Through a seminar format comprised of readings, guest lectures, collaborative case studies, peer interaction, and practical application, students will explore the rapidly growing and changing opportunities of sustainable, responsible, and impact investments.

**FFP 591: Practicum**

Cr. 3-6. F.S.SS.

Supervised experience in family financial planning.

**FFP 595: Financial Planning - Case Studies**

(3-0) Cr. 3. F.S.SS.

*Prereq: FFP 530, FFP 540, FFP 545, FFP 555, FFP 565, FFP 583*

Professional issues in financial planning, including ethical considerations, regulation and certification requirements, communication skills, and professional responsibility. Students are expected to utilize skills obtained in other courses and work experiences in the completion of personal finance case studies, the development of a targeted investment policy, and other related financial planning assignments.

## Financial Counseling and Planning

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

The **Financial Counseling and Planning** curriculum prepares students for careers in family financial services. Financial Counseling and Planning is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Coursework provides students with the family resource management and interpersonal skills needed to help families remain financially secure. Based on individual specific career goals, students may select courses that lead to fulfilling the education requirements

for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment in personal banking, financial services, insurance, financial counseling and planning, and human service organizations. Laboratory and practicum opportunities exist in the Iowa State University Financial Counseling Clinic and with industry partners. A field experience encourages students to apply their studies and to experience the profession in real-world settings.

## Student Learning Outcomes

Financial Counseling and Planning graduates are prepared to:

1. Help individuals and families make personal finance decisions using time value of money calculations.
2. Deliver professional, competent, and ethical financial counseling and planning services to clients.
3. Apply principles of client psychology within consumer and financial decision making.
4. Measure individual and family financial health and use these measures to create a comprehensive personal financial plan.
5. Attain the leading designations in financial counseling and planning. Upon graduation students have completed the educational requirements for the CERTIFIED FINANCIAL PLANNER™ and Accredited Financial Counselor® designations.

## Total credits required: 120

### Financial Counseling and Planning core (AFC & CFP exam ready): 39 credits

HD FS 102	Human Development	3
or PSYCH 230	Developmental Psychology	
HD FS 239	Consumer Issues	3
HD FS 270	Family Communications and Relationships	3
HD FS 283	Personal and Family Finance	3
HD FS 317G	Field Experiences: Family Finance Programs	1-6
HD FS 341	Income Tax Planning for Families	3
HD FS 378	Retirement Planning and Employee Benefits	3
HD FS 383	Fundamentals of Financial Planning	3
HD FS 384	Family Insurance Planning	3
or FIN 361	Personal Risk Management and Insurance	
HD FS 482	Family Savings and Investments	3
or FIN 320	Investments	
HD FS 484	Estate Planning for Families	3
HD FS 485	Capstone: Family Financial Planning	3
HD FS 489	Financial Counseling	2
HD FS 489L	Financial Counseling Laboratory	1
<b>Total Credits</b>		<b>37-42</b>

## Communications and Library: 13 credits

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Introduction to College Level Research	1
One of the following:		3
SP CM 212	Fundamentals of Public Speaking	
COMST 211	Interpersonal Communication	
COMST 218	Conflict Management	
One of the following:		3
AGEDS 327	Survey of Agriculture and Life Sciences Communication	
ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
<b>Total Credits</b>		<b>13</b>

## Natural Sciences and Mathematical Disciplines: 10 credits

ACCT 284	Financial Accounting	3
COM S 113	Introduction to Spreadsheets and Databases	3
or Computer Science course		3
STAT 101	Principles of Statistics	4
<b>Total Credits</b>		<b>13</b>

## Social Sciences: 9 credits

ECON 101	Principles of Microeconomics	3
SOC 134	Introduction to Sociology	3
or PSYCH 280	Social Psychology	
Social Science course from approved general education options		3
<b>Total Credits</b>		<b>9</b>

## Humanities: 6 credits

Humanities course from approved general education options		6
---	--	---

## HD FS orientation: 1 credit

HD FS 110	Freshman Learning Community Orientation	1
or HD FS 111	New Transfer Student Seminar	
<b>Total Credits</b>		<b>1</b>

## Electives: 42 credits as needed to equal 120 total credits

Recommended HD FS Electives (part of total electives).

HD FS 234	Adult Development	3
HD FS 249	Parenting and Family Diversity Issues	3
HD FS 360	Housing and Services for Families and Children	3

HD FS 369	Research Methods in Human Development and Family Studies	3
HD FS 377	Aging and the Family	3
HD FS 395	Children, Families, and Public Policy	3
HD FS 449	Program Evaluation and Proposal Writing	3
HD FS 479	Family Dynamics Through a Social and Cultural Lens	3
HD FS 491	Internship	4

Other recommended electives include courses from accounting, community and regional planning, economics, finance, gerontology, human development and family studies, journalism, management, marketing, political science, psychology, and sociology.

### Total credits: 120 credits

U.S. Diversity and International Perspectives Requirement: Students fulfill the U.S. Diversity and International Perspectives Requirement by choosing three credits of coursework from each of the university-approved lists.

## The courses listed in this section are approved general education course options for this major.

**Natural Sciences and Mathematics:** 9 credits total (3 credits from list below). Coursework designed to facilitate students' understanding of the structure and behavior of the natural world and appreciate mathematics as a valuable tool of the sciences and an intrinsically important way of thinking.

Computer Science (COM S)

Accounting (ACCT)

Mathematics (MATH)

Statistics (STAT)

**Social Sciences:** 9 credits. Coursework designed to help students develop an understanding of the principal methods of studying human behavior and an understanding of the structure and functioning of institutions.

ACCT 215	Legal Environment of Business	3
AESHM 421	Developing Global Leadership: Maximizing Human Potential	3
AF AM 330	Ethnic and Race Relations	3
A M D 165	Dress, Appearance, and Diversity in U.S. Society	3
A M D 362	Cultural Perspectives of Global Dress	3
A M D 467	Consumer Studies in Apparel and Fashion Products	3
AM IN 310	Contemporary Topics in American Indian Studies	3

AM IN 315	Archaeology of North America	3
AM IN 322	Peoples and Cultures of Native North America	3
Anthropology (ANTHR) - except 202		
Economics (ECON)		
FS HN 342	World Food Issues: Past and Present	3
INTST 235	Introduction to International Studies	3
LING 219	Introduction to Linguistics	3
LING 471	Language and Reading Development in Children	3

Political Science (POL S)

Psychology (PSYCH) - except 131

Sociology (SOC), including Criminal Justice (CJ ST)

WGS 201	Introduction to Women's and Gender Studies	3
WGS 203	Introduction to Lesbian Communities	3
WGS 301	International Perspectives on Women and Gender	3
WGS 320	Ecofeminism	3
WGS 327	Gender and Sexualities in Society	3
WGS 328	Sociology of Masculinities and Manhood	3
WGS 346	Psychology of Women	3
WGS 350	Women of Color in the U.S	3
WGS 385	Women in Politics	3

**Humanities:** 6 credits. Coursework designed to assist students to develop an understanding of human cultural heritage and history, and an appreciation of reasoning and the aesthetic value of human creativity.

AESHM 342	Aesthetics of Consumer Experience	3
AF AM 201	Introduction to African American Studies	3
AF AM 334	Africana Religions	3
AF AM 347	Studies in African American Literature	3
AF AM 353	History of African Americans I	3
AF AM 354	History of African Americans II	3
A M D 257	Museum Studies	3
A M D 354	Euro-American Dress History: Prehistoric to Mid-19th Century	3
A M D 356	Euro-American Dress History: Mid-19th Century to the Present	3
AM IN 210	Introduction to American Indian Studies	3
AM IN 240	Introduction to American Indian Literature	3
AM IN 346	American Indian Literature	3
ARCH 221	Histories and Theories of Architecture to 1750	3
ARCH 420	Topics in American Architecture	3
Art History (ART H)		
American Sign Language (ASL)		
Classical Studies (CL ST)		

DANCE 270	Dance Appreciation	3
DANCE 360	History and Philosophy of Dance	3
DSN S 183	Design in Context	3
ENGL 201	Introduction to Literature	3
ENGL 225	Survey of British Literature to 1800	3
ENGL 226	Survey of British Literature since 1800	3
ENGL 227	Survey of American Literature to 1865	3
ENGL 228	Survey of American Literature since 1865	3
ENGL 237	Survey of Film History	3
ENGL 240	Introduction to American Indian Literature	3
History (HIST)		
HSP M 260	Global Tourism Management	3
MUSIC 102	Introduction to Music Listening	3
MUSIC 302	Masterpieces of Music and Art in Western Culture.	3
MUSIC 304	History of American Rock 'n' Roll	3
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
Philosophy (PHIL)		
Religious Studies (RELIG)		
THTRE 106	Introduction to the Performing Arts	3
THTRE 110	Theatre and Society	3
THTRE 465	Theatre History: Ancient to 19th Century	3
THTRE 466	Theatre History: 19th Century to Present	3
WGS 201	Introduction to Women's and Gender Studies	3
WGS 336	Religion, Sex and Gender	3
WGS 338	Feminist Philosophy	3
WGS 345	Women and Literature: Selected Topics	3
WGS 370	Studies in English Translation	3
WGS 374	Sex, Gender, and Culture in the Ancient Mediterranean World	3

World Languages and Cultures (ARABC, CHIN, FRNCH, GER, GREEK, RUS, SPAN)

Students in Financial Counseling and Planning fulfill the US Diversity and International Perspectives Requirement by choosing three credits of coursework from each of the university-approved lists.

This sequence is only an example. The number of credits taken each semester should be based on the individual student's situation.

Factors that may affect credit hours per semester include student ability, employment, health, activities, and grade point consideration.

The **Financial Counseling and Planning** minor may be earned by completing 15 credits

HD FS 283	Personal and Family Finance	3
Twelve credits from the following:		12
HD FS 239	Consumer Issues	
HD FS 341	Income Tax Planning for Families	
HD FS 378	Retirement Planning and Employee Benefits	
HD FS 383	Fundamentals of Financial Planning	
HD FS 384	Family Insurance Planning	
HD FS 482	Family Savings and Investments	
HD FS 484	Estate Planning for Families	
HD FS 485	Capstone: Family Financial Planning	
HD FS 489	Financial Counseling	
HD FS 489L	Financial Counseling Laboratory	
<b>Total Credits</b>		<b>15</b>

## Graduate Programs

A Master's degree in Family and Consumer Sciences (MFCS) with a specialization in Family Financial Planning as well as a Family Financial Planning certificate are available. More information can be found at: <https://online.hs.iastate.edu/graduate-degrees/family-financial-planning/>.

## Food Science (H SCI)

Food science is a degree program focused on food issues from the time crops leave the field until consumers buy the food products. Food scientists apply basic science (chemistry, biology, physics) to improve processing, preservation, and safety of food and to develop new food products. The food science major is approved by the Institute of Food Technologists.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Communicate effectively in their field of study using written, oral, visual and/or electronic forms.
- Demonstrate proficiency in ethical data collection and interpretation, literature review and citation, critical thinking and problem solving.
- Participate effectively in a group or team.
- Integrate creativity, innovation, or entrepreneurship in ways that produce value.
- Describe sociocultural competence relative to diversity, equity and/or inclusion.
- Explain how human activities impact the natural environment and how societies are affected.
- Meet program specific learning outcomes for the Food Science major.

The department also offers a food science minor.

### **Administered by the Department of Food Science and Human Nutrition**

Courses listed below are required.

#### **Total Degree Requirement: 120 cr.**

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

#### **International Perspectives: 3 cr.**

#### **U.S. Diversity: 3 cr.**

#### **Communications and Library: 10 cr.**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Introduction to College Level Research	1
SP CM 212	Fundamentals of Public Speaking	3

**Total Credits 10**

#### **Humanities and Social Sciences: 6-12 cr.**

Select Humanities course from approved list		3
ECON 101	Principles of Microeconomics	3
If H Sci student, select:		6
Additional Humanities course		
Additional Humanities or Social Science course		

#### **Ethics: 3 cr.**

FS HN 342	World Food Issues: Past and Present	3
-----------	-------------------------------------	---

#### **Mathematical Sciences: 7-8 cr.**

Select 4 credits from:

MATH 160	Survey of Calculus	4
or MATH 165	Calculus I	

Select at least 3 credits from:

STAT 101	Principles of Statistics	3-4
or STAT 104	Introduction to Statistics	

**Total Credits 7-8**

#### **Physical Sciences: 17-19 cr.**

CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	5
CHEM 178	General Chemistry II	3
CHEM 231 & 231L	Elementary Organic Chemistry and Laboratory in Elementary Organic Chemistry	4-6
or CHEM 331 & CHEM 332	Organic Chemistry I and Organic Chemistry II	
PHYS 115 & 115L	Physics for the Life Sciences and Laboratory in Physics for the Life Sciences	5

or PHYS 131 & 131L	General Physics I and General Physics I Laboratory	
-----------------------	---	--

**Total Credits** **17-19**

**Biological Sciences: 10-11 cr.**

BBMB 301	Survey of Biochemistry	3
or BBMB 303	General Biochemistry	
or BBMB 316	Principles of Biochemistry	
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
MICRO 201	Introduction to Microbiology	2-3
or MICRO 302	Biology of Microorganisms	
MICRO 201L	Introductory Microbiology Laboratory	1
or MICRO 302L	Microbiology Laboratory	

**Total Credits** **10-11**

**Food Science and Human Nutrition: 49 cr.**

FS HN 101	Food and the Consumer	3
FS HN 110	Professional and Educational Preparation	1
FS HN 167	Introductory Human Nutrition and Health	3
FS HN 203	Contemporary Issues in Food Science and Human Nutrition	1
FS HN 207	Processing of Foods: Basic Principles and Applications	3
FS HN 305	Food Quality Management and Control	2
FS HN 311	Food Chemistry	3
FS HN 311L	Food Chemistry Laboratory	1
FS HN 314	Professional Development for Culinary Food Science and Food Science Majors	1
FS HN 315	Professional Skills for Culinary Food Science and Food Science Majors	1
FS HN 351	Introduction to Food Engineering Concepts	3
FS HN 403	Food Laws and Regulations	2
FS HN 406	Sensory Evaluation of Food	3
FS HN 407	Microbiological Safety of Foods of Animal Origins	3
FS HN 410	Food Analysis	3
FS HN 411	Food Ingredient Interactions and Formulations	2
FS HN 412	Food Product Development	3
FS HN 420	Food Microbiology	3
FS HN 421	Food Microbiology Laboratory	3
FS HN 471	Food Processing	3
FS HN 472	Food Processing Laboratory	2

**Total Credits** **49**

Select 5-6 credits from the following Professional Electives: **5-6**

A B E 325	Biorenewable Systems
ACCT 215	Legal Environment of Business
ACCT 284	Financial Accounting
ACCT 285	Managerial Accounting
AESHM 474	Entrepreneurship in Human Sciences

More information on the Food Science, Food Safety, and Food and Society minors can be found here: <http://catalog.iastate.edu/collegeofhumansciences/foodscienceandhumannutrition/#undergraduateminortext>.

The Department of Food Science and Human Nutrition offers a Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) in Food Science and Technology. More information can be found here: <https://www.grad-college.iastate.edu/academics/programs/apresults.php?id=50>.

## Food Science and Human Nutrition

The Department of Food Science and Human Nutrition is jointly administered by the College of Agriculture and Life Sciences and the College of Human Sciences. All curricula offered by the department are available to students in either college. These majors include:

- Culinary food science
- Dietetics
- Diet and exercise
- Food science
- Nutritional science
- Nursing

Visit the department web site at: [www.fshn.hs.iastate.edu](http://www.fshn.hs.iastate.edu) (<http://www.fshn.hs.iastate.edu>).

## Undergraduate Study

### Culinary Food Science

Culinary food science is an interdisciplinary degree combining a strong food science foundation with acquisition of culinary skills. The program includes chemistry, organic chemistry, biology, microbiology, and biochemistry as well as quantity food production, fine dining management, and food safety and sanitation. Internship experience in the food industry or culinary business is required. Culinary food science graduates are qualified to work as managers and specialists in food research, product development, culinary applications, and food marketing and sales. For more information: <https://fshn.hs.iastate.edu/find-your-major/culinary-food-science/>

### Dietetics

The Didactic Program in Dietetics (DPD) is accredited by the Accreditation Council for Education in Nutrition and Dietetics, the accrediting agency of the Academy of Nutrition and Dietetics. The dietetics undergraduate curriculum meets the academic requirements as the DPD. Additionally, the curriculum for concurrent Bachelor's and Master's degrees in diet and exercise meets the academic requirements of the DPD. Graduates of the program are eligible to apply for admission to accredited dietetics internships/supervised practice programs. Upon successful completion of the experience program and a master's degree, graduates are eligible to take the national examination administered by the Commission on Dietetic Registration to become a Registered Dietitian Nutritionist (RDN) and to practice in the field of dietetics. There is a \$30 fee for a statement of verification of completion of the DPD. For information about verification statements policies, see the dietetics program website: <https://fshn.hs.iastate.edu/find-your-major/dietetics/>.

The dietetics program includes study in basic sciences, nutrition, and food science with applications to medical dietetics, nutrition counseling and education, and community nutrition. Foodservice management is also an important aspect of the program. Graduates work in clinical settings, consulting, food companies, food services, sports or athletic programs, corporate wellness programs, care facilities for patients from neonatal to geriatric, and community or school health programs.

### Diet and Exercise

A program for concurrent Bachelor of Science and Master of Science (BS/MS) degrees in diet and exercise (<https://fshn.hs.iastate.edu/find-your-major/diet-and-exercise/>) is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), within the College of Agriculture and Life Sciences and College of Human Sciences, and the Department of Kinesiology within the College of Human Sciences. Students interested in this program enroll as pre-diet and exercise students. In the fall of the third year, students apply for admission to the BS/MS program. Students not accepted into the program can continue toward completion of the BS degree in dietetics or kinesiology and health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of BS/MS degrees in diet and exercise.

### Food Science

Food science is a discipline in which the principles of biological and physical sciences are used to study the nature of foods, the causes of their deterioration, and the principles underlying the processing and preparation of food. It is the application of science and technology to the provision of a safe, wholesome, and nutritious food supply. Biotechnology and toxicology interrelate with food science in the area of food safety. In the food industry, food scientists work in research and development of products or processes, production supervision, quality control, marketing and sales, test kitchens and recipe development, product promotion and communication. Food scientists also work in government regulatory agencies and academic institutions.

The food science major is approved by the Institute of Food Technologists, the national professional organization of food science. Career options include quality control/assurance; production supervision; management and sales; research careers in the food industry, government, or academia; business; journalism; food product formulation and recipe development; food promotion and communication; and consumer services in government and industry. For more information: <https://fshn.hs.iastate.edu/find-your-major/food-science/>

Students in food science have the opportunity to pursue a Master of Business Administration (<http://www.fshn.hs.iastate.edu/undergraduate-programs/food-science/>) (MBA) concurrently with the Bachelor of Science (BS) degree in food science. The program is designed so students can earn both the BS in food science and MBA in five years, to meet the needs of students who are interested in management careers in the food industry. Students apply for admission to the MBA program in the spring of the third year. The program for concurrent BS in food science/MBA degrees is a rigorous 5-year program, and admission is very selective.

## Nutritional Science

Nutritional science looks at the connection between diet and health. Students learn how diet can play a crucial role in the cause, treatment, and prevention of many diseases. There are degree program focuses within nutritional science. The pre-health and research coursework prepares students for work in research laboratories, graduate study in nutrition or biological sciences, or entrance into health professional programs, such as medical, dental, physician assistant, and pharmacy schools. Students gain a strong science education along with human nutrition expertise. The health coach and nutrition and wellness coursework prepares students for work positions in program planning and evaluation for community, public health, non-profit, and corporate wellness programs addressing the growing public interest in nutrition, wellness, and preventative health. Students learn about the role of nutrition and healthy eating for disease prevention and wellness. For more information: <https://fshn.hs.iastate.edu/find-your-major/nutritional-science/>

## Nursing

The Bachelor of Science in Nursing (BSN) program at Iowa State University is a RN-to-BSN program, designed for those who are already a Registered Nurse (RN), and desire to further their nursing career and education to the next level. Iowa State's RN-to-BSN program provides interactive learning opportunities where students can apply their real-world experiences and education to inspire innovation in their places of care. RN-to-BSN students will be challenged to enhance health promotion and disease prevention, apply nursing science and evidenced-based patient-centered care, focus on the culture of health for nurses, individuals, and communities, and demonstrate the continuum of care, from a nurse's self-care to patient care to community and population health.

The baccalaureate nursing program at Iowa State University of Science and Technology located in Ames, Iowa is approved by the:

### Iowa Board of Nursing (IBON)

Riverpoint Business Park  
400 SW 8th St., Suite B  
Des Moines, IA 50309  
(515) 281-3255

The baccalaureate nursing program at Iowa State University of Science and Technology located in Ames, Iowa is accredited by the:

### Accreditation Commission for Education in Nursing (ACEN)

3390 Peachtree Road NE, Suite 1400  
Atlanta, GA 30326  
(404) 975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the baccalaureate nursing program is initial accreditation.

View the public information disclosed by the ACEN regarding this program at <http://www.acenursing.com/accreditedprograms/programSearch.htm>

For more information and RN-to-BSN learning outcomes: <https://fshn.hs.iastate.edu/find-your-major/nursing/>

## FS HN Departmental Learning Outcomes

Upon graduation, students should be able to:

- Communicate effectively in their field of study using written, oral, visual and/or electronic forms.
- Demonstrate proficiency in ethical data collection and interpretation, literature review and citation, critical thinking and problem solving.
- Participate effectively in a group or team.
- Integrate creativity, innovation, or entrepreneurship in ways that produce value.
- Describe sociocultural competence relative to diversity, equity and/or inclusion.
- Explain how human activities impact the natural environment and how societies are affected.
- Meet program specific learning outcomes.

For more information: <https://fshn.hs.iastate.edu/staff-and-faculty/resources/outcomes-assessment/learning-outcomes/>.

Communication Proficiency is certified by a grade of C or better in 6 credits of coursework in composition (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition or other communication-intensive courses) and a grade of C or better in 3 credits of coursework in oral communication.

## Minors - Undergraduate

The department offers minors in:

- culinary food science
- food and society
- food safety (interdepartmental minor)
- food science
- nutrition

All minors require at least 15 credits, including at least 6 credits in courses numbered 300 or above taken at Iowa State University. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Prerequisites:** Students must complete prerequisite requirements for courses included in the minor.

Minor in Culinary Food Science

FS HN 101	Food and the Consumer	3
FS HN 115	Food Preparation Laboratory	1-2
or FS HN 215	Advanced Food Preparation Laboratory	
FS HN 214	Scientific Study of Food	3
Select additional credits from the following list for a minimum of 15 credits for the minor:		
FS HN 220	American Food and Culture	3
FS HN 305	Food Quality Management and Control	2
FS HN 311	Food Chemistry	4
& 311L	and Food Chemistry Laboratory	
FS HN 403	Food Laws and Regulations	2
FS HN 411	Food Ingredient Interactions and Formulations	2
FS HN 491D	Supervised Work Experience: Culinary Science	1-4
AN S 270	Foods of Animal Origin	3
& 270L	and Foods of Animal Origin Laboratory	
AN S 460	Science and Technology of Value Added Meat Products	3
HSP M 133	Food Safety Certification	1
HSP M 380	Food Production Management	6
& 380L	and Food Production Management Experience	
HSP M 383	Wine and Spirits in Hospitality Management	2
or FS HN 509	Sensory Evaluation of Wines	
HSP M 487	Fine Dining Management	3

Minor in Food and Society (16-17 credits required)

FS HN 101	Food and the Consumer	3
FS HN 167	Introductory Human Nutrition and Health	3
FS HN 242	The US Food System	3
FS HN 342	World Food Issues: Past and Present	3
FS HN 442	Issues in Food and Society	2
Select 2-3 additional credits from:		2-3
AGRON 450	Issues in Sustainable Agriculture	
FS HN 220	American Food and Culture	
FS HN 364	Nutrition and Prevention of Chronic Disease	
FS HN 365	Obesity and Health	
FS HN 403	Food Laws and Regulations	
FS HN 460	Global Nutrition and Health	
FS HN 463	Community Nutrition and Health	
FS HN 496A	Food Science and Human Nutrition Travel Course: International travel	

SOC 220 Globalization and Sustainability

SOC 345 Population and Society

SOC 348 Global Poverty, Resources and Sustainable Development

SOC 444 Sociology of Food and Agricultural Systems

Interdepartmental Minor in Food Safety

FS HN 101	Food and the Consumer	3
or HSP M 233	Hospitality Sanitation and Safety	
FS HN 403	Food Laws and Regulations	2
FS HN 420	Food Microbiology	3
FS HN 489	Issues in Food Safety	1

Select 3 credits from the Food Microbiology area

FS HN/MICRO Microbiological Safety of Foods of Animal Origins 407

FS HN/MICRO Food Microbiology Laboratory 421

MICRO 310 Medical Microbiology

Select 3 credits from the Food Processing area:

FS HN 207 Processing of Foods: Basic Principles and Applications

FS HN 305 Food Quality Management and Control

AN S 270 Foods of Animal Origin & 270L and Foods of Animal Origin Laboratory

AN S 360 Fresh Meat Science and Applied Muscle Biology

FS HN 471 Food Processing

FS HN 472 Food Processing Laboratory

Minor in Food Science:

FS HN 101	Food and the Consumer	3
FS HN 207	Processing of Foods: Basic Principles and Applications	3

Select 9 additional credits:

Food chemistry:

FS HN 311 Food Chemistry (lab optional: FS HN 311L) 3

FS HN 410 Food Analysis 3

FS HN 411 Food Ingredient Interactions and Formulations 2

Food microbiology:

FS HN 407 Microbiological Safety of Foods of Animal Origins 3

FS HN 419 Foodborne Hazards 3

FS HN 420 Food Microbiology 3

FS HN 421 Food Microbiology Laboratory 3

Food processing/engineering:

FS HN 351	Introduction to Food Engineering Concepts	3
FS HN 471	Food Processing	3
FS HN 472	Food Processing Laboratory	2

General food science:

FS HN 305	Food Quality Management and Control	2
FS HN 403	Food Laws and Regulations	2
FS HN 406	Sensory Evaluation of Food	3

Select additional credits from the following list to meet a minimum of 15 credits for the minor:

FS HN 314	Professional Development for Culinary Food Science and Food Science Majors	1
FS HN 315	Professional Skills for Culinary Food Science and Food Science Majors	1

**Minor in Nutrition:** For students from outside the FSHN department

FS HN 167	Introductory Human Nutrition and Health	3
FS HN 265	Nutrition for Active and Healthy Lifestyles	3
FS HN 360	Advanced Nutrition and the Regulation of Metabolism in Health and Disease	3

Select at least 6 credits from:

FS HN 361	Nutrition and Health Assessment	2
FS HN 362	Nutrition and Health Throughout the Lifecycle	3
FS HN 364	Nutrition and Prevention of Chronic Disease	3
FS HN 365	Obesity and Health	3
FS HN 463	Community Nutrition and Health	3
FS HN 467	Molecular Basis of Nutrition in Disease Etiology and Health Promotion	3
FS HN 492	Research Concepts in Human Nutrition	2
NUTRS 501	Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients	4

**Minor in Nutrition:** For students majoring in culinary food science or food science

FS HN 265	Nutrition for Active and Healthy Lifestyles	3
FS HN 360	Advanced Nutrition and the Regulation of Metabolism in Health and Disease	3

Select at least 9 credits from:

FS HN 361	Nutrition and Health Assessment	2
FS HN 362	Nutrition and Health Throughout the Lifecycle	3
FS HN 364	Nutrition and Prevention of Chronic Disease	3
FS HN 365	Obesity and Health	3
FS HN 463	Community Nutrition and Health	3
FS HN 467	Molecular Basis of Nutrition in Disease Etiology and Health Promotion	3

FS HN 492	Research Concepts in Human Nutrition	2
NUTRS 501	Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients	4

## Graduate Study

The Food Science and Human Nutrition (FSHN) Department offers coursework for the degrees master of science and doctor of philosophy with majors in food science and technology and in nutritional sciences, and minors in food science and technology and in nutrition. Graduate work in meat science is offered as a co-major in animal science and food science and technology.

Prerequisite to major work is a baccalaureate degree in food science, nutrition, or other physical or biological sciences or engineering that is substantially equivalent to those at Iowa State University.

Students taking major work for the degree doctor of philosophy either in food science and technology or in nutritional sciences may choose minors from other fields including anthropology, biorenewable resources and technology, chemistry, biochemistry, economics, education, journalism, microbiology, psychology, physiology, statistics, toxicology, or other related fields.

The Food Science and Technology (FST) graduate program offers MS and PhD degrees in the general areas of Food Chemistry and Functionality, Food Safety and Microbiology, and Food Processing. The FST core curriculum and interdisciplinary faculty team provides holistic graduate student training. Individuals with an undergraduate or graduate degree from a variety of academic training backgrounds, such as food sciences and the various disciplines of biology, chemistry, and agricultural sciences, may enter the FST program.

The interdepartmental graduate program in nutritional sciences, administered through the Graduate College, under the auspices of the Chairs of FSHN and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. Graduate students will be able to select from three specializations: animal nutrition, human nutrition, or molecular/biochemical nutrition. The three main departments are FSHN, Animal Science, and Kinesiology, whereas other departments (such as; Biochemistry, Biophysics, and Molecular Biology; Agronomy; and Statistics) may also be involved. (See Nutritional Sciences interdepartmental graduate major).

The Master of Professional Practice in Dietetics program is an online, course-work only, 12-month long, integrated graduate program that combines didactic coursework and on-site supervised experiential learning to train future Registered Dietitian Nutritionists. In addition to the required didactic coursework, students complete a minimum of 1000 hours of supervised experiential learning to meet the eligibility

requirements to take the national credentialing exam for Registered Dietitian Nutritionists. Prerequisite for the program is graduation from a Didactic Program in Dietetics.

The department also offers an online 12-13 credit Graduate Certificate in Food Safety and Defense, in conjunction with the University of Nebraska, Lincoln, Kansas State University and the University of Missouri through the Great Plains Interactive Distance Education Alliance. Course topics include food microbiology, food defense, food toxicology, HACCP, and additional topics related to food safety. Students may be admitted if qualified for admission to the food science master's degree program.

The department offers work for concurrent B.S. and M.S. degree programs that allow students to obtain both the B.S. and M.S. degrees in 5 years. The programs are available to students majoring in nutritional science or pre-diet and exercise, and students progress toward M.S. degrees in nutritional sciences or diet and exercise, respectively. Students interested in these programs should contact the department for details. Application for admission to the Graduate College should be made during the junior year. Students begin research for the M.S. thesis or creative component during the summer after their junior year and are eligible for research assistantships.

Students graduating with advanced degrees in nutritional sciences and in food science and technology will demonstrate competency in their chosen discipline. Measurable outcomes will include the ability to:

- Apply scientific thinking to the analysis, synthesis and evaluation of knowledge within the discipline of food science, nutritional sciences, or dietetics
- Apply ethical reasoning within the discipline of food science, nutritional sciences or dietetics
- Effectively communicate discipline-specific information in written and oral forms to scientific audiences
- Effectively interact within scientific teams
- Facilitate learning within FSHN courses

## Minors - Graduate

The department offers coursework for graduate minors in:

- food science/technology (<https://fshn.hs.iastate.edu/graduate-students/graduate-programs/food-science-and-technology/>)
- nutritional sciences (<https://fshn.hs.iastate.edu/graduate-students/graduate-programs/interdepartmental-graduate-program-in-nutritional-sciences/>)

Food Science and Technology Graduate Minor students must complete the following:

- 9 to 12 credits. Students without a background in food chemistry, food engineering/processing, and/or food microbiology are required

to take FS HN 511 and two 600-level courses in two different competency areas.

- 9 credits of graduate level food science coursework as approved by the POS committee.
- Maximum of 3 credits at the 400 level.

Nutritional Sciences Graduate Minor students must complete the following:

- 9 to 12 credits are required. Students who have not taken FS HN 360 or its equivalent (advanced nutrition with a biochemistry prerequisite) will need to take FS HN 360, in which case the Nutrition Graduate minor will constitute 12 credits.
- 9 credits of graduate level nutrition courses as approved by the POS Committee.
- NUTRS 501

## Certificate - Undergraduate

Health Coach (<https://kin.hs.iastate.edu/current-students/academics/health-coach-certificate/>)

The undergraduate health coach certificate provides a rigorous academic and theoretical background in three components of health (nutrition, exercise and motivational coaching) required to prepare workers for the challenges of being a health coach.

## Certificates - Graduate

Food Safety and Defense (<http://www.fshn.hs.iastate.edu/graduate-program/food-safety-defense/>)

The department offers an online 12-13 credit Graduate Certificate in Food Safety and Defense, in conjunction with the University of Nebraska, Lincoln, Kansas State University and the University of Missouri through the Great Plains Interactive Distance Education Alliance. Students may be admitted if qualified for admission to the food science master's degree program .

### Courses primarily for undergraduates:

#### FS HN 101: Food and the Consumer

(3-0) Cr. 3. F.S.SS.

The food system from point of harvest to the consumption of the food by the consumer. Properties of food constituents. Protection of food against deterioration and microbial contamination. Introduction of foods into the marketplace. Processes for making various foods. Government regulations. Use of food additives. Current and controversial topics. High school biology and chemistry or 3 credits of college level biology and chemistry recommended.

**FS HN 102: Nutrition for Sport Performance**

(1-0) Cr. 1. F.S.

A scientific evaluation of dietary needs, dietary supplementation, and pop-culture claims relative to physical/sport performance. Discussion of safe and effective practices to enhance physical/sport performance.

**FS HN 104: Introduction to Professional Skills in Culinary Science**

(0-6) Cr. 1. S.

*Prereq: Major or minor in CUFS A or CUFS H*

Introduction to culinary science. Students will develop fundamental culinary skills by arranged on-campus work experience (100 hours). Sessions with instructor arranged.

**FS HN 110: Professional and Educational Preparation**

(1-0) Cr. 1. F.S.

Introduction to professional and educational development within the food science and human nutrition disciplines. Focus is on university and career acclimation as well as enhancement of communication skills. Offered on a satisfactory-fail basis only.

**FS HN 111: Fundamentals of Food Preparation**

(2-0) Cr. 2. S.

*Prereq: (FS HN 101 or FS HN 167); concurrent enrollment in FS HN 115*

Principles involved in preparation of food products of standard quality. Influence of composition and techniques on properties of food products.

**FS HN 115: Food Preparation Laboratory**

(0-3) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in FS HN 111 or FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety.

**FS HN 120: The Biochemistry of Beer**

(Cross-listed with BBMB). (2-0) Cr. 2. F.

An introduction to the major classes of biomolecules, basic biochemical concepts, enzymology, metabolism and genetic engineering as they apply to the production and flavor of beer. All aspects of the biochemistry of beer will be covered, including the malting of barley, starch conversion, yeast fermentation and the chemical changes that occur during the aging of beer. Intended for non-majors. Natural science majors are limited to elective credit only.

**FS HN 120L: Biochemistry of Beer Laboratory**

(Cross-listed with BBMB). Cr. 1.

*Prereq: Credit or concurrent enrollment in BBMB 120*

An introduction to biochemical methods related to the production of beer. Laboratory exercises related to water chemistry, mash enzymology, hop compound extraction and analysis, and yeast biology will be performed. Closely follows the material being taught in BBMB 120. Natural science majors are limited to elective credit only.

**FS HN 167: Introductory Human Nutrition and Health**

(3-0) Cr. 3. F.S.SS.

Understanding and implementing present day knowledge of nutrition. The role of nutrition in the health and well being of the individual and family. High school biology or 3 credits of biology recommended.

**FS HN 203: Contemporary Issues in Food Science and Human Nutrition**

(1-0) Cr. 1. F.S.

Introduction to presentation of published research and discussion of current issues in food science and human nutrition. Emphasis on sources of credible information, ethics, and communication.

**FS HN 207: Processing of Foods: Basic Principles and Applications**

(2-3) Cr. 3. S.

*Prereq: FS HN 101*

Lecture and lab-based instruction on principles of food processing and packaging. Food product-based discussion and activities will highlight raw food materials; unit operations; food quality and safety; processing plant sanitation; food forming and extrusion; fermentation; properties and selection of packaging materials.

**FS HN 214: Scientific Study of Food**

(3-0) Cr. 3. F.S.

*Prereq: (FS HN 167 or FS HN 265); (CHEM 231 or CHEM 331); concurrent enrollment in FS HN 115 or FS HN 215*

Composition and structure of foods. Principles of preparation of standard quality food products. Behavior and interactions of food constituents.

**FS HN 215: Advanced Food Preparation Laboratory**

(0-6) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in FS HN 214*

Practice standard methods of food preparation with emphasis on quality, nutrient retention, and safety. Development of culinary skills and advanced food preparation.

**FS HN 220: American Food and Culture**

(3-0) Cr. 3. F.S.

American cuisine reflects the history of the U.S. It is the unique blend of diverse groups of people from around the world, including indigenous Native American Indians, Africans, Asians, Europeans, Pacific Islanders, and South Americans. Explore factors that impact the American Cuisine of today including diverse ethnic and cultural group influences, historical events related to food diversity in the U.S., and agriculture and industrial impacts on food production. Practical knowledge and basic food preparation techniques related to the U.S. food system and trends. Class sessions will include lectures, class discussions and Tasting Immersion activities.

**FS HN 241: Introduction to Manufacturing Processes for Plastics**

(Cross-listed with TSM). (1-2) Cr. 2. F.S.

*Prereq: MATH 145*

A study of selected materials and related processes used in plastics manufacturing. Lecture and laboratory activities focus on materials, properties, and processes.

**FS HN 242: The US Food System**

(3-0) Cr. 3. S.

*Prereq: FS HN 101 or FS HN 167*

Exploration of the components of our food system including production, processing, and access. A systems approach is used to evaluate the social, environmental, and nutrition/health implications of the US food system. Controversial topics related to how food is produced, processed, marketed and consumed will be discussed.

**FS HN 264: Fundamentals of Nutritional Biochemistry**

(3-0) Cr. 3. F.

*Prereq: FS HN 167; CHEM 163, CHEM 163L; 3 credits in BIOL*

Digestion, absorption, metabolism, and biochemical functions of nutrients. Biochemical aspects of nutrient deficiencies.

**FS HN 265: Nutrition for Active and Healthy Lifestyles**

(3-0) Cr. 3. S.SS.

*Prereq: FS HN 167; (FS HN 264 or 3 credits in BBMB)*

Fundamentals of nutrient metabolism and nutrient requirements. Role of macronutrient metabolism in physical performance and disease prevention. Effect of manipulation of macronutrient metabolism on physical performance and disease prevention. Applications of nutrient metabolism principles to dietary recommendations and planning.

**FS HN 276: Understanding Grape and Wine Science**

(Cross-listed with HORT). (2-2) Cr. 3. S.

A scientific introduction to viticulture (grape-growing) and enology (wine-making) and grape and wine chemistry. Topics include grape biology and cultivars, vineyard management, geography of wine, wine production, wine classification, grape and wine chemistry, wine sensory. No wine tasting.

**FS HN 301: Nutrigenomics: From Basic Science to Translational Impact**

(2-0) Cr. 1. F.

Introduction to the concepts of nutrigenomics and nutrigenetics and how it affects consumers of food, as well as the implications for human diseases. The potential impact of personalized nutrition and full genome sequencing on health maintenance, chronic disease prevention, and the ethical implications of this knowledge will be explored.

**FS HN 305: Food Quality Management and Control**

(2-0) Cr. 2. S.

*Prereq: 3 credits in STAT*

Fundamentals of statistical decision-making processes and quality control procedures used in food quality assurance programs.

**FS HN 311: Food Chemistry**

(3-0) Cr. 3. F.SS.

*Prereq: BBMB 300 or higher; (CHEM 231 or CHEM 331); ENGL 250*

The structure, properties, and chemistry of food constituents and animal and plant commodities.

**FS HN 311L: Food Chemistry Laboratory**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in FSHN 311.*

The laboratory practices of structure, properties, and chemistry of food constituents.

**FS HN 314: Professional Development for Culinary Food Science and Food Science Majors**

(1-0) Cr. 1. F.

*Prereq: Major or minor in Culinary Food Science or Food Science; Junior or senior classification.*

Introduction to the roles culinary scientists and food scientists hold within industry. Discussions focused on professional and educational development and emerging issues and trends in the food industry.

**FS HN 315: Professional Skills for Culinary Food Science and Food Science Majors**

(1-0) Cr. 1. F.

*Prereq: Major or minor in FS HN*

Focus on the importance of professional skills and application of those skills to potential job situations. Professional skills include communication, team building, leadership vs. management styles, business ethics, and continual learning. Junior classification recommended.

**FS HN 340: Foundations of Dietetic Practice**

(2-0) Cr. 2. F.

*Prereq: Major in Dietetics (A or H) or Pre-Diet and Exercise; Junior classification*

Introduction to the profession of dietetics and responsibilities associated with dietetic professional practice. Emphasis on exploring career options in dietetics and preparation for supervised practice and graduate school. Leadership and professional career development for the dietitian is addressed through self reflection and creation of materials for post-baccalaureate programs. Professional issues related to dietetic practice include Code of Ethics, legal credentialing and standards of professional practice, leadership and future trends in the profession.

**FS HN 342: World Food Issues: Past and Present**

(Cross-listed with AGRON, ENV S). (3-0) Cr. 3. F.S.SS.

*Prereq: Junior classification*

Issues associated with global agricultural and food systems including ethical, social, economic, environmental, and policy contexts.

Investigation of various causes and consequences of overnutrition/undernutrition, global health, poverty, hunger, access, and distribution.

Meets International Perspectives Requirement.

**FS HN 351: Introduction to Food Engineering Concepts**

(3-0) Cr. 3. S.

*Prereq: (FS HN 207; [MATH 160 or MATH 165]; [PHYS 131 or PHYS 231]) or**Permission of Instructor*

Methodology for solving problems in food processing and introduction to food engineering concepts including food properties, material and energy balances, sources of energy, thermodynamics, fluid flow, heat transfer, and mass transfer. Credit for only FS HN 351 or CH E 357 may be applied toward graduation for the Food Science major or Food Science minor

**FS HN 360: Advanced Nutrition and the Regulation of Metabolism in Health and Disease**

(3-0) Cr. 3. F.

*Prereq: ENGL 250; FS HN 265*

Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and the regulation of metabolism; nutrient-gene interactions; mechanistic role of nutrients in health and disease. 3 credits or concurrent enrollment in 300-level or above Biochemistry recommended. 3 credits in physiology recommended.

**FS HN 361: Nutrition and Health Assessment**

(1-3) Cr. 2. S.

*Prereq: FS HN 265*

The assessment of nutritional status in healthy individuals. Laboratory experiences in food composition and assessment of dietary intake, body composition, and biochemical indices of nutritional status.

**FS HN 362: Nutrition and Health Throughout the Lifecycle**

(3-0) Cr. 3. S.

*Prereq: FS HN 360; credit or concurrent enrollment in BIOL 256 or BIOL 335*

Molecular, biochemical and physiological basis to understand the nutritional aspects of human development and aging. Nutrient needs and various disease states at each stage of human life cycle.

**FS HN 364: Nutrition and Prevention of Chronic Disease**

(3-0) Cr. 3. F.

*Prereq: (BIOL 256; BIOL 256L) or enrolled in NRS major*

Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

**FS HN 365: Obesity and Health**

(3-0) Cr. 3. S.

Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.

**FS HN 366: Communicating Nutrition Messages**

(3-0) Cr. 3. S.

*Prereq: FS HN 264 or FS HN 265*

Theory and application of adult learning and behavior change as it relates to the role of nutrition in health promotion and disease prevention. Discussion of nutrition education and interventions relative to various models. Focus on communication strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach.

**FS HN 367: Medical Terminology for Health Professionals**

(1-0) Cr. 1. F.S.SS.

An independent course focused on medical terminology, abbreviations, and simple clinical mathematical calculations.

**FS HN 392: Food and Nutrition Services Management**

Cr. 3. S.

*Prereq: HSP M 380; HSP M 380L*

Functions and responsibilities related to the management of foodservice systems and nutrition services, including planning, marketing, human resource management, and cost accounting. Only one of HSP M 392 or FS HN 392 may count toward graduation.

**FS HN 403: Food Laws and Regulations**

(2-0) Cr. 2. S.SS.

*Prereq: 3 credits in FS HN at 200-level or above*

History of food law in the US and the world. Relationship between policy, legislation and regulation. Introduction to primary US regulatory agencies and enforcement principles. Discussion of key laws related to food safety and nutrition. Overview of federal and independent research tools and sources of food law.

**FS HN 406: Sensory Evaluation of Food**

(Dual-listed with FS HN 506). (2-3) Cr. 3. F.

*Prereq: FS HN 305; FS HN 411; 3 credits in STAT*

Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.

**FS HN 407: Microbiological Safety of Foods of Animal Origins**

(Dual-listed with FS HN 507). (Cross-listed with MICRO). (3-0) Cr. 3. F.S.

*Prereq: MICRO 201 or MICRO 302*

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FS HN 420 or MICRO 420 and one semester of Microbiology Laboratory.

**FS HN 408: Dairy Products Evaluation**

(0-3) Cr. 1. S.

Gain experience in identifying quality defects in dairy products including milk, cottage cheese, cheddar cheese, strawberry yogurt, butter, and vanilla ice cream. Intensive training for the National Collegiate Dairy Products Evaluation competition and for dairy product evaluation in the food industry.

**FS HN 410: Food Analysis**

(2-3) Cr. 3. F.

*Prereq: FS HN 311 or CHEM 211*

An introduction to the theory and application of chemical and instrumental methods for determining the constituents of food. Use of standard procedures for food analysis and food composition data bases.

**FS HN 411: Food Ingredient Interactions and Formulations**

(1-3) Cr. 2. F.S.

*Prereq: (FS HN 214 or FS HN 311); 3 credits in STAT*

Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking.

**FS HN 412: Food Product Development**

(Dual-listed with FS HN 512). (1-6) Cr. 3. S.

*Prereq: FS HN 411; Senior classification*

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.

**FS HN 419: Foodborne Hazards**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MICRO 201 or MICRO 302; 3 credits in BBMB*

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards.

**FS HN 420: Food Microbiology**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. F.

*Prereq: MICRO 201 or MICRO 302*

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

**FS HN 421: Food Microbiology Laboratory**

(Cross-listed with MICRO). (1-5) Cr. 3. S.

*Prereq: MICRO 201 or MICRO 302; MICRO 201L or MICRO 302L. Credit or enrollment in FS HN/MICRO 420*

Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction.

**FS HN 430: U.S. Health Systems and Policy**

(Dual-listed with FS HN 530). (2-0) Cr. 2. F.S.

*Prereq: Junior or Senior or Graduate classification*

Introduction to public policy for health care professionals. Emphasis on understanding the role of the practitioner for participating in the policy process, interpreting government policies and programs such as Medicare and Medicaid, determining reimbursement rates for eligible services, and understanding licensure and accreditation issues. Discussion and exploration of federal, state and professional policy-relevant resources.

**FS HN 435: Analysis of Food Markets**

(Cross-listed with ECON). Cr. 3. S.

*Prereq: ECON 235; ECON 301; STAT 226*

Food market analysis from an economics perspective; food markets and consumption; methods of economic analysis; food industry structure and organization; food and agriculture regulations; labeling; consumer concerns; agricultural commodity promotion. Final project required.

**FS HN 442: Issues in Food and Society**

(2-0) Cr. 2. F.

*Prereq: Sophomore classification*

In-depth discussion, synthesis, and analysis of domestic and global food issues from a systems approach. Mutually reinforcing interactions between culture, biology, and environmental influences on human dietary habits, nutrition and health will be emphasized. Historical and current foodways of cultural groups will be presented with specific attention to understanding cultural differences. Students will demonstrate how to locate, interpret, evaluate and use professional literature to inform about current food and society issues.

**FS HN 445: Strategies for Personal Food Waste Reduction**

(1-0) Cr. 1. S.

*Prereq: Junior classification*

In-depth analysis and discussion of economic, environmental, social, and ethical implications of food waste. Overview of personal food waste reduction strategies, food recycling/recovery, and responsible waste disposal methods. Discussion and application of advocacy tactics for the promotion of food waste reduction in local communities.

**FS HN 460: Global Nutrition and Health**

(Dual-listed with FS HN 560). (3-0) Cr. 3. S.

An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations.

Meets International Perspectives Requirement.

**FS HN 461: Medical Nutrition and Disease I**

(Dual-listed with NUTRS 561). (4-0) Cr. 4. F.

*Prereq: (BIOL 256 or BIOL 335); FS HN 360; FS HN 361; FS HN 367*

Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and improve health.

**FS HN 463: Community Nutrition and Health**

(3-0) Cr. 3. F.

*Prereq: FS HN 361*

Dual-listed with NUTRS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level.

**FS HN 464: Medical Nutrition and Disease II**

(4-0) Cr. 4. S.

*Prereq: FS HN 461*

(Dual-listed with NUTRS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and promote health.

**FS HN 466: Nutrition Counseling and Education Methods**

(Dual-listed with FS HN 566). (2-2) Cr. 3. F.S.

*Prereq: FS HN 361 and FS HN 362*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**FS HN 467: Molecular Basis of Nutrition in Disease Etiology and Health Promotion**

(3-0) Cr. 3. S.

*Prereq: 3 credits of BBMB 200 or above or Permission of Instructor*

Understanding the molecular basis for the role of nutrients, nutrient-derivatives, and bioactive compounds in the development, prevention, and treatment of common diseases including diabetes, cancer, vascular disease, obesity, neurological disease, aberrant mineral metabolism, and autoimmune disease. Translating this understanding into practical approaches for improving the health of individuals and populations. Credit for FS HN 360 suggested.

**FS HN 471: Food Processing**

(3-0) Cr. 3. F.

*Prereq: A B E 451 or CH E 357 or FS HN 351*

Principles and application of food processing using both thermal (ex., blanching, pasteurization, canning, drying, freezing, evaporation, aseptic processing, extrusion) and non-thermal (ex., high pressure, irradiation, pulsed electric field, fermentation) unit operations. Emphasis on microbial inactivation, process heat and mass balance, and numerical problem solving.

**FS HN 472: Food Processing Laboratory**

(1-3) Cr. 2. S.

*Prereq: FS HN 471*

Hands-on and demonstration laboratory activities related to food processing principles and applications using lab and pilot-scale equipment. Laboratory experiences include important food processing operations, e.g., blanching/pasteurization, canning, freezing, drying, corn wet milling, fermentation, baking etc. Emphasis on mass balance, interpreting data, writing reports, and presentations. Occasional field trips.

**FS HN 489: Issues in Food Safety**

(Cross-listed with AN S, HSP M, VDPAM). (1-0) Cr. 1. S.

*Prereq:* Credit or concurrent enrollment in (FS HN 101 or FS HN 272 or HSP M 233); FS HN 403; (FS HN 419 or FS HN 420)

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

**FS HN 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490A: Independent Study: Dietetics**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490B: Independent Study: Food Science**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490C: Independent Study: Nutrition**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490D: Independent Study: International Experience**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490E: Independent Study: Entrepreneurship**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 490H: Independent Study: Honors**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Permission of Instructor

Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.

**FS HN 491: Supervised Work Experience**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* Permission of Instructor; Permission of Advisor

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491A: Supervised Work Experience: Dietetics**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* Permission of Instructor; Permission of Advisor

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491B: Supervised Work Experience: Food Science**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* Permission of Instructor; Permission of Advisor

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491C: Supervised Work Experience: Nutrition**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* Permission of Instructor; Permission of Advisor

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 491D: Supervised Work Experience: Culinary Science**

Cr. 1-4. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq:* Permission of Instructor; Permission of Advisor

Supervised off-campus work experience relevant to the academic major.

Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.

**FS HN 492: Research Concepts in Human Nutrition**

(1-3) Cr. 2. F.

*Prereq:* (FS HN 360; Senior classification) or Permission of Instructor

Students will develop and implement research projects with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses and write a formal science paper to share the results of their research. Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

**FS HN 493: Food Preparation Workshop**

(1-3) Cr. 1-3.

Selected topics in food preparation including scientific principles, culture and culinary techniques. Variable format may include laboratory, recitation, and lecture. Offered on a satisfactory-fail basis only.

**FS HN 495: Practicum**

(1-3) Cr. 2. F.S.

*Prereq: FS HN 366; FS HN 463; Senior classification; major in Nutritional Science-Nutrition and wellness option*

Students will develop, implement and assess a community-based project that engages groups in learning and practicing concepts related to nutrition and wellness. Assessed service learning component. Offered on a satisfactory-fail basis only.

**FS HN 496: Food Science and Human Nutrition Travel Course**

(Dual-listed with FS HN 596). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

(One credit per week traveled and 1 credit for pre-departure class, if offered.) Limited enrollment. Tour and study of food industry, culinary science, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

**FS HN 496A: Food Science and Human Nutrition Travel Course: International travel**

(Dual-listed with FS HN 596A). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students. Meets International Perspectives Requirement.

**FS HN 496B: Food Science and Human Nutrition Travel Course: Domestic travel**

(Dual-listed with FS HN 596B). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.

**FS HN 498: Cooperative Education**

Cr. R. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Permission of Department Chair*

Required for students completing professional work periods in a cooperative education program. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only.

**FS HN 499: Undergraduate Research**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**FS HN 506: Sensory Evaluation of Food**

(Dual-listed with FS HN 406). (2-3) Cr. 3. F.

*Prereq: FS HN 305; FS HN 411; 3 credits in STAT*

Sensory evaluation techniques used to evaluate the appearance, aroma, flavor, texture and acceptability of foods. Relationships between sensory and instrumental measurements of color and texture. Work independently and cooperatively (in a team) to identify sensory evaluation objectives, write hypotheses, design and conduct experiments, and analyze and interpret data.

**FS HN 507: Microbiological Safety of Foods of Animal Origins**

(Dual-listed with FS HN 407). (Cross-listed with MICRO). (3-0) Cr. 3. F.S.

*Prereq: MICRO 201 or MICRO 302*

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FS HN 420 or MICRO 420 and one semester of Microbiology Laboratory.

**FS HN 508: Consumer Perceptions and Nutrition Communication**

(2-0) Cr. 2. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Examination of current consumer food and nutrition trends. Critical analysis of consumer perceptions relative to current research base. Use of various media to create effective nutrition messages for consumers. Activities designed to meet accreditation standards.

**FS HN 509: Sensory Evaluation of Wines**

Cr. 2. S.

*Prereq: Must be at least 21 years of age; senior or graduate status.*

Principles of sensory evaluation and their application to wine evaluation. Sensory testing methods such as discrimination tests, ranking, descriptive analysis and scoring of wines will be covered. Students will have the opportunity to evaluate and learn about major types and styles of wines of the world. Lab fee.

**FS HN 511: Integrated Food Science**

(3-0) Cr. 3. F.

*Prereq: 3 credits in each of organic chemistry, physics, mathematics, and microbiology.*

Critical review of the key principles of food science and applications in the chemistry, microbiology, and processing of food. Understanding of the impact of processing on the quality of foods with respect to composition, quality and safety.

**FS HN 512: Food Product Development**

(Dual-listed with FS HN 412). (1-6) Cr. 3. S.

*Prereq: FS HN 411; Senior classification*

Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, quality, sensory and processing. Some pilot plant experiences. Emphasis on teamwork and effective communication.

**FS HN 516: Advanced Nutrition I**

(2-0) Cr. 2. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Examination of current literature relative to molecular, cellular, and physiologic aspects of macronutrient and micronutrient metabolism. Integration of current evidence-based information, including peer-reviewed literature, to inform nutrition practice. Activities designed to meet accreditation standards.

**FS HN 517: Gut Microbiome: Implications for Health and Diseases**

(Cross-listed with AN S, MICRO, V MPM). Cr. 3. F.

*Prereq: 2-3 credits in microbiology and/or immunology.*

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health.

**FS HN 518: Advanced Nutrition II**

(3-0) Cr. 3. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Principles of research design/methods and interpreting results/statistics in the current peer-reviewed scientific literature. Critical evaluation of the evidence-base to inform nutrition practice. Activities designed to meet accreditation standards.

**FS HN 521: Microbiology of Food**

(2-0) Cr. 2. S.SS.

*Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Identification, enumeration, and characterization of bacteria, yeasts, and mold associated with foods and food processing. Effects of physical and chemical agents on micro-organisms will be studied. Microbiological problems in food spoilage, food preservation, food fermentation, and food-borne disease will be discussed.

**FS HN 522: Advanced Food Microbiology and Biotechnology**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Food microbiology, a course in biochemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. Introduction to recombinant DNA techniques and how they are applied to genetically modify microorganisms, the use of nucleic acids as tools of rapid detection of microorganisms in foods, basic enzyme immobilization and down-stream processing techniques, and regulatory aspects of food biotechnology.

**FS HN 523: A Multidisciplinary Overview of Food Safety and Security**

(2-0) Cr. 2. FSS.

*Prereq: A course in biology or chemistry; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Multidisciplinary food safety and security perspectives provided by numerous subject matter experts. Topics include food safety policy, ag bioterrorism, border security, animal ID, food defense and site security, risk analysis, crisis communication, epidemiology, HACCP, and more.

**FS HN 524: Food Microbiology**

(3-0) Cr. 3. F.

*Prereq: A course in microbiology with laboratory; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Food Microbiology looks at the nature, physiology, and interactions of microorganisms in foods. The course is an introduction to food-borne diseases, the effect of food processing systems on the microflora of foods, principles of food preservation, food spoilage, and foods produced by microorganisms. Additionally, the course looks at food plant sanitation and criteria for establishing microbial standards for food products.

**FS HN 525: Principles of HACCP**

(2-0) Cr. 2. F.

*Prereq: Undergraduate biology and chemistry courses; enrollment in GP-IDEA Food Safety and Defense Certificate or permission of instructor.*

A comprehensive study of the Hazard Analysis and Critical Control Point System and its application in the food industry.

**FS HN 526: Ethnic Foods: Food Safety, Food Protection and Defense**

(2-0) Cr. 2. SS.

*Prereq: Graduate standing; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Understanding of the various factors that impact safety of ethnic and imported ethnic foods; knowledge about the handling, preparation, processing and storage of ethnic and imported foods and food products; science-based characterization of representative ethnic foods.

**FS HN 527: Microbiology of Fermented Foods**

(2-0) Cr. 2. SS.

*Prereq: Food microbiology; enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

Microbiology of fermented foods covers the physiology, biochemistry, and genetics of microorganisms important in food fermentations. The course looks at how microorganisms are used in fermentations and the effects of processing and manufacturing conditions on production of fermented foods.

**FS HN 528: Food Protection and Defense-Essential Concepts**

(2-0) Cr. 2. S.

*Prereq: Enrollment in GP-IDEA Food Safety and Defense Graduate Certificate or permission of instructor.*

This course will provide students with an understanding of the principles required in a food defense program for a food manufacturing, warehousing or distribution center. The topics covered include: defining threats and aggressors; the Bioterrorism Act; food defense teams; vulnerability assessments; security programs; recall and traceability basics; security inspections; crisis management; emergency preparedness; and workplace violence.

**FS HN 530: U.S. Health Systems and Policy**

(Dual-listed with FS HN 430). (2-0) Cr. 2. F.S.

*Prereq: Junior or Senior or Graduate classification*

Introduction to public policy for health care professionals. Emphasis on understanding the role of the practitioner for participating in the policy process, interpreting government policies and programs such as Medicare and Medicaid, determining reimbursement rates for eligible services, and understanding licensure and accreditation issues. Discussion and exploration of federal, state and professional policy-relevant resources.

**FS HN 533: Diet and Integrative Therapies for Prevention and Treatment of Diseases**

(2-0) Cr. 2. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Explore the role of specific nutrients, dietary bioactive compounds and integrative therapies on disease prevention and treatment. Activities designed to meet accreditation standards.

**FS HN 537: Leadership and Management in Dietetics**

(3-0) Cr. 3. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program*

Application of leadership and management theories and approaches relevant to dietetics practice. Use of self-reflection and self-assessment to assist in recognition and development of leadership behaviors. Activities designed to meet accreditation standards.

**FS HN 538: Advanced Medical Nutrition Therapy**

(3-0) Cr. 3. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Nutritional biochemistry and physiology related to selected pathophysiology of disease with emphasis on treatment of complex medical problems and current issues. The nutrition care process will be utilized. Evidenced-based practice will be integrated into each disease state covered to optimize nutritional status and promote health. Activities designed to meet accreditation standards.

**FS HN 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**FS HN 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**FS HN 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**FS HN 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**FS HN 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**FS HN 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**FS HN 542F: Introduction to Molecular Biology Techniques:****Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**FS HN 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**FS HN 544: Pediatric Clinical Nutrition**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examines the physiological, biochemical and nutritional aspects of disease processes relevant to infants and children up to 18 years of age. Discussion of medical nutrition therapy for a variety of medical conditions in this population including inborn errors of metabolism, food hypersensitivity, obesity, and diseases of the major organ systems.

**FS HN 554: Supervised Experience in Food Systems Management**

(0-22) Cr. 3. SS.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in food service and management. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 555: Supervised Experience in Community Nutrition**

(0-18) Cr. 3. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in community nutrition. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 556: Supervised Experience in Medical Nutrition Therapy**

(0-22) Cr. 5. S.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Supervised experiential learning in medical nutrition therapy. Capstone project. Experiences and activities designed to meet accreditation standards.

**FS HN 560: Global Nutrition and Health**

(Dual-listed with FS HN 460). (3-0) Cr. 3. S.

An overview of global nutrition issues, including the sociocultural, biological, economic, and environmental context of nutrition related topics. The etiology, epidemiology, and program/policy responses to issues will be presented. Areas to be covered include childhood malnutrition, growth stunting, micronutrient deficiencies, parasites and nutrition, sanitation, and obesity and chronic disease incidence in developing countries. Participatory course, students will engage in a series of class activities, discussions, and presentations. Meets International Perspectives Requirement.

**FS HN 562: Advanced Nutrition Assessment**

(4-0) Cr. 4. F.

*Prereq: Acceptance in the Master of Professional Practice in Dietetics program.*

Overview and practical applications of methods for assessing nutritional status, including: theoretical framework of nutritional health and disease, dietary intake, biochemical indices, nutrition focused physical exam and body composition across the lifecycle. Activities designed to meet accreditation standards.

**FS HN 566: Nutrition Counseling and Education Methods**

(Dual-listed with FS HN 466). (2-2) Cr. 3. F.S.

*Prereq: FS HN 361 and FS HN 362*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**FS HN 575: Processed Foods**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: FS HN 214 or FS HN 311; a course in nutrition*

This course will examine effect of industrial and domestic food processing on the nutrient content of food and risk of developing chronic disease.

**FS HN 580: Orientation to Food Science and Nutrition Research**

(1-0) Cr. 1. F.

Orientation to and discussion of research interests in food science and nutrition. Discussion of policy and ethical issues in the conduct of research. Intended for entering students in FS HN. Offered on a satisfactory-fail basis only.

**FS HN 581: Seminar**

(1-0) Cr. 1. S.

Discussion and practice of oral presentation of scientific data in a professional setting. Discussion of issues related to data presentation. Intended for graduate students in their first or second semester in FS HN.

**FS HN 589: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology**

(Cross-listed with GERON, NEURO, NUTRS, PSYCH). Cr. 2. S.

*Prereq: Graduate standing, or undergraduate with consent of instructor.*

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders.

**FS HN 590: Special Topics**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590A: Special Topics: Nutrition**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590B: Special Topics: Food Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 590C: Special Topics: Teaching**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

**FS HN 596A: Food Science and Human Nutrition Travel Course: International travel**

(Dual-listed with FS HN 496A). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world.

Pre-travel session arranged. Travel expenses paid by students.

Meets International Perspectives Requirement.

**FS HN 596B: Food Science and Human Nutrition Travel Course: Domestic travel**

(Dual-listed with FS HN 496B). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

(One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world.

Pre-travel session arranged. Travel expenses paid by students.

**FS HN 599: Creative Component**

Cr. arr.

Nonthesis option only.

**Courses for graduate students:****FS HN 606: Advanced Food Analysis and Instrumentation**

(2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: FS HN 311, or FS HN 410, or FS HN 511 or equivalent.*

Instrumental methods for measuring chemical and physical properties of foods, food quality and functionality. Techniques for methods development, sample preparation, optimization of operating conditions, and data analysis needed to obtain accurate, reproducible results by means of instrumentation.

**FS HN 611: Advanced Food Processing**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: FS HN 311, or FS HN 471/472 or equivalent, or FS HN 511.*

Recent advances in the science and technology of food processing and preservation; examples include both thermal and non-thermal processes, including cold plasma, nanotechnology, and extrusion. Advances in extraction and separation technologies, by-product utilization, and sustainability in food processing industry will also be discussed. Students to research on select topics and present.

**FS HN 612: Advanced Food Chemistry**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: FS HN 311, or FS HN 411, or FS HN 511, or BBMB 404, or equivalent.*

Structure, chemical and physical properties of lipids, proteins and carbohydrates, and their food and industrial applications. Changes in functionalities during processing and storage.

**FS HN 626: Advanced Food Microbiology**

(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

**FS HN 627: Rapid Methods in Food Microbiology**

(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

**FS HN 653: Food and Agricultural Traceability**

(3-0) Cr. 3. F.

*Prereq: Enrollment in The Ivy Executive MBA program within the Ivy College of Business at Iowa State University*

Current issues and concepts of food and agricultural product traceability in the U.S., from production to consumption. Food types, microbial agents of concern, adulterants, disease investigations, risk analysis, risk mitigation, prevention and regulatory policy and advocacy. Travel to Washington, D.C.

**FS HN 681: Seminar**

(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.

Presentation of thesis or dissertation research. Must be taken once for each graduate program; once for the M.S. program and once for the Ph.D. program.

**FS HN 682: Seminar Reflection**

Cr. R. Repeatable. F.S.

Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students. Electronic documentation.

**FS HN 690: Special Problems**

Cr. arr. Repeatable. F.S.SS.

*Prereq: FS HN 502 or FS HN 503 or FS HN 504 or FS HN 553 or FS HN 554*

**FS HN 695: Grant Proposal Writing**

(Cross-listed with NUTRS). (1-0) Cr. 1. F.

*Prereq: 3 credits of graduate course work in food science and/or nutritional sciences*

Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Understanding the grant funding process from federal, foundation, and commodity agencies. Includes preparing a grant for possible submission and participation in the review of proposals. Discussion of the role of successful grant writing in career development.

**FS HN 699: Research in Food Science and Technology**

Cr. arr. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

## Gerontology

### Interdepartmental Undergraduate and Graduate Minors and Graduate Degree Programs

The gerontology program is designed for students interested in improving their understanding of adult development and aging across contexts and desiring careers in a variety of aging-related fields. Graduates understand the ways in which individual and societal aging influence, and

are impacted by, developments in their major field of study. They have an appreciation and understanding of the interdisciplinary aspects of human aging.

### Undergraduate

Undergraduate students may elect to minor in Gerontology, complementing their major. Courses prepare students to apply aging-related expertise to their field of study.

### Graduate

Students enrolled in the on-campus master's and doctoral programs are able to choose a home department in any unit across campus including, but not limited to Design, Human Development and Family Studies, Kinesiology, Political Science, School of Education, and Sociology. Students take courses and engage in research and outreach to develop the necessary interdisciplinary breadth which, in combination with other disciplinary training, can prepare them for diverse career pathways. Students work with their Major Professor and Program of Study Committee members to chart a course of study. Current Iowa State graduate students can enroll in the Gerontology graduate minor.

Students enrolled in the online graduate certificate and master's programs take courses from experts across partnering institutions to prepare them for translational and applied positions in the field of aging. The program is designed to be flexible and meet student needs.

### Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in gerontology. A balanced grouping of courses assists the student in developing both a sensitivity to the issues and the ability to synthesize ideas from the variety of disciplines important to the study of the aging process.

### Minor

Undergraduate students may minor in gerontology by taking 16 semester hours of gerontology related courses. Nine of these credits must come from the following courses:

GERON 373	Death as a Part of Living	3
GERON 377	Aging and the Family	3
GERON 378	Retirement Planning and Employee Benefits	3

Students will participate in a prepracticum seminar, GERON 466 Gerontology Prepracticum Seminar, and will complete a supervised field practicum after all gerontology coursework is completed (GERON 467 Gerontology Practicum). A minimum of 3 semester credits must be selected from a list of supportive gerontology related courses. Supportive courses include units or topics related to aging and can be used to complement the student's major interests. The minor must include at least 9 credits that are not used to meet any other department, college, or

university requirement. The student's minor program must be approved by the undergraduate gerontology coordinator.

## Graduate Minor

A graduate minor in Gerontology is available to any current ISU graduate student and consists of a minimum of 12 credits taken from a list of acceptable courses, and from at least two departments. Nine of the 12 credits must be in courses that are focused specifically on aging. One 590 course (3 credits maximum) can be taken as part of the 12 credits. At least one member of the Gerontology faculty will be on a student's Program of Study Committee.

## On-Campus Programs

Our on-campus Gerontology master's and doctoral degree programs are interdepartmental in nature. This means students receive content and training in Gerontology as well as a complementary discipline. We believe an interdisciplinary and collaborative approach allows students to enhance their experiences, training, and skills and ultimately their marketability and career success. Students work with their Major Professor and committee members to craft a program of study which encompasses core Gerontology and home department curriculum while fitting the unique needs of the student.

## Online Programs

Iowa State University offers a Master's degree in Family and Consumer Sciences with specialization in Gerontology. This is an interinstitutional online program offered through the Great Plains Interactive Distance Education Alliance (or GPIDEA). The student selects a home institution (Iowa State), which ultimately grants the degree. After admission to Iowa State, the student takes courses from Iowa State and the other participating institutions North Dakota State University, Oklahoma State University, Texas Tech University, and University of Arkansas.

The master's degree consists of 36 credits, 24 required credits and 12 elective credits (<https://online.hs.iastate.edu/graduate-degrees/gerontology/>). This program does not require a thesis.

## Graduate Certificate

The 15-credit Graduate Certificate in Gerontology (<https://online.hs.iastate.edu/graduate-degrees/gerontology/>) is offered completely online through the Great Plains Interactive Distance Education Alliance (or GPIDEA). The student selects a home institution (Iowa State), which ultimately grants the certificate. After admission to Iowa State, the student takes courses from Iowa State and the other participating institutions North Dakota State University, Oklahoma State University, Texas Tech University, and University of Arkansas. This is a stand-alone graduate certificate available to any student with a bachelor's degree.

### Courses primarily for undergraduates:

#### GERON 234: Adult Development

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: HD FS 102 or PSYCH 230*

Introductory exploration of the health, individual and social factors associated with adult development including younger adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

#### GERON 373: Death as a Part of Living

(Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: HD FS 102*

Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

#### GERON 377: Aging and the Family

(Cross-listed with HD FS). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

Interchanges of older adults and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community support.

#### GERON 378: Retirement Planning and Employee Benefits

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits.

#### GERON 378H: Retirement Planning and Employee Benefits: Honors

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits. Additional work required to meet Honors requirements.

**GERON 466: Gerontology Prepracticum Seminar**

(1-0) Cr. 1. F.S.SS.

*Prereq: 9 credits in core courses for the gerontology minor and approval of the gerontology undergraduate coordinator*

Prepracticum training for students planning a gerontology practicum. Exploration of possible agencies for the practicum, in-depth study of a selected agency, and development of goals and objectives for the practicum.

**GERON 467: Gerontology Practicum**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: GERON 466, advance reservation*

Supervised field experience related to aging. Offered on a satisfactory-fail basis only.

**GERON 490: Independent Study**

Cr. arr.

*Prereq: Permission of Instructor*

Consult program coordinator for procedure.

**Courses primarily for graduate students, open to qualified undergraduates:**

**GERON 501: Seminar**

Cr. arr. Repeatable. F.S.SS.

**GERON 510: Survey of Gerontology**

Cr. 1-3. Repeatable. S.

Provides an overview of important gerontological issues.

**GERON 521: Biological Principles of Aging**

(Cross-listed with EEOB). (3-0) Cr. 3. SS.

*Prereq: BIOL 211 and BIOL 212*

Basic biological principles of aging. Course modules include an introduction to the aging process, body systems and normal aging, and environment and the biology of aging. In addition, disorders and diseases of aging, prevention and treatment and exercise and aging topics will be covered.

**GERON 522: Long-Term Care**

(3-0) Cr. 3. F.

Administration principles involved in the planning, organizing and directing of long-term care agencies. Includes an in-depth exposure to federal and state standards and regulations governing long-term care.

**GERON 523: Mental Health and Aging**

(3-0) Cr. 3. S.

Introduction to the range of issues involved in aging and mental health. From a systems framework the major emotional and psychiatric problems encountered in old age will be examined including mood, anxiety, adjustment and personality disorders, dementia, cognitive problems, substance abuse, and suicide. Barriers to treatment and cohort and cultural issues will be explored.

**GERON 524: Cognitive Health**

(3-0) Cr. 3. SS.

Cognitive skills form the foundation for functioning in everyday life and these skills take on added importance in older adulthood. This course focuses on selected theoretical approaches and current research related to cognitive aging. We will review normative and non-normative cognitive changes, assessment techniques, and prevention/intervention efforts. Throughout the course we will keep the role of environment and life-span implications in the forefront of our discussion.

**GERON 530: Perspectives in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

**GERON 531: Foundations in Integrative Aging Studies**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

Introduction to foundational concepts in the interdisciplinary field of aging studies, including: core theories of adult development and aging how to be critical consumers of aging research; developing writing and other professional skills; and exploring career options in aging.

**GERON 534: Adult Development**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

**GERON 540: Nutrition and Physical Activity in Aging**

(Cross-listed with DIET). (3-0) Cr. 3. F.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

**GERON 545: Economics, Public Policy, and Aging**

(Cross-listed with HD FS). (3-0) Cr. 3. F.

Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

**GERON 563: Environments for the Aging**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies or permission of instructor*

Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Meets U.S. Diversity Requirement

**GERON 571: Design for All People**

(Cross-listed with ARCH). (3-0) Cr. 3. S.

*Prereq: Graduate or Senior classification*

Principles and procedures of inclusive design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of History, Theory, Culture requirements.

**GERON 577: Aging in the Family Setting**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

**GERON 584: Program Evaluation and Research Methods in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. S.

Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

**GERON 589: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology**

(Cross-listed with FS HN, NEURO, NUTRS, PSYCH). Cr. 2. S.

*Prereq: Graduate standing, or undergraduate with consent of instructor.*

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders.

**GERON 590: Special Topics**

Cr. arr. Repeatable.

Consult program coordinator for procedure.

**GERON 591: Internship**

Cr. 1-9. Repeatable, maximum of 9 credits. F.S.SS.

Supervised experience in an area of gerontology.

**GERON 594: Professional Seminar in Gerontology**

(Cross-listed with HD FS). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

**GERON 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

**Courses for graduate students:****GERON 630: Theories of Aging**

(3-0) Cr. 3. Alt. SS., offered irregularly.

*Prereq: 6 credits in social sciences or permission of instructor*

Historical, contemporary, and interdisciplinary basis of aging theory. Biological, psychological, sociological, and human developmental conceptualizations of aging will be critically assessed. Emphasis will be placed on conceptual models, as well as theoretical development and application within gerontological research and the field of aging.

**GERON 635: Adult Development, Aging, and Health**

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* HD FS 510 or permission of instructor

Review of the impact of the growing older adult population as well as individual development and aging on individuals, families, and society. Exploration of theoretical perspectives applied to adult development and aging and distinction of normative and non-normative changes in adulthood. Discussion of methods to assess development across adulthood and consideration of the role of individual and environmental factors impacting efforts to optimize adult development.

**GERON 699: Research**

Cr. arr. Repeatable. F.S.SS.

## Global Human Sciences Minor

Students can earn a Global Human Sciences Minor by completing a minimum of 15 credits (17 for those participating in International Student Teaching), including 6 credits of required core courses and between 9 and 11 credits selected from a designated list of courses offered by the departments and school in the College of Human Sciences. This minor is available to any undergraduate student at Iowa State University.

The Global Human Sciences Minor will contribute to students' ability to:

- Develop and demonstrate effective and professional oral and written communication skills regarding global human sciences
- Reflect on their experience with global human sciences and on how it has influenced their understanding of what it means to be a human scientist
- Analyze how social, cultural, technological, and economic contexts have affected the development of human sciences disciplines at home and abroad
- Identify and explain how issues of ethics, diversity, and social responsibility influence global human sciences

## Required Core Courses (6 credits)

H SCI 301	Introduction to Global Human Sciences	1
H SCI 302	Global Human Sciences Capstone	2
AESHM 421	Developing Global Leadership: Maximizing Human Potential	3

## Additional Courses (9-11 credits)

**All students except International Student Teaching participants:** Select 9 credits from the list below.

**CHS students only:** Select at least 3 credits from the list below that are outside the home department or school.

**International Student Teaching participants only:** select 8 credits from EDUC 416D, EDUC 416E, or EDUC 417N, and 3 credits from the list below outside the School of Education for a total of 11 credits.

A M D 354	Euro-American Dress History: Prehistoric to Mid-19th Century	3
A M D 355X	Textile History: Global Perspectives of Textiles	3
A M D 362	Cultural Perspectives of Global Dress	3
A M D 372	Sourcing and Global Issues	3
AESHM 281	Orientation to International Field Study	1
AESHM 381D	International Field Study: Hospitality Management	1-3
AESHM 381F	International Field Study: Event Management	1-3
AESHM 381N	International Field Study: Apparel, Merchandising, and Design	1-3
A TR 549A	Athletic Training Clinical Education Study Abroad: Preparing for the Experience	1
A TR 549B	Athletic Training Clinical Education Study Abroad	2
DANCE 211	Fundamentals and Methods of Social and World Dance	1
DANCE 270	Dance Appreciation	3
DANCE 385	Methods of Teaching Dance	2
EDUC 275	International Travel Study - Pre-departure Orientation	1
EDUC 416D	Supervised Student Teaching - Elementary: International Student Teaching - Primary Grades	8
EDUC 416E	Supervised Student Teaching - Elementary: International Student Teaching - Intermediate Grades	8
EDUC 417N	Student Teaching: International	8
EDUC 475	International Travel Study in Education	1-6
EVENT 423	International Meetings and Conferences Management	3
FS HN 342	World Food Issues: Past and Present	3
FS HN 442	Issues in Food and Society	2
FS HN 460	Global Nutrition and Health	3
FS HN 490D	Independent Study: International Experience	1-6
FS HN 496A	Food Science and Human Nutrition Travel Course: International travel	1-4
HD FS 479	Family Dynamics Through a Social and Cultural Lens	3
HD FS 481X	International Studies in HD FS: Group Study	1-3
HD FS 575	Cross-cultural Perspectives about Families and Children	3
HSP M 260	Global Tourism Management	3
HSP M 487	Fine Dining Management	3

KIN 381A	Study Abroad Experience in Kinesiology: Preparing for the Experience	1
KIN 381B	Study Abroad Experience In Kinesiology	2
NRS 490C	Independent Study: International Experience	1-2
Internship or work experience course		1-6
Courses completed at an international institution as part of a study abroad experience from the following options *		1-6
Accademia Italiana		
Australia: Semester at University of Deakin		
Australia: Semester at University of Newcastle		
Fu Jen Catholic University Exchange		
Glasgow Caledonian University Exchange		
London College of Fashion		
Lorenzo de' Medici Institute		
New Zealand: Semester at University of Otago		
Paris American Academy		

\* Coursework must be in a human sciences discipline.

Students may request a review of coursework to be completed as part of a study abroad experience at other international institutions that would meet this requirement.

## Health Coach Certificate

### Health Coach - Certificate

The undergraduate health coach certificate provides a rigorous academic and theoretical background in three components of health (nutrition, exercise and motivational coaching) required to prepare workers for the challenges of being a health coach. The certificate provides additional credentials for students already pursuing a bachelor's degree in food science and human nutrition, kinesiology, or psychology. Students would be able to sit for the American Council on Exercise exam should they choose to do so.

Any Iowa State University student may apply for the undergraduate health coach certificate. Students should contact their academic advisor to add the Health Coaching Certificate.

The Health Coach certificate requires 23 credits:

Note: Pre-requisites apply for all courses required in the health coach certificate.

FS HN 265	Nutrition for Active and Healthy Lifestyles	3
FS HN 364	Nutrition and Prevention of Chronic Disease	3
or FS HN 365	Obesity and Health	
FS HN 361	Nutrition and Health Assessment	2

KIN 458	Principles of Fitness Assessment and Exercise Prescription	4
KIN 467	Exercise and Health: Behavior Change	3
PSYCH 422	Counseling Theories and Techniques	3
PSYCH 485	Health Psychology	3
FS HN 495	Practicum	2
or KIN 494A & KIN 494B	Practicum in Motivational Interviewing for Health: Principles of Motivational Interviewing and Practicum in Motivational Interviewing for Health: Supervised Experience	

**Total Credits**

**23**

## Hospitality Management

### Administered by the Department of Apparel, Events, and Hospitality Management

The Hospitality Management program offers study for the degree of Bachelor of Science with a major in hospitality management. As the only 4-year hospitality program in the state of Iowa, the program prepares undergraduate students with essential principles of managing a variety of hospitality organizations, such as hotels, restaurants, clubs, and foodservice companies. Students also develop expertise in managing diverse areas, such as: (a) food/beverage management, (b) lodging management, (c) senior living management, and (d) tourism and attractions.

Students get hands-on experience at the Joan Bice Underwood Tearoom and SPARKS. The Joan Bice Underwood Tearoom is a 105-seat learning laboratory where students take responsibility for meal preparation and service. The Joan Bice Underwood Tearoom is the earliest established student run restaurant that is still in operation on a college campus in the United States. SPARKS is the student operated café in the Student Innovation Center, where students have the opportunity to manage all the operations of the facility from menu development, inventory, human resources, and much more.

Our students participate in internships locally, nationally, and internationally with a range of hotels, restaurants, caterers, theme parks, sports facilities, cruise ships convention and visitor's bureaus, independent businesses, and country clubs. Courses provide students with opportunities to develop and apply management techniques in hospitality organizations. The Hospitality Management curriculum provides students with the opportunity to obtain professional certifications in multiple areas.

The Hospitality Management program mission is to create, share, and apply knowledge to provide hospitality consumers with products, services, and experiences to enhance overall well-being. We accomplish our mission with a personalized, nationally ranked program. Our students

learn in a nurturing, safe, and inclusive environment, with caring faculty with industry experience.

## Student Learning Outcomes

Upon graduation, students should be able to:

1. Identify and apply the knowledge and skills necessary for hospitality and tourism operations
2. Develop and integrate a core set of business skills necessary to successfully operate a hospitality and tourism organization
3. Demonstrate competence in the communication skills necessary for hospitality and tourism management
4. Formulate business decisions in hospitality and tourism management
5. Evaluate leadership principles necessary in the diverse and global hospitality and tourism industry

## UNDERGRADUATE STUDY

The program offers a Bachelor of Science degree in hospitality management. Coursework is planned to provide students with a general education plus professional preparation for supervisory and executive positions in hospitality organizations such as clubs, hotels, dining, theme parks, cruise lines, and casinos. Principles of business management are presented, as well as fundamentals of hospitality operations.

Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, marketing, and operational principles for managing hospitality operations. They demonstrate best practices in meeting customer expectations and use of technology (e.g., Point-of-Sales systems, property management systems, and revenue management systems) to achieve operational efficiency and effectiveness.

Learning experiences are provided in the food and beverage, casino, lodging, senior living, and tourism industries and other approved establishments. Students are required to have a total of at least 800 hours of relevant work experience prior to graduation. Of the 800 hours, 200 hours are required prior to completing one year in the program.

## The Bachelor of Science Degree

Total credits required: 123, including a minimum of 18 credits from the AESHM Department at Iowa State University for the degree.

The program offers a **concurrent B.S. and M.S. degree** that allows students to obtain a B.S. and M.S. degree in hospitality management in *five* years. Application for admission to the Graduate College should be made in the junior year.

## Minor in Hospitality Management

The Hospitality Management minor (HSP M) requires the completion of at least 15 credits from the Hospitality Management curriculum. The minor must include at least 6 credits in courses numbered 300 or above taken at ISU. All course pre-requisites must be completed prior to taking the course. All minor courses must be taken for a grade.

## Minor in Beverage Management

The Beverage Management minor (BV M) requires the completion of at least 15 credits from the Beverage Management minor curriculum. The minor must include at least 6 credits in HSP M courses and 6 credits in courses numbered 300 or above taken at ISU. All course pre-requisites must be completed prior to taking the course. All minor courses must be taken for a grade.

## Curriculum in Hospitality Management

Administered by the Apparel, Events, and Hospitality Management Department. Leading to the Bachelor of Science degree.

The curriculum in Hospitality Management develops students as leaders for the hospitality professions.

A minor in Hospitality Management is available; see requirements under Hospitality Management, Courses and Programs.

Students majoring in Hospitality Management are required to earn C- or better in all AESHM and HSP M courses. Communication Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and Communication, and ENGL 250 Written, Oral, Visual, and Electronic Composition.

## Degree Requirements

### 10 Communications and Library

ENGL 150	Critical Thinking and Communication (Grade of C or better required in ENGL 150)	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (Grade of C or better required in ENGL 250)	3
LIB 160	Introduction to College Level Research	1
Select one (1) course:		3
COMST 211	Interpersonal Communication	
COMST 214	Professional Communication	
SP CM 212	Fundamentals of Public Speaking	

**Total Credits** **10**

### 9-10 Natural Sciences and Mathematical Disciplines

Select one (1) course: (AESHM 175D required if C+ or lower in MATH credits)

MATH 104	Introduction to Probability
MATH 105	Introduction to Mathematical Ideas

MATH 140	College Algebra	
MATH 150	Discrete Mathematics for Business and Social Sciences	
MATH 160	Survey of Calculus	
FS HN 167	Introductory Human Nutrition and Health	3
Select one (1) course:		3-4
STAT 101	Principles of Statistics	
STAT 104	Introduction to Statistics	
<b>Total Credits</b>		<b>9-10</b>

### 9 Social Sciences

ECON 101	Principles of Microeconomics	3
Select two (2) courses:		6
HD FS 102	Human Development (Senior living management required to take this course)	
PSYCH 101	Introduction to Psychology	
SOC 134	Introduction to Sociology	
<b>Total Credits</b>		<b>9</b>

### 6 Humanities

AESHM 342	Aesthetics of Consumer Experience	3
Select one (1) course:		3
AF AM 201	Introduction to African American Studies	
AF AM 310	Africa to 1880	
AF AM 311	Africa under Colonial Rule	
AF AM 330	Ethnic and Race Relations	
AF AM 334	Africana Religions	
AF AM 335	Race, Ethnicity, and the US Criminal Justice System	
AF AM 347	Studies in African American Literature

**Total Credits: 120-123**US Diversity and International Perspectives Requirement:

Students in HSP M fulfill the US Diversity and International Perspectives Requirements by choosing 3 credits of coursework from each of the University-approved lists.

Note: This sequence is only an example. The number of credits taken each semester should be based on the individual student's situation. Factors that may affect credit hours per semester

include student ability, employment, health, activities, and grade point consideration.

<sup>1</sup> BIOL 101 required if student has not completed high school biology

<sup>2</sup> When the 4-year plan indicates HSP M Group or General Electives, choice depends on courses available. However, you must have a total of 13-15 credits of HSP M electives and 11-17 credits of General Electives (HSP M courses may be taken to meet General Electives requirements).

<sup>3</sup> CHEM 160 required if student has not completed high school chemistry

## Hospitality Management Minor

A minor in Hospitality Management can be earned by successfully completing the following for a total of 15 credits. The minor must include at least six (6) credits in courses numbered 300 or above taken at ISU. All course prerequisites must be completed prior to taking the course. All minor courses must be taken for a grade. The Hospitality Minor requires students to complete HSP M 101, HSP M 133, and HSP M 233. The remaining 8 credits may be selected from any HSP M designated course, as well as AESHM 238, AESHM 287, AESHM 340, and AESHM 474.

The Hospitality Minor requires students to complete the following courses:

HSP M 101	Introduction to the Hospitality Industry	3
HSP M 133	Food Safety Certification	1
HSP M 233	Hospitality Sanitation and Safety	3
<b>Total Credits</b>		<b>7</b>

The remaining eight (8) credits may be selected from the following:

AESHM 238	Human Resource Management	3
AESHM 287	Principles of Management in Human Sciences	3
AESHM 340	Hospitality and Apparel Marketing Strategies	3
AESHM 474	Entrepreneurship in Human Sciences	3
HSP M 201	Casino Management I	3
HSP M 225	Introduction to Food Service Operations	3
HSP M 230	Introduction to Hospitality Performance Analysis	3
HSP M 248	Introduction to Senior Living Management	3
HSP M 260	Global Tourism Management	3
HSP M 280	Non-Alcoholic Beverages and Café Operations	3
HSP M 289	Contemporary Club Management	3
HSP M 301	Hospitality Revenue Management	3
HSP M 315	Hospitality Law	3
HSP M 320	Attractions and Amusement Park Administration	3
HSP M 352	Lodging Operations Management I	3

HSP M 358	Economics for Senior Living Management	3
HSP M 383	Wine and Spirits in Hospitality Management	2
HSP M 383L	Wine, Spirits, and Mixology Laboratory in Hospitality Management	2
HSP M 385	Beer and Brewed Beverages in Hospitality Management	1
HSP M 420	Fairs and Festivals Management	3
HSP M 433	Hospitality Financial Management	3
HSP M 437	Hospitality Technology Applications	3
HSP M 452	Lodging Operations Management II	3
HSP M 455	Strategic Management in Hospitality	3

## Beverage Management Minor

The AESHM Department offers a minor in Beverages through the Hospitality Management program. The minor can be earned by successfully completing the following for a total of 15 credits. The minor must include at least six (6) credits in HSP M courses, six (6) credits in courses numbered 300 or above taken at ISU. All course prerequisites must be completed prior to taking the course. All minor courses must be taken for a grade. The Beverages Minor requires students to complete HSP M 101 and HSP M 133. The remaining 11 credits may be selected from any of the courses below.

The Beverage Management Minor requires students to complete the following courses:

HSP M 101	Introduction to the Hospitality Industry	3
HSP M 133	Food Safety Certification	1
<b>Total Credits</b>		<b>4</b>

The remaining eleven (11) credits may be selected from the following:

BBMB 120	The Biochemistry of Beer	2
BBMB 120L	Biochemistry of Beer Laboratory	1
HORT 276	Understanding Grape and Wine Science	3
FS HN 509	Sensory Evaluation of Wines	2
HSP M 280	Non-Alcoholic Beverages and Café Operations	3
HSP M 315	Hospitality Law	3
HSP M 383	Wine and Spirits in Hospitality Management	2
HSP M 383L	Wine, Spirits, and Mixology Laboratory in Hospitality Management	2
HSP M 385	Beer and Brewed Beverages in Hospitality Management	1
HSP M 420	Fairs and Festivals Management	3
HSP M 487	Fine Dining Management	3

## Graduate Study

The Hospitality Management program offers work for the Master of Science and Doctor of Philosophy degrees in hospitality management. Graduates of the program are able to interpret trends and adapt operating practices of hospitality organizations to changing economic, social, political, technological, and environmental conditions. The Master's degree program is designed to prepare individuals for managerial and leadership positions in industry, business, and non-profit organization; teaching careers; and continued graduate study.

The doctoral program is designed to prepare individuals to teach in programs at the university level; provide leadership in non-profit organizations; and/or conduct advanced research at the corporate level or with research firms.

A degree in hospitality management is the usual background for graduate study; however, applicants with preparation in dietetics, business, or closely related fields are encouraged to apply. PhD applicants must have two (2) years of professional work experience in the field.

The Master of Science degree requires either a thesis or non-thesis (creative component) project. Students also are required to take three core courses out of the four offered in the core areas (human resources, financial management, marketing, and strategic management).

The PhD program requires a minimum of 72 credits, up to 30 of which may be applied from the Master's degree. All PhD students take a minimum of 15 research/dissertation credits.

## Human Development and Family Studies

Administered by the Department of Human Development and Family Studies. Leading to the degree of bachelor of science.

Total credits required: 120. The human development and family studies curriculum prepare graduates to pursue careers in helping professions with employment opportunities in government, non-profit, and private agencies, as well as continue on to graduate studies programs.

Students select an option within the major: child development and guidance; advocacy, administration, and policy; or health, well-being, and prevention.

### Student Learning Outcomes

The following set of learning goals was established for the bachelor's degree in Human Development and Family Studies (HD FS). Upon completion of the undergraduate degree in HDFS, students will:

**Learning Objective 1:** Demonstrate an understanding of the central concepts, research, and theories within the field.

**Learning Objective 2:** Demonstrate professional development and self-reflection skills.

**Learning Objective 3:** Demonstrate an ability to access and evaluate peer-reviewed research.

A minor in human development and family studies is available; see requirements under Human Development and Family Studies, Undergraduate Minor.

The following requirements are for the HD FS major by option.

**Child Development & Guidance Option**  
**Human Development and Family Studies Core: 23-24 credits**

HD FS 102	Human Development	3
HD FS 110	Freshman Learning Community Orientation	1
or HD FS 111	New Transfer Student Seminar	
HD FS 183	Personal Finance in Early Adulthood	1
HD FS 218	Professional Orientation and Service Learning	2
HD FS 369	Research Methods in Human Development and Family Studies	3
HD FS 418B	Professional Practice Reflection/Discussion: Internships	2
HD FS 479	Family Dynamics Through a Social and Cultural Lens	3
HD FS 491	Internship	8-9
<b>Total Credits</b>		<b>23-24</b>

**Individual and Family Development: 12 credits**

Select 4 courses from: 12

HD FS 224	Development in Young Children: Birth through Age 8	
or HD FS 22	Child Development and Health	
Note: HDFS 224 is a prerequisite to HDFS 342 and HDFS 344		
HD FS 226	Development and Guidance in Middle Childhood	
HD FS 227	Adolescence and Emerging Adulthood	
HD FS 234	Adult Development	
HD FS 249	Parenting and Family Diversity Issues	
HD FS 270	Family Communications and Relationships	
HD FS 377	Aging and the Family	
<b>Total Credits</b>		<b>12</b>

**Child Development & Guidance Option: 24 credits**

Emphasis classes. Select 4 from 12-13

HD FS 240	Literature for Children	
-----------	-------------------------	--

HD FS 342	Social and Emotional Development and Child-centered Guidance in Early Childhood

## GRADUATE PROGRAMS

More information on the variety of graduate programs offered through the Department of Human Development and Family Studies can be found here: <https://hdfs.hs.iastate.edu/graduate-students/graduate-programs/>.

## Human Development and Family Studies Department

The Department of Human Development and Family Studies offers courses that focus on the interactions among individuals, families, their resources, and their environments throughout the life span. The department offers work for the Bachelor of Science degree in five curricula: Early Childhood Education, Family and Consumer Sciences Education and Studies, Financial Counseling and Planning, Human Development and Family Studies, and an affiliated program: Early Childcare Education and Programming (a distance education program offered in collaboration with six other universities).

Students graduating in Human Development and Family Studies will

1. Communicate with clear purpose, workable organization and effective style in written, oral, visual and electronic (WOVE) formats to foster collaboration, provide information and advance knowledge related to child, adult, family, and community services.
2. Consistently and realistically analyze and evaluate one's own knowledge, abilities and actions in comparison to professional standards and create action plans to enhance personal and professional efficacy related to working with children, adults, families and communities.
3. Understand content related to working with children, adults, families, and communities within a chosen program. Use critical thinking skills to evaluate and utilize evidence-based practices. Use logical and ethical reasoning to make decisions and solve problems.

4. Understand the diverse needs of children, adults, and families. Ensure equitable access of children, adults, and families to appropriate environments that support healthy living. Engage children, adults, and families with socially responsible and respectful behavior.

**Communication Proficiency requirement:** A student must achieve a grade of C or higher in ENGL 150, Critical Thinking and Communication, and ENGL 250, Written, Oral, Visual, and Electronic Composition. A student achieving a grade of C– or lower in 150 and/or 250 must either repeat the course(s), earning a minimum grade of C, or, in consultation with the advisor and the coordinator of freshman English, complete another appropriate English writing course with a minimum grade of C.

The **Human Development and Family Studies** curriculum leads to work in helping professions with employment opportunities in public and private agencies. Graduates of the program are prepared for employment in agencies and organizations serving children, youth, families, and adults in the areas of education/prevention, treatment, and administration. This flexible program provides a broad emphasis in theory, research, and application in child, adult and family services including attention to community issues and public policy.

Students in Human Development and Family Studies may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings. Iowa State University does not grant the Certified Family Life Educator credential. The certification is granted only by the National Council on Family Relations. See <https://hdfs.hs.iastate.edu/future-students/find-your-major/certified-family-life-educator/> and/or <http://www.ncfr.org/cfle-certification/>.

The curriculum in **Early Childhood Education – Unified** prepares graduates to teach young children and work with their families. This curriculum has been approved by the Iowa Department of Education and meets requirements for candidates to seek teacher licensure in early childhood education – unified, which permits individuals to teach general and special education for children from birth through third grade. Graduates may be employed by either public or private agencies or schools to teach in early childhood classrooms (preschool through third grade) or in home-based programs. The program is an interdepartmental major administered by the Department of Human Development and Family Studies and the School of Education. For more

information about the program, see <https://hdfs.hs.iastate.edu/find-your-major/early-childhood-education/>.

Students who enroll in the early childhood education – unified program must apply to and be accepted into the teacher education program prior to enrolling in advanced courses.

**Family and Consumer Sciences Education and Studies** offers a curriculum for the Bachelor of Science degree. (<http://catalog.iastate.edu/collegeofhumansciences/familyandconsumerscienceseducationandstudies>)

The curriculum in Family and Consumer Sciences Education and Studies (FCEDS) prepares graduates with a broad understanding of individual and family well-being. Graduates apply knowledge and research in family and consumer sciences content in global professional settings. They work in an integrative fashion to improve well-being by addressing and acting on complex problems confronting individuals, families, and communities. The study of Family and Consumer Sciences Education incorporates the following 16 content areas ([https://opi.mt.gov/Portals/182/Page%20Files/Career%20%26%20Technical%20Education/Docs/FCS/15FCS\\_NationalStandards.pdf](https://opi.mt.gov/Portals/182/Page%20Files/Career%20%26%20Technical%20Education/Docs/FCS/15FCS_NationalStandards.pdf)): Career, Community and Family Connections; Consumer and Family Resources; Consumer Services; Education and Early Childhood; Facilities Management and Maintenance; Family; Family and Community Services; Food Production and Services; Food Science, Dietetics, and Nutrition; Hospitality, Tourism and Recreation; Housing and Interior Design; Human Development; Interpersonal Relationship; Nutrition and Wellness; Parenting; and Textiles, Fashion and Apparel.

Students in the program choose one of three options, Teacher Licensure, Communications, or Professional Studies.

Students in Family and Consumer Sciences Education and Studies may choose coursework that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working to strengthen relationships. The student takes courses that support the development of knowledge and skills in family life content areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings. Iowa State University does not grant the Certified Family Life Educator credential. The certification is granted only by the National Council on Family Relations. See <https://hdfs.hs.iastate.edu/future-students/find-your-major/certified-family-life-educator/> and/or <http://www.ncfr.org/cfle-certification/>.

Graduates may also choose from one of several nationally recognized professional certifications available from the American Association of Family and Consumer Sciences (AAFCS) Council for Certification. This program measures competencies of FCS professionals using high-quality, rigorous assessments. Certifications that are currently available are (<http://www.aafcs.org/home> (<https://www.aafcs.org/home/>)): CFCS: Certified in Family and Consumer Sciences; CFCS-HDFS: Certified in Human Development and Family Studies; CFCS-HNFS: Certified in Hospitality, Nutrition, and Food Science; and CPFFE: Certified Personal and Family Finance Educator.

There is also an opportunity to take courses that will allow you to be recommended for a family and consumer sciences endorsement or teacher licensure as a post baccalaureate student.

The **Financial Counseling and Planning (FCP)** curriculum prepares students for careers in family financial services. Financial Counseling and Planning is a growing career field and appeals to students who want to work with individuals and families to help them meet their financial goals and improve their financial capability to better meet financial challenges. Coursework provides students with the family resource management and interpersonal skills needed to help families remain financially secure. Based on career goals, students select a path that leads to fulfilling the education requirements for the leading designations and certifications in financial counseling and planning. Graduates of the program are prepared for employment in personal banking, financial services, insurance, financial counseling and planning, and human service organizations. Laboratory and practicum opportunities exist in the Iowa State University Financial Counseling Clinic and with program partners in the financial services industry. A field work experience helps students apply their studies and experience the profession in real-world settings.

Financial Counseling and Planning majors are also prepared to enter graduate programs in family financial planning, financial education, economics, finance, and law.

Juniors and seniors in Financial Counseling and Planning who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a B.S. in Financial Counseling and Planning and a M.S. in Human Development and Family Studies or a B.S. in Financial Counseling and Planning and a Graduate Certificate in Family Financial Planning. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. See Graduate Study for more information (<https://hdfs.hs.iastate.edu/graduate-students/graduate-programs/>).

The Financial Counseling and Planning major is registered with Certified Financial Planner Board of Standards Inc. as a CFP Board-registered

Program. ISU courses satisfy CFP Board's education requirement, allowing an individual to sit for the CFP® Certification Examination.

Iowa State University does not certify individuals to use the CFP® CERTIFIED FINANCIAL PLANNER™ title. CFP certification is granted only by Certified Financial Planner Board of Standards Inc. to those persons who, in addition to completing an educational requirement such as this CFP Board-Registered Program, have met its ethics, experience and examination requirements (CFP Board of Standards website <https://www.cfp.net/>).

Certified Financial Planner Board of Standards Inc. owns the certification marks CFP®, CERTIFIED FINANCIAL PLANNER™ and the federally registered CFP (with flame logo), which it awards to individuals who successfully complete initial and ongoing certification requirements.

FCP majors also satisfy the education requirements for the Accredited Financial Counselor (AFC®) designation offered through the Association for Financial Counseling and Planning Education (AFCPE).

## Affiliated Programs

The **Early Childcare Education and Programming (E C P)** curriculum, offered by the Great Plains Interactive Distance Education Alliance (GPIDEA), is designed to prepare graduates to work in a variety of early care and education programs in local communities and on military installations. Some of these programs are childcare centers and homes, infant/toddler and preschool programs, Head Start programs, and before and after-school programs for children ages birth to eight. This is an online program offered through a collaboration of seven universities as part of GPIDEA where the program is referred to as Early Care and Education for a Mobile Society. For more information see <https://www.gpidea.org/program/early-care-and-education-in-a-mobile-society> (<https://www.gpidea.org/program/early-care-and-education-in-a-mobile-society/>).

The E C P curriculum is designed to provide content for the final two years of a student's program; the content is focused specifically on topics directly relevant to the major. Students will complete a total of 120 credits for the major, 51 of which are specific to the E C P curriculum. These 51 credit hours are comprised of 12 core courses and 3 practica; the final practicum will be a 6-credit capstone experience. Students must complete 30 credits of college work, a lifespan development course, and have a 2.5 GPA to be admitted to E C P. If students prefer to be admitted to ISU before being admitted to the E C P major, they can enroll as Pre ECP (P ECP) students until they are eligible for the E C P major. For more information about the program at Iowa State, see <https://online.hs.iastate.edu/early-childcare-programming> (<https://online.hs.iastate.edu/early-childcare-programming/>).

## Curricula:

- **Early Childhood Education – Unified**
- **Family and Consumer Sciences Education and Studies**
- **Financial Counseling and Planning**
- **Human Development and Family Studies**
- Affiliated Program: Early Childcare Education and Programming (GPIDEA program)

## Minors

The department offers minors in Human Development and Family Studies and Financial Counseling and Planning. Minors consist of at least 15 credits including 6 credits taken at Iowa State University in courses numbered 300 or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

The **Human Development and Family Studies** minor may be earned by completing 15 credits

HD FS 485	Capstone: Family Financial Planning	
HD FS 489	Financial Counseling	
HD FS 489L	Financial Counseling Laboratory	
<b>Total Credits</b>		<b>15</b>

## Graduate Study

The department offers work for the Master of Science (thesis or non-thesis options) and Doctor of Philosophy degrees with the major in Human Development and Family Studies. Minors are also available for students taking major work in other departments. Graduates of M.S. and Ph.D. programs in the department will understand and apply relevant theories to educational, research, and/or intervention or prevention programs. It is intended that they will produce and disseminate research results and provide leadership in human development and family studies professions.

Graduate study in Human Development and Family Studies at Iowa State University is multidisciplinary and focuses on research and practice in

several content areas such as adolescent/youth development, adult development and aging, family studies and policy, family economic well-being and financial planning, infant and child development, health and well-being; and lifespan development.

Prerequisite to work in the major is the completion of a related undergraduate program with basic courses and/or experiences in areas such as child/human development, community and regional planning, economics, education, family studies, psychology, or sociology. Additional coursework or prerequisites (e.g., basic statistics) may be required depending on the undergraduate program and program of study. Students may be admitted to our doctoral program with either a bachelor's (M.S./Ph.D. Track, 5 years) or a master's degree (Ph.D. Track only, 3 years). Students admitted to the Ph.D. Track without a prior master's degree complete requirements for a thesis-based master's degree as part of their doctoral program of study.

All students take a core set of courses; the program of study is then completed with a selection of courses that meet the individual needs of the student. The variety of and flexibility in the coursework allows a student to tailor a program to specific academic interests. The graduate programs are based on a theory, research, and application interactive paradigm with all three areas integrated into content and method courses.

The department offers a graduate minor in Human Development and Family Studies. For more detailed information about the minor, see the Graduate Minors tab.

The department also offers four Graduate Certificates available to HD FS majors as well as students in other departments and professionals in the field.

The department also participates in several Master of Family and Consumer Sciences (MFCS) degree programs (<http://catalog.iastate.edu/collegeofhumansciences/familyandconsumersciences/>). Admission to the youth (YTH), family financial planning (FFP) and gerontology (GERON) specialization programs require submission of the Graduate College application form, transcripts, 2 letters of recommendation, resume and a goal statement. Students in a MFCS program select one of the options listed below.

1. Master of Family and Consumer Sciences - Human Development and Family Studies (MFCS-HDFS). The Master of Family and Consumer Sciences degree specialization track in Human Development and Family Studies (HDFS) provides students with the opportunity to enhance their background knowledge and skills for working with children and families (37 credits).
2. Master of Family and Consumer Sciences - Youth Development (MFCS-YD). This is an entirely online degree focusing on the skills to serve today's young people. The degree uses a strengths-based

curriculum that supports you to grow socially, emotionally, and cognitively. There are also two youth development related certificates available for students (see Graduate Certificates tab for details) (36 credits).

3. Master of Family and Consumer Sciences - Family Financial Planning Program (MFCS-FFP). This is a master's degree program offered entirely online, designed to prepare individuals to work in the financial planning field (36 credits). Completion of course work in the master's degree or a graduate certificate meets the educational requirements to sit for the Certified Financial Planner (CFP) Board of Standards Certification Examination.

The department offers a Financial Counseling and Planning (FCP) concurrent degree program that allows students to obtain a B.S. in FCP and an M.S. in HD FS or a B.S. in FCP and a Graduate Certificate in Family Financial Planning in 5 years. Application for admission to the Graduate College should be made near the end of the junior year. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. Students interested in these programs should contact the department for details.

Finally, the department collaborates with the interdepartmental Gerontology program; students may declare a minor in Gerontology. The Master of Family and Consumer Sciences - Gerontology program (MFCS-GERON) and the Graduate Gerontology Certificate program are designed to prepare professionals who work directly with older people or are involved in education and research related to older adults. Professionals offering direct services often are involved in health promotion programs, directing inter-generational activities, managing senior centers or retirement communities, counseling older people and their families, and helping people plan for retirement. Professionals involved in education and research may evaluate community-based services, teach others about the aging process, develop policies and programs to serve the needs of older adults, and work with business and industry on issues related to an aging work force.

## Graduate Minors

The department offers a graduate minor in Human Development and Family Studies. To earn this minor, students in a Master's program must take 9 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit (credits in 591 or 691 not allowed). To earn a minor in HD FS students in a Doctoral program must take 12 credits in HD FS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit (credits in 591 or 691 not allowed). A graduate faculty member from the minor program must serve on the student's POS Committee.

## HD FS Certificates

The department offers four Graduate Certificates available to HD FS majors as well as students in other departments and professionals in the field. The certificates emphasize application and relevance to growing diversity and demands on the work force. The four certificate areas are:

1. Developmental and Family Sciences Advanced Research Design and Methods (15 credits)
2. Family Well-Being in Diverse Society (12 credits)
3. Infant and Early Childhood Mental Health (12 credits, online)
4. Life-Span Development (12 credits, online)

For more information about courses for the certificates, go to <https://hdfs.hs.iastate.edu/graduate-students/graduate-programs/graduate-certificates/>

## Youth Development Certificates

The department also collaborates to offer two certificates related to youth development through the MFCS program. Both certificates are designed to prepare individuals who work directly with youth or are involved in education and research related to youth. For more information, go to <http://www.online.hs.iastate.edu/graduate-programs/masters/mfcs-youth-development/>.

1. Youth Development Specialist Certificate (13 credits)
2. Youth Program Management and Evaluation Certificate (13 credits)

## Family Financial Planning Certificates

The MFCS – Family Financial Planning (FFP) program also offers two certificates listed below. More information can be found at <http://www.online.hs.iastate.edu/graduate-programs/masters/mfcs-ffp/>.

1. FFP certificate. Master of Family and Consumer Sciences with Family Financial Planning (FFP) specialization graduate certificate program (18 credits)
2. FHC certificate. Master of Family and Consumer Sciences Financial and Housing Counseling (FHC) specialization graduate certificate program (18 credits)

**Courses primarily for undergraduates:**

### HD FS 102: Human Development

(3-0) Cr. 3. F.S.SS.

Overview of life-span developmental tasks (physical, cognitive, language, social, emotional) examined from various theoretical perspectives.

Discussion of topics related to family diversity, individual/family health and well-being and reciprocal relationships as affected by external factors.

### HD FS 110: Freshman Learning Community Orientation

(1-0) Cr. 1. F.

*Prereq: Membership in HD FS Learning Community*

Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

### HD FS 111: New Transfer Student Seminar

(1-0) Cr. 1. F.S.

Introduction to HD FS curricula and faculty for students in CH FS, FCEDS or F C P. Department and University policies and procedures, degree audits, and registration. Exploration of campus resources and strategies for student success. Offered on a satisfactory-fail basis only.

### HD FS 183: Personal Finance in Early Adulthood

(1-0) Cr. 1. F.S.SS.

Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

### HD FS 208: Early Childhood Education Teacher Orientation

Cr. 1. F.S.

*Prereq: Early Childhood Education major*

Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

### HD FS 218: Professional Orientation and Service Learning

(2-0) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in HD FS 102; major in Human Development and Family Studies*

Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required.

### HD FS 223: Child Development and Health

(3-0) Cr. 3. S.

Typical and atypical development of children prenatal through middle childhood. Examination of healthy development and potential impact of health issues in children. Discussion of influence of the family and society on development. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 224: Development in Young Children: Birth through Age 8**

(3-1) Cr. 3. F.S.

*Prereq: HD FS 102*

Learning, growth, and development (typical and atypical) of children from birth through age eight. Explores importance of family, programs, and a diverse society. Strategies for observing, recording, and interpreting children's cognitive, communication, motor, social, and emotional development. Practicum. Either HD FS 223 or HD FS 224, but not both, may be applied toward graduation.

**HD FS 226: Development and Guidance in Middle Childhood**

(3-0) Cr. 3. F.

*Prereq: HD FS 102 or PSYCH 230*

Physical, cognitive, socioemotional, and identity development from 5 to 12 years of age. Development within the contexts of family, school, peers, and society. Guidance of children in family and group settings.

**HD FS 227: Adolescence and Emerging Adulthood**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 102 or PSYCH 230*

Physical, cognitive, and socioemotional development of adolescents and emerging adults in the context of family, relationships, and culture.

**HD FS 234: Adult Development**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: HD FS 102 or PSYCH 230*

Introductory exploration of the health, individual and social factors associated with adult development including younger adulthood, middle age and older adulthood. Information is presented from a life-span developmental framework.

**HD FS 239: Consumer Issues**

(3-0) Cr. 3. F.S.

Introduction to factors affecting consumer decisions of individuals and families, including housing, healthcare, and personal finances. Emphasis on accessibility and affordability, community contexts for families; and consumer protection, legislation and regulation, and consumer fraud. Meets U.S. Diversity Requirement

**HD FS 240: Literature for Children**

(3-0) Cr. 3. F.S.

Evaluation of literature for children, including an emphasis on diversity and inclusion; cultural competence. Roles of literature in the overall development of children. Literature selection and use in the home and educational settings.

**HD FS 249: Parenting and Family Diversity Issues**

(3-0) Cr. 3. F.S.

Evidence-based, best-practice approaches to child-rearing, guidance, adult-child relationships, and parenting education programs. Theoretical perspectives related to caregiving processes across the lifespan.

**HD FS 270: Family Communications and Relationships**

(3-0) Cr. 3. F.S. Alt. SS., offered odd-numbered years.

Family communication and its functions to develop, maintain, enrich and limit family relationships. Family theories related to communication and ethical considerations when working with families.

**HD FS 276: Human Sexuality**

(3-0) Cr. 3. F.S. SS.

Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.

Meets U.S. Diversity Requirement

**HD FS 283: Personal and Family Finance**

(3-0) Cr. 3. F.S.

Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.

Meets U.S. Diversity Requirement

**HD FS 283H: Personal and Family Finance: Honors**

(3-0) Cr. 3. F.S.

Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes. Additional work required to meet Honors requirements.

Meets U.S. Diversity Requirement

**HD FS 317: Field Experiences**

Cr. 1-6. Repeatable. F.S. SS.

*Prereq: Permission of Instructor*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 317B: Field Experiences: Human Development and Family Studies**

Cr. 1-6. Repeatable. F.S. SS.

*Prereq: 9 credits in HD FS; Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 317G: Field Experiences: Family Finance Programs**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs.

**HD FS 317H: Field Experiences: Honors**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: 9 credits in HD FS; Department Permission*

Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfactory-fail basis only.

**HD FS 340: Assessment and Curriculum: Ages Birth through 2 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224; admission to Educator Preparation program*

Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development. Practicum.

**HD FS 341: Income Tax Planning for Families**

(3-0) Cr. 3. F.

Practice and planning to minimize tax liability and maximize after-tax returns for individuals and families. Addresses components of the US personal income tax system including tax forms, filing status, income, exemptions, exclusions, deductions, adjustments, credits, penalties, and tax rates. The case-problem approach prepares students to plan for themselves and to advise others.

**HD FS 342: Social and Emotional Development and Child-centered Guidance in Early Childhood**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 224*

Guiding prosocial development, self-regulation, and task engagement of children birth to age 8. Focus is on promoting prosocial behaviors through supportive relationships and environments within diverse home, center, or school settings. Functional behavior assessment and ongoing progress monitoring for targeted and intensive interventions. Practicum. Must take HD FS 340, 343, or 344 the same semester.

**HD FS 343: Assessment and Curriculum: Ages 3 through 6 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224; HD FS 240; admission to Educator Preparation program*

Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activities, nutritional practices, and teaching strategies that are developmentally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development. Practicum.

**HD FS 344: Programming for Children in Early Care and Education**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 224*

Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Developing, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children's development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Learning to collaborate effectively with parents and staff. Practicum.

**HD FS 345: Inclusive Teaching and Interaction Strategies**

(3-0) Cr. 3. F.S.

*Prereq: (HD FS 224; SP ED 250) or Permission of Instructor*

Instructional strategies, adaptations and specialized materials and equipment to meet the developmental needs of all young learners ages birth through 8 years old, especially those with diverse learning needs and multiple disabilities. Addressing inclusivity, the history of early childhood special education, and the planning and writing of individualized education plans.

**HD FS 360: Housing and Services for Families and Children**

(3-0) Cr. 3. F.

*Prereq: 6 credits from the following courses: AESHM 421; AF AM 330; AMD 165, 362, 467; AM IN 310, 215, 322; ANTHR (except 202); CJ (except 220, 332); ECON; FS HN 342; INTST 235; LING 219, 275, 471; POL S; PSYCH (except 131); SOC; WGS 201, 203, 301, 320, 327, 328, 346, 350, 385*

Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, children at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transitional housing.

**HD FS 367: Abuse and Illness in Families**

(3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: 3 credits from the following courses: AESHM 421; AF AM 330; AMD 165, 362, 467; AM IN 310, 215, 322; ANTHR (except 202); CJ (except 220, 332); ECON; FS HN 342; INTST 235; LING 219, 275, 471; POL S; PSYCH (except 131); SOC; WGS 201, 203, 301, 320, 327, 328, 346, 350, 385*

Causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system.

**HD FS 369: Research Methods in Human Development and Family Studies**

(3-1) Cr. 3. F.S.

*Prereq: (HD FS 102 or PSYCH 230); Junior or Senior classification*

Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues. An introduction to statistical concepts and data analysis. Computer laboratory experience.

**HD FS 373: Death as a Part of Living**

(Cross-listed with GERON). (3-0) Cr. 3. F.S.Alt. SS., offered even-numbered years.

*Prereq: HD FS 102*

Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

**HD FS 377: Aging and the Family**

(Cross-listed with GERON). (3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

Interchanges of older adults and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community support.

**HD FS 378: Retirement Planning and Employee Benefits**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits.

**HD FS 378H: Retirement Planning and Employee Benefits: Honors**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 3 credits in ECON, HD FS, or FIN*

Financial needs analysis for retirement, characteristics of employer-sponsored and individual retirement plans, tax implications of retirement plans, Social Security funding and benefits, strategies for meeting varying retirement needs in a diverse society, financial counseling and planning practice, and overview of employee benefits. Additional work required to meet Honors requirements.

**HD FS 383: Fundamentals of Financial Planning**

(3-0) Cr. 3. S.

*Prereq: HD FS 283*

Fundamental principles of the financial planning process, client/planner interactions, time value of money applications as well as analyses of ethics review, financial statements, cash flow and debt management, education planning, retirement planning, tax planning, and estate planning needs of families.

**HD FS 384: Family Insurance Planning**

Cr. 3. S.

*Prereq: HD FS 283*

Strategies for managing family financial risk with insurance. Emphasis on communication and planning process and the use of risk mitigation and insurance within families. Risk analysis and management within the comprehensive family financial planning process.

**HD FS 387: Applying Evidence-Based Practices in Human Services**

(3-0) Cr. 3. F.S.

*Prereq: Junior or Senior classification*

Practicing skills required to work with individuals and families in assessment, engagement, and intervention. Applying strategies including motivational interviewing and trauma informed care. Meets U.S. Diversity Requirement

**HD FS 395: Children, Families, and Public Policy**

(3-0) Cr. 3. F.S.Alt. SS., offered odd-numbered years.

*Prereq: HD FS 369 or Permission of Instructor*

Public policy and public service programs as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

**HD FS 416: Human Development and Family Studies Seminar**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 8 credits in HD FS*

Intensive study of a selected topic in human development and family studies.

**HD FS 417: Supervised Student Teaching**

Cr. 8. Repeatable.

*Prereq: Permission of Instructor*

**HD FS 417C: Supervised Student Teaching: Early Childhood Special Education Programs.**

Cr. 8. Repeatable. F.S.

*Prereq: HD FS 455; HD FS 456; minimum 2.5 cumulative GPA; admission to Educator Preparation program*

Teaching experience with preschool children with disabilities.

**HD FS 418: Professional Practice Reflection/Discussion**

Cr. 0.5-2. Repeatable. F.S.

Discussion of professional practice experience.

**HD FS 418A: Professional Practice Reflection/Discussion: Teaching (0.5-0) Cr. 0.5. F.S.**

*Prereq: Concurrent enrollment in HD FS 417*

Discussion of HD FS 417 student teaching field experience. Offered on a satisfactory-fail basis only.

**HD FS 418B: Professional Practice Reflection/Discussion: Internships (2-0) Cr. 2. F.S.**

*Prereq: HD FS 218; Junior or Senior classification*

Process and development of skills necessary for professional preparation and practice including career planning, resume writing, and interviewing. Strategies for successful career management. Offered on a satisfactory-fail basis only.

**HD FS 449: Program Evaluation and Proposal Writing**

(3-0) Cr. 3. F.S.

*Prereq: Junior or Senior classification*

Theory and practice of program evaluation and proposal writing in human services including needs assessment, outcome development and measurement, and proposal components. Assessment of programs' success in meeting goals.

**HD FS 455: Curriculum and Interventions: Ages 3 through 6 Years**

(3-3) Cr. 4. F.S.

*Prereq: HD FS 343; HD FS 345; SP ED 405; SP ED 458*

Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teaming with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings. Practicum.

**HD FS 456: Working with Families in Early Intervention**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 340 or HD FS 344 or Permission of Instructor*

Applying family systems theory and family centered principles in early intervention. Understanding the impact of disability on families and young children. Utilizing strategies for delivering family-centered interventions and service coordination in home-based and natural environments. Building trusting relationships, teaming with families and interdisciplinary colleagues to create, implement, and evaluate Individualized Family Service Plans (IFSPs) for children birth to age three. Understanding foundations of theory and policy and empowering families through effective supports and services. Experiences with families.

**HD FS 479: Family Dynamics Through a Social and Cultural Lens**

(3-0) Cr. 3. F.S.

*Prereq: (HD FS 102 or PSYCH 230); (HD FS 369 or Permission of Instructor); Junior or Senior classification*

Exploration of social and cultural factors that influence family dynamics. Outcomes for families examined through a social justice lens. Students will examine how their social and cultural contexts impact their work within their chosen careers.

**HD FS 482: Family Savings and Investments**

(3-0) Cr. 3. F.

*Prereq: ECON 101; HD FS 383; STAT 101*

Management of family financial resources; emphasis on savings and the investment planning process; issues facing financial planners who manage family assets. Identification of investment options including common stocks, fixed income securities, convertible securities, and related choices.

**HD FS 484: Estate Planning for Families**

(3-0) Cr. 3. S.

*Prereq: HD FS 283*

Study of estate planning focusing on efficient conservation and transfer of wealth, consistent with client's goals. Legal, tax, financial and non-financial aspects of estate planning process; trusts, wills, probate, advanced directives, charitable giving, wealth transfers and related taxes.

**HD FS 485: Capstone: Family Financial Planning**

(3-0) Cr. 3. S.

*Prereq: (FIN 361 or HD FS 384); HD FS 341; HD FS 378; HD FS 383; HD FS 482*

Development and refinement of competencies required by personal financial planners to work with individuals and families in meeting financial objectives. Utilization of skills obtained in financial planning emphasis to complete one or more financial planning narratives.

**HD FS 486: Administration of Human Services Programs**

(3-0) Cr. 3. F.S.

*Prereq: HD FS 369; 3 additional credits in HD FS at 300 level or above; Junior or Senior classification*

Examination of purpose, policies, staffing, operations, and clientele of organizations serving children, adults and families with diverse needs. Management/leadership principles and techniques. Introduction to financial management. Administrators/supervisors roles in employee management as well as development of client-oriented programs, fundraising, goal setting, strategic planning, and advocacy.

**HD FS 489: Financial Counseling**

(Dual-listed with HD FS 589). (2-0) Cr. 2. F.

*Prereq: HD FS 489: HD FS 283, HD FS 589: Graduate classification*

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

**HD FS 489L: Financial Counseling Laboratory**

(Dual-listed with HD FS 589L). (0-2) Cr. 1. Repeatable, maximum of 2 credits. F.

*Prereq: HD FS 489L: HD FS 283, HD FS 589: Graduate classification*

Hands-on financial counseling experience using preventative, remedial, and productive strategies in one-on-one and/or group situations. Students work with clients to develop diverse and inclusive decision-making and problem-solving methods to achieve goals or to remove barriers.

**HD FS 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*

Consult department office for procedure.

**HD FS 490H: Independent Study: Honors**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*

Consult department office for procedure.

**HD FS 490I: Independent Study: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq: 6 credits in HD FS; Permission of Instructor*

Consult department office for procedure.

**HD FS 491: Internship**

Cr. 4-9. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: HD FS 418B; Senior classification; minimum 2.0 cumulative GPA;*

*Department Permission*

Supervised work experience related to the student's curriculum. Offered on a satisfactory-fail basis only.

**HD FS 493: Workshop**

(Dual-listed with HD FS 593). Cr. arr. Repeatable. F.S.SS.

*Prereq: Senior classification*

Workshop in HD FS.

**HD FS 499: Research**

Cr. arr. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Supervised research experience.

**Courses primarily for graduate students, open to qualified undergraduates:**

**HD FS 501: Graduate Studies, Research, and Ethics in HD FS**

(2-0) Cr. 2. F.

*Prereq: Admission to HD FS Graduate program*

Overview of graduate study, research, ethics, and professional development in the field of human development and family studies. Curriculum, programs of study, portfolios, faculty research interests, dissemination of research, career planning, and teaching discussed.

**HD FS 502: Professional Development in Human Development and Family Studies**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: graduate classification; HD FS 501*

Overview of professional skills, portfolio building, preparation for academic and nonacademic jobs, leadership fundamentals and project management training, time management, work balance issues, and professional ethics. Opportunities for graduate students to work on their professional development tailored to individual needs of students. Develop an individual professional portfolio.

**HD FS 503: Introduction to Research Design**

(4-0) Cr. 4. F.

*Prereq: Permission of instructor*

Basic research skills including developing research questions, posing testable hypotheses, determining appropriate data collection and analyses, and identifying the benefits and limitations of various sampling strategies. Measurement theory, observational assessments, survey research, experimental and quasi-experimental designs, analysis of secondary data, and qualitative research methods.

**HD FS 504: Qualitative Research Methods**

(3-0) Cr. 3. S.

*Prereq: 9 credits of social sciences or permission of instructor*

Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.

**HD FS 505: Application of Quantitative Research Methods**

(3-0) Cr. 3. S.

*Prereq: HD FS 503 or permission of instructor*

Descriptive and inferential statistics, hypothesis testing, scales of measurement, comparisons of proportions, correlations between variables, the t distribution, analysis of variance, and multiple regression.

**HD FS 510: Theories of Human Development**

(3-0) Cr. 3. F.SS.

*Prereq: 9 credits of social sciences or permission of instructor*

Theoretical approaches and current research in child, adolescent, and adult development. Individual life span perspectives. Implications for research, policy and practice. (Summer course offering is on-line).

**HD FS 511: Family Theory**

(3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Implications for research, policy and practice.

**HD FS 530: Perspectives in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. F.

Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

**HD FS 534: Adult Development**

(Cross-listed with GERON). (3-0) Cr. 3. S.

Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

**HD FS 538: Developmental Disabilities**

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: 9 credits in human development and family studies or psychology or permission of instructor*

Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families. (on-line course offering via Distance Education).

**HD FS 541: Housing and Real Estate in Family Financial Planning**

(Cross-listed with FFP). (3-0) Cr. 3. Alt. SS., offered even-numbered years.

The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

**HD FS 545: Economics, Public Policy, and Aging**

(Cross-listed with GERON). (3-0) Cr. 3. F.

Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

**HD FS 555: Current Issues and Research in Early Childhood Services**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Analysis of contemporary and historical early childhood/early intervention/early childhood special education model programs and services. Examination of relationships among service systems and implementation, program quality, teacher effectiveness, and outcomes for children with and without disabilities. (on-line course offering via Distance Education).

**HD FS 563: Environments for the Aging**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies or permission of instructor*

Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

**HD FS 566: Family Policy**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 6 credits in social sciences or permission of instructor*

An introduction to policy for family researchers and practitioners. Examination of relevant policies through a family lens via discussion of theory and student interests in current and enduring family policies and programs. Descriptions of work roles in family policy and the interaction of family researchers and policymakers.

**HD FS 567: Family Stress, Abuse, and Illness**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Explores research related to family stress within romantic, parent-child, and sibling relationships. Examines contemporary theory and research on the nature, causes, and consequences of family stressors. These stressors include, but are not limited to economic distress; physical and emotional abuse; substance abuse; and mental and physical illness across the life span. (on-line course offering via Distance Education).

**HD FS 568: Individual and Family Assessment**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Use of interviews, observational assessments, direct tests with individuals and families for research and intervention. Opportunities to practice assessments.

**HD FS 575: Cross-cultural Perspectives about Families and Children**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: 6 credits in social sciences or permission of instructor*

Review of current research regarding family diversity including an examination of cultural and structural influences on the development and well-being of families and children. Discussion of the impact on human rights and social justice. (on-line course offering via Distance Education).

**HD FS 577: Aging in the Family Setting**

(Cross-listed with GERON). (3-0) Cr. 3. S.

*Prereq: 9 credits in social sciences or permission of instructor*

Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

**HD FS 579: Family Well-being Across the Lifespan**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Review of current research to provide a theoretical and practical understanding of the economic, social, and psychological factors that influence interpersonal relationships and individual well-being within the institution of the family system. Economic and policy effects considered. (on-line course offering via Distance Education).

**HD FS 581: International Study in Human Development and Family Studies**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581A: International Study in HD FS: Practicum**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581B: International Study in HD FS: Exchange**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 581C: International Study in HD FS: Group Study**

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: Permission by application*

Limited enrollment. Supervised international study experiences in Human Development and Family Studies. Countries vary.

**HD FS 583: Investing for the Family's Future**

(Cross-listed with FFP). (3-0) Cr. 3. F.

Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family's overall financial and economic goals to help inform investment choices.

**HD FS 584: Program Evaluation and Research Methods in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. S.

Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

**HD FS 585: Program Evaluation**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 6 credits in graduate level social sciences or permission of instructor*

Theoretical and practical issues related to design and implementation of program evaluation in social sciences. Includes theory, design, implementation, analysis and proposal writing to assist programs to be successful in meeting program goals.

**HD FS 588: Family, Income, and the Economy**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: 9 credits in social sciences or permission of instructor*

Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

**HD FS 589: Financial Counseling**

(Dual-listed with HD FS 489). (2-0) Cr. 2. F.

*Prereq: HD FS 489: HD FS 283, HD FS 589: Graduate classification*

Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

**HD FS 589L: Financial Counseling Laboratory**

(Dual-listed with HD FS 489L). (0-2) Cr. 1. Repeatable, maximum of 2 credits. F.

*Prereq: HD FS 489L: HD FS 283, HD FS 589: Graduate classification*

Hands-on financial counseling experience using preventative, remedial, and productive strategies in one-on-one and/or group situations. Students work with clients to develop diverse and inclusive decision-making and problem-solving methods to achieve goals or to remove barriers.

**HD FS 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor*

Consult department office on procedure for filing a written plan of study.

**HD FS 590I: Special Topics: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq: Permission of instructor*

Consult department office on procedure for filing a written plan of study.

**HD FS 590R: Special Topics**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Consult department office on procedure for filing a written plan of study.

**HD FS 591: Internship**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 10 graduate credits*

Supervised experience in an area of human development and family studies.

**HD FS 591I: Internship: Human Development and Family Studies**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 10 graduate credits*

Supervised experience in an area of human development and family studies.

**HD FS 593: Workshop**

(Dual-listed with HD FS 493). Cr. arr. Repeatable. F.S.SS.

*Prereq: Senior classification*

Workshop in HD FS.

**HD FS 594: Professional Seminar in Gerontology**

(Cross-listed with GERON). (3-0) Cr. 3. SS.

An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.

**HD FS 599: Creative Component**

Cr. arr. F.S.SS.

*Prereq: 9 graduate credits in HD FS*

Nonthesis creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor).

**Courses for graduate students:****HD FS 603: Advanced Quantitative Methods**

(3-0) Cr. 3. F.

*Prereq: HD FS 503, HD FS 505; STAT 402 or STAT 404 or permission of instructor*

Methodological and analytical issues in research in human development and family studies. Advanced research design and measurement, selection of statistical techniques, and issues in the interpretation of findings.

**HD FS 604: Advanced Qualitative Methods**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 504 or permission of instructor*

Research methodologies including phenomenology, grounded theory, ethnography, and case studies. Methods of data collection and analysis procedures. Issues of ethics and interpretation of findings. (on-line course offering via Distance Education).

**HD FS 605: Multi-level Modeling**

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 503 and HD FS 505 or STAT 404 or permission of instructor*

Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves.

**HD FS 606: Advanced Structural Equation and Longitudinal Modeling**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 603 or STAT 404 or permission of instructor*

Rationale for and interpretation of advanced structural equation modeling for the analysis of longitudinal data. Emphasis will be placed on developing a working familiarity with some of the common statistical procedures, coupled with their application through the use of statistical software.

**HD FS 607: Mixed Methods**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 503, HD FS 504, HD FS 505, or permission of instructor*

Foundations of mixed methods research, controversies, and philosophical concerns. Rationale for and interpretation of mixed methods designs. Research design, sampling, data collection, data analysis, results, and interpretation. (on-line course offering via Distance Education).

**HD FS 608: Grant Writing for Research**

(3-0) Cr. 3. F.

*Prereq: HD FS 503, HD FS 505, and HD FS 504 or permission of instructor*

Understand how to identify funding sources as well as the fundamental components of a federal research grant proposal such as the abstract or summary, background and significance, specific aims/goals and objectives, project design and methods, sustainability, assessment, broader impacts, dissemination, budget, budget justification, and cover letter.

**HD FS 616: Seminar**

Cr. arr.

May be repeated. F.S.SS.

**HD FS 631: Child Health and Development**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Young children's cognitive, physical, communication, and social-emotional health and development will be examined. Both typical and atypical trajectories will be explored. Research on current trends in the field will be emphasized. (on-line course offering via Distance Education).

**HD FS 632: Behavioral Interventions in Early Childhood**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Issues related to behavioral development and needs of children ages 3-8. Design and implementation of group and individual behavioral interventions. Discussion of coaching strategies to improve intervention implementation. (on-line course offering via Distance Education).

**HD FS 633: Infant Mental Health**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Examination of the individual, interpersonal, and familial factors that influence infant (birth through age 3) mental health. Analysis of the risk and protective factors that influence these systems and their potential effects on social-emotional development. Current issues relating to effective programs for improving parent-infant interactions and additional supports available to families. (on-line course offering via Distance Education).

**HD FS 634: Adolescent and Emerging Adult Health and Development**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Theory and research on biopsychosocial, cognitive, physical and sexual health and development from early adolescence to emerging adulthood. Contexts of development including families, peers, schools, neighborhoods, romantic relationships, economics and public policies are considered. (on-line course offering via Distance Education).

**HD FS 635: Adult Development, Aging, and Health**

(Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor*

Review of the impact of the growing older adult population as well as individual development and aging on individuals, families, and society. Exploration of theoretical perspectives applied to adult development and aging and distinction of normative and non-normative changes in adulthood. Discussion of methods to assess development across adulthood and consideration of the role of individual and environmental factors impacting efforts to optimize adult development.

**HD FS 640: Biomarkers and Family Research**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: HD FS 510 or permission of instructor.*

Research on the biological underpinnings of human development and the biobehavioral health of the family. Exposure to interdisciplinary research and practice on biomarkers in the family, with particular emphasis on health-and well being-related measures. Application of biomarker collection, measurement, analysis and dissemination.

**HD FS 690: Advanced Topics**

Cr. arr. Repeatable.

*Prereq: Permission of instructor and enrollment in Ph.D. program*

**HD FS 690I: Advanced Topics: Human Development and Family Studies**

Cr. arr. Repeatable.

*Prereq: Permission of instructor and enrollment in Ph.D. program*

**HD FS 691: Internship**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in the following specified areas.

Offered on a satisfactory-fail basis only.

**HD FS 691A: Internship: College Teaching**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in college-level teaching. Offered on a satisfactory-fail basis only.

**HD FS 691B: Internship: Research**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in conducting research. Offered on a satisfactory-fail basis only.

**HD FS 691D: Internship: Professional Experience**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Supervised practice and experience in relevant professional experiences. Offered on a satisfactory-fail basis only.

**HD FS 699: Research**

Cr. arr. Repeatable.

Thesis and dissertation research. Offered on a satisfactory-fail basis only.

**HD FS 699I: Research: Human Development and Family Studies**

Cr. arr. Repeatable.

Thesis and dissertation research. Offered on a satisfactory-fail basis only.

## Kinesiology

### Mission

We promote health and well-being by creating and disseminating knowledge about physical activity and active living. Through discovery, learning and engagement we improve the lives of citizens of Iowa, the United States and the world.

### Goals

The department has identified the following goals to support this mission:

1. We seek to improve the lives of citizens of Iowa, the United States, and the world by the creation and dissemination of knowledge about physical activity and its relationship to health and well-being.
2. We prepare scholars and professionals in the study of physical activity at the undergraduate and graduate levels.

3. We educate the public and the University community in the scientific aspects of physical activity especially exercise, sport, and the role of movement throughout the lifespan.

## UNDERGRADUATE STUDY

The Department of Kinesiology offers a Bachelor of Science degree in Kinesiology & Health. The undergraduate curriculum major/option is comprised of three components: general education, required departmental courses and the major/option courses. The intent of the general education component is to promote intellectual and personal growth and to prepare students for success in the basic, advanced and major/option components. Required courses provide an introduction to the field and fundamental principles of physical activity, fitness, health and disease.

### B.S. degree in Kinesiology & Health

The Kinesiology & Health major includes five specialization options. Options comprise a focused area of study within Kinesiology and Health. Coursework within each specialization option builds upon personal and scholarly learning by enabling students to master content and skills specific to career applications. Options available are:

1. Community and Public Health
2. Exercise Science
3. Physical Activity and Health Promotion
4. Physical Education Teacher Education
5. Pre-Health Professions

#### Academic options within the Kinesiology & Health major

Students in the **Community and Public Health** option are prepared for professional employment at local, state or national health agencies, medical centers, and other public or private organizations that seek to promote health in the population.

Students in the **Exercise Science** option are prepared for professional roles as health and fitness leaders or program managers. Employment opportunities include work in corporate fitness programs, health/fitness facilities, clinics, or hospitals. Graduates are able to plan, implement and supervise exercise programs which will improve fitness and health. Graduates also have a basic understanding of management issues related to business applications in the health and fitness field.

Students in the **Physical Activity and Health Promotion** option are prepared for careers focused on health and physical activity. This option provides more emphasis on behavioral and psychological aspects of physical activity. Students are prepared for careers in community based settings, including work sites, schools, hospitals, and other community agencies.

Students in the **Physical Education/Teacher Education** option are prepared to teach physical education in grades K-12 and to meet the

State of Iowa learning outcomes for teachers. Graduates can plan developmentally appropriate physical education, and individualize instruction and assessment for diverse audiences.

Students in the **Pre-Health Professions** option utilize an interdisciplinary approach to the study of human movement. In so doing, they become prepared for graduate study in Kinesiology or advanced study leading to careers in human medicine, physical therapy, physician assistant or other healthcare professions.

## Student Learning Outcomes for the Undergraduate Degree

Despite the diversity of options, the learning outcomes comprise a common framework for each student as they progress through Iowa State University.

The learning outcomes emphasized in academic coursework in the Department of Kinesiology are:

### COMMUNICATION

Uses clear and effective written, oral, visual, and electronic (WOVE) communication techniques to foster inquiry, collaboration, and engagement in physical activity and health related settings.

### LIFELONG LEARNING, ASSESSMENT, AND SELF-REFLECTION

Analyzes and evaluates one's own knowledge, abilities and actions relative to professional standards, seeks opportunities to grow professionally, and utilizes self-assessment and assessment of others to foster physical, cognitive, social, and emotional well-being.

### CONTENT KNOWLEDGE, DISCOVERY, AND CRITICAL THINKING

Understands fundamental concepts of physical activity and health, conducts scientific inquiry, and applies critical thinking to solve problems from personal, scholarly, and professional perspectives.

### ETHICS, DIVERSITY, AND SOCIAL JUSTICE

Demonstrates leadership and social responsibility to improve quality of life for others and ensures equitable access for diverse groups by creating appropriate environments to initiate and maintain a physically active, healthy lifestyle.

## Other Program Offerings:

### ENDORSEMENT TO COACH INTERSCHOLASTIC ATHLETICS

The State Department of Education has provided for the endorsement of licensed teachers for the coaching of athletic teams in schools. The endorsement does not lead to licensure to teach physical education. For requirements of the program, leading to the coaching endorsement, see School of Education, Teacher Education. More information can be found at: <http://www.kin.hs.iastate.edu/>

### ENDORSEMENT TO TEACH HEALTH EDUCATION

Those interested in teaching health education in the public schools may get a primary licensure or an additional endorsement. The State

Department of Education has approved the Health Teaching Licensure for grades 5-12.

### BASIC ACTIVITY INSTRUCTION PROGRAM

The department offers a wide selection of beginning, intermediate, and advanced courses in the areas of aquatics, dance, fitness, martial arts, and sports. These courses are designed to serve general education purposes for all students.

### DANCE

Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those interested in teaching dance and physical education in the public schools may major in Kinesiology and Health (Physical Education Teacher Education) and minor in Dance.

An interdisciplinary Performing Arts major with a Dance emphasis is available through the College of Liberal Arts and Sciences. For further information see Index: Performing Arts to find Performing Arts Major, Emphasis in Dance.

## Curriculum in Athletic Training

The athletic training major prepares students for a career as an athletic trainer in high school, college or professional settings or for work in other settings (such as sports medicine clinics, the military, industry, and fitness centers). Program details including course requirements, admission procedures and technical standards can be found at <http://www.kin.hs.iastate.edu/programs/athletic-training/#program-information-and-requirements>.

## Curriculum in Kinesiology and Health

The curriculum in Kinesiology and Health is designed for students preparing to enter professional areas related to the medical, health, physical activity, exercise or sport science fields. Students majoring in Kinesiology & Health may select one of five options:

1. Community and Public Health
2. Exercise Science
3. Physical Activity and Health Promotion
4. Physical Education Teacher Education
5. Pre-Health Professions

Minors in dance, exercise science, health promotion, and kinesiology, are available; see requirements under Kinesiology, Undergraduate Programs.

A major in Performing Arts with a dance emphasis is available; see requirements under Curriculum in Performing Arts Program, Dance.

### Communication Proficiency

In order to meet graduation requirements, all students must earn an average of C (2.0) or better in ENGL 150 and ENGL 250, with the ENGL

150 grade being no lower than a C- and the ENGL 250 grade no lower than a C. Students not meeting this condition must earn a C or better in an advanced writing course:

ENGL 302	Business Communication	3
or ENGL 314	Technical Communication	
LIB 160	Introduction to College Level Research	1
SP CM 212	Fundamentals of Public Speaking	3

## U.S. Diversity and International Perspectives

In order to meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives.

KIN 360 meets the U.S. Diversity requirement and Dance 270 meets the International Perspectives requirement. See university approved list for other courses.

## General Education:

### Physical and Life Sciences:

BIOL 255	Fundamentals of Human Anatomy	3
BIOL 255L	Fundamentals of Human Anatomy Laboratory	1
BIOL 256	Fundamentals of Human Physiology	3
BIOL 256L	Fundamentals of Human Physiology Laboratory	1

### Additional option-specific requirements are: Community and Public Health

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
CHEM 163	College Chemistry	4
CHEM 163L	Laboratory in College Chemistry	1
FS HN 167	Introductory Human Nutrition and Health	3
MICRO 201	Introduction to Microbiology	2
MICRO 201L	Introductory Microbiology Laboratory	1

### Exercise Science

FS HN 167	Introductory Human Nutrition and Health	3
PHYS 115	Physics for the Life Sciences	4

### Physical Activity and Health Promotion

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
CHEM 163	College Chemistry	4
CHEM 163L	Laboratory in College Chemistry	1
FS HN 167	Introductory Human Nutrition and Health	3
MICRO 201	Introduction to Microbiology	2
MICRO 201L	Introductory Microbiology Laboratory	1

### Physical Education Teacher Education

PHYS 115	Physics for the Life Sciences	4
----------	-------------------------------	---

### Pre-Health Professions

PHYS 131	General Physics I	4-5
& 131L	and General Physics I Laboratory	
or PHYS 115	Physics for the Life Sciences	

### Mathematics and Statistics: Community and Public Health

From the following: 3-4

STAT 101	Principles of Statistics
or STAT 104	Introduction to Statistics

### Exercise Science

From the following: 3-4

MATH 140	College Algebra
or MATH 141	Preparation for Calculus
or MATH 142	Applied Trigonometry
or MATH 161	Calculus I

From the following: 3-4

STAT 101	Principles of Statistics
or STAT 104	Introduction to Statistics

### Physical Activity and Health Promotion

One of the following: 3-4

STAT 101	Principles of Statistics
or STAT 104	Introduction to Statistics

### Physical Education Teacher Education

One of the following: 3-4

MATH 104	Introduction to Probability
or MATH 141	College Algebra
or STAT 101	Principles of Statistics
or STAT 104	Introduction to Statistics

### Pre-Health Professions

One of the following: 3-4

MATH 140	College Algebra
or MATH 141	Preparation for Calculus
or MATH 142	Applied Trigonometry
or MATH 161	Calculus I

From the following: 3-4

STAT 101	Principles of Statistics
or STAT 104	Introduction to Statistics

### Social Sciences: 9 cr. min required

#### Option-specific requirements are:

#### Community and Public Health

PSYCH 101	Introduction to Psychology	3
PSYCH 230	Developmental Psychology	3
SOC 134	Introduction to Sociology	3

**Exercise Science**

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
SOC 134	Introduction to Sociology	3

**Physical Activity and Health Promotion**

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
SOC 134	Introduction to Sociology	3

**Physical Education Teacher Education**

PSYCH 230	Developmental Psychology	3
SOC 134	Introduction to Sociology	3

**Pre-Health Professions**

PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
SOC 134	Introduction to Sociology	3

**Humanities: 6 cr. min required**

Choose from department approved list.

**Communications: 13 cr. min required**

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Introduction to College Level Research	1
SP CM 212	Fundamentals of Public Speaking	3
One of the following		3
ENGL 302	Business Communication	
or ENGL 314	Technical Communication	
or SP CM 31	Business and Professional Speaking	

**Program requirements:**

The following courses are required in all majors and options:

H S 110	Personal and Consumer Health	3
H S 350	Human Diseases (*)	3
KIN 252	Introduction to the Discipline of Kinesiology	1
KIN 253	Orientation and Learning Community in Kinesiology and Health	1
KIN 258	Principles of Physical Fitness and Conditioning	2
KIN 358	Exercise Physiology (*)	3
KIN 359	Exercise Physiology Lab (*)	1

\* A grade of C- or better is required.

Total cr. required to graduate: A minimum of 124 credits is required, with a minimum of 46 credits in courses numbered 300 or above.

**Courses for Kinesiology and Health Major**  
**Option 1. Community and Public Health**

This option prepares students for a diverse array of careers in public and private health agencies as well as local, state and federal government programs. Students are qualified for careers in a variety of health and human service agencies, community organizations, and hospitals. This option also provides the ideal background training for credentials as a Certified Health Education Specialist (CHES).

Option Requirements:

P R 220	Principles of Public Relations	3
or P R 305	Publicity Methods	
H S 105	First Aid and Emergency Care	2
H S 285	Pre-Internship in Kinesiology and Health	1-2
KIN 360	Sociology of Physical Activity and Health (*)	3
H S 310	Community and Public Health (*)	3
H S 385	Preparation and Search Strategies for Kinesiology and Health Internships	0.5
H S 430	Community Health Program Development	3
H S 464	Physical Activity Epidemiology	3
or VDPAM 428	Principles of Epidemiology and Population Health	
H S 485A	Internship in Health Studies: Community and Public Health	8-12
HD FS 270	Family Communications and Relationships	3
HD FS 449	Program Evaluation and Proposal Writing	3
or ENGL 309	Proposal and Report Writing	
PSYCH 485	Health Psychology	3
One of the following		
HD FS 377	Aging and the Family	3
or HD FS 395	Children, Families, and Public Policy	
Electives: 8-12 credits		

\* A grade of C- or better is required.

**Option 2. Exercise Science**

This option prepares students for careers in exercise/fitness promotion. Students are prepared as health/fitness specialists, personal trainers, strength and conditioning specialists, and health coaches. Students find work in fitness centers, worksite health programs, medical facilities, cardiac rehabilitation centers, and other agencies that provide fitness services. Students are eligible to sit for certification exams offered by the American College of Sports Medicine and the National Strength & Conditioning Association.

Option Requirements:

KIN 259	Leadership Techniques for Fitness Programs	3
---------	--	---

KIN 266	Advanced Strength Training and Conditioning	2
KIN 285	Pre-Internship in Kinesiology and Health	1-2
KIN 345	Management of Health-Fitness Programs and Facilities	3
KIN 355	Biomechanics (*)	3
KIN 366	Exercise Psychology (*)	3
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 373	Biomechanics and Motor Control Laboratory	1
KIN 385	Preparation and Search Strategies for Kinesiology and Health Internships	0.5
KIN 458	Principles of Fitness Assessment and Exercise Prescription (*)	4
KIN 459	Internship in Exercise Leadership	1
KIN 462	Medical Aspects of Exercise	3
KIN 480	Functional Anatomy	3
KIN 485A	Internship in Exercise Science	8-12
H S 380	Worksite Health Promotion	3
A TR 220 or H S 305	Basic Athletic Training Instructor's First Aid and Cardiopulmonary Resuscitation	2
Electives: 12-16 credits		

\* A grade of C- or better is required.

### Option 3. Physical Activity and Health Promotion

This option prepares students for a variety of career outlets focused on health and physical activity promotion. The coursework provides the ideal background for students interested in worksite wellness programming. Students are also well suited to pursue career opportunities in health coaching and health promotion in schools, community agencies, as well as clinical settings. This option provides ideal background training for students interested in pursuing the Physical Activity in Public Health Specialist Certification offered by the American College of Sports Medicine.

Option Requirements:

FS HN 365	Obesity and Health	3
H S 285	Pre-Internship in Kinesiology and Health	1-2
H S 310	Community and Public Health (*)	3
H S 380	Worksite Health Promotion	3
H S 385	Preparation and Search Strategies for Kinesiology and Health Internships	0.5
H S 430	Community Health Program Development	3
H S 464	Physical Activity Epidemiology	3

H S 485B	Internship in Health Studies: Physical Activity and 8-12 Health Promotion	
KIN 259	Leadership Techniques for Fitness Programs	3
KIN 360	Sociology of Physical Activity and Health (*)	3
KIN 366	Exercise Psychology (*)	3
KIN 458	Principles of Fitness Assessment and Exercise Prescription (*)	4
KIN 467	Exercise and Health: Behavior Change	3

Electives: 15-19 credits

\* A grade of C- or better is required.

### Option 4. Physical Education Teacher Education

This option is for students seeking a license to teach K-12 physical education. All courses required for licensure have a minimum grade requirement of a C or C-. Students interested in a coaching and/or a health endorsement must complete additional coursework.

Option Requirements:

KIN 231	Fundamentals of Tumbling and Gymnastics (*)	1
KIN 232	Fundamentals of Team Sports (*)	1
KIN 236	Fundamentals of Individual Sports and Fitness (*)	1
KIN 259	Leadership Techniques for Fitness Programs	3
KIN 280	Directed Field Experience in Elementary Physical Education	1
KIN 281	Directed Field Experience in Secondary Physical Education	1
KIN 282	Field Experience with Educational Outreach	1
KIN 312	Movement Education in Elementary School Physical Education (**)	3
KIN 313	Teaching Secondary Physical Education (**)	3
KIN 355	Biomechanics (*)	3
KIN 365 or KIN 366	Sport Psychology (*) Exercise Psychology	3
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 395	Adapted Physical Education (**)	3
KIN 417	Supervised Teaching in Physical Education in the Secondary School (**)	8
KIN 418	Supervised Teaching in Physical Education in the Elementary School (**)	8
KIN 471	Measurement in Physical Education (**)	3
KIN 475	Physical Education Curriculum Design and Program Organization (**)	3
DANCE 211	Fundamentals and Methods of Social and World Dance (*)	1

EDUC 204	Social Foundations of Education in the United States: Secondary	3
EDUC 406	Social Justice Education and Teaching: Secondary	3
H S 105	First Aid and Emergency Care (*)	2
H S 305	Instructor's First Aid and Cardiopulmonary Resuscitation (*)	2
Electives: 5 credits		

\* A grade of C- or better is required.

\*\* A grade of C or better is required.

## Option 5. Pre-Health Professions

This option is for students interested in graduate study or for those who are preparing for professional programs in medicine, physical therapy, physician assistant, and other healthcare professions. Course work provides background in human movement while completing the requirements for entry into graduate or professional school.

Option Requirements:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
KIN 242	Planning for Success in a Health Career	0.5
KIN 355	Biomechanics (*)	3
KIN 365	Sport Psychology (*)	3
or KIN 366	Exercise Psychology (*)	
KIN 372	Motor Control and Learning Across the Lifespan (*)	3
KIN 373	Biomechanics and Motor Control Laboratory	1
9 cr. from the following		9
H S 464	Physical Activity Epidemiology	3
KIN 455	Research Topics in Biomechanics	3
KIN 458	Principles of Fitness Assessment and Exercise Prescription	4
KIN 462	Medical Aspects of Exercise	3
KIN 466	Exercise for Mental Health	3
KIN 467	Exercise and Health: Behavior Change	3
KIN 472	Neural Basis of Human Movement	3
KIN 473	Physical Dimensions of Aging	3
KIN 480	Functional Anatomy	3

Specialization Requirements: Other prerequisites as required by professional schools.

Electives: 6-14 credits

\* A grade of C- or better is required.

## FOUR YEAR PLANS

Students must complete a 3-credit course in US diversity and a 3-credit course in international perspectives. Check the ISU homepage for a list of approved courses. You must complete a minimum of 46 credits in 300/400 level courses and a total of 124 credits for graduation. Four year plans are arranged with courses in prerequisite sequence and within the term a course is usually offered. These are SAMPLE plans - use the degree audit as "official" documentation of progress toward your degree.

## Minors

### Dance

The minor requires a minimum of 15 credits and may be earned by completing the following:

6 cr. from the following:

DANCE 270	Dance Appreciation	3
DANCE 320	Sound and Movement	3
DANCE 360	History and Philosophy of Dance	3

4 cr. from the following:

DANCE 220	Modern Dance Composition	2
DANCE 384	Teaching Children's Dance	2
DANCE 385	Methods of Teaching Dance	2
DANCE 386	Teaching Dance Technique and Composition	2

5 cr. from the following:

DANCE 222	Modern Dance II	1
DANCE 223	Modern Dance III	1
DANCE 224	Concert and Theatre Dance	1

DANCE 232	Ballet II	1
DANCE 233	Ballet III	1
DANCE 242	Jazz II	1
DANCE 250	Yoga Movement	1
DANCE 370	Advanced Studies in Dance	1
DANCE 490	Independent Study	1

### **Exercise Science**

The minor requires a minimum of 18 credits and may be earned by completing the following:

KIN 258	Principles of Physical Fitness and Conditioning	2
KIN 358	Exercise Physiology	3
KIN 359	Exercise Physiology Lab	1
KIN 366	Exercise Psychology	3
KIN 458	Principles of Fitness Assessment and Exercise Prescription	4
5 cr. from the following		
A TR 220	Basic Athletic Training	
KIN 259	Leadership Techniques for Fitness Programs	
KIN 266	Advanced Strength Training and Conditioning	
KIN 345	Management of Health-Fitness Programs and Facilities	
KIN 462	Medical Aspects of Exercise	
KIN 467	Exercise and Health: Behavior Change	

### **Health Promotion**

The minor requires a minimum of 18 credits and may be earned by completing the following:

H S 110	Personal and Consumer Health	3
H S 350	Human Diseases	3
H S 380	Worksite Health Promotion	3
3-6-cr. from the following		
H S 305	Instructor's First Aid and Cardiopulmonary Resuscitation	
H S 310	Community and Public Health	
3-6 cr. from the following		
H S 430	Community Health Program Development	
H S 464	Physical Activity Epidemiology	
KIN 467	Exercise and Health: Behavior Change	

### **Kinesiology**

The minor requires a minimum of 16 credits and may be earned by completing the following: (For non-majors only)

KIN 355	Biomechanics	3
KIN 358	Exercise Physiology	3
KIN 359	Exercise Physiology Lab	1
KIN 360	Sociology of Physical Activity and Health	3
KIN 372	Motor Control and Learning Across the Lifespan	3
KIN 365	Sport Psychology	3
or KIN 366	Exercise Psychology	

### **Gerontology**

The department participates in the interdepartmental minor in gerontology (see Index).

### **Health Coach Certificate**

Students pursuing a bachelor's degree in kinesiology can seek additional credentials through the Health Coach Certificate. More information on the certificate can be found at: Health Coach Certificate.

The Kinesiology Department offers two concurrent undergraduate and graduate programs.

### **B.S./M.A.T.R. degree in Athletic Training**

Certified Athletic Trainers are allied medical health professionals who specialize in the prevention, assessment, treatment and rehabilitation of injuries to athletes and physically active individuals who are engaged in physical and athletic activities. To gain certification, candidates must graduate from a CAATE accredited athletic training education program and successfully pass the Board of Certification (BOC) examination.

In addition to BOC certification, many states also have licensure requirements to practice athletic training. The Athletic Training program at Iowa State University, accredited since 2001 has transitioned to the new M.A.T.R. degree program, which includes various athletic training clinical rotations including high school, physical therapy clinics, surgical observation experiences, and emergency room observation.

More information on the B.S./M.A.T.R. degree in Athletic Training.

### **B.S./M.S. DEGREE IN DIET AND EXERCISE**

A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in Diet and Exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FS HN), and the Department of Kinesiology. Students interested in this program must enroll as freshmen in the Pre-Diet and Exercise program. In the fall of the junior year, students will apply for admission to the B.S./M.S. program. Students not accepted into the program will continue toward completion of a B.S. degree in Dietetics or Kinesiology & Health. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in Diet and Exercise.

More information can be found at: <https://fshn.hs.iastate.edu/find-your-major/diet-and-exercise/>

## Graduate Study

The Department of Kinesiology graduate program seeks to integrate discovery and learning by preparing graduate students to understand and create basic and applied knowledge in the study of physical activity, exercise and sport. The normal prerequisite to major graduate work is the satisfactory completion of a curriculum essentially equivalent to that required of undergraduate students in kinesiology at this university. However, it is possible for students to qualify for graduate study if undergraduate preparation has been in a related area.

Students in the M.S. and Ph.D. degrees are required to complete original research and write a thesis or dissertation. There is a non-thesis degree option for M.S. students requiring more coursework and an internship experience or other creative component. Specific information about the requirements for these degree options is available from the department office or from the department web site (<http://www.kin.hs.iastate.edu/graduate> (<http://www.kin.hs.iastate.edu/graduate/>)).

## Nursing OVERVIEW

The Bachelor of Science in Nursing (BSN) program at Iowa State University is a RN-to-BSN program, designed for those who are already a Registered Nurse (RN), and desire to further their nursing career and education to the next level. Iowa State's RN-to-BSN program provides interactive learning opportunities where students can apply their real-world experiences and education to inspire innovation in their places of care. RN-to-BSN students will be challenged to enhance health promotion and disease prevention, apply nursing science and evidenced-based patient-centered care, focus on the culture of health for nurses, individuals, and communities, and demonstrate the continuum of care, from a nurse's self-care to patient care to community and population health.

Students in the Bachelor of Science in Nursing program who wish to add an additional major, must pursue multiple degrees. Likewise, students in other programs who wish to add a Bachelor of Science in Nursing must pursue multiple degrees.

The baccalaureate nursing program at Iowa State University of Science and Technology located in Ames, Iowa is approved by the:

### Iowa Board of Nursing (IBON)

Riverpoint Business Park  
400 SW 8th St., Suite B  
Des Moines, IA 50309  
(515) 281-3255

The baccalaureate nursing program at Iowa State University of Science and Technology located in Ames, Iowa is accredited by the:

### Accreditation Commission for Education in Nursing (ACEN)

3390 Peachtree Road NE, Suite 1400  
Atlanta, GA 30326  
(404) 975-5000

The most recent accreditation decision made by the ACEN Board of Commissioners for the baccalaureate nursing program is initial accreditation.

View the public information disclosed by the ACEN regarding this program at <http://www.acenursing.com/accreditedprograms/programSearch.htm>

## Student Learning Outcomes

Upon graduation, students should be able to:

1. Synthesize theory and concepts from the arts and humanities, natural and social sciences, and nursing in the holistic practice of professional nursing.
2. Integrate knowledge of historical and contemporary nursing with leadership skills and principles to facilitate optimal patient and systems outcomes.
3. Translate research findings to support evidence-based, competent, safe, and effective nursing care to individuals, families, and communities in diverse settings across the lifespan.
4. Utilize current technology effectively and efficiently to communicate, manage knowledge, mitigate error, support decision making and accomplish goals related to the delivery of safe, quality care for diverse individuals, families, and the community.
5. Examine how healthcare policies, including financial and regulatory, influence healthcare systems, nursing practices and population health.
6. Incorporate principles of effective communication and collaboration when working with members of the health team, recipients of care and interested groups to improve health outcomes for individuals, groups and communities.
7. Integrate concepts of health promotion and disease management, health literacy and patient-centered care to improve population health.
8. Engage in professional, culturally competent, and ethically congruent care that reflects dignity and uniqueness of individuals and groups in diverse populations and locations.
9. Demonstrate a commitment to professionalism and model the values of advocacy, compassion, integrity, human dignity, cultural competence and social justice while embracing the concept of continuous learning.

## RN-to-BSN Admissions Criteria

Applications for the RN-to-BSN program are individually reviewed.

Minimum requirements for admission to the BSN program include:

- Licensure as a Registered Nurse
- Meet all Iowa State University admission criteria for transfer students
- Official college transcripts from all colleges and universities attended
- Minimum of 2.5 cumulative GPA for all college coursework
- Achievement of minimum "C" (not C-) for all prerequisite courses listed below

English Composition I and II (ENGL 150 and ENGL 250 equivalent)

Introduction to Chemistry (CHEM 163 or CHEM 1T equivalent)

Statistics (STAT 101 or STAT 104 equivalent)

Introduction to Human Nutrition (FS HN 167 equivalent)

Introduction to Sociology (SOC 134 equivalent)

Admissions requirements are congruent with the Iowa Action Coalition, RN-to-BSN Task Force Recommendations.

## RN-to-BSN Progression Criteria

- Must earn a "C" grade or better in all NRS courses and meet the university's academic standards for progress toward a degree

## RN-to-BSN Graduation Requirements

- At least 32 credits earned in residence at Iowa State University, and the final 32 credits taken through Iowa State University prior to graduation.
- All general education requirements at Iowa State University must be met.
- The BSN curriculum consists of 21 credits of NRS courses, 8 credits of FS HN courses, and 3 elective credits for a total of 32 credits in addition to prerequisite coursework.
- Electives are selected by students to meet identified career interests, and total elective credits needed will vary based on individual transfer credits.
- Minimum credits for graduation is 120 credits.

### International Perspectives: 3 cr.

### U.S. Diversity: 3 cr.

### Communications and Library: 10 cr.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Introduction to College Level Research	1
Oral Communication course, select from:		3
COMST 214 Professional Communication		
SP CM 212 Fundamentals of Public Speaking		

### Humanities and Social Sciences: 3 cr.

SOC 134	Introduction to Sociology	3
---------	---------------------------	---

### College of Human Sciences Students Only: Additional Humanities and Social Sciences: 9 cr.

Humanities courses from approve list <sup>1</sup>		6
Humanities or social science course		3

### College of Agriculture & Life Science Students Only: Additional Humanities and Social Sciences: 6 cr.

\*\* Denotes courses that may be taken before starting the nursing program.

Note Plan of study does not include any unmet ISU general education requirements.

## Nutritional Science (H SCI)

Nutritional science looks at the connection between diet and health.

Students learn how diet can play a crucial role in the cause, treatment, and prevention of many diseases. There are degree program focuses within nutritional science:

- Pre-health and research coursework prepares students for work in research laboratories, graduate study in nutrition or biological sciences, or entrance into health professional programs, such as medical, dental, physician assistant, and pharmacy schools. Students gain a strong science education along with human nutrition expertise.
- Health coach and nutrition and wellness coursework prepares students for work positions in program planning and evaluation for community, public health, non-profit, and corporate wellness programs addressing the growing public interest in nutrition, wellness, and preventative health. Students learn about the role of nutrition and healthy eating for disease prevention and wellness.

The department also offers a nutrition minor.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Communicate effectively in their field of study using written, oral, visual and/or electronic forms.
- Demonstrate proficiency in ethical data collection and interpretation, literature review and citation, critical thinking and problem solving.
- Participate effectively in a group or team.
- Integrate creativity, innovation, or entrepreneurship in ways that produce value.
- Describe sociocultural competence relative to diversity, equity and/or inclusion.
- Explain how human activities impact the natural environment and how societies are affected.
- Meet program specific learning outcomes for the Nutritional Science major.

The department also offers a nutrition minor.

## Degree Requirements

**Administered by the Department of Food Science and Human Nutrition**

- Pre-Health and Research Program Focus
- Health Coach Program Focus
- Nutrition and Wellness Program Focus

## PRE-HEALTH AND RESEARCH PROGRAM FOCUS

### Total Degree Requirement: 120 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

#### International Perspectives: 3 cr.

#### U.S. Diversity: 3 cr.

#### Communications and Library: 13 cr.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3

KIN 258	Principles of Physical Fitness and Conditioning	2
KIN 358	Exercise Physiology	3
KIN 458	Principles of Fitness Assessment and Exercise Prescription	4
PSYCH 101	Introduction to Psychology	3
or PSYCH 230	Developmental Psychology	
PSYCH 422	Counseling Theories and Techniques	3
PSYCH 485	Health Psychology	3

**Total Credits** 18

Select additional electives to reach 120 total semester credits.

**Additional courses for Nutrition & Wellness Program Focus: 18-30 credits of electives**

At least 9 credits of electives must be 300-400 level courses. Select from any university coursework to earn at least 120 total credits.

NOTE:

Students are encouraged to pursue a minor, such as:

- Communication studies
- Culinary food science
- Entrepreneurship
- Environmental studies
- Event management
- Exercise science
- Global health
- Health promotion
- Hospitality management
- Human development and family studies
- Leadership studies
- Sustainability

Go to FS HN courses.

More information on the Nutrition minor can be found here: <http://catalog.iastate.edu/collegeofagricultureandlifesciences/foodscienceandhumannutrition/#undergraduateminortext>.

The Department of Food Science and Human Nutrition offers a Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) in Nutritional Sciences. More information can be found here: <https://www.grad-college.iastate.edu/academics/programs/apresults.php?id=84>.

## Professional Practice in Dietetics

### Master of PROFESSIONAL PRACTICE IN DIETETICS (M.P.P.)

The Department of Food Science and Human Nutrition offers a 30-credit, non-thesis, online, professional master's degree with two possible tracks. Track 1 (RD2B track) is for individuals who are interested in becoming

Registered Dietitian Nutritionists and track 2 (DI track) is for graduates of a dietetic internship (DI) who wish to earn a master's degree. Students interested in further graduate study (PhD) may require additional coursework and/or research beyond the MPP to gain admission into a doctoral program.

The RD2B track is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Admission requirements for this MPP track include successful completion of at least a Bachelor's degree and a verification statement from any ACEND accredited didactic program in dietetics (DPD). A minimum GPA of 3.0 (on a 4.0 scale) both overall and in the DPD are desired. A professional goal statement ( $\leq 750$  words), three letters of recommendation from faculty, work supervisors or those who can attest to the applicant's ability to succeed in an online program in the field of dietetics are also required. Students in the DI track, must have successfully completed a graduate DI and may be eligible to transfer some of these graduate DI courses towards the MPP. The Graduate Record Examination (GRE) is not required for either track.

More information on the program can be found here: <https://www.grad-college.iastate.edu/academics/programs/apresults.php?id=140>.

## School of Education

Mary Gresham, Interim Director of the School of Education

School of Education (<http://www.education.iastate.edu>)

The School of Education at Iowa State University is committed to engaging in rigorous and socially meaningful research. We are preparing leaders and practitioners across the P-20 continuum who support rich, equitable learning opportunities for all students. Supporting public education as a cornerstone of a healthy, vibrant, and just society, the School of Education strives to be a national leader in educational theory, policy, and practice, as we honor the land-grant tradition and the broader mission of the university to serve the people of Iowa.

## Undergraduate Study

The School of Education provides the professional education coursework to support the completion of the Educator Preparation Program. Program completers can then be recommended for licensure to the Iowa Board of Education Examiners. Majors offered in the School include **Elementary Education (K-6)**, and **Early Childhood Education-Unified (birth through third grade, inclusive)**. The Early Childhood Education-Unified major is an interdepartmental program administered by the School of Education and the Department of Human Development and Family Studies. In addition, the School of Education offers the secondary major in Education. This secondary major is available to candidates pursuing English Education,

History/Social Sciences Education, Mathematics Education, Science Education, and World Languages and Cultures Education.

Undergraduate students who are interested in teaching at the secondary level (5-12) or at the K-12 level major in a specific discipline and either pursue the secondary major in Education or complete additional required educational coursework in the School of Education and the department to complete the Educator Preparation Program. K-12 and secondary education programs include: Agriculture Education, English Education, Family and Consumer Sciences Education, Health Education, History-Social Sciences Education, Mathematics Education, Music Education, Physical Education, Science Education (Biology, Chemistry, Earth Science, and Physics), and World Languages and Cultures Education (French, German, and Spanish).

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehixe12epxtekxax/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

All Educator Preparation Program candidates must complete the professional core coursework (information found under each program) and required pedagogy and field experience coursework for their program. In addition, all prospective teachers are required to meet general education requirements as a part of their preparation. They must complete studies in the following general education groups. General education courses may be found in many departments. Credits listed are minimum requirements. Specific departments and/or colleges may require specific coursework to meet these requirements or additional

credits. Credits used to satisfy these general education requirements typically satisfy department and college general education requirements:

For Educator Preparation general education requirements, please visit the School of Education website: <https://education.iastate.edu/current-students/educator-preparation-program/resources/curriculum-requirements/>.

## Early Childhood Education – Unified

The curriculum in Early Childhood Education – Unified prepares graduates to teach young children and work with their families. This program leads to careers working with young children (both those who are typically developing and those with special needs) from birth through third grade, inclusive. Program completers who apply for licensure are recommended for licensure to the Iowa Board of Educational Examiners. Individuals who are licensed may be employed by either public or private agencies or schools to teach in early childhood classrooms (preschool through 3rd grade) or in home-based programs. The program is an interdepartmental major administered by the Department of Human Development and Family Studies and the School of Education. For more information about the program, see Early Childhood Education - Unified Curriculum <https://hdfs.hs.iastate.edu/find-your-major/early-childhood-education/>.

Students who enroll in the early childhood education – unified program must apply to and be accepted into the Educator Preparation Program prior to enrolling in advanced courses. Admission requirements can be found at: <https://www.education.iastate.edu/educator-prep-program/admission/>.

Early Childhood Education majors must complete all of the required degree curriculum. This can be found at: [http://catalog.iastate.edu/collegeofhumansciences/earlychildhood\\_education/](http://catalog.iastate.edu/collegeofhumansciences/earlychildhood_education/)

**Candidates must receive a minimum of a “C” in all education (EDUC), human development and family studies (HD FS), special education (SP ED) courses and all content-specific pedagogy/methods courses required for program completion and endorsement completion.**

**Candidates must receive a minimum of a “C-” in all major department courses/content courses required for teacher program completion and endorsement completion (content coursework).**

Candidates can pursue an additional endorsement in K-8 reading. Information about this endorsement can be found at: <https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf/>)

Contact an Early Childhood Education academic advisor for additional information.

## Elementary Education

The undergraduate curriculum in elementary education leads to the Bachelor of Science degree. The curriculum in elementary education is designed for candidates preparing to teach at the elementary school level. This program leads to careers in working with school-aged children in kindergarten through sixth grade. Program completers who apply for licensure are recommended for licensure to the Iowa Board of Educational Examiners. Individuals who are licensed will be qualified to teach in elementary classrooms in either public or private schools. Elementary Education majors must complete all of the required degree curriculum. This can be found at: <http://catalog.iastate.edu/collegeofhumansciences/elementaryeducation/>

**Candidates must receive a minimum of a "C" in all education (EDUC), human development and family studies (HD FS), special education (SP ED) courses and all content-specific pedagogy/methods courses required for program completion and endorsement completion.**

**Candidates must receive a minimum of a "C-" in all major department courses/content courses required for teacher program completion and endorsement completion (content coursework).**

In addition to pursuing a degree in Elementary Education, candidates are required to pursue an endorsement in at least one additional area. Candidates will be prepared to teach students in grades kindergarten through eighth grade in this area. Endorsements in the following areas are available for elementary education majors:

- K-8 English/Language Arts & Reading
- K-12 English as a Second Language (ESL)
- K-8 Health
- K-8 Mathematics
- K-8 Science
- K-8 Social studies
- K-8 Special education (Instructional Strategist I: Mild/Moderate Disabilities K-8)

Candidates can pursue additional endorsements in any of the above listed areas and in the following areas:

- K-8 Reading
- K-12 Coaching
- 5-8 Algebra for HS Credit

Information about these additional endorsements can be found at: <https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catyr2jqf> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catyr2jqf/>) Contact an Elementary Education academic advisor for additional information.

Elementary education majors must satisfy a world languages requirement for graduation. Students must complete two years of a foreign language in high school or one year of a foreign language in college.

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekxax/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## K-12 and Secondary Education

Students wanting to pursue K-12 or Secondary Teacher Education major in the content area in which they want to focus. They then pursue one of two options depending upon their program: 1) complete the secondary major in Education or 2) complete additional coursework required to complete the Educator Preparation Program. Program completers who apply for licensure are recommended to the Iowa Board of Educational Examiners.

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekxax/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must

Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## Secondary Major in Education

A secondary major in Education at Iowa State University prepares candidates to teach at the middle school and high school levels. K-12/Secondary Educator Preparation Programs eligible to pursue the secondary major in Education are:

- English Education
- History/Social Sciences Education - History
- History/Social Sciences Education - Political Science
- Mathematics Education
- Science Education – Biology
- Science Education – Chemistry
- Science Education – Earth Science
- Science Education – Physics
- World Languages and Cultures Education – French
- World Languages and Cultures Education – German
- World Languages and Cultures Education – Spanish

Secondary majors in education must complete all of the required degree curriculum. This can be found at: <http://www.catalog.iastate.edu/collegeofhumansciences/educationsecondary/>

## Additional Endorsements and Minors

Candidates pursuing the secondary major in Education have the opportunity to pursue additional endorsements and minors:

- K-12 Coaching Endorsement
- K-12 English as a Second Language Endorsement
- 5-12 Reading Endorsement
- Additional Science Endorsements
  - 5-12 Basic Science
- Additional Social Sciences Endorsements
  - 5-12 American Government
  - 5-12 Anthropology
  - 5-12 Economics
  - 5-12 Psychology
  - 5-12 Sociology
- 5-12 Speech and Theatre Endorsement

(See <https://education.iastate.edu/future-students/find-your-major/endorsements/> for additional information)

- Learning Technologies Minor

(See <https://education.iastate.edu/find-your-major/learning-technologies-minor/>)

Specific program requirements can be found within each department that houses the endorsement. Information on K-12 Coaching, K-12 English as a Second Language, and 5-12 Reading can be found at: <https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catryr2jqf> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catryr2jqf/>)

## Curriculum in secondary major in Education

### Educator Preparation Program Admission Requirements

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekkax/>)

In order to be eligible to student teaching (EDUC 417), candidates must have completed all degree program requirements and content specific coursework.

- Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer.

Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

All Educator Preparation Program candidates must complete the professional core coursework (information found under each program) and required pedagogy and field experience coursework for their program. In addition, all prospective teachers are required to meet general education requirements as a part of their preparation. They must complete studies in the following general education groups. General education courses may be found in many departments. Credits listed are minimum requirements. Specific departments and/or colleges may

require specific coursework to meet these requirements or additional credits. Credits used to satisfy these general education requirements typically satisfy department and college general education requirements.

### **Educator Preparation General Education Requirements**

- Natural Sciences: 6 credits
- Mathematics or Statistics: 3 credits
- Social Sciences: 9 credits
- Humanities: 6 credits
- Communication Skills: 9 credits that must include ENGL 150 and 250 or an equivalent
- Library Skills: LIB 160 for 1 credit
- Other:
  - HD FS 102 or PSYCH 230
  - One course in American history or government
  - One course that develops interpersonal or group presentation skills

NOTE: Specific majors will provide approved options to meet these requirements.

### **Secondary major in Education Requirements for English Education Candidates**

#### **Educator Preparation Field Experiences:**

**Educator Preparation Pedagogy/Methods Coursework:**

ENGL 318 Introduction to ESL methods and materials – 3 credits

EDUC 426 Principles of Secondary Education – 3 credits

**Please check departmental information in regards to specific content coursework requirements.**

It is our expectation that students know the requirements of their academic program and develop and follow an academic plan based on their academic catalog and degree audit using their individual academic adviser as a resource in this process.

**Candidates Pursuing Educator Preparation: Non-secondary major programs**

Iowa State offers the following undergraduate K-12/secondary Educator Preparation Programs not associated with this secondary major:

K-12 Music Education

K-12 Physical Education Teacher Education

Agriculture Education

Family and Consumer Sciences Education

For additional information on these programs please see: <https://education.iastate.edu/find-your-major/secondary-education-middle-or-high-school/>

K-12 and secondary education candidates must complete a professional core course sequence. In general, the sequence includes:

EDUC 202	Educational Technologies in the 7-12 Classroom	3
EDUC 204	Social Foundations of Education in the United States: Secondary	3
EDUC 333	Educational Psychology	3
EDUC 406	Social Justice Education and Teaching: Secondary	3
EDUC 426	Principles of Secondary Education	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3
<b>Total Credits</b>		<b>18</b>

Coursework in content-specific pedagogy and field experience coursework also needs to be successfully completed.

**Please check departmental information in regards to specific requirements for each program.**

Candidates can choose to pursue additional endorsements.

- K-12 Coaching
- K-12 English as a Second Language
- 5-12 Agriscience/Agribusiness
- 5-12 Multi-occupations
- 5-12 Reading (contact the English Education academic advisor for a list of required courses)
- Science
  - 5-12 Basic Science
- Social Sciences
  - 5-12 American Government
  - 5-12 Anthropology
  - 5-12 Economics
  - 5-12 Psychology
  - 5-12 Sociology
- 5-12 Speech Communications and Theater

Specific program requirements can be found within each department that houses the endorsement. Information on K-12 Coaching, K-12 English as a Second Language, and 5-12 Reading can be found at: <https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catryr2jqf> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmibz5dhv9catryr2jqf/>)

## LEARNING TECHNOLOGIES MINOR

The School of Education offers a Learning Technologies minor available to all teacher education candidates. In order to earn this minor, candidates must register for the minor and complete the following sequences of courses:

EDUC 201	Educational Technologies in the PK-6 Classroom	3
EDUC 202	Educational Technologies in the 7-12 Classroom	3
EDUC 280B	Pre-Student Teaching Experience I: Educational Technologies	1
EDUC 302	Principles and Practices of Learning with Technology	3
EDUC 407	Online Education in Pre-K-12 Classrooms: Hybrid, Virtual, and Blended Approaches	3
EDUC 454	Emerging Topics in Educational Technologies (take for a total of 3 credits)	3
One of the following:		3
COM S 107	Windows Application Programming	3
COM S 207	Fundamentals of Computer Programming	3
EDUC 370	Toying with Technology	3

**Candidates must receive a "C" or above in all courses**

Additional information can be found at: <https://www.education.iastate.edu/find-majors/learning-technologies-minor/>

## Graduate Study

The School of Education is comprised of two graduate divisions: Higher Education and Teaching, Learning, Leadership, and Policy (TLLP). Within these divisions, the School offers coursework and experiences for the degrees Doctor of Philosophy, Doctor of Education, Master of Science, and Master of Education with a major in education. Students can pursue graduate programs, including a Master of Arts in Teaching degree, leading to completion of a teacher preparation program and recommendation for teacher licensure are offered in secondary science and secondary mathematics. In addition, endorsements in reading and special education can also be pursued by graduate students. Graduate students interested in educational leadership may also participate in our educator preparation programs in educational leadership. Program completers may be recommended for administrative licensure for roles as principals and superintendents. The School of Education offers graduate coursework leading to a minor for masters and doctoral students in other fields of study. Several graduate certificate programs are offered through the School of Education.

## Doctoral Degree Programs

The School of Education offers two doctoral degree programs: the Ph.D. and the Ed.D. Students pursuing a Ph.D. in the division of Higher Education may earn an education degree with an emphasis in higher education administration. Students pursuing a Ph.D. in the division of TLLP may earn an education degree with an emphasis in one of the following areas: educational leadership, organizations, and policy; instructional technology; mathematics education; science education; literacy; special education; or social and cultural studies of education. Specific information about the requirements of and options available within the Ph.D. degree in education are available from the School office or on the School of Education Graduate Programs (<https://www.education.iastate.edu/graduate-programs/>) website.

Graduates of the Ph.D. program in education are prepared to pursue careers as scholars, leaders, and administrators in various educational settings, including public and private colleges and universities, community colleges, public and private educational agencies, non-profits, and corporate training settings.

Students in the School of Education may complete an Education Doctorate (Ed.D.) with a major in education. Students may earn an education degree with an emphasis in Community College Leadership or in P-12 Systems Level Leadership. Specific information about the requirements of the Ed.D. degree in education are available on the School of Education Graduate Programs website. Graduates of the Ed.D. program in education are prepared to pursue careers as scholar-practitioners in leadership roles in community colleges and K-12 educational systems including school districts, public and private education agencies, and state departments of education. Students who complete the K-12

Systems Level Leadership program can be recommended for Iowa licensure as a school superintendent.

## Master's Degree Programs

The School of Education offers two master's degrees: the Master of Science and the Master of Education. In the division of Higher Education, students may earn an M.Ed in education with an emphasis in either student affairs or higher education. In the division of TLLP, students may earn an M.S. or an M.Ed. in education with an emphasis in one of the following areas: educational leadership, organizations and policy; instructional technology; mathematics education; science education; literacy; special education; or social and cultural studies of education.

Specific information about the requirements of and options available within M.S. or M.Ed. degrees in education are available from the School office or on the website School of Education Graduate Programs website <https://www.education.iastate.edu/graduate-programs/>

Graduates of the master's degree programs are prepared to pursue careers as educational leaders, higher education professionals, researchers, and advanced practitioners in colleges and universities, community colleges, public and private schools, education agencies, and informal (free-choice) education settings. Students who complete the M.Ed. in Educational Administration can be recommended for Iowa licensure as a P-12 school principal.

Other graduate programs related to education (including Interdisciplinary Graduate Studies) may be planned for students on the basis of previous education and experiences as well as future plans and needs. For more information, students should refer to Agricultural Education and Studies, Family and Consumer Sciences Education, Kinesiology, and Interdisciplinary Graduate Studies or to graduate level course offerings within other departments.

## Graduate minor in education

A minor in Education is available at both the master's and doctoral level. Graduate students in other majors may pursue a graduate minor in Education. A minor for doctoral students requires 15 credits in education courses, while a minor for master's students requires 9 credits. Students should identify a faculty member who will serve as the minor representative on their Program of Study Committee and work with this person to identify an appropriate set of courses to fit the student's interests. The minor is not an appropriate option for students whose primary interests are in research methodology; the graduate certification Applied Research in the Human Sciences should be used instead. Doctoral students are reminded that a minor must be declared before the preliminary oral examination.

## Graduate Teacher and Educational Leadership Preparation Programs

The School of Education offers a Masters of Arts in Teaching - Science Education and a Masters of Arts in Teaching - Mathematics Education for candidates who currently have a bachelor's degree in a science area (or a closely related field) or in mathematics (or a closely related field), respectively. In addition, the School of Education offers a Masters of Arts in Teaching - Secondary Education that is currently available for individuals with an English degree or a history/social sciences degree interested in becoming a teacher. In these teacher preparation programs, program completers who apply for licensure are recommended for teacher licensure to the Iowa Board of Educational Examiners.

Teacher preparation programs at the graduate level are also offered in Agricultural Education (College of Agriculture and Life Sciences) and Physical Education (College of Human Sciences). The School of Education provides the professional core education coursework for these programs. Students in a graduate teacher preparation program must complete specific courses. Specific information about these programs can be found by contacting these departments.

Graduate level programs leading to recommendation for teaching endorsements, including Reading endorsements and Instructional Strategist II: Behavior Disorders/Learning Disabilities, are offered through the School of Education.

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy:

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphappmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

Graduate students who seek a teaching endorsement in reading or special education, but do not wish to pursue a master's degree

can incorporate those courses in a professional certificate program. Endorsement programs include Instructional Strategist II: Behavior Disorders/Learning Disabilities, Reading K-8 and Reading 5-12. Information about these endorsements can be found at: <https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf/>)

The School of Education offers graduate programs for students seeking careers as principals and superintendents. The Transformative School Leader Program (TSLP) is designed for working professionals and includes coursework and field experiences in a principal preparation program.

Candidates must complete the program as a Master of Education degree.

The Ed.D. in Education with an emphasis in P-12 systems-level leadership is designed for working professionals and includes coursework and field experiences in a superintendent preparation program.

Program completers who apply for licensure are recommended for licensure to the Iowa Board of Educational Examiners.

## Graduate Certificate Programs

The School of Education offers Graduate Certificate programs to allow students to enhance their skills outside of full degree programs.

The Certificate programs currently offered include Applied Research Methods in the Human Sciences, Instructional Design, Literacy Coaching, Education for Social Justice and Special Education. Certificate programs require a minimum of 12 graduate credits (several require more than this) and can be earned in conjunction with a degree program. More information about graduate certificate programs can be found on the School of Education web site.

### Courses:

Education (EDUC)  
Educational Administration (EDADM)  
Educational Leadership and Policy Studies (EL PS)  
Higher Education (HG ED)  
Human Sciences (H SCI)  
Research and Evaluation (RESEV)  
Special Education (SP ED)

## Educator Preparation Program at Iowa State University

Educator Preparation (<http://www.education.iastate.edu/educator-prep-program/>): <https://education.iastate.edu/current-students/educator-preparation-program/>

The Educator Preparation Program at Iowa State University is a shared responsibility that spans three colleges. All candidates who are

recommended by Iowa State University for licensure must be considered a program completer by meeting the requirements of the Educator Preparation Program and be recommended by their department, college, and the ISU recommending official. Students who successfully complete the requirements for any of the endorsement areas offered at ISU must demonstrate the skills, knowledge, and dispositions / professional practices required of educators.

## Undergraduate Educator Preparation Programs

An undergraduate student seeking a bachelor's degree must be enrolled in the department in which he or she plans to major and must meet the graduation requirements of that department and college.

All Educator Preparation Program candidates must complete the professional core coursework (information found under each program) and required pedagogy and field experience coursework for their program. In addition, all prospective teachers are required to meet general education requirements as a part of their preparation. They must complete studies in the following general education groups. General education courses may be found in many departments. Credits listed are minimum requirements. Specific departments and/or colleges may require specific coursework to meet these requirements or additional credits. Credits used to satisfy these general education requirements typically satisfy department and college general education requirements.

For Educator Preparation general education requirements, please visit the School of Education website: <https://education.iastate.edu/current-students/educator-preparation-program/resources/curriculum-requirements/>

Currently, there are fifteen undergraduate Educator Preparation areas offered at Iowa State University. These areas and their corresponding grade levels are listed below:

Agricultural Education (grades 5-12)  
Biology (grades 5-12)  
Chemistry (grades 5-12)  
Early Childhood Education-Unified (birth-grade 3, inclusive)  
Earth Science (grades 5-12)  
Elementary Education (grades K-6)  
English (grades 5-12)  
Family and Consumer Sciences (grades 5-12)  
Health Education (grades 5-12)  
History-Social Sciences (grades 5-12)  
Mathematics (grades 5-12)  
Music (grades K-12)  
Physical Education (grades K-12)  
Physics (grades 5-12)

World Languages and Cultures (French, German, and Spanish) (grades 5-12)

## Endorsements Areas

### *Early Childhood Education*

Candidates can also choose to pursue an endorsement in K-8 reading.

### *Elementary Education*

Candidates pursuing a degree in Elementary Education are required to pursue an endorsement in at least one additional area. Endorsements in the following areas are available for elementary education majors:

- K-8 English/Language Arts & Reading
- K-12 English as a Second Language (ESL)
- K-8 Health
- K-8 Mathematics
- K-8 Science
- K-8 Social studies
- K-8 Special education (Instructional Strategist I: Mild/Moderate Disabilities K-8).

Additional information about these endorsements can be found at:  
<https://www.education.iastate.edu/find-majors/elementary-education/>

Elementary Education Candidates can pursue additional endorsements in any of the above listed areas and in the following areas:

- K-8 Reading
- K-12 Coaching
- 5-8 Algebra for HS Credit

Information about these additional endorsements can be found at:  
<https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf>  
 (https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf/)

Contact an Elementary Education academic advisor for the requirements for these endorsements.

### *K-12 Education and Secondary Education*

Candidates can choose to pursue additional endorsements. These can include any of the above listed endorsement and the following:

- K-12 Coaching
- K-12 English as a Second Language
- 5-12 Agriscience/Agribusiness
- 5-12 Multi-Occupations
- 5-12 Reading (contact the English Education academic advisor for a list of required courses)
- Science

- 5-12 Basic Science
- Social Sciences
  - 5-12 American Government
  - 5-12 Anthropology
  - 5-12 Economics
  - 5-12 Psychology
  - 5-12 Sociology
- 5-12 Speech Communications and Theater
- World Languages and Cultures
  - 5-12 Chinese
  - 5-12 Russian

Information about endorsements can be found at: <https://education.iastate.edu/future-students/find-your-major/endorsements/>

## Minors

Students in the Educator Preparation Program may also choose to pursue a minor in Learning Technologies. Additional information can be found at: <https://www.education.iastate.edu/find-majors/learning-technologies-minor/>

## Post-Bachelor's Educator Preparation Programs

Students holding an appropriate bachelor's degree may complete the K-12 or secondary educator preparation program in order to be recommended for teacher licensure.

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehixe12epxtekxax/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3

- Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

Candidates would be required to complete the Professional Core requirements of the program. In general, the sequence includes:

EDUC 202	Educational Technologies in the 7-12 Classroom	3
EDUC 204	Social Foundations of Education in the United States: Secondary	3
EDUC 333	Educational Psychology	3
EDUC 406	Social Justice Education and Teaching: Secondary	3
EDUC 426	Principles of Secondary Education	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3
<b>Total Credits</b>		<b>18</b>

Coursework in content-specific pedagogy and field experience coursework also need to be successfully completed. Please check department information regarding to specific requirements for each program.

Candidates must have at least one course in each of the following five general education groups identified for undergraduate students identified in the previous section: Natural Sciences, Mathematics and Statistics, Social Sciences, Humanities, and Communication Skills. Specific departments and/or colleges may require specific coursework to meet these requirements or additional credits.

Interested students should consult with the program coordinator of the area in which they plan to specialize so that an individualized program of study can be developed.

Educator Preparation Programs for which post-bachelor candidates take undergraduate Educator Preparation courses include;

English (grades 5-12)  
 Health Education (grades 5-12)  
 History-Social Sciences (grades 5-12)  
 World Languages and Cultures (French, German, and Spanish) (grades 5-12)

## GRADUATE DEGREE PROGRAMS WITH EDUCATOR PREPARATION PROGRAM COMPLETION

Currently, there are four graduate teacher-educator preparation programs. These programs are designed for students who do not currently hold a teaching license. The programs are listed below:

Agricultural Education (M.S.)  
 General Education Mathematics Education (M.A.T.)

Physical Education (M.S.)  
 Secondary Science Education (M.A.T.)

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphappmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

Graduate level programs leading to recommendation for additional teaching endorsements are offered through the School of Education. Graduate students who seek a teaching endorsement in reading or special education, but do not wish to pursue a master's degree can incorporate the coursework in a professional certificate program. Endorsement programs include Instructional Strategist II: Behavior Disorders/Learning Disabilities, Reading K-8 and Reading 5-12.

Graduate programs are also available for those who wish to pursue educational leadership as a profession as PK-12 school principals or PK-12 superintendents. (See Educational Leadership and Policy Studies in Courses and Programs section of this catalog.)

## Master's Programs with Teacher Preparation AGRICULTURAL EDUCATION

The Agricultural Education and Studies Department offers a Master's of Science program that prepares Agricultural Education teachers for grades 5-12

See coordinator for program requirements.

## Secondary MATHEMATICS

The School of Education offers a Master's of Education program that prepares Mathematics teachers for grades 5-12

## Physical Education

The Department of Kinesiology offers a Master's of Arts in Teaching program that prepares Physical Education teachers for grades K-12.

## Secondary Education

The School of Education offers a Master's of Arts in Teaching program that prepares secondary teachers for grades 5-12. Currently this program is available for English Education candidates and History/Social Sciences Education candidates.

See coordinator for program requirements.

## Secondary Sciences

The School of Education offers a Master's of Arts in Teaching program that prepares Secondary Science teachers for grades 5-12

See coordinator for program requirements.

# IOWA STATE UNIVERSITY TEACHER EDUCATION STANDARDS (INTASC STANDARDS)

## The Learner and Learning

Standard #1: Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

Standard #2: Learning Differences. The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

Standard #3: Learning Environments. The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

## Content

Standard #4: Content Knowledge. The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

Standard #5: Application of Content. The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

## Instructional Practices

Standard #6: Assessment. The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

Standard #7: Planning for Instruction. The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

Standard #8: Instructional Strategies. The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

Standard #8A: Technology. The teacher integrates current and emerging technology in instruction to encourage student creativity, problem solving, collaboration, and digital literacy. Teachers practice and advocate safe, legal, and responsible use of information and technology (this standard is unique to the Iowa State University Teacher Preparation Program).

## Professional Responsibility

Standard #9: Professional Learning and Ethical Practice. The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

Standard #10: Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

# EDUCATOR PREPARATION PROGRAM ADMISSION REQUIREMENTS

Educator Preparation Program Candidates must have:

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekxax/>)

More information about admission requirements can be found at: <https://www.education.iastate.edu/educator-prep-program/admission/>

## THE PROFESSIONAL CORE REQUIREMENT FOR EDUCATOR PREPARATION

### Undergraduate Students

Educator Preparation Program candidates must complete certain studies related directly to the profession of teaching. All undergraduate candidates in the educator preparation program must take the following courses prior to student teaching, unless the student's program area has an approved content-area course deemed to be equivalent. Candidates must receive a minimum of a "C" in all education (EDUC) / Curriculum Instruction (C I) , Human Development and Family Studies (HD FS), Special Education (SP ED) courses and all content-specific pedagogy/methods courses required for licensure. (See program coordinator for more information).

#### EARLY CHILDHOOD EDUCATION-Unified

EDUC 201	Educational Technologies in the PK-6 Classroom	3
EDUC 205	Social Foundations of Education in the United States: Early Childhood and Elementary Education	3
EDUC 245	Landscape of Teaching	3
EDUC 332	Educational Psychology of Early Childhood and Elementary Education	3
EDUC 405	Social Justice Education and Teaching: Early Childhood and Elementary	3
SP ED 250	Education of the Exceptional Learner	3

**Total Credits** 18

In addition, Early Childhood Education majors must complete all degree curriculum requirements. These can be found here: [http://catalog.iastate.edu/collegeofhumansciences/earlychildhood\\_education/](http://catalog.iastate.edu/collegeofhumansciences/earlychildhood_education/)

#### ELEMENTARY EDUCATION:

EDUC 201	Educational Technologies in the PK-6 Classroom	3
EDUC 205	Social Foundations of Education in the United States: Early Childhood and Elementary Education	3
EDUC 245	Landscape of Teaching	3
HD FS 102 or PSYCH 230	Human Development Developmental Psychology	3
HD FS 240	Literature for Children	3
SP ED 250	Education of the Exceptional Learner	3
EDUC 332	Educational Psychology of Early Childhood and Elementary Education	3

**Total Credits** 21

Elementary Education majors must meet all degree curriculum requirements. These can be found here: <http://www.catalog.iastate.edu/collegeofhumansciences/elementaryeducation/>

#### K-12 AND SECONDARY EDUCATION:

EDUC 202	Educational Technologies in the 7-12 Classroom	3
EDUC 204	Social Foundations of Education in the United States: Secondary	3
EDUC 333	Educational Psychology	3
EDUC 406	Social Justice Education and Teaching: Secondary	3
EDUC 426	Principles of Secondary Education	3
SP ED 401	Teaching Secondary Students with Exceptionalities in General Education	3

In addition, candidates must complete all degree program discipline-specific pedagogy coursework, field experience coursework, and content-specific coursework. These requirements can be found in the home department of the major.

### Post-Bachelor's Students

Students who hold an appropriate bachelor's degree and seek a teaching license must complete an educator preparation program. This includes the professional education requirements listed above. The requirements can be met through course work or examination.

### Master's Students

Prospective teachers must complete certain studies related directly to the profession of teaching. All students enrolled in Master's programs that lead to completion of an educator preparation program must take the following courses prior to student teaching, unless the student's program area has an approved content area course deemed to be equivalent. (See Master's Programs section below for details.)

EDUC 505	Using Technology in Learning and Teaching	3
EDUC 506	Social Justice Education and Teaching: Advanced	3
EDUC 526	Principles of Secondary Education <sup>Not all programs require this course. Check with program coordinator</sup>	3
EDUC 529 or EDUC 521	Educational Psychology and the Secondary Classroom Introduction to the Teaching and Learning of Mathematics and Science	3
EDUC 580	Studies in the Foundations of Education in the United States	3
SP ED 501	Teaching Secondary Students with Exceptionalities in General Education	3

In addition, candidates must complete all degree program discipline-specific pedagogy coursework, field experience coursework, and content-

specific coursework. These requirements can be found in the home department of the major.

## CLINICAL EXPERIENCES

The Standards for Practitioner and Administrator Preparation Programs 281–79.14(256) Teacher preparation clinical practice standard states, "The unit and its school partners shall provide field experiences and student teaching opportunities that assist candidates in becoming successful teachers in accordance with the following provisions."

This includes:

- **79.14(5)** Teacher candidates admitted to a teacher preparation program must complete a minimum of 80 hours of pre-student teaching field experiences, with at least 10 hours occurring prior to acceptance into the program.
- **79.14(7)** The unit is responsible for ensuring that the student teaching experience for initial licensure:

a. Includes a full-time experience for a minimum of 14 consecutive weeks in duration during the teacher candidate's final year of the teacher preparation program. (Iowa State University policy requires a full semester experience.)

For most programs, there are four levels for clinical experiences used to meet these requirements. Level 1 involves observation in local schools and is typically completed prior to admission to the educator preparation program. Level 2 involves actively teaching in the classroom with one-two lessons, at minimum. Level 3 involves actively teaching in the classroom with two lessons, at minimum and being observed by a supervisor during teaching. Level 4 is student teaching and involves actively teaching for a semester-long experience where the student teacher bears primary responsibility for planning and instruction within the classroom for a minimum of four weeks during the semester. Level 2, 3 and 4 field experiences involve a course fee, which ranges from \$75.00 to \$450.00 and are assessed to cover the costs of supervision and placement with a cooperating teacher. Course fees are increased when students teach nationally or internationally. For current course fees, consult the Schedule of Classes. For level 2, 3 and 4 field experiences, the student needs access to transportation because the placement may be within 60 miles of the university. The time commitment for clinical experiences ranges from 1/2 day for level 2 and 3 to the full day for level 4. Students complete a background check before initial placement in schools and other appropriate locations.

Specific field experience course requirements can be found in program/degree requirements.

## PROGRAM CURRICULUM

### Undergraduate Students

#### Early Childhood Education – Unified

The curriculum in Early Childhood Education – Unified prepares graduates to teach young children and work with their families. This program leads to careers working with young children (both those who are typically developing and those with special needs) from birth through third grade, inclusive. Program completers can be recommended for licensure to the Iowa Board of Educational Examiners. Individuals who are licensed may be employed by either public or private agencies or schools to teach in early childhood classrooms (preschool through 3rd grade) or in home-based programs. The program is an interdepartmental major administered by the Department of Human Development and Family Studies and the School of Education. For more information about the program, see Early Childhood Education - Unified Curriculum <http://www.education.iastate.edu/undergraduate-studies/early-childhood-education> (<http://www.education.iastate.edu/undergraduate-studies/early-childhood-education/>). (<https://hdfs.hs.iastate.edu/find-your-major/early-childhood-education/>).

In addition to being admitted Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehixe12epxtekxax/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

All early childhood education – unified candidates must meet general education requirements in order to complete the Educator Preparation Program.

### Elementary Education

In addition to pursuing a degree in Elementary Education, candidates are required to pursue an endorsement in at least one additional area. Candidates will be prepared to teach students in grades kindergarten through eighth grade in this area of specialization. Endorsements in the following areas are available for elementary education majors:

- K-8 English/Language Arts & Reading
- K-12 English as a Second Language (ESL)
- K-8 Health
- K-8 Mathematics
- K-8 Science
- K-8 Social studies
- K-8 Special education (Instructional Strategist I: Mild/Moderate Disabilities K-8)

Additional information about these endorsements can be found at: <https://www.education.iastate.edu/find-majors/elementary-education/>

Candidates can pursue additional endorsements in any of the above listed areas and in the following areas:

- K-8 Reading
- K-12 Coaching

Information about these additional endorsements can be found: <https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf/> (<https://iastate.app.box.com/s/m4tr3ogr9ouwmiubz5dhv9catryr2jqf/>)

Contact an Elementary Education academic advisor for additional information.

Elementary education majors must satisfy a world languages requirement for graduation. Students must complete two years of a foreign language in high school or one year of a foreign language in college.

In addition to being admitted to Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekxax/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered

an educator preparation program completer. Decision Point 3

- Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## K-12 and Secondary Education

Students wanting to pursue K-12 or Secondary Teacher Education declare a major in the content area in which they want to focus.

They then pursue one of two options depending upon their program: 1) complete the secondary major in Education or 2) complete additional coursework required to complete the Educator Preparation Program.

K-12/Secondary Educator Preparation Programs eligible to pursue the secondary major in Education are:

- English Education
- History/Social Sciences Education
- Mathematics Education
- Science Education – Biology
- Science Education – Chemistry
- Science Education – Earth Science
- Science Education – Physics
- World Languages and Cultures Education – French
- World Languages and Cultures Education – German
- World Languages and Cultures Education – Spanish

Iowa State offers the following undergraduate K-12/secondary Educator Preparation Programs not associated with this secondary major:

- K-12 Music Education
- K-12 Physical Education Teacher Education
- Agriculture Education
- Family and Consumer Sciences Education

In addition to being admitted Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)
- Decision Point 1 - Early Admission to the Educator Preparation Program for Transfer Students (<https://iastate.box.com/s/r3ap8wej7m3bmd0cehix12epxtekxax/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must

Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## Post-Bachelor's Students

Students holding an appropriate bachelor's degree who wish to complete a teacher preparation program in order to pursue teacher licensure must have at least one course in each of the following five general education groups identified for undergraduate students in the preceding section: Natural Sciences, Mathematics or Statistics, Social Sciences, Humanities, and Communication Skills. Individual departments preparing teachers may require additional credits in general education. (See program coordinator for more information).

In addition to being admitted Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates but have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## Graduate Students

Each Master's program will determine what, if any, general education requirements Master's students must fulfill beyond a bachelor's degree from a regionally accredited institution. (See program coordinator for more information.)

In addition to being admitted Iowa State University and departmental programs/majors, educator preparation candidates must be admitted to the Educator Preparation Program prior to beginning advanced coursework.

Educator Preparation Program Admission Requirements are provided in Educator Preparation Policy.

- Decision Point 1 - Admission to the Educator Preparation Program (<https://iastate.box.com/s/n8eewbs3fznazf8alerv0qbf216fno7e/>)

In order to be eligible for student teaching, candidates must have completed all degree program requirements and specific coursework. Decision Point 2 - Requirements Students Must Meet Prior to Student Teaching (<https://iastate.box.com/s/hewm5y0era2j76cdvllaphppmsg43cs/>)

In order to be recommended for licensure, candidates but have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

See coordinator for program requirements.

## EDUCATOR PREPARATION PROGRAM COMPLETION REQUIREMENTS

In order to be recommended for licensure to the Iowa Board of Educational Examiners by Iowa State University, candidates must have completed all degree program requirements and be considered an educator preparation program completer. Decision Point 3 - Recommendation for Licensure (<https://iastate.box.com/s/tvfae96b3b1y87wbyfna2oonhmfoba7g/>)

## REGENTS ALTERNATIVE PATHWAY TO IOWA LICENSURE

The Regents Alternative Pathway to Iowa Licensure is a collaborative program involving the three Iowa Regents' universities. The program is designed for adult learners holding a baccalaureate degree with work experience who are seeking 5-12 licensure. For more information: <https://iowateacherintern.org>

## Youth Development Interinstitutional Graduate Program

Iowa State University offers a Master's degree in Family and Consumer Sciences with a specialization in Youth Development. This is an interinstitutional online program offered through the Great Plains Interactive Distance Education Alliance (or GPIDEA). The student selects a home institution (Iowa State), which ultimately grants the degree. After admission to Iowa State, the student takes courses from Iowa State and the other participating institutions: Michigan State University, North Dakota State University, Texas Tech University, University of Missouri, and University of Nebraska-Lincoln.

### The Master of Family and Consumer Sciences with Youth

**Development specialization** is an online degree available focusing on developing knowledge and skills to serve today's youth. Students become immersed in a strengths-based curriculum and learn a methodology that supports youth, enabling them to grow socially, emotionally, and cognitively. The program has its roots in positive youth development. Rather than focusing solely on corrective measures, a positive youth development approach equips individuals in the second decade of life with the skillset necessary for a successful transition into adulthood.

The masters degree consists of 36 credits, 27 required credits, 6 elective credits, and 3 or more credits of creative component and/or internship (<https://online.hs.iastate.edu/graduate-degrees/youth-development/>). This program does not require a thesis.

## Youth Development Certificates

The Youth Development certificates (<https://online.hs.iastate.edu/graduate-degrees/youth-development/>) are offered completely online through the Great Plains Interactive Distance Education Alliance (or GPIDEA). The student selects a home institution (Iowa State), which ultimately grants the certificate. After admission to Iowa State, the student takes courses from Iowa State and the other participating institutions: Michigan State University, North Dakota State University, Texas Tech University, University of Missouri, and University of Nebraska-Lincoln. Both are stand-alone graduate certificates available to any student with a bachelor's degree.

- 12-credit Youth Development Specialist Graduate Certificate
- 12-credit Youth Program Management and Evaluation Graduate Certificate

### Courses primarily for graduate students, open to qualified undergraduates:

#### YTH 502: Foundations of Positive Youth Development

Cr. 3. Repeatable. F.S.SS.

Fundamentals of positive youth development, theories, and principles utilized in the youth development profession. Ethical, professional, and historical elements of youth development as it has evolved toward professionalization.

#### YTH 510: Adolescents and Their Families

(3-0) Cr. 3. F.S.

Adolescent development as it is related to and intertwined with family development; reciprocal influences between adolescents and their families are examined. Working with youth vis à vis the family system will be highlighted.

#### YTH 520: Positive Youth Development in Community Settings

(3-0) Cr. 3. F.S.

Focus on the national emphasis of a strength-based or asset approach to community youth development, encompassing individual development (i.e., positive youth development) and adolescent interrelationships with environments. Emphasis is placed upon research, theory, and practice applied in communities throughout the U.S. Students will explore existing models, read theoretical and applied literature, and examine current community efforts as a basis for understanding community youth development.

#### YTH 530: Youth in Cultural Contexts

(3-0) Cr. 3. F.S.

Examination of the cultural context factors that affect youth from a holistic perspective within and outside the family unit. The course will provide an understanding of the cultural heritage of differing family structures and types. Students will explore the social and educational processes experienced by youth through in-depth reading, writing, discussion, critical listening, viewing of contemporary videos, and informal interviews with youth. Students will be encouraged to think critically about society and culture, gain further knowledge of how ethnic groups fit historically into society, and examine the results of how history has shaped the current cultural climate of the U.S.

#### YTH 540: Youth Professionals as Consumers of Research

(3-0) Cr. 3. F.S.

This course will help youth development professionals understand and evaluate research reports to reduce anxiety about applying research results and theories to practice. Specific emphasis will be on research and theory reports related to youth development.

#### YTH 550: Youth Policy

(3-0) Cr. 3. F.S.

Various federal and state policies designed specifically for youth. Students will examine how and why policies for youth are constructed. A guiding question that will be used to evaluate existing state and national policies is whether they contribute to, or act as, barriers to desired developmental outcomes.

#### YTH 560: Youth-Adult Relationships

Cr. 3. Repeatable. F.S.

The role of youth-adult relationships in promoting the positive development of youth. Attitudes and activities that support youth engagement and agency. Research and practice of mentorship, youth-adult partnerships, and youth leadership.

**YTH 570: Contemporary Youth Issues**

(3-0) Cr. 3. Repeatable. F.S.SS.

Issues faced by youth today and associated risk and resiliency factors. A different topic will be presented each year, with the course rotating among participating universities. Past topics have included Youth Violence, Youth and Appearance, Adolescent Health, Global Perspectives and Volunteerism. The course may be taken more than once, as long as the content is different each time.

**YTH 570L: Contemporary Youth Issues: Mental Health**

Cr. 3. Repeatable. Alt. SS., offered odd-numbered years.

Understand optimal mental health in youth and how it can be promoted. Current theories and research related to optimal mental health and how promoting positive development is both similar to and different from preventing negative outcomes. Learn to assess a given youth development program in terms of its potential to promote positive mental health.

**YTH 570M: Contemporary Youth Issues: Working with Adolescents with Difficulties**

Cr. 3. Repeatable. Alt. SS., offered odd-numbered years.

Examines cognitive, self, and social transitions during adolescence. Topics include issues of identity, society's understanding of adolescents, and how adolescents and their parents, siblings, peers, teachers, and society interact.

**YTH 570N: Contemporary Youth Issues: Understanding Normative Behavior in Immigrant & Minority Youth**

Cr. 3. Repeatable. F.

Explores the etiology of adolescent deviance using a positive, cross-national/crosscultural perspective. Includes implications of theory, empirical research, current prevention programs and needs assessments. Offers a look at deviance from different perspectives as well as a comparison of normative and non-normative development of youth.

**YTH 570P: Contemporary Youth Issues: Youth, Families & Technology**

Cr. 3. Repeatable. Alt. SS., offered odd-numbered years.

Understand the interconnectedness of technology and youth/family. Formulate constructive and realistic strategies to enrich the life of a family or a youth in a society heavily dependent on technology. Topics of the course include identity formation, privacy, race, class, gender, subculture, risky behavior, policing, education, globalization, health, and policies.

**YTH 570R: Contemporary Youth Issues: Sports, Youth and Society**

Cr. 3. Repeatable. Alt. SS., offered even-numbered years.

Examination of how sports and society helps us better understand what we value, how we become who we are, and how we may be able to realize social justice in a larger social context.

**YTH 580: Youth Development Personnel and Program Management**

(3-0) Cr. 3. F.S.

Introduction to the development, administration and management of youth-serving organizations.

**YTH 585: Design and Evaluation of Youth Programs**

(3-0) Cr. 3. F.S.

Theoretical, methodological, and pragmatic issues involved in conducting programs and scholarship. Overview of the program development process and outcome evaluation of children and family programs. Modes of outcome scholarship and their implications for community-based programs are discussed. Students will develop knowledge through participating in a community-based project involving the practical application of program design and evaluation methods.

**YTH 589: Grant Development and Management.**

Cr. 3.

Grant-getting process and an overview of what happens after a project is funded. The following topics will be covered: researching funding sources, generating cutting edge ideas, assessing needs, planning a project, establishing credibility, formulating a sustainable budget, designing an evaluation plan, managing the funded project, and disseminating project results.

**YTH 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

Nonthesis students creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of five credits of independent work is required on the programs of study (POS). Creative component format determined cooperation with the POS committee. Offered on a satisfactory-fail basis only.

**Courses for graduate students:****YTH 634: Youth Development**

(3-0) Cr. 3. F.S.

Introduction to the developmental period of adolescence. The theory and research of positive youth development will be the lens through which this developmental period is examined. The course will emphasize how the developmental tasks of this life stage are influenced by (and influence) family and home, school, peers, and other contextual forces. The course will help students recognize and become familiar with the major issues and transitions adolescents face as they successfully navigate this developmental stage by critically examining the theoretical and research literature.

**YTH 690: Advanced Topics**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor.*

Advanced topics.

**YTH 691: Internship**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of instructor.*

Supervised practice and experience in college teaching, research, professional experience. Offered on a satisfactory-fail basis only.

# COLLEGE OF LIBERAL ARTS AND SCIENCES

---

**Beate Schmittmann**, Dean

**Monic Behnken**, Associate Dean

**Arne Hallam**, Associate Dean

**Leslie Hogben**, Associate Dean

**Kent Kerby**, Assistant Dean

**Jo Anne Powell-Coffman**, Associate Dean

**Amy Slagell**, Associate Dean

**Zora D. Zimmerman**, Associate Dean Emerita

[www.las.iastate.edu/](http://www.las.iastate.edu/) (<http://www.las.iastate.edu/>)

The College of Liberal Arts and Sciences (LAS) is a world-class learning and research community. Iowa State's most academically diverse college, LAS educates students to become global citizens, providing rigorous academic programs in the sciences, humanities and social sciences within a supportive, student-centered learning environment that emphasizes career readiness. The college also is home to the Open Option Program that prepares students for any curriculum at the University.

## Learning Goals

The primary mission of the college is to promote learning in all its dimensions by providing students with ample opportunities to acquire the requisite knowledge, abilities, and skills to succeed in the world beyond the university. Through coursework within the major and in general education, students will develop skills in reasoning, analysis, and communication; achieve an understanding of the intellectual, historical, and artistic foundations of culture; and work to strengthen their abilities to interact with people, cultures, and the environment in an ethical and sensitive manner. To achieve these learning goals, the college asks students to acquire depth in learning within disciplines of their own choosing, and to acquire breadth through general education courses and electives. The breadth and depth requirements of our liberal arts and sciences degree programs prepare students for a lifetime of evolving career opportunities.

The College of Liberal Arts and Sciences offers over forty majors. Students can earn Bachelor of Arts, Bachelor of Science, Bachelor of Music, or Bachelor of Liberal Studies degrees. In collaboration with the College of Engineering, the College of Liberal Arts and Sciences also participates in a program of study leading to the Bachelor of Science in Software Engineering.

## Preparation for Entering the College of Liberal Arts and Sciences

Students entering the college are expected to have high school preparation with at least 4 years of English, 3 years each of Social Studies, Mathematics and Science. Students are also encouraged to have coursework in computer applications. The study of a world language is highly encouraged; three or more years of a single world language in high school meets the world language graduation requirement in the College of Liberal Arts and Sciences.

Students often enter the College of Liberal Arts and Sciences as transfer students. Prospective transfer students are urged to contact the College of Liberal Arts and Sciences well before arriving on campus so that pre-transfer courses are appropriate to the planned major and transferable toward graduation from ISU. Early planning can improve the transfer process and support a timely graduation. Details regarding the criteria for graduation with distinction and other academic honors are available under Scholastic Recognition.

For information on articulation/transfer agreements that apply to students who have earned Associate of Arts degrees from an Iowa public community college or who have satisfied general education requirements at the University of Northern Iowa or in the College of Liberal Arts at the University of Iowa, see Articulation/Transfer Agreements in the Admission Transfer Information section of the catalog.

Transfer students in the College of Liberal Arts and Sciences may choose to graduate under the catalog in effect at the time of their graduation or under one of the five immediately preceding catalogs, provided that it covers the period of their enrollment either at Iowa State or any other accredited school. Full requirements of the chosen catalog must be met though adjustments will be made in instances where courses are no longer available or where programs have been changed. Transfer students are responsible for reviewing their transfer credit evaluation with the academic advisor during the first semester of enrollment.

## Academic Advising

Each student in the College of Liberal Arts and Sciences is assigned an academic advisor in their area of study. This advisor assists the student in developing a program of study designed to meet the degree requirements while also meeting a student's goals outside of and beyond the classroom by incorporating activities such as study abroad, internships, Honors Program and undergraduate research. Advisors are a first point of contact for referral to university and college resources and services and play a crucial role in student success.

Academic advising begins during orientation programming prior to entry and continues through a student's graduation. Through the process of advising, students will develop academic plans that reflect their unique interests and goals as well as learn about the university resources

available to assist them academically, professionally, and personally.

Advisors help students understand how their interests, skills and goals connect to fields of study and careers, including how a liberal arts education enhances their academic development.

## Departments and Programs of the College

Majors, minors and certificates in the College of Liberal Arts and Sciences are administered by the following departments and programs.

### Departments

- Air Force Aerospace Studies
- Biochemistry, Biophysics, and Molecular Biology
- Chemistry
- Computer Science
- Ecology, Evolution, and Organismal Biology
- Economics
- English
- Genetics, Development, and Cellular Biology
- Geological and Atmospheric Sciences
- Greenlee School of Journalism and Communication
- History
- Mathematics
- Military Science (Army Reserve Officers' Training Corps)
- Music and Theatre
- Naval Science
- Philosophy and Religious Studies
- Physics and Astronomy
- Political Science
- Psychology
- Sociology and Criminal Justice
- Statistics
- World Languages and Cultures

### Cross-Disciplinary and Interdisciplinary Programs

The College of Liberal Arts and Sciences has a variety of interdisciplinary and cross-disciplinary programs that draw on faculty expertise across multiple departments. Students may enroll in courses offered by these programs, declare majors, certificates or minors where offered, or propose an Interdisciplinary Studies major.

- African and African American Studies Program
- American Indian Studies Program
- Bachelor of Liberal Studies Program
- Biological/Premedical Illustration Program
- Communication Studies
- Data Science

- Environmental Science and Environmental Studies
- Interdisciplinary Studies Program
- International Studies Program
- Leadership Studies
- Premedical and Preprofessional Health Programs
- Sustainability Program
- U.S. Latino/a Studies Program
- Women's and Gender Studies Program

## MAJORS

Students majoring in the College of Liberal Arts and Sciences must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated for the major.

- Advertising, B.A.
- Anthropology, B.A., B.S.
- Biochemistry, B.S.
- Bioinformatics and Computational Biology B.S.
- Biological/Pre-Medical Illustration, B.A.
- Biology, B.S.
- Biophysics, B.S.\*
- Chemistry, B.A., B.S.
- Climate Science, B.S.
- Communication Studies, B.A.
- Computer Science, B.A., B.S.
- Criminal Justice, B.A.
- Data Science, B.S.
- Earth Science, B.A., B.S.
- Economics, B.S.
- English, B.A., B.S.
- Environmental Science, B.S.
- Environmental Studies (secondary major only)
- French (see World Languages and Cultures, below)
- Genetics, B.S.
- Geology, B.S.
- German (see World Languages and Cultures, below)
- History, B.A., B.S.
- Interdisciplinary Studies, B.A., B.S.
- International Studies (secondary major only)
- Journalism and Mass Communication, B.S.
- Liberal Studies, B.L.S. (a general studies degree)
- Linguistics, B.A.
- Mathematics, B.S.
- Meteorology, B.S.

- Music, B.A., B.Mus.
- Performing Arts, B.A.
- Philosophy, B.A.
- Physics, B.S.
- Political Science, B.A.
- Professional Studies, B.L.S. (a general studies degree)
- Psychology, B.A., B.S.
- Public Relations, B.S.
- Religious Studies, B.A.
- Sociology, B.A., B.S.
- Software Engineering, B.S.
- Spanish (See World Languages and Cultures, below)
- Speech Communication, B.A.\*
- Statistics, B.S.
- Technical Communication, B.S.
- Women's and Gender Studies, B.A., B.S.
- World Languages and Cultures B.A.:
  - French
  - German
  - Spanish

*\*This program will be discontinued Fall 2023 pending Board of Regents State of Iowa approval; the Biochemistry major now has a formal program focus in biophysics.*

A secondary major must be taken in conjunction with a primary major.

## MINORS

In addition to University policies governing minors, LAS minors require at least 6 credits in courses numbered 300 and above, taken at ISU with a grade of C or higher. Completed minors will be recorded on the transcript.

- Advertising
- African and African American Studies
- American Indian Studies
- Anthropology
- Astronomy
- Biochemistry
- Bioinformatics and Computational Biology
- Biological/Pre-Medical Illustration
- Biology
- Chemistry
- Chinese Studies
- Classical Studies
- Communication Studies

- Computer Science
- Criminal Justice
- Data Science
- Economics
- English
- Entrepreneurship\*
- Environmental Studies
- Ethics
- French
- Genetics
- Geology
- German
- Gerontology\*
- History
- International Studies
- Journalism and Mass Communication
- Leadership Studies
- Linguistics
- Mathematics
- Meteorology
- Middle Eastern Studies
- Military Studies (Army Reserve Officers' Training Corps)\*
- Music
- Music Technology
- Performing Arts
- Philosophy
- Physics
- Political Science
- Psychology
- Public Relations
- Religious Studies
- Russian Studies
- Sociology
- Spanish
- Spanish Translation and Interpretation Studies
- Speech Communication
- Statistics
- Sustainability\*
- Teaching English as a Second Language
- Technical Communication
- U.S. Latino/a Studies

- Women's and Gender Studies
- World Film Studies

\*The College of Liberal Arts and Sciences participates in these interdepartmental minors.

## Certificate Programs

University policies governing Certificate Programs are found in the Degree Planning section of the catalog.

- Actuarial Science Certificate
- Computing Applications Certificate
- Data Science Certificate
- Latin American Studies Certificate
- Leadership Studies Certificate
- Science Communication Certificate

## LAS College Requirements

To obtain a bachelor's degree in any program offered by the College of Liberal Arts and Sciences, an undergraduate student must meet all university graduation requirements including:

- minimum of 120 credits
- minimum of 32 semester credits earned in residence at Iowa State University
- last 32 credits in residence
- GPA of 2.0 or better on courses taken at Iowa State University
- Information Literacy Requirement (credit for LIB 160 Introduction to College Level Research)
- Communication Proficiency Requirement (credit for ENGL 150, ENGL 250\*, and upper-level coursework)
- U.S. diversity and international perspectives requirements

*\*The College of Liberal Arts and Sciences aligns with the University Communication Proficiency Grade Requirement. At a minimum, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250; some majors set higher requirements for communication proficiency. For other university policies governing ISU degree programs, see Academics.*

Students with majors leading to Bachelor of Science or Bachelor of Arts degrees, must also meet all college and program specific requirements including:

- General Education
- World Language
- Advanced Credits

- Career Proficiency
- Completion of the Major

## General Education

Requirements in a major are designed to develop depth, or mastery of a specific field or discipline, while courses in general education are designed to establish breadth, or a strong, intellectual foundation to support learning for all majors.

### General Education Requirements and Learning Goals

The general education areas with their minimum credit requirements for the College of Liberal Arts and Sciences are:

- Arts and Humanities—(Minimum 12 credits). The student should develop an understanding of human cultural heritage and history, and an appreciation of reasoning and the aesthetic value of human creativity.
- Mathematical Disciplines and Natural Sciences —(Minimum 11 credits, including 3 in the mathematical disciplines and 8 in the natural sciences). The student should appreciate mathematics as a valuable tool of the sciences and as an intrinsically important way of thinking, and should experience science as a rational search for understanding the structure and behavior of the natural world.
- Social Sciences—(Minimum 9 credits). The student should develop an appreciation of the principal methods of studying human behavior and an understanding of the structure and functioning of institutions.

Lists of courses approved for the three general education areas are available on the LAS College website (<http://www.las.iastate.edu/students/academics/general-education/>). Students may not apply the same course in more than one general education area.

Because students fulfill, in part, the learning goals of the area of their first major by taking courses in their programs of study, the minimum number of general education credits required in the area of the first major is reduced from that listed above by 3 credits. Students in Liberal Studies or Interdisciplinary Studies majors must complete the minimum requirements in all three areas.

Consistent with its breadth goal, courses with the designator of a student's first major may not be applied to general education requirements. Courses cross-listed with a course in the student's first major may be used to satisfy either major requirements or general education requirements, but may not be used more than once. Courses taken to meet the requirements of a second major, third major or certificate may be counted in the general education groups.

Seminars and experimental courses may be acceptable as general education; advisors should consult with the LAS college office. Orientation courses, independent study courses (usually numbered 290

or 490), cooperative courses, courses numbered 500 and above, and courses taken on a satisfactory-fail (S-F) or pass-not pass (P-NP) basis cannot be applied to a general education group.

## World Language Requirement

The faculty of the College of Liberal Arts and Sciences believes that undergraduate students should acquire elementary practical experience in a second language, should be introduced to the theoretical study of language structure, and should begin to develop an understanding of a second culture through study of that culture's language. Students meet this expectation by satisfying a graduation requirement equivalent to the first year of university-level study in one world language.

Students may meet this requirement through several pathways:

- completing three or more years of high-school world language study in a single language
- passing the exam for credit at the 102 level
- receiving a passing grade in an ISU 102 world language or American Sign Language (ASL) course, an approved ISU intensive or accelerated world language course, or equivalent transfer course
- receiving a passing grade in a world language course taught in a language other than English at the 200-level or higher
- being a native speaker of a language other than English
- completing a major in any world language

Questions about the World Language Requirement and how to meet it should be directed to the College Academic Services office in 102 Catt Hall. Credits applied toward the World Language Requirement cannot be used to satisfy the general education requirements, but students who have fulfilled the World Language Requirement may apply approved courses in world languages toward the appropriate general education areas.

## Advanced Credit Requirements

To obtain a bachelor's degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, a student must earn at least 45 credits at the 300 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.

## Career Proficiency Requirement

Students will demonstrate knowledge of foundational career preparation topics such as internship and job search resources and processes, identifying and developing personal strengths and experiences, preparing application materials, interviewing, negotiating offers, and understanding ISU career services resources.

The minimum expectations of this career-readiness requirement will be met by successful completion of LAS 203 Professional Career Preparation.

Students are expected to complete the minimum requirement before their third year (before their third semester at ISU for transfer students) and are encouraged to continue developing their career proficiency beyond the minimum through internships, co-ops, research, entrepreneurial activities and other professional development experiences and coursework during their Junior and Senior years.

## The Major

Students must show they have achieved depth in a specialized area by completing successfully the requirements and learning goals of a major. A major comprises 24 to 50 credits in a program of study as determined by the faculty. Tracks within a major must have a common core that supports learning outcomes of the major. Some courses outside the major discipline may also be required as supporting work for the major. (See Majors, Minors and Certificates to find individual department and program requirements.)

The average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student's grade is C or higher. Some majors have specific GPA requirements for key courses or groups of courses.

Courses with the designator of the first major listed on the degree program may not be counted in the general education groups.

The major in Interdisciplinary Studies (B.A., B.S.) is available for undergraduate students who have unique interdisciplinary educational goals. Such a major is designed by the faculty and the student and is approved only when the educational goals cannot be met by a reasonable combination of existing majors, minors, and certificates.

## Additional Majors

Students may elect an additional major from the departments and program areas in the College of Liberal Arts and Sciences, or from a different major field offered for the bachelor's degree in another college of the university.

When choosing an additional major, students must confirm that the additional major is allowable; currently the following combinations of majors are not allowed, as multiple majors or multiple degrees:

- Economics with Business Economics
- Any combination of Journalism and Mass Communication, Advertising, and Public Relations.

Students interested in pursuing multiple majors should talk to their advisor about the process. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major. If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In all cases, the student must satisfy the requirements of each major and the general education and other degree requirements for the primary major. Students with a primary major in another college who wish to take a second major in the College of Liberal Arts and Sciences must meet all requirements of the second major, but are exempt from the LAS College General Education, World Language, Career Proficiency and Advanced Credits requirements.

University policies for students wishing to double major or earn two Bachelor's Degrees are found in the Degree Planning section of the catalog.

## Minors and Certificates

In addition to earning a major a student may want to complete a minor or certificate to indicate a special concentration of study. University policies related to minors and certificates and lists of all minors and certificates are available in the catalog. See the Degrees, Majors, Minors and Certificates tab in the LAS section of the catalog for all minors and certificates offered by the college. In addition to University policies governing minors, LAS minors require at least 6 credits in courses numbered 300 and above, taken at ISU with a grade of C or higher. Completed minors and certificates will be recorded on the transcript.

## Bachelor of Music Curriculum

In addition to the major in music leading to a Bachelor of Arts degree, the LAS College offers a Bachelor of Music degree (B.Mus.). In order to pursue teacher certification and recommendation for licensure in music, students must earn the Bachelor of Music degree. Bachelor of Music students select one of the following options: music education [vocal or instrumental], performance [voice, piano, organ, string instruments, wind or percussion instrument], or composition. For details about both degrees, see Music, Degree Requirements.

## Bachelor of Liberal Studies Curriculum

The LAS College also administers the Bachelor of Liberal Studies (B.L.S.) degree, a bachelor's degree program established by Iowa Board of Regents and offered by all three Regents institutions. The B.L.S. is a general studies degree. While the B.L.S. does not have traditional majors focused on a specific discipline, students may choose to pursue the Liberal Studies Major, taking coursework in three areas of distribution, or the Professional Studies Major, taking coursework aimed to develop broad professional competencies in critical thinking, communication, leadership/teamwork, and technology. With the assistance of a B.L.S. advisor, students can structure a program that meets their individual educational, vocational or personal goals. Students in the B.L.S. program

are not eligible for additional majors, but they may earn a Certificate or minor by completing all of the requirements of those programs. Criteria for graduating with distinction and other academic honors with a B.L.S. degree are available under Scholastic Recognition.

For specific degree requirements, see Bachelor of Liberal Studies.

## Software Engineering Curriculum

A Bachelor of Science degree in software engineering is jointly administered by the College of Liberal Arts and Sciences and the College of Engineering. The program is aimed at creating high-quality software in a systematic, controlled, and efficient manner. The specific objective of the program is to educate students on principles, processes, techniques, and tools for producing, analyzing, specifying, designing and evolving software. A broader objective is to cultivate among students intellectual curiosity, problem-solving skills, good learning habits, effective communication skills, leadership, and teamwork.

This cross-college program enables students to take a range of Software Engineering courses, as well as elective courses from both Computer Science and Computer Engineering as part of their degree program.

For specific degree requirements, see Software Engineering.

## Additional Curricular Policies

In addition to the policies outlined in the above discussion of the curricula of the LAS College:

- Elective courses as well as general education courses may be used to meet the requirements of a minor, certificate or additional major, provided that they are taken on a graded basis.
- Courses taken on a pass/not pass basis may be counted toward the required total of 120 credits and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.
- No more than 9 credits of 490 (Independent Study) courses may be counted toward graduation.
- Criteria for graduating with distinction and other academic honors are available under [Scholastic Recognition](#).
- Students whose high school study of world languages meets the College World Language Requirement may not enroll in or receive credit for 101 or 102 in that language.
- Students are responsible for talking to their academic advisors, using the degree audit, and reviewing other University policies. See the Academics section of the catalog.

## Open Option

Students who enter Iowa State University and want time to explore the best match between their academic interests, abilities, and career goals may do so as Open Option students. The Open Option experience

is designed to help students explore majors and careers, become acquainted with the entire university, and make successful adjustments to the academic expectations of Iowa State.

Open Option students are assigned academic advisors who specialize in working with students who have not declared a major. First-year Open Option students take LAS 101 and participate in the HOME learning community. This orientation experience introduces students to campus resources as well as to all of the colleges and majors on campus.

Aided by their advisor, Open Option students select courses that allow them to explore their academic interests before committing to a specific university major. Open Option students typically declare a major during their second or third semester. In addition, students who may have started in a specific field and have discovered it is not meeting their needs may transfer into Open Option for a semester or two while they decide on a new major.

For more information, visit the Open Option webpage (<https://openoption.iastate.edu/>).

## Opportunities for Students

The College of Liberal Arts and Sciences provides many opportunities for students to enhance their knowledge, skills and credentials beyond traditional academic work in their majors, minors or certificate programs.

## Honors Program

Students enrolled in the College of Liberal Arts and Sciences are encouraged to participate in the University Honors Program.

Liberal Arts and Sciences Honors is designed to add depth, breadth and challenge to enrich students' programs of study and intellectual development. Students in Liberal Arts and Sciences Honors benefit from the resources and capabilities of a large and dynamic research university along with the intellectual community that characterizes smaller, selective liberal arts colleges. Membership in LAS Honors offers specific benefits to students such as collaborations with individual faculty members on Honors projects, extended library loan privileges, 24-hour use of the Jischke Honors Building and priority registration for classes.

LAS Honors encourages freshmen as well as more advanced students to apply. Upon graduation, students who fulfill all of the requirements of the Honors Program are recognized by a special notation on their diploma and permanent record. Honors students wear white Honors cords at graduation.

## Learning Communities

Students in the LAS College can participate in a variety of learning community options that support student success by supporting the transition to college life. There are various kinds of learning communities

both within and across majors. Most learning communities involve small groups of students who take one or more classes in common and have a staff person or peer mentor who supports students as they make connections and get engaged at ISU.

See <http://www.lc.iastate.edu/> for more information.

## Teacher Preparation

Teaching licenses are issued by the Iowa Board of Educational Examiners. The Recommending Officer for the ISU University Teacher Education Program submits each candidate file after that candidate is determined to be eligible for recommendation. Recommendations for teaching licensure are issued for a specific teaching level, e.g., grades 5-12. Subject area endorsements are listed on the candidate's license. The College of Liberal Arts and Sciences collaborates with the School of Education to prepare students for recommendations for licensure in approved programs. Students who plan to teach in secondary schools (grades 5-12) may work toward completing an approved teacher preparation program in one of the following majors:

- Biology
- Chemistry
- Earth Science
- English
- History
- Mathematics
- Music (through the Bachelor of Music curriculum)\*
- Physics
- Political Science
- World Languages and Cultures (Endorsements are available in French, German, and Spanish.)

Students may also prepare for recommendation for additional endorsements. For further information, see Educator Preparation.

\*Students in the College of Liberal Arts and Sciences who complete the approved teacher preparation program in music education (B.Mus. degree with Vocal K-12 option or Instrumental K-12 option) and meet all other requirements may be recommended for a teaching license that allows them to teach music in grades K-12.

## Preprofessional Programs

Any major in the College of Liberal Arts and Sciences provides excellent preparation for entry to professional schools. Students may enter the college with a designation of Pre-Med, Pre-Law or Preprofessional Health. Most students will earn a bachelor's degree in the major of their choosing while also completing the courses required for admission to professional schools. Some students will spend one to three years as

students in the college before transferring to a professional school where they have been accepted to complete their studies.

Preprofessional students are encouraged to pursue a major that interests them and where they excel. Advisors work with students to develop a program of study within their major that meets admission requirements to professional school and develops a student's credentials for the competitive application process to professional schools. For further information, see Opportunities for Preprofessional Study.

The College of Liberal Arts and Sciences participates in a 3+3 program with the Law Schools at Drake University and at the University of Iowa which allows qualified students to complete three years at Iowa State and transfer coursework from the first year of law school to complete their bachelor's degree requirements. Visit the Liberal Arts and Sciences Student Services office for details.

## Reserve Officers' Training Corps Programs (ROTC)

The College of Liberal Arts and Sciences also offers students the opportunity to combine their academic programs with ROTC programs in Military Science (Army), Naval Science (Navy, Marine Corps), and Air Force Aerospace Studies (Air Force, Space Force). See Officer Education Programs for more information.

## Study Abroad and National Student Exchange

The LAS College offers many study abroad and domestic exchange program options to enhance the undergraduate experience. Every year hundreds of students expand their horizons through these programs while they stay on track for graduation.

LAS Study Abroad provides international study, work, and service opportunities for all Iowa State students. LAS supports faculty and staff to facilitate learning opportunities abroad, and partners with organizations to offer a breadth of program options.

International learning opportunities for LAS students come in varied formats, from semester-long experiences focused on language immersion to three-week long global seminars that focus on interdisciplinary subjects. Faculty-led programs are among the most sought-after by our undergraduates, as they pair faculty expertise and ISU credit with the opportunity to explore other lands and cultures. Other program types available to students are exchanges, direct-enroll and affiliate programs.

LAS students can also work with the ISU National Student Exchange program to explore options to study out-of-state at one of more than 200 universities within the United States, US Territories, and Canada.

Visit LAS Study Abroad (<https://abroad.las.iastate.edu/>) or the National Student Exchange website (<https://www.nse.dso.iastate.edu/>) for more information.

## Undergraduate Research

The LAS College has hundreds of faculty actively engaged in research and most majors have designated independent study and/or research courses. Students are encouraged to talk to faculty about how they can be involved in the process of discovery.

## LAS Innovation and Entrepreneurship Academy

The College of Liberal Arts and Sciences I+E Academy (<https://las.iastate.edu/students/lasinnovates/>) offers a two-year program open to all LAS majors, where students engage in online, face-to-face, and interactive activities to experience and develop an innovative and entrepreneurial mindset. The program matches students with a mentor in the second year and connects students with other on campus opportunities such as ISU's Pappajohn Center for Entrepreneurship (<https://www.isupjcenter.org/>) and Student Innovation Center offerings (<https://sictr.iastate.edu/>) where students can further develop their innovative ideas.

## Career Services and Internships

LAS Career Services supports students' career exploration, career development, and professional career search assistance. The career development process requires students to proactively plan and engage with applied learning experiences, such as internships, research, and leadership positions, throughout their time on campus. LAS Career Services strongly recommends students have 1-2 internships before entering the workforce.

LAS Career Services offers career advising, internship and job search resources, and organizes events such as career fairs that connect students with employers. Services are available to undergraduates, graduate students, and alumni. Academic credit may be available for internships/co-op through departments and LAS Career Services.

For additional information, explore the LAS Career Services website (<https://careers.las.iastate.edu/>) or visit their office on the first floor of Carver Hall.

## Advertising ADVERTISING

<http://www.greenlee.iastate.edu> (<http://www.greenlee.iastate.edu/>)

The advertising major prepares students for careers in business and industry or for graduate education. Students majoring in advertising find career opportunities in professions requiring applied communication

expertise. Graduates are qualified for positions in the creative and account sides of advertising within businesses, agencies and media. Coursework in this major focuses on writing, research, digital and emerging media, and professional abilities. Students are required to complete a capstone internship experience to practice and refine their skills.

The Greenlee School of Journalism and Communication prepares students for the field of communication. The school offers three majors:

- Advertising Bachelor of Arts (ADVRT)
- Journalism and Mass Communication Bachelor of Science (JL MC)
- Public Relations Bachelor of Science (P R)

In addition, the Greenlee School offers a 4+1 program allowing students to complete their B.A. or B.S. and earn an M.S. in journalism and mass communication in fewer semesters.

Professional skills are taught and practiced alongside academic requirements using the latest technology and leading-edge communication trends and methods.

Founded in 1905, the unit was one of the first journalism programs to be accredited in 1948 and continues to be one of the longest continuously accredited programs in the country. Accreditation is based on the principle that students need a broad-based, liberal arts education and solid core courses within the discipline. Students taking one major at the school may not seek an additional major or a minor in the school. All students are required to take an additional major or a minor outside the school as an area of expertise.

Student Learning Outcomes

Students who major in programs of the Greenlee School of Journalism and Communication are expected to develop competencies in 10 key areas:

- apply the principles and laws of freedom of speech and press, in a global context, and for the country in which the institution that invites ACEJMC is located;
- demonstrate an understanding of the multicultural history and role of professionals and institutions in shaping communications;
- demonstrate culturally proficient communication that empowers those traditionally disenfranchised in society, especially as grounded in race, ethnicity, gender, sexual orientation and ability, domestically and globally, across communication and media contexts;
- present images and information effectively and creatively, using appropriate tools and technologies;
- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;

- demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- apply critical thinking skills in conducting research and evaluating information by methods appropriate to the communications professions in which they work;
- effectively and correctly apply basic numerical and statistical concepts;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- apply tools and technologies appropriate for the communications professions in which they work.

The Advertising Major

To receive a bachelor of arts degree in advertising, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level courses or above.

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC or P R. These include:

JL MC 110	Orientation to Journalism and Communication	1
JL MC 201	Reporting and Writing for the Mass Media (C+ or better)	3
ADVRT 230	Advertising Principles	3
ADVRT 301	Research and Strategic Planning for Advertising and Public Relations	3
One of the following two courses with C+ or better		
ADVRT 334	Advertising Creativity	3
or ADVRT 336	Advertising Account Management	
300-level ADVRT, JL MC, or P R Electives		6
One of the following two courses:		
ADVRT 434	Advertising Campaigns	3
or ADVRT 436	Advertising Creative Portfolio	
JL MC 460	Law of Mass Communication	3
JL MC 462	Media Ethics, Freedom, Responsibility	3
400-level ADVRT, JL MC, or P R Elective		3
ADVRT 499A	Professional Media Internship: Required	3
Total Credits		34

Advertising majors are also required to take:

MKT 340	Principles of Marketing	3
STAT 101	Principles of Statistics (or another approved statistics course)	4

As majors in the College of Liberal Arts and Sciences, advertising students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

**University Requirement:** Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses: (U.S. Diversity) <http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses> (<http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses>) and (International Perspectives) <http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current> (<http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current>). Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

**College of LAS Requirement:** Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS world language requirement, LAS career proficiency requirement, and any unmet ISU admission requirements.

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

**Minor or Additional Major:** Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or an additional major outside of the Greenlee School of Journalism and Communication. Students taking one major at the school may not seek an additional major or minor in the school.

Juniors can apply to a concurrent degree program and earn a B.A. in advertising and an M.S. in journalism and mass communication in fewer semesters. Contact the Director of Graduate Education for more information on the Greenlee School's 4+1 Program.

## Advertising, B.A.

### Freshman

Fall	Credits	Spring	Credits
ENGL 150		3 ECON 101	3
JL MC 110		1 LIB 160	1
Arts and Humanities		3 ADVRT 230	3
Natural Science		3 JL MC 201	3

Social Science	3 Arts and Humanities	3
	Natural Science	3

**13 16**

### Sophomore

Fall	Credits	Spring	Credits
ADVRT 301		3 ADVRT 334 or 336	3
ENGL 250		3 Arts and Humanities	3

Natural Science		2 U.S. Diversity	3
World Languages and Cultures or Elective		3-4 World Languages and Cultures or Elective	3-4
LAS 203		1	

**16-17 15-16**

### Junior

Fall	Credits	Spring	Credits	Summer	Credits
ADVRT/JL MC/P R-300 level choice		3 ADVRT/JL MC/ P R choice-300 level		3 ADVRT 499A	3
MKT 340		3 ADVRT/JL MC/P R choice-400 level		3	
Arts & Humanities		3 International Perspective		3	
Minor/ additional major choice		3 Minor/ additional major choice-300 level		3	
Minor/ additional major choice		3 Minor/ additional major choice-300 level		3	

**15 15 3**

**Senior**

Fall	Credits	Spring	Credits
JL MC 460	3	JL MC 462	3
One of the following:	3	Elective or Minor/ additional major choice-300 level or above	3
ADVRT 434		Elective or Minor/ additional major choice-300 level or above	3
ADVRT 436		Elective or Minor/ additional major choice-300 level or above	3
ADVRT/JL MC/ P R 400-level choice*	3		
Minor/ additional major choice-300 level or above	3		
Elective or Minor/ additional major choice-300 level or above	3		
15		12	
Total Credits: 120-122			

## Minor in Advertising

Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in advertising, students complete 15 credits. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

JL MC 101	Mass Media and Society	3
ADVRT 230	Advertising Principles	3
ADVRT 301	Research and Strategic Planning for Advertising and Public Relations	3
6 credits from the following:		6
ADVRT 335	Advertising Media Planning	
JL MC 307	Digital Video Production	
JL MC 390	Professional Skills Development	
JL MC 401	Mass Communication Theory	
JL MC 406	Media Management	
JL MC 474	Communication Technology and Social Change	
JL MC 476	World Communication Systems	
JL MC 477	Diversity in the Media	
ADVRT 497	Special Topics in Communication	
<b>Total Credits</b>		<b>15</b>

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

## Concurrent Undergraduate and Graduate Programs

The Greenlee School offers three concurrent degree programs:

- B.A. Advertising/M.S. Journalism and Mass Communication
- B.S. Journalism/M.S. Journalism and Mass Communication
- B.S. Public Relations/M.S. Journalism and Mass Communication

Enrollment in the Greenlee School's concurrent degree programs enables students to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees. See Journalism and Mass Communication Concurrent Undergraduate and Graduate Programs for more information on combining the B.A. in Advertising and the M.S. in Journalism and Mass Communication.

## GRADUATE PROGRAMS

### Master of Science

The Greenlee School of Journalism and Communication offers work for a Master of Science degree in journalism and mass communication.

### Concurrent Programs

The Greenlee School's concurrent degree programs enable interested students the opportunity to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees.

### Graduate Minor

The Greenlee School graduate program offers minor work for students majoring in other departments.

See Journalism and Mass Communication Graduate Programs for more information on the M.S. in Journalism and Mass Communication.

## African and African American Studies

Interdepartmental Undergraduate Program

African and African American Studies, a cross-disciplinary program in the College of Liberal Arts and Sciences, offers students the opportunity to explore the African Americans' experience and African American contributions to American culture. Students in the program analyze and learn about African American experiences through the study of history, literature, art, religion, and society. They gain knowledge and develop skills and sensitivities to help them function effectively in today's diverse society.

African and African American Studies at Iowa State University is an expanding program. Many of the courses in the program satisfy general education requirements in the College of Liberal Arts and Sciences, the human relations requirement for teachers, and the university's diversity requirement; please consult official lists. Students can minor or even design their own Interdisciplinary Studies major with an emphasis in African American Studies. Relevant courses are offered through other departments.

### Undergraduate Minor

A minor in African and African American Studies requires six courses in the program with a minimum of 18 credits, including AF AM 201 Introduction to African American Studies and AF AM 460 Seminar in African American Culture. The remaining credits must come from at least two departments, with at least two courses taken at the junior level or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Independent study and internship opportunities are available for credit, but do not count in the minimum requirements for the minor.

## Air Force Aerospace Studies Program

The Department of Air Force Aerospace Studies (AFAS) is set within the College of Liberal Arts and Science as an interdisciplinary program but does not offer an academic Degree. The courses offered in the program are developed by the Air Force Air Education and Training Command and approved by the Department of the Air Force. The Department of Air Force Aerospace Studies aims to provide qualified student leaders the opportunity to earn a commission as active duty officers in the United States Air Force (USAF) or United States Space Force (USSF). All AFAS courses are open to any ISU student who has met the course prerequisites. Entry into the Air Force Reserve Officer Training Corps (AFROTC) program is not dependent on a departmental major or year in the university and is open to all qualified students; however, it is intended for students who have at least three years of coursework remaining.

For further information on AFAS and AFROTC, please get in touch with [afrotc@iastate.edu](mailto:afrotc@iastate.edu) or call 515-294-1716.

### Undergraduate Study

The curriculum is divided into two basic phases: the General Military Course (GMC) and the Professional Officer Course (POC). The GMC is introductory and open to all ISU students. It consists of four consecutive one-hour courses normally taken during the freshman and sophomore years.

Selection for entry into the POC is on a competitive basis. Cadets enrolling in this course must meet certain academic, mental, and physical requirements as well as having high moral standards. If selected, cadets who have completed the GMC will attend Field Training, a two-week intensive summer program aimed at evaluating a cadet's leadership, followership, and problem solving skills. Field Training includes officer training, physical training, career orientation, expeditionary training, and an introduction to military base functions. Successful completion of Field Training is a requirement to enter the POC.

Upon enrollment and acceptance into the POC, all cadets complete a contractual agreement with the Air Force, committing them to serve at least four years on active duty as a U.S. Air Force (USAF) or U.S. Space Force (USSF) officer after graduation. Cadets interested in an aviation career are able to compete for positions as a pilot, combat systems operator (CSO), remotely-piloted aircraft (RPA) operator, or air battle manager (ABM).

### Example schedules for GMC and POC cadets: GMC

- 1 hour per week in the AFAS academic course
- 3 hours per week of physical training which is typically held at 6 am on Monday, Wednesday and Thursday

- 2 hours per week of Leadership Laboratory (LLAB) held Tuesday mornings at 6 am

### POC

- 3 hours per week in the AFAS academic course
- 3 hours per week of physical training which is typically held at 6 am on Monday, Wednesday and Thursday
- 2 hours per week of Leadership Laboratory (LLAB) held Tuesday mornings at 6 am

AFROTC scholarships are available and provide payment for up to full tuition and fees. In addition, scholarship cadets receive a \$300-\$500 monthly subsistence allowance and \$900 per year book allowance. Scholarships can be awarded for periods from two to five years, depending on academic major. Upon acceptance of a scholarship, students complete a contractual agreement with the Air Force, which commits them to serve at least four years on active duty as a USAF or USSF officer after graduation. To determine eligibility and initiate application procedures for the scholarship program, interested students should contact the AFAS department.

### Military Studies Minor

The College of Liberal Arts and Sciences offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or more of the ROTC programs. At least six credits must be in courses numbered 300 or above.

## American Indian Studies Minor

### American Indian Studies Minor

American Indian Studies is a cross-disciplinary minor in the College of Liberal Arts and Sciences that allows students to learn more about the contemporary and historical realities of native communities in North America, to appreciate the variety of native cultures and experiences, and to be prepared for an attentive lifelong learning experience in a diverse world.

Courses focus on critical thinking and the application of knowledge in complex, diverse situations. Courses in American Indian Studies thus not only provide knowledge on specific native issues, but also prepare students for careers and further studies in fields such as community development and planning, social work, law, sociology, education, history, anthropology, agriculture, resource extraction, literature, policy, engineering, or environmental issues.

Today, 80% of American Indians live outside of reservation communities. American Indian Studies students will gain the knowledge and skills they need for living and working with, in, and around native communities and people who live everywhere in North America, and, increasingly, the world.

For students who are interested in deeper knowledge on the issues, a major can be pursued through the Interdisciplinary Studies major in the College of Liberal Arts and Sciences. Faculty members also are available to provide expertise to graduate students working on specific issues that involve American Indian themes.

The minor in American Indian Studies is 15 credits and includes:

AM IN 210	Introduction to American Indian Studies	3
-----------	---	---

And 12 additional credits of AM IN coursework, of which at least 9 credits need to be 300-level courses or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Coursework will be established in consultation with the program director through the Curriculum Change Form.

## Anthropology Overview

The ISU program in Anthropology is housed in the Department of World Languages and Cultures (<http://catalog.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures/>).

Anthropology students develop a well-rounded professional education in cultural anthropology, archaeology, and biological anthropology. An undergraduate major in Anthropology can serve as the nucleus for a general liberal education, or as the prerequisite for graduate training qualifying a person for positions in (1) college and university teaching, (2) research, and (3) administrative and applied positions in government, development organizations, museums, and private businesses or corporations.

Anthropology majors may choose either a bachelor of arts or a bachelor of science degree, both of which require 33 credits in anthropology. A bachelor of arts degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Area I (Arts and Humanities) or III (Social Sciences) or a combination of both. A bachelor of science degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Area IIA (Mathematics) or IIB (Natural Sciences) or a combination of both. All students must also complete a minor or a second major as part of their degree requirements.

### Student Learning Outcomes

Upon completion of the major in anthropology, students will be able to:

1. Explain what it means to be human through the study of culture and society, the biology and evolution of humans and other primates, and through the study of past human communities and material culture;

2. Demonstrate knowledge of the important historical and contemporary issues in the subdisciplines of archaeological, biological, and cultural anthropology;
3. Describe and evaluate local and global issues from an anthropological perspective;
4. Demonstrate an understanding of the value of cultural diversity.

## Degree Requirements

Undergraduate students with majors in anthropology are required to take the following anthropology core courses:

ANTHR 201	Introduction to Cultural Anthropology	3
ANTHR 202	Human Origins	3
ANTHR 306	Culture and Interpretation	3
ANTHR 307	Biological Anthropology	3
ANTHR 308	Archaeology	3
ANTHR 450	Approaches in Anthropology	3
One of the following methods courses is required:		3
ANTHR 319	Skeletal Biology	15
or ANTHR 32 Archaeological Discovery and Analysis		
or ANTHR 43 Ethnographic Methods		

In addition to the above, 15 ANTHR choice credits are required. 15

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

Additionally, the Anthropology Program requires a grade of C or better in one of the following courses:

ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	

The principal sub-disciplines of anthropology are represented by the following:

### 1. Cultural anthropology:

ANTHR 201	Introduction to Cultural Anthropology	3
ANTHR 230	Globalization and the Human Condition	3
ANTHR 306	Culture and Interpretation	3
ANTHR 309	Introduction to Culture and Language	3
ANTHR 310	Environmental Anthropology	3
ANTHR 313	Kinship and Marriage in a Global Perspective	3

ANTHR 490A	Independent Study: Archaeology	1-5

### 3. Biological Anthropology:

ANTHR 202	Human Origins	3
ANTHR 307	Biological Anthropology	3
ANTHR 317	Primate Behavior, Ecology, and Evolution	3
ANTHR 319	Skeletal Biology	3
ANTHR 424	Forensic Anthropology	3
ANTHR 434C	Internship: Biological Anthropology	1-6
ANTHR 445	Biological Field School	4-6

ANTHR 451C	Practicum in Anthropology: Biological Anthropology	1-3
ANTHR 490C	Independent Study: Biological Anthropology	1-5

As majors in the College of Liberal Arts and Sciences, Anthropology students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses.

Students in Anthropology have the option of pursuing a B.S. or a B.A. A B.S requires six additional group requirement credits in natural science or mathematics disciplines. A B.A. requires six additional group requirement credits in social or humanities disciplines.

or ANTHR 312	World Prehistory	
or ANTHR 401	Topics in Biological Anthropology	

Three additional credits in ANTHR at the 300+ level 3

## Graduate Programs

The department offers a master of arts degree with a major in anthropology. Graduate courses are offered in the areas of archaeology, biological anthropology, and cultural anthropology. Competence in statistics or a methodology relevant to the student's program of study must be demonstrated. Students are required to do original field, archival, or laboratory research that will result in a scholarly thesis.

## Biochemistry and Biophysics

### Overview

The Roy J. Carver Department of Biochemistry, Biophysics and Molecular Biology (<https://www.bbmb.iastate.edu>) offers majors in biochemistry in the College of Liberal Arts and Sciences and in the College of Agriculture and Life Sciences. Biochemists seek to understand life processes in terms of chemical and physical principles. Students in the biochemistry majors develop foundational analytical skills while exploring frontiers in biotechnology and medicine. Graduates in biochemistry will have a rigorous background in chemistry, biology, and physics. Biochemistry coursework focuses on the development of problem-solving skills, critical thinking, communication, and research design. The Biochemistry degree includes focused specializations towards professional goals, including three prescribed options: **Research & Biotechnology**, **Pre-Medicine**, and **Biophysics**.

Graduates with a Biochemistry B.S. degree will be prepared for postgraduate studies in the chemical or biological sciences, medical and health professional training, or immediate laboratory research in biochemistry, biotechnology, or pharmacy. Graduates are also equipped to pursue careers in teaching, technical writing, science communication and policy, intellectual property law, and biotechnology entrepreneurship. The biochemistry major is accredited by the American Society for Biochemistry and Molecular Biology (ASBMB). As such our learning objectives align with ASBMB core concepts.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Explain and provide examples to illustrate the biochemical principles underlying the following:
  - a. How energy is required and transformed in biological systems.
  - b. How macromolecular structure determines function and regulation.
  - c. How information storage and flow are dynamic and interactive.
  - d. How biochemistry and biology are driven by evolution and homeostasis
- Apply and justify appropriate techniques to characterize and quantify biomolecules in biological systems.

- Execute effective multimodal communication of the research process and results.
- Implement and justify best practices for laboratory safety and research ethics.

## Biochemistry Major in the College of Liberal Arts and Sciences

The Bachelor of Science (B.S.) degree in Biochemistry requires the Biochemistry Core and one of the following three prescribed options. The options represent focused specializations for professional goals, including *Research & Biotechnology*, *Pre-Medicine*, and *Biophysics*. As majors in the College of Liberal Arts and Sciences, Biochemistry students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below. Focus option-approved science course lists can be found on the Biochemistry website (<https://www.bbmb.iastate.edu/approved-course-lists/>).

### Biochemistry Core

The major in biochemistry requires completion of the Biochemistry Core and one of three focus options. Each defined option includes specific supporting coursework in Biology; Chemistry; Mathematics and/or Statistics.

BBMB 101	Introduction to Biochemistry	1
BBMB 102	Introduction to Biochemistry Laboratory	1
BBMB 201	Chemical Principles in Biological Systems	2
BBMB 311	Writing Scientific Reports in Biochemistry <sup>1</sup>	1
BBMB 312	Experimental Research Skills in Biochemistry	2
BBMB 404	Biochemistry I	3-4
or BBMB 504 & BBMB 505	Amino Acids and Proteins and Bioenergetics and Metabolism	
BBMB 405	Biochemistry II	3-4
or BBMB 506 & BBMB 507	Membrane Biochemistry and Biochemistry of Nucleic Acids	
BBMB 410	Analysis of Scientific Literature	2
BBMB 411	Techniques in Biochemical Research	4
BBMB 461	Molecular Biophysics	2
BBMB 561L	Laboratory in Molecular Biophysics	2-3
or CHEM 322L	Laboratory in Physical Chemistry	
PHYS 231 & 231L	Introduction to Classical Physics I and Introduction to Classical Physics I Laboratory	5
PHYS 232 & 232L	Introduction to Classical Physics II and Introduction to Classical Physics II Laboratory	5

BBMB 499	Undergraduate Research (highly encouraged elective)	arr †
<b>Total Credits</b>		<b>33-36</b> †

† Arranged with instructor.

<sup>1</sup> BBMB 311 fulfills the ISU upper-level Communication Proficiency requirement.

### Biochemistry Program of Study: Research & Biotechnology

Students interested in careers in biotechnology research and/or graduate studies in biochemistry, chemistry, or bioscience fields may opt for the Research & Biotechnology Option.

In addition to the Biochemistry Core (above):

CHEM 201 or CHEM 177 & CHEM 178	Advanced General Chemistry General Chemistry I and General Chemistry II	5-7
CHEM 201L or CHEM 177N or CHEM 177L	Laboratory in Advanced General Chemistry Laboratory in General Chemistry I Laboratory in General Chemistry I	1
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
CHEM 333L or CHEM 331L	Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors) Laboratory in Organic Chemistry I	1-2
CHEM 334L or CHEM 332L	Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors) Laboratory in Organic Chemistry II	1-2
MATH 165 & MATH 166	Calculus I and Calculus II	8
MATH 265 or MATH 266 or MATH 267 or STAT 201 or STAT 305	Calculus III Elementary Differential Equations Elementary Differential Equations and Laplace Transforms Introduction to Statistical Concepts and Methods Engineering Statistics	3-4
BIOL 211	Principles of Biology I	3
BIOL 212	Principles of Biology II	3
BIOL 313 & 313L	Principles of Genetics and Genetics Laboratory	4
BIOL 314	Principles of Molecular Cell Biology	3

Molecular Sciences from approved list	3
<b>Total Credits</b>	<b>44-49</b>

### Biochemistry Program of Study: Pre-Medicine

Students interested in qualifying for medical school training for careers as a Doctor of Medicine (MD) or Doctor of Osteopathic Medicine (DO) may opt for the Pre-Medicine Option. Allied health professions (e.g., Physician's Assistant, Dentistry, and Ophthalmology) may also consider the Pre-Medicine Option.

In addition to the Biochemistry Core (above):

CHEM 177 & 177L & CHEM 178 & CHEM 178L or CHEM 201 & 201L	General Chemistry I and Laboratory in General Chemistry I and General Chemistry II and Laboratory in College Chemistry II Advanced General Chemistry and Laboratory in Advanced General Chemistry	6-9
CHEM 325	Chemical Thermodynamics	3
CHEM 331 & 331L	Organic Chemistry I and Laboratory in Organic Chemistry I	4
CHEM 332 & 332L	Organic Chemistry II and Laboratory in Organic Chemistry II	4
MATH 165 & MATH 166	Calculus I and Calculus II	8
STAT 201 or STAT 305	Introduction to Statistical Concepts and Methods Engineering Statistics	3-4
PSYCH 101 or PSYCH 230	Introduction to Psychology Developmental Psychology	3
SOC 134	Introduction to Sociology	3
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
BIOL 313	Principles of Genetics	3
BIOL 314	Principles of Molecular Cell Biology	3
Health & Biosciences from approved list		3
<b>Total Credits</b>		<b>51-55</b>

### Biochemistry Program of Study: Biophysics

Students interested in research careers focused on the biophysical basis of life processes may opt for the Biophysics Option. *The Biophysics major will be discontinued Fall 2023 pending Board of Regents State of Iowa approval; the Biochemistry major now has a formal program focus in biophysics.*

In addition to the Biochemistry Core (above):

CHEM 201	Advanced General Chemistry	5-7
or CHEM 177 & CHEM 178	General Chemistry I and General Chemistry II	
CHEM 201L	Laboratory in Advanced General Chemistry	1
or CHEM 177N	Laboratory in General Chemistry I	
or CHEM 177L	Laboratory in General Chemistry II	
CHEM 324	Introductory Quantum Mechanics	3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
MATH 165 & MATH 166	Calculus I and Calculus II	8
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
MATH 317	Theory of Linear Algebra	4
COM S 207	Fundamentals of Computer Programming	3
BIOL 211	Principles of Biology I	3
BIOL 212	Principles of Biology II	3
Physical Sciences from approved list		3
<b>Total Credits</b>		<b>49-51</b>

As majors in the College of Liberal Arts and Sciences, Biochemistry students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to the requirements for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and LAS career proficiency requirement.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Four Year Plans

### Biochemistry B.S. Program of Study, College of Liberal Arts and Sciences

#### *Research & Biotechnology Option*

#### Sample Four-Year Plan

##### First Year

Fall	Credits	Spring	Credits
BBMB 101	1	BBMB 102	1
BBMB 110	1	BBMB 111	1
MATH 165	4	MATH 166	4
CHEM 177	4	CHEM 178	3
CHEM 177N	1	BIOL 211	3
LIB 160	1	General Education Elective	3
ENGL 150	3		
		<b>15</b>	<b>15</b>

##### Second Year

Fall	Credits	Spring	Credits
MATH 265, 266, 267, STAT 201, or STAT 305	3-4	BBMB 201	2
CHEM 331	3	CHEM 332	3
CHEM 331L	1	CHEM 332L	1
PHYS 231	4	PHYS 232	4
PHYS 231L	1	PHYS 232L	1
BIOL 212	3	ENGL 250	3
		BBMB 499	1
		LAS 203	1
		<b>15-16</b>	<b>16</b>

##### Third Year

Fall	Credits	Spring	Credits
BBMB 404	3	BBMB 405	3
BBMB 311*	1	BIOL 314	3
BBMB 312	2	BBMB 410	2
BIOL 313	3	BBMB 499	1
BIOL 313L	1	International Perspectives Elective	3
BBMB 499	1	General Education Elective	3
U.S. Diversity Elective	3		
General Education Elective	3		
		<b>17</b>	<b>15</b>

##### Fourth Year

Fall	Credits	Spring	Credits
BBMB 411	4	CHEM 325	3

BBMB 499	2 CHEM 322L or BBMB 461 <i>and</i> BBMB 561L	3-4	STAT 201	4 SOC 134	3
Upper-level Mol. Sciences Elective	3 BBMB 499	3	PHIL 235 <sup>1</sup>	3 International Perspectives Elective	3
General Education Elective	3 General Education Elective	3			
General Education Elective	3 General Education Elective	3			
	<b>15</b>	<b>15-16</b>		<b>16</b>	<b>15</b>

"General Education Electives" include credits in LAS-approved courses in *Arts & Humanities* and *Social Sciences*

\* BBMB 311 fulfills the upper-level communication proficiency requirement.

### Biochemistry B.S. Program of Study, College of Liberal Arts and Sciences *Pre-Medicine Option* Sample Four-Year Plan

#### First Year

Fall	Credits Spring	Credits
BBMB 101	1 BBMB 102	1
BBMB 110	1 BBMB 111	1
MATH 165	4 MATH 166	4
CHEM 177	4 CHEM 178	3
CHEM 177N	1 CHEM 178L	1
LIB 160	1 BIOL 211	3
ENGL 150	3 BIOL 211L	1
	<b>15</b>	<b>14</b>

#### Second Year

Fall	Credits Spring	Credits
CHEM 331	3 BBMB 201	2
CHEM 331L	1 CHEM 332	3
PHYS 231	4 CHEM 332L	1
PHYS 231L	1 PHYS 232	4
BIOL 212	3 PHYS 232L	1
BIOL 212L	1 ENGL 250	3
PSYCH 101	3 LAS 203	1
	<b>16</b>	<b>15</b>

#### Third Year

Fall	Credits Spring	Credits
BBMB 404	3 BBMB 405	3
BBMB 311*	1 BIOL 314	3
BBMB 312	2 BBMB 410	2
BIOL 313	3 BBMB 499	1

#### Fourth Year

Fall	Credits Spring	Credits
BBMB 411	4 CHEM 325	3
BBMB 499	2 CHEM 322L or BBMB 461 <i>and</i> BBMB 561L	3-4
Upper-level Health or Mol. Biosci. Elective	3 BBMB 499	3
General Education Elective	3 General Education Elective	3
General Education Elective	3 General Education Elective	3
	<b>15</b>	<b>15-16</b>

"General Education Electives" include credits in LAS-approved courses in *Arts & Humanities* and *Social Sciences*. MCAT-recommended SOC 134 and PSYCH 101 apply towards *Social Sciences* requirement.

\* BBMB 311 fulfills the upper-level communication proficiency requirement.

<sup>1</sup> Fulfills university U.S. Diversity requirement

### Biochemistry B.S. Program of Study, College of Liberal Arts and Sciences *Biophysics Option* Sample Four-Year Plan

#### First Year

Fall	Credits Spring	Credits
BBMB 101	1 BBMB 102	1
BBMB 110	1 BBMB 111	1
MATH 165	4 MATH 166	4

International Perspectives Elective	3 BBMB 499	1
General Education Elective	3 General Education Elective	3
General Education Elective	3 General Education Elective	3
	<b>17</b>	<b>16-17</b>

"General Education Electives" include credits in LAS-approved courses in *Arts & Humanities* and *Social Sciences*.

\* BBMB 311 fulfills the upper-level communication proficiency requirement.

## Minor

### The Roy J. Carver Department of Biochemistry, Biophysics, and Molecular Biology offers a minor in Biochemistry.

BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
BBMB 312	Experimental Research Skills in Biochemistry	2
One course from the following:		2-3
BBMB 461	Molecular Biophysics (2 cr)	
BBMB 561	Molecular Biophysics (2 cr)	
CHEM 325	Chemical Thermodynamics (3 cr)	
300+ level courses in BBMB or CHEM to 15 cr total		5-6
<b>Total Credits</b>		<b>15-17</b>

All minors require at least 15 credits, including at least 6 credits in course numbered 300 or above taken at Iowa State University. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Concurrent Programs

### Concurrent Bachelor of Science (B.S.)/ Master of Science (M.S.) Degrees

The department offers a concurrent enrollment degree program in either Biochemistry or Biophysics that allows ISU undergraduate students to obtain both the B.S. and M.S. degrees in about five years. The program is open to undergraduate students in the College of Liberal Arts and Sciences and in the College of Agriculture and Life Sciences. The concurrent degrees can be useful to students entering various career tracks. For those considering careers as research specialists, entry positions with higher-level responsibilities, and a higher-level salary, are made possible with the M.S. degree. For those considering careers as research directors, which require advanced study, the M.S. degree provides an advantage for admission into Ph.D. programs at the most competitive and prestigious graduate schools. Similarly, the M.S. degree can be a competitive advantage for admission in to medical, dental, law, veterinary medicine, or other professional schools.

Application to the program is made near the end of the junior undergraduate (third) year. Concurrent B.S./M.S. degree students begin research for the M.S. thesis during the summer semester after their junior year and are eligible for research assistantships, which are renewable based on academic standing and satisfactory research performance. The M.S. thesis requires intensive experience in original, independent laboratory research under the close supervision of a faculty mentor. To apply, see the concurrent B.S./M.S. application instructions found on the department's Graduate Study web page.

### Concurrent Bachelor of Science/Graduate Certificate

The Bachelor of Science /Graduate Certificate program is intended for exceptional undergraduate students majoring in Biochemistry. In this program, the student completes all of the requirements for the B.S. degree and the graduate certificate in a four-year period by combining the requirements of the two programs. The student enters the Graduate College after he/she achieves junior status and develops a plan of coursework (graduate and undergraduate) subject to the approval of the Director of Certificate (DOC). Required graduate courses are BBMB 504, 505, 506, 507, 561 and 561L. The student must satisfy the requirements of the B.S. in Biochemistry (121 credits) and the Graduate Certificate in Biochemistry (12 credits). Six credits of graduate coursework can satisfy some requirements of the B.S. degree. To apply for the B.S./Graduate Certificate, submit the application form found on the Graduate College Forms web page.

## Graduate Programs

### Introduction

Biochemistry and Biophysics are the science and technology used to understand the mechanisms underlying biological processes at the molecular level, with an emphasis on the fundamental relationships among the chemical, physical, and biological sciences. The Roy J. Carver Department of Biochemistry, Biophysics, and Molecular Biology (BBMB) administers Doctor of Philosophy (Ph.D.), Master's (M.S.), and Graduate Certificate programs that lead to an advanced degree or certificate in these disciplines. The prerequisite to graduate study is a sound undergraduate background in biology, chemistry, mathematics, and physics.

BBMB offers Doctor of Philosophy and Master's degrees in Biochemistry and in Biophysics that are designed to train students to independently conceive and carry out original research. BBMB also offers two graduate certificate programs in Biochemistry that provide a mechanism for formal recognition of focused graduate study in a specialized area that is less comprehensive than that required for a master's degree. BBMB participates in the Interdepartmental majors of Bioinformatics and Computational Biology; Genetics and Genomics; Immunobiology; Molecular, Cellular, and Developmental Biology; Neuroscience; Plant Biology; and Toxicology. All graduate degree students in BBMB are required to teach as part of their training.

### Master of Science (M.S.) Degree

The M.S. degree programs in Biochemistry and in Biophysics are useful for students who prefer to undertake research training without the longer-term commitment required for the Ph.D. degree. It is also useful for students interested more in the technical aspects of research rather than in careers as research directors. The program requires about 3 years on average to complete and the successful defense of an independent research dissertation is required. About half the time required to earn the degree is spent on advanced coursework and professional seminars, and the other half is devoted to research undertaken in the laboratory under the close supervision of a faculty mentor. Financial support is available.

To apply, applicants first submit the free BBMB online application found on the department website, which is used as a screening tool.

NOTE: Students interested in a research career are encouraged to consider the Ph.D. track. Students may enter the Biochemistry or Biophysics M.S. degree program as a direct admit to a faculty research group at any time during the year.

### Doctor of Philosophy (Ph.D.) Degree

The Ph.D. programs in Biochemistry and in Biophysics are designed to train students in the ability to independently conceive and carry out original research in the general area of the chemistry or physics of the processes of life. The programs require about 5-6 years on average

to complete and the successful defense of an independent research dissertation. The majority of the time required to earn the degree is spent doing research on the dissertation project in the laboratory under the close supervision of a faculty mentor. Considerable time also is devoted to advanced coursework and professional seminars. Financial support is available. To apply, applicants first submit the free BBMB online application found on the department website, which is used as a screening tool. Students may enter the Biochemistry or Biophysics Ph.D. degree programs either as a rotation student in the fall semester or as a direct admit to a faculty research group at any time during the year.

### Graduate Minor in Biochemistry

Graduate students in other M.S. and/or Ph.D. programs at ISU can earn a graduate minor in Biochemistry by completing 12 credits of the following courses with a grade point average of 3.0 or above: at least 6 credits from BBMB 504, BBMB 505, BBMB 506 and BBMB 507 and at least 6 credits of other BBMB 500- and 600-level courses. A student wishing to declare a minor in Biochemistry should arrange for a member of the graduate faculty in Biochemistry to serve on the POS Committee and submit the required form found on the Graduate College Forms page.

### Graduate Certificate Programs

The graduate certificate program is designed for students who wish to continue or expand their knowledge in Biochemistry at the graduate level without the time commitment or lab experience required for a formal Master's or Ph.D. program. A certificate program can be an attractive option for individuals who have a bachelor's degree and are interested in broadening their expertise, or who are working in the sciences or industry and want to continue their education at the graduate level. BBMB offers two graduate certificate programs in Biochemistry: a concurrent B.S. / Graduate Certificate and a Graduate Certificate. The standards of admission and the course standards to which a certificate student are held are equivalent to those expected of a master's student. Each graduate certificate requires at least 12 graduate credits, all of which are available either on campus or on line. A graduate supervisor will be appointed to oversee the certification for each student.

If a person who completes a graduate certificate program decides to continue for a graduate degree in Biochemistry or Biophysics, program approval is required. Credits earned for the graduate certificate may be used to meet course requirements for the graduate degree program.

### Graduate Certificate in Biochemistry

The graduate certificate in Biochemistry is designed for students who have a B.S. degree in Biochemistry or a related field and wish to advance their knowledge by taking additional coursework at the graduate level.

The graduate certificate courses may be taken either on-line or on campus. Candidates for a graduate certificate in Biochemistry are admitted in the Graduate College. A total of 12 credits is required that include BBMB 504, BBMB 505, BBMB 506 and BBMB 507, plus four

additional credits of BBMB coursework at the 500-level. The 12 credits earned in the graduate certificate program may be applied to meet the course requirements of a M.S. or Ph.D. program in Biochemistry at Iowa State University (ISU) if the student is accepted into one of these programs. To apply for the graduate certificate in Biochemistry, submit the ISU online application.

## Bioinformatics and Computational Biology

Undergraduate study in BCBio is jointly administered by the Department of Computer Science, the Department of Genetics, Development, and Cell Biology, and the Department of Mathematics. The undergraduate B.S. degree is offered through the College of Liberal Arts and Sciences.

Bioinformatics and Computational Biology is an interdisciplinary science at the interfaces of the biological, informational and computational sciences. The science focuses on a variety of topics. These include gene identification, expression, and evolution; RNA, protein, and genome structure; and molecular and cellular systems and networks. The large group of participating faculty provides students with a multidimensional perspective on bioinformatics and computational biology and presents them with broad range of possibilities to get involved in research.

This major will prepare students for careers at the interfaces of biological, informational and computational sciences. BCBio graduates with a B.S. seeking direct employment will find ready markets for their talents in agricultural and medical biotechnology industries, as well as in academia, national laboratories, and clinics. Although some students find employment directly after their baccalaureate training, many students will continue their education in one of the many excellent graduate programs in bioinformatics and computational biology that now exist.

Participation in this field requires that students achieve a high level of competence not only in biology, but also in mathematics, computer science, and statistics. As a result, the program includes required courses from many different disciplines. Graduates demonstrate an above-average ability to synthesize methods from these different disciplines to solve problems.

### Student Learning Outcomes

By completing their studies, students earning the BS degree in BCBio are expected to:

1. Develop critical thinking skills by implementing the scientific method through bioinformatics data analysis.
2. Explain and complete simple applications of the common bioinformatics and computational biology methods used for DNA, RNA, and protein analysis.

3. Understand the central dogma of biology and how bioinformatic analyses of high throughput biological next-generation sequencing proteomics datasets can help answer fundamental questions about the biology of DNA, RNA, and proteins.

4. Define systems biology and explain its importance in understanding biology; undertake basic data analyses in systems biology.

5. Identify common formats for biological data and be able to convert among different formats.

6. Summarize fundamental bioinformatics software tools, know when to apply them, and be able to use them.

7. Combine existing software tools into bioinformatic data processing pipelines.

8. Evaluate the limits of traditional algorithms and data analysis techniques as they apply to big data in biology.

9. Identify and appraise noise in high throughput biological datasets and uncertainty in the conclusions of data analysis.

10. Interpret bioinformatics and computational biology analyses individually and in collaborative learning environments.

As majors in the College of Liberal Arts and Sciences, Bioinformatics and Computational Biology students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

#### A. Complementary Courses for the BCBio Major

A minimum of 5 credits from the following:

5-8

CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry
-----------------	---

or

CHEM 177 & 177L & CHEM 178	General Chemistry I and Laboratory in General Chemistry I and General Chemistry II
----------------------------	--

or

CHEM 201 & 201L	Advanced General Chemistry and Laboratory in Advanced General Chemistry
-----------------	---

A minimum of 4 credits from the following: 4-8

CHEM 231 & 231L	Elementary Organic Chemistry and Laboratory in Elementary Organic Chemistry	
--------------------	--	--

or

CHEM 331 & 331L	Organic Chemistry I and Laboratory in Organic Chemistry I	
--------------------	--	--

and

CHEM 332 & 332L	Organic Chemistry II and Laboratory in Organic Chemistry II	
--------------------	--	--

5 credits from the following: 5

PHYS 115 & 115L	Physics for the Life Sciences and Laboratory in Physics for the Life Sciences	
--------------------	--	--

or

PHYS 131 & 131L	General Physics I and General Physics I Laboratory	
--------------------	---	--

or

PHYS 231 & 231L	Introduction to Classical Physics I and Introduction to Classical Physics I Laboratory	
--------------------	---	--

STAT 330	Probability and Statistics for Computer Science	3
----------	---	---

STAT 483	Empirical Methods for the Computational Sciences	3
----------	--	---

BIOL 211 & 211L	Principles of Biology I and Principles of Biology Laboratory I	4
--------------------	---	---

BIOL 212 & 212L	Principles of Biology II and Principles of Biology Laboratory II	4
--------------------	---	---

BIOL 314	Principles of Molecular Cell Biology	3
----------	--------------------------------------	---

or

BIOL 315	Biological Evolution	
----------	----------------------	--

or

GEN 409	Molecular Genetics	
---------	--------------------	--

**Total Credits 31-38**

Complementary courses note: The following other STAT courses may be substituted for STAT 330 and STAT 483, with permission of the BCBio Major.

STAT 330: STAT 101, 104, 201, 231, 305, or 341

STAT 483: STAT 301, 342, or 432

**B. Core Courses Within the BCBio Major**

GEN 313 & 313L	Principles of Genetics and Genetics Laboratory	4
-------------------	---	---

COM S 227 & COM S 228	Object-oriented Programming and Introduction to Data Structures (recommended when developing course plan)	7
--------------------------	---	---

COM S 230	Discrete Computational Structures	3
-----------	-----------------------------------	---

COM S 311	Introduction to the Design and Analysis of Algorithms	3
-----------	---	---

MATH 165 & MATH 166	Calculus I and Calculus II (recommended when developing course plan)	8
------------------------	---	---

BCBIO 110	BCBIO Orientation	0.5
-----------	-------------------	-----

BCBIO 322	Introduction to Bioinformatics and Computational Biology	3
-----------	--	---

BCBIO 401	Bioinformatics of Sequences	3
-----------	-----------------------------	---

BCBIO 406	Bioinformatics of OMICS	3
-----------	-------------------------	---

BCBIO 490 or BCBIO 491	Independent Study Team Research Projects	1-5
---------------------------	---	-----

**Total Credits 35.5-39.5**

Core courses note: The Com S 227/228 and Math 165/166 core course series is required for BCBio majors. However, students transferring into the major who have already earned credit for Com S 207/208 and/or the Math 181/182 can substitute those courses for the respective Com S 227/228 and/or Math 165/166 series. Students will need permission of the instructors to enroll in any upper level course that requires a pre-req in Com S 227/228 and/or Math 165/166.

**C. Support Electives**

3-9 credits to be chosen from the following list:

BBMB 404	Biochemistry I	3
----------	----------------	---

BBMB 405	Biochemistry II	3
----------	-----------------	---

BBMB 461	Molecular Biophysics	2
----------	----------------------	---

BIOL 328	Molecular and Cellular Biology of Human Diseases	3
----------	--	---

BIOL 423	Developmental Biology	3
----------	-----------------------	---

BIOL 451	Plant Evolution and Phylogeny	4
----------	-------------------------------	---

BIOL 462	Evolutionary Genetics	3
----------	-----------------------	---

BIOL 487	Microbial Ecology	3
----------	-------------------	---

COM S 252	Linux Operating System Essentials	3
-----------	-----------------------------------	---

COM S 309	Software Development Practices	3
-----------	--------------------------------	---

COM S 319	Construction of User Interfaces	3
-----------	---------------------------------	---

COM S 327	Advanced Programming Techniques	3
-----------	---------------------------------	---

COM S 363	Introduction to Database Management Systems	3
-----------	---	---

COM S 425	High Performance Computing for Scientific and Engineering Applications	3
-----------	--	---

COM S 426	Introduction to Parallel Algorithms and Programming	4
-----------	---	---

GEN 340	Human Genetics	3
---------	----------------	---

GEN 410	Analytical Genetics	3
---------	---------------------	---

MATH 207	Matrices and Linear Algebra	3
----------	-----------------------------	---

or MATH 317	Theory of Linear Algebra	
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
or MATH 267	Elementary Differential Equations and Laplace Transforms	
MATH 304	Combinatorics	3
MATH 314	Graph Theory	3
MATH 373	Introduction to Scientific Computing	3
MICRO 402	Microbial Genetics and Genomics	3
STAT 342	Introduction to the Theory of Probability and Statistics II	4
STAT 471	Introduction to Experimental Design	3
STAT 474	Introduction to Bayesian Data Analysis	3
STAT 475	Introduction to Multivariate Data Analysis	3
STAT 486	Introduction to Statistical Computing	3
STAT 581	Analysis of Gene Expression Data for the Biological Sciences	3

D. The communications and English proficiency requirements of the LAS college are met by:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

And one of the following:

ENGL 309	Proposal and Report Writing	3
or		
ENGL 312	Communicating Science and Public Engagement	
or		
ENGL 314	Technical Communication	

BCBio majors must earn a minimum grade of C in ENGL 250 Written, Oral, Visual, and Electronic Composition or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors.

## Bioinformatics and Computational Biology, B.S.

### Freshman

Fall	Credits	Spring	Credits
BCBIO 110	0.5	BIOL 212	3
BIOL 211	3	BIOL 212L	1
BIOL 211L	1	CHEM 231	3
CHEM 163	4	CHEM 231L	1
CHEM 163L	1	MATH 166	4
MATH 165	4	LIB 160	1

ENGL 150	3 Humanities choice	3
	<b>16.5</b>	<b>16</b>

### Sophomore

Fall	Credits	Spring	Credits
BIOL 313	3	COM S 228	3
BIOL 313L	1	BIOL 314	3
BCBIO 322	3	PHYS 115	4
COM S 227	4	PHYS 115L	1
ENGL 250	3	Social Science choice	3
International Perspectives or U.S. Diversity	3	LAS 203	1
	<b>17</b>		<b>15</b>

### Junior

Fall	Credits	Spring	Credits
COM S 230 (or Cpr E 310)	3	COM S 311	3
STAT 330	3	STAT 483	3
ENGL 309 (or ENGL 312 or ENGL 314)	3	Bioinformatics Support Elective	3-9
MATH 265 (or other Support Elective)	4	Humanities choice	3
Humanities Choice	3	Social Science choice	3
	<b>16</b>		<b>15-21</b>

### Senior

Fall	Credits	Spring	Credits
BCBIO 401 (or BCBIO 444)	3	BCBIO 490 or 491	1-5
Humanities choice	3	BCBIO 406	3
World Language, if needed / Elective	3-4	World Language if needed or elective	4
COM S 363 (Recommended or other support elective)	3	International Perspectives or US Diversity	3
Social Science choice	3		
	<b>15-16</b>		<b>11-15</b>

**Total Credits: 121.5-132.5**

## Minor in Bioinformatics and Computational Biology

The administering departments offer a minor in Bioinformatics and Computational Biology, which requires the following courses.

BIOL 211	Principles of Biology I	3
BIOL 212	Principles of Biology II	3
GEN 313	Principles of Genetics	3
COM S 227 & COM S 228	Object-oriented Programming and Introduction to Data Structures	7
STAT 330	Probability and Statistics for Computer Science	3

BCBIO 322	Introduction to Bioinformatics and Computational Biology	3
BCBIO 401	Bioinformatics of Sequences	3
BCBIO 406	Bioinformatics of OMICS	3
Total Credits		28

Note: The following other STAT courses may be substituted for STAT 330, with permission of the BCBio Major: STAT 101, 104, 201, 231, 305, or 341

2. The Com S 227/228 course series is required for the BCBio minor. However, students transferring into the minor who have already earned credit for Com S 207/208 can substitute those courses for the Com S 227/228 series. Students will need permission of the instructors to enroll in any upper level course that requires a pre-req in Com S 227/228.

Most students pursuing a minor in Bioinformatics and Computational Biology will be biology, genetics, computer science, computer engineering, statistics, or mathematics students who have already taken some of these courses for their major. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in Bioinformatics and Computational Biology (BCB). Faculty are drawn from several departments: Agronomy; Animal Science; Astronomy and Physics; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Computer Science; Ecology, Evolution, and Organismal Biology; Electrical and Computer Engineering; Entomology, Genetics, Development and Cell Biology; Materials Science and Engineering; Mathematics; Plant Pathology; Statistics; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The BCB program emphasizes interdisciplinary training in nine related areas of focus: Bioinformatics, Computational Molecular Biology, Structural and Functional Genomics, Macromolecular Structure and Function, Metabolic and Developmental Networks, Integrative Systems Biology, information Integration and Data Mining, Biological Statistics, and Mathematical Biology. Additional information about research areas and individual faculty members is available at: [www.bcb.iastate.edu](http://www.bcb.iastate.edu) (<http://www.bcb.iastate.edu>).

BCB students are trained to develop an independent and creative approach to science through an integrative curriculum and thesis research projects that include both computational and biological components. First year students are appointed as research assistants and participate in BCB 697 Graduate Research Rotation, working with three or more different research groups to gain experience in both “wet” (biological) and “dry” (computer) laboratory environments. In the

second year, students initiate a thesis research project under the joint mentorship of two BCB faculty mentors, one from the biological sciences and one from the quantitative/computational sciences. The M.S. and Ph.D. degrees are usually completed in two and five years, respectively.

Before entering the graduate BCB program, prospective BCB students should have taken courses in mathematics, statistics, computer science, biology, and chemistry. A course load similar to the following list would be considered acceptable:

MATH 265	Calculus III	4
STAT 341	Introduction to the Theory of Probability and Statistics I	4
COM S 227	Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 230	Discrete Computational Structures	3
CPR E 310	Theoretical Foundations of Computer Engineering	3
CHEM 163	College Chemistry	4
CHEM 231	Elementary Organic Chemistry	3
BBMB 301	Survey of Biochemistry	3
BIOL 313	Principles of Genetics	3
BIOL 315	Biological Evolution	3

During the first year, BCB students are required to address any background deficiencies in calculus, molecular genetics, computer science, statistics and discrete structures, with specific courses determined by prior training. Among the total course requirements for Ph.D. students are four core courses in Bioinformatics, three of which are mandatory in the BCB program:

BCB 567	Bioinformatics Algorithms (mandatory)	3
BCB 568	Statistical Bioinformatics (mandatory)	3
BCB 569	Structural Bioinformatics	3
BCB 570	Systems Biology (mandatory)	3

And also should include

GDCB 511	Advanced Molecular Genetics	
BCB 690	Student Seminar in Bioinformatics and Computational Biology	
BCB 691	Faculty Seminar in Bioinformatics and Computational Biology	
BCB 593	Workshop in Bioinformatics and Computational Biology	

M.S. students take the above background and core courses, take at least 6 credits of advanced coursework, and may elect to participate in fewer seminars and workshops. Additional coursework may be selected to satisfy individual interests or recommendations of the Program of Study Committee. All graduate students are encouraged to teach as

part of their training for an advanced degree. (For curriculum details and sample programs of study, see: [www.bcb.iastate.edu](http://www.bcb.iastate.edu) (<http://www.bcb.iastate.edu>)).

## Biological/Pre-Medical Illustration Overview

The interdepartmental undergraduate BPM I major is designed for students who want to combine their interests and aptitudes in science and art. Based on the theme of *Communicating Science Through Art*, the major prepares students for careers in biological visualization/illustration or for graduate education in medical visualization/illustration. Graduates enter fields such as biocommunications, environmental display design, freelance illustration, UX/UI and museum display design, creative technologies, instructional design, and various careers in the publishing, research and education, and visual communication industries.

### Student Learning Outcomes

Throughout its over 35-year existence, the underlying philosophy of BPM I has been to emphasize both art and science; students take approximately equal credit hours in the two major areas. Another important guiding principle has been visual thinking and problem-solving, and a third is maintaining student proficiency in a wide range of visual communication methods and technologies so they have the skill to choose the most effective tools for a given communication objective. Upon completion of the BPM I Program, graduates will:

- implement effective academic research methods and concept development processes for producing meaningful educational visual solutions
- demonstrate advanced science knowledge in a science focus area of choice (for example, pre-medical, or non-medical areas of life and earth science)
- demonstrate the ability to deconstruct and visualize complex science in order to create accessible, accurate, aesthetic, and meaningful visual representations, including diagrammatic, realistic, and symbolic, for a range of outputs (print, modeled, online, mobile)
- implement interdisciplinary thinking in team-based and independent projects
- flexibly adapt to new technology and communication challenges
- showcase and analyze works by articulating key visual elements in formal presentations, in written and oral format, and during assessments and critiques
- demonstrate effective use of design principles, problem solving skills, and visual organization
- demonstrate career-readiness and professional practice competencies
- exhibit an academic trajectory for engaging in life-long learning

## Entrance Requirements

Entrance into the BPM I program is by application to the BPM I Advisory Committee. Eligibility is based on an academic standard of at least 2.00 cumulative GPA on 30 credits of university level work and a consideration of artistic ability as demonstrated through submission of a portfolio of representative drawings or other art work. Freshman and transfer students usually declare pre-BPM I as their major while satisfying the conditions for entrance into the major, although other majors can be declared.

## Degree Requirements

The information below outlines the specific requirements for a BA degree in Biological/Pre-Medical Illustration (BPM I). There are four components to a degree in BPM I:

- Liberal arts general education
- Science core and advanced courses
- Art core and advanced courses
- Electives

### Part 1. College Requirements

#### a. Communication Proficiency Requirements

ENGL 150	Critical Thinking and Communication (grade of C or better)	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (grade of C or better)	3
LIB 160	Introduction to College Level Research	1
Choose one course from the following:		3
ENGL 302	Business Communication	
ENGL 316	Creative Writing: Playwriting	
Two semesters of college-level world language		0-8
Students with 3 years in high school world language are exempt		
<b>Total Credits</b>		<b>10-18</b>

#### B. Liberal Arts and Sciences Requirements\*

Arts and Humanities **		12
Natural Sciences and Mathematical Disciplines		
MATH 104	Introduction to Probability	3-4
or MATH 140	College Algebra	
or MATH 143	Preparation for Calculus	
or MATH 165	Calculus I	
or STAT 101	Principles of Statistics	
or STAT 104	Introduction to Statistics	
or COM S 107	Windows Application Programming	
or more advanced		
CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry	5

or CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	
CHEM 231 & 231L	Elementary Organic Chemistry and Laboratory in Elementary Organic Chemistry	4
Social Sciences	***	9
<b>Total Credits</b>		<b>33-34</b>

\* Choose courses to meet International Perspectives & US Diversity requirements

\*\* See <https://las.iastate.edu/students/academics/general-education/>  
Consider HIST 280, HIST 281; ART H 280, ART H 281; DSN S 183

\*\*\* See <https://las.iastate.edu/students/academics/general-education/>

## Part 2. Course Requirements for Major in BPM I (continued in Part 3)

### A. Biological Sciences Core

LAS 293D or LAS 101	Special Projects: General (F.) Orientation for Open Option and Preprofessional Students	1
BIOL 211 & 211L	Principles of Biology I and Principles of Biology Laboratory I (F.S.)	4
BIOL 212 & 212L	Principles of Biology II and Principles of Biology Laboratory II (F.S.)	4
BIOL 255 & 255L or BIOL 256 & BIOL 255L or BIOL 313 & 313L or BIOL 335 & 335L or BIOL 350 or BIOL 351 or BIOL 365	Fundamentals of Human Anatomy and Fundamentals of Human Anatomy Laboratory Fundamentals of Human Physiology and Fundamentals of Human Anatomy Laboratory Principles of Genetics and Genetics Laboratory Principles of Human and Other Animal Physiology and Principles of Human and Other Animal Physiology Laboratory Comprehensive Human Anatomy Comparative Chordate Anatomy Vertebrate Biology	4-5
Note: BIOL 350, 351 and 365 courses include labwork.		
BIOL 356 or BIOL 366 or BIOL 451 or BIOL 454	Dendrology Plant Systematics Plant Evolution and Phylogeny Plant Anatomy	3-4
GEOL 102 & 102L or BIOL 312 or BIOL 315	History of the Earth and History of the Earth: Laboratory Ecology Biological Evolution	3-4
<b>Total Credits</b>		<b>19-22</b>

### B. Art Core

DSN S 131	Drawing I (F.S.)	4
ARTIS 230	Drawing II (F.S.)	3
ARTIS 233	Watercolor Painting (F.S.)	3
ARTIS 308	Computer Modeling, Rendering and Virtual Photography (F.S.)	3
ARTIS 330	Drawing III: Life Drawing (F.S.)	3
BPM I 323	Scientific Illustration Principles and Techniques (F.)	3
BPM I 326	Illustration and Illustration Software (S.)	3
BPM I 327	Illustration as Communication (F.)	3
BPM I 337	Application of Scientific Illustration Techniques (S.)	3
BPM I 497	Illustration Internship	1
<b>Total Credits</b>		<b>29</b>

Beyond the core preparation, students must take 9 credits in the advanced science area and 12 credits in the advanced art area. The courses acceptable in these areas follow. Other courses in art and biological science may be acceptable. See BPM I advisors and/or the BPM I Advisory Committee.

### C. Advanced Art Area

Select 12 total credits from below. At least 6 credits must be studio classes. Some courses can be considered either pre-med illustration or general art; speak with your advisor for guidance.

Pre-Med Illustration Area		
ARCH 335	Three-Dimensional Studio	3
ARTIS 330	Drawing III: Life Drawing	3
ARTIS 408	Principles of 3D Animation	3
ARTIS 430	Drawing IV (F.S.)	3
ARTIS 431	Character and Scene Design	3
ARTIS 432	Sequential Narrative Drawing	3
ARTIS 475	Interactive Art	3
ARTIS 482	Selected Topics in Studio Art	1-3
BPM I 323	Scientific Illustration Principles and Techniques	3
BPM I 326	Illustration and Illustration Software	3
BPM I 337	Application of Scientific Illustration Techniques	3
BPM I 490	Independent Study	1-3
BPM I 491	Portfolio Design and Professional Development (S.)	2
BPM I 494	Special Topics in Illustration	1-3
General Art Area		
ARTIS 213	Studio Fundamentals: Painting (F.S.)	2
ARTIS 227	Introduction to Creative Digital Photography	3

ARTIS 238	Painting I (F.S.)	3
ARTIS 329	Creative Photography	3
ARTIS 338	Painting II	3
ARTIS 356	Relief Printmaking: Digital/Traditional	3-4
ARTIS 357	Intaglio and Monotype Printmaking: Digital / Traditional	3-4
ARTIS 358	Lithography: Digital / Traditional	3
ARTIS 407	Principles of Character Animation	3
ARTIS 409	Computer/Video Game Design and Development	3
ARTIS 438	Painting III (F.S.)	3
ARTIS 473	Video Art	3
BPM I 395	Field Illustration (S.SS.)	1-3
BPM I 406X	Introduction to 3D Organic Modeling in ZBrush	3
BPM I 470X	Data, Code, and Form	3
JL MC 306	Broadcast Media Production (F.S.)	3
JL MC 315	Digital Storytelling (F.S.)	3
STAT 332	Visual Communication of Quantitative Information	3

#### D. Advanced Science Area

Select 9 credits total from below.

Pre-Med Illustration Science Area - required/recommended courses by most graduate schools

BBMB 316	Principles of Biochemistry (F.)	3
BIOL 313	Principles of Genetics (F.S.SS.)	3
BIOL 314	Principles of Molecular Cell Biology (F.S.)	3
BIOL 335	Principles of Human and Other Animal Physiology (S.)	3
BIOL 352	Vertebrate Histology (S.)	4
BIOL 423	Developmental Biology (S.)	3
B M S 329	Anatomy and Physiology of Domestic Animals (S.)	3
B M S 448	Principles of Human Gross Anatomy (S.)	4
GEN 340	Human Genetics (F.S.SS.)	3

#### General Science Area

A ECL 321	Fish Biology (S.)	3
A ECL 366	Natural History of Iowa Vertebrates (S.)	3
A ECL 457	Herpetology (F.)	2
A ECL 458	Ornithology (S.)	2
A ECL 459	Mammalogy (S.)	2
ANTHR 307	Biological Anthropology (S.)	3
ANTHR 319	Skeletal Biology (F.)	3
ANTHR 424	Forensic Anthropology (S.)	3
BBMB 301	Survey of Biochemistry (S.SS.)	3
BIOL 312	Ecology (F.SS. )	4
BIOL 255	Fundamentals of Human Anatomy	4

& 255L	and Fundamentals of Human Anatomy Laboratory	
BIOL 256 & 256L	Fundamentals of Human Physiology and Fundamentals of Human Physiology Laboratory	4
BIOL 313L	Genetics Laboratory (F.S.)	1
BIOL 315	Biological Evolution (F.S.)	3
BIOL 328	Molecular and Cellular Biology of Human Diseases (F.)	3
BIOL 336	Ecological and Evolutionary Animal Physiology	3
BIOL 350	Comprehensive Human Anatomy (F.)	4
BIOL 346X	Human Physiology for Health Assessment (plus 346L)	
BIOL 351	Comparative Chordate Anatomy	5
BIOL 353	Introductory Parasitology (S.)	3
BIOL 354	Animal Behavior (F.)	3
BIOL 355	Plants and People (S.)	3
BIOL 356	Dendrology (F.)	3
BIOL 364	Invertebrate Biology (F)	3-4
BIOL 365	Vertebrate Biology (F.)	4
BIOL 366	Plant Systematics (S.)	4
BIOL 393	North American Field Trips in Biology	1-4
BIOL 394	International Field Trips in Biology	1-4
BIOL 402	Introduction to Pathology (F.)	3
BIOL 430	Principles of Plant Physiology	3
BIOL 436	Neurobiology (F.)	3
BIOL 451	Plant Evolution and Phylogeny	4
BIOL 454	Plant Anatomy (F.)	4
BIOL 455	Bryophyte and Lichen Biodiversity	3
BIOL 456	Principles of Mycology (F.)	3
BIOL 474	Plant Ecology (S.)	3
BIOL 488	Identification of Aquatic Organisms (F.S.)	1
BPM I 395	Field Illustration (S.SS.)	1-3
DS 201	Introduction to Data Science	3
DS 202	Data Acquisition and Exploratory Data Analysis	3
ENT 370	Insect Biology (F.)	3
ENT 374	Insects and Our Health (S.)	3
GEOL 102	History of the Earth	3
GEOL 103	Age of Dinosaurs	1
GEOL 108	Introduction to Oceanography	3
GEOL 111	Geological Disasters	1
GEOL 140	Climate and Society	3
GEOL 160	Water Resources of the World	3
GEOL 324	Energy and the Environment	3

GEOL 412	Micropaleontology	3
GEOL 415	Paleoclimatology	3
MICRO 302	Biology of Microorganisms (F.S.SS.)	3
MICRO 302L	Microbiology Laboratory (F.S.)	1
MICRO 310	Medical Microbiology (F.)	3
MTEOR 206	Introduction to Weather and Climate	3
MTEOR 360	Ocean-Atmosphere Interactions	3
MTEOR 404	Global Change	3
NREM 301	Natural Resource Ecology and Soils (F.)	4
NREM 330	Principles of Interpretation (S.)	3
PSYCH 310	Brain and Behavior (F.S.)	3
V PTH 401	Basics of Medical Terminology (F.)	1

As majors in the College of Liberal Arts and Sciences, Biological/Pre-Medical Illustration students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Biological/Pre-Medical Illustration, B.A. 120 minimum credits required.

### Freshman

Fall	Credits	Spring	Credits	Summer	Credits
LAS 101		1 LIB 160		1 Prepare application for BPMI entry / apply during second year	
ENGL 150		3 Humanities		3 Consider taking a science course over the summer	
CHEM 163		4 BIOL 212		3	
CHEM 163L		1 BIOL 212L		1	

BIOL 211	3 ARTIS 230	3
BIOL 211L	1 Soc Sci Choice	3
DSN S 131	4 CHEM 231 & 231L or STAT or MATH	3-4
<b>17</b>		<b>17-18</b>
		<b>0</b>

### Sophomore

Fall	Credits	Spring	Credits	Summer	Credits
Foreign Lang. or Humanities (ART 280)		3-4 For Lang or Social Sci		3-4 Consider study abroad, or attending summer AMI / GNSI Conferences and enrolling in Art/ Science/ Techniques Workshops or Iowa Lakeside Lab to take advanced biology courses	
CHEM 231 & 231L or STAT or MATH		3-4 BPM I 326		3 Consider conducting BPMI 497 Internship over the summer	
BPM I 323		3 ARTIS 330		3	
ENGL 250		3 Humanities		3	
Science Core Course		3-4 Science Core Course		3-4	
LAS 203		1			
<b>16-19</b>		<b>15-17</b>		<b>0</b>	

**Junior**

Fall	Credits	Spring	Credits	Summer	Credits
------	---------	--------	---------	--------	---------

BPM I 327		3 BPM I 337		3 Work with BPMI Advisory Committee to fine tune/plan senior portfolio	
-----------	--	-------------	--	--	--

Advanced Science or Science Core Course	3-4	Science Core Course or Advanced Science		3-4 If planning to attend graduate school, take GRE over the summer, or at the latest in the fall, and prepare up to 20 portfolio pieces for submission over the summer and fine tune in the fall	
---	-----	---	--	---	--

ARTIS 308		3 Soc Sci		3	
Humanities or Social Sci		3 ARTIS 233		3	
Advanced Science or Art		3 Humanities and Advanced Art		3	

Consider taking BPMI 491, Portfolio Design and Professional Development, to begin preparing for post-graduation steps

**15-16****15-16****0****Senior**

Fall	Credits	Spring	Credits
Advanced Science	3-5	Advanced Science	3-4
Advanced Art	3-6	Advanced Art	3-6
Humanities/Social Elective	3	Humanities/Social Sci/Elective	3-6
BPMI 497	1	Advance English or Elective (ENGL 302 through ENGL 316 count as Advanced English)	3
Advanced English or Elective	2-3		

**12-18****12-19****Minor**

A minor in biological/pre-medical illustration is offered. A minimum of 17 credits must be taken, including 8 credits in biological science courses and 9 credits in art and design courses. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

The biological sciences must include:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1

BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

The art and design courses must include:

BPM I 323	Scientific Illustration Principles and Techniques	3
BPM I 337	Application of Scientific Illustration Techniques	3
Advanced drawing, illustration, electronic media or painting course		3

For more information, contact the BPM I advisor or view the website listed above.

## Biology

### Interdepartmental Undergraduate Program

Iowa State University is a major center for research and education in the biological sciences. With over 200 faculty in the life sciences, students have the opportunity to learn from some of the nation's leaders in biological research and teaching and to participate in innovative, meaningful research projects that explore frontiers of biology. Few other universities have such a wealth of faculty expertise available to undergraduate students, making Iowa State's Biology Program the logical choice for those who want to participate in a thriving academic community.

The faculties of the Department of Ecology, Evolution, and Organismal Biology and the Department of Genetics, Development, and Cell Biology jointly offer the undergraduate biology major. This high quality academic program has the flexibility to accommodate a range of career goals while taking advantage of the university's strengths in science and technology. A bachelor's degree in biology provides excellent preparation for graduate study in biological disciplines ranging from the molecular to the ecological levels, and for entrance into various professional schools, such as human medicine, physical therapy, or veterinary medicine. The major is well suited for those who plan to teach biology, who wish to enter government or industrial employment in health or environmental professions, or who prefer educational breadth as an end in itself. By working with our professional advisors, it is possible to design a unique program of study that will meet student needs and objectives.

Students with special interests and aptitudes should consider combining biology with a minor or a second major in another subject, such as chemistry, environmental studies, journalism, mathematics, music, statistics, or many other subjects offered by the university.

### Customizing a degree

Biology encompasses an amazing diversity of disciplines and scales of study ranging from molecules to the biosphere. The Biology major offers a rich variety of coursework addressing most of the areas of biology.

The major's curriculum requirements offer tremendous flexibility in creating an individualized program of study to facilitate achievement of a student's career goals, while simultaneously assuring some exposure to all areas of biology and providing complementary knowledge from supporting courses in chemistry, physics, and math/statistics.

While flexibility is the hallmark of the Biology major, the breadth of the field can also be challenging. Thus, in an effort to provide more guidance to students who desire such, the major also provides six advising tracks, or areas of specialization, for students who wish to focus on subfields of biology or who have specific career goals in mind. Course plans for each area of specialization are listed on the Biology web site. The areas are:

**Pre-medical and Human Health Professions**—This area emphasizes preparation for further study in medical school or allied human health professions such as dentistry, optometry, genetic counseling, physical therapy, occupational therapy, physician assistant, nursing, chiropractic, and others. It also will prepare students for a broad range of careers in the biological sciences. Students are urged to determine the specific entrance requirements for the professional schools where they might study and to plan a program of study accordingly, in addition to following the basic plan.

**Pre-veterinary**—An eventual degree in Veterinary Medicine can lead to a wide variety of careers, including private clinical practice in small animal medicine or agricultural animal production. But, pre-veterinary students can also prepare themselves for careers in animal research, public health, laboratory animal medicine, food safety, regulatory medicine, and education. Specific requirements for entrance to the Iowa State Veterinary College or other schools should be consulted as programs of study are planned, in addition to following the basic plan.

**Molecular and Cellular Biology**—Students specializing in this field will explore the structure, function, and interactions of the molecules and sub-cellular features that make up living cells. This area is particularly designed for those who plan to pursue a career in research in molecular or cell biology or in related areas such as biochemistry, genetics, microbiology, developmental biology, human medicine, or veterinary medicine. Many students in this area will choose to go on to graduate school.

**Ecology and Conservation Biology**—Ecologists examine the interactions and relationships that living organisms have with each other and their environment. Conservation biologists study the nature and status of Earth's biodiversity with the aim of protecting species, their habitats, and ecosystems from excessive rates of extinction and loss. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

**Evolution and Biodiversity**—This area provides students with a sound understanding of evolutionary principles and the biological patterns that result from evolutionary change. Students have the opportunity to explore, in depth, the biodiversity found within a wide range of groups of organisms. Students who choose this specialization may go on to work for a non-profit environmental group; an environmental consulting firm; a local, state, or federal agency; or other related organizations. Many students in this area will choose to go on to graduate school.

**Teacher licensure**—Biology majors seeking recommendation for licensure to teach biology in secondary schools must meet requirements of the Teacher Education Program as well as those of the Biology Program. In addition, they must apply formally for admission to the teacher education program. See the section on Teacher Education for a list of licensure areas, degree requirements, and other information about this program.

## Other opportunities

**Undergraduate research**—Students who have interests in biological research are encouraged to become involved in the research projects of faculty members on campus. Those doing so may receive credit for the experience in BIOL 499 Undergraduate Research Experience.

Making the effort to find a suitable research mentor and engaging in research work can be one of the most valuable experiences of an undergraduate education. Internship experiences are often available at other universities, zoos, museums, governmental and non-governmental entities focused on environmental issues, and industrial or government laboratories. Students participating in such projects may receive internship credit in BIOL 494 Biology Internship.

**Field trip courses** – The Biology Program offers two field trip courses: BIOL 393 (North American Field Trips in Biology) and BIOL 394 (International Field Trips in Biology). In recent years field trip opportunities to Honduras and Spain have been available. These courses involve a pre-trip seminar followed by one-week to one-month long field trip at a time when academic year classes are not in session. The classes are low enrollment and allow extensive interaction between instructors and students in locations of biological interest.

**International experience**—Because major discoveries in science often result from global efforts, biology majors are encouraged to include an international or study abroad component in their degree programs. This can be done by participating in international field trips originating from the ISU campus in BIOL 394 International Field Trips in Biology. In addition, many students choose to study abroad, attending a university in another country for up to a year as an exchange student. Minors in a foreign language can also add an international emphasis to a degree in biology.

## Courses offered at other locations

In addition to biological science courses taught on campus, students may take courses at various remote locations and arrange to have the credits count toward the advanced courses required in the biology major.

Attending a summer field station adds an important component to an undergraduate program of study.

**Gulf Coast Research Laboratory**—The Gulf Coast Research Laboratory is affiliated with the University of Southern Mississippi. Iowa State students may register for marine biology courses and transfer credit to their degree programs under the number BIOL 480 Studies in Marine Biology. Written permission of the Biology Program Director is required for this arrangement.

**Summer Biological Field Stations**—Courses taken at summer field stations may be transferred to Iowa State University as credit in BIOL 481 Summer Field Studies. Such stations are found throughout the country and often offer courses that emphasize the adaptation of plants and animals to unique environments. See [www.biology.iastate.edu](http://www.biology.iastate.edu) (<http://www.biology.iastate.edu/>) for links to Iowa Lakeside Laboratory and other field stations in different biomes, e.g., marine/coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mts., etc.

**Organization for Tropical Studies**—Iowa State students may register for courses in tropical biology taught in Costa Rica by the Organization for Tropical Studies. Credit is transferred to Iowa State as BIOL 482 Tropical Biology. For further information, contact the Biology Student Services Office in 103 Bessey Hall.

## Student Learning Outcomes

Upon graduation, students should be able to:

- Explain and apply the core biological concepts of:
  - Evolution
  - Structure and function
  - Information flow, exchange, and storage
  - Pathways and transformations of energy and matter
  - How systems are interconnected and interact
- Apply the process of science
- Use quantitative reasoning
- Use modeling and simulation
- Utilize, communicate with, and collaborate with other disciplines
- Understand the relationship between science and society

## Undergraduate Study

Biology majors start their studies in the biological sciences by taking a two-semester long Principles of Biology course sequence:

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1

During the first year, students also take BIOL 110 Introduction to Biology and BIOL 111 Opportunities in Biology, which are half-semester courses designed to introduce the student to the discipline of biology and opportunities for careers in biology. Students transferring into the Biology major take BIOL 112 in place of BIOL 110 and BIOL 111.

Students then explore, in any order depending on their interests, four upper-level core courses including: concepts of ecology in BIOL 312; the principles of genetics in BIOL 313 and BIOL 313L; cell and molecular biology in BIOL 314; and evolutionary biology in BIOL 315. Biology majors must take an additional 21 credits of advanced biological science courses at the 300 level, or above, from an approved list of courses. Many of these courses have as prerequisites BIOL 211/L and BIOL 212/L, so students do not need to complete the four upper-level core courses before taking advanced courses. Of these advanced courses, at least 9 credits must be taken as BIOL courses, and a minimum of two laboratory or field courses must also be included from an approved list.

Biology majors should carefully consider their selection of upper-level courses to allow them to emphasize one, or more, of the sub-disciplines of Biology relevant to their post-baccalaureate objectives. Most biology courses numbered 300 or above can be used to satisfy the additional credit requirement. Some courses taught in other departments can also be applied to the biology major. Advanced students should consider including 500 level courses in their programs. The Biology Program's web site has a complete listing of acceptable upper-level life science courses.

Biology majors must demonstrate competency in their understanding of the biological sciences. A 2.0 cumulative average is required in biology and advanced biology coursework. In order to graduate, a student must have a cumulative average in the major of at least 2.00.

## General requirements

Students may earn the B.S. degree in Biology from either the College of Liberal Arts and Sciences or from the College of Agriculture and Life Sciences. Students in the College of Liberal Arts and Sciences must fulfill the College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated for the major. Students in the College of Agriculture and Life Sciences must meet University-wide requirements for graduation and requirements for that college. Contact the Student Services Office for details regarding differences in general education and course requirements that are specific to these colleges.

Supporting course requirements – Understanding biology requires a basic understanding of the physical sciences and mathematics. Consequently, a minimum number of credits in general chemistry, organic chemistry, biochemistry, and physics is required. See the Biology Program Web Site for specific supporting science requirements.

The Math requirement is competency based. After demonstrating competency in algebra and trigonometry, biology majors must take two semesters of calculus; or two semesters of Statistics; or one semester of calculus and one semester of Statistics chosen from a list of approved courses available on the Biology Program Web Site and in the Biology Program Office.

Given the important role of communications in the modern sciences, biology majors must demonstrate communication competency by earning a minimum of C in ENGL 250 Written, Oral, Visual, and Electronic Composition or equivalent composition courses and in one advanced writing course numbered ENGL 302 through ENGL 316, or JL MC 347, or SP CM 212. (Students in the College of Agriculture and Life Sciences are required to earn a C or better in ENGL 150, as well.)

## Curriculum in Biology

Administered by the Departments of Ecology, Evolution, and Organismal Biology; and Genetics, Development and Cell Biology. Students should consult the Biology Student Services Office, 103 Bessey (or biology@iastate.edu) for the appropriate course selections for professional or graduate school preparation.

### Total Degree Requirement: 120 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

### Biology: 23.5 cr.

2.00 GPA average required.

BIOL 110	Biology Major Orientation	1
BIOL 111	Opportunities in Biology	0.5
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
BIOL 312	Ecology	4
BIOL 313	Principles of Genetics	3
BIOL 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 315	Biological Evolution	3

**Total Credits** **23.5**

**Advanced Biology: 21 cr.**

2.00 GPA average required. Must include two approved Advanced Biology labs. See the Biology Program website for list of approved Advanced Biology courses, or consult an advisor in the Biology Student Services office, 103 Bessey Hall.

Biology advanced courses (from approved list)	9
Additional approved biology advanced courses	12
<b>Total Credits</b>	<b>21</b>

**Mathematical Sciences 7 cr.**

Students in College of Agriculture and Life Sciences must have a Math and Statistics.

MATH 160 or MATH 165 and STAT 101 or STAT 104	
Or	
MATH 165      Calculus I	8
& MATH 166      and Calculus II	
Or	
STAT 101 or STAT 104 and STAT 301	4-7

**Physical Sciences**

General Chemistry: 5 cr. minimum

CHEM 163      College Chemistry	5
& 163L          and Laboratory in College Chemistry	
Or	
CHEM 177      General Chemistry I	5
& 177L          and Laboratory in General Chemistry I	
CHEM 178      General Chemistry II	4
& 178L          and Laboratory in College Chemistry II	

Organic Chemistry: 4 cr. minimum

CHEM 231      Elementary Organic Chemistry	4
& 231L          and Laboratory in Elementary Organic Chemistry	
Or	
CHEM 331      Organic Chemistry I	4
& 331L          and Laboratory in Organic Chemistry I	

Biochemistry: 3 cr.

BBMB 316      Principles of Biochemistry	3
Or	
BBMB 404      Biochemistry I	3
Or	
BBMB 420      Mammalian Biochemistry	3

Physics: 5 cr. minimum

PHYS 115      Physics for the Life Sciences	5
& 115L          and Laboratory in Physics for the Life Sciences	
Or	

PHYS 131      General Physics I	5
& 131L          and General Physics I Laboratory	
PHYS 132      General Physics II	5
& 132L          and General Physics II Laboratory	

**International Perspective: 3 cr.****U.S. Diversity: 3 cr.****Communication/Information Literacy**

Students must earn a C or better in ENGL 250 and the advanced communication course. Additionally, students in the College of Agriculture and Life Sciences must earn a C or better in ENGL 150. Students should consult their advisor to discuss advanced communication course options other than SP CM 212.

ENGL 150      Critical Thinking and Communication	3
ENGL 250      Written, Oral, Visual, and Electronic Composition	3
LIB 160        Introduction to College Level Research	1
SP CM 212      Fundamentals of Public Speaking	3
<b>Total Credits</b>	<b>10</b>

**Humanities and Social Sciences**

Chosen from approved lists.

LAS - Biology

Note: Students must have completed 3 years of a single world language or take 4-8 credits of university level world language.

Humanities	12
Social Sciences	9
Career Preparation (LAS 203)	1
<b>Total Credits</b>	<b>22</b>

**Humanities and Social Sciences**

Chosen from approved lists.

CALS - Biology

Note: Students in CALS - Biology must take an approved speech course and an approved Math and Statistics course.

Humanities	3
Social Sciences	3
Ethics	3
<b>Total Credits</b>	<b>9</b>

**Biology Teacher Preparation Focus**

Biology majors seeking certification to teach Biology in secondary schools follow the requirements of the B.S. degree in Biology. In addition, they must take the complementary coursework listed below and meet all of the requirements of the Secondary Major in Education including EDUC 417, student teaching.

Complementary Coursework

PSYCH 230	Developmental Psychology	3
EDUC 418	Secondary Science Methods I	3
EDUC 419	Secondary Science Methods II	3
One course in American History or Government		3

Some students decide to complete the biology major and continue their studies as graduate students in Iowa State’s Science Education, Masters of Teaching (M.A.T.) program (<https://education.iastate.edu/graduate-students/graduate-programs/division-of-teaching-learning-leadership-and-policy/educator-prep-programs-for-licensure-recommendation/science-education-m-a-t/>).

Note: Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

Biology, B.S. (College of Liberal Arts and Sciences)

General Sample Plan

Freshman

Fall	Credits	Spring	Credits	Summer	Credits
BIOL 110		1 BIOL 212		3 All Summers: Consider internship, study abroad, field stations, research, clinical observation	
BIOL 111		0.5 BIOL 212L		1	
BIOL 211		3 Chemistry *		4	
BIOL 211L		1 Social Science		3	
CHEM 163 or 177 *		4 Math/Stat Choice *		4	
CHEM 163L or 177L *		1			
ENGL 150 or 250		3

Humanities	3 Elective or	3
Choice	Minor	
Elective or	3	
Minor		
<b>15</b>		<b>14</b>

**Total Credits: 120.5-121.5**

This is only a suggested outline plan. Students may choose or be forced to deviate from this plan to satisfy unmet requirements, for scheduling reasons, or to add a minor or double major. We strongly suggest student involvement in internships, study abroad, summer field stations, Iowa Lakeside Lab, Field Trips in Biology or research opportunities at ISU. These will enhance your program of study but may add credits or time to your degree plan.

\* Students should meet with a Biology Program advisor to determine the proper plans for chemistry, math and physics before selecting those options above.

**Biology, B.S. (College of Liberal Arts and Sciences)**
**Pre-Medical Sample Plan**

Please note that professional school requirements vary by program.

## Minor

A minor in Biology is offered by the Biology Program. The minor requires 15 credits in Biology and includes the completion of the specific courses listed below and 7 credits in biology courses numbered 300 or above. Nine (9) credits of the required courses must apply only to the minor.

For more information, see the Biology Program web site or contact the Student Services Office in 103 Bessey Hall.

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
<b>Total Credits</b>		<b>8</b>

## Graduate Programs

Biology is an undergraduate major only. Persons interested in graduate study in the biological sciences should apply directly to one of the life science graduate programs at Iowa State University.

### Programs

- Bioinformatics and Computational Biology
- Ecology and Evolutionary Biology
- Genetics
- Molecular Cellular and Developmental Biology
- Neuroscience
- Plant Biology
- Toxicology
- Immunobiology
- Environmental Science

### Interdisciplinary Graduate Studies

A non-thesis master's degree in Interdisciplinary Graduate Studies (biological sciences) has been established particularly for those who wish to have a more diversified program of advanced study than that generally permitted by specific departments and programs.

## Chemistry Overview

The department of Chemistry offers Bachelor of Science and Bachelor of Arts degrees in Chemistry in the College of Liberal Arts and Sciences.

Graduates holding the B.S. degree in Chemistry qualify in many fields as: teachers of Chemistry, supervisors in industry, technical sales personnel, and research chemists in federal, state, municipal, academic, or industrial laboratories. Students with high scholastic standing often continue with graduate work, where they may explore more thoroughly the specialized areas of chemistry in which they are interested.

The B.A. degree is useful for students who intend to pursue studies in parallel areas, such as secondary school teaching, to obtain additional majors, minors, or for pursuing professional school (such as medical, dental, or pharmacy school) outside of Chemistry. The B.S. degree is

recommended for students who wish to pursue graduate studies or a research career in Chemistry.

### Student Learning Outcomes

Upon graduation students should:

- have firm foundations in the fundamentals and application of current chemical theories.
- be able to design, carry-out, record, and analyze the results of chemical experiments.
- use modern instrumentation and classical techniques to identify and solve chemical problems as well as explore new areas of research.
- communicate the results of their work to chemists, as well as non-chemists.
- understand the ethical and environmental dimensions of problems and issues facing chemists.
- follow the proper procedures and regulations for safe storage, labeling, use of chemicals, and disposal of chemicals.
- be able to use chemical literature (perform searches for, read, evaluate, and appropriately cite publications)
- be skilled in problem solving, critical thinking, and analytical reasoning.

These skills may be applied to careers in education and industry; in professions such as law, medicine, environmental sciences, and forensic sciences. The curricula in Chemistry are approved by the American Chemical Society (ACS). Students who complete the program obtain an ACS certified baccalaureate degree provided they also take one Biochemistry course, typically BBMB 301 Survey of Biochemistry, BBMB 316 Principles of Biochemistry or BBMB 404 Biochemistry I and (<http://catalog.iastate.edu/azcourses/bbmb/>)BBMB 405 Biochemistry II.

Liberal arts majors who wish to transfer into Chemistry at the end of their second year may still complete all degree requirements and graduate within five years.

## Degree Requirements

As majors in the College of Liberal Arts and Sciences, Chemistry students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or

better in ENGL 250. The Department requires a grade of C– or better in ENGL 314.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Chemistry, B.S.

Undergraduate students seeking the Bachelor of Science (B.S.) degree in Chemistry have the following courses in their degree programs as minimum requirements.

CHEM 177 & CHEM 178 or CHEM 201 or CHEM 167	General Chemistry I and General Chemistry II Advanced General Chemistry General Chemistry for Engineering Students	4-7
CHEM 177L or CHEM 177N or CHEM 201L or CHEM 167L	Laboratory in General Chemistry I Laboratory in General Chemistry I Laboratory in Advanced General Chemistry Laboratory in General Chemistry for Engineering	1
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 301	Inorganic Chemistry	2
CHEM 316	Instrumental Methods of Chemical Analysis	2
CHEM 316L	Instrumental Analysis Laboratory	2
CHEM 322L	Laboratory in Physical Chemistry	3
CHEM 324	Introductory Quantum Mechanics	3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 332	Organic Chemistry II	3
CHEM 331L or CHEM 333L	Laboratory in Organic Chemistry I Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)	1
CHEM 332L or CHEM 334L	Laboratory in Organic Chemistry II Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)	1
CHEM 402	Advanced Inorganic Chemistry	3
CHEM 401L	Inorganic Chemistry Laboratory	1
Two advanced Chemistry courses (min 4 credits)		4-6
CHEM 399 Undergraduate Research or CHEM 499 Senior Research is strongly recommended. Credits earned in 399/499/490 may only be used to meet one of the advanced course requirements.		

The following are required as supporting work:

ENGL 150	Critical Thinking and Communication	3
ENGL 250 or ENGL 250H	Written, Oral, Visual, and Electronic Composition Written, Oral, Visual, and Electronic Composition: Honors	3
ENGL 314	Technical Communication	3
LIB 160	Introduction to College Level Research	1
LAS 203	Professional Career Preparation	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
PHYS 231	Introduction to Classical Physics I	4
PHYS 231L	Introduction to Classical Physics I Laboratory	1
PHYS 232	Introduction to Classical Physics II	4
PHYS 232L	Introduction to Classical Physics II Laboratory	1

## Chemistry, B.A.

Undergraduate students seeking the Bachelor of Arts (B.A.) degree in Chemistry have the following courses in their degree programs as minimum requirements

One of the following sequences:		6-8
CHEM 177 & CHEM 178 or CHEM 201 or CHEM 167	General Chemistry I and General Chemistry II Advanced General Chemistry General Chemistry for Engineering Students	
CHEM 177L or CHEM 177N or CHEM 201L or CHEM 167L	Laboratory in General Chemistry I Laboratory in General Chemistry I Laboratory in Advanced General Chemistry Laboratory in General Chemistry for Engineering	1
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 301	Inorganic Chemistry	2
CHEM 316	Instrumental Methods of Chemical Analysis	2
CHEM 316L	Instrumental Analysis Laboratory	2
CHEM 324	Introductory Quantum Mechanics	3
CHEM 321L or CHEM 322L	Laboratory in Physical Chemistry Laboratory in Physical Chemistry	2-3
CHEM 325	Chemical Thermodynamics	3
CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
CHEM 332	Organic Chemistry II	3
CHEM 332L	Laboratory in Organic Chemistry II	1
The following are required as supporting work:		12

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
ENGL 314	Technical Communication	3
LIB 160	Introduction to College Level Research	1
LAS 203	Professional Career Preparation	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 231	Introduction to Classical Physics I	4
PHYS 231L	Introduction to Classical Physics I Laboratory	1
PHYS 232	Introduction to Classical Physics II	4
PHYS 232L	Introduction to Classical Physics II Laboratory	1

Teacher Preparation Focus

Chemistry majors seeking certification to teach Chemistry in secondary schools can follow the requirements of either the B.S. or the B.A. degree in Chemistry. In addition they must take the complementary coursework listed below and meet all of the requirements of the Secondary Major in Education.

Complementary Coursework

PSYCH 230	Developmental Psychology	3
EDUC 418	Secondary Science Methods I	3
EDUC 419	Secondary Science Methods II	3

- One course in Biology (BIOL 211 & 211L recommended)
- One course in American History or Government

Note: Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

Chemistry, B.A.

Electives	9	
16		15

Total Credits: 120-123

- <sup>1</sup> Advanced high school chemistry and strong algebra skills are necessary for success in CHEM 201. Math ACT of 24 or greater is strongly recommended.
- <sup>2</sup> Students may substitute the following courses, if necessary:
  - CHEM 201 for 177 and 178;
  - CHEM 177L for 177N or 201L.
  - CHEM 331L and 332L for 333L and 334L; however, this substitution may result in a program which is deficient in the laboratory experience recommended by the American Chemistry Society.

- CHEM 321L for 322L; however this substitution may result in a program which is deficient in the laboratory experience recommended by the American Chemistry Society.
- PHYS 131/131L and 132/132L for PHYS 231/231L and 232/232L, however PHYS 231/231L and 232/232L are highly recommended.

<sup>3</sup> Required of Chemistry Learning Community Members.

<sup>4</sup> Completion of three years of foreign language in high school fulfills this requirement.

F Class offered Fall Semester only.

S Class offered Spring Semester only.

Individuals earning a B.A. degree in Chemistry who have taken 331L, 334L and 322L can obtain American Chemical Society certification by taking an additional advanced chemistry lecture course of BBMB 301 or 404. CHEM 550 may not be used to satisfy the Advanced Chemistry requirement.

	Electives	6
<b>14</b>		<b>14-15</b>

### Total Credits: 120-123

<sup>1</sup> Advanced high school chemistry and strong algebra skills are necessary for success in CHEM 201. Math ACT of 24 or greater is strongly recommended.

<sup>2</sup> Students may substitute the following courses, if necessary:

- CHEM 201 for 177 and 178;
- CHEM 177I for 177N or 201L
- CHEM 331I and 332L for 333L and 334L; however, this substitution may result in a program which is deficient in the laboratory experience recommended by the American Chemistry Society.

<sup>3</sup> Completion of three years of foreign language in high school fulfills this requirement.

<sup>4</sup> The completion of two courses (minimum of 2 credits each) are required to meet this requirement. (In addition to advanced Chemistry courses, certain courses in Biochemistry-Biophysics, Chemical Engineering, Computer Science, Mathematics and Materials Science and Engineering are acceptable.) Up to four credits in undergraduate research (CHEM 339 and/or 499) can be counted as one of the two advanced chemistry courses. CHEM 550 may not be used to satisfy the Advanced Chemistry requirement.

<sup>5</sup> The program as listed above meets the standard for a certified degree of the American Chemical Society's Committee on Professional Training if BBMB 301 or 404 is one of the Advanced Chemistry Courses.

F Class offered Fall Semester only.

S Class offered Spring Semester only.

## Chemistry Minor

The Department offers a minor in chemistry which may be earned by credit in:

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
or		
CHEM 167 & 167L	General Chemistry for Engineering Students and Laboratory in General Chemistry for Engineering	5
CHEM 178	General Chemistry II	3
CHEM 211	Quantitative and Environmental Analysis	2
CHEM 211L	Quantitative and Environmental Analysis Laboratory	2
CHEM 324	Introductory Quantum Mechanics	3
CHEM 331 & CHEM 332	Organic Chemistry I and Organic Chemistry II	3-6
or CHEM 231	Elementary Organic Chemistry	
CHEM 331L & CHEM 332L	Laboratory in Organic Chemistry I and Laboratory in Organic Chemistry II	1-2
or CHEM 231L	Laboratory in Elementary Organic Chemistry	
And one of the following:		2-5
CHEM 301	Inorganic Chemistry	
CHEM 316 & 316L	Instrumental Methods of Chemical Analysis and Instrumental Analysis Laboratory	
CHEM 325 & CHEM 321L	Chemical Thermodynamics and Laboratory in Physical Chemistry	
or CHEM 322	Laboratory in Physical Chemistry	
CHEM 332 & 332L	Organic Chemistry II and Laboratory in Organic Chemistry II	

The total minimum credits in Chemistry thus will be 20 to 23 depending on which advanced courses are selected. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

The concurrent Chemistry/MBA program is designed to be completed in five academic years, with three years of undergraduate coursework followed by two years of MBA studies alongside the remaining undergraduate courses.

Concurrent students are part of the full-time MBA program. Admission to the concurrent MBA program is competitive. You should apply during your junior year. Successful candidates demonstrate superior academic ability, strong leadership attributes, and clear career focus. Previous business coursework is not a requirement for application.

Internships, co-op experiences, extracurricular, and leadership activities are highly valued in the MBA candidate selection process. However, you aren't required to have additional coursework in business in preparing for the MBA.

Admitted students typically have a cumulative GPA of 3.00 or above and have scored 600 or higher on the GMAT exam or GRE equivalent. If you're interested in the concurrent MBA program, you should apply by **March 15** of your junior year to be considered for scholarships and assistantships. The final application deadline is June 1.

## Graduate Programs

The Department offers work for the degrees Master of Science and Doctor of Philosophy with majors in Chemistry, Analytical, Inorganic, Organic, and Physical chemistry. Co-majors may be taken between areas within Chemistry or between one of the areas in Chemistry and another department. Courses in other areas of Chemistry as well as courses in other departments may be used to satisfy the requirement for coursework outside the major field. A Ph.D. student in Chemistry may choose an additional specialty in one of six areas: Materials Chemistry, Industrial Chemistry, Biomolecular Sciences, Chemistry Education, Chemical Instrumentation, and Forensic Chemistry. A minimum of ten credits is required for each additional specialty. A course which counts towards an additional specialty may also count toward the outside course requirement. A minor in Chemistry is available to students in other departments. The Department participates in the interdepartmental major in Toxicology.

The Department of Chemistry requires all graduate students majoring in Chemistry to teach as part of their training for an advanced degree. Prerequisite to major graduate work is the completion of undergraduate work in Chemistry, Mathematics, and Physics substantially equivalent to that required of undergraduate Chemistry majors at this institution.

## Classical Studies

The cross-disciplinary Classical Studies Program engages students with the civilizations of ancient Greece and Rome and their influence, both past and present, on western and world cultures. The Classical Studies minor and Interdisciplinary Studies major include an integrated curriculum of courses in the cultures, literatures, history, archaeology, and art of ancient Greece and Rome from prehistoric times to the reign of the Emperor Constantine. Students also study Elementary Latin. Current information about the Program may be found at: <http://language.iastate.edu/academic-programs/classical-studies/>

Courses in Classical Studies provide background and a classical context for students whose major fields of study or career interests include History, Anthropology, English, World Languages and Cultures,

Philosophy, Women's and Gender Studies, material culture, law, medicine, political science, the life sciences, and related fields.

Students interested in pursuing an Interdisciplinary Studies major or minor in Classical Studies should meet with an academic advisor in the Department of World Languages and Cultures (<https://language.iastate.edu/advising/>) and the Classical Studies Program director (<https://language.iastate.edu/directory/#clst>).

(Note: neither this major nor minor prepares students for graduate study in Classical Studies.)

## Student Learning Outcomes

Upon the completion of their program of study, students with an interdisciplinary studies major in Classical Studies will demonstrate proficiency in three goal areas: Knowledge and Evidence, Interdisciplinarity, and Cross-Cultural Literacy.

1. Knowledge and Evidence: acquisition and communication of knowledge about the ancient Greco-Roman world through the use, critical evaluation, and contextualization of diverse bodies of evidence.
2. Interdisciplinarity: integration of subdisciplines and other fields and their methodologies to understand the complexities and limitations of various bodies of evidence and connect texts and artifacts to their cultural contexts.
3. Cross-Cultural Literacy: meaningful and creative engagement with multiple perspectives, ability to think from the perspective of a different value system and imagine different everyday experiences and different social norms.

## Interdisciplinary Studies Major in Classical Studies (CL ST)

Students interested in pursuing an Interdisciplinary Studies major in Classical Studies should consult the Program Chair (see "Program Faculty" at <https://language.iastate.edu/classical-studies/>) or an Academic Advisor in the Department of World Languages and Cultures (<https://language.iastate.edu/advising/>).

### Required Latin Languages Courses (6 Credits)

(100-level courses cannot count toward major credit requirements.)

LATIN 101	Elementary Latin I	3
LATIN 102	Elementary Latin II	3

The major requires 36 credits and permits great flexibility while maintaining academic rigor, breadth, and focus. Many courses are cross-listed with those in other departments (see course descriptions, below).

### A. Required Foundation Course: (3 credits)

CL ST 273	Greek and Roman Mythology	3
-----------	---------------------------	---

or CL ST 275 The Ancient City

### B. Required Ancient History Courses: (6 credits)

CL ST 402	Greek Civilization.	3
CL ST 403	Roman Civilization.	3

C. Additional Courses: Students must take at least 27 credits chosen from a, b, and c below (or approved by the Program Committee), with a minimum of 3 credits from each section (not including the course used for the Required Foundation Course).

#### a) Material Culture and Art: (at least 3 credits)

CL ST 369	Ancient Egypt	3
CL ST 376A	Classical Archeology: Bronze Age and Early Iron Age Greece	3
CL ST 376B	Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)	3
CL ST 376C	Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)	3

CL ST 383	Greek and Roman Art	3
CL ST 384	Roman Italy: An Introduction	2
CL ST 385	Study Abroad: Roman Italy: Building the Empire	3
CL ST 394	The Archaeology of Greece: An Introduction	2
CL ST 395	Study Abroad: The Archaeology of Greece	2-6

#### b) Literature: (at least 3 credits)

CL ST 353	World Literature: Western Foundations through Renaissance	3
CL ST 372	Greek and Roman Tragedy and Comedy	3
CL ST 373	Heroes of Greece, Rome, and Today	3

#### c) Cultural Studies: (at least 3 credits)

CL ST 273	Greek and Roman Mythology	3
CL ST 275	The Ancient City	3
CL ST 310	Ancient Philosophy	3
CL ST 350	Rhetorical Traditions	3
CL ST 367	Christianity in the Roman Empire	3
CL ST 368	Religions of Ancient Greece and Rome	3
CL ST 374	Sex, Gender, and Culture in the Ancient Mediterranean World	3
CL ST 430	Foundations of Western Political Thought	3
CL ST 480	Seminar in Classical Studies	3
CL ST 490	Independent Study	1-6
LATIN 490	Independent Study	1-6
CL ST 512A	Readings Seminar in European History: Ancient	3
CL ST 530	Foundations of Western Political Thought	3
CL ST 594A	Research Seminar in European History: Ancient	3

## Notes

1. The list of acceptable courses may include courses not currently in the list above. Contact the Classical Studies Program director for information on eligible courses.

2. The general requirements for the Interdisciplinary Studies major in the College of Liberal Arts and Sciences must be met. All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major.

3. Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). In addition, the Department requires a grade of C or better in any course numbered between 350 and 379 in Classical Studies.

4. LATIN 490 Independent Study (1-6 credits, repeatable up to 9 credits): This option will only occasionally be available and only to students who have successfully completed intermediate-level Latin coursework elsewhere.

As majors in the College of Liberal Arts and Sciences, Interdisciplinary Studies students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Minor in Classical Studies

The minor in Classical Studies requires 18 credits: 6 credits of Latin and 12 credits of CL ST courses taught in English. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

a) The following set of courses in Latin: (6 credits)

LATIN 101	Elementary Latin I	3
LATIN 102	Elementary Latin II	3

b) One of the following introductory courses: (3 credits) 3

CL ST 273 Greek and Roman Mythology (or)

CL ST 275 The Ancient City

c) One course in ancient history from those listed below or approved by the program committee: (3 credits) 3

CL ST 402 Greek Civilization.

CL ST 403 Roman Civilization.

d) Two additional courses (not used to meet other CL ST minor requirements) from those listed below or approved by the program committee: (6 credits) 6

One of these classes (3 crs) must be at the 300-level or above.

CL ST 273 Greek and Roman Mythology

CL ST 275 The Ancient City

CL ST 310 Ancient Philosophy

CL ST 350 Rhetorical Traditions

CL ST 353 World Literature: Western Foundations through Renaissance

CL ST 367 Christianity in the Roman Empire

CL ST 368 Religions of Ancient Greece and Rome

CL ST 369 Ancient Egypt

CL ST 372 Greek and Roman Tragedy and Comedy

CL ST 373 Heroes of Greece, Rome, and Today

CL ST 374 Sex, Gender, and Culture in the Ancient Mediterranean World

CL ST 376A Classical Archeology: Bronze Age and Early Iron Age Greece

CL ST 376B Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)

CL ST 376C Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)

CL ST 383 Greek and Roman Art

CL ST 384 Roman Italy: An Introduction

CL ST 385 Study Abroad: Roman Italy: Building the Empire

CL ST 394 The Archaeology of Greece: An Introduction

CL ST 395 Study Abroad: The Archaeology of Greece

CL ST 402 Greek Civilization.

CL ST 403 Roman Civilization.

CL ST 430 Foundations of Western Political Thought

CL ST 480 Seminar in Classical Studies

CL ST 490 Independent Study

CL ST 512A Readings Seminar in European History: Ancient

CL ST 530 Foundations of Western Political Thought

CL ST 594A Research Seminar in European History: Ancient

LATIN 490 Independent Study

## Climate Science

Climate impacts global environmental and ecological systems, human health, water availability, agricultural systems and food security, human migrations, and economic systems. Future climate change is projected to further worsen food insecurity, water scarcity, human migrations, and global conflict.

This major is designed to give the students a solid foundation on how the climate system works and competency in areas of data analysis, planning and mitigation, and science communication. Students will take core courses in climate science and complementary areas, and select at least one focus area for additional specialization. Focus areas include: advanced climate science; data visualization; design and planning for sustainability; food, agriculture and biodiversity; policy and human behavior; and science communication.

### Student Learning Outcomes:

Graduates of the Climate Science degree will have the skills and knowledge to:

1. Understand scientific principles and their application to scientific inquiry and to societal concerns relating to climate science.
2. Demonstrate a broad understanding of the climate system, how it works on multiple timescales, and the utility of tools, such as models, and their strengths and limitations in the context of climate science.
3. Demonstrate a broad understanding of climate issues and policies.
4. Think critically about the range of climate information, data, and literature coming from a variety of sources and distill application-relevant knowledge.
5. Demonstrate proficiency in data analysis and problem-solving of relevant climate systems, issues, and challenges.
6. Understand societal concerns related to climate change to develop and/or promote practical and applied research within the climate change research community.
7. Work with diverse teams whose members have a range of professional and disciplinary skills relevant to climate issues.
8. Work to identify climate-related needs and develop strategies to address these needs.
9. Use systems thinking approaches to better understand/solve climate change issues.
10. Effectively communicate in oral, written, and visual formats.

### Climate Science Core Curriculum

C R P 293	Environmental Planning	3
or SOC 220	Globalization and Sustainability	
ECON 380	Energy, Environmental and Resource Economics	3
GEOL 100	How the Earth Works	3

or GEOL 101	Environmental Geology: Earth in Crisis	
GEOL 100L	How the Earth Works: Laboratory	1
GEOL 324	Energy and the Environment	3
GEOL 415	Paleoclimatology	3
JL MC 347	Science Communication	3
MTEOR 140	Climate and Society	3
MTEOR 206	Introduction to Weather and Climate	3
MTEOR 360	Ocean-Atmosphere Interactions	3
MTEOR 404	Global Change	3
Capstone Choice		2
<b>Total Credits</b>		<b>33</b>

### Required Supporting Courses

CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry *	5-6
or CHEM 167 & 167L	General Chemistry for Engineering Students and Laboratory in General Chemistry for Engineering	
or CHEM 201 & 201L	Advanced General Chemistry and Laboratory in Advanced General Chemistry	
ECON 101	Principles of Microeconomics	3
MATH 160	Survey of Calculus (MATH 165 required for Advanced Climate Science Pathway)	4
or MATH 165	Calculus I	
PHYS 131 & 131L	General Physics I and General Physics I Laboratory	5
or PHYS 231 & 231L	Introduction to Classical Physics I and Introduction to Classical Physics I Laboratory	
STAT 305	Engineering Statistics	3
or STAT 101	Principles of Statistics	
or STAT 104	Introduction to Statistics	
<b>Total Credits</b>		<b>20-21</b>

\* Students with previously earned credit for CHEM 177 and CHEM 177L may use it to meet this requirement.

### Pathway Requirement

Students must complete one specialized pathway. All pathways require at least 15 credits; students choosing the Advanced Climate Science Pathway will complete 20 credits. All pathways require 9 credits at the 300-level or higher. Students are encouraged to carefully review course prerequisites when planning course selections in their chosen pathways.

- Advanced Climate Science
- Data Visualization
- Design and Planning for Sustainability

- Food, Agriculture and Biodiversity
- Policy and Human Behavior
- Science Communication

### Advanced Climate Science

Advanced Climate Science requires MATH 166; PHYS 132 or PHYS 232; plus 12 credits from the choices listed. The pathway requires 9 credits at the 300-level or higher.

MATH 166	Calculus II	4
PHYS 132	General Physics II	4
or PHYS 232	Introduction to Classical Physics II	
12 credits from the following:		
AGRON 405	Soil-Plant-Animal-Atmosphere Physics	3
AGRON 406	World Climates	3
GEOL 402	Watershed Hydrology	3
GEOL 411	Hydrogeology	4
GEOL 452	Intro GIS for Geoscientists (or other advanced GIS course such as GEOL 488)	3
GEOL 468	Applied Geostatistics for Geoscientists	3
GEOL 474	Glacial and Quaternary Geology	3
GEOL 479	Surficial Processes	3
GEOL 483	Environmental Biogeochemistry	3
GEOL 489	Survey of Remote Sensing Technologies	3
MTEOR 227	Computational Meteorology I (or other computer programming course such as GEOL 559)	3
MTEOR 301	General Meteorology	4
MTEOR 341	Atmospheric Physics I	3
MTEOR 408X	Numerical Weather and Climate Prediction	3
MTEOR 452	Climate Modeling	3

### Data Visualization

Data Visualization requires 15 credits from the choices listed. The pathway requires 9 credits at the 300-level or higher.

ARCH 439	Computational Design Theory	3
ARTIS 212	Studio Fundamentals: Digital Media	3
ARTIS 308	Computer Modeling, Rendering and Virtual Photography	3
ARTIS 408	Principles of 3D Animation	3
ARTIS 470X	Data, Code, and Form	3
ARTIS 473	Video Art	3
ARTIS 475	Interactive Art	3
C R P 251	Fundamentals of Geographic Information Systems	3
C R P 351	Intermediate Geographic Information Systems	3
C R P 449	Geodesign: Planning for Sustainable Futures	3
C R P 456	GIS Programming and Automation	3

GEOL 452	Intro GIS for Geoscientists	3
GEOL 488	Raster GIS for Geoscientists	3
L A 211	Digital Design Methods for Landscape Architecture	3
L A 454	Fundamentals of Remote Sensing and Spatial Analysis	3
L A 459	Digital Design Methods for Landscape Architecture	3
STAT 332	Visual Communication of Quantitative Information	3

### Design and Planning for Sustainability

Design and Planning for Sustainability requires 15 credits from the choices listed. The pathway requires 9 credits at the 300-level or higher.

ARCH 451	Whole Building Energy Performance Modeling	3
ARCH 558	Sustainability and Green Architecture	3
C R P 251	Fundamentals of Geographic Information Systems	3
C R P 291	World Cities and Globalization	3
C R P 293	Environmental Planning	3
C R P 301	Urban Analytical Methods	4
C R P 351	Intermediate Geographic Information Systems	3
C R P 383	Theory of the Planning Process	3
C R P 445	Transportation Policy and Planning	3
C R P 449	Geodesign: Planning for Sustainable Futures	3
C R P 455	Smart and Sustainable Cities	3
C R P 457	Geogames for Civic Engagement	3
C R P 460	Social Justice and Planning	3
C R P 484	Sustainable Communities	3
C R P 492	Planning Law, Administration and Implementation	3
GEOL 452	Intro GIS for Geoscientists	3
GEOL 488	Raster GIS for Geoscientists	3
L A 270	Foundations in Natural Resource Policy and History	3

### Food, Agriculture and Biodiversity

Food, Agriculture and Biodiversity requires 15 credits from the choices listed. The pathway requires 9 credits at the 300-level or higher.

A ECL 231	Principles of Wildlife & Fisheries Conservation	3
A ECL 471	Introductory Conservation Biology	3
AGRON 180	Global Agriculture in a Changing World	3
AGRON 181	Introduction to Crop Science	3
AGRON 182	Introduction to Soil Science	3
AGRON 316	Crop Structure-Function Relationships	3
AGRON 317	Principles of Weed Science	3
AGRON 334	Forage Crop Management	3
AGRON 342	World Food Issues: Past and Present	3

AGRON 405	Soil-Plant-Animal-Atmosphere Physics	3
AGRON 406	World Climates	3
BIOL 204	Biodiversity	2
BIOL 211	Principles of Biology I	3
BIOL 312	Ecology	4
BIOL 355	Plants and People	3
BIOL 366	Plant Systematics	4
BIOL 370	GIS for Ecology and Environmental Science	3
or NREM 446	Integrating GPS and GIS for Natural Resource Management	
ENT 370	Insect Biology	3
or A ECL 366	Natural History of Iowa Vertebrates	
or BIOL 354	Animal Behavior	
ENT 374	Insects and Our Health	3
ENT 471	Insect Ecology	3
GLOBE 304	Socio-Economic Global Resource Systems	3
GLOBE 360	Global Health	3
HORT 342	Landscape Plant Installation, Establishment, and Management	3
HORT 475	Urban Forestry	3
NREM 301	Natural Resource Ecology and Soils	4
NREM 311	Field Ecology in Montana	4
NREM 390	Fire Ecology and Management	3
NREM 452	Ecosystem Management	3

### Policy and Human Behavior

Policy and Human Behavior requires POL S 283 plus 12 credits from the choices listed. The pathway requires 9 credits at the 300-level or higher.

POL S 283	Introduction to Environmental Politics and Policies	3
12 credits from the following:		
HIST 362	Global Environmental History	3
HIST 363	U. S. Environmental History	3
PHIL 230	Moral Theory and Practice	3
PHIL 330	Ethical Theory	3
PHIL 334	Environmental Ethics	3
POL S 335	Science, Technology, and Public Policy	3
POL S 344	Public Policy	3
POL S 443	Energy Policy	3
POL S 480	Ethics and Public Policy	3
PSYCH 318	Judgment and Decision Making	3
SOC 220	Globalization and Sustainability	3
SOC 382	Environmental Sociology	3

SOC 331	Social Class and Inequality	3
SOC 348	Global Poverty, Resources and Sustainable Development	3

### Science Communication

Science Communication requires 15 credits from the choices listed.

The pathway requires 9 credits at the 300-level or higher.

BPM I 323	Scientific Illustration Principles and Techniques	3
BPM I 326	Illustration and Illustration Software	3
BPM I 327	Illustration as Communication	3
COMST 327	Persuasion and Social Influence	3
ENGL 332	Visual Communication of Quantitative Information	3
ENGL 355	Literature and the Environment	3
ENGL 477	Seminar in Technical Communication	3
JL MC 260	Media Controversies in Science and Technology	3
JL MC 401	Mass Communication Theory	3
JL MC 474	Communication Technology and Social Change	3
JL MC 476	World Communication Systems	3
PHIL 206	Introduction to Logic and Scientific Reasoning	3
P R 220	Principles of Public Relations	3
P R 305	Publicity Methods	3
P R 323X	Strategic Communication in Agriculture and the Environment	3

As majors in the College of Liberal Arts and Sciences, Climate Science students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Climate Science 4-Year Plan

This plan is an example only; students should discuss their graduation plan with their advisor.

**Freshman**

<b>Fall</b>	<b>Credits Spring</b>	<b>Credits</b>
GEOL 112	1 GEOL 113	1

# Communication Studies

## The Communication Studies Major

comst.las.iastate.edu (<https://comst.las.iastate.edu/>)

The Communication Studies Program focuses on human communication, exploring the ways humans create and negotiate meaning.

Communication Studies majors master a focused course of inquiry into interpersonal processes as they create and sustain relationships and impact individuals, groups, and organizations. The Communication Studies curriculum builds primarily on social science traditions in developing a liberal arts education emphasizing human communication.

Students in the Communication Studies major study applied communication theory and research in interpersonal, small group, organizational, intercultural, and other contexts.

The Communication Studies (ComSt) major teaches students how to think critically, giving them the ability to examine complex communication issues, and develop and implement strategies grounded in evidence-based research. This prepares students for careers in business and industry and graduate education. Students majoring in ComSt will find their career opportunities enhanced in professions requiring applied communication expertise, e.g., human resource management, public relations, training and development, sales management, recruitment, event planning, sales, management, organizational development, business communication, law, and international and intercultural relations.

## Student Learning Outcomes

Upon graduation Communication Studies majors will...

- Develop foundational knowledge of human communication
- Apply human communication strategies in a diverse world
- Evaluate and utilize evidence-based research
- Cultivate communication competence

## University-wide Requirements

To meet the University's Communication Proficiency requirement students are required to take:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

Plus one of the following: 3

ENGL 302	Business Communication
ENGL 309	Proposal and Report Writing
ENGL 314	Technical Communication
ENGL 415	Business and Technical Editing

A grade of C or higher is required in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors).

**Total Credits** 9

Students in all majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. (COMST 310 fulfills the international perspective requirement/COMST 210 and SP CM 323 fulfill the U.S. diversity requirement). Approved courses are listed at: <http://www.registrar.iastate.edu/courses/div-ip-guide.html> (<http://www.registrar.iastate.edu/students/div-ip-guide/>). Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## LAS College Requirements

As majors in the College of Liberal Arts and Sciences, Communication Studies students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. Students must also complete the LAS world language requirement, career proficiency requirement and LAS general education requirements. In accordance with college requirements, an overall average in Communication Studies courses of C (2.0) or better is required. This means students need a 2.0 GPA in the 33 hours taken to fulfill the major requirements in Communication Studies.

## The Communication Studies Major

Communication Studies majors must earn at least 120 credits, with 45 credits at the 300-400 levels, and a minimum of 33 credits in COMST.

### Core Requirements (15 credits)

COMST 101	Introduction to Communication Studies	3
COMST 211	Interpersonal Communication	3
COMST 301	Human Communication Theory	3
COMST 303	Introduction to Communication Research Methods	3
Plus one of the following:		3
COMST 214	Professional Communication	
COMST 218	Conflict Management	
COMST 210	Communication and U.S. Diversity	
SP CM 212	Fundamentals of Public Speaking	
<b>Total Credits</b>		<b>15</b>

### Upper Division Requirements (15 credits). Select five courses from the following

COMST 310	Intercultural Communication	3
COMST 311	Relational Communication	3
COMST 313	Leadership Communication Theories	3

COMST 314	Organizational Communication	3
COMST 317	Small Group Communication	3
COMST 319	Communication Training and Development	3
COMST 325	Nonverbal Communication	3
COMST 327	Persuasion and Social Influence	3
COMST 330	Computer Mediated Communication	3
COMST 450	Special Topics in Communication Studies	3
SP CM 323	Gender and Communication	3
<b>Total Credits</b>		<b>15</b>

### Capstone Course Requirement (3 credits)

COMST 404	Research Seminar	3
-----------	------------------	---

### Additional Recommended Course

STAT 101	Principles of Statistics	4
----------	--------------------------	---

## Communication Studies, B.A.

### Freshman

Fall	Credits Spring	Credits
ENGL 150	3 Elective	3
COMST 101	3 Social Science Choice	3
Humanities Choice	3 Humanities Choice	3
LIB 160	1 International Perspectives Course	3

Electives 300+	3 Elective 300+	3
Elective 300+	3 Elective 300+	3
<b>16</b>		<b>15</b>

**Total Credits: 120-124****The Communication Studies Minor (18 credits)**

The requirements for a minor in ComSt may be fulfilled by credit in:

COMST 101	Introduction to Communication Studies	3
COMST 301	Human Communication Theory	3
Select one (1) 200-Level course:		3
COMST 210	Communication and U.S. Diversity	
COMST 211	Interpersonal Communication	
COMST 214	Professional Communication	
COMST 218	Conflict Management	
Plus 3 300-level courses, (9) credits from the following:		9
COMST 310	Intercultural Communication	
COMST 311	Relational Communication	
COMST 313	Leadership Communication Theories	
COMST 314	Organizational Communication	
COMST 317	Small Group Communication	
COMST 319	Communication Training and Development	
COMST 325	Nonverbal Communication	
COMST 327	Persuasion and Social Influence	
COMST 330	Computer Mediated Communication	
COMST 450	Special Topics in Communication Studies	

Students must earn an overall average of C (2.0) or better in all courses taken for the minor.

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Total Credits 18**

## Computer Science Overview

<http://www.cs.iastate.edu>

The department of Computer Science offers Bachelor of Science and Bachelor of Arts degrees in Computer Science in the College of Liberal Arts and Sciences.

The undergraduate curriculum in Computer Science leading to the Bachelor of Science degree is accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>. This degree equips students with a sound knowledge of the foundations of Computer Science as well as problem-solving and system design skills necessary to create robust, efficient, reliable, scalable, and flexible software systems. The B.S. degree in Computer Science prepares students for graduate study in Computer Science and for various business, industry, and government positions including computer scientists, information technologists, and software developers.

The purpose of the Bachelor of Arts degree in Computer Science is to accommodate students who wish to pursue a major in Computer Science while taking more courses outside of the major than a Bachelor of Science degree program permits. This will include students pursuing double majors, students pursuing one or more strong minors, and students pursuing broader liberal educations. The B.A. program retains the rigor of our B.S. program while allowing students to spread the breadth of their education over other disciplines in addition to Computer Science.

The main educational objectives of the B.S. degree program in Computer Science at Iowa State University are that its graduates demonstrate expertise, engagement, and learning within two to five years after graduation.

- **Expertise:** Graduated students should have the ability to establish peer-recognized expertise in the discipline. They should have the ability to articulate this expertise by formulating and solving problems of interest, by creating or deriving value through the application of technology, and by using mathematical foundations, algorithmic principles, and computer science theory in designing, implementing and evaluating computer-based systems and processes which meet the desired needs of their employers.
- **Engagement:** Graduated students should have the ability to be engaged in the profession through the practice of computer science in industry, academia, or the public sector. They should demonstrate effective teaming and commitment to working with others by applying communications skills and professional knowledge.
- **Learning:** Graduated students should have the ability to engage in sustained learning through graduate work, professional improvement

opportunities, and self-study so that they can adapt to the role played by information processing in ever-changing areas of science, technology, and society.

## Student Learning Outcomes

Upon graduation, students should have:

1. An ability to analyze a complex computing problem, and to apply principles of computing and other relevant disciplines to identify solutions.
2. An ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. An ability to communicate effectively in a variety of professional contexts.
4. An ability to recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. An ability to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. An ability to apply computer science theory and software development fundamentals to produce computing-based solutions.

## Undergraduate Curriculum in Software Engineering

The Department of Computer Science, together with the Department of Electrical and Computer Engineering, also offer a curriculum leading to an undergraduate degree in Software Engineering. The Software Engineering curriculum offers emphasis areas in Software Engineering principles, process, and practice. Students may also take elective courses in Computer Engineering and Computer Science.

## Degree Requirements

As majors in the College of Liberal Arts and Sciences, students pursuing both the B.A. and the B.S. in Computer Science must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Degree requirements for the B.S. in Computer Science:

The B.S. departmental requirements consist of a minimum of 49 credits in Computer Science and satisfaction of written and oral requirements.

The following courses are required:

COM S 101	Orientation	R
COM S 127	Introduction to Computer Programming	3
COM S 227	Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 309	Software Development Practices	3
COM S 311	Introduction to the Design and Analysis of Algorithms	3
COM S 321	Introduction to Computer Architecture and Machine-Level Programming	3
COM S 327	Advanced Programming Techniques	3
COM S 331	Theory of Computing	3
COM S 342	Principles of Programming Languages	3
COM S 352	Introduction to Operating Systems	3
COM S 402	Computer Science Senior Project	3

At least 15 credits, including at least 6 credits of 400-level courses, all with a grade of C- or better, from the following:

COM S 319	Construction of User Interfaces
COM S 336	Introduction to Computer Graphics
COM S 362	Object-Oriented Analysis and Design
COM S 363	Introduction to Database Management Systems
COM S 407	Applied Formal Methods
COM S 409	Software Requirements Engineering
COM S 410	Distributed Development of Software
COM S 412	Formal Methods in Software Engineering
COM S 413	Program Analysis
COM S 415	Software System Safety
COM S 417	Software Testing
COM S 418	Introduction to Computational Geometry
COM S 421	Logic for Mathematics and Computer Science
COM S 424	Introduction to High Performance Computing
COM S 425	High Performance Computing for Scientific and Engineering Applications
COM S 426	Introduction to Parallel Algorithms and Programming
COM S 430	Concurrent Programming in Practice
COM S 433	Molecular Programming of Nanoscale Devices and Processes
COM S 435	Algorithms for Large Data Sets: Theory and Practice
COM S 437	Computer Game and Media Programming
COM S 440	Principles and Practice of Compiling
COM S 441	Programming Languages

COM S 453	Privacy Preserving Algorithms and Data Security	
COM S 454	Distributed Systems	
COM S 455	Simulation: Algorithms and Implementation	
COM S 461	Principles and Internals of Database Systems	
COM S 472	Principles of Artificial Intelligence	
COM S 474	Introduction to Machine Learning	
COM S 476	Motion Planning for Robotics and Autonomous Systems	
COM S 477	Foundations of Robotics and Computer Vision	
COM S 481	Numerical Methods for Differential Equations	
COM S 487	Introduction to Network Programming and Cloud Computing	
COM S 488	Computer Networks	
CPR E 416	Software Evolution and Maintenance	
CPR E 419	Software Tools for Large Scale Data Analysis	
CPR E 430	Network Protocols and Security	
CPR E 431	Basics of Information System Security	
CPR E 458	Real Time Systems	
CPR E 489	Computer Networking and Data Communications	

**Total Credits** **49**

Com S 414 **may not** be applied towards fulfilling the 400-level electives.

Toward satisfying the requirements of the College of Liberal Arts and Sciences, the following courses should be included:

PHIL 343	Philosophy of Technology	3
SP CM 212	Fundamentals of Public Speaking	3
LAS 203	Professional Career Preparation	1
At least 17 credits of Math and Statistics		17
MATH 165	Calculus I	4
MATH 166	Calculus II	4
COM S 230	Discrete Computational Structures	3
One Statistics course from:		
STAT 305	Engineering Statistics	3
STAT 330	Probability and Statistics for Computer Science	3
STAT 341	Introduction to the Theory of Probability and Statistics I	4
STAT 347	Probability and Statistical Theory for Data Science	4
At least one Math course from:		
MATH 207	Matrices and Linear Algebra	3
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
MATH 267	Elementary Differential Equations and Laplace Transforms	4

MATH 304	Combinatorics	3
MATH 314	Graph Theory	3
MATH 317	Theory of Linear Algebra	4

One of the following 2-course Natural Science sequences (with labs):

BIOL 211 & 211L	Principles of Biology I and Principles of Biology Laboratory I	8
& BIOL 212 & BIOL 212L	and Principles of Biology II and Principles of Biology Laboratory II	

Or

BIOL 255 & 255L & BIOL 256 & BIOL 256L	Fundamentals of Human Anatomy and Fundamentals of Human Anatomy Laboratory and Fundamentals of Human Physiology and Fundamentals of Human Physiology Laboratory	8
--	---	---

Or

CHEM 177 & 177L & CHEM 178 & CHEM 178L	General Chemistry I and Laboratory in General Chemistry I and General Chemistry II and Laboratory in College Chemistry II	9
--	---	---

Or

GEOL 100 & 100L & GEOL 102 & GEOL 102L	How the Earth Works and How the Earth Works: Laboratory and History of the Earth and History of the Earth: Laboratory	8
--	---	---

Or

PHYS 231 & 231L & PHYS 232 & PHYS 232L	Introduction to Classical Physics I and Introduction to Classical Physics I Laboratory and Introduction to Classical Physics II and Introduction to Classical Physics II Laboratory	10
--	---	----

The following courses meet the communication proficiency requirement:

LIB 160	Introduction to College Level Research	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following		
ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3

## Degree requirements for the B.A. in Computer Science:

The B.A. departmental requirements consist of a minimum of 31 credits in Computer Science and satisfaction of written and oral requirements.

The following courses are required:

## Computer Science core:

COM S 101	Orientation	R
COM S 127	Introduction to Computer Programming	3
COM S 227	Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 309	Software Development Practices	3
COM S 311	Introduction to the Design and Analysis of Algorithms	3

Advanced Computer Science, five 300/400-level courses chosen from 15 lists (a) and (b) below, with at least one at the 400-level and at least two chosen from list (a). COM S 414 may not be applied towards fulfilling the 400-level electives.

## (a) Software and Hardware Systems:

COM S 321	Introduction to Computer Architecture and Machine-Level Programming
COM S 327	Advanced Programming Techniques
COM S 342	Principles of Programming Languages
COM S 352	Introduction to Operating Systems
COM S 362	Object-Oriented Analysis and Design
COM S 363	Introduction to Database Management Systems
COM S 409	Software Requirements Engineering
COM S 410	Distributed Development of Software
COM S 412	Formal Methods in Software Engineering
COM S 413	Program Analysis
COM S 415	Software System Safety
COM S 417	Software Testing
COM S 440	Principles and Practice of Compiling
COM S 441	Programming Languages
COM S 454	Distributed Systems
COM S 487	Introduction to Network Programming and Cloud Computing
COM S 488	Computer Networks

## (b) Other Advanced Computer Science:

COM S 331	Theory of Computing
COM S 336	Introduction to Computer Graphics
COM S 418	Introduction to Computational Geometry
COM S 421	Logic for Mathematics and Computer Science
COM S 433	Molecular Programming of Nanoscale Devices and Processes
COM S 435	Algorithms for Large Data Sets: Theory and Practice
COM S 437	Computer Game and Media Programming
COM S 455	Simulation: Algorithms and Implementation

COM S 472	Principles of Artificial Intelligence
COM S 474	Introduction to Machine Learning
COM S 476	Motion Planning for Robotics and Autonomous Systems
COM S 477	Foundations of Robotics and Computer Vision
<b>Total Credits</b>	<b>31</b>

Toward satisfying the requirements of the College of Liberal Arts and Sciences, the following courses should be included:

## Mathematics Core (3 courses):

MATH 165	Calculus I
MATH 166	Calculus II
COM S 230	Discrete Computational Structures

## Additional Mathematics (1 course from the following):

COM S 331	Theory of Computing
MATH 207	Matrices and Linear Algebra
MATH 265	Calculus III
MATH 266	Elementary Differential Equations
MATH 267	Elementary Differential Equations and Laplace Transforms
MATH 304	Combinatorics
MATH 314	Graph Theory
MATH 317	Theory of Linear Algebra

## Statistics (1 course from the following):

STAT 305	Engineering Statistics
STAT 330	Probability and Statistics for Computer Science
STAT 341	Introduction to the Theory of Probability and Statistics I
STAT 347	Probability and Statistical Theory for Data Science

SP CM 212	Fundamentals of Public Speaking	3
-----------	---------------------------------	---

Natural Sciences: minimum 8 credits from approved College list

The following courses meet the communication proficiency requirement:

LIB 160	Introduction to College Level Research	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following		
ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3

The following pertains to both the B.S. and the B.A. in Computer Science:

Students must earn at least a C- in Math 165, Math 166, and each Computer Science course taken to fulfill the Degree Program. The LAS College requires the major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student's grade is C or higher.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The Department requires a C or higher in the upper-level ENGL course (302, 305, 309, 314).

To obtain a bachelor's degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, a student must earn at least 45 credits at the 300 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.

Students must take at least 15 credits of Computer Science courses at the 300 level or higher at Iowa State University while resident here. Computer Science transfer courses need to be a minimum grade of C or higher to be considered for course substitution.

Four Year Plan

**Total Credits: 120-124**

Note: The B.A. in Computer Science, like other B.A. degrees in LAS, gives students more freedom than the B.S. to design their own curricula. However, LAS degree requirements impose some rigor on this freedom. For example, the B.A. requires 24 upper-level credits in Computer Science, Mathematics, and Statistics, but LAS requires at least 45 upper-level credits, so a substantial fraction of B.A. students' extra freedom will be confined to upper-level courses.

## Undergraduate Minor in Computer Science

The Department of Computer Science offers an undergraduate minor in Computer Science. The minor requires at least 16 credits in computer science courses. COM S 414 cannot be used to fulfill minor requirements.

A minimum grade of C- is required in COM S 227 and COM S 228. A minimum grade of C is required in both COM S 311 and the three credits of 300-level Computer Science courses and above. Students must meet all prerequisites for Computer Science courses taken to fulfill the minor. At least 6 credits of the minor must be in courses numbered 300 and above and taken at ISU with a grade of C or higher. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

COM S 227	Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 230	Discrete Computational Structures	3
COM S 311	Introduction to the Design and Analysis of Algorithms	3
3 credits in ComS courses at the 300 level or above		3

## Certificate in Computing Applications

Students interested in the computing applications, may want to explore the Certificate in Computing Applications; it is a cross-disciplinary course of study in the Colleges of Liberal Arts and Sciences, Engineering, and Business.

## Concurrent Bachelors and Masters Degrees

The concurrent B.S./M.S. degree in Computer Science offers highly motivated and focused students the opportunity for accelerated study. Students will be allowed to double count up to 12 credits. This program will pair undergraduate students in the concurrent program with research teams of graduate students and dedicated faculty members prominent in their fields of expertise. Students that declare concurrent enrollment will be considered graduate-level students, and therefore eligible for graduate research assistantships and scholarships. Click here for application instructions (<https://www.cs.iastate.edu/concurrent-bsms-computer-science/>).

More information can be found here: <https://www.cs.iastate.edu/cs.iastate.edu/concurrent-comajor-transfer> (<https://www.cs.iastate.edu/cs.iastate.edu/concurrent-comajor-transfer/>)

## Graduate Programs

The department offers graduate programs leading to degrees of Master of Science (MS) and Doctor of Philosophy (PhD) with a major in Computer Science. The Doctor of Philosophy degree may also be earned with computer science as a co-major with some other discipline. Additionally, the department offers a minor for the students majoring in other disciplines. The department also offers a Master of Science (MS) in Artificial Intelligence. This program is for graduate-level students with strong quantitative backgrounds who are interested in learning AI and machine-learning techniques.

Established research areas include algorithms, artificial intelligence, computational complexity, computer architecture, bioinformatics, computational biology, computer networks, database systems, formal methods, information assurance, machine learning and neural networks, multimedia, operating systems, parallel and distributed computing, programming languages, robotics, and software engineering. There are also numerous opportunities for interdisciplinary research.

Typically, students beginning graduate work in the Department of Computer Science have completed a bachelor's degree or equivalent in Computer Science. However, some students with undergraduate majors in other areas, such as Mathematical, physical, or biological science or engineering become successful graduate students in Computer Science.

For the degree Master of Science, 31 - 34 semester credits is required. A thesis or a creative component demonstrating research and the ability to organize and express significant ideas in computer science is required.

The purpose of the doctoral program is to train students to do original research in Computer Science. Each student is also required to attain knowledge and proficiency commensurate with a leadership role in the field. The PhD requirements are governed by the student's program of study committee within established guidelines of the department and the graduate college. They include coursework (demonstrating breadth and depth of knowledge), a research skills requirement, a preliminary examination, and a doctoral dissertation and final oral examination. The department recommends that all graduate students majoring in Computer Science teach as part of their training for an advanced degree.

## Computing Applications Certificate

The Certificate in Computing Applications is a cross-disciplinary course of study in the Colleges of Liberal Arts and Sciences, Engineering, and Business. It is designed for undergraduates not already enrolled in majors in Computer Science, Software Engineering, or Computer Engineering who wish to enhance their degree and employment possibilities by adding expertise in computing applications. The certificate program focuses on teaching students the essential skills required to develop and use computing applications in their subject domains. This certificate program will help students to be successful in today's workplace, ensuring they have the basic knowledge of programming languages and computer systems needed to enhance their employment opportunities.

The certificate program is offered jointly among the three colleges and their respective departments housing the majors of computer science, computer engineering, software engineering, and management information systems.

The program consists of 9 credit hours selected from the core and 12 credit hours in electives.

## Enrollment in the certificate

Students should fill the form at <https://www.registrar.iastate.edu/sites/default/files/uploads/forms/Curriculum%20Change%20Form%201%2021.pdf> and bring it to Computer Science Advising Center, 1200 Communications Building.

## Requirements

- 21 required credits.
- Courses applied to the certificate may not be taken on a pass not-pass basis.
- At least 9 of the credits taken at Iowa State University must be in courses numbered 300 or above.

- A minimum of 9 credits used for the certificate may not be used to meet any other department, college, or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above.
- A student may not receive both an undergraduate major and a certificate of the same name.
- For students earning an Iowa State University baccalaureate degree, a certificate is awarded concurrent with or after the Iowa State University baccalaureate degree.
- A certificate is not awarded until baccalaureate requirements are finished.
- After receiving a baccalaureate degree from any accredited institution, a student may enroll at Iowa State University to earn a certificate.
- A cumulative grade point average of at least 2.00 is required in courses taken at ISU for a certificate.
- A notation of completed certificate will be made on the transcript.

## Part I - Core 9-10 Credits

Students will complete either Sequence 1 or Sequence 2		
SEQUENCE 1		9-10 Credits
COM S 107	Windows Application Programming	3
or COM S 127	Introduction to Computer Programming	
or COM S 207	Fundamentals of Computer Programming	
COM S 106	Introduction to Web Programming	3
or COM S 113	Introduction to Spreadsheets and Databases	
COM S 252	Linux Operating System Essentials	3
or DS 201	Introduction to Data Science	
SEQUENCE 2		10 Credits
COM S 227	Object-oriented Programming	4
COM S 228	Introduction to Data Structures	3
COM S 252	Linux Operating System Essentials	3
or DS 201	Introduction to Data Science	

## Part II - Electives 12 Credits

### Designated Electives for the Certificate

Students will choose one elective course from the following list of courses and are responsible for satisfying the course pre-requisites of the elective selected.

- CPR E 230 Cyber Security Fundamentals
- BC BIO 322 Introduction to Bioinformatics and Computational Biology
- L A 211 Digital Design Methods for Landscape Architecture
- C R P 251 Fundamentals of Geographic Information Systems
- STAT 301 Intermediate Statistical Concepts and Methods
- PSYCH 301 Research Design and Methodology
- SOC 302 Research Methods for the Social Sciences
- ECON 207 Applied Economic Optimization
- Any course at 300 level or above in Computer Science (COM S), Computer Engineering (CPR E), Management Information Systems (MIS), or Software Engineering (S E)

The remaining 9 credits of electives are intended to allow students to develop further computing applications expertise especially within their major. These 9 elective credits can be advanced courses in their major, courses on the above electives list, or any other coursework approved by the Computer Science Advisor on the "request for undergraduate certificate." At least 9 of the 12 elective credits must be in courses numbered 300 or above and taken at Iowa State University.

## Criminal Justice

The Criminal Justice program in the College of Liberal Arts and Sciences offers a Bachelor of Arts degree and a minor in Criminal Justice.

Your adventure begins with your academic advisor. Please contact [cjsocadvising@iastate.edu](mailto:cjsocadvising@iastate.edu) for more information.

Students in this major will learn about the components of the juvenile and criminal justice systems, become acquainted with the issues affecting these systems, apply theoretical concepts to real-world phenomena, interface with criminal justice and social service providers, and plan an academic and/or applied career in criminal justice.

### Student Learning Outcomes

Graduates of this program will:

- Understand theories of crime, victimization, and criminal justice (i.e., theories about social bonds, learning, social control, conflict, labeling, rehabilitation, alternatives to incarceration).
- Think critically about crime, victimization, and criminal justice (i.e., be able to apply, critique, compare, and integrate knowledge in the area).
- Understand how race/ethnicity, gender, wealth, and power are related to crime, victimization, and criminal justice.
- Understand and be able to use basic social science research methods, as well as those most relevant to the study of crime, victimization, and criminal justice.
- Be familiar with career paths in the criminal justice system, and make career choices that best fit their career interests.

- Make appropriate decisions, think creatively and be able to express themselves in written and oral communication to supervisors and clients.

## Degree Requirements

### University Requirements

International Perspectives	3
US Diversity	3
<b>Total Credits</b>	<b>6</b>

### Communication Proficiency

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 150 and ENGL 250. In addition, majors must also take an advanced course in ENGL 302 or ENGL 309 or ENGL 314 with a grade of C or better.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
LIB 160	Introduction to College Level Research	1
ENGL 302	Business Communication	3
or ENGL 309	Proposal and Report Writing	
or ENGL 314	Technical Communication	

**Total Credits** 10

### World Language and career proficiency

3 years of High School

SPAN 097	Accelerated Spanish Review	0
2 semesters at the college level		8
LAS 203	Professional Career Preparation	1

**Total Credits** 9

### General Education Coursework

Students must select from a variety of LAS approved general education courses in each area listed below. A full list of approved courses can be found at <https://las.iastate.edu/students/academics/general-education/>.

Arts and Humanities	12
Math	3
Natural Sciences	8
Social Sciences	9
<b>Total Credits</b>	<b>32</b>

### Program of Study

A program of study that meets the needs and interests of the student and departmental requirements will be developed in consultation with the major advisor. Students must maintain a GPA of 2.0 or higher in their core courses.

SOC 115	Orientation to Sociology	1
or C J 120	The Criminal Justice League Learning Community Seminar	
C J 240	Introduction to the U.S. Criminal Justice System	3
C J 241	Youth and Crime	3
C J 242	Criminology	3
C J 340	Deviant and Criminal Behavior	3
C J 402	White-Collar Crime	3
or C J 403	Criminal Offenders	
or C J 406	Gender and Crime	
C J 460	Criminal and Juvenile Justice Internship	3
Select one of the following courses		3
C J 320	American Judicial Process	
C J 332	Philosophy of Law	
C J 339	Liberty and Law in America	
C J 404	Criminal Justice Policies	
PSYCH 383	Psychology and Law	
Select 5 of the following courses		15
C J 320	American Judicial Process	
C J 332	Philosophy of Law	
C J 335	Race, Ethnicity, and the US Criminal Justice System	
C J 339	Liberty and Law in America	
C J 351	Police and Society	
C J 352	Punishment, Corrections, and Society	
C J 354	Prevention of Crime and Delinquency	
C J 360	Latinas and Victimization	
C J 402	White-Collar Crime	
C J 404	Criminal Justice Policies	
C J 405	Drugs and Crime	
C J 406	Gender and Crime	
C J 410	Capital Punishment	
C J 451	Contemporary Issues in Policing	
C J 470	Ethical Issues in Criminal Justice	
C J 484	Topical Studies in Criminal and Juvenile Justice	
PSYCH 383	Psychology and Law	
<b>Total Credits</b>		<b>37</b>

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

As majors in the College of Liberal Arts and Sciences, Criminal Justice students must meet College of Liberal Arts and Sciences and University-

wide requirements for graduation in addition to those stated above for the major.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Criminal Justice, B.A.

\*May take up to 9 credits of C J 484 special topics.

Note: This is an example four-year plan. Your actual semester schedules may vary.

**Criminal Justice Minor**

The Criminal Justice minor offers an opportunity for students to learn about the components of the criminal and juvenile justice systems, to become acquainted with the issues and problems affecting these systems, to apply theoretical concepts to real world problems, and to plan a career in the criminal justice field.

Students who declare a minor in Criminal Justice are required to complete 18 total credits. Students may do up to nine credits of SOC 460 but only three of those credits may be applied to the minor. Nine credits must be at the 300 or 400 level. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Students must have a minimum grade point average of 2.0 in courses for the minor.

C J 240	Introduction to the U.S. Criminal Justice System	3
C J 460	Criminal and Juvenile Justice Internship	3
Four additional C J courses		12
<b>Total Credits</b>		<b>18</b>

## Data Science

### Overview

Data Science is a rapidly growing academic discipline fueled by the proliferation of rich and complex data emerging from activities in science, industry, and governments. As a result, there is strong demand for data science professionals today in Iowa as well as across the nation and globe, and this market is expected to continue to grow in the next decade. The data science programs are intended for students who wish to study the data science discipline for its own sake as well as for students studying any discipline at Iowa State University with the goal of enabling them to work in data science. The courses in the data science program are designed to provide students with the requisite background that would enable them to take jobs with significant data science components, e.g., establishing and operating data analysis pipelines. The capstone will provide an opportunity for students to apply

data science concepts to a domain problem while working in a multi-disciplinary team setting.

The Data Science major is intended for students with strong quantitative backgrounds and has the goal of educating students on the technical fundamentals of Data Science, with a focus on developing the knowledge and skills needed to transform data into insights. The major is an excellent opportunity for individuals who want to prepare themselves for the exciting Data Scientist positions that are in high demand today.

The minor in Data Science is intended for students studying any discipline at Iowa State and is designed to give students an in-depth understanding of data science as it is applied to a variety of domains.

The certificate in Data Science is intended for students studying any discipline at Iowa State and is designed to prepare them for future work with significant data science components. The capstone will provide an opportunity for students to apply data science concepts to a domain problem while working in a multi-disciplinary team setting.

**Student Learning Outcomes for Data Science Major**

After successfully completing the program, students majoring in Data Science will demonstrate

1. an understanding of and an ability to apply the following data science concepts, tools and methods to data analysis pipelines:
  - a. data acquisition
  - b. data preprocessing
  - c. exploratory data analysis
  - d. inferential and predictive thinking, modeling and analysis
  - e. computational thinking, data structures, and algorithms
2. an understanding of ethical, legal, societal, and economic concerns in the application of data science concepts
3. an ability to visualize, interpret and communicate the output of data analysis pipelines to stakeholders
4. an ability to function on multi-disciplinary teams using concepts and tools from data science

See Undergraduate Minor and Undergraduate Certificate subpages for the respective learning outcomes.

## Data Science Major

### Purpose

The Bachelor of Science degree program in Data Science is intended for students with strong quantitative backgrounds and has the goal of educating students on the technical fundamentals of data sciences, with a focus on developing the knowledge and skills needed to manage and analyze large-scale, heterogeneous data to address a wide range of problems.

## Requirements

The B.S. in Data Science consists of 120 total credit hours including: (1) 39 credit hours in the major core, three credits of which constitute a capstone course that is expected to provide experiential learning; (2) 9 credit hours in an application emphasis area to examine applications and theory of data sciences in a specific area; and (3) 23 credit hours of foundation courses. The capstone course will provide an opportunity for students to apply data science concepts to an application area while working in a multi-disciplinary team setting.

### Data Science Major Requirements

Data Science Core Courses		39
DS 110	Orientation to Data Science	R
DS 201	Introduction to Data Science	3
DS 202	Data Acquisition and Exploratory Data Analysis	3
DS 303	Concepts and Applications of Machine Learning	3
DS 401	Data Science Capstone	3
COM S 228	Introduction to Data Structures	3
COM S 230	Discrete Computational Structures	3
or CPR E 310	Theoretical Foundations of Computer Engineering	
COM S 311	Introduction to the Design and Analysis of Algorithms	3
COM S 363	Introduction to Database Management Systems	3
CPR E 419	Software Tools for Large Scale Data Analysis	4
STAT 301	Intermediate Statistical Concepts and Methods	4
STAT 347	Probability and Statistical Theory for Data Science	4
STAT 477	Introduction to Categorical Data Analysis	3

At least 9 credits from the following categories to fulfill the emphasis area:

At least 6 credits from courses at the 300, 400, or 500 level from the following designations:

A B E, ADVRT, AGRON, AN S, ARCH, BCBIO, COM S, C R P, CPR E, CYB E, CYBSC, DS, E E, ECON, FIN, GIS, I E, JL MC, LA, LING, MATH, MIS, MKT, POL S, S E, SOC, STAT, TSM

At least 3 credits from one of the following courses:

BCBIO 401	Bioinformatics of Sequences	
BCBIO 406	Bioinformatics of OMICS	
COM S 342	Principles of Programming Languages	
COM S 413	Program Analysis	
COM S 421	Logic for Mathematics and Computer Science	
COM S 424	Introduction to High Performance Computing	
COM S 426	Introduction to Parallel Algorithms and Programming	

COM S 435	Algorithms for Large Data Sets: Theory and Practice	
COM S 440	Principles and Practice of Compiling	
COM S 454	Distributed Systems	
COM S 461	Principles and Internals of Database Systems

<b>Total Credits</b>		<b>9</b>

Toward satisfying pre-requisites and requirements of the College of Liberal Arts and Sciences, the following courses or their equivalents are also required:

COM S 127	Introduction to Computer Programming	3
COM S 227	Object-oriented Programming	4
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 207	Matrices and Linear Algebra	3
STAT 201	Introduction to Statistical Concepts and Methods	4
World Language 3 years in high school or 1 year in college		0 - 8
Natural Science		8
Social Science		9
Arts and Humanities		12
LAS 203	Professional Career Preparation	1

The following courses meet the communication proficiency requirement:

LIB 160	Introduction to College Level Research	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
One of the following:		
ENGL 302	Business Communication	3
ENGL 314	Technical Communication	3
ENGL 332	Visual Communication of Quantitative Information (cross-listed as STAT 332)	3

As majors in the College of Liberal Arts and Sciences, Data Science students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The Data Science program requires a C or higher in the upper-level ENGL course (302, 314, or 332).

## Four Year Plan B.S., Data Science

### Freshman

Fall	Credits Spring	Credits

	<b>13</b>	<b>13</b>

The major elective courses will come from Data Science emphasis areas as outlined on the Undergraduate Major page. A student must take at least 9 credits of 300+ courses from a wide variety of designations. Additionally, 3 credits must be chosen from a list of elective courses with a data or analysis emphasis.

All students are required to take at least 45 hours of courses at the 300+ level or above. This may require taking additional electives.

## Data Science Minor Purpose

The minor in data science is intended for students studying any discipline at Iowa State and is designed to give students an in-depth understanding of data science as it is applied to a variety of domains. The minor in data science will prepare students with the technical and communication skills to enter the workforce as domain experts with data science skills.

## Learning Outcomes for Data Science Minor

After completing the minor in data science, students will demonstrate:

- an ability to apply data science concepts, tools and technologies to data analysis pipelines,

- an understanding of ethical, legal, societal, and economic concerns in application of data science concepts,
- an ability to visualize, interpret and communicate the output of data analysis pipelines to stakeholders, and
- an ability to function on multi-disciplinary teams using concepts and tools from data science.

## Requirements

The minor in data science requires the completion of 15 credit hours, including 9 credits from the data science core and 6 credits from approved data science electives.

At least 6 credits in courses numbered 300-level or above taken at ISU with a grade of C or higher.

At least 9 credits used for the minor cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above.

Courses for the minor cannot be taken on a pass/not-pass basis.

### Course Requirements for Data Science Minor

Core Courses (9 credits)

DS 201	Introduction to Data Science (Required)	3
DS 202	Data Acquisition and Exploratory Data Analysis (Required)	3
DS 301	Applied Data Modeling and Predictive Analysis (Required)	3

\* DS 301 has a prerequisite of an introductory statistics course: STAT 101, STAT 104, STAT 105, STAT 201, STAT 226, STAT 231, STAT 305, STAT 322, or STAT 330.

Electives (6 credits)

A B E 316	Applied Numerical Methods for Agricultural and Biosystems Engineering	3
ADVRT 335	Advertising Media Planning	3
ADVRT 497J	Ad Tech	3
AGRON 270	Geospatial Technologies	3
AGRON 425	Crop and Soil Modeling	3
BCBIO 322	Introduction to Bioinformatics and Computational Biology	3
COM S 311	Introduction to the Design and Analysis of Algorithms	3
COM S 363	Introduction to Database Management Systems	3
COM S 424	Introduction to High Performance Computing	3
COM S 435	Algorithms for Large Data Sets: Theory and Practice	3
COM S 453	Privacy Preserving Algorithms and Data Security	3

COM S 474	Introduction to Machine Learning	3
C R P 251	Fundamentals of Geographic Information Systems	3
C R P 351	Intermediate Geographic Information Systems	3
C R P 452	Geographic Data Management and Planning Analysis	3
C R P 454	Fundamentals of Remote Sensing and Spatial Analysis	3
C R P 456	GIS Programming and Automation	3
CPR E 419	Software Tools for Large Scale Data Analysis	4
CPR E 426	Introduction to Parallel Algorithms and Programming	4
DS 490X	Independent Study	
ECON 371	Introductory Econometrics	4
E E 428X	Image Analysis from Machine Learning	3
ENGL 332	Visual Communication of Quantitative Information	3
FIN 450	Analytical Methods in Finance	3
I E 312	Optimization	3
I E 483	Data Mining	3
L A 558	Web Mapping and Spatial Data Visualization	3
LING 410	Language as Data	3
MATH 304	Combinatorics	3
MATH 314	Graph Theory	3
MATH 373	Introduction to Scientific Computing	3
MATH 422X	Mathematical Principles of Data Science	3
MIS 436	Introduction to Business Analytics	3
MIS 446	Advanced Business Analytics	3
MKT 368	Marketing Analytics	3
STAT 301	Intermediate Statistical Concepts and Methods	4
STAT 330	Probability and Statistics for Computer Science	3
STAT 475	Introduction to Multivariate Data Analysis	3
STAT 477	Introduction to Categorical Data Analysis	3
STAT 483	Empirical Methods for the Computational Sciences	3
STAT 486	Introduction to Statistical Computing	3
TSM 433	Precision Agriculture	3

## Data Science Certificate Purpose

The certificate in data science is intended for students studying any discipline at Iowa State and is designed to prepare them for future work with significant data science components. The data science certificate is also available to students who have already earned a Baccalaureate degree from Iowa State or elsewhere. The capstone will provide an opportunity for students to apply data science concepts to a domain problem while working in a multi-disciplinary team setting. The

certificate in data science will prepare students with the technical and communication skills to enter the workforce as domain experts with data science skills.

## Learning Outcomes for Data Science Certificate

After completing the certificate in data science, students will demonstrate:

- an ability to apply data science concepts, tools and technologies to data analysis pipelines,
- an understanding of ethical, legal, societal, and economic concerns in application of data science concepts,
- an ability to visualize, interpret and communicate the output of data analysis pipelines to stakeholders, and
- an ability to function on multi-disciplinary teams using concepts and tools from data science.

## Requirements

The certificate in data science requires the completion of 21 credit hours, including 9 credits from the data science core, 9 credits from approved data science electives, and a three-credit data science capstone experience.

At least 9 credits must be taken in courses numbered at the 300-level or above.

At least 9 credits used for the certificate cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above.

Courses for the certificate cannot be taken on a pass/not-pass basis.

## Course Requirements for Data Science Certificate

Core Courses (9 credits)

DS 201	Introduction to Data Science (Required)	3
DS 202	Data Acquisition and Exploratory Data Analysis (Required)	3
DS 301	Applied Data Modeling and Predictive Analysis (Required)	3

# Earth Science

## EARTH SCIENCE

The **Earth Science major** is a program leading to the bachelor of arts (B.A.) or bachelor of science (B.S.).

The B.A. emphasizes an interdisciplinary field and prepares the student primarily for a career in secondary education. The B.S. program provides a broad overview of geology and supporting sciences. This degree pathway is also suitable for students who may want to pursue a career in secondary education or continue on to graduate school. If a student chooses this option and is interested in secondary education, they should contact Dr. Cinzia Cervato for additional guidance.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Demonstrate the ability to think critically;
- Exhibit a broad understanding of Earth systems and processes;
- Demonstrate scientific literacy and its application to scientific inquiry and societal concerns;
- Demonstrate proficiency in data collection, management, and analysis including understanding sources of error and/or uncertainty;
- Demonstrate competency with geoscience-specific techniques and field methods.
- Read and critically evaluate relevant literature and information;
- Use appropriate tools from chemistry, physics, biology, mathematics, and data science to solve discipline-specific problems;
- Present information effectively in written and oral forms;
- Work in a team environment in alignment with the ISU principles of community;
- Work independently;
- Attain employment in the geosciences or related fields, or pursue graduate studies.

## EARTH SCIENCE

Students can pursue either the Bachelor of Arts (B.A.) or the Bachelor of Science (B.S.) degree with a major in Earth Science. They can also prepare to teach Earth Science.

### Required courses for the B.A. include:

GEOL 100	How the Earth Works	3
or GEOL 101	Environmental Geology: Earth in Crisis	
or GEOL 201	Geology for Engineers and Environmental Scientists	
GEOL 100L	How the Earth Works: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1

GEOL 302	Summer Field Studies	6
GEOL 315	Mineralogy and Earth Materials	3
GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
GEOL 316	Optical Mineralogy	1
GEOL 356	Structural Geology and Tectonics	4
GEOL 357	Geological Mapping and Field Methods	1
GEOL 365	Igneous and Metamorphic Petrology	3
GEOL 368	Sedimentary Geology	4
MTEOR 206	Introduction to Weather and Climate	3
ASTRO 120	The Sky and the Solar System	3
ASTRO 150	Stars, Galaxies, and Cosmology	3
And 3 credits of geology electives		3
<b>Total Credits</b>		<b>43</b>

Required supporting courses for the B.A. include:

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
PHYS 131	General Physics I	4
PHYS 131L	General Physics I Laboratory	1
PHYS 132	General Physics II	4
PHYS 132L	General Physics II Laboratory	1

One of the following

MATH 151	Calculus for Business and Social Sciences	3
or MATH 160	Survey of Calculus	
or MATH 165	Calculus I	

One of the following

STAT 101	Principles of Statistics	4
or STAT 104	Introduction to Statistics	

And one course in Biology		3
---------------------------	--	---

<b>Total Credits</b>		<b>29</b>
----------------------	--	-----------

**Communication Proficiency requirement:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The department requires a grade of C or better in ENGL 309 or ENGL 314.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

One of the following:

ENGL 309	Proposal and Report Writing	3
or ENGL 314	Technical Communication	

**Total Credits** 9

### Required courses for the B.S. include:

GEOL 100	How the Earth Works	3
or GEOL 101	Environmental Geology: Earth in Crisis	
or GEOL 201	Geology for Engineers and Environmental Scientists	

GEOL 100L	How the Earth Works: Laboratory	1
-----------	---------------------------------	---

GEOL 102	History of the Earth	3
----------	----------------------	---

GEOL 102L	History of the Earth: Laboratory	1
-----------	----------------------------------	---

GEOL 302	Summer Field Studies	6
----------	----------------------	---

GEOL 315	Mineralogy and Earth Materials	3
----------	--------------------------------	---

GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
-----------	--	---

GEOL 316	Optical Mineralogy	1
----------	--------------------	---

GEOL 356	Structural Geology and Tectonics	4
----------	----------------------------------	---

GEOL 357	Geological Mapping and Field Methods	1
----------	--------------------------------------	---

GEOL 365	Igneous and Metamorphic Petrology	3
----------	-----------------------------------	---

GEOL 368	Sedimentary Geology	4
----------	---------------------	---

GEOL 479	Surficial Processes	3
----------	---------------------	---

MTEOR 206	Introduction to Weather and Climate	3
-----------	-------------------------------------	---

And 8 credits of electives in agronomy, astronomy, environmental science, or other approved areas.

**Total Credits** 45

Required supporting courses for the B.S. include:

CHEM 177	General Chemistry I	4
----------	---------------------	---

CHEM 177L	Laboratory in General Chemistry I	1
-----------	-----------------------------------	---

CHEM 178	General Chemistry II	3
----------	----------------------	---

CHEM 178L	Laboratory in College Chemistry II	1
-----------	------------------------------------	---

MATH 165	Calculus I	4
----------	------------	---

MATH 166	Calculus II	4
----------	-------------	---

PHYS 131	General Physics I	4
----------	-------------------	---

PHYS 131L	General Physics I Laboratory	1
-----------	------------------------------	---

PHYS 132	General Physics II	4
----------	--------------------	---

PHYS 132L	General Physics II Laboratory	1
-----------	-------------------------------	---

STAT 101	Principles of Statistics	3-4
----------	--------------------------	-----

or STAT 104	Introduction to Statistics	
-------------	----------------------------	--

**Total Credits** 30-31

**Communication Proficiency requirement:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or

better in ENGL 250. The department requires a grade of C or better in the below communication courses.

ENGL 150	Critical Thinking and Communication	3
----------	-------------------------------------	---

ENGL 250	Written, Oral, Visual, and Electronic Composition	3
----------	---	---

or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
--------------	---	--

ENGL 309	Proposal and Report Writing	3
----------	-----------------------------	---

or ENGL 314	Technical Communication	
-------------	-------------------------	--

or ENGL 302	Business Communication	
-------------	------------------------	--

or JL MC 347	Science Communication	
--------------	-----------------------	--

**Total Credits** 9

### Required for B.A. and B.S.

As majors in the College of Liberal Arts and Sciences, Earth Science students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level in addition to the LAS world language and cultures and career preparation requirement (LAS 203 Professional Career Preparation). At least 8 credits in the major from 300+ courses must earn grade C or better. The average grade of all courses in the major must be 2.0 or higher.

### Teacher Preparation Focus

Earth Science majors seeking certification to teach Earth Science in secondary schools can follow the requirements of either the B.A. or the B.S. degree in Earth Science. In addition they must take the complementary coursework listed below and meet all of the requirements of the Secondary Major in Education. Some of these courses, and some of the required coursework for the Secondary Major in Education, may also apply to LAS general education requirements.

#### Complementary Coursework

PSYCH 230	Developmental Psychology	3
-----------	--------------------------	---

EDUC 418	Secondary Science Methods I	3
----------	-----------------------------	---

EDUC 419	Secondary Science Methods II	3
----------	------------------------------	---

One course in American History or Government

**Notes:** Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in

this catalog, but advisers and faculty will be aware. Some students pursuing the Earth Science decide to complete the Earth Science major and continue their studies as graduate students in Iowa State's Science Education, Masters of Teaching (M.A.T.) program (<https://education.iastate.edu/graduate-students/graduate-programs/division-of-teaching-learning-leadership-and-policy/educator-prep-programs-for-licensure-recommendation/science-education-m-a-t/endorsements/>).

## Earth Science, B.A.

NOTE: Course plan, sequence and credit amounts will vary depending upon which endorsement area(s) a student chooses to pursue. In addition, this plan is solely an example of one possible academic layout. This plan can and likely will be modified based on transfer credit, advanced placement (AP) credit, dual enrollment credit, "test out" credit, course offerings, schedule conflicts and entry term. *It is our expectation that students know the requirements of their academic program and develop and follow an academic plan based on their academic catalog and degree audit using their individual academic advisor as a resource in this process.*

Potential pathway for the B.A. major in Earth Science with the Secondary Major in Education:

### Freshman

departmental office.

## Graduate Programs

The department offers programs leading to the master of science and doctor of philosophy with majors in Geology, Earth Science, and Meteorology. Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate preparation and performance along with their expressed goals in the statement of purpose. All prospective students should reach out to individual faculty members who they wish to work with prior to applying.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in complementary areas such as aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, environmental

science, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology.

Graduates in Geology specialize in a sub-discipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators.

## Ecology, Evolution, and Organismal Biology Overview

Within the Biological Sciences, studies of ecology, evolution, and organismal biology are essential in understanding the complex relationships of life on Planet Earth. Ecology focuses on the interactions among organisms as well as the interactions between organisms and their physical environments. Evolutionary theory addresses the origins and interrelationships of species. Organismal biology studies both the diversity of biological organisms and the structure and function of individual organisms.

## Undergraduate Study

The Department of Ecology, Evolution, and Organismal Biology (<https://www.eeob.iastate.edu/>) (EEOB) offers several undergraduate majors with other departments. Students interested in the areas of ecology, evolution, and organismal biology should major in Biology, Environmental Science, or Genetics. The Biology Major is administered and offered jointly by the EEOB (<https://www.eeob.iastate.edu/>) and GDCB (<https://www.gdcb.iastate.edu/>) departments. The faculty of EEOB, together with those in GDCB and BBMB (<https://www.bbmb.iastate.edu/>), administer and offer the Genetics Major. Faculty in EEOB, in cooperation with faculty from other departments on campus, administer and offer the Environmental Science Major. Each of these majors are available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. Faculty in the EEOB Department also

teach undergraduate courses at Iowa Lakeside Laboratory (see the Iowa Lakeside Laboratory listing).

## Graduate Study

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. EEOB graduate students major in one of several interdepartmental majors including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Environmental Science, Genetics, Interdisciplinary Graduate Studies, Neuroscience, and Toxicology. The EEOB faculty members are active in the interdepartmental graduate majors and teach a wide range of graduate courses. Faculty research programs cover a wide range of specializations including physiology and physiological ecology; microbiology; animal behavior; evolutionary genetics of plants and animals; modeling of evolutionary and ecological processes; plant and animal systematics; neurobiology; developmental biology; aquatic and wetland ecology; functional, population, community, landscape, and ecosystem ecology; and conservation biology. For further information on faculty research interests check the EEOB web site (<http://www.eeob.iastate.edu/>). Some EEOB faculty teach graduate courses at Iowa Lakeside Laboratory. Field Station courses are also available through the Gulf Coast Marine Laboratory and the Organization for Tropical Studies (see the Biology listing).

Students who are enrolled in the interdepartmental graduate majors with EEOB affiliation are required to participate in departmental seminars, to participate in research activities, and to show adequate progress and professional development while pursuing their degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. Requirements and guidelines for study are provided by the Graduate College, the EEOB faculty, and the individual student's major professor and Program of Study Committee. General information about graduate study requirements can be found at the web site for the Graduate College and requirements for the interdepartmental majors can be found by following the links from the EEOB web site above. Although not a formal requirement, the EEOB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

## Economics Overview

[www.econ.iastate.edu](http://www.econ.iastate.edu) (<http://www.econ.iastate.edu>)

Economics teaches the ability to reason clearly and to address complex issues using tools and decision-making models from economics, mathematics, and statistics, as well as concepts from the biological, physical, and social sciences. The study of economics also helps students to: develop an understanding of the interactions of technology, human activity, and the environment; apply systematic approaches

to making optimal choices; analyze quantitative information; and communicate concepts and findings to industry professionals, organizations, governments, and the general public.

Strong training in economic reasoning serves as a foundation for a variety of rewarding careers and for advanced study in a range of professional and academic fields. Economics majors are provided the tools of critical analysis and human relations skills that are essential for being informed citizens, finding and excelling in many career fields, and becoming lifelong learners.

In addition to the Economics major, the Department of Economics offers degrees in Business Economics and Agricultural Business.

## Student Learning Outcomes

Graduates from the Department of Economics at Iowa State University are expected to be able to:

1. Understand and apply concepts of scarcity, marginal analysis, opportunity cost and comparative advantage.
2. Critically analyze the efficiency and equity implications of market and non-market processes of allocation.
3. Evaluate policies, regulations, and business strategies using economic models and theories.
4. Use quantitative and qualitative information to evaluate economic questions.
5. Understand the determinants of differences in economic performance over time and across space.

## Degree Requirements

### Economics Major, College of Liberal Arts and Sciences

The Economics major in the College of Liberal Arts and Sciences prepares students for advanced studies in Economics, Finance, and Analytics, for professional degrees such as medicine, law and business administration (MBA), and for careers in finance, business and economic research, management, insurance, brokerage, real estate, labor relations, international development, and government service. Candidates for the Bachelor of Science degree with a major in Economics must fulfill requirements established by the College of Liberal Arts and Sciences. For details of undergraduate curricula in liberal arts and sciences, see College of Liberal Arts and Sciences. A double major in Economics and Agricultural Business is permitted. A double major in Economics and Business Economics is not permitted. A major in Business Economics with a minor in Economics is not permitted. A minor in Economics cannot be combined with a major in Agricultural Business, and minors in both Agricultural Business and Economics are not permitted.

Students majoring in Economics are required to take the following courses within the General Education Area of Mathematics:

Choose one of the following pairs:

7-8

MATH 160 & ECON 207	Survey of Calculus and Applied Economic Optimization
MATH 165 & ECON 207	Calculus I and Applied Economic Optimization *
MATH 165 & MATH 166	Calculus I and Calculus II

Choose one of the following pairs:

6

STAT 226 & STAT 326	Introduction to Business Statistics I and Introduction to Business Statistics II
STAT 341 & STAT 342	Introduction to the Theory of Probability and Statistics I and Introduction to the Theory of Probability and Statistics II

Students planning to attend graduate programs in Economics or related fields are encouraged to take MATH 165 Calculus I, MATH 166 Calculus II, STAT 341 Introduction to the Theory of Probability and Statistics I, and STAT 342 Introduction to the Theory of Probability and Statistics II.

Students planning for careers in the finance industry or government sectors are encouraged to enroll in STAT 226 Introduction to Business Statistics I and STAT 326 Introduction to Business Statistics II.

Students must complete the following courses in economics:

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
ECON 301	Intermediate Microeconomics	3-4
ECON 302	Intermediate Macroeconomics	3
ECON 371	Introductory Econometrics	4
Three credits of ECON 230-239, 300-389, 400-489 courses.		3
Nine credits of 400-489 level ECON courses.		9
ECON 492	Graduating Senior Survey	R

A minimum of 18 credits of economics coursework must be earned at Iowa State University. Economics majors must earn a minimum GPA of 2.0 across ECON 101 Principles of Microeconomics, ECON 102 Principles of Macroeconomics, ECON 301 Intermediate Microeconomics, and ECON 302 Intermediate Macroeconomics, with no grade in these lower than a C-.

Communication Proficiency Requirement: According to the University-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or

better in ENGL 250. In addition the Economics major requires a grade of C or better in ENGL 302 or ENGL 314.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
ENGL 302	Business Communication	3
or ENGL 314	Technical Communication	

Students in all ISU majors must complete a three-credit course in both U.S. Diversity and in International Perspectives. The two courses may simultaneously meet the following graduation requirements: Social Science, Arts/Humanities, ECON 400-489, or Econ courses from approved list. Please discuss with your advisor.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. Three of the required 45 credits at the 300+ level must be earned in a general education group outside the group of your major. Economics majors must meet or complete the LAS world language requirement and career proficiency requirement.

As majors in the College of Liberal Arts and Sciences, Economics students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

## Four Year Plan Bachelor of Science in Economics

### Freshman

Fall	Credits Spring	Credits
ECON 101	3 ECON 102	3
ENGL 150	3 ECON 207 <sup>a</sup>	3
LIB 160	1 Arts and Humanities	3
MATH 160 <sup>a</sup>	4 Natural Science	3
Arts and Humanities	3 Social Science	3
	<b>14</b>	<b>15</b>

### Sophomore

Fall	Credits Spring	Credits
ECON 301	4 ECON 302	3
ENGL 250	3 STAT 326 <sup>b</sup>	3
STAT 226 <sup>b</sup>	3 Elective or World Language	4
LAS 203	1 Social Science	3
Elective or World Language	4 Natural Science	3
	<b>15</b>	<b>16</b>

### Junior

Fall	Credits Spring	Credits
ECON 371	4 ECON 400-489	3
ECON 230-239, 300-389, or 400-489	3 Electives	9
Arts and Humanities	3 International or Diversity	3
Elective	2	
International or Diversity	3	
	<b>15</b>	<b>15</b>

### Senior

Fall	Credits Spring	Credits
ECON 400-489	3 ECON 400-489	3
ENGL 302 or 314	3 ECON 492	R
Arts and Humanities	3 Natural Science	2
Electives	6 Electives	10
	<b>15</b>	<b>15</b>

### Total Credits: 120

Students in all ISU majors must complete a three-credit course in both U.S. Diversity and in International Perspectives. The two courses may simultaneously meet the following graduation requirements: Social Science, Arts/Humanities, ECON 400-489, or Econ courses from approved list. Please discuss with our advisor.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. Three of the required 45 credits at the 300+ level must be earned in a general education group outside the group of your major. Econ majors must meet or complete the LAS world language requirement. In addition, Econ majors must earn a minimum of 18 credits from courses taught by the Department of Economics at ISU.

a MATH 165 (Calculus I) and MATH 166 (Calculus II) may be substituted for MATH 160 and ECON 207.

b STAT 341 (Introduction to Theory of Probability & Stats I) and STAT 342 (Introduction to Theory of Probability & Stats II) may be substituted for STAT 226 and 326.

## Minor

### Economics Minor, College of Liberal Arts and Sciences

For a minor in Economics, students complete a minimum of 15 credits.

The minor must include at least 9 credits that are not used to meet any other Department, College, or University requirement.

ECON 101	Principles of Microeconomics	3
ECON 102	Principles of Macroeconomics	3
ECON 301	Intermediate Microeconomics *	3-4
Three credits of ECON 230-239, 300-389, 400-489 courses.		3

Three credits of ECON 300-389, 400-489 courses.

3

#### Total Credits

15-16

\* Pre-reqs for ECON 301 include MATH 166 Calculus II or ECON 207 Applied Economic Optimization.

The Department of Economics has concurrent Bachelor of Science/ Master of Science (BS/MS) programs designed especially for seniors who wish to pursue advanced studies. Concurrent BS/MS programs are: economics (BS) with economics (MS) or agricultural economics (MS). The concurrent BS/MS program allows seniors to complete an MS degree within 12 months of BS completion.

For more information about our concurrent undergraduate and graduate programs in Economics, visit: <https://www.econ.iastate.edu/iowa-state-ms-econ-programs> (<https://www.econ.iastate.edu/iowa-state-ms-econ-programs/>)

## Graduate Programs

### Graduate Programs in Economics and Agricultural Economics

The Department of Economics offers work toward the degrees Master of Science and Doctor of Philosophy with majors in Economics and Agricultural Economics. The Department also offers minors to students with majors in other departments. For more information, visit our web site at [www.econ.iastate.edu](http://www.econ.iastate.edu) (<http://www.econ.iastate.edu>).

Students do not need to have an undergraduate major in Economics or Agricultural Economics to qualify for graduate work in the Department. However, students must have completed undergraduate coursework in macroeconomics, microeconomics, statistics, calculus, and matrix algebra. Some background in math courses emphasizing logic and proofs is preferred, particularly for the Ph.D.

Candidates for the degree Master of Science (thesis option) are required to complete satisfactorily 30 credits of acceptable graduate work, including preparation of a thesis.

Candidates for the degree Master of Science (non-thesis option) may fulfill requirements by satisfactorily completing 32 credits of acceptable graduate work, including preparation of a creative component.

Programs of study for the doctorate are organized by each student in consultation with the major professor and the student's committee. Subject to staffing constraints, the Department offers coursework to support the following fields of concentration: agricultural economics, applied econometrics, environmental and resource economics, financial economics, human resources, industrial organization, international economics, and macroeconomics. Students must complete advanced courses in microeconomic and macroeconomic theory, quantitative

methods and econometrics, and two fields from the list above. Students are required to participate in workshops and demonstrate competence in theory by passing qualifying examinations.

## English UNDERGRADUATE STUDY

Students in the undergraduate majors offered through the English department (<https://engl.iastate.edu/>) develop critical thinking, cultural awareness, effective communication, imagination, leadership, pedagogy, and agency as citizens.

In a communication-rich and globally connected world, these skills play a crucial role in every profession. Studying in English expands and deepens individual engagement in the social, cultural, artistic, scientific, technical, and environmental work of society.

Students interested in majoring in English can choose from this range of options:

- **BA in English** (designed so that majors experience the broad, diverse scope of English studies and create a course plan to match their personal interests and professional goals)
- **BA with a Secondary Major in Education** (for students seeking licensure in secondary education with an opportunity to earn an ESL endorsement as well)
- **BS in English** (by fulfilling BA in English requirements and taking 12 additional credits in natural science, social science, or mathematics)

The English major offers a flexible degree that allows students to gain experience in fields such as literature, rhetoric, creative writing, English education, film, literary editing, and professional communication.

Please visit the Department of English website (<https://engl.iastate.edu/>) to learn more about the opportunities available to English majors as well as the other specialized undergraduate majors offered by the department. The diverse majors within English prepare students for careers that span law, medicine, theology, business, education, advocacy, event planning, management, marketing, publishing, nonprofit and government communication, public service, sales, and speech writing, library science, web design and communication consulting, editing, software documentation, usability and user experience, as well as scientific, technical, and environmental writing.

Adding a major or minor in English to your field of study at Iowa State increases your communication, analytical, and critical thinking skills and will play a key role in your life as a student and in your life after graduation.

## BA/BS in English Learning Outcomes

Students who major in English (with a BA or BS) will be able to

- analyze how texts and media reflect, shape, or challenge diverse intellectual, political, and/or cultural concerns in their eras and our own.
- understand, apply, analyze, synthesize, and evaluate content knowledge. Competencies include discipline-specific terms, history of the field, theories in the field, elements of criticism, and cultural knowledge.
- engage in critical thinking and effective communication by analyzing and interpreting information and ideas, conducting research, and making connections between and among divergent views.
- plan, prepare, present, and evaluate written, oral, visual, and electronic communication. These competencies include scholarly skills and tools; communication that is analytical, persuasive, and/or expressive; and peer and self-editing.

Students who choose the English Education Emphasis will additionally be prepared to

- understand how learners grow and develop, valuing individual differences and cultural diversity to ensure inclusive learning environments.
- apply the content area’s central concepts and structures by using a variety of instructional strategies, including technology, to encourage student creativity, problem solving, and collaboration.
- use multiple methods of assessment to engage learners in their own growth, monitor learner progress, and guide the teacher’s and learner’s decision making.
- create instructional plans that support students in meeting rigorous learning goals by drawing upon the content area knowledge, curriculum, cross-disciplinary skills, and pedagogy.
- evaluate one’s pedagogy for the effects of choices and actions on others (learners, families, other professionals, and the community).

## BA and BS in English Requirements

The English major offers a flexible degree that allows students to gain experience in fields such as literature, rhetoric, creative writing, English education, film, literary editing, and professional communication. The Undergraduate Program of Study is designed so that majors can experience the broad, diverse scope of English studies and configure a course plan to match their personal interests and professional goals. Suggested degree plans for several customizations are available and students may choose and combine courses in any way that meets the requirements for the degree.

Students interested in the BA degree in English need to complete 36 credits, based on the table below. Students interested in the BS degree in

English need to complete the BA requirements, plus 12 additional credits in linguistics, natural science, mathematics, social science, or selected courses in kinesiology. Students seeking to complete the English Major and be recommended for teacher licensure need to complete specified coursework in English and meet the requirements of the Secondary Major in Education.

To graduate with a major in the English department and meet the university-wide Communication Proficiency Grade Requirement, a student must have

- earned credit for, or received a grade of at least a C in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition
- completed and earned at least a C in one of the department’s advanced communication courses
- earned at least a C or higher in each of the ENGL courses applied to the ENGL major

As majors in the College of Liberal Arts and Sciences, English students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major. LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language and career proficiency (LAS 203) requirements. Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

The first table below lays out the requirements and options of the English major. The second table shares the specific requirements for English majors seeking licensure in English education. The English major requires a minimum of 15 credits of major requirements earned at the 300 level and a total of 9 credits of major requirements earned at the 400 level. English majors transferring from other institutions must earn at least 18 of their credits in English from Iowa State.

### English Major

Texts and Language: Choose 5		15
ENGL 201	Introduction to Literature *	
ENGL 207	Introduction to Creative Writing	
ENGL 214	Introduction to Technical Communication	
ENGL 220	Descriptive English Grammar	
ENGL 225	Survey of British Literature to 1800 *	
ENGL 226	Survey of British Literature since 1800 *	
ENGL 227	Survey of American Literature to 1865 *	
ENGL 228	Survey of American Literature since 1865 *	

ENGL 237	Survey of Film History *	
ENGL 260	Introduction to Literary Study *	
ENGL 353	World Literature: Western Foundations through Renaissance *	
ENGL 354	World Literature: Seventeenth Century to the Present *	
Advanced Communication: Choose 1		3
ENGL 302	Business Communication	
ENGL 303	Free-Lance Writing for Popular Magazines	
ENGL 304	Creative Writing: Fiction	
ENGL 305	Creative Writing: Nonfiction	
ENGL 306	Creative Writing: Poetry	
ENGL 308	Write Like a Woman	
ENGL 309	Proposal and Report Writing	
ENGL 313	Rhetorical Website Design	
ENGL 314	Technical Communication	
ENGL 315	Creative Writing: Screenplays	
ENGL 316	Creative Writing: Playwriting	
Critical Reading and Textual Analysis: Choose 2		6
ENGL 275	Analysis of Popular Culture Texts	
ENGL 310	Rhetorical Analysis	
ENGL 339	Literary Theory and Criticism	
ENGL 350	Rhetorical Traditions *	
ENGL 396	Teaching the Reading of Young Adult Literature	
ENGL 418	Seminar in Argumentation	
Literature of Social and Environmental Justice: Choose 1		
ENGL 240	Introduction to American Indian Literature	
ENGL 345	Women and Literature: Selected Topics *	
ENGL 346	American Indian Literature *	
ENGL 347	Studies in African American Literature *	
ENGL 349	Topics in Multicultural Literatures of the United States *	
ENGL 352	Queer Literature *	
ENGL 355	Literature and the Environment *	
ENGL 389	Postcolonial Literature	
Historical Perspective Requirement. A minimum of 9 credits of coursework in Historical Perspective is required. This Requirement may overlap with the above requirements. Courses listed above with an * next to them or any of the courses in the following list can apply to this requirement.		
ENGL 360	Studies in American Literature to 1800	
ENGL 362	Studies in 19th Century American Literature	
ENGL 364	Studies in American Literature: 1900 to the Present	

ENGL 370	Shakespeare
ENGL 373	Studies in British Literature: The Middle Ages
ENGL 375	Studies in British Literature: The Restoration and 18th Century
ENGL 376	Studies in British Literature
ENGL 376A	Studies in British Literature: Romantic
ENGL 376B	Studies in British Literature: Victorian
ENGL 393	The History of Children's Literature
ENGL 395A	Study and Travel: Literature
ENGL 420	History of the English Language

Minimum of 12 additional English Electives at the 200, 300, and 400 level (does not include ENGL 250). A total of 15 credits of major requirements must be at the 300 level. A total of nine credits of major requirements must be at the 400 level.

**Total Credits** **36**

### English Major with Teacher Preparation Focus

All students preparing to become teachers need to complete the requirements of the major as laid out below and also complete the requirements of the Secondary Major in Education, including completion of Student Teaching (ENGL 417E Student Teaching: English and Literature). Credits in ENGL 417E can apply toward the 400 level courses requirement of the English major. Note: Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

Texts and Language:		15
ENGL 225	Survey of British Literature to 1800	
ENGL 226	Survey of British Literature since 1800	
ENGL 227	Survey of American Literature to 1865	
ENGL 228	Survey of American Literature since 1865	
ENGL 260	Introduction to Literary Study	
Advanced Communication: Choose 1		3
ENGL 302	Business Communication	
ENGL 303	Free-Lance Writing for Popular Magazines	
ENGL 304	Creative Writing: Fiction	
ENGL 305	Creative Writing: Nonfiction	
ENGL 306	Creative Writing: Poetry	
ENGL 309	Proposal and Report Writing

ENGL 397	Practice and Theory of Teaching Writing in the Secondary Schools	
ENGL 420	History of the English Language	
EDUC 426	Principles of Secondary Education	
ENGL 494	Practice and Theory of Teaching Literature in the Secondary Schools	
Total Credits		51

Complementary Coursework for Teacher Preparation

These courses, expected as part of the Teacher Preparation program, may also apply to college general education requirements. Some of the required coursework for the Secondary Major in Education may also apply.

Complementary Coursework		9
PSYCH 230	Developmental Psychology	
SP CM 212	Fundamentals of Public Speaking	
or THTRE 350 Oral Interpretation		
And one course in American History or Government		

ESL Endorsement Requirements

At Iowa State University, ESL is an add-on endorsement, which means that students need to be certified in another area and to take all basic teacher preparation courses. The growing number of English learners in our public schools make the ESL endorsement a useful addition to a teaching license.

To add English as a Second Language, students must earn credits in the following courses. In some cases, relevant special topics courses

or experimental courses may be substituted. Some courses have prerequisites. Endorsement requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

ENGL 219	Introduction to Linguistics	3
ENGL 220	Descriptive English Grammar	3
ENGL 425	Second Language Learning and Teaching	3
ENGL 322	Language and Society	3
or EDUC 420	Bilingualism & The Education of Latinx Youth	
or EDUC 520	Bilingualism & The Education of Latinx Youth	
ENGL 318	Introduction to ESL methods and materials	6
& ENGL 324	and Introduction to Teaching ESL Literacy (ENGL/ LING 318, ENGL/LING 324)	
OR		
ENGL 324	Introduction to Teaching ESL Literacy	6
& ENGL 325	and Teaching Methods for ESL Learners: Oral Communication Skills (ENGL/LING 324, ENGL/ LING 325)	
Practicum courses taken through the School of Education at ISU		
EDUC 280S	Pre-Student Teaching Experience I: English as a Second Language (ESL)	1
EDUC 480S	Pre-Student Teaching Experience III: English as a Second Language (ESL)	2

Reading Endorsement Requirements

At Iowa State University, the 5-12 reading endorsement is an add-on endorsement, which means that students need to be certified in another area and to take all basic teacher preparation courses. The reading endorsement is a useful addition to a teaching license.

To add a Reading Endorsement, students must earn credits in the following courses. In some cases, relevant special topics courses or experimental courses may be substituted. Some courses have prerequisites. Some courses may apply to both the English major and to the Reading Endorsement. Endorsement requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

ENGL 219	Introduction to Linguistics	3
or LING 471	Language and Reading Development in Children

## English Minor Requirements

The minor in English prepares students in any discipline for which communication activities are needed to succeed in their professions. Minors in English will complete 15 credits beyond ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition; ENGL 250 and additional courses require a grade of C or higher (not C-), 9 of which will be at the 300 or 400 levels. Twelve of these hours must be taken at Iowa State. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## GRADUATE STUDY

The Department of English offers graduate work leading to three Master of Arts degrees, one Master of Fine Arts degree, two Doctor of Philosophy degrees, and one TESL/TEFL Certificate. The department also offers two concurrent degree programs in which undergraduate students can earn a Master of Arts degree with one additional year of study. Information on application requirements and procedures for all majors is available on the Graduate Studies “How To Apply” (<http://www.engl.iastate.edu/graduate-students/prospective-students/how-to-apply-2/>) website.

The MA in English (<https://www.engl.iastate.edu/english/>) degree program offers advanced study of literature, film, research, writing, and the teaching of reading. Students admitted to the MA in English choose between two areas of specialization: (1) Literature or (2) Literature and the Teaching of Reading. These tracks prepare students for a variety of career paths, including teaching at the secondary or college levels, publishing, research, administration, and work in nonprofit sectors. For individuals interested in pursuing research at the PhD level and/or teaching at the high school, college, or university level, the specialization in Literature provides excellent preparation through this program’s small class sizes, research opportunities, and professionalization. The specialization in Literature and the Teaching of Reading is designed for licensed teachers who wish to take graduate literature courses and work toward a reading endorsement by taking three reading courses in Education.

The MA in Rhetoric, Composition, and Professional Communication (RCPC) (<https://engl.iastate.edu/ma-coursework-program-of-study/>) prepares students for careers as professional communicators, including careers in technical and business writing, web design, web usability, and technical editing. Graduates also are prepared to teach writing, including business and technical communication, at the postsecondary level. Students can choose to complete a thesis or one of two creative-component options.

The MA in TESL/Applied Linguistics (TESL/AL) (<https://apling.engl.iastate.edu/ma-program-in-tesl-applied-linguistics/>) prepares students for careers in teaching English to non-native speakers of English, either in the U.S. or abroad. Students with MA degrees in TESL teach adults and younger learners in a wide variety of contexts, supervise language programs, work for testing organizations, and create language teaching materials. Students admitted to the degree program can use their elective courses to pursue extended expertise in areas such as Computer-Assisted Language Learning, Language Assessment, English for Specific Purposes (ESP), or Corpus and Computational Linguistics. The MA in TESL/Applied Linguistics (<https://apling.engl.iastate.edu/ma-program-in-tesl-applied-linguistics/>) has a foreign language requirement that may be fulfilled in a number of ways. Students whose native language is other than English are considered to

have met the language requirement after satisfying the Graduate College English requirement. For undergraduates at ISU, the MA in TESL/AL can also be completed through the concurrent degree option, which allows linguistics majors who meet admissions requirements to pursue an MA degree in TESL/AL with just one additional year of study.

The Master of Arts (MA) degree programs require a minimum of 30 hours of graduate credit, including a final thesis or creative component (3 credits).

The Master of Fine Arts (MFA) program in Creative Writing and Environment (CWE) (<https://www.engl.iastate.edu/creative-writing/mfa-program-in-creative-writing-and-environment/>) cultivates in its students an interdisciplinary approach to research and writing. The program's unique design allows writers to develop a heightened environmental imagination that finds expression in quality, publishable works of fiction, nonfiction, poetry, and drama. The program is designed to prepare students for careers as writers, teachers, editors, and environmental educators. The MFA degree requires 54 hours of graduate credit: a core of creative writing and other English courses, a book-length thesis (6 credits), experiential environmental fieldwork (3 credits), and 12 credits in disciplines other than English (such as Landscape Architecture, Anthropology, or Environmental Science, among many others) relevant to an individual student's research interests and thesis project.

The Doctor of Philosophy (PhD) in Applied Linguistics and Technology (ALT) (<https://apling.engl.iastate.edu/ph-d-in-applied-linguistics-and-technology/>) focuses on English language description, teaching, learning, and assessment, with particular emphasis on issues and practices related to technology: analysis of language using computational and corpus linguistic methods as well as the study of computer technology in English language teaching, learning, assessment, and second language pronunciation. The degree prepares students for a variety of academic appointments in departments of applied linguistics and English and for professional opportunities in research and development, international publishing, and government agencies in the U.S. and around the world where English is taught and used for specific educational, vocational, and professional purposes. Candidates are required to complete 72 hours of graduate credit including a dissertation, to meet a foreign language requirement that may be fulfilled in a number of ways (students whose native language is other than English are considered to have met the language requirement after satisfying the Graduate College English requirement), and to pass a portfolio assessment, a preliminary examination (consisting of a dissertation proposal and an oral defense of the proposal), and an oral defense of the completed dissertation.

The PhD in Rhetoric and Professional Communication (RPC) (<https://www.engl.iastate.edu/rpc/graduate-programs/phd-rpc/>) applies rhetorical theory to the practice of written, oral, and visual communication in professional communities (e.g., industry and science)

and in public spaces that frame deliberation, controversy, and communal identity. The degree prepares graduates for academic positions in rhetoric, in multimodal composition, and in business, professional, and technical communication, as well as for work in the private and public sectors as professional communication specialists, editors, designers, and communication managers. Candidates are required to complete 72 hours of graduate credit, including a dissertation, and to pass a portfolio assessment, a preliminary examination, and an oral defense of the dissertation.

A Graduate Certificate in Teaching English as a Second Language/ Teaching English as a Foreign Language (TESL/TEFL) (<https://apling.engl.iastate.edu/tesltefl-graduate-certificate/>) prepares students to teach English to non-native speakers of English either in the U.S. or abroad. It offers students grounding in the linguistic understanding of English and a flexible program of study with courses in teaching methodology, language assessment, and the use of technology to address students' language needs. This 12-credit program has two prerequisites, one core requirement, and three graduate course electives.

The department offers qualified graduate students an opportunity to gain professional experience through teaching and research assistantships, fieldwork and internships, and departmental research activities. Graduate teaching assistants are responsible for teaching, with faculty supervision, courses in ISUComm Foundation Courses, ISUComm Advanced Communication (business and technical communication), ISUComm Speech Communication, and English as a Second Language (ESL). Research assistants may be assigned to faculty members engaged in research projects. Various admissions awards are available as well: the Janet Anderson-Hsieh Scholarship is awarded each year to one Applied Linguistics and Technology doctoral student; one or more Pearl Hogrefe Fellowships in Creative Writing (<https://www.engl.iastate.edu/creative-writing/how-to-apply/pearl-hogrefe-fellowship-in-creative-writing/>), covering stipend and tuition, are awarded each year to outstanding graduate students; Freda Huncke Endowment Graduate Teaching Fellowships are awarded to select students each year.

The English Department offers minors in each of its graduate programs. A graduate minor at the MA level requires 9 credits of English at the 500 or 600 level in the respective major (English, RCPC, TESL/AL). A graduate minor within the MFA program in Creative Writing and Environment requires an approved application and completion of 12 graduate credits of creative writing. A graduate minor at the PhD level requires 12 credits at the 500 or 600 level in the respective major (ALT or RPC).

## GRADUATE PROGRAM LEARNING OUTCOMES

### MA in English

- Expand knowledge related to the study of literature and film that includes a diversity of authors/directors, genres, theories, and cultural-historical contexts.
- Communicate research effectively through oral and written presentations.
- Conduct independent scholarship in ways that consistently demonstrate ethical practice and professionalism.
- For graduate students who receive a teaching assistantship, develop strategies for the effective teaching of undergraduate students.

### MA in Rhetoric, Composition, and Professional Communication

The RCPC program combines the pedagogy focus of a degree in rhetoric and composition with the technical skill and practicality of a degree in professional communication. Upon graduation, students will demonstrate the ability to

- understand the interplay of rhetoric, composition, and professional communication in local and global contexts.
- analyze a rhetorical situation and develop communication that responds to it effectively and ethically.
- develop communication that helps build a socially just society.
- use communication to contribute to an affirming and inclusive classroom/workplace environment.
- apply the historical and theoretical understanding necessary to assess the use of specific communication technologies within complex organizations.
- combine verbal and visual communication skills to produce effective communication in contemporary organizations.

Measures for evaluating a student's success in meeting these objectives include

- achievement on coursework
- familiarity with useful and common software programs and technologies
- successful completion of a thesis or a creative-component project

### MA in TESL/Applied Linguistics

- Demonstrate independence, reflective practices, and professionalism in teaching and assessment of English as a second language.
- Demonstrate knowledge of and confidence with the use of computer applications relevant to English language teaching.

- Formulate important research questions for guiding investigations that contribute to theory and practice in one or more areas of applied linguistics.
- Carry out research in one area of applied linguistics that will increase understanding of English language teaching.
- Evaluate research in the field to identify its contribution to theory, research, and practice in applied linguistics.
- Communicate ideas, discoveries, and findings to others in a professional and creative manner.
- Collaborate with other professionals to create and investigate new knowledge, practices, and products for English language teaching.

### MFA in Creative Writing and Environment

- Demonstrate understanding of craft and professional practice through coursework, workshops, and completion of refined imaginative literary manuscripts in multiple genres.
- Identify, research, and examine—through coursework, fieldwork, and literary practice—the natural world and the environmental imagination.
- Broaden and deepen understanding of literary and theoretical traditions of the major genres and the methodologies of craft analysis and practice.
- Broaden and deepen understanding of the cultural and natural environment through significant coursework in environmental courses available at Iowa State University both within and beyond the MFA program and English department.
- Design, write, workshop, refine, and defend a significant body of publishable- or production-quality imaginative writing, including a full-length thesis manuscript, which demonstrates professional understanding and application of craft and technique, literary tradition, and the environmental imagination.
- Gain practical training and experience in creating and fostering a healthy literary community and sustaining a professional life in letters through teaching and research assistantships and internships, literary journal editorial internships and positions, as well as land stewardship, reading series, and other outreach opportunities.

### PhD in Applied Linguistics and Technology

- Demonstrate knowledge of and confidence with the use of computer applications relevant to teaching, learning, research, and assessment in applied linguistics.
- Design, implement, and evaluate algorithms for automating linguistic analysis tasks based on knowledge of natural language and speech processing programming.
- Formulate important research questions for guiding investigations that contribute to theory and practice in one or more areas of applied linguistics.

- Apply principles of research methodology to design data collection and analysis procedures to address research questions in at least one area of applied linguistics.
- Interpret and evaluate findings in view of their contribution to theory, research, and practice in the relevant area.
- Communicate ideas, discoveries, and findings to others in a professional and creative manner.
- Collaborate with other professionals to create and investigate new knowledge, practices, and products.
- Demonstrate independence and professionalism in teaching and research.

## PhD in Rhetoric and Professional Communication

At the time of graduation, RPC students will demonstrate an ability to

- understand theories, research methods, and concepts in rhetoric, professional communication, and multimodal composition.
- apply these theories, research methods, and concepts in scholarly activity, including research and teaching.
- use a variety of technologies and media for scholarly research and for developing audience-centered communication.
- analyze, synthesize, and critique communication in a variety of organizational and public contexts.
- analyze, synthesize, and critique research related to rhetoric, professional communication, and multimodal composition.
- develop scholarship that makes a significant contribution to the field.
- develop communication that helps build a socially just society.

Measures for evaluating a student's success in meeting these objectives include

- display of an ability to develop a clear and cogent argument using relevant evidence in coursework
- annual reviews
- qualifying examination (i.e., portfolio assessment)
- preliminary exams (written and oral)
- completion and defense of a dissertation

## Graduate Certificate in TESL/TEFL

- Demonstrate growth in reflective practice and professionalism in English language teaching.
- Demonstrate metalinguistic knowledge of English structure and use.
- Evaluate research in the field to identify its contribution to English language teaching practice.
- Communicate and collaborate with others to achieve professional goals for English language teaching.

## Environmental Science Interdepartmental Undergraduate Programs

Environmental Science provides an integrated, quantitative, and interdisciplinary approach to the study of environmental systems. The magnitude and complexity of environmental problems are creating a growing need for scientists with rigorous, interdisciplinary training in environmental science. The Environmental Science program is designed to prepare students for positions of leadership in this rapidly changing discipline. Environmental Science graduates have a solid foundation in biological and physical natural sciences and the specialized training necessary for integrated analysis of environmental systems.

### Undergraduate Study

The Environmental Science undergraduate major is offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences. Environmental Science majors complete foundation courses in natural sciences and mathematics, plus a major consisting of an integrated core of Environmental Science courses and additional advanced course work in Environmental Science. Scientific rigor is stressed throughout the program, beginning with the foundation courses in the first two years of the curriculum. The upper level core courses emphasize a dynamic systems approach that provides a framework for integrating physical, chemical, and biological aspects of environmental systems. Beyond the required core, students select from a broad array of advanced courses to either develop greater breadth, or specialization in areas including, but not limited to, water resources, climate impacts and adaptation, environmental restoration and management, and geographic information systems (see <https://www.ensci.iastate.edu/> for additional information on areas of specialization).

### Student Learning Outcomes

Upon graduation, students should be able to:

Demonstrate a broad understanding of environmental systems and issues utilizing an interdisciplinary framework to integrate ideas and concepts from biological and physical natural sciences

Demonstrate proficiency in data analysis and problem-solving of relevant environmental systems/problems

Use a systems approach to conduct integrated, quantitative, and interdisciplinary analyses and modeling of environmental systems and problems

College of Liberal Arts and Sciences

<http://www.ensci.iastate.edu>

Students seeking an Environmental Science major complete the following:

1. A foundation of approved supporting courses in science and mathematics including biology, chemistry, earth science, physics, mathematics, and statistics.

2. 33 credits of course work in the major, including a required core of 21 credits.

A combined average grade of C or higher is required in courses applied in the major.

### 1. Environmental Science: 33 credits

ENSCI 110	Orientation to Environmental Science	1
ENSCI 201	Introduction to Environmental Issues	2
ENSCI 202	Exploration of Environmental and Sustainability Issues	1
ENSCI 203	Exploration of Environmental Science	1
ENSCI 250	Environmental Geography	3
ENSCI 251	Biological Processes in the Environment	3
ENSCI 312	Ecology	4
ENSCI 318	Introduction to Ecosystems	3
ENSCI 319	Analysis of Environmental Systems	3
Additional ENSCI choice courses		12
<b>Total Credits</b>		<b>33</b>

### 2. Mathematics & Statistics: 6-8 credits

Choose one of the following: 3-4

MATH 104	Introduction to Probability	
MATH 150	Discrete Mathematics for Business and Social Sciences	
MATH 151	Calculus for Business and Social Sciences	
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
COM S 106	Introduction to Web Programming	
COM S 107	Windows Application Programming	
DS 201	Introduction to Data Science	
DS 202	Data Acquisition and Exploratory Data Analysis	

Choose one of the following: 3-4

STAT 101	Principles of Statistics	
STAT 104	Introduction to Statistics	

**Total Credits** 6-8

### 3. Physical & Life Sciences: 21-24 credits

BIOL 211 Principles of Biology I 3

Choose from one of the following: 5-6

CHEM 163 College Chemistry  
& 163L and Laboratory in College Chemistry

CHEM 167 General Chemistry for Engineering Students  
& 167L and Laboratory in General Chemistry for Engineering

CHEM 177 General Chemistry I  
& 177L and Laboratory in General Chemistry I

CHEM 201 Advanced General Chemistry  
& 201L and Laboratory in Advanced General Chemistry

Choose from one of the following: 3-4

CHEM 231 Elementary Organic Chemistry  
& 231L and Laboratory in Elementary Organic Chemistry

CHEM 331 Organic Chemistry I  
& 331L and Laboratory in Organic Chemistry I

BBMB 221 Structure and Reactions in Biochemical Processes

AGRON 259 Organic Compounds in Plants and Soils

Choose 3 of the following: 9

AGRON 182 Introduction to Soil Science

AGRON 282 Soil Conservation and Land Use

GEOL 100 How the Earth Works

or GEOL 201 Geology for Engineers and Environmental Scientists

MTEOR 206 Introduction to Weather and Climate

BIOL 212 Principles of Biology II

CHEM 178 General Chemistry II  
& 178L and Laboratory in College Chemistry II

PHYS 115 Physics for the Life Sciences

or PHYS 131 General Physics I

or PHYS 231 Introduction to Classical Physics I

**Total Credits** 20-22

### 4. Communications: 7-10 credits

ENGL 150 Critical Thinking and Communication 3

ENGL 250 Written, Oral, Visual, and Electronic Composition 3

LIB 160 Introduction to College Level Research 1

Embedded communication coursework in ENSCI 203 and ENSCI 312

**Total Credits** 7

#### Additional communication courses required of majors in the College of Agriculture and Life Sciences

Choose 1 of the following: 3

SP CM 212 Fundamentals of Public Speaking

AGEDS 311 Presentation and Sales Strategies for Agricultural Audiences

COMST 214 Professional Communication

**Total Credits** 3

**5. General Education: 15-21 credits****Additional general education requirements in the College of Agriculture and Life Sciences**

Humanities	3
Social Science	3
Ethics	3
International Perspectives course from university approved list	3
US Diversity course from university approved list	3
<b>Total Credits</b>	<b>15</b>

**additional general education requirements in the College of Liberal Arts and Sciences**

Arts and Humanities courses from college approved list	12
Social Science courses from college approved list	9
(Select courses to include 3 cr. of International Perspectives and 3 cr. of US Diversity)	
Students must have completed 3 years of a single world language in high school or take 4-8 credits of World Languages at the university level	
LAS 203 Professional Career Preparation	1
<b>Total Credits</b>	<b>22</b>

**Electives (28-35 credits)**

As majors in the College of Liberal Arts and Sciences, Environmental Science students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

**Bachelor of Science B.S. (LAS)****Freshman**

Students in all ISU majors must complete a 3 credits in U.S. diversity and a 3 credits in international perspectives. Check the Environmental Science website (<http://www.ensci.iastate.edu>) for a list of approved courses.

Minimum of 120 credits required, including a minimum of 45 credits at the 300/400 level.

<sup>1</sup> Students complete at least 32 credits in Environmental Science including ENSCI 110, ENSCI 201, ENSCI 250, ENSCI 312, ENSCI 318, ENSCI 319 and 12 additional credits of approved ENSCI coursework.

<sup>2</sup> Students complete at least 12 credits in arts and humanities and 9 credits in social science from approved lists. These credits can also be used to meet the U.S. Diversity and International Perspectives requirements.

<sup>3</sup> Students choose one course from the following Physical or Life Science related courses: AGRON 182, AGRON 282, BIOL 212, CHEM 178 & CHEM 178L, GEOL 100, GEOL 201, MTEOR 206, PHYS 115, PHYS 131, PHYS 231. Students choose from one of the following Organic Chemistry options: CHEM 231 & CHEM 231L, CHEM 331 & CHEM 331L, BBMB 221, or AGRON 259.

Graduate Study

Contact information for the graduate program:

**Lynette Edsall**  
camelot@iastate.edu (mstolt@iastate.edu)  
515-294-1191  
<https://enscigrad.iastate.edu/>

The Environmental Science graduate program offers an interdepartmental curriculum leading to M.S. and Ph.D. degrees with a major in Environmental Science. Faculty from the colleges of Agriculture and Life Sciences, Engineering, and Liberal Arts and Sciences cooperate to offer courses and research opportunities covering a broad array of environmental topics. Cooperating departments include Agricultural and Biosystems Engineering; Agronomy; Animal Science; Civil, Construction and Environmental Engineering; Ecology, Evolution and Organismal Biology; and Geological and Atmospheric Sciences.

Applicants should have completed an undergraduate or master's degree in one of the biological, chemical, physical, or engineering sciences or should have equivalent preparation.

The Environmental Science Graduate Program emphasizes fundamental concepts and research, which at the same time address major environmental issues. The curriculum is designed to provide the interdisciplinary approach needed in environmental science education and research. In addition to work in their chosen area of specialization, students are afforded a broad exposure to the biological, chemical and physical aspects of environmental systems and the specialized training necessary for integrated analysis of these systems.

Information on application procedures, curriculum requirements, and faculty research areas is available on the Environmental Science Graduate Program website (<https://enscigrad.iastate.edu/>).

Environmental Studies  
Environmental Studies  
Interdepartmental Undergraduate Program

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different

perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

Student Learning Outcomes

Upon graduation, students should be able to:

- Demonstrate a broad understanding and appreciation for a range of environmental issues spanning natural and human systems
- Demonstrate an understanding and appreciation of different perspectives regarding environmental issues
- Demonstrate an understanding of approaches used in addressing environmental problems including data analysis and problem-solving

Secondary Major

The Environmental Studies secondary major is taken in addition to a primary major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of ENV S coursework including:

At least one general survey course chosen from:

ENV S 101	Environmental Geology: Earth in Crisis
ENV S 120	Introduction to Renewable Resources
ENV S 173	Environmental Biology
ENV S 201	Introduction to Environmental Issues

At least one integrative/issues course chosen from:

ENV S 160	Water Resources of the World
ENV S 204	Biodiversity
ENV S 324	Energy and the Environment
ENV S 342	World Food Issues: Past and Present
ENV S 404	Global Change
ENV S 424	Sustainable and Environmental Horticulture Systems
ENV S 450	Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:

ENV S 270	Foundations in Natural Resource Policy and History
ENV S 283	Introduction to Environmental Politics and Policies
ENV S 293	Environmental Planning
ENV S 320	Ecofeminism
ENV S 334	Environmental Ethics
ENV S 345	Population and Society
ENV S 355	Literature and the Environment
ENV S 363	U. S. Environmental History
ENV S 380	Energy, Environmental and Resource Economics

ENV S 382	Environmental Sociology
ENV S 484	Sustainable Communities
ENV S 491	Environmental Law and Planning

Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24 credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits in natural sciences from the LAS General Education approved course list. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.

## Minor

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:

ENV S 101	Environmental Geology: Earth in Crisis
ENV S 120	Introduction to Renewable Resources
ENV S 173	Environmental Biology
ENV S 201	Introduction to Environmental Issues

At least one integrative/issues course chosen from:

ENV S 160	Water Resources of the World
ENV S 204	Biodiversity
ENV S 324	Energy and the Environment
ENV S 342	World Food Issues: Past and Present
ENV S 404	Global Change
ENV S 424	Sustainable and Environmental Horticulture Systems
ENV S 450	Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:

ENV S 270	Foundations in Natural Resource Policy and History
ENV S 283	Introduction to Environmental Politics and Policies
ENV S 293	Environmental Planning
ENV S 320	Ecofeminism
ENV S 334	Environmental Ethics
ENV S 345	Population and Society
ENV S 355	Literature and the Environment
ENV S 363	U. S. Environmental History
ENV S 380	Energy, Environmental and Resource Economics
ENV S 382	Environmental Sociology

ENV S 484	Sustainable Communities
ENV S 491	Environmental Law and Planning

A combined average grade of C or higher is required in courses applied to the minor, and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Genetics

Genetics is the scientific study of heredity. Understanding the basis of heredity is fundamental to all aspects of the life sciences, from the most basic molecular study to applied studies of agricultural species. At Iowa State University the study of the life sciences is interdepartmental, involving faculty in the basic, agricultural, and veterinary sciences. Faculty in 20 different departments are involved in genetics research. This large group of faculty presents a broad range of possibilities for students to learn from faculty who are at the forefront of research in many areas of genetics.

## UNDERGRADUATE STUDY

Undergraduate study in genetics is jointly administered by three departments: the Roy J. Carver Department of Biochemistry, Biophysics, and Molecular Biology; the Department of Genetics, Development, and Cell Biology; and the Department of Ecology, Evolution, and Organismal Biology. Undergraduate degrees are offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Science. Programs of study for genetics majors leading to a B.S. degree are available.

Training in genetics may lead to employment in teaching, research, or a variety of health-related professions. Although some students find employment directly after their baccalaureate training, many students continue their education in graduate or professional programs. Students with the B.S. degree may find employment in the biotechnology, health, or food industries. Recent graduates have also developed careers in conservation biology, technical writing, science journalism, technical sales, and business.

The required course work and associated electives provide students with the foundation in basic life sciences, mathematics, chemistry, and physics that is essential for professions involving modern biological/biomedical sciences. As part of these courses students develop skills in problem solving, critical thinking, writing, and research-related activities in the biological sciences.

Specific entrance requirements for medical and health-related professions are established by the professional schools. Students interested in fulfilling pre-professional requirements for such professions as dentistry, human medicine, genetic counseling, optometry, pharmacy,

physical therapy, physicians assistant, and veterinary medicine can major in genetics while fulfilling the pre-professional requirements.

Student Learning Outcomes:

Upon graduation, students earning the BS degree in Genetics are expected to have achieved the following skills and capabilities:

- Comprehensive, detailed understanding of the chemical basis of heredity.
- Comprehensive and detailed understanding of genetic methodology and how quantification of heritable traits in families and populations provides insight into cellular and molecular mechanisms.
- Understanding of how genetic concepts affect broad societal issues including health and disease, food and natural resources, environmental sustainability, etc.
- Understanding the role of genetic mechanisms in evolution.
- The knowledge required to to design, execute, and analyze the results of genetic experimentation in animal and plant model systems.
- The ability to recognize the experimental rationale of genetic studies as they are described in peer-reviewed research articles and grant proposals to federal and other funding agencies.
- The ability to evaluate conclusions that are based on genetic data.
- Insight into the mathematical, statistical, and computational basis of genetic analyses that use genome-scale data sets in systems biology settings.
- Understanding the role of genetic technologies in industries related to biotechnology, pharmaceuticals, energy, and other fields.
- Communication skills required in the discipline including oral presentations of research data, published research articles, grant proposals, and poster presentations at conferences.
- Teamwork and leadership skills including group analysis of data, working together in the research laboratory, joint compositions of written reports, substantive participation in research group meetings, etc.

CURRICULUM IN GENETICS - REQUIREMENTS

Total Degree Requirement: 120 cr.

A maximum of 65 cr. from a two-year institution can be applied that may include up to 16 technical cr.; up to 9 Pass-Not Pass cr. of free electives can be applied; a cumulative GPA of at least 2.0 is required for graduation. Program-approved lists can be found on the Genetics website.

1. Genetics and Life Sciences

A grade of C– or better is required in all Genetics and Life Science courses.

A. Courses required of all Genetics majors

GEN 110	Genetics Orientation	1
BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
GEN 313	Principles of Genetics	3
GEN 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 315	Biological Evolution	3
One of the following:		3-4
GEN 322	Introduction to Bioinformatics and Computational Biology	
GEN 349	The Genome Perspective in Biology	
BCBIO 406	Bioinformatics of OMICS	
GEN 409	Molecular Genetics	3
GEN 410	Analytical Genetics	3
One of the following:		3
GEN 462	Evolutionary Genetics	
EEOB 561	Evolutionary and Ecological Genomics	
EEOB 563	Molecular Phylogenetics	
GEN 491	Undergraduate Seminar, Professional Practice in Genetics Disciplines	1
MICRO 302	Biology of Microorganisms	3
Total Credits		35-36

B. Course required of majors in the College of Agriculture and Life Sciences only

A minimum of 3 cr. of coursework in the area of environmental science from program approved list	3
Total Credits	3

2. Advanced Sciences Electives: 6 cr. from program approved list

A grade of C- or better is required in each course. No more than 3 cr. of GEN 490, 490R, 490H, 492, 496, 499, or 499H may be used to meet this requirement.

3. Mathematical Sciences

Complete at least one calculus course from MATH, minimum of 4 credits.		4
MATH 160	Survey of Calculus	
MATH 165	Calculus I	
Complete at least one course from STAT, minimum of 3 credits.		3-4
STAT 101	Principles of Statistics	

STAT 104	Introduction to Statistics	
Complete at least one additional course from MATH or STAT, minimum of 4 credits.		4
MATH 166	Calculus II	
STAT 301	Intermediate Statistical Concepts and Methods	
<b>Total Credits</b>		<b>11-12</b>

#### 4. Supporting Sciences

CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
CHEM 332	Organic Chemistry II	3
CHEM 332L	Laboratory in Organic Chemistry II	1
PHYS 131	General Physics I	4
PHYS 131L	General Physics I Laboratory	1
PHYS 132	General Physics II	4
PHYS 132L	General Physics II Laboratory	1
Choose one of the following options		6-7

##### Option 1

BBMB 404	Biochemistry I	
And one of the following:		
BBMB 405	Biochemistry II	
BBMB 411	Techniques in Biochemical Research	
CHEM 211 & 211L	Quantitative and Environmental Analysis and Quantitative and Environmental Analysis Laboratory	
CHEM 325	Chemical Thermodynamics	

##### Option 2

BBMB 420	Mammalian Biochemistry	
And one of the following:		
BBMB 411	Techniques in Biochemical Research	
CHEM 211 & 211L	Quantitative and Environmental Analysis and Quantitative and Environmental Analysis Laboratory	
CHEM 325	Chemical Thermodynamics	

<b>Total Credits</b>		<b>33-34</b>
----------------------	--	--------------

#### 5. International Perspectives: 3 cr. from university approved list

This course can satisfy **both** the university requirement for International Perspectives and the college requirement for a General Education elective (item 8) if the selection appears on both lists of approved courses.

#### 6. U.S. Diversity: 3 cr. from university approved list

This course can satisfy **both** the university requirement for U.S. Diversity and the college requirement for a General Education elective (item 8) if the selection appears on both lists of approved courses.

#### 7. Communications/Information Literacy

##### A. Courses required of all Genetics majors

Grades of C or better are required in ENGL 250 and advanced writing. (The College of Agriculture and Life Sciences requires a C or better in ENGL 150, as well.)

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
LIB 160	Introduction to College Level Research	1
One advanced English writing course from program approved list		3
<b>Total Credits</b>		<b>10</b>

##### B. Course required of majors in the College of Agriculture and Life Sciences only.

A grade of C or better is required by the college.

SP CM 212	Fundamentals of Public Speaking	3
or AGEDS 311	Presentation and Sales Strategies for Agricultural Audiences	
<b>Total Credits</b>		<b>3</b>

#### 8. General Education electives

Courses from college approved lists that also appear on university approved lists of U.S. Diversity or International Perspectives courses can be used to satisfy both requirements.

##### A. College of Agriculture and Life Sciences

Humanities course from college approved list		3
Social Science course from college approved list		3
Ethics course from college approved list		3
<b>Total Credits</b>		<b>9</b>

##### B. College of Liberal Arts and Sciences

Humanities courses from college approved list; one of these should be a Science/Humanities bridge course from program approved list

Social Science courses from college approved list		9
---	--	---

Students must have completed 3 years of a single world language in high school or take 4-8 credits of World Languages at the university level.

**Total Credits** **21**

As majors in the College of Liberal Arts and Sciences, Genetics (LAS) students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

Genetics, B.S.

#### Freshman

Fall	Credits	Spring	Credits
GEN 110		1 BIOL 211	3
BIOL 212		3 BIOL 211L	1

**Total Credits: 116-131**

\* Summer: Students taking the MCAT need to have completed biochemistry and physics by this time. Others can complete during the senior year.

## Undergraduate Minor

The minor in Genetics may be earned by completing the following courses. At least 9 cr. must be used **only** to fulfill the requirements of the minor and not be applied to any other major, college, or university requirement.

GEN 313	Principles of Genetics	3
GEN 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
GEN 410	Analytical Genetics	3
GEN 409	Molecular Genetics	3
Two or more additional credits in Genetics at the 300 level or above.		2
<b>Total Credits</b>		<b>15</b>

## Geology

The **bachelor of science major in Geology** prepares the student for a professional career and/or graduate study in the geological sciences. Graduates work to understand natural processes on Earth and other planets. They are able to apply their knowledge of forces and factors that shape the Earth to reconstruct past environments and anticipate future problems. Graduates provide essential information for solving problems for resource management, environmental protection, and public

health, safety, and welfare. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, staff members in state and U.S. geological surveys, government regulators, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

**Geology as an Additional Major:** The Geology program has identified the core of 31 credits of geology courses that can complement a BS degree or major in materials engineering, civil engineering, environmental science, meteorology, or biology for students wishing to earn an additional major in geology. This pathway to earning a Geology major allows students in these academic programs with affinity to geology to complete both programs. Students should work closely with their advisors in each department to ensure that all requirements are met. These programs prepare students for careers or graduate study in the geosciences.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Demonstrate the ability to think critically;
- Exhibit a broad understanding of Earth systems and processes;
- Demonstrate scientific literacy and its application to scientific inquiry and societal concerns;
- Demonstrate proficiency in data collection, management, and analysis including understanding sources of error and/or uncertainty;
- Demonstrate competency with geoscience-specific techniques and field methods.
- Read and critically evaluate relevant literature and information;
- Use appropriate tools from chemistry, physics, biology, mathematics, and data science to solve discipline-specific problems;
- Present information effectively in written and oral forms;
- Work in a team environment in alignment with the ISU principles of community;
- Work independently;
- Attain employment in the geosciences or related fields, or pursue graduate studies.

**Combined Degrees:** A concurrent program is offered which combines a bachelor of science degree in geology and a master of science degree in geology.

## Geology

### Required courses for BS in Geology include:

GEOL 100	How the Earth Works	3
or GEOL 101	Environmental Geology: Earth in Crisis	

or GEOL 201	Geology for Engineers and Environmental Scientists	
GEOL 100L	How the Earth Works: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1
GEOL 302	Summer Field Studies	6
GEOL 315	Mineralogy and Earth Materials	3
GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
GEOL 316	Optical Mineralogy	1
GEOL 356	Structural Geology and Tectonics	4
GEOL 357	Geological Mapping and Field Methods	1
GEOL 365	Igneous and Metamorphic Petrology	3
GEOL 368	Sedimentary Geology	4
GEOL 479	Surficial Processes	3
And 9 credits of geology electives at the 300+ level.		9
<b>Total Credits</b>		<b>43</b>

### Required supporting courses include:

MATH 165	Calculus I	4
MATH 166	Calculus II	4
CHEM 177	General Chemistry I	4
CHEM 177L	Laboratory in General Chemistry I	1
CHEM 178	General Chemistry II	3
CHEM 178L	Laboratory in College Chemistry II	1
PHYS 131	General Physics I	4
PHYS 131L	General Physics I Laboratory	1
PHYS 132	General Physics II	4
PHYS 132L	General Physics II Laboratory	1
And 6 additional credits of either geology electives or courses from an approved departmental list of science, engineering, and mathematical disciplines outside of geology.		6
<b>Total Credits</b>		<b>33</b>

**Geology as an Additional Major:** The requirements of the 31 credit core are below. Please review information on the department website and contact the current program head for more information and sample four year plans for the Geology as an additional major program.

### Required courses in Geology as an Additional Major

GEOL 100	How the Earth Works	3
or GEOL 101	Environmental Geology: Earth in Crisis	
or GEOL 201	Geology for Engineers and Environmental Scientists	
GEOL 100L	How the Earth Works: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1

GEOL 302	Summer Field Studies	6
GEOL 315	Mineralogy and Earth Materials	3
GEOL 315L	Laboratory in Mineralogy and Earth Materials	1
GEOL 316	Optical Mineralogy	1
GEOL 356	Structural Geology and Tectonics	4
GEOL 357	Geological Mapping and Field Methods	1
GEOL 365	Igneous and Metamorphic Petrology	3
GEOL 368	Sedimentary Geology	4
<b>Total Credits</b>		<b>31</b>

No more than 9 credits in 490 may be counted toward a degree in Geology.

**Communication Proficiency requirement:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. The department requires a grade of C or better in ENGL 309 or ENGL 314.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
One of the following:		3
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
<b>Total Credits</b>		<b>9</b>

As majors in the College of Liberal Arts and Sciences, Geology students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. At least 8 credits in the major from 300+ courses must earn grade C or better. The average grade of all courses in the major must be 2.0 or higher. You must also complete the LAS world language requirement and LAS career proficiency requirement.

## FOUR YEAR PLAN

Below is a suggested pathway for new majors. This plan is an example only; students should discuss their graduation plan with their advisor.

## Geology, B.S.

### Freshman

Fall	Credits	Spring	Credits
GEOL 112		1 GEOL 113	1
GEOL 100 or 101		3 GEOL 102	3
GEOL 100L		1 GEOL 102L	1
CHEM 177		4 CHEM 178	3
CHEM 177L		1 CHEM 178L	1
ENGL 150		3 MATH 165	4
Social Science Choice		3 Arts & Humanities Choice	3
<b>16</b>		<b>16</b>	

### Sophomore

Fall	Credits	Spring	Credits
GEOL 315		3 GEOL 365	3
GEOL 315L		1 PHYS 131	4
GEOL 316		1 PHYS 131L	1
MATH 166		4 Advanced Geology Elective Choice	3
ENGL 250		3 LAS 203	1
LIB 160		1 U.S. Diversity Choice	3
International Perspectives Choice		3	
<b>16</b>		<b>15</b>	

### Junior

Fall	Credits	Spring	Credits	Summer	Credits
GEOL 368		4 GEOL 356		4 GEOL 302	6
GEOL 357		1 Advanced Geology Elective Choice <sup>1</sup>	3		
PHYS 132		4 ENGL 309 or 314	3		
PHYS 132L		1 Social Science Choice	3		

Advanced Geology Elective Choice <sup>1</sup>	3		
Arts & Humanities Choice	3		
<b>16</b>		<b>13</b>	
<b>6</b>		<b>6</b>	

### Senior

Fall	Credits	Spring	Credits
GEOL 479		3 Advanced Geology Elective Choice <sup>1</sup>	3
Advanced Geology Elective Choice <sup>1</sup>	3	3 Social Science Choice (300+ level)	3
Arts & Humanities Choice (300+ level)	3	3 Arts & Humanities Choice	3
World Language 101 Choice	4	4 World Language 102 Choice/ Elective	4
<b>13</b>		<b>13</b>	

**Total Credits: 124**

<sup>1</sup> Choose from list of approved courses available from an advisor or the departmental office.

Students may double-count some courses to complete the degree requirements in 120 credits.

## Minor - Geology

A minor in Geology may be earned by taking 15 credits of geology coursework, including:

GEOL 100 or GEOL 201 or GEOL 101	How the Earth Works Geology for Engineers and Environmental Scientists Environmental Geology: Earth in Crisis	3
GEOL 100L	How the Earth Works: Laboratory	1
GEOL 102	History of the Earth	3
GEOL 102L	History of the Earth: Laboratory	1

Although many students will take GEOL 100 as the first course in this sequence, GEOL 101 or GEOL 201 may be taken in place of GEOL 100. Note: all students must take GEOL 100L (How the Earth Works: Laboratory). The remainder of the coursework should be at the 300 level or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Concurrent Undergraduate and Graduate Programs

A concurrent program is offered which combines a bachelor of science degree in geology and a master of science degree in geology. This program gives well-qualified Iowa State juniors and seniors the opportunity to begin working on the M.S. degree before completing the B.S. degree, reducing by at least one year the normal time period necessary to complete both degrees separately. Additionally, a concurrent program exists that gives highly motivated and career-focused students the opportunity to receive a bachelor of science in geology and an M.B.A. (master of business administration). Review the department website (<https://ge-at.iastate.edu/>) or contact Dr. Cinzia Cervato for more information regarding these programs

## Graduate Study

The department offers programs leading to the master of science and doctor of philosophy with majors in Geology, Earth Science, and Meteorology. Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate preparation and performance along with their expressed goals in the statement of purpose. All prospective students should reach out to individual faculty members who they wish to work with prior to applying.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in complementary areas such as aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, environmental science, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology.

Graduates in Geology specialize in a subdiscipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators.

## History Overview

The History department offers Bachelor of Arts and Bachelor of Science degrees in History, a Master of Arts degree in History, and a Ph.D. in Rural, Agricultural, Technological and Environmental History. Many history majors also pursue a minor in another discipline, a second major, or secondary teacher certification.

The department offers a variety of survey courses (200 series) for first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate courses in the history of Europe, Asia, Africa, Latin America, the United States, technology and science, agriculture, and other selected topics.

## Student Learning Outcomes

Upon graduation, students should be able to:

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student's course of study
2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft: the ability to contextualize and analyze primary source evidence; familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms; awareness of the basic historiography in selected research area; and the ability to conduct research and to write a historical essay based upon primary and secondary source research. Students receive an introduction to these concepts in HIST 301 The Historian's Toolbox.
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, History majors must complete three credits from the following list: HIST 495 Historiography and Research Writing; if qualified and willing, one graduate-level research seminar; or if qualified and pursuing teacher certification HIST 498 Methods of Teaching History/Social Sciences.

## Requirements for the History Major

The B.S. in History requires a minimum 36 total credits of HIST with 2.0 GPA or higher *including*:

1. Maximum 12 credits at 200-level HIST or below
2. Minimum 24 credits 300+ level HIST *including*:
3. HIST 301 (minimum grade C)
4. HIST 495, EDUC 498, or HIST graduate-level research seminar (minimum grade C)
5. Maximum 12 credits 300-level HIST in addition to HIST 301
6. Minimum 9 credits 400-level HIST in addition to HIST 495, EDUC 498 or HIST graduate-level research seminar
7. Minimum 15 credits 300+ level HIST taken at Iowa State University

Communication Proficiency requirement: History majors must receive a grade of C or better in ENGL 250 (or ENGL 250H), HIST 301 and HIST 495 or HIST 498.

The B.A. in History requires the equivalent of 2 years of college-level study in the same world language. Six credits of electives may be replaced by 6 additional credits of world language.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. For a history major, 15 credits of history at the 300/400 level must be taken at ISU. You must also complete the LAS world language and career proficiency requirements (LAS 203 Professional Career Preparation).

As majors in the College of Liberal Arts and Sciences, History students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated for the major.

### Teacher Preparation Focus

History majors seeking teacher certification in History/Social Sciences Education must meet all of the requirements of the History major while taking the specific History classes required for certification by the State of Iowa. Students must also meet the requirements of the Secondary Major in Education including PSYCH 230 and student teaching (EDUC 417). Students will complete the requirements below, earning a minimum grade of B- in all content courses used for licensure and a minimum grade of C in all other required courses.

Also, students complete the requirements for one additional fifteen-credit endorsement in Political Science, Psychology, Economics,

Anthropology or Sociology. Specific requirements of each endorsement are available from the history department. Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

Requirements to complete endorsements in American History and World History.

<sup>1</sup> The BA in History requires the equivalent of 2 years of college-level study in the same world language. Six credits of electives may be replaced by 6 additional credits of world language.

## Minor

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

## Graduate Study

The History Department offers two graduate degrees: an M.A. in History and a Ph.D. in Rural, Agricultural, Technological and Environmental History.

Most history graduate courses are either readings seminars or research seminars. Readings seminars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Research seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes both thesis and non-thesis options. See the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law,

education, business, and government service. Throughout world history human beings have depended on rural and agricultural communities as well as on the technologies developed and employed by these communities to sustain lives. Iowa State's Doctoral Program in Rural, Agricultural, Technological and Environmental History offers a scholarly community and learning environment dedicated to the close examination of pervasive and enduring questions about these basic aspects of human history. Such questions can best be answered through the multifaceted perspectives provided by rural, agricultural, technological, and environmental history. The result is a dynamic learning experience that leads to comparative and transnational analysis shaped by a broad range of methods drawn from the humanities and social/physical sciences. The Program's aim is to produce students who are excellent researchers and engaging teachers, capable of succeeding in a broad variety of professional positions, both inside and outside of academia.

The Ph.D. in Rural, Agricultural, Technological and Environmental History is designed for students who have completed an M.A. in history. Those who have not yet completed an M.A. will be expected to complete the degree while progressing toward the Ph.D. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

## International Studies

### Overview

*Interdepartmental Undergraduate Secondary Major and Minor, Administered by the College of Liberal Arts and Sciences*

Through a combination of coursework and study abroad, students who complete a secondary major or minor in International Studies can prepare for careers or advanced study in the international arena, such as foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, and international engineering. Students in International Studies gain an understanding of global issues, learn to communicate across cultures, develop awareness of cultural ideas and attitudes, and are well positioned to become global leaders in their chosen field.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Region, both selected by the student. Each student's program of study is

designed to reflect opportunities at Iowa State University as well as the academic, intellectual, and professional interests of the student.

### Student Learning Outcomes

Upon completion of the second major in International Studies, students will be able to:

1. Read, write and speak a language other than their native language at an intermediate level to effectively communicate with people from other cultures.
2. Understand factual knowledge about world economic and political systems, events, cultures, and geography and to critically analyze global issues, especially as they relate to globalization.
3. Understand, interpret, and articulate the major processes, theories, and problems of a selected contemporary global issue within a selected world region to also recognize interconnections between local and global issues and events.
4. Live, study, work, and/or volunteer in a selected world region in order to understand, interpret and articulate major cultural values and issues and to appreciate the impact of one's own cultural and educational experience on their perception of the world.

### Secondary Major

A student seeking a secondary major in International Studies must successfully complete two core courses plus courses in a selected Geographic Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

*Requirements for the Secondary Major in International Studies:*

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Geographic Regions:
  - Africa and the Middle East
  - Asia
  - Latin America
  - Western Europe
  - Russia, East Europe and Central Asia
- 9 credits of coursework (at least 6 of which are numbered 300 or above) from one of the following Topical Modules:
  - Global Environmental Issues
  - Globalization and Economic Development
  - International Issues in Science and Technology

- International Communication
- International Conflict
- Social and Cultural Change

Click here (<https://iastate.box.com/shared/static/2egqdgik8da0qiipayf.pdf>) for courses approved for credit for the Geographic Regions and Topical Modules.

- 3 additional credits of coursework selected from either the Geographic Region or Topical Module.

## Language Proficiency

- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.

## Study/Service/Work Abroad Experience

- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable to Iowa State.

The major must include a minimum of 12 credits not used to meet any other department, college, or university requirement.

## Minor

A student seeking a minor in International Studies must successfully complete two core courses plus courses in a selected Geographical Region and Topical Module; demonstrate proficiency in a language relevant to the selected geographic region (see below); and participate in a required study, service, or work abroad program (see below).

*Requirements for the Minor in International Studies:*

- INTST 235 Introduction to International Studies
- INTST 430 Seminar in International Studies
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Geographic Regions:
  - Africa and the Middle East
  - Asia
  - Latin America
  - Western Europe
  - Russia, East Europe and Central Asia
- 6 credits of coursework (at least 3 of which are numbered 300 or above) from one of the following Topical Modules:
  - Global Environmental Issues
  - Globalization and Economic Development
  - International Issues in Science and Technology

- International Communication
- International Conflict
- Social and Cultural Change

- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language.

- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable Iowa State.

Click here (<https://iastate.box.com/shared/static/2egqdgik8da0qiipayf.pdf>) for courses approved for credit for the Geographic Regions and Topical Modules.

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

## Language Proficiency

- Proficiency in a world language that is relevant to the selected geographic region. This can be achieved by completing the 202 level (or higher) of the language or by passing an approved exam. Students whose first language is not English must still meet this requirement if their first language is not relevant to their selected geographic region.

## Study/Service/Work Abroad Experience

- Study, service, or internship abroad for a minimum of 3 weeks, earning a minimum of 3 credits. The credits must be transferable to Iowa State.

# Journalism and Mass Communication

<http://www.greenlee.iastate.edu> (<http://www.greenlee.iastate.edu/>)

The journalism and mass communication major prepares students for careers that involve all aspects of news and information. Emphasis is placed on generating ideas, organizing, writing, editing, and presenting information for various media platforms and audiences. Students work with advisors to develop a program of study that prepares them for work in communication-specific areas including broadcast media, magazines and/or newspapers, photojournalism, science communication, visual communication, and digital media. Coursework in this major focuses on writing, research, digital and emerging media, and professional abilities. Students are required to complete a capstone internship experience to practice and refine their skills.

The Greenlee School of Journalism and Communication prepares students for the field of communication. The school offers three majors:

- Advertising Bachelor of Arts (ADVRT)
- Journalism and Mass Communication Bachelor of Science (JL MC)
- Public Relations Bachelor of Science (P R)

In addition, the Greenlee School offers a 4+1 program allowing students to complete their B.A. or B.S. and earn an M.S. in journalism and mass communication in fewer semesters.

Professional skills are taught and practiced alongside academic requirements using the latest technology and leading-edge communication trends and methods.

Founded in 1905, the unit was one of the first journalism programs to be accredited in 1948 and continues to be one of the longest continuously accredited programs in the country. Accreditation is based on the principle that students need a broad-based, liberal arts education and solid core courses within the discipline. Students taking one major at the school may not seek an additional major or a minor in the school. All students are required to take an additional major or a minor outside the school as an area of expertise.

Student Learning Outcomes

Students who major in programs of the Greenlee School of Journalism and Communication are expected to develop competencies in 10 key areas:

- apply the principles and laws of freedom of speech and press, in a global context, and for the country in which the institution that invites ACEJMC is located;
- demonstrate an understanding of the multicultural history and role of professionals and institutions in shaping communications;
- demonstrate culturally proficient communication that empowers those traditionally disenfranchised in society, especially as grounded in race, ethnicity, gender, sexual orientation and ability, domestically and globally, across communication and media contexts;
- present images and information effectively and creatively, using appropriate tools and technologies;
- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- apply critical thinking skills in conducting research and evaluating information by methods appropriate to the communications professions in which they work;
- effectively and correctly apply basic numerical and statistical concepts;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;

- apply tools and technologies appropriate for the communications professions in which they work.

The Journalism and Mass Communication Major

To receive a bachelor of science degree in journalism and mass communication, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC and P R. These include:

JL MC 110	Orientation to Journalism and Communication	1
JL MC 240	Principles of Journalism	3
JL MC 201	Reporting and Writing for the Mass Media (C+ or better)	3
One of the following two courses with C+ or better:		
JL MC 302	Intermediate Reporting and Writing for the Mass Media	3
	or JL MC 303 Reporting and Writing for Broadcast Media	
300-level ADVRT, JL MC or P R Electives		9
JL MC 460	Law of Mass Communication	3
JL MC 462	Media Ethics, Freedom, Responsibility	3
400-level ADVRT, JL MC, or P R Electives		6
JL MC 499A	Professional Media Internship: Required	3
Total Credits		34

Journalism and mass communication majors are also required to take:

STAT 101	Principles of Statistics (or another approved statistics course)	4
----------	--	---

As majors in the College of Liberal Arts and Sciences, journalism and mass communication students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

University Requirement: Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists are found at the following web addresses:(U.S. Diversity) <http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses> (<http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses/>) and (International Perspectives) <http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current> (<http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current>)

ip-guide/IntlPerspectives-current/). Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

**College of LAS Requirement:** Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS world language requirement, LAS career proficiency requirement, and any unmet ISU admission requirements.

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

**Minor or Additional Major:** Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or an additional major outside of the Greenlee School of Journalism and Communication. Students taking one major at the school may not seek an additional major or a minor in the school.

Juniors can apply to a concurrent degree program and earn a B.S. and an M.S. in journalism and mass communication in fewer semesters. Contact the Director of Graduate Education for more information on the Greenlee School's 4+1 Program.

## Minor in Journalism and Mass Communication

Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in journalism and mass communication, students complete 15 credits. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

JL MC 101	Mass Media and Society	3
JL MC 240	Principles of Journalism	3
9 credits from the following:		9
JL MC 242	Visual Principles for Mass Communicators	
JL MC 307	Digital Video Production	
JL MC 347	Science Communication	
JL MC 390	Professional Skills Development	
JL MC 401	Mass Communication Theory	
JL MC 406	Media Management	
JL MC 461	History of American Journalism	
JL MC 464	Journalism and Literature	
JL MC 474	Communication Technology and Social Change	
JL MC 476	World Communication Systems	
JL MC 477	Diversity in the Media	
JL MC 497	Special Topics in Communication	

Total Credits 15

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

## Concurrent Undergraduate and Graduate Programs

The Greenlee School offers three concurrent degree programs:

- B.A. Advertising/M.S. Journalism and Mass Communication
- B.S. Journalism/M.S. Journalism and Mass Communication
- B.S. Public Relations/M.S. Journalism and Mass Communication

Enrollment in the Greenlee School's concurrent degree programs enables students to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees. Graduates of the concurrent degree program will be prepared to face today's rapidly changing media environment and contribute to society by becoming a leader within the communication field. Upon completion of the undergraduate program (bachelor's degree), students can choose between two tracks in the master's program (master's degree): one for students who desire specialized study in communication theory and research and one for students who wish to develop or strengthen their professional and strategic communication skills. At the master's level, the School is well known for developing practitioners and scholars in science communication, political communication, multicultural communication and media industries. The ISU Graduate Handbook outlines policies and requirements for concurrent degree programs. Concurrent degree students must complete all academic requirements and required coursework for both degrees.

To be eligible for a concurrent degree program, currently enrolled Greenlee ADVRT, JL MC or P R students must 1) be defined as seniors by their number of cumulative ISU credits (90 credits or more) and 2) have successfully completed JL MC 201 (required of all three undergraduate majors) with a C+ or better. Before beginning graduate coursework, concurrent degree candidates must formally indicate their interest by contacting the Greenlee School's Director of Graduate Education. Interested students must then apply to the master's program no later than March 1 of the year prior to taking graduate coursework. Application and admissions requirements for the master's program (<https://greenlee.iastate.edu/graduate/graduate-admissions/>) are the same for concurrent students as those applying to the master's program after completing an undergraduate degree. A thesis or creative component is required for all concurrent degree students.

To receive a bachelor of science/arts degree from the Greenlee School in advertising, journalism or public relations, a student must earn at least 120 credits and complete all required courses. To receive a master's of science degree from the Greenlee School in journalism and mass communication, a student must earn at least 32 credits and complete all required courses.

Preference for assistantships will be given to students who have completed all of their undergraduate coursework.

## Student Learning Outcomes

1. To develop an understanding of the central issues and current research important to the field of journalism and communication.
2. To be familiar with the breadth and depth of the journalism and communication profession.
3. To be able to communicate acquired knowledge in the field.
4. To be aware of ethical issues that pertain to the field of journalism and communication.
5. To develop the ability to design and present an independent and meaningful research project.

## Graduate Programs

### Master of Science

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication.

#### Majors plan a program of study in one of two tracks:

I. Academic track – The School offers advanced academic preparation in communication theory and research, leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. This track requires a thesis based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication, visual communication and emerging media.

II. Professional track – The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs, but the credits for those courses may not count toward the graduate degree. This track requires either a creative component which must be defended successfully before a committee at the end of the program.

All graduate students must complete 32 credits for graduation, comprised of four core classes, at least two electives outside the Greenlee School, and at least four thesis or creative component credits. The following core courses account for 10 credits of the needed 32 credits.

JL MC 501	Theories of Mass Communication	3
JL MC 502	Fundamentals of Communication Research Methods	3

JL MC 592	Introduction to Graduate Study in Journalism and Mass Communication	1
JL MC 598	Seminars in Mass Communication	1-3

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student's major professor and Program of Study Committee.

## Student Learning Outcomes

1. To develop an understanding of the central issues and current research important to the field of journalism and communication.
2. To be familiar with the breadth and depth of the journalism and communication profession.
3. To be able to communicate acquired knowledge in the field.
4. To be aware of ethical issues that pertain to the field of journalism and communication.
5. To develop the ability to design and present an independent and meaningful research project.

## Graduate Minor

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.

## Concurrent Programs

The Greenlee School's concurrent degree programs enable interested students the opportunity to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees.

## Latin American Studies Certificate Interdepartmental Undergraduate Program

The certificate in Latin American Studies is a cross-disciplinary course of study in the College of Liberal Arts and Sciences and is designed for undergraduates in any major who wish to enhance their degree and employment possibilities by adding expertise in Latin America and competence in the Spanish language.

## Objectives

- Provide opportunities for students to develop skills and understanding about issues concerning Latin America by bringing them into contact with faculty members from many different academic backgrounds
- Provide students with an international immersion experience where they gain cultural awareness and sensitivity

- Prepare students for work or advanced study in Latin America, such as in foreign service, journalism, advocacy organizations, scientific or research institutions
- Help students acquire proficiency in one of the principal languages of Latin America (Spanish)
- Guide students in interdisciplinary study leading to an understanding of the multi-faceted picture of the past, present, and future of Latin America

Learning Outcomes

Upon Completion of the Certificate in Latin American Studies, students will be able to:

- Demonstrate understanding of key concepts pertaining to Latin American cultural, historical and political events
- Understand, interpret and articulate the major processes, theories and problems of selected contemporary and historical issues in Latin America
- Demonstrate oral, aural, and written proficiency in Spanish equivalent to the mid-advanced level
- Effectively communicate with persons of Latin American cultures
- Become effective global citizens through knowledge and comparison of the cultures and issues of the United States and Latin American countries
- Be able to read Latin American cultural, literary, and historical texts in the target language with comprehension and analytical insight
- Demonstrate awareness of cultural values, beliefs, and ideologies of the various Latin American countries
- Demonstrate a thorough knowledge of the geography of the Latin American countries

General Requirements

Requirements for the Certificate in Latin American Studies are satisfied through formal language instruction and by completing a minimum of 21 credits at the 300 level or above. Students will take coursework in at least three different disciplines and departments (Spanish, Anthropology, and Political Science) with other possible course offerings in LAS, History, Agriculture, and Agronomy.

Course Requirements

Students will complete 6 credits of core courses:

SPAN 322	Latin American Civilization	3
or SPAN 324	Latin America Today	
ANTHR 323	Topics in Latin American Anthropology	3

Students should consult with their advisor for alternative courses in the event a course is not available.

Other Requirements

Students will complete an additional 15 credits selected from the approved list of courses in Latin American Studies or courses approved by the Latin American Studies Certificate advisor at the 300 level or above.

- No more than 3 credits may be taken as a 490, independent study, and the topic must deal with Latin America.
- A minimum of 9 credits applied toward the Certificate cannot be used to meet any other departmental, college, or university requirement.
- Students may receive credit on a pre-approved basis for internships completed in Latin America. No more than 3 credits from this area may be applied to the Certificate.
- Courses taken for the Certificate may not be taken on a pass not-pass basis.
- Credits for a Certificate may be used to satisfy the credit requirement for graduation and to meet the credit requirements for courses numbered 300 and above.
- A certificate is not awarded if the baccalaureate degree is not finished.
- For students earning an ISU baccalaureate degree, a certificate is awarded concurrent with or after the ISU baccalaureate degree.
- After receiving a baccalaureate degree from any accredited institution, a student may enroll at ISU to earn a certificate.
- A cumulative grade point average of at least 2.00 is required in courses taken at ISU for a certificate.

LANGUAGE REQUIREMENT

- The minimum requirement in formal language instruction is completion of two years or the equivalent of Spanish at the university level. At ISU the completion of Spanish 202 satisfies this requirement.
- Native speakers, or those with in-field experience of another Latin American language with a level equivalent to 202 or higher can have the language requirement waived. Equivalence will normally be assessed by a faculty member/CLEP exam in the Dept. of World Languages and Cultures.
- While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 300 level, no more than 6 credits of language study (301,303, 304) may be applied toward fulfilling language requirements for the Certificate. Students should be aware that all 300-level literature and culture/civilization courses in the Dept. of World Languages and Cultures have prerequisites.

Study Abroad

Students are required to participate in an ISU-approved study abroad program in a Latin American country with a minimum duration of 4 consecutive weeks. The Study Abroad Office has a list of ISU-approved

programs. Students may elect to participate in other study abroad programs with the approval of the Latin American Studies Advisory Committee.

### Approved courses available toward the Certificate:

The decision as to whether or not a course can be counted toward the certificate is based primarily on course title and description as it appears in the current ISU course catalog. Courses which primarily deal with Spain or Portugal and their cultures do not count toward the certificate. Students should consult with the advisor for the Latin American Studies Undergraduate Certificate program before registering to be sure a particular travel course or field school offering can apply toward the certificate.

## Leadership Studies

### Overview

The Leadership Studies Program provides a strong foundation of coursework and experiences for undergraduate students who seek to study, understand and apply the principles of leadership in their current activities and, eventually, in their careers. This interdisciplinary program, designed for students in all majors, consists of a 21-credit-hour leadership studies certificate, a 15-credit leadership studies minor, and a suite of leadership studies courses. Students earning either the certificate or minor in leadership studies will develop the

knowledge and skills to effect positive change as they enter the public, nonprofit or private sectors. The certificate and minor are awarded by the College of Liberal Arts and Sciences and noted on the student's transcript. To learn more about the program, visit our website: <https://leadership.las.iastate.edu/>.

### Objectives

- Develop students' leadership capacity—which encompasses individual-level capabilities of self-awareness, integrity and commitment; group-level capabilities of collaboration, shared purpose and handling controversy with civility; and community-level capabilities of citizenship and civic responsibility.
- Provide opportunities for students to study leadership by learning effective communication practices, organizational theories, ethical principles, an appreciation of diversity, intrapersonal development and the value of community service.
- Cultivate students' understanding of social empowerment and social justice to create positive and sustainable change.
- Challenge students to critically examine leadership at the intrapersonal, interpersonal, team, organizational and societal levels.
- Bring students into contact with community leaders and faculty members from diverse academic departments, backgrounds and leadership experiences.
- Prepare students to undertake leadership roles in their careers and in service to their community through coursework and co-curricular engagement.

### Learning Outcomes

Upon completion of the certificate or minor in leadership studies, students will be able to:

- Recognize leadership as a set of skills, knowledge and attitudes that can be learned.
- Understand traditional and emergent leadership theories and apply them in practice.
- Comprehend key concepts of communication theories, organizational theories, contemporary diversity issues and ethical principles.
- Practice and evaluate their own capacity to lead effectively within teams, organizations and diverse communities.
- Develop and implement plans for continually improving their leadership capacity.
- Demonstrate proficiencies in written and oral communication.

## Leadership Studies Minor

The minor in leadership studies requires the completion of 15 credit hours through three 3-credit-hour required courses in leadership and organizational theory, and an additional 6 credit hours earned from approved leadership electives.

At least 9 credits must be taken in courses numbered at the 300-level or above. At least 9 credits used for the minor cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses for the minor cannot be taken on a pass/not-pass basis. A cumulative grade point average of at least 2.0 is required in courses taken for the minor.

**Core Courses:** 9 required credits

LD ST 301	Leadership Theory and Practice	3
LD ST 322	Leadership in a Diverse Society	3
MGMT 372	Ethical and Responsible Management	3
or MGMT 422	Negotiation and Conflict Resolution	

**Leadership Electives:** Choose 6 credits from the following

AESHM 211	Leadership Experiences and Development (LEAD)	3
AESHM 421	Developing Global Leadership: Maximizing Human Potential	3
AGEDS 315	Personal, Professional, and Entrepreneurial Leadership in Agriculture	3
COMST 218	Conflict Management	3
COMST 313	Leadership Communication Theories	3
ENGR 150	Foundations of Leadership Development and Learning	1
ENGR 250	Leadership in Engineering Teams	1
ENGR 350	Dean's Leadership Seminar	1
LD ST 122	Leading with Purpose	1
LD ST 270	Campus Leadership Development	3
LD ST 291	Leading Change	4
LD ST 291A	Leading Change: General	4
LD ST 291B	Leading Change: U.S. Diversity	4
LD ST 291C	Leading Change: International Perspectives	4
LD ST 293	Special Projects	3
LD ST/WGS 333	Women, Gender, and Leadership	3
LD ST 370	Special Topics	1-3
LD ST 422	Leadership Capstone Seminar: Theory to Practice	3
LD ST 488	Research on Gender and Leadership	3
M E 412	Ethical Responsibilities of a Practicing Engineer	3
MGMT 372	Ethical and Responsible Management	3
MGMT 422	Negotiation and Conflict Resolution	3
MGMT 472	Diversity, Equity, and Inclusion in Organizations	3
PHIL 235	Ethical Issues in a Diverse Society	3
SP CM 312	Business and Professional Speaking	3

## Leadership Studies Certificate

The certificate in leadership studies requires the completion of 21 credit hours including the 9 credit leadership studies core. An additional 12 credit hours are earned from approved electives including 3 hours in communication, 6 hours in leadership, and 3 hours of a capstone experience through a course, internship or study abroad. The capstone course should focus on the scholarship of leadership in the student's field of study, whereas an internship or a study abroad should provide a leadership-in-practice experience.

At least 9 credits must be taken in courses numbered at the 300-level or above. At least 9 credits used for the certificate cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses for the certificate cannot be taken on a pass/not-pass basis. A cumulative grade point average of at least 2.0 is required in courses taken for the certificate.

**Core Courses:**

9 credits of required core courses

LD ST 301	Leadership Theory and Practice	3
LD ST 322	Leadership in a Diverse Society	3
MGMT 372	Ethical and Responsible Management	3
or MGMT 422	Negotiation and Conflict Resolution	

**Communication Electives:**

Choose 3 credits from the following

COMST 214	Professional Communication	3
COMST 310	Intercultural Communication	3
COMST 314	Organizational Communication	3
ENGL 302	Business Communication	3
SP CM 212	Fundamentals of Public Speaking	3
SP CM 312	Business and Professional Speaking	3
SP CM/WGS 323	Gender and Communication	3

**Leadership Electives:**

Choose 6 credits from the following

AESHM 211	Leadership Experiences and Development (LEAD)	3
AESHM 222	Creativity on Demand	3
AESHM 287	Principles of Management in Human Sciences	3
AESHM 421	Developing Global Leadership: Maximizing Human Potential	3
AESHM 474	Entrepreneurship in Human Sciences	3

AGEDS 315	Personal, Professional, and Entrepreneurial Leadership in Agriculture	3
C E 306	Project Management for Civil Engineers	3
COMST 218	Conflict Management	3
COMST 313	Leadership Communication Theories	3
COMST 317	Small Group Communication	3
C R P 429	Planning in Developing Countries	3
C R P 432	Community Planning Studio	4-6
C R P 435	Planning in Small Towns	3
C R P 492	Planning Law, Administration and Implementation	3

ENGR 250	Leadership in Engineering Teams	1
ENGR 350	Dean's Leadership Seminar	1
HD FS 395	Children, Families, and Public Policy	3
LAS 151	Dean's Leadership Seminar I	1
LD ST 122	Leading with Purpose	1
LD ST 270	Campus Leadership Development	3
LD ST 290	Independent Study	1-3
LD ST 291	Leading Change	4
LD ST 291A	Leading Change: General	4
LD ST 291B	Leading Change: U.S. Diversity	4
LD ST 291C	Leading Change: International Perspectives	4
LD ST 293	Special Projects	1-3
LD ST/WGS 333	Women, Gender, and Leadership	3
LD ST 370	Special Topics	1-3
LD ST 422	Leadership Capstone Seminar: Theory to Practice	3
LD ST/WGS 488	Research on Gender and Leadership	3
LD ST 490	Independent Study	1-3
M E 412	Ethical Responsibilities of a Practicing Engineer	3
MGMT 372	Ethical and Responsible Management	3
MGMT 422	Negotiation and Conflict Resolution	3
MGMT 472	Diversity, Equity, and Inclusion in Organizations	3
N S 412	Leadership and Ethics	3
PHIL 235	Ethical Issues in a Diverse Society	3
POL S 310	State and Local Government	3
POL S 271	Public Organizations and Leadership	3
POL S/WGS 385	Women in Politics	3
POL S 475	Management in the Public Sector	3
POL S 487	Electronic Democracy	3
SOC 310	Community	3
SOC/POL S 334	Politics and Society	3

SP CM 110	Listening	3
SP CM/POL S 417	Campaign Rhetoric	3
U ST 315	Cyclone Aide Leaders Seminar	2
WGS 301	International Perspectives on Women and Gender	3
WGS 435	Gender, Globalization and Development	3

## Capstone Courses:

Choose 3 credits of the following

LD ST 422	Leadership Capstone Seminar: Theory to Practice	3
LD ST 490	Independent Study (Must include a leadership focus and be pre-approved by the leadership studies faculty.)	1-3

Study abroad: Must include a leadership focus and be pre-approved by the leadership studies faculty.

Other capstones may be approved with leadership studies faculty permission if they include a significant leadership component (e.g., COMST 404 or AESHM 421 with a leadership-based project). Students wishing to take a capstone course not listed here must receive approval prior to registering for the course and must demonstrate in writing how the course includes a significant leadership component.

## Bachelor of Liberal Studies

### Bachelor of Liberal Studies Degree

The Bachelor of Liberal Studies degree (B.L.S.) is a general studies degree in the liberal arts. It was established by the three Iowa Regent universities primarily to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. While the B.L.S. does not have traditional majors focused on a specific discipline and students have more flexibility in choosing courses that apply to their program, the requirements for the degree are as rigorous as requirements for other degree programs offered by Iowa State University. With the assistance of a B.L.S. advisor, students can structure a program that meets their individual educational, vocational or personal goals.

The B.L.S. degree is a transfer-friendly degree. Work done in community colleges or other accredited colleges and universities can be applied toward the degree and can often meet requirements for one of the B.L.S. majors. Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Students with military or professional and technical credits with outcomes contributing to the learning outcomes of the distribution areas of either major are encouraged to submit coursework for review to potentially apply such credits to the major. The B.L.S. degree has no residence requirements,

but students are expected to have 30 credits from ISU earned during the junior and/or senior year.

Students can earn the Bachelor of Liberal Studies Degree by choosing to major in either Liberal Studies or Professional Studies.

Admission

Admission to the B.L.S. program is open to persons who have at least 24 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

Student Learning Outcomes of the Liberal Studies Major

In addition to meeting the learning goals of the general education program of the College of Liberal Arts and Sciences and meeting University wide learning goals, Liberal Studies graduates should be able to:

- Use appropriate learning strategies to gain new knowledge.
- Integrate knowledge and modes of thinking from multiple disciplines.
- Apply their knowledge to evaluate issues and solve problems.
- Connect their learning to their professional goals.

Student Learning Outcomes of the Professional Studies Major

In addition to meeting the learning goals of the general education program of the College of Liberal Arts and Sciences and meeting University-wide learning goals, Professional Studies graduates should be able to:

- Apply their knowledge to evaluate issues and solve problems.
- Express thoughts and ideas clearly and effectively.
- Demonstrate awareness of the strengths of others and build collaborative relationships with diverse team members to achieve common goals.
- Demonstrate ability to select and use appropriate technology in order to accomplish a given task.
- Connect their learning to their professional goals.

Requirements for the B.L.S. Degree With a Major in Liberal Studies

All students seeking a B.L.S. degree must meet the University-wide requirements (<https://catalog.iastate.edu/collegescurricula/>) for graduation, including earning a total of 120 credits. The Liberal Studies major requires 36 credits of coursework across three of five areas of distribution according to the requirements laid out below. Students determine which distribution areas to emphasize in their degree program through consultation with their Bachelor of Liberal Studies academic advisor.

Liberal Studies students must also meet the General Education, World Languages/Cultures and Career Proficiency Requirements of the College of Liberal Arts and Sciences and earn a minimum of 39 credits at the 300/400 level. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives.

University-wide Requirements

Communication Proficiency: Foundation Courses		6
ENGL 150	Critical Thinking and Communication	
ENGL 250	Written, Oral, Visual, and Electronic Composition (with a grade of C or better)	
or equivalent of ENGL 150, ENGL 250		
Communication Proficiency: Upper-level curricula (grade C- or better)		3
ENGL 302	Business Communication	
	or ENGL 305 Creative Writing: Nonfiction	
	or ENGL 309 Proposal and Report Writing	
	or ENGL 314 Technical Communication	
or comparable extensive writing experience		
International Perspectives*		3
U.S. Diversity*		3

\*Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how these courses can apply to your graduation plan.

LAS General Education, World Languages/Cultures, and Career Proficiency Requirements

Arts and humanities*		12
Mathematics, statistics, or computer science*		3
Natural sciences*		8
Social sciences*		9
World languages/Cultures**		3-8
LAS 203	Professional Career Preparation	1

\*A list of courses acceptable in the general education groups can be obtained from the college website (<http://www.las.iastate.edu/students/academics/general-education/>).

\*\*The requirement may be met by completion of three or more years of high school study in one world language; by meeting the LAS World Language requirement; or by taking six credits from the list of International Perspectives courses, three credits of which cannot be used to satisfy another degree requirement.

## Distribution Requirements and Electives

A minimum of 12 credits is required in each of three of the five distribution areas listed below. Students determine which distribution areas to include in their degree program through consultation with their Bachelor of Liberal Studies academic advisor.

Distribution Areas (Three of five below, with a minimum of 6 credits at the 300 level or above in each of the three)

Humanities (for example, literature, philosophy, history, religion, art and music appreciation)

Communications and arts (for example, journalism, speech, writing, drama, art, world language, communication studies, advertising, public relations)

Natural sciences and computational disciplines (for example, chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science, data science, environmental science)

Social sciences (for example, sociology, psychology, economics, political science, anthropology, geography)

Professional fields (for example, business, education, family and consumer sciences, agriculture, engineering – generally courses taught outside the College of Liberal Arts and Sciences)

Electives to bring total credits to at least 120 Varies

## Other Requirements

Included in the minimum of 120 credits needed for graduation must be the following:

30 credits from ISU earned during the junior/and or senior year.

39 upper-level (300 level or above) credits from an accredited four-year college with a grade point average of 2.0 or higher.

A minimum grade point average of at least 2.00 (a C average).

No more than 9 credits of 490 (Independent Study) courses may be counted toward graduation.

Students in the B.L.S. program are not eligible for additional majors, but in consultation with their advisor they may earn a Certificate or minor.

Minors attached to a B.L.S. must include 6 credits taken at Iowa State University in upper-level (300 level or above) courses and must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Criteria for graduating with distinction and other academic honors with a B.L.S. degree are available under Scholastic Recognition.

## Requirements for the B.L.S. Degree With a Major in Professional Studies

All students seeking a B.L.S. degree must meet the University-wide requirements (<https://catalog.iastate.edu/collegescurricula/>) for graduation, including earning a total of 120 credits. Students pursuing the Professional Studies major will take coursework across multiple areas aimed to develop broad professional competencies in critical thinking, communication, leadership/teamwork, and technology. Studies may be focused on coursework in closely-related disciplines or diversified over several disciplines.

The Professional Studies major requires 33 credits that meet the distribution area requirements laid out below. Professional Studies students must also meet the General Education, World Languages/Cultures and Career Proficiency Requirements of the College of Liberal Arts and Sciences and earn a minimum of 39 credits at the 300/400 level. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives.

## University-wide Requirements

Communication Proficiency: Foundation Courses		6
ENGL 150	Critical Thinking and Communication	
ENGL 250	Written, Oral, Visual, and Electronic Composition (with a grade of C or better)	
or equivalent of ENGL 150, ENGL 250		
Communication Proficiency: Upper-level curricula (grade C- or better)		3
ENGL 302	Business Communication	
	or ENGL 305 Creative Writing: Nonfiction	
	or ENGL 309 Proposal and Report Writing	
	or ENGL 314 Technical Communication	
or comparable extensive writing experience		
International Perspectives*		3
U.S. Diversity*		3

\*Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how these courses can apply to your graduation plan.

## LAS General Education, World Languages/Cultures, and Career Proficiency Requirements

Arts and humanities*	12
Mathematics, statistics, or computer science*	3
Natural sciences*	8
Social sciences*	9

World languages/Cultures**	3-8
LAS 203	Professional Career Preparation1

\*A list of courses acceptable in the general education groups can be obtained from the college website (<http://www.las.iastate.edu/students/academics/general-education/>).

\*\*The requirement may be met by completion of three or more years of high school study in one world language; by meeting the LAS World Language requirement; or by taking six credits from the list of International Perspectives courses, three credits of which cannot be used to satisfy another degree requirement.

### Distribution Requirements and Electives

Students determine which distribution areas to emphasize in their degree program through consultation with their Bachelor of Liberal Studies academic advisor. Students are encouraged to select classes that prepare them for particular labor sectors and to talk with their advisor about adding at least one minor or certificate.

Distribution Areas (Three credits in each of the four areas below, with a minimum of 9 credits in at least two of the areas. 15 of the 33 credits required for this major must be at the 300 level or above.)33

Critical Thinking (for example, history, philosophy, political science, psychology)
Communication (for example, communication studies, journalism, speech, writing, world language, advertising, public relations)
Leadership/Teamwork (for example, classes that apply to the Leadership Studies certificate or minor)
Technology (for example, computer science, engineering, and other coursework focused on using technology)

Electives to bring total credits to at least 120Varies

### Other Requirements

Included in the minimum of 120 credits needed for graduation must be the following:

30 credits from ISU earned during the junior/and or senior year.

39 upper-level (300 level or above) credits from an accredited four-year college with a grade point average of 2.0 or higher.

A minimum grade point average of at least 2.00 (a C average).

No more than 9 credits of 490 (Independent Study) courses may be counted toward graduation.

Students in the B.L.S. program are not eligible for additional majors, but in consultation with their advisor they may earn a Certificate or minor. Minors attached to a B.L.S. must include 6 credits taken at Iowa State University in upper-level (300 level or above) courses and must include at

least 9 credits that are not used to meet any other department, college, or university requirement.

Criteria for graduating with distinction and other academic honors with a B.L.S. degree are available under Scholastic Recognition.

## Linguistics Overview

Linguistics is a cross-disciplinary program designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, computer science, English, psychology, and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as teaching English as a first and as a second language, second language studies, speech-language pathology, cross-cultural communication, law, linguistic anthropology, computational linguistics, and psycholinguistics.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major. Linguistics majors earn a Bachelor of Arts.

## Learning Outcomes

Students who major in Linguistics at Iowa State University will be able to

- display extensive knowledge of the primary areas of linguistics, especially syntax, morphology, and phonology/phonetics.
- identify and analyze descriptive and prescriptive approaches to language description.
- display a sophisticated understanding of the hierarchical and systematic nature of human language.
- demonstrate skills in the intersection of language analysis and technology.
- develop methodological skills for carrying out linguistic analysis, including
  - analyzing organized and unorganized linguistic data.
  - conducting research, including carrying out literature searches and reviews, formulating testable questions, developing protocols for collecting data, and drawing conclusions based on research goals.
  - formulating effective linguistic arguments in spoken and written form.

- display understanding of how languages change over time by appealing to examples of change in at least three languages.

## Linguistics Degree Requirements

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:

LING 119	Introduction to World Languages	3
LING 207	Introduction to Symbolic Logic	3
LING 219	Introduction to Linguistics	3
LING 220	Descriptive English Grammar	3
LING 371	Phonetics and Phonology	3
LING 413	Psychology of Language	3
LING 420	History of the English Language	3
LING 437	Grammatical Analysis	3

In addition, linguistics majors must choose 12 credits of elective courses. Discuss choices with the advisor. Suggested areas of further study are:

### Computers and Linguistics

LING 320	Topics in Linguistic Structure	3
LING 331	Theory of Computing	3
LING 410	Language as Data	3

### Second Language Studies

ENGL 322	Language and Society	3
ENGL 324	Introduction to Teaching ESL Literacy	3
ENGL 325	Teaching Methods for ESL Learners: Oral Communication Skills	3
LING 425	Second Language Learning and Teaching	3

### Sociolinguistics and Language

ENGL 319	Studies in Language and Diversity	3
ENGL 322	Language and Society	3
LING 422	Women, Men, and the English Language	3

### Spanish Linguistics

LING 351	Introduction to Spanish-English Translation	3
LING 352	Spanish Pronunciation	3
LING 354	Introduction to Spanish-English Interpretation	3
LING 462	Contrastive Analysis of Spanish/ English for Translators	3
LING 463	Contemporary Spanish Linguistics	3

Additional courses in linguistics include ANTHR 309 and special topics offered through LING 319 and LING 320, which are repeatable for different

topics. They also include courses for study abroad, especially LING 395, and independent studies through LING 490. Majors in linguistics must show proficiency in a second language equivalent to that achieved after two years of university-level study. Alternatively, majors in linguistics can demonstrate university-level study in two other languages of at least one year each.

Communication Proficiency requirement: According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

LIB 160	Introduction to College Level Research	1
---------	--	---

Continuing Communication Proficiency is based on one course from ENGL 314; WLC 370A, 370B or 370C.

For information about using linguistics courses in an interdisciplinary studies major, see Interdisciplinary Studies.

As majors in the College of Liberal Arts and Sciences, Linguistics students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Undergraduate Minor in Linguistics

Minors in linguistics are individually tailored to the interests of the student, who consults with the linguistics advisor to develop the minor program of study. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. All programs must include LING 219 Introduction to Linguistics.

## Minor in TESL (Teaching English as a Second Language)

Minor in Teaching English as a Second Language (Minor in TESL) is for undergraduate students.

The Minor in TESL provides concentrated coursework that prepares students to teach English to nonnative speakers of English, either in community programs in the United States or in an overseas location. Students from any program may complete the minor without further studies in linguistics.

For more information, please contact the Linguistics Undergraduate Advisor.

## Concurrent B.A. in Linguistics and M.A. in TESL/Applied Linguistics

A concurrent B.A. in Linguistics and M.A. in TESL and Applied Linguistics offers well-qualified students the opportunity for accelerated study, achieving both degrees within a 5-year time frame. A student enrolled in this program pursues a graduate M.A. degree while simultaneously completing the requirements for the B.A. in Linguistics. Completing the concurrent degree program would enable students to enter the workforce one year earlier than through the traditional M.A. degree pathway. Up to six credits can be double-counted toward the requirements for both degrees. Students applying for the concurrent degree program should be motivated, focused, and able to handle a 16+ credit hour/semester schedule.

### Eligibility (all qualifications must be met to apply):

1. A minimum 45 credits in undergraduate program complete
2. Two years of ISU foreign language study or bilingualism demonstrated by an approved language test (completed or in progress)
3. At least 12 credits of Linguistics courses completed with a major GPA of 3.2 or higher,
4. A minimum cumulative ISU GPA of 3.0

### Timeline

Students should know by the middle of their sophomore year if they are interested in pursuing the concurrent program. We recommend that students plan ahead, and notify the undergraduate linguistics adviser as soon as they know of their intent to apply for the concurrent degree; if possible, the linguistics adviser should be notified of intent to pursue the concurrent degrees by the end of the 4th semester.

Students should apply for concurrent enrollment by the end of the 5<sup>th</sup> semester of study (and no later than the end of the 6<sup>th</sup> semester) by filing the Request for Concurrent Enrollment form from the Graduate College and submitting the application materials (listed below).

If accepted into the concurrent enrollment program, students should begin taking graduate courses (by the onset of the fourth year of study). Students accepted into the concurrent enrollment program will continue to work with the undergraduate linguistics adviser until the BA degree requirements are met. By the onset of the fifth year of study, students should have identified an area for their thesis/creative component and establish a program of study committee (including a major professor).

Students become full-time graduate students upon acceptance into the concurrent degree program. Students are eligible for research assistantships upon entry into the concurrent degree program, although

it should be noted that these opportunities are rare. Student are eligible to apply for a teaching assistantship once all requirements for the BA degree are met; TA selection will follow the standard procedures for the department (including GRE scores).

## How to Apply

The following components make up your application:

1. Fill out the Request for Concurrent Enrollment form from the Graduate College.
2. Write a statement of purpose, usually 1-2 pages, explaining why you want to pursue the M.A. degree.
3. Obtain three letters of recommendation.
4. Create a curriculum plan with the undergraduate linguistics adviser, who works closely with members of the graduate faculty.
5. Writing sample (which can be a paper written for an undergraduate course at ISU).
6. Submit your materials by e-mail to Teresa Smiley in the Graduate English Office at englgrad@iastate.edu.
7. GRE scores (not required for initial application; required if applying for a teaching assistantship).

The admission criteria are generally the same as those required for all graduate students in the department. Application materials are reviewed by the graduate faculty in linguistics, the department's Director of Graduate Education (DOGE), and the department chair; their recommendations are forwarded on to the ISU Graduate College.

## BA in Linguistics

### 120 credits

- 45 credits at 300+
- 36 credits in major (6 graduate credits can double count with graduate degree requirements)
- 9 credits English communication (such as ENGL 314 Technical Communication)
- 12-16 credits of foreign language
- 29 credits in general education: 9 in A&H, 9 in SS, 8 in NS, 3 in math
- Possible linguistics electives:
  - LING 309, LING 318, LING 319, LING 320, LING 322, LING 324, LING 325, LING 422, LING 425, 300-level Spanish LING courses

## MA in TESL/Applied Linguistics

\*\*6 credits (including 510) can count as an elective in the BA degree

## Graduate Minor

A graduate minor in linguistics permits students to investigate various aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field

to research problems in their own disciplines. Graduate courses for the minor may be cross-listed with courses in Anthropology, Communication Disorders, Computer Science, English, Psychology, and World Languages and Cultures.

For those pursuing a master's degree, a declared minor in linguistics consists of 9 credits in linguistics including two foundation courses:

LING 511	Introduction to Linguistic Analysis	3
One of the following:		3
LING 514	Sociolinguistics	
LING 527	Discourse Analysis	
LING 537	Corpus Approaches to Grammatical Analysis	
And one elective from the list of courses approved for graduate credit		3
<b>Total Credits</b>		<b>9</b>

For those pursuing a Ph.D. degree, the minor consists of 12 credits in linguistics including:

LING 511	Introduction to Linguistic Analysis	3
LING 537	Corpus Approaches to Grammatical Analysis	3
And two electives from the list of courses approved for graduate credit		6
<b>Total Credits</b>		<b>12</b>

Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student's program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one section of the preliminary examination on an area of linguistics. Students in the Master's in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

## Mathematics

The program in mathematics offers training for students planning to work in mathematics and computation for industry, to continue their studies in graduate school, or to enter secondary education teaching. Students may satisfy the major requirements in several ways, which are designed to meet these various career objectives.

## Student Learning Outcomes

Our graduates will

- understand the fundamentals of a broad range of areas of mathematics, including algebra, analysis, discrete mathematics, geometry, and numerical analysis.

- demonstrate problem solving skills, critical thinking, and analytical reasoning as applied to mathematical problems and modeling.
- construct and effectively communicate rigorous arguments to demonstrate mathematical facts in oral, written, and electronic formats.
- participate in meaningful learning experiences, recognize the central role of mathematics in our society, and develop an appreciation for mathematics as a fundamental intellectual pursuit.

## Curriculum

As majors in the College of Liberal Arts and Sciences, Math students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

### Mathematics Core

All Math majors are required to earn credit for the following core courses:

MATH 101	Orientation in Mathematics	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
One of the following:		3-4
MATH 317	Theory of Linear Algebra	
MATH 407	Applied Linear Algebra	
<b>Total Credits</b>		<b>19-20</b>

To complete the major, leading to a Bachelor of Science degree, students must choose from one of the following four pathways:

### Standard Mathematics Major

This degree program is designed for students planning to work in industry or those who plan to continue their studies mathematics at the graduate level. Students are required to earn credit for the following courses:

One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
MATH 301	Abstract Algebra I	3
MATH 414	Analysis I	3
Additional MATH courses at the 300, 400, or 500 level		15
<b>Total Credits</b>		<b>24-25</b>

Additionally, the courses must include one of the following sequences:

MATH 301 & MATH 403	Abstract Algebra I and Intermediate Abstract Algebra	6
MATH 304 & MATH 314	Combinatorics and Graph Theory	6
MATH 373 & MATH 481	Introduction to Scientific Computing and Numerical Methods for Differential Equations	6
MATH 414 & MATH 415	Analysis I and Analysis II	6
MATH 435 & MATH 436	Geometry I and Geometry II	6

### Mathematics Major with Actuarial Science Certificate

This degree program is designed for students pursuing a career as an actuary or in the financial sector. Students are required to earn credit for the following courses:

MATH 240	Mathematics of Investment and Credit	3
MATH 341	Introduction to the Theory of Probability and Statistics I	4
MATH 414	Analysis I	3
MATH 441	Life Contingencies I	3
MATH 442	Life Contingencies II	3
<b>Total Credits</b>		<b>16</b>

Additionally, students must meet the requirements for the Actuarial Science Certificate (see [www.catalog.iastate.edu/collegeofbusiness/actuarialscience/#certificatetext](http://www.catalog.iastate.edu/collegeofbusiness/actuarialscience/#certificatetext)).

### Mathematics Major with Applications

This degree program is for students who want to specialize in the application of mathematics to an area of study. It is recommended for those who plan to work in industry or those who plan to continue studying their specialization area at the graduate level. Students are required to earn credit for the following courses:

One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
Four of the following:		12-13
MATH 301	Abstract Algebra I	
MATH 304	Combinatorics	
MATH 314	Graph Theory	
MATH 341	Introduction to the Theory of Probability and Statistics I	
MATH 350	Number Theory	
MATH 365	Complex Variables with Applications	

MATH 373	Introduction to Scientific Computing	
MATH 385	Introduction to Partial Differential Equations	
MATH 414	Analysis I	
MATH 421	Logic for Mathematics and Computer Science	
MATH 423	Mathematical Modeling in Biology	
MATH 424	Introduction to High Performance Computing	
MATH 469	Introduction to Discrete Mathematics	
MATH 481	Numerical Methods for Differential Equations	

Courses at the 300, 400, or 500 level from the following designations: 12  
 AER E, A B E, ASTRO, BBMB, BCB, BCBIO, BIOL, B M E, B M S, CH  
 E, CHEM, C E, CPR E, COM S, CON E, DS, ECON, E E, E M, ENSCI,  
 FIN, GEN, GEOL, I E, MAT E, M E, MIS, MTEOR, MICRO, NUC E, PHIL,  
 PYSCH, PHYS, S E, SOC, STAT

**Total Credits** 27-29

## Mathematics Major for Teacher Preparation

This degree program prepares students for a career in secondary education.

All students preparing to become teachers need to complete the core Math classes required of all Math majors, the courses laid out below, and the requirements of the Secondary Major in Education including Student Teaching. Note: Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

COM S 107	Windows Application Programming	3-4
or COM S 207	Fundamentals of Computer Programming	
or COM S 227	Object-oriented Programming	
STAT 201	Introduction to Statistical Concepts and Methods	4
MATH 266	Elementary Differential Equations	3-4
or MATH 267	Elementary Differential Equations and Laplace Transforms	
MATH 301	Abstract Algebra I	3
MATH 341	Introduction to the Theory of Probability and Statistics I	4
MATH 414	Analysis I	3
MATH 435	Geometry I	3
MATH 436	Geometry II	3
MATH 397	Teaching Secondary Mathematics Using University Mathematics	3
MATH 497	Teaching Secondary School Mathematics	3
<b>Total Credits</b>		<b>32-34</b>

Complementary Coursework for Teacher Preparation

In addition to the courses required for the Math Major and those required for the Secondary Major in Education, the complementary coursework below is required for those seeking licensure in mathematics. Some of these courses, and some of the required coursework for the Secondary Major in Education, can also apply to LAS general education requirements.

PSYCH 230	Developmental Psychology	3
or HD FS 102	Human Development	
EDUC 280J	Pre-Student Teaching Experience I: Mathematics Clinic	1
EDUC 480C	Pre-Student Teaching Experience III: Mathematics	0.5-2
And one course in American History or Government		3
<b>Total Credits</b>		<b>7.5-9</b>

## University and College Requirements

In addition to the core and pathway courses, students are also required to earn credit for the following courses:

Courses from General Education Area I - Arts and Humanities	<sup>1</sup>	12
Courses from General Education Area IIB - Natural Sciences	<sup>1</sup>	8
Courses from General Education Area III - Social Sciences	<sup>1</sup>	9
LAS Career Proficiency Requirement (LAS 203)		1
Courses meeting the international perspectives requirement	<sup>2</sup>	3
Courses meeting the U.S. diversity requirement	<sup>2</sup>	3
LIB 160	Introduction to College Level Research	1
ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	<sup>3</sup> 3
One of the following:		<sup>4</sup> 3
ENGL 302	Business Communication	
ENGL 303	Free-Lance Writing for Popular Magazines	
ENGL 305	Creative Writing: Nonfiction	
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
MATH 491	Undergraduate Thesis	<sup>5</sup>

<sup>1</sup> Possible choices can be found here: <https://las.iastate.edu/students/academics/general-education/>

<sup>2</sup> Courses used to meet the U.S. Diversity and International Perspectives requirements can also be used to fulfill general education requirements.

<sup>3</sup> Students must earn a grade of C or better.

<sup>4</sup> Students must earn a grade of C- or better.

<sup>5</sup> With departmental approval.

Furthermore, students must earn a minimum of 120 credits, including a minimum of 45 credits at the 300 or 400 level, and including at least 8

credits in the major at the 300/400 level with a grade of C or better. At least 55 of these credits must be earned at a four-year institution, and the last 32 credits must be earned at Iowa State University. A maximum of 16 technical credits are allowed, and a maximum of 9 P-NP credits of free electives may apply. Students must also meet the LAS World Language requirement and have a minimum 2.00 ISU cumulative Grade Point Average.

**Total Credits: 126.5-131****Undergraduate Minor**

The department offers a minor in mathematics. The minor requires at least 16 credits, including at least 6 credits in courses numbered 300 or above taken at Iowa State University. At least 9 credits must apply exclusively towards the minor and cannot be used to meet any other department, college, or university requirement. Students are required to earn credit for the following courses:

MATH 201	Introduction to Proofs	3
MATH 265	Calculus III	4
One of the following:		3-4
MATH 266	Elementary Differential Equations	
MATH 267	Elementary Differential Equations and Laplace Transforms	
One of the following:		3-4
MATH 317	Theory of Linear Algebra	
MATH 407	Applied Linear Algebra	
One of the following:		3-4
MATH 301	Abstract Algebra I	
MATH 304	Combinatorics	
MATH 314	Graph Theory	

MATH 341	Introduction to the Theory of Probability and Statistics I	
MATH 350	Number Theory	
MATH 365	Complex Variables with Applications	
MATH 373	Introduction to Scientific Computing	
MATH 385	Introduction to Partial Differential Equations	
MATH 414	Analysis I	
MATH 421	Logic for Mathematics and Computer Science	
MATH 423	Mathematical Modeling in Biology	
MATH 435	Geometry I	
MATH 436	Geometry II	
MATH 469	Introduction to Discrete Mathematics	
<b>Total Credits</b>		<b>16-19</b>

## Graduate Study

The department offers programs leading to a Master of Science or Doctor of Philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department.

Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should prepare themselves by taking several upper division mathematics courses.

The M.S. degree requires a student to take at least 30 credit hours and to write a creative component or thesis. Additionally, students must pass a comprehensive oral examination over their coursework and their creative component or thesis. See the online Mathematics Graduate Handbook for specific requirements.

The Ph.D. degree requires a student to take 42 credit hours of coursework in addition to research hours, pass written qualifying examinations, pass an oral preliminary exam, and perform an original research project culminating in a dissertation which is defended by an oral exam. Ph.D. candidates must have at least one year of supervised teaching experience. See the on-line Mathematics Graduate Handbook for specific requirements.

## Meteorology

### Overview

Offered by the Department of Geological and Atmospheric Sciences.  
(<https://ge-at.iastate.edu/>)

**The Bachelor of Science Major in Meteorology:** The study of meteorology involves the description of the earth's atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn a bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World

Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession.

**Meteorology as an Additional Major:** The Meteorology program allows students in academic programs with affinity to meteorology to complete an additional major in meteorology through an accelerated pathway. Students earning a BS degree in electrical or aerospace engineering who complete the designated Meteorology coursework of at least 25 credit hours can earn an additional major in Meteorology. Students should work closely with their advisors in each department to ensure that all requirements are met. Please review the information on the department website or contact the current program head for more information and sample four-year plans to earn an additional major in Meteorology.

### Student Learning Outcomes

Upon graduation, students should be able to:

- Demonstrate the ability to think critically;
- Exhibit a broad understanding of atmospheric systems and processes;
- Demonstrate scientific literacy and its application to scientific inquiry and societal concerns;
- Demonstrate proficiency in data collection, management, and analysis including understanding sources of error and/or uncertainty;
- Read and critically evaluate relevant literature and information;
- Use appropriate tools from chemistry, physics, biology, mathematics, and data science to solve discipline-specific problems;
- Present information effectively in written and oral forms;
- Work in a team environment in alignment with the ISU principles of community;
- Work independently;
- Attain employment in meteorology, atmospheric science or related fields, or pursue graduate studies.

## Degree Requirements

The program requires the following courses:

MTEOR 111	Synoptic Applications	1
MTEOR 201	Introductory Seminar	R
MTEOR 206	Introduction to Weather and Climate	3
MTEOR 227	Computational Meteorology I	3
MTEOR 301	General Meteorology	4
MTEOR 311	Introduction to Synoptic Meteorology	2
MTEOR 341	Atmospheric Physics I	3
MTEOR 342	Atmospheric Physics II	3
MTEOR 399	Writing for Research	2
MTEOR 411	Synoptic Meteorology	3
MTEOR 417	Mesoscale Forecasting Laboratory	3
MTEOR 432	Instrumentation and Measurements	3
MTEOR 443	Dynamic Meteorology I	3
MTEOR 454	Dynamic Meteorology II	3
MTEOR 499	Senior Research	2
<b>Total Credits</b>		<b>38</b>

An additional 9 credits must be chosen from:

MTEOR 402	Watershed Hydrology	3
MTEOR 404	Global Change	3
MTEOR 405	Soil-Plant-Animal-Atmosphere Physics	3
MTEOR 406	World Climates	3
MTEOR 407	Mesoscale Meteorology	3
MTEOR 416	Hydrologic Modeling and Analysis	3
MTEOR 435	Radar Applications in Meteorology	3
MTEOR 440	Tropical Meteorology	3
MTEOR 452	Climate Modeling	3
MTEOR 489	Survey of Remote Sensing Technologies	3
MTEOR 489L	Satellite Remote Sensing Laboratory	1
MTEOR 490	Independent Study	1-3
GEOL 415	Paleoclimatology	3
GEOL 452	Intro GIS for Geoscientists	3
C E 372	Engineering Hydrology and Hydraulics	3

Supporting work is required in areas at least equivalent to:

One of the following sequences 5

CHEM 163 & 163L	College Chemistry and Laboratory in College Chemistry
--------------------	--

Or

CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I
--------------------	--

PHYS 231 & 231L	Introduction to Classical Physics I and Introduction to Classical Physics I Laboratory	5
--------------------	---	---

PHYS 232	Introduction to Classical Physics II	4
MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 266	Elementary Differential Equations	3
STAT 305	Engineering Statistics	3
SP CM 212	Fundamentals of Public Speaking	3
<b>Total Credits</b>		<b>35</b>

A grade of C or better (not C-) is required in each of the following courses to meet minimum graduation requirements for a bachelor of science degree in Meteorology:

MTEOR 206	Introduction to Weather and Climate	3
MTEOR 301	General Meteorology	4

Several co-op programs are available for upper-division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in mathematics or physical science. Other students can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

**Communication Proficiency requirement:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	
MTEOR 399	Writing for Research	2
MTEOR 499	Senior Research	2

As majors in the College of Liberal Arts and Sciences, Climate Science students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

Liberal Arts and Sciences (LAS) majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the Communication Proficiency, LAS world language requirements, and LAS career proficiency requirement. Six semesters of one foreign language in high school satisfies the World Language requirement.

Students in all ISU majors must complete a 3-credit course in U.S. diversity and a 3-credit course in international perspectives. Discuss with your advisor how the two courses that you select can be applied to address general education requirements. Check for a list of approved courses at: <http://www.registrar.iastate.edu/courses/div-ip-guide.html>.

## Four Year Plans

These plans are examples only; students should discuss their graduation plans with their advisor.

### Path 1 for students prepared to start in calculus

#### Freshman

## Minor

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. The minor must include at least 6 credits in the courses numbered 300 or above taken at Iowa State University and must include at least 9 credits that are not used to meet any other department, college or university requirement. Further information concerning programs of study, including sample degree programs, is available from the department.

## Concurrent Programs

**Combined Degrees:** A concurrent program is offered which combines a bachelor of science degree in meteorology and a master of science degree in meteorology. This program gives well-qualified Iowa State juniors

and seniors the opportunity to begin working on the M.S. degree before completing the B.S. degree, reducing by at least one year the normal time period necessary to complete both degrees separately. Additionally, a concurrent program exists that gives students the opportunity to receive a B.S. in meteorology and an M.B.A. (master of business administration) within five years. Review the department website or contact the current program head for more information regarding these options.

## Graduate Meteorology

The department offers programs leading to the master of science (M.S.) and doctor of philosophy (Ph.D.) in Meteorology. Students desiring a major in Meteorology normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate preparation and performance along with their expressed goals in the statement of purpose. Prospective students are encouraged to reach out to individual faculty members who they wish to work with prior to applying.

Programs of study are designed on an individual basis in accordance with the requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in complementary areas such as aerospace engineering, agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, environmental science, materials engineering, mathematics, mechanical engineering, microbiology, physics, or statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A thesis is required of all M.S. candidates, and a dissertation is required of all Ph.D. candidates.

Course requirements for the M.S. degree include MTEOR 542 and MTEOR 543, along with at least four courses from the graduate Meteorology electives (MTEOR 502, MTEOR 504, MTEOR 505, MTEOR 507, MTEOR 516, MTEOR 518, MTEOR 535, MTEOR 540, MTEOR 552, MTEOR 568, MTEOR 589, or MTEOR 605) or from outside the department according to the students' professional goals and interests, in consultation with their advisor and POS committee. Students without prior synoptic meteorology course work must complete MTEOR 511 and may substitute these credits in place of other elective courses.

Graduates in Meteorology have a good comprehension of basic principles, a capacity for critical and independent thought, and an ability to communicate effectively with scientific colleagues. They have an appropriate breadth in their understanding of meteorology with a suitable specialization. Graduates are able to undertake thorough research and explain the results in a scientifically reasonable fashion.

# Middle Eastern Studies Minor

## Overview

The cross-disciplinary Middle Eastern Studies Minor is designed for students who seek to explore the cultures, languages, history, society, politics, international relations, economics, technology, and environment of the Middle East, including the Arab world, North Africa, Turkey, and Iran. The Middle Eastern Studies Minor's courses provide the background and training for students whose major fields of study might include Anthropology, History, Philosophy and Religious Studies, Political Science, and World Languages and Cultures. The minor should be of special interest to students with interests in graduate studies or career interests in international business, education, translation, law, diplomacy, intelligence, the military, national security, non-governmental organizations, and/or international organizations.

## Student Learning Outcomes

After completing the minor in Middle Eastern Studies, students will demonstrate:

- some proficiency in oral and written Arabic with an ability to comprehend authentic Arabic texts
- knowledge of the history of the Middle East from classical to modern times
- knowledge of the geographic features of the Middle East and of the major political boundaries, alliances, and power struggles that characterize the contemporary Middle East
- an understanding of cultural diversity issues in the Middle East in the context of the prevalent political, social, and cultural institutions and structures

The minor in Middle Eastern Studies requires 15 credit hours

## Required course work in core courses (9 credits total)

HIST 435	History of the Modern Middle East	3
POL S 350	Politics of the Middle East	3
RELIG 358	Islam	3

## At least 6 additional credits of elective courses from the following list (this list may change/be updated as new elective courses become available)

ARABC 201	Intermediate Arabic I	4
ARABC 202	Intermediate Arabic II	4
ARABC 375	Arab Culture	3
ART H 384	Art of Islam	3
ECON 496	Economics International Travel Course	1-3
HIST 331	History of the Islamic World to 1800	3
RELIG 242	History of Christianity: Early to Medieval	3

RELIG 359	The Quran	3
WLC 370B	Topics in World Languages and Cultures in English Translation: Middle East	3

**Language co-requisite:** All students pursuing the minor in Middle Eastern Studies must complete and receive a passing grade in:

ARABC 101 Elementary Arabic I and ARABC 102 Elementary Arabic II [completion of the beginning level of other languages spoken in the Middle East (e.g. Hebrew, Farsi, Kurdish, Turkish, Pashto, etc.) will be accepted in lieu of beginner Arabic upon petition to the program Directors]

## Military Science Program

### Overview

The Military Science Department is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program, but does not offer an academic degree. The mission of the department is derived directly from regulations governing Army Reserve Officers' Training Corps (AROTC), which are issued by the U.S. Army Cadet Command and U.S. Army Training and Doctrine Command and cannot be modifiable by this department.

### Freshmen Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics, U.S. Army leadership and character development.

### Sophomore Year Learning Outcomes

The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics, and begin to apply U.S. Army leadership through observed activities and demonstrate character development traits.

### Junior Year Learning Outcomes

The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics; Cadets will actively analyze character development and assess leadership skills.

### Senior Year Learning Outcomes

The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics; Cadets

will internalize and adhere to the U.S. Army's profession through active leadership and congruence of character development.

The mission of the Army Reserve Officers' Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army's Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today's Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

## Basic Program

The basic program courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

## Advanced Program

The advanced program courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness

Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Advanced Course, which is a 37 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

## Military Studies Minor

The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Military Studies Minor Interdepartmental Minor

The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers' Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student's college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while students in Naval Science develop an appreciation for naval surface and maritime engineering. The Air Force Aerospace

Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military's role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace Studies. Students may contact any one of the three departments for additional information on the minor.

## Undergraduate Minor

Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

See the Military Studies Overview tab for links to the three departments.

## Music

### Administered by the Department of Music and Theatre

#### Undergraduate Study

The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best. Two degrees are offered in music: a bachelor of music, which is more specialized and contains fewer general education requirements; and a bachelor of arts degree with a major in music. (The Department of Music and Theatre also administers the Theatre Program, see Theatre and Performing Arts.)

The music curriculum provides:

1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.
2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

### Student Learning Outcomes

Music graduates will understand and demonstrate:

1. Knowledge of music cultural heritage and history
2. Appreciation for musical creativity, reasoning, and the aesthetic value of music
3. Knowledge of organization and structures of music
4. Analytical skills necessary for listening, performing, and teaching
5. Skills necessary to perform music from a variety of periods, styles, and genres
6. Necessary abilities to communicate ideas musically, verbally, and in writing
7. Awareness of the diversity of musical ideas throughout the world's cultures
8. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

## Curricula Available to Music Majors

Students interested in pursuing an emphasis in music theater should see Theatre and Performing Arts.

As majors in the College of Liberal Arts and Sciences, Music students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the degree (Bachelor of Music) or major (Music Major, B.A.).

### Bachelor of Music

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 122 credits, including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/not pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

**Bachelor of Arts—Music Major**

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

As majors in the College of Liberal Arts and Sciences, Music Majors (Music, B.A.) students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

Candidates for the degree bachelor of arts with a music major will normally complete 48 credits of music including the following required courses:

4 credits:		4
MUSIC 119	Applied Music for Majors	
MUSIC 120	Introduction to Music Literature and Styles	3
4 credits:		4
MUSIC 219	Applied Music: Majors	
MUSIC 224	Music Theory I	4
MUSIC 225	Aural Theory I	1
MUSIC 234	Music Theory II	3
MUSIC 235	Aural Theory II	1
MUSIC 319	Applied Music: Majors	2
MUSIC 334	Music Theory III	3
MUSIC 335	Aural Theory III	1
MUSIC 344	Music Theory IV	3
MUSIC 345	Aural Theory IV	1
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
4 credits from:		4
MUSIC 111	Wind Ensemble	
MUSIC 113	Jazz Ensemble	
MUSIC 115	Symphonic Band	

MUSIC 141	Lyrica Ensemble	
MUSIC 151	University Chorus	
MUSIC 161	Iowa State Singers	
MUSIC 181	Symphony Orchestra	
MUSIC 321	Advanced Ensemble	
MUSIC 301	Opera Studio	
Music Electives		8
<b>Total Credits</b>		<b>48</b>

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

**General Requirements**  
**Entrance Audition.**

In order to be accepted as a music major, a prospective student must pass an entrance audition for the applied faculty in his/her performance area (piano, organ, woodwinds, strings, percussion, brass, or voice). Passing the audition is dependent on the demonstration of performance skills appropriate for college level instruction and the potential to perform at a professional level. In addition, the number of students accepted must balance with the space available in the corresponding applied studios. Once accepted, a student must complete a placement examination in keyboard skills. This examination is normally given by members of the departmental faculty the week preceding the opening of classes for fall semester.

**Seminars and Recitals.**

All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas, departmental recitals, and 12 recitals of their choosing each semester.

**Ensemble Requirement.**

See the options above for additional ensemble requirements.

**All Bachelor of Music students:**

Enrollment in an ensemble course, chosen from the lists below, each semester of full-time enrollment (except during student teaching) is required.

**Students in a music education option:**

At least six semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required. One semester of 114A may count as a large ensemble.

**Bachelor of Music students in options other than education:**

At least 2 semesters of large ensemble and one semester of chamber music ensemble, chosen from the lists below, are required.

## Large Ensembles:

MUSIC 111	Wind Ensemble	1
MUSIC 115	Symphonic Band	1
MUSIC 141	Lyrca Ensemble	1
MUSIC 151	University Chorus	1
MUSIC 161	Iowa State Singers	1
MUSIC 181	Symphony Orchestra	1

## Chamber music ensembles:

MUSIC 113	Jazz Ensemble	1
MUSIC 161	Iowa State Singers	1
MUSIC 301	Opera Studio	1-3
MUSIC 321	Advanced Ensemble	1

## Continuation Examination

To be approved for continuation as a music major on the junior level, and enroll in Music 319, a student must pass a continuation examination taken normally at the end of the fourth semester as a music major. Before taking this examination, the student must complete the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by, and studied with, the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance.

This evaluation will include a candid assessment of the student's potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination. See Piano Proficiency below. For details and forms go to: <http://www.music.iastate.edu>

## Piano Proficiency Requirement

All music majors must demonstrate proficiency in functional skills at the piano. Keyboard music majors (students whose primary instrument is piano or organ) accomplish this through courses in their curricula. All other students accomplish this by satisfactorily completing Music 228. All entering non-keyboard music majors with previous piano experience meet with the class piano instructor, usually the week before classes start in the fall semester, to determine the appropriate piano class (127, 128, 227, 228) for their initial piano enrollment. Some

students are deemed to have met the piano proficiency at this time. Non-keyboard music majors with no previous piano experience should enroll in Music 127, Class Piano I. Continuous enrollment in piano classes is REQUIRED until successful completion of the piano proficiency requirement. **Important:** The piano proficiency must be met, either through completion of Music 228 or demonstration of proficiency, to pass the continuation examination. Failure to do so could delay a student's graduation. All students must fulfill the piano proficiency requirement in order to pass the continuation examination and enroll in Music 319.

## Graduation Proficiency

To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

**\* According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:**

1. Certification of writing skills, by the instructor, after completion of one of the following:

MUSIC 120	Introduction to Music Literature and Styles	3
MUSIC 383	History of Music I	3
MUSIC 384	History of Music II	3
MUSIC 472	History of American Music	3
MUSIC 473	Topics in Advanced Music History	3
MUSIC 475	Music of the Romantic Era	3
MUSIC 476	Music of the Twentieth Century	3

(Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course:

ENGL 302	Business Communication	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 314	Technical Communication	3

<sup>1</sup> A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano. Students not required to take four semesters of class piano will take additional music elective credits.

<sup>2</sup> Four credits chosen from the following ensembles are required: 111, 113, 115, 141, 151, 161, 191, 321.

<sup>3</sup> ENGL 150 recommends concurrent enrollment in LIB 160.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level.** The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (<https://las.iastate.edu/students/academics/general-education/>) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. A list of approved courses can be found at: (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) The courses taken to meet these requirements may also be used to meet other requirements.

Scheduling of the general education requirements where specific courses are not indicated can be flexible. Music courses are best kept in the order/semesters indicated. (Most music courses are offered one semester each year.)

<sup>1</sup> A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano.

<sup>\*\*</sup> Students should take the major area (WW or brass) with which they are least familiar first to gain more experience in lab band. However, WW players planning to gain additional skills on a 2nd WW, might choose to take that area first. Non-WW players should take 351 before 352. 358B must be taken concurrently with each tech course (350-355).

<sup>++</sup> Alternate year courses. String players take 490B and 464. WW and brass players take 368 and 464.

<sup>c</sup> These courses which appear in the same semester must be taken concurrently.

The LAS world language requirement must be met. The U.S. diversity and international perspectives requirements are automatically met with courses required for this degree option (EDUC 406 and MUSIC 383).

Many general education and education (EDUC) courses can easily be taken in different semesters than indicated as well as summer. Music courses are best kept in the order/semesters indicated (Most music courses are offered one semester each year).

Some advanced theory and history courses are not offered every semester. Semesters of offerings are listed in the course descriptions in the catalog. The BM in composition requires one advanced history course (3 cr.) and 9 credits of advanced theory from the following courses: 346, 440, 446, 490B, 590I. Advanced theory courses must include 346 or 446.

\* The BM degree requires a minimum of 124.5 credits, **including a minimum of 45 credits at the 300/400 level**. The LAS World Language requirements must be met. Courses which may be used for the General Education Requirements can be found at: (<https://las.iastate.edu/students/academics/general-education/>) All ISU students must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives (which is satisfied with MUSIC 383). A list of approved courses can be found at: (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) The courses taken to meet these requirements may also be used to meet other requirements.

## Minor in Music

Candidates for the minor in music will complete 15 credits in music including:

MUSIC 101	Fundamentals of Music	2
or MUSIC 224	Music Theory I	
Three of the following		9
MUSIC 102	Introduction to Music Listening	
MUSIC 120	Introduction to Music Literature and Styles	
or MUSIC 30	Masterpieces of Music and Art in Western Culture.	
MUSIC 304	History of American Rock 'n' Roll	
MUSIC 383	History of Music I	
4 credits chosen from the following		4
MUSIC 111	Wind Ensemble	
MUSIC 113	Jazz Ensemble	
MUSIC 114A	Marching and Pep Bands: Marching Band	
MUSIC 114B	Marching and Pep Bands: Pep Band	
MUSIC 115	Symphonic Band	
MUSIC 141	Lyrca Ensemble	
MUSIC 151	University Chorus	
MUSIC 161	Iowa State Singers	
MUSIC 181	Symphony Orchestra	
MUSIC 301	Opera Studio	
MUSIC 321	Advanced Ensemble	
MUSIC 118	Applied Music: Non-majors	

<sup>1</sup> A placement examination in keyboard skills determines the student's placement in the Class Study in Piano courses. Students with a concentration in piano or organ do not take Class Study in Piano. Students placing out of class piano may need to take additional elective credits to earn the required 124.5 cr. for the BM degree.

<sup>2</sup> ENGL 150 recommends concurrent enrollment in LIB 160.

<sup>3</sup> Alternate year course, taught in odd number years, spring semester.

MUSIC 318	Applied Music: Non-majors
MUSIC 290F	Special Problems: Applied Music

At least 6 of the 15 credits must be in courses numbered 300 and above taken at ISU with a grade of C or better. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Students pursuing a music minor must meet the audition requirements and/or prerequisites for all courses they wish to take.

MINOR IN MUSIC TECHNOLOGY

Candidates for the minor in music technology will complete 15 credits including:

MUSIC 246	Introduction to Creative Digital Music	2
MUSIC 346	Computer Music Programming Design	3
MUSIC 446	Sound Synthesis Design for Electronic Music	3
7 credits from the following		7
COM S 107	Windows Application Programming	
COM S 207	Fundamentals of Computer Programming or COM S 22 Object-oriented Programming	
COM S 228	Introduction to Data Structures	
COM S 309	Software Development Practices	
COM S 327	Advanced Programming Techniques	
CPR E 329	Software Project Management	
E E 201	Electric Circuits	
E E 224	Signals and Systems I	
E E 324	Signals and Systems II	
M E 451	Engineering Acoustics	
S E 319	Construction of User Interfaces	
MUSIC 101	Fundamentals of Music or MUSIC 10 Basic Musicianship	
MUSIC 102	Introduction to Music Listening	
MUSIC 118	Applied Music: Non-majors	
MUSIC 120	Introduction to Music Literature and Styles or MUSIC 302 Masterpieces of Music and Art in Western Culture.	
MUSIC 224	Music Theory I	
MUSIC 225	Aural Theory I	
MUSIC 234	Music Theory II	
MUSIC 235	Aural Theory II	
MUSIC 290F	Special Problems: Applied Music	
MUSIC 304	History of American Rock 'n' Roll	
MUSIC 318	Applied Music: Non-majors	
MUSIC 383	History of Music I	

MUSIC 384	History of Music II
MUSIC 472	History of American Music
MUSIC 490I	Independent Study: Electronic Music

Total Credits 15

Music courses that may be taken by music majors to meet the requirements for the Music Technology minor are limited to the following:

MUSIC 246	Introduction to Creative Digital Music	2
MUSIC 346	Computer Music Programming Design	3
MUSIC 446	Sound Synthesis Design for Electronic Music	3
MUSIC 490I	Independent Study: Electronic Music	arr †
MUSIC 590I	Special Topics: Electronic Music	arr †

† Arranged with instructor.

At least six of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

Naval Science Program

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (non-scholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance

at, or selected for admission by, the university. The College Program involves limited financial assistance by application for a 2 or 3-year scholarship. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4-year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University, [isunrotc@iastate.edu](mailto:isunrotc@iastate.edu), 515-294-6050.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students, accepted to receive a 2 or 3-year scholarship, will participate in at-sea training during the summer between their Junior and Senior year based on the specifics of their scholarship. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

## Undergraduate Study

Naval Science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

N S 111	Introduction to Naval Science	3
N S 212	Seapower and Maritime Affairs	3
N S 220	Leadership and Management	3
N S 230	Navigation	3
N S 320	Naval Ship Systems I (Engineering)	3
N S 330	Naval Ship Systems II (Weapons)	3
N S 410	Naval Operations and Seamanship	3
N S 412	Leadership and Ethics	3
N S 440	Senior Naval Science Seminar	1

Marine option students will complete:

N S 111	Introduction to Naval Science	3
N S 212	Seapower and Maritime Affairs	3
N S 220	Leadership and Management	3
N S 240	Fundamentals of Maneuver Warfare	3
N S 321	Evolution of Warfare	3

N S 412	Leadership and Ethics	3
N S 440	Senior Naval Science Seminar	1

In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.

## Military Studies Minor

The College of Liberal Arts and Sciences offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or more of the ROTC programs. At least six credits must be in courses numbered 300 or above.

## Officer Education Programs

Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Air Force, Army, Navy and Marines.

For specific programs and courses:

- Air Force Aerospace Studies
- Military Science
- Naval Science

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

## Philosophy Overview

The philosophy major (33 credits) and minor (15 credits) offer Iowa State University students the opportunity to explore fundamental human questions through reflection and argumentation. Do we have free will? Can machines think? What makes actions right or wrong? What is the nature of knowledge and what can we hope to know? What does justice

require, politically and economically? Philosophy classes explore answers to deep questions such as these, encouraging each student to develop and rationally defend their own views.

Philosophy offers a structured but flexible program to help students graduate on time while pursuing their interests. 200-level courses introduce students to essential questions and methods of philosophical thought. In 300-level courses, students engage in close examination of central topics in both contemporary thought and the history of philosophy. Seminars at the 400-level offer the opportunity to study topics in-depth alongside a committed team of faculty and students.

Philosophy fosters skills of communication and critical thinking that are valuable across work, family, and civic life. The program equips students to logically analyze and develop new responses to the challenges faced by humanity. It also emphasizes clarity of thought and communication as part of rigorous engagement with both abstract and applied areas of thought. These skills of logical analysis, careful reading, original thought, and clear communication are in high demand across different fields of work and post-graduate study. Philosophy majors typically achieve some of the highest scores on standardized tests such as the LSAT and GRE, and have mid-career salaries higher than many other majors.

## Student Learning Outcomes

Upon graduation, students should be able to:

1. Explain central problems in key areas of philosophy, such as metaphysics, epistemology, ethics, logic, political philosophy, philosophy of language, and the philosophy of science.
2. Explain the views of historically important philosophers and place them in the context of significant philosophical movements.
3. Identify and critically evaluate arguments by developing objections and replies.
4. Communicate ideas and arguments, both orally and in writing, with clarity and precision.
5. Engage with different points of view with open-mindedness, intellectual curiosity, and a willingness to learn from the ideas and arguments of others.

## Philosophy Degree Requirements

As majors in the College of Liberal Arts and Sciences, Philosophy students must meet College of Liberal Arts and Sciences and university-wide requirements for graduation in addition to those stated below for the major.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally,

two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

### Ethical theory: One course required.

PHIL 330	Ethical Theory	3
PHIL 335	Social and Political Philosophy	3
PHIL 535	Contemporary Political Philosophy	3

### History: Two courses required.

PHIL 310	Ancient Philosophy	3
PHIL 314	17th Century Philosophy	3
or PHIL 315	18th Century Philosophy	

### Metaphysics and Epistemology: One course required.

PHIL 364	Metaphysics: God, Minds, and Matter	3
PHIL 366	Truth, Belief, and Reason	3
PHIL 380	Philosophy of Science	3

### Logic: One course required.

PHIL 207	Introduction to Symbolic Logic	3
----------	--------------------------------	---

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check <http://www.registrar.iastate.edu/courses/div-ip-guide.html> for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. Three of the required 45 300+ level credits must be earned in a general education group outside the group of the major. You must also complete the LAS world language requirement and LAS career proficiency requirement.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

**Minor in Philosophy**

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above (only 3 credits of which may be in PHIL 490). The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

**MINOR IN ETHICS**

The Department Philosophy and Religious Studies offers a minor in ethics. Ethics is the branch of human thought that addresses questions of human morality. It seeks to define right and wrong at the theoretical level and to guide action across diverse fields of practice. An ethics minor provides opportunities for students to develop an understanding of both the theoretical foundations and the practical applications of ethics. It serves students who wish to understand how ethical thought complements their chosen majors, but also students who have an interest in learning about ethics more generally.

The minor in ethics requires 15 credits; at least 6 credits must be in courses numbered 300 or above. The minor must include at least 9

credits that are not used to meet any other department, college or university requirement.

All students pursuing the minor in ethics must complete either PHIL 230 Moral Theory and Practice or PHIL 330 Ethical Theory. In addition, students must complete 6 credits of courses chosen from a list of core ethics courses (Table A below), as well as 6 credits of courses chosen from a broader list of courses with a significant ethics focus (Table A and Table B combined).

**CORE ETHICS COURSES (TABLE A)**

PHIL 230	Moral Theory and Practice	3
PHIL 235	Ethical Issues in a Diverse Society	3
PHIL 320	Existentialism	3
PHIL 330	Ethical Theory	3
PHIL 331	Moral Problems in Medicine	3
PHIL 332	Philosophy of Law	3
PHIL 334	Environmental Ethics	3
PHIL 335	Social and Political Philosophy	3
or PHIL 535	Contemporary Political Philosophy	
PHIL 336	Bioethics and Biotechnology	3
PHIL 343	Philosophy of Technology	3
PHIL 430	Value Theory	3
PHIL 450	Agency and Free Will	3

**ADDITIONAL ETHICS COURSES (TABLE B)**

## Philosophy - Graduate Study

The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490), each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490), each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor advisor.

The department participates in the interdepartmental program in general graduate studies.

## Physics and Astronomy

### The Physics Major

Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor's degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

Faculty have approved a variety of completion pathways for the physics major for students who wish to establish a clear strength in a field of application of physics, such as computer science, science education, mechanical engineering, or even science writing. These pathways make double majors more feasible and are appropriate for students planning to enter the job market with their bachelor's degree.

### Student Learning Outcomes

The expected outcomes for students in the program are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

## DEGREE REQUIREMENTS

All Physics students complete 49 credits of required classes in Physics and Math and additional credits of Advanced Coursework. For the Advanced Coursework, students choose one of three focus areas selected based on the career goals of the student: Standard Physics, Teacher Preparation, or Physics Applications.

### Physics Core

PHYS 199	Introductory Seminar	1
PHYS 241	Principles and Symmetries in Classical Physics I *	5
PHYS 242	Principles and Symmetries in Classical Physics II *	5
PHYS 321	Introduction to Modern Physics I	3
PHYS 321L	Introductory Laboratory in Modern Physics I	1
PHYS 361	Classical Mechanics	3
PHYS 364	Electricity and Magnetism I	3
PHYS 304	Thermal Physics	3
PHYS 480	Quantum Mechanics I	3

\* PHYS 231/PHYS 231L and PHYS 232/PHYS 232L may be substituted for PHYS 241 and PHYS 242.

**Total Credits** **27**

### Math Core

MATH 165	Calculus I	4
MATH 166	Calculus II	4
MATH 265	Calculus III	4
MATH 267	Elementary Differential Equations and Laplace Transforms	4
MATH 385	Introduction to Partial Differential Equations	3

MATH 207	Matrices and Linear Algebra	3-4
or MATH 317	Theory of Linear Algebra	

All physics majors are encouraged to take STAT 341.

**Total Credits** 22-23

## Advanced Coursework

In addition to the 49 credit core, students choose one of three focus areas: Standard Physics, Teacher Preparation, or Physics Applications.

### Standard Physics Focus

Students with the Standard Physics focus will complete these additional 19 credits.

PHYS 322 & 322L	Introduction to Modern Physics II and Introductory Laboratory in Modern Physics II	4
PHYS 362	Intermediate Mechanics	3
PHYS 365	Electricity and Magnetism II	3
PHYS 310	Electronic Instrumentation for Experimental Physics	4

A minimum of 2 additional lab credits from the following: 2

ASTRO 344L	Astronomy Laboratory	
ASTRO 450L	Undergraduate Research	
PHYS 311	Intermediate Laboratory	
PHYS 311T	Intermediate Laboratory for Secondary Physics Teachers	
PHYS 450L	Undergraduate Research	
PHYS 470L	Applied Physics Laboratory	

And at least 3 credits from: 3

ASTRO 342	Introduction to Solar System Astronomy	
ASTRO 346	Introduction to Astrophysics	
ASTRO 405	Astrophysical Cosmology	
PHYS 421	Ultrafast Laser Science and Spectroscopy	
PHYS 422	Foundations of Quantum Computing	
PHYS 432	Molecular and Cell Biophysics	
PHYS 461	Physics of Biomolecules	
PHYS 481	Quantum Mechanics II *	
PHYS 496	Modern Optics	
PHYS 511	Condensed Matter Physics I	
PHYS 526	Particle and Nuclear Physics	
PHYS 528	Mathematical Methods for the Physical Sciences	
PHYS 531	Statistical Mechanics	
PHYS 534	Symmetry and Group Theory in Physics	
PHYS 541	General Relativity	

\*Students intending to pursue graduate study in physics or astronomy/astrophysics should choose the option PHYS 481 Quantum Mechanics II.

**Total Credits** 19

### Optional Minor

Students completing the Standard Physics Focus who plan to continue their studies in Astronomy and Astrophysics should complete the Astronomy minor by using the following courses. The department has created a sample four-year plan (<https://www.physastro.iastate.edu/undergraduate-programs/>) for those who want to add this minor to their Physics major.

ASTRO 150	Stars, Galaxies, and Cosmology	3
ASTRO 342	Introduction to Solar System Astronomy	3
ASTRO 344L	Astronomy Laboratory (*)	3
ASTRO 346	Introduction to Astrophysics	3
ASTRO 405	Astrophysical Cosmology	3

\*ASTRO 344L can be applied to meet the requirements for the ASTRO Minor and to meet the additional 2 credit lab experience requirement of the major.

**Total Credits** 15

### Teacher Preparation Focus

Students who are preparing to become a teacher meet the advanced coursework requirement of the Physics Major by completing the following 20 credits and meeting the requirements of the Secondary Major in Education. Note: Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

STAT 201	Introduction to Statistical Concepts and Methods	4
PHYS 322	Introduction to Modern Physics II	3
PHYS 311T	Intermediate Laboratory for Secondary Physics Teachers	3
ASTRO 150 or ASTRO 120	Stars, Galaxies, and Cosmology The Sky and the Solar System	3
PHYS 399	Seminar on Secondary School Physics	1-2
EDUC 418	Secondary Science Methods I	3
EDUC 419	Secondary Science Methods II	3

**Total Credits** 20-21

Students who are seeking to add a Math endorsement to their Teacher Preparation program in Physics will also need to complete the following courses in Mathematics.

MATH 397	Teaching Secondary Mathematics Using University Mathematics	3
MATH 497	Teaching Secondary School Mathematics	3
MATH 435	Geometry I	3

**Physics Applications Focus**

Students who are not planning to attend graduate school in Physics or become teachers, can meet the advanced coursework requirements of the Physics major by completing one of several approved completion pathways for the physics major. This coursework can help a Physics graduate establish a clear strength in a field of application of physics, such as computer science, mechanical engineering, data science, or even science writing. These pathways, ranging from 16 to 24 additional credits, also make double majors with physics more feasible. Contact the Physics advisor for further information concerning programs of study in Physics Applications. Sample Physics with applications programs are listed at the department web site (<https://www.physastro.iastate.edu/undergraduate-programs/>).

**Additional Requirements**

As majors in the College of Liberal Arts and Sciences, Physics students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major. This includes meeting the university-wide Communication Proficiency Grade Requirement, by earning credit for ENGL 150, a grade of C or better in ENGL 250 (or ENGL 250H) and a grade of C- or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language and career proficiency requirements (LAS 203 Professional Career Preparation).

**Physics, B.S**

The plan below is a sample program of study for a student completing the Standard Physics Focus.

**Freshman**

Fall	Credits Spring	Credits
ENGL 150	3 PHYS 242	5
PHYS 199	R MATH 265	4
PHYS 241	5 Social Science Choice	3
MATH 166	4 Natural Science Choice	5
Humanities Choice	3	

LIB 160	1	
	<b>16</b>	<b>17</b>

**Sophomore**

PHYS 362	3 PHYS 304	3
PHYS 364	3 PHYS 365	3
ENGL 302, 305, 309, or 314	3 Social Science Choice	3
MATH 317 or 207	3-4 Humanites Choice	3
World Language (or Elective)	4-3 World Language (or Elective)	4-3
	<b>16</b>	<b>16-15</b>

**Senior**

Fall	Credits Spring	Credits
PHYS 310	4 PHYS 311 <sup>1</sup>	2
PHYS 480	3 PHYS 481 <sup>2</sup>	3
Elective	3 Elective	3
ASTRO 344L <sup>1</sup>	3 Elective	3
	Elective	3
	<b>13</b>	<b>14</b>

<sup>1</sup> Students must earn a minimum of two laboratory credits from PHYS 311, 311T, 450L, 470L; ASTRO 344L, 450L.

<sup>2</sup> Recommended but not required. Highly recommended for those students planning gradate study.

Four year plans for advanced coursework options to complete the Physics major are listed at <https://www.physastro.iastate.edu/undergraduate-programs> (<https://www.physastro.iastate.edu/undergraduate-programs/>).

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Minor in Physics

The department offers a minor in physics which may be earned by completing 20 credits in physics courses chosen as follows:

PHYS 241	Principles and Symmetries in Classical Physics I *	5
PHYS 242	Principles and Symmetries in Classical Physics II *	5
PHYS 321	Introduction to Modern Physics I	3

### One of the following

PHYS 321L	Introductory Laboratory in Modern Physics I	
PHYS 322L	Introductory Laboratory in Modern Physics II	
PHYS 310	Electronic Instrumentation for Experimental Physics	
PHYS 311	Intermediate Laboratory	
PHYS 311T	Intermediate Laboratory for Secondary Physics Teachers	

### Other acceptable courses

PHYS 304	Thermal Physics	
PHYS 306	Physics of Wave Motion	
PHYS 322	Introduction to Modern Physics II	
PHYS 361	Classical Mechanics	
PHYS 362	Intermediate Mechanics	
PHYS 364	Electricity and Magnetism I	
PHYS 365	Electricity and Magnetism II	
PHYS 421	Ultrafast Laser Science and Spectroscopy	
PHYS 432	Molecular and Cell Biophysics	
PHYS 461	Physics of Biomolecules	
PHYS 480	Quantum Mechanics I	
PHYS 481	Quantum Mechanics II	
PHYS 496	Modern Optics	

\*PHYS 231/231L and PHYS 232/232L may be substituted for PHYS 241 and PHYS 242

## Minor in Astronomy

The department offers a minor in astronomy which may be earned by completing 15 credits as laid out below. 12 or more credits must be at the 300 level or higher. Note that only ASTRO 344L may be used to satisfy both the requirements of a physics major and an astronomy minor.

ASTRO 344L	Astronomy Laboratory	3
ASTRO courses*		9-12
3 credits from the following (if only 9 Astro credits)		3
PHYS 304	Thermal Physics	
PHYS 321	Introduction to Modern Physics I	
PHYS 361	Classical Mechanics	
PHYS 362	Intermediate Mechanics	

PHYS 364	Electricity and Magnetism I	
PHYS 365	Electricity and Magnetism II	
PHYS 480	Quantum Mechanics I	
PHYS 481	Quantum Mechanics II	
PHYS 496	Modern Optics	
AER E 351	Astrodynamics I	

The department has a set of recommended courses for Physics students interested in pursuing graduate school in Astronomy and Astrophysics.

The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

## Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department and the Ames Laboratory are available for research.

Students with bachelor's degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State University provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases, additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

PHYS 531	Statistical Mechanics	3
PHYS 564	Advanced Classical Mechanics	3
PHYS 571	Electricity and Magnetism I	3
PHYS 572	Electricity and Magnetism II	3
PHYS 591	Quantum Physics I	4
PHYS 592	Quantum Physics II	4

Candidates for an advanced degree in astrophysics should complete:

PHYS 531	Statistical Mechanics	3
or PHYS 564	Advanced Classical Mechanics	
PHYS 571	Electricity and Magnetism I	3
PHYS 591	Quantum Physics I	4
ASTRO 505	Astrophysical Cosmology	3
ASTRO 510	Observational Astrophysics	3

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the M.S. must take at least two 580 level Astro courses.

A thesis is always required for all Ph.D. majors. The degree master of science is offered both with and without thesis. For all graduate majors the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699, toward the minimum 30 credits.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 9 credits of graduate course work outside this area including at least one 500 or 600 level introductory course in another area of physics. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.

## Political Science Overview of Political Science

The study of political science is designed to enable students to understand the nature of politics, public values, and policy, as well as the institutions and processes that produce these outcomes.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory, international relations, comparative politics, and public policy. Graduates can analyze and formulate effective argumentation in written and oral forms, with the ability to appreciate and accommodate diverse political ideas and to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

## Expected Student Learning Outcomes

Upon graduation, students should be able to:

- Understand the nature of politics, public values, and the institutions and processes of politics in their various forms.
- Understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory and methods, international relations, comparative politics, and public policy.
- Be able to analyze and formulate effective argumentation in written and oral forms, including the ability to appreciate and accommodate diverse political ideas, and to collect and critique information in ideas of others in support of original arguments.
- Appreciate the knowledge and civic responsibilities required for effective participation in political life.

## Political Science, B.A.

All Political Science majors must satisfactorily complete 34 credits of Political Science, including at least 18 credits of Political Science courses numbered 300 or above and at least 9 credits of Political Science courses numbered 400 or above. No more than 3 credits of POL S 490, POL S 496, POL S 497, or POL S 499, alone or in combination, may count towards the major. Only Political Science courses in which a student earns a grade of C- or higher will count for the major. At least 15 credits of Political Science coursework must be earned at Iowa State University.

POL S 101	Exploring Political Science	1
At least two subfield-introduction courses		6
POL S 111	Introduction to American Government	
POL S 121	Introduction to International Politics	
POL S 125	Democracy and Dictatorship: Introduction to Comparative Politics	
At least two vocational gateway courses		6
POL S 222X	Global Engagement	
POL S 232X	Politics of Business	
POL S 235	Introduction to Ethics and Politics	
POL S 271	Public Organizations and Leadership	
POL S 283	Introduction to Environmental Politics and Policies	
At least one research-methods course		3

POL S 261	Thinking Like a Political Scientist: Qualitative Approaches	
POL S 262	Thinking Like a Political Scientist: Quantitative Approaches	
POL S 401	Political Analysis and Research	
Additional POL S 300-level and above coursework to complement other course choices and to meet the minimums required for the major		18
At least 18 credits of POL S courses numbered 300 or above		
At least 9 credits of POL S courses numbered 400 or above		
As part of the 300-level and above coursework, a capstone from at least one of the following:		
POL S 491	Senior Thesis (3 cr. minimum)	
POL S 499	Internship in Political Science (3 cr. minimum)	
POL S course numbered 500 or above (3 cr. minimum)		
Study-abroad experience approved by the department		
POL S 492	Graduating Senior Survey	R
<b>Total Credits</b>		<b>34</b>

#### Complementary Course Requirements

##### One Statistics course

STAT 101	Principles of Statistics	3-4
or STAT 104	Introduction to Statistics	
or STAT 226	Introduction to Business Statistics I	
<b>Total Credits</b>		<b>3-4</b>

##### Communication Proficiency

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
ENGL 302	Business Communication	3
or ENGL 309	Proposal and Report Writing	
or ENGL 314	Technical Communication	
<b>Total Credits</b>		<b>9</b>

As majors in the College of Liberal Arts and Sciences, Political Science students must meet College of Liberal Arts and Sciences (<https://catalog.iastate.edu/collegeofliberalartsandsciences/>) and university-wide requirements (<https://catalog.iastate.edu/collegescurricula/>) for graduation in addition to those stated above for the major. The university-wide Communication Proficiency Grade Requirement requires a grade of C or better in ENGL 250. Students in all ISU majors must also complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with

your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

### Political Science with Teacher Preparation Focus

Students seeking teacher certification in American Government must meet all of the requirements of the Political Science major while taking the specific Political Science classes required for certification by the State of Iowa. This coursework must include POL S 111 Introduction to American Government and a minimum of 12 additional credits in American Government (see options below). Students must also complete at least one additional endorsement in either American History or World History. Most students will complete a total of three endorsement areas; the third might include American or World History, Psychology, Economics, Anthropology or Sociology. Specific requirements of each endorsement are available from your advisor. Teacher license requirements are established by the Iowa Department of Education and the Iowa Board of Educational Examiners and are subject to change. Recent changes may not be reflected in this catalog, but advisers and faculty will be aware.

Students must also meet the requirements of the Secondary Major in Education including student teaching (EDUC 417). Students must earn a minimum grade of B- in all content courses used for licensure and a minimum grade of C in all other required courses.

In addition to completing the requirements of the Secondary Major in Education, students will complete the following:

PSYCH 230	Developmental Psychology	3
EDUC 426	Principles of Secondary Education	3
EDUC/HIST 498	Methods of Teaching History/Social Sciences	

#### Political Science Course Options for American Government Teacher Certification

POL S 111	Introduction to American Government	3
Minimum of 12 additional credits in American Government		12
POL S 121	Introduction to International Politics	
POL S 125	Democracy and Dictatorship: Introduction to Comparative Politics	
POL S 271	Public Organizations and Leadership	
POL S 283	Introduction to Environmental Politics and Policies	
POL S 306	Public Opinion and Voting Behavior	
POL S 310	State and Local Government	
POL S 318	Campaigns and Elections	
POL S 319	Law and Politics	

POL S 320	American Judicial Process
POL S 333	Democracy and Diversity in America
POL S 334	Politics and Society
POL S 335	Science, Technology, and Public Policy
POL S 339	Liberty and Law in America
POL S 344	Public Policy
POL S 358	United States Foreign Policy
POL S 359	Current Issues in American Foreign Policy
POL S 360	American Institutions: Congress
POL S 361	American Institutions: The Presidency
POL S 363	American Institutions: Media
POL S 364	Political Parties and Interest Groups
POL S 370	Religion and Politics
POL S 381	International Political Economy
POL S 385	Women in Politics
POL S 419	The Judiciary
POL S 420	Constitutional Law
POL S 421	Constitutional Freedoms
POL S 430	Foundations of Western Political Thought
POL S 431	Modern Political Thought
POL S 453	International Organization
POL S 460	American Political Institutions

# Four Year Plan

## Political Science, B.A.

Freshman

	14-15		15

Total Credits: 120-121

<sup>1</sup> Meets International Perspectives requirement.
<sup>2</sup> Meets LAS College Mathematical Disciplines requirement.
<sup>3</sup> May be cross-listed to fulfill other requirements. POL S 333, POL S 339, POL S 353, and POL S 385 fill this requirement.

# Minor in Political Science

The department offers a minor in political science that may be earned by completing 15 credits of coursework in political science, fulfilling all of the following criteria:

- At least 9 of the credits must be in courses numbered 300 or above.
- At least 9 of the credits must have been taken at Iowa State University.
- At least 6 of the credits must be in courses numbered 300 or above, be taken at Iowa State University, and have a minimum grade of C.
- No more than 3 credits of POL S 490 may be included.
- None of the credits may be in courses offered only on a satisfactory/fail basis.
- At least 9 of the credits must not be used to meet other department, college, or university requirement.

# BA/MA PROGRAM

The concurrent BA/MA (<https://www.pols.iastate.edu/combined-b-a-m-a/>) classification offers well-qualified Iowa State juniors and seniors the opportunity to start working on a master's degree in Political Science before completing a bachelor's degree. Contact the department's Director of Graduate Education for more information about applying.

## Graduate Study

The department offers work for a Master of Arts degree (MA) with a major in political science and minor for students in other departments. The department also offers work for a Graduate Certificate of Public Management and Policy (GCPMP) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Department of Political Science offers work for a Master of Science in Information Assurance (MSIA) and a joint Master of Arts/Juris Doctor (MA/JD) program with the Law School of Drake University. Information with detailed requirements for all graduate degrees may be obtained at the department's web page at <https://www.pols.iastate.edu/academics/graduate/>

## Master of Arts (MA)

This is a 30-credit Master's degree that gives students the opportunity to explore the field of political science in order to pursue a PhD, go to law school, improve research skills, or understand politics better. The three concentration areas are American Politics, Global Politics, and Public Policy. Although it is not a formal concentration, some students have worked heavily in the area of political theory. Top students are eligible for graduate assistantships that make graduate study much more affordable and provide opportunities for assisting faculty with teaching and research. These are awarded on a merit basis. The degree can also be pursued jointly with a JD at the Law School of Drake University (see below).

MA graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The prerequisites for major graduate work in the MA program normally are completion of at least 12 credits in political science or related courses. During their program of study, all students are expected to complete STAT 587, POL S 501, and a thesis or creative component. Additional information including detailed graduation requirements can be found at <https://www.pols.iastate.edu/graduate/political-science-m-a/>.

## Master of Science in Cybersecurity

The Master of Science in Cybersecurity is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the Cybersecurity program is built around a series of courses taught in Electrical and Computer Engineering, Mathematics, and Computer Science that introduce students to software and hardware aspects of cryptography and computer security. The

program also recognizes, however, that information assurance defined in terms of security, privacy, access, and reliability is not simply a technical problem but also involves important societal dimensions, including policy, education, ethics, and management. Recognizing that political science offers many potential intersections with information assurance (e.g., public sector management of information technology; forensics and computer crime; information technology policy and law; information technology and international relations; information warfare; etc.), students with interests in these areas are encouraged to select the Department of Political Science as their home department.

Students opting to pursue a Cybersecurity degree through the Department of Political Science can expect to acquire skills and background knowledge relevant to a career in public policy or public sector management of information assurance technologies. The Cybersecurity degree can also help prepare students who wish to go on to pursue a PhD in information politics and policy.

Students interested in the Cybersecurity degree program should consider Political Science as a home department if their future career and/or educational interests lie in such areas as: institutional issues related to the Internet and information technologies; electronic government and electronic democracy; information technology, international security, and information warfare; information technology policy and law; and public administration and public sector management of information technology.

Admission requirements generally follow the same guidelines as the MA in Political Science. Degree requirements are specified by the Cybersecurity program in cooperation with Political Science. More in-depth information on the program including detailed graduation requirements can be found at <https://www.pols.iastate.edu/graduate/master-of-science-in-information-assurance-ms-ia/>.

## Master of Arts/Juris Doctorate Program (MA/JD)

The Drake Law School and the Department of Political Science at Iowa State University are co-sponsors of the Master of Arts/Juris Doctorate degree. This degree combines courses at both Iowa State University and the Drake Law School and follows most of the same requirements as a double degree. However, the student must have full admission to both schools. Detailed information for the MA/JD can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): <http://www.law.drake.edu/> (<http://www.law.drake.edu/>).

The increasing attention being focused on the solution of social problems by state and federal governments has created a need for persons with advanced training in both law and political science. The Drake Law School and the ISU Department of Political Science jointly administer a MA/JD program to provide an opportunity for students at the Drake Law

School to achieve, concurrently, a JD degree in law and a MA degree in political science, and for graduate students in political science at Iowa State University to achieve a degree in law.

Successful completion of this program will enable students at Drake Law School to receive both a JD and an MA degree within a three-year period, while graduate students in political science at Iowa State University will be able to transfer a substantial number of hours to the Drake Law School toward the fulfillment of the JD requirements in a similar amount of time. Additional information including detailed graduation requirements can be found at <https://www.pols.iastate.edu/graduate/master-of-arts-juris-doctorate-program-m-a-j-d/>.

Graduate Minor

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

THE GRADUATE CERTIFICATE OF PUBLIC MANAGEMENT AND POLICY (GCPMP)

The Political Science Department offers a Graduate Certificate of Public Management and Policy (GCPMP). The GCPMP is a 15-credit certificate. Students who are interested in public management and policy, but unsure about committing to a full master's degree, can aim for the certificate knowing that those courses will also count toward a master's degree if they choose to continue on. Iowa State graduate students in other fields may want to pursue the certificate to improve their credentials on the job market if their interest overlaps with public management and policy. For example, doctoral students in higher education and education administration can earn all 9 of their "outside" credits in the GCPMP coursework, add the 6 more elective credits, and earn a GCPMP along with their PhD.

Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students. More information on the program including curricular requirements can be found at <https://www.pols.iastate.edu/graduate/graduate-certificate-of-public-management-and-policy/>.

Psychology
Psychology Overview

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see College of Liberal Arts and Sciences.

An undergraduate major in psychology provides a liberal arts and science education, which also can serve as preparation for graduate study in psychology, law, or the health professions. The undergraduate major in psychology enables graduates to understand and apply the scientific principles, facts, and basic methods of psychology to their personal and professional activities. Students with a bachelor's degree (B.A./B.S.) in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, and business (management, insurance, opinion polls). Professional work as a psychologist in academic, business, clinical, government, and school settings requires graduate degrees. Depending on professional goals, a minor in another discipline may be desirable.

Student Learning Outcomes

- Following the recommendations of the American Psychological Association, the undergraduate curriculum in psychology is designed to allow each student to:
1. Develop a detailed knowledge of psychology
  2. Develop an understanding of scientific inquiry and demonstrate critical thinking
  3. Understand the role of ethics and diversity in human behavior
  4. Be able to communicate effectively in the discourse of psychology
  5. Develop skills supporting employment or graduate/professional education

Degree Requirements
COMMUNICATION PROFICIENCY REQUIREMENT

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
or ENGL 250H	Written, Oral, Visual, and Electronic Composition: Honors	

The Department requires a C- or better in one of the following:

PSYCH 302	Research Methods in Psychology	3
ENGL 302	Business Communication	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3

The major must include the following psychology courses each with a minimum grade of C- and an overall average of C or better:

PSYCH 111	Orientation to Psychology	1
or PSYCH 112	Psychology Learning Community Seminar	
PSYCH 101	Introduction to Psychology *	3

PSYCH 211	Career Opportunities in Psychology	1
PSYCH 301	Research Design and Methodology *	3
PSYCH 440	Psychological Measurement I *	3

**The major also must include at least one course from four of the following six areas:**

**Area A**

PSYCH 230	Developmental Psychology	3
PSYCH 335	Child and Adolescent Psychopathology	3

**Area B**

PSYCH 280	Social Psychology	3
PSYCH 380	Social Cognition	3

**Area C**

PSYCH 310	Brain and Behavior	3
PSYCH 315	Drugs and Behavior	3

**Area D**

PSYCH 312	Sensation and Perception	3
PSYCH 313	Learning and Memory	3
PSYCH 316	Cognitive Psychology	3
PSYCH 318	Judgment and Decision Making	3

**Area E**

PSYCH 360	Personality Psychology	3
PSYCH 460	General Psychopathology	3

**Area F**

PSYCH 250	Psychology of the Workplace	3
PSYCH 350	Human Factors in Technology	3

Three additional 3-credit courses in psychology 9

Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 291, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

**Departmental requirements for the B.A. and B.S. include the following supporting courses:**

6 credits in Philosophy including 6

PHIL 201	Introduction to Philosophy (not 207)	3
----------	--------------------------------------	---

Two of the following

BIOL 101	Introductory Biology	3
or BIOL 211	Principles of Biology I	
or BIOL 212	Principles of Biology II	

BIOL 155	Human Biology	3
or BIOL 255	Fundamentals of Human Anatomy	

or BIOL 256	Fundamentals of Human Physiology	
CHEM 160	Chemistry in Modern Society	3
or CHEM 163	College Chemistry	
PHYS 101	Physics for the Nonscientist (or higher)	3
STAT 101	Principles of Statistics *	3-4
or STAT 104	Introduction to Statistics	

3 credits in Mathematics from selected course list\*\*

\* minimum grade of C-

\*\* Popular choices include Math 104, Math 140, Math 150, Math 165, and Stat 301. See general education mathematics list for alternative options. Neither Math 105 nor Math 106 may be used to satisfy this requirement.

Students pursuing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional credits from courses listed in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area as follows: six additional credits in natural sciences, one additional credit in a laboratory course, and three additional credits in mathematics. It should be noted that either Math 104 or Math 150 may be counted toward the B.S. degree requirement, but not both.

Students electing a B.A. degree also must complete an ISU approved minor, certificate or additional major.

As majors in the College of Liberal Arts and Sciences, Psychology students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

**Psychology Undergraduate Minor**

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 291 Introductory Research Experience, PSYCH 490 Independent

Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. In addition to an overall C average or better in courses used to satisfy the minor, a C- or better is required in each course. Contact the psychology advising office for more information.

## Graduate Study

The department offers work for the degree of doctor of philosophy in psychology. A master of science may be earned as part of that degree.

The department offers a doctoral specialization in counseling (<https://counseling.psych.iastate.edu/>) psychology (APA accredited) and doctoral areas of concentration in cognitive (<https://psychology.iastate.edu/graduate-study/doctoral-programs/cognitive-psychology/>) psychology and social (<https://psychology.iastate.edu/graduate-study/doctoral-programs/social-psychology/>) psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research and to communicate the results to the scientific community, students in the classroom, and the general public. Graduates in counseling psychology are skilled in delivering services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction (<http://www.vrac.iastate.edu/hci/>), neuroscience (<http://www.neuroscience.iastate.edu/>) (<http://www.neuroscience.iastate.edu/>) and in the interdepartmental minor in gerontology (<http://www.gerontology.iastate.edu/programs/>).

A formal class and a supervised practicum in the teaching of psychology is recommended for all doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

## Public Relations

### PUBLIC RELATIONS

<http://www.greenlee.iastate.edu> (<http://www.greenlee.iastate.edu/>)

The public relations major provides students with the concepts, skills and expertise needed to help organizations build mutually beneficial relationships with diverse publics. The knowledge and tools students develop through the P R curriculum ensure they can enter fields such

as corporate communication, government affairs, and public relations firms. Coursework in this major focuses on writing, research, digital and emerging media, and professional abilities. Students are required to complete a capstone internship experience to practice and refine their skills.

The Greenlee School of Journalism and Communication prepares students for the field of communication. The school offers three majors:

- Advertising Bachelor of Arts (ADVRT)
- Journalism and Mass Communication Bachelor of Science (JL MC)
- Public Relations Bachelor of Science (P R)

In addition, the Greenlee School offers a 4+1 program allowing students to complete their B.A. or B.S. and earn an M.S. in journalism and mass communication in fewer semesters.

Professional skills are taught and practiced alongside academic requirements using the latest technology and leading-edge communication trends and methods.

Founded in 1905, the unit was one of the first journalism programs to be accredited in 1948 and continues to be one of the longest continuously accredited programs in the country. Accreditation is based on the principle that students need a broad-based, liberal arts education and solid core courses within the discipline. Students taking one major at the school may not seek an additional major or minor in the school. All students are required to take an additional major or a minor outside the school as an area of expertise.

## Student Learning Outcomes

Students who major in programs of the Greenlee School of Journalism and Communication are expected to develop competencies in 10 key areas:

- apply the principles and laws of freedom of speech and press, in a global context, and for the country in which the institution that invites ACEJMC is located;
- demonstrate an understanding of the multicultural history and role of professionals and institutions in shaping communications;
- demonstrate culturally proficient communication that empowers those traditionally disenfranchised in society, especially as grounded in race, ethnicity, gender, sexual orientation and ability, domestically and globally, across communication and media contexts;
- present images and information effectively and creatively, using appropriate tools and technologies;
- write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;

- apply critical thinking skills in conducting research and evaluating information by methods appropriate to the communications professions in which they work;
- effectively and correctly apply basic numerical and statistical concepts;
- critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- apply tools and technologies appropriate for the communications professions in which they work.

## The Public Relations Major

To receive a bachelor of science degree in public relations, a student must earn at least 120 credits. A minimum of 72 credits must come from courses other than ADVRT, JL MC or P R. At least 50 of these credits must come from the liberal arts and sciences. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 34 credits and a maximum of 48 credits to be taken in ADVRT, JL MC and P R. These include:

JL MC 110	Orientation to Journalism and Communication	1
P R 220	Principles of Public Relations	3
JL MC 201	Reporting and Writing for the Mass Media (C+ or better)	3
P R 301	Research and Strategic Planning for Advertising and Public Relations	3
P R 321	Public Relations Writing (C+ or better)	3
300-level ADVRT, JL MC or P R Electives		6
P R 424	Public Relations Campaigns	3
JL MC 460	Law of Mass Communication	3
JL MC 462	Media Ethics, Freedom, Responsibility	3
400-level ADVRT, JL MC, or P R Elective		3
P R 499A	Professional Media Internship: Required	3
<b>Total Credits</b>		<b>34</b>

Public relations majors are also required to take:

STAT 101	Principles of Statistics (or another approved statistics course)	4
----------	--	---

As majors in the College of Liberal Arts and Sciences, public relations students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

**University Requirement:** Students in all ISU majors must complete a three-credit course in U.S. Diversity, as well as a three-credit course in International Perspectives. The approved course lists

are found at the following web addresses:(U.S. Diversity) <http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses> (<http://www.registrar.iastate.edu/students/div-ip-guide/usdiversity-courses/>) and (International Perspectives) <http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current> (<http://www.registrar.iastate.edu/students/div-ip-guide/IntlPerspectives-current/>). Students must also demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

**College of LAS Requirement:** Minimum of 120 credits, including a minimum of 45 credits at the 300-level and above. You must also complete the LAS world language requirement, LAS career proficiency requirement, and any unmet ISU admission requirements.

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

**Minor or Additional Major:** Students are required to fulfill a secondary area of expertise. This requirement can be met by declaring a minor or an additional major outside of the Greenlee School of Journalism and Communication. Students taking one major at the school may not seek an additional major or minor in the school.

Juniors can apply to a concurrent degree program and earn a B.S. in public relations and an M.S. in journalism and mass communication in fewer semesters. Contact the Director of Graduate Education for more information on the Greenlee School's 4+1 Program.

## Minor in Public Relations

Students cannot select more than one minor in the Greenlee School of Journalism and Communication. Minors in the Greenlee School are not available to Greenlee majors.

For a minor in public relations, students complete 15 credits including at least 6 credits in the courses numbered 300 or above taken at Iowa State University. The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

JL MC 101	Mass Media and Society	3
P R 220	Principles of Public Relations	3
9 credits from the following:		9
P R 301	Research and Strategic Planning for Advertising and Public Relations	
P R 305	Publicity Methods	
P R 323X	Strategic Communication in Agriculture and the Environment	
P R 420	Crisis Communication	
JL MC 307	Digital Video Production	
JL MC 390	Professional Skills Development	
JL MC 401	Mass Communication Theory	
JL MC 406	Media Management	
JL MC 474	Communication Technology and Social Change	
JL MC 476	World Communication Systems	
JL MC 477	Diversity in the Media	
P R 497	Special Topics in Communication	

Greenlee majors and minors cannot take ADVRT, JL MC or P R courses pass/not pass.

## Concurrent Undergraduate and Graduate Programs

The Greenlee School offers a 4+1 program allowing students to complete their B.A. or B.S. and earn an M.S. in journalism and mass communication in fewer semesters.

The Greenlee School offers three concurrent degree programs:

B.A. Advertising/M.S. Journalism and Mass Communication

B.S. Journalism/M.S. Journalism and Mass Communication

B.S. Public Relations/M.S. Journalism and Mass Communication

Enrollment in the Greenlee School's concurrent degree programs enables students to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees. See Journalism and Mass Communication Concurrent Undergraduate and Graduate Programs for more information on combining the B.S. in Public Relations and the M.S. in Journalism and Mass Communication.

## GRADUATE PROGRAMS

### Master of Science

The Greenlee School of Journalism and Communication offers work for a Master of Science degree in journalism and mass communication.

### Concurrent Programs

The Greenlee School's concurrent degree programs enable interested students the opportunity to complete coursework for the undergraduate and graduate programs on a five-year accelerated timeline – rather than the typical six-year timeline for the two degrees.

### Graduate Minor

The Greenlee School graduate program offers minor work for students majoring in other departments.

See Journalism and Mass Communication Graduate Programs for more information on the M.S. in Journalism and Mass Communication.

## Religious Studies

The Religious Studies major (27 credits) and minor (15 credits) offer Iowa State University students the opportunity to expand their knowledge about diverse religions in the United States and the world. The major and minor allow students to design their own unique program of study by taking courses that spark their interest. Religious Studies teaches students to explore religion objectively, critically, and empathetically. It equips students to apply academic theories and methods to understand how religions shape and are shaped by history, politics, culture, society, and human psychology. As their religious literacy increases, students will

develop their own ideas about the nature of religion, life's big questions, and the wide range of human ideas, practices, and motivations.

The major in Religious Studies provides both breadth and depth. The program's 200-level courses introduce students to the academic study of religion, providing a foundation that students build on throughout their undergraduate career. In 300-level courses, students closely investigate particular traditions, topics, or themes. Throughout their undergraduate career, students have opportunities to connect their program of study to their own professional and personal goals.

The Religious Studies program provides students skills relevant to building a career based on their interests and passions. Contrary to popular myths, employers in today's modern workplace value college graduates with liberal arts degrees. In Religious Studies, these include the "hard skills" of writing, reading, and conducting organized research. Students also gain so-called "soft skills." These include communication strategies, learning to adapt to new environments, and the capacity to work with and understand people from diverse backgrounds. The flexibility of these skills opens up a wide range of career paths. Religious Studies graduates pursue careers in non-profits, community organizations, and people-focused industries. They apply to graduate and professional schools in areas such as law, education, and ministry. A Religious Studies degree doesn't just help students *get* a job. It helps them advance and grow, both professionally and personally, well into their lives.

### Student Learning Outcomes

Upon graduation, students should be able to:

1. Describe religious diversity in the United States and around the world, including diversity within traditions.
2. Identify key beliefs, doctrines, practices, and expressions of multiple religions.
3. Explain how religion has shaped and been shaped by human history, culture, and society, drawing on historical, cultural, and textual analyses.
4. Distinguish between confessional and academic understandings of religion.
5. Assess data produced by and about religious communities in an objective, critical, and empathetic manner.
6. Create and convey original insights using effective reading, research, writing, and conversation skills.

## Religious Studies - Undergraduate Study

Students pursuing a major in religious studies must complete a minimum of 27 credits, including the requirements below. Students may also choose to do a senior thesis under the supervision of a religious studies

faculty advisor. This option may earn 3-6 credits toward the completion of the major.

Two of the following introductory survey courses of which one must be either 205 or 210 6

RELIG 205	World Religions
or RELIG 210	Religion in America

RELIG 215	Religion and Popular Culture
-----------	------------------------------

RELIG 242	History of Christianity: Early to Medieval
-----------	--

RELIG 243	History of Christianity: Modern
-----------	---------------------------------

RELIG 277	Religion and Society
-----------	----------------------

Five of the following 300+ level courses 15

RELIG 322	The New Testament
-----------	-------------------

RELIG 325	Religion, Law, and Justice
-----------	----------------------------

RELIG 328	Native American Religions
-----------	---------------------------

RELIG 332	Catholicism
-----------	-------------

RELIG 334	Africana Religions
-----------	--------------------

RELIG 336	Religion, Sex and Gender
-----------	--------------------------

RELIG 339	Goddess Religions
-----------	-------------------

RELIG 340	Magic, Witchcraft, and Religion
-----------	---------------------------------

RELIG 348	Psychology of Religion
-----------	------------------------

RELIG 349	Cognitive Science of Religion
-----------	-------------------------------

RELIG 350	Philosophy of Religion
-----------	------------------------

RELIG 352	Religions of India
-----------	--------------------

RELIG 358	Islam
-----------	-------

RELIG 359	The Quran
-----------	-----------

RELIG 367	Christianity in the Roman Empire
-----------	----------------------------------

RELIG 368	Religions of Ancient Greece and Rome
-----------	--------------------------------------

RELIG 370	Religion and Politics
-----------	-----------------------

RELIG 380	Catholic Social Thought
-----------	-------------------------

RELIG 389	Exhibiting Religion
-----------	---------------------

Any other RELIG 300- or 400-level course

Minimum of 6 credits of elective Religious Studies courses	6
--	---

<b>Total Credits</b>	<b>27</b>
----------------------	-----------

Communication Proficiency

ENGL 150	Critical Thinking and Communication	3
----------	-------------------------------------	---

ENGL 250	Written, Oral, Visual, and Electronic Composition	3
----------	---	---

To meet the upper-level ISU Communication requirement, Religious Studies majors choose from one of the following: 0-3

ENGL 302	Business Communication
or ENGL 309	Proposal and Report Writing
or ENGL 314	Technical Communication

or RELIG 322 The New Testament

or RELIG 325 Religion, Law, and Justice

or RELIG 328 Native American Religions

or RELIG 332 Catholicism

or RELIG 352 Religions of India

or RELIG 355 The Quran

or RELIG 389 Exhibiting Religion

<b>Total Credits</b>	<b>6-9</b>
----------------------	------------

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. Students must also complete the LAS College requirements, including the world language requirement and career proficiency requirement.

<sup>1</sup> Laboratory science recommended.

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study). The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

## Religious Studies - Graduate Study

Religious studies may be one of the three areas used for the interdisciplinary graduate studies master's degree.

## Science Communication Certificate

The science communication certificate provides an opportunity for students to develop their public communication skills, to interface with students and faculty across disciplinary and science-public divides, and to give students an edge in the job market where successful communication with a multitude of stakeholders is essential. As a discipline, science communication brings together theory and practice to communicate scientific information to the public, with an emphasis on two-way and strategic communication with the public.

This certificate is designed to encourage students who are interested in the intersection of science and society to pursue coursework that provides them with the skills to practice public-facing science and effectively engage the public around complex and sometimes controversial scientific topics. In addition, the certificate is designed to

facilitate convergence across disciplines and encourage team-based collaboration at the undergraduate level.

The certificate is open to students of any major, but may be of particular value to students who are planning to pursue science, environmental, health or agricultural communication as a career or students pursuing a career in a science, engineering, math and other technical fields interested in strengthening their communication skills.

## Objectives

- Encourage students to engage with community members, other students and faculty across interdisciplinary boundaries, diverse backgrounds, and divergent interests.
- Prepare students to communicate scientific findings and technological advances in a clear and compelling manner while also encouraging inclusive communication that acknowledges others' values and concerns.
- Cultivate students' understanding of the origins and dynamics of science related controversies and conflicts.
- Challenge students to identify and address scientific misinformation, scientific skepticism, and science denial across social media, blogs, and other social and online networks.
- Prepare students to engage in constructive conversations with diverse audiences over contested science, environmental, health, and agricultural topics.

## Student Learning Outcomes

Students who complete the proposed science communication certificate will be able to:

- Create, co-produce, and evaluate public-facing science communication
- Understand and address the ethical, social, cultural, and historical factors that influence both the public communication of science and the rise and spread of science-related controversies
- Promote public and cross-disciplinary understanding of scientific information
- Co-produce knowledge with community stakeholders through public-facing projects
- Create effective and appropriate science messages across diverse and emergent media platforms, addressed to diverse audiences
- Critically analyze science messages addressed to public audiences around science
- Identify and address misinformation across social media, blogs, and other social and online networks
- Engage in constructive conversations about contested science, environmental, health, and agricultural topics

To prepare students for the challenge of communicating effectively at the intersection of science and society, students will take a core of 12-credits from the Greenlee School of Journalism and Communication, the English Department, and the Department of Philosophy and Religious Studies and 9-credits of electives from three tracks: science in practice, science and society, and communication in practice.

The certificate requires 21 credits, where 9 of the credits taken do not fulfill any other requirements for other majors or general education. Students must complete ENGL 250 before enrolling in the certificate. To successfully complete the certificate, students must submit and receive approval for a final portfolio consisting of a minimum of three applied, public-facing projects developed during or outside of their course work. A cumulative grade point average of at least 2.0 is required in courses taken for the certificate.

### Core Courses (12 credits)

JL MC 260	Media Controversies in Science and Technology	3
PHIL 206	Introduction to Logic and Scientific Reasoning	3
ENGL 312	Communicating Science and Public Engagement	3
JL MC 347	Science Communication	3

### Electives (9 credits)

Students will take one course from each of the three categories of electives: Science in Practice, Science and Society, and Communication in Practice.

- 6 of the 9 credits must be at the 300+ level.
- Students who engage in an internship or research experience (including those connected to courses) may seek approval from the steering committee to have this experience counted as an elective course. This experience must include a public-facing communication/outreach component, and the steering committee will decide which of the 3 categories of electives this experience would fulfill. Students who wish to count the internship toward the certificate must track their hours as well as complete a final paper about their experiences.

#### Science in Practice - select 1 course

BIOL 173	Environmental Biology	3
BIOL 251	Biological Processes in the Environment	3
BIOL 355	Plants and People	3
ENSCI 250	Environmental Geography	3
ENSCI 318	Introduction to Ecosystems	3
ENSCI 360	Environmental Soil Science	3
GEOL 101	Environmental Geology: Earth in Crisis	3
GEOL 102	History of the Earth	3
GEOL 108	Introduction to Oceanography	3
GEOL 160	Water Resources of the World	3

GEOL 201	Geology for Engineers and Environmental Scientists	3
GEOL 324	Energy and the Environment	3
MTEOR 404	Global Change	3
MTEOR 406	World Climates	3
NREM 120	Introduction to Renewable Resources	3
NREM 380	Field Ecology Research and Teaching	3

#### Science and Society - select 1 course

EDUC 347	Nature of Science	3
ENGL 355	Literature and the Environment	3
HIST 362	Global Environmental History	3
HIST 367	America Eats	3
HIST 383	Technology, Public Science, and European Culture, 1715-Present	3
HIST 482	Birth, Death, Medicine, and Disease	3
JL MC 401	Mass Communication Theory	3
JL MC 474	Communication Technology and Social Change	3
JL MC 476	World Communication Systems	3
PHIL 331	Moral Problems in Medicine	3
PHIL 334	Environmental Ethics	3
PHIL 336	Bioethics and Biotechnology	3
PHIL 343	Philosophy of Technology	3
PHIL 380	Philosophy of Science	3
PHIL 389	Philosophy of Psychology and Psychiatry	3
PHIL 485	Philosophy of Physics	3
POL S 283	Introduction to Environmental Politics and Policies	3
POL S 335	Science, Technology, and Public Policy	3
POL S 443	Energy Policy	3
SOC 382	Environmental Sociology	3
SOC 464	Strategies for Community Engagement	3
WGS 307	Women in Science and Engineering	3
WGS 320	Ecofeminism	3
WGS 380	History of Women in Science, Technology, and Medicine	3
WLC 484	Technology, Globalization and Culture	3

#### Communication in Practice - select 1 course

COMST 327	Persuasion and Social Influence	3
COMST 450B	Special Topics in Communication Studies: Health Communication	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3
ENGL 332	Visual Communication of Quantitative Information	3

ENGL 350	Rhetorical Traditions	3
ENGL 411	Technology, Rhetoric, and Professional Communication	3
ENGL 477	Seminar in Technical Communication	3
ENGL 487	Internship in Business, Technical, and Professional Communication	1-3
LING 120	Computers and Language	3
NREM 330	Principles of Interpretation	3
P R 220	Principles of Public Relations	3
P R 305	Publicity Methods	3
P R 323X	Strategic Communication in Agriculture and the Environment	3
SP CM 212	Fundamentals of Public Speaking	3
SP CM 310	Rhetorical Analysis	3

## Sociology

### Undergraduate Study in Sociology

The Department of Sociology offers course work leading to either a bachelor of arts, bachelor of science, or a minor in sociology. Additionally, a bachelor of science in Agricultural & Rural Policy Studies is offered.

### Student Learning Outcomes

Graduates of all these programs will understand and demonstrate:

1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology skills
7. communication skills
8. personal and career development

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

## Degree Requirements

As majors in the College of Liberal Arts and Sciences, Sociology students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

### University Requirements:

International Perspective	3
US Diversity	3

See <http://www.registrar.iastate.edu/courses/div-ip-guide.html> for a list of approved courses.

<b>Total Credits</b>	<b>6</b>
----------------------	----------

### Communications:

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3

One of the following	3
----------------------	---

ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
LIB 160	Introduction to College Level Research	1

<b>Total Credits</b>	<b>10</b>
----------------------	-----------

### World Languages and Culture:

3 years H.S.

SPAN 097	Accelerated Spanish Review	0
2 semesters college		8

<b>Total Credits</b>	<b>8</b>
----------------------	----------

### Departmental Requirements for Sociology Majors

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major advisor. Students must maintain a GPA of 2.0 or higher in their core courses. Programs of study will include:

SOC 115	Orientation to Sociology	1
SOC 134	Introduction to Sociology	3
SOC 302	Research Methods for the Social Sciences	3
SOC 401	Contemporary Sociological Theories	3
6 credits of 200+ Sociology courses		6
18 credits of 300+ Sociology courses		18
<b>Total Credits</b>		<b>34</b>

### Bachelor of Arts or Bachelor of Science Degree

In addition to the program of study above, students must select complementary courses that will lead to a bachelor of arts or bachelor of science degree. Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I and III of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups IIA and IIB of the general education requirements. Some of the possible areas of coursework include criminal justice, community (urban and rural)

sociology, family sociology, sociology of work, research methods and statistics, social change and development, social inequality, social psychology and sociological theory.

### Bachelor of Arts complementary coursework:

STAT 101	Principles of Statistics	4
or STAT 104	Introduction to Statistics	
At least 9 additional arts and humanities and/or social science courses		9
LAS approved arts and humanities and/or social sciences courses. General education courses cannot be cross-listed or dual-listed with Sociology courses that count toward the major.		
<b>Total Credits</b>		<b>13</b>

### Bachelor of Science complementary coursework:

STAT 101	Principles of Statistics	4
or STAT 104	Introduction to Statistics	
At least 9 additional credits in natural science, math, or statistics		9
LAS approved mathematics and/or natural science courses. In addition, these courses may be used: STAT 301, STAT 401D, STAT 404, STAT 407, STAT 415, STAT 421, STAT 479; PSYCH 440; HD FS 449; ECON 308, ECON 376; C R P 451 and WGS 402. General education courses cannot be cross-listed or dual-listed with Sociology courses that count toward the major.		
<b>Total Credits</b>		<b>13</b>

LAS majors require a minimum of 120 credits to graduate, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

Majors must complete both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition. According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250. In addition, majors must also take an advanced course in ENGL 302 Business Communication or ENGL 309 Proposal and Report Writing or ENGL 314 Technical Communication with a grade of C or better.

## Sociology, Bachelor of Arts (BA) and Bachelor of Science (BS)

### Freshman

		<b>15</b>
		<b>12-15</b>

Sociology Minor

The department offers a minor in sociology which may be earned by completing 15 credits in sociology with a minimum 2.0 GPA. At least 9 of the 15 credits must be at the 300 level or higher with a minimum of 6 of those credits taken at ISU. The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

Students are required to earn credit for the following courses:

SOC 134	Introduction to Sociology	3
Additional 12 credits in Sociology courses		12
9 credits must be 300+		
<b>Total Credits</b>		<b>15</b>

Graduate Study

The Department offers study toward the **Master of Science** and **Doctor of Philosophy** degrees, with majors available in **Sociology** and **Rural Sociology**, as well as a graduate minor in **Sociology** for students majoring in other departments. The Department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; criminal justice/ criminology; methodology; social change and development; and social psychology. The Department of Sociology does not offer a non-thesis option Master’s degree program.

The Department accepts applicants for the PhD program from students who hold a Master’s degree, as well as from students who wish to enter the program directly with a Bachelor’s degree.

Contact information: Kyle Burgason, 202 East Hall, 515-294-9898 or burgason@iastate.edu.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the Department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The Department also participates in the interdepartmental graduate major in **Sustainable Agriculture**, and the interdepartmental graduate minor in **Gerontology**.

Course requirements are listed below. Information about examinations, theses and dissertations, POS committees and other requirements are available on the Department of Sociology website.

Ph.D. Core Degree Requirements

Although responsibility for determining the student’s course work resides with the Plan of Study (POS) committee, the Department of Sociology outlines core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the Ph.D. core requirements with approval by the Director of Graduate Education (DOGE) in consultation with the student’s POS committee.

A minimum of 72 semester credits (including master’s degree credits) is required for graduation.

Required Courses for the Ph.D. Degree

STAT 582	Regression for Social and Behavioral Research	3
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3
SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	3
SOC 513	Qualitative Research Methods	3
SOC 534	Race, Class and Gender Inequality	3
SOC 591	Orientation to Sociology	1
SOC 607	Contemporary Sociological Theory	3
SOC 699	Research (minimum 8 credits)	8
14 three-credit elective courses as specified on the POS		42
No more than 12 credits of 590 (special topics) may be applied toward the Ph.D. degree requirements.		
<b>Total Credits</b>		<b>72</b>

## Ph.D. Minor / Co-Major Requirements

### Required Courses for the Ph.D. Minor

SOC 506	Classical Sociological Theory	3
or SOC 607	Contemporary Sociological Theory	
SOC 511	Research Methodology for the Social Sciences	3
One of the following two courses:		
SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	3
or SOC 513	Qualitative Research Methods	
Two 3-credit graduate-level courses in Sociology.		6
<b>Total Credits</b>		<b>15</b>

### Required Courses for the Ph.D. Co-Major

STAT 582	Regression for Social and Behavioral Research	3
SOC 506	Classical Sociological Theory	3
SOC 511	Research Methodology for the Social Sciences	3
One Course in Advanced Methodology:		
SOC 512	Applied Multivariate Statistics for Social and Behavioral Research	
SOC 513	Qualitative Research Methods	
SOC 534	Race, Class and Gender Inequality	3
SOC 591	Orientation to Sociology	1
SOC 607	Contemporary Sociological Theory	3
3 additional three-credit graduate-level courses in Sociology		9
A minimum of 28 total credits is required for the PhD co-major		

### Co-Major Requirements for the Graduate Program in Sustainable Agriculture

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and Ph.D. degrees, as established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

The Department does not offer double majors in sociology.

For admission to the co-major program contact the graduate program coordinator.

## M.S. Core Degree Requirements

Although responsibility for determining the student's course work resides with the POS committee, the Department of Sociology outlines core courses that must be taken by all students. A graduate course taken elsewhere can be substituted for the core requirements with approval by the Director of Graduate Education (DOGE) in consultation with the student's POS Committee.

### Required Courses for the M.S. Degree

STAT 587	Statistical Methods for Research Workers	4
SOC 506	Classical Sociological Theory	3
or SOC 607	Contemporary Sociological Theory	
SOC 511	Research Methodology for the Social Sciences	3
SOC 513	Qualitative Research Methods	3
or STAT 582	Regression for Social and Behavioral Research	
SOC 591	Orientation to Sociology	1
SOC 699	Research	1-8
4 three-credit elective courses as specified on the POS		12
No more than 6 credits of 590 (special topics) may be applied toward the M.S. degree requirements.		
<b>Total Credits</b>		<b>27-34</b>

## M.S. Minor / Co-Major Requirements

### Required Courses for the M.S. Minor

SOC 506	Classical Sociological Theory	3
or SOC 607	Contemporary Sociological Theory	
SOC 511	Research Methodology for the Social Sciences	3
Two 3-credit graduate-level courses in Sociology.		6
<b>Total Credits</b>		<b>12</b>

### Required Courses for the M.S. Co-Major

STAT 587	Statistical Methods for Research Workers	4
SOC 506	Classical Sociological Theory	3
or SOC 607	Contemporary Sociological Theory	
SOC 511	Research Methodology for the Social Sciences	3
One Course in Advanced Methodology:		
STAT 582	Regression for Social and Behavioral Research	3
or SOC 513	Qualitative Research Methods	
SOC 591	Orientation to Sociology	1
2 additional three-credit graduate-level courses in sociology		6
A minimum of 20 total credits is required for the M.S. co-major		

The department does not offer double majors in sociology at the graduate level. Admission requirements to the co-major program are the same as for the major.

### Co-Major Requirements for the Graduate Program in Sustainable Agriculture

The Graduate Program in Sustainable Agriculture (GPSA) develops student competence and expertise in the design, implementation, and evaluation of sustainable agricultural systems. The program's curriculum satisfies the formal requirements for the MS and PhD degrees, as

established by the ISU Graduate College, and fosters transdisciplinary and systems-level thinking.

## Software Engineering

Administered by the College of Engineering and the College of Liberal Arts and Sciences.

For the undergraduate curriculum in Software Engineering (<http://www.se.iastate.edu>) leading to the degree Bachelor of Science. The Software Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

A software engineer uses their expertise to design, develop, and evaluate software, configure and install computer systems, and build and maintain software systems throughout their lifecycle. Specific tasks software engineers perform evolve quickly, reflecting changes in technology, as well as the needs of employers. Software engineers work as members of teams that may include experts in engineering, marketing, manufacturing, accounting, training, and design.

The Software Engineering Program provides undergraduate students with the opportunity to learn Software Engineering fundamentals, to study applications of state-of-the-art software technologies, and to prepare for the practice of Software Engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research, and outreach programs.

## Student learning outcomes

Graduates of the Software Engineering curriculum should have, at the time of graduation:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

## PROGRAM EDUCATIONAL Objectives

Within five years of graduation, the graduates should:

1. attain a **productive career** in Software Engineering or related fields;
2. attain **leadership** roles and become **effective collaborators** to advance professional and organizational goals;
3. engage in **lifelong learning** and professional development;
4. encourage and support **diversity** and **inclusiveness** in their workplace.

We expect that these objectives will be manifested in our graduates through the following five key attributes: (a) *peer-recognized expertise*, (b) *engagement in professional practice*, (c) *sustained learning*, (d) *leadership* and (e) *teamwork*.

Demonstration of expertise involves applying state-of-the-art practices for solving problems in the design, development, validation, evolution and sustainment of (software) products. Demonstration of professional engagement involves contributing locally and globally to the use of ethical, competent, and creative practices in industry, academia or the public sector. Demonstration of sustained learning involves the ability to adapt to rapid technological, environmental, and organizational changes through self-study and group study and through opportunities of professional development or graduate study. Demonstration of leadership involves the ability to take initiative, and to facilitate the advancements of individuals and the community by influencing others and by having a widespread, positive impact on critical issues and projects. Finally, demonstration of teamwork involves the ability to work with collaborators who have varied expertise, and with diverse cultural and interdisciplinary backgrounds.

---

As a complement to the instructional activity, the College of Engineering and the College of Liberal Arts and Sciences provide opportunities for each student to have experience with broadening activities. Students have the opportunity to gain practical industry experience in the cooperative education and internship program. Students have the opportunity to participate in advanced research activities. Through international exchange programs, students learn about engineering practices in other parts of the world.

## Curriculum in Software Engineering

Degree requirements leading to the degree Bachelor of Science in Software Engineering.

### Total credits required: 125 cr.

Any transfer credit courses applied to the degree program require a grade of C or better (but will not be calculated into the ISU cumulative GPA, Engineering Basic Program GPA, or Software Engineering Core GPA). See also Engineering Basic Program and Special Programs. Note: Pass/Not Pass credits cannot be used to meet graduation requirements.

International Perspectives: 3 cr. <sup>1</sup>

U.S. Diversity: 3 cr. <sup>1</sup>

### Communication Proficiency/Library requirement:

ENGL 150	Critical Thinking and Communication (C or better in this course)	3
ENGL 250	Written, Oral, Visual, and Electronic Composition (C or better in this course)	3
LIB 160	Introduction to College Level Research	1
Choose one of the following:		3
ENGL 309	Proposal and Report Writing (C or better in this course)	
ENGL 314	Technical Communication (C or better in this course)	
<b>Total Credits</b>		<b>10</b>

### General Education Requirements: 21 cr. <sup>2</sup>

Choose 1 course from the following:		3
ECON 101	Principles of Microeconomics	
ECON 102	Principles of Macroeconomics	
I E 305	Engineering Economic Analysis	
Approved Arts and Humanities or Social Sciences courses		9
ENGL 250	Written, Oral, Visual, and Electronic Composition (C or better in this course)	3
Choose one of the following ENGL courses (C or better in this course)		3
ENGL 309	Proposal and Report Writing	
ENGL 314	Technical Communication	
SP CM 212	Fundamentals of Public Speaking	3
<b>Total Credits</b>		<b>21</b>

### Engineering Basic Program: 24 cr.

A minimum GPA of 2.00 is required for this set of courses (please note that transfer course grades will not be calculated into the Engineering Basic Program GPA). See Requirement for Entry into Professional Program in College of Engineering Overview section.

CHEM 167	General Chemistry for Engineering Students	4
or CHEM 177	General Chemistry I	
ENGL 150	Critical Thinking and Communication (C or better in this course)	3
S E 101	Software Engineering Orientation <sup>3</sup>	R
S E 185	Problem Solving in Software Engineering <sup>3</sup>	3
LIB 160	Introduction to College Level Research	1
MATH 165	Calculus I	4
MATH 166	Calculus II	4
PHYS 231	Introduction to Classical Physics I	4
PHYS 231L	Introduction to Classical Physics I Laboratory	1
<b>Total Credits</b>		<b>24</b>

### Math and Physical Science: 17 cr.

COM S 227	Object-oriented Programming (C- or better in this course)	4
COM S 228	Introduction to Data Structures (C- or better in this course)	3
MATH 267	Elementary Differential Equations and Laplace Transforms	4
Math Elective: Choose one of the following:		3
MATH 207	Matrices and Linear Algebra	
MATH 265	Calculus III	
MATH 304	Combinatorics	
MATH 314	Graph Theory	
MATH 317	Theory of Linear Algebra	
STAT 330	Probability and Statistics for Computer Science	3
<b>Total Credits</b>		<b>17</b>

### Software Engineering Core: 37 cr.

A minimum GPA of 2.00 is required for this set of courses, including any transfer courses (please note that transfer course grades will not be calculated into the Software Engineering Core GPA):

CPR E 281	Digital Logic	4
Choose one of the following:		3
COM S 327	Advanced Programming Techniques	
CPR E 288	Embedded Systems I: Introduction	
Choose one of the following:		3
COM S 321	Introduction to Computer Architecture and Machine-Level Programming	
CPR E 381	Computer Organization and Assembly Level Programming	
Choose one of the following:		3
COM S 352	Introduction to Operating Systems	

CPR E 308	Operating Systems: Principles and Practice	
Choose one of the following:		3
COM S 230	Discrete Computational Structures	
CPR E 310	Theoretical Foundations of Computer Engineering	
COM S 311	Introduction to the Design and Analysis of Algorithms	3
COM S 363	Introduction to Database Management Systems	3
S E 309	Software Development Practices	3
S E 317	Introduction to Software Testing	3
S E 319	Construction of User Interfaces	3
S E 339	Software Architecture and Design	3
S E 421	Software Analysis and Verification for Safety and Security	3

Note: CPR E 288, CPR E 381, and CPR E 308 are 4-credit courses. The Software Engineering Core credit requirement (37 credits) is given in terms of 3-credit courses. If the 4-credit courses are taken instead, then the extra credits will be used as credits for Supplemental Electives.

**Total Credits** **37**

### Other Remaining Courses: 26 cr.

S E 166	Careers in Software Engineering	R
S E 491	Senior Design Project I and Professionalism	3
S E 492	Senior Design Project II	2
Software Engineering Electives <sup>2</sup>		9
Supplemental Electives <sup>2</sup>		9
Open Elective <sup>2</sup>		3
<b>Total Credits</b>		<b>26</b>

### Optional Co-op/Internships

Co-op (ENGR 398) or internship (ENGR 396) is optional

### Transfer Credit Requirements

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a Bachelor of Science in Software Engineering. These 30 credits must include S E 491 Senior Design Project I and Professionalism and S E 492 Senior Design Project II. The Software Engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S Diversity and International Perspectives courses may not be taken Pass/Not Pass.

2. Choose from approved lists (<http://www.se.iastate.edu/academics/>).

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Engineering Basic Program.

See also: A 4-year plan of study grid showing course template by semester.

Note: International Perspectives and U.S. Diversity courses are used to meet the General Education Electives (<http://www.se.iastate.edu/academics/>).

**Total Credits: 125**

\* Total credits required - 125 credits. Any transfer credit courses applied to the degree program require a grade of C or better (but will not be calculated into the ISU Cumulative GPA, Engineering Basic Program GPA, or Software Engineering Core GPA). See also Basic Program and Special Programs.

Engineering Basic Program - A minimum GPA of 2.00 is required for this set of courses, including any transfer courses (please note that transfer course grades will not be calculated into the Engineering Basic Program GPA)

Must receive a C or better grade in required English classes.

Must receive a C- or better grade in MATH 165, MATH 166, COM S 227, and COM S 228.

General Educational Elective courses to be selected in consultation with Software Engineering Academic Advisors from a list of approved courses. They must include courses that satisfy university and college general education requirements. These courses include courses or categories of courses such as International Perspectives and U.S. Diversity, World Language, Arts and Humanities, and Social Sciences. Pass/Not Pass credit is not accepted.

Software Engineering Electives and Supplemental Electives must be selected from the program-approved list (<http://www.se.iastate.edu/academics/>).

<sup>1</sup> Software Engineering Core (A minimum GPA of 2.00 is required for this set of courses, including any transfer courses but transfer course grades will not be calculated into the Software Engineering Core GPA)

<sup>2</sup> Students who take the 4-credit lab courses CPR E 288, CPR E 308, and CPR E 381 instead of the corresponding 3-credit alternatives can apply the additional credits toward Supplemental Electives. The total number of credits required in the Software Engineering Program remains the same for all students.

The Software Engineering Program has established concurrent undergraduate and graduate programs with the Department of Computer Science, the Department of Electrical and Computer Engineering, and the Ivy College of Business. Please visit <https://se.iastate.edu/academics/> for details.

## Speech Communication

*The Speech Communication Major will be discontinued Fall 2023 pending Board of Regents State of Iowa approval.*

## Overview

Speech Communication, a major in the Department of English, helps students develop their understanding and appreciation of the human communication process and enhances their oral and written communication practice. Speech Communication students develop an awareness of the importance of oral communication and listening for success in their personal, civic, and professional lives; become familiar with behavioral research in persuasion; understand how language is used to create social change; develop competent delivery skills; assess the quality of arguments; evaluate information found in research and public discourse; and cultivate rhetorical sensitivity in order to better connect with individuals and audiences. In this way, the program contributes to the humanistic, aesthetic, and critical development of liberally educated students in order to prepare them for full and effective participation in society.

## Undergraduate Study

The cross-disciplinary program in speech communication offers courses designed for all students as part of their general education and as a complement to their professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management: human resources, benefits, financial services, retail, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication and related disciplines.

The program participates in the interdisciplinary program in Linguistics. Speech Communication also offers a core course and several optional courses in the undergraduate certificate program in Leadership Studies.

## Learning Outcomes

Students who major in Speech Communication will be able to

- understand and apply technical vocabularies, theories, and perspectives to analyze contemporary problems and one's own communication practice.
- speak and listen well and have the self-confidence to become an active leader in communities.

- recognize persuasive strategies, assess reasoning, and perform research in the discipline.

*The Speech Communication Major will be discontinued Fall 2023 pending Board of Regents State of Iowa approval.*

Speech Communication Major

As majors in the College of Liberal Arts and Sciences, Speech Communication students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

Core Requirements (18 credits)

SP CM 110	Listening	3
SP CM 212	Fundamentals of Public Speaking	3
SP CM 216	America Speaks: Great Speakers and Speeches in US History	3
SP CM 310	Rhetorical Analysis	3
COMST 327	Persuasion and Social Influence	3
or SP CM 350	Rhetorical Traditions	
SP CM 497 or SP CM 490		3

Additional Coursework (Choose at least 5 of the following for 15 credits)

ENGL 418	Seminar in Argumentation	3
SP CM 275	Analysis of Popular Culture Texts	3
SP CM 312	Business and Professional Speaking	3
SP CM 323	Gender and Communication	3
SP CM 324	Legal Communication	3
COMST 327	Persuasion and Social Influence	3
SP CM 350	Rhetorical Traditions	3
SP CM 417	Campaign Rhetoric	3

Credits in SP CM 290 Special Projects or SP CM 499 Communication Internship cannot be applied toward the minimum required credits for the major.

The Communication Proficiency requirement may be met by (1) completion of ENGL 150 Critical Thinking and Communication; (2) completion of or credit for ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors), or its equivalent, with a grade of C or better; (3) one additional writing course beyond ENGL 250 Written, Oral, Visual, and

Electronic Composition with a grade of C or better from the following approved list:

ENGL 302	Business Communication	3
ENGL 303	Free-Lance Writing for Popular Magazines	3
ENGL 304	Creative Writing: Fiction	3
ENGL 305	Creative Writing: Nonfiction	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3
ENGL 415	Business and Technical Editing	3
JL MC 201	Reporting and Writing for the Mass Media	3

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

Speech Communication Education

Students working toward a primary teaching endorsement in another discipline may take coursework toward a speech communication endorsement. Please contact the Iowa State University School of Education's Teacher Education Services.

*The Speech Communication Major will be discontinued Fall 2023 pending Board of Regents State of Iowa approval.*

<b>15</b>		<b>15</b>

### Total Credits: 123-121

Speech Communication choices include SP CM 305, 312, 313, 322, 323, 324, 350 (also ENGL 350), and SP CM 417. Note: Students must earn a C or better in all Speech Communication courses used to meet the 33 credits required for the major.

## Speech Communication Minor

Students from any major can complement their studies with a Speech Communication Minor (<https://engl.iastate.edu/undergraduate-students/minors/#spcm>). The requirements for a minor in speech communication may be fulfilled by credit in SP CM 212 Fundamentals of Public Speaking plus at least 15 additional hours from the lists above, of which 9 credits are in courses numbered 300 or above taken at Iowa State University. The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

## Graduate Study

The program offers courses for a graduate minor in speech communication as well as supporting work for other disciplines. The requirements for a graduate minor (<https://engl.iastate.edu/graduate-students/>) in Speech Communication include:

SP CM 310	Rhetorical Analysis	3
Plus 9 additional hours selected from the following		9
SP CM 323	Gender and Communication	
SP CM 417	Campaign Rhetoric	
SP CM 513	Teaching Fundamentals of Public Speaking	
SP CM 547	The History of Rhetorical Theory from the Classical Era to the Present	
SP CM 548	Cultural and Critical Theories of Communication and Rhetoric	
SP CM 590	Special Topics	
SP CM 592	Core Studies in Rhetoric, Composition, and Professional Communication	

The Program of Speech Communication also participates in the interdepartmental program leading to a master's degree in Interdisciplinary Graduate Studies.

## Statistics Overview of Statistics

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) statistics positions in business, industry or commerce, nonprofit institutions, and in state or federal government; and (2) graduate study in statistics. Positions include the following types of work: statistical design, data visualization, analysis and interpretation of experiments and surveys; data processing and analysis using modern computation facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, technology, marketing, manufacturing, sports analytics, quality control, and nonprofit organizations, such as institutions involved in health care or medical research.

Given the application of statistical work to a broad range of fields, students majoring in statistics often obtain at least a minor in a field of application. Some common minors earned by statistics majors are Economics, General Business, and Mathematics. Students preparing for positions in data analysis should consider a minor or certificate in Data Science. Students preparing for a career in the field of actuarial science should consider a certificate in Actuarial Science. Students intending to pursue graduate study in Statistics are strongly advised to complete at least a minor in Mathematics (<https://catalog.iastate.edu/collegeofliberalartsandsciences/mathematics/#undergraduateminortext>) including credit in MATH 414 Analysis I.

Many Statistics majors earn an additional major or degree in a field of application or in Mathematics. Your academic advisor can assist you in developing your course of study including other majors.

## Student Learning Outcomes

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. Upon graduation, students should be able to:

- design observational studies and experiments in order to efficiently collect data to help answer questions about science, technology, and society.
- analyze data arising from observational studies and experiments in order to help answer questions about the world around them.
- use modern statistical computing to aid in the collection and analysis of data.
- explain and apply the mathematical and theoretical basis for probability and statistical inference to help answer questions about the world around them.
- effectively communicate statistical findings using oral, visual and written formats.
- effectively respond to ethical issues associated with data collection, data analysis, and communication of statistical findings.

## Undergraduate Major

The requirements for the undergraduate major in statistics are:

STAT 110	Orientation in Statistics	1
STAT 201	Introduction to Statistical Concepts and Methods	4
STAT 301	Intermediate Statistical Concepts and Methods	4
STAT 341	Introduction to the Theory of Probability and Statistics I	4
STAT 342	Introduction to the Theory of Probability and Statistics II	4
STAT 471	Introduction to Experimental Design	3
STAT 475	Introduction to Multivariate Data Analysis	3
STAT 484	Computer Processing of Scientific Data	3
STAT 486	Introduction to Statistical Computing	3

A minimum of 6 credits from the following:

STAT 361	Statistical Quality Assurance
STAT 472	Introduction to Time Series
STAT 473	Introduction to Survey Sampling
STAT 474	Introduction to Bayesian Data Analysis
STAT 476	Introduction to Spatial Data Analysis
STAT 477	Introduction to Categorical Data Analysis
STAT 478	Introduction to Stochastic Process Models
STAT 482	Regression for Social and Behavioral Research
STAT 483	Empirical Methods for the Computational Sciences

Completion of one of the following options:

Option I

MATH 165	Calculus I
MATH 166	Calculus II
MATH 265	Calculus III

Option II

MATH 165	Calculus I
MATH 166H	Calculus II, Honors
MATH 265H	Calculus III, Honors

Credit in one of the following:

MATH 207	Matrices and Linear Algebra
MATH 317	Theory of Linear Algebra

Credit in one of the following:

COM S 127	Introduction to Computer Programming
COM S 207	Fundamentals of Computer Programming
COM S 227	Object-oriented Programming

Credit in one of the following:

COMST 211	Interpersonal Communication
SP CM 212	Fundamentals of Public Speaking

Credit in one of the following (with a grade of C- or higher):

ENGL 302	Business Communication
ENGL 302H	Business Communication: Honors
ENGL 314	Technical Communication
ENGL 314H	Technical Communication: Honors

As majors in the College of Liberal Arts and Sciences, Statistics students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

## Undergraduate Minor

The department offers a minor in statistics which may be earned by satisfying the following requirements:

- Credit in one introductory level course in statistics, chosen from the following list: STAT 101, STAT 104, STAT 201, STAT 226, STAT 231, STAT 305, STAT 322, STAT 330.
- Credit in one intermediate level course in statistics, chosen from the following list: STAT 301, STAT 326.
- At least 9 additional credits in statistics courses, chosen from the following list: STAT 341, STAT 342, STAT 347, STAT 361, STAT 471, STAT 472, STAT 473, STAT 474, STAT 475, STAT 476, STAT 477, STAT 478, STAT 482, STAT 483, STAT 484, STAT 486.

Courses selected to satisfy the minor must include at least 9 credits that are not used to meet any other department, college or university

requirement other than the credit requirement for graduation and credit requirement for courses numbered 300 or above.

Courses selected to satisfy the minor must include at least 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher.

## Graduate Study

The department offers graduate programs leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees with a major in statistics. Graduate work leading to a minor in statistics is available for students majoring in other programs, at both the M.S. and Ph.D. levels.

The Ph.D. degree is also offered as a co-major with other graduate programs. The department participates in inter-disciplinary graduate programs in Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Human Computer Interaction, Nutritional Sciences, and Wind Energy Science, Engineering, and Policy.

Graduates of the M.S. program have an understanding of basic statistical theory and methods. Elective courses in the M.S. program provide an opportunity for students to emphasize particular areas of statistical methods or application in their program. Students complete a minimum of 34 semester credits, including work on a capstone project resulting in a written creative component under the direction of an individual major professor and presented in a final oral examination.

Graduates of the Ph.D. program in statistics have studied advanced theory and methods, and have demonstrated the ability to conduct independent research resulting in an original contribution to the discipline. Candidates for the Ph.D. degree in statistics complete a minimum of 72 semester credits, including at least 18 credits given for research activity, pass an oral preliminary examination, and submit a written dissertation containing original research that is defended in a final oral examination. Dissertation research is typically conducted in close collaboration with a major professor and usually results in publishable material. The department does not offer specific program tracks or areas of emphasis, but the diversity of elective courses and research areas of faculty allow students to tailor their individual programs to reflect areas of particular interest.

Graduates of co-major Ph.D. programs in statistics and an applied scientific discipline have mastered basic statistical theory and have studied advanced methodology. Students complete a minimum of 72 semester credits for courses in statistics and the chosen scientific discipline. Students conduct research that is a combination of statistical methodology and the scientific discipline. Co-major professors work with the student to prepare for an oral preliminary examination and conduct research leading to a single dissertation project that produces an original contribution to at least one of the two disciplines that is defended in a final oral examination.

Graduates of co-major Ph.D. programs in statistics and an area of theoretical mathematics have mastered basic statistical methods and have studied advanced statistical theory. Students complete a minimum of 72 semester credits. Co-major professors assist the student in preparing a dissertation that represents original research that makes a contribution at the interface of statistical theory and a sub-discipline of mathematics. The dissertation is defended in a final oral examination.

## Teaching English as a Second Language (TESL) Minor

The Minor in TESL prepares students to teach English to nonnative speakers of English, either in community programs in the United States or in overseas locations. The Minor provides understanding of how languages work (ENGL 219/LING 219) and practical and theoretical applications in how English is taught to those who do not speak English natively (ENGL 322/LING 322, ENGL 324/LING 324, ENGL 325/LING 325, and ENGL 425/LING 425). The TESL Minor prepares students to cross cultural boundaries to learn about, interact with, and assist speakers of other languages in learning English, the leading global language today. A TESL Minor will help students become global citizens through interacting with and teaching those from around the world who come to the United States and by giving students skills that will allow them to live and work in other countries. All classes listed are requirements for the Minor in TESL (15 credits). A C or better is required in each course used to satisfy the minor. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Contact Isabella Perksen [iperksen@iastate.edu](mailto:iperksen@iastate.edu) for more information.

### Requirements

ENGL 219	Introduction to Linguistics	3
LING 322	Language and Society	3
LING 324	Introduction to Teaching ESL Literacy	3
LING 325	Teaching Methods for ESL Learners: Oral Communication Skills	3
ENGL 425	Second Language Learning and Teaching	3

## Technical Communication

The Technical Communication major (and additional major or minor) prepares students for careers that involve information—particularly scientific or technical information. Students learn to write and design workplace texts, including responsive digital content (such as websites). They are taught to make complex scientific, business, and technical content clear and usable for its audiences. Courses emphasize writing, editing, design (print and online), organization, research, critical thinking, and collaboration (especially with subject-matter experts). Some students double major in Technical Communication and a

technical or scientific field; Technical Communication is also often an additional major or minor for students who major in English (<http://catalog.iastate.edu/collegeofliberalartsandsciences/english/>).

## BS in Technical Communication Learning Outcomes

Students who major in Technical Communication will be able to

- compose a wide range of print and online documents for use in business, schools, and communities.
- understand technical and scientific information and strategies for producing texts to communicate that information to others.
- describe and use the theories that assess print and online documents, collaboration, organizational activities, and various technologies.
- demonstrate mastery of concepts from organizational culture and visual communication, including collaborative writing and clear, responsive professional and technical documents.
- identify specific audience needs in rapidly changing digital and print environments.
- identify and create user-friendly interfaces; understand and put into practice strategies to enable the optimal usability of documents.

## Technical Communication Major Requirements

Majors develop advanced skills in multiple aspects of technical communication and apply their knowledge of technical communication to a specific discipline. Technical communication majors must take 33 credits within the major and 6 hours in a designated area of concentration related to science, technology, or design (an acceptable minor will also fulfill this requirement).

ENGL 214	Introduction to Technical Communication	3
ENGL 310	Rhetorical Analysis	3
ENGL 313	Rhetorical Website Design	3
ENGL 314	Technical Communication	3
ENGL 415	Business and Technical Editing	3
ENGL 416	Visual Aspects of Business and Technical Communication	3

Electives: 9 credits (with at least 6 credits from 400 or above courses)

ENGL 220	Descriptive English Grammar
ENGL 302	Business Communication
ENGL 309	Proposal and Report Writing
SP CM 312	Business and Professional Speaking
ENGL 312	Communicating Science and Public Engagement

ENGL 350	Rhetorical Traditions	
ENGL 418	Seminar in Argumentation	
ENGL 477	Seminar in Technical Communication	
ENGL 487	Internship in Business, Technical, and Professional Communication	
ENGL 542	Technical Editing and Publication Management	
ENGL 549	Multimedia and Interaction Design	
Designated Area of Concentration (DAC) in technical, scientific, or design field		6
<b>Total Credits</b>		<b>33</b>

## Technical Communication Major Requirements

Technical Communication majors are required to have, in addition to ISUComm foundation courses (ENGL 150 (<http://catalog.iastate.edu/search/?P=ENGL%20150>) Critical Thinking and Communication and ENGL 250 (<http://catalog.iastate.edu/search/?P=ENGL%20250>) Written, Oral, Visual, and Electronic Composition), at least 33 credits in TComm (including 6 credits in a designated area of concentration). Majors transferring from other institutions must take at least 18 of their credits in TComm while in residence at Iowa State.

To graduate with a major in Technical Communication and meet the university-wide Communication Proficiency Grade Requirement, a student must have credit for ENGL 150 Critical Thinking and Communication and earn at least a C (not C-) in ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study, including one advanced communication course.

## Designated Area of Concentration Courses

The Designated Area of Concentration (DAC) is a student-designed grouping of related courses in a technical, scientific, or design field that will meet the student's professional or academic interests. Courses for the 6-credit DAC must be taken outside the English Department and approved by the Technical Communication Program Advisor. An additional major or a minor in areas such as computer science, social science, natural science, entrepreneurial studies, design studies, engineering studies, or another technical, scientific, or design field may substitute for the DAC.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check <http://www.registrar.iastate.edu/courses/div-ip-guide.html> for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS world language requirement and career proficiency requirement.

As majors in the College of Liberal Arts and Sciences, Technical Communication students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

## Technical Communication Minor Requirements

The department offers a minor in Technical Communication, which students may earn by completing the following:

ENGL 314	Technical Communication	3
Choose 4:		12
ENGL 214	Introduction to Technical Communication	
ENGL 302	Business Communication	
ENGL 309	Proposal and Report Writing	
ENGL 310	Rhetorical Analysis	
ENGL 312	Communicating Science and Public Engagement	
ENGL 313	Rhetorical Website Design	
ENGL 332	Visual Communication of Quantitative Information	
ENGL 350	Rhetorical Traditions	

or with the appropriate prerequisites

ENGL 411	Technology, Rhetoric, and Professional Communication	
ENGL 415	Business and Technical Editing	
ENGL 416	Visual Aspects of Business and Technical Communication	
ENGL 418	Seminar in Argumentation	
ENGL 477	Seminar in Technical Communication	
ENGL 529	Content Management	
ENGL 542	Technical Editing and Publication Management	
ENGL 549	Multimedia and Interaction Design	

**Total Credits** **15**

Nine of the 15 credits must be 300 level or above and students must earn a grade of C (not C-) or higher in each course taken in the minor. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Students may design their minor programs around their own interests but are encouraged to work with the Technical Communication Program Advisor.

Note: Students should check the ISU catalog to be sure that they meet prerequisites if they intend to register for 400+ courses.

## Theatre and Performing Arts Overview

[www.music.iastate.edu/theatre](http://www.music.iastate.edu/theatre) (<http://www.music.iastate.edu/theatre/>)

The Theatre and Performing Arts program:

- Utilizes a flexible, interdisciplinary curriculum.
- Focuses on undergraduate experiences, high impact learning, interdisciplinary and cross-community collaboration, and exceptional professional preparation and training.
- Engages in collaborative, innovative practices in both classroom and production settings.
- Empowers students to take an active role in an interconnected system of artistic community engagement and creative momentum.
- Is dedicated to individualized student-centered programming that is ambitious, relevant, and rigorous.

ISU Theatre impacts hundreds of students from majors throughout the university in our classes, productions and studios. Our students are compassionate, enthusiastic, aware, ambitious, dependable, dedicated, disciplined and generous. The Theatre and Performing Arts program offers a wide variety of courses that support the student's individual interests and specialization.

The major in performing arts offers the undergraduate student a cross-disciplinary core including 26 credits in three categories: Theatre, Music and Dance. Students also select a 21-22 credit emphasis in one or more of the following areas of focus:

- Acting/Directing
- Dance
- Musical Theatre
- Theatrical Design and Technology

Additional professional development occurs within two required professional internships in which students can practice the skills and passions developed throughout their individualized plans of study. Preparation for these internships include various impactful experiences in theatre and the performing arts here at Iowa State. This work is vital for students to gain a practical understanding of the rigors of the field.

ISU Theatre and Performing Arts focuses solely on the undergraduate student artist, offering students many opportunities to participate in production experiences throughout the academic year. Students implement the theories and principles explored in the classroom with experiential learning through public performances. These productions vary in scope, taking place in the 435-seat proscenium space at Fisher

Theatre as well as in other intimate and “found” venues both on and off campus. Performing arts majors must maintain a 2.0 GPA to participate in production activities. Scholarships and employment opportunities are available to both incoming and current students on a yearly basis. All areas of ISU Theatre and Performing Arts, including classes and productions, are open to all students regardless of major. Visit here (<https://www.music.iastate.edu/how-get-involved-theatre-and-performing-arts/>) to learn about scholarships and all of the ways to get involved with Theatre and the Performing Arts at ISU.

In addition to building a solid foundation in theatre, Performing Arts graduates enter the world as empathetic members of their community prepared to engage in civic life and meet the challenges of the work force or graduate school with strong skills in leadership, collaboration, and critical thinking.

## Student Learning Outcomes

Upon graduation, students should be able to:

- Recognize the ways in which theatre and performing arts can reflect and change communities and culture.
- Apply collaboration principles to the creation of performing arts.
- Analyze dramatic literature and performances from dramaturgical, performative, sensory, aesthetic, and community perspectives.
- Organize and integrate resources - including human (self and others), technology, and systems - to solve abstract and practical problems.
- Compare and critique performing arts theory, practice, literature, design, performance, and one's own process and work within cultural and historical contexts.

## Bachelor of Arts - Performing Arts Major (Perf)

As majors in the College of Liberal Arts and Sciences, students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated below for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

**All performing arts majors must complete both the performing arts core and at least one of the emphases listed below. A Minimum GPA of 2.00 in both the major core and the chosen emphasis is required to graduate.**

## The Core for the Performing Arts Major (26 credits)

MUSIC 101	Fundamentals of Music	2
THTRE 106	Introduction to the Performing Arts	3
or THTRE 110	Theatre and Society	
or MUSIC 102	Introduction to Music Listening	
THTRE 250	Technical Theatre Practicum	2
THTRE 251	Acting Foundations	3
THTRE 255	Introduction to Theatrical Production	4
THTRE 263	Script Analysis	3
PERF 105	Performing Arts Seminar (Six semesters required at .5 credits per semester)	3
PERF 310	Performing Arts Internship (2 professional internships required)	R
or THTRE 499	Theatre Internship	
PERF 401	Performing Arts Capstone Seminar	2
Choose four credits of DANCE from the following:		4
DANCE 120	Modern Dance I	
DANCE 130	Ballet I	
DANCE 140	Jazz I	
DANCE 150	Tap Dance I	
DANCE 160	Ballroom Dance I	
DANCE 211	Fundamentals and Methods of Social and World Dance	
DANCE 220	Modern Dance Composition	
DANCE 222	Modern Dance II	
DANCE 223	Modern Dance III	
DANCE 232	Ballet II	
DANCE 233	Ballet III	
DANCE 242	Jazz II	
DANCE 250	Yoga Movement	
DANCE 270	Dance Appreciation	
DANCE 320	Sound and Movement	
DANCE 360	History and Philosophy of Dance	
DANCE 370	Advanced Studies in Dance	
DANCE 384	Teaching Children's Dance	
DANCE 385	Methods of Teaching Dance	
DANCE 386	Teaching Dance Technique and Composition	

**Total Credits**

**26**

**Emphasis in Acting/Directing (22 Credits)**

MUSIC 125	Class Voice (1 semester of MUSIC 125 or 118A required) or MUSIC 118A Applied Music: Non-majors: Voice	1
THTRE 151	Actor's Voice and Movement	3
THTRE 393	Studies in Theatre Design and Production Workshop (any THTRE 393)	3
THTRE 455	Directing	3
THTRE 465	Theatre History: Ancient to 19th Century	3
THTRE 466	Theatre History: 19th Century to Present	3
Choose 6 credits from the following:		6
THTRE 351	Acting: Contemporary Scene Study	
THTRE 352	Puppetry Design and Performance	
THTRE 353	Acting for the Camera	
THTRE 451	Acting: Period Styles	
THTRE 316	Creative Writing: Playwriting	
THTRE 456	Advanced Directing

Please see the Department advisors for more information about suggested Four Year Plans for the Emphases in Dance. Students in all ISU majors must complete a three-credit course in U.S. Diversity and a three-credit course in International Perspectives. Consult the catalogue for a list of approved courses. Discuss with your advisor how these two courses can be applied to your graduation plan.

Performing Arts Minor

To complete the minor in Performing Arts, students must take at least 15 credits of either Theatre or Performing Arts courses. Six credits must be 300 level or higher. *THTRE 224, 250, 290, 301, 469, 490, and 499 do not count toward the Performing Arts minor.* The minor must include at least 9 credits that are not used to meet any other department, college or university requirement. The following classes are required:

PERF 105	Performing Arts Seminar (3 semesters)	0.5
THTRE 255	Introduction to Theatrical Production	4
THTRE 263	Script Analysis	3

U.S. Latino/a Studies Program Overview

Latinos/as/x are the largest and fastest growing culturally diverse population in the United States, representing dynamic and thriving American realities.

U.S. Latino/a Studies at Iowa State University is a cross-disciplinary, coalition-building program that offers well-structured and creative coursework to students interested in the arts, cultures, economies, histories, politics, religions, and literatures of Latino/a/x communities throughout the United States. It facilitates the study of a vast array of communities and individuals with roots in the Caribbean and Latin America, and long-established U.S. citizen communities such as Chicanos/as, Mexican Americans, Tejanos, Californios, Cuban-Americans, Dominican-Americans, and Puerto Ricans on the island and on the mainland.

The program aims to serve as a hub that connects classes, service and outreach opportunities across colleges, schools, and departments. Consequently, students can discover a stimulating field of critical and academic research, engage in an exciting platform on which to link different fields of study, and become part of outreach/community networks in which they will grow to become outstanding, conscientious leaders in their respective careers.

The Program in U.S. Latino/a Studies is well suited to careers in Education, Psychology, History, Sociology, Business, Journalism, Spanish Language and Cultures, Women’s and Gender Studies, and Agriculture. A U.S. Latino/a Studies minor, or a double major with a Latino/a Studies track in Interdisciplinary Studies, strengthens student profiles as they compete for jobs on the global market because they have attained an in-depth experience of local and global experiences of Latin America and the Caribbean, as well as a sophisticated understanding of diversity and inclusion.

The US LS Program offers course work that meets the ISU U.S. Diversity requirement and also offers a 15 credit U.S. Latino/a Studies Minor (<https://usls.las.iastate.edu/minor/>).

U.S. Latina/o/x Studies Program Student Learning Outcomes

Upon the completion of their program of study, students with an interdisciplinary studies major in U.S. Latino/a/x Studies will demonstrate proficiency in four goal areas: Communication, Cross-Cultural Literacy, Critical Thinking, and Lifelong Learning Skills.

- 1. Communication: Key communication skills, including written, oral, and digital. Understanding textual and media sources and ability to apply media literacy to cross-cultural analysis. Working knowledge of social scientific and/or humanistic approaches in the field.
- 2. Cross-Cultural Literacy: Ability to communicate across communities and acknowledge different communicative styles and languages including Spanish, Portuguese, and Indigenous.
- 3. Critical Thinking: Ability to analyze from a transnational/transborder/translocal perspective and to objectively examine the interconnections between Latinx, Caribbean, and Latin American communities. Developing key skills, such as finding and understanding sources, comparing arguments, proposing solutions to discussed problems within an expansive historical perspective that includes class, ethnicity, gender, and race.
- 4. Lifelong Learning Skills: Acquisition of practical hands-on skills in community engagement, extension and outreach service, in different settings such as urban, rural, and international.

Interdisciplinary Studies Major, Track in U.S. Latino/a Studies

In addition to meeting the general requirements for the Interdisciplinary Studies major, students wishing to complete a track in U.S. Latino/a Studies must complete a minimum of 36 credits in the area of U.S. Latino/a Studies including US LS 211 (Introduction to U.S. Latino/a Studies) and an experiential learning course (US LS 325 or US LS 499). At least 15 of the 36 credits must be in courses numbered 300 and above and 6 credit hours must be earned at the 400-level. Students must also meet the upper-level communication proficiency requirement by taking

English 302 or 314. Students can work with the US LS program director and an Interdisciplinary Studies advisor to explore options within this individualized major program.

### Required Courses (36 credits)

US LS 211	Introduction to U.S. Latino/a Studies	3
One Experiential Learning course in US LS		3
US LS 325	Culture and Community: Iowa and Midwest Latino/as	
US LS 377X	Latina/o/x Life Stories: Memoirs and Oral History	
US LS 499	Internship in US Latino/a Studies	
Two of the following Historical Foundations of US LS		6
US LS 372	Latina/o History	
HIST 340	History of Latin America I	
HIST 341	History of Latin America II	
Two of the following Social Science Foundations of US LS		6
US LS 343	Latin American Government and Politics	
US LS 347	U.S. Latino/a Psychology	
US LS 360	Latinas and Victimization	
US LS 473	Civil Rights and Ethnic Power	
ANTHR 323	Topics in Latin American Anthropology	
SOC 332	The Latino/Latina Experience in U.S. Society	
SPAN 322	Latin American Civilization	
SPAN 324	Latin America Today	
Two of the following Literature and Language in US LS		6
SPAN 304	Spanish for Global Professionals	
SPAN 305	Spanish for Heritage Speakers	
SPAN 445	Seminar on the Literatures and Cultures of Latin America	
And twelve additional credits from any US LS, US LS cross-listed, or other course listed above		12
<b>Total Credits</b>		<b>36</b>

#### Notes

1. The list of acceptable courses may include courses not currently listed. Contact the Director of US Latino/a Studies for information on eligible courses.
2. The student must have an average grade of C in courses applied to the major.
3. Fulfillment of the world language requirement with Spanish is strongly recommended, but not required. Students pursuing multiple majors can apply up to nine (9) credits of approved Spanish courses (304, 322, 324, 445) to both the US LS and their other major.

As majors in the College of Liberal Arts and Sciences, Interdisciplinary Studies students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

### U.S. Latino/a Studies Minor

The minor in US Latino/a Studies requires a minimum of 15 credit hours including US LS 211 (Introduction to U.S. Latino/a Studies) and an experiential learning course (US LS 325 or US LS 499). University policy indicates that minors must include at least 9 credits that are not applied to any other degree requirement.

#### Required course work

US LS 211	Introduction to U.S. Latino/a Studies	3
One of the following:		3
US LS 325	Culture and Community: Iowa and Midwest Latino/as	
US LS 377X	Latina/o/x Life Stories: Memoirs and Oral History	
US LS 499	Internship in US Latino/a Studies	
And nine credits from any US LS or US LS cross-listed course		9
<b>Total Credits</b>		<b>15</b>

#### Notes:

1. A limit of six (6) credits of approved Spanish courses (SPAN 304, SPAN 322, SPAN 324, SPAN 445) may be substituted for US LS courses.
2. A maximum of 3 credit hours of US LS 490 (Independent Study) may be applied toward the minor.

## Women's and Gender Studies Overview

The Women's and Gender Studies Program is a cross-disciplinary program in the College of Liberal Arts and Sciences. The program offers students opportunities to analyze issues concerning women, gender, and sexuality in diverse cultural contexts and to investigate a variety of disciplines from feminist perspectives. The field of women's and gender studies creates an understanding that interrelated factors—e.g., race, ethnicity, class, age, disability, gender identity, religion, national origin,

and sexual orientation—inform knowledge of women's history, culture, and social roles.

Women's and Gender Studies seeks to improve critical thinking and to provide students with the intellectual means to question prevailing assumptions. It encourages students to explore the contexts and ideological origins of knowledge and to examine the relationship between knowledge and power in society. By promoting social justice and inclusion, this area of study focuses on the connections between personal experience and political activity, and validates student contributions and voices.

Graduates from this program are skilled in critical thinking, research methods, and effective communication. Because they have developed a thorough understanding of gender, race, and class, graduates work effectively with employers, colleagues, and clients to analyze and solve complex social problems. Women's and Gender Studies students also acquire strong backgrounds for careers in areas such as counseling, education, human resources, international development, public policy, politics, business, and law. The program includes core and cross-listed courses in anthropology, history, economics, English, history, health and human performance, political science, psychology, religion, sociology, speech communication, and world languages and cultures.

## Student Learning Outcomes

Through student-driven discussions, based on engagement with critical and cultural texts by feminist scholars and activists, the Women's and Gender Studies Program curriculum will help students develop the necessary skills to:

- Increase awareness of women's history and experiences that affect representations of gender in contemporary society
- Explore forms of social inequality through feminist theories and concepts
- Understand how intersecting identities shape individuals and their life experiences
- Analyze gender dynamics in different types of relationships

## Degree Requirements

### Women's and Gender Studies (B.A., B.S.)

An undergraduate major requires a minimum 2.00 GPA in the 34 credits of core and cross-listed courses. Women's and Gender Studies' majors must satisfy the following requirements:

1. 16 credits selected from Women's and Gender Studies core courses (WGS).

#### A. Required core courses:

WGS 160	Gender Justice	1
WGS 201	Introduction to Women's and Gender Studies	3

WGS 301	International Perspectives on Women and Gender	3
WGS 401	Feminist Theories	3
WGS 402	Feminist Research in Action	3
WGS 491	Internship	3
or WGS 499	Senior Thesis	

**Total Credits** **16**

B. The remaining 18 credits of required coursework can be chosen from one of the following Areas of Emphasis: 1) Communication and Cultural Representation; 2) Identities and Sexualities; 3) Leadership and Social Justice; or students can work with their advisor to identify the set of courses that support their personal and professional goals.

#### 1) Communication and Cultural Representation

Courses in this field offer diverse perspectives on how media and communication represent and shape culture in the US and around the world. Students engage with feminist literature, philosophy, art, and other expressions of culture in society. These themes are used to examine how the lives and roles of women have changed throughout history.

WGS 210	Gender and Sexuality in American Pop Culture	3
WGS 308	Write Like a Woman	3
WGS 323	Gender and Communication	3
WGS 325	Portrayals of Gender and Sexualities in the Media	3
WGS 327	Gender and Sexualities in Society	3
WGS 338	Feminist Philosophy	3
WGS 345	Women and Literature: Selected Topics	3
ENGL 349	Topics in Multicultural Literatures of the United States	3
WGS 352	Queer Literature	3
WGS 370	Studies in English Translation	3
WGS 374	Sex, Gender, and Culture in the Ancient Mediterranean World	3
WGS 422	Women, Men, and the English Language	3
WGS 430	Gender and Consumer Culture	3
WGS 450	Topics in Women's and Gender Studies	3
WGS 460	Seminar in Gender and Ethnicity	3
WGS 490	Independent Study	1-3
WGS 494	Women/Gender in Art	3
WGS 545	Women's Literature	3
WGS 594	Women/Gender in Art	3

#### 2) Identities and Sexualities

This area highlights the growing emphasis in Women's and Gender Studies on how experiences and societal narratives shape and are impacted by gender identities and sexualities. Courses explore power relations, oppression, privilege, and resistance as ways of understanding

these social identities. Students will learn about how issues of race, class, gender, sexuality, and other axes of difference intersect and enable political resistance.

WGS 203	Introduction to Lesbian Communities	3
WGS 205	Introduction to Queer Studies	3
WGS 210	Gender and Sexuality in American Pop Culture	3
WGS 308	Write Like a Woman	3
WGS 325	Portrayals of Gender and Sexualities in the Media	3
WGS 327	Gender and Sexualities in Society	3
WGS 328	Sociology of Masculinities and Manhood	3
WGS 336	Religion, Sex and Gender	3
WGS 339	Goddess Religions	3
WGS 344	Human Reproduction	3
WGS 346	Psychology of Women	3
ENGL 349	Topics in Multicultural Literatures of the United States	3
WGS 350	Women of Color in the U.S	3
WGS 352	Queer Literature	3
WGS 374	Sex, Gender, and Culture in the Ancient Mediterranean World	3
WGS 380	History of Women in Science, Technology, and Medicine	3
WGS 386	History of Women in America	3
WGS 410	Human Trafficking	3
WGS 425	Intersections of Race, Class and Gender	3
WGS 430	Gender and Consumer Culture	3
WGS 440	Gender Issues in Sports	3
WGS 450	Topics in Women's and Gender Studies	3
WGS 457	History of American Sexualities	3
WGS 490	Independent Study	1-3
WGS 494	Women/Gender in Art	3
WGS 525	Intersections of Race, Class and Gender	3
WGS 586	Readings Seminar in Women's and Gender History	3

### 3) Leadership and Social Justice

Courses in this area of specialization provide students with the tools and theories needed to become successful change agents, activists, and community organizers. These courses explore how social movements can transform communities, cultural norms, and global systems. Students will engage with critiques and the context of movements such as transnational feminism, Black Lives Matter, LGBTQIA+ Pride, and #MeToo.

WGS 210	Gender and Sexuality in American Pop Culture	3
WGS 307	Women in Science and Engineering	3

WGS 320	Ecofeminism	3
WGS 321	Economics of Discrimination	3
WGS 333	Women, Gender, and Leadership	3
WGS 344	Human Reproduction	3
WGS 350	Women of Color in the U.S	3
WGS 380	History of Women in Science, Technology, and Medicine	3
WGS 385	Women in Politics	3
WGS 386	History of Women in America	3
WGS 387	First Ladies in U.S. History	3
WGS 410	Human Trafficking	3
WGS 425	Intersections of Race, Class and Gender	3
WGS 435	Gender, Globalization and Development	3
WGS 440	Gender Issues in Sports	3
WGS 450	Topics in Women's and Gender Studies	3
WGS 488	Research on Gender and Leadership	3
WGS 490	Independent Study	1-3
WGS 586	Readings Seminar in Women's and Gender History	3

A minor or additional major is recommended. The typical degree awarded is a Bachelor of Arts; students interested in a Bachelor of Science degree in Women's and Gender Studies need to complete 12 credits in addition to the general education requirements across the areas of natural science, mathematics, and social science.

### Communication Proficiency requirement:

The Women's and Gender Studies major requires credit for ENGL 150; ENGL 250 (or ENGL 250H) (with a grade of C or better, per the university-wide Communication Proficiency Grade Requirement); and WGS 301 or WGS 401 or WGS 402 (with a grade of C or better).

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

LAS majors require a minimum of 120 credits, **including a minimum of 45 credits at the 300/400 level**. You must also complete the LAS General Education requirements as well as the world language and career proficiency requirements.

As majors in the College of Liberal Arts and Sciences, Women's and Gender Studies students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated above for the major.

## Four Year Plan

### Women's and Gender Studies, B.A., B.S. (1)

#### Freshman

Fall	Credits Spring	Credits
ENGL 150	3 WGS 201	3
LIB 160	1 Math Choice	3
World Language/Elective <sup>1</sup>	3-4 World Language/Elective	3-4
Humanities Choice	3 Humanities Choice	3
Natural Science Choice	3 Social Science Choice	3
Social Science Choice	3	

**16-17 15-16**

#### Sophomore

Fall	Credits Spring	Credits
U.S. Diversity Choice	3 Women's and Gender Studies Choices - 200/300 Level	6
WGS 301	3 Int'l Perspectives Choice	3
WGS 160	1 Humanities Choice	3
Humanities Choice	3 Social Science Choice	3
ENGL 250	3 LAS 203	1
Natural Science Choice	3	

**16 16**

#### Junior

Fall	Credits Spring	Credits
Women's and Gender Studies Choice - 300/400 Level	3 Electives - 300/400 Level	9
Electives	7 WGS 402	3

WGS 401	3	

**15 15**

#### Senior

Fall	Credits Spring	Credits
Women's and Gender Studies Choice - 300/400 Level	6 Electives	5
Elective - 300/400 Level	6 Electives - 300/400 Level	6

WGS 491 or 499	1-3 Women's and Gender Studies Choice - 300/400 Level	3
----------------	---	---

**13-15 14**

**Total Credits: 120-124**

## Minor

Undergraduate students may minor in Women's and Gender Studies by taking 15 semester hours of Women's and Gender Studies classes, including the following:

WGS 201	Introduction to Women's and Gender Studies	3
WGS 301	International Perspectives on Women and Gender	3

One 400-level WGS course and 6 additional credits in WGS; at least 3 of the additional credits must be at the 300-400 level.

University policy requires that at least 9 credits used for the minor stand alone and are not used to meet any other requirement. All WGS courses for the minor require a grade of C (not C-) or higher.

Any student can declare a major or minor in Women's and Gender Studies or choose to co-major in another program. Students interested in a minor or major in Women's and Gender Studies should contact the director or the undergraduate advisor in the program.

## Graduate Study

The graduate minor in Women's and Gender Studies is designed to provide students with knowledge of theories and methods within a variety of approaches in feminist scholarship. The program seeks to integrate and synthesize knowledge from many disciplines and to offer students opportunities for systematic study of gender and women's experiences and perspectives in all knowledge fields. Students will be prepared to take a leadership role in supporting gender equity and diversity in their careers in education, social service work, business, law, public policy, governmental and non-governmental organizations, and research.

The graduate minor requires 12 credits for students enrolled in a master's or a doctoral degree program. Students are required to take either WGS 501 Contemporary Feminist Theories or WGS 502 Advanced Seminar in Feminist Research Methods; taking both is strongly recommended. Students will also take two or three electives selected from the list of core and cross-listed Women's and Gender Studies courses approved for graduate study. At least one member of the Women's and Gender Studies faculty will serve on the program of study for doctoral students. A list of eligible faculty members may be obtained from the Director of the Women's and Gender Studies Program.

## World Film Studies Minor

### World Film Studies

The World Film Studies undergraduate minor is an interdisciplinary, cross-cultural program in the department of World Languages and Cultures that provides coursework in the history, theory, and aesthetics of world cinemas. Upon completion of the World Film Studies minor students will

- 1) demonstrate solid skills of formal film analysis and knowledge of the essential theoretical concepts of cinema studies;
- 2) become familiar with prominent film directors, influential cinematic works, and cinematic traditions across the world;
- 3) gain an understanding of the evolution of cinema as an art form; understand the relations between cinema and other arts;
- 4) acquire knowledge and understanding of cinema as a mode of cultural expression and communication; develop new perspectives on U.S. culture and cinema through comparison with other world cultures and cinemas.

A student seeking an undergraduate minor in World Film Studies must successfully complete a minimum of 15 credits, which must include W F S 278 Introduction to Global Film or ENGL 237 Survey of Film History and 12 credits selected from the following list of electives. Of these, at least 6 credits must be from courses taught in the department of World Languages and Cultures. The minor must include at least 9 credits that are not used to meet any other department, college or university requirement.

Courses taught in WLC (at least 6 credits)

CHIN 378	Chinese Film and Society	3
FRNCH 326	French and Francophone Film	3
FRNCH 378	French Cinema	3
GER 378	German Film and Media Studies	3-4
RUS 378	Russian Film Studies in English	3
SPAN 326	Studies in Hispanic Art or Film	3
SPAN 378	Hispanic Film Studies in English	3

Courses outside of WLC (up to 6 credits)

ENGL 315	Creative Writing: Screenplays	3
ENGL 335	Studies in Film	3
ENGL 450	Seminar in Literary Genres	3
JL MC 307	Digital Video Production	3
AM IN 205	American Indians in the Movies	3

Curricular note: no more than 6 credits of each repeatable course (FRNCH 326 and FRNCH 378) may be applied to the minor. Both WLC 278 and ENG 237 (6 credits max) may count toward the minor.

## World Languages and Cultures

### OVERVIEW OF DEPARTMENT OFFERINGS

World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that try to meet the complex problems of contemporary society. Courses offered by the Department of World Languages and Cultures are designed to develop students' understanding of a second culture through the language spoken by that culture.

### The Department of World Languages and Cultures offers the following majors:

- Anthropology (B.A. or B.S.)
- World Languages and Cultures (B.A.) with the following options:
  - French
  - German
  - Spanish
- World Languages and Cultures Additional Major with the following options for students with a primary major in another field:
  - French - OR - French (Languages and Cultures for Professions)
  - German - OR - German (Languages and Cultures for Professions)
  - Spanish - OR - Spanish (Languages and Cultures for Professions)

### The Department of World Languages and Cultures offers the following minors:

- Anthropology
- Chinese Studies
- Chinese Studies (Languages and Cultures for Professions)
- French
- German
- German (Languages and Cultures for Professions)
- Middle Eastern Studies
- Russian Studies
- Russian Studies (Languages and Cultures for Professions)
- Spanish (Hispanic Studies)
- Spanish (Languages and Cultures for Professions)
- Spanish Translation and Interpretation Studies
- World Film Studies

### Additional Language Instruction

- American Sign Language
- Arabic
- Classical Latin
- Italian
- Portuguese

## The Department houses several College of Liberal Arts and Sciences Cross Disciplinary Studies Programs:

- American Indian Studies
- Classical Studies
- International Studies
- U.S. Latino/a Studies

Students at all levels of world language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.

## WORLD LANGUAGES AND CULTURES, B.A.

World Languages and Cultures (B.A.) with the following options:

- French
- German
- Spanish
- Language Teacher Preparation (added to the primary language option)

As majors in the College of Liberal Arts and Sciences, World Languages and Cultures students must meet College of Liberal Arts and Sciences and University-wide requirements for graduation in addition to those stated for the major and option.

## WORLD LANGUAGES AND CULTURES ADDITIONAL MAJOR

The World Languages and Cultures Additional Major has six options, plus teacher preparation.

- French
- French (Languages and Cultures for Professions)
- German
- German (Languages and Cultures for Professions)
- Spanish
- Spanish (Languages and Cultures for Professions)
- Language Teacher Preparation (added to primary language option)

## Student Learning Outcomes for the World Languages and Cultures Major

Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Using their concentration language, students will be able to:

1. **COMMUNICATION:** understand, interpret, and present information, to negotiate meaning, and to communicate in spoken or written conversations to share information, reactions, feeling, and opinions to various audiences of listeners, readers, or viewers.
2. **CULTURES:** investigate, explain, and reflect on the relationship between the practices and the perspectives of the cultures studied.
3. **CONNECTIONS:** demonstrate their ability to build, reinforce, and expand their knowledge of other disciplines and to access and evaluate information from diverse perspectives, while also developing critical thinking to solve problems creatively.
4. **COMPARISONS:** investigate, explain, and reflect on the nature of language as well as the concept of culture through comparisons of their own culture with other cultures and the language studied.
5. **COMMUNITIES:** demonstrate an ability to use the language both within and beyond the classroom and to interact and collaborate in their community and the globalized world while also setting goals and reflecting on their progress in using languages for enjoyment, enrichment, and advancement.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture's history, familiarity with its literature, and basic knowledge of its social and political institutions.

## GENERAL B.A. REQUIREMENTS

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

**Communication Proficiency Requirements:** According to the university-wide Communication Proficiency Grade Requirement, students must demonstrate their communication proficiency by earning a grade of C or better in ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition: Honors). As the upper-level communication requirement, the Department requires a grade of C or better in any course numbered

between 370 and 379 taught by the Department of World Languages and Cultures (with the exception of Anthropology courses) or the interdepartmental program in Classical Studies. Such a course will also fill an LAS Area I (Arts and Humanities) requirement.

## LANGUAGES AND CULTURES FOR PROFESSIONS (LCP)

What is Languages and Cultures for Professions? The primary objective of the LCP options is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and intercultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with their respective primary-major colleges or the ISU Study Abroad Center.

Students can complete a World Languages and Cultures Additional Major with an option in French LCP, German LCP, or Spanish LCP. The following LCP minors are available: Chinese Studies (LCP), German (LCP), Russian Studies (LCP), Spanish (LCP). Students enrolled in an LCP option of the World Languages and Cultures Additional Major may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP options of the World Languages and Cultures Additional Major, students will complete 30 credits within their language concentration (see specific language requirements to the right) beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula. Students may only enroll in the LCP options as an WLC Additional Major and may not graduate with the LCP option in the WLC primary major.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic advisor in the College of Business and the WLC advisor for coursework and international experience that fulfill requirements in both the IB and LCP options.

## American Sign Language (ASL)

The Department of World Languages and Cultures offers coursework in American Sign Language. There are no minors or major options.

A listing of American Sign Language Coursework is available in the A-Z course list and below.

### Courses primarily for undergraduate students

#### ASL 101: American Sign Language I

(4-0) Cr. 4. F.S.

Introduction to American Sign Language (ASL). Development of expressive and receptive skills including vocabulary, grammar, usage, and cultural information. Note: Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.

#### ASL 102: American Sign Language II

(4-0) Cr. 4. S.

*Prereq: ASL 101*

Introduction to American Sign Language (ASL) II continues development of expressive and receptive skills introduced in American Sign Language I, including vocabulary, grammar, usage, and cultural information. Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.

#### ASL 107: Introduction to the Deaf-World

(1-0) Cr. 1.

Nature and significance of the Deaf-World as a cultural and linguistic minority.

#### ASL 201: Intermediate American Sign Language I

(4-0) Cr. 4. F.

*Prereq: ASL 102*

Development of fluency for intermediate conversational skills. Review of grammar and varying grammatical forms for both structured and unstructured social situations such as sharing opinions, discussing weekend activities, and exchanging views on current topics.

#### ASL 202: Intermediate American Sign Language II

(4-0) Cr. 4. S.

*Prereq: ASL 201*

A continuation and further application of language principles learned in ASL 201, to deepen ability to actively engage in dialogue both in structured and unstructured social situations. Further fluency in intermediate conversational skills will be developed, particularly in the areas of semantic equivalence and dialogic/monologic register.

#### ASL 275: Topics in Deaf Culture

(3-0) Cr. 3.

Focus on contemporary topics in Deaf Culture, Communities, and History. Readings and discussion from a wide range of sources. Topics vary according to faculty interest.

**ASL 305: ASL Classifiers and Depiction**

(3-0) Cr. 3.

*Prereq: ASL 201*

Focused analysis, documentation, discussion, and increased development of classifiers and depiction in ASL. Investigation in how these grammatical features are deliberately incorporated into conversational, presentational, scientific, and artistic language production.

**ASL 325: Deaf Peoples: Pre-World War II**

(3-0) Cr. 3. F.

*Prereq: ASL 202 or Permission of Instructor*

Perspectives on and treatment of deaf people as individuals and groups prior to World War II. Taught in American Sign Language.

**ASL 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: 6 credits in ASL; Permission of Instructor*

Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits of ASL 490 may be counted towards graduation.

Arabic (Arabc)

The Department of World Languages and Cultures offers coursework in Arabic. There are no minors or major options.

A listing of Arabic Coursework is available in the A-Z course list and below.

**ARABC 101: Elementary Arabic I**

(4-0) Cr. 4. F.

Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Attention to the use of the Arabic alphabet.

**ARABC 102: Elementary Arabic II**

(4-0) Cr. 4. S.

*Prereq: ARABC 101 or placement by department exam*

Continuation of ARABC 101. Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 195: Study Abroad**

Cr. arr. Alt. SS., offered irregularly.

Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Arabic.

**ARABC 201: Intermediate Arabic I**

(4-0) Cr. 4. F.

*Prereq: ARABC 102 or placement by department exam*

Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 202: Intermediate Arabic II**

(4-0) Cr. 4.

*Prereq: ARABC 201 or placement by department exam*

Continuation of Arabic 201. Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 295: Study Abroad**

Cr. arr. Alt. SS., offered irregularly.

*Prereq: ARABC 102*

Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Arabic.

**ARABC 375: Arab Culture**

Cr. 3. S.

Survey of contemporary Arab culture in the Middle East and North Africa as reflected in history, language, the arts, and social institutions with attention to the Arab Diaspora. Taught in English.

Meets International Perspectives Requirement.

**ARABC 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Independent study with focus on areas other than those in which courses are offered. No more than 6 credits in ARABC 490 may be counted toward graduation.

Chinese  
 Minor in Chinese Studies

The Minor in Chinese Studies requires the following 17 credits:

CHIN 201	Intermediate Mandarin Chinese I	4
CHIN 202	Intermediate Mandarin Chinese II	4
Electives at the 300 level and above		
6-9 credits from the following		6-9
CHIN 301	Advanced Mandarin Chinese I	
CHIN 302	Advanced Mandarin Chinese II	
CHIN 304	Chinese for Global Professionals	
CHIN 370	Chinese Literature in English Translation	

CHIN 372	Introduction to Chinese Culture
CHIN 375	China Today
CHIN 378	Chinese Film and Society
CHIN 403A	Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts
or CHIN 403I	Seminar in Chinese Language and Culture: Topics on Business and Professions
or CHIN 403J	Seminar in Chinese Language and Culture: Reading Chinese Texts

0-3 credits from the following:

ARCH 427	History, Theory, and Criticism of Chinese Architecture
HIST 336	History of Modern China I
HIST 337	History of Modern China II
POL S 342	Chinese Politics

### Minor in Chinese Studies LCP (Languages and Cultures for Professions)

Students who complete a Minor in Chinese Studies (Languages and Cultures for Professions) seek to become culturally-competent global professionals and engage in language and cultural training. The minor requires the following 17 credits:

CHIN 201	Intermediate Mandarin Chinese I	4
CHIN 202	Intermediate Mandarin Chinese II	4

Electives at the 300 level and above

6-9 credits from the following: 6-9

CHIN 301	Advanced Mandarin Chinese I
CHIN 302	Advanced Mandarin Chinese II
CHIN 304	Chinese for Global Professionals
CHIN 370	Chinese Literature in English Translation
CHIN 372	Introduction to Chinese Culture
CHIN 375	China Today
CHIN 378	Chinese Film and Society
CHIN 403A	Seminar in Chinese Language and Culture: Translating Contemporary Chinese Texts
or CHIN 403I	Seminar in Chinese Language and Culture: Topics on Business and Professions
or CHIN 403J	Seminar in Chinese Language and Culture: Reading Chinese Texts
CHIN 499	Internship in Chinese

0-3 credits from the following:

ARCH 427	History, Theory, and Criticism of Chinese Architecture
HIST 336	History of Modern China I

HIST 337	History of Modern China II
POL S 342	Chinese Politics

Students in the Chinese LCP Minor are encouraged to study abroad in a Chinese-speaking country or complete a relevant internship.

A listing of all Chinese Coursework is available in the A-Z course list.

## FRENCH

### World Languages and Cultures, B.A., French Option

See World Languages and Cultures, B.A. for general requirements.

W.L.C. (World Languages and Cultures) Students with a concentration in French must complete at least 30 credits beyond the intermediate level (FRNCH 201 & FRNCH 202).

Required Courses for the French Studies Option (12 credits)

FRNCH 301	Language, Culture, Contexts	3
FRNCH 302	Text and Media Analysis	3
FRNCH 340	Cultural Expressions in the French-Speaking World	3
FRNCH 440	Seminar in French and/or Francophone Studies	3

Additional Courses (at least 18 credits)

FRNCH 304	French for Global Professionals	3
FRNCH 305	French Conversation	3
FRNCH 310	French Pronunciation	1
FRNCH 320	France Today	3
FRNCH 326	French and Francophone Film	3
FRNCH 340	Cultural Expressions in the French-Speaking World	3
FRNCH 370	French Studies in English	4
FRNCH 375	Francophone Studies in English	4
FRNCH 378	French Cinema	4
FRNCH 395	Study Abroad	1-10

French Option WLC Majors must enroll in FRNCH 370, FRNCH 375, and/or FRNCH 378 for 4 credits in French. No more than 12 credits from FRNCH 370, FRNCH 375, and/or FRNCH 378 may be counted for the major. Credit from French 395 "En France" or an approved study abroad program may be applied to the major.

Study Abroad: The department strongly recommends that all students of French participate in an approved study abroad program based in a French-speaking country. Credit from an approved study abroad program may be applied to the major or minor.

### Language Teacher Preparation Option

EDUC 487	Methods in Secondary School World Language Instruction (same as WLC 487 & LING 487)	3
or ENGL 318	Introduction to ESL methods and materials	
PSYCH 230	Developmental Psychology	3

POL S 111	Introduction to American Government (or a course in U.S. History )	3
-----------	--	---

Additional requirements of the Secondary Major in Education. See footnote for catalog link to requirements. <sup>TP</sup>

TP Students preparing to teach a language declare the Secondary Major in Education and complete the additional course requirements.

### World Languages and Cultures Additional Major, French Option

The requirements for the World Languages and Cultures Additional Major with the French Option are the same as the major requirements for the primary major listed above.

### World Languages and Cultures Additional Major, French Language and Cultures for Professions (LCP) Option

Students who complete an additional major in World Languages and Cultures with LCP Option seek to become culturally-competent global professionals and engage in language and cultural training. Note: Students may only enroll in the French Languages and Cultures for Professions (LCP) Option as an additional major; they may not graduate with this as a primary major.

Students are required to take at least 30 credits beyond the intermediate level (FRNCH 201 & FRNCH 202).

Required LCP Core Courses (16 credits)		
FRNCH 301	Language, Culture, Contexts	3
FRNCH 302	Text and Media Analysis	3
FRNCH 304	French for Global Professionals	3
FRNCH 320	France Today	3
FRNCH 340	Cultural Expressions in the French-Speaking World	3
FRNCH 499	Internship in French	1-3
Additional Courses (at least 14 credits)		
FRNCH 305	French Conversation	3
FRNCH 310	French Pronunciation	1
FRNCH 326	French and Francophone Film	3
FRNCH 340	Cultural Expressions in the French-Speaking World	3
FRNCH 370	French Studies in English	4
FRNCH 375	Francophone Studies in English	4
FRNCH 378	French Cinema	4
FRNCH 395	Study Abroad	1-10
FRNCH 440	Seminar in French and/or Francophone Studies	3

French LCP Option WLC Majors must enroll in FRNCH 370, FRNCH 375 and/or FRNCH 378 for 4 credits in French. No more than 12 credits from FRNCH 370, FRNCH 375 and/or FRNCH 378 may be counted for the major. Credit from French 395 "En France" or an approved study abroad program may be applied to the major.

## MINOR IN FRENCH

The French Minor requires at least 17 credits of courses taught in French beyond the elementary level (FRNCH 101 Elementary French I & FRNCH 102 Elementary French II).

Required Core Courses (11 credits)		
FRNCH 201	Intermediate French I	4
FRNCH 202	Intermediate French II	4
FRNCH 301	Language, Culture, Contexts	3
Additional Courses (at least 6 credits)		
FRNCH 302	Text and Media Analysis	3
FRNCH 304	French for Global Professionals	3
FRNCH 305	French Conversation	3
FRNCH 320	France Today	3
FRNCH 326	French and Francophone Film	3
FRNCH 340	Cultural Expressions in the French-Speaking World	3
FRNCH 395	Study Abroad	1-10
FRNCH 440	Seminar in French and/or Francophone Studies	3

Credit from French 395 "En France" or an approved study abroad program may be applied to the minor. French 370, 375, 378, and 476 cannot count toward the minor. Students who place into and earn credit in the 300-level sequence may replace FRNCH 201 & 202 with test-out credit.

Study Abroad: The department strongly recommends that all students of French participate in an approved study abroad program based in a French-speaking country. Credit from an approved study abroad program may be applied to the major or minor.

A listing of all French Coursework is available in the A-Z course list.

## GERMAN

### World Languages and Cultures, B.A., German Studies Option

See World Languages and Cultures, B.A. for general requirements.

Students with a concentration in German must complete at least 30 credits beyond the intermediate level (GER 201 (<https://currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures/>) & GER 202 (<https://>

currentcatalog.registrar.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures/)).

#### German Studies Option Required Core Courses (22 credits)

GER 301	Reading	3
GER 302	Composition	3
GER 304	German for Global Professionals	3
GER 305	Conversation	3
GER 320	Germany Today	3
GER 330	German Literature and Culture	3
GER 476	Topics in German Cultural Studies	4

#### Additional Courses (8 credits)

GER 330	German Literature and Culture (Repeatable once when offered with a different topic.)	
GER 499	Internship in German (Study Abroad and Internship Option)	

Courses taught in English (maximum of eight credits applicable towards the major; must enroll for 4 credits)

GER 370	German Studies in English	
GER 371	The Holocaust in Text, Image, and Memory	
GER 375	Grimms' Tales	
GER 378	German Film and Media Studies	

Study Abroad: The department strongly recommends that all students of German participate in an approved study abroad program based in a German-speaking country. Credit from an approved study abroad program may be applied to the major.

### Language Teacher Preparation Option

EDUC 487	Methods in Secondary School World Language Instruction (same as WLC 487 & LING 487)	3
or ENGL 318	Introduction to ESL methods and materials	
PSYCH 230	Developmental Psychology	3
POL S 111	Introduction to American Government (or a course in U.S. History)	3

Additional requirements of the Secondary Major in Education. See footnote for catalog link to requirements. <sup>TP</sup>

TP Students preparing to teach a language declare the Secondary Major in Education and complete the additional course requirements.

### World Languages and Cultures Additional Major, German Option

The requirements for the World Languages and Cultures Additional Major with the German Option are the same as the major requirements for the primary major listed above.

### World Languages and Cultures Additional Major, German Studies Language and Cultures for Professions (LCP) Option

Students who complete an additional major in World Languages and Cultures with LCP Option seek to become culturally-competent global professionals and engage in language and cultural training. Note: Students may only enroll in the German Studies Languages and Cultures for Professions (LCP) Option as an additional major; they may not graduate with this as a primary major.

Students must complete a minimum of 30 credits beyond the intermediate level (GER 201 Intermediate German I & GER 202 Intermediate German II).

#### Required German LCP Core Courses (19 credits)

GER 301	Reading	3
GER 304	German for Global Professionals	3
GER 305	Conversation	3
GER 320	Germany Today	3
GER 476	Topics in German Cultural Studies	4
GER 499	Internship in German (or approved credit-bearing study abroad experience)	3

#### Additional Courses (11 credits)

GER 302	Composition	3
GER 330	German Literature and Culture	3

Courses taught in English (maximum of eight credits applicable towards the major; must enroll for 4 credits)

GER 370	German Studies in English	
GER 371	The Holocaust in Text, Image, and Memory	
GER 375	Grimms' Tales	
GER 378	German Film and Media Studies	

### GERMAN MINORS

#### Minor in German (17 credits)

The Minor in German Studies requires at least 17 credits of courses taught in German. At least 9 credits must be 300-level German courses, 3 credits of which must be chosen from GER 320 and 330.

GER 201	Intermediate German I	4
GER 202	Intermediate German II	4
3 credits must be in literature or culture taught in German		3
GER 320	Germany Today	
or GER 330	German Literature and Culture	
6 additional credits from the following		6
GER 301	Reading	
GER 302	Composition	

GER 304	German for Global Professionals
GER 305	Conversation
GER 320	Germany Today
GER 330	German Literature and Culture

Note: Courses taught primarily in English (German 370, 371, 375, 378, and 476) cannot count toward the German minor.

### Minor in German LCP (Language and Cultures for Professions) (17 credits)

Students who complete a Minor in German LCP (Languages and Cultures for Professions) seek to become culturally-competent global professionals and engage in language and cultural training. The German LCP Minor requires at least 17 credits of courses taught in German. At least 9 credits must be 300-level German courses, including the required course GER 304.

GER 201	Intermediate German I	4
GER 202	Intermediate German II	4
GER 304	German for Global Professionals	3
6 additional credits from the following		6
GER 301	Reading	
GER 302	Composition	
GER 305	Conversation	
GER 320	Germany Today	
GER 330	German Literature and Culture	

Note: Courses taught primarily in English (German 370, 371, 375, 378, and 476) cannot count toward the German LCP Minor.

A listing of all German Coursework is available in the A-Z course list.

## Italian (ITAL)

The Department of World Languages and Cultures offers coursework in Italian. There are no minors or major options.

A listing of Italian Coursework is available in the A-Z course list and below.

### ITAL 107: Intensive Beginning Italian

Cr. 4. F.S.

A communicative approach to grammar and vocabulary within the context of Italian culture for students whose native language is not Italian. Taught in Italian.

## Latin (LATIN)

The Department of World Languages and Cultures offers coursework in Latin. There are no minors or major options.

For courses in Latin literature taught in English, see Classical Studies.

A listing of Latin Coursework is available in the A-Z course list and below.

## Courses primarily for undergraduate students

### LATIN 101: Elementary Latin I

(3-0) Cr. 3. F.

Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

### LATIN 102: Elementary Latin II

(3-0) Cr. 3. S.

*Prereq: LATIN 101*

Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors. Meets International Perspectives Requirement.

### LATIN 490: Independent Study

Cr. 1-6. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in LATIN; Permission of Department Chair*

Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits in Latin 490 may be counted toward graduation.

## Portuguese (PORT)

The Department of World Languages and Cultures offers coursework in Portuguese. There are no minors or major options.

A listing of Portuguese Coursework is available in the A-Z course list and below.

## Courses primarily for undergraduate students

### PORT 101: Elementary Portuguese I

Cr. 4.

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

### PORT 102: Elementary Portuguese II

Cr. 4.

*Prereq: PORT 101*

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Meets International Perspectives Requirement.

### PORT 111: Intensive Beginning Portuguese

Cr. 3.

A communicative approach to grammar and vocabulary within the context of Luso-Brazilian culture for students whose native language is not Portuguese. Taught in Portuguese.

**PORT 112: Elementary Portuguese, Accelerated II**

Cr. 3.

*Prereq: PORT 111*

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

Meets International Perspectives Requirement.

**PORT 375: Brazil Today**

Cr. 3. F.

A survey of social, political, economic, and cultural topics relevant to contemporary Brazil. Includes an introduction to Portuguese language.

Meets International Perspectives Requirement.

## Russian

### Minor in Russian Studies

The Minor in Russian Studies requires 17 credits, 9 of which must be at the 300 level or higher.

RUS 201	Intermediate Russian I	4
RUS 202	Intermediate Russian II	4
9 credits must be at the 300 level and above, including at least 3 credits in the Russian curriculum (courses taught in English or Russian).		9
RUS 301	Composition and Conversation	
RUS 304	Russian for Global Professionals	
RUS 314	Reading Russian Literary and Cultural Texts	
RUS 370	Russian Studies in English Translation	
RUS 370A	Russian Studies in English Translation: Topics in Russian Literature	
RUS 370B	Russian Studies in English Translation: Russian Fairy Tales	
RUS 370R	Studies in English Translation: Russian Topics on Women or Feminism	
RUS 375	Russia Today	
RUS 378	Russian Film Studies in English	
RUS 395	Study Abroad	
RUS 499	Internship in Russian	
RUS 590	Special Topics in Russian	
HIST 421	History of Russia I	
HIST 422	History of Russia II	
HIST 530	Readings Seminar in Modern Russian/Soviet History	
POL S 349	Politics of Russia and Eastern Europe	

### Minor in Russian Studies LCP (Languages and Cultures for Professions)

The Minor in Russian Studies LCP requires 17 credits.

Required Core Courses		11
RUS 201	Intermediate Russian I	
RUS 202	Intermediate Russian II	
RUS 304	Russian for Global Professionals	
Electives		6
RUS 301	Composition and Conversation	
RUS 314	Reading Russian Literary and Cultural Texts	
RUS 370	Russian Studies in English Translation	
RUS 370A	Russian Studies in English Translation: Topics in Russian Literature	
RUS 370B	Russian Studies in English Translation: Russian Fairy Tales	
RUS 370R	Studies in English Translation: Russian Topics on Women or Feminism	
RUS 375	Russia Today	
RUS 378	Russian Film Studies in English	
RUS 395	Study Abroad	
RUS 490	Independent Study	
RUS 499	Internship in Russian	
RUS 590	Special Topics in Russian	
HIST 421	History of Russia I	
HIST 422	History of Russia II	
HIST 530	Readings Seminar in Modern Russian/Soviet History	
POL S 349	Politics of Russia and Eastern Europe	

A listing of all Russian Coursework is available in the A-Z course list.

## Spanish

### World Languages and Cultures, B.A., Spanish (Hispanic Studies) Option

See World Languages and Cultures, B.A. for general requirements.

Students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate level (SPAN 201 Intermediate Spanish I & SPAN 202 Intermediate Spanish II).

Hispanic Studies Required Core Courses (9 credits)

SPAN 303A	Spanish Conversation and Composition: through Culture	3
or SPAN 303B	Spanish Conversation and Composition: for Professionals	
SPAN 314	Textual and Media Analyses	3

SPAN 352	Spanish Pronunciation	3
Additional Courses: Students must take at least 15 credits chosen from A, B, and C below (minimum 3 credits from each).		15

A) At least 3 credits of literary studies chosen from the following:

SPAN 330	Studies in Spanish Literature
SPAN 332	Studies in Latin American Literature

B) At least 3 credits of cultural studies chosen from the following:

SPAN 304	Spanish for Global Professionals
SPAN 321	Spanish Civilization
SPAN 322	Latin American Civilization
SPAN 323	Spain Today
SPAN 324	Latin America Today
SPAN 325	Culture and Community: Iowa and Midwest Latino/as
SPAN 326	Studies in Hispanic Art or Film

C) At least 3 credits of applied language and linguistics chosen from the following:

SPAN 302A	Mini-Modules for Global Professionals: Tourism and Hospitality
SPAN 302B	Mini-Modules for Global Professionals: Health and Medicine
SPAN 302C	Mini-Modules for Global Professionals: Criminal Justice and the Law
SPAN 305	Spanish for Heritage Speakers
SPAN 351	Introduction to Spanish-English Translation
SPAN 354	Introduction to Spanish-English Interpretation
SPAN 401	Advanced Composition and Grammar
SPAN 462	Contrastive Analysis of Spanish/ English for Translators
SPAN 463	Contemporary Spanish Linguistics
SPAN 499	Internship in Spanish

Students may apply up to 6 credits of SPAN 395 Study Abroad to section A, B, or C above (appropriate section based upon course content and assigned by the WLC advisor).

Students must take at least 6 credits of language, literature and/or culture at the 400 level, chosen from the following (each repeatable to 6 credits):

SPAN 440	Seminar on the Literatures and Cultures of Spain	6
SPAN 441	Seminar on Cervantes and the Golden Age	
SPAN 445	Seminar on the Literatures and Cultures of Latin America	
SPAN 463	Contemporary Spanish Linguistics	

Approved study abroad in a Spanish-speaking country or completion of an additional course from the approved options. 0-3

**Study Abroad:** The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student pursuing the World Languages and Cultures Major, Spanish (Hispanic Studies) Option who chooses not to participate in a department-approved study abroad program will be required to take 3 additional elective credits of Spanish at or above the SPAN 321 level (for a total of 33 credits beyond the intermediate 201-202 level).

## Language Teacher Preparation Option

EDUC 487	Methods in Secondary School World Language Instruction (same as WLC 487 & LING 487)	3
or ENGL 318	Introduction to ESL methods and materials	
PSYCH 230	Developmental Psychology	3
POL S 111	Introduction to American Government (or a course in U.S. History)	3

Additional requirements of the Secondary Major in Education. See footnote for catalog link to requirements. <sup>TP</sup>

TP Students preparing to teach a language declare the Secondary Major in Education and complete the additional course requirements.

## World Languages and Cultures Additional Major, Spanish (Hispanic Studies) Option

The requirements for the World Languages and Cultures Additional Major with the Spanish (Hispanic Studies) Option are the same as the major requirements for the primary major listed above.

## World Languages and Cultures Additional Major, Spanish Language and Cultures for Professions (LCP) Option

Students who complete an additional major in World Languages and Cultures with LCP Option seek to become culturally-competent global professionals and engage in language and cultural training. Note: Students may only enroll in the Spanish Languages and Cultures for Professions (LCP) Option as an additional major; they may not graduate with this as a primary major.

Students must complete a minimum of 30 credits beyond the intermediate level (SPAN 201 Intermediate Spanish I & SPAN 202 Intermediate Spanish II).

A. Required LCP Core Courses: (12 Credits)

SPAN 303B	Spanish Conversation and Composition: for Professionals	3
SPAN 304	Spanish for Global Professionals	3
SPAN 351	Introduction to Spanish-English Translation	3

SPAN 499	Internship in Spanish *	3
or SPAN 395	Study Abroad	

#### B. Literature and Culture Courses: (9 Credits)

SPAN 314	Textual and Media Analyses	3
----------	----------------------------	---

SPAN 323	Spain Today	3
or SPAN 321	Spanish Civilization	

SPAN 324	Latin America Today	3
or SPAN 322	Latin American Civilization	

#### C. Additional Courses: Select one course from each of the following two categories (6 credits)

##### Category 1:

SPAN 330	Studies in Spanish Literature	3
or SPAN 332	Studies in Latin American Literature	

##### Category 2:

SPAN 440	Seminar on the Literatures and Cultures of Spain	3
or SPAN 441	Seminar on Cervantes and the Golden Age	
or SPAN 445	Seminar on the Literatures and Cultures of Latin America	
or SPAN 463	Contemporary Spanish Linguistics	

D. Additional 3 credits taken at the SPAN 300-level or higher.	3
--	---

\*Additional credit from an approved study abroad program may be applied to the major.

## SPANISH MINORS

### Minor in Spanish (Hispanic Studies)

The Minor in Spanish (Hispanic Studies) requires at least 15 credits, 12 of which must be at the 300 level or higher. The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional elective credits of Spanish at the 300 level or higher.

### Minor in Spanish LCP (Language and Cultures for Professions)

Students who complete a Minor in Spanish (Languages and Cultures for Professions) seek to become culturally-competent global professionals and engage in language and cultural training. The minor requires the following 15 credits:

SPAN 303B	Spanish Conversation and Composition: for Professionals	3
SPAN 304	Spanish for Global Professionals	3
SPAN 351	Introduction to Spanish-English Translation	3
One of the following		3

SPAN 321	Spanish Civilization	
or SPAN 322	Latin American Civilization	
or SPAN 323	Spain Today	
or SPAN 324	Latin America Today	

Approved study abroad in a Spanish-speaking country or completion of an additional course from the approved options.	3
--	---

### Minor in Spanish Translation and Interpretation Studies

The minor in Translation and Interpretation requires the following 15 credits.

SPAN 303B	Spanish Conversation and Composition: for Professionals	3
or SPAN 304	Spanish for Global Professionals	
or SPAN 305	Spanish for Heritage Speakers	

SPAN 351 & SPAN 354	Introduction to Spanish-English Translation and Introduction to Spanish-English Interpretation	6
---------------------	--	---

Choose two of the following courses (6 credits)	6
---	---

SPAN 352	Spanish Pronunciation	
SPAN 462	Contrastive Analysis of Spanish/ English for Translators	
SPAN 463	Contemporary Spanish Linguistics	

Transfer credit accepted at ISU or credit earned on an ISU-approved study abroad program can apply toward the minor. The minor is intended for students pursuing or holding a baccalaureate degree at ISU and open to any student with proficiency in Spanish that would place them into the 300-level.

## STUDY ABROAD ALTERNATIVES

The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. For programs that allow an additional course instead of study abroad, any student who chooses not to participate in a department-approved study abroad program will be required to take 3 additional credits in culture chosen from the following:

SPAN 321	Spanish Civilization	3
SPAN 322	Latin American Civilization	3
SPAN 323	Spain Today	3
or SPAN 324	Latin America Today	

Students taking either SPAN 321 or SPAN 323 Spain must take either SPAN 322 or SPAN 324; students taking either SPAN 322 or SPAN 324 must take either SPAN 321 or SPAN 323.

A listing of all Spanish Coursework is available in the A-Z course list.

# PLACEMENT POLICIES AND COURSE GUIDANCE

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations. Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above). Students who have completed three or more years of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. Students who complete an approved sequence of courses in a single language at the 200- or 300-level (e.g., 201 and 202 or 301 and 302) with a grade of C- or higher are eligible to receive credit for 101 and 102 in that same language if they have not received credit for a 101 or 102 course in the language. Students who complete a 102 course with a grade of C- or higher are eligible to receive credit for 101 in that same language if they have not received credit for 101 in the same language. Students should contact the department after completion of the course sequence to receive credit. Courses in the 101-102 level may not be taken on a remedial basis.

Students who have completed two years but less than three years of a single high-school world language may not enroll in a 101 course in that language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are recommended to take the on-line placement test available at [www.language.iastate.edu](http://www.language.iastate.edu) (<http://www.language.iastate.edu>). After completing the online placement test, students who believe that they have extenuating circumstances may appeal to the Department of World Languages and Cultures in order to request enrollment in a 101 language course.

SPAN 097 Accelerated Spanish Review is designed for students who need additional work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete with a passing grade will have fulfilled the LAS world language requirement. Students who have

completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic advisor, the Department of World Languages and Cultures, or the Disability Resources Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see Classical Studies. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.

## STUDY ABROAD

The Department also offers faculty-led summer study abroad programs in Costa Rica, France, Germany, Greece, Italy, and Spain; and semester study abroad programs in Spain. Programs and exchanges in other areas of the world are offered through study abroad providers. Information concerning these programs can be obtained directly from the Department.

## Graduate Programs

### Graduate Minor in Spanish

The Department of World Languages and Cultures offers course work leading to a graduate minor in Spanish. The graduate minor is designed to provide an opportunity for graduate students to further their knowledge of Spanish to complement work in their major disciplines and provides formal recognition of student achievement and expertise.

#### Prerequisites

Graduate students who wish to minor in Spanish must have 400-level proficiency in Spanish. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

#### Course Requirements

For the M.A. or M.S.: Three courses in Spanish. No more than three credits may be in courses numbered 401, 402, and 403.

For the Ph.D.: Four courses in Spanish must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403.

At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.

#### Courses primarily for undergraduates:

##### WLC 107: Introduction to Swahili

Cr. 1. Alt. S., offered irregularly.

Basics of grammar and vocabulary within the context of the cultures where Swahili is spoken. For students whose native language is not Swahili. Taught in Swahili. Offered on-line. No

##### WLC 119: Introduction to World Languages

(Cross-listed with LING). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

##### WLC 205: World Religions

(Cross-listed with RELIG). (3-0) Cr. 3. F.S.SS.

An introduction to religious studies – the academic study of religion. Religions from around the world will be discussed, including their myths, rituals, beliefs, values, and social forms. Meets International Perspectives Requirement.

##### WLC 210: Introduction to Asian American Studies

(Cross-listed with ANTHR). (3-0) Cr. 3.

An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice.

Meets U.S. Diversity Requirement

##### WLC 270: Cultures in Transition

(3-0) Cr. 3.

An interdisciplinary introduction to a world region in a state of rapid social and cultural transition. Discussion of the history, social and political institutions, arts, economy, agriculture, and environment of the new nations.

Meets International Perspectives Requirement.

##### WLC 352: Religions of India

(Cross-listed with RELIG). (3-0) Cr. 3.

*Prereq: ENGL 250 or Permission of Instructor*

Study of texts, practices, beliefs, historical development, and mutual influence of a variety of the religious traditions of India. Emphasis on Vedic religion and the diversity of traditions of Classical Hinduism; survey of Buddhist, Jain, Sikh, and South Asian Islamic traditions.

Meets International Perspectives Requirement.

**WLC 358: Islam**

(Cross-listed with RELIG). (3-0) Cr. 3.

*Prereq: ENGL 250 or Permission of Instructor*

An introduction to Islamic religion, culture, and society from its origins to the present. Topics include the Quran, the Prophet Muhammad, Islamic theology and philosophy, Islamic history, and Islam in America.

Meets International Perspectives Requirement.

**WLC 359: The Quran**

(Cross-listed with RELIG). (3-0) Cr. 3.

*Prereq: ENGL 250 or Permission of Instructor*

A study of the Quran, the sacred text of Islam, with attention to its history, its major themes, and the diverse ways it is interpreted and applied.

Meets International Perspectives Requirement.

**WLC 370: Topics in World Languages and Cultures in English Translation**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.

Meets International Perspectives Requirement.

**WLC 370A: Topics in World Languages and Cultures in English****Translation: Global Sustainability**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.

Meets International Perspectives Requirement.

**WLC 370B: Topics in World Languages and Cultures in English****Translation: Middle East**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.

Meets International Perspectives Requirement.

**WLC 370C: Topics in World Languages and Cultures in English****Translation: Global Urban Cultures**

(3-0) Cr. 3. Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English.

Meets International Perspectives Requirement.

**WLC 417: Student Teaching**

Cr. 8-12. F.S.

*Prereq: Minimum cumulative GPA of 2.5; Department Permission*

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences. Admission to teacher education required.

**WLC 417G: Student Teaching: World Language**

(Dual-listed with WLC 517G). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

**WLC 484: Technology, Globalization and Culture**

(Dual-listed with WLC 584). (Cross-listed with M E, MKT). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

**WLC 486: Methods in Elementary School World Language Instruction**

(Cross-listed with EDUC, LING). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language*

Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom.

Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning.

**WLC 487: Methods in Secondary School World Language Instruction**

(Cross-listed with EDUC, LING). (3-0) Cr. 3. F.

*Prereq: 25 credits in a world language; Department Permission*

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning. Admission to teacher education required.

**WLC 491: Experiences Abroad: Learning to Think Globally**

(Cross-listed with INTST). (1-0) Cr. 1. Repeatable, maximum of 2 credits.

*Prereq: Minimum of 3 credits of study abroad and/or internship abroad*

Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside ISU. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**WLC 517G: Student Teaching: World Language**

(Dual-listed with WLC 417G). (Cross-listed with EDUC). Cr. arr. Repeatable. F.S.

*Prereq: Minimum GPA of 2.5; Admitted to Educator Preparation Program, approval of coordinator during semester before student teaching*

Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades.

**WLC 584: Technology, Globalization and Culture**

(Dual-listed with WLC 484). (Cross-listed with M E, MKT). (3-0) Cr. 3. F.

*Prereq: M E 484: Junior or Senior classification, M E 584: Graduate classification, MKT 484: MKT 340, MKT 584: Restricted to College of Business Graduate classification*

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

# INTERDISCIPLINARY PROGRAMS

Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

See individual programs for information regarding admission and academic requirements.

## Cyber Security INTERDEPARTMENTAL GRADUATE MAJOR

Iowa State University has been offering courses in cyber security since 1995 and has one of the largest programs in the country. Graduate degrees can be obtained in a traditional on campus setting or as an on-line program. For information about the online Cyber Security program visit Iowa State Online (<https://iowastateonline.iastate.edu/>).

Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The program objectives identified as being critical to the accomplishment of this mission are:

- 1. Impart and enhance knowledge about information infrastructure security
- 2. Expand and develop the ability to engineer complex systems
- 3. Instill and nurture social awareness, and the ability to function in a team
- 4. Instill and nurture a sense of ethics
- 5. Develop an understanding of strategic and policy issues

We offer 4 different graduate degree options:

- 1. Masters of Science with thesis
- 2. Masters of Science without thesis
- 3. Masters of Engineering (coursework only)
- 4. Graduate certificate

## Graduate Certificate

A graduate certificate in Cyber Security is offered, which consists of four courses (12 credits): The graduate certificate is targeted for off-campus students as a way to either supplement their education or as way to try out online education courses. All of the certificate courses will transfer into the MS or MENG degree in Cyber Security.

for Certificate in Cyber Security		
CYBSC 530	Network Protocols and Security	3
CYBSC 531	Information System Security	3
CYBSC 532	Information Warfare	3
CYBSC 533	Cryptography	3
	or CYBSC 535 Steganography and Digital Image Forensics	
	or CYBSC 534 Legal and Ethical Issues in Cyber Security	
	or CYBSC 536 Computer and Network Forensics	
	or CPR E 537 Wireless Network Security	
Total Credits		12

For additional information students should visit <https://www.cyio.iastate.edu/>. (<http://www.iac.iastate.edu>)

## Master of Science with & without thesis

The degree Master of Science with a major in Cyber Security is under a cooperative arrangement with various home departments including Electrical and Computer Engineering, Political Science, Information Systems and Business Analytics, and Mathematics.

The degree Master of Science with thesis is recommended for students who intend to continue toward the Doctor of Philosophy degree or to undertake a career in research and development. The non-thesis Master of Science degree requires a creative component and is intended for students interested in a career in cybersecurity.

Students interested in the interdepartmental major apply and are admitted to both a home department (the department that is most closely aligned with the student's research interest and background) and to the program. The home department sets the admission standards, course requirements, and thesis standards. (**Note:** Electrical and Computer Engineering is the only home department for off-campus students pursuing the Master of Science in Cyber Security).

The program is broadly based and uses courses in the various departments. The program will consist of 24 course credits with 6 credits of research work for a Master of Science with thesis. A non-thesis Master of Science will consist of 27 credits of courses and 3 credits of creative component. The courses are divided into three categories: core, electives, and thesis research. A student's Program of Study Committee, in consultation with the student, determines the elective courses to be taken and the acceptability of transfer credits. The major professor will be selected from the discipline where the student is admitted (home department).

The basic prerequisite for admission to this program is a baccalaureate degree in engineering, mathematics, computer science, management information systems, political science, or closely related field. The GRE or GMAT examination may be required based on the standards of the home

department. If the GRE or GMAT is not required it will be considered in admissions decisions if offered. Potential students with baccalaureate degrees in the physical sciences, statistics, or other related fields will be considered on an individual basis, possibly with provisional admission.

## Master of Engineering

The Master of Engineering (MENGR) in Cyber Security degree is only offered to off-campus students. This program is designed to assist all individuals who already have a bachelor's degree in computing or related areas to pursue an in-depth study in information assurance. The Master of Engineering program is based on coursework credits only (a thesis or creative component is not required). Courses are offered via digital streaming video. (**Note:** Electrical and Computer Engineering is the only home department for the Master of Engineering in Cyber Security).

A coursework only Master of Engineering degree in Cyber Security consists of 30 credits. The courses are divided into two categories: core and electives. (**Note:** Students pursuing the MENGR do not have a program of study committee and the major professor is the Cyber Security, Director of Graduate Education (DoGE)

Students interested in the MENGR in Cyber Security degree apply and are admitted to Cyber Security (CYBSC) with ECpE as the home department.

The admission requirements for students entering the program without work experience are the same as the admission requirements for the ECpE department. For students with 3 or more years of work experience in a computer related position the GRE and GPA minimum may be waived.

Students with an undergraduate degree in a non computing field that have at least 3 years of work experience in an information technology field may be admitted to the program.

### Courses primarily for undergraduates:

#### CYBSC 131: Introduction to Computer Security Literacy

(Cross-listed with CPR E). (1-0) Cr. 1.

Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

#### CYBSC 332: Cyber Defense Competition

(Cross-listed with CPR E). (0-2) Cr. 1. Repeatable. S.

Participation in cyber defense competition driven by scenario-based network design. Includes computer system setup, risk assessment and implementation of security systems, as well as defense of computer and network systems against trained attackers. Team based. Offered on a satisfactory-fail basis only.

#### CYBSC 430: Network Protocols and Security

(Dual-listed with CYBSC 530). (Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq:* CPR E 308 OR COM S 252 OR COM S 352. *E E students:* CPR E 288.

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

### Courses primarily for graduate students, open to qualified undergraduates:

#### CYBSC 530: Network Protocols and Security

(Dual-listed with CYBSC 430). (Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq:* CPR E 308 OR COM S 252 OR COM S 352. *E E students:* CPR E 288.

Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols. Network security issues, attack and mitigation techniques. Emphasis on laboratory experiments.

#### CYBSC 531: Information System Security

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq:* CPR E 489 or CPR E 530 or COM S 586 or MIS 535

Computer, software, and data security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

#### CYBSC 532: Information Warfare

(Cross-listed with CPR E). (3-0) Cr. 3. S.

*Prereq:* CPR E 430 or 530

Computer system and network security: implementation, configuration, testing of security software and hardware, network monitoring. Authentication, firewalls, vulnerabilities, exploits, countermeasures. Study and use of attack tools. Ethics in cyber security. Emphasis on laboratory experiments.

#### CYBSC 533: Cryptography

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.

*Prereq:* MATH 301 or CPR E 310 or COM S 230

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

#### CYBSC 534: Legal and Ethical Issues in Cyber Security

(Cross-listed with CPR E, POL S). (3-0) Cr. 3. S.

*Prereq:* Graduate classification; CPR E 531 or CYBSC 531

Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

**CYBSC 535: Steganography and Digital Image Forensics**

(Cross-listed with CPR E, MATH). (3-0) Cr. 3. S.

*Prereq: E E 524 or MATH 317 or MATH 407 or COM S 230*

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

**CYBSC 536: Computer and Network Forensics**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CPR E 489 or CPR E 530*

Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

**CYBSC 538: Reverse Engineering and Security Testing**

(Cross-listed with CPR E). (2-3) Cr. 3. S.

*Prereq: COM S 321 or CPR E 381, COM S 352 or CPR E 308*

Techniques and tools for understanding the behavior of software/hardware systems based on reverse engineering. Flaw hypothesis, black, grey, and white box testing as well as other methods for testing the security of software systems. Discussion of counter-reverse engineering techniques.

**CYBSC 560: Data-Driven Security and Privacy**

(Cross-listed with COM S, CPR E). Cr. 3. Alt. S., offered irregularly.

*Prereq: CPR E 531; COM S 474 or COM S 573*

Examination of applications of machine learning and big data techniques to various security and privacy problems, as well as secure and privacy-preserving machine learning algorithms.

**CYBSC 592: Seminar in Cyber Security**

Cr. 1-3. Repeatable.

*Prereq: Permission of instructor*

Projects or seminar in Cyber Security.

**Courses for graduate students:****CYBSC 631: Cyber Security Operations Practicum**

(Cross-listed with CPR E). Cr. 3. Repeatable.

*Prereq: CPR E 532; CPR E 534; and permission of instructor*

Practical experience in cyber operations. Cyber security threat analysis, malware analysis, and intrusion detection management. Cyber security data analysis methods. Pen testing tools and techniques. Weekly threat analysis briefings. Offered on a satisfactory-fail basis only.

**CYBSC 632: Cyber Security Capstone Design**

(Cross-listed with CPR E). (3-0) Cr. 3.

*Prereq: CYBSC 531, CYBSC 532, CYBSC 534*

Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attack each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report.

**CYBSC 634: Current Research Problems in Cyber Security**

(3-0) Cr. 3. Repeatable. F.S.

*Prereq: CPR E 530, CPR E 531, permission of instructor.*

Discussion of complex cyber security problems. Students will learn how to apply research techniques, think clearly about these issues, formulate and analyze potential solutions, and communicate their results. Working in small groups under the mentorship of technical clients from government and industry, each student will formulate, carry out, and present original research on complex current cybersecurity problems of interest to the nation. This course will be run in a synchronized distance fashion, coordinating some activities with our partner schools and our technical clients.

**CYBSC 697: Cyber Security Summer Internship**

Cr. R.

*Prereq: Permission of department, graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

## Dietetics - Graduate Program

### INTERINSTITUTION GRADUATE PROGRAM

Iowa State University offers a master's degree in Family and Consumer Sciences with a specialization in Dietetics. This is an interinstitutional online program offered through the Great Plains Interactive Distance Education Alliance (or GPIDEA). The student selects a home institution (Iowa State), which ultimately grants the degree. After admission to Iowa State, the student takes courses from Iowa State and the other participating institutions: Colorado State University, North Dakota State University, Oklahoma State University, South Dakota State University, University of Kansas Medical Center, and University of Nebraska-Lincoln.

The Master of Family and Consumer Sciences-Dietetics is designed for the Registered Dietitian or Registration-eligible Dietitian. The 36-credit program is non-thesis and seeks to develop research skills, stimulate independent thought, and provide up-to-date knowledge in foods, nutrition, and foodservice/business management. A special project, called a creative component, is required as part of the 36 required credits. This program prepares individuals to integrate and apply the principles

from the biomedical sciences, human behavior, and management to design and lead effective food and nutrition programs in a variety of settings. Students may build a program of study from offerings of the partner institutions such as human nutrition, nutrient metabolism, biostatistics, health promotion/disease prevention, foodservice systems management, food science, lifespan nutrition, wellness, entrepreneurship, nutrition education, nutritional assessment and food safety. The online program is tailored for credentialed, practicing dietetics professionals who seek to enhance their knowledge in a specific area of dietetics practice or retool for new career opportunities in dietetics practice.

**Admission procedures:** Admission to the MFCS-Diet program requires exactly the same procedures as admission to the Graduate College. See the Graduate College Admission section of this catalog.

**Registration:** Students choosing to receive their degree from Iowa State University complete all the admissions, registration, and fee payment processes through ISU.

**Courses primarily for graduate students, open to qualified undergraduates:**

#### **DIET 511: Research Methods**

(3-0) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

An overview of diverse research approaches focusing on methods for collecting and analyzing quantitative and qualitative data. Only one of DIET 511 or FCEDS 511 may count toward graduation.

#### **DIET 512: Nutritional Epidemiology**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Important issues related to designing, conducting, and interpreting research on the role of diet or physical activity in the development of disease (& health) in human populations.

#### **DIET 526: Obesity Across the Lifespan**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Exploration of the affects that obesity has on public health, the healthcare system, and society in general. Overview of strategies to prevent obesity across the lifespan.

#### **DIET 530: Nutrition and Wellness**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Addresses wellness promotion through nutrition. Nutritional risk and protective factors will be examined in relation to public health and individual nutrition.

#### **DIET 531: Nutrition Therapy for Eating Disorders**

(3-0) Cr. 3. Repeatable. F.

*Prereq: Enrollment in MFCS-Dietetics and a course in medical nutrition therapy or consent of instructor.*

An online study of eating disorders management and nutrition care. Topics include eating disorders medical complications, clinical care guidelines, basic pharmacology, clinical nutrition education, nutrition care planning, psychology of eating disorders, team collaboration, and therapeutic modalities for nutrition counseling.

#### **DIET 532: Maternal and Child Nutrition**

(3-0) Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Critical examination of behavioral, physiological, and public health issues impacting dietary and nutritional factors that support normal growth and development. Content focuses on early stages of the life cycle: gestation, lactation, infancy, preschool, school age, and adolescence.

#### **DIET 534: Nutrition Education in the Community**

Cr. 3. S.

*Prereq: Enrollment in GPIDEA MFCS in Dietetics*

Principles and practices of teaching individuals and groups to translate nutrition knowledge into action. Emphasis on research in and evaluation of nutrition education.

#### **DIET 538: Nutrition: A Focus on Life Stages**

(3-0) Cr. 3. F.Alt. SS., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Explores influence of normal physiological stresses on nutritional needs throughout the life span. Evaluates dietary intake and identification of appropriate community nutrition services in on-line discussions. Specific considerations, such as the influence of age and cultural heritage, are incorporated.

#### **DIET 540: Nutrition and Physical Activity in Aging**

(Cross-listed with GERON). (3-0) Cr. 3. F.

WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

#### **DIET 541: Food Culture**

Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Survey of topics that affect how we perceive food in the modern world. Food is examined as a badge of cultural identity, focus of media scrutiny and promotion, symbol of religion, and driver of technology.

**DIET 546: Phytochemicals**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Overview of phytochemicals (non-nutritive biologically active compounds) from fruits, vegetables, cereals and oilseeds. Covers recent findings of chemistry, physiological functions, and potential health implications of phytochemicals.

**DIET 547: Functional Foods in Chronic Disease Prevention**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examination of nutritional science, food science, regulatory principles, and nutrient metabolism to understand and explain functional foods, nutraceuticals, and dietary supplements. Additionally students will evaluate the biochemical basis, technologies, legal requirements, and clinical assessment in the marketplace.

**DIET 548: Nutrition and Physical Activity Assessment**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Introduction to a variety of nutrition and physical activity assessment tools. Opportunity to discuss the strengths and weaknesses of different tools and gain experience collecting, analyzing, and interpreting nutrition and physical activity data.

**DIET 551: Advanced Nutrition: Nutrigenomics, Nutrigenetics & Advanced Lipid Metabolism in Human Nutrition**

Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Exploration and integration of topics and ideas that are at the forefront of the field of nutritional science. Examination of topics that are new and/or controversial and have implications that range from the cellular/molecular/biochemical level up to clinical/educational level. Emphasis on the integrative and complex nature of human nutrition research from basic science to clinical studies to population studies and dietary recommendations.

**DIET 554: Statistics**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Tools used to make statistical decisions. Major emphasis on explanation and understanding of important concepts involved; basic theme is understanding of data and methods used to analyze such data. Only one of DIET 554 or Stat 401, 495, 542 may count toward graduation by students in the GPIDEA Dietetics program.

**DIET 555: Public Health Nutrition**

Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Examines U.S. public health and nutrition concerns in diverse U.S. populations, examines nutritional status in communities, looks at health communication, and considers nutrition policies and community-based nutrition interventions. Students explore roles of dietitians, nutritionists, and others in developing and delivering nutrition policies and interventions in U.S. communities.

**DIET 556: Micronutrients in Human Nutrition**

(3-0) Cr. 3. S.SS.

*Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Interrelationships of micronutrients in terms of biochemistry, physiology, genetics, and nutrition. Emphasis on developing understanding of how the coordination of structure and function is related to metabolic needs of the cell and its response to the environment. This integrated approach forms the basis for evaluating the micronutrient needs of humans in both normal and altered metabolic states. Only one of DIET 556 or NUTRS 502 may count toward graduation.

**DIET 558: Advanced Human Nutrition: Macronutrients**

(3-0) Cr. 3. SS.

*Prereq: BBMB 404 or BBMB 420 or equivalent; enrollment in GP-IDEA MFCS in Dietetics*

Integration of the molecular, cellular and physiological aspects of macronutrients and energy metabolism in mammalian systems. Dietary energy, carbohydrates, fiber, lipids, proteins, their interactions, metabolic consequences, and major research methodologies. Only one of DIET 558 or NUTRS 501 may count toward graduation.

**DIET 560: Advanced Medical Nutrition Therapy**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention directed to medical nutrition needs of patients in the treatment of each disease state. Only two of DIET 560 or NUTRS 561, 564 may count toward graduation.

**DIET 565: International Nutrition and World Hunger**

(3-0) Cr. 3. F.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Identification and assessment of malnutrition in low-income countries. Social, cultural, political, economic, and geographic determinants of malnutrition. Protein-energy malnutrition, vitamin and mineral deficiencies. Intervention approaches; international efforts and local sustainability.

**DIET 566: Nutrition Counseling and Education Methods**

(2-2) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation. Literature review of specific counseling and learning theories.

**DIET 568: Entrepreneurship Theory and Practice**

(3-0) Cr. 3. Alt. SS., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Definition and discussion of entrepreneurship and its importance to economic and business environment.

**DIET 569: Dietary and Herbal Supplements**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Develop skills to partner with patients in making dietary supplement decisions. Explore the safe, efficacious use of botanicals and supplements in nutritional support of aging, maternal health and wellness. Discussions on supplementation in the prevention and treatment of chronic disease include: arthritis, cancer, cardiovascular, diabetes, digestive, liver and renal disorders.

**DIET 570: Nutrition and Human Performance**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Develop an understanding of nutrition based on knowledge of the biochemical and physiological process and functions of specific nutrients in meeting nutritional requirements. Emphasis on the relationship of optimal nutrition and physical efficiency and performance.

**DIET 571: Foundation of Leadership in Dietetics**

(3-0) Cr. 3. SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Using leadership theories to develop the fundamental concepts and skills to bridge the gap between theory and practice. Students will be able to successfully evaluate classic and contemporary leadership theories, investigate current leadership trends and identify positive applications in the dietetics community.

**DIET 572: Current Issues or Trends**

(3-0) Cr. 3. F.S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Overview of current topics, issues, and trends in dietetics practice.

**DIET 574: Nutrition and Immunology**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Principles and issues related to nutrition and immunology. Impact of nutrients and nutritional status on immune responses. Impact of disease states on nutritional status.

**DIET 576: Diabetes Medical Nutrition Therapy**

Cr. 3.

*Prereq: Course in medical nutrition therapy; enrollment in GP-IDEA MFCS in Dietetics*

An in-depth study of diabetes management with emphasis in nutrition care. Topics will include diabetes pathophysiology, clinical care guidelines, basic pharmacology, clinical nutrition education and counseling strategies, and nutrition care planning.

**DIET 597: Nutritional Aspects of Oncology**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: B.S. in nutrition, dietetics, biology, or related discipline.*

Understanding of basic cancer biology and methodology used to study nutrition and cancer relationships. Using current research as a basis, the role of nutrition in specific cancers will be explored. Students will learn about sources of information for cancer prevention programs, and how to apply this information to clinical patient management.

**DIET 598: Clinical Aspects of Nutrition Support**

(3-0) Cr. 3. S.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

Specialized nutrition assessment and support. Review of energy expenditure and substrate utilization in specific disease states. Current Methods for the initiation and management of enteral and parenteral nutrition therapy including access, metabolic and mechanical complications. Evaluation of nutrition support methodology in selected disease states.

**DIET 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Enrollment in GP-IDEA MFCS in Dietetics*

For non-thesis option only.

## Ecology and Evolutionary Biology Interdepartmental Graduate Major

The Ecology and Evolutionary Biology (EEB) interdepartmental major is offered through ten departments -- Agronomy; Ecology, Evolution and Organismal Biology; Entomology; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Horticulture; Mathematics; Natural Resource Ecology and Management; Plant Pathology; Statistics, and World Languages and Cultures. Faculty in these departments cooperate to offer courses and direct research leading

to M.S. and Ph.D. degrees with a major in Ecology and Evolutionary Biology.

The EEB major is designed for students interested in the study of mechanisms controlling the composition, structure, and functional processes of ecological systems and the mechanisms that regulate the pattern and rate of evolutionary change within and among species. Applicants should have completed an undergraduate or master of science or arts degree in one of the biological, physical, or mathematical sciences. Applicants also should have taken undergraduate courses in both basic ecology and evolution.

The EEB curriculum includes a core course, seminar courses, and an extended field trip. Cooperating departments provide courses and research opportunities in the following areas:

- Conservation and Restoration Ecology;
- Environmental Statistics, Stochastic Modeling, and Quantitative Ecology and Evolution;
- Evolutionary Ecology;
- Landscape Ecology, Modeling, and Spatial Dynamics;
- Natural Resources Ecology and Management;
- Physiological and Behavioral Ecology;
- Population, Community, and Ecosystems Ecology;
- Population, Quantitative, and Evolutionary Genetics; and
- Systematics, biodiversity, and biogeography.

In addition, offerings are available in the ethics and practice of research in the biological sciences as well as in science communication (both written and oral).

Students majoring in EEB are trained for careers focused on basic or applied ecology and evolutionary biology in a variety of settings, including academia, government, industry, and private organizations. Graduates have a broad understanding of ecology and evolutionary biology, experience designing and conducting research, writing grant proposals, and communicating effectively with scientific colleagues at meetings and through publications.

Information on admission procedures (<https://eeb.iastate.edu/admissions/>), academic requirements (<https://eeb.iastate.edu/academics/>), and faculty research areas (<https://www.eeb.iastate.edu/people/faculty/>) is available on the EEB website (<http://www.eeb.iastate.edu/>).

**Courses primarily for graduate students, open to qualified undergraduates:**

**EEB 511: Conceptual Foundations in Ecology and Evolutionary Biology**  
(3-2) Cr. 4. Alt. F., offered even-numbered years.

*Prereq: Graduate classification*

Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

**EEB 585: Extended Field Trip**

(1-6) Cr. 2. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Graduate classification, permission of instructor*

Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

**EEB 585A: Extended Field Trip: Pre-Trip Lecture**

(1-0) Cr. 1. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Graduate classification, permission of instructor*

Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

**EEB 585B: Extended Field Trip: Travel**

(0-6) Cr. 1. Repeatable. Alt. F., offered irregularly. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: Graduate classification, EEB 585A and permission of instructor.*

Extended field trip to study major terrestrial and aquatic ecosystems. Location and duration vary. Report required.

**EEB 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification and permission of instructor*

For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

**Courses for graduate students:**

**EEB 698: Seminar**

(1-0) Cr. 1. Repeatable. F.S.

Reports and discussion of recent research and literature.

**EEB 699: Research**

Cr. arr. Repeatable. F.S.SS.

Thesis and dissertation research.

# Engineering Management

## Engineering Management Master's Degree

The Engineering Management Program focuses on developing an individual's engineering, science and management skills so they can succeed in a technology driven environment. There is a growing need for engineers that can build multi-disciplinary design teams, then lead those teams to solve technical and business challenges. The Iowa State University Master of Engineering in Engineering Management Program is designed to train leaders who can meet both the technical and managerial challenges in developing modern complex engineered systems. The program can be completed on line or in residence, part-time or full-time.

### Admission Requirements

To be considered for admission, the applicant should have a bachelor's degree in engineering or related field from a college, university, or technical school of recognized standing. Non-engineering backgrounds will be considered on a case-by-case basis. High academic achievement or other persuasive evidence of professional accomplishments is expected for admission to the program. The GRE is not required.

Applicants for admission to this program apply through the ISU Graduate College. Each applicant must submit:

- Application and application fee
- Official academic transcripts
- Three letters of recommendation
- Resume

Applications should be submitted as early as possible before the beginning of the semester for which admission is sought. Individuals may also take up to nine credits at Iowa State as a non-degree seeking student and then transfer them to the program when they are admitted. (<https://iowastateonline.iastate.edu/apply-and-enroll/>)

The Master of Engineering in Engineering Management Program at Iowa State University is focused on supporting working professionals so teaching or research assistantships typically are not available.

### Degree Requirements

Engineering Management Core:

Intro/Core (required first year)

I E 563	Engineering and Systems Management	3
I E 565	Systems Engineering and Analysis	3
Core (required)		
SCM 524	Strategic Process Analysis and Improvement	3
I E 570	Systems Engineering and Project Management	3

MGMT 583	Formulating and Implementing Innovation Strategies	3
ACCT 581	Accounting for Decision Making	3
Electives		
I E 560	Engineering Risk Analysis	3
I E 561	Total Quality Management	3
I E 564	Decision Analysis	3
I E 572	Design and Evaluation of Human-Computer Interaction	3
I E 577	Human Factors	3
I E 581	e-Commerce Systems Engineering	3
CON E 380	Engineering Law	3
FIN 501	Financial Valuation and Corporate Financial Decisions	3
MKT 501	Marketing	3
MGMT 503	Professional Responsibility in Business and Society (One course from any graduate program)	3
One course from any graduate program		3

## Entrepreneurship Minor

Are you a problem-solver, innovator, or change maker? Do you want to make an impact in your community or change the world? By minoring in entrepreneurship, you will sharpen your creative thinking and problem solving skills, develop your entrepreneurial mindset, start your own business, develop a new product, or become an innovator in an established company. The interdisciplinary Entrepreneurship Minor was designed to complement any major area of study by introducing knowledge and skills needed to create value through recognizing and developing opportunities.

## UNIVERSITY-WIDE UNDERGRADUATE MINOR

A minor in entrepreneurship is available to all undergraduate students at ISU. The minor requires at least 15 credits from an approved list of courses, including at least 6 credits in courses numbered 300 or above taken at Iowa State University with a grade of C or higher. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Students must follow college-specific rules in selecting courses. The college representatives to the supervisory committee will be responsible for advising students in their college, and will inform students about the details of the college rules. Students with declared majors have priority over students with declared minors in courses with space constraints.

Non-business students with an Entrepreneurship minor are not permitted to major in Entrepreneurship. Business students interested

in entrepreneurship may choose to major in Entrepreneurship (<https://catalog.iastate.edu/collegeofbusiness/entrepreneurship/#undergraduatemajortext>), or pursue the Entrepreneurship minor.

A student seeking a minor in entrepreneurship must successfully complete a minimum of 15 credits in courses approved for use in the entrepreneurship program, including the following:

Required Courses (6 credits):

ENTSP 310	Entrepreneurship and Innovation	3
ENTSP 313	Feasibility Analysis for New Ventures	3
or ENTSP 320	Corporate Entrepreneurship	
or ENTSP 410	Social Entrepreneurship	

ENTSP 310 Entrepreneurship and Innovation is the introductory course and provides an overview of the entire field.

ENTSP 313 Feasibility Analysis for New Ventures emphasizes developing an idea for a new venture, conducting a feasibility study, researching the potential market, analyzing the competition, and preparing a formal business plan.

ENTSP 320 Corporate Entrepreneurship introduces and examines state-of-the-art approaches to product innovation and technology development in today's large and established organizations.

ENTSP 410 Social Entrepreneurship discusses issues related to the role of social entrepreneurship in helping to solve social problems, including innovation, opportunity recognition, planning and the launch of new non-profit organizations.

Elective Courses (6 credits):

Select TWO entrepreneurship-oriented electives from an approved course list (see below). Students are encouraged to take electives within their major college.

Experiential Learning (3 credits):

Students will engage in the process(es) of entrepreneurship to earn experiential learning credits. Students will either take a course that has been designated as an experiential learning course, or use some other experiential learning activity as the basis to receive credits through an independent study.

Detailed information about the Entrepreneurship minor, the list of approved electives, as well as information about the experiential learning options are available online at: <https://ivybusiness.iastate.edu/entrepreneurship-minor/>

FOR IVY COLLEGE OF BUSINESS STUDENTS ONLY: Students are limited to three business majors/degrees/minors within the Ivy College of Business. This limit is on business majors/degrees/minors only, and

does not apply to multiple majors/degrees/minors taken outside the Ivy College of Business.

## GRADUATE CERTIFICATE

A graduate certificate in Entrepreneurship and Innovation offers post-undergraduate students the opportunity to learn the basics of starting a business. The certificate requires 4 courses (12 credits). The two required core courses are offered online by the Ivy College of Business. Elective courses are available across campus.

The graduate certificate in Entrepreneurship and Innovation focuses on strategies and resources for launching new ventures and helps students understand the role of innovation in entrepreneurship.

This interdisciplinary certificate provides a solid foundation in entrepreneurship and innovation through required core courses ENTSP 566 Entrepreneurship and New Venture Startup and ENTSP 583 Formulating and Implementing Innovation Strategies. At the same time, the program enables students to follow their own interests through electives offered by partners across campus.

For more information about the graduate certificate in Entrepreneurship and Innovation, please visit: <https://ivybusiness.iastate.edu/ei-certificate/>

## CONTACTS

### Entrepreneurship Faculty and Advisors

Faculty and advisors in each college are available to answer questions about the Entrepreneurship minor and course requirements. Please visit the link below for the contact in your college.

<https://ivybusiness.iastate.edu/entrepreneurship-minor/contacts/>

## Feed Technology Minor

The agricultural economy is heavily dependent on feed technology.

The Midwest is one of the largest feed production and grain processing regions in the world. Feed manufacturing is also a global business with a growing demand for qualified technical professionals.

Feed technology includes the areas of grain handling and storage, animal nutrition, feed formulation, feed manufacturing, biosecurity, and feed safety and quality. The Feed Technology minor (15 credits) covers the breadth of all these topics so that you can:

- Understand animal nutrition, feed mill operations management and their application to feed quality, safety, and profitability;
- Identify chemical, biological and physical hazards in grain and feed;
- Know practical ways to monitor, manage and mitigate hazards in grain handling and feed manufacturing facilities; and

- Be familiar with the importance, scope and trends of the global animal feed industry.

The minor requires 15 credits and must include at least 9 credits that are not used to meet any other department, college, or university requirement. Below is the list of courses used in the minor.

TSM 322	Preservation of Grain Quality	3
or A B E 469	Engineering for Grain Storage, Preservation, Handling, and Processing Systems	
TSM 455	Feed Processing and Technology	3
TSM 457	Feed Safety, Ingredient Quality and Analytics	3
AN S 320	Animal Feeds and Feeding	3
AN S 324	Food Processing for Companion Animals	3
<b>Total Credits</b>		<b>15</b>

AN S 219X, if offered, may be substituted for AN S 320.

## Forensic Sciences Certificate

### Forensic Sciences Graduate Certificate

The forensic sciences graduate certificate program complements a program of study at Iowa State University that leads to any graduate degree in an established academic major. The forensic sciences certificate is also recommended for students who wish to strengthen their interdisciplinary skills. Coursework for the certificate is at the graduate level; however, qualified undergraduates may also enroll by admission to the Graduate College as a certificate student for a minimum of one semester. Completion of the certificate is noted on the student's transcript and via a certificate provided by the Registrar.

### Learning Outcomes

Upon completion of the graduate certificate in forensic sciences, students will be:

- Educated in a diverse array of topics that contribute to the interdisciplinary field of forensic science.
- Well informed about the needs for research and development in forensic science.
- Able to propose a research project related to forensic science.
- Informed about forensic science as a career choice.
- Aware of the possibility of offering expertise to law enforcement agencies within the community.
- Aware that forensic sciences can be used as an educational tool in post-graduate capacity as a professor/teacher, parent, or community volunteer.

### Requirements

- 12 credits of coursework and seminars at Iowa State University with a total GPA of 3.0 or higher.
- Attendance at all events hosted by the NIST Center for Excellence in Statistics and Applications in Forensic Evidence (CSAFE) at Iowa State.
- Attendance at a national or regional scientific meeting devoted to forensic science.
- Completion of the certificate within three contiguous calendar years.

### Coursework

- 1 graduate credit seminar course in forensic science: **ANTHR 541**. This seminar will be offered each fall semester. In this seminar, you will report on the off-campus conference you attend, and also on your research.
- 1 graduate credit of independent study: **ANTHR 542**. You will choose a topic in forensics, ask the Director of Certificate Studies (DOCS) for approval, research it in the literature and write a paper on it. You will present this research project to the seminar group.
- At least 10 graduate credits from among the courses listed in the Certificate Electives course list. From this list, you may not choose any courses offered toward your academic major, and you must choose courses from at least two different departments entirely outside of your department or program. No credits may be transferred to ISU from other institutions.

All Certificate candidates are required to take ANTHR 541 (1 credit) and ANTHR 542 (1 credit). In addition, choose 10 credits from the following list of Certificate Electives:

AGRON 502	Chemistry, Physics, and Biology of Soils	3
AGRON 555	Environmental Soil Mineralogy	3
AN S 561	Population and Quantitative Genetics for Breeding	4
AGRON 563	Soil Formation and Landscape Relationships	3
ANTHR 503	Biological Anthropology and Archaeology	3
ANTHR 519	Skeletal Biology	3
ANTHR 524	Forensic Anthropology	3
B M S 554	General Pharmacology	3
CHEM 511	Advanced Analytical Chemistry	3
CHEM 513	Analytical Molecular and Atomic Spectroscopy	3
CHEM 516	Analytical Separations	3
CHEM 572	Spectrometric Identification of Organic Compounds	3
CHEM 577	Mass Spectrometry	3
CPR E 536	Computer and Network Forensics	3
ENT 675	Insecticide Toxicology	3
GEN 409	Molecular Genetics	3

GEN 462	Evolutionary Genetics	3
GDCB 511	Advanced Molecular Genetics	3
MATH 535	Steganography and Digital Image Forensics	3
M S E 550	Nondestructive Evaluation	4
M S E 551	Characterization Methods in Materials Science	3
M S E 552	Scanning and Auger Electron Microscopy	3
SOC 584	Current Issues in Crime and Justice	3
STAT 587	Statistical Methods for Research Workers	4
TOX 546	Clinical and Diagnostic Toxicology	1-3
V MPM 528	Principles of Epidemiology and Population Health	3
V MPM 586	Medical Bacteriology	4
V MPM 542	Introduction to Molecular Biology Techniques	1

## Genetics and Genomics

### GRADUATE MAJOR

Work is offered for the master of science and doctor of philosophy degrees with a major in Genetics and Genomics in fourteen cooperating departments: Agronomy; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Ecology, Evolution and Organismal Biology; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Horticulture; Materials Science and Engineering; Plant Pathology and Microbiology; Natural Resource Ecology and Management; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

Students are admitted by the approval of the Chair after review by the Genetics and Genomics Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. First year students participating in rotations with Genetics and Genomics faculty will take GENET 697 Graduate Research Rotation.

The diversity of faculty in the Genetics and Genomics major ensures a broad, well-balanced education from the best instructors, while offering flexibility in choice of research area. Genetics and Genomics faculty have strengths in many areas, from fundamental studies at the molecular, cellular, organismal, and population levels, to research with immediate practical application. Ongoing research projects span all the major areas of theoretical and experimental genetics, including genomics, molecular studies of gene regulation, gene mapping, genetics of disease, transposable element studies, developmental genetics, quantitative and statistical genetics, computational molecular biology, evolutionary genetics, and population genetics.

## UNDERGRADUATE PREPARATION

Undergraduates wishing to prepare for graduate study in Genetics and Genomics should elect courses in basic biology, chemistry at least through organic chemistry, one year of college-level physics, mathematics at least through calculus, at least one thorough course in basic transmission and molecular genetics, one semester of upper level statistics and one semester of upper level biochemistry. Incoming students who have not completed an upper level statistics course and an upper level biochemistry course prior to beginning in the program will take STAT 587 Statistical Methods for Research Workers and BBMB 404 Biochemistry I during their first year of graduate training. A waiver may be requested for these courses by providing appropriate documentation (catalog description and syllabus) to the curriculum committee showing completion of an upper level statistics and upper level biochemistry course equivalent to STAT 587 Statistical Methods for Research Workers and BBMB 404 Biochemistry I.

See information from the College of Agriculture and Life Sciences or the College of Liberal Arts and Sciences for information on a bachelor of science degree in Genetics.

All Ph.D. candidates take a core curriculum comprising one course each from the following four categories and attend seminars and workshops as described:

#### Transmission Genetics

GDCB 510	Transmission Genetics
----------	-----------------------

#### Molecular Genetics

GDCB 511	Advanced Molecular Genetics
----------	-----------------------------

#### Quantitative, Population, and Evolutionary Genetics

AN S 561 & AGRON 561	Population and Quantitative Genetics for Breeding and Population and Quantitative Genetics for Breeding
EEOB 507	Advanced Animal Behavior
EEOB 561	Evolutionary and Ecological Genomics
EEOB 563	Molecular Phylogenetics
EEOB 566	Molecular Evolution
EEOB 567	Empirical Population Genetics
GDCB 536	Statistical Genetics

#### Genomics, Bioinformatics and Statistical Genetics

AN S 556	Current Topics in Genome Analysis
BCB 544	Fundamentals of Bioinformatics
STAT 516	Statistical Design and Analysis of Gene Expression Experiments
STAT 581	Analysis of Gene Expression Data for the Biological Sciences
BCB 567	Bioinformatics Algorithms

BCB 568	Statistical Bioinformatics
BCB 569	Structural Bioinformatics
BCB 570	Systems Biology
EEOB 546	Computational Skills for Biological Data
COM S 551	Genomic Data Science

Students will give two research presentations (GENET 690 Graduate Student Seminar in Genetics), attend one genetics and genomics faculty seminar series (GENET 691 Faculty Seminar in Genetics), and participate in two Workshops in Genetics and Genomics (GENET 591 Workshop in Genetics) during their graduate training. First-year graduate students will take GENET 692 Conceptual Foundations of Genetics.

Students may elect a computational molecular biology specialty within the genetics major. This requires that the research project be in the field of computational molecular biology. IGG majors will be expected to complete all of the courses required for the genetics and genomics major, except that one semester of BCB 690 Student Seminar in Bioinformatics and Computational Biology can be substituted for GENET 690 Graduate Student Seminar in Genetics. Students will be expected to take additional courses in the area of specialization.

M.S. students will take the above core courses and seminars with the following changes: participate in one Workshop in Genetics (GENET 591 Workshop in Genetics) and present their research once (GENET 690 Graduate Student Seminar in Genetics). Additional coursework may be selected to satisfy individual interests or departmental requirements.

The course designator Genet applies to graduate courses taught by the interdepartmental major in Genetics and Genomics.

Students wishing to minor in genetics and genomics must submit a complete application to the graduate program. Requirements for the successful completion of a minor at the Ph.D. or M.S. levels are: completion of three of the four categories of the common-core required lecture courses listed above. One semester of Seminar in Genetics is recommended.

GENET 690	Graduate Student Seminar in Genetics	1
GENET 691	Faculty Seminar in Genetics	1
GENET 692	Conceptual Foundations of Genetics	1

One member of the POS committee must be a Genetics faculty member.

**Student Outcomes:** Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, or government. A few go directly to permanent research positions in industry. Many students awarded master's degrees continue their training as doctoral students; however, some choose

research support positions in academia, industry, or government. A more thorough list of outcomes is available at our web site.

#### **Courses primarily for graduate students, open to qualified undergraduates:**

##### **GENET 539: Ethics and Biological Sciences**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

Introduction to Bioethics through case studies, discussion of contemporary work on central bioethics topics, and discussion of important emerging ethical issues associated with recent research or technological development. Issues covered will vary somewhat from year to year, but will include at least some of the following: ethics and responsible research practice, animal ethics and the use of animals in teaching and research, cloning, human reproductive and stem cell research, regulation of genetically modified crops and foods, plant biotechnology, gene patents. Students will be divided into groups to develop their own case study, to be presented in class at the end of the term. Offered on a satisfactory-fail basis only.

##### **GENET 590: Special Topics**

Cr. arr. Repeatable. F.S.SS.

Contact individual faculty for special projects or topics. Graded.

##### **GENET 591: Workshop in Genetics**

(1-0) Cr. 1. Repeatable. F.

*Prereq: Permission of instructor*

Current topics in genetics research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

#### **Courses for graduate students:**

##### **GENET 690: Graduate Student Seminar in Genetics**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor*

Research presentations by students to improve their ability to: orally present scientific work in a clear and meaningful way, critically evaluate oral presentations, and give and receive constructive criticism. Students may enroll in one seminar per school year.

##### **GENET 691: Faculty Seminar in Genetics**

(1-0) Cr. 1. Repeatable. F.

*Prereq: Permission of instructor*

Faculty research seminars that introduce students to the variety of genetics research projects on campus and provide an opportunity for students to become engaged in the scientific presentation to the point where they can think critically and ask meaningful questions.

**GENET 692: Conceptual Foundations of Genetics**

(1-0) Cr. 1. F.

*Prereq: Permission of instructor*

Landmark papers in the development of genetics concepts. Papers are presented and discussions led by students, guided and mentored by the instructors. Instructors provide a broad overview and history of the development of fundamental concepts in genetics.

**GENET 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with AGRON, BCB, E E, ENGR, M E). (3-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.

*Prereq: Graduate student status and completion of at least one semester of graduate coursework.*

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**GENET 697: Graduate Research Rotation**

Cr. arr. Repeatable. F.S.SS.

Graduate research projects performed under the supervision of selected faculty members in the graduate Genetics major. Offered on a satisfactory-fail basis only.

**GENET 699: Research**

Cr. arr. Repeatable. F.S.SS.

Research.

## Honors Program

## Honors Program

The University Honors Program brings together some of Iowa State University's brightest and most motivated students to take advantage of both intellectual and social opportunities. Honors scholars gain early exposure to research and leadership as well as benefit from creating an individualized educational path adding breadth and depth to their academic experience.

Students in the First-Year Honors Program (<https://www.honors.iastate.edu/program/fhp/>) typically enroll in five Honors credits in their first term (Engl 250H, Lib 160, Honors 121) and may opt to participate in the First-Year Mentor Program (<https://www.honors.iastate.edu/program/fhp/first-year-mentor-program/>), a two-credit research experience during their second term. In the

University Honors Program, students receive a variety of academic opportunities to help them optimize their undergraduate experience. They create individualized programs of study with opportunities to incorporate independent study and research. Grants (<https://www.honors.iastate.edu/scholarships/research-grants/>) are available to support Honors student research. Students who complete their work in the University Honors Program receive a notation on their transcript.

All Honors students take at least two Honors courses and two Honors seminars (listed as HON 321-324), complete an independent research or creative project (<https://www.honors.iastate.edu/program/uhp/project/>), and maintain an overall GPA of 3.5 or higher. Most Honors requirements also fulfill requirements for graduation. Depending on the college of their primary major, students may need to fulfill additional requirements (<https://www.honors.iastate.edu/program/uhp/college-reqs/>).

Honors credit for a course (<https://www.honors.iastate.edu/program/uhp/courses/>) is denoted by an "H" on the transcript and can be earned in the following ways: enrollment in an Honors section of a class, contracting an Honors Component within a class, enrollment in a 500-level graduate course.

Honors seminars (<https://www.honors.iastate.edu/program/uhp/seminars/>) are one- or two-credit special topic classes offered only to Honors students. With enrollment generally limited to 17 students, these seminars promote a crucial atmosphere of intellectual exchange and a high level of student involvement in learning.

Oversight of Honors students' progress is carried out by the Honors Program staff in coordination with the undergraduate colleges. Each college's Honors committee approves its students' programs of study and project proposals. The University Honors Program Committee is responsible for the program's curricular oversight. The Honors Program Office is located at 2130 Jischke Honors Building. For additional information, visit [www.honors.iastate.edu](http://www.honors.iastate.edu) (<https://www.honors.iastate.edu/>) or contact [honors@iastate.edu](mailto:honors@iastate.edu).

## HONORS PROGRAM

The Iowa State University Honors Program is designed for students who have demonstrated the ability and motivation to assume more than the usual responsibility for their undergraduate education. The program enables honors students to gain the maximum benefit from their undergraduate education. Students who graduate in the Honors Program receive the honors designation on their transcripts and diplomas.

Special educational opportunities. Students in the Honors Program determine their educational objectives and devise an individualized program of study to meet them. An honors program may include substitutions for required courses, a combination of courses from several

departments to form a new major or minor, Honors courses or seminars, independent study and research, and other forms of innovation.

Other benefits. Members of the Honors Program have 24-hour access to the Jischke Honors Building as a quiet place to study and visit with other honors students. Students also have off-campus opportunities such as attending honors semesters and conferences. Members receive extended loan privileges at the Library, priority scheduling, and the opportunity to apply for research funds.

ISU students who have a cumulative grade-point average of at least 3.5 become eligible to apply for admission to the Honors Program during their second semester in residence and continue to be eligible as long as they have at least 48 semester credits remaining before graduation. Transfer students with a G.P.A. of 3.5 or higher and more than 60 credits remaining are also eligible to apply.

## FIRST-YEAR HONORS PROGRAM

Entering first-year students with outstanding high school records and academic ability may be eligible to participate in the First-Year Honors Program (FHP). The FHP, which introduces students to an honors education, consists of honors sections of English 250 and Library 160, an FHP seminar, and honors advisors. Students may also choose to participate in the Honors Mentor Program, which introduces students to scholarship and research. Participants are matched with faculty members conducting research in an areas of mutual interest. Admission to the FHP is limited, and is based on past academic achievement, potential, and interest in an honors education.

Further information concerning the University Honors Program and the First-Year Honors Program can be obtained from the Honors Program Office, 2130 Jischke Honors Building or [www.honors.iastate.edu](http://www.honors.iastate.edu) (<http://www.honors.iastate.edu>).

### HON 121: First-Year Honors Program Seminar

(0-2) Cr. 1. F.

*Prereq: Membership in the First-Year Honors Program*

Orientation to Iowa State University and to the University Honors Program. Students will meet and work with other high-ability students for the purpose of exchanging ideas and considering alternative futures as a basis for launching personalized academic programs and professional careers. Offered on a satisfactory-fail basis only.

### HON 290: Special Problems

Cr. arr.

*Prereq: Membership in the First-Year Honors Program*

Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

### HON 290H: First-Year Honors Mentor Program

Cr. 1-2. F.S.

*Prereq: Membership in the First-Year Honors Program*

Independent research study as a part of the First-Year Honors Mentor program (FHMP), which offers first-year honors students the opportunity to get research experiences with a faculty mentor. The main objectives of the FHMP are to develop students' interest in and understanding of academic research and to help them identify a research area for an honors capstone project. Offered on a satisfactory-fail basis only.

### HON 290U: Undergraduate Research

Cr. arr. F.S.

*Prereq: Membership in the University Honors Program; Permission of the University Honors Program Director*

Independent study as a continuation of the First-Year Honors Mentor program (FHMP), which offers second-year honors students the opportunity to continue research experiences with the same FHMP faculty mentor as in the HON 290H course. The main objectives are to extend students' involvement in research and understanding of an academic field and to help them identify a research area for an honors capstone project. Offered on a satisfactory-fail basis only.

### HON 302: First-Year Honors Leadership Development

(1-2) Cr. 2. F.

*Prereq: Permission of the Director for First-Year Honors Program*

For students serving as leaders of First-Year Honors Seminars, under faculty supervision. Development of teaching and leadership skills to augment the experiential education students are gaining by co-instructing Honors 121. Offered on a satisfactory-fail basis only.

### HON 321: University Honors Seminars

Cr. 1-2. F.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

### HON 322: University Honors Seminars

Cr. 1-2. S.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

### HON 323: University Honors Seminars

Cr. 1-2. F.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 324: University Honors Seminars**

Cr. 1-2. S.

*Prereq: Membership in the University Honors Program*

Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 490: Independent Study**

Cr. arr. Repeatable. F.S.

*Prereq: Membership in the University Honors Program; Permission of the University Honors Program Director*

Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

## Human Computer Interaction Interdepartmental Graduate Program

Human Computer Interaction is an interdepartmental graduate program that seeks to improve the way individuals and groups use computers through an understanding of the social and cognitive aspects of the design and use of computational devices. Students in the program learn about cognitive psychology, graphic design principles, the impacts of technology on society, evaluating system usability, and cutting edge computer programming for computational perception and language parsing.

Student research projects have explored the latest in virtual reality studies, improving natural interaction through touch screens and 3D camera gesture controls, virtual engineering using force feedback devices, and many other projects at the bleeding edge of technological innovation. Graduates of the program have gone to work at many of the largest technology firms in the US and abroad while others have gone on to positions in academia.

Degrees are offered for the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees with a major in Human Computer Interaction (HCI). A Graduate Certificate and an Online Master of Human Computer Interaction (M.HCI) degree are also offered; these degrees are especially targeted for the benefit of students working in business and industry wanting education in this field. The graduate program in Human Computer Interaction (HCI) welcomes applicants from a diverse collection of technical and creative fields whose unifying characteristic is the desire to develop new ways to bridge the gap between human and machine. The students must demonstrate skill in software development and proficiency in high-level, object-oriented programming. These skills can be acquired after admission to the program. Other entrance requirements will include an undergraduate degree and transcripts, test scores and other indicators that the applicant can be successful at the graduate level. All students admitted to the PhD program on campus must secure a graduate assistantship.

Program requirements can be found on the program's webpage (<http://www.vrac.iastate.edu/hci/>) and in the Human Computer Interaction Graduate Student Handbook.

All programs of study for the Ph.D. must include:

1. one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena, if not completed as part of the student's master's program
2. two more courses of their choice from a list of recommended electives
3. a minimum of nine research credits.

The M.S. degree calls for 30 credits of course work including appropriate credit for the master's thesis. M.S. students must take one core course of their choice from each of the categories of Implementation, Design, Evaluation and Phenomena. In addition to these courses, M.S. students will be required to take a minimum of 3 research credits.

The online M.HCI program is most appropriate for individuals with a bachelor's degree in a scientific, engineering, business, or artistic discipline, who are pursuing a professional career, and who already have a strong base of information technology skills. Requirements for the online M.HCI Program include taking four courses, one each from the Design, Implementation, Phenomena and Evaluation categories. However, M.HCI students must take two additional courses of their choice from the list of core courses or the list of recommended electives. M.HCI students will therefore be required to take a total of six courses (18 credits) and the remaining four courses (12 credits) would be electives of your choosing.

Requirements for the HCI Graduate Certificate program include three core HCI courses plus one elective.

Information on applications procedures and specific requirements of the major can be obtained on the program webpage: <http://www.vrac.iastate.edu/hci/>

## Immunobiology Immunobiology Interdepartmental Graduate Program

Work is offered for the master of science and doctor of philosophy degrees with a major in Immunobiology. Faculty are drawn from twelve university departments along with researchers from the National Animal Disease Center. Participating departments include: Animal Science; Biochemistry, Biophysics, and Molecular Biology; Biomedical Sciences; Chemical & Biological Engineering; Entomology; Food Science and Human Nutrition; Kinesiology; Natural Resource Ecology & Management; Veterinary Clinical Sciences; Veterinary Diagnostic & Production Animal Medicine; Veterinary Microbiology & Preventative Medicine; and Veterinary Pathology. The diversity of faculty expertise ensures a broad

education while offering flexibility in choice of specialization. Ongoing research projects include areas such as: antibody and cell-mediated immunity, gene expression, immunochemistry, immunogenetics, immunomodulation, immunophysiology, mucosal immunity and nutritional immunology. Additional information about program faculty members is available at: [www.immunobiology.iastate.edu](http://www.immunobiology.iastate.edu) (<http://www.immunobiology.iastate.edu/>).

Students may enter the Immunobiology program in one of two ways; prospective students may apply directly to the major, or current ISU graduate students may be admitted as a co-major or minor in Immunobiology. Ph.D. students admitted into the Interdepartmental Immunobiology major will take IMBIO 697 Graduate Research Rotation during their first two semesters. From these rotations the student will select a major professor and join a home department. Affiliating with a major professor is done by the end of the second semester.

Before entering the Immunobiology program, prospective students should have a strong background in the biological sciences; typically including work in immunology, genetics and biochemistry. Prior research experience is highly encouraged.

Immunobiology students should include in their program of study a core of courses which will provide a broad coverage of the basic program in immunobiology. Formal courses should include immunology, biochemistry, and statistics. Additional coursework may be selected to satisfy individual interests or departmental requirements.

Graduates of the Immunobiology program will have a broad understanding of the interdisciplinary field of immunobiology and will be able to effectively integrate the principles of immunology with related disciplines. They are able to effectively communicate with scientific colleagues and the general public in both formal and informal settings. Graduates are able to integrate theory and research to address complex problems facing scientific professionals studying animal and human health, taking into account related ethical, social, legal and environmental issues. They are skilled at carrying out research, communicating research results, and writing persuasive grant proposals.

## GRADUATE STUDY IN IMMUNOBIOLOGY

### Curriculum Requirements for Immunobiology Doctoral Students

Ph.D. candidates majoring in Immunobiology must take at least 72 graduate credits. This 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student's M.S. program in Immunobiology at Iowa State University will count towards their Ph.D. in Immunobiology.

### Ph.D. students should take each of the following:

BBMB 405	Biochemistry II	3
IMBIO 602	Current Topics Workshop in Immunology Repeated each Fall	1
IMBIO 604	Seminar in Immunobiology Repeated each Spring	1
IMBIO 699	Research	arr†
STAT 587	Statistical Methods for Research Workers	4
V MPM 615	Molecular Immunology	3
GR ST 565	Responsible Conduct of Research in Science and Engineering	1

† Arranged with instructor.

### Take one of the following two:

V MPM 520	Principles of Immunology	3
V MPM 575	Immunology	3

### Take at least two courses from the following approved electives:

BBMB 545	Molecular Signaling	2
IMBIO 661	Comparative Immunology and Infectious Disease	2
GDCB 528	Advances in Molecular Cell Biology	3
V MPM 540	Livestock Immunogenetics	2
V MPM 608	Molecular Virology	3
V MPM 625	Mechanisms of Bacterial Pathogenesis	3
V MPM 629	Advanced Topics in Cellular Immunology	2
V PTH 661	Comparative Immunology and Infectious Disease	2

## Curriculum Requirements for Immunobiology Master's Students

All M.S. students majoring in Immunobiology are required to complete a minimum of 30 graduate credits. These 30 credits includes core course requirements and applicable research credits earned. The requirements for M.S. students are the same as that for Ph.D. students with the exception of the elective credits. M.S. students are required to take **at least one course from the list of electives** as opposed to the two course minimum for Ph.D. students.

## Curriculum Requirements for a Minor in Immunobiology at the PhD Level

Graduate students studying at Iowa State University with an interest in completing an Immunobiology minor for their Ph.D. studies are required to take a total of 12 credit hours of coursework including core courses and approved electives.

Students must be approved for the minor by the Immunobiology program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in Immunobiology are encouraged to contact the Immunobiology Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to: [idgp@iastate.edu](mailto:idgp@iastate.edu).

## Immunobiology Minor Curriculum at the Ph.D. Level Includes:

One course from each of the following two categories:

### Category A:

V MPM 520	Principles of Immunology	3
V MPM 575	Immunology	3

### Category B:

V MPM 615	Molecular Immunology	3
V MPM 629	Advanced Topics in Cellular Immunology	2

### One enrollment in the following:

IMBIO 602	Current Topics Workshop in Immunology	1
-----------	---------------------------------------	---

### Minimum of 2 courses from any of the following approved electives:

BBMB 545	Molecular Signaling	2
GDCB 528	Advances in Molecular Cell Biology	3
IMBIO 661	Comparative Immunology and Infectious Disease	2
MICRO 408	Virology	3
MICRO 554	Virology	1
V MPM 540	Livestock Immunogenetics	2
V MPM 608	Molecular Virology	3
V MPM 625	Mechanisms of Bacterial Pathogenesis	3
V MPM 629	Advanced Topics in Cellular Immunology	2
V PTH 661	Comparative Immunology and Infectious Disease	2

## Interdisciplinary Graduate Studies

[www.grad-college.iastate.edu/igs/](http://www.grad-college.iastate.edu/igs/) (<http://www.grad-college.iastate.edu/igs/>)

## GRADUATE PROGRAM

The degree Master of Science or Master of Arts with a major in Interdisciplinary Graduate Studies (IGS) is available to graduate students who wish to have a more diversified program of advanced study than generally permitted for students who specialize in a single subject. The program is open to any qualified graduate student but is most useful to those who wish to improve their subject matter competence in more than one discipline.

Those who elect to pursue the Interdisciplinary Graduate Studies Program are allowed to take courses in three different graduate subject matter areas, each subject contributing a **minimum** of nine (9) semester credits toward the 35 graduate credits required for the degree. Courses

which may be used for credit toward this degree are selected from those listed in the *Iowa State University Catalog*.

Both thesis and non-thesis options are available. In the thesis option, the student, with the guidance of a major professor, develops and reports in writing a research study. In the non-thesis option, a creative component is required in which the student demonstrates independent creativity such as a written report of laboratory, field, or library research, a project in fine arts, or some other original contribution. A minimum of three (3) and maximum of five (5) credits in either IGS 599 Creative Component or IGS 699 Thesis Research may be counted toward the total 35 semester credits.

The student, in consultation with their Program of Study Committee, will decide on the choice of option (i.e., thesis or non-thesis). The Program of Study Committee also aids the student in planning and approving a program of study and selecting appropriate courses.

A student majoring in Interdisciplinary Graduate Studies may participate in any one of the following areas of specialization:

- Arts and Humanities (<http://igs.grad-college.iastate.edu/areas-of-specialization/arts-and-humanities/>)
- Biological and Physical Sciences (<http://igs.grad-college.iastate.edu/areas-of-specialization/biological-and-physical-sciences/>)
- International Development Studies (<http://igs.grad-college.iastate.edu/areas-of-specialization/international-development-studies/>)
- Social Sciences (<http://igs.grad-college.iastate.edu/areas-of-specialization/social-sciences/>)

Because of the interdisciplinary nature of the Interdisciplinary Graduate Studies Program, students are expected to demonstrate that they can relate in a significant way at least two of the three chosen areas of study. This is usually done in the written work for the thesis research or creative component. In their final oral examination, students also are expected to be able to discuss the relationship among the three areas of study.

### Courses primarily for graduate students, open to qualified undergraduates:

#### IGS 520: Orientation in Community Development

(1-0) Cr. 1.

Introduction to the Community Development program. Focus on on-line delivery methods, graduate level research and writing, technology skills.

#### IGS 599: Creative Component

Cr. arr. Repeatable.

### Courses for graduate students:

**IGS 699: Thesis Research**

Cr. arr. Repeatable.

## Interdisciplinary Studies

### INTERDISCIPLINARY STUDIES UNDERGRADUATE MAJOR

#### Administered by the College of Liberal Arts and Sciences

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic advisor design the major. Leading to either the Bachelor of Arts or the Bachelor of Science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more disciplines. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major. All interdisciplinary studies majors must also satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College's cross-disciplinary programs; the faculty of the cross-disciplinary studies programs in Classical Studies and U.S. Latino/a Studies have laid out an interdisciplinary track for study in those areas.

Students have also worked with faculty to propose Interdisciplinary Studies tracks in areas of interest such as International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and Cognitive Studies. Currently students are working with faculty to identify interdisciplinary programs of study in Climate Science and Health Science.

#### Learning Outcomes

As part of the proposal process students are expected to identify specific learning goals of their proposed interdisciplinary coursework. In addition to meeting the learning goals of the general education program of the College of Liberal Arts and Sciences and meeting university-wide learning goals, Interdisciplinary Studies majors graduates will be able to:

- Integrate knowledge and modes of thinking grounded in interdisciplinary inquiry
- Use methods and tools from multiple disciplines to solve problems
- Connect their learning to their professional goals

Further information about the Interdisciplinary Studies major can be obtained from the LAS College Student Academic Services office.

## HOW TO PROPOSE AN INTERDISCIPLINARY PROGRAM

A student seeking admission to the program in interdisciplinary studies develops a proposal in consultation with faculty and an advisor. The proposal will include a program of study and a letter of application that explains how the proposed major meets specific educational and learning goals. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the LAS Associate Dean for Academic Programs during the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student's educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

#### Specific Requirements for the Program of Study

The interdisciplinary studies major must meet College of Liberal Arts and Sciences and University-wide requirements for graduation. In addition the proposed major must include 36 to 48 credits of coursework chosen to lead to a distinctive set of learning outcomes and bridge two or more disciplines. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.
2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.
3. The courses will be chosen from at least two disciplines.
4. All courses in the major must be at the 200-level or higher.
5. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher.

An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major.

To meet the English and communication proficiency requirement, a grade of C or better must be earned in ENGL 250 and in either an advanced English composition course or a course in the major with a significant writing component.

LAS majors require a minimum of 120 credits, including a minimum of 45 credits at the 300/400 level. You must also complete the LAS world language requirement and career proficiency requirement.

Students in all ISU majors must complete a three-credit course in U.S. diversity and a three-credit course in international perspectives. Check (<http://www.registrar.iastate.edu/courses/div-ip-guide.html>) for a list of

approved courses. Discuss with your advisor how the two courses that you select can be applied to your graduation plan.

Forms and sample proposals are available here (<https://iastate.box.com/s/mf3126yjf7tobnjoq9lf4jw67jmxm8iv/>). Further information may be obtained from the LAS College Student Academic Services office.

## INTERDISCIPLINARY STUDIES MAJOR WITH A TRACK IN CLASSICAL STUDIES

Students may pursue an Interdisciplinary Studies Major with a track in Classical Studies by completing a program of study defined by faculty who work in this interdisciplinary program. Additional information is available on the Classical Studies page of the catalog.

## INTERDISCIPLINARY STUDIES MAJOR WITH A TRACK IN U.S. LATINO/A STUDIES

Students may pursue an Interdisciplinary Studies Major with a track in U.S. Latino/a Studies (<http://catalog.iastate.eduhttps://collegeofliberalartsandsciences/uslatino-a-studies/#interdisciplinarymajortext>) by completing a program of study defined by faculty who work in this cross-disciplinary program. Additional information is available on the U.S. Latino/a Studies page of the catalog.

## Iowa Lakeside Laboratory INTERINSTITUTIONAL PROGRAM

Iowa Lakeside Laboratory is run cooperatively by the Iowa Lakeside Laboratory Consortium whose members include Drake University, Iowa State University, the University of Northern Iowa, and the University of Iowa. Lakeside courses can be taken for credit through all Consortium members. Students should check with their advisors to determine whether Lakeside courses can be used to satisfy major or minor requirements or college or university general education requirements.

The Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially those of the Iowa Great Lakes region with its numerous lakes, wetlands, and prairies. Its campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside's mission is to provide undergraduate and graduate students an opportunity to get hands-on experience working with a variety of natural and human environments through its field-oriented summer courses and to provide research facilities and support for graduate students and faculty working on research projects in northwestern Iowa. Each summer, Iowa Lakeside Laboratory offers students a unique educational experience: small, full-immersion, field-oriented courses in the natural sciences (archaeology, ecology, environmental science, hydrology, evolution, geology, soils, taxonomy). All courses meet all day

from Monday through Friday. The majority of courses run for 4 weeks. Enrollments in most courses are limited to 8 to 10 students.

Courses are taught at the undergraduate (sophomore and junior) and the senior/graduate level. Students obtain one credit for each week (40 hours) in class. One and two week courses are also available, including courses designed especially for teachers. Weather permitting, students normally spend at least part of each day doing field work, either as part of their class work or working on individual or group projects. Because some courses are offered intermittently, the current Iowa Lakeside Laboratory summer brochure or the Lakeside Lab Website ([www.lakesidelab.org](http://www.lakesidelab.org)) should be consulted for the list of courses being offered in a given summer session. The Lakeside Lab Website ([www.lakesidelab.org](http://www.lakesidelab.org)) also contains additional information about the Laboratory and about each course being offered.

Research projects by undergraduates, graduate students and faculty can be done either on the campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at Lakeside and graduate students are welcome to use it as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects.

Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to take full advantage of its educational, professional, and social life.

### Financial Aid

Iowa Lakeside Laboratory Scholarships are available to both undergraduates and graduate students. All scholarships cover room and board. Information about how to apply for Iowa Lakeside Laboratory Scholarships is included on the Website ([www.lakesidelab.org](http://www.lakesidelab.org)). Students should also consult the Student Financial Aid Office for other scholarship, work study, and loan programs for which they are eligible.

### Registration

Students can only enroll in Iowa Lakeside Lab courses by submitting an Iowa Lakeside Lab Registration and Scholarship form and Housing form to the Iowa Lakeside Laboratory Administrative Office. These forms are found on the Iowa Lakeside Laboratory Website ([www.lakesidelab.org](http://www.lakesidelab.org)).

Early registration is advisable. Because enrollment in Lakeside courses is limited, students should register before May 1 for the following summer

session. Housing is also limited and students must apply for housing or indicate that they plan to live off campus at the time of registration.

### IOWA LAKESIDE LABORATORY

Iowa Lakeside Laboratory is an off-campus teaching and research facility situated on a 140-acre campus on West Okoboji Lake in Northwest Iowa. It is run cooperatively by Iowa State University, the University of Iowa, the University of Northern Iowa, and Drake University. Each summer Iowa State University students can take up to three undergraduate and/or graduate courses in archaeology, biology, ecology, environmental science, and/or geology for credit at Lakeside (see course listings under Iowa Lakeside Laboratory). All Lakeside courses are small, full-immersion, field-oriented courses that run for 1-4 weeks. Lakeside also offers a variety of short courses for teachers and a series of nontechnical short courses on various aspects of the natural history of Iowa. Information about Lakeside courses as well as registration and housing information can be obtained from the Biology Program Office, 103 Bessey Hall or on the Lakeside Web site, <https://iowalakesidelab.org/>.

## Molecular, Cellular, and Developmental Biology

### MCDB Interdepartmental Graduate Program

Work is offered for the doctor of philosophy degree with a major in Molecular, Cellular, and Developmental Biology. Faculty are drawn from sixteen university departments along with researchers from the National Animal Disease Center. Participating departments include: Agronomy; Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Chemistry; Chemical & Biological Engineering; Ecology, Evolution, & Organismal Biology; Entomology; Food Science & Human Nutrition; Genetics, Development & Cell Biology; Horticulture; Kinesiology; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive Medicine; and Veterinary Pathology. Facilities and qualified faculty are available in these departments for conducting fundamental research in the various aspects of molecular, cellular, and developmental biology. Ongoing research projects include molecular and cellular studies of viral, prokaryotic, fungal, plant, and animal systems. Additional information about the program and faculty is available at: [www.mcdb.iastate.edu](http://www.mcdb.iastate.edu) (<http://www.mcdb.iastate.edu/>).

Prospective students are admitted by the MCDB program following receipt of a complete application and after review by the MCDB Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and are required to complete a minimum of three research lab rotations with faculty of interest and take MCDB 697 Graduate Research Rotation during their

first two semesters. At the end of their second semester, students on rotation must select a major professor from the faculty participating in the program. Current ISU graduate students may be admitted as a co-major or minor with MCDB.

Before entering the MCDB program, prospective students should have a strong background in the biological sciences; typically including work in biological sciences (two years), organic chemistry (one year), physics (one year), and mathematics (through one year of calculus). Prior research experience is highly encouraged.

## UNDERGRADUATE STUDY

A special program in Molecular, Cellular, and Developmental Biology is not offered for the baccalaureate. Undergraduates wishing to prepare for graduate study in molecular, cellular, and developmental biology should elect courses in biochemistry, biology, genetics, microbiology; and mathematics through calculus; chemistry through organic; and one year of physics.

The following are recommended to undergraduates desiring an introduction to this area:

BIOL 313	Principles of Genetics	3
BIOL 313L	Genetics Laboratory	1
BIOL 314	Principles of Molecular Cell Biology	3
BIOL 423	Developmental Biology	3
BIOL 423L	Developmental Biology Laboratory	1
BIOL 428	Cell Biology	3

## CURRICULUM REQUIREMENTS FOR MCDB

Ph.D. candidates majoring in MCDB must take at least 72 graduate credits. These 72 credits include the core course requirements (below) and applicable research credits earned.

Additional coursework may be selected by the student in consultation with their Program of Study (POS) Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned in another Iowa State program, or at another institution, may be transferred at the discretion of the POS Committee and with the approval of the MCDB Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (<http://www.grad-college.iastate.edu/common/handbook/>).

**MCDB Core Curriculum requirements include:**

BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
Students with a Biochemistry background can elect to take the 500-level sequence (two of the following courses):		
BBMB 504	Amino Acids and Proteins	2
BBMB 505	Bioenergetics and Metabolism	2
BBMB 506	Membrane Biochemistry	2
BBMB 507	Biochemistry of Nucleic Acids	2

**All Ph.D. students must take one course from each of the following areas: A) Cellular Biology, B) Developmental Biology, & C) Molecular Biology.**

**A. Cellular Biology**

GDCB 528	Advances in Molecular Cell Biology	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3
B M S 575	Cell Biology	3
BBMB 545	Molecular Signaling	2

**B. Developmental Biology**

GDCB 533	Advances in Developmental Biology	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3

**C. Molecular Biology**

MICRO 502	Microbial Genetics and Genomics	3
GDCB 511	Advanced Molecular Genetics	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3
V MPM 608	Molecular Virology	3

\*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.

**In addition to the above course requirements, MCDB graduate students are required to take:**

**1. Two semesters of research seminar every year.**

Fall semester students will enroll in 1) a "for credit" research seminar series offered by the student's home department, 2) a workshop comprised of a research seminar series, or 3) another ISU research seminar series, typically chosen from one of the following departments: Agronomy, Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Chemistry; Chemical & Biological Engineering; Ecology, Evolution, & Organismal Biology; Entomology; Food Science & Human Nutrition; Genetics, Development & Cell Biology; Horticulture; Kinesiology; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive

Medicine; and Veterinary Pathology. (Options 2 and 3 are subject to approval by the POS committee).

Spring semester register for MCDB 698, Seminar in Molecular, Cellular, and Developmental Biology. In seminar, students will make journal and research presentations and attend MCDB seminars. Three semesters of MCDB 698 are required. Beyond this requirement, students must enroll in additional semesters of MCDB 698 or enroll in seminar series as described above for fall semesters.

**2. One credit hour of ethics training.**

GR ST 565	Responsible Conduct of Research in Science and Engineering	1
-----------	--	---

**Not required, but highly recommended for MCDB graduate students:**

BCB 544	Fundamentals of Bioinformatics	4
---------	--------------------------------	---

Non-native English speakers must pass the English Requirement as established by the university. Depending on the results of this exam additional courses may be required to meet English proficiency standards.

MCDB graduate students need to teach one semester as part of their training for an advanced degree. Students whose first language is not English must take and pass the Oral English Certification Test (OECT) to be eligible to teach.

**Curriculum Requirements for Graduate Students Seeking a MCDB Minor**

Graduate students studying at Iowa State University with an interest in completing a MCDB minor for their Ph.D. are required to complete the following curriculum requirements.

Students must be approved for the minor by the MCDB program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in MCDB are encouraged to contact the MCDB Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to idgpp@iastate.edu.

**MCDB Minor Curriculum at the Ph.D. Level Includes:**

BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
Students with a Biochemistry background can elect to take the 500-level sequence (two of the following courses):		
BBMB 504	Amino Acids and Proteins	2
BBMB 505	Bioenergetics and Metabolism	2

BBMB 506	Membrane Biochemistry	2
BBMB 507	Biochemistry of Nucleic Acids	2

**One course in each of two of the following three areas: A) Cellular Biology, B) Developmental Biology, & C) Molecular Biology.**

**A. Cellular Biology**

GDCB 528	Advances in Molecular Cell Biology	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3
B M S 575	Cell Biology	3
BBMB 545	Molecular Signaling	2

**B. Developmental Biology**

GDCB 533	Advances in Developmental Biology	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3

**C. Molecular Biology**

MICRO 502	Microbial Genetics and Genomics	3
GDCB 511	Advanced Molecular Genetics	3
GDCB 545	Plant Molecular, Cell and Developmental Biology *See footnote	3
V MPM 608	Molecular Virology	3

**\*Footnote: GDCB 545 - Plant Molecular, Cellular, and Developmental Biology may be used to fulfill any one of the required component areas.**

**In addition to the above course requirements, MCDB graduate minors are required to register once for:**

MCDB 698	Seminar in Molecular, Cellular, and Developmental Biology	1-2
----------	---	-----

**Courses primarily for graduate students, open to qualified undergraduates:**

**MCDB 511: Advanced Molecular Genetics**

(Cross-listed with GDCB). (3-0) Cr. 3. S.

*Prereq: BIOL 313 and BBMB 405*

Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data.

**MCDB 528: Advances in Molecular Cell Biology**

(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Courses in general cell biology and biochemistry*

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

**MCDB 533: Advances in Developmental Biology**

(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: BIOL 314 or Biol 423*

Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature.

**MCDB 545: Plant Molecular, Cell and Developmental Biology**

(Cross-listed with GDCB, PLBIO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405*

Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

**MCDB 590: Special Topics**

Cr. arr. Repeatable.

**Courses for graduate students:**

**MCDB 697: Graduate Research Rotation**

Cr. 1-6. Repeatable. F.S.

Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program.

**MCDB 698: Seminar in Molecular, Cellular, and Developmental Biology**

(Cross-listed with BBMB, GDCB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. S.

Student and faculty presentations.

**MCDB 699: Research**

Cr. arr. Repeatable.

## Neuroscience

### Neuroscience Interdepartmental Graduate Program

Work is offered for the master of science and doctor of philosophy degrees with a major in neuroscience. Cooperating departments include Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Ecology, Evolution and Organismal Biology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Kinesiology; Psychology; Veterinary Clinical Sciences; and Veterinary Diagnostic and Production Animal Medicine.

The diversity of faculty in the Interdepartmental Neuroscience major provides students with a variety of research opportunities and reflects the structure of contemporary neuroscience which has become a diverse and interdisciplinary field. Facilities and faculty are committed to research in the following areas: neuronal membrane functions,

signal transduction, neuroanatomy, neurodegenerative diseases, neuroendocrinology, neurotoxicology, neuropathology, developmental neurobiology, neurogenetics, computational neuroscience, neural networks, behavioral neuroscience, tissue engineering, neuroregeneration and brain repair. Additional information about program faculty members is available at: [www.neuroscience.iastate.edu](http://www.neuroscience.iastate.edu) (<http://www.neuroscience.iastate.edu/>).

An undergraduate or advanced degree in one of the basic or applied sciences is ordinarily a prerequisite for admission to the program. Typical program disciplines include majors in biochemistry, biology, biomedical sciences, human medicine, immunology, neurobiology, physiology, pharmacology, psychology, veterinary medicine, or zoology. Appropriate undergraduate coursework includes mathematics, chemistry, physics, and biological sciences. Prior research experience is highly encouraged. The submission of GRE General Test scores is required for admission.

Prospective students are admitted by the Neuroscience program following an internal application process and after review by the Neuroscience Admissions Committee. Students are admitted either to participate in research rotations with several faculty before deciding on a major professor and laboratory, or by direct admission into a specific lab and department. Ph.D. students typically enter via rotation and M.S. students typically enter via a direct admit. Those students entering through a rotation admit are required to complete a minimum of three research lab rotations with faculty of interest. At the end of their second semester, students on rotation must select a major professor from the faculty participating in the program.

## CURRICULUM REQUIREMENTS FOR NEUROSCIENCE GRADUATE STUDENTS

### M.S. Curriculum

Students seeking an M.S. degree must take a total of 30 credits, with not less than 22 credits earned at ISU. The following courses are the core curriculum. In addition, students are required to take a minimum of 6 credits of elective courses and an ethics course.

B M S 537	Neuroanatomy	3
KIN 572	Neural Basis of Human Movement	2-3
or NEURO 589	Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology	
NEURO 556	Cellular, Molecular and Developmental Neuroscience	3
NEURO 696	Neuroscience Seminar	1
NEURO 699	Research	arr †
PSYCH 519	Cognitive Neuropsychology	3

STAT 587	Statistical Methods for Research Workers	4
----------	--	---

† Arranged with instructor.

### Ph.D. Curriculum

Ph.D. candidates majoring in Neuroscience must take at least 72 graduate credits. These 72 credits includes the below core course requirements and applicable research credits earned. Credits taken during a student's M.S. program in Neuroscience at Iowa State University will count towards their Ph.D. in Neuroscience.

B M S 537	Neuroanatomy	3
KIN 572	Neural Basis of Human Movement	2-3
or NEURO 589	Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology	
NEURO 556	Cellular, Molecular and Developmental Neuroscience	3
NEURO 557	Rotations in Neuroscience	2
NEURO 661	Advanced Topics in Neuroscience (Repeatable)	3
NEURO 696	Neuroscience Seminar (Taken every fall & spring)	1
NEURO 699	Research	arr †
PSYCH 519	Cognitive Neuropsychology	3
STAT 587	Statistical Methods for Research Workers	4
MANDATORY ETHICS TRAINING: All Neuroscience students are also required to complete 1 credit hour of ethics training.		1

† Arranged with instructor.

In addition to the above coursework, all Neuroscience majors are expected to take a minimum of six credits of approved elective neuroscience courses.

Additional coursework for both Ph.D. and M.S. degrees is selected by the student in consultation with their POS Committee to meet departmental requirements and to satisfactorily prepare the student for their research project.

Graduate credits of B or better earned at another institution may be transferred at the discretion of the POS Committee and with the approval of the Neuroscience Program and the ISU Graduate College.

Additional information relating to credits required for graduate degrees can be found in the ISU Graduate College Handbook (<http://www.grad-college.iastate.edu/common/handbook/>).

### Curriculum Requirements for Graduate Students Seeking a Neuroscience Minor

Graduate students interested in completing a Neuroscience minor are required to complete 12 credits from the list below.

Students must be approved for the minor by the Neuroscience Program and must follow Graduate College guidelines for POS Committee membership.

Graduate students wishing to seek a minor in Neuroscience are encouraged to contact the Neuroscience Interdepartmental Graduate Program Coordinator for further information. Inquiries can be submitted to [idgp@iastate.edu](mailto:idgp@iastate.edu).

### Approved Neuroscience Minor Courses

B M S 537	Neuroanatomy	3
KIN 572	Neural Basis of Human Movement	3
NEURO 556	Cellular, Molecular and Developmental Neuroscience	3
NEURO 589	Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology	2
NEURO 696	Neuroscience Seminar	1
PSYCH 519	Cognitive Neuropsychology	3

**Courses primarily for graduate students, open to qualified undergraduates:**

#### NEURO 556: Cellular, Molecular and Developmental Neuroscience

(Cross-listed with B M S, GDCB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: BIOL 335 or BIOL 436; physics recommended*

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, and regulatory systems.

#### NEURO 557: Rotations in Neuroscience

(Cross-listed with GDCB). (2-0) Cr. 2. F.S.

Rotation experiences in various neuroscience research methods and techniques related to our current faculty specialties.

#### NEURO 589: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology

(Cross-listed with FS HN, GERON, NUTRS, PSYCH). Cr. 2. S.

*Prereq: Graduate standing, or undergraduate with consent of instructor.*

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders.

**Courses for graduate students:**

#### NEURO 661: Advanced Topics in Neuroscience

(Cross-listed with BBMB, GDCB, KIN). (3-0) Cr. 3. Repeatable. Alt. S., offered even-numbered years.

*Prereq: NEURO 556 (or comparable course) or permission of instructor*

Students will present three journal articles and two overview lectures on topics in neuroscience that are related but outside of their own research interest.

#### NEURO 696: Neuroscience Seminar

(1-0) Cr. 1. Repeatable. F.S.

Seminar in neuroscience, current research interests, and/or professional development.

#### NEURO 699: Research

Cr. arr. Repeatable.

## Nutritional Sciences GRADUATE PROGRAM

The Interdepartmental Graduate Program in Nutritional Sciences, administered through the Graduate College, under the auspices of the Chairs of Food Science and Human Nutrition (FS HN) and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. M.S. and Ph.D. degrees in Nutritional Sciences will be offered with three specializations: Animal Nutrition, Human Nutrition, or Biochemical & Molecular Nutrition.

The following undergraduate course work is recommended of all applicants who are applying to the Interdepartmental Graduate Program in Nutritional Sciences, but may be modified depending upon the student's area of emphasis. Recommended course work includes organic chemistry with laboratory, physics, analytical chemistry, a nutrition course that requires biochemistry or organic chemistry as a prerequisite, and a course in biology/physiology or anatomy. Under certain circumstances students can be admitted or provisionally admitted with course work deficiencies. Students with an undergraduate degree will be generally admitted into the M.S. program and upon completion, they can then apply for admission into the Ph.D. program. However, exceptional students with experience can apply directly to the Ph.D. program.

The general requirements of the Nutritional Sciences degree at the M.S. level, in addition to those of Graduate College, are:

NUTRS 501	Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients	4
BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
or BBMB 420	Mammalian Biochemistry	

STAT 587	Statistical Methods for Research Workers	4
FS HN 580	Orientation to Food Science and Nutrition Research	1
or AN S 501	Survey of Animal Disciplines	
AN S 603	Seminar in Animal Nutrition	1
or FS HN 682	Seminar Reflection	
FS HN 581	Seminar (or AN S equivalent)	1
FS HN 681	Seminar (or AN S equivalent)	1
FS HN 590C	Special Topics: Teaching	1-3
or AN S 590L	Special Topics: Teaching	
Successful completion and defense of thesis		

Students are expected to complete the course work established by the Program of Study (POS) committee based on specialization with a minimum of 30 graduate-level semester credits, not less than 22 of which must be earned at Iowa State University.

The general requirements of the Nutritional Sciences degree at the Ph.D. level, in addition to those of the Graduate College, are:

- Completion of all requirements of the M.S. degree in Nutritional Sciences
- 3 additional credits of graduate-level biochemistry (6 credits total including those for the M.S.), graduate-level statistics (STAT 471 Introduction to Experimental Design), and physiology (if not taken for the M.S.)
- Additional graduate-level courses in the field of study as deemed appropriate by the POS Committee and specialization, and additional teaching assistant requirements (FS HN 590C Special Topics: Teaching).

Satisfactory completion of a preliminary examination, a written dissertation, seminar presentation of dissertation research, and defense of the dissertation is also required. Overall a minimum of 72 graduate-level semester credits, no less than 36 of which must be earned at Iowa State University

## Plant Biology

(Interdepartmental Graduate Major)

The Interdepartmental Plant Biology major (IPB) coordinates graduate education and research in the areas of plant biology including but not limited to plant biochemistry, plant cellular and molecular biology and plant physiology. Graduate study in IPB, leading to the M.S. and Ph.D. Degrees, is offered through eight participating departments: Agronomy, Biochemistry, Biophysics & Molecular Biology, Chemical and Biological Engineering, Chemistry, Ecology, Evolution and Organismal Biology, Genetics Development & Cell Biology, Horticulture, and Plant Pathology.

Research conducted by the faculty and students of the major represents both basic and applied aspects of plant physiology, biochemistry and molecular biology. The experimental approaches represented in the major span the range of complexity from molecular studies, to cellular, organismal and the ecological level (crop monocultures and natural populations). Graduates have a broad understanding of basic, functional plant biology with emphases on fundamental biology, biochemistry, and molecular biology. They are able to address complex research and policy problems in agriculture, biotechnology, and basic plant biology.

## M.S. Program

A total of 36 credits, which includes a minimum of 16 course credits and at least a B grade or better, are required for an M.S.

All M.S. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars (PLBIO 696), take research credits (PLBIO 699 Research), and attend the annual Loomis Distinguished Lecture and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

Required: Complete the following core courses:

STAT 587	Statistical Methods for Research Workers	4
BBMB 316	Principles of Biochemistry	3-6
or BBMB 404 & BBMB 405	Biochemistry I and Biochemistry II	
or BBMB 504 & BBMB 505	Amino Acids and Proteins and Bioenergetics and Metabolism	
GDCB 513	Plant Metabolism	2
GDCB 545	Plant Molecular, Cell and Developmental Biology	3
GR ST 565	Responsible Conduct of Research in Science and Engineering	1
PLBIO 696	Research Seminar *	1
PLBIO 699	Research	arr t

Optional Courses

AGRON 516	Crop Physiology
AGRON 625	Genetic Strategies in Plant Breeding
BBMB 531	Plant Biochemistry
BBMB 545	Molecular Signaling
BBMB 675	Nucleic Acid Structure and Function
BIOL 454	Plant Anatomy
BIOL 474	Plant Ecology
EEOB 553	Agrostology
EEOB 563	Molecular Phylogenetics
EEOB 566	Molecular Evolution

GDCB 510	Transmission Genetics
GDCB 511	Advanced Molecular Genetics
GDCB 528	Advances in Molecular Cell Biology
STAT 581	Analysis of Gene Expression Data for the Biological Sciences

† Arranged with instructor.

\* Required enrollment each semester; must present 2 talks; a maximum of 2 credits of 696 seminars are counted toward MS degree POSC. Make two seminar presentations and enroll each term in the Interdepartmental Plant Biology seminar PLBIO 696 Research Seminar. The first seminar must be during the student's first year and is a 20-minute seminar. The last presentation must be an exit seminar. In addition to the required core courses, a wide selection of courses is available to IPB graduate students for broadening their scientific education, and increasing knowledge in topics related to their research. Decisions about which courses are taken and when they are taken are made by the student, initially in consultation with their temporary advisor, and then with their major advisor and eventually with POS Committee, which also serves as the Thesis or Dissertation Committee.

## Ph.D. Program

A total of 72 credits, which includes a minimum of 24 course credits and at least a B grade or higher, are required for a Ph.D.

All Ph.D. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PLBIO 699 Research), annual Loomis Distinguished Lecture in Plant Biology and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

Required: Complete the following core courses:

STAT 587	Statistical Methods for Research Workers	4
BBMB 316	Principles of Biochemistry	3-6
or BBMB 404 & BBMB 405	Biochemistry I and Biochemistry II	
or BBMB 504 & BBMB 505	Amino Acids and Proteins and Bioenergetics and Metabolism	
GDCB 513	Plant Metabolism	2
GDCB 545	Plant Molecular, Cell and Developmental Biology	3
GR ST 565	Responsible Conduct of Research in Science and Engineering	1
PLBIO 696	Research Seminar *	1
PLBIO 699	Research	arr †

Optional Core Courses: Must take one of the following

GDCB 510	Transmission Genetics
GDCB 511	Advanced Molecular Genetics
EEOB 551	Plant Evolution and Phylogeny
EEOB 566	Molecular Evolution
Optional Courses	
AGRON 516	Crop Physiology
AGRON 625	Genetic Strategies in Plant Breeding
BBMB 531	Plant Biochemistry
BBMB 545	Molecular Signaling
BBMB 675	Nucleic Acid Structure and Function
BIOL 454	Plant Anatomy
BIOL 474	Plant Ecology
EEOB 553	Agrostology
EEOB 563	Molecular Phylogenetics
EEOB 566	Molecular Evolution
GDCB 510	Transmission Genetics
GDCB 511	Advanced Molecular Genetics
STAT 581	Analysis of Gene Expression Data for the Biological Sciences

† Arranged with instructor.

\* Required enrollment each semester; must present 4 talks; up to 5 credits of 696 seminars are counted toward Ph.D. Enroll each term in the Interdepartmental Plant Biology seminar PLBIO 696 Research Seminar or its listed equivalent. The first seminar must be during the student's first year and is a 20-minute seminar. The last presentation must be an exit seminar. In addition to the required core courses, a wide selection of courses is available to IPB graduate students for broadening their scientific education, and increasing knowledge in topics related to their research. Decision about which courses to take and when they are to be taken are made by the student, initially in consultation with their temporary advisor, and then with their major advisor and eventually with their POS Committee, which also serves as the Thesis or Dissertation Committee.

## Requirements for students seeking a Minor in Plant Biology:

Ph.D. and M.S. candidates in other programs who desire a graduate minor in Plant Biology must take the required courses listed below, achieving a grade of B or better. One member of the student's POS committee must have IPB faculty membership.

Prerequisite Courses:

STAT 587	Statistical Methods for Research Workers	4
BBMB 404	Biochemistry I	3

9 credits from the following:

AGRON 516	Crop Physiology
BIOL 454	Plant Anatomy
GDCB 513	Plant Metabolism
GDCB 545	Plant Molecular, Cell and Developmental Biology

**Courses primarily for graduate students, open to qualified undergraduates:**

**PLBIO 513: Plant Metabolism**

(Cross-listed with GDCB). (2-0) Cr. 2. Alt. F., offered even-numbered years.  
*Prereq: BIOL 330, PHYS 131, CHEM 331; one semester of biochemistry recommended*  
Photosynthesis, respiration, and other aspects of plant metabolism.

**PLBIO 545: Plant Molecular, Cell and Developmental Biology**

(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. F., offered odd-numbered years.  
*Prereq: Biol 313, BIOL 314, BIOL 330 or BBMB 405*  
Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development.

**Courses for graduate students:**

**PLBIO 696: Research Seminar**

(Cross-listed with AGRON, BBMB, FOR, GDCB, HORT). Cr. 1. Repeatable. F.S.  
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**PLBIO 699: Research**

Cr. arr. Repeatable.

Seed Science

Administered by the Departments of Agricultural and Biosystems Engineering, Agronomy, Horticulture, and Plant Pathology.

Seed Science must be taken as a secondary major in conjunction with a primary major. The seed science program is designed for students with career interests in one or more aspects of the seed industry. Areas of study focus on seeds including production, conditioning, pathology, physiology, quality control, marketing, and seed plant designs.

Student Learning Outcomes

Upon graduation, students should be able to:

1. Demonstrate understanding of the science and principles of seed production systems, including seed quality assessment and conditioning, and clearly communicate the importance of seeds to our society.

2. Articulate the opportunities in the seed industry for seed-related careers.
3. Apply seed science and technology knowledge for solving seed quality and production problems encountered in the seed industry.

CURRICULUM IN SEED SCIENCE  
(SECONDARY MAJOR)

**Total Degree Requirement: 128 cr.**

**COMPLETE COMMUNICATION AND LIBRARY REQUIREMENTS OF PRIMARY MAJOR AND 3 CR. FROM THE FOLLOWING:**

ENGL 302	Business Communication	3
ENGL 309	Proposal and Report Writing	3
ENGL 312	Communicating Science and Public Engagement	3
ENGL 314	Technical Communication	3
SP CM 312	Business and Professional Speaking	3

**BIOLOGICAL SCIENCES: 7 CR.**

BIOL 211	Principles of Biology I	4
& 211L	and Principles of Biology Laboratory I	
or BIOL 212	Principles of Biology II	
& 212L	and Principles of Biology Laboratory II	
AGRON 320	Genetics, Agriculture and Biotechnology	3
or BIOL 313	Principles of Genetics	

**PHYSICAL SCIENCES: 8-9 CR.**

CHEM 163	College Chemistry	5
& 163L	and Laboratory in College Chemistry	
or CHEM 177	General Chemistry I	
& 177L	and Laboratory in General Chemistry I	

One of the following:

AGRON 259	Organic Compounds in Plants and Soils	3
BBMB 221	Structure and Reactions in Biochemical Processes	3
CHEM 231	Elementary Organic Chemistry	4
& 231L	and Laboratory in Elementary Organic Chemistry	

**MATHEMATICAL SCIENCES 6 CR.**

MATH 140	College Algebra	3
or MATH 150	Discrete Mathematics for Business and Social Sciences	
Statistics course		3

**AGRICULTURAL SCIENCES: 28-29 CR.**

AGRON 181	Introduction to Crop Science	3
or HORT 221	Principles of Horticulture Science	
AGRON 182	Introduction to Soil Science	3
AGRON 206	Introduction to Weather and Climate	3
AGRON 217	Weed Identification	1-2
or AGRON 331	Crops Practicum	

AGRON 316	Crop Structure-Function Relationships	3
or HORT 321	Horticulture Physiology	
AGRON 354	Soils and Plant Growth	3
9 credits from AGRON, HORT, or TSM (6 credits at 300-400 level)		9

**ECONOMICS AND BUSINESS: 9 CR.**

ECON 101	Principles of Microeconomics	3
Six credits from the following:		6
ACCT 284	Financial Accounting	
ECON 102	Principles of Macroeconomics	
ECON 230	Farm Business Management	
ECON 234	Small Business Management	
ECON 235	Introduction to Agricultural Markets	
ECON 236	Agricultural Selling	
ECON 334	Entrepreneurship in Agriculture	
MGMT 370	Managing Organizations	
MKT 340	Principles of Marketing	

**SEED SCIENCE: 16 CR.**

AGRON 317	Principles of Weed Science	3
AGRON 338	Seed Science and Technology	3
AGRON 421	Introduction to Plant Breeding	3
ENT 376	Fundamentals of Entomology and Pest Management	3
PL P 408	Principles of Plant Pathology	3
One of the following:		
AGRON 311	Professional Internship in Agronomy (seed related)	1
AGRON 491	Seed Science Internship Experience	1-2
HORT 391	Horticultural Management Experience	1

**HUMANITIES: 3 CR.**

3 cr. from approved humanities list: <http://www.cals.iastate.edu/student-services/humanities> (<http://www.cals.iastate.edu/student-services/humanities/>)

**SOCIAL SCIENCES: 3 CR.**

3 cr. from approved social sciences list: <http://www.cals.iastate.edu/student-services/social-sciences> (<http://www.cals.iastate.edu/student-services/social-sciences/>)

**ETHICS: 3 CR.**

3 cr. from approved ethics list: <http://www.cals.iastate.edu/student-services/ethics> (<http://www.cals.iastate.edu/student-services/ethics/>)

**REMAINING CREDITS (STUDENT CHOICE).**

Because seed science is a secondary major, the courses taken by the student during the first year will vary, depending on the primary major (see typical program for the primary major).

## Seed Technology and Business

(Interdepartmental Graduate Major)

The Graduate Program in Seed Technology and Business (STB) offers students advanced study in the seed science and technology and business management appropriate for application in the seed sector. The STB program is focused on preparing students for seed-related management roles by training the next generation of seed leaders. The program is offered by departments in the Ivy Colleges of Business and Agriculture and Life Sciences: Accounting, Agronomy, Finance, Horticulture, Agricultural Biosystems Engineering, Management Information Systems, Management, Marketing and Plant Pathology. This multidisciplinary program offers a focused online curriculum for a Master of Science in Seed Technology and Business, along with Graduate Certificates in Seed Science and Technology and in Seed Business Management.

## ONLINE GRADUATE PROGRAM IN SEED TECHNOLOGY & BUSINESS

The curriculum offers a set of scientific and technical courses that are focused on seed, with a set of basic management courses, similar to those in the core courses of an MBA program. The business courses will use examples drawn from the seed industry. A creative component is required for the Master of Science degree.

Prerequisite for the program is a bachelor's degree in business, agriculture, other biological discipline, or related degrees. Graduate training in these disciplines will also be considered.

Graduates of the Graduate Program in Seed Technology and Business will be prepared for roles in management and leadership within private and public seed and seed-related organizations.

All of the courses listed below are required for the Master of Science degree. The pace of the course sequence is designed to allow the students with work and other commitments to participate. Students will complete the creative component under the guidance of their Program of Study Committee. In many cases, the creative component topic will be associated with the student's work.

Graduates of the Master of Science curriculum will be prepared for roles in management and leadership within seed related organizations, private and public.

## Master of Science in Seed Technology and Business

STB 501	Strategic Management	2
STB 503	Information Systems	2
STB 504	Marketing and Logistics	3
STB 507	Organizational Behavior	2

STB 508	Accounting and Finance	3
STB 509	International Seed Business Practices, Policies, & Regulation	3
STB 510	Crop Improvement	3
STB 513	Data Science for Agricultural Professionals	3
STB 534	Seed and Variety, Testing and Technology	2
STB 535	Introduction to the Seed Industry	1
STB 539	Seed Conditioning and Storage	2
STB 543	Seed Physiology	2
STB 547	Seed Production	2
STB 592	Seed Health Management	2
STB 595	Seed Quality, Production, and Research Management	2
STB 599	Creative Component	2-3

*The program also offers two graduate certificates:*

### Graduate certificate in Seed Science and Technology

STB/AGRON 510	Crop Improvement	3
STB/AGRON 513	Data Science for Agricultural Professionals	3
STB/AGRON 534	Seed and Variety, Testing and Technology	2
STB 535	Introduction to the Seed Industry	1
STB/AGRON 539	Seed Conditioning and Storage	2
STB/HORT 543	Seed Physiology	2
STB/AGRON 547	Seed Production	2
STB/PL P 592	Seed Health Management	2
STB/AGRON 595	Seed Quality, Production, and Research Management	2

### Graduate certificate in Seed Business Management

STB 535	Introduction to the Seed Industry	1
STB/BUSAD 501	Strategic Management	2
STB/BUSAD 503	Information Systems	2
STB/BUSAD 504	Marketing and Logistics	3
STB/BUSAD 507	Organizational Behavior	2
STB/BUSAD 508	Accounting and Finance	3
STB/BUSAD 509	International Seed Business Practices, Policies, & Regulation	3

Graduate certificate courses may be applied to the Master of Science in Seed Technology and Business. Those interested in these graduate certificates should contact the Program for details.

Information on application procedures and specific requirements of the major can be obtained at our website: <http://www.seedgrad.iastate.edu>

or by writing to [seedgrad@iastate.edu](mailto:seedgrad@iastate.edu) (<http://seedgrad@iastate.edu>).

**Courses primarily for graduate students, open to qualified undergraduates:**

#### STB 501: Strategic Management

(Cross-listed with BUSAD). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

#### STB 503: Information Systems

(Cross-listed with BUSAD). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases, reading, and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical and data-driven competitive environment.

#### STB 504: Marketing and Logistics

(Cross-listed with BUSAD). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.

#### STB 507: Organizational Behavior

(Cross-listed with BUSAD). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

**STB 508: Accounting and Finance**

(Cross-listed with BUSAD). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Survey of fundamental topics in accounting and finance. Financial statement reporting and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

**STB 509: International Seed Business Practices, Policies, & Regulation**

(Cross-listed with BUSAD). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Cultural, financial, economic, political, legal/regulatory environments shaping an organization's international business strategy. Topics include entry (and repatriation) of people, firms, goods, services, and capital. Special attention to the institutions of seed regulation and policy. Ethical issues facing managers operating in an international context.

**STB 510: Crop Improvement**

(Cross-listed with AGRON). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

A study of agriculture from its origins with the domestication of crop plants through basic genetics, demonstrating the challenges and elements of breeding strategies intended to manage gene x environmental interactions. Elements of biotechnology including use of molecular markers, development of genetically modified cultivars, gene mapping, cloning, and gene editing will be covered. Methods to measure the effectiveness of plant breeding (genetic gain) and the impact of improved agronomic practices contributing to increased agricultural productivity will be covered. Use of intellectual property protection, and the conservation and utilization of exotic genetic resources.

**STB 513: Data Science for Agricultural Professionals**

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent, MATH 140, STAT 104*

Quantitative methods for analyzing and interpreting agronomic information. Principles of experimental design, hypothesis testing, analysis of variance, regression, correlation, and graphical representation of data. Use of SAS and Excel for organization, analyzing, and presenting data.

**STB 534: Seed and Variety, Testing and Technology**

(Cross-listed with AGRON). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

**STB 535: Introduction to the Seed Industry**

Cr. 1.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

This introductory course is a quick overview of the academic program and the seed industry. It describes how the STB program components relate to the seed industry scope; the role of the seed industry in global agriculture and society; public and private institutions involved in seed research, development, and regulation; quality management for seed products. Current issues including industry consolidation, ethical and economic issues related to biotechnology, and incorporation of digital technology in the seed business will be discussed by course instructors and guest lecturers from the seed industry.

**STB 536: Quantitative Methods for Seed**

(Cross-listed with AGRON). (2-0) Cr. 2. F.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation, analysis of variance, and graphical representation of data. Use of spreadsheets and statistical software for manipulating, analyzing and presenting data.

**STB 539: Seed Conditioning and Storage**

(Cross-listed with AGRON). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal points within the overall operations of a seed company.

**STB 543: Seed Physiology**

(Cross-listed with HORT). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality.

**STB 547: Seed Production**

(Cross-listed with AGRON). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Survey of the differences in seed production strategies between crops and the impact of these differences on seed production.

**STB 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Admission to the Graduate Program in Seed Technology and Business*  
Guided instruction and self-study on special topics relevant to seed technology and business.

**STB 592: Seed Health Management**

(Cross-listed with PL P). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Credit may not be obtained for both PI P/STB 592 and PI P 594.

**STB 595: Seed Quality, Production, and Research Management**

(Cross-listed with AGRON). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager's tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

**STB 599: Creative Component**

Cr. 1-3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

## Sustainability Minor

### OVERVIEW OF THE MINOR IN SUSTAINABILITY

Sustainability is often defined as "meeting the needs of today without compromising the ability of future generations to meet their own needs." The minor in sustainability at Iowa State University is available to any ISU student who wants to further learn about sustainability issues affecting humans today and in the future.

The interdisciplinary minor in sustainability exposes students to ideas and issues related to a sustainable, balanced and ethical future for the planet and its inhabitants. The minor is at the interplay between environmental, social and economic factors in improving the quality of human life within the capacity of supporting ecosystems.

The minor will help students understand the dynamics of biological population growth and decline in the natural world, predator-prey models, over-exploitation of natural resources, energy balances, and much more. Students also will study how human behavior affects the natural world and the ability of earth to sustain life and understand how the decisions they make as consumers, workers, resource owners, citizens and policymakers affect human welfare in this and future generations.

**Student Learning Outcomes**

As a result of their coursework for the sustainability program students will be able to:

- articulate why some environmental, social and economic profiles are sustainable and others are not.
- apply sustainable practices in their personal and professional lives.

The colleges of Agriculture and Life Sciences, Design, Engineering, and Liberal Arts and Sciences sponsor the minor in sustainability.

## REQUIREMENTS FOR THE MINOR IN SUSTAINABILITY

The minor in sustainability may be earned by completing a total of 15 credits including two required courses and nine elective credits from an approved list. Of the nine elective credits, at least six credits must be at the 300 level or higher. The minor must include at least 9 credits

that are not used to meet any other department, college, or university requirement.

### Required courses:

SOC 220	Globalization and Sustainability	3
ANTHR 230	Globalization and the Human Condition	3

### Emphasis Electives:

A B E 325	Biorenewable Systems	3
A B E 380	Principles of Biological Systems Engineering	3
A B E 388	Sustainable Engineering and International Development	3
A B E 480	Engineering Analysis of Biological Systems	3
AGRON 120	Introduction to Renewable Resources	3
AGRON 160	Water Resources of the World	3
AGRON 342	World Food Issues: Past and Present	3
AGRON 404	Global Change	3
AGRON 450	Issues in Sustainable Agriculture	3
ANTHR 336	Culture and Capitalism	3
ARCH 345	Building Science and Technology I	2
ARCH 346	Building Science and Technology II	3
ARCH 346L	Building Science and Technology II Lab	2
ARCH 347	Building Science and Technology III	3
ARCH 347L	Building Science and Technology III Lab	2
ARCH 348	Building Science and Technology IV	3
ARCH 348L	Building Science and Technology IV Lab	2
ARCH 445	Building Science and Technology V	2
ARCH 558	Sustainability and Green Architecture	3
ARCH 575	Contemporary Urban Design Theory	3
ARCH 597	Seminar on the Built Environment III: Theory	3
ARTIS 460	Sustainable Design and Fabrication of Furniture	3
ARTIS 465	Artists, Designers and Sustainable Development	3
ARTIS 466	Studio Abroad: Africa	3
BIOL 204	Biodiversity	2
BIOL 319	Analysis of Environmental Systems	3
BIOL 355	Plants and People	3
BIOL 471	Introductory Conservation Biology	3
BIOL 484	Ecosystem Ecology	3
C E 388	Sustainable Engineering and International Development	3
C R P 201	The North American Metropolis	3
C R P 291	World Cities and Globalization	3
C R P 293	Environmental Planning	3
C R P 320	Urban Geography	3

C R P 417	Urban Revitalization	3
C R P 429	Planning in Developing Countries	3
C R P 445	Transportation Policy and Planning	3
C R P 484	Sustainable Communities	3
C R P 491	Environmental Law and Planning	3
ECON 380	Energy, Environmental and Resource Economics	3
ECON 385	Economic Development	3
ECON 480	Intermediate Environmental and Resource Economics	3
E E 388	Sustainable Engineering and International Development	3
ENGL 355	Literature and the Environment	3
ENSCI 201	Introduction to Environmental Issues	2
ENSCI 319	Analysis of Environmental Systems	3
ENSCI 402	Watershed Hydrology	3
ENSCI 404	Global Change	3
ENSCI 480	Engineering Analysis of Biological Systems	3
ENSCI 484	Ecosystem Ecology	3
ENT 471	Insect Ecology	3
ENV S 101	Environmental Geology: Earth in Crisis	3
ENV S 108	Introduction to Oceanography	3
ENV S 120	Introduction to Renewable Resources	3
ENV S 160	Water Resources of the World	3
ENV S 201	Introduction to Environmental Issues	2
ENV S 204	Biodiversity	2
ENV S 270	Foundations in Natural Resource Policy and History	3
ENV S 293	Environmental Planning	3
ENV S 319	Analysis of Environmental Systems	3
ENV S 324	Energy and the Environment	3
ENV S 334	Environmental Ethics	3
ENV S 342	World Food Issues: Past and Present	3
ENV S 345	Population and Society	3
ENV S 355	Literature and the Environment	3
ENV S 380	Energy, Environmental and Resource Economics	3
ENV S 382	Environmental Sociology	3
ENV S 404	Global Change	3
ENV S 424	Sustainable and Environmental Horticulture Systems	3
ENV S 450	Issues in Sustainable Agriculture	3
ENV S 484	Sustainable Communities	3
ENV S 491	Environmental Law and Planning	3

SUS E 550	Making Resilient Environments	3
TSM 324	Soil and Water Conservation Management	3
TSM 325	Biorenewable Systems	3
WLC 484	Technology, Globalization and Culture	3

## Toxicology

toxmajor@iastate.edu ([//toxmajor@iastate.edu](mailto://toxmajor@iastate.edu))

## Interdepartmental Graduate Major

Toxicology is the science of studying the adverse effects of substances on living organisms. Students observe, gather data and predict risks and outcomes in populations. Whole organism research and cellular and molecular approaches are used to determine toxicant exposure and mechanisms. Work is offered for the degrees doctor of philosophy and master of science. Students majoring in toxicology will be affiliated with one of the following cooperating departments: Agricultural and Biosystems Engineering; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemistry; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Geological and Atmospheric Sciences; Natural Resource Ecology and Management; Physics; Plant Pathology and Microbiology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The prerequisites for entrance into the graduate toxicology major include an undergraduate degree in a relevant area of study; for example, chemical engineering, biology, biochemistry, chemistry, ecology, entomology, food science and technology, microbiology, nutritional science, zoology, or veterinary medicine. Minimum undergraduate coursework should include the following or their equivalent:

- 1 year of college mathematics, including calculus
- 1 year of inorganic chemistry with quantitative analysis
- 1 course in physics
- 1 year of organic chemistry
- 2 years of biological sciences including 1 course in physiology

Other courses that are considered desirable in undergraduate preparation include: biochemistry, physical chemistry, qualitative analysis, and some specialized courses such as histology or advanced physiology.

Facilities and faculty are available for fundamental research in such areas as agricultural toxicology, drug discovery and prevention, ecotoxicology, environmental fate and effects of chemicals, insect toxicology, aquatic toxicology, food safety, nutritional toxicology, mycotoxins, neurotoxicology, cellular and molecular toxicology, reproductive toxicology, and veterinary toxicology.

Ph.D. and M.S. Students should register for TOX 689 (R) every fall and spring semester during their training.

## Curriculum

Students majoring in toxicology will be affiliated with a cooperating department. All Ph.D. students take a core curriculum consisting of:

TOX 501	Principles of Toxicology	3
TOX 502	Toxicology Methods	3
TOX 504	Toxicology Seminar (taken twice)	1
7 additional credits in approved toxicology courses		7
BBMB 405	Biochemistry II (2 additional credits of biochemistry courses)	
BBMB 404	Biochemistry I	
2 additional credits of upper level BBMB coursework. 3 credits in physiology, histology, pathology, neuroscience, immunobiology or cellular and molecular biology.		2 and 3
STAT 571	Introduction to Experimental Design	3
STAT 587	Statistical Methods for Research Workers	4
GR ST 565	Responsible Conduct of Research in Science and Engineering (or)	1
V PTH 554	Ethics in Scientific Research and Writing	1

M.S. students take a core of:

TOX 501	Principles of Toxicology	3
TOX 502	Toxicology Methods	3
TOX 504	Toxicology Seminar	1
3 additional credits in approved toxicology courses		3
BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
STAT 587	Statistical Methods for Research Workers	4
Additional coursework is selected to meet departmental requirements and to satisfy individual student research interests		
GR ST 565	Responsible Conduct of Research in Science and Engineering (or)	1
V PTH 554	Ethics in Scientific Research and Writing	1

A graduate minor in toxicology is available for students enrolled in other majors.

A minor for an M.S. degree includes one semester of TOX 689 and:

TOX 504	Toxicology Seminar	1
TOX 501	Principles of Toxicology	3
3 credits in other approved toxicology courses		3

A minor at the Ph.D. level includes one semester of TOX 689 and:

TOX 504	Toxicology Seminar	1
TOX 501	Principles of Toxicology	3
6 credits in other approved toxicology course work		6

One member of the student's program of study committee will be a member of the toxicology faculty.

Most students awarded doctoral degrees continue their training as postdoctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, the military, veterinary research, or government environmental and public health institutions. A few go directly to permanent research positions in industry. Many students awarded master's degrees continue their training as doctoral students; however, some choose research support positions (i.e., technician, chemist, research associate) in academia, industry, or government. A more thorough list of outcomes is available at our Web site.

Graduates of the Toxicology major will be able to carefully design, execute and analyze experiments that extend the knowledge of toxicology and closely related sciences. They will be able to clearly communicate research findings, and thoroughly evaluate the literature of toxicology, contributing significantly to the advancement of the field.

### Courses primarily for undergraduates:

#### TOX 354: General Pharmacology

(Dual-listed with TOX 554). (Cross-listed with B M S). (3-0) Cr. 3. S.

*Prereq: B M S 549 and B M S 552; BBMB 404, BBMB 405*

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

#### TOX 401: Principles of Toxicology

(Dual-listed with TOX 501). (3-0) Cr. 3. F.

*Prereq: BBMB 404 or equivalent*

Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

#### TOX 419: Foodborne Hazards

(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MICRO 201 or MICRO 302; 3 credits in BBMB*

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards.

**TOX 420: Food Microbiology**

(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. F.

*Prereq: MICRO 201 or MICRO 302*

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications.

**TOX 426: Veterinary Toxicology**

(Dual-listed with TOX 526). (Cross-listed with VDPAM). (3-0) Cr. 3. S.

*Prereq: Third year classification in veterinary medicine, completion of TOX 501 or DVM degree*

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

**TOX 429: Foodborne Toxicants**

(Dual-listed with TOX 529). (2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: A course in biochemistry*

Mechanisms of action, metabolism, sources, remediation or detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants. Taught online only.

**TOX 450: Pesticides in the Environment**

(Dual-listed with TOX 550). (Cross-listed with ENT). (3-0) Cr. 3. S.

*Prereq: 6 credits of BIOL or Permission of Instructor*

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

**TOX 490: Independent Study**

Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study with a faculty mentor. Intended for students enrolled in the Pharmacology and Toxicology minor. Students in the Pharmacology and Toxicology minor may use no more than 9 credits of university-wide 490 credits towards the total of 120 credits required for graduation.

**TOX 499: Undergraduate Research**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: Permission of Instructor*

Independent research under faculty guidance. Intended for students enrolled in the Pharmacology and Toxicology minor. Offered on a satisfactory-fail basis only. Students may use no more than 9 credits of university-wide 499 credits towards the total of 120 credits required for graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**TOX 501: Principles of Toxicology**

(Dual-listed with TOX 401). (3-0) Cr. 3. F.

*Prereq: BBMB 404 or equivalent*

Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.

**TOX 502: Toxicology Methods**

(0-6) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: TOX 501*

Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, cellular/molecular toxicological techniques, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing.

**TOX 504: Toxicology Seminar**

(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.SS.

*Prereq: Permission of instructor required*

Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus. Graduate student speakers will meet with the instructor at least one week prior to their formal presentation.

**TOX 515: Regulatory Toxicology**

(2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: Graduate classification in the life or social sciences; undergraduate with permission of instructor.*

A survey course on risk analysis approaches used by toxicologists and other life and social scientists in government, industry and non-governmental organizations to inform regulatory policies and decisions under U.S. Federal statutes, including the Federal Food Drug and Cosmetic Act; the Food Quality Protection Act; the Federal Fungicide, Insecticide and Rodenticide Act; the Endangered Species Act; the Plant Protection Act; the National Environmental Policy Act; and the Toxic Substances Control Act. Topics covered include an overview of the roles and responsibilities of different U.S. Government Departments and Agencies in analyzing human; livestock and companion animal; and/or environmental risks and benefits of food products and food additives, cosmetics, drugs, pesticides, and consumer and industrial products.

**TOX 526: Veterinary Toxicology**

(Dual-listed with TOX 426). (Cross-listed with VDPAM). (3-0) Cr. 3. S.

*Prereq:* Third year classification in veterinary medicine, completion of TOX 501 or DVM degree

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

**TOX 544: Aquatic Toxicology**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq:* Graduate student status.

An overview of interactions between anthropogenic chemicals and aquatic ecosystems. Topics include history of aquatic toxicology, methods of toxicity testing, and species responses to toxicants. Emphasis is on aquatic pollutants of emerging concern (e.g., nanoparticles, microplastics).

**TOX 546: Clinical and Diagnostic Toxicology**

(Cross-listed with VDPAM). (0-3) Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* D.V.M. degree or VDPAM 526

Advanced study of current problems and issues in veterinary toxicology. Emphasis on problem solving and interpreting clinical cases while utilizing clinical, epidemiological, and laboratory resources. Course consists highly of clinical case based material.

**TOX 550: Pesticides in the Environment**

(Dual-listed with TOX 450). (Cross-listed with ENT). (3-0) Cr. 3. S.

*Prereq:* 6 credits of BIOL or Permission of Instructor

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

**TOX 554: General Pharmacology**

(Dual-listed with TOX 354). (Cross-listed with B M S). (3-0) Cr. 3. S.

*Prereq:* B M S 549 and B M S 552; BBMB 404, BBMB 405

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

**TOX 565: Methods in Biostatistics and Epidemiology**

(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* STAT 401 or STAT 500 or STAT 587; STAT 447 or STAT 543 or STAT 588

Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, diagnostic test evaluation, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R.

**TOX 569: Reproductive and Developmental Toxicology**

(Cross-listed with AN S). Cr. 2. Alt. F., offered even-numbered years.

*Prereq:* BBMB 301, BIOL 258 or An S 331

Chemical agents that target developmental and reproductive systems in animals and humans, both male and female. The influence that timeline of developmental in utero and what part of reproductive organ have on outcome of environmental exposures will be developed. The physiological changes due to exposure, and mechanistic pathways activated by xenobiotics will be defined and the consequences of these changes will be explored.

**TOX 570: Risk Assessment for Food, Agriculture and Veterinary Medicine**

(Cross-listed with AGRON, VDPAM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* Statistics 300-level or higher.

Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis.

**TOX 575: Cell Biology**

(Cross-listed with B M S). (3-0) Cr. 3. F.

*Prereq:* 10 credits in biological sciences and graduate student standing or permission of instructor

A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

**TOX 590: Special Topics**

Cr. arr. Repeatable.

Contact individual faculty for special projects or topics. Graded.

Courses for graduate students:

**TOX 626: Advanced Food Microbiology**

(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

**TOX 627: Rapid Methods in Food Microbiology**

(Cross-listed with FS HN, MICRO). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: FS HN 420 or FS HN 421 or FS HN 504*

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

**TOX 656: Cellular and Molecular Pathology II**

(Cross-listed with V PTH). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Graduate course in biochemistry, genetics, or cell biology*

Cellular and molecular mechanisms of carcinogenesis.

**TOX 675: Insecticide Toxicology**

(Cross-listed with ENT). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: ENT 555 or TOX 501*

Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.

**TOX 689: Current Topics in Toxicology**

Cr. R. Repeatable. F.S.

Lecture and discussion participation on current topics in toxicology. An 80% attendance is expected to satisfactorily complete the course. Offered on a satisfactory-fail basis only.

**TOX 697: Graduate Research Rotation**

(0-12) Cr. 1-12. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: Admission to Toxicology graduate program*

Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major.

**TOX 699: Research**

Cr. arr. Repeatable. F.S.SS.

Research.

# Transportation

## Interdepartmental Graduate Major

The Master of Science in transportation offers opportunities for research in such areas as modeling and performance of transportation systems, highway safety and information systems, remote sensing, environmental analysis, techniques for urban and regional transportation system planning, environmental and social policy analysis of transportation systems, transportation policy analysis, analysis of transportation technologies, commodity distribution, public administration of the transportation planning process, regional development and transportation system interrelationships, transportation economics and finance, and planning for logistics management.

Students majoring in transportation will develop a program of study under the guidance of a program of study committee selected by the student in consultation with and approved by the chair of the faculty supervisory committee. The student's home department will be the major professor's primary department.

A student must complete at least 34 credits of acceptable work including preparation of a 6 credit thesis or a 2-3 credit creative component. A structured minor requires 12 credits of approved transportation courses and a thesis or creative component on a transportation related topic.

A required core includes:

C E 551	Urban Transportation Planning Models	3
C E 691	Seminar in Transportation Planning	1
STAT 587	Statistical Methods for Research Workers	4

Detailed requirements are available from the chair of the supervisory committee.

Graduate students pursuing a major in transportation are encouraged to consider a formal declared minor in transportation. Students considering a declared minor should consult with the chair of the supervisory committee about the requirements for it.

Students typically focus their program of study to support a career in one of five areas: transportation consulting, regional and statewide transportation planning, transportation service operations and management, transportation policy and economic analysis, and transportation planning and operation for local and state governments. Graduates will have specific knowledge in one or more of these focus areas and the skills to conduct research and analysis of transportation issues. These skills allow graduates to be productive immediately in positions related to a focus area or to continue in more advanced transportation graduate work.

# Wind Energy Science, Engineering and Policy

## Graduate Study

Wind Energy Science, Engineering and Policy (WESEP) is an interdisciplinary Ph.D. program that prepares graduates for wind energy related careers in industry, academia, and government institutions. WESEP is a unique integration of engineering, science, and policy-related disciplines that provides students with an opportunity for breadth and depth in their program of study.

Students take a set of 11 courses and participate each semester in a one-credit seminar course. Of the 11 courses, two courses are introductory wind energy courses, eight are core courses, and one is an advanced specialization course in wind energy. The seminar course will address research methods and communications in science and engineering. Students are also required to pass a qualifying examination in the first 18 months of their program, a preliminary oral examination generally taken by the end of year three, and a final oral defense with written dissertation to complete the program.

Of the eight core courses, students select five courses from a primary thrust area, providing disciplinary depth, and three courses from a secondary thrust area, providing interdisciplinary breadth. Students can take additional courses within the other thrust areas as needed for their research, but this requirement ensures students are research-capable in two thrust areas.

### WESEP Thrust areas

- Wind resource characterization and aerodynamics of wind farms
- Wind energy conversion system and grid operations
- Manufacturing, construction, and supply chain
- Turbine reliability & health monitoring
- Economics, policy and public perception

### Admission Requirements

Applicants should have an undergraduate GPA of at least 3.0 (B average) and a B.S. degree from a calculus-based undergraduate curriculum. A calculus-based undergraduate curriculum is one in which students take the equivalent of two years of calculus, covering differential and integral calculus, multivariable and vector calculus, and differential equations, and one year of physics, covering mechanics, thermodynamics, electric circuits, electromagnetics, and optics. The GRE is not required. Applicants who do not meet these general standards will be evaluated on an individual basis.

# GRADUATE COLLEGE

[www.grad-college.iastate.edu/](http://www.grad-college.iastate.edu/) (<http://www.grad-college.iastate.edu/>)

William R. Graves, Dean  
 Elena Cotos, Associate Dean  
 Heather Greenlee, Associate Dean  
 Michelle Soupir, Interim Associate Dean

The Graduate College and graduate faculty at Iowa State University are responsible for the quality of graduate education, for administering students' graduate programs, and for promoting research support from various governmental, industrial, and private agencies.

The graduate faculty in various programs handle admission and classification of graduate students, establish requirements for advanced degrees, and have charge of instruction and research at the graduate level. Graduate faculty members also teach graduate courses, serve on program of study (POS) committees, and direct work of master's and doctoral students. All graduate courses offered for major or nonmajor credit are taught by graduate faculty members or graduate lecturers.

Graduate study was offered soon after the university was founded, and the first graduate degree was conferred in 1877. Experimentation and research also started early, first in agriculture and shortly thereafter in home economics, engineering, science, and veterinary medicine. In 1913, the graduate faculty was organized formally and an executive graduate committee was appointed. In 1915, the graduate faculty held its first meeting, and in 1916, it granted the first doctor of philosophy degree.

Graduate education is vital to the quality of university teaching. The creative efforts of graduate faculty members and graduate students result in knowledge necessary to help society solve problems in educational, scientific, technological, and socio-economic areas. The Graduate College encourages educational exchange and contact with undergraduate areas of the university to promote improved teaching on both the undergraduate and graduate levels. A part of this exchange is accomplished by the publication of books and technical articles which are made possible by graduate research.

The degrees master of arts, master of science, and doctor of philosophy are research oriented. In many fields master's degrees are also awarded without a thesis, but a written report of independent study, called a creative component, is generally required. Coursework only degrees are available for those individuals interested in advanced study directed toward meeting vocational or professional objectives. Information on other types of Master's degrees can be found in the Graduate College Handbook, Appendix E (<https://www.grad-college.iastate.edu/handbook/appendix.php?id=E>).

The Graduate College Handbook (<https://www.grad-college.iastate.edu/handbook/>) lists policies and procedures of the Graduate College.

## Graduate Appointments

Graduate assistantships, fellowships, and research grants have been established at Iowa State University to encourage graduate work and to promote research. Such appointments and research opportunities are available through the various departments of instruction and the research centers on campus.

Graduate assistantships, the most common form of graduate student support, are available in three categories: the research assistantship, the teaching assistantship, or the administrative assistantship. A half-time graduate assistantship (20 hours per week) permits the holder to enroll for a maximum of 12 semester credits. Recipients of these assistantships are assessed fees at full Iowa resident rates regardless of the number of credits for which they register. These students may also be eligible for tuition scholarship awards (50% of in-state tuition for most master's students and 100% of in-state tuition for most Ph.D. students and certain terminal master's students). Students who are graduates of a regionally-accredited college or university in the United States or of a recognized institution in another country whose requirements for the bachelor's degree are substantially equivalent to those of Iowa State University, and who present the requisite undergraduate or graduate preparation, may apply for these appointments.

Students placed on academic probation are eligible for assistantship appointment only on a term by term basis and need special permission to be approved for tuition scholarships. Students admitted as nondegree students are not eligible for assistantship appointments. Further information may be obtained by contacting the appropriate graduate program.

The satisfactory completion of one appointment, plus satisfactory academic performance, will ordinarily make a student eligible for reappointment. After a period of three years of full time study for the master's degree or five years for the doctorate, the student will not normally be continued on assistantship support (shorter periods may be stipulated by the student's program or department).

## Postdoctoral Study

Opportunities are provided for postdoctoral study through the extensive research programs of the university. Inquiries should be directed to the appropriate program, institute, or to the Postdoctoral Scholar Coordinator in the Graduate College.

## Graduate Study by Staff Members

Any full-time member of the research, instructional, or extension staff at the rank of instructor, research associate, or assistant scientist may carry up to six course credits per semester and three credits per summer

session, subject to the approval of the head of the program or section, and provided it does not interfere with other duties. This privilege may be extended to members of the research, instructional, or extension staffs at the rank of assistant professor with approval of the college dean and the Dean of the Graduate College. Staff members at the rank of professor or associate professor cannot become candidates for graduate degrees from ISU.

## Distance Education

Iowa State offers many graduate degree and certificate programs off-campus. For a listing of the degree programs, registrations for courses, and more information about distance education, consult the Iowa State University Web site at <http://www.distance.iastate.edu> (<http://www.distance.iastate.edu/>).

Other information about graduate requirements is available in the Graduate College Handbook at <http://www.grad-college.iastate.edu/publications/gchandbook/homepage.html>. (<http://www.grad-college.iastate.edu/publications/gchandbook/homepage.html>)

## Graduate Courses Taken by Undergraduates

Certain graduate-level courses listed in the ISU Catalog may be used in the program of study even though they were taken for undergraduate credit by the student as an undergraduate at Iowa State University.

The following conditions must be met:

1. With approval of the student's Program of Study Committee, up to 6 graduate credits a student earned as an ISU undergraduate may be used to meet the requirements of the graduate degree.
2. Grades of B or better are required in the courses that led to these credits.
3. These credits must have been earned when the student was classified as an undergraduate, not as a nondegree undergraduate (special) student.
4. These credits could have been used to meet undergraduate degree requirements.
5. For students in concurrent undergraduate and graduate status, these credits (up to 6) may be in addition to the 6 credits identified on the Transfer of Courses for Concurrent B.S./Graduate (<http://www.grad-college.iastate.edu/common/forms/>) form.

## Courses Taken as a Nondegree Undergraduate Student

A person classified as a "nondegree undergraduate" student may not use courses taken under that status in a graduate degree program. A student

who has received the baccalaureate degree must register as a graduate student if they are to receive graduate credit for courses.

## Graduate Majors

A complete list of all graduate majors can be found on the Graduate College website, <https://www.grad-college.iastate.edu/academics/programs/apprograms.php>, with links to admission requirements and program websites.

The Graduate College oversees the admission of students to pursue a graduate degree or credential or to take graduate courses in nondegree student status. The Office of Admissions and the various graduate programs partner with the Graduate College to sustain an admissions process that respects institutional standards and the diverse needs of faculty and students across all realms of advanced study and scholarship. The Graduate College sets baseline admission requirements for the university and makes admission decisions. Graduate programs share specific admissions requirements to prospective students via their websites and the Graduate College Program Pages (<https://www.grad-college.iastate.edu/academics/programs/apprograms.php>).

## Application process

All application materials for graduate study are submitted via the online application.

The Graduate College establishes dates to open and close applications for particular academic terms. Graduate programs may establish deadlines earlier than the date on which the application closes by which applicants must submit all required materials to be considered for admission.

Departments and programs convey recommendations concerning admission to the Graduate College. Final decisions regarding admission rest with the Dean of the Graduate College. The Graduate College, or the Office of Admissions acting on behalf of the Graduate College, will seek to ensure the authenticity of application materials. Graduate programs are expected to uphold ethical practices as they evaluate applicants by using principles of holistic review. Official letters to applicants to report the outcomes of their applications are sent from the Dean of the Graduate College.

## Application requirements

Required Application Documents

1. Online graduate application
2. Unofficial transcripts from all previously attended institutions for undergraduate and post-baccalaureate study
  - a. Official transcripts are only required from applicants admitted to the Graduate College. Electronic copies provided by the applicant are not considered official.

3. Applicants whose first language is not English must submit a valid, official test report from the Test of English as a Foreign Language (TOEFL) or from an approved alternative examination. Applicants who otherwise would need to submit scores are exempt if they hold baccalaureate or higher degrees from countries where the only official language is English.
4. A statement of purpose for each major to which the applicant is applying.
5. Additional documents such as letters of recommendation, résumé/ curriculum vitae (CV), statement of purpose, writing samples, publications, portfolio, etc. may be required by programs.

## Admission standards and requirements

A baccalaureate degree, or equivalent from a suitably accredited college or university is required. Evidence of a conferred baccalaureate is needed by the start of the second semester of graduate study. Any exceptions to this admission standard must be approved by the Dean of the Graduate College.

A cumulative grade point average of 3.00 on a 4.00 scale, or equivalent, in undergraduate work or in previous graduate work is expected.

Recommendations from graduate programs to admit applicants who do not meet this standard will be reviewed by the Graduate College. The GPA may also be met through one of the following:

- Undergraduate degree with GPA greater than 3.00 (on a 4.00 scale)
- Completed 9 to 14 credits of graduate coursework with grade B or better in all courses
- Completed 15 or more credits of graduate coursework with GPA above 3.00 and no F grades

Minimum scores for tests of English are shown below. Graduate programs may set higher minima for applicants to their programs.

Students whose first language is English or those who earned degree from countries where the only official language is English are exempt from the language proficiency requirements.

Applicants whose native language is not English must demonstrate proficiency in English equivalent to a Test of English as a Foreign Language (TOEFL) score of at least 550 on the paper-based test, or 79 on the internet-based test as a part of the admissions process. International students may also submit IELTS (International English Language Testing System) scores in lieu of the TOEFL. The ISU Graduate College minimum is 6.5.

## Special applicants

**Non-degree seeking** - Nondegree seeking graduate students are those who are not seeking a graduate degree. There is a limit to the number of courses taken in this status that may be used to satisfy graduate degree

requirements. Non-degree seeking students are not eligible for financial aid.

**Re-admission** - Previous applicants to the Graduate College who did not enroll within one academic year of admission must submit a new application and pay the required fee because the prior application is no longer valid.

**Re-entry** - Applicants who previously were active students within the Graduate College, have not registered for four or more consecutive fall and spring semesters, and seek readmission to the same degree program should submit a re-entry application through the reinstatement process.

**In-Session** - Current graduate students who seek to pursue additional graduate degrees should complete an in-session status change application. The DOGE or DOCS (or designee) is responsible for approving the admission to the new major and submitting the form to the Graduate College

---

## Registration

Registration processes are administered through the Office of the Registrar. Policies regarding tuition, fees, and residency should be directed to the Registrar.

All students who attend classes at ISU must register and pay assessed tuition and fees. The ISU Office of the Registrar's website at <http://www.registrar.iastate.edu/> is the official source of information about registration for all students at ISU. Specific dates for registration are listed:

- on the Registrar's Web page,
- on the University Calendar, and
- in the Iowa State Daily

Registration for summer session should be completed during the spring at the same time as registration for fall semester. All students are encouraged to register for courses on the Web through AccessPlus.

Detailed instructions are provided at <http://www.registrar.iastate.edu/students/registration/>.

For complete information on registration, see the ISU Schedule of Classes or the Registration Web site at <http://www.registrar.iastate.edu/students/>.

## Full-Time Status

During the academic year, graduate students not on assistantship must be registered for a minimum of nine credits to be considered full-time students or five credits to be considered half-time students. Students on

an assistantship appointment during the academic year are considered full-time.

## CREDIT LIMITS

Registration in credit courses is limited to a maximum of 15 credits per semester (10 credits for summer session) for graduate students, per Board of Regents. See the Graduate College Handbook Ch.2.1.2 (<https://www.grad-college.iastate.edu/handbook/chapter.php?id=2>) at for more details.

## Doctoral Post Prelim (Required Registration)

Even when Ph.D. graduate students have completed coursework, they are required to register and pay tuition and fees after successfully passing their preliminary oral examination, whether or not university facilities and equipment are used or staff is consulted—either in person or in absentia.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are used, the Ph.D. candidate must register for the appropriate number of credits in the major program and pay the appropriate graduate tuition and fees. The Ph.D. candidate may register for GR ST 681 Required Registration and pay the Doctoral Required Registration tuition and fees if all other coursework is completed.

The Ph.D. candidate must be aware that registration for GR ST 681 is allowed only after the Ph.D. candidate passes the preliminary oral examination; is required only in the fall and spring semesters, and not during the summer term; is not allowed after the completion of the final oral examination; and does not defer student loans.

If students take the final examination during the interim between terms (including the first day of classes), registration can be for the term either before or after the examination is held.

## Auditing

Audit registration means taking courses without receiving formal credit. Audit provisions are as follows: Instructors must approve ALL audits; students must register for audits by day 10 of the semester; changes to or from an audit must be made in the first 10 days of the semester; students are assessed tuition and fees as though they were taking the course for credit; and the course DOES NOT count in determining full-time student status.

Audited courses do not appear on the student's permanent record unless the "Request for Audit(s) to Appear on Transcript" form is completed and signed by the student, course instructor, and major professor. Copies of this form, which are available from the Graduate College or from the Graduate College's web site at <https://www.grad-college.iastate.edu/>

student/forms/ must be filed with the Graduate College, 1137 Pearson Hall.

After the fifth class day, if a student changes a regular course to an audit, that course will appear on the student's permanent record as a drop. Audits are not acceptable as registration for loan deferments or for meeting visa requirements.

## Grading

Grades are the permanent official record of a student's academic performance. Iowa State uses A through F grading for most courses. S, P, and NP grades are given in some courses. The standard four-point scale is used to calculate a grade point average.

### Grade Point Average (GPA)

All courses taken as a graduate student will be calculated into the graduate GPA, except for Creative Component/Research (599 and 699) credits, which are not used in the calculation of the GPA. The GPA is determined by dividing the number of grade points earned by the total number of ISU cumulative hours. The grade given when an incomplete (I) is resolved is figured into the cumulative grade point average, but not into a particular semester's average. Marks of I, S, P, NP, T, and X are not counted in the grade point average; a mark of F (even if taken S/F) is counted in the grade point average. In the case of repeated courses, only the grade achieved the most recent time the course is taken is used in computing the grade point average. (However, grades in courses that are noted as repeatable courses in the catalog, such as certain repeatable seminars, will all be used in calculating the grade point average.)

### Grading Research and Creative Component Credits

Creative Component/Research credits may be graded as A, B, C, D, I, S, or F. Plus and minus grades are optional. These credits are not calculated in a student's GPA.

### Pass (P)/Not Pass (NP) Course Credit

Pass/Not Pass courses are those that a student, with the approval of the major professor, may take for personal enrichment, but not for satisfying prerequisites or deficiencies in the undergraduate background. P/NP marks may not be used in a POS (except for the Spring 2020 semester), nor do P/NP marks contribute to the student's GPA. Full credit for P/NP courses is used in calculating tuition assessment and credit load limitations. For more information, see the Graduate College Handbook.

### Satisfactory/Fail (S/F) Grading

S/F grading is not the same as P/NP grading. S/F grading is by instructor option; all students in a particular course receive S/F grading. P/NP grading is generally a student option. A P mark is equivalent to at least a C grade whereas an S mark is equivalent to at least a B grade at the graduate level. No special registration procedures are required for S/F grading. An S mark in a course taken S/F is not counted in the grade

point average, but an F mark in a course taken S/F is counted in the grade point average and is equivalent to an F in a regularly graded (A-F) course. No more than 20 percent of the total credits (excluding creative component, thesis or dissertation research) in the program of study may be earned on an S/F basis.

S/F grading may be used only for approved courses offered as seminars, symposia, workshops, special topics, and research. Programs must submit requests for S/F grading to the Dean of the Graduate College. The Graduate College Catalog and Curriculum Committee reviews and approves or rejects all S/F courses.

## Grievances about Grades

A graduate student who feels that a course grade has been unjustly assigned, and whose attempts to resolve the matter with the instructor have failed, may appeal through the grievance procedures described in Ch.9.5.1. of the Graduate College Handbook (<https://www.grad-college.iastate.edu/handbook/chapter.php?id=9#9.5>).

## Probation

If a graduate student does not maintain a cumulative 3.00 grade point average on all coursework taken, exclusive of research credit, they may be placed on academic probation by the Dean of the Graduate College. Grades earned by graduate students in undergraduate courses are included in the calculation of the grade point average. Academic probation judgments are made on the basis of grades in coursework only. New, first-term, degree seeking graduate students who fall below a 3.00 GPA at the end of their first semester will be given a one term grace period to bring their grades back to a 3.00 GPA. These students will receive a warning letter from the Graduate College.

While on academic probation a student will not be admitted to candidacy for a degree and, if appointed to a graduate assistantship, the student will not receive a graduate tuition scholarship unless approval is given by the student's home department's academic college. If a student is to qualify for a tuition scholarship, they must be removed from probation by the tenth class day of the term.

To ensure that registration does not take place without a review by the program, the Graduate College places a hold on future registrations by a student on probation. Before the student registers for each term, the program must review the student's record and recommend in writing if the Graduate College should permit further registration. Before graduation is approved, the student must complete all courses listed on the program of study with a minimum grade of C and have achieved a 3.00 GPA or greater.

## English Proficiency - Admission

Applicants whose native language is not English and who have not earned a bachelor's or master's in a country where the only official

language is English are required to submit Test of English as a Foreign Language (TOEFL) scores as part of the admission process. A minimum score of at least 79 on the TOEFL internet-based test or 550 on the paper-based test is required by the Graduate College. International students may also submit IELTS (International English Language Testing System) scores in lieu of the TOEFL. The ISU Graduate College minimum is 6.5. Because many programs require higher TOEFL and/or IELTS scores, applicants should check directly with the program to which they desire admission or browse the Graduate College website at [www.grad-college.iastate.edu/programs/APprograms.php](http://www.grad-college.iastate.edu/programs/APprograms.php) (<http://www.grad-college.iastate.edu/programs/APprograms.php>).

## English Requirement - graduation

Graduate students whose native language is not English and who did not graduate from a U.S. institution must take an English Placement Test at the beginning of their first semester of enrollment. This test is administered by the Department of English. A student who does not pass this examination is assigned to one or more courses in the English 99 and 101 series. This course work must be completed during the first year of study. (There is a developmental course fee for the English 99 course.). Non-native English speaking ISU graduate students who meet or exceed the TOEFL scores (640 or above on the paper-based test or 105 on the internet-based test) are exempted from taking the English Placement Test. (Self-enrollment in English 99 or 101 courses remains possible).

## Oral english certification test - teaching assistantships

New teaching assistants (TAs) whose native language is not English are evaluated for their ability to communicate effectively in English before their assistantship assignments are made. The Oral English Certification Tests (OECT) are given before the beginning of each semester. The testing dates are announced on the International Teaching Assistants (ITA) program website. Registration for the test is held online through links posted on the ITA program homepage, <https://cce.grad-college.iastate.edu/speaking/english-180-courses> (<https://cce.grad-college.iastate.edu/speaking/english-180-courses/>), two to three weeks before the test is administered. TAs and faculty with questions about OECT testing should contact the Center for Communication Excellence (CCE) in the Graduate College. A prospective teaching assistant who does not pass these tests is required to successfully complete coursework and be retested. English 180 is a series of communication courses designed to help new teaching assistants. Students focus on pronunciation, listening, question-handling, teaching and lecturing skills, and analyzing the culture of U.S. university life. Because enrollment is restricted, TAs cannot register for the courses online through AccessPlus. TAs must go to the CCE, 1137 Pearson Hall, immediately after they receive the test scores to obtain permission to enter the course by completing a course add slip.

## Changes in graduate program or status

Students who have been admitted to a graduate program and to the Graduate College may request to transfer at a later date to another major or degree. Because graduate students are admitted to particular programs, transfers require the approval of both the receiving program and the Graduate College. Students seeking transfer to another major or degree should first discuss their wishes with the new program DOGE (Director of Graduate Education) to determine requirements and interest by the new program. When a student receives a favorable preliminary response from the new program, they should fill out the student portion of the "Transfer From One Major/Degree/Certificate to Another (<https://iastate.box.com/s/0hg0ag2ietm5g72nrfhxg7wnwo20t9hj/>)" form and submit it to their current DOGE. The current DOGE will fill out the Current Program Information adding any comments they believe the new program should consider and forward the form to the proposed new program. This form is available from the Graduate College website at <https://www.grad-college.iastate.edu/student/forms/>.

The receiving program will generally give the student the same consideration and employ the same admissions standards that are used for original applications for admission and will expect the same application materials (transcripts, letters of recommendation, test scores, etc.). During this process, the new and old programs and the Graduate College are authorized and encouraged to seek and disclose information related to the student's overall fitness for studies in the receiving program. Programs are authorized to inquire into the student's prior conduct at the university, both with the prior program and with the Dean of Students.

Upon program action (acceptance or denial), the request to transfer form must be sent to the Graduate College for approval. Students desiring to transfer from a degree-seeking status to a nondegree-seeking status need to fill out the "Transfer from One Major/Program/Department to Nondegree (<https://iastate.box.com/s/sffio2c4lvfbtizrsxzsrwzgw0kjbjdj/>)" form available at <https://www.grad-college.iastate.edu/student/forms/> and send it to the Graduate College. Students desiring to transfer from nondegree-seeking status to a degree-seeking status must be admitted by a program through the regular graduate admission process. Students who are in interdepartmental majors should complete the Home Department form to change departments.

## Curriculum Change from Active Graduate to Active Undergraduate Status

Individuals who are in good standing in the Graduate College and who wish to transfer to an undergraduate curriculum must contact Office of the Registrar.

## Curriculum Change from Inactive Graduate to Active Undergraduate Status

Individuals who were admitted to the Graduate College more than one year ago and who do not have active graduate status but who wish to change their status from inactive graduate to active undergraduate must follow the same procedures required of reentering undergraduate students and must begin the process by filing a completed "Undergraduate Reentry" form with the Office of the Registrar. When considering reinstatement, the undergraduate college may consider the student's overall fitness for continued studies including information about the student's conduct, employment, and education since the student's last enrollment.

## Undergraduate Admission to Concurrent Graduate Degree/Certificate Programs

Several programs provide opportunities for qualified ISU juniors and seniors majoring in those curricula to apply for admission to both a bachelor's and master's degrees.

The graduate degree will be awarded only at the same time as, or after, the undergraduate degree is conferred. For a complete listing of the concurrent degree programs, consult Ch.4.3.2 (<https://www.grad-college.iastate.edu/handbook/chapter.php?id=4#4.3>) of the Graduate College Handbook.

Interested students must adhere to the following process:

- Complete the "Concurrent Enrollment for Undergraduate Student Wishing to Pursue a Graduate Certificate or Degree (<https://www.grad-college.iastate.edu/student/forms/>)" form on the Graduate College website.
- Take the form to the interested graduate program along with three letters of recommendation, and any other application materials required by the program, as listed on the Program's Admissions Requirement page here (<http://www.grad-college.iastate.edu/academics/programs/apprograms.php>).
- After the program has made an admissions decision and signed the form, it must be taken **in order** to the other areas (the program DOGE, undergraduate department, undergraduate college, and Graduate College).
- The Graduate College will make the final decision if the student is admissible and notify all parties including the Office of Admissions on the outcome of its evaluation.

Students interested in a research career may apply for graduate research assistantships during their last two years of study. Students should contact the graduate programs about applying to the graduate program early in their undergraduate careers. For more information about seeking admission to concurrent undergraduate/graduate degree programs

that are not pre-approved by the Graduate College, or "individualized programs", the application process, and transferring credits, consult Ch. 4.3.2 of the Graduate College Handbook.

## GRADUATE STUDENTS IN CONCURRENT UNDERGRADUATE PROGRAMS

Graduate students interested in enrolling in a concurrent undergraduate program should contact the Office of Admissions (100 Enrollment Services Center) to obtain admission information (even if the student has been previously admitted as an undergraduate). An "Application for Graduate Student Wishing to Pursue a Concurrent Undergraduate Degree" form should be obtained from the Graduate College Web site at [www.grad-college.iastate.edu/common/forms/index.php](http://www.grad-college.iastate.edu/common/forms/index.php) (<http://www.grad-college.iastate.edu/common/forms/>) and circulated for the appropriate approvals.

- Official enrollment and fee payment will be as a graduate student.
- The graduate degree or graduate certificate will be awarded only at the same time as, or after, the undergraduate degree is conferred.
- Students interested in a research career may be able to apply for a graduate research assistantship while in a concurrent degree or graduate certificate program.
- Students in concurrent degree programs may, subject to Program of Study Committee approval, count up to 6 ISU credits taken during their concurrent enrollment toward both a bachelor's degree and a graduate certificate or master's degree that requires up to 41 credits. For master's degree programs that require at least 42 credits, students may instead count up to 12 ISU credits taken during their concurrent enrollment toward both their undergraduate degree and their master's degree, upon program and Program of Study Committee approval.
- For students pursuing a concurrent undergraduate bachelor's degree and a graduate certificate, at least 12 graduate credits cannot be double counted and a maximum of 6 graduate credits can be double counted for both the bachelor's degree and the graduate certificate (when the graduate certificate requires more than 12 credits).
- A student in a bachelor's and master's concurrent degree program cannot be on a Ph.D. track during the concurrent program.

## Veterinary Medicine Students in Concurrent Graduate Degree/Certificate Programs

Students may be concurrently enrolled in the professional curriculum leading to the D.V.M. degree and in a graduate program leading to the M.S. or Ph.D. degree after completion of 90 undergraduate semester credits. The graduate program may be in the College of Veterinary Medicine or in another college.

Interested students must adhere to the following process:

- Complete a "Concurrent Enrollment for Graduate/Veterinary Medicine Degrees" form available on the web site at [www.grad-college.iastate.edu/common/forms/index.php](http://www.grad-college.iastate.edu/common/forms/index.php) (<http://www.grad-college.iastate.edu/common/forms/>). This is a combination application/concurrent form.
- Submit the "Concurrent Enrollment Request" form to the Graduate College after appropriate signatures are obtained.

Signed approvals on the concurrent form are required from the graduate program, the College of Veterinary Medicine, and the Graduate College. On admittance, the student receives an admission notification from the Office of Admissions. Consult Ch. 4.3.2 of the Graduate College Handbook.

## Concurrent Master's Degrees

By special request, students may complete two degree programs that lead to two concurrently awarded master's degrees by following these requirements:

- Complete and submit a "Two Concurrent Graduate Degrees (<https://iastate.box.com/s/h1k4448srpzvf052xl35bfnkwfy8xqrs/>)" form to the Graduate College,
- File separate Program of Study Committee (POSC) forms for each degree,
- File separate "Application for Graduation" forms for each degree,
- Complete separate projects or theses for each degree, if applicable
- File separate "Final Oral Exam Request" forms for each degree, if applicable, and
- Pass separate final oral examinations (if applicable) and complete a separate "Graduate Student Approval Form" for each degree.

Two awarded master's degrees require at least 22 hours of non-overlapping graduate credit in each major. If the two degrees are thesis or non-thesis degrees, they require two terminal projects (theses or creative components, respectively). Coursework-only degrees do not require a final project. These two degrees do not have to be awarded during the same term, since requirements for each are completed separately.

## Master's Degrees

General requirements for all master's degrees are as follows:

### General Requirements

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master's programs in the major. These requirements may place additional responsibilities on the student, the

major professor, or the student's program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

## Appointment of the Student's Program of Study (POS) Committee

New graduate students at ISU may be assigned a temporary academic advisor by the major program in the first semester of the student's residence. This faculty member guides the student in selection of a field of study and in development of a graduate program of study until the major professor and POS committee are selected. After the POS committee has been selected, it guides and evaluates the student during the remainder of graduate study.

A thesis master's POS committee consists of at least three members of the graduate faculty. It must include two members, including the major professor, from the major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student's master's research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for the direction of a program of study. A non-thesis master's degree needs a minimum of one committee member.

Programs may establish requirements for more than one member. For more information on duties and makeup of the committee as well as changes to the committee makeup, see Ch.6 (<https://www.grad-college.iastate.edu/handbook/chapter.php?id=6>) of the Graduate College Handbook.

**Program of Study.** The student and major professor develop the program of study with the consultation and approval of the POS committee. This agreement between the student and the Graduate College should be submitted as early as possible for approval. It is recommended that the committee be formed and the POS form submitted as early as the second semester of graduate study. In no case can the committee and program of study be formed later than the term before the final oral examination for master's students.

**Residency.** There is no on-campus residency requirement for the master's degree.

**Credits.** Unless otherwise noted, at least 30 credits of acceptable graduate work must be completed in all master's programs. At least 22 graduate credits must be earned from Iowa State University.

**Transfer Credits.** At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at the institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is the student's responsibility to provide verification by letter from that institution that these graduate courses were not used to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed the term before the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better. Audits may be listed on the program of study, but do not carry credit.

**Major.** A major is an approved area of study leading to a graduate degree. The exact number of credits in a major is not prescribed.

**Minor.** Minors are available in many disciplinary and interdepartmental graduate programs. Some programs offer only a minor. In other programs, students may declare either a major or a minor. Programs offering a major are not required to offer a minor. A student may not major and minor in the same discipline for a single degree or across multiple degrees. To illustrate, a student earning a Ph.D. in computer science may not minor in statistics for their Ph.D. program if they are also pursuing an M.S. in statistics.

The minor subject area must be tested at the final oral examination and cannot be placed on the transcript after graduation unless it was approved on the program of study, listed on all examination reports, and recorded on the Graduate Student Approval Form. A minor cannot be added to a degree that has already been received.

## Specific Master's Degrees

The number of credits in a major for a master's degree will vary according to various degrees. General credit requirements for all master's degrees include: a minimum of 30 graduate credits is required for all master's programs at ISU; at least 22 graduate credits must be earned at ISU; any transfer of graduate credits from another institution must be recommended in the program of study by the POS committee; and graduate credit earned as a graduate student will be approved for transfer only if a B grade or better was earned. A transcript must accompany the POS form. A complete listing of specific master's degrees can be found in Appendix D (<https://www.grad-college.iastate.edu/handbook/appendix.php?id=D>) of the Graduate College Handbook. A complete listing of all master's degrees can also be found online, <http://www.grad-college.iastate.edu/academics/gradprograms/index.php>. (<http://www.grad-college.iastate.edu/academics/gradprograms/>)

## Master's Double Degree Programs

A double degree requires fulfillment of the requirements for two graduate majors for which two differently named master's degrees and two diplomas are granted at the same time. For double degrees with a thesis or creative component, the final project (thesis or creative component) must integrate subject area from both majors.

The requirements for all students who are interested in pursuing double degree programs are listed below:

- The interested student must obtain the "Double Graduate Degree Request ([https://www.grad-college.iastate.edu/documents/forms/Double\\_Graduate\\_Degree\\_Request.pdf](https://www.grad-college.iastate.edu/documents/forms/Double_Graduate_Degree_Request.pdf))" form and submit it to the Graduate College for approval.
- Only **one** "Double Graduate Degree Committee Appointment ([https://www.grad-college.iastate.edu/documents/forms/Double\\_Degree\\_Committee\\_Appointment.pdf](https://www.grad-college.iastate.edu/documents/forms/Double_Degree_Committee_Appointment.pdf))" form and **one** "Double Graduate Degree Program of Study ([https://www.grad-college.iastate.edu/documents/forms/Double\\_Degree\\_POS.pdf](https://www.grad-college.iastate.edu/documents/forms/Double_Degree_POS.pdf))" form need to be submitted for the two degrees.
- For double degrees involving a creative component, there must be at least two graduate faculty members on the double degree POS committee. For double degrees involving a thesis, there must be at least three graduate faculty members on the double degree POS committee. Such POS committees for double degrees must include co-major professors from each of the majors.
- Although specific degree programs may require more, the program of study must include at least 48 hours of non-overlapping graduate credit (24 for each major) in the two degrees, and no less than 75% of the sum of the credits from each separate degree.
- If one or both of the degrees has a thesis or creative component, one final oral examination must be held covering the combined

thesis or creative component. One thesis is submitted to satisfy the requirements of both degrees.

- If a thesis or non-thesis is combined with a coursework only degree, the thesis/non-thesis project should include information for both degrees.
- **One** "Graduate Student Approval Form (<https://secure.grad-college.iastate.edu/graduate-approval/exam/>)" signed by the DOGE from both programs needs to be submitted to the Graduate College.
- All forms should clearly indicate that the student is enrolled in a double degree program.

## Drake University Law School/Iowa State University Combined Degree

To provide training in the complementary fields of law and political science with a minimum amount of academic duplication, special arrangements for a combined degree program have been approved with the Drake University Law School. ISU and Drake offer a combined J.D./M.A. in political science. Drake Law School students are permitted to transfer the equivalent of nine semester credits of specified law courses to ISU for credit for the political science program. Because of the difference in grading systems, the Law School grades are transferred as passes, provided the student has achieved a grade of C or better in those courses at Drake. Applicants for the combined program must meet the regular entrance requirements of, and be admitted to, both the Drake Law School and the ISU Graduate College.

## Doctor of Philosophy General Requirements

The degree doctor of philosophy is strongly research oriented. The primary requirements for the degree are:

- high attainment and proficiency of the candidate in their chosen field
- development of a dissertation which is a significant contribution to knowledge and which shows independent and creative thought and work
- successful passing of detailed examinations over the field of the candidate's major work, with a satisfactory showing of preparation in related courses. General requirements for Ph.D. candidates follow.

The Graduate College Handbook outlines the general requirements for completion of a Ph.D. degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the Ph.D. programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student's program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals for the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

## Appointment of the Student's Program of Study (POS) Committee

The POS committee for a doctoral program consists of at least five members of the graduate faculty. It must include at least three members, including the major professor, from within the student's major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student's dissertation research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for direction of the dissertation.

## Changes to POS committee

Recommendations for changes in the POS committee must have the approval of the student, major professor, DOGE, and all committee members involved in the change (committee members who are retired, resigned, or not employed at ISU do not have to sign) before seeking approval of the Graduate College. These changes must be approved by the Dean of the Graduate College before the preliminary or final oral examination is held. For more information on changes to the committee and to the Program of Study, see Ch. 6 of the Graduate College Handbook.

## Program of Study

The student and the major professor develop the program of study with the consultation and approval of the POS committee. Early selection of a major professor, appointment of a POS committee, and development of a program of study are very important. It is recommended that the committee be formed as early as the second semester of graduate study. In no case can the committee be formed later than the term before the preliminary oral examination.

## Credits

A minimum of 72 graduate credits must be earned for a Ph.D. degree. At least 36 graduate credits, including all dissertation research credits, must be earned at Iowa State University. There is no specific university requirement regarding the number of credits to be taken inside or outside the major/program.

## Transfer Credits

At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or

better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at that institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is that student's responsibility to provide verification by letter from that institution that those graduate courses were not taken to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed before the term in which the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better.

## Major

A major is the area of study or academic concentration in which a student chooses to qualify for the award of a graduate degree. Majors are listed on the Graduate College website here: <https://www.grad-college.iastate.edu/academics/programs/apprograms.php>. Opportunities also exist for majoring in more than one area of study (co-major programs).

## Minor

Students may request a minor in any program approved to grant a graduate degree so long as the graduate program offers a minor and in programs approved to offer only a minor. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student's POS committee. The minor subject area must be tested at the preliminary oral and final oral examinations. A minor cannot be added to a program of study after the preliminary oral examination has been taken, nor can a minor be placed on the transcript after graduation, unless it was approved on the program of study, listed on all examination reports, and recorded on the Graduate Student Approval form. A student may not minor and major in the same field. A minor cannot be added to a degree that has already been awarded.

## Time Limits

The Graduate College's time-to-degree limit for all graduate students, both master's and Ph.D., is seven years. **Graduate programs may establish more restrictive time-to-degree limits.** For example, at the

program's discretion, a student beginning a Ph.D. degree program at ISU with a master's degree could be expected to complete the program within three or four or five years, while a student beginning a Ph.D. degree program without the master's degree could be expected to complete the program within five or six or seven years. This is an option that would be enforced at the department level. Requests to extend the seven-year time limit will be considered in situations involving medical or other extenuating circumstances. Cases in which the student leaves ISU during their graduate career and later returns are dealt with individually by the POS committee and the Graduate College.

The inclusion in the program of study/committee (POSC) of coursework that is beyond the time limits ("expired" courses) must be justified in the Expired Course Petition found on the Graduate College student forms page. This petition must be submitted in conjunction with the POSC form.

## Preliminary Examination

The Graduate College requires a preliminary oral examination of Ph.D. degree students; most programs add a written portion to the preliminary oral examination. The Ph.D. degree preliminary oral examination rigorously tests a graduate student's knowledge of major, minor, and supporting subject areas as well as the student's ability to analyze, organize, and present subject matter relevant to the field. A "Request for Preliminary Examination" form must be submitted to the Graduate College by the major professor at least two weeks before the proposed date of the examination.

The following conditions should be met before the "Request for Preliminary Examination" form is submitted to the Graduate College:

- admitted to full admission status in a Ph.D. granting program,
- POSC approved no later than 3 months before the preliminary oral examination,
- English requirement met,
- not on probation,
- time limit not exceeded (see Chapter 4 (<https://www.grad-college.iastate.edu/handbook/chapter.php?id=4&search=preliminary%20oral%20exam&section=4.4#ttd>)),
- qualifying examination (if required by program) passed,
- registration for a minimum of one credit, or for Examination Only (GR ST 681B) if no course work is needed, during the term in which the preliminary oral examination is taken

A preliminary oral examination will not be scheduled for a student on academic probation. Upon successful completion of the preliminary oral examination, the student is admitted to candidacy for the Ph.D. degree. If the graduate student fails all or part of the preliminary oral examination, the committee provides two options: gives a not pass and allows the student to retake the examination after six months or gives a not pass and does not allow the student to retake the examination. Six months

must elapse between the first attempt and the next. The entire POS committee must be convened for the preliminary oral examination. The preliminary oral examination must be passed at least six months prior to the final oral examination. An exception to the rule is allowed if a request signed by the major professor(s) and the program's DOGE is approved by the Dean of the Graduate College.

## Dissertation

A doctoral dissertation must demonstrate conclusively the ability of the author to conceive, design, conduct, and interpret independent, original, and creative research. It must attempt to describe significant original contributions to the advancement of knowledge and must demonstrate the ability to organize, analyze, and interpret data. In most instances, a dissertation includes a statement of purpose, a review of pertinent literature, a presentation of methodology and results obtained, and a critical interpretation of conclusions in relation to the findings of others. When appropriate, it involves a defense of objectives, design, and analytical procedures. Dissertation research should be worthy of publication and should appear in appropriate professional journals or in book form.

Responsibility for writing and editing of the dissertation rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of dissertations. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the dissertation, so as to assure the highest level of quality when the student presents the dissertation to the committee for final approval. Copies of the dissertation must be submitted to the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please refer to the Graduate College Dissertation/Thesis website (<http://www.grad-college.iastate.edu/current/thesis/>) for requirements, fees, and other pertinent information.

Shortly after the submission of the "Application for Graduation" form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar's Office. This fee is nonrefundable if a student does not cancel their graduation by the Graduate College's cancellation deadline.

## Final Oral Examination

The Ph.D. final oral examination, conducted after the dissertation is finished, is oral and often limited to a defense of the dissertation. To receive the degree at the end of a given semester, the student must hold the final oral examination before the final oral examination deadline for the semester.

The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see Ch. 7.1.2 of the Graduate College Handbook.

## Graduate Student Approval Form for Graduation

The Graduate College requires final approval from the student's program with submission of a “Graduate Student Approval Form (<https://secure.grad-college.iastate.edu/graduate-approval/exam/>)”, signed by the major professor(s) and the DOGE(s), including co-major DOGE if applicable, after the student has passed the final oral examination and completed any necessary changes on the dissertation/thesis requested by the committee. A paper dissertation/thesis signature page is not required.

- The form is electronically routed to the major professor or program to give to the student after the final oral exam request is received and approved by the Graduate College.
- The Graduate Student Approval Form must be completely routed and approved by the published deadline each term.
- After the Graduate Student Approval Form has been electronically signed, a dissertation/thesis student must upload their final dissertation/thesis to ProQuest. A non-thesis student must submit their creative component to the ISU Digital Repository.
- Once the signed Graduate Student Approval Form has been received by the Graduate College, a student's dissertation, thesis, or creative component will be reviewed for final approval.
- Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Form. An incomplete, non-report, or failing grade that a student receives for the term of graduation will result in removal from that term's graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Form for the new term of graduation.

If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College that the conditions have been met by submitting the Preliminary or Final Oral Exam Conditions Met Memo (<https://www.grad-college.iastate.edu/common/forms/files/Preliminary%20or%20Final%20Oral%20Exam%20Conditions%20Met%20Memo.pdf>) no later than the due date for the Graduate Student Approval Form for the term of graduation.

## Graduate Programs

The Graduate College Handbook outlines the general requirements for completion of a graduate degree or credential at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the doctoral, master's, and certificate programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student's program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

## Academic Program definitions

- **Program** - administrative infrastructure supporting the curriculum.
- **Curriculum** - the requirements for a major, certificate, or minor.
- **Major** - subject area of study that results in a named baccalaureate, master's, or doctoral degree upon completion of a set of requirements. A major appears on the academic transcript.
- **Certificate** - an academic credential in a focused area of study. A certificate appears on the academic transcript and may be earned concurrently with a degree or on its own.
- **Minor** - an academic area of emphasis that is in addition to a major. A minor appears on the academic transcript and must be earned in conjunction with a degree.

## Ph.D. Programs

A complete list of Ph.D. Programs can also be found on <https://www.grad-college.iastate.edu/academics/programs/apprograms.php>. (<https://www.grad-college.iastate.edu/academics/programs/apprograms.php>)

Aerospace Engineering (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=2>)

Agricultural and Biosystems Engineering (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=5>)

Agricultural Economics (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=3>)

Agricultural Education (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=4>)

Agricultural Meteorology (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=7>)

Analytical Chemistry (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=9>)

Animal Breeding and Genetics (<http://www.grad-college.iastate.edu/academics/programs/apresults.php?id=10>)

Education and Outreach in Agriculture and Natural Resources (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=65>)

Education for Social Justice (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=40>)

Embedded Systems (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=13>)

Energy Systems Engineering (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=14>)

Enterprise Cyber Security Management (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=62>)

Entrepreneurship and Innovation (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=15>)

Environmental Engineering (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=16>)

Environmental Systems (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=17>)

Family Financial Planning (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=18>)

Family Well-Being in Diverse Society (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=19>)

Finance (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=61>)

Financial and Housing Counseling (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=20>)

Food Safety and Defense (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=21>)

Forensic Sciences (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=22>)

Geographic Information Systems (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=23>)

Gerontology (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=24>)

Graduate Student Teaching (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=25>)

Human Computer Interaction (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=26>)

Infant and Early Childhood Mental Health (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=27>)

Instructional Design (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=29>)

Lifespan Development (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=30>)

Literacy Coaching Certificate (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=31>)

Mathematics (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=60>)

Meat Science (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=59>)

Nondestructive Evaluation (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=55>)

Postsecondary Teaching (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=68>)

Power Systems Engineering (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=34>)

Preservation and Cultural Heritage (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=53>)

Public Management and Policy (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=36>)

Quantitative Psychology (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=37>)

Seed Business Management (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=38>)

Seed Science and Technology (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=39>)

Software Systems (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=41>)

Special Education (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=42>)

Superintendent Licensure (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=44>)

Supply Chain Management (<https://www.grad-college.iastate.edu/academics/programs/acresults.php?id=54>)

Systems Engineering (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=45>)

Teaching English as a Second Language/Teaching English as a Foreign Language (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=46>)

Veterinary Preventive Medicine (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=47>)

Youth Development Specialist (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=48>)

Youth Program Management and Evaluation (<http://www.grad-college.iastate.edu/academics/programs/acresults.php?id=49>)

## Graduate Minors

Minors are available in many disciplinary and interdepartmental graduate programs. Some programs offer only a minor. In other programs, students may declare either a major or a minor. Programs offering a major are not required to offer a minor. A student may not major and minor in the same discipline for a single degree or across multiple degrees. To illustrate, a student earning a Ph.D. in computer science may not minor in statistics for their Ph.D. program if they are also pursuing an MS in statistics.

## Graduate Minor Only Programs

The following programs are available as minor only. These minors do not have an associated graduate major.

Applied Scientific Computing (<http://asc.aere.iastate.edu/>)

Criminal Justice (<https://soc-cj.iastate.edu/>)

Linguistics (<https://apling.engl.iastate.edu/>)

Philosophy

Spanish (<http://catalog.iastate.edu/collegeofliberalartsandsciences/worldlanguagesandcultures/>)

Speech Communication (<http://www.engl.iastate.edu/graduate-students/>)

Women's and Gender Studies (<https://womensstudies.las.iastate.edu/graduate/>)

# COLLEGE OF VETERINARY MEDICINE

Dan Grooms, Dean of Veterinary Medicine

Jared A. Danielson, Senior Associate Dean for Academic and Student Programs Success and Innovation

[vetmed.iastate.edu/](http://vetmed.iastate.edu/) (<http://vetmed.iastate.edu/>)

## Departments of the College

- Biomedical Sciences
- Veterinary Clinical Sciences
- Veterinary Diagnostic and Production Animal Medicine
- Veterinary Microbiology and Preventive Medicine
- Veterinary Pathology

Other units of the college include the Lloyd Veterinary Medical Center, Veterinary Diagnostic Laboratory, Veterinary Medical Research Institute, CVM Information Technology and The Office of Curricular Assessment and Teaching Support. The college participates in interdisciplinary graduate programs in genetics; molecular, cellular and developmental biology; toxicology; immunobiology; and neuroscience.

## Objectives of the Curriculum

The instructional objective of the College of Veterinary Medicine is to enable students to assume vital roles in society as productive health care providers and biomedical scientists. Such an education provides students with general learning, communication, and problem solving abilities; veterinary medical practice and research skills; and professional and ethical values.

The curriculum incorporates basic biomedical and clinical principles, clinical decision making skills, and exceptional clinical experience in small animal medicine and surgery, equine medicine and surgery, food animal medicine and surgery, and production animal medicine. Companion animal medicine and surgery are provided within the regionally recognized referral hospital through the community practice unit and equine field services. The college is located in one of the most intensive livestock producing areas in the United States. Because of this, students have the opportunity to engage in extensive food supply veterinary medicine experiences and to experience numerous diagnostic cases.

The professional curriculum is a four-year course of study leading to the doctor of veterinary medicine degree. Each of the first three years of the curriculum consists of two semesters while the fourth year has three semesters. Students are admitted into the professional curriculum after

completing a minimum of 55 semester credits of required undergraduate coursework.

A strong and reputable basic science education during the first two years of the professional curriculum prepares veterinary students for a wide range of clinical experience during the last two years of the educational program. Fourth year students may choose to enhance their education by earning clinical elective credits at approved government agencies, research laboratories, veterinary practices and other university hospitals. Outstanding research programs in infectious diseases, food safety, neuroscience, immunoparasitology, evidence-based medicine, and many other areas provide opportunities for qualified students to participate in research.

Concurrent DVM/MS, DVM/PhD, DVM/MPH and DVM/MBA programs are available for qualified students who wish to obtain both veterinary and graduate degrees. Students must have a bachelor's degree or a minimum of 128 semester credits in undergraduate and professional curricula in order to participate in the concurrent DVM/graduate degree program. Admission to the concurrent degree program is subject to the approval of the deans of the College of Veterinary Medicine and the Graduate College.

The college is an important recruiting center for employers seeking veterinarians for private practice; industry; educational institutions; international agencies; federal, state and local governments; the armed forces; departments of public health; zoological gardens; and other related fields of professional activity. Graduates are highly sought after and typically have multiple employment offers upon graduation. Career services and an online job board are available for students.

## Pre-veterinary Medicine Preparation Admission Requirements

The College of Veterinary Medicine seeks students with diverse backgrounds and encourages students to enroll in baccalaureate programs in the college of their choice. A Bachelor's degree is not required for admission to the College of Veterinary Medicine. However, students must have a strong science foundation found in the required pre-veterinary coursework (<https://vetmed.iastate.edu/future-dvm-students/apply-to-the-college/pre-veterinary-requirements/course/>).

Veterinarians have varied career options. When deciding on an undergraduate major, the student should consider the area of veterinary medicine which interests them. For example, those who desire a career in clinical practice may wish to pursue a degree in biological science, animal science, agricultural economics, business, social science or humanities. Students with an interest in zoo or wildlife veterinary medicine may want to look at animal ecology, environmental studies or zoology. Future researchers may wish to consider genetics, molecular biology, microbiology, or biochemistry. Students who desire a career in public health (USDA, FDA, etc) or government (legislative/policy) may

find benefit in any of the biological sciences or in political science. A degree in education may be valuable to those who envision themselves as educators in a College of Veterinary Medicine. These examples are only suggestions and are but a few of the many possibilities.

For the most current information regarding application and admission to the College of Veterinary Medicine, please refer to the College web site at [www.vetmed.iastate.edu/](http://www.vetmed.iastate.edu/) (<http://www.vetmed.iastate.edu/>).

Applicants for admission to the College of Veterinary Medicine must have attended an accredited college or university and have completed 55 semester credits prior to the end of the spring term of the year in which they seek to be admitted to the College of Veterinary Medicine.

All science requirements should be fulfilled by the time of application or scheduled for completion by the end of the fall term in which the applicant applies. However, if necessary, the applicant may complete up to two required science courses after the fall term providing a transcript with the courses and grades listed is postmarked by July 1 of the year the applicant would enter. There is no maximum number of non-science required courses that may be completed but the deadline of having a transcript with these course grades posted by July 1 also applies. The July 1 deadline for transcripts and grades is firm.

Required courses must be completed with a grade of C (2.00) or better. A grade of C- (1.67) does not fulfill the requirement.

Credits earned must include the following Iowa State semester course offerings or their equivalents:

### English Composition 6 cr.

One year of composition or writing emphasis courses. May include business or technical writing. Two of the following courses would fulfill the requirement.

ENGL 150	Critical Thinking and Communication	3
ENGL 250	Written, Oral, Visual, and Electronic Composition	3
ENGL 302	Business Communication	3
ENGL 309	Proposal and Report Writing	3
ENGL 314	Technical Communication	3

### Oral Communications 3 cr.

May include public speaking, interpersonal communication, group or organizational communication or speaking emphasis courses. One of the courses below will fulfill the requirement.

SP CM 212	Fundamentals of Public Speaking	3
AGEDS 311	Presentation and Sales Strategies for Agricultural Audiences	3
SP CM 312	Business and Professional Speaking	3
COMST 214	Professional Communication	3

### General Chemistry with Laboratory\* 7 cr.

One year series for science majors with one semester lab.

CHEM 177 & 177L	General Chemistry I and Laboratory in General Chemistry I	5
CHEM 178	General Chemistry II	3
<b>Total Credits</b>		<b>8</b>

### Organic Chemistry with Laboratory\* 4 cr.

The first in a two-semester series of Organic Chemistry with lab. The second semester of organic chemistry will not fulfill this requirement.

CHEM 331	Organic Chemistry I	3
CHEM 331L	Laboratory in Organic Chemistry I	1
<b>Total Credits</b>		<b>4</b>

### Biochemistry\* 3 cr.

One semester (no lab required). One of the courses below will fulfill the requirement. Must be metabolic biochemistry and cannot be biochemistry of proteins and enzymes alone.

BBMB 301	Survey of Biochemistry	3
BBMB 316	Principles of Biochemistry	3
BBMB 404	Biochemistry I	3
BBMB 420	Mammalian Biochemistry	3

### General Physics with Laboratory\* 4 cr.

First semester of a two-semester series with lab. Must include mechanics, fluids, heat and thermodynamics, vibrations, waves and sound. The second semester of Physics will not fulfill this requirement.

PHYS 131	General Physics I	4
PHYS 131L	General Physics I Laboratory	1
PHYS 115	Physics for the Life Sciences	4
PHYS 115L	Laboratory in Physics for the Life Sciences	1
PHYS 231	Introduction to Classical Physics I	4
PHYS 231L	Introduction to Classical Physics I Laboratory	1

### General Biology with Laboratory\* 8 cr.

Two semester series with lab each semester. If a series is not available a course in organismal biology with lab and a course in cellular biology and lab will fulfill this requirement. In addition, a Bachelor's degree in Biology fulfills this requirement.

BIOL 211	Principles of Biology I	3
BIOL 211L	Principles of Biology Laboratory I	1
BIOL 212	Principles of Biology II	3
BIOL 212L	Principles of Biology Laboratory II	1
<b>Total Credits</b>		<b>8</b>

**Genetics \* 3 cr.**

Must include Mendelian and molecular genetics. A general genetics course is preferred, but animal breeding/livestock improvement courses will be accepted. One of the courses below will fulfill the requirement.

BIOL 313	Principles of Genetics	3
GEN 320	Genetics, Agriculture and Biotechnology	3
AN S 352	Genetic Improvement of Domestic Animals	3

**Mammalian Anatomy or Physiology\* 3 cr.**

Human anatomy or physiology will also fulfill this requirement (no lab required). Must be an overview of all organ systems. If you take an Anatomy and/or Physiology I course, you must also take the second course, Anatomy and/or Physiology II, in order to fulfill the requirement. One of the courses below will fulfill the requirement.

B M S 329	Anatomy and Physiology of Domestic Animals	3
B M S 447	Introduction to Human Gross Anatomy	4
B M S 538	Principles of Physiology	4
AN S 214	Domestic Animal Physiology	3
BIOL 155	Human Biology	3
BIOL 255	Fundamentals of Human Anatomy	3
BIOL 335	Principles of Human and Other Animal Physiology	3
BIOL 351	Comparative Chordate Anatomy	5

**Humanities or Social Sciences 6 cr.****Electives 8 cr.****Total Credits Required 60 cr.**

Courses above marked with an asterisk (\*) are the required science courses. The required science course GPA is calculated from these courses.

Credits in the previously specified courses will normally be earned on the traditional four-letter grading system with A as the highest grade and D as the lowest passing grade. All required courses must be completed with a grade of C (2.0) or better. It is generally expected that required courses have been completed within the past eight (8) years. AP or CLEP credits must be documented by original scores submitted to the College of Veterinary Medicine. CLEP credits may be accepted only for arts, humanities and social sciences. Credits in the preceding specified courses will not be accepted if earned under the pass-not pass grading system or similar options. Please see COVID-19 exceptions (<https://vetmed.iastate.edu/sites/default/files/COVID-19-ImpactStatementRevised-10-23-2020.pdf>).

**Application and Admission**

Applicants must apply using the Veterinary Medical College Application Service (VMCAS). The VMCAS application may be found online at the

VMCAS website (<https://www.aavmc.org/becoming-a-veterinarian/how-to-apply/>).

Those applying through VMCAS also need to complete the ISU Supplemental Application (<https://vetmed.iastate.edu/future-dvm-students/apply-to-the-college/application-requirements/supplemental-application/>) found at the College of Veterinary Medicine website. The deadline for filing the VMCAS and Supplemental Application is typically mid-September.

A list of courses in progress at the time of submission and/or scheduled for completion by the end of spring term should be entered in the VMCAS application. Undergraduate college credits must average at least 2.50 on a 4.00 marking system for the application to be eligible for review. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and selective basis. GPA, animal, veterinary, research and other employment experiences, essays, recommendations and personal development (leadership, citizenship, volunteerism, etc.) are given consideration in the selection of candidates.

Positions are available to applicants in several applicant pools, including Iowa residents, participants in the Professional Program in Veterinary Medicine with the University of Nebraska-Lincoln, participants in the contract with the State of North Dakota, participants in other institution-specific contracts, and all other applicants including non-Iowan US citizens and international applicants. Consideration for admission is given equally without regard to race, color, national origin, gender, religion, disability, or age, political beliefs, or marital or familial status.

For further information, please visit the College of Veterinary Medicine at <https://vetmed.iastate.edu/future-dvm-students> (<https://vetmed.iastate.edu/future-dvm-students/>).

**Curriculum in Veterinary Medicine  
Graduation Requirements**

To be awarded the degree doctor of veterinary medicine, candidates must have passed all required courses in the curriculum in veterinary medicine, earned a minimum 2.0 grade-point average in the veterinary medicine curriculum, and earned at least 4 elective credits during the VM1-3 years. Candidates must also have given a grand rounds presentation (V C S 495 Grand Rounds Presentations).

**Required Courses in the Professional Program**

B M S 330	Principles of Morphology I	6
B M S 331	Principles of Morphology II	4
B M S 333	Biomedical Sciences I	6
B M S 334	Biomedical Sciences II	6

B M S 335	Molecular and Cellular Basis of Disease	1
B M S 336	Veterinary Nutrition	2
B M S 337	Neuroanatomy	3
B M S 339	Clinical Foundations I	1
B M S 345	Case Study I	1
B M S 346	Case Study II	1
B M S 354	General Pharmacology	3
B M S 443	Pharmacology and Therapeutics	3
V C S 311	Veterinarian in Society I	R
V C S 313	Veterinarian in Society III	1
V C S 314	Veterinarian in Society IV	1
V C S 315	Veterinarian in Society V	1
V C S 339	Clinical Foundations I	1
V C S 385	Grand Rounds	R
V C S 391	Clinical Imaging	1
V C S 393	Principles of Surgery	3
V C S 394	Principles of Surgery Laboratory	1
V C S 395	Small Animal Surgery	2
V C S 398	Anesthesiology	2
V C S 399	Ophthalmology	1
V C S 436	Small Animal Internal Medicine	3
V C S 440	Introduction to Clinics	R
V C S 444	Small Animal Medicine	4
V C S 445	Equine Medicine	2
V C S 448	Diagnostic Imaging and Radiobiology	3
V C S 449	Junior Surgery Laboratory	3
VDPAM 312	Introduction to Animal Welfare	1
VDPAM 426	Veterinary Toxicology	3
VDPAM 445	Production Animal Clinical Medicine	3
VDPAM 450	Disturbances of Reproduction	4
V MPM 378	Case Study IV	2
V MPM 380	Veterinary Immunology	2
V MPM 386	Veterinary Microbiology	5
V MPM 387	Veterinary Virology	3
V MPM 388	Public Health and the Role of the Veterinary Profession	3
V MPM 437	Infectious Diseases and Preventive Medicine	3
V PTH 342	Anatomic Pathology I	3
V PTH 372	Anatomic Pathology II	4
V PTH 376	Veterinary Parasitology	4
V PTH 377	Case Study III	2

V PTH 409	Introduction to Veterinary Cytology and Laboratory Techniques	1
V PTH 425	Clinical Pathology	4

## Fourth Year

The fourth year of the veterinary medical curriculum is designed to be flexible yet provide a broad based clinical education involving all domestic species of animals. All students participate in rotations that are considered fundamental to any species orientation that the student might choose. In addition, students choose one of four options for additional study, including the Small Animal, Equine, Mixed Animal, or Food Animal Options. Students may obtain clinical elective credits by repeating on-campus rotations or participating in approved off-campus preceptorships at government, private or public agencies; other universities; or private veterinary practices.

The following rotations are required of all fourth year students in addition to the requirements of the track they choose. A complete listing of track-specific requirements can be found at: <http://vetmed.iastate.edu/>:

V C S 453	Small Animal Medicine I	2
V C S 455	Small Animal Soft Tissue Surgery	2
or V C S 456	Small Animal Orthopedic Surgery	
Must have one equine course as assigned by the schedule optimizer.		2
V C S 457	Equine Medicine	
or V C S 464	Equine Field Services	
or V C S 458	Equine Surgery	
V C S 460	Radiology	2
V C S 463	Primary Care	2
V C S 466	Anesthesiology	2
V C S 468	Intensive Care	4
V C S 495	Grand Rounds Presentations	R
VDPAM 477	Food Animal and Camelid Medicine and Surgery	2
V PTH 456	Necropsy Laboratory Practicum	2
& V PTH 457	and Clinical Pathology Laboratory Practicum (Taken together as one 2-week block)	

## Reinstatement

Any student who voluntarily withdraws from the College of Veterinary Medicine or who is dismissed from the College of Veterinary Medicine, after having successfully completed one or more semesters forfeits his/her standing and must make written application for reinstatement to this college a minimum of 60 days prior to the opening of the semester for which they seek to re-enter. Any student who voluntarily withdraws from the College of Veterinary Medicine prior to completion of one semester must re-apply for admission to the college in the general applicant pool.

# Biomedical Sciences

## Professional Program of Study

For professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine

## Biomedical Sciences

The Department of Biomedical Sciences provides a hands on educational experience in human and animal health sciences. Our courses include cadaver-based human and veterinary anatomy, histology, physiology, pharmacology and cell biology, emphasizing a One Health approach that recognizes the interconnection between human and animal health.

A solid foundation in anatomy, physiology, and pharmacology is necessary to understand both the mechanisms of disease processes in humans and animals as well as their treatment. Specimen-based study of anatomy and physiology prepares students with a background in the structural and functional activities of cells, tissues, organs, and body systems relevant to human and veterinary medicine.

An understanding of drug action is essential for rational drug therapy. Our general pharmacology courses provide students with a background in basic pharmacology to include pharmacodynamics, toxicology, and the clinical application of drugs. Special emphasis is placed on chemical agents and therapeutic practices specific to both human and veterinary medicine.

## Graduate Programs

The department offers Master of Science and Doctor of Philosophy degrees with a major in Biomedical Sciences and specializations in Anatomy, Physiology, Pharmacology, and Cell Biology. Up to 10 credits of dual-listed veterinary courses may be applied for major graduate credit.

The objective of the department is to prepare graduate students for successful careers in biomedical research and professional service. The department is part of interdepartmental programs in neuroscience, toxicology, and molecular, cellular, and developmental biology. The combined Ph.D./DVM program is an option offered by the department.

Departmental research facilities allow for training in experimental anatomy, pharmacology, and physiology. Graduate studies are supervised by faculty members recognized in their areas of expertise. Current areas of research include: Alzheimer’s disease, aquatic animal health, calcium and mineral homeostasis, diabetes mellitus, glia-neuron signaling, neurophysiology of pain, neurotoxicology, physiology and pharmacology of nematode ion-channels, Parkinson’s disease, pharmacology of schistosomiasis, pharmacology of salmonellosis, physiology and pharmacology of thalamic neurons, physiology of the retina, Spinal Muscular Atrophy, and study of neural stem cells.

# Pharmacology and Toxicology Minor

## Pharmacology and Toxicology - Undergraduate Minor

The interdisciplinary pharmacology and toxicology minor is intended to significantly increase the number of ISU graduates who can:

- Understand, use and define key terms and concepts related to pharmacology and toxicology;
- Apply concepts and standard practices in pharmacology and toxicology to solving practical problems relevant to these fields;
- Analyze scientific data in pharmacology and toxicology;
- Synthesize detailed and accurate descriptions of current knowledge on key topics in pharmacology and toxicology;
- Make informed decisions about current controversies in pharmacology and toxicology, using appropriate scientific methods and ethical reasoning.

The minor in Pharmacology and Toxicology may be earned by completing the following courses. All minors require at least 15 credits; 9 credits of the courses listed in the minor must not be used to meet any other department, college, or university requirement except the credit requirement for graduation. There are three required courses for all Pharmacology and Toxicology undergraduate minors: TOX 401, B M S 439, and one physiology course selected from B M S 329, B M S 438 or BIOL 335. The remaining credits are fulfilled by any of the electives listed below.

### Required Core Courses:

TOX 401	Principles of Toxicology	3
B M S 439	Principles of Pharmacology	4
Select one of the following:		3-4
B M S 329	Anatomy and Physiology of Domestic Animals	
B M S 438	Principles of Physiology	
BIOL 335	Principles of Human and Other Animal Physiology	
Total Credits		10-11

### Electives:

A B E 424A	Air Pollution: Air quality and effects of pollutants	1
A B E 451	Food and Bioprocess Engineering	3
BBMB 316	Principles of Biochemistry	3
BBMB 404	Biochemistry I	3
BBMB 405	Biochemistry II	3
BIOL 319	Analysis of Environmental Systems	3
BIOL 423	Developmental Biology	3
BIOL 434	Endocrinology	3
BIOL 436	Neurobiology	3

B M E 440	Biomedical Applications of Chemical Engineering	3
B M S 443	Pharmacology and Therapeutics	3
B M S 448	Principles of Human Gross Anatomy	4
CHEM 211 & 211L	Quantitative and Environmental Analysis and Quantitative and Environmental Analysis Laboratory	4
CHEM 231	Elementary Organic Chemistry	3
CHEM 331	Organic Chemistry I	3
ENSCI 486	Aquatic Ecology	3
ENT 450	Pesticides in the Environment	3
FS HN 264	Fundamentals of Nutritional Biochemistry	3
FS HN 442	Issues in Food and Society	2
FS HN 461	Medical Nutrition and Disease I	4
FS HN 464	Medical Nutrition and Disease II	4
FS HN 467	Molecular Basis of Nutrition in Disease Etiology and Health Promotion	3
FS HN 489	Issues in Food Safety	1
TOX 354	General Pharmacology	3
TOX 419	Foodborne Hazards	3
TOX 420	Food Microbiology	3
TOX 426	Veterinary Toxicology	3
TOX 490	Independent Study	1-2
TOX 499	Undergraduate Research	1-3

## Veterinary Clinical Sciences Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

## Graduate Study

The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination.

World languages and cultures requirements may be established by the student's program of study committee.

### Courses primarily for professional curriculum students:

#### V C S 305: Shelter Medicine

Cr. 1. S.

*Prereq: Vet Med Classification*

An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare.

#### V C S 311: Veterinarian in Society I

Cr. R. F.

*Prereq: Vet Med Classification*

Introduction to the veterinary profession and the various career opportunities available.

#### V C S 313: Veterinarian in Society III

(1-1) Cr. 1. F.

*Prereq: Vet Med Classification*

A continuation of the Veterinarian in Society series. The course covers selected topics on moral and ethical issues affecting the practice of veterinary medicine. Offered on a satisfactory-fail basis only.

#### V C S 314: Veterinarian in Society IV

(1-0) Cr. 1. F.

*Prereq: Vet Med Classification*

A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills.

#### V C S 315: Veterinarian in Society V

(1-0) Cr. 1. S.

*Prereq: Vet Med Classification*

A continuation of the Veterinarian in Society series. This course will emphasize veterinary law. Offered on a satisfactory-fail basis only.

#### V C S 318: Advanced Small Animal Oncology

Cr. 1. S.

*Prereq: Vet Med 3 Classification; V C S 444*

Provide advanced instruction in medical oncology, radiation oncology, and surgical oncology. General learning objectives include demonstrating the ability to utilize information from the physical exam and historical findings to direct appropriate diagnostics and staging based on a specific cancer diagnosis. Offered on a satisfactory-fail basis only.

**V C S 339: Clinical Foundations I**

(Cross-listed with B M S). (0-2) Cr. 1. F.

*Prereq: First-year classification in veterinary medicine*

Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

**V C S 385: Grand Rounds**

Cr. R. Repeatable. F.S.

*Prereq: Vet Med Classification*

Seminars and case presentations on selected clinical subjects by fourth-year students of the College of Veterinary Medicine. Attendance is required for a passing grade. Offered on a satisfactory-fail basis only.

**V C S 391: Clinical Imaging**

(1-0) Cr. 1. F.

*Prereq: Vet Med Classification*

Evaluation of morphologic anatomy of the dog and cat utilizing clinical imaging methods - radiography, ultrasonography, computed tomography, magnetic resonance imaging and nuclear imaging. Emphasis will be placed on normal radiographic anatomy.

**V C S 393: Principles of Surgery**

(2-2) Cr. 3. F.

*Prereq: Vet Med Classification*

General principles of surgery of companion animals.

**V C S 394: Principles of Surgery Laboratory**

(0-3) Cr. 1. S.

*Prereq: Vet Med Classification*

General principles of surgery of companion animals.

**V C S 395: Small Animal Surgery**

(2-0) Cr. 2. S.

*Prereq: Vet Med Classification*

Small animal surgery.

**V C S 396: Fundamentals in Equine Practice**

(2-0) Cr. 2. S.

*Prereq: Vet Med Classification*

This elective course is an introduction and overview of the clinical aspects of common conditions in horses and related conditions, including pathogenesis, clinical manifestations, diagnosis, treatment and prognosis. It is not designed to teach the student how to perform specific procedures, but rather to improve knowledge base of students interested in equine or mixed animal practice. Class will include lecture, photos, video presentations, and other formats.

**V C S 398: Anesthesiology**

(2-0) Cr. 2. S.

*Prereq: Vet Med Classification*

Anesthetic equipment, agents and procedures, including pain management for core species.

**V C S 399: Ophthalmology**

(1-0) Cr. 1. S.

*Prereq: Vet Med Classification*

Principles and techniques of medical and surgical ophthalmology.

**V C S 402: Clinical Cardiology I**

(1-0) Cr. 1. F.

*Prereq: Vet Med 3 or 4 Classification*

Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography.

**V C S 403: Clinical Cardiology II**

Cr. 1. S.

*Prereq: Vet Med 3 Classification*

Elective course in clinical cardiology. Emphasis on common congenital and acquired cardiac diseases of companion animals. Builds on foundation of basic clinical cardiac knowledge obtained in V C S 444; expands to cover additional diseases in greater depth (e.g. infective endocarditis, systemic and pulmonary hypertension, heartworm disease, feline arterial thromboembolism, bradyarrhythmias and cardiac pacing, congenital heart diseases and interventional correction). Offered on a satisfactory-fail basis only.

**V C S 404: Topics in Emergency and Critical Care**

Cr. 2. S.

*Prereq: Vet Med 3 Classification*

Introduction of common topics in emergency and critical care in companion animals. General learning goals for students in this course include developing the ability to utilize physical exam skills and historical findings to triage patients and assess stability.

**V C S 405: Pet Bird and Exotic Species Medicine**

(1-3) Cr. 2. S.

*Prereq: Vet Med 3 Classification*

Elective course in management and diseases of pet birds and exotic species.

**V C S 406: Introduction to Captive Wild Animal Medicine**

Cr. 1. S.

*Prereq: Vet Med 3 Classification*

Topics covering the health and welfare of non-domestic animals in captivity. Regulations specific to exotic animal ownership and exhibition will be covered. Students will discuss diseases which affect multiple taxon groups, and learn about interface diseases. Specific topics regarding the veterinary care of exotic canids, felids, ungulates, primates, Old-World Camelids, exotic equids and avian species will be discussed. Laboratories will introduce remote-delivery and restraint devices, dangerous animal handling techniques (including venomous snake handling techniques), contraception for non-domestic animals, and extra-label use of medications and vaccines in non-domestic species.

**V C S 407: Feline Internal Medicine**

(1-0) Cr. 1. F.

*Prereq: Vet Med 3 Classification*

Elective course in feline internal medicine.

**V C S 409: Oncology**

Cr. 2. Repeatable, maximum of 4 credits.

*Prereq: Vet Med 4 Classification*

Elective clinical assignment in oncology.

**V C S 414: Companion Animal Nutrition**

(1-0) Cr. 1. S.

*Prereq: Vet Med 3 or 4 Classification*

Elective course in small animal and equine nutrition.

**V C S 415: Advanced Small Animal Dermatology**

(1-2) Cr. 2. F.S.

*Prereq: Vet Med 4 Classification*

Elective course in dermatology. Offered on a satisfactory-fail basis only.

**V C S 419: Preceptorship in Companion Animal/Equine Veterinary Medical Practice**

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Vet Med 4 Classification*

Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments. Instructor Permission needed if not a VM4 classification.

**V C S 420: Practicum**

Cr. R. Repeatable.

*Prereq: Vet Med 4 Classification*

External practical experiences in the fourth year curriculum for additional professional development of the veterinary student. Instructor Permission needed if not a WM4 classification. Offered on a satisfactory-fail basis only.

**V C S 423: Zoo Preceptorship**

Cr. 2-12. Repeatable, maximum of 12 credits. F.S.SS.

*Prereq: (V C S 405 or V C S 406); Permission of Instructor*

Elective course in veterinary practice under the guidance of trained zoo veterinarians in approved practice settings. Maximum of 12 credits.

**V C S 436: Small Animal Internal Medicine**

(3-0) Cr. 3. F.

*Prereq: Vet Med 3 Classification*

Clinical diagnosis and treatment of diseases of small animals.

**V C S 437: Small Animal Shelter Medicine**

(2-0) Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

A 2-week elective rotation at an animal shelter/humane society that works with the public to place pets in homes. This rotation will encompass population medicine (medicine, surgery, intake, adoption, behavior and temperament, neglect and cruelty) that animal shelters deal with on a daily basis. The selected animal shelter/humane society must have a veterinarian(s) on staff and be approved by the course coordinator. More than one VCS 437 may be taken upon approval of the course coordinator.

**V C S 440: Introduction to Clinics**

Cr. R. S.

*Prereq: Vet Med Classification*

Rotating assignments through multiple sections within the Veterinary Medical Center.

**V C S 441: Canine Rehabilitation**

Cr. 2.

*Prereq: Vet Med 4 Classification*

Elective clinical assignment in rehabilitation.

**V C S 443: Equine Lameness**

(1-2) Cr. 2. S.

*Prereq: Vet Med 2 or 3 Classification*

Orthopedic diseases of the equine.

**V C S 444: Small Animal Medicine**

(4-0) Cr. 4. F.S.

*Prereq: Vet Med Classification*

Clinical diagnosis and treatment of diseases of small animals.

**V C S 445: Equine Medicine**

(2-0) Cr. 2. F.

*Prereq: Vet Med Classification*

Clinical diagnosis and treatment of diseases of equine.

**V C S 446: Clinical Neurology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

**V C S 447: Equine Veterinary Diagnostic Skills**

(3-0) Cr. 2. S.

*Prereq: Vet Med 4 Classification*

Hands on experience with equine veterinary diagnostic skills related to theriogenology, medicine, surgery, radiology, and ophthalmology. Preference to equine track student.

**V C S 448: Diagnostic Imaging and Radiobiology**

(2-2) Cr. 3. F.S.

*Prereq: Vet Med Classification*

Essentials of diagnostic image interpretation. Essentials of radiobiology, radiation therapy and protection from radiation.

**V C S 449: Junior Surgery Laboratory**

(1-6) Cr. 3. F.

Pre-laboratory presentations and laboratories introduce the student to anesthetic and surgical principles and techniques that can be applied to all animal species.

**V C S 449B: Junior Surgery Laboratory: Traditional Curriculum**

(1-6) Cr. 3. F.

*Prereq: Vet Med Classification*

This laboratory introduces the student to anesthetic and surgical principles and techniques that can be applied to all animal species. Provides a broader range of surgical experiences throughout the laboratory.

**V C S 451: Advanced Junior Surgery Laboratory**

(1-6) Cr. 2. S.

*Prereq: Vet Med 3 Classification*

8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.

**V C S 451B: Advanced Junior Surgery Laboratory: Traditional Curriculum**

(1-6) Cr. 2. Repeatable. S.

*Prereq: Vet Med 3 Classification*

8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. Exposure to more advanced surgical techniques with most surgical principles.

**V C S 451C: Advanced Junior Surgery Laboratory: Traditional Curriculum**

(1-6) Cr. 2. S.

*Prereq: Vet Med 3 Classification*

8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. A second repeat for students with a special interest in small animal surgery.

**V C S 452: Clinical Dermatology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Medical Center. Instructor Permission needed if not a VM4 classification.

**V C S 453: Small Animal Medicine I**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in small animal medicine.

**V C S 455: Small Animal Soft Tissue Surgery**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in soft tissue surgery.

**V C S 456: Small Animal Orthopedic Surgery**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in orthopedic surgery.

**V C S 457: Equine Medicine**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in equine medicine.

**V C S 458: Equine Surgery**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in equine surgery.

**V C S 459: Small Animal Overpopulation Medicine and Surgery**

Cr. 2.

*Prereq: Vet Med 4 Classification*

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

**V C S 459A: Small Animal Overpopulation Medicine and Surgery :Nebraska Humane Society, Omaha NE**

Cr. 2.

*Prereq: Vet Med 4 Classification*

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

**V C S 459C: Small Animal Overpopulation Medicine and Surgery: WaySide Waifs, Kansas City MO**

Cr. 2.

*Prereq: Vet Med 4 Classification*

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

**V C S 459D: Small Animal Overpopulation Medicine and Surgery: Boulder Humane Society, Boulder, CO**

Cr. 2.

*Prereq: Vet Med 4 Classification*

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

**V C S 459E: Small Animal Overpopulation Medicine and Surgery: ASPCA Spay/Neuter Alliance, Ashville, NC**

Cr. 2.

*Prereq: Vet Med 4 Classification*

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

**V C S 460: Radiology**

Cr. 2.

*Prereq: Vet Med 4 Classification*

Clinical assignment in veterinary radiology.

**V C S 463: Primary Care**

Cr. 2. Repeatable, maximum of 4 credits.

*Prereq: Vet Med 4 Classification*

Clinical experience in hospital based general practice.

**V C S 464: Equine Field Services**

Cr. 2.

*Prereq: Vet Med 4 Classification*

Clinical assignment in equine ambulatory practice.

**V C S 465: Farrier**

Cr. 2.

*Prereq: Vet Med 4 Classification*

Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

**V C S 466: Anesthesiology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in small animal and large animal anesthesiology.

**V C S 468: Intensive Care**

Cr. 4. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

**V C S 469: Ophthalmology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Clinical assignment in ophthalmology.

**V C S 475: Cardiology Rotation**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Elective clinical assignment in cardiology.

**V C S 476: Veterinary Anesthesiology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

**V C S 476E: Equine Anesthesiology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

**V C S 476S: Small Animal Anesthesiology**

Cr. 2. Repeatable.

*Prereq: Vet Med 4 Classification*

Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

**V C S 478: Intensive and Critical Care**

(2-0) Cr. 2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Vet Med 4 Classification*

Elective clinical assignment in intensive care.

**V C S 480: Veterinary Dentistry**

Cr. 1. F.

*Prereq: Vet Med 3 or 4 Classification*

All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics. This course is an on-line course. Offered on a satisfactory-fail basis only.

**V C S 481: Advanced Equine Dentistry**

Cr. 2. S.

*Prereq: Vet Med 4 Classification*

Clinical rotation in equine dentistry with an emphasis on routine equine dental examinations, specialized equipment, and corrective procedures. Offered only offered for one 2-week rotation. Enrollment is limited.

**V C S 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Independent Study in veterinary medicine focusing on basic / translational research or learning issues. Enrollment in this course is not appropriate for clinical experiences in the Veterinary Medical Center or extramural experiences in clinical veterinary practice (i.e., preceptorships).

**V C S 492: Orientation for International Experience**

(2-0) Cr. 1. Repeatable. S.

*Prereq: Vet Med Classification*

8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work may be assigned.

**V C S 495: Grand Rounds Presentations**

Cr. R. S.

*Prereq: Vet Med 4 Classification*

Seminars and case presentations on selected subjects by fourth year students of the College of Veterinary Medicine. Completion of a seminar presentation is required for graduation. Offered on a satisfactory-fail basis only.

**V C S 496: International Experience**

Cr. 1-12. Repeatable.

*Prereq: Vet Med Classification*

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

**V C S 590: Special Topics**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590A: Special Topics: Medicine**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590B: Special Topics: Surgery**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590C: Special Topics: Theriogenology**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590D: Special Topics: Radiology**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590E: Special Topics: Anesthesiology**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor***V C S 590F: Special Topics - Ophthalmology**

Cr. 1-3. Repeatable, maximum of 3 credits. F.S.

*Prereq: Permission of Instructor*

Special topics in Ophthalmology.

**V C S 596: International Preceptorship**

Cr. 1-12. Repeatable. F.S.SS.

*Prereq: Admission to Graduate college*

International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**V C S 599: Creative Component**

Cr. arr.

*Prereq: Permission of Instructor*

**Courses for graduate students:****V C S 604: Seminar**

Cr. 1. Repeatable. F.S.

**V C S 640: Advanced Radiology**

(2-0) Cr. 2.

*Prereq: V C S 448*

Detailed principles of clinical radiology with particular reference to radiographic interpretation.

**V C S 676: Advanced Medicine**

(2-0) Cr. 2.

*Prereq: V C S 445*

Principles of general medicine. A study in depth of factors that contribute to the development of clinical signs as related to the pathogenesis of disease.

**V C S 677: Advanced Medicine**

(2-0) Cr. 2.

*Prereq: V C S 445*

An advanced study of metabolic diseases.

**V C S 699: Research**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**V C S 699A: Research: Medicine**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**V C S 699B: Research: Surgery**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**V C S 699C: Research: Theriogenology**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**V C S 699E: Research: Anesthesiology**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

**V C S 699F: Research: Ophthalmology**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Graduate Level Research.

**V C S 699G: Research: Cardiology**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Graduate Level Research.

## Veterinary Diagnostic and Production Animal Medicine

### Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

Courses in veterinary diagnostic and production animal medicine provide students with basic and advanced skills in diagnostics, reproduction, medicine, surgery, production, welfare, and health management of the major livestock species. Students in the fourth year of the curriculum in veterinary medicine may elect to take advanced courses in beef, dairy, swine, poultry or small ruminant production medicine. Elective courses may include preceptorships in private practices, at other veterinary schools, in research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with nutrition, genetics, economics, food safety, and other disciplines, enabling graduates to acquire and use a broad knowledge base to support the health and improve the production and efficiency of the food supply chain.

## Graduate Study in Veterinary Preventive Medicine

Veterinary Preventive Medicine is a multidisciplinary program focused on the study of health and disease in populations. The various disciplines represented in the program are unified by a common approach based on the application of epidemiological methods to problem solving in populations. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and experience to persons interested in public health, food safety, emerging infectious diseases, zoo or wildlife health, and livestock health. A degree in Veterinary Preventive Medicine may be valuable for individuals considering a future in the biological or pharmaceutical industries, government regulatory agencies, public veterinary practice, international service agencies responsible for population health or progressive private practice.

Veterinary Preventive Medicine is an interdepartmental major administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM) with participating faculty from colleges and departments across the University and collaborators from the National Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and non-thesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for non-thesis and a final examination.

**Program of Study: Master of Science in Veterinary Preventive Medicine (Thesis Option) 30 credits**

STAT 587	Statistical Methods for Research Workers	4
VDPAM 527	Applied Statistical Methods in Population Studies	3
VDPAM 528	Principles of Epidemiology and Population Health	3
VDPAM 529	Epidemiological Methods in Population Research	3
VDPAM 699	Research	arr†

Research or Electives to total at least 17 additional credits

† Arranged with instructor.

**Program of Study: Master of Science in Veterinary Preventive Medicine (Non-Thesis Option) 36 Credits**

STAT 587	Statistical Methods for Research Workers	4
VDPAM 527	Applied Statistical Methods in Population Studies	3
VDPAM 528	Principles of Epidemiology and Population Health	3
VDPAM 529	Epidemiological Methods in Population Research	3
VDPAM 590	Special Topics	3
One Additional STAT course from the following		3
STAT 571	Introduction to Experimental Design	
STAT 573	Introduction to Survey Sampling	
STAT 575	Introduction to Multivariate Data Analysis	
VDPAM 599	Creative Component	arr†

Creative Component and Electives to total 18 additional credits

† Arranged with instructor.

**Graduate Certificate in Veterinary Preventive Medicine**

Veterinary Diagnostic and Production Animal Medicine offers a graduate certificate for DVMs, concurrent DVM students and non-DVMs in allied animal industries in Veterinary Preventive Medicine.

Students in this program are able to select courses that focus in areas of animal welfare, diagnostics, food safety, evidence-based medicine, surgery, pathology, microbiology, epidemiology, public health, statistics and production medicine.

The purpose of the graduate certificate in Veterinary Preventive Medicine for industry professionals is to address the continued and advanced needs of animal health professionals. The certificate enables professionals to gain recognition for a skill set that includes epidemiology, risk assessment, production medicine and animal welfare. A graduate certificate may be used to increase knowledge in a new or emerging area of interest to the candidate. As such, it may be used to formally gain recognition for retraining to meet the needs of today's food production systems.

The graduate certificate for concurrent DVM students is designed to give additional skills to students planning on working with populations of animals. Using a combination of on-line and dual listed graduate level courses, the program is designed to enable DVM students to complete the certificate while studying for their DVM degree. Students enrolled in any US-based DVM program are able to complete a graduate certificate at ISU using a combination of on-line and transfer graduate level courses.

The graduate certificate is an additional qualification awarded by Iowa State University after successful completion of 15 graduate level credits. A graduate certificate is different from continuing education as the certificate includes an academic transcript from Iowa State University. Students complete the same courses graduate students do with the the same expectations for all assignments and exams.

The program is available as a strictly on-line (off campus) delivery method or as a combination of classroom-based and on-line course offerings providing maximum flexibility in scheduling.

**Program of Study: Graduate Certificate in Veterinary Preventive Medicine (15 credits)**

Certificate required core courses		7
STAT 587	Statistical Methods for Research Workers	
VDPAM 528	Principles of Epidemiology and Population Health	
Remaining 3 core credits can be selected from		3
VDPAM 527	Applied Statistical Methods in Population Studies	
VDPAM 529	Epidemiological Methods in Population Research	

VDPAM 570	Risk Assessment for Food, Agriculture and Veterinary Medicine	
5 elective credits from any approved ISU graduate course		5
<b>Total Credits</b>		<b>15</b>

**Courses primarily for professional curriculum students:**

**VDPAM 308: Spanish for Veterinarians**

(2-0) Cr. 2. S.

*Prereq: Classification in veterinary medicine and basic knowledge of Spanish*

This course is designed to meet the needs of veterinary students who will practice in an environment in which the use of Spanish for accurate client communication is essential which includes much of our food animal industry in the state of Iowa. This is not a traditional Spanish language course. To be successful, students taking the course should have a basic knowledge of Spanish pronunciation, grammar and syntax.

**VDPAM 309: Introduction to Production Animal Informatics**

(1-0) Cr. 1. S.

The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations will be presented. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with record keeping programs used by food animal operations.

**VDPAM 310: Introduction to Production Medicine**

Cr. 2. S.

*Prereq: Second or third year classification in veterinary medicine or permission of instructor*

The role of the veterinarian in the management of animal health and production in populations including evaluation tools in dairy and beef cattle herds, beef feedlots and swine herds will be described. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal population health diagnosis management programs. Course available on-line, attendance is not required.

**VDPAM 312: Introduction to Animal Welfare**

(1-0) Cr. 1. S.

*Prereq: First-year classification in veterinary medicine*

A continuation of the Veterinarian in Society series. The objective of this course is to develop knowledge of the fundamental principles of animal welfare, in terms of science, ethics and cultural components.

**VDPAM 340: Clinical Foundations**

(0-30) Cr. 1. S.

*Prereq: Vet Med classification*

One week, hands-on course at Iowa State University; introduction to food supply veterinary medicine covering overviews of major animal agriculture species (beef, dairy, swine, small ruminants, and camelid), production systems, behavior, welfare, handling and restraint, examination techniques, biosecurity, epidemiology and food safety. Students will visit farms owned by Iowa State University and private clients of Food Animal and Camelid Field Services to perform hands-on clinical skills. Attendance is mandatory. Biosecurity: All students must follow current college policies regarding animal contact following foreign travel. Additionally, no swine contact is allowed within 48 hours of the swine farm visit. Required equipment includes coveralls, rubber boots, thermometer and stethoscope.

**VDPAM 351: Bovine Embryo Transfer and Related Technology**

(2-0) Cr. 2. S.

*Prereq: Vet Med 2 or 3 classification*

This course will meet for two hours once each week of the Spring Semester. The first hour will be traditional lecture and the second hour will be a combination of student projects, labs and demonstrations of applied clinical procedures. Bovine embryo transfer and closely related topics such as: female reproductive physiology, estrus synchronization, semen sexing and reproductive disease will be emphasized. In addition, several class periods will be devoted to the use of ultrasound for diagnosis of reproductive and non-reproductive conditions.

**VDPAM 365: Animal Welfare Judging and Assessment**

Cr. 1. Repeatable. F.

Preparation for competition in the Intercollegiate Animal Welfare Judging Contest. Development of critical appraisal and oral communication skills in regard to animal welfare. Animal behavior, physiology, health and performance parameters, basic husbandry, housing and preventive care will be explored for select farmed, companion and exotic species. Optional field trips. Course is open to Vet Med, Undergraduate and Graduate students.

**VDPAM 402: Advanced Dairy Production Informatics**

(1-1) Cr. 2. Repeatable. F.S.

*Prereq: VDPAM 309 or Permission of Instructor*

Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCData as well as other dairy management and information software.

**VDPAM 402A: Advanced Dairy Production Informatics: Lecture Series**  
(1-1) Cr. 2. S.

*Prereq: Vet Med classification*

Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart as well as other dairy management and information software.

**VDPAM 402B: Advanced Dairy Production Informatics: Experience I**  
(1-1) Cr. 2. F.S.

*Prereq: VDPAM 402A*

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

**VDPAM 402C: Advanced Dairy Production Informatics: Experience II**  
(1-1) Cr. 2. F.S.

*Prereq: VDPAM 402A; VDPAM 402B*

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

**VDPAM 402D: Advanced Dairy Production Informatics: Experience III**  
(1-1) Cr. 2. F.S.

*Prereq: VDPAM 402A; VDPAM 402B; VDPAM 402C*

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart.

**VDPAM 407: Evidence Based Clinical Decision Making**

(Dual-listed with VDPAM 507). (1-0) Cr. 1. S.

*Prereq: Permission of instructor*

Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

**VDPAM 408: Poultry Diseases**

(Dual-listed with VDPAM 508). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Second or third year classification in veterinary medicine or permission of instructor*

Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases. This course includes wet labs. Additional assignments required for graduate level credit.

**VDPAM 409: Veterinary Practice Management and Organization**  
(2-0) Cr. 2. F.

*Prereq: Vet Med classification*

An A to Z introduction to proven veterinary practice management methods and strategies. The student will follow a detailed hands-on workbook describing most of the processes and procedures of day to day veterinary practice. Class content will be delivered via online modules.

**VDPAM 414: Veterinary Practice Entrepreneurship**  
(Dual-listed with VDPAM 514). Cr. 2-3. S.

*Prereq: Vet Med classification or Graduate student*

Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity. Personal finance, marketing, human resource management, general accounting, site assessment, location demographics, practice valuation, and a host of other issues which must be considered when purchasing or starting a new business are covered. Class instruction will be delivered by successful practice and business owners with examples from real world experience.

**VDPAM 416: Bovine Reproduction Evaluation Laboratory**

(0-4) Cr. 1. F.S.

*Prereq: Vet Med 3 classification*

Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, pregnancy staging and ultrasonic imaging. University-owned cattle will be used. Spring semester only offered one section. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 419: Advanced Swine Production Informatics**

(1-0) Cr. 1. F.

*Prereq: VDPAM 309 or permission of instructor*

Advanced coverage of concepts related to the collection, manipulation, analysis, and reporting of information used by swine production companies. A quick review of modern swine production and measures of productivity ensures students have a firm base for applying the informatics. This course introduces students to one of the most commonly used swine record-keeping systems in the industry and gives them access to actual production data with which to work. Students then learn how to generate and interpret regularly used reports and will use pivot tables and budgeting models in Excel®. The importance of data entry and validation and how to transform data into useful knowledge are then addressed. Fundamentals of financial information, cost-benefit analysis and using budgeting models to assess the economics of animal health interventions are then applied.

**VDPAM 420: Applied Production Animal Medicine Preceptorship**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Advanced course in production animal medicine with emphasis on government, industry or veterinary practice settings. Requires 40 hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 420A: Applied Production Animal Medicine Preceptorship: Food Animal Emphasis**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Advanced course in mixed animal production medicine with a food animal emphasis in veterinary practice settings. Requires 40 hours of clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 420B: Applied Production Animal Medicine Preceptorship: General Mixed Animal Practice**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Advanced course in production animal medicine in general mixed animal veterinary practice settings. Requires forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 420C: Applied Production Animal Medicine Preceptorship: Government Agency or Food Processing Company**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Advanced course in production animal medicine with emphasis on government agency or food processing company in veterinary practice settings. Forty hours clinical experience per week. Assignments will be preceptorships with a governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 420P: Applied Poultry Production Medicine Preceptorship**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Fourth year classification in veterinary medicine required. VDPAM 408 and/or VDPAM 498 strongly recommended.*

Unique, highly relevant, hands-on veterinary experience for participating students Development of poultry-specific practice skill sets Documented experience that is highly valued by future poultry employers Enhanced cultural and professional awareness for participating students through interaction with active poultry practitioners Exposure to diverse poultry practice and production environments. Up to 6 credits to count for graduation.

**VDPAM 421: Great Plains Veterinary Educational Center**

Cr. 1. F.S.SS.

*Prereq: Vet Med 4 classification*

The Great Plains Veterinary Educational Center (GPVEC), located on the US Meat Animal Research Center (USMARC) near Clay Center, Nebraska offers one week clinical training in production animal medicine species. All sections will be held at GPVEC. Student must be able to provide own transportation to each site.

**VDPAM 421A: Great Plains Veterinary Educational Center: Calving**

Cr. 1. S.

*Prereq: Vet Med 4 classification*

The Calving Elective provides an opportunity to expand knowledge and experience in all phases of calving management. The program is structured around normal calving operations at USMARC including emergency duties. Activities that take place during the Calving Elective including the diagnosis, treatment, and management of many commonly encountered conditions in the dam and calf, necropsies, and daily discussions. Participation in a caesarian section is not guaranteed. Student must be able to provide own transportation to each site.

**VDPAM 421B: Great Plains Veterinary Educational Center: Bull Breeding Soundness**

Cr. 1. S.

*Prereq: Vet Med 4 classification*

The Bull Breeding Soundness Examination Elective involves training in all phases of the bull fertility examination as recommended by the Society for Theriogenology. Chuteside, hand-on experience is the primary training technique for this elective with informal discussions held during the performance of breeding soundness examinations on 350 or more bulls. Student must be able to provide own transportation to each site.

**VDPAM 421D: Great Plains Veterinary Educational Center: Feedlot Management**

Cr. 1. F.SS.

*Prereq: Vet Med 4 classification*

Evaluation of production techniques and production efficiency including ration and feeding management, health management program development and evaluation, environmental management, quality assurance and field necropsy techniques. Exposure to marketing and economic considerations in feed yard decision making. A strong emphasis on population medicine, trouble shooting and problem-solving skills in the beef industry, with exposure to harvest/food safety considerations. Discussions on pharmaceutical and feed additive usage and legal implications in food supply veterinary medicine. Student must be able to provide own transportation to each site.

**VDPAM 421E: Great Plains Veterinary Educational Center: Calf Weaning Management**

Cr. 1. F.

*Prereq: Vet Med 4 classification*

This is a hands-on elective in which students participate in the weaning management at the USMARC. Students will be involved with processing, feeding, finding, and treating sick calves. Additionally, students will be introduced to developing weaning rations and managing feed delivery. Students will also learn how to develop vaccination and treatment protocols and each student will have as an objective the development of their own vaccination and treatment protocol template. As time allows, students will visit commercial feed yards and cover production management topics. Student must be able to provide own transportation to each site.

**VDPAM 421F: Great Plains Veterinary Educational Center: Pregnancy Examination**

Cr. 1. F.

*Prereq: Vet Med 4 classification*

The Pregnancy Examination Elective involves rectal examinations for pregnancy, chuteside data collection and data entry into a computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some palpation experience and are interested in honing their skills. Pregnancy Examination occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique. Student must be able to provide own transportation to each site.

**VDPAM 421J: Great Plains Veterinary Educational Center: Lambing**

Cr. 1. S.

*Prereq: Vet Med 4 classification*

The Lambing Elective involves students working with the USMARC lambing crew and GPVEC faculty in observations, assistance with delivery when necessary, and routine lambing duties. Students will work with veterinary personnel in sheep necropsy and health surveillance. Self-study material will be provided covering topics such as pre-breeding and breeding, pregnancy diagnosis, pregnant ewe management, pre-lambing ewe/lambing management, feeder lamb health and nutrition management, and replacement ewe and ram management. Student must be able to provide own transportation to each site.

**VDPAM 421K: Great Plains Veterinary Educational Center: Equine Dentistry**

(20-20) Cr. 1. S.

*Prereq: Vet Med 4 classification*

The Equine Dentistry Elective provides the opportunity for students to expand their knowledge and experience related to equine dentistry. The rotation consists of lectures on topics relevant to equine dental care and hands-on laboratories during which students practice routine dental care procedures on USMARC horses. Equine Dentistry will involve both lecture and lab time at about equal shares. Student must be able to provide own transportation to each site.

**VDPAM 421P: Great Plains Veterinary Educational Center: Bovine Surgery**

Cr. 1. F.

*Prereq: Vet Med 4 classification*

The Bovine Surgery Elective is designed to give students interested in food animal surgery an opportunity to practice their surgical skills by performing penile translocations and epididymectomies on USMARC teaser bull candidates. Lectures specific to gomer bull surgery as well as other topics related to food animal surgery will be presented during this elective. Student must be able to provide own transportation to each site.

**VDPAM 421Q: Great Plains Veterinary Educational Center: Swine Husbandry**

Cr. 1. F.S.

*Prereq: Vet Med 4 classification*

This elective provides students the opportunity to gain hands-on experience related to the daily activities of an intensively managed confinement swine unit. Rotation participants will work closely with USMARC Swine Unit personnel as they complete their daily routines in the farrowing and breeding areas of the USMARC Swine Unit and will participate in piglet delivery, neonatal pig processing, artificial and natural breeding, necropsies, and other activities as they arise. Student must be able to provide own transportation to each site.

**VDPAM 421R: Great Plains Veterinary Educational Center: Lamb Weaning Management**

Cr. 1. SS.

*Prereq: Vet Med 4 classification*

This elective provides the opportunity for students to develop their skills in the area of health and nutritional management of sheep immediately before and after weaning. The rotation consists of lectures on pre- and post-weaning nutrition, clinical parasitology, and prevention and control of common ovine infectious diseases. Hands-on experience during the week will take place at the USMARC Sheep Unit and will consist of walk-through and hand-on examinations of recently weaned lambs, treatment of sick lambs, inspection of weaning pen environment, investigation of herd outbreaks, and post mortem examination of all sheep mortalities. Student must be able to provide own transportation to each site.

**VDPAM 421S: Great Plains Veterinary Educational Center: Ultrasound Pregnancy Examination**

Cr. 1. SS.

*Prereq: Vet Med 4 classification*

The Ultrasound Pregnancy Examination Elective involves transrectal ultrasonographic examinations for pregnancy, chuteside data collection and data entry into a computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some ultrasound experience and are interested in honing their skills. This elective occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique. Didactic instruction may include several topics in cow herd health, nutrition, management and reproductive decision making. Student must be able to provide own transportation to each site.

**VDPAM 421T: Great Plains Veterinary Educational Center: Food Animal Clinical Care and Treatment (FACCT)**

Cr. 1. F.S.

*Prereq: Vet Med 4 classification*

This course is designed to achieve hands-on and critical thinking skills necessary to provide clinical care to cattle and sheep. Student needs will be met through structured discussions and accompanying the veterinarians in daily care of the animals at USMARC. Student must be able to provide own transportation to each site.

**VDPAM 421U: Great Plains Veterinary Educational Center: Necropsy and Diagnostic Investigations**

Cr. 1. F.S.

*Prereq: Vet Med 4 classification*

This course is designed to develop diagnostic and critical thinking skills necessary to investigate disease outbreaks in a herd health setting. Student needs will be met through daily necropsy procedures, in depth discussions of case examples, and thorough exposure to diagnostic tests and sampling procedures. Student must be able to provide own transportation to each site.

**VDPAM 422: Beef Cattle Calving**

Cr. 2. Repeatable. F.S.SS.

*Prereq: VDPAM 310; fourth year classification in veterinary medicine; permission of instructor*

This elective provides students opportunity to assist cow-calf operations with calving in Nebraska, South Dakota or other locations. These operations typically calve 300-1,000 head each spring. Calving experience is not required, but a good understanding of working around cattle is necessary. Students will be actively participating in the day to day, normal calving routine including detecting and sorting off "springers", calf "watch", detecting when intervention is needed and assisting delivery, caring for and monitoring newborns and dams for good health and early disease detection, tagging/processing new calves, treating calves needing intervention and performing other routine calving chores. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 424: Preceptorship in Diagnostic Pathology.**

Cr. 1-6. Repeatable. F.S.

*Prereq: VDPAM 455*

Advanced course in production animal medicine with emphasis on gross and diagnostic pathology. Forty hours clinical experience per week. Assignments will be preceptorships with a diagnostic laboratory, veterinary pathologist, governmental agency and/or production unit. Biosecurity policies require documentation of student's presence in the USA 5 days immediately prior to the start of class.

**VDPAM 426: Veterinary Toxicology**

(Dual-listed with VDPAM 526). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: Third year classification in veterinary medicine, completion of TOX 501 or DVM degree*

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

**VDPAM 428: Principles of Epidemiology and Population Health**

(Dual-listed with VDPAM 528). (Cross-listed with MICRO, V MPM). (3-0) Cr. 3. S.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

**VDPAM 436: Beef Records Analysis**

(0-30) Cr. 1. F.S.

*Prereq: Vet Med 1, 2, or 3 classification*

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. Each semester's content builds on the material from the previous semester. Enrolling in the class for multiple semesters will be encouraged.

**VDPAM 436A: Beef Records Analysis: Introduction**

(0-30) Cr. 1. Repeatable. F.

*Prereq: Vet Med 1, 2, or 3 classification*

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to become Beef Quality Assurance (BQA) certified through the Iowa Beef Center.

**VDPAM 436B: Beef Records Analysis: Herd Management**

(0-30) Cr. 1. Repeatable. S.

*Prereq: Vet Med 1, 2, or 3 classification; and VDPAM 436A*

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability.

**VDPAM 436C: Beef Records Analysis: Cow/Calf Preventive Medicine**

(0-30) Cr. 1. Repeatable. F.

*Prereq: Vet Med 2 or 3 classification; and VDPAM 436A and VDPAM 436B*

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Emphasis will be on obtaining a better understanding of nutritional and reproductive management of cow herds. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability.

**VDPAM 436D: Beef Records Analysis: Feedlot Production Medicine**

(0-30) Cr. 1. Repeatable. S.

*Prereq: Second or third year classification in veterinary medicine, or special permission of instructor*

Lectures will emphasize current production and evaluation techniques for feedlot production and students will develop a standard treatment protocol book. Topics include respiratory disease, receiving programs, nutrition, cattle handling and environmental issues.

**VDPAM 445: Production Animal Clinical Medicine**

(3-0) Cr. 3. S.

*Prereq: Vet Med 3 classification*

Clinical diagnosis and treatment of diseases of swine, beef and dairy cattle, and small ruminants.

**VDPAM 450: Disturbances of Reproduction**

(4-0) Cr. 4. F.

*Prereq: Vet Med 3 classification*

General principles of normal reproductive functions in addition to environment, management and diseases causing disturbances in reproduction. Cattle, Swine, Equine, Small Ruminant, and Small Animal species will be covered.

**VDPAM 451: Clinical Embryo Transfer**

Cr. 2. F.S.SS.

*Prereq: Vet Med 4 classification and VDPAM 351*

Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during discussions. Enrollment is limited to four students per two week session. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 455: Diagnostic Laboratory Practicum**

Cr. 1. Repeatable. F.S.

*Prereq: Vet Med 4 classification and VDPAM 310*

Practical experience and training in necropsy, recognition of gross lesions, diagnostic sample collection and test selection for the diagnosis of infectious, toxic, nutritional and metabolic diseases through exposure to diagnostic cases submitted to the ISU Veterinary Diagnostic Laboratory. The VDL accepts cases from all species; however, this course predominantly consists of porcine and bovine cases.

**VDPAM 456: Veterinary Diagnostic Lab Methods & Applications**

(16-0) Cr. 1. F.

*Prereq: Vet Med 2 or 3 classification*

An introduction to diagnostic medicine including strengths and weaknesses of various testing technologies, how to choose appropriate tests and technologies, sampling strategies in diseased and non-diseased populations and interpretation and integration of results of tests to achieve an accurate diagnosis are discussed.

**VDPAM 463: Feedlot Production Medicine**

Cr. 1. S.

*Prereq: VDPAM 310: concurrent enrollment in VDPAM 421D.*

One-week VM4 elective focusing on Midwestern feedlot production.

Addresses feedlot production practices common to Iowa and surrounding states, including feeding cattle on concrete or under roofs. Activities include participation and visitation to representative feedlots in Iowa.

**VDPAM 465: Animal Welfare Clinical Rotation**

Cr. 2. F.SS.

*Prereq: Vet Med 4 classification*

Two-week course for senior veterinary students to gain skills for collecting and interpreting animal welfare data, aid clients with identifying and achieving welfare goals, and assisting law enforcement with animal cruelty response. Field trips to food animal and companion animal facilities are mandatory.

**VDPAM 471: Animal Reproduction**

Cr. 2. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Elective clinical assignment in animal reproduction. Equine, Food Animal, Small Animal and Comparative reproduction only.

**VDPAM 471C: Animal Reproduction: Comparative**

Cr. 2. Repeatable, maximum of 4 credits. F.SS.

*Prereq: Vet Med 4 classification*

Elective comparative clinical assignment in Theriogenology with caseload management in Food Animal, Equine, Small Animal and Small Ruminants sections. Rotation through these different sections will depend on the caseload (by species) and include routine breeding management, semen collection and cryopreservation in different species, advanced laparoscopic and non-surgical procedures for insemination and embryo flushing/transfer, pregnancy diagnosis as well as management of reproductive emergencies.

**VDPAM 471E: Animal Reproduction: Equine Reproduction**

Cr. 2. Repeatable, maximum of 4 credits. S.SS.

*Prereq: Vet Med 4 classification*

Elective clinical assignment in Equine Theriogenology involving both mare and stallion breeding management, cool-shipped semen preparation and semen cryopreservation, embryo transfer, foaling of high-risk pregnant mares as well as normal mares, breeding soundness exams of the mare and stallion, treatment of retained fetal membranes and neonatal care.

**VDPAM 471F: Animal Reproduction: Food Animal Reproduction**

Cr. 2. Repeatable, maximum of 4 credits. S.SS.

*Prereq: Vet Med 4 classification*

Elective clinical assignment in Food Animal Theriogenology involving male and female breeding soundness exams, dystocia management, advanced diagnostic and surgical procedures, surgical and non-surgical insemination programs in small ruminants, and semen cryopreservation. Medical and surgical correction of reproductive disorders in cattle, swine and small ruminants. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 471S: Animal Reproduction: Small Animal Reproduction**

Cr. 2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Vet Med 4 classification*

Primary reproductive management in the canine and feline involving breeding management of the bitch and stud dog, advanced surgical and non-surgical insemination using fresh, cooled or frozen semen, and infertility case management for the male and female. High risk pregnancy management, parturition and neonatal care of both canine and felines, as required.

**VDPAM 476: Food Animal and Camelid Field Service**

Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification and VDPAM 310*

Students will assist university veterinarians in delivering individual animal health care and herd-based production management services to the ISU livestock farms and other livestock farms in the local area. Focus on the establishment of best practices for herd management of production systems at the university and in the region. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 477: Food Animal and Camelid Medicine and Surgery**

Cr. 2. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Clinical assignment focused on the management of food animal and camelid medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal and camelid species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 478A: Swine Medicine Education Center: Swine Production Management and Consultation**

Cr. 2. Repeatable. F.S.

*Prereq: VDPAM 310*

Swine production management and consulting skills within a progressive swine production and management system. Time will be split approximately with half in-class discussion topics of finance and business of the swine industry and half on-farm learning opportunities where students will visit a breeding farm, nursery facility, finishing facility, wean-to-finish facility, gilt developer unit, and a truck wash facility.

**VDPAM 478B: Swine Medicine Education Center: Swine Clinical Pharmacology and Treatment Management**

Cr. 2. Repeatable. S.SS.

*Prereq: VDPAM 310*

Basic and applied information on swine treatment options, strategies to maximize efficacy, and skills to pursue judicious use of antimicrobials, reproductive interventions, and the entire spectrum of drug therapies. The course emphasizes case based application and decisions and is approximately 30% web-based and 70% on-site including farms of a variety of structures and functions. During the course, students prepare a thorough evaluation of the pharmacologic interventions that may occur on farms and then implement this evaluation in active production facilities to maximize efficacy, compliance and animal welfare as part of a comprehensive judicious use objective.

**VDPAM 478C: Swine Medicine Education Center: Swine Emerging Diseases and Emergency Response Management**

Cr. 2. Repeatable. F.S.

*Prereq: VDPAM 310 VDPAM 480*

Diagnostic tests, methods, approaches, analysis, and evaluation of emerging swine diseases and provide general knowledge of disease elimination and methods to manage herd losses and economic losses due to disease. Two-week, on-site module that combines structured site visits and classroom activities.

**VDPAM 479: Applied Swine Production Medicine Preceptorship**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification and VDPAM 310*

Preceptorship course in swine production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 480: Swine Production Medicine**

(15-25) Cr. 2. Repeatable. F.S.SS.

*Prereq: VDPAM 310; Fourth year classification in Veterinary Medicine or permission of instructor*

Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Development of critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 481: Advanced Cow/Calf Production Medicine**

(Dual-listed with VDPAM 581). (20-20) Cr. 2. S.

*Prereq: Completion of two semesters of VDPAM 436 or UNL equivalent (V MED 596 Cattle Production), fourth year classification in veterinary medicine*

Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 482: Applied Beef Production Medicine Preceptorship**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification and VDPAM 310*

Advanced course in beef production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 483: Beef Production Medicine**

(15-20) Cr. 2. F.

*Prereq: Vet Med 4 classification and VDPAM 310*

Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to expose students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. Whenever possible, the class incorporates field trips to better understand how commercial cow/calf and feedlots operate and the veterinarian's role in their management. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 484: Dairy Production Medicine**

(15-20) Cr. 2. F.SS.

*Prereq: Vet Med 4 classification and VDPAM 310*

Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHIA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, welfare, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 485: Applied Dairy Production Medicine Preceptorship**

(0-30) Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification and VDPAM 310*

Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 486: Introduction to Small Ruminant Production Medicine**

(15-0) Cr. 1. S.

*Prereq: Vet Med 3 classification*

Survey of small ruminant production systems, common management practices, and disease processes of small ruminants and camelids. This course is intended to give the student a background in small ruminant medicine. Herd health, disease monitoring and prevention, nutrition, and typical management systems will be emphasized in lecture.

**VDPAM 487: Livestock Disease Prevention**

(3-0) Cr. 3. F.

The course is designed for both the pre-veterinary and animal science majors who have an interest in production animal health, disease prevention methods, epidemiology of economically important agents, and the ecology of currently important pathogens found in North American livestock industries. It will focus on disease prevention principles for individuals and large production population systems.

**VDPAM 488: Laboratory in Clinical Microbiology**

Cr. 1. Repeatable. F.S.

*Prereq: Vet Med 4 classification*

Application of microbiological procedures to the diagnosis of infectious diseases.

**VDPAM 489: Issues in Food Safety**

(Cross-listed with AN S, FS HN, HSP M). (1-0) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in (FS HN 101 or FS HN 272 or HSP M 233); FS HN 403; (FS HN 419 or FS HN 420)*

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

**VDPAM 490: Independent Study**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of department chair***VDPAM 491: Advanced Ruminant Nutrition**

(30-10) Cr. 2. F.

Focus on dairy nutrition and balancing rations from the calf to the adult, lactating cow. Introduction to different feedstuffs and forage varieties to determine those that are best suited to bovine diets. This course starts the week immediately prior to the start of the fall semester and continues throughout the fall semester. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 494: Advanced Dairy Production Medicine**

(20-20) Cr. 2. S.

*Prereq: VDPAM 484 or permission of instructor*

Advanced course in investigating dairy herd problems relating to milk quality or nutrition. Milk quality and nutrition troubleshooting will be taught through the combination of lecture and on-farm investigations. Students will combine lecture knowledge, data acquired from on-farm investigations and record analysis to generate management plans. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 495: Advanced Small Ruminant Production Medicine**

(15-20) Cr. 2. F.S.

*Prereq: Vet Med 4 classification, VDPAM 486*

Two week clinical rotation in small ruminant production medicine. Field trips (including overnight stays) will be incorporated when possible. Topics to be covered include small ruminant industries (milk, meat, and fiber), milk quality, nutrition, reproduction, and disease management of small ruminants. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 496: International Experience**

(Dual-listed with VDPAM 596). Cr. 1-12. Repeatable. F.S.SS.

*Prereq: Vet Med 2, 3, or 4 classification*

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**VDPAM 498: Poultry Medicine**

Cr. 2. SS.

*Prereq: Vet Med 4 classification*

Two-week senior elective to introduce students into poultry production medicine in the Midwest. Students will participate in routine flock monitoring, biosecurity reviews, disease investigations involving outbreaks in commercial and backyard poultry operations, and have a basic understanding of the poultry industry and poultry diseases. Involves didactic lectures in the classroom, field trips to poultry farms, and necropsies.

**Courses primarily for graduate students, open to qualified undergraduates:**

**VDPAM 507: Evidence Based Clinical Decision Making**

(Dual-listed with VDPAM 407). (1-0) Cr. 1. S.

*Prereq: Permission of instructor*

Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.

**VDPAM 508: Poultry Diseases**

(Dual-listed with VDPAM 408). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Second or third year classification in veterinary medicine or permission of instructor*

Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases. This course includes wet labs. Additional assignments required for graduate level credit.

**VDPAM 514: Veterinary Practice Entrepreneurship**

(Dual-listed with VDPAM 414). Cr. 2-3. S.

*Prereq: Vet Med classification or Graduate student*

Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity. Personal finance, marketing, human resource management, general accounting, site assessment, location demographics, practice valuation, and a host of other issues which must be considered when purchasing or starting a new business are covered. Class instruction will be delivered by successful practice and business owners with examples from real world experience.

**VDPAM 526: Veterinary Toxicology**

(Dual-listed with VDPAM 426). (Cross-listed with TOX). (3-0) Cr. 3. S.

*Prereq: Third year classification in veterinary medicine, completion of TOX 501 or DVM degree*

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

**VDPAM 527: Applied Statistical Methods in Population Studies**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: STAT 587*

ANOVA, Linear Regression, Model Selection, Mixed Models, ANCOVA, Repeated Measurement Analysis, MANOVA, Nonparametric Methods, Diagnostic Test Evaluation, ROC Curve Analysis, Generalized Linear Models, Logistic Regression, Survival Analysis, Cox Proportional Hazards Regression, Count Data Analyses. This course is available on campus and by distance.

**VDPAM 528: Principles of Epidemiology and Population Health**

(Dual-listed with VDPAM 428). (Cross-listed with V MPM). (3-0) Cr. 3. S.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

**VDPAM 529: Epidemiological Methods in Population Research**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: STAT 587; VDPAM 528*

Train students on selecting the proper statistical model to conduct statistical analysis in the context of epidemiological studies. Train students to report and interpret data collected from experimental (clinical trials), observational (cross-sectional, case-control, cohort) or field-based studies incorporating the information covered in previous epidemiology/biostatistics courses and this course, and how to communicate the findings with the end-users. Introduce other methods that can be used when analyzing epidemiological studies. This course is available on campus and by distance.

**VDPAM 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EE0B, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**VDPAM 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**VDPAM 542B: Introduction to Molecular Biology Techniques: Protein**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS). Cr. 1. Repeatable. S.SS.

Techniques. Includes: fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, Immunophenotyping, and monoclonal antibody production. Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**VDPAM 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**VDPAM 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**VDPAM 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**VDPAM 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**VDPAM 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**VDPAM 546: Clinical and Diagnostic Toxicology**

(Cross-listed with TOX). (0-3) Cr. 1-3. Repeatable. F.S.SS.

*Prereq: D.V.M. degree or VDPAM 526*

Advanced study of current problems and issues in veterinary toxicology.

Emphasis on problem solving and interpreting clinical cases while utilizing clinical, epidemiological, and laboratory resources. Course consists highly of clinical case based material.

**VDPAM 551: Advanced Veterinary Diagnostic Pathology**

(0-3) Cr. 1-3. Repeatable. F.S.SS.

*Prereq: VDPAM 455; VPTH 570; VPTH 571*

Laboratory diagnosis of animal diseases with emphasis on gross and microscopic lesion description. Caseload is focused heavily on infectious diseases of food animals.

**VDPAM 560: Ecology of Infectious Diseases**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Topics of applied ecology of infectious diseases. Specific objectives include: a) understanding dynamics of pathogen transmission within and between population; b) how to reduce risk of pathogen introduction in populations; c) how to early detect pathogens and classify herds according to disease status; d) how to quantify pathogen transmission and impact in animal populations; e) applying and measure the effect of interventions to manipulate disease transmission dynamics within and between populations. Develop skills to prevent, detect and/or significantly control/eliminate animal health issues from animal populations. Learn how to quantify health issues and estimate the value of interventions to influence and mitigate health problems.

**VDPAM 564: Animal Welfare Science and Research**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

Animal welfare is increasingly a key component of societal decisions about animal use, sustainable development and human-animal relationships. Understanding animal welfare as a scientific discipline, with primary focus on veterinary, biomedical and animal science disciplines. Explore fundamental and applied approaches to animal welfare science, including experimental design, data analysis and interpretation of results. Topics selected will reflect student interests, and may include animal welfare assessment and assurance, animal cognition, pain assessment and mitigation, and animal models used in biomedical research.

**VDPAM 570: Risk Assessment for Food, Agriculture and Veterinary Medicine**

(Cross-listed with AGRON, TOX). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq:* Statistics 300-level or higher.

Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis.

**VDPAM 581: Advanced Cow/Calf Production Medicine**

(Dual-listed with VDPAM 481). (20-20) Cr. 2. S.

*Prereq:* Completion of two semesters of VDPAM 436 or UNL equivalent (V MED 596 Cattle Production), fourth year classification in veterinary medicine

Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

**VDPAM 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq:* Permission of Instructor

Topics in medicine, surgery, theriogenology; beef, swine, dairy, or sheep production medicine.

**VDPAM 596: International Experience**

(Dual-listed with VDPAM 496). Cr. 1-12. Repeatable. F.S.SS.

*Prereq:* Vet Med 2, 3, or 4 classification

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**VDPAM 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

*Prereq:* Enrollment in nonthesis master's degree program

**Courses for graduate students:****VDPAM 650: Swine Diagnostic Medicine**

Cr. 4. F.

*Prereq:* Permission of Instructor

A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives.

**VDPAM 654: Comparative Antimicrobial Clinical Pharmacology**

Cr. 2. Alt. F., offered odd-numbered years.

*Prereq:* Graduate student, resident, or intern in College of Veterinary Medicine

Initial antimicrobial selection for infectious diseases of domestic animals. The antimicrobial drug groups will be examined, stressing pharmacokinetics, minimal inhibitory concentrations, and the use of these parameters to select appropriate compounds and dosages for maximum efficacy.

**VDPAM 655: Advanced Swine Production Medicine**

Cr. 4. Alt. S., offered odd-numbered years.

*Prereq:* Permission of Instructor

Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, facility design and management, analysis of competing intervention options, design and evaluation of therapeutic and vaccination strategies, quality control procedures and food safety. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives.

**VDPAM 699: Research**

Cr. arr. Repeatable.

## Veterinary Microbiology and Preventive Medicine

### Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

## Graduate Study

The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master's option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

### Courses primarily for professional curriculum students:

#### **V MPM 330: Global Health Disparities**

(Cross-listed with GLOBE). (3-0) Cr. 3. S.

*Prereq: Junior classification*

Historical and contemporary factors contributing to disparities in health outcomes for persons disadvantaged by income, location, ethnicity, sexual orientation, and abilities. Analysis and evaluation of health promotional materials, such as campaigns, and community-based interventions focused on reducing global health disparities.

Meets U.S. Diversity Requirement

#### **V MPM 360: Global Health**

(Cross-listed with GLOBE, MICRO). (3-0) Cr. 3. F.

*Prereq: BIOL 211*

Explores human health across the world with particular emphasis on low- and lower-middle-income countries. Attention is given to the interconnectedness of health determinants, problems, and solutions found in global health, including the role of animals and the environment. Broad in scope, highlighting different cultures and the historical foundations of global health. Topics include colonialism, poverty, emerging diseases, climate change, biodiversity, one health, maternal and child health, HIV, malaria, urbanization, noncommunicable diseases and more. Current events will be a feature of all class meetings. Meets International Perspectives Requirement.

#### **V MPM 378: Case Study IV**

(2-0) Cr. 2. S.

*Prereq: Vet Med classification*

Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts.

#### **V MPM 380: Veterinary Immunology**

(2-0) Cr. 2. S.

*Prereq: Vet Med classification*

Structure and function of the immune system in animals.

#### **V MPM 386: Veterinary Microbiology**

(3-5) Cr. 5. F.

*Prereq: Vet Med classification*

Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures.

#### **V MPM 387: Veterinary Virology**

(3-0) Cr. 3. S.

*Prereq: Vet Med classification*

Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance.

#### **V MPM 388: Public Health and the Role of the Veterinary Profession**

(3-0) Cr. 3. S.

*Prereq: Vet Med classification*

Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

**V MPM 390: Topics in Veterinary History**

(1-0) Cr. 1. F.S.

An overview of the history of veterinary medicine focused primarily on disease-specific events. A review of the historical aspects of the veterinary profession's accomplishments in the discovery of the etiological origins of disease and their subsequent control will provide students with insights that are applicable to understanding and solving today's animal and human health challenges.

**V MPM 428: Principles of Epidemiology and Population Health**

(Dual-listed with V MPM 528). (Cross-listed with MICRO, VDPAM). (3-0) Cr. 3. S.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

**V MPM 437: Infectious Diseases and Preventive Medicine**

(3-0) Cr. 3. S.

*Prereq: Vet Med classification*

Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle, horses, poultry, and honeybees.

**V MPM 486: Laboratory in Public Health**

Cr. 2. Repeatable. F.S.SS.

*Prereq: Vet Med 4 classification*

Discussions, lectures, exercises and field trips related to veterinary public health.

**V MPM 490: Independent Study**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of Instructor***V MPM 491: CDC Epidemiology Elective Preceptorship**

Cr. 6. F.S.SS.

*Prereq: Permission of Instructor*

Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control and Prevention.

**V MPM 496: International Experience**

Cr. 1-12. Repeatable. F.S.SS.

*Prereq: Vet Med classification*

International Preceptorships and Study Abroad group programs. Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

**V MPM 501: Basic Principles of Microbiology**

Cr. 3. F.

*Prereq: Master of Science in Biomedical Sciences (one-year, non-thesis) or Permission of Instructor*

The general principles of bacteriology, immunology and virology will be discussed. The structure and function of bacteria and viruses, the mechanisms of pathogenesis, and the host response to infectious agents will be reviewed. Vaccines, their failures, and new developments in vaccine development will be explored.

**V MPM 502: Microbial Genetics and Genomics**

(Cross-listed with MICRO). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 313; MICRO 302*

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics.

**V MPM 517: Gut Microbiome: Implications for Health and Diseases**

(Cross-listed with AN S, FS HN, MICRO). Cr. 3. F.

*Prereq: 2-3 credits in microbiology and/or immunology.*

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health.

**V MPM 520: Principles of Immunology**

(3-0) Cr. 3. F.

*Prereq: MICRO 310 or Permission of Instructor*

Nature of the immune system and its role in health and disease. Credit for either V MPM 520 or 575, but not both may be applied toward graduation.

**V MPM 525: Intestinal Microbiology**

(Cross-listed with MICRO). Cr. 3. Alt. S., offered even-numbered years.

*Prereq: BIOL 313; MICRO 302*

Overview of commensal microbiota in the health and well-being of vertebrates. Topics include diversity of intestinal structure, microbial diversity/function, innate immune development, community interactions and metabolic diseases associated with alterations of the intestinal microbiome.

**V MPM 528: Principles of Epidemiology and Population Health**

(Dual-listed with V MPM 428). (Cross-listed with VDPAM). (3-0) Cr. 3. S. Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance.

**V MPM 536: Zoonoses and Environmental Health**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* (V MPM 386; V MPM 387; V MPM 388) or *Permission of Instructor*

Pathogenesis and control of zoonotic diseases. Factors influencing transmission and survival of pathogenic microorganisms in the environment.

**V MPM 540: Livestock Immunogenetics**

(Cross-listed with AN S, MICRO). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq:* AN S 561 or MICRO 575 or V MPM 520

Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

**V MPM 542: Introduction to Molecular Biology Techniques**

(Cross-listed with B M S, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.SS.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

**V MPM 542A: Introduction to Molecular Biology Techniques: DNA Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only.

**V MPM 542C: Introduction to Molecular Biology Techniques: Cell Techniques**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.S.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only.

**V MPM 542D: Introduction to Molecular Biology Techniques: Plant Transformation**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. Offered on a satisfactory-fail basis only.

**V MPM 542E: Introduction to Molecular Biology Techniques: Proteomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only.

**V MPM 542F: Introduction to Molecular Biology Techniques: Metabolomics**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. F.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only.

**V MPM 542G: Introduction to Molecular Biology Techniques: Genomic**

(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, NUTRS, VDPAM). Cr. 1. Repeatable. S.

Offered on a satisfactory-fail basis only.

**V MPM 575: Immunology**

(3-0) Cr. 3. S.

*Prereq:* MICRO 310

An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. Micro 475L optional. Credit for either Micro 475 or V MPM 520, but not both, may be applied to graduation.

**V MPM 586: Medical Bacteriology**

(Cross-listed with MICRO). (4-0) Cr. 4. F.

*Prereq:* *Permission of Instructor*

Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses. Concurrent students need to register for 586L.

**V MPM 586L: Medical Bacteriology Laboratory**

(0-6) Cr. 2. F.

*Prereq:* *Permission of Instructor*

Laboratory in clinical bacteriology and mycology. Credit or enrollment in V MPM 586 or V MPM 625.

**V MPM 587: Animal Virology**

(4-0) Cr. 4.

*Prereq:* *Permission of Instructor*

Principles of animal virology. Biology of viruses associated with diseases of veterinary importance, including mechanisms of pathogenesis.

**V MPM 590: Special Topics**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq:* *Permission of Instructor*

**V MPM 599: Creative Component**

Cr. arr.

*Prereq: Nonthesis M.S. Option only*

A written report based on laboratory research, library reading, or topics related to the student's area of specialization and approved by the student's advisory committee.

**Courses for graduate students:****V MPM 604: Seminar**

(1-0) Cr. 1. Repeatable. F.

Offered on a satisfactory-fail basis only.

**V MPM 608: Molecular Virology**

(Cross-listed with MICRO, PL P). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Permission of Instructor*

Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

**V MPM 615: Molecular Immunology**

(Cross-listed with BBMB, MICRO). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: BBMB 405 or BBMB 506 and BBMB 507*

Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function.

**V MPM 625: Mechanisms of Bacterial Pathogenesis**

(Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Credit in BBMB and MICRO*

Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

**V MPM 629: Advanced Topics in Cellular Immunology**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: (V MPM 520 or V MPM 575) or Permission of Instructor*

Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

**V MPM 660: Pathogenesis of Persistent Infections**

(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Permission of Instructor*

Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

**V MPM 690: Current Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Colloquia or advanced study of specific topics in a specialized field.

**V MPM 690A: Current Topics: Immunology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Colloquia or advanced study of specific topics in a specialized field.

**V MPM 690B: Current Topics: Infectious Diseases**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Colloquia or advanced study of specific topics in a specialized field.

**V MPM 698: Seminar in Molecular, Cellular, and Developmental Biology**

(Cross-listed with BBMB, GDCB, MCDB, MICRO). (2-0) Cr. 1-2. Repeatable. S.

Student and faculty presentations.

**V MPM 699: Research**

Cr. arr. Repeatable.

## Veterinary Pathology

### Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.

## Graduate Study

The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. The majority of students choose an area of specialization in veterinary anatomic pathology, veterinary clinical pathology, or veterinary parasitology (<http://vetmed.iastate.edu/vpath/academics/graduate-program> (<http://vetmed.iastate.edu/vpath/academics/graduate-program/>)). The master

of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental programs in Immunobiology ([www.immunobiology.iastate.edu/](http://www.immunobiology.iastate.edu/) (<http://www.immunobiology.iastate.edu/>)), Toxicology ([www.toxicology.iastate.edu/](http://www.toxicology.iastate.edu/) (<http://www.toxicology.iastate.edu/>)), Genetics ([www.genetics.iastate.edu/](http://www.genetics.iastate.edu/) (<http://www.genetics.iastate.edu/>)), and Molecular, Cellular, and Developmental Biology ([www.mcdb.iastate.edu/](http://www.mcdb.iastate.edu/) (<http://www.mcdb.iastate.edu/>)).

A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. A foreign language requirement will be determined by the student's program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the

committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes:

3 credits of basic biological sciences (biochemistry, genetics, cell biology)		3
V PTH 551	Postmortem Pathology Laboratory	1
V PTH 570	Systemic Pathology I	4
or V PTH 571	Systemic Pathology II	
STAT 587	Statistical Methods for Research Workers	4
V PTH 605	Current Topics Seminar	1
V PTH 699	Research	arr t

**† Arranged with instructor.**

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master's degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V PTH 599 Creative Component Research) and a practical diagnostic examination (V PTH 606 Diagnostic Interpretation) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.

**Courses primarily for professional curriculum students:****V PTH 342: Anatomic Pathology I**

(Dual-listed with V PTH 542). (2-2) Cr. 3. S.

*Prereq: First-year classification in veterinary medicine.*

Basic pathology with emphasis on disease in animals and introduction to disease by system.

**V PTH 353: Introductory Parasitology**

(Cross-listed with BIOL, MICRO). (3-0) Cr. 3. S.

*Prereq: BIOL 212*

Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

**V PTH 372: Anatomic Pathology II**

(Dual-listed with V PTH 572). (3-3) Cr. 4. F.

*Prereq: V PTH 342*

Response to injury by each body system.

**V PTH 376: Veterinary Parasitology**

(Dual-listed with V PTH 576). (3-3) Cr. 4. F.

*Prereq: For V PTH 376, prereq: Second-year classification in veterinary medicine. For V PTH 576, prereq: Graduate classification and V PTH 542.*

Parasitic diseases of domestic animals and their control.

**V PTH 377: Case Study III**

(0-4) Cr. 2. F.

*Prereq: Second-year classification in veterinary medicine*

Clinical applications of the basic sciences taught concurrently in the fall semester of the second year curriculum in veterinary medicine.

**V PTH 401: Basics of Medical Terminology**

(1-0) Cr. 1. F.

Discussion of prefixes, suffixes, and roots (mostly from Latin and Greek) that comprise medical terms.

**V PTH 402: Introduction to Pathology**

(Cross-listed with BIOL). (3-0) Cr. 3. F.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

**V PTH 409: Introduction to Veterinary Cytology and Laboratory Techniques**

(0-2) Cr. 1. S.

*Prereq: Third-year classification in veterinary medicine*

Description, interpretation, and techniques for cellular preparations from tissues and body fluids.

**V PTH 425: Clinical Pathology**

(2-4) Cr. 4. S.

*Prereq: V PTH 372*

Principles of clinical hematology, clinical chemistry, and urinalysis in domestic animals.

**V PTH 456: Necropsy Laboratory Practicum**

Cr. 1. Repeatable.

*Prereq: Vet Med 4 classification*

Practicum in postmortem examination and diagnosis.

**V PTH 457: Clinical Pathology Laboratory Practicum**

Cr. 1. Repeatable.

*Prereq: Vet Med 4 classification*

Methodology in clinical chemistry, hematology and cytology; practice in interpretation of laboratory data.

**V PTH 490: Independent Study**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor; Permission of Department Chair***V PTH 492: Orientation for International Experience**

(2-0) Cr. 1. Repeatable. S.

*Prereq: Vet Med classification*

8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned. Offered on a satisfactory-fail basis only.

**V PTH 495: Clinical Competency Skills Checklist/Remediation**

Cr. R. S.

*Prereq: Vet Med 4 classification*

In order to graduate, all 4th year veterinary students are required to complete a checklist of clinical procedures and complete any assigned remediation (based on evaluation in core clinical rotations). These requirements are tied to the college's AVMA COE accreditation, and this course is used to document completion of those requirements. Offered on a satisfactory-fail basis only.

**V PTH 496: International Experience**

Cr. 1-12. Repeatable. F.S.SS.

*Prereq: Second-year classification in veterinary medicine*

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experience in international locations. The course consists of 40 hour per week experiential learning opportunities.

**Courses primarily for graduate students, open to qualified undergraduates:**

**V PTH 503: Principles of Pathology**

(3-0) Cr. 3. S.

*Prereq: Graduate classification; permission of instructor*

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury.

**V PTH 530: Teaching and Learning in Veterinary Medical Education**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

Study of principles of teaching and learning as they relate to veterinary medical education. These include: theories of learning, analyzing content/learners/context, identifying goals, identifying appropriate instructional strategies (specific to medical education), matching assessment processes to goals and strategies, common curricular approaches and decision-making processes in medical education, and the scholarship of teaching and learning for veterinary medical educators.

**V PTH 542: Anatomic Pathology I**

(Dual-listed with V PTH 342). (2-2) Cr. 3. S.

*Prereq: First-year classification in veterinary medicine.*

Basic pathology with emphasis on disease in animals and introduction to disease by system.

**V PTH 548: Diagnostic Parasitology Laboratory**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: V PTH 376 or V PTH 576*

Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied aspects of veterinary parasitology.

**V PTH 549: Clinical Pathology Laboratory**

(0-3) Cr. 1. Repeatable. F.S.SS.

*Prereq: V PTH 457; permission of instructor*

Laboratory procedures and clinical interpretations with emphasis on hematology, cytology, and clinical chemistry. Offered on a satisfactory-fail basis only.

**V PTH 550: Surgical Pathology Laboratory**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: V PTH 570 or V PTH 571; permission of instructor*

Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens; classification of neoplasms. Course includes rotation through departmental biopsy service and review of selected cases from departmental archives. Offered on a satisfactory-fail basis only.

**V PTH 551: Postmortem Pathology Laboratory**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: V PTH 542; permission of instructor*

Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on gross and microscopic lesions and diagnosis. Offered on a satisfactory-fail basis only.

**V PTH 554: Ethics in Scientific Research and Writing**

(1-0) Cr. 1. Alt. S., offered even-numbered years.

*Prereq: Graduate classification*

Ethical conduct in biomedical research, criticism, writing, and adherence to regulations. Offered on a satisfactory-fail basis only.

**V PTH 570: Systemic Pathology I**

(4-0) Cr. 4. Alt. F., offered even-numbered years.

*Prereq: Graduate Classification; V PTH 372 or Permission of Instructor*

Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and cardiovascular systems. Emphasis on pathogenesis and histopathology correlated with interpretive clinical pathology where appropriate. DVM degree required.

**V PTH 571: Systemic Pathology II**

(4-0) Cr. 4. Alt. F., offered odd-numbered years.

*Prereq: Graduate Classification; V PTH 372 or Permission of Instructor*

Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems and special senses. Emphasis on pathogenesis and histopathology correlated with interpretive clinical pathology where appropriate. DVM degree required.

**V PTH 572: Anatomic Pathology II**

(Dual-listed with V PTH 372). (3-3) Cr. 4. F.

*Prereq: V PTH 342*

Response to injury by each body system.

**V PTH 576: Veterinary Parasitology**

(Dual-listed with V PTH 376). (3-3) Cr. 4. F.

*Prereq: For V PTH 376, prereq: Second-year classification in veterinary medicine. For V PTH 576, prereq: Graduate classification and V PTH 542.* Parasitic diseases of domestic animals and their control.

**V PTH 590: Special Topics**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor***V PTH 590A: Special Topics: Veterinary Pathology**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor***V PTH 590B: Special Topics: Veterinary Parasitology**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**V PTH 590C: Special Topics: Veterinary Toxicology**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**V PTH 590D: Special Topics: Veterinary Clinical Pathology**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**V PTH 590E: Special Topics: Other**

Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

**V PTH 596: International Preceptorship**

Cr. 1-12. Repeatable. F.S.SS.

*Prereq: Admission to Graduate college*

International Preceptorships and Study Abroad Group programs.

This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only.

**V PTH 599: Creative Component Research**

Cr. arr. Repeatable.

Course for departmental graduate research.

**V PTH 599A: Creative Component Research: Veterinary Pathology**

Cr. arr. Repeatable.

Course for departmental graduate research.

**V PTH 599B: Creative Component Research: Veterinary Parasitology**

Cr. arr. Repeatable.

Course for departmental graduate research.

**V PTH 599C: Creative Component Research: Veterinary Toxicology**

Cr. arr. Repeatable.

Course for departmental graduate research.

**V PTH 599D: Creative Component Research: Veterinary Clinical Pathology**

Cr. arr. Repeatable.

Course for departmental graduate research.

**Courses for graduate students:**

**V PTH 604: Pathology Case Seminar**

Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Offered on a satisfactory-fail basis only.

**V PTH 605: Current Topics Seminar**

Cr. 1. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

A seminar of graduate research at the time of thesis or dissertation defense.

**V PTH 606: Diagnostic Interpretation**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

**V PTH 606A: Diagnostic Interpretation: Veterinary Pathology**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

**V PTH 606B: Diagnostic Interpretation: Veterinary Parasitology**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

**V PTH 606C: Diagnostic Interpretation: Veterinary Toxicology**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

**V PTH 606D: Diagnostic Interpretation: Veterinary Clinical Pathology**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.

**V PTH 655: Cellular and Molecular Pathology I**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: Graduate course in biochemistry, genetics, or cell biology*

Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation. Graduate course in biochemistry, genetics, or cell biology recommended.

**V PTH 656: Cellular and Molecular Pathology II**

(Cross-listed with TOX). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Graduate course in biochemistry, genetics, or cell biology*

Cellular and molecular mechanisms of carcinogenesis.

**V PTH 660: Pathogenesis of Persistent Infections**

(Cross-listed with V MPM). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Permission of Instructor*

Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

**V PTH 661: Comparative Immunology and Infectious Disease**

(Cross-listed with IMBIO). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: Graduate level Immunology or Permission of Instructor*

Discuss and define similarities and differences of varied host responses to infectious challenge. Learning will focus on comparative aspects of the host response and the unique aspects of immunity from different organisms, while highlighting molecular and mechanistic similarities of pathogen recognition, response and resolution.

**V PTH 679: Histopathology of Laboratory Animals**

(1-2) Cr. 2.

*Prereq: V PTH 570 or V PTH 571; Permission of Instructor*

Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

**V PTH 699: Research**

Cr. arr. Repeatable.

Course restricted to graduate program within the department.

**V PTH 699A: Research: Veterinary Pathology**

Cr. arr. Repeatable.

Course restricted to graduate program within the department.

**V PTH 699B: Research: Veterinary Parasitology**

Cr. arr. Repeatable.

Course restricted to graduate program within the department.

**V PTH 699C: Research: Veterinary Toxicology**

Cr. arr. Repeatable.

Course restricted to graduate program within the department.

**V PTH 699D: Research: Veterinary Clinical Pathology**

Cr. arr. Repeatable.

Course restricted to graduate program within the department.

# A-Z COURSES

---

## A

- Accounting (ACCT)
- Actuarial Science (ACSCI)
- Advertising (ADVRT)
- Aerospace Engineering (AER E)
- African and African American Studies (AF AM)
- Agricultural and Biosystems Engineering (A B E)
- Agricultural Education and Studies (AGEDS)
- Agronomy (AGRON)
- Air Force Aerospace Studies (AFAS)
- American Indian Studies (AM IN)
- American Sign Language (ASL)
- Animal Ecology (A ECL)
- Animal Science (AN S)
- Anthropology (ANTHR)
- Apparel, Events, and Hospitality Management (AESHM)
- Apparel, Merchandising and Design (A M D)
- Arabic (ARABC)
- Architecture (ARCH)
- Art Education (ARTED)
- Art History (ART H)
- Astronomy and Astrophysics (ASTRO)
- Athletics (ATH)
- Athletic Training (A TR)
- A-Z Courses

## B

- Biochemistry, Biophysics, and Molecular Biology (BBMB)
- Bioinformatics and Computational Biology (BCB)
- Bioinformatics and Computational Biology (BCBIO)
- Biological/Pre-Medical Illustration (BPM I)
- Biology (BIOL)
- Biomedical Engineering (B M E)
- Biomedical Sciences (B M S)
- Business Administration (BUSAD)

## C

- Chemical Engineering (CH E)
- Chemistry (CHEM)
- Chinese (CHIN)
- Civil Engineering (C E)

- Classical Studies (CL ST)
- Communication Studies (COMST)
- Community and Regional Planning (C R P)
- Community Development (COMDV)
- Community Development GPIDEA (C DEV)
- Computer Engineering (CPR E)
- Computer Science (COM S)
- Construction Engineering (CON E)
- Criminal Justice (C J)
- Cyber Security (CYBSC)
- Cyber Security Engineering (CYB E)

## D

- Dance (DANCE)
- Data Science (DS)
- Design (DES)
- Design Studies (DSN S)
- Dietetics (DIET)

## E

- Early Childcare Education and Programming (E C P)
- Early Childhood and Family Policy (ECFP)
- Ecology and Evolutionary Biology (EEB)
- Ecology, Evolution, and Organismal Biology (EEOB)
- Economics (ECON)
- Educational Administration (EDADM)
- Educational Leadership and Policy Studies (EL PS)
- Education (EDUC)
- Electrical Engineering (E E)
- Engineering (ENGR)
- Engineering Mechanics (E M)
- English (ENGL)
- Entomology (ENT)
- Entrepreneurship (ENTSP)
- Environmental Engineering (ENV E)
- Environmental Science (ENSCI)
- Environmental Studies (ENV S)
- Event Management (EVENT)

## F

- Family and Consumer Sciences Education and Studies (FCEDS)
- Family Financial Planning (FFP)
- Finance (FIN)
- Food Science and Human Nutrition (FS HN)

- Forestry (FOR)
- French (FRNCH)

## G

- Genetics, Development and Cell Biology (GDCB)
- Genetics (GEN)
- Genetics (GENET)
- Geology (GEOL)
- German (GER)
- Gerontology (GERON)
- Global Resource Systems (GLOBE)
- Graduate Studies (GR ST)
- Graphic Design (ARTGR)

## H

- Healthcare Management (HCM)
- Health Studies (H S)
- Higher Education (HG ED)
- History (HIST)
- Honors (HON)
- Horticulture (HORT)
- Hospitality Management (HSP M)
- Human Computer Interaction (HCI)
- Human Development and Family Studies (HD FS)
- Human Sciences (H SCI)

## I

- Immunobiology (IMBIO)
- Industrial Design (IND D)
- Industrial Engineering (I E)
- Integrated Studio Arts (ARTIS)
- Interdisciplinary Graduate Studies (IGS)
- Interior Design (ARTID)
- International Studies (INTST)
- Iowa Lakeside Laboratory (IA LL)
- Italian (ITAL)

## J

- Journalism and Mass Communication (JL MC)

## K

- Kinesiology (KIN)

## L

- Landscape Architecture (L A)
- Latin (LATIN)
- Leadership Studies (LD ST)
- Learning and Leadership Sciences (L L S)
- Liberal Arts and Sciences Cross-Disciplinary Studies (LAS)
- Library (LIB)
- Linguistics (LING)

## M

- Management Information Systems (MIS)
- Management (MGMT)
- Marketing (MKT)
- Materials Engineering (MAT E)
- Materials Science and Engineering (M S E)
- Mathematics (MATH)
- Mechanical Engineering (M E)
- Meteorology (MTEOR)
- Microbiology (MICRO)
- Military Science (M S)
- Molecular, Cellular and Developmental Biology (MCDB)
- Music (MUSIC)

## N

- Natural Resource Ecology and Management (NREM)
- Naval Science (N S)
- Neuroscience (NEURO)
- Nursing (NRS)
- Nutritional Sciences (NUTRS)

## O

- Organization for Tropical Studies (OTS)

## P

- Performing Arts (PERF)
- Philosophy (PHIL)
- Physics (PHYS)
- Plant Biology (PLBIO)
- Plant Pathology (PL P)
- Political Science (POL S)
- Portuguese (PORT)
- Psychology (PSYCH)
- Public Relations (P R)

## R

- Religious Studies (RELIG)
- Research and Evaluation (RESEV)
- Russian (RUS)

## S

- Seed Technology and Business (STB)
- Sociology (SOC)
- Software Engineering (S E)
- Spanish (SPAN)
- Special Education (SP ED)
- Speech Communication (SP CM)
- Statistics (STAT)
- Supply Chain Management (SCM)
- Sustainable Agriculture (SUSAG)
- Sustainable Environments (SUS E)

## T

- Technology Systems Management (TSM)
- Theatre (THTRE)
- Toxicology (TOX)
- Transportation (TRANS)

## U

- University Studies (U ST)
- Urban Design (URB D)
- U.S. Latino/a Studies Program (US LS)

## V

- Veterinary Clinical Sciences (V C S)
- Veterinary Diagnostic and Production Animal Medicine (VDPAM)
- Veterinary Microbiology and Preventive Medicine (V MPM)
- Veterinary Pathology (V PTH)

## W

- Wind Energy Science, Engineering and Policy (WESEP)
- Women in Science and Engineering (WISE)
- Women's and Gender Studies (WGS)
- World Film Studies (W F S)
- World Languages and Cultures (WLC)

## Y

- Youth (YTH)

## Accounting (ACCT)

**Any experimental courses offered by ACCT can be found at:**

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

### ACCT 215: Legal Environment of Business

(3-0) Cr. 3. F.S.SS.

*Prereq: Sophomore classification*

General history, structure, and principles of the US legal system. The legal system, as an agency of social control and tool for resolving disputes.

The court systems, Constitution, torts, crimes, intellectual property, contracts, property rights, employment law, basic business entity law, bankruptcy, administrative agencies, environmental law and agency law.

### ACCT 284: Financial Accounting

(3-0) Cr. 3. F.S.SS.

Introduction to the basic concepts and procedures of financial accounting from a user perspective. The course examines the accounting cycle, business terminology, basic control procedures, and the preparation and evaluation of financial reports, with an emphasis on financial statement analysis.

### ACCT 285: Managerial Accounting

(3-0) Cr. 3. F.S.SS.

*Prereq: ACCT 284*

Understanding of fixed and variable costs and their role in planning, control and performance evaluation. Examination of alternative costing methods. Making decisions by identifying and developing relevant information. Development of spreadsheet skills.

### ACCT 301: The Accounting Cycle

(1-0) Cr. 1. F.S.SS.

*Prereq: ACCT 284*

Interactive computer-based analysis of the accounting cycle including transactions and financial statements. Preparation of journal entries and adjusting entries and completion of the closing process.

### ACCT 315: Business Data Streams and Issues

(Cross-listed with MIS). Cr. 3. Alt. F., offered even-numbered years. Alt. S., offered odd-numbered years. SS.

*Prereq: MIS 301, ACCT 284*

Identification of open data sources and other private data sources.

Develop methods of data access, collection, and sharing; develop methods to validate and standardize data sources; develop methods to assess data worthiness (risk).

**ACCT 383: Intermediate Managerial Accounting**

(3-0) Cr. 3. F.S.

*Prereq: ACCT 285; credit or concurrent enrollment in ACCT 301*

Generation, communication and use of information to assist management with planning, control, and decision making in manufacturing and service organizations. Includes cost concepts and relevance to decision situations, operational and capital budgeting, and performance evaluation. Emphasis on developing effective teamwork skills as well as spreadsheet capabilities.

**ACCT 384: Accounting Information Systems and Analytics**

(3-0) Cr. 3.

*Prereq: Credit or concurrent enrollment in ACCT 301; credit or concurrent enrollment in MIS 301*

Concepts and procedures underlying creating, sharing, reporting, storing, and analyzing accounting data. Information technology internal controls and audit techniques. Trends in accounting information systems.

**ACCT 386: Intermediate Financial Accounting I**

(3-0) Cr. 3. F.S.

*Prereq: ACCT 284 and ACCT 301*

The conceptual framework of financial accounting. Communication of financial information on the income and retained earnings statements, statement of cash flows, and the balance sheet. Accounting concepts relating to current and operational assets of the firm.

**ACCT 387: Intermediate Financial Accounting II**

(3-0) Cr. 3. F.S.

*Prereq: Minimum of C- in ACCT 386*

Financial accounting and reporting practices for business entities. Generally accepted accounting principles (GAAP) relative to firm liabilities, equity, income, taxes, employee benefits, leases, accounting changes and cash flows. Discussion of current issues in financial accounting.

**ACCT 401: Financial Management for Healthcare Organizations**

(Cross-listed with HCM). Cr. 3. F.S.

*Prereq: FIN 301; credit or concurrent enrollment in HCM 301*

Examination of the current accounting system for, and the financing of, health care and the factors affecting the industry. Exploration and analysis of budgetary concepts, financial management, cost accounting, and management under rate control and competition, as well as the differences between the goods and service industries. Additional areas of discussion include the practical application of health care finance theory as it applies to the current healthcare environment. The revenue and expense applications will be explored in-depth, particularly in relation to the delivery of health care services. Specific emphasis will be placed on understanding the components of the income statement and balance sheet, developing a budget, and using these financial statements for analyzing operational changes.

**ACCT 416: Business Law**

(Dual-listed with ACCT 516). (3-0) Cr. 3. F.S.

*Prereq: ACCT 215*

Continuation of 215. The Uniform Commercial Code as applied to sales contracts and negotiable instruments. Property law, wills and estates, insurance, secured transactions, corporation law, partnership law and antitrust law.

**ACCT 461: Entrepreneurship and Accounting Information**

(Dual-listed with ACCT 561). (Cross-listed with ENTSP). (3-0) Cr. 3.

Accounting information recording, dissemination, and use by entrepreneurs. Introduces pro forma financials, venture capital, private equity, and state and federal regulations for business creation and formation. Other topics include intrapreneurship, intellectual property, information privacy, cybersecurity, and internal controls, including managing the risk of embezzlement.

**ACCT 483: Application and Communication in Managerial Accounting**

(Dual-listed with ACCT 583). Cr. 3.

*Prereq: ACCT 383 or ACCT 581*

Business simulation focusing on generation and communication of information to assist management with financial decision-making. Emphasis on developing teamwork, written communication, data visualization, and oral presentation skills.

**ACCT 484: Advanced Accounting Information Systems**

(Dual-listed with ACCT 584). (3-0) Cr. 3.

*Prereq: ACCT 384*

Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

**ACCT 485: Principles of Federal Income Tax**

(3-0) Cr. 3. F.S.

*Prereq: Minimum of C- in ACCT 386 or ACCT 501*

Introduction to the fundamentals of federal income taxation and concepts applicable to all tax entities. Addresses issues related to the measurement and recognition of income, deductions, gains, and losses, taxation of property transactions, and basis / cost recovery concepts. Includes coverage of tax law policy objectives, tax implications of business and investment decisions, tax versus financial reporting treatment of common business transactions, and ethical issues related to tax compliance and planning.

**ACCT 487: Volunteer Income Tax Assistance**

(Dual-listed with ACCT 587). (2-2) Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq: ACCT 285 or ACCT 501 or Permission of Department*

Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

**ACCT 488: Governmental and Non-profit Institution Accounting**

(Dual-listed with ACCT 588). (3-0) Cr. 3.

*Prereq: ACCT 386*

Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

**ACCT 489: Corporate Social Responsibility Reporting**

(Dual-listed with ACCT 589). (3-0) Cr. 3. S.

*Prereq: Junior classification or higher*

Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

**ACCT 490: Independent Study**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Department*

**ACCT 493: Corporate Taxation**

(Dual-listed with ACCT 593). (3-0) Cr. 3. F.S.

*Prereq: ACCT 386*

Introduction to the fundamentals of corporate taxation issues. Discussion of concepts related to the formation and capital structure of corporations. Identification and effect of tax codes and regulations related to corporations. Discussion of operating rules, earnings and profits, distributions, as well as redemptions and liquidations of corporations.

**ACCT 495: Advanced Financial Accounting Problems**

(Dual-listed with ACCT 595). (3-0) Cr. 3.

*Prereq: ACCT 387*

Accounting for business combinations and affiliated companies, intercompany transactions, and consolidated financial statements; Partnership accounting; Segment and Interim Reporting; Multinational accounting.

**ACCT 496: Accounting in the Global Economy**

(Dual-listed with ACCT 596). (3-0) Cr. 3.

*Prereq: ACCT 386 or ACCT 501*

Financial reporting issues in a global environment, including introduction to International Financial Reporting Standards (IFRS) and the potential for the use of IFRS in the U.S. Accounting and managerial issues faced by multinational corporations. Technical issues such as transfer pricing, inflation accounting and taxation will be discussed.

**ACCT 497: Introduction to Auditing**

(3-0) Cr. 3. F.S.

*Prereq: ACCT 384, ACCT 387 and STAT 326*

The conceptual framework of auditing. Professional ethics. External reporting concepts. Audit methodology including risk analysis, internal control, procedures for gathering evidence and the role of statistical sampling in auditing.

**ACCT 498: Accounting Communication and Analysis**

(3-0) Cr. 3. F.

*Prereq: ACCT 387*

Integrative studies in accounting. Development of critical thinking, ethical reasoning, professional research and teamwork skills. Written, visual, and oral communication with corporate stakeholders.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ACCT 501: Financial Accounting**

(3-0) Cr. 3.

*Prereq: Enrollment in MBA program or Permission of Department*

A general introduction to financial accounting information. Topics covered include the use and analysis of financial information, the regulatory environment, the role of International Financial Reporting Standards (IFRS), and the use of the internet and electronic spreadsheets as a means of accessing and analyzing financial data.

**ACCT 515: Accounting Analytics**

Cr. 3. F.

*Prereq: ACCT 384 or Permission of Department*

Applications and skills for performing data analytics in accounting contexts. Explores conceptual framework for providing data-driven insights and recommendations. Includes hands-on experiences working with different types of data and the latest analysis tools.

**ACCT 516: Business Law**

(Dual-listed with ACCT 416). (3-0) Cr. 3. F.S.

*Prereq:* ACCT 215

Continuation of 215. The Uniform Commercial Code as applied to sales contracts and negotiable instruments. Property law, wills and estates, insurance, secured transactions, corporation law, partnership law and antitrust law.

**ACCT 561: Entrepreneurship and Accounting Information**

(Dual-listed with ACCT 461). (3-0) Cr. 3.

Accounting information recording, dissemination, and use by entrepreneurs. Introduces pro forma financials, venture capital, private equity, and state and federal regulations for business creation and formation. Other topics include intrapreneurship, intellectual property, information privacy, cybersecurity, and internal controls, including managing the risk of embezzlement.

**ACCT 571: Real Estate Law**

(3-0) Cr. 3.

*Prereq:* Enrollment in the MRED or Permission of Department

Fundamentals of real estate finance and development from a legal perspective and in a transactional setting. Topics include land acquisition and finance, choice of entity, tax aspects, management, disposition of real property, and recent legal developments. Legal responsibilities of owners, designers, and contractors are also examined by highlighting typical contractual relationships in place throughout the design and construction process.

**ACCT 580: Exam Preparation**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for certified examinations. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580A: CPA Exam Preparation - AUD**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for the Auditing and Attestation (AUD) section of the Certified Public Accountant (CPA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580B: CPA Exam Preparation - BEC**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for the Business Environment and Concepts (BEC) section of the Certified Public Accountant (CPA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580C: CPA Exam Preparation - FAR**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for the Financial Accounting and Reporting (FAR) section of the Certified Public Accountant (CPA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580D: CPA Exam Preparation - REG**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for the Regulation (REG) section of the Certified Public Accountant (CPA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580E: CMA Exam Preparation - Part 1**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for Part 1 (Financial Planning, Performance, and Analytics) of the Certified Management Accountant (CMA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 580F: CMA Exam Preparation - Part 2**

Cr. 3. F.S.SS.

*Prereq:* Enrollment in Master of Accounting

Preparation for Part 2 (Strategic Financial Management) of the Certified Management Accountant (CMA) examination. Offered on a satisfactory-fail basis only. Only two of ACCT 580A, 580B, 580C, 580D, 580E, and 580F may count toward graduation.

**ACCT 581: Accounting for Decision Making**

(3-0) Cr. 3.

*Prereq:* Graduate Classification

Decision analysis applied to managerial accounting issues. Generation of information for management decision making and control. Responsibility accounting and non-recurring decisions.

**ACCT 582: Corporate Governance and Top Management**

(Cross-listed with MGMT). (3-0) Cr. 3.

*Prereq:* MGMT 503 or permission

Duties, structure, and functioning of top management teams and corporate boards of directors. CEO/board tenure and succession planning, top management compensation, board committee composition, assessment of CEO and board performance, theories of corporate governance, management of the corporate strategic agenda, governance codes, international governance, and chairman/CEO duality. Case studies and contemporary issues discussed.

**ACCT 583: Application and Communication in Managerial Accounting**

(Dual-listed with ACCT 483). Cr. 3.

*Prereq: ACCT 383 or ACCT 581*

Business simulation focusing on generation and communication of information to assist management with financial decision-making. Emphasis on developing teamwork, written communication, data visualization, and oral presentation skills.

**ACCT 584: Advanced Accounting Information Systems**

(Dual-listed with ACCT 484). (3-0) Cr. 3.

*Prereq: ACCT 384*

Advanced accounting information systems concepts; database design and information retrieval, internal controls within computerized accounting information systems, financial reporting in an electronic environment.

**ACCT 585: Taxes and Business Strategy**

(3-0) Cr. 3.

*Prereq: ACCT 485*

Integration of concepts from accounting, finance, and economics to determine how taxes affect business decisions. Provides students with a conceptual framework for thinking about business tax planning and applies it to various common business decisions.

**ACCT 586: Advanced Federal Taxation**

(3-0) Cr. 3.

*Prereq: ACCT 485*

Advanced coverage of federal taxation including issues related to the taxation of corporations, partnerships, estates and trusts, and their owners. Includes coverage of rules, concepts, background, and planning opportunities related to a number of common transactions involving these entities.

**ACCT 587: Volunteer Income Tax Assistance**

(Dual-listed with ACCT 487). (2-2) Cr. 3. Repeatable, maximum of 6 credits. S.

*Prereq: ACCT 285 or ACCT 501 or Permission of Department*

Introduction to and field work in the preparation of individual income tax returns (state and federal). Basic coverage of filing and residency status, taxable income, exemptions, deductions, and credits. Tax software usage and online filing.

**ACCT 588: Governmental and Non-profit Institution Accounting**

(Dual-listed with ACCT 488). (3-0) Cr. 3.

*Prereq: ACCT 386*

Accounting and financial reporting principles of local and state governments, including universities, schools, and hospitals. In addition, accounting and financial reporting of non-profit organizations will be addressed. Financial statements of local governmental units and the university are explored.

**ACCT 589: Corporate Social Responsibility Reporting**

(Dual-listed with ACCT 489). (3-0) Cr. 3. S.

*Prereq: Junior classification or higher*

Theory and practice of social and environmental reporting, the role of the corporation in society, and the mechanisms by which society might hold corporations accountable for their actions.

**ACCT 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Department*

For students wishing to do individual research in a particular area of accounting.

**ACCT 591: Fraud Examination and Prevention**

(3-0) Cr. 3.

*Prereq: ACCT 497 or ACCT 501*

Principles and methodology of fraud detection and deterrence. Addresses the causes and elements of fraud, asset theft, corruption, financial statement mis-representation, internal controls for fraud prevention, investigative evidence gathering, and legal aspects of fraud.

**ACCT 592: Financial Statement Analysis**

(3-0) Cr. 3.

*Prereq: ACCT 386 or ACCT 501*

Presentation and analysis of financial statement information from the point of view of the primary users of such data: owners and creditors. Topics include the financial reporting system, the primary financial statements, effects of accounting method choice on reported financial data, and firm valuation.

**ACCT 593: Corporate Taxation**

(Dual-listed with ACCT 493). (3-0) Cr. 3. F.S.

*Prereq: ACCT 386*

Introduction to the fundamentals of corporate taxation issues. Discussion of concepts related to the formation and capital structure of corporations. Identification and effect of tax codes and regulations related to corporations. Discussion of operating rules, earnings and profits, distributions, as well as redemptions and liquidations of corporations.

**ACCT 595: Advanced Financial Accounting Problems**

(Dual-listed with ACCT 495). (3-0) Cr. 3.

*Prereq: ACCT 387*

Accounting for business combinations and affiliated companies, intercompany transactions, and consolidated financial statements; Partnership accounting; Segment and Interim Reporting; Multinational accounting.

**ACCT 596: Accounting in the Global Economy**

(Dual-listed with ACCT 496). (3-0) Cr. 3.

*Prereq: ACCT 386 or ACCT 501*

Financial reporting issues in a global environment, including introduction to International Financial Reporting Standards (IFRS) and the potential for the use of IFRS in the U.S. Accounting and managerial issues faced by multinational corporations. Technical issues such as transfer pricing, inflation accounting and taxation will be discussed.

**ACCT 597: Advanced Auditing and Assurance Services**

(3-0) Cr. 3.

*Prereq: ACCT 497*

A study of advanced auditing and assurance issues. Topics include auditor independence, audit risk analysis, internal control evaluation and reporting, fraud detection, data analytic applications in auditing, audit reporting, auditors' legal liability, and non-financial information assurance.

**ACCT 598: Financial Accounting: Theory and Contemporary Issues**

(3-0) Cr. 3. F.

*Prereq: ACCT 386 or ACCT 501*

Theoretical discussion of the financial accounting and reporting environment. The usefulness of financial accounting information for decision making. Current financial accounting issues, the financial accounting standard setting process, FASB Standards Codification, and the role of the SEC in financial reporting.

**ACCT 599: Creative Component**

Cr. 2.

*Prereq: Admission to the Master of Accounting Program*

This course prepares students to complete their creative component project option in the Master of Accounting degree.

## Actuarial Science (ACSCI)

*Any experimental courses offered by ACSCI can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****ACSCI 391: Actuarial Exam P Lab**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: STAT 326 or STAT 341*

Material review for actuarial exam P. Offered on a satisfactory-fail basis only.

**ACSCI 392: Actuarial Exam FM Lab**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: MATH 240*

Material review for actuarial exam FM. Offered on a satisfactory-fail basis only.

**ACSCI 401: Loss Models I**

(3-0) Cr. 3.

*Prereq: STAT 341*

Probability distributions used to model uncertain events in actuarial practice. Aggregate models, evaluating the effect of various coverage modifications such as deductibles and limits. Construction of empirical models, calculations of common risk measures, and calculations of commonly used severity and frequency models. Various methods for estimating distributional parameters and their properties.

**ACSCI 402: Credibility Theory**

(3-0) Cr. 3.

*Prereq: ACSCI 401*

Method of moments and percentile matching. The method of maximum likelihood estimation for complete individual data, grouped data, censored and truncated data, and variance estimation. Bayesian estimation, including conjugate priors, posterior distributions, and the Poisson-gamma model. Credibility theory, including limited fluctuation credibility, applying Bayesian analysis for both discrete and continuous models, Buhlmann and Buhlmann-Straub models, and their relationship to Bayesian models. Simulating discrete and continuous random variables and the bootstrap method for estimating mean squared error.

## Advertising (ADVRT)

*Any experimental courses offered by ADVRT can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****ADVRT 230: Advertising Principles**

(3-0) Cr. 3.

Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy and appeals. Study of the creation of advertising.

**ADVRT 301: Research and Strategic Planning for Advertising and Public Relations**

(Cross-listed with P R). (3-0) Cr. 3.

*Prereq: ADVRT 230 or P R 220*

The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

**ADVRT 334: Advertising Creativity**

(2-1) Cr. 3.

*Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT 301 or P R 301*

Development and execution of creative advertising materials. Copywriting, art direction and computer applications. Creative strategy development, execution and evaluation.

**ADVRT 335: Advertising Media Planning**

(3-0) Cr. 3.

*Prereq: ADVRT 301 or P R 301*

Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

**ADVRT 336: Advertising Account Management**

(3-0) Cr. 3.

*Prereq: JL MC 110; Minimum of C+ in JL MC 201; ADVRT 301 or P R 301*

Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency communications, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

**ADVRT 390: Professional Skills Development**

(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits. F.S.

*Prereq: Minimum of C+ in JL MC 201; other vary by topic. Instructor permission for non-majors.*

Check with Greenlee School for course availability.

**ADVRT 391: Short Course Intensive**

(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits.

Focused short courses on timely concepts. Check with Greenlee School for course availability. Offered on a satisfactory-fail basis only.

**ADVRT 434: Advertising Campaigns**

(3-0) Cr. 3. F.S.

*Prereq: Minimum of C+ in ADVRT 334 or ADVRT 336; ADVRT major*

Development of advertising campaigns including primary and secondary research, target audience analysis, campaign strategy, media planning, budgeting and creative execution.

**ADVRT 435: Advertising Competition**

Cr. 1-3. Repeatable, maximum of 3 credits. Alt. S., offered irregularly.

*Prereq: Permission of instructor*

Preparation of materials for regional and national competitions. Junior or Senior classification strongly recommended.

**ADVRT 436: Advertising Creative Portfolio**

(3-0) Cr. 3. S.

*Prereq: Minimum of C+ in ADVRT 334, non-majors with instructor permission*

Advanced advertising writing and design. May include campaign development for competitions. Other projects include creative development in a variety of media for an online portfolio.

**ADVRT 473: Social Media Strategy**

(Cross-listed with JL MC, P R). (3-0) Cr. 3. F.S.

*Prereq: Junior classification*

The strategic use of social media, from both an advertising and public relationship standpoint, to the advantage of a client or organization. Examination and analysis of the social media space from a business perspective. Best practices in the areas of strategic planning, tactical execution, and measurement of social media platforms.

**ADVRT 490: Independent Study in Communication**

Cr. arr.

*Prereq: Junior classification; Permission of Instructor*

Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. No more than 3 credits of ADVRT/JLMC/PR 490 may be used toward a degree in the Greenlee School.

**ADVRT 497: Special Topics in Communication**

(Cross-listed with JL MC, P R). Cr. 1-3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

Seminars or one-time classes on topics of relevance to students in communication. See Schedule of Classes for topics.

**ADVRT 499: Professional Media Internship**

Cr. 1-3. F.S.SS.

*Prereq: ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in P R 321]); Advisor Approval*

See ADVRT/JL MC/P R 499A or 499B. Offered on a satisfactory-fail basis only.

**ADVRT 499A: Professional Media Internship: Required**

Cr. 3. F.S.SS.

*Prereq: ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in P R 321]); Advisor Approval*

Initial, required internship. A 400-hour (for 3 credits) internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

**ADVRT 499B: Professional Media Internship: Optional**

Cr. 1-3. F.S.SS.

*Prereq: ([JL MC major; JL MC 110; minimum of C+ in JL MC 302 or JL MC 303] or [ADVRT major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in JL MC 201] or [P R major; JL MC 110; ADVRT 301 or P R 301; minimum of C+ in P R 321]); Advisor Approval*

Optional internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only.

## Aerospace Engineering (AER E)

**Any experimental courses offered by AER E can be found at:**

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**AER E 160: Aerospace Engineering Problems With Computer Applications Laboratory**

(2-2) Cr. 3. F.S.

*Prereq: (MATH 143 or satisfactory scores on mathematics placement examinations); credit or concurrent enrollment in MATH 165*

Solving aerospace engineering problems and presenting solutions through technical reports. Significant figures and estimation. SI units. Graphing and curve fitting. Introduction to aerospace engineering and engineering design. Spreadsheet programs. History of aerospace. Systems thinking. Team projects. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**AER E 160H: Aerospace Engineering Problems With Computer Applications Laboratory: Honors**

(2-2) Cr. 3. F.S.

*Prereq: (MATH 143 or satisfactory scores on mathematics placement examinations); credit or concurrent enrollment in MATH 165*

Solving aerospace engineering problems and presenting solutions through technical reports. Significant figures and estimation. SI units. Graphing and curve fitting. Introduction to aerospace engineering and engineering design. Spreadsheet programs. History of aerospace. Systems thinking. Team projects. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**AER E 161: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering**

(3-2) Cr. 4. F.S.

*Prereq: Credit or concurrent enrollment in AER E 160 or (A B E 160, C E 160, CH E 160, CPR E 185, E E 185, ENGR 160, I E 148, M E 160, or S E 185)*

Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

**AER E 161H: Numerical, Graphical and Laboratory Techniques for Aerospace Engineering: Honors**

(3-2) Cr. 4. F.S.

*Prereq: AER E 160 or (A B E 160, C E 160, CH E 160, CPR E 185, E E 185, ENGR 160, I E 148, M E 160, or S E 185)*

Computer-based problem solving using Matlab(R), with emphasis on numerical methods. Introduction to solid modeling and aerospace design using SolidWorks.

**AER E 192: Aerospace Seminar**

Cr. R. S.

Vectors, differentiation, integration, matrices, and systems of linear equations.

**AER E 192H: Aerospace Seminar: Honors.**

Cr. R. S.

Vectors, differentiation, integration, matrices, and systems of linear equations.

**AER E 261: Introduction to Performance and Design**

(3-0) Cr. 3. F.S.

*Prereq: MATH 166; PHYS 231; PHYS 231L; Credit or concurrent enrollment in AER E 161*

Aerodynamics of the airplane, lift and drag, drag polar, propulsion characteristics of turbojets and piston props, level flight, range, endurance, climbing flight, turning flight, take-off and landing, design examples.

**AER E 265: Scientific Balloon Engineering and Operations**

(Cross-listed with MTEOR). (0-2) Cr. 1. Repeatable. F.

Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

**AER E 290: Aerospace Engineering Independent Study: Independent Study**

Cr. 1-2. Repeatable.

*Prereq: Sophomore classification; Department Permission*

**AER E 290A: Aerospace Engineering Independent Study: Flight ground instruction**

Cr. 1-2. Repeatable.

*Prereq: Sophomore classification; Department Permission***AER E 290B: Aerospace Engineering Independent Study: In-flight training**

Cr. 1-2. Repeatable.

*Prereq: AER E 301; Department Permission***AER E 290C: Aerospace Engineering Independent Study: Other**

Cr. 1-2. Repeatable.

*Prereq: AER E 301; Department Permission***AER E 294: Make to Innovate I**

Cr. 1. Repeatable, maximum of 3 credits. F.S.

*Prereq: Freshman or Sophomore classification*

Multidisciplinary projects to engage students in the fundamentals of engineering, project management, systems engineering, teamwork, and oral and visual communication. Students will define and attain their team objectives and milestones that are approved by the instructor. Can only be used toward graduation in these cases. To make credit deficiencies in 100 or 200 level courses. No more than 2 credits of Aer E 294X can be used to make-up credit deficiencies in 100 or 200 level courses. Cannot be used in any category or technical electives in the Aer E curriculum

**AER E 301: Flight Experience**

Cr. R. F.S.

*Prereq: Credit or concurrent enrollment in AER E 355*

Two hours of in-flight training and necessary ground instruction. Course content prescribed by the Aerospace Engineering Department. Ten hours of flight training certified in a pilot log book can be considered by the course instructor as evidence of satisfactory performance in the course. Offered on a satisfactory-fail basis only.

**AER E 310: Aerodynamics I: Incompressible Flow**

(3-0) Cr. 3. F.S.

*Prereq: MATH 265; C- or better in AER E 261*

Introduction to fluid mechanics and aerodynamics. Fluid properties and kinematics. Conservation equations in differential and integral form. Bernoulli's equation. Basic potential flow concepts and solutions. Boundary layer concept. Incompressible flow over airfoils and wings. Examples of numerical methods. Applications of multi-variable calculus to fluid mechanics and aerodynamics.

**AER E 311: Aerodynamics II: Compressible Flow**

(3-0) Cr. 3. F.S.

*Prereq: AER E 310; M E 231*

Review of thermodynamics, energy equation, compressible flow, and isentropic flow. Normal and oblique shocks. Mach waves and expansion fans. Applications to ducts and nozzles. Compressible airfoil and wing theory. Introduction to advanced compressible flow topics.

**AER E 321: Flight Structures Analysis**

(3-0) Cr. 3. F.S.

*Prereq: E M 324; credit or concurrent enrollment in MATH 266 or MATH 267*

Introduction to elasticity, airworthiness, and flight loads. Introduction to fatigue. Materials selection for flight applications. Thin walled cross-sections under bending, torsion, and shear loads using classical methods. Shear center. Column buckling. Matrix methods of structural analysis.

**AER E 322: Aerospace Structures Laboratory**

(1-2) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in AER E 321*

Design of experiments. Data analysis. Strain gage installation. Measurement of stiffness/strength of aluminum. Analysis/fabrication/testing of riveted joints. Shear/bending measurements in beam sections. Analysis/measurement of strains in frames. Buckling of columns. Stress concentration. Vibration testing of beams and plates. Fabrication/testing of composites.

**AER E 331: Flight Control Systems I**

(3-0) Cr. 3. F.S.

*Prereq: AER E 355*

Linear system analysis. Control system designs using root-locus and frequency response methods. Applications in flight control systems.

**AER E 344: Aerodynamics and Propulsion Laboratory**

(2-2) Cr. 3. F.S.

*Prereq: AER E 310; concurrent enrollment in AER E 311*

Similitude and dimensional analysis. Measurement uncertainty analysis. Pressure and velocity measurement methods and instruments. Pressure distribution around a circular cylinder. Aerodynamic performance of low-speed airfoils. Airfoil wake flow; Boundary layer flow. Flow visualization techniques for supersonic flows and de Laval nozzles.

**AER E 351: Astrodynamics I**

(3-0) Cr. 3. F.S.

*Prereq: M E 345*

Introduction to astrodynamics. Two-body Keplerian satellite and planetary motion. Geocentric and extraterrestrial trajectories and applications. Ballistic missiles.

**AER E 355: Aircraft Flight Dynamics and Control**

(3-0) Cr. 3. F.S.

*Prereq: AER E 261; M E 345; MATH 267*

Aircraft rigid body equations of motion, linearization, and modal analysis. Longitudinal and lateral-directional static and dynamic stability analysis. Flight handling characteristics analysis. Longitudinal and lateral-directional open loop response to aircraft control inputs. Aircraft flight handling qualities.

**AER E 361: Computational Techniques for Aerospace Design**

(2-2) Cr. 3. F.S.

*Prereq: AER E 310; E M 324; (ENGL 309 or ENGL 314); M E 345; MATH 267*

Advanced programming, workstation environment, and development of computational tools for aerospace analysis and design. Technical report writing.

**AER E 362: Aerospace Systems Integration**

(3-0) Cr. 3. F.S.

*Prereq: ENGL 250; (Junior classification in Aerospace Engineering or Permission of Instructor)*

Emphasis on impact of component interfaces in aerospace systems. Understand how changes in variables associated with individual components impact the performance of the aerospace system. Solving aerospace engineering problems and presenting solutions through reports. Specific integration challenges include: capturing implicit disciplinary interactions (e.g. structures/aerodynamics, propulsion/aerodynamics, etc.), propagating tolerances through the system (i.e. uncertainty modeling), balancing component attributes in the system objective.

**AER E 381: Introduction to Wind Energy**

(3-0) Cr. 3. S.

*Prereq: MATH 166; PHYS 231; PHYS 231L*

Basic introduction to the fundamentals of Wind Energy and Wind Energy conversion systems. Topics include but not limited to various types of wind energy conversion systems and the aerodynamics, blade and tower structural loads, kinematics of the blades and meteorology.

**AER E 407: Applied Formal Methods**

(Dual-listed with AER E 507). (Cross-listed with COM S). Cr. 3. S.

*Prereq: For AER E majors: AER E 361, For COM S majors: COM S 311, For other majors: AER E 361 or (COM S 311 or an equivalent course); Permission of Instructor*

Introduction to the fundamentals of formal methods, a set of mathematically rigorous techniques for the formal specification, validation, and verification of safety- and security-critical systems. Tools, techniques, and applications of formal methods with an emphasis on real-world use-cases such as enabling autonomous operation. Build experience in writing mathematically analyzable specifications from English operational concepts for real cyberphysical systems, such as aircraft and spacecraft. Review capabilities and limitations of formal methods in the design, verification, and system health management of today's complex systems.

**AER E 411: Aerospace Vehicle Propulsion**

(3-0) Cr. 3. F.S.

*Prereq: AER E 311; AER E 344*

Atmospheric propulsion system performance and cycle analysis. Momentum theorem, thrust and propulsive efficiency. Thermodynamics of compressible flow with heat and work addition. Components and principles of turbojet, ramjet, and turbofan aircraft engines. Introduction to rocket engines.

**AER E 412: Spacecraft Electric Propulsion**

(3-0) Cr. 3. S.

*Prereq: AER E 311*

Electricity and magnetism. Plasma physics. Ion engine performance. Introduction to advanced electromagnetic propulsion systems. Energy sources and nuclear propulsion. Space mission requirements.

**AER E 415: Rocket Propulsion**

(3-0) Cr. 3. F.S.

*Prereq: AER E 311; AER E 344*

Components and principles of liquid rocket engines, solid rocket motors, and hybrid rocket motors. Rocket flight performance and rocket staging. Combustion and thermochemistry. Rocket cooling and nozzle heat transfer. Introduction to nuclear thermal propulsion and electric propulsion systems. Applications to spacecraft.

**AER E 417: Experimental Mechanics**

(Dual-listed with AER E 517). (Cross-listed with E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* E M 324; MAT E 273

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

**AER E 421: Advanced Flight Structures**

(2-2) Cr. 3. F.S.

*Prereq:* AER E 321; MATH 266 or MATH 267

Analysis of indeterminate flight structures including finite element laboratory. Static analysis of complex structural components subject to thermal and aerodynamic loads. Analytical and finite element solutions for stresses and displacements of membrane, plane stress, plate structures. Buckling of beams, frames, and plate structures. Introduction to vibration of flight structures. Steady state and transient structural response using normal modal analysis.

**AER E 422: Vibrations and Aeroelasticity**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* AER E 321 or E M 324

Vibration theory. Steady and unsteady flows. Mathematical foundations of aeroelasticity, static and dynamic aeroelasticity. Linear unsteady aerodynamics, non-steady aerodynamics of lifting surfaces. Stall flutter. Aeroelastic problems in civil engineering structures. Aeroelastic problems of rotorcraft. Experimental aeroelasticity. Selected wind tunnel laboratory experiments.

**AER E 423: Composite Flight Structures**

(2-2) Cr. 3. S.

*Prereq:* E M 324; MAT E 273

Fabrication, testing and analysis of composite materials used in flight structures. Basic laminate theory of beams, plates and shells. Manufacturing and machining considerations of various types of composites. Testing of composites for material properties, strength and defects. Student projects required.

**AER E 426: Design of Aerospace Structures**

(Dual-listed with AER E 526). (2-2) Cr. 3. F.

*Prereq:* E M 324

Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability.

**AER E 432: Flight Control Systems II**

(3-0) Cr. 3. F.

*Prereq:* AER E 331

Aircraft lateral directional stability augmentation. Launch vehicle pitch control system design. Control of flexible vehicles. Satellite attitude control. Flight control designs based on state-space methods. Introduction to sample-data systems.

**AER E 433: Spacecraft Dynamics and Control**

(3-0) Cr. 3. F.

*Prereq:* M E 345

Three-dimensional rotational kinematics and attitude dynamics of a rigid body in space. Classical stability analysis of spinning spacecraft with or without energy dissipation. Attitude dynamics, stability, and control of spacecraft in a circular orbit in the presence of gravity-gradient torques. Introduction to spacecraft attitude determination and control systems (ADCS) with emphasis on modern attitude determination algorithms. Simulation of spacecraft attitude dynamics and control problems of practical interest using programming and analysis software.

**AER E 442: V/STOL Aerodynamics and Performance**

(3-0) Cr. 3. F.

*Prereq:* AER E 261

Introduction to the aerodynamics, performance, stability, control and critical maneuvering characteristics of V/STOL vehicles. Topics include hovercrafts, jet flaps, ducted fans and thrust vectored engines.

**AER E 445: Experimental Flow Mechanics and Heat Transfer**

(Dual-listed with AER E 545). (3-0) Cr. 3. F.

*Prereq:* A B E 378 or AER E 310 or M E 335

Similitude and dimensional analysis. Measurement uncertainty analysis; Fluid mechanical apparatus: wind tunnel and water tunnels. Various experimental techniques widely used for fluid mechanics, aerodynamics, heat transfer, and combustion studies: Pressure gauge and transducers; Pitot tube; hot wire anemometry; Shadowgraph and Schlieren Photography; laser Doppler velocimetry; particle image velocimetry (PIV); advanced PIV techniques (stereo PIV, 3-D PIV, Tomographic PIV, Holograph PIV and microscopic PIV); laser induced fluorescence; pressure sensitive painting, temperature sensitive painting; molecular tagging velocimetry; molecular tagging thermometry. Extensive applications and laboratory experiments will be included.

**AER E 446: Computational Fluid Dynamics**

(3-0) Cr. 3. F.

*Prereq: AER E 311; AER E 361*

Introduction to computational fluid dynamics. Discretization, consistency, and stability. Explicit and implicit methods for ordinary and partial differential equations. Linearization techniques. Iterative and direct solution algorithms. Numerical methods for parabolic, elliptic and hyperbolic equations. Curvilinear coordinates and numerical grid generation. Applications to Euler, boundary-layer and Navier-Stokes equations. Proficiency in at least one programming language recommended.

**AER E 448: Fluid Dynamics of Turbomachinery**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: AER E 311 or M E 335*

Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches.

**AER E 451: Astrodynamics II**

(3-0) Cr. 3. F.S.

*Prereq: AER E 351*

Orbit determination and prediction using Gibb's and Gauss' methods. Advanced orbit maneuvers, triple-, and fixed-impulse; universal variables; Kepler's problem. Earth gravity field models and gravity harmonics, orbit perturbations, advanced dynamics, variational methods, relative orbital mechanics, and Clohessy-Wiltshire equations.

**AER E 452: Introduction To Systems Engineering And Analysis**

(Cross-listed with I E). Cr. 3. SS.

*Prereq: Junior classification in an Engineering major*

Principles of systems engineering to include problem statement formulation, stakeholder analysis, requirements definition, system architecture and concept generation, system integration and interface management, verification and validation, and system commissioning and decommissioning operations. Introduction to discrete event simulation processes. Students will work in groups to propose, research, and present findings for a systems engineering topic of current relevance.

**AER E 461: Modern Design Methodology with Aerospace Applications**

(2-2) Cr. 3. F.S.

*Prereq: AER E 311; AER E 321; AER E 322; AER E 344; AER E 351; AER E 355; AER E 361*

Introduction to modern engineering design methodology. Computational constrained optimal design approach including selection of objective function, characterization of constraint system, materials and strength considerations, and sensitivity analyses. The class contains two focus sections. One section assigns design projects in Aeronautics, and the other assigns design projects in Astronautics.

**AER E 462: Design of Aerospace Systems**

(1-4) Cr. 3. F.S.

*Prereq: AER E 461*

Fundamental principles used in engineering design of aircraft, rockets, and space systems. Preliminary design of aerospace vehicles. Engineering Ethics. The class contains two focus sections. One section assigns design projects in Aeronautics, and the other section assigns design projects in Astronautics.

**AER E 463: Introduction to Multidisciplinary Design Optimization**

(Dual-listed with AER E 563). (3-0) Cr. 3. F.

*Prereq: Senior classification in College of Engineering or Permission of Instructor*

Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

**AER E 464: Spacecraft Systems**

(3-0) Cr. 3. S.

*Prereq: AER E 351*

An examination of spacecraft systems including attitude determination and control, power, thermal control, communications, propulsion, guidance, navigation, command and data handling, and mechanisms. Explanation of space and operational environments as they impact spacecraft design. Includes discussion of safety, reliability, quality, maintainability, testing, cost, legal, and logistics issues.

**AER E 468: Large-Scale Complex Engineered Systems (LSCES)**

(Dual-listed with AER E 568). (Cross-listed with I E). (3-0) Cr. 3. S.

*Prereq: Senior classification in College of Engineering or Permission of Instructor*

Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

**AER E 480: Ultrasonic Nondestructive Evaluation**

(Cross-listed with E M). (3-0) Cr. 3. S.

*Prereq: E M 324; (MATH 266 or MATH 267); PHYS 232*

Introduction to stress/strain, Hooke's law, and elastic wave propagation in two dimensions in isotropic media. Ultrasonic plane-wave reflection and transmission; and simple straight-crested guided waves. Transducer construction, behavior, and performance. Simple signal analysis and discrete signal processing. The last few weeks of the course are devoted to case studies.

**AER E 483: Aeroacoustics**

(Dual-listed with AER E 583). Cr. 3.

*Prereq: (AER E 311 or M E 335); (MATH 266 or MATH 267)*

Noise metrics, Linear wave equation and its solution in 1-, 2-, and 3-D using Green's functions. Propagation of sound in free and confined spaces. Aerodynamic noise sources in engineering machines: aircraft engine noise, airfram noise, wind turbine noise, etc.

**AER E 490: Aerospace Engineering Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490B: Aerospace Engineering Independent Study: Propulsion**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490C: Aerospace Engineering Independent Study: Aerospace Structures**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490D: Aerospace Engineering Independent Study: Flight Dynamics**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490E: Aerospace Engineering Independent Study: Spacecraft Systems**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490F: Aerospace Engineering Independent Study: Flight Control Systems**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490G: Aerospace Engineering Independent Study: Aeroelasticity**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490H: Aerospace Engineering Independent Study: Independent Study, Honors**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490I: Aerospace Engineering Independent Study: Design**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490J: Aerospace Engineering Independent Study: Non-destructive Evaluation**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490K: Aerospace Engineering Independent Study: Wind Engineering**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490L: Aerospace Engineering Independent Study: Multi-functional Ultra-light Structures**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490M: Aerospace Engineering Independent Study: Intelligent Systems and Autonomy**

Cr. 1-6. Repeatable. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 490O: Aerospace Engineering Independent Study: Other**

Cr. 1-6. Repeatable.

*Prereq: Junior or Senior classification; Department Permission*

**AER E 494: Make to Innovate II**

Cr. 2-3. Repeatable, maximum of 3 times. F.S.

*Prereq: Junior or Senior classification; Permission of Instructor*

Multidisciplinary projects to engage students in the fundamentals of engineering, project management, systems engineering, teamwork, and oral and visual communication. Students will define and attain their team objectives and milestones that are approved by their instructors. Maximum of 6 credits may count toward graduation as Technical Elective.

**AER E 499: Senior Project**

Cr. 1-2. Repeatable. F.S.

*Prereq: Senior classification; credit or concurrent enrollment in AER E 491*

Development of aerospace principles and concepts through individual research and projects. Written report.

**Courses primarily for graduate students, open to qualified undergraduates:**

**AER E 501: Advanced Engineering Analysis**

(3-0) Cr. 3. F.

*Prereq: Math 267 or equivalent*

Linear ordinary differential equations with variable coefficients; hyperbolic, parabolic, and elliptic equations; tensors. None

**AER E 507: Applied Formal Methods**

(Dual-listed with AER E 407). (Cross-listed with COM S). Cr. 3. S.

*Prereq: For AER E majors: AER E 361, For COM S majors: COM S 311, For other majors: AER E 361 or (COM S 311 or an equivalent course); Permission of Instructor*

Introduction to the fundamentals of formal methods, a set of mathematically rigorous techniques for the formal specification, validation, and verification of safety- and security-critical systems. Tools, techniques, and applications of formal methods with an emphasis on real-world use-cases such as enabling autonomous operation. Build experience in writing mathematically analyzable specifications from English operational concepts for real cyberphysical systems, such as aircraft and spacecraft. Review capabilities and limitations of formal methods in the design, verification, and system health management of today's complex systems.

**AER E 511: Wind Energy System Design**

(Cross-listed with WESEP). (3-0) Cr. 3.

*Prereq: WESEP 501 and WESEP 502*

Advanced design, control, and operation of wind plants. Topics include electromechanical energy conversion systems, aerodynamic and aeroelastic loads, optimal control of wind farms, life cycle management strategies, tall tower design, and prediction of component residual life.

**AER E 514: Advanced Mechanics of Materials**

(Cross-listed with E M). (3-0) Cr. 3. F.

*Prereq: E M 324*

Theory of stress and strain, stress-strain relationships. Unsymmetrical bending, curved beams, shear center. Torsion of thin-walled noncircular sections. Equilibrium, compatibility equations. Airy stress functions. Membrane stresses in shells, thick-walled cylinders.

**AER E 515: Atomistic and Multiscale Mechanics of Materials**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: E M 510; E M 516; AER E 525*

Introduction to atomistic and multiscale computational methodology for the graduate-level study of mechanics of materials. At the end of this course, students will have an awareness and understanding of the application of atomistic and multiscale materials modeling techniques to fracture, plasticity, phase transformation, corrosion, thermal and mass transport in a variety of engineering materials.

**AER E 517: Experimental Mechanics**

(Dual-listed with AER E 417). (Cross-listed with E M). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: E M 324; MAT E 273*

Introduction to fundamental concepts for force, displacement, stress and strain measurements for structures and materials applications. Strain gage theory and application. Full field deformation measurements with laser interferometry and digital image processing. Advanced experimental concepts at the micro- and nano-scale regimes. Selected laboratory experiments.

**AER E 521: Airframe Analysis**

(3-0) Cr. 3. F.

*Prereq: AER E 421 or E M 424*

Analysis of static stresses and deformation in continuous aircraft structures. Various analytical and approximate methods of analysis of isotropic and anisotropic plates and shells.

**AER E 522: Design and Analysis of Composite Materials**

(3-0) Cr. 3. F.

*Prereq: E M 324*

Composite constituent materials, micro-mechanics, laminate analysis, hygro-thermal analysis, composite failure, joining of composites, design of composite beams and plates, honeycomb core, manufacturing of composites, short fiber composites, and demonstration laboratory.

**AER E 524: Numerical Mesh Generation**

(3-0) Cr. 3. F.

*Prereq: MATH 385, proficiency in programming*

Introduction to modern mesh generation techniques. Structured and unstructured mesh methods, algebraic and PDE methods, elliptic and hyperbolic methods, variational methods, error analysis, Delaunay triangulation, data structures, geometric modeling with B-spline and NURBS surfaces, surface meshing.

**AER E 525: Finite Element Analysis**

(Cross-listed with E M). (3-0) Cr. 3. S.

*Prereq: E M 425, MATH 385*

Variational and weighted residual approach to finite element equations. Emphasis on two- and three-dimensional problems in solid mechanics. Isoparametric element formulation, higher order elements, numerical integration, imposition of constraints and penalty, convergence, and other more advanced topics. Use of two- and three-dimensional computer programs. Dynamic and vibrational problems, eigenvalues, and time integration. Introduction to geometric and material nonlinearities.

**AER E 526: Design of Aerospace Structures**

(Dual-listed with AER E 426). (2-2) Cr. 3. F.

*Prereq: E M 324*

Detailed design and analysis of aerospace vehicle structures. Material selection, strength, durability and damage tolerance, and validation analysis. Design for manufacturability.

**AER E 531: Automatic Control of Flight Vehicles**

(3-0) Cr. 3. S.

*Prereq: AER E 331*

Applications of classical and modern linear control theory to automatic control of flight vehicles. Spacecraft attitude control. Control of flexible vehicles. Linear-quadratic regulator design applications.

**AER E 532: Compressible Fluid Flow**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: AER E 310, 311 or equivalent*

Thermodynamics of compressible flow. Viscous and inviscid compressible flow equations. One dimensional steady flow; isentropic flow, shocks, expansions. Multidimensional compressible flow aspects. Linear and nonlinear wave analysis and method of characteristics. Subsonic, transonic, supersonic and hypersonic flows.

**AER E 538: Foundations of Engineering Education**

(Cross-listed with ENGR, HG ED). Cr. 3. F.

*Prereq: Engineering graduate students or instructor permission required*

Introduction to the field of engineering education, with an emphasis on engineering education history, existing challenges, teaching and learning pedagogies and theories, research opportunities, and research methodologies. The course goal is to develop students as scholars and to have students think critically about engineering and education. Students will apply the knowledge gained from this course to propose a research project related to their own discipline. The proposal is intended to help students learn and apply the key elements of engineering education research. This course is intended for students with a variety of interests and career goals, including those interested in learning to conduct engineering education research, exploring research discoveries about teaching and learning, and engaging with the engineering education community.

**AER E 541: Incompressible Flow Aerodynamics**

(3-0) Cr. 3. F.

*Prereq: AER E 310 or M E 335 or equivalent*

Kinematics and dynamics of fluid flow. Derivation of the Navier-Stokes, Euler and potential flow equations. Introduction to generalized curvilinear coordinates. Ideal fluids. Two-dimensional and three-dimensional potential flow. Complex variable methods.

**AER E 545: Experimental Flow Mechanics and Heat Transfer**

(Dual-listed with AER E 445). (3-0) Cr. 3. F.

*Prereq: A B E 378 or AER E 310 or M E 335*

Similitude and dimensional analysis. Measurement uncertainty analysis; Fluid mechanical apparatus: wind tunnel and water tunnels. Various experimental techniques widely used for fluid mechanics, aerodynamics, heat transfer, and combustion studies: Pressure gauge and transducers; Pitot tube; hot wire anemometry; Shadowgraph and Schlieren Photography; laser Doppler velocimetry; particle image velocimetry (PIV); advanced PIV techniques (stereo PIV, 3-D PIV, Tomographic PIV, Holograph PIV and microscopic PIV); laser induced fluorescence; pressure sensitive painting, temperature sensitive painting; molecular tagging velocimetry; molecular tagging thermometry. Extensive applications and laboratory experiments will be included.

**AER E 546: Computational Fluid Mechanics and Heat Transfer I**

(Cross-listed with M E). (3-0) Cr. 3. F.

*Prereq: AER E 310 or M E 335, and programming experience*

Basic concepts of discretization, consistency, and stability. Explicit and implicit methods for ordinary differential equations. Methods for each type of partial differential equation. Iterative solution methods; curvilinear grids. Students will program basic algorithms.

**AER E 547: Computational Fluid Mechanics and Heat Transfer II**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: AER E 546 or equivalent*

Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling.

**AER E 551: Orbital Mechanics**

(3-0) Cr. 3. F.

*Prereq: AER E 351*

Review of 2-body problem. Orbital maneuvers. Relative motion in orbit. Orbit perturbation analysis. Gravity field expansions and effects on orbiters. 3-body problem with applications.

**AER E 556: Guidance and Navigation of Aerospace Vehicles**

(3-0) Cr. 3. F.

*Prereq: AER E 331*

Principles of guidance systems for spacecraft, launch vehicles, homing and ballistic missiles. Optimal guidance. Interplanetary transfer guidance with low thrust. Principles of inertial navigation. Theory and applications of the Global Positioning System. Celestial navigation procedures. Application of Kalman filtering to recursive navigation theory.

**AER E 563: Introduction to Multidisciplinary Design Optimization**

(Dual-listed with AER E 463). (3-0) Cr. 3. F.

*Prereq:* Senior classification in College of Engineering or Permission of Instructor

Introduction to the theory and methods of Multidisciplinary Design Optimization (MDO), including system coupling, system sensitivity methods, decomposition methods, MDO formulations (such as multi-discipline feasible (MDF), individual discipline feasible (IDF) and all-at-once (AAO) approaches, and MDO search methods.

**AER E 564: Fracture and Fatigue**

(Cross-listed with E M, M E, M S E). (3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq:* E M 324 and either MAT E 216 or MAT E 273 or MAT E 392.

*Undergraduates:* Permission of instructor

Materials and mechanics approach to fracture and fatigue.

Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue.

**AER E 565: Systems Engineering and Analysis**

(Cross-listed with E E, I E). (3-0) Cr. 3.

*Prereq:* Coursework in basic statistics

Introduction to organized multidisciplinary approach to designing and developing systems. Concepts, principles, and practice of systems engineering as applied to large integrated systems. Life-cycle costing, scheduling, risk management, functional analysis, conceptual and detail design, test evaluation, and systems engineering planning and organization. Not available for degrees in industrial engineering

**AER E 566: Avionics Systems Engineering**

(Cross-listed with E E). (3-0) Cr. 3. S.

*Prereq:* E E 565

Avionics functions. Applications of systems engineering principles to avionics. Top down design of avionics systems. Automated design tools.

**AER E 568: Large-Scale Complex Engineered Systems (LSCES)**

(Dual-listed with AER E 468). (Cross-listed with I E). (3-0) Cr. 3. S.

*Prereq:* Senior classification in College of Engineering or Permission of Instructor

Introduction to the theoretical foundation and methods associated with the design for large-scale complex engineered systems, including objective function formation, design reliability, value-driven design, product robustness, utility theory, economic factors for the formation of a value function and complexity science as a means of detecting unintended consequences in the product behavior.

**AER E 569: Mechanics of Composite and Combined Materials**

(Cross-listed with E M, M S E). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq:* E M 324

Mechanics of fiber-reinforced materials. Micromechanics of lamina. Macromechanical behavior of lamina and laminates. Strength and interlaminar stresses of laminates. Failure criteria. Stress analysis of laminates. Thermal moisture and residual stresses. Joints in composites.

**AER E 570: Wind Engineering**

(Cross-listed with E M). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq:* A B E 378, M E 345

Atmospheric circulations, atmospheric boundary layer wind, bluff-body aerodynamics, aeroelastic phenomena, wind-tunnel and full-scale testing, wind-load code and standards, effect of tornado and thunderstorm winds, design applications.

**AER E 572: Turbulence**

(Cross-listed with CH E). (3-0) Cr. 3.

*Prereq:* AER E 541 or M E 538

Qualitative features of turbulence. Statistical representation of turbulent velocity fields: averages, moments, correlations, length and time scales and the energy cascade. Averaged equations of motion, closure requirements, Reynolds averaged models. Homogeneous shear flows, free shear flows, boundary layers. Numerical simulation of turbulence: DNS, LES, DES.

**AER E 573: Random Signal Analysis and Kalman Filtering**

(Cross-listed with E E, M E). (3-0) Cr. 3. F.

*Prereq:* E E 324 or AER E 331 or M E 370 or M E 411 or MATH 341

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics.

**AER E 574: Optimal Control**

(Cross-listed with E E, M E). (3-0) Cr. 3. S.

*Prereq:* E E 577

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls.

**AER E 575: Introduction to Robust Control**

(Cross-listed with E E, M E). (3-0) Cr. 3.

*Prereq: E E 577*

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H<sub>2</sub>, H<sub>∞</sub>, and L<sub>1</sub> control problems. Tools for robustness analysis and synthesis.

**AER E 576: Digital Feedback Control Systems**

(Cross-listed with E E, M E). (3-0) Cr. 3. F.

*Prereq: E E 475 or AER E 432 or M E 411 or MATH 415; and MATH 267*

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems.

**AER E 577: Linear Systems**

(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. F.

*Prereq: E E 324 or AER E 331 or MATH 415; and MATH 207*

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems.

**AER E 578: Nonlinear Systems**

(Cross-listed with E E, M E, MATH). (3-0) Cr. 3. S.

*Prereq: E E 577*

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques.

**AER E 581: Perturbation Methods**

(3-0) Cr. 3. F.

*Prereq: MATH 267*

Mathematical perturbation methods with applications to ordinary and partial differential equations. Perturbation expansions. Order of magnitude and gauge functions. Matched asymptotic expansions. Boundary layer problems. Multiple scales. Resonance and mode coupling. Solvability conditions for differential equations. Physical and engineering applications.

**AER E 583: Aeroacoustics**

(Dual-listed with AER E 483). Cr. 3.

*Prereq: (AER E 311 or M E 335); (MATH 266 or MATH 267)*

Noise metrics, Linear wave equation and its solution in 1-, 2-, and 3-D using Green's functions. Propagation of sound in free and confined spaces. Aerodynamic noise sources in engineering machines: aircraft engine noise, airframe noise, wind turbine noise, etc.

**AER E 590: Aerospace Engineering Independent Study: Special Topics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590B: Aerospace Engineering Independent Study: Propulsion**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590C: Aerospace Engineering Independent Study: Aerospace Structures**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590D: Aerospace Engineering Independent Study: Flight Dynamics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590E: Aerospace Engineering Independent Study: Spacecraft Systems**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590F: Aerospace Engineering Independent Study: Flight Control Systems**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590G: Aerospace Engineering Independent Study: Aeroelasticity**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590H: Aerospace Engineering Independent Study: Viscous Aerodynamics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590I: Aerospace Engineering Independent Study: Design**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590J: Aerospace Engineering Independent Study: Hypersonics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590K: Aerospace Engineering Independent Study: Computational Aerodynamics**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590L: Aerospace Engineering Independent Study: Optimization**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590M: Aerospace Engineering Independent Study: Non Destructive Evaluation**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590N: Aerospace Engineering Independent Study: Wind Engineering**

Cr. 1-5. Repeatable, maximum of 3 times.

**AER E 590Q: Aerospace Engineering Independent Study: Astrodynamics**

Cr. 1-5. Repeatable, maximum of 3 times. F.S.SS.

Independent Study for Astrodynamics.

**AER E 590R: Aerospace Engineering Independent Study: Ocean Wave Energy Conversion**

Cr. 1-5. Repeatable, maximum of 3 times. F.S.SS.

Independent Study for Ocean Wave Energy Conversion.

**AER E 591: Graduate Student Seminar Series**

Cr. R. Repeatable.

Presentation of professional topics by department graduate students. Development of presentation skills used in a professional conference setting involving question and answer format.

**AER E 599: Creative Component**

Cr. 1-5. Repeatable.

**Courses for graduate students:****AER E 640: Stability of Fluid Flow**

(3-0) Cr. 3.

*Prereq: AerE 541*

Theoretical methods of stability analysis; linear analysis of exchange of stability and over stability; bifurcation of equilibria; most dangerous modes and pattern formation; shear flow stability theorems. Physical mechanisms. Tollmein-Schlichting waves, disintegration of capillary jets, Benard convection, Taylor-Couette flow, centrifugal instability, double diffusion.

**AER E 647: Advanced Computational Fluid Dynamics**

(Cross-listed with M E). (3-0) Cr. 3. S.

*Prereq: AER E 547*

An examination of current methods in computational fluid dynamics. Differencing strategies. Advanced solution algorithms for unstructured meshes. Grid generation. Construction of higher-order CFD algorithms. Parallel computing. Current applications. Use of state of the art CFD codes.

**AER E 651: Space Trajectory Optimization**

Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: AER E 551, or AER E 351*

Classical methods and recent advances in space trajectory optimization. Primer vector theory, introduction to direct and indirect methods for trajectory optimization, the problem of multi gravity assist with deep space maneuvers (MGADSM), optimization of the MGADSM using evolutionary algorithms, hidden genes genetic algorithms for trajectory optimization, and shape-based methods for trajectory design.

**AER E 690: Aerospace Engineering Independent Study: Advanced Topics**

Cr. 1-5. Repeatable.

**AER E 690A: Aerospace Engineering Independent Study: Aero and/or Gas Dynamics**

Cr. 1-5. Repeatable.

**AER E 690B: Aerospace Engineering Independent Study: Propulsion**

Cr. 1-5. Repeatable.

**AER E 690C: Aerospace Engineering Independent Study: Aerospace Structures**

Cr. 1-5. Repeatable.

**AER E 690D: Aerospace Engineering Independent Study: Flight Dynamics**

Cr. 1-5. Repeatable.

**AER E 690E: Aerospace Engineering Independent Study: Spacecraft Systems**

Cr. 1-5. Repeatable.

**AER E 690F: Aerospace Engineering Independent Study: Flight Control Systems**

Cr. 1-5. Repeatable.

**AER E 690G: Aerospace Engineering Independent Study: Aeroelasticity**

Cr. 1-5. Repeatable.

**AER E 690H: Aerospace Engineering Independent Study: Viscous Aerodynamics**

Cr. 1-5. Repeatable.

**AER E 690I: Aerospace Engineering Independent Study: Design**

Cr. 1-5. Repeatable.

**AER E 690J: Aerospace Engineering Independent Study: Hypersonics**

Cr. 1-5. Repeatable.

**AER E 690K: Aerospace Engineering Independent Study: Computational Aerodynamics**

Cr. 1-5. Repeatable.

**AER E 690L: Aerospace Engineering Independent Study: Non Destructive Evaluation**

Cr. 1-5. Repeatable.

**AER E 690M: Aerospace Engineering Independent Study: Wind Engineering**

Cr. 1-5. Repeatable.

**AER E 697: Engineering Internship**

Cr. R. Repeatable.

*Prereq: Permission of DOGE (Director of Graduate Education), graduate classification*

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

**AER E 699: Research**

Cr. arr. Repeatable.

# African and African American Studies (AF AM)

*Any experimental courses offered by AF AM can be found at:*

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****AF AM 201: Introduction to African American Studies**

(3-0) Cr. 3. F.S.

An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.

Meets U.S. Diversity Requirement

**AF AM 310: Africa to 1880**

(Cross-listed with HIST). Cr. 3.

*Prereq: Sophomore classification*

Survey of the history of African societies, cultures and civilizations from earliest times to 1880. Evolution of states across the continent; social, economic, political, and cultural developments; nature and consequences of African interactions and relationship with Europeans.

Meets International Perspectives Requirement.

**AF AM 311: Africa under Colonial Rule**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Development of Africa from imposition of colonial rule to independence, including processes of European domination, African reaction and resistance, emergence of nationalism, and dismantling of colonialism.

Meets International Perspectives Requirement.

**AF AM 327: Strategies of Resistance: From Slavery to Hip-Hop & Black Lives Matter**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Analysis of strategies of resistance and protest against inequality within African American communities; emphasis on the historical, socio-political and economic contexts in which resistance emerges; includes examination of contemporary forms of protests.

**AF AM 330: Ethnic and Race Relations**

(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS.

*Prereq: SOC 134*

Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.

**AF AM 334: Africana Religions**

(Cross-listed with RELIG). (3-0) Cr. 3. F.

A focused study of the religious histories and cultures of West Africans and their descendants in the Americas. Topics include West African traditions, Christianity, Islam, and indigenous Afro-Caribbean religions, with attention to their gendered, theological, and cultural dimensions. Prior course work in Religious Studies or African American Studies recommended.

**AF AM 335: Race, Ethnicity, and the US Criminal Justice System**

(Cross-listed with C J). Cr. 3.

*Prereq: AF AM 201 or C J 240*

Empirical and theoretical readings on the intersection of race, ethnicity, crime, and the criminal justice system in contemporary society. Topics include, but are not limited to racial and ethnic relations in society, media, violence, policing, and disparity and discrimination in crime and punishment. Criminological theories of racial and ethnic antagonism.

**AF AM 347: Studies in African American Literature**

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ENGL 250*

Focused study of literature by African American writers. May include focus on a particular genre (fiction, non-fiction, poetry, film, drama, media), author, event, movement, or theme.

**AF AM 350: Women of Color in the U.S**

(Cross-listed with WGS). (3-0) Cr. 3.

*Prereq: 3 credits in WGS or AF AM*

Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.

**AF AM 353: History of African Americans I**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.

Meets U.S. Diversity Requirement

**AF AM 354: History of African Americans II**

(Cross-listed with HIST). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.

Meets U.S. Diversity Requirement

**AF AM 355: Understanding Sub-Saharan Africa**

(Cross-listed with ANTHR). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Sophomore classification*

Survey of economic, social, political and historical processes that have shaped representations of Africa and Africans. Topics include colonialism, globalization, gender and LGBTQ rights, conflict and representations in Western media.

Meets International Perspectives Requirement.

**AF AM 460: Seminar in African American Culture**

(3-0) Cr. 3. S.

Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials.

**AF AM 473: Civil Rights and Ethnic Power**

(Cross-listed with HIST, US LS). (3-0) Cr. 3.

*Prereq: Sophomore classification*

Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights.

Meets U.S. Diversity Requirement

**AF AM 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 3 times.

*Prereq: Permission of Instructor*

## Agricultural and Biosystems Engineering (A B E)

*Any experimental courses offered by A B E can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****A B E 102: Learning Communities**

Cr. 0.5. F.

8 week learning communities course focusing on student success, engineering, and department curriculum. Building community within the ABE Department. Offered on a satisfactory-fail basis only.

**A B E 110: Experiencing Agricultural and Biosystems Engineering**

(0-2) Cr. 1. S.

Laboratory-based, team-oriented experiences in a spectrum of topics common to the practice of agricultural and biosystems engineering. Report writing, co-ops, internships, careers, registration planning.

**A B E 160: Systematic Problem Solving and Computer Programming**

(2-2) Cr. 3. F.S.

*Prereq: Credit or concurrent enrollment in (MATH 143 or MATH 165)*

Systematic problem-solving using principles of dynamics, statics, mass/energy conservation, and algorithmic thinking. Use of spreadsheet programs and computer programming language(s) to solve engineering problems. Only one of ENGR 160, A B E 160, AER E 160, C E 160, CH E 160, CPR E 185, E E 185, I E 148, M E 160, and S E 185 may count towards graduation.

**A B E 170: Engineering Graphics and Introductory Design**

(2-2) Cr. 3.

Applications of multi-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

**A B E 201: Preparing for Workplace Seminar**

(Cross-listed with TSM). (1-0) Cr. 1. F.S.

*Prereq: Major in AE, AST, BSE, or I TEC; Sophomore classification*

8 week course. Professionalism in the context of the engineering/technical workplace. Development of intrapersonal and interpersonal qualities including talent assessment; key workplace competency demonstration; leadership practice assessment; preparation of resume; cover letter preparation and behavioral-based interviewing; readiness for internship attainment.

**A B E 216: Fundamentals of Agricultural and Biosystems Engineering**

(3-0) Cr. 3. F.

*Prereq: A B E 160 or Permission of Instructor*

Application of mathematics and engineering sciences in agricultural and biosystems engineering. Emphasis is on solving engineering problems.

**A B E 218: Project Management & Design in Agricultural and Biosystems Engineering**

(1-2) Cr. 2. S.

*Prereq: A B E 216*

Engineering design process with emphasis on criteria and constraints, ideation, and analysis. Fundamental principles of project management including project management software. Open-ended project(s) to apply core principles using concepts from prerequisite courses.

**A B E 271: Engineering Applications of Parametric Solid Modeling**

(1-2) Cr. 1. F.S.

*Prereq: A B E 170 or TSM 116*

8 week-course. Creating, editing, and documenting part and assembly models using Solidworks. Emphasis on developing engineering drawings to communicate designs. Portfolio creation to document learning and understanding of parametric modeling.

**A B E 272: Parametric Solid Models, Drawings, and Assemblies Using Creo Parametric**

(1-2) Cr. 1. F.S.

*Prereq: A B E 170 or TSM 116*

8 week-course. Applications of Creo Parametric software. Create solid models of parts and assemblies. Utilize the solid models to create design documentation (standard drawing views, dimensions, and notes) and for the geometric analysis of parts and assemblies.

**A B E 273: CAD for Process Facilities and Land Use Planning**

(1-2) Cr. 1. F.S.

*Prereq: ENGR 170 or TSM 116*

8-week course. Application of 2-D AutoCAD software to create and interpret 2-D drawings of factories, facilities, and landscape structures. Topics include geometric construction, and design documentation using views, dimension, notes, and title blocks, and AutoCAD specific features such as Layers, Blocks, Standards, Styles.

**A B E 316: Applied Numerical Methods for Agricultural and Biosystems Engineering**

(2-2) Cr. 3. F.S.

*Prereq: A B E 160; (MATH 266 or MATH 267)*

Computer aided solution of engineering problems by use of numerical techniques and mathematical models. Systems analysis and optimization applicable to agricultural and biological systems.

**A B E 325: Biorenewable Systems**

(Cross-listed with TSM). (3-0) Cr. 3. F.

*Prereq: CHEM 163 or higher; MATH 140 or higher*

Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics.

**A B E 327L: Animal Production Systems Design Lab**

(0-2) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in TSM 327*

Engineering analysis of Livestock and Poultry production systems as related to applications of Precision Livestock Farming Technology (PLFT), economic and environmental management, and manure and nutrient management. Focus on the design of animal production systems based on ASABE/NRCS Standards and Local Codes. Concrete and earthen manure storages and open-lot runoff management structures; utilization of RUSLE-2 and P-index in the development of comprehensive nutrient management plans; making economic and environmental management decisions related to improving production, gaseous emissions reporting, and odor mitigation.

**A B E 340: Functional Analysis of Soil, Crop, and Machine Systems**

(2-2) Cr. 3. F.

*Prereq: A B E 216*

Principles of machine systems operation (tillage, crop establishment, harvesting and crop protection). Principles of soil and crop interactions with machine systems. Experimental and simulation techniques for testing and evaluation of agricultural field machinery for equipment performance, functional analysis and crop production management.

**A B E 342: Agricultural Tractor Power**

(2-3) Cr. 3. S.

*Prereq: CH E 381 or M E 231*

Thermodynamic principles and construction of tractor engines. Fuels, combustion, and lubrication. Kinematics and dynamics of tractor power applications; drawbar, power take-off and traction mechanisms.

**A B E 363: Agri-Industrial Applications of Electric Power and Electronics**

(3-2) Cr. 4. F.S.

*Prereq: A B E 216*

Single phase and three phase circuit design. Electrical safety. Electric motors and controls. Programmable logic controllers. Digital logic, instrumentation and sensors.

**A B E 378: Mechanics of Fluids**

(3-0) Cr. 3. F.S.SS.

*Prereq: C E 274*

Properties of fluids. Fluid statics. Kinematics and kinetics of fluid flow. Mass, momentum, and energy conservation laws; dimensional analysis; flow in pipes and channels.

**A B E 378L: Mechanics of Fluids Laboratory**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in A B E 378*

Exploration of properties of fluids through selected laboratory experiments. Fluid statics. Kinematics and kinetics of fluid flow. Mass, momentum, and energy conservation laws. Dimensional analysis. Flow in pipes and channels.

**A B E 380: Principles of Biological Systems Engineering**

(2-3) Cr. 3. S.

*Prereq: A B E 316*

Engineering analysis of biological systems, through the study of mass, energy, and information transport. Quantification and modeling of biological interactions, biological activities and bioreactor operations. Includes laboratory experiences on biological materials characterization, unit operation for bioprocesses and fermentation for producing bioproducts.

**A B E 388: Sustainable Engineering and International Development**

(Cross-listed with C E, E E). (2-2) Cr. 3. F.

*Prereq: Junior classification in an Engineering Major*

Multi-disciplinary approach to sustainable engineering and international development, sustainable development, appropriate design and engineering, feasibility analysis, international aid, business development, philosophy and politics of technology, and ethics in engineering. Engineering-based projects from problem formulation through implementation. Interactions with partner community organizations or international partners such as nongovernment organizations (NGOs). Course readings, final project/design report. Meets International Perspectives Requirement.

**A B E 403: Physical Modeling and Control of Dynamic Systems**

(Dual-listed with A B E 503). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A B E 316; A B E 363; (MATH 266 or MATH 267)*

Modeling and simulation of dynamic systems with physical modeling tools such as Simscape or Modelica. System concepts and engineering system analogies. Time and frequency response of systems. Introduction to control theory. Open-ended term project required for graduate credit.

**A B E 404: Instrumentation for Agricultural and Biosystems Engineering**

(Dual-listed with A B E 504). (2-2) Cr. 3. F.

*Prereq: A B E 316; A B E 363*

Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering and process control. Sensors and theory of operation applied to practical monitoring and control problems. Data collection, analysis, and calibration of sensors and data acquisition systems. Individual project required for graduate credit.

**A B E 410: Electronic Systems Integration for Agricultural Machinery**

(Dual-listed with A B E 510). (2-2) Cr. 3. S.

System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distributed control, and automation of agricultural machinery will be emphasized.

**A B E 413: Fluid Power Engineering**

(Cross-listed with M E). (2-2) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in (A B E 378 or M E 335); (A B E 216 or M E 270)*

Fundamental fluid power principles, symbols and schematics. Hydraulic fluid properties. Function and performance of components such as connections and fittings, filtration, pumps, valves, actuators, hydrostatic transmissions. Hydraulic system dynamics. Modeling and simulation of circuits. Analysis and design of hydraulic systems. Hydrostatic transmission design. Hands-on construction of circuits, measurement of system variables, and electrohydraulic control.

**A B E 415: Agricultural & Biosystems Engineering Design I**

(1-2) Cr. 2. F.S.

*Prereq: A E or BSE major; A B E 316*

Engineering design process with emphasis on team delivery of: clearly defined deliverables; criteria and constraints; wide-field ideation; discipline-appropriate analysis methods; identification and application of relevant standards.

**A B E 416: Agricultural & Biosystems Engineering Design II**

(1-2) Cr. 2. F.S.

*Prereq: A B E 415*

Final execution of the engineering design process with emphasis on team delivery of: oral and written communication in completion of the client-agreed deliverables.

**A B E 418: Fundamentals of Engineering Review**

(1-0) Cr. 1.

*Prereq: Senior classification*

8 week course. Review of core concepts covered in the Fundamentals of Engineering examination with emphasis on statics, dynamics, fluid mechanics, heat transfer, electric circuits, and engineering economics. Open to all College of Engineering seniors, however focus is on the general exam, not discipline specific exams.

**A B E 424: Air Pollution**

(Dual-listed with A B E 524). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 424A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with A B E 524A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 424B: Air Pollution: Climate change and causes**

(Dual-listed with A B E 524B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 424C: Air Pollution: Transportation Air Quality**

(Dual-listed with A B E 524C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A*

**A B E 424D: Air Pollution: Off-gas treatment technology**

(Dual-listed with A B E 524D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B*

**A B E 424E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with A B E 524E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 431: Design and Evaluation of Soil and Water Conservation Systems**

(Dual-listed with A B E 531). (2-3) Cr. 3. F.

*Prereq: A B E 378 or CH E 356*

Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality.

**A B E 432: Nonpoint Source Pollution and Control**

(Dual-listed with A B E 532). (3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: A B E 431 or C E 372*

Characteristics and mechanisms of non-point source (NPS) pollution in agricultural and urban watersheds, modeling of NPS pollution for terrestrial and aquatic systems, statistical tools to assess environmental datasets, strategies to control and manage NPS pollution of water bodies, and integrated watershed management. Graduate students are required to develop/deliver lecture models on assigned topics and/or complete additional assignments.

**A B E 437: Watershed Modeling and Policy**

(Dual-listed with A B E 537). (2-2) Cr. 3. Alt. F., offered irregularly.

*Prereq: C E 372*

A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

**A B E 451: Food and Bioprocess Engineering**

(Dual-listed with A B E 551). (3-0) Cr. 3. S.

*Prereq: A B E 216; credit or concurrent enrollment in (CH E 357 or M E 436) or (FS HN 351; [MATH 266 or MATH 267])*

Application of engineering principles and mathematical modeling to the quantitative analysis of transport phenomena in food and bioprocesses. Physical/chemical characteristics of foods and biological materials and systems, flow processes, thermal processes, cooling/freezing processes, dehydration processes and separation processes.

**A B E 469: Engineering for Grain Storage, Preservation, Handling, and Processing Systems**

(Dual-listed with A B E 569). (2-3) Cr. 3. S.

*Prereq: A B E 216*

Cereal grain and oilseed production, properties, and quality assessment. Design of storage systems, drying systems, material handling, and size reduction systems. Design of cereal grain processing systems, including dry milling, wet milling, flour milling, feed milling, and fermentation facilities. Students enrolled in ABE 569 will be required to conduct additional learning activities.

**A B E 472: Controlled Environments for Animals and Plants**

(Dual-listed with A B E 572). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A B E 216; M E 231*

Principles and design of environmental control systems for animal and plant facilities. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual projects required for graduate credit.

**A B E 478: Wood Frame and Agri-Industrial Structures**

(Dual-listed with A B E 578). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: E M 324*

Design of light-framed wood structures using LRFD and ASD design procedures. Includes analysis of wind, snow, dead, and live loads. Applications include animal housing, greenhouses, and storage structures. Fasteners, laminated posts, truss design and use of National Design Specifications.

**A B E 480: Engineering Analysis of Biological Systems**

(Dual-listed with A B E 580). (Cross-listed with ENSCI, GLOBE). (2-2) Cr. 3. F.

*Prereq: A B E 380 or Permission of Instructor*

Systems-level quantitative analysis of various biological systems, including applications in foods, feeds, biofuels, bioenergy, and other bio-based systems. Introduction to techno-economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance. Students enrolled in ABE 580 will be required to conduct additional learning activities.

**A B E 490: A B E Independent Study**

Cr. 1-5. Repeatable.

*Prereq: Permission of Instructor*

Independent Study.

**A B E 490A: A B E Independent Study: Animal Production Systems Engineering**

Cr. 1-5. Repeatable.

*Prereq: Permission of Instructor*

Independent Study.

**A B E 490B: A B E Independent Study: Biorenewable Resources**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study.

**A B E 490E: A B E Independent Study: Environmental Bioprocessing Engineering**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in environmental bioprocessing engineering.

**A B E 490F: A B E Independent Study: Food Engineering**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in food engineering.

**A B E 490G: A B E Independent Study: General Topics in A B E**

Cr. 1-5. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Independent study in general A B E topics.

**A B E 490H: A B E Independent Study: Honors**

Cr. 1-5. Repeatable.

*Prereq: Permission of Instructor*

Guided instructing in agricultural and biosystems engineering for honors students.

**A B E 490L: A B E Independent Study: Land & Water Resources Engineering**

Cr. 1-5. Repeatable.

*Prereq: Permission of Instructor*

Guided instruction in land and water resources engineering.

**A B E 490M: A B E Independent Study: Advanced Machinery Systems Engineering**

Cr. 1-5. Repeatable.

*Prereq: Permission of Instructor*

Guided instruction in advance machinery systems engineering.

**A B E 495: Agricultural and Biosystems Engineering Department Study Abroad Preparation or Follow-up**

(Cross-listed with TSM). Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Advisor Permission*

Preparation for, or follow-up of, study abroad experience (496). For preparation, course focuses on understanding the tour destination through readings, discussions, and research on topics such as the regional industries, climate, crops, culture, economics, food, geography, government, history, natural resources, and public policies. For follow-up, course focuses on presentations by students, report writing, and reflection. Students enrolled in this course intend to register for 496 the following term or have had taken 496 the previous term.

Meets International Perspectives Requirement.

**A B E 496: Agricultural and Biosystems Engineering Department Study Abroad**

(Cross-listed with TSM). Cr. 1-4. Repeatable. F.S.SS.

*Prereq: Advisor Permission*

Tour and study at international sites relevant to disciplines of industrial technology, biological systems engineering, agricultural systems technology, and agricultural engineering. Location and duration of tours will vary. Trip expenses paid by students. Pre-trip preparation and/or post-trip reflection and reports arranged through 495.

Meets International Perspectives Requirement.

**Courses primarily for graduate students, open to qualified undergraduates:****A B E 503: Physical Modeling and Control of Dynamic Systems**

(Dual-listed with A B E 403). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A B E 316; A B E 363; (MATH 266 or MATH 267)*

Modeling and simulation of dynamic systems with physical modeling tools such as Simscape or Modelica. System concepts and engineering system analogies. Time and frequency response of systems. Introduction to control theory. Open-ended term project required for graduate credit.

**A B E 504: Instrumentation for Agricultural and Biosystems Engineering**

(Dual-listed with A B E 404). (2-2) Cr. 3. F.

*Prereq: A B E 316; A B E 363*

Interfacing techniques for computer-based data acquisition and control systems. Basic interfacing components including A/D and D/A conversion, signal filtering and process control. Sensors and theory of operation applied to practical monitoring and control problems. Data collection, analysis, and calibration of sensors and data acquisition systems. Individual project required for graduate credit.

**A B E 506: Applied Computational Intelligence**

(2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: A B E 316 or equivalent, MATH 166, STAT 305*

Applications of biologically inspired computational intelligence tools for data mining, system modeling, and optimization for agricultural, biological and other engineered systems. Introduction to Artificial Neural Networks, Support Vector Machines, Fuzzy Logic, Genetic Algorithms, Bayesian and Decision Tree learning. Fundamental Machine Vision techniques will be introduced in the first part of course and be integrated into the lab exercises for learning different computational intelligence techniques. MATLAB will be used throughout the course for algorithm implementation.

**A B E 510: Electronic Systems Integration for Agricultural Machinery**

(Dual-listed with A B E 410). (2-2) Cr. 3. S.

System architecture and design of electronics used in agricultural machinery and production systems. Emphasis on information technology and systems integration for automated agriculture processes. Design of Controller Area Network (CAN BUS) communication systems and discussion of relevant standards (ISO 11783 and SAE J1939). Application of technologies for sensing, distributed control, and automation of agricultural machinery will be emphasized.

**A B E 511: Bioprocessing and Bioproducts**

(3-0) Cr. 3. S.

*Prereq: A B E 469, senior or graduate classification*

Unit operations for production of bio-based, fermented fuels, beverages, chemicals, pharmaceuticals, and coproducts. Taxonomy, metabolism, kinetics, and modeling of aerobic and anaerobic fermentation systems. Mass/energy balances, pretreatments, liquefaction, saccharification, separations, and process integration.

**A B E 515: Integrated Crop and Livestock Production Systems**

(Cross-listed with AGRON, AN S, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: SUSAG 509*

Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

**A B E 524: Air Pollution**

(Dual-listed with A B E 424). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 524A: Air Pollution: Air quality and effects of pollutants**

(Dual-listed with A B E 424A). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 524B: Air Pollution: Climate change and causes**

(Dual-listed with A B E 424B). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 524C: Air Pollution: Transportation Air Quality**

(Dual-listed with A B E 424C). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424C: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524C: C E 524A*

**A B E 524D: Air Pollution: Off-gas treatment technology**

(Dual-listed with A B E 424D). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: For 424D: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above, For 524D: C E 524A; C E 524B*

**A B E 524E: Air Pollution: Agricultural sources of pollution**

(Dual-listed with A B E 424E). (Cross-listed with C E, ENSCI). (1-0) Cr. 1.

*Prereq: (CHEM 178 or [PHYS 231; PHYS 231L]); (MATH 166 or 3 credits in STAT); Senior classification or above*

1 cr. per module. Module A prereq for all modules; module B prereq for D and E.

**A B E 531: Design and Evaluation of Soil and Water Conservation Systems**

(Dual-listed with A B E 431). (Cross-listed with ENSCI). (2-3) Cr. 3. F.

*Prereq: A B E 378 or CH E 356*

Hydrology and hydraulics in agricultural and urbanizing watersheds. Design and evaluation of systems for the conservation and quality preservation of soil and water resources. Use and analysis of hydrologic data in engineering design; relationship of topography, soils, crops, climate, and cultural practices in conservation and quality preservation of soil and water for agriculture. Small watershed hydrology, water movement and utilization in the soil-plant-atmosphere system, agricultural water management, best management practices, and agricultural water quality.

**A B E 532: Nonpoint Source Pollution and Control**

(Dual-listed with A B E 432). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered irregularly.

*Prereq: A B E 431 or C E 372*

Characteristics and mechanisms of non-point source (NPS) pollution in agricultural and urban watersheds, modeling of NPS pollution for terrestrial and aquatic systems, statistical tools to assess environmental datasets, strategies to control and manage NPS pollution of water bodies, and integrated watershed management. Graduate students are required to develop/deliver lecture models on assigned topics and/or complete additional assignments.

**A B E 533: Erosion and Sediment Transport**

(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: C E 372 or GEOL/ENSCI/MTEOR 402, MATH 166 or equivalent*

Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion.

**A B E 537: Watershed Modeling and Policy**

(Dual-listed with A B E 437). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. F., offered irregularly.

*Prereq: C E 372*

A project-based course on watershed-scale models for improving water quality. Legislative and judicial basis of the Total Maximum Daily Load (TMDL) program; approaches to TMDL development; principles and techniques for implementation; stakeholder engagement strategies. Hands-on experiences with GIS-interfaced models, data sources, calibration/validation, statistical assessment of model results, and simulation using multiple tools. In addition to other assignments, graduate students will present case studies of TMDLs using different modeling tools.

**A B E 551: Food and Bioprocess Engineering**

(Dual-listed with A B E 451). (3-0) Cr. 3. S.

*Prereq: A B E 216; credit or concurrent enrollment in (CH E 357 or M E 436) or (FS HN 351; [MATH 266 or MATH 267])*

Application of engineering principles and mathematical modeling to the quantitative analysis of transport phenomena in food and bioprocesses. Physical/chemical characteristics of foods and biological materials and systems, flow processes, thermal processes, cooling/freezing processes, dehydration processes and separation processes.

**A B E 556: GIS Programming and Automation**

(Dual-listed with A B E 556). (Cross-listed with C R P). (3-0) Cr. 3. F.

*Prereq: C R P 351*

Introduction to automated geoprocessing in Geographic Information Systems using Python. Focus on learning scripting language and object-oriented programming, automation of custom-designed geoprocessing scripts, and application toward student research and/or interests.

**A B E 569: Engineering for Grain Storage, Preservation, Handling, and Processing Systems**

(Dual-listed with A B E 469). (2-3) Cr. 3. S.

*Prereq: A B E 216*

Cereal grain and oilseed production, properties, and quality assessment. Design of storage systems, drying systems, material handling, and size reduction systems. Design of cereal grain processing systems, including dry milling, wet milling, flour milling, feed milling, and fermentation facilities. Students enrolled in ABE 569 will be required to conduct additional learning activities.

**A B E 572: Controlled Environments for Animals and Plants**

(Dual-listed with A B E 472). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A B E 216; M E 231*

Principles and design of environmental control systems for animal and plant facilities. Insulation, heat and mass transfer, fans, ventilation, air distribution, heating and cooling equipment, and controls. Individual projects required for graduate credit.

**A B E 578: Wood Frame and Agri-Industrial Structures**

(Dual-listed with A B E 478). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: E M 324*

Design of light-framed wood structures using LRFD and ASD design procedures. Includes analysis of wind, snow, dead, and live loads. Applications include animal housing, greenhouses, and storage structures. Fasteners, laminated posts, truss design and use of National Design Specifications.

**A B E 580: Engineering Analysis of Biological Systems**

(Dual-listed with A B E 480). (2-2) Cr. 3. F.

*Prereq: A B E 380 or Permission of Instructor*

Systems-level quantitative analysis of various biological systems, including applications in foods, feeds, biofuels, bioenergy, and other bio-based systems. Introduction to techno-economic analysis and life-cycle assessment of these systems at multiple production scales. Applying these tools to evaluate and improve cost and sustainability performance. Students enrolled in ABE 580 will be required to conduct additional learning activities.

**A B E 590: Special Topics in Agricultural & Biosystems Engineering**

Cr. 1-3. Repeatable.

Guided instruction and self-study on special topics relevant to agricultural and biosystems engineering.

**Courses for graduate students:****A B E 601: Graduate Seminar**

(Cross-listed with TSM). (1-0) Cr. 1. F.

Keys to starting a successful graduate research project. Effective literature review, formulating research questions, and setting goals. Practicing effectively communicating research and science. Effective strategies for scholarly writing, professional development, responding to feedback, peer-reviewing, successful publishing in journals, and curating scholarly output.

**A B E 610: Foundations of Sustainable Agriculture**

(Cross-listed with AGRON, ANTHR, SOC, SUSAG). (3-0) Cr. 3. F.

*Prereq: Graduate classification, permission of instructor*

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

**A B E 690: Advanced Topics**

Cr. arr. Repeatable.

Advanced topics.

**A B E 694: Teaching Practicum**

(Cross-listed with TSM). Cr. 1-3. F.S.

*Prereq: Graduate classification and permission of instructor*

Graduate student experience in the agricultural and biosystems engineering departmental teaching programs.

**A B E 697: Engineering Internship**

Cr. R. Repeatable.

*Prereq: Permission of department chair, graduate classification*

One semester and one summer maximum per academic year professional work period.

**A B E 699: Research**

Cr. arr. Repeatable.

Research.

**A B E 699B: Research: Biosystems Engineering**

Cr. arr. Repeatable.

Guided graduate research in biosystems engineering.

**A B E 699C: Research: Computer Aided Design**

Cr. arr. Repeatable.

Guided graduate research in computer-aided design.

**A B E 699E: Research: Environmental Systems**

Cr. arr. Repeatable.

Guided graduate research in environmental systems.

**A B E 699F: Research: Food Engineering**

Cr. arr. Repeatable.

Guided graduate research in food engineering.

**A B E 699O: Research: Occupational Safety**

Cr. arr. Repeatable.

Guided graduate research in occupational safety.

**A B E 699P: Research: Power and Machinery Engineering**

Cr. arr. Repeatable.

Guided graduate research in power and machinery engineering.

**A B E 699Q: Research: Structures**

Cr. arr. Repeatable.

Guided graduate research in structures.

**A B E 699R: Research: Process Engineering**

Cr. arr. Repeatable.

Guided graduate research in process engineering.

**A B E 699S: Research: Environment and Natural Resources**

Cr. arr. Repeatable.

Guided graduate research in environment and natural resources.

**A B E 699U: Research: Waste Management**

Cr. arr. Repeatable.

Guided graduate research in waste management.

## Agricultural Education and Studies (AGEDS)

*Any experimental courses offered by AGEDS can be found at:*[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) ([http://](http://registrar.iastate.edu/faculty-staff/courses/explisting/)[www.registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/))**Courses primarily for undergraduates:****AGEDS 110: Professional Development in Agricultural Education and Studies: New Student Seminar**

(1-0) Cr. 1. F.S.

Introduction to professional and educational development within university, college, department and major. Development of Resumes and Cover Letters. Career planning and assessment of professional goals.

**AGEDS 111: Dean's Leadership Seminar**

(1-0) Cr. 1. F.

*Prereq: College Permission*

Introduction to leadership in agriculture and the life sciences, problem solving applied to current case studies, global perspective required by leaders, and designing programs to respond to societal needs in the agricultural and life sciences.

**AGEDS 112: Agriculture Biotechnology Colloquium**

(1-0) Cr. 1. S.

*Prereq: Department Permission*

The scientific basis of biological and social sciences in agriculture.

**AGEDS 113: Access to Success Seminar I**

Cr. 1. Repeatable. F.S.

Career skills, learning strategies, and social and academic integration techniques to student members of Step Forward Learning Community. Utilization of campus resources, encouragement of self-exploration, and development of academic skills. Offered on a satisfactory-fail basis only.

**AGEDS 116: Initial Field Experience in Agricultural Education**

(1-2) Cr. 1. F.

*Prereq: AGLSE major*

Field experience in a formal education setting designed to explore teaching as a career through guided observation and interviews, reflection, and on-campus dialogue.

**AGEDS 211: Early Field Based Experience**

(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: AGEDS 110*

Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

**AGEDS 211A: High School Agriculture Programs**

(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: AGEDS 110*

Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

**AGEDS 211C: Agricultural Industries and Agencies**

(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.S.SS.

*Prereq: AGEDS 110*

Forty hours on-site in an agricultural setting. Students will have an opportunity outside the classroom for career guidance, role modeling, and reflection on their observations that they can apply to their courses and other educational experiences.

**AGEDS 215: Professional Development in Agricultural Education and Studies: Career Seminar**

(1-0) Cr. 1. F.S.

*Prereq:* Credit or concurrent enrollment in AGEDS 110; Junior classification  
Career preparation including assessments, networking, interviewing skills and related life skill development. Survey of current issues in agriculture that impact career goals.

**AGEDS 310: Foundations of Agricultural Education Programs**

(3-0) Cr. 3. F.S.

*Prereq:* Sophomore classification

Historical development of agricultural education programs. Philosophic premises, program goals and objectives. Educational and social issues impacting the implementation of agricultural education programs.

**AGEDS 311: Presentation and Sales Strategies for Agricultural Audiences**

(3-0) Cr. 3. F.S.

Utilizing instructional methods, techniques, and problem solving, presentation and sales strategies with agricultural audiences.

**AGEDS 312: Science With Practice**

(1-6) Cr. 3. Repeatable. F.S.

*Prereq:* College of Agriculture and Life Sciences undergraduate majors

A planned learning experience wherein each student and faculty mentor develops a learning agreement that encompasses specific activities and expectations. Students are engaged in reflective activities that include journals, micro-reflections, formal presentations, and a comprehensive portfolio.

**AGEDS 315: Personal, Professional, and Entrepreneurial Leadership in Agriculture**

(3-0) Cr. 3. F.S.

*Prereq:* Sophomore classification

Leadership principles and strategies to influence and motivate team members to achieve personal, professional, and entrepreneurial goals in production agriculture, agricultural education, and agricultural organizations.

**AGEDS 327: Survey of Agriculture and Life Sciences Communication**

(3-0) Cr. 3. F.S.

*Prereq:* ENGL 250

Development of written, oral, visual and electronic communications relevant to agriculture and life sciences. Students develop a set of communication skills applicable to agriculture and life science contexts and for various audiences.

**AGEDS 388: Agricultural Mechanics Applications**

(2-3) Cr. 3. F.S.SS.

Introduction to SMAW (Arc), GMAW (Mig), GTAW (Tig), Oxy-Fuel welding, Oxy-Fuel cutting, and Plasma cutting theories and applications. Emphasis will be on theoretical foundation of welding, safety, welding skill development, and management of equipment, and materials. Introduction to small engines and applications. Emphasis will be on theory of operating systems, maintenance, troubleshooting, failure analysis, and safety.

**AGEDS 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq:* Department Permission

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**AGEDS 401: Planning Agriculture and Life Sciences Education Programs**

(Dual-listed with AGEDS 501). (3-0) Cr. 3. F.

*Prereq:* AGEDS 310

Responsibilities of an agricultural education teacher, curriculum development, experiential learning opportunities including FFA and SAE, and assessment and maintenance of program quality.

**AGEDS 402: Methods of Teaching in Agriculture and Life Sciences**

(Dual-listed with AGEDS 502). (3-0) Cr. 3. F.

*Prereq:* AGEDS 401; concurrent enrollment in AGEDS 311

Topics include: principles of teaching and learning, individualized and group methods, application of learning, instructional management, special populations, and evaluation.

**AGEDS 412: Internship in Agricultural Education and Studies**

Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq:* Junior classification in AGEDS; Permission of Instructor

A supervised two to twelve week learning experience in an approved learning setting with application to educational, agricultural, communications and/or environmental practices and principles.

**AGEDS 414: Developing Agricultural Education Programs in Non-Formal Settings**

(2-0) Cr. 2. S.

Basic concepts in planning, conducting, and evaluating educational programs in non-formal settings. Includes programming for youth and adults in Extension, agricultural industry, and related agencies.

**AGEDS 416: Pre-Student Teaching Experience in Agricultural Education**

Cr. 1. F.S.

*Prereq:* AGEDS 211; AGEDS 402; Admission to teacher education program

A forty hour field-based experience in an approved secondary agricultural education program. Concurrent enrollment in 417 is required.

**AGEDS 417: Supervised Teaching in Agriculture and Life Sciences**

Cr. 1-16. Repeatable. F.S.

*Prereq: AGEDS 211; AGEDS 402; Admission to teacher education program*  
Supervised teaching in public schools.

**AGEDS 425: Curriculum for Agricultural Science Education**

(Dual-listed with AGEDS 525). Cr. 1-6. Repeatable, maximum of 3 times. SS.

Inquiry-based techniques for education related to science, technology, engineering, and mathematics (STEM) in agriculture in secondary classrooms. Analyze, demonstrate, and design activities, labs, and projects using inquiry-based frameworks for teaching and learning.

**AGEDS 450: Farm Management and Operation**

(2-4) Cr. 3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ECON 230; ECON 235; Junior classification*

Participation in the management and operation of a diversified Iowa farm. The class is responsible for the plans, records, and decisions for buying and selling the farm's livestock, crops, and equipment. Special speakers on current topics. May be taken for credit 3 times at different times of the year with permission of the instructor.

**AGEDS 451: Agricultural Law**

(3-0) Cr. 3. S.

*Prereq: Senior classification*

The legal framework impinging upon decision-making by firms, families, and individuals, real and personal property, contracts, secured transactions, negotiable instruments, debtor-creditor relations, bankruptcy, farm income tax organization of firms, intergenerational property transfers, trusts and farm estate planning, civil and criminal liabilities, environmental law, federal and state regulatory powers.

**AGEDS 461: Innovation Diffusion and the Role of Agricultural and Extension Education**

(Dual-listed with AGEDS 561). (3-0) Cr. 3. F.

*Prereq: Junior classification*

Examine the processes by which innovations in agriculture, food, and natural resources are diffused across global societies based on their performance characteristics that influence rate of adoption. Diffusion of Innovations Theory and alternative models will be applied to analyze and solve issues facing communities, industries, and organizations in domestic and international settings.

Meets International Perspectives Requirement.

**AGEDS 475: Agri-Marketing and Communications Competition**

(2-0) Cr. 1-2. Repeatable, maximum of 6 credits. F.S.

*Prereq: Permission of Instructor*

Specialized training in communication and agricultural marketing knowledge and skills in preparation for intercollegiate competition. Maximum of 6 credits can be applied toward graduation.

**AGEDS 488: Methods of Teaching Agricultural Mechanics**

(2-3) Cr. 3. F.S.

*Prereq: AGEDS 388; credit or concurrent enrollment in AGEDS 310*

Methods and management techniques in agricultural mechanics laboratories. Emphasis will be on safety, mechanical skills development and management of students, facilities, equipment, and materials.

**AGEDS 490: Independent Study in Agricultural Education and Studies**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490A: Philosophy, Curriculum, and Methods**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490B: Leadership, Evaluation, and Administration**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490C: Business, Industry, and Production Agriculture**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490D: Extension and International Agriculture**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490E: Instructional Technology**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490F: Environmental Issues**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490G: Entrepreneurship**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490H: Independent Study in Agricultural Education and Studies, Honors**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor***AGEDS 490I: Communications**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

**AGEDS 496: Agricultural Travel Course**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

**AGEDS 496A: International**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

Meets International Perspectives Requirement.

**AGEDS 496B: Domestic**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Limited enrollment. Extended field trips to study agriculture and education related topics. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

**AGEDS 499: Undergraduate Research**

Cr. arr. F.S.SS.

*Prereq: Department Permission*

Research experience in agricultural education and studies with application to selected problems.

**Courses primarily for graduate students, open to qualified undergraduates:**

**AGEDS 501: Planning Agriculture and Life Sciences Education Programs**

(Dual-listed with AGEDS 401). (3-0) Cr. 3. F.

*Prereq: AGEDS 310*

Responsibilities of an agricultural education teacher, curriculum development, experiential learning opportunities including FFA and SAE, and assessment and maintenance of program quality.

**AGEDS 502: Methods of Teaching in Agriculture and Life Sciences**

(Dual-listed with AGEDS 402). (3-0) Cr. 3. F.

*Prereq: AGEDS 401; concurrent enrollment in AGEDS 311*

Topics include: principles of teaching and learning, individualized and group methods, application of learning, instructional management, special populations, and evaluation.

**AGEDS 510: Introduction to Research in Agricultural Education**

(3-0) Cr. 3. S.

*Prereq: Graduate classification*

Determining your research focus; developing research problems and objectives; reviewing the literature and establishing a theoretical framework; establishing procedures for data collection and analysis; ethical issues.

**AGEDS 511: Professional Agricultural Presentation Practices**

(3-0) Cr. 3. F.SS.

*Prereq: Graduate Classification*

The identification and use of key planning, delivery and evaluation of presentations using audience engagement techniques focused on research-based principles and field-based practices of professional presenters in agriculture and the life sciences.

**AGEDS 517: Student Teacher Education Practicum**

Cr. 2-6. F.S.

*Prereq: AGEDS 590B, AGEDS 501, AGEDS 502 Admission to the University Teacher Education program*

Supervised 5th-12th grade public and private schools teaching practicum for graduate students in Masters degree teacher certification program. NA

**AGEDS 520: Instructional Methods for Adult and Higher Education in Agriculture and Natural Resources**

(3-0) Cr. 3. S.

*Prereq: Graduate classification*

Theory and practice of adult education. Teaching and learning in formal and non-formal instructional programs for adult learners.

**AGEDS 524: Program Development and Evaluation in Agricultural and Extension Education**

(3-0) Cr. 3. F.

*Prereq: Graduate classification*

Theories and practice of program planning for nonformal education. Addresses use of program logic modeling and considers critical theories of planning to address power and interests in program development, needs assessment, and evaluation.

**AGEDS 525: Curriculum for Agricultural Science Education**

(Dual-listed with AGEDS 425). Cr. 1-6. Repeatable, maximum of 3 times. SS.

Inquiry-based techniques for education related to science, technology, engineering, and mathematics (STEM) in agriculture in secondary classrooms. Analyze, demonstrate, and design activities, labs, and projects using inquiry-based frameworks for teaching and learning.

**AGEDS 533: Introduction to Learning Theory in Agricultural Education**

(3-0) Cr. 3. S.

*Prereq: Graduate classification*

Introduction to a variety of theoretical perspectives of learning and how they may be used within the context of agricultural education. Emphasis will be on the major domains of learning, developmental considerations, basic assumptions, concepts, and principles of various learning theories; understanding how each theoretical perspective may be used in both formal and non-formal educational settings.

**AGEDS 550: Foundations of Agricultural Education**

(3-0) Cr. 3. F.

*Prereq: Graduate classification*

Philosophical premises, ethical principles, historical development, contextual applications, and knowledge bases for agricultural education.

**AGEDS 561: Innovation Diffusion and the Role of Agricultural and Extension Education**

(Dual-listed with AGEDS 461). (3-0) Cr. 3. F.

*Prereq: Junior classification*

Examine the processes by which innovations in agriculture, food, and natural resources are diffused across global societies based on their performance characteristics that influence rate of adoption. Diffusion of Innovations Theory and alternative models will be applied to analyze and solve issues facing communities, industries, and organizations in domestic and international settings.

Meets International Perspectives Requirement.

**AGEDS 568: Qualitative Interviews and Focus Groups**

(3-0) Cr. 3. S.

*Prereq: Graduate Status*

Understanding the role of interviews in agricultural education research, basis for theory of meaning, and variations of interview technique among qualitative traditions. Development of facilitation technique for individual interviews; and focus groups. Transcription and basic qualitative analysis. Use of interview findings to prepare manuscripts.

**AGEDS 590: Special Topics in Agricultural Education**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590A: Curriculum**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590B: Methods**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590C: Philosophy**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590D: Evaluation**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590E: Administration**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590F: Leadership**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590G: Guidance**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590I: Instructional Technology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590J: Extension**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590K: International Agriculture**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 590L: Program Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 593: Workshop in Agricultural Education**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 593A: Curriculum**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 593B: Methods**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 593C: Evaluation**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education*

**AGEDS 593D: Administration**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 593E: Leadership**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 593F: Extension**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 593G: Program Planning**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 593H: Instructional Technology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 593M: Biotechnology Workshop**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 12 credits in agricultural education***AGEDS 599: Creative Component**

Cr. arr. Repeatable. F.S.SS.

For nonthesis masters degree programs.

**Courses for graduate students:****AGEDS 615: Seminar in Agricultural Education**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 615A: Writing for publication**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 615B: Ethics**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 615C: Grant writing**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 615D: Career planning**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 615E: Contemporary issues**

(1-0) Cr. 1. Repeatable. F.S.SS.

Offered on a satisfactory-fail basis only.

**AGEDS 617: Professional Internship for Agricultural Educators**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of instructor*

Analysis of the roles and activities of professionals in agricultural education. Supervised professional field-based experience in public and private settings. Offered on a satisfactory-fail basis only.

**AGEDS 625: Leadership, Administration, Supervision and Management of Agricultural Education Programs**

(3-0) Cr. 3.

*Prereq: Graduate classification*

Principles and best practices for leading, administering, supervising, and managing agricultural education programs. Analyzing selected case studies that apply theory to practice in agricultural situations.

**AGEDS 699: Research**

Cr. arr. Repeatable.

## Agronomy (AGRON)

*Any experimental courses offered by AGRON can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:****AGRON 105: Leadership Experience**

Cr. R.

A participatory experience in activities or completion of a course that enhances the development of leadership and group-dynamic skills. See advisor for departmental requirements.

**AGRON 110: Professional Development in Agronomy: Orientation**

Cr. 1. F.

Orientation to college life, the profession of agronomy, and the agronomy curriculum.

**AGRON 120: Introduction to Renewable Resources**

(Cross-listed with ENV S, NREM). (3-0) Cr. 3. F.S.

Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

**AGRON 140: Climate and Society**

(Cross-listed with ENV S, GEOL, MTEOR). Cr. 3. F.S.

The climate system of our planet. How nature and our actions alter the existing energy balance leading to climate change. Past climates on our planet. The influence of climate on society and resource availability during the Holocene (~ 11,000 years ago to present) with focus on changes post industrial revolution. Significant climate events that have altered our way of life in the past. Projected changes in future climate and potential impacts on society, environment and resources. Adaption to and mitigation of climate change.

Meets International Perspectives Requirement.

**AGRON 160: Water Resources of the World**

(Cross-listed with ENV S, GEOL, MTEOR). (3-0) Cr. 3. S.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement.

**AGRON 180: Global Agriculture in a Changing World**

(3-0) Cr. 3. F.

A scientific investigation of the global distribution of climate, soils and agricultural production and consumption. Physical processes that connect natural resources to agriculture and the environment. How global change drives increasing demand for agricultural production.

Meets International Perspectives Requirement.

**AGRON 181: Introduction to Crop Science**

(3-0) Cr. 3. F.S.

Basic structure and function of plants, origin and classification, growth and development. Fundamentals of photosynthesis, plant water use, plant nutrition and genetics that regulate plant growth, development and responses to the environment.

**AGRON 182: Introduction to Soil Science**

(3-0) Cr. 3. F.S.

*Prereq: CHEM 163*

Introduction to physical, chemical, and biological properties of soils; soil formation, classification and global distribution; soil health, soils and humanity and sustainable land management.

**AGRON 183: Basic Skills for Agronomists**

(0-3) Cr. 1. F.

Developing the skills that agronomists employ in their work with crops, soil, and the environment through activities involving tools and methodologies used by agronomists. Enrollment is restricted to first-year students majoring in agronomy.

**AGRON 206: Introduction to Weather and Climate**

(Cross-listed with MTEOR). (3-0) Cr. 3. F.S.

Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

**AGRON 210: Professional Development in Agronomy: Career Planning**

(1-0) Cr. 1. F.S.

Career planning, résumé and cover letter preparation.

**AGRON 217: Weed Identification**

(1-2) Cr. 1. F.S.

*Prereq: 3 credits of BIOL*

Half-semester course. Identification of important weeds of agricultural, horticultural and native habitats. Principles of plant taxonomy and classification. Field trips.

**AGRON 250: Environmental Geography**

(Cross-listed with ENSCI, ENV S, NREM). (3-0) Cr. 3. F.

The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world.

**AGRON 259: Organic Compounds in Plants and Soils**

(3-0) Cr. 3. S.

*Prereq: (AGRON 182 or GEOL 210 or ENSCI 250); BIOL 212; (CHEM 163 or CHEM 177); MATH 140*

Structure, function, and transformations of organic compounds significant in plant and soil environments.

**AGRON 270: Geospatial Technologies**

(Cross-listed with ENSCI). Cr. 3. S.

Concepts and tools for acquiring, managing, analyzing, and displaying geographic information, including GIS, remote sensing, spatial analysis, and cartography. Focus on applications in biological, ecological, environmental, and agricultural sciences.

**AGRON 279: Field Exploration of Agronomy**

(2-3) Cr. 3. F.

*Prereq: AGRON 181; AGRON 182*

Field-based investigation of Iowa's agronomic systems. Application of principles learned in introductory soils, crops and agronomy courses. For students majoring in agronomy.

**AGRON 280: Crop Development, Production and Management**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181; AGRON 182*

Overview of crops and cropping systems in the context of global and US agriculture. Focus on agronomic principles, constraints and opportunities as they apply to various locations in Iowa, the USA and the world.

**AGRON 281: Crop Physiology**

(3-0) Cr. 3. S.

*Prereq: AGRON 181*

Science governing plant growth and development in the context of cropping and genetic improvements.

**AGRON 282: Soil Conservation and Land Use**

(3-0) Cr. 3. F.S.

Principles of soil conservation and land use with emphasis on best management practices and use of soil maps and databases such as Web Soil Survey. AGRON 182 recommended.

**AGRON 283: Pesticide Application Certification**

(Cross-listed with ENT, FOR, HORT). (2-0) Cr. 2. S.

Core background and specialty topics in agricultural, and horticultural pesticide applicator certification. Students can select certification categories and have the opportunity to obtain pesticide applicator certification at the completion of the course. Commercial pesticide applicator certification is emphasized.

**AGRON 298: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor*

Students register for this course in order to retain full-time status while on a professional work experience. Students must register for this course prior to commencing each work period. Offered on a satisfactory-fail basis only.

**AGRON 310: Professional Development in Agronomy: Work Experience**

Cr. R.

Professional work experience in agronomy. See advisor for departmental requirements.

**AGRON 311: Professional Internship in Agronomy**

(1-0) Cr. 1. F.

*Prereq: Advisor Permission*

A supervised learning experience in a professional setting related to crop production, plant breeding, soil science or environmental science. For students majoring in Agronomy.

**AGRON 316: Crop Structure-Function Relationships**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181; 3 credits of BIOL*

Basic principles concerning the growth, development, and production of crop communities in relation to their environment.

**AGRON 317: Principles of Weed Science**

(3-0) Cr. 3. F.

Biology and ecology of weeds. Interactions between weeds and crops. Principles and practices of integrated weed management systems. Herbicide mechanisms, classification, and fate in plants and soils.

**AGRON 318: Introduction to Ecosystems**

(Cross-listed with BIOL, ENSCI, NREM). (3-0) Cr. 3. S.

*Prereq: 12 credits in A ECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM*

Biological and physical processes affecting material and energy flows in natural and managed ecosystems. Understanding and predicting climate and management impacts on ecosystem services and sustainability.

**AGRON 320: Genetics, Agriculture and Biotechnology**

(Cross-listed with GEN). (3-0) Cr. 3. F.S.

*Prereq: BIOL 212*

Transmission and molecular genetics with an emphasis on applications in agriculture, the structure and expression of the gene, how genes behave in populations and how recombinant DNA technology can be used to improve agriculture. Credit for graduation will not be allowed for more than one of the following: Gen 260, 313, 320 and Biol 313 and 313L.

**AGRON 331: Crops Practicum**

(0-6) Cr. 2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Identification of crops, weeds and diseases of agronomic importance. Diagnostic skills related to seed purity, grain grading, herbicide injury, nutrient deficiency, insect injury, disease symptoms, and/or abiotic environmental stress. Students may participate in intercollegiate judging contests.

**AGRON 334: Forage Crop Management**

(3-0) Cr. 3. S.

*Prereq: AGRON 181*

Production and management of forage crops; concepts applied to yield, quality, and stand persistence; systems of forage utilization including grazing, hay, and silage.

**AGRON 338: Seed Science and Technology**

(Cross-listed with HORT). (2-3) Cr. 3. F.

*Prereq: (AGRON 181 or HORT 221); 3 credits of BIOL*

Seed production, maturation, dormancy, vigor, deterioration, and related aspects of enhancement, conditioning, storage, and quality evaluation. Aspects of the seed industry and regulation of seed marketing.

**AGRON 342: World Food Issues: Past and Present**

(Cross-listed with ENV S, FS HN). (3-0) Cr. 3. F.S.SS.

*Prereq: Junior classification*

Issues associated with global agricultural and food systems including ethical, social, economic, environmental, and policy contexts. Investigation of various causes and consequences of overnutrition/ undernutrition, global health, poverty, hunger, access, and distribution. Meets International Perspectives Requirement.

**AGRON 351: Turfgrass Establishment and Management**

(Cross-listed with HORT). (3-0) Cr. 3. F.

*Prereq: AGRON 181 or BIOL 211 or HORT 221*

Principles and practices of turfgrass propagation, establishment, and management. Specialized practices relative to professional lawn care, golf courses, athletic fields, highway roadsides, and seed and sod production. The biology and control of turfgrass pests.

**AGRON 351L: Turfgrass Establishment and Management Laboratory**

(Cross-listed with HORT). (0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in HORT 351*

Those enrolled in the horticulture curriculum are required to take 351L in conjunction with 351 except by permission of the instructor.

**AGRON 354: Soils and Plant Growth**

(Cross-listed with HORT). (3-0) Cr. 3. F.S.

*Prereq: AGRON 182; 3 credits of BIOL*

Effects of chemical, physical, and biological properties of soils on plant growth, with emphasis on nutritive elements, pH, organic matter maintenance, and rooting development.

**AGRON 354L: Soils and Plant Growth Laboratory**

(Cross-listed with HORT). (0-3) Cr. 1. F.S.

*Prereq: AGRON or HORT major; credit or concurrent enrollment in AGRON 354*

Laboratory exercises in soil testing that assess a soil's ability to support nutritive requirements for plant growth.

**AGRON 360: Environmental Soil Science**

(Cross-listed with ENSCI). (3-0) Cr. 3. S.

Application of soil science to contemporary environmental problems; comparison of the impacts that different management strategies have on short- and long-term environmental quality and land development. Emphasis on participatory learning activities. AGRON 182 or ENSCI 250 or GEOL 101 recommended.

**AGRON 370: Field Experience in Soil Description and Interpretation**

(0-3) Cr. 1. Repeatable, maximum of 4 times. F.S.

*Prereq: Credit or concurrent enrollment in AGRON 182*

Description and interpretation of soils in the field and laboratory, emphasizing hands-on experience. Evaluation of soil information for land use. Students may participate in intercollegiate judging contests.

**AGRON 392: Systems Analysis in Crop and Soil Management**

(2-3) Cr. 3. F.S.

*Prereq: AGRON 316; AGRON 354*

Management strategies at the level of the farm field. Emphasis will be on participatory learning activities.

**AGRON 398: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor; Junior classification*

Student register for this course in order to retain full-time status while on a professional work experience. The student must register for this course prior to commencing each work period. Offered on a satisfactory-fail basis only.

**AGRON 404: Global Change**

(Dual-listed with AGRON 504). (Cross-listed with ENSCI, ENV S, MTEOR).

(3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**AGRON 405: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with AGRON 505). (Cross-listed with ENSCI, MTEOR). (3-0) Cr.

3. Alt. S., offered odd-numbered years.

*Prereq: MATH 160 or MATH 165*

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**AGRON 406: World Climates**

(Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. S.

*Prereq: AGRON 206 or MTEOR 206*

Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement.

**AGRON 407: Mesoscale Meteorology**

(Dual-listed with AGRON 507). (Cross-listed with MTEOR). (3-0) Cr. 3. Alt.

S., offered even-numbered years.

*Prereq: MATH 166; MTEOR 443*

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

**AGRON 410: Professional Development in Agronomy: Senior Forum**  
(1-0) Cr. 1. F.S.*Prereq: AGRON 210; Senior classification*

Development of an appropriate content for professionalism. Topics include professional certification, ethics, and maintaining an active network of information sources and professional contacts in support of lifelong learning. Student interpretation, writings, presentations, and discussions.

**AGRON 421: Introduction to Plant Breeding**

(Cross-listed with HORT). (3-0) Cr. 3. F.

*Prereq: BIOL 313 or GEN 320*

Fundamental principles of plant breeding and cultivar development, breeding methods for self-pollinated, cross-pollinated and clonal crops.

**AGRON 425: Crop and Soil Modeling**

(Dual-listed with AGRON 525). (3-0) Cr. 3. F.

*Prereq: (AGRON 316 or AGRON 354); MATH 165*

Understanding basic crop physiology and soil processes through the use of mathematical and statistical approaches. Structure of crop models, dynamics and relationship among components such as leaf-level photosynthesis, canopy architecture, root dynamics and soil carbon and nitrogen pools.

**AGRON 450: Issues in Sustainable Agriculture**

(Cross-listed with ENV S). (3-0) Cr. 3. S.

Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices.

**AGRON 452: Intro GIS for Geoscientists**

(Dual-listed with AGRON 552). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**AGRON 459: Environmental Soil and Water Chemistry**

(Dual-listed with AGRON 559). (Cross-listed with ENSCI). (3-3) Cr. 4. F.

*Prereq: 6 credit of CHEM; (AGRON 182 or AGRON 360); MATH 140*

An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues. AGRON 354; GEOL 100 recommended.

**AGRON 463: Soil Formation and Landscape Relationships**

(Dual-listed with AGRON 563). (Cross-listed with ENSCI). (3-0) Cr. 3. F. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. AGRON 182 or ENSCI 250 recommended. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

**AGRON 477: Soil Physics**

(Dual-listed with AGRON 577). (Cross-listed with ENSCI). (3-0) Cr. 3. S.

The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat. AGRON 182 recommended.

**AGRON 484: Organic Agricultural Theory and Practice**

(Dual-listed with AGRON 584). (Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in biological or physical sciences*

Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

**AGRON 485: Soil and Environmental Microbiology**

(Dual-listed with AGRON 585). (Cross-listed with ENSCI, MICRO). (2-3) Cr. 3. F.

*Prereq: AGRON 182*

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 201; MICRO 201L recommended.

**AGRON 488: Raster GIS for Geoscientists**

(Dual-listed with AGRON 588). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**AGRON 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

**AGRON 490E: Independent Study: Entrepreneurship**

Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

**AGRON 490G: Independent Study: General**

Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

**AGRON 490H: Independent Study: Honors**

Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

**AGRON 490Z: Independent Study: Service Learning**

Cr. 1-3. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Selected studies in crops, soils, or agricultural meteorology according to the needs and interests of the student.

**AGRON 491: Seed Science Internship Experience**

(Cross-listed with HORT). Cr. 1-2. Repeatable, maximum of 1 times. F.S.SS.

*Prereq: AGRON 338; Permission of Instructor*

A professional work experience and creative project for seed science secondary majors. The project requires the prior approval and participation of the employer and instructor. The student must submit a written report. Advanced approval and participation of employer and instructor required.

**AGRON 493: Workshop in Agronomy**

Cr. arr. Repeatable, maximum of 4 times.

*Prereq: Permission of Instructor*

Workshop experience in crops, soils, or agricultural meteorology.

**AGRON 496: Agricultural Travel Course**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings.

**AGRON 496A: International Tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings. Meets International Perspectives Requirement.

**AGRON 496B: Domestic Tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. Tour and study of production methods in major crop and livestock regions of the world. Influence of climate, economics, geography, soils, landscapes, markets, and other factors on crop and livestock production. Location and duration of tours will vary. Tour expenses paid by students. Check with department for current offerings.

**AGRON 497: Agroecology Field Course**

(3-0) Cr. 3. F.

*Prereq: Junior or Senior classification; 8 credits in AGRON*

A one-week intensive class, offered off-campus. Student will visit farms within the Midwest and analyze the sustainability of each farm.

**AGRON 498: Cooperative Education**

Cr. R. F.S.SS.

*Prereq: Permission of Instructor; Senior classification*

Students register for this course in order to retain full-time status while on a professional work experience. Students must register for this course prior to commencing each work period. Offered on a satisfactory-fail basis only.

**Courses primarily for graduate students, open to qualified undergraduates:**

**AGRON 500: Orientation Seminar**

(2-0) Cr. 1. F.

*Prereq: Agronomy graduate students only*

An introduction to Iowa and U.S. agriculture for scholars in agronomic majors. Field trips when possible. Departmental role in the functioning of research, teaching, and extension in fulfilling the charge given the land-grant university.

**AGRON 501: Crop Growth and Development**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent, MATH 140, CHEM 163, BIOL 101*

Physiological processes in crop growth, development and yield: photosynthesis, respiration, water relations, mineral nutrition, assimilate partitioning, seedling vigor, light interception and canopy growth, root growth, reproduction and yield.

**AGRON 502: Chemistry, Physics, and Biology of Soils**

(3-0) Cr. 3. F.Alt. S., offered odd-numbered years.

*Prereq: AGRON 181 or equivalent, AGRON 182 or equivalent, BIOL 101, CHEM 163, MATH 140*

Soil chemical, physical, and biological properties that control processes within the soil, their influence on plant/soil interactions, and soil classification. Basic concepts in soil science and their applications.

**AGRON 503: Climate and Crop Growth**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent and MATH 140*

Applied concepts in climate and agricultural meteorology with emphasis on the climate-agriculture relationship and the microclimate-agriculture interaction and crop risk management. Basic meteorological principles are also presented to support these applied concepts.

**AGRON 504: Global Change**

(Dual-listed with AGRON 404). (Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. F.S.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

**AGRON 505: Soil-Plant-Animal-Atmosphere Physics**

(Dual-listed with AGRON 405). (Cross-listed with ENSCI, MTEOR). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: MATH 160 or MATH 165*

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended.

**AGRON 506: Crop Genetics**

(Cross-listed with HORT). Cr. 3. F.

Introduction to plant reproductive systems, gene segregation and linkage analysis, molecular nature of genes and how genes confer phenotypes, mutation and biotechnology, quantitative inheritance and population genetics to prepare students for subsequent courses in crop improvement. Enrollment is restricted to off-campus MS in Plant Breeding students.

**AGRON 507: Mesoscale Meteorology**

(Dual-listed with AGRON 407). (Cross-listed with MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: MATH 166; MTEOR 443*

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure.

**AGRON 508: Biophysical Crop Ecology**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

The physics behind how humans use plant photosynthesis to convert energy from the sun into useful products. Techniques for quantifying and predicting ecological interactions in the soil-plant-atmosphere continuum.

**AGRON 509: Agroecosystems Analysis**

(Cross-listed with SOC, SUSAG). (3-4) Cr. 4. F.

*Prereq: Senior or above classification; permission of instructor*

Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing both field visits and classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation.

**AGRON 510: Crop Improvement**

(Cross-listed with STB). (3-0) Cr. 3.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

A study of agriculture from its origins with the domestication of crop plants through basic genetics, demonstrating the challenges and elements of breeding strategies intended to manage gene x environmental interactions. Elements of biotechnology including use of molecular markers, development of genetically modified cultivars, gene mapping, cloning, and gene editing will be covered. Methods to measure the effectiveness of plant breeding (genetic gain) and the impact of improved agronomic practices contributing to increased agricultural productivity will be covered. Use of intellectual property protection, and the conservation and utilization of exotic genetic resources.

**AGRON 511: Crop Improvement**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent, MATH 140, CHEM 163, BIOL 101*

Basic principles in the genetic improvement of crop plants. Methods of cultivar development in self-pollinated and cross-pollinated crop species.

**AGRON 512: Soil-Plant Environment**

(3-0) Cr. 3. S.

*Prereq: AGRON 502. Recommended AGRON 501*

Soil properties and their impact on soil/plant relationships. Soil structure, aeration, moisture, and nutrients will be discussed in the context of soil fertility and environmental quality management.

**AGRON 513: Data Science for Agricultural Professionals**

(Cross-listed with STB). (3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent, MATH 140, STAT 104*

Quantitative methods for analyzing and interpreting agronomic information. Principles of experimental design, hypothesis testing, analysis of variance, regression, correlation, and graphical representation of data. Use of SAS and Excel for organization, analyzing, and presenting data.

**AGRON 514: Integrated Pest Management**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 181 or equivalent, AGRON 501, MATH 140, CHEM 163, BIOL 101; AGRON 502 and AGRON 503 recommended*

Principles and practices of weed science, entomology, and plant pathology applied to crop production systems. Biology, ecology and principles of integrated crop pest management.

**AGRON 515: Integrated Crop and Livestock Production Systems**

(Cross-listed with A B E, AN S, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: SUSAG 509*

Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

**AGRON 516: Crop Physiology**

(3-0) Cr. 3. S.

Investigation of Molecular, whole plant, and plant community processes essential to biomass production and seed formation, and analysis of molecular approaches to overcome the limitations imposed on these processes by the environment.

**AGRON 518: Microwave Remote Sensing**

(Cross-listed with E E, MTEOR). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Math 265*

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

**AGRON 519: Herbicide Physiology and Biochemistry**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: AGRON 316 (or equivalent) and AGRON 317*

Herbicide mechanisms of action, selectivity, uptake, and translocation. Specific sites of herbicide action as they affect plant physiology. Herbicide resistance in weeds and crops. Implications of herbicides on weed management.

**AGRON 520: Plant Breeding Methods**

Cr. 3. F.

*Prereq: AGRON 506*

Breeding methods used in the genetic improvement of self-pollinated, cross-pollinated and clonal crops.

**AGRON 521: Principles of Cultivar Development**

(3-0) Cr. 3. S.

*Prereq: AGRON 421 and STAT 401*

Theoretical and practical exploration of breeding methods to develop clonal, pureline, inbred and hybrid cultivars. Principles and strategies to set breeding objectives, parental selection and germplasm management, population development, generation advancements, multiple trait selection, experimental designs in breeding programs; seed production and certification. Introduce tools available to a breeder.

**AGRON 522: Field Methods in Plant Breeding**

(0-6) Cr. 1-2. Alt. SS., offered odd-numbered years.

*Prereq: AGRON 521*

Field experience in planning and conducting plant breeding research for germplasm and cultivar development. Offered on a satisfactory-fail basis only.

**AGRON 523: Molecular Plant Breeding**

(2-2) Cr. 3. S.

*Prereq: AGRON 421 or AGRON 521, GDCB 542A*

Plant breeding in the era of sequenced genomes and transformation. High throughput genomic technologies will be presented in relation to various applications in plant breeding.

**AGRON 524: Applied Plant Molecular Genetics & Biotechnology**

Cr. 3. F.

*Prereq: AGRON 506*

Basic principles and applied techniques used in the genetic improvement of crop plants. Discussion of structure and function of genes that control traits of value. Types of molecular markers, analysis of quantitatively inherited traits, genome mapping, analyses of databases.

**AGRON 525: Crop and Soil Modeling**

(Dual-listed with AGRON 425). (3-0) Cr. 3. F.

*Prereq: (AGRON 316 or AGRON 354); MATH 165*

Understanding basic crop physiology and soil processes through the use of mathematical and statistical approaches. Structure of crop models, dynamics and relationship among components such as leaf-level photosynthesis, canopy architecture, root dynamics and soil carbon and nitrogen pools.

**AGRON 526: Field Plot Technique**

(3-2) Cr. 4. S.

*Prereq: STAT 401*

Planning experiments for agricultural research, analysis of data, and concepts in data interpretation.

**AGRON 528: Quantitative Genetics for Plant Breeding**

(3-0) Cr. 3. S.

*Prereq: AGRON 506 or AGRON 513*

An introduction to the application of quantitative genetics to plant breeding programs.

**AGRON 530: Ecologically Based Pest Management Strategies**

(Cross-listed with ENT, PL P, SUSAG). (3-0) Cr. 3. Alt. F., offered even-numbered years.

Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes.

**AGRON 531: Crop Ecology and Management**

(3-0) Cr. 3. F.

*Prereq: AGRON 501, AGRON 502, AGRON 503; AGRON 512 and AGRON 514 recommended*

Ecological principles underlying crop production systems. Crop production in the context of management approaches, system resources and constraints, and interactions. Emphasis on the ecology of row and forage crops common to the Midwest. Required course for the Master of Science in Agronomy degree program.

**AGRON 532: Soil Management**

(3-0) Cr. 3. F.

*Prereq: AGRON 501, AGRON 503, AGRON 512. Recommended AGRON 513*

Evaluates the impact of various soil management practices on soil and water resources. Combines and applies basic information gained in Agron 502 and Agron 512. Emphasizes the agronomic, economic, and environmental effects of soil management strategies. Required course for the Master of Science in Agronomy degree program.

**AGRON 533: Crop Protection**

(3-0) Cr. 3. F.SS.

*Prereq: AGRON 514*

Integrated management systems for important crop pests. Cultural, biological and chemical management strategies applicable to major crops grown in the Midwest. Required course for the Master of Science in Agronomy degree program.

**AGRON 534: Seed and Variety, Testing and Technology**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

**AGRON 536: Quantitative Methods for Seed**

(Cross-listed with STB). (2-0) Cr. 2. F.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation, analysis of variance, and graphical representation of data. Use of spreadsheets and statistical software for manipulating, analyzing and presenting data.

**AGRON 537: Quantitative Analytics for Plant Breeding**

Cr. 3. F.S.

*Prereq: AGRON 181, Math 140*

Methods to quantify consequences of decisions based on analytical methods used in crop genetic improvement and cultivar development.

**AGRON 538: Seed Physiology and the Environment**

(Cross-listed with HORT). (2-0) Cr. 2. Alt. F., offered even-numbered years.

*Prereq: AGRON 316; CHEM 231 or CHEM 331*

Physiological aspects of seed development, maturation, longevity, dormancy, and germination of agronomic and horticultural crops and their interactions with field and storage environments. Emphasis on current literature and advanced methodology.

**AGRON 539: Seed Conditioning and Storage**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal points within the overall operations of a seed company.

**AGRON 544: Host-Pest Interactions**

Cr. 3. S.

Incorporation of the principles of integrated pest management and crop protection. Management systems (biological, cultural, chemical) and strategies which practice principles of weed science, plant pathology, and entomology.

**AGRON 546: Strategies for Diversified Farming Systems**

(Cross-listed with HORT, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: SUSAG 509*

Project-focused engagement in food and farming systems using tools and perspectives drawn from multiple disciplines. Includes a field component.

**AGRON 547: Seed Production**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Survey of the differences in seed production strategies between crops and the impact of these differences on seed production.

**AGRON 551: Growth and Development of Perennial Grasses**

(Cross-listed with HORT). (2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Junior or senior or graduate classification or permission of instructor*

Selected topics on anatomy, morphology, and physiology relative to growth and development of perennial grasses. Emphasis on growth and development characteristics peculiar to grasses and variations of such characteristics under natural and managed conditions.

**AGRON 552: Intro GIS for Geoscientists**

(Dual-listed with AGRON 452). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. F.S.

Introduction to geographic information systems (GIS) using ArcGIS Pro with particular emphasis on geoscientific data. Teaches typical GIS operations and analyses in the geosciences to prepare students for practical use of GIS in industry and academia. Includes a class project for GEOL 552. Sophomore classification or above recommended.

**AGRON 553: Soil-Plant Relationships**

(Cross-listed with ENSCI). (3-0) Cr. 3. S.

Composition and properties of soils in relation to the nutrition and growth of plants.

**AGRON 554: Advanced Soil Management**

(2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: AGRON 354; MATH 165*

Implications of soil management on the soil environment and root activity. Effect of soil physical properties on soil erosion.

**AGRON 555: Environmental Soil Mineralogy**

(Cross-listed with GEOL). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: AGRON 473, CHEM 178. Recommend: GEOL 311*

Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

**AGRON 556: Agroecosystem Ecology**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: 3 credits in chemistry and 6 credits in biology; Recommended: ENSCI 382, ENSCI 553, or upper-level coursework in nutrient cycles*

Major, biologically important agroecosystem nutrient cycles as linked to energy (carbon) and water. Effects of agricultural production and management on cycling within systems and transfer among system at local, regional and global scales will be emphasized.

**AGRON 559: Environmental Soil and Water Chemistry**

(Dual-listed with AGRON 459). (Cross-listed with ENSCI). (3-3) Cr. 4. F.

*Prereq: 6 credit of CHEM; (AGRON 182 or AGRON 360); MATH 140*

An introduction to the chemical properties of soils, chemical reactions and transformations in soils and surface waters, and their impact on the environment. Topics include solution chemistry in soils and surface waters, solid-phase composition of soils, reactions at the solid-solution interface, and applications to contemporary environmental issues.

AGRON 354; GEOL 100 recommended.

**AGRON 561: Population and Quantitative Genetics for Breeding**

(Cross-listed with AN S). (4-0) Cr. 4. F.

*Prereq: STAT 587*

Population and quantitative genetics for plant and animal genetics. Study of the genetic basis and analysis of variation in quantitative traits in domestic or experimental populations using phenotypic and molecular marker data, including estimation of heritability and other genetic parameters, linkage analysis and mapping of quantitative trait loci, and the impact of inbreeding, heterosis, and genotype-by-environment interaction.

**AGRON 563: Soil Formation and Landscape Relationships**

(Dual-listed with AGRON 463). (Cross-listed with ENSCI). (3-0) Cr. 3. F. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Two weekend field trips. AGRON 182 or ENSCI 250 recommended. Credit for one of AGRON 463 or AGRON 463I may be applied for graduation.

**AGRON 570: Risk Assessment for Food, Agriculture and Veterinary Medicine**

(Cross-listed with TOX, VDPAM). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Statistics 300-level or higher.*

Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis.

**AGRON 575: Soil Formation and Transformation**

(Cross-listed with ENSCI). (1-0) Cr. 1. F.

*Prereq: AGRON 463 or equivalent*

A one-week intensive field class examining the pedology of Iowa under natural and transformed con.

**AGRON 577: Soil Physics**

(Dual-listed with AGRON 477). (Cross-listed with ENSCI). (3-0) Cr. 3. S.

The physical soil system: the soil components and their physical interactions; transport processes involving water, air, and heat. AGRON 182 recommended.

**AGRON 578: Laboratory Methods in Soil Physics**

(Cross-listed with ENSCI). (0-3) Cr. 1. S.

*Prereq: concurrent enrollment in AGRON 477 or AGRON 577*

Methods of measuring soil physical properties such as texture, density, and water content, and transport of heat, water, and gases.

**AGRON 581: Experience in Plant Science Extension and Outreach**

(Cross-listed with ENT, HORT, PL P). Cr. 1. Alt. SS., offered odd-numbered years.

A supervised learning experience in several extension delivery methods used in the plant sciences. Participation in Iowa State University-based extension programs that may include field crop, horticulture, or Master Gardener programming.

**AGRON 584: Organic Agricultural Theory and Practice**

(Dual-listed with AGRON 484). (Cross-listed with HORT, SUSAG). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 9 credits in biological or physical sciences*

Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture. Interdisciplinary examination of crop and livestock production and socio-economic processes and policies in organic agriculture from researcher and producer perspectives.

**AGRON 585: Soil and Environmental Microbiology**

(Dual-listed with AGRON 485). (Cross-listed with ENSCI, MICRO). (2-3) Cr. 3. F.

*Prereq: AGRON 182*

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 201; MICRO 201L recommended.

**AGRON 588: Raster GIS for Geoscientists**

(Dual-listed with AGRON 488). (Cross-listed with ENSCI, GEOL). (2-2) Cr. 3. Alt. S., offered odd-numbered years.

GIS course with focus on the spatial analysis and modeling of raster and triangulated irregular network (TIN) data using ArcGIS Pro. Includes practical exercises during lectures, lab exercises, homework assignments, and (for GEOL 588) a class project. Basic knowledge of ArcGIS Pro is a plus but not required. Course can be taken concurrently to any other Intro GIS course. Sophomore classification or above recommended.

**AGRON 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: 15 credits in agronomy*

Literature reviews and conferences on selected topics in crops, soils, or agricultural meteorology according to needs and interest of student.

**AGRON 591: Agronomic Systems Analysis**

(3-0) Cr. 3. S.

*Prereq: AGRON 511, AGRON 513, AGRON 531, AGRON 532, AGRON 533*

Analysis of cropping systems from a problem-solving perspective. Case studies will be used to develop the students' ability to solve agronomic problems.

**AGRON 592: Current Issues in Agronomy**

(3-0) Cr. 3. F.S.

*Prereq: AGRON 501, AGRON 503, AGRON 511, AGRON 512, AGRON 513, AGRON 514*

Critical analysis and discussion of agricultural practices, programs, and policies of current interest to the field of agronomy. Leadership skill development through consideration of technical, social, and ethical components underlying controversial topics. Enhancement of communication proficiency through debate and writing in order to define problems, articulate possible solutions, and propose appropriate courses of action. Required course for the Master of Science in agronomy degree program.

**AGRON 593: Workshop in Agronomy**

Cr. arr. Repeatable.

*Prereq: Graduate classification*

**AGRON 594: Agronomy MS Practicum**

(1-0) Cr. 1. SS.

*Prereq: AGRON 501, AGRON 502, AGRON 503, AGRON 514 or current enrollment. Recommended: AGRON 511, AGRON 512, AGRON 513*

Practical field and laboratory experiences integrating coursework in climatology, crops, and soils. Includes lectures, labs and field tours.

**AGRON 595: Seed Quality, Production, and Research Management**

(Cross-listed with STB). (2-0) Cr. 2.

*Prereq: Admission to the Graduate Program in Seed Technology and Business or approval of instructor must be obtained.*

Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager's tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

**AGRON 599: Creative Component**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599A: Agricultural Meteorology**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599B: Crop Production and Physiology**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599C: Plant Breeding**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599D: Soil Chemistry**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599E: Soil Fertility**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599F: Soil Management**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599G: Soil Microbiology and Biochemistry**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599H: Soil Morphology and Genesis**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599I: Soil Physics**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599K: Seed Science**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599L: Weed Science**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AGRON 599M: Agronomy**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**Courses for graduate students:****AGRON 600: Seminar**

(1-0) Cr. 1. Repeatable, maximum of 6 times. F.S.

Reports and discussion of recent literature and research.

**AGRON 600A: Seminar: Plant Breeding**

(1-0) Cr. 1. Repeatable, maximum of 6 times. S.

Instruction and practice in giving scientific presentations related to the fields of plant breeding, genetics, or genomics, with an emphasis on effective communication and presentation techniques.

**AGRON 600B: Seminar: Soils**

(1-0) Cr. 1. Repeatable, maximum of 6 times. S.

Reports and discussion of recent literature and research.

**AGRON 600C: Seminar: Crop Production and Physiology**

(1-0) Cr. 1. Repeatable, maximum of 6 times. F.S.

Reports and discussion of recent literature and research.

**AGRON 601: Agronomic Science Presentations**

(3-0) Cr. 2. S.

*Prereq: graduate status in agronomic science, permission of instructor.*

Experience in critical communications in exchange of ideas through oral and poster presentations and scientific questioning/evaluation.

**AGRON 605: Boundary-Layer Meteorology**

(Cross-listed with MTEOR). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: MTEOR 443 or equivalent-level course in engineering fluids*

Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

**AGRON 610: Foundations of Sustainable Agriculture**

(Cross-listed with A B E, ANTHR, SOC, SUSAG). (3-0) Cr. 3. F.

*Prereq: Graduate classification, permission of instructor*

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

**AGRON 621: Advanced Plant Breeding**

(3-0) Cr. 3. S.

*Prereq: AGRON 521, AGRON 526, AGRON 561, GEN 410*

Genetics of breeding populations, means of genotypes and breeding populations, mapping quantitative trait loci, variation in breeding populations, genetic design, genotype by environment interaction, selection in breeding populations, recurrent selection, marker-assisted selection, best linear unbiased prediction, genome-wide association studies, genomic selection, heterosis and hybrid prediction, and multiple traits.

**AGRON 625: Genetic Strategies in Plant Breeding**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: AGRON 521 and GDCB 510*

Evaluation of genetic, molecular, and cellular approaches to crop improvement; gene transfer methods. Application and role of basic plant biology in breeding programs and processes; genome structure and function, gene isolation, expression, regulation, and modification. Integration of molecular and cellular methods in breeding strategies; analysis of alternative breeding methods, regulatory and ethical issues.

**AGRON 677: Advanced Soil Physics**

(2-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: AGRON 577 and MATH 266; COM S 207 recommended*

The flow and distribution of water, chemicals, and heat in soils. Physical principles and applications.

**AGRON 693: Entrepreneurship for Graduate Students in Science and Engineering**

(Cross-listed with BCB, E E, ENGR, GENET, M E). (3-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.

*Prereq: Graduate student status and completion of at least one semester of graduate coursework.*

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only.

**AGRON 696: Research Seminar**

(Cross-listed with BBMB, FOR, GDCB, HORT, PLBIO). Cr. 1. Repeatable.

Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

**AGRON 698: Agronomy Teaching Practicum**

Cr. 1-2. Repeatable. F.S.SS.

*Prereq: Graduate classification in agronomy and permission of instructor*  
Graduate student experience in the agronomy teaching program. Offered on a satisfactory-fail basis only.

**AGRON 699: Research**

Cr. arr. Repeatable.

**AGRON 699A: Agricultural Meteorology**

Cr. arr. Repeatable.

**AGRON 699B: Crop Production and Physiology**

Cr. arr. Repeatable.

**AGRON 699C: Plant Breeding**

Cr. arr. Repeatable.

**AGRON 699D: Soil Chemistry**

Cr. arr. Repeatable.

**AGRON 699E: Soil Fertility**

Cr. arr. Repeatable.

**AGRON 699F: Soil Management**

Cr. arr. Repeatable.

**AGRON 699G: Soil Microbiology and Biochemistry**

Cr. arr. Repeatable.

**AGRON 699H: Soil Morphology and Genesis**

Cr. arr. Repeatable.

**AGRON 699I: Soil Physics**

Cr. arr. Repeatable.

**AGRON 699J: Plant Physiology**

Cr. arr. Repeatable.

**AGRON 699K: Seed Science**

Cr. arr. Repeatable.

**AGRON 699L: Weed Science**

Cr. arr. Repeatable.

## Air Force Aerospace Studies (AFAS)

*Any experimental courses offered by AFAS can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**AFAS 103: Introductory Leadership Laboratory with Physical Training**

(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.

Instruction for new cadets on Air Force customs and courtesies; drill and ceremonies, issuing military commands, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Membership as a cadet in AFROTC recommended. Offered on a satisfactory-fail basis only.

**AFAS 141: Foundations of the United States Air Force**

(1-0) Cr. 1. F.

No-commitment exploratory course introducing the United States Air Force and the Air Force Reserve Officer Training Corps program. Topics include Air Force heritage and culture, professional military officership values and expectations, and future career opportunities with an emphasis on cultivating leadership and communication skills.

**AFAS 142: Foundations of the United States Air Force**

(1-0) Cr. 1. S.

A continuation of 141. Topics expand Air Force history and heritage by examining the various functions of airpower and the organizational/command structures used to employ them. Introduces leading theories of warfare and conflict, basic principles and tenets of Air Force doctrine to guide future war planners. The course places emphasis on leadership and team building, further study of interpersonal communication, and above all, ethical decision making in the context of a military environment.

**AFAS 203: Basic Leadership Laboratory with Physical Training**

(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.

Instruction and critique of cadets on Air Force customs and courtesies, drill and ceremonies, and issuing military commands in preparation for AFROTC summer Field Training while also using basic military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Membership as a cadet in AFROTC recommended. Offered on a satisfactory-fail basis only.

**AFAS 251: Team and Leadership Fundamentals**

Cr. 1. F.

Measuring character through self-assessment and its importance for leadership and team building. The importance of listening and communication for mission accomplishment. Leadership, team building, and problem solving skills in the context of Air Force core values.

**AFAS 252: Team and Leadership Fundamentals II**

Cr. 1. S.

Defining leadership through the lens of human relations, conflict and stress management, and ethical decision making. The importance of leveraging diversity and collaborative relationships with negotiating and resiliency techniques in the context of Air Force core values.

**AFAS 303: Intermediate Leadership Laboratory with Physical Training**

(0-4) Cr. 2. Repeatable, maximum of 4 credits. F.S.

Mid-level management of leadership experience involving planning and controlling of most AFROTC military activities. Students will help senior leadership to prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Membership as a cadet in AFROTC recommended. Offered on a satisfactory-fail basis only.

**AFAS 341: Air Force Leadership Studies I**

(3-0) Cr. 3. F.

Presents the complex issues of leadership and management in the U.S. Air Force; a large and diverse organization. The theoretical aspects of leadership, management, communications, motivation and problem-solving are examined and studied against the backdrop of the U.S. Air Force.

**AFAS 342: Air Force Leadership Studies II**

(3-0) Cr. 3. S.

*Prereq: AFAS 341*

A continuation of AFAS 341. Examines the theoretical aspects of leadership, management, communications, and supervisory skills while studying them against the backdrop of the U.S. Air Force.

**AFAS 403: Advanced Leadership Laboratory with Physical Training**

(0-4) Cr. 2. Repeatable, maximum of 6 credits. F.S.

Advanced leadership experience involving the planning and controlling of all upper-level AFROTC military activities. Students will prepare and present briefings and other oral and written communications; provide interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets; and use advanced military training skills and instruction to develop confidence, leadership, and communication skills through physical fitness. Full participation in all events will be determined based on student's physical and medical eligibility. Membership as a cadet in AFROTC recommended. Offered on a satisfactory-fail basis only.

**AFAS 441: National Security Studies**

(3-0) Cr. 3. F.

Traces constitutional roots of authority and responsibilities to the Air Force officer, to include development of national security and strategy that defines US military policy and priorities. Applies legislation, joint doctrine, and relationships of operational and administrative authority concepts in the US military in the context of regional studies.

**AFAS 442: Preparation for Active Duty**

(3-0) Cr. 3. S.

Explores the range of professional, personal and social support structures available to US Air Force officers on active duty. Examines practical supervision tools to manage expectations, career development, and disciplinary action leading to the oath of office and acceptance of a commission in the US Air Force.

Meets International Perspectives Requirement.

**AFAS 483: Situational Leadership Laboratory with Physical Training**

Cr. 2. Repeatable, maximum of 4 times. F.S.

*Prereq: AFAS 403*

Situational leadership laboratory is for extended cadets that have completed the AFROTC curriculum but have not finished their degree. This provides an opportunity to continue growing as a leader in supervisory and mentorship positions while assisting the cadre with planning and controlling of all upper-level AFROTC military activities. Extended cadets will have the opportunity to work directly with cadre on special projects and duties that further prepare them for life as an active duty officer. Full participation in all events will be determined based on student's physical and medical eligibility. Membership as a cadet in AFROTC recommended. Offered on a satisfactory-fail basis only.

# American Indian Studies (AM IN)

**Any experimental courses offered by AM IN can be found at:**

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

## **AM IN 201: Native People in American Culture**

(3-0) Cr. 3. F.S.SS.

Perceptions and realities of Native people living in and responding to American society and culture. Topics include representations, contemporary Native identity, literature, the arts, history, film, and issues of diversity.

## **AM IN 205: American Indians in the Movies**

(3-0) Cr. 3. Alt. SS., offered irregularly.

Examines the role of American Indians in the movie industry. Explores the development of American Indian characters and filmmaking, and the relevance for Native communities, through feature films and academic analysis. One focus is a comparison of non-Native and Native films in form, content, and message, and the changing character of Native representation in both.

## **AM IN 210: Introduction to American Indian Studies**

(3-0) Cr. 3. F.S.SS.

Introduction to the multidisciplinary aspects of American Indian Studies. Topics include the relevant events and ideas defining the contemporary American Indian experience, on and off reservation, in the United States. Sovereignty, identity, jurisdiction, taxes, economic development, education, and other issues are addressed.

Meets U.S. Diversity Requirement

## **AM IN 225: American Indians of Iowa**

(Cross-listed with ANTHR). Cr. 3. F.

Cultures and histories of Native people who have called the present state of Iowa home; primary focus on the period between 1700 CE and the present; Native interactions with Spanish, French, British, and American people.

## **AM IN 240: Introduction to American Indian Literature**

(Cross-listed with ENGL). (3-0) Cr. 3. F.

*Prereq: Credit or concurrent enrollment in ENGL 150*

Survey of American Indian Literature of varying genres, including fiction, non-fiction, poetry, film, drama, and media. Focuses on interdisciplinary approaches to American Indian cultural, social, and environmental issues.

## **AM IN 310: Contemporary Topics in American Indian Studies**

(3-0) Cr. 3. Alt. F., offered irregularly. Alt. S., offered irregularly.

Examines contemporary issues and important topics affecting Native communities overall. AM IN 210 recommended.

## **AM IN 311: Federal Indian Law and Policy**

(3-0) Cr. 3.

Examines the impact of federal American Indian policies on Native communities, especially contemporary Indian Country and communities. Topics include sovereignty, recognition, the role of the Supreme Court, specific policies like allotment, and other relevant issues. AM IN 210 recommended.

## **AM IN 312: American Indian Education**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

Examines current and historical issues in American Indian education. Topics include traditional education, changes to formal education, tribal colleges and universities, current school systems, and other relevant topics. AM IN 210 recommended.

## **AM IN 313: Native Land, Water, and Resources**

(Cross-listed with NREM). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Examines Native land rights, water rights, and natural resources. Topics may include Native relations to landscapes, cultural resources and infrastructure projects, land rights, water usage agreements, and resource policies as they apply to on- and off-reservation Native communities. AM IN 210 recommended.

## **AM IN 315: Archaeology of North America**

(Cross-listed with ANTHR). (3-0) Cr. 3. S.

*Prereq: ANTHR 202*

Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.

## **AM IN 320: Great Plains Archaeology**

(Cross-listed with ANTHR). (3-0) Cr. 3. F.

*Prereq: ANTHR 202*

Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

## **AM IN 322: Peoples and Cultures of Native North America**

(Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: AM IN 210 or ANTHR 201*

Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

**AM IN 324: Health and Native American Communities**

(Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ENGL 250*

Overview of historic and contemporary health and health care in Native Communities. Indian Health Service and specific regulations. Consideration of both cultural and scientific approaches to medicine. Specific health issues (e.g., diabetes, alcoholism, depression, etc.) in American Indian communities.

**AM IN 332: Current Issues in Native North America**

(Dual-listed with AM IN 532). (Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**AM IN 332A: Current Issues in Native North America: Gender and Family**

(Dual-listed with AM IN 532A). (Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**AM IN 332B: Current Issues in Native North America: Indigenous Ecologies and Geographies**

(Dual-listed with AM IN 532B). (Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**AM IN 332C: Current Issues in Native North America: Cultural and Political Movements**

(Dual-listed with AM IN 532C). (Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**AM IN 332D: Current Issues in Native North America: Regional Focus**

(Dual-listed with AM IN 532D). (Cross-listed with ANTHR). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**AM IN 346: American Indian Literature**

(Cross-listed with ENGL). (3-0) Cr. 3.

*Prereq: ENGL 250*

Focused study of American Indian literature of varying genres, including fiction, non-fiction, poetry, film, drama, and media. Examines interdisciplinary approaches to American Indian cultural, social, and environmental issues.

**AM IN 426: Topics in Native American Architecture**

(Cross-listed with ARCH). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: Junior classification*

History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture. A maximum of 6 credits of ARCH 426 may be applied to degree program.

**AM IN 490: Independent Study**

Cr. arr. Repeatable, maximum of 9 credits.

*Prereq: 6 credits in AM IN; Permission of Instructor; Permission of Program Director*

Designed to meet the needs of students who wish to study in areas other than those in which courses are offered. No more than 6 credits in AM IN 490 may be counted toward graduation. If more than 3 credits in AM IN 490 are taken, they must be from different instructors.

## American Sign Language (ASL)

***Any experimental courses offered by ASL can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**ASL 101: American Sign Language I**

(4-0) Cr. 4. F.S.

Introduction to American Sign Language (ASL). Development of expressive and receptive skills including vocabulary, grammar, usage, and cultural information. Note: Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.

**ASL 102: American Sign Language II**

(4-0) Cr. 4. S.

*Prereq: ASL 101*

Introduction to American Sign Language (ASL) II continues development of expressive and receptive skills introduced in American Sign Language I, including vocabulary, grammar, usage, and cultural information. Distinct from "Signed English". ASL is a natural language with its own rules of grammar and usage.

**ASL 107: Introduction to the Deaf-World**

(1-0) Cr. 1.

Nature and significance of the Deaf-World as a cultural and linguistic minority.

**ASL 201: Intermediate American Sign Language I**

(4-0) Cr. 4. F.

*Prereq: ASL 102*

Development of fluency for intermediate conversational skills. Review of grammar and varying grammatical forms for both structured and unstructured social situations such as sharing opinions, discussing weekend activities, and exchanging views on current topics.

**ASL 202: Intermediate American Sign Language II**

(4-0) Cr. 4. S.

*Prereq: ASL 201*

A continuation and further application of language principles learned in ASL 201, to deepen ability to actively engage in dialogue both in structured and unstructured social situations. Further fluency in intermediate conversational skills will be developed, particularly in the areas of semantic equivalence and dialogic/monologic register.

**ASL 275: Topics in Deaf Culture**

(3-0) Cr. 3.

Focus on contemporary topics in Deaf Culture, Communities, and History. Readings and discussion from a wide range of sources. Topics vary according to faculty interest.

**ASL 305: ASL Classifiers and Depiction**

(3-0) Cr. 3.

*Prereq: ASL 201*

Focused analysis, documentation, discussion, and increased development of classifiers and depiction in ASL. Investigation in how these grammatical features are deliberately incorporated into conversational, presentational, scientific, and artistic language production.

**ASL 325: Deaf Peoples: Pre-World War II**

(3-0) Cr. 3. F.

*Prereq: ASL 202 or Permission of Instructor*

Perspectives on and treatment of deaf people as individuals and groups prior to World War II. Taught in American Sign Language.

**ASL 490: Independent Study**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: 6 credits in ASL; Permission of Instructor*

Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits of ASL 490 may be counted towards graduation.

## Animal Ecology (A ECL)

***Any experimental courses offered by A ECL can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****A ECL 231: Principles of Wildlife & Fisheries Conservation**

Cr. 3. S.

*Prereq: BIOL 211; BIOL 212; NREM 120*

Introduction to the principles of wildlife and fisheries management. Case studies will be explored along with assessment methods used to understand management including conservation of populations, species and communities, as well as habitat preservation and restoration.

**A ECL 312: Ecology**

(Cross-listed with BIOL, ENSCI). (3-3) Cr. 4. F.SS.

*Prereq: BIOL 211; (BIOL 212 or BIOL 251)*

Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

**A ECL 321: Fish Biology**

(2-3) Cr. 3. S.

*Prereq: A ECL 365*

Biology, ecology, and evolution of fishes. Emphasis on structure, physiology, and behavior, including a focus on the conservation and management of fishes and their habitats. Laboratory focus on fish morphology, survey methods, identification, distribution, habits, and habitats of fishes.

**A ECL 333: Fisheries Techniques**

(Cross-listed with NREM). (1-3) Cr. 2. F.

*Prereq: BIOL 212*

Introduction to techniques used in the collection and interpretation of fish population data in the field and in the lab. Course objectives include an understanding of population survey methodology and improving student critical thinking and teamwork skills. Laboratory focuses on field trips and hands-on sampling experience.

**A ECL 365: Vertebrate Biology**

(Cross-listed with BIOL). (3-2) Cr. 4. F.

*Prereq: BIOL 211; BIOL 211L*

Evolution, biology, and classification of fish, amphibians, reptiles, birds, and mammals. Emphasis on a comparative analysis of the structure and function of organ systems. Laboratory exercises concentrate on morphology and identification of orders of vertebrates.

**A ECL 366: Natural History of Iowa Vertebrates**

(2-3) Cr. 3. S.

*Prereq: BIOL 211; BIOL 211L; BIOL 212; BIOL 212L*

Vertebrate fauna of Iowa, including fishes, amphibians, reptiles, birds, and mammals. Species identification, habitat requirements, community structure and assessment, conservation issues that include historical population changes and value of wild animals to the region's ecological and economic health.

**A ECL 371: Ecological Methods**

(Cross-listed with BIOL). (2-3) Cr. 3. F.

*Prereq: A ECL 312; (STAT 101 or STAT 104)*

Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations.

**A ECL 372: Wildlife Population Methods**

(1-8) Cr. 4. SS.

*Prereq: BIOL 312 or NREM 311*

Field-intensive study of population ecology. Emphasis on hands-on learning of study design and techniques to assess population trends in plants, invertebrates, and vertebrates inhabiting terrestrial and aquatic ecosystems.

**A ECL 375: Marine Ecology and Ecosystems Dynamics**

(Cross-listed with BIOL, ENSCI). (3-0) Cr. 3. S.

*Prereq: BIOL 211*

Overview of the ecological processes, ecosystems, and biodiversity in marine environments. Ever-changing dynamics caused by environmental disturbances, internal forces, or by human impacts on species and ecosystems.

**A ECL 401: Intro to Aquatic Animal Medicine**

(Cross-listed with B M S). (1-2) Cr. 1. S.

8-week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on water-evaluation, anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, biosecurity and current research. Field trip to aquaculture facility.

**A ECL 406: Wildlife Camp**

Cr. 3. F.

*Prereq: BIOL 211; Animal Ecology major; Permission of Instructor*

Introduction to methods and career options in wildlife research and management through field work. Two-week field work experience followed by on-campus reflection, analysis and presentation of field data.

**A ECL 415: Ecology of Freshwater Invertebrates, Plants, and Algae**

(Dual-listed with A ECL 515). (2-3) Cr. 3. F.

*Prereq: A ECL 312*

Identification, biology, and ecological requirements of freshwater invertebrates, plants and algae. Additional emphases on community sampling methods and analysis, and use of organisms as tools for aquatic ecosystem health assessment.

**A ECL 418: Stream Ecology**

(Dual-listed with A ECL 518). (Cross-listed with ENSCI). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: A ECL 486*

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

**A ECL 425: Aquatic Insects**

(Dual-listed with A ECL 525). (Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

**A ECL 435: Entomology Field Trip**

(Cross-listed with ENT). Cr. 2. Repeatable, maximum of 2 times. Alt. S., offered irregularly. Alt. SS., offered irregularly.

*Prereq: BIO 312; Permission of Instructor*

Field trip to study insects of major terrestrial and aquatic ecosystems. Location and duration vary. ENT 370 or ENT 425 recommended.

**A ECL 440: Fishery Management**

(Dual-listed with A ECL 540). (2-3) Cr. 3. F.

*Prereq: A ECL 312; A ECL 321; A ECL 333; (STAT 101 or STAT 104); credit or concurrent enrollment in A ECL 486*

Biological basis of fishery management, fishery problems, and management practices for freshwater, anadromous, and marine fisheries.

**A ECL 442: Aquaculture**

(Dual-listed with A ECL 542). (3-0) Cr. 3. S.

*Prereq: BIOL 211; BIOL 212*

Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetics, diseases, and marketing.

**A ECL 451: Wildlife Ecology and Management**

(2-3) Cr. 3. S.

*Prereq: A ECL 371*

Ecological theory and practice of wildlife management, including, population ecology, habitat management, and current issues in the field. Course involves a series of case studies addressing actual wildlife issues using field and quantitative methods.

**A ECL 454: Principles of Wildlife Disease**

(Dual-listed with A ECL 554). (3-0) Cr. 3. S.

*Prereq: Junior classification; 10 credits in BIOL at the 300+ level*

Ecological and epidemiological aspects of diseases as they relate to wildlife populations. Topics to be covered include: major classes of disease; detection, description, monitoring, and management of disease; characteristics and interactions between disease agents and wildlife hosts; relationships among wildlife, domestic animal, and human health.

**A ECL 455: International Wildlife Issues**

(3-0) Cr. 3. F.

*Prereq: A ECL 365; (A ECL 312 or Graduate standing); NREM 120*

Biological, political, social, and economic factors affecting the management of international wildlife resources.

Meets International Perspectives Requirement.

**A ECL 457: Herpetology**

(Cross-listed with BIOL). (2-0) Cr. 2. F.

*Prereq: BIOL 351 or BIOL 365*

Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

**A ECL 457L: Herpetology Laboratory**

(Cross-listed with BIOL). (0-3) Cr. 1. F.

*Prereq: BIOL 351 or BIOL 365 or A ECL 365; Concurrent enrollment in BIOL 457 or A ECL 457*

Laboratory to accompany Biology/Animal Ecology 457. Focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

**A ECL 458: Ornithology**

(Cross-listed with BIOL). (2-0) Cr. 2. S.

*Prereq: A ECL 365 or BIOL 351*

Biology, evolution, ecology and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation.

**A ECL 458L: Ornithology Laboratory**

(Cross-listed with BIOL). (0-3) Cr. 1. S.

*Prereq: (A ECL 365 or BIOL 351); concurrent enrollment in A ECL 458 or BIOL 458*

Laboratory complements lecture topics with emphasis on external anatomy, identification and distribution of Midwest birds, and field trips.

**A ECL 459: Mammalogy**

(Cross-listed with BIOL). (2-0) Cr. 2. S.

*Prereq: A ECL 365 or BIOL 351*

Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation.

**A ECL 459L: Mammalogy Laboratory**

(Cross-listed with BIOL). (0-3) Cr. 1. S.

*Prereq: (A ECL 365 or BIOL 351); concurrent enrollment in (A ECL 459 or BIOL 459)*

Laboratory focus on identification, survey methods, distribution, habits, and habitats of mammals. Several field trips.

**A ECL 471: Introductory Conservation Biology**

(Cross-listed with BIOL). Cr. 3. S.

*Prereq: BIOL 312*

Examination of conservation issues from a population and community perspective. The role of genetics, demography, and environment in determining population viability, habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

**A ECL 480: Studies in Marine Biology**

Cr. 1-8. Repeatable. SS.

Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

**A ECL 486: Aquatic Ecology**

(Dual-listed with A ECL 586). (Cross-listed with BIOL, ENSCI). (3-0) Cr. 3. F.

*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**A ECL 486L: Aquatic Ecology Laboratory**

(Dual-listed with A ECL 586L). (Cross-listed with BIOL, ENSCI). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**A ECL 489: Population Ecology**

(Dual-listed with A ECL 589). (Cross-listed with BIOL). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing*

Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**A ECL 515: Ecology of Freshwater Invertebrates, Plants, and Algae**

(Dual-listed with A ECL 415). (2-3) Cr. 3. F.

*Prereq: A ECL 312*

Identification, biology, and ecological requirements of freshwater invertebrates, plants and algae. Additional emphases on community sampling methods and analysis, and use of organisms as tools for aquatic ecosystem health assessment.

**A ECL 516: Avian Ecology**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A ECL 365, A ECL 312, or graduate standing*

Current topics and theories including avian breeding and foraging ecology, population biology, community structure, habitat selection, field methodologies, and data interpretation.

**A ECL 518: Stream Ecology**

(Dual-listed with A ECL 418). (Cross-listed with ENSCI). (2-3) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: A ECL 486*

Biological, chemical, physical, and geological processes that determine the structure and function of flowing water ecosystems. Current ecological theories as well as applications to stream management for water quality and fisheries.

**A ECL 520: Fisheries Science**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: A ECL 312, A ECL 321*

Concepts, approaches, and techniques for assessment of recreational and commercial fisheries. Scope will range from individual fish to entire ecosystems, both freshwater and marine.

**A ECL 525: Aquatic Insects**

(Dual-listed with A ECL 425). (Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BIOL 312*

Morphology, ecology, diversity, and significance of aquatic insects, with emphasis on the collection, curation and identification of taxa in local streams and lakes.

**A ECL 531: Conservation Biology**

(Cross-listed with EE0B). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: BIOL 312; BIOL 313 or graduate standing*

Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

**A ECL 540: Fishery Management**

(Dual-listed with A ECL 440). (2-3) Cr. 3. F.

*Prereq: A ECL 312; A ECL 321; A ECL 333; (STAT 101 or STAT 104); credit or concurrent enrollment in A ECL 486*

Biological basis of fishery management, fishery problems, and management practices for freshwater, anadromous, and marine fisheries.

**A ECL 542: Aquaculture**

(Dual-listed with A ECL 442). (3-0) Cr. 3. S.

*Prereq: BIOL 211; BIOL 212*

Concepts related to the culture of aquatic organisms including culture systems, water quality, nutrition, genetics, diseases, and marketing.

**A ECL 551: Behavioral Ecology**

(2-2) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: a course in ecology or animal behavior*

The study of how an animal's behavior affects its ability to survive and reproduce in its environment. Course topics, such as foraging behavior, sexual selection, parental care, etc., represent the interface of ecology, evolution, and behavior.

**A ECL 554: Principles of Wildlife Disease**

(Dual-listed with A ECL 454). (3-0) Cr. 3. S.

*Prereq: Junior classification; 10 credits in BIOL at the 300+ level*

Ecological and epidemiological aspects of diseases as they relate to wildlife populations. Topics to be covered include: major classes of disease; detection, description, monitoring, and management of disease; characteristics and interactions between disease agents and wildlife hosts; relationships among wildlife, domestic animal, and human health.

**A ECL 586: Aquatic Ecology**

(Dual-listed with A ECL 486). (Cross-listed with EEOB, ENSCI). (3-0) Cr. 3. F.

*Prereq: BIOL 312 or ENSCI 319 or ENSCI 402 or NREM 301*

Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology.

**A ECL 586L: Aquatic Ecology Laboratory**

(Dual-listed with A ECL 486L). (Cross-listed with EEOB, ENSCI). (0-3) Cr. 1. F.

*Prereq: Concurrent enrollment in BIOL 486*

Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts.

**A ECL 589: Population Ecology**

(Dual-listed with A ECL 489). (Cross-listed with EEOB). (2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 312, STAT 101 or STAT 104, a course in calculus, or graduate standing*

Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

**A ECL 599: Creative Component**

Cr. arr.

*Prereq: Nonthesis M.S. option only*

**Courses for graduate students:****A ECL 611: Analysis of Populations**

(2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: BIOL 312; STAT 401; a course in calculus*

Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

**A ECL 698: Animal Ecology Teaching Practicum**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Graduate classification in animal ecology and permission of instructor*  
Graduate student experience in the animal ecology teaching program.  
Offered on a satisfactory-fail basis only.

**A ECL 699: Research**

Cr. arr. Repeatable.

## Animal Science (AN S)

***Any experimental courses offered by AN S can be found at:***

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****AN S 101: Working with Animals**

(1-2) Cr. 2. F.S.SS.

An introductory course in skills for proper care, handling, and management of domestic animals. Terminology and skills in working with animals, identification, life-cycle management practices, and animal health management are introduced and examined.

**AN S 110: Orientation in Animal Science and ISU**

(2-0) Cr. 1. F.S.

Orientation to the university and Department of Animal Science. Challenges and opportunities available to the professional animal agriculturalist. Professional goal setting, portfolio development, and development of interpersonal skills in the context of pursuing a career in animal science.

**AN S 114: Survey of the Animal Industry**

(2-0) Cr. 2. F.S.

Principles of management and care of domestic animals, including genetics, nutrition, and reproduction. Service of domestic animals to society in terms of food, shelter, protection, fuel and emotional well-being. Basic biology, industry structure, management practices and production systems.

**AN S 116: Practicum in Safe Equine Handling and Welfare**

(0-3) Cr. 1. F.

Development of best practices for safe horse handling and practical equine health care tasks. Course will focus on equine welfare and human safety as well as provide training in necessary every day skills needed to own a horse or to work at a horse farm. Certificate of Safe Equine Handling and Welfare available upon course completion.

**AN S 190: Livestock Handling, Safety and Welfare**

(Cr. 2. F.S.)

*Prereq: AN S 101*

Understanding of animal perception to develop best care practices involved in handling of livestock species (beef, sheep, swine, dairy, equine, poultry). Intensive development of skills associated with handling and moving healthy and compromised livestock in respect to human and animal welfare. Integration of scientific and theoretical knowledge of biosecurity and animal-human interactions as it related to livestock handling and movement.

**AN S 199: Marketing and Management of Livestock Events**

(0-2) Cr. 1. Repeatable. F.S.

*Prereq: Credit or concurrent enrollment in AN S 101 or AN S 114*

Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

**AN S 199A: Marketing and Management of Livestock Events: Beef**

(0-2) Cr. 1. Repeatable. F.S.

*Prereq: Credit or concurrent enrollment in AN S 101 or AN S 114*

Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

**AN S 199E: Marketing and Management of Livestock Events: Horses**

(0-2) Cr. 1. Repeatable. F.S.

*Prereq: Credit or concurrent enrollment in AN S 101 or AN S 114*

Management and coordination of livestock shows, sales and events, including program planning, staff and volunteer management, time management, publicity and promotion for fairs, shows, clinics, expos, and other events. Offered on a satisfactory-fail basis only. A maximum of two credits of AnS 199 may be applied toward the total credits required for graduation.

**AN S 207: The Art and Heritage of Livestock**

(3-0) Cr. 3. F.

Using art as a venue to understand the legacy and heritage of livestock production and livestock's contribution to civilization and society; livestock's contributions to warfare, social class, industry, economies, etc.; history of the impact of livestock on painting, poetry, music, sculpture, advertising, pop culture, movies, religion and sports in society.

**AN S 210: Career Preparation in Animal Science**

(0-2) Cr. 1. F.S.

*Prereq: Sophomore classification; AN S major*

Life skill development emphasized in the context of career preparation. Assist students with career goal clarification, interview skills, resume and cover letter preparation. Internship development, job shadowing, and exploration of career option.

**AN S 211: Issues Facing Animal Science**

(0-2) Cr. 1. F.S.

*Prereq: AN S 114; Sophomore classification*

Overview of the factors that define contemporary ethical and scientifically based issues facing animal agriculture. Life skill development (including interactive skills, communication ability, organization, information gathering, and leadership skills) emphasized in the context of issues study. Offered on a satisfactory-fail basis only.

**AN S 214: Domestic Animal Physiology**

(3-0) Cr. 3. F.S.

*Prereq: BIOL 212; (CHEM 163 or CHEM 167 or CHEM 177)*

Introduction to anatomy and physiology of the muscular, renal, skeletal, neural, mammary, cardiovascular, respiratory, immune, endocrine, reproductive, and digestive systems of domestic animals.

**AN S 214L: Domestic Animal Anatomy and Physiology Lab**

(0-2) Cr. 1. F.S.

Basic anatomy of domestic animals.

**AN S 216: Equine Science**

(2-2) Cr. 3. F.S.

*Prereq: (AN S 101 or AN S 114); (BIOL 101 or BIOL 211 or BIOL 212)*

Introduction to contemporary concepts, and basic practices and decisions necessary when managing horses through stages of their lives.

**AN S 217: Equine Farm Practicum**

(1-2) Cr. 2. F.S.

*Prereq: Credit or concurrent enrollment in AN S 216 or Permission of Instructor*

Intensified management of the equine farm. Provide students with experiential learning in all phases of horse production and management. Students assist with general farm management, horse health care, weekly farm management, and related topics.

**AN S 223: Poultry Science**

(2-2) Cr. 3. F.

*Prereq: AN S 101; AN S 114*

Introduction to modern production trends with a focus on broiler, layer, and turkey industries. Topics covered include breeds, handling, management, physiology, nutrition, genetics, health & disease, and products. Weekly labs meet off campus.

**AN S 224: Companion Animal Science**

(2-2) Cr. 3. S.

*Prereq: BIOL 101 or BIOL 211 or BIOL 212*

Introduction to the science of managing companion animals through life stages. Topics covered will include human-animal bond, common and uncommon species kept as pets, breeds, behavior, basic training, nutrition, genetics, and breeding.

**AN S 225: Swine Science**

(2-2) Cr. 3. F.S.

*Prereq: AN S 101; AN S 114*

Introduction to principles, practices and decisions necessary when raising swine through the vertically integrated production cycle. Only AN S 280 and AN S 280L or AN S 225 may count toward graduation.

**AN S 226: Beef Cattle Science**

(2-2) Cr. 3. F.S.

*Prereq: AN S 101; AN S 114*

Introduction to principles, practices and decisions necessary when raising beef cattle through the vertically integrated production cycle.

**AN S 228: Laboratory Animal Science**

Cr. 3. F.

*Prereq: AN S 101; AN S 114*

Introduction to the species, uses, biology, facilities, care, and diseases of animals used in research. AN S 214 recommended.

**AN S 229: Sheep Science**

(2-2) Cr. 3. S.

*Prereq: AN S 101; AN S 114*

Introduction to principles, practices and decisions necessary when raising sheep through their production cycle.

**AN S 235: Dairy Cattle Science**

(2-2) Cr. 3. F.

*Prereq: AN S 101; AN S 114*

Introduction to principles, practices and decisions necessary when raising dairy cattle through the vertically integrated production cycle.

**AN S 270: Foods of Animal Origin**

(2-0) Cr. 2. F.S.SS.

*Prereq: BIOL 212; (CHEM 163 or CHEM 167 or CHEM 177)*

Principles, practices and issues impacting the production, processing and preservation of safe, wholesome, nutritious, and palatable meat, dairy, and egg products. Product evaluation, classification, value, and utilization.

**AN S 270L: Foods of Animal Origin Laboratory**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in AN S 270*

Determination of composition and quality of meat, eggs and milk based on industry and USDA standards. Fundamentals of processing foods of animal origin to add value, maintain quality and ensure safety.

**AN S 280: Basic Swine Science**

(2-0) Cr. 2.

*Prereq: AN S 101; AN S 114*

Basic disciplines and concepts involved in swine production including; industry structure, trends and statistics; production phases and buildings; genetic improvement; reproduction; nutrition; health and biosecurity; nutrient management; marketing and meat quality and career opportunities in the swine industry. Only AN S 280 and AN S 280L or AN S 225 may count toward graduation.

**AN S 305: Livestock Evaluation**

(0-6) Cr. 3. F.

*Prereq: Junior classification*

Fall semester leads to 475A or D. Breeding animal and market animal evaluation of beef, swine and sheep using contemporary techniques and tools. Communication and decision-making skills are practiced in the context of making selection decisions. AN S 270L recommended.

**AN S 306: Equine Evaluation**

(0-6) Cr. 3. S.

*Prereq: Sophomore classification*

Detailed visual evaluation of conformation and performance of the equine athlete. Decision-making skills are practiced in the context of making selection choices. Development of written and oral communication skills as students defend their judgments. Industry trends will be addressed.

**AN S 313: Exercise Physiology of Animals**

(3-0) Cr. 3. F.S.

*Prereq: AN S 214; BIOL 211; (CHEM 163 or CHEM 167 or CHEM 177)*

Physiological adaptations to athletic training in canine and equine athletes. Topics of emphasis include exercise-related adaptations in metabolism, locomotion, the cardiovascular system, musculoskeletal system, and endocrine system. The roles of nutrition and conditioning programs are assessed.

**AN S 316: Equine Reproduction Lab**

Cr. 3. S.

*Prereq: (AN S 116; credit or concurrent enrollment in AN S 331) or Permission of Instructor*

Reproductive anatomy with emphasis on the physiology of normal reproductive function; breeding season management; ways to control and improve reproduction; semen collection, evaluation, and processing; artificial insemination; pregnancy testing; parturition in the mare, foal care. Participation outside of class time is expected.

**AN S 317: Fundamentals of Equine Behavior and Training**

(0-6) Cr. 1-3.

Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

**AN S 317A: Fundamentals of Equine Behavior and Training: Young Horses at Halter**

(0-6) Cr. 1. F.

Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

**AN S 317B: Fundamentals of Equine Behavior and Training: Yearlings**

(0-6) Cr. 3.

*Prereq: Permission of Instructor*

Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

**AN S 317C: Fundamentals of Equine Behavior and Training: Two-year olds and older**

(0-6) Cr. 3.

Modifying the behavior of the horse using systematic approaches to horse training emphasizing the psychology of training horses. Equipment and its use and preparation of horses for competition. A maximum of 4 credits of An S 317 may be applied toward graduation.

**AN S 319: Animal Nutrition**

(3-0) Cr. 3. F.S.

*Prereq: AN S 214; (BBMB 221 or CHEM 331)*

Structure and function of organic and inorganic nutrients. Digestion, absorption, metabolism and utilization of nutrients for maintenance and productive functions. Essential nutritive requirements of domestic livestock, poultry, and companion animals. Sources of nutrients, application of energy systems and concepts, and regulation of feed intake in animals. Students may not receive graduation credit for both AN S 219 and AN S 319.

**AN S 320: Animal Feeds and Feeding**

(2-2) Cr. 3. F.S.

*Prereq: AN S 319*

Principles and practices of animal feed evaluation including nutrient composition and physical properties of common feedstuffs. Utilization of nutrient requirements at various physiological stages to formulate diets using manual and software-based computer methodologies. Students may not receive graduation credit for both AN S 219 and AN S 320.

**AN S 324: Food Processing for Companion Animals**

(3-0) Cr. 3. F.

*Prereq: AN S 319; Junior classification*

Food processing and nutrition for carnivorous companion animals. Topics covered include meat processing and meat preservation for companion animal diets, regulatory standards, cutting edge technologies for processing meat for companion animals, dietary needs of carnivorous companion animals, effect of different processing methods on safety and nutrient bioavailability.

**AN S 331: Domestic Animal Reproduction**

(3-0) Cr. 3. F.S.

*Prereq: AN S 214 or (BIOL 255; BIOL 256) or BIOL 335 or B M S 329*

Comparative anatomy, physiology, and endocrinology of domestic mammalian animal reproduction. Techniques for the control and manipulation of reproductive processes.

**AN S 332: Laboratory Methods in Animal Reproduction**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in AN S 331*

Reproductive anatomy with emphasis on the physiology of normal reproductive function; ways to control and improve reproduction; principles of semen collection and artificial insemination; pregnancy testing.

**AN S 332A: Laboratory Methods in Animal Reproduction: Livestock, Companion, and Laboratory Animals**

(0-2) Cr. 1. F.S.

*Prereq: Credit or concurrent enrollment in AN S 331*

Comparative reproductive anatomy with emphasis on the physiology of normal reproductive function; ways to control and improve reproduction; principles of semen collection and artificial insemination; pregnancy testing.

**AN S 332E: Laboratory Methods in Animal Reproduction: Equine**

(0-2) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in AN S 331*

Reproductive anatomy with emphasis on the physiology of normal reproductive function; breeding season management; ways to control and improve reproduction; semen collection, evaluation, and processing; artificial insemination; pregnancy testing; parturition in the mare, foal care.

**AN S 333: Embryo Transfer and Related Technologies**

(3-0) Cr. 3. F.

*Prereq: AN S 331 or AN S 332*

Application of embryo transfer and related technologies to genetic improvement of mammalian livestock. Techniques for control of female reproduction, embryo collection and transfer, embryo cryopreservation, and embryo manipulation. Gender selection. Economic and genetic aspects of embryo transfer.

**AN S 334: Embryo Transfer Laboratory**

(0-3) Cr. 1. F.

*Prereq: Credit or concurrent enrollment in AN S 332 or AN S 333; Permission of Instructor*

Selected laboratory exercises related to embryo transfer such as synchronization of estrus, superovulation, detection of estrus, artificial insemination, embryo collection, embryo evaluation, microscopy, embryo cryopreservation, in vitro fertilization, embryo sexing, rectal palpation, and ultrasonography will be demonstrated and/or performed.

**AN S 335: Dairy Cattle Evaluation**

(0-6) Cr. 3. S.

*Prereq: Sophomore classification*

Evaluation of dairy heifers and lactating dairy cows. Emphasis placed on familiarity with anatomical terms/structures, the use of comparative terminology, decision-making skills, and presentation of oral reasons. (Introduction and skills development course for AN S 475B.).

**AN S 336: Domestic Animal Behavior and Well-Being**

(2-2) Cr. 3. F.

*Prereq: AN S 214*

Understand how managed animals cope and perceive the environment. Principles of behavior and well-being relative to animal care, management and housing. Methods to objectively assess animal well-being. Awareness of animal protection through education/assessments, audits and law.

**AN S 337: Lactation**

(3-0) Cr. 3. S.

*Prereq: AN S 214*

The structure, development and evolution of the mammary gland. Mammary metabolism, milk synthesis; neural and endocrine regulation of mammary function. Immune function and health of the mammary gland. Current events related to lactation.

**AN S 345: Growth and Development of Domestic Animals**

(3-0) Cr. 3. S.

*Prereq: AN S 214*

Basic principles of animal growth and development covered at the tissue, cellular and molecular level. Emphasis placed on skeletal muscle, adipose, bone, and immune system growth and development. The effects of genetics, nutrition, and pharmaceuticals on growth. Course(s) in nutrition, genetics, meat science and/or biochemistry recommended.

**AN S 352: Genetic Improvement of Domestic Animals**

(2-2) Cr. 3. F.S.Alt. SS., offered odd-numbered years.

*Prereq: BIOL 211; (AN S 351X or BIOL 313 or GEN 320); (STAT 101 or STAT 104)*

Principles of qualitative and quantitative genetics applied to improve domestic animal populations. Impact of selection and mating schemes in achieving breeding program goals. Applications and impacts of biotechnological advancements in genetics and genomics.

**AN S 360: Fresh Meat Science and Applied Muscle Biology**

(3-0) Cr. 3. F.

*Prereq: AN S 270; (BBMB 221 or CHEM 331)*

Impact of muscle structure, composition, rigor mortis, inspection, fabrication, handling, packaging and cooking on the palatability, nutritional value, yields, market value, and safety of fresh meat.

### **AN S 373A: Poultry Products Technology**

Cr. 3. SS.

*Prereq: (CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or 212)) or*

*Permission of Instructor*

Basic principles of meat-producing and egg-laying poultry management, meat science, product functionality, egg quality, and food safety, product quality, product functionality, and food safety. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

### **AN S 373B: Applied Avian Physiology**

Cr. 3. SS.

*Prereq: ((CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or 212)) or*

*Permission of Instructor*

Introduction of industry-relevant aspects of avian physiology with emphasis on behavior, neurology, muscle, cardiovascular, immunology, digestive, endocrinology, and reproductive systems for egg and meat producing birds. Focus on avian physiology and relevance to production management and outcomes. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

### **AN S 373C: Avian Health**

Cr. 3. SS.

*Prereq: ((CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or 212)) or*

*Permission of Instructor*

Identification, diagnosis, management, and prevention of diseases in commercial poultry. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

### **AN S 373D: Poultry Nutrition**

Cr. 3. SS.

*Prereq: ((CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or 212)) or*

*Permission of Instructor*

Commercial poultry-specific nutrition with an emphasis on species and age-specific diet formulation, ingredient selection, feed production, and production system. Use of feed additives and production outcomes. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

### **AN S 380A: Swine Breeding and Gestation Management**

Cr. 1. S.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Concepts related to: reproductive physiology and endocrinology of boars and sows; genetic selection programs; development programs for future replacement gilts and boars; semen collection, evaluation, and preparation; detection of estrus and artificial insemination; pregnancy diagnosis; feeding and housing programs for gestating sows; environmental management; records; diseases, and development of quality assurance programs for identifying and solving reproductive problems.

### **AN S 380B: Contemporary Issues in the Swine Industry**

Cr. 1. S.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Evaluation of issues facing today's swine industry including: welfare, nutrient management, and food safety and security. Development of skills needed for effective community relations such as media interviews and message points.

### **AN S 380C: Employee Management for the Swine Industry**

Cr. 1. F.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Effective employee management in swine production units. Principles, policies, and practices related to procurement, development, maintenance, and utilization of employees.

### **AN S 380D: Farrowing Management**

Cr. 1. S.SS.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Advanced integration and application of reproductive management concepts during farrowing and lactation. Identification of production trends; formulation of strategies to improve productivity, and parturition and neonatal management.

### **AN S 380E: Swine Feed Mill Management**

Cr. 1. F.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Principles of feed manufacturing, equipment operation, feed and ingredient quality assurance and regulatory compliance in a modern feed milling operation. Overview of feed mill regulations and safety.

### **AN S 380F: Marketing and Risk Management in the Swine Industry**

Cr. 1. S.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

A comprehensive view of industry structure and trends and marketing options available in the swine industry. Management of risk between markets and/or contracts.

**AN S 380G: Swine Nursery and Finishing Management**

Cr. 1. SS.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Overview of the critical management, housing, and financial considerations relevant to the successful operation of a swine nursery, grow-finish, or wean to finish enterprise, including nutrient requirements; building and facility management; and marketing.

**AN S 380I: Pork Export Markets**

Cr. 1. SS.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Introduction to global markets; cultural preferences and customs associated with the global swine industry. International trade regulations potential impact of foreign animal diseases and bioterrorism affecting the U.S. swine industry.

**AN S 380J: Pork Product Quality and Safety**

Cr. 1. S.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Pre- and post-harvest affecting pork product quality and safety. Overview of pork harvesting process and traits and characteristics of quality pork products.

**AN S 380K: Swine Nutrition**

Cr. 1. F.

*Prereq: AN S 225 or (AN S 280; AN S 280L); AN S 319*

Principles of developing and implementing a swine feeding program. Fundamentals of feeding pigs including nutrients; factors affecting nutrient recommendations; feeding systems and management; feed ingredients, and formulation of swine diets.

**AN S 382: Swine Environment Management**

(1-0) Cr. 1.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Response of swine to thermal environment, ventilation system design and analysis, heating and cooling systems, and examples of various designs for all phases of production. Troubleshooting ventilation systems and energy analysis of production units. TSM 210 Recommended.

**AN S 383: Swine Manure and Nutrient Management**

(1-0) Cr. 1.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Function, application, and advantages and disadvantages of nutrient management systems. Manure production rates, manure handling systems, storage and manure management planning for land application and odor mitigation strategies.

**AN S 384: Swine Health and Biosecurity**

(1-0) Cr. 1.

*Prereq: AN S 225 or (AN S 280; AN S 280L)*

Overview of standard biosecurity protocols and identification of behavior and clinical signs of illness in pigs. Treatment administration and prevention methods. Introduction to immune system function and basic swine disease transmission. Recommended a course in microbiology.

**AN S 399: Animal Science Internship**

Cr. arr. Repeatable. F.S.SS.

**AN S 399A: Animal Science Internship: Graded Internship Experience**

Cr. 2-6. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Learning experience focused on professional development for a career related to animal science. Journal, presentation, and scientific component.

**AN S 399B: Animal Science Internship: Supervised Internship Experience**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of Instructor*

Learning experience focused on professional development for a career related to animal science. Journal, presentation, and scientific component. This course is designed for those students who are completing a semester long internship located off campus.

**AN S 411: Addressing Issues in Animal Science**

(0-2) Cr. 1. F.S.

*Prereq: Senior classification; AN S major*

Life skill development emphasized in the context of exploring one's perspective of the most pressing moral and scientific issues facing animal agriculture. Clarification and communication of personal conclusions in small and large group settings expected.

**AN S 415: Equine Systems Management**

(2-2) Cr. 3. F.S.

*Prereq: AN S 216; AN S 319; AN S 320; AN S 331*

Identification and development of financial and production goals in a horse business. Scientific approach to make decisions in management of enterprises in the horse industry.

**AN S 419: Advanced Animal Nutrition**

(2-0) Cr. 2. F.

*Prereq: AN S 319*

Detailed consideration of digestion, metabolism, and assimilation of nutrients. Recent advances and developments in basic nutrition.

**AN S 424: Companion Animal Systems Management**

(2-2) Cr. 3. S.

*Prereq: AN S 224; AN S 319; AN S 320; AN S 331; AN S 352*

Factors that affect managers of a companion animal enterprise.

Financial and business goal identification, problem clarification, behavior modification, animal training, humane education, and resource allocation to manage a companion animal system.

**AN S 425: Swine Systems Management**

(2-2) Cr. 3. F.

*Prereq: (AN S 225; AN S 270; AN S 270L; AN S 319; AN S 320; AN S 331; AN S 352) or Permission of Instructor*

Decisions facing the administrator of a swine enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the swine enterprise. ECON 230 or equivalent recommended.

**AN S 426: Beef Cattle Systems Management**

(2-2) Cr. 3. F.S.

*Prereq: (AN S 226; AN S 270; AN S 270L; AN S 320) or Permission of Instructor*

Decisions facing the administrator of a beef cow-calf or feedlot enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the beef enterprise. Computer aided study. ECON 230 or equivalent recommended.

**AN S 429: Sheep Systems Management**

(2-2) Cr. 3. S.

*Prereq: (AN S 229; AN S 319; AN S 320; AN S 331; AN S 352) or Permission of Instructor*

Decisions facing the administrator of a sheep enterprise. Financial and production goal identification, problem clarification, and resource allocation to manage the sheep enterprise. ECON 230 and AGRON 334 or equivalents recommended.

**AN S 434: Dairy Systems Management**

(2-2) Cr. 3. F.

*Prereq: AN S 235; AN S 331; AN S 320; AN S 337; AN S 352*

The scientific foundation of dairy cattle management. The impact of dairy farm management practices on the biological processes of the cow. Integrates concepts from the disciplines of lactation, reproduction, nutrition, genetics, and animal health.

**AN S 435: Applied Dairy Farm Evaluation**

(2-2) Cr. 3. S.

*Prereq: AN S S 434*

Evaluate nutrition, reproduction, milk quality, breeding, and related management practices of commercial dairy herds in a case study format. Students will apply knowledge gained in the classroom to commercial dairy farm situations and develop skills in information gathering, decision making, problem solving, and interpersonal communications. ECON 230 or equivalent recommended.

**AN S 441: International Animal Agriculture**

(Cross-listed with GLOBE). (3-0) Cr. 3. S.

*Prereq: AN S 223 or AN S 225 or AN S 226 or AN S 229 or AN S 235*

An overview of animal agriculture with emphasis in developing countries. Historical, economic, environmental, and political considerations will be assessed and evaluated. Issues related to gender, resilience and sustainability for different production systems including alternative livestock species, will be investigated. The role of animal source foods in attainment of global food security will be discussed.

Meets International Perspectives Requirement.

**AN S 460: Science and Technology of Value Added Meat Products**

(Dual-listed with AN S 560). (2-2) Cr. 3. S.

*Prereq: AN S 270*

Physical, chemical and biological properties of meat important to achieving value-added meat product characteristics. Ingredients, technology and equipment used for processing, preservation and safety of cured meats, loaf products and fresh, cooked, dry and semi-dry sausage products.

**AN S 473A: Poultry Enterprise Management**

Cr. 3. SS.

*Prereq: (CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or BIOL 212)*

Business and management aspects of the poultry industry. Emphasis on personal interactions, effective communication, interview skills, poultry management, writing a business plan, and business decisions. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

**AN S 473B: Breeder Flock and Hatchery Management**

Cr. 3. SS.

*Prereq: (CHEM 163 or CHEM 167 or CHEM 177); (BIOL 211 or BIOL 212)*

Topics associated with the management of poultry breeder flocks and hatcheries: nutrition, lighting management, reproductive physiology, and husbandry for breeder flocks. Embryology, incubation techniques, biosecurity, and hatchery management. 2-week course. Enrollment restricted to participants in the Midwest Poultry Consortium Center of Excellence Scholarship/Internship program.

**AN S 475: Intercollegiate Judging Training and Competition**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation and grading of livestock, livestock products, and livestock/domesticated animal production management plans. Development and advancement of decision-making skills, comparative techniques, and presentation of oral or written reasons or analyses. Maximum of 6 credits may be applied toward graduation. Maximum of 6 credits may be applied toward graduation.

**AN S 475A: Intercollegiate Judging Training and Competition: Meat Animals**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation and grading of livestock. Development and advancement of decision-making skills, comparative techniques and terminology, familiarity with anatomical terms/structures, and presentation of oral reasons. Maximum of 6 credits may be applied toward graduation. Maximum of 6 credits may be applied toward graduation.

**AN S 475B: Intercollegiate Judging Training and Competition: Dairy Cattle**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation of dairy cattle, in particular heifers and lactating dairy cows. Development and advancement of decision-making skills, comparative techniques and terminology, familiarity with anatomical terms/structures, and presentation of oral reasons. Maximum of 6 credits may be applied toward graduation.

**AN S 475C: Intercollegiate Judging Training and Competition: Meats**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation and grading of livestock/meat products. Development and advancement of decision-making skills, comparative techniques and terminology, familiarity with anatomical terms/structures, and presentation of written reasons. Maximum of 6 credits may be applied toward graduation.

**AN S 475D: Intercollegiate Judging Training and Competition: Meat Animal Evaluation**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation and grading of livestock, livestock products, and livestock production management plans. Emphasis placed on the impact of management decisions on marketability and profitability. Development and advancement of decision-making skills, and communication and comparative techniques. Maximum of 6 credits may be applied toward graduation.

**AN S 475E: Intercollegiate Judging Training and Competition: Horses**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation of horses and horse events. Emphasis placed on familiarity with anatomical terms/structures, form to function, application of breed association rules and current maneuver scoring, and the use of comparative terminology. Development and advancement of decision-making skills, comparative techniques, and presentation of oral reasons. Maximum of 6 credits may be applied toward graduation.

**AN S 475F: Intercollegiate Judging Training and Competition: Management Systems**

(0-4) Cr. 1-2. Repeatable. F.S.

*Prereq: Permission of Instructor*

Specialized training in evaluation of livestock/domesticated animal production management plans. Development and advancement of decision-making skills, comparative techniques, and presentation of analyses. Emphasis placed on the impact of management decisions on marketability and profitability. Maximum of 6 credits may be applied toward graduation.

**AN S 480: Animal Industry Leadership Fellows**

Cr. 1. Repeatable. F.S.

*Prereq: AN S 225; AN S 226; Permission of Instructor*

Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

**AN S 480A: Animal Industry Leadership Fellows: Beef**

Cr. 1. Repeatable. F.S.

*Prereq: AN S 226; Permission of Instructor*

Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

**AN S 480C: Animal Industry Leadership Fellows: Pork**

Cr. 1. Repeatable. F.S.

*Prereq: AN S 225; Permission of Instructor*

Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. This for-credit offering represents the central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

**AN S 480G: Animal Industry Leadership Fellows: Poultry**

Cr. 1. Repeatable. F.S.

*Prereq: AN S 223; Permission of Instructor*

Students broaden their perspective of the livestock industry through site visits, case-study (Fellows) projects, and cooperative learning experiences that capitalize on interaction skills in the context of studying the structure of the U.S. livestock industry. Central academic focus of the Iowa State University Animal Industry Leadership Fellows Program. Study is species specific, and enrollment is limited. Offered on a satisfactory-fail basis only.

**AN S 489: Issues in Food Safety**

(Cross-listed with FS HN, HSP M, VDPAM). (1-0) Cr. 1. S.

*Prereq: Credit or concurrent enrollment in (FS HN 101 or FS HN 272 or HSP M 233); FS HN 403; (FS HN 419 or FS HN 420)*

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

**AN S 490: Independent Study**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

**AN S 490A: Independent Study: Animal Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of An S 490 may be applied toward the total credits required for graduation.

**AN S 490B: Independent Study: Dairy Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490C: Independent Study: Meat Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490D: Independent Study: Companion Animal Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490E: Independent Study: Equine Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490G: Independent Study: Poultry Science**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490H: Independent Study: Honors**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 490I: Independent Study: Entrepreneurship**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Permission of Instructor*

Open to undergraduate students in animal science, dairy science and general pre-veterinary medicine showing satisfactory preparation for project chosen. Individual projects involving faculty supervision, including mentoring and preparation of report. A maximum of 6 credits of AN S 490 may be applied toward the total credits required for graduation.

**AN S 493: Workshop in Animal Science**

Cr. 1-3. Repeatable.

*Prereq: Permission of Instructor*

Workshop in livestock production. Includes current concepts in breeding, nutrition, reproduction, meats, and technologies that impact the animal industry.

**AN S 495: Agricultural Travel Course Preparation**

Cr. R. Repeatable. F.S.

*Prereq: Permission of Instructor*

Limited enrollment. Students enrolled in this course will also register for Agron 495 and intend to register in Agron 496 and An S 496 the following term. Topics will include the agricultural industries, climate, crops, culture, history, livestock, marketing, soils, and preparation for travel to locations to be visited. Information normally available 9 months before departure.

**AN S 496: Agricultural Travel Course**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. International or domestic tour and study of livestock production systems and impacts of animals on society and the ecosystem. Influence of climate, economics, geography, landscapes, markets, and other factors on both livestock and other domesticated animals. Locations and duration of tours will vary. Information usually available 9 months before departure. Tour expenses paid by students.

**AN S 496A: Agricultural Travel Course: International Tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. International tour and study of livestock production systems and impacts of animals on society and the ecosystem. Influence of climate, economics, geography, landscapes, markets, and other factors on both livestock and other domesticated animals. Locations and duration of tours will vary. Information usually available 9 months before departure. Tour expenses paid by students. Meets International Perspectives Requirement.

**AN S 496B: Agricultural Travel Course: Domestic tour**

Cr. arr. Repeatable.

*Prereq: Permission of Instructor*

Limited enrollment. Domestic tour and study of livestock production systems and impacts of animals on society and the ecosystem. Influence of climate, economics, geography, landscapes, markets, and other factors on both livestock and other domesticated animals. Locations and duration of tours will vary. Information usually available 9 months before departure. Tour expenses paid by students.

**AN S 497: Undergraduate Teaching Experiences in Animal Science**

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Permission of Instructor*

Development of oral and written communication skills of technical concepts in animal science. Emphasis on organizational skills, conducting activities and interpersonal communication skills. Responsibilities in a class under direct supervision of a faculty member. A maximum of 4 credits of An S 497 may be applied toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**AN S 500: Applied Data Science and Statistics using Statistical Software in Animal Sciences**

(2-0) Cr. 1. F.

*Prereq: Credit or enrollment in STAT 587 or equivalent*

Introduction to using SAS and R for solving research problems, including organization of data files, transfer of files between different formats, data editing, identifying confounded data, developing statistical models, and techniques for analysis of designed experiments. (1 credit each for 500A and 500B).

**AN S 500A: Applied Data Science and Statistics using Statistical Software in Animal Sciences: SAS**

(2-0) Cr. 1. F.

*Prereq: Credit or enrollment in STAT 587 or equivalent*

First half semester course. Introduction to using SAS for solving research problems, including organization of data files, transfer of files between different formats, data editing, identifying confounded data, developing statistical models, and techniques for analysis of designed experiments.

**AN S 500B: Applied Data Science and Statistics using Statistical Software in Animal Sciences: R**

(2-0) Cr. 1. F.

*Prereq: Credit or enrollment in STAT 587 or equivalent*

Second half semester course. Introduction to using R for data science and statistics to solve research problems, including data entry, data management, merging files, outputting new datasets and reports, data visualization, developing statistical models, and techniques for analysis of designed experiments.

**AN S 501: Survey of Animal Disciplines**

(1-0) Cr. 1. F.

Required for Animal Science graduate students. Orientation to departmental and graduate school policies and procedures. Discussion of programs of research and outreach in Animal Science. Issues impacting the animal industry. Offered on a satisfactory-fail basis only.

**AN S 515: Integrated Crop and Livestock Production Systems**

(Cross-listed with A B E, AGRON, SUSAG). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: SUSAG 509*

Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms.

**AN S 517: Gut Microbiome: Implications for Health and Diseases**

(Cross-listed with FS HN, MICRO, V MPM). Cr. 3. F.

*Prereq: 2-3 credits in microbiology and/or immunology.*

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health.

**AN S 518: Digestive Physiology and Metabolism of Non Ruminants**

(Cross-listed with NUTRS). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: AN S 419 or NUTRS 501*

Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine.

**AN S 520: Digestive Physiology and Metabolism of Ruminants**

(Cross-listed with NUTRS). (2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: AN S 419 or NUTRS 501*

Digestive physiology and nutrient metabolism in ruminant and preruminant animals.

**AN S 533: Physiology and Endocrinology of Animal Reproduction**

(2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: General physiology course*

Development of structure and function of the reproductive system. Physiologic and endocrine aspects including puberty, gametogenesis, estrous cycle, pregnancy, maternal recognition, fertilization and early embryonic development.

**AN S 536: Perinatology**

(2-0) Cr. 2. S.

*Prereq: One course in physiology; one course in biochemistry*

Regulation of metabolism and development in the mammalian fetus and neonate is explored in a comparative manner. Emphasis will be on the dynamic changes in these relationships occurring at birth.

**AN S 537: Topics in Animal Behavior, Welfare**

(3-0) Cr. 3.

*Prereq: permission of instructor; M.S. or Ph.D. student*

Each semester, the students' focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

**AN S 537A: Topics in Animal Behavior, Welfare: Animal Behavior**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: permission of instructor; M.S. or Ph.D. student*

Each semester, the students' focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

**AN S 537B: Topics in Animal Behavior, Welfare: Contemporary Issues.**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: permission of instructor; M.S. or Ph.D. student*

Each semester, the students' focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

**AN S 537C: Topics in Animal Behavior, Welfare: Animal Welfare**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: permission of instructor; M.S. or Ph.D. student*

Each semester, the students' focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

**AN S 537D: Topics in Animal Behavior, Welfare: Immune and Stress**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: permission of instructor; M.S. or Ph.D. student*

Each semester, the students' focus is on different topics related to animal behavior, animal welfare and contemporary issues related to animal behavior and welfare. Each topic is separate and distinct, and students may enroll in multiple topics. This is an on-line course only. Each topic may be taken only one time for credit.

**AN S 540: Livestock Immunogenetics**

(Cross-listed with MICRO, V MPM). (2-0) Cr. 2. Alt. S., offered odd-numbered years.

*Prereq: AN S 561 or MICRO 575 or V MPM 520*

Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance.

**AN S 549: Advanced Vertebrate Physiology I**

(Cross-listed with KIN, NUTRS). (4-0) Cr. 4. F.

*Prereq: recommended: an undergraduate physiology course and a biochemistry course*

Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems.

**AN S 556: Current Topics in Genome Analysis**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: BBMB 405 or GDCB 510*

Introduction to principles and methodology of molecular genetics useful in analyzing and modifying large genomes.

**AN S 560: Science and Technology of Value Added Meat Products**

(Dual-listed with AN S 460). (2-2) Cr. 3. S.

*Prereq: AN S 270*

Physical, chemical and biological properties of meat important to achieving value-added meat product characteristics. Ingredients, technology and equipment used for processing, preservation and safety of cured meats, loaf products and fresh, cooked, dry and semi-dry sausage products.

**AN S 561: Population and Quantitative Genetics for Breeding**

(Cross-listed with AGRON). (4-0) Cr. 4. F.

*Prereq: STAT 587*

Population and quantitative genetics for plant and animal genetics. Study of the genetic basis and analysis of variation in quantitative traits in domestic or experimental populations using phenotypic and molecular marker data, including estimation of heritability and other genetic parameters, linkage analysis and mapping of quantitative trait loci, and the impact of inbreeding, heterosis, and genotype-by-environment interaction.

**AN S 562: Methodologies for Population/Quantitative Genetics**

(2-0) Cr. 2. S.

*Prereq: AN S 561, STAT 402*

Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

**AN S 562A: Methodologies for Population/Quantitative Genetics: Linear Models and Genetic Prediction**

(2-0) Cr. 2. S.

*Prereq: AN S 561, STAT 402*

Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

**AN S 562B: Methodologies for Population/Quantitative Genetics:****Advanced Genetic Prediction&Parameter Estimation**

(2-0) Cr. 2. S.

*Prereq: AN S 561, STAT 402*

Basic theory for genetic analysis of animal breeding data. Course A (1st half semester) covers linear models, selection index methods, and basic theory for best linear unbiased prediction. Course B (2nd half semester) best linear unbiased prediction, including genetic groups, environmental adjustment, repeated records, multiple trait models, maternal effects models, and theory for maximum likelihood estimation of genetic parameters.

**AN S 563: Advanced Processed Meats Technology**

Cr. 3. S.

*Prereq: AN S 270 or equivalent, or at least two undergraduate courses in biology, food science, microbiology or culinology*

Physical, chemical and biological properties of meat important to processed meat product characteristics. Ingredients, technology and equipment used for fresh and cured meat products. Packaging, preservation and food safety issues critical to processed meat products are emphasized.

**AN S 569: Reproductive and Developmental Toxicology**

(Cross-listed with TOX). Cr. 2. Alt. F., offered even-numbered years.

*Prereq: BBMB 301, BIOL 258 or An S 331*

Chemical agents that target developmental and reproductive systems in animals and humans, both male and female. The influence that timeline of developmental in utero and what part of reproductive organ have on outcome of environmental exposures will be developed. The physiological changes due to exposure, and mechanistic pathways activated by xenobiotics will be defined and the consequences of these changes will be explored.

**AN S 570: Advanced Meat Science and Applied Muscle Biology**

(2-2) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: AN S 460 or equivalent*

Ante and postmortem factors impacting composition, structure, and chemistry of red meat and poultry muscle/meat, the conversion of muscle to meat, and the sensory and nutritional attributes of fresh meats. Oral reports and a written project. Students cannot receive credit for both AN S 570 and AN S 573

**AN S 571: Advanced Meat Processing Principles and Technology**

(2-2) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: AN S 460 or AN S 570*

Physical/chemical relationships during processing. Effects of modern technology, non-meat additives and preservation techniques on quality and safety of processed meat. Laboratory demonstration of principles and technology.

**AN S 573: Fresh Meat Science and Technology**

Cr. 3. F.

*Prereq: AN S 270 or equivalent, or minimum two undergraduate courses in biology, food science, microbiology or culinology.*

Quality, and sensory attributes of fresh meats and how they develop and how they are evaluated. The study of ante and postmortem factors impacting quantity, composition, structure, and chemistry of red meat and poultry muscle/meat. Students cannot receive credit for both AN S 570 and AN S 573

**AN S 590: Special Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590A: Special Topics: Animal Breeding**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590B: Special Topics: Animal Nutrition**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590C: Special Topics: Meat Animal Production**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590D: Special Topics: Dairy Production**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590E: Special Topics: Meat Science**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590F: Special Topics: Physiology of Reproduction**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590G: Special Topics: Muscle Biology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590H: Special Topics: Poultry Nutrition**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590I: Special Topics: Poultry Products**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590J: Special Topics: Experimental Surgery**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590K: Special Topics: Professional Topics**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590L: Special Topics: Teaching**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590M: Special Topics: Molecular Biology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 590N: Special Topics: Ethology**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Permission of instructor*

Special topics in the animal sciences, offered on demand and may be conducted by guest professors.

**AN S 599: Creative Component**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AN S 599A: Creative Component: Animal Breeding and Genetics**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AN S 599B: Creative Component: Animal Nutrition**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AN S 599C: Creative Component: Animal Physiology**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AN S 599D: Creative Component: Animal Science**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**AN S 599E: Creative Component: Meat Science**

Cr. 1-8. F.S.SS.

*Prereq: Nonthesis M.S*

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

**Courses for graduate students:****AN S 603: Seminar in Animal Nutrition**

(1-0) Cr. 1. Repeatable. F.S.

*Prereq: Permission of instructor*

Discussion of current literature; preparation and submission of abstracts.

**AN S 618: Vitamins and Minerals**

(Cross-listed with NUTRS). Cr. 2. Alt. S., offered even-numbered years.

*Prereq: Biochemistry, physiology, basic nutrition*

Understanding molecular aspects of vitamin and mineral metabolism and homeostasis in humans and animals. An in-depth examination of the chemistry of vitamins and minerals, including genetic mutations, proteins involved in absorption and excretion, and their necessity in biological processes.

**AN S 619: Advanced Nutrition and Metabolism - Protein**

(Cross-listed with NUTRS). (2-0) Cr. 2. F.

*Prereq: BBMB 405*

Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

**AN S 620: Advanced Nutrition and Metabolism - Energy**

(Cross-listed with NUTRS). (2-0) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: BBMB 405*

Energy constituents of feedstuffs and energy needs of animals as related to cellular biochemistry and physiology. Interpretations of classical and current research.

**AN S 633: Seminar in Animal Reproduction**

(1-0) Cr. 1. Repeatable. F.

*Prereq: Permission of instructor*

Discussion of current literature and preparation of reports and seminars on selected topics concerning animal physiology.

**AN S 652: Animal Breeding Strategies**

(2-0) Cr. 2.

*Prereq: AN S 561*

Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.

**AN S 652A: Animal Breeding Strategies: Breeding Goals and Response to Selection**

(2-0) Cr. 2.

*Prereq: AN S 561*

Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.

**AN S 652B: Animal Breeding Strategies: Design and Evaluation of Animal Breeding Programs**

(2-0) Cr. 2.

*Prereq: AN S 561*

Basic concepts and methods for design and evaluation of genetic improvement programs for livestock. Topic A. (1st half semester) Prediction of response to selection, selection index theory, multiple trait selection, inbreeding, crossbreeding, and marker-assisted selection. Topic B. (2nd half semester) Advanced concepts in design and evaluation of animal breeding programs, including modeling and optimization, derivation of economic values, gene-flow, and predicting rates of inbreeding. Each topic may be taken only one time for academic credit.

**AN S 653: Applied Animal Breeding Strategies**

(3-0) Cr. 3. F.

*Prereq: AN S 561 recommended*

Industrial applications of breeding systems, selection methods, and new genetic technologies. One or more field trips to an industry breeding company.

**AN S 655: Advanced Computational Methods in Animal Breeding and Genetics**

(3-1) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: AN S 500, AN S 562, COM S 207*

Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Course A (1st half semester) Strategies for handling large sets and for prediction using best linear unbiased prediction using a formal language and utility programs. Course B (2nd half semester) Strategies for estimation of genetic parameters and for use of non-linear models for genetic analysis of categorical and survival type data.

**AN S 655A: Computational Strategies for Predicting Breeding Values**

(3-1) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: AN S 500, AN S 562, COM S 207*

Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Strategies for handling large sets and for prediction using best linear unbiased prediction using a formal language and utility programs.

**AN S 655B: Computational Strategies for Genetic Parameter Estimation**

(3-1) Cr. 2. Alt. F., offered odd-numbered years.

*Prereq: AN S 500, AN S 562, COM S 207*

Computational methods and strategies for analysis of large data sets with animal breeding data for use in research and industry applications. Strategies for estimation of genetic parameters and for use of non-linear models for genetic analysis of categorical and survival type data.

**AN S 656: Statistical Methods for Mapping Quantitative Trait Loci**

(2-0) Cr. 2. Alt. S., offered even-numbered years.

*Prereq: AN S 562, STAT 447*

Statistical methods for mapping quantitative trait loci in out-bred populations. Methods based on modeling covariances between relatives. Likelihood based methods using half-sib and full-sib families and extended pedigrees. Bayesian methods applied.

**AN S 658: Seminar in Animal Breeding and Genetics**

(1-0) Cr. 1. Repeatable. F.S.

Presentation of current research related to animal breeding and genetics.

**AN S 670: Molecular Biology of Muscle**

(Cross-listed with KIN). (3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: BBMB 405, BBMB 420*

Ultrastructure of muscle; chemistry, structure, function, and molecular biology of muscle proteins. Molecular aspects of muscle contraction, development and turnover. Cytoskeletal proteins and dynamics.

**AN S 684: Seminar in Meat Science**

(1-0) Cr. 1. Repeatable. S.

*Prereq: Permission of instructor*

Discussion and evaluation of current topics in research publications in meat science.

**AN S 685: Seminar in Muscle Biology**

(1-0) Cr. 1. Repeatable. S.

*Prereq: Permission of instructor*

Reports and discussion of recent literature and current investigations.

**AN S 695: Seminar in Animal Science**

(1-0) Cr. 1. Repeatable. S.

Reports and discussion of current issues and research in animal science. One credit is required for all M.S. degree candidates with graduate majors in the Department of Animal Science, and two credits are required for all Ph.D. candidates with graduate majors in the Department of Animal Science. Offered on a satisfactory-fail basis only.

**AN S 699: Research**

Cr. arr. Repeatable.

**AN S 699A: Research: Animal Breeding**

Cr. arr. Repeatable.

**AN S 699B: Research: Animal Nutrition**

Cr. arr. Repeatable.

**AN S 699C: Research: Meat Animal Production**

Cr. arr. Repeatable.

**AN S 699D: Research: Dairy Production**

Cr. arr. Repeatable.

**AN S 699E: Research: Meat Science**

Cr. arr. Repeatable.

**AN S 699F: Research: Physiology of Reproduction**

Cr. arr. Repeatable.

**AN S 699G: Research: Muscle Biology**

Cr. arr. Repeatable.

**AN S 699H: Research: Poultry Nutrition**

Cr. arr. Repeatable.

**AN S 699I: Research: Poultry Products**

Cr. arr. Repeatable.

**AN S 699J: Research: Animal Ethology**

Cr. arr. Repeatable.

## Anthropology (ANTHR)

*Any experimental courses offered by ANTHR can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explisting/](http://registrar.iastate.edu/faculty-staff/courses/explisting/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:****ANTHR 201: Introduction to Cultural Anthropology**

(3-0) Cr. 3. F.S.SS.

Introduction to the core concepts, theories, and methods of cultural anthropology with an emphasis on understanding human cultural diversity in global society from an anthropological perspective.

Meets International Perspectives Requirement.

**ANTHR 202: Human Origins**

(3-0) Cr. 3. F.S.

Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

**ANTHR 210: Introduction to Asian American Studies**

(Cross-listed with WLC). (3-0) Cr. 3.

An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice.

Meets U.S. Diversity Requirement

**ANTHR 220: Globalization and Sustainability**

(Cross-listed with ENV S, GLOBE, M E, MAT E, SOC). (3-0) Cr. 3. F.S.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

**ANTHR 225: American Indians of Iowa**

(Cross-listed with AM IN). Cr. 3. F.

Cultures and histories of Native people who have called the present state of Iowa home; primary focus on the period between 1700 CE and the present; Native interactions with Spanish, French, British, and American people.

**ANTHR 230: Globalization and the Human Condition**

(3-0) Cr. 3. F.S.

An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.

Meets International Perspectives Requirement.

**ANTHR 306: Culture and Interpretation**

(3-0) Cr. 3. S.

*Prereq: ANTHR 201*

Disciplinary and interdisciplinary approaches to the interpretation of contemporary and historical cultures, their contexts, and meanings.

Meets International Perspectives Requirement.

**ANTHR 307: Biological Anthropology**

(2-2) Cr. 3. S.

*Prereq: ANTHR 202*

Human evolution as known from fossil evidence, comparative primate studies, and genetic variations in living populations. Laboratory-tutorial sessions include study and discussion of human osteology, fossil hominids, simple Mendelian traits, and bio-ethics in applied biological anthropology.

**ANTHR 308: Archaeology**

(2-2) Cr. 3. F.

*Prereq: ANTHR 202*

Methods and techniques for the recovery and interpretation of archaeological evidence, its role in reconstructing human behavior and past environments. Laboratory sessions include experience in the interpretation of archaeological evidence, the use of classification systems, and prehistoric technologies such as ceramics and stone tools.

**ANTHR 309: Introduction to Culture and Language**

(Cross-listed with LING). (3-0) Cr. 3.

Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology. ANTHR 201 recommended.

Meets International Perspectives Requirement.

**ANTHR 310: Environmental Anthropology**

(3-0) Cr. 3.

*Prereq: ANTHR 201*

Exploration of contemporary theories and methods in environmental anthropology with a focus on anthropological approaches to the global climate crisis.

Meets International Perspectives Requirement.

**ANTHR 313: Kinship and Marriage in a Global Perspective**

(Dual-listed with ANTHR 513). (3-0) Cr. 3. S.

Comparative and historical overview of the family, marriage and kinship.

Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.

ANTHR 201 recommended.

Meets International Perspectives Requirement.

**ANTHR 315: Archaeology of North America**

(Dual-listed with ANTHR 515). (Cross-listed with AM IN). (3-0) Cr. 3. S.

*Prereq: ANTHR 202*

Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.

**ANTHR 317: Primate Behavior, Ecology, and Evolution**

(3-0) Cr. 3. F.S.SS.

An overview of the primates (prosimians, monkeys, and apes) with a focus on their behavior from an ecological and evolutionary perspective. Topics include: methods in primatological research; survey of the living primates; biological and social adaptations of primates; interactions between primates and their environment; and primate conservation. ANTHR 202 and/or basic biology course recommended.

**ANTHR 319: Skeletal Biology**

(Dual-listed with ANTHR 519). (2-2) Cr. 3. S.

*Prereq:* ANTHR 307 or 3 credits in BIOL

Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

**ANTHR 320: Great Plains Archaeology**

(Dual-listed with ANTHR 520). (Cross-listed with AM IN). (3-0) Cr. 3. F.

*Prereq:* ANTHR 202

Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

**ANTHR 321: World Prehistory**

(Dual-listed with ANTHR 521). (3-0) Cr. 3. S.

An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies. ANTHR 202 recommended.

**ANTHR 322: Peoples and Cultures of Native North America**

(Dual-listed with ANTHR 522). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq:* AM IN 210 or ANTHR 201

Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

**ANTHR 323: Topics in Latin American Anthropology**

(Dual-listed with ANTHR 523). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

**ANTHR 323A: Latin American Anthropology: Violence and Memory**

(Dual-listed with ANTHR 523A). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

Meets International Perspectives Requirement.

**ANTHR 323B: Latin American Anthropology: Social movements and Democracy**

(Dual-listed with ANTHR 523B). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

Meets International Perspectives Requirement.

**ANTHR 323C: Latin American Anthropology: Race, Class and Gender**

(Dual-listed with ANTHR 523C). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

Meets International Perspectives Requirement.

**ANTHR 323D: Latin American Anthropology: Regional Focus**

(Dual-listed with ANTHR 523D). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

Meets International Perspectives Requirement.

**ANTHR 323E: Latin American Anthropology: Culture and Sport.**

(Dual-listed with ANTHR 523E). (Cross-listed with US LS). (3-0) Cr. 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

Meets International Perspectives Requirement.

**ANTHR 324: Health and Native American Communities**

(Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq:* ENGL 250

Overview of historic and contemporary health and health care in Native Communities. Indian Health Service and specific regulations. Consideration of both cultural and scientific approaches to medicine. Specific health issues (e.g., diabetes, alcoholism, depression, etc.) in American Indian communities.

**ANTHR 328: Archaeological Discovery and Analysis**

(2-2) Cr. 3. Repeatable, maximum of 9 credits. S.

*Prereq: ANTHR 308*

Identification, analysis, and interpretation of animal bones recovered from archaeological sites, emphasizing taphonomy, paleoecology, and faunal exploitation.

**ANTHR 332: Current Issues in Native North America**

(Dual-listed with ANTHR 532). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 332A: Current Issues in Native North America: Gender and Family**

(Dual-listed with ANTHR 532A). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 332B: Current Issues in Native North America: Indigenous Ecologies and Geographies**

(Dual-listed with ANTHR 532B). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 332C: Current Issues in Native North America: Cultural and Political Movements**

(Dual-listed with ANTHR 532C). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 332D: Current Issues in Native North America: Regional Focus**

(Dual-listed with ANTHR 532D). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 335: Peoples and Cultures of the Middle East**

(3-0) Cr. 3.

Anthropological approaches to the study of Middle East cultures. Survey of major culture areas, discussion of economic, political, and social and religious issues and systems. Examination of contemporary social movements. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 336: Culture and Capitalism**

(Dual-listed with ANTHR 536). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: ANTHR 201 or ANTHR 306*

Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.

Meets International Perspectives Requirement.

**ANTHR 340: Magic, Witchcraft, and Religion**

(Dual-listed with ANTHR 540). (Cross-listed with RELIG). (3-0) Cr. 3. S.

*Prereq: ANTHR 201 or ANTHR 306*

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

**ANTHR 342: Culture, Sex, and Gender**

(Cross-listed with WGS). (3-0) Cr. 3. S.

Cross-cultural examination of gender and sexuality. Emphasis on global and transnational perspectives. Topics will include varied gender and sexual expressions, status and roles, intersectionality in global or transnational contexts, and the examination of systems of oppression cross-culturally. ANTHR 201 or WGS 201 recommended.

Meets International Perspectives Requirement.

**ANTHR 354: War and the Politics of Humanitarianism**

(Cross-listed with POL S). (3-0) Cr. 3.

Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations. Role of humanitarian organizations and actors in addressing human suffering caused by conflict or war.

Military action as a form of humanitarian intervention.

Meets International Perspectives Requirement.

**ANTHR 355: Understanding Sub-Saharan Africa**

(Cross-listed with AF AM). (3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: Sophomore classification*

Survey of economic, social, political and historical processes that have shaped representations of Africa and Africans. Topics include colonialism, globalization, gender and LGBTQ rights, conflict and representations in Western media.

Meets International Perspectives Requirement.

**ANTHR 369: Ancient Egypt**

(Cross-listed with CL ST). (3-0) Cr. 3.

Archaeology and culture of Ancient Egypt from prehistory to Late Antiquity. Exploration of literature, religion, social history, government, and architecture. Discussion of major archaeological sites and methods; examination of interaction with other ancient near eastern and Mediterranean civilizations. Meets International Perspectives Requirements.

Meets International Perspectives Requirement.

**ANTHR 376: Classical Archaeology**

(Cross-listed with CL ST). (3-0) Cr. 3.

Chronological survey of the material culture of the ancient Graeco-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.

Meets International Perspectives Requirement.

**ANTHR 376A: Classical Archeology: Bronze Age and Early Iron Age Greece**

(Cross-listed with CL ST). (3-0) Cr. 3.

An examination of the material culture of Bronze Age and Early Iron Age Greece (ca 3000-700 BCE) and the role of archaeological context in understanding the varied aspects of the cultures that flourished in the region. Primary focus on the urbanized palatial centers that emerged on the island of Crete (Minoan) and in mainland Greece (Mycenaean). Topics include the emergence of social complexity, cultural and technological changes, religious systems, and methods of interpretation.

Meets International Perspectives Requirement.

**ANTHR 376B: Classical Archeology: Archaic through Hellenistic Greece (ca 700-30 BCE)**

(Cross-listed with CL ST). (3-0) Cr. 3.

An examination of the material culture of ancient Greece from ca. 700-30 BCE and the role of archaeological context in understanding the varied aspects of Greek culture found in cities, rural areas, and sanctuaries during the Archaic, Classical, and Hellenistic periods. Topics include urbanization and the rise of the polis, sanctuaries and their offerings, engagement with the wider Mediterranean, and developments in the ways that the Greeks conceptualized and represented their world.

Meets International Perspectives Requirement.

**ANTHR 376C: Classical Archaeology: Roman Archaeology (ca 1000 BCE-400 CE)**

(Cross-listed with CL ST). (3-0) Cr. 3.

An examination of major developments in architecture, sculpture, painting, and other arts of the ancient Roman world and the role of archaeological context in understanding various aspects of Roman culture. Topics include art in the service of social ideology and political propaganda; interactions between the Etruscans, Greeks, and Romans; and the relationship between Rome and its provinces.

Meets International Perspectives Requirement.

**ANTHR 389: Exhibiting Religion**

(Cross-listed with RELIG). (3-0) Cr. 3.

Display of religion in museums, fairs, and exhibitions. History and ethics of museum collecting, storage, display, public engagement, and repatriation. Visit local museums and explore digital galleries.

**ANTHR 411: Anthropology for Global Professionals**

(Dual-listed with ANTHR 511). (3-0) Cr. 3. F.

*Prereq: ANTHR 201 or ANTHR 306*

Theory and methods for conducting ethnographic research in academic and non-academic settings; application of anthropological knowledge to contemporary cultural, political, economic, environmental and spatial issues; development of skills necessary for professional practice as an anthropologist.

Meets International Perspectives Requirement.

**ANTHR 419: Topics in Cultural Anthropology**

(3-0) Cr. 3.

*Prereq: ANTHR 306*

In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. Each section may be taken once for credit up to 9 credits. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

**ANTHR 419A: Topics in Cultural Anthropology: Theory**

(3-0) Cr. 3.

*Prereq: ANTHR 306*

In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

**ANTHR 419B: Topics in Cultural Anthropology: Methods**

(3-0) Cr. 3.

*Prereq: ANTHR 306*

In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

**ANTHR 419C: Topics in Cultural Anthropology: Regional Focus**

(3-0) Cr. 3.

*Prereq: ANTHR 306*

In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

**ANTHR 419D: Topics in Cultural Anthropology: Others**

(3-0) Cr. 3.

*Prereq: ANTHR 306*

In-depth study of current topics in cultural anthropology, such as recent theoretical trends, new methodologies, or new research on a specific region. Topics vary each time offered. No more than 9 credits of ANTHR 419 courses may be applied towards graduation.

**ANTHR 424: Forensic Anthropology**

(Dual-listed with ANTHR 524). (2-2) Cr. 3. Alt. S., offered irregularly.

*Prereq: ANTHR 202 or ANTHR 307*

Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained. ANTHR 319 recommended.

**ANTHR 425: Professional Preparation in Anthropology**

(1-0) Cr. 1. F.

*Prereq: Junior classification; ANTHR major*

Instruction and guidance in the development of professional skills needed for success in academic and non-academic anthropological careers. Topics will include strategies for internship and job searches, creating resumes and CVs, composing personal statements and cover letters, and developing contacts and sources. Offered on a satisfactory-fail basis only.

**ANTHR 429: Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School**

(Dual-listed with ANTHR 529). Cr. 4-6. SS.

*Prereq: ANTHR 202 or ANTHR 308*

Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

**ANTHR 431: Ethnographic Methods**

(Dual-listed with ANTHR 531). (3-0) Cr. 3.

Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

**ANTHR 434: Internship**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

**ANTHR 434A: Internship: Archaeology**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

**ANTHR 434B: Internship: Cultural Anthropology**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

**ANTHR 434C: Internship: Biological Anthropology**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

**ANTHR 434D: Internship: Linguistic Anthropology**

Cr. 1-6. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: Junior or Senior classification; Department Permission*

Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.

**ANTHR 445: Biological Field School**

(Dual-listed with ANTHR 545). Cr. 4-6. SS.

*Prereq: ANTHR 202 or BIOL 101*

Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

**ANTHR 450: Approaches in Anthropology**

(3-0) Cr. 3. F.

*Prereq: ANTHR 306*

Examination of key approaches to anthropology and its interrelated sub-fields with a focus on major theoretical and analytical contributions.

**ANTHR 451: Practicum in Anthropology**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308; Permission of Instructor*

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

**ANTHR 451A: Practicum in Anthropology: Archaeology**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308; Permission of Instructor*

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

**ANTHR 451B: Practicum in Anthropology: Cultural Anthropology**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308; Permission of Instructor*

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

**ANTHR 451C: Practicum in Anthropology: Biological Anthropology**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308; Permission of Instructor*

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

**ANTHR 451D: Practicum in Anthropology: Linguistic Anthropology**

Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS.

*Prereq: ANTHR 201 or ANTHR 202 or ANTHR 308; Permission of Instructor*

Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.

**ANTHR 482: Topics in Biological Anthropology**

(Dual-listed with ANTHR 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 482A: Topics in Biological Anthropology: Paleoanthropology**

(Dual-listed with ANTHR 582A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 482B: Topics in Biological Anthropology: Primate Cognition**

(Dual-listed with ANTHR 582B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 482C: Topics in Biological Anthropology: Primate Conservation**

(Dual-listed with ANTHR 582C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 482D: Topics in Biological Anthropology: Population Genetics and Human Evolution**

(Dual-listed with ANTHR 582D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 490: Independent Study**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**ANTHR 490A: Independent Study: Archaeology**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**ANTHR 490B: Independent Study: Cultural Anthropology**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**ANTHR 490C: Independent Study: Biological Anthropology**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**ANTHR 490D: Independent Study: Linguistic Anthropology**

(Cross-listed with LING). Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**ANTHR 490H: Independent Study: Honors**

Cr. 1-5. Repeatable, maximum of 9 credits.

*Prereq: 9 credits in ANTHR; Permission of Instructor*

No more than 9 credits of Anthr 490 may be counted toward graduation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ANTHR 503: Biological Anthropology and Archaeology**

(3-0) Cr. 3.

*Prereq: ANTHR 307 and ANTHR 308*

History of biological anthropology and archaeology, current developments and theoretical issues related to major events in human biocultural evolution and world prehistory.

**ANTHR 509: Agroecosystems Analysis**

(Cross-listed with AGRON, SOC, SUSAG). (3-4) Cr. 3. F.

*Prereq: Senior or above classification*

Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities.

Focus on understanding multiple elements, perspectives (agronomic, economic, ecologic, social, etc.) and scales of operation.

**ANTHR 510: Theoretical Dimensions of Cultural Anthropology**

(3-0) Cr. 3. F.

*Prereq: 6 credits in anthropology*

Survey of historical and current developments in topical and theoretical approaches to sociocultural anthropology. Examination and assessment of controversies; new research directions and theoretical approaches.

**ANTHR 511: Anthropology for Global Professionals**

(Dual-listed with ANTHR 411). (3-0) Cr. 3. F.

*Prereq: ANTHR 201 or ANTHR 306*

Theory and methods for conducting ethnographic research in academic and non-academic settings; application of anthropological knowledge to contemporary cultural, political, economic, environmental and spatial issues; development of skills necessary for professional practice as an anthropologist.

Meets International Perspectives Requirement.

**ANTHR 513: Kinship and Marriage in a Global Perspective**

(Dual-listed with ANTHR 313). (3-0) Cr. 3. S.

Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.

ANTHR 201 recommended.

Meets International Perspectives Requirement.

**ANTHR 515: Archaeology of North America**

(Dual-listed with ANTHR 315). (3-0) Cr. 3. S.

*Prereq: ANTHR 202*

Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.

**ANTHR 519: Skeletal Biology**

(Dual-listed with ANTHR 319). (2-2) Cr. 3. S.

*Prereq: ANTHR 307 or 3 credits in BIOL*

Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

**ANTHR 520: Great Plains Archaeology**

(Dual-listed with ANTHR 320). (3-0) Cr. 3. F.

*Prereq:* ANTHR 202

Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

**ANTHR 521: World Prehistory**

(Dual-listed with ANTHR 321). (3-0) Cr. 3. S.

An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies. ANTHR 202 recommended.

**ANTHR 522: Peoples and Cultures of Native North America**

(Dual-listed with ANTHR 322). (3-0) Cr. 3.

*Prereq:* AM IN 210 or ANTHR 201

Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

**ANTHR 523: Topics in Latin American Anthropology**

(Dual-listed with ANTHR 323). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended.

**ANTHR 523A: Latin American Anthropology: Violence and Memory**

(Dual-listed with ANTHR 323A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 523B: Latin American Anthropology: Social movements and Democracy**

(Dual-listed with ANTHR 323B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 523C: Latin American Anthropology: Race, Class and Gender**

(Dual-listed with ANTHR 323C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 523D: Latin American Anthropology: Regional Focus**

(Dual-listed with ANTHR 323D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 523E: Latin American Anthropology: Culture and Sport.**

(Dual-listed with ANTHR 323E). (3-0) Cr. 3. Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 201 or ANTHR 306 recommended. Meets International Perspectives Requirement.

**ANTHR 524: Forensic Anthropology**

(Dual-listed with ANTHR 424). (2-2) Cr. 3. Alt. S., offered irregularly.

*Prereq:* ANTHR 202 or ANTHR 307

Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained. ANTHR 319 recommended.

**ANTHR 529: Topics in Archaeological Laboratory Methods and Techniques: Archaeological Field School**

(Dual-listed with ANTHR 429). Cr. 4-6. SS.

*Prereq:* ANTHR 202 or ANTHR 308

Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

**ANTHR 531: Ethnographic Methods**

(Dual-listed with ANTHR 431). (3-0) Cr. 3.

Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

**ANTHR 532: Current Issues in Native North America**

(Dual-listed with ANTHR 332). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 532A: Current Issues in Native North America: Gender and Family**

(Dual-listed with ANTHR 332A). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 532B: Current Issues in Native North America: Indigenous Ecologies and Geographies**

(Dual-listed with ANTHR 332B). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 532C: Current Issues in Native North America: Cultural and Political Movements**

(Dual-listed with ANTHR 332C). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 532D: Current Issues in Native North America: Regional Focus**

(Dual-listed with ANTHR 332D). (Cross-listed with AM IN). (3-0) Cr. 3.

*Prereq: ANTHR 201 or ANTHR 306*

Exploration of key contemporary and historical issues in Native North America; discussion of current anthropological approaches to studying Native North America in a global context. Topics vary each time offered. ANTHR 322 or AM IN 210 recommended. Only 9 credits of ANTHR/AM IN 332A, 332B, 332C, 332D may count toward graduation.

**ANTHR 536: Culture and Capitalism**

(Dual-listed with ANTHR 336). (3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: ANTHR 201 or ANTHR 306*

Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.

Meets International Perspectives Requirement.

**ANTHR 540: Magic, Witchcraft, and Religion**

(Dual-listed with ANTHR 340). (Cross-listed with RELIG). (3-0) Cr. 3. S.

*Prereq: ANTHR 201 or ANTHR 306*

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

**ANTHR 541: Seminar in Forensic Sciences**

(1-0) Cr. 1. Repeatable. S.

*Prereq: One 200-level science course or graduate classification*

Seminars by professional criminalists, research scientists, Certificate students, and educators. Emphasis on opportunities for research and development, citizen involvement, and educational outreach related to forensic science. Weekly report required.

**ANTHR 542: Independent Research and Presentation in Forensic Science**

(1-0) Cr. 1. S.

*Prereq: Enrollment in the Graduate Certificate in Forensic Sciences*

Research topic approved by course instructor. Written and oral reports required. Oral report given in forensics seminar, Chem 540.

**ANTHR 545: Biological Field School**

(Dual-listed with ANTHR 445). Cr. 4-6. SS.

*Prereq: ANTHR 202 or BIOL 101*

Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

**ANTHR 582: Topics in Biological Anthropology**

(Dual-listed with ANTHR 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 582A: Topics in Biological Anthropology: Paleoanthropology**

(Dual-listed with ANTHR 482A). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 582B: Topics in Biological Anthropology: Primate Cognition**

(Dual-listed with ANTHR 482B). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 582C: Topics in Biological Anthropology: Primate Conservation**

(Dual-listed with ANTHR 482C). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 582D: Topics in Biological Anthropology: Population Genetics and Human Evolution**

(Dual-listed with ANTHR 482D). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.

*Prereq: ANTHR 307*

In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.

**ANTHR 591: Orientation to Anthropology**

(1-0) Cr. 1. F.

*Prereq: Admission to the Anthropology Graduate Program*

Introduction to the Anthropology program, including the requirements for successful degree completion, department administrative procedures, ethics in anthropology and current trends in the four subfields of anthropology. Required of graduate students. Offered on a satisfactory-fail basis only.

**ANTHR 599: Creative Component**

Cr. 1-5. Repeatable, maximum of 5 credits. F.S.SS.

*Prereq: Graduate classification, permission of major professor*

Individually directed study applying anthropological methods and theory to a practical research problem; for students electing the nonthesis degree option.

**Courses for graduate students:****ANTHR 610: Foundations of Sustainable Agriculture**

(Cross-listed with A B E, AGRON, SOC, SUSAG). (3-0) Cr. 3. F.

*Prereq: Graduate classification, permission of instructor*

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts.

**ANTHR 699: Research**

Cr. arr. Repeatable.

## Apparel, Events, and Hospitality Management (AESHM)

*Any experimental courses offered by AESHM can be found at:*

[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

**Courses primarily for undergraduates:**

**AESHM 111: Professional Development for AESHM**

(1-0) Cr. 1. F.S.

Introduction to professional experiences within AESHM and CHS Career Services including CyHire. Coursework includes resume development, daily habits for success including stress management, intrapersonal skills with a wellness focus, interpersonal skills and leadership, business etiquette, and professional ethics.

**AESHM 111L: AESHM Program Orientation and Learning Community**

(0-2) Cr. 1. F.S.

Orientation to policies and procedures of department and program. Overview of major and minor options, including entrepreneurship. Exploration of undergraduate research, independent studies, study abroad, and field studies. Coverage of goal setting, curriculum planning, degree audits, and registration. Peer mentor interaction in academic, extracurricular, and service learning arranged component.

**AESHM 170: Supervised Work Experience I**

Cr. 1. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Advisor permission required; freshman classification or permission*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 170D: Supervised Work Experience I: Hospitality**

Cr. 1. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Advisor Permission*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 170F: Supervised Work Experience I: Event Management**

Cr. 1. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Advisor Permission*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 170N: Supervised Work Experience I: Apparel**

Cr. 1. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Advisor permission required; freshman classification*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. Offered on a satisfactory-fail basis only. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 175: Financial Applications for Retail and Hospitality Industries**

(2-0) Cr. 2. S.

Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the apparel and hospitality industries.

**AESHM 175D: Financial Applications for Retail and Hospitality Industries: Hospitality Management**

(2-0) Cr. 2. S.

Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the hospitality industries.

**AESHM 175N: Financial Applications for Retail and Hospitality Industries: Retail Merchandising**

(2-0) Cr. 2. S.

Using an online delivery method, students will learn basic mathematical concepts, calculations and formulas commonly used in the apparel and hospitality industries. Emphasis on problem solving, critical/creative thinking, and mathematical interpretation of calculations and formulas used within the apparel industries.

**AESHM 180: First Year Student Field Study**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Permission of Instructor*

Study of and tours of regional areas of interest to A M D, HSP M, or EVENT majors. Trip to regional location under supervision of faculty member. Locations vary. Journal entries and final report/analysis are required. Cost associated with trip.

**AESHM 180E: First Year Student Field Study: Hospitality and Event Management**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Permission of Instructor*

Study of and tours of regional areas of interest to majors in the HSP M and EVENT majors. Trip to regional location under supervision of faculty member. Locations vary. Journal entries and final report/analysis are required. Cost associated with trip.

**AESHM 180N: First Year Student Field Study: Apparel, Merchandising, and Design**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.

*Prereq: Permission of Instructor*

Study of and tours of regional areas of interest to A M D majors. Trip to regional location under supervision of faculty member. Locations vary. Journal entries and final report/analysis are required. Cost associated with trip.

**AESHM 211: Leadership Experiences and Development (LEAD)**

(3-0) Cr. 3. F.S.

Introduction to leadership behaviors. Development and utilization of leadership behaviors to positively impact school life, community life, and work life.

**AESHM 222: Creativity on Demand**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

Learn to use creativity strategies to solve everyday problems related to personal and professional lives. Application of creative thinking techniques to view things from different perspectives; identify unique opportunities; and generate and evaluate original ideas.

**AESHM 238: Human Resource Management**

(3-0) Cr. 3. F.S.

*Prereq: A M D 275 or AESHM 270, or AESHM 287 or concurrent enrollment; sophomore classification*

Principles and practices of human resource management relevant to human science-related organizations. Emphasis on the entry-level manager's role.

**AESHM 270: Supervised Work Experience II**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Minimum 2.0 GPA; Advisor permission; Sophomore classification*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 270D: Supervised Work Experience II: Hospitality**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Minimum 2.0 GPA; Advisor permission; Sophomore classification; 6 credits in AESHM or HSP M; Credits in AESHM 170*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits total from AESHM 170, AESHM 270, and 470 may be applied toward graduation.

**AESHM 270F: Supervised Work Experience II: Event Management**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Minimum 2.0 GPA; Advisor permission; 6 credits in AESHM, HSP M, or EVENT*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 270N: Supervised Work Experience II: Apparel**

Cr. 1-2. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: Minimum 2.0 GPA; Advisor permission; Sophomore classification; AMD major*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits total from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 272: Fashion Show Production and Promotion**

(2-2) Cr. 2-3. Repeatable, maximum of 5 credits. F.S.

*Prereq: Application and instructor permission*

Planning and production of fashion show including developing budgets, public relations, advertising, fund-raising, choreography, staging, lighting, and food. Promotion of fashion show and similar events. Maximum of 5 credits can be applied to graduation

**AESHM 280: Orientation to U.S. Field Study**

Cr. R. Repeatable, maximum of 2 times. F.S.

Orientation to the field study location during the semester preceding the trip.

**AESHM 281: Orientation to International Field Study**

Cr. 1. Repeatable, maximum of 2 times. F.S.

Orientation to the field study location during the semester preceding the trip.

**AESHM 287: Principles of Management in Human Sciences**

(3-0) Cr. 3. F.S.

Introduction to management concepts and principles with application to human sciences-related businesses and organizations. Includes service quality management, professionalism, and social responsibility.

**AESHM 311: Seminar on Careers and Internships**

(1-0) Cr. 1. F.S.

*Prereq: AESHM 111. Sophomore classification. Good academic standing*

Orientation to AESHM internship policies, professional expectations and responsibilities. Coursework includes career planning including entrepreneurship, internship search strategies and resources, résumés and cover letters, professional branding, portfolios, networking, interview skills, leadership skills, and ethical dilemmas in the workplace.

**AESHM 311E: Seminar on Careers and Internships: Event Management and Hospitality Management**

(1-0) Cr. 1. F.S.

*Prereq: AESHM 111; Sophomore classification*

Internship and career planning, professional expectations and responsibilities. Résumé development, business letters/professional correspondence, interviewing techniques, and business etiquette.

**AESHM 311N: Seminar on Careers and Internships: Apparel, Merchandising, and Design**

(1-0) Cr. 1. F.S.

*Prereq: AESHM 111; Sophomore classification*

Internship and career planning, professional expectations and responsibilities. Résumé development, cover letters, interviewing techniques, and business etiquette.

**AESHM 340: Hospitality and Apparel Marketing Strategies**

(3-0) Cr. 3. F.S.

*Prereq: ECON 101*

Application of marketing principles to the hospitality-, events-, and apparel-related industries. Emphasis on the role of marketing in an organization's overall strategic planning. Development and evaluation techniques available to hospitality, events, apparel, and related businesses, including advertising, sales promotion, packaging, and public relations.

**AESHM 342: Aesthetics of Consumer Experience**

(3-0) Cr. 3. F.S.

*Prereq: Sophomore classification*

Design principles, aesthetic concepts, and research applied to consumer experiences, with an emphasis on hospitality and retail environments and events. Influence of individual differences and cultural patterns on aesthetic preferences.

**AESHM 365: Event, Hospitality, and Retail Risk Management**

(3-0) Cr. 3. SS.

Overview and management of hazards and risks in the planning, design, operation, and evaluation stages of events, hospitality organizations, and apparel/retail environments.

**AESHM 380: U.S. Field Study**

(Dual-listed with AESHM 580). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application*

Study and tours of areas of interest to majors in the AESHM Department. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 380D: U.S. Field Study: Hospitality Management**

(Dual-listed with AESHM 580D). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in AESHM or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 380F: U.S. Field Study: Event Management**

(Dual-listed with AESHM 580F). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in EVENT, AESHM, or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the majors in the Event Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 380N: U.S. Field Study: Apparel, Merchandising, and Design**

(Dual-listed with AESHM 580N). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 381: International Field Study**

(Dual-listed with AESHM 581). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application*

Study and tours of areas of interest to majors in the AESHM Department.

Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**AESHM 381D: International Field Study: Hospitality Management**

(Dual-listed with AESHM 581D). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**AESHM 381F: International Field Study: Event Management**

(Dual-listed with AESHM 581F). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 9 credits in AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Event Management major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**AESHM 381N: International Field Study: Apparel, Merchandising, and Design**

(Dual-listed with AESHM 581N). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D and/or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**AESHM 398: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of Advisor; Junior classification*

Required of all cooperative education students seeking full-time status.

Students register for this course prior to commencing each work period.

**AESHM 421: Developing Global Leadership: Maximizing Human Potential (3-0) Cr. 3. S.**

Development of leadership in a global environment. Focus on global concerns that impact on the well-being of individuals, families, and communities. Strategies for working with individuals, families and communities in other countries and cultures. Taking local action on global issues. Participation in a service activity.

Meets International Perspectives Requirement.

**AESHM 470: Supervised Professional Internship**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: AESHM 311 (all majors); EVENT 271 (Event Management majors); AESHM 211 (Hospitality Management majors)*

Supervised work experience with a cooperating firm or organization, documentation of experience, and completion of an internship project. Coursework includes weekly self-reflection and topics related to current issues and career advancement. Employer/experience should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits from AESHM 170, AESHM 270, and AESHM 470 may be applied toward graduation

**AESHM 470F: Supervised Professional Internship: Event Management**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: Permission by application; Junior classification*

Supervised and structured practical industry work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. This course is offered for a grade. Maximum number of credits given in a semester is 6. No more than 12 credits from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 470N: Supervised Professional Internship: Apparel**

Cr. 3-6. Repeatable. F.S.SS.

*Prereq: AESHM 311, 9 credits in A M D, and minimum 2.0 GPA; permission by application; junior or senior classification; employer/experience should be different than employer/experience for AESHM 170 and 270*

Supervised work experience with a cooperating firm or organization. Employer/experience for AESHM 470 or HSP M 470 should be different from employer/experience used for AESHM 170 and AESHM 270. No more than 12 credits from AESHM 170, 270, and 470 may be applied toward graduation.

**AESHM 472: Fashion Show Management**

(2-2) Cr. 2-3. Repeatable, maximum of 5 credits. F.S.

*Prereq: Permission of Instructor*

Provide leadership and communicate direction for planning and production of fashion show, including developing budgets, publicity, advertising, fundraising, choreography, staging, lighting, and food.

Maximum of 5 credits can be applied to graduation

**AESHM 474: Entrepreneurship in Human Sciences**

(3-0) Cr. 3. F.S.

*Prereq: A M D 275 or AESHM 287 or ACCT 284 or 3 cr in MKT or permission of instructor*

Comprehensive approach to entrepreneurship including concepts of innovation, creativity, opportunity assessment, and business planning. Focus on human sciences-related businesses: retail, service, hospitality, event, food-related, family-owned, rural, and community businesses. Interaction with entrepreneurs, market research, feasibility analysis, business proposals, and business/community outreach and consulting.

**AESHM 490H: Independent Study: Honors**

Cr. 2-4. Repeatable. F.S.SS.

*Prereq: Permission of Instructor; Full membership in Honors Program*

**AESHM 497: Cooperative Education**

Cr. R. Repeatable. F.S.SS.

*Prereq: Permission of Advisor; Senior or graduate classification*

Required of cooperative education students. Students must register for this course prior to commencing each work period.

**Courses primarily for graduate students, open to qualified undergraduates:**

**AESHM 501: Introduction to Scholarly Research for Graduate Students**

Cr. 1. F.S.SS.

Focus on the basics of developing scholarly research, including definition and purpose of research and the components of research reporting. Emphasis on standards for each section of research reports. Tips for research reporting and processes of research development. An introduction to ethical standards. Required of all new AESHM graduate students. Offered on a satisfactory-fail basis only.

**AESHM 502: Research Methods in Apparel, Events, and Hospitality**

(3-0) Cr. 3. SS.

*Prereq: Enrolled in graduate program*

Overview of research methods for qualitative, quantitative, and mixed methods. Topics include philosophical worldviews, the use of theory, and different research approach, design, methodologies, and procedures.

**AESHM 510: Quantitative Research Methods in Apparel, Events, and Hospitality**

Cr. 3. Alt. S., offered odd-numbered years. Alt. SS., offered odd-numbered years.

*Prereq: STAT 587 or equivalent; Graduate standing in the Department; Permission of instructor*

Overview of quantitative research methods in apparel and hospitality fields. Topics include types of quantitative research design, sampling design, measurement, validity issues, power and precision analysis, methods of data gathering and analysis techniques, and interpretation of statistical results. Use of statistical packages. Development of research plan.

**AESHM 511: Seminar**

Cr. 1-3. Repeatable, maximum of 6 times.

*Prereq: 6 graduate credits in A M D, AESHM, or HSP M. Permission of instructor*

Discussion of scholarship and current issues. Topics vary.

**AESHM 512: Qualitative Research Methods in Apparel, Events, and Hospitality**

Cr. 3. Alt. SS., offered even-numbered years.

*Prereq: Graduate status*

Introduction to and hands-on experiences with a variety of qualitative research methods specific to apparel, events and hospitality research. Students will develop skills at research design, data, collection, analysis, and write-up for qualitative inquiry.

**AESHM 570: Practicum**

Cr. 1-3. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience related to career objective. Proposal must be approved semester before placement.

**AESHM 570A: Apparel Merchandising and Design**

Cr. 1-3. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience related to career objective. Proposal must be approved semester before placement.

**AESHM 570B: Hospitality Management**

Cr. 1-3. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience related to career objective. Proposal must be approved semester before placement.

**AESHM 574: Entrepreneurship in Human Sciences**

(3-0) Cr. 3. F.S.

*Prereq: A M D 275 or AESHM 287 or ACCT 284 or 3 cr in MKT or permission of instructor*

Comprehensive approach to entrepreneurship including concepts of innovation, creativity, opportunity assessment, and business planning. Focus on human sciences-related businesses: retail, service, hospitality, event, food-related, family-owned, rural, and community businesses. Interaction with entrepreneurs, market research, feasibility analysis, business proposals, and business/community outreach and consulting.

**AESHM 579: Data Analytics for Apparel, Event, and Hospitality Management**

(3-0) Cr. 3. Alt. F., offered even-numbered years. Alt. SS., offered odd-numbered years.

*Prereq: STAT 587 or equivalent (AESHM 510, HD FS 503) or permission of instructor*

Business analytics is a process of transforming data into meaningful insights and actionable results in the context of decision making and problem solving. Review of the data-related challenges apparel, event, and hospitality organizations confront and the importance of data analytics in making critical management decisions. Basic analytic techniques including data management, analysis, interpretation, and visualization and analyze case studies that successfully deployed these techniques.

**AESHM 580: U.S. Field Study**

(Dual-listed with AESHM 380). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application*

Study and tours of areas of interest to majors in the AESHM Department. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 580D: U.S. Field Study: Hospitality Management**

(Dual-listed with AESHM 380D). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in AESHM or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 580F: U.S. Field Study: Event Management**

(Dual-listed with AESHM 380F). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in EVENT, AESHM, or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the majors in the Event Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 580N: U.S. Field Study: Apparel, Merchandising, and Design**

(Dual-listed with AESHM 380N). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 280 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 280.

**AESHM 581: International Field Study**

(Dual-listed with AESHM 381). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 9 credits in A M D, AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA. Permission by application*

Study and tours of areas of interest to majors in the AESHM Department. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281. Meets International Perspectives Requirement.

**AESHM 581D: International Field Study: Hospitality Management**

(Dual-listed with AESHM 381D). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Hospitality Management program. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281. Meets International Perspectives Requirement.

**AESHM 581F: International Field Study: Event Management**

(Dual-listed with AESHM 381F). Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 9 credits in AESHM, EVENT, and/or HSP M; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Event Management major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**AESHM 581N: International Field Study: Apparel, Merchandising, and Design**

(Dual-listed with AESHM 381N). Cr. 1-3. Repeatable, maximum of 3 times. F.S.SS.

*Prereq: 9 credits in A M D and/or AESHM; sophomore classification; minimum 2.0 GPA; AESHM 281 or concurrent enrollment; permission by application*

Study and tours of areas of interest to majors in the Apparel, Merchandising, and Design major. Trip to location under supervision of faculty member. Locations and lengths of trip vary. Final projects, reports, journal entries, and analysis are required. May be combined with AESHM 281.

Meets International Perspectives Requirement.

**Courses for graduate students:**

**AESHM 611: Seminar**

Cr. 1-3. Repeatable.

*Prereq: 6 graduate credits in AESHM, A M D, or HSP M. Permission of instructor*

Scholarship and current issues. Topics vary.

**AESHM 670: Teaching Practicum**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience in the university classroom. Proposal must be approved semester before placement.

**AESHM 670A: Teaching Practicum: Apparel Merchandising and Design**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience in the university classroom. Proposal must be approved semester before placement.

**AESHM 670B: Teaching Practicum: Hospitality Management**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

Supervised experience in the university classroom. Proposal must be approved semester before placement.

**AESHM 670C: Teaching Practicum: Event Management**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: 6 graduate credits in program area; permission of instructor*

This practicum is designed to provide event management graduate students (the graduate instructor) with experience in instructional planning, management, and systematic delivery of designed instruction for event undergraduate courses. Proposal must be approved semester before placement.

## Apparel, Merchandising and Design (A M D)

***Any experimental courses offered by A M D can be found at:***

registrar.iastate.edu/faculty-staff/courses/explisting/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explisting/>)

**Courses primarily for undergraduates:**

**A M D 121: Apparel Assembly Processes**

(2-4) Cr. 4. F.S.

Principles of garment and textile-related product assembly taught using industrial machines and production equipment. Construction techniques build in complexity in the development, assembly, and analysis of component parts and complete garments. Concurrent enrollment in A M D 204 recommended.

**A M D 131: Fashion Products and Markets**

(3-0) Cr. 3. F.

Fashion industry from concept to consumer. Focus on fashion-driven consumer goods. Development and prototyping of fashion products for a target market.

**A M D 165: Dress, Appearance, and Diversity in U.S. Society**

(3-0) Cr. 3. F.S.

Analyze foundational concepts and theories related to dress, identity, fashion, and culture and how they intersect with sex, gender, sexuality, beauty, attractiveness, disability, religion, race, and ethnicity with heightened attention to marginalized communities in the United States. Analyze the experiences and the role of fashion, clothing, dress, and/or accessories for identity development. Critique the social justice issues within the fashion system and identify the driving forces of transformative social justice change in the fashion system. Deconstruct one's personal values and positionalities in relation to fashion, clothing, dress, and/or accessories.

Meets U.S. Diversity Requirement

**A M D 178: Introduction to Apparel Design Studio**

(0-6) Cr. 3. F.S.

Introduction to the elements and principles of design in fashion and apparel including skill development in fashion illustration, technical drawing, and fabric rendering using traditional media. Application of written and verbal presentations to communicate fashion and apparel design concepts and terminology. Fashion presentation and introduction to portfolio development.

**A M D 204: Textile Science**

(3-2) Cr. 4. F.S.

*Prereq: A M D 131*

Textile fibers, yarns, fabrication, coloration, and finishes. Quality and performance application to textile products. Lab work included.

**A M D 206: Design Selective Advancement**

Cr. R. Repeatable, maximum of 2 times. F.S.

*Prereq: Completion or enrollment in A M D 121, A M D 131, A M D 165, A M D 178, and A M D 204 with subset 2.5 GPA, 2.0 cumulative GPA (including transfer work), and enrollment in major*

Project review and skill assessment related to 2-dimensional and 3-dimensional visualization, apparel assembly, basic product knowledge, design problem solving, illustration, textiles. Grade point averages are part of scoring process. Offered on a satisfactory-fail basis only.

**A M D 210: Computer Applications in Digital Design**

(2-2) Cr. 3. F.S.

*Prereq: A M D 245*

Applications of skills in Photoshop, Illustrator, InDesign, Google Sketch-up, Excel, and website development. Introduction to digital product design and line development. Focus on elements and principles of design. Introduction to digital portfolio development for design and merchandising. In-class demonstrations and online lectures.

**A M D 225: Patternmaking I: Drafting and Flat Pattern**

(1-4) Cr. 3. F.S.

*Prereq: A M D 121, A M D 204, A M D 206. Permission of instructor.*

Application of patternmaking tools and their functions, measurement techniques, pattern labeling, and patternmaking communication documents. Sloper drafting and flat pattern manipulation methods for women's apparel. Design and construction of original garments using drafted slopers and flat pattern manipulation methods to enable the analysis of fit.

**A M D 231: Product Development and Manufacturing**

(3-2) Cr. 4. F.S.

*Prereq: A M D 204*

Analysis of apparel product development, sourcing, and manufacturing processes. Focus on materials and specifications relative to quality, performance, cost, and price. Applications of software for PLM.

**A M D 245: Aesthetics and Brand Image**

(3-0) Cr. 3. F.S.

*Prereq: A M D 131; A M D 165; credit or concurrent enrollment in A M D 204*  
Elements and principles of design. Analysis of sensory, expressive, and symbolic aspects that build brand image, with a focus on fashion products and promotional settings.

**A M D 257: Museum Studies**

(3-0) Cr. 3. F.

*Prereq: Sophomore standing*

Overview of museums including history, functions, and philosophy. Collection and curatorial practices. Funding and governance issues. Hands-on object research and exhibit development. Required field trip.

**A M D 275: Retail Merchandising**

(3-0) Cr. 3. F.S.

*Prereq: 3 credits in Math*

Principles of merchandising as applied to retail-, service-, events-, and hospitality-related businesses. Study of the planning, development, and presentation of apparel- and hospitality-related products, services, and experiences. Industry and market research, planning of new offerings, and development of promotional and competitive strategies for various retail formats.

**A M D 278: Fashion Illustration**

(0-6) Cr. 3. F.S.

*Prereq: A M D 178, A M D 210 or concurrent enrollment, A M D 245 or concurrent enrollment. Permission of instructor.*

Development of fashion plates and focused apparel lines/collections. Proficiency in drawing the fashion figure, technical drawings/flats, and apparel using a variety of media. Continuation of fashion presentation and portfolio development.

**A M D 288: Styling**

(3-0) Cr. 3. F.S.

*Prereq: A M D 131; A M D 275*

Focus on the many facets of the styling profession, including commercial styling, editorial (magazine) styling, personal style consultation, and red-carpet styling. Study of the practical requirements of the profession and the importance of an appropriate digital presence. Course will utilize a hands-on approach with lectures and projects.

**A M D 290: Independent Study**

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Freshmen or Sophomore Classification; Permission of instructor, advisor, and department chair.*

Independent study on topics of special interest to the student, facilitated by approved faculty member. Total number of A M D 290 and A M D 490 credits applied to graduation cannot exceed 9 credits.

**A M D 290R: Independent Study: Professional Practice**

Cr. 1-2. Repeatable, maximum of 4 credits. F.S.SS.

*Prereq: Freshmen or Sophomore Classification; Permission of instructor, advisor, and department chair.*

Experiences in teaching assistantship for first-year and second-year students. Total number of A M D 290 and A M D 490 credits applied to graduation cannot exceed 9 credits.

**A M D 305: Quality Assurance of Textiles and Apparel**

(Dual-listed with A M D 505). (2-2) Cr. 3. F.

*Prereq: A M D 204, A M D 231, one course in natural science; STAT 101, or STAT 226, or STAT 587*

Principles of product and materials evaluation and quality assurance. Developing specifications and using standard practices for evaluating materials, product characteristics, performance, and quality.

**A M D 310: Computer Aided Apparel Patternmaking**

(0-6) Cr. 3. F.S.

*Prereq: A M D 210, A M D 225; Permission of instructor.*

Introduction to the computer-aided patternmaking software related to pattern modification, pattern drafting, grading, marker making, and 3-D virtual fitting.

**A M D 321: Computer Integrated Textile and Fashion Design**

(0-6) Cr. 3. F.S.

*Prereq: A M D 210, A M D 278 or concurrent enrollment. Permission of instructor*

Analysis and advanced use of computer-aided design software for soft-good fabrication design for various target markets. Development of digital presentation for portfolio integration.

**A M D 325: Patternmaking II: Draping**

(0-6) Cr. 3. F.S.

*Prereq: A M D 206, A M D 225; permission of instructor.*

Principles of patternmaking through basic draping techniques. Application of draping techniques to sportswear and formal wear garments. Analysis of fit and design; problem solving and interaction of fabric characteristics with style features.

**A M D 328: Apparel, Merchandising, and Design Seminar**

Cr. 1-3. Repeatable. F.S.SS.

Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term. Maximum of 6 credits can be applied toward graduation.

**A M D 328T: Apparel, Merchandising, and Design Seminar: Fashion Trend Forecasting**

Cr. 1-3. F.S.

Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term. Maximum of 6 credits can be applied toward graduation.

**A M D 328Y: Apparel, Merchandising, and Design Seminar: Styling**

Cr. 1-3.

Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term. Maximum of 6 credits can be applied toward graduation.

**A M D 329: Digital Textile Printing for Apparel Design**

(2-2) Cr. 3. F.S.

*Prereq: A M D 321; A M D 325 or concurrent. Permission of instructor*

Overview of the use of digital printing in the textile and apparel industry, color matching, repeat print patterns, engineered prints, and creation of apparel prototypes.

**A M D 354: Euro-American Dress History: Prehistoric to Mid-19th Century**

(3-0) Cr. 3. F.

Survey of history of dress from ancient times up to the American Civil War; focus on European and North American dress. Emphasis on connection of dress to the social, cultural, environmental, and technological contexts of the Western world.

Meets International Perspectives Requirement.

**A M D 356: Euro-American Dress History: Mid-19th Century to the Present**

(3-0) Cr. 3. S.

Survey of major design and technological developments from the 1870s through the present. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture. A M D 204 recommended.

**A M D 362: Cultural Perspectives of Global Dress**

(3-0) Cr. 3. S.

Analysis of multiple factors related to dress in selected societies, including technology, cultural identity, aesthetics, social organization, ritual, stability and change. Applications to fair trade and social responsibility.

Meets International Perspectives Requirement.

**A M D 372: Sourcing and Global Issues**

(3-0) Cr. 3. F.S.

*Prereq: A M D 231; A M D 275*

Evaluation of key issues facing textile and apparel industries in global markets considering ethical, economic, political, social, and professional implications. Sourcing strategies in a global environment. Corporate and consumer social responsibility and sustainability. ECON 101 or ECON 102 recommended.

Meets International Perspectives Requirement.

**A M D 375: Omni-Channel Retailing**

(3-0) Cr. 3. S.

*Prereq: 3 credits in marketing or A M D 275 or AESHM 287*

A customer-centric view of marketing with a focus on the retailer-customer relationship and omni-channel strategies. Analysis and evaluation of integrated retail applications and strategies using digital media, including store formats, e-commerce, catalog, mobile, crowdsourcing, and social media.

**A M D 376: Merchandise Planning and Buying**

(3-2) Cr. 4. F.S.

*Prereq: A M D 275; COM S 113; 3 credits from ACCT 284, MATH 104, MATH 105, MATH 140, MATH 150, or equivalent.*

Calculations and computer application in the planning and control of merchandise. Emphasis on retail math as it pertains to assortment planning, the six-month buying plan process, and other buying concepts and strategies. Online modules.

**A M D 377: Visual Presentation and Promotions**

(3-0) Cr. 3. F.S.

*Prereq: A M D 210; (A M D 245 or AESHM 342); (MKT 340 or AESHM 340)*

Principles of visual aspects of brand development and management; emphasis on branding, visual merchandising, design/layout of retail spaces. Includes applications such as visual communication and documentation using Adobe Creative Suite(R), hands-on display projects, and brand case studies.

**A M D 388: Trend Forecasting**

(3-0) Cr. 3. F.S.

*Prereq: A M D 204, A M D 245, A M D, 275, 3 credits from ACCT 284, MATH 104, MATH 105, MATH 140, MATH 150, or equivalent*

Explore many facets of fashion forecasting, including trend research, managing inspiration sources and trend ideas, product adoption, degrees of difference, and turning a fashion forecast into a buying plan. Applications of fashion forecasting will be examined, who does it and how it fits into various careers. The course will utilize a hands-on approach with lecture, discussion, and projects.

**A M D 393: Apparel, Merchandising, and Design Workshop**

Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS.

*Prereq: A M D Junior or Senior Classification and Permission of Instructor.*

Intensive 2- to 8-week workshop exploration. Topics vary each time offered. Maximum of 6 credits applied to graduation.

**A M D 404: Innovative Textiles**

(Dual-listed with A M D 504). (2-2) Cr. 3. S.

*Prereq: A M D 204, CHEM 163 and CHEM 163L or equivalent*

Theories and principles of textile science. Textile product serviceability.

Effect of fiber structure on properties and performance. New developments in textiles.

**A M D 415: Technical Design Processes**

(2-2) Cr. 3. F.

*Prereq: A M D 225; A M D 231*

Garment development and analysis of fit, performance, quality, cost.

Exploration of alternative materials, construction methods, grading; specifications and portfolio development.

**A M D 426: Creative Design Processes**

(1-4) Cr. 3. S.

*Prereq: A M D 206, A M D 321, A M D 325 or concurrent*

Exploration of the creative apparel design process and sources of inspiration with emphasis on activist design, wearable art; experimentation of advanced design problem solving, alternative materials, fabric manipulation, and pattern-making techniques.

**A M D 431: Apparel Production Management**

(2-2) Cr. 3. S.

*Prereq: A M D 231; A M D 372*

Procedures and experiences related to application and use of process controls: method analysis, work measurement, costing, pricing, and production planning. Resource management, technology applications, and quality assurance. A M D 121 recommended.

**A M D 458: Queer Fashions: History, Culture, and the Industry**

(Dual-listed with A M D 558). (Cross-listed with WGS, WGS). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Focus on analyzing the dressed and undressed body of individuals in the queer and trans communities in various cultural contexts with a focus on material culture. Examine concepts related to gender and sexuality and the changing definitions and representations of individuals who identify in the queer and trans communities focusing on appearance, fashion, and the body. Historic and current representations of fashion, styles, and appearances will be analyzed and discussed. Attention to how sexuality and gender intersect with and shape other identities including race, ability, body size, and class. Examine the complex structures, systems, and ideologies that uphold discrimination and unequitable distribution of power and resources as related to the course material. Attention will mostly be given to North American perspectives. We will use material culture to explore how objects related to fashioning the body reveal lived experiences about the owners and consumers.

Meets U.S. Diversity Requirement

**A M D 467: Consumer Studies in Apparel and Fashion Products**

(3-0) Cr. 3. F.

*Prereq: A M D 165; (AESHM 340 or MKT 340); (STAT 101 or STAT 104 or STAT 226)*

Application of concepts and theories from the social sciences to the study of consumer behavior related to dress, textile and apparel products, and retail experiences. Experience in conducting consumer research.

**A M D 475: Retail Analytics**

(2-2) Cr. 3. F.S.

*Prereq: A M D 376*

Evaluation of information needed to make effective retail decisions. Use of technology in analyzing and interpreting retail systems data. Application of concepts related to forecasting, consumer demand, assortment planning, market research, data mining, database interface, pattern recognition, supply-chain/logistics management, retail technology applications.

**A M D 490: Independent Study**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

Independent Study. Maximum of 9 credits of both A M D 290 and A M D 490 can be applied toward graduation.

**A M D 490A: Independent Study: Textile Science**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490B: Independent Study: Historical, Cultural, and Museum Studies of Dress and Textiles**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490C: Independent Study: Textile and Apparel Design**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490E: Independent Study: Merchandising, Aesthetics, and Entrepreneurship**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490F: Independent Study: Sociological, Psychological, and Consumer Behavioral Aspects of Dress**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490H: Independent Study: Honors**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490J: Independent Study: Product Development, Innovation, and Sourcing**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490R: Independent Study: Professional Practice**

Cr. arr. Repeatable, maximum of 2 times. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair.*

**A M D 490S: Independent Study: Production and Quality Assurance**

Cr. arr. Repeatable. F.S.SS.

*Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 490W: Independent Study: Fashion Show, Fashion Public Relations and Marketing**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Prereq: 6 credits in A M D. Permission of the instructor, advisor, and department chair*

**A M D 495: Senior Design Studio**

(Dual-listed with A M D 595). (0-6) Cr. 3. F.

*Prereq: A M D 310, A M D 325 and A M D 329. Permission of instructor.*

Creation of an apparel line from target market research to prototypes through the use of manual techniques and CAD technologies. The line is to be included in a professional portfolio and pieces submitted to a juried exhibition.

**A M D 496: Soft-Goods Product Development and Prototyping**

(3-0) Cr. 3. S.

*Prereq: A M D 231, A M D 245, A M D 275, A M D 321*

Capstone soft-good innovative product development course focusing on product development through design thinking and practice. Applying consumer, aesthetic, and quantitative trend information to develop value-added soft-good products and product lines for diverse target markets. Integrated course with industry partner(s) with development of a prototype and presentation for portfolio integration.

**A M D 499: Undergraduate Research**

Cr. 1-3. Repeatable. F.S.SS.

*Prereq: Senior classification, 15 credits in A M D. Permission of instructor, advisor, and department chair*

Research experience in textiles and clothing with application to a selected problem.

**Courses primarily for graduate students, open to qualified undergraduates:**

**A M D 504: Innovative Textiles**

(Dual-listed with A M D 404). (2-2) Cr. 3. S.

*Prereq: A M D 204, CHEM 163 and CHEM 163L or equivalent*

Theories and principles of textile science. Textile product serviceability. Effect of fiber structure on properties and performance. New developments in textiles.

**A M D 505: Quality Assurance of Textiles and Apparel**

(Dual-listed with A M D 305). (2-2) Cr. 3. F.

*Prereq: A M D 204, A M D 231, one course in natural science; STAT 101, or STAT 226, or STAT 587*

Principles of product and materials evaluation and quality assurance. Developing specifications and using standard practices for evaluating materials, product characteristics, performance, and quality.

**A M D 510: Foundation of Scholarship in Apparel, Merchandising, and Design**

(3-0) Cr. 3. F.

*Prereq: Graduate classification or permission of instructor*

Overview of scholarship in apparel, merchandising, and design with emphasis on current and future directions. Fundamentals of writing literature reviews. Examination of ethical issues in scholarship and academic life. Introduction to creativity, sustainability, and entrepreneurship.

**A M D 521: Digital Technologies in Textile and Apparel**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: Research Methods course. Permission of instructor.*

Digital technologies in textile and apparel design. Theories and practices connected to technology in apparel fields. Technologies explored in this class may include digital textile design and printing, 3D body scanning, avatar development for digital fitting or other advanced technologies used in the textile and apparel industries.

**A M D 525: Experimental Patternmaking**

Cr. 3. Alt. F., offered even-numbered years.

*Prereq: AMD 121 or equivalent, AMD 225 or equivalent, AMD 510 or taking concurrently, permission of instructor*

Research, analyze, and apply experimental patternmaking techniques to original garments suitable for entry into a juried competition/exhibitions. Compare, contrast, and organize a framework of research patternmaking principles through content analysis or other appropriate research techniques. Documentation of learning and design process.

**A M D 539: Digital Textile Design and Theory**

Cr. 3. Repeatable. Alt. S., offered even-numbered years.

Focus on artisanal textile, apparel, or surface and structural design techniques. Design processes for specialty fabrics and markets. Topics vary by term.

**A M D 545: Consumer Experience and Retail Branding**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: One course in design elements and principles, psychology, consumer behavior, or marketing*

Examination of hedonic nature of consumer experience and its application to experiential design and branding of retail/hospitality establishments. Emphasis on consumer behavior, environmental psychology, and marketing literature.

**A M D 554: Dress History Research Methods**

Cr. 3. Alt. S., offered odd-numbered years.

Using a variety of sources and methods of analysis, students will develop their ability to read and interpret primary and secondary sources and to understand the methodology underpinnings and process of constructing dress history.

**A M D 558: Queer Fashions: History, Culture, and the Industry**

(Dual-listed with A M D 458). (3-0) Cr. 3. Alt. S., offered even-numbered years.

Focus on analyzing the dressed and undressed body of individuals in the queer and trans communities in various cultural contexts with a focus on material culture. Examine concepts related to gender and sexuality and the changing definitions and representations of individuals who identify in the queer and trans communities focusing on appearance, fashion, and the body. Historic and current representations of fashion, styles, and appearances will be analyzed and discussed. Attention to how sexuality and gender intersect with and shape other identities including race, ability, body size, and class. Examine the complex structures, systems, and ideologies that uphold discrimination and inequitable distribution of power and resources as related to the course material. Attention will mostly be given to North American perspectives. We will use material culture to explore how objects related to fashioning the body reveal lived experiences about the owners and consumers.

Meets U.S. Diversity Requirement

**A M D 565: Sustainability: Theory and Practical Application**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: 3 credits in research methods; basic knowledge of apparel industry and product development; permission of instructor.*

Overview of current sustainability theory, research, and methodology. Emphasis on the evaluation and discussion of current sustainability literature and sustainable practice of apparel, textiles, and related products and services through people, processes, and the environment. Development and presentation of original scholarly and creative design work under various sustainability frameworks.

**A M D 567: Consumer Behavior and Apparel**

(3-0) Cr. 3. Alt. F., offered odd-numbered years.

*Prereq: A M D 467 or MKT 447; STAT 401*

Application of concepts and theories from the social sciences to the study of consumer behavior. Experience in conducting research; manuscript writing.

**A M D 572: Sourcing and Global Issues**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: A course in merchandising, marketing, or economics*

Evaluation of textile and apparel industries in global markets considering ethical, economic, political, social, and professional implications. Sourcing strategies in a global environment. Corporate and consumer social responsibility and sustainability. Experience in conducting research using secondary data.

Meets International Perspectives Requirement.

**A M D 576: Industry Applications in Merchandising and Management**

(3-0) Cr. 3. Alt. S., offered even-numbered years.

*Prereq: A M D 376 or equivalent; A M D 275 or equivalent; or permission of instructor*

Using the case study method, students apply merchandising theory, principles, and practices to industry scenarios. Emphasis on problem solving, creative thinking, data analysis, and data interpretation involved in business operations. Focus on the development of leadership skills while functioning in small and large groups.

**A M D 577: E-Commerce for Apparel and Hospitality Companies**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: Course in marketing or permission of instructor*

Analysis of technology and consumer trends, industry practices, and marketing strategies for e-commerce including big data, data mining, and social media. Evaluation and development of apparel or hospitality company websites. Theory application to the development of multi-channel business strategies.

**A M D 578: Social Network Analysis**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

*Prereq: STAT 587 or equivalent*

Introduction to social network related theories, practices and analyses. Visualize and analyze social structures, formed from social relationships, interactions, communications, and social media activities. Explore methods for social network data collection and data management, including application on big data. Practical guidelines on conducting SNA research in social science contexts, including applying SNA with big data.

**A M D 590: Special Topics**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590A: Special Topics: Textile Science**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590B: Special Topics: Historical, Cultural, and Museum Studies of Dress and Textiles**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590C: Special Topics: Textile and Apparel Design**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590E: Special Topics: Merchandising, Aesthetics, and Entrepreneurship**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590F: Special Topics: Sociological, Psychological, and Consumer Behavioral Aspects of Dress**

Cr. arr. Repeatable.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590J: Special Topics: Product Development, Innovation, and Sourcing**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590S: Special Topics: Production and Quality Assurance**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 590W: Special Topics: Fashion Show, Fashion Public Relations and Marketing**

Cr. arr. Repeatable. F.S.SS.

*Prereq: Permission of director of graduate education, advisor, and instructor(s)*

Individually designed A M D-related projects that reflect the special interests of the student.

**A M D 595: Senior Design Studio**

(Dual-listed with A M D 495). (0-6) Cr. 3. F.

*Prereq: A M D 310, A M D 325 and A M D 329. Permission of instructor.*

Creation of an apparel line from target market research to prototypes through the use of manual techniques and CAD technologies. The line is to be included in a professional portfolio and pieces submitted to a juried exhibition.

**A M D 599: Creative Component**

Cr. arr. Repeatable.

*Prereq: 9 graduate credits in A M D*

**Courses for graduate students:****A M D 611: Seminar**

Cr. 1-3. Repeatable.

*Prereq: 6 graduate credits in A M D. Permission of instructor*

Discussion of scholarship and current issues. Topics vary.

**A M D 625: Design Theory and Process**

(2-4) Cr. 4. Alt. S., offered even-numbered years. Alt. SS., offered even-numbered years.

*Prereq: Permission of instructor.*

Analysis and application of design theory and creative processes, including strategies for solving aesthetic, functional, and/or technology-focused design problems. Creation and dissemination of design scholarship.

**A M D 665: Cultural and Social Science Theories in Fashion Studies**

(3-0) Cr. 3. Alt. S., offered odd-numbered years.

Analysis of cultural and social science theories, concepts, frameworks, and epistemologies applicable to fashion, style, and dress research. Emphasis on qualitative research, theoretical interpretation, and theory development. Example theories examined include Black feminist theories, critical race theory, feminist queer crip, tribalcrit, symbolic interaction, and semiotics. Collection, analysis, and interpretation of qualitative data.

**A M D 676: Merchandising Theory and Research Applications**

(3-0) Cr. 3. Alt. F., offered even-numbered years.

*Prereq: A M D 275 or equivalent; statistics course recommended.*

Review of current merchandising theory, research, and methodology. Emphasis on the evaluation and discussion of current and seminal merchandising literature, understanding research processes, interpretation of findings, assessing implications of research for future directions in merchandising, and the development and presentation of original scholarly work.

**A M D 690: Advanced Topics**

Cr. arr. Repeatable.

*Prereq: Enrollment in doctoral program, permission of instructor; and approval of D.O.G.E***A M D 699: Research**

Cr. arr. Repeatable.

## Arabic (ARABC)

***Any experimental courses offered by ARABC can be found at:***[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)**Courses primarily for undergraduates:****ARABC 101: Elementary Arabic I**

(4-0) Cr. 4. F.

Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture. Attention to the use of the Arabic alphabet.

**ARABC 102: Elementary Arabic II**

(4-0) Cr. 4. S.

*Prereq: ARABC 101 or placement by department exam*

Continuation of ARABC 101. Beginning level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 195: Study Abroad**

Cr. arr. Alt. SS., offered irregularly.

Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.

**ARABC 201: Intermediate Arabic I**

(4-0) Cr. 4. F.

*Prereq: ARABC 102 or placement by department exam*

Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 202: Intermediate Arabic II**

(4-0) Cr. 4.

*Prereq: ARABC 201 or placement by department exam*

Continuation of Arabic 201. Intermediate level development of reading, writing, listening comprehension, and speaking in Arabic, within the context of Arabic culture.

Meets International Perspectives Requirement.

**ARABC 295: Study Abroad**

Cr. arr. Alt. SS., offered irregularly.

*Prereq: ARABC 102*

Supervised instruction in Arabic language and culture, formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Arabic.

**ARABC 375: Arab Culture**

Cr. 3. S.

Survey of contemporary Arab culture in the Middle East and North Africa as reflected in history, language, the arts, and social institutions with attention to the Arab Diaspora. Taught in English.

Meets International Perspectives Requirement.

**ARABC 490: Independent Study**

Cr. 1-6. Repeatable.

*Prereq: Permission of Instructor*

Independent study with focus on areas other than those in which courses are offered. No more than 6 credits in ARABC 490 may be counted toward graduation.

## Architecture (ARCH)

***Any experimental courses offered by ARCH can be found at:***[registrar.iastate.edu/faculty-staff/courses/explistsings/](http://registrar.iastate.edu/faculty-staff/courses/explistsings/) (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)**Courses primarily for undergraduates:****ARCH 201: Architectural Design I**

(1-15) Cr. 6. F.

*Prereq: Completion of the pre-professional program and admission into the professional program in Architecture.*

Introduction to architectural design including design process, drawing conventions, methods of design analysis, and model making using both analog and digital tools. Studio projects focus on formal and volumetric principles of pattern and composition, investigations of site conditions, and understanding of scale. Field trips to relevant architectural sites.

**ARCH 201H: Architectural Design I, Honors**

(1-15) Cr. 6-7. F.

*Prereq: Completion of the pre-professional program and admission into the professional program in Architecture*

Introduction to architectural design including design process, drawing conventions, methods of design analysis, and model making using both analog and digital tools. Studio projects focus on formal and volumetric principles of pattern and composition, investigations of site conditions, and understanding of scale. Field trips to relevant architectural sites.

**ARCH 202: Architectural Design II**

(1-15) Cr. 6. S.

*Prereq: ARCH 201; MATH 145; PHYS 131 and 131L*

Continuation of fundamental architectural design exploration. Studio projects focus on the generation of ideas based on experience and systematic analysis of tectonics. Emphasis on design development through detail, materiality, and spatial relationships. Students work in groups and individually. Representational methods expand on architectural conventions through experimentation. Field trips to relevant architectural sites.

**ARCH 202H: Architectural Design II, Honors**

(1-15) Cr. 6-7. S.

*Prereq: ARCH 201, MATH 145; and PHYS 131 and PHYS 131L*

Continuation of fundamental architectural design exploration. Studio projects focus on the generation of ideas based on experience and systematic analysis of tectonics. Emphasis on design development through detail, materiality, and spatial relationships. Students work in groups and individually. Representational methods expand on architectural conventions through experimentation. Field trips to relevant architectural sites.

**ARCH 220: Contemporary Architecture**

(3-0) Cr. 3. F.

Survey of global architectural ideas and practices from 1990 to the present. Emphasis will be given to recent movements and architectural manifestations, as well as close examinations of socio-cultural conditions for contemporary practice.

**ARCH 221: Histories and Theories of Architecture to 1750**

(3-0) Cr. 3. F.

Survey of architectural ideas, theories, and practices before 1750. Emphasis on the mutually formative relationship between architecture and the social, cultural, economic, and political forces, nationally and globally, in which it is produced.  
Meets International Perspectives Requirement.

**ARCH 230: Design Communications I**

(2-2) Cr. 3. F.

*Prereq: Admission to the Professional Program in Architecture*

Investigations of various design media and their applications to design. Exercises to develop representational skills and perceptual sensitivity.

**ARCH 231: Advanced Design Representation**

Cr. 3. Alt. F., offered irregularly.S.

*Prereq: ARCH 230; Junior, Senior or Graduate standing*

Advanced investigations of various design media and their applications to design. Emphasis on careful consideration of media, mixed-media strategies and development of craft.

**ARCH 301: Architectural Design III**

(1-15) Cr. 6. F.

*Prereq: ARCH 202*

Consideration of landscape as a constructed, cultural artifact. Projects address the perceptual aspects and strategies of situation and location; examination of environmental phenomena and patterns of use and settlement as revealed and affected by the architectural artifact. Development of a critical design process is stressed.

**ARCH 301H: Architectural Design III, Honors**

(1-15) Cr. 6-7. F.

*Prereq: ARCH 202*

Consideration of landscape as a constructed, cultural artifact. Projects address the perceptual aspects and strategies of situation and location; examination of environmental phenomena and patterns of use and settlement as revealed and affected by the architectural artifact. Development of a critical design process is stressed.

**ARCH 302: Architectural Design IV**

(1-15) Cr. 6. S.

*Prereq: ARCH 301 and minimum 2.0 GPA in previous studio courses*

Design for housing in an urban context that demonstrates a synthetic understanding of diverse scales of use and occupation as shaped by user requirements, site conditions, and principles for inclusive design. Consideration of regulatory requirements and measurable environmental impacts of the proposal on its site.

**ARCH 302H: Architectural Design IV, Honors**

(1-15) Cr. 6-7. S.

*Prereq: ARCH 301 and minimum 2.0 GPA in previous studio courses*

Design for housing in an urban context that demonstrates a synthetic understanding of diverse scales of use and occupation as shaped by user requirements, site conditions, and principles for inclusive design. Consideration of regulatory requirements and measurable environmental impacts of the proposal on its site.

**ARCH 321: History of the American City**

(3-0) Cr. 3.

*Prereq: Sophomore classification*

Study of the development of the built environment and urban condition in the United States from the colonial period to today. Primary attention is given to urban spatial organization, built form, technological change, regulatory and funding patterns, and social categories such as class, race, and gender. Credit counts toward fulfillment of History, Theory, Culture requirements.

Meets U.S. Diversity Requirement

**ARCH 322: Histories and Theories of Architecture after 1750**

(3-0) Cr. 3. S.

*Prereq: Sophomore classification*

Survey of architectural ideas, theories and practices from 1750 to 1990.

Emphasis on the mutually formative relationship between architecture and the social, cultural, economic, and political forces, nationally and globally, in which it is produced.

Meets International Perspectives Requirement.

**ARCH 334: Computer-aided Architectural Design**

(2-2) Cr. 3.

Exploration of current and potential applications of computing in architectural design. Projects engage digital design methods, data and media workflows.

**ARCH 335: Three-Dimensional Studio**

(1-4) Cr. 3. Repeatable, maximum of 6 credits.

This course deals with three dimensional problems in visual invention, organization, and expression emphasizing creative manipulation of tools, materials, and techniques as means for three-dimensional thinking. Projects cover the additive (modeling), subtractive (carving), substitutional (casting) as well as constructive techniques.

**ARCH 345: Building Science and Technology I**

(2-0) Cr. 2. F.

*Prereq: Admission to the professional program in architecture; concurrent enrollment in ARCH 345L*

First course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental forces and systems (solar orientation, climate, daylighting, natural ventilation, human comfort and occupancy patterns), materials and assemblies (drawing conventions, building codes, and physical properties of materials) and fundamental structural principles (forces/loads, equilibrium, and stability) to understand impact of the built environment on human health, safety, and welfare at building scales.

**ARCH 345L: Building Science and Technology I Lab**

(0-2) Cr. 1. F.

*Prereq: Admission to the professional program in architecture; concurrent enrollment in ARCH 345.*

Laboratory to accompany Arch 345 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

**ARCH 346: Building Science and Technology II**

(3-0) Cr. 3. S.

*Prereq: ARCH 345, ARCH 345L, MATH 145, and PHYS 131 and PHYS 131L; concurrent enrollment in ARCH 346L.*

Second course in a sequence focused on architectural building technologies. Lectures and labs cover: environmental systems (heat transfer in the building envelope, passive heating and cooling, daylighting, thermal comfort, analytical guidelines and building energy calculation methods), materials & assemblies (building envelope systems, accessibility, egress, and material properties), and structural systems (structural system selection/comparison, and design and analysis of "form-active" compression and tension structures) to understand impact of the built environment on human health, safety, and welfare at building scales.

**ARCH 346L: Building Science and Technology II Lab**

(0-4) Cr. 2. S.

*Prereq: ARCH 345, ARCH 345L, MATH 145 and PHYS 131 and 131L; concurrent enrollment in ARCH 346.*

Laboratory to accompany Arch 346 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

**ARCH 347: Building Science and Technology III**

(3-0) Cr. 3. F.

*Prereq: ARCH 346, ARCH 346L; concurrent enrollment in ARCH 347L. .*

Third course in a sequence focused on architectural building technologies. Lectures and labs cover: multistory building framing, assembly, and enclosure systems, sizing and selecting structural framing components (foundations, columns, beams, etc.), and an environmental design process that demonstrates the ability to integrate climate into the control of thermal, luminous, ventilative and acoustic environments. Introduction to plumbing and rain water collection systems to understand the impact of the built environment on human health, safety, and welfare at building scales and to assess those technologies against performance objectives of projects.

**ARCH 347L: Building Science and Technology III Lab**

(0-4) Cr. 2.

*Prereq: ARCH 346, ARCH 346L; concurrent enrollment in ARCH 347.*

Laboratory to accompany Arch 347 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

**ARCH 348: Building Science and Technology IV**

(3-0) Cr. 3. S.

*Prereq: ARCH 347, ARCH 347L; concurrent enrollment in ARCH 348L.*

Fourth course in a sequence focused on architectural building technologies. Lectures and labs cover: ability to demonstrate active environmental HVAC control systems design, use and design of mechanical, electrical, plumbing, fire safety, transportation, and conveying systems and subsystems, constructed building assemblies and details (building envelope details for waterproofing and enclosure, advanced material properties, costs, and serviceability), and structural design for multi-story structures (design and documenting various framing patterns, integration with other building systems, and lateral stability strategies for wind and seismic) to understand the impact of the built environment on human health, safety, and welfare at building scales and to assess those technologies against performance objectives of projects.

**ARCH 348L: Building Science and Technology IV Lab**

(0-4) Cr. 2. S.

*Prereq: ARCH 347, ARCH 347L; concurrent enrollment in ARCH 348.*

Laboratory to accompany Arch 348 and must be taken concurrently. Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

**ARCH 371: Human Behavior and Environmental Theory**

(3-0) Cr. 3.

Exploration of theories that describe social structure and order and the manner in which individuals and societies organize themselves and structure their environment.

**ARCH 401: Architectural Design V**

(1-15) Cr. 6. F.

*Prereq: ARCH 302*

Projects showing students' ability to integrate knowledge of sound building design into a comprehensive architectural proposal that reflects sustainable design principles. Consideration of site, structure, building envelope, environmental controls, life safety, and methods to measure building performance. Projects typically are closely connected to the physical, environmental, and social context of their sites.

**ARCH 401H: Architectural Design V, Honors**

(1-15) Cr. 6-7. F.

*Prereq: ARCH 302*

Projects showing students' ability to integrate knowledge of sound building design into a comprehensive architectural proposal that reflects sustainable design principles. Consideration of site, structure, building envelope, environmental controls, life safety, and methods to measure building performance. Projects typically are closely connected to the physical, environmental, and social context of their sites.

**ARCH 402: Architectural Design VI**

(1-15) Cr. 6. S.

*Prereq: Minimum grade of C in ARCH 401.*

An examination of the relationship between architecture and the city. Studio projects stress analysis and interpretation of the diverse forces and conditions that impact and inform architecture in the urban environment. Urban design project. Study abroad option.

**ARCH 402H: Architectural Design VI, Honors**

(1-15) Cr. 6-7. S.

*Prereq: Minimum grade of C in ARCH 401.*

An examination of the relationship between architecture and the city. Studio projects stress analysis and interpretation of the diverse forces and conditions that impact and inform architecture in the urban environment. Urban design project. Study abroad option.

**ARCH 403: Architectural Design VII**

(1-15) Cr. 6. F.

*Prereq: ARCH 402*

Advanced studio as incubator for examining progressive agendas within or beyond the discipline of architecture. Innovative research that is academically rigorous, critically informed, speculative, and design-led is encouraged. Projects and creative outputs vary per studio instructor.

**ARCH 403H: Architectural Design VII, Honors**

(1-15) Cr. 6-7. F.

*Prereq: ARCH 402*

Advanced studio as incubator for examining progressive agendas within or beyond the discipline of architecture. Innovative research that is academically rigorous, critically informed, speculative, and design-led is encouraged. Projects and creative outputs vary per studio instructor.

**ARCH 404: Architectural Design VIII**

(1-15) Cr. 6. S.

*Prereq: ARCH 403*

Advanced forum for architectural research and/or design. Choice of thematic studios or student initiated research and design. Experimentation and innovation are encouraged. DSN S 446 or DSN S 546, for 6 cr. each time taken, can be substituted for this class and be taken up to a maximum of 12 credits.

**ARCH 404H: Architectural Design VIII, Honors**

(1-15) Cr. 6-7. S.

*Prereq: ARCH 403*

Advanced forum for architectural research and/or design. Choice of thematic studios or student initiated research and design. Experimentation and innovation are encouraged. DSN S 446 or DSN S 546, for 6 cr. each time taken, can be substituted for this class and be taken up to a maximum of 12 credits.

**ARCH 417: Big and Tall: A History of Construction**

(Dual-listed with ARCH 517). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* ARCH 417: Junior or Senior Classification, ARCH 517: Graduate classification

History, theory, and principles of construction from ancient times through today. Analytic project or term paper and weekly readings with discussion questions. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 420: Topics in American Architecture**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of American architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 420 may be applied to degree program.

**ARCH 422: Topics in Medieval Architecture**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of medieval architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 422 may be applied to degree program.

Meets International Perspectives Requirement.

**ARCH 423: Topics in Renaissance to Mid-Eighteenth Century Architecture**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of renaissance to mid-eighteenth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements. A maximum of 6 credits of ARCH 423 may be applied to degree program.

Meets International Perspectives Requirement.

**ARCH 424: Topics in Nineteenth Century Architecture**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of nineteenth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture requirements. A maximum of 6 credits of ARCH 424 may be applied to degree program.

**ARCH 425: Topics in Twentieth Century and Contemporary Architecture**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of twentieth century architecture and urban design considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture requirements. A maximum of 6 credits of ARCH 425 may be applied to degree program.

**ARCH 426: Topics in Native American Architecture**

(Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq:* Junior classification

History, theory, and principles of Native American/American Indian architecture, landscape architecture and planning considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment History, Theory, Culture. A maximum of 6 credits of ARCH 426 may be applied to degree program.

**ARCH 427: History, Theory, and Criticism of Chinese Architecture**

(Dual-listed with ARCH 527). (3-0) Cr. 3. F.

*Prereq:* ARCH 427: Senior classification, ARCH 527: Graduate classification

The history and theoretical concept of Chinese built environment with emphasis on the morphology of built form and its relationship to art, landscape design, and urban structure. Credit counts toward fulfillment History, Theory, Culture.

Meets International Perspectives Requirement.

**ARCH 429: Topics in Italian Architecture**

(3-0) Cr. 3. S.

*Prereq:* Junior classification

History, theory and principles of Italian architecture considering relationships to the culture, visual arts, site, and surroundings. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 431: Analytical Drawing**

(1-6) Cr. 3. Repeatable, maximum of 12 credits. F.S.

Exploration of 2- and 3-dimensional representations. Emphasis on on-site freehand sketching, perspective and orthographic drawing, rendering of shadows and textures, and use of diverse media.

**ARCH 432: Advanced Computer Lighting and Rendering**

(3-0) Cr. 3. Repeatable, maximum of 6 credits.

Exploration of the computer as a design and communication tool.

Emphasis on lighting and rendering techniques.

**ARCH 433: Digital Fabrication**

(Dual-listed with ARCH 533). (3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.

*Prereq: ARCH 433: ARCH 230; ARCH 301; Junior, Senior or equivalent skills.*

*ARCH 533: Graduate Classification and ARCH 601 or equivalent skills.*

Exploration of the computer as a design and manufacturing tool.

Emphasis on developing digital fabrication technologies and workflows.

**ARCH 434: Advanced Computer-aided Architectural Design**

(1-4) Cr. 3.

Specialized investigations of the computer as a design tool. Development of computer software and workflows for architectural and environmental problem solving.

**ARCH 436: Advanced Design Media**

(Dual-listed with ARCH 536). (2-2) Cr. 3. Repeatable, maximum of 6 credits. F.S.

Special topics in design media applications.

**ARCH 437: Architectural Photography**

(3-0) Cr. 3.

Emphasis on use of the camera and lighting in photographing drawings and interior and exterior building environments.

**ARCH 438: Architectural Robotics**

(Dual-listed with ARCH 538). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARCH 438: ARCH 231; ARCH 301; or equivalent skills. Junior or Senior or Graduate standing. ARCH 538: Graduate Standing and ARCH 601 or equivalent skills.*

Exploration of robots as design and manufacturing tools for architects.

Emphasis on developing robotic technologies and workflows with relevance to architectural design.

**ARCH 439: Computational Design Theory**

(Dual-listed with ARCH 539). (3-0) Cr. 3.

*Prereq: ARCH 220, ARCH 221, and ARCH 322 or senior classification or graduate standing.*

Seminar discussion of critical readings and theories surrounding computational design; This course surveys the history and development of digital computing and its use in design from early thought experiments, to computer-aided design systems, to present day artificial intelligences and robotics. The potentials and consequences of emerging computational design systems are discussed.

**ARCH 445: Building Science and Technology V**

(2-0) Cr. 2. F.

*Prereq: ARCH 348, ARCH 348L; concurrent enrollment in ARCH 445L.*

Final course in a sequence of architectural building technology courses comprising environmental systems, materials/assembly, and building structures topics. Using both lectures and labs, the three interrelated modules each emphasize a particular building technology subject with an overall focus on synthesizing and integrating building technologies together in sustainable design strategies. Topics include: integration of active environmental control and service systems into the design of larger scale buildings, the development of construction details for building shell and interiors, and the design and analysis of various long-span structural systems. Environmental modeling and simulation to develop the ability to integrate measurable outcomes of building performance.

**ARCH 445L: Building Science and Technology V Lab**

(0-2) Cr. 1. F.

*Prereq: ARCH 348, Arch 348L; concurrent enrollment in ARCH 445.*

Laboratory to accompany Arch 445 and must be taken concurrently.

Integrating building technologies into architectural designs through experiments and exercises in laboratory format.

**ARCH 451: Whole Building Energy Performance Modeling**

(Dual-listed with ARCH 551). (2-2) Cr. 3. S.

*Prereq: Undergraduate: ARCH 202, 346, 346L. Graduate: ARCH 544. Open to non-majors by permission of instructor.*

Architectural design, design evaluation and technical analysis using energy, daylighting, and natural ventilation performance modeling tools. Emphasis will be given to whole building energy efficiency including passive and active systems integration.

**ARCH 482: Professional Practice**

(Dual-listed with ARCH 582). (3-0) Cr. 3. F.

*Prereq: Junior classification and ARCH 371*

Emphasis on the circumstances and opportunities of the professional practice of architecture: practice as profession, process, organization, business, and evolving models of practice.

**ARCH 486: Urban Design Explorations**

(3-0) Cr. 3. S.

An investigation of urban design realities in its contemporary form as part of International study abroad program in Rome. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 490: Independent Study**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490A: Independent Study: Design Communications.**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490B: Independent Study: Design**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490C: Independent Study: Building Science and Technology**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490D: Independent Study: Architectural History**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490E: Independent Study: Behavioral Studies**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490F: Independent Study: Practice**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**ARCH 490H: Independent Study: Honors**

Cr. 1-9. Repeatable.

*Prereq: Written approval of instructor and department chair on required form*  
Independent investigation.

**Courses primarily for graduate students, open to qualified undergraduates:**

**ARCH 505: Architectural Design and Media I: Mapping, Programming, Building**

(0-12) Cr. 6. F.

*Prereq: Admission to the M Arch program. Concurrent enrollment in ARCH 545, ARCH 545L and ARCH 595.*

An introduction to comprehensive architectural design projects that focuses on three interrelated design skills: mapping, programming and building. Projects establish a framework for designing buildings that considers multiple factors such as environmental forces, construction methods, building codes, urban regulations, social relationships, and cultural values.

**ARCH 506: Architectural Design and Media II: Materiality and Representation**

(0-12) Cr. 6. S.

*Prereq: ARCH 505, ARCH 545, ARCH 545L, ARCH 595 and concurrent enrollment in ARCH 546, ARCH 546L, and ARCH 596*

Small-scale architectural design projects that investigate design representation through analogue and digital means. The projects explore different representation strategies to help students develop an understanding of the particular modes of architectural representation that advance the designer's knowledge of space as a complex interaction between materials with inherent physical characteristics, mobile socializing bodies, and changing environmental cycles.

**ARCH 507: Architectural Design and Media III: Design in Detail**

(0-10) Cr. 5. SS.

*Prereq: ARCH 506, ARCH 546, ARCH 546L, ARCH 596 and concurrent enrollment in ARCH 581*

Design projects that emphasize the multi-faceted role of the architectural detail in the design process through first, understanding the historical specificity of building construction and detailing; second, utilizing working drawing as a mode of communication; and third, designing with details.

**ARCH 516: Exhibiting Architecture**

(3-0) Cr. 3.

*Prereq: Senior or Graduate classification.*

History and theory of architectural exhibitions from the 19th century until today. Weekly readings with in-class discussions and a small curatorial project. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 517: Big and Tall: A History of Construction**

(Dual-listed with ARCH 417). (3-0) Cr. 3. Repeatable, maximum of 6 credits.

*Prereq: ARCH 417: Junior or Senior Classification, ARCH 517: Graduate classification*

History, theory, and principles of construction from ancient times through today. Analytic project or term paper and weekly readings with discussion questions. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 518: Balkans to Baltics: Architecture and Innovation in Europe's Middle**

(3-0) Cr. 3.

*Prereq: Senior or Graduate classification.*

History and theory of 20th century architecture in East- Central Europe. Analytic project or term paper and weekly readings with in-class discussion. Credit counts toward fulfillment of History, Theory, Culture requirements.

**ARCH 521: Celluloid Cities, Urbanism in Film**

(3-0) Cr. 3.

*Prereq: Junior classification*

Urban theory and history as manifested in popular films and videos, both fiction and documentary. Term projects require students to make short videos. (Experience with video-making not necessary.) Credits counts towards fulfillment of History, Theory, Culture requirement.

**ARCH 522: Complex Adaptive Systems Theory for the Design of Built Environments**

(3-0) Cr. 3.

*Prereq: Graduate or Senior Classification*
