information systems*

Principles and practices for requirements engineering as part of the product development process with emphasis on software systems engineering. Problem definition, problem analysis, requirements analysis, requirements elicitation, validation, specifications. Case studies using requirements engineering methods and techniques.

**I E 587: Big Data Analytics and Optimization**

(Dual-listed with I E 487). Cr. 3. S.

*Prereq: IE 312, Stat 231*

Optimization and statistical learning related to big data problems. Modern modeling for data-driven optimization problems and their applications in big data analytics. Algorithms for optimization and statistical learning and their implementation. Applications in manufacturing sector and service sciences.

**I E 588: Information Systems for Manufacturing**

(3-0) Cr. 3.

*Prereq: I E 148, I E 448*

Design and implementation of systems for the collection, maintenance, and usage of information needed for manufacturing operations, such as process control, quality, process definition, production definitions, inventory, and plant maintenance. Topics include interfacing with multiple data sources, methods to utilize the information to improve the process, system architectures, and maintaining adequate and accurate data for entities internal and external to the enterprise to achieve best manufacturing practices.

**I E 590: Special Topics**

Cr. 1-3. Repeatable.

Advanced study of a research topic in the field of industrial engineering.

**I E 599: Creative Component**

Cr. arr.

Offered on a satisfactory-fail basis only.

**Courses for graduate students:****I E 613: Stochastic Production Systems**

(3-0) Cr. 3.

*Prereq: I E 513*

Modeling techniques to evaluate performance and address issues in design, control, and operation of systems. Markov models of single-stage make-to-order and make-to-stock systems. Approximations for non-Markovian systems. Impact of variability on flow lines. Open and closed queuing networks.

**I E 631: Nonlinear Programming**

(3-0) Cr. 3.

*Prereq: I E 534*

Develop nonlinear models, convex sets and functions, optimality conditions, Lagrangian duality, unconstrained minimization techniques. Constrained minimization techniques covering penalty and barrier functions, sequential quadratic programming, the reduced gradient method, nonlinear control concepts.

**I E 632: Integer Programming**

(3-0) Cr. 3.

*Prereq: I E 534*

Integer programming including cutting planes, branch and bound, and Lagrangian relaxation. Introduction to complexity issues and search-based heuristics.

**I E 633: Stochastic Programming**

(3-0) Cr. 3.

*Prereq: I E 513 or STAT 447, I E 534 or equivalent*

Mathematical programming with uncertain parameters; modeling risk within optimization; multi-stage recourse and probabilistically constrained models; solution and approximation algorithms including Benders decomposition and progressive hedging; and applications to planning, allocation and design problems.

**I E 634: Computational Optimization**

(3-0) Cr. 3.

*Prereq: I E 534 or equivalent.*

Theory, algorithm, and computer implementation of optimization models. Simplex, Benders decomposition, computational complexity, mixed integer linear program, linear program with complementarity constraints, inverse optimization, bilevel discrete optimization. Open source and commercial optimization solvers will be introduced and used.

**I E 642: Simultaneous Engineering in Manufacturing Systems**

(3-0) Cr. 3.

*Prereq: I E 549 or M E 415*

Current engineering methods for the product life cycle process. Feature-based design, computer-aided process planning, and data-driven product engineering.

**I E 671: Research Practicum in Human Factors and Ergonomics**

(3-0) Cr. 3. Repeatable.

*Prereq: I E 571 or I E 577 or I E 572*

Research topic development, literature evaluation, experimental design, use of bioinstrumentation, data collection, basic data interpretation, statistical analysis, manuscript preparation.

**I E 672: Human Factors in Automation Design**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Graduate classification*

Concepts in human-automation systems, including levels of automation, types of automation, and level of control. Implications of how adaptive automation affects error, trust, workload, situation awareness, and performance. Understand how human operators are affected by automation implementation in real-world systems. Apply human factors concepts to the design and assessments of human-automation systems.

**I E 673: Spine Biomechanics**

(3-0) Cr. 3. Repeatable, maximum of 3 times. Alt. F., offered odd-numbered years.

*Prereq: I E 571 or equivalent*

Gross and fine anatomy of spine, mechanism of pain, epidemiology, in vitro testing, psychophysical studies, spine stability models, bioinstrumentation: intradiscal pressure, intra-abdominal pressure and electromyography. Biomechanics of lifting and twisting, effects of vibration, effects of posture/lifting style, lifting belts, physical models, optimization models, mathematical models, muscle models, finite element models, current trends in medical management and rehabilitation, chiropractic.

**I E 681: Cognitive Engineering**

(Cross-listed with HCI). (3-0) Cr. 3.

*Prereq: I E 572 or I E 577 or PSYCH 516 or HCI/PSYCH 521 or equivalent*

Provides an overview of human cognitive capabilities and limitations in the design of products, work places, and large systems. Contexts vary broadly and could range from simple use of mobile devices to an air-traffic control or nuclear plant command center. Course focuses on what we can infer about users' thoughts and feelings based on what we can measure about their performance and physiological state. Covers the challenge of designing automated systems.

**I E 690: Advanced Topics**

Cr. 1-3. Repeatable.

*Prereq: Permission of the instructor*

Advanced topics related to Ph.D. research in industrial engineering under the direction of the instructor.

**I E 697: Engineering Internship**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of department*

One Fall OR Spring semester combined with one summer, maximum per academic year. Excludes Fall/Spring combination. Professional work period. Offered satisfactory/fail basis only. (With Instructor Permission). Offered on a satisfactory-fail basis only.

**I E 699: Research**

Cr. arr. Repeatable.

# Integrated Studio Arts (ARTIS)

**Any experimental courses offered by ARTIS can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

## **ARTIS 201: Creative Visual Thinking**

(0-6) Cr. 3. F.S.

Exploration of the nature of visual perception in relation to issues of visual communication, problem solving, envisioning information, and visual thinking. Studio assignments to be digitized and sent to instructor electronically for evaluation and critique.

## **ARTIS 202: Studio Fundamentals: Wood**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students; sophomore level and above. Required of all ISA BFA majors*

Half-semester course. Introduction to wood's physical properties, its potential as an expressive medium, and basic wood working hand tools and techniques.

## **ARTIS 203: Studio Fundamentals: Jewelry/Metalsmithing**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students; sophomore level and above. Required of all ISA BFA majors*

Half semester course. Introduction to basic jewelry/metals design and fabrication. Forming, texturing, and joining techniques (soldering/riveting) will be explored and applied to two projects.

## **ARTIS 204: Studio Fundamentals: Ceramics**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors*

Half-semester course providing an introduction to ceramic techniques including hand-building, high fire and low fire glaze applications and expressive approaches that will be applied to two projects. The emphasis is on creative communication through ceramics.

## **ARTIS 206: Studio Fundamentals: Printmaking**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors.*

Introduction to relief, monoprint, intaglio, lithography, and screen printing as methods for visual communication and expression.

## **ARTIS 208: Color**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required for all ISA BFA majors.*

Half-semester course. Introduction to color theory and color systems using various media for visual communication and creative expression.

## **ARTIS 210: Studio Fundamentals: Photo**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors.*

Introduction to film camera operation and traditional black and white darkroom methods for visual communication and creative expression. Film cameras required for class but may be checked out for short periods during semester.

## **ARTIS 212: Studio Fundamentals: Digital Media**

(0-6) Cr. 3. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors.*

Introduction to digital media tools and concepts and digital fabrication processes to create two dimensional, three dimensional, and time-based artworks. Students will be introduced to major digital art and design software packages.

## **ARTIS 213: Studio Fundamentals: Painting**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors.*

Half-semester course. Introduction to preparation of painting grounds, color mixing, manipulation of paint and pictorial space as methods for visual communication and expression.

## **ARTIS 214: Studio Fundamentals: Textiles**

(0-8) Cr. 2. F.S.

*Prereq: Open to all students, sophomore level and above. Required of all ISA BFA majors.*

Half semester course. Introduction to two-dimensional and three-dimensional textile techniques used for visual communication and expression.

**ARTIS 227: Introduction to Creative Digital Photography**

(0-6) Cr. 3.

The functions and operations of the digital camera, scanning and other image input devices, digital image manipulation, software usage and support, color management and printing, presentation of images, compositional dynamics and the development of "seeing" as a medium of design, expression, and communication. Students should have access to a good or high quality digital camera with the ability to separately adjust shutter speed, f/stop and exposure, a laptop with updated Adobe Photoshop software, and enough digital storage for all class assignments.

**ARTIS 227H: Introduction to Creative Digital Photography: Honors**

(0-6) Cr. 3-4.

The functions and operations of the digital camera, scanning and other image input devices, digital image manipulation, software usage and support, color management and printing, presentation of images, compositional dynamics and the development of "seeing" as a medium of design, expression, and communication. Students should have access to a good or high quality digital camera with the ability to separately adjust shutter speed, f/stop and exposure, a laptop with updated Adobe Photoshop software, and enough digital storage for all class assignments.

**ARTIS 230: Drawing II**

(0-6) Cr. 3. F.S.

*Prereq: DSN S 102; DSN S 131; DSN S 183*

A continuation of DSN S 131. Further development of perceptual drawing skills from a variety of subject matter. Continued practice with drawing materials and techniques with emphasis on tonal and color media.

**ARTIS 233: Watercolor Painting**

(0-6) Cr. 3.

*Prereq: ARTIS 230*

Fundamentals of painting using water-based media applied to observation-based painting. Subject matter may include working from actual or two-dimensional references of still life, landscape, architectural space, and the human form.

**ARTIS 233H: Watercolor Painting: Honors**

(0-6) Cr. 3-4.

*Prereq: ARTIS 230*

Fundamentals of painting using water-based media applied to observation-based painting. Subject matter may include working from actual or two-dimensional references of still life, landscape, architectural space, and the human form.

**ARTIS 238: Painting I**

(0-6) Cr. 3. F.S.

*Prereq: ARTIS 230*

Fundamentals of painting using acrylic and oil media applied to observation-based painting. Subject matter may include working from actual or two-dimensional references of still life, landscape, and the human form.

**ARTIS 238H: Painting I: Honors**

(0-6) Cr. 3-4. F.S.

*Prereq: ARTIS 230*

Fundamentals of painting using acrylic and oil media applied to observation-based painting. Subject matter may include working from actual or two-dimensional references of still life, landscape, and the human form.

**ARTIS 305: Collage, Assemblage, and the Found Object**

(Dual-listed with ARTIS 505). (0-6) Cr. 3. Repeatable.

*Prereq: 6 credits of 200 level studio or permission of instructor*

Explores the significance of recycling, sustainable methods of art making, and thrift-store culture as medium and subject matter for artists in both 2D and 3D studio projects. Through selected readings, slide presentations, and studio activities, we will address the environmental cause and effect of materials and methods, consumption and waste, and personal responsibility as stewards for the planet we share. Emphasis will be on conceptual development.

**ARTIS 308: Computer Modeling, Rendering and Virtual Photography**

(0-6) Cr. 3.

Introduction to 3D modeling using computer and available software. Modeling, texturing, lighting, and rendering with respect to 3D object and still scene creation.

**ARTIS 308H: Computer Modeling, Rendering and Virtual Photography: Honors**

(0-6) Cr. 3-4.

Introduction to 3D modeling using computer and available software. Modeling, texturing, lighting, and rendering with respect to 3D object and still scene creation.

**ARTIS 310: Sources and Methods of Visual Art**

(1-4) Cr. 3.

Study and application of methods used by contemporary artists for the purpose of generating ideas for new work. Field trip.

**ARTIS 311: Contemporary Issues in Studio Art**

Cr. 3.

Exploration of issues and directions in current art. Readings, discussions, and studio research projects to build an experimental and applied knowledge base for understanding each student's place in the contemporary art world.

**ARTIS 320: Introduction to Furniture Design**

(0-6) Cr. 3.

*Prereq: ARTIS 202 or Permission of Instructor.*

Design and production of basic furniture forms in wood. Introduction to power tools. Develop an individual design process including an understanding of scale and proportion. Develop a deeper understanding of wood and the issues of sustainability in furniture design.

**ARTIS 320H: Introduction to Furniture Design: Honors**

(0-6) Cr. 3-4.

*Prereq: ARTIS 202 or Permission of Instructor.*

Design and production of basic furniture forms in wood. Introduction to power tools. Develop an individual design process including an understanding of scale and proportion. Develop a deeper understanding of wood and the issues of sustainability in furniture design.

**ARTIS 322: Intermediate Ceramics Studio**

(0-6) Cr. 3.

*Prereq: ARTIS 204 or Permission of Instructor.*

Investigation of expressive forms and techniques in ceramics; introduction to throwing on the wheel, to exploration of utilitarian and sculptural approaches in the medium, and to glaze-making research and electric kiln firing.

**ARTIS 322H: Intermediate Ceramics Studio: Honors**

(0-6) Cr. 3-4.

*Prereq: ARTIS 204 or Permission of Instructor.*

Investigation of expressive forms and techniques in ceramics; introduction to throwing on the wheel, to exploration of utilitarian and sculptural approaches in the medium, and to glaze-making research and electric kiln firing.

**ARTIS 323: Scientific Illustration Principles and Techniques**

(Cross-listed with BPM I). (0-6) Cr. 3. Repeatable.

*Prereq: DSN S 131, ARTIS 230, or equivalent, and 3 credits in biological sciences; or permission of the instructor*

Studio basics and professional techniques in black & white, continuous tone, and color. Introduction to professional practice and principles of communicating science through art. Emphasis on tools, materials, and rendering.

**ARTIS 324: Jewelry/Metalsmithing II**

(0-6) Cr. 3.

*Prereq: ARTIS 203 or Permission of Instructor*

Hands-on studio experience. Focusing on traditional and contemporary metalsmithing techniques applicable to jewelry, functional objects, and sculptural art forms. Topics include fabrication, forming and cold joinery, with an emphasis on design and progressive skill development. Basic stone setting and lost wax casting introduced.

**ARTIS 324H: Jewelry/Metalsmithing II: Honors**

(0-6) Cr. 3-4.

*Prereq: ARTIS 203 or Permission of Instructor*

Hands-on studio experience. Focusing on traditional and contemporary metalsmithing techniques applicable to jewelry, functional objects, and sculptural art forms. Topics include fabrication, forming and cold joinery, with an emphasis on design and progressive skill development. Basic stone setting and lost wax casting introduced.

**ARTIS 325: Integrated Studio Arts Seminar**

(2-0) Cr. 2. Repeatable, maximum of 6 credits.

*Prereq: Open to ISA BFA majors*

Contemporary issues in studio arts explored through lectures, presentations and critiques.

**ARTIS 326: Illustration and Illustration Software**

(Cross-listed with BPM I). (0-6) Cr. 3. Repeatable.

*Prereq: ARTIS 323 or BPM I 323 or Permission of Instructor*

An introduction to digital illustration software. Application of painting, drawing and image making techniques using vector and raster based programs.

**ARTIS 327: Illustration as Communication**

(Cross-listed with BPM I). (0-6) Cr. 3.

*Prereq: ARTIS 326 or BPM I 326 or Permission of Instructor*

Investigation of illustration as a form of communication. Emphasis on problem solving, effective composition, and advancement of rendering skills.

**ARTIS 329: Creative Photography**

(0-6) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARTIS 210 or Permission of Instructor*

Continuation and expansion of concepts and processes from introductory photography. The class begins with advanced film camera techniques and experimentation with medium format cameras. It then moves into digital and color photography while also addressing output and presentation. Emphasis will be on the use of photography for visual communication and creative expression.

**ARTIS 329H: Creative Photography, Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 6 credits.

*Prereq:* ARTIS 210 or Permission of Instructor

Continuation and expansion of concepts and processes from introductory photography. The class begins with advanced film camera techniques and experimentation with medium format cameras. It then moves into digital and color photography while also addressing output and presentation. Emphasis will be on the use of photography for visual communication and creative expression.

**ARTIS 330: Drawing III: Life Drawing**

(0-6) Cr. 3. Repeatable.

*Prereq:* ARTIS 230

Drawing from the human figure.

**ARTIS 330H: Drawing III: Life Drawing, Honors**

(0-6) Cr. 3-4. Repeatable.

*Prereq:* ARTIS 230

Drawing from the human figure.

**ARTIS 331: Alternative materials for Artist/Designer**

(3-0) Cr. 3. Repeatable. F.S.

*Prereq:* 200 level ISA studio courses, or permission of instructor

Exploration of alternative materials (primarily non-metallics, both natural and manufactured) applicable to the design and creation of small designed objects and adornment. Students will learn additive and reductive processes, experiment with found object inclusion, rubber mold-making, and resin casting. A series of finished pieces will result. Open to all majors in the College of Design.

**ARTIS 337: Application of Scientific Illustration Techniques**

(Cross-listed with BPM I). (0-6) Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq:* ARTIS 327

Rendering techniques applied to different types of biological and scientific subjects emphasizing communication. The use of traditional and digital media. Term project required.

**ARTIS 338: Painting II**

(0-6) Cr. 3. Repeatable.

*Prereq:* ARTIS 238 or ARTIS 213 and ARTIS 230

Painting using acrylic and oil media; composition and expression.

**ARTIS 338H: Painting II: Honors**

(0-6) Cr. 3-4. Repeatable.

*Prereq:* ARTIS 238 or ARTIS 213 and ARTIS 230

Painting using acrylic and oil media; composition and expression.

**ARTIS 345: Introduction to Weaving**

(0-6) Cr. 3. Repeatable.

Introduction to woven textile construction with emphasis on technical development of weaving as a means for creative expression. Students may explore tapestry, off-loom and/or 4-harness weaving.

**ARTIS 345H: Introduction to Weaving**

(0-6) Cr. 3-4. Repeatable.

Introduction to woven textile construction with emphasis on technical development of weaving as a means for creative expression. Students may explore tapestry, off-loom and/or 4-harness weaving.

**ARTIS 346: Natural Dyes**

(0-6) Cr. 3. Repeatable. F.S.

Introduction to natural dyes. Course includes a historical overview of natural dyes with attention to global perspectives. Emphasis on technical skill development and application of research in the creation of contemporary textile artwork, apparel and home furnishings.

**ARTIS 346H: Natural Dyes: Honors**

(0-6) Cr. 3-4. Repeatable. F.S.

Introduction to natural dyes. Course includes a historical overview of natural dyes with attention to global perspectives. Emphasis on technical skill development and application of research in the creation of contemporary textile artwork, apparel and home furnishings.

**ARTIS 347: Dyed and Printed Textiles**

(0-6) Cr. 3. Repeatable. F.S.

Fabric dyeing and printing techniques including block, stencil and experimental screen-printing, and resists using synthetic dyes, discharging agents, and pigments. Printing with plant-based dyes may also be explored. Digital printing and transfer printing on fabric may be introduced. Emphasis on research and development of dyed and printed textile design techniques as a means for creative expression.

**ARTIS 347H: Printed Textile Design: Honors**

(0-6) Cr. 3-4. Repeatable. F.S.

Textile hand-printing methods on fabric including block, stencil and experimental screen-printing using synthetic dyes, discharging agents and pigments. Printing with plant-based dyes will also be explored. Digital printing and transfer printing on fabric will be introduced. Emphasis on research and development of printed textile design techniques as a means for personal expression.

**ARTIS 356: Relief Printmaking: Digital/Traditional**

(Dual-listed with ARTIS 556). (0-6) Cr. 3-4. Repeatable, maximum of 6 credits. F.S.

*Prereq: For ARTIS 356: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 556: Graduate classification or instructor permission*

In-depth exploration of digital or traditional design and block cutting processes (computer/laser cutter/CNC router or drawing/chisels). Use relief printmaking to create a unified body of prints from those blocks. Emphasis is on experimental and creative use of printmaking with study of contemporary trends.

**ARTIS 356H: Relief Printmaking: Digital/Traditional, Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 6 credits. F.S.

*Prereq: ARTIS 206 and credit or enrollment in ARTIS 230, or Permission of Instructor*

Explore the techniques and aesthetic qualities of black and white and color relief printmaking with woodcuts, computer/laser cutter/CNC router blocks, or photopolymer plates. Emphasis is on experimental and creative use of printmaking with study of contemporary trends.

**ARTIS 357: Intaglio and Monotype Printmaking: Digital / Traditional**

(Dual-listed with ARTIS 557). (0-6) Cr. 3-4. Repeatable, maximum of 9 credits. F.S.

*Prereq: For ARTIS 357: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 557: Graduate classification or instructor permission*

Explore the techniques and aesthetic qualities of black and white and color intaglio printmaking primarily through etching, aquatint, laser-cut plates and collagraph processes. Students will generate imagery through traditional drawing, collage and digital processes. Unique, one-of-a-kind black and white and color prints from Plexiglas will also be introduced. Emphasis is on experimental and creative use of printmaking for artistic expression.

**ARTIS 357H: Intaglio and Monotype Printmaking: Digital / Traditional, Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission*

Explore the techniques and aesthetic qualities of black and white and color intaglio printmaking primarily through etching, aquatint, laser-cut plates and collagraph processes. Students will generate imagery through traditional drawing, collage and digital processes. Unique, one-of-a-kind black and white and color prints from Plexiglas will also be introduced. Emphasis is on experimental and creative use of printmaking for artistic expression.

**ARTIS 358: Lithography: Digital / Traditional**

(Dual-listed with ARTIS 558). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: For ARTIS 358: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 558: Graduate classification or instructor permission*

Examine the techniques and aesthetic qualities of lithography primarily through hand-drawn and photographic plates. Students may generate imagery through traditional drawing, collage or digital processes. Emphasis is on experimental and creative use of printmaking for artistic expression. For those taking the course for a second semester, focus is on stone lithography and increased work with color.

**ARTIS 358H: Lithography: Digital / Traditional, Honors**

(0-6) Cr. 3-4. Repeatable. F.S.

*Prereq: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission*

Examine the techniques and aesthetic qualities of lithography primarily through hand-drawn and photographic plates. Students may generate imagery through traditional drawing, collage or digital processes. Emphasis is on experimental and creative use of printmaking for artistic expression. For those taking the course for a second semester, focus is on stone lithography and increased work with color.

**ARTIS 399: BFA Professional Practice**

(2-0) Cr. 2. S.

*Prereq: Junior classification in ISA BFA curriculum.*

Introduction to professional practices including development of portfolio (visual and written components). Lecture and presentation topics include applying to graduate school, internships, applying for jobs, grants/funding opportunities, professional networking, exhibition opportunities, and best practices for studio artists. Half-semester course. Required of all ISA majors.

**ARTIS 407: Principles of Character Animation**

(Dual-listed with ARTIS 507). (0-6) Cr. 3. Repeatable, maximum of 9 credits.

Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed.

**ARTIS 407H: Principles of Character Animation: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 9 credits.

Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed.

**ARTIS 408: Principles of 3D Animation**

(0-6) Cr. 3. Repeatable.

*Prereq: ARTIS 308*

Animation techniques using the computer and available software. Principles of animation. Prior knowledge of modeling, lighting, texturing, animation and rendering with computer and available software is assumed.

**ARTIS 408H: Principles of 3D Animation: Honors**

(0-6) Cr. 3-4. Repeatable.

*Prereq: ARTIS 308*

Animation techniques using the computer and available software. Principles of animation. Prior knowledge of modeling, lighting, texturing, animation and rendering with computer and available software is assumed.

**ARTIS 409: Computer/Video Game Design and Development**

(Dual-listed with ARTIS 509). (0-6) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Permission of instructor. Programming emphasis: COM S 227, COM S 228, COM S 229 or equivalent in engineering; art or graphics emphasis: ARTIS 230 and ARTIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: Junior classification*  
Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

**ARTIS 420: Advanced Furniture Design**

(Dual-listed with ARTIS 520). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 320*

Design and creation of increasingly complex furniture forms with consideration of precedents and innovative techniques and approaches. Continued development of a unique personal approach to the design and making of furniture. Refined sensitivity to wood, and continued consideration of various sustainable practices.

**ARTIS 420H: Advanced Furniture Design: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 320*

Design and creation of increasingly complex furniture forms with consideration of precedents and innovative techniques and approaches. Continued development of a unique personal approach to the design and making of furniture. Refined sensitivity to wood, and continued consideration of various sustainable practices.

**ARTIS 422: Advanced Ceramic Studio**

(Dual-listed with ARTIS 522). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: For ARTIS 422: ARTIS 322. For ARTIS 522: graduate classification in the MFA program in Integrated Visual Arts; or permission of instructor*  
Creation of a body of work in personal ceramic forms and unique surface treatments. Exploration of kiln firings, research into contemporary ceramic artists and development of a body of increasingly skilled work are emphasized. Students are expected to be capable of independent studio work and take responsibility for firings.

**ARTIS 422H: Advanced Ceramic Studio: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 322*

Creation of a body of work in personal ceramic forms and unique surface treatments. Exploration of kiln firings, research into contemporary ceramic artists and development of a body of increasingly skilled work are emphasized. Students are expected to be capable of independent studio work and take responsibility for firings. Honors project developed with supervision from instructor.

**ARTIS 424: Jewelry/Metalsmithing III**

(Dual-listed with ARTIS 524). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 324 or Permission of Instructor*

Hands-on studio experience. Focusing on traditional and contemporary metalsmithing techniques applicable to jewelry, functional objects, and sculptural art forms. Topics include fabrication, forming and cold joinery, with an emphasis on design and progressive skill development. Basic stone setting and lost wax casting introduced.

**ARTIS 424H: Jewelry/Metalsmithing III: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 324 or Permission of Instructor*

Hands-on studio experience. Focusing on traditional and contemporary metalsmithing techniques applicable to jewelry, functional objects, and sculptural art forms. Topics include fabrication, forming and cold joinery, with an emphasis on design and progressive skill development. Basic stone setting and lost wax casting introduced.

**ARTIS 429: Advanced Photography**

(Dual-listed with ARTIS 529). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: ARTIS 329*

Independent, advanced work in traditional alternative and/or digital photographic processes. Emphasis is on development of a unified body of work and research into contemporary photographers and aesthetic concern.

**ARTIS 429H: Advanced Photography: Honors**

(0-6) Cr. 3-4. Repeatable. F.S.

*Prereq: ARTIS 329*

Independent, advanced work in traditional alternative and/or digital photographic processes. Emphasis is on development of a unified body of work and research into contemporary photographers and aesthetic concern.

**ARTIS 430: Drawing IV**

(Dual-listed with ARTIS 530). (0-6) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 330*

Figurative and/or non-figurative drawing with advanced work in media, composition, and theory.

**ARTIS 430H: Drawing IV: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 330*

Figurative and/or non-figurative drawing with advanced work in media, composition, and theory.

**ARTIS 431: Character and Scene Design**

(Dual-listed with ARTIS 531). Cr. 3. F.

*Prereq: For ARTIS 431: DSN S 131, plus ARTIS 230, ARTIS 330, or instructor permission after portfolio review. For ARTIS 531: Graduate classification in the MFA program in Integrated Visual Arts; or instructor permission after portfolio review.*

Drawing directed toward designing characters and environments to be used for telling stories in a variety of contexts. Emphasis on ideation, research, concept art and other process work over finished art.

**ARTIS 432: Sequential Narrative Drawing**

(Dual-listed with ARTIS 532). (0-6) Cr. 3. S.

*Prereq: For ARTIS 432: DSN S 131, plus ARTIS 230, ARTIS 330, or instructor permission after portfolio review. For ARTIS 532, Graduate classification in the MFA program in Integrated Visual Arts; or instructor permission after portfolio review.*

Studio course in drawing focusing on the fundamentals of communicating a narrative through sequential images in a variety of applications. Emphasis will be placed on visual research, ideation, concept art and process sketching.

**ARTIS 438: Painting III**

(Dual-listed with ARTIS 538). (0-6) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 338*

Figurative and non-figurative painting with advanced work in media, composition, and theory.

**ARTIS 438H: Painting III: Honors**

(0-6) Cr. 3-4. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 338*

Figurative and non-figurative painting with advanced work in media, composition, and theory.

**ARTIS 447: Dyed and Printed Textiles**

(Dual-listed with ARTIS 547). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: For ARTIS 447: ARTIS 347 or permission of instructor; For ARTIS 547: Graduate classification.*

Fabric dyeing and printing techniques including block, stencil and experimental screen-printing, and resists using synthetic dyes, discharging agents, and pigments. Printing with plant-based dyes may also be explored. Digital printing and transfer printing on fabric may be introduced. Emphasis on research and development of dyed and printed textile design techniques as a means for creative expression.

**ARTIS 448: Digital Textile Design**

(Dual-listed with ARTIS 548). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: Junior classification in either College of Design or Apparel, Merchandising, Design*

This hands-on studio course will allow students to explore digital printing technology and its application to textile design for those working within industry as well as independent studio practitioners. Digital design development includes pattern repeats and photo manipulation to create unique textile designs for fashion, interior and fine art applications.

**ARTIS 458: Advanced Printmaking**

(0-6) Cr. 3. Repeatable. F.S.

*Prereq: ARTIS 356, ARTIS 357, or ARTIS 358, and Permission of Instructor*  
Independent, advanced work in printmaking processes. Emphasis is on development of a unified body of work and research into contemporary artists.

**ARTIS 458H: Advanced Printmaking: Honors**

(0-6) Cr. 3-4. Repeatable. F.S.

*Prereq: ARTIS 356, ARTIS 357, or ARTIS 358, and Permission of Instructor*  
Independent, advanced work in printmaking processes. Emphasis is on development of a unified body of work and research into contemporary artists.

**ARTIS 460: Sustainable Design and Fabrication of Furniture**

(0-6) Cr. 3. F.S.

*Prereq: Senior standing or Permission of Instructor*

Issues in the design and fabrication of furniture focusing on sustainable practices. An exploration of current practices and their environmental effects, consumer demands, and alternative processes and materials.

**ARTIS 462: Community-Engaged Arts Management.**

(1-4) Cr. 3. F.S.

Introduction to aspects of community arts management and art gallery operations. Class meets at ISU Design on Main Gallery, a community arts space in the Main Street Cultural District of Ames. Students will staff the gallery and assist in the conception, design and realization of exhibitions.

**ARTIS 465: Artists, Designers and Sustainable Development**

(0-6) Cr. 3. S.

*Prereq: ARTIS 465: Senior standing or permission of instructor. ARTIS 565X: Graduate standing*

The artist/designer's role in sustainable development with a focus on cultural understanding of the collaborating communities. Class discussion, visual exercises, and the creation of creative collaborative service-learning projects such as product design, habitat design, and visual arts projects. Preorientation for travel to Ghana in ARTIS 466/566X. Meets International Perspectives Requirement.

**ARTIS 466: Studio Abroad: Africa**

(0-6) Cr. 3. SS.

*Prereq: ARTIS 465 or Permission of Instructor*

Traveling studio to Africa; an experiential tour of arts and history combined with design-focused collaborative service-learning projects. Projects may include product development, design consultation, sustainable building design, and learning and teaching of visual arts. Student teams will develop projects in partnership with in-country nationals.

Meets International Perspectives Requirement.

**ARTIS 473: Video Art**

(Dual-listed with ARTIS 573). (0-6) Cr. 3.

*Prereq: ARTIS 212 or permission of instructor for enrollment in ARTIS 473; graduate standing or permission of instructor for enrollment in ARTIS 573*

Usage of professional video editing software and application of best practices for video production and post-production to realize original artworks. Creation of narrative and non-narrative videos and site specific video installations. Prominent examples in the history of video art provide context for the coursework. Non-repeatable for graduate students.

**ARTIS 475: Interactive Art**

(Dual-listed with ARTIS 575). (0-6) Cr. 3.

*Prereq: For ARTIS 475: ARTIS 212 or Permission of Instructor; for ARTIS 575: Graduate standing or permission of instructor.*

Create software and integrate the sensors required to create interactive artworks, video games, and installations. Prominent examples in the history of interactive art provide context for the coursework.

**ARTIS 482: Selected Topics in Studio Art**

(Dual-listed with ARTIS 582). Cr. 1-3. Repeatable. F.S.

*Prereq: Permission of Instructor*

Special issues related to studio art. Topics vary each time offered.

**ARTIS 490: Independent Study**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed craft design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490B: Independent Study: Ceramics**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490C: Independent Study: Computer Art and Design**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490D: Independent Study: Drawing**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490E: Independent Study: Textiles**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490F: Independent Study: Illustration**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490G: Independent Study: Metals**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490H: Independent Study: Honors**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490I: Independent Study: Painting**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490J: Independent Study: Photography**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490K: Independent Study: Printmaking**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490L: Independent Study: Furniture**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 490M: Independent Study: Mixed Media**

Cr. 1-6. Repeatable.

*Prereq: Written approval of instructor and department chair on required form in advance of semester of enrollment*

Student must have completed coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTIS 491: Post Baccalaureate Capstone Course**

Cr. 1. F.S.

*Prereq: Enrollment in Integrated Studio Arts Post Baccalaureate*

Exhibition of artwork completed in the Post Baccalaureate program, required for fulfillment of certificate. Offered on a satisfactory-fail basis only.

**ARTIS 493: Workshop**

Cr. 1-3. Repeatable. SS.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493B: Workshop: Ceramics**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493C: Workshop: Computer Art and Design**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493D: Workshop: Drawing**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493E: Workshop: Textiles**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493F: Workshop: Illustration**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493G: Workshop: Metals**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493H: Workshop: Honors**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493I: Workshop: Painting**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493J: Workshop: Photography**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493K: Workshop: Printmaking**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493L: Workshop: Furniture**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 493M: Workshop: Mixed Media**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 494: Integrated Studio Arts in Europe Seminar**

(1-0) Cr. 1.

*Prereq: Permission of instructor and planned enrollment in ARTIS 495*

Cultural and historical aspects of art and design in Western Europe in preparation for study abroad. Area of study varies each time offered. Offered on a satisfactory-fail basis only. Offered on a satisfactory-fail basis only.

Meets International Perspectives Requirement.

**ARTIS 495: Integrated Studio Arts in Europe**

(Dual-listed with ARTIS 595). Cr. 3.

*Prereq: Graduate classification, ARTIS 494 or equivalent, permission of instructor*

International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered. Meets International Perspectives Requirement.

**ARTIS 496: Art and Design Field Study**

Cr. R. Repeatable.

*Prereq: Concurrent enrollment in an art and design studio or integrated studio arts course and permission of instructor*

Study and tours of museums, galleries, artist and/or designer studios and other areas of interest within art and design. Offered on a satisfactory-fail basis only.

**ARTIS 497: Studio Internship**

Cr. 1-6. Repeatable, maximum of 6 credits.

*Prereq: Advanced classification in a department curriculum*

Written approval of supervising instructor and department chair on required form in advance of semester of enrollment. Supervised experience with a cooperating artist or studio. Offered on a satisfactory-fail basis only.

**ARTIS 499: BFA Exhibition**

(1-0) Cr. 1. S.

*Prereq: ARTIS 399; Senior classification in the ISA BFA Curriculum*

Capstone experience for the BFA degree, including the refinement of a final portfolio (visual and written components). Guest lecturers cover range of topics relevant to the professional practice of art and design. Course culminates in the planning, design and installation of the BFA group exhibition in a formal gallery setting. Half-semester course. Required of all ISA majors.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ARTIS 505: Collage, Assemblage, and the Found Object**

(Dual-listed with ARTIS 305). (0-6) Cr. 3. Repeatable.

*Prereq: 6 credits of 200 level studio or permission of instructor*

Explores the significance of recycling, sustainable methods of art making, and thrift-store culture as medium and subject matter for artists in both 2D and 3D studio projects. Through selected readings, slide presentations, and studio activities, we will address the environmental cause and effect of materials and methods, consumption and waste, and personal responsibility as stewards for the planet we share. Emphasis will be on conceptual development.

**ARTIS 507: Principles of Character Animation**

(Dual-listed with ARTIS 407). (0-6) Cr. 3. Repeatable, maximum of 9 credits.

Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed.

**ARTIS 508: Computer Aided Animation and Visualization**

(0-6) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARTIS 408 or graduate classification and permission of instructor*  
Further investigations begun in ARTIS 408. Attention given to the workflow and management of creating animation and visualizations.

**ARTIS 509: Computer/Video Game Design and Development**

(Dual-listed with ARTIS 409). (0-6) Cr. 3. Repeatable, maximum of 12 credits.

*Prereq: Permission of instructor. Programming emphasis: COM S 227, COM S 228, COM S 229 or equivalent in engineering; art or graphics emphasis: ARTIS 230 and ARTIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: Junior classification*  
Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

**ARTIS 511: Seminar in Teaching**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Readings and discussions about aspects and expectations of teaching at the university level. Course development, research and teaching portfolio development, and best practices in design education. Other aspects of faculty expectations that include research, institutional or professional service, promotion, institutional structures, procedures, and professional responsibilities.

**ARTIS 520: Advanced Furniture Design**

(Dual-listed with ARTIS 420). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 320*

Design and creation of increasingly complex furniture forms with consideration of precedents and innovative techniques and approaches. Continued development of a unique personal approach to the design and making of furniture. Refined sensitivity to wood, and continued consideration of various sustainable practices.

**ARTIS 522: Advanced Ceramic Studio**

(Dual-listed with ARTIS 422). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: For ARTIS 422: ARTIS 322. For ARTIS 522: graduate classification in the MFA program in Integrated Visual Arts; or permission of instructor*  
Creation of a body of work in personal ceramic forms and unique surface treatments. Exploration of kiln firings, research into contemporary ceramic artists and development of a body of increasingly skilled work are emphasized. Students are expected to be capable of independent studio work and take responsibility for firings.

**ARTIS 524: Jewelry/Metalsmithing III**

(Dual-listed with ARTIS 424). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

*Prereq: ARTIS 324 or Permission of Instructor*

Hands-on studio experience. Focusing on traditional and contemporary metalsmithing techniques applicable to jewelry, functional objects, and sculptural art forms. Topics include fabrication, forming and cold joinery, with an emphasis on design and progressive skill development. Basic stone setting and lost wax casting introduced.

**ARTIS 529: Advanced Photography**

(Dual-listed with ARTIS 429). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: ARTIS 329*

Independent, advanced work in traditional alternative and/or digital photographic processes. Emphasis is on development of a unified body of work and research into contemporary photographers and aesthetic concern.

**ARTIS 530: Drawing IV**

(Dual-listed with ARTIS 430). (0-6) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 330*

Figurative and/or non-figurative drawing with advanced work in media, composition, and theory.

**ARTIS 531: Character and Scene Design**

(Dual-listed with ARTIS 431). Cr. 3. F.

*Prereq: For ARTIS 431: DSN S 131, plus ARTIS 230, ARTIS 330, or instructor permission after portfolio review. For ARTIS 531: Graduate classification in the MFA program in Integrated Visual Arts; or instructor permission after portfolio review.*

Drawing directed toward designing characters and environments to be used for telling stories in a variety of contexts. Emphasis on ideation, research, concept art and other process work over finished art.

**ARTIS 532: Sequential Narrative Drawing**

(Dual-listed with ARTIS 432). (0-6) Cr. 3. S.

*Prereq: For ARTIS 432: DSN S 131, plus ARTIS 230, ARTIS 330, or instructor permission after portfolio review. For ARTIS 532, Graduate classification in the MFA program in Integrated Visual Arts; or instructor permission after portfolio review.*

Studio course in drawing focusing on the fundamentals of communicating a narrative through sequential images in a variety of applications. Emphasis will be placed on visual research, ideation, concept art and process sketching.

**ARTIS 538: Painting III**

(Dual-listed with ARTIS 438). (0-6) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: ARTIS 338*

Figurative and non-figurative painting with advanced work in media, composition, and theory.

**ARTIS 547: Dyed and Printed Textiles**

(Dual-listed with ARTIS 447). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: For ARTIS 447: ARTIS 347 or permission of instructor; For ARTIS 547: Graduate classification.*

Fabric dyeing and printing techniques including block, stencil and experimental screen-printing, and resists using synthetic dyes, discharging agents, and pigments. Printing with plant-based dyes may also be explored. Digital printing and transfer printing on fabric may be introduced. Emphasis on research and development of dyed and printed textile design techniques as a means for creative expression.

**ARTIS 548: Digital Textile Design**

(Dual-listed with ARTIS 448). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: Junior classification in either College of Design or Apparel, Merchandising, Design*

This hands-on studio course will allow students to explore digital printing technology and its application to textile design for those working within industry as well as independent studio practitioners. Digital design development includes pattern repeats and photo manipulation to create unique textile designs for fashion, interior and fine art applications.

**ARTIS 556: Relief Printmaking: Digital/Traditional**

(Dual-listed with ARTIS 356). (0-6) Cr. 3-4. Repeatable, maximum of 6 credits. F.S.

*Prereq: For ARTIS 356: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 556: Graduate classification or instructor permission*

In-depth exploration of digital or traditional design and block cutting processes (computer/laser cutter/CNC router or drawing/chisels). Use relief printmaking to create a unified body of prints from those blocks. Emphasis is on experimental and creative use of printmaking with study of contemporary trends.

**ARTIS 557: Intaglio and Monotype Printmaking: Digital / Traditional**

(Dual-listed with ARTIS 357). (0-6) Cr. 3-4. Repeatable, maximum of 9 credits. F.S.

*Prereq: For ARTIS 357: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 557: Graduate classification or instructor permission*

Explore the techniques and aesthetic qualities of black and white and color intaglio printmaking primarily through etching, aquatint, laser-cut plates and collagraph processes. Students will generate imagery through traditional drawing, collage and digital processes. Unique, one-of-a-kind black and white and color prints from Plexiglas will also be introduced. Emphasis is on experimental and creative use of printmaking for artistic expression.

**ARTIS 558: Lithography: Digital / Traditional**

(Dual-listed with ARTIS 358). (0-6) Cr. 3. Repeatable. F.S.

*Prereq: For ARTIS 358: ARTIS 206 and credit or enrollment in ARTIS 230, or instructor permission; For ARTIS 558: Graduate classification or instructor permission*

Examine the techniques and aesthetic qualities of lithography primarily through hand-drawn and photographic plates. Students may generate imagery through traditional drawing, collage or digital processes. Emphasis is on experimental and creative use of printmaking for artistic expression. For those taking the course for a second semester, focus is on stone lithography and increased work with color.

**ARTIS 571A: Graduate Seminar: Grants, Residencies, Exhibitions, Entrepreneurialism**

(3-0) Cr. 3.

*Prereq: Admission into graduate program in the College of Design*

Through directed readings, individual assignments, guest presentations, local field trips, and group discussions, students learn strategies to create and apply a personalized plan that will guide them toward successful studio practice at all stages of their careers. Topics include professional opportunities and avenues of support available to studio artists, development in preparing visual portfolios, artists statements, and applications for grants, residencies and exhibitions.

**ARTIS 571B: Graduate Seminar: Critique and Creative Process**

(3-0) Cr. 3.

*Prereq: Admission into graduate program in the College of Design*

Ongoing weekly critiques and dialog about sources, methods, and progress of studio projects. Graduate students will learn to articulate their ideas from concept to creation. The interaction of students at different levels in a broad spectrum of studio courses will reveal commonalities and connections among all of the visual arts, accelerating individual creative development.

**ARTIS 573: Video Art**

(Dual-listed with ARTIS 473). (0-6) Cr. 3.

*Prereq: ARTIS 212 or permission of instructor for enrollment in ARTIS 473; graduate standing or permission of instructor for enrollment in ARTIS 573*

Usage of professional video editing software and application of best practices for video production and post-production to realize original artworks. Creation of narrative and non-narrative videos and site specific video installations. Prominent examples in the history of video art provide context for the coursework. Non-repeatable for graduate students.

**ARTIS 575: Interactive Art**

(Dual-listed with ARTIS 475). (0-6) Cr. 3.

*Prereq: For ARTIS 475: ARTIS 212 or Permission of Instructor; for ARTIS 575: Graduate standing or permission of instructor.*

Create software and integrate the sensors required to create interactive artworks, video games, and installations. Prominent examples in the history of interactive art provide context for the coursework.

**ARTIS 582: Selected Topics in Studio Art**

(Dual-listed with ARTIS 482). Cr. 1-3. Repeatable. F.S.

*Prereq: Permission of Instructor*

Special issues related to studio art. Topics vary each time offered.

**ARTIS 590: Special Topics**

Cr. arr. F.S.SS.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590B: Special Topics: Ceramics**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590C: Special Topics: Computer Art and Design**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590D: Special Topics: Drawing**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590E: Special Topics: Textiles**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590F: Special Topics: Illustration**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590G: Special Topics: Metals**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590I: Special Topics: Painting**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590J: Special Topics: Photography**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590K: Special Topics: Printmaking**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590L: Special Topics: Furniture**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 590M: Special Topics: Mixed Media**

Cr. arr.

*Prereq: Bachelor degree in art and/or design, or evidence of satisfactory equivalency in specialized area*

Written approval of instructor and department chair on required form in advance of semester of enrollment.

**ARTIS 593: Workshop**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593B: Workshop: Ceramics**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593C: Workshop: Computer Art and Design**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593D: Workshop: Drawing**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593E: Workshop: Textiles**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593F: Workshop: Illustration**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593G: Workshop: Metals**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593I: Workshop: Painting**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593J: Workshop: Photography**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593K: Workshop: Printmaking**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593L: Workshop: Furniture**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 593M: Workshop: Mixed Media**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification and permission of instructor*

Intensive 2 to 4 week studio exploration. Topics vary each time offered and may have prerequisites.

**ARTIS 595: Integrated Studio Arts in Europe**

(Dual-listed with ARTIS 495). Cr. 3.

*Prereq: Graduate classification, ARTIS 494 or equivalent, permission of instructor*

International study abroad program in western Europe. Visits to design studios, art museums, and educational facilities. Related activities depending on specific area of study which may vary each time offered. Meets International Perspectives Requirement.

**Courses for graduate students:****ARTIS 605: Research Methods**

(3-0) Cr. 3.

*Prereq: Permission of instructor*

Research strategies related to fine art and technology. Application of selected methods to specific issues.

### **ARTIS 607: Intermedia**

(0-6) Cr. 3. F.S.

*Prereq: Graduate classification and permission of instructor.*

Exploration and application of media with various materials, methods and ideas.

### **ARTIS 697: Studio Internship**

Cr. arr.

*Prereq: Graduate classification and approval of POS committee*

Supervised off-campus learning experience with a prominent artist, designer, or firm.

### **ARTIS 698: Current Issues in Studio Arts**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.

*Prereq: Graduate classification and permission of instructor.*

Selected issues in contemporary studio arts. Topics and readings vary each time offered.

### **ARTIS 699: Research**

Cr. arr. Repeatable.

Research in Integrated Studio Arts.

### **ARTIS 699A: Research: Thesis**

Cr. arr. Repeatable.

Research thesis.

### **ARTIS 699B: Research: Thesis-exhibition**

Cr. arr. Repeatable.

Research exhibition.

## **Interdisciplinary Graduate Studies (IGS)**

*Any experimental courses offered by IGS can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

### **IGS 520: Orientation in Community Development**

(1-0) Cr. 1.

Introduction to the Community Development program. Focus on on-line delivery methods, graduate level research and writing, technology skills.

### **IGS 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

### **IGS 699: Thesis Research**

Cr. arr. Repeatable.

## **Interior Design (ARTID)**

*Any experimental courses offered by ARTID can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

### **ARTID 250: Fundamentals of Interior Design**

(2-0) Cr. 2. F.

The profession, issues, and the role of interior design.

### **ARTID 251: Human Factors in Interior Design**

(3-0) Cr. 3. S.

Overview of issues related to the human/built environment interface: introduction to health and safety factors, ergonomics, anthropometrics, sensory perception, psycho-behavioral response, physical performance, cultural factors and universal design. Emphasis on application of human factor methods to the analysis, solution, and evaluation of design problems.

### **ARTID 255: Forces That Shape Interior Space**

(3-0) Cr. 3. F.S.

A survey of variables influencing the nature and function of "interior" environments. Review of professional, geo-political, utilitarian, social-cultural, economic, humanistic, historical, technological, and other factors as generators of form and space.

### **ARTID 261: Graphic Communication for Interior Design I**

(2-2) Cr. 3. F.

*Prereq: Admission to the Interior Design BFA; ARTID 265*

Perspective drawing, design sketching, and presentation drawings. Introduction to technical drawing conventions, and design drawings. Emphasis on drawing layout, line quality, and lettering. Use of various rendering media and techniques on 2D and 3D drawings. Overview of presentation techniques, both visual and verbal.

### **ARTID 263: Graphic Communication for Interior Design II**

(2-2) Cr. 3. S.

*Prereq: ARTID 261; concurrent enrollment in ARTID 267*

Computer visualization techniques and applications; projects employing computer graphic methods.

### **ARTID 265: Interior Design Studio I**

(1-6) Cr. 4. F.

*Prereq: Admission to the Interior Design BFA; ARTID 250; ARTID 261*

Enhanced creative interior design problem solving. Emphasis on research, spatial composition theories and graphic ideation and communication as applied to the interior design of small scale environments. Modeling and manual visualization techniques.

**ARTID 267: Interior Design Studio II**

(1-6) Cr. 4. S.

*Prereq: ARTID 265*

Human factors issues including ergonomics, human behavior and the requirements of special groups. Color theories related to interior spaces. Residential interior design and medium scale projects. Detail drawings, and expansion of visualization techniques.

**ARTID 350: Interior Finish Materials**

(3-0) Cr. 3. S.

*Prereq: Admission to a College of Design program*

Exploration of concepts, materials, and assemblies associated with development of interior elements including floors, walls, ceiling, windows, and finishes. Fiber, plastic, sheet metal, and other surfacing materials. Attention to related human factors, testing, detailing, specifications writing and end-use application. To take this course, students must have drafting skills to complete scaled orthographic drawings.

**ARTID 351: Interior Regulations and Guidelines**

(3-0) Cr. 3. F.

*Prereq: ARTID 267 OR Permission of Instructor*

Exploration of interior design concepts, materials, and assemblies as they contribute to the user, health, safety and general well-being. Wood, steel, masonry, and glass assemblies. Attention to related human factors, testing, codes, detailing, specifications writing and end-use application.

**ARTID 352: Interior Building Systems**

(3-0) Cr. 3. S.

Exploration of concepts, materials, assemblies associated with building service systems. Overview of electrical, lighting, acoustical, HVAC, plumbing and other non-structural building features. Attention to related human factors, testing, codes, detailing, specifications writing and end-use application.

**ARTID 353: Interior Construction and Details**

(3-0) Cr. 3. F.

Exploration of building construction concepts, materials, and assemblies and their influence on interior design. Attention to human factors, codes, detailing, and other interior design issues related to buildings.

**ARTID 355: Interior Design History/Theory/Criticism I**

(3-0) Cr. 3. F.

Theoretical approaches to evaluation of interior finishes, furnishings, and decorative arts in relation to parallel developments in art and architecture, from a critical, historical and multicultural perspective. Focus on pre-1850.

Meets International Perspectives Requirement.

**ARTID 356: Interior Design History/Theory/Criticism II**

(3-0) Cr. 3. S.

*Prereq: ARTID 355 OR Permission of Instructor*

Advanced theoretical approaches to evaluation of interior finishes, furnishings, and decorative arts in relation to parallel developments in art and architecture from a critical, historical, and multicultural perspective. Focus on mid-nineteenth and twentieth century. Meets International Perspectives Requirement.

**ARTID 357: Made in Italy**

(2-0) Cr. 2. F.

*Prereq: Participation in Study Abroad Rome program*

An investigation of the 20th century roots of modern Italian design and its contemporary form. Lectures and seminar presentations highlight major Italian designers and internationally significant design in the 20th century. Focus is on innovative design that exhibits a synthesis of formal and social functions.

Meets International Perspectives Requirement.

**ARTID 360: Interior Design Internship Seminar I**

(1-0) Cr. 1. F.

*Prereq: ARTID 267*

Procedural and ethical concerns relating to interior design internship. Preparation of documents for internship search. Formulation of personal internship and career goals.

**ARTID 361: Interior Design Internship Seminar II**

(1-0) Cr. 1. S.

*Prereq: ARTID 360*

Procedural and ethical concerns relating to interior design internship. Refinement of placement credentials and personal goals. Internship search process and agreements.

**ARTID 365: Interior Design Studio III**

(1-6) Cr. 4. F.

*Prereq: ARTID 263; ARTID 267*

Refined methods of problem identification design programming and problem solving, including theoretically-based concept development and refinement. Emphasis and compliance with codes and standards. Produce small and large scale projects. Alternative manual and computer-based visualization methods. Teamwork. Multi-cultural, study abroad option.

**ARTID 367: Interior Design Studio IV**

(1-6) Cr. 4-5. S.

*Prereq: ARTID 365*

Emphasis on three-dimensional spatial development in large scale, multiple scale unit institutional projects. Inclusion of extensive design documentation. Expansion of alternative manual and computer-based visualization methods. Teamwork.

**ARTID 367H: Interior Design Studio IV: Honors**

(1-6) Cr. 4-5. S.

*Prereq: ARTID 365*

Emphasis on three-dimensional spatial development in large scale, multiple scale unit institutional projects. Inclusion of extensive design documentation. Expansion of alternative manual and computer-based visualization methods. Teamwork.

**ARTID 460: Interior Design Internship Documentation**

(1-0) Cr. 1. F.

*Prereq: ARTID 350; ARTID 360; ARTID 365*

Documentation of professional interior design off-campus experience.

**ARTID 461: Interior Design Professional Practices**

(2-0) Cr. 2. S.

*Prereq: ARTID 460*

Organization and general management of the interior design office: agreements, business procedures, and professional ethics. Professional interior design issues and concerns.

**ARTID 461H: Interior Design Professional Practices: Honors**

(2-0) Cr. 2. S.

*Prereq: ARTID 460*

Organization and general management of the interior design office: agreements, business procedures, and professional ethics. Professional interior design issues and concerns.

**ARTID 465: Interior Design Studio V**

(Dual-listed with ARTID 565). (1-6) Cr. 4. F.

*Prereq: ARTID 460 OR Permission of Instructor*

Design research and refined problem solving methods including functional analysis, programming and detailing.

**ARTID 467: Interior Design Studio VI**

(Dual-listed with ARTID 567). (1-6) Cr. 4. S.

*Prereq: ARTID 465*

Refinement of technical, analytical and theoretical problem-solving methods and comprehensive design documentation. In-depth development of interior design projects. Current issues in interior design.

**ARTID 468: Interior Design in an Urban Setting**

(1-4) Cr. 3. S.

*Prereq: ARTID 365*

Study of selected interior design projects and designers practicing in an urban setting. Studio project examining issues related to interior design in an urban context.

**ARTID 468H: Interior Design in an Urban Setting: Honors**

(1-4) Cr. 3-4. S.

*Prereq: ARTID 365*

Study of selected interior design projects and designers practicing in an urban setting. Studio project examining issues related to interior design in an urban context.

**ARTID 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Permission of Department*

Student must have completed related interior design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTID 490H: Independent Study, Honors**

Cr. 1-6. Repeatable.

*Prereq: Permission of Department*

Student must have completed related interior design coursework appropriate to planned independent study. Offered on a graded basis or a satisfactory-fail basis.

**ARTID 493: Workshop**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: ARTID 367*

Intensive 2 to 4 week studio exploration. Topics vary each time offered.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ARTID 551: Design Humanics**

(3-0) Cr. 3. Repeatable, maximum of 15 credits. F.S.

*Prereq: Instructor permission*

An exploration of human nature as broadly defined and as applied to design of the built environment. Consideration of human characteristics, responses and performance, at varying scales, as sources of design insight. Topics vary each time offered.

**ARTID 551A: Design Humanics: Sensory Perception & Ergonomic Factors**

(3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: Instructor permission*

Human factors related to the nature, performance and accommodation of the individuals and small groups, including sensation and perception, physical requirements, anthropometrics, safety and other issues connecting human needs and built environmental responses. Topics vary each time offered.

**ARTID 551B: Design Humanics: Environment & Behavior**

(3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: Instructor permission*

Human factors issues related to the nature, performance and accommodation of medium to large groups and settings. Emphasis on psychological, sociological, cultural, interpersonal safety, and related human needs and built environmental responses. Topics vary each time offered.

**ARTID 552: Evidence-Based Design**

(3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.

*Prereq: Permission of instructor*

Survey of methodologies and methodological tools for varied end uses and drawn from wide ranging sources. Emphasis on their organization and application to design of the human environment. Topics vary each time offered.

**ARTID 552A: Evidence-Based Design: Investigation Analysis**

(3-0) Cr. 3. Repeatable, maximum of 10 credits. F.S.

*Prereq: Permission of instructor*

Methods of design research, analysis, programming and theory formulation.

**ARTID 552B: Evidence-Based Design: Synthesis**

(3-0) Cr. 3. Repeatable, maximum of 10 credits. F.S.

*Prereq: Permission of instructor*

Methods of synthesizing design concepts and solutions.

**ARTID 552C: Evidence-Based Design: Communication**

(3-0) Cr. 3. Repeatable, maximum of 10 credits. F.S.

*Prereq: Permission of instructor*

Methods of managing, translating, communicating and otherwise utilizing text, image, abstract and other forms of information.

**ARTID 552D: Evidence-Based Design: Procedural Alternatives**

(3-0) Cr. 3. Repeatable, maximum of 10 credits. F.S.

*Prereq: Permission of instructor*

New and specialized methodological trends, including subject or setting-specific methods.

**ARTID 554: Interior Design Teaching Practicum**

Cr. 3. Repeatable. F.S.SS.

*Prereq: ARTID 668 and permission of instructor*

Supervised practical application of interior design theory, materials, and practice to the educational process.

**ARTID 559: Graduate Interior Design Field Study**

Cr. 1-3. Repeatable.

*Prereq: Graduate enrollment or permission of instructor*

Study and tours of places of interior design-related interest such as manufacturers, design studios, related professional offices, showrooms, museums, and historical sites.

**ARTID 560: Interior Design Internship**

Cr. 3. F.S.SS.

*Prereq: Permission of instructor.*

Professional interior design off-campus experience.

**ARTID 565: Interior Design Studio V**

(Dual-listed with ARTID 465). (1-6) Cr. 4. F.

*Prereq: ARTID 460 OR Permission of Instructor*

Design research and refined problem solving methods including functional analysis, programming and detailing.

**ARTID 567: Interior Design Studio VI**

(Dual-listed with ARTID 467). (1-6) Cr. 4. S.

*Prereq: ARTID 465*

Refinement of technical, analytical and theoretical problem-solving methods and comprehensive design documentation. In-depth development of interior design projects. Current issues in interior design.

**ARTID 568: Experimental Interior Design**

(0-8) Cr. 4. Repeatable, maximum of 16 credits. F.S.

*Prereq: Graduate classification and permission of instructor*

Application of alternative design methods and sources of insight to the solution of human environmental design problems. Focus on the identification, formulation, refinement and application of theory to the design process. Emphasis on the pursuit of new discovery and innovative problem solving. Approaches, settings and scales vary each time offered.

**ARTID 569: Advanced Studies in Interior Design: Variable Topics**

Cr. 3.

*Prereq: Graduate classification or permission of instructor.*

Examination of special issues with emphasis on their translation into design application.

**ARTID 571: Advanced Visualization in Interior Design**

Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Exploration of an advanced level of computer visualization techniques and applications with relevance to interior design. Introduction to the latest graphic communication software and technologies focuses on data visualization, hybrid digital perspective, 3D modeling & photo-realistic rendering, real-time video making, and Virtual Reality.

**ARTID 572: Preservation & Cultural Heritage**

Cr. 3.

*Prereq: Graduate classification or permission of instructor.*

Examination of special issues with emphasis on their translation into design application.

**ARTID 573: Advanced Color Theory**

Cr. 3.

*Prereq: Graduate classification or permission of instructor*

Examination of special issues with emphasis on their translation into design application.

**ARTID 574: Inclusive Environments**

Cr. 3.

*Prereq: Graduate classification or permission of instructor.*

Examination of special issues with emphasis on their translation into design application.

**ARTID 590: Special Topics**

Cr. arr.

*Prereq: Bachelor's degree in interior design, or evidence of satisfactory equivalency in specialized area. Written approval of instructor and department chair on required form in advance of semester of enrollment*

**ARTID 593: Workshop**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification; evidence of satisfactory experience in area of specialization*

Intensive 2 to 4 week studio exploration. Topics vary each time offered.

**ARTID 598: Research Forum**

(1-0) Cr. 1-3. Repeatable, maximum of 9 times. F.S.

*Prereq: Concurrent enrollment in ARTID 565, ARTID 567, ARTID 568, ARTID 665, or ARTID 668, and permission of instructor*

Presentation and discussion of cross-disciplinary design research theory, methods, and application. Focus on the investigation, application, and communication of types of design research.

**ARTID 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**ARTID 660: Research Methods**

(3-0) Cr. 3. S.

*Prereq: Permission of instructor*

Research strategies related to design. Application of selected methods to specific issues. Open to non-majors.

**ARTID 668: Advanced Experimental Interior Design**

(0-8) Cr. 4. Repeatable, maximum of 16 credits. F.S.

*Prereq: Graduate classification and permission of instructor.*

Application of alternative design methods and sources of insight to the solution of human environmental design problems. Focus on the identification, formulation, refinement and application of theory to the design process. Emphasis on the pursuit of new discovery and innovative problem solving. Approaches, settings and scales vary each time offered.

**ARTID 690: Advanced Topics**

Cr. arr. Repeatable.

*Prereq: M.F.A classification, permission of instructor*

**ARTID 697: Design Practicum**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: Approval of POS committee*

Applied, off campus, professional interior design-related experience.

**ARTID 699: Research**

Cr. arr. Repeatable.

**ARTID 699A: Thesis**

Cr. arr. Repeatable.

**ARTID 699B: Thesis-Exhibition**

Cr. arr. Repeatable.

**ARTID A560: Interior Design Internship**

Cr. 3. F.S.SS.

*Prereq: Permission of instructor.*

Professional interior design off-campus experience.

## International Studies (INTST)

***Any experimental courses offered by INTST can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**INTST 235: Introduction to International Studies**

(3-0) Cr. 3. F.SS.

Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations. Meets International Perspectives Requirement.

**INTST 250: The World's Regions in a Global Context**

(3-0) Cr. 3. F.S.

Comparative study of the world's regions beyond North America (Africa, Asia, Europe, Latin America and the Caribbean, and the Middle East) within the context of globalization and regionalization. Framework for understanding how environmental, demographic, political and socio-cultural relationships in each region are affected by geographic connections. Exploration of how these relationships will shape future regional geographies.

Meets International Perspectives Requirement.

**INTST 295: International Experience Abroad**

Cr. 1-8. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: 12 ISU credits*

Supervised instruction in an international setting, augmented by practical living experience.

Meets International Perspectives Requirement.

**INTST 350: Topics in International Studies**

Cr. 2-4.

Exploration of key topics and themes in International Studies. Topics vary each time offered.

Meets International Perspectives Requirement.

**INTST 395: Interdisciplinary Study Abroad**

Cr. 1-4. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 395A: Interdisciplinary Study Abroad: Pre-Departure Seminar**

Cr. 1. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 395B: Interdisciplinary Study Abroad: Humanities**

Cr. 1-4. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 395C: Interdisciplinary Study Abroad: Communications**

Cr. 1-4. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 395D: Interdisciplinary Study Abroad: Mathematics and Natural Science**

Cr. 1-4. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 395E: Interdisciplinary Study Abroad: Social Sciences**

Cr. 1-4. Repeatable.

Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture's role in contemporary society.

**INTST 430: Seminar in International Studies**

(3-0) Cr. 3. S.

*Prereq: INTST 235; Junior classification or higher*

Capstone seminar in international studies focused on economic development, women's issues, war and ethnic conflict, population, the environment, globalization, human rights, international trade and business and other issues. Students develop a project on a subject linked to their area of professional interest or academic specialization.

Meets International Perspectives Requirement.

**INTST 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor; Permission of International Studies Director*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or to integrate areas of study appropriate to special problems with international foci. No more than 3 credits of IntSt 490 may be used in the International Studies major or minor.

**INTST 491: Experiences Abroad: Learning to Think Globally**

(Cross-listed with WLC). (1-0) Cr. 1. Repeatable, maximum of 2 credits.

*Prereq: Minimum of 3 credits of study abroad and/or internship abroad*

Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside ISU. Offered on a satisfactory-fail basis only.

## Iowa Lakeside Laboratory (IA LL)

**Courses primarily for undergraduates:**

**IA LL 101: Earth, Air, and Sky**

Cr. 1-4. Alt. SS., offered irregularly.

Essentials of earth science, including astronomy, meteorology, geology, and paleontology; includes laboratory and fieldwork.

**IA LL 293: Natural History Workshop**

Cr. 1-2. Repeatable, maximum of 4 times. Alt. SS., offered irregularly.

A specific aspect of the upper Midwest's natural history, or techniques for studying natural history; amphibians and reptiles, birds and birding, nature photography, mushrooms and other fungi, Iowa's trees and forests, fish biology, prairies, common algae, common insects, aquatic plants, life in rivers, life in lakes, mosses and liverworts, natural history of Iowa Great Lakes region, field archaeology, scuba diving, astronomy, nature sketching; five-day, nontechnical introductions.

**IA LL 310: Science Teaching Methods**

Cr. 1-3. Repeatable. Alt. SS., offered irregularly.

Development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology, geology, and environmental courses; exercises built around common organisms and ecosystems in Iowa; animal biology, plant biology, fungi and lichens, aquatic ecology, prairie ecology, wetland ecology, limnology, animal behavior, insect ecology, biology of invertebrates, noninvasive use of living organisms, Project WET; field trips.

**IA LL 311: Field Mycology**

Cr. 2. Alt. SS., offered irregularly.

Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

**IA LL 312: Ecology**

Cr. 4. Alt. SS., offered irregularly.

An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems. Requirements: two semesters of introductory biology.

**IA LL 314: Nature Based, Early Childhood Teaching Methods Using "The Project Approach"**

Cr. 3-4. Repeatable. Alt. SS., offered irregularly.

Examination of the value of young children's direct experiences in nature through inquiry-based learning; "The Project Approach" builds on children's natural curiosity and enables them to interact, question, connect, problem solve, communicate, and reflect; students follow steps for implementing a nature-based project within their own classroom setting as they insure the needs of diverse learners are met for both social and academic learning; designed for early childhood teachers.

**IA LL 315: Soil Formation and Landscape Relationships**

Cr. 2-4. Alt. SS., offered irregularly.

Relationships between soil formation, geomorphology, environment; soil description, classification, geography, mapping, interpretation for land use.

**IA LL 316: Animal Behavior**

Cr. 2. Alt. SS., offered irregularly.

Examination of ecological and evolutionary theories of animal behavior through field studies of animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care.

Requirements: two biology courses.

**IA LL 317: Glacial Geomorphology**

Cr. 2-4. Alt. SS., offered irregularly.

Field-based introduction to glacial environments and processes including the origin of sediments, landforms, and landscapes produced in glacial and associated environments; aeolian (wind) processes, river and lacustrine systems, and mechanisms and chronologies of climate change.

**IA LL 326: Ornithology**

Cr. 2-4. Alt. SS., offered irregularly.

The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

**IA LL 334: Topics in Ecology and Sustainability**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Scientific introduction at intermediate level to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means.

Requirements: one general biology course.

**IA LL 334B: Topics in Ecology and Sustainability: Lichen Diversity**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Scientific introduction at intermediate level to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means.

Requirements: one general biology course.

**IA LL 334D: Topics in Ecology and Sustainability: Biology Illustration**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Scientific introduction at intermediate level to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means. Requirements: one general biology course.

**IA LL 334F: Topics in Ecology and Sustainability: Herpetology**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Scientific introduction at intermediate level to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means. Requirements: one general biology course.

**IA LL 334G: Topics in Ecology and Sustainability: Ichthyology**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Scientific introduction at intermediate level to ecology and evolution of important groups of organisms: algae to vertebrates, different ecological phenomena (e.g., fire and climate change), varying landforms, different ecosystems (e.g., prairies and aquatic systems); emphasis on sustainability with introduction to concepts, issues, and practices; ability to communicate environmental information through a variety of means. Requirements: one general biology course.

**IA LL 334J: Topic in Ecology and Sustainability: Environmental Nonfiction**

Cr. 2. SS.

Learn the ways scientists can better communicate discoveries and ideas. Learn the importance of identifying your audience and how you can adapt your writing based upon your understanding of those varying audiences.

**IA LL 334K: Topics in Ecology and Sustainability: Making Kin With(in) Place: Literature & Multispecies Kinship**

(Dual-listed with IA LL 534K). Cr. 3. SS.

Exploration of what it means to build kin with a place, while in a place—specifically, Lake Okoboji and the grounds of the Lakeside Laboratory. Consideration of the human impact on our planet and the inherent demand issued by climate change to abandon anthropocentrism and fundamentally alter human relationships with our environments, places, and the species therein. After discussing the cultural and human dimensions of climate change, we will consider multispecies kinship systems and how to build meaningful relationships with place.

**IA LL 334M: Topics in Ecology and Sustainability: Introduction to Geographical Information Systems**

Cr. 2. S.

History, purpose, functionality and basic uses of geographical information systems (GIS) as a tool for demonstrating information in relation to locations on the earth and moments in time. While map data may often serve as the basis for using or understanding geographical information, more complex data and systems may be analyzed using GIS tools to grow understanding of geographical phenomena. For the sake of consistency, ArcGIS tools will be used to familiarize students with the basic application and function of GIS technology in relation to data.

**IA LL 341: Environmental Policy**

Cr. 3. Repeatable. Alt. SS., offered irregularly.

Theory and practice of environmental policies, including the study of U.S. federal environmental policies with direct and indirect bearings on water issues; focus on policy history, implementation, and effectiveness; how policies interact with each other, how local stakeholders perceive their pros and cons, and linkages between local implementation efforts and regional and large-scale impacts.

**IA LL 367: Plant Taxonomy**

Cr. 2-4. Alt. SS., offered irregularly.

Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys. Field and laboratory studies emphasizing identification of local flowering plants and recognition of major plant families.

**IA LL 408: Aquatic Ecology**

Cr. 2-4. Alt. SS., offered irregularly.

Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals. Requirements: ecology, chemistry, and physics courses.

**IA LL 412: Restoration Ecology**

Cr. 2. Repeatable. Alt. SS., offered irregularly.

Ecological principles for restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations; emphasis on prairie restoration and wetland vegetation. Requirements: ecology courses.

**IA LL 422: Prairie Ecology**

Cr. 4. Alt. SS., offered irregularly.

Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects. Requirements: familiarity with basic principles of biology and ecology.

**IA LL 423: Prairie Ecology I**

Cr. 2. Alt. SS., offered irregularly.

Recognition of Iowa prairie plants and understanding the systems in which they exist; emphasis on identification of tallgrass prairie flora by sight recognition, family, genus, species, and common names.

Requirements: basic familiarity with biology and ecology.

**IA LL 424: Prairie Ecology II**

Cr. 2. Alt. SS., offered irregularly.

Hands-on learning experiences demonstrating dynamic, human-influenced (anthropogenic) systems which have impacted prairie ecosystems for the past 10,000 years or more; emphasis on identification of tallgrass prairie flora by sight recognition, family, genus, species, and common names. Requirements: general familiarity with biology and ecology.

**IA LL 427: Field Archaeology**

Cr. 3-4. Alt. SS., offered irregularly.

Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques.

**IA LL 436: Illustrating Nature II Photography**

Cr. 1-2. Repeatable. Alt. SS., offered irregularly.

Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

**IA LL 480: Ecology and Systematics of Diatoms**

Cr. 2-4. Alt. SS., offered irregularly.

Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.

**IA LL 482: Ecology and Systematics of Algae**

Cr. 2-4. Alt. SS., offered irregularly.

Ecology, morphological structure, phylogeny, and taxonomy of freshwater algae based on field material collected; emphasis on genus-level identifications, biodiversity, ecology; habitat visits to lakes, fens, streams, rivers; algal ecology.

**IA LL 490: Undergraduate Independent Study**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

Research opportunities for undergraduate students in the biological sciences. Requirements: junior or senior standing.

**IA LL 495: Introduction to Research and Inquiry**

Cr. 1-3. Repeatable. Alt. SS., offered irregularly.

How data transforms to information and ultimately knowledge through scientific investigations; examinations and applications include steps formulating the scientific method using 21st-century data, conditions, and related challenges; deliverables include a thoroughly documented scientific experiment beginning with research questions and hypotheses, recommended methods, and concluding with anticipated results.

**Courses primarily for graduate students, open to qualified undergraduates:**

**IA LL 521: Ecology and Systematics of Diatoms**

Cr. 2-4. Alt. SS., offered irregularly.

**IA LL 534K: Topics in Ecology and Sustainability: Making Kin With(in) Place: Literature & Multispecies Kinship**

(Dual-listed with IA LL 334K). Cr. 3. SS.

Exploration of what it means to build kin with a place, while in a place—specifically, Lake Okoboji and the grounds of the Lakeside Laboratory. Consideration of the human impact on our planet and the inherent demand issued by climate change to abandon anthropocentrism and fundamentally alter human relationships with our environments, places, and the species therein. After discussing the cultural and human dimensions of climate change, we will consider multispecies kinship systems and how to build meaningful relationships with place.

**IA LL 590: Graduate Independent Study**

Cr. 1-4. Repeatable. Alt. SS., offered irregularly.

*Prereq: Graduate classification and permission of instructor*

## Italian (ITAL)

**Courses primarily for undergraduates:**

**ITAL 107: Intensive Beginning Italian**

Cr. 4. F.S.

A communicative approach to grammar and vocabulary within the context of Italian culture for students whose native language is not Italian. Taught in Italian.

## Journalism and Mass Communication (JL MC)

*Any experimental courses offered by JL MC can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**JL MC 101: Mass Media and Society**

(3-0) Cr. 3. F.S.SS.

Communication theory models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media literacy process.

**JL MC 110: Orientation to Journalism and Communication**

(1-0) Cr. 1. F.S.

Orientation to professional and pre-professional opportunities, writing for the mass media and curriculum requirements in the Greenlee School. Basic media writing preparation. Offered on a satisfactory-fail basis only.

**JL MC 201: Reporting and Writing for the Mass Media**

(2-2) Cr. 3.

*Prereq: Greenlee majors only or departmental permission. Credit or concurrent enrollment in JL MC 110.*

Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing. Use of AP Style.

**JL MC 240: Principles of Journalism**

Cr. 3. F.S.

Analysis of journalism industry and specific audiences served by print, electronic, visual and digital media. Introduction to core values of journalism and guiding principles that encompass literacy, ethics, law, history, the economy and cultural and societal implications.

**JL MC 242: Visual Principles for Mass Communicators**

(3-0) Cr. 3. F.S.

Understanding and analysis of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in mass communication.

**JL MC 260: Media Controversies in Science and Technology**

Cr. 3.

Understanding science communication in the media. Exploring audience perceptions, media portrayals, underlying theories and social controversies related to communication of science and technology.

**JL MC 302: Intermediate Reporting and Writing for the Mass Media**

(2-2) Cr. 3.

*Prereq: JL MC 110; minimum of C+ in JL MC 201*

Researching, organizing and writing for newspapers, magazines and digital media. Enhancing and refining skills in developing sources and generating story ideas. Information-gathering techniques, reporting and writing.

**JL MC 303: Reporting and Writing for Broadcast Media**

(2-2) Cr. 3.

*Prereq: JL MC 110; minimum of C+ in JL MC 201*

Researching, organizing, and writing for radio, television and digital media. Basic principles of news programming and storytelling across broadcast media platforms. An emphasis on development, content and structure.

**JL MC 306: Broadcast Media Production**

(2-1) Cr. 3. F.S.

*Prereq: Minimum of C+ in JL MC 201*

Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.

**JL MC 307: Digital Video Production**

(2-2) Cr. 3.

Creation of video productions for use as communication tools in advertising, promotions, short documentaries and public relations. Technical and artistic fundamentals of video production including planning, scripting, shooting, lighting and digital editing.

**JL MC 308: Broadcast News Gathering and Production**

(2-2) Cr. 3.

*Prereq: Minimum of C+ in JL MC 201.*

Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to broadcast news gathering.

**JL MC 310: Fundamentals of Photojournalism**

(2-2) Cr. 3. F.S.

*Prereq: Minimum of C+ in JL MC 201*

Basic photojournalism techniques. Includes camera operation, lighting, composition and photo reproduction techniques for print or computer-mediated applications. Emphasis on using the camera as a reporting tool. Basic use of digital imaging and editing software. Ethical issues involving photojournalism.

**JL MC 311: Fundamentals of Mobile Photography**

Cr. 3.

Basic photographic techniques for publication. Includes smartphone operation, lighting, composition and historical overview of photography and use in digital platforms. Basic use of image editing software. Ethical issues involving photo publication in media platforms. A smartphone camera is required. Credit in JL MC 311 may not be applied toward requirements for degree by ARTIS majors.

**JL MC 312: Advanced Techniques in Photojournalism**

(2-2) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

*Prereq: JL MC 310 or Permission of Instructor*

Advanced techniques and problem solving, both ethical and technical, for photographers who seek to be members of newsgathering teams. Photographic storytelling using a combination of audio and still photography techniques to report stories for print and web publications. Hands on experience with latest digital imaging technology. A digital SLR camera is required.

**JL MC 315: Digital Storytelling**

(2-2) Cr. 3. F.S.

*Prereq: JL MC 308 or JL MC 310 or JL MC 316*

Identify and critically evaluate multimedia elements in journalistic storytelling. Produce audio, photographic and video story packages for a variety of outlets. Choose and work with appropriate digital tools. Learn economic, social and ethical issues that influence media today. Computer design proficiency recommended.

**JL MC 316: Visual Communication Design**

(2-2) Cr. 3. F.S.

*Prereq: Minimum of C+ in JL MC 201*

Beginning techniques in layout, photo editing, and vector artwork. Application of visual principles and creative problem-solving to digital, social media, and print design projects. Use of industry-standard tools such as Adobe Photoshop, Illustrator, and InDesign.

**JL MC 317: Publishing for Mobile Devices**

(2-2) Cr. 3. S.

*Prereq: JL MC 316*

Creating, designing and publishing content for mobile devices through use of industry-standard tools. Exposure to animation and HTML. Computer design proficiency recommended.

**JL MC 344: Feature Writing**

(2-2) Cr. 3.

*Prereq: Minimum of C+ in JL MC 302, JL MC 303 or P R 321*

Reporting and writing short- and long- form stories for magazines, newspapers, corporate communication and the Web. Focus on departmental stories, personal essays, trend or conflict articles and personality profiles. Emphasis on immersion reporting. Majors may not apply both 344 and Engl 303 toward graduation.

**JL MC 346: Public Affairs Reporting**

(2-2) Cr. 3.

*Prereq: Minimum of C+ in JL MC 302, JL MC 303 or P R 321*

Reporting and writing about government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories about government and nonprofit organizations; and ethical issues.

**JL MC 347: Science Communication**

(Dual-listed with JL MC 547). (3-0) Cr. 3.

*Prereq: JL MC 347: C+ or better in JL MC 302, JL MC 303 or P R 321.*

*Nonmajors and minors by permission of instructor. JL MC 547: Graduate classification.*

Understanding and practicing science communication. Emphasis on building skills to report on science topics, telling science stories using different kinds of media, and understanding factors that impact how different audiences interpret scientific information. Explorations of science communication products relevant to health, natural resources, social science, and technology.

**JL MC 349: News and Feature Editing**

(2-2) Cr. 3.

*Prereq: Minimum of C+ in JL MC 302, JL MC 303 or P R 321*

Editing content for multiple platforms, including websites, magazines, newspapers, and newsletters. Adapting material for audiences, including selection and organization of text and visuals, grammar, punctuation, usage, logic and accuracy. Designing print and online layouts. Using search engine optimization and social media to promote content.

**JL MC 390: Professional Skills Development**

(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

*Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.*

Check with Greenlee School for course availability.

**JL MC 391: Short Course Intensive**

(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits.

Focused short courses on timely concepts. Check with Greenlee School for course availability. Offered on a satisfactory-fail basis only.

**JL MC 401: Mass Communication Theory**

(3-0) Cr. 3.

*Prereq: Junior classification*

Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

**JL MC 406: Media Management**

(Dual-listed with JL MC 506). (3-0) Cr. 3.

*Prereq: JL MC 406: Junior classification. JL MC 506: Graduate classification or Permission of Instructor*

Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

**JL MC 460: Law of Mass Communication**

(3-0) Cr. 3.

*Prereq:* JL MC 110 and minimum of C+ in JL MC 201; junior classification.  
*Nonmajors by permission of department.*

First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media.

**JL MC 461: History of American Journalism**

(3-0) Cr. 3.

*Prereq:* Junior classification

Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions and philosophies of the media.

**JL MC 462: Media Ethics, Freedom, Responsibility**

(3-0) Cr. 3.

*Prereq:* JL MC 110 and minimum of C+ in JL MC 201. *Greenlee majors only.*  
Ethics and professionalism in the practice of journalism, public relations and advertising.

**JL MC 464: Journalism and Literature**

(3-0) Cr. 3.

*Prereq:* Junior classification

A study of journalism's impact on literary writing and literature's impact on journalism, as seen through the works of esteemed American author-journalists.

**JL MC 473: Social Media Strategy**

(Cross-listed with ADVRT, P R). (3-0) Cr. 3. F.S.

*Prereq:* Junior classification

The strategic use of social media, from both an advertising and public relationship standpoint, to the advantage of a client or organization. Examination and analysis of the social media space from a business perspective. Best practices in the areas of strategic planning, tactical execution, and measurement of social media platforms.

**JL MC 474: Communication Technology and Social Change**

(3-0) Cr. 3.

*Prereq:* Junior classification

Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

Meets International Perspectives Requirement.

**JL MC 476: World Communication Systems**

(Dual-listed with JL MC 576). (3-0) Cr. 3.

*Prereq:* JL MC 476: Junior Classification. JL MC 576: Graduate classification or instructor permission.

World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information, advertising and public relations on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems. Meets International Perspectives Requirement.

**JL MC 477: Diversity in the Media**

(3-0) Cr. 3. F.S.SS.

*Prereq:* Junior classification

Portrayals of ethnic groups, gender, sexual orientation and social class in the media in news, advertising, information and entertainment; the effects of mass media on social issues and population groups.

**JL MC 490: Independent Study in Communication**

Cr. arr.

*Prereq:* Junior classification; Permission of Instructor

Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.

**JL MC 497: Special Topics in Communication**

(Cross-listed with ADVRT, P R). Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

Seminars or one-time classes on topics of relevance to students in communication. See Schedule of Classes for topics.

**JL MC 499: Professional Media Internship**

Cr. 1-3. F.S.SS.

*Prereq:* ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110, ADVRT 301 or P R 301; minimum of C + in P R 321]); Advisor Approval

See ADVRT/JL MC/P R 499A or 499B. Offered on a satisfactory-fail basis only.

**JL MC 499A: Professional Media Internship: Required**

Cr. 3. F.S.SS.

*Prereq: ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110, ADVRT 301 or P R 301; minimum of C + in P R 321]); Advisor Approval*

Initial, required internship. A 400-hour (for 3 credits) internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

**JL MC 499B: Professional Media Internship: Optional**

Cr. 1-3. F.S.SS.

*Prereq: ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110, ADVRT 301 or P R 301; minimum of C + in P R 321]); Advisor Approval*

Optional internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**JL MC 501: Theories of Mass Communication**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Historical overview of mass communication theories. Examination of major areas of research activity and theoretical development related to organization, functions, and effects of mass communication.

**JL MC 502: Fundamentals of Communication Research Methods**

(3-0) Cr. 3.

*Prereq: JL MC 501 or concurrent enrollment.*

Research methods in journalism and mass communication, including problem selection, sampling, hypothesis formulation, research design, data collection and analysis. Designing a research strategy appropriate for a variety of communication-related questions and assessing the appropriateness, validity, and generalizability of research results.

**JL MC 506: Media Management**

(Dual-listed with JL MC 406). (3-0) Cr. 3.

*Prereq: JL MC 406: Junior classification. JL MC 506: Graduate classification or Permission of Instructor*

Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

**JL MC 510: Strategies of Communication**

(3-0) Cr. 3.

*Prereq: JL MC 501 or instructor permission*

The process of developing professional communication and persuasion strategies, with emphasis on problem definition, behavioral objectives, situation analysis, strategy formulation, and justification through application of communication theories and research.

**JL MC 520: Public Relations Theory and Methods**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Overview of dominant theories and research methods applied to the study and practice of public relations.

**JL MC 521: Theories of Visual Communication**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Explores the theoretical frameworks in visual communication, including concepts of perception, visual language, visual persuasion, and the social, political and cultural implications of the use of images. Understanding the function of images in changing knowledge, attitudes and behavior.

**JL MC 547: Science Communication**

(Dual-listed with JL MC 347). (3-0) Cr. 3.

*Prereq: JL MC 347: C+ or better in JL MC 302, JL MC 303 or P R 321.*

*Nonmajors and minors by permission of instructor. JL MC 547: Graduate classification.*

Understanding and practicing science communication. Emphasis on building skills to report on science topics, telling science stories using different kinds of media, and understanding factors that impact how different audiences interpret scientific information. Explorations of science communication products relevant to health, natural resources, social science, and technology.

**JL MC 560: Risk Perception and Communication**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Study of risk communication principles, models and theories applicable to any risk communication situation. Emphasis on science, technology and risk issues, such as food, health, agriculture and the environment. Examines roles of scientists and communicators in cultivating a public informed about scientific and technological issues.

**JL MC 561: Media and Society: Interrelationships**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Media roles and functions in society including interrelationships between the media and a variety of social actors and forces. Theories and practices regarding social networking and communication via social media; influence of social media and social networking.

**JL MC 574: Communication Technologies and Social Change**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance.

Meets International Perspectives Requirement.

**JL MC 576: World Communication Systems**

(Dual-listed with JL MC 476). (3-0) Cr. 3.

*Prereq: JL MC 476: Junior Classification. JL MC 576: Graduate classification or instructor permission.*

World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information, advertising and public relations on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems.

Meets International Perspectives Requirement.

**JL MC 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 590A: Special Topics: Media Studies**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 590B: Special Topics: Professional Specialization**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 590C: Special Topics: Research Problems and Methods**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 590D: Special Topics: Technique and Style**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 590E: Special Topics: Specialized Communication**

Cr. arr. Repeatable.

*Prereq: Permission of instructor***JL MC 591: Professional Internship**

Cr. 1-2. F.S.SS.

*Prereq: Permission of instructor*

Supervised internship experience. Offered on a satisfactory-fail basis only.

**JL MC 592: Introduction to Graduate Study in Journalism and Mass Communication**

(1-0) Cr. 1.

*Prereq: Graduate classification in JL MC.*

Overview of advanced study in journalism and mass communication with special emphasis on requirements for obtaining the master of science degree.

**JL MC 598: Seminars in Mass Communication**

Cr. 1-3. Repeatable, maximum of 3 credits.

*Prereq: graduate classification or instructor permission.*

Seminar in Mass Communication.

**JL MC 598A: Seminars in Mass Communication: Audiences and Effects**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598B: Seminars in Mass Communication: Communication Technology**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598C: Seminars in Mass Communication: Professional Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598D: Seminars in Mass Communication: Development Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598E: Seminars in Mass Communication: Evaluation Methods**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598F: Seminars in Mass Communication: International Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.***JL MC 598G: Seminars in Mass Communication: Mass Communication History**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598H: Seminars in Mass Communication: Mass Communication Law**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598I: Seminars in Mass Communication: Media Management**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598J: Seminars in Mass Communication: Research Methods**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598K: Seminars in Mass Communication: Society and Mass Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598L: Seminars in Mass Communication: Journalism and Mass Communication Education**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598M: Seminars in Mass Communication: Visual Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598N: Seminars in Mass Communication: Broadcast Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598O: Seminars in Mass Communication: Communication Theory**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598P: Seminars in Mass Communication: Computer Mediated Communication**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 598Q: Seminars in Mass Communication: Science, Technology and Risk Communication.**

Cr. 1-3. Repeatable.

*Prereq: Graduate classification or instructor permission.*

**JL MC 599: Creative Component**

Cr. arr. Repeatable.

*Prereq: Approved creative component proposal*

**Courses for graduate students:**

**JL MC 699: Thesis Research**

Cr. arr. Repeatable.

*Prereq: Approved thesis proposal*

## Kinesiology (KIN)

***Any experimental courses offered by KIN can be found at:***

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**KIN 101: Swimming I**

(0-3) Cr. 1. F.S.SS.

Basic course for nonswimmers. Emphasis on two fundamental strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

**KIN 102: Swimming II**

(0-3) Cr. 1. F.S.

*Prereq: KIN 101*

Intermediate course. Emphasis on learning and improving five basic strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

**KIN 108: Aquatic Fitness**

(0-3) Cr. 1. F.S.

*Prereq: KIN 102 or Permission of Instructor*

Water related exercises, activities, and swimming workouts to improve physical fitness. Offered on a satisfactory-fail basis only.

**KIN 122: Badminton**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental badminton skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 129: Bowling**

(0-2) Cr. 1. F.S.SS.

Introduction to bowling skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 135: Golf**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental golf skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 144: Racquetball**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental racquetball skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 153: Ice Skating**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental ice skating skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 158: Tennis**

(0-2) Cr. 1. F.S.SS.

Introduction to basic skills (forehand, backhand, service) and basic knowledge of game play. Offered on a satisfactory-fail basis only.

**KIN 163: Physical Fitness**

(0-3) Cr. 1. F.S.SS.

Evaluation of fitness status. Exercises, activities, and programs to improve physical fitness. Offered on a satisfactory-fail basis only. Credit for only KIN 163 or 258 may be applied toward graduation.

**KIN 164: Walking for Fitness**

(0-3) Cr. 1. F.S.SS.

Fitness walking as an activity to improve health and fitness; values of this type of activity as a lifetime endeavor with knowledge and usage of pedometers. Offered on a satisfactory-fail basis only.

**KIN 165: Running for Fitness**

(0-2) Cr. 1. F.S.SS.

Running as a physical activity to improve physical fitness and health. Promotion of this activity as a lifetime endeavor. Offered on a satisfactory-fail basis only.

**KIN 166: Weight Training**

(0-3) Cr. 1. F.S.SS.

Introduction to fundamental skills of weight training and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 168: Judo**

(0-2) Cr. 1. F.S.

Fundamentals of self defense, focusing on throwing with the hands, hips and feet as well as applying pins, chokes and arm-bars. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self control, & indomitable spirit. Emphasis on learning a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

**KIN 170: Tae Kwon Do/Karate I**

(0-2) Cr. 1. F.S.

Teaches fundamentals of self-defense, focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

**KIN 171: Tae Kwon Do/Karate II**

(0-2) Cr. 1. F.S.

Teaches advanced application of self-defense focusing on hand and foot striking and blocking techniques. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health and citizenship. Offered on a satisfactory-fail basis only.

**KIN 173: Hap Ki Do/Martial Self-Defense**

(0-2) Cr. 1. F.S.

Teaches fundamentals of self-defense focusing on joint locks, pressure points and throwing techniques to escape from an attacker. The physical skills will be taught focused on training through development of courtesy, integrity, perseverance, self-control and indomitable spirit. It will be emphasized that each student learns a way of life that promotes personal development, physical health & citizenship. Offered on a satisfactory-fail basis only.

**KIN 182: Volleyball**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental volleyball skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 185: Soccer**

(0-2) Cr. 1. F.S.SS.

Introduction to fundamental soccer skills and strategic game play. Offered on a satisfactory-fail basis only.

**KIN 210: Concepts of Fitness and Wellness**

(2-0) Cr. 2. F.S.

Coverage of behavioral skills needed to adopt and maintain lifestyles conducive to fitness and wellness. Provides students with knowledge and skills needed to adopt and maintain healthy lifestyles. Includes self-assessments and content on physical activity, nutrition, weight control, stress management and other lifestyle behaviors related to health. For non-kinesiology majors.

**KIN 231: Fundamentals of Tumbling and Gymnastics**

(0-3) Cr. 1. F.

*Prereq: Physical Education Teacher Education Specialization*

Fundamentals of tumbling and gymnastics apparatus. Skill enhancement, analysis, understanding practice and the development of progressions.

**KIN 232: Fundamentals of Team Sports**

(0-3) Cr. 1. F.

*Prereq: Physical Education Teacher Education Specialization*

Fundamentals of indoor and outdoor team sports, for example basketball, volleyball, flag football, and soccer. Skill enhancement, analysis, understanding practice and the development of progressions.

**KIN 236: Fundamentals of Individual Sports and Fitness**

(0-3) Cr. 1. S.

*Prereq: Physical Education Teacher Education Specialization*

Fundamentals of individual sports and fitness, for example disc golf, bowling, badminton, and weight training. Skill enhancement, analysis, understanding practice and the development of progressions.

**KIN 242: Planning for Success in a Health Career**

Cr. 0.5. F.S.

*Prereq: Pre-Health Professions Specialization; Sophomore classification*

Reflection and discovery to better understand skills needed for admission to professional and graduate school. Facilitate preparation of relevant materials and develop professional school admission strategies. Offered on a satisfactory-fail basis only.

**KIN 252: Introduction to the Discipline of Kinesiology**

(1-0) Cr. 1. F.S.

Relevant societal issues and research within the discipline of Kinesiology (the study of movement) are addressed.

**KIN 253: Orientation and Learning Community in Kinesiology and Health**

(1-0) Cr. 1. F.S.

Overview of ISU policies and procedures, academic advising operations, degree requirements, program of study planning, and campus resources. Students will have out-of-class activities and work with faculty, staff and mentors to explore careers in Kinesiology and complete assignments related to identification & development of their skills and interests. Department of Kinesiology students only. Offered on a satisfactory-fail basis only.

**KIN 258: Principles of Physical Fitness and Conditioning**

(1-3) Cr. 2. F.S.

Introduction to five components of fitness: cardiorespiratory, muscular strength, muscular endurance, flexibility, and body composition. Students will be introduced to basic exercise prescription and evaluation principles, develop skills to assess each component of fitness, and learn different exercise modalities to enhance each component. Credit for only one of the following courses may be applied toward graduation: KIN 163, 258.

**KIN 259: Leadership Techniques for Fitness Programs**

(2-2) Cr. 3. F.S.

*Prereq: KIN 258*

Development of exercise leadership skills for a variety of activities. Includes planning, promotion, and teaching techniques for developing fitness in others using a variety of exercise modalities including group fitness and weight training. Kinesiology and health majors only.

**KIN 266: Advanced Strength Training and Conditioning**

(1-2) Cr. 2. F.S.

*Prereq: KIN 258*

This course is designed to enhance the student's current level of knowledge and expertise to an advanced level in the area of strength training and conditioning. The course will prepare students interested in taking the National Strength and Conditioning Association Certified and Conditioning Specialist's exam. The course will focus on the assessment and implementation of training programs with strong emphasis on the areas of resistance training, metabolic training, flexibility, reaction time, speed, and agility. Kinesiology and health majors only and permission of instructor needed.

**KIN 280: Directed Field Experience in Elementary Physical Education**

(0-3) Cr. 1. F.S.

*Prereq: Physical Education Teacher Education Specialization*

Observing, planning, and facilitating movement experiences of children in an elementary school setting. Offered on a satisfactory-fail basis only.

**KIN 281: Directed Field Experience in Secondary Physical Education**

(0-3) Cr. 1. F.S.

*Prereq: Physical Education Teacher Education Specialization*

Observing, planning, and facilitating movement experiences of students in a middle and/or high school setting. Offered on a satisfactory-fail basis only.

**KIN 282: Field Experience with Educational Outreach**

(0-2) Cr. 1. F.S.

*Prereq: Admission to Educator Preparation Program*

Planning and facilitating physical education experiences for children in a community outreach setting. Experiences take place on campus. Offered on a satisfactory-fail basis only.

**KIN 284: Elementary and Pre-school Movement Education**

(2-3) Cr. 3. F.S.

*Prereq: 3 credits in human development and family studies*

Approaches to teaching movement skills, health-related fitness and school-based physical activities (in the classroom, in PE, during recess) to pre-school and elementary school age children are covered. Emphasis is placed on planning and conducting developmentally appropriate movement experiences for preschool and elementary aged children throughout the school day based upon educational psychology, exercise psychology and motor development research. Practical experience is provided. Credit in only one of the following courses may be applied toward graduation: KIN 284, 312.

**KIN 285: Pre-Internship in Kinesiology and Health**

(Cross-listed with H S). Cr. 1-2. F.S.

*Prereq: Kinesiology and Health major; credit or concurrent enrollment in KIN 258; Permission of Internship Coordinator*

Pre-internship experience with a health organization based on option. Offered on a satisfactory-fail basis only.

**KIN 290: Independent Study**

Cr. 1. Repeatable, maximum of 3 credits. F.S.

*Prereq: 2nd semester Freshmen or Sophomore classification; Permission of Instructor*

Study under supervision of faculty.

**KIN 312: Movement Education in Elementary School Physical Education**

(2-2) Cr. 3. F.

*Prereq: Admission to Education Preparation Program*

Planning for management and instruction of developmentally appropriate physical education for children pre-school through grade six. Laboratory experience required. Credit for only one of KIN 284 or KIN 312 may be applied toward graduation.

**KIN 313: Teaching Secondary Physical Education**

(2-3) Cr. 3. S.

*Prereq: Admission to Education Preparation Program*

Current theory, practice and research on teaching focusing on management, instructional, and learning styles of students in secondary schools.

**KIN 315: Coaching Theory and Administrative Issues**

(3-0) Cr. 3. F.S.SS.

Study in the theory, ethics, strategy, and mechanics of coaching various interscholastic and/or intercollegiate sports. Emphasis on formulating a philosophy, identifying goals and psychological aspects, teaching skills, and developing strategies.

**KIN 345: Management of Health-Fitness Programs and Facilities**

(3-0) Cr. 3. F.S.

Application of management concepts to the fitness industry, e.g., understanding customers, marketing, program management, financial management, legal issues, and evaluation and planning.

**KIN 355: Biomechanics**

(3-0) Cr. 3. F.S.SS.

*Prereq: PHYS 115 or PHYS 131*

Mechanical basis of human performance; application of mechanical principles to exercise, sport and other physical activities.

**KIN 358: Exercise Physiology**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 255; BIOL 256*

Physiological basis of human performance; effects of physical activity on body functions.

**KIN 359: Exercise Physiology Lab**

(0-2) Cr. 1. F.S.SS.

*Prereq: Concurrent enrollment in KIN 358*

Learning lab techniques in Exercise Physiology and engaging in the experimental process.

**KIN 360: Sociology of Physical Activity and Health**

(3-0) Cr. 3. F.S.

*Prereq: SOC 134*

Provide an overview of sociology to enhance students understanding of societal forces influencing behavior; Provide insights about people, environments, organization and policies that impact Kinesiology professionals.

Meets U.S. Diversity Requirement

**KIN 363: Basic Electrocardiography**

(2-0) Cr. 2. Alt. F., offered even-numbered years.

Understanding of human electrocardiography, including normal and abnormal 12-lead ECGs and arrhythmia identification.

**KIN 365: Sport Psychology**

(3-0) Cr. 3. F.S.

*Prereq: PSYCH 101 or PSYCH 230*

Psychological factors that influence performance in sport settings.

The influence of personality, anxiety, motivation and social factors.

Psychological skills training and strategic methods for improvement of athletic performance.

**KIN 366: Exercise Psychology**

(3-0) Cr. 3. F.S.SS.

*Prereq: PSYCH 101 or PSYCH 230*

Psychological theories for understanding and predicting health-oriented exercise behavior. Psychological and psychobiological responses to exercise. Psychological interventions for increasing exercise participation and adherence rates.

**KIN 372: Motor Control and Learning Across the Lifespan**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 255; BIOL 256; (PSYCH 101 or PSYCH 230)*

Introduction to major concepts of neuromotor control, behavioral motor control and motor learning in the child, adult and older adult, with emphasis on the adult system.

**KIN 373: Biomechanics and Motor Control Laboratory**

(0-2) Cr. 1.

*Prereq: Credit or concurrent enrollment in (KIN 355; KIN 372)*

Introduction to lab techniques in Biomechanics and Motor Control by engaging in the experimental process. Reinforces and integrates concepts from KIN 355 and KIN 372. Performance of hands-on collection of biomechanical and motor control data and analysis and explanation of human movement from mechanical, behavioral, and neural perspectives.

**KIN 381A: Study Abroad Experience in Kinesiology: Preparing for the Experience**

Cr. 1. Alt. S., offered even-numbered years.

*Prereq: KIN 252; KIN 253; major in A TR or KIN; Sophomore classification; minimum GPA of 2.5*

Prepares student for a study abroad experience focused on the discipline of Kinesiology in another country. Precedes a multi-credit KIN 381B course that is the actual study abroad experience. The prerequisite for this course is having been accepted to study abroad by the Program Director of your intended program. Offered on a satisfactory-fail basis only.

Meets International Perspectives Requirement.

**KIN 381B: Study Abroad Experience In Kinesiology**

Cr. 2. Alt. SS., offered even-numbered years.

*Prereq: KIN 381A; Permission of Instructor*

First-person perspective into the discipline of Kinesiology in another country as well as provide enrichment experiences related to the history and culture of that country. Follows a 1 credit KIN 381A course that was intended to prepare you for this study abroad experience. Offered on a satisfactory-fail basis only.

Meets International Perspectives Requirement.

**KIN 385: Preparation and Search Strategies for Kinesiology and Health Internships**

(Cross-listed with H S). Cr. 0.5. F.S.

*Prereq: Junior classification*

Preparation of relevant material for a successful internship/career search. Specific internship timeline, process, procedures will be reviewed. Course needs to be taken a minimum of two semesters prior to required internship.

**KIN 391: Service Learning Leadership Experience**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

Applied service learning experiences designed to provide students with opportunities to apply classroom knowledge to real world applications. Students will gain professional skills and programming experience while supporting health, education and wellness programming in school, work site or community settings. Offered on a satisfactory-fail basis only.

**KIN 395: Adapted Physical Education**

(Dual-listed with KIN 595). (2-2) Cr. 3. F.

*Prereq: Admission to Education Preparation Program*

Etiology, characteristics, needs, and movement experiences for individuals with disabilities. Designed to provide appropriate methods of physical education instruction for students including those with disabilities as identified by the Individuals with Disabilities Education Act and students who are talented and gifted. Assessments and strategies to differentiate instruction and to adapt activities for all exceptional learners will be addressed. Laboratory experience required. KIN 595 may not be taken by students who previously earned credit in KIN 395.

**KIN 399: Recreational Sport Management**

(3-0) Cr. 3. F.

*Prereq: SOC 134*

The role of sport in developing fitness, recreational opportunities, and tourism, with special emphasis on issues related to youth sport, volunteerism, and the marketing of sport events and facilities.

**KIN 417: Supervised Teaching in Physical Education in the Secondary School**

Cr. arr. F.S.

*Prereq: KIN 281; KIN 282; KIN 313; KIN 355; KIN 395; KIN 471; KIN 475; (Physical Education Teacher Education Specialization or Admission to Education Preparation Program); Permission of Advisor*

Supervised teaching in the secondary schools.

### **KIN 418: Supervised Teaching in Physical Education in the Elementary School**

Cr. 8. F.S.

*Prereq: KIN 280; KIN 282; KIN 312; KIN 355; KIN 395; KIN 471; KIN 475; (Physical Education Teacher Education Specialization or Admission to Education Preparation Program); Permission of Advisor*

Supervised teaching in the elementary schools.

### **KIN 455: Research Topics in Biomechanics**

(3-0) Cr. 3.

*Prereq: KIN 355 or Permission of Instructor*

Examination of biomechanics and kinesiology research literature to evaluate the application of mechanical principles and analyses to human movement in exercise, sport, physical activity, and activities of daily living and to assess research outcomes and their implications for motor performance, movement energetic, musculoskeletal loading, and injury.

### **KIN 458: Principles of Fitness Assessment and Exercise Prescription**

(3-2) Cr. 4. F.S.

*Prereq: Minimum of C- in KIN 358*

Principles of cardiac risk factor identification and modification; risk classification of potential exercise clients; fitness assessments; developing comprehensive exercise prescriptions for individuals.

### **KIN 459: Internship in Exercise Leadership**

(0-3) Cr. 1. F.S.

*Prereq: C- or better in KIN 259; credit or concurrent enrollment in KIN 458*

Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

### **KIN 462: Medical Aspects of Exercise**

(3-0) Cr. 3. F.S.

*Prereq: Minimum of C- in KIN 358*

The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions. Environmental and nutritional aspects of exercise.

### **KIN 466: Exercise for Mental Health**

(3-0) Cr. 3. S.

*Prereq: KIN 366 or Senior classification in Psychology or Permission of Instructor*

Understand the state-of-the-knowledge of the mental health benefits of physical activity both in the prevention and in the treatment of clinical mental health and other psychological conditions. Focus on both the neurobiological bases of mental health disorders and the effects of exercise on these factors. Practical approach to encouraging changes in physical activity across populations suffering from psychological disturbances as part of treatment.

### **KIN 467: Exercise and Health: Behavior Change**

(Dual-listed with KIN 567). (3-0) Cr. 3. F.S.

*Prereq: KIN 366 or Permission of Instructor*

Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

### **KIN 471: Measurement in Physical Education**

(Dual-listed with KIN 571). (3-0) Cr. 3. S.

*Prereq: Admission to Education Preparation Program*

Current theory, practice and research on measurement and evaluation in physical education and youth physical activity settings. Statistics, grading, and specific assessments including fitness, motor skill, sport skill, physical activity, affective, and cognitive testing will be addressed. KIN 571 may not be taken by students who previously earned credit in KIN 471.

### **KIN 472: Neural Basis of Human Movement**

(Dual-listed with KIN 572). (3-0) Cr. 3. F.S.

*Prereq: KIN 372 or PSYCH 310*

Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

### **KIN 473: Physical Dimensions of Aging**

Cr. 3. S.

*Prereq: KIN 355 or KIN 358 or KIN 372*

Understanding the physiological, behavioral, and cognitive changes associated with aging with focus on the effects of physical activity on the aging human system. Discussions of what it means to become older, what a person can expect during the aging process, and what kind of control a person has over the aging process.

### **KIN 475: Physical Education Curriculum Design and Program Organization**

(Dual-listed with KIN 575). (3-0) Cr. 3. F.

*Prereq: KIN 280; KIN 281; Admission to Educator Preparation Program*

Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

**KIN 480: Functional Anatomy**

(3-0) Cr. 3. F.S.

*Prereq: (BIOL 155 or BIOL 255); BIOL 256; KIN 355*

The structure and function of human muscular, skeletal and nervous systems. The relationship of these systems to efficient and safe human motion.

**KIN 481: Biomechanics Lab**

(0-2) Cr. 1.

*Prereq: KIN 355*

Learning lab techniques in Biomechanics and engaging in the experimental process.

**KIN 483: Exercise Psychology Lab**

(0-2) Cr. 1.

*Prereq: KIN 366*

Learning lab techniques in Exercise Psychology and engaging in the experimental process.

**KIN 484: Assessment and Control of Locomotion**

(0-2) Cr. 1.

*Prereq: KIN 372*

Learning lab techniques in Motor Control and engaging in the experimental process.

**KIN 485: Internship in Kinesiology**

Cr. 8-12.

*Prereq: Senior classification; Exercise Science specialization; C- or better in (KIN 355; KIN 358; KIN 359; KIN 366; KIN 372; KIN 458; KIN 459; KIN 462; H S 350); Cumulative GPA 2.0; Permission of Internship Coordinator*

Observation and practice in exercise/fitness agencies. Offered on a satisfactory-fail basis only.

**KIN 485A: Internship in Exercise Science**

Cr. 8-12. F.S.SS.

*Prereq: Senior classification; Exercise Science specialization; C- or better in (KIN 355; KIN 358; KIN 359; KIN 366; KIN 372; KIN 458; KIN 459; KIN 462; H S 350); Cumulative GPA 2.0; Permission of Internship Coordinator*

Observation and practice in selected exercise science agencies. Offered on a satisfactory-fail basis only.

**KIN 485G: Internship in Kinesiology: General**

Cr. 8-12.

*Prereq: Senior classification; Exercise Science specialization; C- or better in (KIN 355; KIN 358; KIN 359; KIN 366; KIN 372; KIN 458; KIN 459; KIN 462; H S 350); Cumulative GPA 2.0; Permission of Internship Coordinator*

Observation and practice in exercise/fitness agencies. Offered on a satisfactory-fail basis only.

**KIN 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

Independent study of problems of areas of interest in exercise and sport science and related areas. 6 credits from KIN advanced core recommended.

**KIN 490A: Independent Study: Exercise and Sport Science**

Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Permission of Instructor*

Independent study of problems of areas of interest in exercise and sport science and related areas. 6 credits from KIN advanced core recommended.

**KIN 490H: Independent Study: Honors**

Cr. 1-2. Repeatable, maximum of 4 credits.

*Prereq: Permission of Instructor*

Independent study of problems of areas of interest in exercise and sport science and related areas. 6 credits from KIN advanced core recommended.

**KIN 491: Undergraduate Teaching Experience**

Cr. 1-2. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior classification or higher; Permission of Instructor*

Undergraduate teaching assistant opportunity in Kinesiology. Offered on a satisfactory-fail basis only.

**KIN 494: Practicum in Motivational Interviewing for Health**

Cr. 1-2. Repeatable, maximum of 6 credits. F.S.

*Prereq: Junior classification or higher; Permission of Instructor*

This supervised practicum course is designed for students interested in learning how to conduct 'motivational interviewing' for behavior change and health coaching applications. Students will learn strategies of motivational interviewing and have opportunities to practice applying these skills with adult clients. Offered on a satisfactory-fail basis only.

**KIN 494A: Practicum in Motivational Interviewing for Health: Principles of Motivational Interviewing**

Cr. 1. F.S.SS.

*Prereq: Junior classification or higher; Permission of Instructor*

Introduction to the principles of 'motivational interviewing' for behavior change and health coaching applications. Students interested in gaining practical experience in health coaching should enroll in the associated practicum course (KIN 494B). Offered on a satisfactory-fail basis only.

**KIN 494B: Practicum in Motivational Interviewing for Health: Supervised Experience**

Cr. 1-2. Repeatable, maximum of 5 credits. F.S.

*Prereq: KIN 494A; Permission of Instructor*

This supervised practicum course is designed for students interested in gaining experience in applying 'motivational interviewing' strategies in behavior change and health coaching applications. Students will have opportunities to practice motivational interviewing skills with adult clients and receive on-going support and assistance needed to refine their skills. Offered on a satisfactory-fail basis only.

**KIN 495: Special Topics in Kinesiology**

Cr. 1-3.

*Prereq: Junior classification or higher*

Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**KIN 501: Research Methods in Physical Activity**

(3-0) Cr. 3. Repeatable.

*Prereq: Graduate classification in kinesiology and health*

Methods and techniques used in the design and interpretation of research involving physical activity. Emphasis on styles of writing, library use, and computer applications.

**KIN 505: Research Laboratory Techniques in Exercise Physiology**

(1-4) Cr. 3.

*Prereq: KIN 358 or equivalent course with basic laboratory experience*

Application and use of laboratory research equipment in exercise physiology, including operation, calibration, and use in selected situations.

**KIN 510: Advanced Medical Aspects of Exercise**

(2-0) Cr. 2.

*Prereq: KIN 358*

The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions.

**KIN 511: Physical Activity Strategies for Youth**

Cr. 3.

Provide adequate opportunities to develop a more in-depth understanding of (a) the challenges in youth physical activity (PA), (b) the relevant theoretical models that are popular in youth PA, (c) the strategies that can be implemented to promote PA in youth.

**KIN 512: Movement Education in Elementary School Physical Education**  
(2-2) Cr. 3. F.

Planning for management and instruction of developmentally appropriate physical education for children pre-school through grade six. Laboratory experience required. Emphasis on evaluating published research on physical education and school-wide physical activity.

**KIN 515: Injury Biomechanics**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Kin 355 or permission of instructor.*

Utilization of biomechanical principles to model injury mechanisms. Introduction to tissue mechanics of bone, articular cartilage, ligament, tendon, muscle, and nerve. Biomechanics of lower extremity, upper extremity, and head/neck/trunk injuries.

**KIN 516: Quantitative Analysis of Human Movement**

(3-1) Cr. 3.

*Prereq: KIN 355*

Application of the principles of mechanics to the analysis of human motion. Investigation of the effects of kinematics and kinetics on the human body with special emphasis on exercise and sport applications. Includes consideration of two-dimensional and three-dimensional imaging techniques and force measurements.

**KIN 517: Musculoskeletal Modeling**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: KIN 355 or permission from instructor*

Systematic problem-solving approaches and design of computer programs for biomechanical analyses. Estimation of anthropometric parameters and mechanical properties of muscles, bones, and joints. Integration of anthropometrics, kinematics, EMG, and muscle mechanics into simulations of human movement.

**KIN 518: Student Teaching in Elementary Physical Education**

(0-8) Cr. 8. F.S.

*Prereq: KIN 512, KIN 570, KIN 575*

Student teaching for 8 weeks in an elementary school.

**KIN 519: Student Teaching in Secondary Physical Education**

(0-8) Cr. 8. F.S.

*Prereq: KIN 512, KIN 570, KIN 575*

Student teaching for 8 weeks in a middle or high school.

**KIN 521: Advanced Topics in Exercise and Sport Psychology**

(3-0) Cr. 3.

*Prereq: KIN 365 or KIN 366, 3 courses in psychology; open to majors only or by permission of instructor*

Aspects of psychology which form a basis for understanding and explaining behavior in the context of exercise and sport. Emphasis on evaluating published research, particularly theory and research methodology. Student presentations.

**KIN 549: Advanced Vertebrate Physiology I**

(Cross-listed with AN S, NUTRS). (4-0) Cr. 4. F.

*Prereq: recommended: an undergraduate physiology course and a biochemistry course*

Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.

**KIN 550: Advanced Physiology of Exercise I**

(2-3) Cr. 3.

*Prereq: KIN 505*

Analysis of factors affecting work capacity and performance. Concepts and measurement of human energy metabolism and bioenergetic adaptations to training.

**KIN 551: Advanced Physiology of Exercise II**

(2-3) Cr. 3.

*Prereq: KIN 505*

Analysis of factors affecting cardiovascular and respiratory function in response to multiple stressors including exercise. Influence of environment will also be discussed.

**KIN 560: Principles of Neuromotor Control and Learning**

(2-3) Cr. 3.

*Prereq: KIN 372*

Theoretical perspectives of neuromotor control and learning will be examined as well as factors that facilitate motor learning. Neuromotor control and learning will also be addressed by studying functional tasks such as reach-to-grasp and locomotion.

**KIN 561: Motor Development and Physical Activity**

(2-0) Cr. 2-3.

*Prereq: PSYCH 230*

Addresses theories and underlying mechanisms of motor development and motor control applied to typically and atypically developing children. Developmental control of balance, locomotion, reach-to-grasp, and other functional skills will be discussed, as will the role of physical activity in a child's life.

**KIN 567: Exercise and Health: Behavior Change**

(Dual-listed with KIN 467). (3-0) Cr. 3. F.S.

*Prereq: KIN 366 or Permission of Instructor*

Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

**KIN 570: Physical Activity Assessment for Health Related Research**

(2-2) Cr. 3.

This course will cover the broad scope of research in physical activity and public health. Emphasis will be placed on the application of physical activity assessment techniques since accurate measures are needed to more accurately assess the health benefits from physical activity and to evaluate the effectiveness of behavioral interventions designed to promote physical activity.

**KIN 571: Measurement in Physical Education**

(Dual-listed with KIN 471). (3-0) Cr. 3. S.

*Prereq: Admission to Education Preparation Program*

Current theory, practice and research on measurement and evaluation in physical education and youth physical activity settings. Statistics, grading, and specific assessments including fitness, motor skill, sport skill, physical activity, affective, and cognitive testing will be addressed. KIN 571 may not be taken by students who previously earned credit in KIN 471.

**KIN 572: Neural Basis of Human Movement**

(Dual-listed with KIN 472). (3-0) Cr. 3. F.S.

*Prereq: KIN 372 or PSYCH 310*

Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content.

**KIN 575: Physical Education Curriculum Design and Program Organization**

(Dual-listed with KIN 475). (3-0) Cr. 3. F.

*Prereq: KIN 280; KIN 281; Admission to Educator Preparation Program*

Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

**KIN 590: Special Topics**

Cr. 1-3. Repeatable.

**KIN 590A: Special Topics: Physical Education**

Cr. 1-3. Repeatable.

**KIN 590B: Special Topics: Health and Exercise Promotion**

Cr. 1-3. Repeatable.

**KIN 590D: Special Topics: Exercise Physiology**

Cr. 1-3. Repeatable.

**KIN 590E: Special Topics: Sport Sociology**

Cr. 1-3. Repeatable.

**KIN 590F: Special Topics: Sport/Exercise Psychology**

Cr. 1-3. Repeatable.

**KIN 590G: Special Topics: Motor Behavior**

Cr. 1-3. Repeatable.

**KIN 590H: Special Topics: Biomechanics**

Cr. 1-3. Repeatable.

**KIN 590I: Special Topics: Research Ethics**

Cr. 1-3. Repeatable.

**KIN 591: Supervised Field Experience**

Cr. 1-6.

*Prereq: 10 graduate credits in kinesiology and/or related areas*

Supervised on-the-job field experience in special areas.

**KIN 591A: Supervised Field Experience: Physical Education**

Cr. 1-6.

*Prereq: 10 graduate credits in kinesiology and/or related areas*

Supervised on-the-job field experience in special areas.

**KIN 591B: Supervised Field Experience: Health and Exercise Promotion**

Cr. 1-6.

*Prereq: 10 graduate credits in kinesiology and/or related areas*

Supervised on-the-job field experience in special areas.

**KIN 591D: Supervised Field Experience: Exercise Physiology**

Cr. 1-6.

*Prereq: 10 graduate credits in kinesiology and/or related areas*

Supervised on-the-job field experience in special areas.

**KIN 592: Practicum in College Teaching**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

Supervised experience with teaching an upper division, classroom-based course. Offered on a satisfactory-fail basis only.

**KIN 595: Adapted Physical Education**

(Dual-listed with KIN 395). (2-2) Cr. 3. F.

*Prereq: Admission to Education Preparation Program*

Etiology, characteristics, needs, and movement experiences for individuals with disabilities. Designed to provide appropriate methods of physical education instruction for students including those with disabilities as identified by the Individuals with Disabilities Education Act and students who are talented and gifted. Assessments and strategies to differentiate instruction and to adapt activities for all exceptional learners will be addressed. Laboratory experience required. KIN 595 may not be taken by students who previously earned credit in KIN 395.

**KIN 599: Creative Component**

Cr. 1-3. Repeatable.

**Courses for graduate students:****KIN 615: Seminar**

Cr. 1-3. Repeatable.

**KIN 620: Advance Research Methods in Physical Activity**

(3-0) Cr. 3. S.

*Prereq: KIN 501, STAT 402 and STAT 587. Doctoral students only*

Culminating seminar designed to synthesize statistical and design courses with practical research issues using data from physical activity.

**KIN 661: Advanced Topics in Neuroscience**

(Cross-listed with BBMB, GDCB, NEURO). (3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years.

*Prereq: NEURO 556 (or comparable course) or permission of instructor*

Students will present three journal articles and two overview lectures on topics in neuroscience that are related but outside of their own research interest.

**KIN 670: Molecular Biology of Muscle**

(Cross-listed with AN S). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BBMB 405, BBMB 420*

Ultrastructure of muscle; chemistry, structure, function, and molecular biology of muscle proteins. Molecular aspects of muscle contraction, development and turnover. Cytoskeletal proteins and dynamics.

**KIN 699: Research**

Cr. 1-6. Repeatable.

## Landscape Architecture (L A)

***Any experimental courses offered by L A can be found at:***

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**L A 171: City Play!**

(3-0) Cr. 3.

Exploration of play in cities. Introduction to two important concepts: how play has become a central theme in the economic development and sustainability of cities around the world; and, how the design of cities needs to make room for equitable access to play for everyone.

**L A 201: Studio: Landscape Interpretation and Representation**

(0-12) Cr. 6. F.

*Prereq: Enrollment in the professional program*

Reading and representing varied landscapes; development of aesthetic sensitivity to the geomorphology, vegetation, and cultural influences on these landscapes. Small-scale interventions and exploration of landscape phenomena and change. Emphasis on a variety of documentation and drawing techniques.

**L A 202: Studio: Site Design I**

(0-12) Cr. 6. S.

*Prereq: L A 201*

Fundamental issues of landscape planning and design at a site scale. Projects introduce a variety of (objective and subjective) site inquiry methods, space and place making, and sensitive integration of architecture and landscape for specific land uses. User needs, precedent study, programming, site engineering, planting design, and outdoor space design expressed through a variety of three-dimensional modeling, graphic, and written media.

**L A 211: Digital Design Methods for Landscape Architecture**

(Cross-listed with C R P). (3-0) Cr. 3. S.

Foundational knowledge and basic skills in 2D, 3D, and 4D computer applications used for design development and communication, with emphasis on 3D modeling and workflow interoperability.

**L A 221: Native Plants of the Savanna Ecotone**

(2-3) Cr. 3. F.

*Prereq: Enrollment in the professional program*

Observation and study of the wetland, prairie, and woodland vegetation native to the savanna ecotone. Emphasis on plant communities, their distribution, structure, habitat and aesthetics. Plant identification and use in landscape design. Precedent and case studies of vegetation preservation, restoration and use in built works.

**L A 222: Introduced Plants of the Midwest**

(2-3) Cr. 3. S.

*Prereq: L A 221*

Identification, observation, and study of plants introduced to cultivation in the Midwest region. Plant cultural requirements, including adaptations to climate changes, solar exposure, and soil conditions. Investigation of history of plant introduction and use in designed landscape, including consequent impacts of plant introduction such as plant invasion. Introduction to planting design at the site scale, including matching plant cultural requirements to site conditions, functional uses of plants and expressive composition using plant form, texture and color.

**L A 241: Developing Identity as a Landscape Architect**

(1-0) Cr. 1. F.

*Prereq: Enrollment in the professional program*

Development of life skills for conflict resolution, effective interpersonal communication, and CPR/First Aid. Examination of personal values as they relate to the backgrounds, abilities, attitudes, and values of others; exploration of how these influence personal decision-making and group interaction. Reading, discussion, class activities, journal-keeping, writing. Offered on a satisfactory-fail basis only.

**L A 270: Foundations in Natural Resource Policy and History**

(Cross-listed with ENV S, NREM). (3-0) Cr. 3. F.

The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

**L A 272: Landscape Studies**

(3-0) Cr. 3. F.

*Prereq: Enrollment in the professional program*

Exploration of landscapes, from broad settlement patterns to individual sites. Investigation of relationships between vernacular and designed landscapes. Landscapes considered as modes of cultural production that shape and are shaped by social, political, and economic processes. Lectures, reading, field studies, and writing.

**L A 274: The Social and Behavioral Landscape**

(3-0) Cr. 3. S.

Exploration of social and behavioral factors pertinent to design of the domestic, civic, and commercial landscape. Focus on working familiarity with design principles as they relate to the behavior and activities of people across a broad demographic and cultural spectrum; application of these principles to design of outdoor environments. Lectures and discussions, including group exercises and field trips.

**L A 281: Investigating Landscape Form, Process, and Detail**

(1-6) Cr. 3. F.

*Prereq: Enrollment in professional program*

Exploration of the poetics and principles of landscape construction.

Investigation and interpretation of landform and geomorphic processes such as the hydrologic cycle, erosion, and sedimentation. Close observation and representation of detail design, with an emphasis on material types, their connections, and weathering. Readings, field studies, and drawings in analog and digital media.

**L A 282: Landscape Dynamics**

(2-2) Cr. 3. S.

*Prereq: Sophomore classification*

Understand design implications presented by geotechnical and ecological processes in the landscape including ecology, vegetation, soils and water. Understand the influence of landforms, geology, plants, soils, and water on the creation of landscape designs. Course relates current issues including water quality impairment, erosion, and invasive species with design strategies such as stormwater management, soil quality management, and plant community restoration. Field trips.

**L A 301: Site Design II**

(0-12) Cr. 6. F.

*Prereq: L A 202*

Development of half-acre to hundred-acre landscape design and planning proposals, potentially in collaboration with students in other programs. Apply critical methodological frameworks to shape site systems while providing appropriate support for diverse user groups and creating culturally meaningful places. Assess and interpret a program of use, organize subjective and objective site inventory and analysis, develop functional and poetic design strategies for infrastructure and natural systems, and craft artistic and functionally explicit landscape architectural proposals. Development of appropriate technique and high level of craft in representations to support design thinking process and final scheme presentation.

**L A 302: Ecological Design**

(0-12) Cr. 6. S.

*Prereq: L A 301, L A 381 and NREM 120*

Exploration and application of ecological theories and processes in design and planning to include hundred plus-acre scale in urban, urban fringe, and rural landscapes. Apply advanced landscape analysis of soil, water, topography, and vegetation utilizing geographic information systems with an emphasis on inventory and analysis mapping.

**L A 309: Field Travel**

Cr. 1. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Enrollment in the professional program and permission of instructor*

Observation of and reflection on professional practice and landscapes in urban, rural, and wilderness areas. Offered on a satisfactory-fail basis only.

**L A 322: Fundamentals of Planting Design**

(2-3) Cr. 3.

*Prereq: L A 221*

The art and techniques of creating plant compositions in the landscape that respond to cultural and biophysical contexts. Investigation of soil properties and plant/soil relationships relevant to the built environment. Methods of site inventory and analysis, developing plant palettes and composing plant assemblages that address expressive and functional needs. Introduction to the techniques of preparing planting plans, including standards for plant selection, plant lists and plant specification.

**L A 341: Contemporary Landscape Architecture**

(1-0) Cr. 1. S.

*Prereq: L A 301*

Exploration of contemporary landscape architectural practice through individualized research into practicing firms. Preparation of paper and presentation outlining broad framework and specific parameters of a selected area of contemporary practice using specific projects as examples. Work may result in invitation of current practitioner(s) as a lecture series or event. Resume and portfolio preparation in advance of required off-campus semester (L A 444 A, B or C).

**L A 371: History of Modern Landscapes, 1750 to Present**

(3-0) Cr. 3. S.

Investigation of landscape design concepts and trends as observed over time, from approximately 1750 to the present, with emphasis on the United States and Europe. Examination of significant figures and outstanding works (sites, gardens, landscapes, monuments, subdivisions, city plans, etc.) of varied geographic regions. Analysis of the social, economic, political, and technical forces contributing to the development of landscape design styles, vocabulary, and literature. Lectures, readings, projects, research papers.

**L A 373: Gardens and Landscapes from Antiquity to 1750**

(3-0) Cr. 3. F.

Investigation of international landscape design concepts and trends as observed over time, from pre-history to the mid 18th century. Examination of significant figures and outstanding works (sites, gardens, landscapes, monuments, subdivisions, city plans, etc.) of varied geographic regions. Analysis of the social, economic, political, and technical forces contributing to the development of landscape design styles, vocabulary, and literature. Lectures, readings, projects, research papers. Meets International Perspectives Requirement.

**L A 381: Shaping the Land**

(3-0) Cr. 3. F.

*Prereq: MATH 140, MATH 143, MATH 145, or MATH 165*

Design of landforms to achieve aesthetic, functional, and safety goals. Landform changes to accommodate human uses and activities. Impacts and implications of landform transformation on the surrounding environment. Surface and subsurface drainage design, storm water runoff best management practices, contour manipulation to incorporate slopes, swales, culverts, pads, retaining walls, walks, steps, terraces, buildings, and other structures in the landscape. Road layout and alignment, parking lot design, and earthwork volume estimates. Design communication using CAD, perspectives, cross-sections, contour maps, landform models, and narratives. Class exercises, case study precedents, and preliminary construction documents.

**L A 401: Community Design**

(0-12) Cr. 6. F.

*Prereq: L A 402*

Physical planning and design of places utilizing community-based methods. Projects address social and cultural dimensions of placemaking such as reuse of abandoned sites, in-fill development, and community visioning. Emphasis on development of user-client relationship skills and design research. Integrated seminar component.

**L A 401H: Community Design: Honors**

(0-12) Cr. 7. F.

*Prereq: L A 402*

Physical planning and design of places utilizing community-based methods. Projects address social and cultural dimensions of placemaking such as reuse of abandoned sites, in-fill development, and community visioning. Emphasis on development of user-client relationship skills and design research. Integrated seminar component.

**L A 402: Urban Design**

(0-12) Cr. 6. F.

*Prereq: L A 302*

Comprehensive planning and design for urban sites or for sites within urban contexts. Projects typically include planning for a variety of integrated land uses, and cover the full range of design scales from master planning to proposals for site details. Emphasis on written and verbal as well as graphic communications. Integrated seminar component.

**L A 402H: Urban Design: Honors**

(0-12) Cr. 7. F.

*Prereq: L A 302*

Comprehensive planning and design for urban sites or for sites within urban contexts. Projects typically include planning for a variety of integrated land uses, and cover the full range of design scales from master planning to proposals for site details. Emphasis on written and verbal as well as graphic communications. Integrated seminar component.

**L A 403H: Senior Thesis Preparation Tutorial**

Cr. 2. F.

*Prereq: L A 402, Permission of Thesis Advisor, enrollment in Honors program*  
Preparation for senior thesis.

**L A 404: Advanced Landscape Architectural Design**

(0-12) Cr. 6. Repeatable, maximum of 2 times. F.

*Prereq: L A 402*

Advanced forum for the demonstration of sophistication in landscape architectural design. Experimentation and innovation are encouraged.

**L A 404H: Advanced Landscape Architectural Design: Honors**

(0-12) Cr. 6-7. Repeatable, maximum of 2 times. F.

*Prereq: LA 402*

Advanced forum for the demonstration of sophistication in landscape architectural design. Experimentation and innovation are encouraged.

**L A 405H: Senior Thesis**

(0-15) Cr. 6.

*Prereq: L A 401, L A 402, L A 403, enrollment in Honors program and permission of advisor, chair and thesis advisor.*

Individual advanced forum for the demonstration of sophistication in landscape architectural design. Experimentation and innovation are expected.

**L A 442: Professional Practice**

(Dual-listed with L A 542). (2-0) Cr. 2. S.

*Prereq: L A 481*

Studies of conventional and developing forms of public and private practice. Explore relationships between professional life and the culture of the professional design firm; investigate firm identities and structures; understand design projects, their delivery process, and contractual agreements. Lecture and class discussion.

**L A 444: Landscape Architecture Independent Educational Enrichment**

Cr. R. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 341 or Permission of Advisor and Chair*

Independent educational enrichment through exploration of landscape architectural practice in a professional internship, international studies, or out-of-region national study experience.

**L A 444A: Landscape Architecture Independent Educational Enrichment: Professional Internship**

Cr. R. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 341 or Permission of Advisor and Chair*

Independent educational enrichment through exploration of landscape architectural practice in a professional internship, international studies, or out-of-region national study experience.

**L A 444B: Landscape Architecture Independent Educational Enrichment: Study Abroad**

Cr. R. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 341 or Permission of Advisor and Chair*

Independent educational enrichment through exploration of landscape architectural practice in a professional internship, international studies, or out-of-region national study experience.

**L A 444C: Landscape Architecture Independent Educational Enrichment: National Student Exchange**

Cr. R. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 341 or Permission of Advisor and Chair*

Independent educational enrichment through exploration of landscape architectural practice in a professional internship, international studies, or out-of-region national study experience.

**L A 454: Fundamentals of Remote Sensing and Spatial Analysis**

(Dual-listed with L A 554). (Cross-listed with C R P). (3-0) Cr. 3. S.

*Prereq: C R P 351*

Introduction to image processing techniques needed for analysis of optical remote sensing imagery, including filtering, enhancement, and classification. Analysis of elevation surfaces, hydrology, distance, overlays and visual programming with Model Builder. Practical applications in a variety of topics to understand how to analyze imagery.

**L A 459: Digital Design Methods for Landscape Architecture**

(Dual-listed with L A 559). (3-0) Cr. 3. S.

Introduction to digital tools used by landscape architects for design communication, visualization, and design development, with emphasis on 3D modeling and workflow interoperability.

**L A 478: Topical Studies in Landscape Architecture**

(Dual-listed with L A 578). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**L A 478A: Topical Studies in Landscape Architecture: Landscape Design**

(Dual-listed with L A 578A). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478B: Topical Studies in Landscape Architecture: Planting Design**

(Dual-listed with L A 578B). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478C: Topical Studies in Landscape Architecture: Construction**

(Dual-listed with L A 578C). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478D: Topical Studies in Landscape Architecture: History/Theory/Criticism**

(Dual-listed with L A 578D). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478E: Topical Studies in Landscape Architecture: Landscape Planning**

(Dual-listed with L A 578E). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478F: Topical Studies in Landscape Architecture: Urban Design**

(Dual-listed with L A 578F). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478G: Topical Studies in Landscape Architecture: Graphics**

(Dual-listed with L A 578G). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478H: Topical Studies in Landscape Architecture: Honors**

Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478I: Topical Studies in Landscape Architecture: Interdisciplinary Studies**

(Dual-listed with L A 578I). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478J: Topical Studies in Landscape Architecture: International Studies**

(Dual-listed with L A 578J). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 478K: Landscape Architecture: Computer Applications**

(Dual-listed with L A 578K). Cr. 2-3. Repeatable. F.S.SS.

*Prereq: Senior classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**L A 478L: Topical Studies in Landscape Architecture: Ecological Design**

(Dual-listed with L A 578L). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 478M: Topical Studies in Landscape Architecture: Landscape Architecture: Social/Behavioral**

(Dual-listed with L A 578M). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 478N: Topical Studies in Landscape Architecture: Natural Resources**

(Dual-listed with L A 578N). Cr. 2-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 481: Landscape Construction**

(3-0) Cr. 3. F.

*Prereq: L A 381*

Development of construction details with an emphasis on the aesthetic and functional use of landscape materials. Explore characteristics, applications, systems, and uses of wood, paving, walls, masonry, concrete, and metals in the landscape. Preliminary preparation of construction documents and design documentation software.

**L A 482: Landscape Construction Documentation**

(3-0) Cr. 3. S.

*Prereq: L A 481*

Development of advanced construction documents, including documentation processes, cost estimation, sheet coordination, and specification writing. Emphasis on documentation software as a tool for design communication.

**L A 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490A: Independent Study: Landscape Design**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490B: Independent Study: Planting Design**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490C: Independent Study: Construction**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490D: Independent Study: History/Theory/Criticism**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490E: Independent Study: Landscape Planning**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490F: Independent Study: Urban Design**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490G: Independent Study: Graphics**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490H: Independent Study: Honors**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490I: Independent Study: Interdisciplinary Studies**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490J: Independent Study: International Studies**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490K: Independent Study: Computer Applications**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490L: Independent Study: Ecological Design**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490M: Independent Study: Social/Behavioral**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 490N: Independent Study: Natural Resources**

Cr. 1-6. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Written approval of instructor and department chair on required form*  
Investigation of a topic of special interest to the student.

**L A 491: Environmental Law and Planning**

(Dual-listed with L A 591). (Cross-listed with C R P, ENV S). (3-0) Cr. 3. S.

*Prereq: 6 credits in natural sciences or Permission of Instructor*  
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

**Courses primarily for graduate students, open to qualified undergraduates:**

**L A 509: Field Travel**

Cr. 1. Repeatable, maximum of 2 times.

*Prereq: Enrollment in the professional program and permission of instructor*  
Observation of and reflection on professional and academic practice and landscapes. Field study and travel to conferences and educational events. Reading and final report. Offered on a satisfactory-fail basis only.

**L A 522: Advanced Plant Technology**

(2-2) Cr. 3. F.

*Prereq: Junior or graduate standing*

Introduction to the science that supports green technologies. Plant and soil design for performance in the built environment. Design studies and lab explorations will complement readings, lecture and project case study presentations by practitioners. Green streets, green roofs, bio-phyto-remediation and other technologies are introduced. Final project integrates scientific and technical knowledge in a holistic landscape design.

**L A 541: Design Inquiry**

(3-0) Cr. 3. S.

*Prereq: Graduate standing*

Examination of design inquiry and introduction to research methods relevant to design. Consideration of where knowledge comes from, and how different research methods help create knowledge in various contexts. Readings, discussions, and sketch problems. Preparation of a written research proposal.

**L A 542: Professional Practice**

(Dual-listed with L A 442). (2-0) Cr. 2. S.

*Prereq: L A 481*

Studies of conventional and developing forms of public and private practice. Explore relationships between professional life and the culture of the professional design firm; investigate firm identities and structures; understand design projects, their delivery process, and contractual agreements. Lecture and class discussion.

**L A 543: Colloquium: Landscape Architecture Research**

(0-1) Cr. 1. S.

*Prereq: Graduate standing.*

Forum on current research in landscape architecture. Weekly presentation and discussion of scholarship relevant to the field. Offered on a satisfactory-fail basis only.

**L A 545: Colloquium II: Interdisciplinary Research**

Cr. 1. Repeatable. F.

*Prereq: LA 543 or graduate standing.*

Student-run graduate forum on current research in landscape architecture and related disciplines. Weekly presentations by invited faculty from the departments across the College of Design, University, and professional guests. Readings, discussions, and writing. Offered on a satisfactory-fail basis only.

**L A 554: Fundamentals of Remote Sensing and Spatial Analysis**

(Dual-listed with L A 454). (Cross-listed with C R P). (3-0) Cr. 3. S.

*Prereq: C R P 351*

Introduction to image processing techniques needed for analysis of optical remote sensing imagery, including filtering, enhancement, and classification. Analysis of elevation surfaces, hydrology, distance, overlays and visual programming with Model Builder. Practical applications in a variety of topics to understand how to analyze imagery.

**L A 557: Landscape Parametrics & Design Coding**

(3-0) Cr. 3. F.

*Prereq: Graduate standing or senior status, or instructor permission.*

Introduction to parametric landscape design through computer programming of the landscape palette. Terrain, vegetation, water, weather, and lighting effects are modeled and represented algorithmically in Rhino-Grasshopper. Computational thinking, logic, and interactivity are combined to address core design principles.

**L A 558: Web Mapping and Spatial Data Visualization**

(Cross-listed with C R P). (2-2) Cr. 3.

*Prereq: CRP 451/551. GEOL 452/552 or instructor permission.*

Use and development of online mapping tools and coding to support participatory GIS, Volunteered Geographic Information, information sharing, geodesign, and decision-making actions. Geoprocessing, spatial data science, and user interface design. Laboratory emphasis on practical applications and uses of Web GIS.

**L A 559: Digital Design Methods for Landscape Architecture**

(Dual-listed with L A 459). (3-0) Cr. 3. S.

Introduction to digital tools used by landscape architects for design communication, visualization, and design development, with emphasis on 3D modeling and workflow interoperability.

**L A 571: Landscape Architectural Theory**

(3-0) Cr. 3. F.

*Prereq: graduate classification or permission of instructor*

Examination of the development of landscape architectural ideas in their historical contexts and in relation to social and cultural practices. Emphasis on exposure to key modern and contemporary texts and projects in landscape architecture, architecture, art, and related fields. Readings, discussions, and writings.

**L A 578: Topical Studies in Landscape Architecture**

(Dual-listed with L A 478). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**L A 578A: Topical Studies in Landscape Architecture: Landscape Design**

(Dual-listed with L A 478A). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578B: Topical Studies in Landscape Architecture: Planting Design**

(Dual-listed with L A 478B). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578C: Topical Studies in Landscape Architecture: Construction**

(Dual-listed with L A 478C). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578D: Topical Studies in Landscape Architecture: History/Theory/Criticism**

(Dual-listed with L A 478D). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578E: Topical Studies in Landscape Architecture: Landscape Planning**

(Dual-listed with L A 478E). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578F: Topical Studies in Landscape Architecture: Urban Design**

(Dual-listed with L A 478F). Cr. 2-3. Repeatable, maximum of 3 times.

F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578G: Topical Studies in Landscape Architecture: Graphics**

(Dual-listed with L A 478G). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578I: Topical Studies in Landscape Architecture: Interdisciplinary Studies**

(Dual-listed with L A 478I). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578J: Topical Studies in Landscape Architecture: International Studies**

(Dual-listed with L A 478J). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior or graduate classification*

Offerings vary with each term; check with department for available sections.

**L A 578K: Landscape Architecture: Computer Applications**

(Dual-listed with L A 478K). Cr. 2-3. Repeatable. F.S.SS.

*Prereq: Senior classification or graduate standing*

Offerings vary with each term; check with department for available sections. Course contact hours can range from (2-0) to (3-0) depending on number of credits.

**L A 578L: Topical Studies in Landscape Architecture: Ecological Design**

(Dual-listed with L A 478L). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 578M: Topical Studies in Landscape Architecture: Landscape Architecture: Social/Behavioral**

(Dual-listed with L A 478M). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 578N: Topical Studies in Landscape Architecture: Natural Resources**

(Dual-listed with L A 478N). Cr. 2-3. Repeatable, maximum of 3 times.  
F.S.SS.

*Prereq: L A 202 or senior classification or graduate standing*

Offerings vary with each term; check with department for available sections.

**L A 580: Thesis, Creative Component Tutorial**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of major professor*

Hands-on participation in a creative or research activity in the student's area of specialization. Development of a detailed prospectus that defines the thesis or creative component.

**L A 583: Landscape TopoGraphics**

(3-0) Cr. 3. F.

*Prereq: LA 602*

Design of landforms to achieve aesthetic, functional, and safety goals. Impacts and implications of landform transformation on the surrounding environment. Design communication using CAD, perspectives, cross-sections, contour maps, landform models, and narratives. Class exercises, case study precedents, and preliminary construction documents.

**L A 587: Landscape Construction**

(1-4) Cr. 3. S.

*Prereq: L A 583*

Introduction to construction practices in landscape architecture. Emphasis on the aesthetic and functional components of built environments including materials, assemblies, and techniques. Introduction to the preparation of construction documents and design documentation software.

**L A 590: Special Topics**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Graduate standing.*

Investigation of a topic of special interest to the student.

**L A 590A: Special Topics: Landscape Design**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590B: Special Topics: Planting Design**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590C: Special Topics: Construction**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590D: Special Topics: History/Theory/Criticism**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590E: Special Topics: Landscape Planning**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590F: Special Topics: Urban Design**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590G: Special Topics: Graphics**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590I: Special Topics: Interdisciplinary Studies**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590J: Special Topics: International Studies**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590K: Special Topics: Computer Applications**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590L: Special Topics: Ecological Design**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590M: Special Topics: Social/Behavioral**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 590N: Special Topics: Natural Resources**

Cr. 1-6. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Approval of instructor and Director of Graduate Education on required form*

Investigation of a topic of special interest to the student.

**L A 591: Environmental Law and Planning**

(Dual-listed with L A 491). (Cross-listed with C R P). (3-0) Cr. 3. S.

*Prereq: 6 credits in natural sciences or Permission of Instructor*

Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

**L A 594: Environmental Justice in Built Environments**

(3-0) Cr. 3. S.

*Prereq: Graduate standing or senior classification.*

Disproportionate environmental exposures threaten sustainable and resilient cities. Focus on cumulative effects of climate change, social exclusion, and physical isolation on vulnerable populations. Empirical research and visual surveys are synthesized into planning and design strategies for human well-being. Mapping in GIS and spatial analysis assess potential urban environmental burdens.

**L A 599: Creative Component**

Cr. 1-8. Repeatable, maximum of 8 credits. F.S.SS.

*Prereq: Permission of major professor*

Comprehensive study and original development of a project selected by the student and approved by the major professor. Completed project must be submitted to and approved by a graduate faculty committee as evidence of mastery of the principles of landscape architecture.

**Courses for graduate students:**

**L A 601: Studio I: Design Representation**

(0-12) Cr. 6. F.

*Prereq: Graduate standing*

Introduction to the techniques and conventions of landscape architectural design. Emphasis on creative space and place making at the site scale using the landscape palette. Exploration of two- and three-dimensional representation, both digital and analog, as a means of testing design ideas.

**L A 602: Studio II: Land Form and Plant Scape**

(0-12) Cr. 6. S.

*Prereq: L A 601*

Landscape design integrating knowledge of land patterns, plant ecosystems, and human processes. Project involve landform and plants at varied scale of design. Emphasis on competencies in design based in natural process, human behavior, and representation.

**L A 603: Studio III: Performance Landscapes**

(0-12) Cr. 6. S.

*Prereq: L A 602*

Theory and methods of landscape design at a variety of scales to achieve desired cultural and biophysical impacts. Development and use of performance metrics drawn from design, humanities, and science. Construction of integrated rhetorical structures of representation and analysis and critical viewpoints to create rigorous design "arguments" and meaningful, just and vibrant environments.

**L A 604: Studio IV: City Matters**

(0-12) Cr. 6. S.

*Prereq: L A 603*

Exploration of sociopolitical, ecological, and visual-spatial conditions of the urban environment through design at multiple scales. Focus on urban projects that highlight the complexity of human, ecological, and emerging infrastructural systems. Development of innovative strategies for sustainable, healthy, and just cities. Special attention is paid to new technologies and building material in cities.

**L A 605: Studio V: Land Works/Land Digits**

(0-12) Cr. 6.

*Prereq: L A 604*

Landscape design focusing on broadening the representational palette for landscape architectural concepts applied to complex sites at multiple scales. Emphasis on ideation and technical competency through advanced conceptualization, performance metrics, and skills in design research, digital representation, and teamwork.

**L A 699: Thesis Research**

Cr. 1-8. Repeatable, maximum of 8 credits. F.S.SS.

*Prereq: Permission of major professor*

Advanced and original scholarship in a specialized area. Culminates in a thesis document submitted to and approved by a graduate faculty committee as evidence of mastery of research in landscape architecture.

## Latin (LATIN)

***Any experimental courses offered by LATIN can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****LATIN 101: Elementary Latin I**

(3-0) Cr. 3. F.

Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

**LATIN 102: Elementary Latin II**

(3-0) Cr. 3. S.

*Prereq: LATIN 101*

Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors. Meets International Perspectives Requirement.

**LATIN 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in LATIN; Permission of Department Chair*

Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Latin 490 may be counted toward graduation.

## Leadership Studies (LD ST)

***Any experimental courses offered by LD ST can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****LD ST 122: Leading with Purpose**

(1-0) Cr. 1. F.S.

Designed for emerging student leaders. Basic leadership skills covering personal skills development, goal achievement, values-based behaviors and mission statement development.

**LD ST 270: Campus Leadership Development**

(3-0) Cr. 3. F.S.SS.

Introduce effective leadership practices for emerging leaders. Engage in experiential campus leadership opportunities.

**LD ST 290: Independent Study**

Cr. 1-3. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in leadership studies. No more than 6 credits of LD ST 290 or LD ST 490 may count toward graduation.

**LD ST 291: Leading Change**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

Understand leading change and analyzing social issues through meaningful experiential learning.

**LD ST 291A: Leading Change: General**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

Understand leading change and analyzing social issues through meaningful experiential learning.

**LD ST 291B: Leading Change: U.S. Diversity**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

Understand leading change and analyzing social issues through meaningful experiential learning with a U.S. Diversity focus.

**LD ST 291C: Leading Change: International Perspectives**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

Understand leading change and analyzing social issues through meaningful experiential learning with an international perspectives focus. Meets International Perspectives Requirement.

**LD ST 293: Special Projects**

Cr. 1-3. F.S.SS.

*Prereq: Permission of Instructor*

Special projects for the Leadership Studies Program.

**LD ST 301: Leadership Theory and Practice**

Cr. 3. F.S.SS.

Critical examination of historical and contemporary leadership theory. Apply leadership theory to practice.

**LD ST 322: Leadership in a Diverse Society**

(3-0) Cr. 3. F.S.SS.

Experiential opportunity to understand, develop, and apply diversity-informed leadership practices.

Meets U.S. Diversity Requirement

**LD ST 333: Women, Gender, and Leadership**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

An intersectional approach to understanding gender and leadership as it relates to women from various races, ethnicities, gender identities, sexual orientations and abilities.

Meets U.S. Diversity Requirement

**LD ST 360: Cultural Competency and Global Leadership**

Cr. 3. Alt. F., offered irregularly.S.SS.

Development of an intercultural mindset and leadership practice in international contexts. An analysis and development of global leadership capacities.

Meets International Perspectives Requirement.

**LD ST 370: Special Topics**

Cr. 1-3. Repeatable, maximum of 6 credits. Alt. F., offered irregularly.Alt. S., offered irregularly.

Seminar on special topics, research, or theory in leadership studies.

Students must register for a different topic each time.

**LD ST 422: Leadership Capstone Seminar: Theory to Practice**

(3-0) Cr. 3. S.

*Prereq: LD ST 301 or LD ST 322 or Permission of Instructor*

Analysis of adaptive leadership theory to inform practice, with emphasis on ethical leadership and creating change.

**LD ST 488: Research on Gender and Leadership**

(Cross-listed with WGS). (3-0) Cr. 3.

Research on gender and leadership in selected content areas (e.g., business, education, politics and public service, and popular culture).

Following an overview of quantitative and qualitative methods and critical analyses of journal articles on gender and leadership, students work individually or in groups in selected content areas to write and present papers.

**LD ST 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in leadership studies. No more than 6 credits of LD ST 290 or LD ST 490 may count toward graduation.

## Learning and Leadership Sciences (L L S)

**Any experimental courses offered by L L S can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**L L S 112: Foundations of Learning and Productive Team Membership**  
(2-0) Cr. 2. F.

Introduction to developing intentional learners and worthy team members. Learning as the foundation of human enterprise; intellectual curiosity; ethics as a personal responsibility; everyday leadership; effective team and community interactions including team learning and the effects on individuals; and growth through understanding self, demonstrating ownership of own learning, and internalizing commitment to helping others. Intentional mental processing as a means of enhancing learning. Interconnectedness of the individual, the community, and the world.

**L L S 114: Developing Responsible Learners and Effective Leaders**  
(2-0) Cr. 2. S.

*Prereq: Credit or concurrent enrollment in L L S 112*

Focus on team and community. Application of fundamentals of human learning; evidence of development as a responsible learner; intentional mental processing as a habit of mind; planning and facilitating learning opportunities for others; responsibility of the individual to the community and the world; leading from within; holding self and others accountable for growth and development as learners and leaders.

**L L S 212: Habits of Mind and Decision-Making in Leadership**  
(2-0) Cr. 2. F.

*Prereq: Credit or concurrent enrollment in L L S 114*

Application of theories about habits of mind, mindset, and critical thinking to structured cross-disciplinary problem-solving scenarios. Development and utilization of personal and team action plans for specific habits of mind associated with leadership.

**L L S 312: Problem Solving and Action Planning in Leadership**  
(3-0) Cr. 3. S.

*Prereq: Credit or concurrent enrollment in L L S 212*

Transfer of theories about learning and leadership to practice. Leading for change. Using knowledge of self and interactive skills to explore interdependence. Development of an action plan that addresses a real-world problem.

**L L S 412: Learning and Leadership in Practice**  
(0-9) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in L L S 312*

Teamwork in a practicum to execute a project that will positively change the community. Application of learning and leadership theory: framing a problem, justifying approaches, taking action, getting feedback, and planning new actions. Application to be accompanied by continual reflection and feedback. Development of final portfolio to showcase cumulative leadership growth in the Learning and Leadership Sciences minor.

## Liberal Arts and Sciences Cross-Disciplinary Studies (LAS)

***Any experimental courses offered by LAS can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**LAS 101: Orientation for Open Option and Preprofessional Students**  
(1-0) Cr. 1. F.

Introduction to all undergraduate colleges. Provides information about university resources and services, assists with a successful academic transition to the university, and helps initiate the process of identifying academic major(s) and eventual career paths. Required of all first-year students in Open Option and Preprofessional Programs. Offered on a satisfactory-fail basis only.

**LAS 103: Frontiers of the Discipline**  
(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 103A: Frontiers of the Discipline: General**  
(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 103B: Frontiers of the Discipline: Humanities**  
(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 103C: Frontiers of the Discipline: Communication**  
(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 103D: Frontiers of the Discipline: Mathematics and Natural Sciences**

(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 103E: Frontiers of the Discipline: Social Sciences**

(1-0) Cr. 1. Repeatable.

Learning Community/ Seminar focusing entirely on the "cutting edge" research activities of faculty members. Offered on a satisfactory-fail basis only. A maximum of three total credits of LAS 103A, 103B, 103C, 103D, 103E can count for graduation.

**LAS 105: BOLD Learning Community Orientation**

(1-0) Cr. 1. F.

*Prereq: Member of the BOLD Learning Community.*

Orientation to the university for the "Bridging Opportunities in Leadership and Diversity" (BOLD) Learning Community students. Support for academic, social, and leadership development. Opportunity to connect with campus and college resources, explore career opportunities and build group identity. Includes regular one to one peer mentoring with multicultural student leaders. Offered on a satisfactory-fail basis only.

**LAS 106: BOLD Learning Community Seminar**

(1-0) Cr. 1. S.

*Prereq: Member of the BOLD Learning Community.*

Continued exploration of university services, academic, social, and leadership development for BOLD Learning Community students. Individual and group identity development. Includes regular one-on-one peer mentoring with multicultural student leaders and an assessed service-learning component. Offered on a satisfactory-fail basis only.

**LAS 125: Connections**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125A: Connections: General**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125B: Connections: Humanities**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125C: Connections: Communication**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125D: Connections: Mathematics and Natural Sciences**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 125E: Connections: Social Sciences**

(1-0) Cr. 1.

*Prereq: Freshman classification*

Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

**LAS 151: Dean's Leadership Seminar I**

(1-0) Cr. 1. F.

*Prereq: College Permission*

Beginning to study leadership through applied examples, including the importance of community, communication, trust, shared responsibility, modeling the way, and inspiring a shared vision. Students will be introduced to campus leadership opportunities. Selection based on application.

**LAS 203: Professional Career Preparation**

(1-0) Cr. 1. F.S.SS.

*Prereq: Sophomore or higher classification*

Overview of practical skills such as writing resumes and cover letters, implementing an internship or job search, interviewing, evaluating offers, professional etiquette, and networking. Exploration of resources and online professional tools. Offered on a satisfactory-fail basis only.

**LAS 240: Pre-Law Seminar**

(1-0) Cr. 1.

Preparation for law school and careers in law. Introduction to the culture of law school, law school application process and admission criteria, strategies for Law School Admissions Test preparation, and how to finance a legal education. Offered on a satisfactory-fail basis only.

**LAS 245: STEM Scholars Seminar**

(1-0) Cr. 1. F.S.

Introduction to the culture of science at a research university. Concepts and strategies supporting success in science courses and in career pathways in science. Offered on a satisfactory-fail basis only.

**LAS 290: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Independent work as appropriate to the student's degree program. Academic work under faculty supervision may include written projects, presentations, reports, and guided readings.

**LAS 291: Service Learning**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with instruction and reflection. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 291A: Service Learning: General**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with instruction and reflection. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 291B: Service Learning: U.S. Diversity Project**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with instruction and reflection with a US Diversity focus. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 291C: Service Learning: International Perspectives Project**

Cr. 1-4. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with instruction and reflection with an International Perspectives focus. Academic work may include written projects, presentations, reports, and guided readings. Meets International Perspectives Requirement.

**LAS 293: Special Projects**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Special projects work supervised by the College of Liberal Arts and Sciences. Offered on a satisfactory-fail basis only. Offered on a satisfactory-fail basis only.

**LAS 293A: Special Projects: LAS Ambassadors**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Offered on a satisfactory-fail basis only.

**LAS 293B: Special Projects: Advising Project**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Offered on a satisfactory-fail basis only.

**LAS 293C: Special Projects: Career Services**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Special Project supervised by LAS Career Services. Offered on a satisfactory-fail basis only.

**LAS 293D: Special Projects: General**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: College Permission*

Special project supervised by the College of Liberal Arts and Sciences. Offered on a satisfactory-fail basis only.

**LAS 298: Internship/Co-op**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Liberal Arts and Sciences major; Freshman or Sophomore classification; Permission of Liberal Arts and Sciences Career Services*

Students participating in an internship or co-op on a full-time or part-time basis must register for this course prior to beginning their work experience to remain in student status. Offered on a satisfactory-fail basis only.

**LAS 345: Innovation and Entrepreneurship I**

(1-0) Cr. 1. F.

*Prereq: College Permission*

Introduction to the entrepreneurial mindset and key concepts related to innovation and entrepreneurship. Application of principles through case studies, group work and direct mentoring. Opportunities for experiential learning with LAS mentors, entrepreneurs, and alumni.

**LAS 346: Innovation and Entrepreneurship II**

(1-0) Cr. 1. S.

*Prereq: LAS 345; College Permission*

Exploration of key concepts related to innovation and entrepreneurship. Application of principles through case studies, group work and direct mentoring. Opportunities for experiential learning with LAS mentors, entrepreneurs, and alumni.

**LAS 350: Topics in Interdisciplinary Studies**

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

**LAS 350A: Topics in Interdisciplinary Studies: Interdisciplinary**

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

**LAS 350B: Topics in Interdisciplinary Studies: Humanities**

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

**LAS 350C: Topics in Interdisciplinary Studies: Mathematics and Natural Science**

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

**LAS 350D: Topics in Interdisciplinary Studies: Social Sciences**

(3-0) Cr. 1-4. Repeatable, maximum of 8 credits.

**LAS 399: Undergraduate Research**

Cr. R. Repeatable. F.S.SS.

*Prereq: College Permission*

Supervised research.

**LAS 490: Independent Study**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: College Permission*

Independent work as appropriate to the student's degree program. Academic work under supervision; may include written projects, presentations, reports, and guided readings. No more than 9 credits of LAS 490 may be applied toward graduation.

**LAS 490A: Independent Study: General**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: College Permission*

Independent work as appropriate to the student's degree program. Academic work under supervision; may include written projects, presentations, reports, and guided readings. No more than 9 credits of LAS 490 may be applied toward graduation.

**LAS 490E: Independent Study: Entrepreneurship**

Cr. arr. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: College Permission*

Independent work as appropriate to the student's degree program. Academic work under supervision; may include written projects, presentations, reports, and guided readings. This section intended for students in the Entrepreneurship Minor. No more than 9 credits of LAS 490 may be applied toward graduation.

**LAS 491: Advanced Service Learning**

Cr. 1-4. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with advanced instruction and reflection. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 491A: Advanced Service Learning: General**

Cr. 1-4. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with advanced instruction and reflection. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 491B: Advanced Service Learning: U.S. Diversity Project**

Cr. 1-4. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with advanced instruction and reflection with a U.S. Diversity focus. Academic work may include written projects, presentations, reports, and guided readings.

**LAS 491C: Advanced Service Learning: International Perspectives Project**

Cr. 1-4. F.S.SS.

*Prereq: College Permission*

Integration of meaningful service work with advanced instruction and reflection with an International Perspectives focus. Academic work may include written projects, presentations, reports, and guided readings. Meets International Perspectives Requirement.

**LAS 498: Internship/Co-op**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Liberal Arts and Sciences major; Freshmen or Sophomore*

*classification; Permission of Liberal Arts and Sciences Career Services*

Students participating in an internship or co-op on a full-time or part-time basis must register for this course prior to beginning their work experience to remain in student status. Offered on a satisfactory-fail basis only.

**LAS 499: Internship**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Liberal Arts and Sciences major; Freshmen or Sophomore*

*classification; Permission of Liberal Arts and Sciences Career Services*

Semester-long internship appropriate to the student's degree program.

Must include an academic component under faculty supervision such as written projects, reports, and guided reading. Students must register for this course prior to beginning their internship.

## Library (LIB)

**Courses primarily for undergraduates:**

**LIB 160: Introduction to College Level Research**

(1-0) Cr. 1. F.S.SS.

*Prereq: Completion of ENGL 101 requirement*

Eight-week course required for undergraduate degree. Provides a foundation for college level research. Students will develop the critical thinking skills necessary to successfully navigate the research process: developing a research question, searching strategically, evaluating sources, and using information ethically. To be taken as early as possible in the student's undergraduate career. See course descriptions of ENGL 150 and ENGL 250 for requirements related to LIB 160. Offered on a satisfactory-fail basis only.

## Linguistics (LING)

***Any experimental courses offered by LING can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistings/](http://registrar.iastate.edu/faculty-staff/courses/explistings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistings/>)

**Courses primarily for undergraduates:**

**LING 101: Introduction to the Study of Linguistics**

(1-0) Cr. 1. S.

Cross-disciplinary perspectives on the study of linguistics. Applications of linguistics to real world problems. Careers in linguistics.

**LING 119: Introduction to World Languages**

(Cross-listed with WLC). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Meets International Perspectives Requirement.

**LING 120: Computers and Language**

(Cross-listed with ENGL). (3-0) Cr. 3.

Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

**LING 207: Introduction to Symbolic Logic**

(Cross-listed with PHIL). (3-0) Cr. 3. F.S.

Introduction to fundamental logical concepts and logical symbolism.

Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 207 as early as possible.

**LING 219: Introduction to Linguistics**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

**LING 220: Descriptive English Grammar**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S.

Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

**LING 309: Introduction to Culture and Language**

(Cross-listed with ANTHR). (3-0) Cr. 3.

Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology. ANTHR 201 recommended.

Meets International Perspectives Requirement.

**LING 318: Introduction to ESL methods and materials**

(Cross-listed with ENGL). (3-0) Cr. 3. F.

*Prereq: ENGL 219 or LING 219*

Introduction to methods and materials for teaching English as a Second Language (ESL) for elementary and secondary students. Strategies and resources for teaching reading, writing, speaking and listening skills. Elementary Education students must take this course in the same semester as either EDUC 280S or EDUC 480S.

**LING 319: Studies in Language and Diversity**

(Cross-listed with ENGL). Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ENGL 250*

Special topics related to the role of language and linguistics in US diversity, such as Dialects and American literature, American English Accents, Legal and Social Aspects of English-only Laws in the US. Connections between language use and social diversity.

**LING 320: Topics in Linguistic Structure**

(Cross-listed with ENGL). Cr. 3. Repeatable, maximum of 9 credits. S.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220)*

Special topics related to the study of linguistic structure. Focus on language structure in areas not covered in detail by existing courses. Topics include field linguistics, morphology, forensic linguistics, neurolinguistics, semantics, non-English phonology, acoustic phonetics, linguistic universals, and historical linguistics.

**LING 322: Language and Society**

(Cross-listed with ENGL). Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

Introduction to variation in language use in society. Survey of factors affecting language use, including background characteristics of language users, location, and purpose of interaction in addition to institutional, state, and national language policies.

**LING 324: Introduction to Teaching ESL Literacy**

(Cross-listed with ENGL). Cr. 3. F.

*Prereq: ENGL 219 or LING 219*

Introduction to the issues and methods involved in teaching literacy skills to English as a second language (ESL) learners. The nature of literacy and materials and methods for developing ESL literacy at the middle school, high school, and adult ages across multiple levels of competency.

**LING 325: Teaching Methods for ESL Learners: Oral Communication Skills**

(Cross-listed with ENGL). Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

Issues and methods in teaching oral communication skills (listening, speaking, pronunciation) to English as a second language (ESL) learners. The nature of oral language ability. Materials and Methods for developing oral communication skills at middle school, high school, and adult contexts.

**LING 331: Theory of Computing**

(Cross-listed with COM S). (3-1) Cr. 3. F.S.

*Prereq: Minimum of C- in (COM S 228; MATH 166; ENGL 250); (COM S 230 or CPR E 310)*

Models of computation: finite state automata, pushdown automata and Turing machines. Study of grammars and their relation to automata. Limits of digital computation, unsolvability and Church-Turing thesis. Relations between classes of languages.

**LING 351: Introduction to Spanish-English Translation**

(Cross-listed with SPAN, US LS). (3-0) Cr. 3. F.S.

*Prereq: SPAN 303A or SPAN 303B or SPAN 304*

Introduction to the theory, methods, techniques, and problems of translation. Consideration of material from business, literature, and the social sciences. Taught in Spanish. Meets International Perspectives Requirement.

**LING 352: Spanish Pronunciation**

(Cross-listed with SPAN). (3-0) Cr. 3. F.S.

*Prereq: SPAN 303A or SPAN 303B or SPAN 304*

An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Meets International Perspectives Requirement.

**LING 354: Introduction to Spanish-English Interpretation**

(Dual-listed with LING 554). (Cross-listed with SPAN). (3-0) Cr. 3. F.S.

*Prereq: SPAN 351*

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Meets International Perspectives Requirement.

**LING 371: Phonetics and Phonology**

(3-0) Cr. 3.

*Prereq: ENGL 219*

Terminology, theory, research, and applications of the science of the sounds of spoken language. Emphasis on American English and International Phonetic Alphabet.

**LING 395: Study Abroad**

Cr. 3. Repeatable, maximum of 2 times.

Instruction in issues of language policy, practice and learning.

Observation and experience with language use outside of the United States.

Meets International Perspectives Requirement.

**LING 410: Language as Data**

(Cross-listed with ENGL). Cr. 3. S.

*Prereq: Junior classification*

Methods of discovering language patterns in text documents solve practical text analysis problems in the disciplines. Fundamentals of linguistics and its role in text analysis. Practice writing R scripts to perform text analysis and visualize textual data.

**LING 413: Psychology of Language**

(Cross-listed with PSYCH). (3-0) Cr. 3.

*Prereq: PSYCH 101*

Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes.

**LING 420: History of the English Language**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220)*

Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents.

**LING 422: Women, Men, and the English Language**

(Cross-listed with ENGL, WGS). (3-0) Cr. 3. S.

*Prereq: ENGL 219 or LING 219*

The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions.

**LING 425: Second Language Learning and Teaching**

(Cross-listed with ENGL). (3-0) Cr. 3. S.

*Prereq: (ENGL 219 or LING 219); Junior classification*

The process of second language learning and principles and techniques of teaching second languages. Learning and teaching in specific situations and for particular purposes. Current applications of technology in teaching and assessment.

**LING 437: Grammatical Analysis**

(Cross-listed with ENGL). (3-0) Cr. 3. F.

*Prereq: (ENGL 219 or LING 219); (ENGL 220 or LING 220); Junior classification*

Theories and methods for analysis of syntax and morphology.

**LING 462: Contrastive Analysis of Spanish/ English for Translators**

(Cross-listed with SPAN). (3-0) Cr. 3.

*Prereq: SPAN 351*

Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish.

**LING 463: Contemporary Spanish Linguistics**

(Dual-listed with LING 563). (Cross-listed with SPAN). (3-0) Cr. 3.

Repeatable, maximum of 6 credits.

*Prereq: SPAN 352*

Study of various topics related to the Spanish language. Topics may include bilingualism, historical linguistics and dialectology, Spanish in the U.S., language assessment, computer-assisted language learning and instruction, and second language acquisition. Taught in Spanish. Meets International Perspectives Requirement.

**LING 471: Language and Reading Development in Children**

(3-0) Cr. 3.

*Prereq: ENGL 219 or LING 219 or PSYCH 230*

Development of spoken language, reading and writing covering semantics, syntax, morphology, phonology, and pragmatics.

**LING 486: Methods in Elementary School World Language Instruction**

(Cross-listed with EDUC, WLC). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language*

Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning.

**LING 487: Methods in Secondary School World Language Instruction**

(Cross-listed with EDUC, WLC). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language; Department Permission*

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning. Admission to teacher education required.

**LING 490B: Independent Study: Linguistics**

(Cross-listed with ENGL). Cr. arr. Repeatable, maximum of 9 credits. F.S.

*Prereq: 9 credits in English beyond ENGL 250; Junior classification;*

*Department Permission*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 9 credits of ENGL 490 may be used toward graduation.

**LING 490D: Independent Study: Linguistic Anthropology**

(Cross-listed with ANTHR). Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**LING 510: Introduction to Computers in Applied Linguistics**

(Cross-listed with ENGL). (3-0) Cr. 3. F.

*Prereq: Graduate classification*

Use of software and web applications for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

**LING 511: Introduction to Linguistic Analysis**

(Cross-listed with ENGL). (3-0) Cr. 3. F.

*Prereq: Graduate classification*

Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

**LING 512: Second Language Acquisition**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

**LING 513: Language Assessment Practicum**

(Cross-listed with ENGL). (3-0) Cr. 3. F.S.SS.

*Prereq: ENGL 519 or LING 519*

Advanced practicum in language assessment.

**LING 514: Sociolinguistics**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

**LING 515: Statistical Natural Language Processing**

(Cross-listed with ENGL, HCI). (3-0) Cr. 3.

*Prereq: STAT 330 or equivalent, recommended ENGL 219 or LING 219, or ENGL 511 or LING 511*

Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

**LING 516: Methods of Formal Linguistic Analysis**

(Cross-listed with ENGL). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 219/LING 219 or equivalent.*

Data and knowledge structures for formal representation of natural language and speech data. Designing and implementing algorithms for automating linguistic analysis tasks. Conceptual issues for natural language and speech processing programming.

**LING 517: Corpus Linguistics**

(Cross-listed with ENGL). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in Linguistics*

Corpus linguistics methods of language analysis, including corpus design, construction and annotation; data in corpus studies; tools and methods of analysis. Corpus methods applied in vocabulary, grammar, register and dialect variation, language change, pragmatics, semantics, stylistics, language learning and teaching, and language testing.

**LING 519: Second Language Assessment**

(Cross-listed with ENGL). (3-0) Cr. 3. S.

*Prereq: ENGL 511 or LING 511*

Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

**LING 520: Computational Analysis of English**

(Cross-listed with ENGL, HCI). (3-0) Cr. 3.

*Prereq: ENGL 510 or LING 510, and ENGL 511 or LING 511*

Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

**LING 524: Literacy: Issues and Methods for Nonnative Speakers of English**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

**LING 525: Research and Teaching of Second Language Pronunciation**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Theoretical and practical issues and techniques in the teaching of second language pronunciation as it relates to other areas of language, especially listening and speaking skills. Topics will include segmental and suprasegmental features; intelligibility; pronunciation in language assessment; classroom, technology and individual instruction; and research issues. Topics will be relevant to those intending to teach or research in various contexts.

**LING 526: Technology for Language Learning**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or equivalent*

Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

**LING 527: Discourse Analysis**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

**LING 528: English for Specific Purposes**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 511 or LING 511 or an introductory course in linguistics*

Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and corpus-informed syllabus and materials development for teaching and assessment.

**LING 530: Technology and Oral Language**

(Cross-listed with ENGL). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENGL 219 or ENGL 511 or equivalent.*

Structure and description of oral language and discourse. How spoken language is linguistically described, analyzed, and taught for research and for education. Using technology to record, transcribe, and analyze spoken language at all levels of linguistic structure.

**LING 537: Corpus Approaches to Grammatical Analysis**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 220 or LING 220; ENGL 219, LING 219, ENGL 511, LING 511, or introductory course in linguistics; graduate classification*

Corpus-informed analysis of syntax in authentic writing and speech, with emphasis on approaches used in applied linguistics.

**LING 554: Introduction to Spanish-English Interpretation**

(Dual-listed with LING 354). (Cross-listed with SPAN). (3-0) Cr. 3. F.S.

*Prereq: SPAN 351*

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish.

Meets International Perspectives Requirement.

**LING 563: Contemporary Spanish Linguistics**

(Dual-listed with LING 463). (Cross-listed with SPAN). (3-0) Cr. 3.

Repeatable, maximum of 6 credits.

*Prereq: SPAN 352*

Study of various topics related to the Spanish language. Topics may include bilingualism, historical linguistics and dialectology, Spanish in the U.S., language assessment, computer-assisted language learning and instruction, and second language acquisition. Taught in Spanish. Meets International Perspectives Requirement.

**LING 588: Supervised Practice Teaching in Teaching English as a Second Language**

(Cross-listed with ENGL). (1-5) Cr. 3. F.S.

*Prereq: 9 credits toward the TESL/TEFL Certificate or 15 credits toward the TESL/AL master's degree.*

Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the student teacher's goals. ENGL 588 cannot be used for teacher licensure.

**LING 590: Special Topics**

(Cross-listed with ENGL). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**LING 590B: Special Topics: Teaching English as a Second Language (TESL)/Applied Linguistics**

(Cross-listed with ENGL). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**LING 590G: Special Topics: Applied Linguistics and Technology**

(Cross-listed with ENGL). Cr. arr. Repeatable.

*Prereq: Permission of the Director of Graduate Education according to guidelines available online*

**LING 591: Studies in Applied Linguistics**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: 6 credits in TESL/Applied Linguistics*

Intensive study of applied linguistic theory as it relates to specific issues in language acquisition, teaching, or use.

**LING 591B: Directed Readings: Teaching English as a Second Language (TESL)/Applied Linguistics**

(Cross-listed with ENGL). Cr. arr. Repeatable.

**LING 591G: Directed Readings: Applied Linguistics and Technology**

(Cross-listed with ENGL). Cr. arr. Repeatable.

**Courses for graduate students:**

**LING 623: Research Methods in Applied Linguistics**

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable.

Survey of research methods used in applied linguistics. Focus on conceptualizing and conducting research studies, including the process of developing research questions, gathering data, choosing data collection measures, and coding and analyzing data. Examples from a range of research approaches in the journals in applied linguistics and related areas are evaluated. The course prepares students to be critical consumers of quantitative and qualitative applied linguistics research and able to design and carry out their own research studies.

**LING 623A: Research Methods in Applied Linguistics: Quantitative**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: ENGL 511 or LING 511*

Survey of quantitative research methods used in applied linguistics.

**LING 623B: Research Methods in Applied Linguistics: Qualitative**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 511 or LING 511*

Survey of qualitative research methods used in applied linguistics.

**LING 626: Computer-Assisted Language Testing**

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511, ENGL 519 or LING 519*

Principles and practice for the use and study of computers and the Internet in second language assessment.

**LING 630: Seminar in Applied Linguistics**

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable.

*Prereq: ENGL 510 or LING 510, ENGL 511 or LING 511*

Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, technology and pronunciation, and advances in language assessment.

## Management (MGMT)

*Any experimental courses offered by MGMT can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistics/](http://registrar.iastate.edu/faculty-staff/courses/explistics/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistics/>)

**Courses primarily for undergraduates:**

**MGMT 320: Corporate Entrepreneurship**

(Cross-listed with ENTSP). (3-0) Cr. 3. F.S.

*Prereq: sophomore classification*

Introduces entrepreneurial approaches aimed at the identification, development and exploitation of technical and organizational innovations, the management of new product or process developments, and the effective management of new ventures. Focuses on mid-size to large corporations, especially in the manufacturing and service industries. Develops an awareness and understanding of the range, scope, and complexity of issues related to the creation of a corporate environment that is supportive of entrepreneurial endeavors as well as the effective implementation of technological and organizational innovations in corporate settings.

**MGMT 370: Managing Organizations**

(3-0) Cr. 3. F.S.SS.

*Prereq: Sophomore Classification*

Introduction to management as a field and function within organizations. Provides an overview of what managers do in organizations, including how they deal with multiple stakeholders; make decisions about organizational goals, strategies, and structures that align with the external and internal environment; as well as how they lead and manage human resources effectively.

**MGMT 371: Organizational Behavior**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Introduction to the attitudes and behaviors of individuals and groups in organizations, as well as their antecedents: e.g., individual characteristics, interpersonal processes, manager and leader influences, and organizational characteristics and practices. Builds awareness of one's own and others' characteristics, attitudes, behaviors, and interpersonal and decision-making skills to improve as an employee and a manager.

**MGMT 372: Ethical and Responsible Management**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore Classification*

Introduces the many aspects of ethical and responsible management in today's organization, including the ethical implications of business decision-making (and the implications of having multiple stakeholders); corporate social responsibility; ethical leadership and other leadership styles as they pertain to responsible management; and the role of corporate governance and ethical codes in developing and institutionalizing an ethical organization. Builds ethical decision-making strategies and awareness of one's own ethical leadership philosophy.

**MGMT 381: Managing Family Businesses**

(Cross-listed with ENTSP). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Introduction to the important role family businesses play in the domestic and global economies as well as the complex and unique challenges and opportunities encountered by such businesses and their family members and other employees. Explores best practices for successfully managing family businesses.

**MGMT 414: International Management**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore Classification*

Explains complexities managers face when doing business in countries where political, legal, economic, and cultural systems are different and require making decisions about the change, innovation, or adaptation needed to successfully formulate strategies for entering and operating in international markets.

**MGMT 422: Negotiation and Conflict Resolution**

(3-0) Cr. 3.

*Prereq: MGMT 370 or MGMT 371*

Introduces the theory and practice of negotiation (i.e., the art and science of securing an agreement between two or more interdependent parties) in a variety of settings, especially those faced by managers and professionals in organizations. Focuses on understanding the behavior of individuals, groups and organizations in the context of competitive situations, and the underlying interdependent relationships and processes. Builds analytical skills needed to discover optimal solutions to problems and a broad array of negotiation skills needed in order for those solutions to be accepted and implemented.

**MGMT 470: Leadership and Change Management**

(3-0) Cr. 3. F.S.SS.

*Prereq: MGMT 370 or MGMT 371*

Focuses on the practical application of leadership skills required in today's evolving business environment, including the need to effectively manage change. Develops through multiple hands-on activities an understanding of how leaders are able to inspire and lead their peers, direct reports, as well as themselves, and how leaders can create a culture that supports and inspires change within an organization.

**MGMT 471: Introduction to Human Resource Management**

(3-0) Cr. 3. F.S.

*Prereq: MGMT 371; STAT 226; ENGL 250*

Introduces the field of human resource management (HRM) and its relevance to managers, employees, and organizational strategic goal achievement. Explains how HRM practices can be a source of competitive advantage for organizations and develops knowledge and skills in the functional areas of HRM, including job analysis, selection, recruitment, compensation, and training and development. Builds skills critical to HRM (and other) professionals, such as communication, feedback, and teamwork skills.

**MGMT 472: Diversity, Equity, and Inclusion in Organizations**

(3-0) Cr. 3. F.S.

*Prereq: Junior classification and BUSAD 203*

Introduces the important topics of diversity, equity, and inclusion in organizations. Focuses on understanding dimensions of diversity and the importance of inclusion; effectively managing legal, ethical, media, and marketing issues in this area; and managing organizational change initiatives in this area. Builds students' abilities to work within and lead diverse teams and organizations and develops critical thinking about one's identity and equality of opportunity in organizations.

Meets U.S. Diversity Requirement

**MGMT 473: Evidence-Based Decision Making in Human Resource Management**

(3-0) Cr. 3. F.

*Prereq: COM S 113, ENGL 250, STAT 226, MGMT 371*

Focuses on evidence-based analysis of short- and long-term consequences of specific talent management practices on the organization and on society as a whole. Introduces, and provides hands-on experience with, measurement and analytic techniques applicable to business professionals. Builds knowledge and skills to describe, diagnose and improve processes pertaining to planning, recruiting, selecting, training, and developing talent in an organization as well as compensating, retaining, and managing the performance and careers of a diverse and talented workforce.

**MGMT 474: Compensation and Benefits**

(3-0) Cr. 3. F.S.

*Prereq: MGMT 471*

Introduces the fundamental elements of employee compensation and benefits (including strategies, structures, and practices), within the larger context of total rewards. Discusses impact of compensation and benefits on employee recruitment, retention, and engagement, the employer/employee relationship, as well as individual, organizational and societal returns. Provides tools and a holistic understanding to competently assess, manage and negotiate compensation and benefits, not only as a management/human resource professional but also as an employee (in any phase of their own compensation lifecycle).

**MGMT 475: Employment Law for Human Resource Management**

(3-0) Cr. 3. F.S.

*Prereq: ACCT 215; MGMT 471*

Introduces fundamentals of U.S. employment law necessary for human resource management. Topics include sources of employment law, classification of workers, lawful hiring practices, liability arising from harassment and discrimination, worker's rights and duties, employment contract issues, and lawful termination of an employee. Builds knowledge and skills for effectively managing each of these areas.

**MGMT 476: Applied Projects in Human Resource Management**

(3-0) Cr. 3. SS.

*Prereq: MGMT 471 and MGMT 474 and MGMT 475*

Takes an experiential and holistic view to address human resource management (HRM) issues, especially in small and mid-sized companies. Project-based format includes partnering with local companies to understand, research, and propose evidence-based HRM solutions that support the organization's overall strategy and business needs. Requires consideration and application of multiple HRM perspectives including hiring, employee development and retention, performance management, compensation and benefits, legal considerations, etc. Emphasis on developing situation-specific solutions that integrate multiple HRM best practices.

**MGMT 478: Strategic Management**

(3-0) Cr. 3. F.S.SS.

*Prereq: Credit or enrollment in ACCT 285, FIN 301; MGMT 370 or MGMT 371; MKT 340, SCM 301, MIS 301, ENTSP 310 and senior classification*

Examines why some organizations perform better than others, with an emphasis on how taking a holistic view of the organization and environment can lead to sustained competitive advantage. Evaluates how capabilities in various organizational functions can help enable and determine organizational strategy, and considers how strategic choices affect expectations of various functional areas and their interdependence. Emphasis on case analysis and discussion to build student competencies in the areas of internal and external analysis, complex decision-making, and the formulation, implementation, and evaluation of strategies.

**MGMT 490: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: senior classification, permission of instructor*

**Courses primarily for graduate students, open to qualified undergraduates:**

**MGMT 502: Organizational Behavior**

(3-0) Cr. 3. F.

*Prereq: Enrollment in MBA program or departmental permission*

Understanding human behavior in organizations and the nature of sustainable organizations from a managerial perspective. Special emphasis is placed on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

**MGMT 503: Professional Responsibility in Business and Society**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or department permission, ACCT 501, FIN 501, MGMT 502, MKT 501*

Ethical and social responsibilities of top managers in corporations. Topics include stakeholder management, corporate social responsibilities, strategies for sustainable development, pursuit of societal and corporate goals, board and chief executive leadership roles, governance reform and ethics, and executive leadership style and values. The presentation of course concepts is facilitated by the use of cases, discussion scenarios, and ethical dilemmas.

**MGMT 504: Strategic Management**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or departmental permission, ACCT 501, FIN 501, MGMT 502, MKT 501*

Critical analysis of case studies in strategic management with an emphasis on integrative decision making. Strategy implementation in light of the global, legal, economic, cultural, and political contexts of business.

**MGMT 522: Negotiation and Conflict Resolution**

Cr. 3.

*Prereq: Enrollment in the MBA program or permission of instructor*

Theory and practice of negotiation in a variety of settings, while focusing on understanding the behavior of individuals, groups and organizations in the context of competitive situations. Team work and team building is integrated to better understand interdependent relationships and processes.

**MGMT 525: Evidence-Based Talent Management**

Cr. 3.

*Prereq: Enrolled in the MBA or other master's program in the Ivy College of Business*

Introduces talent management as integral to the ongoing success of any organization, with a focus on contemporary, evidence-based approaches to effectively managing talent. Highlights best practices related to the capture, integration, and utilization of employee data for making decisions about talent and talent management practices, and builds practical skills related to the identification and development of talent. Intended for current managers from any functional background.

**MGMT 530: Leadership and Conflict Resolution**

(3-0) Cr. 3.

*Prereq: Enrollment in the MRED or instructor permission.*

Introduction to the theory and practice of leadership and negotiation. Emphasis on the science of influencing and resolving conflict, and securing an agreement between two or more interdependent parties. Behavior of individuals, groups, and organizations in the context of demanding situations.

**MGMT 571: Seminar in Personnel and Human Resources Management**

(3-0) Cr. 3. S.

*Prereq: MGMT 371 or MGMT 502 or SOC 420*

Topics and issues in personnel management with a focus on the management of human resources in organizations. Current personnel practices, philosophies, and behavioral science research.

**MGMT 572: Personality and Management**

(3-0) Cr. 3.

*Prereq: Graduate standing or permission of instructor*

Personality and individual differences have significant implications for human resource management, organizational behavior and strategic management. Research has shown that these characteristics affect many core management topics including motivation, leadership, and decision making. Surveys the literature relating personality and individual differences to management and organizations. Students will complete a wide variety of personality assessments and get their results, and reflect on how personality and individual differences can be practically relevant in the modern work environment.

**MGMT 582: Corporate Governance and Top Management**

(Cross-listed with ACCT). (3-0) Cr. 3.

*Prereq: MGMT 503 or permission*

Duties, structure, and functioning of top management teams and corporate boards of directors. CEO/board tenure and succession planning, top management compensation, board committee composition, assessment of CEO and board performance, theories of corporate governance, management of the corporate strategic agenda, governance codes, international governance, and chairman/CEO duality. Case studies and contemporary issues discussed.

**MGMT 583: Formulating and Implementing Innovation Strategies**

(Cross-listed with ENTSP). (3-0) Cr. 3.

*Prereq: MGMT 504 or permission of instructor*

Key strategies, models, and tools to foster and drive organizational innovation. Analysis of industry dynamics, sources and types of innovations, timing of entry; formulation of innovation strategies; developing innovation portfolios and collaboration strategies, protecting innovation; implementing technological innovation strategy, including new product development and deployment strategy. Essential traits of innovative strategic leaders. Critical analysis and discussion of cases focused on entrepreneurship and innovation and project requiring hands-on practical application of course concepts.

**MGMT 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

For students wishing to do individual research in a particular area of management.

**Courses for graduate students:**

**MGMT 601: Philosophy of Science**

(3-0) Cr. 3.

*Prereq: enrollment in the PhD program*

This course provides a philosophical introduction to the theoretical and empirical development of scientific knowledge. It focuses on a variety of basic problems common to the social sciences: the nature of explanation, the structure of theories, forms of knowledge, scientific laws, nature of theory and ethics. The purpose of the course is to help doctoral students define a research context by addressing the purposes, assumptions and primary components of scientific inquiry.

**MGMT 602: Organizational Theory**

(3-0) Cr. 3.

*Prereq: enrollment in the PhD program*

This seminar involves the examination of the core theories and perspectives in organizational theory, as well as their applications and extensions. This material addresses the fundamental rationale for organizations in modern society, basic processes of organizing and organizational structure, a consideration of inter-organizational relationships and the external environment, and a variety of factors that help determine organizational effectiveness.

**MGMT 603: Strategic Management of Technology and Innovation**

(3-0) Cr. 3.

*Prereq: MGMT 601*

This course will offer a critical review of organizational decision making with respect to technology and innovation. Students will learn how technological change can alter the basis of competition; how competitive strategy drives technology investment decisions; how market-orientation should be the other backbone of technological innovation; and best practices of organizing and managing the new product development process to achieve strategic goals.

**MGMT 604: Seminar in Organizational Behavior**

(3-0) Cr. 3.

*Prereq: enrollment in the PhD program*

The purpose of this seminar is to introduce behavioral science literature relevant to the study of behavior in organizational settings. The course will focus on the individual's role within organizations and cover topics such as individual differences, motivation, leadership, decision-making. Learning, risk taking, interpersonal relations, etc. Both theoretical and empirical contributions will be examined, with emphasis on integration of diverse theoretical perspectives.

**MGMT 605: Seminar in Strategic Management**

(Cross-listed with ENTSP). Cr. 3. Alt. F., offered odd-numbered years.

Critical review of theory and research in the field of strategic management. Introduction to representative conceptual and empirical research. Review theories that provide the foundation for management research, and review current research in associate research streams. The review will cover fundamental questions in strategy.

**MGMT 606: Historical Foundations of Entrepreneurship Research**

(Cross-listed with ENTSP). Cr. 3.

*Prereq: Enrollment in the PhD Program*

Seminal readings, theoretical perspectives, and historical roots of Entrepreneurship research. A broad variety of core foundational theories, perspectives, and approaches are discussed.

**MGMT 607: Current Topics in Entrepreneurship Research**

(Cross-listed with ENTSP). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Enrollment in the doctoral program*

Current theoretical perspectives and methodological approaches in entrepreneurship research. Current entrepreneurship research is inherently interdisciplinary such that we will draw on insights from scholars across a range of disciplines.

**MGMT 608: Human Resources Management Theory & Research**

Cr. 3. S.

Advanced research seminar in human resources management. The scope and coverage of the seminar is designed to representatively reflect the important content areas in the field, and the major theoretical and empirical contributions in each area. The seminar will be decidedly research focused with discussions concentrating on critical reviews and evaluations of existing work, and the identification of potential directions for theory development and future research. Through reading assignments, weekly papers, and the development of a theoretical paper, students should gain an appreciation for the current status of theory and research, and begin to articulate major issues and challenges facing the field of human resources management.

**MGMT 609: Organizational Research Methods**

(Cross-listed with ENTSP). Cr. 3. F.

*Prereq: Enrollment in ENTSP or MGMT PH D program or permission of instructor.*

Solid methodological foundation that will prepare you to be a productive producer and educated consumer of scientific research in the field of Management, Entrepreneurship, and other related disciplines. Introduction to numerous concepts and techniques with relevance to your future scholarship in this domain. Conceptual underpinnings necessary to appreciate the strengths and limitations of various approaches used in these fields and the interplay between theoretical advancement and rigorous empirical investigation.

**MGMT 650: Research Practicum I**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

**MGMT 651: Research Practicum II**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

**MGMT 699: Dissertation**

Cr. 1-12.

*Prereq: Graduate classification, permission of dissertation supervisor*  
Research.

## Management Information Systems (MIS)

*Any experimental courses offered by MIS can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****MIS 207: Fundamentals of Programming for Business and Analytics**

(3-1) Cr. 3. F.S.SS.

*Prereq: MATH 150 or placement into MATH 140 or higher*

Introduction to programming (what it is and how it works) and problem-solving methods, emphasizing the basics of good programming techniques and style. Covers data types, control and data structures, functions, parameter passing, library functions, and object-oriented design to develop business and analytics applications.

**MIS 301: Management Information Systems**

(3-0) Cr. 3.

*Prereq: COM S 113*

The role of information technology in organizations. Overview of methodologies for design and development of systems including decision support systems, expert systems, data bases, end-user computing, etc. Computer applications relate concepts to practice. Lecture and laboratory work emphasizes the enabling role of IT in contemporary organizations.

**MIS 307: Intermediate Business Programming**

(3-0) Cr. 3.

*Prereq: MIS 207/COM S 207 or COM S 227; credit or enrollment in MIS 301*

Introduction to the concepts and use of data structures, file accesses and object oriented programming methodologies in contemporary business environments. Application development environments will be covered.

**MIS 310: Information Systems Analysis**

(3-0) Cr. 3.

*Prereq: credit or enrollment in MIS 301*

Critical analysis of business processes, data and process modeling, feasibility studies, CASE tools, and developing system design specifications.

**MIS 315: Business Data Streams and Issues**

(Cross-listed with ACCT). Cr. 3. Alt. F., offered even-numbered years. Alt. S., offered odd-numbered years. SS.

*Prereq: MIS 301, ACCT 284*

Identification of open data sources and other private data sources. Develop methods of data access, collection, and sharing; develop methods to validate and standardize data sources; develop methods to assess data worthiness (risk).

**MIS 320: Database Management Systems**

(3-0) Cr. 3.

*Prereq: Credit or enrollment in MIS 301*

Database design, development, and implementation. Focus on data models, both classical and object oriented. Uses relational and/or object oriented database management systems.

**MIS 340: Project Management**

(Cross-listed with SCM). (3-0) Cr. 3.

*Prereq: credit or enrollment in MIS 301*

Equips students to support team activities in the general project management environment and better manage their careers. Practical experience using project management techniques and tools. Course topics include project initiation and execution, risk assessment, estimating and contracts, planning, human factors, and standard methods.

**MIS 367: Consultative Problem Solving**

(Cross-listed with MKT). Cr. 3. F.S.

*Prereq: Sophomore and above*

Consultative problem-solving approach to address complex problems in marketing and related fields. Topics include problem definition, issue tree dis-aggregation, hypotheses development and the Pyramid Principle. Development of skills such as formulating problems, structuring and prioritizing problems, synthesizing results and communicating intuition from quantitative analyses.

**MIS 368: Marketing Analytics**

(Cross-listed with MKT). (3-0) Cr. 3. F.S.

*Prereq: MKT 340, STAT 226*

Use of different tools to conduct various analyses to support marketing strategies. Topics include data visualization and exploration, forecasting, social media analytics and other marketing techniques. Development of skills such as structuring problems, and synthesizing results from quantitative analyses.

**MIS 403: Healthcare Information Systems**

(Cross-listed with HCM). Cr. 3.

*Prereq: MIS 301; credit or concurrent enrollment in HCM 301*

Explores the critical role information technologies and systems play in healthcare organizations. The focus is on evaluating and implementing software and IT systems that facilitate delivery of health care; understanding information technology governance, data privacy, and security; planning and project management; and tracking future developments of information technology in healthcare management. Introduction to Electronic Health Records (EHR) and other Management and Financial Information System applications used by healthcare organizations.

**MIS 407: Advanced Business Programming**

(3-0) Cr. 3.

*Prereq: MIS 307*

Advanced software development and topics in contemporary programming languages. Topics include basic syntax, advanced programming techniques, file structures and management, database access, algorithm design, web forms and graphical user interfaces.

**MIS 435: Cybersecurity in Business**

(3-0) Cr. 3.

*Prereq: MIS 301*

Introduction to fundamental concepts in networking and cloud computing and related cybersecurity concepts. Examination of network and cloud architectures, technologies, management and governance, security controls and techniques used to design, deploy, and protect resources in those environments. Exposure to cybersecurity tools in hands-on labs and explore methods of implementing and maintaining effective networks and cybersecurity programs in private, public, and cloud infrastructures.

**MIS 436: Introduction to Business Analytics**

(3-0) Cr. 3.

*Prereq: MIS 320 or ACCT 384, AND Pre- or Co-requisite of STAT 326*

Introduction to the field of business analytics (BA). Students will examine BA processes and techniques used in transforming data to knowledge and creating value for organizations. Business cases, presentations by business professionals, class lectures and discussions on data analysis, design and modeling, and extensive hands-on analytical exercises.

**MIS 439: Topics in Management of Information Systems**

(3-0) Cr. 3. Repeatable.

*Prereq: MIS 301, permission of instructor*

A variety of topics will be covered and topics may vary between semesters. Some of the topics are information resources management, electronic commerce, decision support systems, and expert systems.

**MIS 440: Supply Chain Information Systems**

(Cross-listed with SCM). (3-0) Cr. 3.

*Prereq: MIS 301, SCM 301*

Internal and inter-organizational information systems necessary for a supply chain to achieve competitive advantage. Topics include: design, development, implementation, and maintenance of supply chain information systems; enterprise resource planning; advanced planning and scheduling, manufacturing execution systems; and the interface between manufacturing planning and control processes, logistics processes, and the information system.

**MIS 445: Enterprise Cybersecurity**

(3-0) Cr. 3.

*Prereq: MIS 301*

Introduction to the elements of a cybersecurity program in the administrative, technical, and physical security domains. Learn methods to analyze and assess organizational risk and determine appropriate controls, be exposed to offensive and defensive cybersecurity tools in hands-on labs, and explore methods of implementing and maintaining effective cybersecurity programs. Examination of policy, frameworks, laws, regulations, and compliance and how they influence and contribute to cybersecurity programs.

**MIS 446: Advanced Business Analytics**

(3-0) Cr. 3.

*Prereq: MIS 320 or ACCT 384, AND Pre- or Co-requisite of STAT 326*

Projects-based course which provides an in-depth understanding of BA methods of visualization, data mining, text mining, web-mining, and predictions through the use of specific BA tools. For students who are interested in understanding advanced techniques and applications of data analytics and acquiring hands-on skills for making intelligent business decisions in data-rich organizations.

**MIS 447: Information Systems Development**

(3-0) Cr. 3.

*Prereq: MIS 301 and MIS 310*

Design of business systems using contemporary tools and methods such as SQL, CASE tools, OOD tools, etc. Focuses on synthesizing concepts from earlier MIS courses.

**MIS 450: Enterprise Resource Planning Systems in Supply Chain**

(Cross-listed with SCM). (3-0) Cr. 3.

*Prereq: SCM 301, MIS 301 or I E 148, I E 341*

Examination of the role of enterprise resource planning systems (ERP) in the supply chain. Hands-on experience with a major software application in use by many corporations to manage and improve the efficiency of their supply chains and operations. Students will develop a more process-centric perspective about how a supply chain operates and how ERP enables and supports such operations.

**MIS 490: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: MIS 301, senior classification, permission of instructor***MIS 495: Executive Presentation and Analysis**

(3-0) Cr. 3. Repeatable. F.S.

*Prereq: MIS 301*

Students explore different practical scenarios related information systems projects and cases. Students acquire necessary skills and knowledge to solve practical issues associated with presented cases and problems. Students compete at different venues around the country. Only 3 credits of MIS 495 may count as a MIS major or minor choice elective.

**Courses primarily for graduate students, open to qualified undergraduates:**

**MIS 501: Management Information Systems**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Current theories and practices appropriate for understanding the role and application of information systems for individuals, organizations, and society within a globally competitive context. Focus on information technology and its uses in improving work practices, products, and tools for individuals and organizations. Issues pertaining to current and emerging topics in the development and use of technology, the role of technology in and its alignment with organizational strategy and sustainable business practices, information system planning and the development of enterprise architectures, and human interface and personal characteristics in the design and use of technology.

**MIS 515: Big Data for Business**

Cr. 3. F.

*Prereq: Graduate classification or instructor permission.*

Understanding the issues and challenges of data from multiple sources, different velocities, in large volumes with questionable veracity.

**MIS 532: Programming Foundations for Business Analytics**

(3-0) Cr. 3. SS.

*Prereq: Graduate classification or instructor permission.*

Explores the application of structured programming techniques for business analytics. Topics include data collection, processing, analysis, and more. Focus is on individual and group activities that reinforce skills development and provide the basis for later advanced work in data modeling.

**MIS 533: Data Management for Decision Makers**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Addresses data needs of functions such as marketing, finance, and production. Advanced skills needed to design, develop and use database, data warehousing and data mining systems for effective decision support. Emphasis on importance of contemporary technologies.

**MIS 535: Networks and Information Security Management**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Issues involved in the management of telecommunications function. Overview of communications technology used in various business applications, local area network, wide area network, broad band network, wireless and voice networks. Internet technologies and protocols. Analyzing the strategic impact of these technologies on organizations. Strategic planning for telecommunications, including network planning and analysis.

**MIS 536: Business Analytics Foundation**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Introduction to Business Analytics (BA) concepts and tools. Hands-on lab exercises and business case studies in data preparation, data querying and data visualization. Also covers various modeling techniques in predictive and prescriptive analytics.

**MIS 537: Project Management**

(3-0) Cr. 3.

*Prereq: Graduate classification or instructor permission.*

Prepares students to support team activities in the general project management environment and provides them with a working understanding of the full scope of project management activities. Students will also have practical experience using project management techniques and tools. Course topics include project initiation and execution, risk assessment, estimating and contracts, planning, human factors, and standard methods. The course follows the recommended content areas of the Project Management Institute, and provides students with a recognized foundational training in project management.

**MIS 538: Business Process Systems**

(3-0) Cr. 3.

*Prereq: MIS 501 and graduate classification or instructor permission*

Examine current and historical perspectives on business process management. Topics include process identification, mapping, and improvement. Additional topics will address business process automation and integration, business process outsourcing. Investigate current and potential tools and methods for business process management. Include process management projects.

**MIS 539: Topics in Management of Information Systems**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Graduate classification or instructor permission.*

A variety of topics may be offered in different semesters. Topics may include electronic commerce, information resources management, decision support systems, and expert systems.

**MIS 541: Analytics in Finance**

(Cross-listed with FIN). Cr. 3. S.

*Prereq: BUSAD 502 or an advanced undergraduate statistics course recommended*

Introduction to Business Analytics (BA) in finance and the insurance industry. The concepts and tools discussed in this course, to be followed and complemented by more advanced courses in the area. Basic analytical thinking and business acumen focusing on applications from finance and insurance. Practical data analytic skills based on building real analytic applications on real data.

**MIS 544: Social Media Business Applications and Analytics**

Cr. 3. SS.

*Prereq: MIS 536*

The role of new collaborative social technologies and analysis of social media data. Exploration of strategic and operational applications of social media and of tools that support the analysis of social network and social media data. Application of text analysis and social network theory.

**MIS 545: Enterprise Cybersecurity Management**

Cr. 3. F.S.

*Prereq: Graduate classification or instructor permission.*

Challenges, technologies, and practices of information security management in enterprise operations.

**MIS 546: Advanced Business Analytics**

(3-0) Cr. 3. F.S.

*Prereq: MIS 536*

An in-depth discussion of various advanced topics in Business Analytics (BA) such as Big Data Analytics, Text Analytics, and Web Analytics. Extensive hands-on exercises of using BA tools to solve real-world problems. Preparation for students' capstone projects.

**MIS 547: Teams, Projects, and Analytics Leadership**

Cr. 3. SS.

*Prereq: Graduate classification or instructor permission.*

Provides business analytics students with an intensive preparation in teamwork and project management skills necessary to prosper in the program and carry forward into their professional lives. Topics include project management, team management, in class exercises, and case studies. Practical experience using project management techniques and tools.

**MIS 548: Applications of Machine Learning for Business Intelligence**

Cr. 3. F.

*Prereq: Graduate classification or instructor permission.*

Introduction to applications for data science concepts in the business domain. As big data, machine learning, business analytics, business intelligence and other concepts grow in business applications, it is essential for students to understand the underlying concepts, data, models, and applications to be successful in a data-driven world. Learn to determine problem types, data restrictions, model selection, tool choice, and analysis of data science concepts for greater business value.

**MIS 551: IT Strategy & Execution**

Cr. 3. F.

*Prereq: Graduate classification or instructor permission.*

Explore the building blocks of IT strategy in alignment with the business strategy. Emphasis on business aspects. Evaluate the impact of technologies on IT strategy. Explore IT strategy framework, understand the latest trends and exercise critical thinking with relevant case studies and discussion. Small groups will analyze a fictitious company as assigned and develop a future state IT vision and IT strategy that supports the business goals. Guest lecturers.

**MIS 556: Business Analytics Capstone Project**

Cr. 3. S.

*Prereq: MIS 547*

Synthesize analytics concepts, skills, and practices learned during the program of study to complete a course project. Projects proposals relevant to a firm are proposed and accepted midway through the program. Student cohort teams will complete the capstone project under the supervision of an advisory team of faculty. At the completion of the course teams will present their project marking the completion of the program of study. Offered on a satisfactory-fail basis only.

**MIS 568: Marketing Analytics**

(Cross-listed with MKT). Cr. 3. F.S.

*Prereq: Graduate Classification or Instructor Permission and must have knowledge of R or Python*

Integration of various concepts to solve problems using appropriate tools. Specifically, the course consist of the following three components: (a) help students develop consultative problem-solving skills; (b) introduce various newly developed consumer behavior theories; (c) provide an overview of quantitative models in the field of marketing analytics. Hands-on experiences to enhance skills such as formulating problems, structuring and prioritizing problems, synthesizing results and communicating intuition from complicated analyses.

**MIS 590: Special Topics**

Cr. 1-3. Repeatable, maximum of 3 credits.

*Prereq: Graduate classification or instructor permission.*

For students wishing to do individual research in a particular area of MIS.

**MIS 598: Research Seminar in Management Information Systems**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Examines issues such as the nature and content of information systems research; aspects of starting and pursuing research topics in information systems; exploring and understanding relevant research methods and tools. Develop preliminary research proposals.

**MIS 599: Creative Component**

Cr. 3.

*Prereq: Graduate classification, permission of supervisory committee chair*  
Preparation and writing of creative component.

**Courses for graduate students:****MIS 601: Introduction to Information Systems Research I**

(3-0) Cr. 3.

*Prereq: MIS 501 or equivalent, enrollment in PhD program*

The state of behavioral research in the IS function. MIS activities in an organization span the following three major areas: design and implementation of the MIS, use of the MIS, and management of the MIS function. Each of these processes is carried out at several levels: individual, group, organizational and inter-organizational. Identify behavioral issues of relevance for the cells defined by the process and level dimensions. Reading and discussion of the research literature surrounding the development, use, and implications of information technology.

**MIS 602: Introduction to Information Systems Research II**

(3-0) Cr. 3.

*Prereq: MIS 501 or equivalent, enrollment in PhD program*

Three fundamental areas of Information Systems, namely, infrastructure, management, and processes. Infrastructure studies examine the IT architecture including computing, communication, data, and application. Management focuses on addressing the value added notion of IT. Finally processing addresses topics related to enabling role of IT in myriad of areas.

**MIS 603: Seminar on IT Strategy and Structure**

(3-0) Cr. 3.

*Prereq: MIS 601*

Strategic issues in IT management. Address issues such as aligning IT strategy with corporate strategy and functional strategies, IT structure, valuation, governance and control, and related topics. Provide students with research skills related to the boundary between IT and the firm's external environment.

**MIS 604: Collaboration, Knowledge, and Intelligence in Organizations**

(3-0) Cr. 3.

*Prereq: MIS 601*

Research issues in the emerging areas of collaboration, knowledge management, and enterprise intelligence. Topics will include emerging and contemporary technologies of Data Mining, Knowledge Discovery from Databases, Web Mining, organizational memory, and knowledge management.

**MIS 605: Technical Research Methods in Information Systems**

Cr. 3. S.

*Prereq: MIS 501 or equivalent, enrollment in PhD program*

Focuses on analytical modeling and empirical analyses using methods drawn from economics, management science, and statistics/ econometrics, etc. Example topics include economics of information goods; impact of information technologies on firm performance and policy outcomes; and analysis of data generated from social media and business transactions.

**MIS 606: Economic Research Methods in Information Systems**

Cr. 3. S.

*Prereq: MIS 501 or equivalent, enrollment in PhD program*

Focuses on analytical modeling and empirical analyses using methods drawn from economics, management science, and statistics/ econometrics, etc. Example topics include economics of information goods; impact of information technologies on firm performance and policy outcomes; and analysis of data generated from social media and business transactions.

**MIS 620: Overview of MIS Research**

Cr. 3. Alt. F., offered odd-numbered years.

Introduce doctoral students to the most cited research in IS, as well as to various behavioral research methods. Readings on research topics will cover categories of IS knowledge including: IS development, IT & individuals, IT & groups, IT & organizations, and IT & markets.

**MIS 625: Analytical Research in Information Systems**

Cr. 3. Alt. S., offered odd-numbered years.

Mathematical models to capture the essence or abstractions of real-world problems and applying established techniques to derive optimal solutions or business insights. Application of theories and tools from operations research, economics, computer science, and statistics to tackle problems regarding the development, marketing, utilization, and management of information technologies and systems in organizations and the society.

**MIS 630: Empirical Research in MIS**

Cr. 3. Repeatable, maximum of 2 times. F.

Intermediate level statistical and econometric methods used in MIS research. Preparation to conduct rigorous longitudinal analyses. Statistical and econometric methods used to examine phenomena that can evolve with the passage of time. Methods used for analyzing cross-sectional data. Application of advanced empirical methods in combination with rigorous theoretical arguments.

**MIS 635: Computational Research in MIS**

Cr. 3.

Introduction for doctoral students to Information Systems research methods rooted in computational thinking. Topics include important issues in IS research that benefit from computational thinking; and computational methodologies commonly used in IS research.

**MIS 650: Research Practicum I**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

**MIS 651: Research Practicum II**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

**MIS 655: Organizational and Social Implications of Human Computer Interaction**

(Cross-listed with HCI). (3-0) Cr. 3.

*Prereq: Graduate classification*

Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

**MIS 699: Research**

Cr. 3-6. Repeatable.

*Prereq: Graduate classification, permission of dissertation supervisor*  
Research.

## Marketing (MKT)

***Any experimental courses offered by MKT can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**MKT 340: Principles of Marketing**

(3-0) Cr. 3. F.S.SS.

*Prereq: credit or current enrollment in ECON 101*

The role of marketing in society. Markets, marketing institutions, and marketing functions with emphases on product, price, marketing communication, and marketing channel decisions.

**MKT 342: Foundation Of Personal Selling**

Cr. 3. F.S.

*Prereq: Sophomore status or above*

The process of selling and how to sell effectively. Focus on selling in a business environment and applying to concepts to general interpersonal settings in personal life. Students will actively participate in class, collaborate with teammates to develop skills to sell ideas and become more effective in representing themselves and their company and its products and services. Develop skills necessary to build long-term, profitable relationships with clients.

**MKT 351: Services Marketing**

(3-0) Cr. 3. F.

*Prereq: MKT 340*

In-depth appreciation and understanding of the unique challenges inherent in creating, managing, and delivering quality services. Students will be introduced to and have the opportunity to work with concepts, tools, and strategies that address these challenges.

**MKT 361: Social Media Marketing Strategy**

Cr. 3.

*Prereq: MKT 340*

The course will cover marketing, advertising and communications strategies in the new media landscape where traditional media (e.g., television, print) and the online social media (i.e., Web 2.0; e.g., online social networks, user-generated content, blogs, forums) co-exist. Students will be expected to have knowledge about the fundamentals of traditional advertising methods and strategies. With this background knowledge, the primary focus of this course will be on understanding social media, how to build social media marketing strategies, and how to track their effectiveness. This course will not look at more tactical aspects of advertising/communications such as creative, message management, and publicity. This will first and foremost be a marketing strategy course.

**MKT 362: Digital Marketing**

Cr. 3. F.S.SS.

*Prereq: MKT 340*

A survey course that explores key topics and competencies that will help formulate a digital marketing strategy and power a digital marketing campaign. Digital marketing is a broader toolkit that includes search engine marketing (SEM), search engine optimization (SEO), content marketing, mobile marketing, email marketing, landing page optimization, social media marketing, and more.

**MKT 367: Consultative Problem Solving**

(Cross-listed with MIS). Cr. 3. F.S.

*Prereq: Sophomore and above*

Consultative problem-solving approach to address complex problems in marketing and related fields. Topics include problem definition, issue tree dis-aggregation, hypotheses development and the Pyramid Principle. Development of skills such as formulating problems, structuring and prioritizing problems, synthesizing results and communicating intuition from quantitative analyses.

**MKT 368: Marketing Analytics**

(Cross-listed with MIS). (3-0) Cr. 3. F.S.

*Prereq: MKT 340, STAT 226*

Use of different tools to conduct various analyses to support marketing strategies. Topics include data visualization and exploration, forecasting, social media analytics and other marketing techniques. Development of skills such as structuring problems, and synthesizing results from quantitative analyses.

**MKT 410: Promotional Strategy**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340*

Principles, concepts, and problems involved in the development and implementation of promotional strategies. Coordination of a variety of promotional elements: advertising, sales promotion, direct marketing, public relations and publicity of web communications, and personal selling.

**MKT 442: Sales Management**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340, STAT 226*

Functional aspects of sales force management; personal selling methods; procedures for recruiting, selecting, and training new salespeople; compensation and expense control systems; problems of sales force motivation and supervision; methods of territorial and quota assignment; sales department budgets; distributor-dealer relations; other selected topics.

**MKT 443: Strategic Marketing Management**

(3-0) Cr. 3. F.S.SS.

*Prereq: MKT 342, MKT 444*

Analysis of major elements of strategic marketing management. May include case studies or business simulations involving decision making using marketing tools from previous courses. (For marketing majors only.).

**MKT 444: Fundamentals of Marketing Analytics**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340, STAT 226*

Marketing research techniques: problem formulation, research design, questionnaire construction, sampling, data collection procedures, and analysis and interpretation of data related to marketing decisions.

**MKT 445: Customer Relationship Management**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340, STAT 226*

Examines how customer data can be used to enhance decisions relating to acquisition, development and retention. Topics include customer lifetime value, customer as assets, customer loyalty programs and customization.

**MKT 447: Consumer Behavior**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340*

Study of how consumers select, purchase, use, and dispose of goods and services. Includes analyses of how markets and others influence these processes. Application of concepts and methods of the behavioral sciences to marketing management decision making.

**MKT 448: Global Marketing**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340*

Marketing from a global perspective and familiarity with the problems and perspectives that global companies face. Concepts and principles of marketing strategies, market assessment, identify marketing opportunities, entry decision, emerging markets, effects of political, legal, economic and cultural environments, and decisions relating to segmentation, positioning, branding, product, price, distribution and promotions in a global setting.

**MKT 450: Advanced Professional Selling**

(3-0) Cr. 3.

*Prereq: MKT 340 and either MKT 342 or I E 450*

Analysis of the theory and practice of personal selling with the context of relationship marketing and salesforce automation. Topics include: goal setting, prospecting, time/territory management, questioning, presentations, objections, commitment and customer service; simulations of selling situations.

**MKT 451: Omnichannel Marketing**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340*

Focuses on marketing channels, the downstream part of a value chain, companies that come together to bring products and services from their point of origin to the point of consumption. Topics include channel institutions, channel design, channel coordination and implementation. Highlights international and technological aspects of marketing channels so that students can successfully develop and manage marketing channels in a contemporary business environment.

**MKT 452: Sales Enablement Tools and Technology**

(3-0) Cr. 3. F.

*Prereq: MKT 340*

An applied study of the concepts, practice, and technical skills required to perform meaningful analytics in support of professional selling. Topics include: nature and aims of sales analytics; customer relationship management platform basics; sales data structure; data visualization; dashboard construction; predictive analytics; artificial intelligence.

**MKT 453: Brand Management**

(3-0) Cr. 3. F.S.

*Prereq: MKT 340*

Examines the role of brands and branding in market environments characterized by intense competition and consumer power. Covers issues relating to why branding is important to firms, what brands represent to consumers, and what should be done to manage them effectively.

**MKT 454: Entrepreneurial Marketing**

(Cross-listed with ENTSP). (3-0) Cr. 3. F.

*Prereq: MKT 340*

Basic understanding of marketing for those interested in creating or working for a start-up or an innovation-oriented company or consultancy. Relevant to marketing roles in entrepreneurial firms across both B2B and B2C markets. Integrates theory and practice, and provides insight into how entrepreneurs take both strategic and tactical marketing decisions in uncertain business environments. For hands-on perspective, incorporates projects involving real-world marketing problems confronting start-ups, and guest talks from entrepreneurs and frequent case analyses.

**MKT 484: Technology, Globalization and Culture**

(Dual-listed with MKT 584). (Cross-listed with M E, WLC). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

**MKT 490: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: MKT 340, senior classification; permission of instructor***MKT 492: Comparative Marketing**

(3-0) Cr. 3. SS.

*Prereq: MKT 340*

Provides experience to students in culture, social, economic, and political environment of marketing in a foreign country. Students complete a term project (e.g., a marketing plan) based on information collected in the foreign country. Students attend briefings by experts/officials of private and public organizations.

**MKT 495: Live Cases in Marketing**

(3-0) Cr. 3. Repeatable, maximum of 4 times. F.S.

*Prereq: MKT 340*

Teamwork with companies to solve their current marketing challenges. Opportunity to gain critical thinking skills, experience with quantitative analysis, client management experience, professional presentation skills, strategies for effective teamwork, practice giving and receiving feedback, and practical marketing experience. Experience will strengthen student resume, make connections with industry, and practice applying marketing concepts in real-world situations. The companies and challenges will be different each semester. Only 3 credits of MKT 495 may count as a MKT major or minor choice elective.

**Courses primarily for graduate students, open to qualified undergraduates:**

**MKT 501: Marketing**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or departmental permission*

An analytical approach to the study of marketing issues and challenges of business firms and nonprofit organizations. Emphasis on the influence of the global marketplace and the marketing environment on marketing decision making; the determination of the organization's products, prices, channels and communication strategies; an orientation that ensures sustainability of marketing operations; and the organization's system for planning and controlling its marketing effort.

**MKT 542: New Product Strategy and Analytics**

(3-0) Cr. 3. S.

*Prereq: MKT 501 and Graduate Classification or Instructor Permission*

Principles and concepts of new product development and introduction; decision areas include market definition and structure, idea generation, concept evaluation, test marketing, launch tracking, and global product planning; models and techniques of new product evaluation used by consumer product companies.

**MKT 547: Consumer Behavior**

(3-0) Cr. 3. S.

*Prereq: MKT 501 and Graduate Classification or Instructor Permission*

The behavior of consumers. Intensive review of literature from relevant disciplines. Applications of concepts and methods of the behavioral sciences to marketing management decision making.

**MKT 552: Strategic Marketing Analytics**

Cr. 3.

*Prereq: Business Analytics students only and must have knowledge of R or Python*

Integrate various concepts to solve problems in marketing. Enhance skills such as formulating problems, structuring and prioritizing problems, synthesizing results and communicating intuition from complicated analyses. Topics include problem definition, issue tree dis-aggregation and the Pyramid Principle. Overview of various newly developed marketing theories and analytical tools.

**MKT 568: Marketing Analytics**

(Cross-listed with MIS). Cr. 3. F.S.

*Prereq: Graduate Classification or Instructor Permission and must have knowledge of R or Python*

Integration of various concepts to solve problems using appropriate tools. Specifically, the course consist of the following three components: (a) help students develop consultative problem-solving skills; (b) introduce various newly developed consumer behavior theories; (c) provide an overview of quantitative models in the field of marketing analytics. Hands-on experiences to enhance skills such as formulating problems, structuring and prioritizing problems, synthesizing results and communicating intuition from complicated analyses.

**MKT 584: Technology, Globalization and Culture**

(Dual-listed with MKT 484). (Cross-listed with M E, WLC). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

**MKT 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

For students wishing to do individual research in a particular area of marketing.

**Courses for graduate students:**

**MKT 601: Seminar in Consumer Behavior**

(3-0) Cr. 3.

*Prereq: MGMT 601*

A rigorous foundation of the major conceptual and methodological paradigms in the consumer-behavior literature. Seeks to aid students in understanding the psychological, sociological, and anthropological roots of consumer behavior research. Read the latest research in the area reported in leading consumer behavior/psychology journals.

**MKT 602: Marketing Strategy**

(3-0) Cr. 3.

*Prereq: MGMT 601*

Review major contributions and recent developments in marketing strategy research and practice. Review commonly used modeling approaches and research methods to study strategic interaction between firms seeking to build competitive advantages. Provide an overview of empirical research regarding measurement, level and persistence of business success and implications of findings for theory and strategy development.

**MKT 603: Marketing Strategy II**

(3-0) Cr. 3.

*Prereq: MKT 601*

Addresses key strategy and implementation issues behind customer management. Topics such as typology of CM strategies, antecedents and outcomes; environmental and managerial influences on strategy formation; technology and impact on CM strategy; and value of CM strategy. Examine theories and concepts behind important CM issues such as customer satisfaction, customer loyalty and customer profitability.

**MKT 604: Marketing Issues in Inter-Organizational Relations**

(3-0) Cr. 3.

*Prereq: MGMT 602*

Inter-firm and network competition; relationship among suppliers, distributors, alliance partners, external employees, and internal employees. Theories including agency theory, network theory, relationship marketing, channels of distribution theories on cooperation versus competition, IOS theories.

**MKT 605: Marketing Analytics: Quantitative Models and Applications**

Cr. 3. Repeatable, maximum of 3 times. Alt. F., offered odd-numbered years.

Survey of quantitative methods used in the field of marketing analytics. Topics include discrete choice models, unobserved heterogeneity, endogeneity, Hidden Markov models and other newly-developed techniques. Understand, develop and estimate quantitative models and understand main topics in marketing analytics.

**MKT 606: Seminar in Consumer Behavior II**

Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MKT 601*

A rigorous foundation of the major conceptual and methodological paradigms in the consumer-behavior literature. Seeks to further develop and study issues contained in MKT 601.

**MKT 650: Research Practicum I**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

**MKT 651: Research Practicum II**

(1-0) Cr. 1.

*Prereq: enrollment in the PhD program*

Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

**MKT 699: Dissertation**

Cr. 12.

*Prereq: Graduate classification, permission of dissertation supervisor*  
Research.

## Materials Engineering (MAT E)

***Any experimental courses offered by MAT E can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****MAT E 101: Materials Science & Engineering Learning Community Seminar**

Cr. R. F.

Introduction to the Materials Science & Engineering Department and resources available to support student success. Offered on a satisfactory-fail basis only.

**MAT E 170: Numeric, Symbolic, and Graphical Methods for Materials Engineering**

Cr. 3. S.

*Prereq: ENGR 160*

Introduction to computer-based problem solving techniques including data analysis, data visualization, and materials simulation using spreadsheet, array, and symbolic methods that are necessary for materials science. Introduction to 3D CAD with consideration for additive manufacturing techniques.

**MAT E 214: Structural Characterization of Materials**

(2-2) Cr. 3. F.S.

*Prereq: MAT E 215; PHYS 231*

Structural characterization of materials. Techniques include optical and electron microscopy, x-ray diffraction, and thermal analysis. Identification of materials type, microstructure, and crystal structure.

**MAT E 215: Introduction to Materials Science and Engineering I**

(3-0) Cr. 3. F.S.

*Prereq: (CHEM 167 or CHEM 177); MATH 165*

Introduction to the structure and properties of engineering materials. Structure of crystalline solids and imperfections. Atomic diffusion. Mechanical properties and failure of ductile and brittle materials. Dislocations and strengthening mechanisms. Phase equilibria, phase transformations, microstructure development, and heat treatment principles of common metallurgical systems including steels and aluminum alloys. Engineering applications. Only one of MAT E 215, MAT E 273, or MAT E 392 may count toward graduation.

**MAT E 215L: Introduction to Materials Science and Engineering I - Lab**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in MAT E 215 or MAT E 273 or MAT E 392*

Materials Engineering majors only. Laboratory exercise in materials.

**MAT E 216: Introduction to Materials Science and Engineering II**

(3-0) Cr. 3. F.S.

*Prereq: (MAT E 215 or MAT E 273 or MAT E 392); credit or concurrent enrollment in PHYS 232*

Materials Engineering majors only. Fundamentals of ceramic, polymeric, and composite materials; degradation, electronic, thermal, magnetic, and optical properties of materials. Materials for energy, biomaterials, and nanomaterials.

**MAT E 216L: Introduction to Materials Science and Engineering II - Lab**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in MAT E 216*

Materials Engineering majors only. Laboratory exercise in materials.

**MAT E 220: Globalization and Sustainability**

(Cross-listed with ANTHR, ENV S, GLOBE, M E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**MAT E 273: Principles of Materials Science and Engineering**

(3-0) Cr. 3. F.S.

*Prereq: (CHEM 167 or CHEM 177); MATH 165*

Introduction to the structure and properties of engineering materials. Structure of crystalline solids and imperfections. Atomic diffusion. Mechanical properties and failure of ductile and brittle materials. Dislocations and strengthening mechanisms. Phase equilibria, phase transformations, microstructure development, and heat treatment principles of common metallurgical systems including steels and aluminum alloys. Structure and mechanical properties of ceramic, polymeric and composite materials. Thermal properties of materials. Corrosion and degradation. Basic electronic properties of materials. Engineering applications. Only one of MAT E 215, MAT E 273, or MAT E 392 may count toward graduation

**MAT E 301: Materials Engineering Professional Planning**

Cr. R. S.

*Prereq: Sophomore classification in Materials Engineering*

Preparation for a career in industry or advanced study in graduate school; Lectures and guest speakers discuss various topics, including: experiential learning, resumes, interviewing, leadership, networking, professional ethics, and graduate school opportunities. Offered on a satisfactory-fail basis only.

**MAT E 311: Thermodynamics in Materials Engineering**

(3-0) Cr. 3. F.

*Prereq: CHEM 178; (MAT E 215 or MAT E 273 or MAT E 392); credit or concurrent enrollment in (MAT E 216 and MATH 267)*

Basic laws of thermodynamics applied to phase equilibria, transformations, and reactions in multicomponent multiphase materials systems; thermodynamic descriptions of heterogeneous systems; binary and ternary phase diagrams; interfaces, surfaces, and defects.

**MAT E 314: Kinetics and Phase Equilibria in Materials**

(3-0) Cr. 3. S.

*Prereq: MAT E 214; MAT E 216; MAT E 311*

Kinetic phenomena and phase equilibria relevant to the origins and stability of microstructure in metallic, ceramic and polymeric systems. Application of thermodynamics to the understanding of stable and metastable phase equilibria, interfaces and their effects on stability: defects and diffusion, empirical rate equations for transformation kinetics, driving forces and kinetics of nucleation, diffusional and diffusionless phase transformations.

**MAT E 317: Introduction to Electronic Properties of Ceramic, Metallic, and Polymeric Materials**

(3-0) Cr. 3. F.

*Prereq: MAT E 216; PHYS 232*

Materials Engineering majors only. Introduction to electronic properties of materials and their practical applications. Classical conduction models and electronic properties of metallic and ceramic materials. Elementary quantum mechanics and band theory of electron states in solids. Quantum theory of metallic conduction. Elementary semiconductor theory and devices. Polarization and dielectric properties of materials. Electron conduction in polymeric systems.

**MAT E 319: Mechanics of Structures and Materials**

(3-0) Cr. 3. S.

*Prereq: PHYS 231; credit or concurrent enrollment in MATH 166*

Fundamentals of engineering mechanics as applied to materials. Forces and moments; stresses in loaded bodies; elasticity and stress analysis including stress / strain relationships. Only one of MAT E 319 or E M 324 may be used for graduation requirements.

**MAT E 321: Introduction to Ceramic Science**

(3-0) Cr. 3. F.

*Prereq: MAT E 216*

Ceramic crystal structures, defects, diffusion and transport. Phase equilibria and microstructures. Thermal, electronic, optical and magnetic properties of ceramics.

**MAT E 322: Introduction to Ceramic Processing**

(2-3) Cr. 3. S.

*Prereq: MAT E 321*

Synthesis and characterization of ceramic powders. Colloidal phenomena, rheology of suspensions, ceramic forming methods, and drying. High temperature ceramic reactions, liquid and solid-state sintering, grain growth, microstructure development. Processing/microstructure/property relationships.

**MAT E 332: Semiconductor Materials and Devices**

(Cross-listed with E E). (3-0) Cr. 3. S.

*Prereq: CPR E and E E majors: E E 230, MAT E majors: MAT E 317*

Introduction to semiconductor material and device physics. Quantum mechanics and band theory of semiconductors. Charge carrier distributions, generation/recombination, transport properties. Physical and electrical properties and fabrication of semiconductor devices such as MOSFETs, bipolar transistors, laser diodes and LED's.

**MAT E 334: Electronic & Magnetic Properties of Metallic Materials**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MAT E 317*

Electronic conduction in metals and the properties of conducting materials. Quantum mechanical behavior of free electrons and electrons in potentials wells, bonds and lattices. Development of the band theory of electron states in solids and the Free and Nearly Free Electron models. Density-of-states in energy bands and the Fermi-Dirac statistics of state occupancy. Quantum mechanical model of metallic conduction; Brillouin zones and Fermi surfaces. Additional topics include the thermal properties of metals, electron phase transitions in metallic alloys and the BCS theory of superconductivity. Classical and quantum mechanical treatment of the origins of magnetism in materials; orbital and spin angular momentum. Theory of magnetic behavior in dia-, para-magnetic, ferromagnetic materials.

**MAT E 341: Metals Processing**

(3-0) Cr. 3. F.

*Prereq: MAT E 215 or MAT E 273 or MAT E 392*

Theory and practice of metal processing, including: extractive metallurgy; casting and solidification; welding and joining; deformation processes (e.g., forging, extrusion); powder metallurgy; and additive manufacturing.

**MAT E 342: Structure/Property Relations in Nonferrous Metals**

(3-0) Cr. 3. S.

*Prereq: MAT E 215 or MAT E 273 or MAT E 392*

Processing of metals and alloys to obtain desired mechanical properties by manipulation of their microstructure and composition of constituent phase(s). Relevance of defects to mechanical properties, plastic flow. Strengthening mechanisms in metals and alloys. Microstructure, heat treatment and mechanical properties of engineering alloys. Metal-matrix composites.

**MAT E 348: Solidification Processes**

(Cross-listed with I E). (2-2) Cr. 3. S.

*Prereq: I E 248 and MAT E 273, or MAT E 215*

Theory and applications related to metal casting, welding, polymer processing, powder metallurgy, and composites manufacturing, and related rapid manufacturing processes.

**MAT E 350: Polymers and Polymer Engineering.**

(3-0) Cr. 3. S.

*Prereq: MAT E 216 or MAT E 273 or MAT E 392*

Fundamental concepts of soft matter, including polymer, colloid and surfactant. Their physical and chemical properties, rheology and production methods. Applications of polymers in the chemical industry. Related topics in surface, diffusion and stability.

**MAT E 351: Introduction to Polymeric Materials**

(3-0) Cr. 3. F.

*Prereq: MAT E 216*

Introduction to polymeric materials, synthesis, structure and properties. Relationship between polymer composition, processing and properties.

**MAT E 362: Principles of Nondestructive Testing**

(Cross-listed with E M). (3-0) Cr. 3. S.

*Prereq: PHYS 132 or PHYS 232*

Radiography, ultrasonic testing, magnetic particle inspection, eddy current testing, dye penetrant inspection, and other techniques. Physical bases of tests, materials to which applicable, types of defects detectable, calibration standards, and reliability safety precautions.

**MAT E 362L: Nondestructive Testing Laboratory**

(Cross-listed with E M). (0-3) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in E M 362 or MAT E 362*

Application of nondestructive testing techniques to the detection and sizing of flaws in materials and to the characterization of material's microstructure. Included are experiments in hardness, dye penetrant, magnetic particle, x-ray, ultrasonic and eddy current testing. Field trips to industrial laboratories.

**MAT E 391: Introduction to US Women's Roles in Industry and Preparation for Summer Study**

(3-0) Cr. 3. S.

*Prereq: Permission of Instructor*

Introduction to the historical role of women as related to US industry, family and community with emphasis on the years 1830 - 1945, but also related to the current climate. Topics completed in 392 with arranged lectures at Brunel University. Orientation for Brunel summer study program. Offered on a satisfactory-fail basis only. Credit for graduation allowable only upon completion of summer study abroad program.

**MAT E 392: Principles of Materials Science and Engineering**

(3-0) Cr. 3. SS.

*Prereq: (CHEM 167 or CHEM 177); MATH 165; MAT E 391*

Introduction to the structure and properties of engineering materials. Structure of crystalline solids and imperfections. Atomic diffusion. Mechanical properties and failure of ductile and brittle materials. Dislocations and strengthening mechanisms. Phase equilibria, phase transformations, microstructure development, and heat treatment principles of common metallurgical systems including steels and aluminum alloys. Structure and mechanical properties of ceramic, polymeric and composite materials. Thermal properties of materials. Corrosion and degradation. Basic electronic properties of materials. Engineering applications. Only one of MAT E 215, MAT E 273, or MAT E 392 may count toward graduation. Meets International Perspectives Requirement.

**MAT E 413: Materials Design and Professional Practice I**

(3-0) Cr. 3. F.S.

*Prereq: Senior classification*

Fundamentals of materials engineering design, information sources, team behavior, professional preparation, and materials selection. Analysis of design problems, development of solutions, selected case studies. Oral presentation skills. Preparations for continued project in MAT E 414. MAT E 413-414 sequence is intended for students in their final two semesters before graduation.

**MAT E 414: Materials Design and Professional Practice II**

(2-2) Cr. 3. F.S.

*Prereq: MAT E 413*

Team projects specified by either industry or academic partners. Written and oral final project reports. Integration of materials processing, structure/composition, properties and performance principles in materials engineering problems. Multi-scale design of materials, materials processing, case studies including cost analysis, ethics, risk and safety.

**MAT E 418: Mechanical Behavior of Materials**

(3-0) Cr. 3. F.S.

*Prereq: MAT E 216; credit or concurrent enrollment in MAT E 319*

Mechanical behavior of ceramics, metals, polymers, and composites. Relationships between materials processing and atomic aspects of elasticity, plasticity, creep, fracture, and fatigue. Life prediction, stress-and failure analysis.

**MAT E 419: Magnetism and Magnetic Materials**

(Dual-listed with M S E 519). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: E E 311 or MAT E 317 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

**MAT E 425: Glass Science and Engineering**

(2-3) Cr. 3. F.

*Prereq: MAT E 321*

Composition, structure, properties manufacturing, and applications of inorganic glasses. Mechanical, structural, thermal, optical, ionic, electronic, and biological applications of inorganic glasses, especially silicate glasses. Contemporary topics in glass science and engineering such as glass optical fiber communication and flat panel display technologies. Laboratory exercises in the preparation and characterization of silicate glasses.

**MAT E 432: Microelectronics Fabrication Techniques**

(Dual-listed with M S E 532). (Cross-listed with E E). (2-4) Cr. 4.

*Prereq: CPR E and E E majors: E E 230; MAT E majors: MAT E 317*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

**MAT E 433: Advanced Ceramics and Electronic Materials**

(3-0) Cr. 3. S.

*Prereq: MAT E 317; MAT E 321*

Charged point defects and formation equations. Non-stoichiometric conductors, dielectric, ferroelectric, and piezoelectric materials and applications. Optical properties, optical spectra of materials, optoelectronic devices. Magnetic and superconducting materials. Contemporary topics in advanced ceramics.

**MAT E 437: Electronic Properties of Materials**

(Dual-listed with M S E 537). (Cross-listed with E E). Cr. 3. S.

*Prereq: E E 332 or MAT E 317 or PHYS 322*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, biomedical applications of magnetism, magnetic evaluation of materials.

**MAT E 443: Physical Metallurgy of Ferrous Alloys**

(3-0) Cr. 3. F.

*Prereq: MAT E 311*

Production and processing of ferrous metals. Extraction of pig iron from ore. Steelmaking processes. Equilibrium and nonequilibrium phases in the Fe-C system. Properties and processing of cast irons, plain carbon and alloy steels, stainless and specialty steels. Transformation diagrams, hardenability, and surface treatments. Continuous casting, forging, hot rolling, quenching, and tempering as they apply to ferrous materials. Cost and mechanical performance considerations in cast iron and steel selection and heat treatment.

**MAT E 444: Corrosion and Failure Analysis**

(2-2) Cr. 3. S.

*Prereq: MAT E 215 or MAT E 273 or MAT E 392*

Failure analysis. Characteristics of common types of metallic failures, case studies of failures, designing to reduce failure risk. Corrosion and corrosion control of metallic systems. Corrosion fundamentals, classification of different types of metallic corrosion, corrosion properties of various engineering alloys, corrosion control.

**MAT E 452: Scanning and Auger Electron Microscopy**

(Dual-listed with M S E 552). (2-3) Cr. 3. F.

*Prereq: PHYS 232*

Characterization of materials using scanning electron microscope (SEM), electron microprobe, and auger spectrometer. Compositional determination using energy and wavelength dispersive x-ray and Auger spectroscopies. Specimen preparation. Laboratory covers SEM operation.

**MAT E 453: Physical and Mechanical Properties of Polymers**

(Dual-listed with M S E 553). (2-3) Cr. 3. F.

*Prereq: MAT E 351*

Overview of polymer chemical composition, microstructure, thermal and mechanical properties, rheology, and principles of polymer materials selection. Intensive laboratory experiments include chemical composition studies, microstructural characterization, thermal analysis, and mechanical testing.

**MAT E 454: Polymer Composites and Processing**

(Dual-listed with M S E 554). (3-0) Cr. 3. S.

*Prereq: MAT E 351*

Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

**MAT E 456: Biomaterials**

(Dual-listed with M S E 556). (Cross-listed with B M E). (3-0) Cr. 3. F.

*Prereq: CHEM 178; (MAT E 216 or MAT E 273 or MAT E 392)*

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

**MAT E 457: Chemical and Physical Metallurgy of Rare Earth Metals**

(Dual-listed with M S E 557). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: CHEM 325 or MAT E 311*

Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity.

**MAT E 488: Eddy Current Nondestructive Evaluation**

(Dual-listed with M S E 588). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)*

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

**MAT E 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Permission of Department*

Investigation of individual research or special topics. Independent study that is being proposed to be used toward graduation or minor requirements. This course requires an approved proposal to the MSE Department's Undergraduate Curriculum Committee prior to the beginning of the semester.

**MAT E 490H: Independent Study: Senior Honors Project**

Cr. arr. F.S.SS.

*Prereq: Permission of Department*

Independent study that is being proposed to be used for an honors project. This course requires an approved proposal to the College of Engineering Honors Committee.

**MAT E 499: Undergraduate Research Opportunity**

Cr. R. Repeatable, maximum of 12 times. F.S.SS.

*Prereq: Permission of Department*

Independent study working in research lab with faculty member.

Designed to allow students opportunity to gain experience that may assist them in obtaining future employment. Offered on a satisfactory-fail basis only. The course cannot be applied toward any graduation requirements.

## Materials Science and Engineering (M S E)

*Any experimental courses offered by M S E can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for graduate students, open to qualified undergraduates:**

**M S E 501: Fundamentals of Materials Science and Engineering I**

(1-0) Cr. 1. F.

An examination of structure-property-process relationships in materials, focusing on control and measurement of end-use performance characteristics. Materials design fundamentals are discussed as they pertain to various critical industries, applications, and manufacturing technologies. Offered on a satisfactory-fail basis only.

**M S E 502: Fundamentals of Materials Science and Engineering II**

(1-0) Cr. 1. Repeatable, maximum of 1 credits. S.

*Prereq: M S E 501*

An examination of the physical behavior of materials, as underpinned by multiphase multicomponent thermodynamics, transport phenomena, interfaces, defect structures, the kinetics of phase transformations, and the mechanistic origins of structure-property-processing relationships in various types of materials. Offered on a satisfactory-fail basis only.

**M S E 503: Fundamentals of Materials Science and Engineering III**

(1-0) Cr. 1. SS.

*Prereq: M S E 501, M S E 502 and enrollment in the M S E Ph.D. program*

Directed study of advanced topics in Materials Science and Engineering. Fundamental principles and relationships connecting structure, chemistry, stability, physical behavior, properties, and processing response are reviewed. Experimental and computational methods for materials research are emphasized. Offered on a satisfactory-fail basis only.

**M S E 510: Fundamentals of Structure and Chemistry of Materials**

(3-0) Cr. 3. F.

*Prereq: MATH 165, PHYS 221, and CHEM 167*

Geometric and algebraic representations of symmetry. Pair distribution function. Structure, chemistry, and basic properties of covalent, ionic, and metallic solids, glasses and liquids, and polymers. Interactions of materials with particles and waves. Relationships between direct and reciprocal spaces. The kinematical theory of diffraction, with an introduction to the dynamical theory.

**M S E 519: Magnetism and Magnetic Materials**

(Dual-listed with MAT E 419). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: E E 311 or MAT E 317 or PHYS 364*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, magnetic measurements of properties for materials evaluation.

**M S E 520: Thermodynamics and Kinetics in Multicomponent Materials**

(3-0) Cr. 3. F.

*Prereq: MAT E 311 or CHEM 321, MATH 266 or MATH 267*

A review of the fundamental principles of heat, work, basic thermodynamic relations, and criteria for equilibrium. Analytical treatments for the thermodynamic description of multicomponent chemical solutions and reacting systems are developed and employed to predict phase equilibria in materials systems. Builds on the thermodynamic construction to treat the kinetics of chemical reactions and phase transformations. Topics include general first order and second order transitions, along with chemical diffusion. Detailed examples involving nucleation and diffusion limited growth, spinodal decomposition, martensitic transformations, magnetic and electric transitions, and glass formation will be considered.

**M S E 521: Mechanical Behavior and Manufacturing of Polymers and Composites**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: M E 324, E M 324*

Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

**M S E 530: Solid State Science**

(3-0) Cr. 3. S.

*Prereq: MAT E 334 or E E 332 or PHYS 322*

Development of a quantitative description of the electronic structure of solids starting with fundamentals of atoms, atomic bonding, basic crystallography, and band theory of solids. Continuum properties of solids in response to electromagnetic fields and thermal gradients. Quantitative description of the atomistic properties of solids through electron-electron interactions, electron-phonon interactions, and dipole interactions.

**M S E 532: Microelectronics Fabrication Techniques**

(Dual-listed with MAT E 432). (Cross-listed with E E). (2-4) Cr. 4.

*Prereq: CPR E and E E majors: E E 230; MAT E majors: MAT E 317*

Techniques used in modern integrated circuit fabrication, including diffusion, oxidation, ion implantation, lithography, evaporation, sputtering, chemical-vapor deposition, and etching. Process integration. Process evaluation and final device testing. Extensive laboratory exercises utilizing fabrication methods to build electronic devices. Use of computer simulation tools for predicting processing outcomes. Recent advances in processing CMOS ICs and micro-electro-mechanical systems (MEMS).

**M S E 537: Electronic Properties of Materials**

(Dual-listed with MAT E 437). (Cross-listed with E E). Cr. 3. S.

*Prereq: E E 332 or MAT E 317 or PHYS 322*

Magnetic fields, flux density and magnetization. Magnetic materials, magnetic measurements. Magnetic properties of materials. Domains, domain walls, domain processes, magnetization curves and hysteresis. Types of magnetic order, magnetic phases and critical phenomena. Magnetic moments of electrons, theory of electron magnetism. Technological application, soft magnetic materials for electromagnets, hard magnetic materials, permanent magnets, magnetic recording technology, biomedical applications of magnetism, magnetic evaluation of materials.

**M S E 540: Mechanical Behavior of Materials**

(3-0) Cr. 3. S.

*Prereq: MAT E 418, MATH 266 or MATH 267*

Mechanical behavior of materials with emphasis on micromechanics of deformation in three generic regimes: elasticity, plasticity, and fracture. A materials science approach is followed to understand and model the mechanical behavior that combines continuum mechanics, thermodynamics, kinetics, and microstructure. Some topics include elastic properties of materials, permanent deformation mechanisms at different temperatures (e.g., via dislocation motion and creep), and fracture in ductile and brittle materials. Specific classes of materials that are studied: metals, ceramics, polymers, glasses and composites.

**M S E 550: Nondestructive Evaluation**

(Cross-listed with E M). (3-2) Cr. 4. S.

*Prereq:* E M 324, MATH 385

Principles of five basic NDE methods and their application in engineering inspections. Materials behavior and simple failure analysis. NDE reliability, and damage-tolerant design. Advanced methods such as acoustic microscopy, laser ultrasonics, thermal waves, and computed tomography are analyzed. Computer-based experiments on a selection of methods: ultrasonics, eddy currents, x-rays are assigned for student completion.

**M S E 551: Characterization Methods in Materials Science**

(2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* MAT E 214

Characterization of ceramic, metal, polymer and glassy materials using modern analytical techniques. Spectroscopic (IR, Raman, UV/VIS/NIR, and NMR), thermal (DSC, DTA/TGA, and DMA) methods, mechanical and rheological testing, magnetic and electrical characterization, and powder characterization.

**M S E 552: Scanning and Auger Electron Microscopy**

(Dual-listed with MAT E 452). (2-3) Cr. 3. F.

*Prereq:* PHYS 232

Characterization of materials using scanning electron microscope (SEM), electron microprobe, and auger spectrometer. Compositional determination using energy and wavelength dispersive x-ray and Auger spectroscopies. Specimen preparation. Laboratory covers SEM operation.

**M S E 553: Physical and Mechanical Properties of Polymers**

(Dual-listed with MAT E 453). (2-3) Cr. 3. F.

*Prereq:* MAT E 351

Overview of polymer chemical composition, microstructure, thermal and mechanical properties, rheology, and principles of polymer materials selection. Intensive laboratory experiments include chemical composition studies, microstructural characterization, thermal analysis, and mechanical testing.

**M S E 554: Polymer Composites and Processing**

(Dual-listed with MAT E 454). (3-0) Cr. 3. S.

*Prereq:* MAT E 351

Basic concepts in polymer composites, blends, and block copolymers. Phase separation and miscibility, microstructures and mechanical behavior. Fiber reinforced and laminated composites. Viscosity, rheology, viscoelasticity of polymers. Polymer melt processing methods such as injection molding and extrusion; selection of suitable processing methods and their applications.

**M S E 556: Biomaterials**

(Dual-listed with MAT E 456). (3-0) Cr. 3. F.

*Prereq:* CHEM 178; (MAT E 216 or MAT E 273 or MAT E 392)

Presentation of the basic chemical and physical properties of biomaterials, including metals, ceramics, and polymers, as they are related to their manipulation by the engineer for incorporation into living systems. Role of microstructure properties in the choice of biomaterials and design of artificial organs, implants, and prostheses.

**M S E 557: Chemical and Physical Metallurgy of Rare Earth Metals**

(Dual-listed with MAT E 457). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* CHEM 325 or MAT E 311

Electronic configuration, valence states, minerals, ores, beneficiation, extraction, separation, metal preparation and purification. Crystal structures, phase transformations and polymorphism, and thermochemical properties of rare earth metals. Chemical properties: inorganic and organometallic compounds, alloy chemistry, nature of the chemical bonding. Physical properties: mechanical and elastic properties, magnetic properties, resistivity, and superconductivity.

**M S E 564: Fracture and Fatigue**

(Cross-listed with AER E, E M, M E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.

*Undergraduates:* Permission of instructor

Materials and mechanics approach to fracture and fatigue.

Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

**M S E 569: Mechanics of Composite and Combined Materials**

(Cross-listed with AER E, E M). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* E M 324

Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

**M S E 581: Computational Modeling of Materials**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* (MATH 265 and MAT E 311) or CH E 381 or CHEM 325 or PHYS 304

Introduction to the basic methods used in the computational modeling and simulation of materials, from atomistic simulations to methods at the mesoscale. Students will be expected to develop and run sample programs. Topics to be covered include, for example, electronic structure calculations, molecular dynamics, Monte Carlo, phase-field methods, etc.

**M S E 588: Eddy Current Nondestructive Evaluation**

(Dual-listed with MAT E 488). (Cross-listed with E E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* MATH 265 and (MAT E 216 or MAT E 273 or MAT E 392 or E E 311 or PHYS 364)

Electromagnetic fields of various eddy current probes. Probe field interaction with conductors, cracks and other material defects. Ferromagnetic materials. Layered conductors. Elementary inversion of probe signals to characterize defects. Special techniques including remote-field, transient, potential drop nondestructive evaluation and the use of Hall sensors. Practical assignments using a 'virtual' eddy current instrument will demonstrate key concepts.

**M S E 590: Special Topics**

Cr. arr. Repeatable.

*Prereq:* Permission of instructor

**M S E 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:****M S E 601: Materials Seminar**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq:* MSE Graduate Student Status

Seminar course - presentations given on a weekly basis by leading U.S. and International researchers that are experts in their respective fields closely related to Materials Science. Offered on a satisfactory-fail basis only.

**M S E 620: Fundamentals of Phase Transformations**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* M S E 520

Explores various advanced theoretical treatments of the energetics and kinetics of multicomponent materials. Topics include analytical and computational descriptions of thermodynamic quantities, experimental measurement of essential physical properties, analytical and computational treatments of kinetic processes, and the use of theoretical predictions of phase equilibria and evolution in materials systems.

**M S E 630: Physical Properties of Solids**

(3-0) Cr. 3.

*Prereq:* M S E 530

Advanced course in the behavior of solids within the framework of solid state physics and chemistry. Includes magnetic, dielectric, transport, and optical phenomena in solids. Influence of phase transformations and crystal symmetry on the physical properties.

**M S E 651: Powder Diffraction Methods**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* M S E 510

Advanced structural characterization of materials using powder diffraction. Production of X-ray and neutron radiation. Review of symmetry, group and kinematical theories of diffraction. Mathematical and computational backgrounds of powder diffraction data. Introduction to single crystal diffraction methods, origin of powder diffraction pattern, history of the technique. Modern powder diffraction methods. Indexing of powder diffraction patterns, figures of merit, precise lattice parameters. Phase problem, determining crystal structures from symmetry and geometry, Patterson, direct and Fourier methods. Rietveld method, precise crystal structures: atomic parameters, qualitative and quantitative phase identification, preferred orientation, grain size, strain, residual stress, order-disorder. Powder diffraction at non-ambient conditions. Applications of powder diffraction: data bases, phase transformations, phase diagrams, local structures, magnetism.

**M S E 652: Transmission Electron Microscopy**

(2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* M S E 510

Theory and application of transmission electron microscopy to inorganic materials. Specimen preparation, selected area and convergent beam electron diffraction, bright field/dark field/high resolution imaging. Compositional analysis using X-ray and electron energy loss spectroscopy.

**M S E 690: Advanced Topics in Materials Science**

Cr. arr. Repeatable.

*Prereq:* Permission of instructor

**M S E 697: Engineering Internship**

Cr. R. Repeatable. F.S.SS.

*Prereq:* Permission of department, graduate classification

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**M S E 699: Research**

Cr. arr. Repeatable.

## Mathematics (MATH)

**Any experimental courses offered by MATH can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**MATH 101: Orientation in Mathematics**

(1-0) Cr. 1. F.

A required orientation for all first-year and transfer students in mathematics. Provides information about campus resources and opportunities available to students, assists with transition to the University, and academic planning. Offered on a satisfactory/fail basis only. Offered on a satisfactory-fail basis only.

**MATH 104: Introduction to Probability**

(3-0) Cr. 3. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment

Permutations, combinations, probability, expected value, and applications. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

**MATH 105: Introduction to Mathematical Ideas**

(3-0) Cr. 3. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment

Introduction to the use of basic mathematics to solve real-world problems in the areas of voting issues, measuring power in situations where people have different numbers of votes, apportionment, fair division, and elementary game theory. No prior background in politics or history is necessary for this course. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>.

**MATH 139: College Algebra Supplement**

(1-0) Cr. 1. F.S.

*Prereq:* Satisfactory performance on placement assessment

Math concepts to provide supplemental assistance with course topics of MATH 140. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Offered on a satisfactory-fail basis only.

**MATH 140: College Algebra**

(3-1) Cr. 3. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment or concurrent enrollment in MATH 139

Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities, systems of linear equations. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>.

**MATH 143: Preparation for Calculus**

(4-0) Cr. 4. F.S.

*Prereq:* Satisfactory performance on placement assessment or MATH 140

Preparation for MATH 160 or MATH 165. Functions, graphing, basic trigonometry, logarithms, exponentials. Emphasis on co-variational reasoning. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 143 and MATH 145 may count toward graduation.

**MATH 145: Applied Trigonometry**

(3-0) Cr. 3. F.S.

*Prereq:* Satisfactory performance on placement assessment or minimum of C- in MATH 140

Mathematical ideas regarding the conception of space. General trigonometry, with an emphasis on the calculation of lengths, areas, and angles. The Law of Sines and the Law of Cosines. Polar, cylindrical, and spherical coordinate systems. Conic sections and quadric surfaces. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 143 and MATH 145 may count toward graduation.

**MATH 149: Discrete Mathematics for Business and Social Sciences Supplement**

(1-0) Cr. 1. F.S.

*Prereq:* Satisfactory performance on placement assessment

Math concepts to provide supplemental assistance with course topics of MATH 150. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Offered on a satisfactory-fail basis only.

**MATH 150: Discrete Mathematics for Business and Social Sciences**

(2-1) Cr. 3. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment or concurrent enrollment in MATH 149

Linear equations and inequalities, matrix algebra, linear programming, discrete probability. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Either MATH 104 or MATH 150 may be counted toward graduation, but not both.

**MATH 151: Calculus for Business and Social Sciences**

(2-1) Cr. 3. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment

Differential calculus, applications to max-min problems, integral calculus and applications. Will not serve as prerequisite for MATH 265 or MATH 266. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 151, MATH 160, or the sequence MATH 165-MATH 166 may be counted towards graduation.

**MATH 160: Survey of Calculus**

(4-0) Cr. 4. F.S.

*Prereq:* Satisfactory performance on placement assessment or minimum of C- in (MATH 140 or MATH 143)

Analytic geometry, derivatives and integrals of elementary functions, simple differential equations, and applications. Will not serve as a prerequisite for MATH 265 or MATH 266. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 151, MATH 160, or the sequence MATH 165-MATH 166 may be counted towards graduation.

**MATH 165: Calculus I**

(4-0) Cr. 4. F.S.SS.

*Prereq:* Satisfactory performance on placement assessment or minimum of C- in MATH 143

Differential calculus, applications of the derivative, introduction to integral calculus. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 151 or MATH 160 or the sequence MATH 165-MATH 166 may be counted towards graduation.

**MATH 166: Calculus II**

(4-0) Cr. 4. F.S.SS.

*Prereq:* Minimum of C- in MATH 165 or satisfactory performance on placement assessments

Integral calculus, applications of the integral, parametric curves and polar coordinates, power series and Taylor series. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 151, MATH 160, or the sequence MATH 165-MATH 166 may be counted towards graduation.

**MATH 166H: Calculus II, Honors**

(4-0) Cr. 4. F.

*Prereq:* Minimum of C- in MATH 165 or satisfactory performance on placement assessments

Integral calculus, applications of the integral, parametric curves and polar coordinates, power series and Taylor series. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required for MATH 166. Preference will be given to students in the University Honors Program. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of MATH 151 or MATH 160, or the sequence MATH 165-MATH 166 may be counted towards graduation.

**MATH 195: Mathematics for Elementary Education I**

(2-2) Cr. 3. F.S.

*Prereq:* Satisfactory performance on placement assessment; Early or Elementary Education major

Whole number operations through analysis of properties, theoretical and hands-on models, mathematical analysis of elementary students' thinking; standard and non-standard algorithms; structure of the decimal system; linear measurement; two- and three-dimensional measurement, shapes and spatial sense; number theory; algebra as it relates to elementary curricula/teaching profession. Satisfactory placement scores can be found at <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Students in the College of Liberal Arts and Sciences may not count MATH 195 toward General Education Requirements.

**MATH 196: Mathematics for Elementary Education II**

(2-2) Cr. 3. F.S.

*Prereq:* Minimum of C- in MATH 195; Early or Elementary Education major

Integer, fraction and decimal operations through analysis of properties, theoretical and hands-on models, mathematical analysis of elementary students' thinking; standard and non-standard algorithms; continuation of two- and three-dimensional measurement, shapes and spatial sense; probability and statistics; proportional reasoning; algebra as it relates to elementary curricula/teaching profession.

**MATH 201: Introduction to Proofs**

(3-0) Cr. 3. F.S.

*Prereq:* MATH 166 or MATH 166H

Transition to advanced mathematics. Communicating mathematics. Logical arguments; techniques of proofs regarding sets, numbers (natural and real), functions, relations, and limits.

**MATH 202: Career Development in Math and Statistics**

(Cross-listed with STAT). Cr. 1. S.

Career development in the mathematics and statistics disciplines with an emphasis on contemporary social issues. Presentations by professionals in STEM fields about occupations, decision-making strategies, and career goal implementation; development of job searching, resume writing, negotiating, and interviewing techniques. Offered on a satisfactory-fail basis only.

**MATH 207: Matrices and Linear Algebra**

(3-0) Cr. 3. F.S.SS.

*Prereq:* MATH 166

Systems of linear equations, determinants, vector spaces, linear transformations, orthogonality, least-squares methods, eigenvalues and eigenvectors. Emphasis on applications and techniques. Only one of MATH 207 and MATH 317 may be counted toward graduation.

**MATH 230: Discrete Computational Structures**

(Cross-listed with COM S). (3-1) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in (COM S 227; MATH 165); ENGL 150*

Concepts in discrete mathematics as applied to computer science. Logic, set theory, functions, relations, cardinality of sets, combinatorics, graph theory and number theory. Proof techniques, induction and recursion.

**MATH 240: Mathematics of Investment and Credit**

(3-0) Cr. 3. F.S.

*Prereq: MATH 166*

Interest rates, time value of money, annuities. Loans, bonds, yield rates. Term structure of interest rates, asset and liability management. Duration, convexity, immunization.

**MATH 265: Calculus III**

(4-0) Cr. 4. F.S.SS.

*Prereq: Minimum of C- in MATH 166 or MATH 166H*

Geometry of space and vectors, multivariable differential calculus, multivariable integral calculus, vector calculus.

**MATH 265H: Calculus III, Honors**

(4-0) Cr. 4. F.S.

*Prereq: Permission of Instructor; minimum of C- in MATH 166 or MATH 166H*

Geometry of space and vectors, multivariable differential calculus, multivariable integral calculus, vector calculus. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required in MATH 265. Preference will be given to students in the University Honors Program.

**MATH 266: Elementary Differential Equations**

(3-0) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in MATH 166 or MATH 166H*

Solution methods for ordinary differential equations. First order equations, linear equations, constant coefficient equations. Eigenvalue methods for systems of first order linear equations. Introduction to stability and phase plane analysis. Credit for either MATH 267 or the MATH 266, 268 pair of courses, but not both, may be applied toward graduation. Credit for only one of the following courses may be applied toward graduation: MATH 267, MATH 266, MATH 269.

**MATH 267: Elementary Differential Equations and Laplace Transforms**

(4-0) Cr. 4. F.S.SS.

*Prereq: Minimum of C- in MATH 166 or MATH 166H*

Same as MATH 266 but also including Laplace transforms and power series solutions to ordinary differential equations. Credit for either MATH 267 or the MATH 266, 268 pair of courses, but not both, may be applied toward graduation. Credit for only one of the following courses may be applied toward graduation: MATH 267, MATH 266, MATH 269.

**MATH 268: Laplace Transforms**

(1-0) Cr. 1. F.S.SS.

*Prereq: MATH 266; Department Permission*

Laplace transforms and power series solutions to ordinary differential equations. Credit for either MATH 267 or the MATH 266, 268 pair of courses, but not both, may be applied toward graduation.

**MATH 269: Systems of Differential Equations**

(1-0) Cr. 1. F.S.SS.

*Prereq: Department Permission*

Systems portion of MATH 266 and MATH 267: Eigenvalue methods for systems of first order linear equations. Introduction to stability and phase plane analysis. For students supplementing transfer courses in differential equations in order to earn credit in MATH 266 or 267. Familiarity with ordinary differential equations of first and second order required. Students with credit in MATH 266 or MATH 267 may not earn credit in MATH 269.

**MATH 290: Independent Study**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Independent study.

**MATH 290H: Independent Study, Honors**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Independent study.

**MATH 297: Intermediate Topics for School Mathematics**

(2-2) Cr. 3. F.

*Prereq: Minimum of C- in MATH 196; Early or Elementary Education major*

Mathematical reasoning and topics in Euclidean and non-Euclidean geometry, including transformations, congruence, and similarity; exploration of probability with simulations; linearity and connections to Calculus; fractals and fractal dimension.

**MATH 301: Abstract Algebra I**

(3-0) Cr. 3. F.S.

*Prereq: (MATH 166 or MATH 166H); MATH 317; minimum of C- in MATH 201*

Basic properties of integers, divisibility and unique factorization.

Polynomial rings over a field. Congruence. Introduction to abstract rings, homomorphisms, ideals. Roots and irreducibility of polynomials. Introduction to groups. Emphasis on proofs.

**MATH 304: Combinatorics**

(3-0) Cr. 3. F.

*Prereq: (MATH 166 or MATH 166H); (MATH 201 or COM S 230 or CPR E 310)*

Enumeration strategies involving permutations, combinations, partitions, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions. Additional topics selected from probability, algebraic combinatorics, and applications.

**MATH 314: Graph Theory**

(3-0) Cr. 3. S.

*Prereq: (MATH 166 or MATH 166H); (MATH 201 or COM S 230 or CPR E 310)*

Structure and extremal properties of graphs. Topics are selected from: trees, networks, colorings, paths and cycles, connectivity, planarity, directed graphs, matchings, Ramsey theory, forbidden structures, enumeration, applications.

**MATH 317: Theory of Linear Algebra**

(4-0) Cr. 4. F.S.

*Prereq: Credit or concurrent enrollment in MATH 201 or COM S 230 or CPR E 310*

Systems of linear equations, determinants, vector spaces, inner product spaces, linear transformations, eigenvalues and eigenvectors. Emphasis on writing proofs and results. Only one of MATH 207 and MATH 317 may be counted toward graduation.

**MATH 341: Introduction to the Theory of Probability and Statistics I**

(Cross-listed with STAT). (3-2) Cr. 4. F.S.

*Prereq: MATH 265 or MATH 265H*

Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; transformations of random variables; simulation of random variables and use of the R statistical package. Credit for only one of the following courses may be applied toward graduation: STAT 341, STAT 347, STAT 447, or STAT 588.

**MATH 342: Introduction to the Theory of Probability and Statistics II**

(Cross-listed with STAT). (3-2) Cr. 4. F.S.

*Prereq: (MATH 207 or MATH 317); (STAT 101 or STAT 104 or STAT 105 or STAT 201 or STAT 226 or STAT 231 or STAT 305 or STAT 322 or STAT 330); STAT 341*

Sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; resampling methods; introduction to Bayesian inference; use of the R statistical package for simulation and data analysis.

**MATH 350: Number Theory**

(Cross-listed with COM S). (3-0) Cr. 3. S.

*Prereq: COM S 230 or CPR E 310 or MATH 201*

Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Additional topics, chosen at the discretion of the instructor.

**MATH 365: Complex Variables with Applications**

(3-0) Cr. 3. S.

*Prereq: MATH 265*

Functions of a complex variable, including differentiation, integration, series, residues, and conformal mappings.

**MATH 373: Introduction to Scientific Computing**

(3-0) Cr. 3. F.

*Prereq: MATH 265*

Vector and matrix programming and graphing in MATLAB for scientific applications. Polynomial interpolation and approximation. Systems of linear equations and numerical linear algebra. Numerical differentiation and integration. Root-finding methods for solving nonlinear equations and optimization in one and several variables. Fast Fourier transform. Emphasis on effective use of mathematical software and understanding of its strengths and limitations.

**MATH 385: Introduction to Partial Differential Equations**

(3-0) Cr. 3. F.S.

*Prereq: MATH 265; (MATH 266 or MATH 267)*

Method of separation of variables for linear partial differential equations, including heat equation, Poisson equation, and wave equation. Topics from Fourier series, Sturm-Liouville theory, Bessel functions, spherical harmonics, and method of characteristics.

**MATH 397: Teaching Secondary Mathematics Using University Mathematics**

(2-2) Cr. 3. S.

*Prereq: MATH 201; MATH 301*

Coursework in university mathematics including calculus, abstract algebra, discrete mathematics, geometry, and other topics as it relates to teaching mathematics in grades 5-12.

**MATH 398: Cooperative Education**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Junior classification; Permission of Department Cooperative Education Coordinator*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**MATH 403: Intermediate Abstract Algebra**

(Dual-listed with MATH 503). (3-0) Cr. 3. S.

*Prereq: 403: Minimum of C in MATH 301, 503: Not taken MATH 504 or MATH 505*

Properties of groups and rings, subgroups, ideals, and quotients, homomorphisms, structure theory for finite groups. PIDs, UFDs, and Euclidean Domains. Field extensions and finite fields. Selected applications.

**MATH 407: Applied Linear Algebra**

(Dual-listed with MATH 507). (3-0) Cr. 3. F.

*Prereq: MATH 317 or (MATH 207; MATH 201)*

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences, engineering, and other fields.

**MATH 414: Analysis I**

(3-0) Cr. 3. F.S.SS.

*Prereq: Minimum of C- in COM S 230 or CPR E 310 or MATH 201*

A rigorous development of calculus of functions of one real variable: real number properties and topology, limits, continuity, differentiation, integration, series.

**MATH 415: Analysis II**

(3-0) Cr. 3. S.

*Prereq: MATH 265; (MATH 317 or MATH 407); MATH 414*

Sequences and series of functions of a real variable, uniform convergence, power series, metric spaces, calculus of functions of two or more real variables.

**MATH 421: Logic for Mathematics and Computer Science**

(Cross-listed with COM S). (3-0) Cr. 3.

*Prereq: COM S 230 or CPR E 310 or MATH 207 or MATH 301 or MATH 317*

Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic.

**MATH 423: Mathematical Modeling in Biology**

(Dual-listed with MATH 523). (3-0) Cr. 3. F.

*Prereq: MATH 266 or MATH 267*

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 265 or equivalent recommended.

**MATH 424: Introduction to High Performance Computing**

(Cross-listed with COM S, CPR E). (2-2) Cr. 3. F.

*Prereq: (MATH 265; [MATH 207 or MATH 317]) or Permission of Instructor* Unix, serial programming of scientific applications, OpenMP for shared-memory parallelization. No Unix, Fortran or C experience required.

**MATH 435: Geometry I**

(3-0) Cr. 3. F.

*Prereq: (COM S 230 or CPR E 310 or MATH 201); (MATH 207 or MATH 317)*

Euclidean geometry of triangles, circles, and parallelograms, studied from several points of view, chosen from: synthetic, analytic, axiomatic, transformational, complex numbers, or vector methods. Possible and impossible constructions with compass and straightedge.

**MATH 436: Geometry II**

(3-0) Cr. 3. S.

*Prereq: (COM S 230 or CPR E 310 or MATH 201); (MATH 207 or MATH 317)*

Foundations of Euclidean geometry and the axiomatic method, including the use of models. The history, logical consistency, and basic theorems of non-Euclidean geometries, such as hyperbolic, elliptic, and projective geometry.

**MATH 441: Life Contingencies I**

Cr. 3. F.

*Prereq: MATH 240; credit or concurrent enrollment in MATH 265*

Topics in life insurance for the Actuarial Sciences I: single life annuities, benefits premiums and reserves.

**MATH 442: Life Contingencies II**

Cr. 3. S.

*Prereq: MATH 441*

Topics in life insurance for the Actuarial Sciences II: multiple life functions, multiple decrement models, pension plan valuation, insurance models, applications.

**MATH 469: Introduction to Discrete Mathematics**

(Dual-listed with MATH 569). (3-0) Cr. 3. S.

*Prereq: (MATH 207 or MATH 317); (MATH 304 or MATH 314)*

Combinatorial counting, double-counting, generating functions, graph structure, planar graphs, probabilistic proofs, points in general positions, polytopes, Farkas lemma, linear programming and duality.

**MATH 481: Numerical Methods for Differential Equations**

(Dual-listed with MATH 581). (Cross-listed with COM S). (3-0) Cr. 3. S.

*Prereq: MATH 265; (MATH 266 or MATH 267)*

First order Euler method, high order Runge-Kutta methods, and multistep methods for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method. Computer programming required.

**MATH 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

No more than 9 credits of Math 490 or Math 490H may be counted toward graduation.

**MATH 490H: Independent Study: Honors**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

No more than 9 credits of Math 490 or 490H may be counted toward graduation.

**MATH 491: Undergraduate Thesis**

Cr. 2-3.

Writing and presenting a formal mathematics paper. Upon approval by the department, the paper will satisfy the departmental advanced English requirement.

**MATH 492: Undergraduate Seminar**

(2-0) Cr. 2. F.S.

*Prereq: MATH 317 or MATH 407*

Introduction to independent mathematical thought, with emphasis on oral communication of an advanced topic. Seminar content varies.

**MATH 495: Special Topics**

Cr. arr. Repeatable, maximum of 9 credits.

*Prereq: Permission of Instructor*

Topics of current interest.

**MATH 497: Teaching Secondary School Mathematics**

(Cross-listed with EDUC). (3-0) Cr. 3. F.

*Prereq: 15 credits in college mathematics. Admitted to the Educator Preparation Program.*

Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding.

**Courses primarily for graduate students, open to qualified undergraduates:**

**MATH 501: Introduction to Real Analysis**

(3-0) Cr. 3. F.

*Prereq: MATH 265 and (MATH 207 or MATH 317)*

A development of the real numbers. Study of metric spaces, completeness, compactness, sequences, and continuity of functions. Differentiation and integration of real-valued functions, sequences of functions, limits and convergence, equicontinuity.

**MATH 502: Topology**

(3-0) Cr. 3. S.

*Prereq: MATH 414 or MATH 501*

Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces. Topics in algebraic topology.

**MATH 503: Intermediate Abstract Algebra**

(Dual-listed with MATH 403). (3-0) Cr. 3. S.

*Prereq: 403: Minimum of C in MATH 301, 503: Not taken MATH 504 or MATH 505*

Properties of groups and rings, subgroups, ideals, and quotients, homomorphisms, structure theory for finite groups. PIDs, UFDs, and Euclidean Domains. Field extensions and finite fields. Selected applications.

**MATH 504: Abstract Algebra I**

(3-0) Cr. 3. F.

*Prereq: MATH 302*

Algebraic systems and their morphisms, with emphasis on groups and rings.

**MATH 505: Abstract Algebra II**

(3-0) Cr. 3. S.

*Prereq: MATH 504*

Continuation of Math 504. Algebraic systems and their morphisms, with emphasis on modules and fields.

**MATH 507: Applied Linear Algebra**

(Dual-listed with MATH 407). (3-0) Cr. 3. F.

*Prereq: MATH 317 or (MATH 207; MATH 201)*

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences, engineering, and other fields.

**MATH 510: Linear Algebra**

(3-0) Cr. 3. S.

*Prereq: MATH 317 or MATH 407 or (MATH 207 and one of MATH 301 or MATH 414)*

Advanced topics in linear algebra including canonical forms; unitary, normal, Hermitian and positive-definite matrices; variational characterizations of eigenvalues.

**MATH 511: Functions of a Single Complex Variable**

(3-0) Cr. 3. S.

*Prereq: MATH 414 or MATH 501*

Theory of analytic functions, integration, topology of the extended complex plane, singularities and residue theory, maximum principle, conformal mapping, meromorphic functions, argument principle.

**MATH 515: Real Analysis I**

(3-0) Cr. 3. F.

*Prereq: MATH 414 or MATH 501*

Lebesgue measure and Lebesgue integral, one variable differentiation theory, Fubini and Tonelli theorems in  $\mathbb{R}^n$ ,  $L_p$  spaces.

**MATH 516: Real Analysis II**

(3-0) Cr. 3. S.

*Prereq: MATH 515*

Metric spaces, topological spaces, compactness, abstract theory of measure and integral, differentiation of measures, Banach spaces.

**MATH 517: Finite Difference Methods**

(3-0) Cr. 3. S.

*Prereq: MATH 481 or MATH 561*

Finite difference methods for partial differential equations. Methods for elliptic equations; explicit and implicit methods for parabolic and hyperbolic equations; stability, accuracy, and convergence theory, including von Neumann analysis, modified equations, and the Courant-Friedrichs-Lewy condition.

**MATH 518: Mathematical Modeling and Differential Equations**

(3-0) Cr. 3. S.

*Prereq: MATH 414, MATH 415*

Basic theory of ordinary differential equations, existence and uniqueness theorems, linear systems, linearization and stability, mathematical models in biology and physics, modeling with ordinary and partial differential equations, dynamical systems techniques.

**MATH 519: Methods of Applied Mathematics I**

(3-0) Cr. 3. F.

*Prereq: MATH 414 or MATH 501*

Techniques of classical and functional analysis with applications to differential equations and integral equations. Vector spaces, metric spaces, Hilbert and Banach spaces, Sobolev spaces and other function spaces, contraction mapping theorem, distributions, Fourier series and Fourier transform.

**MATH 520: Methods of Applied Mathematics II**

(3-0) Cr. 3. S.

*Prereq: MATH 519*

Continuation of Math 519. Linear operators, spectral theory of differential and integral operators, Green's functions and boundary value problems, weak solutions of partial differential equations and variational methods, calculus in Banach spaces and applications.

**MATH 523: Mathematical Modeling in Biology**

(Dual-listed with MATH 423). (Cross-listed with BCB, BCBIO). (3-0) Cr. 3. F.

*Prereq: MATH 266 or MATH 267*

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 265 or equivalent recommended.

**MATH 525: Numerical Analysis of High Performance Computing**

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. S.

*Prereq: CPR E 308 or MATH 481; experience in scientific programming; knowledge of FORTRAN or C*

Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required.

**MATH 533: Cryptography**

(Cross-listed with CPR E, CYBSC). (3-0) Cr. 3. S.

*Prereq: MATH 301 or CPR E 310 or COM S 230*

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

**MATH 535: Steganography and Digital Image Forensics**

(Cross-listed with CPR E, CYBSC). (3-0) Cr. 3. S.

*Prereq: E E 524 or MATH 317 or MATH 407 or COM S 230*

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

**MATH 554: Stochastic Process Models**

(Cross-listed with STAT). (3-0) Cr. 3. F.

*Prereq: STAT 542*

Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

**MATH 557: Ordinary Differential Equations and Dynamical Systems**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: MATH 415 or MATH 501*

The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, dynamical systems, bifurcations, and chaotic behavior.

**MATH 561: Numerical Analysis I**

(3-0) Cr. 3. F.

*Prereq: MATH 414 or MATH 501*

Approximation theory, including polynomial interpolation, spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations.

**MATH 562: Numerical Analysis II**

(3-0) Cr. 3. S.

*Prereq: MATH 317*

Numerical linear algebra including LU factorization, QR factorization, linear least squares, singular value decomposition, eigenvalue problems, and iterative methods for large linear systems.

**MATH 565: Continuous Optimization**

(3-0) Cr. 3. S.

*Prereq: MATH 265 and one of MATH 317, 507, 510*

Theory and methods for constrained and unconstrained optimization. Steepest-descent, conjugate gradient, Newton and quasi-Newton, line search and trust-region, first and second order necessary and sufficient conditions, linear, quadratic and general nonlinear programming.

**MATH 566: Discrete Optimization**

(3-0) Cr. 3. F.

*Prereq: MATH 317 or MATH 507 or MATH 510*

Algorithms for linear programming, integer and combinatorial optimization. Linear programming, duality theory, simplex algorithm; the solution of the shortest-path, minimum spanning tree, max-flow/min-cut, minimum cost flow, maximum matching, and traveling salesman problems; integer linear programming, branch-and-bound, local and global search algorithms; matroids and greedy algorithms.

**MATH 567: Graph Theory**

(3-0) Cr. 3. F.

*Prereq: MATH 317 or MATH 507 or MATH 510*

Structural theory of graphs. Topics include basic structures (trees, paths, cycles and matchings), networks, colorings, connectivity, topological graph theory, Ramsey and Turan theory, spectral graph theory, introduction to probabilistic methods.

**MATH 568: Enumerative Combinatorics and Ordered Sets**

(3-0) Cr. 3. S.

*Prereq: MATH 302 or MATH 504*

Enumeration methods. Generating functions and sieve methods. Partially ordered sets, lattices, and Moebius inversion. Extremal set theory.

**MATH 569: Introduction to Discrete Mathematics**

(Dual-listed with MATH 469). (3-0) Cr. 3. S.

*Prereq: (MATH 207 or MATH 317); (MATH 304 or MATH 314)*

Combinatorial counting, double-counting, generating functions, graph structure, planar graphs, probabilistic proofs, points in general positions, polytopes, Farkas lemma, linear programming and duality.

**MATH 577: Linear Systems**

(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207*

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

**MATH 578: Nonlinear Systems**

(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. S.

*Prereq: E E 577*

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

**MATH 581: Numerical Methods for Differential Equations**

(Dual-listed with MATH 481). (3-0) Cr. 3. S.

*Prereq: MATH 265; (MATH 266 or MATH 267)*

First order Euler method, high order Runge-Kutta methods, and multistep methods for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method. Computer programming required.

**MATH 590: Independent Study**

Cr. arr. Repeatable.

**MATH 591: Orientation for Mathematics Graduate Students I**

(0.5-0) Cr. 0.5. F.

Fall semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

**MATH 592: Orientation for Mathematics Graduate Students II**

(0.5-0) Cr. 0.5. S.

Spring semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

**MATH 595: Special Topics**

Cr. arr. Repeatable.

**MATH 599: Creative Component**

Cr. arr.

**Courses for graduate students:****MATH 601: Mathematical Logic**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 504*

Model theory of propositional and predicate logic, the Soundness Theorem, the Compactness Theorem, the Goedel-Henkin Completeness Theorem, the Incompleteness Theorem, computability theory. As time permits: modal and temporal logic, set theory (the continuum hypothesis). Emphasis on the relationship between 'provable' and 'true' and the relationship between 'computable' and 'definable'.

**MATH 603: Mathematical Logic II**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MATH 601*

Topics in model theory, computability theory, and set theory such as infinitary logic, non-standard models of arithmetic, ultraproducts, and independence results.

**MATH 605: Design Theory and Association Schemes**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MATH 504*

Combinatorial designs and algebraic codes. Construction methods including finite fields. Error-correcting codes. Adjacency matrices and algebraic combinatorics.

**MATH 608: Extremal Graph Theory**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MATH 567*

Study of extremal graph problems and methods. Topics include probabilistic methods, generalizations of Turan's theorem, Szemerédi's regularity lemma, random graph theory.

**MATH 610: Seminar**

Cr. arr.

**MATH 617: Category Theory**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: MATH 504*

Categories and functors and their applications.

**MATH 618: Representation Theory**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MATH 504*

Representations of algebraic structures. Content varies by semester.

**MATH 619: Commutative Algebra**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 505.*

Detailed study of commutative rings with applications to number theory and algebraic geometry, including prime ideals, Going Up and Going Down theorems, exact sequences, Ext and Tor, modules of fractions, primary decomposition, rings of integers, dimension theory.

**MATH 620: Lie Algebras and Their Representations**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: MATH 504; and MATH 507 or MATH 510*

Nilpotent and solvable Lie algebras. Root systems and the classification of finite-dimensional complex semi-simple Lie algebras. The universal enveloping algebra. Representation theory including Weyl's theorem, Verma modules, highest weight theory.

**MATH 624: Manifolds, Tensors and Differential Geometry**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MATH 501 or MATH 515*

Topics selected from: Geometry of curves and surfaces. Manifolds, coordinate systems. Tangent and cotangent vectors, vector fields. Tensors, differential forms, Riemannian metrics. Connections, covariant differentiation, curvature tensors. Applications to physics and engineering.

**MATH 631: Harmonic Analysis**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: MATH 515*

Fourier Series on an interval, approximate identities and summation, Gibb's phenomenon, Fourier transform on the line, uncertainty principle. Additional topics may include distributions, Hardy-Littlewood maximal function, boundedness of singular integral operators, arithmetic combinatorics, wavelet theory.

**MATH 633: Functional Analysis**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 515*

Fundamental theory of normed linear spaces and algebras, such as topology and continuity, duality and spectral theory, emphasizing aspects that provide a framework for the study of the spectrum of an operator, analytic function theory, and modern operator theory.

**MATH 641: Foundations of Probability Theory**

(Cross-listed with STAT). (3-0) Cr. 3. F.

*Prereq: MATH 414 or MATH 501 or equivalent course.*

Sequences and set theory; Lebesgue measure, measurable functions. Absolute continuity of functions, integrability and the fundamental theorem of Lebesgue integration. General measure spaces, probability measure, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces. Measurable transformations and random variables, induced measures and probability distributions. General integration and expectation,  $L_p$ -spaces and integral inequalities. Uniform integrability and absolute continuity of measures. Probability densities and the Radon-Nikodym theorem. Product spaces and Fubini-Tonelli theorems.

**MATH 642: Advanced Probability Theory**

(Cross-listed with STAT). (3-0) Cr. 3. S.

*Prereq: STAT 641, or STAT 543 and MATH 515*

Probability spaces and random variables. Kolmogorov's consistency theorem. Independence, Borel-Cantelli lemmas and Kolmogorov's 0 - 1 Law. Types and characterizations of convergence for random variables. Sums of independent random variables, empirical distributions, weak and strong laws of large numbers. Convergence in distribution and its formulations, tightness, characteristic functions, central limit theorems and Lindeberg-Feller conditions. Conditional probability and expectation, discrete parameter martingales.

**MATH 645: Advanced Stochastic Processes**

(Cross-listed with STAT). (3-0) Cr. 3. S.

Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications.

**MATH 646: Mathematical Modeling of Complex Physical Systems**

(Cross-listed with PHYS). (3-0) Cr. 3. S.

Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

**MATH 655: Partial Differential Equations I**

(3-0) Cr. 3. F.

*Prereq: MATH 515 or MATH 519*

Study of model problems of elliptic, parabolic and hyperbolic types, first order equations, conservation laws, transform methods, introduction to linear partial differential equations of arbitrary order, fundamental solutions.

**MATH 656: Partial Differential Equations II**

(3-0) Cr. 3. S.

*Prereq: MATH 655*

Sobolev spaces, general theory of second order linear elliptic, parabolic and hyperbolic partial differential equations, first order linear hyperbolic systems, variational methods, fixed point methods.

**MATH 666: Finite Element Methods**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: MATH 516 or MATH 520 or MATH 561 or MATH 656*

Weak and variational formulations of elliptic problems; weak derivatives and Sobolev spaces; Lax-Milgram theorem, Bramble-Hilbert lemma; examples of finite element spaces; polynomial approximation theory; error estimates for finite element methods; implementation issues; mixed finite element methods for Stokes problems; applications.

**MATH 667: Computational Methods for Hyperbolic Partial Differential Equations (PDE)**

Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MATH 561, MATH 562*

Mathematical theory of weak/entropy solutions of nonlinear hyperbolic conservation laws; shock speed and Riemann problems; numerical methods for scalar equations and systems including Euler equations; conservative methods; approximate Riemann solvers; total variation stability; DG method.

**MATH 680: Advanced Topics**

(3-0) Cr. 3. Repeatable.

**MATH 680A: Advanced Topics: Algebra**

(3-0) Cr. 3. Repeatable.

**MATH 680B: Advanced Topics: Analysis**

(3-0) Cr. 3. Repeatable.

**MATH 680C: Advanced Topics: Applied Mathematics**

(3-0) Cr. 3. Repeatable.

**MATH 680D: Advanced Topics: Combinatorics**

(3-0) Cr. 3. Repeatable.

**MATH 680E: Advanced Topics: Differential Equations**

(3-0) Cr. 3. Repeatable.

**MATH 680F: Advanced Topics: Linear Algebra**

(3-0) Cr. 3. Repeatable.

**MATH 680G: Advanced Topics: Logic and Foundations**

Cr. 3. Repeatable.

**MATH 680H: Advanced Topics: Number Theory**

(3-0) Cr. 3. Repeatable.

**MATH 680I: Advanced Topics: Numerical Analysis**

(3-0) Cr. 3. Repeatable.

**MATH 680J: Advanced Topics: Optimization**

(3-0) Cr. 3. Repeatable.

**MATH 680K: Advanced Topics: Probability**

(3-0) Cr. 3. Repeatable.

**MATH 680L: Advanced Topics: Topology**

(3-0) Cr. 3. Repeatable.

**MATH 699: Research**

Cr. arr. Repeatable.

## Mechanical Engineering (M E)

*Any experimental courses offered by M E can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

### **M E 160: Mechanical Engineering Problem Solving with Computer Applications**

(2-2) Cr. 3. F.S.

*Prereq: (MATH 143 or MATH 145); credit or concurrent enrollment in MATH 165; M E major*

Introduction to the field of Mechanical Engineering through problem-solving in a range of topics including statics, mechanics of materials and thermo-fluids. Techniques to professionally present and communicate solutions. Use of MATLAB computer programming to aid problem solving, including curve fitting and graphing. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count toward graduation.

### **M E 170: Engineering Graphics and Introductory Design**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in MATH 143 or MATH 145 or satisfactory scores on mathematics placement assessments*

Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports. Freehand and computer methods. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>.

**M E 190: Learning Communities**

(1-0) Cr. 1. Repeatable. F.S.

Enrollment in M E learning communities.

**M E 202: Mechanical Engineering - Professional Planning**

Cr. R. F.S.

*Prereq: Credit or concurrent enrollment in M E 231*

Preparation for a career in mechanical engineering; discussion of opportunities for leadership, undergraduate research, experiential learning.

**M E 220: Globalization and Sustainability**

(Cross-listed with ANTHR, ENV S, GLOBE, MAT E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**M E 231: Engineering Thermodynamics I**

(3-0) Cr. 3. F.S.SS.

*Prereq: CHEM 167; MATH 166; PHYS 231; PHYS 231L*

Fundamental concepts based on zeroth, first and second laws of thermodynamics. Properties and processes for ideal gases and solid-liquid-vapor phases of pure substances. Applications to vapor power cycles.

**M E 270: Introduction to Mechanical Engineering Design**

(1-6) Cr. 3. F.S.

*Prereq: M E 160 or (A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, ENGR 160, I E 148, or S E 185); M E 170; PHYS 231; PHYS 231L*

Overview of mechanical engineering design with applications to thermal and mechanical systems. Introduction to current design practices used in industry. Semester-long team project focused on addressing societal needs. Past projects include designing human powered charging systems and products for developing nations.

**M E 324: Manufacturing Engineering**

(3-0) Cr. 3. F.S.SS.

*Prereq: E M 324; MAT E 273; M E 270; M E 324L*

Fundamentals of manufacturing processes including forming, machining, casting and welding with emphasis on design considerations in manufacturing. Mechanical behavior of metallic materials. Modern manufacturing practices.

**M E 324L: Manufacturing Engineering Laboratory**

(0-2) Cr. 1. F.S.SS.

*Prereq: ENGL 250; MAT E 273; M E 270*

Laboratory exercises in metrology, mechanical testing (tensile/compression and hardness tests), computer aided design (CAD), machining operations, metal welding, metal casting, and bulk/sheet metal forming.

**M E 325: Mechanical Component Design**

(3-0) Cr. 3. F.S.SS.

*Prereq: E M 324; M E 170; STAT 305*

Philosophy of design and design methodology. Consideration of stresses and failure models useful for static and fatigue loading. Analysis, selection and synthesis of machine elements.

**M E 332: Engineering Thermodynamics II**

(3-0) Cr. 3. F.S.SS.

*Prereq: M E 231*

Gas power cycles. Fundamentals of gas mixtures, psychrometry, and thermochemistry. Applications to one-dimensional compressible flow, refrigeration, air conditioning and combustion processes.

**M E 335: Fluid Flow**

(3-2) Cr. 4. F.S.SS.

*Prereq: MATH 265; (MATH 266 or MATH 267); (credit or concurrent enrollment in M E 332); M E 345*

Incompressible and compressible fluid flow fundamentals. Dimensional analysis and similitude. Internal and external flow applications. Lab experiments emphasizing concepts in thermodynamics and fluid flow. Written reports are required.

**M E 345: Engineering Dynamics**

(3-0) Cr. 3. F.S.SS.

*Prereq: C E 274; credit or concurrent enrollment in (MATH 266 or MATH 267)*

Particle and rigid body kinematics, Newton's laws of motion, kinetics of plane motion, rigid body problems using work-energy, linear, and angular impulse-momentum principles, vibrations.

**M E 370: Engineering Measurements**

(2-3) Cr. 3. F.S.SS.

*Prereq: E E 442; STAT 305*

Fundamentals of design, selection, and operation of components of measuring systems. Measurement processes, data acquisition systems, analysis of data, and propagation of measurement uncertainty.

**M E 401: Human Centered Design, Pre-Departure Course.**

Cr. 1. Alt. S., offered irregularly.

*Prereq: Acceptance into Study Abroad Program.*

A pre-departure course for M E 402. Safety and health issues while on site; travel logistics; required travel documents and deadlines; cultural norms. Offered on a satisfactory-fail basis only.

**M E 402: Field Engineering: Human Centered Design Concepts.**

(1-4) Cr. 3. Alt. SS., offered irregularly.

*Prereq: M E 401*

Design methodology and field engineering principles for use in engineering problem solving in developing nations; application of principals will be on site. Awareness of culture, use of local artisans, crafts people and engineers will be emphasized for the purpose of ensuring sustainable and appropriate technology.

Meets International Perspectives Requirement.

**M E 410: Mechanical Engineering Applications of Mechatronics**

(2-2) Cr. 3. Alt. S., offered irregularly.

*Prereq: E E 442; E E 448; credit or concurrent enrollment in M E 421*

Fundamentals of sensor characterization, signal conditioning and motion control, coupled with concepts of embedded computer control. Digital and analog components used for interfacing with computer controlled systems. Mechanical system analysis combined with various control approaches. Focus on automation of hydraulic actuation processes. Laboratory experiences provide hands-on development of mechanical systems.

**M E 411: Automatic Controls**

(2-2) Cr. 3. F.

*Prereq: M E 370; credit or concurrent enrollment in M E 421*

Methods and principles of automatic control. Pneumatic, hydraulic, and electrical systems. Representative applications of automatic control systems. Mathematical analysis of control systems.

**M E 412: Ethical Responsibilities of a Practicing Engineer**

(3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in M E 325*

The study of ethics in engineering design and the engineering profession. A comprehensive look at when ethical decisions must be made and an approach to make them. The approach takes into account moral, legal, technical, experiential, and standards to aid in ethical decision making. Each area will be studied through lectures, debates, guest speakers, class discussion, and case studies.

**M E 413: Fluid Power Engineering**

(Cross-listed with A B E). (2-2) Cr. 3. F.

*Prereq:* Credit or concurrent enrollment in (A B E 378 or M E 335); (A B E 216 or M E 270)

Fundamental fluid power principles, symbols and schematics. Hydraulic fluid properties. Function and performance of components such as connections and fittings, filtration, pumps, valves, actuators, hydrostatic transmissions. Hydraulic system dynamics. Modeling and simulation of circuits. Analysis and design of hydraulic systems. Hydrostatic transmission design. Hands-on construction of circuits, measurement of system variables, and electrohydraulic control.

**M E 415: Mechanical Systems Design**

(0-6) Cr. 3. F.S.

*Prereq:* M E 324; M E 325

Mechanical Engineering Capstone Design course. Team approach to solving design problems involving mechanical systems. Teams will use current design practices they will encounter in industry. Document decisions concerning form and function, material specification, manufacturing methods, safety, cost, and conformance with codes and standards. Solution description includes oral and written reports. Projects often worked with industry sponsors.

**M E 416: Mechanism Design and Analysis**

Cr. 3. S.

*Prereq:* M E 325

An introduction to the design and analysis of mechanisms and the use of prescribed design methodologies to identify design requirements and achieve desired motion profiles. Topics include fundamental mechanism kinematics; graphical and analytical mechanism synthesis methods; velocity and acceleration analysis; and the design of linkages, cams and gear trains. Significant amount of team-based problem solving and the development of physical and computational models to assist in the design process.

**M E 417: Advanced Machine Design**

(Dual-listed with M E 517). (3-0) Cr. 3. F.

*Prereq:* M A T E 273; M E 325

Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit.

**M E 418: Mechanical Considerations in Robotics**

(Dual-listed with M E 518). (3-0) Cr. 3. S.

*Prereq:* Credit or concurrent enrollment in M E 421

Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots.

**M E 419: Computer-Aided Design**

(3-0) Cr. 3. F.S.

*Prereq:* M E 325

Theory and applications of computer-aided design. Computer graphics programming, solid modeling, assembly modeling, and finite element modeling. Mechanical simulation, process engineering, rapid prototyping and manufacturing integration.

**M E 421: System Dynamics and Control**

(3-2) Cr. 4. F.S.SS.

*Prereq:* E E 442; E E 448; MATH 267; M E 345

Modeling and simulation of mechanical, electrical, fluid, and/or thermal systems. Development of equations of motion and dynamic response characteristics in time and frequency domains. Fundamentals of classical control applications, including mathematical analysis and design for closed loop control systems. Introduction to computer interfacing for simulation, data acquisition, and control. Laboratory exercises for hands-on system investigation and control implementation.

**M E 425: Optimization Methods for Complex Designs**

(Dual-listed with M E 525). (3-0) Cr. 3. F.

*Prereq:* MATH 265; M E 160

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

**M E 427: Vehicle Dynamics and Suspension Design**

(3-0) Cr. 3. S.

*Prereq:* M E 345

Analysis and evaluation of the performance of cars, trucks and other surface vehicles. Computer simulation of ride, braking, and directional response. Considerations in the design and fabrication of suspension systems.

**M E 433: Alternative Energy**

(3-0) Cr. 3. F.

*Prereq: CHEM 167; PHYS 232; PHYS 232L*

Basic principles, performance, and cost analysis of alternative energy systems including biofuels, bioenergy, wind, solar, fuel cells, storage and other alternative energy systems. Performance analysis and operating principles of systems and components, and economic analysis for system design and operation will be taught. Emphasis is on alternative energy technologies needed to meet our future energy needs at various scales ranging from household to city to national levels.

**M E 436: Heat Transfer**

(3-2) Cr. 4. F.S.SS.

*Prereq: M E 335*

Heat transfer by conduction, convection, and radiation. Similarity concepts in heat, mass, and momentum transfer. Methods for determination of heat transfer coefficients. Combined modes of heat transfer. Heat exchangers. Lab experiments emphasizing concepts in thermodynamics and heat transfer. Written reports are required.

**M E 437: Introduction to Combustion Engineering**

(3-0) Cr. 3. S.

*Prereq: M E 332*

Introduction to the fundamentals of combustion and the analysis of combustion systems for gaseous, liquid, and solid fuels-including biomass fuels. Combustion fundamentals are applied to the analysis of engines; turbines, biomass cookstoves; suspension, fixed-bed, and fluidized-bed furnaces; and other combustion devices.

**M E 441: Fundamentals of Heating, Ventilating, and Air Conditioning**

(3-0) Cr. 3. F.

*Prereq: M E 332*

Space conditioning and moist air processes. Application of thermodynamics, heat transfer, and fluid flow principles to the analysis of heating, ventilating, and air conditioning components and systems. Performance and specification of components and systems.

**M E 442: Heating and Air Conditioning Design**

(1-5) Cr. 3. S.

*Prereq: (M E 441; credit or concurrent enrollment in M E 436) or Permission of Instructor*

Design criteria and assessment of building environment and energy requirements. Design of heating, ventilating, and air conditioning systems. System control and economic analysis. Oral and written reports required.

**M E 444: Elements and Performance of Power Plants**

(3-0) Cr. 3. S.

*Prereq: M E 332; credit or concurrent enrollment in M E 335*

Basic principles, thermodynamics, engineering analysis of power plant systems. Topics include existing power plant technologies, the advanced energyplex systems of the future, societal impacts of power production, and environmental and regulatory concerns.

**M E 448: Fluid Dynamics of Turbomachinery**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: AER E 311 or M E 335*

Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches.

**M E 449: Internal Combustion Engines**

(3-1) Cr. 3. F.

*Prereq: M E 332*

Basic principles, thermodynamics, combustion, and exhaust emissions of spark-ignition and compression-ignition engines. Laboratory determination of fuel properties and engine performance. Effects of engine components and operating conditions on performance. Written reports required.

**M E 451: Engineering Acoustics**

(Cross-listed with E E, E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: (MATH 266 or MATH 267); PHYS 231; PHYS 231L*

The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields.

**M E 456: Machine Vision**

(Dual-listed with M E 556). Cr. 3. Repeatable. Alt. F., offered odd-numbered years.

*Prereq: MATH 207 or MATH 317 or Permission of Instructor*

Practical imaging processing techniques, geometric optics, and mathematics behind machine vision, as well as the most advanced 3D vision techniques. Experience with practical vision system development and analysis. Assignments include individual bi-weekly homework; weekly readings and lectures; and a semester-long research project on design and experiment vision systems.

**M E 475: Modeling and Simulation**

(3-0) Cr. 3. S.

*Prereq: M E 421; credit or concurrent enrollment in M E 436*

Introduction to computer solution techniques required to simulate flow, thermal, and mechanical systems. Methods of solving ordinary and partial differential equations and systems of algebraic equations; interpolation, numerical integration; finite difference and finite element methods.

**M E 484: Technology, Globalization and Culture**

(Dual-listed with M E 584). (Cross-listed with MKT, WLC). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

**M E 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

**M E 490H: Independent Study: Honors**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

**M E 490N: Independent Study: Non Technical Elective**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

**M E 490T: Independent Study: Technical Elective**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

**Courses primarily for graduate students, open to qualified undergraduates:**

**M E 501: Fundamentals of Biorenewable Resources**

(3-0) Cr. 3. S.

*Prereq: Previous coursework in introductory physics and chemistry is recommended.*

Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biofuels and biobased products; production of biorenewable resources; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; technoeconomic analysis of production and processing; and biofuels policy.

**M E 502: Microfluidics and Nanofluidics: Theory, Design and Devices**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: M E 436 (Heat Transfer) or an undergraduate class on transport phenomena, or Instructor's permission*

Analysis of transport phenomena and its application to the field of microfluidics. Conservation equations of mass, momentum and energy are derived from first principles and applied to contemporary topics in microfluidics such as organs-on-a-chip, point-of-care and separation processes. The conservation equations are used to model hydrodynamics and random walk diffusion of multiphase microfluidic systems. Advanced microfluidic topics, such as interfacial transport involving capillary interactions, electrostatic forces, and chemical gradients are discussed into order to describe a variety of phenomena observed in microfluidic devices. Numerical models based on finite element modeling and molecular dynamic simulation techniques are discussed as one approach to designing microfluidic devices such as pumps, micromixers, actuators, and filters.

**M E 510: Economics and Policy of Engineered Energy Systems**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Senior classification or graduate standing*

Economics and policy for U.S. energy systems, with an emphasis on connections to engineering. Topics include: economic analysis of conventional energy commodity markets and technologies, deregulated electricity markets, and emerging energy technologies; demand forecasting; economic and environmental policy in energy; integrated assessment; and semester-specific contemporary issues. Economics majors may not apply this course towards graduation.

**M E 511: Advanced Control Design**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 411*

Application of control design methods using continuous, discrete, and frequency-based models. Approaches include classical, pole assignment, model reference, internal model, and adaptive control methods. Mechanical design projects.

**M E 517: Advanced Machine Design**

(Dual-listed with M E 417). (3-0) Cr. 3. S.

*Prereq: M A T E 273; M E 325*

Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit.

**M E 518: Mechanical Considerations in Robotics**

(Dual-listed with M E 418). (3-0) Cr. 3. S.

*Prereq: Credit or concurrent enrollment in M E 421*

Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots.

**M E 520: Material and Manufacturing Considerations in Design**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: M E 324, M E 325*

Integration of materials, design and manufacturing. Materials selection. Design for assembly and manufacturing (DFMA). Design and redesign to facilitate cost-effective manufacturing using material selection and DFMA software.

**M E 521: Mechanical Behavior and Manufacturing of Polymers and Composites**

(Cross-listed with M S E). (3-0) Cr. 3. S.

*Prereq: M E 324, E M 324*

Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts.

**M E 525: Optimization Methods for Complex Designs**

(Dual-listed with M E 425). (3-0) Cr. 3. F.

*Prereq: M A T H 265; M E 160*

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

**M E 527: Mechanics of Machining and Finishing Processes**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: M E 324*

Mechanics of material removal for ductile materials. Shear zone theory. Oblique cutting. Heat transfer in machining. Milling and grinding. Mechanics of material removal for brittle materials. Optimal selection and design of cutting parameters. Control of machining processes. Principles of precision finishing. Design considerations for machining and finishing processes.

**M E 528: Micro/Nanomanufacturing**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 324*

Concepts and applications of micro/nanotechnology appropriate to the manufacturing field. An overview of micro/nano-fabrication techniques including mechanical, EDM, laser and lithography. MEMS device fabrication. Scaling laws. Top down and bottom up approaches of nanomanufacturing. Experimental or theoretical project leading to potential submission of a manuscript for journal or conference.

**M E 530: Advanced Thermodynamics**

(3-0) Cr. 3. F.

*Prereq: M E 332*

Fundamentals of thermodynamics from the classical viewpoint with emphasis on the use of the first and second laws for analysis of thermal systems. Generalized thermodynamic relationships. Computer applications of thermodynamic properties and system analysis. Selected topics.

**M E 531: Advanced Energy Systems and Analysis**

Cr. 3. S.

*Prereq: M E 231 or M E 332 or graduate standing or instructor permission*

Introduction to energy systems including economic and thermodynamic principles. Various production systems will be analyzed. Application to transportation and building systems will be emphasized. Sustainability, climate change and other current energy system topics.

**M E 532: Compressible Fluid Flow**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: AER E 310, 311 or equivalent*

Thermodynamics of compressible flow. Viscous and inviscid compressible flow equations. One dimensional steady flow; isentropic flow, shocks, expansions. Multidimensional compressible flow aspects. Linear and nonlinear wave analysis and method of characteristics. Subsonic, transonic, supersonic and hypersonic flows.

**M E 534: Energetic Materials Combustion and Systems**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: M E 231; MATH 267; M E 335 or AER E 310 Recommend: M E 436; AER E 311; M E 437 or M E 542*

Introduction to energetic materials (classes of energetics, their use, safety, analysis of multiphase deflagration/detonation reaction wave structures), their application (e.g. pyrotechnics, chemical propulsion systems, explosives), system performance analysis, common measurement techniques, and societal/environmental implications.

**M E 535: Thermochemical Processing of Biomass**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 332 or graduate status*

Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

**M E 536: Advanced Heat Transfer**

(3-0) Cr. 3. S.

*Prereq: M E 436*

Advanced treatment of heat transmission by conduction, convection, and radiation.

**M E 538: Advanced Fluid Flow**

(3-0) Cr. 3. F.

*Prereq: Credit or enrollment in M E 436*

Detailed analysis of incompressible/compressible, viscous/inviscid, laminar/turbulent, and developing fluid flows on a particle/point control volume basis.

**M E 542: Advanced Combustion**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 332 or CH E 381*

Thermochemistry and transport theory applied to combustion. Gas phase equilibrium. Energy balances. Reaction kinetics. Flame temperatures, speed, ignition, and extinction. Premixed and diffusion flames. Combustion aerodynamics. Mechanisms of air pollution.

**M E 543: Introduction to Random Vibrations and Nonlinear Dynamics**

(Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation.

**M E 545: Thermal Systems Design**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: M E 436*

Integrating thermodynamics, fluid mechanics, and heat transfer to model thermal equipment and to simulate thermal systems. Second law and parametric analysis; cost estimation, life cycle analysis and optimization. Some computer programming required.

**M E 546: Computational Fluid Mechanics and Heat Transfer I**

(Cross-listed with AER E). (3-0) Cr. 3. F.

*Prereq: AER E 310 or M E 335, and programming experience*

Basic concepts of discretization, consistency, and stability. Explicit and implicit methods for ordinary differential equations. Methods for each type of partial differential equation. Iterative solution methods; curvilinear grids. Students will program basic algorithms.

**M E 547: Computational Fluid Mechanics and Heat Transfer II**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: AER E 546 or equivalent*

Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

**M E 548: Fundamentals of Laser and Optical Measurements in Thermofluid Systems**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* Undergraduate thermodynamics, undergraduate fluid dynamics, multivariable calculus, differential equations, electricity and magnetism

Fundamentals of lasers and optical techniques for application in measurements of thermo-fluid systems. Rigorous diffraction theory, theory of laser operation, and applications of theory to measurements using optics and lasers will be covered. The principles of measurement using linear scattering techniques (absorption, Rayleigh and Raman scattering) as well as nonlinear techniques (CARS and multiphoton absorption) will be discussed.

**M E 550: Advanced Biosensors: Fundamentals and Applications**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* Graduate status or Advanced undergraduates (junior or senior).  
*Recommend a basic background in engineering and one or more introductory biology courses.*

Extensive overview of biosensors including biological/biomedical microelectromechanical (Bio-MEMs) systems and bioanalytical devices with an introduction to fundamental principles, detection methods, and miniaturization techniques. Fundamental biosensor theory including biorecognition, transduction, signal acquisition, and post processing/ data analysis will be discussed. Distinct sensing modalities (e.g., electrochemical, optical, thermal and mass based), biorecognition agents (e.g., enzymes, antibodies, aptamers, whole cells/tissues, genetically engineered proteins) and advanced transduction materials (e.g., carbon nanotubes, graphene, quantum/carbon dots, and polymers/hydrogels) and their use in the context of specific applications (e.g., biomedical, environmental, food safety) will be reviewed in detail. Additionally, students will design a theoretical biosensor and present their design in a written proposal and oral presentation.

**M E 556: Machine Vision**

(Dual-listed with M E 456). Cr. 3. Repeatable. Alt. F., offered odd-numbered years.

*Prereq:* MATH 207 or MATH 317 or Permission of Instructor

Practical imaging processing techniques, geometric optics, and mathematics behind machine vision, as well as the most advanced 3D vision techniques. Experience with practical vision system development and analysis. Assignments include individual bi-weekly homework; weekly readings and lectures; and a semester-long research project on design and experiment vision systems.

**M E 557: Computer Graphics and Geometric Modeling**

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* M E 421 or instructor permission

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing.

**M E 561: Scanning Probe Microscopy**

(2-2) Cr. 3. Alt. F., offered irregularly.

*Prereq:* CHEM 167 (or equivalent), PHYS 231, PHYS 231L

Introduction to the scanning probe microscope (SPM, also known as atomic force microscope or AFM) and associated measurement techniques. Overview of instrumentation system, basic principles of operation, probe-sample interaction and various operational modes to obtain micro/nanoscale structure and force spectroscopy of material surfaces. Examples of SPM significance and applications in science and engineering research, nanotechnology and other industries. Laboratory work involving use of a scanning probe microscope system is an integral part of the course.

**M E 563: Micro and Nanoscale Mechanics**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* E M 324 and M E 325

Review of Fundamentals: (Elasticity, Electromagnetism, Mechanical response), Mechanics of thermally, electrostatically and magnetically actuated microsystems, Mechanics and design of nanostructured materials, mechanics of surface stress engineering and its implications to sensors and thin film structures.

**M E 564: Fracture and Fatigue**

(Cross-listed with AER E, E M, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.

*Undergraduates:* Permission of instructor

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

**M E 566: Phase Transformation in Elastic Materials**

(Cross-listed with E M). (3-0) Cr. 3. S.

*Prereq:* EM 510 or EM 516 or EM 514

Continuum thermodynamics and kinetics approaches to phase transformations. Phase field approach to stress- and temperature-induced martensitic transformations and twinning at the nanoscale. Nucleation and growth. Nanostructural evaluation. Analytical and numerical solutions. Surface stresses and energy. Surface-induced phase transformations. Large Strain formulation.

**M E 570: Solid Modeling and GPU Computing**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: M E 170 and M E 419, or Instructor Permission*

Theory and applications of solid modeling and introduction to parallel computing using the graphic processing unit (GPU). Topics include solid modeling fundamentals, representations of solid geometry, introduction to parallel programming using CUDA, and applications of GPU algorithms. Design and analysis software include SolidWorks and programming using either C or Python, and NVIDIA CUDA.

**M E 573: Random Signal Analysis and Kalman Filtering**

(Cross-listed with AER E, E E). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341*

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

**M E 574: Optimal Control**

(Cross-listed with AER E, E E). (3-0) Cr. 3. S.

*Prereq: E E 577*

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

**M E 575: Introduction to Robust Control**

(Cross-listed with AER E, E E). (3-0) Cr. 3.

*Prereq: E E 577*

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H<sub>2</sub>, H<sub>∞</sub>, and I<sub>1</sub> control problems. Tools for robustness analysis and synthesis.

**M E 576: Digital Feedback Control Systems**

(Cross-listed with AER E, E E). (3-0) Cr. 3. F.

*Prereq: E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267*

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

**M E 577: Linear Systems**

(Cross-listed with AER E, E E, MATH). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207*

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

**M E 578: Nonlinear Systems**

(Cross-listed with AER E, E E, MATH). (3-0) Cr. 3. S.

*Prereq: E E 577*

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

**M E 580: Virtual Environments, Virtual Worlds, and Application**

(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Senior or Graduate status.*

A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering.

**M E 584: Technology, Globalization and Culture**

(Dual-listed with M E 484). (Cross-listed with MKT, WLC). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

**M E 585: Fundamentals of Predictive Plant Phenomics**

(Cross-listed with BCB, GDCB). Cr. 4. F.

Principles of engineering, data analysis, and plant sciences and their interplay applied to predictive plant phenomics. Transport phenomena, sensor design, image analysis, graph models, network data analysis, fundamentals of genomics and phenomics. Multidisciplinary laboratory exercises.

**M E 590: Special Topics**

Cr. 1-8. Repeatable.

**M E 590Q: Special Topics: Independent Literature Investigation**

Cr. 1-8. Repeatable.

**M E 590T: Special Topics: Biological and Nanoscale Sciences**

Cr. 1-8. Repeatable.

**M E 590U: Special Topics: Complex Fluid Systems**

Cr. 1-8. Repeatable.

**M E 590V: Special Topics: Clean Energy Technologies**

Cr. 1-8. Repeatable.

**M E 590W: Special Topics: Design and Manufacturing Innovation**

Cr. 1-8. Repeatable.

**M E 590Z: Special Topics: Simulation and Visualization**

Cr. 1-8. Repeatable.

**M E 591: Probabilistic Engineering Analysis and Design**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Linear algebra or MATH 207; probability theory or STAT 231; or instructor permission*

Applications of probabilistic and statistical methods to engineering system design and post-design failure prognostics. Hands-on learning of various probabilistic and statistical design methods, such as design of experiments, surrogate modeling, uncertainty quantification, reliability-based design, and robust design. It also covers Bayesian estimation and machine learning methods for post-design failure prognostics.

**M E 592: Data Analytics and Machine Learning for Cyber-Physical Systems Applications**

Cr. 3. S.

*Prereq: Basics of linear algebra, probability theory and computer programming*

In this course, several data analytics techniques and Machine Learning algorithms will be explored with a strong focus on various applications to cyber-physical systems. The students will have hands-on experience with various analytics tools and data-driven decision-making techniques applied to a diverse set of spatial, temporal and spatiotemporal data emanating from real-life cyber-physical systems such as robots, energy & power systems, design & manufacturing systems, self-driving cars and agricultural systems. Among various machine learning techniques, special emphasis will be given on deep learning, reinforcement learning and probabilistic graphical models. A key highlight of this course is that the assignments and class projects will be designed for individual students or groups based on their specific applications or data sets of interest.

**M E 599: Creative Component**

Cr. arr. Repeatable.

**Courses for graduate students:**

**M E 600: Seminar**

Cr. R. Repeatable.

(1-0).

**M E 625: Surface Modeling**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: M E 557 or instructor permission*

Theory and implementation of contemporary parametric sculptured surface modeling technology. Non-uniform rational B-spline (NURBS) curves and surfaces. Fundamental computational algorithms. Construction techniques. Advanced modeling topics. Computer projects.

**M E 632: Multiphase Flow**

(Cross-listed with CH E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: M E 538*

Single particle, multiparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions.

**M E 637: Convection Heat Transfer**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: M E 436*

Convection heat transfer to internal or external flows under laminar or turbulent conditions. Dimensionless parameters. Classical solutions of Newtonian viscous flows. Forced and free convection. Special topics.

**M E 638: Radiation Heat Transfer**

(3-0) Cr. 3. Alt. F., offered irregularly.

*Prereq: M E 436*

Techniques for analysis of radiation in enclosures. Radiative properties of surfaces. Radiative transfer in participating media. Combined modes of transfer. Approximate methods of analysis.

**M E 647: Advanced Computational Fluid Dynamics**

(Cross-listed with AER E). (3-0) Cr. 3. S.

*Prereq: AER E 547*

An examination of current methods in computational fluid dynamics. Differencing strategies. Advanced solution algorithms for unstructured meshes. Grid generation. Construction of higher-order CFD algorithms. Parallel computing. Current applications. Use of state of the art CFD codes.

**M E 690: Advanced Topics**

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

**M E 690G: Advanced Topics: Advanced Machine Design**

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

**M E 690O: Advanced Topics: Engineering Computation**

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

**M E 690Q: Advanced Topics: Independent Literature Investigation**

Cr. arr. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

**M E 690T: Advanced Topics: Biological and Nanoscale Sciences**

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Biological and Nanoscale Sciences of special interest to graduate students in mechanical engineering.

**M E 690U: Advanced Topics: Complex Fluid Systems**

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Complex Fluid Systems of special interest to graduate students in mechanical engineering.

**M E 690V: Advanced Topics: Clean Energy Technologies**

Cr. arr. F.S.SS.

Investigation of Special Topics: Clean Energy Technologies of special interest to graduate students in mechanical engineering.

**M E 690W: Advanced Topics: Design and Manufacturing Innovation**

Cr. arr. Repeatable.

Investigation of Design & Manufacturing Innovation of special interest to graduate students in mechanical engineering.

**M E 690Z: Advanced Topics: Simulation and Visualization**

Cr. arr. Repeatable. F.S.SS.

Investigation of Special Topics: Simulation and Visualization of special interest to graduate students in mechanical engineering.

**M E 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with AGRON, BCB, E E, ENGR, GENET). (3-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.

*Prereq:* Graduate student status and completion of at least one semester of graduate coursework.

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**M E 697: Engineering Internship**

Cr. R. Repeatable.

*Prereq:* Permission of Director of Graduate Education, graduate classification One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**M E 699: Research**

Cr. arr. Repeatable.

Offered on a satisfactory-fail basis only.

## Meteorology (MTEOR)

***Any experimental courses offered by MTEOR can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**MTEOR 107: Severe and Hazardous Weather**

(2-0) Cr. 1. F.

Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

**MTEOR 111: Synoptic Applications**

(1-0) Cr. 1. Repeatable. F.

*Prereq:* Credit or concurrent enrollment in MATH 165

Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor.

**MTEOR 112: Geoscience Orientation**

(Cross-listed with GEOL). (1-0) Cr. 1. F.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members.

**MTEOR 113: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community**

(Cross-listed with GEOL). (1-0) Cr. 1. S.

Spring orientation course for students enrolled in the "Earth, Wind and Fire" Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips.

**MTEOR 140: Climate and Society**

(Cross-listed with AGRON, ENV S, GEOL). Cr. 3. F.S.

The climate system of our planet. How nature and our actions alter the existing energy balance leading to climate change. Past climates on our planet. The influence of climate on society and resource availability during the Holocene (~ 11,000 years ago to present) with focus on changes post industrial revolution. Significant climate events that have altered our way of life in the past. Projected changes in future climate and potential impacts on society, environment and resources. Adaption to and mitigation of climate change.

Meets International Perspectives Requirement.

**MTEOR 160: Water Resources of the World**

(Cross-listed with AGRON, ENV S, GEOL). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

**MTEOR 201: Introductory Seminar**

Cr. R. F.

*Prereq: Credit or concurrent enrollment in PHYS 231*

An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline.

**MTEOR 206: Introduction to Weather and Climate**

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

**MTEOR 227: Computational Meteorology I**

(3-1) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in MTEOR 206; Credit or concurrent enrollment in PHYS 231*

An introduction to computer programming using FORTRAN and Python with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

**MTEOR 265: Scientific Balloon Engineering and Operations**

(Cross-listed with AER E). (0-2) Cr. 1. F.

Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

**MTEOR 290: Independent Study**

Cr. 1-4. Repeatable.

*Prereq: Permission of Instructor*

Independent study for freshman and sophomore students.

**MTEOR 298: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of the Department Cooperative Education Coordinator*  
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

**MTEOR 301: General Meteorology**

(4-0) Cr. 4. S.

*Prereq: MATH 166; credit or concurrent enrollment in PHYS 232*

Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics.

**MTEOR 311: Introduction to Synoptic Meteorology**

(1-2) Cr. 2. F.

*Prereq: MTEOR 301*

Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products.

**MTEOR 321: Meteorology Internship**

Cr. 1-2. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: MTEOR 311; Permission of the Department Cooperative Education Coordinator*

Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

**MTEOR 324: Energy and the Environment**

(Cross-listed with ENSCI, ENV S, GEOL). (3-0) Cr. 3. S.

*Prereq: CHEM 163 or CHEM 167 or CHEM 177*

Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities.

**MTEOR 341: Atmospheric Physics I**

(3-0) Cr. 3. F.

*Prereq: (Credit or concurrent enrollment in MATH 266); MTEOR 301; PHYS 232*

Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, and hydrostatics.

**MTEOR 342: Atmospheric Physics II**

(3-0) Cr. 3. S.

*Prereq: MTEOR 341*

Cloud and precipitation physics, radar meteorology, and atmospheric radiation.

**MTEOR 360: Ocean-Atmosphere Interactions**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MTEOR 206*

The physical interactions between the atmosphere and ocean, and their influence on weather and climate; coupled modes of climate variability and their teleconnections; air-sea feedbacks in the tropics and mid-latitudes. Applied topics include seasonal prediction and climate data analysis.

**MTEOR 398: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of the Department Cooperative Education Coordinator*  
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

**MTEOR 399: Writing for Research**

(2-0) Cr. 2. S.

*Prereq: ENGL 250; SP CM 212; MTEOR 311; Junior classification; MTEOR major*

Principles of effective scientific writing and communication. Concepts covered are intended to be applied in MTEOR 499: Senior Research.

**MTEOR 402: Watershed Hydrology**

(Dual-listed with MTEOR 502). (Cross-listed with ENSCI, GEOL, NREM).

(2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**MTEOR 404: Global Change**

(Dual-listed with MTEOR 504). (Cross-listed with AGRON, ENSCI, ENV S).

(3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**MTEOR 405: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with MTEOR 505). (Cross-listed with AGRON, ENSCI). (3-0) Cr.

3. Alt. S., offered odd-numbered years.

*Prereq: MATH 160 or MATH 165*

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**MTEOR 406: World Climates**

(Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. S.

*Prereq: AGRON 206 or MTEOR 206*

Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

**MTEOR 407: Mesoscale Meteorology**

(Dual-listed with MTEOR 507). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* MATH 166; MTEOR 443

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

**MTEOR 411: Synoptic Meteorology**

(Dual-listed with MTEOR 511). (1-4) Cr. 3. F.

*Prereq:* MTEOR 311; MTEOR 454

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

**MTEOR 416: Hydrologic Modeling and Analysis**

(Dual-listed with MTEOR 516). (Cross-listed with ENSCI, GEOL). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

**MTEOR 417: Mesoscale Forecasting Laboratory**

(1-5) Cr. 3. S.

*Prereq:* Credit or concurrent enrollment in MTEOR 411

Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming.

**MTEOR 432: Instrumentation and Measurements**

(2-2) Cr. 3. S.

*Prereq:* (Credit or concurrent enrollment in MATH 266); PHYS 232

Principles of meteorological sensing and data analysis. Thermometry, barometry, hygrometry, anemometry, precipitation measurements, radiometry, radar, remote sensing, visibility, and cloud height. Calibration and measurement uncertainties. Digital signal processing. Field trip to the National Weather Service. Labs emphasize dataloggers and modern weather stations.

**MTEOR 435: Radar Applications in Meteorology**

(Dual-listed with MTEOR 535). (3-0) Cr. 3. S.

*Prereq:* Credit or concurrent enrollment in MTEOR 341

Fundamentals of radar meteorology with emphasis on applications. Topics presented include theory of radar, engineering principles, Doppler radar, polarimetric radar, and applications to remote sensing of clouds and precipitation.

**MTEOR 440: Tropical Meteorology**

(Dual-listed with MTEOR 540). Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* Credit or concurrent enrollment in MTEOR 341

Weather and climate of the tropical atmosphere. Weekly forecast discussions related to the development of tropical cyclones and teleconnection patterns between the tropics and higher latitudes. Topics covered include easterly waves, tropical cyclogenesis (i.e., hurricanes, typhoons, cyclones), equatorial waves, El Niño-Southern oscillation, Madden-Julian oscillation, and monsoons.

**MTEOR 443: Dynamic Meteorology I**

(3-0) Cr. 3. S.

*Prereq:* MTEOR 341

Conservation laws, governing equations, circulation and vorticity. Development of quasi-geostrophic theory.

**MTEOR 452: Climate Modeling**

(Dual-listed with MTEOR 552). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* MTEOR 301

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

**MTEOR 454: Dynamic Meteorology II**

(Dual-listed with MTEOR 554). (3-0) Cr. 3. S.

*Prereq:* MTEOR 443 or MTEOR 543

Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations.

**MTEOR 468: Applied Geostatistics for Geoscientists**

(Dual-listed with MTEOR 568). (Cross-listed with ENSCI, GEOL). Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)*

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

**MTEOR 489: Survey of Remote Sensing Technologies**

(Dual-listed with MTEOR 589). (Cross-listed with E E, ENSCI, GEOL, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**MTEOR 489L: Satellite Remote Sensing Laboratory**

(Dual-listed with MTEOR 589L). (Cross-listed with E E, GEOL, NREM). (0-3) Cr. 1. F.

*Prereq: 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589*

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context.

**MTEOR 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in Mteor 490 may be counted toward graduation.

**MTEOR 490A: Independent Study: Synoptic Meteorology**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490B: Independent Study: Dynamic Meteorology**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490C: Independent Study: Physical Meteorology**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490D: Independent Study: Instrumentation**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490E: Independent Study: Hydrology**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490F: Independent Study: Climate/Atmospheric Water Cycle**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 490G: Independent Study: Atmosphere/Ocean Interactions**

Cr. 1-3. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in MTEOR; Permission of Instructor*

No more than 9 credits in MTEOR 490 may be counted toward graduation.

**MTEOR 498: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of the Department Cooperative Education Coordinator;*

*Senior classification*

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**MTEOR 499: Senior Research**

(2-0) Cr. 2. F.

*Prereq: MTEOR 399*

Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

**Courses primarily for graduate students, open to qualified undergraduates:**

**MTEOR 502: Watershed Hydrology**

(Dual-listed with MTEOR 402). (Cross-listed with ENSCI, GEOL, NREM).

(2-3) Cr. 3. F.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.

**MTEOR 504: Global Change**

(Dual-listed with MTEOR 404). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**MTEOR 505: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with MTEOR 405). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* MATH 160 or MATH 165

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**MTEOR 507: Mesoscale Meteorology**

(Dual-listed with MTEOR 407). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* MATH 166; MTEOR 443

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

**MTEOR 511: Synoptic Meteorology**

(Dual-listed with MTEOR 411). (1-4) Cr. 3. F.

*Prereq:* MTEOR 311; MTEOR 454

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

**MTEOR 516: Hydrologic Modeling and Analysis**

(Dual-listed with MTEOR 516). (Cross-listed with ENSCI, ENSCI, GEOL, MTEOR). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

**MTEOR 518: Microwave Remote Sensing**

(Cross-listed with AGRON, E E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* Math 265

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

**MTEOR 535: Radar Applications in Meteorology**

(Dual-listed with MTEOR 435). (3-0) Cr. 3. S.

*Prereq:* Credit or concurrent enrollment in MTEOR 341

Fundamentals of radar meteorology with emphasis on applications. Topics presented include theory of radar, engineering principles, Doppler radar, polarimetric radar, and applications to remote sensing of clouds and precipitation.

**MTEOR 540: Tropical Meteorology**

(Dual-listed with MTEOR 440). Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* Credit or concurrent enrollment in MTEOR 341

Weather and climate of the tropical atmosphere. Weekly forecast discussions related to the development of tropical cyclones and teleconnection patterns between the tropics and higher latitudes. Topics covered include easterly waves, tropical cyclogenesis (i.e., hurricanes, typhoons, cyclones), equatorial waves, El Niño-Southern oscillation, Madden-Julian oscillation, and monsoons.

**MTEOR 542: Physical Meteorology**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* MTEOR 341, MTEOR 342, basic knowledge of dynamic meteorology, or consent of instructor

Basic dynamic equations, moist convection, interaction of convection with large-scale environment, parameterization of convection, and cloud-resolving models.

**MTEOR 552: Climate Modeling**

(Dual-listed with MTEOR 452). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* MTEOR 301

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

**MTEOR 554: Dynamic Meteorology II**

(Dual-listed with MTEOR 454). (3-0) Cr. 3. S.

*Prereq:* MTEOR 443 or MTEOR 543

Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations.

**MTEOR 568: Applied Geostatistics for Geoscientists**

(Dual-listed with MTEOR 468). (Cross-listed with ENSCI, GEOL). Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* C R P 351; C R P 452; GEOL 452; (NREM 345 or NREM 446)

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression).

**MTEOR 589: Survey of Remote Sensing Technologies**

(Dual-listed with MTEOR 489). (Cross-listed with E E, ENSCI, GEOL, NREM). (3-0) Cr. 3. F.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S.

**MTEOR 589L: Satellite Remote Sensing Laboratory**

(Dual-listed with MTEOR 489L). (Cross-listed with E E, GEOL, NREM). (0-3) Cr. 1. F.

*Prereq:* 489L: E E 489 or GEOL 489 or MTEOR 489 or NREM 489, 589L: E E 589 or GEOL 589 or MTEOR 589 or NREM 589

Processing and analysis of satellite sensor data (optical and radar).

Provides practical applications in an environmental context.

**MTEOR 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590A: Special Topics: Boundary-layer Meteorology**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590B: Special Topics: Tropical Meteorology**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590C: Special Topics: Mesoscale Meteorology**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590D: Special Topics: Global Climate Systems**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590E: Special Topics: Climate Modeling**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590F: Special Topics: Numerical Weather Prediction**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590G: Special Topics: Satellite Observations**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590H: Special Topics: Statistical Methods in Meteorology**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590I: Special Topics: Field Observations**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590J: Special Topics: Low Frequency Modes**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590K: Special Topics: Cloud Physics**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590L: Special Topics: Atmospheric Radiation**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590M: Special Topics: Hydrology**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 590N: Special Topics: Geophysical Fluid Dynamics**

Cr. 1-3. Repeatable.

*Prereq:* Permission of instructor

Topics of current interest.

**MTEOR 5900: Special Topics: Radar Meteorology**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Topics of current interest.

**MTEOR 595: Graduate Seminar**

(Cross-listed with GEOL). Cr. 1. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**MTEOR 595A: Graduate Seminar: Presentation Required**

(Cross-listed with GEOL). (1-0) Cr. 1. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**MTEOR 595B: Graduate Seminar: Attendance Only**

(Cross-listed with GEOL). Cr. R. Repeatable. F.S.

*Prereq: Senior or graduate classification*

Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

**Courses for graduate students:****MTEOR 605: Boundary-Layer Meteorology**

(Cross-listed with AGRON). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MTEOR 443 or equivalent-level course in engineering fluids*

Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

**MTEOR 699: Research**

Cr. arr. Repeatable.

## Microbiology (MICRO)

*Any experimental courses offered by MICRO can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****MICRO 101: Microbial World**

(3-0) Cr. 3. F.

Introduction to the importance of viruses, bacteria, fungi, archaea and parasites both to humans and to the biosphere. Topics include past and present microbial impact on humans and society, ecology and diversity of microbes, biotechnology and microbial impact on the biosphere. Recommended: High School Biology.

**MICRO 110: Professional and Educational Preparation in Microbiology**

(1-0) Cr. 1. F.

An introduction to curriculum and research opportunities in microbiology at Iowa State. Topics include: easing the transition to life as a university student, development of specific goals, strengthening interpersonal communication, professional portfolio creation and resume building. Offered on a satisfactory-fail basis only.

**MICRO 115: Phage Discovery Lab**

(0-4) Cr. 2. F.

An exploratory laboratory where students will purify phage from soil, visualize phage using electron microscopy and isolate genomic material for nucleic acid sequencing.

**MICRO 116: Phage Genome Annotation Lab**

(0-4) Cr. 2. S.

An experiential microbiology laboratory where students learn to annotate and submit a complete phage genome. MICRO 115 recommended.

**MICRO 201: Introduction to Microbiology**

(2-0) Cr. 2. F.S.

*Prereq: One BIOL course except BIOL 110, BIOL 111, BIOL 112, BIOL 173, BIOL 201, BIOL 307*

Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 201 for Micro 302 in advanced courses.

**MICRO 201L: Introductory Microbiology Laboratory**

(0-3) Cr. 1. F.S.

*Prereq: MICRO 201 or MICRO 302*

Basic microbiology laboratory techniques for non-microbiology majors. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.

**MICRO 265: Predicting the Next Epidemic: Living in a One Health World**

Cr. 2. F.S.

8 week course. "One Health" concept as a relatively new approach to disease control, sustainability, and the consequences of environmental disruption. Interconnectedness of human, animal, and environmental health. Importance of scientists communicating with the general public about One Health topics, such as habitat loss, agricultural practices, and the spread of antibiotic resistant organisms. Recommended: High School Biology or Environmental Science.

**MICRO 302: Biology of Microorganisms**

(3-0) Cr. 3. F.S.SS.

*Prereq: BIOL 211; BIOL 212; 3 credits of CHEM*

Basic cell biology, physiology, metabolism, genetics and ecology of microorganisms, with an emphasis on prokaryotes and viruses, as well as the roles of microorganisms in the environment, disease, agriculture, and industry.

**MICRO 302L: Microbiology Laboratory**

(0-3) Cr. 1. F.S.

*Prereq: MICRO 201 or MICRO 302*

Basic microbiology laboratory techniques for majors in microbiology, biological sciences and related fields. Credit for either Micro 201L or 302L, but not both, may be applied toward graduation.

**MICRO 310: Medical Microbiology**

(3-0) Cr. 3. F.

*Prereq: MICRO 302 or (MICRO 201 minimum B grade)*

Study of infection by bacterial and viral pathogenic agents of humans with an overview of immune responses in controlling disease.

**MICRO 310L: Medical Microbiology Laboratory**

(0-3) Cr. 1. F.

*Prereq: (MICRO 201 or MICRO 302); (MICRO 201L or MICRO 302L); MICRO 310*

Microbiological tools and techniques to isolate, identify, and characterize medically significant microorganisms in relation to human diseases. Emphasis on the virulence factors of pathogenic organisms as compared to the normal flora.

**MICRO 320: Molecular and Cellular Bacteriology**

(4-0) Cr. 4. S.

*Prereq: BIOL 313; MICRO 302; CHEM 332*

A systems perspective of bacterial growth, survival, and cellular differentiation by integrating physiological and genetic principles. Emphasis is on prokaryotes although unicellular eukaryotes are also discussed. Topics include the structure, function, and assembly of cell components, molecular and genomic techniques, bioenergetics and metabolism, regulation of gene expression, genetic adaptation, stress tolerance, biofilms, and cell-cell interactions and communications.

**MICRO 353: Introductory Parasitology**

(Cross-listed with BIOL, V PTH). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

**MICRO 360: Global Health**

(Cross-listed with GLOBE, V MPM). (3-0) Cr. 3. F.

*Prereq: BIOL 211*

Explores human health across the world with particular emphasis on low- and lower-middle-income countries. Attention is given to the interconnectedness of health determinants, problems, and solutions found in global health, including the role of animals and the environment. Broad in scope, highlighting different cultures and the historical foundations of global health. Topics include colonialism, poverty, emerging diseases, climate change, biodiversity, one health, maternal and child health, HIV, malaria, urbanization, noncommunicable diseases and more. Current events will be a feature of all class meetings. Meets International Perspectives Requirement.

**MICRO 374: Insects and Our Health**

(Cross-listed with ENT). (3-0) Cr. 3. S.

*Prereq: 3 credits in BIOL*

Identification, biology, and significance of insects and arthropods that affect the health of humans and animals, particularly those that are vectors of disease. Meets International Perspectives Requirement.

**MICRO 374L: Insects and Our Health Laboratory**

(Cross-listed with ENT). (0-3) Cr. 1. Alt. S., offered even-numbered years.

*Prereq: Credit or concurrent enrollment in ENT 374 or MICRO 374*

Laboratory and field techniques for studying medical or public health entomology, including: collection, identification and maintenance of medically significant arthropods and experimental design and execution related to the biology of arthropods or arthropod-pathogen interactions.

**MICRO 402: Microbial Genetics and Genomics**

(Dual-listed with MICRO 502). (Cross-listed with GEN). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 313; MICRO 302*

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics.

**MICRO 407: Microbiological Safety of Foods of Animal Origins**

(Dual-listed with MICRO 507). (Cross-listed with FS HN). (3-0) Cr. 3. F.S.

*Prereq: MICRO 201 or MICRO 302*

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FS HN 420 or MICRO 420 and one semester of Microbiology Laboratory.

**MICRO 408: Virology**

(3-0) Cr. 3. F.

*Prereq: BBMB 301 or BIOL 313*

The molecular virology and epidemiology of human, animal, plant and insect viruses. BIOL 314 recommended.

**MICRO 419: Foodborne Hazards**

(Cross-listed with FS HN, TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MICRO 201 or MICRO 302; 3 credits in BBMB*

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards.

**MICRO 420: Food Microbiology**

(Cross-listed with FS HN, TOX). (3-0) Cr. 3. F.

*Prereq: MICRO 201 or MICRO 302*

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

**MICRO 421: Food Microbiology Laboratory**

(Cross-listed with FS HN). (1-5) Cr. 3. S.

*Prereq: MICRO 201 or MICRO 302; MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420*

Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction.

**MICRO 428: Principles of Epidemiology and Population Health**

(Cross-listed with V MPM, VDPAM). (3-0) Cr. 3. S.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

**MICRO 430: Prokaryotic Diversity and Ecology**

(Dual-listed with MICRO 530). (Cross-listed with BBMB). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MICRO 302; MICRO 302L*

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

**MICRO 440: Laboratory in Microbial Physiology, Diversity, and Genetics**

(2-6) Cr. 4. F.S.

*Prereq: BIOL 313L; CHEM 332; MICRO 302; MICRO 302L*

Fundamental techniques and theory for studying the cellular mechanisms, genetic processes and diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments as well as an emphasis on genetic and molecular techniques to understand antibiotic resistance processes and mechanisms. Also included are techniques for phylogenetic characterization, measuring gene expression, and genetic manipulation of bacteria. Essential components for the effective communication of scientific results are also emphasized.

**MICRO 450: Undergraduate Capstone Colloquium**

(2-0) Cr. 2. S.

*Prereq: SP CM 212; 20 credits in MICRO*

Required of all undergraduate majors in microbiology. Students demonstrate mastery of core courses in microbiology through discussion of current literature in microbiology and immunology, issues in scientific conduct, and bioethics in microbiology. Students present current papers in a journal club format and gain experience in writing and reviewing grant proposals. This course is a capstone course and should be taken within the last two semesters.

**MICRO 451: Survey in Microbiology**

Cr. R. F.

*Prereq: 12 credits in MICRO*

Preparations for graduation. Topics include job search strategies, career information, mock interviews, graduate and professional school application processes and guidelines as well as outcomes assessment activities.

**MICRO 456: Principles of Mycology**

(Cross-listed with BIOL). (2-3) Cr. 3. F.

*Prereq: 10 credits in BIOL or MICRO*

Morphology, diversity, and ecology of fungi; their relation to agriculture, industry, and human health.

**MICRO 475: Immunology**

(Dual-listed with MICRO 575). (3-0) Cr. 3. S.

*Prereq: MICRO 310*

An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 475 or V MPM 520, but not both, may be applied to graduation.

**MICRO 475L: Immunology Laboratory**

(2-4) Cr. 2. S.

*Prereq: MICRO 310 or MICRO 475 or MICRO 575*

Techniques in primary culture and tumor cell growth, measures of lymphocyte function, serological techniques and flow cytometry. Half semester course.

**MICRO 477: Bacterial-Plant Interactions**

(Dual-listed with MICRO 577). (Cross-listed with PL P). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: 3 credits in MICRO or PL P*
