Coursework in university mathematics including calculus, abstract algebra, discrete mathematics, geometry, and other topics as it relates to teaching mathematics in grades 5-12. (Typically Offered: Spring)

MATH 3980: Cooperative Education

Credits: Required. Repeatable, maximum of 2 times.

Prereq: Permission of Department Cooperative Education Coordinator; Junior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period. (Typically Offered: Fall, Spring, Summer)

MATH 4030: Intermediate Abstract Algebra

(Dual-listed with MATH 5030).

Credits: 3. Contact Hours: Lecture 3.

Prereq: C or better in MATH 3010

Properties of groups and rings, subgroups, ideals, and quotients, homomorphisms, structure theory for finite groups. PIDs, UFDs, and Euclidean Domains. Field extensions and finite fields. Selected applications. (Typically Offered: Spring)

MATH 4070: Applied Linear Algebra

(Dual-listed with MATH 5070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 3170 or (MATH 2070; MATH 2010)

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences, engineering, and other fields. (Typically Offered: Fall)

MATH 4140: Analysis I

Credits: 3. Contact Hours: Lecture 3.

Prereq: Minimum of C- in COMS 2300 or CPRE 3100 or MATH 2010

A rigorous development of calculus of functions of one real variable: real number properties and topology, limits, continuity, differentiation, integration, series. (Typically Offered: Fall, Spring, Summer)

MATH 4150: Analysis II

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 4140; MATH 2650; and MATH 3170 or MATH 4070

Sequences and series of functions of a real variable, uniform convergence, power series, metric spaces, calculus of functions of two or more real variables. (Typically Offered: Spring)

MATH 4210: Logic for Mathematics and Computer Science

(Cross-listed with COMS 4210).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 2300 or CPRE 3100 or MATH 2070 or MATH 3010 or MATH 3170

Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams, temporal logic and modal logic.

MATH 4220X: Mathematical Principles of Data Science

(Cross-listed with DS 4220X).

Credits: 3. Contact Hours: Lecture 3.

Mathematical foundations of algorithms in data science. Topics include Riemann-Stieltjes integration, Riesz-Markov theorem, Stone-Weierstrass theorem, Universal Approximation theorem, reproducing kernel Hilbert spaces, Cauchy and Fourier kernels, convergence of clustering algorithms, and topological persistence. (Typically Offered: Spring)

MATH 4230: Mathematical Modeling in Biology

(Cross-listed with BCBIO 4230).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2660 or MATH 2670

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 2650 or equivalent recommended. (Typically Offered: Fall)

MATH 4240: Introduction to High Performance Computing

(Cross-listed with COMS 4240/ CPRE 4240).

Credits: 3.

Prereq: (MATH 2650; [MATH 2070 OR MATH 3170]) or permission of instructor

Unix, serial programming of scientific applications, OpenMP for shared-memory parallelization. No Unix, Fortran or C experience required. (Typically Offered: Fall)

MATH 4350: Geometry I

Credits: 3. Contact Hours: Lecture 3.

Prereq: (COMS 2300 or CPRE 3100 or MATH 2010); (MATH 2070 or MATH 3170)

Euclidean geometry of triangles, circles, and parallelograms, studied from several points of view, chosen from: synthetic, analytic, axiomatic, transformational, complex numbers, or vector methods. Possible and impossible constructions with compass and straightedge. (Typically Offered: Fall)

MATH 4360: Geometry II

Credits: 3. Contact Hours: Lecture 3.

Prereq: (COMS 2300 or CPRE 3100 or MATH 2010); (MATH 2070 or MATH 3170)

Foundations of Euclidean geometry and the axiomatic method, including the use of models. The history, logical consistency, and basic theorems of non-Euclidean geometries, such as hyperbolic, elliptic, and projective geometry. (Typically Offered: Spring)

MATH 4410: Life Contingencies I

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2400, credit or coenrollment in MATH 2650

Topics in life insurance for the Actuarial Sciences I: single life annuities, benefits premiums and reserves. (Typically Offered: Fall)

MATH 4420: Life Contingencies II

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 4410

Topics in life insurance for the Actuarial Sciences II: multiple life functions, multiple decrement models, pension plan valuation, insurance models, applications. (Typically Offered: Spring)

MATH 4690: Introduction to Discrete Mathematics

(Dual-listed with MATH 5690).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2070 or MATH 3170; and MATH 3040 or MATH 3140

Combinatorial counting, double-counting, generating functions, graph structure, planar graphs, probabilistic proofs, points in general positions, polytopes, Farkas lemma, linear programming and duality. (Typically Offered: Spring)

MATH 4810: Numerical Methods for Differential Equations

(Cross-listed with COMS 4810).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2650 and one of MATH 2660, MATH 2670

First order Euler method, high order Runge-Kutta methods, and multistep methods for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method. Computer programming required. (Typically Offered: Spring)

MATH 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Instructor Permission for Course

Graduation Restriction: No more than 9 credits of MATH 4900 or MATH 4900H may be counted toward graduation.

MATH 4900H: Independent Study: Honors

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Instructor Permission for Course

Graduation Restriction: No more than 9 credits of MATH 4900 or MATH 4900H may be counted toward graduation.

MATH 4910: Undergraduate Thesis

Credits: 2-3.

Writing and presenting a formal mathematics paper. Upon approval by the department, the paper will satisfy the departmental advanced English requirement.

MATH 4920: Undergraduate Seminar

Credits: 2. Contact Hours: Lecture 2.

Prereq: MATH 3170 or MATH 4070

Introduction to independent mathematical thought, with emphasis on oral communication of an advanced topic. Seminar content varies. (Typically Offered: Fall, Spring)

MATH 4950: Special Topics

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable, maximum of 9 credits.

Prereq: Instructor Permission for Course

Topics of current interest.

MATH 4970: Teaching Secondary School Mathematics

(Cross-listed with EDUC 4970).

Credits: 3. Contact Hours: Lecture 3.

Develop an understanding of instructional planning, lesson implementation, and assessment in grades 5-12 mathematics, with a focus on reform-based mathematics, equity, and conceptual understanding. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

MATH 5010: Introduction to Real Analysis

Credits: 3. Contact Hours: Lecture 3.

A development of the real numbers. Study of metric spaces, completeness, compactness, sequences, and continuity of functions.

Differentiation and integration of real-valued functions, sequences of functions, limits and convergence, equicontinuity. (Typically Offered: Fall)

MATH 5020: Topology

Credits: 3. Contact Hours: Lecture 3.

Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces. Topics in algebraic topology. (Typically Offered: Spring)

MATH 5030: Intermediate Abstract Algebra

(Dual-listed with MATH 4030).

Credits: 3. Contact Hours: Lecture 3.

Properties of groups and rings, subgroups, ideals, and quotients, homomorphisms, structure theory for finite groups. PIDs, UFDs, and Euclidean Domains. Field extensions and finite fields. Selected applications. (Typically Offered: Spring)

MATH 5040: Abstract Algebra I

Credits: 3. Contact Hours: Lecture 3.

Algebraic systems and their morphisms, with emphasis on groups and rings. (Typically Offered: Fall)

MATH 5050: Abstract Algebra II

Credits: 3. Contact Hours: Lecture 3.

Continuation of MATH 5040. Algebraic systems and their morphisms, with emphasis on modules and fields. (Typically Offered: Spring)

MATH 5070: Applied Linear Algebra

(Dual-listed with MATH 4070).

Credits: 3. Contact Hours: Lecture 3.

Advanced topics in applied linear algebra including eigenvalues, eigenvalue localization, singular value decomposition, symmetric and Hermitian matrices, nonnegative and stochastic matrices, matrix norms, canonical forms, matrix functions. Applications to mathematical and physical sciences, engineering, and other fields. (Typically Offered: Fall)

MATH 5100: Linear Algebra

Credits: 3. Contact Hours: Lecture 3.

Advanced topics in linear algebra including canonical forms; unitary, normal, Hermitian and positive-definite matrices; variational characterizations of eigenvalues. (Typically Offered: Spring)

MATH 5110: Functions of a Single Complex Variable

Credits: 3. Contact Hours: Lecture 3.

Theory of analytic functions, integration, topology of the extended complex plane, singularities and residue theory, maximum principle, conformal mapping, meromorphic functions, argument principle. (Typically Offered: Spring)

MATH 5150: Real Analysis I

Credits: 3. Contact Hours: Lecture 3.

Lebesgue measure and Lebesgue integral, one variable differentiation theory, Fubini and Tonelli theorems in $\mathbb{R}^n$, L_p spaces. (Typically Offered: Fall)

MATH 5160: Real Analysis II

Credits: 3. Contact Hours: Lecture 3.

Metric spaces, topological spaces, compactness, abstract theory of measure and integral, differentiation of measures, Banach spaces. (Typically Offered: Spring)

MATH 5170: Finite Difference Methods

Credits: 3. Contact Hours: Lecture 3.

Finite difference methods for partial differential equations. Methods for elliptic equations; explicit and implicit methods for parabolic and hyperbolic equations; stability, accuracy, and convergence theory, including von Neumann analysis, modified equations, and the Courant-Friedrichs-Lewy condition. (Typically Offered: Spring)

MATH 5180: Mathematical Modeling and Differential Equations

Credits: 3. Contact Hours: Lecture 3.

Basic theory of ordinary differential equations, existence and uniqueness theorems, linear systems, linearization and stability, mathematical models in biology and physics, modeling with ordinary and partial differential equations, dynamical systems techniques. (Typically Offered: Spring)

MATH 5190: Methods of Applied Mathematics I

Credits: 3. Contact Hours: Lecture 3.

Techniques of classical and functional analysis with applications to differential equations and integral equations. Vector spaces, metric spaces, Hilbert and Banach spaces, Sobolev spaces and other function spaces, contraction mapping theorem, distributions, Fourier series and Fourier transform. (Typically Offered: Fall)

MATH 5200: Methods of Applied Mathematics II

Credits: 3. Contact Hours: Lecture 3.

Continuation of MATH 5190. Linear operators, spectral theory of differential and integral operators, Green's functions and boundary value problems, weak solutions of partial differential equations and variational methods, calculus in Banach spaces and applications. (Typically Offered: Spring)

MATH 5220X: Mathematical Principles of Data Science

Credits: 3. Contact Hours: Lecture 3.

Mathematical foundations of algorithms in data science. Topics include Riemann-Stieltjes integration, Riesz-Markov theorem, Stone-Weierstrass theorem, Universal Approximation theorem, reproducing kernel Hilbert spaces, Cauchy and Fourier kernels, convergence of clustering algorithms, and topological persistence. (Typically Offered: Spring)

MATH 5230: Mathematical Modeling in Biology

(Cross-listed with BCB 5230/ BCBIO 5230).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2660 or MATH 2670 or Graduate Classification

Introduction to mathematical techniques for modeling and simulation, parameter identification, and analysis of biological systems. Applications drawn from many branches of biology and medicine. Apply differential equations, difference equations, and dynamical systems theory to a wide array of biological problems. MATH 2650 or equivalent recommended. (Typically Offered: Fall)

MATH 5250: Numerical Analysis of High Performance Computing

(Cross-listed with COMS 5250/ CPRE 5250).

Credits: 3. Contact Hours: Lecture 3.

Introduction to parallelization techniques and numerical methods for distributed memory high performance computers. A semester project in an area related to each student's research interests is required. (Typically Offered: Spring)

MATH 5330: Cryptography

(Cross-listed with CYBSC 5330/ CPRE 5330).

Credits: 3. Contact Hours: Lecture 3.

Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields. (Typically Offered: Spring)

MATH 5350: Steganography and Digital Image Forensics

(Cross-listed with CPRE 5350/ CYBSC 5350).

Credits: 3. Contact Hours: Lecture 3.

Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition. (Typically Offered: Spring)

MATH 5540: Stochastic Process Models

(Cross-listed with STAT 5540).

Credits: 3. Contact Hours: Lecture 3.

Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion. (Typically Offered: Fall)

MATH 5570: Ordinary Differential Equations and Dynamical Systems

Credits: 3. Contact Hours: Lecture 3.

The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, dynamical systems, bifurcations, and chaotic behavior. Offered irregularly. (Typically Offered: Fall)

MATH 5610: Numerical Analysis I

Credits: 3. Contact Hours: Lecture 3.

Approximation theory, including polynomial interpolation, spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations. (Typically Offered: Fall)

MATH 5620: Numerical Analysis II

Credits: 3. Contact Hours: Lecture 3.

Numerical linear algebra including LU factorization, QR factorization, linear least squares, singular value decomposition, eigenvalue problems, and iterative methods for large linear systems. (Typically Offered: Spring)

MATH 5650: Continuous Optimization

Credits: 3. Contact Hours: Lecture 3.

Theory and methods for constrained and unconstrained optimization. Steepest-descent, conjugate gradient, Newton and quasi-Newton, line search and trust-region, first and second order necessary and sufficient conditions, linear, quadratic and general nonlinear programming. (Typically Offered: Spring)

MATH 5660: Discrete Optimization

Credits: 3. Contact Hours: Lecture 3.

Algorithms for linear programming, integer and combinatorial optimization. Linear programming, duality theory, simplex algorithm; the solution of the shortest-path, minimum spanning tree, max-flow/min-cut, minimum cost flow, maximum matching, and traveling salesman problems; integer linear programming, branch-and-bound, local and global search algorithms; matroids and greedy algorithms. (Typically Offered: Fall)

MATH 5670: Graph Theory

Credits: 3. Contact Hours: Lecture 3.

Structural theory of graphs. Topics include basic structures (trees, paths, cycles and matchings), networks, colorings, connectivity, topological graph theory, Ramsey and Turan theory, spectral graph theory, introduction to probabilistic methods. (Typically Offered: Fall)

MATH 5680: Enumerative Combinatorics and Ordered Sets

Credits: 3. Contact Hours: Lecture 3.

Enumeration methods. Generating functions and sieve methods. Partially ordered sets, lattices, and Moebius inversion. Extremal set theory. (Typically Offered: Spring)

MATH 5690: Introduction to Discrete Mathematics

(Dual-listed with MATH 4690).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MATH 2070 or MATH 3170) and (MATH 3040 or MATH 3140) or Graduate Classification

Combinatorial counting, double-counting, generating functions, graph structure, planar graphs, probabilistic proofs, points in general positions, polytopes, Farkas lemma, linear programming and duality. (Typically Offered: Spring)

MATH 5770: Linear Systems

(Cross-listed with AERE 5770/ ME 5770/ EE 5770).

Credits: 3. Contact Hours: Lecture 3.

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems. (Typically Offered: Fall)

MATH 5780: Nonlinear Systems

(Cross-listed with AERE 5780/ ME 5780/ EE 5780).

Credits: 3. Contact Hours: Lecture 3.

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques. (Typically Offered: Spring)

MATH 5810: Numerical Methods for Differential Equations

Credits: 3. Contact Hours: Lecture 3.

First order Euler method, high order Runge-Kutta methods, and multistep methods for solving ordinary differential equations. Finite difference and finite element methods for solving partial differential equations. Local truncation error, stability, and convergence for finite difference method. Numerical solution space, polynomial approximation, and error estimate for finite element method. Computer programming required. (Typically Offered: Spring)

MATH 5900: Independent Study

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

MATH 5910: Orientation for Mathematics Graduate Students I

Credits: 0.5. Contact Hours: Lecture 0.5.

Fall semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

MATH 5920: Orientation for Mathematics Graduate Students II

Credits: 0.5. Contact Hours: Lecture 0.5.

Spring semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

MATH 5950: Special Topics

Credits: 1-30. Repeatable.

MATH 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Courses for graduate students:

MATH 6010: Mathematical Logic

Credits: 3. Contact Hours: Lecture 3.

Model theory of propositional and predicate logic, the Soundness Theorem, the Compactness Theorem, the Goedel-Henkin Completeness Theorem, the Incompleteness Theorem, computability theory. As time permits: modal and temporal logic, set theory (the continuum hypothesis). Emphasis on the relationship between 'provable' and 'true' and the relationship between 'computable' and 'definable'. Offered odd-numbered years. (Typically Offered: Fall)

MATH 6030: Mathematical Logic II

Credits: 3. Contact Hours: Lecture 3.

Topics in model theory, computability theory, and set theory such as infinitary logic, non-standard models of arithmetic, ultraproducts, and independence results. Offered even-numbered years. (Typically Offered: Spring)

MATH 6050: Design Theory and Association Schemes

Credits: 3. Contact Hours: Lecture 3.

Combinatorial designs and algebraic codes. Construction methods including finite fields. Error-correcting codes. Adjacency matrices and algebraic combinatorics. Offered odd-numbered years. (Typically Offered: Spring)

MATH 6080: Extremal Graph Theory

Credits: 3. Contact Hours: Lecture 3.

Study of extremal graph problems and methods. Topics include probabilistic methods, generalizations of Turan's theorem, Szemerédi's regularity lemma, random graph theory. Offered even-numbered years. (Typically Offered: Spring)

MATH 6100: Seminar

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

MATH 6170: Category Theory

Credits: 3. Contact Hours: Lecture 3.

Categories and functors and their applications. Offered even-numbered years. (Typically Offered: Fall)

MATH 6180: Representation Theory

Credits: 3. Contact Hours: Lecture 3.

Representations of algebraic structures. Content varies by semester. Offered odd-numbered years. (Typically Offered: Spring)

MATH 6190: Commutative Algebra

Credits: 3. Contact Hours: Lecture 3.

Detailed study of commutative rings with applications to number theory and algebraic geometry, including prime ideals, Going Up and Going Down theorems, exact sequences, Ext and Tor, modules of fractions, primary decomposition, rings of integers, dimension theory. Offered odd-numbered years. (Typically Offered: Fall)

MATH 6200: Lie Algebras and Their Representations

Credits: 3. Contact Hours: Lecture 3.

Nilpotent and solvable Lie algebras. Root systems and the classification of finite-dimensional complex semi-simple Lie algebras. The universal enveloping algebra. Representation theory including Weyl's theorem, Verma modules, highest weight theory. Offered even-numbered years. (Typically Offered: Fall)

MATH 6240: Manifolds, Tensors and Differential Geometry

Credits: 3. Contact Hours: Lecture 3.

Topics selected from: Geometry of curves and surfaces. Manifolds, coordinate systems. Tangent and cotangent vectors, vector fields. Tensors, differential forms, Riemannian metrics. Connections, covariant differentiation, curvature tensors. Applications to physics and engineering. Offered odd-numbered years. (Typically Offered: Spring)

MATH 6310: Harmonic Analysis

Credits: 3. Contact Hours: Lecture 3.

Fourier Series on an interval, approximate identities and summation, Gibb's phenomenon, Fourier transform on the line, uncertainty principle. Additional topics may include distributions, Hardy-Littlewood maximal function, boundedness of singular integral operators, arithmetic combinatorics, wavelet theory. Offered even-numbered years. (Typically Offered: Fall)

MATH 6330: Functional Analysis

Credits: 3. Contact Hours: Lecture 3.

Fundamental theory of normed linear spaces and algebras, such as topology and continuity, duality and spectral theory, emphasizing aspects that provide a framework for the study of the spectrum of an operator, analytic function theory, and modern operator theory. Offered odd-numbered years. (Typically Offered: Fall)

MATH 6410: Foundations of Probability Theory

(Cross-listed with STAT 6410).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 4140 or MATH 5010 or Graduate Classification

Sequences and set theory; Lebesgue measure, measurable functions. Absolute continuity of functions, integrability and the fundamental theorem of Lebesgue integration. General measure spaces, probability measure, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces. Measurable transformations and random variables, induced measures and probability distributions. General integration and expectation, L_p -spaces and integral inequalities. Uniform integrability and absolute continuity of measures. Probability densities and the Radon-Nikodym theorem. Product spaces and Fubini-Tonelli theorems. (Typically Offered: Fall)

MATH 6420: Advanced Probability Theory

(Cross-listed with STAT 6420).

Credits: 3. Contact Hours: Lecture 3.

Probability spaces and random variables. Kolmogorov's consistency theorem. Independence, Borel-Cantelli lemmas and Kolmogorov's 0 - 1 Law. Types and characterizations of convergence for random variables. Sums of independent random variables, empirical distributions, weak and strong laws of large numbers. Convergence in distribution and its formulations, tightness, characteristic functions, central limit theorems and Lindeberg-Feller conditions. Conditional probability and expectation, discrete parameter martingales. (Typically Offered: Spring)

MATH 6450: Advanced Stochastic Processes

(Cross-listed with STAT 6450).

Credits: 3. Contact Hours: Lecture 3.

Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications. (Typically Offered: Spring)

MATH 6460: Mathematical Modeling of Complex Physical Systems

(Cross-listed with PHYS 6460).

Credits: 3. Contact Hours: Lecture 3.

Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation. (Typically Offered: Spring)

MATH 6550: Partial Differential Equations I

Credits: 3. Contact Hours: Lecture 3.

Study of model problems of elliptic, parabolic and hyperbolic types, first order equations, conservation laws, transform methods, introduction to linear partial differential equations of arbitrary order, fundamental solutions. (Typically Offered: Fall)

MATH 6560: Partial Differential Equations II

Credits: 3. Contact Hours: Lecture 3.

Sobolev spaces, general theory of second order linear elliptic, parabolic and hyperbolic partial differential equations, first order linear hyperbolic systems, variational methods, fixed point methods. (Typically Offered: Spring)

MATH 6660: Finite Element Methods

Credits: 3. Contact Hours: Lecture 3.

Weak and variational formulations of elliptic problems; weak derivatives and Sobolev spaces; Lax-Milgram theorem, Bramble-Hilbert lemma; examples of finite element spaces; polynomial approximation theory; error estimates for finite element methods; implementation issues; mixed finite element methods for Stokes problems; applications. Offered even-numbered years. (Typically Offered: Fall)

MATH 6670: Computational Methods for Hyperbolic Partial Differential Equations (PDE)

Credits: 3. Contact Hours: Lecture 3.

Mathematical theory of weak/entropy solutions of nonlinear hyperbolic conservation laws; shock speed and Riemann problems; numerical methods for scalar equations and systems including Euler equations; conservative methods; approximate Riemann solvers; total variation stability; DG method. Offered odd-numbered years. (Typically Offered: Fall)

MATH 6800A: Advanced Topics: Algebra

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800B: Advanced Topics: Analysis

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800C: Advanced Topics: Applied Mathematics

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800D: Advanced Topics: Combinatorics

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800E: Advanced Topics: Differential Equations

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800F: Advanced Topics: Linear Algebra

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800G: Advanced Topics: Logic and Foundations

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800H: Advanced Topics: Number Theory

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800I: Advanced Topics: Numerical Analysis

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800J: Advanced Topics: Optimization

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800K: Advanced Topics: Probability

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6800L: Advanced Topics: Topology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

MATH 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Mechanical Engineering (ME)

Courses primarily for undergraduates:

ME 1600: Mechanical Engineering Problem Solving with Computer Applications

Credits: 3.

Prereq: ME majors only. MATH 1430 or MATH 1450; credit or enrollment in MATH 1650.

Introduction to the field of Mechanical Engineering through problem-solving in a range of topics including statics, mechanics of materials and thermo-fluids. Techniques to professionally present and communicate solutions. Use of MATLAB computer programming to aid problem solving, including curve fitting and graphing. Graduation Restriction: Only one of ENGR 1600, ABE 1600, AERE 1600, CE 1600, CHE 1600, CPRE 1850, EE 1850, IE 1480, ME 1600, and SE 1850 may count toward graduation. (Typically Offered: Fall, Spring)

ME 1700: Engineering Graphics and Introductory Design

Credits: 3.

Prereq: Credit or concurrent enrollment in MATH 1430 or MATH 1450 (or satisfactory scores on mathematics placement assessments)

Integration of fundamental graphics, computer modeling, and engineering design. Applications of multiview drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports. Freehand and computer methods. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. (Typically Offered: Fall, Spring)

ME 1900: Learning Communities

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Enrollment in ME learning communities. (Typically Offered: Fall, Spring)

ME 2020: Mechanical Engineering - Professional Planning

Credits: Required. Contact Hours: Lecture 1.

Prereq: Credit or Enrollment in ME 2310

Preparation for a career in mechanical engineering; discussion of opportunities for leadership, undergraduate research, experiential learning. (Typically Offered: Fall, Spring)

ME 2200: Globalization and Sustainability

(Cross-listed with ANTHR 2200/ ENV5 2200/ GLOBE 2200/ SOC 2200/ MATE 2200).

Credits: 3. Contact Hours: Lecture 3.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Graduation Restriction: Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

ME 2310: Engineering Thermodynamics I

Credits: 3. Contact Hours: Lecture 3.

Prereq: CHEM 1670; MATH 1660 or MATH 1660H; PHYS 2310 or PHYS 2310H; PHYS 2310L

Fundamental concepts based on zeroth, first and second laws of thermodynamics. Properties and processes for ideal gases and solid-liquid-vapor phases of pure substances. Applications to vapor power cycles. (Typically Offered: Fall, Spring, Summer)

ME 2700: Introduction to Mechanical Engineering Design

Credits: 3.

Prereq: ME 1600 or (ABE 1600, AERE 1600, BME 1600, CE 1600, CHE 1600, CPRE 1850, EE 1850, ENGR 1600, IE 1480, or SE 1850); ME 1700; PHYS 2310; PHYS 2310L

Overview of mechanical engineering design with applications to thermal and mechanical systems. Introduction to current design practices used in industry. Semester-long team project focused on addressing societal needs. Past projects include designing human powered charging systems and products for developing nations. (Typically Offered: Fall, Spring)

ME 2800X: Design and Analysis of Cyber-Physical Systems

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGR 1600 or equivalent; PHYS 2210

Introduction to the basic concepts of cyber-physical systems (CPS); physical and cyber considerations and constraints for design, analysis, performance monitoring and control of human-engineered physical systems; basic concepts of sensing, information processing and feedback actuation. Substantial hands-on computer programming activity relevant to CPS applications. (Typically Offered: Fall)

ME 3240: Manufacturing Engineering

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 2700 OR [ABE 2180 AND PHYS 2310 AND PHYS 2310L]; EM 3240; MATE 2730; ME 3240L

Fundamentals of manufacturing processes including forming, machining, casting and welding with emphasis on design considerations in manufacturing. Mechanical behavior of metallic materials. Modern manufacturing practices. (Typically Offered: Fall, Spring, Summer)

ME 3240L: Manufacturing Engineering Laboratory

Credits: 1. Contact Hours: Laboratory 2.

Prereq: ENGL 2500; MATE 2730; ME 2700

Laboratory exercises in metrology, mechanical testing (tensile/compression and hardness tests), computer aided design (CAD), machining operations, metal welding, metal casting, and bulk/sheet metal forming. (Typically Offered: Fall, Spring)

ME 3250: Mechanical Component Design

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 1700, EM 3240, and STAT 3050

Philosophy of design and design methodology. Consideration of stresses and failure models useful for static and fatigue loading. Analysis, selection and synthesis of machine elements. (Typically Offered: Fall, Spring)

ME 3320: Engineering Thermodynamics II

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 2310

Gas power cycles. Fundamentals of gas mixtures, psychrometry, and thermochemistry. Applications to one-dimensional compressible flow, refrigeration, air conditioning and combustion processes. (Typically Offered: Fall, Spring, Summer)

ME 3350: Fluid Flow

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: MATH 2650; (MATH 2660 or MATH 2670); (credit or concurrent enrollment in ME 3320); ME 3450

Incompressible and compressible fluid flow fundamentals. Dimensional analysis and similitude. Internal and external flow applications. Lab experiments emphasizing concepts in thermodynamics and fluid flow. Written reports are required. (Typically Offered: Fall, Spring, Summer)

ME 3450: Engineering Dynamics

Credits: 3. Contact Hours: Lecture 3.

Prereq: CE 2740 and Credit or concurrent enrollment in MATH 2660 or MATH 2670

Particle and rigid body kinematics, Newton's laws of motion, kinetics of plane motion, rigid body problems using work-energy, linear, and angular impulse-momentum principles, vibrations. (Typically Offered: Fall, Spring)

ME 3700: Engineering Measurements

Credits: 3. Contact Hours: Laboratory 2, Lecture 2.

Prereq: EE 4420 and STAT 3050

Fundamentals of design, selection, and operation of components of measuring systems. Measurement processes, data acquisition systems, analysis of data, and propagation of measurement uncertainty. (Typically Offered: Fall, Spring)

ME 3730: Science and Practice of Brewing

(Cross-listed with FSHN 3730).

Credits: 3. Contact Hours: Lecture 1.5, Laboratory 4.5.

Introduction to brewing science and technology. Understanding the role of malts, hops, water, and yeast in production of ale and lager beers. Unit operations in brewing. Health, safety, and environmental sustainability in alcohol production and consumption. Weekly laboratory in practical aspects of beer production. (Typically Offered: Fall, Spring)

ME 4010: Human Centered Design, Pre-Departure Course.

Credits: 1. Contact Hours: Lecture 1.

A pre-departure course for ME 4020. Safety and health issues while on site; travel logistics; required travel documents and deadlines; cultural norms. Offered irregularly. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

ME 4020: Field Engineering: Human Centered Design Concepts.

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Prereq: ME 4010

Design methodology and field engineering principles for use in engineering problem solving in developing nations; application of principals will be on site. Awareness of culture, use of local artisans, crafts people and engineers will be emphasized for the purpose of ensuring sustainable and appropriate technology. Offered irregularly. Meets International Perspectives Requirement. (Typically Offered: Summer)

ME 4100: Mechanical Engineering Applications of Mechatronics

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: EE 4420, EE 4480 and Credit or concurrent enrollment in ME 4210

Fundamentals of sensor characterization, signal conditioning and motion control, coupled with concepts of embedded computer control. Digital and analog components used for interfacing with computer controlled systems. Mechanical system analysis combined with various control approaches. Focus on automation of hydraulic actuation processes. Laboratory experiences provide hands-on development of mechanical systems. Offered irregularly. (Typically Offered: Spring)

ME 4110: Automatic Controls

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: ME 3700 or (credit or concurrent enrollment in ME 4210)

Methods and principles of automatic control. Pneumatic, hydraulic, and electrical systems. Representative applications of automatic control systems. Mathematical analysis of control systems. (Typically Offered: Fall)

ME 4120: Ethical Responsibilities of a Practicing Engineer

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or enrollment in ME 3250

The study of ethics in engineering design and the engineering profession. A comprehensive look at when ethical decisions must be made and an approach to make them. The approach takes into account moral, legal, technical, experiential, and standards to aid in ethical decision making. Each area will be studied through lectures, debates, guest speakers, class discussion, and case studies. (Typically Offered: Fall)

ME 4130: Fluid Power Engineering

(Cross-listed with ABE 4130).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: ABE 2160 or ME 2700 and Credit or concurrent enrollment in EM 3780 or ME 3350

Fundamental fluid power principles, symbols and schematics. Hydraulic fluid properties. Function and performance of components such as connections and fittings, filtration, pumps, valves, actuators, hydrostatic transmissions. Hydraulic system dynamics. Modeling and simulation of circuits. Analysis and design of hydraulic systems. Hydrostatic transmission design. Hands-on construction of circuits, measurement of system variables, and electrohydraulic control. (Typically Offered: Fall)

ME 4150: Mechanical Systems Design

Credits: 3. Contact Hours: Laboratory 6.

Prereq: ME 3240, ME 3250

Mechanical Engineering Capstone Design course. Team approach to solving design problems involving mechanical systems. Teams will use current design practices they will encounter in industry. Document decisions concerning form and function, material specification, manufacturing methods, safety, cost, and conformance with codes and standards. Solution description includes oral and written reports. Projects often worked with industry sponsors. (Typically Offered: Fall, Spring)

ME 4160: Mechanism Design and Analysis

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3250

An introduction to the design and analysis of mechanisms and the use of prescribed design methodologies to identify design requirements and achieve desired motion profiles. Topics include fundamental mechanism kinematics; graphical and analytical mechanism synthesis methods; velocity and acceleration analysis; and the design of linkages, cams and gear trains. Significant amount of team-based problem solving and the development of physical and computational models to assist in the design process. (Typically Offered: Spring)

ME 4170: Advanced Machine Design

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3250, MATE 2730

Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit. (Typically Offered: Fall)

ME 4180: Mechanical Considerations in Robotics

Credits: 3. Contact Hours: Lecture 3, Laboratory 2.

Prereq: Credit or enrollment in ME 4210

Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots. (Typically Offered: Spring)

ME 4190: Computer-Aided Design

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3250

Theory and applications of computer-aided design. Computer graphics programming, solid modeling, assembly modeling, and finite element modeling. Mechanical simulation, process engineering, rapid prototyping and manufacturing integration. (Typically Offered: Fall, Spring)

ME 4210: System Dynamics and Control

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: EE 4420, EE 4480, ME 3450, and MATH 2670

Modeling and simulation of mechanical, electrical, fluid, and/or thermal systems. Development of equations of motion and dynamic response characteristics in time and frequency domains. Fundamentals of classical control applications, including mathematical analysis and design for closed loop control systems. Introduction to computer interfacing for simulation, data acquisition, and control. Laboratory exercises for hands-on system investigation and control implementation. (Typically Offered: Fall, Spring, Summer)

ME 4250: Optimization Methods for Complex Designs

(Cross-listed with HCI 4250).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2650; ME 1600

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques. (Typically Offered: Fall)

ME 4270: Vehicle Dynamics and Suspension Design

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3450

Analysis and evaluation of the performance of cars, trucks and other surface vehicles. Computer simulation of ride, braking, and directional response. Considerations in the design and fabrication of suspension systems. (Typically Offered: Spring)

ME 4330: Alternative Energy

Credits: 3. Contact Hours: Lecture 3.

Prereq: CHEM 1670; PHYS 2320 or PHYS 2320H; PHYS 2320L

Basic principles, performance, and cost analysis of alternative energy systems including biofuels, bioenergy, wind, solar, fuel cells, storage and other alternative energy systems. Performance analysis and operating principles of systems and components, and economic analysis for system design and operation will be taught. Emphasis is on alternative energy technologies needed to meet our future energy needs at various scales ranging from household to city to national levels. (Typically Offered: Fall)

ME 4360: Heat Transfer

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: ME 3350

Heat transfer by conduction, convection, and radiation. Similarity concepts in heat, mass, and momentum transfer. Methods for determination of heat transfer coefficients. Combined modes of heat transfer. Heat exchangers. Lab experiments emphasizing concepts in thermodynamics and heat transfer. Written reports are required. (Typically Offered: Fall, Spring, Summer)

ME 4370: Introduction to Combustion Engineering

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3250

Introduction to the fundamentals of combustion and the analysis of combustion systems for gaseous, liquid, and solid fuels-including biomass fuels. Combustion fundamentals are applied to the analysis of engines; turbines, biomass cookstoves; suspension, fixed-bed, and fluidized-bed furnaces; and other combustion devices. (Typically Offered: Spring)

ME 4410: Fundamentals of Heating, Ventilating, and Air Conditioning

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3250

Space conditioning and moist air processes. Application of thermodynamics, heat transfer, and fluid flow principles to the analysis of heating, ventilating, and air conditioning components and systems. Performance and specification of components and systems. (Typically Offered: Fall)

ME 4420: Heating and Air Conditioning Design

Credits: 3. Contact Hours: Lecture 1, Laboratory 5.

Prereq: (ME 4410; credit or concurrent enrollment in ME 4360) or Permission of Instructor

Design criteria and assessment of building environment and energy requirements. Design of heating, ventilating, and air conditioning systems. System control and economic analysis. Oral and written reports required. (Typically Offered: Spring)

ME 4440: Elements and Performance of Power Plants

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 3320, credit or enrollment in ME 3350

Basic principles, thermodynamics, engineering analysis of power plant systems. Topics include existing power plant technologies, the advanced energyplex systems of the future, societal impacts of power production, and environmental and regulatory concerns. (Typically Offered: Spring)

ME 4480: Fluid Dynamics of Turbomachinery

(Cross-listed with AERE 4480).

Credits: 3. Contact Hours: Lecture 3.

Prereq: AERE 3110 or ME 3350

Applications of principles of fluid mechanics and thermodynamics in performance analysis and design of turbomachines. Conceptual and preliminary design of axial and radial flow compressors and turbines using velocity triangles and through-flow approaches. (Typically Offered: Spring)

ME 4490: Internal Combustion Engines

Credits: 3. Contact Hours: Lecture 3, Laboratory 1.

Prereq: ME 3250

Basic principles, thermodynamics, combustion, and exhaust emissions of spark-ignition and compression-ignition engines. Laboratory determination of fuel properties and engine performance. Effects of engine components and operating conditions on performance. Written reports required. (Typically Offered: Fall)

ME 4510: Engineering Acoustics

(Cross-listed with EM 4510/ EE 4510).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 2660 or MATH 2670; PHYS 2310 and 2310L

The basics of acoustic wave propagation in fluids with an emphasis on sound propagation in air. Topics include transmission and reflection of sound at a boundary; role of acoustic sources in directing sound fields; diffraction of sound around solid objects; reverberation of sound in a room; and the measurement of sound fields. (Typically Offered: Fall)

ME 4560: Machine Vision

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: MATH 2070 or MATH 3170 or Permission of Instructor

Practical imaging processing techniques, geometric optics, and mathematics behind machine vision, as well as the most advanced 3D vision techniques. Experience with practical vision system development and analysis. Assignments include individual bi-weekly homework; weekly readings and lectures; and a semester-long research project on design and experiment vision systems. (Typically Offered: Fall)

ME 4750: Modeling and Simulation

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 4210, credit or enrollment in ME 4360

Introduction to computer solution techniques required to simulate flow, thermal, and mechanical systems. Methods of solving ordinary and partial differential equations and systems of algebraic equations; interpolation, numerical integration; finite difference and finite element methods. (Typically Offered: Spring)

ME 4840: Technology, Globalization and Culture

(Cross-listed with WLC 4840/ MKT 4840).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Junior or Senior Classification

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement. (Typically Offered: Fall)

ME 4900H: Independent Study: Honors

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

ME 4900N: Independent Study: Non Technical Elective

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Investigation of topics holding special interest of students and faculty. Election of course and topic must be approved in advance by supervising faculty.

ME 4900T: Independent Study: Technical Elective

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Investigation of topics holding special interest of students and faculty.

Election of course and topic must be approved in advance by supervising faculty.

ME 4910X: Laboratory Component

Credits: 0-99. Contact Hours: Laboratory 3.

Repeatable.

This course is designed specifically for transfer and study abroad students who need to make up a lab to fulfill course requirements.

Courses primarily for graduate students, open to qualified undergraduates:

ME 5010: Fundamentals of Biorenewable Resources

Credits: 3. Contact Hours: Lecture 3.

Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biofuels and biobased products; production of biorenewable resources; processing technologies for fuels, chemicals, materials, and energy; environmental impacts; technoeconomic analysis of production and processing; and biofuels policy. (Typically Offered: Spring)

ME 5020: Microfluidics and Nanofluidics: Theory, Design and Devices

Credits: 3. Contact Hours: Lecture 3.

Analysis of transport phenomena and its application to the field of microfluidics. Conservation equations of mass, momentum and energy are derived from first principles and applied to contemporary topics in microfluidics such as organs-on-a-chip, point-of-care and separation processes. The conservation equations are used to model hydrodynamics and random walk diffusion of multiphase microfluidic systems. Advanced microfluidic topics, such as interfacial transport involving capillary interactions, electrostatic forces, and chemical gradients are discussed in order to describe a variety of phenomena observed in microfluidic devices. Numerical models based on finite element modeling and molecular dynamic simulation techniques are discussed as one approach to designing microfluidic devices such as pumps, micromixers, actuators, and filters. Offered even-numbered years. (Typically Offered: Spring)

ME 5100: Economics and Policy of Engineered Energy Systems

Credits: 3. Contact Hours: Lecture 3.

Economics and policy for U.S. energy systems, with an emphasis on connections to engineering. Topics include: economic analysis of conventional energy commodity markets and technologies, deregulated electricity markets, and emerging energy technologies; demand forecasting; economic and environmental policy in energy; integrated assessment; and semester-specific contemporary issues. Graduation Restriction: Economics majors may not apply this course towards graduation. Offered even-numbered years. (Typically Offered: Fall)

ME 5110: Advanced Control Design

Credits: 3. Contact Hours: Lecture 3.

Application of control design methods using continuous, discrete, and frequency-based models. Approaches include classical, pole assignment, model reference, internal model, and adaptive control methods. Mechanical design projects. Offered odd-numbered years. (Typically Offered: Fall)

ME 5170: Advanced Machine Design

Credits: 3. Contact Hours: Lecture 3.

Stress life, strain life, and fracture mechanics approaches to fatigue life and design with metals, polymers and ceramics. Introduction to material selection in design of machine components. Thermal and structural considerations in design of machine components and hybrid materials. Course project and relevant literature review required for graduate credit. (Typically Offered: Fall)

ME 5180: Mechanical Considerations in Robotics

Credits: 3. Contact Hours: Lecture 3.

Three dimensional kinematics, dynamics, and control of robot manipulators, hardware elements and sensors. Laboratory experiments using industrial robots. (Typically Offered: Spring)

ME 5200: Material and Manufacturing Considerations in Design

Credits: 3. Contact Hours: Lecture 3.

Integration of materials, design and manufacturing. Materials selection. Design for assembly and manufacturing (DFMA). Design and redesign to facilitate cost-effective manufacturing using material selection and DFMA software. Offered irregularly. (Typically Offered: Fall)

ME 5210: Mechanical Behavior and Manufacturing of Polymers and Composites

(Cross-listed with MSE 5210).

Credits: 3. Contact Hours: Lecture 3.

Effect of chemical structure and morphology on properties. Linear viscoelasticity, damping and stress relaxation phenomena. Structure and mechanics of filler and fiber reinforced composites. Mechanical properties and failure mechanisms. Material selection and designing with polymers. Processing of polymer and composite parts. (Typically Offered: Spring)

ME 5250: Optimization Methods for Complex Designs

(Cross-listed with HCI 5250).

Credits: 3. Contact Hours: Lecture 3.

Optimization involves finding the 'best' according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques. (Typically Offered: Fall)

ME 5270: Mechanics of Machining and Finishing Processes

Credits: 3. Contact Hours: Lecture 3.

Mechanics of material removal for ductile materials. Shear zone theory. Oblique cutting. Heat transfer in machining. Milling and grinding. Mechanics of material removal for brittle materials. Optimal selection and design of cutting parameters. Control of machining processes. Principles of precision finishing. Design considerations for machining and finishing processes. Offered even-numbered years. (Typically Offered: Fall)

ME 5280: Micro/Nanomanufacturing

Credits: 3. Contact Hours: Lecture 3.

Concepts and applications of micro/nanotechnology appropriate to the manufacturing field. An overview of micro/nano-fabrication techniques including mechanical, EDM, laser and lithography. MEMS device fabrication. Scaling laws. Top down and bottom up approaches of nanomanufacturing. Experimental or theoretical project leading to potential submission of a manuscript for journal or conference. Offered odd-numbered years. (Typically Offered: Fall)

ME 5300: Advanced Thermodynamics

Credits: 3. Contact Hours: Lecture 3.

Extensive overview of biosensors including biological/biomedical microelectromechanical (Bio-MEMs) systems and bioanalytical devices with an introduction to fundamental principles, detection methods, and miniaturization techniques. Fundamental biosensor theory including biorecognition, transduction, signal acquisition, and post processing/ data analysis will be discussed. Distinct sensing modalities (e.g., electrochemical, optical, thermal and mass based), biorecognition agents (e.g., enzymes, antibodies, aptamers, whole cells/tissues, genetically engineered proteins) and advanced transduction materials (e.g., carbon nanotubes, graphene, quantum/carbon dots, and polymers/hydrogels) and their use in the context of specific applications (e.g., biomedical, environmental, food safety) will be reviewed in detail. Additionally, students will design a theoretical biosensor and present their design in a written proposal and oral presentation. Offered even-numbered years. (Typically Offered: Fall)

ME 5310: Advanced Energy Systems and Analysis

Credits: 3. Contact Hours: Lecture 3.

Introduction to energy systems including economic and thermodynamic principles. Various production systems will be analyzed. Application to transportation and building systems will be emphasized. Sustainability, climate change and other current energy system topics. (Typically Offered: Spring)

ME 5320: Compressible Fluid Flow

(Cross-listed with AERE 5320).

Credits: 3. Contact Hours: Lecture 3.

Thermodynamics of compressible flow. Viscous and inviscid compressible flow equations. One dimensional steady flow; isentropic flow, shocks, expansions. Multidimensional compressible flow aspects. Linear and nonlinear wave analysis and method of characteristics. Subsonic, transonic, supersonic and hypersonic flows. (Typically Offered: Spring)

ME 5340: Energetic Materials Combustion and Systems

Credits: 3. Contact Hours: Lecture 3.

Introduction to energetic materials (classes of energetics, their use, safety, analysis of multiphase deflagration/detonation reaction wave structures), their application (e.g. pyrotechnics, chemical propulsion systems, explosives), system performance analysis, common measurement techniques, and societal/environmental implications. Offered even-numbered years. (Typically Offered: Spring)

ME 5350: Thermochemical Processing of Biomass

Credits: 3. Contact Hours: Lecture 3.

Thermochemistry and transport theory applied to combustion. Gas phase equilibrium. Energy balances. Reaction kinetics. Flame temperatures, speed, ignition, and extinction. Premixed and diffusion flames. Combustion aerodynamics. Mechanisms of air pollution. Offered odd-numbered years. (Typically Offered: Fall)

ME 5360: Advanced Heat Transfer

Credits: 3. Contact Hours: Lecture 3.

Advanced treatment of heat transmission by conduction, convection, and radiation. (Typically Offered: Spring)

ME 5380: Advanced Fluid Flow

Credits: 3. Contact Hours: Lecture 3.

Detailed analysis of incompressible/compressible, viscous/inviscid, laminar/turbulent, and developing fluid flows on a particle/point control volume basis. (Typically Offered: Fall)

ME 5420: Advanced Combustion

Credits: 3. Contact Hours: Lecture 3.

Thermochemistry and transport theory applied to combustion. Gas phase equilibrium. Energy balances. Reaction kinetics. Flame temperatures, speed, ignition, and extinction. Premixed and diffusion flames. Combustion aerodynamics. Mechanisms of air pollution. Offered odd-numbered years. (Typically Offered: Spring)

ME 5430: Introduction to Random Vibrations and Nonlinear Dynamics

(Cross-listed with EM 5430).

Credits: 3. Contact Hours: Lecture 3.

Vibrations of continuous systems. Nonlinear vibration phenomena, perturbation expansions; methods of multiple time scales and slowly-varying amplitude and phase. Characteristics of random vibrations; random processes, probability distributions, spectral density and its significance, the normal or Gaussian random process. Transmission of random vibration, response of simple single and two-degree-of-freedom systems to stationary random excitation. Fatigue failure due to random excitation. Offered odd-numbered years. (Typically Offered: Spring)

ME 5450: Thermal Systems Design

Credits: 3. Contact Hours: Lecture 3.

Integrating thermodynamics, fluid mechanics, and heat transfer to model thermal equipment and to simulate thermal systems. Second law and parametric analysis; cost estimation, life cycle analysis and optimization. Some computer programming required. Offered odd-numbered years. (Typically Offered: Spring)

ME 5460: Computational Fluid Mechanics and Heat Transfer I

(Cross-listed with AERE 5460).

Credits: 3. Contact Hours: Lecture 3.

Basic concepts of discretization, consistency, and stability. Explicit and implicit methods for ordinary differential equations. Methods for each type of partial differential equation. Iterative solution methods; curvilinear grids. Students will program basic algorithms. (Typically Offered: Fall)

ME 5470: Computational Fluid Mechanics and Heat Transfer II

(Cross-listed with AERE 5470).

Credits: 3. Contact Hours: Lecture 3.

Application of computational methods to current problems in fluid mechanics and heat transfer. Methods for solving the Navier-Stokes and reduced equation sets such as the Euler, boundary layer, and parabolized forms of the conservation equations. Introduction to relevant aspects of grid generation and turbulence modeling. (Typically Offered: Spring)

ME 5480: Fundamentals of Laser and Optical Measurements in Thermofluid Systems

Credits: 3. Contact Hours: Lecture 3.

Fundamentals of lasers and optical techniques for application in measurements of thermo-fluid systems. Rigorous diffraction theory, theory of laser operation, and applications of theory to measurements using optics and lasers will be covered. The principles of measurement using linear scattering techniques (absorption, Rayleigh and Raman scattering) as well as nonlinear techniques (CARS and multiphoton absorption) will be discussed. Offered even-numbered years. (Typically Offered: Spring)

ME 5500: Advanced Biosensors: Fundamentals and Applications

Credits: 3. Contact Hours: Lecture 3.

Extensive overview of biosensors including biological/biomedical microelectromechanical (Bio-MEMs) systems and bioanalytical devices with an introduction to fundamental principles, detection methods, and miniaturization techniques. Fundamental biosensor theory including biorecognition, transduction, signal acquisition, and post processing/data analysis will be discussed. Distinct sensing modalities (e.g., electrochemical, optical, thermal and mass based), biorecognition agents (e.g., enzymes, antibodies, aptamers, whole cells/tissues, genetically engineered proteins) and advanced transduction materials (e.g., carbon nanotubes, graphene, quantum/carbon dots, and polymers/hydrogels) and their use in the context of specific applications (e.g., biomedical, environmental, food safety) will be reviewed in detail. Additionally, students will design a theoretical biosensor and present their design in a written proposal and oral presentation. Offered even-numbered years. (Typically Offered: Fall)

ME 5560: Machine Vision

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Practical imaging processing techniques, geometric optics, and mathematics behind machine vision, as well as the most advanced 3D vision techniques. Experience with practical vision system development and analysis. Assignments include individual bi-weekly homework; weekly readings and lectures; and a semester-long research project on design and experiment vision systems. Offered odd-numbered years. (Typically Offered: Fall)

ME 5570: Computer Graphics and Geometric Modeling

(Cross-listed with COMS 5570/ CPRE 5570).

Credits: 3. Contact Hours: Lecture 3.

Fundamentals of computer graphics technology. Data structures. Parametric curve and surface modeling. Solid model representations. Applications in engineering design, analysis, and manufacturing. Offered odd-numbered years. (Typically Offered: Fall)

ME 5610: Scanning Probe Microscopy

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Introduction to the scanning probe microscope (SPM, also known as atomic force microscope or AFM) and associated measurement techniques. Overview of instrumentation system, basic principles of operation, probe-sample interaction and various operational modes to obtain micro/nanoscale structure and force spectroscopy of material surfaces. Examples of SPM significance and applications in science and engineering research, nanotechnology and other industries. Laboratory work involving use of a scanning probe microscope system is an integral part of the course. (Typically Offered: Fall)

ME 5630: Micro and Nanoscale Mechanics

Credits: 3. Contact Hours: Lecture 3.

Review of Fundamentals: (Elasticity, Electromagnetism, Mechanical response), Mechanics of thermally, electrostatically and magnetically actuated microsystems, Mechanics and design of nanostructured materials, mechanics of surface stress engineering and its implications to sensors and thin film structures. Offered odd-numbered years. (Typically Offered: Spring)

ME 5640: Fracture and Fatigue

(Cross-listed with AERE 5640/ EM 5640/ MSE 5640).

Credits: 3. Contact Hours: Lecture 3.

Materials and mechanics approach to fracture and fatigue. Fracture mechanics, brittle and ductile fracture, fracture and fatigue characteristics, fracture of thin films and layered structures. Fracture and fatigue tests, mechanics and materials designed to avoid fracture or fatigue. Offered even-numbered years. (Typically Offered: Fall)

ME 5660: Phase Transformation in Elastic Materials

(Cross-listed with EM 5660).

Credits: 3. Contact Hours: Lecture 3.

Continuum thermodynamics and kinetics approaches to phase transformations. Phase field approach to stress- and temperature-induced martensitic transformations and twinning at the nanoscale. Nucleation and growth. Nanostructural evaluation. Analytical and numerical solutions. Surface stresses and energy. Surface-induced phase transformations. Large Strain formulation. (Typically Offered: Spring)

ME 5700: Solid Modeling and GPU Computing

Credits: 3. Contact Hours: Lecture 3.

Prereq: ME 1700 and ME 4190 or Permission of Instructor

Theory and applications of solid modeling and introduction to parallel computing using the graphic processing unit (GPU). Topics include solid modeling fundamentals, representations of solid geometry, introduction to parallel programming using CUDA, and applications of GPU algorithms. Design and analysis software include SolidWorks and programming using either C or Python, and NVIDIA CUDA. Offered even-numbered years. (Typically Offered: Fall)

ME 5730: Random Signal Analysis and Kalman Filtering

(Cross-listed with EE 5730/ AERE 5730).

Credits: 3. Contact Hours: Lecture 3.

Elementary notions of probability. Random processes. Autocorrelation and spectral functions. Estimation of spectrum from finite data. Response of linear systems to random inputs. Discrete and continuous Kalman filter theory and applications. Smoothing and prediction. Linearization of nonlinear dynamics. (Typically Offered: Fall)

ME 5740: Optimal Control

(Cross-listed with AERE 5740/ EE 5740).

Credits: 3. Contact Hours: Lecture 3.

The optimal control problem. Variational approach. Pontryagin's principle, Hamilton-Jacobi equation. Dynamic programming. Time-optimal, minimum fuel, minimum energy control systems. The regulator problem. Structures and properties of optimal controls. (Typically Offered: Spring)

ME 5750: Introduction to Robust Control

(Cross-listed with AERE 5750/ EE 5750).

Credits: 3. Contact Hours: Lecture 3.

Introduction to modern robust control. Model and signal uncertainty in control systems. Uncertainty description. Stability and performance robustness to uncertainty. Solutions to the H₂, H_∞, and L₁ control problems. Tools for robustness analysis and synthesis.

ME 5760: Digital Feedback Control Systems

(Cross-listed with AERE 5760/ EE 5760).

Credits: 3. Contact Hours: Lecture 3.

Sampled data, discrete data, and the z-transform. Design of digital control systems using transform methods: root locus, frequency response and direct design methods. Design using state-space methods. Controllability, observability, pole placement, state estimators. Digital filters in control systems. Microcomputer implementation of digital filters. Finite wordlength effects. Linear quadratic optimal control in digital control systems. Simulation of digital control systems. (Typically Offered: Fall)

ME 5770: Linear Systems

(Cross-listed with AERE 5770/ EE 5770/ MATH 5770).

Credits: 3. Contact Hours: Lecture 3.

Linear algebra review. Least square method and singular value decomposition. State space modeling of linear continuous-time systems. Solution of linear systems. Controllability and observability. Canonical description of linear equations. Stability of linear systems. State feedback and pole placements. Observer design for linear systems. (Typically Offered: Fall)

ME 5780: Nonlinear Systems

(Cross-listed with AERE 5780/ EE 5780/ MATH 5780).

Credits: 3. Contact Hours: Lecture 3.

Linear vs nonlinear systems. Phase plane analysis. Bifurcation and center manifold theory. Lyapunov stability. Absolute stability of feedback systems. Input-output stability. Passivity theory and feedback linearization. Nonlinear control design techniques. (Typically Offered: Spring)

ME 5800: Virtual Environments, Virtual Worlds, and Application

(Cross-listed with HCI 5800).

Credits: 3. Contact Hours: Lecture 3.

A systematic introduction to the underpinnings of Virtual Environments (VE), Virtual Worlds, advanced displays and immersive technologies; and an overview of some of the applications areas particularly virtual engineering. Offered even-numbered years. (Typically Offered: Spring)

ME 5840: Technology, Globalization and Culture

(Cross-listed with WLC 5840/ MKT 5840).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement. (Typically Offered: Fall)

ME 5850: Fundamentals of Predictive Plant Phenomics

(Cross-listed with BCB 5850/ GDCB 5850).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Principles of engineering, data analysis, and plant sciences and their interplay applied to predictive plant phenomics. Transport phenomena, sensor design, image analysis, graph models, network data analysis, fundamentals of genomics and phenomics. Multidisciplinary laboratory exercises. (Typically Offered: Fall)

ME 5900Q: Special Topics: Independent Literature Investigation

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

ME 5900T: Special Topics: Biological and Nanoscale Sciences

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

ME 5900U: Special Topics: Complex Fluid Systems

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

ME 5900V: Special Topics: Clean Energy Technologies

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

ME 5900W: Special Topics: Design and Manufacturing Innovation

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

ME 5900Z: Special Topics: Simulation and Visualization

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

ME 5910: Probabilistic Engineering Analysis and Design

Credits: 3. Contact Hours: Lecture 3.

Applications of probabilistic and statistical methods to engineering system design and post-design failure prognostics. Hands-on learning of various probabilistic and statistical design methods, such as design of experiments, surrogate modeling, uncertainty quantification, reliability-based design, and robust design. It also covers Bayesian estimation and machine learning methods for post-design failure prognostics. Offered even-numbered years. (Typically Offered: Spring)

ME 5920: Data Analytics and Machine Learning for Cyber-Physical Systems Applications

Credits: 3. Contact Hours: Lecture 3.

In this course, several data analytics techniques and Machine Learning algorithms will be explored with a strong focus on various applications to cyber-physical systems. The students will have hands-on experience with various analytics tools and data-driven decision-making techniques applied to a diverse set of spatial, temporal and spatiotemporal data emanating from real-life cyber-physical systems such as robots, energy & power systems, design & manufacturing systems, self-driving cars and agricultural systems. Among various machine learning techniques, special emphasis will be given on deep learning, reinforcement learning and probabilistic graphical models. A key highlight of this course is that the assignments and class projects will be designed for individual students or groups based on their specific applications or data sets of interest. (Typically Offered: Spring)

ME 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Courses for graduate students:

ME 6000: Seminar

Credits: Required. Repeatable.

Seminar.

ME 6250: Surface Modeling

Credits: 3. Contact Hours: Lecture 3.

Theory and implementation of contemporary parametric sculptured surface modeling technology. Non-uniform rational B-spline (NURBS) curves and surfaces. Fundamental computational algorithms. Construction techniques. Advanced modeling topics. Computer projects. Offered odd-numbered years. (Typically Offered: Fall)

ME 6320: Multiphase Flow

(Cross-listed with CHE 6320).

Credits: 3. Contact Hours: Lecture 3.

Single particle, multiparticle and two-phase fluid flow phenomena (gas-solid, liquid-solid and gas-liquid mixtures); particle interactions, transport phenomena, wall effects; bubbles, equations of multiphase flow. Dense phase (fluidized and packed beds) and ducted flows; momentum, heat and mass transfer. Computer solutions. Offered even-numbered years. (Typically Offered: Spring)

ME 6370: Convection Heat Transfer

Credits: 3. Contact Hours: Lecture 3.

Convection heat transfer to internal or external flows under laminar or turbulent conditions. Dimensionless parameters. Classical solutions of Newtonian viscous flows. Forced and free convection. Special topics. Offered irregularly. (Typically Offered: Fall)

ME 6380: Radiation Heat Transfer

Credits: 3. Contact Hours: Lecture 3.

Techniques for analysis of radiation in enclosures. Radiative properties of surfaces. Radiative transfer in participating media. Combined modes of transfer. Approximate methods of analysis. (Typically Offered: Fall)

ME 6470: Advanced Computational Fluid Dynamics

(Cross-listed with AERE 6470).

Credits: 3. Contact Hours: Lecture 3.

An examination of current methods in computational fluid dynamics. Differencing strategies. Advanced solution algorithms for unstructured meshes. Grid generation. Construction of higher-order CFD algorithms. Parallel computing. Current applications. Use of state of the art CFD codes. (Typically Offered: Spring)

ME 6900G: Advanced Topics: Advanced Machine Design

Credits: 1-30. Repeatable.

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

ME 6900O: Advanced Topics: Engineering Computation

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

ME 6900Q: Advanced Topics: Independent Literature Investigation

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of advanced topics of special interest to graduate students in mechanical engineering.

ME 6900T: Advanced Topics: Biological and Nanoscale Sciences

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of Special Topics: Biological and Nanoscale Sciences of special interest to graduate students in mechanical engineering. (Typically Offered: Fall, Spring, Summer)

ME 6900U: Advanced Topics: Complex Fluid Systems

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of Special Topics: Complex Fluid Systems of special interest to graduate students in mechanical engineering. (Typically Offered: Fall, Spring, Summer)

ME 6900V: Advanced Topics: Clean Energy Technologies

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of Special Topics: Clean Energy Technologies of special interest to graduate students in mechanical engineering. (Typically Offered: Fall, Spring, Summer)

ME 6900W: Advanced Topics: Design and Manufacturing Innovation

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of Design & Manufacturing Innovation of special interest to graduate students in mechanical engineering.

ME 6900Z: Advanced Topics: Simulation and Visualization

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Investigation of Special Topics: Simulation and Visualization of special interest to graduate students in mechanical engineering. (Typically Offered: Fall, Spring, Summer)

ME 6930: Entrepreneurship for Graduate Students in Science and Engineering

(Cross-listed with AGRON 6930/ BCB 6930/ ENGR 6930/ GENET 6930/ EE 6930).

Credits: 1. Contact Hours: Lecture 3.

Repeatable, maximum of 2 credits.

Understanding key topics of starting a technology based company, from development of technology-led idea to early-stage entrepreneurial business. Concepts discussed include: entrepreneurship basics, starting a business, funding your business, protecting your technology/ business IP. Subject matter experts and successful, technology-based entrepreneurs will provide real world examples from their experience with entrepreneurship. Learn about the world class entrepreneurship ecosystem at ISU and Central Iowa. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

ME 6970: Engineering Internship

Credits: Required. Repeatable.

Prereq: Instructor Permission for Course

One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.

ME 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Offered on a satisfactory-fail basis only.

Meteorology (MTEOR)

Courses primarily for undergraduates:**MTEOR 1070: Severe and Hazardous Weather**

Credits: 1. Contact Hours: Lecture 1.

Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property. (Typically Offered: Fall)

MTEOR 1110: Synoptic Applications

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Prereq: Credit or Enrollment in MATH 1650

Current weather discussions and introduction to synoptic-scale interpretation of meteorology. Application and use of calculus in meteorology. Course restricted to majors. Others with permission of instructor. (Typically Offered: Fall, Spring, Summer)

MTEOR 1120: Geoscience Orientation

(Cross-listed with GEOL 1120).

Credits: 1. Contact Hours: Lecture 1.

Orientation course for students enrolled in the Earth, Wind and Fire Learning Community. Provides an introduction to Iowa State University and meteorology, geology, and Earth science programs for students enrolled in the department's learning community. Activities include academic and social activities, talks and presentations on academic success, resume writing, and study abroad, as well as research talks by faculty members. (Typically Offered: Fall)

MTEOR 1130: Spring Geoscience Orientation for Earth, Wind and Fire Learning Community

(Cross-listed with GEOL 1130).

Credits: 1. Contact Hours: Lecture 1.

Spring orientation course for students enrolled in the 'Earth, Wind and Fire' Learning Community. Develop and apply quantitative, data-analysis, management, and communication skills on an authentic research project in a team to focus on professionalism and resilience. Introduction to interview strategies and the importance of creating a professional image on social media. Academic and social events, plus two field trips. (Typically Offered: Spring)

MTEOR 1400: Climate and Society

(Cross-listed with AGRON 1400/ ENVS 1400/ GEOL 1400).

Credits: 3. Contact Hours: Lecture 3.

The climate system of our planet. How nature and our actions alter the existing energy balance leading to climate change. Past climates on our planet. The influence of climate on society and resource availability during the Holocene (~ 11,000 years ago to present) with focus on changes post industrial revolution. Significant climate events that have altered our way of life in the past. Projected changes in future climate and potential impacts on society, environment and resources. Adaption to and mitigation of climate change. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

MTEOR 1600: Water Resources of the World

(Cross-listed with AGRON 1600/ ENVS 1600/ GEOL 1600).

Credits: 3. Contact Hours: Lecture 3.

Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment. Meets International Perspectives Requirement. (Typically Offered: Spring)

MTEOR 2010: Introductory Seminar

Credits: Required. Contact Hours: Lecture 1.

Prereq: Credit or enrollment in PHYS 2310

An overview of the atmospheric sciences, the meteorology program at Iowa State, and the major research journals used in the discipline. (Typically Offered: Fall)

MTEOR 2060: Introduction to Weather and Climate

(Cross-listed with AGRON 2060).

Credits: 3. Contact Hours: Lecture 3.

Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety. (Typically Offered: Fall, Spring)

MTEOR 2270: Computational Meteorology I

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: Credit or concurrent enrollment in MTEOR 2060; Credit or concurrent enrollment in PHYS 2310

An introduction to computer programming using FORTRAN and Python with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors. (Typically Offered: Fall)

MTEOR 2900: Independent Study

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Independent study for freshman and sophomore students.

MTEOR 2980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Department Cooperative Education Coordinator Permission for Course

Required of all cooperative education students. Students must register for this course prior to commencing the work period. (Typically Offered: Fall, Spring, Summer)

MTEOR 3010: General Meteorology

Credits: 4. Contact Hours: Lecture 4.

Prereq: MATH 1660, credit or enrollment in PHYS 2320

Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics. (Typically Offered: Spring)

MTEOR 3110: Introduction to Synoptic Meteorology

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Prereq: MTEOR 3010

Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products. (Typically Offered: Fall)

MTEOR 3210: Meteorology Internship

Credits: 1-2. Repeatable, maximum of 3 credits.

Prereq: MTEOR 3110; Permission of the Department Cooperative Education Coordinator

Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

MTEOR 3240: Energy and the Environment

(Cross-listed with ENSCI 3240/ ENVS 3240/ GEOL 3240).

Credits: 3. Contact Hours: Lecture 3.

Prereq: CHEM 1630, CHEM 1670, or CHEM 1770

Exploration of the origin of Earth's energy resources and the environmental and climatic impacts of energy acquisition and consumption. Renewable and non-renewable energy resources within an Earth-system context. Various environmentally-relevant topics such as water quality and availability, habitat destruction, greenhouse-gas emissions, and health and safety hazards to wildlife and human communities. (Typically Offered: Spring)

MTEOR 3410: Atmospheric Physics I

Credits: 3. Contact Hours: Lecture 3.

Prereq: PHYS 2320, credit or enrollment in MATH 2660, MTEOR 3010.

Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, and hydrostatics. (Typically Offered: Fall)

MTEOR 3420: Atmospheric Physics II

Credits: 3. Contact Hours: Lecture 3.

Prereq: MTEOR 3410

Cloud and precipitation physics, radar meteorology, and atmospheric radiation. (Typically Offered: Spring)

MTEOR 3600: Ocean-Atmosphere Interactions

Credits: 3.

Prereq: MTEOR 2060

The physical interactions between the atmosphere and ocean, and their influence on weather and climate; coupled modes of climate variability and their teleconnections; air-sea feedback in the tropics and mid-latitudes. Applied topics include seasonal prediction and climate data analysis. Offered odd-numbered years. (Typically Offered: Spring)

MTEOR 3980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Department Cooperative Education Coordinator Permission for Course

Required of all cooperative education students. Students must register for this course prior to commencing the work period. (Typically Offered: Fall, Spring, Summer)

MTEOR 3990: Writing for Research

Credits: 2. Contact Hours: Lecture 2.

Prereq: ENGL 2500; SPCM 2120; MTEOR 3110; Junior classification; MTEOR major

Principles of effective scientific writing and communication. Concepts covered are intended to be applied in MTEOR 4990: Senior Research. (Typically Offered: Spring)

MTEOR 4020: Watershed Hydrology

(Dual-listed with GEOL 5020/ ENSCI 5020/ MTEOR 5020/ NREM 5020).

(Cross-listed with ENSCI 4020/ GEOL 4020/ NREM 4020).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. (Typically Offered: Fall)

MTEOR 4040: Global Change

(Cross-listed with AGRON 4040/ ENSCI 4040/ ENVS 4040).

Credits: 3. Contact Hours: Lecture 3.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. (Typically Offered: Fall, Spring)

MTEOR 4050: Soil-Plant-Animal-Atmosphere Physics

(Dual-listed with AGRON 5050/ ENSCI 5050/ MTEOR 5050). (Cross-listed with ENSCI 4050/ AGRON 4050).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1600 or MATH 1650

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended. Offered odd-numbered years. (Typically Offered: Spring)

MTEOR 4060: World Climates

(Cross-listed with ENSCI 4060/ AGRON 4060).

Credits: 3. Contact Hours: Lecture 3.

Prereq: AGRON 2060 or MTEOR 2060

Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Meets International Perspectives Requirement. (Typically Offered: Spring)

MTEOR 4070: Mesoscale Meteorology

(Dual-listed with MTEOR 5070/ AGRON 5070). (Cross-listed with AGRON 4070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1660; MTEOR 4430

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Offered even-numbered years. (Typically Offered: Spring)

MTEOR 4080X: Numerical Weather and Climate Prediction

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: MTEOR 2270 or equivalent; MTEOR 4430

Numerical solutions of the differential equations that describe weather and climate. Survey of numerical solution techniques with focus on advantages and limitations of different methods. Physical parameterizations for turbulence, clouds, and land surface processes. Forecast verification. Applications including designing and running simulations on high-performance computing systems. (Typically Offered: Spring)

MTEOR 4110: Synoptic Meteorology

(Dual-listed with MTEOR 5110).

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products. (Typically Offered: Fall)

MTEOR 4160: Hydrologic Modeling and Analysis

(Dual-listed with GEOL 5160/ ENSCI 5160/ MTEOR 5160). (Cross-listed with ENSCI 4160/ GEOL 4160).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed. Offered odd-numbered years. (Typically Offered: Spring)

MTEOR 4170: Mesoscale Forecasting Laboratory

Credits: 3. Contact Hours: Laboratory 6.

Prereq: Credit or concurrent enrollment in MTEOR 4110

Real-time computer analysis of current weather, with emphasis on small-scale features. Studies of severe weather, lake-effect snow, CSI, cold-air damming. (Typically Offered: Spring)

MTEOR 4320: Instrumentation and Measurements

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: (Credit or concurrent enrollment in MATH 2660); PHYS 2320

Principles of meteorological sensing and data analysis. Thermometry, barometry, hygrometry, anemometry, precipitation measurements, radiometry, radar, remote sensing, visibility, and cloud height. Calibration and measurement uncertainties. Digital signal processing. Field trip to the National Weather Service. Labs emphasize dataloggers and modern weather stations. (Typically Offered: Spring)

MTEOR 4350: Radar Applications in Meteorology

(Dual-listed with MTEOR 5350).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or concurrent enrollment in MTEOR 3410

Fundamentals of radar meteorology with emphasis on applications. Topics presented include theory of radar, engineering principles, Doppler radar, polarimetric radar, and applications to remote sensing of clouds and precipitation. (Typically Offered: Spring)

MTEOR 4400: Tropical Meteorology

(Dual-listed with MTEOR 5400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or concurrent enrollment in MTEOR 3410

Weather and climate of the tropical atmosphere. Weekly forecast discussions related to the development of tropical cyclones and teleconnection patterns between the tropics and higher latitudes. Topics covered include easterly waves, tropical cyclogenesis (i.e., hurricanes, typhoons, cyclones), equatorial waves, El Niño-Southern oscillation, Madden-Julian oscillation, and monsoons. Offered odd-numbered years. (Typically Offered: Fall)

MTEOR 4430: Dynamic Meteorology I

(Dual-listed with MTEOR 5430X).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MTEOR 3410

An introduction to the mathematical description and theory of atmospheric flows. Topics include coordinate systems and vectors; forces and rotating reference frames; governing equations of atmospheric motion; mass and energy conservation; force balance and stability; circulation, vorticity, and potential vorticity. (Typically Offered: Fall)

MTEOR 4520: Climate Modeling

(Dual-listed with MTEOR 5520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MTEOR 3010

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. An understanding of atmospheric physics comparable to MTEOR 3010 is advantageous. Offered even-numbered years. (Typically Offered: Spring)

MTEOR 4540: Dynamic Meteorology II

(Dual-listed with MTEOR 5540).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MTEOR 4430

Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations. (Typically Offered: Spring)

MTEOR 4600X: Atmospheric Chemistry

Credits: 3. Contact Hours: Lecture 3.

Fundamental concepts in atmospheric chemistry. Topics include: atmospheric gaseous and aerosol constituents, sources, and chemical reactions; impact of atmospheric gases and aerosols on global climate, climate change, air quality, and public health; transport of atmospheric constituents; and tropospheric and stratospheric chemistry. (Typically Offered: Spring)

MTEOR 4680: Applied Geostatistics for Geoscientists

(Dual-listed with GEOL 5680/ ENSCI 5680/ MTEOR 5680). (Cross-listed with ENSCI 4680/ GEOL 4680).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: GEOL 4520; CRP 3510; CRP 4520; (NREM 3450 or NREM 4470)

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression). Offered even-numbered years. (Typically Offered: Fall)

MTEOR 4890: Survey of Remote Sensing Technologies

(Cross-listed with EE 4890/ ENSCI 4890/ GEOL 4890/ NREM 4890).

Credits: 3. Contact Hours: Lecture 3.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S. (Typically Offered: Fall)

MTEOR 4890L: Satellite Remote Sensing Laboratory

(Cross-listed with EE 4890L/ GEOL 4890L/ NREM 4890L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/ EE 4890/5890

Processing and analysis of satellite sensor data (optical and radar).

Provides practical applications in an environmental context. (Typically Offered: Fall)

MTEOR 4900A: Independent Study: Synoptic Meteorology

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

MTEOR 4900B: Independent Study: Dynamic Meteorology

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

MTEOR 4900C: Independent Study: Physical Meteorology

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

MTEOR 4900D: Independent Study: Instrumentation

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

MTEOR 4900E: Independent Study: Hydrology

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

MTEOR 4900F: Independent Study: Climate/Atmospheric Water Cycle

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation. (Typically Offered: Spring, Summer)

MTEOR 4900G: Independent Study: Atmosphere/Ocean Interactions

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Six credits in MTEOR, Permission of Instructor

Graduation Restriction: No more than 9 credits in MTEOR 4900 may be counted toward graduation.

MTEOR 4980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Permission of Department Cooperative Education Coordinator; Senior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period. (Typically Offered: Fall, Spring, Summer)

MTEOR 4990: Senior Research

Credits: 2. Contact Hours: Lecture 2.

Prereq: MTEOR 3990

Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

MTEOR 5020: Watershed Hydrology

(Dual-listed with GEOL 4020/ ENSCI 4020/ MTEOR 4020/ NREM 4020). (Cross-listed with ENSCI 5020/ GEOL 5020/ NREM 5020).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. (Typically Offered: Fall)

MTEOR 5040: Global Change

(Cross-listed with AGRON 5040/ ENSCI 5040).

Credits: 3. Contact Hours: Lecture 3.

Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. (Typically Offered: Fall, Spring)

MTEOR 5050: Soil-Plant-Animal-Atmosphere Physics

(Dual-listed with AGRON 4050/ ENSCI 4050/ MTEOR 4050). (Cross-listed with ENSCI 5050/ AGRON 5050).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1600 or MATH 1650

The movement of energy and mass among the soil, vegetation, and atmosphere. The heat and water budget of humans, other animals, plants, and plant communities. Relevance to weather and climate, the effect of climate change on organisms, and remote sensing. Some exposure to computer programming (any language) recommended. Offered odd-numbered years. (Typically Offered: Spring)

MTEOR 5070: Mesoscale Meteorology

(Dual-listed with MTEOR 4070/ AGRON 4070). (Cross-listed with AGRON 5070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1660; MTEOR 4540 OR Graduate Classification

Physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Offered even-numbered years. (Typically Offered: Spring)

MTEOR 5080X: Numerical Weather and Climate Prediction

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Numerical solutions of the differential equations that describe weather and climate. Survey of numerical solution techniques with focus on advantages and limitations of different methods. Physical parameterizations for turbulence, clouds, and land surface processes. Forecast verification. Applications including designing and running simulations on high-performance computing systems. (Typically Offered: Spring)

MTEOR 5110: Synoptic Meteorology

(Dual-listed with MTEOR 4110).

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Prereq: (MTEOR 3110 and MTEOR 4540) OR Graduate Classification

Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products. (Typically Offered: Fall)

MTEOR 5160: Hydrologic Modeling and Analysis

(Dual-listed with GEOL 4160/ ENSCI 4160/ MTEOR 4160). (Cross-listed with ENSCI 5160/ GEOL 5160).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed. Offered odd-numbered years. (Typically Offered: Spring)

MTEOR 5180: Microwave Remote Sensing

(Cross-listed with AGRON 5180/ EE 5180).

Credits: 3. Contact Hours: Lecture 3.

Microwave remote sensing of Earth's surface and atmosphere using satellite-based or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture. Offered even-numbered years. (Typically Offered: Spring)

MTEOR 5350: Radar Applications in Meteorology

(Dual-listed with MTEOR 4350).

Credits: 3. Contact Hours: Lecture 3.

Fundamentals of radar meteorology with emphasis on applications. Topics presented include theory of radar, engineering principles, Doppler radar, polarimetric radar, and applications to remote sensing of clouds and precipitation. (Typically Offered: Spring)

MTEOR 5400: Tropical Meteorology

(Dual-listed with MTEOR 4400).

Credits: 3. Contact Hours: Lecture 3.

Weather and climate of the tropical atmosphere. Weekly forecast discussions related to the development of tropical cyclones and teleconnection patterns between the tropics and higher latitudes. Topics covered include easterly waves, tropical cyclogenesis (i.e., hurricanes, typhoons, cyclones), equatorial waves, El Niño-Southern oscillation, Madden-Julian oscillation, and monsoons. Offered odd-numbered years. (Typically Offered: Fall)

MTEOR 5420: Physical Meteorology

Credits: 3. Contact Hours: Lecture 3.

Basic dynamic equations, moist convection, interaction of convection with large-scale environment, parameterization of convection, and cloud-resolving models. Offered odd-numbered years. (Typically Offered: Fall)

MTEOR 5430X: Dynamic Meteorology I

(Dual-listed with MTEOR 4430).

Credits: 3. Contact Hours: Lecture 3.

Conservation laws, governing equations, circulation and vorticity. Development of quasi-geostrophic theory. (Typically Offered: Fall)

MTEOR 5520: Physics Of Climate

(Dual-listed with MTEOR 4520).

Credits: 3. Contact Hours: Lecture 3.

Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. An understanding of atmospheric physics comparable to MTEOR 3010 is advantageous. Offered even-numbered years. (Typically Offered: Spring)

MTEOR 5540: Dynamic Meteorology II

(Dual-listed with MTEOR 4540).

Credits: 3. Contact Hours: Lecture 3.

Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations. (Typically Offered: Spring)

MTEOR 5680: Applied Geostatistics for Geoscientists

(Dual-listed with GEOL 4680/ ENSCI 4680/ MTEOR 4680). (Cross-listed with ENSCI 5680/ GEOL 5680).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Introduction to geospatial data collection, analysis, interpretation, and presentation. Geospatial techniques including geographic information systems (GIS), remote sensing (RS), and global positioning systems (GPS). Study of applied geostatistical analysis (e.g., interpolation and spatial regression). Offered even-numbered years. (Typically Offered: Fall)

MTEOR 5890: Survey of Remote Sensing Technologies

(Cross-listed with EE 5890/ ENSCI 5890/ GEOL 5890/ NREM 5890).

Credits: 3. Contact Hours: Lecture 3.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S. (Typically Offered: Fall)

MTEOR 5890L: Satellite Remote Sensing Laboratory

(Cross-listed with EE 5890L/ GEOL 5890L/ NREM 5890L).

Credits: Required. Contact Hours: Laboratory 3.

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context. (Typically Offered: Fall)

MTEOR 5900A: Special Topics: Boundary-layer Meteorology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900B: Special Topics: Tropical Meteorology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900C: Special Topics: Mesoscale Meteorology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900D: Special Topics: Global Climate Systems

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900E: Special Topics: Climate Modeling

Credits: 1-3. Repeatable.

Topics of current interest.

MTEOR 5900F: Special Topics: Numerical Weather Prediction

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900G: Special Topics: Satellite Observations

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900H: Special Topics: Statistical Methods in Meteorology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900I: Special Topics: Field Observations

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900J: Special Topics: Low Frequency Modes

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900K: Special Topics: Cloud Physics

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900L: Special Topics: Atmospheric Radiation

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900M: Special Topics: Hydrology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900N: Special Topics: Geophysical Fluid Dynamics

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5900O: Special Topics: Radar Meteorology

Credits: 1-3. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

MTEOR 5950A: Graduate Seminar: Presentation Required

(Cross-listed with GEOL 5950A).

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

MTEOR 5950B: Graduate Seminar: Attendance Only

(Cross-listed with GEOL 5950B).

Credits: Required. Contact Hours: Lecture 1.

Repeatable.

Attendance only. Weekly seminar on topics of current research interest. All students seeking a graduate degree must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

Courses for graduate students:

MTEOR 6050: Boundary-Layer Meteorology

(Cross-listed with AGRON 6050).

Credits: 3. Contact Hours: Lecture 3.

Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy. Offered odd-numbered years. (Typically Offered: Fall)

MTEOR 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Microbiology (MICRO)

Courses primarily for undergraduates:

MICRO 1010: Microbial World

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in Biology

Introduction to the importance of viruses, bacteria, fungi, archaea and parasites both to humans and to the biosphere. Topics include past and present microbial impact on humans and society, ecology and diversity of microbes, biotechnology and microbial impact on the biosphere.

Recommended: High School Biology. (Typically Offered: Fall)

MICRO 1100: Professional and Educational Preparation in Microbiology

Credits: 1. Contact Hours: Lecture 1.

An introduction to curriculum and research opportunities in microbiology at Iowa State. Topics include: easing the transition to life as a university student, development of specific goals, strengthening interpersonal communication, professional portfolio creation and resume building.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

MICRO 1150: Phage Discovery Lab

Credits: 2.

An exploratory laboratory where students will purify phage from soil, visualize phage using electron microscopy and isolate genomic material for nucleic acid sequencing. (Typically Offered: Fall)

MICRO 1160: Phage Genome Annotation Lab

Credits: 2.

An experiential microbiology laboratory where students learn to annotate and submit a complete phage genome. MICRO 1150 recommended. (Typically Offered: Spring)

MICRO 2010: Introduction to Microbiology

Credits: 2. Contact Hours: Lecture 2.

Prereq: One BIOL course except BIOL 1100, BIOL 1110, BIOL 1120, BIOL 1730, BIOL 2010, BIOL 3070

Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 2010 for MICRO 3020 in advanced courses. (Typically Offered: Fall, Spring)

MICRO 2010L: Introductory Microbiology Laboratory

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Credits or concurrent enrollment in MICRO 2010 or MICRO 3020

Basic microbiology laboratory techniques for non-microbiology majors. Graduation Restriction: Credit for either MICRO 2010L or 3020L, but not both, may be applied toward graduation. (Typically Offered: Fall, Spring)

MICRO 2650: Predicting the Next Epidemic: Living in a One Health World

Credits: 2. Contact Hours: Lecture 2, Discussion 2.

8 week course. "One Health" concept as a relatively new approach to disease control, sustainability, and the consequences of environmental disruption. Interconnectedness of human, animal, and environmental health. Importance of scientists communicating with the general public about One Health topics, such as habitat loss, agricultural practices, and the spread of antibiotic resistant organisms. Recommended: High School Biology or Environmental Science. (Typically Offered: Fall, Spring)

MICRO 3020: Biology of Microorganisms

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2110; BIOL 2120; 3 credits of CHEM

Basic cell biology, physiology, metabolism, genetics and ecology of microorganisms, with an emphasis on prokaryotes and viruses, as well as the roles of microorganisms in the environment, disease, agriculture, and industry. (Typically Offered: Fall, Spring, Summer)

MICRO 3020L: Microbiology Laboratory

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Credits or concurrent enrollment in MICRO 2010 or MICRO 3020

Basic microbiology laboratory techniques for majors in microbiology, biological sciences and related fields. Graduation Restriction: Credit for either MICRO 2010L or 3020L, but not both, may be applied toward graduation. (Typically Offered: Fall, Spring)

MICRO 3100: Medical Microbiology

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3020 (or MICRO 2010 if a B or better was obtained)

Study of infection by bacterial and viral pathogenic agents of humans with an overview of immune responses in controlling disease. (Typically Offered: Fall)

MICRO 3100L: Medical Microbiology Laboratory

Credits: 1. Contact Hours: Laboratory 3.

Prereq: (MICRO 2010 or MICRO 3020); (MICRO 2010L or MICRO 3020L); credits or concurrent enrollment in MICRO 3100

Microbiological tools and techniques to isolate, identify, and characterize medically significant microorganisms in relation to human diseases. Emphasis on the virulence factors of pathogenic organisms as compared to the normal flora. (Typically Offered: Fall)

MICRO 3200: Molecular and Cellular Bacteriology

Credits: 4. Contact Hours: Lecture 4.

Prereq: BIOL 3130; MICRO 3020; CHEM 3320

A systems perspective of bacterial growth, survival, and cellular differentiation by integrating physiological and genetic principles. Emphasis is on prokaryotes although unicellular eukaryotes are also discussed. Topics include the structure, function, and assembly of cell components, molecular and genomic techniques, bioenergetics and metabolism, regulation of gene expression, genetic adaptation, stress tolerance, biofilms, and cell-cell interactions and communications. (Typically Offered: Spring)

MICRO 3530: Introductory Parasitology

(Cross-listed with BIOL 3530/ VPTH 3530).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2120

Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites. (Typically Offered: Spring)

MICRO 3600: Global Health

(Cross-listed with GLOBE 3600/ VMPM 3600).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2110

Explores human health across the world with particular emphasis on low- and lower-middle-income countries. Attention is given to the interconnectedness of health determinants, problems, and solutions found in global health, including the role of animals and the environment. Broad in scope, highlighting different cultures and the historical foundations of global health. Topics include colonialism, poverty, emerging diseases, climate change, biodiversity, one health, maternal and child health, HIV, malaria, urbanization, noncommunicable diseases and more. Current events will be a feature of all class meetings. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

MICRO 3740: Insects and Our Health

(Cross-listed with ENT 3740).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in Biological Sciences

Identification, biology, and significance of insects and arthropods that affect the health of humans and animals, particularly those that are vectors of disease. Meets International Perspectives Requirement. (Typically Offered: Spring)

MICRO 3740L: Insects and Our Health Laboratory

(Cross-listed with ENT 3740L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Credit or concurrent enrollment in ENT 3740 or MICRO 3740

Laboratory and field techniques for studying medical or public health entomology, including: collection, identification and maintenance of medically significant arthropods and experimental design and execution related to the biology of arthropods or arthropod-pathogen interactions. Offered even-numbered years. (Typically Offered: Spring)

MICRO 4020: Microbial Genetics and Genomics

(Cross-listed with GEN 4020).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 3130; MICRO 3020

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics. Offered even-numbered years. (Typically Offered: Fall)

MICRO 4070: Microbiological Safety of Foods of Animal Origins

(Dual-listed with FSHN 5070/ MICRO 5070). (Cross-listed with FSHN 4070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 2010 or MICRO 3020

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FSHN 4200 or MICRO 4200 and one semester of Microbiology Laboratory. (Typically Offered: Fall, Spring)

MICRO 4080: Virology

Credits: 3. Contact Hours: Lecture 3.

Prereq: BBMB 3010 or BIOL 3130

The molecular virology and epidemiology of human, animal, plant and insect viruses. BIOL 3140 recommended. (Typically Offered: Fall)

MICRO 4190: Foodborne Hazards

(Cross-listed with FSHN 4190/ TOX 4190).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 2010 or MICRO 3020; 3 credits in BBMB

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Assessed service-learning component. Offered even-numbered years. Graduation Restriction: Only one of FSHN 4190 and FSHN 5190 may count toward graduation. (Typically Offered: Spring)

MICRO 4200: Food Microbiology

(Cross-listed with FSHN 4200/ TOX 4200).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 2010 or MICRO 3020

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. (Typically Offered: Fall)

MICRO 4210: Food Microbiology Laboratory

(Cross-listed with FSHN 4210).

Credits: 3. Contact Hours: Lecture 1, Laboratory 5.

Prereq: MICRO 2010 or MICRO 3020; MICRO 2010L or MICRO 3020L. Credit or enrollment in FSHN/MICRO 4200

Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction. (Typically Offered: Spring)

MICRO 4280: Principles of Epidemiology and Population Health

(Cross-listed with VDPAM 4280/ VMPM 4280).

Credits: 3. Contact Hours: Lecture 3.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance. (Typically Offered: Spring)

MICRO 4300: Prokaryotic Diversity and Ecology

(Cross-listed with BBMB 4300).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3020; MICRO 3020L

Survey of the diverse groups of prokaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 4400: Laboratory in Microbial Physiology, Diversity, and Genetics

Credits: 4.

Prereq: MICRO 3020, MICRO 3020L, CHEM 3320, and BIOL 3130L

Fundamental techniques and theory for studying the cellular mechanisms, genetic processes and diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments as well as an emphasis on genetic and molecular techniques to understand antibiotic resistance processes and mechanisms. Also included are techniques for phylogenetic characterization, measuring gene expression, and genetic manipulation of bacteria. Essential components for the effective communication of scientific results are also emphasized. (Typically Offered: Fall, Spring)

MICRO 4500: Undergraduate Capstone Colloquium

Credits: 2. Contact Hours: Lecture 2.

Prereq: SPCM 2120; 20 credits in MICRO

Required of all undergraduate majors in microbiology. Students demonstrate mastery of core courses in microbiology through discussion of current literature in microbiology and immunology, issues in scientific conduct, and bioethics in microbiology. Students present current papers in a journal club format and gain experience in writing and reviewing grant proposals. This course is a capstone course and should be taken within the last two semesters. (Typically Offered: Spring)

MICRO 4510: Survey in Microbiology

Credits: Required. Contact Hours: Lecture 1.

Prereq: 12 credits in MICRO

Preparations for graduation. Topics include job search strategies, career information, mock interviews, graduate and professional school application processes and guidelines as well as outcomes assessment activities. (Typically Offered: Fall)

MICRO 4560: Principles of Mycology

(Cross-listed with BIOL 4560).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: 10 credits BIOL or MICRO

Morphology, diversity, and ecology of fungi; their relation to agriculture, industry, and human health. (Typically Offered: Fall)

MICRO 4750: Immunology

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3100

An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. MICRO 4750L optional. Graduation Restriction: Credit for either MICRO 4750 or VMPM 5200, but not both, may be applied to graduation. (Typically Offered: Spring)

MICRO 4750L: Immunology Laboratory

Credits: 2. Contact Hours: Lecture 2, Laboratory 4.

Prereq: Credits or concurrent enrollment in MICRO 3100 or MICRO 4750 or MICRO 5750

Techniques in primary culture and tumor cell growth, measures of lymphocyte function, serological techniques and flow cytometry. Half semester course. (Typically Offered: Spring)

MICRO 4770: Bacterial-Plant Interactions

(Dual-listed with MICRO 5770/ PLP 5770). (Cross-listed with PLP 4770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in MICRO or PLP

Overview of plant-associated bacteria including their ecology, diversity, and the physiological and molecular mechanisms involved with their interactions with plants. The course covers bacterial plant pathogens and pathogenesis, nitrogen fixation and plant symbioses, biological control and plant growth promotion, bacterial disease diagnosis and management, and approaches to the study of microbial communities in the rhizosphere and on leaves. Offered even-numbered years. (Typically Offered: Spring)

MICRO 4850: Soil and Environmental Microbiology

(Dual-listed with AGRON 5850/ ENSCI 5850/ MICRO 5850). (Cross-listed with ENSCI 4850/ AGRON 4850).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: AGRON 1820

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 2010; MICRO 2010L recommended. (Typically Offered: Fall)

MICRO 4870: Microbial Ecology

(Cross-listed with ENSCI 4870/ GEOL 4870/ BIOL 4870).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in Biology and 6 credits in Chemistry

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized. (Typically Offered: Fall)

MICRO 4900A: Independent Study: Laboratory Research

Credits: 1-30. Repeatable.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of MICRO 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Summer)

MICRO 4900B: Independent Study: Literature Review

Credits: 1-30. Repeatable.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of MICRO 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Summer)

MICRO 4900C: Independent Study: Instructional Assistant

Credits: 1-30. Repeatable.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of MICRO 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Summer)

MICRO 4900G: Independent Study: General

Credits: 1-30. Repeatable.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of MICRO 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Summer)

MICRO 4900H: Independent Study: Honors

Credits: 1-5. Repeatable, maximum of 6 credits.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of MICRO 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Spring, Summer)

MICRO 4950: Internship

Credits: 1-2. Repeatable.

Prereq: 6 credits of 3000-level credit MICRO; Permission of Instructor

Participation in the Cooperative Extension Intern Program or an equivalent work experience. Written report of activities required. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

Courses primarily for graduate students, open to qualified undergraduates:

MICRO 5020: Microbial Genetics and Genomics

(Cross-listed with VMPM 5020).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics. Offered even-numbered years. (Typically Offered: Fall)

MICRO 5070: Microbiological Safety of Foods of Animal Origins

(Dual-listed with FSHN 4070/ MICRO 4070). (Cross-listed with FSHN 5070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 4200 or Graduate Classification

Examination of the various factors in the production of foods, from production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. Upon successful completion of this class, the student will receive both the Preventive Controls for Human Foods certificate (FDA program) and the International HACCP Alliance certificate (USDA-FSIS program). Recommended: FSHN 4200 or MICRO 4200 and one semester of Microbiology Laboratory. (Typically Offered: Fall, Spring)

MICRO 5090: Plant Virology

(Cross-listed with PLP 5090).

Credits: 2. Contact Hours: Lecture 1, Discussion 1.

Prereq: (BBMB 3010 or BIOL 3130) or Graduate Classification

Taxonomy, molecular mechanisms, host-interactions, vector transmission, epidemiology, detection, control and exploitation of plant viruses. Course will consist of a mixture of lectures, and student-led presentations using primary literature. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 5170: Gut Microbiome: Implications for Health and Diseases

(Cross-listed with ANS 5170/ FSHN 5170/ VMPM 5170).

Credits: 3. Contact Hours: Lecture 3.

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health. (Typically Offered: Fall)

MICRO 5250: Intestinal Microbiology

(Cross-listed with VMPM 5250).

Credits: 3. Contact Hours: Lecture 3.

Overview of commensal microbiota in the health and well-being of vertebrates. Topics include diversity of intestinal structure, microbial diversity/function, innate immune development, community interactions and metabolic diseases associated with alterations of the intestinal microbiome. Offered even-numbered years. (Typically Offered: Spring)

MICRO 5300: Prokaryotic Diversity and Ecology

(Dual-listed with MICRO 4300). (Cross-listed with BBMB 5300).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MICRO 3020 and MICRO 3020L) or Graduate Classification

In-depth exploration of plant biochemistry with a focus on the unique aspects of plants versus heterotrophic organisms. Analysis of unique pathways, metabolic trafficking between unique organelles and tissues, and techniques for their characterization. Offered even-numbered years. (Typically Offered: Fall)

MICRO 5400: Livestock Immunogenetics

(Cross-listed with ANS 5400/ VMPM 5400).

Credits: 2. Contact Hours: Lecture 2.

Prereq: ANS 5610 or MICRO 5750 or VMPM 5200 or Graduate Classification

Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 5510: Microbial Diversity and Phylogeny

Credits: 1. Contact Hours: Lecture 1.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

Comparisons among the three kingdoms of life (Bacteria, Archaea, and Eukarya). Topics will include metabolism, adaptation, methods of phylogenetic analysis, and comparative genomics. (Typically Offered: Fall)

MICRO 5520: Bacterial Molecular Genetics and Physiology

Credits: 1. Contact Hours: Lecture 1.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

Review of genetics and selected physiological topics of model bacteria. (Typically Offered: Fall)

MICRO 5530: Pathogenic Microorganisms

Credits: 1. Contact Hours: Lecture 1.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

Review and contrast/comparison of common bacterial pathogens of plants and animals and their mechanisms of virulence, including toxins, protein secretion, host invasion and iron acquisition strategies. An overview of eukaryotic cell biology that is relevant to pathogenesis will also be included. (Typically Offered: Fall)

MICRO 5540: Virology

Credits: 1. Contact Hours: Lecture 1.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

Introduction to virus life cycles including entry, gene expression strategies, replication, and mechanisms to modify and overcome host defenses. The roles of specific viruses and sub-viral agents in animal and plant disease will also be included. (Typically Offered: Spring)

MICRO 5550: Fungal Biology

Credits: 1. Contact Hours: Lecture 1.

Prereq: (GEN 3130 or GEN 3200) or Graduate Classification

Ecology, genetics, physiology and diversity of fungi, from yeasts to mushrooms, and their importance in human affairs. (Typically Offered: Spring)

MICRO 5560: Ecology of Microorganisms

Credits: 1. Contact Hours: Lecture 1.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

The study of microorganisms in their natural environments, with a focus on terrestrial and aquatic ecosystems, including eukaryotic hosts; interactions within biofilms and communities, including intercellular communication and symbioses; microbial adaptations to extreme environments; and metagenomic, genomic, molecular and microscopy techniques for the study of microbes in natural systems. (Typically Offered: Spring)

MICRO 5750: Immunology

(Cross-listed with VMPM 5750).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3100 or Graduate Classification

An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. MICRO 4750L optional. Graduation Restriction: Credit for either MICRO 4750 or VMPM 5200, but not both, may be applied to graduation. (Typically Offered: Spring)

MICRO 5770: Bacterial-Plant Interactions

(Dual-listed with MICRO 4770/ PLP 4770). (Cross-listed with PLP 5770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (3 credits in MICRO or PLP) or Graduate Classification

Overview of plant-associated bacteria including their ecology, diversity, and the physiological and molecular mechanisms involved with their interactions with plants. The course covers bacterial plant pathogens and pathogenesis, nitrogen fixation and plant symbioses, biological control and plant growth promotion, bacterial disease diagnosis and management, and approaches to the study of microbial communities in the rhizosphere and on leaves. Offered even-numbered years. (Typically Offered: Spring)

MICRO 5850: Soil and Environmental Microbiology

(Dual-listed with AGRON 4850/ ENSCI 4850/ MICRO 4850). (Cross-listed with ENSCI 5850/ AGRON 5850).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Qualified Undergrad Prereq: AGRON 1820 or graduate standing

The living organisms in the soil and what they do. Emphasis on soil biota composition, the carbon cycle and bioremediation, soil-plant-microbial relationships, and environmental issues. MICRO 2010; MICRO 2010L recommended. (Typically Offered: Fall)

MICRO 5860: Medical Bacteriology

(Cross-listed with VMPM 5860).

Credits: 4. Contact Hours: Lecture 4.

Prereq: MICRO 3100 or Graduate Classification

Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses. Concurrent students need to register for 5860L. (Typically Offered: Fall)

MICRO 5870: Microbial Ecology

(Cross-listed with ENSCI 5870/ GEOL 5870/ EEOB 5870).

Credits: 3. Contact Hours: Lecture 3.

Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural and environmental systems. Consequences of microbial activity on water chemistry, weathering, and precipitation/dissolution reactions will be emphasized. (Typically Offered: Fall)

MICRO 5900: Special Topics

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

MICRO 6040: Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Course will expose students to the breadth of subdisciplines within microbiology, offer opportunities for direct interaction between the students and the faculty members within the Interdepartmental Microbiology Graduate Program, and promote interactions among the students within the program. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

MICRO 6080: Molecular Virology

(Cross-listed with VMPP 6080/ PLP 6080).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BBMB 4050 or GDCB 5110

Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis. Offered even-numbered years.

(Typically Offered: Fall)

MICRO 6150: Molecular Immunology

(Cross-listed with BBMB 6150/ VMPP 6150).

Credits: 3. Contact Hours: Lecture 3.

Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function. Offered odd-numbered years. (Typically Offered: Fall)

MICRO 6250: Mechanisms of Bacterial Pathogenesis

(Cross-listed with VMPP 6250).

Credits: 3. Contact Hours: Lecture 3.

Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 6260: Advanced Food Microbiology

(Cross-listed with FSHN 6260/ TOX 6260).

Credits: 3. Contact Hours: Lecture 3.

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 6270: Rapid Methods in Food Microbiology

(Cross-listed with FSHN 6270/ TOX 6270).

Credits: 2. Contact Hours: Lecture 2.

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and 'next generation' testing formats now in development. (Typically Offered: Fall, Spring, Summer)

MICRO 6900A: Current Topics: Microbiology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Instructor Permission for Course

Colloquia or advanced study of specific topics in a specialized field.

(Typically Offered: Fall, Spring, Summer)

MICRO 6900B: Current Topics: Immunology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Colloquia or advanced study of specific topics in a specialized field.

(Typically Offered: Fall, Spring, Summer)

MICRO 6900C: Current Topics: Infectious Diseases

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Colloquia or advanced study of specific topics in a specialized field.

(Typically Offered: Fall, Spring, Summer)

MICRO 6920: Molecular Biology of Plant-Pathogen Interactions

(Cross-listed with PLP 6920).

Credits: 3. Contact Hours: Lecture 3.

Seminar and current research in molecular and physiological aspects of plant interactions with pathogens, including mechanisms of pathogenesis, host-pathogen recognition and host defense, with an emphasis on critical evaluation of primary literature. Students also complete a research proposal writing and peer review exercise. Offered odd-numbered years. (Typically Offered: Spring)

MICRO 6970: Graduate Research Rotation

Credits: 0. Contact Hours: Laboratory 30.

Repeatable.

Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Microbiology major. (Typically Offered: Fall, Spring)

MICRO 6980: Seminar in Molecular, Cellular, and Developmental Biology

(Cross-listed with BBMB 6980/ GDCB 6980/ MCDB 6980/ VMPP 6980).

Credits: 1-2. Contact Hours: Lecture 2.

Repeatable.

Student and faculty presentations. (Typically Offered: Spring)

MICRO 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Military Science (MS)

Courses primarily for undergraduates:

MS 1010: Introduction to Military Science

Credits: 1. Contact Hours: Lecture 1.

Prereq: Concurrent enrollment in MS 1010L required

Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its' leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students' communication skills to enhance their ability to transmit ideas. The class examines how the Army's cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers. (Typically Offered: Fall)

MS 1010L: Basic Leadership Laboratory I

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Concurrent enrollment in MS 1010 required

Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility. (Typically Offered: Fall)

MS 1020: Structure and Function of the U.S. Army

Credits: 1. Contact Hours: Lecture 1.

Prereq: Concurrent enrollment in MS 1020L required

Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its' leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army's basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army. (Typically Offered: Spring)

MS 1020L: Basic Leadership Laboratory II

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Concurrent enrollment in MS 1020 required

Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility. (Typically Offered: Spring)

MS 1500: Army Physical Readiness

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students' physical and medical eligibility. (Typically Offered: Fall, Spring)

MS 2010: Principles of Leadership and Communication Skills

Credits: 2. Contact Hours: Lecture 2.

Prereq: Concurrent enrollment in MS 2020L required

Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include; leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction. (Typically Offered: Fall)

MS 2010L: Basic Leadership Laboratory III

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Concurrent enrollment in MS 2010 required

Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility. (Typically Offered: Fall)

MS 2020: Map Reading and Land Navigation

Credits: 2. Contact Hours: Lecture 2.

Prereq: Concurrent enrollment in MS 2020L required

Class focuses on the characteristics and features of the earth's land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style. (Typically Offered: Spring)

MS 2020L: Basic Leadership Laboratory IV

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Concurrent enrollment in MS 2020 required

Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students' physical and medical eligibility. (Typically Offered: Spring)

MS 2500: Advanced Army Physical Readiness I

Credits: 2. Contact Hours: Laboratory 5.

Prereq: MS 1500

Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan and leadership of training sessions. Participation determined by students' physical and medical eligibility. Course for contracted AROTC cadets. (Typically Offered: Fall)

MS 2510: Advanced Army Physical Readiness II

Credits: 2. Contact Hours: Laboratory 5.

Prereq: MS 1500; MS 2500

Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan, and leadership of training sessions. Participation determined by students' physical and medical eligibility. (Typically Offered: Spring)

MS 2900: Independent Study: Basic Military Study

Credits: 1-3. Repeatable, maximum of 12 credits.

Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development. (Typically Offered: Fall, Spring, Summer)

MS 3010: Methods of Instructing Military Skills

Credits: 3. Contact Hours: Lecture 3.

Prereq: Concurrent enrollment in MS 3010L

Develops student's proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Student's evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces. Completion of the basic Military Science program required. (Typically Offered: Fall)

MS 3010L: Advanced Leadership Laboratory I

Credits: 1. Contact Hours: Laboratory 4.

Prereq: Concurrent enrollment in MS 3010

The lab compliments MS 3010 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival test, Army Physical Fitness test and the Land Navigation test are required. Completion of the basic Military Science program required. (Typically Offered: Fall)

MS 3020: Applied Leadership

Credits: 3. Contact Hours: Lecture 3.

Prereq: Concurrent enrollment in MS 3020L

Prepares students to attend the Leadership Develop and Assessment Course at Fort Knox, Kentucky in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the under classmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior. Completion of the basic Military Science program required. (Typically Offered: Fall)

MS 3020L: Advanced Leadership Laboratory II

Credits: 1. Contact Hours: Laboratory 4.

Prereq: Concurrent enrollment in MS 3020

The lab compliments MS 3020 by providing opportunities to practice the lessons from class. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Participating in the Water Survival Test, Army Physical Fitness Test and the Land Navigation test required. Completion of the basic Military Science program required. (Typically Offered: Spring)

MS 4010: Seminar: The Military Team

Credits: 3. Contact Hours: Lecture 3.

Prereq: Concurrent enrollment in MS 4010L

Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure. Completion of the basic Military Science program required. (Typically Offered: Fall)

MS 4010L: Advanced Leadership Laboratory III

Credits: 1. Contact Hours: Laboratory 4.

Prereq: Concurrent enrollment in MS 4010

The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Completion of the basic Military Science program required. (Typically Offered: Fall)

MS 4020: Seminar: The Professional Military Officer

Credits: 3. Contact Hours: Lecture 3.

Prereq: Concurrent enrollment in MS 4020L

Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multifaceted military organizational structure. Completion of the basic Military Science program required. (Typically Offered: Spring)

MS 4020L: Advanced Leadership Laboratory IV

Credits: 1. Contact Hours: Laboratory 4.

Prereq: Concurrent enrollment in MS 4020

The lab compliments the instruction from class by demonstrating the indelible link between personal values and successful leadership. On-the-job training and evaluation provided by the ROTC cadre. Developing training programs, structuring laboratories, presenting classes, planning various events, and accepting responsibility for the leadership labs. Completion of the basic Military Science program required. (Typically Offered: Spring)

MS 4900: Independent Study: Advanced Military Study

Credits: 1-3. Repeatable, maximum of 4 credits.

Prereq: MS 3010, MS 3020, MS 4010 and MS 4020 and permission of the Chair of the Military Science Department

Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development. (Typically Offered: Fall, Spring, Summer)

Molecular, Cellular and Developmental Biology (MCDB)

Courses primarily for graduate students, open to qualified undergraduates:

MCDB 5110: Advanced Molecular Genetics

(Cross-listed with GDCB 5110).

Credits: 3. Contact Hours: Lecture 3.

Mechanisms of molecular genetic processes in eukaryotes and prokaryotes, including DNA replication and repair, transcription, translation and regulation of gene expression. Critical evaluation and discussion of current primary literature, methodologies and experimental data. (Typically Offered: Spring)

MCDB 5280: Advances in Molecular Cell Biology

(Cross-listed with GDCB 5280).

Credits: 3. Contact Hours: Lecture 3.

Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility. Offered even-numbered years. (Typically Offered: Fall)

MCDB 5330: Advances in Developmental Biology

(Cross-listed with GDCB 5330).

Credits: 3. Contact Hours: Lecture 3.

Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in the current literature. Offered odd-numbered years. (Typically Offered: Fall)

MCDB 5450: Plant Molecular, Cell and Developmental Biology

(Cross-listed with GDCB 5450/ PLBIO 5450).

Credits: 3. Contact Hours: Lecture 3.

Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development. Offered odd-numbered years. (Typically Offered: Fall)

MCDB 5900: Special Topics

Credits: 1-30. Repeatable.

Courses for graduate students:

MCDB 6970: Graduate Research Rotation

Credits: 1-6. Repeatable.

Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program. (Typically Offered: Fall, Spring)

MCDB 6980: Seminar in Molecular, Cellular, and Developmental Biology

(Cross-listed with BBMB 6980/ GDCB 6980/ MICRO 6980/ VMPM 6980).

Credits: 1-2. Contact Hours: Lecture 2.

Repeatable.

Student and faculty presentations. (Typically Offered: Spring)

MCDB 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Music (MUSIC)

Courses primarily for undergraduates:

MUSIC 1010: Fundamentals of Music

Credits: 2.

Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only. Ability to read elementary musical notation required. (Typically Offered: Fall, Spring)

MUSIC 1020: Introduction to Music Listening

Credits: 3. Contact Hours: Lecture 3.

Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

MUSIC 1050: Basic Musicianship

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Prereq: Performing Arts major or Permission of Instructor

Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony. (Typically Offered: Fall, Spring)

MUSIC 1110: Wind Ensemble

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 1120: Concert Band

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Repertoire includes the broad spectrum of band music. Two concerts are presented each semester. Open to students who have performed on a wind or percussion instrument in high school band or orchestra. (Typically Offered: Fall, Spring)

MUSIC 1130: Jazz Ensemble

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Designed to explore various styles and trends in contemporary jazz. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 1140A: Marching and Pep Bands: Marching Band

Credits: 1. Contact Hours: Laboratory 5.

Repeatable.

Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching). Students may not be concurrently enrolled in MUSIC 1140A and 1140C. (Typically Offered: Fall)

MUSIC 1140B: Marching and Pep Bands: Pep Band

Credits: 1. Contact Hours: Laboratory 5.

Repeatable.

Performances at basketball games. Students selected by audition from members of MUSIC 1140A. (Typically Offered: Fall)

MUSIC 1140C: Marching and Pep Bands: Pep Band for Wrestling and Soccer

Credits: 1. Contact Hours: Laboratory 5.

Repeatable.

Performances at wrestling and women's soccer games. Audition required.

Graduation Restriction: Students may not be concurrently enrolled in MUSIC 1140A and 1140C. (Typically Offered: Fall)

MUSIC 1150: Symphonic Band

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

Stresses high quality wind literature. Performances include formal concerts on campus. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 1180A: Applied Music: Non-majors: Voice

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Audition required. Graduation Restriction: Will not satisfy applied music requirements for music majors. (Typically Offered: Fall, Spring)

MUSIC 1180B: Applied Music: Non-majors: Piano

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Audition required. Graduation Restriction: Will not satisfy applied music requirements for music majors. (Typically Offered: Fall, Spring)

MUSIC 1180C: Applied Music: Non-majors: Organ

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1180D: Applied Music: Non-majors: Strings

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1180E: Applied Music: Non-majors: Carillon

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1180F: Applied Music: Non-majors: Woodwinds

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1180G: Applied Music: Non-majors: Brass

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Audition required. Graduation Restriction: Will not satisfy applied music requirements for music majors. (Typically Offered: Fall, Spring)

MUSIC 1180I: Applied Music: Non-majors: Percussion

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Audition required. Graduation Restriction: Will not satisfy applied music requirements for music majors. (Typically Offered: Fall, Spring)

MUSIC 1180K: Applied Music: Non-majors: Harpsichord

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Audition required. Graduation Restriction: Will not satisfy applied music requirements for music majors. (Typically Offered: Fall, Spring)

MUSIC 1190A: Applied Music for Majors: Voice

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190B: Applied Music for Majors: Piano

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190C: Applied Music for Majors: Organ

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190D: Applied Music for Majors: Strings

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190E: Applied Music for Majors: Carillon

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190F: Applied Music for Majors: Woodwinds

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190G: Applied Music for Majors: Brass

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190I: Applied Music for Majors: Percussion

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1190K: Applied Music for Majors: Harpsichord

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 1200: Introduction to Music Literature and Styles

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 2240

Directed studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Graduation Restriction: Only one of MUSIC 1200 and 3020 can count toward graduation. (Typically Offered: Spring)

MUSIC 1250: Class Voice

Credits: 1. Contact Hours: Laboratory 2.

Repeatable, maximum of 8 credits.

Individual voice study in a communal master class setting designed to introduce collegiate level singing to Performing Arts majors and non-music (voice) majors. (Typically Offered: Fall, Spring)

MUSIC 1270: Class Study in Piano I

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC major or Permission of Instructor

Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills. (Typically Offered: Fall, Spring)

MUSIC 1280: Class Study in Piano II

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC 1270 or Permission of Instructor

Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills. (Typically Offered: Fall, Spring)

MUSIC 1410: Lyrica Ensemble

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Large chorus; emphasis on wide variety of literature and singing sounds from around the world. Includes fundamental voice and choral skills. Campus concerts each semester. Open to all treble voice students by audition. (Typically Offered: Fall, Spring)

MUSIC 1510A: University Chorus: Cantamus Women's Choir

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

Large chorus; emphasis on adventurous, contemporary programming. Advanced skills required. Campus concerts each semester, some in conjunction with orchestra. Open to all treble voice students by audition. (Typically Offered: Fall, Spring)

MUSIC 1510B: University Chorus: Statesmen Men's Choir

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 1610: Iowa State Singers

Credits: 1. Contact Hours: Laboratory 5.

Repeatable.

Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 1810: Symphony Orchestra

Credits: 1. Contact Hours: Laboratory 4.

Repeatable.

Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances. Open to all students by audition. (Typically Offered: Fall, Spring)

MUSIC 2190A: Applied Music: Majors: Voice

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190B: Applied Music: Majors: Piano

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190C: Applied Music: Majors: Organ

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190D: Applied Music: Majors: Strings

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190E: Applied Music: Majors: Carillon

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190F: Applied Music: Majors: Woodwinds

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190G: Applied Music: Majors: Brass

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190I: Applied Music: Majors: Percussion

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2190K: Applied Music: Majors: Harpsichord

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 2240: Music Theory I

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: MUSIC major; Permission of instructor

Introduction to voice-leading principles. Application of diatonic harmony in analysis and four-part writing. Introduction to notation software and other technologies used in the study of music. Specific section recommendation will be made to students based on results of diagnostic exam. (Typically Offered: Fall)

MUSIC 2250: Aural Theory I

Credits: 1. Contact Hours: Laboratory 2.

Prereq: (MUSIC major; credit or concurrent enrollment in MUSIC 2240) or Permission of Instructor

Aural discrimination of intervals, rhythms and patterns, as demonstrated by proficiency in ear training, sight singing, and related musicianship skills. (Typically Offered: Fall)

MUSIC 2270: Class Study in Piano III

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC 1280 or Permission of Instructor

Intermediate keyboard technique, transposition, harmonization, improvisation, repertory, and sight-reading skills. Introduction to score reading, hymn playing, and accompanying at the piano. (Typically Offered: Fall, Spring)

MUSIC 2280: Class Study in Piano IV

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC 2270 or Permission of Instructor

Continuation of intermediate keyboard technique, transposition, harmonization, improvisation, repertory, score reading, hymn playing, and accompanying at the piano. (Typically Offered: Fall, Spring)

MUSIC 2340: Music Theory II

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 2240

Harmonic and melodic materials of tonal music including chromatic secondary function chords and modulation techniques. Application of these materials in analysis, part writing, and composition. Concurrent enrollment in MUSIC 2350 recommended. (Typically Offered: Spring)

MUSIC 2350: Aural Theory II

Credits: 1. Contact Hours: Laboratory 3.

Prereq: MUSIC 2250; credit or concurrent enrollment in MUSIC 2340

Development of sight singing, ear training, and related musicianship skills with emphasis on diatonic harmonic and melodic materials as well as rhythm. (Typically Offered: Spring)

MUSIC 2460: Introduction to Creative Digital Music

Credits: 2. Contact Hours: Lecture 2.

Introduction to audio and MIDI software used in creating digital music. Includes fundamentals of audio waveform editing, processing, and mixing, MIDI data structures, practical projects in musical composition using a digital audio workstation. Ability to read traditional music notation preferred. (Typically Offered: Fall, Spring)

MUSIC 2480: Technology in Music Instruction

Credits: 2. Contact Hours: Lecture 2.

Prereq: MUSIC 2240 and MUSIC 2250

Introduction to computer software applications used in musical arrangements and presentations, practical introduction to audio and MIDI technologies in lab-based music instruction, basic recording/sound reinforcement and music website management. Intended for Music Education Majors. (Typically Offered: Spring)

MUSIC 2650: Music in Elementary Education

Credits: 2. Contact Hours: Lecture 2.

Prereq: PSYCH 2300 or HDFS 1020

Experiencing and understanding the fundamentals of music through singing, playing classroom instruments, body movement, reading notation, listening, and creative activities. Developing lesson plan strategies and sequence, exploring multicultural musics, integrating music with other subjects in the elementary classroom, and evaluating aspects of musical learning. (Typically Offered: Fall, Spring)

MUSIC 2660: Introduction to Music Education

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Prereq: Concurrent enrollment in MUSIC 2800K

Required for first-year majors in music education. Historical, philosophical, and social foundations of music education; music curricula overview including goals of the music program, and contemporary and international curriculum development; psychology of teaching music including discipline techniques. Preparation for required observations in area schools. (Typically Offered: Spring)

MUSIC 2800K: Pre-Student Teaching Experience I: Music

(Cross-listed with EDUC 2800K).

Credits: 0.5. Repeatable.

Pre-student teaching experience in music in school settings. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 1. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

MUSIC 2900A: Special Problems: Education

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music education. (Typically Offered: Fall, Spring)

MUSIC 2900B: Special Problems: Theory

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music theory. (Typically Offered: Fall, Spring)

MUSIC 2900C: Special Problems: Composition

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music composition. (Typically Offered: Fall, Spring)

MUSIC 2900D: Special Problems: History

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music history. (Typically Offered: Fall, Spring)

MUSIC 2900E: Special Problems: Literature

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music literature. (Typically Offered: Fall, Spring)

MUSIC 2900F: Special Problems: Applied Music

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in applied music. (Typically Offered: Fall, Spring)

MUSIC 2900G: Special Problems: Conducting

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in conducting. (Typically Offered: Fall, Spring)

MUSIC 2900H: Special Problems: Honors

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent honors project in music. (Typically Offered: Fall, Spring, Summer)

MUSIC 2900J: Special Problems: Business

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Independent study in music business. (Typically Offered: Fall, Spring)

MUSIC 3010A: Opera Studio: Opera/Operetta

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Study of selected opera scenes and chamber operas. Basic stagecraft, role interpretation, production. (Typically Offered: Fall, Spring)

MUSIC 3010B: Opera Studio: Music Theater

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Study of selected works from contemporary and classical music theater. Basic stagecraft, role interpretation, production. (Typically Offered: Fall, Spring)

MUSIC 3020: Masterpieces of Music and Art in Western Culture

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 1020

Exploration of several great works of classical music in light of the artistic culture in which they were composed; and trends in musical styles as well as individual composers' personalities over history through listening and discussion. Some concert attendance is required outside of class. An ability to read music is not required, but is recommended. Non-majors only. Only one of MUSIC 1200 and 3020 can count toward graduation. (Typically Offered: Spring)

MUSIC 3040: History of American Rock 'n' Roll

Credits: 3. Contact Hours: Lecture 3.

Rock 'n' Roll from the mid 1950s through the present, focusing on the development of rock styles from its roots in blues and folk music. Explores the various overlaps and cross-overs with other musical traditions including hip-hop, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and socio-political influences. Quizzes and examinations required. Ability to read or perform music not required. (Typically Offered: Fall, Spring)

MUSIC 3180A: Applied Music: Non-majors: Voice

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180B: Applied Music: Non-majors: Piano

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180C: Applied Music: Non-majors: Organ

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180D: Applied Music: Non-majors: Strings

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180E: Applied Music: Non-majors: Carillon

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180F: Applied Music: Non-majors: Woodwinds

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180G: Applied Music: Non-majors: Brass

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180I: Applied Music: Non-majors: Percussion

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3180K: Applied Music: Non-majors: Harpsichord

Credits: 1-2. Contact Hours: Studio 2.

Repeatable.

Prereq: Instructor Permission for Course

(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190A: Applied Music: Majors: Voice

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190B: Applied Music: Majors: Piano

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190C: Applied Music: Majors: Organ

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190D: Applied Music: Majors: Strings

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190E: Applied Music: Majors: Carillon

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190F: Applied Music: Majors: Woodwinds

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190G: Applied Music: Majors: Brass

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190I: Applied Music: Majors: Percussion

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3190K: Applied Music: Majors: Harpsichord

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: Music major; passing grade on continuation exam; Permission of Instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 3210A: Advanced Ensemble: Voice

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210B: Advanced Ensemble: Piano

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210C: Advanced Ensemble: Organ

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210D: Advanced Ensemble: Strings

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210F: Advanced Ensemble: Woodwinds

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210G: Advanced Ensemble: Brass

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210I: Advanced Ensemble: Percussion

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3210J: Advanced Ensemble: Mixed instruments/voice

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Prereq: Instructor Permission for Course

Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students. Advanced proficiency and performing ability required. (Typically Offered: Fall, Spring)

MUSIC 3240: English and Italian Diction for Singing

Credits: 2. Contact Hours: Lecture 2.

Prereq: Credit or enrollment in MUSIC 1180A or MUSIC 1190A

The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing. Offered even-numbered years. (Typically Offered: Fall).

MUSIC 3250: French and German Diction for Singing

Credits: 2. Contact Hours: Lecture 2.

Prereq: Credit or enrollment in MUSIC 1180A or MUSIC 1190A

The international phonetic alphabet and its application to correct pronunciation of French and German in singing. Offered odd-numbered years. (Typically Offered: Spring)

MUSIC 3270A: Functional Piano: Keyboard majors

Credits: 2.

Prereq: MUSIC 2280 or Permission of Instructor

Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.

MUSIC 3270B: Functional Piano: Voice Majors

Credits: 2.

Prereq: MUSIC 2280 or Permission of Instructor

Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization. (Typically Offered: Spring)

MUSIC 3340: Music Theory III

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 2340

Characteristics of common practice chromatic harmony and analytical techniques addressing stylistic practices of music since 1900. Application of these materials to analysis, part writing, and composition. Concurrent enrollment in MUSIC 3350 recommended. (Typically Offered: Fall)

MUSIC 3350: Aural Theory III

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC 2350; credit or concurrent enrollment in MUSIC 3340

Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and nineteenth centuries. (Typically Offered: Fall)

MUSIC 3440: Music Theory IV

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 3340

Improvisation on existing materials in a variety of styles and arranging for vocal and instrumental ensembles while learning the characteristics of each instrument including voice. Concurrent enrollment in MUSIC 3450 recommended. (Typically Offered: Spring)

MUSIC 3450: Aural Theory IV

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MUSIC 3350; credit or concurrent enrollment in MUSIC 3440

Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the nineteenth and twentieth centuries. (Typically Offered: Spring)

MUSIC 3460: Computer Music Programming Design

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 2460 or Permission of Instructor

Programming and interface design for creative musical applications. Includes computer generation of music data, advanced MIDI data processing, practical projects in musical composition and performance using a visual programming language. (Typically Offered: Spring)

MUSIC 3500: Instrumental Techniques: Strings

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students. (Typically Offered: Fall)

MUSIC 3510: Instrumental Techniques: Clarinet, Flute, Saxophone

Credits: 2.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students. (Typically Offered: Spring)

MUSIC 3520: Instrumental Techniques: Oboe, Bassoon

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students. (Typically Offered: Fall)

MUSIC 3530: Instrumental Techniques: Trumpet, Horn

Credits: 1.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students. (Typically Offered: Fall)

MUSIC 3540: Instrumental Techniques: Trombone, Baritone, Tuba

Credits: 1.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students. (Typically Offered: Spring)

MUSIC 3550: Instrumental Techniques: Percussion

Credits: 1.

Prereq: Music major; concurrent enrollment in MUSIC 3580B or MUSIC 3580C

Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students. (Typically Offered: Spring)

MUSIC 3580A: Lab Ensemble: Choral

Credits: Required. Contact Hours: Laboratory 1.

Repeatable.

Sight singing, conducting, and accompanying experience in conjunction with 3620A and 4650. Required of all vocal music education majors.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

MUSIC 3580B: Lab Ensemble: Instrumental

Credits: Required. Contact Hours: Laboratory 1.

Repeatable.

Performance on secondary instruments and conducting. Includes experiences with wind, string, and percussion instruments and techniques. Required of all instrumental music education majors. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

MUSIC 3600: Voice Pedagogy

Credits: 2.

Prereq: Credit or concurrent enrollment in MUSIC 2190A

Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production. Offered even-numbered years. (Typically Offered: Spring)

MUSIC 3610: Conducting I

Credits: 2.

Prereq: (MUSIC 2340; MUSIC 2350; Music major) or Permission of Instructor

Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor. (Typically Offered: Fall)

MUSIC 3620A: Conducting II: Choral Conducting Techniques

Credits: 2.

Prereq: MUSIC major; MUSIC 3610; concurrent enrollment in MUSIC 3580A; concurrent enrollment in (MUSIC 1410, MUSIC 1510, or MUSIC 1610)

Advanced baton technique, score preparation and interpretation of choral repertoire. Offered odd-numbered years. (Typically Offered: Spring)

MUSIC 3620B: Conducting II: Instrumental Conducting Techniques

Credits: 2.

Prereq: MUSIC major; MUSIC 3610; concurrent enrollment in MUSIC 3580B

Advanced baton technique. Score preparation. Specific problems of large instrumental ensembles. (Typically Offered: Spring)

MUSIC 3660: Methods of Music Education

Credits: 2. Contact Hours: Lecture 2.

Prereq: MUSIC major; MUSIC 2660; concurrent enrollment in MUSIC 4800K

Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools. Admission to Education Preparation Program required. (Typically Offered: Fall)

MUSIC 3670: Choral Literature

Credits: 2. Contact Hours: Lecture 2.

Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor. MUSIC 3610 recommended. Offered even-numbered years. (Typically Offered: Spring)

MUSIC 3680: Marching Band and Jazz Ensemble Techniques

Credits: 2. Contact Hours: Lecture 2.

Prereq: Restricted to music majors

Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles. Credit or enrollment in MUSIC 3620B recommended. Offered odd-numbered years. (Typically Offered: Spring)

MUSIC 3690: String Pedagogy

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Restricted to music majors

Practical examination of current teaching methods and materials. Intended for string instrumental music education majors. Offered odd-numbered years. (Typically Offered: Spring)

MUSIC 3740: Instrumental Methods for Vocalists

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 15 credits.

Prereq: MUSIC major; MUSIC 2800K

Techniques and skills required to teach instrumental music in K-12 schools. Introduction of instruments, score reading and transposition, rehearsal techniques, literature, resources and other related skills. Intended for vocal music education majors and required for Iowa teaching license. Admission to Education Preparation Program required. (Typically Offered: Fall)

MUSIC 3750: Choral Methods for Instrumentalists

Credits: 1. Contact Hours: Lecture 1.

Prereq: MUSIC major; MUSIC 2800K

Techniques and skills required to teach vocal/choral music in K-12 schools. Vocal production and health, rehearsal techniques, repertoire, resources and other related skills. Intended for instrumental music education majors and required for Iowa teaching license. Admission to Educator Preparation Program required. (Typically Offered: Spring)

MUSIC 3800K: Pre-Student Teaching Experience II: Music

(Cross-listed with EDUC 3800K).

Credits: 1-2. Contact Hours: Lecture 1, Studio 8.

Prereq: Admitted to the Educator Preparation Program

Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 2. Offered on a satisfactory-fail basis only.

MUSIC 3830: History of Music I

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MUSIC 1200; Music major) or Permission of Instructor

History of the stylistic and cultural development of music: Middle Ages through Baroque. Meets International Perspectives Requirement. (Typically Offered: Fall)

MUSIC 3840: History of Music II

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MUSIC 1200; Music major) or Permission of Instructor

History of the stylistic and cultural development of music: Classical through contemporary music. Meets International Perspectives Requirement. (Typically Offered: Spring)

MUSIC 4150A: Literature and Pedagogy in Applied Music: Voice

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150B: Literature and Pedagogy in Applied Music: Piano

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150C: Literature and Pedagogy in Applied Music: Organ

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150D: Literature and Pedagogy in Applied Music: Strings

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150E: Literature and Pedagogy in Applied Music: Carillon

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150F: Literature and Pedagogy in Applied Music: Woodwinds

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150G: Literature and Pedagogy in Applied Music: Brass

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150I: Literature and Pedagogy in Applied Music: Percussion

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4150J: Literature and Pedagogy in Applied Music: Jazz Pedagogy and Performance

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

Includes experience in technology relative to the particular discipline. (Typically Offered: Fall, Spring)

MUSIC 4170R: Student Teaching: Music-Elementary

(Dual-listed with EDUC 5170R/ MUSIC 5170R). (Cross-listed with EDUC 4170R).

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences. (Typically Offered: Fall, Spring)

MUSIC 4170S: Student Teaching: Music-Secondary

(Dual-listed with EDUC 5170S/ MUSIC 5170S). (Cross-listed with EDUC 4170S).

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences. (Typically Offered: Fall, Spring)

MUSIC 4190A: Applied Music: Voice

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190B: Applied Music: Piano

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190C: Applied Music: Organ

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190D: Applied Music: Strings

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190E: Applied Music: Carillon

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190F: Applied Music: Woodwinds

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190G: Applied Music: Brass

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190I: Applied Music: Percussion

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4190K: Applied Music: Harpsichord

Credits: 1-3. Contact Hours: Studio 2.

Repeatable.

Prereq: MUSIC major; Permission of instructor

(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required. Audition required. (Typically Offered: Fall, Spring)

MUSIC 4200: Junior/Senior Recital

Credits: Required. Contact Hours: Laboratory 1.

Repeatable.

Prereq: Concurrent enrollment in MUSIC 2190, MUSIC 3190, or MUSIC 4190

Performance of advanced repertory in a public concert. Preparation of program notes. Advanced performing ability required. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

MUSIC 4340: Applied Theory: Improvising and Arranging

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 3440 and MUSIC 3450

Practical uses for music theory. Emphasis on arranging for vocal and instrumental ensembles and creating improvisations on existing materials in a variety of styles. (Typically Offered: Spring)

MUSIC 4400: Seminar in Music Theory

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: MUSIC 3440 and MUSIC 3450

Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering. Offered even-numbered years. (Typically Offered: Fall)

MUSIC 4460: Sound Synthesis Design for Electronic Music

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 2460 or Permission of Instructor

Digital sound synthesis structures for creative musical applications. Includes modular sound synthesis techniques, software synthesizer design, and practical projects in electronic music composition. (Typically Offered: Fall)

MUSIC 4640: Instrumental Administration, Materials, and Methods

Credits: 2. Contact Hours: Lecture 2.

Prereq: Restricted to music majors

Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students. Credit or enrollment in MUSIC 3620B recommended. Offered even-numbered years. (Typically Offered: Spring)

MUSIC 4650: Choral Materials and Methods

Credits: 2. Contact Hours: Lecture 2.

Prereq: MUSIC major; MUSIC 3660; concurrent enrollment in MUSIC 3580A

Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students. (Typically Offered: Fall)

MUSIC 4660: Program Development and Evaluation in Music Education

Credits: 2. Contact Hours: Lecture 2.

Prereq: MUSIC 3620; credit or concurrent enrollment in MUSIC 3660; concurrent enrollment in MUSIC 4800K

Developing a rationale for music education; music program development; evaluation of music curricula, programs and facilities; professional growth of the teacher; preparation for student teaching and the job market. Required observations in area schools. (Typically Offered: Fall)

MUSIC 4720: History of American Music

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 1010 or MUSIC 2240

History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles. Ability to read music required. Meets U.S. Diversity Requirement.

MUSIC 4730: Topics in Advanced Music History

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 3830, MUSIC 3840

Detailed topic-based study of major composers and compositions from 1600 to the present with a strong research component.

MUSIC 4740X: Music and Neuroscience

(Cross-listed with KIN 4740X).

Credits: 3. Contact Hours: Lecture 3.

Understanding how music is processed in the brain and the implications for healthy care and education. Online discussions about how music changes all aspects of the brain from neurotransmitters to cortical reorganization. (Typically Offered: Fall)

MUSIC 4750: Music of the Romantic Era

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 3830, MUSIC 3840

Offered F. 2012. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910.

MUSIC 4760: Music of the Twentieth Century

Credits: 3. Contact Hours: Lecture 3.

Prereq: MUSIC 3830, MUSIC 3840

Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present.

MUSIC 4800K: Pre-Student Teaching Experience III: Music

(Cross-listed with EDUC 4800K).

Credits: 1-2. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Participation in a K-12 school setting. Permission of Music coordinator required prior to enrollment. Clinical Experience Level 3. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

MUSIC 4900A: Independent Study: Education

(Cross-listed with EDUC 4900A).

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

Music. (Typically Offered: Fall, Spring, Summer)

MUSIC 4900B: Independent Study: Theory

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900C: Independent Study: Composition

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900D: Independent Study: History

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900E: Independent Study: Literature

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900F: Independent Study: Applied Music

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900G: Independent Study: Conducting

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900H: Independent Study: Honors

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

MUSIC 4900I: Independent Study: Electronic Music

Credits: 1-30. Repeatable.

Prereq: 12 credits in MUSIC; Department Permission

(Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:**MUSIC 5170R: Student Teaching: Music-Elementary**

(Dual-listed with EDUC 4170R/ MUSIC 4170R). (Cross-listed with EDUC 5170R).

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences. (Typically Offered: Fall, Spring)

MUSIC 5170S: Student Teaching: Music-Secondary

(Dual-listed with EDUC 4170S/ MUSIC 4170S). (Cross-listed with EDUC 5170S).

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences. (Typically Offered: Fall, Spring)

MUSIC 5900A: Special Topics: Education

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900B: Special Topics: Theory

Credits: 1-30. Repeatable.

Prereq: Permission of Instructor; Permission of Department Chair

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900C: Special Topics: Composition

Credits: 1-30. Repeatable.

Prereq: Permission of Instructor; Permission of Department Chair

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900D: Special Topics: History

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900E: Special Topics: Literature

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900F: Special Topics: Applied Music

Credits: 1-30. Repeatable.

Prereq: Permission of Instructor; Permission of Department Chair

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900G: Special Topics: Conducting

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

MUSIC 5900I: Special Topics: Electronic Music

Credits: 1-30. Repeatable.

Prereq: Permission of Instructor; Permission of Department Chair

(Typically Offered: Fall, Spring, Summer)

Natural Resource Ecology and Management (NREM)

Courses primarily for undergraduates:

NREM 1040: Practical Work Experience

Credits: Required.

Three months of relevant work experience in natural resources, animal ecology, or forestry. Study at a summer biological station may be applicable. See advisor for specific requirements and approval process.

NREM 1100: Orientation in Natural Resource Ecology and Management

Credits: 1. Contact Hours: Lecture 1.

Orientation to the University and to the Department of Natural Resource Ecology and Management. Discussion of departmental learning outcomes, strategies for academic success and academic planning. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NREM 1110: NREM Transitions Learning Community Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Enrollment limited to members of the NREM Transitions Learning Community. Designed to assist new transfer students and continuing sophomore students with their transition to the academic expectations and professional development aspects of the natural resource program. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NREM 1150: Explorations in Natural Resource Ecology & Management

Credits: 1. Contact Hours: Lecture 1.

Prereq: (Animal Ecology or Forestry major); Permission of Instructor

Interact with faculty in the Department of Natural Resource Ecology and Management through lectures, discussions, and field experiences. Offered during the second half of Spring semester. (Typically Offered: Spring)

NREM 1200: Introduction to Renewable Resources

(Cross-listed with AGRON 1200/ ENVS 1200).

Credits: 3. Contact Hours: Lecture 3.

Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management. (Typically Offered: Fall, Spring)

NREM 1300: Natural Resources and Agriculture

(Cross-listed with ENVS 1300).

Credits: 3. Contact Hours: Lecture 3.

Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors. (Typically Offered: Spring)

NREM 2070: Natural Resource Management under the North American Model of Conservation

Credits: 1. Contact Hours: Lecture 1.

Introduction to North American model of conservation, current funding for natural resource management, role of hunting and angling in the North American model, critique and refinement of the model for the 21st century, and introduction to natural resource leadership, and outdoor skills and recreation. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NREM 2110: Careers in Natural Resources

Credits: 1. Contact Hours: Lecture 1.

Prereq: Sophomore classification

Career planning exploration in natural resources. Discussion of the job application process, including techniques for successful interviewing and development of an effective resume. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NREM 2400: Quantitative Problem Solving in Natural Resources

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: (STAT 1010 or STAT 1040) or Permission of Instructor

Applied quantitative problem-solving skills for natural resource management. Focus on group and individual exercises, with practical problems in geography, hydrology, forestry and ecology. Laboratory includes field data collection and computer data processing and modeling. (Typically Offered: Spring)

NREM 2500: Environmental Geography

(Cross-listed with AGRON 2500/ ENVS 2500/ ENSCI 2500).

Credits: 3. Contact Hours: Lecture 3.

The distribution, origins and functions of the earth's physical systems and the spatial relationship between human activity and the natural world. (Typically Offered: Fall)

NREM 2700: Foundations in Natural Resource Policy and History

(Cross-listed with ENVS 2700/ LA 2700).

Credits: 3. Contact Hours: Lecture 3.

The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands. (Typically Offered: Fall)

NREM 3010: Natural Resource Ecology and Soils

(Cross-listed with ENSCI 3010).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Prereq: BIOL 2110, BIOL 2110L; FOR 2010 or a second course in biology

Effects of environmental factors on ecosystem structure and function using forest, prairie and agricultural ecosystems as models. Special emphasis is given to soil-forming factors and the role of soil in nutrient and water cycling and ecosystem dynamics. Additional emphasis is given to human influences on natural ecosystems and the role of perennial plant communities in agricultural landscapes. (Typically Offered: Fall)

NREM 3030: Internship

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: Permission of Instructor; Sophomore classification

Placement with county conservation boards, camps, zoos, parks, etc., for experience as interpreters, rangers, and technicians. (Typically Offered: Fall, Spring, Summer)

NREM 3050: Seminar

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Current topics in natural resources or related issues. (Typically Offered: Fall, Spring)

NREM 3110: Field Ecology in Montana

Credits: 4. Contact Hours: Lecture 2, Laboratory 6.

Prereq: (BIOL 2110; BIOL 2110L; BIOL 2120; BIOL 2120L); Permission of Instructor

Fundamental concepts and principles of ecology dealing with organisms, populations, communities, and ecosystems. Taught at NREM's Rod and Connie French Conservation Education Camp in western Montana. Emphasizes hands-on learning of principles and methods in the field. (Typically Offered: Summer)

NREM 3130: Native Land, Water, and Resources

(Cross-listed with AMIN 3130).

Credits: 3. Contact Hours: Lecture 3.

Examines Native land rights, water rights, and natural resources.

Topics may include Native relations to landscapes, cultural resources and infrastructure projects, land rights, water usage agreements, and resource policies as they apply to on- and off-reservation Native communities. AMIN 2100 recommended. Offered even-numbered years. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

NREM 3150: Genetics for Natural Resource Managers

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2110 and BIOL 2120

Introduction into how genetic techniques and technologies can aid the management of the earth's biotic resources. Topics include an overview of DNA structure, function and inheritance; tools and techniques for measuring genetic diversity; genetic management of wild and captive populations: DNA forensics as management tool. The goal of this course is to prepare managers/biologists to interpret genetic data as they relate to natural resource conservation. (Typically Offered: Fall)

NREM 3180: Introduction to Ecosystems

(Cross-listed with AGRON 3180/ BIOL 3180/ ENSCI 3180).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 12 credits in AECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM

Biological and physical processes affecting material and energy flows in natural and managed ecosystems. Understanding and predicting climate and management impacts on ecosystem services and sustainability. (Typically Offered: Spring)

NREM 3300: Principles of Interpretation

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: 6 credits in BIOL

History, objectives, forms, and techniques of interpretation in the settings of county, state, national parks, and zoos. Principles of effective communication as they apply to natural resource fields including wildlife management, forestry, and wildlife rehabilitation. Planning and use of effective communications and outreach campaigns to manage and conserve natural resources. (Typically Offered: Spring)

NREM 3450: Natural Resource Photogrammetry and Geographic Information Systems

(Cross-listed with ENSCI 3450).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: Junior classification

Measurement and interpretation of aerial photos in resource management. Introduction to Geographic Information Systems (GIS) using ArcGIS including digitizing, development and query of attribute tables, georeferencing, and use of multiple GIS layers in simple spatial analyses. (Typically Offered: Spring)

NREM 3570: Midwestern Prairie Plants

Credits: 1.

Offered 1st half semester only. Survey of the major plant families, genera, and representative species of Midwestern prairies with emphasis on plant identification. Prairie management for multiple species of plants and wildlife. (Typically Offered: Fall)

NREM 3750X: Environmentalism in Music

Credits: 1. Contact Hours: Lecture 1.

Environmentalism (environmental or ecological activism) is a common topic in popular music. In this seminar, students choose recorded music with an environmental or ecological theme, present their piece to the class, and lead a discussion focused on interpreting lyrics and sound. Through analysis of music from diverse eras, genres, and cultures, students learn about historical events, evaluate attitudes and actions regarding natural resource stewardship and biodiversity preservation, and explore concepts of environmental justice and human dependence on healthy ecosystems for physical and emotional well-being. (Typically Offered: Spring)

NREM 3800: Field Ecology Research and Teaching

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: BIOL 2110 or Department Permission

Students work in teams to conduct ecological research projects at a local field site, and develop related teaching modules/lesson plans. Research and teaching activity objectives, methods, and results are shared with diverse audiences as presentations, written reports, and web-based documents, and used to engage K-12 students and community members via field days and visits to schools and other institutions. (Typically Offered: Fall)

NREM 3850: Natural Resource Policy

(Dual-listed with NREM 5850).

Credits: 3. Contact Hours: Lecture 3.

Development, theory and practice of natural resource policy. Integrative approach with topical policy studies in North American wildlife, forestry, and water. Policy formation, the role of science, introduction to federal law compliance. (Typically Offered: Spring)

NREM 3900: Fire Ecology and Management

Credits: 3. Contact Hours: Lecture 3.

Characteristics and role of fire in forest ecosystems. Major topics covered include fuels, fire weather, fire behavior, fire danger rating systems, fire control, prescribed burning, and fire dynamics in major ecosystem types. (Typically Offered: Fall)

NREM 4020: Watershed Hydrology

(Dual-listed with GEOL 5020/ ENSCI 5020/ MTEOR 5020/ NREM 5020).

(Cross-listed with ENSCI 4020/ MTEOR 4020/ GEOL 4020).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. (Typically Offered: Fall)

NREM 4070: Watershed Management

(Cross-listed with ENSCI 4070/ ENVS 4070).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Prereq: 1 course in BIOL

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers. (Typically Offered: Spring)

NREM 4460: Integrating GPS and GIS for Natural Resource Management

(Dual-listed with NREM 5460/ ENSCI 5460). (Cross-listed with ENSCI 4460).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: 12 credits in student's major (AECL/FOR) at 3000 level or above

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation. (Typically Offered: Fall)

NREM 4520: Ecosystem Management: Integrating Ecology, Society, and Policy

(Dual-listed with FOR 5520/ NREM 5520). (Cross-listed with FOR 4520).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: Junior or Senior classification; (NREM 1200 or BIOL 1730)

Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints. (Typically Offered: Spring)

NREM 4550: Stream restoration

(Dual-listed with NREM 5550).

Credits: 2. Contact Hours: Lecture 2.

Prereq: CE 3720 or GEOL 4020 or NREM 4070 or AECL 4180 or ABE 4310

interdisciplinary introduction to the science and practice of stream restoration, with emphasis on restoring physical and biological integrity and ecosystem services to streams and riparian corridors. Lecture highlights philosophical, scientific, and engineering principles. Offered odd-numbered years. (Typically Offered: Fall)

NREM 4550L: Stream Restoration Lab

(Dual-listed with NREM 5550L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: CE 3720 or GEOL 4020 or NREM 4070 or AECL 4180 or ABE 4310

Introduction to measurement and analysis of stream form and function for restoration and rehabilitation. Includes field data collection, map and image analysis, and computation for assessment of channel stability, biotic integrity, and recovery potential. Offered odd-numbered years. (Typically Offered: Fall)

NREM 4600: Controversies in Natural Resource Management

(Cross-listed with ENVS 4600).

Credits: 3. Contact Hours: Lecture 3.

Prereq: AECL 3120 or NREM 3010, NREM 1200, and Junior classification

Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed. (Typically Offered: Fall, Spring)

NREM 4660: Ecosystem Services

(Dual-listed with ENSCI 5660/ NREM 5660). (Cross-listed with ENSCI 4660).

Credits: 3. Contact Hours: Lecture 2, Discussion 1.

Prereq: 15 credits in AECL, AGRON, BIOL, CHEM, FOR, GEOL, NREM

Ecosystem services are the societal benefits provided by natural and managed ecosystems. Benefits such as provision of food, purification of air and water, and regulation of climate are essential to human survival and prosperity, but rely upon maintenance of healthy ecosystems. This course will cover the science, policy, and practice of ecosystem services assessment and management, with a special focus on biodiversity, water quality, food production, and climate. Offered odd-numbered years. (Typically Offered: Spring)

NREM 4710: Agroforestry Systems

(Dual-listed with NREM 5710/ SUSAG 5710).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in biological science at 3000 level or above

Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry. Offered even-numbered years. Meets International Perspectives Requirement. (Typically Offered: Spring)

NREM 4830: Science + Design: Interpretation of Natural Resources in Montana

(Cross-listed with ARTGR 4830).

Credits: 3. Contact Hours: Lecture 1, Studio 4.

Prereq: Enrollment in ARTGR major; ARTGR 2710 or BIOL 2110; Permission of Instructor.

Interdisciplinary service-learning. Design and production of natural resource related interpretive signs for Montana natural areas. Field-work experience followed by on-campus studio. (Typically Offered: Fall)

NREM 4850: Undergraduate Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 times.

Prereq: Major in Animal Ecology or Forestry; Junior or Senior classification; Permission of Instructor

Weekly seminars on current research topics in natural resource ecology and management. Style and best practice in oral research communication. Skills and principles for evaluating research merit and quality of technical communication. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

NREM 4890: Survey of Remote Sensing Technologies

(Cross-listed with EE 4890/ ENSCI 4890/ GEOL 4890/ MTEOR 4890).

Credits: 3. Contact Hours: Lecture 3.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S. (Typically Offered: Fall)

NREM 4890L: Satellite Remote Sensing Laboratory

(Cross-listed with EE 4890L/ GEOL 4890L/ MTEOR 4890L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Completion or concurrent enrollment in MTEOR/GEOL/NREM/ EE 4890/5890

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context. (Typically Offered: Fall)

NREM 4900A: Independent Study: Animal Ecology

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Restricted to Junior or Senior classifications, Instructor permission required

NREM 4900B: Independent Study: Forestry

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Restricted to Junior or Senior classifications, Instructor permission required

NREM 4900E: Independent Study: Entrepreneurship

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Restricted to Junior or Senior classifications, Instructor permission required

NREM 4900H: Independent Study: Honors Program

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Restricted to Junior or Senior classifications, Instructor permission required

NREM 4960A: Travel Course: International

(Dual-listed with NREM 5960A).

Credits: 1-5. Repeatable, maximum of 3 times.

Prereq: Instructor Permission for Course

Limited enrollment. Extended field trips to study ecological and management topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students. Meets International Perspectives Requirement.

NREM 4960B: Travel Course: Domestic

(Dual-listed with NREM 5960B).

Credits: 1-5. Repeatable, maximum of 3 times.

Prereq: Instructor Permission for Course

Limited enrollment. Extended field trips to study ecological and management topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

NREM 4980: Cooperative Education

Credits: 1-3. Repeatable.

Prereq: Department Chair Permission for Course

Required of all cooperative education students. Students must register prior to commencing each work period. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

NREM 5020: Watershed Hydrology

(Dual-listed with GEOL 4020/ ENSCI 4020/ MTEOR 4020/ NREM 4020).

(Cross-listed with ENSCI 5020/ MTEOR 5020/ GEOL 5020).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. (Typically Offered: Fall)

NREM 5040: Forest Landscapes, Wildlife, and Silviculture

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Desired forest habitat conditions for fish and wildlife. Silvicultural approaches to protecting/improving such habitats. Focus on key forest elements related to animal species, groups and overall diversity. The lab focuses on team observations and discussions of diverse habitats including one weekend field trip. Offered odd-numbered years. (Typically Offered: Fall)

NREM 5050: Seminar

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable, maximum of 3 times.

Current topics in natural resources research and management. (Typically Offered: Fall, Spring)

NREM 5070: Watershed Management

(Cross-listed with ENSCI 5070).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers. (Typically Offered: Spring)

NREM 5330: Erosion and Sediment Transport

(Cross-listed with ABE 5330/ ENSCI 5330).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Soil erosion processes, soil loss equations and their application to conservation planning, sediment properties, initiation of sediment motion and over land flow, flow in alluvial channels and theory of sediment transport, channel stability, reservoir sedimentation, wind erosion, BMPs for controlling erosion. Offered even-numbered years. (Typically Offered: Fall)

NREM 5350: Restoration Ecology

(Cross-listed with EEOB 5350/ ENSCI 5350).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies. Offered even-numbered years. (Typically Offered: Fall)

NREM 5420A: Introduction to Molecular Biology Techniques: DNA Techniques

(Cross-listed with BMS 5420A/ EEOB 5420A/ FSHN 5420A/ GDCB 5420A/ HORT 5420A/ BBMB 5420A/ NUTRS 5420A/ VDPAM 5420A/ VMPM 5420A).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NREM 5420B: Introduction to Molecular Biology Techniques: Protein

(Cross-listed with BMS 5420B/ EEOB 5420B/ FSHN 5420B/ GDCB 5420B/ HORT 5420B/ BBMB 5420B/ NUTRS 5420B/ VDPAM 5420B).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only. (Typically Offered: Spring, Summer)

NREM 5420C: Introduction to Molecular Biology Techniques: Cell Techniques

(Cross-listed with BMS 5420C/ EEOB 5420C/ FSHN 5420C/ GDCB 5420C/ HORT 5420C/ BBMB 5420C/ NUTRS 5420C/ VMPM 5420C/ VDPAM 5420C).

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. ular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NREM 5420D: Introduction to Molecular Biology Techniques: Plant Transformation

(Cross-listed with BMS 5420D/ EEOB 5420D/ FSHN 5420D/ GDCB 5420D/ HORT 5420D/ BBMB 5420D/ NUTRS 5420D/ VMPM 5420D/ VDPAM 5420D).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of tranformants. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

NREM 5420E: Introduction to Molecular Biology Techniques: Proteomics

(Cross-listed with BMS 5420E/ EEOB 5420E/ FSHN 5420E/ GDCB 5420E/ HORT 5420E/ BBMB 5420E/ NUTRS 5420E/ VMPM 5420E/ VDPAM 5420E).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NREM 5420F: Introduction to Molecular Biology Techniques: Metabolomics

(Cross-listed with BMS 5420F/ EEOB 5420F/ FSHN 5420F/ GDCB 5420F/ HORT 5420F/ BBMB 5420F/ NUTRS 5420F/ VMPM 5420F/ VDPAM 5420F).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NREM 5420G: Introduction to Molecular Biology Techniques: Genomic

(Cross-listed with BMS 5420G/ EEOB 5420G/ FSHN 5420G/ GDCB 5420G/ HORT 5420G/ BBMB 5420G/ NUTRS 5420G/ VMPM 5420G/ VDPAM 5420G).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

NREM 5460: Integrating GPS and GIS for Natural Resource Management
(Dual-listed with NREM 4460/ ENSCI 4460). (Cross-listed with ENSCI 5460).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Emphasis on the use of GPS as a data collection tool for GIS. Basic theory of GPS. Use of Global Positioning System technology for spatial data collection and navigation. Post-processing and real-time correction of GPS data. GPS data transfer to GIS for mapping applications. Use of GIS to construct waypoints for use in GPS navigation. (Typically Offered: Fall)

NREM 5520: Ecosystem Managemnt

(Dual-listed with FOR 4520/ NREM 4520). (Cross-listed with FOR 5520).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Principles of planning, regulating, and decision-making associated with public and private lands, with consideration of forest, grassland, wetland, and freshwater aquatic ecosystems. Integrated natural resources management within ecological, social, economic and policy constraints. (Typically Offered: Spring)

NREM 5550: Stream Restoration

(Dual-listed with NREM 4550).

Credits: 2. Contact Hours: Lecture 2.

interdisciplinary introduction to the science and practice of stream restoration, with emphasis on restoring physical and biological integrity and ecosystem services to streams and riparian corridors. Lecture highlights philosophical, scientific, and engineering principles. Offered odd-numbered years. (Typically Offered: Fall)

NREM 5550L: Stream Restoration Lab

(Dual-listed with NREM 4550L).

Credits: 1. Contact Hours: Laboratory 3.

Introduction to measurement and analysis of stream form and function for restoration and rehabilitation. Includes field data collection, map and image analysis, and computation for assessment of channel stability, biotic integrity, and recovery potential. Offered odd-numbered years. (Typically Offered: Fall)

NREM 5660: Ecosystem Services

(Dual-listed with ENSCI 4660/ NREM 4660). (Cross-listed with ENSCI 5660).

Credits: 3. Contact Hours: Lecture 2, Discussion 1.

Ecosystem services are the societal benefits provided by natural and managed ecosystems. Benefits such as provision of food, purification of air and water, and regulation of climate are essential to human survival and prosperity, but rely upon maintenance of healthy ecosystems. This course will cover the science, policy, and practice of ecosystem services assessment and management, with a special focus on biodiversity, water quality, food production, and climate. Offered odd-numbered years. (Typically Offered: Spring)

NREM 5700: Advanced Decision-making in Natural Resource Allocation

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Analytical approach to economic aspects of forest resource management problems. Theory and application of economic decision-making criteria to traditional and modern forest resource management issues. Current problems in the allocation of forest resources. Offered even-numbered years. (Typically Offered: Spring)

NREM 5710: Agroforestry Systems

(Dual-listed with NREM 4710/ SUSAG 4710). (Cross-listed with SUSAG 5710).

Credits: 3. Contact Hours: Lecture 3.

Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry. Offered even-numbered years. Meets International Perspectives Requirement. (Typically Offered: Spring)

NREM 5830: Science + Design: Interpretation of Natural Resources in Montana

(Cross-listed with ARTGR 5830).

Credits: 3. Contact Hours: Lecture 1, Studio 4.

Interdisciplinary service-learning. Design and production of natural resource related interpretive signs for Montana natural areas. Field-work experience followed by on-campus studio. (Typically Offered: Fall)

NREM 5850: Natural Resource Policy

(Dual-listed with NREM 3850).

Credits: 3. Contact Hours: Lecture 3.

Development, theory and practice of natural resource policy. Integrative approach with topical policy studies in North American wildlife, forestry, and water. Policy formation, the role of science, introduction to federal law compliance. (Typically Offered: Spring)

NREM 5890: Survey of Remote Sensing Technologies

(Cross-listed with EE 5890/ ENSCI 5890/ GEOL 5890/ MTEOR 5890).

Credits: 3. Contact Hours: Lecture 3.

Electromagnetic-radiation principles, active and passive sensors, multispectral and hyperspectral sensors, imaging radar, SAR, thermal imaging, lidar. Examples of applications. Also offered online S. (Typically Offered: Fall)

NREM 5890L: Satellite Remote Sensing Laboratory

(Cross-listed with EE 5890L/ GEOL 5890L/ MTEOR 5890L).

Credits: Required. Contact Hours: Laboratory 3.

Processing and analysis of satellite sensor data (optical and radar). Provides practical applications in an environmental context. (Typically Offered: Fall)

NREM 5900A: Special Topics: Animal Ecology

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

NREM 5900B: Special Topics: Forestry

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

NREM 5930: Workshop

Credits: 1-3. Repeatable.

NREM 5960A: Travel Course: International

(Dual-listed with NREM 4960A).

Credits: 1-5. Repeatable, maximum of 3 times.

Limited enrollment. Extended field trips to study ecological and management topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

NREM 5960B: Travel Course: Domestic

(Dual-listed with NREM 4960B).

Credits: 1-5. Repeatable, maximum of 3 times.

Limited enrollment. Extended field trips to study ecological and management topics in varied environments. Location and duration of trips will vary. Pre-trip sessions arranged. Trip expenses paid by students.

NREM 5980: Natural Resource Ecology and Management Teaching Practicum

Credits: 1.

Prereq: Graduate classification and Permission of Instructor

Graduate student experience in teaching. Student must plan and present at least one unit of subject matter in a course or extension workshop.

Teaching practicum must be documented by the student and approved by the student's POS committee. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

NREM 5990: Creative Component

Credits: 1-30. Repeatable.

Courses for graduate students:**NREM 6000: Seminar**

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Current topics in natural resources research and management. (Typically Offered: Fall, Spring)

NREM 6980: Natural Resource Ecology and Management Teaching Practicum

Credits: 1.

Prereq: Graduate classification and Permission of Instructor

Graduate student experience in teaching. Student must plan and present substantive subject matter for a minimum of three weeks in lecture and/or laboratory formats, or a series of extension seminars/workshops.

Teaching practicum must be documented by the student and approved by the student's POS committee. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NREM 6990: Research

Credits: 1-12. Repeatable, maximum of 12 credits.

Naval Science (NS)

Courses primarily for undergraduates:**NS 1110: Introduction to Naval Science**

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components. (Typically Offered: Fall)

NS 2120: Seapower and Maritime Affairs

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation's history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, the evolution of naval tactics, and the influence of maritime affairs around the world. (Typically Offered: Spring)

NS 2200: Leadership and Management

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Introduction to the basic concepts of management and organization, their application to operations and personnel management. Experiential approach to learning principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation. (Typically Offered: Fall)

NS 2300: Navigation

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Prereq: Sophomore classification

Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents. (Typically Offered: Spring)

NS 2400: Fundamentals of Maneuver Warfare

Credits: 3. Contact Hours: Lecture 3.

Prereq: NS 1110

Concepts, definition, and need for maneuver warfare and expeditionary operations. US Marine Corps case studies of specific battles, development, and implementation. Structure, operation and capabilities of the Marine expeditionary unit, Marine air-ground task force and expeditionary strike group. Discussion and incorporation of leadership traits and principles. Offered odd-numbered years. (Typically Offered: Spring)

NS 3200: Naval Ship Systems I (Engineering)

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Prereq: PHYS 2310; PHYS 2310L; Sophomore classification

An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentalization, electrical and auxiliary systems. (Typically Offered: Fall)

NS 3210: Evolution of Warfare

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: Sophomore classification

Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology. Offered even-numbered years. (Typically Offered: Spring)

NS 3300: Naval Ship Systems II (Weapons)

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Prereq: PHYS 2310; Sophomore classification

Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance. (Typically Offered: Spring)

NS 4100: Naval Operations and Seamanship

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Prereq: NS 2300; Senior classification

Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine. (Typically Offered: Fall)

NS 4120: Leadership and Ethics

Credits: 3. Contact Hours: Lecture 3, Laboratory 3.

Prereq: NS 1110; (HIST 3890 or NS 2120); NS 2200; NS 2300; NS 3200; NS 3300; NS 4100

Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning. (Typically Offered: Spring)

NS 4400: Senior Naval Science Seminar

Credits: 1. Contact Hours: Lecture 1.

Current leadership issues in the US Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations. (Typically Offered: Fall, Spring)

NS 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 6 credits in NS; Permission of Department Chair; Senior classification

Graduation Restriction: No more than 9 credits of NS 4900 may be counted toward graduation.

Neuroscience (NEURO)

Courses primarily for graduate students, open to qualified undergraduates:

NEURO 5560: Cellular, Molecular and Developmental Neuroscience

(Cross-listed with BMS 5560/ GDCB 5560).

Credits: 3. Contact Hours: Lecture 3.

Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, and regulatory systems. Offered odd-numbered years. (Typically Offered: Fall)

NEURO 5570: Rotations in Neuroscience

(Cross-listed with GDCB 5570).

Credits: 2. Contact Hours: Lecture 2.

Rotation experiences in various neuroscience research methods and techniques related to our current faculty specialties. (Typically Offered: Fall, Spring)

NEURO 5890: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology

(Cross-listed with FSHN 5890/ GERON 5890/ NUTRS 5890/ PSYCH 5890).

Credits: 2. Contact Hours: Lecture 2.

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders. (Typically Offered: Spring)

Courses for graduate students:

NEURO 6610: Advanced Topics in Neuroscience

(Cross-listed with BBMB 6610/ KIN 6610/ GDCB 6610).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: NEURO 5560 (or comparable course) or permission of instructor

Students will present three journal articles and two overview lectures on topics in neuroscience that are related but outside of their own research interest. Offered even-numbered years. (Typically Offered: Spring)

NEURO 6960: Neuroscience Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Seminar in neuroscience, current research interests, and/or professional development. (Typically Offered: Fall, Spring)

NEURO 6990: Research

Credits: 1. Repeatable.

Prereq: Instructor Permission for Course

Nursing (NRS)

Courses primarily for undergraduates:

NRS 2500: Orientation to RN - to - BSN Nursing

Credits: 1. Contact Hours: Lecture 1.

Prereq: accepted into Nursing major

Prepares the learner for the academic experience. Topics will include an introduction to learner-centered instruction, support services, communication, time management, and evaluation and assessment methods. Requirements of all nursing courses such as APA formatting and citation of sources will also be included. BSN students will successfully complete orientation prior to or concurrent with their first nursing course. (Typically Offered: Fall)

NRS 3200: Essential Concepts for Professional Nursing Practice

Credits: 3. Contact Hours: Lecture 3.

Prereq: accepted into Nursing major

Exploration of the philosophical, conceptual, and theoretical bases for baccalaureate nursing practice. Key concepts impacting the nursing profession and healthcare are examined from both historical and contemporary perspectives. Topics include professional role development, interprofessional collaboration and teamwork, quality and safety, effective communication, and provision of culturally competent and patient-centered care. (Typically Offered: Fall)

NRS 3400: Nursing Research and Evidence-Based Practice

Credits: 4. Contact Hours: Lecture 4.

Prereq: accepted into Nursing major

Introduction to the critical thought processes and methods used in nursing research. Basic concepts and terminology of research methodology and analysis are presented. Theory as a basis for research is examined. Students are given the opportunity to interpret and evaluate nursing research. Strategies for implementation of evidence based nursing practice to support quality and transformation in health care are explored. (Typically Offered: Fall)

NRS 4200: Promoting a Culture of Health and Wellness

Credits: 3. Contact Hours: Lecture 3.

Prereq: accepted into Nursing major

Health promotion and illness prevention across the lifespan are examined in the context of the theoretical foundations, historical and contemporary practice and patient-centered care. Specific and evidence-based guidelines for supporting or improving health and well-being are explored and considered for both care recipients and care givers. Attention is given to the roles of the health care provider and care recipient in screening, communication, and counseling. The use of complementary or alternative therapeutics in assisting clients to achieve goals of health, healing and wellness is explored, as are spiritual and cultural beliefs and practices. (Typically Offered: Fall)

NRS 4400: Population and Community Health Nursing

Credits: 3. Contact Hours: Lecture 3.

Prereq: NRS 3400 and NRS 4200

Using nursing process and an evidence-based framework, the student will explore epidemiology and genetics; health promotion and disease prevention within population groups; community assessment and intervention; and factors influencing health services access and delivery in the United States and globally. Individual and family case management, community wellness, healthcare access, health literacy and health education will be considered. This course includes project and simulation based practicum experiences. Meets U.S. Diversity Requirement.

NRS 4420: Population and Community Health Nursing Practicum

Credits: 1-2.

Prereq: NRS 4400

Practicum experience to accompany NRS 4400. May include project and simulation-based practicum experiences, local individual practice experiences and/or group immersion experiences. (Typically Offered: Fall, Spring, Summer)

NRS 4600: Nursing Leadership and Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: NRS 3200 and NRS 3400

Explores the knowledge and skills needed to implement leadership and management roles in various health care settings. Current theories of management, leadership and change are examined and related to nursing practice. Includes effective communication and relationship skills, organizational structure, information management, financial management, quality and outcomes measurement, and teamwork. (Typically Offered: Spring)

NRS 4800: Advanced Concepts of Professional Nursing

Credits: 3. Contact Hours: Lecture 3.

Prereq: NRS 4400; NRS 4600

Exploration of professional issues in contemporary nursing through published research, professional standards, literature and narrative evidence, with consideration of legal/ethical influences. Discussion of the change agent process and personal empowerment will be applied to resolution of issues. Emphasis on analysis, sources of credible information, advocacy and empowerment that enables the student to further develop leadership abilities, communication, critical thinking, and decision-making skills.

NRS 4900A: Independent Study: Transition into Professional Practice

Credits: 1-2. Repeatable, maximum of 4 credits.

Prereq: accepted into Nursing major

Independent work in nursing. Graduation Restriction: A maximum of 4 credits of NRS 4900 may be used toward graduation. (Typically Offered: Fall, Spring, Summer)

NRS 4900B: Independent Study: Special Topics in Nursing

Credits: 1-2. Repeatable, maximum of 4 credits.

Prereq: accepted into Nursing major

Independent work in nursing. Graduation Restriction: A maximum of 4 credits of NRS 4900 may be used toward graduation. (Typically Offered: Fall, Spring, Summer)

NRS 4900C: Independent Study: International Experience

Credits: 1-2. Repeatable, maximum of 4 credits.

Prereq: accepted into Nursing major

Independent work in nursing. Graduation Restriction: A maximum of 4 credits of NRS 4900 may be used toward graduation. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

NRS 6020X: Facilitating Learning and Learner Development in Nursing Education

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 2 times.

This course examines the multi dimensional roles of a nurse educator, focusing on the knowledge of teaching and learning theories, principles, and strategies. The course explores the roles and responsibilities of the nurse educator as a teacher, leader, change agent, and curriculum innovator. Emphasis is placed on innovative, transformational, and experiential teaching and learning strategies to support student development in multiple learning environments while addressing the needs of diverse learners. Take concurrently with NRS 6040 and NRS 6060. (Typically Offered: Fall)

NRS 6040X: Curriculum Design and Evaluation of Outcomes in Nursing Education

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 2 times.

This course will provide students with the knowledge and requisite skill set needed to effectively design, develop, implement, and evaluate outcomes in nursing education. Students will analyze concepts of nursing curricula based on national nursing accreditation standards and instructional design best practices to support learning in a diverse, real-world environment while reflecting contemporary trends in nursing education. Take concurrently with NRS 6020 and NRS 6060. (Typically Offered: Fall)

NRS 6060X: Teaching and Learning Strategies: Integrating Technology into Nursing Education

Credits: 3. Repeatable, maximum of 2 times.

This course focuses on the effective use of instructional technology to support learning-centered teaching, such as maximizing the use of current learning-management systems, presentations, and best practices for online teaching and learning. This course emphasizes pedagogically sound applications of instructional technologies from the perspective of theory, research, practice, and future needs. This course requires 45 clinical hours. Take concurrently with NRS 6020 and NRS 6040. (Typically Offered: Fall)

NRS 6100X: Nurse Educator Role: Seminar and Teaching Practicum

Credits: 3. Repeatable, maximum of 2 times.

This course provides students with a guided experience that meets the core competencies of nurse educators. Under the supervision of an experienced educator-preceptor, students will complete a teaching practicum in which they will assess learning styles and needs, teach diverse learners, develop critical thinking skills, socialize learners to the nursing role, and promote professional values within nursing. This course requires 90 clinical hours. (Typically Offered: Spring)

Nutritional Sciences (NUTRS)

Courses primarily for graduate students, open to qualified undergraduates:

NUTRS 5010: Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients

Credits: 4. Contact Hours: Lecture 4.

Integration of the molecular, cellular, and physiologic aspects of energy, macronutrient, and micronutrient metabolism in mammalian systems.

Survey course that includes interactions among nutrients (dietary carbohydrate, fiber, lipid, protein, vitamins, and minerals) and non-nutrients, metabolic consequences of nutrient deficiencies or excesses, relevant polymorphisms, epigenetics, and major research methodologies. (Typically Offered: Fall, Spring, Summer)

NUTRS 5040: Nutrition and Epigenetic Regulation of Gene Expression

Credits: 1. Contact Hours: Lecture 1.

Discussion of epigenetic regulation of gene expression and the role that nutrition plays in this process. Examination of current research literature to understand how different nutrients and physiological states influence epigenetics, as well as, the research methodology used to address these relations. (Typically Offered: Fall, Spring, Summer)

NUTRS 5050: Short Course

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

NUTRS 5180: Digestive Physiology and Metabolism of Non Ruminants

(Cross-listed with ANS 5180).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ANS 4190 or NUTRS 5010 or Graduate Classification

Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine. Offered odd-numbered years. (Typically Offered: Spring)

NUTRS 5200: Digestive Physiology and Metabolism of Ruminants

(Cross-listed with ANS 5200).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: ANS 4190 or NUTRS 5010 or Graduate Classification

Digestive physiology and nutrient metabolism in ruminant and preruminant animals. Offered even-numbered years. (Typically Offered: Spring)

NUTRS 5420A: Introduction to Molecular Biology Techniques: DNA Techniques

(Cross-listed with BMS 5420A/ EEOB 5420A/ FSHN 5420A/ GDCB 5420A/ HORT 5420A/ NREM 5420A/ BBMB 5420A/ VDPAM 5420A/ VMPM 5420A).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NUTRS 5420B: Introduction to Molecular Biology Techniques: Protein

(Cross-listed with BMS 5420B/ EEOB 5420B/ FSHN 5420B/ GDCB 5420B/ HORT 5420B/ NREM 5420B/ BBMB 5420B/ VDPAM 5420B).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only. (Typically Offered: Spring, Summer)

NUTRS 5420C: Introduction to Molecular Biology Techniques: Cell Techniques

(Cross-listed with BMS 5420C/ EEOB 5420C/ FSHN 5420C/ GDCB 5420C/ HORT 5420C/ NREM 5420C/ BBMB 5420C/ VMPM 5420C/ VDPAM 5420C).

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. ular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

NUTRS 5420D: Introduction to Molecular Biology Techniques: Plant Transformation

(Cross-listed with BMS 5420D/ EEOB 5420D/ FSHN 5420D/ GDCB 5420D/ HORT 5420D/ NREM 5420D/ BBMB 5420D/ VMPM 5420D/ VDPAM 5420D).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of tranformants. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

NUTRS 5420E: Introduction to Molecular Biology Techniques: Proteomics

(Cross-listed with BMS 5420E/ EEOB 5420E/ FSHN 5420E/ GDCB 5420E/ HORT 5420E/ NREM 5420E/ BBMB 5420E/ VMPM 5420E/ VDPAM 5420E).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NUTRS 5420F: Introduction to Molecular Biology Techniques:

Metabolomics

(Cross-listed with BMS 5420F/ EEOB 5420F/ FSHN 5420F/ GDCB 5420F/ HORT 5420F/ NREM 5420F/ BBMB 5420F/ VMPM 5420F/ VDPAM 5420F).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

NUTRS 5420G: Introduction to Molecular Biology Techniques: Genomic

(Cross-listed with BMS 5420G/ EEOB 5420G/ FSHN 5420G/ GDCB 5420G/ HORT 5420G/ NREM 5420G/ BBMB 5420G/ VMPM 5420G/ VDPAM 5420G).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

NUTRS 5490: Advanced Vertebrate Physiology I

(Cross-listed with KIN 5490/ ANS 5490).

Credits: 4. Contact Hours: Lecture 4.

Overview of mammalian physiology. Cell biology, endocrinology, cardiovascular, respiratory, immune, digestive, skeletal muscle and reproductive systems. (Typically Offered: Fall)

NUTRS 5610: Medical Nutrition and Disease I

Credits: 4. Contact Hours: Lecture 4, Discussion 0.

Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and improve health. (Typically Offered: Fall, Spring, Summer)

NUTRS 5630: Community Nutrition and Health

(Dual-listed with FSHN 4630).

Credits: 3. Contact Hours: Lecture 3.

Dual listed with FSHN 4630. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

NUTRS 5640: Medical Nutrition and Disease II

(Dual-listed with FSHN 4640).

Credits: 4. Contact Hours: Lecture 4.

Dual listed with FSHN 4640. Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state to optimize nutritional status and promote health. (Typically Offered: Fall, Spring, Summer)

NUTRS 5890: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology

(Cross-listed with FSHN 5890/ GERON 5890/ NEURO 5890/ PSYCH 5890).

Credits: 2. Contact Hours: Lecture 2.

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders. (Typically Offered: Spring)

Courses for graduate students:

NUTRS 6180: Vitamins and Minerals

(Cross-listed with ANS 6180).

Credits: 2. Contact Hours: Lecture 2.

Understanding molecular aspects of vitamin and mineral metabolism and homeostasis in humans and animals. An in-depth examination of the chemistry of vitamins and minerals, including genetic mutations, proteins involved in absorption and excretion, and their necessity in biological processes. Offered even-numbered years. (Typically Offered: Spring)

NUTRS 6190: Advanced Nutrition and Metabolism - Protein

(Cross-listed with ANS 6190).

Credits: 2. Contact Hours: Lecture 2.

Prereq: BBMB 4050

Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism. Offered odd-numbered years. (Typically Offered: Fall)

NUTRS 6200: Advanced Nutrition and Metabolism - Energy

(Cross-listed with ANS 6200).

Credits: 2. Contact Hours: Lecture 2.

Energy constituents of feedstuffs and energy needs of animals as related to cellular biochemistry and physiology. Interpretations of classical and current research. Offered odd-numbered years. (Typically Offered: Fall)

NUTRS 6800: Modern Views of Nutrition

Credits: Required. Contact Hours: Lecture 1.

Repeatable.

Current concepts in nutrition and related fields. (Typically Offered: Fall, Spring, Summer)

NUTRS 6900: Special Problems

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

NUTRS 6950: Grant Proposal Writing

(Cross-listed with FSHN 6950).

Credits: 1. Contact Hours: Lecture 1.

Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Understanding the grant funding process from federal, foundation, and commodity agencies. Includes preparing a grant for possible submission and participation in the review of proposals. Discussion of the role of successful grant writing in career development. (Typically Offered: Fall, Spring)

NUTRS 6990: Research in Nutritional Sciences

Credits: 1-30. Repeatable.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Organization for Tropical Studies (OTS)

Courses primarily for graduate students, open to qualified undergraduates:

OTS 5100: Tropical Biology: An Ecological Approach

Credits: 8. Contact Hours: Lecture 8.

Repeatable.

This course is designed for students in the early stages of graduate study in biology or a related field, with the goal of training graduate students in research methods by providing intensive field experience in diverse tropical ecosystems.

OTS 5150: Topics in Tropical Biology

Credits: 1-8. Contact Hours: Lecture 8.

Repeatable.

This course is designated for students enrolled in graduate course offerings through OTS (excluding OTS 5100). Examples of graduate courses offered by OTS include Tropical Plant Systematics, Tropical Ecology and Conservation, Molecular Methods in Tropical Ecology, and Tropical Agroecology.

Performing Arts (PERF)

Courses primarily for undergraduates:

PERF 1050: Performing Arts Seminar

Credits: Required. Contact Hours: Lecture 0.5.

Repeatable, maximum of 6 times.

Cross-disciplinary exploration of topics in the performing arts taken multiple semesters by Performing Arts majors and minors. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

PERF 3100: Performing Arts Internship

Credits: Required. Repeatable.

Required of performing arts majors. A job or internship with a professional or semi-professional performing arts organization. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PERF 4010: Performing Arts Capstone Seminar

Credits: 2. Contact Hours: Lecture 2.

Prereq: Senior classification

Collaborative study and practice of topics in the performing arts specifically aimed at preparing students for post-undergraduate life. The course culminates in an individual or group capstone project. Required for performing arts majors. (Typically Offered: Spring)

Philosophy (PHIL)

Courses primarily for undergraduates:

PHIL 2010: Introduction to Philosophy

Credits: 3. Contact Hours: Lecture 3.

It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about. (Typically Offered: Fall, Spring, Summer)

PHIL 2060: Introduction to Logic and Scientific Reasoning

Credits: 3. Contact Hours: Lecture 3.

Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies. (Typically Offered: Fall)

PHIL 2070: Introduction to Symbolic Logic

(Cross-listed with LING 2070).

Credits: 3. Contact Hours: Lecture 3.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Linguistics majors should take LING/PHIL 2070 as early as possible. (Typically Offered: Fall, Spring)

PHIL 2300: Moral Theory and Practice

Credits: 3. Contact Hours: Lecture 3.

Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis. (Typically Offered: Fall, Spring, Summer)

PHIL 2350: Ethical Issues in a Diverse Society

Credits: 3. Contact Hours: Lecture 3.

This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

PHIL 3100: Ancient Philosophy

(Cross-listed with CLST 3100).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. (Typically Offered: Fall)

PHIL 3140: 17th Century Philosophy

Credits: 3. Contact Hours: Lecture 3.

Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deities in response to Galileo's new science and post-reformation challenge to ecclesiastical authority. Offered even-numbered years. (Typically Offered: Spring)

PHIL 3150: 18th Century Philosophy

Credits: 3. Contact Hours: Lecture 3.

Readings from philosophers such as Berkeley, Hume, and Kant. Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities. Offered odd-numbered years. (Typically Offered: Spring)

PHIL 3160: 19th Century Continental Philosophy

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

The thought of Hegel, Marx, Nietzsche, and their contemporaries. Various perspectives on the philosophy of history, the nature of reason and subjectivity, the contrast between dialectical and nondialectical philosophy, and the relationship between philosophy and society. (Typically Offered: Fall)

PHIL 3180: History of Analytic Philosophy

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL

Major movements in recent and contemporary philosophy such as realism, logical positivism, ordinary language philosophy, and naturalism. Russell, Wittgenstein, Quine and other leading figures. Topics include knowledge of the material world, mind, language, values, and philosophical method. PHIL 2010 recommended. (Typically Offered: Spring)

PHIL 3200: Existentialism

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

History, development and forms of existential thought. Consciousness, free will, authenticity and bad faith. Readings of major figures in existentialism, such as Kierkegaard, Nietzsche, Dostoevsky, Heidegger, Sartre, and de Beauvoir. (Typically Offered: Fall)

PHIL 3300: Ethical Theory

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Study of major theories of morality and the good life. Includes such topics as moral psychology, practical reasoning, and virtue theory. (Typically Offered: Fall)

PHIL 3310: Moral Problems in Medicine

Credits: 3. Contact Hours: Lecture 3.

In-depth study of some of the central moral problems arising in medicine, e.g., abortion, euthanasia, patients' rights, health care professionals' duties and responsibilities, allocation of medical resources. Major moral theories will be examined and applied. (Typically Offered: Spring)

PHIL 3320: Philosophy of Law

(Cross-listed with CJ 3320).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility. (Typically Offered: Fall, Spring)

PHIL 3340: Environmental Ethics

(Cross-listed with ENVS 3340).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored. (Typically Offered: Fall)

PHIL 3350: Social and Political Philosophy

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Foundational moral issues of social and political life. Topics include justice, political economy, liberty and equality, and democracy, rights, and authority. (Typically Offered: Fall)

PHIL 3360: Bioethics and Biotechnology

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

In-depth study of some central moral issues in the life sciences, e.g., genetic screening and testing, genetically engineered plants and animals, risk analysis, biotechnology patents, research ethics, biodiversity, the impact of biotechnology on society and the environment. Major moral theories will be discussed and applied.

PHIL 3380: Feminist Philosophy

(Cross-listed with WGS 3380).

Credits: 3. Contact Hours: Lecture 3.

A critical, theoretical examination of the philosophical and intellectual commitments that underlie feminist projects. Questions of identity, knowledge, and ethics will be considered from both historical and contemporary perspectives. Topics will include sex and gender, self and other, nature and nurture, masculinity and femininity, equity and justice, patriarchy, oppression, and intersectionality. 3 credits in PHIL or WGS recommended. (Typically Offered: Fall)

PHIL 3390: Liberty and Law in America

(Cross-listed with CJ 3390/ POLS 3390).

Credits: 3. Contact Hours: Lecture 3.

Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

PHIL 3400: Aesthetics

Credits: 3. Contact Hours: Lecture 3.

Aesthetic theory and applies it to everyday life. Theoretical topics include the nature of aesthetic experience, criticism, and expression. Aesthetic experience of such forms of art as poetry and painting, as well as interactions with nature, sports, architecture, and campus sculpture. (Typically Offered: Fall)

PHIL 3430: Philosophy of Technology

Credits: 3. Contact Hours: Lecture 3.

Moral and other philosophical problems related to developments in technology. Topics may include conditions under which technological innovations contribute to human emancipation, relationship of technology and democracy, utility and limits of technical rationality, and problems of ensuring that benefits of technological advance are communally shared. Topics discussed with reference to such issues as contemporary developments in microelectronics, technology transfer to the Third World, etc. (Typically Offered: Fall, Spring)

PHIL 3500: Philosophy of Religion

(Cross-listed with RELIG 3500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. (Typically Offered: Fall)

PHIL 3630: Metaphysics in Science Fiction and Popular Culture

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Examination of metaphysical issues that commonly arise in science fiction and related areas of popular culture, such as the relationship between mind and reality, metaphysical personhood, time, and causation.

PHIL 3640: Metaphysics: God, Minds, and Matter

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

A survey of classical and contemporary views on some basic metaphysical issues. Issues discussed include: Does God exist? Do you have a mind and, if so, how does it relate to your body? What is the nature of cause and effect? Do objects have any essential properties? How can we account for properties objects have in common?. (Typically Offered: Spring)

PHIL 3660: Truth, Belief, and Reason

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

This course focuses on significant topics in theory of knowledge, including the value of true beliefs, the role of sense experience in supporting our theoretical views, and the place of reason in human nature. Historical and contemporary views will be considered. (Typically Offered: Fall)

PHIL 3800: Philosophy of Science

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience. (Typically Offered: Fall)

PHIL 3820: History and Philosophy of the Scientific Revolution

(Cross-listed with HIST 3820).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

The emergence of empirical science as the authoritative methodology for production of knowledge about the natural world in the period between Copernicus and Kant. Scientific progress achieved during the period, including the work of Galileo, Descartes, and Newton. The re-shaping of epistemology in the Western intellectual tradition. Implications for philosophy and historiography. Offered odd-numbered years. (Typically Offered: Spring)

PHIL 3890: Philosophy of Psychology and Psychiatry

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or PSYCH, or Permission of Instructor

Philosophical foundations of 20th century psychology and psychiatry. Introduction to competing schools of thought in psychology and their philosophical assumptions. Examination of philosophical assumptions in the study of psychopathology/abnormal psychology. Offered odd-numbered years. (Typically Offered: Fall)

PHIL 4100: Soul, Mind, and World in Ancient Greek Philosophy

(Cross-listed with CLST 4100).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or CLST, or Permission of Instructor

Prominent theories of soul and mind developed by Greek philosophers in the classical period, roughly 500 BCE-200 CE, and how the philosophers located these theories within their general metaphysical views. Relationship between mind and body and the roles of reason, desire, and emotion. Philosophers to be studied include Plato, Aristotle, and selected others. (Typically Offered: Spring)

PHIL 4300: Value Theory

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in PHIL or Permission of Instructor

Theoretical and normative topics in ethics or political philosophy. (Typically Offered: Spring)

PHIL 4350: Contemporary Political Philosophy

(Cross-listed with POLS 4350).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Prereq: 6 credits in PHIL or POLS, or Permission of Instructor

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions. (Typically Offered: Spring)

PHIL 4500: Agency and Free Will

Credits: 3. Contact Hours: Lecture 3.

Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future? PHIL 2070 strongly encouraged. (Typically Offered: Fall)

PHIL 4650: Brains, Minds, and Computers

Credits: 3. Contact Hours: Lecture 3.

Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine. 3 credits in PHIL recommended. (Typically Offered: Fall)

PHIL 4660: Topics in Epistemology

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

Topics in epistemology. Possible topics include skepticism about the external world, the extent of a priori knowledge, rival accounts of moral knowledge, feminist perspectives on the theory of knowledge, and the value of true belief. Topics vary each time offered. (Typically Offered: Spring)

PHIL 4850: Philosophy of Physics

Credits: 3. Contact Hours: Lecture 3.

Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer). Offered even-numbered years. (Typically Offered: Spring)

PHIL 4900: Independent Study

Credits: 1-4. Repeatable, maximum of 9 credits.

Prereq: 6 credits in PHIL; Permission of Instructor

Guided reading and research on special topics selected to meet needs of advanced students. Graduation Restriction: No more than 9 credits of PHIL 4900 may be counted toward graduation.

PHIL 4900H: Independent Study: Honors

Credits: 1-4. Repeatable, maximum of 9 credits.

Prereq: 6 credits in PHIL; Permission of Instructor

Guided reading and research on special topics selected to meet needs of advanced students. Graduation Restriction: No more than 9 credits of PHIL 4900 may be counted toward graduation.

PHIL 4920: Graduating Senior Survey

Credits: Required. Contact Hours: Lecture 1.

Prereq: Senior classification

Final presentation for graduation and the future. Outcomes assessment activities. (Typically Offered: Fall, Spring)

Courses primarily for graduate students, open to qualified undergraduates:

PHIL 5350: Contemporary Political Philosophy

(Cross-listed with POLS 5350).

Credits: 3. Contact Hours: Lecture 3.

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as egalitarianism, libertarianism, and socialism. Normative assessment of social and political institutions. (Typically Offered: Spring)

PHIL 5900A: Special Topics in Philosophy: History of Philosophy

Credits: 2-4. Repeatable.

PHIL 5900B: Special Topics in Philosophy: Epistemology and Metaphysics

Credits: 2-4. Repeatable.

PHIL 5900C: Special Topics in Philosophy: Value Theory

Credits: 2-4. Repeatable.

PHIL 5900D: Special Topics in Philosophy: Logic and Philosophy of Science

Credits: 2-4. Repeatable.

PHIL 5930: Summer Bioethics Workshop for Teachers

Credits: 2. Contact Hours: Lecture 2.

Topics include moral theory, pedagogical issues in teaching bioethics, and substantive current issues in bioethics. (Typically Offered: Summer)

Physics (PHYS)

Courses primarily for undergraduates:

PHYS 0500: Intro Physics Prep

Credits: 0. Contact Hours: Lecture 3.

An in#depth active learning experience designed to impart the fundamental concepts and principles of physics, with an emphasis on applied mathematical techniques and logical thinking. For students intending to enroll in classical physics (PHYS 2310/2320) who have not taken high school physics, who have not had a high school college preparatory physics course, or who need a review of physics problem solving and physics concepts. 1 year high school algebra recommended. (Typically Offered: Fall, Spring)

PHYS 1010: Physics for the Nonscientist

Credits: 3. Contact Hours: Lecture 3.

Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. (Typically Offered: Fall, Spring, Summer)

PHYS 1020L: Physical Sciences for Elementary Education

(Cross-listed with CHEM 1020L).

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Prereq: MATH 1400 or higher.

Physical science principles for future elementary teachers. Emphasis on experiments that address current elementary science education standards and that are appropriate for their future students to do, such as measurements of mass, length, time, light from atoms, charge and current, motion due to forces, energy and work, heat, waves, optics, building bridges and making musical instruments, studying states of matter and chemical reactions. (Typically Offered: Fall, Spring)

PHYS 1150: Physics for the Life Sciences

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Emphasis on basic physics principles applied to biological problems.

Topics include mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. A coordinated laboratory, PHYS 1150 laboratory is available. 1.5 yr. HS algebra, 1 yr. HS geometry, 1 semester HS trigonometry recommended. (Typically Offered: Fall, Spring)

PHYS 1150L: Laboratory in Physics for the Life Sciences

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or enrollment in PHYS 1150

Experiments related to the elementary topics of physics for the life sciences. Mechanics, fluids, thermodynamics, heat, light, sound, electricity and magnetism. (Typically Offered: Fall, Spring)

PHYS 1310: General Physics I

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound. 1.5 yr. HS algebra, 1 yr. HS geometry, 1 semester HS trigonometry recommended. (Typically Offered: Fall, Spring, Summer)

PHYS 1310L: General Physics I Laboratory

Credits: 1. Contact Hours: Laboratory 2.

Laboratory experiments in elementary kinematics, work and energy, conservation laws, rotational motion, waves and fluids. 1.5 yr. HS algebra, 1 yr. HS geometry, 1 semester HS trigonometry recommended. (Typically Offered: Fall, Spring, Summer)

PHYS 1320: General Physics II

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Prereq: PHYS 1310 or PHYS 2310

General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics. (Typically Offered: Fall, Spring, Summer)

PHYS 1320L: General Physics II Laboratory

Credits: 1. Contact Hours: Laboratory 2.

Prereq: PHYS 1320

Laboratory experiments in Electricity and Magnetism, Wave and Optics. (Typically Offered: Fall, Spring, Summer)

PHYS 1990: Introductory Seminar

Credits: Required.

Gain experience in key skills that physicists/astronomers use routinely, but are rarely explicitly taught in formal courses. Participate in faculty-led discussions on frontier areas and careers. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

PHYS 2210: Introduction to Classical Physics I

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Prereq: MATH 1650; credit or concurrent enrollment in MATH 1660

For engineering and science majors. 3 hours of lecture each week plus 3 recitations every two weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall, Spring, Summer)

PHYS 2220: Introduction to Classical Physics II

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Prereq: MATH 1660; PHYS 2310 or PHYS 2410

3 hours of lecture each week plus 1 recitation each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields; LR, LC, LCR circuits; Maxwell's equations; wave optics. (Typically Offered: Fall, Spring, Summer)

PHYS 2310: Introduction to Classical Physics I

Credits: 4. Contact Hours: Discussion 1, Lecture 3.

Prereq: MATH 1650; credit or concurrent enrollment in MATH 1660

For engineering and science majors. 3 hours of lecture each week plus 3 recitations every two weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall, Spring)

PHYS 2310H: Introduction to Classical Physics I: Honors

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Prereq: MATH 1650; credit or concurrent enrollment in MATH 1660

For engineering and science majors. 3 hours of lecture each week plus 3 recitations every two weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall, Spring, Summer)

PHYS 2310L: Introduction to Classical Physics I Laboratory

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MATH 1650 AND (credit or enrollment in MATH 1660) AND (credit or concurrent enrollment in PHYS 2310 or PHYS 2410)

Laboratory experiments in elementary kinematics, work and energy, conservation laws, and rotational motion. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall, Spring, Summer)

PHYS 2320: Introduction to Classical Physics II

Credits: 4. Contact Hours: Discussion 1, Lecture 3.

Prereq: MATH 1660; PHYS 2310 or PHYS 2410

3 hours of lecture each week plus 1 recitation each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields; LR, LC, LCR circuits; Maxwell's equations; wave optics. (Typically Offered: Fall, Spring, Summer)

PHYS 2320H: Introduction to Classical Physics II: Honors

Credits: 4. Contact Hours: Lecture 3, Discussion 1.

Prereq: MATH 1660; PHYS 2310 or PHYS 2410

3 hours of lecture each week plus 1 recitation each week. Fluid dynamics. Electric forces and fields. Electrical currents; DC circuits; Magnetic forces and fields; LR, LC, LCR circuits; Maxwell's equations; wave optics. (Typically Offered: Fall, Spring)

PHYS 2320L: Introduction to Classical Physics II Laboratory

Credits: 1. Contact Hours: Laboratory 2.

Prereq: MATH 1660 AND (Credit or concurrent enrollment in PHYS 2320 or PHYS 2420)

Laboratory experiments in fluid dynamics, electric forces and fields, electrical currents, DC circuits, magnetic forces and fields, and wave optics. (Typically Offered: Fall, Spring, Summer)

PHYS 2410: Principles and Symmetries in Classical Physics I

Credits: 5. Contact Hours: Lecture 3, Discussion 1.5, Laboratory 1.

Prereq: MATH 1650; credit or concurrent enrollment in MATH 1660

Covers all of mechanics; kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall)

PHYS 2410H: Principles and Symmetries in Classical Physics I: Honors

Credits: 5. Contact Hours: Lecture 3, Discussion 1.5, Laboratory 1.

Prereq: MATH 1650; credit or concurrent enrollment in MATH 1660

Covers all of mechanics; kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound. Proficiency in algebra, trigonometry, vector manipulation required. (Typically Offered: Fall)

PHYS 2420: Principles and Symmetries in Classical Physics II

Credits: 5. Contact Hours: Lecture 3, Discussion 1, Laboratory 2.

Prereq: PHYS 2310 or PHYS 2410; credit or concurrent enrollment in MATH 1660

Fluid dynamics, electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics and special relativity. (Typically Offered: Spring)

PHYS 2420H: Principles and Symmetries in Classical Physics II: Honors

Credits: 5. Contact Hours: Lecture 3, Discussion 1, Laboratory 2.

Prereq: PHYS 2310 or PHYS 2410; credit or concurrent enrollment in MATH 1660

Fluid dynamics, electrostatics, potentials and fields, currents, fields of moving charges, the magnetic field, electromagnetic induction, DC and AC circuits, Maxwell's equations and electromagnetic waves, electric and magnetic fields in matter. Topics in optics and special relativity. (Typically Offered: Spring)

PHYS 2900: Independent Study

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

PHYS 2990: Intermediate Seminar

Credits: 1-2. Contact Hours: Lecture 2.

Conduct research or an independent study on topics in physics and astronomy. Learn science communication skills that physicists and astronomers use routinely. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

PHYS 3020: The Challenge of Contemporary Physics

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilities, left handed materials, and quantum computing. (Typically Offered: Spring)

PHYS 3040: Thermal Physics

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MATH 2660 or MATH 2670); ([PHYS 2320; PHYS 2320L] or [PHYS 2420])

Concepts of temperature, entropy, and other characteristic thermodynamic functions, with application to macroscopic properties of matter. The laws of thermodynamics. Introduction to statistical mechanics, including quantum statistics. Application to black body radiation, crystalline vibrations, magnetic ions in solids, electronic heat capacity of metals. Phase transformations and chemical reactions. (Typically Offered: Spring)

PHYS 3060: Physics of Wave Motion

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or concurrent enrollment in (MATH 2660 or MATH 2670); ([PHYS 2320; PHYS 2320L] or [PHYS 2420 or PHYS 2420H])

Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves. (Typically Offered: Spring)

PHYS 3100: Electronic Instrumentation for Experimental Physics

Credits: 4. Contact Hours: Lecture 2, Laboratory 4.

Prereq: MATH 1660; ([PHYS 2320; PHYS 2320L] or [PHYS 2420])

Common electrical instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement. (Typically Offered: Fall)

PHYS 3110: Intermediate Laboratory

Credits: 1-2. Contact Hours: Laboratory 2.

Repeatable.

Prereq: PHYS 3220

Experiments in classical and modern physics performed independently by each student. (Typically Offered: Spring)

PHYS 3110T: Intermediate Laboratory for Secondary Physics Teachers

Credits: 3. Contact Hours: Laboratory 6.

Repeatable.

Prereq: (PHYS 1320; PHYS 1320L) or (PHYS 2320 or PHYS 2320H; PHYS 2320L) or PHYS 2420

Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching. (Typically Offered: Spring)

PHYS 3210: Introduction to Modern Physics I

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or concurrent enrollment in (MATH 2660 or MATH 2670); ([PHYS 2320; PHYS 2320L] or [PHYS 2420 or PHYS 2420H])

Quantum nature of matter: photons, de Broglie's postulate: wave-like properties of matter; Bohr's model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms. (Typically Offered: Fall)

PHYS 3210L: Introductory Laboratory in Modern Physics I

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or enrollment in PHYS 3210

Experiments related to the foundations of modern physics. The dual wave and particle character of electrons and photons, statistics, interferometry and x-ray spectroscopy. (Typically Offered: Fall)

PHYS 3220: Introduction to Modern Physics II

Credits: 3. Contact Hours: Lecture 3.

Prereq: PHYS 3210

Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature. (Typically Offered: Spring)

PHYS 3220L: Introductory Laboratory in Modern Physics II

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or enrollment in PHYS 3220

Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation. (Typically Offered: Spring)

PHYS 3610: Classical Mechanics

Credits: 3. Contact Hours: Lecture 3.

Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange's equations. (Typically Offered: Spring)

PHYS 3620: Intermediate Mechanics

Credits: 3. Contact Hours: Lecture 3.

Prereq: PHYS 3610

Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics. (Typically Offered: Fall)

PHYS 3640: Electricity and Magnetism I

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MATH 2660 or MATH 2670); ([PHYS 2320; PHYS 2320L] or [PHYS 2420])

Static electric and magnetic fields, potential theory; electromagnetism, Maxwell's equations. (Typically Offered: Fall)

PHYS 3650: Electricity and Magnetism II

Credits: 3. Contact Hours: Lecture 3.

Prereq: PHYS 3640 and MATH 3850

Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter. (Typically Offered: Spring)

PHYS 3990: Seminar on Secondary School Physics

Credits: 1-2. Contact Hours: Lecture 2.

Repeatable, maximum of 2 credits.

Prereq: Instructor Permission for Course

Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools. (Typically Offered: Spring)

PHYS 4210: Ultrafast Laser Science and Spectroscopy

(Dual-listed with PHYS 5210).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (PHYS 3210; PHYS 3650) or Permission of Instructor

Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation. (Typically Offered: Fall)

PHYS 4220: Foundations of Quantum Computing

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MATH 2070 or MATH 3170) or Permission of Instructor

Overview of quantum computation and quantum information processing from a physics perspective. Introduction to classical computation; primer on quantum mechanics; quantum circuits and quantum algorithms; physical realizations; applications and near-term quantum algorithms. (Typically Offered: Spring)

PHYS 4320: Molecular and Cell Biophysics

(Dual-listed with PHYS 5320).

Credits: 3. Contact Hours: Lecture 3.

Prereq: CHEM 3250 or PHYS 3040

Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes. (Typically Offered: Spring)

PHYS 4500: Undergraduate Research

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Theoretical research under supervision of physics faculty. (Typically Offered: Fall, Spring, Summer)

PHYS 4500L: Undergraduate Research

Credits: 1-6. Repeatable.

Prereq: PHYS 3220L; Permission of Instructor

Laboratory project under supervision of physics faculty. (Typically Offered: Fall, Spring, Summer)

PHYS 4700L: Applied Physics Laboratory

Credits: 2-5. Contact Hours: Laboratory 5.

Repeatable.

Prereq: PHYS 3220; Permission of Instructor

Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter. (Typically Offered: Fall, Spring, Summer)

PHYS 4800: Quantum Mechanics I

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 3850, PHYS 3210

First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schrodinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties. (Typically Offered: Fall)

PHYS 4810: Quantum Mechanics II

Credits: 3. Contact Hours: Lecture 3.

Continuation of 4800. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes. (Typically Offered: Fall, Spring, Summer)

PHYS 4900: Independent Study

Credits: 1-4. Repeatable, maximum of 9 credits.

Prereq: 6 credits in PHYS; Permission of Instructor

Graduation Restriction: No more than 9 credits of PHYS 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

PHYS 4900H: Independent Study: Honors

Credits: 1-4. Repeatable, maximum of 9 credits.

Prereq: 6 credits in PHYS; Permission of Instructor

Graduation Restriction: No more than 9 credits of PHYS 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

PHYS 4960: Modern Optics

(Cross-listed with EE 4960).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or enrollment in PHYS 3220, PHYS 3650, and PHYS 4800

Review of wave and electromagnetic theory; topics selected from: reflection/refraction, interference, geometrical optics, Fourier analysis, dispersion, coherence, Fraunhofer and Fresnel diffraction, holography, quantum optics, nonlinear optics. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

PHYS 5010: Oral Communication of Physics Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

A practical introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 5020: Introductory Research Seminar

Credits: Required. Contact Hours: Lecture 1.

Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

PHYS 5110: Condensed Matter Physics I

Credits: 3. Contact Hours: Lecture 3.

First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity. (Typically Offered: Fall, Spring, Summer)

PHYS 5120: Condensed Matter Physics II

Credits: 3. Contact Hours: Lecture 3.

Continuation of 5110. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity. (Typically Offered: Fall, Spring, Summer)

PHYS 5220: Foundations of Quantum Computing

Credits: 3. Contact Hours: Lecture 3.

Overview of quantum computation and quantum information processing from a physics perspective. Introduction to a classical computation; primer on quantum mechanics; quantum circuits and quantum algorithms; physical realizations; applications and near-term quantum algorithms. (Typically Offered: Fall, Spring, Summer)

PHYS 5260: Particle and Nuclear Physics

Credits: 4. Contact Hours: Lecture 4.

Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification. (Typically Offered: Fall, Spring, Summer)

PHYS 5280: Mathematical Methods for the Physical Sciences

Credits: 3. Contact Hours: Lecture 3.

Fast-paced coverage of mathematical techniques needed for advanced analysis in the physical sciences, particularly for quantum mechanics and electrodynamics. Linear vector spaces and operators. Linear differential equations for time-evolution and steady-state problems, Green's functions and propagators, Sturm-Liouville problems. Functions of a complex variable, calculus of residues, series expansions, integral transforms and applications. (Typically Offered: Fall)

PHYS 5310: Statistical Mechanics

Credits: 3. Contact Hours: Lecture 3.

Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations. (Typically Offered: Spring)

PHYS 5340: Symmetry and Group Theory in Physics

Credits: 3. Contact Hours: Lecture 3.

Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics. (Typically Offered: Fall)

PHYS 5350: Physics of Semiconductors

(Cross-listed with EE 5350).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photo-conductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photo-conductivity, diffusion length of carriers.

PHYS 5360: Physics of Semiconductor Devices

(Cross-listed with EE 5360).

Credits: 3. Contact Hours: Lecture 3.

Prereq: EE 5350

P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

PHYS 5410: General Relativity

Credits: 3. Contact Hours: Lecture 3.

Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology. (Typically Offered: Fall)

PHYS 5510: Computational Physics

Credits: 3. Contact Hours: Laboratory 2.

Use of computational methods to solve complex problems in physics and carry out data analysis. (Typically Offered: Spring)

PHYS 5640: Advanced Classical Mechanics

Credits: 3. Contact Hours: Lecture 3.

Variational principles, Lagrange's equations, Hamilton's canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos. (Typically Offered: Spring)

PHYS 5710: Electricity and Magnetism I

Credits: 3. Contact Hours: Lecture 3.

Electrostatics, magnetostatics, boundary value problems, Maxwell's equations, wave phenomena in macroscopic media, wave guides. (Typically Offered: Fall)

PHYS 5720: Electricity and Magnetism II

Credits: 3. Contact Hours: Lecture 3.

Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping. (Typically Offered: Spring)

PHYS 5900A: Nuclear Physics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5900B: Condensed Matter Physics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5900C: High Energy Physics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5900D: Physics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5900E: Applied Physics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5900F: Biophysics

Credits: 1-30. Repeatable.

Topics of current interest. (Typically Offered: Fall, Spring, Summer)

PHYS 5910: Quantum Physics I

Credits: 4. Contact Hours: Lecture 4.

First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-,two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrodinger time-independent perturbation theory. (Typically Offered: Fall)

PHYS 5920: Quantum Physics II

Credits: 4. Contact Hours: Lecture 4.

Continuation of 5910. Variational theorem and WKB method; time-dependent perturbation theory and 2nd quantization of the EM field in Coulomb gauge; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism. (Typically Offered: Spring)

PHYS 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Individually directed study of research-level problems for students electing the nonthesis M.S. degree option. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

PHYS 6110: Quantum Theory of Condensed Matter

Credits: 3. Contact Hours: Lecture 3.

Quantum theory of interacting many body systems: zero temperature field theory, Fermi systems, finite temperature field theory, superconductivity and superfluidity. Gauge theories and topological phases of matter: lattice gauge theory, quantum hall effect, and topological field theories. (Typically Offered: Spring)

PHYS 6240: Advanced Nuclear Physics

Credits: 3. Contact Hours: Lecture 3.

Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions. (Typically Offered: Fall, Spring, Summer)

PHYS 6250: Physics of Strong Interactions

Credits: 3. Contact Hours: Lecture 3.

Quark model; Quantum Chromodynamics (QCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD. (Typically Offered: Fall, Spring, Summer)

PHYS 6370: Elementary Particle Physics I

Credits: 3. Contact Hours: Lecture 3.

First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model. (Typically Offered: Spring)

PHYS 6380: Elementary Particle Physics II

Credits: 3. Contact Hours: Lecture 3.

Continuation of 6370. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques. (Typically Offered: Fall, Spring, Summer)

PHYS 6460: Mathematical Modeling of Complex Physical Systems

(Cross-listed with MATH 6460).

Credits: 3. Contact Hours: Lecture 3.

Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation. (Typically Offered: Spring)

PHYS 6500A: Nuclear Physics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6500B: Condensed Matter Physics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6500C: High Energy Physics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6500D: Physics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6500E: Applied Physics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6500F: Biophysics

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Topics of current interest. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PHYS 6600B: Condensed Matter Physics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Courses on advanced topics and recent developments. (Typically Offered: Fall, Spring, Summer)

PHYS 6600C: High Energy Physics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Courses on advanced topics and recent developments. (Typically Offered: Fall, Spring, Summer)

PHYS 6600D: Physics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Courses on advanced topics and recent developments. (Typically Offered: Fall, Spring, Summer)

PHYS 6600E: Applied Physics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Courses on advanced topics and recent developments. (Typically Offered: Fall, Spring, Summer)

PHYS 6600F: Biophysics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Courses on advanced topics and recent developments. (Typically Offered: Fall, Spring, Summer)

PHYS 6810: Quantum Field Theory I

Credits: 3. Contact Hours: Lecture 3.

Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group. (Typically Offered: Fall)

PHYS 6820: Quantum Field Theory II

Credits: 3. Contact Hours: Lecture 3.

Continuation of 6810. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics. (Typically Offered: Fall, Spring)

PHYS 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Graduate research. (Typically Offered: Fall, Spring, Summer)

Plant Biology (PLBIO)

Courses primarily for graduate students, open to qualified undergraduates:**PLBIO 5130: Plant Metabolism**

(Cross-listed with GDCB 5130).

Credits: 2. Contact Hours: Lecture 2.

Photosynthesis, respiration, and other aspects of plant metabolism. Offered even-numbered years. (Typically Offered: Fall)

PLBIO 5450: Plant Molecular, Cell and Developmental Biology

(Cross-listed with MCDB 5450/ GDCB 5450).

Credits: 3. Contact Hours: Lecture 3.

Plant nuclear and organelle genomes; regulation of gene expression; hormone signaling; organization, function, and development of plant cells and subcellular structures; regulation of plant growth and development. Offered odd-numbered years. (Typically Offered: Fall)

Courses for graduate students:**PLBIO 6960: Research Seminar**

(Cross-listed with AGRON 6960/ BBMB 6960/ FOR 6960/ GDCB 6960/ HORT 6960).

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

PLBIO 6990: Research

Credits: 1-30. Repeatable.

Plant Pathology (PLP)

Courses primarily for undergraduates:**PLP 4080: Principles of Plant Path**

(Dual-listed with PLP 5080).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Principles underlying the nature, diagnosis, and management of plant diseases. Laboratory complements lecture topics and provides experience in plant disease diagnosis. (Typically Offered: Fall, Spring)

PLP 4160: Forest Insects and Diseases

(Cross-listed with FOR 4160).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Nature of insects and pathogens of forest and shade trees; their role in the dynamics of natural and managed forest ecosystems; and the management of indigenous and exotic pests. Laboratory experience working with insect and fungal pests of trees. (Typically Offered: Fall)

PLP 4520: Integrated Management of Diseases and Insect Pests of Turfgrasses

(Cross-listed with ENT 4520/ HORT 4520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: HORT 3510

Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments. Offered even-numbered years. (Typically Offered: Spring)

PLP 4770: Bacterial-Plant Interactions

(Dual-listed with MICRO 5770/ PLP 5770). (Cross-listed with MICRO 4770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in MICRO or PLP

Overview of plant-associated bacteria including their ecology, diversity, and the physiological and molecular mechanisms involved with their interactions with plants. The course covers bacterial plant pathogens and pathogenesis, nitrogen fixation and plant symbioses, biological control and plant growth promotion, bacterial disease diagnosis and management, and approaches to the study of microbial communities in the rhizosphere and on leaves. Offered even-numbered years. (Typically Offered: Spring)

PLP 4900A: Independent Study: Plant Pathology

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 7 credits in BIOL; Junior or Senior classification; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of PLP 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Spring, Summer)

PLP 4900H: Independent Study: Honors

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 7 credits in BIOL; Junior or Senior classification; Permission of Instructor

Graduation Restriction: A maximum of 6 credits of PLP 4900 may be used toward the total of 128 credits required for graduation. (Typically Offered: Fall, Spring, Summer)

PLP 4940: Seed Pathology

(Dual-listed with PLP 5940).

Credits: 2. Contact Hours: Lecture 2.

Prereq: PLP 4080

Significance of biotic and abiotic diseases that affect the production and utilization of seeds, during each phase of the seed life cycle: growing, harvesting, conditioning, storing, and planting seed. Mechanisms of seed infection and seed-to-seedling transmission are considered for fungi, bacteria, viruses/viroids, and nematodes. Aspects of epidemiology, management, and host-pathogen relationships are discussed. Emphases include the role of seed health testing in the global seed industry for quality control and phytosanitary certification, as well as the use of seed treatments to manage seedborne and soilborne pathogens and pests. Concurrent enrollment in PLP 4940L/5940L (Seed Pathology Laboratory) is strongly encouraged (on-campus students only). Graduation Restriction: Credit may not be obtained for both PLP/STB 5920 and PLP 5940. Offered odd-numbered years. (Typically Offered: Fall)

PLP 4940L: Seed Pathology Laboratory

(Dual-listed with PLP 5940L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: PLP 4080

Laboratory in seed pathology. Seed health testing methods; effects of seed treatments and seed conditioning on seedborne pathogens. Offered odd-numbered years. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

PLP 5060: Plant-Pathogen Interactions

Credits: 2. Contact Hours: Lecture 2.

Prereq: (BIOL 3130 and PLP 4080 or PLP 4160) or Graduate Classification

Introduction to mechanisms of plant-parasite interaction. Genetics and molecular genetics of plant disease resistance and pathogenicity. Offered odd-numbered years. (Typically Offered: Spring)

PLP 5080: Principles of Plant Pathology

(Dual-listed with PLP 4080).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Principles underlying the nature, diagnosis, and management of plant diseases. Laboratory complements lecture topics and provides experience in plant disease diagnosis. (Typically Offered: Fall, Spring)

PLP 5090: Plant Virology

(Cross-listed with MICRO 5090).

Credits: 2. Contact Hours: Lecture 1, Discussion 1.

Prereq: (BBMB 3010 or BIOL 3130) or Graduate Classification

Taxonomy, molecular mechanisms, host-interactions, vector transmission, epidemiology, detection, control and exploitation of plant viruses. Course will consist of a mixture of lectures, and student-led presentations using primary literature. Offered odd-numbered years. (Typically Offered: Spring)

PLP 5110: Integrated Management of Tropical Crops

(Cross-listed with ENT 5110/ HORT 5110).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (ENT 3700 or ENT 3760 or HORT 2210 or PLP 4080 or PLP 4160) or Graduate Classification

Applications of Integrated Crop management principles (including plant pathology, entomology, and horticulture) to tropical cropping systems. Familiarization with a variety of tropical agroecosystems and Costa Rican culture is followed by a 10-day tour of Costa Rican agriculture during spring break, then writeup of individual projects. Offered odd-numbered years. Meets International Perspectives Requirement. (Typically Offered: Spring)

PLP 5120: Lifestyles of plant pathogenic fungi and oomycetes.

Credits: 2. Contact Hours: Lecture 2.

Exploration of the major groups of plant pathogenic fungi and oomycetes, focusing on the diseases they cause as well as pathogen ecology, diagnosis, crop resistance, and fungicide resistance. Offered odd-numbered years. (Typically Offered: Spring)

PLP 5300: Ecologically Based Pest Management Strategies

(Cross-listed with AGRON 5300/ ENT 5300/ SUSAG 5300).

Credits: 3. Contact Hours: Lecture 3.

Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes. Offered even-numbered years. (Typically Offered: Fall)

PLP 5430: Ecology and Epidemiology of Plant Diseases

Credits: 3. Contact Hours: Lecture 3.

Prereq: (PLP 4080 or PLP 4160) or graduate classification

Nutter. Theory and practice related to the ecology and epidemiology of plant disease epidemics. Interactions among host and pathogen populations as affected by the environment are quantified with respect to time and space. Analysis of ecological and host and pathogen genetic factors that alter the course of plant disease epidemics. Risk assessment theory, disease forecasting, and modeling the impact of biotic plant stresses on yield and quality are also emphasized. Offered odd-numbered years. (Typically Offered: Fall)

PLP 5520: Integrated Management of Diseases and Insect Pests of Turfgrasses

(Cross-listed with ENT 5520/ HORT 5520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: HORT 3510 or Graduate Classification

Identification and biology of important diseases and insect pests of turfgrasses. Development of integrated pest management programs in various turfgrass environments. Offered even-numbered years. (Typically Offered: Spring)

PLP 5740: Plant Nematology

Credits: 2. Contact Hours: Lecture 2.

Morphology, anatomy, identification, management, and life cycles of common plant-parasitic nematodes; host parasite interactions; recent advances in plant nematology. Offered odd-numbered years. (Typically Offered: Fall)

PLP 5740L: Laboratory Techniques in Plant Nematology

Credits: 1. Contact Hours: Laboratory 3.

Practical skills of sample collection, processing, extraction, and identification of plant-parasitic nematodes from soil and roots; other techniques will be discussed. Offered odd-numbered years. (Typically Offered: Fall)

PLP 5770: Bacterial-Plant Interactions

(Dual-listed with MICRO 4770/ PLP 4770). (Cross-listed with MICRO 5770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (3 credits in MICRO or PLP) or Graduate Classification

Overview of plant-associated bacteria including their ecology, diversity, and the physiological and molecular mechanisms involved with their interactions with plants. The course covers bacterial plant pathogens and pathogenesis, nitrogen fixation and plant symbioses, biological control and plant growth promotion, bacterial disease diagnosis and management, and approaches to the study of microbial communities in the rhizosphere and on leaves. Offered even-numbered years. (Typically Offered: Spring)

PLP 5810: Experience in Plant Science Extension and Outreach

(Cross-listed with AGRON 5810/ ENT 5810/ HORT 5810).

Credits: 1.

A supervised learning experience in several extension delivery methods used in the plant sciences. Participation in Iowa State University-based extension programs that may include field crops horticulture, or Master Gardener programming. Offered odd-numbered years. (Typically Offered: Summer)

PLP 5900: Special Topics

Credits: 1-3. Repeatable.

Prereq: 10 credits in biological sciences, Permission of Instructor

(Typically Offered: Fall, Spring, Summer)

PLP 5920: Seed Health Management

(Cross-listed with STB 5920).

Credits: 2. Contact Hours: Lecture 2.

Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Graduation Restriction: Credit may not be obtained for both PLP/STB 5920 and PLP 5940. Offered even-numbered years. (Typically Offered: Spring)

PLP 5940: Seed Pathology

(Dual-listed with PLP 4940).

Credits: 2. Contact Hours: Lecture 2.

Prereq: PLP 4080 or Graduate Classification

Significance of biotic and abiotic diseases that affect the production and utilization of seeds, during each phase of the seed life cycle: growing, harvesting, conditioning, storing, and planting seed. Mechanisms of seed infection and seed-to-seedling transmission are considered for fungi, bacteria, viruses/viroids, and nematodes. Aspects of epidemiology, management, and host-pathogen relationships are discussed. Emphases include the role of seed health testing in the global seed industry for quality control and phytosanitary certification, as well as the use of seed treatments to manage seedborne and soilborne pathogens and pests. Concurrent enrollment in PLP 4940L/5940L (Seed Pathology Laboratory) is strongly encouraged (on-campus students only). Graduation Restriction: Credit may not be obtained for both PLP/STB 5920 and PLP 5940. Offered odd-numbered years. (Typically Offered: Fall)

PLP 5940L: Seed Pathology Laboratory

(Dual-listed with PLP 4940L).

Credits: 1. Contact Hours: Laboratory 3.

Prereq: PLP 4080 or Graduate Classification

Laboratory in seed pathology. Seed health testing methods; effects of seed treatments and seed conditioning on seedborne pathogens. Offered odd-numbered years. (Typically Offered: Fall)

PLP 5990: Creative Component

Credits: 1-30. Repeatable.

Independent study related to the student's area of specialization and approved by the student's major professor. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

PLP 6080: Molecular Virology

(Cross-listed with MICRO 6080/ VMPM 6080).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BBMB 4050 or GDCB 5110

Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis. Offered even-numbered years. (Typically Offered: Fall)

PLP 6280: Improving Professional Presentation Skills

Credits: 2. Contact Hours: Lecture 2.

Skill building to improve oral presentation fundamentals for graduate students in biological sciences. Principles and guidance in both personal speaking style and maximizing impact of presentation software. In-depth lectures and class discussions on all aspects of presentation skills. Video and anonymous peer review of individual speeches. (Typically Offered: Spring)

PLP 6910: Field Plant Pathology

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Prereq: (PLP 4080 or PLP 4160) or graduate classification

Diagnosis of plant diseases, plant disease assessment methods, and the integration of disease management into commercial crop production practices. Objectives are to familiarize students with common diseases of Midwest crops and landscape plants, and to provide experience in disease diagnosis. Field trips include commercial operations, agricultural research facilities, and ornamental plantings. Offered even-numbered years. (Typically Offered: Summer)

PLP 6920: Molecular Biology of Plant-Pathogen Interactions

(Cross-listed with MICRO 6920).

Credits: 3. Contact Hours: Lecture 3.

Seminar and current research in molecular and physiological aspects of plant interactions with pathogens, including mechanisms of pathogenesis, host-pathogen recognition and host defense, with an emphasis on critical evaluation of primary literature. Students also complete a research proposal writing and peer review exercise. Offered odd-numbered years. (Typically Offered: Spring)

PLP 6940: Colloquium in Plant Pathology

Credits: 2. Contact Hours: Lecture 2.

Repeatable.

Advanced topics in plant pathology, including biological control, cultural control, resistance gene deployment, genetic engineering for disease resistance, chemical control, integrated pest management, emerging diseases, fungal genetics, insect vector biology, professional communications, etc. (Typically Offered: Spring)

PLP 6980: Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

PLP 6990: Thesis and Dissertation Research

Credits: 1-30. Repeatable.

Thesis and dissertation research. (Typically Offered: Fall, Spring, Summer)

Political Science (POLS)

Courses primarily for undergraduates:

POLS 1010: Exploring Political Science

Credits: 1. Contact Hours: Lecture 1.

Introduction to a variety of approaches to political questions. Relevance to career paths. For political science majors and others interested in exploring political questions. Recommended first semester of freshman year, or as soon as possible after declaring the major. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

POLS 1110: Introduction to American Government

Credits: 3. Contact Hours: Lecture 3.

Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties. (Typically Offered: Fall, Spring)

POLS 1210: Introduction to International Politics

Credits: 3. Contact Hours: Lecture 3.

Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

POLS 1250: Democracy and Dictatorship: Introduction to Comparative Politics

Credits: 3. Contact Hours: Lecture 3.

Interactions between governments and citizens in countries outside the US. Causes of democracy, dictatorship, and economic and social development. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

POLS 2220X: Global Engagement

(Cross-listed with GLOBE 2220X).

Credits: 3. Contact Hours: Lecture 3.

Engagement with social and political issues on a global scale.

Contributions of individual action, non-governmental organizations, and governments to changing societal and international outcomes.

Techniques for identifying and addressing problems around the world.

Meets International Perspectives Requirement. (Typically Offered: Fall)

POLS 2320X: Politics of Business

Credits: 3. Contact Hours: Lecture 3.

Characteristics of American political economy and its comparison to other countries. Wealth, power, and the market in politics; the relationship between capitalism and democracy. The regulation of corporations, and the relationship between governments and business. (Typically Offered: Fall, Spring, Summer)

POLS 2350: Introduction to Ethics and Politics

Credits: 3. Contact Hours: Lecture 3.

Moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Political applications of classic and contemporary texts. (Typically Offered: Fall)

POLS 2610: Thinking Like a Political Scientist: Qualitative Approaches

Credits: 3. Contact Hours: Lecture 3.

Theory and method in empirical political science, with an emphasis on qualitative social-science methodologies. Research design, causal logic, and use of evidence. Content analysis, case studies, focus groups, and interviews. (Typically Offered: Fall)

POLS 2620: Thinking Like a Political Scientist: Quantitative Approaches

Credits: 3. Contact Hours: Lecture 3.

Theory and method in empirical political science, with an emphasis on quantitative social-science methodologies. Research design, causal logic, and use of evidence. Regressions, experiments, and polls and surveys. (Typically Offered: Spring)

POLS 2710: Public Organizations and Leadership

Credits: 3. Contact Hours: Lecture 3.

Introductory survey of public governance at the administrative and managerial levels of international, national, state, and local government. Essential issues and competencies involved in efficient, effective, and ethical provision of public goods and services. Relationships inside and across governments, social equity, public-private partnerships, and privatization. (Typically Offered: Fall)

POLS 2830: Introduction to Environmental Politics and Policies

(Cross-listed with ENVS 2830).

Credits: 3. Contact Hours: Lecture 3.

Introduction to major ideologies' relations to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform. (Typically Offered: Spring)

POLS 2980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Permission of the department cooperative education coordinator; sophomore classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period. (Typically Offered: Fall, Spring, Summer)

POLS 3050: Comparative Political Behavior

Credits: 3. Contact Hours: Lecture 3.

Political attitudes and behaviors of citizens in democracies, both in the US and cross-nationally. Citizens' traits and their relationship to democracy. Offered even-numbered years. (Typically Offered: Fall)

POLS 3060: Public Opinion and Voting Behavior

Credits: 3. Contact Hours: Lecture 3.

The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors. (Typically Offered: Spring)

POLS 3080X: Video Games and Politics

Credits: 3. Contact Hours: Lecture 3.

Interactions between video games and politics from the perspective of both state and society. History and regulation of video games; games' connection with war and with authoritarian regimes; representation, race, and gender in games and game communities; games' influence on social and political attitudes. (Typically Offered: Fall, Spring, Summer)

POLS 3100: State and Local Government

Credits: 3. Contact Hours: Lecture 3.

Role of state and local governments in the American federal system. Structures of participation: political parties, elections, interest groups. Major governmental institutions: legislative, executive, and judicial. Structure and functions of local governments. (Typically Offered: Fall, Spring)

POLS 3180: Campaigns and Elections

Credits: 3. Contact Hours: Lecture 3.

Methods and strategies of political campaigns in American elections. History of the electoral process and the transformation of American campaigns. (Typically Offered: Fall)

POLS 3190: Law and Politics

Credits: 3. Contact Hours: Lecture 3.

American judicial system and controversies spanning law and politics. Potential topics include statutory construction, judicial review, proper role of the judiciary, vagueness and ambiguity in law, competing constitutional philosophies, executive branch concerns, and relative power of different branches. POLS 1110 recommended. Graduation Restriction: Only one of POLS 2300, 3190 may count toward graduation. (Typically Offered: Fall)

POLS 3200: American Judicial Process

(Cross-listed with CJ 3200).

Credits: 3. Contact Hours: Lecture 3.

An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent. (Typically Offered: Spring)

POLS 3250: Religion, Law, and Justice

(Cross-listed with CJ 3250/ RELIG 3250).

Credits: 3. Contact Hours: Lecture 3.

A study of the role of religion in law and justice with a focus on the United States. Examines the history of religious freedom, key contemporary legal cases, and how religious-oriented justice movements engage ethics and the law. (Typically Offered: Fall)

POLS 3330: Democracy and Diversity in America

Credits: 3. Contact Hours: Lecture 3.

Competing American conceptions of democracy as strategies for responding to the racial, religious, ethnic, gender, and economic diversity of America. Contemporary debates about topics such as immigration, affirmative action, multicultural education, religion, and minority representation. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

POLS 3340: Politics and Society

(Cross-listed with SOC 3340).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 course in POLS or SOC

The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism. (Typically Offered: Fall)

POLS 3350: Science, Technology, and Public Policy

Credits: 3. Contact Hours: Lecture 3.

Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation of public policies that put heavy reliance on or seek to advance science and technology. (Typically Offered: Spring)

POLS 3360X: Climate Change Policy

(Cross-listed with ENVS 3360X).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in POLS OR ECON 1010 OR Sophomore Classification

Policy-centered approach to climate-change solutions. Investigation, analysis, and evaluation of policy responses to the prospect and occurrence of climate change. Politics of climate-related technological, regulatory, and societal changes. Interaction of social movements, institutions, and economic interests in shaping national and global responses to climate change. (Typically Offered: Spring)

POLS 3370X: Health Politics and Policy

Credits: 3. Contact Hours: Lecture 3.

Analysis of the evolution of the American system of healthcare. Financing, regulation, delivery, and the policy process related to healthcare policymaking by political institutions including Congress, the presidency and executive branch, federal courts, and state and local governments. Exploration of factors leading to disparities in healthcare service delivery and outcomes. Offered odd-numbered years. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

POLS 3390: Liberty and Law in America

(Cross-listed with CJ 3390/ PHIL 3390).

Credits: 3. Contact Hours: Lecture 3.

Competing conceptions of liberty in American political thought. Debates about how liberty should be protected by the law, in fields such as health care, drugs, property, speech, religion, and sex. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

POLS 3400: Politics of Developing Areas

Credits: 3. Contact Hours: Lecture 3.

Economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

POLS 3420: Chinese Politics

Credits: 3. Contact Hours: Lecture 3.

Legacies of Imperial China, the origins of the Chinese Civil War, and the causes and consequences of the reform era. Issues of contemporary China, including economic transformation, the structure of the Party/state, the environment, the media and other topics. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 3430: Latin American Government and Politics

(Cross-listed with USLS 3430).

Credits: 3. Contact Hours: Lecture 3.

Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 3440: Public Policy

Credits: 3. Contact Hours: Lecture 3.

How agendas come to be set in public policy, theories describing the policy-making process, forces molding policy choices and the impact of such choices. (Typically Offered: Fall, Spring)

POLS 3460: European Politics

Credits: 3. Contact Hours: Lecture 3.

Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas. Meets International Perspectives Requirement. (Typically Offered: Fall)

POLS 3480: British Government and Politics

Credits: 3. Contact Hours: Lecture 3.

Political institutions and processes in Great Britain and Northern Ireland; emphasis on Parliament, executive and monarchy, and public policies, including devolution. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 3490: Politics of Russia and Eastern Europe

Credits: 3. Contact Hours: Lecture 3.

Nation-states of Central and Eastern Europe. Comparison of European communist systems and the revolutionary conflict leading to the dissolution of communist Europe. Political analysis of post-communist Russian and Eastern European nation-states and their economic, cultural and social variations. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 3500: Politics of the Middle East

Credits: 3. Contact Hours: Lecture 3.

Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include political Islam, regional conflicts and alliances, local leaders, political economy, democracy, and human rights. Meets International Perspectives Requirement. (Typically Offered: Spring)

POLS 3530: Immigration Policy

Credits: 3. Contact Hours: Lecture 3.

Political, economic, and social factors that affect immigration policy. Systematic analysis and implications of different types of immigration policies in countries sending and receiving immigrants. Policies regarding incorporation of migrants into, and effects of migrants on, American society. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

POLS 3540: War and the Politics of Humanitarianism

(Cross-listed with ANTHR 3540).

Credits: 3. Contact Hours: Lecture 3.

Humanitarianism as a system of thought and a system of intervention in conflict and post-conflict situations. Role of humanitarian organizations and actors in addressing human suffering caused by conflict or war. Military action as a form of humanitarian intervention. Meets International Perspectives Requirement.

POLS 3550: War and Politics

Credits: 3. Contact Hours: Lecture 3.

Theoretical relationship among politics, strategy, and war. Evolution of war, the relationship between technology and conflict, and the changing causes and nature of global violence. Meets International Perspectives Requirement. (Typically Offered: Fall)

POLS 3560: Theories of International Politics

Credits: 3. Contact Hours: Lecture 3.

Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence. (Typically Offered: Fall, Spring, Summer)

POLS 3570: International Security Policy

Credits: 3. Contact Hours: Lecture 3.

Contemporary approaches in the security area including strategic deterrence, cybersecurity, environmental security, peacekeeping and terrorism. Current cases to illustrate policies as well as historical and theoretical choices. (Typically Offered: Fall, Spring, Summer)

POLS 3580: United States Foreign Policy

Credits: 3. Contact Hours: Lecture 3.

U.S. foreign policy since World War II with emphasis on changing American values in foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems. (Typically Offered: Spring)

POLS 3590: Current Issues in American Foreign Policy

Credits: 3. Contact Hours: Lecture 3.

Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives. (Typically Offered: Fall, Spring, Summer)

POLS 3600: American Institutions: Congress

Credits: 3. Contact Hours: Lecture 3.

Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President. (Typically Offered: Fall, Spring, Summer)

POLS 3610: American Institutions: The Presidency

Credits: 3. Contact Hours: Lecture 3.

Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion. (Typically Offered: Fall, Spring, Summer)

POLS 3630: American Institutions: Media

Credits: 3. Contact Hours: Lecture 3.

Influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics. Role of media in the political process, including promoting or discouraging political participation. Politics of traditional journalism, devices of propaganda, effects of campaign advertising, and media spectacles. (Typically Offered: Spring)

POLS 3640: Political Parties and Interest Groups

Credits: 3. Contact Hours: Lecture 3.

Nature of political parties and interest groups, their relation to each other, and their effects on American politics. Topics include party identification, party organization and mobilization, factionalism, lobbying, campaign contributions and financing, and the effects of special interests on public law. (Typically Offered: Fall)

POLS 3700: Religion and Politics

(Cross-listed with RELIG 3700).

Credits: 3. Contact Hours: Lecture 3.

The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. (Typically Offered: Fall)

POLS 3810: International Political Economy

Credits: 3. Contact Hours: Lecture 3.

Politics of international economic interaction. Trade wars and agreements, cross-border finance and multinational corporations, exchange rates and monetary policy, outsourcing, and development under conditions of globalization. (Typically Offered: Fall, Spring, Summer)

POLS 3850: Women in Politics

(Cross-listed with WGS 3850).

Credits: 3. Contact Hours: Lecture 3.

Entry and participation of women in politics in the United States and other countries. Contemporary issues and strategies for change through the political process. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

POLS 3870: First Ladies in U.S. History

(Cross-listed with HIST 3870/ WGS 3870).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Evolution of the role and office of the First Lady in U.S. history, including her political activism, social impact, and international influence. Analysis of the authority, intersectionality and agency of First Ladies in the aggregate and exploration of how individual First Ladies have interpreted and adapted this unique public position. Offered even-numbered years. (Typically Offered: Fall)

POLS 3900: Topics in Political Science

Credits: 1-4. Contact Hours: Lecture 4.

Repeatable.

Selected topics in political science. Graduation Restriction: A topic may not be taken more than once. (Typically Offered: Fall, Spring, Summer)

POLS 3970: International Study and Travel

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Instructor Permission for Course

Supervised study in an aspect of discipline while traveling or located in a foreign country. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 3980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Permission of Department Cooperative Education Coordinator; Junior classification

Required of all cooperative education students. Students must register for this course prior to commencing work period. (Typically Offered: Fall, Spring, Summer)

POLS 4010: Political Analysis and Research

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design. (Typically Offered: Fall)

POLS 4040X: Proseminar in International Politics

Credits: 3. Contact Hours: Lecture 3.

Overview of major theoretical and empirical works in the study of international politics and foreign policy. Realism, liberalism, and constructivism; conflict, alliances, and international economic relations. (Typically Offered: Fall, Spring, Summer)

POLS 4050X: Proseminar in Comparative Politics

(Dual-listed with POLS 5050).

Credits: 3. Contact Hours: Lecture 3.

Foundations of comparative politics, the study of different political regimes. Political behavior, development, causes and consequences of democracy and authoritarianism. Contrasting research methods and designs. (Typically Offered: Fall, Spring, Summer)

POLS 4070: Proseminar in Public Policy

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

An overview of the major theoretical approaches and empirical methods relevant to the study of public policy. Emphasis is placed on agenda setting, policy formation, policy sustainability, and policy analysis. Seminal writings by leading scholars will be reviewed. Leading quantitative and qualitative methodological tools for analyzing policy are presented. Offered even-numbered years. (Typically Offered: Fall)

POLS 4080: Policy Implementation

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

The implementation phase of the policy process, primarily within the government sector, with respect to specific programs, rules, or pieces of legislation within a larger policy area, e.g., health, environment, transportation, education, foreign policy. Offered odd-numbered years. (Typically Offered: Fall)

POLS 4090: Political Game Theory

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory. (Typically Offered: Fall, Spring, Summer)

POLS 4100X: State Government and Politics

(Dual-listed with POLS 5100).

Credits: 3. Contact Hours: Lecture 3.

Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level. (Typically Offered: Fall, Spring, Summer)

POLS 4170: Campaign Rhetoric

(Cross-listed with SPCM 4170).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPCM 2120

Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Offered even-numbered years. (Typically Offered: Fall)

POLS 4190: The Judiciary

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Judicial review, federal common law, judicial confirmation, strict construction of the Constitution, and qualifications to serving on Courts; judicial activism and the infusion of politics into courts.

POLS 4200: Constitutional Law

Credits: 3. Contact Hours: Lecture 3.

Prereq: Junior classification

Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society. (Typically Offered: Fall)

POLS 4210: Constitutional Freedoms

Credits: 3. Contact Hours: Lecture 3.

Prereq: Junior classification

Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection. (Typically Offered: Spring)

POLS 4220: International Law

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Legal aspects of international activities: state jurisdiction over territories and subjects, law of the sea, use of force, and judicial settlement of international disputes. (Typically Offered: Fall)

POLS 4250X: Mass Political Behavior

(Dual-listed with POLS 5250X).

Credits: 3. Contact Hours: Lecture 3.

An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches. (Typically Offered: Fall, Spring, Summer)

POLS 4300: Foundations of Western Political Thought

(Cross-listed with CLST 4300).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in POLS, HIST, or PHIL

Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law. (Typically Offered: Fall, Spring, Summer)

POLS 4310: Modern Political Thought

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in POLS, HIST, or PHIL

Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics. (Typically Offered: Spring)

POLS 4350: Contemporary Political Philosophy

(Cross-listed with PHIL 4350).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Prereq: 6 credits in PHIL or POLS, or Permission of Instructor

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions. (Typically Offered: Spring)

POLS 4430: Energy Policy

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Energy policies and related social, environmental, and political issues. Energy problems and the impact of energy policies. (Typically Offered: Fall)

POLS 4520: Comparative Foreign Policy

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Theoretical approaches to understanding foreign policy making and behavior through case studies of selected nations. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 4530: International Organization

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Sources of international order in a variety of substantive areas such as international security, international trade and finance, the environment, and human rights: distribution of power, institutions, international law, and norms. (Typically Offered: Spring)

POLS 4600: American Political Institutions

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs. Offered odd-numbered years. (Typically Offered: Fall)

POLS 4710X: Organizational Theory in the Public Sector

(Dual-listed with POLS 5710).

Credits: 3. Contact Hours: Lecture 3.

Major theories of administrative organization, including motivations of administrators and organizations, comparisons of organizational arrangements, factors affecting organizational arrangements, and formal and informal decision-making structures. (Typically Offered: Fall, Spring, Summer)

POLS 4740: Policy and Program Evaluation

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators. (Typically Offered: Spring)

POLS 4750: Management in the Public Sector

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public-sector organizations. Distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change. (Typically Offered: Fall, Spring, Summer)

POLS 4770: Government, Business, and Society

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Diverse perspectives on the changing roles and relationships of business, government, and society for more effective policy decisions on corporate affairs. The changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; politics in the business-government relationship. (Typically Offered: Fall)

POLS 4800: Ethics and Public Policy

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making. (Typically Offered: Fall, Spring, Summer)

POLS 4870: Electronic Democracy

Credits: 3. Contact Hours: Lecture 3.

Prereq: 12 credits in POLS; Permission of Instructor

Impact of computers and the Internet on politics and policy. Positive and negative effects of information technology (IT) on selected topics such as hacking, cybercrime, cyberterrorism, cyberwarfare, privacy, civic participation, the sense of community, virtual cities, interest group behavior, viral media, campaigns, elections, and voting. (Typically Offered: Fall, Spring, Summer)

POLS 4900: Independent Study

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. Graduation Restriction: No more than 9 credits of POLS 4900 may be counted toward graduation. (Typically Offered: Fall, Spring)

POLS 4900A: Independent Study: American Government and Politics

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring, Summer)

POLS 4900B: Independent Study: Theory and Method

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring, Summer)

POLS 4900C: Independent Study: Comparative Politics

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring, Summer)

POLS 4900D: Independent Study: International Relations

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring, Summer)

POLS 4900E: Independent Study: Extended credit

Credits: 1-2. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Extra study for any 3000-Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring, Summer)

POLS 4900H: Independent Study: Honors

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 6 credits in POLS; Permission of Instructor

Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. Graduation Restriction: No more than 9 credits of POLS 4900 may be counted toward graduation. (Typically Offered: Fall, Spring)

POLS 4910: Senior Thesis

Credits: 3.

Prereq: 21 credits of POLS; Permission of Instructor

Written under the supervision of a Political Science faculty advisor. (Typically Offered: Fall, Spring, Summer)

POLS 4920: Graduating Senior Survey

Credits: Required.

Offered on a satisfactory-fail basis only. Outcomes-assessment activities including job-placement surveys and evaluations of instructors, advisors, and courses. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

POLS 4960: Teaching Internship in Political Science

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: 12 credits in POLS; Permission of Instructor

Undergraduate teaching experience through assisting an instructor with an introductory course in political science. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

POLS 4970: Research Internship in Political Science

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: 12 credits in POLS; Permission of Instructor

Undergraduate research experience through assisting on a scholarly project with an instructor in political science. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. (Typically Offered: Fall, Spring)

POLS 4980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Permission of Department Cooperative Education Coordinator; Senior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period. (Typically Offered: Fall, Spring, Summer)

POLS 4990: Internship in Political Science

Credits: 1-30. Repeatable, maximum of 12 credits.

Prereq: 6 credits in POLS; Junior or Senior classification; Internship Coordinator Permission

Work experience with a specific nongovernmental or governmental agency at the local, state, national, or international level, combined with academic work under faculty supervision. Use of credit in POLS major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

POLS 5010: Political Analysis and Research

Credits: 3. Contact Hours: Lecture 3.

Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design. (Typically Offered: Fall)

POLS 5040: Proseminar in International Politics

Credits: 3. Contact Hours: Lecture 3.

Overview of major theoretical and empirical works in the study of international politics and foreign policy. Realism, liberalism, and constructivism; conflict, alliances, and international economic relations. Offered even-numbered years. (Typically Offered: Fall)

POLS 5050: Proseminar in Comparative Politics

(Dual-listed with POLS 4050X).

Credits: 3. Contact Hours: Lecture 3.

Foundations of comparative politics, the study of different political regimes. Political behavior, development, causes and consequences of democracy and authoritarianism. Contrasting research methods and designs. Offered odd-numbered years. (Typically Offered: Fall)

POLS 5060: Proseminar in American Politics

Credits: 3. Contact Hours: Lecture 3.

Major theories and research on American government and politics. Modern democratic theory, institutional performance, and mass political behavior. Research methodologies including normative theory, behavioralism, and rational choice analysis.

POLS 5070: Proseminar in Public Policy

Credits: 3. Contact Hours: Lecture 3.

An overview of the major theoretical approaches and empirical methods relevant to the study of public policy. Emphasis is placed on agenda setting, policy formation, policy sustainability, and policy analysis. Seminal writings by leading scholars will be reviewed. Leading quantitative and qualitative methodological tools for analyzing policy are presented.

POLS 5080: Policy Implementation

Credits: 3. Contact Hours: Lecture 3.

The implementation phase of the policy process, primarily within the government sector, with respect to specific programs, rules, or pieces of legislation within a larger policy area, e.g., health, environment, transportation, education, foreign policy. Offered even-numbered years. (Typically Offered: Fall)

POLS 5090: Political Game Theory

Credits: 3. Contact Hours: Lecture 3.

Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory.

POLS 5100: State Government and Politics

(Dual-listed with POLS 4100X).

Credits: 3. Contact Hours: Lecture 3.

Comparative analysis of state political systems. Role of interest groups, political parties, legislatures, courts, and governors in state politics. Possible determinants of public policy outputs at the state level.

POLS 5220: International Law

Credits: 3. Contact Hours: Lecture 3.

Legal aspects of international activities: state jurisdiction over territories and subjects, law of the sea, use of force, and judicial settlement of international disputes.

POLS 5250: Mass Political Behavior

(Dual-listed with POLS 4250X).

Credits: 3. Contact Hours: Lecture 3.

An in-depth survey of the theoretical, empirical, and methodological works concerning mass political behavior in the United States. Substantive topics include political attitudes and ideologies, public opinion and voting behavior, and political psychology. Methods for studying mass behavior include survey research and experimental approaches. Offered odd-numbered years. (Typically Offered: Fall)

POLS 5300: Foundations of Western Political Thought

(Cross-listed with CLST 5300).

Credits: 3. Contact Hours: Lecture 3.

Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law. (Typically Offered: Fall, Spring, Summer)

POLS 5310: Modern Political Thought

Credits: 3. Contact Hours: Lecture 3.

Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics.

POLS 5340: Legal and Ethical Issues in Cyber Security

(Cross-listed with CPRE 5340/ CYBSC 5340).

Credits: 3. Contact Hours: Lecture 3.

Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues. (Typically Offered: Spring)

POLS 5350: Contemporary Political Philosophy

(Cross-listed with PHIL 5350).

Credits: 3. Contact Hours: Lecture 3.

Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as egalitarianism, libertarianism, and socialism. Normative assessment of social and political institutions. (Typically Offered: Spring)

POLS 5430: Energy Policy

Credits: 3. Contact Hours: Lecture 3.

Energy policies and related social, environmental, and political issues. Energy problems and the impact of energy policies.

POLS 5520: Comparative Foreign Policy

Credits: 3. Contact Hours: Lecture 3.

Theoretical approaches to understanding foreign policy making and behavior through case studies of selected nations. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

POLS 5530: International Organization

Credits: 3. Contact Hours: Lecture 3.

Sources of international order in a variety of substantive areas such as international security, international trade and finance, the environment, and human rights: distribution of power, institutions, international law, and norms.

POLS 5600: American Political Institutions

Credits: 3. Contact Hours: Lecture 3.

Examination of policy-making and governance in a separation of powers system. Interaction between the chief executive, the legislature, administrative agencies, and the public. How political and legal forces affect policy makers and are reflected in public policies and programs. Offered odd-numbered years. (Typically Offered: Fall)

POLS 5710: Organizational Theory in the Public Sector

(Dual-listed with POLS 4710X).

Credits: 3. Contact Hours: Lecture 3.

Major theories of administrative organization, including motivations of administrators and organizations, comparisons of organizational arrangements, factors affecting organizational arrangements, and formal and informal decision-making structures.

POLS 5740: Policy and Program Evaluation

Credits: 3. Contact Hours: Lecture 3.

Integration, application, and utilization of public administration and public policy concepts in the interpretation of results and effectiveness of public programs and the prediction of consequences for policymakers and administrators.

POLS 5750: Management in the Public Sector

Credits: 3. Contact Hours: Lecture 3.

Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public-sector organizations. Distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change.

POLS 5770: Government, Business, and Society

Credits: 3. Contact Hours: Lecture 3.

Diverse perspectives on the changing roles and relationships of business, government, and society for more effective policy decisions on corporate affairs. The changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; politics in the business-government relationship.

POLS 5800: Ethics and Public Policy

Credits: 3. Contact Hours: Lecture 3.

Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

POLS 5870: Electronic Democracy

Credits: 3. Contact Hours: Lecture 3.

Impact of computers and the Internet on politics and policy. Positive and negative effects of information technology (IT) on selected topics such as hacking, cybercrime, cyberterrorism, cyberwarfare, privacy, civic participation, the sense of community, virtual cities, interest group behavior, viral media, campaigns, elections, and voting.

POLS 5900A: Special Topics: American Politics

Credits: 2-5. Repeatable.

Prereq: 15 credits in POLS and instructor permission

(Typically Offered: Fall, Spring)

POLS 5900D: Special Topics: Global Politics

Credits: 2-5. Repeatable.

Prereq: 15 credits in POLS and instructor permission

(Typically Offered: Fall, Spring)

POLS 5900G: Special Topics: Public Policy

Credits: 2-5. Repeatable.

Prereq: 15 credits in POLS and instructor permission

(Typically Offered: Fall, Spring)

POLS 5900J: Special Topics: Theory, Law, and Methods

Credits: 2-5. Repeatable.

(Typically Offered: Fall, Spring)

POLS 5980: Graduate Student Internship

Credits: 3-6. Repeatable, maximum of 6 credits.

Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups. (Typically Offered: Fall, Spring)

POLS 5990: Creative Component

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**POLS 6100A: Graduate Seminars: American Politics**

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

POLS 6100D: Graduate Seminars: Global Politics

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

POLS 6100G: Graduate Seminars: Public Policy

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

POLS 6990: Research

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring, Summer)

Portuguese (PORT)

Courses primarily for undergraduates:**PORT 1010: Elementary Portuguese I**

Credits: 4. Contact Hours: Lecture 4.

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 1020: Elementary Portuguese II

Credits: 4. Contact Hours: Lecture 4.

Prereq: PORT 1010

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Meets International Perspectives Requirement.

PORT 1110: Intensive Beginning Portuguese

Credits: 3. Contact Hours: Lecture 3.

A communicative approach to grammar and vocabulary within the context of Luso-Brazilian culture for students whose native language is not Portuguese. Taught in Portuguese.

PORT 1120: Elementary Portuguese, Accelerated II

Credits: 3. Contact Hours: Lecture 3.

Prereq: PORT 1110

An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture. Meets International Perspectives Requirement.

PORT 3750: Brazil Today

Credits: 3. Contact Hours: Lecture 3.

A survey of social, political, economic, and cultural topics relevant to contemporary Brazil. Includes an introduction to Portuguese language. Meets International Perspectives Requirement. (Typically Offered: Fall)

Psychology (PSYCH)

Courses primarily for undergraduates:**PSYCH 1010: Introduction to Psychology**

Credits: 3. Contact Hours: Lecture 2, Discussion 1.

Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology. (Typically Offered: Fall, Spring, Summer)

PSYCH 1020: Laboratory in Introductory Psychology

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or concurrent enrollment in PSYCH 1010

Laboratory to accompany 1010. (Typically Offered: Fall, Spring)

PSYCH 1110: Orientation to Psychology

Credits: 1. Contact Hours: Lecture 1.

Program requirements and degree/career options. Required of psychology majors. (Typically Offered: Fall, Spring)

PSYCH 1120: Psychology Learning Community Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 credits.

Topics include orientation to academic program requirements, career awareness, strategies for successful transition to college, connections with other disciplines, and applying psychology via service learning opportunities. (Typically Offered: Fall, Spring)

PSYCH 1310: Academic Learning Skills

Credits: 1. Contact Hours: Lecture 1.

Evidence-based approach to learning and applying academic skills such as time management, note-taking, reading, test preparation, goal setting and motivation, and well-being. Hybrid course structured in a team-based learning format. (Typically Offered: Fall, Spring)

PSYCH 2110: Career Opportunities in Psychology

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 1110 or PSYCH 1120 or Sophomore classification

Introduction to career options for psychology majors. Development of foundational career preparation topics like resume writing, interviewing, and other career-related topics. Thorough introduction to the sub-fields of psychology. Guidance on applying to graduate school or seeking a job with a bachelor's degree. (Typically Offered: Fall, Spring)

PSYCH 2210X: Clinical Psychology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 1010

Overview of the field of clinical psychology. Readings, small group work, class discussion, lectures, and videos to describe the field of clinical psychology.

PSYCH 2300: Developmental Psychology

Credits: 3. Contact Hours: Lecture 3.

Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment. (Typically Offered: Fall, Spring, Summer)

PSYCH 2500: Psychology of the Workplace

Credits: 3. Contact Hours: Lecture 3.

Survey of theories and research methods of psychology applied to the workplace. Consideration of employee selection, training, performance evaluation, leadership, work groups, employee motivation, job attitudes and behaviors, organizational culture, organizational development, human factors, and job design from the scientist-practitioner approach.

PSYCH 2800: Social Psychology

Credits: 3. Contact Hours: Lecture 3.

Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping. (Typically Offered: Fall, Spring, Summer)

PSYCH 2910: Introductory Research Experience

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: PSYCH 1010; Sophomore classification; Permission of Instructor

Beginning level supervised research experience in a faculty laboratory. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

PSYCH 3010: Research Design and Methodology

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 1010 or STAT 1040 or STAT 2260); 1 PSYCH course

Overview of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data. (Typically Offered: Fall, Spring, Summer)

PSYCH 3020: Research Methods in Psychology

Credits: 3.

Prereq: PSYCH 3010, ENGL 2500

Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology. (Typically Offered: Fall, Spring)

PSYCH 3100: Brain and Behavior

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior. (Typically Offered: Fall, Spring)

PSYCH 3120: Sensation and Perception

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses. (Typically Offered: Fall, Spring)

PSYCH 3130: Learning and Memory

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Survey of fundamental concepts and theories related to learning and memory derived from human and animal research. (Typically Offered: Fall, Spring)

PSYCH 3140: Motivation

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Theory and research on motivation at biological, environmental, and psychological levels. Topics include emotion, eating, sex, music, addictions, incentives, goal performance, personality, coping, self-determination and purpose. (Typically Offered: Fall, Spring)

PSYCH 3150: Drugs and Behavior

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Biologically based examination of the effects of drugs on behavior and social interactions, including recreational drugs and drugs used in the treatment of psychiatric and neurological disorders. (Typically Offered: Fall, Spring)

PSYCH 3160: Cognitive Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Overview of human cognition, including sensation and perception, attention, memory, language, and judgment and decision making. (Typically Offered: Fall, Spring)

PSYCH 3180: Judgment and Decision Making

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; (STAT 1010 or STAT 1040 or STAT 2260 or Permission of Instructor)

Understanding human reasoning and decision making, including evaluating evidence, judging probabilities, emotional influences, and social dilemmas, with emphasis on the mechanisms that underlie decision making. (Typically Offered: Fall, Spring)

PSYCH 3200: Sleep and Dreams

Credits: 3. Contact Hours: Lecture 2, Discussion 1.

Prereq: PSYCH 1010

Scientific study of sleep and dreams including basic biological and psychological aspects of sleep-wake cycles, the nature and function of dreams, and the role of sleep in human behavior, performance, and well-being. Sleep problems and their social consequences. (Typically Offered: Spring)

PSYCH 3270: Persuasion and Social Influence

(Cross-listed with COMST 3270).

Credits: 3. Contact Hours: Lecture 3.

Examination of theories and research in persuasive communication, including attitudes and social influence. Emphasis on persuasive communication strategies in everyday social settings that influence changes in attitudes and actions. (Typically Offered: Fall, Spring, Summer)

PSYCH 3330: Educational Psychology

(Cross-listed with EDUC 3330).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 2300 or HDFS 1020

Psychological theories relevant to student development, learning, and motivation. Review of assessment principles and practices. Implications of theory for teaching children and for assessing learning in K-12 educational settings, with an emphasis on grades 5 - 12. (Typically Offered: Fall, Spring)

PSYCH 3350: Child and Adolescent Psychopathology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; HDFS 1020 or PSYCH 2300

Psychopathology of children and adolescents, including childhood depression and anxiety disorders. Consideration of multiple probable causes and corresponding therapies. (Typically Offered: Fall, Spring)

PSYCH 3460: Psychology of Women

(Cross-listed with WGS 3460).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 1 additional PSYCH course

Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls' and women's psychological development and behavior. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

PSYCH 3470: U.S. Latino/a Psychology

(Cross-listed with USLS 3470).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 1 additional PSYCH course

Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use with Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a people in the U.S. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

PSYCH 3480: Psychology of Religion

(Cross-listed with RELIG 3480).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 9 credits in PSYCH

Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

PSYCH 3490X: Psychology of Sexual Orientation

(Cross-listed with WGS 3490X).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 1010; 3 additional credits in PSYCH

Development of major human sexual orientation identities (e.g., bisexual, gay, heterosexual, and lesbian) from a research perspective. How persons navigate life contexts (e.g., family, work, relationships) in connection with their sexual identity. Factors that enhance positive sexual orientation identity development. (Typically Offered: Spring)

PSYCH 3500: Human Factors in Technology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; junior classification

Understanding human behavior and cognition in the context of modern technologies. Focus on emergent interactive technologies, human computer interaction, user centered design, usability analysis, and usability testing. (Typically Offered: Fall)

PSYCH 3600: Personality Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Historical and contemporary theory and research on development and expression of personality with a focus on normal functioning. (Typically Offered: Fall, Spring, Summer)

PSYCH 3800: Social Cognition

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010 or PSYCH 2800

How people understand themselves and others, including attitude formation and change, attribution, impression formation, social categories and schemas, the self, stereotypes, and prejudice. (Typically Offered: Spring)

PSYCH 3830: Psychology and Law

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010 or PSYCH 2800

Survey of topics in the interface between psychology and the legal system including but not limited to Miranda warning, confessions, police interrogation, lie detection, juries, eyewitness identification, false memories, and the death penalty. (Typically Offered: Fall, Spring)

PSYCH 3860: Media Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010 or PSYCH 2300 or PSYCH 2800

Theories and research on the psychological mechanisms (e.g., attitudes, perceptions, emotions, arousal) by which media influence children and adults. Topics include media violence, educational media, advertising, music, video games, media literacy, and ratings. (Typically Offered: Fall, Spring, Summer)

PSYCH 4050: History of Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: 4 courses in PSYCH

Origins of psychology in philosophy, physiology, medicine and religion. Development as a scientific discipline during the nineteenth and twentieth centuries. Historical overview of clinical practice and theory. (Typically Offered: Spring)

PSYCH 4110: Evolutionary Psychology

Credits: 3. Contact Hours: Lecture 3.

Examination of the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are also examined. (Typically Offered: Spring)

PSYCH 4130: Psychology of Language

(Cross-listed with LING 4130).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010

Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. (Typically Offered: Spring)

PSYCH 4220: Counseling Theories and Techniques

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 courses in PSYCH

Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapeutic goals, and the main techniques derived from each theory. (Typically Offered: Fall)

PSYCH 4220L: Laboratory in Counseling Theory and Techniques

Credits: 1. Contact Hours: Laboratory 2.

Prereq: 3 courses in PSYCH; credit or concurrent enrollment in PSYCH 4220

Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills. (Typically Offered: Fall)

PSYCH 4400: Psychological Measurement I

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: PSYCH 3010; 9 additional PSYCH credits; (STAT 1010 or STAT 1040 or STAT 2260)

Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; construction and use of measures of ability, achievement, and personality. (Typically Offered: Fall, Spring, Summer)

PSYCH 4500: Industrial Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 1 additional PSYCH course; (STAT 1010 or STAT 1040 or STAT 2260)

Theory, content and methods of industrial psychology related to the effective operation of organizations. Application of psychology principles to topics including different approaches used to select employees, how to conduct performance appraisals, and how to train and keep employees safe. Work attitudes and behaviors of employees as well as relevant legal issues. Statistics including regression and correlation are used. (Typically Offered: Fall, Spring)

PSYCH 4600: General Psychopathology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 2 additional PSYCH courses

Description of major forms of psychopathology including anxiety, mood disorders, personality disorders, substance abuse, and schizophrenia. Coverage of research examining causes, development, and clinical issues concerning psychopathology. (Typically Offered: Fall, Spring, Summer)

PSYCH 4840: Psychology of Close Relationships

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 2800; 6 additional credits in PSYCH

Theories and research concerning the functions, development, and deterioration of close relationships. Influence of psychological processes on friendship, romantic, marital, and family relationships. Topics include mate selection, interdependence, trust and commitment, power and dominance in relationships, sexuality, divorce, gender roles, and family interaction. (Typically Offered: Fall, Spring)

PSYCH 4850: Health Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PSYCH; Junior classification

Application of psychological theory and research methods to issues in physical health. Psychological factors in illness prevention, health maintenance, treatment of illness, recovery from injury and illness, and adjustment to chronic illness. (Typically Offered: Fall)

PSYCH 4870: Human Aggression

Credits: 3. Contact Hours: Lecture 3.

Prereq: (PSYCH 2300 or PSYCH 2800); PSYCH 3010; (PSYCH 3130, PSYCH 3160, PSYCH 3180, PSYCH 3600, or PSYCH 3800)

Theory and research on development and occurrence of human aggression; implications for prevention and treatment. (Typically Offered: Spring)

PSYCH 4880: Cultural Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 2800; PSYCH 3010; Junior classification

Examination of the ways that cultural beliefs, values, and affordances shape cognitive, developmental, social and other psychological phenomena, as well as the forces that shape and change culture. Meets International Perspectives Requirement.

PSYCH 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 6 credits in PSYCH; Junior classification; Permission of Instructor

Supervised reading in an area of psychology. Writing requirement. Graduation Restriction: No more than 9 credits of PSYCH 4900 may be counted toward a degree in psychology. (Typically Offered: Fall, Spring, Summer)

PSYCH 4910: Research Practicum

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: Credit or concurrent enrollment in PSYCH 3010; Junior classification; Permission of Instructor

Supervised research in an area of psychology. Primarily for students intending to pursue graduate education. Graduation Restriction: No more than 9 credits of PSYCH 4910 may be counted toward a degree in psychology. (Typically Offered: Fall, Spring, Summer)

PSYCH 4920A: Fieldwork Practicum: Human Services

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 12 credits in PSYCH; Junior classification; Permission of Instructor
Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PSYCH 4920B: Fieldwork Practicum: I/O Psychology

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: (PSYCH 2500 or PSYCH 4500); 9 additional PSYCH credits; Junior classification; Permission of Instructor
Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

PSYCH 5010: Foundations of Behavioral Research

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Ethical issues, research design, sampling design, measurement issues, power and precision analysis, interpretation of statistical results in non-experimental, quasi-experimental, and experimental research, use of statistical packages. (Typically Offered: Fall, Spring)

PSYCH 5050: History Of Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification or Permission of Instructor

Origins of psychology in philosophy, physiology, medicine and religion. Development as a scientific discipline during the nineteenth and twentieth centuries. Historical overview of clinical practice and theory. (Typically Offered: Spring)

PSYCH 5160: Advanced Cognition

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Theoretical models and empirical research in human cognition including perception, attention, memory, concepts/categorization, imagery, and judgment and decision making. (Typically Offered: Fall, Spring)

PSYCH 5190: Cognitive Neuropsychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Psychological models and related neurological substrates underlying cognition in normal and brain-damaged individuals.

PSYCH 5210: Cognitive Psychology of Human Computer Interaction

(Cross-listed with HCI 5210).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

PSYCH 5220: Scientific Methods in Human Computer Interaction

(Cross-listed with HCI 5220).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction. Offered odd-numbered years. (Typically Offered: Spring)

PSYCH 5330: Theories of Learning

(Cross-listed with EDUC 5330).

Credits: 3. Contact Hours: Lecture 3.

Major theories of learning and cognition in educational settings. Emphasis on behavioral, cognitive, constructivist, and sociocultural theories and their implications for educational policy and practice. (Typically Offered: Fall)

PSYCH 5380: Developmental Disabilities

(Cross-listed with HDFS 5380).

Credits: 3. Contact Hours: Lecture 3.

Theories, research, and current issues regarding the intersection of development and disabilities. Investigation of interventions with individuals and families (Online course offering via Distance Education). Offered odd-numbered years. (Typically Offered: Fall)

PSYCH 5420: Applied Psychological Measurement

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Principles of psychological measurement, including concepts of reliability and validity; interpretation of scores; factors influencing performance; test construction and use of measures of intelligence, ability, achievement, vocational interest, and personality. Ethical and multicultural issues in measurement. (Typically Offered: Fall)

PSYCH 5440: Cognitive Assessment

Credits: 3.

Prereq: PSYCH 5420; graduate student in Psychology

Principles, concepts, and methods of clinical interviewing, behavioral observation, and administration, scoring, and interpreting individual tests of cognitive function. (Typically Offered: Fall, Spring)

PSYCH 5440A: Behavioral Assessment

Credits: 2. Contact Hours: Lecture 2, Laboratory 1.

Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

PSYCH 5440B: Individual Tests: Children

Credits: 2. Contact Hours: Lecture 2, Laboratory 1.

Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

PSYCH 5440C: Testing: Adult Ages

Credits: 2.

Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

PSYCH 5600: Advanced Personality Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Advanced analysis of contemporary theory and research on personality measurement, development, heritability, and social expression.

PSYCH 5620: Personality Assessment

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 5420; graduate student in Psychology

Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

PSYCH 5800: Advanced Social Psychology: Psychological Perspectives

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

PSYCH 5890: Systems Neuroscience: Brain, Behavior, and Nutrition-Related Integrative Physiology

(Cross-listed with FSHN 5890/ GERON 5890/ NEURO 5890/ NUTRS 5890).

Credits: 2. Contact Hours: Lecture 2.

Structural, functional, and biochemical aspects of brain and non-motor behavior across the human lifespan. Types of neuroimaging used to assess the brain. Current research is leveraged to gauge how nutrition, diseases related to nutrition, and associated physiological processes influence the brain, particularly for common developmental, psychological, and neurological disorders. (Typically Offered: Spring)

PSYCH 5900A: Special Topics: Counseling

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5900Q: Special Topics: Cognitive

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5900R: Special Topics: Social

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5900Z: Special Topics: General

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5920C: Seminar in Psychology: Developmental

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Graduate classification and Permission of Instructor

(Typically Offered: Fall, Spring)

PSYCH 5920P: Seminar in Psychology: Research Methods and Psychometrics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5920Z: Seminar in Psychology: General

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Graduate classification and Permission of Instructor

PSYCH 5940A: Quantitative Behavioral Methods: Classical Psychometric Theory

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 5010

(Typically Offered: Fall, Spring)

PSYCH 5940B: Quantitative Behavioral Methods: Modern Psychometric Methods

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 5010

(Typically Offered: Fall, Spring)

PSYCH 5940C: Quantitative Behavioral Methods: Construct Validation

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 5010

(Typically Offered: Fall, Spring)

PSYCH 5940D: Quantitative Behavioral Methods: Multi-Dimensional Scaling

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 5010

(Typically Offered: Fall, Spring)

PSYCH 5940E: Quantitative Behavioral Methods: Cluster Analysis

Credits: 1. Contact Hours: Lecture 1.

(Typically Offered: Fall, Spring)

PSYCH 5940F: Quantitative Behavioral Methods: Meta-analysis

Credits: 1. Contact Hours: Lecture 1.

(Typically Offered: Fall, Spring)

PSYCH 5940G: Quantitative Behavioral Methods: Longitudinal Analysis

Credits: 1. Contact Hours: Lecture 1.

Prereq: PSYCH 5010

(Typically Offered: Fall, Spring)

PSYCH 5940I: Quantitative Behavioral Methods: Focus Groups

Credits: 1. Contact Hours: Lecture 1.

(Typically Offered: Fall, Spring)

PSYCH 5940K: Quantitative Behavioral Methods: Mediation and Moderation

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems. (Typically Offered: Fall, Spring)

PSYCH 5940L: Quantitative Behavioral Methods: Missing Data

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems. (Typically Offered: Fall, Spring)

PSYCH 5940M: Quantitative Behavioral Methods: Power Analysis

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems. (Typically Offered: Fall, Spring)

PSYCH 5940N: Quantitative Behavior Methods: Generalized Linear Models

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems. (Typically Offered: Spring)

PSYCH 5940P: Quantitative Behavioral Methods: Systematic Review

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems.

PSYCH 5940R: Quantitative Behavioral Methods: Practical Data Analysis

Credits: 1. Contact Hours: Lecture 1.

Specialized quantitative methods for social and behavioral research problems. (Typically Offered: Spring)

PSYCH 5950A: Seminar in Social Psychology: Social Cognition

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950B: Seminar in Social Psychology: Aggression

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950C: Seminar in Social Psychology: Culture

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950D: Seminar in Social Psychology: Attitudes and Attitude Change

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950E: Seminar in Social Psychology: Psychology and Law

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950F: Seminar in Social Psychology: Health Psychology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Spring)

PSYCH 5950G: Seminar in Social Psychology: Close Relationships

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950I: Seminar in Social Psychology: General

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5950J: Seminar in Social Psychology: Industrial Organizational Psychology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Fall)

PSYCH 5950K: Seminar in Social Psychology: Media Psychology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 5800; Graduate classification

(Typically Offered: Spring)

PSYCH 5950L: Seminar in Social Psychology: Self and Identity

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

PSYCH 5960A: Seminar in Counseling Psychology: Supervision

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Psychology Graduate Student

(Typically Offered: Fall, Spring)

PSYCH 5960B: Seminar in Counseling Psychology: Research

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Psychology Graduate Student

(Typically Offered: Fall, Spring)

PSYCH 5960C: Seminar in Counseling Psychology: Multicultural

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Psychology Graduate Student

(Typically Offered: Fall, Spring)

PSYCH 5960D: Seminar in Counseling Psychology: Professional Issues and Ethics

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Psychology Graduate Student

(Typically Offered: Fall, Spring)

PSYCH 5960E: Seminar in Counseling Psychology: General

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: Psychology Graduate Student

(Typically Offered: Fall, Spring)

PSYCH 5980A: Seminar in Cognitive Psychology: Attention and Perception

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980B: Seminar in Cognitive Psychology: Memory

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980C: Seminar in Cognitive Psychology: Cognitive Neuroscience

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980D: Seminar in Cognitive Psychology: Judgment and Decision Making

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980E: Seminar in Cognitive Psychology: Evolution

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980F: Seminar in Cognitive Psychology: Language

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980G: Seminar in Cognitive Psychology: Applied

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5980I: Seminar in Cognitive Psychology: General

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Prereq: PSYCH 5160; graduate classification

(Typically Offered: Fall, Spring)

PSYCH 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

Offered on a satisfactory-fail basis only.

Courses for graduate students:**PSYCH 6050: Multi-level Modeling**

(Cross-listed with HDFS 6050).

Credits: 3. Contact Hours: Lecture 3.

Rationale for and interpretation of random coefficient models. Strategies for the analysis of multi-level and panel data including models for random intercepts, random slopes, and growth curves. Offered odd-numbered years. (Typically Offered: Spring)

PSYCH 6210: Psychological Counseling -Theory and Process

Credits: 3. Contact Hours: Lecture 3.

Prereq: Psychology graduate student; instructor permission

Overview of major counseling theories with emphases upon: key concepts of theories, the role of the counselor, and applications of theory in fostering client change. (Typically Offered: Fall)

PSYCH 6210L: Psychological Counseling -Theory and Process: Techniques in Counseling

Credits: 3. Contact Hours: Laboratory 6.

Prereq: Psychology graduate student; instructor permission

Development of basic counseling skills and techniques through observation, role-playing, case studies, and supervised counseling sessions. (Typically Offered: Fall)

PSYCH 6230: Vocational Behavior

Credits: 3. Contact Hours: Lecture 3.

Prereq: Psychology Graduate Student

Theoretical views, research, and issues in career development through the life span. Methods of career counseling, including appraisal interviewing, assessment, test interpretation, and use of information sources.

PSYCH 6260: Group Counseling

Credits: 3. Contact Hours: Lecture 4.

Prereq: Psychology Graduate Student

Theory, research, ethical issues, and therapeutic considerations relevant to group counseling. Participation in lab exercises for development of group counseling skills and observation of ongoing groups.

PSYCH 6330: Teaching of Psychology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Psychology Graduate Student

Orientation to teaching of psychology at college level: academic issues and problems, instructional and evaluative techniques. (Typically Offered: Spring)

PSYCH 6610: Adult Psychopathology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Examination of DSM and research based perspectives pertinent to the major forms of adult psychopathology including: anxiety, mood, psychotic, personality and other disorders. Coverage of research examining causes, development, and clinical issues concerning adult psychopathology.

PSYCH 6910A: Practicum in Psychology: Counseling (Beginning)

Credits: 1-30. Repeatable, maximum of 6 credits.

Prereq: PSYCH 6210L; Psychology graduate student

(Typically Offered: Fall, Spring)

PSYCH 6910B: Practicum in Psychology: Counseling (Intermediate)

Credits: 1-30. Repeatable, maximum of 6 credits.

Prereq: PSYCH 6910A; Psychology graduate student

(Typically Offered: Fall, Spring)

PSYCH 6910C: Practicum in Psychology: Counseling (Advanced)

Credits: 1-30. Repeatable, maximum of 6 credits.

Prereq: PSYCH 6910B; Psychology graduate student

(Typically Offered: Fall, Spring)

PSYCH 6910D: Practicum in Psychology: Counseling (Advanced External Practicum)

Credits: 1-30. Repeatable.

Prereq: PSYCH 6910C; Psychology graduate student

(Typically Offered: Fall, Spring)

PSYCH 6910G: Practicum in Psychology: Group Counseling

Credits: 1-30. Repeatable.

Prereq: PSYCH 6260; Psychology graduate student

(Typically Offered: Fall, Spring)

PSYCH 6910S: Practicum in Psychology: Supervision

Credits: 1-30. Repeatable.

(Typically Offered: Fall, Spring)

PSYCH 6910T: Practicum in Psychology: Teaching

Credits: 1-30. Repeatable, maximum of 6 credits.

Prereq: Psychology graduate student; instructor permission

Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

PSYCH 6910Z: Practicum in Psychology: General

Credits: 1-30. Repeatable, maximum of 6 credits.

Prereq: Psychology graduate student; instructor permission

(Typically Offered: Fall, Spring)

PSYCH 6920A: Research Seminar: Counseling

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Psychology Graduate Student

PSYCH 6920Q: Research Seminar: Cognitive

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Psychology Graduate Student

PSYCH 6920R: Research Seminar: Social

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Psychology Graduate Student

PSYCH 6920Z: Research Seminar: General

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Psychology Graduate Student

PSYCH 6970: Internship in Counseling Psychology

Credits: Required.

Prereq: Psychology graduate student; instructor permission

Full time supervised predoctoral internship experience in a setting relevant to counseling psychology. (Typically Offered: Fall, Spring, Summer)

PSYCH 6990: Research

Credits: 1-30. Repeatable.

Prereq: Graduate classification and Permission of Instructor

Offered on a satisfactory-fail basis only.

Public Relations (PR)

Courses primarily for undergraduates:

PR 2200: Principles of Public Relations

Credits: 3. Contact Hours: Lecture 3.

Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; ethics, public opinion and theory.

PR 3010: Research and Strategic Planning for Advertising and Public Relations

(Cross-listed with ADVRT 3010).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ADVRT 2300 or PR 2200

The use of primary and secondary research for situations, organizations and the public. Formation and development of strategic plans for public relations and advertising students.

PR 3050: Publicity Methods

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500; Sophomore classification

Communication and publicity fundamentals and the use of media for publicity purposes. Not available to Greenlee School majors.

PR 3210: Public Relations Writing

Credits: 3.

Prereq: JLMC 1100; Minimum of C+ in JLMC 2010; ADVRT 3010/PR 3010

Developing and writing public relations materials with an emphasis on media relations and news. Techniques addressed include media kits, brochures, newsletters, digital media and speeches.

PR 3240: Brand Storytelling

Credits: 3. Contact Hours: Lecture 3.

Prerequisite: JLMC 2010

Combining critical journalism skills with persuasive tactics of public relations and advertising to tell inspiring brand stories. Introduction to transmedia storytelling that tells compelling stories shared with and by diverse audiences. (Typically Offered: Fall, Spring)

PR 3900: Professional Skills Development

(Cross-listed with ADVRT 3900/ JLMC 3900).

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: (Minimum of C+ in JLMC 2010; JLMC major or ADVRT major or PR major) or Permission of Instructor

Check with Greenlee School for course availability. (Typically Offered: Fall, Spring)

PR 3910: Short Course Intensive

(Cross-listed with ADVRT 3910/ JLMC 3910).

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 6 credits.

Focused short courses on timely concepts. Check with Greenlee School for course availability. Offered on a satisfactory-fail basis only.

PR 4200: Crisis Communication

Credits: 3. Contact Hours: Lecture 3.

Prereq: PR 2200

Public relations strategies and tactics for crisis situations to protect and recover an organization's reputation: public behavior in crisis, crisis assessment, crisis communication plan, media training for leaders and spokespersons, apology strategy, corporate social responsibility, rumor in social media and reputation management.

PR 4240: Public Relations Campaigns

Credits: 3. Contact Hours: Lecture 3.

Prereq: ADVRT 3010 or PR 3010; minimum of C+ in PR 3210

Developing public relations and public information campaigns for business and social institutions.

PR 4730: Social Media Strategy

(Cross-listed with JLMC 4730/ ADVRT 4730).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

The strategic use of social media, from both an advertising and public relationship standpoint, to the advantage of a client or organization. Examination and analysis of the social media space from a business perspective. Best practices in the areas of strategic planning, tactical execution, and measurement of social media platforms. (Typically Offered: Fall, Spring)

PR 4900: Independent Study in Communication

Credits: 1-30. Repeatable.

Prereq: Junior standing or Permission of Instructor

Projects during which students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a reportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. Contract with supervising professor required. Graduation Restriction: No more than 3 credits of ADVRT/JLMC/PR 4900 may be used toward a degree in the Greenlee School.

PR 4970: Special Topics in Communication

(Cross-listed with JLMC 4970/ ADVRT 4970).

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: Junior classification

Seminars or one-time classes on topics of relevance to students in communication. See Schedule of Classes for topics.

PR 4990A: Professional Media Internship: Required

Credits: 3.

Prereq: ([JLMC major; JLMC 1100; minimum of C+ in JLMC 3020 or JLMC 3030] or [ADVRT major; JLMC 1100; ADVRT 3010 or PR 3010; minimum of C+ in JLMC 2010] or [PR major; JLMC 1100; ADVRT 3010 or PR 3010; minimum of C+ in PR 3210]); Advisor Approval

Initial, required internship. A 4000-hour (for 3 credits) internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

PR 4990B: Professional Media Internship: Optional

Credits: 1-3.

Prereq: ([JLMC major; JLMC 1100; minimum of C+ in JLMC 3020 or JLMC 3030] or [ADVRT major; JLMC 1100; ADVRT 3010 or PR 3010; minimum of C+ in JLMC 2010] or [PR major; JLMC 1100; ADVRT 3010 or PR 3010; minimum of C+ in PR 3210]); Advisor Approval

Optional internship in the student's specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to Greenlee School majors. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Religious Studies (RELIG)

Courses primarily for undergraduates:

RELIG 2050: World Religions

(Cross-listed with WLC 2050).

Credits: 3. Contact Hours: Lecture 3.

An introduction to religious studies - the academic study of religion.

Religions from around the world will be discussed, including their myths, rituals, beliefs, values, and social forms. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

RELIG 2100: Religion in America

Credits: 3. Contact Hours: Lecture 3.

Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

RELIG 2150: Religion and Popular Culture

Credits: 3. Contact Hours: Lecture 3.

Utilize the theories, skills, and methods of the academic study of religion to learn about religion in popular culture and how popular culture functions as a religion in modern society. Analysis of select films. Meets International Perspectives Requirement. (Typically Offered: Spring)

RELIG 2420: History of Christianity: Early to Medieval

Credits: 3. Contact Hours: Lecture 3.

A survey of the major historical developments in Christian thought and practice that shaped Christianity from the time of Jesus through the late medieval period. Attention given to significant persons and major events, including those involving relations with Judaism and Islam. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

RELIG 2430: History of Christianity: Modern

Credits: 3. Contact Hours: Lecture 3.

A survey of the major figures, events, and issues that shaped the historical development of Christianity from the Reformation era to the present. Explores the diverse social, political, and cultural movements within Christianity as a global religion. (Typically Offered: Fall, Spring, Summer)

RELIG 2770: Religion and Society

(Cross-listed with SOC 2770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Religion as a human construction, institution, activity, and identity. Connections between religion and other social institutions and processes. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

RELIG 3210: The Hebrew Bible

Credits: 3. Contact Hours: Lecture 3.

An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations. (Typically Offered: Fall)

RELIG 3220: The New Testament

Credits: 3. Contact Hours: Lecture 3.

A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background. (Typically Offered: Spring)

RELIG 3250: Religion, Law, and Justice

(Cross-listed with CJ 3250/ POLS 3250).

Credits: 3. Contact Hours: Lecture 3.

A study of the role of religion in law and justice with a focus on the United States. Examines the history of religious freedom, key contemporary legal cases, and how religious-oriented justice movements engage ethics and the law. (Typically Offered: Fall)

RELIG 3280: Native American Religions

Credits: 3. Contact Hours: Lecture 3.

An introduction to the beliefs and practices of Native American religious traditions, with attention to cultural, historical, and political contexts.

RELIG 3320: Catholicism

Credits: 3. Contact Hours: Lecture 3.

An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions. (Typically Offered: Fall)

RELIG 3340: Africana Religions

(Cross-listed with AFAM 3340).

Credits: 3. Contact Hours: Lecture 3.

A focused study of the religious histories and cultures of West Africans and their descendants in the Americas. Topics include West African traditions, Christianity, Islam, and indigenous Afro-Caribbean religions, with attention to their gendered, theological, and cultural dimensions. Prior course work in Religious Studies or African American Studies recommended. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

RELIG 3360: Religion, Sex and Gender

(Cross-listed with WGS 3360).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (3 credits in RELIG or WGS) or Permission of Instructor

Gender and sexuality in the historical and contemporary contexts of various religious traditions. Meets International Perspectives Requirement. (Typically Offered: Fall)

RELIG 3390: Goddess Religions

(Cross-listed with WGS 3390).

Credits: 3. Contact Hours: Lecture 3.

Focal study of selected global Goddess traditions in context, including American Goddess spirituality. Historical and cross-cultural images, identities, and discourses of female divinity.

RELIG 3400: Magic, Witchcraft, and Religion

(Dual-listed with ANTHR 5400/ RELIG 5400). (Cross-listed with ANTHR 3400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ANTHR 2010 or ANTHR 3060

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice. Meets International Perspectives Requirement. (Typically Offered: Spring)

RELIG 3480: Psychology of Religion

(Cross-listed with PSYCH 3480).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 9 credits in PSYCH

Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

RELIG 3490: Cognitive Science of Religion

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

Using case studies from the world's religions, this course examines cross-culturally occurring forms of religious expression in light of humanistic and scientific researches in the cognitive science of religion (CSR). Topics may include beliefs in god and other supernatural beings, afterlife beliefs, morality, rituals, and religious experiences, among others. Prior coursework in Religious Studies or Psychology recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

RELIG 3500: Philosophy of Religion

(Cross-listed with PHIL 3500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in PHIL or permission of instructor

The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. (Typically Offered: Fall)

RELIG 3520: Religions of India

(Cross-listed with WLC 3520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

Study of texts, practices, beliefs, historical development, and mutual influence of a variety of the religious traditions of India. Emphasis on Vedic religion and the diversity of traditions of Classical Hinduism; survey of Buddhist, Jain, Sikh, and South Asian Islamic traditions. Meets International Perspectives Requirement.

RELIG 3580: Islam

(Cross-listed with WLC 3580).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

An introduction to Islamic religion, culture, and society from its origins to the present. Topics include the Quran, the Prophet Muhammad, Islamic theology and philosophy, Islamic history, and Islam in America. Meets International Perspectives Requirement.

RELIG 3590: The Quran

(Cross-listed with WLC 3590).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

A study of the Quran, the sacred text of Islam, with attention to its history, its major themes, and the diverse ways it is interpreted and applied. Meets International Perspectives Requirement.

RELIG 3600: Religion and Ethics

Credits: 3. Contact Hours: Lecture 3.

Investigation of comparative religious ethical theories and approaches to contemporary moral issues. Exploration of the connections between religious belief, identity, and moral practice.

RELIG 3610X: Religion, Health, and Medicine

Credits: 3. Contact Hours: Lecture 3.

A broad overview of the relationship between religion, health, and medicine for students interested in religion and those interested in entering healthcare fields. Exploration of physical and mental health and healing throughout history and among practitioners of Western, Eastern, and Indigenous religious traditions. Examination of religion and public health crises and the role of religion in culturally competent healthcare today. (Typically Offered: Fall, Spring)

RELIG 3670: Christianity in the Roman Empire

(Cross-listed with CLST 3670).

Credits: 3. Contact Hours: Lecture 3.

An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries.

RELIG 3680: Religions of Ancient Greece and Rome

(Cross-listed with CLST 3680).

Credits: 3. Contact Hours: Lecture 3.

Nature, origins and development of religious beliefs and practices in ancient Greece and Rome from earliest times up to the rise of Christianity. Roles of divinities and rituals in lives of individuals and families and the governing of city-states and empires. Emphasis on historical contexts of the Graeco-Roman world and influences of neighboring cultures in Africa and Asia. Meets International Perspectives Requirement.

RELIG 3700: Religion and Politics

(Cross-listed with POLS 3700).

Credits: 3. Contact Hours: Lecture 3.

The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. (Typically Offered: Fall)

RELIG 3800: Catholic Social Thought

Credits: 3. Contact Hours: Lecture 3.

Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists. (Typically Offered: Spring)

RELIG 3890: Exhibiting Religion

(Cross-listed with ANTHR 3890).

Credits: 3. Contact Hours: Lecture 3.

Display of religion in museums, fairs, and exhibitions. History and ethics of museum collecting, storage, display, public engagement, and repatriation. Visit local museums and explore digital galleries.

RELIG 4750: Seminar: Issues in the Study of Religion

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 times.

Prereq: 6 credits in RELIG and Permission of Instructor

Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor.

RELIG 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 6 credits in RELIG and Permission of Instructor

Guided reading and research on special topics selected to meet the needs of advanced students. Graduation Restriction: No more than 9 credits of RELIG 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

RELIG 4900H: Independent Study: Honors

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 6 credits in RELIG and Permission of Instructor

Guided reading and research on special topics selected to meet the needs of advanced students. Graduation Restriction: No more than 9 credits of RELIG 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

RELIG 4910: Senior Thesis

Credits: 3.

Prereq: Instructor Permission for Course

Written under the supervision of a Religious Studies faculty advisor.

RELIG 4940: Special Studies in Religious Research Languages

Credits: 2-3. Repeatable.

Prereq: 6 credits in RELIG and Permission of Instructor

Courses primarily for graduate students, open to qualified undergraduates:

RELIG 5400: Magic, Witchcraft, and Religion

(Dual-listed with ANTHR 3400/ RELIG 3400). (Cross-listed with ANTHR 5400).

Credits: 3. Contact Hours: Lecture 3.

Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice. Meets International Perspectives Requirement. (Typically Offered: Spring)

RELIG 5900: Special Topics in Religious Studies

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Research and Evaluation (RESEV)

Courses primarily for graduate students, open to qualified undergraduates:

RESEV 5500: Introduction to Educational Research

Credits: 3. Contact Hours: Lecture 3.

Understanding the nature of quantitative and qualitative research; reviewing the literature; developing research problems and questions; research designs; data collection and analysis issues; evaluating research studies. (Typically Offered: Fall, Spring, Summer)

RESEV 5520: Basic Educational Statistics

Credits: 3. Contact Hours: Lecture 3.

Statistical concepts and procedures for analyzing educational data; descriptive statistics, correlation, t tests, and chi square with computer applications. (Typically Offered: Fall)

RESEV 5530: Intermediate Educational Statistics

Credits: 3. Contact Hours: Lecture 3.

A continuation of statistical concepts and procedures for analyzing educational data, using multiple regression and logistic regression.

RESEV 5540: Intermediate Research Methods

Credits: 3. Contact Hours: Lecture 3.

Intermediate quantitative research methodology in preparation for carrying out thesis and dissertation research, with an emphasis on the estimation of causal effects using observational data. (Typically Offered: Fall, Summer)

RESEV 5700: Surveys in Educational Research

Credits: 3. Contact Hours: Lecture 3.

Examination of survey design and administration in educational research. Designing surveys; developing, evaluating, and asking survey questions; survey sampling; measuring survey reliability and validity; administering mail and web surveys; decreasing survey nonresponse; conducting post-collection survey data processing; conducting survey research with integrity. (Typically Offered: Spring)

RESEV 5800: Introduction to Qualitative Research Methodology

Credits: 3. Contact Hours: Lecture 3.

Qualitative research in the human sciences, emphasizing education; principles of qualitative inquiry, including theoretical foundations, research design, and fieldwork. (Typically Offered: Fall, Spring, Summer)

RESEV 5900: Special Topics

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

Guided reading and in research and evaluation study on special topic. (Typically Offered: Fall, Spring, Summer)

RESEV 5910: Supervised Field Experience

Credits: 2-4. Repeatable.

Prereq: RESEV 5330 or RESEV 6800; and Permission of Instructor

Supervised on the job field experience.

RESEV 5930: Workshop

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Intensive, concentrated exposure to a special educational research or evaluation problem. (Typically Offered: Fall, Spring, Summer)

RESEV 5970: Program Assessment and Evaluation

Credits: 3. Contact Hours: Lecture 3.

Evaluation models and professional standards. Techniques of evaluating educational programs. Emphasis on both theory and practical applications. (Typically Offered: Spring)

Courses for graduate students:

RESEV 6010: Foundations of Educational Inquiry

Credits: 3. Contact Hours: Lecture 3.

Required course for all School of Education PhD students that introduces students into the community of educational scholars with a focus on: (1) the history of education as an academic field of study; (2) the philosophical underpinnings of social scientific and educational inquiry; and (3) the contemporary methodological landscape of the field of education. (Typically Offered: Fall)

RESEV 6030: Foundations of Qualitative Inquiry in Education

Credits: 3. Contact Hours: Lecture 3.

Focus on the nature of qualitative research, including the ways in which knowledge is produced through qualitative methodologies, the theoretical and epistemological underpinnings of qualitative research, the importance of theoretical and/or conceptual frameworks in qualitative research, and the various methodological approaches to qualitative research. (Typically Offered: Spring)

RESEV 6040: Advanced Qualitative Inquiry in Education

Credits: 3. Contact Hours: Lecture 3.

Conceptions of data and analysis in qualitative methodologies; focus on applied topics in qualitative data analysis. Combination format of reading and discussion seminars and classroom workshops focusing on individual research projects (not for thesis or dissertation). (Typically Offered: Fall)

RESEV 6150: Current Topics in Research and Evaluation

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

RESEV 6200: College Access in Policy, Practice, and Research

Credits: 1-3. Contact Hours: Lecture 3.

Exploration of the plurality of frameworks used to conceptualize college access as a social problem (for research, policy, and practice). Development of application of understandings of college access frameworks to policy, practice, and research. (Typically Offered: Fall, Spring, Summer)

RESEV 6800: Critical Qualitative Research

Credits: 3. Contact Hours: Lecture 3.

Feminist, indigenous, critical, queer, and other perspectives are used to raise important questions about qualitative research and help us rethink dilemmas of voice, appropriation, collaboration, and difference, and consider ethical and political issues that arise when engaging in research. Readings and assignments will concentrate on reciprocity, reflexivity, decolonization of research methods, and the necessity of engaging in culturally responsive and ethically informed research, particularly when working with colonized or marginalized communities, and when we aim to produce knowledge in the service of social justice and social change. (Typically Offered: Spring)

RESEV 6810: Analytical Approaches in Qualitative Inquiry

Credits: 3. Contact Hours: Lecture 3.

Conceptions of data and analysis in qualitative methodologies; focus on applied topics in qualitative data analysis, such as narrative analysis, ethnographic analysis, life history analysis, postmodern analyses, discourse analysis, arts-based analytical strategies, constructing data; combination format of reading and discussion seminars and classroom workshops focusing on individual research projects (not for thesis or dissertation). (Typically Offered: Fall)

RESEV 6900: Advanced Special Topics

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Instructor Permission for Course

Guided reading and/or study on special topics of an advanced nature.

RESEV 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Russian (RUS)

Courses primarily for undergraduates:**RUS 1010: Introduction to Russian Language and Culture I**

Credits: 4. Contact Hours: Lecture 4.

Introduction to the Russian language (focusing on the development of speaking, listening, reading and writing skills) and Russian culture. (Typically Offered: Fall)

RUS 1020: Introduction to Russian Language and Culture II

Credits: 4. Contact Hours: Lecture 4.

Prereq: RUS 1010

Continuation of RUS 1010. Introduction to the Russian language (focusing on the development of speaking, listening, reading and writing skills) and Russian culture. Meets International Perspectives Requirement. (Typically Offered: Spring)

RUS 2010: Intermediate Russian I

Credits: 4. Contact Hours: Lecture 4.

Prereq: RUS 1020

Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Meets International Perspectives Requirement. (Typically Offered: Fall)

RUS 2020: Intermediate Russian II

Credits: 4. Contact Hours: Lecture 4.

Prereq: RUS 2010

Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills. Meets International Perspectives Requirement. (Typically Offered: Spring)

RUS 3010: Composition and Conversation

Credits: 3. Contact Hours: Lecture 3.

Prereq: RUS 2020

Thorough study of the Russian language, with emphasis on strengthening proficiency in writing, speaking, reading, and listening. Increased focus on syntax and word formation. Meets International Perspectives Requirement. (Typically Offered: Fall)

RUS 3040: Russian for Global Professionals

Credits: 3. Contact Hours: Lecture 3.

Prereq: RUS 1020

Communication in business and professional contexts in Russian-speaking countries. Development of effective communication strategies and project management in the workplace. Cultural contexts of business and professional practice. Meets International Perspectives Requirement. (Typically Offered: Fall)

RUS 3140: Reading Russian Literary and Cultural Texts

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: RUS 1020

Selected readings in Russian literature and culture. Emphasis on techniques of reading and analysis of literary and cultural texts. Meets International Perspectives Requirement.

RUS 3700: Russian Studies in English Translation

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 3700A: Russian Studies in English Translation: Topics in Russian Literature

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Focus on Russian literature. Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 3700B: Russian Studies in English Translation: Russian Fairy Tales

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Focus on Russian fairy tales. Topics vary according to faculty interest.

Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 3700R: Studies in English Translation: Russian Topics on Women or Feminism

(Cross-listed with WGS 3700R).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

RUS 3750: Russia Today

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

A survey of social, political, economic, and cultural topics relevant to contemporary Russia. Readings, discussions and papers in English. Meets International Perspectives Requirement.

RUS 3780: Russian Film Studies in English

Credits: 3. Contact Hours: Lecture 3.

Analysis and interpretation of cinema in Russia and the Soviet Union.

Topics vary according to faculty interest. Film directors, genres, movements, historical survey, aesthetics, and cinematography. Readings, discussions and papers in English. Meets International Perspectives Requirement.

RUS 3950: Study Abroad

Credits: 1-6. Repeatable.

Supervised instruction in language and culture of Russia; formal class instruction at level appropriate to student's training, augmented by practical living experience. Meets International Perspectives Requirement.

RUS 4900: Independent Study

Credits: 1-6. Repeatable.

Prereq: 6 credits in Russian and permission of department chair

Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. Graduation Restriction: No more than 9 credits of RUS 4900 may be counted toward graduation.

RUS 4990: Internship in Russian

Credits: 1-3. Repeatable.

Work experience using Russian language skills in the public or private sector combined with academic work under faculty supervision. Available only to minors. Graduation Restriction: No more than 3 credits may be applied to the minor. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

RUS 5900A: Special Topics in Russian: Literature or Literary Criticism

Credits: 2-4. Repeatable.

RUS 5900B: Special Topics in Russian: Linguistics

Credits: 2-4. Repeatable.

RUS 5900C: Special Topics in Russian: Language Pedagogy

Credits: 2-4. Repeatable.

RUS 5900D: Special Topics in Russian: Civilization

Credits: 2-4. Repeatable.

Seed Technology and Business (STB)

Courses primarily for graduate students, open to qualified undergraduates:

STB 5010: Strategic Management

(Cross-listed with BUSAD 5010).

Credits: 2. Contact Hours: Lecture 2.

Critical analysis of current practice and case studies in strategic management with an emphasis on integrative decision making. Strategy formulation and implementation will be investigated in the context of complex business environments.

STB 5030: Information Systems

(Cross-listed with BUSAD 5030).

Credits: 2. Contact Hours: Lecture 2.

Introduction to a broad variety of information systems (IS) topics, including current and emerging developments in information technology (IT), IT strategy in the context of corporate strategy, and IS planning and development of enterprise architectures. Cases, reading, and discussions highlight the techniques and tactics used by managers to cope with strategic issues within an increasingly technical and data-driven competitive environment.

STB 5040: Marketing and Logistics

(Cross-listed with BUSAD 5040).

Credits: 3. Contact Hours: Lecture 3.

Integration of the business functions concerned with the marketing and movement of goods along the supply chain with the primary goal of creating value for the ultimate customer. Coordination of marketing, production, and logistics activities within the firm and with outside suppliers and customers in the supply chain.

STB 5070: Organizational Behavior

(Cross-listed with BUSAD 5070).

Credits: 2. Contact Hours: Lecture 2.

Understanding human behavior in organizations, and the nature of organizations from a managerial perspective. Special emphasis on how individual differences, such as perceptions, personality, and motivation, influence individual and group behavior in organizations and on how behavior can be influenced by job design, leadership, groups, and the structure of organizations.

STB 5080: Accounting and Finance

(Cross-listed with BUSAD 5080).

Credits: 3. Contact Hours: Lecture 3.

Survey of fundamental topics in accounting and finance. Financial statement reporting and analysis for agriculture firms, corporate governance issues related to financial reporting, (e.g., Sarbanes-Oxley). Basic tools and techniques used in financial management, including stock and bond valuation. How to assess and use capital budgeting methods to evaluate proposed firm investments.

STB 5090: International Seed Business Practices, Policies, & Regulation

(Cross-listed with BUSAD 5090).

Credits: 3. Contact Hours: Lecture 3.

Cultural, financial, economic, political, legal/regulatory environments shaping an organization's international business strategy. Topics include entry (and repatriation) of people, firms, goods, services, and capital. Special attention to the institutions of seed regulation and policy. Ethical issues facing managers operating in an international context.

STB 5100: Crop Improvement

(Cross-listed with AGRON 5100).

Credits: 3. Contact Hours: Lecture 3.

A study of agriculture from its origins with the domestication of crop plants through basic genetics, demonstrating the challenges and elements of breeding strategies intended to manage gene x environmental interactions. Elements of biotechnology including use of molecular markers, development of genetically modified cultivars, gene mapping, cloning, and gene editing will be covered. Methods to measure the effectiveness of plant breeding (genetic gain) and the impact of improved agronomic practices contributing to increased agricultural productivity will be covered. Use of intellectual property protection, and the conservation and utilization of exotic genetic resources.

STB 5130: Data Science for Agricultural Professionals

(Cross-listed with AGRON 5130).

Credits: 3. Contact Hours: Lecture 3.

Prereq: AGRON 1810 or equivalent, MATH 1400, STAT 1040

Quantitative methods for analyzing and interpreting agronomic information. Principles of experimental design, hypothesis testing, analysis of variance, regression, correlation, and graphical representation of data. Use of SAS and Excel for organization, analyzing, and presenting data. (Typically Offered: Fall, Spring)

STB 5340: Seed and Variety, Testing and Technology

(Cross-listed with AGRON 5340).

Credits: 2. Contact Hours: Lecture 2.

The components of seed quality and how they are assessed in the laboratory, including traits derived from modern biotechnology. The impact of new technologies on seed quality testing. Variety maintenance procedures and breeder seed. Variety identification: phenotype and grow-out trials, isozyme testing, and DNA marker testing. Procedures for evaluating varieties. The variance tests appropriate for fixed effects analysis of variance. Statistical inference and stratification for yield trials. Use of strip plot testing.

STB 5350: Introduction to the Seed Industry

Credits: 1. Contact Hours: Lecture 1.

This introductory course is a quick overview of the academic program and the seed industry. It describes how the STB program components relate to the seed industry scope; the role of the seed industry in global agriculture and society; public and private institutions involved in seed research, development, and regulation; quality management for seed products. Current issues including industry consolidation, ethical and economic issues related to biotechnology, and incorporation of digital technology in the seed business will be discussed by course instructors and guest lecturers from the seed industry.

STB 5360: Quantitative Methods for Seed

(Cross-listed with AGRON 5360).

Credits: 2. Contact Hours: Lecture 2.

Quantitative Methods for analyzing and interpreting agronomic and business information for the seed industry. Principles of experimental design and hypothesis testing, regression, correlation, analysis of variance, and graphical representation of data. Use of spreadsheets and statistical software for manipulating, analyzing and presenting data. (Typically Offered: Fall)

STB 5390: Seed Conditioning and Storage

(Cross-listed with AGRON 5390).

Credits: 2. Contact Hours: Lecture 2.

The technical operations which may be carried out on a seed lot from harvest until it is ready for marketing and use. The opportunities for quality improvement and the risks of deterioration which are present during that time. Analysis of the costs of and benefits of operations. Evaluation of equipment based on benefits to the customer and producer. Interpretation of the role of the conditioning plant and store as a focal points within the overall operations of a seed company.

STB 5430: Seed Physiology

(Cross-listed with HORT 5430).

Credits: 2. Contact Hours: Lecture 2.

Brief introduction to plant physiology. Physiological aspects of seed development, maturation, longevity, dormancy and germination. Links between physiology and seed quality. Offered even-numbered years. (Typically Offered: Fall)

STB 5470: Seed Production

(Cross-listed with AGRON 5470).

Credits: 2. Contact Hours: Lecture 2.

Survey of crop production; including management of soil fertility, planting dates, populations, weed control, and insect control. Analysis of the principles of seed multiplication and the key practices which are used to ensure high quality in the products. Field inspection procedures and production aspects that differ from other crop production. Foundation seed production. Analysis of the typical organization of field production tasks. Survey of the differences in seed production strategies between crops and the impact of these differences on seed production.

STB 5900: Special Topics

Credits: 1-3. Repeatable.

Guided instruction and self-study on special topics relevant to seed technology and business. (Typically Offered: Fall, Spring, Summer)

STB 5920: Seed Health Management

(Cross-listed with PLP 5920).

Credits: 2. Contact Hours: Lecture 2.

Occurrence and management of diseases during seed production, harvest, conditioning, storage, and planting. Emphasis on epidemiology, disease management in the field, seed treatment, effects of conditioning on seed health, and seed health testing. Graduation Restriction: Credit may not be obtained for both PLP/STB 5920 and PLP 5940. Offered even-numbered years. (Typically Offered: Spring)

STB 5950: Seed Quality, Production, and Research Management

(Cross-listed with AGRON 5950).

Credits: 2. Contact Hours: Lecture 2.

Advanced survey of the organization, staff capabilities and management characteristics typical in seed production and crop improvement in seed enterprises. Analysis of the use of quality information in the management of seed operations and sales. Process management applications for seed. Production planning for existing capacity. Analysis of the manager's tasks in the annual cycle and how the tasks of these managers relate to the general categories of business management roles. Difference in management strategies used with different situations and groups of employees.

STB 5990: Creative Component

Credits: 1-3. Repeatable.

A written report based on research, library readings, or topics related to the student's area of specialization and approved by the student's advisory committee.

Sociology (SOC)

Courses primarily for undergraduates:

SOC 1100: Orientation to Agricultural and Rural Policy Studies

Credits: 1. Contact Hours: Lecture 1.

Orientation to Agriculture and Society major. Familiarization with University and CALS College requirements. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department. (Typically Offered: Fall)

SOC 1150: Orientation to Sociology

Credits: Required. Contact Hours: Lecture 1.

Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

SOC 1340: Introduction to Sociology

Credits: 3. Contact Hours: Lecture 3.

Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. (Typically Offered: Fall, Spring, Summer)

SOC 1340H: Introduction to Sociology: Honors

Credits: 3. Contact Hours: Lecture 3.

Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. (Typically Offered: Fall, Spring, Summer)

SOC 2100: Social & Civic Innovation

Credits: 3.

Learn how to infuse innovation and entrepreneurship into social and civic problems. Students will be introduced to solution-oriented ways of thinking, grounded in sociology, data-driven methodologies, and the design thinking paradigm. Explore real-world case studies and methods in the US and international social contexts. Special attention is given to novel policies, programs, and interventions that address the challenges and opportunities of rural places. (Typically Offered: Spring)

SOC 2190: Families and Intimate Relationships

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Exploration of families and intimate relationships using a sociological perspective, with the goal to help students make informed and intentional choices in their relationships across the life course. Topics covered include family definitions and theories, sexuality, singlehood, dating, cohabitation, marriage, parenting, divorce, stepfamilies, and aging. Relationship quality, communication, conflict, and work-life balance will also be examined, as well as differences in family dynamics by gender, race and ethnicity, and class. (Typically Offered: Fall, Spring)

SOC 2200: Globalization and Sustainability

(Cross-listed with ANTHR 2200/ ENVS 2200/ GLOBE 2200/ ME 2200/ MATE 2200).

Credits: 3. Contact Hours: Lecture 3.

An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Graduation Restriction: Cannot be used for technical elective credit in any engineering department. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SOC 2300: Rural Society in Transition

Credits: 3. Contact Hours: Lecture 3.

Introduction to the causes and consequences of social and economic change affecting rural people and places. Uses a sociological perspective to examine social structures, social change, and social relationships within rural society. Topics include community, population change, inequality, rural economy, structure of agriculture, social and environmental impacts of resource extraction. (Typically Offered: Fall, Spring)

SOC 2340X: Conservation Values & Ethics

Credits: 3.

Experiential course learning about conservation values, beliefs, ethics, practices, and policies through classical and contemporary readings in the field of conservation ethics. Exploration of wilderness areas, national parks, forest, and monuments, and the rural communities near these conservation areas, meeting with stakeholders in the conservation ecosystem, and engaging in service learning to gain a first-hand knowledge of the conservation landscape. Travel component to the ISU Montana campus prior to the start of the semester. 8-week course. (Typically Offered: Fall)

SOC 2350: Social Problems and American Values

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

SOC 2410: Youth and Crime

(Cross-listed with CJ 2410).

Credits: 3. Contact Hours: Lecture 3.

An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime. (Typically Offered: Fall)

SOC 2620: Data Discovery and Civic Engagement

Credits: 3. Contact Hours: Lecture 3.

Experiential learning course on how to use data presentation and civic engagement skills to address issues in agricultural and rural policy. Data skills include accessing and analysis of public data, and creating effective charts and maps. Engagement skills include facilitating conversations among diverse stakeholders, generating and prioritizing ideas, and managing conflict on divisive issues. Students will produce short policy briefs and civic engagement plans on agricultural and rural issues. (Typically Offered: Spring)

SOC 2640: Facilitation of Public Issues in Agriculture

Credits: 3.

Experiential learning course on how to use public facilitation skills to address issues in agricultural and rural policy. Skills include ensuring participation among diverse audiences, generation and prioritization of ideas, facilitating discussions and managing conflict, and building consensus to make decisions. Students will practice these skills with relevant stakeholder groups. (Typically Offered: Fall)

SOC 2770: Religion and Society

(Cross-listed with RELIG 2770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Religion as a human construction, institution, activity, and identity. Connections between religion and other social institutions and processes. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

SOC 3020: Research Methods for the Social Sciences

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340, and Credit or concurrent enrollment in STAT 1010

Introduction to the principal research methods used in sociology, including survey research, interviewing, content analysis, experiments, ethnographies, focus groups, historical analysis, and analysis of secondary data. Instruction on sampling and the principles of validity and reliability underlying quantitative and qualitative methods. Training in data analysis using statistical software packages. (Typically Offered: Fall, Spring)

SOC 3050: Social Psychology: A Sociological Perspective

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups. (Typically Offered: Fall, Spring, Summer)

SOC 3100: Community

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era. (Typically Offered: Fall, Spring)

SOC 3250: Agriculture in Transition

Credits: 3. Contact Hours: Lecture 3.

The impacts of socioeconomic and agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in farm structures, the U.S. agrifood system, and their social implications including ethics and policy options. (Typically Offered: Spring)

SOC 3270: Gender and Sexualities in Society

(Cross-listed with WGS 3270).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Develop a foundational understanding of the role of gender and sexuality in society. Students will explore the biological, social, and cultural meanings of gender and sexuality and their intersections with class, race/ethnicity, ability, socioeconomic status and other identities. Contemporary social science research, theories, and feminist perspectives as they relate to gender and sexuality, and explores gender and sexuality within families, education, the media, politics, and the economy. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

SOC 3280: Sociology of Masculinities and Manhood

(Cross-listed with WGS 3280).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340 or WGS 2010

Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age. (Typically Offered: Spring)

SOC 3300: Ethnic and Race Relations

(Cross-listed with AFAM 3300).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

SOC 3310: Social Class and Inequality

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

SOC 3320: The Latino/Latina Experience in U.S. Society

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans. (Typically Offered: Fall)

SOC 3340: Politics and Society

(Cross-listed with POLS 3340).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 course in POLS or SOC

The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism. (Typically Offered: Fall)

SOC 3400: Deviant and Criminal Behavior

(Cross-listed with CJ 3400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: CJ 2400 or SOC 1340

Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior. (Typically Offered: Spring, Summer)

SOC 3450: Population and Society

(Cross-listed with ENVS 3450).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world. Meets International Perspectives Requirement. (Typically Offered: Fall)

SOC 3480: Global Poverty, Resources and Sustainable Development

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Trends in hunger, poverty, resource use and development. Assessment of theories, policies, and programs to promote sustainable livelihoods, resource management, and development at local and national levels. Examine solutions through institutional efforts and grassroots social movements. Meets International Perspectives Requirement.

SOC 3500: Human Diversity in Agriculture and the Food System

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340 or SOC 2300 or permission of instructor

Role of under-represented groups in agriculture and the food system from a sociological perspective, with a focus on the United States. Analysis of the status, contributions, and barriers of farmers and farm workers who identify as women, under-represented racial and ethnic groups, LGBTQ, and lower income. Discussion of historical and current issues. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

SOC 3620: Applied Ethics in Agricultural and Rural Development

Credits: 3. Contact Hours: Lecture 3.

Prereq: ECON 1010; Junior or Senior classification; College of Agriculture and Life Sciences major

Explore ethics of policy development and program implementation in agricultural and rural development. Focus in U.S. and international contexts. Identify major ethical issues and dilemmas in policy and programs. Discuss and debate proper ethical behaviors when working with policy-makers, NGOs, farmers, and rural communities.

SOC 3800: Sociology of Work

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Inequalities (gender, race, class) related to jobs, occupations, firms, and industries. Satisfaction, rewards, alienation, discrimination, and other topics of importance to workers are examined. (Typically Offered: Fall, Spring)

SOC 3820: Environmental Sociology

(Cross-listed with ENVS 3820).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits of ENVS or SOC 1340

Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SOC 4010: Contemporary Sociological Theories

Credits: 3. Contact Hours: Lecture 3.

Prereq: 9 credits in SOC

Both historical and modern social theories as applied to understanding and researching the social world. (Typically Offered: Fall, Spring, Summer)

SOC 4100: Human Trafficking

(Dual-listed with SOC 5100/ WGS 5100). (Cross-listed with WGS 4100).

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Issues related to human trafficking and modern-day slavery in the US and world. History of and concepts defining forms of violence experienced by trafficking victims and methods used to recruit and control victims. Students will learn how to educate others about this crime against humanity. Examines international, federal, and state legislation to prevent human trafficking. Graduation Restriction: Only one of WGS 4100 may count toward graduation.

SOC 4110: Social Change in Developing Countries

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340 plus 3 credits in social sciences

Social change and development in developing countries; international interdependence; causes and consequences of persistent problems in agriculture, city growth, employment, gender equality, basic needs; local and worldwide efforts to foster social change and international development. Meets International Perspectives Requirement. (Typically Offered: Spring)

SOC 4150: Agrifood Policy and Social Change

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340 or SOC 2300 or SOC 3250

Historical and current agricultural and food policies are studied from domestic perspectives. Governance of agrifood systems by governments and other institutions are examined in terms of rationale, content, and consequences. Social science frameworks are used to assess the impacts of governance policies on agricultural producers, rural communities, and consumers. (Typically Offered: Spring)

SOC 4330: Strategies for Rural Resiliency and Vitality

(Dual-listed with SOC 5330).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 2300 or Permission of Instructor

Experiential learning course on community resiliency and vulnerability. Focus on economic, social, cultural, environmental, and spatial dimensions of communities. Examine impact of local strategies and state and national policies on resiliency. Project-based work with communities and agencies. Applications using data discovery and survey research methods. Offered odd-numbered years. (Typically Offered: Fall)

SOC 4440: Sociology of Food and Agricultural Systems

(Dual-listed with SOC 5440/ SUSAG 5440).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 3250

Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

SOC 4600: Criminal and Juvenile Justice Internship

(Cross-listed with CJ 4600).

Credits: 3-9. Repeatable, maximum of 9 credits.

Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor's office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Assessed service-learning component. Graduation Restriction: No more than a total of 9 credits of 4600 can be counted toward graduation. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

SOC 4640: Strategies for Community Engagement

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits in SOC

Project-focused engagement in community issues and initiatives. A broad range of strategies will be addressed, including popular education, applied research, network analysis and mapping, policy focused work, action research, curriculum development, community organizing, and organizational development. (Typically Offered: Spring, Summer)

SOC 4700X: Agricultural and Rural Policy Internship

Credits: 3-9. Repeatable, maximum of 9 credits.

Prereq: Junior or Senior classification; major in Agricultural and Rural Policy Studies

Study of the agricultural and rural policy in applied settings. Supervised placement in state and local government agencies, agricultural associations, conservation groups, rural development agencies, or related organizations. Assessed experiential learning component. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

SOC 4800X: Special Topics in Sociology

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Seminar on special topics, research, methods, or theory in Sociology.

Students must register for a different topic each time.

SOC 4820X: Issues in Agricultural and Rural Policy

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Seminar on current issues in agriculture and food, natural resources and the environment, and rural communities and economies from a social science perspective.

SOC 4900A: Independent Study: General Sociology

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 6 credits in SOC; Permission of Instructor

Graduation Restriction: Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of SOC 4900 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 4900 toward graduation.

SOC 4900B: Independent Study: Rural Sociology

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 6 credits in SOC; Permission of Instructor

Graduation Restriction: Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of SOC 4900 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 4900 toward graduation.

SOC 4900E: Independent Study: Senior Seminar

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 6 credits in SOC; Permission of Instructor

Graduation Restriction: Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of SOC 4900 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 4900 toward graduation.

SOC 4900H: Independent Study: Honors

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 6 credits in SOC; Permission of Instructor

Graduation Restriction: Students in the College of Agriculture must be of junior or senior classification and may use no more than 6 credits of SOC 4900 toward the total of 128 credits required for graduation. Students in the College of Liberal Arts and Sciences may count no more than 9 credits of 4900 toward graduation.

Courses primarily for graduate students, open to qualified undergraduates:

SOC 5060: Classical Sociological Theory

Credits: 3. Contact Hours: Lecture 3.

The origins of the canonical works of sociology in the mid-Industrial Revolution period including Karl Marx, Max Weber, Emile Durkheim and others.

SOC 5090: Agroecosystems Analysis

(Cross-listed with AGRON 5090/ SUSAG 5090).

Credits: 4. Contact Hours: Lecture 3, Laboratory 4.

Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing both field visits and classroom activities.

Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation. (Typically Offered: Fall)

SOC 5100: Human Trafficking

(Dual-listed with SOC 4100/ WGS 4100). (Cross-listed with WGS 5100).

Credits: 3. Contact Hours: Lecture 3.

Issues related to human trafficking and modern-day slavery in the US and world. History of and concepts defining forms of violence experienced by trafficking victims and methods used to recruit and control victims. Students will learn how to educate others about this crime against humanity. Examines international, federal, and state legislation to prevent human trafficking. Graduation Restriction: Only one of WGS 4100 may count toward graduation.

SOC 5110: Research Methodology for the Social Sciences

Credits: 3. Contact Hours: Lecture 3.

Covers the philosophy and the techniques of research methods in sociology and other social sciences, including the ethics and politics of social science, validity issues, conceptualization and operationalization, sampling strategies, appropriate research designs for different questions, survey construction, and various data collection and analysis techniques.

SOC 5120: Applied Multivariate Statistics for Social and Behavioral Research

Credits: 3. Contact Hours: Lecture 3.

Applied techniques of multivariate analysis including cluster analysis, principal components and factor analysis, multivariate analysis of variance and covariance binomial and multinomial regression, multi-level random coefficient models, and spatial regression. Conceptual and mathematical grounding for nonstatisticians. Instruction in Mplus and SAS.

SOC 5130: Qualitative Research Methods

Credits: 3. Contact Hours: Lecture 3.

Applied qualitative research methods in sociology. Design and implementation of a course-based research project including data collection, analysis, and presentation of results. Qualitative data gathering techniques using observational, historical, in-depth interviewing or content analysis approaches. Laboratory emphasis on completion of data gathering, analysis, and report writing. (Typically Offered: Fall, Spring, Summer)

SOC 5200: Social Psychology: A Sociological Perspective

Credits: 3. Contact Hours: Lecture 3.

Examination of cognitive, symbolic interaction, exchange, role-reference group, and dramaturgical approaches. Assessment of contemporary issues in social psychology. (Typically Offered: Fall, Spring, Summer)

SOC 5250A: Seminar in Social Psychology: Small Groups

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5250B: Seminar in Social Psychology: Attitudes and Attitude Change

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5250C: Seminar in Social Psychology: Symbolic interactionism

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5250D: Seminar in Social Psychology: Self and Identity

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5270A: Seminar in Social Inequality: Sociology of Race and Ethnicity

Credits: 3. Contact Hours: Lecture 3.

Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies. (Typically Offered: Fall, Spring, Summer)

SOC 5270B: Seminar in Social Inequality: Sociology of Gender

Credits: 3. Contact Hours: Lecture 3.

Analysis of racial and ethnic inequality in the United States and the world; focus on the implications of the changing world social and economic order for differences in racial and ethnic groups relative to wealth, status, and power; a critical examination of majority-group domination of minority groups in various societies. (Typically Offered: Fall, Spring, Summer)

SOC 5330: Strategies for Rural Resiliency and Vitality

(Dual-listed with SOC 4330).

Credits: 3. Contact Hours: Lecture 3.

Experiential learning course on community resiliency and vulnerability. Focus on economic, social, cultural, environmental, and spatial dimensions of communities. Examine impacts of local strategies and state and national policies on community resiliency. Project-based work with communities and agencies. Applications using data discovery and survey research methods. Offered odd-numbered years. (Typically Offered: Fall)

SOC 5340: Race, Class and Gender Inequality

Credits: 3. Contact Hours: Lecture 3.

Critical examination of the causes and consequences of social stratification and inequality; classical theories, contemporary frameworks, and recent empirical studies; international stratification patterns.

SOC 5360: Strategies for Community Engagement in Food and Farming Systems

Credits: 3. Contact Hours: Lecture 3.

Project-focused community practice using diverse approaches and perspectives.

SOC 5400: Comparative Social Change

Credits: 3. Contact Hours: Lecture 3.

Contemporary theories of social change, modernization, dependency, and development are critically examined; methodological issues identified; supporting research explored; applicability of theoretical models, concepts, and strategies to current national and international needs are evaluated.

SOC 5430A: Seminar in Social Change and Development: Strategies of Community Engagement

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5430B: Seminar in Social Change and Development: Sociology of Adoption and Diffusion

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5430C: Seminar in Social Change and Development: Technological Innovation, Social Change and Development

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5440: Sociology of Food and Agricultural Systems

(Dual-listed with SOC 4440). (Cross-listed with SUSAG 5440).

Credits: 3. Contact Hours: Lecture 3.

Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

SOC 5490: Sociology of the Environment

(Cross-listed with SUSAG 5490).

Credits: 3. Contact Hours: Lecture 3.

Social causes and social consequences of environmental problems. Interrelationship between social inequality and environmental inequality. Social construction and social experience of the environment. Contemporary developments in the social theory of the environment. International and domestic implications.

SOC 5510B: Seminar in Economy, Organization, and Work: Complex Organizations

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 5840: Current Issues in Crime and Justice

(Cross-listed with CJ 5840).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 3 credits.

Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system. Offered odd-numbered years. (Typically Offered: Fall)

SOC 5900A: Special Topics: General Sociology

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

SOC 5900B: Special Topics: Rural Sociology

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

SOC 5910: Orientation to Sociology

Credits: 1. Contact Hours: Lecture 1.

Introduction to the department, current graduate student policies at department and university levels, departmental administrative procedures. Required of graduate students. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

SOC 5990A: Research for Master's Thesis: General Sociology

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

SOC 5990B: Research for Master's Thesis: Rural Sociology

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**SOC 6070: Contemporary Sociological Theory**

Credits: 3. Contact Hours: Lecture 3.

Provides a review of modern sociological thought, issues, and controversies as they affect current research and discourse in the discipline.

SOC 6100: Foundations of Sustainable Agriculture

(Cross-listed with ABE 6100/ AGRON 6100/ ANTHR 6100/ SUSAG 6100).

Credits: 3. Contact Hours: Lecture 3.

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts. (Typically Offered: Fall)

SOC 6130: Structural Equation Models for Social and Behavioral Research

Credits: 3. Contact Hours: Lecture 3.

Specification, identification, and interpretation of structural equation models. Techniques include structural or path models, measurement or confirmatory factor models, structural models with latent variables, and multi-level structural models. Conceptual and mathematical grounding for non-statisticians. Instruction in AMOS, MPLUS, and SAS.

SOC 6980L: Seminars in Sociology: Community Studies and Development

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980M: Seminars in Sociology: Criminology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980N: Seminars in Sociology: The Economy, Organizations, and Work

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980O: Seminars in Sociology: Food Systems, Agriculture, and the Environment

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980P: Seminars in Sociology: Methodology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980Q: Seminars in Sociology: Social Change and Development

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980R: Seminars in Sociology: Social Inequality

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980S: Seminars in Sociology: Social Psychology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980T: Seminars in Sociology: Sociology of Families

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

(Typically Offered: Fall, Spring, Summer)

SOC 6980U: Seminars in Sociology: Theory

Credits: 3. Contact Hours: Lecture 3.

(Typically Offered: Fall, Spring, Summer)

SOC 6990A: Dissertation Research: General Sociology

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

SOC 6990B: Dissertation Research: Rural Sociology

Credits: 1-8. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Software Engineering (SE)

Courses primarily for undergraduates:

SE 1010: Software Engineering Orientation

Credits: Required. Contact Hours: Lecture 1.

Introduction to the procedures, policies, and resources of Iowa State University and the Software Engineering Program. Offered on a satisfactory-fail basis only.

SE 1660: Careers in Software Engineering

Credits: Required. Contact Hours: Lecture 1.

Overview of the nature and scope of the software engineering profession, relationship of coursework to careers, and program of study planning. Offered on a satisfactory-fail basis only.

SE 1850: Problem Solving in Software Engineering

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: Credit or concurrent enrollment in MATH 1430 (or satisfactory scores on mathematics placement examinations)

Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs. Satisfactory placement scores can be found at: <https://math.iastate.edu/academics/undergraduate/aleks/placement/>. Graduation Restriction: Only one of ENGR 1600, ABE 1600, AERE 1600, BME 1600, CE 1600, CHE 1600, CPRE 1850, EE 1850, IE 1480, ME 1600, and SE 1850 may count towards graduation.

SE 1860: Problem Solving in Software Engineering II

Credits: 1. Contact Hours: Laboratory 2.

Prereq: SE 1850

Group projects in software engineering. Work effectively in teams to solve problems and provide technical reports and presentations. Self-directed team based projects that are representative of problems faced by software engineers. (Typically Offered: Spring)

SE 3090: Software Development Practices

(Cross-listed with COMS 3090).

Credits: 3. Contact Hours: Lecture 3, Discussion 1.

Prereq: Minimum of C- in (COMS 2280; MATH 1650)

Practical introduction to methods for managing software development. Software engineering concepts, practices and tools. Requirements analysis, structured and object-oriented design, coding, testing, and maintenance. Software process models, software tools and environments. Programming projects that provide exposure to information management techniques, client/server model, networking and communication. (Typically Offered: Fall, Spring)

SE 3170: Introduction to Software Testing

Credits: 3. Contact Hours: Lecture 3.

Prereq: (COMS 2300 or CPRE 3100); (COMS 3090 or SE 3090)

Basic principles and techniques for software testing. Test requirements and management. Test design techniques, evaluation metrics, model-based testing, unit testing, system and integration testing. Software testing tools and programming projects.

SE 3190: Construction of User Interfaces

(Cross-listed with COMS 3190).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 2280

Overview of user interface design. Evaluation and testing of user interfaces. Review of principles of object orientation, object oriented design and analysis using UML in the context of user interface design. Design of windows, menus and commands. Developing Web and Windows-based user-interfaces. Event-driven programming. Introduction to Frameworks and APIs for the construction of user interfaces. (Typically Offered: Fall, Spring)

SE 3290: Software Project Management

(Cross-listed with CPRE 3290).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3090

Process-based software development. Capability Maturity Model (CMM). Project planning, cost estimation, and scheduling. Project management tools. Factors influencing productivity and success. Productivity metrics. Analysis of options and risks. Version control and configuration management. Inspections and reviews. Managing the testing process. Software quality metrics. Modern software engineering techniques and practices.

SE 3390: Software Architecture and Design

(Cross-listed with CPRE 3390).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SE 3190

Modeling and design of software at the architectural level. Architectural styles. Basics of model-driven architecture. Object-oriented design and analysis. Iterative development and unified process. Design patterns. Design by contract. Component based design. Product families. Measurement theory and appropriate use of metrics in design. Designing for qualities such as performance, safety, security, reliability, reusability, etc. Analysis and evaluation of software architectures. Introduction to architecture definition languages. Basics of software evolution, reengineering, and reverse engineering. Case studies. Introduction to distributed system software.

SE 3420: Principles of Programming Languages

(Cross-listed with COMS 3420).

Credits: 3. Contact Hours: Lecture 3, Discussion 1.

Prereq: Minimum of C- in COMS 2280 and MATH 1650; COMS 2300 or CPRE 3100

Study of concepts in programming languages, especially functional programming concepts. Overview of major programming paradigms, their relationship, and tradeoffs among paradigms enabling sound choices of programming language for application-specific development. Programming projects. (Typically Offered: Fall, Spring)

SE 3620: Object-Oriented Analysis and Design

(Cross-listed with COMS 3620).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 and Minimum of C- in COMS 2280 and MATH 1650

Object-oriented requirements analysis and systems design. Analysis and design methodologies including use case and Unified Modeling Language (UML). Design principles, heuristics, and patterns. Architectural patterns and alternative programming paradigms. Group design and programming project. (Typically Offered: Fall, Spring)

SE 4090: Software Requirements Engineering

(Cross-listed with COMS 4090).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3090

The requirements engineering process including elicitation, requirements analysis fundamentals, requirements specification and communication, and requirements evaluation. Modeling of functional requirements and nonfunctional requirements, traceability, and requirements change management. Case studies and software projects.

SE 4120: Formal Methods in Software Engineering

(Cross-listed with CPRE 4120/ COMS 4120).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3110; (STAT 3050 or STAT 3300 or STAT 3410)

A study of formal techniques for model-based specification and verification of software systems. Topics include logics, formalisms, graph theory, numerical computations, algorithms and tools for automatic analysis of systems. Graduate credit requires in-depth study of concepts.

SE 4130: Program Analysis

(Cross-listed with COMS 4130).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (COMS 3270 or CPRE 2880); COMS 3420

Algorithms, AI techniques and tools for automatically reasoning about code and program executions. Theory and foundations related to control flow analysis, dataflow analysis, abstract interpretation, and symbolic execution. Applications of program analysis to bug detection, test input generation, debugging, program repair, specification inference and trustworthy AI engineering. Concepts, algorithms, tools, benchmarks, methodologies for solving problems using program analysis and for preparing research in program analysis.

SE 4160: Software Evolution and Maintenance

(Cross-listed with CPRE 4160).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3090

Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation.

SE 4170: Software Testing

(Cross-listed with COMS 4170).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3090; (COMS 2300 or CPRE 3100); ENGL 2500

An introduction to software testing principles and techniques. Test models, test design, test adequacy criteria; regression, integration, and system testing; and software testing tools.

SE 4190: Software Tools for Large Scale Data Analysis

(Cross-listed with CPRE 4190).

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Prereq: COMS 3630 or COMS 3520 or CPRE 3080; COMS 2280

Software tools for managing and manipulating large volumes of data, external memory processing, large scale parallelism, and stream processing, data interchange formats. Weekly programming labs that involve the use of a parallel computing cluster.

SE 4210: Software Analysis and Verification for Safety and Security

(Cross-listed with CPRE 4210).

Credits: 3. Contact Hours: Lecture 3.

Significance of software safety and security; various facets of security in cyber-physical and computer systems; threat modeling for software safety and security; and categorization of software vulnerabilities. Software analysis and verification: mathematical foundations, data structures and algorithms, program comprehension, analysis, and verification tools; automated vs. human-on-the-loop approach to analysis and verification; and practical considerations of efficiency, accuracy, robustness, and scalability of analysis and verification. Cases studies with application and systems software; evolving landscape of software security threats and mitigation techniques. Understanding large software, implementing software analysis and verification algorithms. (Typically Offered: Fall, Spring)

SE 4220: Cloud Computing - Software Development

Credits: 3. Contact Hours: Lecture 3.

Prereq: (SE 3090 or SE 3390); (CPRE 3810 or COMS 3210)

A comprehensive view of cloud computing with respect to software development from platforms and services to programming and infrastructure. Virtualization and containerization; cloud computing platforms, with examples from currently available cloud services; cloud services for data analytics, machine learning, and devops; programming frameworks for parallel computing in the cloud; distributed storage in the cloud; Container management. Includes homeworks and programming assignments. The programming assignments will be done in AWS. (Typically Offered: Fall)

SE 4400: Principles and Practice of Compiling

(Cross-listed with COMS 4400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: COMS 3310 or COMS 3420 and COMS 3090 and ENGL 2500

Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 4400 and 5400. Topics include: lexical, syntactic and semantic analyses, syntax-directed translation, code generation, runtime environment and library support.

SE 4900: Independent Study

Credits: 1-30. Repeatable.

Prereq: Senior classification in software engineering; Permission of Instructor

Investigation of an approved topic.

SE 4910: Senior Design Project I and Professionalism

(Cross-listed with CPRE 4910/ EE 4910).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: CPRE major: CPRE 2320, cr or enrollment in CPRE 3080, completion of 29 cr in the CPRE prof prog, ENGL 3140 or ENGL 3140H. EE major: EE 2320, cr or enrollment in EE 3220, completion of 24 cr in the EE prof prog, ENGL 3140 or ENGL 3140H. SE major: SE 3170 and SE 3390, ENGL 3090 or ENGL 3140 or ENGL 3140H. Co-req: CPRE 3080 or COMS 3520

Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; design review presentation. First of two-semester team-oriented, project design and implementation experience. (Typically Offered: Fall, Spring)

SE 4920: Senior Design Project II

(Cross-listed with EE 4920/ CPRE 4920).

Credits: 2. Contact Hours: Lecture 1, Laboratory 3.

Prereq: CPRE 4910 or EE 4910

Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in EE 4910, CPRE 4910, or SE 4910 and the evaluation of project results. Technical writing of fil project report; oral presentation of project achievements; project poster. (Typically Offered: Fall, Spring)

Spanish (SPAN)

Courses primarily for undergraduates:

SPAN 0970: Accelerated Spanish Review

Credits: 0. Contact Hours: Lecture 3.

For students who require additional review at the first year (1010-1020) level. Course components include a compact review of 1010 and the essential elements of 1020. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (2010-2020) level without completing 1020. Two years but less than three years of high-school Spanish recommended. (Typically Offered: Fall, Spring, Summer)

SPAN 1010: Elementary Spanish I

Credits: 4. Contact Hours: Lecture 4.

A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish. (Typically Offered: Fall, Summer)

SPAN 1020: Elementary Spanish II

Credits: 4. Contact Hours: Lecture 4.

Prereq: SPAN 1010 or SPAN 0970 or placement by departmental exam

Continuation of Spanish 1010. A communicative approach to grammar and vocabulary within the context of Hispanic culture. For students whose native language is not Spanish. Meets International Perspectives Requirement. (Typically Offered: Spring, Summer)

SPAN 1950: Study Abroad

Credits: 3. Contact Hours: Lecture 3.

Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 1010 or 1020. Meets International Perspectives Requirement.

SPAN 2010: Intermediate Spanish I

Credits: 4. Contact Hours: Lecture 4.

Prereq: SPAN 1020 or placement by departmental exam

Intensive review of basic grammar and conversation. For students whose native language is not Spanish. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. Meets International Perspectives Requirement. (Typically Offered: Fall)

SPAN 2020: Intermediate Spanish II

Credits: 4. Contact Hours: Lecture 4.

Prereq: SPAN 2010 or placement by departmental exam

Continuation of Spanish 2010. Intensive review of basic grammar. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature. For students whose native language is not Spanish. Meets International Perspectives Requirement. (Typically Offered: Spring)

SPAN 2950: Study Abroad

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 1020

Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student's training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 2010 or 2020. Meets International Perspectives Requirement. (Typically Offered: Summer)

SPAN 2970: Intensive Intermediate Spanish

Credits: 4. Contact Hours: Lecture 4.

Prereq: SPAN 2010 or placement by departmental exam

Bridge course between 2000- and 3000-level Spanish courses that focuses on application of advanced grammatical concepts within the context of Hispanic culture. Accelerated review of SPAN 2010 and SPAN 2020 designed for students who want to continue at the 3000 level. Taught in Spanish for students whose native language is not Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3020A: Mini-Modules for Global Professionals: Tourism and Hospitality

Credits: 1.

Prereq: SPAN 2020 or SPAN 2970 or placement by departmental exam

Introduction to professional communication within specific professional cultures with strong preparation of relevant vocabulary related to professional fields in which high degrees of Spanish are spoken. Taught in Spanish. Each topic may only be taken once for credit. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3020B: Mini-Modules for Global Professionals: Health and Medicine

Credits: 1.

Prereq: SPAN 2020 or SPAN 2970 or placement by departmental exam

Introduction to professional communication within specific professional cultures with strong preparation of relevant vocabulary related to professional fields in which high degrees of Spanish are spoken. Taught in Spanish. Each topic may only be taken once for credit. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3020C: Mini-Modules for Global Professionals: Criminal Justice and the Law

Credits: 1.

Prereq: SPAN 2020 or SPAN 2970 or placement by departmental exam

Introduction to professional communication within specific professional cultures with strong preparation of relevant vocabulary related to professional fields in which high degrees of Spanish are spoken. Taught in Spanish. Each topic may only be taken once for credit. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3030A: Spanish Conversation and Composition: through Culture

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 2020 or placement by departmental exam

Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. For students whose native language is not Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3030B: Spanish Conversation and Composition: for Professionals

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 2020 or placement by departmental exam

Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational and writing skills within the context of Hispanic culture. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3040: Spanish for Global Professionals

Credits: 3. Contact Hours: Lecture 3.

Introduction to professional vocabulary and communication within cultural contexts of the Spanish-speaking world. Taught in Spanish. SPAN 3030B recommended. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3050: Spanish for Heritage Speakers

(Cross-listed with USLS 3050).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Instructor Permission for Course

Intensive study and application of grammar concepts in the development of writing and reading skills in a dynamic cultural context centered on Hispanics in the U.S. Designed for native or heritage Spanish speakers with oral proficiency in Spanish but with little or no formal academic training in the language. Taught exclusively in Spanish. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

SPAN 3140: Textual and Media Analyses

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3030A or 3030B

Critical reading of Hispanic cultural texts. Presentation of techniques and terminology of textual criticism. Study of basic genres and media-generated artifacts and literary texts. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3210: Spanish Civilization

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

A survey of the social, political, religious, and cultural history of Spain. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3220: Latin American Civilization

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

A survey of the social, political, religious, and cultural history of Spanish America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3230: Spain Today

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3240: Latin America Today

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3250: Culture and Community: Iowa and Midwest Latino/as

(Cross-listed with USLS 3250).

Credits: 3. Contact Hours: Lecture 3.

Prereq: USLS 2110

Analysis and discussion of interdisciplinary texts examining the local and regional Latino/a immigration experience. Exploring Latino/a culture through participation in a community project. Assessed service learning component. (Typically Offered: Spring)

SPAN 3260: Studies in Hispanic Art or Film

(Dual-listed with SPAN 5260).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

Survey of major currents and figures in Spanish and Latin American art and/or film. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3300: Studies in Spanish Literature

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3140

Introduction to Spanish literature and techniques of literary criticism from the earliest times through the present. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3320: Studies in Latin American Literature

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3140

Introduction to Latin American literature and techniques of literary criticism from the earliest times through the present. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 3510: Introduction to Spanish-English Translation

(Cross-listed with LING 3510/ USLS 3510).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3030A or SPAN 3030B or SPAN 3040

Introduction to the theory, methods, techniques, and problems of translation. Consideration of material from business, literature, and the social sciences. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3520: Spanish Pronunciation

(Cross-listed with LING 3520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3030A or SPAN 3030B or SPAN 3040

An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3540: Introduction to Spanish-English Interpretation

(Dual-listed with SPAN 5540/ LING 5540). (Cross-listed with LING 3540).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3510

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 3700A: Hispanic Topics in English Translation: Agriculture

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Topics vary according to faculty interest. Knowledge and understanding of major cultural, ethical, sociopolitical and economic issues directly related to agriculture and agribusiness in Latin America, Spain, and/or Equatorial Guinea. Readings, discussions, and papers in English. May not be counted as a prerequisite.

SPAN 3700S: Studies in English Translation: Hispanic Topics on Women or Feminism

(Cross-listed with WGS 3700S).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite. Meets International Perspectives Requirement.

SPAN 3770: Latina/o/x Life Stories: Memoirs and Oral History

(Cross-listed with ENGL 3770/ US LS 3770).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: USLS 2110 or ENGL 2500

Study and archive Latinx life stories through traditional coursework, digital humanities and community outreach with local schools. Analysis of the extensive realities of Latinx communities in Iowa through the study, writing, tutorial work, and production of memoirs and oral histories.

SPAN 3780: Hispanic Film Studies in English

Credits: 3. Contact Hours: Lecture 3.

Analysis and interpretation of cinema in the Spanish-speaking world.

Topics vary and may include, but are not limited to, film directors, genres, movements, historical survey, aesthetics, and cinematography. Readings, discussions, and papers in English. Does not count towards Spanish major or minor requirements. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

SPAN 3950: Study Abroad

Credits: 1-10. Contact Hours: Lecture 10.

Repeatable.

Prereq: 12 credits in SPAN

Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to students' training, enhanced by practical living experience. Meets International Perspectives Requirement.

SPAN 4010: Advanced Composition and Grammar

(Dual-listed with SPAN 5010).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3140 and one course at the 3200-level or above

Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall)

SPAN 4400: Seminar on the Literatures and Cultures of Spain

(Dual-listed with SPAN 5400).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3320

Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish. SPAN 3300 recommended. Meets International Perspectives Requirement.

SPAN 4410: Seminar on Cervantes and the Golden Age

(Dual-listed with SPAN 5410).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3320

Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish. SPAN 3300 recommended. Meets International Perspectives Requirement.

SPAN 4450: Seminar on the Literatures and Cultures of Latin America

(Dual-listed with SPAN 5450).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3300

Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish. SPAN 3320 recommended. Meets International Perspectives Requirement.

SPAN 4620: Contrastive Analysis of Spanish/ English for Translators

(Cross-listed with LING 4620).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3510

Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish.

SPAN 4630: Contemporary Spanish Linguistics

(Dual-listed with SPAN 5630/ LING 5630). (Cross-listed with LING 4630).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3520

Study of various topics related to the Spanish language. Topics may include bilingualism, historical linguistics and dialectology, Spanish in the U.S., language assessment, computer-assisted language learning and instruction, and second language acquisition. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 4900: Independent Study

Credits: 1-6. Repeatable, maximum of 6 credits.

Prereq: 6 credits in Spanish and permission of department chair

Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. Graduation Restriction: No more than 6 credits in SPAN 4900 may be counted toward graduation.

SPAN 4990: Internship in Spanish

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 9 credits in SPAN at the 3000-level; Permission of Advisor and WLC Internship Coordinator

Work experience using Spanish language skills in the public or private sector, combined with academic work under faculty supervision.

Graduation Restriction: Up to 3 credits may apply toward the major.

Available only to majors and minors. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

SPAN 5010: Advanced Composition and Grammar

(Dual-listed with SPAN 4010).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3140 and one course at the 3200-level or above

Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.

SPAN 5260: Studies in Hispanic Art or Film

(Dual-listed with SPAN 3260).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 1 SPAN course at the 3000 level

Survey of major currents and figures in Spanish and Latin American art and/or film. Taught in Spanish. Meets International Perspectives Requirement.

SPAN 5400: Seminar on the Literatures and Cultures of Spain

(Dual-listed with SPAN 4400).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3320

Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish. SPAN 3300 recommended.

SPAN 5410: Seminar on Cervantes and the Golden Age

(Dual-listed with SPAN 4410).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3320

Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish. SPAN 3300 recommended.

SPAN 5450: Seminar on the Literatures and Cultures of Latin America

(Dual-listed with SPAN 4450).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3300

Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish. SPAN 3320 recommended.

SPAN 5540: Introduction to Spanish-English Interpretation

(Dual-listed with SPAN 3540/ LING 3540). (Cross-listed with LING 5540).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3510

Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

SPAN 5630: Contemporary Spanish Linguistics

(Dual-listed with SPAN 4630/ LING 4630). (Cross-listed with LING 5630).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: SPAN 3520

Study of various topics related to the Spanish language. Topics may include bilingualism, historical linguistics and dialectology, Spanish in the U.S., language assessment, computer-assisted language learning and instruction, and second language acquisition. Taught in Spanish.

SPAN 5900A: Special Topics in Spanish: Literature or Literary Criticism

Credits: 1-4. Repeatable.

*Prereq: Permission of Instructor; 6 credits of 4000 level Spanish***SPAN 5900B: Special Topics in Spanish: Linguistics**

Credits: 1-4. Repeatable.

*Prereq: Permission of Instructor; 6 credits of 4000 level Spanish***SPAN 5900C: Special Topics in Spanish: Language Pedagogy**

Credits: 1-4. Repeatable.

*Prereq: Permission of Instructor; 6 credits of 4000 level Spanish***SPAN 5900D: Special Topics in Spanish: Civilization**

Credits: 1-4. Repeatable.

Prereq: Permission of Instructor; 6 credits of 4000 level Spanish

Special Education (SPED)

Courses primarily for undergraduates:

SPED 2100X: Disability in a Diverse Society

Credits: 3.

Disability does not discriminate on the basis of gender, ethnicity, SES, religion, or sexual preferences. Disability is the only group anyone can join at any time. This course is designed to increase awareness, sensitivity, and understanding of the individual, social-cultural, policies, and legal aspects of disability in our society. During the course, students will explore and analyze personal, historical, political, economic, and societal perspectives on individuals with disabilities in our society. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

SPED 2500: Education of the Exceptional Learner

Credits: 3. Contact Hours: Lecture 3.

An overview of students with diverse learning needs, including students with disabilities, English Learners, students who are at risk, and gifted learners. Emphasis is on early identification; educational programming and implications; and legal foundations. Includes Individual Education Programs, Least Restrictive Environment, Functional Behavioral Assessment, and Behavior Intervention Plans. (Typically Offered: Fall, Spring)

SPED 3300: Introduction to Instruction for Students with Mild/Moderate Disabilities

Credits: 3. Contact Hours: Lecture 3.

Educational services and programming for students with mild/moderate disabilities examined from an historical perspective. Current trends, issues, impact of federal and state laws, and identification procedures. Characteristics of students with mild/moderate disabilities. (Typically Offered: Fall)

SPED 3340: Teaching Exceptional Learners in the General Classroom

Credits: 3. Contact Hours: Lecture 3.

Evidence-based strategies for inclusive education. Emphasis on principles of behavior, classroom management, differentiation, and accommodations. (Typically Offered: Fall)

SPED 3650: Classroom Assessment for Special Education

Credits: 3. Contact Hours: Lecture 3.

Formal and informal academic and behavioral assessment. Determination of special education needs. Planning, adaptation, and formative evaluation of instructional programs for students with mild/moderate disabilities. (Typically Offered: Fall, Spring)

SPED 4010: Teaching Secondary Students with Exceptionalities in General Education

Credits: 3. Contact Hours: Lecture 3.

Prereq: Admitted to the Educator Preparation Program

Characteristics and needs of youth with exceptionalities, including appropriate service delivery options. Emphasis on legal foundations, co-teaching models, differentiated instruction, accommodations for instruction and assessment, strategies to address challenging behaviors, and collaboration among professionals and families. Includes Individual Education Programs, Least Restrictive Environment, Functional Behavioral Assessment, and Behavior Intervention Plans. (Typically Offered: Fall, Spring)

SPED 4050: Assessment and Instructional Methods in Inclusive Primary Settings (K-3)

Credits: 4. Contact Hours: Lecture 4.

Examination and application of strategies to determine specialeducational needs, planning and evaluating instructional programs, and monitoring student progress. Evidence-based instructional strategies in academic and social areas that support learning of students with diverse learning needs. Emphasis on accommodations and alternative teaching strategies to meet individual student needs. (Typically Offered: Fall, Spring)

SPED 4160: Supervised Student Teaching

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Reservation required. (Typically Offered: Fall, Spring)

SPED 4360: Instructional Methods for Students with Mild/Moderate Disabilities

Credits: 3. Contact Hours: Lecture 3.

Evidence-based instructional strategies in academic areas, as well as class, group, and individual behavior management for elementary students with mild/moderate disabilities. (Typically Offered: Spring)

SPED 4580: Pre-Student Teaching Experience III: Mild/Moderate Disabilities in Primary Grades (K-3)

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Admitted to the Educator Preparation Program

Observation and involvement with students with mild/moderate disabilities in the primary grades (K-3). Concurrent enrollment in SPED 4050. Half a day of time needed. Clinical Experience Level 3. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

SPED 4590: Pre-Student Teaching Experience III: Mild/Moderate Disabilities

Credits: 1.

Prereq: Admitted to the Educator Preparation Program

Observation and involvement with students with mild/moderate disabilities in school settings. Concurrent enrollment in SPED 4600. 1/2 day of time needed. Clinical Experience Level 3. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

SPED 4600: Special Education Seminar

Credits: 1. Contact Hours: Lecture 1.

Prereq: SPED 4360, concurrent enrollment in SPED 4590

Application of evidence-based instructional strategies/techniques in academic and behavioral areas with students who have mild/moderate disabilities. Discussion of professional practices. (Typically Offered: Fall, Spring, Summer)

SPED 4640: Collaborative Partnerships in Special Education

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPED 3650 and SPED 4360

Collaborative skills used in education of students with mild/moderate disabilities. Includes collaboration between general and special education teachers, families, para-educators, and other education professionals and agencies. Development of Individual Education Programs for students with mild/moderate disabilities. (Typically Offered: Fall)

SPED 4900: Independent Study

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

Topics vary. (Typically Offered: Fall, Spring)

Courses primarily for graduate students, open to qualified undergraduates:

SPED 5010: Teaching Secondary Students with Exceptionalities in General Education

Credits: 3. Contact Hours: Lecture 3.

Characteristics and needs of exceptional children/youth, including appropriate service delivery options. Emphasis on legal foundations, co-teaching models, differentiated instruction, accommodations for instruction and assessment, and collaboration among professionals and parents. Includes Individual Education Programs, Least Restrictive Environment, Functional Behavioral Assessment, and Behavior Intervention Plans. (Typically Offered: Summer)

SPED 5100: Foundations in Mild/Moderate Disabilities

Credits: 3. Contact Hours: Lecture 3.

Historical and legal foundations for special education. Characteristics, prevalence, and etiology of mild/moderate disabilities. Historical and contemporary models of programming for students with disabilities. (Typically Offered: Spring)

SPED 5110: Foundations of Behavior Disorders and Learning Disabilities

Credits: 3. Contact Hours: Lecture 3.

Theory, characteristics, and special education service delivery models to students with moderate/severe behavior/learning disabilities in the public schools and residential settings. (Typically Offered: Spring)

SPED 5150: Assessment of Children and Youth with Disabilities

Credits: 3. Contact Hours: Lecture 3.

Formal and informal methods of assessment for identification/eligibility and progress monitoring. Formative evaluation of academic and behavioral skills, including curriculum-based measurement and functional behavioral assessment. (Typically Offered: Fall)

SPED 5170: Research Review

Credits: 2. Contact Hours: Lecture 2.

Critical review of recent research in education and related behavioral sciences as applied to education of students with disabilities. Examination of multiple research methodologies. (Typically Offered: Summer)

SPED 5200: Evidence-based Practices for Mild/Moderate Disabilities

Credits: 3. Contact Hours: Lecture 3.

Evidence-based strategies for meeting the academic and behavioral needs of students with mild/moderate disabilities, including instructional and behavior management strategies appropriate for students with mild or moderate disabilities. (Typically Offered: Fall, Spring, Summer)

SPED 5300: Evidence-based Practices in Behavior Disorders

Credits: 3. Contact Hours: Lecture 3.

Current research on evidence-based interventions designed to improve the behavior and social skills of students with moderate/severe behavior disorders. Particular emphasis on positive behavioral supports and behavior change strategies. (Typically Offered: Spring)

SPED 5400: Evidence-based Practices in Learning Disabilities

Credits: 3. Contact Hours: Lecture 3.

Current research on evidence-based interventions designed to improve the academic performance of students with moderate/severe learning disabilities. Particular emphasis on methods for improving reading, written expression, and mathematics, as well as performance in content-area instruction. (Typically Offered: Spring)

SPED 5530: Teaching Adolescent Readers with Reading Difficulties

(Cross-listed with EDUC 5530).

Credits: 3. Contact Hours: Lecture 3.

Instructional strategies for enhancing the fluency, vocabulary and comprehension of adolescents with reading difficulties. Attention to content-area reading materials and strategies. (Typically Offered: Fall, Spring)

SPED 5550: Career Education and Transition for Youth with Disabilities

Credits: 3. Contact Hours: Lecture 3.

Examination of the academic, personal, social, employability, and daily living skills. Exploration of assessments, curricula, programs, and services to meet these needs. (Typically Offered: Summer)

SPED 5600: Classroom Management/Behavior Support

Credits: 3. Contact Hours: Lecture 3.

Emphasis on positive behavioral supports and understanding behavior and its context through a functional behavioral approach. Design and development of carefully planned behavioral intervention programs for groups and individual students in general and special education settings. (Typically Offered: Fall)

SPED 5640: Collaborative Consultation

Credits: 3. Contact Hours: Lecture 3.

Characteristics and methods to promote effective collaboration and/or consultation with families, paraprofessionals, other school personnel, and representatives of other agencies. Role of consultants/collaborators in various settings. Includes specific attention to IEP development as a collaborative process. (Typically Offered: Fall)

SPED 5670: Teaching Secondary Learners with Mathematics Difficulties

(Cross-listed with EDUC 5670).

Credits: 3. Contact Hours: Lecture 3.

Instructional methods and assessment techniques for secondary students struggling to learn mathematics. Particular emphasis on current research, practices, and trends in mathematics interventions for at-risk students and students with disabilities.

SPED 5700: Systems-level Supports for Youth with Behavior and Learning Disabilities

Credits: 3. Contact Hours: Lecture 3.

Overview of support systems (education, juvenile justice, mental health, communities) that serve students with special education needs. Identify resources to work with and support families. (Typically Offered: Summer)

SPED 5900: Special Topics

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

Topics vary. (Typically Offered: Fall, Spring)

SPED 5910G: Supervised Field Experience: Mild/Moderate Disabilities, K-8

Credits: 1-6. Repeatable.

Supervised on-the-job field experience in special areas. (Typically Offered: Fall, Spring, Summer)

SPED 5910H: Supervised Field Experience: Mild/Moderate Disabilities, 5-12

Credits: 1-6. Repeatable.

Supervised on-the-job field experience in special areas. (Typically Offered: Fall, Spring, Summer)

SPED 5910K: Supervised Field Experience: Behavior Disorders/Learning Disabilities, Ages 5-21

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Supervised on-the-job field experience in special areas. (Typically Offered: Fall, Spring, Summer)

SPED 5910L: Supervised Field Experience: Special Education, Non-licensure

Credits: 1-6. Repeatable.

Supervised on-the-job field experience in special areas. (Typically Offered: Fall, Spring, Summer)

SPED 5990: Creative Component

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

SPED 6150: Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 credits.

Selected topics in special education. Analysis of current special education research. Evaluation of impact upon the profession. Implications for additional research.

SPED 6900: Advanced Special Topics

Credits: 1-5. Contact Hours: Lecture 5.

Repeatable, maximum of 4 times.

Guided reading and/or study on special topics of an advanced nature. (Typically Offered: Spring, Summer)

SPED 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Speech Communication (SPCM)

Courses primarily for undergraduates:

SPCM 1100: Listening

Credits: 3. Contact Hours: Lecture 3.

Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships. (Typically Offered: Fall, Spring)

SPCM 2120: Fundamentals of Public Speaking

Credits: 3. Contact Hours: Lecture 3.

Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches. (Typically Offered: Fall, Spring, Summer)

SPCM 2160: America Speaks: Great Speakers and Speeches in US History

Credits: 3. Contact Hours: Lecture 3.

Survey of great speeches examined within their political and cultural contexts. Analysis of the rhetorical strategies of diverse speakers with an emphasis on texts from social movements in the United States. Meets U.S. Diversity Requirement.

SPCM 2750: Analysis of Popular Culture Texts

(Cross-listed with ENGL 2750).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or concurrent enrollment in ENGL 2500

Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices. (Typically Offered: Fall, Spring)

SPCM 2900: Special Projects

Credits: 1-2. Repeatable, maximum of 4 credits.

Prereq: 3 credits in SPCM; Department Permission

(Typically Offered: Fall, Spring, Summer)

SPCM 3100: Rhetorical Analysis

(Cross-listed with ENGL 3100).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500

Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing. (Typically Offered: Fall, Spring)

SPCM 3120: Business and Professional Speaking

Credits: 3. Contact Hours: Lecture 3.

Theory, principles, and competency development in the creation of coherent, articulate business and professional oral presentations. SPCM 2120 or prior public speaking experience recommended. (Typically Offered: Fall, Spring)

SPCM 3230: Gender and Communication

(Cross-listed with WGS 3230).

Credits: 3. Contact Hours: Lecture 3.

Examination of how understanding and enactment of gender identity is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Meets U.S. Diversity Requirement.

SPCM 3240: Legal Communication

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPCM 2120

Speech communication in the legal system inside and outside the trial process: interviewing and counseling, negotiating and bargaining, voir dire, opening statements, examination of witnesses, closing arguments, judge's instructions, jury behavior, and appellate advocacy.

SPCM 3500: Rhetorical Traditions

(Cross-listed with CLST 3500/ ENGL 3500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500

Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology. (Typically Offered: Spring)

SPCM 4170: Campaign Rhetoric

(Cross-listed with POLS 4170).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPCM 2120

Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Offered even-numbered years. (Typically Offered: Fall)

SPCM 4180: Seminar in Argumentation

(Cross-listed with ENGL 4180).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 3100/SPCM 3100 and Junior classification

Advanced seminar in theory and analysis with extensive practice in various modes of argument. (Typically Offered: Fall, Spring)

SPCM 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 18 credits in SPCM; Junior classification; Department Permission

Only one independent study enrollment is permitted within the department per semester. (Typically Offered: Fall, Spring, Summer)

SPCM 4950B: Independent Study: Teaching Speech

(Cross-listed with EDUC 4950B).

Credits: 3. Contact Hours: Lecture 3.

Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

SPCM 5130: Teaching Fundamentals of Public Speaking

Credits: 3. Contact Hours: Lecture 3.

Introduction to the teaching of public speaking. Exploration of pedagogical theory and methods related to SPCM 2120 objectives, pedagogical approaches, lesson planning, assignment development, and evaluation of student projects. Required of all new teaching assistants teaching SPCM 2120. (Typically Offered: Fall)

SPCM 5400: Drama

(Cross-listed with ENGL 5400).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

SPCM 5470: The History of Rhetorical Theory from the Classical Era to the Present

(Cross-listed with ENGL 5470).

Credits: 3. Contact Hours: Lecture 3.

Rhetorical theory from the classical period of ancient Greece through to the 20th century; attention to rhetoric's relation to the nature of knowledge, communication, practice, and pedagogy.

SPCM 5480: Cultural and Critical Theories of Communication and Rhetoric

(Cross-listed with ENGL 5480).

Credits: 3. Contact Hours: Lecture 3.

Contemporary theories that address the production, reception, and critical evaluation of cultural artifacts and communicative events; these theories address power, ideology, and the norms of public discourse. Theories covered may include Postmodernism, Feminist Theory, Public Sphere Theory, as well as Critical Race Theory, Social Justice Theory, Disability Theory, Queer Theory, and/or Intercultural Theories of Communication and Rhetoric.

SPCM 5490: Multimedia and Interaction Design

(Cross-listed with ENGL 5490).

Credits: 3. Contact Hours: Lecture 3.

Rhetorical principles of interactive multimedia design, such as those in streaming multimedia as part of workplace documents. Practical understanding of the computer applications used in interactive multimedia development. Focus on theoretical and practical elements of producing multimedia for training in both education and industry. Work with interactive hypertext, digital audio, and nonlinear video editing.

SPCM 5900: Special Topics

Credits: 1-4. Repeatable, maximum of 12 credits.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

SPCM 5920A: Core Studies: Rhetoric

(Cross-listed with ENGL 5920A).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Seminar on topics central to the fields of rhetoric and professional communication or composition. (Typically Offered: Fall, Spring, Summer)

SPCM 5920B: Core Studies: Composition

(Cross-listed with ENGL 5920B).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Seminar on topics central to the fields of rhetoric and professional communication or composition. (Typically Offered: Fall, Spring, Summer)

SPCM 5920C: Core Studies: Professional Communication

(Cross-listed with ENGL 5920C).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Seminar on topics central to the fields of rhetoric and professional communication or composition. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**SPCM 6110: Seminar in Rhetorical Theory**

(Cross-listed with ENGL 6110).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Rhetorical theory, criticism, and/or practice in relation to a historical period or a particular theoretical issue.

Statistics (STAT)

Courses primarily for undergraduates:**STAT 1010: Principles of Statistics**

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. 1 1/2 years of high school algebra required. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 1010, STAT 1040, STAT 1050, STAT 2010, or STAT 2260. (Typically Offered: Fall, Spring, Summer)

STAT 1040: Introduction to Statistics

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. 1 1/2 years of high school algebra required. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 1010, STAT 1040, STAT 1050, STAT 2010, or STAT 2260. (Typically Offered: Fall, Spring, Summer)

STAT 1100: Orientation in Statistics

Credits: 1. Contact Hours: Lecture 1.

Opportunities, challenges, and the scope of the curriculum in statistics. For students planning or considering a career in this area. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

STAT 2010: Introduction to Statistical Concepts and Methods

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: Credit or Enrollment in MATH 1650

Statistical thinking and applications of statistical concepts and methods in modern society. Display and summary of categorical and numerical data. Exploring relationships between variables, association, correlation, and regression. Observational studies and experiments. Probability concepts, random variables, discrete and continuous distributions. Elements of statistical inference; estimation and hypothesis testing. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 1010, STAT 1040, STAT 1050, STAT 2010, or STAT 2260. Credit for both STAT 1050 and STAT 3050 may not be applied toward graduation. (Typically Offered: Spring)

STAT 2020: Career Development in Math and Statistics

(Cross-listed with MATH 2020).

Credits: 1. Contact Hours: Laboratory 2.

Career development in the mathematics and statistics disciplines with an emphasis on contemporary social issues. Presentations by professionals in STEM fields about occupations, decision-making strategies, and career goal implementation; development of job searching, resume writing, negotiating, and interviewing techniques. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

STAT 2260: Introduction to Business Statistics I

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1500 or MATH 1650

Obtaining, organizing, and presenting statistical data; measures of location and dispersion; the Normal distribution; sampling and sampling distribution of the sample mean; elements of statistical inference; confidence intervals and hypothesis testing for the mean; describing bivariate relationships and inference for simple linear regression analysis; use of computers to visualize and analyze data. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 1010, STAT 1040, STAT 1050, STAT 2010, or STAT 2260. (Typically Offered: Fall, Spring, Summer)

STAT 2310: Probability and Statistical Inference for Engineers

Credits: 4. Contact Hours: Lecture 4.

Prereq: Credit or Coenrollment in MATH 2650

Emphasis on engineering applications. Basic probability; random variables and probability distributions; joint and sampling distributions. Descriptive statistics; confidence intervals; hypothesis testing; simple linear regression; multiple linear regression; one way analysis of variance; use of statistical software. (Typically Offered: Fall, Spring)

STAT 2610X: Statistics in Sports

Credits: 3. Contact Hours: Lecture 3.

Introduction the use of statistical, quantitative, and graphical techniques for analysis of sports data. Focus on understanding the types of data that arise in sports and the probability distributions associated with those data types including binomial, Poisson, and normal. Introduction to regression techniques that incorporate variables that affect these distributions. Discussion of head-to-head competitions and the inherent complexities in analyzing data of this type. (Typically Offered: Fall, Spring, Summer)

STAT 3010: Intermediate Statistical Concepts and Methods

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: One of STAT 1010, 1040, 1050, 2010, 2260, 2310, 3050, 3220, 3300

Statistical concepts and methods used in the analysis of observational data. Analysis of single sample, two sample and paired sample data. Simple and multiple linear regression including polynomial regression and use of indicator variables. Model building and analysis of residuals. Introduction to one-way ANOVA, tests of independence for contingency tables, and logistic regression. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 3010, STAT 3260, STAT 4010, or STAT 5870. (Typically Offered: Fall, Spring)

STAT 3050: Engineering Statistics

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1650

Statistics for engineering problem solving. Principles of engineering data collection; descriptive statistics; elementary probability distributions; principles of experimentation; confidence intervals and significance tests; one-, two-, and multi-sample studies; regression analysis; use of statistical software. Graduation Restriction: Credit for both STAT 1050 and STAT 3050 may not be applied toward graduation. (Typically Offered: Fall, Spring, Summer)

STAT 3220: Probabilistic Methods for Electrical Engineers

(Cross-listed with EE 3220).

Credits: 3. Contact Hours: Lecture 3.

Prereq: EE 2240

Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes' rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectation, moments, moment generating functions, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes. (Typically Offered: Fall, Spring)

STAT 3260: Introduction to Business Statistics II

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: STAT 2260

Multiple regression analysis; regression diagnostics; model building; applications in analysis of variance and time series; random variables; distributions; conditional probability; use of computers to visualize and analyze data. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 3010, STAT 3260, STAT 4010, or STAT 5870. (Typically Offered: Fall, Spring, Summer)

STAT 3300: Probability and Statistics for Computer Science

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1660

Topics from probability and statistics applicable to computer science. Basic probability; Random variables and their distributions; Stochastic processes including Markov chains; Queuing models; Basic statistical inference; Introduction to regression. (Typically Offered: Fall, Spring, Summer)

STAT 3320: Visual Communication of Quantitative Information

(Cross-listed with ENGL 3320).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500; (STAT 1010 or STAT 1040 or STAT 1050 or STAT 2010 or STAT 2310 or STAT 3050 or STAT 3220 or STAT 3300)

Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays.

STAT 3410: Introduction to the Theory of Probability and Statistics I

(Cross-listed with MATH 3410).

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: MATH 2650 or MATH 2650H

Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; transformations of random variables; simulation of random variables and use of the R statistical package. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 3410, STAT 3470, STAT 4470, or STAT 5880. (Typically Offered: Fall, Spring)

STAT 3420: Introduction to the Theory of Probability and Statistics II

(Cross-listed with MATH 3420).

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: (MATH 2070 or MATH 3170); (STAT 1010 or STAT 1040 or STAT 1050 or STAT 2010 or STAT 2260 or STAT 2310 or STAT 3050 or STAT 3220 or STAT 3300); STAT 3410

Sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; resampling methods; introduction to Bayesian inference; use of the R statistical package for simulation and data analysis. (Typically Offered: Fall, Spring)

STAT 3470: Probability and Statistical Theory for Data Science

Credits: 4. Contact Hours: Lecture 4.

Prereq: (MATH 2070 or MATH 3170); MATH 2650; (STAT 3010 or STAT 3260)

Introduction to probability; distribution functions and their properties; classical discrete and continuous distributions; sampling distributions; theory of estimation; theory of inference; use of R statistical package for simulation and data analysis. Graduation Restriction: Credit for only one of the following courses may be applied toward graduation: STAT 3410, STAT 3470, STAT 4470, or STAT 5880. (Typically Offered: Fall)

STAT 3610: Statistical Quality Assurance

(Cross-listed with IE 3610).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 2310, STAT 3010, STAT 3260, or STAT 5870

Statistical methods for process improvement. Simple quality assurance principles and tools. Measurement system precision and accuracy assessment. Control charts. Process capability assessment. Experimental design and analysis for process improvement. Significant external project in process improvement. (Typically Offered: Fall, Spring)

STAT 3980: Cooperative Education

Credits: Required. Repeatable.

Prereq: Department Chair Permission for Course

Off-campus work periods for undergraduate students in a field of statistics. (Typically Offered: Fall, Spring, Summer)

STAT 4610X: Sports Analytics

Credits: 3. Contact Hours: Lecture 3.

Sports analytics refers to the use of statistical, quantitative, and graphical techniques for analysis of sports data. Focus on head-to-head sports and the calculation of relevant statistics, e.g., plus-minus and adjusted plus-minus statistics that attempt to quantify individual contributions to a team's performance. Rating and ranking systems and their relationship to statistical models and estimation of these ratings will be described. (Typically Offered: Fall, Spring, Summer)

STAT 4710: Introduction to Experimental Design

(Dual-listed with STAT 5710).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

The role of statistics in research and the principles of experimental design. Concepts of experimental and observational units, randomization, replication, blocking, subdividing and repeatedly measuring experimental units; factorial treatment designs and confounding; common designs including randomized complete block design, Latin square design, split-plot design, and analysis of data from such common designs; extensions of the analysis of variance to cover variance components. Determining sample size. Graduation Restriction: Credit in only one of STAT 4020, STAT 4710, or STAT 5710 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall, Spring)

STAT 4720: Introduction to Time Series

(Dual-listed with STAT 5720).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3010 or STAT 3260 or STAT 5260 or STAT 5870

Methods for analyzing data collected over time; review of multiple regression analysis. Elementary forecasting methods: moving averages and exponential smoothing. Autoregressive-moving average (Box-Jenkins) models: identification, estimation, diagnostic checking, and forecasting. Transfer function models and intervention analysis. Introduction to multivariate time series methods. Graduation Restriction: Credit for only one of STAT 4510, STAT 4720, or STAT 5720 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 4730: Introduction to Survey Sampling

(Dual-listed with STAT 5730).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: (STAT 3010 or STAT 3260 or STAT 4010 or STAT 5870); (STAT 3410 or STAT 3470 or STAT 4470 or STAT 5880)

Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, systematic, probability proportional to size, and multistage sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse. (Typically Offered: Spring)

STAT 4740: Introduction to Bayesian Data Analysis

(Dual-listed with STAT 5740).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: (STAT 3010 or STAT 3260 or STAT 4010 or STAT 5870); (STAT 3410 or STAT 3470 or STAT 4470 or STAT 5880)

Probability models and prior distributions; updating priors through the likelihood function. Computational and simulation-based methods for deriving posterior distributions and for estimating parameters. Basic statistical and hierarchical models. Model adequacy and posterior predictive checks. Markov Chain Monte Carlo methods and introduction to WinBUGS or similar software. Emphasis on applications and examples from the social, biological and physical sciences. Graduation Restriction: Credit for only one of STAT 4440, STAT 4740, or STAT 5740 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 4750: Introduction to Multivariate Data Analysis

(Dual-listed with STAT 5750).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

Statistical and graphical methods for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics; organizing and summarizing analyses of multivariate data; comparing two group mean vectors; multivariate analysis of variance; reducing variable dimension with principal components; identifying factors with exploratory factor analysis; grouping observations with multidimensional scaling and cluster analysis; classification; R statistical software package and using Rstudio to create reports (RMarkdown and GGplot). Knowledge of linear algebra recommended. Graduation Restriction: Credit for only one of STAT 4070, STAT 4750, or STAT 5750 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 4760: Introduction to Spatial Data Analysis

(Dual-listed with STAT 5760).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 3010 or STAT 3260 or STAT 4010 or STAT 5870); (STAT 3410 or STAT 3470 or STAT 4470 or STAT 5880)

The analysis of spatial data; geostatistical methods, mapping and spatial prediction; methods for areal data; models and methods for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Use of R and R packages for spatial data analysis. Graduation Restriction: Credit for only one of STAT 4060, STAT 4760, or STAT 5760 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs.

STAT 4770: Introduction to Categorical Data Analysis

(Dual-listed with STAT 5770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

Statistical methods for the analysis of categorical data: graphical summaries, estimation and inference for proportions, sample size determination, chi-square tests, measures of relative risk, odds and association, analysis of paired data and measures of agreement, logistic regression models, log-linear models. Graduation Restriction: Credit for only one of STAT 4570, STAT 4770, or STAT 5770 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 4780: Introduction to Stochastic Process Models

(Dual-listed with STAT 5780).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 2310 or STAT 3410 or STAT 3470 or STAT 4470 or STAT 5880

Probabilistic models in biological, engineering and the physical sciences. Markov chains; Poisson, birth-and-death, renewal, branching and queuing processes; applications to bioinformatics and other quantitative problems. Graduation Restriction: Credit for only one of STAT 4320, STAT 4780, or STAT 5780 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. Offered even number years. (Typically Offered: Fall)

STAT 4820: Regression for Social and Behavioral Research

(Dual-listed with STAT 5820).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; logistic, multinomial and Poisson regression. Graduation Restriction: Credit for only one of STAT 4040, STAT 4820, or STAT 5820 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall, Spring)

STAT 4830: Empirical Methods for the Computational Sciences

(Dual-listed with STAT 5830).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3300, MATH 1660

Statistical methods for research involving computers; exploratory data analysis; selected topics from analysis of designed experiments - analysis of variance, hypothesis testing, interaction among variables; linear regression, logistic regression, Poisson regression; parameter estimation, prediction, confidence regions, dimension reduction techniques, model diagnostics and sensitivity analysis; Markov chains and processes; simulation techniques and bootstrap methods; applications to computer science, bioinformatics, computer engineering - programs, models and systems as objects of empirical study; communicating results of empirical studies. Statistical software: R. Knowledge of linear algebra recommended. Graduation Restriction: Credit for only one of STAT 4300, STAT 4830, or STAT 5830 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 4840: Computer Processing of Scientific Data

(Dual-listed with STAT 5840).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

Structure, content and programming aspects of modern statistical software packages. Advanced techniques for data management, graphics, exploratory data analysis, and generalized linear models. Graduation Restriction: Credit for only one of STAT 4790, STAT 4840, or STAT 5840 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 4860: Introduction to Statistical Computing

(Dual-listed with STAT 5860).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 3010 or STAT 3260 or STAT 5870

Modern statistical computing. Topics may include: basic and advanced R programming; data management; spread sheets; verifying data accuracy; transferring data between software packages; data and graphical analysis with statistical software packages; algorithmic programming concepts and applications; simulation studies and resampling methods; software reliability; statistical modeling and machine learning. Graduation Restriction: Credit for only one of STAT 4800, STAT 4860, or STAT 5860 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 4900: Independent Study

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 10 credits in STAT; Permission of Instructor

Graduation Restriction: No more than 9 credits in STAT 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

STAT 4900H: Independent Study: Honors

Credits: 1-30. Repeatable, maximum of 9 credits.

Prereq: 10 credits in STAT; Permission of Instructor

Graduation Restriction: No more than 9 credits in STAT 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

STAT 5000: Statistical Methods I

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

Prereq: STAT 5880 or current enrollment in STAT 5420 or Graduate Classification

Analysis of data from designed experiments and observational studies. Randomization-based and model-based inference on group means; pairing/blocking and other uses of restricted randomization. Model assessment and diagnostics; remedial measures; alternative approaches based on ranks. Simple linear regression, multiple linear regression, and model selection criteria. Use of linear models to analyze data; least squares estimation; estimability; sampling distributions of estimators; general linear tests; inference for parameters and contrasts. (Typically Offered: Fall)

STAT 5010: Multivariate Statistical Methods

Credits: 3. Contact Hours: Lecture 3.

Statistical methods for analyzing and displaying multivariate data; the multivariate normal distribution; inference in multivariate populations, simultaneous analysis of multiple responses, multivariate analysis of variance; summarizing high dimensional data with principal components, factor analysis, canonical correlations, classification methods, clustering, multidimensional scaling; introduction to basic nonparametric multivariate methods. Statistical software: SAS or R. (Typically Offered: Spring)

STAT 5020: Applied Modern Multivariate Statistical Learning

Credits: 3. Contact Hours: Lecture 3.

A Statistics-MS-level introduction to Modern Multivariate Statistical Learning. Theory-based methods for modern data mining and machine learning, inference and prediction. Variance-bias trade-offs and choice of predictors; linear methods of prediction; basis expansions; smoothing, regularization, kernel smoothing methods; neural networks and radial basis function networks; bootstrapping, model averaging, and stacking; linear and quadratic methods of classification; support vector machines; trees and random forests; boosting; prototype methods; unsupervised learning including clustering, principal components, and multi-dimensional scaling; kernel mechanics. Substantial use of R packages implementing these methods. Offered even-numbered years. (Typically Offered: Spring)

STAT 5030: Exploratory Methods and Data Mining

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5420 or 5880 or 5790 or 5860

Approaches to finding the unexpected in data; exploratory data analysis; pattern recognition; dimension reduction; supervised and unsupervised classification; interactive and dynamic graphical methods; computer-intensive statistical techniques for large or high dimensional data and visual inference. Emphasis is on problem solving, topical problems, and learning how so-called black-box methods actually work. Offered irregularly. (Typically Offered: Spring)

STAT 5050: Environmental Statistics

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 5420 or 5880); (STAT 5000 or 5870)

Statistical methods and models for environmental applications. Emphasis on environmental toxicology. Analysis of data with below detection-limit values. Dose-response curve modeling, including overdispersion and estimation of safe doses. Trend analysis; analysis of autocorrelated data. Equivalence testing.

STAT 5060: Statistical Methods for Spatial Data

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5420 or 5880

The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes. Offered even-numbered years. (Typically Offered: Spring)

STAT 5100: Statistical Methods II

Credits: 3. Contact Hours: Lecture 3.

Linear models and analysis of variance for multifactor experiments with balanced and unbalanced data. Likelihood analysis for general linear models and models with non-normal random components; linear model results in the context of likelihood; linear mixed models and their application; estimation, inference, and prediction. Introduction to generalized linear models and generalized linear mixed models. Case studies of applications including problem formulation, exploratory analysis, model development, estimation and inference, and model assessment. (Typically Offered: Spring)

STAT 5120: Design of Experiments

Credits: 3. Contact Hours: Lecture 3.

Basic techniques of experimental design developed in the context of the general linear model; completely randomized, randomized complete block, and Latin Square designs; factorial experiments, confounding, fractional replication; split-plot and incomplete block designs. (Typically Offered: Fall)

STAT 5130: Response Surface Methodology

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5120 or 5710

Analysis techniques for locating optimum and near-optimum operating conditions: standard experimental designs for first- and second-order response surface models; design performance criteria; use of data transformations; mixture experiments; optimization for multiple-response problems. Requires use of statistical software with matrix functions.

STAT 5150: Theory and Applications of Nonlinear Models

Credits: 3. Contact Hours: Lecture 3.

Construction of nonlinear statistical models; random and systematic model components, additive error nonlinear regression with constant and non-constant error variances, generalized linear models, transform both sides models. Iterative algorithms for estimation and asymptotic inference. Basic random parameter models, beta-binomial and gamma-Poisson mixtures. Requires use of instructor-supplied and student-written R functions.

STAT 5160: Statistical Design and Analysis of Gene Expression Experiments

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5000 and (STAT 5420 or STAT 5880)

Introduction to high-throughput technologies for gene expression studies (especially RNA-sequencing technology): the role of blocking, randomization, and biological and technical replication in the design of gene expression experiments; normalization methods; methods for identifying differentially expressed genes including mixed linear model analysis, generalized linear model analysis, generalized linear mixed model analysis, quasi-likelihood methods, and empirical Bayes analysis; procedures for controlling false discovery rate for multiple testing; clustering problems for gene expression data; testing gene categories; emphasis on current research topics for statistical analysis of high dimensional gene expression data.

STAT 5200: Statistical Methods III

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5100 AND (STAT 5430 or STAT 5880)

Nonlinear regression; generalized least squares; asymptotic inference. Generalized linear models; exponential dispersion families; maximum likelihood and inference. Designing Monte Carlo studies; bootstrap; cross-validation. Fundamentals of Bayesian analysis; data models, priors and posteriors; posterior prediction; credible intervals; Bayes Factors; types of priors; simulation of posteriors; introduction to hierarchical models and Markov Chain Monte Carlo methods. (Typically Offered: Fall)

STAT 5210: Theory and Applications of Sample Surveys

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 5420 or 5880); (STAT 5000 or 5870)

Practical aspects and basic theory of design and estimation in sample surveys for finite populations. Simple random, systematic, stratified, cluster multistage and unequal-probability sampling. Horvitz-Thompson estimation of totals and functions of totals: means, proportions, regression coefficients. Linearization technique for variance estimation. Model-assisted ratio and regression estimation. Two-phase sampling and sampling on two occasions. Non-response effects. Imputation. (Typically Offered: Spring)

STAT 5220: Advanced Applied Survey Sampling

Credits: 3. Contact Hours: Lecture 3.

Advanced topics in survey sampling and methodology: clustering and stratification in practice, adjustments and imputation for missing data, variance estimation in complex surveys, methods of panel and/or longitudinal surveys, procedures to increase response rates, and computing. Examples are taken from large, well-known surveys in various subject areas. Offered irregularly. (Typically Offered: Fall)

STAT 5250: Statistical Methods for Mathematics Teachers

Credits: 6. Contact Hours: Lecture 6.

Descriptive statistics; data collection through experimentation and sampling; univariate statistical inference; contingency tables; design of experiments and ANOVA; simple linear regression; logistic regression; multiple linear regression; statistics pedagogy. (Offered on a 3-year cycle; offered SS 2020.).

STAT 5260: Applied Statistical Modeling

Credits: 3. Contact Hours: Lecture 3.

Probability concepts and distributions used in statistical decision-making for business applications. Least-squares and maximum likelihood estimation, sampling distributions of estimators, formal statistical inference, analysis of variance, multiple regression models and strategies for model selection, logistic regression, and Poisson regression.

Applications implemented with the R statistical package. Simulations used to investigate properties of inferential procedures and to assist in data analysis. (Typically Offered: Fall)

STAT 5280: Visual Business Analytics

Credits: 3. Contact Hours: Lecture 3.

Types of data displays; numerical and visual summaries of data; data structures for data displays; data vs info graphics; good practices of displaying data; human perception and cognition in data displays; graphics as tools of data exploration; graphical diagnostics of statistical models and machine learning procedures; strategies and techniques for data visualizations; basics of reproducibility and repeatability; web-based interactive applets for visual presentation of data and results; programming in R. (Typically Offered: Fall)

STAT 5310: Quality Control and Engineering Statistics

(Cross-listed with IE 5310).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5870 and STAT 5880

Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

STAT 5330: Reliability

(Cross-listed with IE 5330).

Credits: 3. Contact Hours: Lecture 3.

Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrent events and degradation data; planning studies to obtain reliability data. Offered even-numbered years. (Typically Offered: Spring)

STAT 5340: Ecological Statistics

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5420 or 5880

Statistical methods for non-standard problems, illustrated using questions and data from ecological field studies. Estimation of abundance and survival from mark-recapture studies, deterministic and stochastic matrix models of population trends, integral projection models, and hierarchical modeling, especially of population dynamics. Additional topics vary based on student interest. Offered odd-numbered years. (Typically Offered: Fall)

STAT 5360: Statistical Genetics

(Cross-listed with GDCB 5360).

Credits: 3. Contact Hours: Lecture 3.

Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

STAT 5420: Theory of Probability and Statistics I

Credits: 4. Contact Hours: Lecture 4.

Sample spaces, basic probability results, conditional probability. Random variables, univariate distributions, moment generating functions. Joint distributions, conditional distributions and independence, correlation and covariance. Probability laws and transformations. Introduction to the multivariate normal distribution. Sampling distributions, normal theory, sums and order statistics. Convergence concepts, the law of large numbers, the central limit theorem and delta method. Basics of stochastic simulation. (Typically Offered: Fall)

STAT 5430: Theory of Probability and Statistics II

Credits: 3. Contact Hours: Lecture 3.

Point estimation including method of moments, maximum likelihood and Bayes. Properties of point estimators, mean squared error, unbiasedness, consistency, loss functions. Large sample properties of maximum likelihood estimators. Exponential families, sufficiency, completeness, ancillarity, Basu's theorem. Hypothesis tests, Neyman-Pearson lemma, uniformly most powerful tests, likelihood ratio tests, Bayes tests. Interval estimation, inverting tests, pivotal quantities. Nonparametric theory, bootstrap. (Typically Offered: Spring)

STAT 5440: Bayesian Statistics

Credits: 3. Contact Hours: Lecture 3.

Specification of probability models; subjective, conjugate, and noninformative prior distributions; hierarchical models; analytical and computational techniques for obtaining posterior distributions; model checking, model selection, diagnostics; comparison of Bayesian and traditional methods. (Typically Offered: Spring)

STAT 5460: Nonparametric Methods in Statistics

Credits: 3. Contact Hours: Lecture 3.

Overview of parametric versus nonparametric methods of inference; introduction to rank-based tests and/or nonparametric smoothing methods for estimating density and regression functions; smoothing parameter selection. Offered odd-numbered years. (Typically Offered: Fall)

STAT 5470: Functional Data Analysis

Credits: 3. Contact Hours: Lecture 3.

Theory and methods for analyzing functional data, which are data that take the forms of trajectories and images, possibly highly discretized and contaminated with noise. Topics include basic operations on functional data, necessary theoretical foundations, functional principal component analysis, kernel and spline smoothing, covariance modeling and estimation, dynamics modeling, concurrent regression models, functional linear models, inference for functional data, classification, and other optional topics. Offered even-numbered years. (Typically Offered: Spring)

STAT 5510: Time Series Analysis

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5420 or 5880

Concepts of trend and dependence in time series data; stationarity and basic model structures for temporal dependence; moving average and autoregressive error structures; analysis in time domain and in frequency domain; parameter estimation, prediction and forecasting; identification of appropriate model structure and model assessment techniques. Possible extended topics including non-linear models, dynamic models, state-space models. (Typically Offered: Fall)

STAT 5540: Stochastic Process Models

(Cross-listed with MATH 5540).

Credits: 3. Contact Hours: Lecture 3.

Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion. (Typically Offered: Fall)

STAT 5570: Statistical Methods for Counts and Proportions

Credits: 3. Contact Hours: Lecture 3.

Statistical methods for analyzing simple random samples when outcomes are counts or proportions; measures of association and relative risk, chi-squared tests, loglinear models, logistic regression and other generalized linear models, tree-based methods. Maximum likelihood estimation and large sample theory. Extensions to longitudinal studies and complex survey designs, models with fixed and random effects. Use of statistical software: SAS or R. Offered odd-numbered years. (Typically Offered: Fall)

STAT 5590: Item Response Theory

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5000 or 5870

Statistical methods for analysis of binary and polytomous data using latent trait models. Application and theory of model selection and fit, dimensionality, differential item functioning and test development. Use of appropriate statistical software. Offered even-numbered years. (Typically Offered: Fall)

STAT 5650: Methods in Biostatistics and Epidemiology

(Cross-listed with TOX 5650).

Credits: 3. Contact Hours: Lecture 3.

Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, diagnostic test evaluation, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R. Offered even-numbered years. (Typically Offered: Fall)

STAT 5680: Statistical Bioinformatics

(Cross-listed with COMS 5680/ GDCB 5680/ BCB 5680).

Credits: 3. Contact Hours: Lecture 3.

Statistical models for sequence data, including applications in genome annotation, motif discovery, variant discovery, molecular phylogeny, gene expression analysis, and metagenomics. Statistical topics include model building, inference, hypothesis testing, and simple experimental design, including for big data/complex models. (Typically Offered: Spring)

STAT 5700: Systems Biology

(Cross-listed with COMS 5700/ CPRE 5700/ GDCB 5700/ BCB 5700).

Credits: 3. Contact Hours: Lecture 3.

Algorithmic and statistical approaches in computational functional genomics and systems biology. Analysis of high throughput biological data obtained using system-wide measurements. Topological analysis, module discovery, and comparative analysis of gene and protein networks. Modeling, analysis, and inference of transcriptional regulatory networks, protein-protein interaction networks, and metabolic networks. Dynamic systems and whole-cell models. Ontology-driven, network based, and probabilistic approaches to information integration. (Typically Offered: Spring)

STAT 5710: Introduction to Experimental Design

(Dual-listed with STAT 4710).

Credits: 3. Contact Hours: Lecture 3.

The role of statistics in research and the principles of experimental design. Concepts of experimental and observational units, randomization, replication, blocking, subdividing and repeatedly measuring experimental units; factorial treatment designs and confounding; common designs including randomized complete block design, Latin square design, split-plot design, and analysis of data from such common designs; extensions of the analysis of variance to cover variance components. Determining sample size. Graduation Restriction: Credit in only one of STAT 4020, STAT 4710, or STAT 5710 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall, Spring)

STAT 5720: Introduction to Time Series

(Dual-listed with STAT 4720).

Credits: 3. Contact Hours: Lecture 3.

Methods for analyzing data collected over time; review of multiple regression analysis. Elementary forecasting methods: moving averages and exponential smoothing. Autoregressive-moving average (Box-Jenkins) models: identification, estimation, diagnostic checking, and forecasting. Transfer function models and intervention analysis. Introduction to multivariate time series methods. Graduation Restriction: Credit for only one of STAT 4510, STAT 4720, or STAT 5720 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 5730: Introduction to Survey Sampling

(Dual-listed with STAT 4730).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: STAT 5870 and STAT 5880

Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, systematic, probability proportional to size, and multistage sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse. (Typically Offered: Spring)

STAT 5740: Introduction to Bayesian Data Analysis

(Dual-listed with STAT 4740).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: STAT 5870 and STAT 5880

Probability models and prior distributions; updating priors through the likelihood function. Computational and simulation-based methods for deriving posterior distributions and for estimating parameters. Basic statistical and hierarchical models. Model adequacy and posterior predictive checks. Markov Chain Monte Carlo methods and introduction to WinBUGS or similar software. Emphasis on applications and examples from the social, biological and physical sciences. Graduation Restriction: Credit for only one of STAT 4440, STAT 4740, or STAT 5740 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 5750: Introduction to Multivariate Data Analysis

(Dual-listed with STAT 4750).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Statistical and graphical methods for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics; organizing and summarizing analyses of multivariate data; comparing two group mean vectors; multivariate analysis of variance; reducing variable dimension with principal components; identifying factors with exploratory factor analysis; grouping observations with multidimensional scaling and cluster analysis; classification; R statistical software package and using Rstudio to create reports (RMarkdown and GGplot). Knowledge of linear algebra recommended. Graduation Restriction: Credit for only one of STAT 4070, STAT 4750, or STAT 5750 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 5760: Introduction to Spatial Data Analysis

(Dual-listed with STAT 4760).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 5870 and STAT 5880) or Permission of Instructor

The analysis of spatial data; geostatistical methods, mapping and spatial prediction; methods for areal data; models and methods for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Use of R and R packages for spatial data analysis. Graduation Restriction: Credit for only one of STAT 4060, STAT 4760, or STAT 5760 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs.

STAT 5770: Introduction to Categorical Data Analysis

(Dual-listed with STAT 4770).

Credits: 3. Contact Hours: Lecture 3.

Statistical methods for the analysis of categorical data: graphical summaries, estimation and inference for proportions, sample size determination, chi-square tests, measures of relative risk, odds and association, analysis of paired data and measures of agreement, logistic regression models, log-linear models. Graduation Restriction: Credit for only one of STAT 4570, STAT 4770, or STAT 5770 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 5780: Introduction to Stochastic Process Models

(Dual-listed with STAT 4780).

Credits: 3. Contact Hours: Lecture 3.

Prereq: STAT 5880

Probabilistic models in biological, engineering and the physical sciences. Markov chains; Poisson, birth-and-death, renewal, branching and queuing processes; applications to bioinformatics and other quantitative problems. Graduation Restriction: Credit for only one of STAT 4320, STAT 4780, or STAT 5780 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. Offered even number years. (Typically Offered: Fall)

STAT 5790: An Introduction to R

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or concurrent enrollment STAT 5000

An introduction to the logic of programming, numerical algorithms, and graphics. The R statistical programming environment will be used to demonstrate how data can be stored, manipulated, plotted, and analyzed using both built-in functions and user extensions. Concepts of modularization, looping, vectorization, conditional execution, and function construction will be emphasized. (Typically Offered: Fall)

STAT 5800: Statistical Computing

Credits: 3. Contact Hours: Lecture 3.

Introduction to scientific computing for statistics using C: Introduction to C for computing and memory efficiency; design of statistical algorithms; use of algorithms in modern libraries, parallel computing. Interfacing R with C. Building statistical libraries. Statistical computing: solving nonlinear equations; optimization; integration; simulation methods, inversion of probability integral transformations, rejection sampling, importance sampling. (Typically Offered: Spring)

STAT 5810: Analysis of Gene Expression Data for the Biological Sciences

Credits: 3. Contact Hours: Lecture 3.

Introduction to high-throughput technologies for gene expression studies (especially R-sequencing technology): the role of blocking, randomization, and biological and technical replication in the design of gene expression experiments; normalization methods; methods for identifying differentially expressed genes including mixed linear model analysis, generalized linear model analysis, generalized linear mixed model analysis, quasi-likelihood methods, empirical Bayes analysis, and resampling based approaches; procedures for controlling false discovery rate for multiple testing; clustering and classification problems for gene expression data; testing gene categories; emphasis on practical use of methods. Graduation Restriction: May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 4160 or STAT 5810, but not both, may be applied toward graduation. (Typically Offered: Spring)

STAT 5820: Regression for Social and Behavioral Research

(Dual-listed with STAT 4820).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; logistic, multinomial and Poisson regression. Graduation Restriction: Credit for only one of STAT 4040, STAT 4820, or STAT 5820 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall, Spring)

STAT 5830: Empirical Methods for the Computational Sciences

(Dual-listed with STAT 4830).

Credits: 3. Contact Hours: Lecture 3.

Statistical methods for research involving computers; exploratory data analysis; selected topics from analysis of designed experiments - analysis of variance, hypothesis testing, interaction among variables; linear regression, logistic regression, Poisson regression; parameter estimation, prediction, confidence regions, dimension reduction techniques, model diagnostics and sensitivity analysis; Markov chains and processes; simulation techniques and bootstrap methods; applications to computer science, bioinformatics, computer engineering - programs, models and systems as objects of empirical study; communicating results of empirical studies. Statistical software: R. Knowledge of linear algebra recommended. Graduation Restriction: Credit for only one of STAT 4300, STAT 4830, or STAT 5830 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 5840: Computer Processing of Scientific Data

(Dual-listed with STAT 4840).

Credits: 3. Contact Hours: Lecture 3.

Structure, content and programming aspects of modern statistical software packages. Advanced techniques for data management, graphics, exploratory data analysis, and generalized linear models. Graduation Restriction: Credit for only one of STAT 4790, STAT 4840, or STAT 5840 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Fall)

STAT 5850: Data Technologies for Statistical Analysis

Credits: 3. Contact Hours: Lecture 3.

Introduction to computational methods for data analysis. Accessing and managing data formats: flat files, databases, web technologies based on mark-up languages (SML, KML, HTML), netCDF. Elements of text processing: regular expressions for cleaning data. Working with massive data, handling missing data, scaled computing. Efficient programming, reproducible code. Offered even-numbered years. (Typically Offered: Spring)

STAT 5860: Introduction to Statistical Computing

(Dual-listed with STAT 4860).

Credits: 3. Contact Hours: Lecture 3.

Modern statistical computing. Topics may include: basic and advanced R programming; data management; spread sheets; verifying data accuracy; transferring data between software packages; data and graphical analysis with statistical software packages; algorithmic programming concepts and applications; simulation studies and resampling methods; software reliability; statistical modeling and machine learning. Graduation Restriction: Credit for only one of STAT 4800, STAT 4860, or STAT 5860 may be applied to graduation. May not be used for graduate credit in the Statistics MS and PhD degree programs. (Typically Offered: Spring)

STAT 5870: Statistical Methods for Research Workers

Credits: 4. Contact Hours: Lecture 3, Laboratory 2.

A first course in statistics for graduate students from the applied sciences. Principles of data analysis and scientific inference, including estimation, hypothesis testing, and the construction of interval estimates. Statistical concepts and models, including group comparison, blocking, and linear regression. Different sections are designed for students in various disciplines, and additional methods covered may depend on the target audience. Topics covered may include basic experimental designs and analysis of variance for those designs, analysis of categorical data, logistic and log-linear regression, likelihood-based inference, and the use of simulation. Equivalent to STAT 4010 in previous catalogs. Graduation Restriction: May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 4010 or STAT 5870, but not both, may be applied toward graduation. (Typically Offered: Fall, Spring, Summer)

STAT 5880: Statistical Theory for Research Workers

Credits: 4. Contact Hours: Lecture 4.

Provides an introduction to the theoretical basis of fundamental statistical methods for graduate students in the applied sciences. Probability and probability distributions, moments and moment generating functions, conditional expectation, and transformation of random variables. Estimation based on loss functions, maximum likelihood, and properties of estimators. Sampling distributions, exact and asymptotic results, and the development of intervals. Principles of Bayesian analysis, inference from posterior distributions, and optimal prediction. Uses simulation to verify and extend theoretical results. Equivalent to STAT 4470 in previous catalogs. Graduation Restriction: May not be used for graduate credit in the Statistics MS and PhD degree programs. Credit in STAT 4470 or STAT 5880, but not both, may be applied toward graduation. (Typically Offered: Fall, Spring, Summer)

STAT 5900A: Special Topics: Theory

Credits: 1-30. Repeatable.

STAT 5900B: Special Topics: Methods

Credits: 1-30. Repeatable.

STAT 5900C: Special Topics: Design of Experiments

Credits: 1-30. Repeatable.

STAT 5900D: Special Topics: Sample Surveys

Credits: 1-30. Repeatable.

STAT 5900E: Special Topics: Statistics Education

Credits: 1-30. Repeatable.

STAT 5900F: Special Topics: Statistical Computing and Graphics

Credits: 1-30. Repeatable.

STAT 5980: Cooperative Education

Credits: Required. Repeatable.

Off-campus work periods for graduate students in a field of statistics.

(Typically Offered: Fall, Spring, Summer)

STAT 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Offered on a satisfactory-fail basis only.

Courses for graduate students:**STAT 6010: Advanced Statistical Methods**

Credits: 3. Contact Hours: Lecture 3.

Methods of constructing complex models including adding parameters to existing structures, incorporating stochastic processes and latent variables. Use of modified likelihood functions; quasi-likelihoods; profiles; compositelikelihoods. Asymptotic normality as a basis of inference; Godambe information. Sample reuse; block bootstrap; resampling with dependence. Simulation for model assessment. Issues in Bayesian analysis. (Typically Offered: Spring)

STAT 6020: Modern Multivariate Statistical Learning

Credits: 3. Contact Hours: Lecture 3.

Statistical theory and methods for modern data mining and machine learning, inference, and prediction. Variance-bias trade-offs and choice of predictors; linear methods of prediction; basis expansions; smoothing, regularization, and reproducing kernel Hilbert spaces; kernel smoothing methods; neural networks and radial basis function networks; bootstrapping, model averaging, and stacking; linear and quadratic methods of classification; support vector machines; trees and random forests; boosting; prototype methods; unsupervised learning including clustering, principal components, and multi-dimensional scaling; kernel mechanics. Offered odd-numbered years. (Typically Offered: Spring)

STAT 6060: Advanced Spatial Statistics

Credits: 3. Contact Hours: Lecture 3.

Consideration of advanced topics in spatial statistics, including areas of recent development in modern spatial statistics. Topics may include spatial sampling design; spatial Markov random fields; non-Gaussian spatial models, including spatial generalized linear mixed effects model; spatial Bayesian hierarchical models, simulation of random fields; spatial-temporal process models; non-stationary process models; multivariate spatial process models; spectral methods for spatial data; computational methods for large spatial data, spatial models for stream networks. Use of R to analyze various real spatial data. Offered irregularly. (Typically Offered: Fall)

STAT 6110: Theory and Applications of Linear Models

Credits: 3. Contact Hours: Lecture 3.

Matrix preliminaries, estimability, theory of least squares and of best linear unbiased estimation, analysis of variance and covariance, distribution of quadratic forms, extension of theory to mixed and random effects models, restricted maximum likelihood estimation and inference for variance components. (Typically Offered: Fall)

STAT 6120: Advanced Design of Experiments

Credits: 3. Contact Hours: Lecture 3.

General theory of factorial experiments. Design optimality criteria, approximate design and general equivalence theory, computational approaches to constructing optimal designs for linear models, and extensions to nonlinear models. Advanced topics of current interest in the design of experiments, including one or more of: distance based design criteria and construction of spatial process models, screening design strategies for high-dimensional problems, and design problems associated with computational experiments. Offered irregularly. (Typically Offered: Spring)

STAT 6150: Advanced Bayesian Methods

Credits: 3. Contact Hours: Lecture 3.

Complex hierarchical and multilevel models, dynamic linear and generalized linear models, spatial models. Bayesian nonparametric methods. Specialized Markov chain Monte Carlo algorithms and practical approaches to increasing mixing and speed convergence. Summarizing posterior distributions, and issues in inference. Model assessment, model selection, and model averaging. Offered odd-numbered years. (Typically Offered: Fall)

STAT 6210: Advanced Theory of Survey Statistics

Credits: 3. Contact Hours: Lecture 3.

Advanced topics of current interest in the design of surveys and analysis of survey data, including: asymptotic theory for design and model-based estimators, use of auxiliary information in estimation, variance estimation techniques, small area estimation, non-response modeling and imputation. Offered irregularly. (Typically Offered: Fall)

STAT 6410: Foundations of Probability Theory

(Cross-listed with MATH 6410).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 4140 or MATH 5010 or Graduate Classification

Sequences and set theory; Lebesgue measure, measurable functions.

Absolute continuity of functions, integrability and the fundamental theorem of Lebesgue integration. General measure spaces, probability measure, extension theorem and construction of Lebesgue-Stieljes measures on Euclidean spaces. Measurable transformations and random variables, induced measures and probability distributions. General integration and expectation, L_p -spaces and integral inequalities. Uniform integrability and absolute continuity of measures. Probability densities and the Radon-Nikodym theorem. Product spaces and Fubini-Tonelli theorems. (Typically Offered: Fall)

STAT 6420: Advanced Probability Theory

(Cross-listed with MATH 6420).

Credits: 3. Contact Hours: Lecture 3.

Probability spaces and random variables. Kolmogorov's consistency theorem. Independence, Borel-Cantelli lemmas and Kolmogorov's 0 - 1 Law. Types and characterizations of convergence for random variables. Sums of independent random variables, empirical distributions, weak and strong laws of large numbers. Convergence in distribution and its formulations, tightness, characteristic functions, central limit theorems and Lindeberg-Feller conditions. Conditional probability and expectation, discrete parameter martingales. (Typically Offered: Spring)

STAT 6430: Advanced Theory of Statistical Inference

Credits: 3. Contact Hours: Lecture 3.

Foundational concepts for likelihood, including sufficiency, completeness, exponential families, statistical information. Elements of decision theory, risk management strategies, theoretical properties of decision rules.

Large-sample properties of maximum likelihood and Bayesian estimation, consistency, asymptotic normality, efficiency, likelihood ratios. Potential additional topics including M-estimation, U-statistics, nonparametric inference. (Typically Offered: Fall)

STAT 6440: Advanced Bayesian Theory

Credits: 3. Contact Hours: Lecture 3.

Exchangeability, parametric models, consistency and asymptotic normality of posterior distributions, posterior robustness, selection of priors using formal rules, improper priors and posterior propriety, Bayes factors, model selection, MCMC theory, irreducibility, Harris recurrence, regeneration, minorization and drift conditions, ergodicity, central limit theorems, Gibbs samplers, Metropolis Hastings samplers, techniques for speeding up convergence of certain MCMC algorithms. Offered even-numbered years. (Typically Offered: Fall)

STAT 6450: Advanced Stochastic Processes

(Cross-listed with MATH 6450).

Credits: 3. Contact Hours: Lecture 3.

Weak convergence. Random walks and Brownian motion. Martingales. Stochastic integration and Ito's Formula. Stochastic differential equations and applications. (Typically Offered: Spring)

STAT 6470: Advanced Multivariate Analysis

Credits: 3. Contact Hours: Lecture 3.

Classical and high dimensional multivariate methods and their theories; multivariate random vectors and their distributions (multivariate normal, elliptical contour distributions); dependence measures and copulas; Wishart distribution and distributions for quadratic form statistics; Hotelling's T square test and its derivation; high-dimensional inference for mean and covariance, concentration inequalities, random matrix theory, signal detection and identification. Offered even-numbered years. (Typically Offered: Fall)

STAT 6480: Seminar on Theory of Statistics and Probability

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Seminar topics change with each offering. Offered irregularly. (Typically Offered: Fall)

STAT 6510: Advanced Time Series

Credits: 3. Contact Hours: Lecture 3.

Estimation and distributional theory for time series, generalized estimating functions, M-estimation, frequency domain estimation. Limit theorems under time dependence, mixing, long-memory. Approximations of sampling distributions and standard errors for time series statistics, bootstrap, subsampling. Offered even-numbered years. (Typically Offered: Fall)

STAT 6800: Advanced Statistical Computing

Credits: 3. Contact Hours: Lecture 3.

Normal approximations to likelihoods. The delta-method and propagation of errors. Topics in the use of the E-M algorithm including; its use in the exponential family, computation of standard errors, acceleration. Resampling methods: brief theory and application of the jackknife and the bootstrap. Randomization tests. Stochastic simulation: Markov Chain, Monte Carlo, Gibbs' sampling, Hastings-Metropolis algorithms, critical slowing-down and remedies, auxiliary variables, simulated tempering, reversible-jump MCMC and multi-grid methods. Offered even-numbered years. (Typically Offered: Fall)

STAT 6900A: Advanced Special Topics: Theory

Credits: 1-30. Repeatable.

STAT 6900B: Advanced Special Topics: Methods

Credits: 1-30. Repeatable.

STAT 6900C: Advanced Special Topics: Design of Experiments

Credits: 1-30. Repeatable.

STAT 6900D: Advanced Special Topics: Sample Surveys

Credits: 1-30. Repeatable.

STAT 6900E: Advanced Special Topics: Statistical Computing

Credits: 1-30. Repeatable.

STAT 6900F: Advanced Special Topics: Graphics

Credits: 1-30. Repeatable.

STAT 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Supply Chain Management (SCM)

Courses primarily for undergraduates:

SCM 3010: Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: ECON 1010.

Introduction to a wide range of supply chain management (SCM) terminology, analytical tools, and theories as related to the supply chain operations reference model (SCOR). The SCOR model focuses on planning, sourcing, making, delivering, returning, and integrating key aspects within SCM. Using an analytical approach to solve real world problems, specific topics include: strategic sourcing, supply management, demand forecasting, inventory management, process management, logistics, process integration, and returns.

SCM 3030: Healthcare Quality Management

(Cross-listed with HCM 3030).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or enrollment in HCM 3010

Addresses the manager's role in improving healthcare quality and outcomes, including clinical and organizational improvement, and quality improvement practices. Explores how healthcare delivery systems can better measure outcomes from both patient and organizational perspectives. Analyzes quality improvement programs and examines their adaptability to the healthcare environment. (Typically Offered: Fall, Spring)

SCM 3400: Project Management

(Cross-listed with MIS 3400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or enrollment in MIS 3010

Equips students to support team activities in the general project management environment and better manage their careers. Practical experience using project management techniques and tools. Course topics include project initiation and execution, risk assessment, estimating and contracts, planning, human factors, and standard methods.

SCM 4240: Process Management, Analysis, and Improvement

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

The design, analysis, and management of production processes to improve performance. Performance measures and their relationships; process design and evaluation; and managerial levers for improving and controlling process performance.

SCM 4280: Special Topics in Operations Management

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: SCM 3010

In-depth analysis of current issues, problems, and systems in operations management with emphasis on new theoretical and methodological developments. Topics may include in different semesters, supply chain management, productivity and quality improvement, management of technology and innovation, information technology in operations management, quick response manufacturing, and service operations management.

SCM 4300: Supply Chain Analytics

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Introduces key methods and tools (i.e., analytics) applied to decision making in supply chain practice. Use of data, statistical and quantitative analysis, explanatory and predictive models, and fact-based management to drive decisions and actions. Descriptive, prescriptive or predictive use activities. Use of software (e.g., R and AnyLogic) to learn key concepts and techniques in analytics and apply those concepts to examples of supply chain decision making. Offered irregularly. (Typically Offered: Spring)

SCM 4340X: Implementing Process Improvement

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: SCM 4240

Provides hands-on opportunity to practice process improvement drawing on the most frequently used tools from Six Sigma and Lean. Students apply tool in local firms and use them in a final project. Emphasis on the practical application of Six Sigma and Lean techniques. (Typically Offered: Fall, Spring)

SCM 4400: Supply Chain Information Systems

(Cross-listed with MIS 4400).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MIS 3010, SCM 3010

Internal and inter-organizational information systems necessary for a supply chain to achieve competitive advantage. Topics include: design, development, implementation, and maintenance of supply chain information systems; enterprise resource planning; advanced planning and scheduling, manufacturing execution systems; and the interface between manufacturing planning and control processes, logistics processes, and the information system.

SCM 4500: Enterprise Resource Planning Systems in Supply Chain

(Cross-listed with MIS 4500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (MIS 3010 and SCM 3010) or (IE 1480 and IE 3410)

Enterprise Resource Planning Systems in Supply Chain.

SCM 4530: Supply Chain Planning and Control

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Supply chain planning and control is the process which synchronizes demand with manufacturing and distribution. This course will cover sales and operations planning with emphasis on forecasting, master scheduling, materials requirements planning, inventory management and demand planning. Linking business plans and information systems for integration and distribution channels are also covered. (Typically Offered: Fall)

SCM 4600: Decision Tools for Logistics and Operations Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Technical tools and skills required for problem solving and decision making in logistics and operations management. Transportation and network planning, inventory decision making, facility location planning, vehicle routing, scheduling, and production planning. Quantitative tools include linear and integer programming, non-linear programming, and simulation. Emphasis on the use of PC-based spreadsheet programs.

SCM 4610: Principles of Transportation

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Economic, operating, and service characteristics of the various modes of transportation, with a special emphasis on freight transportation. Factors that influence transport demand, costs, market structures, carrier pricing, and carrier operating and service characteristics and their influence on other supply chain costs and supply chain performance.

SCM 4620: Transportation Carrier Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: Credit or enrollment in SCM 4610

Analysis of transport users' requirements. Carrier management problems involving ownership and mergers, routes, competition, labor, and other decision areas.

SCM 4660: Global Trade Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

The global nature of a supply chain causes many sustainability issues. This course will consider how supply chain design and execution affect sustainability. Some discussion of governmental policy will be included. Offered irregularly. (Typically Offered: Fall, Spring)

SCM 4710: Sustainable Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

The global nature of a supply chain causes many sustainability issues. This course will consider how supply chain design and execution affect sustainability. Some discussion of governmental policy will be included. Offered irregularly. (Typically Offered: Fall, Spring)

SCM 4730: War and Peace and Supply Chains

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Explore how supply chains do or do not support sustainable peace and human flourishing. Topics include how supply chain operations affect peace; how supply chains can be incentivized to encourage peace; how supply chain choices affect peace and what affects these choices; how supply chain certifications affect peace; tools available to supply chain managers to evaluate their decisions with regard to peace; and what business or supply chain models encourage peace.

SCM 4860: Principles of Purchasing and Supply Management

Credits: 3. Contact Hours: Lecture 3.

Prereq: SCM 3010

Sourcing strategies, concepts, tools and dynamics in the context of the integrated supply chain. Make or buy decision, supplier evaluation and selection, global sourcing, the total cost of ownership, contracts and legal terms, negotiation, purchasing ethics, and information systems requirements.

SCM 4900: Independent Study

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

SCM 4910: International Live Case and Study Tour

Credits: 3. Contact Hours: Lecture 1.

Prereq: SCM 3010

Students follow supply chain of major firm from overseas manufacturer to domestic point-of-sale. Students are expected to complete projects and present findings to senior leadership. (Typically Offered: Spring)

SCM 4950: Executive Analysis and Presentations

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: SCM 3010

Students explore different practical scenarios related supply chain projects and cases. Students acquire necessary skills and knowledge to solve practical issues associated with presented cases and problems. Students compete at different venues around the country. Graduation Restriction: Only 3 credits of SCM 4950 may count as a Supply Chain Management major choice elective. (Typically Offered: Fall, Spring)

Courses primarily for graduate students, open to qualified undergraduates:

SCM 5010: Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

Introduction to supply chain management including aspects of operations, logistics and global supply chain strategy development. Topic areas include lean manufacturing and value stream mapping; supplier development and measurement; sustainable supply chain operations; process measurement, management and improvement; supply chain risk and uncertainty; visibility and integration in the supply chain; and inventory control.

SCM 5030: Healthcare Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

Healthcare supply chain management presents unique challenges for administrators and providers. Exploration of common supply chain management topics in a healthcare context including purchasing, operations, and logistics. Specific topics include operations in a highly regulated environment, professional services outsourcing, clinical integration via information technologies, service process design, capacity management, and quality and process improvement in a healthcare setting. (Typically Offered: Fall)

SCM 5130: Biorenewables Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

Evaluation of supply chain logistics related to the field of biorenewables. Unique challenges associated with the biorenewables supply chain are emphasized and examined: cost analysis, market demand & prices, life cycle analysis, environmental impacts, as well as the technological, social, and political factors related to society. (Typically Offered: Spring)

SCM 5200: Decision Models for Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

The application of decision models for supply chain management. Topics include business applications of decision theory, inventory theory, business forecasting, optimization models, transportation and network models, routing problems, and project management.

SCM 5240: Strategic Process Analysis and Improvement

Credits: 3. Contact Hours: Lecture 3.

Analysis, management, and improvement of the business processes used to produce and deliver products and services that satisfy customer needs. Process attributes that managers can control to influence the key operational performance measures of throughput time, inventory, cost, quality, and flexibility are discussed. Topics such as theory of constraints, lean production, and six sigma are included.

SCM 5260X: Lean Operations in Healthcare

Credits: 3. Contact Hours: Lecture 3.

Now more than ever, the healthcare industry is committed to providing better but cheaper care services, often characterized by increasing efficiency and reducing costs. Toward that goal, the identification and elimination of waste in health care delivery processes are necessary. Lean could be the answer. The course educates on the Lean tools and techniques, enabling the students to look for ways to heal health care from within. The course aims to combine rigor with relevance that prepares practitioners to identify waste in their health care delivery processes and then fabricate processes to reduce or eliminate that waste. Lean methodology has already helped health care organizations to realize many benefits, including reduced patient wait times, shorter hospital stays, decreased risk of medication errors, less inventory, and more patient-focused processes.

SCM 5300X: Applied Supply Chain Analytics

Credits: 3. Contact Hours: Lecture 3.

Supply chain analytics course showcasing real life applications of analytics (prescriptive, predictive, and descriptive) in various fields of supply chain management, including demand forecasting for supply chain planning, multi-echelon inventory management, and capacity planning for service and manufacturing operations. Students will be using various free software, such as R and AnyLogic, to learn key concepts and techniques in analytics. These learnt skills will then be applied to examples of supply chain decision making. (Typically Offered: Fall)

SCM 5400: Enterprise Supply Chain Information Systems

Credits: 3. Contact Hours: Lecture 3.

The purpose of this course is to examine the role of enterprise resource planning systems (ERP) in the supply chain. This course will provide students with hands-on experience with a major software application in use by many corporations to manage and improve the efficiency of their supply chain. In particular, this class will utilize an ERP system to help students develop a more process-centric perspective about how a supply chain operates. Students will have the opportunity to use the SAP ERP software package on key processes that most ERP systems utilize (i.e., purchasing, MRP, forecasting, order fulfillment and pricing). The course is also dedicated to understanding the tactical and operational management of supply chains. This course will discuss issues related to the creation of end-user value through supply chain cost reductions, service improvements, or both.

SCM 5530: Supply Chain Planning and Control

Credits: 3. Contact Hours: Lecture 3.

Supply chain planning and control is the process which synchronizes demand with manufacturing and distribution. Sales and operations planning with emphasis on forecasting, master scheduling, materials requirements planning, inventory management and demand planning. Linking business plans and information systems for integration and distribution channels are also covered. Emphasis on the strategic advantages of linking business plans and demand forecasts. Offered irregularly. (Typically Offered: Fall, Spring)

SCM 5600: Strategic Logistics Management

Credits: 3. Contact Hours: Lecture 3.

Positions logistics vis-a-vis supply chain management (SCM). Presents different perspectives on SCM vs. logistics. Describes primary logistics functions: transportation, warehousing, facility location, customer service, order processing, inventory management and packaging. Benefits of and obstacles to the integration of these functions.

SCM 5610: Transportation Management and Policy

Credits: 3. Contact Hours: Lecture 3.

Analysis of contemporary issues and strategies in transportation management and policy. Emphasis on evaluation of the impacts of transportation policies, new technologies, and strategic carrier and shipper management practices on the freight transportation industry and logistics systems.

SCM 5630: Purchasing and Supply Management

Credits: 3. Contact Hours: Lecture 3.

Mechanics, procedures and tools used in purchasing. Recruiting, selecting, developing and managing supply chain partners in order to achieve competitive advantage via superior supply chain management. Factors and information needs for making supply management decisions.

SCM 5660X: Global Trade Management

Credits: 3. Contact Hours: Lecture 3.

Evaluation of the physical, informational, and behavioral flows involved in global trade. The analysis of international logistics as a vital part of the supply chain includes the study of the environment, structure, and management of international logistics systems and their application to channel management. Instruction will be delivered using online resources and assessments along with in-class lectures and activities.

SCM 5710X: Sustainable Supply Chain Management

Credits: 3. Contact Hours: Lecture 3.

The global nature of a supply chain causes many sustainability issues. This course will consider how supply chain design and execution affect sustainability. Some discussion of governmental policy will be included. (Typically Offered: Fall)

SCM 5900: Special Topics

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

For students who wish to do individual research in a particular area of supply chain management.

Courses for graduate students:**SCM 6010: Theoretical Foundations of Supply Chain Management**

Credits: 3. Contact Hours: Lecture 3.

Prereq: MGMT 6010 or Permission of Instructor

An overview of the development of supply chain management (SCM) theory, including review of seminal articles in logistics, operations, and purchasing management and theories from allied disciplines (e.g., economics, marketing, sociology, strategic management). Analysis of trends in SCM research topics and methodologies. Identification of emerging and future areas for research and theory development.

SCM 6030: Seminar in Purchasing

Credits: 3. Contact Hours: Lecture 3.

Review of classic purchasing theories. Discussion of contemporary supply management strategy; the role of supply management and its relationship with other functional areas; its impact on logistics and transportation issues; management of supply uncertainties.

SCM 6040: Seminar in Logistics Management

Credits: 3. Contact Hours: Lecture 3.

Integration of network, economic, and systems theory in the design, management, and control of logistics systems in the context of integrated supply chain management. Functional areas addressed include transportation, inventory order fulfillment, distribution, and warehousing. Facility location analysis will also be covered.

SCM 6050: Seminar in Operations Management

Credits: 3. Contact Hours: Lecture 3.

Review of the research literature on methods of organizing, planning, controlling, and improving manufacturing systems to achieve the desired performance objectives related to cost, quality, speed, and flexibility. The relationship between the performance of the manufacturing system and the performance of the supply chain system will also be discussed.

SCM 6090: Special Topics in SCM

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Review of current issues in SCM. Provides opportunities to read and discuss research articles that made important contributions in SCM literature. Offered irregularly. (Typically Offered: Fall, Spring)

SCM 6500: Research Practicum I

Credits: 1.

Prereq: Enrollment in Ph.D. program

Preparation of a research manuscript to be submitted to a peer-reviewed academic journal. Students will work with a faculty mentor on a research project.

SCM 6510: Research Practicum II

Credits: 1.

Prereq: Enrollment in Ph.D. program

Preparation of a second research manuscript to be submitted to a peer-reviewed academic journal. Although students work under the supervision of a faculty mentor, the students will take independent responsibility for the research project.

SCM 6990: Dissertation

Credits: 12. Repeatable.

Research.

Sustainable Agriculture (SUSAG)

Courses primarily for graduate students, open to qualified undergraduates:

SUSAG 5090: Agroecosystems Analysis

(Cross-listed with AGRON 5090/ SOC 5090).

Credits: 4. Contact Hours: Lecture 3, Laboratory 4.

Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing both field visits and classroom activities.

Focus on understanding multiple elements, perspectives (agronomic, economic, ecological, social, etc.), and scales of operation. (Typically Offered: Fall)

SUSAG 5150: Integrated Crop and Livestock Production Systems

(Cross-listed with ABE 5150/ AGRON 5150/ ANS 5150).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SUSAG 5090 or Graduate Classification

Methods to maintain productivity and minimize the negative ecological effects of agricultural systems by understanding nutrient cycles, managing manure and crop residue, and utilizing multispecies interactions. Crop and livestock production within landscapes and watersheds is also considered. Course includes a significant field component, with student teams analyzing Iowa farms. Offered odd-numbered years. (Typically Offered: Fall)

SUSAG 5300: Ecologically Based Pest Management Strategies

(Cross-listed with AGRON 5300/ ENT 5300/ PLP 5300).

Credits: 3. Contact Hours: Lecture 3.

Durable, least-toxic strategies for managing weeds, pathogens, and insect pests, with emphasis on underlying ecological processes. Offered even-numbered years. (Typically Offered: Fall)

SUSAG 5440: Sociology of Food and Agricultural Systems

(Dual-listed with SOC 4440). (Cross-listed with SOC 5440).

Credits: 3. Contact Hours: Lecture 3.

Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

SUSAG 5460: Strategies for Diversified Food and Farming Systems

(Cross-listed with AGRON 5460/ HORT 5460).

Credits: 3. Contact Hours: Lecture 3.

Project-focused engagement in food and farming systems using tools and perspectives drawn from multiple disciplines. Includes a field component. Offered odd-numbered years. (Typically Offered: Spring)

SUSAG 5490: Sociology of the Environment

(Cross-listed with SOC 5490).

Credits: 3. Contact Hours: Lecture 3.

Social causes and social consequences of environmental problems.
Interrelationship between social inequality and environmental inequality.
Social construction and social experience of the environment.
Contemporary developments in the social theory of the environment.
International and domestic implications.

SUSAG 5710: Agroforestry Systems

(Dual-listed with NREM 4710/ SUSAG 4710). (Cross-listed with NREM 5710).

Credits: 3. Contact Hours: Lecture 3.

Concepts of sustainable land use, agroecological dynamics, and component interactions of agroforestry systems. Agroforestry systems in temperate and tropical regions. Design and evaluation techniques for agroforestry systems. Ecological, socioeconomic and political aspects of agroforestry. Offered even-numbered years. Meets International Perspectives Requirement. (Typically Offered: Spring)

SUSAG 5840: Organic Agricultural Theory and Practice

(Dual-listed with AGRON 4840/ HORT 4840/ SUSAG 4840). (Cross-listed with HORT 5840/ AGRON 5840).

Credits: 3. Contact Hours: Lecture 3.

Understanding of the historical origins and ecological theories underpinning the practices involved in organic agriculture.
Interdisciplinary examination of crop and livestock production and socioeconomic processes and policies in organic agriculture from researcher and producer perspectives. Offered odd-numbered years. (Typically Offered: Spring)

SUSAG 5900: Special Topics

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

For students wishing to conduct in-depth study of a particular topic in sustainable agriculture. (Typically Offered: Fall, Spring, Summer)

SUSAG 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Pre-enrollment contract required. For MS students pursuing the non-thesis degree option. Final product is a creative component. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**SUSAG 6000: Sustainable Agriculture Colloquium**

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Weekly seminar for graduate students in the Sustainable Agriculture program. (Typically Offered: Fall, Spring)

SUSAG 6100: Foundations of Sustainable Agriculture

(Cross-listed with ABE 6100/ AGRON 6100/ ANTHR 6100/ SOC 6100).

Credits: 3. Contact Hours: Lecture 3.

Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging agricultural systems in terms of the core concepts of sustainability and their theoretical contexts. (Typically Offered: Fall)

SUSAG 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

MS and PhD thesis and dissertation research. (Typically Offered: Fall, Spring, Summer)

Sustainable Environments (SUSE)

Courses primarily for graduate students, open to qualified undergraduates:

SUSE 5010: Sustainable Design in Communities

Credits: 5. Contact Hours: Lecture 2, Studio 6.

Exploring the challenges faced in implementing social, environmental, and economic sustainable solutions, this studio engages students in an interdisciplinary, team-oriented, and project-based learning environment through engagement with a Central Iowa community.

SUSE 5020: Sustainable Design Capstone Studio

Credits: 6. Contact Hours: Studio 12.

This advanced studio provides a community-based context for an interdisciplinary design team to work on a variety of self-directed, applied design research and intervention projects at multiple scales. Students utilize a common theoretical framework to organize their research and inform their interventions. Field trips.

SUSE 5110: Sustainable Design Colloquium I

Credits: 3. Contact Hours: Lecture 3.

Study and discuss practices of sustainable design and design research. Investigate responsibilities, roles, technologies and methods for studying and advancing the art and science of designing sustainable environments.

SUSE 5120: Sustainable Design Seminar

Credits: 1. Contact Hours: Lecture 1.

Students begin design research in sustainability issues by learning how to build a network of professional and academic contacts related to their individual research topics. Assignments include developing and engaging in an immersion experience related to their research.

SUSE 5130: Sustainable Design Research Writing

Credits: 3. Contact Hours: Lecture 3.

Students develop a comprehensive and conclusive research manuscript for submission to a conference or journal in their discipline. SUSE student manuscripts detail their capstone projects. Non-majors compose papers detailing completed research projects in their own discipline.

SUSE 5210: Foundation of Sustainable Design

Credits: 3. Contact Hours: Lecture 3.

Introduction to the broad frameworks and tools for implementing sustainability among a variety of environments, industries, and enterprises. Investigates the role and opportunity for sustainable design strategies.

SUSE 5310: Human Dimensions of Sustainability

Credits: 3. Contact Hours: Lecture 3.

This interdisciplinary seminar uses applied research with communities to ground students in the issues and conditions impacting social and economic sustainability. Students develop a broad understanding of community sustainability through weekly readings, discussions, and small made objects. Topics of focus include university-community partnerships, participatory design, and social constructions of sustainability.

SUSE 5400: Methods for Sustainable Design

Credits: 3. Contact Hours: Lecture 3.

Overview of qualitative, quantitative and design research methods. In-depth application of methods relevant to capstone project proposal development (SUSE 5020). Proposal must address research questions, articulation of research methods and preliminary findings grounded within contemporary theoretical discourse on Sustainable Environments. (Typically Offered: Spring)

SUSE 5500: Making Resilient Environments

(Cross-listed with CRP 5500).

Credits: 3. Contact Hours: Lecture 2.

Major theories and ideas revolving around the concept of resilience. Assessing the social and political processes associated with policy making for resilience. Application of the concept of resilience in order to understand and evaluate environments. Evaluate the different approaches toward resilience and develop an understanding of the relationship between sustainability and resilience. Case studies of communities that proactively prepare for, absorb, recover from, and adapt to actual or potential future adverse events. (Typically Offered: Spring)

Technology Systems Management (TSM)

Courses primarily for undergraduates:

TSM 1100: Introduction to Technology

Credits: 1. Contact Hours: Lecture 1.

Prereq: Agricultural Systems Technology or Industrial Technology major

Team-oriented introduction to agricultural systems technology and industrial technology. Internships, careers, competencies, academic success strategies, transition to academic life. (Typically Offered: Fall)

TSM 1110: Experiencing Technology

Credits: 1. Contact Hours: Lecture 1.

Prereq: Agricultural Systems Technology or Industrial Technology major

Team-oriented experiences in a spectrum of topics common to the practice of technology. Internships, faculty and alumni panels, industry visits, and lab demonstrations. (Typically Offered: Fall, Spring)

TSM 1150: Solving Technology Problems

Credits: 3.

Prereq: Credit or enrollment for credit in MATH 1400 or higher

Solving technology problems using modern hardware and software tools for data-driven solutions. Problem solving cycle, unit conversion, unit factor method, SI and engineering units, significant figures, data collecting and cleaning, error analysis, data visualization, curve fitting, and computer coding fundamentals (data types, flow control, I/O handling, visualization, debugging). Strong emphasis on critical thinking, systematic problem solving, and effective communication. (Typically Offered: Fall, Spring)

TSM 1160: Introduction to Design in Technology

Credits: 3.

Use of parametric solid modeling software to create three dimensional solid models and document parts and assemblies. Includes national and international standards for documentation, design projects, and teamwork. Rapid prototyping design creation, 3D printing, assemblies, rendering, and detailing technical drawings. (Typically Offered: Fall, Spring)

TSM 2010: Preparing for Workplace Seminar

(Cross-listed with ABE 2010).

Credits: 1. Contact Hours: Lecture 1.

Prereq: Major in AE, AST, BSE, or ITEC; Sophomore classification

8 week course. Professionalism in the context of the engineering/technical workplace. Development of intrapersonal and interpersonal qualities including talent assessment; key workplace competency demonstration; leadership practice assessment; preparation of resume; cover letter preparation and behavioral-based interviewing; readiness for internship attainment. (Typically Offered: Fall, Spring)

TSM 2100: Fundamentals of Technology

Credits: 3. Contact Hours: Lecture 3.

Prereq: (TSM 1150, ENGR 1600, ABE 1600, AER E 1600, CE 1600, CHE 1600, CPRE 1850, EE 1850, IE 1480, ME 1600, or SE 1850); MATH 1400 or higher

Introduction to problem solving related to fundamental agricultural and/or industrial technology systems and mathematical tools needed for data analysis. Basic laws of energy, force, and mass applied to technology systems such as: mechanical power transmission; heating, ventilation and air conditioning; electrical circuits. Introduction to engineering economics: using the time value of money to make economic decisions. (Typically Offered: Fall, Spring)

TSM 2140: Managing Technology Projects

Credits: 1. Contact Hours: Lecture 2.

Prereq: (ABE 2010 or TSM 2010); Sophomore classification

8 week course. Introduction to project management principles. Use of project management in technology-based projects for academic, industry, and personal use. (Typically Offered: Fall, Spring)

TSM 2160: Advanced Technical Graphics, Interpretation, and CAD

Credits: 2.

Prereq: TSM 1160

Advanced computer-aided-design topics incorporating 3D design and documentation used in manufacturing settings. Topics include: geometric dimensioning and tolerancing, weldments, sheet metal parts, advanced visualization, feature based design of parts and assemblies. (Typically Offered: Fall, Spring)

TSM 2400: Introduction to Advanced Manufacturing and Metals Processing

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: MATH 1450 or higher.

A study of selected materials, properties, and related processes used in metals manufacturing including: CNC lathes, Aluminum die casting, and welding. Introduction to engineering economic tools and their use in financial decision making. Lecture and laboratory activities focus on metals manufacturing processes. (Typically Offered: Fall, Spring)

TSM 2410: Introduction to Manufacturing Processes for Plastics

(Cross-listed with FSHN 2410).

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Prereq: MATH 1450 or higher.

A study of selected materials and related processes used in plastics manufacturing. Lecture and laboratory activities focus on materials, properties, and processes. (Typically Offered: Fall, Spring)

TSM 2700: Principles of Injury Prevention and Safety

Credits: 3. Contact Hours: Lecture 3.

Basic foundations of injury causation and prevention from a personal perspective in home, motor vehicle, and the public environment, and a management perspective within the work environment. Offered online only. (Typically Offered: Fall, Spring)

TSM 3100: Total Quality Improvement

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 1010 or STAT 1040); Junior classification

Introduction to the fundamental concepts of TQM - Deming style of management, statistical studies to understand the behavior of products, processes, or services, and how to define and document processes and customer focus. Introduction to continuous improvement tools and methods - emphasis on critical thinking and problem solving skills. (Typically Offered: Fall, Spring)

TSM 3220: Preservation of Grain Quality

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1400 or Higher

Principles and management for grain quality preservation: quality measurement; drying and storage; fans and airflow through grain; handling methods; insect pest control; and grain quality monitoring. (Typically Offered: Spring)

TSM 3220L: Preservation of Grain Quality Laboratory

Credits: 1. Contact Hours: Laboratory 3.

Prereq: Credit or enrollment for credit in TSM 3220

Hands-on experiences in the principles and management for grain quality preservation: Quality measurement; drying and storage; fans and airflow through grain; handling methods; system planning; insect pest control; grain quality monitoring. Industry tour. (Typically Offered: Spring)

TSM 3240: Soil and Water Conservation Management

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: MATH 1400 or higher.

Introduction to engineering and conservation principles applied to the planning of erosion control systems, water control structures, water quality management, and drainage and irrigation systems. (Typically Offered: Spring)

TSM 3250: Biorenewable Systems

(Cross-listed with ABE 3250).

Credits: 3. Contact Hours: Lecture 3.

Prereq: CHEM 1630 or higher; MATH 1400 or higher

Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics. (Typically Offered: Fall)

TSM 3270: Livestock and Poultry Production: Facilities, Technology, and Management

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: TSM 2100 or (credit or concurrent enrollment in ABE 2160)

Systems-based planning and assessment of confined livestock facilities. Housing evaluation, planning, and management of ventilation, water, and feed systems. Principles of nutrient management planning, manure handling/storage design. Evaluating animal responses to their environment with traditional metrics and precision livestock technologies to enhance welfare and production. Species-specific assessment of production economics, environmental impact, and sustainability. (Typically Offered: Fall)

TSM 3300: Agricultural Machinery and Power Management

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: MATH 1450 or higher; TSM 2100

Selection, sizing, and operational principles of tractors and machinery systems. Cost analysis and computer techniques applied to planning and management of agricultural machine systems. Principles, operation, and application of agricultural machinery. (Typically Offered: Spring)

TSM 3350: Tractor Power

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Prereq: MATH 1450 or higher; TSM 2100

Theory and construction of tractor engines, mechanical power trains and hydraulic systems. Introduction to traction, chassis mechanics, and hydraulic power. (Typically Offered: Fall)

TSM 3370: Fluid Power Systems Technology

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: TSM 2100

Fundamental fluid power principles, symbols and schematics. Function and performance of components such as pumps, valves, actuators, and hydro static transmissions. Analysis of fluid power circuits and systems. Introduction to electrohydraulics. Hands on laboratory experiences building and troubleshooting hydraulic circuits. (Typically Offered: Fall, Spring)

TSM 3400: Advanced Automated Manufacturing Processes

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: MATH 1510 or higher; TSM 2100; TSM 2160; TSM 2400

NC programming operations and machining practices for CNC mills and lathes. Transfer of part descriptions into detailed process plans, tool selection, and NC codes. Use of CAD/CAM for automated NC programming in 2D/3D machining operations of student designed parts. (Typically Offered: Fall, Spring)

TSM 3630: Electrical Power and Control Systems for Agriculture and Industry

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Prereq: MATH 1450 or higher; TSM 2100

Fundamental electrical theory and application, code requirements, and safety considerations. Single-phase, split-phase, and three-phase circuit design, analysis, and safety considerations; electric motor performance and selection; reactive power and correction; safety devices and circuits; transformer selection and configuration; industrial and motor controls; conductor characteristics, selection and safety; system troubleshooting; and schematic development and analysis. Emphasis on agricultural and industrial applications. (Typically Offered: Fall, Spring)

TSM 3700: Occupational Safety

Credits: 3. Contact Hours: Lecture 3.

Prereq: TSM 2700; Junior classification

Identifies safety and health risks in industrial work environments. Focus on how managers and supervisors meet their responsibilities for providing a safe workplace for their employees. Includes the identification and remediation of workplace hazards. (Typically Offered: Fall, Spring)

TSM 3710: Occupational Safety Management

Credits: 2. Contact Hours: Lecture 2.

Introduction to occupational safety and health administration and management. Focus on development and management of safety programs and obtaining employee involvement in occupational safety programs. (Typically Offered: Spring)

TSM 3720: Legal Aspects of Occupational Safety and Health

Credits: 2. Contact Hours: Lecture 2.

Prereq: TSM 3710

A review of the common legal issues facing safety practitioners in the workplace. Includes OSHA, EPA and DOT regulations; workers' compensation, as well as common liability issues. (Typically Offered: Fall)

TSM 3760: Fire Protection and Prevention

Credits: 3. Contact Hours: Lecture 3.

An overview of the current problems and technology in the fields of fire protection and fire prevention, with emphasis on industrial needs, focusing on the individual with industrial safety responsibilities. (Typically Offered: Fall)

TSM 3800: Fundamentals, Applications, and Modeling of Biological Systems

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: BIOL 2120; MICRO 2010

Analysis of biological systems, through the study of mass, energy, and information transport in microbial, plant, animal, and human systems. Fundamentals, applications and modeling of biological processes, ecological interactions, and biomanufacturing operations.

TSM 3930A: Topics in Technology: Agriculture and Biosystems Management

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930B: Topics in Technology: Machine Systems

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930C: Topics in Technology: Manufacturing

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930D: Topics in Technology: Occupational Safety

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930E: Topics in Technology: Chemical Application Systems

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930F: Topics in Technology: Agricultural Safety and Health

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930G: Topics in Technology: Electronic Integration for Agriculture and Production Systems

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930I: Topics in Technology: Irrigation Systems Management

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3930J: Topics in Technology: Machinery Management Using Precision Agriculture Technology

Credits: 1-4. Contact Hours: Lecture 4.

Offered as demand warrants. Web-based instruction. (Typically Offered: Fall, Spring, Summer)

TSM 3970: Summer Internship in Technology

Credits: Required. Repeatable.

Prereq: Sophomore or higher classification; AST or ITEC major; Permission of Instructor

A supervised summer work experience in an approved learning setting with application to technology practices and principles. Written reports, self and employer evaluation, and reflection required. Minimum GPA requirement. (Typically Offered: Summer)

TSM 3990: Internship in Technology

Credits: Required. Repeatable.

Prereq: TSM 3970; Internship Coordinator Permission

A supervised work experience that occurs during the fall or spring semester in an approved learning setting with application to technology practices and principles. Reporting during work experience, self and employer evaluation, and reflection required. Minimum GPA requirement. (Typically Offered: Fall, Spring)

TSM 4150: Applied Project Management in Technology

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Prereq: Senior classification; TSM 2140; credit or concurrent enrollment in TSM 3100

Implementation of project management principles using case studies and teamwork; problem definition in a technology context; oral and written communication skills development; development of a charter for a technology capstone project. (Typically Offered: Fall, Spring)

TSM 4160: Technology Capstone

Credits: 3. Contact Hours: Lecture 1, Laboratory 4.

Prereq: TSM 4150

Application of project management tools to a technology capstone project; development and evaluation of potential solutions using tools from the technology curriculum; problem resolution emphasizing communication, critical analysis, and planning techniques; presentation of project through oral presentation and written reports with input from client, faculty, and other stakeholders. (Typically Offered: Fall, Spring)

TSM 4330: Precision Agriculture

(Dual-listed with TSM 5330).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: Junior classification

Geographic information systems (GIS) and global positioning systems (GPS). Hardware systems for precision farming emphasized. Autosteering and automatic implement control systems. Collection and management of yield data. Sampling strategies for precision farming. Introduction to building fertilizer prescriptions and recommendations. Economic benefits of precision farming systems. (Typically Offered: Fall)

TSM 4400: Cellular Lean Manufacturing Systems

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: TSM 3100

Introduction to lean manufacturing tools and principles, which may include Just-In-Time (JIT), Value Stream Mapping (VSM), Kaizen, Single Minute Exchange of Die (SMED), 5S, Total Productive Maintenance, Standardized Work, Takt Time, and A3. Emphasis on minimizing waste and improving operational performance through tools such as Assembly Line Balancing, Little's Law, and Queuing Theory. Competency development through application using discrete event simulations, case studies, teamwork, industry-related lean projects, and industry guests. (Typically Offered: Fall, Spring)

TSM 4430: Statics and Strength of Materials for Technology

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: PHYS 1310 or above; MATH 1450 or higher

Application of standard analytic and computer based techniques of solving problems related to force and moments. The properties of materials and how to select appropriate materials for a particular design are reviewed. (Typically Offered: Fall, Spring)

TSM 4440: Facility Planning

Credits: 3. Contact Hours: Lecture 3.

Prereq: (STAT 1010 or STAT 1040); TSM 2160; TSM 2400

Fundamental principles and practices in designing, evaluating, and organizing new or existing facilities. Emphasis on AutoCAD-based facility design and production flow analysis, activity relationship analysis, lighting analysis, time studies, materials handling, supporting services design, and optimal facility location analysis. (Typically Offered: Fall, Spring)

TSM 4490: Applied Nondestructive Testing and Evaluation.

(Dual-listed with TSM 5490).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: PHYS 1310 or above; MATH 1450 or higher

Scientific principles and rationale for non-destructive testing and evaluation. Assessment of material condition and detection of defects in manufacturing or inservice. Testing methods and their application to agriculture and industry. Research project required for graduate credit. (Typically Offered: Fall)

TSM 4550: Feed Processing and Technology

(Dual-listed with TSM 5550).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: Junior classification

Introduction to formula feed manufacturing and the animal feed industry. Overview of feed ingredients and formulation, understanding and operation of feed production processing equipment including principles of conveying, grinding, mixing, conditioning, pelleting, and other processing techniques, and the formulation of concentrates, premixes, and rations. Students will become knowledgeable about the manufacturing of various animal feed types such as pelleted and extruded feed, aqua (fish) feed, liquid feeds, poured and pressed blocks, steam flaked feed, and pet food, and their effect on animal performance and health. Students will gain hands-on experience in feed manufacturing during weekly lab sessions at a full-scale university owned feed mill and grain science complex. (Typically Offered: Fall)

TSM 4570: Feed Safety, Ingredient Quality and Analytics

(Dual-listed with TSM 5570).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: Junior classification

Concepts of feed and grain safety and quality, including hazards and risks associated with common feeds and feed ingredients. Methods to monitor, manage, and mitigate hazards and risks in the context of feed and grain industries. Government regulations applicable to feed and grain safety. Differences between safety and quality factors, how they are measured and then used for decision-making (marketing, processing, or safe-use). (Typically Offered: Spring)

TSM 4650: Automation Systems

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Prereq: TSM 3630

Theory and applications of automation systems. Emphasizes features, capabilities, design and programming skills of Programmable Logic Controller (PLC) based industrial control systems. Introduction to industrial robots and sensors. (Typically Offered: Fall, Spring)

TSM 4700: Industrial Hygiene: Physical, Chemical, and Biological Hazards

(Dual-listed with TSM 5700).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1510 or higher.

A qualitative and quantitative introduction to health effects of chemical, biological, and physical hazards in a workplace. (Typically Offered: Spring)

TSM 4710: Safety Laboratory

(Dual-listed with TSM 5710).

Credits: 1. Contact Hours: Laboratory 2.

Prereq: Credit or enrollment in TSM 4700

Introduction to equipment, methods, and strategies to measure, evaluate, control, and research hazards and risk in the workplaces. (Typically Offered: Spring)

TSM 4770: Risk Analysis and Management

(Dual-listed with TSM 5770).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MATH 1510; (STAT 1010 or STAT 1040)

Risk analysis and management focuses on developing a risk oriented pattern of thinking that is appropriate for today's complex world. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems. (Typically Offered: Fall)

TSM 4900H: Independent Study: Honors

Credits: 1-4. Repeatable.

Prereq: Junior or senior classification; permission of department

Graduation Restriction: A maximum of 4 credits of TSM 4900 may be used toward the total credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TSM 4900I: Independent Study: Manufacturing

Credits: 1-4. Repeatable.

Prereq: Junior or senior classification; permission of department

Graduation Restriction: A maximum of 4 credits of TSM 4900 may be used toward the total credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TSM 4900J: Independent Study: Agriculture and Biosystems Management

Credits: 1-4. Repeatable.

Prereq: Junior or senior classification; permission of department

Graduation Restriction: A maximum of 4 credits of TSM 4900 may be used toward the total credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TSM 4900M: Independent Study: Machine Systems

Credits: 1-4. Repeatable.

Prereq: Junior or senior classification; permission of department

Graduation Restriction: A maximum of 4 credits of TSM 4900 may be used toward the total credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TSM 4900O: Independent Study: Occupational Safety

Credits: 1-4. Repeatable.

Prereq: Junior or senior classification; permission of department

Graduation Restriction: A maximum of 4 credits of TSM 4900 may be used toward the total credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TSM 4930A: Workshop in Technology: Agriculture and Biosystems Management

Credits: 1-4. Contact Hours: Lecture 3.7.

Repeatable.

Offered as demand warrants. (Typically Offered: Fall, Spring, Summer)

TSM 4930B: Workshop in Technology: Machine Systems

Credits: 1-4. Repeatable.

Offered as demand warrants. (Typically Offered: Fall, Spring, Summer)

TSM 4930C: Workshop in Technology: Manufacturing

Credits: 1-4. Repeatable.

Offered as demand warrants. (Typically Offered: Fall, Spring, Summer)

TSM 4930D: Workshop in Technology: Occupational Safety

Credits: 1-4. Repeatable.

Offered as demand warrants. Offered on a satisfactory-fail basis only.

TSM 4950: Agricultural and Biosystems Engineering Department Study Abroad Preparation or Follow-up

(Cross-listed with ABE 4950).

Credits: 1-2. Repeatable.

Prereq: Academic Advisor Permission for Course

Preparation for, or follow-up of, study abroad experience (4960). For preparation, course focuses on understanding the tour destination through readings, discussions, and research on topics such as the regional industries, climate, crops, culture, economics, food, geography, government, history, natural resources, and public policies. For follow-up, course focuses on presentations by students, report writing, and reflection. Students enrolled in this course intend to register for 4960 the following term or have had taken 4960 the previous term. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

TSM 4960: Agricultural and Biosystems Engineering Department Study Abroad

(Cross-listed with ABE 4960).

Credits: 1-4. Repeatable.

Prereq: Academic Advisor Permission for Course

Tour and study at international sites relevant to disciplines of industrial technology, biological systems engineering, agricultural systems technology, and agricultural engineering. Location and duration of tours will vary. Trip expenses paid by students. Pre-trip preparation and/or post-trip reflection and reports arranged through 4950. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:**TSM 5330: Precision Agriculture**

(Dual-listed with TSM 4330).

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Geographic information systems (GIS) and global positioning systems (GPS). Hardware systems for precision farming emphasized. Autosteering and automatic implement control systems. Collection and management of yield data. Sampling strategies for precision farming. Introduction to building fertilizer prescriptions and recommendations. Economic benefits of precision farming systems. (Typically Offered: Fall, Spring, Summer)

TSM 5400: Advanced Design and Manufacturing

Credits: 3. Contact Hours: Lecture 3.

Application of manufacturing process improvement and control methodologies; exploration of advanced manufacturing strategies and equipment; function and operation of advanced automated manufacturing equipment including water jets, wire EDMs and 5-axis mills. (Typically Offered: Spring)

TSM 5490: Applied Nondestructive Testing and Evaluation.

(Dual-listed with TSM 4490).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Scientific principles and rationale for non-destructive testing and evaluation. Assessment of material condition and detection of defects in manufacturing or inservice. Testing methods and their application to agriculture and industry. Research project required for graduate credit. (Typically Offered: Fall)

TSM 5550: Feed Processing and Technology

(Dual-listed with TSM 4550).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Introduction to formula feed manufacturing and the animal feed industry. Overview of feed ingredients and formulation, understanding and operation of feed production processing equipment including principles of conveying, grinding, mixing, conditioning, pelleting, and other processing techniques, and the formulation of concentrates, premixes, and rations. Students will become knowledgeable about the manufacturing of various animal feed types such as pelleted and extruded feed, aqua (fish) feed, liquid feeds, poured and pressed blocks, steam flaked feed, and pet food, and their effect on animal performance and health. Students will gain hands-on experience in feed manufacturing during weekly lab sessions at a full-scale university owned feed mill and grain science complex. (Typically Offered: Fall)

TSM 5570: Feed Safety, Ingredient Quality and Analytics

(Dual-listed with TSM 4570).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Concepts of feed and grain safety and quality, including hazards and risks associated with common feeds and feed ingredients. Methods to monitor, manage, and mitigate hazards and risks in the context of feed and grain industries. Government regulations applicable to feed and grain safety. Differences between safety and quality factors, how they are measured and then used for decision-making (marketing, processing, or safe-use). (Typically Offered: Spring)

TSM 5700: Industrial Hygiene: Physical, Chemical, and Biological Hazards

(Dual-listed with TSM 4700).

Credits: 3. Contact Hours: Lecture 3.

A qualitative and quantitative introduction to health effects of chemical, biological, and physical hazards in a workplace. (Typically Offered: Spring)

TSM 5710: Safety Laboratory

(Dual-listed with TSM 4710).

Credits: 1. Contact Hours: Laboratory 2.

Introduction to equipment, methods, and strategies to measure, evaluate, control, and research hazards and risk in the workplaces. (Typically Offered: Spring)

TSM 5750: Safety and Public Health Issues in Modern Society

Credits: 2. Contact Hours: Lecture 2.

Repeatable, maximum of 2 credits.

Exploration and analysis of current safety and public health issues impacting society. The focus will be on topics that impact individuals in work, public, and home environments.

TSM 5770: Risk Analysis and Management

(Dual-listed with TSM 4770).

Credits: 3. Contact Hours: Lecture 3.

Risk analysis and management focuses on developing a risk oriented pattern of thinking that is appropriate for today's complex world. The tools that will be gained in this course will be helpful in recognizing, understanding, and analyzing hazards and risks in modern complex systems. (Typically Offered: Fall)

TSM 5900A: Special Topics in Technology: Agriculture and Biosystems Management

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

Special Topics in Technology: Agriculture and Biosystems Management. (Typically Offered: Fall, Spring, Summer)

TSM 5900B: Special Topics in Technology: Machine Systems

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

Special Topics in Technology: Machine Systems. (Typically Offered: Fall, Spring, Summer)

TSM 5900C: Special Topics in Technology: Manufacturing

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

Special Topics in Technology: Manufacturing. (Typically Offered: Fall, Spring, Summer)

TSM 5900D: Special Topics in Technology: Occupational Safety

Credits: 1-4. Repeatable, maximum of 4 credits.

Prereq: Instructor Permission for Course

Special Topics in Technology: Occupational Safety. (Typically Offered: Fall, Spring, Summer)

TSM 5930: Workshop in Technology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Workshop in Technology.

TSM 5990: Creative Component

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: Instructor Permission for Course

A discipline-related problem to be identified and completed under the direction of the program advisor. Three credits required for all nonthesis master's degree students. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**TSM 6010: Graduate Seminar**

(Cross-listed with ABE 6010).

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Keys to starting a successful graduate research project. Effective literature review, formulating research questions, and setting goals. Practicing effectively communicating research and science. Effective strategies for scholarly writing, professional development, responding to feedback, peer-reviewing, successful publishing in journals, and curating scholarly output. (Typically Offered: Fall)

TSM 6520: Program and Learner Evaluation

Credits: 3. Contact Hours: Lecture 3.

Techniques for evaluating learners, facilities, programs, and staff utilizing theories for developing measurement instruments. Outcomes assessment is emphasized.

TSM 6550: Academic Leadership in Technology and Engineering

Credits: 3. Contact Hours: Lecture 3.

A discussion of faculty roles in technology and engineering disciplines, including strategies for dealing with programs, personnel, and constituencies. Leadership skills involving team formation, team operation, and conflict resolution are addressed. Emphasis is placed on the servant leadership model.

TSM 6570: Curriculum Development in Technology and Engineering

Credits: 3. Contact Hours: Lecture 3.

Basic concepts, trends, practices, and factors influencing curriculum development, techniques, organization and procedures. Emphasis will be given to course development using the backward design process.

TSM 6940: Teaching Practicum

(Cross-listed with ABE 6940).

Credits: 1-3.

Graduate student experience in the agricultural and biosystems engineering departmental teaching programs. (Typically Offered: Fall, Spring)

TSM 6970: Internship in Technology

Credits: Required. Repeatable.

One semester and one summer maximum per academic year professional work period. (Typically Offered: Fall, Spring, Summer)

TSM 6990: Research

Credits: 1-6. Repeatable.

Prereq: Instructor Permission for Course

Research. (Typically Offered: Fall, Spring, Summer)

Theatre (THTRE)

Courses primarily for undergraduates:

THTRE 1060: Introduction to the Performing Arts

Credits: 3. Contact Hours: Lecture 3.

An audience oriented, broad-based, survey of the performing arts which emphasizes theatre and includes segments on television, radio and podcasts, film, dance, music, and video games. (Typically Offered: Fall, Spring)

THTRE 1100: Theatre and Society

Credits: 3. Contact Hours: Lecture 3.

An introduction to Theatre focusing on its relationship with society throughout history. (Typically Offered: Fall, Spring)

THTRE 1510: Actor's Voice and Movement

Credits: 3. Contact Hours: Lecture 3.

Study, exploration, and practice of physical and vocal techniques that build expressiveness for the performing artist. (Typically Offered: Fall, Spring)

THTRE 1550X: Introduction to Theatrical Drafting

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 times.

An introduction to the basic concepts and techniques utilized in Computer-Aided (CAD) Drafting. Students will learn a variety of techniques utilizing the Vectorworks and/or other drafting software through a series of in-class training and workbook exercises designed to build a foundation of skills that students will require in future theatrical design courses. (Typically Offered: Fall, Spring, Summer)

THTRE 2240: Concert and Theatre Dance

(Cross-listed with DANCE 2240).

Credits: 0.5-2. Contact Hours: Laboratory 3.

Repeatable, maximum of 6 credits.

Prereq: Instructor Permission for Course

Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

THTRE 2500: Technical Theatre Practicum

Credits: 1-2. Repeatable, maximum of 6 credits.

Prereq: Instructor Permission for Course

Practice in various aspects of technical theatre production. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

THTRE 2510: Acting Foundations

Credits: 3. Contact Hours: Lecture 3.

Theory and practice in fundamentals of acting. (Typically Offered: Fall, Spring)

THTRE 2550: Introduction to Theatrical Production

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Standard structure and procedures, historical overview of performing arts production including the design and creation of scenery, costumes and lighting. (Typically Offered: Fall, Spring)

THTRE 2630: Script Analysis

Credits: 3. Contact Hours: Lecture 3.

Theory, analysis, and interpretation of play scripts for production. (Typically Offered: Fall, Spring)

THTRE 2800: Special Topics

Credits: 1-4. Contact Hours: Lecture 4.

Repeatable, maximum of 12 credits.

Special topics in Theatre and Performing Arts.

THTRE 2900: Special Projects

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 3 credits in THTRE; Permission of Instructor

(Typically Offered: Fall, Spring, Summer)

THTRE 3010: Theatre Performance Practicum

Credits: 1-3. Repeatable, maximum of 12 credits.

Study, rehearsal, and performance of fully produced theatrical works. Engage in staging, ensemble building, character analysis, and performance while participating in the process of mounting a fully realized theatrical production. (Typically Offered: Fall, Spring)

THTRE 3160: Creative Writing: Playwriting

(Cross-listed with ENGL 3160).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500; Sophomore classification

Progresses from production of scenes to fully developed one-act plays.

Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. (Typically Offered: Spring)

THTRE 3510: Acting: Contemporary Scene Study

Credits: 3. Contact Hours: Lecture 3.

Prereq: THTRE 2510, THTRE 2630 or permission of instructor

Theory and practice of techniques of acting with emphasis on character, process, and scene analysis. (Typically Offered: Spring)

THTRE 3520: Puppetry Design and Performance

Credits: 3. Contact Hours: Lecture 3.

Through hands-on explorations of puppet design, construction, performance techniques and traditions, students will investigate the intersection of material, design, movement, and sound that is inherent in the art of puppetry. Offered odd-numbered years. (Typically Offered: Fall)

THTRE 3530: Acting for the Camera

Credits: 3. Contact Hours: Lecture 3.

Theory, practice, and exploration of acting on camera with particular focus on professional terms, techniques, and practical experience. (Typically Offered: Spring)

THTRE 3540: Musical Theatre History and Performance

Credits: 3. Contact Hours: Lecture 3.

Prereq: THTRE 2510 or Permission of Instructor

Theory, history and practice of musical theatre. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 3550: Musical Theatre Auditions and Performance

Credits: 3. Contact Hours: Lecture 3.

Prereq: THTRE 3540 or Permission of Instructor

Theory and practice of musical theatre audition and performance styles.

THTRE 3570: Stage Makeup

Credits: 2.

Introduction to the theory and practice of theatrical makeup techniques. Lab required. (Typically Offered: Spring)

THTRE 3580: Oral Interpretation

Credits: 3. Contact Hours: Lecture 3.

Principles of oral interpretation and storytelling, with practice in literary analysis and performance. (Typically Offered: Fall, Spring)

THTRE 3800: Special Topics

Credits: 1-4. Contact Hours: Lecture 4.

Repeatable, maximum of 12 credits.

Advanced topics in Theatre and Performing Arts. (Typically Offered: Fall, Spring, Summer)

THTRE 3930A: Studies in Theatre Design and Production Workshop: Costume Design

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930B: Studies in Theatre Design and Production Workshop: Scenic Design

Credits: 3. Contact Hours: Lecture 4.5.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930C: Studies in Theatre Design and Production Workshop: Lighting Design

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930D: Studies in Theatre Design and Production Workshop: Sound Design

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930E: Studies in Theatre Design and Production Workshop: Stagecraft

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930F: Studies in Theatre Design and Production Workshop: Costume Draping and Patterning

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930G: Studies in Theatre Design and Production Workshop: Advanced Makeup

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930I: Studies in Theatre Design and Production Workshop: Stage Management

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended. (Typically Offered: Fall, Spring, Summer)

THTRE 3930J: Studies in Theatre Design and Production Workshop:

Technical Direction

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended.

(Typically Offered: Fall, Spring, Summer)

THTRE 3930K: Studies in Theatre Design and Production Workshop: Arts Management

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended.

(Typically Offered: Fall, Spring, Summer)

THTRE 3930L: Studies in Theatre Design and Production Workshop: Scenic Painting

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended.

(Typically Offered: Fall, Spring, Summer)

THTRE 3930M: Studies in Theatre Design and Production Workshop: Costume Construction

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 12 credits.

Studies in Theatre Design and Production. THTRE 2550 recommended.

(Typically Offered: Fall, Spring, Summer)

THTRE 4510: Acting: Period Styles

Credits: 3. Contact Hours: Lecture 3.

Prereq: (THTRE 2510; THTRE 2630) or Permission of Instructor

Analysis and practice of period scenes. Offered even-numbered years.

(Typically Offered: Fall)

THTRE 4550: Directing

Credits: 3. Contact Hours: Lecture 3.

Prereq: (THTRE 2550; THTRE 2630) or Permission of Instructor

Theory, techniques, and practice of directing. THTRE 2510

recommended. (Typically Offered: Fall)

THTRE 4560: Advanced Directing

Credits: 3. Contact Hours: Lecture 3.

Prereq: THTRE 4550

Advanced practical and theoretical exploration in directing. Offered even-numbered years. (Typically Offered: Spring)

THTRE 4650: Theatre History: Ancient to 19th Century

Credits: 3. Contact Hours: Lecture 3.

Theatre history from ancient times to the 19th Century. HIST 2010 or equivalent recommended. (Typically Offered: Fall)

THTRE 4660: Theatre History: 19th Century to Present

Credits: 3. Contact Hours: Lecture 3.

Theatre history from 19th century to present. HIST 2010 or equivalent recommended. (Typically Offered: Spring)

THTRE 4690: Advanced Technical Theatre Practicum

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: 9 credits in theatre courses; junior classification

Practicum in production with ISU Theatre, with opportunities for specialization within various areas. Required: Approval of written proposal. (Typically Offered: Fall, Spring, Summer)

THTRE 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: 9 credits in THTRE; Junior classification; Department Permission

Only one independent study enrollment within the department is permitted per semester. Approved written proposal required for enrollment. Graduation Restriction: No more than 9 credits in THTRE 4900 may be counted toward graduation. (Typically Offered: Fall, Spring, Summer)

THTRE 4990: Theatre Internship

Credits: 1-8. Repeatable, maximum of 8 credits.

Prereq: 12 credits in THTRE; Department Permission

Supervised application of theatre in professional settings. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

THTRE 5040A: Seminar: Musical Theatre

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: 9 credits in theatre courses or Permission of Instructor

Topics may include the following:. (Typically Offered: Fall, Spring, Summer)

THTRE 5040B: Seminar: Acting Techniques

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: 9 credits in theatre courses or Permission of Instructor

Topics may include the following:. (Typically Offered: Fall, Spring, Summer)

THTRE 5040C: Seminar: Acting Styles

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: 9 credits in theatre courses or Permission of Instructor

Topics may include the following:. (Typically Offered: Fall, Spring, Summer)

THTRE 5040D: Seminar: Design and Technical Theatre

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: 9 credits in theatre courses or Permission of Instructor

Topics may include the following:. (Typically Offered: Fall, Spring, Summer)

THTRE 5040E: Seminar: Arts Management

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: 9 credits in theatre courses or Permission of Instructor

Topics may include the following:. (Typically Offered: Fall, Spring, Summer)

THTRE 5900: Special Topics

Credits: 1-4. Repeatable, maximum of 12 credits.

Prereq: 9 credits in theatre courses or Permission of Instructor

(Typically Offered: Fall, Spring, Summer)

Toxicology (TOX)

Courses primarily for undergraduates:

TOX 4010: Principles of Toxicology

(Dual-listed with TOX 5010).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BBMB 4040

Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems. (Typically Offered: Fall)

TOX 4190: Foodborne Hazards

(Cross-listed with MICRO 4190/ FSHN 4190).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 2010 or MICRO 3020; 3 credits in BBMB

Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Assessed service-learning component. Offered even-numbered years. Graduation Restriction: Only one of FSHN 4190 and FSHN 5190 may count toward graduation. (Typically Offered: Spring)

TOX 4200: Food Microbiology

(Cross-listed with MICRO 4200/ FSHN 4200).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 2010 or MICRO 3020

Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. (Typically Offered: Fall)

TOX 4260: Veterinary Toxicology

(Dual-listed with VDPAM 5260/ TOX 5260). (Cross-listed with VDPAM 4260).

Credits: 3. Contact Hours: Lecture 3.

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials. (Typically Offered: Spring)

TOX 4500: Pesticides in the Environment

(Dual-listed with ENT 5500/ TOX 5500). (Cross-listed with ENT 4500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 6 credits of BIOL or Permission of Instructor

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere. (Typically Offered: Spring)

TOX 4900: Independent Study

Credits: 1-2. Repeatable.

Prereq: Instructor Permission for Course

Independent study with a faculty mentor. Intended for students enrolled in the Pharmacology and Toxicology minor. Graduation Restriction: Students in the Pharmacology and Toxicology minor may use no more than 9 credits of university-wide 4900 credits towards the total of 120 credits required for graduation. (Typically Offered: Fall, Spring, Summer)

TOX 4990: Undergraduate Research

Credits: 1-3. Repeatable, maximum of 3 credits.

Prereq: Instructor Permission for Course

Independent research under faculty guidance. Intended for students enrolled in the Pharmacology and Toxicology minor. Graduation Restriction: Students may use no more than 9 credits of university-wide 4990 credits towards the total of 120 credits required for graduation. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

TOX 5010: Principles of Toxicology

(Dual-listed with TOX 4010).

Credits: 3. Contact Hours: Lecture 3.

Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems. (Typically Offered: Fall)

TOX 5020: Toxicology Methods

Credits: 3.

Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, cellular/molecular toxicological techniques, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing. Offered even-numbered years. (Typically Offered: Spring)

TOX 5040: Toxicology Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 credits.

Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus. Graduate student speakers will meet with the instructor at least one week prior to their formal presentation. (Typically Offered: Fall, Spring, Summer)

TOX 5150: Regulatory Toxicology

Credits: 2. Contact Hours: Lecture 2.

A survey course on risk analysis approaches used by toxicologists and other life and social scientists in government, industry and non-governmental organizations to inform regulatory policies and decisions under U.S. Federal statutes, including the Federal Food Drug and Cosmetic Act; the Food Quality Protection Act; the Federal Fungicide, Insecticide and Rodenticide Act; the Endangered Species Act; the Plant Protection Act; the National Environmental Policy Act; and the Toxic Substances Control Act. Topics covered include an overview of the roles and responsibilities of different U.S. Government Departments and Agencies in analyzing human; livestock and companion animal; and/or environmental risks and benefits of food products and food additives, cosmetics, drugs, pesticides, and consumer and industrial products. Offered odd-numbered years. (Typically Offered: Fall)

TOX 5260: Veterinary Toxicology

(Dual-listed with VDPAM 4260/ TOX 4260). (Cross-listed with VDPAM 5260).

Credits: 3. Contact Hours: Lecture 3.

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials. (Typically Offered: Spring)

TOX 5290: Foodborne Toxicants

(Cross-listed with FSHN 5290).

Credits: 2. Contact Hours: Lecture 2.

Mechanisms of action, metabolism, sources, remediation/detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants, discussion of toxicants from a food defense perspective. Offered online only. (Typically Offered: Fall, Spring, Summer)

TOX 5440: Aquatic Toxicology

Credits: 2. Contact Hours: Lecture 1, Discussion 1.

An overview of interactions between anthropogenic chemicals and aquatic ecosystems. Topics include history of aquatic toxicology, methods of toxicity testing, and species responses to toxicants. Emphasis is on aquatic pollutants of emerging concern (e.g., nanoparticles, microplastics). Offered odd-numbered years. (Typically Offered: Spring)

TOX 5460: Clinical and Diagnostic Toxicology

(Cross-listed with VDPAM 5460).

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Advanced study of current problems and issues in veterinary toxicology. Emphasis on problem solving and interpreting clinical cases while utilizing clinical, epidemiological, and laboratory resources. Course consists highly of clinical case based material. (Typically Offered: Fall, Spring, Summer)

TOX 5500: Pesticides in the Environment

(Dual-listed with ENT 4500/ TOX 4500). (Cross-listed with ENT 5500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 9 credits in BIOL or Graduate Classification

Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere. (Typically Offered: Spring)

TOX 5540: General Pharmacology

(Cross-listed with BMS 5540).

Credits: 3. Contact Hours: Lecture 3.

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems. (Typically Offered: Spring)

TOX 5650: Methods in Biostatistics and Epidemiology

(Cross-listed with STAT 5650).

Credits: 3. Contact Hours: Lecture 3.

Statistical methods commonly used in epidemiology and human and animal health studies. Overview of cohort studies, case-control studies and randomized clinical trials. Topics include inference procedures for disease risk factors, analysis of time-to-event and survival data, analysis of longitudinal studies of disease progression and health status, diagnostic test evaluation, and meta-analysis. Examples will come from recent studies of physical and mental health, nutrition and disease progression in human and animal populations. Use of statistical software: SAS or R. Offered even-numbered years. (Typically Offered: Fall)

TOX 5690: Reproductive and Developmental Toxicology

(Cross-listed with ANS 5690).

Credits: 2. Contact Hours: Lecture 2.

Chemical agents that target developmental and reproductive systems in animals and humans, both male and female. The influence that timeline of developmental in utero and what part of reproductive organ have on outcome of environmental exposures will be developed. The physiological changes due to exposure, and mechanistic pathways activated by xenobiotics will be defined and the consequences of these changes will be explored. Offered even-numbered years. (Typically Offered: Fall)

TOX 5700: Risk Assessment for Food, Agriculture and Veterinary Medicine

(Cross-listed with AGRON 5700/ VDPAM 5700).

Credits: 3. Contact Hours: Lecture 3.

Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis. Offered odd-numbered years. (Typically Offered: Fall)

TOX 5750: Cell Biology

(Cross-listed with BMS 5750).

Credits: 3. Contact Hours: Lecture 3.

A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper. (Typically Offered: Fall)

TOX 5900: Special Topics

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Contact individual faculty for special projects or topics. Graded.

Courses for graduate students:**TOX 6260: Advanced Food Microbiology**

(Cross-listed with MICRO 6260/ FSHN 6260).

Credits: 3. Contact Hours: Lecture 3.

Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials. Offered odd-numbered years. (Typically Offered: Spring)

TOX 6270: Rapid Methods in Food Microbiology

(Cross-listed with MICRO 6270/ FSHN 6270).

Credits: 2. Contact Hours: Lecture 2.

Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and 'next generation' testing formats now in development. (Typically Offered: Fall, Spring, Summer)

TOX 6560: Cellular and Molecular Pathology II

(Cross-listed with VPTH 6560).

Credits: 3. Contact Hours: Lecture 3.

Cellular and molecular mechanisms of carcinogenesis. Offered even-numbered years. (Typically Offered: Spring)

TOX 6750: Insecticide Toxicology

(Cross-listed with ENT 6750).

Credits: 3. Contact Hours: Lecture 2, Laboratory 3.

Prereq: ENT 5550 or TOX 5010 or Graduate Classification

Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides. Offered even-numbered years. (Typically Offered: Fall)

TOX 6890: Current Topics in Toxicology

Credits: Required. Contact Hours: Lecture 1.

Repeatable.

Lecture and discussion participation on current topics in toxicology.

An 80% attendance is expected to satisfactorily complete the course.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

TOX 6970: Graduate Research Rotation

Credits: 1-12. Contact Hours: Laboratory 12.

Repeatable, maximum of 12 credits.

Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major. (Typically Offered: Fall, Spring, Summer)

TOX 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Research. (Typically Offered: Fall, Spring, Summer)

Courses primarily for professional curriculum students:

TOX 7354: General Pharmacology

(Cross-listed with BMS 7354).

Credits: 3. Contact Hours: Lecture 3.

General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems. (Typically Offered: Spring)

Transportation (TRANS)

Courses primarily for graduate students, open to qualified undergraduates:

TRANS 5990: Creative Component

Credits: 1-3. Repeatable.

Advanced topic for creative component report in lieu of thesis.

Courses for graduate students:

TRANS 6990: Research

Credits: 1-30. Repeatable.

U.S. Latino/a Studies Program (USLS)

Courses primarily for undergraduates:

USLS 2110: Introduction to U.S. Latino/a Studies

Credits: 3. Contact Hours: Lecture 3.

History and current lives of the Latino/a peoples in the United States, including Mexican, Cuban, Puerto Rican, Dominican, and South and Central Americans, as well as information specific to Iowa Latino/as, will be covered. Through readings, class discussions, writing assignments, and guest speakers, students will acquire accurate information and a solid understanding of the US Latino/a population and cultural perspectives. Elements of Latino/a culture to be covered include historical, sociological, educational, psychological, economic, and political facets. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring)

USLS 3050: Spanish for Heritage Speakers

(Cross-listed with SPAN 3050).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Instructor Permission for Course

Intensive study and application of grammar concepts in the development of writing and reading skills in a dynamic cultural context centered on Hispanics in the U.S. Designed for native or heritage Spanish speakers with oral proficiency in Spanish but with little or no formal academic training in the language. Taught exclusively in Spanish. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

USLS 3230A: Latin American Anthropology: Violence and Memory

(Dual-listed with ANTHR 5230A). (Cross-listed with ANTHR 3230A).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 2010 or ANTHR 3060 recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

USLS 3230B: Latin American Anthropology: Social movements and Democracy

(Cross-listed with ANTHR 3230B).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 2010 or ANTHR 3060 recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

USLS 3230C: Latin American Anthropology: Race, Class and Gender

(Cross-listed with ANTHR 3230C).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 2010 or ANTHR 3060 recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

USLS 3230D: Latin American Anthropology: Regional Focus

(Cross-listed with ANTHR 3230D).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 2010 or ANTHR 3060 recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

USLS 3230E: Latin American Anthropology: Culture and Sport

(Dual-listed with ANTHR 5230E). (Cross-listed with ANTHR 3230E).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered. ANTHR 2010 or ANTHR 3060 recommended. Meets International Perspectives Requirement.

USLS 3250: Culture and Community: Iowa and Midwest Latino/as

(Cross-listed with SPAN 3250).

Credits: 3. Contact Hours: Lecture 3.

Prereq: USLS 2110

Analysis and discussion of interdisciplinary texts examining the local and regional Latino/a immigration experience. Exploring Latino/a culture through participation in a community project. Assessed service learning component. (Typically Offered: Spring)

USLS 3330X: Latinos/as/x in the Criminal Justice Complex

(Cross-listed with CJ 3330X).

Credits: 3. Contact Hours: Lecture 3.

Intersections of ethnicity, culture, assimilation, immigration/migration, crime, and the criminal justice system in the United States. Topics include: criminality among Latinos/as and the challenges they face within the CJ complex (cops, courts, corrections, as well as immigration and border control) situated within mass incarceration; the use of criminalization as a form of social control; and Latino/as' human and civil rights and the role that race, ethnicity, gender, class, and immigration status play in the criminal justice system and border control enforcement. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

USLS 3430: Latin American Government and Politics

(Cross-listed with POLS 3430).

Credits: 3. Contact Hours: Lecture 3.

Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

USLS 3470: U.S. Latino/a Psychology

(Cross-listed with PSYCH 3470).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 1 additional PSYCH course

Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use with Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a people in the U.S. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

USLS 3510: Introduction to Spanish-English Translation

(Cross-listed with LING 3510/ SPAN 3510).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SPAN 3030A or SPAN 3030B or SPAN 3040

Introduction to the theory, methods, techniques, and problems of translation. Consideration of material from business, literature, and the social sciences. Taught in Spanish. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

USLS 3600: Latinas and Victimization

(Cross-listed with CJ 3600).

Credits: 3. Contact Hours: Lecture 3.

Intersections of race/ethnicity, class, gender, culture, acculturation, and immigration/migration in the victimization experiences of Latina women interacting with criminal justice systems and services. Topics include: domestic/intimate partner violence, sexual assault, human trafficking among Hispanic, Latina, and Chicana women, and the impact of language barriers, abuser threats of deportation, social and institutional discrimination and racism, cultural norms, and cultural insensitivity among first responders and service providers on help-seeking, well-being, and interactions with the criminal justice system. Meets U.S. Diversity Requirement.

USLS 3710: Mexican American History

(Cross-listed with HIST 3710).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

History of the Mexican American community in the U.S. from the 1820s to the present. Topics include community development, employment, social marginalization, racism/discrimination, depression and world wars, civil rights, ethnic power and politics. Offered even-numbered years. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

USLS 3720: Latina/o History

(Cross-listed with HIST 3720).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies. Meets U.S. Diversity Requirement.

USLS 4200: Bilingualism & The Education of Latinx Youth

(Cross-listed with EDUC 4200).

Credits: 3. Contact Hours: Lecture 3.

Introduction to research on bilingualism and examination of the social, historical, and political contexts of Spanish/English education in the U.S. Attention to policy environment, school program structure, mode of classroom instruction, family and community context, and attainment of bilingualism and biculturalism for Latinx youth. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

USLS 4730: Civil Rights and Ethnic Power

(Cross-listed with AFAM 4730/ HIST 4730).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Comparative history of the civil rights and ethnic power movements (African American, Chicano, American Indian, Puerto Rican, among others) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights. Meets U.S. Diversity Requirement.

USLS 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 9 credits.

Prereq: Instructor Permission for Course

Independent study under supervision of instructor. Graduation Restriction: No more than 3 credits may count towards the U.S. Latino/a Studies certificate.

USLS 4990: Internship in US Latino/a Studies

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: Instructor Permission for Course

Supervised practice working with US Latino/a communities in the public or private sector, combined with academic work under faculty supervision. Graduation Restriction: Up to 3 credits may apply toward USLS minor. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

University Studies (U ST)

ASSOCIATE PROVOST FOR ACADEMIC PROGRAMS

Certain interdisciplinary courses are offered through university studies, at the discretion of the associate provost for academic programs and upon the advice of the Faculty Senate Curriculum Committee. No major is available in university studies, but credit obtained through university studies offerings may be applied toward a degree in any of the colleges, consistent with the stipulations of the student's curriculum.

Requests to make use of U ST 290 and U ST 490 should be directed to the associate provost for academic programs and should be accompanied by a positive recommendation from the department chairs of the instructor(s) making the request. Requests can be submitted to Academic-Programs@iastate.edu.

Any experimental courses offered by U ST can be found at:

registrar.iastate.edu/faculty-staff/courses/explistsings/ (<http://www.registrar.iastate.edu/faculty-staff/courses/explistsings/>)

Urban Design (URBD)

Courses primarily for graduate students, open to qualified undergraduates:

URBD 5010: Urban Design Local Studio

Credits: 6.

Analysis and observation of urban morphology, culture, and infrastructure through urban design projects set in Midwestern cities. Students learn, interpret, and propose design interventions to address urban challenges related to changing socio-political, economic, and environmental contexts. Field trips.

URBD 5020: Urban Design Global Studio

Credits: 6. Contact Hours: Lecture 1, Studio 10.

Students develop proposals for urban design interventions in an international context at multiple scales using investigation, analysis, observation, and interaction. Field trips.

URBD 5110: North American Urbanization

Credits: 3. Contact Hours: Lecture 3.

Focus on the historical role of planning and urban design in the shaping of North American cities and regions, from the colonial period to the late twentieth century. Examine the legacy of planning and design by exploring the intersection of geographic space, politics, and policy. Investigate the factors and the processes that produce the built environment.

URBD 5120: Urban Design Colloquium

Credits: Required. Contact Hours: Lecture 1.

Repeatable.

Special topics and guest speakers. Offered on a satisfactory-fail basis only.

URBD 5130: Urbanism Research

Credits: 3.

Research expands and integrates discourse and design findings from various Urban Design degree courses. Students develop independently-defined research to produce a comprehensive and conclusive final document that incorporates text, visuals and/or other media.

URBD 5210: Foundations of Urban Design

Credits: 3. Contact Hours: Lecture 3.

Introduction to the ways that urban designers think about the city with a focus on how history, theory, and a wide range of contextual factors inform urban design practice. Field trip.

URBD 5220: Contemporary Urban Design Practices

Credits: 3. Contact Hours: Lecture 3.

Study of emerging trends and practices in urban design using a range of current media communication platforms. Course will be conducted in a combination of lecture, seminar formats. Graduate level readings, discussions, research, and development of projective scenarios.

URBD 5310: Methods of Urban Design Workshop

Credits: 3.

An exploration of contemporary urban design methods derived from significant urban projects and (re)development initiatives. Selected case studies to articulate and evaluate methods for implementing urban design goals and objectives in a variety of urbanized contexts. Case studies will build on a combination of analytical research, lectures, student presentations, and field trips.

URBD 5320: Urban Design Media Workshop

Credits: 3.

An introduction to visual representation tools and techniques for generating and communicating urban design concepts, processes, and analytics. Project and exercises utilize traditional and contemporary approaches to drawing, modeling, and mapping, as well as desktop publishing tools.

URBD 5330: Urbanism Theory and Methods

Credits: 3. Contact Hours: Lecture 3.

This course examines how socio-political and economic forces shape the contemporary built environment. The course highlights various methods urban designers use to affect change and, in turn, how these impact stakeholders and communities. Students develop critical awareness of the impact of their decision making on the city.

Veterinary Clinical Sciences (VCS)

Courses primarily for graduate students, open to qualified undergraduates:

VCS 5900A: Special Topics: Medicine

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

VCS 5900B: Special Topics: Surgery

Credits: 1-3. Repeatable.

VCS 5900C: Special Topics: Theriogenology

Credits: 1-3. Repeatable.

VCS 5900D: Special Topics: Radiology

Credits: 1-3. Repeatable.

VCS 5900E: Special Topics: Anesthesiology

Credits: 1-3. Repeatable.

VCS 5900F: Special Topics - Ophthalmology

Credits: 1-3. Repeatable, maximum of 3 credits.

Special topics in Ophthalmology. (Typically Offered: Fall, Spring)

VCS 5960: International Preceptorship

Credits: 1-12. Repeatable.

International Preceptorships and Study Abroad Group programs.

Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. (Typically Offered: Fall, Spring, Summer)

VCS 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Courses for graduate students:

VCS 6040: Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

(Typically Offered: Fall, Spring)

VCS 6400: Advanced Radiology

Credits: 2. Contact Hours: Lecture 2.

Detailed principles of clinical radiology with particular reference to radiographic interpretation.

VCS 6760: Advanced Medicine

Credits: 2. Contact Hours: Lecture 2.

Principles of general medicine. A study in depth of factors that contribute to the development of clinical signs as related to the pathogenesis of disease.

VCS 6770: Advanced Medicine

Credits: 2. Contact Hours: Lecture 2.

An advanced study of metabolic diseases.

VCS 6990A: Research: Medicine

Credits: 1-30. Repeatable.

VCS 6990B: Research: Surgery

Credits: 1-30. Repeatable.

VCS 6990C: Research: Theriogenology

Credits: 1-30. Repeatable.

VCS 6990E: Research: Anesthesiology

Credits: 1-30. Repeatable.

VCS 6990F: Research: Ophthalmology

Credits: 1-30. Repeatable.

Graduate Level Research.

VCS 6990G: Research: Cardiology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Graduate Level Research.

Courses primarily for professional curriculum students:

VCS 7305: Shelter Medicine

Credits: 1. Contact Hours: Lecture 1.

An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare. (Typically Offered: Spring)

VCS 7311: Careers in Veterinary Medicine

Credits: Required. Contact Hours: Lecture 1.

Introduction to the veterinary profession and the various career opportunities available. (Typically Offered: Fall)

VCS 7313: Veterinary Medical Ethics

Credits: 1. Contact Hours: Lecture 1.

A continuation of the Veterinarian in Society series. The course covers selected topics on moral and ethical issues affecting the practice of veterinary medicine. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VCS 7314: Communication and Leadership in Veterinary Medicine

Credits: 1. Contact Hours: Lecture 1.

A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills. (Typically Offered: Fall)

VCS 7315: Veterinary Law

Credits: 1. Contact Hours: Lecture 1.

A continuation of the Veterinarian in Society series. This course will emphasize veterinary law. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VCS 7318: Advanced Small Animal Oncology

Credits: 1.

Provide advanced instruction in medical oncology, radiation oncology, and surgical oncology. General learning objectives include demonstrating the ability to utilize information from the physical exam and historical findings to direct appropriate diagnostics and staging based on a specific cancer diagnosis. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VCS 7319X: Veterinary Military Practicum

Credits: 1-6. Repeatable, maximum of 6 credits.

Allows students to gain veterinary experience through military service. (Typically Offered: Fall, Spring, Summer)

VCS 7339: Clinical Foundations I

(Cross-listed with BMS 7339).

Credits: 1. Contact Hours: Lecture 1, Laboratory 2.

Canine physical examination; basic behavior, animal handling and restraint; medical record keeping. (Typically Offered: Fall)

VCS 7385: Grand Rounds

Credits: Required. Contact Hours: Lecture 1.

Repeatable.

Seminars and case presentations on selected clinical subjects by fourth-year students of the College of Veterinary Medicine. Attendance is required for a passing grade. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VCS 7391: Clinical Imaging

Credits: 1. Contact Hours: Lecture 1.

Evaluation of morphologic anatomy of the dog and cat utilizing clinical imaging methods - radiography, ultrasonography, computed tomography, magnetic resonance imaging and nuclear imaging. Emphasis will be placed on normal radiographic anatomy. (Typically Offered: Fall)

VCS 7393: Principles of Surgery

Credits: 3. Contact Hours: Lecture 2.5, Laboratory 1.

General principles of surgery of companion animals. (Typically Offered: Fall)

VCS 7394: Principles of Surgery Laboratory

Credits: 1. Contact Hours: Laboratory 3.

General principles of surgery of companion animals. (Typically Offered: Spring)

VCS 7395: Small Animal Surgery

Credits: 2. Contact Hours: Lecture 2.

Small animal surgery. (Typically Offered: Spring)

VCS 7396: Fundamentals in Equine Practice

Credits: 2. Contact Hours: Lecture 2.

This elective course is an introduction and overview of the clinical aspects of common conditions in horses and related conditions, including pathogenesis, clinical manifestations, diagnosis, treatment and prognosis. It is not designed to teach the student how to perform specific procedures, but rather to improve knowledge base of students interested in equine or mixed animal practice. Class will include lecture, photos, video presentations, and other formats. (Typically Offered: Spring)

VCS 7398: Anesthesiology

Credits: 2. Contact Hours: Lecture 2.

Anesthetic equipment, agents and procedures, including pain management for core species. (Typically Offered: Spring)

VCS 7399: Ophthalmology

Credits: 1. Contact Hours: Lecture 1.

Principles and techniques of medical and surgical ophthalmology. (Typically Offered: Spring)

VCS 7402: Clinical Cardiology I

Credits: 1. Contact Hours: Lecture 1.

Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography. (Typically Offered: Fall)

VCS 7403: Clinical Cardiology II

Credits: 1. Contact Hours: Lecture 0.5, Discussion 0.5.

Elective course in clinical cardiology. Emphasis on common congenital and acquired cardiac diseases of companion animals. Builds on foundation of basic clinical cardiac knowledge obtained in VCS 7444; expands to cover additional diseases in greater depth (e.g. infective endocarditis, systemic and pulmonary hypertension, heartworm disease, feline arterial thromboembolism, bradyarrhythmias and cardiac pacing, congenital heart diseases and interventional correction). Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VCS 7404: Topics in Emergency and Critical Care

Credits: 2. Contact Hours: Lecture 2.

Introduction of common topics in emergency and critical care in companion animals. General learning goals for students in this course include developing the ability to utilize physical exam skills and historical findings to triage patients and assess stability. (Typically Offered: Spring)

VCS 7405: Pet Bird and Exotic Species Medicine

Credits: 2. Contact Hours: Lecture 1, Laboratory 3.

Elective course in management and diseases of pet birds and exotic species. (Typically Offered: Spring)

VCS 7406: Introduction to Captive Wild Animal Medicine

Credits: 1. Contact Hours: Lecture 1.

Topics covering the health and welfare of non-domestic animals in captivity. Regulations specific to exotic animal ownership and exhibition will be covered. Students will discuss diseases which affect multiple taxon groups, and learn about interface diseases. Specific topics regarding the veterinary care of exotic canids, felids, ungulates, primates, Old-World Camelids, exotic equids and avian species will be discussed. Laboratories will introduce remote-delivery and restraint devices, dangerous animal handling techniques (including venomous snake handling techniques), contraception for non-domestic animals, and extra-label use of medications and vaccines in non-domestic species. (Typically Offered: Spring)

VCS 7407: Feline Internal Medicine

Credits: 1. Contact Hours: Lecture 1.

Elective course in feline internal medicine. (Typically Offered: Fall)

VCS 7409: Oncology

Credits: 2. Repeatable, maximum of 4 credits.

Elective clinical assignment in oncology.

VCS 7414: Companion Animal Nutrition

Credits: 1. Contact Hours: Lecture 1.

Elective course in small animal and equine nutrition. (Typically Offered: Spring)

VCS 7415: Advanced Small Animal Dermatology

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Elective course in dermatology. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VCS 7419: Preceptorship in Companion Animal/Equine Veterinary Medical Practice

Credits: 2-6. Contact Hours: Laboratory 6.

Repeatable, maximum of 6 credits.

Elective course in veterinary practice under the guidance of veterinarians in approved practice settings. Maximum of 6 credits in 2 credit increments. Instructor Permission needed if not a VM4 classification. (Typically Offered: Fall, Spring, Summer)

VCS 7420: Practicum

Credits: Required. Repeatable.

External practical experiences in the fourth year curriculum for additional professional development of the veterinary student. Instructor Permission needed if not a WM4 classification. Offered on a satisfactory-fail basis only.

VCS 7423: Zoo Preceptorship

Credits: 2-12. Repeatable, maximum of 12 credits.

Elective course in veterinary practice under the guidance of trained zoo veterinarians in approved practice settings. Maximum of 12 credits. (Typically Offered: Fall, Spring, Summer)

VCS 7425X: Rotation in Exotic Pet & Wildlife Medicine Clinical and Surgical Skills

Credits: 2.

Opportunity for 4th year veterinary students to learn appropriate restraint techniques, radiographic positioning and interpretation, emergency triage, physical examination, and surgical skills for exotic companion animals (birds, rodents, rabbits, ferrets and pet reptiles) and wildlife. The course will also include rabbit dentistry techniques. The purpose of this course is to give students the tools to be more comfortable in the handling, diagnostics, and treatment of exotic animals and native wildlife species. (Typically Offered: Summer)

VCS 7436: Small Animal Internal Medicine

Credits: 3. Contact Hours: Lecture 3.

Clinical diagnosis and treatment of diseases of small animals. (Typically Offered: Fall)

VCS 7437: Small Animal Shelter Medicine

Credits: 2. Contact Hours: Lecture 2.

Repeatable.

A 2-week elective rotation at an animal shelter/humane society that works with the public to place pets in homes. This rotation will encompass population medicine (medicine, surgery, intake, adoption, behavior and temperament, neglect and cruelty) that animal shelters deal with on a daily basis. The selected animal shelter/humane society must have a veterinarian(s) on staff and be approved by the course coordinator. More than one VCS 7437 may be taken upon approval of the course coordinator.

VCS 7440: Introduction to Clinics

Credits: Required. Contact Hours: Laboratory 4.

Rotating assignments through multiple sections within the Veterinary Medical Center. (Typically Offered: Spring)

VCS 7441: Canine Rehabilitation

Credits: 2.

Elective clinical assignment in rehabilitation.

VCS 7443: Equine Lameness

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Orthopedic diseases of the equine. (Typically Offered: Spring)

VCS 7444: Small Animal Medicine

Credits: 4. Contact Hours: Lecture 4.

Clinical diagnosis and treatment of diseases of small animals. (Typically Offered: Fall, Spring)

VCS 7445: Equine Medicine

Credits: 2. Contact Hours: Lecture 2.

Clinical diagnosis and treatment of diseases of equine. (Typically Offered: Fall)

VCS 7446: Clinical Neurology

Credits: 2. Repeatable.

Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

VCS 7447: Equine Veterinary Diagnostic Skills

Credits: 2. Repeatable.

Hands on experience with equine veterinary diagnostic skills related to theriogenology, medicine, surgery, radiology, and ophthalmology.

Preference to equine track student. (Typically Offered: Spring)

VCS 7448: Diagnostic Imaging and Radiobiology

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Essentials of diagnostic image interpretation. Essentials of radiobiology, radiation therapy and protection from radiation. (Typically Offered: Fall, Spring)

VCS 7449B: Junior Surgery Laboratory: Traditional Curriculum

Credits: 3. Contact Hours: Lecture 1, Laboratory 6.

Repeatable.

This laboratory introduces the student to anesthetic and surgical principles and techniques that can be applied to all animal species.

Provides a broader range of surgical experiences throughout the laboratory. (Typically Offered: Fall)

VCS 7451B: Advanced Junior Surgery Laboratory: Traditional Curriculum

Credits: 2. Contact Hours: Lecture 1, Laboratory 6.

Repeatable.

8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.

Exposure to more advanced surgical techniques with most surgical principles. (Typically Offered: Spring)

VCS 7451C: Advanced Junior Surgery Laboratory: Traditional Curriculum

Credits: 2. Contact Hours: Lecture 1, Laboratory 6.

Repeatable.

8 weeks. Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species. A second repeat for students with a special interest in small animal surgery. (Typically Offered: Spring)

VCS 7452: Clinical Dermatology

Credits: 2. Repeatable.

Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Medical Center. Instructor Permission needed if not a VM4 classification.

VCS 7453: Small Animal Medicine I

Credits: 2. Contact Hours: Laboratory 6.

Repeatable, maximum of 2 credits.

Clinical assignment in small animal medicine.

VCS 7455: Small Animal Soft Tissue Surgery

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Clinical assignment in soft tissue surgery.

VCS 7456: Small Animal Orthopedic Surgery

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Clinical assignment in orthopedic surgery.

VCS 7457: Equine Medicine

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Clinical assignment in equine medicine.

VCS 7458: Equine Surgery

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Clinical assignment in equine surgery.

VCS 7459A: Small Animal Overpopulation Medicine and Surgery :Nebraska Humane Society, Omaha NE

Credits: 2. Contact Hours: Laboratory 4.

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

VCS 7459C: Small Animal Overpopulation Medicine and Surgery: WaySide Waifs, Kansas City MO

Credits: 2. Contact Hours: Laboratory 4.

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

VCS 7459D: Small Animal Overpopulation Medicine and Surgery: Boulder Humane Society, Boulder, CO

Credits: 2. Contact Hours: Laboratory 4.

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

VCS 7459E: Small Animal Overpopulation Medicine and Surgery: ASPCA Spay/Neuter Alliance, Ashville, NC

Credits: 2. Contact Hours: Laboratory 4.

A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.

VCS 7460: Radiology

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Clinical assignment in veterinary radiology.

VCS 7463: Primary Care

Credits: 2. Contact Hours: Laboratory 6.

Repeatable, maximum of 4 credits.

Clinical experience in hospital based general practice.

VCS 7464: Equine Field Services

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Clinical assignment in equine ambulatory practice.

VCS 7465: Farrier

Credits: 2. Contact Hours: Laboratory 4.

Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

VCS 7466: Anesthesiology

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Clinical assignment in small animal and large animal anesthesiology.

VCS 7468: Intensive Care

Credits: 4. Contact Hours: Laboratory 12.

Repeatable.

Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

VCS 7469: Ophthalmology

Credits: 2. Contact Hours: Laboratory 6.

Repeatable.

Clinical assignment in ophthalmology.

VCS 7475: Cardiology Rotation

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Elective clinical assignment in cardiology.

VCS 7476E: Equine Anesthesiology

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Assignments in equine, small animal, and large animal anesthesiology.

Experience includes case work-up, management and recovery.

Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

VCS 7476S: Small Animal Anesthesiology

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Assignments in equine, small animal, and large animal anesthesiology.

Experience includes case work-up, management and recovery.

Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

VCS 7478: Intensive and Critical Care

Credits: 2. Contact Hours: Lecture 2.

Repeatable, maximum of 4 credits.

Elective clinical assignment in intensive care. (Typically Offered: Fall, Spring, Summer)

VCS 7480: Veterinary Dentistry

Credits: 1. Contact Hours: Lecture 1.

All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics. This course is an on-line course. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VCS 7481: Advanced Equine Dentistry

Credits: 2. Contact Hours: Laboratory 4.

Clinical rotation in equine dentistry with an emphasis on routine equine dental examinations, specialized equipment, and corrective procedures.

Offered only offered for one 2-week rotation. Enrollment is limited.

(Typically Offered: Spring)

VCS 7484X: Clinical Practice in Diverse Communities

Credits: 2.

Two week rotation for fourth year veterinary students working with equine patients both in the hospital and field settings. This rotation includes

a community service component, which will include lecture time on

relevant topics and a veterinary service trip to the Crow Creek Tribal

Reservation in Fort Thompson, SD. Five-day trip, providing experience in

preparing, setting up, and running an equine and small animal veterinary

clinic to serve the tribal community.

VCS 7490: Independent Study

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Independent Study in veterinary medicine focusing on basic /

translational research or learning issues. Enrollment in this course

is not appropriate for clinical experiences in the Veterinary Medical

Center or extramural experiences in clinical veterinary practice (i.e.,

preceptorships).

VCS 7492: Orientation for International Experience

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

8 weeks. Predeparture orientation for group study abroad. Cultural

considerations for the study abroad experience and a conversational

language introduction. Out of class work may be assigned. (Typically

Offered: Spring)

VCS 7495: Grand Rounds Presentations

Credits: Required. Contact Hours: Lecture 1.

Seminars and case presentations on selected subjects by fourth year

students of the College of Veterinary Medicine. Completion of a seminar

presentation is required for graduation. Offered on a satisfactory-fail

basis only. (Typically Offered: Spring)

VCS 7496: International Experience

Credits: 1-12. Repeatable, maximum of 12 credits.

International Preceptorships and Study Abroad Group programs.

Opportunities for students to be involved in applied clinical, production,

and/or research experiences in international locations. The course

consists of 40 hour per week experiential learning opportunities. Offered

on a satisfactory-fail basis only.

Veterinary Diagnostic and Production Animal Medicine (VDPAM)

Courses primarily for professional curriculum students:

VDPAM 4260: Veterinary Toxicology

(Dual-listed with VDPAM 5260/ TOX 5260). (Cross-listed with TOX 4260).

Credits: 3. Contact Hours: Lecture 3.

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials. (Typically Offered: Spring)

VDPAM 4280: Principles of Epidemiology and Population Health

(Cross-listed with MICRO 4280/ VMPPM 4280).

Credits: 3. Contact Hours: Lecture 3.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance. (Typically Offered: Spring)

VDPAM 4870: Livestock Disease Prevention

Credits: 3. Contact Hours: Lecture 3.

The course is designed for both the pre-veterinary and animal science majors who have an interest in production animal health, disease prevention methods, epidemiology of economically important agents, and the ecology of currently important pathogens found in North American livestock industries. It will focus on disease prevention principles for individuals and large production population systems. (Typically Offered: Fall)

VDPAM 4890: Issues in Food Safety

(Cross-listed with ANS 4890/ HSPM 4890/ FSHN 4890).

Credits: 1. Contact Hours: Lecture 1.

Prereq: (Credit or concurrent enrollment in FSHN 1010 or FSHN 2720 or HSPM 2330); (FSHN 4190 or FSHN 4200); FSHN 4030

Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective. (Typically Offered: Spring)

Courses primarily for graduate students, open to qualified undergraduates:

VDPAM 5070: Evidence Based Clinical Decision Making

Credits: 1. Contact Hours: Lecture 1.

Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations. (Typically Offered: Spring)

VDPAM 5080: Poultry Diseases

Credits: 2. Contact Hours: Lecture 2.

Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations. Offered even-numbered years. (Typically Offered: Spring)

VDPAM 5140: Veterinary Practice Entrepreneurship

Credits: 2-3. Contact Hours: Lecture 3.

Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity. Personal finance, marketing, human resource management, general accounting, site assessment, location demographics, practice valuation, and a host of other issues which must be considered when purchasing or starting a new business are covered. Class instruction will be delivered by successful practice and business owners with examples from real world experience. (Typically Offered: Spring)

VDPAM 5260: Veterinary Toxicology

(Dual-listed with VDPAM 4260/ TOX 4260). (Cross-listed with TOX 5260).

Credits: 3. Contact Hours: Lecture 3.

Study of toxicological diseases of animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials. (Typically Offered: Spring)

VDPAM 5270: Applied Statistical Methods in Population Studies

Credits: 3. Contact Hours: Lecture 3.

ANOVA, Linear Regression, Model Selection, Mixed Models, ANCOVA, Repeated Measurement Analysis, MANOVA, Nonparametric Methods, Diagnostic Test Evaluation, ROC Curve Analysis, Generalized Linear Models, Logistic Regression, Survival Analysis, Cox Proportional Hazards Regression, Count Data Analyses. This course is available on campus and by distance. Offered odd-numbered years. (Typically Offered: Fall)

VDPAM 5280: Principles of Epidemiology and Population Health

(Cross-listed with VMPPM 5280).

Credits: 3. Contact Hours: Lecture 3.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance. (Typically Offered: Spring)

VDPAM 5290: Epidemiological Methods in Population Research

Credits: 3. Contact Hours: Lecture 3.

Train students on selecting the proper statistical model to conduct statistical analysis in the context of epidemiological studies. Train students to report and interpret data collected from experimental (clinical trials), observational (cross-sectional, case-control, cohort) or field-based studies incorporating the information covered in previous epidemiology/ biostatistics courses and this course, and how to communicate the findings with the end-users. Introduce other methods that can be used when analyzing epidemiological studies. This course is available on campus and by distance. Offered even-numbered years. (Typically Offered: Fall)

VDPAM 5420A: Introduction to Molecular Biology Techniques: DNA Techniques

(Cross-listed with BMS 5420A/ EEOB 5420A/ FSHN 5420A/ GDCB 5420A/ HORT 5420A/ NREM 5420A/ NUTRS 5420A/ BBMB 5420A/ VMPM 5420A).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VDPAM 5420B: Introduction to Molecular Biology Techniques: Protein

(Cross-listed with BMS 5420B/ EEOB 5420B/ FSHN 5420B/ GDCB 5420B/ HORT 5420B/ NREM 5420B/ NUTRS 5420B/ BBMB 5420B).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. Offered on a satisfactory-fail basis only. (Typically Offered: Spring, Summer)

VDPAM 5420C: Introduction to Molecular Biology Techniques: Cell Techniques

(Cross-listed with BMS 5420C/ EEOB 5420C/ FSHN 5420C/ GDCB 5420C/ HORT 5420C/ NREM 5420C/ NUTRS 5420C/ VMPM 5420C/ BBMB 5420C).

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. ular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VDPAM 5420D: Introduction to Molecular Biology Techniques: Plant Transformation

(Cross-listed with BMS 5420D/ EEOB 5420D/ FSHN 5420D/ GDCB 5420D/ HORT 5420D/ NREM 5420D/ NUTRS 5420D/ VMPM 5420D/ BBMB 5420D).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of tranformants. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VDPAM 5420E: Introduction to Molecular Biology Techniques: Proteomics

(Cross-listed with BMS 5420E/ EEOB 5420E/ FSHN 5420E/ GDCB 5420E/ HORT 5420E/ NREM 5420E/ NUTRS 5420E/ VMPM 5420E/ BBMB 5420E).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VDPAM 5420F: Introduction to Molecular Biology Techniques: Metabolomics

(Cross-listed with BMS 5420F/ EEOB 5420F/ FSHN 5420F/ GDCB 5420F/ HORT 5420F/ NREM 5420F/ NUTRS 5420F/ VMPM 5420F/ BBMB 5420F).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VDPAM 5420G: Introduction to Molecular Biology Techniques: Genomic

(Cross-listed with BMS 5420G/ EEOB 5420G/ FSHN 5420G/ GDCB 5420G/ HORT 5420G/ NREM 5420G/ NUTRS 5420G/ VMPM 5420G/ BBMB 5420G).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VDPAM 5460: Clinical and Diagnostic Toxicology

(Cross-listed with TOX 5460).

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Advanced study of current problems and issues in veterinary toxicology. Emphasis on problem solving and interpreting clinical cases while utilizing clinical, epidemiological, and laboratory resources. Course consists highly of clinical case based material. (Typically Offered: Fall, Spring, Summer)

VDPAM 5510: Advanced Veterinary Diagnostic Pathology

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Laboratory diagnosis of animal diseases with emphasis on gross and microscopic lesion description. Caseload is focused heavily on infectious diseases of food animals. (Typically Offered: Fall, Spring, Summer)

VDPAM 5600: Ecology of Infectious Diseases

Credits: 3. Contact Hours: Lecture 3.

Topics of applied ecology of infectious diseases. Specific objectives include: a) understanding dynamics of pathogen transmission within and between population; b) how to reduce risk of pathogen introduction in populations; c) how to early detect pathogens and classify herds according to disease status; d) how to quantify pathogen transmission and impact in animal populations; e) applying and measure the effect of interventions to manipulate disease transmission dynamics within and between populations. Develop skills to prevent, detect and/or significantly control/eliminate animal health issues from animal populations. Learn how to quantify health issues and estimate the value of interventions to influence and mitigate health problems. Offered odd-numbered years. (Typically Offered: Spring)

VDPAM 5620X: Applied Diagnostic Technologies and Medicine for Infectious Disease

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Veterinary diagnostics and diagnostic medicine for infectious diseases in animal populations, mostly livestock, and clinical applications. Specific objectives include: understanding diagnostic process; mechanics of laboratory diagnostic methods; test development and validation; optimizing diagnostic outcomes; and applying diagnostic data to disease investigation and/or intervention. Additionally, students are expected to present a diagnostic relevant subject and participate in case review and discussion. On-line and can be asynchronous from time to time. Offered even-numbered years. (Typically Offered: Fall)

VDPAM 5640: Animal Welfare Science and Research

Credits: 3. Contact Hours: Lecture 2, Discussion 1.

Animal welfare is increasingly a key component of societal decisions about animal use, sustainable development and human-animal relationships. Understanding animal welfare as a scientific discipline, with primary focus on veterinary, biomedical and animal science disciplines. Explore fundamental and applied approaches to animal welfare science, including experimental design, data analysis and interpretation of results. Topics selected will reflect student interests, and may include animal welfare assessment and assurance, animal cognition, pain assessment and mitigation, and animal models used in biomedical research. Offered even-numbered years. (Typically Offered: Spring)

VDPAM 5670X: Design, Implementation and Analysis of Field Studies in Food Animals

Credits: 3. Contact Hours: Lecture 3.

Design of field trials to test hypotheses related to biological outcomes in food animal production. Topics include field trial designs and how-to implement these trials under field/commercial conditions; and how to calculate sample size given different type of outcomes and covers the proper statistical analyses, interpretation, and communication of the results. Invited speakers will share how they use field trials in their daily practice. Case studies. (Typically Offered: Fall)

VDPAM 5700: Risk Assessment for Food, Agriculture and Veterinary Medicine

(Cross-listed with TOX 5700/ AGRON 5700).

Credits: 3. Contact Hours: Lecture 3.

Risk assessment principles as applied to biological systems. Exposure and effects characterization in human and animal health and ecological risk assessment. Risk analysis frameworks and regulatory decision-making. Introduction to quantitative methods for risk assessment using epidemiological and distributional analysis. Uncertainty analysis. Offered odd-numbered years. (Typically Offered: Fall)

VDPAM 5810: Advanced Cow/Calf Production Medicine

Credits: 2. Contact Hours: Lecture 1.5, Laboratory 1.5.

Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Spring)

VDPAM 5900: Special Topics

Credits: 1-3. Repeatable.

Prereq: Instructor Permission for Course

Topics in medicine, surgery, theriogenology; beef, swine, dairy, or sheep production medicine. (Typically Offered: Fall, Spring, Summer)

VDPAM 5960: International Experience

Credits: 1-12. Repeatable.

International Preceptorship. (Typically Offered: Fall, Spring, Summer)

VDPAM 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

VDPAM 6500: Swine Diagnostic Medicine

Credits: 4. Contact Hours: Lecture 4.

A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives. (Typically Offered: Fall)

VDPAM 6540: Comparative Antimicrobial Clinical Pharmacology

Credits: 2. Contact Hours: Lecture 2.

Initial antimicrobial selection for infectious diseases of domestic animals. The antimicrobial drug groups will be examined, stressing pharmacokinetics, minimal inhibitory concentrations, and the use of these parameters to select appropriate compounds and dosages for maximum efficacy. Offered odd-numbered years. (Typically Offered: Fall)

VDPAM 6550: Advanced Swine Production Medicine

Credits: 4. Contact Hours: Lecture 4.

Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, facility design and management, analysis of competing intervention options, design and evaluation of therapeutic and vaccination strategies, quality control procedures and food safety. Course activities include interpretation of diagnostic case reports and development of diagnostic plans for specific disease objectives. Offered odd-numbered years. (Typically Offered: Spring)

VDPAM 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Courses primarily for professional curriculum students:

VDPAM 7308: Spanish for Veterinarians

Credits: 2. Contact Hours: Lecture 2.

This course is designed to meet the needs of veterinary students who will practice in an environment in which the use of Spanish for accurate client communication is essential which includes much of our food animal industry in the state of Iowa. This is not a traditional Spanish language course. To be successful, students taking the course should have a basic knowledge of Spanish pronunciation, grammar and syntax. (Typically Offered: Spring)

VDPAM 7309: Introduction to Production Animal Informatics

Credits: 1. Contact Hours: Lecture 1.

The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations will be presented. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with record keeping programs used by food animal operations. (Typically Offered: Spring)

VDPAM 7310: Introduction to Production Medicine

Credits: 2. Contact Hours: Lecture 2.

The role of the veterinarian in the management of animal health and production in populations including evaluation tools in dairy and beef cattle herds, beef feedlots and swine herds will be described. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal population health diagnosis management programs. Course available on-line, attendance is not required. (Typically Offered: Spring)

VDPAM 7312: Introduction to Animal Welfare

Credits: 1. Contact Hours: Lecture 1.

A continuation of the Veterinarian in Society series. The objective of this course is to develop knowledge of the fundamental principles of animal welfare, in terms of science, ethics and cultural components. (Typically Offered: Spring)

VDPAM 7340: Clinical Foundations

Credits: 1. Contact Hours: Laboratory 2.

One week, hands-on course at Iowa State University; introduction to food supply veterinary medicine covering overviews of major animal agriculture species (beef, dairy, swine, small ruminants, and camelid), production systems, behavior, welfare, handling and restraint, examination techniques, biosecurity, epidemiology and food safety. Students will visit farms owned by Iowa State University and private clients of Food Animal and Camelid Field Services to perform hands-on clinical skills. Attendance is mandatory. Biosecurity: All students must follow current college policies regarding animal contact following foreign travel. Additionally, no swine contact is allowed within 48 hours of the swine farm visit. Required equipment includes coveralls, rubber boots, thermometer and stethoscope. (Typically Offered: Spring)

VDPAM 7351: Bovine Embryo Transfer and Related Technology

Credits: 2. Contact Hours: Lecture 2.

This course will meet for two hours once each week of the Spring Semester. The first hour will be traditional lecture and the second hour will be a combination of student projects, labs and demonstrations of applied clinical procedures. Bovine embryo transfer and closely related topics such as: female reproductive physiology, estrus synchronization, semen sexing and reproductive disease will be emphasized. In addition, several class periods will be devoted to the use of ultrasound for diagnosis of reproductive and non-reproductive conditions. (Typically Offered: Spring)

VDPAM 7365: Animal Welfare Judging and Assessment

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Preparation for competition in the Intercollegiate Animal Welfare Judging Contest. Development of critical appraisal and oral communication skills in regard to animal welfare. Animal behavior, physiology, health and performance parameters, basic husbandry, housing and preventive care will be explored for select farmed, companion and exotic species. Optional field trips. Course is open to Vet Med, Undergraduate and Graduate students. (Typically Offered: Fall)

VDPAM 7402A: Advanced Dairy Production Informatics: Lecture Series

Credits: 2. Contact Hours: Lecture 2.

Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 3050 and PC Dart as well as other dairy management and information software. (Typically Offered: Spring)

VDPAM 7402B: Advanced Dairy Production Informatics: Experience I

Credits: 2. Contact Hours: Lecture 2.

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 3050 and PC Dart. (Typically Offered: Fall, Spring)

VDPAM 7402C: Advanced Dairy Production Informatics: Experience II

Credits: 2. Contact Hours: Lecture 2.

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 3050 and PC Dart. (Typically Offered: Fall, Spring)

VDPAM 7402D: Advanced Dairy Production Informatics: Experience III

Credits: 2. Contact Hours: Lecture 2.

Independent records analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 3050 and PC Dart. (Typically Offered: Fall, Spring)

VDPAM 7407: Evidence Based Clinical Decision Making

Credits: 1. Contact Hours: Lecture 1.

Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations. (Typically Offered: Spring)

VDPAM 7408: Poultry Diseases

Credits: 2. Contact Hours: Lecture 2.

Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases. This course includes wet labs. Additional assignments required for graduate level credit. (Typically Offered: Spring)

VDPAM 7409: Veterinary Practice Management and Organization

Credits: 2. Contact Hours: Lecture 2.

An A to Z introduction to proven veterinary practice management methods and strategies. The student will follow a detailed hands-on workbook describing most of the processes and procedures of day to day veterinary practice. Class content will be delivered via online modules. (Typically Offered: Fall)

VDPAM 7414: Veterinary Practice Entrepreneurship

Credits: 2-3. Contact Hours: Lecture 3.

Formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity. Personal finance, marketing, human resource management, general accounting, site assessment, location demographics, practice valuation, and a host of other issues which must be considered when purchasing or starting a new business are covered. Class instruction will be delivered by successful practice and business owners with examples from real world experience. (Typically Offered: Spring)

VDPAM 7416: Bovine Reproduction Evaluation Laboratory

Credits: 1. Contact Hours: Laboratory 4.

Repeatable.

Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, pregnancy staging and ultrasonic imaging.

University-owned cattle will be used. Spring semester only offered one section. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring)

VDPAM 7419: Advanced Swine Production Informatics

Credits: 1. Contact Hours: Lecture 1.

Advanced coverage of concepts related to the collection, manipulation, analysis, and reporting of information used by swine production companies. A quick review of modern swine production and measures of productivity ensures students have a firm base for applying the informatics. This course introduces students to one of the most commonly used swine record-keeping systems in the industry and gives them access to actual production data with which to work. Students then learn how to generate and interpret regularly used reports and will use pivot tables and budgeting models in Excel. The importance of data entry and validation and how to transform data into useful knowledge are then addressed. Fundamentals of financial information, cost-benefit analysis and using budgeting models to assess the economics of animal health interventions are then applied. (Typically Offered: Fall)

VDPAM 7420A: Applied Production Animal Medicine Preceptorship: Food Animal Emphasis

Credits: 1-6. Repeatable.

Advanced course in mixed animal production medicine with a food animal emphasis in veterinary practice settings. Requires 40 hours of clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7420B: Applied Production Animal Medicine Preceptorship: General Mixed Animal Practice

Credits: 1-6. Repeatable.

Advanced course in production animal medicine in general mixed animal veterinary practice settings. Requires forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian, governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7420C: Applied Production Animal Medicine Preceptorship: Government Agency or Food Processing Company

Credits: 1-6. Repeatable.

Advanced course in production animal medicine with emphasis on government agency or food processing company in veterinary practice settings. Forty hours clinical experience per week. Assignments will be preceptorships with a governmental agency and/or production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7420P: Applied Poultry Production Medicine Preceptorship

Credits: 1-6. Repeatable, maximum of 6 credits.

Unique, highly relevant, hands-on veterinary experience for participating students. Development of poultry-specific practice skill sets. Documented experience that is highly valued by future poultry employers. Enhanced cultural and professional awareness for participating students through interaction with active poultry practitioners. Exposure to diverse poultry practice and production environments. (Typically Offered: Fall, Spring, Summer)

VDPAM 7421A: Great Plains Veterinary Educational Center: Calving

Credits: 1.

The Calving Elective provides an opportunity to expand knowledge and experience in all phases of calving management. The program is structured around normal calving operations at USMARC including emergency duties. Activities that take place during the Calving Elective including the diagnosis, treatment, and management of many commonly encountered conditions in the dam and calf, necropsies, and daily discussions. Participation in a caesarian section is not guaranteed. Student must be able to provide own transportation to each site. (Typically Offered: Spring)

VDPAM 7421B: Great Plains Veterinary Educational Center: Bull Breeding Soundness

Credits: 1.

The Bull Breeding Soundness Examination Elective involves training in all phases of the bull fertility examination as recommended by the Society for Theriogenology. Chuteside, hand-on experience is the primary training technique for this elective with informal discussions held during the performance of breeding soundness examinations on 350 or more bulls. Student must be able to provide own transportation to each site. (Typically Offered: Spring)

VDPAM 7421D: Great Plains Veterinary Educational Center: Feedlot Management

Credits: 1.

Evaluation of production techniques and production efficiency including ration and feeding management, health management program development and evaluation, environmental management, quality assurance and field necropsy techniques. Exposure to marketing and economic considerations in feed yard decision making. A strong emphasis on population medicine, trouble shooting and problem-solving skills in the beef industry, with exposure to harvest/food safety considerations. Discussions on pharmaceutical and feed additive usage and legal implications in food supply veterinary medicine. Student must be able to provide own transportation to each site. (Typically Offered: Fall, Summer)

VDPAM 7421E: Great Plains Veterinary Educational Center: Calf Weaning Management

Credits: 1.

This is a hands-on elective in which students participate in the weaning management at the USMARC. Students will be involved with processing, feeding, finding, and treating sick calves. Additionally, students will be introduced to developing weaning rations and managing feed delivery. Students will also learn how to develop vaccination and treatment protocols and each student will have as an objective the development of their own vaccination and treatment protocol template. As time allows, students will visit commercial feed yards and cover production management topics. Student must be able to provide own transportation to each site. (Typically Offered: Fall)

VDPAM 7421F: Great Plains Veterinary Educational Center: Pregnancy Examination

Credits: 1.

The Pregnancy Examination Elective involves rectal examinations for pregnancy, chuteside data collection and data entry into a computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some palpation experience and are interested in honing their skills. Pregnancy Examination occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique. Student must be able to provide own transportation to each site. (Typically Offered: Fall)

VDPAM 7421J: Great Plains Veterinary Educational Center: Lambing

Credits: 1.

The Lambing Elective involves students working with the USMARC lambing crew and GPVEC faculty in observations, assistance with delivery when necessary, and routine lambing duties. Students will work with veterinary personnel in sheep necropsy and health surveillance. Self-study material will be provided covering topics such as pre-breeding and breeding, pregnancy diagnosis, pregnant ewe management, pre-lambing ewe/lambing management, feeder lamb health and nutrition management, and replacement ewe and ram management. Student must be able to provide own transportation to each site. (Typically Offered: Spring)

VDPAM 7421K: Great Plains Veterinary Educational Center: Equine Dentistry

Credits: 1.

The Equine Dentistry Elective provides the opportunity for students to expand their knowledge and experience related to equine dentistry. The rotation consists of lectures on topics relevant to equine dental care and hands-on laboratories during which students practice routine dental care procedures on USMARC horses. Equine Dentistry will involve both lecture and lab time at about equal shares. Student must be able to provide own transportation to each site. (Typically Offered: Spring)

VDPAM 7421P: Great Plains Veterinary Educational Center: Bovine Surgery

Credits: 1.

The Bovine Surgery Elective is designed to give students interested in food animal surgery an opportunity to practice their surgical skills by performing penile translocations and epididymectomies on USMARC teaser bull candidates. Lectures specific to gomer bull surgery as well as other topics related to food animal surgery will be presented during this elective. Student must be able to provide own transportation to each site. (Typically Offered: Fall)

VDPAM 7421Q: Great Plains Veterinary Educational Center: Swine Husbandry

Credits: 1.

This elective provides students the opportunity to gain hands-on experience related to the daily activities of an intensively managed confinement swine unit. Rotation participants will work closely with USMARC Swine Unit personnel as they complete their daily routines in the farrowing and breeding areas of the USMARC Swine Unit and will participate in piglet delivery, neonatal pig processing, artificial and natural breeding, necropsies, and other activities as they arise. Student must be able to provide own transportation to each site. (Typically Offered: Fall, Spring)

VDPAM 7421R: Great Plains Veterinary Educational Center: Lamb Weaning Management

Credits: 1.

This elective provides the opportunity for students to develop their skills in the area of health and nutritional management of sheep immediately before and after weaning. The rotation consists of lectures on pre- and post-weaning nutrition, clinical parasitology, and prevention and control of common ovine infectious diseases. Hands-on experience during the week will take place at the USMARC Sheep Unit and will consist of walk-through and hand-on examinations of recently weaned lambs, treatment of sick lambs, inspection of weaning pen environment, investigation of herd outbreaks, and post mortem examination of all sheep mortalities. Student must be able to provide own transportation to each site. (Typically Offered: Summer)

VDPAM 7421S: Great Plains Veterinary Educational Center: Ultrasound Pregnancy Examination

Credits: 1.

The Ultrasound Pregnancy Examination Elective involves transrectal ultrasonographic examinations for pregnancy, chuteside data collection and data entry into a computer software program to evaluate the reproductive performance of the herd. This elective is designed for students who have some ultrasound experience and are interested in honing their skills. This elective occurs during yearly fall herd work at the USMARC, therefore, speed and accuracy will be stressed, rather than basic technique. Didactic instruction may include several topics in cow herd health, nutrition, management and reproductive decision making. Student must be able to provide own transportation to each site. (Typically Offered: Summer)

VDPAM 7421T: Great Plains Veterinary Educational Center: Food Animal Clinical Care and Treatment (FACCT)

Credits: 1.

This course is designed to achieve hands-on and critical thinking skills necessary to provide clinical care to cattle and sheep. Student needs will be met through structured discussions and accompanying the veterinarians in daily care of the animals at USMARC. Student must be able to provide own transportation to each site. (Typically Offered: Fall, Spring)

VDPAM 7421U: Great Plains Veterinary Educational Center: Necropsy and Diagnostic Investigations

Credits: 1.

This course is designed to develop diagnostic and critical thinking skills necessary to investigate disease outbreaks in a herd health setting. Student needs will be met through daily necropsy procedures, in depth discussions of case examples, and thorough exposure to diagnostic tests and sampling procedures. Student must be able to provide own transportation to each site. (Typically Offered: Fall, Spring)

VDPAM 7422: Beef Cattle Calving

Credits: 2. Repeatable.

This elective provides students opportunity to assist cow-calf operations with calving in Nebraska, South Dakota or other locations. These operations typically calve 300-1,000 head each spring. Calving experience is not required, but a good understanding of working around cattle is necessary. Students will be actively participating in the day to day, normal calving routine including detecting and sorting off 'springers', calf 'watch', detecting when intervention is needed and assisting delivery, caring for and monitoring newborns and dams for good health and early disease detection, tagging/processing new calves, treating calves needing intervention and performing other routine calving chores. Students need to provide their own transportation to the site and overnight stays at or near the production sites are required. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7424: Preceptorship in Diagnostic Pathology.

Credits: 1-6. Repeatable.

Advanced course in production animal medicine with emphasis on gross and diagnostic pathology. Forty hours clinical experience per week. Assignments will be preceptorships with a diagnostic laboratory, veterinary pathologist, governmental agency and/or production unit. Biosecurity policies require documentation of student's presence in the USA 5 days immediately prior to the start of class. (Typically Offered: Fall, Spring)

VDPAM 7436A: Beef Records Analysis: Introduction

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to become Beef Quality Assurance (BQA) certified through the Iowa Beef Center. (Typically Offered: Fall)

VDPAM 7436B: Beef Records Analysis: Herd Management

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. (Typically Offered: Spring)

VDPAM 7436C: Beef Records Analysis: Cow/Calf Preventive Medicine

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach.

Emphasis will be on obtaining a better understanding of nutritional and reproductive management of cow herds. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. (Typically Offered: Fall)

VDPAM 7436D: Beef Records Analysis: Feedlot Production Medicine

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Lectures will emphasize current production and evaluation techniques for feedlot production and students will develop a standard treatment protocol book. Topics include respiratory disease, receiving programs, nutrition, cattle handling and environmental issues. (Typically Offered: Spring)

VDPAM 7445: Production Animal Clinical Medicine

Credits: 3. Contact Hours: Lecture 3.

Clinical diagnosis and treatment of diseases of swine, beef and dairy cattle, and small ruminants. (Typically Offered: Spring)

VDPAM 7450: Disturbances of Reproduction

Credits: 4. Contact Hours: Lecture 4.

Repeatable.

General principles of normal reproductive functions in addition to environment, management and diseases causing disturbances in reproduction. Cattle, Swine, Equine, Small Ruminant, and Small Animal species will be covered. (Typically Offered: Fall)

VDPAM 7451: Clinical Embryo Transfer

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during discussions. Enrollment is limited to four students per two week session. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7455: Diagnostic Laboratory Practicum

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Practical experience and training in necropsy, recognition of gross lesions, diagnostic sample collection and test selection for the diagnosis of infectious, toxic, nutritional and metabolic diseases through exposure to diagnostic cases submitted to the ISU Veterinary Diagnostic Laboratory. The VDL accepts cases from all species; however, this course predominantly consists of porcine and bovine cases. (Typically Offered: Fall, Spring)

VDPAM 7456: Veterinary Diagnostic Lab Methods & Applications

Credits: 1. Contact Hours: Lecture 1.

An introduction to diagnostic medicine including strengths and weaknesses of various testing technologies, how to choose appropriate tests and technologies, sampling strategies in diseased and non-diseased populations and interpretation and integration of results of tests to achieve an accurate diagnosis are discussed. (Typically Offered: Fall)

VDPAM 7463: Feedlot Production Medicine

Credits: 1.

One-week VM4 elective focusing on Midwestern feedlot production. Addresses feedlot production practices common to Iowa and surrounding states, including feeding cattle on concrete or under roofs. Activities include participation and visitation to representative feedlots in Iowa. (Typically Offered: Spring)

VDPAM 7465: Animal Welfare Clinical Rotation

Credits: 2.

Two-week course for senior veterinary students to gain skills for collecting and interpreting animal welfare data, aid clients with identifying and achieving welfare goals, and assisting law enforcement with animal cruelty response. Field trips to food animal and companion animal facilities are mandatory. (Typically Offered: Fall, Summer)

VDPAM 7466X: Preceptorship in Animal Welfare

Credits: 1-6. Repeatable.

Preceptorship in animal behavior and welfare with emphasis on animal behavior and/or welfare assessment, problem solving, interventions to treat and prevent animal behavior and/or welfare cases. Mentors include practicing veterinarians, professionals consulting on animal behavior and welfare, and/or animal welfare organizations. Biosecurity: all students must follow current College of Veterinary Medicine policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7471C: Animal Reproduction: Comparative

Credits: 2. Repeatable, maximum of 4 credits.

Elective comparative clinical assignment in Theriogenology with caseload management in Food Animal, Equine, Small Animal and Small Ruminants sections. Rotation through these different sections will depend on the caseload (by species) and include routine breeding management, semen collection and cryopreservation in different species, advanced laparoscopic and non-surgical procedures for insemination and embryo flushing/transfer, pregnancy diagnosis as well as management of reproductive emergencies. (Typically Offered: Fall, Summer)

VDPAM 7471E: Animal Reproduction: Equine Reproduction

Credits: 2. Repeatable, maximum of 4 credits.

Elective clinical assignment in Equine Theriogenology involving both mare and stallion breeding management, cool-shipped semen preparation and semen cryopreservation, embryo transfer, foaling of high-risk pregnant mares as well as normal mares, breeding soundness exams of the mare and stallion, treatment of retained fetal membranes and neonatal care. (Typically Offered: Spring, Summer)

VDPAM 7471F: Animal Reproduction: Food Animal Reproduction

Credits: 2. Repeatable, maximum of 4 credits.

Elective clinical assignment in Food Animal Theriogenology involving male and female breeding soundness exams, dystocia management, advanced diagnostic and surgical procedures, surgical and non-surgical insemination programs in small ruminants, and semen cryopreservation. Medical and surgical correction of reproductive disorders in cattle, swine and small ruminants. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Spring, Summer)

VDPAM 7471S: Animal Reproduction: Small Animal Reproduction

Credits: 2. Repeatable, maximum of 4 credits.

Primary reproductive management in the canine and feline involving breeding management of the bitch and stud dog, advanced surgical and non-surgical insemination using fresh, cooled or frozen semen, and infertility case management for the male and female. High risk pregnancy management, parturition and neonatal care of both canine and felines, as required. (Typically Offered: Fall, Spring, Summer)

VDPAM 7476: Food Animal and Camelid Field Service

Credits: 1-2. Contact Hours: Laboratory 2.

Repeatable.

Students will assist university veterinarians in delivering individual animal health care and herd-based production management services to the ISU livestock farms and other livestock farms in the local area. Focus on the establishment of best practices for herd management of production systems at the university and in the region. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7477: Food Animal and Camelid Medicine and Surgery

Credits: 2. Contact Hours: Laboratory 4.

Repeatable.

Clinical assignment focused on the management of food animal and camelid medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal and camelid species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7478A: Swine Medicine Education Center: Swine Production Management and Consultation

Credits: 2. Repeatable.

Swine production management and consulting skills within a progressive swine production and management system. Time will be split approximately with half in-class discussion topics of finance and business of the swine industry and half on-farm learning opportunities where students will visit a breeding farm, nursery facility, finishing facility, wean-to-finish facility, gilt developer unit, and a truck wash facility. (Typically Offered: Fall, Spring)

VDPAM 7478B: Drug, Vaccination, and Treatment Management for Swine

Credits: 2. Repeatable.

Basic and applied information on swine treatment options, strategies to maximize efficacy, and skills to pursue judicious use of antimicrobials, reproductive interventions, and the entire spectrum of drug therapies. The course emphasizes case based application and decisions and is approximately 30% web-based and 70% on-site including farms of a variety of structures and functions. During the course, students prepare a thorough evaluation of the pharmacologic interventions that may occur on farms and then implement this evaluation in active production facilities to maximize efficacy, compliance and animal welfare as part of a comprehensive judicious use objective. (Typically Offered: Spring, Summer)

VDPAM 7478C: Swine Medicine Education Center: Swine Emerging Diseases and Emergency Response Management

Credits: 2. Repeatable.

Diagnostic tests, methods, approaches, analysis, and evaluation of emerging swine diseases and provide general knowledge of disease elimination and methods to manage herd losses and economic losses due to disease. Two-week, on-site module that combines structured site visits and classroom activities. (Typically Offered: Fall, Spring)

VDPAM 7479: Applied Swine Production Medicine Preceptorship

Credits: 1-6. Contact Hours: Laboratory 6.

Repeatable.

Preceptorship course in swine production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will be preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7480: Swine Medicine

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Repeatable.

Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Development of critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7481: Advanced Cow/Calf Production Medicine

Credits: 2. Contact Hours: Lecture 1.5, Laboratory 1.5.

Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Students will complete at least two disease investigations involving outbreaks in commercial cow/calf operations and communicate their findings to the class, the herd owner, and local practitioner. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Spring)

VDPAM 7482: Applied Beef Production Medicine Preceptorship

Credits: 1-6. Repeatable.

Advanced course in beef production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7483: Beef Production Medicine

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to expose students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. Whenever possible, the class incorporates field trips to better understand how commercial cow/calf and feedlots operate and the veterinarian's role in their management. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall)

VDPAM 7484: Dairy Production Medicine

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHIA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, welfare, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Summer)

VDPAM 7485: Applied Dairy Production Medicine Preceptorship

Credits: 1-6. Contact Hours: Laboratory 6.

Repeatable.

Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring, Summer)

VDPAM 7486: Introduction to Small Ruminant Production Medicine

Credits: 1. Contact Hours: Lecture 1.

Survey of small ruminant production systems, common management practices, and disease processes of small ruminants and camelids. This course is intended to give the student a background in small ruminant medicine. Herd health, disease monitoring and prevention, nutrition, and typical management systems will be emphasized in lecture. (Typically Offered: Spring)

VDPAM 7488: Laboratory in Clinical Microbiology

Credits: 1. Contact Hours: Laboratory 3.

Repeatable.

Application of microbiological procedures to the diagnosis of infectious diseases. (Typically Offered: Fall, Spring)

VDPAM 7490: Independent Study

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VDPAM 7491: Advanced Ruminant Nutrition

Credits: 2. Contact Hours: Lecture 2.6, Laboratory 0.8.

Focus on dairy nutrition and balancing rations from the calf to the adult, lactating cow. Introduction to different feedstuffs and forage varieties to determine those that are best suited to bovine diets. This course starts the week immediately prior to the start of the fall semester and continues throughout the fall semester. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall)

VDPAM 7494: Advanced Dairy Production Medicine

Credits: 2. Contact Hours: Lecture 1.3, Laboratory 1.3.

Advanced course in investigating dairy herd problems relating to milk quality or nutrition. Milk quality and nutrition troubleshooting will be taught through the combination of lecture and on-farm investigations. Students will combine lecture knowledge, data acquired from on-farm investigations and record analysis to generate management plans. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Spring)

VDPAM 7495: Advanced Small Ruminant Production Medicine

Credits: 2. Contact Hours: Laboratory 4.

Two week clinical rotation in small ruminant production medicine. Field trips (including overnight stays) will be incorporated when possible. Topics to be covered include small ruminant industries (milk, meat, and fiber), milk quality, nutrition, reproduction, and disease management of small ruminants. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel. (Typically Offered: Fall, Spring)

VDPAM 7496: International Experience

Credits: 1-12. Repeatable.

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. (Typically Offered: Fall, Spring, Summer)

VDPAM 7498: Poultry Medicine

Credits: 2.

Two-week senior elective to introduce students into poultry production medicine in the Midwest. Students will participate in routine flock monitoring, biosecurity reviews, disease investigations involving outbreaks in commercial and backyard poultry operations, and have a basic understanding of the poultry industry and poultry diseases. Involves didactic lectures in the classroom, field trips to poultry farms, and necropsies. (Typically Offered: Summer)

Veterinary Microbiology and Preventive Medicine (VMPM)

Courses primarily for undergraduates:

VMPM 3300: Global Health Disparities

(Cross-listed with GLOBE 3300).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Junior classification

Historical and contemporary factors contributing to disparities in health outcomes for persons disadvantaged by income, location, ethnicity, sexual orientation, and abilities. Analysis and evaluation of health promotional materials, such as campaigns, and community-based interventions focused on reducing global health disparities. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

VMPM 3600: Global Health

(Cross-listed with GLOBE 3600/ MICRO 3600).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2110

Explores human health across the world with particular emphasis on low- and lower-middle-income countries. Attention is given to the interconnectedness of health determinants, problems, and solutions found in global health, including the role of animals and the environment. Broad in scope, highlighting different cultures and the historical foundations of global health. Topics include colonialism, poverty, emerging diseases, climate change, biodiversity, one health, maternal and child health, HIV, malaria, urbanization, noncommunicable diseases and more. Current events will be a feature of all class meetings. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

VMPM 4280: Principles of Epidemiology and Population Health

(Cross-listed with MICRO 4280/ VDPAM 4280).

Credits: 3. Contact Hours: Lecture 3.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance. (Typically Offered: Spring)

VMPM 4500X: Introduction to a Research Career in Industry

(Cross-listed with BMS 4500X).

Credits: 1. Contact Hours: Lecture 2.

Explores research career paths in industry. Course will discuss ways students can prepare competitive applications and skill sets necessary for success. Concepts of regulatory constraints, quality management systems and intellectual property will also be introduced. Material will be presented by industry associates and leaders. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

Courses primarily for graduate students, open to qualified undergraduates:

VMPM 5010: Basic Principles of Microbiology

Credits: 3. Contact Hours: Lecture 3.

Prereq: Instructor Permission for Course

The general principles of bacteriology, immunology and virology will be discussed. The structure and function of bacteria and viruses, the mechanisms of pathogenesis, and the host response to infectious agents will be reviewed. Vaccines, their failures, and new developments in vaccine development will be explored. (Typically Offered: Fall)

VMPM 5020: Microbial Genetics and Genomics

(Cross-listed with MICRO 5020).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (BIOL 3130 and MICRO 3020) or Graduate Classification

The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of vertical and horizontal genetic information transfer and gene regulation are covered, along with genetic and genomic-based approaches to study these and other cellular processes of microorganisms. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics and genomics. Offered even-numbered years. (Typically Offered: Fall)

VMPM 5170: Gut Microbiome: Implications for Health and Diseases

(Cross-listed with ANS 5170/ MICRO 5170/ FSHN 5170).

Credits: 3. Contact Hours: Lecture 3.

Explore current research on gut microbiome including modern tools used to study the gut microbiome. Examine the linkages between gut microbiome and health status, diseases, and manipulation of gut microbiome to improve health. (Typically Offered: Fall)

VMPM 5200: Principles of Immunology

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3100 or Permission of Instructor

Nature of the immune system and its role in health and disease.

Graduation Restriction: Credit for either VMPM 5200 or 5750, but not both may be applied toward graduation. (Typically Offered: Fall)

VMPM 5250: Intestinal Microbiology

(Cross-listed with MICRO 5250).

Credits: 3. Contact Hours: Lecture 3.

Overview of commensal microbiota in the health and well-being of vertebrates. Topics include diversity of intestinal structure, microbial diversity/function, innate immune development, community interactions and metabolic diseases associated with alterations of the intestinal microbiome. Offered even-numbered years. (Typically Offered: Spring)

VMPM 5280: Principles of Epidemiology and Population Health

(Cross-listed with VDPAM 5280).

Credits: 3. Contact Hours: Lecture 3.

Epidemiology of disease in populations. Disease causality, observational study design and approaches to epidemiologic investigations. This course is available on campus and by distance. (Typically Offered: Spring)

VMPM 5360: Zoonoses and Environmental Health

Credits: 3. Contact Hours: Lecture 3.

Pathogenesis and control of zoonotic diseases. Factors influencing transmission and survival of pathogenic microorganisms in the environment. Offered odd-numbered years. (Typically Offered: Spring)

VMPM 5400: Livestock Immunogenetics

(Cross-listed with MICRO 5400/ ANS 5400).

Credits: 2. Contact Hours: Lecture 2.

Prereq: ANS 5610 or MICRO 5750 or VMPM 5200 or Graduate Classification

Basic concepts and contemporary topics in genetic regulation of livestock immune response and disease resistance. Offered odd-numbered years. (Typically Offered: Spring)

VMPM 5420A: Introduction to Molecular Biology Techniques: DNA Techniques

(Cross-listed with BMS 5420A/ EEOB 5420A/ FSHN 5420A/ GDCB 5420A/ HORT 5420A/ NREM 5420A/ NUTRS 5420A/ VDPAM 5420A/ BBMB 5420A).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes genetic engineering procedures, sequencing, PCR, and genotyping. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VMPM 5420C: Introduction to Molecular Biology Techniques: Cell Techniques

(Cross-listed with BMS 5420C/ EEOB 5420C/ FSHN 5420C/ GDCB 5420C/ HORT 5420C/ NREM 5420C/ NUTRS 5420C/ BBMB 5420C/ VDPAM 5420C).

Credits: 1. Contact Hours: Laboratory 2.

Repeatable.

Includes: immunophenotyping, ELISA, flow cytometry, microscopic techniques, image analysis, confocal, multiphoton and laser capture microdissection. ular biology techniques and related procedures. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VMPM 5420D: Introduction to Molecular Biology Techniques: Plant Transformation

(Cross-listed with BMS 5420D/ EEOB 5420D/ FSHN 5420D/ GDCB 5420D/ HORT 5420D/ NREM 5420D/ NUTRS 5420D/ BBMB 5420D/ VDPAM 5420D).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of tranformants. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VMPM 5420E: Introduction to Molecular Biology Techniques: Proteomics

(Cross-listed with BMS 5420E/ EEOB 5420E/ FSHN 5420E/ GDCB 5420E/ HORT 5420E/ NREM 5420E/ NUTRS 5420E/ BBMB 5420E/ VDPAM 5420E).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VMPM 5420F: Introduction to Molecular Biology Techniques: Metabolomics

(Cross-listed with BMS 5420F/ EEOB 5420F/ FSHN 5420F/ GDCB 5420F/ HORT 5420F/ NREM 5420F/ NUTRS 5420F/ BBMB 5420F/ VDPAM 5420F).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Includes: metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VMPM 5420G: Introduction to Molecular Biology Techniques: Genomic

(Cross-listed with BMS 5420G/ EEOB 5420G/ FSHN 5420G/ GDCB 5420G/ HORT 5420G/ NREM 5420G/ NUTRS 5420G/ BBMB 5420G/ VDPAM 5420G).

Credits: 1. Contact Hours: Lecture 0.5, Laboratory 1.

Repeatable.

Sessions in basic molecular biology techniques and related procedures.

Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VMPM 5500X: Introduction to a Research Career in Industry

(Cross-listed with BMS 5500X).

Credits: 1. Contact Hours: Lecture 2.

Explores research career paths in industry. Course will discuss ways students can prepare competitive applications and skill sets necessary for success. Concepts of regulatory constraints, quality management systems and intellectual property will also be introduced. Material will be presented by industry associates and leaders. Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VMPM 5750: Immunology

(Cross-listed with MICRO 5750).

Credits: 3. Contact Hours: Lecture 3.

Prereq: MICRO 3100 or Graduate Classification

An examination of humoral and cellular immune function as well as the interaction of the cells and factors of the immune system that result in health and disease. MICRO 4750L optional. Graduation Restriction: Credit for either MICRO 4750 or VMPM 5200, but not both, may be applied to graduation. (Typically Offered: Spring)

VMPM 5860: Medical Bacteriology

(Cross-listed with MICRO 5860).

Credits: 4. Contact Hours: Lecture 4.

Prereq: MICRO 3100 or Graduate Classification

Bacteria associated with diseases of vertebrates, including virulence factors and interaction of host responses. Concurrent students need to register for 5860L. (Typically Offered: Fall)

VMPM 5860L: Medical Bacteriology Laboratory

Credits: 2. Contact Hours: Laboratory 6.

Laboratory in clinical bacteriology and mycology. Credit or enrollment in VMPM 5860 or VMPM 6250. (Typically Offered: Fall)

VMPM 5870: Animal Virology

Credits: 4. Contact Hours: Lecture 4.

Prereq: Instructor Permission for Course

Principles of animal virology. Biology of viruses associated with diseases of veterinary importance, including mechanisms of pathogenesis. (Typically Offered: Spring)

VMPM 5900: Special Topics

Credits: 1-5. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VMPM 5990: Creative Component

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

A written report based on laboratory research, library reading, or topics related to the student's area of specialization and approved by the student's advisory committee. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**VMPM 6040: Seminar**

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Offered on a satisfactory-fail basis only. (Typically Offered: Fall)

VMPM 6080: Molecular Virology

(Cross-listed with MICRO 6080/ PLP 6080).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BBMB 4050 or GDCB 5110

Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis. Offered even-numbered years. (Typically Offered: Fall)

VMPM 6150: Molecular Immunology

(Cross-listed with MICRO 6150/ BBMB 6150).

Credits: 3. Contact Hours: Lecture 3.

Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signaling pathways leading to expression of genes that control and activate immune function. Offered odd-numbered years. (Typically Offered: Fall)

VMPM 6250: Mechanisms of Bacterial Pathogenesis

(Cross-listed with MICRO 6250).

Credits: 3. Contact Hours: Lecture 3.

Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included. Offered odd-numbered years. (Typically Offered: Spring)

VMPM 6290: Advanced Topics in Cellular Immunology

Credits: 2. Contact Hours: Lecture 2.

Prereq: VMPM 5200 or VMPM 5750

Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions. Offered even-numbered years. (Typically Offered: Spring)

VMPM 6600: Pathogenesis of Persistent Infections

(Cross-listed with VPTH 6600).

Credits: 2. Contact Hours: Lecture 2.

Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites. Offered odd-numbered years. (Typically Offered: Spring)

VMPM 6900A: Current Topics: Immunology

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Instructor Permission for Course

Colloquia or advanced study of specific topics in a specialized field. (Typically Offered: Fall, Spring, Summer)

VMPM 6900B: Current Topics: Infectious Diseases

Credits: 1-3. Contact Hours: Lecture 3.

Repeatable.

Prereq: Instructor Permission for Course

Colloquia or advanced study of specific topics in a specialized field. (Typically Offered: Fall, Spring, Summer)

VMPM 6980: Seminar in Molecular, Cellular, and Developmental Biology

(Cross-listed with BBMB 6980/ GDCB 6980/ MICRO 6980/ MCDB 6980).

Credits: 1-2. Contact Hours: Lecture 2.

Repeatable.

Student and faculty presentations. (Typically Offered: Spring)

VMPM 6990: Research

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

Courses primarily for professional curriculum students:**VMPM 7378: Case Study IV**

Credits: 2. Contact Hours: Lecture 2.

Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts. (Typically Offered: Spring)

VMPM 7380: Veterinary Immunology

Credits: 2. Contact Hours: Lecture 2.

Structure and function of the immune system in animals. (Typically Offered: Spring)

VMPM 7386: Veterinary Microbiology

Credits: 5. Contact Hours: Lecture 3, Laboratory 5.

Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures. (Typically Offered: Fall)

VMPM 7387: Veterinary Virology

Credits: 3. Contact Hours: Lecture 3.

Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance. (Typically Offered: Spring)

VMPM 7388: Public Health and the Role of the Veterinary Profession

Credits: 3. Contact Hours: Lecture 3.

Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics. (Typically Offered: Spring)

VMPM 7390: Topics in Veterinary History

Credits: 1. Contact Hours: Lecture 1.

An overview of the history of veterinary medicine focused primarily on disease-specific events. A review of the historical aspects of the veterinary profession's accomplishments in the discovery of the etiological origins of disease and their subsequent control will provide students with insights that are applicable to understanding and solving today's animal and human health challenges. (Typically Offered: Fall, Spring)

VMPM 7437: Infectious Diseases and Preventive Medicine

Credits: 3. Contact Hours: Lecture 3.

Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle, horses, poultry, and honeybees. (Typically Offered: Spring)

VMPM 7486: Laboratory in Public Health

Credits: 2. Contact Hours: Laboratory 5.

Repeatable.

Discussions, lectures, exercises and field trips related to veterinary public health. (Typically Offered: Fall, Spring, Summer)

VMPM 7490: Independent Study

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VMPM 7491: CDC Epidemiology Elective Preceptorship

Credits: 6.

Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control and Prevention. (Typically Offered: Fall, Spring, Summer)

VMPM 7496: International Experience

Credits: 1-12. Repeatable.

International Preceptorships and Study Abroad group programs.

Opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

(Typically Offered: Fall, Spring, Summer)

Veterinary Pathology (VPTH)

Courses primarily for undergraduates:

VPTH 3530: Introductory Parasitology

(Cross-listed with BIOL 3530/ MICRO 3530).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2120

Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

(Typically Offered: Spring)

VPTH 4010: Basics of Medical Terminology

Credits: 1. Contact Hours: Lecture 1.

Discussion of prefixes, suffixes, and roots (mostly from Latin and Greek) that comprise medical terms. (Typically Offered: Fall)

VPTH 4020: Introduction to Pathology

(Cross-listed with BIOL 4020).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2110, BIOL 2110L, BIOL 2120, and BIOL 2120L

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury. (Typically Offered: Fall)

VPTH 4030: Introduction to Pathology II

(Cross-listed with BIOL 4030).

Credits: 3. Contact Hours: Lecture 3.

Prereq: VPTH 4020 and BIOL 4020

Continuation of pathology topics begun in VPTH/BIOL 4020. How specific organ systems respond to injury using principles and information covered in VPTH 4020/ BIOL 4020. Study of a set of prototypical diseases that affect humans and animals. (Typically Offered: Spring)

Courses primarily for graduate students, open to qualified undergraduates:

VPTH 5030: Principles of Pathology

Credits: 3. Contact Hours: Lecture 3.

Introductory exploration of pathology as a medical discipline. This includes study of disease mechanisms via an introduction to general pathology topics (cell degeneration, necrosis, disturbances of growth, disturbances of blood flow, inflammation, neoplasia) and organ system-specific response to injury. (Typically Offered: Spring)

VPTH 5300: Teaching and Learning in Veterinary Medical Education

Credits: 3. Contact Hours: Lecture 3.

Study of principles of teaching and learning as they relate to veterinary medical education. These include: theories of learning, analyzing content/learners/context, identifying goals, identifying appropriate instructional strategies (specific to medical education), matching assessment processes to goals and strategies, common curricular approaches and decision-making processes in medical education, and the scholarship of teaching and learning for veterinary medical educators. Offered even-numbered years. (Typically Offered: Fall)

VPTH 5420: Anatomic Pathology I

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Basic pathology with emphasis on disease in animals and introduction to disease by system. (Typically Offered: Spring)

VPTH 5480: Diagnostic Parasitology Laboratory

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied aspects of veterinary parasitology. (Typically Offered: Fall, Spring, Summer)

VPTH 5490: Clinical Pathology Laboratory

Credits: 1. Contact Hours: Laboratory 3.

Repeatable, maximum of 1 credits.

Laboratory procedures and clinical interpretations with emphasis on hematology, cytology, and clinical chemistry. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

VPTH 5500: Surgical Pathology Laboratory

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens; classification of neoplasms. Course includes rotation through departmental biopsy service and review of selected cases from departmental archives. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

VPTH 5510: Postmortem Pathology Laboratory

Credits: 1-3. Contact Hours: Laboratory 3.

Repeatable.

Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on gross and microscopic lesions and diagnosis. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

VPTH 5540: Ethics in Scientific Research and Writing

Credits: 1. Contact Hours: Lecture 1.

Ethical conduct in biomedical research, criticism, writing, and adherence to regulations. Offered even-numbered years. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VPTH 5700: Systemic Pathology I

Credits: 4. Contact Hours: Lecture 4.

Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and cardiovascular systems. Emphasis on pathogenesis and histopathology correlated with interpretive clinical pathology where appropriate. DVM degree required. Offered even-numbered years. (Typically Offered: Fall)

VPTH 5710: Systemic Pathology II

Credits: 4. Contact Hours: Lecture 4.

Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems and special senses. Emphasis on pathogenesis and histopathology correlated with interpretive clinical pathology where appropriate. DVM degree required. Offered odd-numbered years. (Typically Offered: Fall)

VPTH 5720: Anatomic Pathology II

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Response to injury by each body system. (Typically Offered: Fall)

VPTH 5760: Veterinary Parasitology

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Parasitic diseases of domestic animals and their control. (Typically Offered: Fall)

VPTH 5900A: Special Topics: Veterinary Pathology

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VPTH 5900B: Special Topics: Veterinary Parasitology

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VPTH 5900C: Special Topics: Veterinary Toxicology

Credits: 1-4. Repeatable.

(Typically Offered: Fall, Spring, Summer)

VPTH 5900D: Special Topics: Veterinary Clinical Pathology

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VPTH 5900E: Special Topics: Other

Credits: 1-4. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VPTH 5960: International Preceptorship

Credits: 1-12. Repeatable, maximum of 12 credits.

International Preceptorships and Study Abroad Group programs.

This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

VPTH 5990A: Creative Component Research: Veterinary Pathology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course for departmental graduate research. (Typically Offered: Fall, Spring, Summer)

VPTH 5990B: Creative Component Research: Veterinary Parasitology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course for departmental graduate research. (Typically Offered: Fall, Spring, Summer)

VPTH 5990C: Creative Component Research: Veterinary Toxicology

Credits: 1-30. Repeatable.

Course for departmental graduate research. (Typically Offered: Fall, Spring, Summer)

VPTH 5990D: Creative Component Research: Veterinary Clinical Pathology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course for departmental graduate research. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:

VPTH 6040: Pathology Case Seminar

Credits: 1-2. Contact Hours: Lecture 2.
Repeatable.

Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

VPTH 6050: Current Topics Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Prereq: Instructor Permission for Course

A seminar of graduate research at the time of thesis or dissertation defense. (Typically Offered: Fall, Spring, Summer)

VPTH 6060A: Diagnostic Interpretation: Veterinary Pathology

Credits: Required. Contact Hours: Lecture 1.

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination. (Typically Offered: Fall, Spring, Summer)

VPTH 6060B: Diagnostic Interpretation: Veterinary Parasitology

Credits: Required. Contact Hours: Lecture 1.

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination. (Typically Offered: Fall, Spring, Summer)

VPTH 6060C: Diagnostic Interpretation: Veterinary Toxicology

Credits: Required. Contact Hours: Lecture 1.

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination. (Typically Offered: Fall, Spring, Summer)

VPTH 6060D: Diagnostic Interpretation: Veterinary Clinical Pathology

Credits: Required. Contact Hours: Lecture 1.

A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination. (Typically Offered: Fall, Spring, Summer)

VPTH 6550: Cellular and Molecular Pathology I

Credits: 3. Contact Hours: Lecture 3.

Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation. Graduate course in biochemistry, genetics, or cell biology recommended. Offered odd-numbered years. (Typically Offered: Spring)

VPTH 6560: Cellular and Molecular Pathology II

(Cross-listed with TOX 6560).

Credits: 3. Contact Hours: Lecture 3.

Cellular and molecular mechanisms of carcinogenesis. Offered even-numbered years. (Typically Offered: Spring)

VPTH 6600: Pathogenesis of Persistent Infections

(Cross-listed with VMPM 6600).

Credits: 2. Contact Hours: Lecture 2.

Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

Offered odd-numbered years. (Typically Offered: Spring)

VPTH 6610: Comparative Immunology and Infectious Disease

(Cross-listed with IMBIO 6610).

Credits: 2. Contact Hours: Lecture 2.

Discuss and define similarities and differences of varied host responses to infectious challenge. Learning will focus on comparative aspects of the host response and the unique aspects of immunity from different organisms, while highlighting molecular and mechanistic similarities of pathogen recognition, response and resolution. Offered odd-numbered years. (Typically Offered: Spring)

VPTH 6790: Histopathology of Laboratory Animals

Credits: 2.

Prereq: VPTH 5700 or VPTH 5710; Permission of Instructor

Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

VPTH 6990A: Research: Veterinary Pathology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course restricted to graduate program within the department. (Typically Offered: Fall, Spring, Summer)

VPTH 6990B: Research: Veterinary Parasitology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course restricted to graduate program within the department. (Typically Offered: Fall, Spring, Summer)

VPTH 6990C: Research: Veterinary Toxicology

Credits: 1-30. Repeatable.

Course restricted to graduate program within the department. (Typically Offered: Fall, Spring, Summer)

VPTH 6990D: Research: Veterinary Clinical Pathology

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Course restricted to graduate program within the department. (Typically Offered: Fall, Spring, Summer)

Courses primarily for professional curriculum students:

VPTH 7342: Anatomic Pathology I

Credits: 3. Contact Hours: Lecture 2, Laboratory 2.

Basic pathology with emphasis on disease in animals and introduction to disease by system. (Typically Offered: Spring)

VPTH 7372: Anatomic Pathology II

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Response to injury by each body system. (Typically Offered: Fall)

VPTH 7376: Veterinary Parasitology

Credits: 4. Contact Hours: Lecture 3, Laboratory 3.

Parasitic diseases of domestic animals and their control. (Typically Offered: Fall)

VPTH 7377: Case Study III

Credits: 2. Contact Hours: Lecture 1, Laboratory 2.

Clinical applications of the basic sciences taught concurrently in the fall semester of the second year curriculum in veterinary medicine. (Typically Offered: Fall)

VPTH 7409: Introduction to Veterinary Cytology and Laboratory**Techniques**

Credits: 1. Contact Hours: Laboratory 2.

Description, interpretation, and techniques for cellular preparations from tissues and body fluids. (Typically Offered: Spring)

VPTH 7425: Clinical Pathology

Credits: 4. Contact Hours: Lecture 2, Laboratory 4.

Principles of clinical hematology, clinical chemistry, and urinalysis in domestic animals. (Typically Offered: Spring)

VPTH 7456: Necropsy Laboratory Practicum

Credits: 1. Contact Hours: Laboratory 2.5.

Repeatable.

Practicum in postmortem examination and diagnosis.

VPTH 7457: Clinical Pathology Laboratory Practicum

Credits: 1. Contact Hours: Laboratory 1.

Repeatable.

Methodology in clinical chemistry, hematology and cytology; practice in interpretation of laboratory data.

VPTH 7476X: Clinical Veterinary Parasitology

Credits: 1-2. Repeatable.

Two week clinical rotation in clinical veterinary parasitology. Students will investigate parasitic disease with supervision of the instructors. Variable amount of travel to farm or sites will be required. Biosecurity: All students must follow current College policies regarding animal contact following foreign travel.

VPTH 7490: Independent Study

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

(Typically Offered: Fall, Spring, Summer)

VPTH 7492: Orientation for International Experience

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 1 credits.

8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work will be assigned. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VPTH 7495: Clinical Competency Skills Checklist/Remediation

Credits: Required. Contact Hours: Lecture 1.

In order to graduate, all 4th year veterinary students are required to complete a checklist of clinical procedures and complete any assigned remediation (based on evaluation in core clinical rotations). These requirements are tied to the college's AVMA COE accreditation, and this course is used to document completion of those requirements. Offered on a satisfactory-fail basis only. (Typically Offered: Spring)

VPTH 7496: International Experience

Credits: 1-12. Repeatable.

International Preceptorships and Study Abroad Group programs. Opportunities for students to be involved in applied clinical, production, and/or research experience in international locations. The course consists of 40 hour per week experiential learning opportunities. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Wind Energy Science, Engineering and Policy (WESEP)

Courses primarily for graduate students, open to qualified undergraduates:

WESEP 5010: Wind Energy Resources

Credits: 3. Contact Hours: Lecture 3.

Forecasting, wind measurement and analysis, site placement, aerodynamic principles associated with blade design, power generation technologies, power electronic topologies used in wind energy conversion, collection circuits, and grid operation with high wind penetration.

WESEP 5020: Wind Energy Systems

Credits: 3. Contact Hours: Lecture 3.

Systems approach to wind turbine design, manufacturing, installation, integrated with wind economics and policy issues. Topics include manufacturing practices used to produce wind turbines, construction practices, sensing and inspection technologies used in monitoring wind farm health, and the impact of policy making on the wind energy industry.

WESEP 5110: Wind Energy System Design

(Cross-listed with AERE 5110).

Credits: 3. Contact Hours: Lecture 3.

Advanced design, control, and operation of wind plants. Topics include electromechanical energy conversion systems, aerodynamic and aeroelastic loads, optimal control of wind farms, life cycle management strategies, tall tower design, and prediction of component residual life.

WESEP 5900: Special Topics

Credits: 1-3. Repeatable.

Advanced study of a research topic in the field of wind energy, science, engineering, and policy.

WESEP 5940: Wind Energy Real-Time Research Collaborative Seminar

Credits: 1. Contact Hours: Lecture 1.

Repeatable.

Identifying current wind energy research issues and conducting components of the research cycle in real-time, including proposal development, investigation/analysis/discovery, publication and presentation, ethical behavior, and leadership. (Typically Offered: Fall, Spring)

Women in Science and Engineering (WISE)

Courses primarily for undergraduates:

WISE 2010: Foundations in Development for Women* in STEM

Credits: 3. Contact Hours: Lecture 1.5, Discussion 1.5.

Foundation for developing skills and attitudes needed for responsible citizenship and complex problem solving in STEM. Exploration of experiences of diverse women* leaders in STEM fields. Development of an awareness that experiences in STEM cultures vary among women and intersecting identities and becoming open to diverse perspectives. Across multiple disciplinary perspectives in STEM, engagement with peers across STEM fields, development of community in small groups with peer leaders, and building of relationships with university leadership, industry professionals, and company executives. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

WISE 3070: Women in Science and Engineering

(Cross-listed with WGS 3070/ BIOL 3070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500; Sophomore classification

The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to under-representation; feminist critiques of science; examination of successful strategies. Does not satisfy biology major advanced credit requirements. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

WISE 4010X: Be WiSE: Life After Graduation

Credits: 1. Contact Hours: Laboratory 2.

Overview of financial and professional skills that will prepare you for success in your postgraduate STEM journey. Exploring opportunities that may lead to your life and career purpose in STEM. Establishing a diverse professional network, identifying mentors, and navigating STEM work environments. Learn about intergenerational communication, maintaining health in your personal and work life, and cultivating your authenticity as a professional. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

Women's and Gender Studies (WGS)

Courses primarily for undergraduates:

WGS 1600: Gender Justice

Credits: 1. Contact Hours: Lecture 0.5, Discussion 0.5.

Half semester course. Examines the socialization process in the United States and how our perspectives are formed. An introduction to patriarchy, sexism, and ally development are explored. Skills to enhance communication and understanding among women and men will be developed. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring)

WGS 2010: Introduction to Women's and Gender Studies

Credits: 3. Contact Hours: Lecture 3.

Introduction to the interdisciplinary field of Women's and Gender Studies. Contemporary status of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program. Meets U.S. Diversity Requirement.

WGS 2030: Introduction to Lesbian Communities

Credits: 3. Contact Hours: Lecture 3.

Study of contemporary and historic lesbian cultures and communities from a US and international perspective. Addresses issues of race, class, gender and sexuality as they intersect with the formation of lesbian identities. Explores who identifies as lesbian and how that dis/enables political resistance and formation of community. Meets U.S. Diversity Requirement.

WGS 2050: Introduction to Queer Studies

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 1500

Interdisciplinary study of issues relating to lesbian, gay, bisexual, transgender, and queer identities in the U.S. Attention will be given to race and socioeconomic class. Meets U.S. Diversity Requirement.

WGS 2100: Gender and Sexuality in American Pop Culture

Credits: 3. Contact Hours: Lecture 3.

Introduction to research and theory examining the ways gender and sexuality are conveyed through popular culture texts. Analysis of codes and their influence on the development of identities that shape how we view the world. Discussion of intersectional topics including race and class.

WGS 3010: International Perspectives on Women and Gender

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Study of women in a range of cultures, depending on faculty specialization. Special emphasis on women in development seen in postcolonial context. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

WGS 3070: Women in Science and Engineering

(Cross-listed with BIOL 3070/ WISE 3070).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500; Sophomore classification

The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to under-representation; feminist critiques of science; examination of successful strategies. Does not satisfy biology major advanced credit requirements. Meets U.S. Diversity Requirement. (Typically Offered: Fall)

WGS 3080: Write Like a Woman

(Cross-listed with ENGL 3080).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500

Writing and reading interpretive fiction written by women. Emphasis on stories that embody a female literary life, gender-specific ways of creating characters and conflicts, analytical reading and writing, workshop criticism and shared commentaries. Includes multi-modal projects. (Typically Offered: Fall)

WGS 3200: Ecofeminism

(Cross-listed with ENVS 3200).

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Women's relationships with the earth, non-human nature, and other humans. The course explores the connections between society's treatment of women and nature; origins of ecofeminism and how it relates to the science of ecology, conventional and sustainable agriculture as well as how ecofeminism relates to other branches of feminist philosophy. Evaluation and critique of modern science, technology, political systems and SOLUTIONS will be included.

WGS 3210: Economics of Discrimination

(Cross-listed with ECON 3210).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ECON 1010

Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Meets U.S. Diversity Requirement.

WGS 3230: Gender and Communication

(Cross-listed with SPCM 3230).

Credits: 3. Contact Hours: Lecture 3.

Examination of how understanding and enactment of gender identity is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Meets U.S. Diversity Requirement.

WGS 3250: Portrayals of Gender and Sexualities in the Media

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Survey of how the media and popular culture portray gender and sexualities and the impact on individuals and society. Images of women, men, transgender as well as heterosexual, non-heterosexual and others. Studies both historical and emerging images in the media in terms of stereotypes and positive images.

WGS 3270: Gender and Sexualities in Society

(Cross-listed with SOC 3270).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340

Develop a foundational understanding of the role of gender and sexuality in society. Students will explore the biological, social, and cultural meanings of gender and sexuality and their intersections with class, race/ethnicity, ability, socioeconomic status and other identities. Contemporary social science research, theories, and feminist perspectives as they relate to gender and sexuality, and explores gender and sexuality within families, education, the media, politics, and the economy. Meets U.S. Diversity Requirement. (Typically Offered: Fall, Spring, Summer)

WGS 3280: Sociology of Masculinities and Manhood

(Cross-listed with SOC 3280).

Credits: 3. Contact Hours: Lecture 3.

Prereq: SOC 1340 or WGS 2010

Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age. (Typically Offered: Spring)

WGS 3330: Women, Gender, and Leadership

(Cross-listed with LDST 3330).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

An intersectional approach to understanding gender and leadership as it relates to women from various races, ethnicities, gender identities, sexual orientations and abilities. Meets U.S. Diversity Requirement.

WGS 3360: Religion, Sex and Gender

(Cross-listed with RELIG 3360).

Credits: 3. Contact Hours: Lecture 3.

Prereq: (3 credits in RELIG or WGS) or Permission of Instructor

Gender and sexuality in the historical and contemporary contexts of various religious traditions. Meets International Perspectives Requirement. (Typically Offered: Fall)

WGS 3380: Feminist Philosophy

(Cross-listed with PHIL 3380).

Credits: 3. Contact Hours: Lecture 3.

A critical, theoretical examination of the philosophical and intellectual commitments that underlie feminist projects. Questions of identity, knowledge, and ethics will be considered from both historical and contemporary perspectives. Topics will include sex and gender, self and other, nature and nurture, masculinity and femininity, equity and justice, patriarchy, oppression, and intersectionality. 3 credits in PHIL or WGS recommended. (Typically Offered: Fall)

WGS 3390: Goddess Religions

(Cross-listed with RELIG 3390).

Credits: 3. Contact Hours: Lecture 3.

Focal study of selected global Goddess traditions in context, including American Goddess spirituality. Historical and cross-cultural images, identities, and discourses of female divinity.

WGS 3420: Culture, Sex, and Gender

(Cross-listed with ANTHR 3420).

Credits: 3. Contact Hours: Lecture 3.

Cross-cultural examination of gender and sexuality. Emphasis on global and transnational perspectives. Topics will include varied gender and sexual expressions, status and roles, intersectionality in global or transnational contexts, and the examination of systems of oppression cross-culturally. ANTHR 2010 or WGS 2010 recommended. Meets International Perspectives Requirement. (Typically Offered: Spring)

WGS 3440: Human Reproduction

(Cross-listed with BIOL 3440).

Credits: 3. Contact Hours: Lecture 3.

Prereq: BIOL 2120

Biology of human reproduction, including reproductive systems, hormones, and endocrinology of pregnancy, presented from a clinically-oriented perspective. Reviews health-related conditions such as infertility, sexually-transmitted diseases, and complicated pregnancy. (Typically Offered: Spring)

WGS 3450: Women's Literature

(Cross-listed with ENGL 3450).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500

Focused study of literature by women and about women that focuses on a particular genre (fiction, non-fiction, poetry, film, drama, media), author, or theme.

WGS 3460: Psychology of Women

(Cross-listed with PSYCH 3460).

Credits: 3. Contact Hours: Lecture 3.

Prereq: PSYCH 1010; 1 additional PSYCH course

Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls' and women's psychological development and behavior. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

WGS 3490X: Psychology of Sexual Orientation

(Cross-listed with PSYCH 3490X).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Prereq: PSYCH 1010; 3 additional credits in PSYCH

Development of major human sexual orientation identities (e.g., bisexual, gay, heterosexual, and lesbian) from a research perspective. How persons navigate life contexts (e.g., family, work, relationships) in connection with their sexual identity. Factors that enhance positive sexual orientation identity development. (Typically Offered: Spring)

WGS 3500: Women of Color in the U.S

(Cross-listed with AFAM 3500).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in WGS or AFAM

Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored.

WGS 3520: Queer Literature

(Cross-listed with ENGL 3520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500

Focused study of literary portrayals of queer lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and LGBTQ identities over time.

WGS 3700F: Studies in English Translation: French Topics on Women and Gender Studies

(Cross-listed with FRNCH 3700F).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Topics vary according to faculty interest. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

WGS 3700G: Studies in English Translation: German Topics on Women or Feminism

(Cross-listed with GER 3700G).

Credits: 3-4. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: Sophomore classification

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Three credits: English, open to all students. Four credits: Required for German concentration credit, supplementary readings and compositions in German. For enrollment in fourth credit, 6 credits in GER at the 3000-level. Meets International Perspectives Requirement.

WGS 3700R: Studies in English Translation: Russian Topics on Women or Feminism

(Cross-listed with RUS 3700R).

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. Meets International Perspectives Requirement.

WGS 3700S: Studies in English Translation: Hispanic Topics on Women or Feminism

(Cross-listed with SPAN 3700S).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite. Meets International Perspectives Requirement.

WGS 3740: Sex, Gender, and Culture in the Ancient Mediterranean World

(Cross-listed with HIST 3740/ CLST 3740).

Credits: 3. Contact Hours: Lecture 3.

Survey of the roles of women and others on the margins and the issues that impacted them in the ancient Greek and Roman worlds. Evidence from literature, the visual arts, and archaeology. Contemporary approaches to studying women, gender, and sexuality in ancient history. Intersections of gender categories with ideas of slave and free status, citizenship, and ethnicity. Readings from ancient and modern sources. Meets International Perspectives Requirement.

WGS 3800: History of Women in Science, Technology, and Medicine

(Cross-listed with HIST 3800).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

History of women's relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine. Meets U.S. Diversity Requirement.

WGS 3850: Women in Politics

(Cross-listed with POLS 3850).

Credits: 3. Contact Hours: Lecture 3.

Entry and participation of women in politics in the United States and other countries. Contemporary issues and strategies for change through the political process. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

WGS 3860: History of Women in America

(Cross-listed with HIST 3860).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

A survey of social, economic, and political aspects of women's role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home. Meets U.S. Diversity Requirement.

WGS 3870: First Ladies in U.S. History

(Cross-listed with POLS 3870/ HIST 3870).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

Evolution of the role and office of the First Lady in U.S. history, including her political activism, social impact, and international influence. Analysis of the authority, intersectionality and agency of First Ladies in the aggregate and exploration of how individual First Ladies have interpreted and adapted this unique public position. Offered even-numbered years. (Typically Offered: Fall)

WGS 4010: Feminist Theories

Credits: 3. Contact Hours: Lecture 3.

Prereq: 3 credits in WGS at the 3000 level or above

Current theories of feminism, the feminine and sexual difference. Topics in race, class, sexuality, and ethnicity as they are addressed in diverse feminisms. May include readings in lesbian, Black, postcolonial, psychoanalytic and postmodern thought. Meets U.S. Diversity Requirement.

WGS 4020: Feminist Research in Action

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010; WGS 3010

Feminist research methods and scholarship. Class collaborates on a community research and action project to improve women's lives. (Typically Offered: Spring)

WGS 4100: Human Trafficking

(Dual-listed with SOC 5100/ WGS 5100). (Cross-listed with SOC 4100).

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Issues related to human trafficking and modern-day slavery in the US and world. History of and concepts defining forms of violence experienced by trafficking victims and methods used to recruit and control victims. Students will learn how to educate others about this crime against humanity. Examines international, federal, and state legislation to prevent human trafficking. Graduation Restriction: Only one of WGS 4100 may count toward graduation.

WGS 4220: Women, Men, and the English Language

(Cross-listed with LING 4220/ ENGL 4220).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2190 or LING 2190

The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. (Typically Offered: Spring)

WGS 4250: Intersections of Race, Class and Gender

(Dual-listed with WGS 5250).

Credits: 3. Contact Hours: Lecture 3.

Race, ethnicity, class and gender distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life. Meets U.S. Diversity Requirement.

WGS 4300: Gender and Consumer Culture

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Historical roots of consumer culture, political economy, technology, and how the rise of the mass-market intersects with cultural ideas of gender, race, class, and sexuality. How gender, as well as personal and group identities, is formed through all forms of consumption. Examination of gendered advertising, material goods, and lifestyles created around specific acts of consumption.

WGS 4350: Gender, Globalization and Development

(Dual-listed with WGS 5350).

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 3010

Cross-cultural study of historical and contemporary dimensions of gender, globalization and development. Explores the interdependence of socio-economic and political aspects of globalization using feminist postcolonial and transnational frameworks. Analyses of case studies and activism in contexts of economic livelihoods, environmental justice, and cross-border migrations.

WGS 4400: Gender Issues in Sports

Credits: 3. Contact Hours: Lecture 3.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Social, economic, political, and cultural variables that influence and shape sports, especially for girls and women. Topics include Title IX, coaching and administrative challenges for women, media and gender, and issues related to eating disorders, homophobia, and gender identity in sport.

WGS 4500: Topics in Women's and Gender Studies

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: WGS 2010 or 3 credits in WGS at 3000 level or above

Advanced research and theory related to special topics and issues in women's and gender studies. Specific topics indicated in the schedule of classes. Graduation Restriction: A maximum of 6 credits of WS / WGS 4500 can count toward graduation.

WGS 4570: History of American Sexualities

(Cross-listed with HIST 4570).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Sophomore classification

The social construction of American sexualities from the colonial era to the present with particular emphasis on how ideas about sex and sexuality have shaped American public life, including education, public policy, party politics, and racial justice. Meets U.S. Diversity Requirement.

WGS 4580: Queer Fashions: History, Culture, and the Industry

(Cross-listed with AMD 4580).

Credits: 3. Contact Hours: Lecture 3.

Focus on analyzing the dressed and undressed body of individuals in the queer and trans communities in various cultural contexts with a focus on material culture. Examine concepts related to gender and sexuality and the changing definitions and representations of individuals who identify in the queer and trans communities focusing on appearance, fashion, and the body. Historic and current representations of fashion, styles, and appearances will be analyzed and discussed. Attention to how sexuality and gender intersect with and shape other identities including race, ability, body size, and class. Examine the complex structures, systems, and ideologies that uphold discrimination and inequitable distribution of power and resources as related to the course material. Attention will mostly be given to North American perspectives. We will use material culture to explore how objects related to fashioning the body reveal lived experiences about the owners and consumers. Offered even-numbered years. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

WGS 4600: Seminar in Gender and Ethnicity

(Cross-listed with ENGL 4600).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Prereq: Junior standing

Selected readings of various authors, movements, eras, or genres.

Readings in criticism; required research paper.

WGS 4900: Independent Study

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: Instructor Permission for Course

Independent study on a topic in Women's Studies. (Typically Offered: Fall, Spring, Summer)

WGS 4910: Internship

Credits: 1-3. Repeatable, maximum of 6 credits.

Prereq: Junior or senior classification; permission of department

Internship designed to provide an application of Women's and Gender Studies principles and methods in a workplace. To be arranged with an internal or external employer and conducted under the supervision of a member of the Women's Studies faculty. (Typically Offered: Fall, Spring, Summer)

WGS 4940: Women/Gender in Art

(Cross-listed with ARTH 4940).

Credits: 3. Contact Hours: Lecture 3.

Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

WGS 4990: Senior Thesis

Credits: 3.

Prereq: Senior classification; Permission of Instructor

Senior thesis to be independently researched and written under the supervision of a member of the Women's Studies faculty. (Typically Offered: Fall, Spring, Summer)

Courses primarily for graduate students, open to qualified undergraduates:

WGS 5010: Contemporary Feminist Theories

Credits: 3. Contact Hours: Lecture 3.

Advanced study of current theoretical developments in Women's Studies in the U.S. and around the world. Examination of the epistemological bases of feminist scholarship. (Typically Offered: Fall)

WGS 5020: Advanced Seminar in Feminist Research Methods

Credits: 3. Contact Hours: Lecture 3.

Focus on feminist interdisciplinary research methods. Analysis of contemporary issues facing feminist scholars. Students conduct original research. (Typically Offered: Spring)

WGS 5100: Human Trafficking

(Dual-listed with SOC 4100/ WGS 4100). (Cross-listed with SOC 5100).

Credits: 3. Contact Hours: Lecture 3.

Issues related to human trafficking and modern-day slavery in the US and world. History of and concepts defining forms of violence experienced by trafficking victims and methods used to recruit and control victims. Students will learn how to educate others about this crime against humanity. Examines international, federal, and state legislation to prevent human trafficking. Graduation Restriction: Only one of WGS 4100 may count toward graduation.

WGS 5250: Intersections of Race, Class and Gender

(Dual-listed with WGS 4250).

Credits: 3. Contact Hours: Lecture 3.

Race, ethnicity, class and gender distinctions and intersections lead to inequitable distributions of power, social well-being, and resources. Explores how inequities are institutionalized and how multiple identities are experienced by women in daily life.

WGS 5350: Gender, Globalization and Development

(Dual-listed with WGS 4350).

Credits: 3. Contact Hours: Lecture 3.

Cross-cultural study of historical and contemporary dimensions of gender, globalization and development. Explores the interdependence of socio-economic and political aspects of globalization using feminist postcolonial and transnational frameworks. Analyses of case studies and activism in contexts of economic livelihoods, environmental justice, and cross-border migrations.

WGS 5450: Women's Literature

(Cross-listed with ENGL 5450).

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 6 credits.

Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women's Personal Narratives; Southern Women Writers of the U.S.

WGS 5580: Queer Fashions: History, Culture, and the Industry

(Cross-listed with AMD 5580).

Credits: 3. Contact Hours: Lecture 3.

Focus on analyzing the dressed and undressed body of individuals in the queer and trans communities in various cultural contexts with a focus on material culture. Examine concepts related to gender and sexuality and the changing definitions and representations of individuals who identify in the queer and trans communities focusing on appearance, fashion, and the body. Historic and current representations of fashion, styles, and appearances will be analyzed and discussed. Attention to how sexuality and gender intersect with and shape other identities including race, ability, body size, and class. Examine the complex structures, systems, and ideologies that uphold discrimination and unequitable distribution of power and resources as related to the course material. Attention will mostly be given to North American perspectives. We will use material culture to explore how objects related to fashioning the body reveal lived experiences about the owners and consumers. Offered even-numbered years. Meets U.S. Diversity Requirement. (Typically Offered: Spring)

WGS 5860: Readings Seminar in Women's and Gender History

(Cross-listed with HIST 5860).

Credits: 3. Contact Hours: Lecture 3.

Readings in women's and gender history.

WGS 5900: Special Topics

Credits: 1-30. Repeatable.

Prereq: Instructor Permission for Course

Independent study on a topic in Women's Studies. (Typically Offered: Fall, Spring, Summer)

WGS 5940: Women/Gender in Art

(Cross-listed with ARTH 5940).

Credits: 3. Contact Hours: Lecture 3.

Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

Courses for graduate students:

WGS 6210: Pedagogies of Dissent

(Cross-listed with ELPS 6210).

Credits: 3. Contact Hours: Lecture 3.

Critical examination of the theoretical foundations of contemporary and historical pedagogical traditions that seek to challenge the status quo, expand justice, and deepen democracy. (Typically Offered: Spring)

World Film Studies (WFS)

Courses primarily for undergraduates:

WFS 2780: Introduction to Global Film

Credits: 3. Contact Hours: Lecture 3.

Introduction to the cinema of non-English speaking regions and cultures of the world through representative subtitled films, lectures, and readings. Topics vary according to faculty interest. Emphasis on selected national cinemas and film as a mode of cultural expression as well as on diverse cultural contexts of cinema. Meets International Perspectives Requirement. (Typically Offered: Fall)

World Languages and Cultures (WLC)

Courses primarily for undergraduates:

WLC 1070: Introduction to Swahili

Credits: 1. Contact Hours: Lecture 1.

Basics of grammar and vocabulary within the context of the cultures where Swahili is spoken. For students whose native language is not Swahili. Taught in Swahili. Offered on-line. Offered irregularly. (Typically Offered: Spring)

WLC 1190: Introduction to World Languages

(Cross-listed with LING 1190).

Credits: 3. Contact Hours: Lecture 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and language use, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy. Meets International Perspectives Requirement.

WLC 2050: World Religions

(Cross-listed with RELIG 2050).

Credits: 3. Contact Hours: Lecture 3.

An introduction to religious studies - the academic study of religion.

Religions from around the world will be discussed, including their myths, rituals, beliefs, values, and social forms. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring, Summer)

WLC 2100: Introduction to Asian American Studies

(Cross-listed with ANTHR 2100).

Credits: 3. Contact Hours: Lecture 3.

An interdisciplinary and chronological examination of Asian American immigration experiences from the early 19th century to the 21st century. Focus on how these immigration histories are accompanied by changing racial constructions. Discussion of racial stereotyping, the model minority myth, identity development, and efforts for social justice. Meets U.S. Diversity Requirement.

WLC 2700: Cultures in Transition

Credits: 3. Contact Hours: Lecture 3.

An interdisciplinary introduction to a world region in a state of rapid social and cultural transition. Discussion of the history, social and political institutions, arts, economy, agriculture, and environment of the new nations. Meets International Perspectives Requirement.

WLC 3520: Religions of India

(Cross-listed with RELIG 3520).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

Study of texts, practices, beliefs, historical development, and mutual influence of a variety of the religious traditions of India. Emphasis on Vedic religion and the diversity of traditions of Classical Hinduism; survey of Buddhist, Jain, Sikh, and South Asian Islamic traditions. Meets International Perspectives Requirement.

WLC 3580: Islam

(Cross-listed with RELIG 3580).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

An introduction to Islamic religion, culture, and society from its origins to the present. Topics include the Quran, the Prophet Muhammad, Islamic theology and philosophy, Islamic history, and Islam in America. Meets International Perspectives Requirement.

WLC 3590: The Quran

(Cross-listed with RELIG 3590).

Credits: 3. Contact Hours: Lecture 3.

Prereq: ENGL 2500 or Permission of Instructor

A study of the Quran, the sacred text of Islam, with attention to its history, its major themes, and the diverse ways it is interpreted and applied. Meets International Perspectives Requirement.

WLC 3700A: Topics in World Languages and Cultures in English

Translation: Global Sustainability

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English. Meets International Perspectives Requirement.

WLC 3700B: Topics in World Languages and Cultures in English

Translation: Middle East

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English. Meets International Perspectives Requirement.

WLC 3700C: Topics in World Languages and Cultures in English

Translation: Global Urban Cultures

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 9 credits.

Topics vary according to faculty interest. Author, genre or period study, women's writing, cinema, or cultural studies of a non-English speaking world culture or cultures. Readings, discussion, and written work in English. Meets International Perspectives Requirement.

WLC 3710X: The Arabian Nights

(Cross-listed with ARABC 3710X).

Credits: 3. Contact Hours: Lecture 3.

Focus on the tales of the famous '1001 Arabian Nights' book.

Discussions of the narrative tools, supernatural elements, and the culture of the Medieval Middle East. Readings, discussions, and papers in English. Meets International Perspectives Requirement. (Typically Offered: Fall, Spring)

WLC 4170G: Student Teaching: World Language

(Dual-listed with EDUC 5170G/ WLC 5170G). (Cross-listed with EDUC 4170G).

Credits: 1-30. Repeatable.

Prereq: Minimum cumulative GPA of 2.5; Department Permission

Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades. (Typically Offered: Fall, Spring)

WLC 4840: Technology, Globalization and Culture

(Cross-listed with ME 4840/ MKT 4840).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Junior or Senior Classification

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement. (Typically Offered: Fall)

WLC 4860: Methods in Elementary School World Language Instruction

(Cross-listed with EDUC 4860/ LING 4860).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 25 credits in a World Language

Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on K-8 students' communicative skills, cultural knowledge, and content learning. (Typically Offered: Fall)

WLC 4870: Methods in Secondary School World Language Instruction

(Cross-listed with EDUC 4870/ LING 4870).

Credits: 3. Contact Hours: Lecture 3.

Prereq: 25 credits in a world language; Department Permission

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning. Admission to teacher education required. (Typically Offered: Fall)

WLC 4910: Experiences Abroad: Learning to Think Globally

(Cross-listed with INTST 4910).

Credits: 1. Contact Hours: Lecture 1.

Repeatable, maximum of 2 credits.

Prereq: Minimum of 3 credits of study abroad and/or internship abroad

Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside ISU. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduates:

WLC 5170G: Student Teaching: World Language

(Dual-listed with EDUC 4170G/ WLC 4170G). (Cross-listed with EDUC 5170G).

Credits: 1-30. Repeatable.

Prereq: Admitted to the Educator Preparation Program

Evaluation of instruction, lesson planning, and teaching in world languages, secondary grades. (Typically Offered: Fall, Spring)

WLC 5840: Technology, Globalization and Culture

(Cross-listed with ME 5840/ MKT 5840).

Credits: 3. Contact Hours: Lecture 3.

Prereq: Graduate classification

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists. Meets International Perspectives Requirement. (Typically Offered: Fall)

Youth (YTH)

Courses primarily for graduate students, open to qualified undergraduates:

YTH 5020: Foundations of Positive Youth Development

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Fundamentals of positive youth development, theories, and principles utilized in the youth development profession. Ethical, professional, and historical elements of youth development as it has evolved toward professionalization. (Typically Offered: Fall, Spring, Summer)

YTH 5100: Adolescents and Their Families

Credits: 3. Contact Hours: Lecture 3.

Adolescent development as it is related to and intertwined with family development; reciprocal influences between adolescents and their families are examined. Working with youth vis a vis the family system will be highlighted. (Typically Offered: Fall, Spring)

YTH 5200: Positive Youth Development in Community Settings

Credits: 3. Contact Hours: Lecture 3.

Focus on the national emphasis of a strength-based or asset approach to community youth development, encompassing individual development (i.e., positive youth development) and adolescent interrelationships with environments. Emphasis is placed upon research, theory, and practice applied in communities throughout the U.S. Students will explore existing models, read theoretical and applied literature, and examine current community efforts as a basis for understanding community youth development. (Typically Offered: Fall, Spring)

YTH 5300: Youth in Cultural Contexts

Credits: 3. Contact Hours: Lecture 3.

Examination of the cultural context factors that affect youth from a holistic perspective within and outside the family unit. The course will provide an understanding of the cultural heritage of differing family structures and types. Students will explore the social and educational processes experienced by youth through in-depth reading, writing, discussion, critical listening, viewing of contemporary videos, and informal interviews with youth. Students will be encouraged to think critically about society and culture, gain further knowledge of how ethnic groups fit historically into society, and examine the results of how history has shaped the current cultural climate of the U.S. (Typically Offered: Fall, Spring)

YTH 5400: Youth Professionals as Consumers of Research

Credits: 3. Contact Hours: Lecture 3.

This course will help youth development professionals understand and evaluate research reports to reduce anxiety about applying research results and theories to practice. Specific emphasis will be on research and theory reports related to youth development. (Typically Offered: Fall, Spring)

YTH 5500: Youth Policy

Credits: 3. Contact Hours: Lecture 3.

Various federal and state policies designed specifically for youth. Students will examine how and why policies for youth are constructed. A guiding question that will be used to evaluate existing state and national policies is whether they contribute to, or act as, barriers to desired developmental outcomes. (Typically Offered: Fall, Spring)

YTH 5600: Youth-Adult Relationships

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

The role of youth-adult relationships in promoting the positive development of youth. Attitudes and activities that support youth engagement and agency. Research and practice of mentorship, youth-adult partnerships, and youth leadership. (Typically Offered: Fall, Spring)

YTH 5700JX: Contemporary Youth Issues: Adolescent Sexuality, Pregnancy, and Parenthood

Credits: 3. Contact Hours: Lecture 3.

This course explores adolescent sexuality development, sexual behaviors, and pregnancy/parenthood. These topics will be explored with respect to normative development and the reciprocal influences of the youth's ecology (i.e., family, school, community). Implications for professionals working with youth sexuality, pregnancy, and parenthood will be explored and highlighted.

YTH 5700L: Contemporary Youth Issues: Mental Health

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Understand optimal mental health in youth and how it can be promoted. Current theories and research related to optimal mental health and how promoting positive development is both similar to and different from preventing negative outcomes. Learn to assess a given youth development program in terms of its potential to promote positive mental health. Offered odd-numbered years. (Typically Offered: Summer)

YTH 5700M: Contemporary Youth Issues: Working with Adolescents with Difficulties

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Examines cognitive, self, and social transitions during adolescence. Topics include issues of identity, society's understanding of adolescents, and how adolescents and their parents, siblings, peers, teachers, and society interact. Offered odd-numbered years. (Typically Offered: Summer)

YTH 5700N: Contemporary Youth Issues: Understanding Normative Behavior in Immigrant & Minority Youth

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Explores the etiology of adolescent deviance using a positive, cross-national/crosscultural perspective. Includes implications of theory, empirical research, current prevention programs and needs assessments. Offers a look at deviance from different perspectives as well as a comparison of normative and non-normative development of youth. (Typically Offered: Fall)

YTH 5700P: Contemporary Youth Issues: Youth, Families & Technology

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Understand the interconnectedness of technology and youth/family. Formulate constructive and realistic strategies to enrich the life of a family or a youth in a society heavily dependent on technology. Topics of the course include identity formation, privacy, race, class, gender, subculture, risky behavior, policing, education, globalization, health, and policies. Offered odd-numbered years. (Typically Offered: Summer)

YTH 5700R: Contemporary Youth Issues: Sports, Youth and Society

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

Examination of how sports and society help us better understand what we value, how we become who we are, and how we may be able to realize social justice in a larger social context. Offered even-numbered years.

(Typically Offered: Summer)

YTH 5700TX: Contemporary Youth Issues: Systems of Care for Youth at Risk

Credits: 3. Contact Hours: Lecture 3.

Repeatable, maximum of 3 times.

CYI: Issues faced by youth today and associated risk and resiliency factors. A different topic will be presented each year, with the course rotating among participating universities. Topics have included Adolescent Health and Sexuality, Systems of Care for Youth at Risk, Mental Health, Immigrant and Minority Youth, Sports, Technology, etc.

The course may be taken more than once, as long as the content is different each time. Offered odd-numbered years. (Typically Offered: Spring)

YTH 5700UX: Contemporary Youth Issues: Adolescent Health & Sexuality

Credits: 3. Contact Hours: Lecture 3.

Repeatable.

CYI: Issues faced by youth today and associated risk and resiliency factors. A different topic will be presented each year, with the course rotating among participating universities. Topics have included Adolescent Health and Sexuality, Systems of Care for Youth at Risk, Mental Health, Immigrant and Minority Youth, Sports, Technology, etc.

The course may be taken more than once, as long as the content is different each time. (Typically Offered: Fall)

YTH 5800: Youth Development Personnel and Program Management

Credits: 3. Contact Hours: Lecture 3.

Introduction to the development, administration and management of youth-serving organizations. (Typically Offered: Fall, Spring)

YTH 5850: Design and Evaluation of Youth Programs

Credits: 3. Contact Hours: Lecture 3.

Theoretical, methodological, and pragmatic issues involved in conducting programs and scholarship. Overview of the program development process and outcome evaluation of children and family programs. Modes of outcome scholarship and their implications for community-based programs are discussed. Students will develop knowledge through participating in a community-based project involving the practical application of program design and evaluation methods. (Typically Offered: Fall, Spring)

YTH 5890: Grant Development and Management.

Credits: 3. Contact Hours: Lecture 3.

Grant-getting process and an overview of what happens after a project is funded. The following topics will be covered: researching funding sources, generating cutting edge ideas, assessing needs, planning a project, establishing credibility, formulating a sustainable budget, designing an evaluation plan, managing the funded project, and disseminating project results. (Typically Offered: Fall)

YTH 5990: Creative Component

Credits: 1-30. Repeatable.

Nonthesis students creative component (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of five credits of independent work is required on the programs of study (POS). Creative component format determined cooperation with the POS committee. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

Courses for graduate students:**YTH 6340: Youth Development**

Credits: 3. Contact Hours: Lecture 3.

Introduction to the developmental period of adolescence. The theory and research of positive youth development will be the lens through which this developmental period is examined. The course will emphasize how the developmental tasks of this life stage are influenced by (and influence) family and home, school, peers, and other contextual forces. The course will help students recognize and become familiar with the major issues and transitions adolescents face as they successfully navigate this developmental stage by critically examining the theoretical and research literature. (Typically Offered: Fall, Spring)

YTH 6900: Advanced Topics

Credits: 1-30. Contact Hours: Lecture 30.

Repeatable.

Advanced topics. (Typically Offered: Fall, Spring, Summer)

YTH 6910: Internship

Credits: 1-30. Repeatable.

Supervised practice and experience in college teaching, research, professional experience. Offered on a satisfactory-fail basis only. (Typically Offered: Fall, Spring, Summer)

IOWA STATE FACULTY

A

ABARCA, SAUL

Assistant Teaching Professor of Horticulture. Bachelor's, Universidad Veracruzana; Master's, Georgia; Ph.D., Iowa State.

ABBOTT, ERIC ALAN

Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1967, Iowa State; M.S., 1970, Ph.D., 1974, Wisconsin.

ABDELKHALIK, OSSAMA

Professor of Aerospace Engineering. B.Sc., 1996, M.Sc., 2000, Cairo; Ph.D., 2005, Texas A&M.

ABEL, CRAIG

Affiliate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1987, M.S., 1993, Ph.D., 1998, Iowa State.

ABELSON, ABRAHAM G.

Emeritus Professor of School of Education. B.A., 1964, M.Ed., 1970, Pennsylvania State; Ph.D., 1976, Michigan.

ABENDROTH, ROBERT E.

Emeritus Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1966, M.S., 1968, Ph.D., 1983, Wisconsin.

ABRAHAM, ROBERTA G.

Emerita Professor of English. B.A., 1953, Cornell; M.A., 1976, Iowa State; Ph.D., 1981, Illinois.

ACERBO, MARTIN J.

Associate Teaching Professor of Psychology. M.S., 1996, Buenos Aires National; Ph.D., 2001, rer.nat. Konstanz (Germany).

ACHTER, CHARLES THOMAS

Emeritus Senior Lecturer in School of Education. B.A., 1969, St. John's; M.S., 1975, St. Cloud State.

ACKER, DAVID G.

Professor of Agricultural Education and Studies; Associate Dean of the College of Agriculture and Life Sciences. B.A., 1975, Wilmington; M.Ed., 1980, M.S., 1980, California (Davis); Ph.D., 1989, Oregon State.

ACKERMAN, RALPH A.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.A., 1967, Rutgers; Ph.D., 1975, Florida.

ADAMS, BAILEY

Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2019, Ph.D., 2022, Iowa State.

ADAMS, CYNTHIA ANN

Associate Teaching Professor of Kinesiology. B.S., 1983, New York; M.A., 1990, California (Los Angeles).

ADAMS, DEAN

Professor of Ecology, Evolution, and Organismal Biology. Distinguished Professor in Liberal Arts and Sciences. B.A., 1992, Franklin and Marshall College; M.Sc., 1994, Louisiana; Ph.D., 1999, New York (Stony Brook).

ADAMS, DONALD R.

Emeritus Professor of Biomedical Sciences; University Professor. A.B., 1960, California (Davis); M.A., 1967, Chico State; Ph.D., 1970, California (Davis).

ADAMS, JEAN W.

Emerita Professor of Economics. B.A., 1969, M.A., 1971, Ph.D., 1973, Illinois.

ADAMS, ROY DEAN

Emeritus Professor of Economics. B.A., 1968, M.A., 1971, Ph.D., 1972, Illinois.

ADELEKE, RAIMI OLATUNJI

Professor of History; Director of African and African American Studies. University Professor. B.A., 1978, Ife (Nigeria); M.A., 1981, Ph.D., 1985, Western Ontario.

ADELMAN, JAMES STEPHEN

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1999, Duke; Ph.D., 2010, Princeton.

ADHIKARI, LEKHA

Associate Teaching Professor of Physics and Astronomy. Ph.D., 2014, New Mexico State.

ADURI, PAVANKUMAR R.

Professor of Computer Science. B.Tech., 1993, Jawaharlal Nehru Technological; M.S., 1995, Indian Institute of Technology; Ph.D., 2001, New York (Buffalo).

AERTSENS, ADRIEN

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2006, Universite de Liege.

AGARWAL, SANJEEV

Emeritus Professor of Marketing. B.E., 1979, Roorkee (India); M.S., 1980, California (Davis); M.A., 1986, Ph.D., 1986, Ohio State.

AGBA, EMMANUEL IKECHUKWU

Teaching Professor of Mechanical Engineering. B.Eng., 1984, M.Eng., 1988, Benin (Nigeria); Ph.D., 1991, Florida Atlantic.

AGNIHOTRI, RAJ

Professor of Marketing. B.E., Pune (India); M.B.A., Oklahoma City; Ph.D., Kent State.

AHN, DONG UK

Professor of Animal Science. B.S., 1978, M.S., 1983, Seoul National; Ph.D., 1988, Wisconsin.

AHN, HEE-KWON

Affiliate Associate Professor of Agricultural and Biosystems Engineering. B.S., 1996, Kangwon National; M.S., 1999, Ph.D., 2003, Seoul National.

AHRENS, FRANKLIN A.

Emeritus Professor of Biomedical Sciences. B.S., 1959, D.V.M., 1959, Kansas State; M.S., 1965, Ph.D., 1968, Cornell.

AIGNER, STEPHEN M.

Emeritus Associate Professor of Sociology and Criminal Justice. B.A., 1967, Knox; M.S.W., 1969, M.A., 1972, Ph.D., 1976, Michigan.

AITCHISON, GARY L.

Emeritus Associate Professor of Management and Entrepreneurship. B.A., 1956, Northern Iowa; M.A., 1961, Northern Colorado; Ph.D., 1972, Iowa State.

AJJARAPU, VENKATARAMANA

Professor of Electrical and Computer Engineering. B.Tech., 1979, Jawaharal Nehru Tech; M.Tech., 1981, Indian Institute of Technology; Ph.D., 1986, Waterloo.

AJMERA, BEENA

Assistant Professor of Civil, Construction, and Environmental Engineering. Bachelor's, Master's, California State (Fullerton); Ph.D., Virginia Polytechnic.

AKINC, MUFIT

Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Chemical and Biological Engineering. B.S., 1970, M.S., 1973, Middle East Technical (Turkey); Ph.D., 1977, Iowa State.

AKKURT, CIGDEM

Emeritus Associate Professor of Interior Design. B.A., 1961, Cornell; M.A., 1970, Iowa; M.S., 1982, Massachusetts.

AL QASEER, MOHAMMAD TAYEB

Associate Professor of Electrical and Computer Engineering. Ph.D., 2009, Missouri University of Science and Technology.

AL-KAISI, MAHDI

Emeritus Professor of Agronomy. B.S., 1974, Baghdad; M.S., 1982, Ph.D., 1986, North Dakota State.

ALAMEEN, GHINWA

Associate Teaching Professor of World Languages and Cultures. B.A., 1998, Al Baath (Syria); M.A., 2007, Ph.D., 2014, Iowa State.

ALBERHASKY, MATTHEW J.

Assistant Teaching Professor of English. B.A., 2001, M.A., 2006, Iowa State.

ALBRIGHT, SARA

Assistant Teaching Professor of English. Master's, 2005, Viterbo.

ALCORN-FERRONE, JANET W.

Emerita Associate Professor of Music and Theatre. B.Mus., 1958, Northwestern; M.Mus., 1960, Boston University.

ALCOTT, CODY

Affiliate Assistant Professor of Veterinary Clinical Sciences. B.S., 2000, California State Polytechnic; D.V.M., 2004, Iowa State.

ALDACO GASTELUM, ABRAHAM NETZAHUALCOYOTL

Assistant Teaching Professor of Computer Science. Bachelor's, Master's, Tec de Monterrey; Ph.D., Arizona State.

ALEXANDER, DAVID

Associate Professor of Philosophy and Religious Studies. B.A., 1999, M.A., 2001, Toronto; Ph.D., 2008, Washington.

ALEXANDER, ROGER K.

Emeritus Associate Professor of Mathematics. B.A., 1968, Kansas; M.A., 1974, Ph.D., 1975, California (Berkeley).

ALIPOUR, ALICE

Associate Professor of Civil, Construction, and Environmental Engineering. B.Sc., 2004, K.N. Toosi University of Technology (Iran); M.Sc., 2006, Tehran (Iran); Ph.D., 2010, California (Irvine).

ALLAIRE, NICOLE

Associate Teaching Professor of English. B.A., 1988, M.Ed., 1991, Minnesota.

ALLBAUGH, RACHEL A.

Professor of Veterinary Clinical Sciences. B.S., 2000, D.V.M., 2004, Iowa State; M.S., 2009, Kansas State.

ALLEMAN, JAMES EDWARD

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S.C.E., 1971, M.S., 1972, Ph.D., 1978, Notre Dame.

ALLEN, BEVERLYN LUNDY

Emerita Associate Professor of Sociology and Criminal Justice. B.S.W., 1975, M.S.W., 1977, Temple; Ph.D., 1995, Iowa State.

ALLEN, BRENDA

Adjunct Assistant Professor of Human Development and Family Studies. Ph.D., 2017, Iowa State.

ALLEN, CRAIG

Emeritus Associate Professor of Human Development and Family Studies. B.S., 1972, M.S., 1975, Brigham Young; Ph.D., 1980, New Hampshire.

ALLEN, HEATHER

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2002, Iowa; Ph.D., 2009, Wisconsin.

ALLEN, LINDA QUINN

Associate Professor of World Languages and Cultures; Associate Professor of School of Education. B.A., 1978, Purdue; M.A., 1982, Ball State; Ph.D., 1994, Purdue.

ALMEIDA, MARCELO

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2003, Universidade de Brasilia; M.S., 2008, Universidade Federal do Rio Grande do Sul; Ph.D., 2020, Iowa State.

ALSHIHABI, DIANE M.

Associate Professor of Interior Design. B.S., 1995, M.S., 2008, Ph.D., 2012, Wisconsin.

ALTUKHOVA, NATALIYA

Associate Teaching Professor of Aerospace Engineering. M.SC., 2000, Dnipropetrovs'K State (Ukraine); Ph.D., 2010, Texas Tech.

AMARIUCAI, GEORGE TRAIAN

Affiliate Associate Professor of Electrical and Computer Engineering. B.S., 2003, M.S., 2004, University Politehnica (Romania); Ph.D., 2009, Louisiana State.

AMES, JEFFREY KNOWTON

Assistant Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1970, Drake.

AMMAR, LEILA

Associate Professor of Practice, Architecture. Bachelor's, Master's, Iowa State.

AMORIN, NATALIA

Assistant Teaching Professor of World Languages and Cultures. Bachelor's, Universidad de Santiago de Compostela; Master's, Universidad Internacional de Valencia.

AMOS, ROSALIE JEANNE

Emerita Associate Professor of Human Development and Family Studies; Emerita Associate Professor of School of Education. B.S., 1953, Iowa State; M.S., 1960, Ph.D., 1976, Cornell.

AN, QI

Associate Professor of Materials Science and Engineering. Bachelor's, Master's, University of Science and Technology of China; Master's, Ph.D., California Institute of Technology.

ANAND, ROBBYN KIMBERLY

Associate Professor of Chemistry. B.A., 2004, Anderson; Ph.D., 2010, Texas.

ANDERS, ABRAM

Associate Professor of English. 2009, Pennsylvania State.

ANDERSEN, DANIEL S.

Associate Professor of Agricultural and Biosystems Engineering. B.S., 2006, Wisconsin (Platteville); M.S., 2008, Ph.D., 2012, Iowa State.

ANDERSON, AMBER

Associate Teaching Professor of Agronomy. M.S., 2008, Iowa State.

ANDERSON, CARL E.

Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1962, Pennsylvania State; M.S.A.E., 1965, Arizona; Ph.D., 1975, Kansas State.

ANDERSON, CLAYTON CONRAD

Professor of Practice, Aerospace Engineering; Distinguished Faculty Fellow. B.S., 1981, Hastings; M.S., 1983, Iowa State.

ANDERSON, CRAIG A.

Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.A., 1976, Butler; M.A., 1978, Ph.D., 1980, Stanford.

ANDERSON, DEAN

Emeritus Professor of Kinesiology. B.S., 1968, M.A., 1972, Ph.D., 1978, Minnesota.

ANDERSON, E. WALTER

Emeritus Professor of Physics and Astronomy. A.B., 1959, Harvard; M.A., 1961, Ph.D., 1965, Columbia.

ANDERSON, IVER ERIC

Adjunct Professor of Materials Science and Engineering. B.S., 1975, Michigan Tech; M.S., 1977, Ph.D., 1982, Wisconsin (Madison).

ANDERSON, JARED LEE

Professor of Chemistry. B.S., 2000, South Dakota State; Ph.D., 2005, Iowa State.

ANDERSON, JEAN A.

Emerita Senior Clinician in Food Science and Human Nutrition. B.S., 1981, M.S., 1989, Iowa State.

ANDERSON, LEANN

Clinical Assistant Professor of Veterinary Clinical Sciences. Bachelor's, D.V.M., Iowa State.

ANDERSON, LLOYD LEE

Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, Ph.D., 1961, Iowa State.

ANDERSON, MARC

Associate Professor of Management and Entrepreneurship. B.S., 1991, Carnegie Mellon; M.B.A., 1993, Michigan; Ph.D., 2002, Minnesota.

ANDERSON, MICHAEL

Professor of Practice, Agricultural and Biosystems Engineering. B.S., 1976, M.S., 1979, Iowa State.

ANDERSON, PAUL F.

Emeritus Professor of Landscape Architecture; Emeritus Professor of Agronomy. B.S.L.A., 1972, M.L.A., 1974, Iowa State.

ANDERSON, ROBERT M.

Emeritus Professor of Electrical and Computer Engineering. B.S.E., 1961, M.S.E., 1963, M.S., 1965, Ph.D., 1967, Michigan.

ANDERSON, SARAH

Assistant Professor of Genetics, Development, and Cell Biology. B.S., 2011, Iowa State; Ph.D., 2016, California (Davis).

ANDERSON-HSIEH, JANET

Emerita Professor of English. BPH, 1967, Northwestern; M.A., 1972, Ph.D., 1976, Illinois.

ANDORF, CARSON

Affiliate Assistant Professor of Computer Science. B.A., 2000, Wartburg; Ph.D., 2013, Iowa State.

ANDRE, THOMAS

Emeritus Professor of School of Education; Emeritus Professor of Psychology. B.S., 1967, Massachusetts; M.A., 1970, Ph.D., 1971, Illinois.

ANDREASEN, CLAIRE B.

Professor of Veterinary Pathology. University Professor. B.S., 1979, D.V.M., 1982, Texas A&M; M.S., 1987, Ph.D., 1990, Georgia.

ANDREOTTI, ALEJANDRO

Teaching Professor of Mathematics. B.A., 1989, Brandeis; Ph.D., 1994, Princeton.

ANDREOTTI, AMY

Professor of Biochemistry, Biophysics, and Molecular Biology; University Professor. B.A., 1989, Bowdoin; Ph.D., 1994, Princeton.

ANDREWS, JAMES T.

Professor of History; University Professor. B.S., 1982, M.A., 1983, Tufts; Ph.D., 1994, Chicago.

ANDREWS, SMARANDA

Assistant Teaching Professor of Food Science and Human Nutrition. M.A., Constanta (Romania); Ph.D., Iowa State.

ANGELICI, ROBERT JOE

Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1959, St. Olaf; Ph.D., 1962, Northwestern.

ANTONE, TIFFANY

Assistant Teaching Professor of Music and Theatre. A.A., 2001, American Academy of Dramatic Arts, West; B.A., 2004, M.F.A., 2008, California (Los Angeles).

ANTROPOV, VLADIMIR

Adjunct Professor of Physics and Astronomy.

APPELGATE, MOLLIE

Associate Professor of School of Education. B.S.C.E., 1996, Northwestern; Ph.D., 2012, California (Los Angeles).

APPUHAMY, RANGA

Assistant Professor of Animal Science. B.Sc., 2000, Peradeniya (Sri Lanka); M.Sc., 2006, Ph.D., 2010, Virginia Tech.

APPY, DAVID V.

Associate Teaching Professor of Chemistry. B.S., 2002, California (Los Angeles); J.D., 2005, Pepperdine; Ph.D., 2014, Iowa State.

ARAND-MCILRATH, TIMOTHY J.

Emeritus Associate Professor of Art and Design. B.A., 1966, Dominican (Wisconsin); M.S., 1969, Wisconsin.

ARBUCKLE, J. GORDON JR.

Professor of Sociology and Criminal Justice. B.A., 1991, Guilford College; M.S., 2002, Ph.D., 2007, Missouri.

ARCAND, JANET L.

Emerita Assistant Professor, Library. B.A., 1979, California (Los Angeles); M.L.S., 1980, California (Berkeley).

ARCHER, GEORGE

Assistant Professor of Philosophy and Religious Studies. B.A., 2006, New York (Stony Brook); M.A., 2009, George Washington; Ph.D., 2015, Georgetown.

ARCHONTOULIS, SOTIRIOS

Professor of Agronomy. B. Sc., 2004, Thessaly (Greece); M.Sc., 2006, Ph.D., 2011, Wageningen (The Netherlands).

ARENAS AMADO, ANTONIO

Assistant Professor of Civil, Construction, and Environmental Engineering. Bachelor's, La Escuela Colombiana de Ingenieria; Master's, Stuttgart; Ph.D., Iowa.

ARIAS, SILVINA

Adjunct Assistant Professor of Plant Pathology, Entomology, and Microbiology. Ph.D., 2014, Universidad Nacional de Cordoba.

ARMSTRONG, PATRICK IAN

Associate Professor of Psychology. B.A., 1998, Ottawa (Canada); M.A., 2002, Ph.D., 2005, Illinois.

ARNDT, GRANT

Associate Professor of World Languages and Cultures. A.B., 1994, Ph.D., 2004, Chicago.

ARORA, RAJEEV

Professor of Horticulture. B.S., 1975, Meerut (India); M.S., 1979, G.B. Pant (India); Ph.D., 1990, Wisconsin.

ARTZ, GEORGEANNE

Associate Professor of Economics. B.A., 1996, Yale; M.S., 1999, Maine (Orono); Ph.D., 2005, Iowa State.

ASBJORNSEN, HEIDI

Affiliate Associate Professor of Natural Resource Ecology and Management. B.A., 1989, Carleton; M.F.S., 1993, D.F., 1999, Yale.

ASHLOCK, JERAMY CURTIS

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1997, M.S., 2000, Ph.D., 2006, Colorado.

ATCHISON, GARY JAMES

Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1965, Michigan State; M.S., 1967, Iowa State; Ph.D., 1970, Michigan State.

ATHERLY, ALAN G.

Emeritus Professor of Genetics, Development, and Cell Biology; Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1959, Western Michigan; Ph.D., 1964, North Carolina.

ATWOOD, DAVID M.

Associate Teaching Professor of Physics and Astronomy. B.S., 1984, Toronto (Canada); M.S., 1987, Ph.D., 1989, McGill.

AUNE, JEANINE ELISE

Teaching Professor of English. B.A., 1992, Concordia College; M.A., 1997, Ph.D., 2015, Wisconsin.

AUNG, KYAW

Assistant Professor of Genetics, Development, and Cell Biology. B.S., 2000, M.S., 2002, National Chung Hsing (Taiwan); Ph.D., 2011, Michigan State.

AUWERDA, PEGGY A.

Associate Professor of Animal Science. B.S., 1982, Illinois State; M.S., 1986, Ph.D., 1988, Illinois.

AVERSING, ANNA

Associate Professor of Practice, Architecture. Master's, 2021, Iowa State.

AVRAAMIDES, ACHILLES

Emeritus Associate Professor of History. B.A., 1957, Bob Jones; M.A., 1963, Ph.D., 1971, Minnesota.

AWINO, JOSEPH K.

Assistant Teaching Professor of Chemistry. B.S., 2003, Moi (Kenya); Ph.D., 2015, Iowa State.

B

BAAS, THOMAS J.

Emeritus Professor of Animal Science. B.S., 1972, M.S., 1989, Ph.D., 1990, Iowa State.

BABCOCK, BRUCE A.

Emeritus Professor of Economics. B.S., 1980, M.S., 1981, California (Davis); Ph.D., 1987, California (Berkeley).

BACHMANN, MARILYN D.

Emerita Professor of Natural Resource Ecology and Management. B.S., 1955, Ball State; M.A., 1960, Ph.D., 1964, Michigan.

BACHMANN, ROGER W.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Michigan; M.S., 1958, Idaho; Ph.D., 1962, Michigan.

BADDING, ERIC

Associate Teaching Professor of Architecture. B.L.S., 2012, M.A., 2015, Iowa State.

BADENHOPE, JULIA M.

Professor of Landscape Architecture. B.S., 1987, Tennessee; M.L.A., 1992, Harvard.

BAER, ROGER EDWARD

Emeritus Professor of Graphic Design. B.A., 1968, California State (Long Beach); M.F.A., 1978, Illinois.

BAGLEY, RODNEY STEVEN

Professor of Veterinary Clinical Sciences. B.S., 1983, West Virginia; D.V.M., 1986, Virginia Polytechnic.

BAHADUR, SHYAM

Emeritus Professor of Mechanical Engineering; University Professor. B.E., 1957, M.E., 1962, Roorkee (India); Ph.D., 1970, Michigan.

BAHNG, EUNJIN

Associate Professor of School of Education. B.S., 1997, Chun Chun (Korea); M.S., 2004, Ph.D., 2008, Arizona State.

BAI, HUA

Associate Professor of Genetics, Development, and Cell Biology. B.S., 1997, East China Normal; M.S., 2000, Shanghai Fisheries; Ph.D., 2009, Kentucky.

BAI, XIANGLAN

Associate Professor of Mechanical Engineering. B.S., 1993, M.S., 1996, Beihang (China); Ph.D., 2000, Tokyo.

BAILEY, MICHAEL DAVID

Professor of History and Interim Chair of World Languages and Cultures. B.A., 1993, Duke; Ph.D., 1998, Northwestern.

BAILEY, THEODORE B. JR.

Emeritus Professor of Statistics. B.S., 1964, Iowa State; M.S., 1969, Ph.D., 1972, Minnesota.

BAIN, CARMEN M.

Professor of Sociology and Criminal Justice; Associate Dean of the College of Agriculture and Life Sciences. M.A., 2001, Canterbury (New England); Ph.D., 2007, Michigan State.

BAKER, JAMES L.

Emeritus Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1966, South Dakota School of Mines; Ph.D., 1971, Iowa State.

BAKER, JANICE A.

Assistant Professor of Kinesiology; Assistant Professor of Music and Theatre. B.F.A., 1975, Utah; M.S., 1979, Kansas State.

BAKER, JENNY LYNN

Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 2001, M.S., 2001, Kansas State.

BALDWIN, JOHN

Adjunct Assistant Professor of Air Force Aerospace Studies. B.S., 2003, M.B.A., 2007, National American.

BALLARD, ANDREW

Associate Professor of Practice, Architecture. Master's, 2008, California-Berkeley.

BANADDA, NOBLE

Affiliate Professor of Agricultural and Biosystems Engineering. B.Sc., 1998, Sokoine University of Agriculture (Tanzania); M.Sc., 2001, Ph.D., 2006, Katholieke Universiteit Leuven (Belgium).

BANDSTRA, ROBERT

Adjunct Instructor in Air Force Aerospace Studies. B.A., 1994, Missouri; M.S., 2005, Georgia College and State University.

BANERJI, RITWIK

Assistant Professor of World Languages and Cultures. Bachelor's, Columbia; Ph.D., California-Berkeley.

bangalore Ramachandra, abhay

Assistant Professor of Mechanical Engineering. Bachelor's, National institute of Technology, Karnataka, India; Master's, Carnegie Mellon; Ph.D., California San Diego.

BANNANTINE, JOHN P.

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1988, Wisconsin (Oshkosh); M.S., 1991, Ph.D., 1995, Iowa State.

BAO, SHENG

Assistant Professor of Computer Science. B.Eng., 2006, Nanjing (China); Ph.D., 2012, Texas Tech.

BARAKAT, MERATE

Associate Professor of Architecture. Bachelor's, Arab Academy for Science and Technology; Master's, Utah; Master's, Nottingham; Ph.D., Architectural Association School of Architecture.

BARAN, EVRIM

Associate Professor of School of Education. B.S., 2003, M.S., 2006, Middle East Technical; Ph.D., 2011, Iowa State.

BARB, ADAM

Affiliate Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 2000, Purdue; M.S., 2002, North Carolina State; Ph.D., 2008, Duke.

BARB, JESSICA

Adjunct Assistant Professor of Agronomy. B.S., 1999, Pennsylvania State; M.S., 2004, Ph.D., 2007, North Carolina State.

BARDHAN, RIZIA

Associate Professor of Chemical and Biological Engineering. B.A., 2005, Westminster; Ph.D., 2010, Rice.

BARLOON, PAUL J.

Associate Teaching Professor of Mathematics. B.S., 1985, Rose-Hulman Institute of Technology; M.A., 2010, Northern Iowa.

BARNHART, STEPHEN K.

Emeritus Professor of Agronomy. B.S., 1970, M.S., 1975, Ohio State; Ph.D., 1979, Iowa State.

BARRON, MARK

Adjunct Assistant Professor of History. B.A., 1998, Kennesaw State; M.A., 2002, West Georgia; Ph.D., 2015, Maryland.

BARTHOLOMAE, SUZANNE

Associate Professor of Human Development and Family Studies. B.B.A., 1987, Emory; M.S., 1992, Florida State; Ph.D., 2001, The Ohio State.

BARTHOLOMAY, LYRIC COLLEEN

Affiliate Associate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1998, Colorado State; Ph.D., 2004, Wisconsin.

BARTLETT, LESLEY

Assistant Professor of English. Ph.D., 2014, Nebraska (Lincoln).

BARTON, TOMMY J.

Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1962, Lamar; Ph.D., 1967, Florida.

BASAK, TATHAGATA

Associate Professor of Mathematics. MSTAT, 2001, Indian Statistical Institute; Ph.D., 2006, California (Berkeley).

BASART, JOHN PHILIP

Emeritus Professor of Electrical and Computer Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

BASMAJIAN, CARLTON WADE

Associate Professor of Community and Regional Planning. A.B., 1996, Chicago; M.C.P., 2000, Georgia Institute of Technology; Ph.D., 2008, Michigan.

BASNET, MAN

Associate Teaching Professor of Mathematics. B.A., 1996, M.A., 1999, Tribhuvan (Nepal); M.S., 2008, Toledo; Ph.D., 2013, Iowa State.

BASSHAM, DIANE CLARE

Professor of Genetics, Development, and Cell Biology. Distinguished Professor in Liberal Arts and Sciences. B.Sc., 1990, Birmingham (England); Ph.D., 1994, Warwick (England).

BASSLER, BRUCE

Emeritus Associate Professor of Architecture. B.S., 1972, Iowa State; M.Arch., 1975, Texas A&M.

BASSLER, EUNICE M.

Emerita Senior Lecturer in Food Science and Human Nutrition. B.A., 1974, Northern Iowa; M.S., 1979, Kansas State.

BASTAWROS, ASHRAF

Professor of Aerospace Engineering; Professor of Mechanical Engineering. B.Sc., 1988, M.Sc., 1991, Cairo (Egypt); M.S., 1995, Ph.D., 1997, Brown.

BASTAWROS, HALA FAROUK

Teaching Professor of Genetics, Development, and Cell Biology. M.D., 1992, Cairo University School of Medicine; M.S., 2007, Iowa State.

BASU, SAMIK

Professor of Computer Science. B.E., 1998, Jadavpur (India); M.S., 2001, Ph.D., 2003, New York (Stony Brook). Ph.D., 1970, Kansas.

BATHIE, WILLIAM W.

Emeritus Professor of Mechanical Engineering. B.S., 1957, M.E., 1967, Iowa State.

BAUGHMAN, AMBER

Clinical Assistant Professor of Food Science and Human Nutrition. Bachelor's, 2014, Bachelor's, 2018, Master's, 2021, Iowa State.

BAUGHMAN, JACQULYN

Associate Teaching Professor of Mechanical Engineering. B.S., 1989, Iowa State; M.B.A., 1997, Keller Graduate School; Ph.D., 2012, Iowa State.

BAUM, DAVID

Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1975, M.S., 1978, D.V.M., 1983, Ph.D., 1997, Iowa State.

BAUM, THOMAS J.

Professor of Plant Pathology, Entomology, and Microbiology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1985, Germany; M.S., 1989, Munich; Ph.D., 1993, Clemson.

BAUMEL, PHILLIP

Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, M.S., 1957, Ohio State; Ph.D., 1961, Iowa State.

BAUMGARD, LANCE HALL

Professor of Animal Science. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1995, M.S., 1998, Minnesota; Ph.D., 2002, Cornell.

BAYOUTH, SHAWN

Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.A., 2002, Western Illinois; M.S., 2006, Indiana State; Ph.D., 2011, Iowa State.

BEACHLER, THERESA

Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2007, D.V.M., 2012, Ph.D., 2019, North Carolina State.

BEAR, DONALD R.

Emeritus Professor of School of Education. B.A., 1974, George Washington; M.Ed., 1977, Ph.D., 1982, Virginia.

BEARD, JON W.

Teaching Professor of Information Systems and Business Analytics. B.Arch., 1981, Arkansas; M.S., 1983, Ph.D., 1991, Texas A&M.

BEARSON, SHAWN

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, Judson (Alabama); Ph.D., 1997, Southern Alabama.

BEATTIE, GWYN A.

Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1985, Carleton; Ph.D., 1991, Wisconsin.

BEATTY, JAMES D.

Emeritus Assistant Professor of English. B.S., 1964, Iowa State; M.A., 1966, Iowa.

BEAVIS, WILLIAM DALE

Emeritus Professor of Agronomy. B.S., 1978, Humboldt State; M.S., 1980, New Mexico State; Ph.D., 1985, Iowa State.

BECK, JOSHUA RYAN

Assistant Professor of Biomedical Sciences. B.S., 2004, Iowa State; Ph.D., 2012, California (Los Angeles).

BECK, WILLIAM

Assistant Professor of Natural Resource Ecology and Management. B.S., 2003, Michigan State; M.S., 2010, Southern Illinois; Ph.D., 2018, Iowa State.

BECKETT, GULBAHAR

Professor of English. B.A., 1977, Nankai (China); M.ED., 1992, Queen's (Ontario Canada); Ph.D., 1999, British Columbia.

BECRAFT, PHILIP W.

Emeritus Professor of Genetics, Development, and Cell Biology; Emeritus Professor of Agronomy. B.A., 1980, Montana; M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BEECHER, CONSTANCE

Associate Professor of School of Education. B.S., 1992, Missouri; M.S., 1994, Washington (St. Louis); Ph.D., 2011, Washington State.

BEELL, THOMAS LLOYD

Emeritus Professor of Greenlee School of Journalism and Communication. B.A., 1965, Washington; M.A., 1972, Wisconsin.

BEERMANN, DONALD

Emeritus Professor of Animal Science. B.S., 1971, Iowa State; M.S., 1974, Ph.D., 1976, Wisconsin.

BEETHAM, JEFFREY K.

Emeritus Associate Professor of Veterinary Pathology; Emeritus Associate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1989, Western Washington; Ph.D., 1994, California (Davis).

BEGHIN, JOHN C.

Emeritus Professor of Economics. M.Sc., 1983, North Carolina State; Ph.D., 1988, California (Berkeley).

BEGLEY, LARISSA

Associate Teaching Professor of History. B.A., 2004, M.A., 2006, Iowa State; Ph.D., 2012, Sussex.

BEHNKEN, BRIAN D.

Professor of History. B.A., 1999, M.A., 2001, Houston; Ph.D., 2007, California (Davis).

BEHNKEN, MONIC PRICE

Associate Professor of Sociology and Criminal Justice. Associate Dean of the College of Liberal Arts and Sciences. B.A., 2000, Houston; J.D., 2004, Golden Gate; Ph.D., 2008, Pacific Graduate School.

BEIRMAN, ERICA ANNE

Teaching Professor of Food Science and Human Nutrition. B.S., 1995, M.S., 1998, Iowa State.

BEITZ, DONALD C.

Professor of Animal Science; Professor of Biochemistry, Biophysics, and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, Michigan State.

BEKKUM, VICTOR A.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1964, M.S., 1968, Wisconsin; Ph.D., 1978, Iowa State.

BELL, STEVEN D.

Teaching Professor of Agricultural and Biosystems Engineering. B.S., 1981, Iowa State; M.S., 1987, Texas A&M.

BELL, TODD

Professor of Veterinary Pathology. Ph.D., George Mason; DVM, Iowa State.

BELLAIRE, BRYAN HOWARD

Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Northern Arizona; Ph.D., 2001, Louisiana State.

BELLVILLE, AMBER

Assistant Teaching Professor of Supply Chain Management. B.S., 2002, Iowa State; M.B.A., 2010, St. Xavier (Chicago).

BENDER, HOLLY S.

Emerita Professor of Veterinary Pathology; Morrill Professor. B.S., 1976, D.V.M., 1979, Michigan State; Ph.D., 1987, Virginia Polytechnic.

BENNETT, ADRIAN A. III

Emeritus Professor of History. B.A., 1964, Antioch; M.A., 1966, Ph.D., 1970, California (Davis).

BENNETT-GEORGE, SARAH J.

Teaching Professor of Apparel, Events, and Hospitality Management. B.A., 2006, B.S., 2011, M.F.C.S., 2011, Iowa State.

BENTIL, SARAH

Associate Professor of Mechanical Engineering. B.S., 2003, Vermont; M.S., 2006, Hawaii (Manoa); Ph.D., 2013, The Ohio State.

BERAN, GEORGE W.

Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1954, Iowa State; Ph.D., 1959, Kansas; L.H.D., 1973, Silliman (Philippines).

BERAN, JANICE ANN

Emerita Adjunct Professor of Kinesiology. B.A., 1953, Central; M.S., 1970, Drake; Ph.D., 1976, Iowa State.

BERESNEV, IGOR

Professor of Geological and Atmospheric Sciences. M.S., 1981, Ph.D., 1986, Moscow (Russia).

BERG, CARRIE

Associate Teaching Professor of Biomedical Sciences. B.S., 1999, D.V.M., 2004, Iowa State.

BERG, EMILY JULIA

Associate Professor of Statistics. B.A., 2005, Middlebury; M.S., 2008, Ph.D., 2010, Iowa State.

BERGER, DARREN J.

Associate Professor of Veterinary Clinical Sciences. B.S., 2003, Iowa; D.V.M., 2007, Iowa State.

BERGER, ROGER WAYNE

Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S.M.E., 1958, Nebraska; M.S.I.E., 1962, Kansas State; Ph.D., 1968, Oklahoma State.

BERGESON, KENNETH L.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1969, M.S., 1972, Ph.D., 1985, Iowa State.

BERGHEFER, SHERRY L.

Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1999, M.S., 2006, Iowa State.

BERGMAN, CLIFFORD

Emeritus Professor of Mathematics; Emeritus Professor of Computer Science. B.S., 1975, Brown; Ph.D., 1982, California (Berkeley).

BERGMAN, SARA

Associate Teaching Professor of Accounting. B.A., B.S., 2012, M.Acc., 2013, Iowa State.

BERGQUIST, ERIN E.

Clinical Professor of Food Science and Human Nutrition. M.P.H., 2007, Des Moines.

BERMANN, KAREN

Emerita Associate Professor of Architecture. B. Arch., 1983, Cooper Union; M.F.A., 1991, San Francisco Art Institute.

BERN, CARL JOSEPH

Emeritus Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1963, M.S., 1964, Nebraska; Ph.D., 1973, Iowa State.

BERNARD, JAMES EDWARD

Emeritus Professor of Mechanical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1966, M.S., 1968, Ph.D., 1971, Michigan.

BESSER, TERRY L.

Emerita Professor of Sociology and Criminal Justice. B.S., 1969, Iowa State; M.A., 1975, Northern Iowa; Ph.D., 1991, Kentucky.

BEST, JEREMY A.

Associate Professor of History. B.A., 2002, Vanderbilt; MAT, 2004, Johns Hopkins; Ph.D., 2012, Maryland.

BEST, LOUIS BROWN

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1968, Weber State; M.S., 1970, Montana State; Ph.D., 1974, Illinois.

BETCHER, GLORIA J.

Teaching Professor of English. B.A., 1985, St. Olaf; M.A., 1990, Ph.D., 1994, Minnesota.

BETTS, DANIEL MORTON

Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1965, Iowa State; M.S., 1979, Illinois.

BEYER, JAMIE J.

Teaching Professor of Apparel, Events, and Hospitality Management. B.S., 2001, M.S., 2004, Iowa State.

BHATTACHARYA, JOYDEEP

Professor of Economics. B.S., 1989, St. Xaviers College; M.A., 1991, Delhi School of Economics (India); M.A., 1994, Ph.D., 1996, Cornell.

BHATTACHARYA, SOURABH

Associate Professor of Mechanical Engineering. B.Tech., 2002, Indian Institute of Technology; M.S., 2005, M.S., 2009, Ph.D., 2010, Illinois.

BHATTACHARYYA, MADAN KUMAR

Professor of Agronomy. B.Sc., 1975, Assam Agricultural (India); M.Sc., 1978, Punjab Agricultural (India); Ph.D., 1987, Western Ontario.

BHATTACHARYYA, RYAN

Professor of Practice, Management and Entrepreneurship. D.B.A., Georgia State.

BHUSSAR, MANJOT

Assistant Professor of Management and Entrepreneurship. B.E., 2007, Thapar (India); M.B.A., 2013, Auburn.

BIEDERMAN, LORI ANN

Adjunct Assistant Professor of Ecology, Evolution, and Organismal Biology. B.A., 1995, Gustavus Adolphus College; M.S., 2000, Minnesota; Ph.D., 2007, Texas A&M.

BIGELOW, TIMOTHY

Associate Professor of Electrical and Computer Engineering; Associate Professor of Mechanical Engineering. B.S., 1998, Colorado State; M.S., 2001, Ph.D., 2004, Illinois.

BIGGS, STEPHEN T.

Associate Professor of Philosophy and Religious Studies. B.A., 1996, St. Josephs; M.A., 2001, Colorado; Ph.D., 2007, Arizona.

BIRRELL, STUART J.

Professor of Agricultural and Biosystems Engineering. B.Sc., 1984, Natal (South Africa); M.S., 1987, Ph.D., 1995, Illinois.

BIRT, DIANE FEICKERT

Emerita Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor in Human Sciences. B.A., 1972, Whittier College; Ph.D., 1975, Purdue.

BISWAS, RANA

Adjunct Professor of Electrical and Computer Engineering; Adjunct Professor of Physics and Astronomy. B.Sc., 1976, Bombay; M.Sc., 1978, Indian Institute of Technology; M.S., 1981, Ph.D., 1984, Cornell.

BIVENS, GORDON E.

Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1950, M.S., 1953, Ph.D., 1957, Iowa State.

BIX, AMY SUE

Professor of History. Distinguished Professor in Liberal Arts and Sciences. A.B., 1987, Princeton; Ph.D., 1994, Johns Hopkins.

BLAKE, J. HERMAN

Emeritus Professor of School of Education; Emeritus Professor of Sociology and Criminal Justice. B.A., 1960, New York (New York City); M.A., 1965, Ph.D., 1974, California (Berkeley).

BLAKELY, BARBARA JEAN

Emerita Associate Professor of English. B.S.E., 1978, M.A., 1982, Drake; Ph.D., 1999, Iowa State.

BLAKELY, BENJAMIN

Assistant Teaching Professor of Electrical and Computer Engineering. Ph.D., Iowa State.

BLANCHONG, JULIE ANNE

Associate Professor of Natural Resource Ecology and Management. B.S., 1995, Bowling Green State; M.S., 1999, Ph.D., 2003, Michigan State.

BLANKENSHIP, KEVIN L.

Associate Professor of Psychology. B.A., 1998, M.S., 2001, Ball State; Ph.D., 2006, Purdue.

BLEYLE, CARL OTTO

Emeritus Professor of Music and Theatre. B.Mus., 1957, Kentucky; M.M., 1960, Wisconsin; Ph.D., 1969, Minnesota.

BLITVICH, BRADLEY J.

Professor of Veterinary Microbiology and Preventive Medicine; B.Sc., 1990, B.Sc., 1991, Ph.D., 1996, Western Australia.

BLOCK, CHARLES C.

Affiliate Assistant Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1974, Briar Cliff College; M.S., 1979, Ph.D., 1996, Iowa State.

BLODGETT, SUE

Emerita Professor of Plant Pathology, Entomology, and Microbiology; Emerita Professor of Natural Resource Ecology and Management. B.S., 1974, Syracuse; M.S., 1980, Cornell; M.S., 1987, Ph.D., 1989, Kansas State.

BLOEDEL, JAMES R.

Emeritus Professor of Biomedical Sciences; Emeritus Professor of Kinesiology. B.A., 1962, St. Olaf; Ph.D., 1967, M.D., 1969, Minnesota.

BLONG, APRIL

Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 2005, D.V.M., 2009, Iowa State.

BLUMEN, VICTORIA

Assistant Teaching Professor of Mathematics. B.S., 2011, Benedictine; M.S., 2014, Illinois.

BLYLER, NANCY L.

Emerita Professor of English. B.A., 1964, Wellesley; Ph.D., 1976, Iowa.

BOBECK, ELIZABETH

Associate Professor of Animal Science. B.S., 2007, Ph.D., 2012, Wisconsin.

BOBIK, THOMAS A.

Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1979, Indiana; M.S., 1986, Ph.D., 1990, Illinois.

BOLLES, HEATHER ANNE

Teaching Professor of Mathematics. B.S., 1995, Ph.D., 2000, Iowa State.

BOLLUYT, JAMES EDWARD

Emeritus Assistant Professor of Civil, Construction, and Environmental Engineering. B.A., 1968, Northwestern (Iowa); B.A., 1974, M.S., 1980, Iowa State.

BOLOTOVA, YULIYA

Assistant Teaching Professor of Economics. Master's, Chicago Law School; Ph.D., Purdue.

BOLSER, KARL W.

Teaching Professor of Biomedical Sciences. D.V.M., 1990, Iowa State.

BOLSTAD, ANDREW

Adjunct Assistant Professor of Electrical and Computer Engineering. Ph.D., 2009, Wisconsin (Madison).

BONACCORSI, CRISTINA

Teaching Professor of Chemistry. M.S., 2001, Pisa (Italy); Ph.D., 2005, Swiss Federal Institute of Technology.

BOND, LEONARD J.

Emeritus Professor of Aerospace Engineering. B.Sc., 1974, Ph.D., 1978, City University, London.

BONETT, DOUGLAS G.

Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1974, California State (Fresno); M.A., 1978, California State (Long Beach); M.A., 1980, Ph.D., 1983, California (Los Angeles).

BOON, WILLIAM C.

Emeritus Professor of Landscape Architecture. B.S., 1955, B.S.L.A., 1960, Kansas State; M.L.A., 1977, Iowa State.

BOOTH, LARRY C. JR.

Associate Professor of Veterinary Clinical Sciences. D.V.M., 1973, Iowa State; M.S., 1976, Michigan State.

BOOTSMA, MICHAEL

Teaching Professor of Accounting. J.D., 2005, Iowa.

BORGEN, FRED H.

Emeritus Professor of Psychology. B.A., 1963, Ph.D., 1970, Minnesota.

BORICH, TIMOTHY O.

Emeritus Associate Professor of Community and Regional Planning. B.S., 1975, South Dakota State; M.A., 1978, South Dakota; Ph.D., 1992, Iowa State.

BORISOVA, GINKA

Associate Professor of Finance. B.S., 2000, National and World Economy (Bulgaria); M.B.A., 2004, Ph.D., 2008, Oklahoma.

BORSA, FERDINANDO

Emeritus Professor of Physics and Astronomy. B.S., 1961, Ph.D., 1969, Pavia.

BORTS, DAVID

Affiliate Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. Ph.D., 1999, Purdue.

BOSSELMAN, ROBERT

Emeritus Professor of Apparel, Events, and Hospitality Management. B.A., 1976, New York (Buffalo); M.S., 1982, Florida International; Ph.D., 1985, Oklahoma State.

BOTTENFIELD, KIP

Assistant Teaching Professor of Supply Chain Management. Ph.D., 1999, Purdue.

BOUFFARD, JEFFREY A.

Professor of Sociology and Criminal Justice. B.A., 1992, Suffolk; M.A., 1996, St. Michael's (Vermont); Ph.D., 2000, Maryland.

BOUFFARD, LEANA A.

Professor of Sociology and Criminal Justice and Chair of the Department. B.S., 1995, Duke; M.A., 1998, Ph.D., 2001, Maryland.

BOURY, NANCY M.

Associate Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1991, Wartburg; M.S., 1993, Wisconsin; Ph.D., 1997, Iowa State.

BOWEN, BONNIE

Emerita Adjunct Assistant Professor of Ecology, Evolution, and Organismal Biology. B.S., 1972, Cornell; PhD., 1978, Callifornia (Berkeley).

BOWERS, LARRY NEAL

Emeritus Professor of English; Distinguished Professor in Liberal Arts and Sciences. B.A., 1970, M.A., 1971, Austin Peay; Ph.D., 1976, Florida.

BOWKER, DAWN

Associate Clinical Professor of Food Science and Human Nutrition. B.S.N., Augsburg; R.N., Lakewood; M.S.N., Augsburg; Ph.D., New Mexico State.

BOWLER, JOHN R.

Emeritus Professor of Electrical and Computer Engineering. B.Sc., 1971, Leicester (England); M.Sc., 1980, Keele (England); Ph.D., 1984, Surrey (England).

BOWMAN, JOEY L.

Adjunct Instructor in Military Science. Dipl., Gouverneur Central (New York).

BOYD, DEAN

Affiliate Professor of Animal Science. B.S., 1974, Colorado State; M.S., 1976, Ph.D., 1979, Nebraska.

BOYDSTON, JEANNE M. K.

Emerita Associate Professor, Library. B.A., 1975, Washburn; M.A., 1979, Wichita; M.S., 1985, Illinois.

BOYLAN, DAVID RAY JR.

Emeritus Professor of Chemical and Biological Engineering. B.S., 1943, Kansas; Ph.D., 1952, Iowa State.

BOYLES, JAN

Associate Professor of Greenlee School of Journalism and Communication. B.S.J., 2003, M.S.J., 2006, West Virginia.

BOYLSTON, TERRI DRUMM

Associate Professor of Food Science and Human Nutrition. B.S., 1982, M.S., 1984, Iowa State; Ph.D., 1988, Michigan State.

BRACHA, VLASTISLAV

Professor of Biomedical Sciences. BBS, 1981, Leningrad State (Russia); Ph.D., 1988, Czechoslovak Academy of Science (Czechos).

BRACKELSBURG, PAUL O.

Emeritus Professor of Animal Science. B.S., 1961, North Dakota State; M.S., 1963, Connecticut; Ph.D., 1966, Oklahoma State.

BRADBURY, STEVEN PAUL

Emeritus Professor of Natural Resource and Ecology Management. B.S., 1978, Wisconsin; M.S., 1981, Ph.D., 1985, Iowa State.

BRADBURY, SUSAN LEE

Professor of Community and Regional Planning. B.A., 1984, McMaster (Canada); M.A., 1987, Waterloo (Canada); Ph.D., 1989, Florida.

BRADY, MEGAN

Clinical Assistant Professor of Kinesiology. Bachelor's, Briar Cliff; Master's, Idaho State; E.D.D., Northern Iowa.

BRAIDWOOD, ALEX

Associate Professor of Graphic Design. B.F.A., 2001, College for Creative Studies (Michigan); M.F.A., 2011, Art Center College of Design (California).

BRANDLE, JAMES

Affiliate Professor of Natural Resource Ecology and Management. B.S., 1966, Tennessee; M.S., 1969, Ph.D., 1974, Missouri.

BRANT, GEORGE

Emeritus Professor of Animal Science. B.S., 1963, M.S., 1965, Oklahoma State; Ph.D., 1971, California (Davis).

BRATSCH-PRINCE, DAWN

Professor of World Languages and Cultures; Associate Provost for Faculty. B.A., 1983, M.A., 1985, New York University; Ph.D., 1990, California (Berkeley).

BRAUN, EDWARD J.

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1972, Miami (Ohio); M.S., 1975, Ph.D., 1977, Cornell.

BRAUN, SEBASTIAN

Associate Professor of World Languages and Cultures; Director of American Indian Studies. M.A., 1997, Basel; M.A., 2001, Ph.D., 2004, Indiana.

BREHM-STECHER, BYRON F.

Associate Professor of Food Science and Human Nutrition. B.S., 1995, M.S., 1996, Ph.D., 2002, Wisconsin.

BRELLENTHIN, ANGELIQUE

Assistant Professor of Kinesiology. Ph.D., 2017, Wisconsin (Madison).

BREMER, JEFF R.

Associate Professor of History. B.A., 1993, M.A., 1995, California State; Ph.D., 2006, Kansas.

BRENDEL, VOLKER

Affiliate Professor of Genetics, Development, and Cell Biology. M.Sc., 1980, Oxford; Ph.D., 1986, Weizmann Institute (Israel).

BREWER, MATTHEW T.

Associate Professor of Veterinary Pathology. B.S., 2008, Wisconsin (Eau Claire); D.V.M., 2012, Ph.D., 2014, Iowa State.

BRINKLEY, JEFFREY

Associate Teaching Professor of Sociology and Criminal Justice. B.L.S., 2000, M.P.A., 2011, Iowa State.

BROCKMAN, WILLIAM H.

Emeritus Professor of Electrical and Computer Engineering. B.S., 1960, M.S., 1962, Ph.D., 1966, Purdue.

BROGDEN, KIM

Affiliate Professor of Veterinary Pathology. B.S., 1975, M.S., 1977, Ph.D., 1981, Iowa State.

BRONSON, CHARLOTTE R.

Emerita Professor of Plant Pathology, Entomology, and Microbiology; B.S., 1969, New Mexico; M.S., 1974, Michigan; Ph.D., 1981, Michigan State.

BRONSON, Janci Lynn ABLARD

Teaching Professor of Music and Theatre. B.M., 2005, Kansas State; M.M., 2007, Oklahoma.

BROOKE, CORLICE P.

Emerita Professor of Human Development and Family Studies. B.S., 1968, Iowa State; M.A., 1973, Ph.D., 1979, Minnesota.

BROTHERSON, MARY JANE

Emerita Professor of Human Development and Family Studies. B.A., 1973, M.S., 1976, Nebraska (Omaha); Ph.D., 1985, Kansas.

BROWN, ERIC A.

Associate Professor of Apparel, Events, and Hospitality Management. B.B.A., 2006, Iowa; M.S., 2008, Ph.D., 2011, Iowa State.

BROWN, GAYLE B.

Associate Teaching Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1982, Denver; D.V.M., 1986, Illinois; M.S., 1989, Ph.D., 1999, Iowa State.

BROWN, GEORGE GORDON

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1959, M.S., 1961, Virginia Polytechnic Institute; Ph.D., 1966, Miami (Florida).

BROWN, JAMES ROBERT

Professor of Finance and Chair of the Department. B.A., 1996, Transylvania; M.S., 1999, Kentucky; Ph.D., 2004, Washington (St. Louis).

BROWN, JUSTIN

Assistant Teaching Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2016, Georgia.

BROWN, MICHAEL G.

Associate Professor of School of Education. B.S., 2005, New York; M.Ed., 2007, Iowa State; M.A., 2015, Ph.D., 2017, Michigan.

BROWN, NANCY EVELYN

Emerita Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1960, Vermont; M.S., 1964, Kansas State; Ph.D., 1972, Iowa State.

BROWN, ROBERT C.

Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering; Director of the Bioeconomy Institute. B.A., 1976, B.S., 1976, Missouri; M.S., 1977, Ph.D., 1980, Michigan State.

BROWN, WYATT J.

Affiliate Professor of Food Science and Human Nutrition. B.S., 1978, M.S., 1985, Louisiana State; Ph.D., 1990, Cornell.

BROWN-BRANDL, TAMI

Affiliate Associate Professor of Agricultural and Biosystems Engineering. B.S., 1992, M.S., 1995, Nebraska; Ph.D., 1998, Kentucky.

BRUENE, BARBARA JANE

Emerita Associate Professor of Art and Design. B.A., 1958, Northern Iowa; M.A., 1978, Iowa State; M.F.A., 1986, Drake.

BRUENE, ROGER J.

Emeritus Associate Professor of Agricultural Education and Studies. B.S., 1956, Iowa State.

BRUMM, THOMAS J.

Professor of Agricultural and Biosystems Engineering. B.S., 1979, Iowa State; M.S., 1980, Purdue; Ph.D., 1990, Iowa State.

BRUN, JUDY KAY

Emerita Professor of Human Development and Family Studies; Emerita Professor of School of Education. B.S., 1964, Michigan State; M.S., 1967, Ph.D., 1970, Iowa State.

BRUNA, KATHERINE R.

Professor of School of Education. B.A., 1988, Vassar College; M.A., 1994, Ph.D., 2002, California (Davis).

BRUNER, AARON

Professor of Practice, Industrial and Manufacturing Systems Engineering. Master's, 1999, Iowa State.

BRUSKI, PAUL R.

Associate Professor of Graphic Design and Chair of the Department. B.F.A., 1996, College of Visual Arts; M.F.A., 2005, Minnesota.

BRUTON, BRENT T.

Emeritus Professor of Sociology and Criminal Justice. B.A., 1964, M.A., 1966, Ph.D., 1970, Missouri.

BRYDEN, KENNETH MARK

Professor of Mechanical Engineering. B.S., 1977, Idaho State; M.S.M.E., 1993, Ph.D., 1997, Wisconsin.

BRYDEN, KRISTY

Adjunct Associate Professor of Music and Theatre. B.M., 1979, Idaho State; M.M., 1993, Ph.D., 2001, Wisconsin.

BUCK, PETER G.

Affiliate Assistant Professor of Kinesiology. B.A., 1974, Colorado; M.D., 1978, Iowa; M.A., 1980, Minnesota.

BUCKINGHAM-SCHUTT, LYNDI

Assistant Professor of Food Science and Human Nutrition. Bachelor's, St. Olaf; Bachelor's, Ph.D., Iowa State.

BUDKO, SERGUEI L.

Adjunct Professor of Physics and Astronomy. M.S., 1982, Ph.D., 1986, Moscow Physical Technical Institute.

BUGEJA, MICHAEL J.

Professor of Greenlee School of Journalism and Communication; Distinguished Professor in Liberal Arts and Sciences. B.A., 1974, Saint Peters College; M.S., 1976, South Dakota State; Ph.D., 1985, Oklahoma State.

BUHR, DANIEL A.

Adjunct Assistant Professor of Naval Science. B.S., 1995, Iowa State; M.B.A., 2009, Webster.

BULLOCK-MCCALLEY, CATHY

Assistant Teaching Professor of School of Education. Ph.D., Iowa State.

BUNDY, JENNIFER M.

Associate Professor of Animal Science. B.S., 2002, Missouri; M.S., 2005, Ph.D., 2008, Nebraska.

BUNN, DONOVAN

Assistant Professor of Practice, Architecture. Bachelor's, Iowa State; Master's, Illinois at Chicago.

BUNZEL, HELLE

Associate Professor of Economics. B.A., 1993, Aarhus (Denmark); M.A., 1997, Ph.D., 1999, Cornell.

BURGASON, KYLE

Associate Professor of Sociology and Criminal Justice. B.S., 2008, M.A., 2010, East Tennessee State; Ph.D., 2014, Arkansas (Little Rock).

BURGER, STEWART LEE

Assistant Teaching Professor of Apparel, Events, and Hospitality Management. B.S., 1970, Cornell; M.S., 1972, Iowa State.

BURGETT, CHRISTEN G.

Associate Teaching Professor of Animal Science. B.S., 2010, M.S., 2012, North Dakota State (Fargo).

BURKART, MICHAEL R.

Affiliate Associate Professor of Geological and Atmospheric Sciences. B.S., 1964, Wisconsin; M.S., 1969, Northern Illinois; Ph.D., 1976, Iowa.

BURKE, BENJAMIN

Affiliate Assistant Professor of Geological and Atmospheric Sciences. Ph.D., 2006, Dartmouth College.

BURKE, BRIANNA R.

Associate Professor of English. B.A., 2001, Saint Michael's; M.A., 2004, Ph.D., 2011, Tufts.

BURKE, K. A.

Associate Teaching Professor of Chemistry. B.A., 1975, Clarke; M.S., 1980, Ph.D., 2005, Iowa State.

BURMEISTER, BRIAN

Assistant Teaching Professor of English. M.S., 2008, Iowa State.

BURNETT, JOSEPH W.

Teaching Professor of Chemistry. B.S., 1982, Allegheny; Ph.D., 1992, Pittsburgh.

BURNETT, REBECCA E.

Emerita Professor of English; University Professor. B.A., 1968, Massachusetts; M.Ed., 1974, Lowell; M.A., 1989, Ph.D., 1991, Carnegie Mellon.

BURNHAM, JUSTIN

Associate Professor of Practice, Architecture. Bachelor's, Iowa State; Master's, Massachusetts Institute of Technology.

BURNLEY, JOHN

Professor of Practice, Information Systems and Business Analytics. B.S., 1981, Kentucky; M.B.A., 2005, Iowa.

BURRAS, CHARLES L.

Professor of Agronomy; Professor of Geological and Atmospheric Sciences; Morrill Professor. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1992, Ohio State.

BURROUGH, ERIC

Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1997, Ph.D., 2011, Iowa State.

BURT, KAREN

Associate Teaching Professor of Chemical and Biological Engineering. Ph.D., 2015, Minnesota (Twin Cities).

BUSS, JANICE E.

Emerita Professor of Biochemistry, Biophysics, and Molecular Biology; Emerita Professor of Genetics, Development, and Cell Biology. B.S., 1970, Iowa State; Ph.D., 1983, California (San Diego).

BUTIN, ELIZABETH

Assistant Teaching Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1998, Iowa State; M.S., 2003, Massachusetts.

BUTLER, ANNEMARIE

Associate Professor of Philosophy and Religious Studies. B.A., 1996, Trinity College; Ph.D., 2005, Iowa.

BUTLER, HARRY

Assistant Professor of Sociology and Criminal Justice. Ph.D., 2017, Nebraska (Omaha).

BUTLER, LORNA MICHAEL

Emerita Professor of Sociology and Criminal Justice; Emerita Professor of World Languages and Cultures. B.Sc., 1961, Manitoba; M.Ed., 1967, Colorado State; Ph.D., 1976, Washington State.

BUTLER, STEVE

Professor of Mathematics. Morrill Professor. B.S., 2001, M.S., 2003, Brigham Young; Ph.D., 2008, California (San Diego).

BUTLER, TRAVIS LLOYD

Associate Professor of Philosophy and Religious Studies. B.A., 1990, California (San Diego); M.A., 1992, Washington; M.A., 1995, Ph.D., 1999, Cornell.

C**CAGLEY, LEE W.**

Emeritus Professor of Interior Design. B.A., 1975, Iowa State.

CAI, LING

Associate Teaching Professor of World Languages and Cultures. B.A., 1988, Beijing Normal (China); M.A., 2007, Iowa State.

CAI, YING

Associate Professor of Computer Science. B.S., 1990, M.S., 1993, Xian Jiaotong; Ph.D., 2002, Central Florida.

CAIN, BRYAN EDMUND

Emeritus Professor of Mathematics. B.S., 1963, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1968, Wisconsin.

CALDWELL, BARBARA A.

Professor of Art and Visual Culture; Professor of School of Education. B.F.A., 1973, Illinois Wesleyan; M.S., 1980, B.S., 1987, Ed.D., 1991, Illinois State.

CALL, ANSON B.

Associate Professor of Graphic Design; Associate Professor of Architecture. B.F.A., 2000, M.F.A., 2003, Utah State.

CAMARGO-BARTALOTTI, OTAVIO

Assistant Professor of Economics. B.S., 2004, Sao Paulo; M.S., 2007, Sao Paulo School of Economics; M.A., 2008, Ph.D., 2012, Michigan State.

CAMBARDELLA, CYNTHIA ANN

Affiliate Associate Professor of Agronomy. B.S., 1975, Maryland; Ph.D., 1991, Colorado State.

CAMPBELL, ARDEN RAY

Emeritus Professor of Agronomy. B.S., 1965, M.S., 1967, Purdue; Ph.D., 1970, Iowa State.

CAMPBELL, CAMERON T.

Associate Professor of Architecture and Interim Chair of the Department; Associate Professor of Art and Design. B.Arch., 1997, M.Arch., 2003, Iowa State.

CAMPBELL, CHRISTINA

Associate Professor of Food Science and Human Nutrition. B.S., 1989, Puget Sound; M.S., 1993, Ph.D., 1996, Washington State.

CAMPBELL, JOY M.

Affiliate Assistant Professor of Animal Science. B.S., 1989, Iowa State; M.S., 1992, Ph.D., 1996, Illinois.

CANFIELD, PAUL C.

Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Virginia; Ph.D., 1990, M.S., 1990, California (Los Angeles).

CANNIFFE, BERNARD

Associate Professor of Graphic Design. B.A., 1984, Wales; M.F.A., 1999, Savannah College of Art and Design.

CANNON, STEVEN B.

Affiliate Associate Professor of Agronomy. B.S., 1990, Utah State; M.A., 1992, Bowling Green State; MPUP, 1994, Ph.D., 2003, Minnesota.

CANTOR, DAVID EDWARD

Professor of Supply Chain Management. B.S., 1996, M.S., 1999, Ph.D., 2006, Maryland.

CARAGEA, PETRUTA CARMEN

Professor of Statistics. B.S., 1997, Bucuresti (Romania); Ph.D., 2003, North Carolina.

CARDANI-TROLLINGER, CHAD

Assistant Teaching Professor of Psychology. Ph.D., Drake.

CARDINAL-PETT, CLARE

Emerita Associate Professor of Architecture. B.A., 1975, Hollins; M.Arch., 1982, Utah.

CARICHNER, CHRISTIAN

Associate Teaching Professor of Music and Theatre. B.M., 2005, Ithaca; M.M. 2007, Arizona State.

CARITHERS, JEANINE R.

Emerita Professor of Biomedical Sciences. B.S., 1956, M.S., 1965, Iowa State; Ph.D., 1968, Missouri.

CARITHERS, ROBERT W.

Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Iowa State; M.S., 1968, Missouri; Ph.D., 1972, Iowa State.

CARLSON, PATRICIA M.

Emerita Associate Professor of School of Education. B.S., 1975, Nebraska; M.S., 1977, Indiana; Ph.D., 1990, Nebraska.

CARLSON, RICHARD E.

Emeritus Professor of Agronomy. B.S., 1967, Nebraska; M.S., 1969, Ph.D., 1971, Iowa State.

CARLSON, STEVEN A.

Associate Professor of Biomedical Sciences. B.Sc., 1986, D.V.M., 1990, Iowa State; Ph.D., 1997, Iowa.

CARLSON, SUSAN L.

Emerita Professor of English. B.A., 1975, Iowa; M.A., 1976, Ph.D., 1980, Oregon.

CARNEVALE, JOYCE

Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 1984, Cornell; M.S., 1988, Colorado State; D.V.M., 1990, Cornell.

CARPENTER, GAIL

Assistant Professor of Animal Science. B.S., 2010, Michigan State; M.S., 2012, Minnesota; Ph.D., 2015, Kansas State.

CARPENTER, SUSAN LONG

Emerita Professor of Animal Science. B.A., 1973, Denison; M.S., 1981, Ph.D., 1985, Massachusetts.

CARRIQUIRY, ALICIA L.

Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1982, Universidad De La Republica (Uruguay); M.S., 1985, Illinois; M.S., 1986, Ph.D., 1989, Iowa State.

CARSON, THOMAS L.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1970, M.S., 1973, Ph.D., 1976, Iowa State.

CARSTENS, KERI LYNN

Affiliate Assistant Professor of Plant Pathology, Entomology, and Microbiology. B.A., 2001, Wallburg College; M.S., 2004, Ph.D., 2008, Iowa State.

CARTER, RICHARD B.

Emeritus Professor of Finance. B.A., 1971, New York (Potsdam); M.B.A., 1985, Ph.D., 1987, Utah.

CARTER, RICHARD I.

Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1966, M.S., 1968, Oklahoma State; Ph.D., 1976, Iowa State.

CARTER, WILLIAM HOWARD

Associate Professor of World Languages and Cultures. B.A., 1997, Virginia; M.A., 2000, Ph.D., 2005, California (Santa Barbara).

CARTER-LEWIS, DAVID A.

Emeritus Professor of Physics and Astronomy. B.S., 1969, M.S., 1970, Ph.D., 1974, Michigan.

CASTELLANO, MICHAEL

Professor of Agronomy. B.S., 2001, Rhode Island; M.S., 2004, Saint Louis; Ph.D., 2009, Pennsylvania State.

CASTILLO-GIL MIRIAM S.

Assistant Teaching Professor of Mathematics. B.S., 2001, Americas-Puebla (Mexico); M.S., 2003, Toronto; M.S., 2007, Florida.

CERFOGLI, FRANK

Clinical Assistant Professor of Veterinary Clinical Sciences. B.A., 1997, Northern Iowa; D.V.M., 2001, Iowa State.

CERVATO, CINZIA

Professor of Geological and Atmospheric Sciences; Morrill Professor. Ph.D., 1990, Swiss Federal Institute of Technology.

CEYLAN, HALIL

Professor of Civil, Construction, and Environmental Engineering. B.Sc., 1989, M.Sc., 1993, Dokuz Eylul (Turkey); M.Sc., 1995, Ph.D., 2002, Illinois.

CHACKO, THOMAS I.

Emeritus Professor of Management and Entrepreneurship. B.Sc., 1968, Madras (India); M.A., 1972, St. Francis; Ph.D., 1977, Iowa.

CHAFFIN, CHARLES

Professor of Practice, Human Development and Family Studies. EDD, Illinois.

CHAMBERLIN, DENNIS MATTHEW

Associate Professor of Greenlee School of Journalism and Communication. B.A., 1983, M.F.A., 2005, Indiana.

CHAMBERLIN, JOAN BORSVOLD

Associate Teaching Professor of English. B.A., 1980, Oregon; M.A., 1985, Monterey Institute of International Studies.

CHAMBERLIN, MELISSA

Associate Professor of Management and Entrepreneurship. B.A., 2003, Utah; M.A., 2005, Chicago; Ph.D., 2017, Arizona State.

CHAN, CHIU SHUI

Emeritus Professor of Architecture. B.S., 1974, University of Chinese Culture; M.Arch., 1982, Minnesota; Ph.D., 1990, Carnegie Mellon.

CHAN, CHUN KIT

Professor of Psychology. B.S., 2000, Victoria (Canada); Ph.D., 2007, Washington (St. Louis).

CHANDIO, RABAIL

Assistant Professor of Economics. Bachelor's, Lahore University of Management Sciences; Ph.D., Ohio State.

CHANDRA, ABHIJIT

Emeritus Professor of Mechanical Engineering. B.Tech., 1979, Khanagpur; M.Engr., 1980, New Brunswick; Ph.D., 1983, Cornell.

CHANG, BOYCE

Assistant Professor of Materials Science and Engineering. Bachelor's, Master's, Ph.D., Iowa State.

CHANG, CARL KOCHAO

Emeritus Professor of Computer Science. B.S., 1974, National Central (Taiwan); M.S., 1978, Northern Illinois; Ph.D., 1982, Northwestern.

CHANG, SHU-HUI H.

Associate Teaching Professor of Computer Science. B.A., 1982, National Central (Taiwan); M.S., 1998, Ph.D., 2006, Iowa State.

CHAPELLE, CAROL A.

Professor of English; Distinguished Professor in Liberal Arts and Sciences. B.A., 1977, Michigan State; A.M., 1979, Ph.D., 1983, Illinois.

CHAPLIN, MICHAEL H.

Emeritus Professor of Horticulture. B.S., 1965, Kentucky; M.S., 1966, Rutgers; Ph.D., 1968, Michigan State.

CHARBONNEAUX, MARIA

Assistant Professor of Practice, Greenlee School of Journalism and Communication. B.A., 2007, Master's, Iowa State.

CHARBONNET, JOE

Assistant Professor of Civil, Construction, and Environmental Engineering. Bachelor's, Georgia Institute; Master's, Ph.D., California (Berkeley).

CHASE, CHRISTOPHER WYATT

Associate Teaching Professor of Philosophy and Religious Studies. B.A., 1995, Oklahoma State; M.A., 2001, Arizona State.

CHAUDHURI, SOMA

Associate Professor of Computer Science. B.S., 1984, Massachusetts Institute of Technology; M.S., 1987, Ph.D., 1990, Washington.

CHEATLE, JOSEPH

Adjunct Assistant Professor of English. Ph.D., Miami.

CHEN, BAOYU

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B. S., 2000, Hunan (China); M.S., 2003, Tsinghua (China); Ph.D., 2008, Pennsylvania State.

CHEN, CHUNHUI

Professor of Physics and Astronomy. B.S., 1992, M.S., 1995, Nanjing (China); M.S., 1997, Temple; Ph.D., 2003, Pennsylvania.

CHEN, DEGANG

Professor of Electrical and Computer Engineering. B.S., 1984, Tsinghua (China); M.S., 1988, Ph.D., 1992, California (Santa Barbara).

CHEN, HAOZHE

Professor of Supply Chain Management and Interim Chair of the Department. B.A., 1993, Ahnui (China); M.B.A., 2003, Alabama; Ph.D., 2007, Oklahoma.

CHEN, RUI

Professor of Information Systems and Business Analytics. B.S., 2001, Hangzhou Institute of Electronic Engineering; M.S., 2004, Southern Illinois; Ph.D., 2009, New York (Buffalo).

CHEN, SENLIN

Affiliate Associate Professor of Kinesiology. B.Ed., 2005, M.Ed., 2007, Beijing (China); Ph.D., 2011, North Carolina (Greensboro).

CHEN, SONG XI

Emeritus Professor of Statistics. B.Sc., 1983, M.Sc., 1988, Beijing (China); M.Sc., 1990, Victoria (New Zealand); Ph.D., 1992, Australian National.

CHEN, TSING-CHANG

Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.A., 1965, Taiwan Normal; M.S., 1968, National Central (Taiwan); M.A., 1972, Johns Hopkins; Ph.D., 1975, Michigan.

CHEVILLE, NORMAN F.

Emeritus Professor of Veterinary Pathology; Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Emeritus Dean of the College of Veterinary Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1959, Iowa State; M.S., 1963, Ph.D., 1964, Wisconsin; Dr.H.C., 1986, Liege.

CHIDISTER, MARK J.

Emeritus Associate Professor of Art and Visual Culture. B.S., 1977, Ball State; M.S.L.A., 1981, Wisconsin.

CHIKERINETS, ROMAN

Associate Teaching Professor of Architecture. M.Arch., 2012, Pratt Institute.

CHILAN, CHRISTIAN

Assistant Teaching Professor of Aerospace Engineering. Bachelor's, Universidad Catolica de Santiago de Guayaquil; Master's, Ph.D., Illinois at Urbana-Champaign.

CHILCOTT, TRAVIS

Associate Professor of Philosophy and Religious Studies. B.A., 2001, California (Santa Barbara); M.S., 2002, Oxford (UK); Ph.D., 2011, California (Santa Barbara).

CHILDERS, TERRY LEE

Emeritus Professor of Marketing. B.S., 1971, M.S., 1972, Illinois State; Ph.D., 1982, M.B.A., 1982, Wisconsin.

CHIMENTI, DALE E.

Emeritus Professor of Aerospace Engineering. B.A., 1968, Cornell College; M.S., 1972, Ph.D., 1974, Cornell.

CHING, BARBARA A.

Emerita Professor of English. B.A., 1980, Duke; M.A., 1985, New York; Ph.D., 1990, Duke.

CHIOU, CHIEN-PING

Adjunct Associate Professor of Aerospace Engineering. B.S., 1981, National Cheng Kung (China); M.S., 1986, Ph.D., 1990, Iowa State.

CHIOU, THOMAS

Professor of Practice, Aerospace Engineering. B.S., 1981, National Cheng Kung; M.S., 1986, Ph.D., 1990, Iowa State.

CHO, IN-HO

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 2001, M.S., 2003, Seoul National; Ph.D., 2012, California Institute of Technology.

CHO, MICHAEL

Professor of Biomedical Sciences. B.A., 1987, Whitman College; Ph.D., 1994, Utah.

CHO, YONGYEON

Assistant Professor of Interior Design. B.A., 2009, Soong-Sil (South Korea); M.I.A., 2011, Konkuk (South Korea); M.F.A., 2016, Iowa State.

CHOI, EUN KWAN

Professor of Economics. B.A., 1971, Seoul National; M.A., 1974, Houston; Ph.D., 1978, Iowa.

CHOU, LI-SHAN

Professor of Kinesiology and Chair of the Department. B.S., 1987, Tatung Institute of Technology (Taiwan); M.S., 1990, Ph.D., 1995, Illinois.

CHOWDHURY, RATUL

Assistant Professor of Chemical and Biological Engineering. Ph.D., Pennsylvania State.

CHRISTENSEN, AMY C.

Associate Teaching Professor of Music and Theatre. B.M., 1995, Iowa State; M.M., 1997, Yale; M.L.S., 1998, Simmons.

CHRISTIANS, NICK E.

Emeritus Professor of Horticulture; Emeritus Professor of Agronomy. University Professor. B.S., 1972, Colorado State; M.S., 1977, Ph.D., 1979, Ohio State.

CHRISTY, COLIN

Research Assistant Professor of Electrical and Computer Engineering. Bachelor's, Missouri-Rolla; Master's, Iowa State; Ph.D., Kansas State.

CHU, CHRIS CHONG-NUEN

Emeritus Professor of Electrical and Computer Engineering. B.Sc., 1993, Hong Kong; M.S., 1994, Ph.D., 1999, Texas.

CHU, LYNNA

Assistant Professor of Statistics. Ph.D., 2019, California, Davis.

CHUKHAREV-KHUDILAYNEN, EVGENY

Associate Professor of English. B.Sc., 2006, M.Sc., 2006, Arkhangelsk State Technical (Russia); Ph.D., 2009, Herzen State Pedagogical (St. Petersburg, Russia).

CHUMBLEY, L. SCOTT

Emeritus Professor of Materials Science and Engineering. B.S., 1981, Ph.D., 1986, Illinois.

CHUNG, TELIN

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 2005, National Chiao Tung (Taiwan); M.S., 2008, Ph.D., 2011, Purdue.

CIANZIO, SILVIA

Emerita Professor of Agronomy. B.S., 1968, Universidad del Uruguay; M.S., 1970, Ph.D., 1978, Iowa State.

CIARDO, GIANFRANCO

Professor of Computer Science. B.S., 1982, Di Torino (Italy); Ph.D., 1989, Duke.

CLARK, LYNN G.

Professor of Ecology, Evolution, and Organismal Biology and Interim Chair of the Department. B.S., 1979, Michigan State; Ph.D., 1986, Iowa State.

CLARK, PETER

Assistant Professor of Food Science and Human Nutrition. B.A., 2004, Wisconsin (Milwaukee); Ph.D., 2011, Illinois.

CLARK, STEPHANIE

Professor of Food Science and Human Nutrition. B.S., 1990, M.S., 1993, Ph.D., 1997, Cornell.

CLARK, WILLIAM R.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1971, Rutgers; M.S., 1974, Ph.D., 1979, Utah State.

CLAUSSEN, JONATHAN

Associate Professor of Mechanical Engineering. B.A., 2006, Minnesota; M.S., 2008, Ph.D., 2011, Purdue.

CLAVIJO, MARIA

Research Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2009, Universidad Central de Venezuela; Ph.D., Minnesota, 2014.

CLEM, ANNE MARIE

Teaching Professor of Accounting. B.B.A., 1990, Iowa State; Ph.D., 1997, Texas.

CLIFFORD, ANNE

Emerita Associate Professor of Philosophy and Religious Studies. B.A., 1972, Carlow College; M.A., 1980, Catholic Theological Union; Ph.D., 1988, Catholic University of America.

CLOUGH, MICHAEL P.

Emeritus Professor of School of Education. B.A., 1982, Drake; M.A.T., 1985, Ph.D., 1994, Iowa.

COATES, BRAD S.

Affiliate Assistant Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1996, M.S., 2001, Ph.D., 2005, Iowa State.

COATS, JOEL

Emeritus Professor of Plant Pathology, Entomology, and Microbiology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1970, Arizona State; M.S., 1972, Ph.D., 1974, Illinois.

COCHRAN, ERIC W.

Professor of Chemical and Biological Engineering. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, JAMES

Professor of Physics and Astronomy. B.S., 1985, Georgia Inst. of Technology; M.A., 1987, Ph.D., 1993, New York (Stony Brook).

CODY, ANITA

Affiliate Instructor in Geological and Atmospheric Sciences. B.A., 1965, Cornell; B.S., 1970, Colorado.

COFFELT, TINA A.

Professor of English. B.B.A., 1997, Florida International; M.B.A., 2001, Northwest Missouri State; Ph.D., 2008, Missouri.

COFFEY, DANIEL

Associate Professor, Library. B.A., 1995, M.L.S., 1999, New York (Buffalo).

COFFMAN, CLARK

Associate Professor of Genetics, Development, and Cell Biology. B.S., 1986, Iowa State; Ph.D., 1993, California (San Diego).

COHEN, HARRY

Emeritus Professor of Sociology and Criminal Justice. B.B.A., 1956, M.A., 1959, City University of New York; Ph.D., 1962, Illinois.

COHEN, MYRA

Professor of Computer Science. B.S., Cornell; M.S., 1999, Vermont; Ph.D., 2004, Auckland (New Zealand).

COIMBRA-CARDOSO, CARLOS

Associate Professor of Industrial Design. B.A., 1999, Lisbon University of Technology; Ph.D., 2005, Cambridge (United Kingdom).

COLBERT, JAMES T.

Emeritus Associate Professor of Ecology, Evolution, and Organismal Biology; Emeritus Associate Professor of Genetics, Development and Cell Biology. B.S., 1978, Iowa State; M.S., 1981, Ph.D., 1985, Wisconsin.

COLBERT, KAREN K.

Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, Iowa State; M.S., 1980, Ph.D., 1984, Wisconsin.

COLE, JIM E.

Emeritus Professor, Library. B.A., 1970, M.A., 1971, Iowa.

COLEMAN, SHANNON M.

Associate Professor of Food Science and Human Nutrition. B.S., 2008, M.S., 2011, Alabama A&M; Ph.D., 2015, Colorado State.

COLLETTI, JOE PAUL

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1972, Humboldt; M.S., 1974, Ph.D., 1978, Wisconsin.

COLLINS, BRIAN

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2010, Iowa State.

COLLINS, PETER

Professor of Materials Science and Engineering. B.S., 1999, Missouri (Rolla); M.Sc., 2001, Ph.D., 2004, Ohio State.

COLVER, GERALD M.

Emeritus Professor of Mechanical Engineering. B.S., 1962, Bradley; M.S., 1964, Ph.D., 1969, Illinois.

COLWELL, PETER

Emeritus Professor of Mathematics. B.S., 1958, Wooster; M.A., 1960, Ohio; Ph.D., 1965, Minnesota.

COMITO, JACQUELINE

Adjunct Assistant Professor of Natural Resource Ecology and Management. Ph.D., 2001, Iowa.

COMSTOCK, CHESTER JR.

Emeritus Professor of Electrical and Computer Engineering. B.E.E., 1959, Union; M.S., 1964, Ph.D., 1969, Iowa State.

CONGER, RAND DONALD

Affiliate Professor of Psychology. B.S., 1972, Arizona State; M.A., 1974, Ph.D., 1976, Washington.

CONSTANT, ALAN P.

Teaching Professor of Materials Science and Engineering. B.S., 1981, Cornell; Ph.D., 1987, Northwestern.

CONSTANT, KRISTEN P.

Professor of Materials Science and Engineering; Vice President of Information Technology Services/Chief Information Officer; Morrill Professor. B.S., 1986, Iowa State; Ph.D., 1990, Northwestern.

COOK, CHRISTINE C.

Emerita Associate Professor of Human Development and Family Studies. B.A., 1972, Montclair; M.S., 1977, Cornell; Ph.D., 1982, Ohio State.

COOK, DIANNE H.

Emerita Professor of Statistics. B.S., 1979, New England (Australia); M.S., 1990, Ph.D., 1993, Rutgers.

COOK, K. L.

Professor of English. B.A., 1984, West Texas State; M.A., 1987, Southern Illinois; M.F.A., 1991, Warren Wilson (North Carolina).

COON, STEPHEN C.

Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1967, Iowa; M.S., 1970, Iowa State.

COOPER, ERIC E.

Emeritus Associate Professor of Psychology. B.S., 1988, Kansas; Ph.D., 1993, Minnesota.

COOPER, THERESSA NICOLE

Adjunct Associate Professor of Agricultural Education and Studies; Assistant Dean of the College of Agriculture and Life Sciences. B.S., 2001, M.S., 2002, Texas A&M; Ph.D., 2010, Tennessee.

CORDERY, SIMON

Professor of History and Chair of the Department. B.A., 1982, Northern Illinois; M.A., 1984, York (England); Ph.D., 1995, Texas.

CORDERY, STACY

Professor of History. B.A., 1983, M.A., 1986, Ph.D., 1992, Texas.

CORDOBA, JUAN CARLOS

Professor of Economics. B.S., 1993, M.A., 1995, Universidad Nacional De Colombia; M.A., 2000, Ph.D., 2001, Rochester.

CORDRAY, JOSEPH C.

Emeritus Professor of Animal Science. B.S., 1971, Iowa State; M.S., 1976, Ph.D., 1983, Auburn.

CORNARO, JASON

Assistant Professor of Practice, Industrial Design. Bachelor's, Wentworth Institute of Technology.

CORNELIUS, CHRIS

Professor of Materials Science and Engineering and Chair of the Department. B.S., 1994, Montana State; M.Eng., 1998, Ph.D., 2000, Virginia Tech.

CORNETTE, JAMES L.

Emeritus Professor of Mathematics; University Professor. B.S., 1955, West Texas; M.A., 1959, Ph.D., 1962, Texas.

CORNICK, NANCY

Emerita Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1980, Colorado; M.S., 1991, Ph.D., 1995, Iowa State.

CORREA-DIAZ, REINALDO

Assistant Teaching Professor of Architecture. B.Arch., 2008, M.I.D., 2020, Iowa State.

CORREIA-LIMA-LINHARES, DANIEL

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2003, Federal de Goias (Brazil); M.B.A., 2007, Fundacao Getulio Vargas (Brazil); Ph.D., 2013, Minnesota.

CORRIGAN, DANIEL

Assistant Teaching Professor of Philosophy and Religious Studies. Bachelor's, Iowa State; Master's, Georgia State; Ph.D., Miami.

COSTABILE, KRISTI A.

Associate Professor of Psychology. B.S., 1999, Illinois; M.A., 2003, Ph.D., 2005, California (Santa Barbara).

COTOS, ELENA

Associate Professor of English. Associate Dean of the Graduate College. B.A., 1995, M.A., 2003, Moldova State; Ph.D., 2010, Iowa State.

COUNTRYMAN, DAVID W.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1966, M.S., 1968, Iowa State; Ph.D., 1973, Michigan.

COURTNEY, GREGORY W.

Professor of Plant Pathology, Entomology, and Microbiology; Professor of Ecology, Evolution, and Organismal Biology. B.S., 1982, Oregon State; Ph.D., 1989, Alberta (Canada).

COURTWRIGHT, JULIE

Associate Professor of History. B.S.E., 1994, Emporia State; M.A., 2000, Wichita State; Ph.D., 2007, Arkansas.

COWAN, ARNOLD RICHARD

Professor of Finance. B.A., 1977, Augustana (Illinois); M.A., 1980, M.S., 1985, Ph.D., 1988, Iowa.

COWAN, DONNA LEE

Emerita Professor of Human Development and Family Studies. B.S., 1962, M.S., 1968, Ph.D., 1973, Wisconsin.

COWLES, HAROLD ANDREW

Emeritus Professor of Industrial and Manufacturing Systems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949; M.S., 1953, Ph.D., 1957, Iowa State.

COX, JANE F.

Emerita Professor of Music and Theatre. B.S., 1962, Iowa State; M.A., 1964, Drake.

CRASE, SEDAHLIA J.

Emerita Professor of Human Development and Family Studies; University Professor. B.S., 1967, Berea; M.S., 1969, Kentucky; Ph.D., 1972, Iowa State.

CRAWFORD, DENISE A.

Professor of School of Education; Director for the Center for Technology in Learning and Teaching. B.S., 1982, M.S., 1991, Ph.D., 1995, Iowa State.

CRAWLEY, HENRY BERT

Emeritus Professor of Physics and Astronomy. B.S., 1962, Louisiana Tech; Ph.D., 1966, Iowa State.

CRECELIUS, ANDREW

Associate Professor of Marketing. B.B.A., 2010, Notre Dame; M.B.A., 2013, Ph.D., 2016, Missouri.

CREDE, MARCUS

Associate Professor of Psychology. B.Bus., 1997, M.A., 1999, Cape Town (South Africa); Ph.D., 2005, Illinois.

CRESPI, JOHN M.

Professor of Economics; Director of Center for Agricultural and Rural Development. B.A., 1988, B.A., 1989, California State (Sacramento); M.A., 1994, Colorado State; Ph.D., 2000, California (Davis).

CRESWELL, MARY

Associate Professor of Music and Theatre. B.M., 1980, Western Michigan; M.M., 1982, Michigan.

CROSS, SAMANTHA N.

Associate Professor of Marketing. B.Sc., 1993, University of the West Indies; M.B.A., 1995, Depaul; Ph.D., 2009, California (Irvine).

CROSS, SUSAN ELAINE

Professor of Psychology. B.S., 1979, Texas A&M; M.A., 1982, Ohio State; Ph.D., 1990, Michigan.

CROWLEY-GALL, AMBER

Assistant Professor of Plant Pathology, Entomology, and Microbiology. Bachelor's, Wright State; Ph.D., Cincinnati.

CROYLE, CORYDON A.

Emeritus Associate Professor of Art and Visual Culture. B.A., 1976, B.F.A., 1976, Akron; M.F.A., 1982, Indiana.

CRUM, MICHAEL ROBERT

Emeritus Professor of Supply Chain Management. B.S., 1975, M.B.A., 1978, D.B.A., 1983, Indiana.

CRUMP, MALCOLM H.

Emeritus Associate Professor of Biomedical Sciences. B.S., 1951, Virginia Polytechnic Institute; D.V.M., 1958, Georgia; M.S., 1961, Ph.D., 1965, Wisconsin.

CRUMPTON, WILLIAM G.

Professor of Ecology, Evolution, and Organismal Biology; University Professor. B.S., 1975, M.S., 1978, West Florida; Ph.D., 1980, Michigan State.

CRUSE, RICHARD M.

Professor of Agronomy; Director of the Iowa Water Center. B.S., 1972, Iowa State; M.S., 1975, Ph.D., 1978, Minnesota.

CUADROS-MENACA, ANDRES

Assistant Teaching Professor of Economics. Ph.D., Arkansas.

CUI, BAI

Assistant Professor of Electrical and Computer Engineering. Bachelor's, 2011, Shanghai Jiao Tong; Bachelor's, 2011, Michigan-Ann Arbor; Master's, 2014, Ph.D., 2018, Georgia Institute of Technology-Main Campus.

CUI, JUN

Professor of Materials Science and Engineering. B.S., 1992, Zhejiang (China); M.Eng., 2000, M.S., 2000, Ph.D., 2002, Minnesota.

CULBERTSON, ALAN

Assistant Professor of Biochemistry, Biophysics, and Molecular Biology. Bachelor's, Michigan State; Ph.D., Iowa State.

CULLINAN, TIM

Associate Teaching Professor of Materials Science and Engineering. B.S., 2010, Ph.D., 2015, Iowa State.

CUNNALLY, JOHN

Professor of Art and Visual Culture. B.A., 1972, Temple; M.S., 1976, Drexel; Ph.D., 1984, Pennsylvania.

CUNNICK, JOAN E.

Professor of Animal Science; B.S., 1979, McPherson; Ph.D., 1987, Kansas State.

CURRAN, PAULA J.

Emerita Associate Professor of Graphic Design. B.A., 1976, Westfield; B.F.A., 1982, Parsons Design; M.F.A., 1993, Illinois.

CURREY, CHRISTOPHER

Associate Professor of Horticulture. B.S., 2004, M.S., 2009, Minnesota.

CURRIER, RUSSELL

Affiliate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1965, D.V.M., 1967, M.P.H., 1969, Minnesota.

CURTIS, MICHAEL B.

Emeritus Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 1977, New Mexico State; Ph.D., 1985, New Mexico; D.V.M., 1985, Colorado State.

CURTIS, SCOTT B.

Professor of Naval Science. B.S., 1992, Kansas State; M.S., 2000, Naval Postgraduate School.

CURTZWILER, GREG

Assistant Professor of Food Science and Human Nutrition. B.S., 2009, M.S., 2009, California Polytechnic State; Ph.D., 2017, Southern Mississippi.

CURZON, MIRANDA

Assistant Professor of Natural Resource Ecology and Management. B.A., 2005, Denver; M.S., 2008, Vermont; Ph.D., 2014, Minnesota.

CUTRONA, CAROLYN E.

Professor of Psychology. Distinguished Professor in Liberal Arts and Sciences. B.A., 1973, Stanford; M.A., 1974, New Mexico; Ph.D., 1981, California (Los Angeles).

D**D'ALESSANDRO, DOMENICO**

Professor of Mathematics. Ph.D., 1996, Padua (Italy); Ph.D., 1999, California (Santa Barbara).

D'ORIA, LAURA

Assistant Professor of Management and Entrepreneurship. B.S., 2006, Ilum (Italy); M.S., 2008, Ilum (Italy); Ph.D., 2013, Ilum (Italy).

DAHIYA, RAJBIR S.

Emeritus Professor of Mathematics. B.S., 1960, M.S., 1962, Ph.D., 1967, Birla Institute of Technology (India).

DAHLSTROM, MICHAEL F.

Professor of Greenlee School of Journalism and Communication and Director of the School. B.A., 2002, M.S., 2004, Iowa State; Ph.D., 2008, Wisconsin.

DAIL, PAULA W.

Emerita Associate Professor of Human Development and Family Studies. B.S., 1963, Colorado; M.S., 1980, Ph.D., 1983, Wisconsin.

DAKE, DENNIS MYRON

Emeritus Professor of Art and Design. B.A., 1966, Upper Iowa; M.A., 1969, Northern Iowa.

DALAL, VIKRAM L.

Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1964, Bombay; Ph.D., 1969, Princeton.

DALY, BRENDA O.

Emerita Professor of English; University Professor. B.A., 1963, North Dakota; Ph.D., 1985, Minnesota.

DALY, NORENE F.

Emerita Professor of School of Education; Emerita Dean of the College of Human Sciences. B.A., 1967, Madonna; M.Ed., 1968, Ed.D., 1977, Wayne State.

DAMHORST, MARY LYNN

Emerita Professor of Apparel, Events, and Hospitality Management. B.S., 1972, Illinois; M.S., 1975, California (Davis); Ph.D., 1981, Texas.

DANIELS, THOMAS EARL

Teaching Professor of Electrical and Computer Engineering. B.S., 1995, Southwest Missouri State; M.S., 1999, Ph.D., 2002, Purdue.

DANIELSON, BRENT J.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1980, Michigan State; Ph.D., 1986, Kansas.

DANIELSON, JARED A.

Professor of Veterinary Pathology; Professor of School of Education; Associate Dean of the College of Veterinary Medicine. Morrill Professor. B.A., 1994, Brigham Young; M.S., 1996, Syracuse; Ph.D., 1999, Virginia Polytechnic.

DANOFSKY, RICHARD A.

Emeritus Professor of Mechanical Engineering. B.S., 1955, M.S., 1960, Ph.D., 1963, Iowa State.

DAPENA, XAVIER

Assistant Professor of World Languages and Cultures. Ph.D., Pennsylvania.

DARK, FREDERICK H.

Emeritus Associate Professor of Finance; Emeritus Associate Professor of Accounting. B.S., 1971, Arkansas; Ph.D., 1987, Utah.

DARK, VERONICA JOY

Emerita Professor of Psychology. B.A., 1971, Arkansas; Ph.D., 1977, Washington.

DARLINGTON, MAHLON S.

Emeritus Professor of Music and Theatre. B.Mus., 1970, Baldwin-Wallace; M.A., 1973, Columbia.

DARR, MATTHEW JOHN

Professor of Agricultural and Biosystems Engineering; Director of the Biocentury Research Farm. B.S., 2002, Ohio State; M.S., 2004, Kentucky; Ph.D., 2007, Ohio State.

DAS, BISWA

Associate Professor of Community and Regional Planning. B.A., 1990, Utkal (India); M.A., 1992, M.Phil, 1994, Hyderabad (India); Ph.D., 2004, Texas Tech.

DASSANAYAKE, ROHANA P.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1996, Peradeniya (Sri Lanka); M.S., 2002, Ph.D., 2005, Nebraska.

DATTA, MRIDUL

Clinical Associate Professor of Food Science and Human Nutrition. B.S., 1989, Delhi (India); M.S., 1994, East Tennessee State; Ph.D., 2011, North Carolina (Greensboro).

DAUGHERTY, PATRICIA J.

Emerita Professor of Supply Chain Management. B.B.A, 1980, Western Michigan; M.B.A., 1981, Western Michigan; Ph.D., 1988, Michigan State.

DAVARNIA, DANIAL

Assistant Professor of Industrial and Manufacturing Systems Engineering. B.Sc., 2009, M.Sc., 2011, Sharif University of Technology (Iran); Ph.D., 2016, Florida.

DAVID, CAROL S.

Emerita Professor of English. B.A., 1952, Beloit; M.A., 1970, Ph.D., 1981, Iowa State.

DAVID, WILLIAM MILLS

Emeritus Professor of Music and Theatre; University Professor. B.Mus., 1969, M.Mus., 1970, D.M.A., 1972, Michigan.

DAVIS, JAMES A.

Associate Professor of Supply Chain and Information Systems. B.S., 1975, M.S., 1981, Ph.D., 1984, Iowa State.

DAVIS, JON

Assistant Teaching Professor of Agricultural Education and Studies. Bachelor's, Master's, Iowa State.

DAVIS, RADFORD G.

Associate Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1991, Colorado State; M.P.H., 1997, Arizona.

DAVIS, SARAH S.

Teaching Professor of English. B.A., 1994, California (Berkeley); M.A., 2009, Iowa State.

DAWSON, JACOB

Associate Teaching Professor of English. A.A., 2006, Lake Land (Illinois); B.A., 2008, M.A., 2010, Eastern Illinois; M.F.A., 2014, New York.

DAWSON, JANE P.

Associate Teaching Professor of Geological and Atmospheric Sciences. B.S., 1983, M.S., 1986, Iowa State; Ph.D., 1995, New Mexico.

DAY, CHRISTOPHER

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 2004, Ball State; M.S., 2006, Ball State; M.S., 2007, Purdue; Ph.D., 2010, Purdue.

DAY, TIMOTHY A.

Professor of Biomedical Sciences; University Professor. B.S., 1988, Kansas State; M.S., 1990, Ph.D., 1993, Michigan State.

DAYAL, VINAY

Associate Professor of Aerospace Engineering. B.Tech., 1972, Indian Institute of Technology; M.S., 1983, Missouri; Ph.D., 1987, Texas A&M.

DE BRABANTER, KRIS

Associate Professor of Statistics; Associate Professor of Computer Science; Associate Professor of Industrial and Manufacturing Systems Engineering. B.Sc., 2003, Hogeschool Brussel (Belgium); M.Sc., 2007, Ph.D., 2011, Leuven (Belgium).

DE CASTRO SEBASTIAO, BEATRIZ

Assistant Professor of Marketing. B.S., 2004, M.S., 2008, Sao Paulo; Ph.D., 2014, Michigan.

DEACON, RUTH ELINOR

Emerita Professor of Human Development and Family Studies. B.S., 1944, Ohio State; M.S., 1948, Ph.D., 1954, Cornell.

DEAM, DIRK J.

Teaching Professor of Political Science. B.S., 1981, J.D., 1985, Kansas; Ph.D., 1999, Iowa.

DEARIN, RAY D.

Emeritus Professor of English; Emeritus Professor of Political Science. B.A., 1963, Harding; M.A., 1965, Ph.D., 1970, Illinois.

DEBINSKI, DIANE

Affiliate Professor of Ecology, Evolution, and Organismal Biology. Ph.D., 1991, Montana State.

DEES, SARAH

Assistant Professor of Philosophy and Religious Studies. Ph.D., 2015, Indiana.

DeFREITAS, ZORAIDA

Affiliate Assistant Professor of Food Science and Human Nutrition. B.S., 1985, Catolica Andres Bello (Venezuela); M.S., 1989, Ph.D., 1994, Iowa State.

DEITENBECK, BECKY

Associate Teaching Professor of Information Systems and Business Analytics. Bachelor's, Master's, Master's, Nebraska.

DEITER, RONALD E.

Emeritus Professor of Economics. B.S., 1971, M.S., 1973, Wisconsin; Ph.D., 1979, Illinois.

DEJONG, PAUL S.

Emeritus Professor of Mechanical Engineering. B.S., 1960, M.S., 1965, Iowa State.

DEKKERS, JACK C.

Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1982, M.S., 1985, Wageningen Agricultural (Netherlands); Ph.D., 1989, Wisconsin.

DELATE, KATHLEEN

Professor of Horticulture; Professor of Agronomy. B.S., 1977, M.S., 1986, Florida; Ph.D., 1991, California (Berkeley).

DELCHIER, NICOLAS

Adjunct Assistant Professor of Food Science and Human Nutrition.

DELISI, MATTHEW J.

Professor of Sociology and Criminal Justice; Distinguished Professor in Liberal Arts and Sciences. B.A., 1995, Syracuse; Ph.D., 2000, Colorado.

DELL, BRAD EDWARD

Professor of Music and Theatre and Chair of the Department. B.A., 2002, Westminster College; M.F.A., 2005, Western Illinois.

DEMARIE, SAM

Associate Professor of Management and Entrepreneurship. B.S., 1981, Northern Arizona; M.B.A., 1993, Nevada (Las Vegas); Ph.D., 1995, Arizona State.

DENISON, CHRISTINE ALICIA

Associate Professor of Accounting. B.A., 1991, MACC, 1999, Oklahoma; Ph.D., 2006, Iowa.

DENIZEL-KARAKAYA, MELTEM

Associate Professor of Supply Chain Management. B.S., 1983, M.S., 1986, Middle East Technical (Turkey); Ph.D., 1993, Florida.

DENNIS, ALEC

Assistant Professor of Information Systems and Business Analytics. Bachelor's, Indiana; Ph.D., Maryland.

DENTZMAN, KATHERINE

Assistant Professor of Sociology and Criminal Justice. B.A., 2011, Central Michigan; M.A., 2013, Ph.D., 2017, Michigan State.

DEPAULA, FABIANA

Assistant Teaching Professor of World Languages and Cultures. B.S., Universidade Paulista; M.B.A., Rollins; M.A., 2012, Yale.

DEPAULA, GIL

Assistant Professor of Economics. Ph.D., 2017, Yale.

DERRICK, TIMOTHY R.

Professor of Kinesiology. B.S., 1988, M.S., 1991, Oregon; Ph.D., 1996, Massachusetts.

DERSCHIED, RACHEL

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2003, D.V.M., 2007, Ph.D., 2012, Iowa State.

DESHAY-DUNCAN, MADISON

Assistant Teaching Professor of School of Education. Ph.D., 2020, Iowa State.

DE-SOUSA-E-SILVA, GUSTAVO

Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2010, Master's, 2014, Universidade Federal de Mato Grosso; Ph.D., 2018, Universidade Federal do Rio Grande do Sul.

DEVINE, BRENDAN

Assistant Teaching Professor of Industrial and Manufacturing Systems Engineering.

DEVRIES, MINDY

Assistant Teaching Professor of Agronomy. Ph.D., 2006, Iowa State.

DEWALL, BRIAN S.

Associate Teaching Professor of English. B.S., 1991, M.A., 1993, Iowa State.

DEWELL, GRANT ALAN

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1990, D.V.M., 1993, M.S., 1998, Ph.D., 2008, Colorado State.

DEWITT, JERALD RAY

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1967, M.S., 1970, Ph.D., 1972, Illinois.

DEZA, MIRKA

Associate Teaching Professor of Mechanical Engineering. B.S., 1997, Pontificia Universidad Catolica del Peru; M.S., 2006, Iowa State; PhD., 2012, Virginia Polytechnic Institute.

DIAL, ETHAN

Professor of Military Science and Tactics. B.S., 1999, United State Military Academy; M.S., 2013, Kansas State.

DIBLASI, JONATHAN

Assistant Professor of Art and Visual Culture. B.F.A., 2006, Houston; M.F.A., 2008, Maryland Institute College of Art.

DICKERSON, JULIE A.

Professor of Electrical and Computer Engineering. B.S., 1983, California (San Diego); M.S., 1987, Ph.D., 1993, Southern California.

DICKSON, JAMES S.

Professor of Animal Science. B.S., 1977, Clemson; M.S., 1980, Georgia; Ph.D., 1984, Nebraska.

DISSLIN, BRENDA ANN

Associate Teaching Professor of Mathematics. B.A., 1989, Winona State; M.S., 1992, Ph.D., 1994, Iowa State.

DILL, ALEXANDER

Assistant Teaching Professor of Industrial Design. Master's, 2022, Iowa State.

DILLA, WILLIAM N.

Emeritus Professor of Accounting. B.M., 1978, M.B.A., 1979, Syracuse; Ph.D., 1987, Texas.

DIMITROVA, DANIELA

Professor of Greenlee School of Journalism and Communication. University Professor. B.A., 1997, American (Bulgaria); M.A., 1999, Oregon; Ph.D., 2003, Florida.

DINSMORE, JAMES JAY

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1964, Iowa State; M.S., 1967, Wisconsin; Ph.D., 1970, Florida.

DINSMORE, STEPHEN J.

Professor of Natural Resource Ecology and Management and Chair of the Department. Interim Director of Leopold Center for Sustainable Agriculture. B.S., 1990, Iowa State; M.S., 1994, North Carolina State; Ph.D., 2001, Colorado State.

DISHMAN, NATHAN

Associate Professor of Music and Theatre. B.M.E., 2003, Northern Iowa; M.Mus., 2005, D.M.A., 2008, Missouri (Kansas City).

DISPIRITO, ALAN A.

Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1977, Providence; M.S., 1980, Ph.D., 1983, Ohio State.

DIXON, BRENNIA

Associate Teaching Professor of English. B.A., 2009, South Florida; M.F.A., 2012, Iowa State.

DIXON, PHILIP M.

Professor of Statistics; University Professor. A.B., 1978, California (Berkeley); M.S., 1984, Ph.D., 1986, Cornell.

DOBBS, CHARLES M.

Emeritus Professor of History. B.A., 1972, Connecticut; M.A., 1974, Ph.D., 1978, Indiana.

DOBILL, DANIEL

Associate Teaching Professor of Agronomy. M.S., 1994, Southern Illinois.

DOBRATZ, BETTY A.

Emerita Professor of Sociology and Criminal Justice; Emerita Professor of Political Science. B.A., 1969, M.A., 1973, Northern Illinois; Ph.D., 1982, Wisconsin.

DOBSON, CYNTHIA

Emerita Professor, Library. B.A., 1963, M.A., 1964, M.A., 1966, Wisconsin; Ph.D., 1979, Iowa State.

DOBSON, IAN

Professor of Electrical and Computer Engineering. B.A., 1978, Cambridge (England); Ph.D., 1989, Cornell.

DOBSON, JOHN M.

Emeritus Professor of History. B.S., 1962, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1966, Wisconsin.

DODGE, PAMELA

Assistant Teaching Professor of School of Education. Ph.D., Iowa State.

DODSON, JACOB

Affiliate Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 2007, Virginia Commonwealth; M.S., 2010, Ph.D., 2012, Virginia Tech.

DOGANDZIC, ALEKSANDAR

Associate Professor of Electrical and Computer Engineering. M.S., 1997, Ph.D., 2001, Illinois (Chicago).

DOHLMAN, TYLER

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2010, M.S., 2015, Iowa State.

DOLLISSO, AWOKE DESTA

Teaching Professor of Agricultural Education and Studies. B.S., 1995, M.S., 1998, Ph.D., 2002, Iowa State.

DOLPHIN, CHAD

Assistant Teaching Professor of Agricultural and Biosystems Engineering. Master's, 2019, Iowa State.

DOLPHIN, WARREN DEAN

Emeritus Professor of Genetics, Development, and Cell Biology; University Professor. B.S., 1962, West Chester; Ph.D., 1968, Ohio State.

DOMOTO, PAUL ALAN

Emeritus Professor of Horticulture. B.S., 1969, M.S., 1971, California State (Fresno); Ph.D., 1974, Maryland.

DONG, JING

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 2001, M.S., 2003, Tsinghua (China); Ph.D., 2009, Northwestern.

DONG, LIANG

Professor of Electrical and Computer Engineering; Professor of Chemical and Biological Engineering. Director of Microelectronics Research Center. B.S., 1999, Xidian (China); Ph.D., 2004, Tsinghua (China).

DONOHU, HEATHER

Assistant Professor of Practice, Human Development and Family Studies. B.A., 2005, Saint Ambrose; M.A., 2013, Northern Iowa.

DORAN, ERIN

Associate Professor of School of Education. B.A., 2006, M.A., 2008, Ed.D., 2015, Texas (San Antonio).

DORHOUT, PETER

Professor of Chemistry; Vice President for Research. B.S., 1985, Illinois (Urbana-Champaign); Ph.D., 1989, Wisconsin (Madison).

DORIA, LAURA

Assistant Professor of Management and Entrepreneurship. Ph.D., 2013, Università IULM.

DORIUS, CASSANDRA

Associate Professor of Human Development and Family Studies. B.S., 1998, M.S., 2001, Brigham Young; Ph.D., 2010, Pennsylvania State.

DORIUS, SHAWN

Associate Professor of Sociology and Criminal Justice. B.A., 1998, M.S., 2004, Brigham Young; Ph.D., 2010, Pennsylvania State.

DORMAN, KARIN

Professor of Statistics; Professor of Genetics, Development, and Cell Biology. B.S., 1994, Indiana; Ph.D., 2001, California (Los Angeles).

DORNEICH, MICHAEL

Professor of Industrial and Manufacturing Systems Engineering; Professor of Aerospace Engineering. B.S., 1990, M.S., 1995, Ph.D., 1999, Illinois.

DOSANJH, RANPAL

Associate Professor of Philosophy and Religious Studies. B.Sc., 1998, Trent (Canada); Ph.D., 2001, Cambridge (UK); Ph.D., 2014, Toronto.

DOUGLAS, DANNY

Emeritus Professor of English. B.A., 1966, Culver-Stockton; M.A., 1968, Missouri; M.A., 1972, Hawaii; Ph.D., 1977, Edinburgh.

DOW, JAMES R.

Emeritus Professor of World Languages and Cultures. B.A., 1957, Mississippi College; M.A., 1961, Ph.D., 1966, Iowa.

DOWNING, JOHN A.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1973, Hamline; M.S., 1975, North Dakota State; Ph.D., 1980, McGill.

DOYLE, SHELBY

Associate Professor of Architecture. B.S., 2004, Virginia; M.Arch., 2011, Harvard.

DRAKE, SHARON KAY

Emerita Senior Lecturer in School of Education. B.S., 1964, M.S., 1983, Ph.D., 1990, Iowa State.

DRAPER, DIANNE C.

Emerita Professor of Human Development and Family Studies. B.S., 1961, Denison; M.A., 1964, Ph.D., 1968, Missouri.

DRAPER, DONALD D.

Emeritus Professor of Biomedical Sciences; University Professor. D.V.M., 1966, Iowa State; M.S., 1969, Ph.D., 1971, Missouri; M.B.A., 1997, Iowa State.

DRINKWATER, JENNIFER D.

Associate Professor of Art and Visual Culture. B.A., 2001, Tulane; M.F.A., 2007, East Carolina.

DRURY, ALAN

Associate Teaching Professor of Sociology and Criminal Justice. B.A., 2002, Northern Iowa; M.A., 2006, Texas; Ph.D., 2013, Iowa State.

DUBISAR, ABBY

Associate Professor of English. B.A., 2001, Missouri (Kansas City); M.A., 2005, Ohio State; Ph.D., 2010, Miami.

DUERFELDT, KEVIN

Assistant Teaching Professor of Horticulture. B.S., 2009, Northwest Missouri State; M.S., 2011, Ph.D., 2014, Iowa State.

DUFFY, JAN

Emerita Adjunct Instructor in Accounting. B.A., 1977, Nebraska; M.S., 1980, Pennsylvania State.

DUFFY, MICHAEL D.

Emeritus Professor of Economics. B.S., 1975, M.S., 1977, Nebraska; Ph.D., 1981, Pennsylvania State.

DUKES, LISA MARIE

Associate Teaching Professor of Kinesiology. B.A., 1999, Buena Vista; M.Ed., 2003, Iowa State.

DUNN, AUSTIN

Assistant Professor of Landscape Architecture. Bachelor's, Iowa; Master's, Master's, Iowa State.

DUONG, TRUONG

Associate Professor of Finance. B.S., 2002, Arizona; Ph.D., 2008, Minnesota.

DUPONT, JACQUELINE

Emerita Professor of Food Science and Human Nutrition. B.S., 1955, Florida State; M.S., 1959, Iowa State; Ph.D., 1962, Florida State.

DURBIN, PAUL

Professor of Aerospace Engineering. B.S.E., 1974, Princeton; Ph.D., 1979, Cambridge.

DUSSELIER, JANE E.

Emerita Senior Lecturer in History. B.A., 1979, Avila; M.A., 1999, Sarah Lawrence; Ph.D., 2005, Maryland.

DUTTA, SOMAK

Associate Professor of Statistics. B.Stat., 2008, M.Stat., 2010, Indian Statistical Institute; Ph.D., 2015, Chicago.

DUWE, HENRY JOHN III

Assistant Professor of Electrical and Computer Engineering. B.S., 2010, Wisconsin; M.S., 2013, Illinois; Ph.D., 2017, Illinois.

DYCHES, JEANNE

Associate Professor of School of Education. B.A., 2008, M. ED., 2011, North Carolina State; Ph.D., 2016, North Carolina.

DYER, DONALD CHESTER

Emeritus Professor of Biomedical Sciences. B.S., 1961, Ph.D., 1965, Kansas.

E**EASTERLING, W. SAMUEL**

Professor of Civil, Construction, and Environmental Engineering; Dean of the College of Engineering. B.S., 1981, M.S., 1983, West Virginia; Ph.D., 1987, Iowa State.

EBBERS, LARRY H.

Emeritus Professor of School of Education; University Professor. B.S., 1962, M.S., 1968, Ph.D., 1971, Iowa State.

EDELMAN, MARK ALAN

Emeritus Professor of Economics. B.S., 1975, M.S., 1978, Kansas State; Ph.D., 1981, Purdue.

EDWARDS, DAVID C.

Emeritus Professor of Psychology. B.S., 1959, Wisconsin; M.A., 1961, Ph.D., 1962, Iowa.

EDWARDS, JODE W.

Affiliate Associate Professor of Agronomy. B.S., 1992, M.S., 1994, Wisconsin; Ph.D., 1999, Iowa State.

EDWARDS, NATHAN

Associate Teaching Professor of Art and Visual Culture. B.F.A., 2008, Savannah College of Art and Design; M.F.A., 2012, Kansas State.

EDWARDS, WILLIAM M.

Emeritus Professor of Economics. B.S., 1969, M.S., 1971, Ph.D., 1979, Iowa State.

EIDE, ARVID RAY

Emeritus Professor of Mechanical Engineering. B.S., 1962, M.E., 1967, Ph.D., 1973, Iowa State.

EIKE, RACHEL

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 2007, Iowa State; M.S., 2009, Ph.D., 2014, Oklahoma State.

EISENMANN, DAVID

Associate Teaching Professor of Materials Science and Engineering. Associate Teaching Professor of Agricultural and Biosystems Engineering. B.S., 1985, B.S., 2002, Ph.D., 2015, Iowa State; M.S., 1996, Maryville (St. Louis).

EISMAN, APRIL ANGELIQUE

Associate Professor of Art and Visual Culture. B.A., 1994, Lawrence; M.A., 1998, Courtauld Institute of Art (London); Ph.D., 2007, Pittsburgh.

ELBERT, CAROLYN A.

Associate Teaching Professor of Apparel, Events, and Hospitality Management. B.S., 2006, Iowa State; M.S., 2012, Nebraska.

EL-GAZZAR, MOHAMED

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.M.S., 2000, Cairo; M.A.M., 2009, Georgia; Ph.D., 2014, Ohio State.

ELIA, NICOLA

Emerita Professor of Electrical and Computer Engineering. Ph.D., 1996, Massachusetts Institute of Technology.

ELLINGSON, JOSHUA

Affiliate Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 2007, M.S., 2011, D.V.M., 2011, Iowa State.

ELLINWOOD, NORMAN MATTHEW

Emeritus Associate Professor of Animal Science; Emeritus Associate Professor of Veterinary Clinical Sciences. B.A., 1985, Washington (St. Louis); D.V.M., 1997, Ph.D., 2000, Colorado State.

ELLIS, TIMOTHY G.

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology; Ph.D., 1995, Clemson.

ELOBEID, AMANI E.

Adjunct Associate Professor of Economics. B.S., 1986, Khartoum (Sudan); M.S., 1994, Ph.D., 2001, Iowa State.

EMERY, ALYSSA

Assistant Professor of School of Education. Ph.D, 2017, Ohio State.

EMMERSON, JAMES T.

Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1960, M.S., 1964, Iowa State; Ph.D., 1973, London School of Economics.

ENGELKEN, TERRY

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1984, D.V.M., 1987, M.S., 1994, Kansas State.

ENGEN, RICHARD L.

Emeritus Professor of Biomedical Sciences. B.S., 1954, Iowa State; M.S., 1958, Colorado State; Ph.D., 1965, Iowa State.

ENGER, M. DUANE

Emeritus Professor of Genetics, Development, and Cell Biology. B.S., 1959, M.S., 1961, North Dakota State; Ph.D., 1964, Wisconsin.

ENGLER, MIRIAM

Emerita Professor of Landscape Architecture. B.L.A., 1983, Institute of Technology (Israel); M.L.A., 1989, California (Berkeley); Ph.D., 2013, California (Los Angeles).

ENGSTROM, CATHERINE

Associate Teaching Professor of English. B.A., 1983, Iowa State; M.A., 1987, Purdue.

EPPELSON, DOUGLAS L.

Emeritus Professor of Psychology. B.S., 1973, M.S., 1976, Utah; Ph.D., 1979, Ohio State.

ERDIM, FIRAT

Associate Professor of Architecture. B.Arch., 2001, Cooper Union; M.Arch., 2007, Virginia.

ERDMAN, MATTHEW M.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2000, D.V.M., 2004, Ph.D., 2005, Iowa State.

ESPIN PALAZON, RAQUEL

Assistant Professor of Genetics, Development, and Cell Biology. B.S., M.S., Ph.D., Murcia (Spain).

ESSER, MELISSA

Clinical Assistant Professor of Veterinary Clinical Sciences. Bachelor's, Eastern Oregon; Master's, D.V.M., Oregon State.

ESSNER, JEFFREY JEROME

Professor of Genetics, Development, and Cell Biology. B.S., 1987, Iowa; Ph.D., 1996, Minnesota.

ESTES, SIMON

Adjunct Professor of Music and Theatre. B.A., 1963, Iowa.

EULENSTEIN, OLIVER

Professor of Computer Science. Ph.D., 1998, Bonn (Germany).

EVANS, JAMES W.

Professor of Physics and Astronomy; Professor of Mathematics. B.S., 1975, Melbourne; Ph.D., 1978, Adelaide.

EVANS, LAWRENCE E.

Emeritus Professor of Veterinary Clinical Sciences; Emeritus Professor of Biomedical Sciences. D.V.M., 1963, M.S., 1967, Ph.D., 1973, Iowa State.

EVANS, NANCY J.

Emerita Professor of School of Education. B.A., 1970, State University of New York (Potsdam); M.S., 1972, Southern Illinois; Ph.D., 1978, Missouri; M.F.A., 1991, Western Illinois.

EVANS, PETER MCNEIL

Assistant Professor of Industrial Design. B.Arch., 1995, M.S., 2017, Iowa State.

EVANS, SHARRON

Assistant Teaching Professor of School of Education; Associate Vice President for Student Affairs and Dean of Students. B.S., 1993, M.S., 1997, Illinois State; J.D., 2013, Illinois at Chicago John Marshall Law School.

EVEN, JOHN C. JR.

Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1957, M.S., 1959, Northwestern; Ph.D., 1969, Oklahoma State.

F

FABER, CAROL H.

Associate Professor of Graphic Design. B.A., 1987, Morningside College; M.A., 1990, M.F.A., 2004, Iowa State.

FADEN, ARNOLD M.

Emeritus Professor of Economics. B.A., 1954, City University of New York; Ph.D., 1967, Columbia.

FAHEY, GEORGE

Affiliate Professor of Animal Science. B.A., 1971, M.S., 1974, Ph.D., 1976, West Virginia.

FAIRBANKS, WENDELYN SUE

Affiliate Associate Professor of Natural Resource Ecology and Management. B.S., 1982, Nebraska Wesleyan; M.S., 1985, Colorado State; Ph.D., 1992, Kansas.

FAIRCHILD, ELLEN E.

Emerita Teaching Professor of School of Education. B.S., 1976, M.S., 1988, Iowa State; Ph.D., 2002, Iowa.

FALES-WILLIAMS, AMANDA JEAN

Professor of Veterinary Pathology and Chair of the Department. Morrill Professor. B.S., 1991, Kentucky; D.V.M., 1995, Missouri; Ph.D., 2000, Iowa State.

FALK, BARRY L.

Emeritus Professor of Economics. B.A., 1974, Pennsylvania; Ph.D., 1982, Minnesota.

FANOUS, FOUAD S.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1969, Cairo; M.S., 1980, Ph.D., 1982, Iowa State.

FANSLOW, ALYCE M.

Emerita Professor of Human Development and Family Studies; Emerita Professor of School of Education; Mary B. Welch Distinguished Professor of Human Sciences. B.S., 1957, Minnesota; M.S., 1960, Ph.D., 1966, Iowa State.

FANTINI, ANA PAULA

Associate Teaching Professor of Kinesiology. Master's, Union College. PhD, Kent State.

FARRAR, DONALD R.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1963, Southeast Missouri; M.S., 1966, Ph.D., 1971, Michigan.

FARRAR, EUGENIA SUE

Emerita Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 1961, Illinois; Ph.D., 1972, Michigan.

FARRELL-BECK, JANE A.

Emerita Professor of Apparel, Events, and Hospitality Management; University Professor. B.S., 1963, Georgian Court; M.S., 1969, Drexel; Ph.D., 1975, Ohio State.

FARZANA, ESMAT

Assistant Professor of Electrical and Computer Engineering. Ph.D., The Ohio State.

FASINA, OLUFEMI

Assistant Professor of Veterinary Pathology. D.V.M., Ibadan.

FAYED, AYMAN ADEL

Affiliate Associate Professor of Electrical and Computer Engineering. B.Sc., 1998, Cairo (Egypt); M.Sc., 2000, Ph.D., 2004, Ohio State.

FEHR, WALTER R.

Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1961, M.S., 1962, Minnesota; Ph.D., 1967, Iowa State.

FEI, SHUIZHANG

Professor of Horticulture; Professor of Agronomy. B.S., 1986, M.S., 1989, Beijing Agricultural (China); Ph.D., 1997, Nebraska.

FEI, ZHE

Associate Professor of Physics and Astronomy. B.S., 2006, M.S., 2009, Nanjing (China); Ph.D., 2014, California (San Diego).

FEINSTEIN, SCOTT GRANT

Assistant Professor of Political Science. B.A., 2004, Concordia; M.A., 2008, New York; Ph.D., 2016, Florida.

FENG, HONGLI

Assistant Professor of Economics. B.S., 1995, China Agricultural; M.S., 1997, Ph.D., 2001, Iowa State.

FENG, HUI

Associate Professor of Marketing. B.S., 2005, Xiamen (China); M.S., 2008, Nanjing (China); M.S., 2011, Ph.D., 2013, Indiana.

FENTON, THOMAS E.

Emeritus Professor of Agronomy. B.S., 1959, M.S., 1960, Illinois; Ph.D., 1966, Iowa State.

FERNANDEZ-BACA, DAVID

Emeritus Professor of Computer Science. B.S., 1980, Mexico; M.S., 1983, Ph.D., 1986, California (Davis).

FERNANDO, ROHAN L.

Emeritus Professor of Animal Science. B.S., 1978, California State (Fresno); Ph.D., 1989, Illinois.

FERWERDA, NICOLE SUZANNE

Associate Teaching Professor of Animal Science. B.S., 2000, Nebraska; MNAS, 2002, Southwest Missouri State.

FEVE, SEBASTIEN

Teaching Professor of Mechanical Engineering. B.S., 1996, M.S., 1998, Ecole Nationale Dingenieurs (France).

FEWELL, KENDRA

Adjunct Instructor in Military Sciences. B.A., 2005, Saint Francis (Pennsylvania); M.A., 2010, Ashford (Clinton, IA).

FIGUEREDO, DIANA

Associate Teaching Professor of School of Education. M.A., Rochester Institute of Technology, 2000.

FILA, NICHOLAS

Research Assistant Professor of Electrical and Computer Engineering. Ph.D., 2017, Purdue.

FINDLAY, ROBERT ALLEN

Emeritus Professor of Architecture. B.A., 1963, B.Arch., 1967, Minnesota; M.Arch., 1975, Iowa State; Ph.D., 1998, Oxford Brookes (England).

FINK, ARLINGTON

Emeritus Professor of Mathematics. B.A., 1956, Wartburg; M.S., 1958, Ph.D., 1960, Iowa State.

FINLEY, JULIUS

Assistant Teaching Professor of Graphic Design. B.A., 1991, California State; M.F.A., 1998, Savannah College of Art and Design.

FINLEY, PATRICK

Assistant Professor of Graphic Design. Bachelor's, Wisconsin at Eau Claire; Master's, Iowa State.

FINNEMORE, DOUGLAS

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, Pennsylvania State; Ph.D., 1962, Illinois.

FIORE, ANN MARIE

Professor of Apparel, Events, and Hospitality Management; University Professor. B.S., 1981, Rutgers; M.A., 1984, Ph.D., 1988, Minnesota.

FIRESTONE, ALEXANDER

Emeritus Professor of Physics and Astronomy. B.S., 1962, Columbia; M.A., 1964, Ph.D., 1966, Yale.

FIX, JUSTIN

Affiliate Assistant Professor of Animal Science. B.S., 2005, Iowa State; M.S., 2007, Ph. D., 2010, North Carolina State.

FLEMING, CODY

Associate Professor of Mechanical Engineering. B.S., Hope College; M.Eng., Ph.D., Massachusetts Institute of Technology.

FLEMING, JON

Associate Teaching Professor of Agricultural and Biosystems Engineering. Bachelor's, Master's, Iowa State.

FLEMING, JONATHON P.

Adjunct Instructor of Naval Science. B.S., 2012, Iowa State.

FLEMING, RENEE

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 2012, M.S., 2021, Iowa State.

FLETCHER, CYNTHIA N.

Emerita Professor of Human Development and Family Studies. B.A., 1971, Simpson; M.S., 1973, Ph.D., 1983, Iowa State.

FLETCHER, LEHMAN

Emeritus Professor of Economics. B.S., 1954, Florida; Ph.D., 1960, California (Berkeley).

FLINT, REBECCA

Associate Professor of Physics and Astronomy. B.S., 2004, California Institute of Technology; Ph.D., 2010, Rutgers.

FLORA, CORNELIA B.

Emerita Professor of Sociology and Criminal Justice; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. A.B., 1965, California (Berkeley); M.S., 1966, Ph.D., 1970, Cornell.

FLORA, JAN L.

Emerita Professor of Sociology and Criminal Justice. B.A., 1964, Kansas; M.S., 1967, Ph.D., 1971, Cornell.

FLORY, DAVID

Teaching Professor of Geological and Atmospheric Sciences. B.A., 1992, Michigan; M.S., 2003, Iowa State.

FOEGEN, ANNE MARIE

Emerita Professor of School of Education. B.S., 1986, Winona State; M.A., 1987, Ohio State; Ph.D., 1995, Minnesota.

FOLEY, DONALD

Assistant Professor of Practice of Economics. Associate's, Bachelor's, Iowa State; Master's, Northwest Missouri State.

FONTAINE, LISA MARIE

Associate Professor of Graphic Design. B.F.A., 1980, M.F.A., 1983, Boston University.

FORD, CLARK FUGIER

Emeritus Associate Professor of Food Science and Human Nutrition. B.A., 1975, California (Los Angeles); M.S., 1977, Ph.D., 1981, Iowa.

FORD, MICHAEL

Assistant Professor of Practice, Interior Design. B.S., 1992, Iowa State.

FORTES-DA-SILVA, PAULO

Adjunct Assistant Professor of Food Science and Human Nutrition. M.S., 2003, Universidade Federal de Viçosa (UFV).

FOWLES, DOROTHY L.

Emerita Professor of Art and Design. B.A., 1961, Northwestern; M.A., 1964, Cornell; Ph.D., 1979, Missouri.

FOX, JONATHAN J.

Professor of Human Development and Family Studies. B.A., 1988, Union; M.A., 1991, Ph.D., 1994, Maryland.

FOX, LESLIE ELIZABETH

Emerita Associate Professor of Veterinary Clinical Sciences. B.A., 1972, Hollins College; D.V.M., 1984, Michigan State; M.S., 1989, Wisconsin.

FOX, RODNEY O.

Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1985, Ph.D., 1987, Kansas State.

FRANA, TIMOTHY S.

Affiliate Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1985, Iowa State; M.S., 1996, Arizona State; M.P.H., 1999, Arizona; Ph.D., 2004, Iowa State.

FRANCIS, SARAH LUCILLE

Professor of Food Science and Human Nutrition. Interim Associate Dean of the College of Human Sciences. B.S., 1998, Appalachian State; MHS, 2000, Western Carolina; Ph.D., 2004, North Carolina.

FRANK, MATTHEW CHARLES

Professor of Industrial and Manufacturing Systems Engineering. B.S., 1996, M.S., 1998, Ph.D., 2003, Pennsylvania State.

FRANKE, WARREN D.

Professor of Kinesiology; Professor of Biomedical Sciences. B.S., 1983, East Carolina; M.A., 1985, Wake Forest; Ph.D., 1991, Virginia Polytechnic Institute.

FRANKOWSKI, NATHALIE

Associate Professor of Architecture. Master's, Ecole Nationale Supérieure d'Architecture de Paris La Villette.

FRANTZEN, JOEY

Affiliate Professor of Naval Science and Chair of the Department. B.S., 1994, United States Naval Academy; M.S., 2001, Naval Post-Graduate School, California.

FRANZ, KRISTIE JEAN

Professor of Geological and Atmospheric Sciences and Chair of the Department. B.S., 1995, Wisconsin (Eau Claire); M.S., 2001, Arizona; Ph.D., 2006, California (Irvine).

FRANZ, NANCY KAY

Emerita Professor of School of Education. B.S., 1981, Northland College; MEPD, 1985, Wisconsin (Superior); Ph.D., 2002, Cornell.

FRANZEN, HUGO F.

Emeritus Professor of Chemistry. B.S., 1957, California (Berkeley); Ph.D., 1962, Kansas.

FREED, RICHARD CURTIS

Emeritus Professor of English. B.A., 1972, M.A., 1976, Ph.D., 1979, Illinois.

FREEMAN, STEVEN A.

Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1988, Colorado State; M.S., 1990, Texas A&M; Ph.D., 1993, Purdue.

FREESEMAN, KATELYN

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering. Ph.D., 2016, Minnesota (Twin Cities).

FRERICHS, KARA

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., Iowa State.

FRETWELL, HELEN MARGARET

Teaching Professor of Physics and Astronomy. B.Sc., 1990, Ph.D., 1993, Bristol (UK).

FRIEDBERG, IDDO

Associate Professor of Veterinary Microbiology and Preventive Medicine. B.Sc., 1994, M.S., 1996, Ph.D., 2002, Hebrew (Israel).

FRIEDEL, JANICE

Professor of School of Education. B.A., 1972, M.A., 1976, Ph.D., 1980, Iowa.

FRIEDRICH, RACHEL

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2009, Iowa State.

FRINK, ORRIN

Emeritus Professor of World Languages and Cultures. B.A., 1954, Haverford; M.A., 1955, Middlebury; Ph.D., 1961, Harvard.

FROELICH, AMY G.

Associate Professor of Statistics. B.S., 1994, Ph.D., 2000, Illinois.

FROMM, HERBERT J.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, Michigan State; M.S., 1952, Ph.D., 1954, Loyola (Chicago).

FRYE, CASEY

Affiliate Associate Professor of Animal Science. B.A., 1982, Chadron State College; M.S., 1984, Nebraska; Ph.D., 1990, Iowa State.

FRYER, JANICE S.

Emerita Assistant Professor, Library. B.S., 1968, Iowa State; M.A., 1971, Iowa.

FULLER, WAYNE A.

Emeritus Professor of Statistics; Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

FULTON, KATHARINE

Associate Teaching Professor of English. B.A., 2007, M.A., 2009, Iowa State.

FURUKAWA, YUJI

Professor of Physics and Astronomy. B.E., 1990, Wakayama (Japan); M.E., 1993, D.S., 1995, Kobe (Japan).

G**GABIAM, NELL**

Associate Professor of World Languages and Cultures; Associate Professor of Political Science. B.A., 1998, Barnard; M.A., 2004, Ph.D., 2008, California (Berkeley).

GABLER, NICHOLAS

Professor of Animal Science. B.S., 1999, Ph.D., 2005, La Trobe (Australia).

GADIA, SHASHI K.

Emeritus Associate Professor of Computer Science. B.S., 1969, M.Sc., 1970, Birla Institute; Ph.D., 1978, Illinois; M.S., 1980, Ohio State.

GAFFAR, ASHRAF

Teaching Professor of Electrical and Computer Engineering. Master's, Ph.D., Concordia.

GAGNON, JASON

Assistant Professor of Practice, Apparel, Events, and Hospitality Management. Bachelor's, Master's, Central Michigan.

GALL, ANDREW

Affiliate Assistant Professor of Veterinary Clinical Sciences. B.S., 2010, Nebraska; D.V.M., 2015, Iowa State.

GALLAGHER, PAUL

Emeritus Associate Professor of Economics. B.A. 1972, M.S., 1975, Ph.D., 1983, Minnesota.

GALLUS, WILLIAM A.

Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1987, Pennsylvania State; M.S., 1989, Ph.D., 1993, Colorado State.

GALOW-KERSH, NYOMI LYN

Clinical Assistant Professor of Veterinary Clinical Sciences. B.A., 2000, Concordia College; D.V.M., 2005, Iowa State.

GANAPATHYSUBRAMANIAN, B.

Professor of Mechanical Engineering; Professor of Electrical and Computer Engineering. B.Tech., 2003, Indian Institute of Technology; Ph.D., 2008, Cornell.

GANSEMER-TOPF, ANN M.

Professor of School of Education. B.A., 1989, Loras; M.S., 1992, Ph.D., 2004, Iowa State.

GAO, HONGYANG

Assistant Professor of Computer Science. B.S., Peking; M.S., Tsinghua; Ph.D., Texas A&M.

GARCIA, CRUZ

Associate Professor of Architecture. B.A., M. Arch., Universidad de Puerto Rico.

GARDNER, CANDICE A.

Affiliate Assistant Professor of Agronomy. B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1982, Missouri.

GASSMAN, PHILIP

Adjunct Associate Professor of Agricultural and Biosystems Engineering. Ph.D., 2008, Iowa State.

GASSMANN, AARON JOHN

Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1997, Saint Thomas; Ph.D., 2003, New York (Stony Brook).

GASSMANN, MIKE

Associate Professor of Practice, Marketing. Bachelor's, Iowa State.

GAUGER, PHILLIP C.

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1990, D.V.M., 1994, M.S., 2008, Ph.D., 2012, Iowa State.

GAUTESEN, ARTHUR

Emeritus Professor of Mathematics. B.E., 1965, Cooper Union; Ph.D., 1968, Northwestern.

GEHA, JOSEPH

Emeritus Professor of English. B.A., 1966, M.A., 1968, Toledo.

GEIGER, RANDALL L.

Professor of Electrical and Computer Engineering. B.S., 1972, M.S., 1973, Nebraska; Ph.D., 1977, Colorado State.

GEIRSSON, HEIMIR

Professor of Philosophy and Religious Studies and Chair of the Department. B.A., 1981, Iceland; M.A., 1983, Ph.D., 1988, Nebraska.

GELAKI, SHLOMO

Professor of Mathematics. B.Sc., 1989, M.Sc., 1992, Ph.D., 1997, Ben-Gurion (Israel).

GELDER, BRIAN K.

Adjunct Assistant Professor of Agronomy. B.S., 2000, Iowa State; M.S., 2002, Colorado State; Ph.D., 2007, Iowa State.

GEMMILL, DOUGLAS D.

Emeritus Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, M.S., 1986, Iowa State; Ph.D., 1988, Wisconsin.

GENALO, LAWRENCE

Emeritus Professor of Materials Science and Engineering; University Professor. B.A., 1971, Hofstra; M.S., 1974, Ph.D., 1977, Iowa State.

GENSCHEL, ULRIKE

Associate Professor of Statistics. M.S., 2000, Ph.D., 2005, Dortmund (Germany).

GENTILE, DOUGLAS A.

Professor of Psychology. Distinguished Professor in Liberal Arts and Sciences. B.A., 1986, New York (Buffalo); M.A., 1993, Ph.D., 1998, Minnesota.

GEOFFROY, GREGORY L.

Emeritus Professor of Chemistry; Emeritus President. B.S., 1968, Louisville; Ph.D., 1974, California Institute of Technology.

GEORGE, JOEY

Emeritus Professor of Information Systems and Business Analytics;
Distinguished Professor in Business (Administration). A.B., 1979,
Stanford; M.Ed., 1980, Converse; Ph.D., 1986, California (Irvine).

GERHARD, KRISTIN H.

Professor, Library. B.A., 1982, Wesleyan; M.S.L.S., 1988, North Carolina.

GERRARD, MEG

Affiliate Professor of Psychology. B.A., 1970, Ph.D., 1974, Texas.

GESKE, JOEL CARL

Associate Professor of Greenlee School of Journalism and
Communication. B.A., 1978, Iowa State; M.A., 1982, Northern Iowa; Ph.D.,
2005, Iowa State.

GHALACHYAN, ARMINE

Assistant Teaching Professor of Apparel, Events, and Hospitality
Management. B.S., 1999, Yerevan Banking Economic Institute (Armenia);
M.S., 2011, Central Michigan; Ph.D., 2018, Iowa State.

GHIMIRE, JIWNATH

Assistant Professor of Community and Regional Planning. Master's,
Tribhuvan; Master's, Ph.D., Hawaii.

GHOSH, ARKA P.

Professor of Statistics; Professor of Industrial and Manufacturing
Systems Engineering. BSTAT, 1998, MSTAT, 2000, Indian Statistical
Institute; Ph.D., 2005, North Carolina.

GHOSHAL, NANI GOPAL

Emeritus Professor of Biomedical Sciences. G.V.Sc., 1955, Bengal
Veterinary College; D.T.V.M., 1961, Edinburgh; Dr.Med.Vet, 1962, Hanover;
Ph.D., 1966, Iowa State.

GIBBONS, FREDERICK X.

Affiliate Professor of Psychology. B.A., 1972, Colgate; Ph.D., 1976, Texas.

GIBBS, KATHERINE P.

Emerita Associate Professor of Art and Design. B.S., 1968, M.S., 1976,
M.F.A., 1978, Wisconsin.

GIELDA, THOMAS

Adjunct Professor of Aerospace Engineering. B.S., 1980, M.S., 1984,
Michigan State; Ph.D., 1987, North Carolina State.

GILBERT, KATHRINE

Associate Teaching Professor of Food Science and Human Nutrition. B.S.,
2007, Iowa State; M.S., 2013, Kansas State.

GILBERT, STEPHEN

Associate Professor of Industrial and Manufacturing Systems
Engineering. B.S.E., 1992, Princeton; Ph.D., 1997, Massachusetts Institute
of Technology.

GILCHRIST, KJ

Teaching Professor of English. B.A., 1983, Covenant; M.A., 1985, Iowa
State; Ph.D., 1995, Kansas.

GILES, MICHAEL S.

Teaching Professor of Music and Theatre. B.M., 1998, M.A., 2000, Iowa.

GILES, SONJA

Professor of Music and Theatre. B.M., 1995, Alabama; M.A., 1999, Iowa;
D.M.A., 2005, Minnesota.

GILLEN, ALEXANDRA

Clinical Assistant Professor of Veterinary Clinical Sciences. M.A., 2004,
VetMB, 2007, Cambridge; M.S., 2016, Auburn.

GILLESPIE, ARDYTH M.

Affiliate Associate Professor of Food Science and Human Nutrition. B.S.,
1967, M.S., 1975, Ph.D., 1978, Iowa State.

GILLETTE, JASON C.

Associate Professor of Kinesiology. B.S., 1991, M.E., 1993, Ph.D., 1999,
Iowa State.

GILLETTE, MEGHAN

Associate Teaching Professor of Human Development and Family
Studies. B.A., 2008, Northern Iowa; M.A., 2010, Ph.D., 2014, Iowa State.

GILMORE, SHIRLEY ANN

Emerita Professor of Apparel, Events, and Hospitality Management. B.S.,
1967, North Dakota State; M.S., 1980, Ph.D., 1983, Iowa State.

GIMENEZ-LIROLA, LUIS

Associate Professor of Veterinary Diagnostic and Production Animal
Medicine. B.S., 2002, M.S., 2002, Granada (Spain); M.S., 2005, Institut
Universitari de Ciència i Tecnologia (Spain); Ph.D., 2009, Jaen (Spain).

GINDER, ROGER

Emeritus Professor of Economics. B.S., 1968, M.S., 1969, Southern
Illinois; Ph.D., 1978, Kentucky.

GIOVACCO johnson, tricia

Associate Professor of Human Development and Family Studies.
Bachelor's, Master's, Lehigh; Master's, The George Washington; EDD,
Columbia.

GIRTON, JACK RICHARD

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology;
University Professor. B.A., 1973, Oregon; Ph.D., 1979, Alberta.

GLADON, RICHARD J.

Emeritus Associate Professor of Horticulture. B.S., 1969, Ohio Northern;
M.S., 1974, Ph.D., 1977, Ohio State.

GLANVILLE, THOMAS D.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S.,
1972, M.S., 1975, Ph.D., 1987, Iowa State.

GLASS, EDYTHE K.

Emerita Assistant Professor of Human Development and Family Studies. B.S., 1947, M.S., 1962, Iowa State.

GLATZ, CHARLES E.

Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1971, Notre Dame; Ph.D., 1975, Wisconsin.

GLEASON, BENJAMIN

Associate Professor of School of Education. B.A., 2002, Oberlin; Ph.D., 2016, Michigan State.

GLEASON, MARK L.

Professor of Plant Pathology, Entomology, and Microbiology; Professor of Horticulture. B.A., 1972, Carleton; M.S., 1976, Ph.D., 1980, Virginia; Ph.D., 1985, Kentucky.

GLEESON, ANDREW

Associate Teaching Professor of Architecture. Bachelor's, 2006, Iowa State; Master's, 2013, Harvard.

GOBLE, JODI SUZANNE

Teaching Professor of Music and Theatre. B.A., 1993, Olivet Nazarene.

GOCHE, PETER PAUL

Professor of Practice, Architecture. B.Arch., 1991, M.Arch, 2005, Iowa State.

GODBAY, EMILY

Associate Professor of Art and Visual Culture. B.A., 1989, Princeton; M.F.A., 1993, Rhode Island School of Design; M.A., 1995, Ph.D., 2005, Chicago.

GOEDEKEN, EDWARD A.

Emeritus Professor, Library; Emeritus Professor of History. B.A., 1975, William Penn; M.A., 1978, Iowa State; Ph.D., 1984, Kansas; M.L.S., 1984, Iowa.

GOGELIANI, LALI

Affiliate Professor of Agricultural and Biosystems Engineering. Ph.D., 1993, Georgian Academy of Sciences.

GOGGI, ALCIRA S.

Professor of Agronomy. B.S., 1982, De Buenos Aires (Argentina); M.S., 1987, Ph.D., 1990, Mississippi State.

GOLDMAN, ALAN I.

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1979, M.A., 1980, Ph.D., 1984, New York (Stony Brook).

GOLEMO, MICHAEL

Professor of Music and Theatre. University Professor. B.Mus., 1982, M.Mus., 1983, Northwestern; D.M.A., 1994, Michigan State.

GOMES, CARMEN L.

Associate Professor of Mechanical Engineering; Associate Professor of Agricultural and Biosystems Engineering. B.S., 2002, Federal University of Vicosa (Brazil); Ph.D., 2010, Texas A&M.

GONG, NEIL ZHENQIANG

Affiliate Assistant Professor of Electrical and Computer Engineering. B.E., 2010, Science and Technology (China); Ph.D., 2015, California (Berkeley).

GONZALEZ CHAVES, M. CELESTE

Assistant Teaching Professor of World Languages and Cultures. B.S., 2002, Superior del Profesorado J. N. Terrero (Argentina); M.A., 2006, Nebraska.

GOODMAN, NEYSA LOUISE

Associate Teaching Professor of World Languages and Cultures. B.A., 1995, Drake; M.A., 2001, Minnesota (Minneapolis).

GORDEN, PATRICK J.

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1989, D.V.M., 1993, Iowa State.

GORDILLO, MONICA

Teaching Professor of Management and Entrepreneurship. B.A., 1992, San Francisco De Quito (Ecuador); M.Phil., 1996, Cambridge (England); M.A., 1998, Kansas.

GORDON, JENNIFER

Assistant Adjunct Professor of Apparel, Events, and Hospitality Management. B.S., 2003, Cornell; M.A., 2010, Fashion Institute of Technology (New York); Ph.D., 2016, Iowa State.

GORDON, MARK STEPHEN

Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1963, Rensselaer; Ph.D., 1968, Carnegie Mellon.

GORECZNY, ASHLEY

Assistant Professor of Marketing. B.S., 2007, M.B.A., 2013, Ph.D., 2018, Georgia State.

GOUDY, WILLIS J.

Emeritus Professor of Sociology and Criminal Justice; University Professor. B.A., 1964, St. Thomas; M.S., 1967, Ph.D., 1970, Purdue.

GOVINDARASU, MANIMARAN

Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E., 1989, Bharathidasan (India); M.Tech., 1994, Ph.D., 1998, Indian Institute of Technology.

GRAGER, TRAVIS

Associate Teaching Professor of Aerospace Engineering. M.S., 2011, Iowa State.

GRAHAM, MICHELLE A.

Affiliate Assistant Professor of Agronomy. B.S., 1996, Wisconsin; Ph.D., 2001, Iowa State.

GRANT, DAVID

Affiliate Associate Professor of Agronomy. B.S., 1971, New York (Stony Brook); Ph.D., 1977, Chicago.

GRAVES, DONALD JOHN

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Illinois; Ph.D., 1959, Washington.

GRAVES, WILLIAM R.

Professor of Horticulture; Dean of the Graduate College. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1988, Purdue.

GRAY, BETHANY EKLE

Professor of English. B.A., 2004, M.A., 2006, Iowa State; Ph.D., 2011, Northern Arizona.

GRAY, ELLA

Assistant Teaching Professor of Natural Resource Ecology and Management. Bachelor's, Reed; Master's, State University of New York; Ph.D., Minnesota.

GRAY, JOSEPH NAHUM

Adjunct Associate Professor of Mechanical Engineering. B.A., 1977, Colorado; M.S., 1980, Pennsylvania State; Ph.D., 1985, Michigan.

GRAY, NATALLIA

Associate Teaching Professor of Management and Entrepreneurship. B.S., 2008, Southern Maine; M.S., 2011, Ph.D., 2014, South Florida.

GRAY, TIMOTHY A.

Adjunct Assistant Professor of Aerospace Engineering. B.A., 1973, Wyoming; M.S., 1977, Ph.D., 1981, Iowa State.

GREDER, KIMBERLY ANN

Professor of Human Development and Family Studies. Morrill Professor. B.S., 1986, M.S., 1991, Ph.D., 2000, Iowa State.

GREENBOWE, THOMAS J.

Emeritus Professor of Chemistry; Emeritus Professor of School of Education; Morrill Professor. B.A., 1972, New Jersey; M.S., 1974, Indiana State; M.S., 1979, Ph.D., 1983, Purdue.

GREENE, SHAWNA

Affiliate Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2003, Iowa State; M.S., 2007, Purdue.

GREENLEE, JUSTIN J.

Affiliate Assistant Professor of Veterinary Pathology. B.A., 1995, Northern Iowa; D.V.M., 1999, Ph.D., 2003, Iowa State.

GREENLEE, M. Heather

Professor of Biomedical Sciences. Associate Dean of the College of Veterinary Medicine. B.S., 1994, Ph.D., 1999, Iowa State.

GREER, RAYMOND THOMAS

Emeritus Professor of Aerospace Engineering. B.S., 1963, Rensselaer; Ph.D., 1968, Pennsylvania State.

GREGORY, DAVID JAMES

Emeritus Associate Professor, Library. B.A., 1977, Iowa; M.A., 1979, Yale; M.A., 1986, Iowa.

GREINER, LAURA

Assistant Professor of Animal Science. Director of Iowa Pork Industry. B.Sc., 1996, M.Sc., 1999, Ph.D., 2001, Iowa State.

GREINER, THOMAS H.

Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1967, Iowa State; M.S., 1972, Minnesota; Ph.D., 1980, Iowa State.

GRETEMAN, KRISTEN

Assistant Teaching Professor of Architecture. Master's, 2020, Iowa State.

GREVE, JOHN HENRY

Emeritus Professor of Veterinary Pathology. B.S., 1956, D.V.M., 1958, M.S., 1959, Michigan State; Ph.D., 1963, Purdue.

GREVSTAD-NORDBROCK, TED

Associate Professor of Community and Regional Planning. B.A., 1992, M.A., 1995, Wisconsin; M.A., 2005, Cornell; Ph.D., 2015, Michigan State.

GREWELL, DAVID

Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1989, M.S., 2002, Ph.D., 2005, Ohio State.

GRIER, RONALD LEE

Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1965, Iowa State; Ph.D., 1970, Colorado State.

GRIFFITH, NATHAN

Associate Professor of Practice, Architecture. B. Arch., Iowa State.

GRIFFITH, RONALD W.

Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1973, Michigan State; M.S., 1980, Ph.D., 1983, Iowa State.

GRIFFITHS, PAUL D.

Professor of History. B.A., 1987, York (England); Ph.D., 1992, Cambridge (England).

GROOMS, DANIEL

Professor of Veterinary Diagnostic and Production Animal Medicine; Dean of the College of Veterinary Medicine. B.S., 1985, Cornell; D.V.M., 1989, Ph.D., 1997, Ohio State.

GROSS, JEREMY

Adjunct Assistant Professor of Naval Science. B.S., 1998, Montana State; M.B.A., 2008, Maryland University College.

GROSS, MARTIN

Assistant Teaching Professor of Electrical and Computer Engineering. Ph.D., Iowa State.

GROTE, LISA

Associate Teaching Professor of Kinesiology. M.S., 2015, Viterbo.

GRUDENS-SCHUCK, NANCY

Associate Professor of Agricultural Education and Studies. B.S., 1982, M.A.T., 1986, M.S., 1996, Ph.D., 1998, Cornell.

GRUNDMANN, WILLIAM J.

Emeritus Associate Professor of Landscape Architecture. B.S.L.A., 1967, Iowa State; M.L.A., 1973, Harvard.

GRUNDY, JOHN

Assistant Professor of Psychology. B.Sc., 2006, Ph.D., 2012, McMaster.

gruss, shelby

Assistant Professor of Agronomy. Bachelor's, Master's, Illinois Urbana-Champaign; Ph.D., Purdue.

GS, SIDHARTH

Assistant Professor of Aerospace Engineering. Bachelor's, Indian Institute of Technology, Kanpur; Ph.D., Minnesota.

GU, XUN

Professor of Genetics, Development, and Cell Biology. B.S., 1985, M.S., 1987, Fudan (China); Ph.D., 1996, Texas.

GUAN, YONG

Professor of Electrical and Computer Engineering. B.S., 1990, M.S., 1996, Peking (China); Ph.D., 2002, Texas A&M.

GUDMUNSON, CLINTON G.

Associate Professor of Human Development and Family Studies. B.A., 2000, M.S., 2004, Brigham Young; Ph.D., 2010, Minnesota.

GUERTTMAN, MATTHEW P.

Adjunct Instructor in Military Science. B.A., 2003, B.S., 2003, Iowa State.

GULMEZOGLU, BERK

Assistant Professor of Electrical and Computer Engineering. B.S., 2012, M.S., 2014, Bilkent; Ph.D., 2020, Worcester Polytechnic Institute.

GUNDLACH-GRAHAM, ABIGAIL

Assistant Teaching Professor of World Languages and Cultures. Ph.D., 2019, Indiana (Bloomington).

GUNDLACH-GRAHAM, ALEXANDER

Assistant Professor of Chemistry. B.A., 2008, Earlham; Ph.D., 2013, Indiana.

GUNSETT, FIELDS

Affiliate Associate Professor of Animal Science. B.S., 1975, California (Davis); M.S., 1977, Idaho; Ph.D., 1980, Wisconsin.

GUNTUKU, DILEEPKUMAR

Adjunct Associate Professor of Agricultural and Biosystems Engineering. B.S., 2000, Acharya N.G., Ranga Agricultural University (India); M.S., 2003, Gujarat Agriculture University (India); M.S., 2004, Ph.D., 2010, Dhirubhai Ambani Institute (India).

GUO, EMILY

Assistant Teaching Professor of Architecture. Bachelor's, South China; Master's, Kunming.

GUO, FENG

Associate Professor of Accounting. B.B.A., 2010, Nanjing; M.A., 2012, M.S., 2013, Minnesota; Ph.D., 2018, Kansas.

GUO, HONGQING

Assistant Professor of Genetics, Development, and Cell Biology. Ph.D., 2019, Iowa State.

GUPTA, MOHAN

Associate Professor of Genetics, Development, and Cell Biology. B.S., 1992, Ph.D., 2001, Kansas.

GUTOWSKI, WILLIAM J.

Professor of Geological and Atmospheric Sciences; Professor of Agronomy. B.S., 1976, Yale; Ph.D., 1984, Massachusetts Institute of Technology.

GUYLL, MAX E. JR.

Emeritus Associate Professor of Psychology. B.S., 1985, Lehigh; M.S., 1990, Utah; Ph.D., 1998, Rutgers.

GWIASDA, KARL ERIC

Emeritus Associate Professor of English. B.S., 1959, Illinois Institute of Technology; B.A., 1964, Butler; M.A., 1966, Ph.D., 1969, Northwestern.

H**HAAG, ELIZABETH A.**

Assistant Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1989, M.S., 1995, Iowa State.

HAAS, BARBARA L.

Emerita Associate Professor of English. B.A., 1980, Southern Indiana; M.F.A., 1982, California (Irvine).

HADDAD, MONICA

Professor of Community and Regional Planning. B.A., 1989, Federal De Minas Gerais (Brazil); M.U.P., 2000, Ph.D., 2003, Illinois.

HAEN, KARRI MICHELLE

Teaching Professor of Genetics, Development, and Cell Biology. B.S., 2001, Kansas State; Ph.D., 2010, Iowa State.

HAGEDORN, LINDA

Emerita Professor of School of Education. B.A., 1973, Elmhurst College; M.Ed., 1990, National Louis; Ph.D., 1995, Illinois.

HAGEMOSER, WAYNE A.

Emeritus Professor of Veterinary Pathology. B.S., 1961, D.V.M., 1963, Kansas State; M.S., 1976, Ph.D., 1979, Iowa State.

HAGGARD, FRANK E.

Emeritus Professor of English. B.A., 1955, M.A., 1965, Ph.D., 1966, Kansas.

HAGGE, JOHN H.

Emeritus Associate Professor of English. B.A., 1974, St. Olaf; M.A., 1977, Ph.D., 1983, Minnesota.

HAGGE, MATHEW J.

Associate Teaching Professor of Mechanical Engineering. B.S., 1998, M.S., 2001, Ph.D., 2005, Iowa State.

HALBUR, PATRICK G.

Professor of Veterinary Diagnostic and Production Animal Medicine and Chair of the Department. D.V.M., 1986, M.S., 1992, Ph.D., 1995, Iowa State.

HALDER, ABHISHEK

Associate Professor of Aerospace Engineering. Bachelor's, Indian Institute of Technology Kharagpur; Ph.D., Texas A&M.

HALL, ALEXANDER E.

Associate Teaching Professor of World Languages and Cultures. B.S., 2006, Xavier; M.A., 2008, Ph.D., 2012, Wisconsin.

HALL, JERRY LEE

Emeritus Professor of Mechanical Engineering. B.S., 1959, M.S., 1963, Ph.D., 1967, Iowa State.

HALLAM, J. ARNE

Professor of Economics; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1977, Brigham Young; M.S., 1980, Ph.D., 1983, California (Berkeley).

HALLAUER, ARNEL ROY

Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Kansas State; M.S., 1958, Ph.D., 1960, Iowa State.

HALLMARK, SHAUNA L.

Professor of Civil, Construction, and Environmental Engineering; Director of the Institute for Transportation. B.S., 1991, Brigham Young; M.S., 1996, Utah State; Ph.D., 1999, Georgia Institute of Technology.

HALVERSON, LARRY J.

Associate Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1981, Luther College; M.S., 1983, Tennessee; Ph.D., 1991, Wisconsin.

HAMAN, KAREN

Assistant Teaching Professor of Chemical and Biological Engineering. B.S.E., 2009, Iowa; Ph.D., 2015, Minnesota.

HAMANN, MATTHEW

Assistant Teaching Professor of Kinesiology. B.S., 2009, Minnesota State; B.A., 2010, Iowa State.

HAMILTON, JAKOB

Assistant Professor of Industrial and Manufacturing Systems Engineering. Bachelor's, Wartburg; Master's, Ph.D., Rochester Institute of Technology.

HAMMER, CAROLYN JEAN

Affiliate Assistant Professor of Animal Science. B.S., 1996, M.S., 1998, D.V.M., 2002, Ph.D., 2003, Iowa State.

HAN, GANG

Professor of Greenlee School of Journalism and Communication. B.A., 1994, Nankai (China); M.A., 2000, Fudan (China); Ph.D., 2007, Syracuse.

HANDY, RICHARD L.

Emeritus Professor of Civil, Construction, and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1953, Ph.D., 1956, Iowa State.

HANISCH, KATHY A.

Teaching Professor of Psychology. B.A., 1985, Northern Iowa; M.A., 1988, Ph.D., 1990, Illinois.

HANNAPEL, DAVID J.

Emeritus Professor of Horticulture. B.S., 1978, Illinois; M.S., 1981, Georgia; Ph.D., 1985, Purdue.

HANSEN, SCOTT W.

Associate Professor of Mathematics. B.S., 1983, Southwest Missouri; Ph.D., 1988, Wisconsin.

HANSEN, STEPHANIE L.

Professor of Animal Science. B.S., 2002, Iowa State; M.S., 2005, Ph.D., 2008, North Carolina State.

HANSON, MICHAEL

Professor of Air Force Aerospace Studies. B.S., 2001, Iowa State; M.A., 2007, Oklahoma.

HANSON, VIRGINIA M.

Associate Teaching Professor of Agricultural Education and Studies. B.A., 1991, New Hampshire; M.A., 1996, Portland State.

HARBUR, MARIN

Associate Teaching Professor of Agronomy. B.A., 1994, Grinnell; M.S., 1998, Ph.D., 2003, Iowa State.

HARDING, CHRIS

Associate Professor of Geological and Atmospheric Sciences; Associate Professor of Computer Science. M.Sc., 1993, Free (Berlin); Ph.D., 2001, Houston.

HARDING, MARGARET

Adjunct Assistant Professor of Mechanical Engineering. B.S., 1981, Iowa State.

HARGRAVE, CONNIE P.

Professor of School of Education; Associate Dean of the College of Engineering. B.S., 1987, Evangel; M.A., 1989, Northern Iowa; Ph.D., 1993, Iowa State.

HARGROVE, MARK S.

Professor of Biochemistry, Biophysics, and Molecular Biology and Chair of the Department; Morrill Professor. B.S., 1992, Nebraska; Ph.D., 1995, Rice.

HARM, TYLER

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2013, D.V.M., 2017, Ph.D., 2021, Iowa State.

HARMON, BRUCE N.

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1968, Illinois Institute of Technology; M.S., 1969, Ph.D., 1973, Northwestern.

HARMON, JAY D.

Professor of Agricultural and Biosystems Engineering; Associate Dean of the College of Agriculture and Life Sciences. B.S., 1984, Purdue; M.S., 1986, Minnesota; Ph.D., 1989, Virginia Polytechnic.

HARMON, KAREN M.

Clinical Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1981, Wisconsin; Ph.D., 1986, Minnesota.

HARPER, SHANNON

Assistant Professor of Sociology and Criminal Justice. B.A., 2005, Utah; M.P.A., 2011, Colorado; M.A., 2017, Ph.D., 2019, Illinois.

HARRINGTON, THOMAS C.

Professor of Plant Pathology, Entomology, and Microbiology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1983, California (Berkeley).

HARRIS, AMY

Teaching Professor of Art and Visual Culture. B.F.A., 1993, M.F.A., 1995, Drake.

HARRIS, DELBERT LINN

Emeritus Professor of Animal Science; Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1963, D.V.M., 1967, Ph.D., 1970, Iowa State.

HARRIS, ISABEL TURNEY

Affiliate Assistant Professor of Animal Science. D.V.M., 1975, Ph.D., 1981, Iowa State.

HARRIS, MARY A.

Emerita Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARRIS, STEVEN

Professor of Plant Pathology, Entomology, and Microbiology and Chair of the Department. B.Sc., 1983, M.Sc., 1986, Windsor; Ph.D., 1992, Michigan.

HARRIS-LAGOUDAKIS, KATHERINE

Assistant Professor of Economics. B.S., 2012, Missouri; M.A., 2016, Ph.D., 2019, Michigan State.

HARROD, WENDY JEAN

Emerita Associate Professor of Sociology and Criminal Justice. B.A., 1972, Arizona State; M.A., 1974, Ph.D., 1977, Washington State.

HART, CHAD E.

Professor of Economics. B.S., 1991, Southwest Missouri State; Ph.D., 1999, Iowa State.

HART, ELWOOD ROY

Emeritus Professor of Plant Pathology, Entomology, and Microbiology; Emeritus Professor of Natural Resource Ecology and Management. B.A., 1959, Cornell College; M.Ed., 1965, Ph.D., 1972, Texas A&M.

HARTMANN, BETH LIN

Teaching Professor of Civil, Construction, and Environmental Engineering. B.A., 1989, M.S., 1996, Ph.D., 2016, Iowa State.

HARTMANN, KATHERINE

Adjunct Assistant Professor of Agricultural Education and Studies. B.S., M.Ed, Ph.D., Colorado State.

HARTWIG, JONAS T.

Associate Professor of Mathematics. M.Sc., 2003, Lund (Sweden); Ph.D., 2008, Gothenburg and Chalmers (Sweden).

HARTWIG, NOLAN R.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1964, Iowa State; M.S., 1973, Ohio State.

HARTZLER, ROBERT G.

Emeritus Professor of Agronomy. B.S., 1978, Purdue; M.S., 1982, Virginia Polytechnic Institute; Ph.D., 1987, Iowa State.

HARVEY, ROBERT

Emeritus Professor of Landscape Architecture. B.S.L.A., 1961, Iowa State; M.L.A., 1964, Pennsylvania.

HARVILLE, DAVID A.

Emeritus Professor of Statistics. B.S., 1962, Iowa State; M.S., 1964, Ph.D., 1965, Cornell.

HASHEMI, NASTARAN

Associate Professor of Mechanical Engineering; Associate Professor of Biomedical Sciences. B.S., 1999, Amirkabir University of Technology (Tehran); M.S., 2004, West Virginia; Ph.D., 2008, Virginia Polytechnic.

HASSID, JONATHAN H.

Associate Professor of Political Science. B.A., 2002, Amherst; M.A., 2004, Ph.D., 2010, California (Berkeley).

HATFIELD, JERRY L.

Affiliate Professor of Agronomy. B.S., 1971, Kansas State; M.S., 1972, Kentucky; Ph.D., 1975, Iowa State.

HAUG, SUE ELLEN

Emerita Professor of Music and Theatre. B.Mus., 1969, M.M., 1970, M.M., 1975, Wisconsin; D.M.A., 1984, Iowa.

HAUPTMAN, JOHN M.

Professor of Physics and Astronomy. B.A., 1968, Ph.D., 1974, California (Berkeley).

HAUPTMANN, DEBORAH

Professor of Architecture. B.Arch., 1988, Texas; M.Arch., 1991, Pennsylvania.

HAWKINS, NEAL

Adjunct Instructor of Civil, Construction, and Environmental Engineering. M.S., 1990, Iowa State.

HAWS, RICHARD H.

Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1966, Nebraska Wesleyan; M.S.J., 1970, Northwestern.

HAXEL, GORDON B.

Affiliate Associate Professor of Geological and Atmospheric Sciences. B.S., 1969, M.S., 1970, Illinois; Ph.D., 1977, California (Santa Barbara).

HAY, CHRISTOPHER

Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1992, M.S., 2003, Colorado State; Ph.D., 2006, Nebraska.

HAYATOU, GUEDEYI

Assistant Professor of World Languages and Cultures. B.A., Ngaoundéré, M.A., Bowling Green; Ph.D., 2016, Ottawa.

HAYENGA, MARVIN L.

Emeritus Professor of Economics. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, California (Berkeley).

HAYES, CAROLINE C.

Professor of Mechanical Engineering and Chair of the Department. B.S., 1983, M.S., 1987, Ph.D., 1990, Carnegie Mellon.

HAYES, DERMOT JAMES

Professor of Economics; Professor of Finance; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1981, Dublin; M.S., 1982, Ph.D., 1986, California (Berkeley).

HAYNES, CYNTHIA L.

Professor of Horticulture. B.S., 1988, Louisiana Tech; M.S., 1991, Ph.D., 1996, Georgia.

HAYNES, JOSEPH S.

Emeritus Professor of Veterinary Pathology. D.V.M., 1979, Missouri; Ph.D., 1986, Minnesota.

HAYWOOD-FERREIRA, RACHEL H.

Associate Professor of World Languages and Cultures. B.A., 1992, Williams College; M.A., 1998, M.Phil., 2000, Ph.D., 2003, Yale.

HE, PING

Assistant Professor of Aerospace Engineering. B.S., 2007, Sichuan; Ph.D., 2012, Chinese Academy of Sciences.

HE, ZHULIN

Affiliate Assistant Professor of Statistics. Ph.D., 2012, Florida.

HEATH, TRACY A.

Associate Professor of Ecology, Evolution, and Organismal Biology. B.A., 2000, Boston; Ph.D., 2008, Texas.

HEBERT, KURT ROBERT

Professor of Chemical and Biological Engineering. B.S., 1978, Princeton; M.S., 1981, Ph.D., 1985, Illinois.

HEDLUND, CHERYL SUE

Emerita Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEGELHEIMER, VOLKER H.

Professor of English and Chair of the Department. M.A., 1995, Ph.D., 1998, Illinois.

HEIMES, KENNETH A.

Emeritus Associate Professor of Mathematics. B.S., 1957, Creighton; M.A., 1962, Ph.D., 1965, Nebraska.

HEINDEL, THEODORE JOHN

Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; University Professor. B.S.M.E., 1988, Wisconsin; M.S.M.E., 1990, Ph.D., 1994, Purdue.

HEINEN, JENNIFER MARIE

Teaching Professor of Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

HEISE, JAMES ARTHUR

Associate Teaching Professor of Mechanical Engineering. B.S., 1986, M.S., 2005, Iowa State.

HEISING, CAROLYN

Emerita Professor of Industrial and Manufacturing Systems Engineering. B.S., 1974, California (San Diego); Ph.D., 1978, Stanford.

HELLMICH, RICHARD II

Affiliate Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1977, Depauw; M.S., 1981, Ph.D., 1983, Ohio State.

HELMER, GUY GARY

Professor of Practice, Information Systems and Business Analytics. B.S., 1989, South Dakota School of Mines; M.S., 1998, Ph.D., 2000, Iowa State.

HELMERS, MATTHEW JUSTIN

Professor of Agricultural and Biosystems Engineering; Director of the Iowa Nutrient Research Center. B.S., 1995, Iowa State; M.S., 1997, Virginia Polytechnic; Ph.D., 2003, Nebraska.

HENDERSON, ERIC R.

Professor of Genetics, Development, and Cell Biology. B.A., 1979, Ph.D., 1984, California (Los Angeles).

henderson, jason

Professor of Economics. Vice President for Extension and Outreach. Bachelor's, Central College, Master's, PhD, Purdue.

HENDRICH, SUZANNE

Emerita Professor of Food Science and Human Nutrition; University Professor. B.A., 1976, California (Los Angeles); Ph.D., 1985, California (Berkeley).

HENKIN, ALEXANDER

Emeritus Professor of Mechanical Engineering. B.S., 1954, Dipl., 1955, Israel Institute of Technology; M.S., 1957, Ph.D., 1962, Michigan.

HENNESSY, DAVID

Professor of Economics. Bachelor's, Master's, University College, Dublin; Ph.D., Iowa State.

HENRY, MADELEINE M.

Emerita Professor of World Languages and Cultures. B.A., 1971, M.A., 1974, Ph.D., 1983, Minnesota.

HENTZEL, IRVIN R.

Emeritus Professor of Mathematics. B.A., 1964, M.A., 1966, Ph.D., 1968, Iowa.

HERNÁNDEZ, BONAR

Associate Professor of History. B.A., 2002, San Francisco State; M.A., 2004, Ph.D., 2010, Texas.

HERRERA-SIKLODY, PAULA

Teaching Professor of Physics and Astronomy. B.Sc., 1993, Ph.D., 1999, Barcelona (Spain).

HERRIGES, JOSEPH A.

Emeritus Professor of Economics. B.S., 1978, Marquette; M.S., 1982, Ph.D., 1983, Wisconsin.

HERRMANN, POL

Professor of Management and Entrepreneurship. M.S., 1981, Southern Methodist; Ph.D., 1999, Kansas.

HERRNSTADT, STEVEN M.

Emeritus Professor of Industrial Design; University Professor. B.S., 1975, M.A., 1979, M.F.A., 1980, Iowa.

HERZOG, DAVID

Associate Professor of Mathematics. B.Sc., 2006, Tennessee; Ph.D., 2011, Arizona.

HESSLING, ROBERT

Associate Teaching Professor of Psychology. B.A., 1991, Illinois Wesleyan; B.S., 1993, Illinois State; Ph.D., 2000, Iowa State.

HICKMAN, ROY DON

Emeritus Professor of Statistics. B.S., 1954, M.Ed., 1960, Texas A&M; Ph.D., 1967, Iowa State.

HICKOK, KATHLEEN K.

Emerita Professor of English. B.A., 1968, Tulane; M.A., 1970, Southwestern Louisiana; Ph.D., 1977, Maryland.

HIGHTSHOE, GARY LYNN

Emeritus Professor of Landscape Architecture. B.S.L.A., 1969, M.L.A., 1970, Iowa State.

HILGEMANN, LOUIS

Assistant Teaching Professor of Horticulture. Bachelor's, Master's, Iowa State.

HILL, CHRISTINA GISH

Associate Professor of World Languages and Cultures. B.A., 1998, Chicago; Ph.D., 2008, Minnesota.

HILL, JAMES CHRISTIAN

Emeritus Professor of Chemical and Biological Engineering; University Professor. B.S., 1962, Stanford; Ph.D., 1968, Washington.

HILL, JOHN C.

Emeritus Professor of Physics and Astronomy. B.S., 1957, Davidson; Ph.D., 1966, Purdue.

HILL, JOHN HEMMINGSON

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1963, Carleton; M.S., 1966, Minnesota; Ph.D., 1971, California (Davis).

HILL, KEVIN D.

Associate Teaching Professor of History. B.A., 1989, M.A., 1994, Ph.D., 2002, Iowa State.

HILL, MATTHEW G.

Associate Professor of World Languages and Cultures. B.A., 1991, Wisconsin (La Crosse); M.A., 1994, Wyoming; Ph.D., 2001, Wisconsin.

HILLIARD, JAMES P.

Emeritus Associate Professor of Aerospace Engineering. B.S., 1967, M.E., 1974, Ph.D., 1980, Iowa State.

HILLIARD, KATHLEEN

Associate Professor of History. B.A., 1997, Wake Forest; M.A., 2000, Ph.D., 2006, South Carolina.

HILLIER, ANDREW C.

Professor of Chemical and Biological Engineering. B.S., 1990, Nebraska; Ph.D., 1995, Minnesota.

HINDMAN, MEGAN

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. Bachelor's, 2014, D.V.M., 2018, Iowa State.

HINDMAN, RICHARD G.

Emeritus Associate Professor of Aerospace Engineering. B.S., 1974, M.S., 1977, Ph.D., 1980, Iowa State.

HINZ, PAUL NORMAN

Emeritus Professor of Statistics; Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1957, Pennsylvania State; M.S., 1960, North Carolina State; M.S., 1963, Ph.D., 1967, Wisconsin.

HIRA, LABH S.

Emeritus Professor of Accounting; Emeritus Dean of the Ivy College of Business. B.S., 1969, M.S., 1971, Ludhiana; Ph.D., 1975, Missouri.

HIRA, TAHIRA K.

Emerita Professor of Human Development and Family Studies. B.A., 1963, Lahore; M.A., 1966, Panjab; M.S., 1974, Ph.D., 1976, Missouri.

HISCOCKS, MITCH

Clinical Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1989, Iowa State.

HO, KAI-MING

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Hong Kong; Ph.D., 1978, California (Berkeley).

HOCHSTETLER, ANDREW LEE

Professor of Sociology and Criminal Justice. B.A., 1991, M.A., 1994, Ph.D., 1999, Tennessee.

HOCKADAY, CATHERYN M.

Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1989, Virginia Polytechnic Institute; M.S., 1992, Ph.D., 1998, Iowa State.

HOCKER, JASON

Affiliate Instructor in Veterinary Diagnostic and Production Animal Medicine. B.A., 2001, Coe; D.V.M., 2005, M.S., 2006, Iowa State.

HODGSON, ERIN WHITNEE

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1998, M.S., 2001, North Dakota State; Ph.D., 2005, Minnesota.

HOEFLE, WILLIAM D.

Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1966, M.S., 1974, Iowa State.

HOEGH, JANE

Assistant Teaching Professor of Human Development and Family Studies. Master's, 2003, Iowa State.

HOFF, CURTIS

Professor of Practice, Finance. B.A., 1984, Northern Iowa; M.B.A., 2001, Iowa State.

HOFF, STEVEN J.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1983, Wisconsin (River Falls); B.A.E., 1985, M.S., 1987, Ph.D., 1990, Minnesota.

HOFFMAN, DAVID K.

Emeritus Professor of Chemistry; University Professor. B.S., 1960, Illinois; Ph.D., 1964, Wisconsin.

HOFFMAN, ELIZABETH

Professor of Economics; B.A., 1968, Smith; M.A., 1969, Ph.D., 1972, Pennsylvania; Ph.D., 1979, California Institute of Technology.

HOFFMAN, LORRAINE J.

Emerita Professor of Veterinary Diagnostic and Production Animal Medicine. B.A., 1964, Wartburg; M.S., 1968, Ph.D., 1974, Iowa State.

HOFFMAN, MARK PETER

Emeritus Professor of Animal Science. B.S., 1963, Delaware Valley; M.S., 1967, Ph.D., 1969, Iowa State.

HOFMANN, HEIKE

Professor of Statistics. B.Sc., 1993, M.Sc., 1998, Ph.D., 2000, Augsburg (Germany).

HOFMOCKEL, KIRSTEN

Affiliate Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 1994, Pennsylvania State; M.S., 1999, Ph.D., 2005, Duke.

HOGBEN, LESLIE

Professor of Mathematics; Professor of Electrical and Computer Engineering; Associate Dean of the College of Liberal Arts and Sciences. B.A., 1974, Swarthmore; Ph.D., 1978, Yale.

HOGBERG, MAYNARD GORDON

Emeritus Professor of Animal Science. B.S., 1966, M.S., 1972, Ph.D., 1976, Iowa State.

HOGLE, ROGER

Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1958, M.S., 1967, Iowa State.

HOHMANN, HEIDI M.

Associate Professor of Landscape Architecture. B.S., 1986, Yale; M.L.A., 1993, Harvard Graduate School of Design.

HOIBERG, ERIC OTTO

Emeritus Professor of Sociology and Criminal Justice; B.A., 1966, M.A., 1969, Ph.D., 1973, Nebraska.

HOLDEN, PALMER J.

Emeritus Professor of Animal Science. B.S., 1965, North Dakota State; M.S., 1967, Ph.D., 1970, Iowa State.

HOLGER, DAVID KERMIT

Emeritus Professor of Aerospace Engineering. B.Aer.E., 1970, M.S., 1971, Ph.D., 1974, Minnesota.

HOLLAND, BRENT A.

Associate Professor of Art and Visual Culture. B.F.A., 2001, Southwest Missouri State; M.F.A., 2004, Washington.

HOLLAND, STEPHEN D.

Professor of Aerospace Engineering. B.S., 1997, Ph.D., 2002, Cornell.

HOLLANDER, DAVID B.

Professor of History. Director of Classical Studies. B.A., 1992, Chicago; M.A., 1994, M.Phil., 1997, Ph.D., 2002, Columbia.

HOLLINGER, ROBERT

Emeritus Professor of Philosophy and Religious Studies. B.A., 1966, Brooklyn; Ph.D., 1972, Wisconsin.

HOLLIS, JAMES

Associate Professor of Food Science and Human Nutrition. B.Sc., 1999, Ph.D., 2003, Oxford Brookes (UK).

HOLMAN, MATTHEW

Assistant Teaching Professor of Computer Science. Bachelor's, Bachelor's, Bachelor's, Master's, Master's, Idaho; DMusA, Nebraska-Lincoln.

HOLME, THOMAS

Professor of Chemistry and Interim Chair of the Department. Morrill Professor. B.S., 1983, Loras College; Ph.D., 1987, Rice.

HOLMGREN, MARGARET R.

Emerita Associate Professor of Philosophy and Religious Studies. B.A., 1974, Bryn Mawr; Ph.D., 1981, Texas.

HOLMSTROM, KATHRYN

Assistant Professor of Accounting. M.S., 2005, Wisconsin-Milwaukee; Ph.D., 2021, Georgia Institute of Technology.

HOLSCHER, KENNETH

Emeritus Associate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1972, Kearney; M.S., 1978, Ph.D., 1981, Oklahoma State.

HOLTER, JAMES A.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1952, North Dakota State; D.V.M., 1957, M.S., 1975, Iowa State.

HOLTKAMP, DERALD J.

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1985, M.S., 1990, D.V.M., 1997, Iowa State.

HONEYMAN, MARK S.

Emeritus Professor of Animal Science. B.S., 1977, M.S., 1983, Ph.D., 1989, Iowa State.

HONG, GONG-SOOG

Emerita Professor of Human Development and Family Studies. B.S., 1972, M.S., 1975, Ewha Womans; M.S., 1985, Utah State; Ph.D., 1990, Cornell.

HONG, MINGYI

Affiliate Assistant Professor of Industrial and Manufacturing Systems Engineering. Ph.D., 2011, Virginia University of Lynchburg.

HONG, SHELLY

Assistant Teaching Professor of Agricultural and Biosystems Engineering. M.S., 2004, Technical University of Denmark.

HONG, WEI

Affiliate Associate Professor of Aerospace Engineering; B.S., 2000, M.S., 2002, Tsinghua (China); Ph.D., 2006, Harvard.

HONZATKO, RICHARD B.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1976, Michigan; Ph.D., 1982, Harvard.

HOOD, FREDERICK M. III

Associate Teaching Professor of Finance. B.A., 1998, Michigan State; M.S., 2001, Ph.D., 2009, Rochester.

HOPKINS, CHRISTOPHER

Professor of Music and Theatre. B.M., 1979, Nebraska; M.M., 1985, Cleveland Institute of Music; D.M.A., 1992, Cornell.

HOPPER, DAVID L.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; B.S., 1971, M.S., 1972, Wisconsin (Oshkosh); Ph.D., 1976, Iowa State.

HORNBuckle, BRIAN KIRK

Professor of Agronomy; Professor of Electrical and Computer Engineering; Professor of Geological and Atmospheric Sciences. B.Sc., 1994, Brown; M.A., 1996, Mississippi (Oxford); M.S.E., 1997, Ph.D., 2003, Michigan.

HORNER, HARRY T. JR.

Emeritus Professor of Genetics, Development, and Cell Biology; Emeritus Professor of Ecology, Evolution, and Organismal Biology. University Professor. B.A., 1959, M.S., 1961, Ph.D., 1964, Northwestern.

HORST, RONALD L.

Affiliate Professor of Animal Science. B.S., 1971, West Virginia; M.S., 1972, Ph.D., 1976, Wisconsin.

HORTON, RICHARD E.

Emeritus Professor of Electrical and Computer Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

HORTON, ROBERT JR.

Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1975, M.S., 1977, Texas A&M; Ph.D., 1982, New Mexico State.

HORWITZ, JAMIE

Emerita Associate Professor of Industrial Design. B.F.A., 1972, Kansas City Art Institute; Ed.M., 1977, Harvard; Ph.D., 1986, City University of New York.

HOSTENG, TRAVIS

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 2002, M.S., 2004, Iowa State.

HOU, LISHENG STEVEN

Emeritus Professor of Mathematics. B.S., 1983, Peking (China); Ph.D., 1989, Carnegie Mellon.

HOUK, ROBERT S.

Emeritus Professor of Chemistry. B.S., 1974, Slippery Rock; Ph.D., 1980, Iowa State.

HOUSER, TERRY

Associate Professor of Animal Science. B.S., 1998, Nebraska (Lincoln); M.S., 2001, Ph.D., 2004, Iowa State.

HOWARD, JOAN

Clinical Associate Professor of Veterinary Clinical Sciences. B.A., 1985, Albright College; D.V.M., 1989, Pennsylvania.

HOWARD, MICHAEL

Professor of Management and Entrepreneurship. Bachelor's, Master's, Illinois-Urbana/Champaign; Master's, Ph.D., Washington.

HOWE, ADINA

Associate Professor of Agricultural and Biosystems Engineering. B.S., 2003, M.S., 2005, Purdue; Ph.D., 2009, Iowa.

HOWE, MICHAEL

Associate Professor of Management and Entrepreneurship. B.S., 2002, Cincinnati; M.B.A., 2004, Ph.D., 2014, Michigan State.

HOWELL, STEPHEN H.

Emeritus Professor of Genetics, Development, and Cell Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1963, Grinnell College; Ph.D., 1967, Johns Hopkins.

HRABA, JOSEPH III

Emeritus Professor of Sociology and Criminal Justice. B.A., 1965, M.A., 1968, Ph.D., 1972, Nebraska.

HSU, MING-CHEN

Associate Professor of Mechanical Engineering. B.S., 2003, M.S., 2005, National Taiwan; M.S.E., 2008, Texas (Austin); Ph.D., 2012, California (San Diego).

HSU, WALTER HAW

Emeritus Professor of Biomedical Sciences. B.V.M., 1969, National Taiwan; Ph.D., 1975, North Carolina.

HU, HUI

Professor of Aerospace Engineering. B.S., 1990, M.S., 1993, Ph.D., 1996, Beijing (China); Ph.D., 2001, Tokyo (Japan).

HU, SHAN

Associate Professor of Mechanical Engineering. B.S., 2007, Harbin Institute of Technology (China); M.S., 2009, Minnesota (Duluth); Ph.D., 2014, Minnesota.

HUAI, MENGDI

Assistant Professor of Computer Science. Bachelor's, Zhengzhou; Master's, University of Science and Technology of China; Ph.D., Virginia.

HUANG, CHENG

Assistant Professor of Electrical and Computer Engineering. B.S., 2008, Zhejiang; Ph.D., 2014, Hong Kong University of Science and Technology.

HUANG, MEI-HSUAN

Associate Professor of Music and Theatre. B.Mus., National Taiwan Normal; D.M.A., Ohio State; M.Mus., Cleveland Institute of Music.

HUANG, SHU-MIN

Emeritus Professor of World Languages and Cultures. B.A., 1967, National Taiwan; M.A., 1973, Ph.D., 1977, Michigan State.

HUANG, WENYU

Professor of Chemistry. B.S., 2000, M.S., 2002, Nanjing (China); Ph.D., 2007, Georgia Institute of Technology.

HUANG, XIAOQIU

Professor of Computer Science. B.S., 1982, Changsha Institute of Technology (China); M.S., 1989, Ph.D., 1990, Pennsylvania State.

HUANG, YAN

Adjunct Assistant Professor of Management and Entrepreneurship.
Bachelor's, East China University of Science and Technology; Master's,
Minnesota; Master's, Minnesota; PhD, 2020, Kansas.

HUBA, MARY ELEANOR

Emerita Professor of School of Education. B.A., 1969, St. Rose; M.A.,
1973, Ph.D., 1977, New York (Albany).

HUFFMAN, SONYA K.

Emerita Adjunct Associate Professor of Economics. B.S., 1986, Moscow
Cooperative Institute; Ph.D., 1999, Iowa State.

HUFFORD, MATTHEW

Associate Professor of Ecology, Evolution, and Organismal Biology. B.S.,
1999, Wheaton; M.S., 2009, Ph.D., 2010, California (Davis).

HUGHES-BELDING, KERE

Professor of Human Development and Family Studies. B.A., 1992,
Washburn; M.A., 1995, Ph.D., 1999, Kansas.

HUME, EVAN

Assistant Professor of Art and Visual Culture. Bachelor's, Virginia
Commonwealth; Master's, George Washington.

HUNACEK, MARK

Emeritus Teaching Professor of Mathematics. B.S., 1972, Brooklyn; M.S.,
1974, New York; Ph.D., 1978, Rutgers; J.D., 1981, Drake.

HUNTINGTON, STUART H.

Emeritus Associate Professor of Community and Regional Planning. B.A.,
1964, North Park; M.S., 1969, Missouri.

HUR, BOSUK

Associate Professor of Practice, Architecture. B.Arch., 2005, M.Arch.,
2006, Iowa State; M.Arch., 2012, Harvard.

HUR, TAEGYU

Assistant Professor of Marketing. Bachelor's, Master's, Seoul National;
PhD., Phil, The Ohio State.

HURBURGH, CHARLES R.

Professor of Agricultural and Biosystems Engineering; Professor of Food
Science and Human Nutrition. B.S., 1973, M.S., 1980, Ph.D., 1981, Iowa
State.

HURST, JESSICA LYNN

Associate Professor of Apparel, Events, and Hospitality Management.
B.S., 1999, M.S., 2004, Iowa State; Ph.D., 2007, Michigan State.

HUSS, JAMES J.

Emeritus Associate Professor of Apparel, Events, and Hospitality
Management. B.S., 1964, M.S., 1980, Ph.D., 1990, Iowa State.

I**I, JI-YEONG**

Associate Professor of School of Education. B.S., 1999, Seoul National
(South Korea); M.S., 2014, Ph.D., 2015, Missouri.

IADECOLA, THOMAS

Assistant Professor of Physics and Astronomy. Sc.B., 2012, Brown; Ph.D.,
2017, Boston.

IANCU, RALUCA

Assistant Professor of Art and Visual Culture. B.F.A., Nova Scotia College
of Art and Design; M.F.A., Tennessee (Knoxville).

IASEVOLI, PAMELA SUE

Emerita Assistant Professor of Interior Design. B.A., 1974, M.S., 1978,
D.V.M., 1998, Iowa State.

IKUMA, KAORU

Associate Professor of Civil, Construction, and Environmental
Engineering. B.S., 2005, M.S., 2007, Virginia Polytechnic; Ph.D., 2011,
Duke.

ILES, JEFFERY KENNETH

Professor of Horticulture and Chair of the Department. B.S., 1977,
Michigan State; M.S., 1985, Pennsylvania State; Ph.D., 1993, Iowa State.

INGEBRITSEN, THOMAS S.

Emeritus Associate Professor of Genetics, Development, and Cell Biology.
B.S., 1968, Oregon State; Ph.D., 1979, Indiana.

INYANG, ANIEFIOK D.

Adjunct Assistant Professor of Agricultural and Biosystems Engineering.
B.S., 1976, Kansas; M.S., 1978, Ph.D., 1982, Oklahoma.

IRISH, JULIE

Associate Professor of Interior Design. M.Sc., 2006, Reading; Ph.D., 2017,
Minnesota (Twin Cities).

ISAACSON, DEAN L.

Emeritus Professor of Statistics. B.A., 1963, Macalester; M.S., 1966, Ph.D.,
1968, Minnesota.

ISENHART, THOMAS M.

Professor of Natural Resource Ecology and Management. B.S., 1983,
M.S., 1988, Ph.D., 1992, Iowa State.

IVERSEN, JAMES D.

Emeritus Professor of Aerospace Engineering. B.S., 1956, M.S., 1958,
Ph.D., 1964, Iowa State.

IVERSON, JOSEPH

Assistant Professor of Mathematics. B.A., 2007, Minnesota (Morris);
Ph.D., 2016, Oregon.

IVERSON, NEAL R.

Professor of Geological and Atmospheric Sciences. Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Iowa State; Ph.D., 1989, Minnesota.

IYANALU, AYODELE

Assistant Teaching Professor of Architecture. B.Tech, Federal University of Technology, Minna; M.Tech., Federal University of Technology, Akure; M.Arch., Iowa State.

J**JABLINSKI, ANNE**

Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. DVM, Texas A&M.

JACKMAN, JOHN K.

Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1975, Rensselaer; M.E., 1983, Ph.D., 1986, Pennsylvania State.

JACKSON, LARRY L.

Emeritus Professor of Veterinary Clinical Sciences. B.S., 1964, D.V.M., 1966, Michigan State; M.S., 1971, Iowa State.

JACKSON, MICHAEL LEE

Associate Teaching Professor of Art and Visual Culture. B.A., 1987, M.Arch., 1991, Iowa State.

JACKSON, REBECCA

Emerita Associate Professor, Library. B.A., 1971, Pennsylvania State; M.L.S., 1975, New York (Albany); M.A., 1984, Pennsylvania State.

JACOBSON, CARL ERNEST

Emeritus Professor of Geological and Atmospheric Sciences. B.S., 1975, New York (Binghamton); Ph.D., 1980, California (Los Angeles).

JACOBSON, DOUG W.

Professor of Electrical and Computer Engineering; University Professor; Director of the Information Assurance Center. B.S., 1980, Ph.D., 1985, Iowa State.

JACOBSON, JOHN BRUCE

Emeritus Assistant Professor of Aerospace Engineering. B.S., 1971, M.S., 1979, Iowa State.

JACOBSON, ROBERT A.

Emeritus Professor of Chemistry. B.A., 1954, Connecticut; Ph.D., 1959, Minnesota.

JACQZ, IRENE

Assistant Professor of Economics. Ph.D., 2020, Wisconsin-Madison.

JAHANBANI ARDAKANI, ALI

Research Assistant Professor of Electrical and Computer Engineering. Ph.D., McGill.

JAHNKE, MARIANNA

Associate Teaching Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, Universidade de Alfenas; M.S., 2005, Iowa State.

JAHREN, CHARLES T.

Emeritus Professor of Civil, Construction, and Environmental Engineering; Morrill Professor. B.S.C.E., 1977, M.B.A., 1981, Minnesota; Ph.D., 1987, Purdue.

JANE-TOPEL, JAY-LIN

Emerita Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1973, National Chung-Hsing; Ph.D., 1984, Iowa State.

JANKE, ADAM

Associate Professor of Natural Resource Ecology and Management. B.S., 2009, Purdue; M.S., 2011, Ohio State; Ph.D., 2016, South Dakota State.

JANNESARI, ALI

Assistant Professor of Computer Science. B.Sc., 2001, Isfahan (Iran); M.Sc., 2005, Stuttgart (Germany); Ph.D., 2010, Karlsruhe Institute of Technology (Germany).

JANVRIN, DIANE J.

Professor of Accounting. B.A., 1983, Central College; M.A., 1986, Ph.D., 2001, Iowa.

JARBOE, DARREN

Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1986, M.S., 1991, Ph.D., 2012, Iowa State.

JARBOE, LAURA

Professor of Chemical and Biological Engineering. B.S., 2000, Kentucky; Ph.D., 2006, California (Los Angeles).

JARDON, PHILLIP

Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. Bachelor's, Northwest Missouri State; Master's, Oklahoma State; Master's, California-Davis; DVM, Iowa State.

JARVINEN, JULIE ANN C.

Associate Professor of Veterinary Pathology. B.A., 1966, M.A., 1968, Ph.D., 1976, D.V.M., 1981, Minnesota.

JAYASHANKAR, PRIYANKA

Adjunct Assistant Professor of Management and Entrepreneurship. B.A., 2003, Madras (India); M.B.A., 2007, M.Phil., 2010, D.B.A., 2012, Maastricht (Netherlands).

JAYASOORIYA-ARACHCHIGE, RANGA

Assistant Professor of Animal Science. B.Sc., 200, Peradeniya (Sri Lanka); M.Sc., 2006, Virginia Tech; Ph.D., 2010, Virginia Tech.

JAYNES, DAN

Affiliate Professor of Agronomy. B.A., 1974, Monmouth; M.S., 1978, Wisconsin; Ph.D., 1983, Pennsylvania State.

JEFFREY, CYNTHIA G.

Associate Professor of Accounting. B.S., 1975, M.S., 1979, Iowa State; Ph.D., 1989, Minnesota.

JEFFRIES-EL, MALIKA

Affiliate Associate Professor of Chemistry. B.A., 1996, Wellesley; M.Phil., 1999, Ph.D., 2002, George Washington.

JENISON, ROLAND DUANE

Emeritus Professor of Aerospace Engineering. B.S., 1961, M.S., 1965, Iowa State.

JENKINS, BRIA

Assistant Teaching Professor of Apparel, Events, and Hospitality Management. M.S., 2011, New Mexico Highlands.

JENKINS, MICHAEL ADRIAN

Associate Teaching Professor of Mathematics. B.S., 1997, Kennesaw State; M.A., 2000, Ph.D., 2005, Wisconsin.

JENKS, TODD ALLEN

Teaching Professor of Psychology. B.A., 1987, M.Div., 1991, Concordia; Ph.D., 1996, Bowling Green State.

JENNINGS-HAMMOND, SANDRA

Associate Teaching Professor of Marketing. B.A., 1987, M.B.A., 2001, Iowa State.

JENSEN, HELEN HANNAY

Emerita Professor of Economics. B.A., 1968, Carleton; M.S., 1974, Minnesota; Ph.D., 1980, Wisconsin.

JENSEN, TYLER K.

Associate Professor of Finance. B.S., 2009, Nebraska; Ph.D., 2014, Utah.

JEONG, EUNHA

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 2007, Nevada (Las Vegas); M.S., 2010, Ph.D., 2015, Purdue.

JERGENS, ALBERT EARL

Professor of Veterinary Clinical Sciences. B.S., 1977, B.S., 1981, D.V.M., 1983, Texas A&M; M.S., 1994, Ph.D., 2005, Iowa State.

JERNIGAN, ROBERT L.

Professor of Biochemistry, Biophysics, and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1963, California Institute of Technology; Ph.D., 1967, Stanford.

JESKA, EDWARD L.

Emeritus Professor of Veterinary Pathology. B.A., 1952, Gannon; M.S., 1954, Marquette; Ph.D., 1966, Pennsylvania.

JEYAPALAN, KANDIAH

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1960, Ceylon; S.T.B., 1964, Cambridge; M.S., 1967, Ph.D., 1972, London.

JIA, YAN-BIN

Professor of Computer Science. B.S., 1988, Science and Technology (China); M.S., 1993, Ph.D., 1997, Carnegie Mellon.

JIA, YONGHONG

Associate Professor of Accounting. B.S., Harbin Institute of Technology (China); M.S., Huazhong University of Science and Technology (China); M.S., 2006, Ph.D., 2011, Wayne State.

JIANG, SHAN

Associate Professor of Materials Science and Engineering. B.S., 2000, M.S., 2003, Zhejiang (China); Ph.D., 2009, Illinois.

JILES, DAVID C.

Emeritus Professor of Electrical and Computer Engineering; Emeritus Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1975, Birmingham (United Kingdom); M.Sc., 1976, Exeter (United Kingdom); Ph.D., 1979, Hull (United Kingdom); D.Sc., 1990, Birmingham (United Kingdom).

JOANNING, HARVEY H.

Emeritus Professor of Human Development and Family Studies. B.A., 1969, Briar Cliff; M.A., 1972, Ph.D., 1973, Iowa.

JOHANNSEN, JENNIFER C.

Associate Teaching Professor of Aerospace Engineering. B.S., 1996, Iowa State; M.S., 1999, Michigan State.

JOHANSEN, JORGEN

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1976, M.Phil., 1980, Ph.D., 1988, Copenhagen.

JOHANSEN, KRISTEN M.

Professor of Biochemistry, Biophysics, and Molecular Biology; Professor of Genetics, Development, and Cell Biology. B.A., 1982, Pennsylvania; M.Phil., 1985, Ph.D., 1989, Yale.

JOHNSON, ANNA KERR

Professor of Animal Science. B.Sc., 1995, Reading (England); M.Sc., 1997, Edinburgh (UK); Ph.D., 2001, Texas Tech.

JOHNSON, BENJAMIN

Assistant Professor of Geological and Atmospheric Sciences. B.Sc., 2006, Puget Sound; M.Sc., 2009, Utah; Ph.D., 2017, Victoria.

JOHNSON, DANNY J.

Emeritus Associate Professor of Supply Chain Management. B.S., 1989, Moorhead State; M.B.A., 1991, Ph.D., 1998, Wisconsin (Madison).

JOHNSON, DUANE D.

Professor of Materials Science and Engineering; Professor of Chemical and Biological Engineering; Professor of Physics and Astronomy. Anson Marston Distinguished Professor in Engineering. B.Sc., 1980, Ph.D., 1985, Cincinnati.

JOHNSON, JANET S.

Emerita Clinical Professor of Food Science and Human Nutrition. B.S., 1976, Iowa State; M.S., 1985, Delaware.

JOHNSON, JOSHUA

Associate Teaching Professor of Music and Theatre. M.A., Nebraska-Lincoln, 2011.

JOHNSON, LAWRENCE A.

Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1969, Ohio State; M.Sc., 1971, North Carolina State; Ph.D., 1978, Kansas State.

johnson, patrick

Professor of Materials Science and Engineering. Bachelor's, Lehigh; Master's, Virginia; Ph.D., Columbia.

JOHNSON, SCOTT

Professor of Management and Entrepreneurship; Associate Dean of the Ivy College of Business. B.S., 1991, Colorado; M.B.A., 1999, Michigan State; Ph.D., 2005, Minnesota.

JOHNSON, STANLEY R.

Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1961, Western Illinois; M.S., 1962, Texas Tech; Ph.D., 1966, Texas A&M.

JOHNSON, STEVEN

Professor of Practice, Civil, Construction, and Environmental Engineering. Bachelor's, Iowa State.

JOHNSON, SUSAN A.

Associate Teaching Professor of Mathematics. B.A., 1992, Iowa; M.S., 1997, Iowa State.

JOHNSTON, DAVID C.

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1969, California (Santa Barbara); Ph.D., 1975, California (San Diego).

JOHNSTON, ELGIN H.

Emeritus Professor of Mathematics. B.S., 1972, Santa Clara; M.S., 1973, Ph.D., 1977, Illinois.

JOLLS, KENNETH ROBERT

Emeritus Professor of Chemical and Biological Engineering. A.B., 1958, Duke; B.S., 1961, North Carolina State; M.S., 1963, Ph.D., 1966, Illinois.

JOLLY, LAURA DUNN

Professor of Apparel, Events, and Hospitality Management; Dean of the College of Human Sciences. B.S., 1977, Mississippi; M.S., 1979, Ph.D., 1983, Oklahoma State.

JOLLY, ROBERT WILLIAM

Emeritus Professor of Economics. B.S., 1968, M.S., 1974, Ph.D., 1976, Minnesota.

JONES, BERT LYNN

Emeritus Associate Professor of Agricultural Education and Studies. B.A., 1970, Missouri Southern; M.A., 1974, Central Missouri; Ph.D., 1985, Wisconsin.

JONES, BRENDA JOYCE

Professor of Art and Visual Culture; University Professor. B.F.A., 1982, M.F.A., 1986, Drake.

JONES, DOUGLAS E.

Professor of Veterinary Pathology. B.S., 1980, M.S., 1985, Connecticut; M.D.Vet., 1989, Ph.D., 1993, Pennsylvania.

JONES, EDWIN C. JR.

Emeritus Professor of Electrical and Computer Engineering; University Professor. B.S.E.E., 1955, West Virginia; D.I.C., 1956, Imperial College; Ph.D., 1962, Illinois.

JONES, PHILLIP HARRISON

Associate Professor of Electrical and Computer Engineering. B.S., 1999, M.S., 2002, Illinois; Ph.D., 2008, Washington (St. Louis).

JONES-JOHNSON, GLORIA

Emerita Professor of Sociology and Criminal Justice; University Professor. B.A., 1978, Talladega; M.A., 1980, Bowling Green; Ph.D., 1986, Michigan.

JORDAN, TERA R.

Associate Professor of Human Development and Family Studies; Assistant Provost for Faculty Success. B.S., 1998, Indiana; M.S., 2001, Ph.D., 2005, Pennsylvania State.

JOVANOVIĆ, BORIS

Adjunct Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 2006, Nis; Ph.D., 2011, Iowa State.

JUAREZ, JAIME

Associate Professor of Mechanical Engineering. B.S., 2004, Stanford; M.S., 2006, Texas (San Antonio); Ph.D., 2011, Johns Hopkins.

JUNG, STEPHANIE

Affiliate Associate Professor of Food Science and Human Nutrition. B.S., 1995, Metz (France); M.S., 1996, National Polytechnique de Lorraine; Ph.D., 2000, Nantes (France).

JUNGST, STEVEN E.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1969, M.S., 1976, Ph.D., 1978, Iowa State.

JURENKA, RUSSELL A.

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1979, M.S., 1982, Montana State; Ph.D., 1987, Nevada (Reno).

JURGENS, MARSHALL H.

Emeritus Professor of Animal Science. B.S., 1964, M.S., 1966, Ph.D., 1969, Nebraska.

JURIK, THOMAS WAYNE

Emeritus Associate Professor of Ecology, Evolution, and Organismal Biology. B.A., 1974, Texas; Ph.D., 1980, Cornell.

K**KADELKA, CLAUS**

Associate Professor of Mathematics. B.S., 2009, Karlsruhe Institute of Technology (Germany); M.S., 2011, Ph.D., 2015, Virginia Tech.

KADOLPH, SARA JEAN

Emerita Professor of Apparel, Events, and Hospitality Management. B.S., 1972, Iowa State; M.S., 1973, Kansas State; Ph.D., 1979, Minnesota.

KAISER, JOHN

Professor of Practice, Chemical and Biological Engineering. B.S., 1985, Purdue; M.S., 1987, Iowa State.

KAISER, MARK STEVEN

Professor of Statistics. B.S., 1979, M.S., 1982, M.A., 1984, Ph.D., 1990, Missouri.

KALEITA, AMY LEIGH

Professor of Agricultural and Biosystems Engineering and Chair of the Department. B.S., 1997, Pennsylvania State; M.S., 1999, Ph.D., 2003, Illinois.

KALIVARAPU, VIJAY

Assistant Teaching Professor of Mechanical Engineering. Ph.D., 2008, Iowa State.

KAMAL, AHMED EL-SAYED

Professor of Electrical and Computer Engineering. B.Sc., 1978, M.Sc., 1980, Cairo (Egypt); M.A.Sc., 1982, Ph.D., 1986, Toronto (Canada).

KAMINSKI, ADAM

Professor of Physics and Astronomy. M.Sc., 1991, Skiddorsya (Poland); Ph.D., 2001, Illinois (Chicago).

KAMRUD, KURT

Affiliate Associate Professor of Animal Science. B.A., 1987, Concordia; M.S., 1990, Hood; Ph.D., 1996, Colorado State.

KANE, KEVIN L.

Adjunct Assistant Professor of Landscape Architecture. B.A., 1982, B.S., 1982, M.L.A., 1986, Ph.D., 2007, Iowa State.

KANG, SUNGHYUN RYOO

Professor of Graphic Design. B.F.A., 1980, Ewha Womans; M.F.A., 1986, Houston; M.A., 1999, Iowa State.

KANNEL, EDWARD J.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1966, M.S., 1967, Wisconsin; Ph.D., 1972, Purdue.

KANWAR, RAMESHWAR S.

Professor of Agricultural and Biosystems Engineering; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1969, Punjab Ludhiana; M.S., 1975, Pantnagar; Ph.D., 1981, Iowa State.

KAO, DAVID T.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1959, National Cheng-Kung; M.S., 1965, Ph.D., 1967, Duke.

KAPMEYER, LORI OSMUS

Emerita Associate Professor, Library. B.A., 1977, St. Francis; M.S., 1978, Illinois; M.A., 2000, Iowa State.

KARABULUT-ILGU, ALIYE

Assistant Professor of Veterinary Pathology. B.A., 2003, Bogazici (Turkey); M.A., 2007, Ph.D., 2013, Iowa State.

KARACA, ILKER

Assistant Professor of Practice, Finance. Ph.D., 2017, Iowa State.

KARAS, GEORGE G.

Emeritus Professor of Psychology; Associate . B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE

Affiliate Professor of Agronomy. B.S., 1973, Wisconsin; M.S., 1975, Michigan State; Ph.D., 1978, Kansas State.

KARRIKER, LOCKE A.

Professor of Veterinary Diagnostic and Production Animal Medicine. Morrill Professor. B.S., 1995, North Carolina; D.V.M., 1999, M.S., 2000, Mississippi State.

KASHYAP, MRIDU

Assistant Professor of Practice, Computer Science. Bachelor's, LD College of Engineering; Master's, Virginia Polytechnic.

KASPER, KEVIN

Associate Teaching Professor of Statistics. B.S., 2009, M.S., 2013, Iowa State.

KATZ, APRIL

Emerita Professor of Art and Visual Culture; Morrill Professor. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KAUFMANN, PAUL J.

Emeritus Assistant Professor of English. B.S., 1964, Nebraska (Omaha); M.A., 1967, Cincinnati; Ph.D., 1975, Iowa State.

KAUTZ, STEVEN MICHAEL

Teaching Professor of Computer Science. B.A., 1985, California State (Sacramento); M.S., 1990, Ph.D., 1991, Cornell.

KAVANAGH, PATRICK

Emeritus Professor of Mechanical Engineering. B.S., 1952, M.S., 1960, Ph.D., 1964, Iowa State.

KAWALER, STEVEN D.

Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.A., 1980, Cornell; Ph.D., 1986, Texas.

KEATING, AILEEN

Professor of Animal Science. B.Sc., 1998, National University of Ireland; M.Sc., 1999, Ulster (Ireland); Ph.D., 2003, National University of Ireland.

KEDROWSKI, KAREN

Professor of Political Science; Director of the Carrie Chapman Catt Center for Women and Politics. B.A., 1986, Minnesota; M.A., 1991, Ph.D., 1992, Oklahoma.

KEENEY, DENNIS R.

Emeritus Professor of Agronomy; Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, Iowa State; M.S., 1961, Wisconsin; Ph.D., 1965, Iowa State.

KEHRBERG, RICHARD F.

Assistant Teaching Professor of History. B.A., 1983, Wisconsin (Eau Claire); M.A., 1986, Wisconsin.

KEHRLI, MARCUS

Affiliate Professor of Animal Science. B.S., 1978, D.V.M., 1982, Ph.D., 1989, Iowa State.

KEINERT, FRITZ

Emeritus Associate Professor of Mathematics. B.S., 1978, Stuttgart; M.S., 1981, Ph.D., 1985, Oregon State.

KELLER, GENEVIEVE P.

Affiliate Associate Professor of Landscape Architecture. B.A., 1972, Mary Washington; M.A., 1975, Virginia.

KELLER, J. TIMOTHY

Emeritus Professor of Landscape Architecture. B.A., 1972, M.L.A., 1975, Virginia.

KELLEY, DIOR

Assistant Professor of Genetics, Development, and Cell Biology. B.S., 2000, California (Santa Cruz); Ph.D., 2009, California (Davis).

KELLY, JONATHAN

Professor of Psychology and Chair of the Department. B.A., 1998, California (Los Angeles); Ph.D., 2006, California (Santa Barbara).

KENEALY, MICHAEL D.

Emeritus Professor of Animal Science; University Professor. B.S., 1969, Ph.D., 1974, Iowa State.

KENNEDY, WILLIAM J. JR.

Emeritus Professor of Statistics. B.S., 1959, M.S., 1960, Oklahoma State; Ph.D., 1969, Iowa State.

KENZIG, ALLISON

Clinical Assistant Professor of Veterinary Clinical Sciences. Bachelor's, D.V.M., The Ohio State.

KERBY, KENT B.

Adjunct Associate Professor of Genetics, Development, and Cell Biology; Assistant Dean of the College of Liberal Arts and Sciences. B.Sc., 1978, Ph.D., 1986, Alberta.

KEREN, NIR

Associate Professor of Agricultural and Biosystems Engineering. B.Sc., 1990, M.Sc., 1998, Ben Gurion (Israel); Ph.D., 2003, Texas A&M.

KERKOVE, KARLA

Clinical Assistant Professor of Food Science and Human Nutrition. Associate's, Bachelor's, Mercy. Master's, Walden.

KERNS, KARL

Assistant Professor of Animal Science. B.S., 2014, Iowa State; M.S., Ph.D., 2019, Missouri (Columbia).

KERR, BRIAN J.

Affiliate Associate Professor of Animal Science. B.S., 1981, M.S., 1982, Ph.D., 1988, Illinois.

KERSH, KEVIN DEWAYNE

Clinical Professor of Veterinary Clinical Sciences. B.S., 1997, Northeastern State; D.V.M., 2001, Oklahoma State.

KERTON, CHARLES R.

Associate Professor of Physics and Astronomy. B.Sc., 1992, Dalhousie (Canada); M.Sc., 1993, Toronto (Canada); M.S., 1996, Hawaii; Ph.D., 2000, Toronto (Canada).

KHAITAN, SIDDHARTHA

Research Assistant Professor of Electrical and Computer Engineering. B.E., 2003, Birla Institute of Tech (India); M.Tech., 2005, Indian Institute of Tech (India); Ph.D., 2008, Iowa State.

KHALANDOVSKIY, IGOR

Assistant Professor of Practice, Industrial Design. M.A., 1990, Academy of Design and Arts (Kharkov).

KHAN, GABRIEL

Assistant Professor of Mathematics. Ph.D., 2018, The Ohio State.

KHAN, KORI

Assistant Professor of Statistics. B.S.P.H., 2012, North Carolina (Chapel Hill); J.D., 2015, Ph.D., 2020, The Ohio State.

KHOKHAR, ASHFAQ A.

Professor of Electrical and Computer Engineering and Chair of the Department. B.Sc., 1985, University of Engineering and Technology (Pakistan); M.S., 1989, Syracuse; Ph.D., 1993, California (Los Angeles).

KIENZLER, DONNA STINE

Emerita Professor of English; A.B., 1968, Gettysburg; A.M., 1970, Ph.D., 1975, Illinois.

KILLORN, RANDY JAY

Emeritus Professor of Agronomy. B.S., 1971, M.S., 1979, Montana State; Ph.D., 1983, Idaho.

KILMER, LEE HARRY

Emeritus Professor of Animal Science. B.S., 1971, Cornell; M.S., 1978, Ph.D., 1980, Pennsylvania State.

KIM, DAEJIN

Assistant Professor of Interior Design. B.S., 2008, Inha (South Korea); M.S., 2010, Yonsei (South Korea); Ph.D., 2016, Florida.

KIM, DONGHYUK

Assistant Professor of Economics. B.A., 2013, M.A., 2015, M.Phil., 2015, Ph.D., 2019, Yale.

KIM, JAE-KWANG

Professor of Statistics. B.S., 1991, M.S., 1993, Seoul National (Korea); Ph.D., 2000, Iowa State.

KIM, JAEYOUN

Professor of Electrical and Computer Engineering. B.S., 1992, Kwangwoon (Korea); M.S., 1994, Arizona; Ph.D., 2003, Michigan.

KIM, JEWOO

Associate Professor of Apparel, Events, and Hospitality Management. B.A., 2001, Yonsei (South Korea); M.B.A., 2010, Brandeis; Ph.D., 2015, Iowa State.

KIM, JINOH

Associate Professor of Biomedical Sciences. B.S., 1990, Seoul National; M.S., 1992, Seoul National; Ph.D., 2000, Connecticut.

KIM, KYUNG SEOK

Affiliate Assistant Professor of Ecology, Evolution, and Organismal Biology. B.S., 1991, M.S., 1993, Ph.D., 1998, Kyungpook National (Korea).

KIM, RAYMOND

Assistant Professor of Information Systems and Business Analytics. Master's, Seoul National; Ph.D., Arizona.

KIM, SANG W.

Associate Professor of Electrical and Computer Engineering. B.S., 1981, Yonsei (Seoul); M.S., 1983, Korea Advanced Institute of Science; Ph.D., 1987, Michigan.

KIM, STEPHEN

Professor of Marketing. B.A., 1984, M.B.A., 1986, Korea; Ph.D., 1993, Southern California.

KIM, SUNGHWAN

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering. Ph.D., 2006, Iowa State.

KIMBER, MICHAEL JOHN

Professor of Biomedical Sciences and Chair of the Department. B.Sc., 1998, Ph.D., 2001, Queens (Belfast).

KIMLE, KEVIN LEE

Teaching Professor of Economics. B.S., 1989, Nebraska; M.S., 1991, Iowa State.

KING, ALEXANDER

Emeritus Professor of Materials Science and Engineering. B.Met., 1975, Sheffield (England); D.Phil., 1979, Oxford (England).

KING, CHRISTINE E.

Emerita Associate Professor, Library; Emerita Associate Dean of Library Services. B.A., 1976, Sheffield (UK); M.S.L.S., 1983, Long Island.

KING, DOUGLAS S.

Emeritus Professor of Kinesiology; Emeritus Professor of Biomedical Sciences. B.A., 1980, California (Berkeley); M.A., 1981, Wake Forest; Ph.D., 1984, Ball State.

KINGSTON, TODD

Assistant Professor of Mechanical Engineering. B.S., M.S., Iowa State; Ph.D., Purdue.

KINKEAD, KAREN E.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1995, Virginia Tech; M.S., 1997, Ph.D., 2004, Clemson.

KINSLEY, MARC

Clinical Associate Professor of Veterinary Clinical Sciences. Bachelor's, SUNY Geneseo; Master's, Oregon State; DVM, Cornell.

KIRILLOVA, ALINA

Assistant Professor of Materials Science and Engineering. DrRerNat, Dresden.

KIRSCHENMANN, FREDERICK L.

Emeritus Professor of Philosophy and Religious Studies. B.A., 1957, Yankton College; M.A., 1962, Ph.D., 1964, Chicago.

KITZMAN, MARION JOHN

Emeritus Professor of Architecture. B.F.A., 1950, Drake; M.A., 1957, San Francisco State.

KLAAS, ERWIN E.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Missouri; M.A., 1963, Ph.D., 1970, Kansas.

KLAIBER, FRED WAYNE

Emeritus Professor of Civil, Construction, and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1962, M.S., 1964, Ph.D., 1968, Purdue.

KLAVER, ROBERT W.

Affiliate Professor of Natural Resource Ecology and Management. B.S., 1971, Iowa State; B.S., 1974, M.S., 1976, Montana; Ph.D., 2001, South Dakota State.

KLEIN-HEWETT, HANS

Assistant Professor of Landscape Architecture. B.L.A., 2005, Iowa State; M.L.A., 2009, Cornell.

KLIEBENSTEIN, JAMES

Emeritus Professor of Economics. B.S., 1969, Wisconsin; M.S., 1970, Ph.D., 1972, Illinois.

KLIEMANN, WOLFGANG H.

Emeritus Professor of Mathematics. Dr.rer.nat, 1980, Bremen.

KLIEVER, TREVOR

Assistant Teaching Professor of Interior Design.

KLING, CATHERINE L.

Emerita Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.B.A., 1981, Iowa; Ph.D., 1986, Maryland.

KLUGE, JOHN PAUL

Emeritus Professor of Veterinary Pathology; University Professor. B.S., 1962, D.V.M., 1962, Missouri; M.S., 1965, Iowa State; Ph.D., 1968, George Washington.

KNAPP, ALLEN DALE

Emeritus Professor of Agronomy. B.S., 1974, M.S., 1976, Montana State; Ph.D., 1981, Washington State.

KNAPP, KEITH

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering.

KNIGHT, KATHRANNE

Assistant Teaching Professor of Art and Visual Culture. B.A., 1992, Texas; M.F.A., 1997, Yale.

KNIKER, CHARLES R.

Emeritus Professor of School of Education; A.B., 1958, Elmhurst; B.D., 1962, Eden Seminary; M.A., 1966, San Francisco Seminary; Ed.D., 1969, Teachers College, Columbia.

KNOX, JENNIFER

Associate Teaching Professor of English. B.A., 1991, Iowa; M.F.A., 2001, New York.

KNOX, JERRY

Emeritus Associate Professor of Community and Regional Planning. B.A., 1962, Iowa; M.U.P., 1968, Michigan State.

KOCH, PAUL

Professor of Finance. Ph.D., 1980, Michigan State. B.A., 1977, Wartburg College; Ph.D., 1980, Michigan State.

KOCH, STEVEN

Affiliate Professor of Geological and Atmospheric Sciences. B.S., 1972, M.S., 1974, Wisconsin; Ph.D., 1979, Oklahoma.

KOEHLER, KENNETH J.

Emeritus Professor of Statistics; University Professor. B.S., 1972, Wisconsin (Parkside); Ph.D., 1977, Minnesota.

KOERITZ, MASON

Assistant Teaching Professor of Chemistry. Ph.D., 2023, Iowa State.

KOHNKE, EMILY

Associate Teaching Professor of Supply Chain Management. B.S., 1999, Oral Roberts; M.B.A., 2005, Notre Dame; PhD., 2010, Minnesota.

KOHUT, MARIAN LOUISE

Professor of Kinesiology. B.A., 1982, Chicago; M.S., 1986, Pennsylvania State; Ph.D., 1995, South Carolina.

KOLKA, RANDALL

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1990, Wisconsin; M.S., 1993, Ph.D., 1996, Minnesota.

KOLTES, DAWN

Assistant Professor of Animal Science. B.S., 2006, Arkansas; M.S., 2008, Ph.D., 2013, Iowa State.

KOLTES, JAMES E.

Assistant Professor of Animal Science. B.S., 2001, Wisconsin; Ph.D., 2007, Iowa State.

KOPPER, JAMIE

Assistant Professor of Veterinary Clinical Sciences. D.V.M., Ph.D.

KOPPES, ANGELA

Assistant Teaching Professor of Interior Design. B.A., 2009, Clarke; M.F.A., 2012, Savannah College of Art and Design.

KOPSELL, DAVID

Affiliate Professor of Horticulture. B.S., 1993, Illinois State; M.S., 1995, Ph.D., 1999, Georgia.

KORSCHING, PETER F.

Emeritus Professor of Sociology and Criminal Justice. B.A., 1970, Chadron; M.A., 1972, Ph.D., 1977, Kentucky.

KOSCHNY, THOMAS

Adjunct Professor of Physics and Astronomy. Ph.D., 2000, Leipzig (Germany).

KOSTELNICK, CHARLES J.

Professor of English. Morrill Professor. B.Arch., 1973, M.A., 1975, Ph.D., 1981, Illinois.

KOTHARI, SURAJ C.

Professor of Electrical and Computer Engineering; Professor of Computer Science. B.S., 1970, Poona; Ph.D., 1977, Purdue.

KOVAR, JOHN L.

Affiliate Associate Professor of Agronomy. B.S., 1981, Illinois; M.S., 1985, Ph.D., 1989, Purdue.

KOVNIR, KIRILL

Professor of Chemistry. B.S., 2001, Moscow State; M.S., 2001, Moscow State; Ph.D., 2004, Moscow State.

KOWALKO, JOHANNA

Adjunct Assistant Professor of Genetics, Development, and Cell Biology. B.A., 2005, Brown, Ph.D., 2013, Harvard.

KOZIEL, JACEK ADAM

Emeritus Professor of Agricultural and Biosystems Engineering. M.S., 1989, Warsaw Technological (Poland); M.S., 1993, Alaska; Ph.D., 1998, Texas.

KOZMINSKY, MOLLY

Assistant Professor of Chemical and Biological Engineering. Bachelor's, MIT; Master's, Ph.D, Michigan.

KRAFT, BRUCE

Professor of Practice, Finance. B.B.A., 1984, Iowa State; M.B.A., 1993, Marquette.

KRAFT, JELENA

Assistant Teaching Professor of Genetics, Development, and Cell Biology. B.S., 2005, Ph.D., 2011, Iowa State.

KRAMER, JOHN A. D.

Associate Teaching Professor of Apparel, Events, and Hospitality Management. B.S., 1992, M.S., 1997, Iowa State.

KRAMER, MATTHEW J.

Adjunct Associate Professor of Materials Science and Engineering. B.S., 1979, M.S., 1983, Rochester; Ph.D., 1988, Iowa State.

KRAMER, THEODORE

Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1952, Ecole Veterinaire; Ph.D., 1965, Colorado State.

KRAUS, BONNIE HAY

Associate Professor of Veterinary Clinical Sciences. B.S., 1985, Rutgers; D.V.M., 1989, Missouri.

KRAUS, GEORGE A.

Emeritus Professor of Chemistry; University Professor. B.S., 1972, Rochester; Ph.D., 1976, Columbia.

KRAUS, KARL

Professor of Veterinary Clinical Sciences. B.S., 1981, D.V.M., 1985, Kansas State; M.S., 1989, Missouri.

KREIDER, BRENT E.

Professor of Economics. B.A., 1988, Hope College; M.S., 1993, Ph.D., 1994, Wisconsin.

KRENNRICH, FRANK

Professor of Physics and Astronomy and Chair of the Department. B.A., 1986, Friedrich-Alexander (Bavaria); M.A., 1991, Ph.D., 1996, Ludwig-Maximilians (Bavaria).

KREUDER-KRULL, AMANDA JO

Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2004, D.V.M., 2008, Ph.D., 2016, Iowa State.

KREYSSIG, ANDREAS

Adjunct Associate Professor of Physics and Astronomy. Ph.D., 2001, Technische Univeitaet Dresden Germany.

KRIER, DANIEL A.

Professor of Sociology and Criminal Justice. B.S.B.A., 1987, South Dakota; M.A., 1992, Nebraska; Ph.D., 2001, Kansas.

KRISHNAMURTHY, ADARSH

Associate Professor of Mechanical Engineering. B.Tech., 2005, M.Tech., 2005, Indian Institute of Technology; Ph.D., 2010, California (Berkeley).

KRIZAN, ZLATAN

Professor of Psychology. B.A., 2001, Winona State; Ph.D., 2007, Iowa.

KRUEGER, TONYA

Clinician in Food Science and Human Nutrition. B.S., 2002, Illinois; M.A., 2007, Northern Iowa.

KRUEMPEL, KENNETH C.

Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1957, M.S., 1963, Iowa State; Ph.D., 1970, Wisconsin.

KRUESEL, CLAIRE

Associate Teaching Professor of English. B.S., 2007, M.F.A., 2015, Iowa State.

KRUG, BRIAN

Affiliate Assistant Professor of Horticulture. B.S., 2000, Iowa State; M.S., 2004, Ph.D., 2007, North Carolina State.

KRUG, TINA

Assistant Teaching Professor of Horticulture. Bachelor's, Master's, North Carolina State.

KRUSE, ROD

Professor of Practice, Architecture. B.Arch., Iowa State.

KUBAI, MELISSA

Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2008, Wisconsin-Madison.

KUDVA, INDIRA

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1984, Stella Maris College (India); M.S., 1987, Kasturba Medical College (India); Ph.D., 1997, Stella Maris College (India).

KUKDAY, SAYALI

Teaching Professor of Genetics, Development, and Cell Biology. B.S., 2005, Mumbai (India); M.S., 2007, Institute of Science (India); Ph.D., 2012, Georgia.

KULAKOWSKI, CAMILLE

Assistant Teaching Professor of Graphic Design. Associate's, Southwest Florida College; Bachelor's, Florida State; Master's, Savannah College of Art and Design.

KULIC, VLADIMIR

Professor of Architecture. M.S., 2002, Belgrade; Ph.D., 2009, Texas.

KUMAR, DEBRA

Assistant Professor of Practice, Psychology. Bachelor's, Bachelor's, Iowa State; Master's, Michigan.

KUMAR, RATNESH

Professor of Electrical and Computer Engineering; Professor of Computer Science. B.Tech., 1987, Indian Institute of Technology (India); M.S., 1989, Ph.D., 1991, Texas (Austin).

KUMAR, SUDHIR

Assistant Professor of Biomedical Sciences. Ph.D., Jawaharlal Nehru.

KUNDEL, CAROLYN J.

Emerita Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1956, Iowa State; M.S., 1961, Nebraska (Omaha); Ph.D., 1969, Iowa State.

KUNESH, JERRY P.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1961, M.S., 1966, Ph.D., 1969, Iowa State.

KUO, MONLIN

Emeritus Associate Professor of Natural Resource Ecology and Management. B.S., 1965, Taiwan; M.S., 1971, Missouri; Ph.D., 1977, California (Berkeley).

KUPFER, JOSEPH H.

Professor of Philosophy and Religious Studies. University Professor. B.A., 1967, Queens; M.A., 1970, Ph.D., 1971, Rochester.

KURTENBACH, JAMES M.

Associate Professor of Accounting. B.S., 1980, Iowa State; M.S., 1987, Tulsa; Ph.D., 1992, Missouri.

KUSHKOWSKI, JEFFREY D.

Professor, Library. B.A., 1985, Houghton; M.L.S., 1990, M.P.A., 1990, Indiana.

KUSOW, ABDI

Professor of Sociology and Criminal Justice. B.A., 1990, Michigan State; M.U.P., 1992, Michigan; Ph.D., 1998, Wayne State.

KWAW-MENSAH, DAVID

Associate Teaching Professor of Agronomy. Ph.D., 2008, Iowa State.

KYLE, SARAH

Professor of Art and Visual Culture and Chair of the Department. B.A., 2000, Western Ontario, London; M.A., 2002, Queen's University; Ph.D., 2010, Emory.

KYVERYGA, PETRO

Affiliate Associate Professor of Agronomy. Ph.D., 2005, Iowa State.

L**LACZNAK, RUSSELL N.**

Emeritus Professor of Marketing. B.S., 1978, Marquette; M.B.A., 1979, Wisconsin; Ph.D., 1987, Nebraska.

LADNER, ERIK

Associate Teaching Professor of World Languages and Cultures. B.A., 1995, M.S., 1997, Northern Iowa; Ph.D., 2006, Texas.

LAFLAMME, SIMON

Professor of Civil, Construction, and Environmental Engineering; Professor of Electrical and Computer Engineering. B.Com., 2003, B.Eng., 2006, McGill; M.Eng., 2007, Ph.D., 2011, Massachusetts Institute of Technology.

LAFLEN, JOHN M.

Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1959, M.S., 1960, Missouri; Ph.D., 1972, Iowa State.

LAGER, KELLY M.

Affiliate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1985, D.V.M., 1988, Missouri; Ph.D., 1998, Iowa State.

LAIR, KEVIN

Associate Teaching Professor of Architecture. B.F.A., 1991, B.A., 1991, Drake; M.Arch, 1995, Harvard.

LAIRD, DAVID ALAN

Emeritus Professor of Agronomy. B.S., 1976, Kansas; M.S., 1982, Oregon State; Ph.D., 1987, Iowa State.

Lajoie, John G.

Professor of Physics and Astronomy. B.S., 1989, Iowa State; M.S., 1990, M.Phil., 1991, Ph.D., 1996, Yale.

LAMBERTI NUNES, LUANA

Assistant Professor of World Languages and Cultures. Bachelor's, Master's, Universidade Federal do Rio Grande do Sul; Master's, Ph.D., The Ohio State.

LAMKEY, KENDALL RAYE

Professor of Agronomy. Associate Dean of the College of Agriculture and Life Sciences. B.S., 1980, M.S., 1982, Illinois; Ph.D., 1985, Iowa State.

LAMM, MONICA HITCHCOCK

Associate Professor of Chemical and Biological Engineering. B.S., 1993, Syracuse; Ph.D., 2000, North Carolina State.

LAMONT, SUSAN J.

Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1975, Trinity (Illinois); Ph.D., 1980, Illinois.

LAMOTTE, CLIFFORD E.

Emeritus Professor of Genetics, Development, and Cell Biology. B.S., 1953, Texas A&M; Ph.D., 1960, Wisconsin.

LAMSAL, BUDDHI P.

Professor of Food Science and Human Nutrition; Professor of Agricultural and Biosystems Engineering. B.E., 1992, Tamilnadu (India); M.E., 1994, Asian Institute of Technology (Thailand); Ph.D., 2004, Wisconsin.

LANNINGHAM-FOSTER, L.

Associate Professor of Food Science and Human Nutrition and Chair of the Department; Associate Professor of Kinesiology. B.S., 1994, M.S., 1995, North Carolina (Greensboro); Ph.D., 1999, Florida.

LAPAN, HARVEY E.

Emeritus Professor of Economics; University Professor. B.S., 1969, M.S., 1969, Ph.D., 1971, Massachusetts Institute of Technology.

LARIOS-MORA, ALEJANDRO

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2009, California Polytechnic; D.V.M., 2013, Ph.D., 2017, Iowa State.

LAROCK, RICHARD C.

Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1967, California (Davis); Ph.D., 1972, Purdue.

LARSON, LISA M.

Emerita Professor of Psychology; University Professor. B.E.S., 1981, M.S., 1984, Ph.D., 1986, Missouri.

LARSON, SIDNER

Emeritus Associate Professor of English. B.S.Ed., 1972, Northern Montana; M.A., 1982, South Dakota State; J.D., 1985, Minnesota Law; Ph.D., 1994, Arizona.

LASLEY, ROBERT P.

Emeritus Professor of Sociology and Criminal Justice. B.S., 1974, M.A., 1976, Ph.D., 1981, Missouri.

LASSILA, KENNETH E.

Emeritus Professor of Physics and Astronomy. B.S., 1956, Wyoming; M.S., 1959, Ph.D., 1962, Yale.

LATHROP, JAMES I.

Assistant Professor of Computer Science. B.S., 1983, California State (Longbeach); M.S., 1987, California (Irvine); M.S., 1994, Ph.D., 1996, Ph.D., 1997, Iowa State.

LAUTER, NICK

Affiliate Assistant Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1995, Grinnell College; Ph.D., 2001, Minnesota.

LAVROV, DENNIS V.

Professor of Ecology, Evolution, and Organismal Biology. MMIN, 1995, Bethel College; Ph.D., 2001, Michigan.

LAW, ANDY

Clinical Assistant Professor of Veterinary Clinical Sciences. BVetMed, National Chung Hsing.

LAWARE, MARGARET R.

Professor of English. B.A., 1985, New York (Stony Brook); M.A., 1988, Ph.D., 1993, Northwestern.

LAWRENCE, JOHN D.

Emeritus Professor of Economics. B.S., 1984, M.S., 1986, Iowa State; Ph.D., 1989, Missouri.

LAWRENCE, WILLIAM

Associate Professor of Greenlee School of Journalism and Communication. B.A., 1996, M.A., 1998, Missouri (Kansas City); Ph.D., 2004, Kansas.

LAWRENCE-DILL, CAROLYN

Professor of Genetics, Development, and Cell Biology; Professor of Agronomy. Associate Dean of the College of Agriculture and Life Sciences. B.A., 1996, Hendrix College; M.S., 1997, Texas Technology; Ph.D., 2003, Georgia.

LAWSON, CHERYL

Assistant Professor of Veterinary Pathology. D.V.M., 2012, Auburn.

LAWSON, KAREN GRUBER

Emerita Associate Professor, Library. B.A., 1974, M.L.S., 1976, New York (Buffalo).

LE, WEI

Associate Professor of Computer Science. B.S., 2002, Zhejiang (China); M.S., 2005, Ph.D., 2010, Virginia.

LEANDRO, LEONOR F. S.

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1996, Universidade Tecnica De Lisboa; M.S., 1997, Nottingham (UK); Ph.D., 2002, Iowa State.

LEAVENS, GARY T.

Affiliate Professor of Computer Science. B.S., 1978, Michigan; M.S., 1980, Southern California; Ph.D., 1989, Massachusetts Institute of Technology.

LEDET, ARLO ELMER

Emeritus Professor of Veterinary Pathology. D.V.M., 1962, M.S., 1966, Ph.D., 1970, Iowa State.

LEE, BRIAN M.

Research Assistant Professor of Biomedical Sciences. B.S., 1989, William and Mary; Ph.D., 1997, Maryland.

LEE, DAE-YOUNG

Assistant Professor of Aerospace Engineering. B.S., 2001, M.S., 2001, Pusan National (South Korea); M.S., 2016, Ph.D., 2016, Michigan.

LEE, DAEYONG

Associate Professor of Human Development and Family Studies. B.A., 2003, Seoul National; M.S., 2006, Wisconsin; Ph.D., 2013, Washington.

LEE, DAH-YINN

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1958, Chen Kung; Ph.D., 1964, Iowa State.

LEE, DUCK-CHUL

Professor of Kinesiology; Professor of Food Science and Human Nutrition. B.A., 2000, Hanyang (Seoul); M.S., 2004, Ph.D., 2007, Seoul National.

LEE, JAE-HWA

Assistant Professor of Interior Design. B.F.A., 2008, Ehwa Womans (South Korea); M.S., 2012, Yonsei (South Korea); Ph.D., 2017, Florida.

LEE, JAEJIN

Adjunct Assistant Professor of Agricultural and Biosystems Engineering. Bachelor's, 2007, Ph.D., 2013, Yonsei.

LEE, JEONGEUN

Associate Professor of Human Development and Family Studies. B.S., 2000, Yonsei (South Korea); M.A., 2002, Yonsei (South Korea); M.S., 2005, Northwestern; Ph.D., 2012, Pennsylvania State.

LEE, JONGHYUN

Assistant Professor of Mechanical Engineering. B.S., 1999, Inha (South Korea); M.S., 2004, Massachusetts; Ph.D., 2007, Massachusetts.

LEE, JU-YEON

Associate Professor of Marketing. B.A., 2008, Yonsei (South Korea); B.B.A., 2008, Yonsei (South Korea); M.S., 2011, Washington; Ph.D., 2013, Washington.

LEE, KRISTOPHER

Teaching Professor of Mathematics. B.S., 2008, M.S., 2010, Ph.D., 2012, Clarkson.

LEE, MICHAEL

Emeritus Professor of Agronomy. B.S., 1981, Rutgers; M.S., 1984, Ph.D., 1986, Minnesota.

LEE, SOJUNG

Associate Professor of Apparel, Events, and Hospitality Management. B.A., 1999, B.S., 1999, Yonsei (South Korea); M.S., 2005, Ph.D., 2012, Nevada (Las Vegas).

LEE, SUNGHAN

Associate Professor of Accounting. B.B.A., 1993, M.B.A., 1999, Seoul National (Korea); M.B.A., 2001, Southern Methodist; Ph.D., 2007, Southern California.

LEE, YONG S.

Emeritus Professor of Political Science. B.A., 1966, Hankuk; M.A., 1971, California State (Sacramento); Ph.D., 1975, Colorado.

LEE, YOUNG-JIN

Professor of Chemistry. B.S., 1991, M.S., 1993, Ph.D., 1997, Seoul National (Korea).

LEE, YVONNE

Assistant Teaching Professor of Apparel, Events, and Hospitality Management. Bachelor's, Chung Nam National; Master's, MFA College for Creative Studies; Master's, Central Michigan.

LEFFERTS, ELIZABETH

Assistant Professor of Kinesiology. Bachelor's, Northern Iowa; Master's, Iowa State; Ph.D., Illinois at Chicago.

LEFFERTS, WESLEY

Assistant Professor of Kinesiology. Ph.D., Syracuse.

LEHNER, EDWARD JOSEPH

Emeritus Associate Professor of Art and Design. B.A., 1977, Mount Mercy; M.A., 1982, Iowa State.

LEIGH, PATRICIA

Emerita Professor of School of Education. B.A., 1968, Ohio State; M.Ed., 1978, Arkansas; M.S., 1988, Oklahoma; Ph.D., 1997, Iowa State.

LEMPER, CLAUDIA L.

Associate Teaching Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1991, Iowa State; M.S., 1993, Illinois.

LEMPERS, JACOBUS D. L.

Emeritus Professor of Human Development and Family Studies. B.S., 1971, Nymegen; Ph.D., 1976, Minnesota.

LENCE, SERGIO H.

Professor of Economics. B.S., 1984, B.S., 1985, Buenos Aires; M.S., 1988, Ph.D., 1991, Iowa State.

LENSSEN, ANDREW W.

Emeritus Professor of Agronomy. B.S., 1980, Cornell; M.S., 1987, Ph.D., 1989, Kansas State.

LEONARD, KATHY S.

Emerita Professor of World Languages and Cultures. B.A., 1975, California (Riverside); M.A., 1979, Santa Clara; B.A., 1983, Nevada; Ph.D., 1991, California (Davis).

LERMAN, MICHAEL

Assistant Professor of Management and Entrepreneurship. Ph.D, 2019, Tennessee.

LERSTEN, NELS R.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1958, M.S., 1960, Chicago; Ph.D., 1963, California (Berkeley).

LESAR, RICHARD ALAN

Professor of Materials Science and Engineering. B.S., 1975, Michigan; M.A., 1977, Ph.D., 1981, Harvard.

LEVIN, EVGENII M.

Adjunct Associate Professor of Physics and Astronomy. B.S., 1972, Lviv Technical (Ukraine); Ph.D., 1980, Lviv State (Ukraine); Sc.D., 1990, Institute of Materials Science (Ukraine).

LEVINE, HOWARD A.

Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.A., 1964, Minnesota; M.A., 1967, Ph.D., 1969, Cornell.

LEVIS, GRETA M.

Associate Teaching Professor of English. B.M., 1980, Wyoming; M.M., 1983, Temple; M.A., 1990, Illinois.

LEVIS, JOHN M.

Professor of English. B.S., 1978, California Polytechnic; B.A., 1986, Wyoming; M.A., 1989, Ph.D., 1996, Illinois.

LEVITAS, VALERY

Professor of Mechanical Engineering; Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. M.S., 1978, Kiev Polytechnic Institute (Russia); Ph.D., 1981, Institute for Superhard Materials (Russia); Sc.D., 1988, Institute for Electronic Machinebuilding (Russia); Eng.D., 1995, Hannover (Germany).

LEWIS, DONALD R.

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. A.B., 1971, Wilmington; M.S., 1973, Ph.D., 1977, Ohio State.

LEWIS, LESLIE C.

Emerita Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1961, M.S., 1963, Vermont; Ph.D., 1970, Iowa State.

LEYSEN, JOAN MARIE

Emerita Associate Professor, Library. B.S., 1970, M.S.L.S., 1972, Wayne State.

LI, BEIWEN

Associate Professor of Mechanical Engineering. B.S., 2012, Beihang; M.S., 2014, Iowa State; Ph.D., 2017, Purdue.

LI, BIN

Associate Professor of Industrial and Manufacturing Systems Engineering. Bachelor's, Huazhong; Master's, Chinese Academy; Master's, Ph.D., Connecticut.

LI, CHUNLIN

Assistant Professor of Statistics. Bachelor's, City University of Hong Kong; Ph.D., Minnesota.

LI, GANWU

Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1994, M.V.Sc., 1999, Nanjing Agricultural (China); Ph.D., 2005, Free (Berlin).

LI, JIAN

Associate Professor of Economics. B.A., 2006, Tsinghua (China); M.A., 2012, Ph.D., 2012, California (Berkeley).

LI, JUNQI

Assistant Professor of Chemistry. B.Sc., M.Sc., National University of Singapore; Ph.D., Illinois.

LI, LING

Adjunct Assistant Professor of Genetics, Development, and Cell Biology. B.S., 1997, M.S., 2000, Peking University Beijing (China).; Ph.D., 2006, Iowa State.

li, liyi

Assistant Professor of Computer Science. Bachelor's, Case Western Reserve; Bachelor's, Master's, Ph.D., Illinois.

LI, QI

Assistant Professor of Computer Science. B.S., 2010, Xidian (China); M.S., 2012, Illinois; Ph.D., 2017, State University of New York (Buffalo).

LI, QING

Assistant Professor of Industrial and Manufacturing Systems Engineering. B.E., 2008, Tsinghua (China); M.S., 2010, Rochester; Ph.D., 2015, Virginia Tech.

LI, SHUANG

Assistant Professor of Electrical and Computer Engineering. Ph.D., Colorado School of Mines.

LI, TONGLU

Associate Professor of World Languages and Cultures. B.A., 1992, Hebei Normal (China); M.A., 1995, Beijing Normal (China); M.A., 2005, Ph.D., 2009, Illinois.

LI, WENZHEN

Professor of Chemical and Biological Engineering. B.S., 1998, Dalian University of Technology (China); Ph.D., 2004, Dalian Institute of Chemical Physics (China).

LI, XIANRAN

Adjunct Associate Professor of Agronomy. Ph.D., 2008.

LI, YEHUA

Affiliate Associate Professor of Statistics. B.S., 2000, Tsinghua (China); M.S., 2003, Ph.D., 2006, Texas A&M.

LIAO, LEON

Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., University of Science and Technology of China; M.S., South Dakota School of Mines and Technology; Ph.D., Purdue.

LICHT, MARK

Associate Professor of Agronomy. B.S., 2000, M.S., 2003, Ph.D., 2015, Iowa State.

LICKLIDER, BARBARA L.

Emerita Professor of School of Education; University Professor. B.S., 1974, M.S., 1981, Ph.D., 1986, Iowa State.

LIDICKY, BERNARD

Professor of Mathematics. M.S., 2007, Ph.D., 2011, Charles (Prague).

LIEBERMAN, GARY M.

Emeritus Professor of Mathematics. B.A., 1974, M.S., 1974, Northwestern; Ph.D., 1979, Stanford.

LIEBMAN, MATTHEW Z.

Emeritus Professor of Agronomy. B.A., 1978, Harvard; Ph.D., 1986, California (Berkeley).

LILLIGREN, INGRID M.

Professor of Art and Visual Culture. B.F.A., 1980, Wisconsin (River Falls); M.F.A., 1986, Claremont.

LIND, LINDA IMPECOVEN

Associate Teaching Professor of School of Education. B.S., 1995, M.S., 2000, Ph.D., 2004, Iowa State.

LINDSHIELD, STACY M.

Affiliate Assistant Professor of World Languages and Cultures. B.G.S., 2002, Kansas; M.A., 2006, Ph.D., 2014, Iowa State.

LINDSLEY, NICK

Associate Professor of Practice, Architecture. B.Arch., B.S., Iowa State.

LIPPOLIS, JOHN

Affiliate Assistant Professor of Animal Science. B.S., 1988, Brigham Young; Ph.D., 1994, Pennsylvania State.

LIPSEY, HOLLY J.

Associate Teaching Professor of Kinesiology. B.A., 1993, Southwest State (Minnesota); M.S., 1995, South Dakota State.

LITCHFIELD, RUTH E.

Emerita Professor of Food Science and Human Nutrition. B.A., 1984, Northern Iowa; M.S., 1986, Kansas State; Ph.D., 2000, Iowa State.

LIU, HAILIANG

Professor of Mathematics. B.Sc., 1984, Henan Normal (China); M.S., 1988, Tsinghua (China); Ph.D., 1995, Academia Sinica (Beijing).

LIU, JIA

Assistant Professor of Computer Science. B.S., South China University of Technology; M.S., 1999, South China University of Technology; Ph.D., 2010, Virginia Tech.

liu, jundi

Assistant Professor of Industrial and Manufacturing Systems Engineering. Bachelor's, Shanghai Jiao Tong; Master's, Ph.D., Washington.

LIU, LINGLING

Adjunct Assistant Professor of Agricultural and Biosystems Engineering. Ph.D, 2018, Georgia.

LIU, LU

Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 2010, M.S., 2012, Oklahoma; Ph.D., 2017, Maryland.

LIU, PENG

Professor of Statistics. B.M.Ed., 1998, Beijing (China); M.S., 2001, Ph.D., 2006, Cornell.

LIU, TINGTING

Associate Professor of Finance. M.B.A., 2010, Brock (Canada); Ph.D., 2015, Georgia.

LIU, ZHENGYU

Adjunct Assistant Professor in Civil, Construction, and Environmental Engineering. Bachelor's, 2012, Shenyang; M.S., 2014, Ph.D., 2018, Iowa State.

LOGRASSO, THOMAS A.

Adjunct Professor of Materials Science and Engineering. B.S., 1980, M.S., 1983, Ph.D., 1986, Michigan Technological.

LOGSDON, SALLY D.

Affiliate Professor of Agronomy. B.A., 1979, Ohio; M.S., 1981, Michigan State; Ph.D., 1985, Virginia Polytechnic Institute.

LOGUE, CATHERINE M.

Affiliate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, St. Patrick's College (Ireland); Ph.D., 1996, Ulster (Ireland).

LONERGAN, ELISABETH J.

Professor of Animal Science. University Professor. B.S., 1988, Missouri; M.S., 1991, Ph.D., 1995, Iowa State.

LONERGAN, STEVEN M.

Professor of Animal Science. Morrill Professor. B.S., 1988, M.S., 1991, Iowa State; Ph.D., 1995, Nebraska.

LOOFT, TOREY

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2005, M.S., 2007, Bowling Green State; Ph.D., 2012, Iowa State.

LOPEZ, ERIC

Affiliate Professor of Air Force Aerospace Studies and Chair of the Department. Master's, 2020, Oklahoma.

LOPEZ, ROBERTO

Affiliate Associate Professor of Horticulture. B.S., 2001, New Mexico; M.S., 2003, Ph.D., 2007, Michigan State.

LOPP-SCHURTER, CHRISTINE

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., Ross University School of Veterinary Medicine.

LORD, WILLIAM

Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1961, Ph.D., 1964, Nottingham.

LORIMOR, JEFFERY C.

Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S., 1967, Iowa State; M.S., 1970, Nebraska; Ph.D., 1996, Iowa State.

LOVELAND, STEPHANIE D.

Teaching Professor of Chemical and Biological Engineering. B.S., 1998, M.S., 2002, Ph.D., 2008, Iowa State.

LOVING, CRYSTAL L.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2001, Ph.D., 2006, Iowa State.

LOWRY, KRISTIN

Affiliate Assistant Professor of Kinesiology. B.S., 1987, M.S., 2002, Pittsburgh; Ph.D., 2010, Iowa State.

LOY, DANIEL DWIGHT

Emeritus Professor of Animal Science; University Professor. B.S., 1978, Western Illinois; Ph.D., 1982, Pennsylvania State.

LOY, JOHN DUSTIN

Affiliate Assistant Professor of Animal Science. B.S., 2005, D.V.M., 2009, Ph.D., 2011, Iowa State.

LOYNACHAN, TOM E.

Emeritus Professor of Agronomy. B.S., 1968, M.S., 1972, Iowa State; Ph.D., 1975, North Carolina State.

LU, CHAOQUN

Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 2002, Inner Mongolia (China); M.S., 2004, Nanjing (China); Ph.D., 2009, Auburn.

LU, MENG

Associate Professor of Electrical and Computer Engineering; Associate Professor of Mechanical Engineering. B.S., 2002, University of Science and Technology (China); M.S., 2004, Ph.D., 2008, Illinois (Urbana-Champaign).

LUBAN, MARSHALL

Emeritus Professor of Physics and Astronomy. B.A., 1957, Yeshiva; M.Sc., 1958, Ph.D., 1962, Chicago.

LUBBERSTEDT, THOMAS

Professor of Agronomy. Ph.D., 1993, Munich (Germany).

LUCHT, TRACY L.

Associate Professor of Greenlee School of Journalism and Communication. B.A., 1997, M.S., 2001, Iowa State; Ph.D., 2007, Maryland.

LUECKE, GLENN R.

Emeritus Professor of Mathematics; Emeritus Professor of Electrical and Computer Engineering. B.S., 1966, Michigan State; Ph.D., 1970, California Institute of Technology.

LUO, SONGTING

Associate Professor of Mathematics. B.S., 2004, Science and Technology of China; M.S., 2006, Ph.D., 2009, California (Irvine).

LUTZ, JACK HAROLD

Professor of Computer Science; Professor of Mathematics. B.G.S., 1976, M.A., 1979, M.S., 1981, Kansas; Ph.D., 1987, California Institute of Technology.

LUTZ, ROBYN R.

Professor of Computer Science. B.A., 1974, M.A., 1976, Ph.D., 1980, Kansas; M.S., 1990, Iowa State.

LUVAGA, EBBY S.

Teaching Professor of Economics. B.A., 1988, Berea College; M.A., 1990, Ph.D., 1996, Ohio.

LUZ, ANA

Adjunct Associate Professor of Industrial Design. Ph.D., 2008, University College London.

LUZE, GAYLE JOANNE

Emerita Associate Professor of Human Development and Family Studies. B.S., 1982, Iowa State; M.A., 1984, Michigan State; Ph.D., 1997, Iowa State.

LYN, GARY

Assistant Professor of Economics. B.Sc., 2004, West Indies (Jamaica); M.Sc., 2006, West Indies (Jamaica); Ph.D., 2012, Pennsylvania State.

LYNCH, DAVID

Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1954, Rensselaer; M.S., 1955, Ph.D., 1958, Illinois.

LYONS, MICHAEL

Teaching Professor of Biomedical Sciences. B.A., Simpson, M.A., Drake; Ph.D., 2006, Iowa.

LYTE, MARK

Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1976, Fairleigh Dickinson (New Jersey); M.S., 1979, Ph.D., 1983, Weizmann Institute of Science (Israel).

M**MA, PULONG**

Assistant Professor of Statistics. Ph.D., Cincinnati.

MABRY, JOHN W.

Emeritus Professor of Animal Science. B.S., 1972, Oklahoma State; M.S., 1974, Ph.D., 1977, Iowa State.

MACDONALD, RUTH SEAMAN

Professor of Food Science and Human Nutrition; Associate Dean of the College of Agriculture and Life Sciences. B.S., 1979, Western Maryland College; M.S., 1981, Ph.D., 1985, Minnesota.

MACINTOSH, GUSTAVO

Professor of Biochemistry, Biophysics, and Molecular Biology. Ph.D., 1997, Buenos Aires (Argentina).

MACKENZIE, CAMERON

Associate Professor of Industrial and Manufacturing Systems Engineering. B.A., 2001, B.S., 2001, Indiana-Purdue; M.A., 2003, George Washington; M.S., 2009, Stanford; Ph.D., 2012, Oklahoma.

MACKIEWICZ, JO MARIE

Professor of English. B.S., 1995, Wisconsin (Superior); M.A., 1997, Minnesota (Duluth); Ph.D., 2001, Georgetown.

MACRI, MIKE

Associate Professor of Practice, Community and Regional Planning. Bachelor's, Iowa; Master's, Iowa State.

MADDEN, BEVERLY S.

Emerita Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1970, Iowa State.

MADDUX, ROGER D.

Emeritus Professor of Mathematics; Emeritus Professor of Computer Science. B.A., 1969, Pomona; Ph.D., 1978, California (Berkeley).

MADISON, KENNETH G.

Emeritus Assistant Professor of History. A.B., 1962, A.M., 1963, Ph.D., 1968, Illinois.

MADISON, OLIVIA MARIE

Emerita Professor, Library; Emerita Dean, Library. B.S., 1972, Iowa State; M.A., 1975, Missouri.

MADON, STEPHANIE

Emerita Professor of Psychology. B.A., 1987, Rutgers; M.Ed., 1990, Utah; Ph.D., 1998, Rutgers.

MADSON, KATHERINE

Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 2013, M.Eng., 2018, Ph.D., 2020, Florida.

MAGSTADT, DREW

Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2005, North Dakota State; D.V.M., 2011, Iowa State.

MAHAMA, ANTHONY

Assistant Teaching Professor of Agronomy. Ph.D., 1998, Iowa State.

MAHANNA, BILL

Affiliate Associate Professor of Animal Science. B.S., Cornell; Ph.D., , M.S., , Wisconsin.

maher, kimberly

Assistant Teaching Professor of Graphic Design. Master's Iowa.

MAIER, DIRK

Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. A.S., 1985, Grand Rapids Junior College; B.S., 1987, M.S., 1988, Ph.D., 1992, Michigan State.

MAIN, RODGER GARY

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1991, D.V.M., 1996, Iowa State; Ph.D., 2005, Kansas State.

MAINENTI, MARTA

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2011, Padua.

MAITRA, RANJAN

Professor of Statistics. B.S., 1990, M.S., 1992, Indian Statistical Institute; Ph.D., 1996, Washington.

MALDONADO-BAUTISTA, ILEANA

Assistant Professor of Management and Entrepreneurship. Bachelor's, UPAEP; Bachelor's, Master's, BUAP; Master's, Tecnológico de Monterrey; Master's, Oklahoma State; Ph.D., Baylor.

MALLAPRAGADA, SURYA

Professor of Chemical and Biological Engineering; Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering; Associate Vice President of Research. B.S., 1993, Indian Institute of Technology; Ph.D., 1996, Purdue.

MALLARINO, ANTONIO P.

Professor of Agronomy. B.S., 1968, Uruguay; M.S., 1981, Ph.D., 1988, Iowa State.

MALONE, ROB W.

Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1986, West Virginia Wesleyan; M.S., 1992, Ph.D., 1996, Kentucky.

MALONE, WILLIAM

Professor of Practice, Management and Entrepreneurship. B.B.A, Iowa State; M.B.A., Drake.

MALVEN, FREDERIC C.

Emeritus Associate Professor of Interior Design. B.S., 1969, M.A., 1970, Missouri; Ph.D., 1981, Wisconsin.

MANEY, ARDITH LOUISE

Emerita Professor of Political Science; Emerita Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.

MANKINS, PAUL

Professor of Practice, Architecture. Bachelor's, Iowa State; Master's, Yale.

MANSBACH, RICHARD W.

Emeritus Professor of Political Science. B.A., 1964, Swarthmore; Ph.D., 1967, Oxford.

MANSELL, THOMAS

Associate Professor of Chemical and Biological Engineering. B.S., 2004, M.S.E., 2005, Johns Hopkins; Ph.D., 2011, Cornell.

MANU, ANDREW

Emeritus Professor of Agronomy. B.S., 1975, Ghana; M.S., 1979, Ph.D., 1984, Iowa State.

MANZ, CARLY

Associate Teaching Professor of Genetics, Development, and Cell Biology. B.S., 2008, Michigan, Ph.D., 2015, Florida.

MAO, HUIFANG

Professor of Marketing. B.S., 1998 Fudan (China); Ph.D., 2006, Indiana.

MARASINGHE, MERVYN

Emeritus Associate Professor of Statistics. B.S., 1971, Sri Lanka; M.S., 1977, Ph.D., 1980, Kansas State.

MARCKETTI, SARA BETH

Professor of Apparel, Events, and Hospitality Management; Morrill Professor; Assistant Provost; Executive Director of Center for Excellence in Learning and Teaching. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCUS, ALAN I.

Emeritus Professor of History. B.A., 1972, Wisconsin; M.A., 1975, Ph.D., 1979, Cincinnati.

MARGRETT, JENNIFER

Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.A., 1992, Minnesota; M.A., 1995, Dayton; Ph.D., 1999, Wayne State.

MARINER, FRANCIS R.

Emerita Associate Professor of World Languages and Cultures. A.B., 1974, Bowdoin; M.A., 1977, Ph.D., 1982, Johns Hopkins; Ph.D., 1986, Paris.

MARINKO, RITA ANN

Emerita Associate Professor, Library. B.A., 1980, California (San Diego); M.S., 1990, Texas; M.S., 1998, Minnesota State.

MARIS, PIETER

Research Associate Professor of Physics and Astronomy. M.Sc., 1989, Ph.D., 1993, Groningen (Netherlands).

MARLEY, STEPHEN J.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, M.S., 1960, Ph.D., 1965, Iowa State.

MARPLE, DENNIS N.

Emeritus Professor of Animal Science. B.S., 1967, M.S., 1968, Iowa State; Ph.D., 1971, Purdue.

MARQUART, DEBRA K.

Professor of English; Distinguished Professor in Liberal Arts and Sciences. BSW, 1984, M.L.A., 1990, Moorhead State; M.A., 1993, Iowa State.

MARQUIS, GRACE S.

Affiliate Associate Professor of Food Science and Human Nutrition. B.A., 1980, Indiana; M.S., 1984, Michigan State; Ph.D., 1996, Cornell.

MARSEE, MONICA

Associate Professor of Psychology. B.A., 1999, Alabama; M.S., 2003, Ph.D., 2005, New Orleans.

MARSHALL, JOANNE

Professor of School of Education. B.A., 1990, Illinois; M.A.T., 1991, Chicago; M.S., 1995, Illinois; M.Ed., 1996, Ed.D., 2000, Harvard.

MARTENS, BOBBY J.

Associate Professor of Economics. B.S., 1996, M.S., 1999, North Dakota State; Ph.D., 2006, Purdue.

MARTIN, BETH ANN

Teaching Professor of World Languages and Cultures. B.A., 1979, Wartburg; M.A., 1985, Pennsylvania State.

MARTIN, CHRISTOPHER J.

Emeritus Professor of Art and Visual Culture. B.F.A., 1990, Iowa State; M.F.A., 1994, Rhode Island School of Design.

MARTIN, MICHAEL

Associate Professor of Landscape Architecture. B.L.A., 1982, Georgia; M.L.A., 1995, Oregon.

MARTIN, MICHAEL

Associate Professor of Agricultural Education and Studies. B.S., 2005, B.S., 2005, M.S., 2007, Illinois at Urbana-Champaign; Ph.D., 2013, Missouri.

MARTIN, PAUL ALBERT

Emeritus Associate Professor of Biomedical Sciences. B.S., 1968, D.V.M., 1970, M.S., 1971, Ph.D., 1976, Illinois.

MARTIN, PETER

Professor of Human Development and Family Studies; University Professor. B.A., 1979, Wartburg; Ph.D., 1985, Pennsylvania State.

MARTIN, PHILIP EDWARD

Emeritus Professor of Kinesiology. B.S., 1977, M.S., 1979, Illinois; Ph.D., 1983, Pennsylvania State.

MARTIN, RICHARD J.

Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.V.Sc., 1972, Ph.D., 1977, Liverpool (UK); D.Sc., 1997, Edinburgh (UK).

MARTIN, ROSE

Emerita Senior Lecturer in Food Science and Human Nutrition. B.S., 1978, Illinois; M.S., 1983, Pennsylvania State.

MARTIN, RYAN

Professor of Mathematics. B.Sc., 1995, Delaware; Ph.D., 2000, Rutgers.

MARTIN, STEVE WARTHEN

Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering; University Professor. B.A., 1980, Capital; Ph.D., 1986, Purdue.

MARTINCIC, MIRIAM

Assistant Teaching Professor of Graphic Design. B.F.A., 1997, Columbus College of Art and Design; M.F.A., 2000, Ohio.

MARTINI, EMILY

Assistant Teaching Professor of Kinesiology. Bachelor's, Master's, Iowa State.

MARTINIC-JERCIC, BORIVOJ

Associate Professor of Music and Theatre. B.Mus., 1982, M.Mus., 1984, Michigan.

MARTIN-UTRERA, ALBERTO

Assistant Professor of Finance. Ph.D., Universidad Carlos III de Madrid.

MARZOLF, MICAH

Assistant Professor of Supply Chain Management. Bachelor's, Central Michigan.

MASAMBUKA-KANCHEWA, FALLYS

Assistant Professor of Agricultural Education and Studies. B.S., 2009, Bunda College of Agriculture; M.S., 2013, Purdue; Ph.D., 2019, The Ohio State.

MASINDE, DOROTHY M.

Teaching Professor of Horticulture. B.S., 1993, Egerton; M.P.S., 1996, Cornell; Ph.D., 2009, Nairobi.

MATHEWS, ELEANOR R.

Emerita Associate Professor, Library. B.A., 1958, Wheaton (Massachusetts); M.A., 1975, Iowa.

MATHEWS, JEROLD C.

Emeritus Professor of Mathematics. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

MATHISON, MARGARET

Associate Teaching Professor of Mechanical Engineering. B.S., 2005, Iowa State; Ph.D., 2011, Purdue.

MATIBAG, EUGENIO D.

Emeritus Professor of World Languages and Cultures. B.A., 1977, Redlands; M.A., 1980, Ph.D., 1986, California (Irvine).

MATTHIES, BARBARA F.

Emerita Associate Professor of English. A.B., 1961, Oberlin; M.A., 1967, Ohio; Ph.D., 1983, Illinois.

MATTILA, JOHN PETER

Emeritus Professor of Economics. B.A., 1965, Michigan; Ph.D., 1969, Wisconsin.

MAUDLIN, LINDSAY

Assistant Teaching Professor of Geological and Atmospheric Sciences. B.S., 2012, Oklahoma; M.S., 2014, Arizona; Ph.D., 2018, North Carolina State.

MAURY, WENDY

Affiliate Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1976, Duke; M.S., 1980, North Carolina State; Ph.D., 1988, Virginia.

MAVANGIRA, VENGAI

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. BVSc; PhD; Diplomate, ACVIM.

MAVES, JOHN H.

Emeritus Assistant Professor of Architecture. B.Arch., 1968, Notre Dame; M.Arch., 1972, Minnesota.

MAXWELL, GREGORY M.

Emeritus Associate Professor of Mechanical Engineering. B.S., 1973, M.S., 1977, Ph.D., 1984, Purdue.

MAYFIELD, JOHN ERIC

Emeritus Professor of Genetics, Development, and Cell Biology. B.A., 1963, Wooster; M.S., 1965, Ph.D., 1968, Pittsburgh.

MAYHOOK, DANE

Associate Teaching Professor of Mathematics. B.S., 2008, Ramapo College (New Jersey); Ph.D., 2016, Florida State.

MAYORDOMO, ELVIRA

Affiliate Associate Professor of Computer Science. B.S., 1990, Zaragoza (Spain); Ph.D., 1994, Polytechnic (Spain).

MAZUR, ROBERT EDWARD

Emeritus Professor of Sociology and Criminal Justice; B.S., 1976, Iowa; M.A., 1979, Ph.D., 1982, Brown.

MBA-WRIGHT, MARK

Associate Professor of Mechanical Engineering. M.S., Ph.D., 2011, Iowa State.

McCALLEY, JAMES D.

Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1986, Ph.D., 1992, Georgia Institute of Technology.

McCANDLESS, CHARLES E.

Emeritus Professor of School of Education. B.S., 1956, M.Ed., 1965, Texas A&M; Ed.D., 1966, North Texas.

McCARTHY, WILLIAM P.

Emeritus Professor of English. B.A., 1964, Hobart; M.A., 1969, Ph.D., 1974, Rutgers.

McCARVILLE, KATHERINE

Affiliate Assistant Professor of Geological and Atmospheric Sciences. B.S., 1978, California (Los Angeles); M.Sc., 1985, Colorado School of Mines; Ph.D., 2004, South Dakota School of Mines & Technology.

McCLAIN, RITANNE

Assistant Teaching Professor of Apparel, Events, and Hospitality Management. B.B.A., 2004, Graceland; M.B.A., 2007, Upper Iowa.

McCLELLAND, JOHN

Adjunct Associate Professor of Mechanical Engineering. B.S., 1965, Dickinson (North Dakota), Ph.D., 1976, Iowa State.

McCLUNG, JENNIFER ANN

Associate Teaching Professor of English. B.A., 2003, California State (Long Beach); M.F.A., 2008, Chatham.

McCORMICK, JAMES M.

Emeritus Professor of Political Science. B.A., 1968, Aquinas; M.A., 1969, Ph.D., 1973, Michigan State.

McCORMICK, THERESA M.

Emerita Professor of School of Education. B.S., 1961, Oklahoma State; M.A., 1967, Ed.D., 1981, West Virginia.

McCULLOUGH, JASON G.

Associate Professor of Mathematics. B.S., 2003, Michigan State; M.S., 2008, Ph.D., 2009, Illinois.

McDANIEL, MARSHALL

Associate Professor of Agronomy. B.S., 2004, Oklahoma; M.S., 2007, Illinois; Ph.D., 2011, Pennsylvania State.

McDONNELL, LAWRENCE

Associate Professor of History. B.A., 1979, Western Ontario (Canada); M.A., 1981, Johns Hopkins; Ph.D., 2014, Illinois.

McELROY, JAMES C.

Emeritus Professor of Management and Entrepreneurship; University Professor. B.S., 1971, Jamestown; M.B.A., 1972, South Dakota; Ph.D., 1979, Oklahoma State.

McGEE, DENIS C.

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1964, Ph.D., 1967, Edinburgh.

McGEE, THOMAS D.

Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Veterinary Clinical Sciences. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.

mcgehee, ryan

Assistant Professor of Agricultural and Biosystems Engineering. Ph.D., Purdue.

McGILL, JODI

Associate Professor of Veterinary Microbiology and Preventive Medicine. Assistant Dean of the College of Veterinary Medicine. B.S., 2005, Iowa State; M.S., 2007, Ph.D., 2010, Iowa.

McGRAIL, MAURA

Associate Professor of Genetics, Development, and Cell Biology. B.S., 1988, Massachusetts; Ph.D., 1996, Minnesota.

McJIMSEY, GEORGE T.

Emeritus Professor of History. B.A., 1958, Grinnell; M.A., 1959, Columbia; Ph.D., 1968, Wisconsin.

McKENNY, RACHEL

Associate Teaching Professor of English. B.A., 2009, Creighton; M.A., 2012, Iowa State.

McKEOWN, DONALD I.

Emeritus Professor of Architecture. B.S., 1947, Illinois; M.S., 1952, Iowa State.

McKILLIGAN, SEDA

Professor of Industrial Design; Associate Dean of the College of Design. B.I.D., 2001, Middle East Technical (Turkey); M.F.A., 2004, Ph.D., 2010, Michigan.

McKINNEY, LELAND

Affiliate Associate Professor of Agricultural and Biosystems Engineering. B.S., 1998, M.S., 2000, Kansas State; Ph.D., 2005, Oklahoma State.

McMILLAN, SARA

Professor of Agricultural and Biosystems Engineering. Bachelor's, Master's, Iowa; Ph.D., North Carolina.

McMULLEN, CATHERINE MABRY

Adjunct Associate Professor of Natural Resource Ecology and Management. B.A., 1981, Drake; M.T., 1990, Harvard; Ph.D., 2000, Iowa State.

McNAULL, ROBERT

Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2008, M.S., 2010, Ph.D., 2016, Iowa State.

McNEILL, ELIZABETH

Assistant Professor of Food Science and Human Nutrition. Ph.D., 2009, Wisconsin (Madison).

McNICHOLL, TIMOTHY

Professor of Mathematics; Professor of Computer Science. B.A., 1991, Ph.D., 1995, George Washington.

McQUEENEY, ROBERT J.

Professor of Physics and Astronomy. B.S., 1991, Connecticut; Ph.D., 1996, Pennsylvania.

McQUINN, ERIN

Clinical Assistant Professor of Veterinary Clinical Sciences. Bachelor's, Vassar; DVM, Colorado State.

MEDERIOS-DEPAULA, GUILHERME

Assistant Professor of Economics. B.S., 1993, Pontifical Catholic (Brazil); M.B.A., 2002, North Carolina; M.E.Sc., 2011, M.Phil., 2014, Ph.D., 2017, Yale.

MEEKER, WILLIAM Q. JR.

Emeritus Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1972, Clarkson; M.S., 1973, Ph.D., 1975, Union.

MEHROTRA, NEHA

Associate Teaching Professor of Community and Regional Planning. B.Arch., 1999, TVB School of Habitat Studies; M.C.P., 2001, Auburn.

MEIER, MARY E.

Clinical Associate Professor of Kinesiology. B.S., 1992, Nebraska; M.S., 1996, Ed.D., 2017, Iowa State.

MEILLEUR, MAURICE

Assistant Professor of Graphic Design. Ph.D, 2004, Indiana - Bloomington.

MEIRA, ENOCH

Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., Master's, Ph.D., Faculdade de Medicina Veterinaria e Zootecnia da Universidade de Sao Paulo, Sao Paulo, SP, Brazil.

MEISSNER, CHRISTIAN

Professor of Psychology. B.A., 1996, Pfeiffer; M.S., 1999, Ph.D., 2001, Florida State.

MELBY, JANET NIEUWSMA

Adjunct Professor of Human Development and Family Studies. BS/BA, 1972, M.S., 1974, North Dakota State; Ph.D., 1988, Ph.D., 1989, Iowa State.

MELLATA, MELHA

Associate Professor of Food Science and Human Nutrition. B.S., 1989, M.S., 1998, Mouloud Mammeri (Algeria); Ph.D., 2004, Montreal (Canada).

MELSA, JAMES L.

Emeritus Professor of Electrical and Computer Engineering; Emeritus Dean of the College of Engineering. B.S., 1960, Iowa State; M.S., 1962, Ph.D., 1965, Arizona.

MELVIN, STEWART W.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1964, M.S., 1967, Ph.D., 1970, Iowa State.

MENDELSON, MICHAEL T.

Emeritus Professor of English; University Professor. B.A., 1967, California (Irvine); M.A., 1969, California State (San Francisco); Ph.D., 1981, Washington State.

MENDONCA, AUBREY F.

Associate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1987, Ph.D., 1992, Iowa State.

MENEFEE, CHARISSA

Professor of English. B.A., 1983, M.A., 1985, West Texas State. Ph.D., 1992, Southern Illinois.

MENZEL, BRUCE WILLARD

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1964, Wisconsin; M.S., 1966, Marquette; Ph.D., 1970, Cornell.

MERCIER, CLETUS R.

Emeritus Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1957, M.S., 1973, Iowa State; Ph.D., 1985, Iowa.

MERCIER, JOYCE

Emerita Professor of Human Development and Family Studies. B.S., 1971, M.S., 1973, Ph.D., 1980, Iowa State.

MERKLE, SCOTT

Professor of Practice in Mechanical Engineering. B.S., 1982, Iowa State; M.B.A., 2004, Iowa.

MERKLEY, DAVID F.

Emeritus Professor of Veterinary Clinical Sciences. B.A., 1967, South Dakota; D.V.M., 1971, Iowa State; M.S., 1974, Michigan State.

MESROPOVA, OLGA M.

Associate Professor of World Languages and Cultures. B.A., 1996, M.A., 1996, Ph.D., 2000, St. Petersburg Herten.

MESSENGER, JOSEPH C.

Emeritus Professor of Music and Theatre; Emeritus Professor of School of Education. B.S.E., 1961, Bowling Green; M.A., 1967, D.M.A., 1971, Iowa.

MESSERSCHMIDT, CAITLIN

Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2013, Ohio State.

MEYER, JACOB D.

Associate Professor of Kinesiology. B.A., 2008, St. Olaf; M.S., 2011, Wisconsin; Ph.D., 2015, Wisconsin.

MEYER, JOHN

Associate Professor of Practice, Management and Entrepreneurship. Bachelor's, Clarkson; Master's, Bellvue; Master's, Ph.D., Doane.

MEYER, NATALIE

Associate Teaching Professor of English. B.A., 2006, M.A., 2008, Iowa State.

MEYER, TERENCE

Affiliate Associate Professor of Mechanical Engineering. B.M.E., 1993, Minnesota; M.S., 1997, Ph.D., 2001, Illinois.

MEYERS, RACHEL LEE

Associate Professor of World Languages and Cultures. B.A., 1999, Yale; Ph.D., 2006, Duke.

MEYERS, WILLIAM H.

Emeritus Professor of Economics. B.A., 1963, Goshen; M.S., 1972, Philippines; Ph.D., 1977, Minnesota.

MICHAEL, ALYONA

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2010, D.V.M., 2014, Ph.D., 2018, Iowa State.

MICHAEL, JAMES B.

Associate Professor of Mechanical Engineering. B.S., 2007, Maryland; M.A., 2009, Ph.D., 2012, Princeton.

MICICH, ANITA

Associate Professor of Practice in School of Education. B.M.E., 1970, M.S.E., 1979, Drake; Ed.D., 1993, Vanderbilt.

MICKELSON, STEVEN K.

Professor of Agricultural and Biosystems Engineering; Special Advisor for Student Information Systems. B.S., 1982, M.S., 1984, Ph.D., 1991, Iowa State.

MIGUEZ, FERNANDO E.

Professor of Agronomy. B.S., 2001, Buenos Aires (Argentina); M.S., 2004, Ph.D., 2007, Illinois.

MILES, KRISTINA G.

Associate Professor of Veterinary Clinical Sciences. B.S., 1981, D.V.M., 1983, Texas A&M; M.S., 1987, Missouri.

MILLER, BRADLEY A.

Associate Professor of Agronomy. B.S., 2000, M.S., 2006, Iowa State; Ph.D., 2013, Michigan State.

MILLER, CATHY

Professor of Veterinary Microbiology and Preventive Medicine and Chair of the Department. B.A., 1993, Ph.D., 2001, Missouri.

MILLER, GERALD AREY

Emeritus Professor of Agronomy; Emeritus Associate Dean of the College of Agriculture and Life Sciences. B.S., 1965, Virginia Polytechnic Institute; M.S., 1971, Ph.D., 1974, Iowa State.

MILLER, GORDON J. JR.

Professor of Chemistry; University Professor. B.S., 1982, Rochester; Ph.D., 1986, Chicago.

MILLER, GREGORY SCOTT

Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1987, M.Ed., 1990, Auburn; Ph.D., 1992, Ohio State.

MILLER, LESLIE L.

Emerita Professor of Computer Science. B.A., 1967, M.A., 1974, South Dakota; Ph.D., 1980, Southern Methodist.

MILLER, MARTIN G.

Emeritus Professor of Sociology and Criminal Justice. B.A., 1960, Coe; M.S., 1963, Ph.D., 1971, Michigan State.

MILLER, MICHAEL C.

Adjunct Assistant Professor of Landscape Architecture. B.A., 1992, Kansas State; M.L.A., 1995, Iowa State.

MILLER, NANCY LYNN M.

Emerita Associate Professor of Human Development and Family Studies. B.S., 1962, M.S., 1969, Ph.D., 1972, Iowa State.

MILLER, RICHARD KEITH

Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1961, Iowa State; M.S., 1962, Ph.D., 1964, Wisconsin.

MILLER, WILLIAM WADE

Emeritus Professor of Agricultural Education and Studies; Emeritus Professor of School of Education. B.S., 1974, Texas A&M; M.Ed., 1976, Stephen F. Austin; Ph.D., 1980, Texas A&M.

MILLER, WYATT A.

Professor of Plant Pathology, Entomology, and Microbiology; Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1978, Carleton; Ph.D., 1984, Wisconsin.

MILLMAN, SUZANNE THERESA

Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Biomedical Sciences. B.Sc., 1990, Ph.D., 2000, Guelph (Canada).

MIN, KYUNG J.

Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1984, California (Los Angeles); M.S., 1985, Ph.D., 1990, California (Berkeley).

MINA, MANI

Associate Professor of Industrial Design; Associate Professor of Electrical and Computer Engineering. B.S., 1982, M.S., 1985, M.S., 1987, Ph.D., 1989, Iowa State.

MINDES, SAMUEL

Adjunct Assistant Professor of Sociology and Criminal Justice. Bachelor's, Calvin; Master's, Ph.D., Michigan State.

MINER, ANDREW S.

Associate Professor of Computer Science. B.S., 1993, Randolph-Macon College; M.S., 1995, Ph.D., 2000, College of William and Mary.

MINER, NATHAN

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. Master's, 2021, Iowa State.

MINION, FRANK C.

Emeritus Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1972, M.S., 1977, Memphis; Ph.D., 1983, Alabama (Birmingham).

MINNER, DAVID D.

Emeritus Professor of Horticulture. B.S., 1978, Delaware; M.S., 1981, Maryland; Ph.D., 1984, Colorado State.

MIRANOWSKI, JOHN A.

Emeritus Professor of Economics. B.S., 1966, Iowa State; A.M., 1969, Ph.D., 1975, Harvard.

MIRKA, GARY A.

Professor of Industrial and Manufacturing Systems Engineering; Professor of Agricultural and Biosystems Engineering; University Professor. B.A., 1986, M.S., 1988, Ph.D., 1992, Ohio State.

MISHRA, ABHAY

Associate Professor of Information Systems and Business Analytics. B.S., 1993, National Institute of Technology (India); M.B.A., 1996, Xavier Labor Relations Institute (India); Ph.D., 2003, Texas.

MISRA, MANJIT KUMAR

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1971, Orissa; M.S., 1973, Ph.D., 1978, Missouri.

MITRA, AMBAR K.

Emeritus Associate Professor of Aerospace Engineering. B.S., 1969, M.S., 1972, Calcutta; Ph.D., 1979, Indian Institute of Science.

MITRA, SIMANTA

Teaching Professor of Computer Science. B.E., 1987, Calcutta (India); M.S., 1991, Ph.D., 1997, Iowa State.

MO, YUNJEONG

Assistant Professor of Civil, Construction, and Environmental Engineering. Ph.D, Michigan State.

MOERGEN, KRISTIE

Assistant Professor of Management and Entrepreneurship. Bachelor's, John Brown; Master's, Cornerstone; Ph.D., Arkansas.

MOHAMMADY, MEISAM

Assistant Professor of Computer Science. Ph.D., Concordia.

MOLGAARD, VIRGINIA K.

Emerita Associate Professor of Human Development and Family Studies. B.A., 1961, St. Olaf, M.S., 1981, Ph.D., 1985, Iowa State.

MOLONEY, KIRK A.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.A., 1975, Pomona; M.S., 1982, Vermont; Ph.D., 1986, Duke.

MONROE, JOHN W.

Professor of History. A.B., 1995, Princeton; Ph.D., 2002, Yale.

MONTABON, FRANK L.

Professor of Supply Chain Management. B.B.A., 1991, Notre Dame; Ph.D., 2001, Michigan State.

MONTAZAMI, REZA

Associate Professor of Mechanical Engineering. B.S., 2007, M.S., 2009, Virginia Tech.

MOOK, MARGARET SUSAN

Emerita Associate Professor of World Languages and Cultures. B.A., 1983, Wooster; M.A., 1988, Ph.D., 1993, Minnesota.

MOON, CHRIS

Associate Teaching Professor of Accounting. Associate's, DMACC; Bachelor's, Master's, 2021, Iowa State; J.D., Drake.

MOORE, EMILY L.

Emerita Professor of School of Education. B.S., 1968, George Williams; M.A.E., 1972, Washington (St. Louis); Ed.D., 1980, South Carolina.

MOORE, KENNETH J.

Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1979, Arizona State; M.S., 1981, Ph.D., 1983, Purdue.

MOORE, PETER L.

Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1998, Carleton College; M.S., 2002, Ph.D., 2009, Iowa State.

MOORMAN, THOMAS B.

Affiliate Associate Professor of Agronomy. B.S., 1976, M.S., 1978, Colorado State; Ph.D., 1983, Washington State.

MOOTHEDATH, SHANA

Assistant Professor of Electrical and Computer Engineering. B. Tech., 2011, M. Tech., 2014, Kerala; Ph.D., 2018, Indian Institute of Technology Bombay.

MORGAN, EMILY KATHRYN

Associate Professor of Art and Visual Culture. B.A., 2000, Tufts; B.F.A., 2000, School of the Museum of Fine Art; M.A., 2006, Ph.D., 2012, Arizona.

MORRICAL, DANIEL GENE

Emeritus Professor of Animal Science. B.S., 1977, Purdue; M.S., 1982, Ph.D., 1984, New Mexico State.

MORRIS, CHERYL

Associate Professor of Animal Science. M.S., Iowa State; Ph.D., 2005, Illinois Urbana-Champaign.

MORRIS, DILYS E.

Emerita Professor, Library; B.A., 1964, M.S., 1965, Illinois.

MORRIS, JOSEPH E.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1979, Iowa State; M.S., 1982, Texas A&M; Ph.D., 1988, Mississippi State.

MORRIS, MAX D.

Emeritus Professor of Statistics; Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1973, Oklahoma State; M.S., 1974, Ph.D., 1977, Virginia Polytechnic.

MORROW, PAULA C.

Emerita Professor of Management and Entrepreneurship; University Professor. B.A., 1973, Maryland; M.S., 1975, Virginia Polytechnic Institute; Ph.D., 1978, Iowa State.

MORTON, LOIS WRIGHT

Emerita Professor of Sociology and Criminal Justice. B.S., 1972, Bowling Green; M.S., 1977, Syracuse; Ph.D., 1998, Cornell.

MORTON, MARK

Clinical Assistant Professor of Veterinary Pathology. D.V.M., 2013, Kansas State.

MOSCHINI, GIANCARLO

Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1978, Catholic (Italy); Ph.D., 1986, Guelph.

MOSHER, GRETCHEN A.

Associate Professor of Agricultural and Biosystems Engineering. B.S., 1996, M.S., 2002, Ph.D., 2011, Iowa State.

MOSS, KIMBERLY

Associate Professor of Art and Visual Culture. B.F.A., 1996, St. Olaf; M.F.A., 2001, Michigan.

MOSS, WALTER

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 2004, New York (Stony Brook); M.Sc., 2007, Ph.D., 2012, Rochester.

MOST, CORINNA

Adjunct Assistant Professor of Ecology, Evolution, and Organismal Biology. B.Sc., 2009, University College London; M.A., 2012, California (San Diego).

MOTON, TONY

Assistant Teaching Professor of Greenlee School of Journalism and Communication. Bachelor's, Augustana; Master's, Nebraska-Lincoln; Master's, California-Los Angeles.

MU, AILI

Emeritus Professor of World Languages and Cultures. B.A., 1982, M.A., 1984, Shandong (China); Ph.D., 1996, New York (Stony Brook); M.S., 2001, Marist College.

MUECKE, MICKAEL W.

Associate Professor of Architecture. B.A., 1989, M.Arch., 1991, Florida; Ph.D., 1999, Princeton.

MUELLER, BRANDON

Associate Professor of Management and Entrepreneurship. B.S., 2011, Luther; M.B.A., 2005, Iowa; Ph.D., 2012, Iowa.

MUELLER, DAREN S.

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1996, Wisconsin; M.S., 1999, Ph.D., 2001, Illinois.

MUENCH, JOSEPH L.

Professor of Art and Visual Culture. B.A., 1984, Iowa State; M.F.A., 1987, Washington (St. Louis).

MUKERJEA, RABINDRA

Emeritus Professor of Architecture. B.Arch., 1966, Indian Institute of Technology; M.A.Sc., 1969, Waterloo.

MUKHERJEE, SAIKAT

Assistant Professor of Mechanical Engineering. Bachelor's, Jadavpur; Ph.D., Virginia Tech.

MUKHERJEE, TUHIN

Assistant Professor of Mechanical Engineering. Bachelor's, West Bengal; Master's, Indian Institute of Technology; Ph.D., The Pennsylvania State.

MULET, SUZANNE L.

Adjunct Assistant Professor of Naval Science. B.S., 2002, Ohio; M.S., 2009, Bowling Green State.

MULHERIN, BRENDA L.

Clinical Professor of Veterinary Clinical Sciences. B.S., 1998, D.V.M., 2002, Iowa State.

MULLEN, ELLEN JO

Emerita Teaching Professor of Management and Entrepreneurship. B.S., 1987, M.S., 1990, Iowa State; Ph.D., 1994, Minnesota.

MULLEN, RUSSELL E.

Emeritus Professor of Agronomy. B.S., 1971, M.S.Ed., 1972, Northwest Missouri; Ph.D., 1975, Purdue.

MUNKVOLD, GARY P.

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1986, M.S., 1988, Illinois; Ph.D., 1992, California (Davis).

MUNSON, BRUCE R.

Emeritus Professor of Aerospace Engineering. Head 's Coach B.S., 1962, M.S., 1964, Purdue; Ph.D., 1970, Minnesota.

MURAKAMI, KEIKO

Assistant Professor of Veterinary Clinical Sciences. Master's, Purdue; Master's, Auburn; D.V.M., Rakuno Gakuen.

MURPHY, AMY

Assistant Teaching Professor of English. B.A., 1997, Iowa; M.A., 2000, Cleveland State.

MURPHY, CASON

Assistant Professor of Music and Theatre. A.A., 2006, Los Angeles City College; B.A., 2010, California (Los Angeles); M.F.A., 2016, Baylor.

MURPHY, PATRICIA ANNE

Emerita Professor of Food Science and Human Nutrition; University Professor. B.S., 1973, M.S., 1975, California (Davis); Ph.D., 1979, Michigan State.

MURPHY, ROGER P.

Emeritus Associate Professor of Accounting. B.S., 1966, M.S., 1969, Colorado State.

MUSSER, MARGARET

Associate Professor of Veterinary Clinical Sciences. B.A., 2005, Colby; D.V.M., 2010, Illinois.

MUTCHMOR, JOHN A.

Emeritus Professor of Ecology, Evolution, and Organismal Biology; Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.Sc., 1950, Alberta; M.S., 1955, Ph.D., 1961, Minnesota.

MUTHS, ERIN

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1986, Wisconsin; M.S., 1990, Kansas State; Ph.D., 1997, Queensland (Australia).

MYERS, ALAN M.

Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1977, Carnegie Mellon; Ph.D., 1983, Duke.

MYERS, MEGAN

Associate Professor of World Languages and Cultures. B.A., 2011, Middlebury (Vermont); M.A., 2013, Vanderbilt.

MYERS, RONALD KEITH

Emeritus Professor of Veterinary Pathology. B.S., 1970, D.V.M., 1977, Ph.D., 1982, Kansas State.

N**NABROTZKY, RONALD**

Emeritus Associate Professor of World Languages and Cultures. B.A., 1965, Utah; M.A., 1966, Ph.D., 1973, Northwestern.

NAEGELE, DANIEL J.

Emeritus Associate Professor of Architecture. B.Arch., 1977, Cincinnati; Ph.D., 1996, M.S., 1996, Pennsylvania.

NAIG, ANIRUDH

Associate Professor of Apparel, Events, and Hospitality Management. Ph.D., 2007, Nebraska (Lincoln).

NAIR, AJAY

Professor of Horticulture. B.S., 2002, Kerala Agricultural (India); M.S., 2006, Maine; Ph.D., 2011, Michigan State.

NAKADATE, NEIL E.

Emeritus Professor of English; University Professor. A.B., 1965, Stanford; M.A., 1968, Ph.D., 1972, Indiana.

NAKAGAWA, NORIO

Adjunct Professor of Aerospace Engineering. B.S., 1975, M.S., 1977, Ph.D., 1984, Tokyo Japan.

NAKAMURA, KOTARO

Professor of Interior Design and the Chair of the Department. Bachelor's, Kanto Gakuin; Master's, San Diego State.

NAPOLITANO, RALPH EDWARD

Professor of Materials Science and Engineering. B.S., 1989, Florida; M.S., 1994, Ph.D., 1996, Georgia Institute of Technology.

NAPPINNAI, RAMANUJAM

Teaching Professor of Finance. M.S., 1989, Iowa State.

NARASIMHAN, BALAJI

Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.Tech., 1992, Indian Institute of Technology; Ph.D., 1996, Purdue.

NASON, JOHN DAVID

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1985, California (Davis); Ph.D., 1991, California (Riverside).

NEAL, TESS

Associate Professor of Psychology. Ph.D., Alabama.

NEGREROS-CASTILLO, P.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1976, Puebla (Mexico); M.S., 1983, Inireb; Ph.D., 1991, Iowa State.

NEIHART, NATHAN MARK

Associate Professor of Electrical and Computer Engineering. B.S., 2004, M.S., 2004, Utah; Ph.D., 2008, Washington.

NELLI, RAHUL

Research Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. BVSc., 2005, Acharya NG Range Agricultural (India); M.V.M., 2007, Glasgow; Ph.D., 2013, Nottingham.

NELSON, MATTHEW

Assistant Teaching Professor of Aerospace Engineering. M.S., 2016, Iowa State.

NELSON, RON M.

Emeritus Professor of Mechanical Engineering. B.S., 1970, M.S., 1972, Iowa State; Ph.D., 1980, Stanford.

NELSON, SCOTT W.

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1997, North Dakota State; Ph.D., 2002, Iowa State.

NEPPL, THOMAS GEORGE

Professor of Practice in Landscape Architecture. B.S., 1993, M.L.A., 1996, M.C.R.P., 1997, Kansas State.

NEPPL, TRICIA

Professor of Human Development and Family Studies. B.S., 1992, Iowa State; M.S., 1994, Ph.D., 1997, Kansas State.

NESBIT, SUNDE

Assistant Teaching Professor of Psychology. B.A., 1998, California State (Fresno); M.S., 2003, Ph.D., 2006, Purdue.

NETTLETON, DANIEL S.

Professor of Statistics and Chair of the Department; Distinguished Professor in Liberal Arts and Sciences; Director of the Laurence H. Baker Center for Bioinformatics and Biological Statistics. B.A., 1991, Wartburg College; M.S., 1993, Ph.D., 1996, Iowa.

NEUBAUER, DANIEL

Associate Teaching Professor of Industrial Design. B.F.A., 2011, M.I.D., 2015, Iowa State.

NEWELL, JONATHAN J.

Professor of Greenlee School of Journalism and Communication. B.A., 1977, North Carolina; Ph.D., 2003, Michigan State.

NEWMAN, JENNIFER L.

Professor of Mathematics; Professor of Electrical and Computer Engineering. B.A., 1979, Mount Holyoke; Ph.D., 1989, Florida.

NGUYEN, XUAN HIEN

Associate Professor of Mathematics. B.S., 2000, Free University of Brussels (Belgium); M.A., 2002, Ph.D., 2006, Wisconsin (Madison).

NICHOLSON, TRACY

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Ph.D., 2000, Texas A&M.

NIDAY, DONNA M.

Emerita Associate Professor of English. B.S.E., 1973, Northeast Missouri; M.S., 1984, Iowa State; M.A., 1990, Middlebury; Ph.D., 1996, Iowa.

NIE, CHENG

Assistant Professor of Information Systems and Business Analytics. B.Eng., 2007, Huazhong (China); M.Eng., 2010, Chinese Academy of Sciences; M.S., 2012, Pennsylvania State.

NIEHM, LINDA S.

Professor of Apparel, Events, and Hospitality Management and Interim Chair of the Department. B.S., 1980, Ashland; M.S., 1985, Ohio; Ph.D., 2002, Michigan State.

NIELSEN, STUART

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. M.S., 2004, Iowa State.

NIEMI, JARAD

Professor of Statistics. B.Che., 1999, M.S., 2005, Minnesota; Ph.D., 2009, Duke.

NIKOLAU, BASIL J.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.Sc., 1977, Ph.D., 1981, Massey (New Zealand).

NILAKANTA, SREEVATSALAN

Associate Professor of Information Systems and Business Analytics. B.E., 1973, Madras (India); M.B.A., 1979, Ph.D., 1985, Houston.

NILSEN-HAMILTON, MARIT

Professor of Biochemistry, Biophysics, and Molecular Biology; Professor of Genetics, Development, and Cell Biology. University Professor. B.S., 1969, Ph.D., 1973, Cornell.

NLEBEDIM, CAJETAN IKENNA

Adjunct Assistant Professor of Electrical and Computer Engineering. Ph.D., 2010, Cardiff (UK).

NLENANYA, INYA

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering. Ph.D., 2019, Iowa State.

NOE, STACEY

Assistant Professor of Practice, Economics. Bachelor's, Master's, Iowa State.

NOLAN, LISA K.

Emerita Professor of Veterinary Microbiology and Preventive Medicine; Emerita Dean of the College of Veterinary Medicine. B.S., 1975, Valdosta State College; D.V.M., 1988, M.S., 1989, Ph.D., 1992, Georgia.

NONNECKE, BRIAN J.

Affiliate Professor of Animal Science. B.S., 1974, M.S., 1976, Guelph; Ph.D., 1979, Ohio State.

NONNECKE, GAIL R.

Professor of Horticulture; Morrill Professor; University Professor. B.S., 1975, M.S., 1977, Pennsylvania State; Ph.D., 1980, Ohio State.

NORDMAN, DANIEL JOHN

Professor of Statistics. Professor of Industrial and Manufacturing Systems Engineering. B.A., 1996, St. John's; M.S., 1999, Ph.D., 2002, Iowa State.

NORRIS, ELIZABETH J.

Associate Teaching Professor of School of Education. B.A., 1987, Iowa; M.S. 1997, Iowa State.

NORTHUP, LARRY LEE

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1962, M.S., 1963, Ph.D., 1967, Iowa State.

NOXON, JAMES OWEN

Professor of Veterinary Clinical Sciences; Morrill Professor. B.S., 1973, D.V.M., 1976, Colorado State.

NUNAMAKER, LISA

Associate Teaching Professor of Horticulture. B.L.A., 1992, M.L.A., 2000, Iowa State.

NUNEZ, CASSANDRA

Adjunct Assistant Professor of Natural Resource Ecology and Management. B.S., 1993, Rutgers; Ph.D., 2000, Princeton.

NUNEZ CIUFFA, CONSUELO

Associate Professor of Practice. Master's, Roma Tre University.

NUSSER, SARAH M.

Emerita Professor of Statistics. B.S., 1980, Wisconsin; M.S., 1983, North Carolina State; M.S., 1987, Ph.D., 1990, Iowa State.

NUTTER, FORREST W. JR.

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1976, Maryland; M.S., 1978, New Hampshire; Ph.D., 1983, North Dakota State.

O**O'NEAL, MATTHEW ELLIOTT**

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1992, M.S., 1998, Illinois; Ph.D., 2002, Michigan State.

O'TOOLE, MEGEN

Assistant Teaching Professor of Industrial Design. Master's, 2022, Iowa State.

OAKES, GREGORY WAYNE

Professor of Music and Theatre. B.Mus., 1993, Michigan State; M.Mus., 1995, Depaul; D.M.A., 2004, Colorado.

OAKES, LISA

Assistant Teaching Professor of Greenlee School of Journalism and Communication. B.A., 2001, Texas Christian; M.A., 2008, Nebraska.

OAKLAND, MARY JANE

Emerita Associate Professor of Food Science and Human Nutrition. B.S., 1966, South Dakota State; M.S., 1970, Ph.D., 1985, Iowa State.

OBBINK, MATTHEW

Associate Teaching Professor of Industrial Design. M.A., 2017, Iowa State. B.F.A., 2006, M.F.A., 2017, Iowa State.

OBERHAUSER, ANN M.

Professor of Sociology and Criminal Justice. B.A., 1981, Carleton College; M.A., 1986, Ph.D., 1988, Clark.

OCKEY, GARY J.

Professor of English. A.S., 1984, Snow (Utah); B.S., 1986, M.A., 1992, Utah; Ph.D., 2006, California (Los Angeles).

ODENWELLER, KELLY

Associate Teaching Professor of Psychology. B.A., 2004, Pittsburgh; M.A., 2011, Ph.D., 2015, West Virginia.

OESTERREICH, LESIA L.

Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, M.S., 1988, Texas Tech.

OGILVIE, CRAIG

Emeritus Professor of Physics and Astronomy; Morrill Professor. B.Sc., 1983, Canterbury (New Zealand); Ph.D., 1987, Birmingham (UK).

OH, MIYOUNG

Associate Teaching Professor of Economics. Ph.D., 2015, Iowa State.

OKIISHI, THEODORE H.

Emeritus Professor of Mechanical Engineering. B.Sc., 1960, M.S., 1963, Ph.D., 1965, Iowa State.

OLAFSSON, SIGURDUR

Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1994, Iceland; M.S.I.E., 1996, Ph.D., 1998, Wisconsin.

OLDEHOEFT, ARTHUR E.

Emeritus Professor of Computer Science. B.A., 1957, M.S., 1959, Oklahoma State; Ph.D., 1970, Purdue.

OLDS, JUNE ELIZABETH

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2003, Iowa State.

OLINGER, ROBERT

Assistant Teaching Professor of Management and Entrepreneurship. Master's, Grand View.

OLIVER, DAVID J.

Emeritus Professor of Genetics, Development, and Cell Biology. B.S., 1971, M.S., 1973, New York (Syracuse); Ph.D., 1975, Cornell.

OLIVER, JAMES H.

Professor of Mechanical Engineering; Professor of Aerospace Engineering; Professor of Electrical and Computer Engineering; University Professor; Director of Student Innovation Center. B.S., 1979, Union; M.S., 1981, Ph.D., 1986, Michigan State.

OLK, DANIEL

Affiliate Assistant Professor of Agronomy. B.S., 1983, Wisconsin; M.A., 1986, Ph.D., 1993, California (Davis).

OLSEN, BRANDON

Assistant Teaching Professor of Graphic Design. Bachelor's, Lawrence Technological; Master's, Rhode Island School of Design.

OLSEN, DARYL

Affiliate Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 1978, South Dakota State; D.V.M., 1982, Iowa State.

OLSEN, MICHAEL G.

Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering. B.S., 1992, M.S., 1995, Ph.D., 1998, Illinois.

OLSEN, SHERRLYN S.

Associate Teaching Professor of Animal Science. B.S., 1982, Missouri; M.S., 2006, Ph.D., 2012, Iowa State.

OLSEN, STEVEN

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1979, M.S., 1981, D.V.M., 1985, Ph.D., 1991, Kansas State.

OLSON-DOUGLAS, ERIN

Associate Professor of Architecture. Associate Dean of the College of Design. B.A., Iowa State; M.A., Harvard.

OMMEN, DANICA M.

Associate Professor of Statistics. B.S., 2012, South Dakota State; M.S., 2014, South Dakota State; Ph.D., 2017, South Dakota State.

ONG, SAY K.

Professor of Civil, Construction, and Environmental Engineering. B.E., 1980, Malaya (Malaysia); M.S., 1987, Vanderbilt; Ph.D., 1990, Cornell.

OPRIESSNIG, TANJA I.

Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2002, Veterinary Medicine (Austria); Ph.D., 2006, Iowa State.

ORAZEM, PETER FRANCIS

Emeritus Professor of Economics; University Professor. B.A., 1977, Kansas; M.Phil., 1980, Ph.D., 1983, Yale.

ORGLER, LISA

Associate Teaching Professor of Horticulture. B.L.A., 1992, M.L.A., 2000, Iowa State.

ORO, BRUNO

Assistant Professor of Industrial Design. Bachelor's, Master's, UNIVALI.

ORTBERG, TODD

Professor of Practice, Finance. Bachelor's, Iowa State; Master's, Iowa.

OSBORN, WAYNE S.

Emeritus Assistant Professor of History. B.A., 1959, Simpson; M.A., 1963, Ph.D., 1970, Iowa.

OSMUNDSON, JAMIE

Assistant Teaching Professor of Interior Design.

OSTERBERG, ARVID ERIC

Professor of Architecture; University Professor. B.Arch., 1969, M.Arch., 1972, Illinois; D.Arch., 1980, Michigan.

OSTLUND, EILEEN

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1978, D.V.M., 1980, M.S., 1982, Illinois; Ph.D., 1992, Kentucky.

OTTO, DANIEL M.

Emeritus Professor of Economics; B.A., 1976, M.S., 1978, Minnesota; Ph.D., 1981, Virginia Polytechnic Institute.

OULMAN, CHARLES S.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1955, Ph.D., 1963, Iowa State.

OULMAN, MOTOKO LEE

Emerita Professor of Sociology and Criminal Justice. B.A., 1959, Nara Women's University; M.A., 1963, Indiana; Ph.D., 1969, Iowa State.

OVERSTREET, ROBERT E.

Assistant Professor of Supply Chain Management. B.B.A., 1998, Campbell; M.S., 2002, Air Force Institute of Technology; Ph.D., 2012, Auburn.

OWEN, DAVID BISHOP

Emeritus Professor of School of Education. B.A., 1964, Harvard; M.A., 1966, M.A., 1980, Ph.D., 1984, Chicago.

OWEN, MICHEAL D.

Emeritus Professor of Agronomy; University Professor. B.S., 1974, M.S., 1975, Iowa State; Ph.D., 1982, Illinois.

OWINGS, WILLIAM J.

Emeritus Professor of Animal Science. B.S., 1953, M.S., 1958, Ph.D., 1960, Iowa State.

OWUSU, FRANCIS Y.

Professor of Community and Regional Planning and Chair of the Department. B.A., 1987, M.A., 1990, Ghana; M.A., 1992, Carleton (Canada); Ph.D., 2000, Minnesota.

P**PADALKAR, SONAL**

Associate Teaching Professor of Mechanical Engineering. B.E., 2001, M.E., 2004, Pune (India); Ph.D., 2009, Purdue.

PADGETT-WALSH, CULLEN

Teaching Professor of Philosophy and Religious Studies. B.A., 2000, Creighton; M.A., 2002, Wisconsin (Milwaukee).

PADGETT-WALSH, SALLIE KATE

Associate Professor of Philosophy and Religious Studies. B.A., 1999, Middlebury College; M.A., 2001, Wisconsin (Milwaukee); Ph.D., 2008, Northwestern.

PAEPCKE-HJELTNESS, VERENA

Associate Professor of Industrial Design. B.A., 1999, Potsdam University of Applied Sciences; M.F.A., 2003, Ohio State.

PAL, SUKRIT

Assistant Professor of Supply Chain Management. Master's, Texas Christian; Ph.D., Michigan State.

PALERME, JEAN-SEBASTIEN

Associate Professor of Veterinary Clinical Sciences. B.S., 1999, M.S., 2002, McGill; D.V.M., 2008, Montreal.

PALIK, BRIAN

Affiliate Associate Professor of Natural Resource Ecology and Management. B.S., 1983, Alma College; M.S., 1988, Ph.D., 1992, Michigan State.

PALMER, MITCHELL VAN

Affiliate Assistant Professor of Veterinary Pathology. B.S., 1985, Utah State; D.V.M., 1989, Purdue; Ph.D., 1996, Iowa State.

PANDEY, SANTOSH

Associate Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology; M.S., 2001, Ph.D., 2006, Lehigh.

PANTHANI, MATTHEW

Associate Professor of Chemical and Biological Engineering. B.S., 2006, Case Western Reserve; Ph.D., 2012, Texas.

PAPPENHEIMER, DEBORAH

Emerita Associate Teaching Professor of Art and Visual Culture. B.F.A., 1978, Ny Studio Kansas City Art Institute; M.F.A., 1981, Boston School for the Arts.

PARDO-BALLESTER, CRISTINA

Associate Professor of World Languages and Cultures. B.A., 1996, University of Granada; M.A., 1999, Nevada (Reno); Ph.D., 2007, California (Davis).

PARHANKANGAS, ANNALEENA

Professor of Management and Entrepreneurship. M.S., Ph.D., Helsinki University of Technology.

PARK, YOUNG-WOONG

Adjunct Assistant Professor of Information Systems and Business Analytics. Ph.D., 2015, Northwestern.

PARKER, WENDY

Assistant Teaching Professor of Art and Visual Culture. M.A., 2011, Iowa.

PARKIN, TIMOTHY B.

Assistant Professor. B.A., 1976, Wabash; M.S., 1978, Ph.D., 1980, Wisconsin.

PARNAS, DAVID L.

Affiliate Professor of Computer Science. B.S., 1961, M.S., 1964, Carnegie Institute of Technology; Ph.D., 1965, Carnegie Mellon.

PARSA, RAHUL

Teaching Professor of Information Systems and Business Analytics. B.S., 1979, M.S., 1981, Osmania (India); Ph.D., 1990, Texas A&M.

PARSHAD, RANA

Associate Professor of Mathematics. B.A., 2001, New York; M.S., 2004, Maryland; M.S., 2006, Ph.D., 2009, Florida State.

PARSONS, GERALD E.

Emeritus Professor of Agricultural Education and Studies. B.S., 1952, M.S., 1959, Ph.D., 1970, Iowa State.

PARSONS, KATHY A.

Emerita Associate Professor, Library. B.A., 1980, North Carolina (Greensboro); M.A., 1981, Iowa.

PASCHKE, TERESA A.

Professor of Art and Visual Culture. B.F.A., 1985, Minneapolis College of Art and Design; M.F.A., 1998, Kansas.

PASSALACQUA, ALBERTO

Associate Professor of Mechanical Engineering; Associate Professor of Chemical and Biological Engineering. M.S., 2004, Ph.D., 2008, Politecnico di Torino.

PASSE, ULRIKE

Professor of Architecture. B.A., 1990, Technische (Berlin); M.Arch., 1990, Technical (Berlin).

PATE, MICHAEL BENCE

Emeritus Professor of Mechanical Engineering. B.S., 1970, U.S. Naval Academy; M.S., 1978, Arkansas; Ph.D., 1982, Purdue.

PATHAK, SID

Assistant Professor of Materials Science and Engineering. B.Tech., 2003, National Institute of Technology (India); Ph.D., 2009, Drexel.

PATIENCE, JOHN FRANCIS

Emeritus Professor of Animal Science. B.Sc., 1974, M.Sc., 1976, Guelph (Ontario); Ph.D., 1985, Cornell.

PATRICOLA, CHRISTINA

Associate Professor of Geological and Atmospheric Sciences. B.S., 2005, M.S., 2007, Ph.D., 2010, Cornell.

PATTEE, PETER ARTHUR

Emeritus Professor of Genetics, Development, and Cell Biology. B.S., 1955, Maine; M.S., 1957, Ph.D., 1961, Ohio State.

PATTERSON, JOHN W. JR.

Emeritus Professor of Materials Science and Engineering. B.E.M., 1962, M.S., 1962, Ph.D., 1966, Ohio State.

PATTERSON, PATRICK E.

Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, Springfield; M.S., 1978, Cleveland State; Ph.D., 1984, Texas A&M.

PAUDYAL, DURGA

Adjunct Associate Professor of Electrical and Computer Engineering. Ph.D., 2005, Jadavpur.

PAUL, JEREMY

Professor of Military Science and Tactics. B.S., 2004, Iowa State; M.S., 2015, Central Michigan.

PAWAR, AISHWARYA

Assistant Professor of Mechanical Engineering. Bachelor's, BITS Pilani; Master's, Ph.D., Carnegie Mellon.

PAXSON, LYNN

Emerita Professor of Architecture; University Professor. B.A., 1978, B.E., 1978, Colorado; M.Phil., 1981, Ph.D., 2007, City University of New York.

PAXTON, JILL

Assistant Teaching Professor of Animal Science. B.S., 1974, M.S., 1976, Delaware.

PAYNE, WILLIAM DONALD

Emeritus Associate Professor of English; Emeritus Associate Professor of School of Education. B.A., 1967, Louisville; M.A., 1968, Ph.D., 1980, Illinois.

PEAKE, E. JAMES JR.

Emeritus Assistant Professor of Mathematics. B.S., 1960, M.S., 1962, Ph.D., 1963, New Mexico State.

PEARCE, ROBERT BRENT

Emeritus Professor of Agronomy. B.S., 1963, California (Davis); M.S., 1965, Ph.D., 1967, Virginia Polytechnic Institute.

PEASE, JAMES L.

Emeritus Associate Professor of Natural Resource Ecology and Management. B.S., 1972, M.S., 1977, Wisconsin; Ph.D., 1992, Iowa State.

PEAVY, ANTHONY

Assistant Teaching Professor of Psychology. Bachelor's, Northern Iowa; Master's, Minnesota State, Mankato.

PEDERSEN, WAYNE A.

Emeritus Associate Professor, Library. B.A., 1974, Iowa State; M.A., 1976, Iowa.

PEDIGO, LARRY

Emeritus Professor of Plant Pathology, Entomology, and Microbiology; University Professor. B.S., 1963, Fort Hays; M.S., 1965, Ph.D., 1967, Purdue.

PELLACK, LORRAINE J.

Professor, Library. Associate Dean of Library Services. B.S., 1981, Upper Iowa; M.L.S., 1982, Emporia State.

PELZER, NANCY L.

Emerita Associate Professor, Library. B.S., 1967, Arizona State; M.A., 1983, Iowa.

PEREZ, ROSEMARY

Affiliate Assistant Professor of School of Education. Ph.D., 2014, Michigan.

PERKINS, BRADLEY S.

Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 1997, Iowa State.

PERKINS, JON DOUGLAS SR.

Associate Professor of Accounting. BSACC, 1991, B.S.B.A., 1991, J.D., 1995, Missouri; Ph.D., 2003, Illinois.

PERSIA, MICHAEL

Affiliate Assistant Professor of Animal Science. B.S., 1997, Pennsylvania State; M.S., 1999, Ohio State; Ph.D., 2003, Illinois.

PESCHEL, JOSHUA M.

Associate Professor of Agricultural and Biosystems Engineering. B.S., 2001, Texas A&M; M.S., 2004, Texas A&M; Ph.D., 2012, Texas A&M.

PETEFISH-SCHRAG, AMANDA

Associate Professor of Music and Theatre. B.A., 1999, Minnesota (Morris); M.F.A., 2003, Minnesota State (Mankato).

PETERS, DAVID J.

Professor of Sociology and Criminal Justice. B.S., 1994, Minnesota; M.S., 1998, Ph.D., 2006, Missouri.

PETERS, FRANK E.

Associate Professor of Industrial and Manufacturing Systems Engineering; Director of the Study Abroad Center. B.S., 1991, M.S., 1994, Ph.D., 1996, Pennsylvania State.

PETERS, JUSTIN

Emeritus Professor of Mathematics. B.A., 1968, Reed; Ph.D., 1973, Minnesota.

PETERS, NICHOLAS

Associate Professor of Plant Pathology, Entomology, and Microbiology. B.A., 2001, M.S., 2003, Miami (Ohio); Ph.D., 2010, Utah.

PETERS, REUBEN J.

Professor of Biochemistry, Biophysics, and Molecular Biology. Distinguished Professor in Liberal Arts and Sciences. B.S., 1992, California (San Diego); Ph.D., 1998, California (San Francisco).

PETERSON, ANNA DAGMAR

Teaching Professor of Statistics. B.S., 2005, St. Olaf College; M.S., 2008, Ph.D., 2011, Iowa State.

PETERSON, CARLA ANN

Professor of Human Development and Family Studies. B.S., 1975, Iowa State; M.A., 1981, South Dakota; Ph.D., 1991, Minnesota.

PETERSON, DAVID

Professor of Political Science. B.A., 1995, Gustavus Adolphus College; Ph.D., 2000, Minnesota.

PETERSON, FRANCIS

Emeritus Professor of Physics and Astronomy. B.E.E., 1964, Rensselaer; Ph.D., 1968, Cornell.

PETERSON, JANE W.

Emerita Professor of Greenlee School of Journalism and Communication. B.A., 1972, Iowa; M.S., 1982, Ph.D., 1987, Iowa State.

PETERSON, NICOLE KAY

Associate Teaching Professor of Interior Design. B.F.A., 2006, M.F.A., 2013, Iowa State.

PETERSON, THOMAS A.

Emeritus Professor of Genetics, Development, and Cell Biology; Emeritus Professor of Agronomy. B.S., 1976, California (Davis); Ph.D., 1984, California (Santa Barbara).

PETRICH, JACOB W.

Professor of Chemistry. B.S., 1980, Yale; Ph.D., 1985, Chicago.

PFAFF, JOSHUA D.

Adjunct Instructor in Naval Science. B.A., 2011, Marquette.

PHARES, BRENT M.

Research Associate Professor of Civil, Construction, and Environmental Engineering. B.S.C.E., 1994, M.S.C.E., 1996, Ph.D., 1998, Iowa State.

PHARES, JONATHAN

Assistant Professor of Supply Chain Management. B.S.B.A., 2012, The Ohio State; M.B.A., 2016, Pennsylvania State; Ph.D., 2021, Arkansas.

PHILLIPS, LEIGH

Associate Professor of Psychology. B.A., 2003, Grinnell; M.S., 2008, Ph.D., 2011, Rutgers.

PHILLIPS, WARREN

Teaching Professor of Psychology. B.A., 1989, Maryland; Ph.D., 1996, M.A., 1996, Illinois.

PHYE, GARY D.

Emeritus Professor of School of Education; Emeritus Professor of Psychology. B.A., 1964, M.A., 1965, Wichita; Ph.D., 1970, Missouri.

PI, SHAOTING

Assistant Professor of Finance. Ph.D., Utah.

PIEPER, JASON

Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2009, Iowa State.

PIERCE, CLAY L.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1980, Mankato; M.S., 1982, Kentucky; Ph.D., 1987, Maryland.

PIERSON, BION LEE

Emeritus Professor of Aerospace Engineering. B.S., 1961, M.S., 1963, Iowa State; Ph.D., 1967, Michigan.

PILCHER, CAROL

Assistant Teaching Professor of Agronomy. Ph.D., Iowa State.

PINEYRO-PINEIRO, PABLO

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1999, Nacional de la Plata (Argentina); M.V.SC., 2010, Washington State; D.V.SC, 2012, Nacional de la Plata (Argentina).

PINT, CARY

Associate Professor of Mechanical Engineering. B.S., 2005, Northern Iowa; M.S., 2009, Ph.D., 2010, Rice.

PIRRO, ELLEN B.

Associate Teaching Professor of Political Science. B.A., 1962, New Hampshire; Ph.D., 1968, Yale.

PISTOLESI, SARA

Associate Teaching Professor of Chemistry. M.S., 2003, Ph.D., 2007, Siena (Italy).

PITTONI, PAOLA

Associate Teaching Professor of Mechanical Engineering. B.S., 2006, Politecnico di Milano; Ph.D., 2014, National Taiwan University of Science and Technology, Taipei.

PLAKANS, ANDREJS

Emeritus Professor of History. B.A., 1963, Franklin and Marshall; M.A., 1964, Ph.D., 1969, Harvard.

PLASTINA, ALEJANDRO

Associate Professor of Economics. B.A., 2000, M.A., 2001, Nacional de la Plata (Argentina); M.S., 2005, Ph.D., 2007, Nebraska.

PLATT, KENNETH B.

Emeritus Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1963, Pennsylvania State; D.V.M., 1966, Cornell; M.S., 1974, Texas A&M; Ph.D., 1977, Iowa State.

PLEASANTS, JOHN M.

Adjunct Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 1971, Notre Dame; Ph.D., 1977, California (Los Angeles).

PLUMMER, PAUL J.

Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. Associate Dean of the College of Veterinary Medicine. B.S., 1999, D.V.M., 2000, Tennessee; Ph.D., 2009, Iowa State.

PLYMESSER, CLIFF ALEX

Associate Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 2005, M.S., 2005, Iowa State.

POAGUE, LELAND A.

Emeritus Professor of English. B.A., 1970, California State (San Jose); Ph.D., 1973, Oregon.

POHL, NICOLA

Affiliate Professor of Chemical and Biological Engineering; Affiliate Professor of Chemistry. A.B., 1991, Harvard; Ph.D., 1997, Wisconsin.

POHLMAN, LYNETTE L.

Adjunct Associate Professor of Art and Visual Culture. B.A., 1972, M.A., 1976, Iowa State.

POHM, ARTHUR V.

Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E.E., 1950, B.E.S., 1950, Cleveland State; M.S., 1953, Ph.D., 1954, Iowa State.

POLEACOVSKI, CRISTINA

Assistant Professor of Civil, Construction, and Environmental Engineering. B.E., 2010, Technical University of Moldova; M.S., 2012, Alabama (Huntsville); Ph.D., 2017, Colorado.

POLITO, THOMAS A.

Emeritus Assistant Professor of Agricultural Education and Studies; Emeritus Assistant Professor of Agronomy. B.S., 1976, M.S., 1982, Ph.D., 1987, Iowa State.

POLSON, DALE

Affiliate Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1982, Iowa State; M.S., 1988, Illinois; Ph.D., 1996, Minnesota.

POLSTER, NANCY L.

Emerita Associate Professor of Art and Design. B.S., 1960, Iowa State; M.S., 1964, Syracuse.

POMETTO, ANTHONY III

Affiliate Professor of Food Science and Human Nutrition. B.S., 1976, George Mason; M.S., 1983, Ph.D., 1987, Idaho.

POON, YIU TUNG

Professor of Mathematics. B.A., 1977, M.Phil., 1980, Hong Kong; Ph.D., 1985, California (Los Angeles).

POPE, CHRISTIE F.

Emerita Associate Professor of History. A.B., 1959, North Carolina; Ph.D., 1977, Chicago.

POPILLION, AMY M.

Teaching Professor of Human Development and Family Studies. B.S., 1994, M.S., 1997, Ph.D., 2000, Iowa State.

POPLIN, ALENKA

Associate Professor of Community and Regional Planning. M.Sc., 1992, Ljubljana (Slovenia); M.B.A., 1997, Clemson; Ph.D., 2002, Vienna.

PORTER, MAX LEE

Emeritus Professor of Civil, Construction, and Environmental Engineering; University Professor. B.S., 1965, M.S., 1968, Ph.D., 1974, Iowa State.

POST, CONSTANCE J.

Emerita Associate Professor of English. B.A., 1966, Nyack; M.A.T., 1968, M.A., 1980, M.Phil., 1982, Ph.D., 1986, Columbia.

POSTON, WILLIAM K., JR.

Emeritus Associate Professor of School of Education. B.A., 1961, Northern Iowa; ED.S., 1966, ED.D., 1969, Arizona State.

POTOYAN, DAVIT

Associate Professor of Chemistry. B.S., 2007, Yerevan State (Armenia); Ph.D., 2012, Maryland.

POTTER, LESLIE A.

Teaching Professor of Industrial and Manufacturing Systems Engineering. B.S., 1991, Iowa State; M.S., 1996, Pennsylvania State.

POTTER, ROSANNE G.

Emerita Professor of English. A.B., 1964, Rosemont; M.A., 1964, Chicago; Ph.D., 1975, Texas.

POUYA, SHAHRAM

Adjunct Assistant Professor of Aerospace Engineering. Ph.D., 2008, Michigan State.

POWELL-COFFMAN, JO A.

Professor of Genetics, Development, and Cell Biology; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1986, California (Davis); Ph.D., 1993, California (San Diego).

POWER, DEBRA LYNN

Associate Teaching Professor of Kinesiology. B.A., 1984, Creighton; M.S., 1986, Iowa State.

POWER, MARK L.

Professor of Finance; University Professor. B.S., 1974, Iowa State; M.B.A., 1977, Ph.D., 1981, Iowa.

POWERS, ANGELA M.

Professor of Greenlee School of Journalism and Communication. B.S., 1978, M.S., 1980, Illinois State; Ph.D., 1990, Michigan State.

PRABHU, GITANJALI

Affiliate Assistant Professor of Food Science and Human Nutrition. B.S., 1981, M.S., 1983, Bombay; M.S., 1987, Ph.D., 1996, Iowa State.

PRABHU, GURPUR M.

Associate Professor of Computer Science. B.Tech., 1975, M.Tech., 1978, Indian Institute of Technology; Ph.D., 1983, Washington State.

PRATER, JEFFREY LYNN

Emeritus Professor of Music and Theatre. B.S., 1969, Iowa State; M.M., 1973, Michigan State; Ph.D., 1982, Iowa.

PRELL, SOEREN A.

Professor of Physics and Astronomy. Ph.D., 1996, Hamburg (Germany).

PREMKUMAR, SHOBA

Teaching Professor of Finance. B.A., 1982, Madras; M.B.A., 1997, Iowa State.

PRENTICE, DAVID

Affiliate Instructor in Veterinary Diagnostic and Production Animal Medicine. B.S., 1987, D.V.M., 1991, Iowa State; M.S., 2000, Wisconsin.

PRESEAU, LINDSAY

Assistant Professor of World Languages and Cultures. Bachelor's, Michigan; Master's, Ph.D, California (Berkeley).

PRESTEMON, DEAN R.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Iowa State; M.S., 1957, Minnesota; Ph.D., 1966, California (Berkeley).

PRIETO, LORETO R.

Professor of Psychology; Morrill Professor. B.A., 1984, Ph.D., 1996, Iowa.

PRINCE, ANGELA M.

Associate Professor of School of Education. M.S., 2001, M.Ed., 2003, Bob Jones; Ph.D., 2013, Clemson.

PRINDLE, WILLIAM

Assistant Professor of Industrial Design. B.F.A., 1974, M.I.D., 1978, Rhode Island School of Design.

PRIOR-MILLER, MARCIA R.

Emerita Associate Professor of Greenlee School of Journalism and Communication. B.A., 1970, Abilene Christian; M.A., 1981, Missouri.

PRITCHARD, JAMES

Emeritus Adjunct Associate Professor of Landscape Architecture; Emeritus Adjunct Associate Professor of Natural Resource Ecology and Management. B.A., 1976, Miami (Ohio); M.A., 1991, Montana State; Ph.D., 1996, Kansas.

PROZOROV, RUSLAN

Professor of Physics and Astronomy. M.Sc., 1992, Institute of Steel and Alloys (Moscow); Ph.D., 1998, Bar-Ilan (Israel).

PROZOROV, TANYA

Adjunct Assistant Professor of Chemical and Biological Engineering.

PRUSA, KENNETH JOHN

Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Animal Science. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.

PRUSKI, MAREK

Adjunct Professor of Chemistry. B.S., 1977, Ph.D., 1981, Nicholas Copernicus (Poland).

PURSEY, DEREK L.

Emeritus Professor of Physics and Astronomy. B.S., 1948, Ph.D., 1952, Glasgow.

PYCHLAU, SOPHIE

Assistant Professor of Management and Entrepreneurship. Master's, Hamburg.

Q**QIAO, DAJI**

Professor of Electrical and Computer Engineering. B.S., 1994, Tsinghua (China); M.S., 1998, Ohio State; Ph.D., 2004, Michigan.

QIU, JIANWEI

Emeritus Professor of Physics and Astronomy. M.A., 1983, M.S., 1984, Ph.D., 1987, Columbia.

QU, SHUYANG

Associate Professor of Agricultural Education and Studies. B.A., 2009, South Central University for Nationalities (China); M.S., 2012, Iowa State; Ph.D., 2016, Florida.

QUAM, ANDREA L.

Associate Professor of Graphic Design. B.F.A., 1997, Iowa State; M.F.A., 2008, Virginia Commonwealth.

QUE, LONG

Professor of Electrical and Computer Engineering. B.S., 1990, Peking (China); M.S., 1997, Ph.D., 2000, Wisconsin.

QUIGLEY, JAMES

Affiliate Professor of Animal Science. B.S., 1979, M.S., 1982, New Hampshire; Ph.D., 1985, Virginia Polytechnic.

QUINLISK, M. PATRICIA

Affiliate Assistant Professor. B.S., 1978, Wisconsin (Stevens Point); M.P.H., 1983, Johns Hopkins; M.D., 1988, Wisconsin.

QUINN, CHRISTOPHER

Assistant Professor in Computer Science. Ph.D, 2014, Illinois (Urbana-Champaign).

QUINTERO, SANDY

Assistant Teaching Professor of Art and Visual Culture. B.A., 1975, Iowa; M.A., 1994, Iowa State.

QUIRMBACH, HERMAN C.

Associate Professor of Economics. A.B., 1972, Harvard; A.M., 1980, Ph.D., 1983, Princeton.

QUISENBERRY, SHARRON SUE

Emerita Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1966, Northeast Missouri; M.A., 1975, Hood; M.S., 1977, Ph.D., 1980, Missouri.

R**RADEMACHER, CHRISTOPHER**

Clinical Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1996, D.V.M., 1998, Minnesota.

RADIA, SUKU

Professor of Practice in Accounting. B.S., 1974, Iowa State.

RADKE, SCOTT

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2012, Buena Vista; D.V.M., 2016, M.S., 2018, Iowa State.

RAFFERTY, KATHERINE

Associate Teaching Professor of Psychology. B.A., 2007, M.A., 2009, Illinois (Urbana-Champaign); Ph.D., 2015, Wisconsin (Milwaukee).

RAICH, JAMES W.

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1977, Michigan State; M.S., 1980, Florida; Ph.D., 1987, Duke.

RAJAGOPAL, LAKSHMAN

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1998, Sies College (India); M.S., 2004, Ph.D., 2007, Nebraska.

RAJALA, SARAH

Emerita Professor of Electrical and Computer Engineering; Emerita Dean of the College of Engineering. B.S., 1974, Michigan Technological; M.S., 1977, Ph.D., 1979, Rice.

RAJAN, HRIDESH

Professor of Computer Science and Chair of the Department. B.Tech., 2000, Institute of Technology; M.S., 2004, Ph.D., 2005, Virginia.

RAJU, SEKAR

Associate Professor of Marketing and Chair of the Department. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.

RALSTON, PETER

Associate Professor of Supply Chain Management. B.S., 2003, Clemson; M.B.A., 2007, Alabama; Ph.D., 2014, Iowa State.

RAMAMOORTHY, ADITYA

Professor of Electrical and Computer Engineering; Professor of Mathematics. B.Tech., 1999, Indian Institute of Technology; Ph.D., 2005, California (Los Angeles).

RAMAN, D. RAJ

Professor of Agricultural and Biosystems Engineering; Morrill Professor. B.S., 1986, Rochester Institute of Technology; Ph.D., 1994, Cornell.

RAMASWAMI, SRIDHAR N.

Professor of Marketing. B.S., 1974, Madras; M.B.A., 1977, Indian Institute of Management; Ph.D., 1987, Texas.

RAMER-TAIT, AMANDA

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2000, Western Kentucky; Ph.D., 2006, Iowa State.

RAMIREZ, BRETT

Associate Professor of Agricultural and Biosystems Engineering. B.S., 2012, M.S., 2014, Illinois; Ph.D., 2017, Iowa State.

RANALLI, JAMES

Associate Professor of English. B.A., 1989, California (Irvine); M.A., 2003, Birmingham (United Kingdom); Ph.D., 2012, Iowa State.

RANCILIO, NICHOLAS

Assistant Professor of Veterinary Clinical Sciences. Bachelor's, Michigan; Master's, Purdue; DVM, Michigan State.

RANDALL, JESSE ALLEN

Affiliate Associate Professor of Natural Resource Ecology and Management. B.Sc., 1999, Cornell; Ph.D., 2006, Michigan State.

RANDIC, MIRJANA

Emerita Professor of Biomedical Sciences. M.D., 1959, Ph.D., 1962, Zagreb.

RAO, ARAGULA GURURAJ

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. M.Sc., 1974, Gauhati (India); Ph.D., 1981, Mysore (India).

RASMUSSEN, JORGEN S.

Emeritus Professor of Political Science; Emeritus Professor of School of Education; Distinguished Professor in Liberal Arts and Sciences. A.B., 1957, Indiana; M.A., 1958, Ph.D., 1962, Wisconsin.

RASMUSSEN, MARK A.

Emeritus Professor of Animal Science. B.S., 1976, M.S., 1979, Nebraska; Ph.D., 1986, Illinois; M.B.A., 1996, Iowa State.

RATHMACHER, JOHN A.

Affiliate Assistant Professor of Animal Science. B.S., 1987, M.S., 1989, Purdue; Ph.D., 1993, Iowa State.

RAVENSCROFT, SUE P.

Emerita Professor of Accounting. B.A., 1972, Wayne State; M.B.A., 1976, Detroit Mercy; Ph.D., 1989, Michigan State.

RAWSON, DON CARLOS

Emeritus Professor of History. B.S., 1958, M.A., 1966, Kansas; Ph.D., 1971, Washington.

RAY, PRATIK

Adjunct Assistant Professor of Materials Science and Engineering. B.Tech., 2004, National Institute of Technology (India); M.Tech., 2006, Indian Institute of Technology (India); Ph.D., 2011, Iowa State.

REASON, ROBERT

Professor of School of Education; Associate Dean of the College of Human Sciences. B.S., 1992, Grinnell College; M.S., 1994, Mankato State; Ph.D., 2001, Iowa State.

REBER-VETTIGER, JACQUELINE

Associate Professor of Geological and Atmospheric Sciences. B.S., 2007, M.S., 2009, Eth Zurich (Switzerland); Ph.D., 2012, Oslo (Norway).

RECTANUS, MARK W.

Emeritus Professor of World Languages and Cultures; University Professor. B.A., 1975, Valparaiso; M.A., 1977, Ph.D., 1983, Washington (St. Louis).

REDDY, MANJU B.

Emerita Professor of Food Science and Human Nutrition. B.S., 1976, M.S., 1978, Osmania (India); Ph.D., 1987, Texas A&M.

REDDY, POLAMREDDY

Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.S., Sri Venkateswara (India), M.S., Ph.D., 1997, Kansas State.

REDDY-BEST, KELLY

Professor of Apparel, Events, and Hospitality Management. B.S., 2006, Johnson and Wales (Rhode Island); M.S., 2010, Rhode Island; Ph.D., 2013, Oregon State.

REDMOND, MARK V.

Emeritus Associate Professor of English. B.A., 1971, M.A., 1973, Purdue; Ph.D., 1978, Denver.

REECY, JAMES M.

Professor of Animal Science; Associate Vice President of Research; B.S., 1990, South Dakota State; M.S., 1992, Missouri; Ph.D., 1995, Purdue.

REGISTER, KAREN B.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. BSMT, 1981, Western Carolina; Ph.D., 1986, North Carolina.

REHMANN, CHRIS ROBERT

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1989, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1995, Stanford.

REID, DAVID

Assistant Professor of Practice, Architecture. Bachelor's, Iowa State; Master's, Drake.

REINDERS, ROB

Professor of Practice, Architecture. Master's, Rice.

REINHARDT, TIMOTHY A.

Affiliate Professor of Animal Science. B.S., 1974, M.S., 1976, Ph.D., 1979, Ohio State.

REITMEIER, CHERYLL A.

Emerita Professor of Food Science and Human Nutrition. B.S., 1973, Minnesota; M.S., 1975, Arkansas; Ph.D., 1988, Iowa State.

REMES, JUSTIN J.

Associate Professor of English. B.A., 2003, Oakland; M.A., 2005, Ph.D., 2012, Wayne State.

REN, JUAN

Associate Professor of Mechanical Engineering. B.S., 2009, Xi'an Jiaotong (China); Ph.D., 2015, Rutgers.

REN, YUE

Teaching Professor of Political Science. B.A., 1982, Shandong (China); M.Law., 1985, Chinese Academy of Social Sciences; M.A., 1988, M.Phil., 1990, Ph.D., 1994, Columbia.

RENTZ, MICHAEL

Associate Teaching Professor of Natural Resource Ecology and Management. B.S., 1994, Ph.D., 2014, Minnesota.

RESENDE-DE-MACEDO, NUBIA

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2005.

RETALICK, MICHAEL STEVEN

Professor of Agricultural Education and Studies and Chair of the Department. B.S., 1993, Wisconsin (Platteville); Ph.D., 2005, Iowa State.

REUEL, NIGEL

Associate Professor of Chemical and Biological Engineering. B.S., 2009, Brigham Young; Ph.D., 2014, Massachusetts Institute of Technology.

RIBEIRO, RAQUEL

Associate Professor of Physics and Astronomy. Ph.D., 2001, Universidade Estadual de Campinas (Unicamp).

RICE, MARLIN E.

Affiliate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1977, Central Missouri; M.S., 1979, Missouri; Ph.D., 1987, Kansas State.

RICE, TINA

Assistant Teaching Professor, Graphic Design. B.F.A., 1994, M.F.A., 2018, Iowa State.

RICHARDS, CHARLES D.

Professor of Art and Visual Culture. B.F.A., 1979, Illinois; M.F.A., 1983, Wisconsin.

RICHIE, CAROLYN

Associate Teaching Professor of Psychology. Ph.D., 2004, Indiana (Bloomington).

RICO-GUTIERREZ, LUIS

Professor of Architecture; Dean of the College of Design. B.A., 1986, Itesm (Mexico); M.S., 1997, Carnegie Mellon.

RIDPATH, JULIA

Affiliate Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1977, Doane; Ph.D., 1983, Iowa State.

RIEDESEL, DEAN HAROLD

Emeritus Professor of Veterinary Clinical Sciences; Emeritus Professor of Biomedical Sciences. D.V.M., 1969, Ph.D., 1976, Iowa State.

RIEDESEL, ELIZABETH A.

Emerita Professor of Veterinary Clinical Sciences. B.S., 1970, D.V.M., 1975, Iowa State.

RIHA, JULIE

Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2008, Michigan State; D.V.M., 2014, Ross.

RINEY-KEHRBERG, PAMELA

Professor of History; Distinguished Professor in Liberal Arts and Sciences. B.A., 1985, Colorado College; M.A., 1986, Ph.D., 1991, Wisconsin.

RINKER, SKYLER

Assistant Teaching Professor of Agricultural Education and Studies. B.S., 2013, Iowa State; M.S., 2017, Kansas State; Ph.D., 2020, Iowa State.

RIZO, ELISA G.

Associate Professor of World Languages and Cultures. B.A., 1993, Instituto Tecnológico De Estudios Superiores; M.A., 1996, Ph.D., 2002, Missouri.

ROBERTS, CARL

Emeritus Associate Professor of Sociology and Criminal Justice. B.A., 1975, Maine; M.A., 1977, M.S., 1982, Ph.D., 1983, New York (Stony Brook).

ROBERTS, DAVID D.

Emeritus Associate Professor of English. B.A., 1967, M.A., 1969, Ph.D., 1979, Arizona State.

ROBERTS, RONALD A.

Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Purdue; M.S., 1981, Ph.D., 1985, Northwestern.

ROBERTSON, ALAN P.

Associate Professor of Biomedical Sciences. B.Sc., 1991, Glasgow; Ph.D., 1997, Edinburgh.

ROBERTSON, ALISON E.

Professor of Plant Pathology, Entomology, and Microbiology. B.Sc., 1991, Natal (South Africa); M.Phil., 1999, Zimbabwe (Africa); Ph.D., 2003, Clemson.

ROBINSON, DAN

Emeritus Professor of School of Education; University Professor. B.S., 1970, M.S., 1971, Ph.D., 1978, Iowa State.

ROBINSON, WILLIAM

Emeritus Professor of Philosophy and Religious Studies. A.B., 1962, Yale; Ph.D., 1966, Indiana.

ROBINSON-ADAMS, SAMANTHA

Associate Teaching Professor of English. B.A., 2008, Transylvania (Lexington); M.F.A., 2011, Iowa State.

ROBISON, DANIEL

Professor of Natural Resource Ecology and Management; Dean of the College of Agriculture and Life Sciences. B.S., 1982, M.S., 1986, New York (Syracuse); Ph.D., 1993, Wisconsin.

ROBSON, GREGORY

Assistant Professor of Philosophy and Religious Studies. B.S., 2004, Vanderbilt; A.L.M., 2008, Harvard; M.A., 2012, Duke; Ph.D., 2019, Arizona.

ROCHE, JULIEN

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 2007, M.S., 2008, Montpellier II (France); Ph.D., 2012, Centre de Biochimie Structurale (France).

RODDE, JAMES F.

Professor of Music and Theatre. B.A., 1974, Augsburg College; M.A., 1977, D.M.A., 1987, Iowa.

RODERMEL, STEVEN R.

Emeritus Professor of Genetics, Development, and Cell Biology; Distinguished Professor in Liberal Arts and Sciences. B.A., 1972, Yale; M.S., 1976, Wyoming; Ph.D., 1986, Harvard.

RODGERS, JENNIFER

Assistant Teaching Professor of Music and Theatre. Bachelor's, Ithaca; Master's, Maryland; D.Mus.A, Washington.

ROE, KEVIN J.

Associate Professor of Natural Resource Ecology and Management; Associate Professor of Ecology, Evolution and Organismal Biology. B.S., 1988, M.S., 1994, Georgia; Ph.D., 1999, Alabama.

ROETTGER, CHRISTIAN G.

Assistant Teaching Professor of Mathematics. M.S., 1994, Augsburg (Germany); Ph.D., 2000, East Anglia (UK).

ROGERS, CARL A.

Associate Professor of Landscape Architecture and Chair of the Department. B.Arch., 1993, Kansas State; M.L.A., 1997, Rhode Island School of Design.

ROGGE, THOMAS RAY

Emeritus Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

ROHACH, ALFRED F.

Emeritus Professor of Aerospace Engineering. B.S., 1959, M.S., 1961, Ph.D., 1963, Iowa State.

ROLING, LUKE T.

Assistant Professor of Chemical and Biological Engineering. B.S., 2011, Iowa State; Ph.D., 2016, Wisconsin.

ROLLINS, DERRICK K.

Emeritus Professor of Chemical and Biological Engineering; Emeritus Professor of Statistics; University Professor. B.S., 1979, Kansas; M.S., 1987, M.S., 1989, Ph.D., 1990, Ohio State.

RONGERUDE, JANE MARIE

Associate Professor of Community and Regional Planning. B.S., 1998, Portland State; M.C.P., 2001, Ph.D., 2009, California (Berkeley).

ROOD, CRAIG J.

Associate Professor of English. B.A., 2008, M.A., 2011, North Dakota State; Ph.D., 2015, Pennsylvania State.

ROOF, MICHAEL B.

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1987, M.S., 1989, Ph.D., 1991, Iowa State.

ROSA, JOSE ANTONIO

Emeritus Professor of Marketing. B.A., 1977, General Motors Institute; M.B.A., 1979, Dartmouth; M.A., Ph.D., 1992, Michigan.

ROSATI, MARZIA

Professor of Physics and Astronomy. B.S., 1985, La Sapienza (Italy); Ph.D., 1992, Mc Gill (Canada).

ROSE, WILLIAM

Assistant Professor of Supply Chain Management. B.A., 2005, M.S., 2007, M.B.A., 2011, North Texas; Ph.D., 2015, Tennessee.

ROSENBERG, ELI IRA

Emeritus Professor of Physics and Astronomy. B.S., 1964, City University of New York; M.S., 1966, Ph.D., 1971, Illinois.

ROSENBLOOM, JOSHUA L.

Professor of Economics and Chair of the Department. B.A., 1981, Oberlin; Ph.D., 1988, Stanford.

ROSENBUSCH, RICARDO F.

Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1964, Buenos Aires; M.S., 1966, Ph.D., 1969, Iowa State.

ROSENTRATER, KURT

Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.S., 1994, M.S., 1996, Ph.D., 2001, Iowa State.

ROSE, DAVID

Assistant Professor of Animal Science. Bachelor's, Zamorano; Master's, Ph.D., North Carolina State.

ROSHEIM, AARON S.

Adjunct Instructor in Military Science and Tactics. B.A., 2006, Iowa State.

ROSS, DALE H.

Emeritus Associate Professor of English. B.A., 1959, M.A., 1962, Akron; Ph.D., 1974, Iowa.

ROSS, DENNIS KENT

Emeritus Professor of Physics and Astronomy. B.S., 1964, California Institute of Technology; Ph.D., 1968, Stanford.

ROSS, JASON WAYNE

Professor of Animal Science and Chair of the Department. B.S., 2000, Iowa State; M.S., 2003, Ph.D., 2006, Oklahoma State.

ROSS, RICHARD FRANCIS

Emeritus Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1959, M.S., 1960, Ph.D., 1965, Iowa State.

ROSSI, GABRIELA

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. Ph.D., 1997, National University of Cordoba (Argentina).

ROSSINI, AARON J.

Professor of Chemistry. B.Sc., 2005, Ph.D., 2010, Windsor (Canada).

ROSSMANITH, JAMES

Associate Professor of Mathematics. B.S., 1997, Christopher Newport; M.S., 2000, Ph.D., 2002, Washington.

ROTH, JAMES ALLEN

Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine; Director of the Center for Food Security and Public Health. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROTHMAYER, ALRIC PAUL

Emeritus Professor of Aerospace Engineering. Emeritus Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROTHSCHILD, MAX F.

Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1974, California (Davis); M.S., 1975, Wisconsin; Ph.D., 1978, Cornell.

ROUSE, GENE

Emeritus Professor of Animal Science. B.S., 1967, Minnesota; M.S., 1969, Ph.D., 1971, Iowa State.

ROUSE, HEATHER L.

Associate Professor of Human Development and Family Studies. B.A., 1999, M.S.Ed., 2000, Ph.D., 2007, Pennsylvania.

ROUSE, JON MATTHEWS

Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 1994, Iowa State; M.E., 1995, Ph.D., 2004, Cornell.

ROVER, DIANE THIEDE

Professor of Electrical and Computer Engineering; University Professor. B.S., 1984, M.S., 1986, Ph.D., 1989, Iowa State.

ROWE, ERIC W.

Associate Professor of Biomedical Sciences. D.V.M., 1999, Ph.D., 2005, Iowa State.

ROWLEY, WAYNE ALLRED

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1960, M.S., 1962, Utah State; Ph.D., 1965, Washington State.

ROWLING, MATTHEW J.

Associate Professor of Food Science and Human Nutrition. B.S., 1999, Nebraska (Kearney); Ph.D., 2004, Iowa State.

ROY, SOUGATA

Assistant Professor of Mechanical Engineering. Bachelor's, Jalpaiguri Government Engineering; Master's, Indian Institute of Technology, Madras; Ph.D., Iowa State.

ROY, VIVEKANANDA

Associate Professor of Statistics. B.Sc., 2001, Ramakrishna Mission College (Calcutta); MSTAT, 2004, Indian Statistical Institute (Calcutta); Ph.D., 2008, Florida.

ROYSTON, NATALIE A.

Associate Professor of Music and Theatre. B.M., 1994, M.M., 1997, Ohio; Ph.D., 2009, North Texas.

ROZIER, KRISTIN

Associate Professor of Aerospace Engineering. B.S., 2000, M.S., 2001, William and Mary; Ph.D., 2012, Rice.

RUBLE, RACHEAL

Associate Teaching Professor of Psychology. B.A., 2003, Truman State; M.A., 2005, Kent State; Ph.D., 2011, Kansas.

RUDEN, KARLA

Associate Teaching Professor of English. M.S., 1992, Northern Iowa.

RUDOLPH, WILLIAM B.

Emeritus Professor of Mathematics; Emeritus Professor of School of Education. B.A., 1960, Bethany (West Virginia); M.S., 1965, Ph.D., 1969, Purdue.

RUDOLPHI, THOMAS J.

Emeritus Professor of Aerospace Engineering. B.S., 1969, M.S., 1974, Ph.D., 1977, Illinois.

RUEDENBERG, KLAUS

Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. M.S., 1944, Fribourg; Ph.D., 1950, Zurich; Ph.D., 1975 (Hon) Basel.

RUNNELS, BRANDON

Associate Professor of Aerospace Engineering. Bachelor's, New Mexico Institute of Mining and Technology; Master's, California Institute of Technology; Ph.D., California Institute of Technology.

RURSCH, JULIE

Associate Teaching Professor of Electrical and Computer Engineering. B.S., 1985, Western Illinois; M.S., 1988, Iowa State; Ph.D., 1994, Wisconsin.

RUSSELL, ALAN MARK

Emeritus Professor of Materials Science and Engineering. B.S., 1972, M.S., 1975, Ph.D., 1994, Iowa State.

RUSSELL, ANN E.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1976, Cornell; M.S., 1983, Florida, Ph.D., 1996, Iowa State.

RUSSELL, DANIEL W.

Emeritus Professor of Human Development and Family Studies. B.S., 1975, Tulsa; Ph.D., 1980, California (Los Angeles).

RUSSELL, DAVID R.

Emeritus Professor of English. B.A., 1973, Central State (Oklahoma); Ph.D., 1981, Oklahoma.

RUSSELL, JAMES R.

Emeritus Professor of Animal Science. B.S., 1972, M.S., 1976, Ph.D., 1979, Wisconsin.

RUSSELL, STEVE F.

Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1966, Montana State; M.S., 1973, Ph.D., 1978, Iowa State.

RUST, ROBERT E.

Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Wisconsin; M.S., 1954, Michigan State.

RUTENBERG, AMY J.

Associate Professor of History. B.A., 1999, Tufts; Ed.M., 2000, Harvard; Ph.D., 2013, Maryland.

RUTHERFORD, CASSANDRA J.

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 2002, Texas A&M; M.S., 2004, Texas A&M; Ph.D., 2012, Texas A&M.

RYAN, SARAH M.

Professor of Industrial and Manufacturing Systems Engineering and Chair of the Department. B.S., 1983, Virginia; M.S.E., 1984, Ph.D., 1988, Michigan.

RYAN, SAXON

Assistant Teaching Professor of Agricultural and Biosystems Engineering. M.S., 2016, Iowa State.

RYAN, VERNON DEAN

Emeritus Professor of Sociology and Criminal Justice. B.S., 1966, Utah State; M.S., 1969, Ph.D., 1974, Pennsylvania State.

S**SABZIKAR, FARZAD**

Associate Professor of Statistics. B.Sc., 2006, Isfahan (Iran); M.S., 2009, Sharif (Iran); Ph.D., 2014, Michigan State.

SACCO, RANDY E.

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1981, M.S., 1983, Iowa State; Ph.D., 1987, Texas A&M.

SACKS, GAVIN

Affiliate Associate Professor of Food Science and Human Nutrition. B.S., 1999, Virginia; M.S., 2001, Ph.D., 2005, Cornell.

SACKS, PAUL E.

Professor of Mathematics. B.S., 1976, Syracuse; M.A., 1978, Ph.D., 1981, Wisconsin.

SADATI, SEYEDHAMED

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering. Ph.D., 2017, Missouri University of Science and Technology.

SADOW, AARON DAVID

Professor of Chemistry. B.S., 1997, Pennsylvania State; Ph.D., 2003, California (Berkeley).

SADTLER, GRIT

Associate Teaching Professor of Industrial Design. B.S., 1994, M.S., 1996, Southern Illinois; Ph.D., 2022, Kansas State.

SAGE, PRISCILLA K.

Emerita Associate Professor of Art and Design. M.S., 1958, Pennsylvania State; M.F.A., 1981, Drake.

SAHIN, ORHAN

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1993, Ankara (Turkey); M.S., 1998, Ph.D., 2003, The Ohio State.

SAKAGUCHI, DONALD S.

Professor of Genetics, Development, and Cell Biology; Professor of Biomedical Sciences; Morrill Professor. B.S., 1979, Ph.D., 1984, New York (Albany).

SALAS-FERNANDEZ, MARIA G.

Associate Professor of Agronomy. B.E., 1995, Argentina Catholic; M.Sc., 1999, Texas A&M; Ph.D., 2008, Cornell.

SALGADO, HUGO

Assistant Professor of World Languages and Cultures. Master's, North Carolina at Chapel Hill; Master's, The Ohio State University.

SALOTTI, VALENTINA

Associate Professor of Finance; Associate Dean of the Ivy College of Business. B.A., 2003, M.A., 2005, Ph.D., 2009, Bologna (Italy).

SAMS, BRANDON L.

Associate Professor of English. B.S.Ed., 2004, Baylor; M.Ed., 2007, Vanderbilt; Ph.D., 2012, North Carolina.

SAMUELSON, SCOTT

Professor of Practice, Philosophy and Religious Studies. Bachelor's, Grinnell; Ph.D., Emory.

SANCHEZ-RUIZ, PAUL

Assistant Professor of Management and Entrepreneurship. Bachelor's, Escuela Libre de Derecho; Master's, Tec de Monterrey; Master's, Ph.D., Oklahoma State.

SANDER, KAYLA E.

Teaching Professor of Accounting. B.S., 2006, MACC, 2007, Iowa State.

SANDERS, DAVID

Professor of Civil, Construction, and Environmental Engineering and Chair of the Department. B.S., 1984, Iowa State; M.S.E., 1986, Ph.D., 1990, Texas.

SANDERS, EULANDA

Professor of Apparel, Events, and Hospitality Management. B.S., 1990, M.A., 1994, Colorado State; Ph.D., 1997, Nebraska.

SANDERS, WALLACE W.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.C.E., 1955, Louisville; M.S., 1957, Ph.D., 1960, Illinois; M.Engr., 1973, Louisville.

SANDOR, JONATHAN A.

Emeritus Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1974, California (Santa Barbara); M.S., 1979, Ph.D., 1983, California (Berkeley).

SAPP, STEPHEN GRAHAM

Emeritus Professor of Sociology and Criminal Justice. B.A., 1974, M.A., 1980, Florida; Ph.D., 1984, Texas A&M.

SAPP, TRAVIS R. A.

Associate Professor of Finance. B.S., 1994, M.S., 1995, Iowa State; Ph.D., 2001, Iowa.

SAPPINGTON, THOMAS W.

Affiliate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1979, Central Missouri State; M.S., 1982, Iowa State; Ph.D., 1989, Kansas.

SARKAR, ANWESHA

Assistant Professor of Electrical and Computer Engineering. Ph.D., 2015, Wayne State.

SARKAR, PARTHA

Professor of Aerospace Engineering and Interim Chair of the Department; Professor of Civil, Construction and Environmental Engineering. B.Tech., 1985, Indian Institute of Technology; M.S., 1986, Washington State; Ph.D., 1992, Johns Hopkins.

SARKAR, SOUMIK

Professor of Mechanical Engineering. Director of Translational AI Center. B.E., 2006, Jadavpur (India); M.A., 2009, M.S., 2009, Ph.D., 2011, Pennsylvania State.

SASHITAL, DIPALI

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 2001, Michigan; Ph.D., 2008, Wisconsin.

SATO, YUKO

Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2008, Berry (Georgia); D.V.M., 2012, Purdue.

SAUER, MARY BALL

Clinician in Veterinary Pathology. B.S., 1976, Michigan State; M.S., 1978, Loma Linda; V.M.D., 1982, Pennsylvania.

SAUER, TOM

Affiliate Professor of Agronomy. B.S., 1982, Wisconsin (Stevens Point); M.S., 1985, Ph.D., 1993, Wisconsin.

SAWYER, GARY

Associate Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1978, M.B.A., 1995, Iowa State.

SAWYER, JOHN E.

Emeritus Professor of Agronomy. B.S., 1977, Ohio State; M.S., 1985, Ph.D., 1988, Illinois.

SCACCIAOCE, JENNIFER

Clinical Assistant Professor of Veterinary Clinical Sciences. B.S., 2006, D.V.M., 2010, Iowa State.

SCANES, COLIN GUY

Affiliate Professor of Animal Science. B.S., 1969, Hull; Ph.D., 1972, Wales.

SCHAAL, MICHELE

Associate Professor of World Languages and Cultures. B.A., 1999, M.A., 2001, Strasbourg (France); M.A., 2005, Ph.D., 2012, Indiana.

SCHAEFER, JOSEPH A.

Emeritus Teaching Professor of Aerospace Engineering. B.S., 1962, Loras; Ph.D., 1972, Northwestern.

SCHAEFER, KELLY MARIE

Teaching Professor of Music and Theatre. B.F.A., 1996, Roosevelt; M.F.A., 2001, Western Illinois.

SCHAEFER, VERNON R.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1978, South Dakota State; M.S., 1981, Iowa State; Ph.D., 1987, Virginia Polytechnic.

SCHAFBUCH, PAUL

Professor of Practice in Mechanical Engineering. B.S., 1979, Iowa State; M.S., 1980, Stanford; Ph.D., 1991, Iowa State.

SCHAFER, ELISABETH A.

Emerita Professor of Food Science and Human Nutrition. B.S., 1967, Iowa State; M.A., 1970, Pennsylvania State; Ph.D., 1980, Iowa State.

SCHAFER, ROBERT

Emeritus Professor of Sociology and Criminal Justice. B.S., 1965, Utah; M.S., 1967, Iowa State; Ph.D., 1971, Pennsylvania State.

SCHALINSKE, KEVIN

Professor of Food Science and Human Nutrition. Morrill Professor. B.S., 1983, M.S., 1988, Ph.D., 1992, Wisconsin.

SCHEEL, KAREN R.

Teaching Professor of Psychology. B.A., 1987, California (Santa Cruz); Ph.D., 1999, Iowa.

SCHEIBE, KEVIN P.

Professor of Information Systems and Business Analytics and Chair of the Department. B.S., 1991, Biola; M.B.A., 1998, California State (San Marcos); Ph.D., 2003, Virginia Polytechnic Institute and State University.

SCHEIDT, PETER

Assistant Professor of Art and Visual Culture. Bachelor's, Brown; Master's, San Diego State.

SCHEWE-MILLER, IRMGARD M.

Associate Teaching Professor of Chemistry. Diplom, 1987, RWTH (Germany); Ph.D., 1990, Stuttgart (Germany).

SCHIELTZ, JENNIFER

Associate Teaching Professor of Natural Resource Ecology and Management. Ph.D., 2017, Princeton.

SCHILLING, KEITH EDWIN

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.A., 1985, Knox College; M.S., 1988, Iowa State; Ph.D., 2009, Iowa.

SCHILLING, KEVIN

Emeritus Associate Professor of Music and Theatre; Emeritus Associate Professor of School of Education. A.B., 1969, Southern California; M.M., 1971, D.M., 1985, Indiana.

SCHIPPER, BRENT

Professor of Practice, Architecture. Bachelor's, Master's, Iowa State.

SCHLEICHER, DEIDRA

Professor of Management and Entrepreneurship and Chair of the Department. B.A., 1993, Cornell; M.S., 1996, Ph.D., 1998, Pennsylvania State.

SCHLORHOLTZ, SCOTT M.

Adjunct Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 1981, M.S., 1983, Ph.D., 1990, Iowa State.

SCHMERR, LESTER W. JR.

Emeritus Professor of Aerospace Engineering. B.S., 1965, Massachusetts Institute of Technology; Ph.D., 1970, Illinois Institute of Technology.

SCHMIDT, SHELBY L.

Associate Teaching Professor of Mathematics. B.S., 2007, M.S., 2012, Iowa State.

SCHMIDT, STEFFEN W.

Emeritus Professor of Political Science; University Professor. B.A., 1965, Rollins; M.A., 1967, Ph.D., 1973, Columbia.

SCHMITTMANN, BEATE

Professor of Physics and Astronomy; Dean of the College of Liberal Arts and Sciences. B.Sc., 1981, Rwth Aachen (Germany); Ph.D., 1984, Edinburgh (UK).

SCHMITZ-ESSER, STEPHAN

Professor of Animal Science. Diploma, 2001, Technische Universität München (Germany); Ph.D., 2004, Vienna.

SCHNABLE, PATRICK S.

Professor of Agronomy; Professor of Genetics, Development and Cell Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences; Director of the Plant Sciences Institute. B.S., 1981, Cornell; Ph.D., 1986, Iowa State.

SCHNEIDER, IAN C.

Associate Professor of Chemical and Biological Engineering; Associate Professor of Genetics, Development, and Cell Biology. B.S., 2000, Iowa State; M.S., 2002, Ph.D., 2005, North Carolina State.

SCHNEIDER, PIA

Affiliate Assistant Professor of Art and Design; Affiliate Assistant Professor of Architecture. B.Arch., 1985, Swiss Federal Institute of Technology; M.Arch., 1987, Southern California Inst. of Arch.

SCHNEIDER, WENDIE ELLEN

Adjunct Associate Professor of History. B.A., 1992, Stanford; J.D., 2001, Ph.D., 2006, Yale.

SCHRADER, GLENN L.

Emeritus Professor of Chemical and Biological Engineering. B.S., 1972, Iowa State; Ph.D., 1976, Wisconsin.

SCHRADER, JAMES

Adjunct Assistant Professor of Horticulture. B.A., 1997, Bemidji State; M.S., 1999, Ph.D., 2002, Iowa State.

SCHRIER, THOMAS

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1999, Purdue; M.B.A., 2004, Ball State; Ph.D., 2009, Nevada (Las Vegas).

SCHROEDER, JOANNA

Assistant Teaching Professor of Greenlee School of Journalism and Communication. B.S., 1995, M.S., 2001, Iowa State.

SCHROETER, JOHN R.

Emeritus Professor of Economics. B.S., 1973, California Institute of Technology; Ph.D., 1981, Minnesota.

SCHUH, JOHN H.

Emeritus Professor of School of Education; Distinguished Professor of Education. B.A., 1969, Wisconsin (Oshkosh); M.S., 1972, Ph.D., 1974, Arizona State.

SCHULTE-MOORE, LISA ANN

Professor of Natural Resource Ecology and Management. Director of the Bioeconomy Institute. B.S., 1993, Wisconsin (Eau Claire); M.S., 1996, Minnesota; Ph.D., 2002, Wisconsin.

SCHULTZ, RICHARD CARL

Professor of Natural Resource Ecology and Management; University Professor. B.S., 1965, M.S., 1968, Ph.D., 1970, Iowa State.

SCHULZ, LEE L.

Associate Professor of Economics. B.S., 2006, Wisconsin (River Falls); M.S., 2008, Michigan State; Ph.D., 2012, Kansas State.

SCHUMACHER, LONI

Clinical Assistant Professor of Veterinary Pathology. Bachelor's, 2007, South Dakota State; DVM, 2011, Oklahoma State; Master's, 2016, Kansas State; Ph.D., Iowa State.

SCHWAB, ANDREAS

Associate Professor of Management and Entrepreneurship. M.B.A., 1987, Eastern Illinois; M.A., 1991, Mannheim (Germany); Ph.D., 2000, Wisconsin.

SCHWAB, CHARLES V.

Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1982, Ph.D., 1989, Kentucky.

SCHWAB, CLINTON

Affiliate Assistant Professor of Animal Science. B.S., 2001, Colorado State; M.S., 2005, Ph.D., 2007, Iowa State.

SCHWARTE, BARBARA

Emerita Associate Professor of English. A.B., 1971, William Jewell; Ph.D., 1981, Illinois.

SCHWARTZ, ADAM

Professor of Materials Science and Engineering; Director of Ames Laboratory. B.S., 1985, M.S., 1989, Ph.D., 1991, Pittsburgh.

SCHWARTZ, CHRISTIAN J.

Professor of Mechanical Engineering. Assistant Dean of the College of Engineering. B.S., 1996, M.S., 1998, Ph.D., 2006, Iowa State.

SCHWARTZ, KENT J.

Emeritus Clinical Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1974, D.V.M., 1978, M.S., 1987, Iowa State.

SCHWEINGRUBER, DAVID SCOTT

Associate Professor of Sociology and Criminal Justice. B.A., 1990, Bluffton College; M.A., 1993, Ph.D., 1999, Illinois.

SCOTT, CHRISTOPHER

Assistant Teaching Professor of Graphic Design. Associate's, Holy Trinity; Associate's, Master's, Ulster.

SCOTT, MARVIN PAUL

Affiliate Professor of Agronomy. B.S., 1986, Iowa State; Ph.D., 1992, Purdue.

SCOTT, NORMAN A.

Emeritus Associate Professor of Psychology. B.S., 1965, Bucknell; M.A., 1967, Temple; Ph.D., 1971, Maryland.

SCOTT, THOMAS MARVIN

Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1953, Maryland; Ph.D., 1962, Wisconsin.

SCUPHAM, ALEXANDRA

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1994, Ph.D., 2000, Wisconsin.

SEAGRAVE, RICHARD C.

Emeritus Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, Rhode Island; M.S., 1959, Ph.D., 1961, Iowa State.

SEATON, VAUGHN A.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1954, D.V.M., 1954, Kansas State; M.S., 1957, Iowa State.

SEBRANEK, JOSEPH G.

Emeritus Professor of Animal Science. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences; University Professor. B.S., 1970, M.S., 1971, Ph.D., 1974, Wisconsin.

SECOR, ETHAN

Assistant Professor of Mechanical Engineering. B.S., 2012, B.S., 2012, Drake. Ph.D., 2017, Northwestern.

SEEGER, CHRISTOPHER J.

Associate Professor of Landscape Architecture. B.L.A., 1995, B.S., 1995, North Dakota State; M.L.A., 1997, Iowa State.

SEGNER, ANNA

Assistant Teaching Professor of Art and Visual Culture. M.A., 2019, Iowa State.

SELBY, MARTHA ANN

Emerita Adjunct Assistant Professor of Materials Science and Engineering. B.S., 1981, M.S., 1988, Iowa State.

SELIM, MOHAMED

Associate Teaching Professor of Electrical and Computer Engineering. Ph.D., 2018, Iowa State.

SELLERS, DEBRA M.

Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.A., 1988, M.S., 1993, Florida; Ph.D., 2004, Kansas State.

SELSBY, JOSHUA TAYLOR

Professor of Animal Science; Professor of Kinesiology; Professor of Biomedical Sciences. B.A., 1999, Wooster College; M.A., 2001, Ohio State; Ph.D., 2005, Florida.

SEN, SRIMOYEE

Assistant Professor of Physics and Astronomy. Ph.D., 2015, Maryland-College Park.

SEN, TANER Z.

Affiliate Assistant Professor of Genetics, Development, and Cell Biology. B.S., 1996, M.S., 1998, Bogazici (Turkey); Ph.D., 2003, Akron.

SENCINA, DAVID S.

Affiliate Professor of Kinesiology. B.A., 2000, Northern Iowa; Ph.D., 2006, Iowa State.

SENSKE, NICK

Associate Professor of Architecture. B.Arch., 2003, Iowa State; M.Arch., 2005, Massachusetts Institute of Technology; Ph.D., 2010, Michigan.

SEO, HILARY

Associate Professor, Library; Dean of Library Services. B.A., 1991, California (Santa Barbara); M.A., 1993, Wisconsin.

SERB, JEANNE M.

Professor of Ecology, Evolution, and Organismal Biology; Director of Biotechnology. B.S., 1995, M.S., 1999, Illinois; Ph.D., 2003, Alabama.

SERVADO, SIMONE

Assistant Professor of Aerospace Engineering. Bachelor's, Master's, Politecnico di Milano; Ph.D., Texas at Austin.

SEVERIN, ANDREW JOSEF

Adjunct Assistant Professor of Ecology, Evolution, and Organismal Biology. Ph.D., 2009, Iowa State.

SEVERSIKE, LEVERNE K.

Emeritus Associate Professor of Aerospace Engineering. B.S., 1958, M.S., 1961, Ph.D., 1964, Iowa State.

SHAFEI-PAMSARI, BEHROUZ

Associate Professor of Civil, Construction, and Environmental Engineering. B.Sc., 2004, M.Sc., 2006, Tehran; Ph.D., 2011, California (Irvine).

SHAIKO, CHRISTOPHER L.

Adjunct Instructor in Military Science. B.S., American Military.

SHANE, JENNIFER

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 2000, Colorado School of Mines; M.S., 2003, Ph.D., 2006, Colorado.

SHANE-NICHOLS, AMY

Assistant Teaching Professor of Apparel, Events, and Hospitality Management. B.S., 1998, Ph.D., 2017, Iowa State; M.B.A., 2011, Iowa.

SHANK, WESLEY IVAN

Emeritus Professor of Architecture. B.A., 1951, California (Berkeley); M.Arch., 1965, McGill.

SHANKS, BRENT H.

Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering; Director of the Center for Biorenewable Chemicals. B.S., 1983, Iowa State; M.S., 1985, Ph.D., 1988, California Institute of Technology.

SHANKS, JACQUELINE V.

Professor of Chemical and Biological Engineering. B.S., 1983, Iowa State; Ph.D., 1989, California Institute of Technology.

SHANNON, RACHEL ANN

Assistant Teaching Professor of Electrical and Computer Engineering. Master's, 2020, Iowa State.

SHAO, PAUL

Emeritus Professor of Architecture. B.A., 1964, Ohio; B.F.A., 1965, Great China Art College; M.A., 1966, Kansas; M.F.A., 1970, Ed.D., 1979, Massachusetts.

SHAO, ZENGYI

Associate Professor of Chemical and Biological Engineering. B.S., 2002, Nankai (China); M.S., 2005, Ph.D., 2009, Illinois.

SHAPIRO, HOWARD N.

Emeritus Professor of Mechanical Engineering. B.S., 1969, M.S., 1971, Ph.D., 1975, Ohio State.

SHARMA, AKSHAY

Associate Professor of Industrial Design and Chair of Department. B.Arch., 1996, School of Planning and Architecture, New Delhi; M.S., 2001, Arizona State.

SHARMA, ANUJ

Professor of Civil, Construction, and Environmental Engineering. B.E., 2001, Regional Engineering (Rourkela, India); M.S., 2004, Texas A&M; Ph.D., 2008, Purdue.

SHARMA, ANUPAM

Associate Professor of Aerospace Engineering. B.Tech., 1999, Indian Institute of Technology (Bombay); M.S., 2001, Ph.D., 2004, Pennsylvania State.

SHARP, JONATHAN R.

Associate Professor of Music and Theatre. B.Mus., 2008, Morehead State; M.Mus., 2011, Illinois; D.Mus.A., 2014, Kentucky.

SHARP, RICK LEE

Emeritus Professor of Kinesiology; Emeritus Professor of Food Science and Human Nutrition. B.A., 1974, California State (Chico); M.Ed., 1976, Nevada; Ph.D., 1983, Ball State.

SHAW, KELLY B.

Associate Teaching Professor of Political Science. B.A., 1988, Central; M.A., 1994, Iowa State; Ph.D., 2002, Missouri.

SHEAFFER, JEREMY W.

Assistant Teaching Professor of Computer Science. B.S., 2001, Millersville; M.S., 2003, Temple; Ph.D., 2007, Virginia.

SHEARER, JAN

Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1971, Ashland; D.V.M., 1975, M.S., 1981, Ohio State.

SHEBLE, GERALD B.

Emeritus Professor of Electrical and Computer Engineering. B.S., 1971, M.S., 1974, Purdue; Ph.D., 1985, Virginia Polytechnic Institute.

SHECHTMAN, DAN

Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1966, M.Sc., 1968, Ph.D., 1972, Technion (Israel).

SHECHTMAN, ZIPORA

Affiliate Professor of Psychology. B.A., 1968, Haifa (Israel); M.A., 1975, Dayton; Ph.D., 1983, American.

SHEDD, CELIA P.

Assistant Professor of Practice in Human Development and Family Studies. B.S., 1994, Iowa State; M.Ed., 1998, Illinois.

SHEIDAEI, AZADEH

Assistant Professor of Aerospace Engineering. B.S., 2003, Sharif of Technology (Iran), M.S., 2009, Ph.D., 2015, Michigan State.

SHELLEY, MACK CLAYTON

Professor of Political Science; Professor of Statistics; University Professor. B.A., 1972, American; M.S., 1973, Ph.D., 1977, Wisconsin.

SHEN, JIEHUA

Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1982, Hefei University of Technology (China); M.S., 1985, Chinese Academy of Sciences (Beijing); Ph.D., 1992, California (Berkeley).

SHEN, JUNYAN

Adjunct Assistant Professor of Finance. Ph.D., 2016, Minnesota.

SHENK, LINDA

Professor of English. B.A., 1991, James Madison; M.A., 1994, Alaska; Ph.D., 2002, Minnesota.

SHEPHERD, TIMOTHY A.

Associate Teaching Professor of Agricultural and Biosystems Engineering. B.S., 2005, M.S., 2007, Iowa State.

SHERMAN, PETER JAMES

Associate Professor of Aerospace Engineering; Associate Professor of Statistics. B.S., 1974, M.S., 1975, Ph.D., 1984, Wisconsin.

SHIBLES, RICHARD M.

Emeritus Professor of Agronomy. B.S., 1956, Maine; M.S., 1958, Ph.D., 1961, Cornell.

SHIELDS, JAVAN

Assistant Teaching Professor of Music and Theatre. B.M., Indiana Wesleyan; M.M., 2018, Akron.

SHIN, YEON-KYUN

Professor of Biochemistry, Biophysics, and Molecular Biology; Professor of Physics and Astronomy. B.S., 1982, Seoul National (Korea); Ph.D., 1990, Cornell.

SHINAR, JOSEPH

Emeritus Professor of Physics and Astronomy; Emeritus Professor of Electrical and Computer Engineering. B.Sc., 1972, M.Sc., 1974, Ph.D., 1980, Hebrew (Israel).

SHINAR, RUTH

Adjunct Professor of Electrical and Computer Engineering. B.S., 1968, M.S., 1972, Ph.D., 1977, Hebrew (Israel).

SHINN, RICHARD DUANE

Emeritus Professor of Community and Regional Planning. B.Arch., 1960, Idaho; M.S.C.R.P., 1962, Southern California; Ph.D., 1969, Washington.

SHIRTCLIFF, BENJAMIN

Associate Professor of Landscape Architecture. B.A., 1999, Oregon; B.L.A., 2004, M.L.A., 2004, Pennsylvania State; Ph.D., 2012, New Orleans.

SHOGREN-KNAAK, MICHAEL

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1994, Stanford; Ph.D., 2000, California Institute of Technology.

SHONROCK, DIANA D.

Emerita Professor of Library. B.S., 1969, M.S., 1975, Iowa State; M.L.S., 1992, Iowa.

SHOOK, ROBIN P.

Affiliate Assistant Professor of Kinesiology. B.A., 2000, Northern Iowa; M.S., 2004, Iowa State; Ph.D., 2013, South Carolina.

SHRADER, CHARLES B.

Emeritus Professor of Management and Entrepreneurship; Morrill Professor; University Professor. B.S., 1976, M.P.A., 1978, Brigham Young; M.B.A., 1982, Ph.D., 1984, Indiana.

SHROTRIYA, PRANAV

Professor of Mechanical Engineering. B.Tech., 1995, Indian Institute of Technology (India); Ph.D., 2000, Illinois.

SIEPKER, CHRISTOPHER

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2009, Nebraska (Lincoln); D.V.M., 2016, Kansas State.

SILET, CHARLES L.

Emeritus Professor of English. B.A., 1966, Butler; M.A., 1968, Ph.D., 1973, Indiana.

SILVA, KARINA

Associate Teaching Professor of English. Ph.D., 2012, Iowa State.

SIMON, JACOB

Assistant Professor of Physics and Astronomy. M.S., 2006, Ph.D., 2010, Virginia.

SIMONSON, DONALD R.

Emeritus Professor of Music and Theatre. Morrill Professor. B.M.E., 1974, B.Mus., 1975, M.M., 1976, Drake; D.M., 1987, Northwestern.

SIMPKINS, WILLIAM W.

Emeritus Professor of Geological and Atmospheric Sciences. B.A., 1976, Augustana (Illinois); M.S., 1979, Ph.D., 1989, Wisconsin.

SIMPSON, STEPHEN

Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1986, Maryland; M.B.A., 1992, Hood; Ph.D., 2015, Iowa State.

SINGER, SHIRLEE R.

Emerita Professor of Art and Design. B.A., 1956, M.A., 1966, North Texas.

SINGH, ARTI

Associate Professor of Agronomy. B.Sc., 2001, M.Sc., 2003, Ph.D., 2006, G. B. Pant University of Agriculture and Technology (India).

SINGH, ASHEESH

Professor of Agronomy. B.S., 1998, G.B. Pant University of Agriculture and Technology (India); M.Sc., 2001, Saskatchewan; Ph.D., 2007, Guelph (Canada).

SINGH, NATALIA N.

Adjunct Associate Professor of Biomedical Sciences. M.S., 1988, Leningrad Lensovet Institute (Russia); Ph.D., 1995, Russian Academy of Science.

SINGH, RAJESH

Professor of Economics. B.S., 1981, M.S., 1983, IIT (India); Ph.D., 2002, California (Los Angeles).

SINGH, RAVINDRA N.

Professor of Biomedical Sciences. B.Sc., 1983, M.Sc., 1985, Banaras Hindu (India); Ph.D., 1993, Russian Academy of Sciences.

SIPPEL, TRAVIS

Associate Professor of Mechanical Engineering. B.S., 2006, Kansas; M.S., 2009, Ph.D., 2013, Purdue.

SIVASANKAR, SANJEEVI

Affiliate Associate Professor of Physics and Astronomy. Ph.D., 2001, Illinois (Urbana-Champaign).

SIVILS, MATTHEW

Professor of English. Director of the Center for Excellence in the Arts and Humanities. B.S., 1994, Arkansas Tech; M.A., 2002, Ph.D., 2006, Oklahoma State.

SKAAR, BRAD RICHARD

Associate Professor of Animal Science. B.S., 1979, Colorado State; M.S., 1982, Ph.D., 1985, Iowa State.

SKRYNNIKOVA, LIDIA R.

Associate Teaching Professor of Natural Resource and Ecology Management. B.S., 1993, St. Petersburg; M.S., 1995, Notre Dame; Ph.D., 1998, Michigan.

SLACK, SUZANNE

Assistant Professor of Horticulture. Bachelor's, The Pennsylvania State; Master's, Ph.D., Michigan State.

SLAGELL, AMY R.

Associate Professor of English; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1983, Ohio; M.A., 1986, Ph.D., 1992, Wisconsin.

SLATER, TAMMY J.

Emerita Associate Professor of English. B.A., 1986, Victoria (Canada); M.A., 1998, Ph.D., 2004, British Columbia (Canada).

SLOWING, IGOR IVAN

Adjunct Assistant Professor of Chemistry. Ph.D., 2008, Iowa State.

SLUTSKY, KONSTANTIN

Assistant Professor of Mathematics. Ph.D., 2012, Illinois at Urbana-Champaign.

SLY, DAVID

Teaching Professor of Industrial and Manufacturing Systems Engineering. B.S., 1985, M.S., 1990, M.B.A., 1995, Ph.D., 2004, Iowa State.

SMADI, OMAR

Professor of Civil, Construction, and Environmental Engineering. B.S., 1987, Yarmouk (Jordan); M.S., 1991, Ph.D., 2000, Iowa State.

SMALLEY, SCOTT

Associate Professor of Agricultural Education and Studies. B.S., Michigan State; M.S., 2006, Ph.D., 2011, Iowa State.

SMAY, TERRY ALLEN

Emeritus Professor of Electrical and Computer Engineering. B.S., 1957, M.S., 1959, Ph.D., 1962, Iowa State.

SMILEY, MICHAEL W.

Emeritus Professor of Mathematics. B.S., 1975, M.S., 1976, Michigan Tech; Ph.D., 1980, Michigan.

SMILEY-OYEN, ANN

Professor of Kinesiology. B.S., 1977, M.S., 1979, Illinois; B.A., 1989, Ph.D., 1993, Michigan.

SMITH, AMY ERICA

Associate Professor of Political Science. B.A., 1999, Texas; M.A., 2002, Cornell; Ph.D., 2011, Pittsburgh.

SMITH, ANDREW

Associate Professor of Psychology. Ph.D., 2015.

SMITH, ARTHUR A. JR.

Emeritus Professor of Philosophy and Religious Studies; Emeritus Professor of Political Science. B.A., 1974, Boston College; Ph.D., 1980, New York (Stony Brook).

SMITH, BRUCE E.

Emeritus Professor of Art and Design. B.F.A., 1967, M.F.A., 1971, Michigan State.

SMITH, CARL RAY

Emeritus Professor of School of Education. B.S., 1971, M.Ed., 1973, Virginia Commonwealth; Ph.D., 1983, Iowa.

SMITH, DOUG

Associate Professor of School of Education. B.S., Nebraska; M.A., Ball State; Ph.D., Wyoming.

SMITH, ELIZABETH SWANNER

Assistant Professor of Geological and Atmospheric Sciences. A.B., 2003, Mount Holyoke; Ph.D., 2011, Colorado.

SMITH, EMILY

Professor of Chemistry. B.A., 1988, Northwestern; M.S., 2000, Pennsylvania State; Ph.D., 2003, Wisconsin (Madison).

SMITH, ERIC

Professor of Practice in Supply Chain Management. B.S., 1995, M.S., 2013, Iowa State.

SMITH, JENNIFER D.

Associate Teaching Professor of Kinesiology. B.S., 2006, M.S., 2009, Iowa State.

SMITH, JONATHAN D. H.

Professor of Mathematics. B.A., 1970, M.A., 1974, Ph.D., 1975, Cambridge; Dr.rer.nat, 1983, Darmstadt (Germany).

SMITH, KIM ANTHONY

Emeritus Professor of Greenlee School of Journalism and Communication. B.A., 1974, M.A., 1976, Ph.D., 1978, Wisconsin.

SMITH, RACHEL

Assistant Professor of School of Education. B.A., 2002, Wisconsin (Madison); M.S., 2005, Ph.D., 2010, Syracuse.

SMITH, RICHARD JOHN

Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1962, Kings College; M.S., 1967, Ph.D., 1971, Iowa State.

SMITH, ROGER A. P.

Emeritus Professor of School of Education. B.A., 1969, M.A., 1971, Northern Iowa; Ph.D., 1974, Iowa State.

SMITH, RYAN C.

Associate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 2002, Ph.D., 2007, California (Riverside).

SOENKSEN, JOEL L.

Adjunct Assistant Professor of Military Science and Tactics. B.A., 1990, M.B.A., 2002, Northern Iowa.

SOJKA, NADINE

Affiliate Instructor in Genetics, Development, and Cell Biology. B.A., 1969, Northern Iowa; MHA, 1996, California College of Health.

SOMANI, ARUN K.

Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering; Associate Dean of the College

of Engineering. B.E., 1973, Bit (India); M.Tech., 1979, IIT (India); M.S.E.E., 1983, Ph.D., 1985, McGill (Canada).

SOMERVILLE, ANDREW

Assistant Professor of World Languages and Cultures. B.A., 2006, Arizona State; M.A., 2010, Ph.D., 2015, California (San Diego).

SONG, GUOWEN

Professor of Apparel, Events, and Hospitality Management. B.S., 1986, M.S., 1992, Tianjin Polytechnic (China); Ph.D., 2002, North Carolina State.

SONG, JIMING

Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1988, Nanjing (China); Ph.D., 1993, Michigan State.

SONG, SUNG YELL

Associate Professor of Mathematics. B.S., 1974, Seoul; Ph.D., 1987, Ohio State.

SONG, XUEYU

Professor of Chemistry. B.S., 1984, Nankai (China); Ph.D., 1995, California Institute of Technology.

SONKA, CHAD

Assistant Teaching Professor of Music and Theatre. M.M., 2014, Manhattan School of Music.

SONSAAT-HEGELHEIMER, SINEM

Assistant Professor of English. M.A., Hacettepe; Ph.D., Iowa State.

SONTAG, JON

Emeritus Professor of Art and Design. B.S., 1955, Winona; M.A., 1963, Ph.D., 1970, Minnesota.

SOUKOULIS, COSTAS M.

Emeritus Professor of Physics and Astronomy; Emeritus Professor of Electrical and Computer Engineering; Emeritus Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Athens; M.S., 1975, Ph.D., 1978, Chicago.

SOULEYRETTE, REGINALD

Affiliate Professor of Civil, Construction, and Environmental Engineering. B.S.C.E., 1984, M.S.C.E., 1986, Texas; Ph.D., 1989, California (Berkeley).

SOUPIR, MICHELLE LYNN

Professor of Agricultural and Biosystems Engineering; Professor of Civil, Construction, and Environmental Engineering. Associate Dean of the Graduate College. B.S., 1999, Kansas State; M.S., 2003, Ph.D., 2007, Virginia Polytechnic.

SPALDING, BEATRIZ MARIA

Assistant Teaching Professor of Ecology, Evolution, and Organismal Biology. B.S., 1976, Napoli (Italy); M.S., 1988, Iowa State.

SPALDING, DAVID PETER

Professor of Finance; Dean of the Ivy College of Business; Vice President for Economic Development and Industry Relations. B.A., 1976, Dartmouth; M.B.A., 1984, New York.

SPALDING, MARTIN H. II

Emeritus Professor of Genetics, Development, and Cell Biology. B.S., 1974, M.S., 1976, Washington State; Ph.D., 1979, Wisconsin.

SPENCER, DOUGLAS

Associate Professor of Architecture. Ph.D., 2012, Westminster.

SPEL, FRANCIS

Affiliate Professor of Military Science and Tactics and Chair of the Department. Bachelor's, 2002, United States Military Academy; Master's, 2018, Naval Postgraduate School.

SPIKE, PHILIP LOWELL

Emeritus Professor of Animal Science. B.S., 1970, M.S., 1972, Michigan State; Ph.D., 1975, Iowa State.

SPILLER, JAMES

Associate Professor of Practice, Finance. B.A., 2007, Washington (St. Louis); M.Arch., 2009, School of the Art Institute of Chicago.

SPODEN, JESSICA

Assistant Teaching Professor of Community and Regional Planning. B. S., 2009, Iowa State; J.D., 2012, Iowa.

SPONSELLER, BEATRICE T.

Clinical Professor of Veterinary Clinical Sciences. D.V.M., 1996, Berlin (Germany).

SPONSELLER, BRETT A.

Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1990, Virginia Polytechnic; D.V.M., 1994, Cornell; Ph.D., 2003, Iowa State.

SPRINGSTEEN HAUPT, MISSY

Assistant Teaching Professor of School of Education. Master's, 2014, Northern Iowa.

SPRY, PAUL G.

Professor of Geological and Atmospheric Sciences. B.S., 1976, B.S., 1977, M.S., 1979, Adelaide; Ph.D., 1984, Toronto.

SQUIRE, MITCHELL J.

Professor of Architecture. Morrill Professor. B.Arch., 1994, M.Arch., 2001, Iowa State.

SRITHARAN, SIVALINGAM

Professor of Civil, Construction and Environmental Engineering; Assistant Dean of the College of Engineering. Anson Marston Distinguished Professor in Engineering. B.S.C.E., 1985, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

SRIVASTAVA, RENU

Assistant Teaching Professor of Genetics, Development, and Cell Biology. B.S., Lucknow; Ph.D., National Botanical Research Institute of the Council of Scientific and Industrial Research (India).

ST GERMAIN, ALISON MARIE

Clinical Associate Professor of Food Science and Human Nutrition. B.S., 1995, M.S., 1999, Iowa State.

STABEL, JUDITH R.

Affiliate Professor of Animal Science. B.S., 1981, M.S., 1983, Kentucky; Ph.D., 1987, North Carolina State.

STACY-BATES, KRISTINE

Associate Professor, Library. B.S., 1992, Iowa State; M.A., 1994, M.A., 1997, Wisconsin.

STALLARD, MICHELLE

Assistant Teaching Professor of Industrial and Manufacturing Systems Engineering. Bachelor's, Master's, Iowa State.

STAMY, CELINDA

Associate Teaching Professor of Art and Visual Culture. B.F.A., 2010, Columbia (Missouri); M.F.A., 2014, Iowa State.

STANFORD, JOHN L.

Emeritus Professor of Physics and Astronomy. B.S., 1960, Texas; Ph.D., 1965, Maryland.

STANLEY, LEVI M.

Associate Professor of Chemistry. B.A., 2001, Augustana (Sioux Falls); Ph.D., 2008, North Dakota State.

STANTON, THADDEUS BRIAN

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1972, Thomas More; Ph.D., 1980, Massachusetts.

STARLEAF, DENNIS R.

Emeritus Professor of Economics. B.A., 1959, California (Berkeley); M.A., 1960, California (Los Angeles); Ph.D., 1967, Vanderbilt.

STARLING, DAVID

Associate Teaching Professor of Biomedical Sciences. D.V.M., 1975, Iowa State.

STARNs, GLORIA K.

Emeritus Teaching Professor of Mechanical Engineering. B.S., 1979, B.S., 1986, Kentucky; M.S., 1990, Ph.D., 1996, Iowa State.

STECKELBERG, CAROLYN

Associate Professor of Practice in Human Development and Family Studies. B.B.A., 1994, M.F.C.S., 2010, Iowa State.

STEGEMOLLER, ELIZABETH

Associate Professor of Kinesiology. B.A., 2001, B.S., 2001, Missouri (Kansas City); Ph.D., 2010, Northwestern.

STEIBEL, JUAN

Professor of Animal Science. Bachelor's, National University of La Pampa; Master's, Buenos Aires; Ph.D., Michigan State.

STEINER, ANNE K.

Emerita Professor of Mathematics. A.B., 1958, M.A., 1963, Missouri; Ph.D., 1965, New Mexico.

STEINER, EUGENE F.

Emeritus Professor of Mathematics. B.S., 1954, Missouri (Rolla); M.A., 1960, Ph.D., 1963, Missouri.

STEPHENSON, DAVID T.

Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1958, Washington State; M.S., 1962, Ph.D., 1965, Illinois.

STEPHENSON, W. ROBERT

Emeritus Professor of Statistics; Morrill Professor; University Professor. B.A., 1974, Gettysburg; M.S., 1976, Ph.D., 1979, Connecticut.

STERLE, JODI

Professor of Animal Science. B.S., 1993, Michigan State; M.S., 1995, Ph.D., 1998, Missouri.

STERNBERG, STEEN-HENRIK

Associate Professor of Supply Chain Management. B.S., 2001, Blekinge University of Technology (Sweden); M.S., 2006, Ph.D., 2011, Chalmers University of Technology (Sweden).

STEVENS, CLAY

Assistant Professor of Computer Science. Bachelor's, Bachelor's, Nebraska-Lincoln; Master's, Trinity College Dublin; Ph.D., Nebraska-Lincoln.

STEVENS, JULIE L.

Associate Professor of Landscape Architecture. B.S., 2002, Iowa State; M.L.A., 2008, Oregon.

STEVENSON, GREGORY W.

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1979, M.S., 1981, Ph.D., 1990, Iowa State.

STEVERMER, EMMETT J.

Emeritus Professor of Animal Science. B.S., 1958, M.S., 1960, Ph.D., 1962, Wisconsin.

STEWART, BRIAN LYNN

Professor of Agricultural and Biosystems Engineering. B.S., 1989, M.S., 1994, South Dakota State; Ph.D., 1999, Illinois.

STEWART, AUSTIN

Associate Professor of Art and Visual Culture. B.F.A., 2000, School of the Art Institute of Chicago; M.F.A., 2012, The Ohio State.

STEWART, SUSAN DIANE

Professor of Sociology and Criminal Justice. B.A., 1990, New York (Fredonia); M.A., 1996, Ph.D., 2000, Bowling Green State.

STEWART, TERAH

Assistant Professor of School of Education. B.A., M.A., MLHR, The Ohio State; Ph.D., Georgia.

STEWART, TIMOTHY W.

Associate Professor of Natural Resource Ecology and Management. B.A., 1989, Ithaca College; M.Sc., 1993, New York (Brockport); Ph.D., 1999, Bowling Green State.

STILL-BROOKS, KELLY M.

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2001, Berry College (Georgia); D.V.M., 2005, Cornell; M.P.H., 2010, Iowa.

STINES, ELIJAH JAMES

Teaching Professor of Mathematics. B.S., 2006, M.A., 2008, South Dakota; Ph.D., 2012, Iowa State.

STINGA, PABLO-RAUL

Associate Professor of Mathematics. B.S., 2005, Universidad Nacional de San Luis (Argentina); M.S., 2007, Ph.D., 2010, Universidad Autonoma de Madrid (Spain).

STOEHR, ALISSA

Associate Teaching Professor of Sociology and Criminal Justice and Women's and Gender Studies. B.L.S., 1998, B.S., 1999, M.S., 2009, Ph.D., 2016, Iowa State.

STOKKE, DOUGLAS D.

Emeritus Teaching Professor of Natural Resource Ecology and Management. B.S., 1980, Iowa State; M.S., 1982, Minnesota; Ph.D., 1986, Iowa State.

STOLEE, KATHRYN

Affiliate Assistant Professor of Computer Science. B.S., 2008, M.S., 2010, Ph.D., 2013, Nebraska-Lincoln.

STONE, JANIS FINLEY

Emerita Professor of Apparel, Events, and Hospitality Management. B.S., 1959, M.S., 1963, Ph.D., 1978, Illinois.

STONE, KENNETH EUGENE

Emeritus Professor of Economics. B.S., 1958, Illinois; M.M.S., 1971, Texas Christian; Ph.D., 1976, Illinois.

STONE, RICHARD T.

Associate Professor of Industrial and Manufacturing Systems Engineering; Associate Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Rochester Institute of Technology; Ph.D., 2008, New York (Buffalo).

STONER, KRISTIN

Teaching Professor of English. B.A., 2001, M.A., 2003, Iowa State; M.F.A., 2008, Antioch.

STOUT, JANEANN

Emerita Associate Professor of Art and Design; Emerita Associate Dean of the College of Human Sciences. B.S., 1971, M.A., 1974, Iowa State.

STOVER, ROGER D.

Emeritus Professor of Finance. B.A., 1966, Hamline; M.B.A., 1968, Indiana; D.B.A., 1975, Virginia.

STOYTCHEV, ALEXANDER T.

Associate Professor of Electrical and Computer Engineering; Associate Professor of Computer Science. B.A., 1997, American (Bulgaria); M.S., 2001, Ph.D., 2005, Georgia Institute of Technology.

STRAHAN, ROBERT

Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1961, Kansas (Pittsburg), Ph.D., 1967, Minnesota.

STRATHE, MARLENE

Emerita Professor of School of Education. B.S., 1967, M.S., 1969, Iowa State; Ed.S., 1973, Northern Iowa; Ph.D., 1975, Iowa State.

STRAWN, GEORGE O.

Emeritus Associate Professor of Computer Science. B.A., 1962, Cornell College; Ph.D., 1969, Iowa State.

STREETER-SCHAEFER, HOLLY

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. Bachelor's, Iowa State; J.D., Drake.

STROHBEHN, CATHERINE

Emerita Adjunct Professor of Apparel, Events, and Hospitality Management. B.S., 1979, Texas Tech; M.S., 1981, Ph.D., 1991, Iowa State.

STROHBEHN, DARYL R.

Emeritus Professor of Animal Science. B.S., 1970, Iowa State; M.S., 1972, Ph.D., 1974, Michigan State.

STROMER, MARVIN H.

Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1959, Ph.D., 1966, Iowa State.

STRONG, JOHN R.

Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Brigham Young; M.S., 1962, Arizona State; Ph.D., 1974, Oregon State.

STRONG, KELLY

Affiliate Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1980, Iowa State; M.B.A., 1988, St. Thomas; Ph.D., 1992, Colorado.

STRUCK, CURTIS J.

Emeritus Professor of Physics and Astronomy. B.S., 1976, Minnesota; M.Phil., 1978, Ph.D., 1981, Yale.

STRUVE, WALTER SCOTT

Emeritus Professor of Chemistry. A.B., 1967, Ph.D., 1972, Harvard.

STUART, DAVID H.

Emeritus Professor of Music and Theatre; Emeritus Professor of School of Education. B.A., 1972, M.M., 1973, South Florida; D.M.A., 1981, Iowa.

STURGES, LEROY DONALD

Emeritus Associate Professor of Aerospace Engineering. B.Aer.E., 1967, M.S., 1975, Ph.D., 1977, Minnesota.

STURGILL, ROY

Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 2003, M.B.A., 2003, Kentucky; M.S., 2004, Virginia Tech; Ph.D., 2018, Kentucky.

STURM, JONATHAN

Emeritus Professor of Music and Theatre. Morrill Professor. B.Mus., 1983, Oberlin College; M.A., 1985, M.M., 1985, Eastman School of Music; D.M.A., 1995, Indiana.

STURM, JULIE

Teaching Professor of Music and Theatre. B.M., 1982, San Francisco Conservatory; M.M., 1983, Indiana; Ph.D., 1996, Arizona.

STURTEVANT, BRIAN R.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1992, Rutgers; M.S., 1996, Utah State; Ph.D., 2001, Maryland.

SU, CHING-HUI

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1998, Chinese Culture; M.S., 2001, Florida International; Ph.D., 2013, Texas Tech.

SUAREZ, LUCIA DE LAS MERCE

Associate Professor of World Languages and Cultures; Director of US Latino/a Studies. B.A., 1991, City University of New York; Ph.D., 1999, Duke.

SUBRAMANIAM, SHANKAR

Professor of Mechanical Engineering. B.Tech., 1988, Indian Institute of Technology (India); M.S., 1990, Notre Dame; Ph.D., 1997, Cornell.

SUH, SANG-GON

Affiliate Professor of Horticulture. B.S., 1984, M.S., 1986, Yeungnam (Korea); Ph.D., 1990, Iowa State.

SUKUL, ADISAK

Associate Teaching Professor of Computer Science. B.Sc., 2000, M.Sc., 2003, King Mongkut's Institute of Technology (Thailand); Ph.D., 2010, Chulalongkorn (Thailand).

SUKUP, CHARLES

Professor of Practice in Agricultural and Biosystems Engineering. B.S., 1976, M.S., 1982, Iowa State.

SULLIVAN, KALA

Assistant Teaching Professor of Human Development and Family Studies. M.S., 2015, Drake.

SUMMERFELT, ROBERT C.

Emeritus Professor of Natural Resource Ecology and Management. B.S., 1957, Wisconsin (Stevens Point); M.S., 1959, Ph.D., 1964, Southern Illinois.

SUMMERS, JAMES

Associate Professor of Management and Entrepreneurship. B.S., 2002, M.B.A., 2003, Southwest Missouri State; Ph.D., 2009, Florida State.

SUN, HUA

Associate Professor of Finance. B.A., 1999, Nankai (China); M.Sc., 2003, National University of Singapore; Ph.D., 2008, British Columbia.

SUNDARARAJAN, SRIRAM

Professor of Mechanical Engineering; Associate Dean of the College of Engineering. B.E., 1995, Birla Institute of Technology and Science; M.S., 1997, Ph.D., 2001, Ohio State.

SUNDERMAN, ROBERT A.

Emeritus Associate Professor of Music and Theatre. B.F.A., 1979, M.A., 1981, M.F.A., 1982, Iowa.

SUZA, WALTER

Adjunct Associate Professor of Agronomy. B.S., 1996, M.S., 2001, Murray State; Ph.D., 2006, Nebraska.

SUZUKI, YOSHINORI

Professor of Supply Chain Management. B.S., 1987, Sophia (Japan); M.B.A., 1992, New York; Ph.D., 1998, Pennsylvania State.

SVEC, CHRISTINA L.

Associate Professor of Music and Theatre. B. Mus., 2005, North Texas; M.Mus., 2009, Michigan State.

SVENDSEN, LINDA K.

Emerita Teaching Professor of Food Science and Human Nutrition. B.A., 1981, Augsburg College; M.S., 1999, Iowa State.

SWAN, PATRICIA B.

Emerita Professor of Food Science and Human Nutrition. B.S., 1959, North Carolina (Greensboro); M.S., 1961, Ph.D., 1964, Wisconsin.

SWANDER, MARY L.

Emerita Professor of English; Distinguished Professor in Liberal Arts and Sciences. B.A., 1973, M.F.A., 1976, Iowa.

SWANNER SMITH, ELIZABETH

Associate Professor of Geological and Atmospheric Sciences. B.A., 2003, Mount Holyoke; Ph.D., 2011, Colorado.

SWIFT, ARTHUR G.

Emeritus Professor of Music and Theatre. B.M.E., 1957, M.M., 1960, Louisiana State; Ph.D., 1969, Iowa.

SWIFT, CURRAN STEWART

Emeritus Professor of Electrical and Computer Engineering. B.S., 1962, M.S., 1964, Ph.D., 1968, Iowa State.

SWOBODA, CATHERINE M.

Associate Teaching Professor of Horticulture. B.S., 2008, M.S., 2010, Iowa State.

SWOR, TAMARA

Clinical Associate Professor of Veterinary Clinical Sciences. B.S., 1995, North Dakota State; D.V.M., 1999, Iowa State.

T**T' HOEN, MEREDITH**

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., Missouri.

TABATABAI, LOUISA

Affiliate Professor of Biochemistry, Biophysics, and Molecular Biology. B.A., 1962, California (Berkeley); M.S., 1966, Ph.D., 1976, Iowa State.

TABATABAI, M. ALI

Emeritus Professor of Agronomy. B.S., 1958, Baghdad; M.S., 1960, Oklahoma State; Ph.D., 1965, Iowa State.

TABER, HENRY GLENN

Emeritus Professor of Horticulture. B.S., 1965, Cornell; M.S., 1969, Ph.D., 1972, Purdue.

TAKLE, GENE S.

Emeritus Professor of Agronomy; Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Aerospace Engineering; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1966, Luther; Ph.D., 1971, Iowa State.

TALBERT, JOEY

Associate Professor of Food Science and Human Nutrition. B.S., 2001, Virginia Technology; M.S., 2004, Ph.D., 2009, Cornell.

TAM, TIN-SHI

Professor of Music and Theatre. B.A., 1984, Chinese (Hong Kong); M.A., 1985, Wales; M.Sc., 1986, Durham; D.M.A., 1994, Michigan.

TAN, XIAOLI

Professor of Materials Science and Engineering. B.E., 1989, Xi'an Jiaotong (China); Ph.D., 2002, Illinois.

TAN CRET, MATTHEW

Assistant Teaching Professor of Computer Science. B.S.E., B.S., 2005, Iowa; M.S., 2008, Ph.D., 2015, Purdue.

TANATAR, MAKARIY

Adjunct Associate Professor of Physics and Astronomy. M.S., 1977, Pniproperovsk State University; Ph.D., 1981, Institute of Semiconductors, Acad. of SC.

TANG, LIANG

Associate Professor of Apparel, Events, and Hospitality Management. B.A., 2003, Beijing 2nd Foreign Language; M.A., 2006, Ph.D., 2009, Purdue.

TANG, LIE

Professor of Agricultural and Biosystems Engineering. B.S., 1989, Jiangsu; M.S., 1994, Zhejiang; Ph.D., 2002, Illinois.

TANK, KRISTINA

Associate Professor of School of Education; Associate Professor of Materials Science and Engineering. B.S., 2005, Michigan; M.ED., 2007, Ph.D., 2014, Minnesota.

TANNEHILL, JOHN C.

Emeritus Professor of Aerospace Engineering. B.S., 1965, M.S., 1967, Ph.D., 1969, Iowa State.

TAOUTEL, JEAN-PIERRE

Teaching Professor of World Languages and Cultures. B.A., 1989, Saint Joseph (Lebanon); M.A., 1993, Sorbonne Nouvelle (France).

TARARA, JULIE M.

Affiliate Associate Professor of Natural Resource Ecology and Management. B.A., 1990, B.S., 1990, Kansas State; M.Phil., 1993, Reading; Ph.D., 1998, Kansas State.

TARTAKOV, CARLIE C.

Emerita Assistant Professor of School of Education. B.A., 1963, California State (San Francisco); M.A., 1973, Massachusetts; Ph.D., 1995, Iowa State.

TARTAKOV, GARY M.

Emeritus Professor of Art and Design. B.A., 1963, M.A., 1966, Ph.D., 1969, California (Los Angeles).

TARTE, RODRIGO

Associate Professor of Animal Science. B.S., 1987, M.S., 1990, Ph.D., 1996, Iowa State.

TAVANAPONG, WALLAPAK

Professor of Computer Science. B.S., 1992, Thammasat (Thailand); M.S., 1995, Ph.D., 1999, Central Florida.

TAYEB AL, MOHAMMAD

Research Associate Professor of Electrical and Computer Engineering. Ph.D., 2009, Missouri University of Science and Technology.

TAYLOR, GARY D.

Professor of Community and Regional Planning; Director of the Community and Economic Development Program and Design Extension. B.S., 1985, Northwest Missouri State; J.D., 1988, Nebraska; M.C.R.P., 1996, Iowa State.

TAYLOR, PETER

Research Professor of Civil, Construction, and Environmental Engineering. B.Sc., 1982, Ph.D., 1995, Cape Town.

TAYLOR, ROD K.

Adjunct Instructor in Military Science and Tactics.

TAYLOR, STERLING E.

Emeritus Professor of Agronomy. B.S., 1966, Utah State; Ph.D., 1970, Washington (St. Louis).

TCHAPRAZOV, STOYAN

Associate Teaching Professor of English. B.S., 1998, American (Bulgaria); Ph.D., 2009, Minnesota.

TEAS, ROY KENNETH

Emeritus Professor of Marketing; Distinguished Professor in Business. B.S., 1969, Augustana (South Dakota); M.B.A., 1970, Ph.D., 1975, Oklahoma.

TEKESTE, MEHARI

Associate Professor of Agricultural and Biosystems Engineering. B.S., 1996, Asmara (Eritrea); M.S., 2000, Wageningen (The Netherlands); M.S., 2001, Wisconsin; Ph.D., 2006, Georgia.

TENER, JAMES R.

Emeritus Associate Teaching Professor of Music and Theatre. B.A., 1970, Iowa; M.Div., 1973, Yale.

TERPENNY, JANIS

Emerita Professor of Industrial and Manufacturing Systems Engineering. B.S., 1979, Virginia Commonwealth; M.S., 1981, Ph.D., 1996, Virginia Polytechnic.

TESFATSION, LEIGH S.

Emerita Professor of Economics; Emerita Professor of Mathematics; Emerita Professor of Electrical and Computer Engineering. B.A., 1968, Carleton; Ph.D., 1975, Minnesota.

TESHOME, YALEM

Adjunct Assistant Professor of World Languages and Cultures. B.A., 1985, Bennett College; M.A., 1994, North Carolina State; Ph.D., 2010, Iowa State.

TESSONNIER, JEAN-PHILIPPE

Professor of Chemical and Biological Engineering. B.Sc., 1999, M.Sc., 2001, Ph.D., 2005, Strasbourg (France).

THACKER, TYLER C.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1994, M.S., 1996, Ph.D., 2003, Brigham Young.

THANAWONGNUWECH, ROONGROJE

Affiliate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1989, Chulalongkorn (Thailand); M.S., 1994, Ph.D., 1998, Iowa State.

THIPPESWAMY, THIMMASETTAPPA

Professor of Biomedical Sciences. B.V.S.C., 1985, M.V.S.C., 1991, Agricultural Sciences, Bangalore (India), Ph.D., 1998, Liverpool (United Kingdom).

THOGMARTIN, WAYNE

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.A., 1990, California (San Diego); M.S., 1998, Arkansas; Ph.D., 2002, Southern Illinois.

THOMAS, CLAY

Assistant Teaching Professor of Management and Entrepreneurship. B.A., 2013, Chapman; M.A., 2015, Ph.D., 2021, Indiana.

THOMAS, JAMES A.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.A., 1960, St. Olaf; M.S., 1963, Ph.D., 1967, Wisconsin.

THOMAS, JERRY R.

Emeritus Professor of Kinesiology. B.A., 1963, Furman; M.A., 1964, Ed.D., 1970, Alabama.

thomas, joseph

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. Bachelor's, Master's, DVM, Iowa State.

THOMAS, REX ALLAN

Emeritus Professor of School of Education; Emeritus Professor of Computer Science. B.A., 1955, Iowa; M.A., 1961, Northern Iowa; Ph.D., 1970, Iowa State.

THOMPSON, ELIZABETH A.

Emerita Professor of School of Education; University Professor. B.A., 1965, Pomona; M.A., 1966, Stanford; Ph.D., 1981, California (Santa Barbara).

THOMPSON, JANETTE R.

Professor of Natural Resource Ecology and Management; Morrill Professor. B.S., 1981, Michigan Tech; M.S., 1984, Ph.D., 1991, Iowa State.

THOMPSON, MICHAEL L.

Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1974, Illinois; Ph.D., 1980, Ohio State.

THOMPSON, NANCY LYNN

Teaching Professor of Art and Visual Culture. B.F.A., 2001, M.F.A., 2008, Iowa State.

THOMS, ADAM

Associate Professor of Horticulture. B.S., 2006, Iowa State; M.S., 2008, Ph.D., 2015, Tennessee.

THOMSON, DANIEL

Professor of Animal Science. B.S., 1990, Iowa State; M.S., 1993, South Dakota State; Ph.D., 1996, Texas Tech; D.V.M., 2000, Iowa State.

THOMSON, JOHN ULAN

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; Emeritus Dean of the College of Veterinary Medicine. B.S., 1965, D.V.M., 1967, Iowa State; M.S., 1988, Northwest Missouri State.

THORNBURG, ROBERT W.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 1976, Tennessee; Ph.D., 1981, South Carolina.

THORNTON, ZOE

Associate Professor of Practice in School of Education. B.A., 1998, Iowa; M.S., 2011, Drake; Ph.D., 2015, Iowa State.

TIAN, JIN

Professor of Computer Science. B.S., 1992, Tsinghua (China); M.S., 1997, Ph.D., 2002, California (Los Angeles).

TIDGREN, KRISTINE

Adjunct Associate Professor of Agricultural Education and Studies. J.D., 1998, Texas.

TIM, UDOYARA S.

Associate Professor of Agricultural and Biosystems Engineering. B.E., 1981, Ph.D., 1987, Concordia (Canada).

TIMMS, LEO LOUIS

Emeritus Professor of Animal Science; Morrill Professor. B.S., 1978, Cornell; M.S., 1982, Ph.D., 1984, Wisconsin.

TOMER, MARK D.

Affiliate Associate Professor of Natural Resource Ecology and Management; Affiliate Associate Professor of Geological and Atmospheric Sciences. B.S., 1981, Montana; M.S., 1986, Montana State; Ph.D., 1994, Minnesota.

TOOMBS, JAMES PRITCHETT

Emeritus Professor of Veterinary Clinical Sciences. B.A., 1972, Iowa; D.V.M., 1976, Illinois; M.S., 1980, Minnesota.

TORREMORELL, MONTSERRAT

Affiliate Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1994, Autonomous (Spain); Ph.D., 1999, Minnesota.

TORRENCE, DAN

Adjunct Assistant Professor of Air Force Aerospace Studies. B.S., 2010, Upper Iowa; M.A., 2016, Webster.

TORRIE, MARGARET C.

Emerita Associate Professor of Human Development and Family Studies; Emerita Associate Professor of School of Education. B.S., 1969, M.Ed., 1971, Wayne State; Ed.D, 1976, Illinois.

TOTH, AMY LYNN

Professor of Ecology, Evolution, and Organismal Biology; Professor of Plant Pathology, Entomology, and Microbiology. B.A., 2000, Bard College; Ph.D., 2006, Illinois.

TOWNSEND, ANTHONY M.

Associate Professor of Information Systems and Business Analytics. B.A., 1979, Virginia; Ph.D., 1993, M.S., 1993, Virginia Polytechnic.

TRABUE, STEVEN

Affiliate Professor of Agricultural and Biosystems Engineering. B.S., 1985, Maryland; M.S., 1991, Ph.D., 1997, Florida.

TRAHANOVSKY, KATHLEEN

Emerita Adjunct Associate Professor of Chemistry. B.A., 1960, Emmanuel; M.S., 1962, Ph.D., 1969, Iowa State.

TRAHANOVSKY, WALTER S.

Emeritus Professor of Chemistry. B.S., 1960, Franklin and Marshall; Ph.D., 1963, Massachusetts Institute of Technology.

TRAJCEVSKI, GOCE

Associate Professor of Electrical and Computer Engineering. B.S., 1989, Sts. Kiril & Metodij (Macedonia); M.S., 1995, Illinois; Ph.D., 2002, Illinois.

TRAMP, NICOLE

Clinical Associate Professor of Food Science and Human Nutrition. M.S., Wisconsin-Stout, 2012.

TRAVESSET-CASAS, ALEJANDRO

Professor of Physics and Astronomy; Professor of Materials Science and Engineering. B.Sc., 1992, Ph.D., 1997, Barcelona.

TREDE, LARRY DEAN

Emeritus Professor of Agricultural Education and Studies. B.S., 1965, M.S., 1968, Ph.D., 1980, Iowa State.

TREMME, MICHELLE R.

Emerita Senior Lecturer in English. B.S.E., 1978, Central Michigan; M.A., 1983, Ph.D., 2003, Michigan State.

TREMME, ROBERT A.

Emeritus Professor of English. B.A., 1971, M.A., 1975, Ph.D., 1982, Iowa.

TRENBERTH, JAMES C.

Adjunct Assistant Professor of Music and Theatre. B.F.A., 1979, Santa Fe; M.F.A., 1982, Ohio.

TRENKLE, ALLEN H.

Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1956, Nebraska; M.S., 1958, Ph.D., 1960, Iowa State.

TREVISAN, GIOVANI

Research Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. Bachelor (DVM equivalent), 2009, Universidade do

Estado de Santa Catarina, Brazil; MBA, 2013, Fundação Getúlio Vargas, Brazil; Ph.D., 2020, Iowa State.

TRINGIDES, MICHAEL

Professor of Physics and Astronomy. B.A., 1977, Yale; Ph.D., 1984, M.S., 1984, Chicago.

TRINIDAD, YUDERKA

Assistant Professor of Civil, Construction, and Environmental Engineering. Master's, 2017, Ph.D., 2020, Iowa State.

TRINKLE, BRAD

Associate Professor of Accounting and Chair of the Department. B.B.A., 1992, M.A., 1995, East Tennessee State; Ph.D., 2006, Alabama.

TRIVEDI, ROHIT K.

Emeritus Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.Tech., 1960, Indian Institute of Technology; M.S., 1964, Ph.D., 1966, Carnegie Mellon.

TROEH, FREDERICK R.

Emeritus Professor of Agronomy. B.S., 1951, M.S., 1952, Idaho; Ph.D., 1963, Cornell.

TROPF, MELISSA

Clinical Associate Professor of Veterinary Clinical Sciences. M.V.S., Washington State; D.V.M., 2011, The Ohio State.

TROY, JARROD

Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2014, Iowa State.

TRULIN, DARRYL JON

Emeritus Associate Professor of Aerospace Engineering. B.S., 1961, Iowa State; M.S., 1963, Oklahoma State; Ph.D., 1968, Iowa State.

TSAI, ken

Associate Professor of Apparel, Events, and Hospitality Management. B.S., 2003, Iowa State; M.S., 2006, Texas Tech; Ph.D., 2013, Texas Tech.

TSAI, YU-MIN

Emeritus Professor of Aerospace Engineering. Dipl., 1957, Taipei Institute of Technology; Sc.M., 1962, Tennessee; Sc.M., 1964, Ph.D., 1967, Brown.

TSOU, JONATHAN Y.

Emeritus Professor of Philosophy and Religious Studies. B.A., 2000, Simon Fraser (Canada); M.A., 2001, Western Ontario (Canada); Ph.D., 2008, Chicago.

TUCHIN, KIRILL

Professor of Physics and Astronomy. B.Sc., 1996, M.Sc., 1998, Ph.D., 2001, Tel Aviv.

TUCKNESS, ALEX

Professor of Political Science and Chair of the Department; Professor of Philosophy and Religious Studies. A.B., 1994, Chicago; M.Phil., 1995, Cambridge; Ph.D., 1999, Princeton.

TUGGLE, CHRIS K.

Professor of Animal Science. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1981, St. Cloud; Ph.D., 1986, Minnesota.

TURHAN, BERTAN

Associate Professor of Economics. B.Sc., 2005, M.A., 2009, Sabanci (Turkey); M.A., 2011, Ph.D., 2015, Boston.

TURNER, TRACY

Associate Professor of Finance. B.A., 1990, California State (Sacramento); M.A., 1994, Colorado State; Ph.D., 2000, California (Davis).

TUTEJA, GEETU

Associate Professor of Genetics, Development, and Cell Biology. B.A., 2004, Boston; Ph.D., 2009, Pennsylvania.

TUTTLE, GARY L.

Emeritus Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1985, Iowa State; Ph.D., 1991, California (Santa Barbara).

TYAGI, AKHILESH

Professor of Electrical and Computer Engineering; Professor of Computer Science. B.E., 1981, Birla; M.Tech., 1983, Indian Institute; Ph.D., 1988, Washington.

TYE-WILLIAMS, STACY ANN

Associate Professor of English. B.A., 2001, Iowa; M.A., 2003, Wisconsin (Milwaukee); Ph.D., 2012, Nebraska.

TYLER, HOWARD DAVID

Professor of Animal Science; Assistant Dean of the College of Agriculture and Life Sciences. B.S., 1982, Illinois State; M.S., 1989, Ph.D., 1991, North Carolina State.

TYLKA, GREGORY L.

Professor of Plant Pathology, Entomology, and Microbiology; Morrill Professor; Director of the Iowa Soybean Research Center. B.S., 1983, M.S., 1985, California (Pennsylvania); Ph.D., 1990, Georgia.

TYNDALL, JOHN CHARLES

Professor of Natural Resource Ecology and Management. B.A., 1991, Western Michigan; M.S., 1996, Ph.D., 2003, Iowa State.

U

UEMURA, ETSURO

Emeritus Professor of Biomedical Sciences. D.V.M., 1965, Nippon; Ph.D., 1976, Wisconsin.

UHLENHOPP, ELDON KARL

Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine; Emeritus Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1972, M.S., 1986, Iowa State.

ULRICHSON, DEAN

Emeritus Professor of Chemical and Biological Engineering. B.S., 1962, Nebraska; M.S., 1963, Illinois; Ph.D., 1970, Iowa State.

UNDERBAKKE, ERIC

Associate Professor of Biochemistry, Biophysics, and Molecular Biology. B.S., 2001, Iowa State; Ph.D., 2008, Wisconsin.

unruh, daniel

Assistant Professor of Animal Science. Bachelor's, Bachelor's, Kansas State; Master's, Nebraska-Lincoln; Ph.D., Kansas State.

URBATSCH, ROBERT B.

Professor of Political Science. B.S., 2000, Iowa State; Ph.D., 2006, Harvard.

URE, CHERI J.

Emerita Associate Teaching Professor of Graphic Design. B.A., 1982, M.A., 1985, M.F.A., 1998, Iowa State.

V**VACHHANI, SHRADDHA**

Adjunct Assistant Professor of Materials Science and Engineering. Master's, Drexel; Ph.D., Georgia Institute of Technology.

VAKNIN, DAVID

Adjunct Professor of Physics and Astronomy. B.S., 1978, M.S., 1981, Ph.D., 1987, Hebrew (Israel).

VALENCIA, GERMAN

Emeritus Professor of Physics and Astronomy. B.S., 1983, University De Los Andes; M.S., 1985, Ph.D., 1988, Massachusetts.

VALENTINE, OLIVIA

Associate Professor of Art and Visual Culture. B.F.A., 2002, Rhode Island School of Design; M.F.A., 2010, School of the Art Institute of Chicago.

VALENZUELA-CASTRO, MARIA N.

Professor of Ecology, Evolution, and Organismal Biology. B.S., 1991, Los Andes (Columbia); M.A., 1995, Ph.D., 1999, New York (Stony Brook).

VALLIER, JANE E.

Emerita Adjunct Assistant Professor of English. B.A., 1963, Morningside; M.S., 1969, Iowa State; Ph.D., 1980, Colorado.

VAN DER VALK, ARNOLD

Emeritus Professor of Ecology, Evolution, and Organismal Biology. B.S., 1968, Windsor; M.Sc., 1970, Alberta; Ph.D., 1973, North Carolina State.

VAN DUSEN, BEN

Associate Professor of School of Education. B.A., 2003, California (Berkeley); M.Ed., 2004, Oregon; Ph.D., 2014, Colorado.

VAN LEEUWEN, JOHANNES

Emeritus Professor of Civil, Construction, and Environmental Engineering; Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Food Science and Human Nutrition. B.E., 1975, M.E., 1979, DENGR, 1988, Pretoria (South Africa).

VAN VERTLOO, LAURA R.

Assistant Professor of Veterinary Clinical Sciences. B.A., 2006, Luther College; D.V.M., 2010, Iowa State; M.S., 2015, Purdue.

VANAST, JOHN

Emeritus Professor of School of Education. B.S., 1967, M.S., 1970, Western Michigan; Ph.D., 1976, Minnesota.

VANAUKEN, HOWARD E.

Emeritus Professor of Management and Entrepreneurship; University Professor. B.S., 1972, M.B.A., 1974, Ph.D., 1980, Oklahoma.

VANCE, JUDY MARIE

Emerita Professor of Mechanical Engineering. B.S., 1980, M.S., 1987, Ph.D., 1992, Iowa State.

VANDERVEEN, RYAN

Affiliate Assistant Professor of Animal Science. B.S., 2004, South Dakota State; Ph.D., 2011, Iowa State.

VANDERZANDEN, ANN MARIE

Professor of Horticulture; Associate Provost for Academic Programs. B.S., 1988, Washington State; M.S., 1990, Cornell; Ph.D., 1994, Washington State.

VANDYK, JOHN K.

Adjunct Assistant Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1992, Dordt College; M.S., 1997, Ph.D., 2003, Iowa State.

VANGORP, DEBRA

Assistant Professor of Practice in School of Education. Ph.D., 1993, Iowa State.

VANITEN, RICHARD J.

Emeritus Professor of Philosophy and Religious Studies. B.A., 1957, Dubuque; M.A., 1961, Ph.D., 1964, Iowa.

VANLOOCKE, ANDREW

Associate Professor of Agronomy. B.S., 2007, Ohio State; M.S., 2009, Ph.D., 2012, Illinois.

VANN, ROBERTA

Emerita Professor of English. A.B., 1966, M.S., 1973, Ph.D., 1978, Indiana.

VANVELLER, BRETT

Associate Professor of Chemistry. B.Sc., 2006, McMaster (Canada); Ph.D., 2011, Massachusetts Institute of Technology.

VANWAARDHUIZEN, LAURA

Assistant Professor of Practice in Human Development and Family Studies. B.A., 2009, Grand View University; M.S.E., 2016, Drake.

VARDEMAN, STEPHEN B.

Emeritus Professor of Statistics; Emeritus Professor of Industrial and Manufacturing Systems Engineering; University Professor. B.S., 1971, M.S., 1973, Iowa State; Ph.D., 1975, Michigan State.

VARY, JAMES P.

Professor of Physics and Astronomy. B.S., 1965, Boston College; M.S., 1967, M.P.H., 1968, Ph.D., 1970, Yale.

VASWANI, NAMRATA

Professor of Electrical and Computer Engineering; Professor of Mathematics. B.Tech., 1999, Indian Institute of Technology (India); Ph.D., 2004, Maryland.

VAUGHN, ERIC MARTIN

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1986, M.S., 1990, Ph.D., 1994, Iowa State.

VEGA-GARCIA, SUSAN A.

Associate Professor, Library. B.A., 1980, M.A.L.S., 1992, Iowa.

VEGAS COMITRE, MARIA DOLORES

Clinical Assistant Professor of Veterinary Clinical Sciences. Master's, Master's, Royal Veterinary College.

VELA, JAVIER

Professor of Chemistry; University Professor. B.Sc., 2001, National Autonomous (Mexico); M.Sc., 2003, Ph.D., 2005, Rochester.

VENDITTI, VINCENZO

Associate Professor of Chemistry. Laurea, 2004, M.S., 2004, Ph.D., 2008, Universita' degli Studi di Siena (Italy).

VENKATA, SUBRAHMANYAM

Emeritus Professor of Electrical, and Computer Engineering. B.S., 1963, Andhra (India); M.S., 1966, Indian Institute of Technology; Ph.D., 1971, South Carolina.

VENKATAGIRI, HORABAIL

Associate Professor of Psychology. B.A., 1967, M.S., 1969, Mysore; Ph.D., 1977, Bowling Green.

VERGARA-LOPES-SERAO, NICOLAS

Assistant Professor of Animal Science. B.Sc., 2007, Federal University of Vicosa (Brazil); M.Sc., 2009, Federal University of Vicosa (Brazil); Ph.D., 2012, Illinois.

VERHOEVEN, DAVID

Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1997, Ph.D., 2006, California (Davis).

VERHOEVEN, JOHN

Emeritus Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, M.S., 1959, Ph.D., 1963, Michigan.

VESSONI-DE-LENCE, MARTA A.

Associate Teaching Professor of World Languages and Cultures. M.A., 2010, Iowa State.

VIATORI, MAXIMILIAN S. III

Professor of World Languages and Cultures. B.A., 1999, Missouri; M.A., 2000, Ph.D., 2005, California (Davis).

VIGIL, DENNIS R.

Professor of Chemical and Biological Engineering and Chair of the Department. B.S., 1985, New Mexico; M.S., 1986, Ph.D., 1990, Michigan.

VILLEGAS PICO, HUGO

Assistant Professor of Electrical and Computer Engineering. B.S., 2008, Universidad de las Fuerzas Armadas - ESPE; M.S., 2011, Iowa State; Ph.D., 2016, Purdue.

VINCENT, AMY LOUISE

Affiliate Associate Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1993, Western Kentucky; M.S., 1997, D.V.M., 2002, Ph.D., 2004, Iowa State.

VLECK, CAROL M.

Emerita Professor of Ecology, Evolution, and Organismal Biology. B.A., 1972, Pomona; M.S., 1974, Ph.D., 1978, California (Los Angeles).

VOGEL, DAVID L.

Professor of Psychology. B.A., 1993, M.S., 1995, Indiana; Ph.D., 2000, Florida.

VOGEL, JERALD MILO

Emeritus Associate Professor of Aerospace Engineering. B.S., 1962, M.S., 1965, Ph.D., 1971, Iowa State.

VOLKER, CAROL B.

Emerita Associate Professor of Human Development and Family Studies. B.S., 1956, M.S., 1979, Ph.D., 1985, Iowa State.

VOLLBRECHT, ERIK WARREN

Professor of Genetics, Development, and Cell Biology. B.A., 1985, Ph.D., 1997, California (Berkeley).

VONDRA, CARL FRANK

Emeritus Professor of Geological and Atmospheric Science; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, M.S., 1958, Ph.D., 1963, Nebraska.

VONGRABOW, RICHARD H.

Emeritus Professor of Music and Theatre. B.A., 1955, M.A., 1958, Ball State; D.M.A., 1972, Southern California.

VORST, KEITH

Associate Professor of Food Science and Human Nutrition. B.S., 1997, Purdue; M.S., 2002, Ph.D., 2005, Michigan State.

VOYTAS, DANIEL F.

Affiliate Professor of Genetics, Development, and Cell Biology. A.B., 1984, Ph.D., 1990, Harvard.

VRCHOTA, DENISE

Emerita Teaching Professor of Psychology. B.A., Northern Iowa; M.A., Ph.D., Iowa State.

VRENTAS, CATHERINE E.

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 2003, Pennsylvania State; Ph.D., 2008, Wisconsin.

W**WACKER, JOHN**

Emeritus Professor of Supply Chain and Information Systems. Ph.D., 1975, Wayne State.

WADE, NATHANIEL G.

Professor of Psychology. B.A., 1994, Wheaton College; M.S., 2000, Ph.D., 2003, Virginia Commonwealth.

WAGGONER, KATHLEEN M.

Emerita Associate Teaching Professor of Political Science. B.S., 1975, Wisconsin (Lacrosse); M.S., 1978, Ph.D., 1983, Iowa State; J.D., 1987, Drake.

WAGNER, MIMI MARIE

Emerita Associate Professor of Landscape Architecture. B.L.A., 1983, M.L.A., 1998, Iowa State.

WAHLER, BRANDON

Assistant Professor of Veterinary Clinical Sciences. DVM, The Ohio State.

WALDEMER, THOMAS PAUL

Teaching Professor of World Languages and Cultures. B.A., 1977, M.A., 1982, Ph.D., 1991, California (Santa Barbara).

WALLACE, ROBERT S.

Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 1981, Wilkes; M.S., 1984, Ph.D., 1988, Rutgers.

WALLEY, JUSTIN W.

Associate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 2001, Mount Union (Ohio); M.S., 2005, Miami (Ohio); Ph.D., 2009, California (Davis).

WALSH, THOMAS E.

Emeritus Associate Professor of Apparel, Events, and Hospitality Management. B.S., 1953, M.A., 1962, Michigan State; Ph.D., 1980, Iowa State.

WALTER, CLYDE K. JR.

Emeritus Professor of Supply Chain and Information Systems. B.S.E.E., 1964, Case Western Reserve; M.B.A., 1965, Ph.D., 1972, Ohio State; M.Engr., 1972, Pennsylvania State.

WALTON, AMY

Associate Teaching Professor of English. B.A., 2005, Northern Iowa; M.A., 2013, Iowa State.

WALTON, BARBARA JOYCE

Associate Professor of Art and Visual Culture. B.F.A., 1991, M.F.A., 1993, Iowa State; M.F.A., 1996, Drake.

WALTON, MARLEE A.

Associate Teaching Professor of Civil, Construction, and Environmental Engineering. B.S., 1984, M.S., 1991, Iowa State.

WANAMAKER, ALAN DAVID JR.

Professor of Geological and Atmospheric Sciences. B.A., 1997, M.A.T., 1998, New Hampshire; Ph.D., 2007, Maine (Orono).

WANG, CHENG

Assistant Professor of Electrical and Computer Engineering. Ph.D., Texas.

WANG, CHONG

Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Statistics. B.S., 2001, Peking (China); Ph.D., 2006, Cornell.

WANG, JIGANG

Professor of Physics and Astronomy. B.S., 2000, Jilin (China); Ph.D., 2006, Rice.

WANG, JING

Assistant Professor of Chemical and Biological Engineering. B.S., Peking; Ph.D., Chinese Academy of Sciences.

WANG, KAN

Professor of Agronomy. B.S., 1982, Fudan (China); Ph.D., 1987, Ghent (Belgium).

WANG, KEJIN

Professor of Civil, Construction, and Environmental Engineering. Anson Marston Distinguished Professor in Engineering. B.S., 1982, Hefei (China); M.S., 1985, Chinese Academy of Sciences (China); Ph.D., 1994, California (Berkeley).

WANG, QIAN

Associate Professor of Accounting. B.S., 2000, M.A., 2004, Wuhan (China); Ph.D., 2009, Kansas.

WANG, QIAN

Adjunct Assistant Professor of Food Science and Human Nutrition. Ph.D., 2011, Iowa State.

WANG, QUN

Adjunct Assistant Professor in Chemical and Biological Engineering; B.S., 2000, Zhejiang University of Technology (China); M.S., 2004, Ph.D., 2007, Wuhan (China); Ph.D., 2010, Kansas.

WANG, TAO

Associate Professor of History. B.A., 1994, M.A., 2001, Shaanxi Normal (China); Ph.D., 2012, Georgetown.

WANG, TONG

Affiliate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1988, Shenyang College of Pharmacy (China); M.S., 1992, Arkansas; Ph.D., 1998, Iowa State.

WANG, XIAOLU

Associate Professor of Finance. B.S., 1998, Fudan (China); M.Phil., 2000, Bergen (Norway); Ph.D., 2010, Toronto (Canada).

WANG, XINWEI

Professor of Mechanical Engineering. Anson Marston Distinguished Professor in Engineering. B.S., 1994, M.S., 1996, Science and Technology (China); Ph.D., 2001, Purdue.

WANG, YU

Associate Professor of Political Science. B.S., 2005, M.S., 2008, Shanghai Jiao Tong (China); Ph.D., 2014, Georgia Institute of Technology.

WANG, ZHAOYU

Associate Professor of Electrical and Computer Engineering. B.E., 2009, M.Sc., 2011, Shanghai Jiao Tong; M.Sc., 2012, Georgia Institute of Technology.

WANNEMUEHLER, MICHAEL

Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1974, Purdue; M.S., 1980, Idaho State; Ph.D., 1981, Louisville.

WARD, IRA J.

Emeritus Associate Professor of Civil, Construction, and Environmental Engineering. B.S., 1950, U.S. Military Academy; M.S., 1955, Iowa State.

WARD, JESSICA

Associate Professor of Veterinary Clinical Sciences. Assistant Dean of the College of Veterinary Medicine. B.S., 2005, Duke; D.V.M., 2011, North Carolina State.

WARE, WENDY

Emerita Professor of Veterinary Clinical Sciences; Emerita Professor of Biomedical Sciences. B.Mus., 1975, Westminster Choir College; D.V.M., 1982, M.S., 1986, Ohio State.

WARME, LOIS J. N.

Emerita Associate Professor of Art and Design. B.S., 1968, M.A., 1972, Iowa State.

WARTHEN, BRIAN

Associate Professor of Practice, Architecture. Bachelor's, Iowa State.

WATANABE, OLENA

Associate Professor of Accounting. B.S., 2007, M.S., 2007, Ph.D., 2012, Missouri.

WATERS, W. RAY

Affiliate Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1985, D.V.M., 1988, Auburn; Ph.D., 1996, Iowa State.

WATRELOT, AUDE

Assistant Professor of Food Science and Human Nutrition. Ph.D, 2013, Université d'Avignon et des Pays de Vaucluse.

WATT, JOHN

Adjunct Professor of Management and Entrepreneurship. Ph.D., 2002, Kansas State.

WEAVER, RYAN

Adjunct Assistant Professor of Ecology, Evolution, and Organismal Biology. B.S., 2013, Virginia Commonwealth; Ph.D., 2018, Auburn.

WEBER, ERIC

Professor of Mathematics and Chair of the Department. B.A., 1995, Gustavus Adolphus College; Ph.D., 1999, Colorado.

WEBER, MICHAEL JOHN

Associate Professor of Natural Resource Ecology and Management. B.S., 2005, South Dakota State; M.S., 2008, Illinois; Ph.D., 2011, South Dakota State.

WEBER-FEVE, STACEY

Associate Professor of World Languages and Cultures. B.A., 1999, Westminster; M.A., 2001, Ph.D., 2006, Ohio State.

WEEMS, CARL

Professor of Human Development and Family Studies and Chair of the Department. B.A., 1993, Florida State; M.A., 1995, Hollins; Ph.D., 1999, Florida International.

WEERASINGHE, ANANDA

Emeritus Professor of Mathematics. B.S., 1979, Colombo; Ph.D., 1986, Minnesota.

WEI, MEIFEN

Emerita Professor of Psychology. B.A., 1983, Soochow (Taiwan); M.A., 1985, Tunghai (Taiwan); M.A., 1998, Ph.D., 2000, Missouri.

WEINSTEIN, AMANDA

Associate Professor of Physics and Astronomy. A.B., 1996, Harvard; Ph.D., 2005, Stanford.

WEISS, DAVID

Emeritus Professor of Computer Science. B.S., 1964, Union College; M.S., 1974, Ph.D., 1981, Maryland.

WELK, GREGORY

Professor of Kinesiology. Distinguished Professor in Human Sciences. B.A., 1988, Illinois; M.A., 1989, Iowa; Ph.D., 1994, Arizona State.

WELLS, BETTY LYNN

Emerita Professor of Sociology and Criminal Justice. B.A., 1972, Emporia; M.A., 1974, Wyoming; Ph.D., 1980, Iowa State.

WELLS, GARY L.

Emeritus Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Kansas State; Ph.D., 1977, Ohio State.

WEN, ZHIYOU

Professor of Food Science and Human Nutrition; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1997, East China; Ph.D., 2001, Hong Kong.

WENDEL, JONATHAN F.

Professor of Ecology, Evolution, and Organismal Biology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1976, Michigan; M.S., 1980, Ph.D., 1983, North Carolina.

WENDELL, DENNIS C.

Emeritus Associate Professor, Library. B.S., 1967, Iowa State; M.A., 1969, Iowa.

WENINGER, QUINN R. A.

Professor of Economics. B.Sc., 1989, Alberta (Canada); Ph.D., 1995, Maryland.

WERBEL, JAMES D.

Emeritus Professor of Management and Entrepreneurship. B.A., 1972, M.S., 1974, Wisconsin; Ph.D., 1980, Northwestern.

WERSTEIN, KIRA M.

Associate Teaching Professor of Kinesiology. B.A., 2007, M.A., 2009, Northern Iowa; Ph.D., 2013, Iowa State.

WESTERMAN-BEATTY, JAN

Emerita Senior Clinician in School of Education. B.S., 1972, M.A., 1982, Ph.D., 1995, Iowa State.

WESTGATE, MARK E.

Emeritus Professor of Agronomy. B.S., 1974, M.S., 1977, Dayton; Ph.D., 1983, Illinois.

WESTORT, CAROLINE

Associate Professor of Landscape Architecture. B.A., 1986, Bowdoin; M.L.A., 1993, Harvard; Ph.D., 1998, Zurich (Switzerland).

WETSTEIN, MATTHEW J.

Associate Professor of Physics and Astronomy. B.S., 2001, Rutgers; Ph.D., 2009, Maryland.

WHEATLEY, JEFFREY

Assistant Professor of Philosophy and Religious Studies. B.A., 2011, Arizona State; M.A., 2014, Florida State.

WHEELER, ANDREA

Associate Professor of Architecture. B.A., 1988, Plymouth (UK); M.Phil., 1998, Oxford Brookes (UK); Ph.D., 2005, Nottingham (UK).

WHEELER, EMILY

Assistant Professor of Veterinary Clinical Sciences. Bachelor's, Rice; D.V.M., 2017, Tufts.

WHIGHAM, DAVID KEITH

Emeritus Professor of Agronomy. B.S., 1966, M.S., 1969, Ph.D., 1971, Iowa State.

WHISNANT, KERRY LEWIS

Emeritus Professor of Physics and Astronomy. B.S., 1976, Missouri (Rolla); Ph.D., 1982, M.S., 1982, Wisconsin.

WHITAKER, FAYE P.

Emerita Associate Professor of English. A.B., 1963, Lakeland; M.A., 1965, Western Michigan; Ph.D., 1974, Northwestern.

WHITE, BERNARD J.

Emeritus Professor of Biochemistry, Biophysics, and Molecular Biology; University Professor. B.S., 1958, Portland; M.A., 1961, Ph.D., 1963, Oregon.

WHITE, DAVID J.

Affiliate Professor of Civil, Construction, and Environmental Engineering. B.S., 1997, Missouri; M.S., 1999, Ph.D., 2000, Iowa State.

WHITE, GARY C.

Emeritus Professor of Music and Theatre; Distinguished Professor in Liberal Arts and Sciences. B.M.E., 1959, B.Mus., 1961, Kansas; M.M., 1964, Ph.D., 1969, Michigan State.

WHITE, PAMELA JUNE

Emerita Professor of Food Science and Human Nutrition; University Professor; Emerita Dean of the College of Human Sciences. B.S., 1972, M.S., 1974, Washington; Ph.D., 1981, Iowa State.

WHITE, ROBIN

Clinical Assistant Professor of Veterinary Clinical Sciences. D.V.M., Iowa State.

WHITE, WENDY S.

Associate Professor of Food Science and Human Nutrition. B.S., 1980, Cornell; RD, 1982, Massachusetts General; M.S., 1986, Ph.D., 1990, Cornell.

WHITEFORD, MICHAEL B.

Emeritus Professor of World Languages and Cultures; Emeritus Dean of the College of Liberal Arts and Sciences. B.A., 1967, Beloit; M.A., 1970, Ph.D., 1972, California (Berkeley).

WHITEHEAD, ROBERT

Associate Professor of Architecture. Associate Dean of the College of Design. B.Arch., 1993, Iowa State; M.Arch., 1997, Texas.

WHITHAM, STEVEN ALAN

Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1990, Iowa State; M.S., 1992, Ph.D., 1995, California (Berkeley).

WHITMER, JOHN M. JR.

Emeritus Associate Professor of Political Science. B.A., 1957, Wisconsin; M.A., 1959, Iowa; M.S., 1975, Ph.D., 1979, Iowa State.

WIBOWO, HARTANTO

Assistant Teaching Professor of Civil, Construction, and Environmental Engineering. B.Eng., 2007, Petra Christian (Indonesia); M.A.Sc., 2009, Carleton (Canada); Ph.D., 2013, Nevada (Reno).

WICKERT, JONATHAN ADAM

Professor of Mechanical Engineering; Senior Vice President and Provost. B.S., 1985, M.S., 1987, Ph.D., 1989, California (Berkeley).

WICKHAM, MARY JEAN

Adjunct Associate Professor of Aerospace Engineering. B.S., 1980, M.S., 1981, Iowa State; Ph.D., 1992, Minnesota.

WIDNER, TARA

Associate Teaching Professor of Psychology. B.S., 2002, Wisconsin (River Falls); M.S., 2006, Oklahoma State.

WIDRLECHNER, MARK P.

Affiliate Associate Professor of Horticulture; Affiliate Associate Professor of Ecology, Evolution, and Organismal Biology. B.S., 1977, Michigan State; M.S., 1980, Illinois; Ph.D., 1982, Minnesota.

WIE, BONG

Professor of Aerospace Engineering. B.S., 1975, Seoul National; M.S., 1978, Ph.D., 1981, Stanford.

WIECZOREK, DOUGLAS

Associate Professor of School of Education. B.A., 1996, New York (Geneseo); M.S., 2000, D'Youville; Ph.D., 2014, Syracuse.

WIEDENHOEFT, MARY H.

Professor of Agronomy and Interim Chair of the Department; Morrill Professor. B.S., 1980, Iowa State; M.S., 1982, Ph.D., 1986, Washington State.

WIERSEMA, JANICE A.

Associate Teaching Professor of Agronomy. B.S., 1977, M.S., 1984, Northwest Missouri; Ph.D., 2006, Iowa State.

WIGTON, MICHAEL

Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1990, Iowa State; M.A., 2012, Concordia.

WILEY, CAITLIN

Clinical Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 2009, D.V.M., 2013, The Ohio State; M.S., 2017, Iowa State.

WILFORD, MIKO

Associate Professor of Psychology. Bachelor's, Bachelor's, Master's, Ph.D., Iowa State.

WILGENBUSCH, ERIN E.

Teaching Professor of Greenlee School of Journalism and Communication. B.A., 1990, Clarke College; M.A., 1992, Drake.

WILHELM, JULIE A.

Associate Teaching Professor of World Languages and Cultures. B.A., 1982, Central College; M.A., 1999, Northern Iowa.

WILKEN, JAYME

Associate Teaching Professor of English. M.S., 2013, Iowa State.

WILLETTE, AURIEL

Assistant Professor of Food Science and Human Nutrition. B.A., 2002, Oberlin; M.S., 2006, Ph.D., 2010, Wisconsin.

WILLETTE, JACKIE

Clinical Assistant Professor of Veterinary Clinical Sciences. DVM, Michigan State.

WILLIAMS, DAVID LEWIS

Emeritus Professor of School of Education; Emeritus Professor of Agricultural Education and Studies; University Professor. B.S., 1959, Oklahoma State; M.S., 1965, Kansas State; Ed.D., 1969, Oklahoma State.

WILLIAMS, IAN

Assistant Professor of Geological and Atmospheric Sciences. B.S., 2005, M.S., 2007, Cornell; Ph.D., 2012, Chicago.

WILLIAMS, KYLE

Assistant Teaching Professor of Psychology. B.S., 2010, Kentucky; M.A., 2012, Union Institute and University (Ohio).

WILLIAMS, R. CHRISTOPHER

Professor of Civil, Construction, and Environmental Engineering. B.S.C.E., 1991, Vermont; M.S.C.E., 1993, Ph.D., 1996, Purdue.

WILLIAMS, SALLY KEMP

Emerita Professor of Human Development and Family Studies; Emerita Professor of School of Education. B.S., 1962, M.A., 1966, Michigan State; Ph.D., 1975, Pennsylvania State.

WILLSON, LEE ANNE

Emerita Professor of Physics and Astronomy; University Professor. B.A., 1968, Harvard; M.A., 1970, Ph.D., 1973, Michigan.

WILLSON, STEPHEN

Emeritus Professor of Mathematics; University Professor. A.B., 1968, Harvard; M.A., 1970, Ph.D., 1973, Michigan.

WILSEY, BRIAN J.

Professor of Ecology, Evolution, and Organismal Biology. B.S., 1986, Henderson State; M.S., 1988, Louisiana State; Ph.D., 1995, Syracuse.

WILSON, ALYSON

Affiliate Associate Professor of Statistics. B.A., 1989, Rice; M.S., 1990, Carnegie Mellon; Ph.D., 1995, Duke.

WILSON, COURTNEY

Associate Teaching Professor of Philosophy and Religious Studies. B.A.S., 2006, McMaster; Ph.D., 2015, Boston.

WILSON, DAVID BALL

Emeritus Professor of History; Emeritus Professor of Philosophy and Religious Studies. B.A., 1963, Wabash; Ph.D., 1968, Johns Hopkins.

WILSON, DOYLE EDWARD

Emeritus Professor of Animal Science. B.S., 1967, M.S., 1982, Ph.D., 1984, Iowa State.

WILSON, LENNOX N.

Emeritus Professor of Aerospace Engineering. B.A.Sc., 1953, M.A.Sc., 1954, Ph.D., 1959, Toronto.

WILSON, LESTER A.

Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1969, M.S., 1971, Oregon State; Ph.D., 1975, California (Davis).

WILWERDING, DAVID

Assistant Teaching Professor of Community and Regional Planning. B.S., 2000, Iowa State; M.P.A., 2010, Drake.

WINDOM, KENNETH

Emeritus Associate Professor of Geological and Atmospheric Sciences. B.A., 1972, West Georgia; Ph.D., 1976, Pennsylvania State.

WINDUS, THERESA L.

Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1988, Minot State; Ph.D., 1993, Iowa State.

WINER, ELIOT H.

Associate Professor of Mechanical Engineering; Associate Professor of Electrical and Computer Engineering; Director of the Virtual Reality Applications Center. B.S., 1992, Ohio State; M.S., 1994, Ph.D., 1999, New York (Buffalo).

WINFREY, KELLY

Associate Professor of Greenlee School of Journalism and Communication. Interim Director of Women's and Gender Studies. B.A., 2005, Emporia State; M.A., 2007, Missouri State; Ph.D., 2012, Kansas.

WINHAM, DONNA

Associate Professor of Food Science and Human Nutrition. B.S., Keene State; M.A., Arizona; Ph.D., California (Los Angeles).

WINSOR, DOROTHY A.

Emerita Professor of English. B.A., 1969, Aquinas; M.A., 1970, Michigan; Ph.D., 1979, Wayne State.

WINTER, ARTHUR

Professor of Chemistry. B.S., 2002, Frostburg State; Ph.D., 2007, Maryland.

WINTERS, JOHN

Professor of Economics. B.A., 2005, Mississippi State; M.A., 2007, Ph.D., 2009, Georgia State.

WINTERSTEEN, WENDY

Professor of Plant Pathology, Entomology, and Microbiology; President of the University. B.S., 1978, Kansas State; Ph.D., 1988, Iowa State.

WIPF, TERRY J.

Emeritus Professor of Civil, Construction, and Environmental Engineering. B.S., 1974, M.S., 1979, Ph.D., 1983, Nebraska.

WISE, ROGER P.

Affiliate Professor of Plant Pathology, Entomology, and Microbiology. B.S., 1976, Ph.D., 1983, Michigan State.

WISNER, ROBERT NEWELL

Emeritus Professor of Economics; University Professor. B.S., 1962, M.S., 1964, Michigan State; Ph.D., 1967, Tennessee.

WITHERS, JAMES H.

Affiliate Assistant Professor of Agricultural and Biosystems Engineering. B.A., 1984, Luther; M.S., 1989, Iowa; Ph.D., 2011, Iowa State.

WITHERS, JEREMY

Associate Professor of English. B.A., 1999, 2000, M.A., 2002, Cincinnati; Ph.D., 2008, Ohio State.

WITHERSPOON, BRENDA L.

Teaching Professor of Greenlee School of Journalism and Communication. B.S., 1990, Texas Christian; M.A., 1992, Canterbury (New Zealand).

WQ, XUHUI

Assistant Professor of Management and Entrepreneurship. B.S., 1998, Fudan; M.B.A., 2008, M.S.B.A., 2008, Ph.D., 2015, Central Florida.

WOHLGEMUTH, DARIN R.

Associate Teaching Professor of Economics. B.S.Ed., 1991, Kansas; M.S., 1993, Ph.D., 1997, Iowa State.

WOHLSDORF-ARENDT, SUSAN

Professor of Apparel, Events, and Hospitality Management; Professor of Food Science and Human Nutrition. Director of Iowa State Online. B.S., 1988, Iowa State; M.S., 1991, Rush; Ph.D., 2004, Iowa State.

WOLC, ANNA

Adjunct Assistant Professor of Animal Science. B.Sc., 2003, Poznan University of Life Sciences (Poland); M.Sc., 2005, Adam Mickiewicz University of Poznan (Poland); Ph.D., 2006, Poznan University of Life Sciences (Poland).

WOLF, JOHN WILLIAM CLARK

Professor of Philosophy and Religious Studies; Professor of Political Science. B.A., 1986, Oberlin College; M.A., 1989, Ph.D., 1993, Arizona.

WOLFF, MAREN

Clinical Assistant Professor of Food Science and Human Nutrition. Ph.D., 2018, Iowa State.

WOLFF, NORMA H.

Emerita Associate Professor of World Languages and Cultures. B.S., 1955, Butler; M.A., 1965, Michigan State; Ph.D., 1985, Indiana.

WOLFORD, DONALD J., JR.

Emeritus Professor of Physics and Astronomy. B.S., 1971, Rensselaer, M.S., 1974, Ph.D., 1978, Illinois.

WOLT, JEFFREY D.

Emeritus Professor of Agronomy. B.S., 1973, Colorado State; M.S., 1976, Ph.D., 1979, Auburn.

WOLTER, PETER T.

Associate Professor of Natural Resource Ecology and Management. B.S., 1985, Wisconsin (Stevens Point); M.S., 1990, New Hampshire; Ph.D., 2009, Wisconsin.

WOLTERS, TIMOTHY S.

Associate Professor of History. B.A., 1987, Notre Dame; M.A., 1996, Maryland; Ph.D., 2004, Massachusetts Institute of Technology.

WONG, DAVID

Professor of Veterinary Clinical Sciences and Chair of the Department. B.S., 1995, D.V.M., 1997, Michigan State; M.V.S.C., 2003, Virginia Polytechnic and State.

WONG, JOHN KONG-FAH

Emeritus Associate Professor of Marketing. B.A., 1974, William Penn; M.B.A., 1976, Virginia Polytechnic Institute; Ph.D., 1981, Alabama.

WONG, JOHNNY S.

Emeritus Professor of Computer Science. B.S., 1977, Hong Kong; M.S., 1981, Ph.D., 1986, Sydney.

WONGPIROMSARN, TICHAKORN

Assistant Professor of Computer Science. B.S., 2005, Cornell; M.S., 2006, Ph.D., 2010, California Institute of Technology.

WOO, LEE KEITH

Emeritus Professor of Chemistry. B.S., 1977, Harvey Mudd; Ph.D., 1984, Stanford.

WOOD, AARON

Associate Teaching Professor of Geological and Atmospheric Sciences. Ph.D., 2009, Michigan (Ann Arbor).

WOOD, CYNTHIA

Affiliate Associate Professor of Animal Science. B.S., 1979, Florida; M.S., 1982, Mississippi State; Ph.D., 1986, Iowa State.

WOOD, JONATHAN

Assistant Professor of Civil, Construction, and Environmental Engineering. B.S., 2011, M.S., 2012, Utah; Ph.D., 2016, Penn State.

WOOD, SHIRLEY JEAN

Emerita Associate Professor of Kinesiology. B.S., 1957, M.S., 1959, Indiana; Ph.D., 1971, Illinois.

WOODMAN, WILLIAM F.

Emeritus Professor of Sociology and Criminal Justice; University Professor. B.S., 1968, M.A., 1970, West Texas; Ph.D., 1972, Oklahoma State.

WOODS, BARBARA A.

Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1975, M.Ed., 1976, Alabama A&M; Ph.D., 1981, Iowa State.

WOOL, GREGORY J.

Associate Professor, Library. B.A., 1974, Texas; M.A., 1983, Indiana; M.L.S., 1985, Rutgers.

WORK, GEORGE PAUL

Professor of Music and Theatre. B.Mus., 1979, M.M., 1981, Eastman School of Music.

WOTEKI, CATHERINE E.

Professor of Food Science and Human Nutrition. B.S., 1969, Mary Washington College; M.S., 1972, Virginia Polytechnic; Ph.D., 1975, Virginia Polytechnic.

WRIGHT, ANN

Teaching Professor of Management. M.A., 1999, Upper Iowa.

WRIGHT, JAMES O.

Teaching Professor of Agricultural and Biosystems Engineering. M.S.E., 1993, Ed.S., 1999, Drake; Ph.D., 2003, Iowa State.

WRIGHT, MARK

Associate Professor of Mechanical Engineering. B.S., 2007, M.S., 2008, Ph.D., 2011, Iowa State.

WRIGHT, MICHAEL

Affiliate Assistant Professor of Food Science and Human Nutrition. B.S., 1984, M.S., 1986, M.B.A., 1990, Ohio State.

WU, CHENGDE

Associate Professor of Architecture. B.Sc., 2001, Yanbian University of Science & Technology; M.Sc., 2006, Myongji; M.C.S., Ph.D., 2017, Texas A&M.

WU, HUIQING

Associate Professor of Statistics. B.S., 1988, M.S., 1991, Beijing (China); Ph.D., 1997, Michigan.

WU, RUOYU

Assistant Professor of Mathematics. Ph.D., 2016, North Carolina (Chapel Hill).

WU, XIAOQING

Professor of Geological and Atmospheric Sciences. B.S., 1983, Hanzhou (China); M.S., 1986, Chinese Academia Sinica; Ph.D., 1992, California (Los Angeles).

WU, YUE

Professor of Chemical and Biological Engineering. B.S., 2001, Science and Technology of China; Ph.D., 2006, Harvard.

WU, ZHIJUN

Professor of Mathematics. B.S., 1982, M.A., 1985, Huazhong (China); Ph.D., 1991, Rice.

WULFEKUHL, ALLIE

Assistant Teaching Professor of Kinesiology. Bachelor's, Master's, Master's, Iowa State.

WURTELE, EVE S.

Emerita Professor of Genetics, Development, and Cell Biology. B.S., 1971, California (Santa Cruz); Ph.D., 1980, California (Los Angeles).

WYMORE, MATHEW

Assistant Teaching Professor of Electrical and Computer Engineering. Ph.D., 2019, Iowa State.

X**xia, wenjie**

Associate Professor of Aerospace Engineering. Ph.D., 2016, Northwestern.

XIANG, CHUNHUI

Associate Professor of Apparel, Events, and Hospitality Management. B.Sc., 2000, Beijing Institute of Clothing Tech; M.S., 2006, Ph.D., 2009, Cornell.

XIE, ZHIMIN

Associate Teaching Professor of Marketing. M.B.A., 2005, New York.

XIN, HONGWEI

Emeritus Professor of Agricultural and Biosystems Engineering; Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1982, Shenyang Agricultural; M.S., 1985, Ph.D., 1989, Nebraska.

XU, MINZHE

Assistant Professor of Marketing. Bachelor's, Shanghai Jiao Tong; Master's, Peking; Ph.D., Florida.

XU, WEIDONG

Research Assistant Professor of Biomedical Sciences. B.Sc., 1987, M.Sc., 1990, China Agricultural; Ph.D., 1997, Washington State.

Y**YAEGER, MICHAEL J.**

Professor of Veterinary Pathology. B.S., 1980, St. John's (Minnesota); D.V.M., 1984, Minnesota; Ph.D., 1991, Michigan State.

YAGER, SUSAN F.

Emerita Professor of English; Morrill Professor. B.A., 1978, M.A., 1981, Catholic; Ph.D., 1991, Pennsylvania.

YAN, JUE

Associate Professor of Mathematics. B.Sc., 1995, M.Sc., 1998, Jilin (China); Ph.D., 2002, Brown.

YANDEAU-NELSON, MARNA D.

Associate Professor of Genetics, Development, and Cell Biology. B.S., 1998, Drake; Ph.D., 2005, Iowa State.

YANG, AARON

Assistant Professor of Graphic Design. Bachelor's, 2011, South China; Master's, 2015, Hunan; Master's, 2017, Cincinnati; Ph.D., 2023, North Dakota State-Main Campus.

YANG, BING

Affiliate Professor of Genetics, Development, and Cell Biology. B.Sc., 1986, M.Sc., 1989, Southwest Forestry; Ph.D., 2000, Kansas State.

YANG, XIAO-BING

Emeritus Professor of Plant Pathology, Entomology, and Microbiology. B.A., 1982, M.S., 1985, China Agricultural; Ph.D., 1989, Louisiana State.

YANG, YANG

Assistant Professor of Biochemistry, Biophysics, and Molecular Biology. Ph.D., 2015, Minnesota.

YAO, YONGXIN

Adjunct Associate Professor of Physics and Astronomy. Ph.D., 2009, Iowa State.

YARGER, DOUGLAS N.

Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.S., 1959, Iowa State; M.S., 1962, Ph.D., 1967, Arizona.

YATES, STANLEY MARTIN

Emeritus Professor, Library. B.A., 1950, Ohio; M.A., 1952, Ph.D., 1961, M.L.S., 1962, Illinois.

YEARNs, MARY HOLT

Emerita Professor of Human Development and Family Studies. B.S., 1963, M.S., 1972, Ph.D., 1984, Iowa State.

YEUNG, EDWARD S.

Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. A.B., 1968, Cornell; Ph.D., 1972, California (Berkeley).

YIN, YANHAI

Professor of Genetics, Development, and Cell Biology and Chair of the Department. B.S., 1985, Sichuan; Ph.D., 1997, Scripps Research Institute.

YODER, CHAD

Affiliate Assistant Professor of Animal Science. B.S., 2008, Iowa State; M.S., 2010, North Carolina State; Ph.D., 2013, Iowa State.

YOON, ELLE HYUNJUNG

Assistant Professor of Management and Entrepreneurship. Bachelor's, Seoul Women's; Master's, Indiana (Bloomington); Master's, Florida; Ph.D., Georgia.

YOON, KYOUNG-JIN

Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1985, M.S., 1987, Korea; Ph.D., 1995, Iowa State.

YOST, BAMBI L.

Associate Professor of Landscape Architecture. B.S., 1993, Pennsylvania State; M.L.A., 2005, Colorado.

YOUNG, BING-LIN

Emeritus Professor of Physics and Astronomy. B.S., 1959, National Taiwan; Ph.D., 1966, Minnesota.

YOUNGS, CURTIS R.

Professor of Animal Science. Morrill Professor. B.S., 1981, Ph.D., 1985, Minnesota.

YU, CHENXU

Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Food Science and Human Nutrition. B.S., 1993, Nanjing (China); M.S., 1998, Dalian (China); Ph.D., 2003, Wisconsin.

YU, CINDY LONG

Professor of Statistics. B.S., 1995, Sichuan (China); M.S., 2000, Minnesota; Ph.D., 2005, Cornell.

YU, JIANMING

Professor of Agronomy. Director of Raymond F. Baker Center for Plant Breeding. B.S., 1994, Northwestern Agriculture and Forestry (China); M.S., 2000, Kansas State; Ph.D., 2003, Minnesota.

YUAN, LINGYAO

Associate Professor of Information Systems and Business Analytics. B.S., 2009, International Business and Economics (China); M.S., 2011, North Carolina (Charlotte); Ph.D., 2015, Indiana.

Z

ZABOTINA, OLGA

Professor of Biochemistry, Biophysics, and Molecular Biology. M.S., 1982, Kazan State (Russia); Ph.D., 1987, Kazan Institute of Biology (Russia).

ZACH, MIRIAM

Adjunct Assistant Professor of Music and Theatre. Ph.D., 1993, Florida.

ZACHARY, LOREN W.

Emeritus Professor of Aerospace Engineering. B.S., 1966, M.S., 1974, Ph.D., 1976, Iowa State.

ZAFFARANO, BIANCA A.

Emerita Clinical Associate Professor of Veterinary Clinical Sciences. BSN, 1979, Iowa; D.V.M., 1986, Iowa State.

ZAİKINA, YULIA

Associate Professor of Chemistry. B.S., 2005, Moscow State; M.S., 2005, Moscow State; Ph.D., 2008, Moscow State.

ZALESNY, RONALD JR.

Affiliate Assistant Professor of Natural Resource Ecology and Management. B.S., 1999, Minnesota; Ph.D., 2003, Iowa State.

ZAMBRENO, JOSEPH

Professor of Electrical and Computer Engineering. B.S., 2001, M.S., 2002, Ph.D., 2006, Northwestern.

ZARECHNYY, OLEG

Associate Teaching Professor of Aerospace Engineering. M.Sc., 2000, Dnepropetrovsk State; Ph.D., 2009, Texas Tech.

ZARECOR, KIMBERLY ELMAN

Professor of Architecture. B.A., 1996, Massachusetts; M.Arch., 1999, Ph.D., 2008, Columbia.

ZARLING, AMIE

Associate Professor of Human Development and Family Studies. B.S., 2005, Iowa State; M.A., 2008, Ph.D., 2013, Iowa.

ZEIGLER, LYNN JAY

Emerita Professor of Music and Theatre. B.Mus., 1969, Oberlin; M.M., 1971, Northwestern; Premier Pr, 1973, Conservatory, Geneva.

ZENTI, SARAH

Associate Professor of Practice, Interior Design. Bachelor's, Creighton; Bachelor's, Master's, Iowa State.

ZERBIB, SHIRA

Associate Professor of Mathematics. B.Sc., 2004, M.Sc., 2007, Ph.D., 2014, Technion-Israel Institute of Technology.

ZHANG, CHEN

Associate Professor of Information Systems and Business Analytics.
Master's, Bowling Green State; Master's, Wright State; Ph.D., Purdue.

ZHANG, HONGWEI

Professor of Electrical and Computer Engineering. B.S., 1997, Chongqing (China); M.S., Chongqing (China); Ph.D., 2006, Ohio State.

ZHANG, JIANQIANG

Professor of Veterinary Diagnostic and Production Animal Medicine. M.D., 1996, Beijing Medical University; M.S., 1999, Institute of Virology (Beijing); Ph.D., 2005, Kentucky.

ZHANG, LING

Associate Professor of Apparel, Events, and Hospitality Management.
B.A., 2003, Beijing Institute of Fashion Technology; M. FCS., 2008, Ph.D., 2016, Iowa State.

ZHANG, QIJING

Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1983, Shandong Agricultural (China); M.S., 1986, National Control Institute of Veterinary; Ph.D., 1994, Iowa State.

ZHANG, SHENGLAN

Associate Professor of World Languages and Cultures. B.A., 1992, Hebei Normal; M.A., 1997, Beijing Normal; M.A., 2002, Southern California; Ph.D., 2007, Michigan State.

ZHANG, SUNING

Associate Professor of Accounting. B.S., East China Normal; M.B.A., The Ohio State; Ph.D., 2007, Minnesota.

ZHANG, WEI

Associate Professor of Marketing. B.S., 1994, Tsinghua; M.S., 1997, Kansas State; Ph.D., 2001, Carnegie Mellon.

ZHANG, WENLI

Assistant Professor of Information Systems and Business Analytics.
B.S., 2007, Sichuan Normal (China); M.S., 2013, University of Electronic Science and Technology (China).

ZHANG, WENSHENG

Associate Professor of Computer Science. B.S., 1997, Tongji (China); M.S., 2000, Chinese Academy of Science; Ph.D., 2005, Pennsylvania State.

ZHANG, ZHAO

Affiliate Associate Professor of Electrical and Computer Engineering. B.S., 1991, M.S., 1994, Huazhong (China); Ph.D., 2002, William and Mary.

ZHAO, YAN

Professor of Chemistry. B.S., 1992, Lanzhou (China); Ph.D., 1996, Northwestern.

ZHENG, MAI

Associate Professor of Electrical and Computer Engineering. B.S., 2006, Qingdao (China); M.S., 2009, University of Science and Technology of China; M.S., 2015, Ph.D., 2015, Ohio State.

ZHENG, TIANSHU

Associate Professor of Apparel, Events, and Hospitality Management.
B.S., 2002, M.S., 2003, Ph.D., 2008, Nevada (Las Vegas).

ZHOU, LIN

Associate Professor of Materials Science and Engineering. B.S., 2001, Central South University, Changsha; Ph.D., 2006, Arizona State.

ZHU, DAN

Professor of Information Systems and Business Analytics; Professor of Computer Science. B.E., 1985, Beijing Polytech; M.S., 1988, Academia Sinica (China); Ph.D., 1995, Carnegie-Mellon.

ZHU, ZHENGYUAN

Professor of Statistics. B.S., 1997, Fudan (China); Ph.D., 2002, Chicago.

ZHYLYEVSKYY, OLEKSANDR

Associate Professor of Economics. B.A., 2000, M.A., 2002, Kiev-Mohyla Academy (Ukraine); Ph.D., 2008, Virginia.

ZIA, ROYCE K P

Affiliate Professor of Physics and Astronomy. A.B., 1964, Princeton; Ph.D., 1968, Massachusetts Institute of Technology.

ZIEGLER, LAURA

Teaching Professor of Statistics. B.A., 2004, Wayne State; M.A., 2006, Nebraska; Ph.D., 2014, Minnesota.

ZIMAN, ROXANNE

Assistant Teaching Professor of Art and Visual Culture. Bachelor's, Ryerson; Bachelor's, York; Master's, Toronto.

ZIMMERMAN, EMILY

Assistant Teaching Professor of Natural Resource Ecology and Management. B.S., 2011, Iowa State; M.S., 2013, Michigan, Ph.D., 2019, Iowa State.

ZIMMERMAN, JEFFREY J.

Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1978, Nebraska (Omaha); D.V.M., 1984, M.S., 1986, Ph.D., 1990, Iowa State.

ZIMMERMAN, ZORA DEVRNJA

Emerita Professor of English. B.A., 1967, Ph.D., 1974, New York (Buffalo).

ZOUGH, REZA

Professor of Electrical and Computer Engineering; Director of Center for Nondestructive Evaluation. B.S., 1982, M.S., 1983, Ph.D., 1987, Kansas.

ZOZ, STEVE

Associate Teaching Professor of Mechanical Engineering. B.S., 1989, M.S., 1991, Ph.D., 1994, Iowa State.

ZUCK, ROCHELLE

Associate Professor of English. Ph.D., 2008, Pennsylvania State.

ZUROWESTE, PETER

Associate Professor of Practice, Architecture. Master's, Harvard.

ZYTOWSKI, DONALD G.

Emeritus Professor of Psychology. A.B., 1952, Harris; M.S., 1957, Ed.D., 1965, Washington (St. Louis).

INDEX

A

A-Z Courses	873	Agronomy (AGRON)	911
About the Catalog	7	Air Force Aerospace Studies (AFAS)	925
Academic Conduct	42	Air Force Aerospace Studies Program	600
Academic Credit for Activity (on or off campus)	60	American Indian Studies (AM IN)	927
Academic Dishonesty	44	American Indian Studies Minor	601
Academic Dismissal	52	American Sign Language (ASL)	929
Academic Grievances and Appeals	37	Animal Ecology	122
Academic Help, Sources	22	Animal Ecology (A ECL)	930
Academic Probation	51	Animal Science	129
Academic Progress	33	Animal Science (AN S)	935
Academic Reinstatement/Renewal	57	Anthropology	601
Academic Standing	50	Anthropology (ANTHR)	950
Academic Warning	51	AP and CLEP Credit	13
Academics	33	Apparel, Events, and Hospitality Management (AESHM)	960
Accounting	252	Apparel, Events, and Hospitality Management Department	428
Accounting (ACCT)	875	Apparel, Merchandising, and Design	450
Accreditation and Administration	8	Apparel, Merchandising and Design (A M D)	966
Activity, Services, Building and Recreation Fee	17	Appeal of Academic Grievances	37
Actuarial Science	257	Appeal of Academic Status	57
Actuarial Science (ACSCI)	880	Application for Graduation, Undergraduate	41
Admissions	9	Arabic (ARABC)	974
Advanced Placement (AP) Program of the College Board	13	Architecture	308
Advertising	596	Architecture (ARCH)	975
Advertising (ADVRT)	881	Art and Design	312
Aerospace Engineering	346	Art Education (ARTED)	985
Aerospace Engineering (AER E)	882	Art History (ART H)	985
African and African American Studies	600	Articulation and Transfer Agreements	10
African and African American Studies (AF AM)	894	Associate of Arts (AA) Articulation Agreement	10
Agricultural and Biosystems Engineering (A B E)	895	Astronomy and Astrophysics (ASTRO)	988
Agricultural and Life Sciences Education	100	Astronomy Minor	731
Agricultural and Rural Policy Studies	103	Athletic Training	460
Agricultural Business	105	Athletic Training (A TR)	990
Agricultural Communication	107	Athletics	463
Agricultural Education and Studies (AGEDS)	904	Athletics (ATH)	995
Agricultural Engineering	349	Attendance, class	42
Agricultural Studies	109	Auditing a Course	56
Agricultural Systems Technology	112	B	
Agriculture and Life Sciences, College of	96	Bachelor of Liberal Studies	693
Agronomy	115	Bachelor's Degree, Two	33
		Beef Cattle Production Management Certificate	134
		Beverage Management Minor	536
		Biochemistry - College of Agriculture and Life Sciences	137

Biochemistry - College of Liberal Arts and Sciences	604	Classical Studies	632
Biochemistry and Biophysics	604	Classical Studies (CL ST)	1052
Biochemistry, Biophysics, and Molecular Biology (BBMB)	997	Classification (Freshman, Sophomore, Junior, Senior)	33
Bioinformatics and Computational Biology	610	Classification, resident/nonresident	17
Bioinformatics and Computational Biology (BCB)	1002	CLEP (College Level Examination Program)	13
Bioinformatics and Computational Biology (BCBIO)	1004	Climate Science	634
Biological Systems Engineering	355	College of Agriculture and Life Sciences	96
Biological/Pre-Medical Illustration	614	College of Business, Ivy	244
Biological/Pre-Medical Illustration (BPM I)	1005	College of Design	302
Biology - College of Agriculture and Life Sciences	143	College of Engineering	342
Biology - College of Liberal Arts and Sciences	619	College of Human Sciences	422
Biology (BIOL)	1006	College of Liberal Arts and Sciences	589
Biomedical Engineering	360	College of Veterinary Medicine	839
Biomedical Engineering (B M E)	1016	Communication Proficiency Policy	36
Biomedical Sciences	843	Communication Studies	638
Biomedical Sciences (B M S)	1018	Communication Studies (COMST)	1056
Biophysics	604	Community and Regional Planning	315
BLS, Bachelor of Liberal Studies	693	Community and Regional Planning (C R P)	1058
Bribery (Academic Dishonesty)	44	Community Development (COMDV)	1066
Business Administration	260	Community Development GPIDEA (C DEV)	1067
Business Administration (BUSAD)	1022	Computer Engineering	372
Business Analytics	266	Computer Engineering (CPR E)	1069
Business and Technology Consulting Minor	294	Computer Fee (Technology Fee)	17
Business, Curriculum	247	Computer Science	640
Business Economics	269	Computer Science (COM S)	1081
Business, Ivy College of	244	Computing Applications Certificate	645
C		Confidential Information	30
Cancel Registration	56	Construction Engineering	376
Catalog in Effect	33	Construction Engineering (CON E)	1098
Change Schedule Fee	17	Contact Hours	60
Changing a Grade	46	Continuation Examination, Music	711
Cheating (Academic Dishonesty)	44	Course Information	59
Chemical Engineering	364	Course Numbers	59
Chemical Engineering (CH E)	1026	Course Prerequisites	60
Chemistry	627	Credit, definition of	60
Chemistry (CHEM)	1031	Credit Limits	56
Chinese (CHIN)	1039	Credits Received During Military Service	10
Chinese Studies Minor	773	Criminal Justice	646
Civil Engineering	367	Criminal Justice (C J)	1100
Civil Engineering (C E)	1040	Critical Studies in Design Minor	304
Class Attendance	42	Cross-Listed Courses	61
Class Disruption, Response to	45	Culinary Food Science -College of Agriculture and Life Sciences	151

Culinary Food Science -College of Human Sciences	465
Cumulative Grade Point Average	45
Curriculum or Major, changing	33
Cyber Security	784
Cyber Security (CYBSC)	1103
Cyber Security Engineering	381
Cyber Security Engineering (CYB E)	1105
Cyber Security Minor	385
Cyber-Physical Systems Minor	386

D

Dairy Science	153
Dance	467
Dance (DANCE)	1105
Dance Minor	561
Data Science	648
Data Science (DS)	1107
Dean of Students	22
Dean's List	41
Deferred Payment	17
Degree Audit	33
Department Exams (Test Out Exams)	13
Design, College of	302
Design (DES)	1108
Design Studies	319
Design Studies (DSN S)	1109
Design Studies Minor	304
Designated Repeats, repeating a course	46
Developmental Course Fee	17
Diet and Exercise -College of Agriculture and Life Sciences	157
Diet and Exercise -College of Human Sciences	467
Dietetics - Graduate Program	786
Dietetics -College of Agriculture and Life Sciences	160
Dietetics -College of Human Sciences	471
Dietetics (DIET)	1111
Digital Media Minor	304
Dining services	16
Disciplinary Reprimand	44
Dishonesty, Academic	44
Disruption, Response to Classroom	45
Double Degrees	33
Double Major/Curriculum	33
Drop Limit	56

Dual Degree Program	89
Dual-listed Courses	61

E

Early Childcare Education and Programming	473
Early Childcare Education and Programming (E C P)	1114
Early Childhood and Family Policy (ECFP)	1120
Early Childhood Education - Unified	475
Earth Science	653
Ecology and Evolutionary Biology	789
Ecology and Evolutionary Biology (EEB)	1116
Ecology, Evolution, and Organismal Biology	657
Ecology, Evolution, and Organismal Biology (EEOB)	1116
Economics	658
Economics (ECON)	1121
Education (EDUC)	1131
Education Secondary	480
Educational Administration (EDADM)	1151
Educational Leadership and Policy Studies (EL PS)	1154
Electrical Engineering	386
Electrical Engineering (E E)	1156
Elementary Education	482
Employment, Part-time	21
Energy Systems Minor	390
Engineering, College of	342
Engineering (ENGR)	1169
Engineering Management	791
Engineering Mechanics	391
Engineering Mechanics (E M)	1171
Engineering Sales Minor	396
English	661
English (ENGL)	1175
English Requirement for Non-Native Speakers	825
Enrollment, validating	53
Entomology	163
Entomology (ENT)	1193
Entrepreneurship	271
Entrepreneurship and Innovation Graduate Certificate	792
Entrepreneurship (ENTSP)	1197
Entrepreneurship Minor	791
Entry Level Courses	61
Environmental Engineering	396
Environmental Engineering (ENV E)	1203

Environmental Science -College of Agriculture and Life Sciences	168	Genetics -College of Liberal Arts and Sciences	673
Environmental Science -College of Liberal Arts and Sciences	669	Genetics and Genomics	794
Environmental Science (ENSCI)	1204	Genetics, Development and Cell Biology (GDCB)	1253
Environmental Studies	672	Genetics (GEN)	1249
Environmental Studies (ENV S)	1216	Genetics (GENET)	1252
Equine Science and Management Certificate	134	Geographic Information Science Minor	304
Ethics Minor	727	Geology	677
Event Management	485	Geology (GEOL)	1256
Event Management (EVENT)	1220	German	775
Exchange Programs & Study Abroad	28	German (GER)	1266
Exercise Science Minor	561	Gerontology	525
Expulsion	44	Gerontology (GERON)	1269
F		Global Health Minor	163
Family and Consumer Sciences Education and Studies	490	Global Human Sciences Minor	529
Family and Consumer Sciences Education and Studies (FCEDS)	1223	Global Resource Systems	187
Family and Consumer Sciences, MFCS	498	Global Resource Systems (GLOBE)	1272
Family Financial Planning	499	Grade Change	46
Family Financial Planning (FFP)	1225	Grade Point Average (GPA)	46
Fashion Culture History and Social Justice Minor	456	Grade Posting	46
Feed Technology Minor	792	Grades, Release of	29
Fees, Tuition and	17	Grading	45
Finance	275	Graduate College	821
Finance (FIN)	1226	Graduate Programs	832
Financial Aid, Student	21	Graduate Studies (GR ST)	1276
Financial Counseling and Planning	501	Graduation	41
Food and Society Minor	175	Graduation Fee	17
Food Safety Minor	175	Graduation with Distinction	41
Food Science -College of Agriculture and Life Sciences	171	Graphic Design	321
Food Science -College of Human Sciences	504	Graphic Design (ARTGR)	1278
Food Science and Human Nutrition -College of Agriculture and Life Sciences	174	Grievances, Academic	37
Food Science and Human Nutrition -College of Human Sciences	507	H	
Food Science and Human Nutrition (FS HN)	1232	Health Coach Certificate	530
Forensic Sciences Certificate	793	Health Facility Fee	17
Forestry	178	Health Fee	17
Forestry (FOR)	1245	Health Insurance Fee	17
French	773	Health Promotion Minor	561
French (FRNCH)	1247	Health Studies (H S)	1285
Full Time Status	53	Healthcare Management	279
G		Healthcare Management (HCM)	1287
General Business Minor	244	Help with Academic Problems	22
Genetics -College of Agriculture and Life Sciences	183	High School Preparation for Admissions	9
		Higher Education (HG ED)	1289

History	680
History (HIST)	1292
Honor Societies	27
Honors (HON)	1303
